Subject: Curriculum Changes in the 2006-7 Calendar

Dear Student:

In May 2004 and May 2005 all students then enrolled in the **Computer Engineering** program were mailed a letter advising them of curriculum changes that had occurred since their entry into the program. These letters can still be viewed from the following page: http://www.encs.concordia.ca/scs/content/Sequences_COEN.htm.

This letter is to advise you of any additional changes that will appear in the 2006-7 Calendar that may affect your selection of courses. It will also be placed at the above mentioned sequence site for your convenience. Should you have any questions regarding this document, please do not hesitate to contact Student Academic Services (514)848-2424, Extension 3055.

The 2006-07 Calendar pages for your program are enclosed.

1. Changes to the Engineering Core

- a. There are no changes in the Engineering core for Computer Engineering students.

2. Computer Engineering Core

- a. COMP 346 Operating Systems (3 credits) has been replaced by COEN 346 Operating Systems (3 credits). As a transitional measure, students who have completed COMP 346 prior to September 2006 may use it as a substitute for COEN 346. *This transitional measure may be rescinded after June 2011.*

3. System Hardware Option

3a. System Hardware Core

- a. There are no changes in the System Hardware Core.

3b. System Hardware Technical Electives

- a. The total length of the program in both the 2005-6 and 2006-7 Calendar is 120 credits. Students must take sufficient technical electives to obtain that total number of program credits.

- b. The following course has been added to the technical elective list of the System Hardware Option: ELEC 472 Advanced Telecommunications Networks

4. System Software Option

4a. System Software Core

- a. There were no changes in the System Software Core.

4b. System Software Technical Electives

- a. The total length of the program in both the 2005-6 and 2006-7 calendar is 120 credits. Students must take sufficient technical electives to obtain that total number of program credits.
- b. The following course has been added to the technical elective list of the System Software Option: ELEC 472 Advanced Telecommunications Networks
