

CSBN Seminars

Fall 2014

Center for Studies in
Behavioral Neurobiology

Loyola Campus room SP 254-01
Fridays 11:30 am *(unless otherwise noted)*

Sep 12

Erik Harvey-Girard
University of Ottawa

How synaptic plasticity of feedback can shape sensory processing: an electrifying example.

Sep 19
9:15 am
SP 157

CSBN Fall 2014 Workshop

- **Donna Toufexis**
University of Vermont
- **Elizabeth Hampson**
University of Western Ontario
- **Wayne Brake**
Concordia University
- **Adriana Mendrek**
Bishop's University

Estrogen in the brain: implications for cognition in women

Social stress modulates the effect of estrogen in female rhesus monkeys.

Estrogen and working memory in women.

Estrogen and multiple memory system bias in females.

Sex/gender differences and hormonal modulation of cognitive function in psychosis.

Oct 03

Ivan Trujillo
CSBN, Concordia University

Clear brains: implementing CLARITY at the CSBN.

Oct 17

Bruce Hope
NIDA-IRP

Neuroadaptations in addiction: regional versus ensembles.

Oct 31

Jens Pruessner
McGill University

New paradigms in stress research.

Nov 07

Jonathan Britt
McGill University

Dissecting the neural circuits underlying motivated behaviours relevant to reward learning and drug addiction.

Nov 28

Sean Barrett
Dalhousie University

Patterns of multiple drug use: implications for lab-based models of addiction.
