

How to get up and running with your time-limited iZotope licenses

Step 1

Navigate to the iZotope product downloads page:

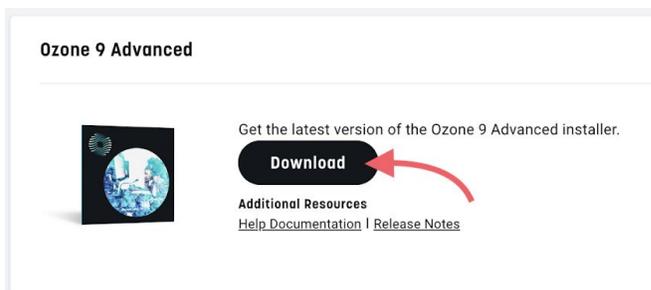

<https://www.izotope.com/en/products/downloads.html>

The screenshot shows the iZotope website's product downloads page. At the top, there is a navigation bar with the iZotope logo, links for 'Products', 'Learn', and 'Shop', a search bar, and icons for a shopping cart and user profile. Below the navigation bar is an orange banner with a message: 'If you are running Mac OSX 10.15 (Catalina) please read our knowledge base article before installing - [Learn More](#)'. The main heading is 'Downloads' with a search filter 'Filter by name'. Below this, there is a section titled 'Now there's an easier way to download & authorize your iZotope software!' with a sub-heading 'The iZotope Product Portal is a quick and easy way for you to install, authorize, and update all your iZotope software.' and two buttons: 'Download for Mac' and 'Download for PC'. Further down, there is a section for 'BreakTweaker Expanded' with a product image, a 'Download' button, and additional resources like 'Help Documentation', 'Release Notes', and 'Add Ons'. It also shows 'Latest Update: 1.02cn' and 'Released: December 13, 2019'.

Step 2

Click the "Download" button for the product you want to install.

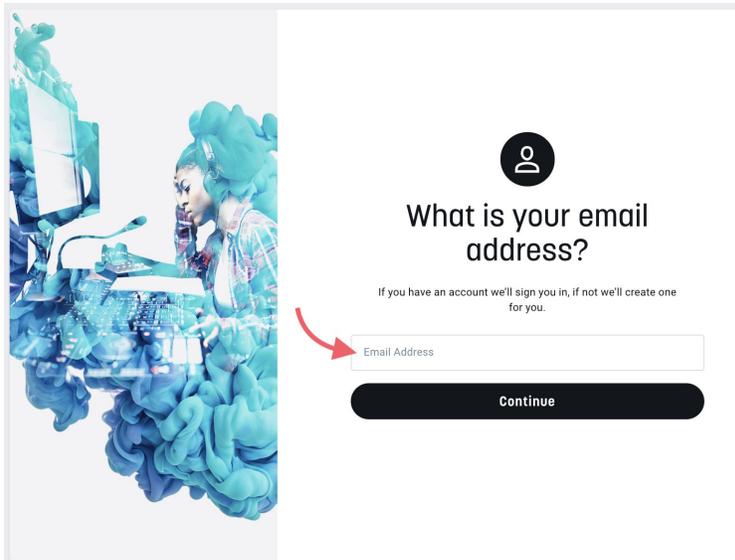

The screenshot shows the product page for 'Ozone 9 Advanced'. It features a product image on the left and text on the right: 'Get the latest version of the Ozone 9 Advanced installer.' Below this text is a prominent 'Download' button, which is highlighted by a red arrow pointing to it from the right. Underneath the button are the links 'Additional Resources', 'Help Documentation', and 'Release Notes'.

Step 3

Enter your email address and click “Continue”.

