

CSBN Fall 2012 Colloquium and Workshop

November 1-2, 2012

Center for Studies in
Behavioral Neurobiology

Thu Nov 1, 2012
Room RF 110
4:10 pm

Colloquium

Dr. Jaak Panksepp
Washington State University

The archaeology of mind: Neuroevolutionary origins of human emotions.

Host: Jon Sakata

Fri Nov 2, 2012
Room RF 110

Fall Workshop 2012

9:15 am

Dr. Sarah Woolley
McGill University

Production and perception of social communication signals.

10:00 am

Coffee break

10:15 am

Dr. Zuoxin Wang
Florida State University

The monogamous male brain.

11:00 am

Data Blitz

- Will Swaney, Ph.D.
(*Simon Reader lab, McGill U.*)
- Haleh Fotowat, Ph.D.
(*Rudiger Krahe lab, McGill U.*)
- Mayte Parada, M.A.
(*Jim Pfaus lab, Concordia U.*)
- Katuschia Germé, M.Sc.
(*Jim Pfaus lab, Concordia U.*)
- Laura Matheson
(*Jon Sakata lab, McGill U.*)
- Simon Rigolout, Ph.D.
(*Marc Pell lab, McGill U.*)

Effects of predation on social behaviour and vasotocin in the guppy.

Wireless recording and computational modeling of natural electrosensory input in freely swimming weakly electric fish.

Context and sexual experience alter the meaning of clitoral stimulation in female rats.

Disruption of conditioned sexual inhibition by alcohol in male rats: Disinhibition or new excitation?

Neurochemical contributions to the social modulation of vocal communication signals in songbirds.

Did she mean it? Behavioral and electrophysiological impact of white lies.

12:00 pm

Lunch (Room RF 130)

1:15 pm

Dr. Lauren O'Connell
Harvard University

Neural and genomic underpinnings of social behavior: diversity, conservation, and convergence.

2:00 pm

Dr. Jim Pfaus
Concordia University

The Pleasure Principle revisited: How experience with sexual reward comes to condition sexual arousal, desire, preference, and avoidance.

2:45 pm

Panel Discussion
