NRE Household Interview 2001

Site	Person	Interview #	Question 53	Question 54
16	1	8	That it stays the same as it is now, eg., don't expand and use all technology stuff that brings "city" people in. Great place to raise kids as it is; more positive attributes contribute to society.	We have our library, our church, centre, supportive neighbours. Don't need anything to achieve. Stop residential growth, eg., no subdivisions. Additional comments: Hanging out on the 'streets' is not an option. Country kids are taught more about respect.
16	03	009	-hope that it stays the same - a nice little community with lots of little activities. -that's why we moved here; it's peaceful	-think about younger families and do more teenage kids -there's lots of fun days for little kids but not for teenagers
16	03	10	-like to see street lights -see brush picked up with garbage -want cable	-lowering the taxes (paying as much here as what it costs in the city despite the lack of services)
16	03	019	-Better roads is main concern -more community events like fireworks etc. -right now there's lots of church events but not a lot for the community as a whole (there's a great fair though)	-better roads, lots of potholes right now -paving is good but then people speed which isn't what they want. Don't want their community to become a shortcut for people just travelling through (then there's speeding)
16	1	23	I don't want to see us being nobodies. All the big people are in Lindsay. They should have left us alone. Hope that they don't destroy our community. We'll have nothing.	To get, maintain, to keep our town hall. It will take a lot of work and effort.
16	03	32	-don't want it to change too much -keep it like a community rather than a big city	-try getting the community centre working again -keep police and keep fire department updated as far as equipment etc.
16	03	034	-see decent local government in place -see Carden not treated as the poor country cousins	-same as Q53

			compared to people living in the city of Lindsay	
16	03	39	-that the City of Kawartha Lakes won't swallow us up and the services will become better	-get a balance with the quarries; there's gravel here, live with it. People who haven't lived here all their lives shouldn't complain. It's given lots of people here jobs. -maybe the quarries should do some publicity to fight back -bring the City together.
16	1	51	Hope that they un-amalgamate us (but not going to happen).	That everything is maintained the same; that amalgamation doesn't hurt us anymore.
16	03	062	-no more quarries, getting closer and big trucks ruin roads; loud, dirty -like to see taxi service because after 80yrs if you can't drive then what?	-taxi service – so older people have a means of getting around -more and more outsiders coming in so they don't have the family here to drive them around.
16	03	63	-more local employment -better roads/ nice if they grade them properly	-modernize – get out of the 50's and join the year 2000! (backwards beliefs, backwards ways, not willing to accept change or new things)
16	03	64	-tourists – get more of them -get condos like in Lagoon City	-don't know
16	03	077	-because they have amalgamated nothing is hoped for -don't like being called city of anything, makes no sense since they're hardly a city	-have more say as a community in local government decisions
16	03	90	-stays a small community -close knit	-preserve it for young kids coming in -keep it the way it is; no subdivisions
16	03	91	-remain the same and get back to the same services we were used to prior to the amalgamation	-good control over the expansion of the quarries -maintain and enlarge the recreation facilities
16	03	97	-stop gravel pits and leave us in peace -gravel trucks are bad dangerous drivers -save the lift locks from being ruined by gravel pits	-the same as mentioned in 53

			(vibration from blasting hurts lift locks) -trucks ruin roads and turning our area into a desolate landscape	
16	03	100	-hope Carden stays the way it is. -stays small with a community atmosphere. -progresses as much as it has in the past 10 years but without any problems.	-maintain the lake, the flora and fauna.
16	03	102	-stay the same...would like that	-make living in the community better – better roads, improve on pollution and just generally improve
16	1	103	Hope that we would have better services now that we are amalgamated. Get some younger blood, younger ideas in local leadership. They put in rules so that we can't fundraise by selling liquor; they take the money. Although the dump is closed people are still dumping their garbage there and it is piling up.	Increase local services, e.g., recycling more than once per month. Need high speed Internet access. Road service is terrible; must repair it.
16	03	109	-hope that it stays recreational as a community -hope we're not at the bottom of the foodchain when it comes the City of Kawartha Lakes -hope we don't lose recreation centre -concern that Carden will become overrun with quarries and a lot of the land is owned by the quarry people -roads are a problem because big trucks from the quarry are always on them	-take care of the environment – air, lakes, wetlands, Carden plains
16	03	123	-feel that Carden's a forgotten part of Kawartha Lakes because they don't shop in it or really act as part of it. (people shop in Orillia which isn't part of the new City) -want to be remembered by the city -that there would be more opportunities (work) for young people so that they would stay in the community instead of moving out	-to cultivate a business atmosphere so that the younger generation will stay. -as young people grow up, they marry and leave then come back when they're old

