

Site	Person	Interview #	Question 53	Question 54
2	2	7	Twillingate to develop into a major tourist center. This should be achieved with a large-scale plan. In addition, re-open fish plant, creating employment opportunities which would keep people and money in Twillingate. Increased promotion is needed to insure tourism is a viable industry.	Increase employment opportunities (e.g. fish plant or tourism). More employment opportunities would increase the number of people who would remain in Twillingate. This would increase businesses and importance of the hospital. This would allow the community to expand.
2	2	118	Twillingate needs an increase in employment opportunities. More activities for children, especially for winter season.	Increased employment opportunities.
2	2	61	Re-open fish plant to increase employment. Increase make-work projects.	Increased employment opportunities.
2	2	29	Development in industry is needed. Increase employment opportunities. More development in educational and health care systems.	Increase full-time employment, not make-work projects.
2	2	140	Increase employment opportunities (e.g., re-open fish plant). Increase level of service at hospital.	Re-open fish plant to create more jobs.
2	2	13	Some industry to provide employment opportunities. With increased employment would come increased businesses and services; Increase the supply of good, safe, drinking water. Increased health care (e.g., more doctors, better services)	Bring hospital and health care services back to a level as it was in 1970's and 1980's. Services have declined dramatically from 1990's onward. People are dying waiting to go elsewhere for treatment.
2	2	66	Increase employment opportunities, especially for younger generation. This would allow younger people to stay in Twillingate, rather than leave the area to find work. Increased services for the hospital, as it is very expensive to travel out of Twillingate for treatment and tests.	Increased services in health care.
2	2	32	Increase employment to insure community stays operational.	Increased employment opportunities (e.g., re-open fish

				plant).
2	2	95	Invest more capital in tourism industry. Increase government grants/funding for summer businesses and for construction of walking trails to attract tourists, thereby boosting the economy. Decrease dependence on Social Services by increasing employment.	Increase employment opportunities. Increase government grants and make-work projects.
2	2	45	Increase employment opportunities to allow out-migration to decrease and keep families in Twillingate. Community center for High School students. Decrease gas prices. Increase services (e.g. stores).	Increase employment opportunities (e.g., re-open fish plant)
2	2	87	Increase employment, re-open fish plant, increase businesses would insure that residents could remain in Twillingate and would not have to move away to find employment.	Creation of jobs.
2	2	124	Increase employment opportunities. This would help keep younger population from having to move away.	To create more jobs which would insure that residents would remain in the community. Those who have been forced to leave for employment could return.
2	2	15	Increase employment as it was about 20 years ago. Decrease out-migration, especially of younger population. More stable Health Care system.	Creation of a business which would promote economic growth and increase employment opportunities. Improve tourist attractions.
2	2	154	Increase employment; re-open fish plant to increase the number of jobs within Twillingate. This would allow the fish caught in Twillingate to be processed there. Increase medical services.	Re-open fish plant to create more jobs in Twillingate.
2	2	150	Better Health Care is needed (e.g, you presently cannot have a baby in Twillingate). Increased employment opportunities.	Re-open fish plant so fish caught in Twillingate can be processed there.
2	2	164	Community to grow in services and population.	Community to work together to increase employment opportunities (e.g., re-open fish plant).
2	2	92	Increase stable employment; this could be done through the development of industry. Cleaner drinking water. Improvements in High School course offerings (e.g.,	Increased employment. It is becoming a “senior’s community” and summer community for tourists. Youth are having to leave.

			presently it is difficult to get courses such as advanced math and chemistry for high school; these are courses that are needed for acceptance to University). Increase number of businesses because residents have to travel over an hour for goods and services. More medical services are needed in the community. Residents have to travel to Grand Falls, Gander and St. John's for medical tests and treatments (e.g. mamogram, CT Scan). This would decrease waiting periods. There are no OBGYN or surgical services in Twillingate. Very little for teenagers to do (only hockey in winter). Like to see the pool opened year-round and a youth community center. Increases summer employment for youth (grants have been cut back this year). Reseed gravel pits to make more green spaces. Some post-secondary education.	
2	2	245	Re-open fish plant to increase employment. Increase healthcare services (surgical). Most people have to leave town for their surgeries.	Come up with a plan that will keep the youth in Twillingate.
2	2	17	Re-open the fish plant. Slow down out-migration	Increase employment in Twillingate.
2	2	50	Increased employment.	Increased employment.
2	2	171	Re-open fish plant. Increase employment. This would help insure the survival of the community. Develop work so youth would not be forced to leave the community; presently there are not many prospects for youth. Improve access road to Twillingate.	Improvement in tourism.
2	2	137	Re-open fish plant. Increase tourism.	Re-open fish plant.
2	2	99	Increase employment in Twillingate.	Increase employment in Twillingate.
2	2	297	Re-open the fish plant. Increase employment in Twillingate.	Increase employment (e.g., re-open fish plant).
2	2	96	Out-migration would cease preventing Twillingate from losing additional population and resources. That Twillingate remains a community.	Re-open the fish plant to increase employment in Twillingate.
2	2	198	Re-open the fish plant thereby boosting the economy and	Keep the "Health Center" (i.e., Hospital). Get back medical

