PROGRAM OBJECTIVES

Classics programs have two related aims: first, to provide a solid background to the cultures of ancient Greece and Rome through written documents, including historical and literary sources, and archaeological evidence; and second, to train students to read and interpret texts in ancient Greek and Latin. Classics encompasses the study of the history, literature, languages, mythology, and archaeology of ancient Greece and Rome. Classical studies presents the experience of ancient history and archaeology as being part of a continuum of human experiences inextricably connected with our own and offer a challenging program of studies through which students may explore their cultural roots.
