

MATH 364
Analysis I
Summer 2025

- Instructor:** Dr. Ben Hersey
Email: benjamin.hersey@concordia.ca
*When sending me an email, please include "Math 364" in the subject line.
- Class Schedule:** Tuesdays and Thursdays, 10:15-13:00.
Attendance is highly encouraged.
- Office Hours:** TBA
- Textbook:** *Introductory Real Analysis*, by F. Dangelo & M. Seyfried. Available at the reserve desk of the library.
- References:** *Introduction to Real Analysis* by William F. Trench. Free download at <http://aimath.org/textbooks/approved-textbooks/trench/>
- Assignments:** Homework will be assigned almost every week, on Moodle. Late homework will not be accepted. The lowest score will be dropped. Submit scanned assignments through Moodle as a **SINGLE PDF file**. **No other formats or ways of submitting your work are allowed.** (There are free scanner apps for your smartphone.) Solutions will be posted on Moodle.
- You should provide complete arguments in your work. Some assigned problems will not be marked. Students should attempt all problems.
- Midterm:** There will be a midterm test scheduled in the 3rd or 4th week of classes. The exact date of the exam will be announced in class at least a week in advance. **There will be no make-up midterm exam.**

Final Exam: To be scheduled by the Exams Office.

NOTE: Students are responsible for finding out the date and time of the final exams once the schedule is posted by the Examinations Office. Conflicts or problems with the scheduling of the final exam must be reported directly to **the Examinations Office, not to your instructor**. It is the Department's policy and the Examinations Office's policy that **students are to be available until the end of the final exam period. Conflicts due to travel plans will not be accommodated.**

Grading: 15% Assignments, 30% Midterm, 55% Final Exam
OR
15% Assignments, 85% Final Exam

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

Topics: Time frame is approximate and is meant to include the midterm test.

Lectures	Topics	Chapters
1-3	Elements of Proofs and Set Theory. The Real Numbers.	Chapter 1
4-6	Sequences	Chapter 3
7-9	Limits of Functions and Continuity.	Chapter 2 (§2.1, 2.2)
10-12	Derivatives	Chapter 2 (§2.3, 2.4, 2.5)

Student Services

You may wish to access the many services available to you as a Concordia student. An overview of these resources can be found here: <https://www.concordia.ca/students/services.html>

Academic Integrity and the Academic Code of Conduct

This course is governed by Concordia University's policies on Academic Integrity and the Academic Code of Conduct as set forth in the Undergraduate Calendar and the Graduate Calendar. Students are expected to familiarize themselves with these policies and conduct themselves accordingly. "Concordia University has several resources available to students to better understand and uphold academic integrity. Concordia's website on academic integrity can be found at the following address, which also includes links to each Faculty and the School of Graduate Studies: <https://www.concordia.ca/conduct/academic-integrity.html>" [Undergraduate Calendar, Sec 17.10.2]

Behaviour

All individuals participating in courses are expected to be professional and constructive throughout the course, including in their communications.

Concordia students are subject to the [Code of Rights and Responsibilities](#) which applies both when students are physically and virtually engaged in any University activity, including classes, seminars, meetings, etc. Students engaged in University activities must respect this Code when engaging with any members of the Concordia community, including faculty, staff, and students, whether such interactions are verbal or in writing, face to face or online/virtual. Failing to comply with the Code may result in charges and sanctions, as outlined in the Code.

Intellectual Property

Content belonging to instructors shared in online courses, including, but not limited to, online lectures, course notes, and video recordings of classes remain the intellectual property of the faculty member. It may not be distributed, published or broadcast, in whole or in part, without the express permission of the faculty member. Students are also forbidden to use their own means of recording any elements of an online class or lecture without express permission of the instructor. Any unauthorized sharing of course content may constitute a breach of the [Academic Code of Conduct](#) and/or the [Code of Rights and Responsibilities](#). As specified in the [Policy on Intellectual Property](#), the University does not claim any ownership of or interest in any student IP. All university members retain copyright over their work.

Extraordinary circumstances

In the event of extraordinary circumstances and pursuant to the [Academic Regulations](#) the University may modify the delivery, content, structure, forum, location and/or evaluation scheme. In the event of such extraordinary circumstances, students will be informed of the change.
