# CSBN Scientific Symposium

## The emotional brain: new perspectives on neural circuits of affective behavior

**Center for Studies in Behavioral Neurobiology**  
March 22 - 23, 2018  
Loyola campus, Concordia University  
Montréal, Québec, Canada

| Thu Mar 22 | Dr. Sheena Josselyn  
Senior Scientist  
Hospital for Sick Children  
Toronto, ON | Making, breaking, and linking emotional memories.  
(Keynote talk for Friday symposium) |

| 9:05 am    | Dr. Mary Kay Lobo  
Associate Professor of Anatomy & Neurobiology  
University of Maryland School of Medicine  
Baltimore, MD | Neuron subtype targeting of dendritic complexity to promote stress resiliency.                                                                 |
| 10:00 am   | **Coffee break**                                 |                                                                                                                                  |
| 10:15 am   | Dr. Tak Pan Wong  
Associate Professor of Psychiatry  
Douglas Mental Health Institute, McGill University  
Montreal, QC | Hippocampal ensembles and susceptibility to depression-related phenotypes.                                                   |
| 11:10 am   | **Graduate student talks**                       |                                                                                                                                  |
| 12:00 pm   | **Student poster session with lunch**            |                                                                                                                                  |
| 1:30 pm    | Dr. Maithe Arruda-Carvalho  
Assistant Professor of Psychology  
University of Toronto  
Scarborough, ON | Prefrontal-amygdala maturation and ontogeny of emotional learning.                                                               |
| 2:30 pm    | Dr. Rosemary Bagot  
Assistant Professor of Psychology  
McGill University  
Montreal, QC | Transcriptional mediators of susceptibility to chronic stress.                                                                    |
| 3:30 pm    | **Concluding remarks**                           |                                                                                                                                  |