			providing more employment for young people. Keep Twillingate together as a community by providing jobs locally; this would mean less residents would have to resettle elsewhere or leave the community in search of work. Increase tourism industry.	services that Twillingate once had (e.g., surgical, obstetrics, radiology). At present, residents must travel to Gander for these services.
2	2	162	Fishery to become a stable financial resource for the residents of Twillingate. Ability for young people to remain in Twillingate to work, rather than moving away to secure employment. Take advantage of every opportunity to promote Twillingate as a tourist attraction.	Do all that is possible to insure that the fish plant once again becomes a viable resource.
2	2	53	Increase employment, tourism, and business. Ability for families to stay in Twillingate to work. Hospital to remain open.	To insure employment opportunities arise in Twillingate (e.g., re-open fish plant).
2	2	270	Re-open the fish plant. Increase employment opportunities in Twillingate.	Improvement in Hospital/Health Care services.
2	2	300	For Twillingate to prosper. Re-open the fish plant, thereby improving the economy. Decrease or eliminate out-migration. Increase industry in Twillingate so residents can remain in Twillingate. Hope community members can pull together for the good of the community.	Generation of more industry.
2	2	93	Increase employment opportunities. Increase industry. Both would draw people to the area. Improvement in Health Care.	Increase employment (e.g., re-open fish plant, increase number of jobs at the hospital).
2	1	79	Increased employment for Twillingate. Re-open the fish plant.	Increase employment (e.g., re-open fish plant) in Twillingate.
2	1	82	For Twillingate to prosper.	For residents to work together to insure that Twillingate continues to exist.
2	1	3	Increase employment in Twillingate by re-opening the fish plant. A long term plan to increase employment and keep younger generation in Twillingate.	Increase tourism as an industry.
2	2	178	Re-open the fish plant to increase employment opportunities	Open a youth center in Twillingate to give younger residents

			in Twillingate. Open a youth center to provide teenagers with a place to congregate and complete activities. Increase employment.	a place to go.
2	2	158	Increase employment in Twillingate (e.g., re-open fish plant). Create something to attract more people to Twillingate, thereby increasing the population. Bring hospital and medical services to levels they were 10 years ago.	Twillingate Island requires more full-time permanent employment opportunities.
2	1	183	Increase employment opportunities.	Residents of Twillingate need to work together to secure employment for the area.
2	1	175	Increase employment for young people.	Creation of work.
2	1	40	Hope Twillingate will sustain itself through fishery and tourism even though she doesn't predict any major growth. "Stay on an even keel."	Stronger emphasis placed on tourism as an industry..
2	1	142	Re-open the fish plant in Twillingate. This would mean increased employment for young people. Introduction of another industry to boost the economy.	Do something to promote industry in the area, thereby producing full-time , permanent jobs, not make-work projects.
2	1	19	Hope Twillingate will grow in population and status. Increase the number of businesses and level of tourism. Keep youth in the area. Bring status of hospital back to what it once was. Re-open fish plant.	Increase importance of tourism.
2	1	145	Re-open fish plant to generate employment in Twillingate as the area is losing a lot of young people.	Keep community alive, work for young people.
2	1	89	Re-open fish plant to increase employment.	Increase employment.
2	1	193	Increase employment in Twillingate. He does not see much hope for the fishery in Twillingate. Improvements to roads.	Improvement to Health Care system; residents presently have to go to Gander for tests.
2	1	129	Re-open the fish plant to increase employment and keep young people in Twillingate.	Re-open the fish plant to increase employment in Twillingate.
2	1	181	Re-open the fish plant to insure that Twillingate is as prosperous as it once was. Increase the number and level of	Increase employment in Twillingate.