16	03	132	<ul style="list-style-type: none"> -improve the environment -possibly improve the roads 	<ul style="list-style-type: none"> -clean up the environment (ie lakes, quarries, garbage dumps) -quarry trucks are ruining the roads
16	03	133	<ul style="list-style-type: none"> -service is going down and moving to Lindsay -get some services back -the community centre is empty and the dump is too far 	<ul style="list-style-type: none"> -keep up with the environment -keep water and lake clean
16	03	136	<ul style="list-style-type: none"> -doesn't get any worse government wise, more things to do -used to be forgotten on the edge of Carden, now they're forgotten on the edge of the City 	<ul style="list-style-type: none"> -keep involved and not be forgotten by the city
16	03	153	<ul style="list-style-type: none"> -hope for a better community -- everything is good but things can always be better 	<ul style="list-style-type: none"> -to get out of amalgamation and get into something better -she knows it's only just begun but things need to be sorted out. -always fighting against quarries
16	1	158	<p>I'd like to see more basic services (bank machine, grocery store). But don't change the area. Make it more convenient; more services on the Sebright 4 corners.</p>	<p>Pursue the above, and leave it alone otherwise.</p>
16	03	164	<ul style="list-style-type: none"> -don't get anymore quarries which will ruin the water -get more facilities in the area so that we don't have to go so far: ie. Laundry mat -beautification of the roads so people can take pride in their area ie. Flowers and trees lining the roads. -road allowances and things like that aren't really well known or well understood by newcomers. These should be made known 	<ul style="list-style-type: none"> -make community more involved as a whole
16	03	166	<ul style="list-style-type: none"> -maybe people here would like it to grow but she hopes it doesn't 	<ul style="list-style-type: none"> -don't know

			<ul style="list-style-type: none"> -don't change -retain wilderness and farms and maybe a little development 	
16	03	184	<ul style="list-style-type: none"> -to have more facilities -more use of recreation centre -to fight the subdivision that might be going in behind their home -fight quarries from moving in 	<ul style="list-style-type: none"> -attempt to make their private road the responsibility of the municipality -feel that they pay taxes for nothing – have to do their own roads and walk their garbage down to the main road. Would like to see a change here -like to see a pool behind the community centre -put in a tennis court
116	03	205	<ul style="list-style-type: none"> -get rid of the quarries -not pro-development; don't want to see this place destroyed 	<ul style="list-style-type: none"> -keeping it basically the same as it is -if they are developing a few lots, regulate the size of the house according to the size of the lots so you don't end up with a huge home on a little lot -no more quarries
16	1	212	That we get our township back. How can a place be called a city with 72,000 people spread out and nobody is taking care of it?	We have the cohesion; it's hard to say. Virtually have everything.
16	03	214	<ul style="list-style-type: none"> -like to see more businesses come in so they didn't have to go so far for services 	<ul style="list-style-type: none"> -proper schools for kids -activities for kids -bring in new business and keep what we have
16	1	222	That the township should take over the snowplowing.	Pave/asphalt Rohallion Rd right to Brechin.
16	1	243	To save the friendliness of community.	More activities for the younger generation.
16	03	249	<ul style="list-style-type: none"> -goes back to its original running before it was taken over by the City 	<ul style="list-style-type: none"> -revert to previous levels of government
16	1	257	I'm happy the way things are, so long as my family is here.	
16	03	260	<ul style="list-style-type: none"> -hope they take care of the roads 	<ul style="list-style-type: none"> -keep taxes down -since amalgamation taxes have been raised a lot.