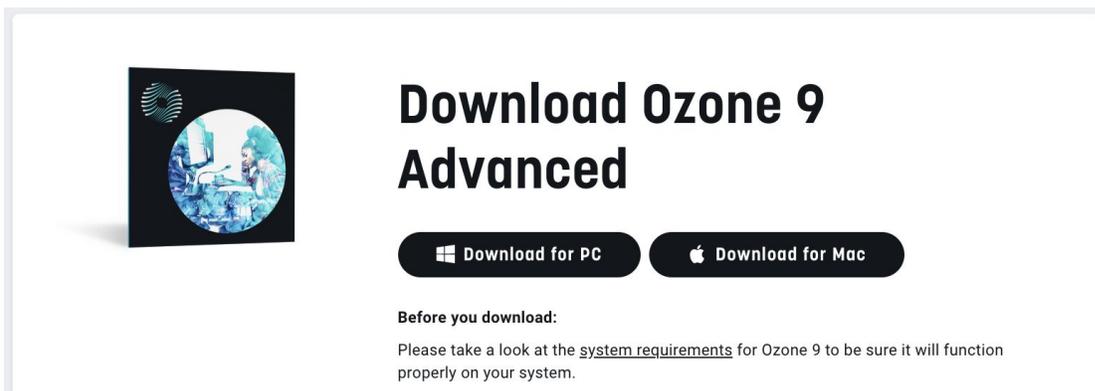

If you enter the email address associated with an iZotope account, you will be asked to sign in. If you do not have an account, you will be prompted to create one.

Note: if you are logged in to your iZotope account, your email address will be prepopulated.

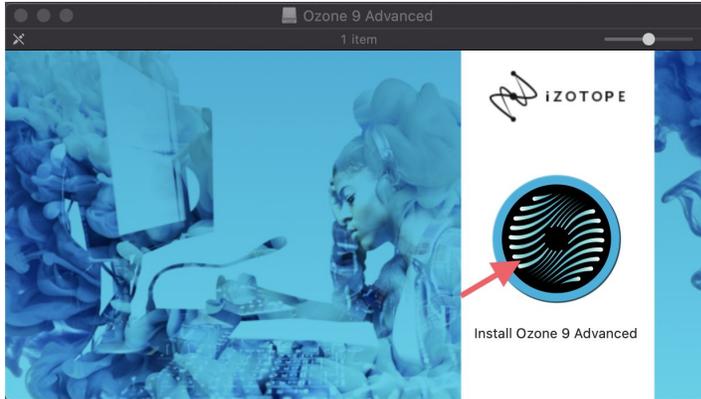

Step 4

Once you sign in, you will be directed to the product download page where you can select the appropriate installer for your operating system.

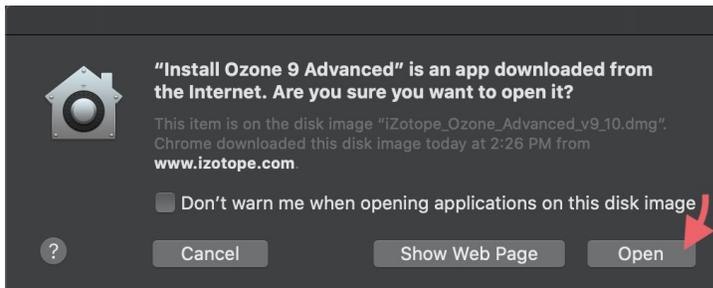

Step 5

Once downloaded, launch the installer and double-click on the product icon to begin the installation process:

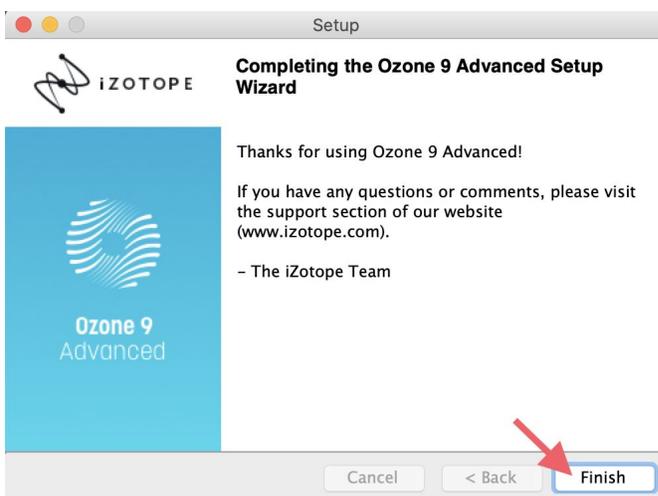

Note: depending on your operating system and system preferences, you may need to give the installer permission to run.

