1 Concordia University
1.1 Concordia

Concordia University established in August 1974, joins together Sir George Williams University and Loyola of Montreal. Its name reflects the motto of the City of Montreal “Concordia salus”. The University has two campuses: the Sir George Williams Campus, grouped around the Henry F. Hall Building at 1455 de Maisonneuve Boulevard West, in the heart of Montreal, and the Loyola campus in the west end, 7141 Sherbrooke Street West — a concrete and a green campus.

The University offers undergraduate degrees in six Faculties. The Faculty of Engineering, the Faculty of Commerce and Administration and the Faculty of Fine Arts give courses on both campuses. The other Faculties are: The Sir George Williams Faculty of Arts; the Sir George Williams Faculty of Science; the Loyola Faculty of Arts and Science. The Master’s degrees awarded by Concordia University are: Master of Arts; Master of Engineering; Master of Business Administration; Master of Computer Science; Master in the Teaching of Mathematics. Doctorates are awarded in Chemistry; Economics; Engineering; History; Humanities; Physics; Religion. The University also offers post-graduate diploma programmes in: Art Education; Communication Arts; Early Childhood Education; Institutional Administration; Instructional Technology; the Teaching of Mathematics.

Enrolment in the 1975-76 academic year was:
- full-time undergraduate students . . . . 9,400
- part-time undergraduate students . . . . 11,880
- graduate students . . . . . . . . . . 4,460
- other, non-degree students . . . . . . . 6,320

In addition to the programmes described in this calendar and the graduate studies calendar, the University offers a wide range of summer programmes on both campuses.

1.2 The Campuses of Concordia

Libraries
The Sir George Williams Campus library collection contains some 600,000 books, periodicals and government publications and 250,000 items in microform and audio-visual materials. The collection is expanding.

The main library containing the bulk of the collection is located in the Norris Building. The Science and Engineering library is situated on the 10th floor of the Hall Building.

Loyola Campus libraries provide resources and services for that campus’ students and teaching faculty. The resources include approximately 250,000 volumes; selected Canadian, Quebec and foreign government documents; films and slides, microfilm, and subscriptions to about 4,000 serial publications.

Laboratories
The university has 100 laboratories on both campuses with modern equipment for teaching and research in Biology, Chemistry, Physics, Engineering, Statistics, Psychology, Geography, Languages and Communication Arts.

Art Galleries
There are three art galleries on the mezzanine floor of the Henry F. Hall Building as well as open display areas. The galleries house an extensive collection of Canadian art including paintings, drawings, graphics and sculpture. There is a continuous programme of outside exhibitions and shows by students and faculty members. The galleries are also used for concerts, poetry readings, guest lectures and other cultural events.

Theatre and Studios
The Douglass Burns Clarke Theatre, located in the Hall Building serves the Theatre Arts Section on the Sir George Williams Campus. Student and other productions are given regularly through the academic year.

Studios for work in Fine and Applied Art are also located in the Hall Building. Theatres on the Loyola Campus include the F. C. Smith Auditorium and the small arena type “match box” theatre, The Chameleon.

Audio Visual Facilities
The Audiovisual Department has offices on both campuses, through which access can be arranged to the common pool of resources. These include television and sound studios, language laboratories, distribution centres for equipment and supplies, units for the production of materials in film, graphics, photography, TV and audio, and a visual media service specializing in the research and procurement of films and videotapes.
The Academic Calendar is subject to change without notice. Effort will be made to publicize revisions.

OFFICERS OF THE ADMINISTRATION

RECTOR: JOHN W. O'BRIEN, PhD

Executive Assistant to the Rector:
F. MICHAEL SHELDON, MA
Assistant to the Rector, Public Relations:
J. STIRLING DORRANCE, MA
Secretary to the Senate:
JOHN W. NOONAN, BSc

VICE-RECTOR, ACADEMIC:
JACK BORDAN, MScENG
Associate Vice-Rectors, Academic:
DAVID MCDONAGH, PhD
Associate Vice-Rectors, Academic:
J. R. McBRIDE, MA
Associate Vice-Rectors, Academic Planning:
J. H. WHITELAW, MA
Director of Continuing Education:
D. J. POTVIN, BA BEd

University Research Officer:
AUDREY WILLIAMS, MSc
Faculty Personnel Officer:
ROSLYN MUEER, BA

SIR GEORGE WILLIAMS
FACULTY OF ARTS:
Dean: IAN L. CAMPBELL, MSc
Associate Dean:
MURIEL ARMSTRONG, MA
Associate Dean: MICHEL DESPLAND, PhD
Assistant Dean: GERALD MAHONEY, MA

LOYOLA FACULTY OF ARTS & SCIENCE:
Dean: RUSSELL BREEN, PhD
Assistant Dean: W. E. AKIN, PhD
Assistant Dean: ROBERT PALLENG, PhD
Assistant Dean: EILEEN M. PRESTON, MA

SIR GEORGE WILLIAMS
FACULTY OF SCIENCE:
Dean: ROGER VERSCHINGEL, PhD
Assistant Dean: L. S. ADLER, MA
UNIVERSITY FACULTY OF COMMERCE AND ADMINISTRATION
Dean: ANDREW BERCI, PhD
Associate Dean Loyola Campus:
L. J. BOYLE, PhD
Assistant Dean: H. S. TUTSCH, LLB
Assistant Dean: ROLAND O. WILLS, MBA

UNIVERSITY FACULTY OF ENGINEERING:
Dean: J. CLAIR CALLAGHAN, MSc(Eng)

13.2 Classification of Students

1) Undergraduate Students: Undergraduate students are those who meet the full admission requirements of the university and who have been formally accepted for admission to a Faculty of the university. These students enroll in either the Day or Evening Division with the intention of completing the work required for a degree. If a student is admitted to a degree programme, he will be classified as an undergraduate whether he is taking several subjects or only one in any given year.

2) Mature Students: Mature students are those who are at least twenty-one years of age, who do not possess the minimum academic requirements for admission to undergraduate studies, but who have been formally admitted to a programme of study leading to an undergraduate degree, on the basis of potential to undertake such studies.

3) Certificate Students: Certificate Students are those who meet the full admission requirements of the University and who have been formally admitted into a certificate programme. These students enroll in either the Day or Evening Division with the intention of completing the work required for a certificate.

4) Independent Students: Students who do not wish to proceed to a degree or certificate irrespective of the number of courses they may be following in any given year are classified as independent students. Students who register as independent students are not
considered to have satisfied the undergraduate admission requirements and have no standing towards any degree at the University. If an independent student later transfers to undergraduate standing, he may receive credit towards his degree for the courses already taken, provided they are applicable towards the degree requirements at the time of transfer.

13.4 Admission Requirements

13.4.1 Quebec

A) Successful completion of a two-year pre-university programme in a CEGEP, or CEGEP-equivalent programme, with the award of a Diploma for Collegial Studies.

B) Within this general programme, successful completion of whatever specific courses are required for entry into a given undergraduate programme. These pre-university "profiles", established through joint action of the Quebec universities and the Department of Education of the Province, will be found in the Department of Education booklet, "Accueil 76 - Structures d'accueil aux études universitaires de premier cycle pour septembre 1976". For the convenience of applicants, requirements are listed in each Faculty section of this calendar.

C) The completion of certain three-year technological programmes leading to a Diploma for Collegial Studies will also satisfy the requirements for admission.

13.4.2 Other Provinces

Non-Quebec students may be considered for admission to undergraduate programmes of 90 credits or approximately 120 credits leading to the above-mentioned degrees. The duration of the programme will be determined by the entrance qualifications.

Students from other Canadian Provinces who have completed Grade 12 with an overall average of at least 65% in appropriate subjects or the Junior Division at Memorial University, Newfoundland will be considered for entrance into an extended undergraduate programme of approximately 120 credits. Ontario Grade 13* graduates with a minimum overall average of 65% in appropriate courses may be admitted into a 90 credit programme.

13.4.3 United Kingdom and Commonwealth

Students at Concordia University may attend full-time or part-time. Full-time students are those registered for 24 or more credits per academic year, or its equivalent. Part-time students are those who carry less than 24 credits per academic year, or its equivalent.

The normal full-time course load is 30 credit hours per year.

13.4 Admission Requirements

13.4.1 Quebec

A) Successful completion of a two-year pre-university programme in a CEGEP, or CEGEP-equivalent programme, with the award of a Diploma for Collegial Studies.

B) Within this general programme, successful completion of whatever specific courses are required for entry into a given undergraduate programme. These pre-university "profiles", established through joint action of the Quebec universities and the Department of Education of the Province, will be found in the Department of Education booklet, "Accueil 76 - Structures d'accueil aux études universitaires de premier cycle pour septembre 1976". For the convenience of applicants, requirements are listed in each Faculty section of this calendar.

C) The completion of certain three-year technological programmes leading to a Diploma for Collegial Studies will also satisfy the requirements for admission.

13.4.2 Other Provinces

Non-Quebec students may be considered for admission to undergraduate programmes of 90 credits or approximately 120 credits leading to the above-mentioned degrees. The duration of the programme will be determined by the entrance qualifications.

Students from other Canadian Provinces who have completed Grade 12 with an overall average of at least 65% in appropriate subjects or the Junior Division at Memorial University, Newfoundland will be considered for entrance into an extended undergraduate programme of approximately 120 credits. Ontario Grade 13* graduates with a minimum overall average of 65% in appropriate courses may be admitted into a 90 credit programme.

*Those applying from Grade 13 to Engineering or Computer Science (Electronics/Systems or General Science options) will, in general, require four years to obtain the degree.

13.4.3 United Kingdom and Commonwealth

In order to be considered for admission into a 90 credit undergraduate programme, applicants must present five General Certificate of Education papers including at least two at the Advanced Level. Those wishing to enter the Faculty of Engineering-Bachelor of Engineering or Bachelor of Computer Science (General Science Option or Electronics/Systems Option) – must offer Advanced Level passes in Mathematics and Physics. Applicants to the Faculty of Science are normally expected to have Advanced Level passes in Mathematics and one Science. Candidates for admission to the Faculty of Commerce or the Bachelor of Computer Science (General Business Option) should include an Advanced Level paper in Mathematics. Any two acceptable Advanced Level papers will satisfy the requirements for admission to the Faculty of Arts or the Faculty of Fine Arts.

For entrance to the Engineering Faculty, Higher National Certificates and Diplomas with passes at an appropriate level may be accepted in lieu of Advanced Level passes.
Students with better than average results in five acceptable Ordinary Level papers plus one full year of formal schooling beyond Ordinary level may be considered for admission to an extended undergraduate programme of approximately 120 credits.

Applicants from Hong Kong who have received the Hong Kong Certificate of Education (English) with good grades in five subjects and have completed one year of Form VI or hold the Hong Kong Certificate of Education (Chinese) with good grades in five subjects and have passed the Chinese University of Hong Kong Matriculation Examination may apply for admission to an extended undergraduate programme of approximately 120 credits.

Applicants to a four year undergraduate programme in Engineering or the extended credit programme in Science are normally expected to have Mathematics and at least one Science subject; those applying to Commerce are advised to have Mathematics as part of their entrance qualification.

13.4.4 UNITED STATES

High School graduates from accredited schools who have followed an academic programme designed for university entrance may apply for admission to an extended undergraduate programme of approximately 120 credits. Applicants are required to have a better than average school record and a suitable high ranking in their graduating class. While no set pattern of courses in high school is required, all applicants are expected to have taken four units of English. Those applying for admission to Science and Engineering must include three or four units in Mathematics and two in the Sciences. At least three units of Mathematics are recommended for admission to Commerce. The Committee on Admissions may approve slight deviations from the above pattern.

Students who have successfully passed Advanced Placement examinations in appropriate subjects with a grade of '3' or better will be granted some advanced standing.

An applicant seeking admission on the basis of one full year of undergraduate study may qualify for admission to a three-year or 90 credit programme. Students transferring with more than one year of undergraduate study, will be considered for an appropriate level of placement within the 90 credit undergraduate programme at this university. A minimum number of courses are required to fulfill degree residence requirements. Further information may be obtained by writing to the appropriate Office of Admissions.

13.4.5 OTHER COUNTRIES

The following national certificates are recognized as qualifications for entrance to the undergraduate programmes provided that better than average grades have been attained. More specific information with respect to admission requirements and placement levels may be obtained by writing to the Office of Admissions.

13.5 Application for Admission

It is recommended that application for admission be made as early as possible on forms provided by the Office of Admissions. Academic certificates and other supporting documents not available at the time of application must be submitted as soon as they become available. Applicants are advised to apply early in order to allow sufficient time for evaluation and review of their application by the Office of Admissions. Final dates for the receipt of applications may be obtained by contacting the appropriate Office of Admissions.

13.5.1 ENTRY DATES

Students are admitted as Day under-
graduates in September and January. Evening undergraduates are admitted in September, January, and May. Day undergraduates are also admitted to the Loyola Campus in June, for Summer School, Day or Evening. The normal entry date for new Foreign Students is September.

13.6.4 LANGUAGE PROFICIENCY

Any person applying from outside Canada, whose first language is other than English, must demonstrate that he is proficient in the English language by writing either of the following tests:

1. Test of English as a Foreign Language, (TOEFL)
   Educational Testing Service, Princeton, New Jersey, 08540, U.S.A.

2. The University of Michigan English Language Test,
   English Language Institute, Testing and Certification Division, The University of Michigan, Ann Arbor, Michigan, U.S.A.

Information and applications to write either test must be obtained by writing directly to these test centres. It is the responsibility of each applicant to arrange to sit the Michigan or TOEFL test and to have the results reported directly to the Office of Admissions. Applicants should contact the test centre as soon as possible in order that results of their test do not delay or prevent their acceptance. An application will not be considered before the test results have been received by the Office of Admissions. All such students will be required to take a further examination upon arrival to determine their level of proficiency. Students of acceptable proficiency may pursue their planned course of studies. Others may be required to include an English language course as part of their programme.

13.6.5 CONCORDIA ENGLISH LANGUAGE DIAGNOSTIC TEST

Those applying from within Canada whose first language is other than English and who have had all or part of their secondary schooling in another language must write the Concordia English Language Diagnostic Test as part of the application
ADMISSION REGULATIONS
13.6.5
CRITERIA FOR ADMISSION: CONCORDIA ENGLISH LANGUAGE DIAGNOSTIC TEST

procedure. An application will not be considered before this test has been written. Persons of acceptable proficiency may pursue their planned course of studies. Others may be required to include an English Language course as part of their programme.

Canadian applicants whose first language— or language of previous instruction—is French are not required to write an English Language test unless they are applying for the Teaching English as a Second Language course.

13.7 Selection Process and Notification

The University reserves the right to refuse admission to any programme even when the stated requirements for entrance have been satisfied.

Admission to undergraduate studies is based on a careful review of all credentials presented on behalf of a candidate. An application for admission is not given final consideration until all the required items have been submitted. However, the university does have an Early Conditional Admission Plan for applicants to the undergraduate programme.

13.7.1 EARLY CONDITIONAL ADMISSION

Applicants seeking admission to the undergraduate programmes may be granted a conditional acceptance on the basis of former records of study which should include mid-year results for the current year. Acceptance is contingent upon the student's successful completion of the final semester of study and upon meeting the prescribed academic admission requirements. Candidates admitted on the basis of Early Conditional Admission are, in general, notified prior to May 15.

13.7.2 LIMITED ENROLLMENT

In some programmes the number of qualified applicants may exceed the number of places available. The possession of the minimum requirements does not in itself guarantee admission to any of the programmes.

13.7.3 TRANSFER STUDENTS

An applicant who has attended another university and wishes to transfer to the undergraduate programme at Concordia should understand the following conditions:

1) Each application for admission with advanced standing is considered on its own merit.
2) A student will not be given credit for courses taken in another university during the same academic term in which he has registered for courses at Concordia University, unless special permission has been obtained in advance from this university.
3) Any student who has registered at Concordia University and who wishes to take courses at another university for transfer of credit to Concordia University should first have the courses approved by Concordia.
4) A student may not apply transfer credits towards the residence years at the university unless special permission has been obtained from the appropriate Faculty Council (see Residence Requirements).

13.8 Mature Students

Admission to the first year of an undergraduate programme of a minimum of 120 credits may be granted to Mature Applicants. Mature Students may enroll as either full-time or part-time students. A Mature Applicant is defined as a candidate for admission who:

a) does not satisfy the normal academic requirements for admission, but who seeks admission on the basis of potential to undertake an undergraduate programme.

b) will be at least twenty-one years of age within the calendar year in which the programme is entered.

c) has either been out of school for twenty-four months since the age of eighteen, or has been out of school for twelve months with no unfavourable academic record in the past twenty-four months.

Out of school means away from full-time study in an educational institution. Mature Students who are twenty-five years of age or older within the calendar year in which they commence the programme may enter a 108 credit undergraduate programme in the Faculty of Arts, Arts and Science (BA), Fine Arts, and Commerce and Administration. Those entering the Faculty of Science, Arts and Science (BSc), and Engineering will have their requirements determined in consultation with an advisor.

Students will not be accepted into a field of course concentration until they have successfully completed 30 credits in the programme. Courses which have been taken as part of these 30 credits and which are required courses in a given undergraduate programme will be replaced by electives.
within the discipline or field. Each application will be considered on its own merit. A birth certificate or other acceptable proof of age must be submitted together with all former records of study and any other documentation which may demonstrate potential to undertake undergraduate work.

13.9 Admission as an Independent Student

University undergraduate entrance requirements are expected, but may be waived for independent students over twenty-one years of age, who have, through other experiences, the essential background for the course or courses. Nevertheless, the university reserves the right of decision as to the independent student's eligibility and, in certain cases, the right to ask for proof of appropriate university entrance requirements.

While independent students following single courses of interest are encouraged to enroll, priority will be given to students proceeding to a degree. Students should contact the Admissions Office for the proper procedure to follow.

13.10 The Process of Admission

How to Apply
Submit an application for admission to the appropriate Admissions Office as soon as possible.

It is the responsibility of the applicant to insure that all the supporting documents are submitted as an application can not be considered for admission until it is complete.

Enclose with your completed application forms all documents that are now available. You should submit copies of your High School Leaving Certificate which must include a certified list of final marks in each subject, if applicable. Readable photocopies are acceptable. Former CEGEP or University transcripts are not to be submitted by you but must be sent directly to the Admissions Office by the Registrar of your previous institution.

Applicants presenting certificates in a language other than English and French:

(1) You are required to submit:
(a) the original certificate or, preferably, notarized photostatic copies of these certificates.
(b) notarized English translation of these certificates.

(2) When the certificates do not include the subjects and the grades achieved in the individual subjects, you must submit certified statements from authorized officials of the institutions attended, or submit statutory declarations giving the required information.

13.11 Curriculum Obligations

Where a student acquires a credit toward a degree, diploma or certificate in a discontinuous manner and over a protracted period of time subsequent to his admission, the University reserves the right, at any time, to require such student to take further credits in order to obtain that degree, diploma or certificate.
15 Tuition and Fees
15.1 Tuition and Fees

The University reserves the right to change the published scale of fees without notice.

</tbody>
</table>

In addition to the fees set out above, students are required to pay certain Student Service Fees, Student Association Fees and other miscellaneous charges. The current rate of these fees and charges can be obtained from the Student Accounts Offices.

15.2 Payment of Tuition and Fees

Fall Registration—
Payment of tuition and other fees may be made in accordance with one of the following options:

a) payment in full at registration.
b) payment in two instalments—
1. at registration—one half tuition plus all other fees plus $5.00 deferred payment fee.
2. on November 1—balance.
c) payment in four instalments—
1. at registration—one quarter of tuition plus all other fees plus $10.00 deferred payment fee.
2. on November 1—one quarter of tuition.
3. on December 1—one quarter of tuition.
4. on January 1—balance.

Summer and Winter Registration—
Payment of tuition and other fees may be made in full at registration or in two instalments similar to those set out in b) above.

An additional charge of $5.00 will be made if installment payments are not made on their due dates.

A charge of $5.00 will be made for cheques returned for any reason.

Failure to make payment, or to arrange satisfactory settlement, of amounts owing to the University when they become due is sufficient cause to bar the student from classes or examinations, and to withhold diploma, scholastic certificate or transcript of record until the debt is adjusted with the University.

Registration is not considered complete until satisfactory arrangements have been made for the payment of fees.

All contracts are subject to revision for the adjustment of errors or omissions.

15.3 Course Cancellation, Withdrawals and Adjustments

Students who withdraw from courses or from the University must comply with the requirements set out in the section “Academic Regulations” § 16.1.4 and § 16.2.13 of this calendar in order to qualify for a rebate of tuition according to the following scale:

Prior to the commencement of classes—full rebate of tuition minus the lesser of 6% of tuition or $25.00.

<table>

- 16.2.25 Plagiarism, Undergraduate

New Concordia Academic Regulations are under study and may be enacted by Senate prior to the 1976-77 academic year. In the interim the appropriate governing regulations are listed below classified by academic degrees.

Students registered in:
- BA (Loyola), BSc (Eng), BSc (Loyola), Section 16.1
- BA (SGW), BComp Sc., BEd (SGW), BEng, BFA, BSc (SGW), Section 16.2

New Students registered in the Bachelor of Commerce or the Bachelor of Administration degree will follow an interim set of standard regulations to be published before June 1, 1976.
16.1 Academic Regulations
Loyola Campus

16.1.1 STATUS

Full-time students are those registered for the equivalent of 24 credits or more a year, or the equivalent of 12 credits or more each term.

Part-time students are those registered for the equivalent of less than 24 credits a year, or the equivalent of less than 12 credits each term.

A degree candidate is a student proceeding to a degree.

An Independent student is one who is not proceeding to a degree.

Full-time students in the degree programme will normally require three (3) calendar years to obtain a Bachelor’s degree. The normal course load for each year is thirty (30) credits. A student may accelerate his/hers programme by taking an increased work load. This requires the permission of the Department Chairman and of the Dean and is limited to 6 credits more than the year’s load prescribed in the departmental programmes. Courses taken during the regular session at another university or campus must be counted as part of the year’s work load. Courses taken in the Summer School are not included. Permission for accelerated programmes is reserved for students who have maintained a 70% average or more in the previous year on a full work load. Normally a student may not register for more than four (4) academic years as a full-time student. Part-time students who are degree candidates may follow a programme exceeding four (4) calendar years.

The residence requirement for a first degree is a minimum of 45 credits.

To continue in a programme as a degree candidate, a student must have passed two-thirds of the cumulative total of courses for which he is registered. This cumulative total includes repeated courses and all courses taken in equivalent programmes at other institutions. A student who fails to fulfil this minimum requirement must withdraw. In order to meet the requirements to re-register, a student may be permitted to take courses in the Summer School. This requires the approval of the Department Chairman, and is subject to meeting the registration requirements of the Summer School. A department may recommend that a student be allowed to re-register in that department even though the above conditions have not been met.

Students should consult the chairman of their department to determine the requirements for each type of degree. Normally, a candidate for an honours degree must maintain a minimum of 65% in each of the courses in his department.

16.1.2 HONOURABLE MENTION

Degrees may be awarded with one of the following designations, provided that a minimum of 60 credits have been taken at this institution:

**Summa Cum Laude** — For an overall average of 90% or more in the courses taken at this university.

**Magna Cum Laude** — For an overall average of 80% to 89% in the courses taken at this university.

**Cum Laude** — For an overall average of 70% to 79% in the courses taken at this university.

Courses for which the students received “Credit” or which were graded on a Pass-Fail basis will not enter into the calculation of this average.

16.1.3 CREDIT

Normally one (1) full course is equivalent to six (6) credits for three (3) hours of lectures per week for two (2) terms. It may be possible to take half of a full course (three (3) credits) with the consent of the department concerned.

External Credit

A student who is registered as a full-time student at this university may obtain credit towards his/her degree for courses taken at another university, provided he/she has received prior approval of the course of study from his/her Chairman and Dean. It is the responsibility of the student to ensure that the course of study will satisfy the requirements of his/her programme. Only in exceptional circumstances may a student complete his/her final year at another university.

Para-Academic Activity

A student may undertake a research project in conjunction with a para-academic activity for academic credit if the project is accepted by the Para-Academic Credit Board.

Para-Academic Activity is any ongoing activity which is not sponsored by departments or disciplines per se; but which allows within its range the possibility of research and reflection on the activity, and whose merit can be measured by a sponsor.
A Para-Academic Project is an undertaking by a single student which can be evaluated by a sponsor. Each project may last no more than one (1) academic year, and shall be the equivalent of three credits. The number of credits given for Para-Academic Activity shall be no more than six (6) spread over three (3) university years. A project may take the place of an elective, but not of a required course.

The Sponsor of a project must be a full or part-time member of the faculty, and may be a sponsor normally for not more than three (3) people.

The student selects the project and possible sponsor(s), and with the approval of the sponsor(s), submits a coherent outline of the proposed project to the Para-Academic Credit Board.

To be accepted, the project must meet the criteria of activity, reflection and presentation. With sufficient activity, resources and innovative ideas, the student must demonstrate that he/she has the means of completing the project, and that it will benefit him/her as a person within the context of his experience.

Independent Studies

It is the intention of this programme to provide encouragement to those students who show extraordinary commitment to independent studies and/or research as well as to remedy a lack of efficient channels for processing, evaluating and accrediting worthy independent research projects — whether they be carried out in academic, governmental or business institutions. It is hoped that I.S.P. projects will take into account not only the student’s prior formal education but prior life-experience, work and independent studies as well as his/her future objectives; and to do this in a way that is not possible within the proper limits of established disciplinary boundaries. It is envisioned that credits obtained through the I.S.P. will be integral of the student’s regular academic programme.

For detailed information concerning this programme (i.e. rules for project eligibility) please apply to the Director of the I.S.P., Dr. Dennis O’Connor (Assistant Professor, Philosophy).

16.1.4 REGISTRATION

Students must register annually at the times specified in the Academic Calendar. Each student must register according to degree, department, programme, year (e.g. BSc Honours Mathematics 2) and courses.

Change of Registration includes transfer from one department to another. This option is not open to students who have been required to withdraw from a programme.

“Change of Registration” forms are available at the Records Office and require the approval of the Chairman of the Departments and of the Dean. A student who wishes to change his/her registration must observe the deadlines listed in the Academic Calendar:

A) Changes Involving Registration in a New Course.
First term 3 credit or 6 credit course — registration must be completed before Monday, September 20th. 
Second term 3 credit course — registration must be completed before Tuesday, January 18th.

B) Changes Involving Only the Dropping of a Course.
First term 3 credit course — registration must be changed by Monday, November 1st.
6 credit course or second term 3 credit course — registration must be changed before Monday, February 28th.

16.1.5 GRADUATION

Degree candidates who expect to complete the requirements for a degree in a particular year must contact the Registrar’s Office to make application for that degree. Forms are provided by the Transcript Office, Room C213, and must be submitted before the date indicated in the Academic Calendar.

Second Bachelor’s Degree

A candidate must register in an established programme with a higher degree of concentration than a minor. He/she must complete 60 credits in courses other than those credited towards the first degree at least 36 of which must be taken in the new field of specialization.

16.1.6 GRADING AND EXAMINATIONS

Grading is the responsibility of the department in which the course is given. Part of the final grade in a course will be given to term work, which includes written assignments, seminar and tutorial participation, laboratories and term tests. The weight given to each of these items is decided by the individual instructor, subject to the approval of the department. The maximum proportion of the final grade which may be allotted to term work is 70%.

Normally, final written examinations are given in all courses at a time and place determined by the Registrar. A department may decide, however, that no final exam will be given in a particular course. This must be approved by the Dean of the Faculty, and communicated to the Registrar within the first four weeks of the course.

While the language of instruction in Concordia University is normally English, students have the right to write their assignments and examinations in French. It must be understood, however, that in a case where an instructor cannot read French, the assignments or examinations will have to be read by another person, with possible resulting disadvantages and delays for the student. Students are advised to enquire of the instructor at the beginning of their course whether he or she will personally read the assignments and/or examinations written in French. Notwithstanding the above, language departments may require

ACADEMIC REGULATIONS

LOYOLA CAMPUS: GRADING AND EXAMINATIONS
ACADEMIC REGULATIONS 16.1.6
LOYOLA CAMPUS: GRADING AND EXAMINATIONS

Assignments and examinations to be written in the language being studied.

A student doing a Para-Academic Activity Project presents the final report to the sponsor, who grades the project and transmits the grade to the Para-Academic Credit Board. The Board transmits the grade for credit, together with a brief description of the project, to the Registrar.

Students are expected to attend all lectures, seminars, tutorials, and laboratory periods for which they are registered.

Each student will receive a final grade in each course for which he/she is registered. All final grades will be submitted on a numerical basis, including Pass-Fail courses. All final grades will require the approval of the Dean of the Faculty.

The grading scale for individual courses is:

- A — First Class .............. 80% and over
- B — Second Class ........... 65% to 79%
- C — Third Class ............ 55% to 64%
- D — Pass .................... 50% to 54%
- F — Failure ................ less than 50%

The following categories are also used:
- Pass/Fail
- Cr. — Credit ................ 50% and over
- Aegrotat Standing

Supplemental Examinations

In certain cases when a student has failed the final examination, he/she may be given a second opportunity to write a final examination paper.

Supplemental Privileges are restricted to Science courses which are prerequisite.

To be eligible any student must have a failing grade of not less than 50% and must have the approval of the department in which the course is offered as well as the approval of the Chairman of the department in which he/she is registered. Not more than two Supplementals will be granted in any one academic year (not including Summer School). It is the responsibility of the student to make written application to the Assistant Registrar by the deadline specified in the Academic Calendar.

Special Examinations

If a student is unable to write a final examination or to complete the required work in a course because of accident, short illness, death in the family or for some other valid reason, he/she may apply to write a Special Examination. The application, accompanied by the pertinent documentation, should be made in writing to the Registrar. The application must be made within the prescribed time limit. In certain cases, a department may recommend an alternative course of action.

Aegrotat Standing

If a student is unable to write a final examination or complete the required work in a course because of prolonged and serious illness, he/she may apply for Aegrotat Standing in that course. The application, accompanied by the pertinent documentation, should be made in writing to the Registrar. The department may recommend a grade or the award of a credit.

Pass-Fail Courses

A full-time degree candidate may choose to take up to 30 elective credits (not more than 12 in one (1) academic year) that will be graded either Pass or Fail. The courses marked in this way will not enter into the student’s average. This option must be exercised within four weeks of the beginning of the course. The student’s decision must be sent to the Registrar.

Cheating and Plagiarism

Essays and research papers should demonstrate the student’s ability to think originally and to use sources intelligently. Plagiarism represents a failure to think critically or creatively, and will usually result in at least a failing grade for the assignment.

In general, plagiarism is an attempt to “pass off” the words or ideas of another author as one’s own. It includes verbatim copying or translating and/or paraphrasing directly or through translation without acknowledging the source by footnotes or quotation marks. This applies to a phrase, a sentence, a paragraph, an idea, or a pattern of ideas.

If the writer is conscientious, uses common sense, and has sufficient respect for his work as well as the work of others, plagiarism should not be a problem.

The penalties for cheating or deliberate plagiarism are severe. The minimum penalty is a grade of zero for the work involved. The student who requires more specific guidelines than are presented here, is advised to consult with the professor to whom he or she is submitting written work.

Students are warned that the purchase of term papers from advertised agencies will be regarded as an extremely serious instance of plagiarism and will be penalized accordingly.

Appeals

Every student has the right to appeal against the grade assigned to him/her in a particular course or a Para-Academic Activity project. He/she should contact the Student Ombudsman for information and assistance.

The procedures for Student Appeals (Academic) adopted by Senate are as follows:

The student’s first step for any appeal is to consult with the professor. It is every student’s right to meet with his/her professor and discuss his/her work, exams, etc., and have them re-evaluated by the professor.

Should the first step prove unsatisfactory to the student, his/her second appeal is to appeal in writing to the Departmental Chairman. The student may or may not have already consulted the Student Ombudsman at this point.

The student must submit his/her appeal in writing to the Registrar within two (2) weeks of the mailing of marks from the Records Office.

The Chairman, upon notification by the Registrar shall:
(i) set up a Departmental Committee to review the student's term work, exams, projects, etc. It shall consist of two (2) faculty members from the same discipline (other than the professor concerned), and either one (1) student chosen by the chairman or a third faculty member chosen by the chairman should the student so desire;
(ii) request from the student the written grounds for appeal, and also from the professor a written response to the appeal.

The Departmental Committee will meet within seven (7) days after the Chairman has constituted it, and make its report within fourteen (14) days.

The Committee will invite the two (2) parties involved in the appeal (together if either party so requests), and all others who wish to testify, to appear before it for a personal interview. It shall arrive at a conclusion by meeting as often as necessary and reviewing any information offered on behalf of the professor or the student. The Committee shall, where possible, review the work of other students whose performance has been better, worse or equal to that of the student in question.

The Departmental Committee will convey in writing the decision of the Committee to the Student, Professor, Chairman, Dean, Registrar and the Student Ombudsman.

The next channel for appeal shall be open to appeals from either the student or the professor. The student/professor may appeal a departmental decision. This must be done within seven (7) days after notification. An appeal in writing should be sent to the Secretary of Council.

The appeal will be considered by the Board of Appeals. This Board will consist of two (2) faculty members and two (2) students. The four (4) members of the Board will receive a copy of the written appeal from the Secretary of Council. The Nominating Committee of Council will establish a panel of professors and students to serve on the Appeals Board on a rotational basis. The Board will itself select a fifth member, who may be a student or a faculty member, and who may or may not be a member of Loyola Campus. The Board will elect one of its own members to serve as Chairman.

In making an appeal to the Board of Appeals, the student/professor must give the grounds for the appeals. If the Board decides that the grounds are insufficient then it may refuse to hear the appeal.

If the Board agrees to consider the appeal, then it will investigate the whole appeal thoroughly: procedures, the Departmental Committee report, and all relevant documentation. It will investigate any irregularities which it finds. If new evidence is presented for either student or professor, it will be sent back to the Board and if it is judged to be substantial, it will be deferred to the Departmental Committee for hearing. Then the Board will have the authority to call in any witnesses who can present evidence relevant to the case.

The decisions of the Board of Appeals shall require a majority vote (i.e. at least three (3)) by written ballot. If no majority vote is obtained, the decision of the Departmental Committee stands. The decision shall be conveyed in writing to the Student, Professor, Chairman, Dean, Secretary of Council, the Associate Registrar and the Student Ombudsman.

Decisions of the Board of Appeals are final.
16.2 Academic Regulations
Sir George Williams Campus

These regulations are effective as of September 1st, 1971 and apply to students entering, the three-year university programme, MSP (Mature Student Programme) and all Independent students. All others are governed by the academic regulations published in the 1970-71 University Calendar.

16.2.1 DEFINITION OF CREDIT

In accordance with the recommendations of the Quebec Council of Universities, effective 1974-75, the credit base takes into account the total activity of the student, in terms of lectures, conferences, laboratories, studio or practice periods, examinations, and personal work. One credit represents, for the average student, a minimum of 45 hours spread across the various activities listed above. This system does not apply to the Engineering programme where the definition of degree components is still listed in terms of years and courses.

Up to and including the academic year 1973-74, degree programmes have been expressed in terms of courses, with one credit being applied to a "full course" (normally two terms) and one half-credit being applied to a "half course" (normally one term).

16.2.2 CONCENTRATION REQUIREMENT

Since the CEGEP programme is designed to give all students the opportunity to explore different fields and thus acquire a broad general basis for future study, the undergraduate programme requires some degree of concentration, according to the interests and capacities of the student. There are several forms of concentration, ranging from Honours, which requires success in a programme of high concentration, accompanied by a prescribed high level of performance, through the Specialization and the Major, requiring varying degrees of concentration without a prescribed performance requirement, to the Double Minor, involving a lesser degree of concentration in two disciplines or fields, and without a prescribed performance requirement.

In order to graduate, therefore, a student must have completed one of the following types of programme: a Double Minor; an Interdisciplinary Major; a Departmental Major; a Specialization programme; a Combined Honours programme; an Interdisciplinary Honours programme; a Departmental Honours programme.

Prior to registration, students will be required to select one of the types of programmes outlined above. In the case of Honours, students will register upon entry in an Honours programme, but their acceptance as Honours students will depend on their performance during their first year. Students failing to meet requirements for Honours standing will proceed in either a Specialization or in a Major programme.

16.2.3 HONOURS PROGRAMMES

The university has approved programmes leading to an Honours degree in certain selected fields. The Honours programme, consisting of 60 or more credits in a discipline or field, with superior performance being required to enter and remain in the programme. It is recognized that a small number of courses may be designated as being open only to Honours students (e.g. Honours Essay, Honours Seminar, etc). In order to qualify for an Honours degree a student must meet all of the academic qualifications and comply with the regulations set forth below.

1. A candidate for an Honours degree should indicate such intention at registration and consult the Honours representative of the department(s) concerned as soon as possible. Acceptance as an Honours student will depend on performance during the first year. The Honours standing will be reviewed annually.

A student who has followed the courses prescribed for the Honours programme and has met all the requirements may enter the programme with the approval of the Honours standing will be reviewed annually.

A student who has followed the courses prescribed for the Honours programme and has met all the requirements may enter the programme with the approval of the Honours representative any time before beginning the final 30 credits. No retroactive approval of entry may be made.

2. A student who enters with advanced standing may apply pro tanto credits which are applicable to the Honours degree requirements, upon approval by the department(s).

A transfer student must complete a minimum of 30 credits in the basic Honours programme in residence to receive a degree with Honours.

3. An Honours student must maintain a 'B' average with no grade lower than 'C' in all courses in the basic Honours programme.

An Honours student must meet the general degree requirements as well as the specific requirements for an Honours degree, and must obtain at least a 'C' average
over the total degree programme.
Failure in any course will mean suspension or withdrawal from the Honours programme. Students who fail to meet acceptance requirements and who are required to withdraw from the Honours programme will proceed in the Major or Specialized programme. Reinstatement into the Honours programme is possible only by recommendation by the Honours representative.

4. A student shall be allowed to qualify for only one Honours degree in either a single or combined Honours programme.
5. A degree with Honours in any programme is granted upon graduation only with the approval of the Senate.

16.2.4 SPECIALIZATION PROGRAMMES
The Specialization, in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses including 60 or more credits. This concentration may include certain approved courses in other closely related fields.

16.2.5 MAJOR PROGRAMMES
The Major, again in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses including 36 or more credits. As in the case of the Specialization, the Major may include certain approved courses in other closely related fields.

16.2.6 DOUBLE MINOR PROGRAMMES
Double Minor programmes are made up of two approved sequences of 24 or more credits in two specific disciplines or fields. A student may combine any two Minors to form a Double Minor.

16.2.7 MAJOR-MINOR COMBINATIONS
A Major programme may be combined with a Minor programme.

16.2.8 CERTIFICATE PROGRAMMES
An Undergraduate Certificate programme is a coherent programme of 30 credits made up of regular undergraduate courses, which are, in turn, applicable to the appropriate Bachelor's Degree.

16.2.9 ACADEMIC YEAR
Winter Session
The day and evening winter session of the university is divided into two terms of fifteen weeks each including the examination period. Dates marking the opening and closing of these terms are found in the Academic Calendar §11

Summer Session
A nine-week session is operated during the summer in the Evening Division primarily for Evening Division students.

Summer Sessions and Special Day Summer Sessions are considered part of the following Winter Session for record purposes.

16.2.10 RESIDENCE REQUIREMENTS
1. In addition to the specified courses, there is a residence requirement of 45 credits for any degree, defined as follows: A student in Arts, Fine Arts, Science, Commerce and Computer Science must complete the last forty-five credits of the courses of the degree requirements at Sir George Williams. Engineering students must complete the final fifteen half-credit courses of the required departmental degree programmes in residence at Sir George Williams.
2. Any student who already possesses one degree must satisfy the following regulations in order to earn a second degree at the Bachelor's level at Sir George Williams:
   (a) Register in an established programme with a higher degree of concentration than a minor.
   (b) Complete sixty credits in courses other than those credited towards the first degree at least thirty-six of which must be taken in the new field of specialization.
3. Any student seeking to transfer to Sir George Williams after having failed at another university or after having compiled an unsatisfactory record at another university must fulfill the residence requirements stipulated for him if he is admitted. In general, a minimum of sixty credits will be required for any degree.

16.2.11 COURSE LOAD
Winter Session — Day Division
The course load varies according to the faculty in which the student is enrolled. Students are advised, however, that a twenty-four credit course load is the minimum any Day Division student must carry in any winter session.
1) Arts
First year students in the Faculty of Arts will take a maximum of thirty credits. A student may take thirty-six credits during one or both of his final two winter sessions providing:
   a) There are no failures in the previous year (minimum, thirty-credit programme) and,
   b) The average grade of the previous year (minimum, thirty-credit programme) is 'B'.
2) Science and Computer Science
Students enrolled in the Bachelor of Science or the Bachelor of Computer Science programme will normally register for a
maximum of thirty credits each winter session.

3) Commerce
A student may register for a maximum of thirty credits in any winter session.

4) Engineering
See under Engineering Faculty — § 71

Winter Session — Evening Division
Students in this division may register for a maximum of three six-credit courses or their equivalent equally divided between the terms.

Summer Session
Students may not take (without permission of their Faculty Council) more than twelve credits of work during a summer session. This regulation applies to students registering in courses offered in the Evening Division, Special Day Summer Sessions, or in a combined programme consisting of courses offered in either division. The course load for Special Day Summer Sessions may be restricted by departmental regulations.

Day students are reminded again that they may not register during the regular evening registration period for the Evening Summer Session unless prior permission of Faculty Council has been granted.

16.2.12 HIGH ACADEMIC ACHIEVEMENT
The University recognizes three classifications of high academic achievement.

Honours Programme
Students may register in an honours programme and by obtaining a grade point average of 3.00 in this programme receive a Bachelor's Degree specifying the honours subject. Full information on these programmes is covered within each faculty section of the university calendar.

Distinction
A Degree with Distinction may be achieved by students registered in any programme in the new three year structure by achieving a grade point average of 3.20 during their last two years (approximation) of study or a grade point average of 3.10 over the complete three years. A failure on record (F, R, Inc., Abs.) during the period of evaluation disqualifies a student from achieving a grade point average of 3.20 during their last two years or a grade point average of 3.10 over the complete three years. A student may register for a maximum of thirty credits in any winter session.

Academic Honours
Academic Honours (Dean's Honour Roll) may be achieved in any academic year by acquiring a grade point average of 3.20 for the thirty credits taken during that particular year. The achievement of Academic Honours is recorded on the student’s transcript.

16.2.13 COURSE WITHDRAWALS, CHANGES, ADDITIONS
Withdrawals
1) Students may withdraw from a course or from the university without academic penalty prior to the deadlines indicated below. They are required to notify the Records Office in person or in writing and give their reasons for withdrawing. Students must present the copy of their registration contract when making course withdrawals, changes or additions. Failure to attend classes or notification to instructors does not constitute a formal withdrawal from the university.

2) Final withdrawal date for first-term courses is November 1. Final withdrawal date for full-year and second-term courses is February 28. Evening Summer Session course withdrawals must be effected by June 10 for first term and full term courses and June 28 for second term courses. For procedures covering financial adjustments, see Fees. § 15.

Changes and Additions
Two-Term Courses: September to April
Course and section changes must be effected by September 20. Evening Summer Session course and section changes must be effected by May 14.

One-Term Courses:
September to December—Changes must be effected between September 7 and 20 only, immediately following registration.
January to April—Changes may be made from January 4 to 7, before the beginning of classes, and will continue during the first two weeks of classes. The final date for changes is January 21.

Evening Summer Session course and section changes must be effected within the first week of classes of the appropriate term; that is, either from May 10 to 14, or June 8 to 11.

16.2.14 EXAMINATIONS AND ADVANCEMENT
A university degree certifies that its holder has attained a measurable level of achievement, as established by a recognized system of evaluation. It is consequently required that the performance of each student in each course be evaluated by the instructor (or instructors) responsible for the course.

The final grade which assesses the performance of each student in each course will take into account the total measurable performance of the student in that course. Specifically, the grade will be given on the basis of one or more of the following:

(i) Assigned work, term papers, projects, etc.
(ii) Class participation, which in the case of certain disciplines may justify an attendance requirement.
(iii) Progress tests.
(iv) Laboratory tests and/or laboratory work.
(v) Mid-term and/or final examinations. Where appropriate, a level of written expression may be given consideration in determining the final grade.
While the language of instruction in Concordia University is normally English, students have the right to write their assignments and examinations in French. It must be understood, however, that in a case where an instructor cannot read French, the assignments or examinations will have to be read by another person, with possible resulting disadvantages and delays for the student. Students are advised to enquire of the instructor at the beginning of their course whether he or she will personally read assignments and/or examinations written in French. Notwithstanding the above, departments of modern languages may require assignments and examinations to be written in the language being studied.

16.2.15 GRADING SYSTEM

Grades are awarded according to the following system:

(i) Passing Grades
A. Excellent
B. Very Good
C. Acceptable
D. Marginal
S. Credit (late completion of term work or passed supplemental examination)

(ii) Failing Grades
F. Failed Course—may write supplemental examination if eligible according to failure regulations.
FNS. Failed Course—no supplemental examination is set for this course.
Inc. Term work incomplete — may complete term work if eligible according to failure regulations.
Abs. Absent from final examination — may write supplemental examination if eligible according to failure regulations.
F-Abs Inc. Failed course, term work incomplete — may write supplemental examination and complete term work if eligible according to failure regulations.
Abs-Inc. Absent from final examination, term work incomplete — may write supplemental examination and complete term work if eligible according to failure regulations.

All grades remain permanently on the records. All final grades (including F, R, Inc., Abs. whether cleared later or not) are reported on transcripts.

16.2.16 FAILURE REGULATIONS

Failures

Failures include the grades F, FNS, Abs., Inc. and R.

Failed Students
1. Bachelor of Arts, Fine Arts, Science, Commerce and Administration, and Computer Science.
   (a) Any student who fails courses equivalent to more than twelve credits before obtaining thirty credits on record or who fails courses equivalent to more than twenty-four credits before obtaining sixty credits on record is a failed student. To re-register such a failed student must obtain permission from the dean of his faculty.
   (b) Any student who fails courses equivalent to more than thirty credits is a failed student. Such a failed student may not apply for re-admission.

NOTE – 1: These regulations apply to those credits registered for at Sir George Williams University.

NOTE – 2: Students transferring from another university or between faculties at this university with previous failures may be subject to adjustments to the permissible number of failures for courses taken at this university. Students will be advised of this adjustment at the time of their transfer.

(c) Failed students may not write supplemental examinations nor complete courses graded Inc.

(d) Failed students who obtain permission to register may be subject to specified course loads at the time of their re-admission.

2. Bachelor of Engineering
   (a) Failed students are defined in regulations 2, 6, 7 and 8 under “Additional Regulations in the Faculty of Engineering”.
   (b) Failed students may not write supplemental examinations nor complete courses graded Inc.

16.2.17 SUPPLEMENTAL EXAMINATIONS

1. A failed student may not write supplemental examinations.
2. A student may not write a supplemental examination in a repeated course, nor may he write a second supplemental examination in the same course.
3. If a student is granted permission to write a supplemental examination, absence from the examination is counted as a failure and recorded as an ‘R’ grade.
4. Medical reasons (certified by a physician on his letterhead) constitute a valid excuse for exemption from most of the regulations concerning supplemental examinations. Such medical reasons must be submitted to the Examinations Office within ten days of the missed examination.
   (a) A student absent from a regular examination for medical reasons may, if he wishes, write the supplemental examination as his final examination. If he passes he will receive a letter grade and will not be charged with a failure nor a supplemental under the maximum permissible allowances. If he fails he may apply to the Examinations Office to write an additional supplemental examination.
   (b) A student absent from a supplemental examination for medical reasons is not considered to have failed the examination and may apply to the Examinations Office for an alternate date.
   (c) A student taken ill during an examination and unable to complete the examination must obtain verification from the
nurse on duty. Such certification must be submitted to the Examinations Office within ten days of the date of occurrence.

5. Supplemental examinations in courses taken during the regular session must be written during the following July. Supplemental examinations in courses taken during the Summer Session must be written the following December.

6. Supplemental examinations may be written only at one of the following external examination centres in Canada: St. John's, Nfld.; Sackville, N.B.; Murray Bay, Quebec; Montreal, Quebec; Toronto, Ontario; Sudbury, Ontario; Thunder Bay, Ontario; Winnipeg, Manitoba; Saskatoon, Saskatchewan; Banff, Alberta; Vancouver, B.C. Any student wishing to write a supplemental examination at an external centre (outside of Canada) must arrange an appointment with the Director of Examinations before submitting an application.

7. Supplemental examinations are graded only 'S' (pass) or 'R' (fail).

8. Application to write a supplemental must be submitted by November 1 for Summer Session, March 7 for graduating students and June 17 for Winter Session to the Director of Examinations on a form which may be obtained from the Examinations Office. Students applying to write a supplemental examination at an external centre must submit the additional external application form with the regular application form. The required fee must accompany all applications.

**16.2.18 COMPLETION OF COURSES GRADED INCOMPLETE**

1. A failed student may not complete a course graded incomplete (Inc.).
2. A student is ineligible to complete an 'Inc.' in a repeated course.
3. Application to complete a course graded 'Inc.' must be submitted by October 4 for Summer Session, March 7 for graduating students and June 17 for Winter Session to the Examinations Office. The required fee must accompany all applications. The limiting dates for submission of work are:
   (a) For the first-term courses in the Winter Session, not later than April 1st.
   (b) For all other courses in the Winter Session, not later than August 1st.
   (c) For all courses in the Summer Session, not later than November 1st.
4. Late completions are graded only 'S' (pass) or 'R' (fail) except for medical reasons (see regulations concerning supplemental examinations).

**16.2.19 REPETITION OF COURSES**

1. A student who has received credit for a completed course may not repeat that course and may not write a supplemental for purposes of upgrading, except as provided by the Additional Regulations in the Faculty of Engineering.
2. A student may repeat a failed course only once.
3. A student who fails a course that is specifically required for a degree must take the course during the Session in which he completed course may not repeat that course and may not write a supplemental for purposes of upgrading, except as provided by the Additional Regulations in the Faculty of Engineering.

4. If a student repeats a course that is specifically required for a degree and fails it a second time, he may apply to Faculty Council for permission to substitute an alternate course. Unless such permission is granted he will not be allowed to continue in the university toward that degree.

**16.2.20 STUDENT REQUEST COMMITTEES OF FACULTY COUNCILS**

Each of the faculties has a Student Request Committee which is authorized to consider applications from students on matters relating to academic regulations.

The academic regulations for the degree of Bachelor of Computer Science shall be the same as those for the Faculties of Arts, Science, and Commerce and Administration. Any undergraduate student seeking adjustment of an academic regulation should apply on the appropriate form available at the following Faculty offices:

- Arts
  - Asst. Dean of Arts
- Fine Arts
  - Asst. Dean of Fine Arts
- Science
  - Assoc. Dean of Science
- Commerce & Administration
  - Asst. Dean of Commerce
- Engineering & Computer Science
  - Asst. Dean of Engineering

**16.2.21 MSP AND INDEPENDENT STUDENTS**

MSP and independent students, including those taking courses in the Engineering Faculty, are governed by the academic regulations specified for the Faculties of Arts, Science and Commerce and Administration.

MSP students seeking adjustment of an academic regulation should submit requests to the Student Request Committee of their Faculty.

Independent students must submit all requests relating to university regulations to the Registrar and not to a dean or faculty council.

**16.2.22 ADDITIONAL REGULATIONS FOR THE BACHELOR OF ENGINEERING DEGREE**

The grade point averages in these regulations are defined as follows:

(a) The cumulative grade point average, CGPA, is the ratio of the sum of the grade points obtained in the complete programme followed by the student prior to its calculation to the total number of courses in that programme, regardless of whether they were taken as an independent course student or as an undergraduate.

(b) The yearly grade point average,
YGPA, is the ratio of the sum of the grade points obtained in the programme followed by the student during the year under consideration to the total number of courses in that programme.

Points are awarded for each grade as described in § 73.3.2. Courses taken during a Summer Session are included with those taken during the subsequent Winter Session in calculating the YGPA.

1. After their first year of attendance, students must maintain a CGPA of at least 1.80 to remain in good standing. If their CGPA falls below 1.80, they will be placed on probation for one year during which they must improve it to at least 1.80.

2. Probationary students failing to improve their CGPA to at least 1.80 are failed students and are required to withdraw from the programme.

3. Students in good standing who fail one-third or less of the courses taken during the year with a YGPA of at least 1.50 are permitted to write supplemental examinations in courses graded F or Abs. and complete the work in courses graded Inc.

However, the following regulation applies to students receiving an "F" grade in the Fall-term course of a two-course sequence specified by the Engineering Faculty Council: if such a student is eligible to write supplemental examinations, and if, in the immediately subsequent winter term, he passes the second course of the sequence with a grade of "C" or better, he will be awarded the grade of "S" for the first course without further examination. In such specified cases, the regular examination in the second course shall serve also as a supplemental for the first course.

NOTE: Students awarded the grade of F in the first course are not permitted to continue in the same academic year.

4. If permitted to write supplemental examinations or complete the work in course graded Inc. at the end of the first year of attendance, students whose CGPA is below 1.80 at the start of the next Fall term will be placed on probation for one year during which they must improve it to at least 1.80.

5. Students eligible to write supplemental examinations or complete the work in courses graded Inc. and having more than one failure outstanding from the previous year at the start of the next Fall term must repeat all the failed courses and may repeat those in which they received D grades during their previous year of attendance.

6. Students who either (a) fail more than one-third of their courses taken during the year with a YGPA of at least 1.50 or (b) fail one-third or less of their courses taken during the year with a YGPA below 1.50 (this includes students who pass all courses) are failed students. They must repeat all the failed courses and may repeat those in which they received D grades during their previous year of attendance.

7. Students who fail more than one-third of their courses taken during the year with a YGPA below 1.50 are failed students and must withdraw from the programme for at least one year. They may then apply to the Assistant Dean, Undergraduate Studies, Engineering and Computer Science for re-admission and, if their application is granted, must repeat all the failed courses and may repeat those in which they received D grades during their previous year of attendance.

8. Students whose CGPA falls below 1.80 after previously being on probation or after previously being required to apply for re-admission are failed students and must withdraw from the programme.

16.2.23 ACADEMIC RE-EVALUATION

I. General

1. Two alternative methods for handling academic re-evaluation are set out below. The first requires the appointment of a moderator for each course in a department. The second requires the appointment of a reader to each application. Each chairman shall decide which system is more suitable for his own department, and so inform the dean of his faculty.

2. Nothing in these regulations shall be taken to proscribe the right of a faculty member or chairman of a department to review a grade upon request by a student before formal application for a re-read or re-evaluation is made.

3. The term "re-read" refers to the process whereby a student appeals against a grade received within a course, i.e., for a research paper, or examination. The term "re-evaluation" refers to the process whereby a student appeals against his final grade in a given course.

II. Appointment of Course Moderators

1. A moderator shall be appointed by the department chairman for each course the department offers.

2. The moderator for a course will normally be named from within the university, but should have no responsibilities in the presentation of the course. However, there may be special circumstances which require the appointment of a moderator from outside.

3. To cover adequately multi-sectional courses it may be necessary to appoint several moderators.

4. The responsibilities of the moderator shall be:
   (a) To be aware of the objectives of the course and its evaluation procedure prior to its presentation;
   (b) To be aware of the formal examination paper(s) of the course in the event of a candidate applying for a re-read in it;
   (c) To attend all formal oral examinations in the course;
   (d) To re-read all work representing a major part of the final mark in the course in the event of a candidate applying for a re-read in it.

III. Appointment of Readers

1. A reader shall be appointed by the chairman of the department on the receipt of an application for a re-read. He will normally be named from inside the university, but may be named from outside.

2. The reader shall make himself aware of both the nature and structure of the
course and the characteristics of the particular examination.

3. Should the chairman of the department be the instructor of the course, he shall be replaced by the dean.

IV. Re-Reading and Re-Evaluation

1. The following procedures shall govern the re-reading of examinations whether final or supplemental and the re-evaluation of grades;

2. Any application for a re-read or re-evaluation must be made to the Registrar.

3. An application must be made within 14 days of the release of the grade in question. This delay may be extended in particular cases by the Registrar, but it shall not be extended unless the person applying for a re-read could not reasonably have acted within fourteen days.

4. The application must be submitted to the Registrar's office, and should be presented on the special form obtainable there. It must specify the nature of the re-read or re-evaluation claimed — e.g., for examination or course, and the grounds for the application. The Registrar may require further explanation from the student.

5. The application must be accompanied by a fee of $10.00, which is refundable if the grade is raised.

6. The Registrar shall file the application, and send a copy to the chairman of the department concerned so that the re-read or re-evaluation can be carried out.

7. The chairman of the department shall then have the re-read or re-evaluation carried out by the course moderator if one has been appointed and is available, or by a reader if a moderator has not been appointed or is unavailable.

8. The re-read or re-evaluation shall be carried out privately, not in the presence of the applicant or his representative.

9. When the moderator or reader has completed the re-read or re-evaluation he shall return the work that he has re-read or re-evaluated to the chairman with his own grade.

10. If the moderator or reader agrees with the original grade, the chairman shall return the paper or papers to the Registrar with a statement to this effect.

11. If the moderator or reader changes the grade, the change should be agreed to by both the instructor who gave the original grade and the chairman before the material is returned to the Registrar. If the instructor is not available, the agreement of the chairman shall suffice.

12. If the original instructor disagrees with the change, the decision as to what grade is to be given devolves on the chairman of the department, who will indicate this fact in his statement to the Registrar.

13. The Registrar shall inform the applicant of the re-read or re-evaluation decision.

14. A grade can be either raised or lowered by a re-read or re-evaluation.

15. The re-reading or re-evaluation procedure should normally be completed within 21 days of the receipt of an application.

16. Either a moderator or a second member of faculty must be present at any formal oral examinations. Application for a re-read or re-evaluation shall be referred to the moderator or the member of faculty who was present at the oral.

17. There is no further appeal once a re-read or re-evaluation decision has been rendered.

18. An application for re-evaluation of a course grade may be refused if the student has not either handed in two copies of all term papers to the instructor or left the original papers with him.

19. Examination scripts shall be retained on the university premises for a period of six months from the close of the examination period.

20. Department chairmen are responsible for ensuring that examination scripts are available for re-reading, and that an appropriate person is always available to carry out read-strings within the time period established.

V. Notes

1. In order to minimize the number of re-read or re-evaluation applications, any faculty member who has papers graded by a teaching assistant shall personally check all failing papers as well as papers close to the borderline for grades or classes before submitting the results.

2. The student request committees of the various faculties shall not be involved in re-reads or re-evaluations.

16.2.24 CONDUCT DURING EXAMS

UNDERGRADUATE

1. General

1. The candidate taking any form of examination shall not use or attempt to use any material in any form except that which is expressly authorized by those conducting the examination.

2. A candidate shall not speak or otherwise communicate with another candidate or with any person other than the invigilator(s) or instructors except when such communication is expressly authorized by those conducting the examination.

3. Every examination paper shall expressly indicate the materials that a candidate is permitted to have with him during the examination, such as text books with notations, text books without notations, slide rules, etc.

4. Every examination paper shall expressly indicate the length of the examination and special conditions, if any, such as permission for students to work together, etc.

5. The invigilators or other persons conducting an examination may at their discretion transfer a candidate from one location in the examination room to another.

6. It is the duty of invigilators or of other persons conducting an examination to report to the Registrar in writing any apparent instance of cheating as defined in section II.1 below.

7. Where the word "examination" is used in these regulations it shall be taken to mean "examination, test or similar evaluative exercise".
II. Cheating

1. Cheating means any dishonest or deceptive practice relating to an examination, and more particularly, but not restrictively, includes the following:

   (a) Making use of any book, paper, script, writing, drawing or anything else not expressly authorized by those conducting the examination;
   (b) Communicating during an examination with any person other than one of those conducting the examination for the purpose of obtaining for oneself or providing to another candidate unauthorized assistance in the taking of the examination;
   (c) Attempting to do any of the above;
   (d) The possession of any unauthorized book, paper, script, writing, drawing or anything else not expressly authorized by those conducting the examination will be accepted as proof of attempting to cheat.

2. A candidate who is to be charged with cheating during an examination shall be so informed by one of the persons conducting the examination, and his taking of the examination shall be suspended forthwith. One of the persons conducting the examination shall take the candidate’s examination book, where there is one, as well as any other evidence relating to the charge, and the candidate shall be required to leave the examination room immediately.

3. As soon as is reasonably possible after examination, the evidence shall be delivered to the Registrar, who, if he deems it appropriate to proceed, shall see that a written charge is prepared and transmit it to the dean of the faculty in which the candidate is registered.

4. The charge shall be made in writing, and must be dated and signed by the person who is making it. The allegations must be stated therein in such a way as to inform the candidate with precision what allegations are being made against him.

5. The dean shall send, as soon as is reasonably possible, a copy of the charge to the candidate, and shall inform the candidate of the procedures and sanctions relating to the charge. The dean shall also ask the candidate, in writing, whether he admits or denies the charge.

6. The candidate shall admit or deny the charge, in writing, within 14 days of the date of its mailing to him at the last address given by him to the university. This delay may not be extended unless the candidate could not reasonably have acted within the 14 days.

7. Where the candidate admits the charge, the dean shall apply one of the sanctions set out in II.14 below.

8. Where the candidate does not admit or deny the charge as provided above, the dean himself shall conduct a hearing on the charge.

9. Where the candidate denies the charge, the dean shall offer him a choice of:

   (a) a hearing by the dean himself, or;
   (b) a hearing by a committee of three persons, selected by the dean from a panel nominated by the candidate’s faculty council.

   Where the candidate chooses the latter form of hearing, he may choose that the committee consist of three faculty members, or two faculty members and one student, or one faculty member and two students. Where he does not make this choice, the dean shall make it.

10. The candidate has the right to be present on the hearing on the charge.

11. The decision of the dean or of the committee, as the case may be, shall be in writing and shall be a reasoned one. A copy of the decision shall be sent to the candidate.

12. The candidate and the Registrar shall have a right of appeal to Senate either against the decision of the dean or the committee, as the case may be, or against the sanction imposed. A notice of such appeal shall be made in writing to the Secretary of Senate within 21 days of the decision referred to above in the case of the candidate, and within 7 days in the case of the Registrar. These delays may be extended in exceptional cases by Senate.

13. The appeal shall be heard and decided in the manner deemed most appropriate by Senate.

14. Where a candidate admits or is found to have cheated the dean shall impose one of the following sanctions:

   a. The imposition of a failing grade for the course related to the examination in which the cheating occurred, ineligibility to write a supplemental examination in that course, and the obligation to take and pass the equivalent of one six-credit course in addition to the total number of credits required for the programme in which the candidate is registered.
   b. The sanction provided in subsection (a) above and the obligation to take and pass the equivalent of a further one, two, or three six-credit courses in addition to the total number of credits required for the programme in which the candidate is registered.
   c. The sanction provided in subsection (a) above, together with loss of all credits for courses taken during the year in which the cheating occurred and suspension from the university for the remainder of that year.
   d. The sanction provided for in subsection (c) above and suspension for an additional period of not more than one year.
   e. Loss of all credits for courses taken during the year in which the cheating occurred and expulsion from the university.

A year shall begin on September 1st and end on August 31st if the charge relates to an act occurring in the winter session, and from June 1st to May 31st if the charge relates to an act occurring in the summer session.

15. Should a candidate either admit or be found to have cheated as provided above for the second time he shall be expelled from the university.

16. A sanction of suspension or expulsion as provided above is subject to confirmation by the Rector of the university.
17. Should a charge against a candidate not be proceeded or upheld, the dean of the candidate's faculty and the Registrar shall take the appropriate steps for the candidate to be evaluated.

18. Wherever reference is made above to a dean or any other official of the university, and the dean or other official is unable to exercise his functions, the person who is replacing him shall carry out those functions.

16.2.25 PLAGIARISM
UNDERGRADUATE

I. General

1. Plagiarism, for the purpose of these regulations, includes the presentation or submission by a student of another person's work as his own.

II. Procedures and Sanctions

1. If an instructor has reason to believe that a student has committed plagiarism, as defined above, he shall immediately inform the student concerned and discuss the circumstances with him.

2. After such discussion, the instructor shall:
   (a) decide that no further action is necessary, or;
   (b) require that the work be resubmitted with appropriate changes, or;
   (c) give the student an 'R' grade in the course for which the work was done, or;
   (d) refer the matter to the chairman of the department.

3. If the instructor's decision is that set out in 2 (a) or 2 (b), the matter shall be considered closed.

4. Should a student appeal a decision as set out in 2 (c), the chairman of the department shall:
   (a) uphold the award of the 'R' grade, or;
   (b) cancel the 'R' grade and decide no further action is necessary, or;
   (c) cancel the 'R' grade, and require that the work be resubmitted to the instructor with appropriate changes.

The chairman's decision shall be final.

5. If the matter is referred to the chairman of the department, as set out in 2 (d), and an appropriate departmental committee exists, he shall refer it to that committee.

6. If an appropriate committee exists, the committee shall review all the circumstances with the instructor and the student, and shall:
   (a) decide that no action is necessary, or;
   (b) require that the work be resubmitted with appropriate changes, or;
   (c) decide that a formal charge shall be made against the student.

If the committee's decision is that set out in 6 (a) or 6 (b), the matter shall be considered closed.

7. If the matter is referred to the chairman of the department as set out in 2 (d) and no appropriate departmental committee exists, the chairman shall review all the circumstances with the instructor and the student, and shall:
   (a) decide that no action is necessary, or;
   (b) require that the work be resubmitted with appropriate changes, or;
   (c) decide that a formal charge shall be made against the student.

If the chairman's decision is that set out in 7 (a) or 7 (b), the matter shall be considered closed.

8. If either the appropriate committee or the chairman of the department decides that a formal charge shall be made against the student, the chairman shall send that charge to the dean of the faculty in which the student is registered.

9. The formal charge to the dean shall be made in writing, and be dated and signed by the chairman of the department. The allegations must be stated there in such a way as to inform the student with precision what allegations are being made against him.

10. In the event that the instructor is himself chairman of the department, the dean of his faculty shall appoint another member of the department to act in his place.

11. The dean shall send, as soon as is reasonably possible, a copy of the charge to the student and shall inform the student of the procedures and sanctions relating to a formal charge. The dean shall also ask the student, in writing, whether he admits or denies the charge.

12. The student shall admit or deny the charge, in writing, within 14 days of the date of its mailing to him at the last address given by him to the university. This delay may be extended in exceptional cases by the dean, but it shall not be extended unless the student could not reasonably have acted within the 14 days.

13. Where the student admits the charge, the dean shall apply the sanction set out below.

14. Where the student does not admit or deny the charge, the dean himself shall conduct a hearing on the charge.

15. Where the student denies the charge, the dean shall offer him a choice of:
   (a) a hearing by the dean himself, or;
   (b) a hearing by a committee of three persons, selected by the dean from a panel nominated by the student's faculty council.

Where the student chooses the latter form of hearing, he may choose that the committee consist of three faculty members, or two faculty members and one student, or one faculty member and two students. Where he does not make this choice, the dean shall make it.

16. The instructor and the student have the right to be present at the hearing on the charge.

17. The decision of the dean or of the committee, as the case may be, shall be in writing and shall be a reasoned one. A copy of the decision shall be sent to the instructor and the student.

18. The student shall have the right of appeal to Senate against the decision of the dean or of the committee, as the case may be. A notice of such appeal shall be made in writing to the Secretary of Senate within 21 days of the decision referred to above. This
delay may be extended in exceptional cases by Senate.

19. The appeal shall be heard and decided in the manner deemed most appropriate by Senate.

20. A student who admits that he has committed plagiarism or is found to have committed plagiarism as set out in a charge under paragraph 9 shall be expelled, or suspended from the university for the remainder of the year and not more than one additional year, such year beginning on September 1st and ending on August 31st if the charge relates to an act occurring in the winter session, and from June 1st to May 31st if the charge relates to an act occurring in the summer session, or have imposed any of the lesser penalties available to the instructor as set out in 2 (b) or 2 (c). All credits for courses taken during the full year as described herein shall be cancelled.

21. Should a student either admit or to be found to have committed plagiarism as set out in a charge under paragraph 9, for the second time, he shall be expelled from the university.

22. A sanction of suspension or expulsion as provided above is subject to confirmation by the Rector of the university.

23. Should a charge of plagiarism as set out under paragraph 9 against a student not be upheld, the dean of the student's faculty shall take the appropriate steps to have the work that was the subject of the charge evaluated.

24. Wherever reference is made above to a dean or any other official of the university, and the dean or other official is unable to exercise his functions, the person who is replacing him shall carry out those functions.
17 Medals and Prizes
17 Medals and Prizes

17.1 Loyola Campus

17.1.1 GRADUATION

The Loyola Campus Medal – presented to a student who has displayed distinctive leadership ability through both academic and non-academic achievement.

The Governor General’s Medal – presented by His Excellency, the Governor General of Canada, and awarded to the highest ranking student graduating with the degree of Bachelor of Arts.

The Loyola Science Medal – awarded to the highest ranking student graduating with the degree of Bachelor of Science.

The Loyola Commerce Medal – awarded to the highest ranking student graduating with the degree of Bachelor of Commerce.

The Loyola Engineering Medal – awarded to the highest ranking student graduating with the degree of Bachelor of Science (Engineering).

The Malone Medal – presented by the Loyola Students’ Association in honour of Rev. Patrick G. Malone, S.J., and awarded to the graduating student who has made the outstanding contribution to non-academic activities on the Loyola Campus.

The Michael Watson Prize – awarded to the graduating student with the highest standing in Biology.

The Celanese Canada Limited Prize for Chemistry – awarded to the graduating student with the highest standing in Chemistry.

The Chemistry Medal – awarded to the student majoring or honoring in Chemistry with the highest standing in the final year of this programme.

The Celanese Canada Limited Prize for English – awarded to the graduating student with the highest standing in English.

The Economics Medal – awarded to the graduating student with the highest standing in Economics.

The Accountancy Prize – awarded to the graduating student with the highest standing in Accountancy.

The Business Administration Prize – awarded to the graduating student with the highest standing in Business Administration.

The French Language Prize – presented by the Government of France and awarded to the graduating student who has shown the most progress in French language courses.

The German Language Prize – presented by the Government of the Federal Republic of Germany, and awarded to the graduating student who has shown the most progress in German language courses.

The Philosophy Medal – awarded to the graduating student with the highest standing in Philosophy.

The Physics Medal – awarded to the graduating student with the highest standing in Physics.

The Renée Vautellet Prize for Political Science – awarded to the graduating student with the highest standing in Political Science.

The Mme. Alfred Thibaudet Prize for Political Science – presented by Miss Madeleine Thibaudet, and awarded to the graduating student with the second highest standing in Political Science.

The Theology Medal – presented by the Most Reverend Leonard J. Crowley, and awarded to the graduating student who has been most creative and productive in the field of Theology.

The Brodrick Award – established in honour of Dr. Robert Brodrick, and awarded to a graduating student athlete who has been outstanding in academic and extracurricular endeavours.

The Dr. Jacques Smith Memorial Prize – presented by Dr. Kurt Ekler in memory of Dr. Jacques Smith, and awarded to the graduating student with the highest standing in Biology, who is planning to pursue a career in medicine.

The Loyola English Medal – presented by the Loyola Foundation in honour of Rev. Gerald MacGuigan, S.J., and awarded to the graduating student who has written the best English Honours essay.

The O’Connor-O’Hearn History Prize – awarded to an outstanding graduating student in History, who has combined leadership with academic achievement.

The William H. Atherton Prize for History – awarded to a student for outstanding research in Canadian History.

The A. G. Hooper Prize – awarded for the best essay on a given subject in the literature of the Middle Ages, the Renaissance or the XVIIIth Century.

17.1.2 UNDERGRADUATE

The Chemical Institute of Canada Prize – awarded to the student majoring, specializing or honouring in Chemistry with the highest standing in the penultimate year of this programme.
17.2 Sir George Williams Campus

17.2.1 GRADUATION

The Birks Medal - presented by Henry Birks & Sons (Montreal) Ltd., and awarded to the highest ranking student graduating with the degree of Bachelor of Arts.
The Mappin Medal - presented by Mappin’s Ltd., and awarded to the highest ranking student graduating with the degree of Bachelor of Science.
The Frost Medal - presented by Charles E. Frost & Co., and awarded to the highest ranking student graduating with the degree of Bachelor of Commerce.
The Chait Medal - awarded to the highest ranking student graduating with the degree of Bachelor of Engineering.
The Alfred Pinsky Medal - awarded to the highest ranking student graduating with the degree of Bachelor of Fine Arts.
The Computer Science Medal - awarded to the graduate student graduating with the degree of Bachelor of Computer Science.
Civil Engineering Medal - awarded to the graduating student with the highest standing in Civil Engineering.
Electrical Engineering Medal - awarded to the graduating student with the highest standing in Electrical Engineering.
Mechanical Engineering Medal - awarded to the graduating student with the highest standing in Mechanical Engineering.
Association of Alumni Award - awarded to the graduate student who, in the opinion of the Scholarship Committee, has by his activities, achievements and interests won the outstanding commendation of his fellows and the faculty.
The Robert C. Rae Prize in Applied Social Science - awarded to the graduating student with the highest standing in Applied Social Science.
The Sun Life Prize in Economics - presented by the Sun Life Assurance Company of Canada, and awarded to the graduating student with the highest standing in Economics.
The Governor-General’s Medal - presented by His Excellency, the Governor General of Canada, and awarded to the graduating student showing the highest achievement in English language and literature.
The French Prize - awarded to the graduating student with the highest standing in French.
The Bogdan Zaborski Medal - awarded to the graduating student with the highest standing in Geography.
The Martin Lewis Memorial Prize in History - awarded to the graduating student with the highest standing in History.
The Interdisciplinary Studies Prize - awarded to the graduating student with the highest standing in Interdisciplinary Studies.
The Modern Languages Prize - awarded to the graduating student with the highest standing in Modern Languages.
The W. R. Fraser Medal for Philosophy - presented in memory of W.R. Fraser, professor emeritus, and awarded to the graduating student with the highest standing in Philosophy.
The Herbert F. Quinn Medal for Political Science - awarded to the graduating student with the highest standing in Political Science.
The J. W. Bridges Medal for Psychology - presented in honour of Dr. J.W. Bridges, professor emeritus and awarded to the graduating student with the highest standing in Psychology.
The Boyd Sinyard Prize for Religion - awarded to the graduating student with the highest standing in Religion.
The Everett C. Hughes Medal - presented in honour of Professor Everett C. Hughes, and awarded to the graduating student with the highest standing in Sociology.
The Canadian International Paper Company Prize in Biology - awarded to the graduating student with the highest standing in Biology.
Merit Award, The Society of Chemical Industry - Canada Section - awarded to the student majoring or honoring in Chemistry with the highest standing in the final year of this programme.
The Corporation of Professional Chemists of Quebec Prize - awarded to the graduating student with the highest standing in any one of the programmes accepted by the Corporation of Professional Chemists of Quebec.
The Geology Medal - awarded to the graduating student with the highest standing in Geology.
The Mathematics Medal - awarded to the graduating student with the highest standing in Mathematics.
The Physics Medal - awarded to the graduating student with the highest standing in Physics.
The Ross Medal - awarded to the graduating student with the highest standing in Accountancy.
The Finance Medal - awarded to the graduating student with the highest standing in Finance.
The Management Medal - awarded to the graduating student with the highest standing in Management.
The Marketing Medal - awarded to the graduating student with the highest standing in Marketing.
The Quantitative Methods Medal - awarded to the graduating student with the highest standing in Quantitative Methods.

17.2.2 UNDERGRADUATE

The Chemical Institute of Canada Prize - awarded to the student majoring, specializing, or honoring in Chemistry with the highest standing in the penultimate year of this programme.
The Montreal Economics Association Award - awarded to the student majoring, specializing, or honoring in Economics with the highest standing in the penultimate year of the programme.
Hebrew Culture Organization of Canada Prizes - The Samuel Kizell Memorial Prize and another prize, both awarded for
excellence in the study of the Hebrew language.

Prix du Département de Français
Prix du Consul général de Belgique
Prix du Consul général de France
Prix du Consul général de Suisse

17.2.3 SPECIAL
First Graduating Class Award – presented by the first graduating class of the Faculty of Arts, Science and Commerce, known as the Guinea Pig Club, for the most outstanding new contribution, either academic or extra-curricular, to student life.

NOTE: Awards will be made when merited only.

18.1 Department of Physical Education & Athletics

Director
Dr. EDMUND F. ENOS

Assistant Director of Athletics
MR. GEORGE SHORT
Assistant Director of Athletics
MR. DOUGLAS Daigneault
Co-ordinator of Women's Athletics
MRS. PATRICA BOLAND
Assistant Co-ordinator of Women's Athletics
MISS JANE TANNER

DEPARTMENT OF PHYSICAL EDUCATION AND ATHLETICS
7200 Sherbrooke St. W. 482-0320 Ext. 730

The Department of Physical Education and Athletics is designed to offer a complete and diversified programme to meet the varied interests of today's students. The programme has been cited as one of the outstanding contemporary models in the country. The aim is to provide an opportunity for all students to participate and not just the dextrous few who play varsity sports.

18.1.1 INTRAMURALS
The Intramural programme, which operates on both the Loyola and Sir George campuses, offers a varied selection of popular and individual sports for men and women under the supervision of professionally-trained instructors. The program is divided into three separate classifications:

Co-ed Recreational - provides students with recreational physical activity in a relaxed social setting.

Co-ed Instructional - provides students with expert instruction in the fields of martial arts, modern dancing and sports.

Competitive Intramurals - designed to accommodate the entire student body, and to provide keen competition in both team and individual sports.

The activities offered include: Aikido, Archery, Badminton, Basketball, Bodybuilding, Boxing, Broomball, Cheerleading, Curling, Fencing, Fitness Classes, Football, Golf, Gymnastics, Hockey, Ice Skating, Judo, Karate, Kung Fu, Majorettes, Modern Dance, Sky diving, Soccer, Table Tennis, Tennis, Volleyball, Weight-lifting, and Yoga.

18.1.2 INTERCOLLEGIATE
Because varsity teams are limited in number the junior varsity level has been set up to allow greater numbers of students to participate. It operates as an extension of men's intramurals, and acts as a training ground for the varsity level.

The traditionally strong Varsity programme is primarily for students with playing experience. The 1975-76 academic year becomes the first time that there will be one unified department representing both the Sir George and Loyola Campuses. The new Concordia Varsity Squads are expected to maintain the excellent reputation enjoyed by Loyola and Sir George in the past. Any student wishing to participate in Varsity Athletics is subject to QUAA and CIAU eligibility rules, which state that the student must be enrolled as a full-time student at the University. The Women's Varsity Programme offers women students the opportunity of competing at the intercollegiate level within the Quebec University Athletic Association.

18.1.3 FACILITIES
The south campus is the focal point of all Physical Education action on the Loyola Campus, and includes full-length playing fields, outdoor activities, and a modern $3,000,000 physical education centre.

The centre contains facilities for men and women, a spacious gymnasium, and an ice arena. Other areas include a training and rehabilitation centre equipped with ultrasonic and hydro-therapeutic equipment; an activities room; administration offices; numerous dressing rooms; a press box; snack bar; table tennis; a combatives room
for individual contact sports and a weight-training room equipped with a 16 station universal gym.

The Sir George intramural programme is centered in Birks Hall and in the Downtown YMCA on Drummond St. The other facilities include The Royal Montreal Curling Club, Westmount High School, H.M.C.S. Donnacan, and the Concordia Ice Rink. Details on all activities are included in the Department of Physical Education and Athletics Calendar which is issued at registration. For further information call 482-0320 Ext. 730

Phone 482-0320 Local 473

The Concordia Office of Guidance Services had its origin in the establishment of an office of student counselling in the early years of the University. Its functions have widened in scope to include: (1) provision of individual and group counselling (2) an information service with special emphasis upon graduate and career planning (3) reading skills development and study skills programmes (4) research into factors affecting student progress and into the programmes and practices used in the Office of Guidance Services.

18.2.1 COUNSELLING
As practiced in the Office of Guidance Services, counselling covers the full range of problems inherent in the human experience. Specifically they may be grouped as follows:

Academic Counselling: which includes such problems as course planning, planning a major or honours programme, university familiarization and decisions pertaining to post-graduate training.

Vocational Counselling: the individual is helped to make a realistic career choice based upon his interests, abilities and other needs, reconciled with the available opportunities. In fact, there are many combinations of abilities, personality factors and needs that will lead to success in the same job for different reasons. Similarly there are many jobs that might fulfill the needs of one individual.

Personal Counselling: many students have problems that don't devolve directly from their role in the University, but nevertheless affect their sense of well-being, e.g., family problems, social problems, depression, feelings of isolation and others.

Discussion with a trained counsellor is usually helpful in clarifying the issues and finding a way of coping with these problems. In practice students' problems overlap into all three areas mentioned above. Needless to say anything revealed to a counsellor is held in the strictest confidence.

18.2.2 READING TRAINING CENTRE
The Reading Training Centre offers several courses a year, each course has four schedules of day and evening sessions.
These programmes are planned to help the student develop the skills necessary for the maintenance of acceptable academic standards.

The main focus is on the techniques of efficient reading and study skills since printed material is still the primary source of learning. Some direction is given, however, in the associated learning skills of listening, note-taking and using the library.

The basic aims of the Effective Reading Programmes are:

1. To teach the skills of effective reading:
   a) rapid reading
   b) skimming and scanning
   c) study reading
2. To demonstrate study methods and to stimulate self-development in these skills.
3. To create awareness of purpose in all reading activities and to retain flexibility in adapting rate and technique to such purposes.

When acquired, these skills lead to an increase in the rate of reading and to improvement in the ability to understand and process materials at a faster rate. Skills are learned and developed through lecture, demonstration and practice. Controlled reading films, skimmers and reading accelerators are used to help the student gain facility in reading tasks.

18.2.3 GUIDANCE INFORMATION CENTRE

It is the aim of this centre to provide students with information as an aid to their making appropriate choices and decisions, particularly as related to graduate and career planning.

The centre maintains an extensive and up-to-date library of educational and occupational information, including a collection of university announcements from Canada and abroad, directories of universities, disciplines and programmes, compilations of financial aid for postgraduate studies, information on graduate school admission tests, a collection of career materials, guides to special service, travel and work programmes abroad, information on companies offering employment and pamphlets written to assist in the preparation of curriculum vitae and personal résumés. There is also a collection of books and pamphlets treating the general themes of love, family life and personal development.

18.2.4 CANADA MANPOWER CENTRE
— SGW CAMPUS
2020 Mackay Street 283-5177

This service, staffed and operated in cooperation with the Canada Manpower Centre, functions to assist students in exploring opportunities for part-time, summer and full-time employment. Notices from employers are posted and students are invited to discuss these with a Placement Officer who will assist in arranging interviews with employers’ representatives as appropriate.

The extensive information services of Canada Manpower Centre and the Guidance Information Centre are of particular interest to those undergraduates, graduating students and graduates who wish to fully explore career opportunities with a view to permanent employment.

All those who wish to use the services of the Canada Manpower Centre should register early. Those seeking permanent employment should register soon after the academic session opens as many employers begin recruiting visits in mid-October. Students seeking temporary summer work are advised to register as early as January. An open invitation is extended at all times of the year to students who wish to discuss their employment and career plans.
18.3 Student Services  
Loyola Campus

18.3.1 DEAN OF STUDENTS OFFICE
DEAN A. AUDET
The Division of Student Services is that dimension of the Campus staff who work on a day-to-day basis, primarily with:
- Specialized Services to Students
- Learning Opportunities Outside the Classroom
- Campus Life in General

The objective of the Student Services Staff is to work with others in making life on campus an educationally rewarding, exciting and enjoyable experience.

People in Student Services are not teachers or students or administrators "per se". They are counsellors, community workers, doctors, nurses, programme consultants, organizational resource people, and educators in a broad sense. Their approach in their work is to offer their skills and experience to those who need and want their help.

18.3.2 PROGRAMME DEVELOPMENT OFFICE
The Programme Development Office is the compartment of Student Services whose sole objective is to create events and opportunities that have substantial learning value outside the classroom. While the staff of the Programme Development office initiates and organizes some of its own programmes and events, the staff is available to help other groups launch activities.

In past years some of the projects the Programme Development Office was involved in were: Le Coin du Café, Sexuality Week, Lacolle programmes (on and off campus), Career and Life Planning Workshops, and various events during Orientation. In 1975-76 a Series on Learning was offered. As well the staff was involved in Personal Development Workshops and a project on Life in the 70's and 80's. The Programme Development Office is located in the Dean of Students Office, room AD-135.

18.3.3 HEALTH SERVICES
M. WHEELER
Located in the Centennial Building across the hall from the Guidance Centre, Health Services is open to all students for confidential health care, information and advice from 9 a.m. to 5 p.m. Monday through Friday. There are three registered nurses and eight doctors of different specialties who come in at varying times throughout the week. Drop in or call local 480 any time—it could prove useful.

18.3.4 FOREIGN STUDENTS
B. COUNIHAN
Foreign Students' Insurance: Students who are neither Canadian citizens nor landed immigrants are not eligible for the provincial medical program. The high cost of hospital care in Québec has prompted Concordia to arrange for an insurance policy which covers hospital expenses up to $5,000.00 incurred as the result of accidental injury or an illness. The premium for this policy is $54.00; it is included in your fees. This policy is required of all Foreign Students. Students from the United States who have comparable coverage at home may be exempted. For details about the coverage or exemption, contact the Foreign Student Advisor at Student Services.

Foreign Students Finances: It is most important for a student to have sufficient financial resources to cover his total expenses for at least one year of study. As you are no doubt aware, immigration regulations normally do not permit student visa holders to accept any form of employment during the academic year. A guideline of expenses which a student may expect to incur, in addition to his tuition fees, follows: (It should be noted that these figures can be considered minimal).

<table>
<thead>
<tr>
<th>Category</th>
<th>Cost</th>

<td>$3000.00</td>
</tr>
</tbody>
</table>

These costs have been calculated on the value of Canadian currency and cover only the academic year.

Overseas students are expected to present evidence to immigration authorities that they have adequate funds for their studies in Canada.

CONCORDIA OR THE CANADIAN GOVERNMENT DOES NOT GIVE FINANCIAL ASSISTANCE TO OVERSEAS STUDENTS.

Foreign Students English Requirement:
All classes at Loyola are conducted in
English. Students are expected to have sufficient facility in the use and understanding of the English language to be able to handle his or her programme. No exceptions can be made for students whose fluency is poor; this would probably entail “slowing down” the normal progress of the class. Please be aware of this before making a commitment with us.

18.3.5 RESIDENCE—LOYOLA CAMPUS

On campus accommodations are available to approximately 240 day division students. The facilities are versatile by division and can house students in a traditional dormitory style or apartment-suite style room; co-ed or single sex floors and special living groups can be accommodated.

While every effort is made to meet students’ requests for single rooms, roommates or particular halls, assignments are made as space allows. Students applying should be advised that rooms on campus are very limited and acceptance to the University does not guarantee admission to the residence. Separate application for off-campus housing must be made to the Director of Residence.

Because of its location and convenience, preference would be given to those students taking courses at the Loyola campus.

Off Campus Housing

Many students choose or are forced because of lack of space on campus, to live in an apartment or home in the campus vicinity. All students seeking information about apartment and home listing in the community, legal aid and other services available, should contact the Residence Office.

All inquiries should be made to:
Director of Housing and Residence Life
101 Hingston Hall, Loyola Campus
7414 Sherbrooke Street, West.
Montreal, Quebec
H4B 1R6

Residence Fees

General: Rates for rooms are the same at both Hingston and Langley Hall. These rates do not include meals. Meals may be contracted for separately.

<table>

</table>
| Damage & Develop-
| ment Fee*     | 15       | 15      |
| Damage Deposit| 50       | 50      |
| TOTAL         | $843     | $733    |

*Payable at registration and subject to change.

A room deposit of $50 must accompany each application and will be deducted from the payment due on entrance. The $50 deposit serves as indication for the University that you are a serious applicant for Residence. It does NOT guarantee the student a room. PLEASE DO NOT ASSUME THAT YOU ARE ACCEPTED INTO RESIDENCE UNTIL YOU HAVE RECEIVED A LETTER OF ACCEPTANCE FROM THE RESIDENCE OFFICE.

The money will be refunded on request, if the student is not accepted or cancels the room reservation by August 1. Student cancelling after the August 1 deadline will forfeit the $50 deposit.

The room contract covers the rental of linen, blankets and pillows and local telephone service.

The University reserves the right to place the student in whatever room seems to be in the best interests of the student’s programme as a whole, but careful consideration will be given to expressed preferences.

No student will be permitted into residence before settlement of his or her account has been made. For this purpose, a receipt covering at least the first term must be shown to the Director of Residence.

Fees do not cover the Christmas holidays. Students who intend to remain in residence over the holidays are required to apply to the Director of Residence by December 1st. There is an extra charge made to remain in residence at this time.

Residence fees may be paid in two installments. The first installment covering the first term, including compulsory fees, must be paid at registration. The second must be paid before January 10.

In cases where cheques are returned to the University marked “Non Sufficient Funds”, there will be a $5.00 charge. A $15.00 surcharge will be added onto all unpaid FEES as of January 15. Post-dated cheques will not be accepted.

All residence fees are payable in Canadian Funds or Canadian equivalent and cheques should be made payable to Concordia University.

The University reserves the right to make changes without notice in the published scale of fees, if in the opinion of the University, circumstances so require.

To ensure favourable consideration of your application it is recommended that you apply before June 1.

Meal Plan

Meals may be contracted for on a yearly basis at a cost of approximately $544.50 for two meals a day, 5 days a week (lunch and dinner) and $709.50 for three meals a day, 5 days a week. Several other plans are in effect and the student may choose the one most suited to his needs. He may also prefer to pay as he goes on an ‘a la carte’ basis anywhere on campus. Meal plan tickets are honoured at both Hingston Hall Dining Room and the Campus Centre.

**The Meal Plan rates are also subject to change.

18.3.6 FINANCIAL AID

F. HAFFEY

Financial Aid for students at Loyola is administered by the Director, Financial Aid.

This office exists solely to help students
STUDENT SERVICES
LOYOLA CAMPUS
18.3.6
FINANCIAL AID

find the financial aid available to them from all sources; advise students on the norms of eligibility or help them with any budgetary problems they might wish to discuss.

The Financial Aid Office is in Room A-126. Telephone: 482-0320, ext. 349.

18.3.7 SCHOLARSHIPS

A scholarship is awarded in recognition of outstanding academic achievement.

If a student holding a scholarship decides to change faculty, he will retain the scholarship only on condition that he receives the approval of the Loyola Campus Scholarship Committee.

No student may hold more than one scholarship from the university at any one time.

Concordia Entrance Scholarships

Full-tuition scholarships are available to students entering University I. Renewable. (Apply to the Director of Awards, Loyola Campus). Applications close March 1st.

Susan Langley Scholarships

Endowed scholarships established by Mr. and Mrs. M. J. McCormick in memory of the late Susan Langley. Value and number varies.

The Malone Scholarships

The Malone Scholarships are awarded to students on the Loyola Campus who have combined high academic achievement with leadership ability, commitment to and involvement in the community. Three scholarships. Value full-tuition.

18.3.8 ENDOWED SCHOLARSHIPS

Avon Products of Canada Scholarship. Value and number varies.

The Lilley F. Barry Scholarship. Value and number varies.

The Gordon Bennett Memorial Scholarship. From the estate of the late Mr. Gordon Bennett. Value and number varies.

The Charles J. Brown Scholarship. Donated by Mr. William J. Brow in memory of his late father. Value and number varies.

Ursula Carling Scholarship. From the estate of Mrs. U. Carling. Value and number varies.

The Francis J. Dowling Scholarship. From the estate of the late Francis J. Dowling. Value and number varies.

The Michael and Patricia Kindel/lan Memorial Scholarship. Established by the Kindellan Family.

The Kenneth J. McArdle Memorial Scholarship. Donated by Mrs. Mary McArdle. Offered to students in Science. Value and number varies.

The R. C. Moore Memorial Scholarship. Open to a Loyola Campus student who does not already possess a scholarship, enrolled in either Honours Mathematics or Specialization in Mathematics (formerly Major in Mathematics) and entering U3 to be awarded on the basis of the marks obtained in Mathematics courses taken during U1 and U2.

Mrs. John Moriarty Scholarship. From the estate of Mrs. John Moriarty. Value and number varies.

The Winnifred O'Reilly Memorial Scholarship. From the estate of Mrs. W. O'Reilly. Value and number varies.

The Clarence G. Smith Memorial Scholarship. From the estate of Mrs. Elizabeth M. Smith in memory of her son, Clarence G. Smith. Number and value varies.

St. Ignatius Men's Association Scholarship. Donated by the Members of the Association. Open to students in Arts. Number and value varies.

The James Weber Memorial Scholarships. Awarded in memory of a number of the class of 1970. Number and value varies.

18.3.9 SCHOLARSHIPS OFFERED BY COMPANIES' ASSOCIATION AND SOCIETIES

Bank of Nova Scotia Bilingual Exchange Scholarships. Six annual one-year undergraduate and graduate awards are available, three to French-speaking candidates and three to English speaking candidates. Undergraduate awards are for $1,500.00 tenable in the second to last year of a first university degree program. Graduate awards are for $3,000.00 and graduate students will be expected to outline their proposed programs of study. English-speaking winners may attend any Canadian French-speaking university or college and French-speaking winners may attend any Canadian English-speaking university or college provided it is a member, or federated with, or affiliated to, a member of the Association of Universities and Colleges of Canada. Apply to the Director of Awards Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed forms must be sent to the above address to arrive not later than March 1st.

Canadian Forces Benevolent Funds. The Canadian Forces Benevolent Funds consider applications from veterans for bursaries on behalf of their sons and daughters who are full-time students. Apply to the nearest local office of the Department of Veterans Affairs.

Celanese Canada Limited. Several entrance scholarships in any course leading to a baccalaureate degree offered to the children of employees or annuitants of Chemcell or its subsidiary companies. Further information and application forms should be requested directly from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed forms in triplicate are to be sent directly to the same address to arrive not later than June 1st.

Commonwealth Scholarships. Under a plan worked out at the Commonwealth Education Conference at Oxford in 1959, responsibility is shared between the Canadian Commonwealth Scholarship and Fellowship Committee and the External Aid Office to enable an increased number of students to share in the wide range of educational resources available through the Commonwealth. An undergraduate
award is made for the period required to enable the student to obtain his degree. For information consult: The Canadian Commonwealth Scholarship and Fellowship Committee, c/o Association of Universities and Colleges of Canada, or: The Director General, External Aid Office, both located at: 151 Slater St., Ottawa, Ontario.

Consumers Glass Company Limited University Education Awards Plan. Open to children or wards of employees and retired employees of Consumers Glass Company Limited for a full-time course of study in any Canadian university or college recognized by the Association of Universities and Colleges of Canada. Value $750.00 per year for a maximum of four academic years, or until a first degree is obtained, whichever occurs first. Awards are automatically renewed provided the students establish continuing eligibility and successfully complete the preceding academic year. Further information and application forms which must be submitted by June 30th may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ont.

Continental Can Company Limited (Canadian Scholarship Plan). The Carl C. Conway Scholarship is offered to the children or grandchildren of the Company's employees. Application forms should be requested from the plant managers or district sales managers. The completed forms, in triplicate, are to be sent to the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario.

The Continental Insurance Companies (Canadian Scholarship Plan). University entrance scholarships in courses leading to baccalaureate degrees may be applied for by the natural or adopted children, stepchildren or legal wards of one of the Continental Companies operating in Canada. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Applications must be sent directly to the same address to arrive not later than June 1st.

Government of Quebec Department of Natural Resources Scholarships. The Department of Natural Resources of Quebec offers bursaries to enable students to take a university degree in geology in the Province of Quebec. Further information may be obtained from the Secretary, Scholarship Committee, Quebec Department of Natural Resources, Parliament Buildings, Quebec, Quebec. Also open to graduate students in Metallurgy, Mining, Engineering and Geology.

Gulf Oil Canada Limited. Several university entrance scholarships are awarded annually to the children, natural or adopted, of employees and annuitants of Gulf of Canada and its subsidiary companies in Canada. Further information and application forms should be requested from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed applications, in triplicate, are to be sent directly to the same address to arrive not later than June 1st.

Imperial Oil Higher Education Awards. Imperial Oil Limited offers annually free tuition and other compulsory fees to all children or wards of employees and annuitants who proceed to higher education courses. The courses may be taken at any Canadian university or other approved institution of higher learning. Each award is tenable until the attainment of a first degree or for a maximum of four years. To be eligible a student must attain an average mark of 70% or higher in the appropriate secondary school examinations in the subjects required for admittance to the approved institution, or must have attained an average of 70% or more in a college year upon which application is based. Further information and application forms may be obtained from The Secretary, Committee on Higher Education, Imperial Oil Limited, 111 St. Clair Avenue West, Toronto, Ontario.

Iron Ore Company of Canada (Scholarship Plan). A limited number of entrance scholarships for study towards a first degree are offered to the children or wards of employees or annuitants or deceased employees of the parent or subsidiary companies. Further information and application forms should be requested from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed applications, in triplicate, are to be sent directly to the same address to arrive not later than June 1st.

Petrofina Canada Ltd. Higher education scholarships are granted yearly to all eligible children or wards of permanent employees, annuitants or deceased employees. Candidates must have completed University or College acceptance education in the year the application is made and obtained a minimum overall average of 70%. Each award pays the tuition and other compulsory fees at a Canadian University or College for up to four consecutive academic years or the receipt of their degree, whichever occurs first. Application forms may be obtained at the following address and must be received before June 1st of the particular year:

Mr. N.S. Mahlab
Vice-President
Personnel and Administration
1, Place Ville Marie
Montreal, Quebec
H3B 4A9

Quebec Cartier Mining Company. A limited number of four-year or first degree entrance scholarships are offered to candidates whose parents or legal guardians have been employees of the company for at least four years. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ont.

R.C.A.F. Benevolent Fund. The Royal Canadian Air Force Benevolent Fund has made provisions for loans for the benefit
of former R.C.A.F. personnel or their dependents. Apply to R.C.A.F. Benevolent Fund, 685 Cathcart St., Montreal, Que.

Texaco Canada Merit Scholarship Programme. Several entrance scholarships to provide up to a maximum of the first four years of undergraduate study may be applied for by dependent children, natural or legally adopted, of employees or annuitants or of deceased employees who died while employed by Texaco Canada. Application forms are obtainable from his supervisor. Completed applications, in triplicate, must be sent to the following address to arrive not later than June 1st: Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario.

18.3.10 FINANCIAL AID (GOVERNMENT)

Government Loan Plans. In all the Canadian Provinces a basic qualification for financial aid is that the applicant be a Canadian citizen or landed immigrant with one year’s residence and domicile in the province to which he is applying. This would be the province where his/her parents make their home.

The Province of Quebec. The Province of Quebec has an extensive program of student loans and bursaries available to students. For applications contact the Director Financial Aid.

Physically Handicapped. Students in any faculty who are Canadian citizens and have been resident and domiciled in Quebec for two years, may apply for an outright grant if they have suffered from poliomyelitis, tuberculosis, certain forms of cardiac trouble, or some other physical disability. Apply, Director, Financial Aid.

Ontario. Apply to the Director, Financial Aid.

New Brunswick. Apply to the Department of Youth and Welfare, Fredericton, New Brunswick.

For the provinces of Alberta, British Columbia, Manitoba, Newfoundland, Prince Edward Island and Saskatchewan, write to the Provincial Department of Education.

Children of War Dead (Education Assistance) Act. Under this Act fees up to $800.00 and monthly allowances are provided for children of Canadian war veterans whose death was attributed to military service in World War I, World War II, or the Korean War. Apply to the Superintendent of Welfare Services at the nearest DVA District Office.

United States Students. Due to new statutory regulations required by the Education Amendments of 1972 all parents of students who wish to apply for Federal interest benefits must file a Parent’s Confidential Statement with the College Scholarship Service, Box 176, Princeton, New Jersey 08540. Request that it be sent to Concordia University, Loyola Campus, CSS Code No. 0932.

Maine and Oregon. Apply through the United Student Aid Fund, form 1070, available at your bank.

Students From Other States. Apply to the Higher Education Assistance Corporation. Applications are available at your bank.

Due to the tight money situation, it is essential that you apply to the bank where your parents have an account, as early as possible.

NOTE: Applications for Government Aid should be made as soon as possible. Do not wait for registration.

18.3.11 LOAN FUNDS AND BURSARIES

Loyola Campus Alumni Student Loan Fund. The Loan fund exists to aid students who are in financial difficulties. Because of limited resources, the trustees of the loan fund will consider loans to students who:
1) have been successful in their set of final examinations at Loyola; 2) are prepared to repay the loan by October 1st, 1977. Apply to Director Financial Aid. Application must be made before January 1, 1977.

Bursaries

A bursary is a sum of money given to a student to assist him financially in the continuation of his studies.

Due to the greatly increased demand for financial aid, all students must apply first to their own province and/or state and accept maximum loan and bursary aid from these sources. Thus Concordia University, Loyola Campus funds cannot normally be used to compensate for a student’s failure to apply for and accept the maximum government assistance available to them. If a student needs more than this maximum government assistance, a bursary may be granted.

The basic principle in awarding financial aid is that the primary obligation to pay for an education rests with the students and their parents. This means that a student is expected to have savings from his summer employment and that parents must contribute according to their ability.

The Financial Aid Office exists solely to assist students and to help them find financial aid should they need it.

A bursary will normally take the form of a credit to the student’s tuition account. Ordinarily, bursaries will not be awarded to students who do not maintain satisfactory academic standing.

Applications for bursaries should be made as early as possible. Apply to the Director, Financial Aid, Loyola Campus.

"IBM - Thomas J. Watson Memorial Bursary - IBM Canada Ltd. Makes an annual grant of $1,000.00 for bursaries to students registered in a full-time course at the university who have satisfactory standing and who demonstrate financial need. Application may be made through the Awards Office."

" Touche Ross & Co. Bursary. Awarded annually to a student who is completing his penultimate year and will be entering his final year, majoring in accountancy in the Faculty of Commerce, and who intends to pursue the qualification of Chartered Accountant. Number: one. Value: $200."

The Birks Family Foundation. Has established a plan of annual contributions to the Student Aid Fund of recognized Canadian Universities for the creation of the Birks Family Foundation Bursaries. The bursaries are awarded by the Foundation on the recommendation of the University Scholarship Committee and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

B'nai B'rith Hillel Foundation. A limited number of bursaries are available. Amount of each bursary granted from this fund may vary according to the need of the describing student in any year or any faculty. Apply to Hillel House.

National Council of Jewish Women of Canada, Montreal, Section, Bursaries. A limited number of bursaries are awarded by the Council upon the recommendation of the Financial Aid Director. Academic standing and financial need are considered in making the award. Although there is no legal obligation, the Council hopes that the holder will, if possible, return the money at some future time so that other students may be helped.

Canadian Italian Business & Professional Men's Association. Bursaries are awarded to students of Italian origin or descent by the Association. Apply to the President, Trust Fund Committee. Application forms may be obtained from the Association at 892 Cremazie Blvd. W., Montreal.

St. Andrew's Society Bursary, $200.00 - Established by the St. Andrew's Society of Montreal, for a needy student, preferably of Scottish blood, proceeding to a degree. Administered by the St. Andrew's Society.

18.3.12 FINANCIAL AID FOR OVERSEAS STUDENTS

The scholarships, bursaries and loans offered by companies, associations, societies, foundations, departments of education and other government agencies are generally not available to students from overseas. Therefore, overseas students who require financial aid should contact as appropriate, one of the other undermentioned organizations;

1) Students Of All Nationalities - UNESCO; Students apply through the Department of Education of their own Country providing it is receiving aid through the United Nations Organization.

2) Students From Certain Countries In Africa, The Antilles & Latin America. The Canadian Government offers assistance through the Canadian International Development Agency to students from the following countries:
   a) Colombo Plan: India, Pakistan, Afghanistan, Ceylon, Malaysia, Thailand, South-Vietnam, Cambodia, Laos.
   b) Special assistance to African countries within the Commonwealth.
   c) Educational aid offered to French African States.
   d) Foreign Aid Program available to West Indies Countries within the Commonwealth.
   e) Foreign Aid Program available to Latin American Countries signatory to the Punta del Este declaration.
   f) Students should write to the Department of Education of their respective countries for detailed information and application forms.

3) Other African Countries. Students from other African countries may obtain information from the African-American Institute, 355 East 45th Avenue, New York 17, N.Y., U.S.A. Students should make sure of adequate finances before coming to Canada. A minimum of $2800.00 Canadian would be required for one academic year.

18.3.13 CAMPUS MINISTRY

BELMORE HOUSE

Belmore House is a Place of Welcome for anyone who wants to feel at home on Campus. It's an old house with a bit of family atmosphere about it, a place to meet other and make new friends, to find out what is going on around the Campus, and a place to get involved in what appeals to you. If your thing is sports, there are intramural teams for that, a ski week, hiking and camping: if it's celebrating life, there is sharing and liturgy, folk singing and prayer; if it's social issues, there is the grape and lettuce boycott. Archambault Federal Prison, needy families at Christmas, blind children...among others.

There are weekends for those who want to get away from it all, go out into the country, and try to put it all together. What is different about Belmore is that it is a house on Campus that is yours, that you can be part of and have a share in running. Belmore House is the centre for the Loyola Campus Ministry. The present chaplains are 2 priests, a religious sister and a full-time secretary. They are helped by part-time associates who are ministers and rabbis. People who come to Belmore House are recognized and accepted as they are. One of the things that makes Belmore different is that any of the activities and events are potentially open to the religious dimension of one's life. People are encouraged to share and reflect on what they do. For those who want, there is the chance to reflect on this in spiritual terms. Each person is free to participate to the degree he wants. The personal freedom of each to participate to the degree he wishes, is always respected.

18.3.14 MUSIC DEPARTMENT

The Music Department, which is growing steadily provides the Loyola community with many opportunities for personal musical development.

Areas are available to individual students for instrumental practice and use of the listening facilities provided by the considerable record library.

Individual instrumental lessons may be
SERVICES  
LOYOLA CAMPUS  
18.3.14  
MUSIC  
DEPARTMENT

Increased emphasis has been laid on this aspect of personal artistic development and understanding.

Lunchtime listening programmes are provided during the academic year.

The larger ensembles available are the Choral Society and the Loyola Orchestra. Entrance to all activities is by audition. Small ensembles, e.g., Recorder groups, vocal ensembles, are provided on demand.

The Loyola Orchestra, a unique amateur group in the city, has attained a reputation for musicianship and high standards of performance, and has accompanied solo artists of international standing in concert performances. The Choral Society, a 50-voice ensemble, shares with the orchestra a standard of achievement in the presentation of major choral works, and the two groups provide the basis of Loyola’s contribution to music-making in Montreal.

The Department also provides examples of the best in professional performances of music in their invited artists programmes during the year. For further information call 482-0320, Ext. 249.

18.3.15 CANADA MANPOWER CENTRE

The Canada Manpower Centre on the Loyola campus has a staff of 5 permanent employees. Their aim is to be of service to students and the Loyola community. It includes 2 professional Counsellors whose essential duties are Career counselling and Placement of Graduates. Their assistant is responsible for placing students in Casual, Part-time, Christmas and Summer jobs.

The CMC(OC) provides facilities to all employers who wish to come on campus to recruit students. This On Campus Recruiting Program begins in November and normally ends in February.

Information Sessions for Loyola Graduates on job search techniques are organized during the academic year in each faculty department. Topics range from writing a resume to the art of selling one’s self to the potential employer.

Day and Evening students and Alumni may use our Services. Appointments are arranged for those students who are unable to come during the day.

Career Library: Students are made aware that they have at their disposal a Career Library and reading room in our office situated at 6935 Sherbrooke W. and in the Vanier Library.

The Canada Maupower Centre is located on the top floor of the Centennial Building at 6935 Sherbrooke St. W., Montreal—489-3885.

18.3.16 LACOLLE CENTRE

The Lacolle Centre for Educational Innovation is an off-campus facility located 40 minutes from Loyola Campus near Lacolle, Québec. It provides a place and other resources so that people can explore new avenues of learning and by being together, enhance their overall educational experiences on the Loyola Campus.

While the Centre offers some programmes of its own, it exists to encourage the development of programmes by any interested class, group, or individual. A programme consultant is available to give assistance in planning programmes so that people have the best opportunity to achieve their objectives.

By having the Centre off-campus and out of the context of everyday life, it is possible for people to de-emphasize their official roles, and have contact with other segments of the community on a more personal basis.

The Centre can be used as a supplement to regular classes, as a place where people who regularly work together can build more productive relationships, and as an opportunity for people to explore mutual interests with others. The Centre is limited only by the imagination and resourcefulness of the Loyola Community.

Proposals for the use of the Centre should be made well in advance. The Co-ordinator or Secretary may be contacted through the Lacolle office—Room AD 104 (482-0320), local 344.

18.3.17 LOYOLA CAMPUS CENTRE

The “Centre” which opened in 1973, is designed to meet the social and recreational needs of students.

It is open seven days a week and includes both a main lounge and ‘quiet’ lounge, two multi-purpose conference rooms a cafeteria and pub, as well as recreational facilities for billiards, ping pong, chess and card games.

The operation of the Campus Centre is dictated by a Board of Directors, on which both day and evening students predominate.

Mr. Douglas Devenne is the Director of the Campus Centre.

18.3.18 LOYOLA CAMPUS FOOD SERVICES

A. WOODCOCK

The Hingston Hall Dining-Room is open to all for breakfast and lunch until 3:30 p.m. daily, except Saturdays and Sundays and holidays. ‘A la carte’ service and special hot meals are provided. Special events and parties can be arranged through the Events Coordination Department. The seating capacity is 300.

At the new Campus Centre, students can choose from a variety of hot foods, snacks and beverages, in addition to daily specials. The seating capacity is 275 when the Pub is not in use. The Pub opens at 3:00 p.m. with a seating capacity of 100. This restaurant opens daily at 8:00 a.m. except on Saturdays and Sundays when it opens at 11:00 a.m.

Meal plans are available for use at Hingston Hall and the Campus Centre. (For further information, please see section on Tuition and Fees).

Guadagni Lounge provides facilities for students who prefer to bring their lunch. A coffee bar is operated by the Intrafraternity Council. Coffee, candies, doughnuts, pastries and beverages are offered at reasonable prices. The seating capacity is for over 100 persons.
BOOKSTORE—LOYOLA CAMPUS

P. GORE

Books and supplies including art materials may be bought at the bookstore, which is located in the South half of the Physical Services Building.

