

**CSBN Winter 2009
Colloquium
and Workshop
January 15-16, 2009**

**Center for Studies in
Behavioral Neurobiology**

**Thu Jan 15, 2009
Room SP S110**

4:10 pm

Colloquium

Michael Petrides, Ph.D
James McGill Research Chair
Director, Cognitive Neuroscience Unit
Montreal Neurological Institute
McGill University

Functional organization within the lateral frontal cortex for memory: Evidence from human and nonhuman primate studies. *(Keynote speaker for the CSBN Winter Workshop)* Host: Peter Shizgal

**Fri Jan 16, 2009
Room SP 157**

9:00 am

Winter Workshop 2009

Amir Shmuel, Ph.D.
Canada Research Chair in
Neuroscience and Brain Imaging
Dept. of Neurology & Neurosurgery
McGill University

Linking neural circuitry to psychological processes and behaviour: The role of functional brain-imaging data

Locally measured neurophysiological activity underlying functional MRI signals.

9:50 am

Coffee Break

10:00 am

Jorge Armony, Ph.D.
Canada Research Chair in Affective Neuroscience, Dept. of Psychiatry
McGill University

How (not) to study emotions using functional neuroimaging.

11:00 am

Student Data Blitz
- Clarisse Longo dos Santos
- Christopher Steele
- Jana Baranyaiova Frtusova
- Brian Dunn
- Levi Riven
- Linnaea Stockall

Virginia Penhune's group, Concordia U.
Virginia Penhune's group, Concordia U.
Natalie Phillips's group, Concordia U.
Peter Shizgal's group, Concordia U.
Roberto de Almeida's group, Concordia U.
Roberto de Almeida's group, Concordia U.

12:00 pm

Lunch (Room SP 244)

1:30 pm

Catherine Bushnell, Ph.D.
Anesthesia Research Unit
Director, McGill Centre for Research on Pain, McGill University

Neuroimaging: Insights into normal and pathological pain.

2:20 pm

Julien Doyon, Ph.D.
Dept. of Psychology
Scientific director of the Functional Neuroimaging Unit
University of Montreal

Brain plasticity associated with encoding and consolidation of motor skills.

3:10 pm

Panel Discussion
