## 6. Social Services - Availability and Accessibility

For each item determine whether or not it is located within the site boundaries. If it is not, please indicate which community residents travel to for these services, and how far it is by personal car, both in time and distance. Add any additional relevant comments. For example, perhaps the elementary school has closed since 1998, or there has been a change in who provides a particular service. The key is to ask “What has changed?” of the person(s) you are speaking to.
