DEFINITIONS

Voting is based on a simple majority.

- a) *Accepted as submitted* may include corrections that do not require the supervisor's approval.
- b) Minor modifications are defined as corrections that can be made immediately to the satisfaction of the supervisor.
- c) When a thesis is accepted with major modifications, a precise description of the modifications must be included in the Examining Committee's report with a specified deadline of no later than six months. It is then the responsibility of the candidate's supervisor to demonstrate to the Examining Committee that the required modifications have been made. It is not necessary to call a meeting of the committee.
- d) When the thesis has been rejected, the candidate may not submit a thesis for six months from the date of the original defence. A rejected thesis may be submitted, in a revised form, only once.
- e) If the Examining Committee is not prepared to reach a decision concerning the thesis at the time of defence, it is the responsibility of its Chair to determine what additional information is required by the Committee to reach a decision, to arrange to obtain this information for the Committee, and to call another meeting of the Committee as soon as the required information is available. It is also the Chair's responsibility to inform the candidate that the decision is pending. The candidate should not normally be required to present himself or herself before the Examining Committee at the second meeting.
