CHRISTINE HARRIES

ALEXANDRE QUINTAL CO-OP STUDENT OF THE YEAR

In recognition of her academic background, excellent work term evaluations and contribution to the Institute for Co-operative Education, Christine Harries is the 2013 recipient of the Alexandre Quintal Co-op Student of the Year award. An enthusiastic advocate for Co-op, Ms. Harries participated in the Co-op mentorship program, has been a Co-op student showcase poster exhibitor, and promoted Concordia and Co-op in interviews, photo advertising and the Concordia University website.

“Co-op students graduate with many valuable assets. Not only do they have relevant work experience on their CV, but they have also made contacts during every interview, faced the competition in the job market, and learnt persistence.”

PRIX ALEXANDRE-QUINTAL DE L'ÉTUDIANT COOP DE L'ANNÉE

En reconnaissance de son parcours universitaire, de ses excellentes évaluations de stage et de sa contribution à l'Institut d'enseignement coopératif, Christine Harries reçoit le prix Alexandre-Quintal de l'étudiant coop de l'année 2013. Ambassadrice enthousiaste de l'enseignement coop, elle a participé au programme de mentorat, exposé des affiches au Salon des étudiants coop et fait la promotion de Concordia et de la formule coop dans des interviews, des photos publicitaires et sur le site Web de l'Université.

“Les étudiants coop sortent de l'Université munis de multiples atouts précieux. Non seulement ils jouissent d'une expérience de travail dans leur branche – ce qui est un plus sur leur C.V. –, mais ils ont eu l'occasion de se faire des contacts à chaque entretien, de soutenir la concurrence sur le marché du travail et d'apprendre à être persévérants.”

MESSAGE FROM THE DIRECTOR

We are pleased you have joined us for our annual celebration of our students' and employers' achievements and highlights from the past year. This year, we will be presenting about 20 awards and certificates to our students and employers. Our students will receive over \$9,000 in scholarships and prizes. To all of our sponsors we are extremely grateful. Your participation brings tangible recognition to our students. We are thrilled that some 100 employers and students have nominated each other for special recognition. If you are an award winner or nominee, you are listed in this program. Permit me to congratulate you on your contribution and your success.

We are very proud of our Concordia University Co-op program and our over 1,400 Co-op students. Twenty-eight specially selected Co-op student representatives have prepared posters and are here for our Student Showcase. Please ask them about their work terms and their positive learning experiences and you will understand their gratitude as well as the satisfaction they feel for contributing to their employers' organizations. If you are one of our students, thank you for representing Concordia and Co-op so well.

This event gives us an occasion to thank our valued employers for their partnership and ongoing support of our program and students. We are privileged to claim such a diverse range of employer colleagues in the corporate, NGO, not-for-profit, government and small business sectors. If you are one of our employers or supervisors, thank you for mentoring our students and providing them with incredible practical learning opportunities.

This evening also provides an opportunity to acknowledge our Co-op faculty and staff. We have an extraordinary Co-op team. Our academic and organizational success is a direct result of their participation. Thank you.

We hope you enjoy our CARE event and again, we are grateful to each and every one of our students, employers, faculty and staff. This year was a success because of you.

GERRY HUGHES

Director, Institute for Co-operative Education

MESSAGE DU DIRECTEUR

Nous sommes heureux que vous ayez pu vous joindre à nous pour célébrer les réalisations de nos étudiants et de nos employeurs et pour souligner les faits saillants de l'année qui vient de s'écouler. En effet, nous allons décerner ce soir vingt prix et témoignages de reconnaissance. Nos étudiants, pour leur part, recevront plus de 9 000 \$ en bourses et prix. À tous nos commanditaires, nous tenons à exprimer notre profonde gratitude. Votre participation apporte à nos étudiants une valorisation concrète. Nous sommes ravis de constater qu'une centaine d'employeurs et d'étudiants se sont réciproquement sélectionnés pour recevoir une distinction spéciale. Le nom des lauréats et des finalistes figure d'ailleurs sur le programme. Merci de votre contribution et félicitations pour votre succès!

