

Resilience Checklist:

Site: Winterton

Date: 15 March 2004

Respondent: Ivan Emke

Table 1: Resilience: How well was the site able to cope with shocks or stresses?

Date	Sector	Poor	Sat.	V.W.	Comments/Examples
1986	Private/Market				
1986	Public/Bureau.				
1986	Civic/Assoc.				
1986	Family/Comm.				
1991	Private/Market				
1991	Public/Bureau.				
1991	Civic/Assoc.				
1991	Family/Comm.				
1996	Private/Market				
1996	Public/Bureau.				
1996	Civic/Assoc.				
1996	Family/Comm.				
2001	Private/Market		XX		Able to continue fish plant, develop tourism
2001	Public/Bureau.		XX		Kept doctor and part of school
2001	Civic/Assoc.			XX	Expanded tourism association, built trails
2001	Family/Comm.		XX		Re-defining town as a retirement location

Capacity Checklist

Site: Winterton

Date: March 15, 2004

Respondent: Ivan Emke

Table 2: Capacity: How well was the site able to...?

1996		Debate				
1996		Act				
1996		Support				
1996		Evaluate				
2001	Priv/M.	Anticipate		XX		Recognized the changes coming, but largely reacted to them, rather than being proactive
2001		Get Inf.		XX		This is tough to evaluate, but the major employer was active in developing new markets, fisheries quota

2001		Debate	XX			I'm not sure as there was debate about this – it has been accepted that the fish plant is a private enterprise rather than one subject to public input
2001		Act		XX		A willingness to cooperate with private business
2001		Support		XX		Support for the private enterprise in the town
2001		Evaluate	XX			I have no knowledge of whether there was any evaluation of private enterprise, but I am not aware of any
2001	Pub/Bur	Anticipate			XX	I do think that there is a great deal of awareness of coming economic problems, but I'm not sure as this translates into action
2001		Get Inf.		XX		Certain local municipal officials are quite active in getting more information, but probably not the community at large
2001		Debate		XX		Some debate, but at a more informal level than formal level; not institutionalized
2001		Act			XX	They were active in developing a boat-building museum, trails and a new campground
2001		Support		XX		Yes, there was some broad support, but still only a small group participated fully; the only local restaurant was up for sale in late summer, and there was widespread sentiment that if it closed, a major asset in the community would be gone; but no discussions of a co-op or an attempt to find a local buyer were taking place
2001		Evaluate	XX			I doubt if there was any formal evaluation, yet, of their efforts
2001	Civ/Ass.	Anticipate	XX			I didn't see evidence of this

2001		Get Inf.		XX		Some informal discussion of issues around services (medical and educational)
2001		Debate		XX		Within council, but not elsewhere
2001		Act		XX		Some action, in lobbying to keep the school and in keeping the elderly doctor satisfied with his situation
2001		Support		XX		Support is often as a reaction to the loss of a service, or the threatened loss of a service
2001		Evaluate	XX			I am not aware of any evaluation or reflection taking place at a formal or institutional level
2001	Fam/C.	Anticipate			XX	People are well aware of continuing problems, of out-migration of the young, and the demographic shift toward an ageing population
2001		Get Inf.	XX			I did not see evidence of this; it could be that regional public health authorities provide some assistance
2001		Debate	XX			I am not sure where such a debate on family-focussed shocks would take place, maybe in church organizations
2001		Act		XX		Some co-ordinated attempts to increase leisure options in the area, and to maintain school/CAP site
2001		Support		XX		There is at least informal surveillance of the situation regarding the school and community sports leagues, for example
2001		Evaluate	XX			I am not aware of any formal evaluation, although some might be happening at the council level (they are aware of the ageing demographic, and are thinking of increasingly pitching their community as a site for retirement, as it is within easy driving distance of St. John's).
