Main Findings

- Role ISS:
 - Consume significant part of the Space Exploration budget
 - Positioned Canada for Space Exploration
 - Health & Life Science for Utilization
 - Inspire Canadians through Astronauts Program
 - ISS is first step for Human Exploration
- Sustainability of Program
 - Focus on small number of priority areas
 - Roadmap
 - Need to know funding levels
 - Debate between Canada-led missions vs. contribution to international missions
 - Space Exploration has to go beyond LEO
 - Inspiration still needed