It is recommended that students review the return book policy before making any purchase.

LOYOLA DAY NURSERY

The Child Day Care Centre at Loyola Campus which began operating 6 years ago, provides a comprehensive nursery school programme for pre-school children ages 3-5, on both a full and half-time basis, for all members of the Loyola community.

The Centre is well equipped, both in terms of staff and materials. The programme offers a balance of structured and unstructured, individual and group, quiet and group activities. These include physical activity, cognitive and problem solving activities e.g. puzzles, form boards, word concept and number games, etc; free, imaginative and dramatic play, rhythm and music activities, arts and craft, story telling and reading. The programme is run by well qualified and experienced nursery school teachers with student assistants from the “Practicum in Early Childhood Development” course.

Winter Programme: The regular winter programme runs from September to April from 8:30 a.m. to 5:15 p.m. Parents are urged to apply early since space is limited.

Summer Programme: A special summer programme is offered in conjunction with the Day Summer Session from 8:30 a.m. to 1:15 p.m. daily. Parents must apply before June 1.

For further information and application forms, please contact the Centre at 2499 West Boardway, 486-5840, or contact Student Services, AD 135.

LEGAL INFORMATION SERVICE

Legal advice and help are offered to all students who may require assistance on matters relating to their legal rights. A student charged with a criminal offence may have an attorney appear for him in all criminal proceedings as well as those originating from infractions of the Highway Code and municipal by-laws. These services are free and confidential. This service may also extend to civil proceedings in which a student is involved as either plaintiff or defendant, the costs of which may be defrayed for students without the necessary financial means.

OFFICE OF THE JUDICIAL OFFICER

Set up to handle misconduct and disruptive behaviour, Student Court is a three-level judicial system, whereby a student accused of having violated the rights of others can be heard and tried by his fellow students. He must be informed in writing of the charges laid against him, and given sufficient time to prepare his defense. Under the guidance of a Student Court Officer, and chosen from a pool of applicants, it is composed of three units: A Preliminary Hearing Board, The College Court, and a Court of Appeals.

The Preliminary Hearing Board is composed of three members and can either dismiss a complaint, or turn the complaint over to the College Court for the hearing.

The College Court consists of five members drawn from the pool, and hears representations for and against the defendant. It must find for or against the defendant and impose an appropriate sentence.

The Court of Appeals is the Court of Final Hearing. It is composed of seven members drawn from the pool and may confirm or reverse the decision of the court, increase or reduce the sentence, or return the case for a new Court hearing. If a sentence of temporary suspension or expulsion is maintained by the Court of Appeals, there is an automatic appeal to the University Board of Governors.

Complaint forms may be obtained from the Legal Information Service Office in Hingston Hall, Room 228B, local 512.
Upon the recommendation of the Loyola Students' Association, the Office of the Ombudsman was introduced to the Loyola community in 1972. The position is occupied by a Loyola graduate who is selected by a Search Committee comprised of student and faculty members, who were appointed by the Loyola Faculty Council.

As of 1975 the position will be a full time one, with the term of office for a single Ombudsman having been extended from one to two years.

The primary role of the Ombudsman is to act as a neutral liaison officer and mediator, in the variety of conflicts that may arise within the Loyola community. The position, independent of the usual structures and influences, allows for lack of bias and relative freedom of operation.

A great majority of the cases brought to this office are related to professor-student conflicts, arising over issues including those of grading, personality clashes, and conduct. In cases involving grade appeals, (and these are the most frequent problems), the student, after having discussed the question with his/her professor, may if dissatisfied, contact the Ombudsman. When attempts at resolving the problem informally fail, Departmental Review Committees, comprised of 2 professors and 1 student from that department, are set up to review the situation. If, upon receiving the decision of the Departmental Committee, the student is not fully satisfied, he/she may take the case to a Board of Appeals, which consists of 5 members, 3 professors and 2 students. The decision of the Board of Appeals, which will review the entire case, is final. The role of the Ombudsman throughout this period is that of coordinator and mediator.

The duties of the Ombudsman also include attempting to resolve difficulties relating to administrative procedures and technicalities. The Office of the Ombudsman is not in any way limited, however, to the above-mentioned areas and will try to deal with whatever difficulties or problems the members of the Loyola community may bring to it. On these occasions, the Ombudsman will act as a resource person who, when unable to deal with a situation personally, will supply the person or persons involved with the necessary information concerning the proper channels to consult.

In the past, this service has been made use of primarily by the student body. It is hoped that other members of the Loyola community will make full use of this Loyola service as well. This year the Ombudsman's Office will be open every day, morning and afternoon, with special hours for evening students, as yet undetermined. The office is located in the Administration building—AD 105, and the Ombudsman can be reached by dialing the Loyola number—482-0320, local 257.

DOUGLAS INSLEY, MSc
JOAN RICHARDSON, BA

18.5.1 STUDENT LIFE

The Sir George Williams Campus of Concordia offers a wide variety of out-of-class programmes. Most of these are sponsored and carried out by the different student associations; and many opportunities are created for students to participate in social, special interest groups, student government, informal training in radio, television, newspaper, drama, and many other useful experiences.

In addition to the social and cultural opportunities mentioned above, the University sponsors special support programmes called Student Services. These are described in the following paragraphs. Many students use these resources under varied circumstances, such as a need for more finances, legal, counselling, housing, child care and other needs as required.

Student Services come under the jurisdiction of the University Council on Student Life. This is a policy-making body, and its membership is composed of ten students, six faculty, three administrators, and a representative of the Board of Governors. It is at this level that careful consideration is given to the priorities in Student Services.

18.5.2 STUDENT SERVICES

Orientation

Orientation at Sir George Williams Campus is designed to familiarize new students with the various services and facilities available to them, and to help new students resolve any problems which may be encountered during the initial introduction to university life.

Legal Aid

A number of alumni lawyers have generously offered service to students in need of legal advice. The service does not cover legal fees which may be incurred. Appointments to see a lawyer may be made through the Office of the Dean of Students.

Off-Campus Housing

As there are no residence facilities at the Sir George Williams Campus, the Office of the Dean of Students maintains an off-campus Housing Registry for students seeking accommodations. The Registry represents listings of rooms, room and board, and apartments. The cost, location and particulars of each listing are included.

When considering accommodation, students are strongly urged to refer leases to the Office of the Dean of Students before signing. Students should also be sure to obtain their own copy of a lease immediately.

18.5.3 STUDENT HEALTH AND ACCIDENT INSURANCE

A group health and accident insurance policy is offered on a voluntary basis to Canadian day students. For students eligible for provincial or federal hospital and medical coverage the cost is ten dollars ($10.00).

Out-Of-Country Students

The group health and accident insurance plan is COMPULSORY for all out-of-country students attending the Sir George Williams Campus as full-time students. The plan is compulsory as out-of-country students are not eligible for coverage offered under the Quebec Provincial Hospital Insurance Service. The plan is available for single or married coverage.

18.5.4 CHILD CARE

The Sir George Williams Campus offers Child Care Services for children of students, faculty and staff. Parents may enroll children two to five years of age in the Child Care Centre located at 2305 St. Marc St. Application forms and details may be obtained in the Office of the Dean of Students or at the Centre.
18.5.5 HEALTH SERVICES
Health Centre
Location: 2145 MacKay Street
Telephone: 879-4010, 4011, 4012
Office Hours:
9:00 a.m. to 10:00 p.m. Monday through Friday during University terms and Summer sessions.
9:00 a.m. to 5:00 p.m. at all other times.

Medical Director:
DR. H. ABRAMOVITCH
6 staff doctors
Registered Nurses:
MRS. J. JOHNSTONE
MRS. P. HUZA
MISS PENNY SOPER
Secretary:
MISS DIANE MOFFAT

To be seen other than in an emergency situation, or with an acute problem, please telephone for an appointment (generally there is only a day’s wait).

Services of the Health Centre are available to all staff, students and faculty members, full or part-time.
The Health Centre is staffed with registered nurses and doctors and is run on a clinic programme. It is open Monday through Friday with a varying schedule of doctor coverage. Multiple, paramedical, and referral agencies in the immediate downtown area are utilized, as well as the general hospitals in this area.

On location the Health Centre provides:
—immediate attention and evaluation of accidents, or any other acute health problem.
—health care information.
—general medical check-ups.
—contraceptive guidance and teaching.
—gynecology, urology.
—periodic blood pressure checks, evaluation and/or referrals for breast clinics, speech therapy, fertility screening, etc.
—immunization for travellers (for total immunization a three month period of time is needed.)
—social disease medicine, infectious diseases. VD DIAGNOSIS AND TREATMENT (MEDICATIONS SUPPLIED FREE OF CHARGE).
—nutrition counselling.
—allergy injections. Patient must provide serum and instruction schedule from the allergist and return to the allergist annually.
—human sexuality and relationship counselling.
—evaluation and referral for all medical specialties, eg. dermatology, ophthalmology, orthopedics, obstetrics, family practice, etc.
—guidance.

Your visits are financially covered by Medicare or the compulsory C.N.A. Insurance (Insurance programme for out-of-country students at the Dean of Students Office.)

18.5.6 BOOKSTORE SGW CAMPUS
M. MACMURRAY
Books and supplies including art materials may be bought at the Bookstore located on the mezzanine of the Hall Building.

At the beginning of each academic year, required texts are also available from an auxiliary sales location in the Birks Auditorium on the main floor of the Norris Building.

It is recommended that students review the return book policy before making any purchases.

18.5.7 FOOD SERVICES
The Food Service Centre is located on the 7th floor of the Hall Building and is open for breakfast, lunch and dinner daily except Saturdays and Sundays. “A la carte” service and special hot meals are provided. Special events and parties can be arranged by telephoning the Event-Coordinator, Mr. Leslie Price, at 842-0320 Local 524 or 525.

The seating capacity is 700. Hours of operation are as follows:
Monday through Thursday
8:00 a.m.—9:30 p.m.
Friday
8:00 a.m.—8:30 p.m.
A small eating area is provided in the Norris Building (2nd floor) and is served by vending machines.

18.5.8 CHAPLAINS
University life consists of more than mere “academe”. One of the most important non-academic elements in its life is the “pastorale”. A truly major concern of the chaplaincy ministry is one of meaning and purpose as well as a deep involvement in the matter of the quality of life both within the university community as well as outside, in life in general.

At Sir George there are two full-time Chaplains and six part-time members of the team (often referred to as “The God Squad”) working in this area.

In the last few years, our Chaplains have represented the Anglican, Eastern Orthodox, Jewish, Lutheran, Pentecostal, Presbyterian, Baptist, Roman Catholic and United Church traditions. Although the work of the team has been ecumenical in approach (this has proved to be the most successful in general), the various religious heritages are well-respected and clearly upheld.

During the academic year, the chaplains organize various programmes that generate interest among members of the university community. They are also available for personal religious guidance and counselling.

In its various endeavours, the chaplains use an informal and personalized approach. They are an integral part of the community and are ready to assist in any way they can, be it through a simple rap, an intellectual dialogue on issues, a request for direction or a personal hassle. In brief, they are concerned with the total person for they have a healthy respect for individual points of view.
18.5.9 SECURITY

Lost & Found: Contact the Security Desks in the Hall Building (879-2848) and/or Norris Building (879-4515).

Passes: (Late, weekend or holiday passes to University premises) Blank forms may be obtained from Departmental Offices or Security Desks. These forms are to be completed and reach Security Offices (H-118-2) no later than 4:00 p.m. on week days.

Material & Equipment Passes:
To be used for removal of equipment. Blanks may be obtained from Departmental Offices. They are to be completed in 2 copies. Original to be left with the guards upon exit and a copy to remain with equipment or materials.

Safety and Fire Prevention

Acquaint yourself with the policy of prevention on the job, shop or area of work. Good housekeeping and clean premises are the first essentials in the elimination of fire and accidents.
1) Familiarize yourself with the emergency exits in your area. They all have red exit signs.
2) When the fire bells ring continuously, leave the building using the closest emergency exit.
3) Do not run.
4) Do not use the elevators.
5) Stay calm.

In the event of a hazard or emergency, please call the Safety Officer at 879-2888 or the Hall Building Security Desk at 879-2848 or the Norris Building Security Desk at 879-4515.

18.5.10 FINANCIAL AID

The Office of the Dean of Students maintains staff who are always available to help students solve individual problems or to explain existing programmes and regulations.

Quebec Social Allowance

A monthly allowance of $10.00 is granted to the parent or guardian of all full-time students between the ages of 16 and 18, domiciled in the Province of Quebec. For information, please address all correspondence to:
The Social Allowances Commission Dept.
Family & Social Welfare, Parliament Buildings, Quebec City, P.Q.

Province of Quebec Loan-Bursary Plan

Provincial government assistance is available in the form of guaranteed loans and bursaries, the amounts of which vary in accordance with the financial needs of the student. It is important for the student to note that the provincial government operates on the philosophy that the primary responsibility for financing a student's post-secondary education belongs to the student and/or his family. Assistance is provided to supplement family-student resources. Further, it is important to note that to qualify for bursary assistance, the student must first accept a loan.

Deadline

Students must apply prior to September 30th, 1975. Application forms may be obtained from the Office of the Dean of Students or directly from the Student Aid Service. If you applied during the 1974-75 academic year, you will automatically receive an application at the address shown on your 1974-75 form. It is not necessary for you to wait until you are registered before having your form approved by the Office of the Dean of Students. For additional information, please refer to the Financial Aid Information Handbook.

University Bursaries and Scholarships

A number of university bursaries and scholarships are available for both full-time and part-time students. A complete listing of these awards and the conditions under which they are awarded is available from the Office of the Dean of Students. All applications must be submitted prior to December 31st, of each academic year.

Emergency Loan Fund

The Sir George Williams Campus Loan Fund is administered by the Office of the Dean of Students. The Fund provides students with short-term financial assistance. The maximum loan is normally $150.00 for a period not exceeding 90 days.

Students are welcome to use the fund as many times as is necessary. However, they may not have two loans outstanding at any one time.

18.5.11 UNDERGRADUATE SCHOLARSHIPS

Note: These awards are made on the basis of academic standing and recipients are selected from the academic honours list. No applications are necessary unless otherwise indicated.

Allied Chemical Canada Limited Scholarship: This scholarship is awarded annually to a final year student in the Department of Chemistry on the recommendation of the Chairman of the Department. The recipient receives a suitably inscribed silver tray and $750.00.

Association of Alumni Presidents' Scholarship: A Scholarship in the amount of $100.00 is awarded to any student in any year of faculty on the basis of outstanding academic achievement during the preceding academic year.

The late Captain Melville Greenhields Scholarship: This scholarship in the amount of $500.00 will be awarded to a deserving student of Art for the furtherance of his studies on the recommendation of the Fine Arts Faculty.

Compton-Lamb Memorial Scholarship: This scholarship established in memory of the late Neil Compton and Sidney Lamb shall be awarded annually in the Department of English. The recipient must be registering in the last five courses of an English Honours Programme. Application should be made to the Chairman, Department of English.
STUDENT SERVICES
18.5.11

STUDENT LIFE
SIR GEORGE WILLIAMS CAMPUS
UNDERGRADUATE SCHOLARSHIPS

Alvin J. Gutman Scholarship: A scholarship of $100.00 is available annually to a student from Africa or Asia. This scholarship is awarded at the discretion of the Scholarship Committee.

John A. Hale Memorial Scholarship: This scholarship has been established in memory of the late John A. Hale, a student of Sir George Williams. This scholarship will be awarded annually to a deserving student entering the third year of a Bachelor of Computer Science programme on the recommendation of the Chairman, Department of Computer Science.

Henry F. Hall Scholarship: Established by the Faculty and Staff of Sir George Williams in recognition of the many years of service given to the university by the late Dr. Henry F. Hall. This scholarship is awarded annually on the basis of merit to a student in any faculty of the university, day or evening division at the discretion of the Scholarship Committee.

Kodak Scholarship: This scholarship valued at $300.00 will be awarded to a cinema student of outstanding merit upon recommendation of the Department of Fine Arts.

Lucille Irvine Memorial Scholarship: This scholarship is awarded annually on the recommendation of the Chairman, Department of Psychology to an outstanding student of Psychology in either the day or evening division. This scholarship was established by Mrs. William Broidy in loving Memory of the late Lucille Irvine, a devoted teacher and a former member of the university staff.

Maynard Metcalf Scholarship: In the day division, a scholarship of $100.00 is awarded to a student in any year of study for outstanding academic achievement during the preceding academic year.

The P. T. R. Pugsley Memorial Scholarship: Established by friends of the late Professor Pugsley to commemorate his many years of service as senior Professor of the Commerce Faculty of Sir George Williams. The scholarship of $150.00 is awarded annually to an outstanding student in the Faculty of Commerce, day or evening division.

Weldon Scholarship: Awarded annually, to a deserving student in the Faculty of Engineering at the discretion of the Scholarship Committee. The value of this scholarship fluctuates depending on current interest rates.

Zellers' Scholarships: In the day or evening division, one scholarship of $100.00 to be awarded on the basis of high scholastic achievement in the penultimate in the year of the Commerce degree curriculum.

Bursary: A sum of $1000.00 to be awarded to deserving and needy students at the discretion of the Financial Aid Committee.

18.5.12 UNDERGRADUATE SCHOLARSHIP-BURSARIES

Note: These awards are made on the basis of financial need and high academic standing. Applications for these awards should be forwarded to the Financial Aid Officer unless otherwise stated.

Affiliated Factors Corporation Bursary: A bursary of $100.00 is awarded annually to an undergraduate student in any Faculty on the basis of need and academic standing.

Arthur Andersen & Co. Scholarship

Bursary — $100.00 awarded annually to an undergraduate student in any Faculty on the basis of need and academic standing.

Joel Birenbaum Memorial Bursary: This bursary of $450.00 is awarded each year, in memory of Joel Birenbaum, a student of Sir George Williams. This award will be made to a needy, worthy student in the Faculty of Science at the discretion of the Scholarship Committee. The value of this bursary may fluctuate depending on the current interest rates.

Henry I. Chinks Memorial Scholarship or Bursary: Awarded annually on the basis of need and academic standing to an evening student in the Faculty of Science, in the Field of Chemistry. Recipient is chosen by the Chairman, Department of Chemistry.

Joseph Gilbert Joyce Memorial Scholarship or Bursary: This scholarship or bursary shall be awarded to an evening student in any faculty or year, at the discretion of the Scholarship Committee. The basis of award shall be academic standing, financial need and promise in his chosen field of study. The late Rev. Dr. J. G. Joyce, during his twenty-four years' ministry at Verdun United Church, maintained a deep interest in the evening division of the university. This scholarship is established according to his conviction that knowledge and higher education should be available to those who seek to make a creative contribution to the development of mankind.

The S. H. McNelly Bursary: A $75.00 bursary is available annually to a student who is employed by the Canadian Pacific Railway Company. This bursary is awarded to an evening student in the second year of any faculty of the university, based upon scholastic achievement and need.

Walter H. Pike Scholarship-Bursary: This bursary of $150.00 will be awarded at the discretion of the Student Aid Committee to a deserving student in any faculty.

Myer F. Pollock Scholarship: Awarded annually to a needy worthy student in the Faculty of Engineering or Computer Science at the discretion of the Scholarship Committee. The value of this award fluctuates depending on the current interest rates.

The Anne Savage Memorial Fund: This bursary of $50.00 is awarded each year in memory of Anne Savage, painter and art educator. It is given to a deserving student in the Faculty of Fine Arts, upon the recommendation of the Faculty of Fine Arts Department Council. Applications should be made through the Fine Arts Faculty.

Sir George—St. Vincent Bursary: Awarded annually, to a needy, worthy student from St. Vincent, at the discretion of the Scholarship Committee. This award has a value of $300.00.

Steel Company of Canada Bursary: This award has a 3 year value of $1500.00 provided satisfactory academic standing is maintained each year, and is available to a student who has attained a minimum average of 66% in CEGEP.

Walter Stenhous Bursary: This bursary of $75.00 established by Mrs. E. Pavey and Mrs. J. Tombs, and awarded under the auspices of the Arts Club of Montreal, is available annually to a final year student in the Faculty of Fine Arts, upon the recommendation of the Faculty of Fine Arts Department Council. Applications should be made through the Fine Arts Faculty.

IBM—Thomas J. Watson Memorial Bursary: IBM M. Canada Limited makes an annual grant of $1,000.00 for bursaries to students registered in a full-time course at the university who have satisfactory standing and who demonstrate financial need.

Application may be made through the Awards Office.

18.5.13 UNDERGRADUATE BURSARIES

Note: These awards are made on the basis of financial need subject to passing grade. All applications should be submitted to the Financial Aid Officer unless otherwise indicated.

Association of Alumni Bursary—$100.00 awarded annually to a student in any year as faculty on the basis of financial need.

Birks Family Foundation Bursaries: These bursaries are available to students recommended by the Scholarship Committee, in any faculty. They may be renewed annually, until graduation, to successful students. The number and amount of awards may vary from year to year depending on the funds available from the Foundation.

The Ethel Campbell—P.E.O. Memorial Bursary: Established by Colin C. Campbell in living memory of his wife, Ethel May Routledge Campbell, and in recognition of her dedication to the aims, objectives, and the moral principles of the P.E.O. Sisterhood. This award is to assist a female student toward the financing of her university programme.

The J. P. Copland Memorial Bursary: In the day and evening division, to be awarded at the discretion of the Student Aid Committee on the basis of financial need and academic standing.

John Crawford (Administrative Management Society) Bursary: $100.00 will be awarded annually as a bursary to a deserving student in the evening division of the Commerce Faculty in memory of the late John Crawford, Charter member and first President, 1938-40, Montreal Chapter, National Office Management Association, International President, 1941-42, N.O.M.A. and lecturer at Sir George Williams for many years, and who showed an interest and devotion to matters of education worthy of special recognition by his associates in N.O.M.A.

Ralph B. Hood Bursary Fund: In the day and evening division, to be awarded at the discretion of the Student Aid Committee on the basis of financial need and academic standing.

Helen McNicoll Art Prize
This prize is to be awarded in alternate years to third year students who have shown exceptional talent in Visual Arts and to third year students who have excelled in Art History (preferably Canadian or North American).

Both selections are to be made upon the recommendations of the Faculty of Fine Arts. Value according to funds on hand.

Knights of Pythias (Syracuse No. 9 Bursary Fund: This fund was established by the Knights of Pythias to assist students in the day or evening division of the university.

National Council of Jewish Women of Canada Bursary—Loans: In the day or evening division, bursary awards are provided according to financial needs. It is expected that students will undertake to repay grants after graduation.

Theodore Ronis Memorial Bursary: This bursary of $500.00 is established by the friends of the late Theodore Ronis to perpetuate the memory of his friendship through the annual gift of a bursary to a deserving student. The recipient should be studying preferably but not necessarily towards a Bachelor of Commerce degree, and be a male student.

Royal Albert Lodge Bursary: The sum of $400.00 to be awarded as scholarship and bursaries to a) children of members of the Royal Albert Lodge, b) children of members of other Masonic Lodges. If neither A or B qualify, any worthy student may apply and receive the scholarship or bursary at the discretion of the Scholarship Committee.

St. Andrews Society of Montreal Bursary: The amount of $500.00 is available annually
to a needy student of Scottish blood or descent studying in the day or evening division of any faculty.

Science Educational Assistance Fund: A number of bursaries are offered annually by the Science Students Association to their students. Minimum requirements are second year standing and financial need. Applications may be obtained from the S.S.A. Offices and should be returned to the Financial Aid Officer.

Uniroyal Limited Aid-to-Education Program: Loan-bursaries are awarded annually on the basis of need to students who have completed a minimum of two years in university.

18.5.14 EXTERNALLY ADMINISTERED AWARDS

Note: "In most cases awards of a national nature are based on high school leaving grades as Quebec is the one province in Canada with a compulsory C.E.G.E.P. program. Wherever possible C.E.G.E.P. grades will be considered."

The Association of Universities and Colleges of Canada: The Association administers national and international aid programs on behalf of private and governmental donors. A complete listing of the programs administered by A.U.C.C. can be found in the Guidance Information Centre, Room 440, Henry F. Hall Building.

Harry F. Bennett Education Fund: The purpose of this Fund is to make loans to deserving students who need financial assistance to enable them to study Engineering Sciences at university level and who have proved themselves by successfully completing their first year in engineering or the equivalent.

The Engineering Institute of Canada 2050 Mansfield Street Montreal, Quebec

The Building Trades Joint Committee Scholarship: A five year scholarship is available to a student entering into the Faculty of Engineering. This award covers full tuition fees for five years subject to a satisfactory academic standing. Applicants must be the sons of employees engaged in the construction industry in the District of Montreal.

Mr. Armand Brisebois Personnel & Office Manager The Construction Industry Joint Committee of the Region of Montreal 3530 Jean-Talon St. West Montreal, Quebec

Canadian Federation of the Blind Bursary: Bursary assistance is awarded to a registered blind person or his parents. In awarding this bursary, preference will be given to members of the Canadian Federation of the Blind and in particular to those people domiciled in the Province of Quebec.

Mr. Gordon L. Mc. Gilton Corresponding Secretary Montreal Branch Canadian Federation of the Blind 1172 St. Matthew Street Montreal, Quebec

Canadian-Italian Business and Professional Men's Association: The Association created a trust fund to assist students of Italian origin or descent to continue their university studies. Applications must be completed before May 31st, annually.

Mr. Dante Panni, Chairman Trust Fund Committee Canadian-Italian Business and Professional Men's Association 892 Crémazie West Montreal 303, Quebec

Commonwealth Scholarships: Under a plan worked out at the Commonwealth Education Conference at Oxford in 1959, responsibility is shared between the Canadian Commonwealth Scholarship and Fellowship Committee and the External Aid Office to enable an increased number of able students to share the wide range of educational resources available through the Commonwealth. An undergraduate award is made for the period required to enable the student to obtain his degree.

For information contact:
The Canadian Commonwealth Scholarship and Fellowship Committee c/o Association of Universities and Colleges of Canada

or

The Director General
External Aid Office

Both at
151 Slater Street, Ottawa, Ontario

Guidance Information Centre: The Centre collects information and application forms, if available, on loans, bursaries, scholarships, fellowships, grants-in-aid, etc., which are available from sources other than the Quebec Department of Education or Concordia University, for students studying at Concordia or elsewhere. This includes aid offered by private foundations, associations and companies, from Canadian and foreign sources.

The Centre has information on aid available from Canadian Council and Federal Government, Departments, The I.O.D.E. Scholarships, Commonwealth Scholarships, etc. They collect financial aid directories such as awards for graduate study and research (Canadian); scholarships and fellowships for foreign students studying in the Netherlands; A selected list of major American fellowship opportunities and aids to advanced education for foreign nationals; The Grants Register; postgraduate awards in the English speaking world; UNESCO study grants and courses for women; UNESCO study abroad; Annual Register of Grant Support; and many others.

Lebanese Syrian Canadian Association: The Lebanese Syrian Canadian Association award annually a series of scholarships to students of Lebanese, Syrian descent.

The Chairman
Scholarship Committee
Lebanese Syrian Canadian Association
40 Jean-Talon East
Montreal, Quebec

Leonard Foundation Scholarships: Applications for scholarships must be filed before March 31st of each year. Preference in
the selection of students for scholarships shall be given to the sons and daughters of clergymen, school teachers, Officers, Non-Commissioned Officers and Men (active or retired) who have served in Her Majesty's Military, Naval or Air Forces, graduates of the Royal Military College of Canada, members of the Engineering Institute of Canada, members of the Mining and Metallurgical Institute of Canada.

Mrs. R. B. White
Senior Trust Officer
Canada Permanent Trust Company
253 Bay Street
Toronto 1, Ontario

Tuition Refund Programs: A number of companies offer some form of tuition refund programs to employees attending university. Students should contact their Personnel Office for information.

Imperial Oil Higher Education Awards: Imperial Oil Limited offers annually free tuition and other compulsory fees to all children or wards of employees and annuitants who proceed to higher education. The courses may be taken at any Canadian university or other approved institution of higher learning. Each award is tenable until the attainment of a first degree or for a maximum of four years. To be eligible a student must attain an average mark of 70% or higher in the appropriate secondary school examinations in the subjects required for admittance to the approved institution, or must have attained an average of 70% or more in a college year upon which application is based. Further information and application forms may be obtained from:

The Secretary
Committee on Higher Education
Imperial Oil Limited
111 St. Clair Avenue West
Toronto 7, Ontario

Petrofina Canada Limited
Higher Education
Merit Awards

Higher education scholarships are granted yearly to all eligible children or wards of permanent employees, annuitants or deceased employees. Candidates must have completed University or College acceptance education in the year the application is made and obtained a minimum overall average of 70%; Each award pays the tuition and other compulsory fees at a Canadian University or College for up to four consecutive academic years or the receipt of their degree, whichever occurs first. Application forms may be obtained at the following address and must be received before June 1, of the particular year:

Mr. N. S. Mahlab
Vice-President
Personnel and Administration
Petrofina Canada Limited
1, Place Ville Marie
Montreal, Quebec
H3B 4A9

Scholarship Guide for Commonwealth Postgraduate Students: Scholarships, grants, assistantships, etc. open to graduates of Commonwealth universities who wish to undertake postgraduate (including postdoctoral) study or research at a Commonwealth university outside their own country.

Write:
The Association of Commonwealth Universities
36 Gordon Square
London, England WC1H 0PF

Awards for Commonwealth University Staff 1974-76: Fellowships, visiting professorships, grants, etc., open to university staff in a Commonwealth country who wish to carry out research, make study visits, or teach for a while at a university in another Commonwealth country.

The Association of Commonwealth Universities
36 Gordon Square
London, England WC1H 0PF

18.5.15 LOAN FUNDS AND ADDITIONAL ASSISTANCE

R.C.A.F. Benevolent Fund:
The Royal Canadian Air Force Benevolent Fund made provisions for loans for the benefit of former R.C.A.F. personnel or their dependents.

Miss P. Mullaly
R.C.A.F. Benevolent Fund
635 Cathcart Street
Montreal, Quebec

Student Loan Fund:
This fund is administered on behalf of students by the Office of the Dean of Students. The Fund is to provide students with short term assistance with the maximum amount not exceeding $150.00. Students must demonstrate an ability to repay as contracted. Under no circumstances will loans be made for the purpose of paying tuition or registration fees. Additional information may be obtained from the Financial Aid Office — Room H-405.

State Assistance for U.S. Students: Several of the States operate student assistance programs which include Concordia University. These awards are based usually upon residence and financial need. Students are advised to apply to the appropriate State Education Authority.

U.S. Veteran’s Affairs Aid Program: Financial Aid is available to veterans of the United States Armed Forces by virtue of Public Law 89-358 and the G. I. Bill of 1966. Contact your local V. A. Officer if you have been in the service for over six months active duty since January 1, 1955. Veterans who have been on active duty more than 180 days since January 1, 1955, are entitled to one month of educational assistance for each month, or fraction thereof, of service up to a maximum of 36 calendar months. A veteran’s education has to be completed within eight years from the date of his discharge.

SIR GEORGE WILLIAMS CAMPUS
LOAN FUNDS AND ADDITIONAL ASSISTANCE
18.6 Rights and responsibilities of members of the University (SGW Campus) and the SGW Ombudsman Office

18.6.1 General

1. The system set out herein consists of two related parts: a statement of rights and responsibilities of all who study, teach or work at the University, with associated complaint procedures; a statement governing the setting up and functioning of the SGW Ombudsman office.

2. These regulations apply to the Sir George Williams Campus, not to the Sir George Williams schools.

3. The system applies to students, faculty, administrators and all other employees of the University. However, it does not replace or supersede the terms of the University tenure regulations, the existing official grievance procedures, or any collective agreement that may apply to particular individuals or groups within the University.

a) These regulations do not replace or supersede the regulations relating to Termination of Employment of Faculty Members except as hereinafter expressly provided.

b) Whenever a complaint has been lodged against a faculty member under these Regulations, no dismissal procedures arising from the same circumstances shall be set in motion against such faculty member under the Regulations Relating to Termination of Employment and Suspension of Faculty Members, except in the ease provided for in paragraph 7 (a) below.

ii) Paragraph (b) above shall not apply where a complaint, lodged against a faculty member under these Regulations, has been discontinued prior to its final disposition.

(1) Whenever formal dismissal procedures have been initiated against a faculty member under the Regulations Relating to Termination of Employment and Suspension of Faculty Members, no complaint arising from the same circumstances shall be lodged against such faculty member under the present Regulations.

4. The ombudsman office is an essential part of this system. The manner in which the ombudsmen are to be appointed and their functions are set out in Section IV.

5. It is not only the right but the duty of faculty members and administrators to exercise their authority in areas that fall within their spheres of responsibility. Thus, for example, a faculty member has a responsibility to take whatever immediate action may be necessary to ensure the continuing operation of his course just as the person responsible for an area of administration must take whatever immediate action may be necessary to ensure its proper functions.

6. Although a faculty member or an administrator may take immediate action in the exercise of his responsibilities, such as referred to in the preceding paragraph, a person against whom such an action is directed may have recourse to the ombudsman office or to the complaint procedures set out below should he believe that the action was unjustified and that his rights were infringed upon.

7. Any disciplinary action taken by a faculty member or by an administrator other than the kind of immediate action referred to in paragraph 5 shall be taken by way of the complaint procedures set out below, subject to the Rector's right to suspend an individual pending the completion of such procedures.

a) Where the Rector suspends a faculty member, otherwise than upon a final recommendation flowing from a complaint lodged against such faculty member under these Regulations, the provisions of the Regulations Relating to Termination of Employment and Suspension of Faculty Members shall apply.

8. All those who study, teach or work at the University are subject to the laws of the land, and have recourse to those laws. The same holds true for the University as a corporate entity. In the event of an act which appears to be an infringement of an individual's legal rights, it must be the decision of that individual whether or not to take legal action, irrespective of whether he has recourse to the procedures set out herein. Similarly, the University, acting through its duly authorized representatives, itself has the right to take at any time any legal action considered appropriate.

9. Wherever there is doubt or ambiguity regarding any provision in these regulations, or the procedures to be followed, that interpretation or procedure shall be adopted which appears most equitable, consistent with the general purposes and philosophy of these regulations.

10. It is desirable that recourse be had to the procedures in Section III only when it has been impossible to reach an informal settlement of differences, with or without the assistance of the ombudsmen, or when the issue is clearly one that demands formal action.

18.6.2 Rights and Responsibilities

1. A university is an institution of higher education dedicated to the pursuit of truth, and to the advancement and dissemination of knowledge. All those who study, teach or work there must be concerned with maintaining the freedoms essential to these purposes, notably the freedoms to teach: to engage in research, to create; to learn; to study; to speak; to associate and to assemble; to write and to publish. Rights and responsibilities emanate from these freedoms; the rights cannot be maintained unless the re-
In-Information and Development Offices;

2. A university has the rights of a duly incorporated institution of higher education, and it has responsibilities to those who are part of it. Each individual member also has rights and responsibilities.

3. To pursue its goals, a university requires protection against disruption. Neither repression of minorities nor denial of the rights of the majority can be tolerated. Mutual consideration is essential if the freedoms set out above are to be preserved.

4. The individual may exercise his rights only to the extent that they do not infringe upon those of his fellows or of the University. This requires the acceptance of personal responsibility and in particular refraining from such acts as: destruction of property; invasion of premises; disruption of classes or meetings; prevention of free access to or egress from property belonging to or rented by the University; violence; assault and the threat of assault; libel and slander; discrimination against any person on the basis of sex, race, colour, creed or ethnic origin.

18.6.3 Complaint Procedures:

These procedures are applicable when there has been an alleged infringement of the rights of an individual or of a group of persons, or of the University itself.

2. Procedures are commenced upon the lodging of a formal complaint. The complaint must be made in writing, and must be signed by the complainant or complainants. The allegations must be stated therein with precision, including specific details as to date, time and place. The complaint must be delivered to the appropriate authority as defined below within a reasonable delay, and in no case more than three months after the incident or decision complained of.

a) Where the complaint involves an allegation of deception or dishonesty, the above delay shall begin to run from the date of the discovery by the complainant of the alleged deception or dishonesty.

3. The appropriate authority to whom a complaint must be delivered is as follows. This listing is subject to change as changes are made to the administrative structure of the University.

a) The Chairman of the Board of Governors in the event of a complaint against:
   Rector; Secretary of the Board of Governors.

b) The Rector in the event of a complaint against:
   Vice-Rector, Academic; Vice-Rector, Administration and Finance; Vice-Rector and Principal of Loyola Campus; Executive Assistant to the Rector; Assistant to the Rector, Public Relations; Dean of Students (SGW); Secretary of Senate; or anyone working directly for him on the Sir George Williams campus.

c) The Vice-Rector, Academic in the event of a complaint against:
   Sir George Williams Dean of Arts; Sir George Williams Dean of Science; Dean of Commerce and Administration; Dean of Engineering; Associate Vice-Rector, Academic; Associate Vice-Rector, Academic Planning; Assistant Vice-Principal, Academic; or anyone working directly for him on the Sir George Williams campus.

d) The Vice-Rector, Administration and Finance, in the event of a complaint against:
   Associate Vice-Rector, Administration; Associate Vice-Rector, Communications; Assistant Vice-Rector, Relations and Audit; Assistant Vice-Rector and Treasurer; Assistant Vice-Rector and Director of Libraries; Director of Guidance (SGW); or anyone working directly for him on the Sir George Williams campus.

e) The Vice-Rector and Principal of Loyola Campus in the event of a complaint against:
   Registrar; or anyone working for him on the Sir George Williams campus.

f) The Associate Vice-Rector, Administration in the event of a complaint against:
   Assistant Vice-Rector, Physical Resources; Assistant Vice-Rector, Ancillary Services; or anyone working directly for him on the Sir George Williams campus.

g) The appropriate Dean in the event of a complaint against a member of faculty, whether full-time or part-time, or in the event of a complaint against anyone else employed in the Faculty for which he is responsible.

h) The administrator listed above as reporting to either the Rector or one of the Vice-Rectors in the event of a complaint against an individual employed in the department or departments for which he is responsible. In this connection, the following allocation of responsibility should be noted:

   Executive Assistant to the Rector — Information and Bookings Centre; Assistant to the Rector, Public Relations — Information and Development Offices; Dean of Students (SGW) — Athletics Department; Health Centre; Associate Vice-Rector, Administration — Security Purchasing, Receiving and Shipping, Mail and Printing Departments; Assistant Vice-Rector, Communications — Personnel Department; Computer Centre; Centre for Instructional Technology; Telephone Services; Assistant Vice-Rector, Ancillary Services — Food Services; Bookstore.

i) The Dean of the Faculty in which the student is enrolled, in the event of a complaint against a student by a non-student member of the University.

j) The Dean of Students (SGW), in the event of a complaint by one student against another.

4. When a complaint has been made by a non-student member of the University against a student the Dean of the Faculty in which the student is enrolled shall so inform the Dean of Students, and he shall keep him informed of the progress of the case.

5. When a complaint has been made by one student against another, the Dean of Students shall so inform the Dean of the Faculty in which the student is enrolled, and he shall keep him informed of the progress of the case.

6. In the event of a complaint against a graduate student, the Dean of Students shall so inform the Dean of Graduate Studies, and he shall keep him informed of the progress of the case.

7. If one of the persons named as an appropriate authority wishes to lay a complaint against an individual who comes within his own sphere of authority he must address himself to his own immediate superior.

8. The appropriate authority shall ac-
knowledge receipt of the complaint as expeditiously as possible. He shall send copies both of the complaint and of his acknowledgement to the person complained against. If the complaint has been made against a student, a copy of the acknowledgement shall also be sent to the Dean of Students.

9. The complaint shall be enquired into in such a manner that the appropriate authority considers most suitable. The appropriate authority may conduct the enquiry himself or he may assign the enquiry to another individual or to a committee named by him. If the appropriate authority or the individual or the committee considers in that the allegations are founded in whole or in part, the appropriate authority shall take whatever action he deems suitable in so far as he is empowered to do so, or recommend such action to those who have the power to implement it. If the appropriate authority has assigned the enquiry to an individual or to a committee, he may also assign to that individual or committee the function of taking or recommending appropriate action in cases where it is concluded that the allegations are well founded in whole or in part. Since a student can be suspended or expelled from the University only by action of the Rector, any such recommendation must be forwarded to the Rector.

a) Where the appropriate authority, or an individual or a committee assigned by him has concluded that the allegations were founded in whole or in part and has recommended that a faculty member be dismissed, the dismissal provisions of the Regulations Relating to Termination of Employment and Suspension of Faculty Members and not the provisions of paragraphs 12 to 17 below shall apply.

10. Both the complainant and the person complained against must be given the opportunity to make any relevant representations, in person or in writing as they see fit.

11. The decisions referred to in paragraph 9 must be written, signed and dated, and must be recorded. The appropriate authority shall deliver such decisions to the complainant, the person complained against, the administrator to whom the appropriate authority, himself, reports and to the Dean of Students if a student is involved. The Chairman of the Board of Governors shall deliver his decisions to the Board as a whole.

12. Both the complainant and the person complained against have a right of appeal to the Board of Governors. Either party wishing to avail himself of the appeal procedure must deliver a written and signed notice of appeal to the Secretary of the Board of Governors within fourteen days of the rendering of the decision appealed against. This delay may be extended in exceptional cases by the Board of Governors upon application in writing by the person who wishes to appeal, but it shall not be extended unless that person can reasonably have acted within the fourteen days. The appeal may be taken against either the decision on the merits or against the action taken or recommended, or against both. The notice must state in clear and precise terms the grounds on which the appeal is based.

13. The Secretary of the Board of Governors shall send without delay copies of the notice of appeal to the appropriate authority responsible for the decision which is being appealed, to the opposite party, and to the Dean of Students if a student is involved. The appeal shall be placed on the agenda of the next meeting of the Board.

14. Should the appeal be lodged by the complainant, or should it be lodged by the person complained against in a case where action other than a sanction of suspension, expulsion or dismissal has been imposed or recommended, the Board of Governors shall decide whether to deal with it directly or to set up a review board composed of persons from either within or without the University or from both, as the Board of Governors judges fit. The decisions of the Board of Governors in the former case or of the review board in the latter case shall be final.

15. Should the person complained against wish to lodge an appeal in a case where a sanction of suspension, expulsion, or dismissal has been imposed or recommended, he may choose either that the appeal be dealt with according to the procedure set out in the above paragraph or he may require the Board of Governors to appoint a committee of three persons from the University, one of whom must be a lawyer not otherwise in the employ of the University, to hear the appeal. Its decision shall be final.

16. Where the choice referred to in paragraph 15 is not made, the Board of Governors shall decide whether to deal with the appeal according to the procedure set out in paragraph 14 or that set out in paragraph 15.

17. The Secretary of the Board of Governors shall communicate the decision in writing to the persons referred to in paragraph 11.

18. Wherever reference is made above to an official of the University, and that official is unable to exercise his functions, the person who is replacing him shall carry out those functions.

19. Apart from the requirements to inform set out above, any proceedings or decisions in accordance with the provisions of Section III shall be treated as confidential unless all the parties involved expressly agree that they be made public.

18.6.4 The Ombudsman Office

1. The Ombudsman Office shall be composed of three persons already in the employ of the University. They shall be appointed by the Rector acting on the advice of a search committee named by him. The search committee shall be representative of all who study, teach and work at the Sir George Williams campus. Ombudsmen shall be eligible for reappointment by the Rector on the advice of a search committee.

2. Anyone who studies, teaches or works at the campus shall have the right to apply to the Ombudsman office on any matter of concern to him. The members of the office shall decide between them which of them will handle any particular application or whether they will handle it jointly.

3. The ombudsmen shall be free to enquire into any matter thus brought to their attention, and to make whatever recommendations they judge appropriate.

4. It is expected that the ombudsmen will be able to solve many problems and conflicts before they reach a stage where formal procedures are necessary. Once formal procedures have commenced, their role shall be limited to conciliation.

5. The appointment of the ombudsmen shall be for two years, and they will be released on a part-time basis from their regular functions.

6. On the conclusion of an enquiry, the Ombudsman Office shall provide the individual who applied for its services with a
written report on its disposition of the matter.

7. The ombudsmen shall have the right to refuse to take up any case if for any reason they judge intervention inappropriate.

8. Recommendations of the ombudsmen may bear either on the actions or decisions of an individual or group or on the policies or practices which gave rise to such actions or decisions.

9. Any application to the Ombudsman Office and any subsequent enquiries or recommendations, shall be treated as confidential unless all the parties involved expressly agree that the information be made public.

10. The ombudsmen shall have immediate access to all University records, reports or other documents other than those which cannot be released for reasons of confidentiality. If the ombudsmen wish to challenge the decision of an officer of the University with regard to confidentiality they shall have the right of appeal to the Board of Governors. The ombudsmen shall maintain the confidentiality of confidential materials to which they have access.

11. The ombudsmen shall issue a report annually to the University in such a way as to indicate the nature and extent of their operations, while protecting the anonymity and confidence of any individuals who have applied to them or with whom the ombudsmen have been in contact regarding particular cases.
19 Student Associations
19.1 Student Associations

19.1.1 LOYOLA STUDENTS’ ASSOCIATION

The L.S.A. is YOUR student association. It is financed by a student activity fee which each student pays and its goal is to serve the needs of all day students. Since the L.S.A. is aware that these needs are not exclusively cultural and social, it also concentrates on instituting academic reforms. Some of these have included the initiation of grading reforms, course evaluation, and increased student representation on Senate, as well as the Loyola Faculty Council and various committees.

The L.S.A. stresses Involvement. If you are dissatisfied with anything at Loyola or have suggestions which you would like to offer, the L.S.A. is the place to come. Loyola prides itself in being small and flexible enough to listen to what students have to say, and to be able to do something about it. Reforms can take place only when students have the ideas and the initiative to make them happen. The L.S.A. provides a tool through which students can make their voices heard.

The L.S.A. is composed of three elements: The Executive, Board of Directors, and Student Senate. Each February, elections for the two Co-Presidents and members of the Board of Directors are held. The other members of the Executive are chosen by the Co-Presidents and are subject to ratification by the Board of Directors.

Although each member of the executive is assigned different areas to deal with, the entire executive works as a whole to formulate policy for the Association.

Co-Presidents: The role of the Co-Presidents is basically to act as the chief administrative officers for the L.S.A. They oversee all functions and act as spokesmen for the students.

Campus Services: This department concerns itself with services for students on campus. The priorities include a Film series, a student security force, the Yearbook, and the Grad Dance.

Education Department: The Education Vice-President oversees such activities as student research projects and the Course Evaluation system. He ensures that students' educational needs are adequately expressed through student representation on University Committees.

Financial Department: The Financial Vice-President handles the finances of the L.S.A. and its member associations. The main objective of this department is to see that all spending is done with the students' interests in mind. This office will now closely observe the relationship between the University and the Provincial Government in terms of Finance and will keep close check on spending inside of the University.

Information Services: The goal of this department is to keep both the students and the general public informed of L.S.A. activities, and to open communication channels to and from the association.

Internal Department: This department makes sure that the L.S.A. operates efficiently. It also handles complaints or questions from the various member associations, clubs, and societies.

External Department: The External Vice-President acts as liaison between the L.S.A. and outside bodies. His office maintains contact with Quebec and National student associations. He is concerned with obtaining and supplying information and input on decisions involving education at the provincial level.

Programming Services: The Programming Vice-President sponsors special events on campus. The department is concerned with providing students with programs which will supplement the individual's academic needs.

Board of Directors

The Board is the legislative body of the L.S.A. It consists of sixteen members elected annually as voting members of the Board. Representation is in proportion to the number of students enrolled in each faculty. It is the function of the Board to regulate and co-ordinate the policies and activities of the Association. They check and review legislation proposed by the Executive and may also introduce their own proposals. They establish special committees to review any issues and problems that may arise during the year.

Student Senate

Student Senate is the judicial body of the L.S.A. It has jurisdiction over matters affecting student discipline and constitutional interpretation. The Senate acts as guardian of students' rights as defined by the Bill of Rights of the L.S.A.
Special Committees

Campus Orientation Programme: This is designed to initiate new students and to welcome back returning students. It is designed with entertainment, information and orientation, cultural and athletic activities in mind.

Carnival: Carnival time is February and provides one of the most exciting and hectic weeks of the year. Activities are designed to provide everyone with a good time.

Graduation Committee: This committee arranges for the editing of the Review, all the details necessary for Convocation, and for the traditional Grad Ball.

Associations

The over forty organizations on campus cover most interest areas. They range in nature and scope from dramatic, musical and recreational to ethnic, academic, professional, and political.

Some may act as interesting supplements to areas covered in classes. These department societies include Communication Arts, Economics, English, History, Modern Languages, and Sociology.

Others are designed to appeal to a range of interests and ideals such as the International Association of Students of Economics and Commerce (A.I.E.S.E.C.), and fraternities and sororities.

The offices of most are situated in the Centennial Building at 6931 Sherbrooke Street West, Telephone 482-9280.

Publications

The Board of Communications, consisting of six student voting members, acts as a Supervisory Board for all campus publications. These include Loyola News, the official student newspaper; Loyola Radio; Student Directory; Loyola Review; Photo Loyola; official L.E.S.A. bulletins and all other student-oriented publicity.

19.1.2 THE LOYOLA EVENING STUDENTS' ASSOCIATION INC.

In March of 1973, the Loyola Evening Students' Association (L.E.S.A.) was incorporated under a Quebec provincial charter. During the same period, the Association Constitution was revised to better reflect changes in Evening Student objectives since the last major change in 1969.

Objectives

The Association has, as its stated objectives:

1) The representation, promotion, and furtherance of the academic interests of Loyola Evening Students.

2) The encouragement of the Evening Students to participate actively in the Loyola community.

Organization

Through a system of class representa-

bives, elected in the first two weeks of the Winter Session, and an Association Council (a six member Executive and six general Coordinators) elected in March of each year, present and future needs of Evening Students can be identified and acted upon.

Activities

Within the framework of Loyola, members of Council serve as representatives on the main Concordia Administrative Councils.

Council believes it of great importance to maintain a strong representation on these committees as this participation is considered one of the most effective means of advancing Evening Student aims to the Administration.

A further strengthening of L.E.S.A. as an Evening Student body is seen in its participation in an organization of part-time university students.

Meetings and Information

The primary concern of the Association is its member students. Council members may be contacted through the answering service at 488-4048 or in writing, addressed to 2501 West Broadway, Montreal H4B 1R6.

They are also present at:

1) Registration — to assist students to the fullest extent possible.

2) Regular meeting — Agenda, etc. are posted on various bulletin boards throughout the campus.

3) Class representative meetings of which there are at least four per year, one of which is the annual general election in March, where Evening Students who are not class representatives may participate as non-voting members. Details are posted on bulletin boards.

Council Executive

The titles and functions of the Executive body of Council are detailed below, enabling students to address their queries to the specific officer responsible.

President

Vice-President (Academic)

Vice-President (Communications)

Vice-President (Operations)

Treasurer

Senator

19.1.3 LOYOLA OF MONTREAL ALUMNI ASSOCIATION INC.

The objectives of this Association shall be to advance the interests and to promote the welfare of Concordia, of the Association and its members, and to provide a vehicle through which former students of the Loyola Campus of Concordia University may maintain their interest and express their support of their alma mater, to disseminate information among former students relating to developments at the University, to foster continuing contacts between former students, and to conduct projects, organize events and to do all other things necessary and useful for the University.

During the course of the year, the Loyola
of Montreal Alumni Association Inc. sponsors the Golf Tournament, the Oyster Party, the Sports Hall-of-Fame, social activities, cultural activities, sports activities, the Past-Presidents’ Dinner, an exchange programme between students and members of the Business/Professional community, information evenings by well-known speakers for the benefit of University students and many other events catering to both men and women graduates. The Association also sponsors the selection and presentation of the Loyola Medal to outstanding Canadians. A General Meeting is held each year. At this meeting officers and directors for the coming year are elected and all other matters of general business transacted.

Annual giving by Alumni represents the largest simple source of support to universities and colleges in North America. A regular yearly contribution to the Association aids a variety of programmes at the University.

The Office of Alumni Affairs is located at 7306 Sherbrooke Street West. Information can be obtained at 482-0320 Local 402.

19.1.4 CONCORDIA GRADUATE STUDENTS’ ASSOCIATION

The Graduate Students’ Association is run by graduate students who have volunteered their time not only to make life more interesting and enjoyable for students at Concordia University, but also to help better student life in all areas within the University. We are here to help you and to see that your needs are met.

Further to our involvement within the academic structures of the University, the Association sponsors two main events for the social enjoyment of the students—the Annual General Meeting and the Orientation Party. Many more activities are presently being planned for the fall. These events are being set with the sole purpose of entertaining graduate students and their families, so if you are dissatisfied with what we are doing or have ideas to help make these events better, please let us know.

A Council meeting is held once a month and if you wish to attend please feel free to do so. There is always a need for new ideas and fresh faces.

The Graduate Students’ Association is here for you and to help you in any way that we can. If you have any suggestions or problems, please do not hesitate to come up and see us at 2145 Mackay Street, Room 306.

19.1.5 DAY STUDENTS’ ASSOCIATION—SIR GEORGE WILLIAMS CAMPUS

The D.S.A. is comprised of all full-time undergraduates of the Sir George Williams Campus. It has three basic goals—to provide services and activities needed by students, to act as the spokesman for students in the University, and to provide opportunities for student involvement.

A student fee finances the operation—therefore priority is placed on giving the students what their money is worth in services and activities. A large part of the budget goes into programming, media, orientation and course evaluation.

There is another need—the wants and desires of the students in the university. Whether it is in the academic or para-academic field, the D.S.A. can be YOUR tool to make your voice heard. Most university bodies have student representatives on them. In addition, the small size of Sir George and its tradition of being especially oriented towards students gives the D.S.A. an advantage few associations have.

But most important of all, the D.S.A. needs involvement. If you have a gripe, come down to the D.S.A. office. If you want to gain some experience in budgeting, management, politics, law, public relations, or who knows what else, then the D.S.A. is the place for you. Or if you’re just fed up with sitting on the sidelines, then walk right in. The D.S.A. needs you.

The D.S.A. is governed by a council made up of representatives from each faculty in proportion to the number of students. Elections are held in March. Then the executives are chosen by election from within the new council.

There are also associations in each faculty: Commerce, Fine Arts, Arts, Science and Engineering. Besides acting in basically the same way as the D.S.A. within their own milieu, they also sponsor departmental clubs. Elections for their councils are in March. They are financed by a fee collected directly from their students.

Pub: The D.S.A. runs a pub near the seventh floor cafeteria jointly with SAGA Foods. It is responsible for capital equipment and keeps a close eye on conditions to ensure that they are what the students want.

Course evaluation: The D.S.A. has recognized the need for a complete and comprehensive course evaluation system at Sir George. Such a system has been instituted, employing a full-time director. A steering Committee oversees the operation made up of both students and faculty, ensuring input from all concerned. The D.S.A., of course, bankrolls and controls the whole system. There exist, in most departments, councils which are made up of students and faculty. Also, student reps. sit on faculty councils, the Senate, and various committees—which provide for a great student input into such issues as what courses are offered and how the library is run. The representatives are usually elected in September by the various student councils and all full-time undergraduates are more than welcome to apply.

Student Services: Close cooperation between the Dean of Students Office and the D.S.A. is a tradition at Sir George. Together, the two ensure that students’ rights are not violated. Also the University Council on Student Life closely oversees the funding and operation of student services. Student representatives are chosen by the D.S.A. Council.

External Affairs: The D.S.A. works closely with the other four Students’ Associations of Concordia, recognizing the
frequent need for student cooperation. Also, through A.N.E.Q. (L'Association Nationale des Etudiants du Quebec) the D.S.A. interacts with CEGEP and university students throughout the province.

**Media:** The D.S.A. runs a student newspaper (the Georgian), radio station (C.R.S.G.) and television station (C.U.T.V.). Also a student handbook and course evaluation guide is published over the summer. All three media invite student participation.

**Programming:** We realize that, with the hard pressures of university life, students often need a “break” from the grind. To ensure that they get this, a program committee of the D.S.A. council exists to gather ideas for social activities, with a full-time Program Director to help carry them out. The emphasis in programming is placed on participation, with a balance between “Quasi-academic” and “pure entertainment” events. Every student is welcome to come in and help with this facet of the D.S.A., whether it be contributing ideas, helping with publicity, or preparing for the program.

There are certain programs which are run which include:

1. **Your Orientation to University (Y.O.U.)** which is run in the fall to welcome both new and old students to the concrete campus. Many activities take place, and a handbook is published. Work on this usually begins in the fall.

2. **Winter Carnival** which takes place in mid-February. This involves about two weeks of fun and frolic to divert students from the mid-winter doldrums. Preparations for Carnival start around September.

3. **Academic Matters:** The main priority in university is, of course, education. Therefore, the D.S.A. is vitally interested in matters affecting the academic side and so should you.

**19.1.6 ASSOCIATION OF ALUMNI—SIR GEORGE WILLIAMS CAMPUS**

The Association of Alumni was begun informally by the “Guinea Pig Class” of 1937, the first of many thousands to receive degrees from what was first a College and then a University, both known as Sir George Williams (now part of Concordia University).

The Association was officially incorporated as a non-profit organization September 21, 1957.

The aims and objectives contained in the charter are to preserve the fellowship of graduates of Sir George Williams; to preserve, extend and promote the interests of the University; and to assist in the furthering of student welfare.

With the merger of Sir George Williams and Loyola producing Concordia University, a new dimension has been added, and for the time being graduates of Concordia from the Sir George Williams Campus are being asked to continue their association with their alma mater through the Sir George Williams Alumni Association.

The Association is guided by a Board of Directors, numbering 30, elected from graduates of the University. Until recently the Association financed its own operations through alumni support but it recently concluded an agreement with the University whereby it joined the Development Office and is now financed through that department but retaining its autonomy in all areas except campaigning.

All graduates are automatically members of the Association and receive a monthly newspaper “The Garnet”. There is a special classification called “Active Members” consisting of alumni who make a financial contribution in the current year. Their support entitles them to free library privileges, special social activities such as invitations to the annual Rector’s Reception, invitations to concerts, art exhibitions etc. Active alumni members in the Toronto area receive special privileges at York University.

From time to time the Association holds reunions where it is deemed to be timely and appropriate.

The Association of Alumni has for many years provided a special award for a graduating student who in the opinion of the Faculty and students, has made a significant contribution to the activities of campus life.

The Association’s office is located at 2150 Bishop Street and is under the supervision of Matthew Ram, BA ’43. Further information may be obtained by writing the office or calling (514) 879-5898.

**19.1.7 SIR GEORGE WILLIAMS PART-TIME STUDENTS ASSOCIATION**

The Association is the organization recognized by the Board of Governors of Concordia University as the representative of the Part-Time Students of the University.

**Location:** Hall Building, Suite 603.

**Nature of the Association:** All part-time and independent or partial students registered in the Evening Division at Sir George Williams Campus are members of the P.T.S.A. The administration of the association is vested in the Council consisting of eleven members elected by the evening students. The association’s primary goals are:

1. represent, promote and further the interests, both academic and other, of the Part-Time Students within the context of the Campus;
2. provide for Part-Time Student representation on the various University boards, councils and committees;
3. consider and support activities which enhance the quality of life on the Campus for Part-Time Students.

In addition to the above, the opportunity for leadership development and training is fulfilled through extra and co-curricular programs which allow both academic and social improvement of the individuals participating.

41.2 Curriculum for the Degree of Bachelor of Arts

Admission Requirements

General admission requirements are listed in § 13.

Specific requirements for admission to the various programmes leading to the degree of Bachelor of Arts are listed below. Students lacking one or more of these prerequisites may be admitted, but must include the designated prerequisite courses among the courses followed in their undergraduate programmes.

Programme titles refer to honours, specializations, majors and minor components where these exist.

Bachelor of Arts

NOTE: One full course represents two term courses.

Applied Social Science
Geography
Urban Studies

One full course in Mathematics at the Collegial level or the equivalent.

Early Childhood
Education

No official prerequisites, but it is recommended that students take at the Collegial level one full course in each of Psychology, Sociology and Philosophy.

Psychology

One full course in Mathematics and Biology 001 (CEGEP 301 or 921) and Psychology 011 (CEGEP 101 and 201).

Mathematics

Mathematics 003, 004, 005 (CEGEP 103, 105, 203).

French

French/English Translation

One full course in English literature at the Collegial level (in addition to compulsory Collegial language and literature courses). One full course in Collegial French.

Women's Studies

Bachelor of Education § See 41.6.1

The designation "minor in . . .", "major in . . .", "specialization in . . ." or "honours in . . ." will be given to candidates for the degree of Bachelor of Arts whose programmes meet both the requirements of the Sir George Williams Faculty of Arts for . . .
minor, major, specialization or honours programme, and the departmental requirements for such a programme in the particular discipline. Students should therefore consult the statement of the Faculty's degree requirements contained in the next section of this calendar, and should also consult the programme requirements of the departments, which are set out within the sections devoted to the various faculties.

41.3 Degree Requirements

Definition of Credit

Up to and including the academic year 1973-74, degree programmes have been expressed in terms of courses, with one credit being applied to a "full course" (normally two terms) and one half-credit being applied to a "half-course" (normally one term).

Starting in 1974-75, in accordance with the recommendations of the Quebec Council of Universities, the credit-base was modified to take into account the total activity of the student. Students preparing for the degree of Bachelor of Arts take a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours spread across lectures, conferences, laboratories, studio or practice periods, tests, examinations and personal work.

Graduation with the degree of Bachelor of Arts requires:

1. Successful completion of a programme of concentration in the form of a specialization, a double minor, a major or an honours programme as listed below.
2. A maximum of 48 credits at the 200-level out of the 90 credits required for the degree.
3. Students taking a double minor, an interdisciplinary major, a departmental major, a specialization, or a departmental honours may take no more than 66 of their 90 course-credits in one department, and no more than 78 in one division (i.e. Humanities Division or Social Sciences Division).
4. Students taking an interdisciplinary honours programme or a combined honours programme must take at least 18 course-credits outside of their division, and outside of their departments of concentration if the respective departments are in different divisions.

Concentration Requirement

Since the CEGEP programme is designed to give all students the opportunity to explore different fields and thus acquire a broad general basis for further study, the undergraduate programme in Arts requires some degree of concentration, according to the interests and capacities of the student. The four main forms of concentration are the minor, the major, the specialization, all of which require that the student be successful in a prescribed pattern of courses, and honours, which involves not only a greater degree of concentration, but also a high level of academic performance.

In order to graduate, therefore, a student must have completed one of the following types of programmes: a double minor; an interdisciplinary major programme; a departmental major programme; a specialization; a combined honours programme; an interdisciplinary honours programme; a departmental honours programme.

Prior to registration, students will be required to select one of the types of programmes outlined above. In the case of honours, students will register upon entry in an honours programme, but their acceptance as honours students will depend on their performance during their first year. Students failing to meet requirements for honours standing will proceed as majors.

The requirements of selecting upon entry a programme of concentration should not be thought of as being necessarily a final commitment. The Arts programme is designed to be flexible enough to allow for changes of orientation, subject, of course, to limitations in the case of certain programmes in great demand.

41.4 Programmes

Honours, Specializations, Majors and Minors are listed with their respective Departments.

Majors Programmes

A “major” is an approved sequence of courses. It includes a minimum of 42 credits and a maximum of 60. The concentration may include certain approved courses in other closely related fields. The term “major” as used by Concordia University implies that the student has followed, within the requirements for the degree, a planned programme in a specialized field.

Honours Programmes

The university has approved programmes leading to an honours degree in certain selected fields. An honours degree indicates specialization within a field, and high academic standing. In order to qualify for an honours degree a student must meet all of the academic qualifications and comply with the regulations set forth below.

1. A candidate for an honours degree should indicate such intention at registration and consult the honours representative of the department(s) concerned as soon as possible. Acceptance as an honours student will depend on performance during the first year. The honours standing will be reviewed annually. A student who has followed the courses prescribed for the honours programme and has met all the requirements may enter the programme with the approval of the honours representative any time before beginning the final 30 credits. No retroactive approval of entry may be made.

2. A student who enters with advanced standing may apply pro tanto credits which are applicable to the honours degree requirements, upon approval by the department(s). A transfer student must complete a minimum of 30 credits in the basic honours programme in residence to receive a degree with honours.

3. An honours student must maintain a ‘B’ average with no grade lower than ‘C’ in all courses in the basic honours programme. An honours student must meet the general degree requirements as well as the
specific requirements for an honours degree, and must obtain at least a 'C' average over the total degree programme. Failure in any course will mean suspension or withdrawal from the honours programme. Students who fail to meet acceptance requirements and who are required to withdraw from the honours programme will proceed as majors. Reinstatement into the honours programme is possible only by recommendation by the honours representative.

4. A student shall be allowed to qualify for only one honours degree in either a single or combined honours programme.

5. A degree with honours in any programme is granted upon graduation only with the approval of the Senate.

41.5.1 THE CENTRE FOR INTERDISCIPLINARY STUDIES

The Centre for Interdisciplinary Studies offers a variety of interdisciplinary programmes. Each programme allows a student to study in a number of disciplines and relate these to the study of a complex area or problem. The area programmes include Canada, Russia and Asia. The programmes that confront issues are Science and Human Affairs, Urban Studies, and Women's Studies. The Centre also offers an Undergraduate Scholars Programme which encourages promising students to develop an individual programme of study in consultation with a faculty adviser.

All Interdisciplinary Studies courses, as well as some other courses offered within the Centre for Interdisciplinary Studies, may be regarded as courses in the Humanities or in the Social Sciences.

41.5.2 COURSES IN INTERDISCIPLINARY STUDIES

INTERDISCIPLINARY STUDIES—GEOGRAPHY N-212 (212)
Early Man
An examination of the scientific evidence for the unwritten part of man's evolutionary history. The course will study both food-gathering and food-producing man. Biological and cultural evolution will be considered from both a temporal and a spatial viewpoint against a background of changing natural environment. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

INTERDISCIPLINARY STUDIES N-300
Faculty of Arts Lecture Series
This course provides a flexible context for study in a field of immediate or specific interest. The theme or topic discussed will vary from year to year. (3 credits)

INTERDISCIPLINARY STUDIES—ANTHROPOLOGY N-333 (333)
Introduction to Archaeology
An introduction to the archaeology of the ancient civilizations of the Mediterranean world. Special emphasis will be given to the methodological approach to archaeology (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.
As Canada strengthens her relationships with the nations of Asia, she will need young men and women who have been trained in Asian Studies to provide leadership in such fields as education, foreign service, banking, international law, overseas industry and business. The Asian Studies Programme seeks to meet this need by offering an interdisciplinary course of study involving the departments of Economics, Fine Arts, History, Political Science, Religion and Sociology-Anthropology.

Asian Studies Committee
JOHN HILL, History, Coordinator
LALITA SINGH, Political Science
CHARLES BRANT, Sociology-Anthropology
PHILIP COHEN, Fine Arts
SHEILA MCDONOUGH, Religion

6 N-465, N-466, N-467
6 Asian St N-495

COURSES IN ASIAN STUDIES

ASIAN STUDIES

ASIAN STUDIES N-495 Seminar in Asian Studies
Prerequisite: Permission of the Coordinator. A seminar designed for majors in Asian Studies. The seminar will vary in content depending upon the interests of the majors taking the course. (6 credits) NOTE A/See § 200.1

NOTE: With the permission of the Coordinator, a student may take this course twice for credits, provided that a different sub ject is dealt with the second. He will register the second time under Interdisciplinary Studies N-496.

ASIAN STUDIES N-496 Seminar in Asian Studies
Prerequisite: Permission of the Coordinator. A student repeating Asian Studies N-495 registers for credits under Asian Studies N-496. (6 credits) NOTE A/See § 200.1

CLASSICS, MODERN LANGUAGES AND LINGUISTICS

ARABIC N-411 (411)
Literary Arabic
Prerequisite: Linguistics N-221 or permission of the instructor. This course is designed to give the student in one year a thorough understanding of modern literary Arabic through a linguistic analysis of its structure. (6 credits) NOTE A: See § 200.1

ECONOMICS

ECONOMICS N-440 (422)
Economic Development
Prerequisites: Economics N-209 and N-210, N-311. The course investigates comparative economic development with special attention to problems of capital formation, population growth, quality of the labour force, and social and cultural attitudes towards economic modernization. Theories of economic development are evaluated in the context of the realities of historical patterns and the varying degrees of ability to achieve modernization. (6 credits)

FACULTY OF FINE ARTS

MUSIC 343 (443)
Music in the Non-Western World
Prerequisite: Permission of the Department. A survey of the art, religious and folk music of non-European cultures. The study includes an examination of cross-cultural parallels and influences, instruments, notations, techniques of performance and problems of interpretation. Illustrated with recordings and slides. (6 credits)

HISTORY

HISTORY N-261 (261)
History of Asia
A survey of the major intellectual traditions, social structures and political institutions of South and East Asia, with particular attention to the changes in the societies of India and China during the past two centuries. (6 credits) NOTE A: See § 200.1

HISTORY N-361 (461)
History of Modern India
Prerequisite: History N-210 or N-261 or permission of the Department. A study of India, Pakistan and Bangladesh. The legacy of divergent cultural, linguistic and political experiences, the crisis of colonialism, and the emergence of national imperatives in the 20th century. (6 credits)

HISTORY N-362 (462)
Modern China
Prerequisite: History N-210 or N-261 or permission of the Department. An intensive study of Chinese history since 1800 with emphasis on problems in political and intellectual history. (6 credits)

HISTORY N-363 (464)
Traditional China
Prerequisite: History N-210 or N-261 or permission of the Department. An examination of Chinese history from the beginning to the Ch'ing dynasty (c. 1800). Emphasis will be
placed on China’s political, intellectual and cultural heritage. (6 credits)

HISTORY N-461 (463)
Advanced Study in Asian and African History
Prerequisite: A ‘300’ level course in History or permission of the Department. Seminar in a selected topic in the history of Asia and Africa. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor’s guidance. The specific content will vary from year to year depending on the instructor. (6 credits) NOTE A/See § 200.1

POLITICAL SCIENCE

POLITICAL SCIENCE N-355 (455)
The Politics of Developing Areas
A study of the politics and structure of government in developing areas such as Asia, Africa or South America against the backdrop of social and economic change since World War II. The specific area which will be studied will vary from year to year depending on the interests of the instructor. (6 credits) NOTE A/See § 200.1

POLITICAL SCIENCE N-485 (485)
Diplomacy and Foreign Policy
Prerequisite: Political Science N-270. Foreign and defence policies of the Great Powers; diplomacy, military strategy and intelligence; methods and techniques of policy-making and enforcement. (6 credits)

RELIGION

RELIGION N-311 (411)
The Religions of India, Ceylon, Southeast Asia
An historical study of the major religious traditions native to the Indian sub-continent, Ceylon and Southeast Asia. Although the course will concentrate upon the development of Hindu and Buddhist religious thought and institutions, consideration will be given to the influence of Jainism, Islam and Christianity upon Hinduism and Theravada Buddhism. The course will end with an analysis of the contemporary religious situation in India and Burma. (6 credits) NOTE A/See § 200.1

RELIGION N-312 (412)
The Religions of China and Japan
Prerequisite: Second year standing. An historical study of the religious traditions of pre-modern China, Tibet and Japan. After a brief introduction to the origin of Buddhism in India, the course will focus upon the development of religious thought and institutions in Mahayana Buddhism, Taoism, Confucianism and Shinto. The course will end with an analysis of the contemporary religious situations in China and Japan. (6 credits) NOTE A/See § 200.1

RELIGION N-313 (413)
Islam
A study of the rise and development of Islamic religion and culture, with special attention to mysticism and to modernism. (6 credits) NOTE A/See § 200.1

SOCIOLOGY AND ANTHROPOLOGY

ANTHROPOLOGY N-464 (464)
Peoples and Cultures of India
Prerequisite: Anthropology N-211 or its equivalent. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social, structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits)

ANTHROPOLOGY N-465 (465)
Chinese Culture and Society
Prerequisite: Anthropology N-211 or its equivalent. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social, structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits) NOTE A/See § 200.1

ANTHROPOLOGY N-466 (466)
Peoples and Cultures of Japan and Korea
Prerequisite: Anthropology N-211 or its equivalent. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social, structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits)

ANTHROPOLOGY N-467 (467)
Peoples and Cultures of Southeast Asia
Prerequisite: Anthropology N-211 or its equivalent. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social, structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits)

41.5.4 CANADIAN STUDIES

The Canadian Studies Programme is designed to introduce the student to a number of disciplines as they apply to Canada. It provides the opportunity to obtain a liberal arts education given direction and depth by a focus on Canada. After completing the introductory core of courses, the student develops a proposal for an interdisciplinary research project and then in consultation with the Coordinator plans a programme of studies relevant to it. The research project is completed under the supervision of an adviser and is formally reported in the Canadian Studies Seminar.

Canadian Studies Committee
RICHARD WILBUR, History, Coordinator
HARRY CLINCH, Geography

ANTHONY SYNNOTT, Sociology
DAVID MITCHELL, Education
BARBARA OPALA, English

Programme
Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

48 BA Major in Canadian Studies

6 Can St N-211a
6 Engl N-244a
6 Fr N-211b
6 Hist N-221b
6 Can St N-411b
18 Engl N-343b, N-344b, N-448b; Art Hist 249b, 444b; Music 345b; Fr N-331b,
Standing Canadian Studies N-412. (6 credits)

ECO 405

Canadian resource allocation with emphasis on Canadian studies which involves participation by interested members of the staff as well as by students in the third year of the major in Canadian Studies. (6 credits)

NOTE: Students who have credits for Economics N-405, or Economics N-431 before 1969-70 may not take this course for credits.

ECONOMICS N-434 (424)

Economic History of Canada

Prerequisites: Economics N-209 and N-210.

This course is designed to introduce the student to economic development from the early period of settlement to the present day. Emphasis will be placed on the economic history of Canada since Confederation. (6 credits)

ECONOMICS N-446 (423)

The Economic Development of Quebec

Prerequisites: Economics N-209 and N-210.

This course will review past and present trends in the economic development of Quebec, though emphasis will be placed on the economic growth of Quebec since the Second World War. Attention will be given to the regional aspects of its growth problems. (3 credits)

EDUCATION

EDUCATION N-442 (422)

Education in Canada

Prerequisite: 6 credits in Canadian History. It is advisable that students have a reading knowledge of French. This course will study the history of Canadian education and, more particularly, the history of education in Quebec. (3 credits)

ENGLISH

ENGLISH N-244 (244)

Canadian Literature

An introductory survey of Canadian prose and poetry written in or translated into English, from their origins to the present. (6 credits)

ENGLISH N-343 (246)

Canadian Literature

from the 1820's to the 1930's

Prerequisite: Second year standing. A study of prose, poetry and drama, principally written in English, including such writers as McCulloch, Habiburton, Moodie, DeMille, Kirby, Lampman, Roberts, Pratt, Grove and Stead. (6 credits)

ENGLISH N-344 (444)

Modern Canadian Literature

Prerequisite: English N-244. A study of prose, poetry and drama, principally written in English, from the 1930's to the present, including such writers as Laurence, MacLennan, Richler, Lowry, Klein, Callaghan, Layton, Livesay, Birney, Avison, Reaney, Nowlan and Ryga. (6 credits) NOTE A/See § 200.1

ENGLISH N-448 (448)

Special Studies in Canadian Literature

Prerequisite: One of English N-343, N-344.

An intensive study of a limited aspect of Canadian literature which may deal, from year to year, with an individual author or work, or a particular problem, such as “Regionalism and the Diction of Canadian Poetry”, “Prairie Fiction” or “Canadian Drama”. (3 credits) NOTE A, C/See § 200.1

ENGLISH N-449 (449)

Special Studies in Canadian Literature

A student repeating English N-448 for credits registers under English N-449. (3 credits)

FACULTY OF FINE ARTS

ART HISTORY 249 (249)

Canadian Sculpture and Architecture

A study of the more important developments of Canadian architecture and sculpture from indigenous forms to contemporary work. (6 credits). NOTE A/See § 200.3

ART HISTORY 444 (444)

The Arts in Canada

Prerequisite: Art History 240 or enrolment in the Canadian Studies Major. A history of the arts in Canada from the 17th century to the present day. Where relevant, special attention will be given to those European and American influences which have shaped its growth. (6 credits) NOTE A/See § 200.1
FRENCH

FRANÇAIS N-211 (211)
Langue II et composition élémentaire
Préalable: Français N-201 ou quatrè ans de cours de français à l'école secondaire ou équivalent ou l'autorisation du département. Ce cours, destiné aux étudiants ayant déjà une certaine préparation en français oral et écrit qui désirent parfaire leurs connaissances pratiques de la langue, comporte une étude intensive des structures du langage, des textes, des récits et des créations écrites et l'analyse de certains textes français et québécois. La structure et le contenu du cours sont les mêmes pour toutes les sections, mais le choix des romans étudiés dépend de chaque professeur. (6 crédits) NOTE A, B/See § 200.1

FRANÇAIS N-331 (231)
Littérature et culture québécoises
Préalable: Français N-211 ou 211. Ce cours offre un aperçu général de l'histoire-politique, économique, sociale et culturelle du Québec, toile de fond de la production littéraire; il analyse les courants nouveaux nés du processus de décolonisation et leurs reflets dans l'expression littéraire. (6 crédits) NOTE A/See § 200.1

FRANÇAIS N-431 (431)
Le roman québécois contemporain
Préalable: Français N-331. Étude des romanciers les plus importants du Québec: Aquin, Besrette, Blais, Ducharme, Hébert, Langeven, Roy; leur vision du monde; leur manière de se rattacher aux courants littéraires de notre époque; les conceptions littéraires. (6 crédits)

FRANÇAIS N-432 (432)
La poésie québécoise contemporaine
Préalable: Français N-331. Étude des poètes les plus importants du Québec: Chamberland, Duguay, Hébert, Giguère, Godin, Grandbois, Lasnier, Miron, Nelligan, Saint-Denys-Garneau; leurs thèmes; leur vision du monde. (6 crédits)

FRANÇAIS N-465 (465)
Théâtre québécois
Préalable: Français N-331. Étude du théâtre québécois à partir de 1945. Analyse des pièces les plus importantes pour en dégager les lignes de force et établir leurs relations avec le contexte social du Québec contemporain. (3 crédits)

GEOGRAPHY

GEOGRAPHY N-341 (441)
Regional Geography of Canada
Préalable: Geography N-211 or N-271 or second standing in an honors or departmental major programme in the Social Sciences or the Faculty of Commerce.
A study of Canada, past and present, based on the various natural regions into which the country is divided. In the first half of the course an historic-geographical approach will be taken to bring to the student's attention the main trends in Canadian cultural and historical development from aboriginal times to the present. The changing nature of man-land relationships at different periods of time, and under different forms of occupation, will receive particular attention. In the second half of the course the present day pattern of human occupation on a regional and national basis will be analysed. (6 crédits)

GEOGRAPHY N-422 (422)
Historical and Political Geography of Quebec and Ontario
Préalable: Geography N-211, N-341 or permission of the Department. A study of an historical nature of past geographic patterns, economic, social, cultural and political, in Quebec and Ontario. (6 crédits)

HISTORY

HISTORY N-221 (221)
History of Canada
A study of the growth of Canada from the age of exploration to the present time. Emphasis is placed on the political, economic and cultural developments which are of significance in the understanding of the problems of today. (6 crédits) NOTE A/See § 200.1

HISTORY N-321 (423)
British North America: 1760-1873
Préalable: History N-210 or N-221. An advanced study of the history of British North America from the British conquest and American Revolution to Confederation. The course will focus on historical topics and problems of interpretation, organized according to the regions of British North America. (6 crédits)

HISTORY N-322 (424)
Modern Canada: 1840 to the Present
Préalable: History N-210 or N-221. An intensive study of the political, economic and cultural development of Canada since the Act of Union. (6 crédits) NOTE A/See § 200.1

HISTORY N-323 (422)
French Canada to 1763
Préalable: History N-210 or N-221. An intensive study of Canada during the colonial regime. Much of the material will be in French. (6 crédits)

HISTORY N-325 (425)
French Canada: 1763-1867
Préalable: History N-210 or N-221. An intensive study of French Canada from the Conquest to Confederation. Much of the material will be in French. (6 crédits)

HISTORY N-326 (426)
Quebec: 1867 to the Present
Préalable: History N-210 or N-221. A study of Quebec since Confederation. While due attention will be paid to the political history of Quebec, the purpose of the course is to provide a study of the social, economic and cultural institutions of Quebec. (6 crédits) NOTE A/See § 200.1

HISTORY N-421 (421)
Advanced Study in Canadian History
Préalable: A 300 level course in History or permission of the Department. Seminar in a selected topic in the history of Canada. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 crédits)

POLITICAL SCIENCE

POLITICAL SCIENCE N-330 (251)
Government and Politics of Canada
A study of the parliamentary system in Canada with emphasis placed upon the development and judicial interpretation of the British North America Act, the federal system, the nature and organization of political parties, the
POLITICAL SCIENCE N-335 (435)
Quebec Politics
Prerequisite: Political Science N-330. A study of the emerging party structure and political institutions in Quebec and their relationship to constitutional, cultural and economic factors. Some of the reading material will be in French. (3 credits)

POLITICAL SCIENCE N-436 (451)
Canadian Federalism
Prerequisite: Political Science N-330. A critical and analytical study of the theory of federal government and its application to the nature, principles and techniques of federalism in Canada. The reaction of the Canadian federal system to the demands of cultural dualism and regional pressures. Some attention will also be given to the problems of provincial governments in their preparation on and adjustment to Dominion-Provincial relations. (3 credits)

POLITICAL SCIENCE N-437 (452)
Canadian External Affairs
Prerequisite: Political Science N-270 or N-330 or History N-337. This course will study Canada's position in the world. The presentation will include an outline of the diplomatic history of Canada, as well as an analysis of its foreign and defense policies. Emphasis will be given to the decision-making process by which policy is formulated and executed, with particular reference to Canadian relations vis-a-vis the Americans; the Commonwealth; and the United Nations. (3 credits)

RELIGION
RELIGION N-363 (463)
Religion in Canada
The historical development of the major religious traditions in Canada, their influence on the social, political and cultural areas of Canadian life and their contemporary significance. Attention will also focus on the interaction of Catholic, Protestant, Jewish, Indian and Eskimo groups. (6 credits) NOTE A/See § 200.1

SOCIOLOGY AND ANTHROPOLOGY
SOCIOLOGY N-445 (443)
Intergroup Relations in Canada
Prerequisites: Sociology N-444. Within the theoretical framework of intergroup relations, attention will be given to Indian, Inuit, Blacks, Jews, and English and French speakers. The mosaic theory of Canadian ethnic relations will be considered. (3 credits)

SOCIOLOGY N-470 (406)
Canadian Social Structure
Prerequisite: Sociology N-210. This course will focus on institutional patterns, with particular attention to the system of social stratification and industrial organization. Elements of differential structure, with special reference to Quebec society, will be interpreted a) from the historical perspective of modernizing development, and b) within the context of the North American system. (3 credits) NOTE A/See § 200.1

SOCIOLOGY N-471 (407)
Quebec Society
Prerequisite: Second year standing. The course focuses on the nature of traditional society and the social forces within Quebec society since the Second World War. It will examine conflicting historical views on Quebec that are relevant to contemporary issues; the consequences of the conquest; the nature of Confederation; and the nature of nationalism and the nation state. Special attention is paid to the language issue, both federally and within Quebec. (6 credits) NOTE A/See § 200.1

ANTHROPOLOGY N-462 (411)
Native Societies and Cultures of North America
Prerequisite: Anthropology N-211 or Sociology N-210. The principles of general anthropology applied in a survey course on the American Indians. The advent of man to America, including Inuit; brief survey of Indian civilizations; present-day problems of Canadian and U.S. Indians and Inuit. (6 credits) NOTE A/See § 200.1

41.5.5 SCIENCE AND HUMAN AFFAIRS

This programme is concerned with the social dimensions of science and technology. Its teaching and research provide an interdisciplinary examination of the ethical, cultural, political and environmental problems associated with scientific and technological change. Attention is also focused on analysis of the social systems of science from historical, sociological, economic and philosophical perspectives.

The programme is designed for students interested in science and technology, but who do not plan careers in scientific research or the technical professions. Rather it prepares them for constructive careers which involve a grasp of scientific methods, an understanding of scientific principles, and an appreciation of the nature, content and implications of scientific research, technological innovation and industrial development. For students working toward degrees in science or engineering, the programme provides the opportunity to develop important additional perspectives and capabilities.

There are a number of streams or areas within the programme. In the History and Philosophy of Science, for example, students may concentrate so as to prepare themselves for graduate work. Another stream examines the social impact of science and technology by focusing on policy problems. Students may develop a variety of approaches for dealing with public policy in either the areas of science and technology or environment. These also are preparatory for existing graduate programmes.

In addition to courses in Science and Human Affairs, Concordia offers related courses in many other departments, a major and minor in Environmental Biology, Social Aspects of Engineering courses in the faculty of Engineering and a minor in Social Responsibility of Science on the Loyola Campus.

Science and Human Affairs Committee
GEORGE BINDON, Science and Human Affairs, Coordinator
GORDON CADENHEAD, Science and
SCIENCE AND HUMAN AFFAIRS N-312
Case Histories in Experimental Science
Readings will concentrate on the original scientific texts (e.g. Harvey, Galileo, Newton, Faraday, Pasteur, Crick and Watson). In the laboratory sections, students will follow original experimental procedures which will also be examined in classroom demonstrations on film and videotape. (6 credits) NOTE A/See § 200.1

SCIENCE AND HUMAN AFFAIRS N-351
Astronomy, Cosmology and the Space Age
The nature of the universe as described in both contemporary and historical astronomical theories; cosmology and its cultural context; the nature of scientific method in astronomy; life on other worlds; the social implications of space flight. (6 credits) NOTE A/See § 200.1

SCIENCE AND HUMAN AFFAIRS N-401
Advanced Study in Technology and Society
Prerequisites: Science and Human Affairs N-201, N-202, or permission of the Coordinator. The social role and impact of technology in modern society; alienation in the technological age; the critique of technology; the sources and processes of discovery; invention and innovation; methods of technological assessment and forecasting. (6 credits) NOTE A/See § 200.1

COURSES IN SCIENCE AND HUMAN AFFAIRS

CENTRE FOR INTERDISCIPLINARY STUDIES

SCIENCE AND HUMAN AFFAIRS N-201
Introduction to Science and Human Affairs I
The social and historical context of scientific and technological change. The reciprocal interactions of science with government, ideology, economic development, religion, literature and social theory; science and the city; science and the control of human life; science and human liberation; new definitions of scientific responsibility may be considered. (3 credits) NOTE A/See § 200.1

SCIENCE AND HUMAN AFFAIRS N-202
Introduction to Science and Human Affairs II
A continuation of Science and Human Affairs N-201. This course may be taken independently. (3 credits) NOTE A/See § 200.1

SCIENCE AND HUMAN AFFAIRS N-221
Environmental Issues I
The scientific, social and cultural nature of man's relationship to his environment. Emphasis will be placed on pollution, conservation, population resources and human ecology. (3 credits) NOTE A/See § 200.1

SCIENCE AND HUMAN AFFAIRS N-222
Environmental Issues II
A continuation of Science and Human Affairs N-221. This course may be taken independently. (3 credits) NOTE A/See § 200.1
provided that a different subject is dealt with the second time. A student repeating Science and Human Affairs N-493 for credits will register under Science and Human Affairs N-494. NOTE A: See § 200.1

SCIENCE AND HUMAN AFFAIRS N-494
Seminar in Science and Human Affairs
Prerequisite: Permission of the Coordinator. A student repeating Science and Human Affairs N-493 for credits will register under Science and Human Affairs N-494, (6 credits) NOTE A: See § 200.1

ECONOMICS

ECONOMICS N-304 (431)
Canadian Economic Policy I
Prerequisites: Economics N-209 and N-210. A study of the effects of government policies on resource allocation with emphasis on Canadian policy problems. Topics will include government regulation of business, agriculture policy, transportation policy, and tariff policy. (3 credits) NOTE A: See § 200.1

ECONOMICS N-305 (432)
Canadian Economic Policy II
Prerequisites: Economics N-209 and N-210. A study of trade, government stabilization, growth, and welfare policies with emphasis on Canadian policy problems. Topics will include monetary and fiscal policies, policies to encourage growth, and social security policies. (3 credits)

NOTE: Students who have credits for Economics N-405, or Economics N-431 before 1969-70 may not take this course for credits.

ECONOMICS N-307
Economics of the Environment
Prerequisites: Economics N-209 and N-210. The subject of this course is environmental quality. It proceeds through an analysis against the relationship between the natural environment, economics, and institutions. The objective is to depict the problem of environmental quality as an economic problem whose solution demands major changes in economic, political and legal institutions. Attention is also given to policies of collective environmental actions in which the effective management of common property resources will be discussed. The course concludes with a discussion of some broader issues, such as the consistency of improved environmental quality with continued economic and population growth. (3 credits)

ECONOMICS N-308
Economics of Natural Resources
Prerequisites: Economics N-209 and N-210. This course focuses on the problems of the finiteness of the natural resources base in Canada and in the world, and on an analysis of the demand for and supply of natural resources and energy. The course also discusses the economic aspects of a selected group of conservation measures (financial incentives, re-allocation of property rights, regulation). (3 credits)

GEOGRAPHY

GEOGRAPHY—INTERDISCIPLINARY STUDIES N-212 (212)
Early Man
An examination of the scientific evidence for the unwritten part of man's evolutionary history. The course will study both food-gathering and food-producing man. Biological and cultural evolution will be considered from a background of changing natural environment. (6 credits)

NOTE: Students who have taken Geography—Interdisciplinary Studies N-321 may not take this course for credits.

GEOGRAPHY N-357 (457)
Resource Utilization and Conservation
Prerequisite: Geography N-211 or second year standing in an honors or departmental major programme in the Social Sciences or the Faculty of Commerce. The resource concept and concepts of conservation. The regional approach to resource management. Case studies of the problems in developing particular natural resources and of interstate areas of poor economic health, with emphasis on the regional and national parts of such developments. Special emphasis will be given to Canadian problems and those of selected underdeveloped countries. (6 credits)

HISTORY

HISTORY N-333 (415)
Enlightenment and Revolution, 1640-1848
Prerequisite: History N-210. European history in the age of the French Revolution, including a study of the scientific and industrial revolutions. (6 credits)

HISTORY N-335 (442)
Social and Intellectual History of Early Modern Europe
Prerequisite: History N-210. A study of change and continuity in European society and culture, 1300-1650. Problems studied include feudal-capitalist relationships, the Italian Renaissance, Northern State Development, Protestant Reformation, Scientific Revolution and European Colonial expansion. Methodological issues will be emphasized. (6 credits)

HISTORY N-336 (444)
Social and Intellectual History of Modern Europe
Prerequisite: History N-210. The intellectual systems arising in Europe since the 17th century will be explored in the context of the economic and social circumstances which engendered them. This course will begin with the rise of theories of "possessive individualism" and will end with the contemporary cultural crisis. While attention will be paid to the general dynamics of culture, special attention will be devoted to the social functions of particular ideologies. (6 credits)

HISTORY—SCIENCE AND HUMAN AFFAIRS N-446 (446)
Advanced Study in the History of Science
Prerequisite: Permission of the Department. Seminar in a selected topic in the History of Science. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits) NOTE A,C: See § 200.1

HISTORY—SCIENCE AND HUMAN AFFAIRS N-447 (447)
Advanced Study in the History of Science
Prerequisite: Permission of the Department. A student repeating History-Science and Human Affairs N-446 registers for credits under History—Science and Human Affairs N-447. (6 credits)

PHILOSOPHY

PHILOSOPHY N-221 (253)
Introduction to Logic
This course introduces the student to the nature and function of formal logic through an examination of both syllogistic logic and immediate inference. In addition there will be an extensive treatment of informal or material fallacies and an elementary presentation of propositional logic. (6 credits) NOTE A,SEE § 200.1

SIR GEORGE WILLIAMS FACULTY OF ARTS

THE CENTRE FOR INTERDISCIPLINARY STUDIES: SCIENCE AND HUMAN AFFAIRS

41.5.5
PHILOSOPHY N-321 (454)
Modern Logic
An introduction to modern logic, its techniques and applications. Coverage of sentential logic, first order predicate logic, naive set theory, relations and functions (6 credits)

PHILOSOPHY N-376 (435)
Philosophy of the Social Sciences
Philosophical examination of the structure and methodology of the social sciences. Special attention to problems of functionalism, teleological explanation and the testing of social theories. (3 credits)

PHILOSOPHY N-421 (452)
The Philosophy of Science
Prerequisite: One course in logic or permission of the Department. A critical examination of problems pertaining to the structure and status of scientific theories and the logic of scientific inference. Such topics as the following will be discussed: explanation, confirmation, verifiability and falsifiability, problems of definition, observational and theoretical terms, models and analogies. (6 credits)

POLITICAL SCIENCE

POLITICAL SCIENCE N-330 (251)
Government and Politics of Canada
A study of the parliamentary system in Canada with emphasis placed upon the development and judicial interpretation of the British North America Act, the federal system, the nature and organization of political parties, the evolution of cabinet rule, the judicial structure and contemporary problems in Canada. (6 credits) NOTE A/SEE § 200.1

POLITICAL SCIENCE N-333 (441)
Principles of Public Administration
Prerequisite: Political Science N-240 or N-330. This course deals with the nature and function of the administrative branch of government. The student is introduced to such problems as the organization of government departments, the management of government corporations, budgeting, selection and training of personnel, maintenance of morale and discipline, relationship between legislature and administration, relationship between the administration and the public. (6 credits)

POLITICAL SCIENCE—SCIENCE AND HUMAN AFFAIRS N-472 (472)
Science and Public Policy
Prerequisites: Science and Human Affairs N-201, N-202, one course in Political Science or permission of the Coordinator of the Department. The relationship between science and government. Particular emphasis is placed on such problems as the role of the scientist in political decision-making, the making of Canadian science policy, the mix of basic, applied and mission-oriented research, the relations of science and the military, the nature of technocracy and the role of science in economically developing nations. (6 credits)

RELIGION

RELIGION N-443 (443)
Modern Religious and Atheistic Thought
A historical and critical review of the conflicting philosophical interpretations of religion that have arisen in the West since the Enlightenment. Special attention will be paid to problems about the nature of meaning of religious experience currently debated between religious and secularist thinkers. (6 credits)

SOCIOLOGY AND ANTHROPOLOGY

SOCIOLOGY N-422 (495)
Sociology of Knowledge
Prerequisite: Sociology N-210. An examination of the interaction between social structures and meaning and belief systems. Of special concern will be the social influence bearing upon claims to truth and validity and upon definitions of social morality. (6 credits)

SOCIOLOGY N-448 (461)
Population and Society
Prerequisite: Sociology N-210, or an introductory course in a social science. This course consists of a brief survey of population theory and an introduction to the techniques of population analysis. It will cover the size, distribution, and composition of the population; changes in these characteristics; the relationship between population trends and social and economic conditions, with special reference to recent trends. (3 credits)

ANTHROPOLOGY/INTERDISCIPLINARY STUDIES N-333 (333)
Introduction to Archaeology
An introduction to the archaeology of the ancient civilizations of the Mediterranean world. Special emphasis will be given to the methodological approach to archaeology. (6 credits) NOTE A/See § 200.1

41.5.6 RUSSIAN STUDIES

The Russian Studies Major prepares students for professional and academic careers in Civil Service, Trade and Commerce, External Affairs and other areas of relationship between Canada and the Soviet Union. A wide variety of courses in Russian language, politics, economics, history, philosophy and geography is taught by specialists who work closely with students in designing programmes which best fit their needs.

Russian Studies Committee
IRVING SMITH, History, Coordinator
TATIANA SIDOROW, Russian Language
VLADIMIR ZEMAN, Philosophy

Programmes
Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

66 BA Honours in Russian Studies

6 Econ N-2093, N-2103, N-2219; Hist N-2106
6 Econ N-4653, N-4664
18 Russ N-2109, N-2416, N-3116
18 Hist N-2109, N-3416, N-4456
6 Geog N-3456*
12 Russ N-3519, N-4529, N-4538; N-4543, N-4553; Phil N-3656; Pol Sc N-3536

*Geog N-3456 may be taken for credits in the programme only when the subject matter is relevant to Russian Studies. A student who has already taken it in a year when the subject matter was not thus relevant, registers under Geog N-3466 in meeting the degree requirements.
RUSSIAN N-210 (211)
Introductory Course in Russian
A beginner's course in the Russian language which is designed, in one year, to acquaint the student with pronunciation, the main grammatical aspects and a basic vocabulary. Emphasis is placed on speaking, reading and writing Russian. Lectures and laboratory. (6 credits) NOTE A, B/See § 200.1

RUSSIAN N-241 (212)
Intermediate Russian
Prerequisite: Russian N-210 or equivalent.
This course consists of a complete review of Russian grammar, composition, reading and conversation. Through reading of short stories and additional material, the student is given the opportunity of acquainting himself with Russian culture and literature. (6 credits) NOTE A, B/See § 200.1

RUSSIAN N-311 (411)
Advanced Russian Language and Stylistics
Prerequisite: Russian N-241 or permission of the instructor. This course is intended to give increased fluency and a firmer command of the language. The emphasis of the course is on stylistics and composition. Through additional reading and class work the student is given the opportunity to acquaint himself with the various aspects of Russian civilization. Selected texts will be discussed and analyzed in Russian. (6 credits) NOTE A/See § 200.1

RUSSIAN N-351 (421)
Introduction to 19th Century Russian Literature through the Short Story
Prerequisite: Russian N-241 or equivalent. The short story will be used both as a subject for literary study and as a reflection of the history and social preoccupation of the period. Opportunity will be provided for discussion and student attention will be paid to composition. This course is conducted in Russian. (6 credits) NOTE A/See § 200.1

RUSSIAN N-452 (422)
Soviet Literature
Prerequisite: Russian N-241 or equivalent.
A general survey of Soviet prose, drama and poetry from 1917 to the present day. The aim of the course is to familiarize the student not only with the literature itself but also with its origins and development. Opportunity will be provided for discussions and some time will be devoted to advanced composition. This course is conducted in Russian. (6 credits)

RUSSIAN N-453 (423)
Russian Drama
Prerequisite: Russian N-241 or permission of the instructor. The course traces the development of Russian drama from the 18th century to the present day. The following will be discussed: D. Fonvisin, A. Gribboedov, A. Pushkin, M. Lermontov, N. Gogol, A. Ostrovski, A. Chekhov, A. Tolstoy, M. Gorki, A. Afimoglenov, L. Leonov. This course is conducted in Russian. (6 credits)

RUSSIAN N-454 (454)
Study of an Individual Russian Author I
Prerequisite: Russian N-241 or equivalent. This course will consist of the detailed study of a Russian author, e.g. L. N. Tolstoy, F. M. Dostoevskii, N. V. Gogol. The chosen author will vary from time to time, in accordance with the needs of the students. (3 credits)

RUSSIAN N-455 (455)
Study of an Individual Russian Author II
Prerequisite: Russian N-241 or equivalent. This course will consist of the detailed study of a Russian author, e.g. A. S. Pushkin, M. Ju. Lermontov, I. A. Goncharov. The choice of author will vary from time to time, in accordance with the needs of the students. (3 credits)

ECONOMICS

ECONOMICS N-209 (209)
Introduction to Microeconomics
Introduction to the functioning of the market system; concepts of supply and demand; the role of prices in resources allocation; production decisions by firms. Analysis of differences between competition and monopoly and the implications for economic efficiency; theories of labour markets and wage determination. (3 credits) NOTE A/See § 200.1

ECONOMICS N-210 (210)
Introduction to Macroeconomics
An introductory analysis of aggregate economic activity. The focus is on the principles of determination of the level of employment, national income, real output, inflation, and international balance of payments. The course also analyzes the principles which govern the trade relations among countries. These topics are integrated by a discussion of government monetary and fiscal policies to stabilize economic activity. (3 credits) NOTE A/See § 200.1

ECONOMICS N-221 (221)
Introduction to Economic History
This course deals with the development of industrial economics from the Industrial Revolution to the present. Emphasis is on long-term forces such as demographic, technological, and institutional evolution. (6 credits) NOTE A/See § 200.1

ECONOMICS N-464 (444)
Marxian Economics
Prerequisite: Economics N-209 and N-210. A general survey of Marxian theory; Marx's role and influence; his predecessors and followers. The topics that will be discussed include historical and dialectical materialism, the role of the proletariat in Marxian teaching, Marx and the Socialist International, the evolution of Marxian thought, Marx and the labour movement, the labour theory of value, the theory of economic development, and the breakdown of capitalism. (3 credits)

ECONOMICS N-465 (443)
Soviet Economics
Prerequisites: Economics N-209 and N-210. The evolution of the Soviet economic system
and the policy measures adopted to deal with the problems of establishing and consolidating a socialist state. Special attention is given to Lenin's role in the early phase of the Soviet system and early economic measures such as the collectivization of farms. Other topics covered are: the nature of economic planning and progress under Stalin, and the important recent reforms and modifications of the Soviet system under the impact of Liberman's proposals. (3 credits)

**GEOGRAPHY**

**GEOGRAPHY N-345 (445)**
The Geography of a Selected Region
Prerequisite: Geography N-211 or N-271, or second year standing in Arts. A detailed examination of the physical environment, the people, their history, and the present political and economic patterns within the region. The course will provide a deep understanding of the interrelationships between the constituents of the region, an appreciation of those factors responsible for regional unity and will also illustrate the holistic nature of the geographical discipline (6 credits).

*NOTE:* In alternate years beginning 1976-77 this course will focus on the Geography of the U.S.S.R. Students taking N-345 may take this course a second time under N-346.

**HISTORY**

**HISTORY N-341 (441)**
History of Russia
Prerequisite: History N-210. This course traces the origins of the Slavic-speaking peoples in Europe and the emergence of the Russian Empire. After a discussion of the ideology and history of Bolshevism, it studies the history of communist government in the U.S.S.R. and among the Slavic peoples. (6 credits)

**HISTORY N-445 (445)**
Advanced Study in Russian and Soviet History
Prerequisites: History N-210; History N-341 or permission of the Department. This course deals with specific problems in Tsarist and Soviet Russia. In the Pre-Revolutionary period attention is focussed on the emancipation of the peasantry, industrialization and the growth of the opposition parties. In the Soviet period emphasis is placed on the problems of economic growth and the changing pattern of Soviet Marxism and the nature of Soviet foreign policy. (6 credits)

**PHILOSOPHY**

**PHILOSOPHY N-365 (465)**
Studies in Russian Philosophy
Prerequisite: Second year standing or permission of the Department. Study of the main topics in the development of Russian philosophy. Topics to be discussed include: Nihilism and Anarchism, Tolstoy's Philosophy of History, Dostoyevsky's idea of evil, Marxism. Lectures and seminars. (6 credits)

**POLITICAL SCIENCE**

**POLITICAL SCIENCE N-353 (453)**
Soviet and East European Politics
A study of the constitutional, political and administrative system of the Soviet Union and the East European states. Emphasis will be placed on the continuing evolution of the Communist system and the changing relationship between the Soviet Union and the other states. (6 credits)

*NOTE: In alternate years beginning 1976-77 this course will focus on the Geography of the U.S.S.R. Students taking N-345 may take this course a second time under N-346.*

## 41.5.7 URBAN STUDIES

The Urban Studies Programme introduces the student, through such disciplines as economics, sociology, geography and political science to the many areas of research and theory relevant to the modern city and its problems. It also provides the necessary background for later postgraduate specialization in some aspect of urban research, planning or administration.

**Urban Studies Committee**

H. TAYLOR BUCKNER, Sociology, Coordinator  
JOHN BRESLAW, Economics  
JOSEPH FIKSEL, Mathematics  
JOHN JACKSON, Sociology  
MICHEL LIN CourT, Sociology  
SUSAN SHELL, Political Science  
BRIAN SLACK, Geography  
ZENON A. ZIELINSKI, Civil Engineering

**Programmes**

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

COURSES IN URBAN STUDIES

CENTRE FOR INTERDISCIPLINARY STUDIES

URBAN STUDIES N-260
Urban Development
An introductory course in Urban Development using an interdisciplinary approach to

the process of urbanization, the city as a social system, the city as an economic system and the built environment. The material will be presented by films, tapes and special readings. The films cover historic London, Ibadan and Chicago. (6 credits) NOTE A/See § 200.1

URBAN STUDIES—GEOGRAPHY N-401
Applied Urban Studies
Prerequisites: Geography N-211 or Urban Studies N-260; Geography N-331 previously or concurrently. A study of the contemporary city with emphasis on the problems arising from urban growth. Attention will be given to the possibilities for planned development including New Towns. The material will be presented by films, tapes and special readings and there will be a discussion each week. (6 credits)

URBAN STUDIES N-491
Seminar in Urban Studies
Seminar limited to second and third year students in the Urban Studies programme. Each student must prepare and submit an appropriate research paper. (6 credits) NOTE A/See § 200.1
NOTE: With the permission of the Coordinator a student may take this course twice for credits provided that a different subject is dealt with the second time. He will register the second time under Urban Studies N-492.

URBAN STUDIES N-492
Seminar in Urban Studies
Prerequisite: Permission of the Coordinator.
A student repeating Urban Studies N-491 for credits will register under Urban Studies N-492. (6 credits) NOTE A/See § 200.1

ECONOMICS

ECONOMICS N-209 (209)
Introduction to Microeconomics
Introduction to the functioning of the market system; concepts of supply and demand; the role of prices in resources allocation; production decisions by firms. Analysis of differences between competition and monopoly and the implications for economic efficiency; theories of labour markets and wage determination. (3 credits) NOTE A/See § 200.1

ECONOMICS N-210 (210)
Introduction to Macroeconomics
An introductory analysis of aggregate economic activity. The focus is on the principles of determination of the level of employment, national income, real output, inflation, and international balance of payments. The course also analyzes the principles which govern the trade relations among countries. These topics are integrated by a discussion of government monetary and fiscal policies to stabilize economic activity. (3 credits) NOTE A/See § 200.1

ECONOMICS N-274 (218)
The Use of Economic Data
Prerequisites: Economics N-209 and N-210. Concepts of economic accounting and related measurement techniques, with special reference to the procedures used in Canada and in international economic institutions like the U.N., I.M.F., and O.E.C.D. The topics include: national accounts, input-output tables, flow-of-funds accounts, national balance sheets, international and interregional comparison of economic data, choice of index. (3 credits)

ECONOMICS N-304 (431)
Canadian Economic Policy I
Prerequisites: Economics N-209 and N-210. A study of the effects of government policies on resource allocation with emphasis on Canadian policy problems. Topics will include government regulation of business, agriculture policy, transportation policy, and tariff policy. (3 credits) NOTE A/See § 200.1
ECONOMICS N-305 (432)
Canadian Economic Policy II
Prerequisites: Economics N-209 and N-210. A study of trade, government stabilization, growth, and welfare policies with emphasis on Canadian policy problems. Topics also include monetary and fiscal policies, policies to encourage growth, and social security policies. (3 credits)
NOTE: Students who have credits for Economics N-405, or Economics N-431 before 1969-70 may not take this course for credits.

ECONOMICS N-375 (375)
Introduction to Statistics for Economists
Prerequisite: Mathematics N-207. The course is an introduction to the application of statistical techniques to economic data. Topics discussed will include, among others, time series, statistical inference, analysis of variance, correlation and regression. (3 credits) NOTE A/See § 200.1
Credits will be given for only one 6 credit course or two 3 credit courses from Economics N-375, Geography N-362 and N-363, Mathematics N-241, Qualitative Methods 243 and 244, Sociology N-241, Psychology N-241 and Psychology N-242.

ECONOMICS N-426 (426)
Urban Economics
Prerequisites: Economics N-209 and N-210. This course will focus on the basic issues of economic growth and stagnation, urban land use, the problems of the urban public economy, and special urban problems such as transportation, congestion, poverty, housing and urban renewal, and zoning. (3 credits)

ECONOMICS N-427 (427)
Regional Economics
Prerequisites: Economics N-209 and N-210. Economics N-311 or N-318 previously or concurrently, or Economics N-426. This course introduces the student to the methods and techniques of regional economic analysis and their application to the problems of regional economies within Canada. Among the microeconomic topics covered are the location behaviour of firms and households and the factors determining the allocation of land among alternative competing uses. Macroeconomic topics include the measurement and analysis of regional income and growth levels, cyclical changes in those levels, and interregional differences in growth rates. Policy problems pertinent to Canadian regions are stressed throughout the course. (3 credits)

ECONOMICS N-446 (423)
The Economic Development of Quebec
Prerequisites: Economics N-209 and N-210. This course will review past and present trends in the economic development of Quebec, though emphasis will be placed on the economic growth of Quebec since the Second World War. Attention will be given to the regional aspects of its growth problems. (3 credits)

GEOGRAPHY

GEOGRAPHY N-211 (211)
Introduction to Human Geography
A study of the evolution of the earth's populated area and the gradual enlargement of geographical horizons. The emphasis will be on cultural distributions, landscape and settlement, and the geography of economic, social, and political activities. (6 credits) NOTE A/See § 200.1

GEOGRAPHY N-260 (260)
Introduction to Cartography I
A study of the map as a tool of the geographer. Assignments of a practical nature will emphasize the history, design, drawing and use of maps. Additionally, the course will focus on the use and application of qualitative and quantitative materials and methods as they relate to modern cartography. Lectures and laboratory. (3 credits)
NOTE: Students who have credits for 060 or 061, or N-261 or 262 before 1973-1974 may not take this course for credits.

GEOGRAPHY N-261 (261)
Introduction to Cartography II
Prerequisite: Geography N-260 or permission of the Department. A study of the map and its use in portraying different types of information in various ways. Additionally, the course will focus on the use of air photos and their interpretation as an aid to the cartographer. Design balance and drawing skills are further developed. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOGRAPHY N-331 (431)
Urban Geography
Prerequisite: Geography N-211, or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or the Faculty of Commerce. A study of the prehistoric town, the Greek and Roman town, towns in the Middle Ages, the trading city, the pioneer town and the modern metropolis. The distribution of such towns, their development, growth and internal pattern of organization will be looked at from an historical and geographical point of view. The conurbations and large metropolitan cities in the present age will be discussed and evaluated. Special emphasis will be given to Canadian cities, to their site, function, organization, growth and development as well as to urban problems relating to zoning, transportation, urban renewal, etc. (6 credits)

GEOGRAPHY N-355 (455)
Spatial Organization
Prerequisite: Geography N-211 or second year standing in an honours, specialization, or major programme in the Social Sciences or in the Faculty of Commerce. A study of how man organizes spatial activities with the emphasis on the concepts of spatial interaction, location of activities, diffusion and individual decision. (6 credits)

GEOGRAPHY N-362 (242)
Quantitative Geography I
Prerequisite: Geography N-261. An introductory course in the applications of descriptive and analytical statistical techniques in Geography. Lectures and laboratory. (3 credits) NOTE: Only 6 credits will be given from Economics N-375; Geography N-362 and N-363; Mathematics N-241; Quantitative Methods 243 and 244; Sociology N-241; Psychology N-241 and Psychology N-242.

