Thursday, December 14, 2023

11:15 am - 12:15 pm

Room VL-203

Is This Bridge Safe to Cross?

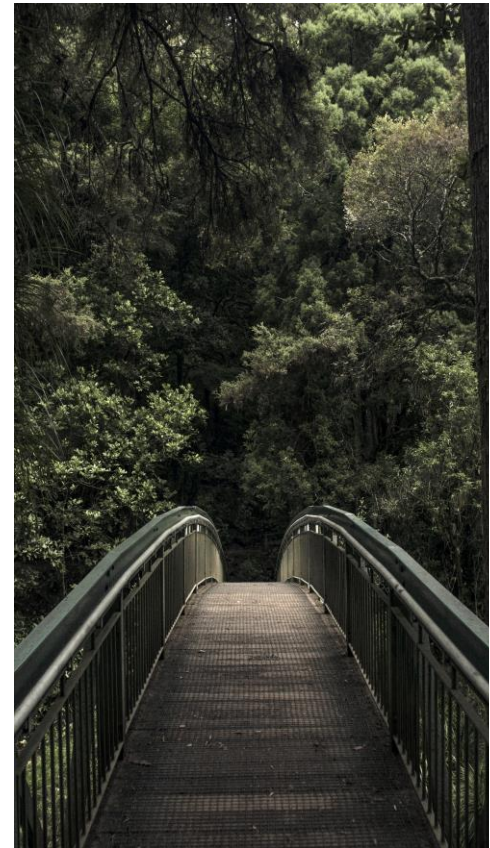

Fieldwork/Clinical Internship

Experiences of Students with

Disabilities

Presented by:**Susie Wileman, M.Ed. and Alice Havel, Ph.D.**

Students with disabilities face unique challenges during clinical internship settings. The goal of this project is to facilitate the internship experiences of students with disabilities enrolled in Dawson College health-related, social service and community recreational leadership programs. To accomplish this, we interviewed 29 key stakeholders (students, faculty supervisors and accessibility staff). A toolkit, consisting of a series of recommendations concerning successful techniques and strategies, examples of best practices, and a suite of short videos is under development. This project is funded by Entente Canada-Québec (ECQ).

**All are welcome. Bring your own lunch and refreshments!**
