

Center for Studies in Behavioral Neurobiology (CSBN)

Fall 2022 Talks

(All talks take place in person in room SP 254-01 unless otherwise noted)

Date & Time	Speaker	Title
Thursday Sept. 22, 2022 4 PM Note: room SP 157	Uri Shalev Professor of Psychology CSBN Co-director Concordia University	<i>Relapse to substance use: What have we learned from animal models about the relevant brain mechanisms? (Hosted by the Concordia U. Dept. of Psychology)</i>
Friday Oct. 07, 2022 12 noon–1 PM	Dr. Becket Ebitz Principal Investigator of the Noise Lab Neuroscience Department Université de Montréal	<i>The neurobiology of mistakes.</i>
Friday Oct. 14, 2022 12 noon–1 PM	Lila Haleblian Master Student Health and Exercise Science Lab Concordia University	<i>Cerebellar circuitry in VPA.</i>
Thursday Nov. 03, 2022 4 PM Note: room SP 157	Dr. Laura Corbit Assistant Professor of Psychology and Cell & Systems Biology University of Toronto	<i>Diet-induced changes to striatal circuit function and implications for habitual behavioural control. (Co-hosted with the Concordia U. Dept. of Psychology)</i>
Friday Nov. 11, 2022 12 noon–1 PM Note: via Zoom	Caitlin Goodpaster PhD Student Laura DeNardo & Scott Wilke Labs UCLA	<i>Circuit dynamics of the adolescent medial prefrontal cortex during avoidance behavior.</i>
Friday Dec. 02, 2022 12 noon–1 PM	Omar Qureshi Post-doctoral fellow Mihaela Iordanova Lab, CSBN Concordia University	<i>Danger changes the way the brain processes information about innocuous events.</i>
Friday Dec. 09, 2022 12 noon–1 PM	Jacques Voisard Master Student Peter Shizgal Lab, CSBN Concordia University	<i>Parallel reward pathways in the rat brain.</i>
