

Center for Studies in Behavioral Neurobiology (CSBN)
Fall 2021 Talks

Date	Speaker	Title	Time
Friday Oct. 01 2021	Dr. Anne-Noël Samaha Associate Professor of Pharmacology Université de Montréal	<i>The basolateral amygdala and conditioned wanting.</i>	Zoom 12 noon–1 PM
Friday Oct. 15 2021	Anna-Lena Schlenner M.A. Graduate Student Mihaela Iordanova lab, CSBN Concordia University	<i>Midbrain dopamine neurons in appetitive and aversive states.</i>	Zoom 12 noon–1 PM
Friday Nov. 05 2021	Dr. Philip Jean-Richard Dit Bressel Postdoctoral Fellow Gavan McNally lab University of New South Wales Sidney, Australia	<i>Drivers of punishment insensitivity in rats and humans: A critical role for punishment contingency detection.</i>	Pre-recorded talk followed by Q&A on Zoom 10–11 AM
Friday Nov. 12 2021	Dr. Makoto Uji Postdoctoral Fellow Thanh Dang-Vu lab, CSBN Concordia University	<i>Simultaneous electroencephalography (EEG) - functional magnetic resonance imaging (fMRI) recording: Developments in methods and applications.</i>	Zoom 12 noon–1 PM
Friday Nov. 19 2021	Dr. Eisuke Koya Associate Professor of Psychology University of Sussex Brighton, UK	<i>Changes in appetitive associative strength and reward value modulate the intrinsic excitability and recruitment of nucleus accumbens neuronal ensembles.</i>	Zoom 11 AM–12 noon
Friday Dec. 03 2021	Jordan Charles M.A. Graduate Student Uri Shalev lab, CSBN Concordia University	<i>The effect of acute stressors on heroin seeking after punishment-imposed abstinence in male rats.</i>	Zoom 12 noon–1 PM
Wednesday Dec. 08 2021	Dr. Matthew Williams-Spooner Postdoctoral Fellow Mihaela Iordanova lab, CSBN Concordia University	<i>How prior learning regulates the mechanisms of learning and memory in the basolateral amygdala complex.</i>	Zoom 12 noon–1 PM