			services at the hospital in Twillingate as the number of people in the area warrant it.	
2	1	116	Re-open the fish plant. Bring the hospital back to "full-status."	Re-open the fish plant.
2	1	26	Re-open the fish plant to insure full-time employment opportunities in Twillingate.	Revitalize the fishery as the infrastructure is already established.
2	1	9	Upgrade the roads in Twillingate. Increase work projects. Increase employment for social services recipients.	Re-open the fish plant.
2	1	197	Re-open the fish plant to increase employment in Twillingate.	Increase employment opportunities.
2	1	16	Re-open the fish plant as 75% of crab/shrimp caught in Newfoundland is processed elsewhere. Would like to see chronic care facility opened for the elderly. Hope arts/culture talent will be used.	Capitalize on tourist attractions.
2	1	20	More private investment in Twillingate to increase the level of employment	Increase control over resources coming to the area.
2	3	27	Hope the fish plant will re-open which will increase employment.	Develop tourism.
2	3	78	Hope the community will survive the economic hardships, and that it will be a viable community for years to come.	Improve the recreational programs and facilities.
2	3	44	Re-open the fish plant so that the community can be viable. In addition, the hospital needs to regain the services it once had. Hope the economy returns to the way it was 10 years ago.	Re-open the fish plant.
2	3	179	Hope that the fishery improves, further develop what was accomplished through tourism, further develop the entertainment/recreation facilities.	Re-open the fish plant for secondary processing. Bring back was lost during the health care cuts. Bring back O.R. services to the hospital.
2	3	188	Would like to see the economy get a boost so that Twillingate can remain viable.	Create more employment beyond the present sectors that are in Twillingate (i.e. Fishery, Tourism).

2	3	207	Like to see the fish plant re-open, like to keep the youth in the town, and improve the hospital services.	Re-open the fish plant.
2	3	134	Hope that the community sustains itself in population, and becomes more viable by generating more employment.	Stop out-migration by generating more employment. The town should work on getting back their health care services that they have lost (i.e. Surgical).
2	3	34	No answer	No answer
2	3	205	Re-open the fish plant so that out- migration will cease, and that people will return. Upgrade the fishery and diversify to other species of fish.	Increase tourism by upgrading the roads into the community, thus encouraging tourists to come to the area. In addition, Twillingate should develop more tourist attractions.
2	3	139	Make improvements in the economy. Generate employment for the town's youth.	Promote Twillingate as a major tourist attraction. The spin offs from tourism will greatly improve the economy.
2	3	98	Generate greater employment opportunities in order to keep people in the community.	Generate more employment opportunities.
2	3	59	Keep people in the community and to provide them with employment.	Bring more industry into the town in order to generate more employment (other than tourism).
2	3	85	Re-open the fish plant, secure more government funding for tourism, reinstate the Adult Education Programs that were cut, and reinstate the health services that were once utilized in the Twillingate Hospital.	<p>Elect effective politicians from the area (Twillingate) who have the best interest of the community in mind, create more employment for youth, establish secondary seafood processing (which has greater monetary value), and offer incentives to local people to start their own businesses. The government is not as likely to invest tourism dollars into smaller communities. They are only interested in investing to larger communities such as Corner Brook, St. John's, etc.</p> <p>Respondent strongly feels that the federal and provincial government has cut health care funding, adult education programs, and fish processing and packaging. He feels that the majority of transfer payments are spent on services for St. John's, thus leaving the remainder of the province without essential services.</p>
2	3	125	Hope that the economy will improve (by opening the fish plant), that the entire town will receive water, sewer, and	Boost the local economy by working toward opening the fish plant.