Step 6

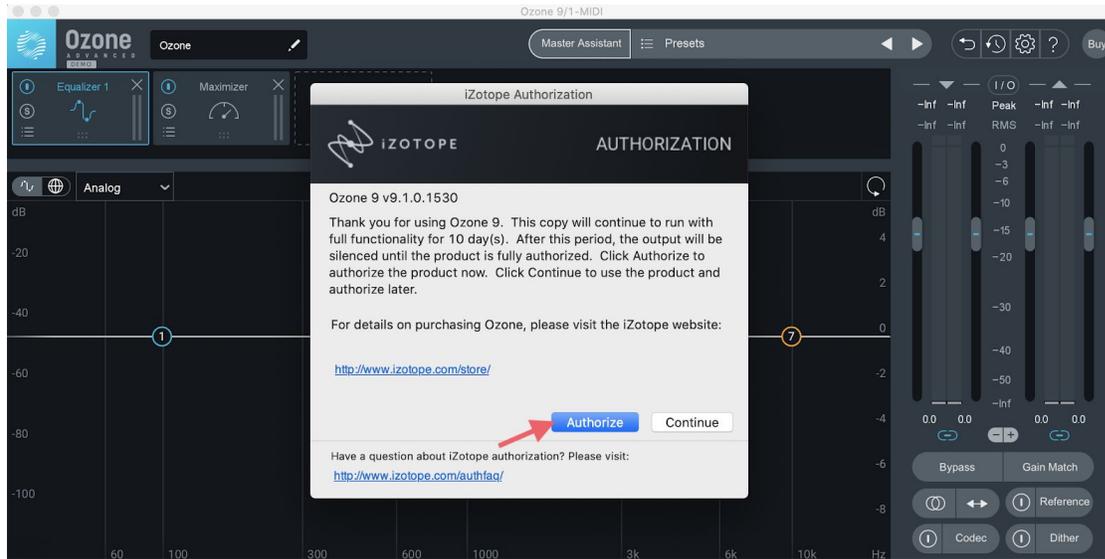

Follow the instructions in the setup wizard to initiate the installation process. Once the installation is complete, click "Finish" to close the setup wizard.

Step 7

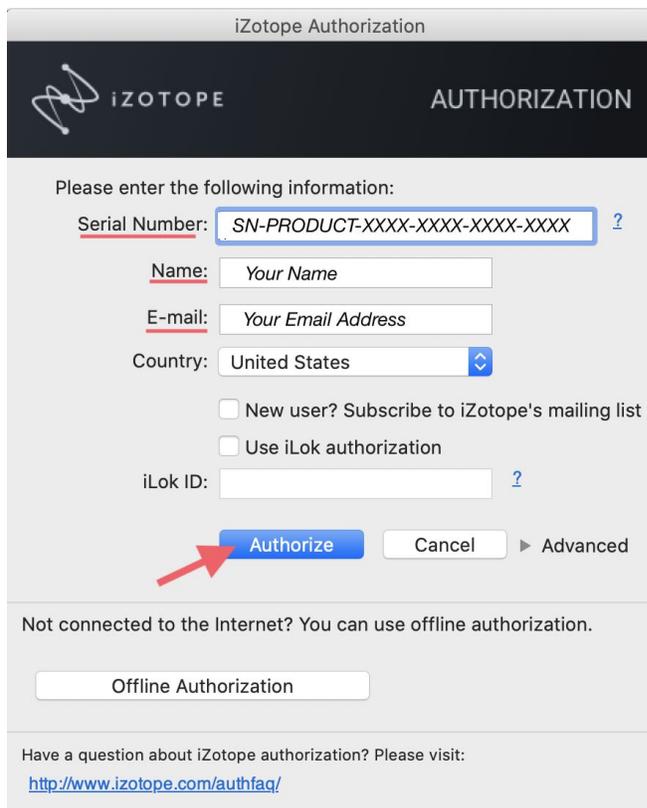

Navigate to your DAW and launch the iZotope plugin that you installed. This will trigger the Authorization Wizard.

Click “Authorize” to begin the authorization process.

Step 8

Enter in your serial number, name and email address. Then click the “Authorize” button.

iZotope Authorization

IZOTOPE AUTHORIZATION

Please enter the following information:

Serial Number: SN-PRODUCT-XXXX-XXXX-XXXX-XXXX ?

Name: Your Name

E-mail: Your Email Address

Country: United States