GEOGRAPHY—URBAN STUDIES N-401
Applied Urban Studies
Prerequisites: Geography N-211 or Urban Studies N-260; Geography N-331 previously or concurrently. A study of the contemporary city with emphasis on the problems arising from urban growth. Attention will be given to the possibilities for planned development including New Towns. The material will be presented by films, tapes and special readings and there will be a discussion each week. (6 credits)

GEOGRAPHY N-457 (460)
Geography of Transportation
Prerequisite: Geography N-211, N-331 or N-355 or permission of the Department. A study of patterns of transport facilities and traffic flows. Emphasis will be on general concepts of route alignment, network layouts, and on applications of spatial interaction models to economics flows. (6 credits)
NOTE: Prior to 1976-77 this course was a 3 credit course.
POLITICAL SCIENCE

POLITICAL SCIENCE N-240 (211)
Comparative Politics
A course in comparative politics with special emphasis on the dynamics of the political process. Going beyond constitutional and institutional procedures, this course will include the study of informal realities of decision-making. Most of the illustrative content is based on a comparative study of Canada, the United States, Great Britain and France. (6 credits) NOTE A/See § 200.1

POLITICAL SCIENCE N-320 (420)
Problems and Concepts in Political Theory
A course in political theory emphasizing key concepts such as equality, liberty and power. The content of the course will include basic methodology and terminology to the extent that the thematic orientation in any given year requires its inclusion. (6 credits) NOTE A/See § 200.1

POLITICAL SCIENCE N-330 (251)
Government and Politics of Canada
A study of the parliamentary system in Canada with emphasis placed upon the development and judicial interpretation of the British North America Act, the federal system, the nature and organization of political parties, the evolution of cabinet rule, the judicial structure and contemporary problems in Canada. (6 credits) NOTE A/See § 200.1

POLITICAL SCIENCE N-333 (441)
Problems of Public Administration
Prerequisite: Political Science N-240 or N-330. This course deals with the nature and function of the administrative branch of government. The student is introduced to such problems as the organization of government departments, the management of government corporations, budgeting, selection and training of personnel, maintenance of morale and discipline, relationship between legislature and administration, relationship between the administration and the public. (6 credits)

POLITICAL SCIENCE N-334 (434)
Urban Politics
Prerequisite: Political Science N-240 or N-330. A course in the problems and prospects in urban politics with special emphasis on the processes of the local community. This course, although primarily dealing with urban politics in Canada, will also go beyond national boundaries for its comparative treatment. (6 credits)

SOCIOLOGY

SOCIOLOGY N-210 (212)
Introduction to Sociology
This course analyzes social problems in modern society and introduces the student to the basic concepts and most important approaches in sociology. (6 credits) NOTE A/See § 200.1

SOCIOLOGY N-241 (241)
Statistics
Prerequisites: Sociology N-210; and high school Algebra. An introductory course in descriptive and analytical statistical methods for students of sociology. Lectures and laboratory. (6 credits) NOTE: Only 6 credits will be given from: Economics N-471, N-375, Geography N-362, N-363, Mathematics N-241, Quantitative Methods 243, Sociology N-241, Psychology N-241, N-242

SOCIOLOGY N-411 (411)
Research Techniques
Prerequisites: Sociology N-210 and Sociology N-241 or substitution allowed by the Department. This course deals with the design of research, the methods of data collection, and the techniques of analysis. A research project will be designed and carried out by the students. The emphasis will be on training for the critical reading of published research materials, as well as on training for graduate study. Lectures and laboratory. (6 credits)

SOCIOLOGY N-440 (404)
Community Studies
Prerequisite: Sociology N-210. Based upon selected community studies, this course will focus upon an interpretation of the findings of these studies within the larger context of urbanization and industrialization with special emphasis given to the methodology of community studies. (3 credits)

SOCIOLOGY N-441 (441)
Sociology of Urban Regions
Prerequisite: Sociology N-210. The physical and social characteristics of urban communities are studied with special attention paid to ecological patterns and ecological process. Forms of adjustment, co-operation and control are included in these studies. (3 credits)

SOCIOLOGY N-448 (461)
Population and Society
Prerequisite: Sociology N-210, or an introductory course in a social science. This course consists of a brief survey of population theory and an introduction to the techniques of population analysis. It will cover the size, distribution, and composition of the population; changes in these characteristics; the relationship between population trends and social and economic conditions, with special reference to recent trends. (3 credits)

SOCIOLOGY N-450 (496)
Seminar in Urban and Metropolitan Studies
Prerequisite: Sociology N-411. Intensive study of a few theories and selected monographs dealing with aspects of urbanization. (6 credits)

41.5.8 WOMEN'S STUDIES

This programme is designed to present a comprehensive view of women in society and to stimulate an interest in the study of women.

Women's Studies Committee
VIVIENNE WALTERS, Sociology, Coordinator
CHRISTINE GARDIS-AI LN, Philosophy

SIR GEORGE WILLIAMS FACULTY OF ARTS
THE CENTRE FOR INTER-DISCIPLINARY STUDIES: WOMEN'S STUDIES
SIR GEORGE WILLIAMS UNIVERSITY
FACULTY OF ARTS
41.5.8
THE CENTRE FOR INTERDISCIPLINARY STUDIES: WOMEN'S STUDIES

COURSES IN WOMEN'S STUDIES

CENTRE FOR INTERDISCIPLINARY STUDIES

WOMEN'S STUDIES N-241
Woman's Identity and Image: Historic Attitudes
An interdisciplinary study of the nature of woman as understood by western society from its Greek origins to the mid-nineteenth century. Sample topics are: the Greek myths, the Bible (Eve and Mary), Greek philosophy (Plato and Aristotle), courtly love, medieval mysticism and Victorianism (Kierkegaard, Schopenhauer, Queen Victoria and Ibsen). (3 credits) NOTE: See Fall 200.1

WOMEN'S STUDIES N-242
Woman's Identity and Image: Recent Approaches
An interdisciplinary study of the nature of woman as understood by western society from the mid-nineteenth century to the present. Sample topics are: the effect of the Industrial Revolution on the family (Marx and Engels), the emancipation of women (John Stuart Mill, Virginia Woolf), the psychology of woman (Freud and Jung), and contemporary attitudes towards women and Women's Liberation. (3 credits) NOTE: See Fall 200.1

ECONOMICS

ECONOMICS N-310
Economics of Discrimination
Prerequisites: Economics N-209 and N-210. The purpose of this course is to examine some economic issues of discrimination with particular reference to women in a Canadian context. Among the topics so examined are: techniques for measuring discrimination and poverty, review of empirical studies, traditional and radical approaches to the study of discrimination, and policies to combat discrimination and poverty. (3 credits)

ENGLISH

ENGLISH N-251
Selected Topics in Literature Written by Women
This course explores the ways in which women have employed conventions of such literary genres as poetry, the novel and the drama to define their own lives and those of their contemporaries. The emphasis will be on literary analysis of the works; the course will also deal with the social and historical circumstances which are relevant to the works in question. The texts studied, the themes and concepts pursued, will vary from year to year. (3 credits)

ENGLISH N-252
Selected Topics in Literature Written by Women
A student repeating English N-251 for credits will register under English. N-252. (3 credits)

HISTORY

HISTORY N-328 (328)
Women in Western History
A review of the position and roles of women in Western history prior to the 17th century. Beginning with the 17th century, a more detailed discussion of these themes and close scrutiny of selected problems having to do with the roles of women in Europe, Canada and the United States during the last two centuries. Among the problems to be treated will be the history of the Feminist movements, the relationship of women to the process of industrialization and the impact of the world wars of this century on the condition of women. (6 credits)

POLITICAL SCIENCE

POLITICAL SCIENCE N-331
Women and the Law
A historical and comparative study of the status of women as seen in different legal systems. The course will deal with women in relation to private, family and public law. The framework will be primarily legal, but will also include a consideration of the social and political implications of women's legal status. Special attention will be directed to Quebec and Canadian law. (6 credits)

PSYCHOLOGY

PSYCHOLOGY N-383
Sexual Differentiation
Prerequisites: Psychology N-211 and second year standing. This course will examine the physiological, genetic and social factors that determine sex identity and will consider how sex identity influences life patterns. The effects of these factors on social, motivational and cognitive development and adjustment will be studied. (6 credits)

RELIGION

RELIGION N-333 (333)
Women and Religion I
An examination of the roles and images of women in the history of religions. Topics might include: the development of patriarchal religion, religion and sexuality, women and myth, the roles of women in different religious communities. This course will include an integrated sequence of lectures (minimum three weeks) by an anthropologist on matriarchal and patriarchal societies. (3 credits)

RELIGION N-334 (334)
Women and Religion II
An examination of the religious and ethical questions raised by contemporary discussions of women's experience. Topics might include: the recent beginnings of a feminist theology, the feminist critique of organized religion and society, the effects of male perspective upon philosophy and theology and women in the ministry. (3 credits)

SOCIOLOGY

SOCIOLOGY N-458 (458)
The Sociology of Sex Roles
Prerequisites: Sociology N-210. This course will focus on sociological aspects of sex roles. Modern social trends will be analyzed, with special attention to emerging egalitarian patterns and changes in the socio-economic system. (6 credits)

These courses were given in the summer of 1975.

INTERDISCIPLINARY STUDIES N-261
Women in Antiquity I (3 credits)

INTERDISCIPLINARY STUDIES N-262
Women in Antiquity II (3 credits)
The Undergraduate Scholars Programme of the Sir George Williams Faculty of Arts is designed to meet the needs of responsible students with high academic standing whose educational goals can best be achieved through an individually tailored programme of study. Such students must register in a programme leading to the Bachelor of Arts degree with a major, specialization, or honours in an area of concentration, although the approach may be of an interdisciplinary nature.

Each programme of study is planned through consultation between the scholar and a faculty adviser from his main field of interest. As many as 54 of the 90 credits required for the degree may be taken as Undergraduate Scholars Programme credits or tutorials. This work might take the form of guided independent study, independent field or laboratory research or creative activity. Its precise nature will depend on the scholar’s educational goals, interests and area of specialization.

Since this programme involves a great deal of individual attention on the part of faculty members, the number of entrants is necessarily limited. Students wishing to apply are therefore encouraged to prepare their applications as early as possible. Each student should, by March 1, submit a written statement of educational goals and arrange to have a collegial transcript and two letters of recommendation forwarded to:

MAIR VERTHUY, Coordinator,

41.6.1 CURRICULUM FOR THE DEGREE OF BACHELOR OF EDUCATION (English as a Second Language)

Elementary School Option
Secondary School Option

The Centre for the Teaching of English as a Second Language offers the Degree of Bachelor of Education (English as a Second Language).

Admission Requirements

General admission requirements are listed in § 13.

Specific requirements are as follows:

1. Satisfactory completion of a two-year pre-university programme in a CEGEP or equivalent. Within the programme the students will be required to have successfully completed the equivalent of four semester courses in English.

2. Owing to the specialized nature of this programme, no more than 30 pro tanto credits will normally be permitted, and the University reserves the right to determine which ones these should be.

3. Language competence: Students will be required to have reasonable fluency in the target language. An English language diagnostic test will be administered to determine English language competence. Students planning to teach in the French school system are expected to have reasonable fluency in French. A test for French language competence will be administered.

DEGREE REQUIREMENTS

Definition of Credit

Up to and including the academic year 1973-74, degree programmes have been expressed in terms of courses, with one credit being applied to a “full-course” (normally two terms) and one half-credit being applied to a “half-course” (normally one term).

Starting in 1974-75, in accordance with the recommendations of the Quebec Council of Universities, the credit-base was modified to take into account the total activity of the student. Students preparing for the degree of Bachelor of Education (English as a Second Language) take a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours of work spread across lectures, conferences, laboratories, studio or practice-periods, tests, examinations and personal work.

Elementary Option requires:

Successful completion, in an approved sequence, of the following:

TESL N-2213, TESL N-2223, TESL N-2313,
TESL N-2413, TESL N-3113, TESL N-3153,
TESL N-3513, TESL N-4223, TESL N-4313,
TESL N-4803, TESL N-4813.

9 credits selected from:

TESL N-3173, TESL N-3193, TESL N-3213,
TESL N-4343, TESL N-4423.

NOTE: Students with difficulties in articulation will be expected to take TESL N-2013 in lieu of one of the TESL electives.

Education N-2016, N-2106, N-2303, N-4531,
either English N-2116 or N-3116, Linguistics N-2216.

6 additional credits in English, the selection to be approved by the Centre for the Teaching of English as a Second Language.

NOTE: Students whose mother tongue is English may, with the approval of the Centre, substitute French N-3316.

12 credits from any department in the Sir George Williams Faculty of Arts.
Secondary Option requires:
Successful completion, in an approved sequence, of the following:
TESL N-2213, TESL N-2233, TESL N-2313,
TESL N-2413, TESL N-3123, TESL N-3153,
TESL N-3513, TESL N-4223, TESL N-4313,
TESL N-4803, TESL N-4813.
9 credits selected from:
TESL N-3173, TESL N-3193, TESL N-3213,
TESL N-4343, TESL N-4423.
NOTE: Students with difficulties in articulation will be expected to take TESL N-2013 in lieu of one of the TESL electives.
Education N-2016, N-2106, N-2303, N-4533,
either English N-2116 or N-3116, Linguistics N-2216.
6 additional credits in English, the selection to be approved by the Centre for the Teaching of English as a Second Language.
NOTE: Students whose mother tongue is English may, with the approval of the Centre, substitute French N-3316.
12 credits from any department in the Sir George Williams Faculty of Arts.
NOTE: Graduating students will be retested for language proficiency, English or French, whichever is their second tongue.
Opportunities for Advanced Study and Research
With the approval of the Centre, students with a potential for advanced work and research may, within their options, select the following courses:
Linguistics N-4316 Comparative Indo-European Linguistics
Linguistics N-4416 Advanced Linguistic Theory
TESL N-4906 Research Project
NOTE: Those possessing the degree of Bachelor of Education (English as a Second Language) Elementary or Secondary option will obtain a specialist teaching permit from the Quebec Ministry of Education.

41.6.3 CERTIFICATE IN THE Teaching of ENGLISH as a SECOND LANGUAGE

Elementary Option
Secondary Option
The Centre for the Teaching of English as a Second Language (TESL) offers during the evening and during its special summer sessions a thirty-credit programme leading to a Certificate in the Teaching of English as a Second Language.

Admission Requirements
1. In order to qualify for admission, students must possess an appropriate teacher’s certificate.
   Others may be admitted on the basis of their experience and other criteria suited to the demands of the programme.
2. Language competence
   (i) Students will be required to have reasonable fluency in the target language. An English language diagnostic test will be administered to determine English language competence.
   (ii) Students planning to teach in the French school system are expected to have reasonable fluency in French. A test for French language competence will be administered.
41.6.4 COURSE DESCRIPTIONS

All TESL courses may be regarded as courses in the Humanities or in the Social Sciences.

ESL N-201 (201) English Language and Composition
Prerequisite: Successful completion of ESL-100 or proven equivalent competence in English. This course is designed for non-English students who have completed secondary school or an equivalent in a language other than English. The course encourages the development of effective written communication and improved reading comprehension so that the student may perform competently in his other university work. (6 credits).

ESL N-203 Effective Communication I
This course is offered only to students enrolled in the programme, Certificat d'enseigne­ment de l'anglais, langue seconde (programme intensif de perfectionnement). The aim of the course is to develop a high degree of proficiency in both oral communication, and aural and reading comprehension. (6 credits).

ESL N-204 Effective Communication II
This course is offered only to students enrolled in the programme, Certificat d'enseigne­ment de l'anglais, langue seconde (programme intensif de perfectionnement). The aim of the course is to encourage the development of clear, effective writing. Aspects of styles such as appropriate levels of usage, choice of diction, and tone will be studied. (3 credits).

TESL N-201 Speech
This is an introductory course for those who have difficulty with the English sound system. It is a practical application of the knowledge of the sound, stress, intonation and rhythm patterns of English in effective oral communication. (3 credits).

TESL N-221 (441) Comparative Phonetics
A study of the phonetic and phonemic features of English and the methodology of corrective phonetic practice for the non-native speaker. A comparison of the phonological systems of English and French will be emphasized, but points of conflict between English and certain other languages, and methods of reducing interference, will also be discussed. (3 credits).

TESL N-222 Introductory Methodology—Elementary
Prerequisite: TESL N-221, TESL N-231. This course will prepare the student to use effectively the textbooks prescribed for the Elementary School level, and to adapt them to the objectives outlined by the Ministry of Education. The principles of selection and sequencing, and the techniques of presentation appropriate to the Elementary School child will be studied. (3 credits).

TESL N-223 Introductory Methodology—Secondary
Prerequisites: TESL N-221, TESL N-231. This course will prepare the student effectively to use the textbooks prescribed for the Secondary School level, and to adapt them to the objectives outlined by the Ministry of Education. The principles of selection and sequencing, and the techniques of presentation appropriate to the Secondary School student will be studied. (3 credits).

TESL N-231 Modern English Grammar
This course provides an intensive review of English grammar. All the elements of morphology and syntax are presented in a systematic, practical way in order to provide the essential background for a more profound analysis of English linguistic structures. Grammar exercise and analysis of the complexities of syntax form an integral part of the course. (3 credits).

TESL N-241 Language Acquisition
This course analyzes the developmental processes in native language acquisition. The psycho-linguistic factors involved in the child's conversion of language input into linguistic performance and their implication for second language learning are studied. Controlled presentation of material designed to promote competence in a second language is emphasized. (3 credits).

TESL N-311 Audio-Visual Aids in Second Language Teaching
Prerequisite: TESL N-222. This course examines audio-visual resources and their effective use in second language teaching. It familiarizes the student with language laboratory operation, the tape recorder, projectors and other equipment. The effectiveness of simple teaching aids such as flannel and magnetic boards, cue cards, stick figures, and picture cut-outs is studied with particular regard for the needs of the elementary school child. Students will be required to produce appropriate classroom materials. This course is intended for those registered in the Elementary Option. (3 credits).

TESL N-312 Technology in Second Language Teaching
Prerequisite: TESL N-222. This course examines audio-visual resources and their effective use in second language teaching. It familiarizes the student with language laboratory operation, the tape recorder, projectors and other equipment. Students will be required to develop materials consistent with their class.
room needs, such as tapes, transparencies, films, etc. This course is intended for those registered in the Secondary Option. (3 credits).

TESL N-315 Testing and Evaluation
Prerequisite: TESL N-222 or N-223. An introduction to the general purposes and methods of language testing with a description of the chief characteristics of sound educational measures. The course examines the processes involved in constructing and administering ESL tests designed to evaluate proficiency in the four major skills: listening, speaking, reading and writing. (3 credits).

TESL N-317 Teaching Composition to the ESL Student
Prerequisite: Second Year Standing. This course examines the skill of writing in second language teaching. Areas of concentration will include graphology, mechanics, syntax, topic sentences, and units of discourse larger than the sentence—paragraphs and compositions. Procedures and techniques for teaching and testing the various levels of writing are presented. The course is particularly relevant for the Secondary School teacher. (3 credits).

TESL N-319 Development of Effective Reading Skills
Prerequisite: Second year standing. This course is concerned with the abilities required by the ESL student for decoding written material. The developmental stages in the reading process are explored, the techniques for vocabulary expansion are studied, and the essential features of material required for the various stages of reading competence are considered. The course is particularly relevant for the Secondary School teacher. (3 credits).

TESL N-321 Comparative Stylistics
This course examines the stylistic resources of English in relation to those of French. Points of similarity and difference in cultural context and in phonology, morphology, syntax and vocabulary are studied. Practical work is conducted in analysis of translations from French to English. (3 credits).

TESL N-351 History and Development of the English Language
A study of the morphological, phonological, syntactical and semantic changes that have taken place from Proto-Indo-European to the present. Students are required to do elementary linguistic analyses of texts from different stages in the development of the language. (3 credits).

TESL N-422 Advanced Methodology—Elementary
Prerequisite: TESL N-222. In this course students are taught the criteria for assessment of materials and methods. Using these criteria they will be expected to prepare drills, exercises and dialogues and to produce complete lesson plans appropriate to the Elementary School level. Curriculum evaluation and curriculum planning will be an integral part of the course. (3 credits).

TESL N-423 Advanced Methodology—Secondary
Prerequisite: TESL N-223. In this course students are taught the criteria for assessment of materials and methods. Using these criteria they will be expected to prepare drills, exercises and dialogues and to produce complete lesson plans appropriate to the Secondary School level. Curriculum evaluation and curriculum planning will be an integral part of the course. (3 credits).

TESL N-431 Grammatical Theory
Prerequisite: TESL N-231. In this course the grammatical forms and structures of English which create difficulties for the ESL student are isolated and analyzed in detail with particular emphasis given to verb structures. A survey of various theories of grammar and their influence on the preparation of language teaching materials is also presented. In addition ESL textbooks presently being used in the Province of Quebec are examined in terms of the effectiveness of presentation of grammatical and syntactic structures. (3 credits).

TESL N-434 Error Analysis
Prerequisite: Second year standing. A study of errors made by the ESL learner. This course considers recurring types of intra-lingual and developmental errors in language use. Teaching procedures will take such developmental and structural conflicts into consideration. (3 credits).

TESL N-442 Problems in Bilingualism
An examination of the social and psychological background of languages in contact, with particular emphasis on the situation in Quebec. Motivation for second language learning in schools is studied in terms of cultural and socioeconomic factors. In addition such extra-linguistic influences as the historical and political context of bilingualism in Canada are covered. (3 credits).

TESL N-479 Internship
This course is offered only to students enrolled in the programme Certificat d'enseignement de l'anglais, langue seconde. It will involve observation and supervised teaching practice both in the university and in the schools. The course will also include seminar sessions for analysis and discussion of teaching performance. (3 credits).

TESL N-480 Internship
This internship will be closely integrated with the TESL courses. It will provide for a practical application of the theories and points of view advanced and discussed in the classes. It will involve observation, micro-teaching and supervised teaching practice. The course will also include preparation for, and attendance at, scheduled seminar sessions and tutorials for analysis and discussion of teaching performance. (3 credits).

TESL N-481 Internship
Prerequisite: TESL N-479 or TESL N-480. This course will include the same components as TESL N-480, but performance at a more advanced level will be expected. (3 credits).

TESL N-490 Research Project
This will include research related to some problem area of second language teaching. (6 credits).
41.7 Journalism

Associate Professor and Director
DAVID OANCIA

41.7.1 PROGRAMME

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

30 Minor in Journalism

30 Journ N-2016, N-2051, N-3016, N-3051, N-4016, N-4051, N-4103

41.7.2 COURSE DESCRIPTIONS

JOURNALISM N-201
Writing and Reporting I
This course gives training in basic reporting and newswriting. Students will practise writing news and will receive out-of-classroom assignments. (6 credits)

NOTE: Enrolment is limited to 20 students. Admission is determined by an interview with the Director of the programme. Applicants may be tested for a high level of competence in written English and a working knowledge of French.

JOURNALISM N-205
History of Journalism
A history of the news media in the English-speaking world, starting with the government gazettes of seventeenth-century England and their illegal, underground competition, through the "news" papers of the eighteenth century, the rise of the yellow press, the human interest story, the penny press in the nineteenth century, down to today's corporate press. The course is designed to show that our expectations of the news media are not inherent in human nature, but are the result of historical processes that continue to evolve. (3 credits)

JOURNALISM N-301
Writing and Reporting II
Prerequisite: Journalism N-201. A continuing general workshop in news and features writing. (6 credits)

JOURNALISM N-305
The Media in Quebec
This course studies the special characteristics of Quebec media, and focuses on the effect the media have had on the shaping of modern Quebec. It will analyse the straight press, the pop press, radio and television. (3 credits)

JOURNALISM N-401
Senior News Seminar
Prerequisite: Journal N-301. The students will produce each term, individually or as part of a team, a major investigative feature suitable for publication in a newspaper, magazine, or via radio or television. Seminars will analyse the problems encountered in gathering and writing or producing such news. (6 credits)

JOURNALISM N-405
Legal Issues
Prerequisite: Permission of the Director. This course will inform the students of those aspects of the civil codes and the criminal law of Canada that could directly affect their work as journalists—copyright, libel, slander, obscenity, etc. (3 credits)

JOURNALISM N-410
Editing and Production
Prerequisite: Journal N-301. This course will introduce the students to editing and production procedures—technical and intellectual—appropriate to different media. (3 credits)
41.8 Department of Classics, Modern Languages and Linguistics

Associate Professor of German and Chairman of the Department
ANNAMARIE KETTER

Professor of Classics
PAUL WIDDOWS

Associate Professor of Classics and Linguistics
CHARLES BARTON

Associate Professor of Spanish and Linguistics
JOHN D. GRAYSON

41.8.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3.

30 Minor in Greek
6 Class N-212\(^6\), N-214\(^6\)
24 Gr N-210\(^6\), N-241\(^6\), N-441\(^6\), N-442\(^6\)

30 Minor in German
12 Ger N-241\(^6\), N-311\(^6\)
18 Ger N-354\(^6\), N-451\(^6\), N-452\(^6\), N-453\(^6\), N-455\(^6\), N-456\(^6\), N-457\(^6\), N-458\(^6\), N-459\(^6\)

30 Minor in Russian
12 Russ N-241\(^6\), N-311\(^6\)
18 Russ N-351\(^6\), N-452\(^6\), N-453\(^6\), N-454\(^6\), N-455\(^6\)

NOTE: For majors and honours in Russian Studies refer to § 41.5.6 Interdisciplinary Studies.

51 BA Major in Indo-European Linguistics
36 Ling N-221\(^6\), N-421\(^6\), N-431\(^6\), N-441\(^6\), N-490\(^6\), N-491\(^6\)
3-6 Engl N-318\(^6\) or N-460\(^6\) or Span N-412\(^6\)
6 Gr N-241\(^6\) or Gr elect at '400' level
6 Lat N-249\(^6\) or N-341\(^6\) or Lat elect at '400' level

30 Minor in Italian
18 Ital N-221\(^6\), N-241\(^6\), N-441\(^6\)
12 '400' level credits from Loyola Faculty of Arts and Science

30 Minor in Latin
6 Class N-212\(^6\), N-214\(^6\)
24 Lat N-240\(^6\), N-341\(^6\), N-441\(^6\), N-442\(^6\)

30 Minor in Hebrew
24 Heb N-241\(^6\), N-441\(^6\), N-442\(^6\), N-451\(^6\)
6 Ling N-221\(^6\); Arabic N-411\(^6\)

30 Minor in Linguistics
24 Ling N-221\(^6\), N-421\(^6\), N-431\(^6\), N-441\(^6\), N-490\(^6\), N-491\(^6\)
6 Arabic N-411\(^6\); Ling N-490\(^6\), N-491\(^6\); Engl N-460\(^6\); Fr N-312\(^6\), N-313\(^6\), N-417\(^6\), N-418\(^6\); Span N-412\(^6\)
41.8.1 DEPARTMENT OF CLASSICS, MODERN LANGUAGES AND LINGUISTICS: PROGRAMMES

42 BA Major in German

30 Ger N-241, N-211, N-354, N-452, N-453
12 Ger N-451, N-455, N-456, N-457, N-458, N-459
6 Ling N-221, Phil N-211 or N-361, Rel N-443, Hist N-210, Pol Sc N-351, Gegg N-423, Lat N-210 or N-240

*Optional, but recommended

42 BA Major in Spanish

6 Span N-211, N-222
6 Span N-241
6 Ling N-221
24 Span N-311, N-412, N-451, N-452, N-453, N-454, N-455, N-456

41.8.2 COURSE DESCRIPTIONS

CLASSICS—HISTORY N-212 (212)
History of Greece and Rome
A political, cultural and social history of Greece and Rome from the Mycenaean Age to the death of the Emperor Nero (68 A.D.), with special emphasis on fifth century Athens and Rome of the Republic and Early Empire. No knowledge of Greek or Latin is required. (6 credits) NOTE A/See § 200.1
NOTE: Students who have taken 121 may not take this course for credits.

CLASSICS—HISTORY N-214 (214)
History of the Roman Empire
A political, cultural and social history of the Roman Empire from the death of the Emperor Nero to Justinian the Great. Attention will be paid to the rise of Christianity, and the continuity of Roman law and administration in both the eastern and western part of the Late Roman Empire. No knowledge of Greek or Latin is required. (6 credits).

CLASSICS N-241 (241)
Greek Literature in Translation
A survey of the major literary achievements of Ancient Greece. Special attention will be given to epic poetry, tragedy and comedy, as well as a variety of works in prose. The historical development of each of these genres will be discussed, along with a critical analysis of each author's contribution. No knowledge of Greek or Latin is required. (3 credits). NOTE A/See § 200.1

CLASSICS N-242 (242)
Latin Literature in Translation
A study through selected readings in translation of representatives of the major genres of Latin literature (epic, drama, satire, rhetoric, lyric poetry, philosophy) up to the second century A.D. No knowledge of Latin is required. (3 credits). NOTE A/See § 200.1

GREEK N-210 (211)
Introductory Course in Greek
The purpose of this course is to enable the student, in one year, to gain an adequate knowledge of Greek grammar and syntax and to read simple passages of Greek. (6 credits) NOTE A/See § 200.1

GREEK N-241 (212)
Greek Language and Literature
The purpose of this course is to complete the study of Greek grammar and syntax begun in Greek N-210, and to enable students to begin reading Ancient Greek authors. (6 credits) NOTE A/See § 200.1

GREEK N-441 (421)
Greek Literature
This is essentially a reading course involving the study of certain of the great works of Ancient Greek literature. It is assumed that students taking this course have an adequate knowledge of Greek and a fair vocabulary. (6 credits) NOTE A/See § 200.1

GREEK N-442 (422)
Greek Literature (Advanced)
A further study of Ancient Greek literature (to follow Greek N-441). (6 credits).

LATIN N-210 (201)
Beginner's Latin
This course is designed for students who have had no previous Latin and is particularly recommended for those students who wish to be prepared for Latin N-240. The course offers instruction in Latin grammar, translation and prose composition. (6 credits).
NOTE: Students who have received credits toward their admission for high-school Latin or have credits for Latin N-201 may not take this course for credits.

LATIN N-240 (211)
Latin Composition and Translation
This course consists of translation and literary interpretation of prescribed selections from the Latin classics in prose and poetry. In addition there is a review of Latin grammar and syntax and instruction in prose composition. (6 credits). NOTE A/See § 200.1

LATIN N-341 (421)
Latin Literature
Prerequisite: Latin N-240. This course continues the study of Latin literature begun in Latin N-240, concentrating on particular authors. Two authors will be read during the year, one of whom will normally be Virgil. (6 credits) NOTE A/See § 200.1

LATIN N-441 (422)
Latin Literature (Advanced)
Prerequisite: Latin N-241. A continuation of Latin N-241, concentrating on a particular period or the works of a particular author, e.g., Juvenal and Tacitus, or Lucretius. (6 credits).

LATIN N-442 (423)
Latin Literature (Advanced)
Prerequisite: Latin N-241. A parallel course to Latin N-441 covering different authors, e.g., Latin Comedy, Latin Elegists or Horace. As Latin N-441 and Latin N-442 will not usually be given in the same year, Latin N-442 may be taken before Latin N-441. (6 credits).
MODERN LANGUAGES

LITERATURE IN TRANSLATION N-350 (450)
A study of representative works of German or Russian literature. All reading and lectures will be in English. In any given year one only of these literatures will be offered. (6 credits) NOTE A, C/See § 200.1

LITERATURE IN TRANSLATION N-351 (451)
A student repeating Literature in Translation N-350 registers for credits under Literature in Translation N-351. (6 credits)

LITERATURE IN TRANSLATION N-352 (452)
A study of representative works of Hispanic (Peninsular and Spanish American) or Italian literature. All readings and lectures will be in English. In any given year only one of these literatures will be offered. (6 credits) NOTE A, C/See § 200.1

LITERATURE IN TRANSLATION N-353 (453)
A student repeating Literature in Translation N-352 registers for credits under Literature in Translation N-353. (6 credits)

GERMAN N-210 (211)
Introductory Course in German
A beginners' course in the German language which is designed, in one year, to make the student conversant with the grammar, pronunciation and ordinary vocabulary of the language. Emphasis is placed upon learning to speak the language, as well as to read and write it. Lectures and laboratory. (6 credits) NOTE A, B/See § 200.1

GERMAN N-215 (215)
German for Reading Knowledge
This course will give the student sufficient background in the structure of the language to be able to read German with reasonable competence. Practice material will be both technical and non-technical. No previous knowledge of the language is required. (6 credits) NOTE A, B/See § 200.1. This is a terminal course and may not be used as a prerequisite for advanced courses in German.

GERMAN N-241 (212)
German Language and Literature (Intermediate)
Prerequisite: German N-210 or equivalent. Advanced instruction in the language. Emphasis upon idiom and usage in conversation and composition. Representative readings from the works of German writers. (6 credits) NOTE A, B/See § 200.1

GERMAN N-311 (411)
Advanced German Language and Stylistics
Prerequisite: German N-241 or equivalent. This course is intended to give the student increased fluency and a firmer command of the language. The emphasis of the course is on stylistics and composition. The subject matter will be approached through a study of German civilization. (6 credits) NOTE A/See § 200.1

GERMAN N-354 (421)
A Study of the Deutsche Novelle
Prerequisite: German N-241 or equivalent. Advanced composition and oral work. A study of the Deutsche Novelle from Goethe to Kafka. This course is conducted in German. (6 credits) NOTE A/See § 200.1

GERMAN N-451 (424)
German Literature of the Sixteenth and Seventeenth Centuries
Prerequisite: German N-241. A detailed study of representative writers of this period, such as Luther, Brant, Hans Sachs, Stilesius, Grimmelshausen and others. Classes will be conducted in German. (6 credits)

GERMAN N-452 (422)
German Literature from 1750 to 1830
Prerequisite: German N-241 or equivalent. Study of the works of Lessing, Goethe, Schiller, Brentano and others. This course is conducted entirely in German. (6 credits)

GERMAN N-453 (423)
History of the German Drama
Prerequisite: German N-241 or equivalent. A study of German drama from its beginnings to modern times. Classes will be conducted in German. (6 credits)

GERMAN N-455 (451)
Reading Course in the Modern German Novel
Prerequisite: German N-354 or N-311. A study of the German novel since 1900. There will be no class periods, and students will work under the direct supervision of the instructor. Regular assignments will be given, and written and oral examinations will be given at the end of the course. (6 credits)

GERMAN N-456 (425)
The 'Hörspiel'
Prerequisites: German N-241 and N-311. A compactus of German poetry through the centuries. Outstanding examples of representative poets will be studied in detail. Classes will be conducted in German. (3 credits)

GERMAN N-457 (426)
German Poetry from the Middle Ages to Modern Times
Prerequisites: German N-241 and N-311. A study of one of the youngest art forms which was developed with the help of, and for a new medium, the radio. Literary and technical aspects as well as the most representative writers, i.e. Eich, Dürenmatt, Böll, Hildesheimer and others, will be discussed. Classes will be conducted in German. (3 credits)

GERMAN N-458 (427)
Study of an Individual German Author I
Prerequisites: German N-241 and N-311. This course will consist of the detailed study of a German author, e.g. Kafka, Rilke, Goethe. Classes will be conducted in German. (3 credits)

GERMAN N-459 (428)
Study of an Individual German Author II
Prerequisite: German N-241 and N-311. This course will consist of the detailed study of a German author, e.g. Brecht, Büchner, Lenz. Classes will be conducted in German. (3 credits)

HEBREW N-210 (211)
Introductory Course in Hebrew
A beginners' course in Hebrew, spoken and written, with reading of classical and modern texts. Lectures and laboratory. (6 credits) NOTE A, B/See § 200.1

HEBREW N-211 (212)
Intermediate Course in Hebrew
Prerequisite: Hebrew N-210, or two or three years of high-school Hebrew or equivalent. Readings in the Bible and an introduction to modern Hebrew literature. This course will also complete the study of Hebrew grammar and syntax begun in Hebrew N-210, with special emphasis on modern Hebrew usage. (6 credits) NOTE A, B/See § 200.1

HEBREW N-441 (422)
From the Talmudic Period to the Haskalah
Prerequisite: Hebrew N-241 or equivalent. Hebrew literature from Talmudic times to the Enlightenment. Classes will be conducted in Hebrew. (6 credits)
HEBREW N-442 (424)  
Medieval Literature (The Golden Age)  
Prerequisite: Hebrew N-441 or N-451 or equivalent. A study of the literature of the Hebrew Golden Age with emphasis on Maimonides, Judah Halevi, Ibn Ezra, Ibn Gabirol, Rashbi and Gersonides. Classes will be conducted in Hebrew. (6 credits)

HEBREW N-451 (423)  
Modern Literature  
Prerequisite: Hebrew N-241 or equivalent. A study of Hebrew literature of the 19th and 20th centuries. This course is conducted in Hebrew. (6 credits) NOTE A/See § 200.1

ITALIAN N-210 (211)  
Introductory Course in Italian  
A beginners' course in the Italian language which is designed, in one year, to acquaint the student with the main grammatical principles and basic vocabulary. Practice is given in reading, writing and conversation with particular emphasis on oral work. Lectures and laboratory. (6 credits) NOTE A, B/See § 200.1

ITALIAN N-221 (221)  
Italian Civilization  
Prerequisite: Italian N-241 or equivalent or permission of the Department. This course is designed to introduce the student to Italy's cultural, artistic and social institutions as reflected in her belle arts, literature and commercial history. Certain literary works will be analysed as a reflection of her people. Generally, the period to be covered will encompass that from Italy's earliest times until the present era. Although primarily concerned with ideas and institutions, attention will be given to regional customs and dialectology. This course will be conducted in Italian. (6 credits) NOTE, A/See § 200.1

ITALIAN N-241 (212)  
Intermediate Italian  
Prerequisite: Italian N-210 or two years of high school Italian or equivalent or permission of the instructor. The course consists of a complete review of Italian grammar and a study of some advanced usages of the language. Through the reading of short stories, poetry and novels, the student is given the opportunity to acquaint himself with Italian letters and civilization. (6 credits) NOTE A, B/See § 200.1

ITALIAN N-452 (422)  
Literature of the Twentieth Century  
Prerequisite: Italian N-241 or equivalent. A course in Italian literature of the twentieth century, from the turn of the century to the present. All genres will be considered. Classes will be conducted in Italian. (6 credits)

RUSSIAN N-210 (211)  
Introductory Course in Russian  
A beginners' course in the Russian language which is designed, in one year, to acquaint the student with pronunciation, the main grammatical aspects and a basic vocabulary. Emphasis is placed on speaking, reading and writing Russian. Lectures and laboratory. (6 credits) NOTE A, B/See § 200.1  
NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-215 (215)  
Reading Course in Russian  
This course will give the student sufficient grasp of the structure of the language and sufficient basic vocabulary to enable him to read Russian with the aid of a dictionary. Both technical and non-technical material will be used. (6 credits) NOTE B/See § 200.1  
NOTE: This is a terminal course and may not be used as a prerequisite for advanced courses in Russian.

RUSSIAN N-241 (212)  
Intermediate Russian  
Prerequisite: Russian N-210 or equivalent. This course consists of a complete review of Russian grammar, composition, reading and conversation. Through reading of short stories and additional material, the student is given the opportunity of acquainting himself with Russian culture and literature. (6 credits) NOTE A, B/See § 200.1  
NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-311 (411)  
Advanced Russian Language and Stylistics  
Prerequisite: Russian N-241 or permission of the instructor. This course is intended to give increased fluency and a firmer command of the language. The emphasis of the course is on stylistics and composition. Through additional reading and writing, the student is given the opportunity to acquaint themselves with the various aspects of Russian civilization. Selected texts will be discussed and analysed in Russian. (6 credits) NOTE A/See § 200.1  
NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-351 (421)  
Introduction to 19th Century Russian Literature through the Short Story  
Prerequisite: Russian N-241 or equivalent. The short story will be used both as a subject for literary study and as a reflection of the history and social preoccupations of the period. Opportunity will be provided for discussion and some attention will be paid to composition. This course is conducted in Russian. (6 credits) NOTE A/See § 200.1  
NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-452 (422)  
Soviet Literature  
Prerequisite: Russian N-241 or equivalent. A survey of Soviet literature, from 1917 to the present. The aim of the course is to familiarize the student not only with the literature itself, but also with its origins and development. Opportunity will be provided for discussions and some time will be devoted to advanced composition. This course is conducted in Russian. (6 credits) NOTE A/See § 200.1  
NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-453 (423)  
Russian Drama  
Prerequisite: Russian N-241 or permission of the instructor. The course traces the development of Russian drama from the end of the 18th century to the present day. The following will be discussed: D. Fonvisin, A. Gribojedov, A. Pushkin, M. Lermontov, N. Gogol, A. Ostrowski, A. Chekhov, A. Tolstoi, M. Gorki, A. Afimogov, L. Leonov. This course is conducted in Russian. (6 credits) NOTE A/See § 200.1  
NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-454 (454)  
Study of an Individual Russian Author I  
Prerequisite: Russian N-241 or equivalent. This course will consist of the detailed study of a Russian author, e.g. L.N. Tolstoy, F.M. Dostoevskii, N.V. Gogol. The chosen author will vary from time to time, in accordance with the interests of the students. (3 credits) NOTE: This course may be taken for credits in the Russian Studies Programme.

RUSSIAN N-455 (455)  
Study of an Individual Russian Author II  
Prerequisite: Russian N-241 or equivalent. This course will consist of the detailed study of a Russian author, e.g. A.S. Pushkin, M. Ju.
Translation

1. Development of the other Romance vernaculars, syntactic study through the centuries. Attention will be given to non-Latin contributions to the Spanish language, customs, and folklore. This course is conducted in Spanish. (6 credits)

SPANISH N-201 (201)
Introduction to Spanish I
(3 credits)

SPANISH N-202 (202)
Introduction to Spanish II
(3 credits)

These two courses constitute a beginners' course in the Spanish language which is designed to acquaint the student in one year with the main grammatical principles and basic vocabulary. Practice is given in reading, writing, and conversation, particular emphasis being placed on oral work. In the second term, classes are conducted as far as possible in Spanish. Lectures and laboratory or conference, (3 credits) NOTE A: See § 200.1

SPANISH N-201
The Middle Ages
Prerequisite: Spanish N-241 and any 6 credits at the '400' level in Spanish. A study of the literature of the Middle Ages. Ample practice is given in oral and written expression. Classes will be conducted in Spanish. (6 credits)

SPANISH N-451 (451)
The Middle Ages
Prerequisites: Spanish N-241 and any 6 credits at the '400' level in Spanish. A study of the literature of the Middle Ages. Ample practice is given in oral and written expression. Classes will be conducted in Spanish. (6 credits)

SPANISH N-452 (426, 427)
El Siglo de Oro
Prerequisites: Spanish N-241 and any 6 credits at the '400' level in Spanish. A study of the literature of Spain starting with the Generation of '98 and going up to the present day. Ample practice is given in oral expression and advanced composition. Classes will be conducted in Spanish. (6 credits)

SPANISH N-453 (453)
Twentieth-Century Spanish Literature
Prerequisite: Spanish N-241 or equivalent. A study of the school of modernism, a Spanish-American literary school that transformed Spanish letters from Colonial times to the present, as reflected in her writers. Ample practice is given in oral and written expression. Classes will be conducted in Spanish. (6 credits)

SPANISH N-454 (423)
The Literature of Spanish America
Prerequisite: Spanish N-241. A study of the literature of Spanish America as expressed through her literature. Ample practice is given in oral expression and advanced composition. Classes will be conducted in Spanish. (6 credits)

SPANISH N-455 (455)
Modernismo
Prerequisite: Spanish N-241. A detailed study of Modernismo, a Spanish-American literary school that transformed Spanish letters starting with the Generation of '98 and going up to the present day. Ample practice is given in oral expression and advanced composition. Classes will be conducted in Spanish. (6 credits)

PORTUGUESE N-441 (411)
Portuguese Language and Literature
Prerequisites: Spanish N-241 or equivalent and any 6 credits at the '400' level in Spanish. A course designed for advanced Spanish students. Readings in Portuguese begin as early as the second week of class. (6 credits)

ARABIC N-411 (411)
Literary Arabic
Prerequisite: Linguistics N-221 or permission of the instructor. This course is designed to give the student in one year a thorough understanding of modern literary Arabic through prepositions, nouns, and verbs of the infinitive. Practice will be given in oral and written expression. Classes will be conducted in Spanish. (6 credits)
LINGUISTICS

LINGUISTICS N-221 (211)
Introduction to Linguistics
Prerequisite: Formal study of a language other than the student's mother tongue. This course will enable the students to become familiar with the basic elements which underlie all languages and will acquaint them with a number of varied linguistic patterns with emphasis on the analysis of languages having structural features which differ widely from those ordinarily encountered. (6 credits) NOTE A/See § 200.1

LINGUISTICS N-421 (423)
Non-Indo-European Structures
Prerequisite: Linguistics N-221 or permission of the Department. This course is intended to acquaint the student in depth with the structures of several languages differing markedly in their nature from Indo-European. Possible areas of study might be Eskimo, Finnish, Japanese, Swahili, Turkish, some Amerindian or Malayo-Polynesian language, etc. As a general rule, only four languages are investigated in a particular year. (6 credits)

LINGUISTICS N-431 (421)
Comparative Indo-European Linguistics
Prerequisite: Linguistics N-221 or permission of the Department. Through a comparative study of the phonology and morphology of the various branches of the Indo-European language family (Indo-Iranian, Hellenic, Italic, Germanic, Slavic, Baltic, etc.) this course will familiarize the student with the techniques used in linguistic reconstruction. Emphasis will be given to the development and differentiation of languages through time. (6 credits)

LINGUISTICS N-441 (422)
Advanced Linguistic Theory
Prerequisite: Linguistics N-221. A study of current trends in linguistic theory with particular emphasis on transformational-generative and stratificational theory. The influence of de Saussure on present-day theoretical developments will be considered as well as that of the American structuralists. Tagmemic theory and case grammar will also be discussed. (6 credits)

LINGUISTICS N-490 (490)
Special Topics in Linguistics
Prerequisite: Linguistics N-221 or equivalent. This course offers an opportunity for detailed examination of a particular area of Linguistics. (6 credits) NOTE A, C/See § 200.1

LINGUISTICS N-491 (491)
Special Topics in Linguistics
Prerequisite: Permission of the Department. A student repeating Linguistics N-490 registers for credits under Linguistics N-491. (6 credits)

41.9.2 COURSE DESCRIPTIONS

ENGLISH N-209
Elements of Written English
Prerequisite: Permission of the Department.
This course will deal with problems in written English which students encounter when writing university assignments. The course will begin a few weeks after the commencement of term. This will give students an opportunity to register for it after they have discovered deficiencies in their written English which hinder their academic progress. (3 credits)

ENGLISH N-211 (211)
English Composition
This course is designed to help the students to develop skills in writing, research, and documentation, so that they may be able to prepare written accounts of their work clearly, concisely, and in a logically organized way. (6 credits)

ENGLISH N-225 (225)
Creative Writing: Poetry
A seminar in the writing and criticism of poetry, including detailed discussion and written criticism of the students' work, and, at the discretion of the instructor, the study of selected poems. Students taking English N-225 are urged to take English N-221 as well. (6 credits)

ENGLISH N-226 (219)
Creative Writing: Prose
A seminar in the techniques of short fiction, including investigations of and exercises in a variety of creative and technical problems, as well as analysis and criticism of the students' own work. Students may be required to read selected works of short fiction. (6 credits) NOTE A/See § 200.1

ENGLISH N-227 (227)
Creative Writing: Drama
A seminar in the writing of plays, including an exploration of dramatic forms and techniques. The students are expected to submit work of their own for discussion and analysis. (6 credits)

ENGLISH N-231 (261)
Introduction to Poetry
A study of poetry and its forms with emphasis upon the art of close reading. (3 credits) NOTE A/See § 200.1

ENGLISH N-232 (266)
Short Fiction
A study of forms and techniques of the short story, the Novella, and what have come to be called in contemporary literature “fictions”. (3 credits) NOTE A/See § 200.1

ENGLISH N-237 (237)
Children's Literature
A survey and analysis of literature for children, undertaken with the aim of developing a critical vocabulary and of arriving at workable standards of assessment. The kinds of literature discussed will include works written for adults but traditionally read by children as well, works specifically written or adapted for children, fairy tales and other children's versions of folklore and myth, nursery rhymes and other children's verse. The course will be of general interest to students of literature, and should prove especially helpful to those who teach children in the schools. (6 credits)

ENGLISH N-238
Canadian Children's Literature
This course examines the ways in which elements of the Canadian experience such as language, setting, folklore and history have contributed to the content and tradition of children's literature in Canada. (3 credits)

ENGLISH N-239
Topics in Children's Literature
This course deals with specific topics such as the works of an author or group of authors, or a particular theme, or development of a genre. The topics to be studied may vary from year to year. (3 credits)

ENGLISH N-241 (221)
Major Writers in English
An introduction to major periods of English literature through the study of such representative authors as Chaucer, Shakespeare, Marlowe, Jonson, Donne, Milton, Swift, Pope, Blake, Coleridge, Wordsworth, Keats, Shelley, Dickens, Hardy, Browning, Tennyson, Conrad, Lawrence, Yeats, Eliot, Woolf, Joyce. (6 credits) NOTE A/See § 200.1

ENGLISH N-244 (244)
Canadian Literature
An introductory survey of Canadian prose and poetry, written in or translated into English, from their origins to the present. (6 credits) NOTE: This course may be taken for credit in the Canadian Studies Programme.

ENGLISH N-251
Selected Topics in Literature
Written by Women
This course explores the ways in which women have employed conventions of such literary genres as poetry, the novel, and the drama to define their own lives and those of their contemporaries. The emphasis will be on literary analysis of the works; the course will also deal with the social and historical circumstances.
which are relevant to the works in question. The texts studied, the themes and concepts pursued will vary from year to year. (3 credits)

NOTE: This course may be taken for credits in the Women's Studies Programme.

ENGLISH N-252
Selected Topics in Literature
Written by Women
A student repeating English N-251 for credits will register under English N-252. (3 credits)

NOTE: This course may be taken for credits in the Women's Studies Programme.

ENGLISH N-260 (217)
Myth and Literature
The sources, development, and continuing function of some central Mediterranean myths. The course defines the nature and functions of myth, traces the most influential myths from their first appearance in literature to their transformation in the Christian art of Europe, and goes on briefly to examine their use by contemporary writers. The primary texts include the Bible in the King James version, and such works as the Apocrypha, the Odyssey, selected Greek tragedies, and Ovid's Metamorphoses. (6 credits) NOTE A/See § 200.1

ENGLISH N-262 (262)
Medieval Literature in Translation
An introductory study of some major works in England and Europe between 400 and 1400, beginning with St. Augustine, and including examples of epic, Grail literature and courtly romance, such as Beowulf, The Song of Roland, The Cid, Chretien de Troyes' Parzifal, Tristan and Isolde, The Romance of the Rose, and parts of Dante's Divine Comedy. (6 credits) NOTE A/See § 200.1

ENGLISH N-263 (240)
European Literature from the End of the Middle Ages to the Onset of Modernism
A study of some of the classical works of European literature from Dante to Dostoevsky, including such writers as Boccaccio, Rabelais, Cervantes, Rousseau and Goethe, with emphasis on evolving cultural patterns leading from Faith to Reason and beyond. (6 credits) NOTE A/See § 200.1

ENGLISH N-267 (267)
The Origins of Drama
An introductory study of Greek and Roman dramatics, and the medieval drama, both English and continental. The course will be concerned with dramatic types, theory and form, and with the significance of this drama to the later English stage. (6 credits)

ENGLISH N-281 (281)
Tragedy: A Literary Mode
A study of the varieties of tragic form and sensibility in Western literature. The course includes writers chosen from antiquity to the present, both within and outside the English tradition, such as Shakespeare, Euripides, Hardy, Tolstoy, Webster, Racine, Faulkner, Buchner, Rilke and Chekhov. (6 credits)

ENGLISH N-282 (282)
Comedy: A Literary Mode
A study of the varieties of comic form and sensibility in Western literature. The course includes writers chosen from antiquity to the present, both within and outside the English tradition, such as Jonson, Aristophanes, Sterne, Cervantes, Meredith, Balzac, Gogol, Mollière, Holberg, Leacock, Morgenstern and Amis. (6 credits)

ENGLISH N-283 (283)
Satire: A Literary Mode
Its vision and its form, traditional and contemporary. The course includes writers chosen from antiquity to the present, both within and outside the English tradition, such as Chaucer, Juvenal, Lucian, Swift, Erasmus, Voltaire, Thackeray, Grass, Roth, Beckett, Waugh, Richter and Orwell. (6 credits)

ENGLISH N-287 (287)
Critical Approaches to Literature
A study of the variety of major theories and their practical application to works of literature, with special emphasis on 20th century criticism. (6 credits)

ENGLISH N-311 (411)
Non-Fiction Writing
Prerequisite: English N-211 or permission of the Department. This course is designed for students already in control of the basic techniques of composition who wish to further develop their ability in writing in a variety of genres, including feature articles, news stories, biographies, reports and reviews. The students' work is given analysis and evaluation by the instructor and by fellow classmaties in a workshop setting. (6 credits) NOTE A/See § 200.1

ENGLISH N-318 (280)
History and Structure of the English Language
The course deals with the linguistic and historic development of the English language. The influence of language changes upon the literature will also be considered. (3 credits) NOTE A/See § 200.1

ENGLISH N-333 (431)
English Renaissance Literature
A study of poetry and prose in England from More to Milton, including such writers as Erasmus, Wyatt, Surrey, Sidney, Spenser, Bacon, Donne, the Metaphysical poets, Jonson, the Caroline lyricists, Browne. (6 credits) NOTE A/See § 200.1

ENGLISH N-334 (434)
English Literature of the Restoration and 18th Century
A study of poetry and prose from the 1660's to the 1780's, including such major writers as Dryden, Swift, Pope and Johnson. (6 credits) NOTE A/See § 200.1

ENGLISH N-335 (435)
English Literature of the Romantic Period
A study of poetry and prose, chiefly that of Blake, Wordsworth, Coleridge, Byron, Shelley and Keats. (6 credits) NOTE A/See § 200.1

ENGLISH N-336 (436)
Victorian Literature
A study of English poetry and prose from the 1830's to the end of the nineteenth century, including such major writers as Tennyson, Browning, Hopkins, Carlyle, Newman, Ruskin, Dickens, Thackeray and Eliot. (6 credits) NOTE A/See § 200.1

ENGLISH N-337 (437)
Modern British and American Literature
A study of works in English from what has now emerged as the "Modern" period, extending from the turn of the century to World War II, and including such writers as Conrad, Joyce, Lawrence, Eliot, Yeats, Dylan Thomas, Stevens, Hemingway, Faulkner, Frost and Synge. (6 credits) NOTE A/See § 200.1

ENGLISH N-343 (246)
Canadian Literature from the 1820's to the 1930's
Prerequisite: Second year standing. A study of prose, poetry and drama, principally written in English, including such writers as McCulloch, Haliburton, Moodie, DeMille, Kirby, Lampman, Roberts, Pratt, nive and Stead. (6 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Canadian Studies Programme.
ENGLISH N-344 (444)  
Modern Canadian Literature  
Prerequisite: English N-244. A study of prose, poetry and drama, principally written in English, from the 1930's to the present, including such writers as Laurence, MacLennan, Richler, Lowry, Klein, Callaghan, Layton, Livesay, Birney, Avison, Reaney, Nowlan and Ryga. (6 credits) NOTE A/See § 200.1.  
NOTE: This course may be taken for credits in the Canadian Studies Programme.

ENGLISH N-348 (445)  
American Literature  
A survey of the literature of the United States beginning with the early writers and their optimistic vision of a new society, and studying such problems as the transformation and inversions of the "American Dream" in such writers as Poe, Hawthorne, Melville, Twain, Whitman and Fitzgerald. (6 credits) NOTE A/See § 200.1.

ENGLISH N-351 (461)  
Modern Poetry  
An examination of the characteristic elements of twentieth-century poetry, in the context of a study of such major poets as Yeats, Eliot, Pound, Stevens and Auden. (6 credits) NOTE A/See § 200.1.

ENGLISH N-353 (462)  
Modern Drama  
A study of the main currents in Western drama since Ibsen. This course will include such representative playwrights as Chekhov, Lorca, Strindberg, Pirandello, O'Neill, Brecht, Pinter, Beckett and Weiss. (6 credits) NOTE A/See § 200.1.

ENGLISH N-356 (446)  
Modern European Literature  
A survey of some of the major European writers (in translation) of the last hundred years, including such writers as Dostoevsky, Kafka, Mann, Strindberg, Valéry, Pirandello and Sartre. (6 credits) NOTE A/See § 200.1.

ENGLISH N-363 (468)  
English Renaissance Drama  
A study of English drama from the Tudor interlude to the closing of the theatres in 1642, including such dramatists as Kyd, Marlowe, Dekker, Jonson, Beaumont and Fletcher, Webster, Middleton and Ford. Some consideration will also be given to Shakespeare. (6 credits) NOTE A/See § 200.1.

ENGLISH N-364 (264)  
Restoration and Eighteenth-Century Drama  
A study of the English stage from Dryden to Sheridan, including such dramatists as Etherege, Otway, Wycherley, Vanbrugh, Congreve, Gay, Lillo and Goldsmith. (3 credits) NOTE A/See § 200.1.

ENGLISH N-365 (268)  
The English Theatre in the Nineteenth Century  
A study of drama and dramatic modes from Shelley to Shaw, including forms such as the melodrama, the Gothic thriller, Romantic verse drama, comedy, farce, burletta, operetta, and the "new drama" of the 1890's. Among features that may be considered are innovations such as limelight and the act curtain, the emphasis on spectacle, and the phenomena of the star system and the actor-manager. (3 credits) NOTE A/See § 200.1.

ENGLISH N-367 (463)  
The English Novel from Defoe to Dickens  
A study of the origins and early development of the English novel, including such forms as the epistolary, the picaresque, the Gothic and historical novel, and such major writers as Fielding, Richardson, Sterne, Austen, Scott, the Brontes, George Eliot and Thackeray. (6 credits) NOTE A/See § 200.1.

ENGLISH N-368 (466)  
The English Novel from Dickens to Conrad  
A study of the later Victorian and Edwardian novel, including such writers as Trollope, Meredith, Butler, Hardy, James, Wells, Galsworthy, Bennett and Forster. (6 credits) NOTE A/See § 200.1.

ENGLISH N-374 (454)  
Chaucer  
A study of the major poetry of Chaucer, emphasizing The Canterbury Tales and Troilus and Criseyde. (6 credits) NOTE A/See § 200.1.

ENGLISH N-375 (253)  
Shakespeare  
An examination of Shakespeare's artistic achievement in some of the major plays. (6 credits) NOTE A/See § 200.1.

ENGLISH N-376 (455)  
Milton: The Parian as Poet  
A study of Milton's poetry, informed by the aesthetic principles articulated in his prose and guided by his acknowledged admiration for Spenser. (6 credits) NOTE A/See § 200.1.

ENGLISH N-386 (486)  
Literature, Ideology and Society  
Prerequisite: Second year standing. Studies in the relations between literature and its social, cultural and political environment. The content of this course may vary from year to year and may include such topics as the relations between modern Anglo-Irish literature and the Irish nationalist movement; social change and the evolution of forms of characterization in fiction; and the theory and practice of the avant-garde; or confessional modes in literature in relation to social and political messianism. (6 credits) NOTE A/See § 200.1.

ENGLISH N-425 (418)  
Advanced Creative Writing: Poetry  
Prerequisite: English N-225 or approved work. A workshop in the writing of poetry. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft. (6 credits) NOTE A/See § 200.1.

ENGLISH N-426 (419)  
Advanced Creative Writing: Prose  
Prerequisite: English N-226 or approved work. A workshop in the writing of fiction. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft. (6 credits) NOTE A/See § 200.1.

ENGLISH N-427 (427)  
Advanced Creative Writing: Drama  
Prerequisite: English N-227 or approved work. A workshop in the writing of plays. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft. (6 credits) NOTE A/See § 200.1.

ENGLISH N-430 (475)  
The Aesthetic and Religious Experience in Literature  
Prerequisite: Second year standing. An interdisciplinary course which explores the relationships between literature and religion through practical criticism, literary theory, aesthetics and theology. (6 credits) NOTE A/See § 200.1.

ENGLISH N-440 (440)  
The Literature of Canada and the United States  
Prerequisite: One of English N-244, N-348.
in depth of individual plays and poems by Shakespeare, as well as particular problems presented by them. The one year might be "The Romance Plays", "The Romances", "Mask and Disguise", or "The Shakespeare play as Satire". (3 credits) NOTE A/See § 200.1

**ENGLISH N-478 (478)** Special Studies in Renaissance Literature  
Prerequisite: One of English N-333, N-363. This course is designed for an intensive study of a limited aspect of the poetry, prose or drama of the period, and may deal, from year to year, with such topics as "the Sonnet Sequences", "The Metaphysical Poets", "Rhetoric, Poetics and Critical Theory" and "Renaissance Fiction". (3 credits) NOTE C/See § 200.1

**ENGLISH N-479 (479)** Special Studies in Renaissance Literature  
A student repeating English N-478 for credits registers under English N-479, (3 credits)

**ENGLISH N-487 (467)** Theories and Criticism of Literature  
Prerequisite: English N-287. This course explores problems in criticism and theoretical approaches to literary art and experience from antiquity to the present, including such problems as symbol and metaphor, instruction and delight, mimesis and catharsis, form and inspiration, audience and social value, convention and genius. (6 credits) NOTE A/See § 200.1

**ENGLISH N-492 (492)** Seminar in a Special Subject  
Prerequisite: Second year standing. This course is designed to provide an opportunity for study and discussion of literature at a relatively advanced level. It is taught, from year to year, by different members of the English Department, and the subject changes to accord with the special interests of each instructor. (6 credits) NOTE C/See § 200.1

**ENGLISH N-493 (493)** Seminar in a Special Subject  
A student repeating English N-492 for credits registers under English N-493, (6 credits)

**ENGLISH N-496 (496)** Seminar in a Special Subject  
Prerequisite: Second year standing. This course is designed to provide an opportunity for study and discussion of literature at a relatively advanced level. It is taught, from year to year, by different members of the English Department, and the subject changes to accord with the special interests of each instructor. (6 credits) NOTE C/See § 200.1

**ENGLISH N-497 (497)** Seminar in a Special Subject  
A student repeating English N-496 for credits registers under English N-497, (3 credits)

These courses were given in the summer of 1975.

**ENGLISH N-233/1 (233)** Major Themes and Approaches of Children's Literature (6 credits)

**ENGLISH N-345/1**  
Canadian Literature 1920-1950 (6 credits)

**ENGLISH N-458/1**  
The American Jewish Writer (6 credits)

**ENGLISH N-477/1 651/1**  
Shakespearian Comedy (6 credits)

**ENGLISH N-452/1 631/1**  
Dramatic Identities (6 credits)
41.10 Department of French

Professor and Chairman of the Department
GILBERT TAGGART

Professor in the Conservatory of Cinematographic Art
SERGE LOSIQUE

Associate Professors
PAUL D’HOLLANDER
MICHEL EUVRARD
ALBERT JORDAN
CLAUDE LEVY
PIERRE PARC
MAIR VERTHUY

Assistant Professors
AGATHE MARTIN
JEAN SCHNEIDER

41.10.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3.

60 BA Honours in French

Pattern A (Literature emphasis)
36 Fr N-214, N-241, N-310, N-321, N-331, N-491
24 Fr Lit Elec

48 BA Major in French

6 Fr N-214, N-310
18 Fr N-241, N-321, N-331
24 Fr Elec at ‘300’ or ‘400’ level (in consultation with Department)

60 BA Honours in French

Pattern B (Linguistics emphasis)
24 Fr N-241, N-310, N-321, N-331
24 Fr N-312, N-314, N-410, N-417
12 Fr Elec at ‘300’ or ‘400’ level

30 Minor in French

6 Fr N-214, N-310
12 Fr N-241, N-321, N-331
12 Fr Elec at ‘300’ or ‘400’ level

72 BA Major in French/English Translation

12 Fr N-214, N-310, N-410
6 Fr N-429
18 Engl N-211, N-311, N-337
6 Fr N-222, N-241, N-321, N-331
6 Engl N-241, N-244, N-356
24 Fr N-314, N-415, N-440, N-441, N-442, N-443

41.10.2 DEPARTMENT OF FRENCH

Where to start studies in French at the university level:

French N-214 is intended for students who have taken one or more courses beyond High School containing a substantial amount of written French.

French N-211 is intended for students whose schooling at the high-school level has been conducted in French.

Students who do not fall into one of these categories are asked to consult the Department of French.

French N-214 is intended for students who have taken one or more courses beyond High School containing a substantial amount of written French.

French N-310 is intended for students whose schooling at the high-school level has been conducted in French.

Students who do not fall into one of these categories are asked to consult the Department of French.
Since university-level credits cannot be given for French conversation only, all language courses contain a varying quantity of written work, grammatical study and civilization material, as well as oral work.

**41.10.3 COURSE DESCRIPTIONS**

**FRENCH N-201 (201)**

Beginners French (Language I)

This course is designed for students who lack previous training in French or who otherwise fail to meet the requirements for admission to French N-211. Intensive class instruction and laboratory drills should permit the student to master the basic structures of French in both written and oral aspects. Satisfactory performance in this course will admit students to French N-211. Lectures and laboratory. (6 credits) NOTE A. B/See § 200.1

Students who have received credits toward their admission for high-school French may not take this course for credits. Any student who is not sure whether this course must be taken should consult the chairman of the Department prior to registration.

**FRANÇAIS N-202 (202)**

Français élémentaire II

Préalable: Français N-201 ou équivalent ou deux ans de cours de français à l'école secondaire. Révision des structures de base du français élémentaire, élargissement du vocabulaire, pratique de la conversation, phonétique corrigée. Le professeur cherchera à amener l'élève à une meilleure compréhension du français oral et à une plus grande aisance d'expression par des conversations dirigées et l'emploi d'enregistrements dans la salle de classe. Les connaissances de l'élève en français écrit seront maintenues et amplifiées par un emploi judicieux d'exercices écrits. (semi-cours sans crédit)

**FRANÇAIS N-203 (203)**

Français élémentaire III

Préalable: Français N-202 ou équivalent ou trois ans de cours de français à l'école secondaire. Approfondissement des connaissances orales et écrites du français élémentaire. (semi-cours sans crédit)

**FRANÇAIS N-211 (211)**

Langue II et composition élémentaire

Préalable: Français N-201 ou quatre ans de cours de français à l'école secondaire ou équivalent ou l'autorisation du département. Ce cours, destiné aux étudiants ayant déjà une certaine préparation en français oral et écrit qui désirent parfaire leurs connaissances pratiques de la langue, comporte une étude intensive des structures de la mémoire, de nombreux devoirs écrites et l'analyse de certains textes français et québécois. La structure et le contenu du cours sont eux-mêmes pour toutes les sections, mais le choix des romans étudiés dépend de chaque professeur. (6 credits) NOTE A. B/See § 200.1

NOTE: Les étudiants inscrits au programme d'études canadiennes peuvent suivre ce cours avec crédit.

**FRANÇAIS N-214 (214)**

Langue III et composition

Préalable: Français N-211. Ce cours permet d'acquérir plus d'aisance et de correction dans l'expression orale et écrite en français. Il convient particulièrement aux étudiants qui ont l'intention d'enseigner le français ou de se spécialiser dans cette branche du commerce. Au niveau de la structure, français comprend la réduction de compositions sur des sujets variés, des exposés oraux suivi de débats, l'étude de textes et de romans choisis par le professeur de chaque section, des exercices écrits menant à une meilleure connaissance de la grammaire et de la syntaxe. (6 credits) NOTE A. B/See § 200.1

Les étudiants qui ont fait leurs études en français ne seront pas admis dans ce cours.

**FRANÇAIS N-222 (222)**

La littérature française moderne

Préalable: Français N-211. Aucun préalable n'est exigé pour les étudiants dont la première langue est le français. Ce cours est surtout destiné aux étudiants qui n'ont pas l'intention de se spécialiser en français et en particulier à ceux qui choisiraient le cours obligatoire de littérature en littérature française. Le but du cours est d'encourager l'apprentissage du roman comme œuvre littéraire et comme expression significative de l'expérience occidentale des dernières années. (6 credits) NOTE A/See § 200.1

**FRANÇAIS N-241 (241)**

Introduction à l'histoire de la culture et de la civilisation françaises

Préalable: Français N-211. Abondamment illustré de projections, ce cours a pour but essentiel d'amener les étudiants à replacer la littérature dans son contexte historique, social, politique et artistique. (6 credits)

**FRANÇAIS N-310 (411)**

Composition avancée I

Préalable: Français N-214. Ce cours traite des différentes méthodes de la composition française: description, narration et dissertation: un intérêt participe est cependant accordé à cette dernière ainsi qu'à l'analyse de textes vu leur importance pour les étudiants qui songent à préparer mémoires et thèses. (6 credits)

**FRANÇAIS N-312 (412)**

Histoire de la langue française

Préalable: Français N-214. Ce cours retrace l'évolution de la langue du latin vulgaire au français contemporain. Les étapes successives de cette évolution sont illustrées par l'étude de textes appropriés. Le cours est donné en français. (6 credits)

**FRANÇAIS N-313 (413)**

La phonétique française

**FRANÇAIS N-314 (414)**

Stylistique comparée et traduction

Préalable: Français N-214 ou, pour les étudiants dont la langue maternelle est le français, 6 crédits en langue ou en littérature française. Étude des ressources stylistiques du français par rapport à celles de l'anglais. Le passage entre les deux langues est étudié en fonction des tendances fondamentales de chaque langue, tant du point de vue grammatical et lexical que du point de vue du contexte culturel. Au cours de l'année, les étudiants doivent faire des exercices de stylistique comparée, des traductions de textes, soit vers le français, soit vers l'anglais et des analyses de traductions littéraires. (6 crédits)
FRANÇAIS N-321 (221)  
Panorama de la littérature française  
Préalable: Français N-214. Aucun préalable n'est exigé pour les étudiants qui ont fait leurs études en français. Ce cours s'adresse aux étudiants qui ont choisi la littérature française comme domaine de spécialisation principale ou secondaire. A côté d'un aperçu général de l'évolution de la littérature française des origines à nos jours, ce cours comprend une initiation aux techniques des études littéraires: principes de la versification, dissertation, explication de texte, etc. . . Les travaux doivent être rédigés en français. (6 crédits) NOTE: A/See § 200.1  
Nous recommandons aux étudiants de suivre ce cours en même temps que le français N-214.

FRANÇAIS N-331 (231)  
Littérature et culture québécoises  
Préalable: Français N-211 ou 211. Ce cours offre un aperçu général de l'histoire—politique, économique, sociale et culturelle—du Québec, toile de fond de la production littéraire; il analyse les courants nouveaux nés du processus de développement et reflétés dans l'expression littéraire. (6 crédits) NOTE A/See § 200.1  
NOTE: Les étudiants inscrits au programme d'études canadiennes peuvent suivre ce cours avec crédits.

FRANÇAIS N-381 (481)  
Méthodologie de l'enseignement du français  
Préalable: Français N-214 ou équivalent, et une certaine expérience de l'enseignement du français, ou l'autorisation du département. Le premier semestre est consacré à l'analyse des problèmes théoriques de l'enseignement du français, langue seconde. Le mécanisme de l'interférence dans les domaines de la phonétique, de la morphology et de la syntaxe est étudié ainsi que les questions d'ordre psychologique telles que la motivation et les "lois" de l'apprentissage. Le deuxième semestre est réservé à l'examen de diverses méthodes avec démonstration, classes modèles, etc. (6 crédits)

FRANÇAIS N-410 (410)  
Composition avancée (II) et stylistique  
Préalable: Français N-310. Le cours se divise en trois parties: l'analyse stylistique proprement dite (définitions et procédés du style); une étude des grands genres littéraires et de leur évolution; des exercices commentés et critiques de "creative writing". Selon leurs rapports, ces trois aspects du cours seront examinés parallèlement. (6 crédits)

FRANÇAIS N-415 (415)  
Traduction avancée  

FRANÇAIS N-417 (417)  
Linguistique structurale du français contemporain  
Préalable: Français N-310 ou l'autorisation du département. Analyse descriptive de la structure linguistique du français contemporain. Étude des aspects phonétiques, morphosyntaxiques et lexicaux de la langue considérés comme un système. Applications théoriques et pratiques. (6 crédits)

FRANÇAIS N-418 (418)  
Phonétique expérimentale  
Préalable: Français N-313, Séminaire de recherche expérimentale. Initiation à l'utilisation des instruments de recherche. Etude détaillée de segments linguistiques du point de vue du timbre des voyelles, de l'articulation des consonnes et des sons prosodiques (accent, rythme, intonation. Etude expérimentale de problèmes relevant de la comparaison des systèmes phonétiques du français et de l'anglais. (3 crédits)

FRANÇAIS N-419 (419)  
La langue française au Québec: son histoire et son état actuel  
Préalable: Français N-311; cours à suivre préalablement ou concurremment: Français N-417, Aperçus de l'évolution du français sur le territoire québécois. Influences internes et externes. Étude des rapports entre l'évolution politique et économique du Québec et celle de la langue. (6 crédits)

FRANÇAIS N-420 (420)  
Littérature française du Moyen Âge  
Préalable: Deux cours parmi les suivants: Français N-214, N-241, N-310, N-314, N-321. Ce cours se propose de présenter à l'étudiant et lui faire apprécier les richesses littéraires du Moyen Âge français, du Serment de Strasbourg aux poèmes de François Villon. (6 crédits)

FRANÇAIS N-421 (421)  
Littérature française de la Renaissance  
Préalable: Deux cours parmi les suivants: Français N-214, N-310, N-314, N-321. Étude des conditions de la Renaissance française et l'analyse des idées héritées des siècles précédents et de celles qui apparaissent et se développent au cours du XVIe siècle. Les différents types littéraires sont ensuite envisagés successivement: le théâtre, le roman, la poésie lyrique, les essais. (6 crédits)

FRANÇAIS N-422 (422)  
Le XVIIe siècle  
Préalable: Deux cours parmi les suivants: Français N-214, N-241, N-310, N-314, N-321. Cette étude du XVIIe siècle comporte une introduction historique et l'analyse des idées héritées des siècles précédents et de celles qui apparaissent et se développent au cours du XVIIe siècle. Les différents types littéraires sont ensuite envisagés successivement: le théâtre, le roman, la poésie lyrique, les essais. (6 crédits)

FRANÇAIS N-423 (423)  
Littérature française du XVIIIe siècle  
Préalable: Deux cours parmi les suivants: Français N-214, N-241, N-310, N-314, N-321. Après une introduction détaillée sur les modifications qui subit la vie littéraire après le "Siècle des Lumières" on se propose de préciser les concepts-clés du XVIIIe siècle pour établir les supports historiques et philosophiques de la période. Les écrivains importants, de Rabelais à Rousseau, sont ensuite étudiés dans l'ordre chronologique. (6 crédits)

FRANÇAIS N-424 (424)  
La littérature du XXe siècle  
Préalable: Deux cours parmi les suivants: Français N-214, N-241, N-310, N-314, N-321. Ce cours débute par une analyse sommaire des facteurs historiques, économiques, sociaux et artistiques qui ont caractérisé la "Belle Époque", en particulier l'oeuvre de Péguy, Claudel, Proust, Girardin et Apollinaire. Après un aperçu sur la guerre de 1914-1918 et ses conséquences, il se...
FRANÇAIS N-426 (426)
La littérature du XIXème siècle II
Préalables: Deux cours parmi les suivants:
Après une brève analyse des conséquences de la première guerre mondiale sur le plan social, politique et artistique, sont étudiées par genre (roman et théâtre) les œuvres des principaux écrivains français, de 1920 à nos jours. Sont particulièrement étudiés Bernanos, Malraux, St-Exupéry, Camus, Anouilh, Montbertrand, Sartre, Giraudoux, Ionesco et Robbe-Grillet. (6 crédits)

FRANÇAIS N-427 (427)
The Romantisme
Préalables: Deux cours parmi les suivants:

FRANÇAIS N-428 (428)
Le roman à l’époque romantique
Préalables: Deux cours parmi les suivants:
Français N-214, N-241, N-310, N-314, N-321. On étudiera dans trois romans écrits autour de 1830 l’invention et le développement des techniques réalistes propres à exposer les problèmes éthiques, politiques et sociaux d’une société en train de devenir la société industrielle contemporaine. (3 crédits)

FRANÇAIS N-429 (429)
La littérature française de 1857 à 1914
Préalables: Deux cours parmi les suivants:
Français N-214, N-241, N-310, N-314, N-321, ou inscription au majeur en traduction. L’éclatement du romantisme; le triomphe de la philosophie positive; le Réalisme; la revanche de l’esthétisme, de l’irrationnel; l’art pour l’art, le Symbolisme. La poésie: Baudelaire, le Symbolisme. Le roman: Flaubert, Zola. (3 crédits)

FRANÇAIS N-431 (431)
Le roman québécois contemporain
Préalable: Français N-331. Etude des romanciers les plus importants du Québec: Aquin, Bessette, Blais, Ducharme, Hébert, Langevin, Roy; leur vision du monde; leur manière de se rattacher aux courants littéraires de notre époque; leurs conceptions littéraires. (6 crédits)

FRANÇAIS N-432 (432)
La poésie québécoise contemporaine
Préalable: Français N-331. Etude des poètes les plus importants du Québec: Chamberland, Duguay, Hébert, Giguère, Godin, Grandbois, Lasnier, Miron, Nelligan, Saint-Denys-Garneau; leurs thèmes; leur vision du monde. (6 crédits)

FRANÇAIS N-440 (440)
Terminologie
Préalable: Français N-214. Introduction aux problèmes lexicographiques. Le cours identifie les problèmes rencontrés dans la traduction et comprend des travaux pratiques, tels que l’analyse lexicographique d’articles de journaux ou de revues, et la préparation de dictionnaires sur fiches. (3 crédits)

FRANÇAIS N-441 (441)
Méthodologie
Préalable: Français N-214. Le cours porte sur le problèmes de traduction relevant des niveaux de langue. Des conférences initient les étudiants aux problèmes des stylistiques anglaise et française posés par la rédaction de textes particuliers: procès-verbaux, rapports administratifs. (3 crédits)

FRANÇAIS N-442 (442)
Adaptation publicitaire et traduction commerciale
Préalable: Français N-214. Le cours initie les étudiants aux problèmes d’adaptation de textes publicitaires à une langue à l’autre. A partir d’exemples empruntés à la publicité écrite, radiophonique ou télévisée, les étudiants seront amenés à se familiariser avec les modifications linguistiques, affectives et sociales inhérentes au travail d’adaptation. (3 crédits)

FRANÇAIS N-443 (443)
Histoire de la traduction

FRANÇAIS N-461 (461)
Le cinéma français
Préalable: Français N-211 ou l’autorisation du département. Aucun préalable n’est exigé des étudiants qui ont fait leurs études secondaires en français. Ce cours, abondamment illustré de films ou d’extraits de films, retrace en tout ou en partie, l’histoire du septième art dans ses manifestations les plus originales et les plus caractéristiques. (6 crédits) NOTE C/See § 200.1

FRANÇAIS N-462 (462)
Le théâtre français

FRANÇAIS N-463 (463)
Le cinéma québécois
Préalable: L’autorisation du département. Tout étudiant s’inscrivant pour la seconde fois au cours de cinéma N-461 obtient les crédits N-463. (6 crédits)

FRANÇAIS N-465 (465)
Théâtre québécois

FRANÇAIS N-466 (466)
Etude d’un sujet spécial dans le domaine québécois
Préalable: Français N-331. Le cours porte sur un sujet spécial dans le domaine de la langue et de la littérature québécoises; les sujets seront, par exemple: les périodiques littéraires en français au Québec de 1950 à nos jours, l’Ecole littéraire de Montréal, les contes et nouvelles dans la littérature québécoise, la critique littéraire au Québec, et la littérature canadienne comparée. La matière du cours sera à fixer chaque fois selon les besoins et possibilités du département. (3 crédits)
FRANÇAIS N-467 (467)
Etude d’un sujet particulier
Préalable: 6 crédits et autorisation du département. Étude d’un sujet particulier dans le domaine de la langue ou de la littérature d’expression française. (3 crédits)

FRANÇAIS N-491 (451)
Etude avancée d’un sujet particulier

FRANÇAIS N-492
Etude avancée d’un sujet particulier
Préalable: Français N-491 et l’autorisation du département. Tout étudiant s’inscrivant pour la seconde fois au cours N-491 obtient les crédits N-492. (6 crédits)
41.11 Mathematics  
(Faculty of Science, SGW)

41.11.1 PROGRAMMES

Students who follow Mathematics Programmes must register with the Department of Mathematics by Nov. 1st of each year.

### 41.11.2 COURSE DESCRIPTIONS

The courses in Mathematics described below may be taken by students registered in the Faculty of Arts only; for other courses in Mathematics students should consult § 91.11.4.

**All courses in Mathematics may be regarded as courses in the Humanities.**

**MATHMATICS N-200 Fundamental Concepts of Algebra**

This is a course designed for mature students who need a modern background for Mathematics 101. Sets, axiomatics, algebraic techniques, inequalities, analytic geometry of lines, circles, parabolas. (3 credits) **NOTE A:** Students who have credit for Math N-201 or equivalent may not take this course for credits.

**MATHMATICS N-201 Elementary Functions**

Sets, Field of real numbers. Inequalities. Functions and graphs. Trigonometric, exponential and logarithmic functions. (3 credits) **NOTE A:** See § 200.4

**MATHMATICS N-202 College Algebra**

Prerequisite: Mathematics N-201 or equivalent previously or concurrently. Proofs and implications. The Natural numbers and the integers. Mathematical induction. Divisibility, the Euclidean algorithm, primes, the Fundamental Theorem of Arithmetic. Sequences and progressions. Complex numbers, polynomials, the Fundamental Theorem of Algebra. Combinatorial Mathematics, the Binomial Theorem. Systems of equations, determinants, Cramer's Rule. (3 credits) **NOTE A:** See § 200.4

**MATHMATICS N-203 Differential and Integral Calculus I**

**MATHMATICS N-204 Vector Analysis and Analytical Geometry**

Prerequisite: Mathematics N-201 or equivalent. Inner and cross products of vectors. Algebraic and vector equations of curves in the plane and in space. Elementary study of surfaces in space. Curves and surfaces in parametric form. Polar, spherical and cylindrical coordinates. (3 credits) **NOTE A:** See § 200.4

**MATHMATICS N-205 Differential and Integral Calculus II**

Prerequisite: Mathematics N-203. Integration of trigonometric and exponential functions. Techniques of integration: substitutions, integration by parts, partial fractions. Improper integrals. Physical applications of the definite integral. Infinite series: tests for convergence. Power series, Taylor's theorem. (3 credits) **NOTE A:** See § 200.4

**MATHMATICS N-206 Linear Algebra for the Social Sciences**

**MATHMATICS N-207 Statistics for the Social Sciences**

Prerequisite: Mathematics N-201 or equivalent, or permission of Department of Mathematics or Economics. Elementary probability, permutations and combinations, binomial and normal distribution, analysis and organization of statistical data. Tests of hypotheses, confidence limits. Introduction into linear regression and correlation. (3 credits) Students with credit for Math N-241 or equivalent may not take this course for credits. **NOTE A:** See § 200.4 **NOTE:** This course may be taken for credits in the Urban Studies Programme.

**MATHMATICS N-208 Fundamental Mathematics I**

Prerequisite: Mathematics N-201 or equivalent. This course is intended primarily for pre-Commerce students. Progressions, compound
interest, annuities; permutations, combinations and binomial theorem; systems of linear equations, inequalities, linear programming; matrices. (3 credits) NOTE A/See § 200.4

MATHEMATICS N-209
Fundamental Mathematics II
Prerequisite: Mathematics N-201 or equivalent. This course is intended primarily for pre-Commerce students. Limits, differentiation of rational, exponential and logarithmic functions, theory of maxima and minima, integration. (3 credits) NOTE A/See § 200.4

The following courses are available only to practicing teachers.

MATHEMATICS N-3006, N-3016, N-3026, N-3036, N-3046, N-3056, N-3066, N-3076, N-3086, N-3096, N-4003, N-4013, N-4023, N-4033, N-4043, N-4053, N-4063, N-4076, N-4083, N-4093, N-4103

Descriptions of the above courses are listed in the Sir George Williams Faculty of Science § 91.11.4.

NOTE: Certificate programmes in Mathematics for Elementary Teachers and Junior Secondary Teachers are available for practising teachers. The description of these programmes can be found in § 91.11.2 and § 91.11.3.
41.12 Department of Philosophy

Professor and Chairman of the Department
DALLAS LASKEY

Professors
ROGER ANGEL
STANLEY FRENCH

Associate Professors
MOBIN AHMAD
VLADIMIR ZEMAN

41.12.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

72 BA Honours in Education and Philosophy

### 41.12.2 COURSE DESCRIPTIONS

**PHILOSOPHY N-210 (211) Problems of Philosophy**

A survey of selected philosophical problems in which both contemporary and traditional approaches are critically examined. Specimen topics include: philosophical method, the existence of God, the mind-body problem, freedom and determinism, moral and political obligation. (6 credits) *NOTE A/See § 200.1*

**PHILOSOPHY N-211 (212) Philosophical Classics I**

A critical discussion of selected philosophical classics. Readings will be chosen from Plato, Aristotle, Descartes, Hume, Kant and one recent or contemporary philosopher. (6 credits) *NOTE A/See § 200.1*

**PHILOSOPHY N-214 Philosophical Classics II**

Students entering the university in January may join Philosophy N-211 at that time by registering in Philosophy N-214. Tutorials and conferences will be arranged. Such students may complete the equivalent of Philosophy N-211 by enrolling in Philosophy N-215. (3 credits)

**PHILOSOPHY N-215 Philosophical Classics III**

Prerequisite: Philosophy N-214. The subject matter in this course is the same as that taught in the first semester of Philosophy N-211. Students with credits for Philosophy N-214 may complete the equivalent of Philosophy N-211 by enrolling in Philosophy N-215. (3 credits)

**PHILOSOPHY N-221 (253) Introduction to Logic**

This course introduces the student to the nature and function of formal logic through an examination of both syllogistic logic and immediate inference. In addition there will be an
extensive treatment of informal or material fallacies and an elementary presentation of propositional logic. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

PHILOSOPHY N-231 (241)
Problems of Morals
An introduction to theoretical and applied ethics. In this course, attention will be given to the history of ethical thought and to discussion of contemporary problems. (6 credits) NOTE A/See § 200.1

PHILOSOPHY N-271 (271)
Contemporary Philosophy
Prerequisite: Second year standing. A selected study of selected 20th-century philosophers. Movements and figures discussed vary from year to year. Prerequisites considered will be Kierkegaard, Nietzsche, Heidegger, Sartre, Merleau-Ponty, Jaspers, Marcel and Berdyaev. (6 credits) NOTE A/See § 200.1

PHILOSOPHY N-301 (422)
Greek Philosophy
A survey of the principal developments from the Presocratics (600 B.C.) to Plotinus (250 A.D.). Primary emphasis will be placed on the critical reading of selected original sources. Most of the time will be devoted to Plato and Aristotle. (6 credits)

PHILOSOPHY N-321 (454)
Modern Logic
An introduction to modern logic, its techniques and applications. Coverage of sentential logic, first order predicate logic, naive set theory, relations and functions. (6 credits)

PHILOSOPHY N-333 (401, 403)
Rationalism and Empiricism
Prerequisite: Six credits in Philosophy or permission of the Department. A survey of the Rationalist and Empiricist traditions of the 17th and 18th centuries with particular reference to such central figures as Descartes, Spinoza, Leibniz, Locke, Berkeley and Hume. Special attention will be given to the contributions these thinkers made to such issues as the following: the sources, justification and limits of knowledge; mind and body; freedom and determinism; the status of the concepts of substance, the self, God and causality. (6 credits) NOTE A/See § 200.1

PHILOSOPHY N-361 (261)
Philosophical Ideas in Literature
Prerequisite: Second year standing or permission of the Department. A critical examination of philosophical ideas as expressed in various literary works. The subject matter is chosen for its relevance to such themes as the nature of man, the nature of the good life, and the relation of man to society. (6 credits) NOTE A/See § 200.1

PHILOSOPHY N-365 (465)
Studies in Russian Philosophy
Prerequisite: Second year standing or permission of the Department. Study of the main topics in the development of Russian philosophy. Topics to be discussed include: Nihilism and Anarchism, Tolstoy's Philosophy of History, Dostoevsky's idea of evil, Marxism, Lectures and seminars. (6 credits) NOTE: This course may be taken for credits in the Russian Studies Programme.

PHILOSOPHY N-368 (468)
Philosophical Psychology
A critical examination of the explanation of human behaviour and the self in the light of new developments in philosophy and psychology. Detailed studies of selected problems such as motives, intention, the concept of person, choice, reason, freedom, purpose and action. (3 credits)

PHILOSOPHY N-369 (413)
Contemporary Analytic Philosophy
Prerequisite: Twelve credits in philosophy or permission of Department. A seminar devoted to the investigation of selected philosophical problems as they arise in the writings of such philosophers as Moore, Russell, Ayer, Carnap, Quine, Wittgenstein, Ryle, Wisdom, Austin and others. (6 credits)

PHILOSOPHY N-372 (431)
Political Philosophy
Prerequisite: Second year standing or permission of the Department. Critical analysis of contemporary political-philosophical concepts such as tolerance, violence, separatism, racism and the nationalism of visible minorities. (3 credits)

PHILOSOPHY N-374 (432)
Law, Liberty and Human Rights
In this course the student will examine several perspectives from which the problem of the relation between law and morality may be treated. Conflicting concepts of law, morality and the relation of the individual to society will be discussed. The problem of authority will be examined in relation to issues of civil liberties, civil rights and the social basis of legal conflicts. (3 credits)

PHILOSOPHY N-376 (435)
Philosophy of the Social Sciences
A survey of the philosophical problems of the social sciences. Special attention will be given to problems of functionalism, teleological explanation and the testing of social theories. (3 credits)

PHILOSOPHY N-378 (436)
Aesthetics
Prerequisite: Second year standing or permission of the Department. A philosophical analysis of selected aspects of the aesthetic experience and the logic of appraisal. Specimen topics include: perception in art, symbolic expression, the role of feeling and emotion in aesthetic judgment, objectivity and subjectivity of value judgments, commensurability of values. (3 credits)

PHILOSOPHY N-380 (401)
Honours Seminar in Epistemology and Metaphysics
Prerequisite: Second year standing. Intensive study of major contemporary issues in the theory of knowledge and metaphysics, designed to accommodate honours students in any department. (6 credits)

PHILOSOPHY N-396 (471)
The Study of a Given Thinker
Prerequisite: Six credits in Philosophy or permission of the Department. A detailed study of one or more of the central works of a major philosopher. When it is appropriate, some attention may be devoted to his philosophical development. (3 credits) NOTE C/See § 200.1
PHILOSOPHY N-398 (472)
The Study of A Given Thinker
Prerequisite: Six credits in Philosophy or permission of the Department. A student repeating N-396 registers under Philosophy N-398. (3 credits) NOTE A/See § 200.1

PHILOSOPHY N-405 (424)
Kant
Prerequisite: Twelve credits in Philosophy or permission of the Department. An intensive study of Kant's Critique of Pure Reason and related works. (6 credits)

PHILOSOPHY N-407 (407)
Nineteenth-Century Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. An examination of some of the main currents of post-Kantian philosophy, Hegel and the post-Hegelians, the romantic reaction, positivism, and pragmatism. (6 credits)

PHILOSOPHY N-409 (409)
Phenomenology
Prerequisite: Twelve credits in Philosophy or permission of the Department. Origins and development of phenomenology from Brentano and Meinong through the different stages of Husserl's writing. Post-Husserlian modifications will be considered briefly. The second term will be devoted to a discussion of the influence of the phenomenological movement on contemporary developments in the social sciences and humanities. Actual topics will be determined by the students' areas of interest and academic qualifications. (6 credits)

PHILOSOPHY N-421 (452)
The Philosophy of Science
Prerequisite: One course in logic or permission of the Department. A critical examination of problems pertaining to the structure and status of scientific theories and the logic of scientific inference. Such topics as the following will be discussed: explanation, confirmation, verifiability and falsifiability, problems of definition, observational and theoretical terms, models and analogies. (6 credits)
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

PHILOSOPHY N-431 (441)
Recent Ethical Theory
Prerequisite: Six credits in Philosophy or permission of the Department. A critical analysis of leading contemporary ethical theories from Moore to the present. Special attention is given to the naturalistic fallacy, the reducibility of normative statements, ethical reasoning and the relation of ethics to psychology and sociology. (6 credits)

PHILOSOPHY N-493 (491)
Special Topics in Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. Consideration of a special topic selected from the principal areas of philosophy, e.g., value theory, epistemology, metaphysics, philosophy of mind, philosophy of science, philosophical logic. (6 credits) NOTE C/See § 200.1

PHILOSOPHY N-495 (492)
Special Topics in Philosophy
Prerequisites: Twelve credits in Philosophy or permission of the Department. A student repeating Philosophy N-493 registers for credits under Philosophy N-495. (6 credits)
Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

30 Minor in Religion

Religious Traditions of the World (3 credits)

NOTE A / See § 200.1

41.13.2 COURSE DESCRIPTIONS

RELIGION N-201 (201)
Classical Hebrew
A study of the language of the classical Hebrew texts. The course is designed as a preparation for reading the Hebrew Bible, but takes account of other texts. (6 credits) NOTE A / See § 200.1

RELIGION N-211 (211)
Understanding Religion
A systematic and topical introduction to the study of religion. The purpose of the course is to enable the student to articulate and investigate questions about the meaning and nature of religion. Problems discussed will include the elements of religious experience, forms of religious expression and interpretation, religious communities and practices and the questions raised by the contemporary interfaith dialogue. Materials will be taken from a variety of religious traditions. (6 credits)

RELIGION N-213 (213)
Major Religious Traditions of the World
A historical and comparative overview of the major religious traditions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism and Chinese religions. The course will include some consideration of the new religions in North America. (6 credits)

RELIGION N-222 (262)
Judaic Studies: History of the Jewish People
An historical survey of the Jewish people from the Biblical Age until the beginning of the modern period. The survey will focus on both the sociological and the intellectual developments in this area. The emphasis will be on the formation and continuation of the major Jewish concepts, institutions, and traditions; on the dynamic forces in Jewish society and on the interrelationship between Jews and non-Jews during this period. (6 credits)

RELIGION N-301 (251)
Biblical Studies I: The Hebrew Bible
An introduction to the methods and results of Biblical scholarship with regard to the history, culture and religion of Ancient Israel. Particular attention is given to the major religious affirmations and theological concepts of the Hebrew Bible which have become central in the subsequent development of Judaism. (3 credits) NOTE A / See § 200.1

RELIGION N-302 (252)
Biblical Studies II: The New Testament
An introduction to the methods and results of contemporary New Testament scholarship; a critical survey of New Testament literature considering historical setting, history of text, religious and cultural significance. Attention is given to the central issues and concepts portrayed in the Synoptic, Johannine and Pauline writings and their importance in the subsequent development of the Western religious tradition. (3 credits) NOTE A / See § 200.1

RELIGION N-311 (411)
The Religions of India, Ceylon, Southeast Asia
An historical study of the major religious traditions native to the Indian sub-continent, Ceylon and Southeast Asia. Although the course will concentrate upon the development of Hindu and Buddhist religious thought and traditions, consideration will be given to the influence of Jainism, Islam and Christianity upon Hinduism and Theravada Buddhism. The
course will end with an analysis of the contemporary religious situation in India and Burma. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Asian Studies Programme.

RELIGION N-312 (412)
The Religions of China and Japan
Prerequisite: Second year standing. An historical study of the religious traditions of premodern China, Tibet and Japan. After a brief introduction to the origin of Buddhism in India, the course will focus upon the development of religious thought and institutions in Mahayana Buddhism, Taoism, Confucianism and Shinto. The course will end with an analysis of the contemporary religious situation in China and Japan. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Asian Studies Programme.

RELIGION N-313 (413)
Islam
A study of the rise and development of Islamic religion and culture, with special attention to mysticism and to modernism. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Asian Studies Programme.

RELIGION N-325 (425)
The Bible and the Ancient Near East
The significance of Old Testament Institutions within the context of the ancient Mediterranean world. Law, covenant, writing, historiography; the relationship between man and God, sin, sacrifice and atonements will be discussed. Readings from contemporary literature in translation (Babylonian, Egyptian, Greek, Hittite, Ugarite). (3 credits) NOTE A/See § 200.1

RELIGION N-326 (426)
Classical Judaism
The concepts and institutions of classical or 'normative' Judaism, in the setting of the Hellenistic-Roman world. A conceptual approach to law, ethics, philosophy and culture of post-Biblical Judaism. Consideration will be given to sectarianism and sectarian movements (Samaritans, Dead Sea Scrolls) and their relationship to the major Jewish 'Schools' (Pharisees, Sadducees, Essenes) and to the early Christian Church. (3 credits) NOTE A/See § 200.1

RELIGION N-327 (427)
Medieval Jewish Thought and Institutions
Topics in the intellectual, religious, and social history of selected Jewish communities during the Middle Ages. Both internal Jewish developments and changing Jewish relations with their non-Jewish neighbours will be considered. (3 credits) NOTE A/See § 200.1

RELIGION N-328 (428)
Modern Jewish Thought and Institutions I (1780-1880)
A survey of the social and intellectual currents which have shaped Jewish modernism from the beginning of emancipation until 1880. Topics will include: the emergence of modern Jewish consciousness, Jewish pluralism and religious differentiation within Jewish society (Hasidism, science of Judaism, orthodoxy, reform, and conservatism), secular versus religious values, disintegration and unification within the Jewish community. (3 credits) NOTE A/See § 200.1

RELIGION N-329 (329)
Sefardic Judaism
A critical analysis of the religious traditions peculiar to Sefardic Jews. Particular attention will be given to North African Judaism. (3 credits)

RELIGION N-330 (330)
Modern Jewish Thought and Institutions II (1880 to the present)
A survey of social and intellectual currents in Jewish society from 1880 until the present. Topics will include: the impact of anti-Semitism, particularism and universalism, nationalism and its critics, Jewish existentialism and the new mysticism (Rosenzweig, Buber, Rabbi Kook), reactions to the Holocaust, and the relationship between Israel and the diaspora. (3 credits)

RELIGION N-331 (331)
Contemporary Ethical Issues: Personal
This course will identify and analyze ethical issues arising at the personal level today. Issues will be discussed in the context of the interrelationship between moral values and religious convictions. Topics will vary from year to year, but examples of areas that raise ethical and religious questions for personal existence are: affluence, alienation, work, leisure, aging, drugs. (3 credits)

RELIGION N-332 (332)
Contemporary Ethical Issues: Societal
This course will identify and analyze ethical issues arising from social groups today. In discussing the issues, account will be taken of the bearing of religious institutions and traditions upon social attitudes and problems. Topics will vary from year to year, but examples of problem areas that have evoked ethical and religious debate are: economic and social inequality, race relations, violence and war, hunger and poverty, population growth. (3 credits) NOTE A/See § 200.1

RELIGION N-333 (333)
Women and Religion I
An examination of the roles and images of women in the history of religions. Topics might include: the development of patriarchal religion, religion and sexuality, women and myth, the roles of women in different religious communities. This course will include an integrated sequence of lectures (minimum three weeks) by an anthropologist on matriarchal and patriarchal societies. (3 credits)
NOTE: This course may be taken for credits in the Women's Studies Programme.

RELIGION N-334 (334)
Women and Religion II
An examination of the religious and ethical questions raised by contemporary discussions of women's experience. Topics might include: the recent beginnings of a feminist theology, the feminist critique of organized religion and society, the effects of male perspective upon philosophy and theology, and women in the ministry. (3 credits)
NOTE: This course may be taken for credits in the Women's Studies Programme.

RELIGION N-341 (341)
Religion and Literature
This course deals with the questions raised for the study of religion by works of literature. An account will be given of the recent development of interdisciplinary studies in religion and literature and of the problems of method that have arisen. The relation between the interpretation of religious language, with its use of myth, parable, symbol and metaphor, and literary criticism will be explored. The religious implications, direct and indirect, of selected literary works will be discussed. (6 credits)

RELIGION N-361 (441)
Studies in the History of Christian Thought
An introduction to the classics of Christian thought from the Fathers to the modern period. Authors studied at length may vary from year to year, but in any case students will acquire a
Basic knowledge of Augustine, Aquinas, Luther and Calvin. (6 credits)

**RELIGION N-362 (442)**

**Questions from the Christian Tradition**

A study of some of the major religious questions and controversies in the history of the Christian West. The questions chosen will vary, but examples are: grace and free will, faith and reason, history and eschatology, church and state, contemplation and action. (6 credits)

**RELIGION N-363 (463)**

**Religion in Canada**

The historical development of the major religious traditions in Canada, their influence on the social, political and cultural areas of Canadian life and their contemporary significance. Attention will also focus on the inter-action of Catholic, Protestant, Jewish, Indian and Eskimo peoples. (6 credits) 

**NOTE:** This course may be taken for credits in the Canadian Studies Programme.

**RELIGION N-364 (447)**

**The Origin of Myth, Ritual and Magic in Western Culture**

An historical study of the origins and development of esoteric beliefs and practices involving claims to paranormal spiritual and psychic powers or faculties of human beings. The course will survey the history of the so-called "magical" or "miraculous" elements in human religious experience from primitive to modern settings, through Egypt, India, Mesopotamia, Ancient Israel, Greece, and Rome, Early and Medieval Christianity, to the cults, sects, secret-societies and quasi-religious movements of the modern period. (6 credits)

**RELIGION N-401 (401)**

**Advanced Studies in Classical Jewish Texts**

This course will be based on representative readings from Biblical, post-Biblical and mediaval Hebrew literature. It will concentrate on specific topics and will pay attention to the historical and philosophical background of the texts. (3 credits)

**RELIGION N-435 (435)**

**Comparative Religious Ethics: West & East**

This course will identify the ways in which different religious and ideological traditions from West and East consider and deal with ethical issues. Examples of such traditions are Navaho, Jewish, Christian, Islamic, Hindu, Buddhist, Confucian, Humanist, Communist. The ethical values and ideals found in these traditions and their influence upon individual life patterns and social organization will be considered. (6 credits)

**RELIGION N-443 (443)**

**Modern Religious and Atheistic Thought**

A historical and critical review of the conflicting philosophical interpretations of religion that have arisen in the West since the Enlightenment. Special attention will be paid to problems about the nature of meaning of religious experience currently debated between religious and secularist thinkers. (6 credits)

**NOTE:** This course may be taken for credits in the Science and Human Affairs Programme.

**RELIGION N-465 (465)**

**Classical Images of Man and Contemporary Psychical Research**

A survey of recent scientific studies of paranormal phenomena occurring in dreams, visions, trance-states, hypnosis, and various ecstatic mystical experiences, the results of thanatological studies, the quest for post-mortem survival evidence, and general research in parapsychology and parapsychics. The course will relate this body of research to the various root typologies of classical human religious experience found in primitive, ancient-sacral, and classical religious traditions of East and West. (6 credits)

**RELIGION N-491 (448)**

**Special Seminar I**

Prerequisite: Permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) 

**NOTE:** C/See § 200.

**RELIGION N-492 (449)**

**Special Seminar II**

Prerequisite: Permission of the Department. A student repeating Religion N-491 registers for credits under Religion N-492. (6 credits)

**RELIGION N-493 (493)**

**Religious Institutions**

Prerequisite: Permission of the Department. Seminar on a particular period or institution in the history of religion. (3 credits) 

**NOTE:** C/See § 200.1

**RELIGION N-494**

**Religious Thinkers**

Prerequisite: Permission of the Department. A student repeating Religion N-493 registers for credits under Religion N-494. (3 credits)

**RELIGION N-495**

**Religious Thinkers**

Prerequisite: Permission of the Department. Seminar on a particular thinker or school of thought in the history of religion. (3 credits)

**NOTE:** C/See § 200.1

**RELIGION N-496**

**Religious Thinkers**

Prerequisite: Permission of the Department. A student repeating Religion N-495 registers for credits under Religion N-496. (3 credits)

**RELIGION N-497 (497)**

**Topics in Jewish History**

A study of a problem or area of concern in Jewish History. Possible topics might be: the nature of the Dead Sea Sect, the background of the expulsion of the Jews from Spain, Jewish reactions to catastrophe since 1492, Jewish nationalism in the twentieth century, Jewish messianic movements, history of the ancient Near East, history of the Jews in North America. (3 credits) 

**NOTE:** C/See § 200.1

**RELIGION N-498 (498)**

**Topics in Jewish History**

Prerequisite: Permission of the Department. A student repeating Religion N-497 registers for credits under Religion N-498. (3 credits)

41.14.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

60 BA Major in Applied Social Science
60 BA Major in Social Welfare

Year I
- 6 App Soc Sc N-2126
Year III
- 6 App Soc Sc N-4006
- 18 App Soc Sc N-3513, N-4136,
  N-4216, N-4319, N-4513, N-4523,
  N-4413, Psyc/N-4716
- 6 Psyc N-2716
- 6 Soc: Area I
- 6 Soc: Area III
- 6 Psyc N-4226, N-4286, N-4386,
  N-4429, N-4528, N-4546
- 6 Soc: Area III; or Soc: Area IV; or
  Psyc N-4229, N-4289, N-4389,
  N-4429, N-4529, N-4549
*NOTE: In certain years ‘Selected Problems’ sections in Psyc may be substituted with the approval of the Departmental Chairman. Psyc N-271 must be taken in Yr I by students having CEGEP Psyc or at the latest in Yr II.

Year I
- 6 Econ N-2093, N-2103
- 6 Pol Sc N-3206
- 6 Psyc N-2116
- 6 Soc N-2106
- 12 Soc Elec
- 12 Econ or Pol Sc or Psyc Elec
- 6 App Soc Sc N-4616
- 6 Psyc N-2416, or Soc N-2416

NOTE: Only 18 of these credits may be at the ’200’ level.

41.14.2 COURSE DESCRIPTIONS

APPLIED SOCIAL SCIENCE N-212 (212)
Introduction to Applied Social Science
This course is an orientation to the field of applied social science with a specific focus on relating to and working with other people. It includes a consideration of personal identity, interpersonal relations and concepts of helping relationship. (6 credits)

APPLIED SOCIAL SCIENCE N-321 (321)
Introduction to Social Gerontology
The course will deal with the problem of growing old in contemporary society; and with the biological, psychological and sociological dimensions of the human aging processes. The course is also designed to identify the needs of the elderly in our community and to examine approaches to dealing with these needs. (3 credits) NOTE A/See § 200.1

APPLIED SOCIAL SCIENCE N-351 (251)
Understanding Group Behaviour
This is a laboratory course which includes participating in a group and analyzing such common group dynamics as leadership, communication, decision-making, member roles and sensitivity to others. (3 credits)

APPLIED SOCIAL SCIENCE N-400 (400)
Introduction to Social Intervention
Prerequisite: Permission of the Department. Introduction to the principles and practice of social intervention. Approaches to social problem identification and analysis. The role of the social change agent. Elements of working with

152
individuals, groups and communities. Laboratory periods will permit the application of course content to practice. (6 credits)

**APPLIED SOCIAL SCIENCE N-413 (413)**

**Adolescent Behaviour in Urban Areas**

Prerequisite: Applied Social Science N-212. A survey of adolescent values, family and group relations, social mobility, friendship patterns, educational and vocational adjustment with a focus on understanding social behaviour in urban communities. Attention will also be given to programmes attempting to enhance adolescent development and reduce social problems. (6 credits)

**APPLIED SOCIAL SCIENCE N-421 (421)**

**Administration in Community Serving Organizations**

Prerequisite: Permission of the Department. This course explores the uses of administrative process to support the goals of a community serving organization. A variety of administrative approaches and their applications to the development of an organization (school, hospital, agency) will be explored. Attention will be given to personnel development, planning and systems, and interactions with resource people associated with community organizations. (3 credits)

**APPLIED SOCIAL SCIENCE N-431 (431)**

**Group Development and Administration**

Prerequisite: Applied Social Science N-212. Orientation to systematic group development in community-serving organizations. Development of understanding and skill in using group procedures to facilitate communication and decision-making in small groups, classes and committees. Focus on helping others improve their functioning with groups through supervision and training. Each student will study the development of an agency group throughout the year. (6 credits)

**APPLIED SOCIAL SCIENCE N-441 (441)**

**Community Development**

Prerequisite: Applied Social Science N-212 or enrollment in a concentration in a social science. Orientation to systematic community problem solving dealing with communications, assessment of needs, decision-making, and intergroup relations, drawing on the contributions of the social sciences. (3 credits)

**APPLIED SOCIAL SCIENCE N-451 (451)**

**Principles and Practices of Guidance**

Prerequisite: Applied Social Science N-212. Principles and methods of counselling and guidance with particular reference to their application in the setting of the community-serving organizations. Organization and administration of a guidance service including measurement and appraisal, techniques of counselling, occupational and educational information, and referral, will be considered. (3 credits)

**APPLIED SOCIAL SCIENCE N-452 (452)**

**Introduction to Counselling**

Prerequisites: Applied Social Science N-212, N-451. A survey of typical problems, information, techniques, principles, policies and points of view useful to professional staff in community-serving organizations; focus on educational, vocational and relationship problems, and the use of counselling techniques in staff relations and supervision. (3 credits)

**APPLIED SOCIAL SCIENCE N-461 (461)**

**Social Welfare and the Social Welfare Services**

Prerequisite: Second-year standing or permission of the Department. A student repeating Applied Social Science N-461 registers for credits under Applied Social Science N-472. (6 credits)

**APPLIED SOCIAL SCIENCE N-481 (481)**

**Special Seminar in Applied Social Science**

Prerequisites: Psychology N-211, Sociology N-210 and permission of the Department. A student repeating Special Seminar in Applied Social Science N-481 registers for credits under Applied Social Science N-472. (6 credits)

**APPLIED SOCIAL SCIENCE N-482 (482)**

**Special Seminar in Applied Social Science**

Prerequisite: Permission of the Department. A student repeating Applied Social Science N-482 registers for credits under N-482. (6 credits)

**APPLIED SOCIAL SCIENCE N-485 (485)**

**Special Seminar in Applied Social Science**

Prerequisite: Permission of the Department. The subject for the seminar will vary from year to year reflecting recent developments in social change, new approaches in the behavioural sciences or the special interests of the instructor. (6 credits)

**APPLIED SOCIAL SCIENCE N-486 (486)**

**Special Seminar in Applied Social Science**

Prerequisite: Permission of the Department. A student repeating Applied Social Science N-486 registers for credits under Applied Social Science N-486. (3 credits)

| 6 Econ N-2093 and N-2103 |
| 6 Econ N-3116 |
| 6 Econ N-3186 |
| 12 Econ Elec |
ECONOMICS N-209 (209)
Introduction to Microeconomics
An introduction to the functioning of the market system; concepts of supply and demand; the role of prices in resource allocation; production decisions by firms. Analysis of differences between competition and monopoly and the implications for economic efficiency; theories of labour markets and wage determination. (3 credits) NOTE A: See § 200.1
NOTE: This course may be taken for credits in the Russian Studies and Urban Studies Programmes.

