

CSBN Seminars

Winter / Spring 2013

Center for Studies in Behavioral Neurobiology

Loyola Campus room SP 254-01
Fridays 11:30 am *(unless otherwise noted)*

Jan 18	Dr. Alanna Watt McGill University	Travelling waves in the developing cerebellum.
Feb 01	Dr. Daniel Salzman Kavli Institute, Columbia University	Cognitive signals in the amygdala.
Feb 08	Dr. Sabine Dhir McGill University	Estrogen receptor alpha and the regulation of individual differences in maternal care.
Feb 15	Dr. Alfonso Abizaid Carleton University	Born to be fat: endocrine disruptors as potential obesogens.
Mar 08	Dr. Naffisa Ismail University of Ottawa	Immune challenge during puberty causes neural and behavioral alterations.
Mar 15	Dr. Sandeep Sharma Université de Montréal	Neuroadaptations in the brain reward circuitry by palatable high-fat diet.
Mar 22	Dr. Jody Culham University of Western Ontario	Bringing the real world into the fMRI scanner: human neuroimaging of real object recognition processes.
Apr 05	Dr. Didier Jutras-Aswad Université de Montréal	The endocannabinoid system: vulnerability and treatment target for addictive disorders.
Apr 12	Dr. Garret Stuber University of North Carolina	Dissecting the neural circuits that mediate reward and aversion.
May 03 9:15 am RF 110	CSBN Spring 2013 Workshop	Sleep mechanisms and disorders: from cells to behavior.