16	03	264	<ul style="list-style-type: none"> -always fighting with quarries to keep them out -hope to halt anymore growth in the quarry industry 	-growth in population
16	1	276	<p>Would like to see if stay as a relatively small community. Like to see some small, clean light industry come in to provide work. Hope they get long-term plan for land use around here. This is country, recreation area; don't get too messed up (quarries, condos, residential). Big is not necessarily better. Would like to see more for older people.</p>	<p>See a co-ordinated effort by some group with participation to determine what they want this community to be. Rather than government, or some splinter groups deciding. It should be on-going; not necessarily all at once. Also, should have control of the services used most around here; Lindsay doesn't always know where Carden is. A lot of the answers come from within the community itself. We must educate them.</p>
16	1	284	<p>It's already been changed. Hope that it can be changed from what it is now; it does not have community identity.</p>	<p>Government should be of the people, by the people, for the people. Remote government: we lose. Hope that we could develop localized community feeling within the current structure, eg., a name other than Ward 1.</p>
16	1	288	<p>Hope to get our library and the community centre</p>	<p>Keep the community centre</p>
16	03	296	<ul style="list-style-type: none"> -no more cottages on this lake -restrict water craft to under 10 horsepower on lake -that the lake doesn't disappear – save the lake and wildlife -stop aggregates – if they continue they should be forced to repair the roads at their expense 	<ul style="list-style-type: none"> -see #53 -quarries are most important thought, they must be curtailed because they are ruining the roads, increasing traffic and noise, raping the Caren Plain and its natural habitat, damaging Lake Dalrymple
16	03	299	<ul style="list-style-type: none"> -don't want it to disappear as a community -hold onto the atmosphere and what little community we have left -no more quarries but maybe more industry or a boost in tourism (economic boost) -want to be country and rural; that's the why they're here -don't want to become part of greater Orillia either 	<p>-keep their identity – small rural community.</p>

16	03	306	-couldn't think of anything	-at their age they don't have hopes for here. That's a question to ask the young
16	03	309	-hope it stays small	-get recreation facility where kids could go and play sports
16	03	313	-maintain and keep up the community centre -see library maintained and upgraded	-try and achieve a level of taxation that is comparable to the level prior to the amalgamation -keep new quarries out
16	03	314	-that it's here the next morning when I wake up	-like any small town, we're existing and at any moment the government could take it all away so we need to fight
16	03	315	-don't get lost in the larger community (City of Kawartha Lakes) -stays an entity unto itself – want to keep having a say and have support -see the recreation centre stay open -get financial support for the rec. centre	-some autonomy and independence -hope they continue to create groups that service the community
16	03	319	-bring the dump back -stays the way it is. That's why they moved here because it's quiet.	-get our old political system back (break it down into smaller communities again)
16	03	320	-would like Carden to take care of the roads because right now they're unassumed so have to pay their own snow removal	-keep community hall
16	03	326	-keep it the way it is -in favour of growth but not here -not happy about City but we're still Carden and we need to preserve that	-keeping it small and within us (not just run from above by the City of Kawartha's)
16	03	329	-doesn't matter to him what they do because he just comes to cottage and relax -just keep it as it is and don't over-develop it	-think they should be more open to people from the city (basically city people bring in money but are treated as outsiders and second best)

16	03	333	-hope it stays the friendly small community it has always been	-Carden is such a nice place to live. I would hope it would keep up the same atmosphere
16	03	340	-growth: more services available -get out of the back woods; it always seems so small	-policing, better garbage service (ie recycling) -controlling quarries and so many trucks on the roads due to quarries affects safety – they drive too fast and on the wrong side of the road to avoid potholes, the blasting shakes the house and affects the water table -need good restaurant here -get a little mall -more doctors
16	03	344	-that it won't go down hill with the new government	-maintain roads and garbage and recycling services
16	03	347	-it's a recreational area and I'd like it to stay that way -stay a nice community -get some more services -see lake enhanced	-try to preserve community spirit in the sense that we do care for our neighbours, their well being, and the state of our environment
16	03	355	-hope it stays rural -she likes that there are no businesses bugging her -hopes that she can still access the services of the municipal government with ease after amalgamation	-nothing, we like it here -better roads
16	03	356	-better library -to stop the aggregate quarries -to be more concerned about the environment than making money and selling land to quarries -try to protect lakes from becoming hazardous and learning from other townships mistakes	-protection of the local environment and wildlife
16	03	361	-hope it stays the same. I like it this way -sometimes she wishes things were a little closer but she likes how nice and quiet it is	-try a little growth such as bank or grocery store

