

MATH 392 (MATH 613), Sec. A
Elementary Number Theory
Winter 2019

Instructor: Dr. H. Kisilevsky, Office: LB 927-13 (SGW), Phone: (514) 848-2424, Ext. 3226
Email: hershy.kisilevsky@concordia.ca

Office Hours: _____

Text: *Elementary Number Theory*, 2nd Edition, by Charles Vanden Eynden, Waveland Press.

Final Grade:

There will be a Mid-term exam	30%
Final	60%
Assignments	10%

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

Content: Topics to be covered:

- Euclidean algorithm, gcd, lcm, primes, fundamental theorems of arithmetic;
- congruences, solving linear congruences, Chinese remainder theorem, higher order congruences;
- quadratic reciprocity;
- factorization, primality testing;
- diophantine equations.

Academic Integrity and the Academic Code of Conduct

This course is governed by Concordia University's policies on Academic Integrity and the Academic Code of Conduct as set forth in the Undergraduate Calendar and the Graduate Calendar. Students are expected to familiarize themselves with these policies and conduct themselves accordingly. "Concordia University has several resources available to students to better understand and uphold academic integrity. Concordia's website on academic integrity can be found at the following address, which also includes links to each Faculty and the School of Graduate Studies: concordia.ca/students/academic-integrity." [Undergraduate Calendar, Sec 17.10.2]