ECONOMICS N-210 (210)
Introduction to Macroeconomics
This course introduces the student to differential and integral calculus and to their applications in the field of macroeconomics. The focus is on the principles of determination of the level of employment, national income, real output, inflation, and international balance of payments. The course also analyzes the principles which govern the trade relations and the balance of payments. The topics are integrated by a discussion of government monetary and fiscal policies to stabilize economic activity. (3 credits) NOTE A: See § 200.1
NOTE: This course may be taken for credits in the Russian Studies and Urban Studies Programmes.

ECONOMICS N-221 (221)
Introduction to Economic History
This course deals with the development of industrial economics from the Industrial Revolution to the present. Emphasis on long-term forces such as demographic, technological, and institutional evolution. (6 credits) NOTE A: See § 200.1
NOTE: This course may be taken for credits in the Russian Studies Programme.

ECONOMICS N-270 (281)
Mathematics for Economists I
Prerequisites: Economics N-209 and N-210. This course introduces the student to differential and integral calculus and to their applications in economic analysis. The course includes set theory, the concept of limits and rules for differentiation and integration. It also deals with the relevance of these concepts and techniques to economic problems such as maximization, equilibrium analysis, and dynamic adjustment. (6 credits) NOTE A: See § 200.1

ECONOMICS N-271 (282)
Mathematics for Economists II
Prerequisites: Economics N-209 and N-210, N-270, or Mathematics N-203 and N-205 or equivalent. The main emphasis is on the study of linear algebra and its application to the solution of economic models consisting of a system of linear simultaneous equations. Topics covered include: matrices and vectors; basic properties of determinants and their use in solving equations pertaining to economic problems such as linear programming and constrained optimization. (3 credits) NOTE A: See § 200.1

ECONOMICS N-274 (218)
The Use of Economic Data
Prerequisites: Economics N-209 and N-210. Concepts of economic accounting and related measurement techniques, with special reference to the procedures used in Canada and in international economic institutions like the U.N., I.M.F., and O.E.C.D. The topics include: national accounts, input-output tables, flow-of-funds accounts, national balance sheets, international and interregional comparison of economic data, choice of index. (3 credits)
NOTE: This course may be taken for credits in the Urban Studies Programme.

ECONOMICS N-304 (431)
Canadian Economic Policy I
Prerequisites: Economics N-209 and N-210. A study of the effects of government policies on resource allocation with emphasis on Canadian policy problems. Topics will include government regulation of business, agriculture, transportation policy, and tariff policy. (3 credits) NOTE A: See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

ECONOMICS N-305 (432)
Canadian Economic Policy II
Prerequisites: Economics N-209 and N-210. A study of trade, government stabilization, growth, and welfare policies with emphasis on Canadian policy problems. Topics also include monetary and fiscal policies, policies to encourage growth, and social security policies. (3 credits)
NOTE: This course may be taken for credits in the Canadian Studies Programme.

ECONOMICS N-306
Monopoly, Competition and Regulation
Prerequisites: Economics N-209 and N-210. This course shows how the basic tools of economics can be applied towards the understanding of aspects of industrial organization such as firm size and industrial structure, price discrimination, resale price maintenance, advertising, technical innovation, and foreign ownership. These issues will be studied in the context of Canadian industrial structures, current antitrust, and combines legislation and its enforcement. The course will also deal with government policies with regard to industry performance and public utility regulation. (3 credits)

ECONOMICS N-307
Economics of the Environment
Prerequisites: Economics N-209 and N-210. The subject of this course is environmental quality. It proceeds through an analysis of the relationships between the natural environment, economic, and institutions. The objective is to depict the problem of environmental quality as an economic problem whose solution demands major changes in economic, political, and legal institutions. Attention is also given to policies of collective environmental actions in which the effective management of common property resources will be discussed. The course concludes with a discussion of some broader issues, such as the consistency of improved environmental quality with continued economic growth. (3 credits)
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

ECONOMICS N-308
Economics of Natural Resources
Prerequisites: Economics N-209 and N-210. This course focuses on the problems of the finiteness of the natural resources base in Canada and in the world, and on an analysis of the demand for and supply of natural resources and energy. The course also discusses the economic aspects of a selected group of conservation measures (financial incentives, reallocation of property rights, regulation). (3 credits)
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

ECONOMICS N-309
Economics of Human Resources
Prerequisites: Economics N-209 and N-210. A study of recent contributions by economists
towards the understanding and solution of social problems which society currently faces in the areas of crime, health, education and welfare. In addition, specific federal and provincial governmental policies in these areas are analyzed with the standard tools of economics.

ECONOMICS N-310
Economics of Discrimination
Prerequisites: Economics N-209 and N-210.

The purpose of this course is to examine some economic issues of discrimination with particular reference to women in a Canadian context. Among the topics so examined are: techniques for measuring discrimination and poverty, review of empirical studies, traditional and radical approaches to the study of discrimination, and policies to combat discrimination and poverty. (3 credits)

NOTE: This course may be taken for credits in the Women's Studies Programme.

ECONOMICS N-311 (411)
Intermediate Microeconomic Theory
Prerequisites: Economics N-209 and N-210.

Theory of consumer behaviour and market demand; production and theory of the firm; analysis of economic efficiency of alternative forms of market structure; factor markets and factor price determination; welfare economics. (6 credits) NOTE A/See § 200.1

ECONOMICS N-316 (451)
Money and Banking
Prerequisites: Economics N-209 and 210.

Analysis of the role of money and financial institutions in a modern economy; structure of banking industry and financial markets; credit expansion and monetary control; international financial flows; foreign exchange rates; monetary theory; role of monetary policy in stabilizing the economy. Special emphasis will be placed on monetary and banking problems in Canada. (3 credits) NOTE A/See § 200.1

NOTE: Students who have credits for 051 may not take this course for credits.

ECONOMICS N-318 (452)
Intermediate Macroeconomic Theory
Prerequisites: Economics N-209 and N-210.

A basic course in macroeconomic theory and policy. Among the topics dealt with are the measurement and behaviour of national income and its components (consumer spending, investment spending, etc.), of inflation, and of economic growth. The classical, Keynesian, and post-Keynesian approaches are analyzed and compared. The impact of monetary and fiscal policies on the economy is also examined. Primarily for majors, specializations, and honors students. (6 credits)

ECONOMICS N-375 (375)
Introduction to Statistics for Economists
Prerequisite: Mathematics N-207. The course is an introduction to the application of statistical techniques to economic data. Topics discussed will include, among others, time series, statistical inference, analysis of variance, correlation and regression. (3 credits)

NOTE: Credits will be given for only one 6 credit course or two 3 credit courses from Economics N-375, Geography N-362 and N-363, Mathematics N-243 and N-244, Sociology N-241, Psychology N-241 and Psychology N-242. This course may be taken for credits in the Urban Studies Programme. NOTE A/See § 200.1

ECONOMICS N-411 (412)
Advanced Microeconomic Theory
Prerequisites: Economics N-209 and N-210, Economics N-311. Selected topics in microeconomic analysis including methodology; general equilibrium analysis; welfare economics; theory of the firm; factor pricing and income distribution; capital theory. Primarily for majors, specialization, and honours students. (3 credits)

ECONOMICS N-412 (484)
Mathematical Economics I
Prerequisites: Economics N-209 and N-210; N-270 and N-271 or equivalent; N-311; N-318. Demand theory: classical theory and an introduction to the contemporary theory of demand, revealed preference, von Neumann utility functions. Production theory, linear production functions, technological change, input-output analysis, introduction to linear programming. (3 credits)

ECONOMICS N-413 (485)
Mathematical Economics II
Prerequisite: Economics N-412, or permission of the Department. General equilibrium models, existence and stability; capital accumulation over time. (3 credits)

ECONOMICS N-415 (421)
History of Economic Thought
Prerequisites: Economics N-209 and N-210, Economics N-311 and N-318. This course traces the development of economic analysis from ancient to modern times; it also includes a description of the prevailing economic, social, and cultural environment in which economists have written. Primarily for majors, specialization, and honors students. (6 credits)

ECONOMICS N-418 (453)
Advanced Macroeconomic Theory
Prerequisites: Economics N-209 and N-210, N-318. Selected topics in macroeconomic analysis including construction of models of the economy encompassing the labour, product, and financial markets; the role of monetary and fiscal policies; classical, Keynesian, and post-Keynesian models. Primarily for majors, specialization, and honors students. (3 credits)

ECONOMICS N-420 (454)
Economics of the Public Sector
Prerequisites: Economics N-209 and N-210. Examines government fiscal activity within the context of a free market system. Government revenue sources, particularly income taxes, sales taxes, and property taxes, are analyzed. Techniques for examining the efficiency of government expenditure decisions, such as cost-benefit analysis, are also developed. Other topics include intergovernmental fiscal relations in Canada and governmental debt. (6 credits)

ECONOMICS N-422 (461)
International Economic Relations
Prerequisite: Economics N-209 and N-210. Postwar international institutions: IMF, GATT, etc. The international monetary system, its problems and proposed reforms. Currency areas, exchange control systems and clearing systems. European integration and the common market. (3 credits)

ECONOMICS N-423 (462)
Theory of International Trade
Prerequisites: Economics N-209 and N-210, N-311. A study of the theories of comparative costs and reciprocal demand and their development; the theory of factor reward equalization; the theory of foreign exchanges; the theory of tariffs, customs union theory, and related topics in the theory of international trade. Emphasis will be placed upon the theoretical rather than the institutional analysis of international economics, though the theories will be illustrated by consideration of current problems in international economic affairs. (3 credits)

ECONOMICS N-426 (426)
Urban Economics
Prerequisites: Economics N-209 and N-210.

This course will focus on the basic issues of
economic growth and stagnation, urban land use, the problems of the urban public economy, and selected problems such as transportation, congestion, poverty, housing and urban renewal, and zoning. (3 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

ECONOMICS N-427 (427)
Regional Economics
Prerequisites: Economics N-209 and N-210; Economics N-311 or N-318 previously or concurrently, or Economics N-426. This course introduces the student to the methods and techniques of regional economic analysis and their application to the problems of regional economies within Canada. Among the macro-economic topics covered are the location behaviour of firms and households and the factors determining the allocation of land among alternative competing uses. Macroeconomic topics include the measurement and analysis of regional income and growth levels, cyclical changes in those levels, and inter-regional differences in growth rates. Policy problems pertinent to Canadian regions are stressed throughout the course. (3 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

ECONOMICS N-428 (472)
Labour Economics
Prerequisites: Economics N-209 and N-210; N-311, or N-318, previously or concurrently. This course examines the determination of wages and employment both at the level of the firm as well as of the economy as a whole. Analyses are made of the demand for labour by individual firms, occupational, regional and inter-industry wage differentials, effect of wage changes on employment, impact of unions on wages and employment, and mobility. Aggregate questions examined include current problems of structural and cyclical unemployment, price inflation, and the role of monetary and fiscal policies in attaining full employment and controlling inflationary pressures. These topics are analyzed in the context of the Canadian economy. (3 credits)

NOTE: Students who have credits for Economics 271 or 471 before 1969-70 may not take this course for credits.

ECONOMICS N-429 (471)
Industrial Relations
Prerequisites: Economics N-209 and N-210. A study of the general and practical problems that arise in the labour field, such as collective bargaining, the legal framework for the settlement of industrial disputes, the weapons of industrial conflict; the labour movement; contemporary labour issues such as automation, cost-push inflation and structural unemployment. These topics will be illustrated by facts relating to industrial relations in Canada. (3 credits)

ECONOMICS N-430 (420)
Economic History of Europe
Prerequisites: Economics N-209 and N-210. The course will explore the causes and consequences of the Industrial Revolution and its different historical periods in terms of differential national income growth patterns and social problems associated with economic change. It will include an analysis of free trade, economic nationalism, the new imperialism, the importance of the crisis of 1929 in terms of economic organization, thought and policy, and post World War II reorganization. The American planning the welfare state, and economic integration. (6 credits)

ECONOMICS N-434 (424)
Economic History of Canada
Prerequisites: Economics N-209 and N-210. This course is designed to introduce the student to Canadian economic development from the early period of settlement to the present day. Emphasis will be placed on the economic history of Canada since Confederation. (6 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

ECONOMICS N-438 (428)
Economic History and Development of the United States
Prerequisites: Economics N-209 and N-210. American economic history will be presented from the viewpoint of the "new" economic history. This is a topical approach in which formal economics is used to evaluate traditional historical material. Among the topics which will be covered are: the economic consequences of slavery, the American business cycle and the depression of American central banking, the merger movements, the causes of the American "take-off", and the economic causes and consequences of the major wars. (6 credits)

ECONOMICS N-440 (422)
Economic Development
Prerequisites: Economics N-209 and N-210; N-311. The course investigates comparative economic development with special attention to problems of capital formation, population growth, quality of the labour force, and social and cultural attitudes towards economic modernization. Theories of economic development are evaluated in the context of the realities of historical patterns and the varying degrees of ability to achieve modernization. (6 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.

ECONOMICS N-442 (488)
Quantitative Development Economics I
Prerequisites: Economics N-209 and N-210; N-271 or equivalent; N-311. Methods of national accounting and input-output analysis of underdeveloped countries. Methods of comparing standards of living. Patterns of economic development. Appraisal of models constructed on the premises of modern theories of economic development. (3 credits)

ECONOMICS N-443 (489)
Quantitative Development Economics II
Prerequisites: Economics N-442. The model of economic policy. Planning in stages. The model of linear activity analysis and efficient decentralization of economic decisions. Planning of efficient accumulation of capital. Individual project evaluation. Foreign aid and debt service models. Projection of manpower requirements. Evaluation of empirical applications of optimum planning to underdeveloped economies. (3 credits)

ECONOMICS N-446 (423)
The Economic Development of Quebec
Prerequisites: Economics N-209 and N-210. This course will review past and present trends in the economic development of Quebec, though emphasis will be placed on the economic growth of Quebec since the Second World War. Attention will be given to the regional aspects of its growth problems. (3 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

ECONOMICS N-460 (445)
Comparative Economic Systems
Prerequisites: Economics N-209 and N-210. A comparative study of contemporary economic systems. While mainly concerned with the institutional features of contemporary free market economies, the course will also deal with their counterpart, the systems of a command economy and a Socialist market economy. Of primary interest will be the institutions, mechanisms and policies which govern allocation, efficiency, growth and distribution of income.
ECONOMICS N-464 (444)
Marxian Economics
Prerequisites: Economics N-209 and N-210.
A general survey of Marxian theory; Marx’s role and influence; his predecessors and followers. The topics that will be discussed include historical and dialectical materialism, the role of the proletariat in Marxian teaching, Marx and the Socialist International, the evolution of Marxian thought, Marx and the labour movement, the labour theory of value, the theory of economic development, and the breakdown of capitalism. (3 credits)

NOTE: This course may be taken for credits in the Russian Studies Programme.

ECONOMICS N-465 (443)
Soviet Economics
Prerequisites: Economics N-209 and N-210.
The evolution of the Soviet economic system and the policy measures adopted to deal with the problems of establishing and consolidating a socialist state. Special attention is given to Lenin's role in the early phase of the Soviet system and early economic measures such as the collectivization of farms. Other topics covered are: the nature of economic planning and progress under Stalin, and the important recent reforms and modifications of the Soviet system under the impact of Liberman’s proposals. (3 credits)

NOTE: This course may be taken for credits in the Russian Studies Programme.

ECONOMICS N-468 (447)
Theory and Practice of Cooperation
Prerequisites: Economics N-209 and N-210 or permission of the Department. This course will deal with the effect of cooperatives on economic and social development with emphasis on Quebec and Canada. Among the topics discussed are the origins and development of the cooperative economy, differences between cooperative, capitalist and communist economic systems; economic, social, educational and moral transformations taking place under cooperative influence, and the role of cooperation on the international political scene. (6 credits)

ECONOMICS N-476 (482)
Econometrics I
Prerequisites: Economics N-270 and N-271, or equivalent; and either Mathematics N-207 and Economics N-375, or Quantitative Methods 243 and 244, or Mathematics N-241, or equivalent. A study of the econometric problems generally associated with single equation multiple regression analysis. A knowledge of basic matrix algebra and mathematical statistics is required. (3 credits)

ECONOMICS N-477 (483)
Econometrics II
Prerequisite: Economics N-476 or equivalent. In the first part of this course there will be a brief discussion of the estimation problems associated with simultaneous equation econometric problems. The second will be devoted to the analysis of certain specific economic models proposed in the literature. (3 credits)

ECONOMICS N-490 (491)
Study in a Special Subject
Prerequisite: Permission of the Department. This course is designed primarily for honours and major students. Its purpose is to provide an opportunity for advanced students to intensify their study beyond the traditional areas of specialization already represented by the curriculum. The selected subject will vary with the special interest of the instructor offering the course in any given year. (6 credits) NOTE: See § 200.1

ECONOMICS N-491 (492)
Study in a Special Subject
A student repeating Economics N-490 registers for credits under Economics N-491. (6 credits)

ECONOMICS N-493 (493)
Study in a Special Subject
Prerequisite: Permission of the Department. This course is designed primarily for honours and major students. Its purpose is to provide an opportunity for students to intensify their study beyond the traditional areas of specialization already represented in the curriculum. The selected subject will vary with the special interest of the instructor offering the course in any given year. (3 credits) NOTE: See § 200.1

ECONOMICS N-494 (494)
Study in a Special Subject
Prerequisite: Permission of the Department. A student repeating Economics N-493 registers for credits under Economics N-494. (3 credits)
### 41.16 Department of Education

**Associate Professor and Chairman of the Department**  
JITENDRA BHATNAGAR

**Professors**  
HAROLD ENTWISTLE  
JOHN HARRISON

**Associate Professors**  
GARY BOYD  
GARY COLDEVIN  
P. DAVID MITCHELL

**Assistant Professors**  
CAROLIE COATES  
DENNIS DICKS  
MONA FARRELL  
FRANCES FRIEDMAN  
ARPI HAMALIAN  
GEORGE HUNTLEY  
WILLIAM KNITTER  
HOWARD PETERSON

**Visiting Assistant Professors**  
JEFFREY DEREVENSKY  
KENNETH LORIMER

**Lecturers**  
GEOFFREY FIDLER  
ELLEN JACOBS  
CAROLYN LAVERS  
FLORENCE STEVENS

### 41.16.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences *must* be read in conjunction with § 41.3

#### 72 BA Honours in Education and Philosophy

41.16.2 CERTIFICATE IN EDUCATION

The Department of Education offers a 30 credit programme leading to the Concordia University Certificate in Education and certification from the Provincial Department of Education.

**Admission Requirements**
1. Evidence of full-time employment with a recognized educational institution in Quebec.
2. Possession of a Quebec Provisional Teaching Authorization.

**Courses**
- Education N-2016
- Education N-2106
- either Education N-4016, or Education N-4026, or an equivalent course in teaching methodology.

41.16.3 COURSE DESCRIPTIONS

For programmes which may be of particular interest to teachers, see § 141

**EDUCATION N-201 (212)**
The Nature and Function of Teaching
An introduction to the purpose, theories and methods of teaching. (6 credits)

**EDUCATION N-202 (202)**
Introduction to Early Childhood Education
Prerequisite: Enrolment in Early Childhood Education major. This course provides an introduction to Early Childhood Education through an examination of curriculum planning for nursery schools, kindergartens and day care centres and their historical background, organization, and objectives. Students are required to participate in assigned preschool and day care programmes six to eight hours a week for two terms. (6 credits)

**EDUCATION N-210 (210)**
Psychology of Education
This course will introduce the student to a broad range of content in educational psychology, including its scope and methods, learning motivation, growth and development, adjustment, individual differences, guidance, and concept of self. (6 credits)

**EDUCATION N-230 (230)**
Introduction to Philosophy of Education
This course will introduce the student to the content and form of several major educational theories, and to conceptual and logical procedures of philosophizing about education with particular reference to teaching and learning. (3 credits)

**EDUCATION N-261 (261)**
Subject Methods of Early Childhood Education
Prerequisite: Enrolment in Early Childhood Education. Students in this course will be concerned with the following topics: art, music and dance, drama, language, number, and environmental studies. They will specialize in three topics. (16 credits)

**EDUCATION N-311 (311)**
Technology for Educational Change
This course comprises a systematic introduction to the role of technology in facilitating educational alternatives. The following topics may be considered: mass communications, computer-based systems, audio-visual instrumentation, simulation and gaming, behaviour science technology, instructional design, learner-controlled instruction, artificial intelligence. (6 credits)

**EDUCATION N-315 (215)**
Developmental and Educational Psychology of Early Childhood
Prerequisite: Second year standing in Early Childhood Education major or permission of the Department. This course will study the affective and cognitive development of the child from birth to six years with particular reference to the way in which familial and educational factors interact to influence the child’s behaviour. Observation of the preschool child in both home and school settings for six hours a week for two terms is a course requirement. (6 credits)

**EDUCATION N-390 (390)**
Current Issues in Education
A consideration of a contemporary issue or issues in education. The issues studied may differ from year to year. (3 credits) NOTE C/ See § 200.1

**EDUCATION N-391 (391)**
Current Issues in Education
Prerequisites: Education N-390 and permission of the Department. A student repeating N-391 registers for credits under Education N-391 (3 credits)

**EDUCATION N-392 (392)**
Problems in Education
A cross-disciplinary or integrated approach to an educational problem or problems. The problem studied may vary from year to year. (3 credits) NOTE C/ See § 200.1

**EDUCATION N-393 (393)**
Problems in Education
Prerequisites: Education N-392 and permission of the Department. A student repeating N-393 registers for credits under Education N-393 (3 credits)

**EDUCATION N-401 (401)**
Special Methods of Teaching—Elementary
This course is offered only to students enrolled in the Certificate in Education Programme. It will deal with methods of teaching in the elementary school; emphasis will be placed on practical application of educational theories. (3 credits)

**EDUCATION N-402 (402)**
Special Methods of Teaching—Secondary
This course is offered only to students enrolled in the Certificate in Education Programme. This course will deal with methods of teaching a high-school subject. The course will be individually designed to suit the student’s field of specialization. (3 credits)
EDUCATION N-415 (415)
Education of the Slow-Learning Child
Prerequisite: Education N-210 or N-315.
This course will describe the cognitive, social and emotional problems of slow-learning children and discuss educational techniques for coping with these problems. (3 credits)

EDUCATION N-416 (455)
Education of the Gifted
Prerequisite: Education N-210 or N-315.
This course will discuss the special educational problems of gifted children; it will also assess the effectiveness of the techniques usually employed to deal with these problems. (3 credits)

EDUCATION N-417 (442)
Education of the Culturally Disadvantaged
Prerequisite: Education N-210 or N-315.
This course will describe the cognitive, social and emotional problems of culturally disadvantaged children and discuss educational techniques for coping with their problems. (3 credits)

EDUCATION N-421 (421)
Sociology of Education
Prerequisite: Sociology N-210. The social organization of education activities. The role of educational institutions in socialization, social control and technology. Education and stratification, mobility and social change. (6 credits)

EDUCATION N-430 (411)
Philosophy of Education
Prerequisite: 3 credits at university level in Philosophy or Education N-230. The application of philosophical method with particular reference to the aims, methods, discipline and context of education is considered in this course. Students will be expected to become familiar with the principal authors and with the current periodical literature in the field of philosophy of education. (6 credits)

EDUCATION N-441 (431)
History of Educational Ideas
Prerequisite: 3 credits in History at university level. In this course students will study major educational ideas and, more particularly, the history of education in Quebec. (3 credits)

EDUCATION N-442 (422)
History of Education in Canada
Prerequisite: 6 credits in Canadian History. It is advisable that students have a reading knowledge of French. This course will study the history of education in Canada and, more particularly, the history of education in Quebec. (3 credits)

EDUCATION N-451 (451)
Comparative and International Education
Prerequisite: 6 credits in Education. The study of educational systems at home and abroad with particular emphasis on educational practice in the United States, the United Kingdom, Western Europe, the Soviet Union, China and the Third World. (6 credits)

EDUCATION N-453 (453)
Education in Quebec
Students in this course will study the contemporary movements in and structures of Quebec education. (3 credits)

EDUCATION N-460 (460)
Early Childhood Education Internship
Prerequisite: Third-year standing in Early Childhood Major. This course involves a supervised nursery school or kindergarten teaching internship of 5 half-days or 2½ full days a week for one semester. In addition, students will participate in weekly seminar discussions of related methodological and developmental concerns. The topics will include behaviour management, language development, reading, writing, children's literature and drama, mathematics, science, health, safety and social studies. (6 credits)

EDUCATION N-461 (461)
Issues in Early Childhood Education
Prerequisite: Enrolment in Early Childhood major. This course will provide a study of alternative practices and theories of education for preschool and kindergarten children. (6 credits)

EDUCATION N-465 (459)
Adult Education
Prerequisite: 6 credits in Education. This course will study the history, philosophy, organization and special problems of formal and informal adult education, with particular reference to current developments in Canada. (3 credits)

EDUCATION N-471 (471)
Supervised Internship
This course is offered only to students enrolled in the Certificate in Education Programme. Teaching internship will be carried out in the school where the student is employed. The students will be supervised and their teaching performance evaluated. The students are expected to demonstrate positive evidence of teaching competence and professional behaviour. (6 credits)

EDUCATION N-480 (490)
Honours Essay in Education
Open to third-year students in honour's in Education and Philosophy (or to others by permission of the Department). (6 credits)

EDUCATION N-490 (412)
Seminar in Epistemology and Education
Prerequisite: Education N-430 or permission of the Department. Theories of knowledge are considered in this course, with special attention being given to the bearing of such topics as perception, evidence, truth, knowing and belief on educational thought and practice. Students will be expected to become familiar with recent periodical and other literature in the field. (3 credits)

EDUCATION N-491 (413)
Seminar in Ethics and Education
Prerequisite: Education N-430 or permission of the Department. Students in this course will study the principles and methods of moral justification in education. They will be referred to the writing of main authors and recent periodical literature. (3 credits)

EDUCATION N-492 (492)
Seminar in Aesthetics and Education
Prerequisite: Education N-430 or permission of the Department. The nature of aesthetic value and experience, and theories of art and beauty will be examined. The development of the emotions and imagination and their functions in aesthetic awareness are central concerns of this course. Students will be expected to become familiar with the relevant literature in the field. (3 credits)

EDUCATION N-493 (493)
Seminar in Philosophy and Education
Prerequisite: Education N-430 or permission of the Department. This is an advanced seminar in philosophical analysis and theory in which students will present papers on, and conduct discussions about, educational concepts, aims and practices. Students will be expected to become familiar with the periodical and other
literature in the areas under discussion. (3 credits)

EDUCATION N-497 (497)
Selected Topics in Education
Prerequisite: Education N-201, or one year’s teaching experience, or permission of the Department. Special topics accommodating the interests of the instructor and students. The topics studied may differ from year to year. (3 credits) NOTE: C: See § 200.1

EDUCATION N-498 (498)
Selected Topics in Education
Prerequisite: Permission of the Department. A student repeating Education N-497 registers for credits under Education N-498. (3 credits)

These courses were given in the summer of 1975.

EDUCATION N-403/1503
Media and the Young Child (6 credits)

EDUCATION N-463/1563
Developmental Experiences for Preschool and Kindergarten Children (6 credits)
41.17 Department of Geography

Associate Professor and Chairman of the Department
DAVID FROST

Professor
DONALD FRASER

Associate Professors
MURIEL BROOKFIELD
RONALD BRYANT
HARRY CLINCH
MICHAEL MARSDEN
BRIAN SLACK
JAMES YOUNG

41.17.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

60 BA Honours in Geography

Pattern A Physical Geography
Year I
18 Geog N-2116, N-2603, N-2613, N-2716
Years II & III
12 Geog N-3416, N-3623, N-3913
18 Geog N-3716, N-3726, N-3736, N-4753, N-4763
6 Geog Elect (excluding those listed above)
Year III
6 Geog N-4916

*NOTE: During the year the Department of Geography will hold a series of field trips outside of the regular scheduled class times. All honours students will be required to participate in at least five such trips during the course of their undergraduate programme.

60 BA Honours in Geography

Pattern B Human Geography
Students following this pattern may emphasize Historical Geography.
Year I
18 Geog N-2116, N-2603, N-2613, N-2716
Years II & III
12 Geog N-3416, N-3623, N-3913
18 Geog N-3166, N-3226, N-3236, N-4126, N-4226
6 Geog Elect (excluding those listed above)
Year III
6 Geog N-4916

*NOTE: During the year the Department of Geography will hold a series of field trips outside of the regularly scheduled class times. All honours students will be required to participate in at least five such trips during the course of their undergraduate programme.
SIR GEORGE WILLIAMS FACULTY OF ARTS
DEPARTMENT OF GEOGRAPHY: PROGRAMMES

60 BA Honours in Geography

Pattern C Economic Geography
Students following this pattern may emphasize Urban Geography.

Year I
18 Geog N-2116, N-2603, N-2613, N-2716

Years II & III
12 Geog N-3416, N-3623, N-3913
18 Geog N-3316, N-3503, N-3513, N-3556, N-3576, N-4016, N-4516, N-4576
6 Geog Elec
(excluding those listed above)
Year III
6 Geog N-4916

NOTE: During the year the Department of Geography will hold a series of field trips outside of the regularly scheduled class times. All honours students will be required to participate in at least five such trips during the course of their undergraduate programme.

60 BA Specialization in Geography

Pattern A Physical Geography

18 N-2116, N-2603, N-2613, N-2716
18 N-3416, N-3623, N-3913
18 N-3716, N-3726, N-3736, N-4753, N-4763
or an approved 6-credit option outside Geography
12 Geog Elec

60 BA Specialization in Geography

Pattern B Human Geography

Students may emphasize Historical Geography.

18 N-2116, N-2603, N-2613, N-2716
12 N-3623, N-3913, N-3416
18 N-3169, N-3226, N-3236, N-4126, N-4226 or an approved 6-credit option outside Geography
12 Geog Elec

60 BA Specialization in Geography

Pattern C Economic Geography

Students may emphasize Urban Geography.

18 N-2116, N-2603, N-2613, N-2716
18 N-3416, N-3623, N-3913
18 N-3316, N-3503, N-3513, N-3556, N-3576, N-4016, N-4516, N-4576
or an approved 6-credit option outside Geography
12 Geog Elec

42 BA Major in Geography

18 Geog N-2116, N-2603, N-2613, N-2716
12 N-3416, N-3623, N-3913
12 Geog Elec

30 Minor in Geography

12 Geog N-2116, N-2716
6 Geog N-2603, N-2613
12 Geog Elec

41.17.2 COURSE DESCRIPTIONS

GEOGRAPHY N-211 (211)
Introduction to Human Geography
A study of the evolution of the earth’s populated area and the gradual enlargement of geographical horizons. The emphasis will be on cultural distributions, landscape and settlement, and the geography of economic, social, and political activities. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY—INTERDISCIPLINARY STUDIES N-212 (212)
Early Man
An examination of the scientific evidence for the unwritten part of man’s evolutionary history. The course will study both food-gathering and food-producing man. Biological and cultural evolution will be considered from both a temporal and a spatial viewpoint against a background of changing natural environment. (6 credits) NOTE A/See § 200.1
NOTE: Students who have taken Geography—Interdisciplinary Studies N-321 may not take this course for credits.

GEOGRAPHY N-260 (260)
Introduction to Cartography I
A study of the map as a tool of the geographer. Assignments of a practical nature will emphasize the history, design, drawing and use of maps. Additionally, the course will focus on the use and application of qualitative and quantitative materials and methods as they relate to modern cartography. Lectures and laboratory. (3 credits)
NOTE: Students who have credits for 060 or 061; or N-260 or 261 before 1973-1974 may not take this course for credits.
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY N-261 (261)
Introduction to Cartography II
Prerequisite: Geography N-260 or permission of the Department. A study of the map and its use in portraying different types of information in various ways. Additionally, the course will focus on the use of air photos and their interpretation as an aid to the cartographer. Design balance and drawing skills are further developed. Lectures and laboratory. (3 credits)
NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY N-271 (231)
The Natural Environment
An introduction to the earth sciences as they relate to the environment of man, with special emphasis on weather, climate and the evolution of landscape. (6 credits) NOTE A/See § 200.1

GEOGRAPHY N-273
The Sea
A physical, historical, and human geography of the world ocean. The course includes an introduction to oceanography, navigation, and elementary geophysics, as well as an account of...
travels and discovery ending with modern geographical exploration of the deeps. Topics include coasts and islands; ports, ships, and shipping; submarine topography; waves, tides, and earthquakes; marine life, fish and fisheries. (6 credits) NOTE A: See § 200.1.

GEOGRAPHY N-316 (416)
Cultural Geography
Prerequisite: Geography N-211 or second year standing in an honours, specialization, or major programme in the Social Sciences. Cultural Geography is concerned with the application of the concept of culture to geographic problems. Attention is focused on the spatial distribution of material and non-material elements of culture (culture areas); on the processes of cultural, temporal and spatial change; on the relationships between man and land (cultural ecology); and especially on how these relationships are reflected in different ensembles of man and land (cultural landscapes). (6 credits)

GEOGRAPHY N-322 (421)
Historical Geography of the United States
Prerequisite: Geography N-211 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences. A study of the patterns of colonization and settlement. Some emphasis will be placed on the evaluation of various approaches used in the writing of historical geography. (6 credits) NOTE A: See § 200.1.

GEOGRAPHY N-323 (411)
Historical and Political Geography of Europe
Prerequisite: Geography N-211 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences. A regional survey of the geographical evolution of European nations and states. Consideration will be given to cultural differentiation and to the distribution of population. (6 credits) NOTE A: See § 200.1.

GEOGRAPHY N-331 (431)
Urban Geography
Prerequisite: Geography N-211, or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or the Faculty of Commerce. A study of the prehistoric town, the Greek and Roman town, towns in the Middle Ages, the trading city, the industrial town and the modern metropolises. The distribution of such towns, their development, growth and internal pattern of organization will be looked at from an historical and geographical point of view. Problems of concentrations and large metropolitan cities in the present age will be discussed and evaluated. Special emphasis will be given to Canadian cities, to their site, function, organization, growth and development as well as to urban problems relating to zoning, transportation, urban renewal, etc. (6 credits) NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY N-341 (441)
Regional Geography of Canada
Prerequisite: Geography N-211 or N-271 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or the Faculty of Commerce. A study of Canada, past and present, based on an examination of the natural regions into which the country is divided. In the first half of the course an historical and geographical approach will be taken to bring to the student's attention the main trends in Canadian cultural and historical development from aboriginal times to the present. The changing nature of man-land relationships at different periods of time, and under different forms of occupancy, will receive particular attention. In the second half of the course the present day pattern of human occupancy on a regional and national basis will be analyzed. (6 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.

GEOGRAPHY N-345 (445)
The Geography of a Selected Region
Prerequisite: Geography N-211 or N-271, or second year standing in Arts. A detailed examination of the physical environment, the people, their history, and the present political and economic patterns within the region. The course will provide a deep understanding of the interrelationships between the constituents of the region, an appreciation of those factors responsible for regional unity and will also illustrate the holistic nature of the geographical discipline. (6 credits)

NOTE: With permission of the Department a student may take this course twice for credits, provided that a different region is considered. Such a student would register for Geography N-346 (446). In alternate years beginning 1976-77 this course will focus on the Geography of the USSR.

NOTE: This course may be taken for credits in the Russian Studies Programme.

GEOGRAPHY N-346 (446)
The Geography of a Selected Region
Prerequisite: Permission of the Department. A student repeating Geography N-345 registers for credits under Geography N-346. (6 credits)

GEOGRAPHY N-350 (458)
Geography of Agriculture
Prerequisite: Twelve credits in Geography or permission of the Department. Classification of agriculture systems, food production in relation to new biological, cultural and marketing developments. There will be some consideration of land use mapping and land potential assessment. (3 credits)

GEOGRAPHY N-351 (351)
Forest Geography
Prerequisites: Geography N-211 and N-271 or enrolment in an honours, specialization, or major programme in the Department of Biology. A study of the natural development and distribution of world forests, their modification by human interference and the economic impact of forest management. Actual problems will be examined in a Quebec context both in class and in the field. (3 credits)

GEOGRAPHY N-355 (455)
Spatial Organization
Prerequisite: Geography N-211 or second year standing in an honours, specialization, or major programme in the Social Sciences or in the Faculty of Commerce. A study of how man organizes spatial activities with the emphasis on the concepts of spatial interaction, location of activities, diffusion and individual decision. (6 credits)

GEOGRAPHY N-357 (457)
Resource Utilization and Conservation
Prerequisite: Geography N-211 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or the Faculty of Commerce. The resource concept and concepts of conservation. The regional approach to resource management. Case studies of the problems in developing particular natural resources and of interstate areas of poor economic health, with emphasis on the regional and national parts of such developments. Special emphasis will be given to Canadian problems and those of selected underdeveloped countries. (6 credits)

GEOGRAPHY N-362 (242)
Quantitative Geography I
Prerequisite: Geography N-261. An intro-
ductory course in the applications of descriptive and analytical statistical techniques in Geography. Lectures and laboratory. (3 credits)

NOTE: A/See § 200.1

NOTE: Only 6 credits will be given from Economics N-375; Geography N-362 and N-363; Mathematics 241; Quantitative Methods 243 and 244; Sociology N-241; Psychology N-241 and N-242.

NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOPHGRAPHY N-363 (243)
Quantitative Geography II
Prerequisite: Geography N-362. A study of selected multivariate techniques and their application in geography. Practical projects using computer facilities will be assigned. A course in Computer Science would be an asset. (3 credits)

Note A/See § 200.1

NOTE: Only 6 credits will be given from Economics N-375; Geography N-362 and N-363; Mathematics 241; Quantitative Methods 243 and 244; Sociology N-241; Psychology N-241 and N-242.

GEOPHGRAPHY N-371 (471)
Biogeography
Prerequisite: Geography N-271 or second year standing in an honours, specialization, or departmental major programme in Science. A study of the distribution of plants and animals with emphasis on their soil and climatic interrelations. Relevant field trips are included. (6 credits)

GEOPHGRAPHY N-372 (472)
Environmental Analysis
Prerequisite: Geography N-271 or second year standing in an honours, specialization, or departmental major programme in Science. A review of modern theories and techniques in geomorphology, hydrology, pedology, denudation chronology and landscape classification. The course includes a discussion of the Pleistocene Epoch in terms of applied research methods. (6 credits)

GEOPHGRAPHY N-373 (473)
Climatology
Prerequisite: Geography N-271 or second year standing in an honours, specialization, or departmental major programme in Science. The broad aspects of world regional climates considered from the point of view of both physical and dynamic climatology. The course includes practical work. (6 credits)

GEOPHGRAPHY N-391 (461)
History of Geographical Thought
Prerequisite: Eighteen credits in Geography. A study of the development of the field of geography from ancient times down to the present. Representative geographical works of the Greeks, the Romans and of the Middle Ages, the Age of Discovery, the 19th and 20th centuries will be examined and discussed. The present day concepts of the field and function of geography will receive special attention. (3 credits)

GEOPHGRAPHY—URBAN STUDIES N-401
Applied Urban Studies
Prerequisites: Geography N-211 or Urban Studies N-260; Geography N-331 previously or concurrently. A study of the contemporary city with emphasis on the problems arising from urban growth. Attention will be given to the possibilities for planned development including New Towns. The material will be presented by films, tapes and special readings and there will be a discussion each week. (6 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOPHGRAPHY N-412 (412)
Political Geography
Prerequisite: Geography N-316 or permission of the Department. A systematic approach to political geography, on the international and intra-state scales. Emphasis will be on the role of geopolitics and on the interaction of socioeconomic fields with politico-administrative spatial structures. (6 credits)

GEOPHGRAPHY N-422 (422)
Historical and Political Geography of Quebec and Ontario
Prerequisite: Geography N-211, N-341 or permission of the Department. A study of an historical nature of past geographic patterns, economic, social, cultural and political, in Quebec and Ontario. (6 credits)

GEOPHGRAPHY N-451 (452)
Special Seminar in Economic Geography
Prerequisites: Geography N-211, N-355, N-362 or permission of the Department. This course will provide opportunities to senior students for discussion and advanced study. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. (6 credits)

NOTE: In 1976-77 the topic will be Spatial Disparities in Canada.

GEOPHGRAPHY N-457 (460)
Geography of Transportation
Prerequisites: Geography N-211, N-331 or N-355 or permission of the Department. A study of patterns of transport facilities and traffic flows. Emphasis will be on general concepts of route alignment, network layouts, and on applications of spatial interaction models to economic flows. (6 credits)

NOTE: Prior to 1976-77 this course was a 3-credit course.

NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOPHGRAPHY N-466 (466)
Applied Cartography
Prerequisites: Geography N-261 and twelve additional credits in Geography. Advanced techniques in map and diagram making and usage related to all aspects of human and physical geography, with special emphasis on the practical solution of cartographic problems. Practice periods and assignments. (6 credits)

GEOPHGRAPHY N-475 (475)
Hydrology I
Prerequisite: Geography N-271, one of Geography N-371, N-372, or N-373 or final year standing in Science or Engineering. Theories and practice of hydrology with emphasis on geographical aspects and resource utilization. Includes introduction to glaciology. (3 credits)

NOTE: A/See § 200.1

GEOPHGRAPHY N-476 (476)
Hydrology II
Prerequisite: Geography N-475. Soil moisture experiments, textural analysis, hydrological models and field trips. (3 credits)

NOTE: A/See § 200.1

GEOPHGRAPHY N-491 (492)
Research Methods
Prerequisite: Final year standing in Honours Geography. A selected review of the methods and techniques used to acquire and process original geographical information in the field and laboratory. Includes field work and practical sessions. (6 credits)
These courses were given in the summer of 1975.

GEOGRAPHY N-319/1
Applied Social Geography (6 credits)

GEOGRAPHY N-329/1
The Fur Traders of Montreal and the Geography of Canada (6 credits)

GEOGRAPHY N-345/1
West Africa

</table>

*Six of these credits may be taken in Year III.
41.18.2 COURSE DESCRIPTIONS

HISTORY N-210 (213)
History of Europe in the Modern World
A survey of the history of European civilization. An attempt is made to present and analyze in an integrated way all aspects of European society and culture in its rise to a dominant world position. (6 credits). NOTE A: See § 200.1

HISTORY—CLASSICS N-212 (212)
History of Greece and Rome
A political, cultural and social history of Greece and Rome from the Mycenaean Age to the death of the Emperor Nero (68 A.D.), with special emphasis on fifth-century Athens and Rome of the Republic and Early Empire. No knowledge of Latin or Greek is required. (6 credits). NOTE A: See § 200.1

HISTORY—CLASSICS N-214 (214)
History of the Roman Empire
A political, cultural and social history of the Roman Empire from the death of the Emperor Nero to Justinian the Great. Attention will be paid to the rise of Christianity, and the continuity of Roman law and administration in both the eastern and western parts of the Late Roman Empire. No knowledge of Greek or Latin is required. (6 credits).

HISTORY N-221 (221)
History of Canada
A study of the growth of Canada from the age of exploration to the present time. Emphasis is placed on the political, economic and cultural developments which are of significance in the understanding of the problems of today. (6 credits). NOTE A: See § 200.1

HISTORY N-251 (251)
History of the United States
An analysis of the development of the United States, emphasizing the formation of classes and interest groups in early America, the significance and impact of slavery, the sectional battle over national power and its resolution through Civil War and Reconstruction, the development of the modern corporation, the organization of the labour movement, the impact of racism, and the course of American Expansion. (6 credits). NOTE A: See § 200.1

HISTORY N-261 (261)
History of Asia
A survey of the major intellectual traditions, social structures and political institutions of South and East Asia, with particular attention to the changes in the societies of India and China during the past two centuries. (6 credits). NOTE A: See § 200.1

HISTORY N-281 (281)
Historical Perspectives on Contemporary Issues
A thematic and comparative historical approach to contemporary issues. The course will cross national boundaries to consider major current problems from a variety of historical perspectives. (6 credits). NOTE A: See § 200.1

HISTORY N-321 (423)
British North America: 1760-1873
Prerequisite: History N-210 or N-221. An advanced study of the history of British North America from the British conquest and American Revolution to Confederation. The course will focus on historical topics and problems of interpretation, organized according to the regions of British North America. (6 credits).

HISTORY N-322 (424)
Modern Canada: 1840 to the Present
Prerequisite: History N-210 or N-221. An intensive study of the political, economic and cultural development of Canada since the Act of Union. (6 credits) NOTE A: See § 200.1

HISTORY N-323 (422)
French Canada to 1763
Prerequisite: History N-210 or N-221. An intensive study of Canada during the colonial
HISTORY N-325 (425)
French Canada: 1763-1867
Pre requisite: History N-210 or N-221. An intensive study of French Canada from the Conquest to Confederation. Much of the material will be in French. (6 credits)

HISTORY N-326 (426)
Quebec: 1867 to the Present
Pre requisite: History N-210 or N-221 previously or concurrently. An intensive study of Quebec since Confederation. While due attention will be paid to the political history of Quebec, the purpose of the course is to provide a study of the social, economic and cultural institutions of Quebec. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY N-328 (328)
Women in Western History
A review of the position and roles of women in Western history prior to the 17th century. Beginning with the 17th century, a more detailed discussion of these themes and close scrutiny of selected problems having to do with the roles of women in Europe, Canada and the United States during the last two centuries. Among the problems to be treated will be the history of the Feminist movements, the relationship of women to the process of industrialization and the impact of the world wars of this century on the condition of women. (6 credits)
NOTE: This course may be taken for credits in the Women's Studies Programme.

HISTORY N-331 (412)
History of Mediaeval Europe
Pre requisite: Second year standing. A study of the society and institutions of mediaeval Europe from the fall of Rome to the end of the 15th century. (6 credits)

HISTORY N-332 (414)
History of Early Modern Europe, 1400-1640
Pre requisite: History N-210. European history in the Renaissance and Reformation periods. Special attention is given to the shift from Mediaeval to Renaissance civilization in Italy and to the development of early modern societies in Northern Europe. Specific analytical focus is placed on studying the nature of, and relationships between, pre-modern economic, social and cultural structures. Issues involved in the transition to modern societies on different national bases are also stressed. (6 credits)

HISTORY N-333 (415)
Enlightenment and Revolution, 1640-1848
Pre requisite: History N-210. European history in the age of the French Revolution, including a study of the scientific and industrial revolutions. (6 credits)
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

HISTORY N-335 (442)
Social and Intellectual History of Early Modern Europe
Pre requisite: History N-210. A study of change and continuity in European society and culture, 1300-1650. Problems studies include feudal-capitalist relationships, the Italian Renaissance, Northern State Development, Protestant Reformation, Scientific Revolution and European Colonial expansion. Methodological issues will be emphasized. (6 credits)

HISTORY N-336 (444)
Social and Intellectual History of Modern Europe
Pre requisite: History N-210. The intellectual systems arising in Europe since the 17th century will be explored in the context of the economic and social circumstances which engendered them. This course will begin with the rise of theories of "possessive individualism" and will end with the contemporary cultural crisis. While attention will be paid to the general dynamics of culture, special attention will be devoted to the social functions of particular ideologies. (6 credits)

HISTORY N-337 (413)
History of European Diplomacy, 1870 to the Present
Pre requisite: History N-210 or Political Science N-385. An intensive study of the relations amongst the Great Powers of Europe from the Franco-Prussian War to the present. (6 credits)

HISTORY N-341 (441)
History of Russia
Pre requisite: History N-210. This course traces the origins of the Slavic-speaking peoples in Europe and the emergence of the Russian Empire. After a discussion of the ideology and history of Bolshevism, it studies the history of communist government in the U.S.S.R. and among the Slavic peoples. (6 credits)
NOTE: This course may be taken for credits in the Russian Studies Programme.

HISTORY N-345 (431)
History of Britain since 1460
Pre requisite: History N-210; students honouring in English may register without pre­ requisite. A survey of the political, economic and social development of modern England. Emphasis is placed on the evolution of parli­ amentary government in the early period, on the economic changes of the 18th and 19th centuries and on the modern growth of democracy and the social service state. (6 credits)

HISTORY N-346 (416)
Europe—1848-1918
Pre requisite: History N-210. A study of the internal development and external relations of the most important states of Western Europe from 1848 to 1918. (6 credits) NOTE A/See § 200.1

HISTORY N-347 (418)
Europe—Since 1918
Pre requisite: History N-210. A study of the internal development and external relations of the Western states of Europe from 1918 to the present. (6 credits)

HISTORY N-351 (453)
Colonial and Early National History of the United States
Pre requisite: History N-210 or N-251 or permission of the Department. The period of colonization, the development of colonial institutions, the War of Independence and the emerging fabric of national life. (6 credits)

HISTORY N-352 (459)
Jacksonian Era, Civil War, and Reconstruction in the United States
Pre requisite: History N-210 or N-251 or permission of the Department. The development of American political, social and economic life in the 19th century, including sectionalism and expansion, the characteristics of plantation slavery as a social system, the coming of the Civil War, and the aims and outcome of Reconstruction. (6 credits) NOTE A/See § 200.1

HISTORY N-354 (456)
History of the United States since 1900
Pre requisite: History N-210 or N-251 or permission of the Department. This course ex-
HISTORY N-355 (455)
Foreign Relations of the United States  
Prerequisite: History N-210 or N-251 or permission of the Department. An analysis of United States foreign policy from 1776 to the present emphasizing the development of American expansion, America's foreign economic thrust, the origins of the Cold War, America's response to the challenge of revolution in Asia and Africa, and Latin American relations. (6 credits)

HISTORY N-358 (452)
Revolution and Counter-Revolution: The Background to Contemporary Latin America  
Prerequisite: History N-210 or enrollment in the major in Spanish. A survey of the roots of instability and reaction in Latin America. Attention will be paid to the following major themes: the impact of the conquest; the socioeconomic and political pattern of colonial Latin America; the character and significance of the wars of liberation; peasant and other popular movements; the origins and nature of modern liberation movements; the response of reaction. (6 credits)

HISTORY N-361 (461)
History of Modern India  
Prerequisite: History N-210 or N-261 or permission of the Department. A study of India, Pakistan and Bangladesh. The legacy of divergent cultural, linguistic and political experiences, the crisis of colonialism, and the emergence of national imperatives in the 20th century. (6 credits)

HISTORY N-362 (462)
Modern China  
Prerequisite: History N-210 or N-261 or permission of the Department. An intensive study of Chinese history since 1800 with emphasis on problems in political and intellectual history. (6 credits)

HISTORY N-363 (464)
Traditional China  
Prerequisite: History N-210 or N-261 or permission of the Department. An examination of Chinese history from the beginning to the Ch'ing dynasty (c. 1800). Emphasis will be placed on China's political, intellectual and cultural heritage. (6 credits)

HISTORY N-365 (481)
History of Africa  
Prerequisite: History N-210 or N-261. An analysis of African history, including Egypt and North Africa, from the beginnings of African societies to the present, emphasizing the rise of African kingdoms, the coming of Europeans and the slave trade, African responses to European imperialism and colonialism, and contemporary Africa's quest for autonomy, economic development, and the liberation of southern Africa. (6 credits)

HISTORY N-390 (472)
Historical Method  
Prerequisites: Twelve credits in History and written permission of the History programme adviser. A course in the application of modern historical criticism to a specific problem to be chosen in consultation with the instructor. (6 credits)

HISTORY N-391 (477)
Special Area Studies  
Prerequisite: A '200' level course in History. This course affords an opportunity to study a special theme in History, taking advantage of the particular interests of members of the Department. (6 credits)

HISTORY N-392 (478)
Special Area Studies  
Students who receive credit for History N-391 may take it again as History N-392, provided that a different subject is dealt with the second time. (6 credits)

HISTORY N-421 (421)
Advanced Study in Canadian History  
Prerequisite: A '300' level course in History or permission of the Department. Seminar in a selected topic in the History of Canada. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

HISTORY N-431 (434)
Advanced Study in European History  
Prerequisite: A '300' level course in History or permission of the Department. Seminar in a selected topic in the History of Europe. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

HISTORY N-445 (445)
Advanced Study in Russian and Soviet History  
Prerequisites: History N-210; History N-341 or permission of the Department. This course deals with specific problems in Tsarist and Soviet Russia. In the Pre-Revolutionary period attention is focussed on the emancipation of the peasantry, industrialization and the growth of the opposition parties. In the Soviet period emphasis is placed on the problems of economic growth, the changing pattern of Soviet Marxism and the nature of Soviet foreign policy. (6 credits)

HISTORY N-446 (446)
Advanced Study in the History of Science  
Prerequisite: Permission of the Department. Seminar in a selected topic in the History of Science. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

HISTORY—SCIENCE AND HUMAN AFFAIRS N-447 (447)
Advanced Study in American History  
Prerequisite: A '300' level course in History or permission of the Department. Seminar in a selected topic in the history of the United States. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)
HISTORY N-461 (463)
Advanced Study in Asian and African History
Prerequisite: A '300' level course in History or permission of the Department. Seminar in a selected topic in the history of Asia and Africa. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)
NOTE: This course may be taken for credits in the Asian Studies Programme.

HISTORY N-490 (474)
Honours Essay
Prerequisite: Honours students only. A course in the application of modern historical criticism to a specific problem to be chosen in consultation with the instructor. (6 credits)

HISTORY N-491 (473)
Advanced Study in a Special Subject
Prerequisite: Permission of the Department. This course, intended primarily for honours or major students, affords an opportunity for more intensive examination of a particular historical theme than is possible in the normal lecture course. The specific subject will vary according to the special interest of the professor offering the course in any given year. (6 credits) NOTE C/See § 200.1

HISTORY N-492 (475)
Advanced Study in a Special Subject
Prerequisite: Permission of the Department. A student repeating History N-491 registers for credits under History N-492. (6 credits)

HISTORY-SOCIOLOGY N-493 (493)
History and Sociology
Prerequisites: An introductory course in History and in Sociology and second or third year standing. An exploration of the relationships between historical and sociological approaches to the description and analysis of social conditions and social events, paying special attention to questions of methodology and conceptualization. (6 credits)
NOTE: This course may be counted for credits in either History or Sociology. Students who have taken History-Sociology N-456 may not take this course for credit.

These courses were given in the summer of 1975.

HISTORY N-348/1
The Origins of the Second World War (6 credits)

HISTORY N-392/1
Canadian Society: A Comparative Perspective 1890-1945 (6 credits)
41.19 Department of Political Science

Associate Professor and Chairman of the Department
HORST HUTTER

Associate Professors
HAROLD ANGELL
PARIS ARNOPOULOS
KLAUS HERMANN
LALITA SINGH

Assistant Professors
HARVEY SHULMAN
SUSAN SHELL

Visiting Assistant Professor
TERRENCE HEINRICHS

41.19.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3.

60 BA Honours in Political Sociology

18 Soc N-2106, N-3016, N-3026, N-436
18 Pol Sc N-2406, N-3116, N-4136
12 Soc N-4306, N-4316
Pol Sc N-3206, N-4156
12 Soc N-4403, N-4413, N-4436,
N-4466, N-4556, N-4716
Pol Sc N-3336, N-3346, N-3353
and N-4363, N-3516, N-4586
6 Soc N-4816, Pol Sc N-4916

60 BA Honours in Political Science

18 Pol Sc N-3116, N-4156, N-4916
18 Pol Sc N-2406, N-2706, N-3206,
N-3306
24 Elec selected from at least two of the four areas in Political Science

48 BA Major in Comparative Political Studies

18 Pol Sc N-2406, N-3116, N-4586
18 Pol Sc N-3306, N-3336, N-3366,
N-3516, N-3536, N-3556
12 Elec with relevant comparative or area studies content (with approval of the Department)

48 BA Major in International Affairs

33 Pol Sc N-2706, N-3116, N-3816,
N-4376, N-4836, N-4856
15 Elec with relevant international content in Political Science or from other departments (with approval of the Department)

48 BA Major in Political Philosophy

18 Pol Sc N-3116, N-3206, N-4136
6 Phil N-2106, N-2116
24 Phil N-3696, N-3726, N-3746,
N-3763, N-4016, N-4076, Pol Sc
N-4156, Soc N-4306

48 BA Major in Political Science

6 Pol Sc N-3116
18 Pol Sc N-2406, N-2706, N-3206,
N-3306
24 Elec selected from at least two of the four areas in Political Science
POLITICAL SCIENCE N-231 (291)
Elements of Public Law
This course is an introduction to Canadian Public Law emphasizing such areas as constitutional law, criminal law, administrative law, applications for bail, and consumer protection. In addition, the course will involve a study of the organization and functioning of the court system. (6 credits) \textit{NOTE A/See § 200.1}'

POLITICAL SCIENCE N-240 (211)
Comparative Politics
A course in comparative politics with special emphasis on the dynamics of the political process. Going beyond constitutional and institutional procedures, this course will include the study of informal realities of decision-making. Most of the illustrative content is based on a comparative study of Canada, the United States, Great Britain and France. (6 credits) \textit{NOTE A/See § 200.1}'

POLITICAL SCIENCE N-270 (421)
International Relations
A course in world affairs dealing with the political, ideological and cultural relations between states and the main characteristics of the global power system. (6 credits) \textit{NOTE A/See § 200.1}'

POLITICAL SCIENCE N-311 (431)
History of Political Theory
A critical study and analysis of such great thinkers as Plato, Aristotle, Machiavelli, Hobbes, Locke, Rousseau, Hegel, Bentham and Mill on problems of politics. This course is designed to give a survey of systematic political reasoning from the classical period up to the middle of the 19th century in an endeavour to show the foundations of modern political thought. (6 credits) \textit{NOTE A/See § 200.1}'

POLITICAL SCIENCE N-320 (420)
Problems and Concepts in Political Theory
A course in political theory emphasizing key concepts such as equality, liberty and power. The content of the course will include basic methodology and terminology to the extent that the thematic orientation in any given year requires its inclusion. (6 credits) \textit{NOTE A/See § 200.1}'

POLITICAL SCIENCE N-321 (425)
Women and the Law
A historical and comparative study of the
status of women as seen in different legal systems. The course will deal with women in relation to private, family and public law. The framework will be both legal, but will also include consideration of the social and political implications of women’s legal status. Special attention will be directed to Quebec and Canadian law. (6 credits)
NOTE: This course may be taken for credits in the Women’s Studies Programme.

POLITICAL SCIENCE N-330 (251)
Government and Politics of Canada
A study of the parliamentary system in Canada with emphasis placed upon the development and judicial interpretation of the British North America Act, the federal system, the nature and organization of political parties, the evolution of cabinet rule, the judicial structure and contemporary problems in Canada. (6 credits) NOTE A / See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

POLITICAL SCIENCE N-333 (441)
Problems of Public Administration
Prerequisite: Political Science N-240 or N-330. This course deals with the nature and function of the administrative branch of government. The student is introduced to such problems as the organization of government departments, management of government corporations, budgeting, selection and training of personnel, maintenance of morale and discipline, relationship between legislature and administration, relationship between the administration and the public. (6 credits)

POLITICAL SCIENCE N-334 (434)
Urban Politics
Prerequisite: Political Science N-240 or N-330. This course in the problems and prospects in urban politics with special emphasis on the processes of the local community. This course, although primarily dealing with urban politics in Canada, will also go beyond national boundaries for its comparative treatment. (6 credits) NOTE: This course may be taken for credits in the Urban Studies Programme.

POLITICAL SCIENCE N-335 (435)
Quebec Politics
Prerequisite: Political Science N-330. A study of the changing party structure and political issues in Quebec and their relationship to constitutional, cultural and economic factors. Some of the reading material will be in French. (3 credits)
NOTE: This course may be taken for credits in the Canadian Studies Programme.

POLITICAL SCIENCE N-350 (450)
Government and Politics of the United States
A study of American politics which will deal not only with formal political institutions such as the legislature, the executive and the judiciary, but also with the processes of government: public opinion, political parties, pressure groups, health and welfare, foreign policy and racial problems. (6 credits) NOTE A / See § 200.1

POLITICAL SCIENCE N-351 (412)
Political Systems of Western Europe
Mainly a comparative study of the political systems of Britain, France and Western Germany, but some consideration will be given to the smaller states in Western Europe, such as Switzerland and the Scandinavian countries. (6 credits)
NOTE: Students who have credits for Political Science N-351 or either Political Science 416 or 417 before 1959-70 may not take this course for credits.

POLITICAL SCIENCE N-355 (453)
Soviet and East European Politics
A study of the constitutional, political and administrative system of the Soviet Union and the East European states. Emphasis will be placed on the continuing evolution of the Communist system and the changing relationship between the Soviet Union and the other states. (6 credits) NOTE A / See § 200.1

POLITICAL SCIENCE N-355 (455)
The Politics of Developing Areas
A study of the politics and structure of government in developing areas such as Asia, Africa or South America against the background of social and economic change since World War II. The specific area which will be studied will vary from year to year depending on the interests of the instructor. (6 credits) NOTE A / See § 200.1
NOTE: This course may be taken for credits in the Asian Studies Programme.

POLITICAL SCIENCE N-381 (423)
International Law
This course will survey the theory and practice of international law from its traditional classical origins to the modern development with emphasis on the political and interstate relations aspects. The first half of the course will include basic concepts of the nature of law, state sovereignty, treaties, nationality, jurisdiction, recognition, arbitration and cases of international legal order, control of world conflicts, codification of law and settlement of disputes by the International Court of Justice, human rights and the relation of law to power politics. (6 credits) NOTE A / See 200.1

POLITICAL SCIENCE N-413 (432)
Modern Political Ideologies
Prerequisite: Political Science N-210 or 220 or N-311 or Philosophy N-271. This course will cover political theories of the 19th and 20th centuries, dealing with such ideologies as Liberalism, Conservatism, Marxism, Democratic Socialism and Fascism. (6 credits)

POLITICAL SCIENCE N-415 (433)
Political Analysis
Prerequisites: Political Science N-311 or N-320 and six other credits in Political Science. A study of the contemporary subject matter and methods of political science. The course deals with: 1) fundamental concepts, principles, institutions, and processes of politics; 2) methods, techniques, instruments and data of social sciences; 3) present theories, such as functionalism, behaviourism, formalism; 4) political ideals and their impact on policy making and social control. In addition to the theoretical analysis, critique and evaluation of the latest thinking in political science, the student will participate in testing and practical laboratory periods. (6 credits)

POLITICAL SCIENCE N-436 (451)
Canadian Federalism
Prerequisite: Political Science N-330. A critical and analytical study of the theory of federal government and its application to the nature, principles and techniques of federalism in Canada. The reaction of the federal system to the demands of cultural dualism and regional pressures. Some attention will also be given to the problems of provincial governments in their pressure on and adjustment to Dominion-Provincial relations. (3 credits)
NOTE: This course may be taken for credits in the Canadian Studies Programme.

POLITICAL SCIENCE N-437 (452)
Canadian External Affairs
Prerequisite: Political Science N-270 or N-330 or History N-337. This course will study Canada’s position in the world. The presentation will include an outline of the diplomatic history of Canada, as well as an analysis of its foreign and defence policies. Emphasis will be
POLITICAL SCIENCE—
SCIENCE AND HUMAN AFFAIRS
N-472 (472)
Science and Public Policy
Prerequisites: Science and Human Affairs
N-201, N-202 and one course in Political
Science or permission of the Department. The
relationship between science and government.
Particular emphasis is placed on such problems
as the role of the scientist in political decision-
making, the making of Canadian science policy,
the mix of basic, applied and mission-oriented
research, the relations of science and the mili-
tary, the nature of technocracy and the role of
science in economically developing nations. (6
credits) NOTE A/See § 200.1

POLITICAL SCIENCE N-483 (422)
International Organization
Prerequisite: Political Science N-270 or
N-385. The historical development of the con-
cepts of international organization with special
emphasis upon the 19th and 20th centuries. The
League of Nations and the United Nations with
its specialized agencies will be examined care-
fully. In addition, certain other international
bodies of a regional or specialized nature such
as EEC, OAS, OAU and regional integration
schemes in general will be considered. (6 credits)
NOTE A/See § 200.1

NOTE: Only 6 credits will be given from Politi-
ical Science N-221 or N-422

POLITICAL SCIENCE N-485 (485)
Diplomacy and Foreign Policy
Prerequisite: Political Science N-270. For-
eign and defence policies of the Great Powers;
diplomacy, military strategy and intelligence;
methods and techniques of policy-making and
enforcement (6 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in
the Asian Studies Programme.

POLITICAL SCIENCE N-491 (491)
Honours Seminar
Prerequisite: Third year honours standing or
permission of the Department. Students will
choose a topic from one of the various fields in
political science. Each student must prepare and
submit an appropriate research paper under the
supervision of the Department. (6 credits)
41.20 Department of Psychology

41.20.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3.

60 BA Honours in Psychology

\[\text{Year I}\]
12 Psyc N-2716 or N-2736, N-4126

\[\text{Year III}\]
6 Psyc N-4716 or equivalent
12 12 credits from the field of Psychology chosen in consultation with the Department.
PSYCHOLOGY N-211 (211)
Introductory Psychology

The purpose of this course is the development of an adequate understanding of known principles of behaviour and experience. The work includes a study of the sense organs and nervous system, perception, learning, memory, motivation and the basic needs, emotional reactions, personality development, adjustment and integration, abnormal personality, mental abilities and aptitudes, social aspects of behaviour and the applications of psychology. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-212 (212)
Selected Problems in Learning and Motivation A

Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in learning and motivation to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: operant behaviour; memory; teaching and learning; maternal behaviour; aggression; sleep. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY N-213 (213)
Selected Problems in Learning and Motivation B

Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in learning and motivation to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: operant behaviour; memory; teaching and learning; maternal behaviour; aggression; sleep. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY N-214 (251)
Selected Problems in Individual Differences A

Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in individual differences to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: creativity; intelligence; self-awareness and self-esteem; leadership. (3 credits)

PSYCHOLOGY N-215 (252)
Selected Problems in Individual Differences B

Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in individual differences to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: creativity; intelligence; self-awareness and self-esteem; leadership. (3 credits)

PSYCHOLOGY N-216 (216)
Experimental Psychology IA

Prerequisite: Psychology N-211. An examination of experimental method in psychology with an introduction to statistical techniques (primarily descriptive statistics) and laboratory experience in methodology appropriate to all areas of psychology. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-217 (217)
Experimental Psychology IB

Prerequisite: Psychology N-211; Psychology N-241 or N-242 previously or concurrently and permission of the Department. An examination of experimental method in psychology, with laboratory experience in techniques appropriate to important problem areas. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-241 (241)
Statistical Methods in Psychology A

Prerequisites: Any two CEGEP semester courses in mathematics. A basic course in the fundamentals of statistics for psychology and education. Topics include: the construction of frequency distribution; graphic presentation; measures of central tendency and dispersion; correlation and linear regression; elementary probability theory; the binomial distribution and the normal curve; sampling or the reliability of statistics and tests of significance; Chi square; analysis of variance; miscellaneous non-parametric techniques. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-242 (242)
Statistical Methods in Psychology B

Prerequisite: One Semester in Statistics and Probability, at the CEGEP level or equivalent. A course in the fundamentals of statistical inference for psychology. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-271 (271)
Experimental Psychology 1A

Prerequisite: Psychology N-211. An examination of experimental method in psychology with an introduction to statistical techniques (primarily descriptive statistics) and laboratory experience in methodology appropriate to all areas of psychology. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-273 (273)
Experimental Psychology 1B

Prerequisites: Psychology N-211; Psychology N-241 or N-242 previously or concurrently and permission of the Department. An examination of experimental method in psychology, with laboratory experience in techniques appropriate to important problem areas. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-302 (436)
Selected Problems in Development A

Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in development to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: perception of spoken and written language; developmental language disability; learning in infancy and early childhood; critical periods in early development. (3 credits)
PSYCHOLOGY N-303 (435)
Selected Problems in Development B
Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in development designed to allow the student to explore a problem to be announced each year. The course will be in considerable depth starting from first principles. Possible topics are: perception of spoken and written language; developmental language disability; learning in infancy and early childhood; critical periods in early development. (3 credits)

PSYCHOLOGY N-304 (440)
Selected Problems in Social Psychology A
Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in social psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: socialization of the child; social motives; interpersonal attraction; values, beliefs and attitude change; prescriptions for future man. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY N-305 (441)
Selected Problems in Social Psychology B
Prerequisite: Psychology N-211 or second year standing. This course will deal with a selected problem in social psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: socialization of the child; social motives; interpersonal attraction; values, beliefs and attitude change; prescriptions for future man. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY N-308 (308)
Learning Disabilities
Prerequisite: Psychology N-211 or second year standing. This course will deal with selected aspects of current theory, research and practice related to children's learning disabilities. (3 credits) NOTE A/See § 200.1
NOTE: Students who have credits for Psychology N-302 (436) as Learning Disabilities may not take this course for credits.

PSYCHOLOGY N-309 (409)
Selected Topics in Adolescence
Prerequisite: Second year standing. This course will deal with selected problems in the psychology of adolescence. The course will be designed to allow the student to explore these problems in considerable depth starting from first principles. Possible topics are: physical change, sexual and sex-related behaviours, socialization identification, intelligence and cognitive growth, school achievement and lifestyles. (3 credits) NOTE A/See § 200.1
NOTE: Students who have taken Psychology N-303 (435) on adolescence may not take this course for credit.

PSYCHOLOGY N-375 (275)
Directed Study and Research on a Selected Topic
Prerequisite: Psychology N-271, and Psychology N-241 or N-242, previously or concurrently, second year honours standing or permission of the Department. Under the supervision of a faculty member, the student is to carry out an independent research project and report it in writing. The area of study must be decided upon through consultation with the faculty member. Lectures and Laboratory (3 credits) NOTE A/See § 200.1
NOTE: Students who have credit for Psychology N-275 may not take this course for credits.

PSYCHOLOGY N-383
Sexual Differentiation
Prerequisites: Psychology N-211 and second year standing. This course will examine the physiological, genetic and social factors that determine sex identity and will consider how sex identity influences life patterns. The effects of these factors on social, motivational and cognitive development and adjustment will be studied. (6 credits)
NOTE: This course may be taken for credits in the Women's Studies Programme.

PSYCHOLOGY N-402 (450)
Selected Problems in the Application of Psychology A
Prerequisite: Second or third year standing. This course will deal with a selected problem in the application of psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: personnel selection techniques; rehabilitation, psychological foundations; criminal behaviour; behaviour disorders; sexual differentiation; drugs and behaviour. (3 credits)

PSYCHOLOGY N-403 (449)
Selected Problems in the Application of Psychology B
Prerequisite: Second or third year standing. This course will deal with a selected problem in the application of psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: personnel selection techniques; rehabilitation, psychological foundations; criminal behaviour; behaviour disorders; sexual differentiation; drugs and behaviour. (3 credits)

PSYCHOLOGY N-404 (404)
Selected Problems in Psychology A
Prerequisite: Second or third year standing. This course will deal with a selected problem in psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: personnel selection techniques; rehabilitation, psychological foundations; criminal behaviour; behaviour disorders; sexual differentiation; drugs and behaviour. (3 credits)

PSYCHOLOGY N-405 (405)
Selected Problems in Psychology B
Prerequisite: Second or third year standing. This course will deal with a selected problem in psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: personnel selection techniques; rehabilitation, psychological foundations; criminal behaviour; behaviour disorders; sexual differentiation; drugs and behaviour. (3 credits)

PSYCHOLOGY N-412 (412)
Modern Psychology in Historical Perspective
Prerequisite: Psychology N-211. This course consists of an outline of the history of psychology from early times up to the recent past. The work includes the ancient and medieval background of psychology; the early contributions from the fields of physics and physiology; psychophysics; and historical background of the various schools of psychological thought from the late nineteenth century to the present day. (6 credits)

PSYCHOLOGY N-413 (413)
Contemporary Problems in Psychology
Prerequisite: Third year honours students or permission of the Department. An intensive treatment of current major problem areas in psychology. (6 credits)

PSYCHOLOGY N-421 (421)
Learning
Prerequisite: Psychology N-271 or N-273. A study of empirical findings and theoretical issues in the fields of animal and human learning. Topics covered include conditioning, discrimination learning, transfer, verbal learning, and classic and contemporary theoretical issues. (6 credits)
PSYCHOLOGY N-422 (422)

Motivation
Prerequisite: Psychology N-271 or N-273. Causal analysis of (for example) sleep, hunger, pain, sex, conflict, self-actualization, territoriality, aggression, population-density-dependent behaviour, cooperation and competition. Theoretical and empirical approaches will be used. (6 credits)

PSYCHOLOGY N-428 (427)
Measurement in Psychology
Prerequisite: Psychology N-271 or N-273. A consideration of the general problems of measurement in psychology, including instrumentation and scaling procedures for measurement of psychological and physiological processes in the areas of sensation and perception, learning, social psychology and the psychology of individual differences. The use of various psychometric techniques in measurement of achievement, aptitude and personality will be appraised, and questions of reliability and validity of tests will be discussed. (6 credits)

PSYCHOLOGY N-432 (432)

Perception
Prerequisite: Psychology N-271 or N-273. The physiological bases of sensation and perception and their relation to the basic psychological phenomena encountered in vision, audition, and the other senses will be studied. Perception such as pattern perception and the perception of distance and movement will be analyzed. The effects of learning, motivation, and social factors upon perceptual processing will also be examined. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-434 (434)

Cognitive Processes
Prerequisite: Psychology N-271 or N-273. An investigation of the complex processes interrelating between the stimulus and the response. Topics discussed will include cognitive and language development, psycholinguistics, organization and memory, problem-solving, concept formation, creativity, and cognitive and language disability. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-438 (438)

Developmental Psychology
Prerequisite: Psychology N-271 or N-273. An experimental and comparative approach to human development from conception to old age, with emphasis on the period from birth to adolescence. Topics discussed will include language, social behaviour, intelligence, learning and perception. (6 credits)

PSYCHOLOGY N-442 (442)

Social Psychology
Prerequisite: Psychology N-271 or N-273. A study of social factors in the behaviour and attitudes of the individual and of groups, including a survey of the psychology of bias, prejudice, stereotypes, propaganda, opinion, individual and group morale, group dynamics and sociometry. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-452 (452)

Personality
Prerequisite: Psychology N-271 or N-273. The course surveys the various theories of personality and relationships between personality and behaviour. Individual differences in personality will be studied along with related factors such as age, sex, education, genetic and other physical factors, socio-economic level and other cultural factors. A brief survey and review of basic statistical concepts will be included along with a short introduction to personality measurement. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-454 (454)

Behaviour Disorders
Prerequisite: Psychology N-271 or N-273. A study of the etiology and description of behaviour and psychological disorders, including the psychoneuroses, psychoses and psychosomatic conditions. (6 credits)

PSYCHOLOGY N-461 (461)

Psychological Psychology
Prerequisites: Psychology N-211; and Psychology N-271 or N-273 or one full course in Physiology or General Biology at the CEGEP level or equivalent. This course attempts to relate neurophysiology to such psychological problems as learning, attention, and emotion. The topics treated include excitation and conduction in the neuron; synaptic mechanism; sensory and motor systems, the internal environment; the electrical activity of the brain. Emphasis is given to brain damage studies in animals and man, and the problem of localization of function in the nervous system. (6 credits)

PSYCHOLOGY N-462 (462)

Comparative Psychology
Prerequisites: Psychology N-211; Psychology N-271 or N-273 or one full course in Biology at the CEGEP level or equivalent. A study of behaviour from a comparative viewpoint. Topics of study will include evolutionary changes in brain and behaviour, behaviour genetics and specific aspects of behaviour such as sensory capacities, motivation, emotion, learning, cognitive abilities and social behaviour. (6 credits)

PSYCHOLOGY N-471 (471)

Experimental Psychology II
Prerequisites: Psychology N-241 or N-242; N-271 or N-273 and permission of the Department. This course provides experience in the planning, conduct, analysis, and reporting of independent research in the major areas of psychology. Lectures and laboratory. (6 credits)

PSYCHOLOGY N-472 (472)

Advanced Experimental Problems
Prerequisite: Third year honours students or permission of the Department. Supervised investigation of special problems. Each student will be required to conduct an experimental study and to submit an appropriate research paper on the study, under the supervision of the Department, Lectures and laboratory. (6 credits)

PSYCHOLOGY N-481 (481)

Psychology of Work Organizations
Prerequisites: Psychology N-271 or N-273; and permission of the Department. The scientific study of human behaviour as it occurs in business and industry; an examination of the roles of workers, managers, and consumers, and studies of the social psychology of organizations. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-482 (482)

Psychology of Human Learning in the Classroom
Prerequisites: Psychology N-211; Psychology N-271 or N-273 and permission of the Department. A systematic examination of psychological principles and research reports which contribute to an understanding of human learning in the school. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY N-491 (491)

Special Seminar on Selected Topics in Psychology
Prerequisite: Second or third year honours, specialization, or majors standing in Psychology. Subject matter will differ from term to term and from year to year to take advantage of the special interests of the seminar leader. The course will provide opportunities to senior stu-
PSYCHOLOGY N-492 (492)
Special Seminar on Selected Topics in Psychology
Prerequisite: Second or third year honours, specialization, or majors standing in Psychology. Subject matter will differ from term to term and from year to year to take advantage of the special interests of the seminar leader. The course will provide opportunities to senior students for discussion and advanced study. (3 credits) NOTE C (See § 200.1)

PSYCHOLOGY N-493 (493)
Special Seminar on Selected Topics in Psychology
Prerequisite: Second or third year honours, specialization, or majors standing in Psychology. A student repeating Psychology N-492 registers for credits under Psychology N-493. (3 credits)

PSYCHOLOGY N-494 (494)
Special Seminar on Selected Topics in Psychology
Prerequisite: Second or third year honours, specialization, or majors standing in Psychology. A student repeating Psychology N-492 registers for credits under Psychology N-494. (3 credits)
41.21 Department of Sociology and Anthropology

Acting Chairman of the Department

41.21.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

60 BA Honours in Sociology

Year I
6 Soc N-2106 or, if exempted, Soc Elec (in consultation with Honours Adviser)
12 Soc N-2416, N-3013, N-3023

Year II
6 Soc N-4116
6 Soc N-4306, N-4316
6 Soc Elec, Area II
6 Soc Elec, Area IV

Year III
6 Soc N-4816
12 Elec in Soc and Anth (in consultation with Honours Adviser)*

*With prior approval of the Honours Adviser the student may substitute some or all of these credits with credits from a related discipline (s)

69 BA Honours in Sociology and Philosophy

Pattern A (Epistemology and Methodology)
6 Soc N-2106 or if exempted, Soc Elec
12 Soc N-2416, N-3013, N-3023
12 N-4116, N-4816
6 Soc N-4206, N-4306, N-4316
6 Soc N-4226
6 Phil N-2106, N-2116, N-2216 or if exempted, Phil Elec
6 Phil N-3806
6 Phil N-2216, N-3216
6 Phil N-3696, N-4056
3 Phil N-3723, N-3743, N-3763
6 Phil N-3216, N-3336, N-3696, N-4056, N-4216, N-4936
## 72 BA Honours in Sociology and Philosophy

**Pattern B (Man in Society)**

41.21.3 COURSE DESCRIPTIONS

SOCIOLOGY N-210 (212)
Introduction to Sociology
This course analyzes social problems in modern society and introduces the student to the basic concepts and most important approaches in sociology. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-241 (241)
Statistics
Prerequisites: Sociology N-210 and high school Algebra. An introductory course in descriptive and analytical statistical methods for students of sociology. Lectures and laboratory. (6 credits) NOTE A/See § 200.1
NOTE: Only 6 credits will be given from: Economics N-471, N-375, Geography N-362, N-363, Mathematics N-241, Quantitative Methods 243, 244, Sociology N-241, Psychology N-241, N-242.
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-301 (301)
Introduction to Sociological Methods
An introduction to the relationships between research problems and techniques. Students will deal with the formulation of research problems related to theoretical interests, and critically examine the range of techniques available for gathering and analyzing data. (3 credits)

SOCIOLOGY N-302 (302)
Introduction to Sociological Theory
The contributions of major scholars in sociology and related disciplines to theoretical development will be considered; also the main schools in sociology, the roles of theory in sociological research and the relationships between theory and research. (3 credits)

SOCIOLOGY N-411 (411)
Research Techniques
Prerequisites: Sociology N-210 and Sociology N-241 or substitute allowed by the Department. This course deals with the design of research, the methods of data collection, and the techniques of analysis. A research project will be designed and carried out by the students. The emphasis will be on training for the critical reading of published research materials, as well as on training for graduate study. Lectures and laboratory. (6 credits)
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-412 (402)
Fieldwork Research
Prerequisites: Sociology N-210; N-201 or substitute allowed by the Department. Methods of fieldwork research in Sociology will be explored and examined in detail. Students will be expected to formulate a research problem appropriate to fieldwork methods. Under the supervision of the instructor they will then carry out the actual research singly or in teams. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-413 (413)
Survey Research Methods
Prerequisites: Sociology N-210 and N-241 or equivalent. The methods of conducting survey research will be examined: research design, sampling methods, design and pre-testing of instruments, methods of data collection, logic of analysis, techniques of multivariate analysis, and report writing. Students will be required to participate in the execution of an actual survey research project. (6 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-420 (425)
Self and Society
Prerequisite: Sociology N-210. A consideration of basic concepts and of the most important theories in social psychology. Motivation is viewed in terms of the integration between actors and social structures, and this approach is illustrated by reference to selected empirical studies. (6 credits) NOTE A/See § 200.1

SOCIOLOGY N-421 (433)
Sociology of Deviance
Prerequisite: Sociology N-210. An examination of the interaction between social structures and meaning and belief systems. Of special concern will be the social influences bearing upon claims to truth and validity and upon definitions of social morality. (6 credits)
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

SOCIOLOGY N-422 (495)
Sociology of Knowledge
Prerequisite: Sociology N-210. An examination of the interaction between social structures and meaning and belief systems. Of special concern will be the social influences bearing upon claims to truth and validity and upon definitions of social morality. (6 credits)
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

SOCIOLOGY N-424 (432)
Classical Sociological Theory
Prerequisites: Sociology N-210 or Religion N-213. This course analyzes religious as social realities, examining the variable interrelations between belief, experiences, rituals and social settings in traditional, developing and industrialized society. The course will utilize some of the classical studies of religion by Weber, Durkheim, Geertz, Malinowski, James, Bellah, Eliade, Berger and others. (6 credits)

SOCIOLOGY N-430 (428)
Contemporary Sociological Theory
Prerequisites: Sociology N-210; N-302 or substitute allowed by the Department. Introduction to major theorists whose main works will be read and discussed. Emphasis will be on the classics to 1920, especially Comte, Spencer, Marx, Ward, Sumner, G. H. Mead, M. Weber, Simmel, Durkheim and Pareto. Lectures and seminar. (6 credits)

SOCIOLOGY N-431 (424)
Contemporary Sociological Theory
Prerequisites: Sociology N-210; N-302 or substitute allowed by the Department. Analysis of the major trends and issues in twentieth century European and North American sociological theory. Emphasis is placed on issues and writings of contemporary significance. Attention is given to the major theoretical orientations, including neo-positivism, functionalism, neo-Marxism, symbolic interactionism, phenomenology and their respective critics. (6 credits)

SOCIOLOGY N-432 (428)
Formal Organizations
Prerequisite: Sociology N-210. A study of different methods of coordinating human action in social group organizations. Particular focus is on role systems connected with multi-group structures. The course begins with a historical overview of the field, examines the relationships between formal organizations and their environment (e.g., culture, market structure) and ends with a comparative study of diverse and changing structures in some institutional areas of organization. (6 credits)
SIR GEORGE WILLIAMS UNIVERSITY

DEPARTMENT OF ARTS

ANTHROPOLOGY: COURSE DESCRIPTIONS

SOCIOLOGY N-444 (404)
Community Studies
Prerequisite: Sociology N-210. Based upon selected community studies, this course will focus upon an interpretation of the findings of these studies within the larger context of urbanization and industrialization with special emphasis given to the methodology of community studies. (3 credits)

SOCIOLOGY N-441 (441)
Sociology of Urban Regions
Prerequisite: Sociology N-210. The physical and social characteristics of urban communities are studied with special attention paid to ecological patterns and ecological process. Forms of adjustment, co-operation and control are included in these studies. (3 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-442 (442)
The Family
Prerequisite: Sociology N-210. The course will deal with the following basic topics: mate selection, the social function of families, conjugal roles, social formation of the young, marriage across racial, religious and other social boundaries, and types of family structure. Other topics are added as time and interest permit. (6 credits)

SOCIOLOGY N-443 (422)
Collective Behaviour and Social Movements
Prerequisite: Sociology N-210. Characteristics of collective behaviour, its origin, development, and relationship to formal social structures. Methods of study and theories to explain to observed processes. The nature and function of social movements, their life histories and their relationship to the larger society. Specific case studies of religious, racial, and political movements. (6 credits)

SOCIOLOGY N-444 (447)
Intergroup Relations
Prerequisite: Sociology N-210. This course is concerned with the sociology of macro-group relations. The emphasis is on the social definition of race. The significance of colour, language, culture and ethnic differences is examined within a context of stratification and power differentials. Attention is devoted to Caribbean societies, the U.S.A., South Africa and Rhodesia. The decolonization process, the functions and dysfunctions of intergroup conflict, and methods of reducing and increasing tension are discussed. (3 credits)

SOCIOLOGY N-445 (443)
Intergroup Relations in Canada
Prerequisite: Sociology N-210. Within the theoretical framework of intergroup relations ethnic groups in Canada will be examined. The groups will include Indians, Inuit, Blacks, Jews, and English and French speakers. The mosaic theory of Canadian ethnic relations will be considered. (3 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

SOCIOLOGY N-446 (444)
Social Class and Structured Inequality in Modern Society
Prerequisite: Sociology N-210. Systems of social differentiation are analyzed. Theories about their origins and consequences, and about degrees and types of mobility related to them, are discussed. The theories are applied to Canada and to the United States as well as to other societies. (6 credits)

SOCIOLOGY N-447 (427)
Political Sociology
Prerequisite: Sociology N-210. The social and normative structures of political institutions, including political parties; the relationship between political institutions and religious and economic institutions; the rise and fall of political ideologies, systems and institutions; the making and communication of policies, the rejuvenation of elites. Political attitudes and behaviour are analyzed, as well as political socialization, interest, and involvement. (6 credits)

SOCIOLOGY N-448 (461)
Population and Society
Prerequisite: Sociology N-210, or an introductory course in a social science. This course consists of a brief survey of population theory and an introduction to the techniques of population analysis. It will cover the size, distribution, and composition of the population; changes in these characteristics; the relationship between population trends and social and economic conditions, with special reference to recent trends. (3 credits)

SOCIOLOGY N-449 (462)
Area Studies in Demography
Prerequisite: Sociology N-448. Selected topics of importance in population studies will be explored in some detail. Students will be required to submit a research paper on a significant demographic problem. (3 credits)

NOTE: See § 200.1

SOCIOLOGY N-450 (446)
Seminar in Urban and Metropolitan Studies
Prerequisite: Sociology N-441. Intensive study of a few theories and selected monographs dealing with aspects of urbanization. (6 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY N-452 (449)
Law and Society
Prerequisite: Sociology N-210. A study of the legal system as an institutionalized system of social control, with special emphasis on its role in times of rapid social change. Problems of definition, validation, enforcement and execution of the law will be examined in several areas of application and in relation to systems of stratification. Special attention will be given to the study of law and of legal organizations in contemporary society, as they intersect with other areas of sociological inquiry, especially social change, conflict, decision making, and the role of the legal professions. (6 credits)

SOCIOLOGY N-454 (465)
Industry and Society
Prerequisite: Sociology N-210. Analysis of the nature of change and its consequences in advanced industrialized societies. Special attention will be directed toward corporate structures, the labour movement, the function and meaning of work, leisure and changes in social stratification and the exercise of power. (6 credits)

SOCIOLOGY N-455 (447)
Comparative Social Systems
Prerequisite: Sociology N-210. Comparative analysis of concepts of social systems with a special account of conflict theory and functionalist approaches to the subject. Examination of problems of development, modernization and social change in a general theoretical framework. Comparative analysis of trends of development in the West, the Soviet Union and Eastern Europe, and the Third World nations. (6 credits)

SOCIOLOGY N-457 (457)
Crime and Justice in Society
Prerequisite: Sociology N-210. This course will focus on the theories and methods developed in criminology and penology since their modern development beginning with the 19th century. Sociological definitions of crime
and the interplay between individual autonomy and communal controls will be analysed. (6 credits)

**SOCIIOLOGY N-458 (458)**
The Sociology of Sex Roles
Prerequisite: Sociology N-210. This course will focus on sociological aspects of sex roles. Modern social trends will be analyzed, with special attention to emerging egalitarian patterns and changes in the socio-economic system. (6 credits)

**SOCIIOLOGY N-470 (406)**
Canadian Social Structure
Prerequisite: Sociology N-210. This course will focus on institutional patterns, with particular attention to the system of social stratification and industrial organization. Elements of differential structure, with special reference to Quebec society will be interpreted a) from the historical perspective of modernization and development, and b) within the context of the North American system. (3 credits) *NOTE A/ See § 200.1*

**SOCIIOLOGY N-471 (407)**
Quebec Society
Prerequisite: Second year standing. The course focuses on the nature of traditional society and the social forces within Quebec society since the Second World War. It will examine conflicting historical views on Quebec that are relevant to contemporary issues; the consequences of the conquest; the nature of Confederation; and the nature of nationalism and the nation state. Special attention is paid to the language issue, both federally and within Quebec. (6 credits) *NOTE A See § 200.1*

**SOCIIOLOGY N-472**
Social Structure of the Soviet Union and Eastern Europe
Prerequisite: Sociology N-210. The process of modernization in Russia and Eastern Europe under the socialist order. Within this context, the socialist model will be considered as a variant of "late" modernization, against the background of the Western entrepreneurial experience. A comparative analysis of the Soviet and Yugoslav industrial organization will be approached in terms of (1) historical continuities within each system, and (2) general patterns of socialist industrialism. (3 credits)

**SOCIIOLOGY N-481 (491)**
Honours Seminar
Prerequisite: Honours standing in their final year or permission of the Department. Students engage in a critical study of major sociological work according to their interests. Before the end of the academic year a research paper must be completed and accepted by the Department. (6 credits)

**SOCIIOLOGY-HISTORY N-493 (493)**
History and Sociology
Prerequisites: An introductory course in History and in Sociology, and second or third year standing. An exploration of the relationships between historical and sociological approaches to the description and analysis of social conditions and social events, paying special attention to questions of methodology and conceptualization. (6 credits)*NOTE A/ See § 200.1*

**SOCIIOLOGY N-494 (486)**
Special Seminar A
Prerequisite: Sociology N-210. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) *NOTE C/See § 200.1*

**SOCIIOLOGY N-496 (487)**
Special Seminar B
Prerequisite: Sociology N-210. Additional prerequisites may be added according to subject matter. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) *NOTE C/See § 200.1*

**SOCIIOLOGY N-497 (488)**
Special Seminar C
Prerequisite: Sociology N-210. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (3 credits) *NOTE C/See § 200.1*

**SOCIIOLOGY N-498 (489)**
Special Seminar D
Prerequisite: Sociology N-210. Additional prerequisites may be added according to subject matter. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (3 credits) *NOTE C/See § 200.1*

**SOCIIOLOGY N-499 (409)**
Special Seminar
Prerequisite: Permission of the Department. A student repeating Sociology N-497 or N-498 for a second time registers for credits under Sociology N-499. (3 credits)
Students are responsible for satisfying their particular degree requirements, hence the following sequences must be read in conjunction with § 41.3

41.21.6 COURSE DESCRIPTIONS

ANTHROPOLOGY
Anthropology N-211 (211)
Introduction to Anthropology
This course deals with the evolution of man and his culture during prehistory, the differentiation of races, family and kinship structures in simple and complex societies, and the religious beliefs and practices of ancient and modern primitives in selected parts of the world. (6 credits) NOTE A/See § 200.1

ANTHROPOLOGY/INTERDISCIPLINARY
STUDIES N-333 (333)
Introduction to Archaeology
An introduction to the archaeology of the ancient civilizations of the Mediterranean world. Special emphasis will be given to the methodological approach to archaeology. (6 credits) NOTE A/See § 200.1

ANTHROPOLOGY N-421 (421)
Peoples and Cultures of Africa
Prerequisite: Anthropology N-211 or registration in a major or honours programme in

Sociology. A study of the development of traditional cultures in sub-Saharan Africa. Emphasis will be upon the interrelations of technoeconomic, social structural and ideological aspects, with considerable attention to recent and prospective changes. (6 credits)

ANTHROPOLOGY N-425 (434)
Magic, Science and Religion
Prerequisite: Anthropology N-211 or Religion N-213. A comparative study of beliefs, ritual and ceremony in tribal, peasant and modern societies. Consideration of anthropological theories regarding the development and functions of supernaturalistic and naturalistic modes of thought. (6 credits)

ANTHROPOLOGY N-434 (451)
History of Anthropological Thought
Prerequisite: Anthropology N-211 or permission of the Department. A study of the major thinkers and schools of thought in cultural and social anthropology. (6 credits)
ANTHROPOLOGY N-458 (435)
Peasant Society and Culture
Prerequisite: Anthropology N-211. This course will examine the social, economic and political organization of peasant societies in Old and New World environments. It will include a discussion of problems of ideological, religious and artistic development and analyze tendencies toward proletarianization in the context of both external and internal forces. (6 credits)

ANTHROPOLOGY N-459 (460)
Anthropology of Conflict and Social Control
Prerequisite: Anthropology N-211 or its equivalent. Social conflict and mechanisms of control and resolution will be examined in a cross-cultural and historical perspective. Emphasis will be upon the origins and development of war and other types of conflicts as they relate to the evolution of inequality. (6 credits)

ANTHROPOLOGY N-461 (461)
Kinship, Society and the State
Prerequisite: Anthropology N-211 or its equivalent. The comparative study of family, kinship, social strata and classes; the emergence of state organization. Materials will be drawn from a wide variety of cultural and historical contexts. (6 credits)

ANTHROPOLOGY N-462 (411)
Native Societies and Cultures of North America
Prerequisite: Anthropology N-211 or Sociology N-210. The principles of general anthropology applied in a survey course on the American Indians. The advent of man to America, including Inuit; brief survey of Indian civilizations; present-day problems of Canadians and U.S. Indians and Inuit (6 credits) NOTE A / See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

ANTHROPOLOGY N-464 (464)
Peoples and Cultures of India
Prerequisites: Anthropology N-211 or registration in a majors or honours programme in Sociology. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social, structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits) NOTE A / See § 200.1
NOTE: This course may be taken for credits in the Asian Studies Programme.

ANTHROPOLOGY N-465 (465)
Chinese Culture and Society
Prerequisites: Anthropology N-211 or registration in a majors or honours programme in Sociology. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits) NOTE A / See § 200.1
NOTE: This course may be taken for credits in the Asian Studies Programme.

ANTHROPOLOGY N-466 (466)
Peoples and Cultures of Japan and Korea
Prerequisites: Anthropology N-211 or registration in a majors or honours programme in Sociology. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits) NOTE: This course may be taken for credits in the Asian Studies Programme.

ANTHROPOLOGY N-467 (467)
Peoples and Cultures of Southeast Asia
Prerequisites: Anthropology N-211 or registration in a majors or honours programme in Sociology. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits)
NOTE: This course may be taken for credits in the Asian Studies Programme.

ANTHROPOLOGY N-468 (468)
Black Society in the New World
Prerequisites: Anthropology N-211 or registration in a majors or honours programme in Sociology. An inquiry into the similarities and diversities of Black Society in the Americas. Special emphasis upon the origin and development of the plantation system as the major context for the evolution and current position of Black Society. (6 credits)

ANTHROPOLOGY N-494 (486)
Special Seminar
Prerequisite: Six credits in Anthropology or permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) NOTE A, C / See § 200.1

ANTHROPOLOGY N-495 (487)
Special Seminar
Prerequisite: Permission of the Department. A student repeating Anthropology N-495 registers for credits under Anthropology N-495. (6 credits)

ANTHROPOLOGY N-497 (488)
Special Seminar
Prerequisites: Twelve credits in Anthropology or permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (3 credits) NOTE A, C / See § 200.1

ANTHROPOLOGY N-498 (489)
Special Seminar
Prerequisite: Permission of the Department. A student repeating Anthropology N-498 registers for credits under Anthropology N-498. (3 credits)

ANTHROPOLOGY N-499
Honours Essay
Prerequisite: Third year standing in Honours Anthropology. Under the supervision of an Anthropology staff member, the student will prepare an Honours essay on a subject chosen in consultation with, and approved by the professor. (6 credits)

The Faculty of Arts and Science offers programmes leading to a BA or a BSc. The Faculty is organized in three areas: Humanities, Natural Science, and Social Science. There is further an Interdisciplinary Centre, with its own programmes, which operates within each of the areas and between them.

The **Humanities Area** groups the following departments: Classics, Communication Arts, English, French Studies, History, Interdisciplinary Studies, Modern Languages and Linguistics, Philosophy, Theological Studies. It also offers programmes in Library Science.

The **Natural Science Area** groups the following departments: Biology, Biological Education, Chemistry, Computer Science, Geology (and Geography), Interdisciplinary Studies, Mathematics, Physics, Psychology. It also offers programmes in Community Health Sciences and Nursing.

The **Social Science Area** groups the following departments: Economics, Interdisciplinary Studies, Political Science, Psychology, Sociology. It also offers a programme in Andragogy.

In the three areas, the Faculty offers a variety of programmes to meet the varied needs, interests, and goals of students.

The following pages describe the various programmes offered department by department. Students intending to register in a programme should consult with the relevant department.

It may be helpful to have a general definition of the terms as they are used in Quebec, and applied in Concordia.

**Credit:** One credit represents 45 hours of student work, either in lectures, labs or study. A typical 1-semester course will give 3 credits. 3 hours of lecture per week plus 6 hours of personal work per week, over a 15-week period.

**Honours:** A programme which consists of a minimum of 60 credits in a discipline or field, with superior performance being required to enter and remain in the programme, the precise level of such performance to be determined by Senate. It is recognized that "field" may be interpreted as two separate disciplines having a rational relationship (e.g. Philosophy and Religion) or an interdisciplinary field (e.g. Urban Studies). In most cases students who wish to pursue graduate studies will require an Honours programme.

**Specialization Programme:** A programme which consists of a minimum of 60 credits in a discipline or field, without a performance requirement. Students who are interested in subsequent "classification" by the Government may be advised to take a Specialization or Honours programme.

**Major:** A programme which consists of a minimum of 36 credits in a discipline or field. A Major provides solid preparation in a chosen area.

**Minor:** A programme which consists of a minimum of 24 credits in a single discipline. A Minor Programme should provide the student with a basic introduction to a chosen area, and introduce him to the methodology and key insights proper to that area.

**Certificate:** A programme which consists of a minimum of 30 credits. A certificate programme may be used as a component of an Honours, Specialization, or Major programme.

Combinations of Major and Minor programmes and of Certificates are possible. However, no Bachelor degree will be granted without a concentration (Major, Specialization, or Honours) in some area.

Some departments offer joint Honours Programmes, and joint Specialization Programmes.

With departmental permission, there may be cases where full courses can be divided into two half courses upon a student's request.
51.2 Admission Requirements

General requirements are listed in § 13. Specific requirements for admission to the various programmes leading to the degree of Bachelor of Arts and Bachelor of Science are listed below. Students lacking one or more of these prerequisites may be admitted but they must include these courses in their undergraduate programme towards which they will be credited.

All programmes leading to a BA require the D.E.C. only, except for Mathematics (BA) which has 4 Mathematics prerequisites.

Evening and Summer Programmes

Courses are given in the evening and during the summer for students following programmes on a part-time basis. With permission of the Chairman these courses may be open to full-time day students. Part-time students following programmes in the evening and during the summer are governed by the same administrative structures, academic regulations, admission policies and programme requirements which apply to full-time day students.

Supervision of the academic programmes of part-time students is the responsibility of the Chairman of the department of the student's field of specialization. However, an academic adviser is available during the evening hours, who may act as liaison between part-time evening students and chairmen. Mr. W. J. Cozens, formerly Assistant to the Director of the Loyola Evening Division before its integration with the Day Division, will provide this liaison. He has recently been appointed as Academic Adviser to part-time students in the Loyola Faculty of Arts and Science. His office is located in the Hackett Building and will be open from 1 p.m. - 9 p.m. on Monday to Thursday and from 9 a.m. - 5 p.m. on Fridays. Information concerning registration and graduation procedures will also be available from Mr. Cozens.

Course Designations:

A  Three credits first term
F  Six credits (accelerated) in the first term only
B  Three credits second term
S  Six credits (accelerated) in second term only
Y  Three credits extended over the entire year
Z  Six credits over two terms
C  Given in summer session only

NOTE: The superscript on a course number represents its credit value.

For a more precise timetable students are advised to refer to the Registration Handbook issued at Registration.

51.3.2 ANDRAGOGY

The Bachelor of Arts with a Major in Andragogy is awarded after the completion of 90 credits, 42 of which are in Andragogy and 48 of which are electives. The Certificate in Andragogy is awarded after the completion of 30 credits including: Introduction to Adult and Continuing Education, Andragogy 300Z6, Foundations of Adult Experience, Andragogy 421B3, Curriculum Development for Continuous Learning, Andragogy 411A3. The Evaluation of Adult Learning, Andragogy 401B3. The electives may be chosen from existing courses offered by the various academic departments provided that these courses have a practical or theoretical application to Adult Education. All electives must be approved by the Co-ordinator of the Programme. Registration in any Andragogy course is restricted to those who are actively engaged in the administration or teaching of adult learners. Andragogy 300Z6 is a prerequisite to all other courses in Andragogy.

51.3.3 COURSE DESCRIPTIONS

ANDRAGOGY 300Z
Introduction to Adult and Continuing Education
This course will consist of an overview of the field of adult and continuing education with emphasis given to the philosophy, objectives, nature of adult and continuing education, historical development, methods and techniques, and the nature of the adult learner. The course is conducted according to andragogical principles and practices which emphasize active student participation and self-directedness. Prerequisite to other courses in Andragogy. Text: Knowles, Malcolm. The Modern Practices of Adult Education (Association Press). (6 credits)

ANDRAGOGY 321
(Also given as Health Education 515)
Media Utilization
This course surveys the various types of learning aids including equipment which educators may use. Types of equipment and materials, sources and costs will be covered along with applications to formal teaching situations and evaluations. (3 credits)

ANDRAGOGY 331
Techniques and Methods in Adult Education
This course is an opportunity for adult educators to practice and develop their skills in helping adult learners. Various models of teaching will be examined e.g. those growing out of social needs, action information processing, behaviour modification, non-directive counselling. Attention will be given to techniques useful in diagnosing learning needs, designing learning episodes, in small group discussions, role playing, conference design. Text: Kidd, J. R., How Adults Learn, Second Edition, 1974 (Association Press). (3 credits)

ANDRAGOGY 361
(Also given as Health Education 421)
Personnel Interrelations
This course is designed to provide an orientation to the field of interpersonal relationships and human awareness, focusing
particularly on relating to and working with other people. Concepts of personal growth and development will be highlighted. Conducted through weekly seminars. (3 credits)

**ANDRAGOGY 401**  
The Evaluation of Adult Learning  
Selected evaluation concepts and techniques and an indication of how they may be used to develop, improve and assess a continuing education course of instruction will be emphasized. Attention will be given to evaluation techniques that will provide the information necessary to improve a course of instruction while it is being planned and conducted. (3 credits)

**ANDRAGOGY 411**  
Curriculum Development for Continuous Learning  
The course will examine the philosophical and psychological underpinnings of the different models of adult curriculum planning. Students will have the opportunity to plan, carry out and evaluate a learning episode in order to evaluate the usefulness of a given model to their own planning style. (3 credits)

**ANDRAGOGY 420Z**  
(Also given as Bio-PE 640 and Community Services 320 Nursing 320)  
Dynamics of Interviewing and Counselling  
A laboratory course in which the student examines the dynamics of interviewing, models of human effectiveness, and the theories of counselling, as well as the principles of the helping relationship. Counselling techniques in staff relations and supervision will also be explored. The course demands a high level of observation, participation and involvement from each student. (6 credits)

**ANDRAGOGY 421**  
Foundations of Adult Experience  
The basic theme of the course will be the recognition of adulthood as a stage in the life process which has its own unique dynamics, the understanding of which is a precursor to the development of curricula and pedagogical techniques in the field of adult and continuing education. Following a review of physical cognitive and affective processes in human development from infancy through adolescence, the course will focus on adult experience attempting to delineate the continuities and discontinuities of those processes. (3 credits)

**ANDRAGOGY 431**  
Computers and Education  
A basic introduction of the use of computers in education and the teaching of data processing subjects. The course surveys the following topics: computers, programming, computer operations, computer files, keypunches and on-line terminals, teaching EDP, CAI/CMI, development of EDP curriculum, information sources, flowcharting etc. No prerequisite knowledge or skill in data processing, science or mathematics is required. (3 credits)

**ANDRAGOGY 441**  
(Also given as Community Service 408)  
Community Education and Adult Learning  
This course will examine the use of community development — and change agent models to implement adult education programmes which meet the life-long needs of individuals in communities. Particular attention will be paid to the applied processes of social and education change, citizen involvement, rural education, community skills and the use of film and VTR in community education. (6 credits)

**ANDRAGOGY 500**  
Selected Topics in Andragogy  
(6 credits)

**ANDRAGOGY 311**  
Quebec's Education System  
(3 credits)

**ANDRAGOGY 521**  
Research Methodology  
(3 credits)

The following course is a university level course which was offered in the year indicated but which did not appear in the official calendar.

1975-76  
Andragogy 450Z  
Leadership and Organization  
Renewal in Learning Organizations  
(6 credits)
### 51.4 Department of Biology

**Associate Professor and Chairman**  
R. T. CRONIN, S.J.

**Professor**  
S. P. DRUMMOND, S.J.

**Associate Professor**  
K. S. DHINDSA

**Assistant Professors**  
P. ALBERT  
C. BECKMAN  
N. N. KAPOOR  
B. S. MANGAT  
J. D. McLAUGHLIN  
R. G. OMRAN  
P. WIDDEN

### 51.4.1 PROGRAMMES

#### 90 BSc Honours in Biology

**Year I**
- 6 Bio 311A/B³, 321A/B³
- 9 Bio Elec
- 6 Chem 326A³, 328B³
- 3 Math 301A/B³
- 6 Elec

**Year II**
- 15 Bio 410Z⁶; 440Z⁶; 430Z⁶; 435A³
- 9 Bio Elec
- 6 Elec

**Year III**
- 6 Bio 590Z⁶
- 18 Bio Elec
- 6 Elec

#### 90 BSc Specialization in Biology

**Year I**
- 6 Bio 311A/B³, 321A/B³
- 9 Bio Elec
- 6 Chem 326A³, 328B³
- 3 Math 301A/B³
- 6 Elec

**Year II**
- 15 Bio 410Z⁶; 440Z⁶; 430Z⁶; 435A³
- 3 Bio Elec
- 12 Elec

**Year III**
- 18 Bio Elec
- 12 Elec

#### 36 Major-Minor in Biology

**Year I**
- 21 Bio 311A/B³, 321A/B³, 410Z⁶ or 440Z⁶; 430Z⁶; 435A³
- 6 Bio Elec
- 6 Chem 326A/B³, 328A/B³
- 3 Math 301A/B³

**Year II**
- 24 Minor in (Science) Biology

**Year III**
- 21 Bio Elec (in Zoology, 6 of which may be general)

#### 24 Minor in (Science) Zoology

**Year I**
- 3 Bio 321A/B³

**Year II**
- 24 Minor in (Science) Botany

**Year III**
- 3 311A/B³

**Year IV**
- 24 Minor in (Non-science) Biology

**Year I**
- 24 Bio 300Z⁶, 304Z⁶, 331A³, 333B³, 335A/B³, 341A³
Bachelor of Science Degree.

Students registering for the BSc in this Department should have the CEGEP Diploma in Science, or its equivalent, including one course in biology, and two each in chemistry, physics and mathematics.

To complete the requirements for the BSc, they will take a minimum of 90 credits. Each credit represents a minimum of 45 hours, spread across the total activity of lectures, laboratories, seminars and private study. Sixty (60) of these must be taken from courses offered by this Department.

Programmes

Students will register in the program of their choice, after consultation with members of the Department faculty and approval of the Department Chairman.

The Department offers the following programmes:

Specialization — consists of a minimum of 60 credits, including a core of 48 credits and 12 elective credits from specialized areas. The remaining 30 credits may be elected from any department and any faculty.

Honours — consists of a minimum of 72 credits, including a core of 48 credits and 24 elective credits from specialized areas. The remaining 18 credits may be elected from any department and any faculty.