			road upgrades, and that the hospital facilities improve.	
2	3	123	Federal and provincial government has not listened to the concerns and needs of rural Newfoundland. It is important that the government pay more attention to, and invest, dollars into the community in order to increase viability. Respondent personally invested thousands of dollars into re-opening the fish plant, however the provincial government was not interested in providing additional funding.	Twillingate should work on re-opening the fish plant, re-establish health care by improving services, and create employment so that youth will stay in the community. Youth are Twillingate's move viable resource.
2	3	146	Re-open the fish plant in order to increase employment in the community. In addition, services (i.e. Hospital) should be restored to its former level.	Twillingate should work on reducing the out-migration of its youth, by increasing employment opportunities.
2	3	104	Hope the town remains vital for years to come.	Broaden the economic base in the community.
2	3	240	Hope to maintain the services presently found in the community (i.e., Hospital, School).	Improve hospital services and schools. Increase employment.
2	3	101	More employment for the people of Twillingate.	Re-open the fish plant to increase employment.
2	3	147	Hope that the community will open more businesses which will generate more employment.	Regain the services in the hospital that were taken and moved to the hospital in Gander.
2	3	70	Hope that the community will have greater employment opportunities.	Upgrade the medical services at the local hospital (hospital has been downgraded over the last few years), Re-open the fish plant.
2	3	157	Re-open the fish plant, improve the hospital facilities (get back the services that were moved to the hospital in Gander), encourage people to support their community rather than taking their money outside to make purchases.	Strive to open the fish plant, and to increase tourism revenue by expanding on the current tourist attractions and developing new ones.
2	3	253	Re-open the fish plant in order to increase employment for the community.	Increase the job opportunities, and improve the health care services at the hospital.
2	3	233	Re-open the fish plant.	Increase employment in the community, and improve the health care services.

2	3	275	Hope the fish plant re-opens.	Twillingate should work towards opening the fish plant, and improve the health care services at the local hospital.
2	3	120	Hope there are more jobs for community members.	Work towards opening the fish plant.
2	3	211	Hope that the fish plant will re-open which will generate more employment opportunities. Hope the youth stay in Twillingate to work.	Generate more employment for everyone in the community.
2	3	264	Hope the fish plant will open which in turn will keep people employed in the community.	Work towards opening the fish plant.
2	3	64	Hope that the economy will improve along with greater job opportunities. Hope the fish plant will open and consistently operate for many years. Hope that the Twillingate area will be a major tourist attraction. Hope there are more recreational facilities and programs in the future.	Improve the economy.
2	1	130	Hope that more young people stay in the community.	Offer incentives for doctors and other professional to come to Twillingate. Twillingate should also attempt to secure subsidized housing for low income families.
2	1	75	Hope Twillingate preserves its heritage. Hope the community improves its educational/medical services, and increases employment.	Improve the employment situation.
2	1	49	Increase employment in Twillingate.	Increase employment in Twillingate.
2	1	274	This is a dying community with no hope for employment. The youth are leaving, thus turning Twillingate into a retirement town.	Exhausted the tourist sector, therefore there is not much left to do unless the fishery comes back.
2	1	249	Hope the fish plant will re-open, hope the government will pay to pave the highway into Twillingate.	Town should work on increasing employment (by opening the fish plant), and pave the highway into the town.
2	1	191	Twillingate will become a retirement town if something isn't done about providing employment of the youth.	Generate new employment over the next few years.
2	1	254	Hope new employment is generated, because without employment the community will not survive.	Generate more employment, and re-pave the roads.

2	1	277	Hope Twillingate will further develop tourism, and re-open the fish plant.	Twillingate should fight to maintain the services they have. In addition the town should work toward regaining their hospital services that they lost to the town of Gander. Should work toward improving the services in town (i.e. Shopping-offer a greater variety of quality goods).
2	1	303	Hope that the community will grow and prosper. Would like to see the community return to the way it used to be before the collapse of the cod fishery.	Concentrate on secondary processing of fish instead of shipping the raw product to other communities.
2	1	148	Hope the fishery returns and tourism grows.	The town should work towards increasing the employment opportunities.
2	1	14	Hope the economy improves. Hope the fish-plant re-opens and that the secondary processing is done in the town. Hope the hospital will start doing minor surgeries. The Twillingate hospital is better than the Gander hospital, therefore there is no reason why people from Gander cannot come to Twillingate for health services.	Town should work toward improving its hospital services. The town should also work toward opening the fish plant and diversifying into secondary processing.
2	1	166	Hope the town increases the employment opportunities by re-opening the fish plant.	Twillingate should work on opening the fish plant.
2	1	237	Hope the town will further develop its tourism industry.	Twillingate should work toward expanding its tourism industry.
2	1	152	Hope for equality of opportunity, equal access to services, and a flourishing tourism and fishing industry.	The town should work on stabilizing, then improving the economy.
2	1	310	Hope the fish plant re-opens, thus generating more employment.	Re-open the fish plant.
2	1	209	Hope that the economy improves and that the fish plant re-opens, thus prevent further out-migration.	Twillingate should work on re-opening the fish plant.
