

CISCO IP PHONE 7942/62 Feature List

Feature	Description	7940/60	How to get this feature
Abbreviated dialing	This feature allows quick access to your speed dial list. This soft key appears after the first digit is dialed	Standard	To get this feature, make sure to configure your speed dial (Please see Speed Dial). If you are having any problems with this feature, please contact the Helpline at 7613
Auto answer	This feature enables the phone to answer any incoming calls automatically without you lifting the handset	Optional	To add Auto Answer on your phone, please contact your department's telephone coordinator
Busy Lamp Field (BLF)	This feature allows you to monitor the line state (in-use or idle) of a phone line associated with a speed-dial button, call log, or directory listing on your phone. The BLF feature does not prevent dialing; you can place a call to the line regardless of the BLF state.	Optional	To add this feature on your phone, please contact your department's telephone coordinator
Call Back	If you place a call and the line is busy, this feature will allow you to receive call back notification when the line becomes available	Optional	To add Call Back on your phone, please contact your department's telephone coordinator
Call Barge (cBarge)	This feature allows you to add yourself to non-private calls on a shared line. Barge features include cBarge and Barge. cBarge adds you to a call and converts it into a conference, allowing you and other parties to access conference features. Barge adds you to a call but does not convert it into a conference.	Optional	To add this feature on your phone, please contact your department's telephone coordinator
Call Park	This feature allows you to put a call on hold so you or some one else can retrieve it from another Cisco phone	Standard	To add Park on your phone, please contact your department's telephone coordinator
Call pickup	This feature allows you to answer a call that is ringing on a co-worker's phone by redirecting the call to your phone	Optional	To add Call Pickup on your phone, please contact your department's telephone coordinator
Call waiting	This feature allow you to receive a second incoming call on your phone line without disconnect your first call	Optional	To add Call Waiting on your phone, please contact your department's telephone coordinator
Caller ID	This feature enables the phone to display the telephone number and name of the caller	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Conference	This feature allows you to start an audio conferencing session where you can connect other participants one at a time	Standard	If you are having any problems with this feature, please contact the Helpline at 7613

Configurable call forward display	Allows you to specify information that appears on a phone when a call is forwarded. This information can include the caller name, caller number, redirected number, and original dialed number.	Standard	To configure this feature on your phone, please contact your department's telephone coordinator
Direct transfer	This feature allows you to connect two current calls to each while dropping you from the call	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Do Not Disturb (DND)	This feature allows you to block incoming calls from ringing on your phone. When DND is enabled, callers hear a busy tone and calls are not logged to your Missed Calls directory.	Optional	To add this feature on your phone, please contact your department's telephone coordinator
Extension Mobility Services (EM)	This feature allows you temporarily to apply your phone number and user profile settings to a share Cisco Unified IP phone by logging into the Extension Mobility service of that phone.	Optional	To add this feature on your phone, please contact your department's telephone coordinator
Forward	This feature allows you to redirect your incoming calls to another phone number	Standard	There are two ways to use Forward feature: 1. Go to MyConcordia portal and Click on Forward all calls to a different number. 2. Press Forward button on your phone and enter the extension number of the line you want to forward to.
Hold	This feature allows you to put an active call on hold	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Immediate Divert (iDivert)	This feature allows you to redirect your ringing call immediately to your voice message system, therefore making your line available to make or receive new calls	Optional	To add Immediate Divert on your phone, please contact your department's telephone coordinator
Join	This feature allows you to join two or more active calls creating an ad hoc conference call	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Malicious Call Identification	This feature allows you to notify your system administrator about suspicious or harassing calls that you receive.	Optional	To add this feature on your phone, please contact your department's telephone coordinator
Meet-Me conference	This feature allows you to enable other callers to join in a conference	Standard	To get Meet-Me conference feature, please contact your department's telephone coordinator
Message waiting	This feature indicates if one or more voice messages are waiting for you to check	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Multiple calls on directory numbers (lines)	This feature allows you to have more than one incoming call on your line. Please see call waiting	Standard	To add this feature on your phone, please contact your department's telephone coordinator

Music-on-hold	This feature plays music while you put your callers on hold	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Mute	This feature allows you to disable the audio input for your headset, handset, speakerphone, and external microphone, so that you can hear other parties on the call but they cannot hear you.	Standard	If you are having any problems with this feature, please contact the Helpline at 7613
Personal Address Book	This feature allows you to create a directory of personal contacts that you can access directly on your phone or from your User Options web pages.	Optional	To add this feature on your phone, please contact your department's telephone coordinator