51.4.3 COURSE DESCRIPTIONS

BIOLOGY 201A/B
Introductory Biology
A survey of living organisms with their underlying structures, functions, and relationships in both the plant and animal kingdoms, as they relate to and help in an understanding of the biology of man. Lectures: 3 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

BIOLOGY 300Z
Fundamentals of Human Biology
Prerequisites: None. A series of lectures, demonstrations and seminars designed to provide non-biologists with a general survey of the fundamental principles of life, with special emphasis on the structures and functions of man. Lectures: 3 hours per week for two terms. (6 credits)

BIOLOGY 304Z
Concepts of Modern Biology
Prerequisites: None. Designed for those with little or no knowledge of biology, this course will introduce non-science students to the diversity of plant and animal life, and to the basic functions of living organisms in relation to environment, reproduction, heredity and evolution. Lectures: 3 hours per week for two weeks. (6 credits)

BIOLOGY 311A/B
Introductory Botany
Prerequisites: CEGEP sciences. A brief survey of the distribution, morphology and development of selected representatives from various plant groups. Plant life-cycles, certain physiological aspects of plant growth and development and relation of plants to human affairs. Lectures: 3 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

BIOLOGY 315A
Microbiology I
Prerequisites: CEGEP sciences. Introduction to micro-organisms. History of microbiology. Structure of viruses, bacteria and fungi. Taxonomy of micro-organisms. Brief discussion of genetics of micro-organisms. Laboratory will illustrate lecture material and introduce methods of handling micro-organisms. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

BIOLOGY 317B
Microbiology II
Prerequisite: Bio 315A. Designed to continue from Bio 315A. Growth, nutrition and metabolism of micro-organisms. Special emphasis on metabolic processes unique to micro-organisms (fermentations, oxidation of inorganic compounds, anaerobic respiration, microbial photosynthesis). Their importance in medicine and industry, and their role in biogeochemical processes. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

BIOLOGY 321A/B
Introductory Zoology
Prerequisites: CEGEP sciences. A survey of the major animal phyla. The course will concentrate on the structure and function of
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOLOGY 327A Entomology I</td>
<td>Prerequisites: CEGEP sciences. This course introduces the student to the variety and complexity of insect life. Basic classification is followed by a more detailed study of morphology and anatomy, together with some physiological considerations, including growth and metamorphosis. Other topics such as adaptations for aquatic life, social behaviour, etc. will also be discussed. Laboratories will begin with a field trip, the object of which will be to observe and collect various insect species. The remainder of the lab sessions will complement the lectures. Students are advised to begin an insect collection during the summer months preceding the course. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 329B Entomology II</td>
<td>Prerequisite: Bio 327A. To the initiated student, this course will present an in-depth study of insect behaviour. Topics will include sensory physiology, insects and plants, light and sound production, population dynamics, insect ecology, etc. An attempt will be made throughout the course to establish a web of interrelationships between the structures and functions of various insect parts. Laboratories will involve the use of live animals and the student may be required to spend additional time for certain experiments. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 331A Environmental Biology I</td>
<td>Prerequisites: None. This course examines the principles and concepts of ecosystems, the interaction of organisms and their environment. Energy flow and nutrient cycling in ecosystems, population dynamics and community organization. This course is open to the general student body. Lectures and tutorials: 3 hours per week for one term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 333B Environmental Biology II</td>
<td>Prerequisites: None. Designed to follow Bio 331A, the course considers both natural and man-made ecological problems, including various aspects of pollution, resource and waste control vital for human survival as well as man’s sociological responsibilities. Lectures, seminars and tutorials: 3 hours per week for one term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 335A/B Elementary Genetics</td>
<td>Prerequisites: None. A survey of classical and contemporary developments in the study of heredity with particular attention to human examples. This course is open to the general student body, and is not available for credit to Biology students. Lectures: 3 hours per week for either term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 341A Fundamental Nutrition</td>
<td>Prerequisites: None. This course deals with food composition (including vitamins, minerals), its absorption and utilization, the roles of excesses, stress, microbes, toxins, preservatives, residues, drugs, food technology and diets, malnutrition, obesity, aging and other topics. Laboratory will include seminars, movies and projects, field trips. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 343B Applied Nutrition</td>
<td>Prerequisite: Bio 341A. This course describes the needs of individuals in different stages of development, with particular emphasis on current problems in human nutrition. Emphasis will be on the interaction of sources of food-borne diseases and methods of prevention and control will also be treated. Laboratory will include group discussion, speakers, movies, projects. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)</td>
<td></td>
</tr>
<tr>
<td>BIOLOGY 402Z Comparative Vertebrate Anatomy</td>
<td>Prerequisites: Bio 321A/B. A comprehensive study of the development and structure of the systems of a representative series of vertebrates from a comparative and evolutionary point of view, with emphasis on the mammals. Laboratory: survey and dissection of representatives of the principal vertebrate classes. Lectures: 3 hours per week for two terms. Laboratory: 3 hours per week for two terms. (6 credits)</td>
<td></td>
</tr>
</tbody>
</table>
| BIOLOGY 404Z Invertebrate Zoology | Prerequisite: Bio 321A/B. A comparative study, from a comparative point of view, of the developmental processes and organogenesis in representative vertebrate embryos, leading to an understanding of the structure...
and function of the human systems. Lectures: 2 hours per week for two terms. Laboratory: 3 hours per week for two terms. (6 credits)

**BIOLOGY 430Z**

**General Genetics**

Prerequisites: Bio 311A/B, 321A/B. A study of the principles and processes of plant, animal and human heredity from the classical foundations through the modern to the recent molecular and population genetics, and evolution. Laboratory: directed experiments with Drosophila and other organisms. Lectures: 2 hours per week for two terms. Laboratory: 3-6 hours per week for two terms. (6 credits)

**BIOLOGY 431A**

**Cytology**

Prerequisites: Bio 311A/B, 321A/B, or permission of the Instructor. A study of plant and animal cells, their ultrastructures and organelles, and physiology, with microscopic and cytotechnical techniques of analysis. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

**BIOLOGY 433B**

**Cyto genetics**

Prerequisites: Bio 431A, 430Z or permission of the Instructor. A detailed study of plant and animal chromosomes, their structures and normal and abnormal behaviour; species evolution and preservation; various anomalies, ploidy, heterosis, apomixy; human cytogenetics. Lectures: 2 hours per week for one term. Laboratory: 4-6 hours per week for one term. (3 credits)

**BIOLOGY 434Z**

**Ecology**

Prerequisites: Bio 311A/B, 321A/B. A broad survey of theoretical ecology. Description of communities, their structures and functions, succession and climax. The ecosystem concept, energy flow and nutrient cycling within the ecosystem. Growth and regulation of populations. Interaction of the environment with populations and communities. Competition and the niche concept; systems analysis in ecosystems studies. Lectures: 2 hours per week for two terms. Laboratory: directed projects and field trips. (6 credits)

**BIOLOGY 435A**

**Cellular Metabolism I**

Prerequisites: Bio 311A/B, 321A/B, Chem 326A, 328B. The course will deal with the simple metabolism of biomolecules in both plants and animals. A basic study of enzymes and their mode of action; nucleic acids and their role in protein synthesis. Distribution of organelles and their metabolism; cellular oxidations and energetics. Lectures: 3 hours per week for one term. (3 credits)

**BIOLOGY 437B**

**Cellular Metabolism II**

Prerequisite: Bio 435A. Designed to follow Bio 435A, the course examines the intracellular localization of enzymes, their activity and control from a comparative cellular basis; coenzymes and their importance in intermediary metabolism. Membranes and cell wall synthesis; hormones and their mode of action. Nutritional requirements of organisms. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

**BIOLOGY 440Z**

**Animal Physiology**

Prerequisites: Bio 321A/B or permission of the Instructor. An integrated study of basic physiological phenomena of the vertebrate body, with emphasis on the human. The topics discussed include muscle function, nervous system, circulation, respiration, temperature regulation, digestion, metabolism, excretion, and endocrinology. Lectures: 2 hours per week for two terms. Laboratory: 3 hours per week for two terms. (6 credits)

**BIOLOGY 461C**

**Plant Field Ecology**

Prerequisites: Bio 311A/B. For a two week period during August this course will be held at the Lacolle Center. It will involve identification of local plant species, methods of sampling of communities, and examination of the pattern of plant communities in the area. Handling of data on populations and communities will be discussed as well as statistics on population distributions. A mixture of formal lectures, organized field studies and informal discussion. Students will be required to hand in a written report after the course has ended. (3 credits)

**BIOLOGY 511A**

**Mycology**

Prerequisite: Bio 315A. A detailed study of the morphology and taxonomy of the fungi. Emphasis will be placed on the ecological roles of various groups of fungi and on their economic importance; problems of phylogeny will also be discussed. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term, including field trips. (3 credits)

**BIOLOGY 513B**

**Microbial Ecology**

Prerequisite: Bio 315A. The course is designed to give an understanding of the environment in which microorganisms live, the structure of microbial communities and the ways in which microbes interact during the processes involved in decomposition and nutrient cycling. Stress will be placed on the ecology of soil microorganisms, though aquatic communities will also be discussed. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term, including field trips. (3 credits)

**BIOLOGY 515A**

**Plant Growth and Development**

Prerequisite: Bio 410Z. Environmental approach to the study of plant growth, differentiation and morphogenesis; hormones and growth regulation; physiology of reproduction, maturation and senescence; temperature and light responses and related phenomena. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

**BIOLOGY 517B**

**Environment and Plant Growth**

Prerequisite: Bio 410Z. Examination of the response of selected plant groups to different environmental conditions. Studies will include particular plant responses to changes in temperature and light, water and mineral deficiencies. Lectures: 2 hours per week for one term. Laboratory: individual projects and seminars. (3 credits)

**BIOLOGY 522Z**

**General Parasitology**

Prerequisites: Bio 321A/B; Bio 422Z recommended. A study of the protozoan, helminth and arthropod parasites of man, domestic animals and wildlife. Special emphasis will be placed on the transmission of parasites with reference to the behaviour and ecology of both the host and the parasite. Additional topics will include the evolution of...
of the parasitic way of life, subsequent adaptations and various aspects of the host-parasite relationship. Laboratory: techniques for parasite recovery, basic staining and histological techniques, fecal analysis, identification of parasitic worms, infection of experimental animals. Lectures: 2 hours per week for two terms. Laboratory: 3 hours per week for two terms. (6 credits)

**BIOLOGY 524Z**  
Neurology  
Prerequisite: Bio 420Z. A study of the anatomy and physiology of the nervous systems of vertebrates especially of the mammals and man. Lectures: 2 hours per week for two terms. Laboratory: 3 hours per week for two terms. (6 credits)

**BIOLOGY 527A**  
Histology  
Prerequisite: Bio 420Z or equivalent or permission of the instructor. A comparative study of the microscopic characteristics of cells, tissues and organ systems of the vertebrates at the histological and cellular levels. Lectures: 2 hours per week for one term. Laboratory: 3 hours per week for one term. (3 credits)

**BIOLOGY 529B**  
Microscopical Techniques  
Prerequisite: Bio 527A. Histological techniques involved in the preparation of various animal tissues for microscopic study; techniques of microscopy and some practical experience in photomicrography. Lectures: 1 hour per week for one term. Laboratory: 6 hours per week for one term. (3 credits)

**BIOLOGY 531A/B**  
Advanced Genetics  
Prerequisite: Bio 430Z. Directed readings and seminars in classical and contemporary genetics; designed to expose the student to research literature and problems, to probe in greater depth areas of particular interest, to develop a critical sense and deepen an understanding of past and current work in this field. Seminars: 3 hours per week for either term. (3 credits)

**BIOLOGY 542Z**  
Comparative Animal Physiology  
Prerequisites: Bio 440Z or equivalent. Bio 437B or equivalent Biochemistry, or permission of the Instructor. The course is designed on a function-system basis, and deals with a comparative study of physiological processes in animals, their behaviour and physiological adaptations. Lectures and seminars: 2 hours per week for two terms. Laboratory: individual projects in special topics. (6 credits)

**BIOLOGY 565A**  
Limnology  
Prerequisite: Bio 434Z. A survey course covering physical and chemical properties of freshwater, the biotic communities of lakes and running water. Lectures: 3 hours per week for one term. (3 credits)

**BIOLOGY 567B**  
Fish Biology  
Prerequisite: Bio 420Z. A study of the physiological and anatomical characteristics of fish, their feeding and mating behaviour, and special adaptations. Lectures: 3 hours per week for one term. (3 credits)

**BIOLOGY 590Z**  
Problems in Biological Research  
Prerequisite: candidacy for the Honours degree. Lectures and seminars on methods of researching scientific literature, the planning, conducting, writing and reporting of research. The core of the course will be a project selected by the student in consultation with and conducted under the supervision of a faculty member of the department (6 credits)

### Health Education

The courses listed below are offered through the Department of Bio-Physical Education in conjunction with Health Education.

Bio-PE 517A/B³, 533A³, 534Z⁶, 630Z⁶, 632Z⁶, 640Z⁶, 642Z⁶
The courses listed below are offered through Institute of Comparative Physical Education. They are open only to students with advanced academic standing, teachers, recreation directors, sports administrators, coaches and other experienced professionals.

Bio-PE 600Z6, 610Z6, 620Z6

Outdoor Education Programme

The courses listed below are open to students with advanced academic standing, teachers, recreation specialists, camp directors and other professionals.

Bio-PE 470Z6, 570Z6, 670Z6

51.5.2 COURSE DESCRIPTIONS

**BIO-PHYSICAL EDUCATION 301A**
Philosophical and Sociological Foundations of Health, Physical Education and Recreation

The course involves a study of the nature and meaning of health, physical education and recreation. Significant effects of philosophical tenets on the development of the disciplines are examined. Subject to critical analyses are the basic concepts of the philosophical schools of idealism, pragmatism and realism. The socializing effects of sports, physical education and recreational activities also are investigated. 

Lectures, Seminars & Field Study: 3 hours per week. (3 credits)

**BIO-PHYSICAL EDUCATION 311A**
Introduction to Motor Learning

The course commences with a brief introduction to statistical methodology. Consideration is given to the capacities people have for processing information. It attempts to demonstrate how these capacities influence performance, the acquisition of skills and, in particular, sports skills. Also considered are the effects of the following factors: decision making, information theory, reaction time, psychological refractory period, selective attention, memory and others.

Lectures & Seminars: 3 hours per week. Labs: 2 hours per week. (3 credits)

**BIO-PHYSICAL EDUCATION 313B**
Motor Learning and Human Performance

Prerequisites: Bio-PE 311A or consent of professorial staff. The principle aim of this course is to examine in more depth the topics of learning. Major consideration is given to the effects that feedback and manipulation may have on the acquisition and improvement of sports skills in the performance.

Lectures & Seminars: 3 hours per week. Labs: 2 hours per week. (3 credits)

**BIO-PHYSICAL EDUCATION 341B**
Recreation and Leisure in Contemporary Society

The course provides a basis for understanding recreation and leisure as increasingly important aspects of our culture. In an era of rapidly changing life styles, with a high incidence of anxiety and frustration, the value of worthy use of leisure time in maintaining mental and physical health is presented. Topics discussed include: Education for leisure, the scope of the field of recreation, work ethic, leisure ethic, the role of leisure and recreation in satisfying man's needs and leisure as an agent for change.

Lectures & Seminars: 3 hours per week. (3 credits)

**BIO-PHYSICAL EDUCATION 361Y**
Principles and Techniques of Physical Education and Recreation Skills

An understanding is provided of skill development theories, practices and teaching sequences. Scientific principles of sport techniques are applied in activity periods. All popular North American team and individual sports are covered. To successfully complete the course, students must demonstrate a proficiency which will permit them to teach the skills involved in these sports.

Labs: 12 hours per week. (3 credits)

**BIO-PHYSICAL EDUCATION 391A/B**
Sports Science

An introduction is provided to the science of sports. Various physiological parameters influencing and limiting activity are studied. The influence of personal characteristics, societal and other factors on human performance are investigated. (3 credits)

**BIO-PHYSICAL EDUCATION 410Z**
Methods and Materials in Physical Education and Recreation

Prerequisites: Bio-PE 311A, 313B, 361Y. In the course teaching is approached as a science. Consideration is given to the needs, interests and characteristics of elementary school age children. Based on this, scientific teaching methods and materials most conducive to learning for this age group are examined. The latest modes of movement education are of major concern. Basic skills and the teaching sequences involved are reviewed. During laboratory sessions, students are afforded the opportunity to teach children and to analyze the effects of various methodological techniques. Lectures: 2 hours per week; Labs: 4 hours per week. (6 credits)
BIO-PHYSICAL EDUCATION 431A
Health Science
The subject matter is approached with "health" viewed as the optimal functioning of the human organism. The course synthesizes knowledge from biological, psychological and medical sciences to present the student with a comprehensive understanding of factors influencing personal health. Areas covered include hereditary considerations, growth and development patterns, human sexuality, nutrition, fitness, mental health, diseases, drugs, pathology and environmental ecology. Lectures: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 433B
Personal and Community Health Problems
The course examines causes, symptoms and prevention of health and acquired factors in relation to athletic injuries. Reviewed are injuries to the muscular, skeletal and other systems in specific sports and under various conditions. The effects of aerobic, anaerobic, flexibility and strength conditioning programs in prevention of traumatic sports injuries and chronic ailments are studied. Research findings are surveyed in the area of testing and fitting of equipment as they relate to injury prevention and safety. Lectures: 3 hours per week, Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 433A/B
Prevention of Athletic Injuries
An examination is undertaken of age, body build, heredity and acquired factors in relation to athletic injuries. Reviewed are injuries to the muscular, skeletal and other systems in specific sports and under various conditions. The effects of aerobic, anaerobic, flexibility and strength conditioning programs in prevention of traumatic sports injuries and chronic ailments are studied. Research findings are surveyed in the area of testing and fitting of equipment as they relate to injury prevention and safety. Lectures: 3 hours per week, Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 437A/B
Rehabilitation and Treatment of Athletic Injuries
An introduction to the role and relationship of the sports therapist to the physician, nurse and physiotherapist in the rehabilitation and treatment of athletic injuries is studied. Subject to review are thermal and cryotherapy, and the use of diathermy, ultrasonic, whirlpool, de-ffibrillator and other equipment. Emergency treatment techniques and possible legal aspects are discussed. An introduction also is provided to basic counselling techniques. Lectures: 3 hours per week, Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 442Z
Principles and Practices of Recreational Services
The course is concerned with the fundamental concepts governing the field of recreation. A thorough examination is conducted of the many aspects of recreation programs in urban and rural settings including: active and social components, principles of leadership, supervision, evaluation, surveying interests, classification, co-ordination and other planning factors. Model recreational programs are surveyed in community, camp, school and rehabilitation centres. Lectures, Seminars & Field Study: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION 451A
(Also given as Health Education 303)
Structural Human Anatomy
The course is a study of gross and functional anatomy, with major emphasis on the skeletal, muscular and nervous systems. Lectures: 3 hours per week; Labs: and cadaver demonstrations: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 453A
Human Physiology
Prerequisites: Bio 312A and a University level chemistry course. The course analyzes the functional and integration of the muscular system and of the nervous and hormonal systems controlling movements in man. Due to the close relationships, the special senses and the reproductive systems also are examined in this course. Lectures: 3 hours per week. Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 455B
(Also given as Health Education 311)
Systemic Human Anatomy
Prerequisite: Bio-PE 451A. The course is a study of the organs of the human body with major emphasis on the circulatory, respiratory, digestive, excretory, reproductive and endocrine systems. Lectures: 3 hours per week. Labs: and Cadaver Demonstrations: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 457B
Cardiovascular—Respiratory Physiology
Prerequisite: Bio-PE 453A. The major concern of the course is to examine the functional organization and integration of the cardiovascular and respiratory systems which provide nutrients for man's energy metabolism. Related to this, the dynamics of metabolism processes, digestive and excretory systems also are analyzed. Lectures & Seminars: 3 hours per week; Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 470Z
Scientific Foundations of Outdoor Education and Recreation
The course examines outdoor recreational facilities and other outdoor settings as an extension of the school. Their utilization is studied in terms of providing direct laboratory experiences for building concepts and developing a concern about man and his natural environment. The development of Outdoor Education and Recreation programmes are analyzed. The areas of health, physical education and recreation are used as the core of an interdisciplinary study of the outdoors. Subject to review are the areas concerning health, physical education and recreation including the effects of pollution, recreational and outdoor fitness activities; the teaching of science in the outdoors including conservation, ecology of a woodland, pond and bog; study of plants and animals in their natural habitat; water resources; problems of erosion; rock and tree identification. Lectures, Seminars and Field Study: 6 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION 497A/499B
Selected Topics in Bio-Physicial Education
Prerequisite: Consent of professorial staff. This course focuses on current topics of interest in the field of Bio-Physicial Education. The content will depend upon the theme designated by the department, when the course is offered. The course will draw upon the expertise of individuals and visiting guest lecturers. (3 credits each)

BIO-PHYSICAL EDUCATION 501B
Adapted Corrective and Rehabilitative Physical Education and Recreation
Programmes and activities for individuals with physical, mental, social and/or emotional disfunctions are analyzed in the
LOYOLA
FACULTY OF
ARTS AND
SCIENCE
51.5.2
DEPARTMENT
OF BIO-PHYSICAL
EDUCATION:
COURSE
DESCRIPTIONS

course. An exploration is conducted of the nature and causes of common handicaps including orthopaedic, cardiopathic, visual, auditory, mental retardation, cerebral palsy and general learning disabilities. Current adaptive, corrective and remedial techniques are reviewed in laboratory sessions, students are provided with the opportunity to teach special activities and exercises to handicapped children. Lectures: 2 hours per week; Labs: 4 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 511A
Tests, Measurements and the Research Processes in Physical Education
Prerequisites: Bio-PE 410Z and a Post Secondary School Math Course, preferably Math 310Z. The course provides an understanding of standardized tests utilized by professionals in the fields of health, physical education and recreation. Procedures involved in data collection, interpretation and statistical methodology are analyzed. Lectures: 3 hours per week; Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 512Z
Advanced Methods and Materials in Physical Education and Recreation
Prerequisite: Consent of professorial staff. Teaching is approached as a science. The needs, interests and characteristics of adolescents and young adults are studied. Based on these factors, analysis of appropriate teaching methods for this age group are conducted. Advanced skills and the teaching sequence are reviewed. The application of principles of motor learning, skill testing, cinematography, closed-circuit television and other audio-visual aids in teaching and coaching is considered. In laboratory periods, students are given the opportunity to teach adolescents and young adults and to study the effect of various methodological techniques. Lectures: 2 hours per week; Labs: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION 513B
(Also given as Nursing 513A/B)
Methods and Techniques of Teaching Health
Lectures and practice in instruction of small and large groups, Emphasis will be on effective communication of health information to individuals and groups. Utilization of audio-visual aids in a variety of situations. (3 credits)

BIO-PHYSICAL EDUCATION 514A
Physical Education in the Early Childhood Curriculum I: Psycho-Motor Learning
The psychomotor domain of learning in young children is of major concern in this course. Principles of perceptual motor feedback processes are studied in detail. Application of these principles to motor learning in the early childhood curriculum is analyzed. The interrelationships of cognitive and psychomotor development are studied for symbiotic cause and effect relationships. Lectures: 2 hours per week; Labs: 2 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 515B
Physical Education in the Early Childhood Curriculum II: Eurhythms
The utilization of rhythmic activities as a learning mode in the early childhood curriculum is studied from both a practical and theoretical perspective. Students examine rhythms as a means of developing kinesthetic awareness, understanding the role of coordination and timing in the performance of complex movement patterns. Interaction with young children to discover first hand how rhythms are involved in developmental sequences constitutes the practical aspects of the course. Lectures: 2 hours per week; Labs: 2 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 521A
Organization and Administration of Physical Education and Recreation Programmes and Facilities
The course examines and applies fundamental concepts of business administration to the field of physical education and recreation. Topics covered include organizational structures, management systems, equipment purchasing and control, promotion, public relations, theories of motivation and scheduling which can be applied in the school and community. Lectures and Seminars: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 526Z
Organization and Administration of Recreation Programmes and Facilities
The course provides in-depth analysis of business practices utilized in the efficient management of recreation programmes and facilities. Principles of organization, public relations, purchasing, scheduling, and utilization of facilities are studied. Special consideration is given to the financial areas of budget preparation, basic accounting procedures, estimation and the control of funds. The course includes an extensive field study programme in which the students are exposed to a variety of administrative procedures being used by professionals in the field of recreation. Lectures: 2 hours per week; Field Study Labs: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION 531B
Preventive Medicine and Geriatrics
Prerequisite: Bio-PE 533A, the equivalent or consent of instructor. The course focuses on the physiological, psychological and sociological needs of adults, in particular, geriatric patients. The aging process is examined as it influences the choice of physical activities. In addition, the preventive aspect of physical activity and its effects on the medical problems associated with aging are studied. Methods of implementing and evaluating preventive programmes are analyzed. Disorders of the metabolic processes, neuromuscular, cardiovascular and respiratory systems receive prime consideration. Lectures: 2 hours per week; Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 533A
(Also given as Community Services 401A/B)
Drug Use and Abuse
The course is structured to introduce non-medical personnel to the modern concepts of drug therapeutics and to discuss the consequences of use and abuse of drugs. The drug classes will include steroids, antibiotics, minor and major psychotropics and the potential chronic abuse of drugs such as amphetamines, barbiturates, hallucinogens and alcohol. (3 credits)

BIO-PHYSICAL EDUCATION 534Z
(Also given as Community Services 300Z)
Nutrition in the "70's.
This course will study the influence of socio-economic and political systems on the nutritional status of the individual and the interrelationship between food habits and the cultural, social and psychological aspects of life. Topics will include diet related problems such as obesity, heart disease, weight eating habits, malnutrition, etc. Food budgeting for all levels of the socio-economic structure will be examined. (6 credits)
BIO-PHYSICAL EDUCATION 536Z  
**Sports Medicine**  
Prerequisites: Bio-PE 435 and 437. An introduction to the application of medical science to the field of sports is provided. Select topics in endocrinology including hormonal imbalance, fatigue, depression, aggression and the jet fatigue syndrome in relation to athletic performance. Discussed are the basic functions of the gastro-intestinal tract and dietary considerations. Gynecological problems, pharmacology, including the effect of ergogenic aids, current medical flexible casting and taping techniques are covered. (6 credits)

BIO-PHYSICAL EDUCATION 551B  
**Kinesiology**  
Prerequisites: Bio-PE 451A and a post secondary school physical education course preferably Physics 351. The course involves a study of anatomical and descriptive kinesiology, the analyses of basic human movement and specific sport skills. Included is an examination of the skeletal, muscular and the nervous systems and their application to the teaching and coaching of efficient motor performance. Lectures: 3 hours per week; Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 553A  
**Physiology of Exercise**  
Prerequisites: Bio-PE 455A and 457B. In this course, physiological principles are applied to man's acute and chronic adaptation to muscular activities. The adaptation and integration of the body systems in the performance of exercise and sports activities are considered. Also examined are the changes that occur as a result of physical training, age and environment. Laboratory sessions include the measurement of various physiological parameters during exercise. Lectures and Seminar: 3 hours per week; Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION 562Z  
**Teaching Internship**  
Prerequisite: The course is open to University III level Bio-Physical Education majors and Recreational and Leisure Studies majors who have followed the programming option of a Recreation and Leisure Studies major. The practicum begins with seminar sessions, during which each student formulates lesson plans, units of instruction, scientific teaching methods and means of evaluation. This aspect of the course is completed in cooperation and subject to the approval of participating institutions and instructors. Subsequently students assume a supervised teaching position for a six-week 240 hour period. The teaching internship commences immediately following the student's last final examination. (6 credits)

BIO-PHYSICAL EDUCATION 564Z  
**Recreation Internship**  
Prerequisite: This course is open only to University III level Bio-Physical Education or Recreation and Leisure Studies majors. In consultation with their mentors, students are given the opportunity to study theoretical and practical problems confronting professional in the field of Recreation. The course offers a supervised period of work with a select organization. Each student, during seminar sessions, formulates a study proposal. The practicum commences based upon the approved proposal, immediately following the student's last final examination. The course involves a minimum of a six-week 240 hour period. (6 credits)

BIO-PHYSICAL EDUCATION 566Z  
**Para-Medical Internship**  
Prerequisite: The course is open only to University III level Bio-Physical Education or Recreation majors. In consultation with their advisor, students are given the opportunity to study theoretical and practical problems confronting Para-medical professionals in the field. The student offers a supervised period of work as an inter supposedly activity leader in a hospital or rehabilitative centre, a technician in a physiological evaluation laboratory or related position. Each student, during seminar sessions, formulates a study proposal, immediately following the student's last final examination. The course involves a minimum of a six-week 240 hour period. (6 credits)

BIO-PHYSICAL EDUCATION 568Z  
**Research Internship**  
Prerequisite: The course is open only to University III level Bio-Physical Education and Leisure Studies majors. In consultation with their advisor, students are given the opportunity to study theoretical, practical and scientific problems related to the fields of Bio-Physical Education, Health and Recreation. Each student, during seminar sessions, formulates a study proposal. The practicum commences, based upon the approved proposal, immediately following the student's last final examination. The practicum involves working as a member of a research team and reporting the experience. The course involves a minimum of a six-week 240 hour period. (6 credits)

BIO-PHYSICAL EDUCATION 570Z  
**Outdoor Education in the Elementary School Curriculum**  
The course offers a comprehensive analysis of outdoor education at the elementary school level. Examined are the aims and objectives of outdoor education, specific methods and materials utilized, the organization and administration of model programs, innovative units of instruction and means of evaluation of outdoor education courses in camps, elementary schools and municipal recreation programs. Lectures, Labs, Seminars, Outdoor Labs and Field Study: 5 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION 590Z  
**Psycho-Motor and Physiological Adaptations to the Environment**  
Prerequisites: Bio-PE 311A, Biol 331A, 333B or 335B, Phys 351B, Bio-PE 431A and 433B. The course is designed to provide an opportunity to analyze the functioning of one's body and its adaptation to various environmental factors. Major consideration is given to how man responds to various stress factors, to how he understands them and what can be done to relieve or diminish the effects of stress. The role of fitness components in coping with stress, including cardiorespiratory efficiency, muscular endurance, strength, theories of relaxation and body alignment are examined. Also the application of psycho-motor concepts of: self-image, body awareness, and spatial orientation are reviewed. Lectures: 2 hours per week; Labs: 3 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION 597A, 599B  
**Advanced Topics in Bio-Physical Education**  
Prerequisite: Consent of professorial staff. This course focuses on advanced topics of interest in the field of Bio-Physical Education. The content will be dependent upon the theme designated by the department
when the course is offered. The course will draw upon the expertise of individuals and visiting guest lecturers. (3 credits each)

BIO-PHYSICAL EDUCATION 600Z
Comparative Physical Education
Prerequisite: Minimum of a Bachelor degree in Physical Education, related field or consent of the professorial staff. The course compares systems of physical education in different geographic regions and cultural settings. The thematic structure of the study involves a four-dimensional comparative analysis of the following aspects of physical education: historical, philosophical and sociological perspectives; method and content of curricula for male and female students; the design of sport facilities; and current research. In addition, the course provides an independent study unit which enables a student to investigate and report on a subject of special interest. The aforementioned topics are examined in North America and selected countries. To analyze effectively the topic areas and to experience the socio-cultural factors involved, students travel to and study at selected sites. Lectures, Seminars, Field Study, Teaching Labs, and Activity periods: 75 hours of classes. (6 credits)

BIO-PHYSICAL EDUCATION 610Z
Physical Education in Europe
Prerequisites: Minimum of a Bachelor degree in physical education, related field or consent of the professorial staff. The course examines current practices in selected European countries. Of major concern are methods and content of the physical education curriculum for male and female students at the elementary, secondary and post-secondary levels in the countries selected. Considered are the influences of socialism in Eastern European countries and the impact of Laban, Ling, Jahn, Pestalozzi and Rousseau. In addition, the course provides an independent study unit which enables a student to research and study a subject of special interest. To analyze the aforementioned topics and to experience the socio-cultural factors that may influence them, students travel to and study in the selected countries. Lectures, Seminars, Field Study, Teaching Labs, and Activity periods: 75 hours of classes. (6 credits)

BIO-PHYSICAL EDUCATION 620Z
Physical Education and Sport in the USSR
Prerequisite: Minimum of a Bachelor degree in Physical Education, related field or consent of the professorial staff. The primary aim of the course is to provide a comprehensive overview of the system of physical education in the Soviet Union and the role of sports in a socialist society. The course examines the physical education curriculum in primary, secondary and post-secondary institutions for male and female students. Also studied are the organizational, philosophical, and socio-cultural dimensions of their sports system. The advanced scientific teaching and coaching methods utilized in the USSR receive major emphasis. Surveyed is a sample of recent research in the USSR pertinent to athletic training and physical education. In addition, the course provides an independent study unit which enables a student to investigate and report on one of the above in greater depth or on a related subject of special interest. To study the aforementioned topics and to experience the socio-cultural factors which may influence them, students travel to and study in the USSR. Lectures, Seminars, Field Study, Labs and Activity periods: 75 hours of classes. Three weeks. (6 credits)

BIO-PHYSICAL EDUCATION 630Z
(Also given as Health Education 372S)
Special Workshop Human Sexuality
Subject matter varies from year to year to take advantage of special interest in society. The 1976 courses will deal with "Psychological Concepts of Human Sexuality" as they influence Family Planning and Sex Education: the study will explore variations in sexual patterning, therapy and counseling, biological, anthropological and ontological perspectives of sexuality. Open to educators, guidance counsellors, nurses, social workers and psychologists. (6 credits)

BIO-PHYSICAL EDUCATION 632Z
(Also given as Health Education 400)
Clinical Epidemiology and Bio-Statistics
An introductory course on the methods of measuring the distribution and determinants of disease frequency in Man. Measures of Population health and health services utilization will be covered. Variability and the need of statistics will be stressed. (6 credits)

BIO-PHYSICAL EDUCATION 640Z
(Also given as Androgogy 420 and Nursing 320)
Dynamics of Interviewing & Counselling
Prerequisite: Health Education 421 or equivalent. A laboratory course in which the student examines the dynamics of interviewing, models of human effectiveness, and theories of counselling, as well as the principles of the helping relationship. Counseling skills in staff relations and supervision will also be explored. The course demands a high level of observation, participation and involvement from each student. (6 credits)

BIO-PHYSICAL EDUCATION 642Z
(Also given as Community Services 408Z)
Group Structure and the Role of the Community Worker
The course is developed to assist volunteers, interested citizens, social workers, recreation directors and individuals with no formal health training, working as part of a multidisciplinary team, to identify their roles in order to play a more effective part as a community worker. Assignments will be directed toward practical applications of field work to problem solving in a field of their choice, i.e., post-retirement, rehabilitation of drug addicts and alcoholics, single parents, etc. (6 credits)

BIO-PHYSICAL EDUCATION 670Z
Outdoor Education in the Secondary School Curriculum
The course provides an overview of outdoor education programs at the secondary school level. Existing outdoor education courses in camps, high schools and recreation departments are critically reviewed. New concepts, planning and development of units of instruction, problem areas and other facets of outdoor education for secondary school age students are examined. Lectures, Seminars, Outdoor Labs and Field Study: 6 hours per week. (6 credits)

The following courses are university level courses which were offered in the year indicated but which did not appear in the official calendar.

1975-76
Bio-PE 497A
Physical Education in Early Childhood Curriculum I
Bio-PE 499B
Physical Education in Early Childhood Curriculum II
# 51.6 Department of Chemistry

## Associate Professor and Chairman

M. DOUGHTY

## Professor

T. NOGRADY

## Associate Professors

K. EKLER
D. McELCHERAN
R. H. PALLEN
G. J. TRUDEL
R. H. ZIENIUS

## Assistant Professors

M. BALDWIN
M. G. HOGBEN
J. PARKES

## Lecturer

D. HUI

## 51.6.1 PROGRAMMES

**NOTE:** Elective means credits by choice outside Science. Science Elective means credits by choice outside Chemistry but inside Science. Chemistry Elective means credits by choice inside Chemistry.

CHEMISTRY 112Z
General Chemistry
Pre-University course. Principles of chemistry, molecular and atomic theories, balancing equations, valence, oxidation-reduction, nature and concentrations of solutions, chemical equilibrium, ionization constants, solubility products, common ion effect, pH, formation and dissolution of precipitates, complex ions, theory of acids and bases, periodic table. Lectures: 3 hrs. per week both terms, Labs: 3 hrs. per week both terms. (6 credits)

CHEMISTRY 300Z
Concepts in Science
Prerequisites: None. An elective course for students outside the science discipline who perceive that a lack of science background may alienate them from much of the world’s activities and writing. The aim of the course is to learn the fundamental principles and concepts within the physical sciences: heat, light, atomic structure, chemical principles. Newtonian versus quantum mechanics, relativities, life, the universe and its structure. Emphasis will be placed upon understanding the nature of science, applying the principles to the practical disciplines of astronomy and photography. Mathematization will be kept to a minimum. Lectures: 3 hrs. per week, two terms plus occasional labs. (6 credits)

CHEMISTRY 312A, 314B
Introductory Inorganic Chemistry
Prerequisite: Chemistry 112Z. Two (3 credit) courses to be taken successively. The two courses cover the following topics, development of atomic structure, wave mechanical orbitals, periodicity of properties. Properties of ionic compounds, covalent compounds, molecular orbital treatment. Spectroscopy. Chemistry of the non-transitional elements and relation to atomic structure. Lectures: 3 hrs. per week for first and second term. Lab: 3 hrs. per week for first and second term. Text: Day & Delbin, (Van Nostrand), Theoretical Inorganic Chemistry. (2 x 3 credits)

CHEMISTRY 315A
Photographic Chemistry
Prerequisite: Non-Science students, preferably with some high school chemistry. This is a combined lecture and laboratory course in photographic chemistry. It is to be taken in conjunction with Physics 315A/317B. Basic chemical principles in the study of the photographic process. Factors affecting the control of development and some chemical reactions involved in the photographic process will be discussed and demonstrated. Lecture and Lab: 3 hrs. per week, 1st term. (3 credits)

CHEMISTRY 317B
Photographic Chemistry
Prerequisite: Chem 315A. This is the successive part of Chem 315A. Manufacturing of photographic emulsion, developer composition, fixer composition, fixation and washing; reversal processing; mechanism of latent image formation and the theory of development will be discussed and demonstrated. Lecture and Lab: 3 hours per week, 2nd term. (3 credits)

CHEMISTRY 322Z
Organic Chemistry Theory
Prerequisite: Chemistry 112Z. A basic course in organic chemistry, it establishes a firm and thorough basis of bonding theory, stereo-chemistry and the correlations of molecular structure with chemical reactions before discussing organic reactions from a mechanistic point of view. The course is the first half of a four-term programme in organic chemistry. Lectures: 3 hrs. per week for two terms. Lab: 3 hrs. per week, both terms. Text: 3rd Ed., Hendrickson, Chem & Hammond, Organic Chemistry 2nd Ed., Helmkamp & Johnson (Freeman & Company), Selected Experiments in Organic Chemistry. (6 credits)

CHEMISTRY 326A/328B
Introductory Organic Chemistry
Prerequisite: CEGEP Chemistry 201, or Chem 112Z or equivalent. Two (3 credit) courses to be taken successively. An introductory organic chemistry course with biological emphasis, covering concepts of molecular structure, stereochemistry, basic reaction mechanisms, reactions of the common functional groups and practical applications to areas such as detergents, foods, drugs and compounds of biological interest. Lectures: 3 hrs. per week, first and second term. Lab: 3 hrs. per week, first and second term. (2 x 3 credits)

CHEMISTRY 327A/329B
Introductory Organic Chemistry
Prerequisite: CEGEP Chemistry 201, or Chem. 112Z or equivalent. Biophysical Edu. students only. Two (3 credit) courses to be taken successively. Study of molecular structure and classes of organic compounds, with special reference to compounds of biological and physiological interest. Lectures: 2 hrs. per week, first term; 3 hrs. per week, second term. Lab: 3 hrs. per week, first term. Text: Benjamin Plummer (Van Nostrand), Selected Principles of Organic Chemistry or Biochemistry. (2 x 3 credits)

CHEMISTRY 336Z
Physical Chemistry
Prerequisite: Chemistry 112Z. Treatment of properties of gases. Kinetic molecular theory of gases. First law of thermodynamics, thermochemistry, entropy and the second and third laws of thermodynamics. Free energy and chemical equilibria. Properties of liquids, crystals, phase equilibria, the colligative properties, the rates and mechanisms of chemical reactions, the nature of electrolytes in solution. The thermodynamics of solutions of electrolytes. Lectures: 3 hrs. per week, for two terms. Text: 2nd Ed. Barrow (McGraw-Hill) Physical Chemistry (6 credits)

CHEMISTRY 338Z
Physical Chemistry for Biochemistry
Degree Students

CHEMISTRY 342A
Analytical Chemistry
Prerequisite: Chem 112Z. Also Chem 322 or 326/328, and Chem 336Z, unless taken concurrently. Treatment of analytical data. Gravimetric and volumetric analysis. Acid-

CHEMISTRY 344B Analytical Chemistry
Prerequisite: Chem 342A. Introduction to instrumental methods of analysis including emission spectroscopy, atomic and molecular spectrophotometry, infrared and nuclear magnetic resonance methods, and some electrochemical methods. Problems and interpretation of simple IR and NMR spectra form a part of this course. The laboratory includes gravimetric and volumetric analyses, as well as basic instrumental analysis experiments. Lectures: 3 hrs per week, second term. Lab: 3 hrs per week, second term. Texts: Willard, Merritt and Dean, Instrumental Methods of Analysis, 5th Edit. (Van Nostrand), and R. H. Zienius, Analytical Chemistry — A Laboratory Manual’ 3rd Edit. (3 credits)

CHEMISTRY 411B Environmental Chemistry
Prerequisite: Chemistry 112Z or equivalent. General aspects of environmental and ecological cycles in nature. The chemistry of pollution, air-pollution, water pollution, water treatment. Compounds treated: oxides of carbon, nitrogen and sulphur, hydrocarbons and types of particles. Photochemical and chain reactions. Mercury, lead, oil detergents, insecticides will be examined from both their general chemistry and their contribution to pollution. Lectures: 3 hrs per week, second term. (3 credits)

CHEMISTRY 412A Intermediate Inorganic Chemistry of Transition Metals
Prerequisite: Chem 312A, 314B. Ligand field theories, spectra, magnetochemistry, sigma and pi-bonded complexes, inner transition elements, introduction to organometallic chemistry. Lectures: 3 hrs per week. Lab: 4½ hrs per week. (3 credits)

CHEMISTRY 413A Advanced Inorganic Chemistry
Prerequisite: Chemistry 412A and 414B. Physical inorganic Chemistry: IR, NMR, X-Ray, Mossbauer and mass spectral studies of inorganic and organometallic compounds. Group theory and its applications. Lectures: 3 hrs a week, first term. (3 credits)

CHEMISTRY 414B Intermediate Inorganic Chemistry of Main Group Elements
Prerequisite: Chem 312A, 314B. Properties, reactions, structure and selected topics in main group chemistry elements. Lectures: 3 hrs per week. No lab. (3 credits)

CHEMISTRY 415B Organometallic Chemistry
Prerequisite: Chemistry 322Z and 412A (can be taken concurrently). Survey of transition and non-transition organometallic compounds including their roles in industrial catalysis and biological systems. Lectures: 3 hrs per week for second term. (3 credits)

CHEMISTRY 422Z Organic Chemistry
Prerequisite: Chemistry 322Z. A confirmation of Chemistry 322Z, discussing organic reaction mechanisms and synthetic methods at an advanced level. Lectures: 3 hrs per week for two terms. Lab: 3 hrs per week, first term. Text: 3rd Ed., Hendrickson, Cram & Hammond (McGraw-Hill), Organic Chemistry; Helmkamp & Johnson (Freeman), Organic Chemistry. (6 credits)

CHEMISTRY 423B Advanced Organic Chemistry
Prerequisites: Chemistry 322Z & 422Z. Laboratory Individualized problems, syntheses or structure determinations based on the study of research literature, advanced techniques, (e.g. Catalytic and high-pressure reactions, vacuum techniques) are stressed, as well as the extensive use of spectroscopic methods. Lab: 4 hrs per week, second term. (3 credits)

CHEMISTRY 427Z Bio-Organic Chemistry
Prerequisite: Chem. 326A/328B or equivalent. Chemistry and biological implications of a variety of naturally occurring compounds, including the molecular components of cells. Topics include carbohydrates, amino acids and proteins, lipids, steroids, terpenes, carotenoids, nucleotides and nucleic acids, alkaloids and selected natural products. Lectures: 3 hrs per week for two terms. (6 credits)

CHEMISTRY 432Z Physical Chemistry Laboratory
Prerequisite: Chemistry 336A. Some knowledge of Fortran is desirable. The first term: Treatment of Experimental Data. Experimental Error, Graphical and Numerical Methods, Problems using literature data. Spectra analysis. Use of the computer is encouraged. Second Term: Laboratory experiments in Physical Chemistry. Lectures: 3 hrs per week, first term. Lab: 4 hrs per week, second term. (6 credits)

CHEMISTRY 433A Physical Chemistry-Chemical Thermodynamics
Prerequisite: Chemistry 336A. A second course in thermodynamics. First, Second and Third Laws. Activities. Electrolyte and non-electrolyte solutions. Lectures: 3 hrs per week first term. Text: Lewis & Randall (McGraw-Hill), Thermodynamics. (3 credits)

CHEMISTRY 435B Statistical Mechanics
Prerequisite: Chemistry 433A Kinetic theory of gases, Maxwell-Boltzmann Distribution, Transport properties. Theory of Reaction rates. Coloidal State and Surface phenomena. Lectures: 3 hrs per week, second term. (3 credits)

CHEMISTRY 437A Atomic and Molecular Spectra
Prerequisite: Chemistry 336Z. A descriptive course of atomic and molecular spectra and structure. Lectures: 3 hours per week, first term. (3 credits)

CHEMISTRY 439A/B Introductory Physical Chemistry
Prerequisite: Biology students only. Lectures: 3 hrs per week, first term. Text: Van Holde, Physical Biochemistry. (3 credits)

CHEMISTRY 442A Advanced Analytical Chemistry
Prerequisite: Chemistry 342A and 344B. A continuation of the study of modern in-
instrumental methods of analysis following that in Chemistry 344B, including electrochemical methods, chromatographic and other separation techniques, fluorescence spectroscopy, turbidimetry, and nephelometry. Problems for an integral part of this course. The laboratory provides practice in the use of modern analytical instruments related to the instrumental techniques discussed in Chemistry 344B as well as this course. Lectures: 3 hours per week, first term. Lab: 3 hours per week, first term. Texts: Willard, Merritt and Dean, Instrumental Analysis — A Laboratory Manual, 2nd Ed. (3 credits).

CHEMISTRY 444B
Advanced Analytical Chemistry
Prerequisite: Chemistry 442A. A further study of modern instrumental methods of analysis including Raman spectroscopy, mass spectrometry, X-Ray spectroscopy, radiochemical methods, refractometry, polarimetry, thermal analysis, and miscellaneous topics. The interpretation of IR, NMR, UV and MS data forms an important part of this course. The laboratory is devoted to the identification of organic compounds using classical methods of analysis as well as spectral and chromatographic data. Lectures: 3 hours per week, second term. Lab: 3 hours per week, second term. Texts: Willard, Merritt and Dean, Instrumental Methods of Analysis, 5th Ed. (Van Nostrand), and R. H. Zienius, Instrumental Analysis — A Laboratory Manual, 2nd Ed. (3 credits).

CHEMISTRY 452Z
Industrial Chemistry
Prerequisite: Chem 112Z and Chem 322Z or 326/328. Brief outline of the history of the chemical industry. Organization of a chemical plant. Development of industrial processes, the Unit operations and equipment. Detailed discussion of industries of greatest importance to Canada, such as, petroleum, petrochemicals, plastics, fibres, fertilizers, rubbers, pharmaceuticals, pulp and paper, wood chemicals, heavy inorganic chemicals. Pollution. Lectures: 3 hours per week for two terms. Lab: no formal labs, but eight to ten one-half day plant tours are an integral part of this course. (6 credits)

CHEMISTRY 490Z
Biochemistry

CHEMISTRY 523A
Chemistry of High Polymers
Prerequisite: Chemistry 322Z. A detailed study of the mechanisms involved leading to the formation of polymeric species includes condensation, free radical, cationic anionic and co-ordination mechanisms. Some physical systems and examples of polymers will be discussed and examined. Some general considerations concerning reactivity and reactions of macromolecules. Lectures: 3 hrs. per week, first term. (3 credits)

CHEMISTRY 525B
Chemistry of High Polymers
Definition and description of different polymer molecules, monomer-polymer differences; polymerization mechanisms and kinetics. Modern society — their sources, effect and function of biopolymers. Lectures: 3 hrs. per week second term. Text: F. Billmeyer, Jr., Textbook of Polymer Science, 2nd Ed. (3 credits)

CHEMISTRY 531B
Electrochemistry
Prerequisites: Chemistry 336Z and 433A. Debye-Huckel Theory, electrolytic conduction, transport properties in electrolytes, electrochemical cells. Thermodynamics and kinetics of electrochemical system. Over-voltage. Lectures: 3 hrs. per week second term. (3 credits)

CHEMISTRY 532Z
Theoretical Chemistry
Introductory matrix algebra and group theory, quantum mechanics and the special functions. Perturbation methods, atomic structure and spectra. Theories of molecular bonding, molecular structure and spectra. Inter-molecular forces and elements of liquid state and solid state theory. Rate processes, photochemistry and chain reactions. Lectures: 3 hrs. per week, both terms plus monthly individual tutorial. Text: Levin, Quantum Chemistry. (6 credits)

CHEMISTRY 533A
Advanced Physical Chemistry Laboratory
Lab: 4 hrs. per week, first term. (3 credits)

CHEMISTRY 535A
Radiation Chemistry
Prerequisite: Chemistry 112Z. A study of the chemical effects caused by ionizing and other nuclear radiations in their passage through matter. A description will be given of the quantitative measure of radiation, energy absorbed, the energy-transfer mechanism, the reaction paths of the unstable intermediates (excited molecules, radicals andions). A discussion of the mechanisms reduced for the radiation-induced dissociation of H2O, organic compounds in the gaseous and liquid state and radiation effects in specific solids. Lectures: 3 hrs. per week for one term. (3 credits)

CHEMISTRY 541A
Nature and Analysis of Pollutants
Prerequisites: Introductory courses in organic and analytical chemistry. The latter prerequisite may be waived in special cases with the permission of the instructor. The course surveys major industrial and municipal air and water pollutants of concern to modern society — their sources, effect and analysis. Included is a description of measuring systems, sampling procedures, concentration and separation techniques, and of methods commonly used to analyze pollutants. Topics such as continuous monitoring, automated analysis, data analysis, and pollution control techniques are discussed. Lectures: 3 hours per week, first term. Labs: no formal labs, but two or three one-half day tours of pollution control installations are a part of this course. (3 credits)
CHEMISTRY 545A/B
Intermediate Physical Chemistry for Biochemists

Prerequisite: Chem 338Z. The application of chemical thermodynamics to biological systems. High energy compounds. Introduction to non-classical irreversible thermodynamics and its significance in living systems. Enzyme kinetics, and its application to very fast reactions. Lectures only, 3 hours per week for one term. (3 credits)

CHEMISTRY 552Z
Senior Thesis

Students in Honours and Specialized programmes, with permission of the department, undertake a research project in any branch of chemistry, directed individually by a faculty member, and submit a written detailed report. (6 credits)

CHEMISTRY 590Z
Advanced Biochemistry

CHEMISTRY 592Z
Medicinal Chemistry

CHEMISTRY 594Z
Pharmacology

Prerequisite: Chem 490Z, Biol 440Z. Pharmacokinetics, drug metabolism and interaction. Toxicology, carcinogenesis and teratogenesis. Drug development and testing. Autonomic nervous system pharmacology. Functions of central nervous system, depressants, stimulants. Narcotic analgesics, addiction. Cardiovascular, renal and endocrine pharmacology. Lectures: 3 hrs. per week for two terms. (6 credits)
51.7 Department of Classics

Associate Professor and Chairman
S. McEVENUE

Associate Professor
D. BROWN

Assistant Professors
S. CASEY
E. PRESTON
L. SANDERS
B. WARDY

51.7.1 DEPARTMENT OF CLASSICS

The Department offers courses in Ancient History, in Latin, Greek and Hebrew language, and in the respective literatures read in the original or in translation. It also offers courses in Pre-History, Archaeology and Anthropology.

The Department offers programmes in two streams. The stream of Classical Philology requires linguistic competence in Latin, Greek or Hebrew, and emphasizes aesthetic appreciation of the ancient literature. The stream of Classical Studies does not require a knowledge of the languages and is directed toward broader considerations of societal problems arising from the "living past."

Students may register for a programme in either stream. An Honours programme consists of 54 credits in Classics (9 full courses) and 6 credits in a cognate course which may be chosen in another department. A Major programme consists of 42 credits in Classics (7 full courses). A Minor programme consists of 24 credits in Classics. In the Philology stream, this will involve 4 full courses aimed at the rapid acquisition of a reading competence in two ancient languages. In the Classical Studies stream the courses will normally be chosen from the following: 330Z, 340Z, 372Z, 384Z, 434Z.

Students must consult the department chairman to select the courses in their programme.

Students in an Honours programme must maintain an overall average of at least 65%. Some courses are directed exclusively to Honours students. In all other Classics courses, Honours students will meet with the professor for tutorial sessions in addition to the regular scheduled classes.

51.7.2 COURSE DESCRIPTIONS

CLASSICAL STUDIES

CLASSICS 311A
The Beginnings of European Literature (Greek Literature)
The Greek background of European literature: the Iliad of Homer, selections from the Greek dramatists (the Oresteia of Aeschylus, the Oedipus Rex and the Antigone of Sophocles, the Bacchae of Euripides, and at least one comedy of Aristophanes), the Pastoral Poets, Plato's Symposium, and Aristotle's Poetics. (3 credits)

CLASSICS 313B
The Beginnings of European Literature (Latin Literature)
The Roman background of European literature: the Aeneid and Eclogues of Vergil, Ovid's Metamorphoses, poems of Catullus, Horace and Juvenal, the De Rerum Natura of Lucretius, plays and dialogues of Seneca. (3 credits)

CLASSICS 321B
The Comic Art
An investigation into the evolution of comedy from our earliest literary sources to the present. The classical influence in later comic literature. Theories of comedy, ancient and modern. Reading material will be drawn mainly from Greek and Roman dramatic literature. (3 credits)

CLASSICS 324Z
The Greeks and the Afterlife
A study of magic ritual, mystic cults, myths, philosophies and literary conventions connected with the idea of immortality in the ancient world. Concepts of the Underworld with particular emphasis upon the Greeks, the background to these concepts in Egyptian belief, and their influence and development in later Roman thought and practice. The theme of the course is the complementary role of the rational and irrational elements in the individual and society, and the pattern of action and reaction in the history of ideas created by the tension between these two elements. Readings translated from ancient texts will be used to illustrate the various stages in the growth and development of ideas on immortality. These literary sources will include the Egyptian
CLASSICS 330Z
(Also given as History 320Z)
Greek and Roman History
A survey of Greek and Roman history from the earliest times to the fall of the Roman Empire in the West, viewed primarily through the eyes of contemporaries, emphasizing those issues that have excited and continue to arouse interest and controversy among historians. Though Athens for its unique cultural and political achievement and Rome for its administrative genius and imperial successes inevitably occupy the central interest, these cities will be examined from the viewpoint of their critics as well as admirers. The credibility of the ancient evidence will be carefully assessed. Due attention will be directed towards social and economic as well as purely political factors. The course will be designed to demonstrate the extent to which the lower classes, peasants, soldiers, sailors, craftsmen, and traders — contributed as much to the classical achievement as kings, emperors, and aristocrats. (6 credits)

CLASSICS 331A
Civilization, Barbarism, and Savagery
The purpose of this course will be to formulate and develop, if possible, useful definitions of civilization, barbarism, and savagery, with a view toward answering the question as to whether or not man has "progressed". Students will be expected to research and then orally to report upon as wide a variety of human cultures as will be possible and practicable, from the most "primitive" to the most "advanced".

The meanings and uses of cannibalism, human sacrifice, torture, and self-mutilation. Hunting, fishing and food gathering societies (Old Stone Age) contrasted with early food producing ones (New Stone Age). The first cities (Bronze Age); their mores and ethics. The great "advances": fire, language, religion, animal domestication, pottery, metalurgy, writing. (3 credits)

CLASSICS 340Z
(Also given as History 322Z)
The Ancient Near East
The history of Egypt, Mesopotamia, Syria and Anatolia from the Neolithic Period to the Persian conquest. In addition to economic and political factors due attention will be directed to the literary and religious legacy of the different peoples. Ancient sources will be used whenever possible. (6 credits)

CLASSICS 372Z
Homer and the Epic Hero
This course will deal with the principal Greek and Roman Epics, read in English translation. Emphasis will be on Homer's Iliad and Odyssey, each thoroughly analysed in lectures and in classroom discussion. The form, content and meaning of each work as an orally transmitted epic. But of the hero in a warrior society: his duties, privileges, responsibilities and moral values. Comparison with the heroes of Roman society as presented by Vergil (Aeneid) and Lucan (The Civil War), as well as with those of the modern world. (6 credits)

CLASSICS 373A
Chinese Myths
Their sources, development, and analysis. The folktales and myths will be used as a means of understanding the ideas and sentiments of the ancient Chinese. Those myths were selected which are most representative of Chinese mythology, still live in the minds of the people, and are referred to most frequently in their literature. (3 credits)

NOTE: This course may be taken by students engaged in the Third World Studies Programme.

CLASSICS 374A,B,Z
Love, Hate, and Friendship in the Classical World
The growth and failure of human relationships were of intimate concern to every man and woman in the ancient world, as they are today. This course will investigate in the literature of classical times the evolving shape of human encounter in terms of three basic emotions: love, hate, and friendship.

A. In the first semester the theme "love" will be examined as expressed in the Odyssey of Homer and mainly in the love poetry of Greece and Rome.

B. In the second semester, the theme "hate and revenge" will be seen in its most tragic expression — the plays of the Greek dramatists. The third theme, "friendship", will be examined in its elemental form in the Iliad of Homer, and then in its urbane expression in the works of Plato and Cicero. (either 3 or 6 credits)

CLASSICS 376Z
Myth and Mythmaking
An examination of the universal features of myth. Recurrent patterns of myth in primitive cultures (Asio-Indian, American-Indian, Insular Pacific, Celtic, etc.). Near Eastern Mythologies (Mesopotamia, Ugarit). Mythological remains in the Old Testament and post-biblical Jewish literature. Major classical myths, the origin of the gods, the feats of heroes, and the adventures of mortals in Homer, Hesiod, the Greek Tragedians, the Platonic Dialogues, Ovid, and the Bible. (6 credits)

CLASSICS 382Z
A Comparative Study of Judaic and Greek Traditions
The course deals with the problems involved in the encounter of the Judaic and Greek traditions and is designed also for students of Philosophy, Theology, and History.

The end of the first diaspora. Different currents (exclusiveness versus rapprochment) under Persian rule. Alexander legends. Macabean Hellenism. Anti-semitism in Alexandria. The mutual influence between Judaism and Hellenism as manifest in philosophical and religious writings, in symbols and customs. Their importance for the development of Western culture. The destruction of political Judaic independence and gradual intellectualization of Jewish life. The development of the synagogue and the Talmudic Academies. (6 credits)

CLASSICS 384Z
Greek Drama: Theatre and Democracy in Fifth Century Athens
Essentially a study of the literary and artistic merits of the tragedies of Aeschylus, Sophocles, and Euripides, and the comedies of Aristophanes. The ritual origins of drama, mythical sources, and the growth of the dramatic form. Greek theatre as an expression of the democratic movement and of the intellectual revolution in fifth century Athens. (6 credits)
CLASSICS 386Z

Women in Classical Antiquity
An examination of the social status and political influence of woman in ancient Greece and Rome. Particular emphasis will be placed upon the apparent contradiction between the seemingly inferior position occupied by women in the fifth century Athens and the apparent enfranchisment that characterized the epoch. Within this context the influence of war upon the struggle for feminine emancipation, as seen through the eyes of tragedians, comic writers, philosophers, and historians, will be considered. Roman women will be viewed with particular reference to the question: to what extent the essentially hostile scandalmongering of the sources is reflective of veracity of fact of an essentially non-liberal environment. (6 credits)

CLASSICS 430Z

Propaganda and Political Deception in Greek and Roman History
An examination of the relationship between political ideas and practice with particular emphasis upon the slogans and false ideologies invented to justify war, peace, and the implementation of political and constitutional programmes by both radical and reactionary elements. Though inevitably the chief sources discussed will be literary, due attention will also be directed towards the value of numismatic, epigraphic, and artistic material as a means of winning over the mind of man. (6 credits)

CLASSICS 432Z

(Also given as History 520Z)
Honours History Seminar I

CLASSICS 433Z

(Also given in alternate years as History 522Z)
Honours History Seminar II

CLASSICS 434Z

(Also given as History 324Z)
An Introduction to Archaeology
Archaeology as a science; its purpose, methods, and techniques. The relationship of Archaeology to Pre-History, Ancient History, Fine Arts, and Anthropology. Though the course will deal principally with Classical Archaeology and Greek and Roman Art, the Archaeology of Africa, the Orient and the Americas will also be considered. (6 credits)

CLASSICS 435Z

Maya, Aztec, and Inca: The Pre-Columbian Civilizations

CLASSICS 436Z

(Also given as History 424Z)
Continuity and Change: An Intellectual History of the Late Roman Empire
A study of the main intellectual and social forces in the late Roman Empire that contributed most significantly to the formation of European culture. Among those topics covered will be: Neo-Platonism, Gnosticism, the Greek and Roman system of education, government and private welfare policies, mystery religions, late Judaism, early Christianity, the religious policy of pagan and Christian Emperors, contemporary art and architecture. (6 credits)

HEBREW

CLASSICS 360Z

Elementary Hebrew
An introductory course in reading, writing, and grammar for students with little or no knowledge of Hebrew. This course is designed not only for those interested in conversational Hebrew, but also for students in the department of Theology, who will be assisted in acquiring first a reading command of the language. (6 credits)

CLASSICS 460Z

Intermediate Hebrew
Practice in grammar and conversation. Readings from modern Hebrew authors. (6 credits)

CLASSICS 462Z

An Introduction to Biblical Hebrew
Prerequisite: Classics 360Z. A study of classical Hebrew grammar. Accurate reading of selected prose passages of the Hebrew Bible. (Poetic selections may also be studied if the students so desire). (6 credits)

CLASSICS 560Z

Introduction to Hebrew Literature
A selection of Hebrew prose and poetry will be studied, ranging from Biblical to contemporary Israeli literature. The selections will be analysed from both the literary and linguistic point of view. Review drills in grammar and syntax will be assigned. Prerequisite: A working knowledge of Hebrew is essential. (6 credits)

CLASSICAL PHILOLOGY

CLASSICS 390Z

Elementary Latin
A course for those with little or no experience with Latin. Major emphasis will be placed on assisting the student in acquiring a reading command of the language. Open to all students but especially those interested in classical languages, history, philosophy, and theology. (6 credits)

CLASSICS 490Z

Latin Literature
Prerequisite: Classics 390Z or equivalent. Cicero's Pro Archia, selections from Catullus and the Odes of Horace. (6 credits)

CLASSICS 492Z

Late Latin
A study of selected texts from the works of patrician and medieval writers. This course is directed especially to students of history, philosophy, and theology with at least a knowledge of elementary Latin. (6 credits)

CLASSICS 350Z

Elementary Greek
A course for those with no previous knowledge of Greek. Major emphasis will be placed on assisting the student in acquiring a reading command of the language. This course is designed not only for those interested in classical literature but also for students
Intermediate Greek
Prerequisite: Classics 350Z or equivalent. Further work toward the acquisition of a reading command of the language. Plato's Apology and Crito. (6 credits)

CLASSICS 550Z
Greek Literature
Prerequisite: Classic 450Z. Demosthenes' Philippics and Euripides' Alcestis. (6 credits)

CLASSICS 552Z
Plato: The Republic
Prerequisite: Classics 450Z. (6 credits)

CLASSICS 554Z
Herodotus and the Lyric Poets
Prerequisite: Classics 450Z. (6 credits)

CLASSICS 556Z
Homer
Prerequisite: Classics 450Z. Extensive readings from the two epics in Greek; both works in their entirety in English. (6 credits)

CLASSICS 558Z
Greek Tragedy
Prerequisite: Classics 450Z. Aeschylus' Agamemnon, Sophocles' Oedipus Rex, Euripides' Hippolytus. (6 credits)

CLASSICS 590Z
Latin Literature (Advanced)
Prerequisite: Classics 490Z. Cicero's Pro Lege Manilia and the second, fourth, and sixth books of the Aeneid. (6 credits)

CLASSICS 591Z
Cicero
Prerequisite: Classics 490Z. Careful examination of selections from the oratorical and philosophical works. (6 credits)

CLASSICS 592Z
Plato: The Republic
Prerequisite: Classics 490Z. (6 credits)

CLASSICS 594Z
Livy and Tacitus
Prerequisite: Classics 490Z. Extensive readings from Livy, Books 21-30, and the Annales of Tacitus, with particular attention to the Latinity peculiar to each historian. (6 credits)

CLASSICS 596Z
Roman Poetry
Prerequisite: Classics 490Z. (6 credits)

CLASSICS 598Z
Roman Satire
Prerequisite: Classics 490Z. (6 credits)

51.8.2 DEPARTMENT OF COMMUNICATION ARTS

The Department offers two programmes of study:

a) Bachelor of Arts, Specialization in Communication Arts
   consisting of a minimum of 60 credits in Communication Arts and 30 credits from electives outside the Department.

b) Bachelor of Arts, Major in Communication Arts
   consisting of a minimum of 42 credits in Communication Arts and 48 credits from electives outside the Department. Students who have been accepted into the Department take the following 18 credits in Univ. I: Comm Arts 3013, 3033, 3053, 3073, 30826.

Students “specializing” in Communication Arts choose the remaining 42 credits as follows:

- 12 credits from courses in Group A
- 12 credits from courses in Group B
- 12 credits from courses in Group C

and the remaining 6 credits from courses in Group A or B, or with the approval of the Department in cognate courses outside the Department.

Students “majoring” in Communication Arts choose the remaining 24 credits as follows:

- 6 credits from courses in Group A
- 6 credits from courses in Group B
- 6 credits from courses in Group C

and the remaining 6 credits from courses in Group A or B.
Department Objectives:
The purpose of the overall programme is to allow the student to develop his/her creative, critical, and intellectual potential in the context of our media-oriented society. Related studies in the humanities, sciences, and social sciences are an integral part of the programme.

Intelligently and critically, both in seminar rooms and laboratories, the primary concern is to investigate "media man" and "media world", to understand more fully the role of media in society, to examine critically the goals of society as projected in media, and to assess realistically the responsibilities of media vis-a-vis that society. To this end, students are encouraged to develop a personal artistic and ethical statement on the quality of life and the goals of society.

Integrated with this, the student's creative work starts with acquiring skills in the basic technology of the media, and understanding these media as communicational modes. This is followed and enlarged by a concentration on the rhetorical and artistic dynamics of media (be it film, television, radio-sound, photo, etc.) and on the content of a work created in a particular medium.

The curriculum is designed:
1. for students who intend to continue graduate studies in communication;
2. for future writers, critics, communication arts consultants, directors, and performers;
3. for future teachers in the field of radio, television, film;
4. for students who plan a career in the areas of publicity, promotion, advertising and public relations.

Facilities:
The department has one professionally-equipped television-film studio, 3 Plumbicon cameras, telecine chain, 2"-1"-1/2" videotape recorders and editing facilities, portable TV cameras, four 16mm professional units, 16mm sync and editing units, and complete super 8mm sound/film units; a photographic laboratory and negative room, an optical laboratory, a holographic and laser laboratory, a sound laboratory, a research studio for the measurement of visual and audio information loads, an electronic and electromechanical programmer for multi-media use, and a learning centre with audio-video terminals.

Department Admission Requirements:
Bachelor of Arts degree: The normal requirement for students residing in Quebec is the completion of the CEGEP programme. (D.E.C.): for students residing outside Quebec, the equivalent is the completion of 13 years of schooling.

The maximum number of students the department can accept is determined by space and technical facilities, and usually applications tend to outnumber that maximum.

To allow us to make a fair and informed selection we ask the applicants to provide us with adequate information about themselves, their work, and their aims. For this purpose, applicants are requested to submit:
1) a comprehensive letter of intention stating why the applicant wishes to major in Communication Arts.
2) letters of recommendation, at least two of which should be from teachers who are acquainted with the applicant's talents and ability.
3) a complete record of all studies to the present time, including those courses in which the applicant is now enrolled.
4) an interview, which will include a discussion of one or two creative projects.

Applications and all supporting documents should be sent to the Admissions Committee, Department of Communication Arts, Loyola Campus of Concordia University, 7141 Sherbrooke St., W. Montreal, H4B 1R6, Quebec.

Diploma in Communication Arts:
The Department also offers a one-year diploma programme for students who have completed their undergraduate degree. Detailed information on the programme is given in the University's Calendar of Graduate Studies.

51.8.3 COURSE DESCRIPTIONS

COMMUNICATION ARTS 301 A/B
History of Communication Media
Prerequisite: Comm. Arts Major or Spec. Selected segments from the history of film, radio, television, drama, journalism and design, related to the contemporary philosophy of communication arts. Explanation and demonstration of major styles, art work, authors. (3 credits)

COMMUNICATION ARTS 303 A/B
Communication Analysis
Prerequisite: Comm. Arts Major or Spec. General and detailed analysis of various information complexes, e.g., exhibitions, theatres, cinema performances, museums, galleries, countryside, city streets, highways, department stores, etc. - from the point of view of the information aids used to influence the perception of visitors; light, space, sound, pictures, words, and exhibits. (3 credits)

COMMUNICATION ARTS 305 A/B
Dynamics of Visual Representation
Prerequisite: Comm Arts Major or Spec. or approval of the professor. The objective of this laboratory course is to train students to perform basic experiments in vision and perception - to explore space, distances, planes, tones, light, etc. From the experiments, the students are led to discover fundamental laws which underlie visual representation. Photography (and its techniques) is the medium by which these experiments are recorded for observation and discussion. (3 credits)
COMMUNICATION ARTS 307 A/B
Introduction To Audio-Visual Media Technology
Prerequisite: Comm Arts Major or Spec.
The Sound Section is designed to provide a fundamental working knowledge of audio systems and practices as applied to visual programs. Topics to be treated: basic physics, electricity, acoustics, related equipment. The Graphics Section is designed to provide an understanding of colour, content and design theories, basic graphic techniques and a working knowledge of various projection and duplication systems (35mm, overhead, opaque, diazo, photocopy and graphic media integration). (3 credits)

COMMUNICATION ARTS 308Z
The Cinematic and the Electronic Image
Prerequisite: Comm Arts Major or Spec.
A practical approach to an understanding of the common elements of film and video media, and of the specific differences inherent in their effective use. Students develop treatments and scripts for course productions. (6 credits)

GROUP A

COMMUNICATION ARTS 420Z
Media and Media-Culture
Prerequisite: Comm Arts Univ. II and III. This course is about media and their function, overt and covert; their effect on perception: as bases for thought, organization, technologies: as determinants of content: as accelerators of cultural changes; oral-aural, manuscript, print, electronic cultures, current cultural dynamics. The method is lecture-discussion and projects. Assignments are more or less monthly. (6 credits)

COMMUNICATION ARTS 421A
Mass Communication
Prerequisite: Comm Arts Univ. II and III. This course will examine the nature and forms of Mass Communication, the social sources and uses of Mass Communication, its psychology, audiences and effects. The ethics of Mass Communication will also be discussed. Through guest lecturers from the various media and readings of contemporary analysis/critiques, issues such as media ownership and access, government and self-regulation, technological implications, media accountability, etc., will be raised. (3 credits)

COMMUNICATION ARTS 423B
Psychology of Communication
Prerequisite: Comm Arts Univ. II and III. Building on a construct of a communication model, the course will examine the social-psychological factors of context and setting, the dimensions of the source-receiver, of the message, the channel, and the measurement of feed-back and communication effects. Analysis and experience in developing communication strategies of attention, perception and acceptance will be included. (3 credits)

COMMUNICATION ARTS 424Z
Inter-Cultural Communication
Prerequisite: Comm Arts Univ. II and III. Do the values of a person or a society influence the processes and products of communication? How do specific values affect interpersonal, intergroup and mediated communication? What problems arise in communicating both personally and with media, inter-culturally? The course will focus on these and other questions related to communication in an inter-cultural context. Specific problems in Canadian inter-cultural communication will be examined, including French-English communication and communication with ethnic minorities. (6 credits)

COMMUNICATION ARTS 524Z
Feature Television
Prerequisite: Comm. Arts Univ. III with approval of instructor. An examination in depth of content, styles, and forms in the feature television programme, with emphasis on television, opera, ballet, drama, musical, TV, radio, and print media. Examples drawn from TV programmes in Canada, USA, Europe and Asia. (6 credits)

COMMUNICATION ARTS 525A
Documentary Film and Television Genres
Prerequisite: Comm. Arts 443A, 443B, or approval of instructor. Survey of genres in documentary film and television as: biographical, industrial, travelogue, nature, scientific, training, educational, children's films and TV programmes. Examples from Canada, USA, Europe. (3 credits)

COMMUNICATION ARTS 527 A/B
Film Ideas
Prerequisite: Comm. Arts Univ. III. A seminar in film criticism, the course focuses on the aesthetic cultural dimensions, exploring the student's sensitivity within the context of contemporary sensibility. Viewing, discussion, written critiques of present trend-setting film. (3 credits)

COMMUNICATION ARTS 528Z
Broadcasting Policy in Canada
Prerequisite: Open to all Univ. III students. A course designed to prepare students for the regulatory and legal constraints facing Canadian broadcasters, and to situate these constraints within their historical and political context. The course will cover the current Broadcasting Act, the CRBC, private broadcasters, lobbies, the history of broadcasting in Canada, and future technical and political trends. The course will be given seminar-style and final marks will reflect the students' participation in the class discussions. (6 credits)

COMMUNICATION ARTS 530Z
Media and Community Development
Prerequisite: Open to all Univ. III students, with approval of instructor. Do the means of communication bias the development of a society? How do media influence the process of social and cultural change and economic development? Are specific media suited to specifically-defined development projects? The course will focus on these and other questions related to media's possible effect on the usefulness of community development. Resource material will include texts by Canadian broadcasters, and to situate these constraints within their historical and political context. The course will cover the current Broadcasting Act, the CRBC, private broadcasters, lobbies, the history of broadcasting in Canada, and future technical and political trends. The course will be given seminar-style and final marks will reflect the students' participation in the class discussions. (6 credits)

COMMUNICATION ARTS 532Z
Organizational and Political Communication
Prerequisite: Open to all Univ. III students. The course will be examined, including the social-psychological factors of context and setting, the dimensions of the source-receiver, of the message, the channel, and the measurement of feed-back and communication effects. Analysis and experience in developing communication strategies of attention, perception and acceptance will be included. (3 credits)

GROUP B

COMMUNICATION ARTS 438/Z
Advanced Script-Writing for Film
Prerequisite: Submission of an original short story by August 1st, and subsequent approval of instructor. A practical course in writing the treatments, plotting, scene-making, characterization and character development, dialogue, dramatic
COMMUNICATION ARTS 440Z
Advanced Script-Writing for Television
Prerequisite: Submission of an original short story by August 1st, and subsequent approval of instructor. The course provides fundamental knowledge of visual scripting, research and evaluation technique. Practical experience is given in writing, narration, dialogue, speech styles, characterization and plot development, scripting for drama, comedy, documentary, children's, variety, TV series, and women's shows. (6 credits)

COMMUNICATION ARTS 441A
Seminar in Propaganda
Prerequisite: Open to all Univ. II and III students. The aim of the course is to recognize the orchestration of the elements of propaganda around us and to develop the means to deal with it. The method followed will be discussion and presentation of research findings by teams of 2-4 students. (3 credits)

COMMUNICATION ARTS 443A
Documentary Film
Prerequisite: Open to all Univ. II and III students. A survey of the documentary film field from 1895 until 1960, with an examination of major styles: Romantic, Realistic, Impressionistic, Expressionistic, Avant-Garde. The styles will be examined in the works of Flaherty, J. Grierson, F. Capra, B. Wright, J. Ivens, A. Cavalcanti, W. Ruttman. (3 credits)

COMMUNICATION ARTS 443B
Documentary Television
Prerequisite: Open to all Univ. II and III students. Survey of styles and forms in documentary television. Examples of major television documentary programmes from Canada, USA, Europe. (3 credits)

COMMUNICATION ARTS 445-00
Explorations in the Cinema
Prerequisite: Open to all Univ. II and III students. In-depth studies of specific artists or schools in film creativity. Concentration on the (film) art-object in its technique and overall aesthetic dimensions, to arrive at the artist's vision of the universe and his insights in terms of an evolving film form and evolving human sensibility. The specific cultural context within which artists evolve is also explored. Each of the following units is a half-term course. Units are given on a cyclic basis. (3 credits)

445A-01 The Scandinavians
The birth of American film art, with the Comedians, Griffith, Stroheim, the career of Chaplin. (1976-77)

445A-02 Germany in the '20's
Lang, Murnau, Pabst, Lubitsch, and the Expressionists, in Germany and in their later Hollywood careers. (1977-78)

445A-03 The Soviet Cinema in the '20's
Eisenstein, Pudovkin, Dovzenko, Dziga-Vertov and the revolutionary film. (1978-79)

445A-04 The Hollywood Genres
Each year, concentration on a specific area and specific directors of the Hollywood of the '30's, '40's, '50's. (1976-77; 1977-78)

445A-05 The Classic French Cinema
Renoir, Clair, Cocteau, Bresson, Ophuls in the '30's, '40's, '50's. (1978-79)

445B-06 La Nouvelle Vague
Truffaut, Godard, Chabrol, Resnais, Varda, Rohmer, from the New Wave days to the present (1978-79)

445B-07 The Scandinavians
Bergman and the Swedes, Carl Dreyer, from the early days to the present. (1976-77)

445B-08 The Italians, from Neo-Realism to Today
Rossellini, De Sica, Visconti, Fellini, Antonioni, Pasolini, Bertolucci. (1977-78)

445B-09 Shakespeare in the Cinema
The Olivier, Welles, Russian, and other major filmings of Shakespeare's works, with study of corresponding plays and critical works. (1977-78)

445B-10 The Canadian Cinema

COMMUNICATION ARTS 449Y
Communication Research
Prerequisite: Comm. Arts 303. An examination of the aids and practical methods for information chains. Limited experiments will be conducted on information complexes, e.g., 3 D complexes, cinema, photography, holography, painted pictures, metacomplexes, and internal information spaces. Individual and groups projects will be assigned. (3 credits)

COMMUNICATION ARTS 541B
Seminar in Media Forecast
Prerequisite: Comm. Arts Univ. III students. This course examines trends in film, sound, and television for upcoming media applications. The course includes theory of media effects. Industries and government will be invited to discuss future trends in media utilization. The course demands a theoretical model for original or novel use of a medium or mixed media. (3 credits)

COMMUNICATION ARTS 543Y
Communication Programming
Prerequisites: Comm. Arts 303, 449Y. An advanced seminar for students interested primarily in Communication Theory and Research. Individual projects will be assigned on the analysis of receiver responses, the design of programmes, the realization of pilot programmes, and the evaluation of measurement of the efficiency of these programmes. (3 credits)

COMMUNICATION ARTS 544Z
Advertising and Public Relations
Prerequisite: Open to all Univ. III students. With emphasis on communication analysis and experience, the course will examine advertising and public relations, and the societal uses of both. It will focus in a practical way, through analysis and critique, on the structure, effects, media choice and communication strategies in the operation of an actual campaign. Students will gain experience in both individual creation and actual campaign operation (6 credits)

GROUP C
COMMUNICATION ARTS 458Z
Photography as Visual Language
Prerequisite: Open to all Univ. II and III students and approval of instructor. Prior submission of portfolio required and students accepted must own camera and lenses.
The course will consider the photographer as a man of responsibility as well as vision. It will explore areas of personal concern as interpreted with single and serial images, in the light of the fact that one sees through one's eyes and not with them. Weekly projects will be assigned. $50 charge for course materials. (6 credits)

COMMUNICATION ARTS 460Z
Fundamental Photographic Situations
Prerequisite: Open to all Univ. II and III students with approval of instructor. Students accepted must own camera and lenses. The course examines the demands of the medium as they arise in a wide range of shooting situations. Its purpose is to enable the student to understand what the camera "sees" and "takes" and to maximize what it "says". The method is a series of systematic assignments in which camera use becomes progressively more complex, e.g., situations involving space, objects in space, environment, persons, time and sequence, movement, the revealing moment. (6 credits)

COMMUNICATION ARTS 462Z
Communication of Ideas Through The Use of Sound
Prerequisite: Comm. Arts 307 and 308. This course is designed to give students a full basic working knowledge of the technology and discipline of audio production as applied to radio, film, television, and audio-visual productions. Based on a verbal exchange of creative ideas, students will prepare individual sound projects, under tutorial guidance, in their own area of preference, ranging from simple to more complicated formats. Discussions are based on analysis of (a) student's experiments in communicating with sound and (b) works from the commercial world of media. (6 credits)

COMMUNICATION ARTS 464Z
Intermediate Film Production
Prerequisite: above-average standing in Comm. Arts 308. Three short productions progressively acquaint students with equipment and procedures, and give an opportunity to explore a variety of film genres and styles. The fourth, normally a team production, provides more substantial scope for original and creative communication by the film medium. (6 credits)

COMMUNICATION ARTS 468Z
Intermediate Television Production
Prerequisite: Comm. Arts 308. This course explores the creative possibilities inherent in the television medium, the uses of the telecine chain and rear-screen projection, in-studio and on-location production and editing. The better original works of students are videotaped for playback and discussion. Criticism of programme series with emphasis on research and criteria for judgment (content analysis, programme value, relation to public arts). (6 credits)

COMMUNICATION ARTS 561Y
Computer Communications Programming
Prerequisite: Comm. Arts Univ. III Digital computer applications to media — film, radio, television complexes. Students work at samples of digital analog programmes, applicable for electronic generation of sound, video and graphics. (3 credits)

COMMUNICATION ARTS 580Z
Honours Project in Research, Film, Television, Sound, Or Multi-Media
Prerequisite: Comm. Arts Spec. Univ III. Towards the end of second year, students of demonstrated scholarly and creative ability may propose, or be selected for, a major research or production in a Communications area of special interest. During third year, individually or in teams and in close collaboration with faculty directors, these students produce works acceptable for publication, public distribution or professional use. Projects normally emphasize a thematic approach, and require approval by a Senior Projects Committee. (6 credits)
## 51.9 Computer Science

### Associate Professor and Chairman
D. C. WEST

### Assistant Professors
B. C. DESAI
D. G. HALTRECHT
A. K. MENON

### 51.9.1 PROGRAMMES

#### 90 BSc Specialization in Computer Science

**Prerequisites:** Math 231, 233; Comp Sc 211, 241

**Year I**
- 9 Comp Sc 335A3, 337B3, 343B3
- 9 Math 301A3, 321B3, 353A3
- 6 Sc Elec (Bio, Bio-PE, Chem, Geol, Phys, Psyc)
- 6 Elec

**Year II**
- 6 Comp Sc 223A3, 311B3, Comp Sc Elec
- 6 Math 334Z6
- 6 Sc Elec (Bio-PE, Bio, Chem, Geol, Phys, Psyc)
- 6 Elec

**Year III**
- 15 Comp Sc 451A3, 513A3, 515B3, 533A3, 537B3
- 9 Comp Sc Elec
- 6 Elec

#### 90 BSc Specialization in Mathematics & Computer Science

**Prerequisites:** Math 231, 233, Comp Sc 211, 241

**Year I**
- 6 Comp Sc 341A3, 343B3
- 18 Math 321A3, 323B3, 334Z6, 340Z6
- 6 Elec

**Year II**
- 6 Comp Sc 423A3, 425B3, 427B3, 433A3, 435A3, 551A3 or 561A3
- 15 Math 326Z6, 402Z6, 353A3
- 9 Elec

**Year III**
- 6 Comp Sc 424Z6
- 12 Comp Sc Elec
- 6 Math Elec
- 6 Elec

#### 36 BSc Major in Computer Science

**Year I**
- 6 Comp Sc 335A3, 337B3
- 6 Math 334Z6

**Year II**
- 6 Comp Sc 223A3, 311B3
- 6 Math 353A3, 321A3 or 323B3

**Year III**
- 6 Comp Sc 451B3, 551A3
- 6 Comp Sc Elec

#### 24 Minor in Data Processing

**Year I**
- 6 Comp Sc 221A3, 223B3

**Year II**
- 6 Comp Sc 311A3, 313B3

**Year II or III**
- 6 Comp Sc 451A3, 555B3
- 6 Comp Sc Elec

**NOTE:** The above courses are given in the B Comm programme on the Loyola campus.

#### 24 Minor Scientific Computing

**Year I**
- 6 Comp Sc 211A3, 241B3

**Year II**
- 6 Comp Sc 341A3, 343B3

**Year II or III**
- 6 Comp Sc 435A3, 437A3
51.9.2 COMPUTER SCIENCE

NOTE: This section of the Calendar describes only a few of the Computer-based programmes available to students at Concordia. Other programmes include Data Processing (See Commerce, § 61); Electrical Engineering (See § 71); and the Computer Science programmes on the Sir George Williams campus (See § 77).

The Bachelor of Science courses and programmes described below are intended particularly for students who expect to become users of computers in scientific or technical applications, and for scientists and engineers who want to learn how to apply the tremendous capabilities of computers in their work.

Students who intend to enter the Bachelor of Science programmes must complete the introductory courses Comp Sc 211 and 214, and Math 231 and 233, as a prerequisite. Exemption from these courses may be allowed for students who have had equivalent training in other institutions. Note that the entrance requirements for other computer-based programmes are all different.

If you would like to study some other subject in addition to Computer Science, you may register for a Bachelor of Science degree with a Major programme (36 credits) in Computer Science, plus a Major or Minor of the Loyola Faculty of Arts and Science (subject to the approval of the two Departments). This will provide you with a broader knowledge at the expense of shorter training in computer science. The Major programme has the same prerequisites as the Specialization.

If you intend to specialize in some other Arts or Science discipline but would like at the same time to get a working knowledge of computers, you may apply for a Minor in Scientific Computing or in Data Processing, depending on your interest. These Minor programmes count as electives toward your University degree. There are no prerequisites necessary for the Minor programmes.

51.9.3 COURSE DESCRIPTIONS

COMPUTER SCIENCE 211
Introduction to Scientific Computing
Prerequisite: None. Coding of numerical and alphabetical data. General description of storage and I/O hardware. Organization and functioning of the central processing unit. The structure of a typical machine-language instruction and of a typical symbolic assembler-language program. The binary, octal and hexadecimal number systems. Flow charting and problem analysis. Elementary data structures. The use of interactive terminals and time-sharing. Mathematical models and methods used in typical applications in science and industry. Problems in simplified machine and assembler languages will be assigned, to be run on the computers.

Students with credit for Comp Sc 221 or 301 may not take this course for additional credit. (3 credits)

COMPUTER SCIENCE 221
Introduction to Business Computing
Prerequisite: None. An introductory course for students interested in the applications of computers in business and industry. (3 credits)

COMPUTER SCIENCE 223
Data Processing Techniques
Prerequisites: Computer Science 211, 221 or 301. Given in the BComm programme, Loyola campus. § 61.11 (3 credits)

COMPUTER SCIENCE 241
Elementary Fortran Programming
Prerequisite: Computer Science 211 or 221. The course will cover the following topics: preparing and submitting programs documentation; real arithmetic; integer arithmetic, mixed-mode arithmetic, simple input and output; control statements; DO loops; subscripted variables; formats; regular and sub-programs. Regular assignments will be given, to be prepared, run, tested and documented by each student. Typically the assignments will require a total of 15 to 30 hours of work outside of class. This course may not be taken for credit at the University level, by students in Engineering or BSc Computer Science programmes. Lectures: Two hours per week; one hour per week workshop problems sessions. (3 credits)

COMPUTER SCIENCE 301
Computers in Society
Prerequisite: None. An introductory course for Arts students with no previous experience of computers. It covers the history of computers, the component parts of a computer, how human beings and computers pass information to each other, and what computers can (and cannot) be used for in the fields of education, research, business, medicine, art, government and the humanities. The effect of computers on society and the individual. Available as an elective for all students, but may not be taken for additional credit by students who already have credit for Comp Sc 211 or 221. (3 credits)

COMPUTER SCIENCE 311
Elementary COBOL Programming
Prerequisite: Computer Science 223. Given in the BComm programme, Loyola campus. § 61.11. (3 credits)

COMPUTER SCIENCE 335
Computer Science Methodology and Techniques I
Prerequisite: Computer Science 211 and 241. Principles of structured programming and decision tables. Introduction to number systems and Boolean algebra. Structured flowcharting, problem analysis, and the design of solutions. (3 credits)

COMPUTER SCIENCE 337
Computer Science Methodology and Techniques II
Prerequisite: Computer Science 335. Introduction to discrete structures, basic graph theory and applications. Elementary organization of computer systems. Elements of file structures and file management. Macros and other programming concepts. A term project will be carried out under close supervision. (3 credits)
COMPUTER SCIENCE 341
Advanced FORTRAN Programming
Prerequisite: Computer Science 241. A continuation of the study of FORTRAN programming. Emphasis is on problem-solving techniques and on the use of FORTRAN as a tool for solving problems from numerical analysis as exercises in advanced FORTRAN programming. Operations involving logical, double-precision, complex and character-string variables. Extended input/output and format operations. Work load is typically 4 to 10 hours per week outside of class. Lectures: 2 hours per week. Problems: 1 hour per week. (3 credits)

COMPUTER SCIENCE 343
Computer Applications of Numerical Methods
Prerequisites: Computer Science 241 and Mathematics 233. Concepts of numerical errors, interpolation and curve fitting. Solution of non-linear equations by iteration. Numerical integration. Matrix operations and solution of systems of linear equations. Numerical solution of ordinary differential equations. Emphasis will be on the algorithms and standard subroutines available to solve these problems, and on practical computing experience rather than on mathematical study. Lectures: 2 hours per week. Problems: 1 hour per week. (3 credits)

COMPUTER SCIENCE 345
Advanced FORTRAN Programming
Prerequisite: Computer Science 311 or 341. Review of the basic concepts of IBM 360/370 architecture and instruction repertoire. Memory access and storage. Detailed flowcharting of problems. Rules for coding assembler language programs, including use of base registers, program linking and sectioning and the use of macro instructions. Documentation, debugging and testing of programs. Students will write and run several programs on an IBM 360/75 computer. Work load is typically 4 to 10 hours per week outside of class. (3 credits)

COMPUTER SCIENCE 348
Information Theory
Prerequisite: Computer Science 221. Study of the basic principles of information theory. Topics include entropy, channel capacity, coding theory, information transmission, and data compression. (3 credits)

COMPUTER SCIENCE 349
Operating Systems
Prerequisite: Computer Science 223. An introduction to operating systems and their role in computer systems. Emphasis is on the design and implementation of operating systems, including topics such as process management, memory management, interrupt handling, and file systems. (3 credits)

COMPUTER SCIENCE 351
Computer Graphics
Prerequisite: Computer Science 223. An introduction to computer graphics, focusing on the mathematical foundations and algorithms used in computer-generated images. Topics include geometric modeling, rendering, and animation. (3 credits)

COMPUTER SCIENCE 352
Database Systems
Prerequisite: Computer Science 223. An introduction to database systems, including data models, database management systems, and database design. (3 credits)

COMPUTER SCIENCE 353
Artificial Intelligence
Prerequisite: Computer Science 223. An introduction to artificial intelligence, focusing on the development of intelligent agents and the use of computational techniques in problem-solving. (3 credits)

COMPUTER SCIENCE 354
Computer Networks
Prerequisite: Computer Science 223. An introduction to computer networks, including network architecture, protocols, and network security. (3 credits)

COMPUTER SCIENCE 355
Computer Architecture
Prerequisite: Computer Science 223. An introduction to computer architecture, focusing on the design and implementation of computer systems. Topics include instruction set architecture, memory management, and parallel processing. (3 credits)

COMPUTER SCIENCE 356
Computer Security
Prerequisite: Computer Science 223. An introduction to computer security, focusing on the protection of computer systems from unauthorized access and misuse. Topics include cryptography, access control, and security policies. (3 credits)

COMPUTER SCIENCE 357
Computer Forensics
Prerequisite: Computer Science 223. An introduction to computer forensics, focusing on the investigation of computer systems for evidence of criminal activity. Topics include digital evidence, incident response, and cybersecurity. (3 credits)

COMPUTER SCIENCE 358
Computer Systems Design
Prerequisite: Computer Science 223. An introduction to computer systems design, focusing on the development of large-scale computer systems. Topics include software engineering, system integration, and project management. (3 credits)

COMPUTER SCIENCE 359
Computer Systems Management
Prerequisite: Computer Science 223. An introduction to computer systems management, focusing on the effective operation and maintenance of computer systems. Topics include system administration, performance monitoring, and resource management. (3 credits)

COMPUTER SCIENCE 360
Computer Systems Security
Prerequisite: Computer Science 223. An introduction to computer systems security, focusing on the protection of computer systems from unauthorized access and misuse. Topics include access control, security policies, and incident response. (3 credits)

COMPUTER SCIENCE 361
Computer Systems Design
Prerequisite: Computer Science 223. An introduction to computer systems design, focusing on the development of large-scale computer systems. Topics include software engineering, system integration, and project management. (3 credits)

COMPUTER SCIENCE 362
Computer Systems Management
Prerequisite: Computer Science 223. An introduction to computer systems management, focusing on the effective operation and maintenance of computer systems. Topics include system administration, performance monitoring, and resource management. (3 credits)

COMPUTER SCIENCE 363
Computer Systems Security
Prerequisite: Computer Science 223. An introduction to computer systems security, focusing on the protection of computer systems from unauthorized access and misuse. Topics include access control, security policies, and incident response. (3 credits)

COMPUTER SCIENCE 364
Computer Systems Design
Prerequisite: Computer Science 223. An introduction to computer systems design, focusing on the development of large-scale computer systems. Topics include software engineering, system integration, and project management. (3 credits)

COMPUTER SCIENCE 365
Computer Systems Management
Prerequisite: Computer Science 223. An introduction to computer systems management, focusing on the effective operation and maintenance of computer systems. Topics include system administration, performance monitoring, and resource management. (3 credits)

COMPUTER SCIENCE 366
Computer Systems Security
Prerequisite: Computer Science 223. An introduction to computer systems security, focusing on the protection of computer systems from unauthorized access and misuse. Topics include access control, security policies, and incident response. (3 credits)

COMPUTER SCIENCE 367
Computer Systems Design
Prerequisite: Computer Science 223. An introduction to computer systems design, focusing on the development of large-scale computer systems. Topics include software engineering, system integration, and project management. (3 credits)

COMPUTER SCIENCE 368
Computer Systems Management
Prerequisite: Computer Science 223. An introduction to computer systems management, focusing on the effective operation and maintenance of computer systems. Topics include system administration, performance monitoring, and resource management. (3 credits)

COMPUTER SCIENCE 369
Computer Systems Security
Prerequisite: Computer Science 223. An introduction to computer systems security, focusing on the protection of computer systems from unauthorized access and misuse. Topics include access control, security policies, and incident response. (3 credits)
for multiprogramming computers. Time-sharing systems, and interactive processors with real-time application. (3 credits)

**COMPUTER SCIENCE 537**  
Software Design and Programming  
Prerequisite: Computer Science 533.  
Continuation of Computer Science 533.  
Storage organization, scheduling algorithms, resource allocation techniques, protections and communication. Detailed analysis of a small operating system. Structured multiprogramming. The student will do a term project, which may be related to other third-year Computer Science courses, with the approval of the professors concerned. (3 credits)

**COMPUTER SCIENCE 551**  
Theory of Automata  
Prerequisite: E-135. Theoretical description of computing machines. Finite State automata and sequential machines. The equivalence of states and machines; congruence; reduced machines; analysis and synthesis of automata. Turing and other machines. Recursion and decidability. (3 credits)

**COMPUTER SCIENCE 561**  
Computer Science and Project I  
Prerequisite: Consent of the Department. Individual work on a computer science project under the supervision of a faculty member, and a series of seminars dealing with topics of current interest by faculty members, students and industry representatives. At least 60 hours of work must be done on a project approved in advance, including the submission of a technical report. Special arrangements can be made with the Department to accept a project carried out by a student employed in a commercial firm. (3 credits)

**COMPUTER SCIENCE 563**  
Computer Science Seminar and Project II  
Prerequisite: Computer Science 561. A continuation of the project begun in Computer Science 561. (3 credits)
51.10 Drama (BA)

The BA Major in Drama is presently under study with a view to its re-organization. Students may enrol in either the BFA Major in Drama (see the Faculty of Fine Arts 81) or the BA at Loyola Campus.

21 Drama Elec
12 Drama Literature Elec

51.10.2 DRAMA LOYOLA CAMPUS

The specific aims of the drama programme are to provide students with enough knowledge and skills in this field with which they may decide to continue toward a teaching career in secondary education, toward a graduate programme, toward specialized professional training in the theatre or cultural animation, or to pursue their own interests without further formal development.

The general aim is to enrich the education and life of the student, within the context of the liberal arts degree, with the humanistic study of man's presentation of himself throughout history via dramatic literature and theatrical action.

The Drama programme offers a rigorous and integrated introduction to the theatre, balanced between practical experience and discipline on the one hand, and an academic study of theatre theory and dramatic literature on the other. All students in Drama pass through the same basic initial programme before deciding on a more individually oriented course of study.

The first year is intended as a grounding in the primary areas of drama: history, literature theory, acting, and technical production. The second year continues the streams of dramatic literature and theatre practice. The student becomes a part of a repertory company with opportunity to apply his knowledge and abilities. At this time the student may elect, in consultation with the drama faculty, a more specialized focus in either dramatic theory and criticism, acting, or technical production. For special requirements concerning these options students should consult the Co-ordinator of the Theatre Arts section.

Students wishing to major in Drama must successfully complete the first year's required courses Theatre 2813, 3013, Scenography 2023, Theatre Performance 2013, 2023, with an aggregate 70%, in order to be accepted into the Production Workshop sequence (Production 2013, 3013, 3023, 4013).

For a complete listing of Drama courses, please consult § 81, Performing Arts Division.

51.11.2 DEPARTMENT OF ECONOMICS

The courses required for each programme must be taken in an approved sequence. “Principles of Economics”, or an equivalent course, is a pre-requisite for all other Economics courses, except Economics 304. Additional pre-requisites are indicated for each course. Alternative pre-requisites in Economics or other disciplines may be approved by the Department.

Economics 300 or 302 will count as one of the Economics electives in the case of students who are admitted without “Principles of Economics” or an equivalent course.

Admission into the Honours Programme requires approval of the Department following a recommendation from its Honours Committee. The maintenance of honours standing requires a 65% minimum in each Economics course and an overall average of 65% for all courses.
ECONOMICS 300Z
Principles of Economics
A survey of the existing economic order, with particular emphasis on the Canadian Economy. Concentration is on explaining the operation of the price system as it regulates production, distribution and consumption, and as it in turn is modified and influenced by private organization and government policy. Consideration is also given to the determination of aggregate economic activity; the monetary and banking systems in the United States and Canada; the composition and fluctuation of national income; the major conditions of economic growth; all as influenced by monetary, fiscal and other policies. (3 credits)

NOTE: This course is not available to students who have received credit for an equivalent course.

ECONOMICS 302Z
Principles of Economics
This course is for students not majoring in Economics or Commerce. Its content is essentially the same as that of Economics 300. However, there is greater emphasis on Canadian economic institutions and government policies. (6 credits)

ECONOMICS 304Z
Economic History
An analysis of the economic development of Western Europe, Canada and the United States. (3 credits)

ECONOMICS 307B
The Chinese Economy
This course is devoted to an analysis of Chinese economic development since 1949. Topics include: performance and efficiency, strategy for development, agricultural organization, the contribution of policy to economic growth, the industrial sector, control and allocation of resources, national economic planning. (3 credits)

ECONOMICS 309A
Intermediate Micro-Economic Theory
In this course consideration will be given to such topics as: theory and measurement of demand, production functions, cost analysis, price and output policy under various market conditions, factor pricing, general equilibrium, and the social welfare optimum. (3 credits)

ECONOMICS 311B
Intermediate Macro-Economic Theory
An analysis of the major areas of aggregate economics. The definition and measurement of national income, the theory of income determination, monetary theory, growth and fluctuation, policy implications. (3 credits)

ECONOMICS 322Z
Mathematics for Economists
Prerequisite: Mathematics 101 or equivalent. An introductory application of mathematics to economic analysis. Topics: analytic geometry, differential and integral calculus, differential and difference equations, elements of linear algebra. Selected economic applications will be considered throughout the course. (6 credits)

ECONOMICS 333A/B
Economics of the Environment
(Also given as Interdisciplinary Studies 333A/B)
This course will be devoted to an examination of the economic aspects of current environmental problems. Topics will include: economy, ecology, and the environment; economic growth and the environment; the circular flow of economic activity and spaceship earth; private and social costs; market failure, externality, and collective goods; fiscal instruments and pollution; an evaluation of federal and provincial policies. (3 credits)

ECONOMICS 338Z
Contemporary Economic Issues
An analysis of some economic issues facing Canada. For example: unemployment, inflation, monopoly and competition, foreign ownership and control, income distribution, regional disparities, monetary and fiscal policies, etc. Theoretical concepts will be developed as needed. (6 credits)

ECONOMICS 401A
Theories of Economic Growth
The meaning and concept of economic growth, measurement of growth, economic and non-economic factors of growth, the concept of scarcity of resources and their allocation, stages and models of growth, obstacles to growth, human and physical capital and economic growth, foreign trade and foreign aid; developing economies and economic policies and the development of nations. (3 credits)

ECONOMICS 403B
Planning for Economic Growth
The meaning and concept of economic planning, methodology and strategy of planning, input-output and sector analysis, techniques of planning, investment criteria and priorities, study and appraisal of economic plans of a few countries. (3 credits)

ECONOMICS 404Z
Statistical Methods
Prerequisite: Economics 309. The application of statistical methods to economic problems, including probability, testing hypotheses, time series, correlation and linear regression analysis. (6 credits)

ECONOMICS 405B
Economic Fluctuations
Prerequisite: Economics 311. A review of some theories of causes of economic fluctuations. Discussion of the economic climate and of stabilization policies. (3 credits)

ECONOMICS 407A
Money and Banking
Prerequisite: Economics 311. The functions of money, money and prices, the evolution and kind of money, the value of money, the supply of money, monetary and banking developments in Canada, monetary theory, international monetary system, monetary policy. (3 credits)

ECONOMICS 411A
Economics of Transportation and Communications
Prerequisite: Economics 309. Demand, cost and pricing in the transportation and communications industry; implications for development and for the location of industry; public policies. (3 credits)

ECONOMICS 434Z
Comparative Economic Systems
Prerequisite: Economics 309. The evolution of economic systems is discussed and evaluated in terms of modern economic theory, and from the point of view of economic efficiency and development. (6 credits)
LOYOLA
FACULTY OF
ARTS AND
SCIENCE
51.11.3
DEPARTMENT OF ECONOMICS: COURSE DESCRIPTIONS

ECONOMICS 438Z
Labour Economics
This course deals with labour force concepts and analysis; labour markets and other aspects of demand for and supply of labour; population, immigration and participation rates; theory of wages; structure and determination of wages; minimum wage and manpower policies. Emphasis will be on the Canadian institutions. (6 credits)

ECONOMICS 448Z
Industrial Relations
Study of industrial relations and industrial relations systems; philosophies and growth of trade union movement; philosophies and practices of management; collective bargaining; industrial disputes and their settlement; weapons of conflict; automation, inflation and unemployment; labour management co-operation in achieving social goals. Emphasis will be placed on industrial relations in Canada. (6 credits)

ECONOMICS 504Z
Economic History of Canada
This course will explore the economic history of Canada from the early days of settlement to the present time. Emphasis will be placed on economic development since 1867. Particular attention will be given to development in the Province of Quebec. (6 credits)

ECONOMICS 507A
International Trade
Prerequisites: Economics 309 and 311. The basis of international trade, gains from trade, factor-price equalization, the tariff, Canadian commercial policy, trade and development, economic integration. (3 credits)

ECONOMICS 509B
International Finance
Prerequisite: Economics 507. International monetary economics, foreign exchange markets, adjustment mechanisms, capital flows, balance of payments and domestic policy goals, international liquidity. (3 credits)

ECONOMICS 536Z
Economic Welfare and Governmental Activity
Prerequisites: Economics 309 and 311. The first part of this course will provide a foundation in the language of theoretical welfare economics; general equilibrium, welfare criteria, and propositions, and the anatomy of market failure. This will be followed by a study of the following topics: concept of a public good, budget determination through voting, types and growth of government expenditure, equity in personal income taxation, corporate income tax, indirect taxes, tax reform, negative income taxes, and cost-benefit analysis. (6 credits)

ECONOMICS 538Z
Regional Economics
Prerequisites: Economics 309 and 311. Regional economic analysis, regional accounts, inter-regional trade, industrial location and regional disparities, the regional distribution of resources and their relevance for development, characteristics of the resource industries, inter-regional migration, the impact of foreign investment and control, the city and the region, federal and provincial policies. (6 credits)

ECONOMICS 540Z
Economics of Social Welfare
Prerequisites: Economics 309 and 311. This course will be devoted to an examination of the economic aspects of social welfare issues in Canada. Topics will include: employment and unemployment; manpower problems and policies; inequality, poverty, social insurance and social assistance; investment in man, especially education and health; urban and regional development; environmental economics; federal, provincial, and municipal policies. (6 credits)

ECONOMICS 545A
Structure of the Economy and Public Policy
Prerequisite: Economics 309. Structure of the Canadian and U.S. economies; the determinants of market structure; theory and empirical evidence relating to price and output policies in different market structures; policies. (3 credits)

ECONOMICS 563B
Economics of Socialism
Prerequisites: Economics 309 and 311. The economic theory of socialism; Soviet, Yugoslav and other economies; problems of planning and development. (3 credits)

ECONOMICS 611A
Welfare Economics
Prerequisite: Economics 309. This is an advanced course for Honours students; and for Major students with the consent of the professor. The course will be devoted to an examination of selected topics in contemporary welfare economics and its applications. (3 credits)

ECONOMICS 655B
Introduction to Econometrics
Prerequisites: Economics 309 and 404. This is an advanced course for Honours students; and for Major students with the consent of the professor. Topics to be covered in this course include: classical linear regression; problems arising out of errors in variables; autocorrelation; multicollinearity; heteroscedasticity; use of lagged and dummy variables; simultaneous equation problems. (3 credits)

ECONOMICS 662Z
History of Economic Thought
Prerequisites: Economics 309 and 311. This is an advanced course for Honours students; and for Major students with the consent of the professor. An analysis and critical review of the evolution of economic thought from Plato and Aristotle to post-Keynesian economics. (6 credits)

ECONOMICS 665A
Advanced Micro-Economic Analysis
Prerequisites: Economics 309 and 322. This is an advanced course for Honours students; and for Major students with the consent of the professor. Mathematical exposition of the theory of consumer behaviour and demand; theory of production and cost; theory of the firm and market organization; theory of distribution. (3 credits)

ECONOMICS 667B
Advanced Monetary and Income Theory
Prerequisites: Economics 311 and 407. This is an advanced course for Honours students; and for Major students with the consent of the professor. The course will cover a number of selected topics, including the Classicalists and Keynesians; liquidity preference and loanable funds; money and real interest rates; monetary theory and its applications. (3 credits)

ECONOMICS 671A
Operations Analysis
Prerequisites: Economics 309 and 322. This is an advanced course for Honours students; and for Major students with the consent of the professor. Topics include linear programming and input-output analysis; basic concepts and solutions of linear
programming, its application to optimum resources allocation; exposition of basic inter-industry theory with the framework of input-output techniques; its applications to structural analysis. (3 credits)

ECONOMICS 681B
Advanced Macro-Economic Analysis
Prerequisite: Economics 311. This is an advanced course for Honours students; and for Major students with the consent of the professor. A critical examination of selected topics in aggregative economic analysis. (3 credits)

ECONOMICS 691
Honours Thesis
An Honours thesis including independent reading and research under the supervision of a professor. (3 credits)

51.12.1 PROGRAMMES -

60 BA Honours in English

The following courses constitute an honours programme provided the student maintains the required academic standing.

Year I

Years II and III
6 Engl 418Z.
12 Engl Elec (up to six credits may be chosen from an approved cognate course).

NOTE: The Honours programme satisfies all the requirements of the Specialization. It is particularly recommended for students intending to pursue Graduate studies in English literature.

72 BA Joint Honours in English and History

6 Engl 418Z.
18 Engl credits chosen from three different periods, at least two of which should be supported by parallel Hist courses.
6 Engl Elec.
6 Engl or Hist Elec.
12 Hist credits to parallel Engl courses.
12 Hist Honours Seminars.
6 Hist Elec.
6 Joint Engl/Hist Tutorial, Engl 590Z or Hist 590Z.

72 BA Joint Honours in English and Modern Languages

6 Engl 418Z.
18 Engl credits chosen from three different periods to parallel Modern Language courses.
6 Engl Elec.
18 Credits chosen from one modern language in different periods to parallel English courses.
12 Elec from one modern language.
6 Engl or Modern Language Elec.
6 Joint English/Modern Languages Tutorial, Engl 592Z.

60 BA Specialization in English

Year I

Year II and III
6 Engl 418Z.
18 Credits to be chosen from three different periods of English literature.
18 Engl Elec (up to six credits may be chosen from an approved cognate course).

60 BA Specialization in English and History

12 Engl credits chosen from two different periods which should be supported by parallel History courses.
18 Hist Elec
12 Hist credits to parallel Engl courses.
18 Hist Elec

NOTE: This programme replaces the Joint Majors programme.

60 BA Specialization in English and Modern Languages

12 Engl credits chosen from two different periods to parallel Modern Language courses.
12 Engl Elec
6 Theatre 2813, 3013
3 Scenography 2013
6 Theatre Performance 2013, 2023
6 Production 2013, 3013, 3023, 4013
9 Theatre Arts Elec

NOTE: This programme replaces the Joint Majors programme.

42 BA Major in English

Year I

12 Engl 400Z6, 401A/B3, 402Z6, 403A/B3, 404Z6, 405A/B3, 461A/B3
6 Engl 303A/B3, 305A/B3, 353A/B3, 357A/B3, 406Z6, 410Z6, 448Z6, 452Z6, 454Z6, or Class 311A3, 313B3

Years II and III

6 Engl 418Z6
12 Credits chosen from the list of Honours and Majors courses covering at least two different periods before the 20th century.
6 Engl Elec

24 Minor in English Language

18 Engl 301Z6, 408Z6, 504Z6
6 Engl 307Z6 or 501Z6 or Engl 503B3 and Engl Elec3 in consultation with chairman.

24 Minor in English Literature

Equivalent of 4 full courses chosen in consultation with the English Department.
9 Engl 400Z6, 401A/B3, 402Z6, 403A/B3, 404Z6, 405A/B3, or 461A/B3
6 Engl 303A3, 305B3
6 Engl 300Z6
3 Engl Elec

24 Minor in English Dramatic Literature

3 Engl 401A/B3
6 Engl 418Z6
3 Engl 417B3
3 Engl 429A/B3
9 Engl 308Z6, 309A3, 311B3, 312Z6, 314Z6, 316Z6, or 352Z6

51.12.2 DEPARTMENT OF ENGLISH

300 level courses are open to all students and may be used as English electives unless otherwise indicated.
400 and 500 level courses are normally restricted to students taking Honours, or Majoring in English.

