

MATH 467 (MAST 669/MAST 837), Sec. D: Measure Theory (Fall 2026)

Instructor:	Dr. G. Dafni
Email Address:	galia.dafni@concordia.ca
Office Hours:	(tentatively) Mondays & Wednesdays, 4:30-6:00 PM, including problem-solving sessions; and by appointment.
Important:	Students should get the above information from their instructor and from the course Moodle site. The instructor is the person to contact should there be any questions about the course.
Class Schedule:	Mondays & Wednesdays, 14:45-16:00.
Prerequisites:	The following courses must be completed previously: MAST 219 or equivalent; MATH 365 . The following course must be completed previously or concurrently: MATH 464 or equivalent.

Reading Week

Begins on Saturday, October 10 and ends on Friday, October 16, 2026. No classes that week.

Textbook

Measure, Integration & Real Analysis, by S. Axler, Springer, 2020.

<https://measure.axler.net/>

Other Textbooks

Real Analysis, Measure Theory and Integration, by E.M. Stein and R. Shakarchi, Princeton University Press, 2005.

Functional Analysis, by E.M. Stein and R. Shakarchi, Princeton University Press, Macmillan, 2011.

Real Analysis: Modern Techniques and Their Applications, by G.B. Folland, Wiley, 2013.

Real Analysis, by H.L. Royden (3rd or 4th Edition).

These and other texts will be available on reserve at the Webster library.

Topics

The main part of the course will consist of the following topics taken from the text:

- Outer measure, Lebesgue measure on $\mathbb{R}$, positive measures (Ch. 2)
- Lebesgue integration and convergence theorems (Ch. 3)
- Differentiation and the maximal function (Ch. 4)
- Lebesgue (L_p) spaces (Ch. 7)
- Product measures (Ch. 5)
- Real and complex measures, Radon-Nikodym Theorem (Ch. 9)

Additional topics may be covered if time permits. Some additional topics may be assigned to graduate students for independent reading.

Assignments

Homework will be assigned approximately once every two weeks, on Moodle. **Solutions must be handwritten and submitted on paper during class. Late homework will not be accepted.**

Working together with other students in the class on homework assignments is allowed and encouraged, and problem-solving sessions will provide an opportunity for this. However, the solutions you submit must be written by you, in your own words and your own writing style, and follow [the University's Academic Code of Conduct](#).

Understanding homework is essential to success in the exams.

Midterm Exam

There will be an in-class closed-book midterm exam during the 6th or 7th week of classes. The exact date of the exam will be announced in class at least a week in advance.

Final Exam

The final examination will be a 3-hours long closed-book exam, scheduled by the Examinations Office.

PLEASE NOTE: Students are responsible for finding out the date and time of the final exam once the schedule is posted by the Examination Office. Any conflicts or problems with the scheduling of the final exam must be reported directly to the Examination Office, **not** to your instructor. It is the Department's policy and the Examination Office's policy **that students are to be available until the end of the final exam period. Conflicts due to travel plans will not be accommodated.**

Evaluation

Homework 15%, Midterm exam 25%, Final exam 60%.

Graduate students will be required to do additional or alternative work, to be determined, according to their level (Master's/PhD).

If the grading scheme for this course includes graded assignments, a reasonable and representative subset of each assignment may be graded. Students will not be told in advance which subset of the assigned problems will be marked and should therefore attempt all assigned problems.

Communication

Communication between the students and the instructor will take place in person and online via lectures, Zoom meetings, Moodle announcements, and email messages. **Students are responsible for reading and taking notes of all electronic communication from the instructor and the University.**

Student Services

You may wish to access the many services available to you as a Concordia student. An overview of these resources can be found here: <https://www.concordia.ca/students/services.html>

Academic Integrity and the Academic Code of Conduct

This course is governed by Concordia University's policies on Academic Integrity and the Academic Code of Conduct as set forth in the Undergraduate Calendar and the Graduate Calendar. Students are expected to familiarize themselves with these policies and conduct themselves accordingly. "Concordia University has several resources available to students to better understand and uphold academic integrity. Concordia's website on academic integrity can be found at the following address, which also includes links to each Faculty and the School of Graduate Studies: <https://www.concordia.ca/conduct/academic-integrity.html>" [*Undergraduate Calendar, Sec 17.10.2*]

Behaviour

All individuals participating in courses are expected to be professional and constructive throughout the course, including in their communications.

Concordia students are subject to the [Code of Rights and Responsibilities](#) which applies both when students are physically and virtually engaged in any University activity, including classes, seminars, meetings, etc. Students engaged in university activities must respect this Code when engaging with any members of the Concordia community, including faculty, staff, and students, whether such interactions are verbal or in writing, face to face or online/virtual. Failing to comply with the Code may result in charges and sanctions, as outlined in the Code.

Intellectual Property

Content belonging to instructors shared in online courses, including, but not limited to, online lectures, course notes, and video recordings of classes remain the intellectual property of the faculty member. It may not be distributed, published or broadcast, in whole or in part, without the express permission of the faculty member. Students are also forbidden to use their own means of recording any elements of an online class or lecture without express permission of the instructor. Any unauthorized sharing of course content may constitute a breach of the [Academic Code of Conduct](#) and/or the [Code of Rights and Responsibilities](#). As specified in the [Policy on Intellectual Property](#), the University does not claim any ownership of or interest in any student IP. All university members retain copyright over their work.

Use of Concordia email

Your [Concordia email](#) is the official channel for all university communications, as required by the university's [Policy on Concordia email accounts for students and employees](#). Please use your Concordia email for all communication related to this course and check it regularly so you don't miss important information. [Learn more about how to access your Concordia email](#).

As a student, you are expected to follow the email policy and to use your Concordia email in a respectful and responsible manner. The policy helps ensure that communication across the university is secure, reliable, and consistent.

Extraordinary circumstances

In the event of extraordinary circumstances and pursuant to the [Academic Regulations](#) the University may modify the delivery, content, structure, forum, location and/or evaluation scheme. In the event of such extraordinary circumstances, students will be informed of the change.
