# Administrative Procedures for CHEM 419 (BIOCHEMISTRY SPECIALIZATION) Revised May 2023 

## Eligibility

Students must have completed the 45 -credit core BSc Specialization in Biochemistry programme (or equivalent) with a minimum G.P.A of 2.00 in these core courses.

## Checklist

Core programme complete$\square$ G.P.A. $\geq 2.00$

## Procedure for Registration

In the academic session before the one in which you intend to undertake the project you must complete sections 1 and 5 of the Request for Authorization to register for Senior Project form (attached) and return this to Lisa Montesano (elizabeth.montesano@concordia.ca, SP-201-01) with a current transcript for pre-approval. This decision will be made by the coordinator based on your eligibility according to the criteria above.

CHEM 419 is a six credit course which can be taken in either one or two semesters (two semesters is recommended). If a student opts for a two semester project, the registration session and dates between which the project is to be carried out are not necessarily the same. For example, for a project carried out over the winter and summer, a student would register for all six credits in the summer semester. You must register all 6 credits in the term in which you will be completing your project (exception: Fall-Winter /3).

Once you have obtained pre-approval you must find a supervisor in the Department of Chemistry and Biochemistry for your project. It is recommended that you consult the Departmental website for information about the research areas of the faculty. You should then approach faculty whose research interests you and enquire as to availability of positions. Once you have been accepted to work in a research lab, your faculty supervisor must complete section 3 of the form.

The form is then returned to Lisa Montesano, after which registration for CHEM 419 will be approved. Please note: you are not automatically registered for the course at this point.

## Checklist (in order)

| Obtain the Request for Authorization to Register for a Senior Project form |  |
| :--- | :--- |
| Complete sections 1 and 5 of the form |  |
| C | Attach a current transcript |
| Submit form for pre-approval |  |
| Supervisor completes section 3 of the form |  |
| Return form for final approval and registration |  |

Please note: applications will not be processed unless all required sections are completed and a transcript attached.
