NOTE: Students should order textbooks as early as possible, especially for print versions in case books are back ordered or there are any shipping delays.

Outline: This course is an introduction to the mathematics of compound interest. The topics covered correspond approximately to the interest theory of Exam FM of the Society of Actuaries. The topics include (but are not limited to):

- **Measurement of Interest:** simple interest, compound interest, accumulation functions, present value, effective and nominal rates, forces of interest;
- **Equations of Value:** basic problem, numerical results, unknown time, unknown rate of interest;
- **Basic Annuities:** payments at a different frequency than interest is convertible, continuous annuities, varying annuities;
- **Amortization Schedules and Sinking Funds:** outstanding loan balance, varying series of payments, continuous payments;
- **Bonds and Other Securities:** types of securities, price of a bond, premium and discount, yield rates, callable bonds, serial bonds;
- **Yield Rates:** cash flow analysis, reinvestment rates;
- **Applications and others:** modern financial instruments, inflation, duration, immunization, asset liability management, term structure of interest rates, other topics.

CIA Accreditation: This course is accredited by the Canadian Institute of Actuaries (CIA) under the University Accredited Degree. For more information click [here](#).

In addition to the university's internal policies on conduct, including academic misconduct, candidates pursuing credits for writing professional examinations shall also be subject to the Code of Conduct and Ethics for Candidates in the CIA Education System and the associated Policy on Conduct and Ethics for Candidates in the CIA Education System. For more information, please visit Obtaining UAP Credits and the CIA FAQ.

The most recent detailed syllabus and learning objectives for Exam FM can be found at:

<https://www.soa.org/education/exam-req/edu-exam-fm-detail.aspx>

Course Evaluation: **Assignments:** counting for 10% (students should submit their assignments before the beginning of class on the announced due date). Solutions must be written up carefully, showing all work, for full credit.

NO LATE ASSIGNMENTS WILL BE ACCEPTED.

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

Mid-term exam: counting for 40%.

Final exam: counting for the remaining 50%.

There will be no make-up tests.

IMPORTANT: **THERE WILL BE NO SUPPLEMENTAL EXAM AND NO 100% OPTION FOR THE FINAL EXAM.**

Calculators: Only calculators approved by the Department (with a sticker attached as proof of approval) or approved by the Society of Actuaries (SOA) are permitted in the class test(s) and final examination.

The list of calculators approved by the Society of Actuaries is here:
