

## **BIOCHEMISTRY SPECIALIZATION**

## Science Profile (120 extended credit programs, i.e. non-CEGEP entry, only)

Chemistry: CHEM 205 & 206 (General Chemistry I & II)

Biology: BIOL 201 (General Biology)

Math: MATH 201 (Elementary Functions), MATH 202 (College Algebra, required for Mature

Students only), MATH 203 (Calculus I), MATH 205 (Calculus II)

Physics: PHYS 204/224 (Mechanics and associated lab course), PHYS 205/225 (Electricity &

Magnetism and associated lab course), PHYS 206/226 (Waves and Modern Physics &

associated lab course)

## **Biochemistry Core Program (45 credits = 15 courses)**

Analytical Chemistry: CHEM 217 (Introductory Analytical Chemistry I, offered Fall only)

CHEM 218 (Introductory Analytical Chemistry II, offered Winter only)

Exemptions for both courses possible for students entering from Dawson's Laboratory

Technology – Analytical Chemistry program

Organic Chemistry: CHEM 221 (Introductory Organic Chemistry I, offered Fall, Winter and some Summers)

CHEM 222 (Introductory Organic Chemistry II, offered Fall and Winter)

CHEM 324 (Organic Reactions, offered Fall only)

Exemptions for CHEM 221 and CHEM 222 possible for CEGEP students

Physical Chemistry: CHEM 234 (thermodynamics, offered Fall and Winter)

CHEM 235 (kinetics, offered Fall and Winter)

Inorganic Chemistry: CHEM 241 (Introduction to Periodicity and Valence Theory, offered Fall and Winter)

Biochemistry: CHEM 271 (Biochemistry I, offered Fall, Winter and odd-year Summers)

CHEM 375 (Biochemistry II, offered Winter and Summer)

Spectroscopy: CHEM 293 (Organic Spectroscopy, offered every term)

Biology: BIOL 261 (Molecular and General genetics), BIOL 266 (Cell Biology), BIOL 364 (Cell

Physiology), BIOL 368 (Genetics and Cell Biology Lab); all offered Fall and Winter

## Biochemistry Specialization = core (above) PLUS additional credits at the advanced level

Analytical Chemistry: CHEM 312 (Intermediate Analytical Chemistry, offered Fall and even-year Summers)

Lab exemption possible for students entering from Dawson's Laboratory Technology —

Analytical Chemistry program

Organic Chemistry: CHEM 325 (Organic Structure and Stereochemistry, offered Winter and odd-year Summers)

Physical Chemistry: CHEM 335 (Biophysical Chemistry, offered Fall only)

Biology: BIOL 367 (Molecular Biology, offered Fall and Winter)

Advanced Labs: CHEM 477 (Advanced Laboratory in Biochemistry, offered Fall only)

BIOL 466 (Advanced Techniques in Molecular Biology, offered Winter only)

Biochemistry electives: 2 x 400-level courses (CHEM 4XX) chosen form advanced topics courses in biochemistry

Research project: optional CHEM 419 (6 credits, Independent Study in an active research lab of one of our

faculty members, 1 or 2 terms, all terms available, presented as a conference-style poster).

If taken, replaces one advanced lab course (CHEM 477 or BIOL 466) and one elective.

#### Course numbering system

First digit gives level 200 = introductory 300 = intermediate 400 = advanced

Middle digit 1 = analytical, 2 = organic, 3 = physical, 4 = inorganic, 5 = multidisciplinary,

denotes discipline 7 = biochemistry, 9 = spectroscopy/spectrometry

Last digit gives sequence

## **BIOCHEMISTRY SPECIALIZATION**

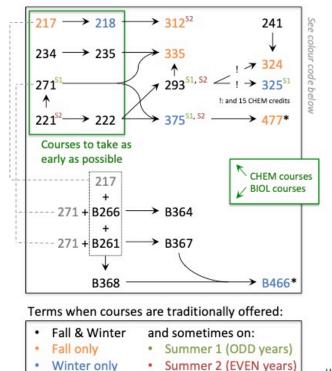

# Typical Biochemistry Specialization Sequence (entering with CHEM 221 from CEGEP)\* - entering with CHEM 221 from CEGEP - entering from profile year

	Fall	Winter
Year 1	CHEM 217	CHEM 218
	CHEM 222	CHEM 241
	CHEM 234	CHEM 293
	BIOL 261 or CHEM 271	CHEM 271 or BIOL 261
	elective	elective
Year 2	CHEM 312	CHEM 325
	CHEM 235	CHEM 375
	CHEM 324	CHEM 4XX
	BIOL 266	BIOL 364, 367 or 368
	elective	elective
Year 3	CHEM 335	organic repl.
	CHEM 477	BIOL 364, 367 or 368
	CHEM 4XX	CHEM 419**
	BIOL 364, 367 or 368	elective
	elective	

	Fall	Winter
Year 1	CHEM 217	CHEM 218
	CHEM 221	CHEM 222
	CHEM 234	CHEM 241
	BIOL 261 or CHEM 271	CHEM 271 or BIOL 261
	elective	elective
Year 2	CHEM 312	CHEM 375
	CHEM 235	CHEM 4XX
	CHEM 293	BIOL 364, 367 or 368
	BIOL 266	BIOL 364, 367 or 368
	elective	elective
Year 3	CHEM 324	CHEM 325
	CHEM 335	BIOL 364, 367 or 368
	CHEM 477	CHEM 419**
	CHEM 4XX	elective
	elective	

<sup>\*</sup> All courses are 3 credits except where noted. There are eighteen (18) credits of electives that must include six (6) credits of general education courses and twelve (12) credits of out of program electives. All electives must be out of program (non CHEM). Some courses can be taken in Summer or online.

## **Biochemistry Specialization Course Flowchart**

Legend: 221 <sup>is a prerequisite for:</sup> → 222

#### Additional courses:

- 4XX (2x)
   419\* (6 credits)
- 7 electives\*
- Organic replacement(s) if exempt from 221 &/or 222
- \* options:
  - 477 & B466
- 477 & 419 minus 1 elective
- B466 & 419 minus 1 elective

#### Summer course offerings:

Summer 1	alternating with Summer 2
ODD years	EVEN years
271	221
293	293
375	375
325 <	> 312
Ten	ative Schedule

Up-to-date info on Class Schedule Guide & Dept website

<sup>\*\*</sup> CHEM 419 is a 6-credit course. It replaces (BIOL 466 + 1 elective) or (CHEM 477 + 1 elective). CHEM 419 can also be taken over Fall and Winter when research is carried out on both terms, in which case it can count as 3 credits in the Fall and 3 credits in the Winter. This course is offered every term, including Summer.