16	03	368	-that they give me a road before I die	-more stores in the area for convenience -church closer
16	03	372	-more benefits -there needs to be better communication from the township as to where people can go if they have a problem. Don't know who to talk to right now	-independence from the City because right now they're not getting anything
16	03	373	-nice if recycling was more regular than once per month	-don't really know because amalgamation has just started so she doesn't know how things are going to turn out
16	03	377	-continue as a community; the fear is that with the loss of the library and community centre that it would be just a bedroom community. Want to stay a working community	-that we should keep the library and the community centre going and run by the community
16	03	385	-get the quarry issue settled so that different groups aren't fighting it. Get it over with so that it can be put behind them	-it would be nice to see some source of revenue to give people employment opportunities -make sure the recreation centre gets organized and run well -bring the township together more. Carden plains divides things
16	03	389	-get fish back in the lake	-get a stable tax base of some kind (but there's not a big future for industry here thought)
16	03	390	-like to see general stores in the area not just cater to the cottagers -keep the lake clean because cottagers are important -like to see all the different programs continue to flourish -don't loose public library, keep growing, keep being progressive -community growth -still identify with being rural and as a farming community	-like to see some type of seniors home so people who have lived here all their lives can stay here.

16	03	395	-like to see more recreational benefits	-better facilities and more choices for the kids to have things to do
16	03	400	-things remain the same	-keeping the community close to one another -work within ourselves with local contractors and development
16	03	404	-that they don't get too much snow -that it never changes much; stays the same old Carden	-it's hard to figure Carden out because it's so spread out, not like a central town or city so can't say.
16	03	407	-remain rural; he likes it simple	-create more local opportunities; we're so dependant on tourism that it's hard to make it as a year round business
16	03	422	-hope Carden stays the same -hope it can because he's pleased with the way it is -not sure the new City will support them in the same way they supported themselves (ie lose community centre)	-try to maintain it's current standards - what they have
16	03	427	-that the identity of Carden isn't swallowed up in the amalgamation -that the environment doesn't change (lake, air)	-keep community vital -add a seniors home so people can stay
16	03	439	-get big money from a quarry for our farm and then we can move	-get the dump back -get more services
16	03	443	-don't raise taxes anymore	-don't know
16	03	444	-make the water levels more constant -fix the road so that water doesn't come unto their property instead of into the ditch where it should go -get back the dump	-lake level controlled; it's 15ft below what it should be
16	03	446	-hope that the shopping area grows (department store ie. Walmart)	-keep quarries down -paving the roads around here

16	03	460	<ul style="list-style-type: none"> -like to have township take over our road -maximize or make best use of the tax dollars we get (think amalgamation will be a good thing) 	<ul style="list-style-type: none"> -not really anything
16	03	466	<ul style="list-style-type: none"> -remain as is 	<ul style="list-style-type: none"> -keep happy, stays the same -things will change no matter what – that’s life -preserve the quality of life in Carden
16	03	476	<ul style="list-style-type: none"> -stay a safe, healthy environment 	<ul style="list-style-type: none"> -to keep its own identity within the new city -to stay environmentally aware in the face of quarry influence
16	03	478	<ul style="list-style-type: none"> -taxes go down -bring dump back -hope there are no more quarries allowed around 	<ul style="list-style-type: none"> -should look further into recycling to work with dumps -get sewers put in
16	03	492	<ul style="list-style-type: none"> -hope we don’t get anymore gravel pits -would like to see business prosper 	<ul style="list-style-type: none"> -keep the environment the way it is because that’s a big problem around here with the quarries – they’re ruining it
16	03	500	<ul style="list-style-type: none"> -maintain environment in the area especially with quarries (ie shoreline, fish, quality of water) -it is important to preserve our library in this small community 	<ul style="list-style-type: none"> -not to be lost in the larger are because bigger isn’t always better -maintain a sense of community
16	03	502	<ul style="list-style-type: none"> -hope quarry doesn’t go in -don’t add more trailer parks -stay the same, maintain rural atmosphere -control population; not many more cottages on the lake (too many boats on the lake as is) 	<ul style="list-style-type: none"> -keep costs under control – maintain budget -keep taxes down; they’re paying for services they don’t use
16	03	510	<ul style="list-style-type: none"> -don’t want it to change too much -don’t want city influence -would like to have a bank machine -bigger police presence 	<ul style="list-style-type: none"> -be more fiscally responsible for our own tax dollars so we aren’t always doling out to others -more financially stable so we could keep resources we have (ie community centre)

