# ENVIRONMENT DIVISION

Left - Scientists from Canada and Denmark, along with five Danish soldiers and their dogs, celebrating a month-long scientific expedition, studying the physics, biology and chemistry of ice of all forms. Photo credit: Prof. Feiyue Wang. Right - Environment Division Executives.

## What do we do and why does it matter?

- > Technical symposia at annual chemistry and chemical engineering conferences
- > Awards for students and researchers
- > News stories in *CIC News*

Our division unites chemists, chemical engineers and chemical technologists no matter where they are in Canada. By connecting with the environment division, you'll be able to explore your area of expertise in even more depth and enjoy connecting with people with a similar background.

You can become a member of the Environment Division when you join CIC by selecting Environment on your application or renewal.

CIC societies offer complimentary Young Professional and Student memberships. [cheminst.ca/membership](http://cheminst.ca/membership)
