3.1 Update on the search for the Vice-President, Research and Graduate Studies

Dr. Lajeunesse apprised the Board that the Advisory Search Committee had arrived at a decision to present one candidate to an open meeting of the Board and Senate to be held on Thursday, June 29, at 9 a.m. The announcement to the University community will be sent out immediately after the Board meeting, and a separate email will be sent to Governors and Senators by Ms. Tessier.

The President added that the Committee will meet once thereafter and formulate a recommendation for approval by the Board at a special meeting that will be convened on Monday, July 10, at 10 a.m., by conference call, the details of which will be sent to all Board members by Ms. Tessier next week.

4. Report and recommendations of the Budget Committee

The Chair of the Budget Committee, Mr. George Hanna, prefaced Vice-President Larry English's presentation on the operating budget by reporting that the Committee had met twice, on May 3 and June 7, to approve the 2006/2007 budget. Two meetings had been required to deal with the reality of stagnant funding amid rising costs.

Mr. Hanna apprised the Board that the budget forecasts a deficit of \$5 million. While traditionally Concordia has been fiscally responsible, the situation is difficult but management has undertaken the steps towards achieving a balance budget. However,

Mr. Hanna pointed out that while Concordia shares a deficit situation with its sister institutions in the Quebec network, Concordia's is less.

Using a power point presentation, Mr. English began by conveying that revised budget assumptions with respect to the deferral of the filing of the pension plan solvency report had generated \$2.950 million in savings, resulting in a revised projected deficit of \$4,236 million for 2005/2006.

With respect to the proposed 2006/2007 operating budget, Mr. English outlined the various assumptions, which include an anticipated additional 500 FTEs without any significant government reinvestment in education, with at best, only partial funding for the cost of living increase. Mr. English outlined the budget process, which includes an undertaking by management to take the first step towards a zero-based approach to budgeting in the 2007/2008 budget year.

For the current year, decisions needed to be taken to limit the level of the anticipated deficit while pursuing the academic goals. He did a reconciliation of expenses per sector - academic, support sector and building and grounds - explaining the reasons for increases and/or decreases compared to the 2005/2006 budget.

Pursuant to Mr. English's presentation, a discussion ensued, during which Governors posed questions and commented on the budget.

4.1 Approval of the 2006-2007 Operating Budget (Documents BG-2006-5-D4 and D5)

Upon motion duly moved and seconded (Hanna, Sévigny), it was unanimously RESOLVED:

R-2006-5-8 *WHEREAS the Budget Committee delayed its recommendation one month in order to allow senior administration to identify further elements that would reduce the proposed operating deficit for 2006-2007;*

WHEREAS senior administration has undertaken to embark on a zero based budget review of all its activities, to provide a preliminary report to the Board before December 2006 and a final report in the Spring 2007;

WHEREAS senior administration will provide, by the Fall 2006, two scenarios going forward, one which assumes that the widely reported proposed additional post secondary institutional funding from the Quebec Government has been confirmed and, a second which assumes that no such additional commitments are confirmed;

BE IT RESOLVED:

THAT upon the recommendation of the Budget Committee, the 2006-2007 operating budget be approved, as outlined in Documents BG-2006-5-D4 and D5.

4.2 Approval of the 2005-2008 Capital Budget (Document BG-2006-5-D6)

Upon motion duly moved and seconded (Hanna, Lengvari), it was unanimously RESOLVED:

R-2006-5-9 *THAT upon the recommendation of the Budget Committee, the 2005-2008 capital budget be approved, as outlined in Document BG-2006-5-D6.*

5. Presentation on performance indicators (Document BG-2006-5-D7)

Mr. Bradley Tucker, Director, Institutional Planning Office, indicated that the academic consultative process had called for a variety of strategic and operational measurements to gauge the attainment of the goals and objectives set out in the Academic Plan. He apprised Governors that this report is the first iteration of a process that will refine measurements with a view to making them successively more useful in academic and strategic planning.

Mr. Tucker outlined the primary data sources for the report. Much of the data were drawn from internal sources. For comparative measurements, data from independent sources, such as the databases from various granting and research councils, was favoured. Concordia also joined several data-sharing consortia in order to broaden its access to valid, reliable, comparative data. The recently-conducted reputation survey provided data regarding how Concordia is viewed across Canada.

Mr. Tucker continued his presentation by detailing some of the measurements contained in the report and what they track in relation to specific challenges set out in the Academic Plan.

A copy of the full report entitled *Measuring Excellence at Concordia University* was handed to Governors, who were invited to address any comments or questions they had with respect to the report to Ms. Tessier, who would forward them to Mr. Tucker.

10. Concordia Student Union (CSU) fee levies (Documents BG-2006-5-D11 and D12)

Mr. Chan voiced his opposition to the collection of the fee for the Centre for Gender Advocacy, arguing that the services were already provided for and also stating that the question should have been addressed separately in fairness to JMSB and ENCS students who were bearing an increase of \$0.29 per credit as opposed to \$0.02 per credit for the others.
