GRADING

Your grade for this course will be determined by your performance on several post-workshop summaries and a final report.

I. Post-Workshop Summaries (60%)

For each workshop that you take, you will be required to submit a post-workshop summary for evaluation.

Length of workshop	Length of each workshop summary	Worth
One-day workshop	Two pages (double spaced, 12 pt. font, 1" margins)	10% each
Two-day workshop	Four pages (double spaced, 12 pt. font, 1" margins)	20% each
Three-day workshop	Six pages (double spaced, 12 pt. font, 1" margins)	30% each
Due date: All summaries are due by 5pm, five working days after the workshop is completed		

Summaries must be submitted in Dr. Kanji's mailbox in the Political Science department on the 12th floor of the Hall Building. Graded summaries can be picked up from the TA during office hours and by appointment.

Please note: if you do not attend a workshop in its entirety, you cannot submit a post-workshop summary for that workshop.

The general objectives of these summaries are as follows:

1. To summarize what you have learned by attending the workshop.
2. To assess the implications of what you have learned for democratic governance, public policy, and/or research methodology.
3. To evaluate the added value of what you have learned for your current understanding of democratic governance, public policy, and/or research methodology.

Please use clear analyses, reasoning, and examples in order to address all three objectives.

More specific guidelines for these post-workshop summaries can be found in Appendix B.

2. Final Report (40%)

At the end of the term (on June 26th, 2017 by 5pm), you will be required to submit a final report (no more than 20-25 double-spaced pages).

The final report must be submitted in Dr. Kanji's mailbox in the Political Science department on the 12th floor of the Hall Building.

The core objective of this final report will be as follows:

Inspired by what you have learned through your participation in the WSSR, discuss and demonstrate how future generations might improve (or contribute to) democratic governance, public policy, and/or research methodology.

More specific guidelines for the final report can be found in Appendix C.

PLAGIARISM

The most common offense under the Academic Code of Conduct is plagiarism which the Code defines as **“the presentation of the work of another person as one’s own or without proper acknowledgement.”** (Academic Code of Conduct, Concordia University: Article 19a)

This could be material copied word for word from books, journals, internet sites, a professor’s course notes, etc. It could be material that is paraphrased but closely resembles the original source. It could be the work of a fellow student, for example, an answer on a quiz, data for a lab report, a paper or an assignment completed by another student. It might be a paper purchased through one of many available sources. Plagiarism does not refer to words alone - it can also refer to copying images, graphs, tables, and ideas. “Presentation” is not limited to written work. It also includes oral presentations, computer assignments and artistic works. Finally, if you translate the work of another person into French or English and do not cite the source, this is also plagiarism.

In Simple Words:

Do not copy, paraphrase or translate anything from anywhere without saying from where you obtained it!
