*It is **strongly recommended** that you follow the above course sequence exactly. If you feel that you require modification(s), please see your Undergraduate Program Assistant to ensure that you do not miss/drop a course that is crucial to your path. A course you miss now could have consequences down the road that you do not see for yourself!*

**GPA assessment and academic standing**

An assessment of your academic standing is done once a year after winter grades have been submitted. If you attempted at least 12 credits over an academic year – this includes the Summer, Fall, and Winter terms – your last annual GPA is calculated based on the number of courses you took and the grades achieved. If fewer than 12 credits were attempted in an academic year, no assessment will take place. In this case, credits will be forwarded to the next assessment when you accumulate the required number of credits. Acceptable GPA is at least a 2.00 - you may continue in your studies. Conditional GPA is between 1.50-1.99 - you need to meet with your department advisor prior to registration (some departments may have other conditions). Failed GPA is below 1.50 for the first time or below a 2.00 after a prior Conditional Standing assessment or after being readmitted from Failed standing (second level failed standing).