Nous sommes très fiers du programme coop de l'Université Concordia et de nos quelque 1 400 étudiants coop. Du reste, vingt-huit étudiants représentants du programme coop ont été sélectionnés pour confectionner des affiches promotionnelles. Ils sont présents au salon des étudiants coop. N'hésitez pas à les questionner sur leur stage et leur expérience d'apprentissage inestimable : vous comprendrez la gratitude et la satisfaction qu'ils ressentent d'avoir contribué à l'entreprise de leurs employeurs. Alors, à tous nos étudiants, merci d'avoir si bien représenté Concordia et l'institut coop.

Nous profitons de cette soirée pour rendre hommage à nos précieux employeurs pour leur collaboration et leur soutien indéfectibles. Nous sommes privilégiés de mettre à contribution une telle diversité d'employeurs : grandes entreprises, ONG, organismes sans but lucratif, gouvernementaux et petites entreprises... À tous nos employeurs ou superviseurs, merci d'avoir été les mentors de nos étudiants et de leur avoir permis d'apprendre par la pratique de façon formidable.

Cette soirée nous donne également l'occasion de féliciter nos autres partenaires : les membres du corps professoral et du personnel du programme coop. Nous sommes effectivement encadrés d'une équipe coop extraordinaire. La réussite pédagogique et organisationnelle du programme coop est directement liée à leur participation.

Nous espérons que cette soirée de remise des prix vous plaira. Encore une fois, merci à chacun de vous – étudiants, employeurs, professeurs et membres du personnel. Le succès de cette année vous revient.

GERRY HUGHES

Directeur, Institut d'enseignement coopératif

GUEST SPEAKERS · LES CONFÉRENCIERS

CHRISTINE HARRIES

Christine Harries is a graduate of Concordia University's Building Engineering Co-op program. During her studies Ms. Harries completed her first work term as a student analyst for Tardif Murray and Associates, and her second as an assistant project manager for Triad Construction. Her final work term was for SNC-Lavalin in conception and site surveillance, and the skills she gained there allowed her to secure a position upon graduation with SNC-Lavalin in structural design.

Christine Harries est diplômée du programme coop en génie du bâtiment de l'Université Concordia. Au cours de ses études, elle a effectué un premier stage à titre d'apprentie analyste chez Tardif Murray et Associés, puis un deuxième en tant que chef de projet adjoint pour Triad Construction. Elle a passé son dernier stage chez SNC-Lavalin, dans la conception et la surveillance de chantier. Les connaissances qu'elle a ainsi acquises lui ont permis de décrocher un poste en design des structures chez SNC-Lavalin, et ce, dès sa sortie de l'Université.

FELIX THIEL

Among his many roles, Felix Thiel is Business Finance Partner and Relationship Manager at Pfizer Canada's head office in Kirkland, Quebec, and acts as Business Partner for the Public Access, Corporate Affairs, Supply & Demand and Compliance functions. He manages Pfizer's relationship with Concordia's Co-op program, overseeing very sought-after work terms that typically involve four finance, accounting or MBA students. Mr. Thiel completed his Bachelor of Business Administration, CPA and CMA at HEC - Université de Montréal.

Partenaire de gestion financière et chef relations clients de Pfizer Canada, situé à Kirkland, au Québec, Félix Thiel est aussi responsable d'autres fonctions : Accès public, Affaires générales, Offre et demande et Conformité. C'est lui qui dirige les relations entre Pfizer et le programme coop de Concordia, supervisant les stages très prisés auxquels participent généralement quatre étudiants en finance, en comptabilité ou au MBA. Titulaire d'un baccalauréat en administration des affaires, M. Thiel a suivi sa formation de CPA et de CMA aux HEC de l'Université de Montréal.

