Nature and Role of Senate Standing Committees

The Senate standing committee structure has as its objective to facilitate debate on the floor of Senate itself and to make that debate as pertinent, concise, and efficient as possible while ensuring that the responsibilities of Senate are fully carried out. Standing committee reports allow Senators to familiarize themselves as completely as possible with the matters to be discussed and to satisfy themselves that necessary questions have been asked and that answers have been obtained. A functioning standing committee structure of this nature supposes that in those cases where, on the floor of Senate, there is a feeling that questions remain unanswered, the matter should be referred back to the appropriate standing committee for the work to be carried out to the satisfaction of Senators.

The Senate standing committees will from time to time need technical and administrative expertise in the matters under study and this service will be provided for Senate and its standing committees by an appropriate sector of the University Administration. The appropriate Vice-President is responsible for ensuring that technical and administrative expertise is available where necessary.

Circulation of Documentation

Every effort shall be made to ensure that all documentation for consideration by Senate standing committees shall reach the members of the standing committee in sufficient time to permit due consideration prior to the meeting. Under normal circumstances, the agenda and supporting documents shall be circulated no later than one week prior to the meeting.
