MAST 232, Sec. B
Mathematics with Computer Algebra
Winter 2022

Instructor: Dr. M. Bertola, Office: LB 901-23 (SGW), Phone: 848-2424, Ext. 3228
Email: marco.bertola@concordia.ca

Office Hours: TBA

Prerequisite: CEGEP Mathematics 105 or 201-NYC, 203 or 201-NYB or equivalent.

Exclusions: This course is an introduction to computer algebra using Mathematica. It may not be taken for credit simultaneously with, or after having completed, a course of a similar nature.

Class Structure: The class takes place in a computer lab and consists of a lecture portion and an instructor-supervised problem-solving session.

Class work: To receive credit for the problem-solving session, you must show your work to the instructor before leaving class. There is no option to submit this work at a later date.

Assignments: Assignments will be given approximately on a bi-weekly basis and must be submitted via Moodle by the date and time indicated. Solutions will be posted on Moodle. You may discuss the problems with your classmates and ask the instructor for help. However, you must write your solutions independently (without someone else’s work in front of you). You may not actively solicit help on internet forums (aside from the ‘Student discussion forum’ on Moodle), though you are permitted to search the internet for help.

Departmental website → http://www.concordia.ca/artsci/math-stats.html
Midterm test: There will be one midterm test, given in the lab using Mathematica. There is no option for a `make-up’ test.

Evaluation: You will be evaluated according to the following scheme. There is no ‘100% final’ option in this course and no supplemental examination.

Class work 5%
Assignments 25%
Midterm test 20%
Final exam 50%

All assignments are mandatory.

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

Mathematica: All course work will be carried out using the computer algebra system Mathematica. This software is installed in the computer lab. Concordia University also has a site license for Mathematica, which allows you to download the software and use it on your own computer. Instructions for doing so are given in MyConcordia under ‘Software and Applications > Mathematica’. You may also work in the Math department undergraduate lab, and may borrow a laptop from the library (Mathematica will be installed).

Moodle: All course materials will be posted to the course Moodle website. Students are expected to check this website on a regular basis.

Topics: Graphing in two and three dimensions, lists, functions, number systems, algebraic and transcendental equations, differentiation and applications, integration and applications, programming, probability and statistics, linear algebra and applications. Additional topics may be included as time permits.

Academic Integrity and the Academic Code of Conduct
This course is governed by Concordia University’s policies on Academic Integrity and the Academic Code of Conduct as set forth in the Undergraduate Calendar and the Graduate Calendar. Students are expected to familiarize themselves with these policies and conduct themselves accordingly. “Concordia University has several resources available to students to better understand and uphold academic integrity. Concordia’s website on academic integrity can be found at the following address, which also includes links to each Faculty and the School of Graduate Studies: concordia.ca/students/academic-integrity.” [Undergraduate Calendar, Sec 17.10.2]
Use of Zoom
Note: Zoom is included as an institutionally-approved technology. This means we have been assured of the privacy protections needed to use freely within the classroom)

Zoom will be used in this course to facilitate learning at a distance. It may be used to record some or all of the lectures and/or other activities in this course. If you wish to ensure that your image is not recorded, speak to your instructor as soon as possible.

Also, please note that you may not share recordings of your classes and that the instructor will only share class recordings for the purpose of course delivery and development. Any other sharing may be in violation of the law and applicable University policies, and may be subject to penalties.

Behaviour
All individuals participating in courses are expected to be professional and constructive throughout the course, including in their communications.

Concordia students are subject to the Code of Rights and Responsibilities which applies both when students are physically and virtually engaged in any University activity, including classes, seminars, meetings, etc. Students engaged in University activities must respect this Code when engaging with any members of the Concordia community, including faculty, staff, and students, whether such interactions are verbal or in writing, face to face or online/virtual. Failing to comply with the Code may result in charges and sanctions, as outlined in the Code.

Intellectual Property
Content belonging to instructors shared in online courses, including, but not limited to, online lectures, course notes, and video recordings of classes remain the intellectual property of the faculty member. It may not be distributed, published or broadcast, in whole or in part, without the express permission of the faculty member. Students are also forbidden to use their own means of recording any elements of an online class or lecture without express permission of the instructor. Any unauthorized sharing of course content may constitute a breach of the Academic Code of Conduct and/or the Code of Rights and Responsibilities. As specified in the Policy on Intellectual Property, the University does not claim any ownership of or interest in any student IP. All university members retain copyright over their work.

Extraordinary circumstances
In the event of extraordinary circumstances and pursuant to the Academic Regulations the University may modify the delivery, content, structure, forum, location and/or evaluation scheme. In the event of such extraordinary circumstances, students will be informed of the change.