Students may take half of a six credit course for three credits if a satisfactory arrangement can be worked out with the professor.

For the first year, all students are expected to take the equivalent of two full courses (12 credits) from a group of "genre" courses, i.e. courses that provide an introduction to the analysis of various literary types and forms and 6 credits (or the equivalent of one full course) from a second group.

Over the second and third years, major students must take one Shakespeare course (418 - 6 credits), two Pre-20th Century courses (12 credits) and one English elective (6 credits). Students in the Specialized programme must take one Shakespeare course (418), three courses from three different periods including the 20th Century (18 credits), and three elective (18 credits). Honours students must follow a more historically oriented programme. 9 credits (1½ courses) must be chosen in courses before the 17th Century, 9 credits (1½ courses) from the 17th and 18th Centuries (distributed over both centuries), 6 credits from the 19th Century, 6 credits in Shakespeare (418) and two electives (12 credits). Admission to the
Honours programme is granted at the end of the student's first year after departmental review. A B+ average must be maintained in the 10 courses that constitute the Honours programme.

51.12.3 COURSE DESCRIPTIONS

NOTE: The courses listed here constitute the total offering of the English Department. Not all courses are offered in any one year. Consult department brochure for accurate information concerning offerings and scheduling.

ENGLISH 101Z
Introduction to Literature and Composition
Selected readings from various periods and genres, designed to provide familiarity with some of the possibilities of the literary art. Students will be asked to write frequently and will be given training and assistance in the skills of composition. Certain sections will deal exclusively with composition; others will put greater emphasis on literature. Please consult department before registering. (6 credits)
NOTE: This is the standard pre-university course and is required for all students who have completed a CEGEP English course or its equivalent. Other students may receive university credit for this course if they earn a minimum grade of 60.

ENGLISH 300Z
Critical Reading
The aim of this course will be, through the examination of various kinds of discourse, to encourage and develop in students the ability to read critically. (6 credits)

ENGLISH 301A/B (301Z)
Style in Writing
Designed for the student who can spell and construct sentences, but would like assistance in matters of structure, emphasis, fluency, diction and logic. (3 credits)
NOTE: This course may be offered some years for six credits as ENGLISH 301Z.
NOTE: May not count toward the English Major.

ENGLISH 302Z
Rhetoric
An inquiry into the nature and function of Rhetoric (classical and "New"), and of rhetorical criticism; a study of the fundamentals, and some of the refinements, of prose style; logical and rhetorical analysis, and original compositions. (6 credits)

ENGLISH 303A/B
Major Developments in English Literature I
This course aims to produce a better understanding of important artistic and intellectual developments from the middle ages to the end of the seventeenth century through a close study of some major, but not simply "typical", literary works. The course will be designed to be of help both to English majors desiring a background and framework for their period courses and to general arts students desiring to broaden their familiarity with literature. (3 credits)

ENGLISH 304Z
Comedy
The theory and practice of Comedy as a literary mode. (6 credits)

ENGLISH 306Z
Shakespeare
Students will not only read a number of Shakespeare's plays but will also attend performances of them, as available. Scenes will be considered in terms of staging various possible interpretations, and the class may assist with a production. The course is intended to develop an appreciation of Shakespeare's plays as works for the stage. (6 credits)

ENGLISH 307Z
Translation
Prerequisite: Fluency in both French and English. Intensive work to improve the student's skill at translating a variety of texts from French to English. Emphasis will be placed on non-literary texts. Training will be given in style and idiom. The course will help the student gain proficiency in rendering a variety of French texts in idiomatic English prose. (6 credits)

ENGLISH 308Z
Studies in Drama
This course will study different kinds and periods of drama each year. (6 credits)

ENGLISH 309A
Literary Theatre
Prerequisite: Entrance by permission of the instructor. Drama as theatre. Students interested in dramatic literature will study plays from the point of view of production through preparation of scenes for class workshop. The course may build towards a public performance. (3 credits)

ENGLISH 310Z
Theatre of Tragedy
This course will study different kinds and periods of drama each year. (6 credits)

ENGLISH 311B
Literary Theatre in Theory and Practice
A continuation of English 309A. (3 credits)

ENGLISH 312Z
Tragedy
The theory and practice of Tragedy as a literary mode. (6 credits)

ENGLISH 313Z
The Oral Interpretation of Poetry and Drama
The aim of this course is to produce a deeper appreciation of the rhythm and texture of the written word. We shall choose scenes from plays and study the relationship of dialogue to character, emphasis to meaning. (6 credits)

ENGLISH 314Z
Time and The Drama
The course will consider plays from a wide variety of periods and theatres, concentrating on the effects upon dramatic form of the necessary time-limit on the length of a play, on the immediacy of dramatic presentation, and on the resulting interest in time as a theme in drama. (6 credits)

ENGLISH 316Z
Shakespeare and Some Modern Writers
A study of some ideas and preoccupations in plays of Shakespeare in the context of their treatment in later literature. We will
study, for example, *King Lear* and *Waiting for Godot*, *Hamlet* and *Rosenzweig* and *Güldenstern and Antonio and Cleopatra* and *A Farewell to Arms*. (6 credits)

**ENGLISH 318Z**

*English Forms in Modern Fiction*

The course is designed to examine epic structures and modes in representative works of English and American fiction of the nineteenth and the twentieth centuries. (6 credits)

**ENGLISH 319A**

*Twentieth Century British Literature I*

To the end of World War I: works by some of the following authors: Conrad, Hardy, James, Shaw, Joyce, Lawrence, Yeats, Wilfred Owen, Rupert Brooke and G. M. Hopkins. (3 credits)

**ENGLISH 321B**

*Twentieth Century British Literature II*

Post World War I to the Present: from among T. S. Eliot, E. M. Forster, Virginia Woolf, Waugh, Auden, Beckett, Osborne, Sillitoe, Pinter, Doris Lessing, Anthony Burgess, contemporary poets. (3 credits)

**ENGLISH 323A**

*Modern American Fiction*

The twentieth century American novel up to 1945. Authors read will include Dreiser, Faulkner, West, H. Roth and Wright. (3 credits)

**ENGLISH 325B**

*Contemporary American Fiction*

The twentieth century American novel since 1945. Authors read will include Faulkner, Warren, F. O'Connor, Bellow andMailer. (3 credits)

**ENGLISH 326Z**

*The Psychological Novel*

Study of the development of the modern psychological novel from the nineteenth century to the present, with emphasis upon the interrelationship between psychology and literature. Part of the course will focus on material other than the novel. Close analysis of the tendency to portray the subjective world by means of dream, interior monologue, and stream of consciousness will be stressed. (6 credits)

**ENGLISH 327A/B**

*Twentieth Century American Literature*

A selective study of major fictional works of twentieth-century American Literature to be chosen from amongst the following: Anderson, Fitzgerald, Hemingway, West, Steinbeck, Mailer, Kerouac, and Ellison. (3 credits)

**ENGLISH 328Z**

*The Modern Novella*

Short novels by Melville, James, Dostoevsky, Tolstoy, Conrad and other major nineteenth and twentieth-century American and European authors. (6 credits)

**ENGLISH 331Z (Formerly English 335)**

*Evening Division*

**The Short Story**

The aims of this course are to familiarize students with the forms and techniques of the short story and to discover something of the considerable depth and breadth of experience that an accomplished writer can concentrate into the microcosm of this particular form of fiction. (6 credits)

**ENGLISH 332Z**

*Psychology and Literature*

A study of the relationship between the basic theories of psychology and psychoanalysis and aesthetics and literary criticism, through a consideration of the *Oedipus* complex in *Oedipus Rex*, *Hamlet*, and *Sons and Lovers* and of archetypes and mythic patterns in literary and pseudo-literary forms, such as fairy tales, children's stories and comic strips. (6 credits)

**ENGLISH 333A**

*Canadian Literature I*

Through readings in both fiction and poetry, this course will examine themes and styles in Canadian Literature. (3 credits)

**ENGLISH 333B**

*Canadian Literature II*

Same description as English 333A. (3 credits)

**ENGLISH 334Z**

*Introduction to American Studies*

An interdisciplinary consideration of the elements that go toward making up the "American Character" and the nature of art and culture in America: studies in literature, history, sociology, psychology, religion and fine arts. (6 credits)

**ENGLISH 336Z**

*American Writers of the '20s*

A study of the American expatriate generation of the 1920s, with particular emphasis on Fitzgerald, Hemingway, Gertrude Stein, and their relationships with the cultural and artistic milieu centered in Paris. (6 credits)

**ENGLISH 337A**

*Women in Literature I*

A selection of short stories, poems and plays (by Ibsen, Lawrence, Mailer, Pinter, Plath, Lessing, Atwood, Alice Munro, Gwendolyne MacEwen and others) in which the woman is of major importance, either as the central experiencing character in adolescence, maturity and old age, or as the embodiment of sexual archetypes and social roles. (3 credits)

**ENGLISH 339B**

*Women in Literature II*

Prerequisite: English 337A or a course which has stressed the novel as a form. A study of some women novelists emphasizing Charlotte Bronte, Virginia Woolf, Doris Lessing and Margaret Atwood, and including a few others from among George Eliot, Jean Rhys, Sylvia Plath, Margaret Drabble, Margaret Laurence, Marian Engel, Sheila Watson, Alice Munro. (3 credits)

*NOTE: In some years the above two courses will be given as a full course as 338Z.* (6 credits)

**ENGLISH 340Z**

*The Novel and its Relation to Twentieth-Century Art Theory*

Prerequisite: This course is limited to second and final-year students. A study of the twentieth-century novel as symptomatic of the profound changes in European thought on art occurring at the end of the nineteenth and beginning of the twentieth century. The course is largely concerned with the premise that the phenomenon of literary art is greatly clarified by approaching it from an understanding of the aims and capacities of other art forms. In addition to the consideration of a limited number of theoretical texts the course includes the practical study of, among others, the novels of Virginia Woolf, Galsworthy, James Joyce, E. M. Forster, Joyce Cary and Lawrence Durrell. (6 credits)

**ENGLISH 341A/B**

*Continental Literature*

An introduction to the major works of
European literature of the nineteenth and twentieth centuries. Intended as background for students of English or French literature. Reading will include Goethe's Werther and Faust, Dostoevsky's Crime and Punishment, Mann's Death in Venice, Weiss' Marat/Sade, among others. The works will be treated from a comparative, an historical and an intrinsic point of view. (3 credits)

ENGLISH 342Z
Nineteenth Century Fiction
Emphasis will be on the variety of fictional modes and styles used during this period, and their relevance to the social and intellectual history of the age. (6 credits)

ENGLISH 343Z
Anglo-Irish Literature
Emphasis on the major English language writers of Ireland, notably O'Casey, Synge, Lady Gregory, Joyce, Yeats and Beckett. (6 credits)

ENGLISH 345A/B
Poetry
An introduction to the methods of reading poetry. (3 credits)

ENGLISH 346Z
Literature: Ideas and Myths
An exploration through literature of some of the myths which generate our ideas and some of the ideas which rationalize our myths. A study of Gilgamesh, The Republic of Plato, Antony and Cleopatra, The Marriage of Heaven and Hell, Crime and Punishment, 2001 and other works. (6 credits)

ENGLISH 348Z (350Z)
Writing Workshop
Intensive and individualized work in Creative Writing. The genre (prose, poetry, etc.) will vary from year to year. (6 credits)

NOTE: Students who have already taken the course as 348Z can register for it under 350Z.

ENGLISH 351Z
Modern Drama
The discussion will center on major works of the most influential British, Continental and American dramatists. (6 credits)

ENGLISH 355A
Commonwealth Literature I
Selected novels, short stories and poetry from West Africa, East Africa and the Caribbean. (3 credits)

ENGLISH 357B
Commonwealth Literature II
Selected novels, short stories and poetry from South Africa, Rhodesia, India, Australia and New Zealand. (3 credits)

ENGLISH 360Z
Children's Literature
Historical and thematic survey of children's fiction. (6 credits)

ENGLISH 362Z (Formerly 359A, 361B)
The Bible as Background to English Literature
The course will begin by considering which translations of the Bible had the greatest influence on English literature and then will proceed to a study of literary handling of Biblical material and literary uses of Biblical allusion. (6 credits)

ENGLISH 363Z
Canadian Criticism, Thought, and Controversy
Prerequisite: One course in Canadian literature. An examination of the origins of literary criticism in Canada and the main aspects of its development to the present. The following critics will be considered: E. K. Brown, Edmund Wilson, H. A. Innes, G. Grant, Northrop Frye, Marshall McLuhan, Milton Wilson, George Woodcock, D. G. Jones, Margaret Atwood. (6 credits)

ENGLISH 364Z
Satire
The theory and practice of Satire as a literary mode. (6 credits)

ENGLISH 370Z
Science Fiction
An exploration of the varieties and nature of science fiction from H. G. Wells to Ursula LeGuin. Readings will include examples of English and American science fiction and translations of foreign works. Among the authors studied will be Huxley, Orwell, Zamyatin, Jack London, Capek, Borges, Calvino, and Lem. (6 credits)

INTERDISCIPLINARY STUDIES 326Z
Alienation—English and French Canadian Literature (6 credits)
See § 51.17.9 for course descriptions. Interdisciplinary Course that may be taken as an English elective.

ENGLISH 400Z
Practical Criticism
Through an examination of how language works, in ordinary life as well as in literature, this course will aim at developing discrimination, and a greater understanding and appreciation of linguistic and literary skills. (6 credits)

NOTE: This course may be offered some years for three credits as English 400A/B.

ENGLISH 401A/B
Drama
A study of a varied selection of plays from both an historical and a generic point of view that will introduce students to the problems and delights of reading, visualizing, making and seeing plays. (3 credits)

ENGLISH 402Z
Fiction
A selective study of the novel as form, the works to be chosen from English and American fiction. Close textual analysis, psychic and archetypal patterns, and the development of technique will be emphasized. (6 credits)

ENGLISH 403A/B
Fiction
Course descriptions same as 402Z. (3 credits)

ENGLISH 404Z
Understanding Poetry
The concepts and methods of reading poetry, beginning with simple examples and proceeding through poems of graduated difficulty. Recommended for students who would really like to learn how to understand poetry. (6 credits)

ENGLISH 405A/B
Poetry
A course for honours and majors students who would like to know why "what oft was thought

ENGLISH 406Z
The Rise of Prose Fiction
The course will explore the origin and development of European fiction in major works of the Middle Ages and the Renaiss-
sance, giving particular attention to their varying sources of inspiration, the narrative techniques they evolve, and the basic genres they establish. (6 credits)

ENGLISH 408Z
History of the English Language
A study of the development of the language from its beginnings to the twentieth century; a course designed partly for those students intending to go on to further studies in English at graduate school, and partly for those interested in languages in general. (6 credits)

ENGLISH 409A/B
Chaucer I
A study of The Canterbury Tales in general, and of six or seven tales in particular. (3 credits)

ENGLISH 410Z
Masterpieces of English Literature
Written Before 1603
A course designed to introduce the student to the origin and development of English literature in the Anglo-Saxon, Medieval and Tudor periods. Beowulf (in translation), Anglo-Saxon culture and poetry (in translation), introduction to the works of Chaucer, Malory, and other works from the period after 1066. Introduction to Spenser and other representative authors of the Tudor period. Introduction to the origin and development of drama before Shakespeare. Introduction to the history of the English language up to 1603. (6 credits)

ENGLISH 411A/B
Chaucer II
Prerequisite: English 409A/B. A study of Troilus and Criseyde and selected early poems. (3 credits)

ENGLISH 412Z
Medieval Literature
A study of the literature from the 12th century through Malory, exclusive of Chaucer. The major emphasis will vary from year to year, e.g. Medieval drama, romance, Langland, the Pearl poet. (6 credits)

ENGLISH 413A
Spenser and his Background
This course is intended to examine Spenser's works — The Amoretti and The Faerie Queene in particular — and their relations to the pertinent literary traditions, both English and continental. (3 credits)

ENGLISH 415B
Elizabethan Prose and Poetry
Significant works of Elizabethan nondramatic literature will be studied both as individual creations and as samples of the most important trends in non-dramatic verse and prose of the time. (3 credits)

ENGLISH 417A/B
Elizabethan and Jacobean Drama
Representative plays to be read will be selected from the works of some of the following contemporaries of Shakespeare in the golden age of English drama: Kyd; Marlowe, Lyly, Heywood, Jonson, Webster, Tourneur, Marston, Middleton, Beaumont and Fletcher, Massinger, Ford. (3 credits)

ENGLISH 418Z
Introduction to Shakespeare
An introduction to a wide range of Shakespeare's plays and some of his nondramatic poetry. (6 credits)

ENGLISH 423A/B
Advanced Studies in Shakespeare
Prerequisite: English 418 or suitable introductory course. Intensive study of a selected topic in Shakespeare, the exact nature of the topic to vary from semester to semester. (3 credits)

ENGLISH 424Z
Nature and Art in Renaissance Literature
Should the artist represent nature or transform it? Texts from literature and criticism written before 1700. (6 credits)

ENGLISH 425A/B
Art and Ideas in the Early Seventeenth-Century
A study of the poetry and some prose of the period, with special emphasis on the work of John Donne. (3 credits)

ENGLISH 426Z
Seventeenth-Century Poetry
The course will put major emphasis on the poetry of Milton. Other poets to be studied will be selected from among Jonson, Donne, Herbert, Herrick and Marvell. (6 credits)

ENGLISH 427A/B
Milton
Study of Milton's development as an artist and thinker from his school years through his involvement in the English Civil War to his final achievement in the epic genre. Readings will include the shorter poems, selected prose, Paradise Lost and Samson Agonistes. (3 credits)

ENGLISH 429A/B
Restoration Drama
A study of plays by Etherege, Wycherley, Congreve, Dryden, Vanbrugh, Farquhar and others, intended to serve as an introduction both to this phase of English drama and to some of the major ideas and preoccupations of Restoration and eighteenth-century literature. (3 credits)

ENGLISH 431A/B
Eighteenth-Century Prose
A study of major eighteenth-century prose writings, especially novels, prose satire and biography. (3 credits)

ENGLISH 432Z
Eighteenth-Century Prose
A study of the literature from the 12th century through Malory, exclusive of Chaucer. The major emphasis will vary from year to year, e.g. Medieval drama, romance, Langland, the Pearl poet. (6 credits)

ENGLISH 433A
The Restoration and Eighteenth Century
Major authors of the eighteenth century, to include Dryden, Swift and Pope. (6 credits)

ENGLISH 435B
The Restoration and Eighteenth Century
Prerequisite: English 433A or in consultation with the professor. Major authors of the eighteenth century, to include Johnson, Richardson and Fielding. (3 credits)

ENGLISH 436Z
The Romans
Major authors of the Romantic period, to include Blake, Wordsworth, Coleridge, Byron, Keats and the Shelleys. (6 credits)

ENGLISH 437A
The Romantic Period I
The course will survey the major poets of the Romantic period (Blake, Wordsworth, Coleridge) with historical background and emphasis on the common technical and thematic elements of Romantic poetry. (3 credits)
ENGLISH 439B
The Romantic Period II
Same as English 437A, treating Byron, Shelley and Keats. (3 credits)

ENGLISH 440Z
Victorian Literature
The poetry of Tennyson, Browning, Arnold, Hopkins, the Pre-Raphaelite circle and novels from the following: Dickens, Eliot, Hardy (one novel by each author). (6 credits)

ENGLISH 441A
Victorian Literature I
A study of Victorian prose works concerned with the role of the individual in society, beginning with two major social novels, Middlemarch and Vanity Fair. (3 credits)

ENGLISH 442A/B
Nineteenth-Century Fiction
Representing fiction from Jane Austen to Hardy. (3 credits)

ENGLISH 443B
Victorian Literature II
Complementary to English 441A, but also suitable as an independent half-course. A study of Victorian poetry and novels concerned with the individual consciousness, beginning with Tennyson and Browning. (3 credits)

ENGLISH 444Z
Literature and Aesthetics of the Nineteenth Century
A study of the various and changing views of the nineteenth century towards the nature and function of art. The course includes the study of the theoretical writings of DeQuincey, Ruskin, Swinburne, Whistler, Pater, Wilde, Bell and Fry, and a practical analysis of the major poetic works of Tennyson and Browning. (3 credits)

ENGLISH 445A
American Literature, Nineteenth-Century
See note in description of English 448Z (3 credits)

ENGLISH 446Z
Twentieth Century British Literature
Authors will be chosen from among: Lawrence, Joyce, Yeats, Woolf, Lessing, Shaw, O'Casey, Forster, Waugh, Auden, Eliot. (6 credits)

ENGLISH 447B
American Literature, Twentieth-Century
See note in description of English 448Z (3 credits)

ENGLISH 448Z
American Literature
A study of archetypal patterns, literary and philosophical concerns of nineteenth and twentieth-century American Literature. Reading material will be chosen from among: Poe, Thoreau, Hawthorne, Melville, James and Twain, in the first semester and from Norris, Anderson, Fitzgerald, Hemingway, Faulkner, West, Steinbeck, Mailer, Kerouac, Salinger and Updike in the second semester. (6 credits)

NOTE: This course is taught some years as two half courses: 445, 447. It is the prerequisite for all advanced American Literature courses.

ENGLISH 449A/B
Advanced Studies in American Literature I
Prerequisite: English 448. The topics considered will vary from year to year, and may include American poetry, American short stories, American drama, nineteenth-century American fiction, etc. (3 credits)

ENGLISH 450Z
Anglo-Saxon
An introduction to the study of Old English (Anglo-Saxon). (6 credits)

ENGLISH 451A/B
Advanced Studies in American Literature II
Prerequisite: English 448. As in 449, the topic will vary annually. (3 credits)

ENGLISH 452A
Modern Fiction I
Shorter works of nineteenth and twentieth-century American and European novelists. Authors read will include Dostoevsky, Tolstoy, Conrad, Faulkner, Camus and Grass. (3 credits)

NOTE: In some years, 453A and 455B are given as a full course, 452Z.

ENGLISH 453A/B
Modern Fiction II
Same authors as in 453A, but their longer works will be studied. (3 credits)

NOTE: In some years, 453A and 455B are given as a full course, 452Z.

ENGLISH 454Z
An Introduction to Canadian Literature
An historical survey of the main themes in Canadian literature will be illustrated from the major writers of poetry, fiction and drama. (6 credits)

ENGLISH 455A/B
Advanced Studies in Canadian Literature I
Prerequisite: English 454. Topics from poetry — an intensive study of the background and development of the genre and critical material will be conducted. (3 credits)

ENGLISH 457A/B
Advanced Studies in Canadian Literature II
Prerequisite: English 454. Topics from fiction — an intensive study of the background, development of the genre and critical materials will be conducted. (3 credits)

ENGLISH 458Z
Late Victorian and Edwardian Literature
The end of the Victorian era and the beginnings of modernism. Novelists including James, Forster, Gissing, and Woolf; Wilde, Beardsley and The Yellow Book. (6 credits)

ENGLISH 461A/B
Non-Fiction Prose
A study of the forms of non-fiction prose — the essay, belles-lettres, the diary, the memoir — from the Elizabethans to the 20th Century. (3 credits)

ENGLISH 500Z
Advanced Research and Thesis
A small number of seminars or tutorials on special themes and topics, to vary each year. Registration limited to Honours students in their final year. All students must consult with the Department in advance. (6 credits)

ENGLISH 501Z
History of Criticism
A consideration of the major texts which
have marked the development of literary criticism. The course will be both historical and methodological. (6 credits)

**ENGLISH 503B**
**Middle English**
A study of selected essential texts of early Middle-English. (3 credits)

**ENGLISH 505A**
**Patterns of English Speech**
The course will examine the relationship between spoken and written English from a variety of points of view: linguistic, semantic, philosophical, literary. The course will emphasize oral English and will include such topics as phonology, intonational patterns, dialect, slang. (3 credits)

**ENGLISH 507B**
**Advanced Stylistics**
On the basis of the linguistic study in 505A, 507B will examine sentence structures, paragraph formation, tone, diction, argumentation. (3 credits)

**ENGLISH 580Z**
**Independent Studies**
A tutorial programme arranged with a member of the department. (6 credits)

**ENGLISH 590Z**
**Joint Tutorial in History and English**
A tutorial for students in the English and History Joint Honours Programme. (6 credits)

**ENGLISH 592Z**
**Joint Tutorial in Modern Languages and English**
A tutorial for students in the English and Modern Languages Joint Honours Programme. (6 credits)

---

**51.12.3 English as a Second Language**

**Coordinator**
O. de GROOT

---

**ESL 100**
**English Language**
A course for students whose first language is other than English and who require additional training in order to achieve a level of expression acceptable to the university. The focus of the course is primarily on the development and improvement of writing skills. All candidates will be tested prior to entry. (6 credits)

**ESL 201**
**English Language and Composition**
Prerequisite: Successful completion of ESL-100 or proven equivalent competence in English. This course is designed for non-English students who have completed secondary school or its equivalent in a language other than English. The course encourages the development of effective written communication and improved reading comprehension so that the student may perform competently in his other university work. (6 credits)

51.13.1 PROGRAMMES

60 BA Honours in French Language

Year I
18 Fr 337Z6, 428Z6, (two of 359A3, 361B3, 363A3, 365B3, 367A3, 369B3)

Year II
18 Fr 452Z6, 538Z6, (341A3 and 343B3) or (345A3 and 347B3).

Year III

72 BA Joint Honours in French and English*

30 French: 6 credits in the XXth century; 6 credits in Quebec literature; 12 credits chosen from the XVIIth, XVIIIth and XIXth century; FR. 310Z6 or 312A3 plus 3 credits in the missing century (XVIIth, XVIIIth, XIXth century).

30 English: 6 credits chosen among the following: 400, 401, 402, 403, 404, 405 and 407. 18 credits chosen by genre or by periods paralleling the choice in French courses; 6 credits elective chosen from the list of honours and major courses.

12 The 11th and 12th courses will be chosen as follows: either 6 credits in each of two departments or a corresponding combination of "Independent Studies" carried out in each of the two departments.

*NOTE: Sequence of courses to be determined in consultation with the departments concerned.

60 BA Honours in French Literature

Year I
18 Fr 310Z6 or 312A3; 6 or 9 credits* from (341A3 and 343B3), 345A3, 347B3, 421A3, 423B3, 425B3**

3 credits from: 359A3 or 361B3 or 396Z3 and 3 credits from: 363A3, 365B3, 367A3, or 369B3

Year II
24 6 credits from: 421A3, (423B or 425B3), 341A3, 343B3, (345A3 and 347B3); 6 credits 431A3 and (433B3 or 435B3); 6 credits: 428Z6

6 credits: 532Z6 or (535A3 and 537B3)**

Year III
18 Fr 532Z6 or (535A3 and 537B3); (539A3 or 541A3) and (543B3, 545B3 547B3, 549B3), 6 credits chosen from Honours and Major courses (e.g. 575A-577B).

*NOTE: Students allowed to take 312A must make up another 3 credits in literature.

**6 credits in French Canadian Literature are required as are 6 credits in the XVIIth Century though they may be taken either in 1st or 2nd year.

•Fr 396Z counts for 3 credits in Quebec Literature.

(see note on Literature § 51.13.2).

***Because these two courses are given alternately, Honours students must take one of them in their second year. (see note on alternation of courses § 51.13.2).
72 BA Joint Honours in French and History

30 French from:
6 Fr 310Z6
6 Fr 431A3 and 433B3 or 435B3
6 Fr 341A3 and 343B3, or 343A3 and 347B3
6 Fr 539A3 and 545B3 or 546B3, or 341A3 and 545B3 or 547B3, or 5 Fr 359A3 and 369B3, or 367A3 and 361B3, or 369B3, or 367A3 and 369B3, or 4 Fr 359A3 and 369B3, or 343B3, or 369B3, or 345A3 and 347B3, or 369B3, or 345A3 and 361B3, or 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3, or 345A3 and 369B3, or 349B3 and 369B3
6 History from:
Hist 306Z6, 360Z6, 366Z6, 350Z6, 352Z6, 554Z6
6 Elective in French or History
6 Hist 592Z6 or Fr 598Z6
* NOTE: 3 credits of Fr 396Z (old 596Z) may be counted as electives.

72 BA Joint Honours in French and Modern Languages*

36 French: 6 credits in the XXth century, 6 credits in Quebec literature; 12 credits chosen from the XVIIth, XVIIIth, and XIXth century; 310Z6 or 312A3 plus 3 credits in the missing century (XVIIth, XVIIIth, XIXth century); 6 credits elective chosen from the list of French honours and major courses or a full tutorial.
36 Modern Languages: These 6 courses are to be chosen in German, Italian or Spanish in consultation with the Chairperson of Modern Languages and Linguistics. Literature courses will be chosen to parallel as much as possible the choice in French courses.
* NOTE: Sequence of courses to be determined in consultation with the departments concerned.

60 BA Specialization in French Literature

The same series of courses as for the Honours programme without a specified grade requirement. (See note on Literature § 51.13.2).

42 BA Major in French Language (1er degré)

Year I
12 Fr 303F6 and 305S6 or Fr 306Z6 and one of the following:
Fr (307A3, 308B3), (309B3, 311A3), (313A3, 314B3), (315A3, 316B3), (317A3, 318B3), 319Z6

Year II
12 Fr 322Z6 and 324Z6

Year III
18 336Z6, 337Z6, 338Z6, or two of these and a course selected among the other advanced courses of the Department (Language or Literature)*
* NOTE: A group of seven courses for students starting at the intermediate level.

42 BA Major in French Language (2e degré)

Year I
12 Fr 322Z6 and 324Z6

Year II
18 Three of Fr. 336Z6, 337Z6, 338Z6, 428Z6

Year III
12 Two of Fr 452Z6, 552Z6, 438Z6, 538Z6, a course selected among the other advanced courses of the Department.**
*NOTE: The student must choose her/his courses in consultation with the Department.

42 BA Major in French Literature

Year I
18 Fr 310Z6 or 312A;* two or three of: 341A3, 343B3, 345A3, 347B3, 421A3, (423B3 or 425B3);** 359A3 or 361B3 or 396Z6 and (363A3, 365B3, 367A3 or 369B3).

Year II
12 Two of Fr. 421A3, 423B3 or 425B3, 341A3, 343B3, 345A3, 347B3, 431A3 and 433B3 or 435B3.

Year III
12 Fr 539A3 or 541A3 and (543B3, 545B3, 547B3 or 549B3); (571A3 or 575A3) and (573B3 or 577B3).
* NOTE: Students allowed to take 312A must make up another 3 credits in literature.
**two half courses in Fr Canadian Literature are required as are 6 credits in the XV/1th century though they may be taken in either 1st or 2nd year. Fr 396Z counts for 3 credits in Quebec Literature. (See note on Literature § 51.13.2).

LOYOLA FACULTY OF ARTS AND SCIENCE
51.13.1 DEPARTMENT D'ETUDES FRANCAISES: PROGRAMMES
24 Minor in French Literature

Year I
6 Fr 310Z6 or 312A3 plus three credits in XVIIth, XVIIIth or XIX century.

Year II
6 Fr 428Z6
6 From courses in the XVIIth, XVIIIth or XIXth century.

Year III
6 From courses in the XXth century.

24 Minor in French Language

A coherent sequence of courses (24 credits) in French Language in the proper order of progression. The sequence of courses must be determined in consultation with the Department after a placement interview.

51.13.2 DEPARTEMENT D'ETUDES FRANCAISES

Alterations may be made in the programmes, from year to year, but the whole three year programme of a given student remains the one appearing in the calendar of the year of his registration in French, unless otherwise authorized by the Department.

Students wishing to combine programmes in French and another discipline should consult with the chairmen (or chef de section in French) and have the registration approved by both of them.

Besides the Honours, Major, Joint Honours and Minor programmes indicated, a double Major or Honours with Major is always possible between French and another subject (7 courses in French, 7 in another discipline and one elective constitute a double Major). For example, French and Library Science would be an excellent combination.

A higher number for a course does not generally reflect a higher degree of difficulty in that course.

An honours student in French is normally required to have a mark of at least 65% in each of his French courses.

Students honouring or majoring in French, or in French and another discipline, will have a faculty adviser with whom they will consult.

Literature:

Apart from the 9 complete courses normally prescribed for the Honours degree, students must as well complete a 10th course chosen from among those indicated for the Honours or Major programme (e.g. 575A - 577B).

30 Certificate in French Language (1er degré)

Year I
12 Fr 301F, 302S

Year II
12 Fr 303F6 and 305S6, or 306Z6 and one of the following: Fr (307A3, 308B3), (309B3, 311A3), (313A3, 314B3), (315A3, 316B3), (317A3, 318B3), 319Z6

Year III
One of 322Z6, 324Z6

NOTE: A group of 5 courses over three years of study for students starting at the elementary level who wish to become functionally bilingual.

30 Certificate in French Language (2e degré)

Students who complete 30 credits in advanced courses as indicated under YEAR II and YEAR III of the Major in French Language - 1er degré can be given a Certificate in French Language, 2e degré.

NOTE: The courses can be spread over two or three years of study, in consultation with the Department.

Honours students are also to be examined on two extra readings for each course of their programme.

Course 396A/B may count for 3 Honours or Major credits in French and 3 credits as an elective.

Students may also obtain a Specialization by completing the 10 courses normally prescribed for the Honours programme while the 65% requirement for each course is waived.

Certain courses may alternate on a yearly basis: Moyen âge with Renaissance, French and Quebec civilizations and trends of thought, half courses in Quebec and comparative literature and in the XVIIth and XVIIIth centuries.

A student who is neither majoring nor honouring in French and whose written or spoken knowledge of the French language is inadequate by high standards, but sufficient for him or her to follow the course and take part in discussions, may register for a literature course and receive permission to write his assignments and examination in ENGLISH. His transcript will then bear "In English" after the course number. Should the student later on decide to major or honour in French, such a course will neither count as a French requirement nor as an elective if it has to be retaken.

Language:

The Language Section of the Department of French Studies offers courses at all proficiency levels from complete beginners to the very advanced. All courses are
open to all students for elective academic credits, providing they have the necessary language pre-requisites.

Students entering in January should consult the Department about the sequence of courses to be followed for Major and Certificate programmes in French language.

In order to ensure that students work at their proper level, all registrations in courses in the Language Section of the Department of French Studies are subject to confirmation by the Department after a placement interview.

51.13.3 COURSE DESCRIPTIONS

SECTION LANGUE.

FRENCH 300Z (600Z)
Basic French
An introductory course restricted to students with no previous knowledge of French. Practical oral exercises in class and assigned practice in the laboratory. (6 credits)

FRENCH 300F/S
Same as 300Z, but six hours a week during first or second semester. (6 credits)

FRENCH 301Z (602Z)
Elementary I
Oral course for students who have had some basic training. Practical exercises in class and some assigned practice in the laboratory. (6 credits)

FRENCH 301F/S (602F/S)
Same as 301Z, but six hours a week during first or second semester. (6 credits)

FRENCH 302Z (604Z)
Elementary II
For students who have had about two years of training. Practical oral exercises in class and assigned work in the laboratory. Students will gradually make the transition from imitation of models to free expression. (6 credits)

FRENCH 302F/S (604F/S)
Same as 302Z, but six hours a week during first or second semester. (6 credits)

FRENCH 303Z (605Z)
L'art de vivre au Québec I
An intensive oral course which aims at increasing the students' fluency in French through discussions with French-speaking peers, under the guidance of a faculty member. The techniques used include small group interaction, contacts with Québec milieu and intensive practice. Students will participate in the guided choice of subjects which will cover areas of common interest and concern. Regular participation is mandatory. Six hours a week for one term, first or second term. (6 credits)

FRENCH 304Z (606Z)
Intermediate I
A conversational approach to everyday modern French through active student participation. A review of grammar and syntax through oral exercises. Three hours a week plus language lab for two terms. (6 credits)

FRENCH 305F/S
L'art de vivre au Québec II
Same as 303F/S, but at a higher proficiency level. The two courses may be taken separately or consecutively. (6 credits)

Registration must be confirmed before you attend the first class.

Students wishing to register for courses or programmes or to confirm their pre-registration in the French Language section are requested to contact the Department at 482-0320, local 593 starting from August 16th.

They will then receive all information regarding interviews, placement tests, correct choice of courses and planning of programmes.

FRENCH 306Z (608Z)
Intermediate II
Systematic study of vocabulary and review of structure. Accent will be on correct form, both spoken and written. (6 credits)

FRENCH 307A
French for Community Health Services I
For students interested in or intending to work in community health services. The practice of the usual French language skills will be centered around situations such as the student may encounter in working in a day care centre, health counselling clinic, hospital, etc. In addition to acquiring a common core of basic medical vocabulary and reviewing oral structures appropriate to the situation, each student will be asked to work on an individual project covering his own area of interest. (3 credits)

FRENCH 308B (307B)
French for Community Health Services II
Continuation of 307A, which is not, however, a pre-requisite. New subtopics are added and vocabulary is further enriched in the second semester. (3 credits)

FRENCH 309A/B
French used in Physical Education and Sports
For students interested in the area of physical fitness. Subjects studied will include the following: Parts and movements of the body — physical conditioning — the role of physical education and sports in society — The Olympic Games — hockey — reporting — leadership in sports. The study of each subject will include vocabulary acquisition, the review of appropriate oral structures, guided discussion and individual projects. (3 credits)

FRENCH 311A/B
French for Recreation
For students interested in the creative use of leisure for themselves and others. Subjects studied will include: Leisure in the modern society — popular leisure pursuits in Québec — leisure and the city — leisure in the open air — the organization of leisure services in Montreal — holiday camps and their activities — roles and training of camp counsellors. Study will include vocabulary acquisition, review of appropriate structures, guided discussion and individual projects. (3 credits)

FRENCH 313A
French for Social Sciences I
Primarily for students in political science, sociology and allied fields who wish to participate in French in the community and public life of Québec. The themes and vocabulary studied will cover various
political, government and labour organizations and basic legal terminology, with emphasis on actual situations of communication. Readings, guided discussion and individual projects related to the students' particular fields of interest. (3 credits)

FRENCH 314B
French for Social Sciences II
Continuation of 313A, which is not, however, a pre-requisite. New subtopics are added and vocabulary is further enriched in the second semester. (3 credits)

FRENCH 315A
French for Industry I
Primarily for science and engineering students who will use French as the language of communication on the job. The common vocabulary core will cover the organization of an industrial plant and the basic terms relating to the manufacturing process and labour relations. In addition, each student will undertake an individual project covering his own area of interest. (3 credits)

FRENCH 316B
French for Industry II
Continuation of 315A, which is not, however, a pre-requisite. New subtopics are added and vocabulary is further enriched in the second semester. (3 credits)

FRENCH 317A
French for Library Science I
The course will emphasize the vocabulary and structures needed for communicating with users of library and resource centre services, and for exchanging information with personnel of French libraries, resource centres and similar agencies. Terms related to the organization of a library, the processes, materials and equipment used and the services provided will be studied. In addition, each student will work on an individual project. (3 credits)

FRENCH 318B (317B)
French for Library Science II
Continuation of 317A, which is not, however, a pre-requisite. New subtopics are added and vocabulary is further enriched in the second semester. (3 credits)

FRENCH 319Z (616Z)
French for Commerce
Primarily for commerce students who wish to acquire a working knowledge of business French, both oral and written. Terms relating to trade, banking and various business transactions will be studied, as well as business correspondence, with emphasis on actual situations of communication. Students will be encouraged to undertake individual projects. (6 credits)

FRENCH 322Z (612Z)
Français oral avancé
Ce cours s'adresse à l'étudiant qui, ayant terminé le niveau intermédiaire, a besoin de perfectionner sa langue orale. Au moyen de comptes-rendus, d'exposés oraux, d'enquêtes, d'entrevues et de débats, l'étudiant devrait à la fin de ce cours parler avec une bonne maîtrise de la langue française. (6 crédits)

FRENCH 322S
Même cours que 322Z, mais au rythme de 6 heures par semaine, au deuxième semestre seulement. (6 crédits)

FRENCH 324Z (614Z)
Problèmes fondamentaux de l'écrit pratique
Ce cours exige une bonne connaissance du français oral. L'étudiant apprendra à éviter les erreurs de structure et à rédiger une lettre, un rapport ou une composition. L'accent sera mis sur le perfectionnement de la langue écrite. (6 crédits)

FRENCH 331A (321A/JB)
L'art de parler en public I
Correction phonétique, en particulier au niveau de la langue "soignée", techniques de présentation de la parole en public: pose de voix, gestes, affectivité, etc. Étude du vocabulaire et des procédures nécessaires pour convoyer une réunion, la diriger, y participer. Rédaction et présentation de divers types de rapports, allocations et conférences. (3 crédits)

FRENCH 332B
L'Art de parler en public II
Suite du cours 331A qui n'est pas, cependant un pré-requis. (3 crédits)

FRENCH 336Z (626Z)
Cours avancé de langue et civilisation
Examen des principales difficultés morphologiques et syntaxiques de la langue française. Études des réalités de la vie québécoise. (6 crédits)

FRENCH 337Z (636Z)
Ressources stylistiques du français
Ce cours vise deux objectifs principaux: l'amélioration du style écrit et parlé des étudiants, la prise de conscience des ressources stylistiques du français et l'étude des expressions idiomatiques. (6 crédits)

FRENCH 338Z (628Z)
Cours avancé de la langue des affaires
Examen des principales difficultés de la langue française à partir d'une documentation axée sur le monde des affaires. Étude approfondie du vocabulaire de la gestion, rédaction de lettres et rapports, traduction de textes commerciaux. Le cours vise à faciliter une communication efficace écrite et orale dans le domaine des affaires. (6 crédits)

FRENCH 428Z
Histoire de la langue et linguistique
Introduction à la linguistique descriptive et historique. Application au français; description du français moderne et histoire de la langue française. Cours obligatoire pour les étudiants "Honours" et "Specialization", et fortement recommandé aux "Majors". (6 crédits)

FRENCH 438Z
Principes de la linguistique appliquée
Initiation aux principes de la linguistique appliquée à l'enseignement du français langue seconde. Elaboration d'exercices à l'intention des élèves à des niveaux variés d'âge et de connaissances. Au deuxième semestre, examen et évaluation de divers ensembles pédagogiques dont on se sert à présent pour l'enseignement du français langue seconde, et élaboration en équipe d'une leçon complète. (6 crédits)

FRENCH 452Z
Stylistique et Traduction
Stylistique interne du français: examen pratique de procédés grammaticaux, de problèmes de stylistique et de difficultés particulières à la langue française. Introduction à la stylistique comparée de l'anglais et du français: exercices de stylistique comparée, traduction; anglicismes, faux amis; expressions idiomatiques. (6 crédits)

FRENCH 538Z
Pédagogie de l'audio-visuel
Le cours s'adresse aux étudiants qui s'intéressent à l'usage des médias dans l'enseignement. Au premier semestre, on étudiera les nouveaux rôles de l'enseignant face aux changements technologiques dans la société et à l'évolution des moyens de com-
FRENCH 310Z

### 51.14.2 DEPARTMENT OF GEOLOGY

Students planning to continue in the Honours in Geology or Specialization in Geology programmes, will normally have taken Geology 201A, or equivalent, as part of their Collegial Studies. At the discretion of the Department, students lacking such preparation for their University programme may be required to take this course on a non-credit basis.

Students intending to follow joint Major programmes should obtain the approval of the chairman of the appropriate Departments.

The Specialization, Major and Minor programmes in Geology offered on the Loyola and Sir George Williams campuses are essentially the same. (see 91.10) Lists of equivalent course numbers are tabulated at the end of the Geology course descriptions. In any given year, certain Geology courses will only be available on one campus, and within the restraints imposed by adequate travel time, may be taken by students from the other campus.
Field Trips and Field Schools
Lectures and laboratory work cannot successfully substitute for actual observation of geology in the field. Therefore, for all students, half or full day field trips to areas of geological interest are a normal adjunct to several courses. For students in the Honours and Specialized Programmes, geological and geophysical field schools (Geology 233B and 301B) are conducted by staff members in the two weeks following the completion of examinations in the spring. Students following the Major programmes are not required to take these field schools, but if suitably qualified, may be granted permission to do so by the department.

Summer Employment
It is strongly recommended that prior to graduation at least one summer be spent in some phase of geological work. Although the Department of Geology cannot guarantee summer employment, its students can normally expect to be engaged in suitable work during the summer months with government agencies or private companies.

51.14.3 COURSE DESCRIPTIONS

GEOLoGY 201A
Physical Geology
Prerequisite: None. The nature, origin and evolution of the universe, stars and of planetary systems; the physical properties of the Earth and its environment; the materials and structures of the Earth's interior and surface, and the processes affecting these structures; origin of continental drift, the formation of oceanic basins and mountain building. Lectures: 3 hours per week. Text: R. J. Foster, General Geology. Merrill. (3 credits)

NOTE: Geology 201A is primarily designed to provide an introduction to Geology for students who are not majoring in the department.

GEOLoGY 202B
Elementary History of the Earth
Prerequisite: None. The hydrologic cycle and the cycle of erosion; the measurement of geologic time; the history of life on earth and the geologic evolution of North America; glaciation and the ice age; the nature and origin of mineral deposits; the geology of coal, oil and gas; the conservation of natural resources. Lectures: 3 hours per week. Text: R. J. Foster, General Geology. Merrill. (3 credits)

NOTE: Geology 202B is primarily designed to provide an introduction to Geology for students who are not majoring in the department.

GEOLoGY 203Y
Introductory Laboratory Course in Geology
Prerequisite: None. Laboratory studies include investigation of rock and mineral specimens. Interpretation of topographic maps and aerial photographs; interpretation of Geomorphic and Geologic Maps — and the examination of selected fossils. Field trip to local areas. Lab: 3 hours per week. Text: to be announced. (3 credits)

NOTE: Geology 203Y is primarily designed to provide an introduction to Geology for students who are not majoring in the department.

GEOLoGY 205A
Environmental Geology
Prerequisite: None. Geology in the ecosystem. The earth's atmosphere, hydrosphere, lithosphere and biosphere in the geologic time. Long range geological effects of ecosphere pollution. Trace nutrients and health with emphasis on the geology of trace elements and its cause and effect on biological systems. Understanding of, control for, and prevention of natural hazards. Changes in the earth's climate. Role of Geology in land use. Lectures: 3 hours per week. Text: To be announced. (3 credits)

GEOLoGY 206B
Continental Drift
Prerequisite: None. An introduction for non-majors to the concept of Continental Drift. The origin and development of the theory, the nature of the earth's crust, the ocean floor, and the theory of sea floor spreading. The revolution in the Earth Sciences as a result of widespread acceptance of the concept. Lectures: 3 hours per week. Text: Wilson, ed: Continental Drift, Freeman. (3 credits)

GEOLoGY 207A
Geology of Resources
Prerequisite None. Rocks and Ore minerals. Present and future availability of earth resources. The nature, classification and mode of occurrence of mineral deposits. Exploration, development and rational exploitation of mineral resources. Elements of mining economics. Distribution of oil, gas, coal, and base metal deposits. Evaluation of the effects of mining operations on environment. Lectures: 3 hours per week. Text: To be announced. (3 credits)

GEOLoGY 211B
Mineralogy I
Prerequisite: None. Physical and chemical properties of minerals, elements of crystal chemistry, mineral classification, silicate structure and a description of important silicate mineral groups are topics covered in lectures. In the lab, the composition, diagnostic properties and geological environments of some 150 minerals (non-silicates and silicates) are emphasized and physical and simple chemical tests are applied to the identification of these minerals. Lectures: 1 ½ hours per week. Lab: 1 ½ hours per week. Test: Hurlbut, Dana's Manual of Mineralogy. 18th (Ed. Wiley). (3 credits)

GEOLoGY 221B
Physical Oceanography
Prerequisite: None. Geomorphology of the ocean floor with emphasis on the significance of the midoceanic ridges and trench systems. The physical and chemical characteristics and circulation of ocean waters and their causes. Tides and waves. Distribution and origin of terrigenous, detrital, chemogenic, volcanogenic and polygenic sediments in the major ocean basins. Conditions of oceanic sedimentation. Quantitative distribution of suspended sedimentary materials at the ocean bottom. Size composition of suspensions and bottom sediments. Economic resource potential of the oceans. Lectures: 3 hours per week. Texts: Gross, Oceanography, Prentice Hall. (3 credits)
GEOL 222A
Invertebrate Paleontology
Prerequisite: Geology 201A or equivalent.
A systematic survey of major invertebrate fossil groups with chief emphasis on morphology, classification, and geologic occurrence. Study of principles of evolutionary concepts and biostatigraphic zonation. Some selected discussion on paleoecology. Lectures: 3 hours per week. Text: Moore, La Licker, Fischer, Invertebrate Fossils, McGraw Hill. (3 credits)

GEOL 231B
Earth Physics
Prerequisite: Geology 201A or equivalent.
This course is directed toward the general understanding of physical phenomena of the solid earth. Subjects for consideration include the following: earth's origin, age, radioactivity, magnetism, gravity field, seismology, heat flow, structure and physical state of the earth's interior, theory of sea-floor spreading, theories of mountain formation. Lectures: 3 hours per week. Lab: 3 hours per week. Text: To be announced. (3 credits)

GEOL 232B
Exploration Geology
Prerequisite: Geology 231B. Surveying, surface and sub-surface mapping methods, property evaluation and development, mining operation and cycles, soil geochemistry, data storage and retrieval. The second part of the course will include actual field survey using seismics, magnetic, gravity and electrical techniques. Students will be required to pay for room and board for a one-week period in the field school. Field Work: 2 weeks in May at the Concordia Geophysics Field School. (3 credits)

GEOL 241A
Structural Geology
Prerequisite: Geology 201A or equivalent.

GEOL 301B
Field Geology
Prerequisite: Geology 241A and 311Z.
Surface and underground field mapping methods. Preparation of geological maps, sections and reports from field notes, diagrams and stereo views. Special field trips to examine specific geologic problems. Students will be required to pay for room and board for a ten-day period. Field Work: 2 weeks in May at the Concordia Geology Field School. (3 credits)

GEOL 302B
Geostatistics & Computer Applications in Geology
Prerequisite: Geology 201A or equivalent.
Statistical analysis and computing methods applied to geological problems. Lectures: 3 hours per week. Lab: 3 hours per week. Text: To be announced. (3 credits)

GEOL 303B
Precambrian Geology
Prerequisite: Geology 342B. Evolution of the earth in the Precambrian era. Problems in Precambrian correlation, paleoclimates and structural history. Emphasis on Canadian and North American Precambrian areas. One term paper to be prepared. Lectures: 3 hours per week. Periodic Seminars. (3 credits)

GEOL 311Z
Elementary Petrology
Prerequisite: Geology 211B. Identification and description of hand specimens of sedimentary, igneous and metamorphic rocks. Rock associations and methods of classifying rocks. Lectures: 3 hours per week for two terms. Lab: 3 hours per week for two terms. (6 credits)

GEOL 312A
Mineralogy I
Prerequisite: Geology 211B. Point and translational symmetry, point groups, space groups, interpretation of space group tables, elements of crystal chemistry, chemical and phase relations of important rock forming minerals. Stereographic projections of crystal data, the Universal Stage and powder diffractometry in identifying minerals are subjects stressed in Labs. Lectures: 3 hours per week. Lab: 3 hours per week. Texts: Bloss, Crystallography and Crystal Chemistry. Deer, Howie & Zussman, An Introduction to the Rock Forming Minerals. (3 credits)

GEOL 313B
Optical Mineralogy
Prerequisite: Geology 211B. Lectures deal with the theoretical background necessary for the use of the petrographic microscope. In the laboratory, oil immersion techniques for the determination of isotropic and anisotropic minerals in powder form are studied. If time permits, an introduction to the use of the four axis Universal Stage is given. Lectures: 3 hours per week. Lab: 3 hours per week. Text: Wahlstrom, Optical Crystallography. 3rd Ed., (Wiley); U.S.G.S. Bull 848, The Microscopic Determination of the Nonopaque Minerals, 2nd Ed (3 credits)

GEOL 314B
Sedimentary Petrology
Prerequisite: Geology 311Z and 313B (may be taken concurrently.) The occurrence and formation of sedimentary rocks. Laboratory includes a brief survey of techniques applied to unconsolidated sediments, but particular emphasis is placed on the microscopic examination of sedimentary rocks. Lectures: 3 hours per week. Lab: 3 hours per week. Text: Blatt, Middleton, Murray, Origin of Sedimentary Rocks. (Prentice Hall). (3 credits)

GEOL 315A
Introduction to X-ray Crystallography
Prerequisite: Geology 211B and 312A.
The nature of X-rays, diffraction, the reciprocal lattice, powder diffractometer, powder cameras, single crystal methods. Laboratory work will stress the techniques of powder diffractometry and Precession photography. Lectures: 2 hours per week. Lab: 4 hours per week. References: Bloss: Crystallography and Chemistry, (Holt, Rinehart, Winston) 1971; Sands: Introduction to Crystallography (Benjamin Inc.), 1969. Azaroff: Elements of X-ray Crystallography, (McGraw-Hill), 1968. (3 credits)

GEOL 331B
Exploration Geophysics
Prerequisite: Geology 231B. An introduction to geophysical methods of prospecting and of investigating subsurface structures. The theories, uses and limitations of various
COURSE OF GEOLOGY: DEPARTMENT OF ARTS AND SCIENCES

Honours students in their final year and examining a geological problem using concepts of metamorphism, ACF and AKF diagrams. In the laboratory, megascopic and microscopic techniques are used in the examination of rocks representative of the more common igneous and metamorphic varieties.

Prerequisite: Geology 311Z, and 313B.

Presentation and interpretation of phase relations, mineralogy, fabric, classifications and petrogenesis of the igneous rocks. The scope of metamorphism. The one, granite and gneiss concepts of metamorphism, ACF and AKF diagrams. In the laboratory, megascopic and microscopic techniques are used in the examination of rocks representative of the more common igneous and metamorphic varieties.

Prerequisite: Geology 241A and Geology 341B recommended. Engineering properties of rocks and soils, landslides, groundwater, frost action and permanently frozen ground. Application of geology to engineering problems — concrete petrology, tunnels slope control, foundations, roads, airports, dams and reservoirs. One term paper to be prepared. Lectures: 3 hours per week. Lab: 3 hours per week. Text: Dobrin, Introduction to Geophysical Prospecting. (McGraw-Hill). (3 credits)

Exploration Geochemistry
Prerequisite: Geology 201A and 211B. An introduction to geochemistry including the chemical make-up of the solar system and the geochemistry of the atmosphere, hydrosphere, crust, mantle and core. The chemistry of igneous, sedimentary and metamorphic rocks, with some emphasis on the trace elements which characterize each. Anomalous trace elements concentrations in rocks, soils and water and the application to mineral exploration geochemistry. In the laboratory the material discussed in the lectures is illustrated by geochemical calculations, trace element distribution maps and methods of geochemical analysis. Lectures: 3 hours per week. Lab: 3 hours per week. Text: To be announced. (3 credits)

Photogeology
Prerequisite: Geology 241A or permission of the Department. Scope and purpose of photointerpretation; use and interpretation of aerial photographs and basic applied photogrammetry; geological interpretation, both qualitative and quantitative, of aerial photographs from Canada and other countries; techniques used in base map preparation with and without control points; exercises in photographic mapping using stereoscopes and plotters. Lectures: 3 hours per week. Lab: 3 hours per week. Text: Ray, Aerial Photographs in Geologic Interpretation and Mapping (U.S.G.S.) (3 credits)

Tectonics
Prerequisite: Geology 241A. Relation of deformation to intrusion and sedimentation. Consideration is also given to multiple deformation, structural petrology, theories of geosynclines and plate tectonics. Laboratory: Consists of tectonic analysis using geologic maps. Lectures: 3 hours per week. Lab: 3 hours per week. Text: Dennis, Structural Geology (Ronald). (3 credits)

Engineering Geology
Prerequisite: Geology 201A or equivalent, (Geology 241A and Geology 341B recommended). Engineering properties of rocks and soils. Landslides, groundwater, frost action and permanently frozen ground. Application of geology to engineering problems — concrete petrology, tunnels slope control, foundations, roads, airports, dams and reservoirs. One term paper to be prepared. Lectures: 3 hours per week. Lab: 3 hours per week. The laboratory period will include field trips, engineering geology, case histories, and feasibility study of engineering geology problem. (3 credits)

Undergraduate Thesis
Prerequisite: Permission of the Department. Honours students in their final year are expected to show competence in isolating and examining a geological problem using techniques available within the department, working in conjunction with assigned faculty advisers. Course evaluation will be based on the student's performance in the investigation and on the written report. Specialized students may also take the course at the discretion of the Department. 6 hours per week. (6 credits)

Igneous and Metamorphic Petrology
Prerequisite: Geology 311Z and 313B. Examination of rocks representative of the more common igneous and metamorphic varieties.

Prerequisite: Geology 201A or equivalent and 241A. The origin, classification and evaluation of ore and petroleum deposits. Laboratory includes problems in ore evaluation and petroleum geology, and the examination of suites from representative mining camps. Lectures: 3 hours per week. Lab: 3 hours per week. Text: To be announced. (3 credits)

Mineral Physics
Prerequisite: Geology 211B, 312A, 311Z, 332B. Selected aspects of the relationship of solid state characteristics of minerals to their conditions of formation and significance. In the laboratory details of crystal structure are considered and readily developed changes in solid-state conditions in minerals and metals are used to amplify the lecture material. Lectures: 2 hours per week. Lab: 4 hours per week. Texts: Deer, Howie and Zussman, An Introduction to the Rock Forming Minerals (Longmans); Spry, Metamorphic Textures (Pergamon). References: Van Vlack, Elements of Materials Science, 2nd Ed., (Addison-Wesley); and/or Wulf et al, The Structure and Properties of Materials, (Wiley). (3 credits)

Stratigraphy
Prerequisite: Geology 201A and 222A. A thorough analysis of various stratigraphic principles will be made using examples from Canadian and American type stratigraphic models. Lectures: 3 hours per week. Lab: 3 hours per week. Text: R. K. Matthews, Dynamic Stratigraphy, Prentice Hall. (3 credits)

Geomorphology
Prerequisite: Geology 201A or equivalent. Fluvial and slope processes, influence of climate, rock type and structure on the development of land forms, coastal features, aeolian processes, glacial and periglacial activity. Laboratory work emphasizes interpretation of aerial photographs and topographic maps and a field excursion to local area. Lectures: 3 hours per week. Labs: 3 hours per week. Text: Ray, Aerial Photographs in Geologic Interpretation and Mapping (U.S.G.S.), Leopold, Wolman, and Miller, Fluvial Processes in Geomorphology; (Freeman). (3 credits)

Economic Geology
Prerequisite: Geology 201A or equivalent. The origin, classification and evaluation of ore and petroleum deposits. Laboratory includes problems in ore evaluation and petroleum geology, and the examination of suites from representative mining camps. Lectures: 3 hours per week. Lab: 3 hours per week. Text: To be announced. (3 credits)
GEOLOGY 452B
Mineral Deposits
Prerequisite: Geology 313B, 311Z and 451A. The origins, type of occurrence and classification of metallic mineral and non-metallic mineral deposits. The application of all fields of geology to a specific problem. Laboratory includes exercises on property and ore evaluation, an introduction to incident light microscopy and a series of examinations and a term project on suites from various ore deposits. Lectures: 3 hours per week. Lab: 3 hours per week. Text: Park and MacDiarmid, Ore Deposits, 2nd Ed. (Freeman). (3 credits)

GEOLOGY 501A/B
Reading Course
Prerequisite: Permission of the Department. A reading and discussion course for Honours and interested Specialized students. The course involves reading in two disciplines of Geology chosen by the student, and discussion with assigned faculty members, 6 hours per week. (3 credits)

GEOLOGY 523B
Geology of Canada
Prerequisite: Geology 201A, (Geology 421A or Geology 222A is recommended). Geologic study of the major geomorphic subdivision of Canada with special emphasis on stratigraphy, correlation, paleography, sedimentation and tectonics. Reading assignments and colloquium are used to probe into specific problems. Lectures: 3 hours per week. Colloquium: 1-3 hours per week. Text: Geology and Economic Minerals of Canada. 5th Ed., Econ. Geol. Series No. 1 of the Geological Survey of Canada. (3 credits)

Equivalent Geology courses on Loyola and Sir George Williams Campuses.

51.14.4 Geography

51.14.5 PROGRAMME

24 Minor Geography

For BSc Students:
Year I or II
9 Geog 301, 311, 313
Year II or III
15 Geog Elec
For BA Students:
Year I or II
9 Geog 300, 301
Year II or III
15 2½ Geog Elec

NOTE: Electives to be chosen with advice from Faculty.

51.14.6 COURSE DESCRIPTIONS

GEOGRAPHY 300Z
Foundations of Geography: Environment and Man
Prerequisite: None. A course designed for the student with no previous training who is interested in the geographic background to world and environmental problems. A study will be made of both physical and human factors in geography. Areas of concentration will be: energy, natural systems and the environment; landscape evolution, climate and resources; variation and spatial distribution of man's economic, social and political activities; the relationship of urban and non-urban man to the environment. Lectures: 3 hours per week, including Lab. Text: Peter Haggett, Geography A Modern Synthesis, (Harper & Row 1975). (6 credits)

GEOGRAPHY 301A
Maps and the Presentation of Statistical Data (I)
Prerequisite: None. This course is useful to anyone interested in how to read and analyze the information on a map; or in how to display data by means of maps and diagrams. It is basic to all other courses in Geography. Topics will include: analysis of topographic, land use, urban and weather maps; the application of maps to economic, social, medical and historical topics; the interpretation of aerial photographs. Lab: 3 hours per week. Text: J. Tyner, The World of Maps and Mapping, (McGraw-Hill 1973); F. J. Monkhouse & H. R. Wilkinson, Maps and Diagrams, (Methuen, 1971, paperback). (3 credits)

GEOGRAPHY 311A
Climate and the Biosphere
Prerequisite: None. A study of the energy systems of the atmosphere and an introduction to environmental geography. The hydrologic cycle, world climates and weather systems, Interrelationships in the biosphere, and man's impact upon them. Weather and climate maps will also be studied. Lectures: 3 hours per week, including Lab. Text: Strahler & Strahler: "An Introduction to Environmental Science". (Wiley, 1974). (3 credits)

GEOGRAPHY 313B
Landforms and the Biosphere
Prerequisite: None, 311A a help. An introduction to the energy systems of the earth's crust and oceans, and the processes which have shaped our environment. The evolution of land forms and man's impact upon landscapes. The Pleistocene and Recent epochs in Canada, and their effects on
soils and land use. The study of relevant topographic land-use maps, and aerial photographs. Lectures: 3 hours per week, including Lab. Text: Strahler & Strahler: "An Introduction to Environmental Science". (Wiley, 1974). (3 credits)

GEOPHYSY 331A
Cultural Geography I: Man the Hunter
Prerequisite: None. A study of man-environmental relationships through the ages. The Pleistocene inheritance and the spread of man across the earth. Man the hunter. The development of cultures and the growth of agricultural landscapes. Man's differing adaptations in preindustrial societies, including the Eskimos and Indians. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 333B
Cultural Geography II: Man's Rise to Civilization
Prerequisite: None. The impact of technology upon cultures. The evolution of industrial man. The dichotomy between developed and developing countries. The population explosion and changing patterns of urban and non-urban societies. The future outlook. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 400Z
Biogeography
Prerequisite: Geog 300, or 311 and 313, or Introductory Botany, Biology or Environmental Studies. A study of biotic communities and interaction within ecosystems. Topics will include: the scope of biogeography; the biosphere, food chains and energy exchange within ecosystems. Relationships between vegetation and fauna, and landforms, soil, hydrology and climate. Local, continental and world patterns of distribution; methods of dispersal, migration and population checks. Field studies will be an integral part of the course. Lectures: 3 hours per week, including Lab. Field trips. (6 credits)

GEOPHYSY 411A
Geography of Location I
Prerequisite: Geog 303 or 491 or equivalent. This course aims to provide the background to locational theory and spatial analysis in economic, human and physical geography. The classical theories of location in agriculture, industry and settlement of von Thunen, Weber, Christaller, Losch and others will be examined: their relevance to the different stages of development and resource used in First and Third World countries will also be discussed. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 413B
Geography of Location II
Prerequisite: Geog 411. A study of manufacturing and marketing with particular reference to Canada and the United States. Spatial patterns of innovation and diffusion. Regional and interregional flows and networks. Comparison with organization and development in the developing countries. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 420Z
The Geography of Canada
Prerequisite: Geog 300 or 333 or permission of department. The Indian, Eskimo and European settlement and early development of Canada. The resource base. Migration and changing land use. Emergence of cultural and economic regions. The growth of cities and of industrialization. Problems of a developed economy, with special reference to Quebec and Ontario. The demo-

graphic transition; federalism, nationalism and their consequences. The significance of development schemes in James Bay and the North. Canada's interaction with the U.S.A. and Latin America: her world position. Lectures: 3 hours per week. (6 credits)

GEOPHYSY 421A
Urban Geography I
Prerequisite: Geog 300 or permission of department. The evolution of the city; its function and economic base. An examination of urban internal structure, land use, and social and political geography. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 423B
Urban Geography II
Prerequisite: Geog 421 or permission of department. The North American and Canadian City. Problems and politics of urban growth and development. Contrasts with Old World and Third World Cities. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 430Z
The Developed Countries
Prerequisites: Geog 300, 333 or 411 or permission of department. An examination of the economic geography and contrasting organization of the EEC, the U.S.A. and the U.S.S.R. Problems of urban and industrial growth and decay, population trends, and diminishing raw resources. World trading patterns and dependence on the Third World. Lectures: 3 hours per week. (6 credits)

GEOPHYSY 440Z
The Third World
Prerequisite: Geog 300 or 333 or 411 or permission of department. The economic geography, problems and future of the developing countries. The importance of cultural traditions; the colonial legacy; the struggle for self-sufficiency. Agricultural and industrial resources, local and world trading patterns, tourism. Urbanization and increasing population pressure; outlook for 2000 A.D. Lectures: 3 hours per week. (6 credits)

GEOPHYSY 450Z
The Geography of the Far East
Prerequisite: Geog 300 or 333 or 411 or permission of department. The economic and political geography of the Far East. A study of the contrasts in resources, organization and development of the People's Republic of China, Japan, and S.E. Asia. Lectures: 3 hours per week. (6 credits)

GEOPHYSY 460Z
Geography of Northern Lands
Prerequisite: Geog 300 or 333, or permission of department. A study of the northern lands in North America. Comparisons with Europe and the U.S.S.R. The physical characteristics, peoples, resources, past and present economies. A discussion of possible future developments and problems. Lectures: 3 hours per week. (6 credits)

GEOPHYSY 471A
Introduction to Historical Geography
Prerequisite: Geog 333 or equivalent. An examination of the geographical factors in historic events; of the distribution and migration of peoples; of differing settlement patterns and the growth of cities. Effect of physical boundaries in war and peace. The agricultural and industrial revolutions and their effects, and special reference to Europe. Lectures: 3 hours per week. (3 credits)

GEOPHYSY 473B
Historical Geography of North America
Prerequisite: Geog 471, 333 or equiva-
Lent. This course will be given with special reference to Canada. A study of early settlement and land use, and the effects of conflicts, treaties, and successive immigrations. The mercantile and colonial eras, and changing cultural and agricultural landscapes. Differing settlement patterns, including the seigneurial and township systems in Quebec. The growth of cities, industries and trade networks, and the emergence of Modern America. Lectures: 3 hours per week. (3 credits)

GEOGRAPHY 481A
Political Geography
Prerequisite: Geog 333 or equivalent; or permission of department. Study of the political map and the spatial growth of states; of frontiers and boundaries, cities and federalism, systems and disintegration of empires. Votes, migrations and environmental stress. Spatial relationship at the municipal, national and international levels. Lectures: 3 hours per week. (3 credits)

GEOGRAPHY 483B
Population Geography
Prerequisite: Geog 303 or equivalent. The characteristics, dynamics and distribution of world populations. Census data and techniques of census analysis. Rural/urban populations and their varying proportions. The vital processes of population change; natural increase and migration. Growth rates, population policies, and population pressure. Study of selected groups. The demographic prospects. Lectures: 3 hours per week. (3 credits)

GEOGRAPHY 491A
Geographical Analysis
Prerequisite: Geog 303 or equivalent. The application of quantitative techniques to geographical data. Analysis of point patterns, spatial distributions, and networks. Non-parametric methods. Probability and prediction. Regression and multivariate techniques in the analysis of geographical relationships. How to test the significance of data. Lectures: 3 hours per week. (3 credits)

GEOGRAPHY 493B
Evolution of Geography
Prerequisite: See Chairman. The development of geographical thought since earliest times. Changes in the twentieth century; the quantitative revolution. Concepts and present day specialisms. Geography's contribution to environmental studies and to an understanding of the complexities of the modern world. Lectures: 3 hours per week. (3 credits)
51.15 Health Education

Director:
GLADYS LENNOX
Curriculum Coordinator of Nursing Education
SISTER MADELEINE BACHAND

51.15.1 PROGRAMMES

90 BA Specialization in Community Nursing

Prerequisite: R.N.
45 Nurs 3006, 3106, 3206, 3306,
401A/B, 407B, 4406, 5046,
513A/B
15 Health Ed Elec
30 Elec

45 Certificate in Community Nursing

Prerequisite; R.N.
45 Nurs 3006, 3106, 3206, 3306,
401A/B, 407B, 4406, 5046,
513A/B

90 BA Major in Community Nursing

Prerequisite: R.N.
45 Nurs 3006, 3106, 3206, 3306,
401A/B, 407B, 4406, 5046,
513A/B
45 Elec

42 Certificate in Health Education

36 Case 3006, 3106, 401A/B,

51.15.2 HEALTH EDUCATION

The Health Education Division offers programmes and Courses designed for three groups of students.

1) Registered nurses: In community nursing II Students from various disciplines: Health Education courses as electives III Individuals working in a community: courses dealing with community problems and the role of the community workers.

1 Community Nursing Programme

Purpose of the Programme

The programme in Community Nursing is designed to offer further Education to experienced Registered Nurses working in community settings such as schools, industry, community clinics, doctor's offices, hospital services and other agencies. Consideration has been given to the nurses' emerging role as a member of the multi-disciplinary health team and her interests in the fields of community nurse practitioner, health service administrator, health educator, and other specialities. Therefore, courses are designed for their relevance to society and professional needs in general, and to the needs of the student and consumer specifically. For this reason the following options are offered: 1) BA Major Community Nursing (90 credits) 45 of these credits must be in Nursing (taken sequentially), and the remaining 45 Electives.

2) BA Specialization Community Nursing (90 credits) 45 of these credits must be in Nursing (taken sequentially), 15 in Health Education and 30 Electives.

3) A certification may be granted to nurses having completed the 45 compulsory nursing credits. Students course of study are scheduled individually taking into consideration: academic background, professional experiences, areas of interest and time available. Acceptance may be on a full or part time basis. In the latter case, the student is expected to take at least one course per semester. Exceptions to this rule may be made with the approval of the Director.
Admission Requirements: The student must present:
1) a nursing diploma from an approved school of nursing.
2) an authorization to practice nursing issued by the Order of Nurses of Quebec or able to submit proof of current registration in the Province or country from which he/she comes.
3) for any nurse who graduated in 1972 or later, a written declaration from a hospital showing at least one full year of employment as a nurse and indicating the specific nature of that employment.
4) Where a student cannot submit prerequisite documentation, he/she may request the right to take a qualifying examination 3 weeks prior to registration.
5) Relevant transcripts should be submitted to the registrar's office in advance of registration.

Grade
The students will be expected to obtain a grade of 65% in the nursing subjects in order to continue in the programme.

Preregistration: Preregistration is mandatory for:
1) entry into the Community Nursing Programme.
2) course selection
3) selection of Health Education electives.

Students are obliged to contact the Health Education Office (Local 420) early to make an appointment with the Curriculum Coordinator for the Community Nursing Programme.

II Courses in Health Education
Courses are offered in the field of Health Education as electives for our students as well as for students of other disciplines.

III Certificate Programme in Health Education
These courses are offered to professionals employed full time or as volunteers in health clinics, educational programmes, hospitals, and other community settings.

The certificate will be granted upon successful completion of 42 credits, 36 of which are mandatory and the remaining 6 Health Education electives. The programme may be taken on a full or part-time basis. One course per semester is mandatory unless this is waived by the Director of Health Education. Students are required to maintain an average of 65% in order to continue in the programme.

Preregistration: Preregistration is mandatory for:
1) Entry into the Certificate in Health Education
2) Course selection
3) Selection of Health Education electives.

Students are obliged to contact the Health Education Office (Local 406) to make an appointment to see the Academic Adviser.

51.15.3 COURSE DESCRIPTIONS

NURSING 300Z
(Also given as Bio-PE 534 and Cose 300)
Nursing in the 70's
This course will study the influence of socioeconomic and political system on the nutritional status of the individual, and the interrelationship between food habits and the cultural, social and psychological aspects of life. Topics will include diet related problems such as obesity, heart disease, faulty eating habits, malnutrition. Food budgeting for all levels of the socio-economic structure will be examined.
(6 credits)

NURSING 407B
Pharmacology: The Nurse's Role
Prerequisite: Nursing 401. This half course is the continuation of Community Nursing 401. It will continue the review of the major drug classes. (3 credits)

NURSING 440Z
Community Life: Family Structure and Health Care Delivery
This course concerns health problems of the family, the basic unit of community life. Prevention of disease, rehabilitation and continuity of care comprise the frame of reference for these health problems as they relate to marriage, pregnancy, childbirth, child-rearing, family planning and death. Clinical experiences and home visits as well as in-depth study of selected family health resources are planned. (6 credits)

NURSING 504Z
The Expanded Role of the Nurse
Prerequisites: Nursing 300-310-320-330-401-407-440-513 Registered nurse and practicing license. Topics include history-taking, observations, physical examination by system. Laboratory work will be done at local hospitals in cardiac, pulmonary, dermatology fields. (6 credits)

NURSING 513A/B
(Also given as Bio-PE 517 and Cose 513)
Methods and Techniques of Teaching Health
Lectures and practice in instruction of small and large groups. Emphasis will be on effective communication of health information to individuals and groups. Utilization of audio-visual aids in a variety of situations. (3 credits)

HEALTH EDUCATION 300
(Also given as Bio 300)
Fundamentals of Human Biology
A series of lectures designed to provide non-science students with a general survey of the fundamental principles of life, with emphasis on the structures and functions of man's nine systems. (6 credits)

HEALTH EDUCATION 301
School Health Programme
The prepared course of action taken by the school in the interest of the health of the school child and school personnel. It includes health services, health instruction, and healthful school living. Emphasis will be directed toward the need for coordination of hospital, school, and community as suggested by Bill 65. (3 credits)

HEALTH EDUCATION 303A
(Also given as Bio-PE 451)
Structural Human Anatomy
The course is a study of gross and functional anatomy with major emphasis on the skeletal, muscular and nervous systems. (3 credits)

HEALTH EDUCATION 311B
(Also given as Bio-PE 455)
Systematic Human Anatomy
Prerequisite: Health Education 303. The course is a study of the organ systems of the human body with major emphasis on the circulatory, respiratory, digestive, excretory, reproductive, and endocrine systems. (3 credits)
HEALTH EDUCATION 351
Hunger in the Classroom: The Schools Role
Review of evidence indicating existence of malnutrition in schools in Quebec. Followed by discussion of observable effects of hunger and malnutrition in the classroom. Discussion of various programs and approaches by the school administration, the school board, the teachers, nurses, etc., taken to alleviate the problem. Topics of discussion will include: Action for school lunches—Malnutrition—learning and behavior—Nutrition education program. (3 credits)

HEALTH EDUCATION 361
Community Health Information
Lectures will be given by members of the Montreal Area Medical Profession on subjects in the field of Human Development. Emphasis will be on topics of current interest in community life such as: contraception, venereal disease, drugs, sexuality, and parent-child relations as they relate to the individual's participation at home and in the community. (3 credits)

HEALTH EDUCATION 370
School Health Services Seminar
Open to all members of pupil personnel services but directed especially to nurses working in educational settings. This seminar will explore the "team" approach to problems in current mental and physical health problems such as: drugs, venereal disease, diabetes, epilepsy, obesity, partially sighted, thoracic conditions, cartilage conditions, renal disorders, accidents, mental health and human sexual development. Teachers, Guidance Personnel, Mental Health Workers, Psychologists and Administrators will find this course of immediate interest. (6 credits)

HEALTH EDUCATION 372S
Special Workshop Human Sexuality
Subject matter will vary from year to year, to take advantage of special interest in society. The 1975 course will deal with "Psychological Concepts of Human Sexuality as they influence Family Planning and Sex Education"; the study will explore variations in sexual patterns, therapy and counselling, biological, anthropological and ontological perspectives of sexuality. Open to educators, guidance counselors, nurses, social workers, and psychologists. (6 credits)

HEALTH EDUCATION 391A
(Also given as French 307)
French Language for Community Health Personnel
Prerequisite: A basic ability to communicate in French. (Pre-University or equivalent course on lower intermediate level.) This course is designed to develop a working vocabulary at three different levels of communication: with French clients, other professionals, and government agencies. The practicum necessary for individuals to work in the numerous health settings now being developed in Quebec. (3 credits)

HEALTH EDUCATION 400Z
Clinical Epidemiology and Bio-Statistics
An introductory course on the methods of measuring the distribution and determinants of disease frequency in Man. Measures of population health and health services utilization will be covered. Variability and the need of statistics will be stressed. (6 credits)

HEALTH EDUCATION 403B
Community Dental Health
This course is designed to enlighten the student of problems associated with dental care within the community. With the help of films and audio-visual aids, we will explore the realms of dentistry and consider the importance of the Dossier, Prevention and Rehabilitation. Our approach will permit the student to encourage open discussion and seminars during lecture hours. (3 credits)

HEALTH EDUCATION 405
Occupational Health Nursing
This course will deal with the relation of doctor and nurse, employer and employee; management and the medical department. Also the role of the nurse today and tomorrow in our rapidly changing society. Instruction will consist of lectures, group discussion and practical applications through field work and simulation. (3 credits)

HEALTH EDUCATION 421A
(Also given as Andr 361)
Personal Interrelations
This course is designed to provide an orientation to the field of interpersonal relationship and human awareness, focusing particularly on relating to and working with other people. Concepts of personal growth and development will be highlighted. (3 credits)

HEALTH EDUCATION 430Z
Gerontology: Human Relations and the Aging Process
Health needs of the elderly, as defined by the World Health Organization, will be reviewed during the course in the context of the knowledge called from the psycho-biological and sociological fields of the process of aging, with a view of the role of the student as a member of the health care team. The guidance and counselling required with both the elderly patient and his family will be outlined. Practical skill and attitudes required to care for the aged and to educate him and his relatives will form an integral part of the course. (6 credits)

HEALTH EDUCATION 431
Medical Ethics
The course is team-taught by members of the Philosophy Department and is primarily intended for students in the Community Health Nursing Programme, with others admitted as far as feasible. Several meetings will give an overview of ethical principles on which particular topics can be considered. Because of the novel roles of personnel in community health settings, areas of students' ethics as health professionals, administrators and business persons will be included. Since students now come into more direct relation to legal control and governmental influence upon their actions, these require ethical consideration. Less isolated from community events, the health professionals require great awareness of their responsibility in research and experimentation. Attention is given to particular moral problems arising in dealing with families and other community primary groups, with children, with adolescents, adults and the aged. The relation of the professional to community institutions is also an area of ethical research in the course. (3 credits)

HEALTH EDUCATION 501B
Community Health Administration
This half course will deal with several aspects of business management. Among the topics covered will be theories of human motivation, power and authority, organizational structures and procedures, change and management systems. In addition, emphasis will be placed on pertinent financial areas which can be of help to the student in future work. These will include:
1) elementary financial analysis
2) the preparation, use and interpretation of budgets
3) the acquiring and management of funds.

The objective of the course will be to give the student an appreciation of the administrative tools of business. (3 credits)

HEALTH EDUCATION 503B
The Law and the Nurse

The series of lectures forming this course is designed to provide the nurse with a knowledge of her rights and responsibilities as a professional worker and as a member of the health service team operating in a community service setting. Jurisprudence of Canadian and Quebec law will be presented and various examples of professional liabilities under law will be reviewed. If time permits, medical law relating to the general liabilities of the medical profession will be added. (3 credits)

HEALTH EDUCATION 510Z
Community Mental Health & Social Problems

Lectures will provide basic knowledge on the needs and behaviour of mental and emotional deviants in childhood, adolescence, and adulthood. Interaction with school systems (special education) and hospitals will form part of the course work. Emphasis will be on the care of ambulatory patients through community clinics which will involve the family of the patient as well. (6 credits)

HEALTH EDUCATION 515B
(Also given as Andr 331)
Communications Media

Prerequisite: Health Education 513 or equivalent. This course is designed as a secondary course in methodology. It builds upon the principles established in Health Education 513* and utilizes them in an electronic mode. In addition to the lectures, each student must make a presentation utilizing one or more of the media of the course. It is expected that hands-on experience will be provided with as many media as possible designed to place the student at ease in the use of electronic media. (3 credits)

HEALTH EDUCATION 515Z
(Also given as Bio-PE 534 and Nurs 300)
Nutrition in the 70's

This course will study the influence of socioeconomic and political systems on the nutritional status of the individual and the interrelationship between food habits and the cultural, social and psychological aspects of life. Topics will include diet related problems such as obesity, heart disease, faulty eating habits, malnutrition. Food budgeting for all levels of the socio-economic structure will be examined. (6 credits)

HEALTH EDUCATION 510A
Health Problems

Prerequisite: Biology 300. This course deals with areas selected for their epidemiological importance in understanding modern health problems. Topics will include the neurological basis of behaviour, problems arising from principles of heredity and their modern implications. Ecology and pollution as related to our environment. The course will be geared to the interests of students and will vary from year to year. (6 credits)

COMMUNITY SERVICES 320
(Also given as Andr 420 and Bio-PE 640)
Dynamics of Interviewing & Counselling

Prerequisite: Health Education 421 or equivalent. A laboratory course in which the student examines the dynamics of interviewing, models of human effectiveness, and theories of counselling, as well as the principles of the helping relationship. Counselling techniques in staff relations and supervision will also be explored. The course demands a high level of observation, participation and involvement from each student. (6 credits)

COMMUNITY SERVICES 401 A/B
Drug Use and Abuse

The course is structured to introduce non-medical personnel to the modern concepts of drug therapeutics, and to discuss the consequences of use and abuse of drugs. The drug classifications will include steroids, antibiotics, minor and major psycho-tropics and the potential chronic abuse of drugs such as amphetamines and other stimulants, barbiturates and other sedatives, hallucinogens, minor tranquilizers, opiate narcotics, alcohol and tobacco. (3 credits)

COMMUNITY SERVICES 408Z
(Also given as Bio-PE 642Z)
Group Structure and the Role of the Community Worker

The course is developed to assist volunteers, interested citizens, street workers, and individuals with no formal health training, but working as a part of a multidisciplinary team, to identify their roles in order to play a more effective part as a community worker. Assignments will be directed toward practical applications of field work to problem solving in a field of their choice: i.e. post-retirement, rehabilitation of drug addicts and alcoholics, single parents, etc. (6 credits)

COMMUNITY SERVICES 513A
(Also given as Bio-PE 513 and Nurs 513)
Methods and Techniques of Teaching Health

Lectures and practice in instruction of small and large groups. Emphasis will be on effective communication of health information to individuals and groups. Utilization of audio-visual aids in a variety of situations. (3 credits)

#Hist credits chosen from Survey, Intermediate or Honours courses. Choice from Honours courses with permission of instructor only.

24 Minor in History

24 Hist credits. Students in other departments who wish advice as to those courses most helpful to them may consult the Chairman.

51.16.2 COURSE DESCRIPTIONS

INTRODUCTORY SURVEY COURSES

HISTORY 301A/B
The Nature and Practice of History
The course embraces two fundamental concerns. Students will examine the nature of historical enquiry: its varieties, purposes, traditions, and place in contemporary society. In addition, they will receive a systematic introduction to the practical aspects of critical scholarship: the use of the library, methods of research, and forms of writing critical essays. (3 credits)

HISTORY 303A
History of Canada, Pre-Confederation
A survey of Canadian history, from settlement to Confederation, which emphasizes readings and discussions on selected problems. (3 credits)

HISTORY 305B
History of Canada, Post-Confederation
A survey of Canadian history from Confederation to the present, which emphasizes readings and discussions on selected problems. (3 credits)

HISTORY 306Z
History of Quebec
Social, economic and political history of Quebec from the origins to the present, with emphasis on the period since 1760. (6 credits)

HISTORY 307A/B
The Indian in Canadian History
Survey of Amerind history from 1500 to the present day. Students will be encouraged to carry on further studies in areas of special interest. (3 credits)

HISTORY 308Z
(Also given as Interdisciplinary Studies 400Z)
Native Peoples of Canada
Examines the Native Canadian experience from a multidisciplinary perspective. Native and non-Native participants are invited from throughout Canada to speak on history, law, education and culture relating to the Indians and Eskimos of Canada. Term paper or project, and exam. Text: Walsh, Indians in Transition. (6 credits)

HISTORY 309A
History of the United States, to 1877
Survey of American history from settlement to 1877. The course will deal with the political and economic framework of American history, and with social and cultural trends. (3 credits)

HISTORY 310B
History of the United States, since 1877
Survey of American history from 1877 to the present. The course will deal with the political and economic framework of American history, and with social and cultural trends and movements. (3 credits)

HISTORY 320Z
(Also given as Classics 330Z)
Greek and Roman History
May be taken as either a History or Classics course. A survey of Greek and Roman history from earliest times to the fall of the Roman Empire in the West, viewed primarily through the eyes of contemporaries, emphasizing those issues that have excited and continue to arouse interest and controversy among historians. Though Athens for its unique cultural and political achievement and Rome for its administrative genius and imperial successes inevitably occupy the central interest, these cities will be examined from the viewpoint of their cities as well as admirers. The credibility of the ancient evidence will be carefully assessed. Due attention will be directed towards social and economic as well as purely political factors. The course will be designed to demonstrate the extent to which the lower classes—peasants, soldiers, sailors, craftsmen, and traders—contributed as much to the classical achievement as kings, emperors, and aristocrats. (6 credits)

HISTORY 322Z
(Also given as Classics 340Z)
The Ancient Near East
May be taken as either a History or Classics course. The history of Egypt, Mesopotamia, Syria and Anatolia from the Neolithic Period to the Persian conquest. In addition to economic and political factors due attention will be directed to the literary and religious legacy of the different peoples. Ancient sources will be used whenever possible. (6 credits)
HISTORY 324Z
Introduction to Archaeology

May be taken as either a History or Classics course. Archaeology as a science; its purpose, methods, and techniques. The relationship of Archaeology to Pre-History, Ancient History, Fine Arts, and Anthropology. While the course will deal principally with Classical Archaeology and Greek and Roman Art, the Archaeology of Africa, the Orient, and the Americas will also be considered. (6 credits)

HISTORY 330Z
History of Medieval Europe

A study of Western Europe (France, Germany, Italy) with occasional reference to neighboring areas) during the period 300 to 1300 A.D. The purpose of the course will be to discover the positive meaning of the term "medieval" by an examination of the political and cultural interaction of the Greco-Roman, Judeo-Christian, and Germanic traditions, as revealed in primary sources. Reading will be assigned from a number of recent collections of translated contemporary source material which will form the basis for class discussions. Required Reading: C. Warren Hollister, Medieval Europe. (6 credits)

HISTORY 335A
Renaissance Europe

Will explore the elements of transition from the Medieval to the Modern World. Particular attention to changing social and moral values (as expressed in art, literature and social behaviour) and to the growth of nation states in Europe. (3 credits)

HISTORY 337B
History of the Reformation

A study of the religious, social and political doctrines of the age of the Reformation. Emphasis on the Medieval and Renaissance origins of Reformation ideas, and on the ways in which this era has proven seminal for the development of modern Western civilization. (3 credits)

HISTORY 340Z
History of England, 1485 to the Present

Emphasis on the development of English society and political structure, with some attention to religious, cultural, and economic development as well. (6 credits)

HISTORY 350Z
The Ancien Régime, 1660-1789

A historical survey of this period and a study of selected themes and problems: the cultural and political supremacy of France; the strength and weakness of absolute government as seen in the reign of Louis XIV; the resurgence of the nobility; unrest and social and economic reform; contemporary appraisals of the ancien régime. (6 credits)

HISTORY 354Z
The World Since 1914

A discussion of the main trends of world history—political, diplomatic, socio-economic and cultural—since World War I. Special attention will be given to European developments. (6 credits)

HISTORY 358Z
History of Modern Italy

Survey of the history of modern Italy. Emphasis will be placed on the Risorgimento, the crisis of liberal democracy, the rise of fascism and post-war problems. (6 credits)

HISTORY 360Z
Europe and the Industrial Revolution: The Origins of Modern Society

An examination of change and stability in the social and economic structure of Europe during the first age of industrialization, ca. 1760 to ca. 1900. The course will investigate such themes as the growth of capitalism, the displacement of a corporate, status society by a society based on economic classes, the growth of industry and cities and their impact on the traditional agrarian order of the ancien régime, and the role of overseas imperialism in the economic development of modern Europe. For advance reading the student might consult D. Landes, The Unbound Prometheus or T. Kemp, Industrialization in Nineteenth Century Europe. (6 credits)

HISTORY 362Z
European Society and Economy in the Twentieth Century: The Crisis of Capitalism

An examination of stability and change in the social and economic structure of Europe in the contemporary age. The course will investigate such themes as the crisis of capitalism and the increasing intervention of the state in social and economic affairs, the breakdown of the world economic order in 1929/30 and the rise of fascist economics and the destruction of the European socio-economic structure in World War II and its post-war recovery. For advance reading the student might consult D. Landes, The Unbound Prometheus and S. Clogg, et al., Economic History of Europe: Twentieth Century. The course is especially recommended to students majoring in economics and sociology. (6 credits)

HISTORY 364Z
Germany and Austria in Modern Times

Socio-economic change and the development of nation-states in German Central Europe from the eighteenth century to the present. For advance reading the student might consult H. Holborn, A History of Modern Germany. (6 credits)

HISTORY 366Z
France since 1815

A study of French history since the defeat of Napoleon, with special emphasis on social and intellectual developments. (6 credits)

HISTORY 368Z
History of Russia

Survey of the history of Russia from the origins to the present, with emphasis on the Russian Revolution of 1917 and the Soviet period. (6 credits)

HISTORY 372Z
A History of China

In the first term the course will examine the evolution of Chinese society from approximately 2000 B.C. to the Nineteenth Century A.D., stressing the development of political and social structures, the dynastic cycle, and early contacts with the West. In the second term the Western challenge to China in the modern period will be considered, the nature of this penetration, its effects, and the reaction to it in the form of the rise of nationalism and the victory of communism. (6 credits)

HISTORY 373A
A History of Modern Japan

The course will consider the impact of Western civilization and technology on Japan in the 19th and 20th centuries. (3 credits)

HISTORY 375B
A History of Modern India

The course will consider the impact of Western civilization and technology on India in the 18th, 19th and 20th centuries. (3 credits)

HISTORY 378Z
An Introduction to the History of North and West Africa in the 19th and 20th C.

This course will focus on the relationship between western imperialism and indigenous
HISTORY 380Z
An Introduction to the History of Central, South and East Africa in the 19th and 20th c.
This course will focus both on the origins and development of indigenous African trade and politics and on those of the European settler societies. Emphasis will be placed on the effects on African societies of the development of the European and Afrikaner-dominated mining and agricultural economies. The theme of African political resistance will especially be stressed.
(6 credits)

HISTORY 381A
(Also given as Political Science 455A)
The Middle East in World Politics
May be taken either as a History or a Political Science course.

HISTORY 383B
(Also given as Political Science 457B)
Mid-East Political Systems
May be taken either as a History or a Political Science course. A comparative study of a selected number of Mid-East Governments (Turkey, Egypt, Libya, Syria, Iraq, Lebanon, Israel, Jordan, Saudi Arabia and Yemen).
(3 credits)

HISTORY 391Z
Selected Topics in History
(6 credits)

INTERMEDIATE COURSES
These courses cover geographical or thematic specialities beyond the level presented in the introductory courses. Greater stress is placed on student participation in discussions than on lectures. Prerequisites are normally required.

HISTORY 402Z
Approaches to Canadian History
Prerequisite: Canadian history survey at CEGEP or university. Canadian history as seen by propagandists, rebels, reactionaries and poets. Students will be expected to read widely.
(6 credits)

HISTORY 403A
Interpretations of Canadian History
Prerequisite: Canadian survey. Canadian History has been seen in many different ways - as part of British History, as a rejection of Britain, as a struggle between explorers and exploited. This course examines the leading interpretations and the reasons for their differences.
(3 credits)

HISTORY 404Z
Protest Movements in Canada since Confederation
Prerequisite: Canadian history or political science survey. An examination of the social and intellectual origins of political protest in Canada since 1867. Topics will include agrarian revolt, labour organization and sectional discontent, with emphasis on such third parties as Canada First, Progressive Party, C.C.P., Social Credit, Union Nationale and Parti Quebecois.
(6 credits)

HISTORY 405B
The Ideology of French Canada
Prerequisite: Any Canadian history at CEGEP or university. A study of the ways in which francophone Canadians have seen their societies and their roles in Canada. While the course will emphasize the francophones of Quebec, some time will be spent on those who live in such other parts of Canada as New Brunswick and the West.
(3 credits)
HISTORY 424Z
(Also given as Classics 436Z)
Continuity and Change: An Intellectual History of the Late Roman Empire
Prerequisite: Permission of instructor. A study of the main intellectual and social forces in the late Roman Empire that contributed most significantly to the formation of European culture. Among those topics treated will be: Neo-Platonism, Gnosticism, the Greek and Roman system of education, government and private welfare policies, mystery religions, late Judaism, early Christianity, the religious policy of pagan and Christian Emperors, contemporary art and architecture. (6 credits)

HISTORY 430Z
Readings in Medieval History
Prerequisite: Survey course or permission of instructor. This course will consist of discussion periods, using translated primary source materials taken from standard collections. Outside reading will also be required. Term papers will be assigned, and mid-term tests will be given. (6 credits)

HISTORY 431A
Comparative Renaissances in the Western Tradition
Prerequisite: Permission of instructor. A colloquium on selected renaissances, including the 12th Century European Renaissance, the Italian Renaissance of the fourteenth and fifteenth centuries, the American Renaissance of the nineteenth century, and possibly the Irish Renaissance of the same century. Students will use literary as well as more traditional historical sources to explore such questions as: what is a cultural “renaissance”? What forms help to create a cultural renaissance? How have traditional societies reacted to the phenomenon of cultural renaissances? Emphasis on discussion and research papers rather than lectures in a formal sense. (3 credits)

HISTORY 433B
Comparative Counter-Cultures in the Western Tradition
Prerequisite: Permission of instructor. A colloquium on selected counter-cultural movements, including the medieval counter-cultural tradition, the Anabaptists of the 16th century, the English counter-cultures of 1649-1660. These counter-cultures may then be contrasted with such modern movements as the literary and artistic counter-culture of Gertrude Stein's Paris, the economic counter-culture of the 19th century North American communal movement, and finally the counter-cultures in the same society in the past decade. Through a variety of sources, including literary and artistic, students will explore the nature of counter-cultural movements in the context of traditional societies. (3 credits)

HISTORY 446Z
History of British Diplomacy
The course will attempt to ascertain and evaluate the guiding principles of Britain's foreign policy as they are illustrated by practice in the nineteenth and twentieth centuries. The study will embrace the struggle to maintain the balance of power within Europe, the acquisition of Empire, British involvement in the Great War, the period between the wars, with special reference to the League of Nations, and British policy since World War II with special reference to the Cold War, devolution of Empire, and the European Economic Community. Certain aspects of contemporary international relations theory may also be discussed. There will be frequent seminars. (6 credits)

HISTORY 450Z
Problems in Church and State in Modern Europe.
An examination of some of the important themes in Church and State relations in Europe with emphasis on early modern Europe. Some of the themes to be discussed are: the changing theory in church and state relations; the growth of secularization; the development of the notion of religious tolerance; established churches and social unrest. (6 credits)

HISTORY 452Z
Social History of Early Modern Europe: Tradition and Transition
Prerequisite: European history course or permission of instructor. A study of trends in social change in 17th and 18th century Europe in towns and cities, with special emphasis on what remained from the medieval and Renaissance periods. Special attention will be given to the development of trade, travel, the growth of social criticism. (6 credits)

HISTORY 454Z
19th Century Civilization seen through the Novel
Prerequisite: European survey or permission of instructor. An examination of the major currents in 19th century European history as seen in the novels of such writers as Dickens, Balzac, Stendhal, Gogol, Dostoevsky, Flaubert and Zola. (6 credits)

HISTORY 455A/B
History of Ireland
A survey course that traces the history of Ireland from 432 to the present. Emphasis will be on the 19th and 20th centuries. Special attention will be given to the development of Irish nationalism and relations with Great Britain. Irish music and literature will be used to supplement the historical perspective. (3 credits)

HISTORY 456Z
20th Century Civilization seen through the Novel
Prerequisite: European survey or permission of instructor. A study of the main themes in contemporary history as expressed in the novels of such writers as Remarque, Malraux, Hamsun, Solzhenitsyn, Pasternak, Camus, Mailer, Sartre, and Camus. (6 credits)

HISTORY 462Z
Nazism and Fascism
Prerequisite: Any European survey. Emphasis will be on an analysis of the origins and policies of the National Socialist movement in Germany. The course will also deal with fascist political movements in Italy, Austria, Hungary, and Rumania. For advance reading the student might consult K. Bracher, The German Dictatorship and S. Woolf (ed.), The Nature of Fascism. (6 credits)

HISTORY 471A
Colonialism and Neo-Colonialism in Africa
Prerequisite: African survey course or permission of instructor. A study of the liberation movements in Guine, Angola, Mozambique, Rhodesia and Namibia. (3 credits)

HISTORY 473B
Africa and the Caribbean
Prerequisite: African survey course or permission of instructor. The African origins of the people of the West Indies, the slave trade, and the modern history of the Caribbean Islands will be studied. (3 credits)

HISTORY 490Z
Philosophy of History
Prerequisite: Second or third year standing
in a History programme, or permission of the Philosophy Department. An analysis of the nature of historical knowledge and explanation will be followed by a study of classical and contemporary attempts to elucidate the meaning of history. Authors discussed include Augustine, Vico, Kant, Hegel, Marx, Spengler, Popper, Toynbee. (6 credits)

HISTORY 492Z
History of Education
Prerequisite: University II or III level or permission of instructor. A survey of the History of Education from the Greeks to the present day. (6 credits)

HISTORY 497A
Independent Study Programme
See Department Chairman for further information. (3 credits)

HISTORY 498B
Independent Study Programme
See Department Chairman for further information. (3 credits)

ADVANCED SEMINARS: HONOURS COURSES

The following courses are open to honours students in all departments. History majors and students majoring in other departments may take these courses with the permission of the instructor, providing they have completed an introductory course in the same area.

HISTORY 502Z
Problems in Canadian Intellectual History
Prerequisite: Canadian survey. A study of social and political thought, with emphasis on nationalism in both English and French Canada. (6 credits)

HISTORY 504Z
The City in Canadian History
Prerequisite: Canadian survey. A study of urban development. For the first term, study will be devoted to world urban history. In the second term, study will concentrate on urban history in Canada. Students will have an opportunity to carry out original research in areas of interest to them. (6 credits)

HISTORY 508Z
Canada in the 1920's and 1930's
Prerequisite: Canadian survey. The course will examine many facets of Canadian life, economic, political, social and intellectual, during the inter-war decades. Emphasis will be on individual research projects. (6 credits)

HISTORY 509Z
Problems in Canadian Social History
Prerequisite: Canadian survey. A seminar and research course in Canadian social history. Topics to be studied will include sports, religion, morality, architecture and poverty. Classes will meet for discussion based on papers prepared by students. Students will also prepare a major paper based on original research. (6 credits)

HISTORY 510Z
Problems in American History
Prerequisite: American survey. An intensive study of themes in recent American history, emphasis on historiography, social and intellectual history. (6 credits)

HISTORY 520Z
(Also given in alternate years as Classics 432Z)
Julius Caesar and Alexander the Great
Prerequisite: Ancient history course. May be taken either as a History or Classics course. Three centuries separate them, perhaps history's greatest field marshals, reformers, and visionaries, two men more than all others loved, despised, admired, and condemned by contemporaries and posterity alike. This course will seek to discover them as they were, the worlds they conquered, and what Alexander and Caesar wanted and planned their worlds to be. (6 credits)

HISTORY 522Z
(Also given in alternate years as Classics 432Z)
Human Beginnings: The Stone Ages
May be taken either as a History or a Classics course. The origin of man and man's place in evolution and in nature. Man the toolmaker: australopithecines, Homo habilis, Homo erectus, Peking man, Java man, Solo man, and others. The fossil evidence and taxonomic problems. Man the hunter: meat-eating, intelligence, and sexual differentiations. Territoriality and aggression. The struggle for existence and the survival of the fittest: Darwinism, Marxism, and sociology.

HISTORY 530Z
Priesthood and Politics in the Middle Ages
Prerequisite: Intermediate course in Medieval history or permission of instructor. A study of the working out in practice, in the relations between the holders of temporal and spiritual power, of the medieval concepts of sacerdotium and imperium. (6 credits)

HISTORY 542Z
Tudor England
Prerequisite: English history survey. A study of the political, religious and social problems of the Tudor Age (1485-1603). The seminar will consist of regular discussions and individual research papers, centered around the broad themes of the age. It is hoped that students will be able to use primary as well as secondary sources. (6 credits)

HISTORY 544Z
Religious Dissent and Social Protest in the English tradition, 1550-1660
Prerequisite: English history survey. Examination of the Dissenting Religious groups in the English tradition, including the Lollards, Puritans, Presbyterians, Baptists, Quakers, etc., and their impact on society and social protest movements. (6 credits)

HISTORY 546Z
Stuart England
Prerequisite: English history survey. A study of the political, social, and religious problems of the Stuart Age (1603-1714), with an emphasis on the era from the accession of James I (1603) to the Glorious Revolution of 1688-9. (6 credits)

HISTORY 550Z
The Enlightenment: 18th Century Intellectual History
Prerequisite: Early modern European survey. A study of the European Enlightenment with emphasis on its development in France. The main themes in the movement will be explored, e.g. nature, reason, tolerance, progress, happiness, etc.; the careers of the leading philosophers and their chief writings will be examined. Various reactions to the Enlightenment in the eighteenth and nineteenth centuries will be studied. (6 credits)

HISTORY 552Z
The French Revolution and Napoleon
Prerequisite: Introductory survey course in 18th or 19th century Europe. An examination of the socio-economic, political and religious changes in French society between 1787 and 1815. (6 credits)
HISTORY 554Z
The Revolutionary Tradition in 19th Century France
Prerequisite: French history or Modern European. An analysis of the revolutions of 1848 and 1871. (6 credits)

HISTORY 560Z
Studies in 19th Century Central Europe: The Era of Bismarck
Prerequisite: Survey in German history or nineteenth century Europe. An analysis of socio-economic change and the growth of nationalism in the Habsburg and Hohenzollern states during the age of Bismarck. (6 credits)

HISTORY 562Z
Studies in 20th Century Central Europe: Fascism and Communism
Prerequisite: Survey in German history or twentieth century Europe. Problems in the modernization of the socio-economic and political order in Central and Eastern Europe following the dissolution of the Habsburg and Hohenzollern empires. Special attention will be paid to the role of fascism and communism in promoting social change. For advanced reading students might consult R. Dahrendorf, Society and Democracy in Germany and H. Seton Watson, Eastern Europe, 1918-1941. (6 credits)

HISTORY 564Z
Problems in the Socio-economic History of Modern Europe
Prerequisite: Introductory survey course in 19th and 20th century Europe. Selected themes in the evolution of industrial society in Europe: social stratification, urbanization and its effects, social mobility and changing composition of elites. The course will focus mainly on England and Central Europe in the nineteenth and twentieth centuries. (6 credits)

HISTORY 570Z
East Asia To-Day (China, Japan and Hong Kong)
Prerequisite: Chinese and/or Japanese survey course. In the first term the seminar will deal with the revolution in China since 1949; in the second term the seminar will study developments in either Japan or Hong Kong since World War II. (6 credits)

HISTORY 572Z
South Asia Today (India and Vietnam)
Prerequisite: Some knowledge of Indian and Chinese history. In the first term the seminar will deal with issues in Indian politics, society, economy and diplomacy since Independence in 1947—the nation’s problems and prospects. In the second term the seminar will study the Vietnamese people’s struggle for freedom since World War II, and will contrast conditions of life in North and South Viet Nam. (6 credits)

HISTORY 576Z
Imperialism and Revolution in the Third World
Prerequisite: Asian and African survey courses or permission of instructor. A comparison of the techniques and effects of imperialism in Asia, Africa and Latin America during the late 19th and 20th centuries. Modern independence and revolutionary movements in these areas will be examined from a comparative perspective. (6 credits)

HISTORY 590Z
Joint History-English Tutorial
A tutorial conceived as an interdisciplinary effort between the Departments of History and English, and designed specifically to satisfy a requirement for the History-English joint honours program. Tutorials may be arranged with members of the respective departments. (6 credits)

HISTORY 592Z
Joint History-French Tutorial
Prerequisite: Permission of instructor. A tutorial conceived as an interdisciplinary effort between the Departments of History and Etudes Francaises and designed specifically to satisfy a requirement for the History-French joint honours program. Tutorials may be arranged with members of the respective departments. (6 credits)

HISTORY 593Z
Advanced Topics in History
(6 credits)

HISTORY 594Z
Special Studies
(6 credits)

HISTORY 596Z
Honours History Tutorial
The history tutorial is open to honours students only. All honours students in history must select an area of concentration from the list below, and a tutorial director. The tutorial director will supervise an intensive reading programme in the student’s area of special interest, and consult with the student individually to discuss his reading programme.

-01 North American History
-02 British History
-03 Ancient History
-04 European History, 400-1660
-05 European History, 1660 to the present
-06 The Third World

(6 credits)

HISTORY 598Z
Honours History Thesis
Optional project open to honours students only. At the end of the second year students must choose, in consultation with their tutorial director, a research topic for intensive analysis during the third year. The student will independently research the topic and present a paper at the end of the third year. Students may concentrate in the same areas of concentration as for History 596Z. (6 credits)

HISTORY 599
Honours History Comprehensive Examination
(2 credits)
OBJECTIVES:
To accept the challenge implicit in living in a world where specialization can so easily be synonymous with narrowness of vision. This narrowness can be overcome if the specialist is able to see the interconnection between all fields of endeavor. Interdisciplinary Studies attempts to integrate knowledge, providing the specialist with a perspective which his discipline alone cannot give. Our primary aim, therefore, is to work with specialists and specialization rather than to provide a substitute for them.

1. We hope to achieve this objective through individual courses in Interdisciplinary Studies which are of high academic quality and are offered to students on an elective basis.

2. This process of integration can also be achieved through a Minor, i.e. 24 credits in a particular field which may be complementary to an existing Major, Specialization or Honours Programme. Such a Minor permits a more exhaustive treatment of an area than does an individual course, and may entail taking courses offered through Departments in addition to one or more seminars in Interdisciplinary Studies.

3. We must also construct programmes which constitute 'neglected areas' of curriculum, neglected because they do not fit neatly into any one department. Many of these programmes concern areas which have become important recently, i.e. after the evolution of the more traditional disciplines. Thus we have programmes in Canadian Studies and in Recreation and Leisure Studies. This objective is achieved through the coordination of existing courses in departments together with one or more seminars in Interdisciplinary Studies. Each programme will have its own coordinator and counselling service.

4. We hope to assist those students whose areas of interest, although truly academic, are not catered to in any single department or programme. A Self-Elected Specialization programme has been designed whereby a student may, in close consultation with the Director of Interdisciplinary Studies and other qualified faculty, submit his own programme consisting of ten existing courses from various departments. Care is taken that such programmes constitute a coherent whole both by the selection of courses and by the possible addition of a tutorial whereby the student in question integrates his knowledge under the direction of one faculty member. Students are accepted into a Self-Elected Specialization programme only after the Centre is satisfied that no other department can adequately cater to his academic aspirations.

NOTE: Students should register with the Centre for Interdisciplinary Studies if they intend to pursue any of the following programmes or minors.

51.17.1 CANADIAN STUDIES PROGRAMME

Coordinator
Dr. E. CAMERON

The Canadian Studies programme seeks to give students a better understanding of the diverse origins and multi-faceted character of Canada.

Selection Rules
1. History 303A3 and 305B3 or History 306Z6
2. English 454Z6 or English 333A3 and 335B3.
3. 6 credits in French language at a level to be determined by the French Department, section de langue, from the following list:
   If a student is placed at the elementary level–Fr 300Z, 301Z or 302Z.
   If a student is placed at the intermediate level–Fr 303F, 305S.
   If a student is placed at the advanced level–Fr 336Z.
4. Geog 42026 Geography of Canada.
5. Canadian Studies Seminar Int St 511A3 and 513B3. In each half course two professors from different disciplines discuss a common Canadian theme or problem with students. In addition all students will be required to take Int St 312Z Introduction to the Methods of the Humanities and Social Sciences.

Requirements for a BA with Specialization in Canadian Studies (Interdisciplinary Studies)
Courses totalling 60 credits selected from the list of Courses with Canadian Content incorporating the five selection rules listed above.

Requirements for a BA with a Major in Canadian Studies (Interdisciplinary Studies)
Courses totalling 42 credits selected from the list of courses with Canadian Content incorporating the five selection rules listed above.

Requirements for a BA with a Minor in Canadian Studies (Interdisciplinary Studies)
To be taken supplementary to a major, specialization or honours in another department.
Courses totalling 24 credits selected from:
1. History 303A3 and 305B3 or History 306Z6.
2. English 454Z6 or English 333A3 and 335B3.
3. 6 credits from any discipline other than History or English.
4. Canadian Studies Seminar Int St. 511A3 and 513B3. In each half course two professors from different disciplines discuss a common Canadian theme or problem with students.

