

# OSF Talks At Loyola Wednesday

The Quebec Ministry of Education has presented Concordia with a serious problem in the form of the recently-published OFS Report (Operation Sciences Fondamentales).

Russell Breen, Loyola Dean of Arts & Sciences has called a special meeting to discuss the report for next Wednesday, Oct. 15 from 1-5 p.m. in Loyola's F.C. Smith Auditorium.

All members of the Loyola Faculty of Arts & Sciences and all concerned students are invited to attend.

The report advocates a number of changes that will affect both campuses.

It "recommends" that the departments of chemistry, physics and mathematics — now taught on both campuses — should each be fused into single departments to eliminate duplication.

Further, the structure of present science programs at all three levels (bachelor, masters, doctoral) will need to be revised; bachelor programs will likely see the most change.

In fact, the current B.Sc. with major in bio-chemistry is slated for elimination. The Ph.D. programs in chemistry and physics are to be abandoned, according to the recommendations in the report.

Next week FYI will publish a detailed analysis of the report.

## Rector On Parity

# No Objections To Student Views

Rector John O'Brien has answered complaints about the student services task force, voiced in the recent letter sent him by various students' associations [see FYI, October 2].

Students had raised. They had proposed that the task force mandate include the recommendation of a "permanent administrative organizational structure" for the Student Services area. His answer to that was "I believe that the need to deal expeditiously with the present mandate is sufficient reason to exclude such an extension."

In a response sent to the students on September 29, he said he "had no objection" to their demands that the membership of the Task Force on Council Organization for Student Services be revised to ensure student parity. He will bring the matter of revision to the Board of Governors' meeting today. If the Board approves, the task force will have twenty voting members: Vice-Rector Graham as chairman, 4 student services administrators, 4 faculty members, one governor from the community at large, and 10 students.

Students had charged too that the report of the Hannan committee (an earlier committee on student services financing) had been disregarded. O'Brien replied: "Its report, presented just before budget and fee decisions had to be taken, did not provide coherent recommendations for Student Services financing, particularly in view of the student leaders' position that fees should be the same on both campuses and should not be increased. In these circumstances its recommendations could not be applied systematically and other solutions had to be quickly devised and adopted. It is hardly surprising that many people were dissatisfied with what occurred. I see, however, no reason for this experience to be repeated if the new Task Force moves quickly to report on the matters that come within its mandate."

The students had also demanded parity "on any body connected to the Student Services area at Concordia"; and in accordance with this, the Rector will ask the Board to "Instruct the Task Force on Council Organization for the Student Services Area that any Council it may recommend shall have an equal number of student and non-student voting members".

However, O'Brien took issue with other points the

# Have Camera, Will Shoot

Crighton

Sir George's million-dollar communications baby is being sadly neglected, says Andrew Crighton, head of the TV-audio section of the Centre for Instructional Technology.

The studios and recording booths, deep in the core of the Hall Building, are usually empty. Crighton, who took over the reins this year from James Joyce, wants to see those rooms filled.

"Professors are afraid of technology", he says. "They're afraid the TV tapes will replace them. But that's not true at all; television will only complement their work."

"Take the case of a professor who can't make it

to some of his classes. Instead of abandoning that time, he could tape his lectures in advance and have them shown to his students on the in-class television network.

Crighton also wants to see more production for other purposes. He'd like to see a bank of material on differing topics prepared for inclusion in the new library non-print room. The library people hope the non-print room will open Oct. 20. Interested mixed mediaphiles will find it on the fourth floor of the Norris Building.

Students may use the C.I.T. facilities for production of material to supplement their courses, provided they work with their

prof. And it's all free!

Crighton and his crew will also film guest lecturers. In years past he has filmed R.D. Laing, John Lennon and Allen Ginsburg. Crighton wants to start a profile series comprised not only of stars, but of less glamorous, though equally worthy, people such as scientists and professionals. Again, this service is free.

So if you have a project you'd like to get on tape or film, get in touch with Andrew Crighton. He wants the TV-audio section to regain the vitality it had in the glorious days of the late Sixties, when he was a founding member of TV Sir George.

## QUICK TAKES

Actors and Actresses, ALL ages and types required by Sloth Productions for a one half hour color film. All positions paid. Auditions held Saturday October 11, from 10 a.m. in Room H-421 (studio B) Hall Building, Sir George Williams Campus, 1455 de Maisonneuve Blvd. West.

Two Concordia graduates, Evelyne Michaels of Sir George and Donald Boisvert of Loyola, have received \$5,000 special masters scholarships from the Canada Council.

Ms. Michaels is a former editor of the Georgian and will be using her one-year

scholarship to study communications at Western University in London, Ont. Mr. Boisvert, class Valedictorian and graduate in religious studies, is now enrolled in an M.A. (history and philosophy of religion) at Sir George.

The two were among 90 recipients of the special award selected from 581 nominees across Canada.

Jackie Bristowe needs a lift.

Mondays, Wednesdays and Fridays, the Sir George student must be at Loyola campus by 11am.

Any regular commuter between campuses, whose schedule fits hers, is asked to give her a call at 849-8593.

## Clare Out

Concordia football coach Doug Daigneault explained Wade Clare's sudden departure from the team this way: "I guess he was angry about having another running back put ahead of him."

But Daigneault admitted it was guesswork. "I haven't spoken to him, so I can't tell you what was troubling him."

Wade, the cannonball running back who snatched victory from almost certain defeat in two early games, was contacted at home and said:

"I don't want to comment now. I haven't rejoined the team. Right now I just want to sit it out, but I'd like to play ball again but not with the team at it is now."

Wade walked off the practice field this week, reportedly unhappy with the way Daigneault was coaching the team. The coach blamed the two recent Concordia defeats (63-7 for Ottawa and 13-11 for Bishop's) on lack of pride in the team by players. He also said the players were not doing their assignments properly.

"See that," he said, looking at the film of the Bishop's game, "That block wasn't stopped. People aren't doing what they are supposed to be doing."

Next game is Saturday against Bishop's. "This time we've got to show people what we're made of," Daigneault said.