			<ul style="list-style-type: none"> -better fire department -like to see it flourish but not turn into a city 	
16	03	512	<ul style="list-style-type: none"> -would like to see a thriving community centre and thriving recreational centre -seniors home started here so seniors can stay -see library up and running again 	<ul style="list-style-type: none"> -community centre up and running and programs will follow from that -the fair is a good start
16	03	513	<ul style="list-style-type: none"> -stays the same -don't need any development here. More services would be nice but that brings bad things as well as good 	<ul style="list-style-type: none"> -improve roads but don't really need to achieve anything -improve waste disposal – recycling only once per month problematic
16	03	515	<ul style="list-style-type: none"> -hope that the farming industry will improve; know it's difficult but it's the pillar of they're society and they need to get the proper support to keep it going 	<ul style="list-style-type: none"> -difficult to answer because he's not aware of the community's aspiratoins
16	03	519	<ul style="list-style-type: none"> -hope the city of Kawartha Lakes can do something for Carden instead of the other way around 	<ul style="list-style-type: none"> -control quarries
16	03	526	<ul style="list-style-type: none"> -supporting the quarries because that gives employment for the younger generation -have active community centre -support everyone who wants to start a business so that young people will have something to stay for -more jobs and more money for everyone 	<ul style="list-style-type: none"> -depends on government and they're working on that -want to see community centre thrive -want to see church continue (young people aren't going now so would like to see that thrive) -make a better community for people that live here
16	03	533	<ul style="list-style-type: none"> -like to see it go back to 2 tier government (not amalgamated) -think it would be better for us 	<ul style="list-style-type: none"> -self preservation – between the quarries and the new government they're eating us up -our money should go where our services are from (Orillia)
16	03	535	<ul style="list-style-type: none"> -don't know 	<ul style="list-style-type: none"> -depends on how left out we get from amalgamation to what Carden should do -also because we're so spread out it's hard to know what's good for everyone -taxes reduced

16	03	538	<ul style="list-style-type: none"> -to remain the same; don't want to see any major changes -would like to see realestate prices go up 	-good water (wells, clean water systems)
16	03	539	<ul style="list-style-type: none"> -taxes go down and get more services 	-that same as question 53
16	03	547	<ul style="list-style-type: none"> -that they get a new dump – waste management needs to be looked at 	<ul style="list-style-type: none"> -watch how they preserve the land. Shouldn't sever all the farm land up for tourists -not all turned into quarries for greed
16	03	548	<ul style="list-style-type: none"> -that it doesn't expand too much and it stays rural -that we get more services or more easily accessible services -improve roads -at least have a central point where the City can know who services what and have a place where people can call or go to find these things out 	-need our own identity and be known as a community on our own and not just as part of the City of Kawartha Lakes
16	03	550	<ul style="list-style-type: none"> -no real opinion because she's so busy with work that there's no time to socialized and be involved 	NA
16	03	559	<ul style="list-style-type: none"> -that it will stay the same – peaceful and quiet 	-to maintain services that we've always had (ie roads, library, garbage)
16	03	563	<ul style="list-style-type: none"> -get back to our own self government -don't want to be forgotten in the larger area 	<ul style="list-style-type: none"> -keep fall fair and make it bigger -don't want to see business come in because mainly we're a farming community -self government
16	03	566	<ul style="list-style-type: none"> -never really thought about it 	<ul style="list-style-type: none"> -need to keep people more informed (don't know where the dump even is now) -want dump back
16	03	578	<ul style="list-style-type: none"> -that it can retain it's charm and not get dragged into modernization with quarries 	-do more for the kids
16	03	584	<ul style="list-style-type: none"> -stays as a small community -hope it stays wild and undeveloped (don't want 	<ul style="list-style-type: none"> -discourage development -keep lake from being polluted (keep it clean)

