Text: *Abstract Algebra*, by David S. Dummit and Richard M. Foote.

Evaluation: Assignments 20%, Midterm 30% and Final 50%.

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

Topics: Introduction to the theory of rings and modules: rings, ideals, quotients, ring of fractions, euclidean domains, principal ideals domain, unique factorisation domains, polynomial rings; modules and vector spaces.

Academic Integrity and the Academic Code of Conduct

This course is governed by Concordia University's policies on Academic Integrity and the Academic Code of Conduct as set forth in the Undergraduate Calendar and the Graduate Calendar. Students are expected to familiarize themselves with these policies and conduct themselves accordingly. "Concordia University has several resources available to students to better understand and uphold academic integrity. Concordia's website on academic integrity can be found at the following address, which also includes links to each Faculty and the School of Graduate Studies: concordia.ca/students/academic-integrity."
