

CSBN Talks

Winter / Spring 2020

Center for Studies in Behavioral Neurobiology

Loyola Campus room SP 254-01
Fridays at 12 noon *(unless otherwise noted)*

Jan 24

Conall Mac Cionnaith
Graduate Student, W. Brake Lab
CSBN, Concordia University

The role of oxytocin in conditioned mate preferences in the female rat.

Feb 07 RF 110
Canceled due to
winter storm

Dr. Stephan Lammel
Assistant Professor of Neurobiology
University of California at Berkeley

Diversity of dopamine circuits in reward and aversion.

Mar 06

David Lau
Graduate Student, S. Fulton Lab
Université de Montréal

Impact of alpha/beta-hydrolase domain 6 in the ventral midbrain on feeding, body weight, and food reward.

Mar 20
Canceled due to
COVID-19 closure

Sarah Ferraro
Graduate Student, S. Amir Lab
CSBN, Concordia University

Effect of prenatal administration of valproic acid on circadian organization: implication for autism spectrum disorders.

Apr 03
Canceled due to
COVID-19 closure

Smita Patel
Graduate Student, W. Brake Lab
CSBN, Concordia University

The effects of ovarian hormones on progesterone receptors in the female rat hippocampus, dorsal striatum, and prefrontal cortex.

Apr 17
Canceled due to
COVID-19 closure

Dr. Salah El Mestikawy
Professor of Psychiatry
Douglas Research Centre
McGill University

Involvement of striatal cholinergic interneurons in the regulation of habit formation: potential consequence for anorexia?

May 01
Canceled due to
COVID-19 closure

Eshaan Iyer
Graduate Student, R. Bagot Lab
McGill University

TBA

May 08
Canceled due to
COVID-19 closure

Vasilis Pallikaras
Graduate Student, A. Arvanitogiannis
Lab and P. Shizgal Lab
CSBN, Concordia University

Temporal integration of optical excitation and firing fidelity of midbrain dopamine neurons.
