PREAMBLE

The Leonard & Bina Ellen Art Gallery (the “Gallery”) is part of Concordia University (the “University”) and is dedicated to the research, dissemination and critical examination of Canadian and international contemporary art. As part of its programming, it presents exhibitions, provides various educational programs and produces publications. Responsibility for all tasks related to the management, exhibition, research and conservation of the Gallery’s art collection is also part of its mandate.

Current Collection

Between 1962 and 2003, more than 1800 works were acquired by the Gallery on behalf of the University. This collection is heterogeneous. It is composed of historical, modern, contemporary and ethnographic works\(^1\) that fall under the rubric of Fine Art. These works were created primarily by 20th century Canadian artists and more specifically, in the 1960s and 1970s. The collection also contains several works of decorative art. Gifts comprise 80% of the Collection.

PURPOSE

In accordance with its mandate, and in keeping with its human, financial and material resources, the Gallery acquires works of art and views collecting as a complement to the activities that constitute its main public interest focus, namely the programming of exhibitions and art-related activities. This Policy has been formulated to facilitate the coherent development of the Gallery’s collection in compliance with the applicable rules of ethics, museological standards, and provincial, federal and international laws pertaining to cultural property.

In 1982, the Gallery received Category A designation from the Canadian Cultural Property Export Review Board (“CCPERB”), thus conferring on it the appropriate status to accept Gifts that may be certified as cultural property.

\(^1\) All ethnographic works are categorized and named according to their origins (e.g., Pre-Colombian, African, Roman).
THE LEONARD & BINA ELLEN ART GALLERY ACQUISITION POLICY

SCOPE

This Policy has been developed to rigorously frame the orientation of the content of Concordia University’s art collection in relation to the Gallery’s mandate and its programming. It must be fully adapted to the Gallery’s activities and ensure that the acquisition process respects the professional standards prevailing in today’s museums environment. The professional staff of the Gallery is conscious that these practices may need to be re-assessed from time to time and policies and procedures consequently adjusted.

This Policy has been formulated to guide the Acquisition Committee in its rigorous development of the Gallery’s collection. The objective underlying this Policy is to complement the Gallery’s programming by adding significant works to its collection. Its defining principles reflect the mandate of the Gallery which is dedicated to the research, dissemination and critical examination of Canadian and international contemporary art.

2. The Gallery and the vault specifically designed to conserve the works in the Collection are located in a space provided by the University, which also provides various professional services and routine maintenance of that space.

3. The Gallery also exhibits works from its Collection within the University and externally in accordance with guidelines and procedures established by the Gallery ("Procedures").

4. In accordance with the University’s *Policy on Gift Acceptance and Receipting* (VPDER-1), the Office of the Vice-President Development and External Relations shall issue an official charitable tax receipt in compliance with the *Income Tax Act* upon the Gallery’s written confirmation of the Acquisition of a work by way of a Gift.

5. Every five (5) years, the Director of the Gallery, in consultation with its Advisory Council and the Vice-President, Research & Graduate Studies shall review this Policy and may recommend revisions to the Vice-President, Research & Graduate Studies.
Collection Area

6. Given that the Gallery’s Acquisition activities go hand-in-hand with its mandate, its primary focus is on artistic works that address current issues related to its programming and that are likely to be of interest for generations to come as well as be the basis for research activities at the Gallery. The Acquisitions in this area are of works produced within the last ten (10) years that meet the selection criteria set forth in Section 18 below. A secondary focus are the gaps in the Gallery’s Collection of contemporary works (1968 to present) and modern works (1939-1968), but always with a view to maintaining coherence in its developing Collection. On the one hand, it targets significant works by artists who have significance for the history of Québec and Canadian art and who are not represented in the Collection. On the other hand, it seeks to acquire designated important works by major artists in the Collection that will significantly enhance their representation in the Collection. Works considered by the Gallery in this secondary area are selected in accordance with the criteria set forth in Section 18 below.

It should be noted that the Gallery is not mandated to acquire decorative art or historical and ethnographical bodies of work.

Acquisitions

7. There are two (2) modes of Acquisition for adding a work to the Collection: (i) by Gift and (ii) by Purchase. Regardless of the mode of Acquisition, all Acquisitions are considered on the basis of the same criteria and with the same thoroughness.

8. Acquisition proposals are submitted to the Gallery’s Curator (or Director), who is mandated to assess the admissibility of the proposals and to determine which will be considered for Acquisition. The Acquisition process shall be conducted according to the Procedures and begins when the Curator (or Director in his/her absence) prepares an Acquisition document for submission to the Acquisition Committee.

9. Gifts - The Gallery is involved in soliciting Gifts consistent with its Collection area and its mandate. It will consider unsolicited offers of Gifts but only in as much as they correspond to its collecting focus and respect its Acquisition criteria.

9.1 A transfer of ownership by way of Gift must be formalized in a written document.
9.2 Donors whose Gift proposals are accepted by the Acquisition Committee in accordance with Section 22 are issued a tax receipt in accordance with the University’s Policy on Gift Acceptance and Receipting (VPDER-1).

9.3 Works donated to the Gallery may be the subject of a Cultural Property certification application to the CCPERB. Should the Gallery’s Curator (or Director) choose to apply for such certification, in his/her sole discretion, the application to the CCPERB shall be prepared by the Gallery.

9.4 On an annual basis, the Gallery shall inform the Office of the Vice-President Research & Graduate Studies and the Gallery’s Advisory Council of all Gifts that have been accepted, if any.

10. Purchases - Once approved by the Acquisition Committee, a Purchase shall be made in accordance with the budget allocated to Gallery Acquisitions.

10.1 On an annual basis, the Gallery shall inform the Office of the Vice-President Research & Graduate Studies and the Gallery’s Advisory Council of all approved Purchases of works, if any.

11. Deaccession is an exceptional measure that must be taken in compliance with the relevant rules of ethics, museological standards, and relevant legislation. It is a measure of last resort and must be authorized by the Gallery’s Director. Deaccession can take place by way of donation to a third party, return to the rightful owner (Transfer), Exchange with another institution, sale or destruction.

12. All works acquired by the Gallery are added to the Collection on a permanent basis and a long-term Loan to another institution is always favored over Deaccession.

13. The deaccessioning of a work by way of Donation or Exchange is conditional upon identification of a new conservation location for the work concerned. The new location must be suitable regarding the conservation and disseminating of the work in question. The deaccessioning of a work must be based on criteria set forth in this Policy.

14. Deaccessioning may be considered only in one or more of the following cases:

15. Deaccessioning a work must be made with the full knowledge of the value of the work concerned. In addition, when Deaccessioning Donated works, the Gallery and the Acquisition Committee must bear in mind the legal as well as public perception consequences of such a decision given its role as an institution that houses a public collection.