			aggregate guys out here)	
16	03	588	-stay exactly the way it is and have the new politicians leave it alone	-keep the hall and park and maintain tax structure – they shouldn't have to support Lindsay
16	03	590	-hope it would be as good or better as what it has been in the last 10yrs. (ie roads, the lake, environment – been good in the last few years but fear things will suffer with amalgamation)	- need to replace fish stock in lake and keep clean - - that's the main income so we need to take care of it -- -need to build a seniors home so elderly can stay here and not be moved far from family and friends
16	03	603	-like to see it stay the way it is. Not any bigger or busier -even the changes in the last 20yrs are unbelievable and that's why people move here – for peace and quiet	-get something for younger people and kids – it used to be like a retirement community but now there are more children so we need more for them in the form of programs
16	03	604	-don't want it to become too developed -maintain quality of lake and return it to a better quality	-the lake (maintain and improve) -maintaining natural resources -maintain a sense of small community -change is good but only to a certain degree
16	03	606	-hope it remains a viable little community like it is now	-after amalgamation we hope that we are kept part and don't want to lose touch -that the city doesn't lose touch with local concerns
16	03	610	-like it if it didn't change much -don't want too much rif-raf -stay quiet	-keeping our lake clean -keep our water clean and safe -stays the way it is -keep an eye on the quarries
16	03	611	-get some businesses around here and bring the tax base down -the services are not a lot for what you pay for	-don't want to see a lot more changes around the lake (the lake isn't big enough to support much more) -residential development should be limited

16	03	612	-hope they go back on their own – no city	-better road service -keeping community centre open
16	03	615	-better roads -better police service -ambulance service needs improvement also	-see question 53 -happy with the community as it is just want more services
16	03	624	-stay the same as they are with the closeness and friendliness	-keeping our water safe -cleaning up the lake
16	03	626	-like to see them have a school here -a couple of stores instead of having to go to Orillia -don't have a lot for kids to do. Need more available for them	-getting a school here
16	03	629	-it would be nice for young people moving in if they had an industry here -good weather -the older generation is just happy with the way it is but the young people all leave for elsewhere	-wouldn't know -keep the lake clean cause that's all they've got around here
16	03	636	-hope it becomes Carden once again instead of city -hope we can get support from MNR for replenishing fish -continue all volunteer and community events	-want dump back -want fish replenished -want a closer police department -keep recreation centre open and the library
16	03	639	-difficult because we don't know what's going to happen with amalgamation -don't mess around with roads and services we do have over here	-hard because Carden's no longer in existence – before we know what direction we're taking with the city it's hard to say.
16	03	640	-hope it expands and gets built up. -We need industry but the environment needs to be preserved at the same time	-protect the natural resources
16	03	645	-big concern is water level and the amount of weeds	-the water (see question 53)

			<p>and phosphate in water</p> <p>-should start enforcing for amount of leaching into lake</p> <p>-more restrictions put on approvals of septic systems</p>	
16	03	654	<p>-like to see more stuff at the Carden community centre for kids, teenagers, and adults. Need dances pr something especially in the winter when you don't want to go all the way to Orillia</p>	<p>-same as #53</p>
16	03	657	<p>-hope that the new government will work out for our benefit and the benefit of others (other municipalities)</p>	<p>-upkeep of the roads; in need of a lot of attention</p>
16	03	658	<p>-more control over stray dogs (on weekends especially with proper scoopers)</p> <p>-reinstating community hall and library to the community</p>	<p>-would like to see self government back but it won't happen</p> <p>-becoming a more acknowledged part of Kawartha Lakes and having a greater say in what happens to us</p>
16	03	681	<p>-not much since amalgamation is hoped for</p> <p>-hope they keep library and community centre</p>	<p>-get rid of the City of Kawartha Lakes</p>
16	03	682	<p>-stay the same</p> <p>-don't know how she could improve it</p>	<p>-don't understand new government – not as accessible as it should be for older people who are less mobile (needs to be improved and made more accessible)</p>
16	03	694	<p>-more activities for the recreation centre that's always empty</p>	<p>-have a seniors home for all of the elderly people who lived here all their lives and don't want to leave</p> <p>-maybe a golf course too</p>
16	03	696	<p>-that we are not forgotten because we are so far away from Lindsay.</p> <p>-that the community continues to grow for the better</p>	<p>-that we do not become a forgotten by the City</p> <p>-that what we accomplish is acknowledged by others outside the community</p>
16	03	700	<p>-like them to clean up the water (ie septic systems)</p> <p>-all people should have a proper, inspected septic system. No holding tanks especially with wells and lakes</p>	<p>-water and septic issue</p> <p>-there needs to be protection for people when they buy a home because they were just told the property had been approved and then had to pay for septic</p>

			-we've seen Walkerton	problems later when they realized the truth (system bypassed and being dumped into the lake)
16	03	702	-like to see more recreational things for the kids -more places for kids to go and things to do (used to be dances) -get better services from the mayor for what we pay for taxes	-better facilities – roads, better busing for schools (kids shouldn't have to walk to the highway, should get picked up at their house) -get more people involved in things