51.17.2 RECREATION AND LEISURE STUDIES

Coordinator:
A. WRIGHT

Recreation and leisure service is a basic social and cultural need, and is concerned with the interrelationships among people in their environment. A great deal of money is poured into recreation and leisure at all governmental levels, leading to a pressing need for people to administer and develop programmes at the necessary standards of sophistication.

This programme attempts to fulfill this need and is offered to those students interested in a career in recreation and leisure services together with those students who foresee the increasing academic enquiry into the problems derived from recreation and leisure within the work ethic.

The primary focus is on managing, programming, counselling and co-ordinating rather than instructing. The programme draws from the departments of Bio-Physical Education, Etudes Francaises, Interdisciplinary Studies, Psychology, Sociology and the Faculty of Commerce and Administration.

Requirements:
Both required and elected courses within the Social Science and Applied Recreation options should be chosen in consultation with the coordinator.

Additionally it will be required that students must maintain a 65% average in all courses in the programme in order to continue into the second and third year of their studies.

Representatives:
Bio-Physical Education A. Wright
Commerce L. Boyle
Interdisciplinary Studies M. Hogben
Psychology M. Shames
Philosophy C. Gray
Sociology To be announced

Upon completion of all requirements the student will receive a BA with Specialization in Recreation and Leisure Studies (Interdisciplinary Studies).

24 credits from: 24 credits from:
Requirements leading to a Bachelor of Arts with a "self-elected" Specialization in
... "title of chosen specialization" ...
(Interdisciplinary Studies)
Students may apply to pursue a Self-Elected Specialization by submitting a statement of the proposed programme. There is no limitation on the subject matter of the proposal. The proposal should, however, contain the following information:

1. A title of the proposed area of specialization
2. A personal statement of purpose in taking such a programme
3. A list of ten or more courses directly related to the title and totalling 60 credits over a three-year period.

This proposal should be submitted to the Director of Interdisciplinary Studies as early as possible before registration. It will then be examined by a committee of Faculty from the general area of the student's interest. Students submitting proposals less than a month before registration may be admitted by the Director on a holding basis but this implies no guarantee of any later acceptance of a programme.

The following guidelines should help a student in constructing a valid set of courses in the area of his specialization.

1. The title or theme of the proposed area of specialization must be interdisciplinary, i.e., it must contain a coherent perspective that cuts across at least three traditional disciplines.
2. A student must maintain a 70% average in those courses proposed in setting up the programme. Failure to meet this requirement will prohibit the student from entering the second and third years of study.
3. The programme must include at least four courses (24 credits) falling within a single discipline — hereafter called the "foundation discipline." These courses must include some of the "core" courses towards a major in that discipline. This practice is not only sound pedagogy but has added significance in that a student failing to maintain a 70% average can then transfer to the department of the foundation discipline and still continue towards a major or Specialization in that field.
4. The final year, the student must enroll...

(Interdisciplinary Studies)

51.17.4 MINOR IN ENVIRONMENTAL SCIENCE

Coordinator: To be announced.

There is a growing awareness of the vital necessity to understand man's relationship to and effect upon the environment. This minor would enable the student to deepen both his social concern and his scientific understanding of the problems involved.

Environmental courses already exist in Biology, Chemistry, Geography and Interdisciplinary Studies.

Requirements:
Biology 331A3 Environmental Biology I
Chemistry 411A/B3 Environmental Chemistry
(Prerequisite: Chemistry 112)
Geography 311A3 Climate and the Biosphere
Geology 202B3 Elementary History of the Earth or
Geology 205A3 Environmental Geology

51.17.5 MINOR IN MEDIEVAL STUDIES

Coordinator:
R. COOLIDGE
(History Department)

The purpose of this programme is to give students a broad knowledge of the middle ages as a period in which many of the most important ideas, institutions value systems, and modes of creative expression in Western civilization arose and developed significantly toward their present forms. Students will be encouraged to relate the insights of various disciplines to each other and to gain an environmental view of human experience in this period.

Requirements:
1 Selection of 18 credits dealing with the Medieval World from at least two departments other than that of the student's Honours or Major Programme. This selection will be made in close consultation with the Coordinator. Such courses may be selected from the following list:
   For a complete course description see the appropriate section.

Classics § 51.7.2
436Z6 Continuity and Change: An Intellectual History of the Late Roman Empire
492Z6 Late Latin

Int St 330Z6 Environmental Studies I
(taken in first or second year)

Plus 6 credits from:
Biology 333B1 Environmental Biology II
Chemistry 541A3 Nature and Analysis of Pollutants (Prerequisites: Chem 342 and 344)
Geography 400Z6 Biogeography
(Prerequisites: Geog 300, or 311 and 313)
Geology 207A3 Geology of Resources
Geology 221B3 Physical Oceanography

After completion of all requirements the student will, on graduation, receive on their transcripts "Minor in Environmental Science" (Interdisciplinary Studies).

It is to be understood that science students will be exempted from the required courses in their own discipline. They must make up these credits in courses outside their own discipline from the optional courses.

English § 51.12.3

51.17.6 MINOR IN "SOCIAL RESPONSIBILITY IN SCIENCE"

Coordinator: J. CRELINSTEN

This programme is concerned with developing an awareness of the social and moral dimensions of science. It is designed for arts students who wish to examine the role of science as a potent social force, and for science students who find it necessary to understand the social context of their discipline. The programme coordinates social studies of science and technology with studies of their practical applications.

Requirements:
Selection of 24 credits or their equivalent from the following groups: (in close consultation with the co-ordinator)

A. At least 6 credits from:
- Int St 463B3 Selected Topics in Social Responsibility in Science
- Phil 331Z6 Philosophy of Social Science

B. At least 6 credits from:
- Int St 330Z6 Environmental Studies I
- Bio 331A3 Environmental Biology
- Bio 333B3 Environmental Biology
- Bio 434Z6 Ecology
- Chem 411B3 Environmental Chemistry
- Chem 541A3 Nature and Analysis of Pollutants
- Comp Sc 301B3 Computers in Society

Representatives:
- Interdisciplinary Studies
- Sociology
- Interdisciplinary Studies
- Physics
- History
- Philosophy
- Chemistry
- History

After completion of all requirements the graduating student will receive on his transcript “Minor in Social Responsibility in Science (Interdisciplinary Studies)”,

51.17.7 MINOR IN THIRD WORLD STUDIES

Coordinator: To be announced

The Third World Studies Programme aims at encouraging and integrating interest in Asia, Africa and Latin America. Courses relating to these areas are offered in History, Political Science, Sociology, Geography, Economics and Interdisciplinary Studies at the Loyola Campus of Concordia.

Requirements:
Students enrolled in the programme will be required to take an introductory course, Interdisciplinary Studies 350Z6, together with 18 credits selected from at least two of the disciplines listed below.

Interdisciplinary Studies § 51.17.9
- 350Z6 An Introduction to the Third World

450Z6 Third World Studies Seminar
451A3 Selected Topics in Third World Studies
453B3 Selected Topics in Third World Studies

51.17.8 MINOR IN WOMEN’S STUDIES

Coordinator:
A. FURLONG

This programme consists of courses dealing with the status, participation and problems of women in Western culture. The courses include such concerns as women in the arts, literature, history, the family and society. The aims of the programme are to introduce the student to the study of women and to offer some background for those who will work in institutions and occupations concerned with women.

Requirements:
The Minor consists of a selection of 18 credits offered in the programme in consultation with the coordinator. In addition, the Third-Year Interdisciplinary Seminar is required of all students. All courses are also open to students who are not taking the complete Minor.

For a complete course description see the appropriate section.

Interdisciplinary Studies § 51.17.9

321A/B3 Women in Christianity
407B3 Selected Topics in Women’s Studies
409B3 Selected Topics in Women’s Studies

410Z6 Women in Modern Society
540Z6 Seminar in Women’s Studies (required)

Classics § 51.7.2
386Z6 Women in Classical Antiquity

History § 51.16.2
416Z6 The History of Women (since 1800)

English § 51.12.2
337A3 Women and Literature
337B1 Women and Literature

Sociology § 51.25.3
506Z6 Sociology of Women

Representatives
Interdisciplinary St A. Furlong
Chemistry M. Baldwin
English E. Cameron
Sociology S. Drysdale
Classics L. Sanders
Theology M. Durley
History J. Stoddart
Communication Arts G. Valaskakis
English K. Waters

After completion of all requirements the students will, on graduation, receive on their transcripts “Minor in Women’s Studies (Interdisciplinary Studies)”.

51.17.9 COURSES IN INTERDISCIPLINARY STUDIES

All students are invited to take courses in Interdisciplinary Studies. There are no prerequisites unless otherwise stated.

INTERDISCIPLINARY STUDIES 101A
Basic Research Methods

A non-credit course offered by the Centre for Interdisciplinary Studies with the collaboration of the staff of the Vanier Library. The course is designed to introduce the student to the fundamentals of formulating a problem, finding the resources necessary to its research, and expressing his work in a logical and presentable form. Lectures: 2 hours per week for the first semester (no credits)

INTERDISCIPLINARY STUDIES 300Z
Mental Techniques

This course is concerned with the direct training of individual students in various mental techniques. The aim of the course is to foster the development of the student’s level and quality of mental functioning. The mental functions dealt with range from the individual techniques, e.g., logic, through small group functions, e.g., predictive analysis, to large group
functions, e.g., organization systems analysis. The means employed include lectures, texts, small group problems, problem-solving and seminars. A number of games (which are played in class) are presented. Lectures: 5 hours per week for two terms. Labs: 3 hours per week for two terms. (10 credits)

INTERDISCIPLINARY STUDIES 304Z
Aesthetics: An Interdisciplinary Approach
This course attempts to bring together a number of areas concerned with aesthetic culture of man’s encounter with the creative arts. The course examines the relation of aesthetics generally, to art in particular, to the crisis in values, and to contemporary identity crisis. More specifically, aesthetic discussions such as the meaning, content and functions of style, taste, and criticism; the questions of form and content, subjectivity and objectivity in art; and the comparison of artistic media of different languages and cultures are integrated with the broader issues remarked above. The course’s format will be lecture and discussion with the use of slides, recordings and films as illustrative material. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 306Z
Sport in Art
Students will study works of art depicting sport in various periods and places. Works in several media will be shown and the culture of their origin will be selected, as well as documents treating the culture from anthropological, historical and sociological perspectives. The course will be conducted jointly by members of several departments as well as by invited speakers. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 312Z
Introduction to the Methods of the Humanities and Social Sciences
This course will introduce students to representative methods used in the humanities and social sciences. Methodologies suitable to each discipline will be shown through examples and projects. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 317Z
Comparative Literature
(Also given as French 317Z)
This course will examine French literature in its historical, social and cultural context. More specifically, the course will examine: the intellectual movement of the scientific revolution; the works and ideas of the philosophes; the emergence of the novel as a literary form; the rise of the eighteenth century as a period of great literary activity; the Romantic movement. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 320Z
Comparative Literature (6 credits)

INTERDISCIPLINARY STUDIES 321A/B
(Also listed as Theology 321A/B)
Women in Christianity
A study of the theological and historical roles of women in Christianity. The course will examine female prototypes and images of women in the Old and New Testaments, Fathers of the Church, canon law, mediavel theology, the Reformation and modern theology. It will also treat the roles of prominent women in the history of Christianity. Lectures: 3 hours per week either term. (3 credits)

INTERDISCIPLINARY STUDIES 324Z
(Also given as French 324Z)
Littérature comparée—Comparative literature, Littératures canadiennes—Canadian Literature
L’étude comparée des littératures canadiennes d’expression française et d’expression anglaise. Existe-t-il une seule littérature canadienne dans les deux langues, ou, en réalité, y a-t-il deux littératures séparées au Canada? Comparative study of French and English Canadian Literature. Is there only one literature in two languages or has Canada produced two distinct and separate literatures? Texts—Texts: Grove, Settlers of the Marsh; Ringuet, Tente arpentés; MacLennan, The Watch that Ends the Night; Langevin, Poussière sur la ville; Laurence, Rachel, Rachel; Davies, Fifth business; Carrier, La guerre, Yes Sir!; Hebert, Kamouraska. (6 credits)

INTERDISCIPLINARY STUDIES 326Z
Alienation—English and French Canadian Literature
The theme of “alienation” as it appears in French and English Canadian Literature will be explored through the poetry and fiction of both languages. The course will consist of lectures in English, lectures in French and joint seminars in which both professors and students will discuss the relationship between the two cultures. A minimal knowledge of both languages is required (many texts are translated). Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 330Z
Environmental Studies
The course is designed to provide a general background to the scientific and sociological study of man’s relationship to his environment. Each lecture will attempt an in-depth treatment of a specific aspect issue, and will be presented by an invited specialist in that field. The course will present an overall view of the general problems followed by a serious analysis of specific areas of concern, such as the pollution of water, air and soil; noise pollution; the oceans; energy resources and population. Possible solutions for the restoration of ecosystems will be discussed and the associated social, political, and economic considerations will be presented. The general content of the lectures, where applicable, will be directed to problems in our city and province. The presentation of material will include lectures, discussion groups, films and panel discussions. Readings on the various topics will be assigned and students will be involved in projects and term papers. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 333A/B
(Also listed as Economics 333A/B)
Economics of the Environment
Prerequisite: Econ 300 or equivalent. This course will be devoted to an examination of the economic aspects of current environmental problems. Topics will include: economy, ecology, and the environment; economic growth and the environment; the circular flow of economic activity and space ship earth; private costs and social costs; market failure, externalities, and collective goods; fiscal instruments and pollution; an evaluation of federal and provincial policies. Lectures: 3 hours per week either term. (3 credits)

INTERDISCIPLINARY STUDIES 336Z
The Technological Society
The purpose of this course is to familiarize the student with the characteristics of contemporary society which specifically relate to the large-scale application of technology and to appreciate the historical uniqueness of these characteristics. The course will concentrate on four main areas:
3. Comparative Studies Technology under American capitalism and Soviet Communism, developed countries and “Third World” nations, national commitments to technological growth, multi-national corporations.
4. Problems of Technology Technological backlash (e.g. pollution from industry), Doomsday
The first two parts will comprise a history of the science and intellectual climate of the time, a study of the basic scientific principles, and a look at specific related topics. The third part will examine the domination over research and teaching in science by political systems. In particular, the current dissent of Soviet scientists, eg. Z. Medvedev and A. Sakhurov will be investigated. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 370Z
“Three Quarks for Muster Mark”
A Dialogue Between Science and the Arts
A course for science and arts students which will attempt to elucidate the interaction between scientific and cultural developments throughout history and in the present day. Using works by various philosophers, scientists and creative writers, we will trace the continuing dialogue between science and the arts and its relevance for man’s attitude toward himself and his world. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 372Z
Astronomy, Cosmology and the Space Age
Although it deals descriptively with a specific science, namely astronomy, it is interdisciplinary in nature as it also uses the history and methodology of astronomy to examine such areas as the history of ideas, interaction between science and established beliefs, and methodology of science. Previous courses in science are not necessary. Topics will include: Motions of the sky; The Solar System; structure and evolution of the stars; galactic astronomy; radio astronomy; pulsars, quasars and “black holes”; cosmology; the historical development of ideas of the universe; history of the calendar; the search for extraterrestrial life. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 382Z
Search for Identity: Personal and National

The aim of this course is an examination of the philosophical foundations of the present crisis of identity. Recent discoveries in psychology and psychiatry will be used as a basis for the development of a philosophical theory of identity and a program for shaping identity. Special attention will be given to the issue of group identity and national identity, with particular reference to the context of Canada and Quebec. 

Topics discussed include: the nature of the present crisis of identity; identity and personality; being and becoming of personality; identity and mental health; loss of retrieval of autonomy and authenticity; national identity and the challenge of nationalism; man in relation to his creative potential; his nation and the world community; Canadian identity; the role of Quebec in Canada and in positive transformation of civilization. Texts include readings from Allport, Bergson, Bergeron, Dabrowiak, Erikson, Frankl, Fromm, Laing, Levesque, Marx, Maslow, Reves, Trudeaud. Lectures: 3 hours a week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 390Z
Introduction to Future Studies
Prerequisite: Second or third year standing.
The course is designed to develop a reasoned awareness of alternative futures. The course approaches the future from four perspectives: the futures as possible, as probable, as preferable, and as practicable. A considerable emphasis is placed on the study of the person as a responsible innovator and inventor of the future(s). (6 credits)

INTERDISCIPLINARY STUDIES 407A/B
Selected Topics in Women’s Studies
This course focuses its attention on one or more aspects of the Women’s Studies program. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)

NOTE: Students who receive credit for 407A/B may take it again as 409A/B, provided that a different topic is dealt with the second time.

INTERDISCIPLINARY STUDIES 410Z
Social Change: Women in Modern Society
An interdisciplinary course designed to survey some of the major theoretical aspects of women’s role in society. The specific discipline emphasized will vary from year to year depending upon the background of the instructor. Lectures and/or seminars: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 411A/B
Selected Topics in Canadian Studies
This course focuses its attention on one or more aspects of the Canadian Studies program. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)

NOTE: Students who receive credit for 411A/B may take it again as 413A/B, provided that a different topic is dealt with the second time.

INTERDISCIPLINARY STUDIES 412A/B
Selected Topics in Medieval Studies
This course focuses its attention on one or more aspects of the Medieval Studies program. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)
NOTE: Students who receive credit for 421A/B may take it again as 423A/B, provided that a different topic is dealt with the second time.

INTERDISCIPLINARY STUDIES 431A/B
Selected Topics in Environmental Studies
This course focuses its attention on one or more aspects of the Environmental Studies programme. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)
NOTE: Students who receive credit for 431A/B may take it again as 433A/B, provided that a different topic is dealt with the second time.

INTERDISCIPLINARY STUDIES 450Z
Third World Studies Seminar
Open only to students in their second or third year or to post-graduate students. This seminar will deal with one or other of the special aspects of the Third World on a comparative basis. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 451A/B
Selected Topics in Third World Studies
This course focuses attention on some aspects of development and tradition in the Third World. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the content of the course in any one session. Lectures: 3 hours per week. (3 credits)
NOTE: Students who receive credit for 451A/B may take it again as 453A/B, provided that a different topic is dealt with the second time.

INTERDISCIPLINARY STUDIES 460Z
Science and Cultural Crisis
This course will attempt to develop a framework for responding to problems posed by recent and projected achievements in the sciences, especially in the life sciences. Our thesis is that scientific break-throughs have precipitated a crisis, or series of crises, with respect to man's self-understanding, his relations with his fellow man, and his relations with nature. Our aim will be to understand the historical and intellectual roots of these crises and to formulate responses which grow out of scientific-philosophic dialogue. Topics will include: Objectivity: scientific, philosophic; Alienation and the "two cultures"; DNA and being human; Death with dignity: Biogenetic engineering; the "right" to privacy; the difficulty of dialogue. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES 461A/B
Selected Topics in Social Responsibility in Science
This course focuses its attention on one or more aspects of the Social Responsibility in Science programme. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)
NOTE: Students who receive credit for 461A/B may take it again as 463A/B, provided that a different topic is dealt with the second time.

INTERDISCIPLINARY STUDIES 491A/493B
Advanced Topics in Interdisciplinary Studies
The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week either term. (3 credits each)

NOTE: Degree students must take Library 301 and 302 as prerequisites to all other Library courses. The thirty-six (36) credits pertaining to Library Science in the Certificate Programme must be completed in their entirety.

51.18.2 CERTIFICATE PROGRAMME IN LIBRARY SCIENCE

The Certificate Programme in Library Science is offered to meet the needs of students who may not wish to fulfill the requirements of a Bachelor of Arts degree. Full credit will be granted, if applicable, for courses taken at the Certificate level to those who wish to proceed towards a Bachelor of Arts degree, Major in Library Science. Credit for academic courses acquired at Concordia University or other recognized institutions will be considered for advance standing. Sixty-six (66) credits are required to complete the Certificate Programme, thirty-six (36) of which pertain directly to Library Science with thirty (30) credits of academic electives. The Library Science courses are accredited at University level and may be taken as electives by students in any discipline. Library Science students must complete all prerequisites as stated. All courses are open to students on an individual basis except Library 567 - Practice Work. This course will be open to Certificate and Degree students only. All Library Science courses represent three (3) credit hours.

A minimum average of 65% is the basic academic requirement and students will be expected to retain this average in the prerequisites and throughout the Programme.

NOTE - All new applicants must be interviewed. Appointments for consultation may be made at the Coordinator's office, Vanier Library, Room V-125. All students must obtain course approval prior to their date of registration.

Library Science Mandatories
Library 301 - Principles of Library Service
Library 302 - The Organization of Library Services
Library 320 - Cataloguing and Classification Part I
Library 325 - Cataloging and Classification Part II
Library 403 - Information Services
Library 405 - Bibliographic Searching
Library 431 - Data Processing and Automation
Library 433 - Technical Skills - Multimedia Operations
Library 445 - Technical Skills - Collection Control
Library 567 - Practice Work

Library Science Electives
Library 507 - Research Methodology
Library 511 - Library Service and Work with Children
The Organization of Library Services

Prerequisites: Library 301, 302, 403. This course will be largely practical in nature, giving the student an opportunity to operate audio-visual machinery. He will handle the main types of filmstrips, flipcharts, tape recorders, video and other media software found in today's modern library. Practical assignments will allow the student to create a variety of software such as slide tape presentations, transparencies, graphics and filmstrips. (3 credits)

Technical Skills—Collection Control

Prerequisites: Library 301 and 302. The course is designed to provide the student with a thorough understanding of library procedures. Acquisition processes of print and non-print materials will be examined, loan systems analyzed, and the maintenance and service of serial and government publications studied. This includes the techniques of filing, binding, microfilming and the organization and upkeep of the stacks. (3 credits)
Selected Topics in Library Science
(3 credits each)

Research Methodology
Prerequisites: 403 and 405. The aim of this course is to acquaint the student with the methods of research in any subject field. It is assumed that the student already has a good knowledge of reference sources, including a knowledge of general bibliographies. He will learn how to orient himself in relation to his research objectives, how to explore the relevant specific data, how to search for specific documents and how to classify these documents. Finally he will learn how to analyze, evaluate and present the result of his accumulated data in the proper form. He will be required to choose a research topic and write a paper on the method of collecting, organizing, evaluating and presenting data in relation to a chosen subject. Text: Batten, Thelma F. Reasoning and Research, A Guide for Social Science Methods. (Boston, Little, Brown, 1971). (3 credits)

Library Service and Work with Children
The major kinds of literature for children will be discussed to illustrate the desirable components to be encouraged for the development of reader interest and ability in the young child. The techniques used in the library such as story telling, book talks and graphics will be studied and practised and children's libraries visited and demonstrated. (3 credits)

Library Service and Work in Schools
Prerequisites: Library 301 and 302. The duties and responsibilities of the library assistant in the school, and those of the teacher-librarian, will be discussed including programs for co-operating with teachers, assembling materials for instructional units, curriculum demands upon the library, and the effects of curriculum new trends in education upon the school library/resource centre. (3 credits)

Library Service and Work in the College and University
Prerequisites: Library 301 and 302. The organization, administration and functions of academic libraries will be studied with special references to curriculum oriented library services, together with services relating to large academic research libraries and library colleges. (3 credits)

The Organization of Audio-Visual Collections
Prerequisites: Library 320, 325, 433. This course will study audio-visual materials and the tools and aids for their acquisition, cataloguing and maintenance. Descriptive cataloguing and classification of the various audio-visual documents, such as tapes, cassettes, filmstrips, film loops, films, kits and the processing of these materials as well as their storage and circulation will be discussed. (3 credits)

Library Service and Work in Business and Industry
Prerequisites: Library 301 and 302. The role of the library related to its particular business or industry will be examined and the specific skills and devices employed to provide direct information to the users explored. Guest speakers will be invited to illustrate how the library becomes the central source of information within its organization. (3 credits)

Library Service and Work in the Public Library
With emphasis on the place of the supportive staff in the development of public libraries in Quebec, their objectives and services will be discussed. Topics such as library legislation, financing, public lending rights and services to the community will be explored. (3 credits)

Library Service and Work with the Young Adult
The course will explore the major phenomena of the teenager's world, his lifestyle, problems and his responsibilities. Some of the skills needed to serve young adults in a library setting will be examined. Literature written especially for young adults, and some adult literature which is especially popular with, and suitable for, young people, will be studied. A pre-course reading list is available. (3 credits)

Records Management
The principles of records administration, of creation, use, maintenance and destruction will be discussed, including storage facilities, records classification, forms, reports control, protection of vital records, and micro-image systems. No previous experience in libraries or business is required. (3 credits)

Archives Management
The principles of archives administration, of creation, use, maintenance and destruction will be discussed, including storage facilities, classification, forms, reports control, protection of vital archives, and micro-image systems. No previous experience in libraries or business is required. (3 credits)

Practice Work
Upon the completion of all other library courses, the student will be placed by the Coordinator to gain practical experience in a library system complementary to his interests. Under the supervision of a professional librarian, he will work throughout the system and submit a study of some aspect of the type of library represented. (3 credits)

Advanced Topics in Library Science
(3 credits each)

### 42 BSc or BA Major in Mathematics

The following courses, in an approved sequence, constitute a Major in Mathematics.

| 3 Math 321A/B³ or Math Elec |  |
| 36 323A/B³, 326Z⁶, 334Z⁶, 402Z⁶, 353A/B³, 402Z⁶, 436Z⁶ |  |
| 3 Math Elec |  |

### 24 Minor in Mathematics

Four courses approved by the Mathematics Department constitute a Minor in Mathematics.
A “Mathematics elective” may be replaced by a course approved by the department.

Students who intend to follow a Mathematics Programme in University are recommended to take Mathematics 133, 135, 231, 233 (Loyola) or Mathematics 103, 203, 105 (CEGEP) at the collegial level.

A student wishing to follow a Mathematics Programme but not meeting these requirements should consult with the Department Chairman.

Students who have taken Mathematics 321 (Introductory Linear Algebra) or its equivalent at the collegial level, will have a Mathematics elective (half course) in its place. Students without a collegial half course in Linear Algebra take Mathematics 321 in University I.

By a careful choice of electives students can select whether the emphasis of the programme will be in the area of pure mathematics, applied mathematics or statistics.

The Mathematics Department offers the following courses: Mathematics 109A/B, 111A/B, 133A/B, 135A/B, 231A/B, 233A/B, as University credits for non-Science students (excluding Arts students who are following a Mathematics Programme) subject to the approval of each student's Departmental Chairman.

It is possible for a student to take the courses listed in the Honours and Specialization programmes in a sequence different from the one suggested, after obtaining the approval of the Department Chairman.

### 51.19.3 COURSE DESCRIPTIONS

#### MATHEMATICS 109A/B

**Intermediate Algebra**

Numbers, sets, functions, the real number system, equations, inequalities, system of linear relations, matrices and determinants, mathematical induction, the binomial theorem and sequences, counting and probability. (3 credits)

*NOTE: Mathematics 109 & 111 were formerly called Mathematics 101Z.*

#### MATHEMATICS 111A/B

**Trigonometry and Analytic Geometry**

Exponential and logarithmic functions, circular and trigonometric functions; numerical trigonometry; trigonometric analysis. Straight line, circles, parabolas, ellipses and hyperbolas. (3 credits)

*NOTE: Mathematics 109 & 111 were formerly called Mathematics 101Z.*

#### MATHEMATICS 133A/B

**Calculus I**

Prerequisite: Functions 521 or 531; or Math 109A/B & 111A/B (101Z). Equation of straight line; function notation; limits; slope of a curve; derivative; differentiation formulas—chain rule; implicit differentiation. Applications, curve sketching, related rates, theory of extrema; anti-derivative, area under a curve. (3 credits)

*NOTE: Mathematics 109 & 111 were formerly called Mathematics 101Z.*

**Calculus II**

Prerequisite: Mathematics 133A/B. Applications of integration; derivative and integral of trigonometric, exponential and logarithmic functions; methods of integration. (3 credits)

#### MATHEMATICS 135A/B

**Calculus & Vector Geometry**

**Calculus**

Prerequisite: Mathematics 231A/B. L'Hôpital's rule and improper integrals. Infinite series, geometric series, tests for convergence, alternating series, power series, Taylor's Theorem with remainder, functions of several variables, partial derivatives, selected topics. (3 credits)

#### MATHEMATICS 300Z

**Ideas in Mathematics**

A course for non-science students. The course endeavours to reveal the extent and power of mathematics and to give some insight into its historical development. The topics chosen will be presented in a way that requires a minimal mathematics background. This course has no formal prerequisites and does not serve as a prerequisite for any other course in mathematics. Students should consult with the professor before registering for this course. (6 credits). This course is also given as two half courses Math 302A, and Math 304B.

#### MATHEMATICS 301A/B

**Elementary Statistics**

Empirical frequency distributions and descriptive measures; elementary probability; populations, samples, and theoretical distributions; sampling distributions; estimation of confidence intervals; tests of hypotheses; two sample techniques; tests for goodness of fit; regression and correlation; analysis of variance. (3 credits)

*NOTE: Not for Mathematics students or students taking an equivalent course in another department.*

#### MATHEMATICS 303A/B

**Probability for Engineers**

Probability theory; special distributions; binomial, Poisson, Normal, Gamma and Beta distributions. Sampling distributions. (3 credits)

#### MATHEMATICS 305A/B

**Introduction to Discrete Probability Theory**

#### MATHEMATICS 307

**Mathematics for Elementary School Teachers**

A comprehensive course in Mathematics designed for teachers of elementary grades who...
are responsible for developing ideas of Mathematics with children and for parents interested in the basic concepts and philosophy of the New Mathematics. The course will be a laboratory approach to mathematics content relevant to the elementary grades. Included will be elementary topics from sets, numeration, number operations and properties, geometry and number systems. The development of content will be combined with pedagogical implications through relevant applications to the classroom. This will be accomplished through discussion of learning theories, teaching strategies, consideration of and development of various materials of instruction, and evaluative procedures. In general the course will be experimental with participants “doing” as well as “discussing”. A wide variety of instructional materials will be utilized and course activity will be oriented toward an awareness of those materials available and their potential for the classroom. (9 credits)

NOTE: The course may be used as 9 credits at the University level except for Mathematics students.

MATHEMATICS 309
Mathematics for Secondary School Teachers
A comprehensive course in Mathematics designed for teachers of secondary school students. The course will be a laboratory approach to the teaching of mathematics with special emphasis upon the following topics: individualized instruction, teaching the slow learner, the use of various instructional materials, project oriented instruction and evaluation. The development of various materials for instruction will be accomplished by the participant of the class and sources of supplementary materials will be made available. A wide variety of instructional materials will be utilized and course activity will be oriented toward an awareness of the materials which are potentially available for use in the classroom. (9 credits)

NOTE: The course may be used as 9 credits at the University level except for Mathematics students.

MATHEMATICS 310Z
Mathematics for the Social and Management Sciences
Prerequisite: Mathematics 231A/B, 233A/B (Math 101Z) or Functions. For non-science students. Functions and graphs, systems of linear equations, matrices, linear programming, probability, the derivative, applications of the derivative, exponential and logarithmic functions, integration. (6 credits)

MATHEMATICS 311A/B
Elementary Statistics II
Prerequisite: Mathematics 301, Mathematical expectation, curve fitting, statistical inference, inference from small samples, linear regression and correlation, analysis of enumerative data, design of experiments, the analysis of variance, nonparametric statistics. (3 credits)

MATHEMATICS 312Z
Differential Equations (Engineering)

MATHEMATICS 315A/B
Engineering Mathematics
Prerequisite: Mathematics 231A/B, 233A/B or Math 103, 203 (CEGEP). Fourier series, Laplace Transform, Gamma, Beta, Legendre and Bessel functions, Jacobians. Transformations in multiple integrals. Introduction to partial differential equations. (3 credits)

MATHEMATICS 317A/B
Mathematics for Engineers & Physicians

MATHEMATICS 321A/B
Introduction to Linear Algebra
Systems of equations. Vector spaces. Linear transformations, matrices. Determinants. (3 credits)

MATHEMATICS 323A/B
Linear Algebra
Prerequisite: Mathematics 312A/B or its equivalent. Vector spaces, bases, dimension. Linear mappings. Matrices and linear operators, eigenvalues and eigenvectors. Canonical forms. Inner product spaces. (3 credits)

MATHEMATICS 326Z
Statistics

MATHEMATICS 329A/B
Mathematics of Investment
Prerequisite: Mathematics 109A/B & 111 A/B (101Z) or Functions. Theory of interest; annuities certain; amortization and sinking funds; evaluation of bonds and other investments; depreciation, depletion and capital cost. Brief introduction to life insurance. (3 credits)

MATHEMATICS 332Z
Advanced Calculus
Prerequisite: Mathematics 231 & 233 or Mathematics 103, 203 (CEGEP). For Chemistry students only. Differential equations; limits and continuity; multiple integrals; Green's, Stokes', Gauss' Theorems; series, improper integrals and Laplace transform. (6 credits)

MATHEMATICS 334Z
Advanced Calculus
Prerequisite: Mathematics 231 & 233 or Mathematics 103, 203 (CEGEP). Functions of several variables, limits, continuity, partial derivatives, maxima and minima, extremal problems with constraints, differentiability, Taylor's series, double and triple integrals, curves and surfaces, line and surface integrals, Green's theorem and Stokes' theorem. (6 credits)

MATHEMATICS 340Z
Numerical Methods
MATHEMATICS 353A/B
Ordinary Differential Equations I

MATHEMATICS 380Z
Selected Topics in Mathematics
Lectures: 3 hours per week. (6 credits)

MATHEMATICS 401A/B
Mathematics for the Biological Sciences I
Prerequisite: Enrollment in a Biology programme. Discrete probability, Binomial, Multinomial, and Poisson distributions, vectors, matrices, determinants, eigenvalues, linear programming, simplex method. Text: Mathematics for Biological Sciences. Grossman and Turner. (3 credits)

MATHEMATICS 402Z
Mathematical Statistics
Prerequisite: Mathematics 231 or 233 or Mathematics 103, 203 (CEGEP). Frequency distribution. Averages and measures of dispersion, coding method to compute averages and measures of dispersion. Introduction to probability theory, Random variables and mathematical expectations. Moments, factorial moments and moment generating functions. Discrete and continuous distributions (Bernoulli, binomial, Poisson, geometric, negative binomial, hypergeometric, gamma, beta and normal distributions). Distribution of sample statistics, estimation and small sampling theory (t-test, X²-test, F-test). Testing of hypotheses. (6 credits)

MATHEMATICS 403A/B
Mathematics for the Biological Sciences II

MATHEMATICS 405A/B
Stochastic Processes
Prerequisite: Mathematics 305A/B. Continuous time stochastic processes, Poisson processes. Continuous time Markov processes. Queuing models. Birth and death processes, renewal theory and reliability of systems. Selected topics. (3 credits)

MATHEMATICS 415A/B
Boolean Algebra
The algebra of sets, Boolean algebra, symbolic logic and propositional algebra, switching algebra and other topics to suit the class. (3 credits)

MATHEMATICS 426Z
Algebra II
Prerequisite: Mathematics 326Z, Advanced topics in group theory including Sylow theorems. Fundamental theorem of finitely generated abelian groups, composition series. Galois’ theorem for permutation groups. Introduction to field theory; normal and separable extension, Galois theory and unsolvability of the Quintic. (6 credits)

MATHEMATICS 436Z
Real Analysis
Prerequisite: Mathematics 334Z. The real number system, Dedekind cuts, metric spaces, sequences, series convergence tests, limits of functions, continuity, the Bolzano-Weierstrass theorem, derivatives, Taylor’s theorem, functions of bounded variation, Riemann-Stieltjes integral, sequences and series of functions, uniform convergence. (6 credits)

MATHEMATICS 445A/B
History of Mathematics
Prerequisite: None. Early mathematics, Greek mathematics, European mathematics, the Middle Ages, the origin and development of analytic geometry and calculus, mathematics as free creation, the generality of mathematics in the 20th Century. (3 credits)

MATHEMATICS 451A/B
Complex Analysis
Prerequisite: Mathematics 334Z. Roots of a complex number. Functions, limits and continuity. Branch points; analytic functions; Cauchy-Riemann equations; singular points; complex integration; Green’s formula, Liouville theorem. Taylor’s and Laurent’s theorem. Theory of Residues. Evaluation of integrals. Selected topics. (3 credits)

MATHEMATICS 471A/B
Projective Geometry
Prerequisite: Mathematics 326Z & Mathematics 321 or its equivalent. Basic definitions and results; collineation; affine planes; perspectives; Desargues and Pappus postulates and Hessenberg’s theorem. Incidence matrices of finite projective planes and orthogonal Latin squares. Coordinates in projective planes: examples of non-Desarguesian projective planes. (3 credits)

MATHEMATICS 473A/B
Ordinary Differential Equations II
Prerequisite: Mathematics 353A/B. Linear differential equations with analytic coefficients. Frobenius method for linear differential equations at a regular singular point; Laplace transform and existence and uniqueness theorems. (3 credits)

MATHEMATICS 502Z
Experimental Statistics
Prerequisite: Mathematics 402Z. Curve fitting. Regression and correlation (multiple and partial). Basic concepts of sampling; simple, stratified, systematic and cluster sampling; optimum allocations. Ratio estimates. Derivatives. Sum of random variables. Multivariate normal distributions, linear models. De-
sign models. Analysis of variance techniques.

Design of experiments. One-way, two-way and multi-way classification (with or without interaction). (6 credits)

**MATHEMATICS 505A/B**

**Industrial Statistics**

Prerequisite: Mathematics 402Z. Concepts of statistical controls, X, R, P and C charts, acceptance sampling, sequential probability ratio tests, sampling inspection, continuous sampling plans, reliability and life tests. (3 credits)

**MATHEMATICS 526Z**

**Algebra III**

Prerequisite: Mathematics 426Z. Rings and modules, structure of groups, lattices, categories and functors and multi-linear algebra. (6 credits)

**MATHEMATICS 535A/B**

**Measure Theory and Integration**

Prerequisite: Mathematics 436Z. The Lebesgue integral and the classical problems it lays to rest. An exploration of more general theories of measure and integration in view of their mathematical clarifications or their applications. Topics covered include measure, outer measure, measurable sets, non-measurable sets, Lebesgue integration, convergence, differentiation. (3 credits)

**MATHEMATICS 540Z**

**Numerical Analysis**

Prerequisite: Mathematics 340Z or special permission of the professor. Polynomial approximation. Interpolation; numerical differentiation; quadrature and summation; numerical solution of ordinary differential equations. Functional approximations. Least square techniques. Solutions of non-linear equations. Solutions of simultaneous linear equations, calculation of Eigenvalues and Eigenvectors of matrices. (6 credits)

**MATHEMATICS 551A/B**

**Complex Analysis II**

**MATHEMATICS 567A/B**

**Topology**

Prerequisite: Mathematics 436Z. Topological spaces, neighbourhoods, subspaces, continuous functions, compactness, connectedness, separation axioms, approximation. (3 credits)

**MATHEMATICS 571A/B**

**Algebraic Topology**

Prerequisite: Mathematics 326Z & 567A/B. Homotopy theory. Fundamental groups, classification and polygon representation of the topological surfaces. Orientability, Handles and cross caps, Triangulation, simplices, chains and normal forms. Homology theory. (3 credits)

**MATHEMATICS 575A/B**

**Senior Thesis**

Prerequisite: Approval of the Department Chairman. Under special circumstances, approval will be given to undertake a research problem requiring independent work. The results will be directed and evaluated by a member of the department. (3 credits)

**MATHEMATICS 577A/B**

**Functional Analysis**

**MATHEMATICS 579A/B**

**Calculus of Variations**

Prerequisite: Mathematics 334Z, Euler-Lagrange equation, Legendre and Jacobi conditions, the E-function; Hilbert's invariant integral. Hamilton-Jacobi theory. Introduction to optimal control problems. Introduction to direct methods and partial differential equations (3 credits)

**MATHEMATICS 580Z**

**Advanced Topics in Mathematics**

**Lectures:** 3 hours per week. (6 credits)

**MATHEMATICS 581A/B**

**Number Theory**

Arithmetical functions $d(n), \sigma(n), \vartheta(n)$ and their formulas. Mersenne numbers, perfect numbers, Congruences; Fermat theorem; Wilson's theorem. Divisibility properties of products of consecutive integers. Linear and quadratic congruences. Law of quadratic reciprocity, Mobius functions. Mobius inversion formula. Gauss theorem on $p(n)$. Gauss theorem on primitive roots. (3 credits)

**MATHEMATICS 592Z**

(Also given as Physics 311B and 411A § 51.20.3)

**Mechanics**

Prerequisite: Six Physics credits and Twelve credits in Calculus. Review of vector calculus. Kinematics of particle motion. Moving coordinate systems. One dimensional motion. Introduction to Lagrange's and Hamilton's equations of motion. Conservative motion with emphasis on central forces. Systems of particles rigid bodies. Emphasis will be on illustrating the method of attacking physical problems and the mathematical tools used in solving them. (6 credits)

**MATHEMATICS 594Z**

**Methods of Mathematical Physics II**

51.20 Department of Modern Languages and Linguistics

Associate Professor and Chairman
H. FAMIRA
Professor
C. FONDA
Associate Professor
F. ANTOLIN

51.20.1 PROGRAMMES

<table>
<thead>
<tr>
<th>60</th>
<th>BA Honours in one of the Modern Languages and Linguistics</th>
</tr>
</thead>
<tbody>
<tr>
<td>54</td>
<td>Ger or Ital or Ling or Span</td>
</tr>
<tr>
<td>6</td>
<td>Ling</td>
</tr>
</tbody>
</table>

Every Honours student must take 6 credits in Linguistics within his Programme, except, of course, students in the Linguistics Honours Programme.

51.20.2 DEPARTMENT OF MODERN LANGUAGES AND LINGUISTICS

For any combinations of programmes, students may consult the Chairman of the Department. All courses numbered 400 and higher are of a similar academic level.

Students who want to take a Minor in Russian must consult the Chairman of the Department. The Department of Modern Languages and Linguistics will offer German 302Z, Italian 300S and Spanish 300S in the second semester for six credits.

51.20.3 COURSES IN MODERN LANGUAGES

GERMAN

Qualified students may, with the permission of the Department, enter any six-credit German course, i.e. any "Z" course, at the beginning of the second semester. Upon successful completion, three credits will be awarded.

GERMAN 300Z
Introduction to German Studies
A comprehensive and thorough introductory course for the student with little or no formal knowledge of German. May be taken concurrently with German 302Z. Students who have already taken German 302Z may not take German 300Z. Lectures: 3 hours per week for two terms, Lab: 1 hour per week for two terms. (6 credits)

GERMAN 302Z
Elementary German
An introductory language course which develops all basic skills. For students with no knowledge of German. Emphasis on the audio-lingual approach. May be taken concurrently with German 300Z. Students who have already taken German 300Z may not take German 302Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)
GERMAN 302Z
Elementary German
Offered during second semester, this course is identical in content with German 303Z. Lectures: 6 hours, including 1 hour in the language lab per week for one term. (6 credits)

GERMAN 306Z
Reading German & Introduction to Translation
Prerequisite: German 300Z or 302Z or equivalent. Grammatical review. Introduction to translation from German to English. May be taken concurrently with German 308Z. Students who have already taken German 308Z may not take German 306Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

GERMAN 308Z
Intermediate German
Prerequisite: German 300Z or 302Z or equivalent. Advanced German grammar. Conversation and writing of compositions in German. Readings from German authors and other texts. May be taken concurrently with German 306Z. Students who have already taken German 306Z may not take German 308Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

GERMAN 370Z
Advanced Composition and Stylistics
Prerequisite: German 306Z or 308Z or equivalent. Introduction to comparative stylistics. Vocabulary expansion by word formation and derivation; selected grammatical problems. Analysis of literary and journalistic texts. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 376Z
German Translation
Prerequisite: German 306Z or permission of the Department. This course is a continuation of German 306Z and presents more complicated problems of translation from German into English. It is also an introduction to the basic skills of translating English into German. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 410Z
German Literature of the 19th Century
A study of representative works of Buchner, Grillparzer, Gotthelf, Hebbel, Stifter, Keller, Fontane, and Hauptmann. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 420Z
Survey of German Literature 800-1750
A chronological consideration of the main currents of German literature from its beginning to 1750. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 530Z
The Rise of 20th Century German Literature
Prerequisite: German 306Z or 308Z or equivalent. A study of Naturalism, Expressionism and other literary trends in Germany between 1880 and 1933. Readings from works of representative authors from Hauptmann to Brecht. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 540Z
Classicism in German Literature
Prerequisite: German 306Z or 308Z or equivalent. The preclassical and classic period of German literature with its philosophical background. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 560Z
Literature of the Romantic Period
Romanticism as a universal attitude. Writings of the major romantic authors, their theories and realisations. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 570Z
Contemporary German Literature
A study of literary trends in Germany since 1933. Literature in Hitler-Germany, German Emigrant literature, the literature in East-Germany, revaluation of German thinking in West-Germany after 1945. (Mann, Hesse, Durrenmatt, Frisch, Grass, Brecht, et al). Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 575Z
Masters of German Literature
In this course two major German writers will be studied in depth. The selection depends on the necessities of the programme. Lectures: 3 hours per week for two terms. (6 credits)

GERMAN 580Z
Tutorial
Prerequisite: Permission of the Department is required for enrollment in this course. A course designed to meet the individual needs of advanced students. Guided readings in German literature under the supervision of the Department. Written and oral criticism of the works studied. (6 credits)

GERMAN 364Z
(Also given as History 364Z)
Germany and Austria in Modern Times
Course description see § 31.16.2. May be taken, with the permission of the Department, by German Majors or German Honours students as part of their requirements. (6 credits)

ITALIAN

Qualified students may, with the permission of the Department, enter any six-credit Italian course, i.e. any "Z" course, at the beginning of the second semester. Upon successful completion, three credits will be awarded.

ITALIAN 300Z
Introduction to Italian Studies
A comprehensive and thorough language course for the student with little or no formal knowledge of Italian. May be taken concurrently with Italian 302Z. Students who have already taken Italian 302Z may not take Italian 300Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

ITALIAN 302Z
Elementary Italian
An introductory language course which develops all basic skills. For students with no knowledge of Italian. Emphasis on the audio-visual and audio-lingual approach. May be taken concurrently with Italian 300Z. Students who have already taken Italian 300Z may not take Italian 302Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

ITALIAN 306Z
Reading Italian and Introduction to Translation
Prerequisite: Italian 300Z or 302Z or equivalent. Grammatical review. Introduction to translation in Italian. Readings and translations of various texts. May be taken concurrently with Italian 300Z. Students who have already taken Italian 300Z may not take Italian 306Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

ITALIAN 308Z
Intermediate Italian
Prerequisite: Italian 300Z or 302Z or equivalent. Advanced Italian grammar. Conversation and writing of compositions in Italian. Readings from Italian authors and other texts. May be taken concurrently with Italian 306Z. Students who have already taken Italian 306Z may not take Italian 308Z. Lectures: 3 hours per week for two terms. (6 credits)
ITALIAN 316Z
Italian Civilization
Prerequisite: Italian 306Z or 308Z or equivalent. Cultural and scientific achievements. Economic, political, social and linguistic problems of contemporary Italy. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 320Z
Survey of Italian Literature
Prerequisite: Italian 306Z or 308Z or equivalent. A history of Italian literature from the Middle Ages to the present. Emphasis on the major writers of Italy. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 370Z
Advanced Composition and Stylistics
Prerequisite: Italian 306Z or 308Z or equivalent. Creative writing. Stylistic theories and analysis of literary styles. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 376Z
Italian Translation
Prerequisite: Italian 306Z or permission of the Department. This course is a continuation of Italian 306Z and presents more complicated problems of translation from Italian into English. It is also an introduction to the basic skills of translating from English into Italian. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 400Z
Literature of the 17th and 18th Centuries
A study of the principal literary trends of the 17th and 18th centuries. Emphasis on Marino, Metastasio, Vico, Parini, Goldoni, Alfieri. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 410Z
Literature of the 19th Century
A study of the principal literary trends of the 19th Century. Emphasis on Foscolo, Leopardi, Manzoni, Carducci, Pascoli, Verga, and D'Annunzio. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 420Z
Literature of the 20th Century
Evolution of Italian literature since 1900. A study of representative works of poetry, drama and the novel. Emphasis on Pirandello, Ungaretti, Montale, Quasimodo, Silone, Pavesi and Moravia. (6 credits)

ITALIAN 440Z
Dante
A study of Dante's life, background and works. Reading and analysis of the *Divina Commedia*. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 470Z
The Italian Theatre
Prerequisite: Permission of the Department. Evolution of the Italian Theatre from the origin to the present. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 500Z
Literature of the Middle Ages
Prerequisite: Italian 306Z or 308Z or equivalent. Origin and development of Italian literature from the Sicilian School, the "Dolce Stil Novo", through Petrarch and Boccaccio. Emphasis on the *Canzoniere* and the *Decameron*. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 510Z
Literature of the 15th Century
The rise of humanism in Italy. A study of representative works of the fifteenth century. Emphasis on Pulci, Boiardo, Lorenzo de Medici, Poliziano Leonardo da Vinci and San­ nazaro. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 520Z
Literature of the 16th Century
Study of the Renaissance in Italy. Emphasis on Machiavelli, Ariosto, Tasso. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 570Z
Italian Literary Criticism
A study of the main trends of Italian literary criticism from the origin to the present. Lectures: 3 hours per week for two terms. (6 credits)

ITALIAN 580Z
Tutorial
Prerequisite: Permission of the Department. A course designed to meet the individual needs of advanced students. Guided readings in Italian literature under the supervision of the Department. Written and oral criticism of the works studied. (6 credits)

RUSSIAN

RUSSIAN 300Z
Elementary Russian
An elementary course in reading, writing and grammar for students with little or no knowledge of Russian. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

RUSSIAN 308Z
Intermediate Russian
Prerequisite: Russian 300Z or equivalent. Review of and practice in Russian grammar, composition, reading and conversation with some material from modern Russian writers. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

SPANISH

SPANISH 300Z
Introduction to Spanish Studies
A comprehensive and thorough language course for the students with little or no formal knowledge of Spanish. May be taken concurrently with Spanish 300Z. Students who have already taken Spanish 300Z may not take Spanish 302Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

SPANISH 302Z
Elementary Spanish
An audio-visual course for students with no knowledge of Spanish. This course is designed for developing conversational skills. May be taken concurrently with Spanish 300Z. Students who have already taken Spanish 300Z may not take Spanish 302Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

SPANISH 306Z
Idiomatic Spanish and Introduction to Translation
Prerequisite: Spanish 300Z or 302Z or equivalent. Grammatical review. Introduction to translation in Spanish. Contemporary readings of literary, commercial and journalistic texts. May be taken concurrently with Spanish 308Z. Students who have already taken Spanish 308Z may not take Spanish 306Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)
SPANISH 308Z Intermediate Spanish
Prerequisite: Spanish 300Z or 302Z or equivalent. Review of Spanish grammar, composition and oral practice with special stress on conversation by means of audio-visual practice. Introduction to literary texts illustrating Spanish and Spanish-American culture as well as life. May be taken concurrently with Spanish 306Z. Students who have already taken Spanish 306Z may not take Spanish 308Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

SPANISH 316Z
Spanish and Spanish-American Civilization
Prerequisite: Spanish 306Z or 308Z or equivalent. The making of Spanish civilization, important aspects of Latin-American culture before and after Columbus' time. Economic, political and social problems of contemporary Spain and Spanish America. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 370Z Advanced Composition and Stylistics
Creative composition and comparative stylistics. Analysis of selected Spanish and Spanish-American short-stories. A course designed to give the student practical experience in the use of the spoken and written language as well as clear criteria on stylistics. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 376Z Spanish Translation
Prerequisite: Spanish 306Z or Spanish 308Z or equivalent. Review of Spanish grammar. Composition and oral practice with special stress on conversation by means of audio-visual practice. Introduction to literary texts illustrating Spanish and Spanish-American culture as well as life. May be taken concurrently with Spanish 306Z. Students who have already taken Spanish 306Z may not take Spanish 308Z. Lectures: 3 hours per week for two terms. Lab: 1 hour per week for two terms. (6 credits)

SPANISH 400Z Survey of Spanish Literature
Analysis of the most outstanding masterpieces from the Renaissance till the 20th Century with special emphasis on the Cavalry, picaresque and realistic novels. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 410Z Spanish Literature of the 18th and 19th Centuries
Prerequisite: Spanish 306Z or Spanish 308Z or equivalent. Study of the principal authors and works of the Enlightenment. The evolution of Romanticism in Spain as reflected in the most important aspects of poetry, drama and novels. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 420Z Spanish Literature of the 20th Century
Introduction: Generation of 1898; The Second Generation: Ortega; The Third Generation: Lorca; the poetic works of J. R. Jimenez; some aspects of the poetry, drama and novels after the Spanish Civil War. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 450Z Spanish-American Literature to the 19th Century
Prerequisite: Spanish 306Z or Spanish 308Z or equivalent. Precolumbian literature: The writers of colonial and independence periods. Spanish-American Romanticism. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 470Z Spanish Theatre
Prerequisite: Permission of the Department is required for enrolment in this course. Evolution of the Spanish theatre. Study of some classic outstanding plays. Stress on oral practice and performance of a play. Lectures: 3 hours per week for two terms and performance of one play. (6 credits)

SPANISH 500Z Literature of the Middle Ages
Prerequisite: Spanish 370Z or Spanish 376Z or equivalent. Study of Spanish literary works from 1140 until 1500. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 510Z Literature of the Golden Age
Poetry, drama and the novel of the sixteenth and seventeenth centuries. Special emphasis on Don Quijote of Cervantes. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 530Z Generation of 1898
A study of the principal writers of this generation: Unamuno, Baroja, Valle-Inclán, Machado, Azorin, Maitzú, etc. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 550Z Spanish-American Literature of the 20th Century
The literary trends in Spanish-America from the Modernism till present day. Readings and analysis of novels, poetry and drama of the most outstanding writers of the Century. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 560Z Spanish and Spanish-American Short-Story
A seminar on the short-story in Spain and mainly in South-America. Authors to be studied include: Cela, Matute (Spain); Dario (Nicaragua); Quiroga (Uruguay); Borges, Cortazar (Argentina); Rulfo (Mexico); Marquez (Colombia); among many others. Lectures: 3 hours per week for two terms. (6 credits)

SPANISH 580Z Tutorial
Prerequisite: Permission of the Department is required for enrolment in this course. A course designed to meet individual needs of advanced students. Guided readings in Spanish and/or Spanish-American literature under the supervision of the Department. Written and oral criticism of the works studied. (6 credits)

51.20.4 LINGUISTICS

Major: A Major in Linguistics consists of 42 credits in Linguistics. A maximum of 12 of these credits may be taken from the courses listed below.
Honours: An Honours degree in Linguistics consists of 60 credits in Linguistics. A student must take at least 6, but is not permitted to take more than 18 credits from the courses listed below.

For a full course description see section indicated:

Psychology: § 51.24.3
303A Research Methods I and II
403B
404Z Practice in Early Childhood Development
408Z Human Information Processing

Philosophy: § 51.21.3
360Z Introduction to Logic
364Z Symbolic Logic

English: § 51.12.3
408Z History of the English Language
LINGUISTICS 300Z
Introduction to Linguistics
The nature of language. The methods of language analysis. Introduction to phonology, morphology and syntax. Principles of foreign language instruction. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 310Z
Historical and Comparative Linguistics
The major language families of the world, especially the Indo-European languages. The history of the major European languages. Exercices in etymology and semantics. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 350Z
Language in Culture and Society
Interrelations of language and other aspects of culture. The cultural content of language materials. Gestalt Theory and Language. Semantic problems in grammatical systems and lexemes. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 400Z
Sociolinguistics
The interaction of linguistic and social structures. Languages in context. Indigenous and immigrant languages in North America, Dialectology and lexicography. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 420Z
Problems in Semantics
Prerequisite: Linguistics 300Z or permission of the Department. This course provides an introduction to descriptive, historical, and general Semantics. The role of Semantics in grammar will be examined (deep structures, surface structures, noun phrases, etc.), together with the relationship of presuppositions and references to meaning. Types of lexical information will be studied by classifying Semantic features. The grammar of metaphor will be examined, also the logical and rhetorical aspect of metaphors will be analyzed as they relate to meaning. (6 credits)

LINGUISTICS 430Z
Anthropological Linguistics
Prerequisite: Linguistics 300Z or permission of the Department. Similarity and diversity among the languages of the world. Interdependence between a language and habitat. Ethnosemantics. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 450Z
Analytical Procedures and Descriptive Techniques:
Phonetic and Phonemic Analysis
Prerequisite: Linguistics 300Z or permission of the Department. This course is designed to present the procedures of modern phonemics. Speakers of a number of languages will be used as informants to provide actual practice in recording and classifying data, and problems in phonemic analysis will be discussed in class. The main objective of this course will be to provide the student with tools of modern phonemic analysis to allow him to pursue further studies in this field. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 460Z
Language and Thought
Prerequisite: Linguistics 300Z or permission of the Department. The relationships of grammar, competence and performance. The cognitive basis of language learning in infants, linguistic relativism, psychological lexicon. Psychological models of bilingualism. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 470Z
Introduction to General Phonetics
Prerequisite: Linguistics 300Z or permission of the Department. Articulatory Phonetics: description of speech sounds in articulatory terms. Students are trained in the identification of most of the sounds found in the different languages of the world. Acoustics Phonetics: description of speech sounds, frequency and amplitude. Measurement and interpretation of sound spectrograms, pitch and intonations curves.

Perceptual Phonetics: problems of perception. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 480Z
Linguistics Applied to Language Learning
Contrastive linguistic analysis of English and other languages as related to language learning. Special attention will be given to French, German, Italian, Russian and Spanish. Lectures: 3 hours per week for two terms. (6 credits)

LINGUISTICS 510Z
Theory of Morphology and Syntax
Prerequisite: Linguistics 300Z or permission of the Department. Changes in language in time and across space. The comparative method. Internal reconstruction: dialect geography. Glottochronology. Description of attested changes and reconstruction of unattested forms. Traditional and structuralist syntax. Phase structure rules, transformational rules, metatheoretical constraints, notational conventions. Lectures: 3 hours per week for two terms. (6 credits)

51.21.1 PROGRAMMES

60 BA Honours in Philosophy

Year I
12 Phil 410Z6, 302Z6
12 Phil Elec, Phil Elec or Cognate

Year II
12 Phil 420Z6, 502Z6
6 Phil Elec

Year III
12 Phil 430Z6, 504Z6
6 Phil Elec
Electives to be chosen in consultation with the Department.

36 BA Major in Philosophy

Year I
12 Phil 410Z6, 302Z6

Year II
6 Phil 420Z6
6 Phil Elec

Year III
6 Phil 430Z6
6 Phil Elec
Electives to be chosen in consultation with the Department.

24 Minor in Philosophy

Year I
6 Phil Elec

Year II
6 Phil Elec

Year III
12 Phil Elec
Electives to be chosen in consultation with the Department.

51.21.2 DEPARTMENT OF PHILOSOPHY

The Philosophy Department offers three programmes of study: an Honours, a Major, and a Minor. In addition courses are offered to students with a general or specific interest in Philosophy. The courses consist of a General Cycle, a History Cycle, Area Courses, and Author Courses. Seminars and Tutorials are offered mainly for students in a programme in Philosophy.

Joint programmes for Majors have been established with the Departments of Biology, Modern Languages, Mathematics, Theology, Classics, and Political Science.

The Chairman of the Philosophy Department should be consulted for information concerning these programmes.

The programme of courses leading to an Honours BA in Philosophy consists of sixty credits in the Department, or fifty-four credits in the Department and a cognate course of six credits outside the Department with the approval of the Philosophy Department. An average of 65% (B) is to be maintained.

The programme of courses leading to a BA with a Major in Philosophy consists of thirty-six credits taken in the Department.
The programme of courses leading to a BA with a Minor in Philosophy consists of twenty-four credits taken in the Department.

**51.21.3 COURSE DESCRIPTIONS**

**PHILOSOPHY 302Z**  
Introduction to Philosophy  
A study of basic questions in the major areas of philosophy and the classical attempts to answer them. (6 credits)

**PHILOSOPHY 304Z (360)**  
Introduction to Logic  
A study of the basic elements of Aristotelian and modern logic, including an analysis of argumentation, language, definition, fallacies, deduction and induction. (6 credits)

**PHILOSOPHY 308Z (372)**  
Philosophy of Man  
A study of representative classical and contemporary positions on human nature, action and life. Such topics as knowledge, affectivity, freedom, person will be treated. (6 credits)

**PHILOSOPHY 310Z**  
Ethics  
A study of the principles underlying moral conduct with reference to classical and contemporary positions. (6 credits)

**PHILOSOPHY 320Z**  
Social and Political Philosophy  
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course treats of the individual in relation to the State and Society through the reading and discussion of selected texts. Problems treated: political authority, its sources and varieties; the limits of political authority; classical images of man; personality and society; the paradox of social control. (6 credits)

**PHILOSOPHY 322Z**  
Political Philosophy: Communism, Fascism, and Democracy  
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course concentrates on the theoretical foundations of communism, fascism, and democracy through the reading and discussion of selected texts. (6 credits)

**PHILOSOPHY 326Z**  
Legal Philosophy  
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course concentrates on definitions of law and the ways of reasoning in Law. It includes discussion of such basic legal issues as responsibility and excuse, person and property, right and obligation, contract and punishment. (6 credits)

**PHILOSOPHY 331Z**  
Philosophy of Social Science  
Prerequisite: 6 credits in Philosophy or third year standing in a social science department or permission of the Department. Following the distinction between natural and social sciences, this course will be concerned with philosophies of the social sciences. It will investigate the structure, methodology, and problems of these sciences toward understanding and clarifying how they function as quasi-separable disciplines and how they contribute to a wider understanding of man and his varied social relations. (6 credits)

**PHILOSOPHY 340Z**  
Metaphysics  
Prerequisite: 12 credits in Philosophy or permission of the Department. In this course, metaphysics will be treated in two ways; firstly, the problem of being in classical and contemporary ontologies; secondly, the metaphysical suppositions underlying epistemological, moral and social theories. (6 credits)

**PHILOSOPHY 350Z**  
Epistemology  
Prerequisite: 12 credits in Philosophy or permission of the Department. A study of characteristic problems in epistemology with particular emphasis on their historical and systematic contexts. The concepts analyzed include fundamental questions in the empirical sciences. (6 credits)

**PHILOSOPHY 360Z**  
Introduction to Logic  
A study of the basic elements of Aristotelian and modern logic, including an analysis of argumentation, language, definition, fallacies, deduction and induction. (6 credits)

**PHILOSOPHY 361A**  
Deductive Logic  
An analysis of Aristotelian syllogistic and a study of propositional logic, quantifications and modern predicate logic, with special stress on the techniques of formal proof. Application of logic in computer science will be given special consideration. (3 credits)

**PHILOSOPHY 363B**  
Methods of Enquiry  
A comparative study of the methods and structure of four basic types of knowledge: mathematics, science, history and normative disciplines. Consideration will be given to traditional issues in the theory of knowledge and scientific methodology, including the problem of axiomatization and induction. (3 credits)

**PHILOSOPHY 364Z**  
Symbolic Logic  
Prerequisites: 6 credits in Logic or permission of the Department. A study of first order predicate calculus, techniques of formal proof, and the development of axiomatic systems. Attention will be given to the application of logic in computer science. (6 credits)

**PHILOSOPHY 372Z**  
Philosophy of Man  
A study of representative classical and contemporary positions on human nature, action and life. Such topics as knowledge, affectivity, freedom and person will be treated. (6 credits)

**PHILOSOPHY 374Z**  
Contemporary Theories of Love  
Prerequisite: One previous course in Philosophy. A two-semester topical analysis of love and attendant phenomena with special emphasis on their metaphysical, epistemological, psychological, aesthetic, social, theological and linguistic dimensions. The classes will be conducted on a lecture-seminar basis. (6 credits)

**PHILOSOPHY 378Z**  
Philosophy of Communication  
This course is concerned with a philosophical analysis of the foundations of communication acts; linguistic and non-linguistic cognitive and affectivity. Philosophical sources will include: Nietzsche, Max Black, M. Merleau-Ponty and P. Ricoeur. (6 credits)
PHILOSOPHY 380Z
Philosophy of Culture
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course entails a philosophical critique of contemporary western culture, stressing such issues as identity crisis, the weakening of structures of orthodoxy, meditation and humour in relation to the vita activa, work in relation to labour, and the socio-cultural manifestation of value crisis. (6 credits)

PHILOSOPHY 381Z
Philosophy of God
Prerequisite: 6 credits in Philosophy or permission of the Department. The problem of the natural knowledge of God including readings from Plato, Aristotle, Anselm, Aquinas, Descartes, Hume, Pascal, Kant, Hegel, Feuerbach, Marx, Kierkegaard, Newman, Nietzsche, Sartre, Ayer and Russell. (6 credits)

PHILOSOPHY 382Z
Philosophy of Religion
Prerequisite: 6 credits in Philosophy or permission of the Department. A critical assessment of modern developments in Philosophy regarding the question whether thinking man can maintain a religious belief in God. (6 credits)

PHILOSOPHY 384Z
Aesthetics
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course will examine central problems in the philosophy of art and sensibility, examining the works of major authors in this area, such as Aristotle, Longinus, Kant, Hegel, Dewey, Santayana. (6 credits)

PHILOSOPHY 386Z
(Also given as History 490Z)
Philosophy of History
Prerequisite: Second or third year standing in a History programme or permission of the Department. An analysis of the nature of historical knowledge and explanation will be followed by a study of classical and contemporary attempts to elucidate the meaning of history. Authors discussed include Augustine, Vico, Kant, Hegel, Marx, Spengler, Popper, Toynbee. (6 credits)

PHILOSOPHY 388Z
Philosophy of Education
An examination of philosophical problems underlying the educational theory, as well as those arising from the practical implementation of those theories. (6 credits)

PHILOSOPHY 400Z
Author course in Philosophy
Prerequisite: 18 credits in Philosophy or permission of the Department. An author course is an intensive study of the writings of selected authors. The author or authors to be announced. (6 credits)

PHILOSOPHY 410Z
History of Ancient Philosophy
A study of Western Philosophy from the Pre-Socratics to Plotinus. (6 credits)

PHILOSOPHY 420Z
History of Mediaeval Philosophy
Prerequisite: Philosophy 410Z or the permission of the Department. A study of Western Philosophy from Augustine to the later Scholastics. (6 credits)

PHILOSOPHY 430Z
History of Modern Philosophy
Prerequisite: 6 credits in Philosophy or permission of the Department. A study of western philosophy from Descartes to Hegel. (6 credits)

PHILOSOPHY 440Z
Contemporary Philosophy
Prerequisite: 6 credits in Philosophy or permission of the Department. Selections from main authors and trends in recent Philosophy, such as Existentialism, Phenomenology, Analytical Philosophy and Marxism. (6 credits)

PHILOSOPHY 502Z
Second Year Seminar
Prerequisite: 2nd year standing in a philosophy programme or permission of the Department. Problems in Moral Philosophy. Topics to be announced. This seminar will conduct the students through a series of problems on moral topics. (6 credits)

PHILOSOPHY 504Z
Third Year Seminar
Prerequisite: 3rd year standing in a philosophy programme or permission of the Department. Themes selected from modern and contemporary Philosophy. Topics and authors to be announced. (6 credits)

PHILOSOPHY 510Z (old 300Z)
Tutorial in Philosophy
Prerequisite: 18 credits in Philosophy or permission of the Department. If permission for a Tutorial is granted, the Tutorial Director will supervise an intensive reading programme in the student's area of special interest. (6 credits)

51.22.2 DEPARTMENT OF PHYSICS

The Department offers programmes leading to a 24-credit Minor, a 37-credit Major, a Specialization and an Honours degree. Students in the specialized programmes will be required to take a number of specified courses to which a variety of Physics electives can be added depending upon the degree of specialization desired and the current availability of course offerings.

Students intending to follow the Honours programme will be required to maintain an overall average of 65% in all Physics courses and a minimum of 55% in each Physics course.

(The final scheduling of courses will be determined from the Class Schedule booklet. Phys 302Z and 355B will not be offered in 1976-77)
### COURSE DESCRIPTIONS

<table>
<thead>
<tr>
<th>COURSE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
</table>
| PHYSICS 101Z | General College Physics  
(High School courses in Physics and functions highly recommended. Mathematics 133 and 135 must be taken currently.) An introductory course in the elements of mechanics, thermodynamics, light, electricity and magnetism. Lectures: 3 hours per week for two terms. Lab: 2 hours on alternate weeks for two terms. Reference texts: J. G. Stripe, *The Development of Physical Theories*, McGraw-Hill; C. S. Kalman, *Physics, What’s That?* (lithograph notes), and *Insights to Basic Experimental Physics Laboratory* (lithograph lab manual). (6 credits) |
| PHYSICS 103A | Heat and Sound  
Temperature and thermometry, heat effects, measurement and transfer, thermal properties of matter, thermodynamics, kinetic theory, waves, vibrations and acoustical phenomena. Lectures: 3 hours per week. Lab: 2 hours per alternate week. Reference text: Sears and Zemansky, *University Physics*, 4th Ed. (3 credits) |
| PHYSICS 301A | Optics  
| PHYSICS 302Z | Space Physics  
A highly descriptive course for university science students in the elements of astronomy, astro-physics, artificial satellite motion and space travel. The topics covered are: The earth and its motions; celestial mechanics; the solar system; elements of atomic physics; radio astronomy; the sun, other stars, galaxies and nebulae; artificial satellite motions; communication satellites; rocket motion; space travel; Apollo missions and their findings; the nature of our universe. Lectures: 3 hours per week for two terms. Reference text: S. P. Wyatt, *Principles of Astronomy* (Allyn & Bacon). (6 credits) |
| PHYSICS 308Z | Electricity and Magnetism  
| PHYSICS 311B | Mechanics  
| PHYSICS 315A | The Mechanics of Visual Representation  
An introductory course combining laboratories and lectures illustrating the basic laws which govern and control the mechanism of image reproduction. Relevant topics concerning the interaction of light and materials are discussed and demonstrated. Students perform experiments with light-sensitive materials, the pin-hole camera, light intensity and illumination measurement. Human visual response, the gray scale, sensitometry, desensitometry, the characteristic curve and ASA, DIN, film speeds are examined in depth. This course parallels the Chemistry lab course 315A, and both are designed to complement the “Dynamics of Visual Representation” course (Chemistry Arts 360). This course is designed for students in Communication Arts. Lab & Lectures: 3 hours per week. Reference Texts: M. J. Langford, *Basic Photography*. (Amphoto). T. H. James and G. C. Higgins, *Fundamentals of Photographic Theory*. (Morgan & Morgan). (3 credits) |
| PHYSICS 316Z | Understanding the Physics of Media  
The course covers the evolution of Physics in the discoveries that apply to our technology and media. This course is designed for Communication Arts students. Lab: one 3 hour session per week for two terms. Reference Text: A. Einstein & L. Infeld, *The Evolution of Physics* (6 credits) |
| PHYSICS 317B | The Physics of Photo-Reproduction  
Prerequisite: Phys 315A. A combined laboratory and lecture course designed for students in Communication Arts who have some basic knowledge of physical laws. Ideas introduced in the “Mechanics of Visual Representation” (Phys 315A) are further developed, covering such topics as exposure measurement, the characteristics of light and control, and the Standard Association Institute Photographic Exposure Guide. The mechanics of a lens, image formation, f-stops diaphragm openings, the 3-colour composition of light, the colour-temperature scale, and filters, are studied. This course is so designed that the student will gain an intelligent and efficient use of his equipment. Lab & Lectures: 3 hours per week. Reference text: M. J. Langford, *Basic Photography*. (Amphoto). (3 credits) |
| PHYSICS 320B | Mathematical Physics I  
Vector spaces. Matrices and determinants. Linear operators. Linear coordinate transformations. Systems of simultaneous linear equations. 3 hours per week. Reference text: to be announced. (3 credits) |
| PHYSICS 323A | Mathematical Physics II  
| PHYSICS 345A | Introduction to Consumer and Commercial Electronics  
A course primarily for people who wish to acquire a basic knowledge of some of today’s consumer and commercial electronics, but leaving out most of the extensive theories. The course consists of a series of lectures, laboratory projects and demonstrations. Topics to be treated are: High Fidelity Amplifiers; Program Sources and Reproducers; AM, FM and SSB Transmission; Black and White and Colour Television Reception; Auto-Electronics; Electronic Control Systems; Applications of Linear
292

and Digital Integrated Circuits. Lectures: 2 hours per week. Lab: 2 hours per week. Reference text: P. Zbar, *Industrial Electronics* (2nd Ed.); Printed notes. (3 credits)

**PHYSICS 351A**
Biomechanics of Human Motion
The application of elementary laws of mechanics to the understanding of static equilibrium conditions of the human body subjected to external forces—the efficiency of human movement seen from the reference point of physical laws as applied to sports. This course is intended for the physiotherapist, the athlete and all those interested in understanding body mechanics in the light of inanimate physical laws. Lectures: 3 hours per week. Reference text: Geoffrey Dyson, *The Mechanics of Athletics* (U. of London, 6th Ed.). (3 credits)

**PHYSICS 353B**
Biophysics

**PHYSICS 355B**
Electronic Instrumentation
This course is recommended for science students and others who might be working in scientific research laboratories. This course begins with basic electrical measurements and gradually leads to amplifier circuits of vacuum tubes and transistors, operational amplifiers, oscillators, servo systems as in strip chart recorders, feed-back control, digital circuits and other devices currently used in research laboratories. Lectures: 3 hours per week. Lab: 2 hours per week. Reference text. To be announced. (4 credits)

**PHYSICS 391A/392B**
Selected Topics in Physics
The topics chosen will vary from year to year. The course is designed to provide students with the opportunity of extending their studies beyond subjects already included in the curriculum. Open to all students with permission of the department. (3 credits each)

**PHYSICS 400A**
Atomic Physics

**PHYSICS 405A**
Classical Thermodynamics

**PHYSICS 408A**
Electronics I
Prerequisite: Phys 308Z or equivalent. Review of AC and DC network theory; Elementary semi-conductor theory as applied to P-N junctions; Power supplies and diode applications; Theory of transistors; Hybrid models of transistors; Analysis of single and multi-stage amplifiers. Field effect transistors, MOS devices; Silicon control rectifiers. Lectures: 3 hours per week. Reference text: To be announced. (3 credits)

**PHYSICS 409A/B**
Statistical and Thermal Physics

**PHYSICS 411A**
Mechanics
Prerequisite: Phys 311B. Kinematics of systems of particles and rigid bodies. Particle collisions, rocket motion, plane motion of rigid bodies. Impulse. Particle motion in non-inertial frames, space motion of a particle. Rigid body motion about a fixed point, gyroscopics. Introduction to equations of Lagrange and Hamilton. Lectures: 3 hours per week. Reference text: H. Goldstein, *Classical Mechanics* (Addison-Wesley). (3 credits)

**PHYSICS 412B**
Introduction to Quantum Mechanics

**PHYSICS 413A/B**
Advanced Mechanics

**PHYSICS 420A/B**
Mathematical Physics III
Prerequisite: Phys 323A. The Fourier method and the solution of partial differential equations in mathematical physics. Special functions. Lectures: 3 hours per week. Reference text: To be announced. (3 credits)

**PHYSICS 421A/B**
Mathematical Physics IV

**PHYSICS 503A/B**
Nuclear Physics
Prerequisites: Phys 400A and 412B. Radioactivity, decay laws, nuclear transitions and re-

PHYSICS 505A/B
Introduction to Solid State Physics

PHYSICS 508A/B
Electronics II
Prerequisites: Phys 408A. A continuation of Electronics I with emphasis on circuit applications and analysis. Topics include digital logic gates and implementation of logic functions, differential amplifiers, high impedance circuits, oscillators, multivibrators and pulse circuits, power amplifiers, noise and feedback analysis. Lectures: 3 hours per week. Reference text: To be announced. (3 credits)

PHYSICS 511A/B
Relativity

PHYSICS 512A/B
Electromagnetic Theory

PHYSICS 513A/B
Quantum Mechanics

PHYSICS 514A/B
Advanced Topics in Physics
The topics chosen will vary from year to year. The course is designed to provide students with the opportunity of extending their studies beyond subjects already included in the curriculum. Open to all students with permission of the department. (3 credits each)

PHYSICS 515
Optics Lab (1 credit)
Prerequisite: Phys 301A.

PHYSICS 516
Electricity and Magnetism Lab (2 credits)
Prerequisite: Phys 308Z.

PHYSICS 517
Atomic Physics Lab I (2 credits)
Prerequisite: Phys 400A.

PHYSICS 518
Electronics Lab I (2 credits)
Prerequisite: Phys 408A.

PHYSICS 519
Atomic Physics Lab II (2 credits)
Prerequisite: Phys 400A.

PHYSICS 520
Electronics Lab II (2 credits)
Prerequisites: Phys 408A, 482 and 508 concurrently.

51.23.2 DEPARTMENT OF POLITICAL SCIENCE

The Department of Political Science offers four programmes of study: an Honours, a Specialization, a Major, and a Minor.

The programme of courses leading to an Honours BA in Political Science consists of 63 credits in the Department or 57 credits in the Department and 6 credits in a cognate discipline with the permission of the Department. In addition 30 elective credits in other departments must be taken to complete the degree requirements. In Year II and Year III students are required to take 18 credits in the Seminars listed at...
the 500 level. (Students intending to pursue graduate studies in Political Science are strongly advised to include Pol Sc 540Z.) An Honours student will be required to maintain a 65% average in all his/her courses and a minimum of 70% in each Political Science course. (Honours standing will be reviewed at the end of each academic year.) In order to maintain Honours status no acceleration of courses will be permitted. In the second year of the Honours programme each student will choose a faculty advisor who will advise the student on course selection and his/her Honours thesis topic.

The programme of courses leading to a Specialization BA in Political Science consists of 60 credits in the Department or 54 credits in the Department and 6 credits in a cognate discipline with the permission of the Department. In addition 30 elective credits in other departments must be taken to complete the degree requirements. This programme is designed for students who wish to acquire a broad knowledge of the discipline without the quality requirements of the Honours programme.

The programme of courses leading to a BA with a Major in Political Science consists of 42 credits in the Department. In addition 48 credits must be taken to complete the degree requirements.

The programme of courses leading to a Minor in Political Science consists of 24 credits in the Department. The Minor is designed to provide an opportunity for students to make a combination with a Specialization, a Major or Honours in another discipline. A student’s Minor will be arranged in consultation with the Department of Political Science so that it relates to courses in the major area of study.

51.23.3 COURSE DESCRIPTIONS

Explanation of Course Numbers
1. Courses in the 300 and 400 range are open to all Political Science students and students in other departments.
2. Courses in the 500 range are open to all students in Political Science who are in their second and third year. Students in other departments may take these courses with the permission of the Political Science Department.

POLITICAL SCIENCE 300Z
Introduction to Political Science
A description of the features universal to the governing processes of societies and the nature and consequences of the major variations in these processes. The course combines a theoretical and conceptual framework with a study of selected political systems and countries. It is designed to act both as introduction to the discipline for those students who plan to study further and to serve also those students who require a systematic examination of the field in a single course. (6 credits)

POLITICAL SCIENCE 310Z
International Politics
Prerequisite: Political Science 300 or CEGEP equivalent. This course is designed to offer an introduction to International Politics for majors and honours students in Political Science. The course will be devoted to a systematic study of interstate behaviour both in the period of peace and war. It will include a study of the theoretical approaches, nation-state system, national power and capability, techniques for the management of power, diplomacy and foreign policy, propaganda and psychological warfare, role of International Law and world organization, and world politics. (6 credits)

POLITICAL SCIENCE 320Z
Canadian Government and Politics
Prerequisite: Political Science 300 or CEGEP equivalent. A detailed analysis of the BNA Act, a survey of constitutional development in Canada. An institutional and functional analysis of the executive, legislative, judicial and administrative branches of the Canadian Government. A study of the Canadian political processes: the electoral system, political parties, interest groups and public opinion. Seminars on issues and problems in Canadian politics: the constitutional question, economic and fiscal policy, foreign policy, health, education and welfare; pollution, drugs and civil rights. (6 credits)

POLITICAL SCIENCE 321A
American Government and Politics
Theory and practice of American government. Attention is given to identifying the values and outlining the character of the American people with emphasis on political behaviour and institutions and the determination and execution of public policy. (3 credits)

POLITICAL SCIENCE 340Z
The Government and Politics of the Soviet Union
A study of the government and politics of the Soviet Union. Discussion of the basic theories of Communism and the evolution of the Soviet system. (6 credits)

POLITICAL SCIENCE 351B
British Government and Politics
Government and Politics in Britain with particular emphasis on political parties and pressure groups, the changing role of the legislature and executive, and the Public Corporations. The issues of current constitutional interest will be discussed such as the office of Prime Minister and parliamentary sovereignty. (3 credits)

POLITICAL SCIENCE 361A
International Organization
A survey and analysis of attempts to institutionalize order and change in international society. Chief emphasis will be on the United Nations and its affiliates. (3 credits)

POLITICAL SCIENCE 363B
Regional Organizations
A survey and analysis of attempts to institutionalize order and change in international society. Chief emphasis will be on the European Community, COMECON, NATO, OAS, etc. (3 credits)

POLITICAL SCIENCE 371A
Nationalism: Origins, Operation, Significance
Prerequisite: Political Science 300 or CEGEP equivalent or permission of instructor. Examines the foundations of nationalist ideology and ideology developed originally in the early 19th century as a purely European phenomenon. Considers specific nationalist ideologies—European, African, Asian, etc.—with regard to their modality of operation and their significance in relation to a society’s capacity to evolve and confront the
POLITICAL SCIENCE 373B
Nationalism, The Canadian Experience
Prerequisite: Political Science 300 or CEGEP equivalent or permission of instructor. Examines the origins and development of nationalism and regionalism in Canada with particular attention centered upon the interaction between French-Canadian and English-Canadian nationalist sentiments. Considers the similarities and divergencies of nationalist and regionalist sentiment in Canada with those of European nationalism, and evaluates their significance with regard to the development of the Canadian federation and its capacity to confront the realities and demands of the modern technological environment. (3 credits)

POLITICAL SCIENCE 391A
Ancient Greek Political Philosophy
A study of the political thought of ancient Greek philosophers. (3 credits)

POLITICAL SCIENCE 393B
Roman, Mediaeval, and Renaissance Political Philosophy
A study of the political thought of Rome during the Republican and the Imperial period, with special emphasis on Cicero's *On the Commonwealth*; the political thought of the mediaeval world, with special emphasis on St. Augustine's *The City of God*; and the political thought of Renaissance, where the emphasis will be placed on Machiavelli's *The Prince & The Discourses*. (3 credits)

POLITICAL SCIENCE 407A
Selected Topics in Political Science
Prerequisite: Permission of the Department. The selected topic will vary with the special interest of the instructor offering the course in any given year. (3 credits)

POLITICAL SCIENCE 409B
Selected Topics in Political Science
Prerequisite: Permission of the Department. The selected topic will vary with the special interest of the instructor offering the course in any given year. (3 credits)

POLITICAL SCIENCE 411A
An Introduction to International Law I
The meaning of international law, its sources, subjects and its relationship with municipal law, recognition, state succession and state territory; rights and duties of states; roles of international law in the international community. (3 credits)

POLITICAL SCIENCE 411B
An Introduction to International Law II
International transactions; Evolution and History of Diplomacy; its relationship to international law; diplomacy of the great powers; law and practice as to treaties; disputes, war and neutrality. (3 credits)

POLITICAL SCIENCE 420Z
Parties, Pressure Groups and Public Opinion
An examination of the functions of party and pressure groups with an emphasis on political socialization and education, ideology, political recruitment and leadership selection, interest aggregation, and intragovernmental organization; of the process of the formulation of public opinion, the nature of its expression, and its impact on public policy; the course will be centered on the Canadian political system. (6 credits)

POLITICAL SCIENCE 424Z
An Introduction to Law and the Canadian Constitution
An introduction to law in general and the Civil Code, in particular, with references to the Criminal Code, Companies Act and others, this course will also deal with the Canadian Constitutional System and its major interpretations by the Courts. (6 credits)

POLITICAL SCIENCE 428Z
Public Administration
A historical study of government management and institutions, based on the Canadian administrative experience and related to Anglo-American comparative practice. (6 credits)

POLITICAL SCIENCE 431A
Statistics for Political Scientists—Theory
This course provides a framework of those statistics useful to political scientists; the theory of statistics, summarization of distributions, measures of association, categories of data, scaling, statistical inference, probability, problems of spurious correlation, and introduction to computer techniques. (3 credits)

POLITICAL SCIENCE 433B
Statistics for Political Scientists—Application
This course deals with the most common applications of statistics to political concerns: the structure of quantitative hypotheses and research designs, the construction of opinion surveys and sampling procedures; Guttman scaling, analysis of legislative voting, content analysis of documents, J-curve analysis of political change, factor analysis of international affairs, simulation and the problems of applying quantitative methods to human beings. (3 credits)

POLITICAL SCIENCE 441A
Contemporary Politics of China
An analysis of the present government and politics of the People's Republic of China with special emphasis on the Communist movement, the rise of Mao Tse-tung, the triumph of Communism in China, the role of CCP, political structure and governmental performance, socio-political reform, and China and the World. (3 credits)

POLITICAL SCIENCE 443B
Contemporary Politics of Japan
An analysis of the political development of Japan since the end of World War II with special emphasis on the construction of new Japan, old and new constitutions, political structure and governmental performance, parties and interest groups, domestic and foreign policies, and Japan and East Asia and the World. (3 credits)

POLITICAL SCIENCE 446Z
Comparative Government
Prerequisite: Political Science 300 or CEGEP equivalent. A comparative study of the Governments of the United Kingdom, France and the Federal Republic of Germany. (6 credits)

POLITICAL SCIENCE 450Z
Mideast Political Systems
The government and politics of African states south of the Sahara with reference to traditional political systems, colonial policies, nationalism, and the problem of nation building (6 credits)

POLITICAL SCIENCE 455A
The Middle East in World Politics

POLITICAL SCIENCE 457B
Mid-East Political Systems
A comparative study of a selected number of Mid-East Governments (Turkey, Egypt, Libya, Syria, Iraq, Lebanon, Israel, Jordan, Saudi Arabia and Yemen). (3 credits)
POLITICAL SCIENCE 480Z
Politics of Developing Areas
An examination of the effects of social change on political institutions in developing areas. This course will deal with such questions as: How do actions of governments directly influence the process of modernization? How do patterns of governmental organization influence the speed and direction of change? What organs of government need to be created to deal with the institutional problems caused by modernization? Are specific types of political institutions required for modernization? (6 credits)

POLITICAL SCIENCE 491A
Early Modern Political Philosophy
The Reformation and the rise of modern individualism. The principal political thinkers studied in this period will be Luther, Calvin, Hobbes, Harrington, Locke. (3 credits)

POLITICAL SCIENCE 493B
Late Modern Political Philosophy
The Enlightenment and its critics and the political thought of the early industrial period. The most important thinkers to be studied in this period are Montesquieu, Hume, Rousseau, Burke, J.S. Mill and Marx. (3 credits)

POLITICAL SCIENCE 510Z
Topics in Political Science
Prerequisite: Permission of the Department. This course is designed primarily for honors students. Its purpose is to provide an opportunity for students to intensify their study beyond the areas of specialization already represented in the curriculum. The Advanced Topic will vary with the special interest of the instructor offering the course in any given year. (6 credits)

POLITICAL SCIENCE 520Z
Seminar on Quebec Government and Politics
An institutional and functional survey of the executive, legislative, judicial and administrative branches of the Quebec government. A detailed study of Quebec's jurisdictional and fiscal problems with the federal government. Discussions on the political process in Quebec: the electoral system, political parties, pressure groups and public opinion. The role of the Catholic Church in Quebec politics. A study of the most important thinkers in French Canada. (6 credits)

POLITICAL SCIENCE 524Z
Seminar on Canadian Federal, Provincial and Municipal Government
A broad survey of the basic constitutional powers under Sections 91-92 of the BNA Act, judicial judicial and administrative branches of the Canadian government. Emphasis will be on sectional and fiscal relations and the state of federalism in Canada today. The main emphasis of the course falls on the provincial-municipal relations, the organization and structure of local government and services, forms of metropolitan and regional government. (6 credits)

POLITICAL SCIENCE 530Z
Communications and Politics
This course will deal with the subject of communications and politics. Some subjects covered will include; communication and national unity, communications and social mobilization, politics and the mass media, the use of political symbols, communication and authority, cybernetics and systems theory, and the "Canadian School" of culture and communications based on Harold Innis and Marshall McLuhan. Communications theorists covered will include Karl Deutsch, Norbert Wiener, Murray Edelman, Colin Cherry, Hugh Daniel Duncan, David Easton, George Herbert Mead, Harold Innis and Marshall McLuhan. (6 credits)

POLITICAL SCIENCE 534Z
Contemporary Political Analysis
The course will deal with the question of the epistemological approach to Political Science. The main part of the course will consist of a survey of recent works in empirical political analysis including Deutsch, Easton, Almond, and Verba, Lipset, Gurr, et al., on contemporary topics of research. (6 credits)

POLITICAL SCIENCE 540Z
Seminar on Methodology of Political Science
An analysis of the various methodologies in use in Political Science today—-with emphasis on the methodological techniques. The Behaviouralist vs. Traditionalist debate will be explored. Designed for third year Honours students in Political Science. (6 credits)

POLITICAL SCIENCE 542Z
Seminar on Asian Communism
An intensive analysis of Communism as it relates to the implications of political ideas, institutions, and domestic and foreign policies of East Asian countries. Some of the topics to be examined are: (1) ideological factors (2) socio-political base (3) institutional organizations (4) political leadership (5) tactics and strategies (6) current problems (7) Communist movement of Non-Communist party-states. (6 credits)

POLITICAL SCIENCE 544Z
Seminar on the Politics of Eastern Europe
A study of selected problems of government in the Soviet Union and Eastern Europe. Participants must present two major research papers for discussion. (6 credits)

POLITICAL SCIENCE 550Z
Federalism and the Modern Technological World Society
A consideration of the increased importance of the federal principle of government in the political organization of humanity resulting from the centralizing and decentralizing influences of modern technology on today's global society. Examines the global problem of coexistence in today's multi-national world society and evaluates the capacity of federalism to assure a certain measure of progress in the political organization of humanity more in accord with the social, economic and technological realities of contemporary world society. Considers federalism's ability to provide by the means to absorb the revisions that can arise from the co-habitation of divergent communities and to surmount the primordial obstacle that has prevented evolution in the political organization of humanity, namely: mankind's tendency to remain blindly dominated by his various nationalistic federations. Particular attention is given to the Canadian federal system as well as to several other multi-communitary federal systems, with regard to the problem of cohabitation in multi-communitary societies. (6 credits)

POLITICAL SCIENCE 560Z
Seminar on Advanced Political Systems
A seminar on the major political systems with special emphasis on Europe. (6 credits)

POLITICAL SCIENCE 570Z
Seminar in Government and Economic Policy
A seminar on the role of government in the economic life of different countries; the relation of economic and political power, the changing balance of public and private power in political systems. Emphasis will be on Canadian government and economic policy formation. (6 credits)

POLITICAL SCIENCE 580Z
Seminar on Legislative, Executive and Judicial Decision-Making
An examination, using Canada as the model
of the formation of decisions in the legislative, executive, and judicial branches of government. Special attention will be given to: the structural-functional approach; developmental analysis of such an explanation of behavioural patterns; and, comparative analysis to identify uniformities in patterns of behaviour. (6 credits)

**POLITICAL SCIENCE 590Z**
Seminar on Modern Political Thought
A study of the main currents in modern political thought in the past century with special emphasis on the outstanding political philosophers of this period. (6 credits)

**POLITICAL SCIENCE 599A/B**
Honours Political Science Thesis
A required course for third year honours students in Political Science. At the end of their second year honours students must choose, in consultation with their faculty advisor, a research topic for intensive analysis during the third year. The completed thesis will be presented to the Department at the end of the third year. (3 credits)

51.24.2 DEPARTMENT OF PSYCHOLOGY  

The Department of Psychology offers a programme leading to a BA and a BSc with a Major, Honours degree or Specialization in Psychology. The BSc programme (Major, Honours, or Specialization) offers two options; either Chemistry-Biology or Mathematics-Physics. In addition, there is a BSc Specialization in Psychology and Biology. Double Majors with other departments can be arranged. The curriculum is designed to provide for a broad general education, as well as to give adequate preparation for graduate studies in Psychology. Although some courses in Applied Psychology are offered, the major emphasis of the programme is theoretical and experimental.

Students entering the Science programme in Psychology must have satisfied the collegial requirements for the Health Sciences and Pure and Applied Sciences. Students entering the Arts programme in Psychology must have satisfied the collegial requirements for the Social Sciences and Administration. Students wishing to take Psychology 506Z, Directed Readings, should prepare, before the beginning of the Fall term, a list of books that have relevance to the problem area undertaken for study by the student. For courses at the 400 and 500 level, there are specific prerequisites. The relevant prerequisites are listed with each course. Students wishing to take these courses who do not have the necessary prerequisites may register for the course with approval of the instructor. Students in their third year are to take Psychology courses only at the 400 and 500 levels. Among their Psychology electives, all Honours, Major, and Specialization students must choose a specified number of credits from both Category I and Category II.

NOTE: Science electives must be chosen from the following departments: Physics, Chemistry, Biology, Geology, Mathematics.

Description of the Major Programme  

A Major consists of a minimum of 42 credits in Psychology for both the BA and the BSc, including Psychology 300Z, 303A and 301B in the first year. These courses will provide the student with practical experience in psychological research of all types, and an understanding of the philosophical and scientific origins of Psychology and of the epistemological basis of scientific research methodologies. In addition, the BSc programme requires nine
Science credits in either Chemistry and Biology or in Mathematics and Physics.

Description of “Specialization” Programme

The department offers a “SPECIALIZATION” in both Arts and Science, which affords a greater degree of specialization in the field than does a Major Programme. A total of 60 credits in Psychology are required, including 300Z, 303A and 301B in the first year and six credits chosen from one of five streams in the second year. In addition, the “SPECIALIZATION” in science includes nine required credits from either Biology and Chemistry or Mathematics and Physics.

Description of the Honours Programme and Special Requirements

The department offers an Honours degree in both Arts and Science. Honours represents a greater degree of specialization in the field than a Major Programme allows and is an indication of higher academic standing. In order to be admitted to the programme a student must have met the same criteria which define the successful Honours student. A successful Honours student must achieve and maintain no less than a 70% minimum grade in each of his Psychology courses, not less than 55% in any courses, and a 65% overall average. A student not meeting these requirements will lose his Honours status, but may continue in the Majors Programme.

51.24.3 COURSE DESCRIPTIONS

PSYCHOLOGY 200Z

Introductory Psychology

This course is intended for the general arts and science student. In addition to introducing some major ideas and findings of Theoretical Psychology, we will examine the advantages and strengths of a behavioristic approach which regards man as an organism by means of the experimental methods of the biological and social sciences. We will also explore some esoteric psychologies. This course does not constitute a Psychology credit for the Psychology Major or Honours student. Lectures: 3 hours per week for two terms or six hours per week in the second term. (6 credits)

PSYCHOLOGY 300Z

Historical Approach to Systematic Psychology

This is a comprehensive course which is intended to give an appreciation of how and why Psychology developed as it did in relation to historical-cultural milieu, major trends in intellectual history, contending philosophical assumptions and technical and methodological developments. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 301B

Statistics

Material presented in this course will include: Probability theory, frequency and probability distribution, measures of central tendency and dispersion, theory of sampling distributions, normal distributions, theory of hypothesis testing and the theory of inferences about population means. This material is intended to provide both a theoretical and a practical foundation in statistics for the student interested in conducting or utilizing the results of psychological research. Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY 302Z

Human Motivation

This course will consider determinants of human motivation. Theories of human motivation will be studied and evaluated. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 303A

Research Methods

A lecture and laboratory course in basic methods used in psychological research. Students will be required to design, conduct, analyse and report on a number of experiments. Required course for all majors in Psychology. Lectures: 3 hours per week, first term. Lab: 3 hours per week, first term. (3 credits)

PSYCHOLOGY 304Z

Developmental Psychology

A study of physical, cognitive, emotional and social development, with emphasis on childhood, adolescence and normal development, with some consideration of age-related deviant patterns. The course is given in lecture style, but with weekly informal workshops on special interest areas and on the development of student’s skills in observational methods. Students are required to carry out observations of children in a variety of natural settings. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 306Z

Personality: Normal and Abnormal

The organization, functioning and develop-
PSYCHOLOGY 308Z
Sensation and Perception
In this course the importance of sensory systems in interpreting (perception) as well as receiving (sensation) information about the external world will be considered. The psychophysical study of the five human senses will be complemented by behavioural and neurophysiological studies in animals. General principles of sensory function and their interrelationships will be stressed. Lectures: 3 hours per week, two terms. (6 credits)

PSYCHOLOGY 310Z
Learning
The course is a study of behaviour in terms of the principles of conditioning and learning. The first half of the course is concerned with the basic issues central to conditioning and learning. In the second half the emphasis is on human learning. Lectures: 3 hours per week for two terms. Lab: To be scheduled during regular classes. (6 credits)

PSYCHOLOGY 311A
Psychology in Action: Developments in the Science and Application of Psychology
"Psychology is a heterogeneous science". This fact is represented by subdividing the American Psychological Association into 30 divisions of interest. The origins of each psychology speciality will be determined and the changes leading to the actual nature of each psychology field will be covered. There will be a seminar/lecture format. Lectures: 3 hours per week, first term. (3 credits)

PSYCHOLOGY 313A
Anatomical & Physiological Bases of Motivation & Emotion I
An introduction to the gross structure and physiological functions of the central nervous system in relationship to behaviour. Consideration will be given to phylogenetic development, sensory and motor systems, and functional disorders of brain damage. This course is a prerequisite for Psychology 413B. Lectures: 3 hours per week, first term. (3 credits)

PSYCHOLOGY 400Z
History of Psychology
Prerequisite: Psychology 300Z, 301B, 303A.
A survey of the historical antecedents of modern theoretical and applied psychologies with application of the historical perspective to understanding the systems of psychology and some contemporary theories, methods, issues and trends within the discipline. The course is given in seminar style with at least one written paper. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 401A
Statistics II
Prerequisite: Psychology 301B, 303A. Material presented in this course will include: "chi-square" and "F distributions", the "fixed effects" models for analysis of variance, regression and correlation, "Chi-square" tests and non-parametric tests of hypotheses. This material is intended to provide both a theoretical and a practical foundation in statistics for the student interested in conducting or utilizing the results of psychological research. Lectures: 3 hours per week, first term. (3 credits)

PSYCHOLOGY 402Z
Social Psychology
Prerequisite: Psychology 300Z. An introduction to the methodology, concepts, and research in some areas of contemporary social psychology. Group dynamics such as coalition formation, group problem-solving, communication networks, and leadership will be considered along with social influences such as interpersonal perception, conformity, attitude development and change and aggression. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 403B
Research Methods II
Prerequisites: Psychology 301B, 303A, 401A.
This course is a continuation of Research Methods I. This part of Research Methods will be devoted to a critical examination of more complex experimental designs used in Psychology. Students will be required to design, conduct, and evaluate experiments, and an opportunity will be provided for independent research. Lectures: 3 hours per week, second term. Lab: 3 hours per week, second term. (3 credits)

PSYCHOLOGY 404Z
Practicum in Early Childhood Development
Prerequisite: Psychology 300Z, 304Z. This course combines an intensive study of development in early childhood with practical experience in a pre-school. In addition to one class meeting per week, each student must be able to commit himself or herself to three hours per week of observation and work as a teacher's aide in the college-related day nursery. After an introductory study of nursery school philosophy and observational methods, weekly seminars and readings will focus on aspects of child development which are observable in the nursery school, such as motor development, language, play, social interaction, concept formation, use of art and play materials, behaviour in routine situations, etc. The course assumes previous course work in developmental psychology or its equivalent. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 405A/B
Scaling
Prerequisites: Psychology 300Z, 303A, 301B.
This course is designed to introduce the student to theory and methods, i.e., fractionation and equisection methods, etc. This course will appeal to those students interested in attitude measurement and test construction. Lectures: 3 hours per week for one term. Lab: Possible seminars and/or labs. (3 credits)

PSYCHOLOGY 406Z
Community Psychology
Prerequisite: Psychology 300Z. This course will relate psychology to the problems of man-in-society and consider basic areas of psychological knowledge as they bear upon the behaviour of man-in-institutions: that is, the strategies that man used to create a habitat which in turn determines his development. The contributions of psychology to community leadership in the search for new and better personal, social, cultural and ecological arrangements will be considered as they relate to such institutions as industry, education and the health, welfare and political structures. Lectures and seminars: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 407A/B
Measurement
Prerequisites: Psychology 300Z, 303A, 301B.
This course will define fundamental, derived
and “pointer” measurement in science; and will examine the nature of psychological tests as “pointer” measures. The notion of “uniqueness” of a scale will be defined and related to the feasibility of performing arithmetic operations on measurement scores. Lectures: 3 hours per week for one term. (3 credits)

PSYCHOLOGY 408Z
Human Information Processing
Prerequisite: Psychology 300Z. Examines the way in which sensory input is transformed, recognized, stored, recovered and used. The course looks at pattern and speech recognition, memory and attention, decision making and reasoning in the context of recent experimental and theoretical work. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 409A/B
Field Research Methodology
Prerequisite: Psychology 300Z. Introduction to issues, rationales and techniques of analyses of complex behaviour in nonlaboratory, field settings. Examples for study will be drawn from applied fields such as community and social issues, clinical and counselling, psychology, education, and industry. Lectures: 3 hours per week for one term, labs to be arranged. (3 credits)

PSYCHOLOGY 410Z
Behaviour Disorders
Prerequisite: Psychology 306Z. Offered primarily to students in psychology. Designed to acquaint the student with contemporary approaches to abnormal psychology. The course will include discussion of a broad range of abnormal behaviour patterns, including the psychoneuroses, psychoses, psychosomatic disorders, conduct disorders and maladaptive group behaviour. Problems of causality, classification, assessment and treatment will be elaborated. Attention will also be given to new perspectives on prevention of disordered behaviour. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 412Z
Animal Behaviour
Prerequisite: Psychology 300Z. The study of animal behaviour, its description, function and causes from a comparative biopsychological point of view. Lectures: 3 hours per week for two terms. Possibly seminars and/or labs scheduled during regular lecture periods. (6 credits)

PSYCHOLOGY 413B
Anatomical & Physiological Bases of Motivation & Emotion II
Prerequisite: Psychology 313A. A study of determinants: neural, hormonal, stimulus, experiential of behavior. Emphasis will be on factors which account for the initiation, direction, and regulation of behavior. Animal and human research data underlying major psychological theories of motivated behaviors will be emphasized. Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY 414Z
Physiological Psychology
Prerequisite: Psychology 300Z, 301B, 303A, 315A. A study of some biochemical and physiological mechanisms underlying behaviour. The topics studied include enzymes, nucleic acids, the nervous endocrine and sensory systems, response mechanisms, emotions etc. A good background in biology, though not required, is strongly recommended. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 415B
Psychology of Time
Prerequisite: Psychology 300Z. A basic framework for behaviour is time. A review of psychological studies of time from the beginning of the scientific study of psychology will be undertaken. Experiments and theory will be considered in the frames of reference of biological, psychophysical, psychanalytic, and social psychology. An experiment which may replicate a previous study will be carried out. Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY 417A
The Psychology of Communication and Language
Prerequisite: Psychology 300Z. This course will deal with nonverbal communication systems among infrahuman and human organisms. Primary emphasis, however, will be laid upon language which will be treated in terms of its structures and functions. Topics chosen from among language acquisition, theories of meaning and the use of language, types of language classification, language and socialization and other cognitive dimensions of language. Lectures: seminars: 3 hours per week first term. (3 credits)

PSYCHOLOGY 419B
Psycholinguistics
Prerequisite: Psychology 300Z. This course will begin by introducing the student to the general ideal of “a grammar” and will then proceed to the following topics:
(a) Constituent Structure and Transformational Grammars,
(b) Cognitive Implications of Transformational Grammars,
(c) The Concept of a “Morpheme” and its Meaning, and
(d) Phonetics, Phonemics and Speech.
Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY 421A/B, 423A/B
Selected Topics in Psychology
Prerequisite: Permission of the Instructor. Subject matter will differ from one offering to another. The course provides students with an opportunity for advanced study in a field of current research importance. (3 credits each)

PSYCHOLOGY 500Z
Honours Thesis
This course will require the Honours student to propose and complete a research thesis according to the APA format. The student's work will be supervised by a Thesis Chairman, selected from within the department by the student, and at least one additional member of the departmental staff selected jointly by the Thesis Chairman and the student. Required of all third year Honours students and open to Qualified Majors who have completed Psychology 300, 301, 303, 401 and 403, and who have permission of faculty. (6 credits)

PSYCHOLOGY 502Z
Honours Seminar
This course will consist of a sequence of topical lectures of discussions conducted by the departmental staff. Topics will be of a contemporary nature, and will focus on current research. (6 credits)

PSYCHOLOGY 504Z
Mathematical Theories of Behaviour
Prerequisite: Psychology 300Z, 301B, 303A, 401A, 403B or instructor's permission. This course is intended to demonstrate how mathematical concepts and techniques are employed in the formulation of psychological theories. Theories of simple learning, perception, decision-making and reasoning will be examined. The
course pre-supposes no particular background in mathematics and will be taught at a level of mathematical sophistication determined by the skills that students bring to it. It is a course that may be of interest to the general student of science, or the psychology student seriously concerned with problems in theoretical psychology. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 506Z
Directed Readings
This course is designed for the exceptional, advanced psychology student (3rd year Major and Honours only) who wishes to do independent literature research on a specific topic in psychology. This research will culminate in a written paper. Students should have a well defined research topic before they register for this course. Final acceptance to this course is subject to department approval. Seminars to be scheduled individually. (6 credits)

PSYCHOLOGY 508Z
Community Psychology Practicum
Prerequisite: Psychology 406Z. The student will operate as an enabler or technical assistant to a community action agency applying community psychology principles. He will develop and maintain an information system or equivalent programatic activity for his host agency and be descriptively evaluated by his agency as well as by the professor. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY 521A/B, 523A/B
Advanced Topics in Psychology
Prerequisite: Permission of the Instructor. Subject matter will differ from one offering to another. The course provides students with an opportunity for advanced study in a field of current research importance. (3 credits each)

51.25.2 DEPARTMENT OF SOCIOLOGY

SOCIOLOGY 301 (A/B) or an equivalent introductory course in sociology at CEGEP or elsewhere is the normal prerequisite for registration in all other subareas of the fields for elective students as well as Honours and Majors. It will be waived only in genuinely exceptional cases with the consent of the Chairman and the Professor. One or more of the following guidelines will also be applied in decisions regarding the admission of a student to any given course in Sociology.

A. Honours and Majors who have completed an Introductory Sociology at CEGEP or elsewhere are encouraged to take Sociology 303B and 305B plus the appropriate number of general electives and electives in Sociology. Sociology 301B is intended to accommodate students who enter university at mid-year and others who wish to acquire the prerequisite credits for subsequent study in Sociology during 1977/78.

B. University I students are restricted to the Sociology 300 level courses in choosing their electives.

C. University II students may choose their electives in Sociology from those of the 300 and/or 400 level courses. Sociology 450 is strongly recommended, especially for Honours students.

D. University III students may choose their electives in Sociology from the 400 and/or 500 level courses. One cognate course may be included with departmental approval.