TARA RAMSARAN

Co-op Academic Program Director for the Accountancy Co-op, a favourite employer of accountancy Co-op students, and a senior lecturer at Concordia's John Molson School of Business, Tara Ramsaran is in a unique position to see all three sides of the Student-Employer-University triad that is the basis of all co-op programs. She specializes in taxation, including individual, corporate, estate, sales taxes and US taxation, coaches the JMSB taxation team for the Commerce Games and offers tax seminars to JMSB CA candidates.

Ms. Ramsaran obtained her Bachelor of Commerce, Graduate Diploma in Accountancy and MBA at Concordia University, is a member of the Beta Gamma Sigma Society, as well as being a CPA member of the State of Illinois.

Directrice du programme coop en comptabilité et chargée d'enseignement principale à l'École de gestion John-Molson de Concordia, Tara Ramsaran est vraiment très bien placée pour voir les trois côtés de la triade université-employeur-étudiant, qui est à la base de tous les programmes coop. Spécialisée en fiscalité, notamment dans la taxation des particuliers et des entreprises, les droits de succession et les taxes de vente, elle encadre et conseille l'équipe de fiscalité participant aux Jeux du commerce et anime des séminaires sur le sujet à l'intention des aspirants CA et CMA de l'École de gestion John-Molson. Titulaire d'un baccalauréat en commerce, d'un diplôme de 2e cycle en comptabilité et d'un MBA de l'Université Concordia, Mme Ramsaran est membre de la société Beta Gamma Sigma, en plus d'être CPA.

AWARD SCULPTURES · LES TROPHÉES

TITLE · TITRE: **HANDSHAKE (« POIGNÉE DE MAIN »)**
DESIGN · CONCEPTION: **IDA KOVALEVA**

"The handshake is a short ritual in which two people grasp each other's hands. The sculpture features two hands coming close, but not yet grasping each other. The space in between still exists at this point and it is not empty—there is a sphere. The trophy from another point of view looks similar to a human eye. This ambiguity of forms leads to the understanding of the short ritual gesture. Handshake is a symbol of cooperation between two people who, together, are able to achieve something different, something greater than what one person can achieve."

"La poignée de main est un rituel de courte durée par lequel deux personnes se serrent la main. La sculpture met en relief deux mains qui se rapprochent, mais qui ne se touchent pas encore. L'espace entre les deux mains existe toujours à ce point, mais il n'est pas vide — il est rempli par une sphère. D'un autre point de vue, le trophée évoque un œil humain. Cette ambiguïté de formes fait comprendre le geste rituel de courte durée. La poignée de main est le symbole de la coopération entre deux personnes : en duo plutôt qu'en solo, on est capable d'accomplir quelque chose de différent, quelque chose de plus grandiose."

TITLE · TITRE: **QUARTZ**
DESIGN · CONCEPTION: **RACHEL TARDIF**

"It all starts with one pure solid, the pyramid. The construction demonstrates the process of creating a dynamic and unique form starting from the repetition of the same element. It represents the evolution of a single element into a complete and harmonious ensemble."

"Tout commence par un solide pur : la pyramide. La construction montre le processus de création d'une forme dynamique et unique, qui débute par la répétition d'un même composant. Elle représente l'évolution d'un seul élément en un ensemble complet et harmonieux."

TITLE · TITRE: **DYNAMIC TRANSFORMATION
(« TRANSFORMATION DYNAMIQUE »)**
DESIGN · CONCEPTION: **DANIEL LA ROTTA**

"Symmetrical figures were used to generate primitive objects. Through a process of deformation, organic contours from nature were introduced, creating smooth-edged elements. The sculpture symbolizes an evolution from a geometrical square to a sphere, while still keeping some of the original properties of the square. Moreover, the statue represents a gradual diminution of sizes as the piece spirals upwards."

"Des objets primitifs sont créés à l'aide de figures symétriques. Par un processus de déformation, des contours organiques empruntés à la nature sont introduits, créant des éléments aux bords lisses. La sculpture symbolise l'évolution d'un carré géométrique à une sphère, tout en conservant certaines propriétés du quadrilatère d'origine. En outre, la statue représente une diminution graduelle des dimensions dans sa spirale ascendante."
