

BIOL 490 ORAL PRESENTATION SCHEDULE

Because of the large number of students presenting, presentations will take place over two days:

Ecology/Organismal Biology: Monday 15 April 2018 ("make up" day for missed classes 13 February)

Cell and Molecular Biology: Tuesday 16 April 2019 (first day of exams)

SP-457.03 (the Biology Conference Room)

Come and see some of our finest undergraduate students presenting the results of their projects, find out what has been happening in our research laboratories, learn more about how science is communicated, and show your support.

Note that these students are candidates for the Berti Farag Science Award, presented to the most outstanding BIOL 490 project this academic year (2018-2019).