F. The elective Sociology courses should be distributed among the three university levels.

G. Honours students must maintain a 70% average in Sociology to remain in the Honours programme.
SOCIOLOGY 301A/B
Introduction to Sociology
A survey type course which examines society in terms of social structure and social processes using the basic concepts of scientific Sociology. A preliminary examination of the substantive areas of social life is undertaken, i.e. the family, socialization, religion, stratification, social control and deviance, education, economic systems and political institutions, etc. (3 credits)

SOCIOLOGY 302Z
Canadian Society
Prerequisites: Sociology 301A/B First part of the course will bespent developing a theoretical framework—the "hinterland-metropolis" perspective—which will be used to examine the dynamics of different "inter-groups" in Canada. This will be done within the context of three basic structures, economic, political and regional. The second part of the course will be concerned with applying this metropolis-hinterland framework to two specific areas from the following, multinational corporations and underdevelopment, agrarian protest movements, community studies in Canada, Canadian identity and regional disparity, native peoples, and third Party political movements in Canada. (6 credits)

SOCIOLOGY 303B
Social Organization
Prerequisites: Sociology 301A/B or the equivalent. Examines the main concepts and basic characteristics of social organization in comparative and evolutionary perspectives. Emphasis will be upon the presentation of a basic conceptual framework with which to examine the specific forms of and changes in the comprehensive pattern of social organization. (3 credits)

SOCIOLOGY 304Z
Quebec Society
Prerequisites: Sociology 301A/B. Is Quebec a region or a society? Within the context of the trend towards continental integration, this course studies the evolution of Quebec class structure and economic and social institutions from New France to the present. Throughout, the unifying theme is the interaction between external forces and internal developments, the relationship between Quebec and Greater North America. Of special importance is the development of the distinct rural and urban societies during the 19th century, their interdependence and the social conflict which accompanied their fusion during the 20th century. The impact of rapid urbanization on power relationships both within Quebec and between Quebec and English Canada follows. This course ends with an assessment of Quebec's potential as an independent society. (6 credits)

SOCIOLOGY 305B
Individual and Society
Prerequisites: Sociology 301A/B or the equivalent. This course focuses upon the relations between individuals and their social environment which includes the family, peer groups, social movements, government and other large organizations. Selected theoretical orientations and research methods are considered and discussed in conjunction with findings of various studies. (3 credits)

SOCIOLOGY 306Z
Socialization
Prerequisites: Sociology 301A/B. An examination of the social and cultural processes by which the individual becomes a functioning member of society. Among the perspectives considered are the symbolic interactionist theories of Cooley and Mead, the psychological theories of Freud and Erikson, and the sociological theories of Parsons, Elkin, Clausen, Inkeles, Brim, Wheeler and others. Emphasis is also given to adult socialization and resocialization in such diverse institutional contexts as the family, educational institutions and professions, hospitals, prisons, the army etc. The relation of social structure to role acquisition and role performance constitutes a major focus of the course. (6 credits)

SOCIOLOGY 308Z
Deviance, Crime and Delinquency
Prerequisites: Sociology 301A/B. An examination of the nature, forms, sources, functions and dysfunctions of deviations from social order and control. Deviance is viewed as a social process of action, interaction and relationships that derive from the social structure and have consequence for it. Various forms of deviance, from extreme under-conformity to extreme over-conformity, are considered in terms of contemporary social theory and research with particular emphasis on crime and delinquency. (6 credits)

SOCIOLOGY 312Z
Race and Ethnic Relations
Prerequisites: Sociology 301A/B. Explores the emergence of contemporary ideas about skin colour and ethnic or national group sentiment as they re-shape the social landscape determining ways of individual and collective behaviour as well as self-perception. The course is designed to allow the students to more easily comprehend the ideas of race and culture through the exploration of contemporary explanations, prejudice and intergroup accommodation and studies of the role of these ideas in other societies, at other historical periods, as well as our own society in present time. (6 credits)

SOCIOLOGY 314Z
Marriage and the Family
Prerequisites: Sociology 301A/B. Sociological study of marriage and the family. Earlier phases of course will deal with personality formation within the family, dating and marriage, marital adjustment and problems in marriage generated by social change. Later phase of course will entail an analysis of the family as a basic social institution within a structural-functional framework. Patterns of interaction between family members and between the family and other institutions will be examined. Sources of strain and tension in such relationships will be discussed. (6 credits)

SOCIOLOGY 400Z
Methodology of Sociology
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. A survey of problems and issues in the philosophy of social research, consideration of the relation between sociological theory and research and examination of the major methodologies in Sociology. (6 credits)

SOCIOLOGY 402Z
Social Psychology
Prerequisites: Sociology 301A/B plus University II standing. Human beings change as to their definitions of reality as they interact with others. In this course the focus will be on the reciprocal relationships between the individual and social matrix as they impinge upon each other. Concepts and theories regarding the self, personality, significant others,
SOCIOLOGY 404Z
Sociology of Urban Regions
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. The first semester will be devoted to the historical development of the city, focusing on an analysis of the pre-industrial city from a cross-cultural perspective. The second semester will study the growth of urbanization in North America, concentrating on Canada and the social and spatial organization of Canadian cities. Focus will be on the problems that industrial Canada faces, and an exploration of the course of these problems in the political-economic organization of the nation. The ideologies of planning and urban renewal will be critically evaluated, especially as they are manifested in the functioning of the Montreal Urban Community. Finally an analysis of citizen’s groups and community organization in Canadian cities will be offered. (6 credits)

SOCIOLOGY 406Z
Social Stratification
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. An examination of the major stratification systems—caste, estate, class in their social and historical contexts. Consideration of various theoretical and empirical approaches to stratification with emphasis on contemporary societies. (6 credits)

SOCIOLOGY 408Z
Sociology of Knowledge
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. Study of the relationship between ideas and social structure. Consideration of classic and modern sociological theories on the construction, maintenance, justification, subversion, and change of socially shared ideas about reality. Primary objective of the course will be the use of perspectives derived from sociology of knowledge in the analysis presently found in social, political, religious and economic contexts. (6 credits)

SOCIOLOGY 410Z
Social Movements in Quebec
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. Analysis of major movements for social change that have developed historically in Quebec. Concentration on the rebellion for economic independence 1837; the Louis Riel affair; the anti-conscription movement; Catholicism and the organizing of youth; the labour movement and the separatist movement. RIN through Quebec. (6 credits)

SOCIOLOGY 414A
Economy and Society
Prerequisites: Sociology 301A/B or the equivalent plus Soc 303B or the equivalent. Examines the relationship between the organization of man’s economic life and the range of his social possibilities. The course emphasizes the examination of the ways in which economic activities are legitimated or otherwise affected by social norms and values and of the ways in which various social systems react to the strains created by the accommodation of new technology and of new industrial organizations. (3 credits)

SOCIOLOGY 418B
Complex Organizations
Prerequisites: Sociology 301A/B or the equivalent plus Soc 303B or the equivalent. Presents a sociological analysis of some of the main facets of large and complex organizations. Examines the nature and types of these organizations, various aspects of their internal structure and the relationships between them and their social environment. (3 credits)

SOCIOLOGY 420Z
Social and Cultural Anthropology
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. An analysis and description of the social structure, ritual, symbolism, kinship and political systems of Complex Societies. Special emphasis is laid on Afro-American Anthropology, the Native Peoples of Canada and African traditional political systems. Modern myths on the occult. Edward T. Hall’s Silent Language and Edmund Carpenter’s Anthropologist in the Electronic World also constitute an integral part of this course. (6 credits)

SOCIOLOGY 421A
Sociology of Economic Development
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. A look at the theories and models of economic development with special reference to the metropolis-satellite model of multinational corporation monopoly capitalism. Developmental processes of foreign aid, Peace Corps and CUSO Volunteerism, the role of local political elites and self-reliance are critically analyzed as possible alternatives of obstacles to economic development. (3 credits)

SOCIOLOGY 423B
Population
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. A theoretical approach to current issues related to the determinants and consequences of population structure and dynamics. Emphasis will be given to the relationship between economic development and population growth. (3 credits)

SOCIOLOGY 425A
Sociology of Religion
Prerequisites: Systematic Sociology 301A/B or the equivalent plus University II standing. Analysis of religious experience, beliefs, ritual, and organizations as social facts. Consideration of both traditional and contemporary religious institutions as sources of meanings and values which may either support or subvert ongoing social structures. Attention also given to how non-religious situations generate non-religious (i.e., social, economic, political) movements. (3 credits)

SOCIOLOGY 427B
Sociology of Labour and Capital in Quebec
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. Study of the development of the labour force, the evolution of workingmen’s organizations, the clash between American and domestic unions; the evolution of the new working class; the relations between the state and the labour movement. (3 credits)

SOCIOLOGY 430Z (old 310Z)
Classical Social Theory
Prerequisites: Sociology 301A/B. Examination of the origins of sociology and of the sociological works of nineteenth and early twentieth century European theorists, with consideration of the social and political context. Particular emphasis will be given to the works of Durkheim, Marx and Weber. Reading will include primary sources and critical commentaries. Required of all Major and Honours students in Sociology. (6 credits)

SOCIOLOGY 450Z
Sociological Statistics
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. This course will deal principally with aspects of measurement in Sociology. The first part will
be devoted to the discussion of descriptive statistics in terms of scaling techniques, measurement of central tendency, dispersion, location, and numerical analysis of sociological data. The second part will cover inferential statistics. The principal topics to be discussed will be probability theory, sampling procedures, testing hypothesis and correlational analysis. (6 credits)

**SOCIOMETRY 460A/B**  
Topical Seminar in Sociology  
Prerequisites: Sociology 301A/B or the equivalent plus University II standing. Restricted to Sociology Majors and Honours. Seminar focusing in special sociological topics or areas as designated by those instructors offering such seminars in a given year. For further information consult the Departmental Curriculum Addendum published in spring. (3 credits)

**SOCIOMETRY 500Z**  
Contemporary Social Theory  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. Critical examination of contemporary social theories against the background provided by Marx, Durkheim, Weber and the like. Major attention will be given to the critical assumptions, conceptual distinctions, methodological features and ethical implications of theories. Course will require extensive reading, critical papers and other assignments including class presentations. (6 credits)

**SOCIOMETRY 502Z**  
Sociology of Work  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. First Semester—a macro analysis of the theory and practice of work as it has evolved in western society. Focus will be on tracing the change in the nature of work—the emergence of class changes in work relationships, in the concepts of leadership, authority, and decision-making—as these are influenced by the emergence of the monopoly capitalist system. Second semester a micro analysis of the nature of work in North American Industrial Society. Special emphasis will be placed on comparing the Blue and White Collar worlds of work. The key problems of alienation, automation and powerlessness will be explored. A survey of worker response to these problems will conclude the course. (6 credits)

**SOCIOMETRY 504Z**  
Sociology of Economic Change in Quebec  
Prerequisites: Sociology 301A/B, 304, or the equivalent plus University III standing. Study of Quebec economic institutions as developing historically. Special emphasis on internal colonization and external dependence. To be focused on macro analysis. (6 credits)

**SOCIOMETRY 506Z**  
Sociology of Women  
Prerequisites: Sociology 300 or the equivalent plus University III standing. An examination of the status of women in North American society—especially regarding socialization, marriage and the family, education, religion and the law. Within an historical and comparative framework consideration will be given to the ideology of sexism, revolution, life cycles and socio-economic and ethnic dimensions as well as Woman's Liberation as a social movement. (6 credits)

**SOCIOMETRY 521A**  
Sociology of Education  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. An analysis of the social relationships emerging within a formal education system. The concept of education as a powerful tool for socialization and social control will be explored. Special emphasis will be placed on alternative approaches to the present formal structure, i.e., "living-learning", independent study etc. The phenomena of technology and depersonalization in education are also examined. (3 credits)

**SOCIOMETRY 523B**  
Political Sociology  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. Socio-economic and cultural determinants of political power and political behaviour in Canada will be analyzed. Of special interest will be those situations and epochs in which political behaviour and the institutions of political power are radically modified. An analysis of the new parties and extra-electoral protest movements which influence behavior and power will be important themes. (3 credits)

**SOCIOMETRY 550Z**  
Honours Seminar and Essay  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. A departmental seminar during the first term which will include discussion of methodological and theoretical concerns related to the formulation of the Honours proposals and presentation by students on topics related to their essay. Second term will involve completion of independent research and submission of the Honours Essay. Required of all Third Year Honours students. (6 credits)

**SOCIOMETRY 558Z**  
Introduction to Social Work  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. This course attempts to provide the student who is giving consideration to Social Work as a career an opportunity to finalize a decision by examining the nature and scope of this profession, its history and methods, and the basic elements of the casework process, namely, the study, diagnosis and treatment procedures. Also examined will be the role of community resources in the casework approach. (6 credits)

**SOCIOMETRY 560A**  
Topical Seminar in Sociology  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. Restricted to Sociology Majors and Honours. Seminar course focusing on special sociological topics or areas as designated by those instructors offering such seminars in a given year. For further information consult the Departmental Curriculum Addendum published in spring. (3 credits)

**SOCIOMETRY 562Z**  
Topical Seminar in Capitalism and Underdevelopment in Africa and Latin America  
Prerequisites: Sociology 301A/B or the equivalent plus University III standing. This course is an application of the theories of economic development to the African and Latin American experience with multi-national corporation domination of their economies, it raises the question of whether self-reliance (in the sense of Nyerere's "IJAMAA") is a more viable alternative to development for Africa and Latin America, rather than the creation of a local petty bourgeoisie of entrepreneurs. (6 credits)

NOTE: Each student must have his programme approved by the Department. The following directives should normally be observed:
1) 6 credits (1 full course) should be chosen in each of the theological areas: Old Testament, New Testament, Systematic, Historical.
2) 6 credits (1 full course) should be chosen in a non-Christian tradition.
3) A maximum of 18 credits (3 full courses) may be chosen among the 300-level courses.
4) 6 credits (1 full course) may be taken as a cognate course, offered in another department.
5) A group of 18 to 24 credits (3 to 4 full courses) within one area should be planned in order to assure each student of expertise in some aspect of Theology.
6) A reading knowledge of those languages required for advanced work must be planned.
7) An average of 65% in all Theology courses must be maintained.

51.26.2 DEPARTMENT OF THEOLOGICAL STUDIES

All courses in the Department with the exception of 599Z, are open to any qualified student of Concordia. The various Catholic School Commissions have openings for those qualified to teach religion. Interested students should take at least a Major in Theological Studies. From an educational point of view, we advise interested students to enroll in a Double Major, i.e. Theology plus another subject which the student would like to teach.
Shifting governmental policies in the classification of teachers have led us to offer the following programme options: Specialized Programme: with the approval of the Department, a student in a particular case may be granted a specialized degree after completion of 60 credits in Theological Studies.

51.2.6.3 COURSE DESCRIPTIONS

COURSES OF GENERAL INTEREST

THEOLOGY 300Z
Selected Topics in Theology (6 credits)

CONTEMPORARY RELIGIOUS PROBLEMS

THEOLOGY 301A
Prayer as Seen in the Bible
The recent upsurge of religious experience from Pentecostalism to Eastern mysticism shows modern man's deep interest in prayer. The course will investigate the various Biblical understandings of prayer in order to discover its foundations and to establish what can authentically substantiate and enrich the prayer experience. (3 credits)

THEOLOGY 302B
Prayer as Seen by Contemporary Theologians
It is noteworthy that contemporary theologians of various traditions see prayer as a supremely important theological subject. Some of these authors will be studied, with particular reference to the different approaches represented respectively by Hans Urs von Balthasar and Karl Rahner. (3 credits)

THEOLOGY 303Z
Theology of Hope
The "Death of God" movement raised many unanswered questions before its own demise. It clamored for a God that would be seen as involved with man. The challenge was met by a dynamic new start called "theology of hope" which evolved into "political" theology, theology of revolution, theology of liberation, theology of play and celebration, and currently, a theology of human and divine suffering. Representatives of these theologies will be read in selection and evaluated in the light of biblical theology. (6 credits)

THEOLOGY 310Z
Contemporary Atheism
The Christian of today has to face an accelerated process of secularization and new forms of atheism. This course seeks to analyze the contemporary phenomenon of "atheism" to examine its roots, to raise the question of its positive meaning, and to define a Christian attitude towards it. Through this dialogue with atheism we shall attempt to uncover the essentials of Christianity itself. (6 credits)

THEOLOGY 311Z
Christian Ethics
Through an analysis of the main present-day moral problems, and in confrontation with non-Christian and non-religious interpretations, we intend to elaborate the specific character of Christian ethics. Particular attention will be given to the necessary changes within any moral system. (6 credits)

THEOLOGY 313Z
Religious Experience in Contemporary Society
An exploration of some of the less orthodox pathways taken by modern man in his search for religious meaning. Presentations will be given by those involved in this search in a variety of ways. The course will also uncover historical precedents for modern religious manifestations in the Hindu, Buddhist, Jewish and Christian cultures. The occult and its appeal, Chemically-induced religious experience and its authenticity. Hasidic Judaism, Spirituality. The "charismatic movement" in Christianity. Eastern mysticism in the West. (6 credits)

THEOLOGY 315Z
The Christian Mystical Tradition
A study of mystical experience in Christianity through the ages. The study will include not only an investigation of great representatives of mystical traditions but also an exploration of how ordinary Christians search for communion with God. (6 credits)

THEOLOGY 316A/B
Christianity and Marxism
This course will examine the basic premises by means of which Christians and Marxists believe and hope they can cope with the problem of personal and social human existence. An insight into the meaning of transcendence, theism-atheism, humanism, the future, freedom and creativity will be gained through the study of the development of the Marxist-Christian dialogue. The theology of hope will be explored as a possible answer to man's quest for meaning and purpose. (3 credits)

THEOLOGY 317A/B
Russian Religious Humanism
This course studies Dostoevsky, Tolstoy and Berdyaev with reflections upon the following dimensions of religious experience: God, human personality, nature of human existence, necessity of faith, the question of morality without God, creativity, freedom, suffering, existential harmony and the meaning and purpose of life. The ultimate purpose of this course as of Theology 318B is the examination of the anthropological world-view in its quest for self-understanding in order to open up avenues leading to the discovery and experience of God. (3 credits)

THEOLOGY 318A/B
Soviet Humanism and Religion
This course will explore the spiritual and human existential agony manifested in contemporary Soviet writers: Zamyatin, Dudintsev, Bulgakov, Pasternak and Solzhenitsyn. This exploration will serve as an insight into the possibility of whether humanity can or cannot exist without religious experience in the context of a socio-political negation of God. (3 credits)

THEOLOGY 319Z
Theology and Development
A study of the role that Christianity has played and has still to play in the development of the third world. The focus of this course will be one of the developing areas, e.g. Latin America, Africa, Asia, depending on the interests and needs of the students. (6 credits)

THEOLOGY 321A/B
(Also listed as Interdisciplinary Studies 321A/B)
Women in Christianity
A study of the theological and historical roles of women in Christianity. The course will examine female prototypes and images of
women in the Old and New Testaments, Fathers of the Church, canon law, mediaeval theology, the Reformation and modern theology. It will also treat the roles of prominent women in the history of Christianity. (3 credits)

THEOLOGY 324Z
Alternate Modes of Christian Commitment
A study in alternate modes of Christian living distinguished by a rigorous communal adherence to the evangelical counsels of poverty, chastity and obedience. Christian history speaks of these adherents as cenobites, monks, nuns, friars or clerks regular. The variety of this Christian experience and its influence on the development of society will be the two main focal points. (6 credits)

THEOLOGY 325Z
Marriage
A study of the phenomena that express man's need for love and union. Marriage has traditionally been the most common symbol of this love and union answering a psychological, social and religious need. Questions are being asked concerning the necessity and permanence of marriage as a civil or religious institution. (6 credits)

THEOLOGY 331A
Twentieth Century Consciousness of God
A study of representative intellectuals of various religious denominations and in differing academic disciplines in relation to their challenges to traditional ongoing theological discourse. The pathos of the intellectual will be contrasted with the understanding faith of the theologian. The open-endedness of the Catholic faith will be discussed. (3 credits)

THEOLOGY 332B
Nineteenth Century Criticism of Christianity
The course entails: a) an introductory consideration of the Enlightenment and in particular, of Lessing as theologian; b) theological perspectives of Schleiermacher and Hegel; c) the theological reductions and criticisms of Strauss, Feuerbach, Marx, Kierkegaard and Nietzsche. (3 credits)

THEOLOGY 337Z
The Problem of Evil
An exploratory course that will treat, from a theological and philosophical perspective, the problem of evil both historically and thematically; historically by considering occurrences of various modes of speaking about evil; thematically, by considering the methodological issue involved in the legitimacy, relevance, and dynamics of such an enquiry. (6 credits)

INTERDISCIPLINARY EXPLORATIONS

THEOLOGY 340A
Theology and the Arts I: The Mythic Image
An examination of the classical media and art forms in music and painting, exploring the mythic and poetic foundations of theological discourse and its relation to the imagination of the artist. (3 credits)

THEOLOGY 341B
Theology and the Arts II: The Open-Eye
An exploration of the most recent media, art forms and underground films in order to see the "god metaphors" and, with a theological reflection, to become aware of the new allegory and the civilizing function of the God of the Imagination. (3 credits)

THEOLOGY 355Z
Ultimate Concern in North American Literature
Existential questions (the absurd, alienation, utopia, etc.) will be explored in a theological perspective, through the study of representative works of drama and fiction. (6 credits)

THEOLOGY 361Z
Theology and Politics
A study of the historical reciprocity between political structures and the theological expression of man's social and political existence. (6 credits)

THEOLOGY 364A
Theological Dimensions of Psychology I
The course is a theological exploration in psychological studies embracing: a) a critical and constructive consideration of Freud and Jung; b) a survey of neo-Freudian social psychologists such as Horney and Sullivan; c) a survey of third force psychologists such as Rogers, Maslow and May. (3 credits)

THEOLOGY 365B
Theological Dimensions of Psychology II
This course consists of exploratory studies on main themes and fields of concern related to psychology and theology such as faith, anxiety, psychic projections, devil-beast, adulthood, and informed consciousness and transformation. Audio-visual methods and seminar sessions will be used. Individual projects and research on a tutorial basis will be encouraged. (3 credits)

THEOLOGY 370Z
Science and Religion
A study of representative classic and contemporary formulations of the nature of scientific and religious truth. This course will examine both the types and the bases of various claims made in the areas of science and religion. (6 credits)

RELIGIOUS DIVERSITY

THEOLOGY 377Z
Primitive Religions
A consideration of the basic religious attitudes and postures of primitive man and of the role of religion in his life. An attempt will be made to assess the contribution of the religion of primitive man to Christian theology. (6 credits)

THEOLOGY 379Z
Eastern Religions (Reading Course)
Introduction to the classical works of major Eastern Religions. (6 credits)

THEOLOGY 380A
World Religions I: Islam
This course intends to acquaint the student with the different stages of the Muslim Tradition and the characteristic features of the Islamic world-view. It combines a survey of Islam with an interpretation of the specific practices and articulations of the Muslim faith. Main areas discussed: Qur'an (Coran), Muhammad (The Prophet), Hadith (Prophetic Tradition), Shari'ah (Religious Law of Islam), Kalam (Muslim Theology), Sufism (Muslim Mysticism), Shi'ism (Islamic Heterodoxy), and Modern Socio-Religious Developments. (3 credits)

THEOLOGY 381B
World Religions II: Buddhism
This course intends to initiate the student into Buddhism as a world-view and Way of Life. A survey of its religio-historical and religio-geographical development will be combined with readings in Buddhist texts. The course follows the traditional Buddhist Tri-ratna structure, including: The Life of the Buddha, the Dharma (Buddhist Doctrine and Principles), and the Sangha (the Buddhist Community and its Schools). (3 credits)

THEOLOGY 385Z
Ancient Near Eastern Religions
The religions of ancient Mesopotamia, Egypt and the Levant during the bronze and early iron ages. This material provides our best docu-
LOYOLA
FACULTY OF ARTS AND SCIENCE
51.26.3 DEPARTMENT OF THEOLOGICAL STUDIES:
COURSE DESCRIPTIONS

INTRODUCTORY COURSES

THEOLOGY 400Z
Introduction to the Old Testament
An introduction to the Old Testament experience of man with God in its various expressions (in the historical, prophetic, and wisdom literature). Emphasis will be given to the methods of Old Testament interpretation and its permanent significance for Christian thought. (6 credits)

THEOLOGY 410Z
Introduction to the New Testament
This course is designed to introduce the student to the methodology and the tools of New Testament interpretation as a whole. Particular emphasis will be given to the literary, historical, and doctrinal analysis of the Gospel of Mark. (6 credits)

THEOLOGY 430Z
Introduction to Systematic Theology
After an introduction to the realm, methods, tools, and sources of theology, the course intend to elaborate the overall dynamic structure of the dialogical existence of man with God, which is the horizon in which man and world obtain an intelligent and positive meaning. (6 credits)

THEOLOGY 450Z
Introduction to History of Christianity
An introduction to the historical dimension of Christian existence, of its structure, methods, major driving ideas and personalities within the different epochs. (6 credits)

THEOLOGY 470Z
Methods in the Study of Religion
This course will examine some of the main approaches to the study of religion, giving emphasis to the key problems and techniques of inquiry in these approaches, with special attention to the theological method in its distinctive Christian context. (6 credits)

THEOLOGY 472Z
Religious Language
A study of religious and theological language in relation to scientific, philosophical and symbolic forms of human self-expression. This course will examine different forms of creativity in religious language and of critical interpretation in theological language. (6 credits)

ADVANCED COURSES

Prerequisite: Successful completion of a corresponding 400 level course or its equivalent.

THEOLOGY 500Z
Advanced Topics in Theology
(6 credits)

SCRIPTURE

THEOLOGY 501Z
The Pentateuch and the Historical Books
In the light of the present state of research the oral and written traditions of the Pentateuch and the Historical Books will be explored with a particular emphasis on the different kerygmatic and theological interests. (6 credits)

THEOLOGY 503A
The Prophetic Traditions
An introductory historical survey of the prophetic traditions in Israel's history: the origin, character and motive of this activity. Special attention will be given to the fundamental and unique role played by the individual prophets, through an arrangement of themes and structures. Special attention will be given to selected texts. (3 credits)

THEOLOGY 504B
The Psalms and Wisdom Literature
An introductory historical and theological survey focusing on: 1) the Psalms: their conception and creation as man's prayer, a link in the history of God's revelations; and 2) the Wisdom movement: its development and its bearing on biblical theology. Special attention will be given to selected texts. (3 credits)

THEOLOGY 511A
The Synoptic Gospels
An introduction to the study of the gospels as sources for the life and teaching of Jesus. It will cover the history of the synoptic problem, critical approaches, and the results of investigations into the synoptic gospels for an understanding of Jesus of Nazareth. Particular attention will be given to the Gospel of Luke. (3 credits)

THEOLOGY 512B
Acts and the Beginning of Christianity
Continuation of 511A (though it may be taken separately by permission of the Professor) concentrating upon the historiography of Luke and his description of the rise of Christianity as a separate group within Judaism. Attention will be paid to Luke's use of sources in the formulation of his theology, especially with respect to his Christology and Ecclesiology. (3 credits)
This course will develop a contemporary understanding of the doctrine based on Christian revelation as it has been crystallized in the Bible and explained by historically unfolding doctrines of the Church. Three questions will be emphasized: From what have the world and man been redeemed? What is the outcome of redemption on the world and man? By whom and how is redemption performed? (3 credits)

THEOLOGY 544A
The Trinity I—Historical Presentation
The traditional doctrine of the Trinity as developed in Scriptures, the Church Fathers, and Councils of the Church. (3 credits)

THEOLOGY 545B
The Trinity II—Systematic Interpretation
An examination of current discussions of the Trinity in Theological inquiry. (3 credits)

THEOLOGY 551A
Recent Developments in Moral Theology
This course will focus on the Protestant and Catholic theologians who have in the recent past developed changes in the approaches to moral theology and to particular moral problems. (3 credits)

THEOLOGY 552B
Contemporary Moral Problems
A continuation of Theology 551 with particular emphasis on specific themes. (3 credits)

HISTORY OF CHRISTIANITY

THEOLOGY 561A
Post Apostolic Christianity (98-180 A.D.)
(3 credits)

THEOLOGY 562B
Christian Communities in the Third Century
(3 credits)

THEOLOGY 563A
Religion and Society in the Early Middle Ages
A study of theology and religion in the Europe of the 12th and 13th centuries, using the manifestations of popular piety as an introduction to the various developments of the period. (3 credits)

THEOLOGY 564B
Religion and Society in the Later Middle Ages
A study of Christianity in the 14th and 15th centuries. The rise of reform movements from within the Church will be studied as a means of understanding the theological and social situation of the period. (3 credits)

THEOLOGY 565Z
The Catholic and Protestant Reformation of the XVI Century
A historical and theological analysis of the events, personalities and ideas emerging from the religious upheaval of the XVI century. Emphasis will be placed on the parallel restructuring, re-thinking and renewal that existed in both Catholic and Protestant communities. (6 credits)

THEOLOGY 567Z
History of Christianity: 20th Century
This course will discuss issues of contemporary Christianity; Modernism, theological revival, ecumenism, the contribution of the Second Vatican Council. (6 credits)

THEOLOGY 568A
Canadian Church History: Preconfederation
A survey of the persons, institutions, and religious thought that formed the mentality of the Christian Churches prior to Confederation. (3 credits)

THEOLOGY 569B
Canadian Church History: Postconfederation
A survey of the persons, institutions, and religious thought that formed the variety of mentalities in Canadian Christianity. (3 credits)

THEOLOGY 591Z (630Z)
Theological Re-Examination of Religious Education
In response to the growing criticism of Religious Education, this course will explore the traditional values and the most recent advances of Biblical, systematic, moral and historical theology for an integral education at the elementary and high school levels. A variety of experts will lecture in weekly units on the various topics and levels. (6 credits)
**THEOLOGY 592Z (632Z)**  
Seminar in Religious Education  
Theologians and teachers will deepen the theological content of course 591 according to the particular needs of the various levels of religion teaching through the individual research and group discussion. The treatment of audiovisual media, textbooks, play forms, and new programmes will be evaluated from the theological point of view. (6 credits)

**THEOLOGY 599Z (610Z)**  
Honours and Majors Theology Tutorial  
Open to Honours and Major Theology students. At the end of the second year, students choose, in consultation with a tutorial director, a research topic or other specialized work for an intense analysis during the final year. (6 credits)

The following courses are university level courses which were offered in the year indicated but did not appear in the official Calendar.

**THEOLOGICAL STUDIES 1976**
- Theology 300B
- Theologies of Liberation and Political Theology (3 credits)

61.13 THE ORDER OF CHARTERED ACCOUNTANTS

61.14 SPECIAL CERTIFICATE

61.15 COMMERCE & ADMINISTRATION CONSULTATIVE COMMITTEE
61.2 Admission Requirements

General admission requirements are listed in § 13

Specific requirements for admission to the Faculty of Commerce & Administration for students in CEGEP are two semester courses in mathematics—College Algebra and Introduction to Calculus. Arrangements will be made in the first-year programme to give special instruction to those students who lack adequate mathematical preparation.

61.2.1 BACHELOR DEGREE PROGRAMMES

The faculty of Commerce and Administration offers two distinct Bachelor programmes. The Bachelor of Commerce (BComm.) degree is the more structured "professional" type programme in which the student will select a Major from those offered in Commerce or Economics. The Bachelor of Administration (BAdmin) degree is a less structured "liberal" type programme which permits the student to pursue interests within or outside the Faculty and offers the possibility of complementing a fundamental grounding in Administration with minor concentrations in an area of interest. Degree requirements listed below apply to all students entering the programme on or after June 1, 1976.

61.2.2 CORE REQUIREMENTS

The required 51 credit core is identical for both programmes and comprises of the following courses:

<table>
<thead>
<tr>
<th>Year</th>

<tr>
<td></td>
<td>Economics</td>
<td>210</td>
</tr>
</tbody>
</table>

61.2.3 BACHELOR OF COMMERCE PROGRAMME

This programme provides the student with an education for business life. It is our intention to graduate students liberally educated about business. To accomplish this, we have designed a multi-disciplinary and interdisciplinary curriculum which is intellectually challenging.

The first year of the programme is intended to provide an informative accumulation of operational attitudes, skills and tools which form the base for the core concentration.

The core concentration in the second year attempts to give broad experience in all phases of business in a co-ordinated, analytical and reflective period of study. All the resources of the student's intellectual ability are combined with his interdisciplinary studies to analyze, formulate,
judge, and solve challenging business situations.

The last year of the programme is intended to provide the student with an opportunity to immerse himself in an area of specialized study. In addition, the student participates in a course which is designed to test his ability to integrate his knowledge and to view the study of business as a whole.

In view of this design, all students must follow the sequence of the courses on the basis of an academic year as outlined in the curriculum. No student will be permitted to register for second or third year courses without having completed the courses of the first academic year.

Exceptions may be authorized in writing for valid reasons by the Dean or the Assistant Dean – Student Affairs.

**Degree Requirements**

To obtain the degree of Bachelor of Commerce, all students are required to follow a Major Programme. A Major consists of at least 24 credits in the chosen discipline in addition to the required 51-credit core. The remaining credits may be selected to form a minor programme if applicable. Major and minor programmes are available in the following areas:

</tbody>
</table>

30 credits may be elected from any of the offerings of the University but at least 15 credits must be beyond the introductory level.

*Both degrees have a common core of 51 credits out of a total of 90 credits.*

Students will indicate their preferred field of concentration, either major or honours, at the time of application for entry. It should be noted, however, that since the programme of study of the first year is common to all programmes, students may change to another programme, provided, of course, that the capacity of the programme permits it.
61.2.4 BACHELOR OF ADMINISTRATION PROGRAMME

The Bachelor of Administration Programme is designed to develop problem-solvers and decision-makers in all walks of life.

A successful graduate is able to develop objectives and strategies, organize people and resources, direct an organization's activities and control these activities, and appraise objectives and strategies in the light of results.

The programme has been made flexible enough to allow a student to develop according to his own needs.

61.3 General Information

Old Credit Programme (Transition)

Students who have enrolled in a programme at this Faculty prior to June 1, 1976 will complete the programme as shown in the University Announcement 1975/76. For substitution of courses not offered in the new programme, students will consult with representatives of the respective departments.

Failures

Students are cautioned that a failure in a first term course will prohibit them from proceeding to a second term course for which the first is a prerequisite. Students who find themselves in this position have two alternatives available:

1. They may drop the second term course and register in a section of the failed course, if available.
2. They may drop the second term course and apply to write the supplemental examination (in March for potential graduates and in July for others) if they are eligible to do so. In this case, students may register in another course for which they have the necessary prerequisite.

There will be a course change period at the beginning of the second term at which time students falling in the above categories must make arrangements with the Office of the Registrar for the necessary course changes.

French Language

The business community, as well as governments, now express a preference for university graduates who are bilingual. We, therefore, advise all students to take advantage of the opportunities available during their years at this university to ensure that they are bilingual when they present themselves for employment upon graduation.

Courses/Non Commerce Students

Students not registered in the Faculty of Commerce & Administration, who wish to undertake any courses offered by the faculty, but do not have the stated prerequisites, must obtain permission in writing from the chairman of the department concerned, prior to registration.

61.4.2 COURSE DESCRIPTIONS

ACCOUNTANCY 213
Financial I
This course examines the theory and practice involved in recording and reporting an organization's financial information for interested parties. It includes the preparation and analysis of financial statements. This course is required for all Commerce and Administration students and is recommended for non-Commerce and Administration students, particularly those considering graduate studies in business administration. (3 credits)

NOTE A / See § 200.2

ACCOUNTANCY 218
Managerial I
Prerequisite: Accountancy 213. This course is an introduction to the development of accounting information for purposes of control, decision making and the more efficient operation of the enterprise. (3 credits)

NOTE A / See § 200.2

ACCOUNTING 220 (120)
An Accounting Approach to Management
This course is designed to cover certain major aspects of management related to the accounting process. These include: business organization; accounting concepts; financial statement analysis; management uses of accounting information; and, the effect of taxation on business decisions. (3 credits)

NOTE A / See § 200.2; Commerce and Administration students may not take this course for credits.
ACCOUNTANCY 221 (121)
Accounting and Management
Prerequisite: Accountancy 220. This course is sequential to Accountancy 220, and examines in greater depth the areas covered in that course. (3 credits). NOTE A/See § 200.2; Commerce and Administration students may not take this course for credits.

ACCOUNTANCY 323
Intermediate I
Prerequisite: Accountancy 213. This course extends, at a senior level, the material covered in earlier courses, integrating the previous work with advanced theory and application. Intensive study is made of the theory and practice of external reporting by commercial and other entities. Concepts and procedures involved in the valuation of resources are studied, as are the concepts of income determination. (3 credits). NOTE A/See § 200.2

ACCOUNTANCY 325
Advanced
Prerequisite: Accountancy 326. This advanced course is primarily concerned with corporate combinations. A study is made of other advanced accounting areas. (3 credits). NOTE A/See § 200.2

ACCOUNTANCY 326
Intermediate II
Prerequisite: Accountancy 323. This course continues the intensive study of Intermediate I with particular emphasis on obligations, funds valuation statements and financial statement analysis. (3 credits)

ACCOUNTANCY 403
Cost and Management Accounting
Prerequisite: Accountancy 323. This course, based primarily on lectures and problem-solving is directed to needs of students who contemplate careers in professional accounting as members of recognized accounting bodies. A detailed examination is made of the various techniques, systems and procedures applicable to the managerial use of accounting information for decision-making, profit-planning and control. (3 credits). NOTE A/See § 200.2

ACCOUNTANCY 407
Accounting Practice and Policy
Prerequisite: Accountancy 323. Corequisite: Accountancy 326/410 and Accountancy 429/432. If any of the related courses have not been taken previously, they must be taken simultaneously. This course, based almost exclusively on the case method of instruction, is of particular relevance to students who contemplate professional accounting careers as members of recognized accounting bodies. Areas previously or concurrently covered in the field of corporate financial reporting are extended, and current accounting literature and current pronouncements of professional accounting bodies are examined. Course objectives include further development of theoretical concepts through which appropriate solutions to practical problems may be derived, and the development of accounting policies to meet given and general situations. (3 credits). NOTE A/See § 200.2

ACCOUNTANCY 410
Specialized
Prerequisite: Accountancy 325. In this course an examination is made of specialized aspects of financial accounting. Some of the areas to be covered are government accounting, fund accounting and unusual aspects of statement preparation for entities such as banks and insurance companies. (3 credits)

ACCOUNTANCY 414
Information Systems and Control
Prerequisite: Accountancy 213. This course includes information systems theory, control theory and practice, responsibility accounting, and a survey of selected management science techniques. Through case analysis and class discussions the interrelationships between information and control systems, managerial style and human behaviour are established. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 422
Cost Accounting (Advanced)
Prerequisite: Accountancy 403. This course continues at an advanced level the study of modern cost accounting systems; and emphasizes the contemporary problems facing cost accountants, and their potential solutions by the use of sophisticated techniques. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 429
Analytical Auditing
Prerequisite: Accountancy 326. This course introduces auditing theory and its application by external and internal auditors in fulfilling their respective objectives and responsibilities. The focus is on the audit of transactions or procedures used by organizations. An analytical approach is used to discuss different accounting systems and to evaluate systems of internal control. The development and use of detailed audit procedures and audit programs is also covered. Cases and problem solving form the basis of student involvement in this course. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 432
Financial Auditing
Prerequisite: Accountancy 429. This course emphasizes the role of the public accountant in expressing an opinion on the financial statements of an organization. The use of audit standards, procedures and internal control is related to the expression of an auditor's opinion. Cases and problem solving form the basis of student involvement in this course. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 433
Auditing and Investigation
Prerequisite: Accountancy 429. This course deals with questions related to professional accounting practices and also covers data obtained through management services that auditors are frequently requested to undertake. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 441
Taxation I
Prerequisite: Accountancy 213. This course examines the Canadian taxation structure. Emphasis is given to the income taxes levied on individuals, and includes the taxation of capital gains, employment, business and investment income. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 442
Taxation II
Prerequisite: Accountancy 441. This course extends the coverage of Accountancy 441 with a detailed examination of taxes on corporate incomes, and of corporate distributions. Sales taxes, succession duties and other tax areas are also examined. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY 451
Computer Auditing
Prerequisite: Computer Science N-211
and Accountancy 429. This course explores the impact of large scale computer use on the auditor and his examination of a company's records and systems of internal control. The emphasis is on helping the auditor understand when a computer can be used to assist him and how to follow through with its use. Topics covered include the different controls and techniques required in a computer system, the audit trail, approaches to computer auditing and computer application for auditing, computer and software security, and consideration of the various computerized audit packages available. (3 credits)

**ACCOUNTANCY 461**
Accounting Theory I
Prerequisite: Accountancy 325. This course examines the framework underlying current accounting thinking and procedures, and a study is made of the development and the influence of professional accounting organizations and regulatory bodies on accounting theory. Controversial areas are emphasized. (3 credits) NOTE A/See § 200.2

**ACCOUNTANCY 462**
Accounting Theory II
Prerequisite: Accountancy 461. This course extends the coverage of Accountancy 461. Particular emphasis is placed on developments in the current literature and in problem areas facing the accounting profession. (3 credits)

**ACCOUNTANCY 470**
Special Topics in Accounting
Prerequisite: Departmental approval. Intended to complement and supplement accounting courses taken previously or currently at the senior level, this course emphasizes accounting literature and modern thought. Students are encouraged to work independently on research topics of interest to them. Enrolment is restricted and is subject to departmental approval. (3 credits) NOTE A/See § 200.2

**ACCOUNTANCY 471**
Accounting Seminar
Prerequisite: Accountancy 470. This course examines in greater depth areas of individual interest. Enrolment is restricted and is subject to departmental approval. (3 credits) NOTE A/See § 200.2
61.5 Administration

ADMINISTRATION 201 (101)
Introduction to Administration
This course is designed to develop a basic understanding of the role of administration in our society (the efficient organization and employment of people in the techno-structure). (3 credits)
NOTE: Commerce and Administration students may not take this course for credits.

ADMINISTRATION 202 (102)
Perspective on Business
This course is designed to review the historical development of business (in Canada in particular) and to examine the relationships between the firm (management) and the owners, the employees, the customers, the government and the community. Further, it studies some of the problems facing Canadian business today: the dehumanizing aspect, pollution problems, large vs. small firms, foreign ownership, competition, etc. (3 credits)
NOTE: Commerce and Administration students may not take this course for credits.

ADMINISTRATION 350
Transportation
This course will deal with economic principles underlying the various modes of transport: i.e. rail, water, motor, air and pipeline. Current problems of each will be discussed. In addition, a survey of the principles of business logistics will be covered. Cases will be utilized when possible. (3 credits) NOTE A/See § 200.2

61.6.2 COURSE DESCRIPTIONS

FINANCE 314
Introduction to Finance I
Prerequisites: Economics N-210 or 300 or equivalent, Accountancy 213, and Accountancy 218 previously or concurrently. A course dealing with financial standards and forecasting, the theory of interest, capital expenditure decisions, current asset management and the behaviour of money and capital markets. (3 credits) NOTE: Students who have previously taken Finance 215 may not take this course for credit. NOTE A/See § 200.2

FINANCE 315
Introduction to Finance II
Prerequisites: Finance 314 and Economics N-209 or 300 or equivalent. A course dealing with short, intermediate and long-term financing instruments, financial structure and valuation, cost of capital and dividend policy. (3 credits) NOTE: Students who have taken Finance 215 should consult the Department concerning permission to take this course. NOTE A/See § 200.2

FINANCE 417
Capital Budgeting Theory
Prerequisite: Finance 315. An examination of the criteria for efficient investments and optimum financial budgeting. (3 credits) NOTE A/See § 200.2

FINANCE 418
Cost Benefit Analysis
Prerequisite: Finance 315. Private and public resource investment and associated problems. (3 credits) NOTE A/See § 200.2

FINANCE 430
Financial Management I
Prerequisite: Finance 315. A study of the role and responsibility of the senior financial officer in the achievement of current control through operational finance. A variety of case studies are used to encourage the students to develop a critical approach to the subject. (3 credits) NOTE A/See § 200.2

FINANCE 431
Financial Management II
Prerequisites: Finance 430. A study of the role and responsibility of the senior financial officer in the achievement of 'current control' and 'performance review' through operational finance, etc. (3 credits) NOTE A/See § 200.2

FINANCE 440
Finance Theory I
Prerequisite: Finance 315. This course will be a study of asset and liability management under conditions of uncertainty. Topics included are: concept of finance, capital and interest, theory of risk and time preferences, capitalization of the income stream, corporate growth and rate of return and capital structure mix. (3 credits) NOTE A/See § 200.2
FACULTY OF 
COMMERCE AND 
ADMINISTRATION

FINANCE: 441
Finance Theory II
Prerequisites: Finance 440. This course will be a continuation of Finance 440 covering such topics as: dividends and the value of the corporation, cost of capital, game theory and liquidity. (3 credits) NOTE A/See § 200.2

FINANCE 452
Investment Analysis
Prerequisite: Finance 315. The examination of the workings of security markets and analytical techniques for the valuation of securities. (3 credits) NOTE A/See § 200.2

FINANCE 453
Investment Management
Prerequisite: Finance 315. A study of diversification and portfolio management techniques. (3 credits) NOTE A/See § 200.2

FINANCE 455
Seminar in Finance
Prerequisite: Finance 315. This course is intended primarily for honours or majors students and provides an opportunity for more intensive study in one or more specific topics of finance. The topic will vary according to the special interests of the professor and the students. (3 credits) NOTE A/See § 200.2

FINANCE 460
Financial Intermediaries (National)
Prerequisite: Finance 315. Principles of money and credit in their application to the operations of the central bank, chartered banks, and the financial system and markets generally. (3 credits) NOTE A/See § 200.2

FINANCE 461
Financial Intermediaries (Quebec)
Prerequisite: Finance 315. A study of the operation of financial institutions in the province of Quebec. (3 credits) NOTE A/See § 200.2

COMMERCE AND 61.7.2 COURSE DESCRIPTIONS
ADMINISTRATION—

61.7.2

MANAGEMENT: COURSE DESCRIPTIONS

MANAGEMENT 211
Business Law
A general survey of the law obtaining in the Province of Quebec with special emphasis on the aspects thereof relating to business and commerce. It includes a basic outline of the law of Domicile, Marriage, Persons, Property, Ownership and its modifications, Successions, Gifts and Wills, Testamentary Executors, Contracts, Quasi-Contracts, Offences and Quasi-Offences, Privileges, Hypotheses, and Prescriptions, and a more detailed study of the Contract of Sale, Lease and Hire of Things and of Work, Mandate, Loan, Deposit, Partnership, Suretyship, Pledge, Insolvent and an outline of the basic law applying to Negotiable Instruments. Corporations, Carriers, Bankruptcy and Winding Up, and Copyrights, Patents and Trade Marks. (6 credits) NOTE A/See § 200.2: Commerce and Administration students may not take this course for credits.

MANAGEMENT 213
Foundations of Behaviour
The purpose of this course is to introduce the student to those behavioral concepts relevant to the study of organizational problems. Topics include perception, attitudes, personality, group behavior, roles and culture as they relate to organizational processes. (3 credits)

NOTE: Students will be exempted from this course if they meet either of the following requirements:

(a) Two semesters of psychology, one of which must be social psychology.

or,

(b) Two semesters of psychology and one semester of sociology.

MANAGEMENT 266
Management: Theory & Practice
The purpose of this course is to introduce the student to management theory and practice. Management will be viewed as a discipline and as a process (planning, organizing and evaluating). The evolution and scope of management will be considered with illustrations drawn from Canadian experiences. (3 credits)

MANAGEMENT 340
Organizational Behaviour
Prerequisites: Management 213 & 266. This course is designed to provide the student with an opportunity to study behaviour within formal organizations. Through theoretical and experiential approaches, the focus of instruction progressively moves through the different levels of analysis, particularly motivation, leadership and group behaviour. The objective of the course is to improve the student’s perceptual, analytical and problem-solving skills in the diagnosis and innovative resolution of behavioural problems in organizations. (3 credits)

MANAGEMENT 341
Organization Theory
Prerequisites: Management 266 & 340. The function, structure and processes of organizations will provide the focus for study. Interrelationships among the psychosocial, technological, and formal properties of organizations will be examined. Emphasis will be placed on the diagnosis, analysis of organizational problems and optimal design alternatives for improving organizational performance and effectiveness will be explored. The objective is to provide the student with a thorough understanding of the nature of contemporary complex organizations. (3 credits)

MANAGEMENT 342
Organizational Change
Prerequisites: Management 266 & 340. An administrative perspective of the behavioural and rational empirical strategies for effecting change in organizations. Emphasis will be placed on an eclectic approach to the planning and implementation of change. Models and methods of change will be reviewed and opportunities for the development of change-agent skills will be provided. (3 credits)

MANAGEMENT 345
Production Management I
Prerequisite: Quantitative Methods 314. It is the production function of the enterprise that gives us the products or services that we sell. In this course we attempt to help management guide and control this area. Topics include government programs and incentives, health & safety regulations, production incentive systems, management information systems and plant location. (3 credits)

MANAGEMENT 346
Production Management II
Prerequisite: Management 345. This course is a continuation of Production Management I and is designed to supplement the knowledge of those students choosing to minor in Production Management. One or more of the following topics will be dealt with in depth: work measurement and development of standard data for incentive systems; production planning and control; research and development; plant layout and materials handling. (3 credits)

MANAGEMENT 368
Social Aspects of Enterprise
Prerequisite: Second year standing in any faculty. The purpose of this course is to facilitate understanding of the impact of social, economic, political and ethical environments on the process of managerial decision-making. Consideration is given to the conceptual foundations of business including the business corporation, its function and the legitimacy of its power structure. (3 credits) NOTE A/See § 200.2

MANAGEMENT 369
Canadian Business and its Environment
Prerequisite: Second year standing in Commerce. The purpose of this course is to examine the functioning of Canadian business and its relationships with its public, including stock-holders, consumers, employees, labour, community and government. Major contemporary issues such as the impact of technology on people and the physical environment are examined. (3 credits) NOTE A/See § 200.2

MANAGEMENT 402
Supervisory Practice
Prerequisites: Management 266 & 340. A seminar focusing on the emerging understanding of leadership and supervisory techniques in task oriented organizations. Contemporary concepts and research on leadership and supervision will be examined. The seminar will analyze the multiple bases for influence and the situational or contingency aspects of leadership. A balance
among the conceptual, diagnostic, and experiential approaches to the development of supervisory capability will be emphasized. (3 credits)

**MANAGEMENT 409 Principles of Insurance**

This course examines the growth of insurance companies in Canada and their effect upon the economy. In addition, the basic fundamentals of insurance are covered, including such topics as life insurance, income replacement, annuities, group insurance, liability, auto, fire and theft insurance. Practical applications and use of insurance dealing with both personal and business situations will be noted. (3 credits) *NOTE A/See § 200.2*

**MANAGEMENT 420 Business Research Methods**

Prerequisites: Management 340 and Q.M. 243-244 or equivalent. This seminar focuses on the means by which social and organizational data can be gathered, analyzed, and interpreted. Needs of the firm for efficient, timely, and unobtrusive research are given special attention. Topic coverage includes applications of the scientific method, research design, field research techniques, data analysis, research utilization, and use of existing information sources. Student projects will parallel the classroom activities by designing and conducting business research studies of limited scale. (3 credits)

**MANAGEMENT 441 Conflict Management**

Prerequisites: Management 340 & 266. An administrative approach to the study of interpersonal, intergroup and intra-organizational conflict. Utilizes lectures, case studies and interaction exercises to convey theory, empirical research and applications. (3 credits)

**MANAGEMENT 442 Managerial Concepts**

Prerequisites: Management 340 & 266. This course provides an opportunity for intense study of recent developmental topics within the discipline. Topics might include women in management, managing in Quebec, Management By Objectives, long-range planning, equity theories of motivation, changing roles of managers. (3 credits)

**MANAGEMENT 451 Managing a Small Business**

Prerequisite: Accountancy 213. This introductory course emphasizes the operational aspects of management that are uniquely important to a small enterprise. It provides opportunity to practice operational decision-making under conditions characteristic for small firms. (3 credits)

**MANAGEMENT 452 Entrepreneurship**

Prerequisite: Third year standing and departmental approval. This course will provide for the student a source of the basic techniques needed to start or purchase a business of his own. Consideration will be given to evaluation methods, the nature of an entrepreneur, legal and tax aspects and other aspects of interest to an individual starting a venture as a career alternative. (3 credits)

**MANAGEMENT 454 Policy and Strategy for the Small Enterprise**

Prerequisites: Third year standing and Departmental approval. This course will help the student to familiarize himself with problems of strategy formulation and implementation within the framework of starting and/or managing a small or medium sized enterprise. All functions of management will be considered in this context and field work will be encouraged. (3 credits)

**MANAGEMENT 460 Business Policy I**

Prerequisites: Third year standing in Commerce. This course is designed to introduce the student to strategy formulation and implementation. Emphasis will be on integrating the learning of the programme in order to develop in students a global view of the organization. Cases will be drawn from the private, public, and non-profit sectors and consideration will be given to policy problems in both the Canadian and international contexts. (3 credits)

**MANAGEMENT 461 Business Policy II**

Prerequisite: Management 460. This course will concentrate on how the strategy formulated in Business Policy I will be implemented by the organization. Organization structures will be studied in differing environments. The relationships between organization structures and the organization's strategy will be analyzed. The problems encountered by general managers as well as middle managers, in the process of the implementation of the set policies will be studied. (3 credits) *NOTE A/See § 200.2*

**MANAGEMENT 462 Personnel Management I**

Prerequisite: Management 464. This course will focus on the techniques of: recruitment, selection, training, executive development, labour relations, performance appraisal and compensation administration. (3 credits)

**MANAGEMENT 463 Personnel Management II**

Prerequisite: Management 462, or equivalent. The course will stress on the techniques of recruitment, selection, training, executive development, labour relations, performance appraisal and compensation administration. (3 credits)

**MANAGEMENT 464 Labour and Industrial Relations I**

Prerequisite: Management 340. Labour relations is a survey course designed to provide a practical and comprehensive approach to the state of labour-management relations in Canada. (3 credits) *NOTE A/See § 200.2*

**MANAGEMENT 465 Collective Bargaining and Industrial Relations II**

Prerequisite: Management 464. This course is designed to help the student to look at day-to-day problems connected with negotiation and administration of collective bargaining agreements. The course puts some stress on the behavioural aspects of industrial relations. (3 credits) *NOTE A/See § 200.2*

**MANAGEMENT 467 Management Theory II**

Prerequisite: Management 266. This course will attempt to further develop the conceptual framework which was established in Management Theory I. To this end it will examine selected management concepts and appraise their value in terms of their application to the actual practice of business. Issues such as the effect of innovation and technological change, managing the knowledge.
MANAGEMENT 474
Institutional Administration
Prerequisite: Management 340. Management of institutions and agencies in the non-profit (private and public) sector presents unique opportunities and challenges to the manager. This class will provide an introduction to that field. Emphasis will be given to those characteristics of the organization and functioning of these programmes which distinguish them from commercial firms, including the peculiar nature of human services, and the influence of social-political processes. Class activities will utilize theoretical and case material and field observations. Student projects will concentrate on policy formulation and administrative function in an agency of the students' choice. (3 credits)

MANAGEMENT 475
Business Law I
Prerequisite: Second Year Standing in Commerce. This course deals with the Canadian and Quebec Law governing business organizations and the Quebec Civil Law concerning property, contracts, sales, lease, agency, commercial paper, consumer protection, regulation of finance, warranties and product liability, civil responsibility and obligations. It is essentially the body of law governing the relationships among businessmen and between businessmen and consumers, i.e. it is private business law (3 credits)

MANAGEMENT 476
Business Law II
Prerequisite: Management 475. Federal and provincial government regulation of business including bankruptcy, anti-competition, trade marks and patents, labour law, insurance, special commercial contracts including secured transactions, fair employment, environmental law. (3 credits)

MANAGEMENT 477
The Law of Insolvency and Secured Transactions
Prerequisite: Management 475. An examination of the various laws and cases both Federal and Provincial across Canada governing commercial insolvency with particular emphasis upon the liability of directors and officers and the creditors rights in bankruptcy including the role of inspectors and the trustee. An examination of the various forms of secured transactions, which creditors may avail themselves of, more particularly financial institutions including assignment of book debts, pledge, mortgages, bonds, trust deeds. (3 credits)

MANAGEMENT 478
Company Law
Prerequisite: Management 475. The examination of important legal issues relating to the business corporation including an analysis of their legal nature and structure and the powers, rights and obligations of directors, officers and shareholders, including analysis of the legal implications, insider trading, company re-organization, mergers, joint ventures and takeovers. These matters will be studies through the Federal, Quebec and Ontario Companies' Acts and relevant court cases. (3 credits)

MANAGEMENT 479
Labour Law
Prerequisite: Management 475. A study of the law and relevant court cases dealing with major labour-management issues including collecting bargaining, union certification, strike, lock out, grievances and arbitration. Covers Canadian law, primarily Quebec. (3 credits)

MANAGEMENT 499
Special Topics in Administration
Enrollment is restricted and subject to departmental approval. Intended to complement and supplement business courses taken previously or concurrently this course emphasizes business literature and modern thought. Students are encouraged to work independently on research topics of interest to them. (3 credits) NOTE A/See § 200.2

61.8.2 COURSE DESCRIPTIONS

MARKETING 213
The Marketing Process (Introductory)
The course examines the nature of marketing and its role in society as well as the inter-relationships that are operative within the marketing process — both external as related to society and the consumer and internal as related to the organization of the marketing process within the firm. Many of the factors influencing these relationships are also examined. (3 credits)

NOTE A/ See § 200.2

MARKETING 350
Marketing Management
Prerequisites: Accountancy 213 and Marketing 213. An introduction to the managerial concepts and practices involved in planning and carrying out corporate marketing policies and strategies. The four basic elements of the marketing mix, product, price, promotion and distribution and their interrelationships will be examined in detail. The case method will also be used in order to apply these concepts to realistic marketing problems. (3 credits)

MARKETING 352
Buyer Behaviour
Prerequisites: Marketing 213, Management 213 or 213 and Quantitative Methods 243 and 244. This course analyzes the motivations, roles and behaviour of the industrial buyer and the consumer, how he and she are affected by economic, social and cultural influences, and how the marketer may model this behaviour for decision-making purposes. (3 credits): NOTE A/ See § 200.2

MARKETING 402
Marketing Research I (Methods)
Prerequisites: Marketing 350 and Quantitative Methods 244. The role of research in marketing process, the role of models, and the development of measurement techniques are discussed. Emphasis is placed on the nature and scope of marketing research methods for obtaining internal and external data and on the steps and principles involved in gathering and analyzing data. The student is also briefly introduced to applications of marketing research. (3 credits) Note A/ See § 200.2

MARKETING 452
Marketing Research II (Application)
Prerequisite: Marketing 402. The application of marketing research to problem areas such as advertising, sales management and product strategy. Alternative research designs are applied to actual problems. (3 credits) NOTE A/ See § 200.2

MARKETING 453
Advertising and Sales Promotion Management
Prerequisite: Marketing 350. The course deals with the theory and practice of advertising and sales promotion. Through case studies, field trips and simulations the student learns how to analyze media and budgets, plan promotional campaigns, utilize research

329
findings and evaluate advertising effectiveness. (3 credits) NOTE A / See § 200.2

MARKETING 454
Sales Management
Prerequisite: Marketing 350. The course deals with the theoretical and applied aspects of the management of personal selling. Through cases, simulations and special presentations the student learns how to recruit, select, train, organize, motivate, evaluate, compensate, supervise and control the sales forces. (3 credits) NOTE A / See § 200.2

MARKETING 456
Multinational Marketing Management
Prerequisite: Marketing 350. In this course the student analyzes the major forms of international marketing; the impact of differing environments upon marketing policies and strategies; the segmentation of multinational markets; the development of international channel systems; the roles of marketing in developing countries, in communist countries and in integrated markets and trade blocs. (3 credits) NOTE A / See § 200.2

MARKETING 463
Retail Management
Prerequisite: Marketing 213. This course seeks to apply the theories of marketing and administration to the retail situation. Topics to be covered include site selection for single and multi-unit retail outlets, organizing and staffing the retail operation, the wholesaler-retailer relationship, consumer behaviour in the retail situation. The impact of such new developments as consumer cooperatives, franchising, discounting and computer technology on the future of retailing will also be considered. (3 credits) NOTE A / See § 200.2

MARKETING 464
Consumerism
Prerequisite: Marketing 213. The current evolution of marketing and consumerism is subjected to critical evaluation and analytical review. Problem areas which may be examined include marketing costs and efficiency, the social objectives of and objections to marketing, the impact of marketing on the environment, the 'pollution of advertising', ethics of marketers, and the role of governments in the market place. (3 credits) NOTE A / See § 200.2

MARKETING 465
International Marketing Management
Prerequisite: Marketing 462. This course studies the management approach to international marketing with emphasis on key variables that are controllable by the international marketing manager. Attention is focused on market measurement, product policy, channels, pricing and promotion with special emphasis on the development and control of multinational marketing strategies and programs. (3 credits)

MARKETING 485
Industrial Marketing
Prerequisites Marketing 350 and 352. Products and services to other industrial customers are studied, first at the technical representative and selling level, then at the product manager and new products development level, and finally at the level of industrial marketing management. (3 credits) NOTE A / See § 200.2

MARKETING 486
Product Management
Prerequisites: Marketing 213 and 350. In addition to analyzing product cycles and their characteristics and strategies which relate to each stage; this course delves into some of the more practical aspects of product policy setting strategy formulation of the analysis, development and execution of marketing programs for new and existing products. This course should make the student familiar with one or more product management operations through case discussions and/or field studies. (3 credits)

MARKETING 490
Marketing Policy
Prerequisites: Marketing 350 and 9 additional credits in marketing courses. A capstone course in Marketing, utilizing readings, projects and selected case studies requiring the student to incorporate concepts and techniques of previous marketing courses in determining marketing policy. (3 credits) NOTE A / See § 200.2

MARKETING 491
Special Projects Seminar
Prerequisite: Permission of the Department. Individual study or special project in marketing field. (3 credits) NOTE A / See § 200.2

61.9.2 COURSE DESCRIPTIONS

QUANTITATIVE METHODS 243
Introductory Business Statistics I
Prerequisites: One CEGEP course in each of Algebra and Calculus, or equivalent. The objectives of the course are to introduce the student to applications of statistics in managerial decision-making. Topics covered include descriptive measures, frequency distribution analysis, probability theory, probability distributions, estimation, hypothesis testing. All examples will be derived from the functional areas of business, including Finance, Accounting, Production, Purchasing, Marketing, etc. (3 credits)

QUANTITATIVE METHODS 244
Introductory Business Statistics II
Prerequisite: QM 243 or equivalent. This course offers further development of probability and statistics concepts needed for management decisions. Topics covered include regression and correlation analysis, forecasting and smoothing techniques, time series analysis, sampling theory, quality control and analysis of variance. The usefulness of these techniques in managerial applications will be discussed with examples, problems and cases. (3 credits)
QUANTITATIVE METHODS 313
Managerial Operations Research
Prerequisite: QM 243 and 244, or equivalent. This course provides an introduction to managerial operations research and its role and function in executive decision. It emphasizes both operational and management applications. The basic areas covered include: mathematical programming, linear programming, and related economic interpretation; transportation problems; assignment problems; network analysis (CPM and PERT); game theory. (3 credits)

QUANTITATIVE METHODS 314
Operations Research and Production Management
Prerequisite: QM 313 or equivalent. This course is an extension of QM 313. The basic areas covered include: Managerial Decision theory and utility theory, inventory control, waiting lines, time and motion studies; plant layout; design of the production planning systems; capacity planning models; sequencing and routing; Markov chains and applications; simulation. (3 credits)

QUANTITATIVE METHODS 316
Optimization Techniques
Prerequisite: QM 313 or equivalent. This course deals with optimization techniques in Management Sciences. It includes: linear programming, simplex algorithm, sensitivity testing and duality, postoptimality analysis; separable programming; dynamic programming; integer programming; non linear programming; stochastic programming; multiplier theory. Management applications such as portfolio selection, capital budgeting, production smoothing, inventory scheduling, competitive strategies, regeneration models will be given particular attention. (3 credits)

QUANTITATIVE METHODS 327
Business Systems
This course provides a panoramic view of the systems tools, techniques and equipment and relates them to practical situations arising in an enterprise in this age of change. Topics covered include: translation of management objectives into business system, procedures and methods, organization planning, project control techniques, work measurements, information gathering, processing, distribution and retention equipment from simple office machines to computers. Applications of Finance Accounting, Marketing, Budgeting and Production systems will be discussed. (3 credits)

QUANTITATIVE METHODS 345
Business Decision Analysis
Prerequisite: QM 243 and 244 or equivalent. This course deals with the analysis of choices under uncertainty. It provides a coverage of Bayesian inference, decision theory, prior, posterior and pre-posterior distributions (discrete and continuous). It includes the analysis of uncertain payoffs and biased measurements, analytical utility functions and their properties; the use of judgment probability and the principle of substitution for strategies. Economics of sampling, risk sharing, group decision will also be considered. Examples of decision making in production management, research and development, manpower planning, finance etc. will be presented and discussed. (3 credits)

QUANTITATIVE METHODS 353
Mathematical Analysis for Business—Calculus
Prerequisite: One CEGEP course in each of Intermediate Algebra and Calculus or equivalent. The various applications of differential and integral calculus and the use of difference and differential equations in the functional areas of management, e.g. production, marketing, accounting, and finance, personnel administration, and purchasing will be studied. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS 354
Mathematical Analysis for Business—Matrix Algebra
Prerequisite: One CEGEP course in each of Intermediate Algebra and Calculus or equivalent. Properties and applications of matrix algebra in the functional areas of management, e.g. production, marketing, accounting and finance, personnel administration and purchasing, will be studied. Special applications (e.g. Input-Output Analysis) will be explored. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS 412
Network Optimization Models
Prerequisite: QM 313 and 314 or equivalent. This course includes a detailed study of Network Models in Management Sciences. It includes classical transportation problem; transshipment model; assignment model; shortest-route algorithms in cyclic and acyclic networks; critical path scheduling in project management; routing in a capacitated network; out-of-kilter algorithm multicommodity network. Special applications to production scheduling, employment engagement, machine replacement, allocation situations, catering problem will be considered. (3 credits)

QUANTITATIVE METHODS 414
Operations Research Models in the Social Environment
Prerequisite: QM 313 and 314 or equivalent. This course is designed to keep the student informed of most recent and successful applications of Operations Research Models in the Social Environment. The topics to be discussed will be selected from: Criminal Justice, Educational Systems, Pollution, Rural and Agricultural Models, Transportation, Energy Models etc. (3 credits)

QUANTITATIVE METHODS 416
Inventory, Replacement, Maintenance Models
Prerequisite: QM 313 and 314 or equivalent. This course covers deterministic inventory models, stochastic inventory models, special structures of inventory control practice; replacement of items which deteriorate with time; replacement of items which fail suddenly, staffing problems; maintenance models; reliability theory; analysis of operational warranty techniques; renewal theory and managerial applications. (3 credits)

QUANTITATIVE METHODS 423
Computers and Data Processing
Prerequisite: Computer Science N-211 or equivalent. This course provides an introduction to business data processing. It introduces the Common Business Oriented Language (COBOL) and concentrates on mass storage characteristics and techniques with special reference to file organization and design. Basic business applications (e.g. accounts receivable, inventory, payroll, forecasting) will be studied. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS 424
Data Processing Systems and Applications
Prerequisite: Computer Science N-211 or
This course will survey and study the various currently available data processing systems and their applications (e.g., time sharing, real time, multi-programming and multi-processing, data communications, computer utilities). The selection and evaluation of both hardware and software will be discussed. This is an appreciation course oriented towards the potential user. (3 credits) NOTE A: See § 200.2

QUANTITATIVE METHODS 425
Business Systems Analysis and Design
Prerequisite: Computer Science 211 or equivalent. This is an introductory course in business systems theory. It will study the various characteristics and nature of business systems. System components and input-processing-output relationships will be examined and the methodology and techniques of systems design and analysis will be explored. (3 credits) NOTE A: See § 200.2

QUANTITATIVE METHODS 426
Business Systems Simulation and Control
Prerequisite: Computer Science N-211, Quantitative Methods 244, and 314; or equivalent. Digital simulation of stochastic and deterministic business sub-systems will be studied and executed in FORTRAN; various other simulation languages and models will be reviewed and evaluated; large scale simulation models (total system approach) and computer oriented management planning and control models will be examined. (3 credits) NOTE A: See § 200.2

QUANTITATIVE METHODS 433
Topics in Quantitative Methods
Prerequisite: Permission of the Department. This course is intended primarily for honours or major students, and affords an opportunity for more intensive examination of one or more particular topics in quantitative methods. The specific subject will vary according to the special interest of the professor offering the course in any given year. (3 credits) NOTE A: See § 200.2
## 61.10 Economics

### MAJOR
Up to 30 credits (beyond the core) in Economics to be specified by the Economics Departments.

### 61.10.1 LOYOLA CAMPUS

For a more detailed description of these courses refer to § 51.10.3.

**NOTE:** This Programme is subject to change after the Academic Year 1976/77.

---

**COMPUTER SCIENCE 221**  
**Introduction to Business Computing**  
Computer development and classification. Input-Output devices, terminals and communications. The operation of the central processing unit and of the standard primary and secondary storage devices. Flow charts and decision tables. An introduction to assembler and high-level languages. The organization, staffing and control of information processing within a business firm. Students who have credit for Computer Science 211 or 301 may not take this course for additional credit. (3 credits)

**COMPUTER SCIENCE 223**  
**Data Processing Techniques**  
Prerequisites: Computer Science 221. Continuation of Computer Science 221, covering the equipment and methods used in data processing, to give the student as wide as possible an acquaintance with computers of all makes and models, communications and terminal equipment, and special input and output devices. The basic methods for collecting, verifying, preparing and disseminating information will be studied. Elementary programs in the BASIC language will be written and run by the students through the local time-sharing service. (3 credits)

**COMPUTER SCIENCE 241**  
**Elementary Fortran Programming**  
Prerequisite: Computer Science 211, 221 or 301. The basic rules of the FORTRAN language, to enable students to use computers for work in applied mathematics, statistics, accounting, actuarial or operational research applications. Regular assignments will be given, to be prepared, run, tested and documented by each student individually. (3 credits)

**COMPUTER SCIENCE 311**  
**Elementary Cobol Programming**  
Prerequisite: Computer Science 223. Covers the use of problem-oriented languages, an introduction to business data processing, the concept of files and records, program logic and flow-charting. Introduction to the elementary coding rules of the Common Business Oriented Language (COBOL), with examples to be run on the computer. Top-down programming design and structured programming concepts will be emphasized. The work load is typically 4 to 10 hours per week outside of class. (3 credits)

**COMPUTER SCIENCE 313**  
**Business Applications of COBOL**  
Prerequisite: Computer Science 311. Covers elementary file organization and design, decision tables and logic diagrams, computer aspects of systems design, and examples of computer-oriented business systems. There will be a study and report on an actual commercial application. (3 credits)

**COMPUTER SCIENCE 417**  
**Commercial Software I**  
Prerequisite: Computer Science 313. A study of a representative sample of the software program packages available commercially for use in business applications, including systems packages such as file management, payroll, inventory, and bill-of-materials; and control packages such as critical path scheduling, linear
programming, and simulation. Sources of software: criteria for evaluating and choosing packages; implementation, maintenance, and modification of packages; class and individual projects on the use of typical packages. (3 credits)

**COMPUTER SCIENCE 419**

Computer Software II

Prerequisite: Computer Science 417. Continuation of Computer Science 417. (3 credits)

**COMPUTER SCIENCE 421**

Advanced Cobol Programming

Prerequisite: Computer Science 311. Continuation of Computer Science 311. Further work on decision tables and flow-charting. IBM's Job Control Language, various operating systems and core dumps. The use of Cobol verbs for searching, sorting, and reporting. The use of subscripts, labels and completion codes. Programs will be written and tested on the computer, involving the creation and updating of files. Top-down program design, structured programming, and chief-programmer team concepts will be emphasized. Work load is typically 4 to 10 hours per week outside of class. Lectures: 3 hours per week. (3 credits)

**COMPUTER SCIENCE 423**

Assembler Language Programming I

Prerequisite: Computer Science 311 or 341. The general rules of the IBM 360/370 Assembler Language, with assignments to be run and documented by the student. Given in the Loyola Faculty of Arts and Science. (3 credits)

**COMPUTER SCIENCE 427**

Assembler Language Programming II

Prerequisite: Computer Science 423. Continuation of IBM Assembler. Assemblers for other computers. Class projects on the Loyola Faculty of Arts and Science. (3 credits)

**COMPUTER SCIENCE 425**

Mathematical Models of Real Systems

Prerequisite: Computer Science 241 or 311, and Mathematics 233 or Quantitative Methods 244. The use of a computer to study situations occurring in the real world, with examples taken chiefly from science and industry. How models are used to study interactions between the parts of a system, to analyze the causes of observed effects, and to predict the effects of changed conditions. The scale, detail and boundaries of a model. The cyclic process of model development. Types of models available—deterministic, probabilistic, macroscopic or microscopic, optimizing. Computer methods for modelling and simulation. (3 credits)

**COMPUTER SCIENCE 429**

Teleprocessing

Prerequisite: Computer Science 233. The study of remote control of computers by human operators or by other computers. The following topics will be covered: the categories of data transmission systems, channel capacities, communication line characteristics, modern coding systems, transmission modes, transmission errors, various types of dialogue between man and computer, networks, terminals and control units, programs and software. Text: J. Martin, *Introduction to Teleprocessing.* (3 credits)

**COMPUTER SCIENCE 451**

File Structures

Prerequisite: Computer Science 241 or 313. A basic theoretical course in data handling. Linear lists, linked lists, orthogonal lists, trees and rings. Basic algorithms for searching, sorting, posting and updating files. The choice of proper file structure and medium for various applications. Control of job flow by the operating system in a multi-programming computer. Directories, inverted lists, and Boolean searches for large information files. (3 credits)

**COMPUTER SCIENCE 521**

Data Processing Management

Prerequisite: Computer Science 313. The theory and practice of management as applied in commercial data processing. Planning for new business systems and computers; the feasibility study; the computer as an aid in planning; the organization of a data centre; staffing the data centre; job description and job specifications; maintenance and security; control methods for operation, data entry, processing and output. (3 credits)

**COMPUTER SCIENCE 523**

Business Systems Analysis

Prerequisite: Computer Science 313 and Accounting 214. This course considers data processing from the point of view of systems personnel. Study areas are: (1) the uses, characteristics, and limitations of computers in business; (2) system components (cybernetic view); (3) methodology and techniques of systems analysis; (4) MIS; (5) the human factor. Class projects will cover the study of various simple applications of data-processing systems, from the original concept to the production and operation of the system. (3 credits)

**COMPUTER SCIENCE 525**

Business Systems Design

Prerequisite: Computer Science 523. A continuation of Computer Science 523. A study of the principles of data-processing system design, ensuring timely, complete and accurate data collection, efficient processing, effective dissemination of information, and the evaluation, modification and control of the system. This will be illustrated by group projects and case studies. (3 credits)

**COMPUTER SCIENCE 555**

Information Systems

Prerequisite: Computer Science 451. A continuation of Computer Science 451, covering the problems of organization, storage, searching and retrieval of information stored in large data bases. Dictionary construction and look-up, automatic indexing methods, search and matching procedures, information dissemination systems, commercial data-base management systems and applications. Methods of user interaction and their application in management and decision-making. (3 credits)

**COMPUTER SCIENCE 561**

Computer Science Seminar and Project I

Prerequisite: Consent of the Department. Individual work on a computer science project under the supervision of a faculty member, and a series of seminars dealing with topics of current interest by faculty members, students and industry representatives. At least 30 hours of work must be done on a project approved in advance, including the submission of a technical report. Special arrangements can be made with the Department to accept a project carried out by a student employed in a commercial firm. (3 credits)

**COMPUTER SCIENCE 563**

Computer Science Seminar and Project II

Prerequisite: Computer Science 561. A continuation of the project begun in Computer Science 561 for an additional 3 credits.

The following courses may also be taken as Computer electives on the Loyola campus:

- Loyola Faculty of Arts and Science (§ 51.9.3)
- Comp Sc 341, 343, 424, 433, 443, 533, 551
61.12 Additional Courses for Commerce Students

COMPUTER SCIENCE
Courses in Computer Science are available as electives to Commerce students. Refer to § 51.9.3 and § 71.8.2 of this calendar for a complete listing.

FINE ARTS
The following course in Fine Arts is available to Commerce students.

THEATRE 320
Theatre Administration
A course in theatre administration covering office and plant management, production, touring and prepackaged plant costing; contracts, insurances, budgeting and seasonal planning. Lectures with actual case studies in depth. (6 credits)

61.12.1 CONTINUING EDUCATION COURSES—NON CREDIT
The following courses, administered by the Continuing Education office on behalf of the Faculty of Commerce and Administration, are offered to meet the needs of various business organizations. They do not carry credits towards the Bachelor of Commerce degree. Students must consult the time-table to determine which of the following courses are offered in the current academic year.

BUSINESS N-221 (222) (NON-CREDIT)
Office Management
A course in the principles of office management, including such topics as the function of the office in business; organization and principles of control; office systems and routines; office equipment and labour saving devices; office planning and layouts; selection and training of office personnel; office communications.

NOTE: This course was previously designated as Administration 221. Students who have taken Administration 221 should not take this course.

BUSINESS N-222 (222) (NON-CREDIT)
Procurement Principles
This course is designed to cover the fundamentals of purchasing policies and procedures and the organization and functions of the purchasing department in business and industry. Topics covered will include pricing, negotiation, quality and quantity determination, budgetary institutions etc., as well as the relationship between purchasing and other management functions. Class discussion and case studies are the basic method of study employed.

NOTE: This course was previously designated as Administration 442 and 443. Students who have taken Administration 442 and/or 443 should not take this course.

BUSINESS N-223 (223) (NON-CREDIT)
Business Systems
This course is designed primarily for students with practical business experience, managers, and potential system men. It provides a panoramic view of the systems tools, techniques and equipment and relates them to practical situations arising in an enter-

prise in this age of change. Topics covered include: translation of management objectives into business system procedures and methods; organization planning; fact finding and related tools such as flow charting, work measurement, information requirement studies; selling implementation and management of system and organization changes including planning, presentation and documentation tools such as a critical path scheduling, decision table construction, procedure writing, project control techniques; information gathering, processing, distribution and retention equipment from simple office machines to computers.

NOTE: This course was previously designated as Executive Training 441 and 442. Students who have taken Executive Training 441 and/or 442 should not take this course.

BUSINESS N-241 (241) (NON-CREDIT)
International Trade
The fundamental and practical aspects of importing and exporting, covering such subjects as trade terms and definitions, import and export regulations; export credits insurance; customs regulations; handling of export traffic; trading documents; air cargo and air express; marine insurance; financing.

NOTE: This course was previously designated as Marketing 241. Students who have taken Marketing 241 should not take this course.

BUSINESS N-251 (251) (NON-CREDIT)
Transportation and Traffic (Introductory)
This course in freight traffic management is primarily for students who wish to specialize in this line of endeavour. It covers the practical aspects of transportation in Canada including such matters as bills of lading and shipping procedures; special services of railways; express; claims and claims prevention; freight contracts; marine insurance; customs; interpretation of the railway act and railway law.

NOTE: This course was previously designated as Marketing 251. Students who have taken Marketing 251 should not take this course.

BUSINESS N-252 (252) (NON-CREDIT)
Transportation and Traffic (Advanced)
Prerequisite: Business 251. This course in freight traffic management is primarily for students who wish to specialize in this line of endeavour. It covers the practical aspects of transportation in Canada including such matters as tariff construction and freight rate structures; condition of carriage; ocean freight contracts; marine, insurance; customs; interpretation of the railway act and railway law.

NOTE: This course was previously designated as Marketing 252. Students who have taken Marketing 252 should not take this course.

BUSINESS N-260 (NON CREDIT)
Basic Mathematics for Business
Review of elementary algebraic operations; fractions, ratios, proportions; percentages, simple equations, arithmetic and geometric progressions, logarithms; graphical algebra; simple and compound interest; annuities, amortization and sinking funds, depreciation and bond values; simple business statistics including: the collection of statisti-
cal data, various methods of presentation including tables and graphs, the frequency distribution and its mathematical analysis including averages, measures of dispersion, measures of skewness, normal curve, and correlation.

61.13 The Order of Chartered Accountants

A graduate of Concordia University holding the Bachelor of Commerce degree (major or honours in Accountancy) may register as an apprentice with the Order of Chartered Accountants of Quebec and may apply for exemptions based on academic achievement.

Students requiring further information should contact the Accountancy Chairman on their respective campus.

61.14 Special Certificate Programmes

There are many organizations within the business community designed to serve the needs of people working in specialized areas of business. These organizations recognize that the educational qualifications of those seeking membership must be continually upgraded. Therefore, they sponsor an Academic Certificate which may be obtained through correspondence courses or through a lecture programme.

The Faculty of Commerce and Administration cooperates with these business organizations by permitting personnel to register as independent (partial) students, and to take courses leading to a certificate to be awarded by the organization concerned.

Students must comply with the university regulations regarding dates of application and independent (partial) student entrance requirements as outlined in the Academic Calendar § 11. In addition to this, they must meet the requirements of the specific organization.

The credit course taken may be applied towards the Bachelor of Commerce degree, provided the student meets the admission requirements and wishes to transfer from independent (partial) status to undergraduate status after completing a certificate programme. Students are advised that they must meet the Bachelor of Commerce curriculum requirements in force at the date of transfer.

Each certificate programme has one or more special courses required to complete the programme. These courses do not carry credit toward a Bachelor’s degree and are designated as non-credit courses.

Students interested in the following certificate programmes will obtain details of required courses from the organization concerned:

- The Administrative Management Society (Montreal Chapter) Inc.
- The American Marketing Association (Montreal Chapter)
- The Canadian Association of Purchasing Agents (Montreal Division)
- Data Processing Management Association (Montreal Chapter)
- Institute of Canadian Bankers
- The Montreal Personnel Association
- The Systems and Procedures Association of America (Montreal Chapter)
- The following organizations suggest that students take certain courses at this university as preparation for their uniform final examinations:
  - The Professional Corporation of Industrial Accountants of Quebec
  - Association of Certified General Accountants (Quebec Division)
  - Association of Chartered Institute of Secretaries (Quebec Division)

61.15 Commerce & Administration Consultative Committee

The purpose of this committee is the maintenance of a continuing and constructive relationship and dialogue between the Faculty of Commerce and Administration and a broadly representative group of senior business executives. In this way the relevance of the work of the Faculty to the needs of the business community is kept under review, while the objectives, roles and accomplishments of the Faculty and the qualifications of its graduates are made better known in business circles.

The personnel of the Committee comprises senior members of the business community, senior faculty representatives and also representatives of student organizations.

Chairman
WILLIAM T. G. HACKETT, Special Lecturer, Department of Finance

Vice-Chairman (Business)
DAVID E. SLOAN, Treasurer, Canadian Pacific Limited

Vice-Chairman (Academic)
BRUCE MALLEN, Professor, Department of Marketing

71.9 BACHELOR OF SCIENCE PROGRAMME
71.10 CERTIFICATE PROGRAMME IN QUALITY CONTROL
71.1 Faculty of Engineering

Dean
J. CLAIR CALLAGHAN

Vice-Rector, Academic, and Professor of Engineering
JACK BORDAN

Associate Dean (Loyola Campus)
GEORGE W. JOLY

Assistant Dean, Academic Programmes Engineering and Computer Science
J. CHARLES GIGUERE

Chairman, Department of Civil Engineering
PAUL P. FAZIO

Chairman, Department of Electrical Engineering
M. N. S. SWAMY

Chairman, Department of Mechanical Engineering
M. P. duPLESSIS

Chairman, Department of Computer Science
H. STANLEY HEAPS

Director, Personnel and Resources (Loyola Campus)
STANLEY J. KUBINA

Note:
The following programmes are offered in the Faculty of Engineering:
(1) Bachelor of Engineering degrees in Civil, Electrical and Mechanical Engineering;
(2) Bachelor of Computer Science degree;
(3) Bachelor of Science degree;
(4) Certificate in Quality Control.
The requirements for the four programmes are different, and the appropriate section in the following pages must be consulted for each. In the case of the Bachelor of Science degree, section 71.9 of this and 71.10 of the 1975/76 Undergraduate Calendar should be consulted.

71.2 Bachelor of Engineering Programme

71.2.1 ADMISSION REQUIREMENTS

Applications for admission to the BEng programme are submitted to the Admissions Office at the preferred campus.
Students are normally admitted in September for programmes in the Day Division, Evening Division or Industrial Parallel Studies, and to one of the Departments of Civil, Electrical and Mechanical Engineering.
Applicants are also accepted to the First Year, Day Division, in January, and courses are scheduled to make it possible for them to enter Second Year in September of the same calendar year.

General Admission requirements are listed § 13.
Specific requirements are those contained in the CEGEP pre-Engineering profile or their equivalent, that is:

<table>
<thead>
<tr>
<th>CEGEP</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Biology</td>
<td>301</td>
</tr>
<tr>
<td>Chemistry</td>
<td>101</td>

<td>103</td>
</tr>
<tr>
<td></td>
<td>105</td>
</tr>
<tr>
<td></td>
<td>203</td>
</tr>
</tbody>
</table>

Physics .......... 101 or 102 201 or 202 301 or 302

Application from graduates of CEGEP technology programmes will also be considered. Such applicants admitted to the undergraduate programme may be required to take certain special courses.

71.2.2 CURRICULUM FOR THE DEGREE OF BACHELOR OF ENGINEERING

The university offers a programme leading to the degree of Bachelor of Engineering in the fields of Civil, Electrical and Mechanical Engineering. To be recommended for the degree of Bachelor of Engineering, students must satisfactorily complete all the General Requirements and all the requirements of the department in which they are registered. The General Requirements are given below and comprise the Graduation Regulations, the French Language Requirement and a uniform group of courses, as well as the Academic Regulations; all are common to the three departments. The individual Department Requirements are given in sub-
sequent sections. They comprise a group of required courses with a group of elective courses which allow students to select part of their programme to provide some depth in an area of specialization according to their particular interests or breadth in the general field of their chosen department.

In their final undergraduate year, students with high standing may be granted permission by their department and the Engineering Graduate Studies Committee to register for a limited number of graduate courses offered by the Faculty in lieu of some courses in the undergraduate programme.

71.2.3 MEMBERSHIP IN THE ORDER OF ENGINEERS OF QUEBEC

The Order of Engineers of Quebec (OEQ) has fully accredited the Bachelor of Engineering curricula in Civil, Electrical, and Mechanical Engineering. OEQ will admit graduates of these three programmes as members according to the Engineers Act and the OEQ By-Laws and, effective 1 July 1976, providing applicants can show a working knowledge of French.

71.2.4 ACCREDITATION BY THE CANADIAN COUNCIL OF PROFESSIONAL ENGINEERS

The Accreditation Board of the Canadian Council of Professional Engineers (CCPE) has accredited the Bachelor of Engineering curricula in the Departments of Civil, Electrical, and Mechanical Engineering. The Board has recommended to the Constituent Associations of CCPE that graduation from the above curricula be considered as sufficient academic qualification for purposes of registration in all Provinces and Territories in Canada.

71.2.5 PROGRAMMES OF STUDY

Successful completion of the BEng degree programme requires hard work and considerable dedication on the part of each student. Courses are presented with the expectation of an average of about two hours of "outside" work for each lecture hour and about one-half hour of "outside" work for each hour spent in the laboratory for all programmes of study.

Programmes of study are available in both the Day and Evening Divisions as described below. Students are subject to the same regulations regardless of their programme of study.

(1) Day Division

Scheduling of the BEng programme in the Day Division is designed to allow students to graduate at the end of six to eight terms of successful study after entry with the minimum admission qualifications.

In 1976/77 the first four terms of the six and eight term sequences are scheduled at both the Loyola and Sir George Williams campuses. The remaining terms are scheduled at the Sir George Williams campus only.

Students should consult with a faculty adviser concerning their individual programmes of study.

(2) Evening Division

The programme of study in the Evening Division at the Sir George Williams campus offers an opportunity for part-time study of engineering fundamentals. A limited number of courses is offered annually from those marked † in the lists § 71.3 to § 71.6. Any special courses offered for graduates of CEGEP technology programmes admitted to Engineering undergraduate studies will also be offered in the Evening Division. Students will normally register for three courses per term, but they should consider their employment commitments as well as their academic ability in planning their programmes.

Evening Division students registered in the BEng programme must subsequently transfer to the Day Division to complete the requirements for that degree. An application for transfer to the Day Division will be considered when the applicant has completed the first year programme of the department in which he intends to continue his studies. Evening to Day transfers will be approved for the fall term only.

(3) Industrial Parallel Studies

Industrial Parallel Studies (IPS) are available in the Day Division at the Sir George Williams campuses. They are offered for students who have successfully completed the First Year of the programme, or its equivalent, and whose employers are prepared to certify that they will be employed for a maximum of 20 hours per week during Winter Sessions. The Faculty timetable is arranged to allow students undertaking IPS to attend the university for either five half days or two and one-half days per week.

Priority for IPS is given to students who have completed the First Year of the programme in the Evening Division. All students undertaking such studies must have been granted permission by the office of the Assistant Dean, Academic Programmes, Engineering and Computer Science, from whom the pamphlet Industrial Parallel Studies, giving more detailed information, can be obtained upon request.
71.3 General Requirements

71.3.1 ACADEMIC REGULATIONS

Students should refer to the section presenting the Academic Regulations of the university, § 16.

71.3.2 GRADUATION REGULATIONS

Upon the completion of all the requirements for the BEng degree, candidates will be recommended for its award provided they have a cumulative grade point average (cgpa) of at least 1.80. This average will be calculated as the ratio of the sum of the grade points obtained in the complete programme followed by the candidate to the total number of courses taken in that programme, with the following points being awarded for each grade:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>1</td>
</tr>
<tr>
<td>Failing grades</td>
<td>0</td>
</tr>
</tbody>
</table>

A failing grade in a required course must have been cleared by a passing grade in that course; that is, either an S grade, or a passing grade when repeating the course. A failing grade in an elective course should have been similarly cleared, but a passing grade in a different elective may be used to clear such a failure provided registration in it was approved by the chairman of the department in which the candidate is registered.

In calculating the cgpa, the S grade removes the zero for the failing grade and counts as one point for the course. However, a failing grade not cleared by the S grade is included in the calculation as well as the grade subsequently obtained when repeating the course or taking a substitute elective. Both a repeated course and a substitute elective are counted as additional courses in assessing the total number of courses taken. Failures in supplemental examinations have no effect on the cgpa.

71.3.3 FRENCH LANGUAGE REQUIREMENT

All undergraduates registered for the BEng degree are required to pass, or be exempt from, a French language examination at some time prior to graduation. Students whose previous education was conducted in the French language are exempt from this requirement upon application to the Assistant Dean. Academic Programmes, Engineering and Computer Science, foreign students attending the university on a student visa at the start of the calendar year in which they expect to graduate are also exempt upon similar application.

Examinations will be held in the Fall and Spring terms of each year. It is recommended that students who do not have sufficient background in the French language take French N-211 during their first year of residence. NOTE: This requirement is independent of the French Language requirement of the Order of Engineers of Quebec.

71.3.4 COURSE REQUIREMENTS

To be recommended for the degree of Bachelor of Engineering, students admitted after January 1976 must satisfactorily complete the following courses as well as those specified by their departments, as shown in subsequent sections. Students admitted for January 1976 or earlier should consult the 1975/76 Undergraduate Calendar.

**Engineering Core**

- E Math N-312⁺ Calculus & Differential Equations
- E Math N-332⁺ Matrices and Advanced Calculus
- E Math N-371⁺ Applied Probability and Statistics
- Engin N-211⁺ Engineering Graphics
- Engin N-242⁺ Engineering Mechanics I
- Engin N-243⁺ Engineering Mechanics II
- Engin N-351⁺ Thermodynamics I
- Engin N-373⁺ Basic Circuit Analysis
- Engin N-501⁺ Engineering Economy and Practice
- Engin N-510⁺ Technical Report

Two courses chosen from the "Social Aspects of Engineering" group:

- Engin N-581 Engineers and Society I
- Engin N-582 Engineers and Society II
- Engin N-583 The Impact of Science and Technology in Society I
- Engin N-584 The Impact of Science and Technology in Society II
- Engin N-585 Introduction to Technology and Human Affairs
- Engin N-586 Introduction to Technology and Human Affairs II

⁺Offered in both Day and Evening Divisions.

1To be submitted at the beginning of the academic year in which the student expects to graduate.

71.3.5 FIRST YEAR PROGRAMMES

First year programmes for each Department are given in the appropriate departmental section.

Students admitted to the programme without previous credit for the equivalent of Computer Science N-211 (Data Processing 901) must complete that course or its equivalent before entering their second year of study in the BEng programme.
Civil Engineering is primarily concerned with the creation of the complex systems of construction facilities for sound economic growth of the community. In a broad sense, the civil engineer learns to control and modify the environment effectively so as to satisfy the needs and desires of society. His responsibility for design ranges from foundations and superstructures of our common structures such as buildings, bridges, dams, tunnels, wharves, etc., to many unusual structures such as rocket installations, containment vessels for nuclear reactors, supports for radio telescopes, frameworks for aircraft. In addition the civil engineer must concern himself with the engineering aspects of water resources, rivers, harbours, irrigation and drainage; with the disposal of wastes and the control of the quality of air and water; with highways, railroads, airports and other transportation facilities; with measuring, mapping and interpreting the physical conditions of the surface of the earth; and with planning metropolitan areas and constructing and managing their public facilities.

The programme is designed so that students may, after having obtained grounding in the fundamentals of Civil Engineering, specialize in one of five options.

**Departmental Requirements**

The award of the BEng degree in the Department of Civil Engineering requires completion of the Engineering core, § 71.3.4, the Civil Engineering core shown below, one of five elective option cores, and a minimum of 6.00 further elective units. Students must also satisfy the General Requirements, § 71.3. Students admitted for January 1976 or earlier should consult § 71.4.1 of the 1975/76 Undergraduate Calendar.

†Offered in both Day and Evening Divisions.
**Technical Electives**

Technical electives in the Department of Civil Engineering are offered in five broad interrelated areas. Students must complete one of the option cores listed below, and a minimum of 6.00 further elective units, chosen outside the option core.

1. Structural Engineering (S)
2. Water Resources Engineering (W)
3. Transportation Engineering (T)
4. Construction (C)
5. Foundations (F)

Electrical Engineering is concerned primarily with energy and information: their conversion, transformation and transmission in the most efficient, convenient and reliable manner.

Electric motors and illumination are two aspects of electrical engineering which are easily recognized. The electrical engineer is involved not only in their design, manufacture and application, but also in the original conversion from mechanical, thermal, solar, wind or nuclear energy to electrical form and its transmission to the place where it is required. Another important aspect of electrical engineering is in the field of information processing and transmission, for example telegraph, telephone, radio, television, radar and computers. The activities of electrical engineers therefore may range from the generation and distribution of massive amounts of power, through information systems, computer science to various interdisciplinary fields such as biomedical engineering. Electrical engineers through their various functions, therefore exert a profound influence in the cultural, social and economical life of a modern society. The Electrical Engineering programme emphasizes the breadth of the field through a series of courses giving a unified treatment of several kinds of physical systems.
Elec Eng N-501 Electrical Engineering Seminar
Elec Eng N-513 Design of Logic and Switching Circuits I
Elec Eng N-561 Communication Circuits and Systems

†Offered in both Day and Evening Divisions.

Technical Electives
Departmental requirements include the completion of one of four options:

(1) Electronics/Communications Option

Students must complete a minimum of 29.25 units from:

<table>

71.6.1 DEPARTMENT OF MECHANICAL ENGINEERING

As in all branches of professional engineering, the mechanical engineer is concerned with the creation of devices, systems, structures and processes for human use. His task is to apply scientific, mathematical, economic and social knowledge to satisfy specific needs. The services required of mechanical engineers encompass a very wide range of professional activity, such as design, research, development and management carried out in environments of equally diverse nature, such as industry, medicine, private practice, university and government.

Representative fields of endeavour for mechanical engineers include all forms of power generating equipment (steam, internal combustion, nuclear, jet rocket, fuel cells), the design of mechanisms and machines, controls and automation, vibration analysis, environmental control (heating, ventilation and refrigeration), materials handling and precision measurement.

Any of the specific fields may involve the design, construction and control of machines and equipment as well as the research and development of new processes, materials and techniques.

In view of the very wide range of activities in the field, the mechanical engineering curriculum consists of a combination of core courses with a series of technical electives. Strong emphasis is given to building on the principles presented in the basic engineering science and physical systems courses of the General Requirements. Further core courses are taken by all mechanical engineering undergraduates and deal with topics basic to the field, including control theory, thermodynamics, fluid mechanics, heat transfer, machine design and metallurgy. Technical electives allow students to obtain some specialization in a particular area of the field, depending on their interests and expected future professional activity. Three general areas of specialization are available, namely conventional mechanical engineering which emphasizes thermal fluid power (Option A), design and production engineering, (Option B), and electromechanical systems, including control systems, (Option C).

Departmental Requirements

The award of the B.Eng. degree in the Department of Mechanical Engineering requires completion of the Engineering core, § 71.3.4, the Mechanical Engineering core shown below, one of three option cores, and a minimum of 12.00 further elective units. Students must also satisfy the General Requirements, § 71.3.

Students admitted for January 1976 or earlier should consult § 71.6.1 of the 1975/76 Undergraduate Calendar.

Mechanical Engineering Core
E Math N-352 Complex Variables
E Math N-411 Transform Calculus and Partial Differential Equations
Engin N-212 Introduction to Engineering Design
### Technical Electives

Students must complete one option core and a minimum of 12.00 further elective units.

**FACULTY OF ENGINEERING**

**DEPARTMENT OF MECHANICAL ENGINEERING**
ENGINEERING MATHEMATICS N-312
Calculus and Differential Equations
Vector functions of one variable, with applications. Introduction to ordinary differential equations. Functions of several variables: differentiation and multiple integrals.
Lectures: 3 hours per week.
Tutorials: 2 hours per week.
Prerequisite: CEGEP Math 203.

ENGINEERING MATHEMATICS N-332
Matrices and Advanced Calculus
Matrix algebra, characteristic value problems, diagonalization of Hermitian matrices, Cauchy-Hamilton theorem and applications, quadratic forms, vector calculus.
Lectures: 3 hours per week.
Tutorials: 2 hours per week.
Prerequisite: Engineering Mathematics N-312 previously or concurrently.

ENGINEERING MATHEMATICS N-352
Complex Variables
Lectures: 3 hours per week.
Prerequisites: Engineering Mathematics N-312; Engineering Mathematics N-332 previously or concurrently.

ENGINEERING MATHEMATICS N-371
Applied Probability and Statistics
Lectures: 3 hours per week.

ENGINEERING MATHEMATICS N-411
Transform Calculus and Partial Differential Equations
Elements of complex variables. The Laplace transform: Laplace transforms and their properties, solution of linear differential equations with constant coefficients. Further theorems and their applications. The Fourier transform: orthogonal functions, expansion of a function in orthogonal functions, the Fourier series, the Fourier integral, the Fourier transform, the convolution theorem. Partial differential equations: physical foundations of partial differential equations, introduction to boundary value problems.
Lectures: 3 hours per week.
Prerequisites: Engineering Mathematics N-332.

ENGINEERING MATHEMATICS N-412
Laplace Transforms and Advanced Differential Equations
Lectures: 3 hours per week.
Prerequisites: Engineering Mathematics N-332 & N-352.

ENGINEERING MATHEMATICS N-471
Introduction to Stochastic Processes
Lectures: 3 hours per week.

ENGINEERING MATHEMATICS N-491
Numerical Methods in Engineering Systems
Lectures: 3 hours per week.
Prerequisites: Engineering Mathematics N-312 and N-332.

ENGINEERING
ENGINEERING N-211
Engineering Graphics
Elements of orthogonal projection, principal and supplementary views, analysis of three-dimensional spatial relationships of points, lines, planes and solids. Introduction to sectioning conventions, drawing identification by reconstructing technical drawings in free-hand isometric views, and preparation of detail and assembly drawings.
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
ENGINEERING N-212
Introduction to Engineering Design
Introduction to engineering design procedures through the use of open-ended design projects. Lecture topics will include engineering design process, consideration of alternatives, specifications, pencil thinking, principles of design synthesis, dimensioning for manufacture and interchangeability, quality control, presentation of engineering data and calculations, application of computer graphics in design.
Lectures: 2 hours per week.
Laboratory: 2 hours per week.
Prerequisites: Engineering N-211; Computer Science N-211 or equivalent.

ENGINEERING N-221
Materials Science
Relationships between properties and internal structure; atomic bonding; molecular, crystalline and amorphous structures; crystal imperfections and mechanisms of structural change; microstructures, plastic deformation and fracture of metals; structures and mechanical properties of ceramics and polymers.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisite: Engineering Mathematics N-312 previously or concurrently.
NOTE: This course is no longer offered. See Engineering N-224 and N-243.

ENGINEERING N-241
Applied Mechanics
Resultants of force systems; equilibrium of particles and rigid bodies; distributed forces; statically determinate systems; friction; moments of inertia. Principles of particle kinematics and dynamics; rigid body motion; work and energy; impulse and momentum; dynamics of a system of particles of rigid bodies.
Lectures: 4 hours per week.
Tutorial: 1 hour per week.
Prerequisite: Engineering Mathematics N-312 previously or concurrently.

ENGINEERING N-242
Introduction to Engineering Design
Introduction to engineering design procedures through the use of open-ended design projects. Lecture topics will include engineering design process, consideration of alternatives, specifications, pencil thinking, principles of design synthesis, dimensioning for manufacture and interchangeability, quality control, presentation of engineering data and calculations, application of computer graphics in design.
Lectures: 2 hours per week.
Laboratory: 2 hours per week.
Prerequisites: Engineering N-241; Computer Science N-211 or equivalent.

ENGINEERING N-243
Engineering Mechanics I
Resultants of force systems: equilibrium of particles and rigid bodies; distributed forces; statically determinate systems; cables and trusses; friction; moments of inertia; virtual work. Introduction to stress, strain and bending moment diagrams.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: Engineering Mathematics N-312 previously or concurrently; CEGEP Physics 101 or 102.
NOTE: Students having credit for Engineering N-241 may not take this course for credits.

ENGINEERING N-244
Engineering Mechanics II
Kinematics of a particle and rigid body; forces and accelerations; work and energy; impulse and momentum; dynamics of a system of particles and rigid bodies; introduction to vibrations.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisite: Engineering Mathematics N-312 previously or concurrently.
NOTE: Students having credit for Engineering N-241 may not take this course for credits.

ENGINEERING N-341
Mechanics of Materials I
Stress, strain and elasticity; analysis and design of structural and machine elements subjected to axial, torsional, and bending loads; shear and bending moment diagrams; deflections; analysis of statically indeterminate systems; combined stresses; composite beams.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Tutorial: 1 hour per week.
Prerequisites: Engineering N-242; Engineering Mathematics N-312; Engineering Mathematics N-332 previously or concurrently.

ENGINEERING N-351
Thermodynamics I
Basic principles of thermodynamics and their application to various systems composed of pure substances and their homogeneous nonreactive mixtures. Simple power production and utilization cycles.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisite: CEGEP Math 103.

ENGINEERING N-361
Fluid Mechanics I
Fluid properties and flow characteristics; fluid statics, basic laws for systems and control volumes, conservation of mass, linear momentum equations, moment-of-momentum equations, first law of thermodynamics, Bernoulli equation, kinematics of flow, dynamics of flow, dimensional analysis and similitude, characteristics of real fluid flow, flow measurement.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: Engineering Mathematics N-312 & N-332, Engineering N-351.

ENGINEERING N-371
Physical Systems & Measurements I
Definition of dynamical system; lumped system elements, mechanical, electrical, fluid, and thermal; generalized lumped elements; modelling of simple systems; solutions of the equations for first and second order systems; analog computation in the study of system dynamics.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Tutorial: 1 hour per week.
Prerequisite: Engineering Mathematics N-312, previously or concurrently.
NOTE: This course is no longer offered. See Engineering N-373 and N-374.

ENGINEERING N-372
Physical Systems & Measurements II
Network representation of systems; formulation of system equations; frequency response methods; generalized impedances; signal analysis, singularity functions, periodic functions.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Tutorial: 1 hour per week.
Prerequisite: Engineering Mathematics N-312, previously or concurrently; Engineering N-371.
NOTE: This course is no longer offered. See Engineering N-373 and N-374.

ENGINEERING N-373
Basic Circuit Analysis

FACULTY OF ENGINEERING
71.7
COURSE DESCRIPTIONS

353
CIVIL ENGINEERING N-431
Geology
Basic principles of physical and structural geology, with emphasis on topics related to Civil Engineering; study of minerals, rocks and soil types, load formation, technique of air photo interpretations and geological maps.

Prerequisite: Civil Engineering N-421.

CIVIL ENGINEERING N-441
Civil Engineering Systems
Development of concepts and techniques commonly associated with systems engineering which are applicable to the design and operation of systems that concern Civil Engineers. Problem formulation, optimization, linear programming, queuing and scheduling, mathematical expectation, random models and queues. The techniques developed are used to solve problems in Transportation, Water Resources, Structures and Construction Management.

Prerequisite: registration in second year in Civil Engineering programme, Engineering Mathematics N-371. Computer Science N-211 or equivalent.

CIVIL ENGINEERING N-451
Structural Engineering I

Prerequisites: Engineering N-441, previously or concurrently.

CIVIL ENGINEERING N-452
Structural Engineering II
Approximate methods of building frame analysis. Properties, behaviour, and design of reinforced concrete members. Design of timber members.

CIVIL ENGINEERING N-453
Structural Analysis
Analysis of statically determinate structures: influence lines, deflections. Analysis of statically indeterminate structures: the method of consistent deformations, the three-shear, load formulation, the slope deflection, and the moment distribution methods.

CIVIL ENGINEERING N-454
Structural Design

CIVIL ENGINEERING N-456
Hydrology

CIVIL ENGINEERING N-471
Surveying
Elementary operations employed in engineering surveying; use, care and adjustment of instruments; linear and angular measurements; traversing; earthwork calculations; theory of errors; horizontal and vertical curves and curve layout; slope stakes and grades, application of surveying methods to city, and and topographic surveying and introduction to advanced surveying techniques; use of digital computers in survey calculations.

CIVIL ENGINEERING N-472
Transportation Engineering
A survey of all transportation modes and introduction to some recent concepts of transportation system planning. Social and economic importance of transportation; essential elements of a transportation system, characteristics of different transportation modes.

CIVIL ENGINEERING N-481
Water Resources Engineering
Hydrologic data collection and interpretation; precipitation; evaporation; design examples. Open channel hydraulics; design of channels; practical design problems.

CIVIL ENGINEERING N-511
Building Enclosure Design
Design aspects of building enclosures affecting the control of air flow, heat flow, sunlight and other forms of radiant energy; rain and snow, water vapour, noise. Consideration of user requirements, economics and codes.

CIVIL ENGINEERING N-521
Environmental Engineering
Introduction to composite construction. Introduction to composite materials.
CIVIL ENGINEERING N-512
Construction Methods and Equipment
Management
Construction methods, sequences and material handling techniques; impact of safety considerations; work methods studies; equipment policy; selection and replacement analysis.
Lectures: 3 hours per week.
Prerequisite: Civil Engineering N-591.

CIVIL ENGINEERING N-531
Soil Mechanics
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-542 & N-431.

CIVIL ENGINEERING N-532
Foundations
Lectures: 3 hours per week.
Laboratory: 3 hours per week alternate weeks.
Prerequisite: Civil Engineering N-452 & N-531.
NOTE: This course is no longer offered. See Civil Engineering N-533.

CIVIL ENGINEERING N-533
Soil Mechanics II
Selected topics in mechanics of soil media including water flow, rheological behaviour, failure theories and ideal materials.
Lectures: 3 hours per week.
Prerequisite: Civil Engineering N-531.
NOTE: This course is no longer offered. See Civil Engineering N-534.

CIVIL ENGINEERING N-534
Advanced Soil Mechanics
Selected topics in mechanics of soil media including water flow, rheological behaviour and failure theories. Earth pressure theory. Slope stability.
Lectures: 3 hours per week.
Prerequisite: Civil Engineering N-531.
NOTE: Students having credit for Civil Engineering N-533 may not take this course for credits.

CIVIL ENGINEERING N-535
Foundation Design
Lectures: 3 hours per week.
Laboratory: 3 hours per week. alternate weeks.
Prerequisite: Civil Engineering N-452 or N-454; N-531.
NOTE: Students having credit for Civil Engineering N-532 may not take this course for credits.

CIVIL ENGINEERING N-551
Structural Engineering III
Elastic deformations of structures; elastic and plastic methods of analysis of statically indeterminate structures. Computer applications.
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisite: Civil Engineering N-452.
NOTE: This course is no longer offered. See formation matrices. Matrix formulation of

CIVIL ENGINEERING N-552
Matrix Analysis of Structures
Lectures: 3 hours per week.
Prerequisites: Engineering Mathematics N-411, Civil Engineering N-555.

CIVIL ENGINEERING N-553
Advanced Reinforced Concrete Design
Design of reinforced concrete slabs, frames, prefabricated structures, girders, and shells; prestressed concrete structures.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-555.

CIVIL ENGINEERING N-554
Advanced Steel Structures
Contemporary methods for analyzing and designing steel structures. Codes. Comprehensive design problems from the fields of steel buildings, bridges of various types, and cable structures.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-555.

CIVIL ENGINEERING N-555
Advanced Structural Analysis
Analysis of frames, arches and cable structures; influence lines for statically indeterminate structures; plastic analysis; computer applications.
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisite: Civil Engineering N-453.
NOTE: Students having credit for Civil Engineering N-551 may not take this course for credits.

CIVIL ENGINEERING N-561
Hydraulic Structures
Lectures: 3 hours per week.
Prerequisites: Civil Engineering N-531; Civil Engineering N-461 previously or concurrently.
NOTE: This course is no longer offered. See Civil Engineering N-583.

CIVIL ENGINEERING N-562
Water Resources Engineering I
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Engineering N-461 previously or concurrently.
NOTE: This course is no longer offered. See Civil Engineering N-584.
CIVIL ENGINEERING N-563
Water Resources Engineering II
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisites: Civil Engineering N-461 & N-562.
NOTE: This course is no longer offered.

CIVIL ENGINEERING N-571
Highway Design
Design controls and criteria including traffic and highway characteristics and capacity. Location and right-of-way. Earthworks. Geometric design of highways and terminals. Pavement design. Highway design project.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-472.

CIVIL ENGINEERING N-572
Traffic Engineering
Techniques used in transportation planning: economic base, demographic, land use, and traffic studies, origin-destination surveys. Use of mathematical models, Trip generation and distribution modal split, traffic assignment. Emphasis on use of these techniques for problem solving and interaction with other disciplines: planning, economics, technology.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-472.

CIVIL ENGINEERING N-573
Urban Planning
The general planning process. Basic studies: population, economics and land use. Land use planning, Capital improvement programmes and financing. Plan implementation.
Lectures: 3 hours per week.
Prerequisite: Civil Engineering N-472.

CIVIL ENGINEERING N-581
Water Supply Systems
Water use cycle; capacity of water supply systems; sources of raw water; development of surface water and ground water; water quantities and requirements; design of distribution systems; storage; pumping; water quality; introduction to water purification practices.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Civil Engineering N-461 or N-481.

CIVIL ENGINEERING N-582
Urban Sanitation
Sources, characteristics and quantities of waste waters; public health considerations; urban hydrology and drainage; design of sewers; introduction to wastewater treatment practices; disposal of wastes, stream pollution and control.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Civil Engineering N-461 or N-481.

CIVIL ENGINEERING N-583
Hydrology
Hydrologic principles: stream flow; flooding and water. Practical applications.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-461 or N-481.

CIVIL ENGINEERING N-584
Hydraulic Engineering
Engineering economy and design of water resources systems; reservoir design and operating rules; flood control; navigation; drainage; irrigation; hydro-electric developments. Other selected topics.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Civil Engineering N-461 or N-481.
NOTE: Students having credit for Civil Engineering N-562 may not take this course for credits.

CIVIL ENGINEERING N-585
Hydraulic Structures
Selection and design of earthfill and concrete dams; spillways; outlet works and other hydraulic structures.
Lectures: 3 hours per week.
Prerequisite: Civil Engineering N-461 or N-481.
NOTE: Students having credit for Civil Engineering N-561 may not take this course for credits.

CIVIL ENGINEERING N-591
Construction Engineering
Study of construction methods, equipment, productivity and safety, project planning, scheduling and control.
Lectures: 3 hours per week.
Prerequisite: Completion of 20 courses in the Civil Engineering programme.

ELECTRICAL ENGINEERING
ELECTRICAL ENGINEERING N-351
Fundamentals of Electrical Engineering
Electric charge, Coulomb's Law, electrostatic forces, electric field, Gauss' Law, electric potential, stored energy. Dielectrics, properties of materials in electric fields. Electric current, conduction in a vacuum and in material media, displacement current, magnetic field of a current, force on a current-carrying wire, magnetic induction, electromagnetic force, energy stored in a magnetic field. Magnetism in material media, magnetic circuits. Time varying fields. Capacitance, resistance, inductance, elements of electric circuits.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: CEGEP Physics 201 or 202; Engineering N-373 previously or concurrently.

ELECTRICAL ENGINEERING N-411
Electronics I
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Electrical Engineering N-373.

ELECTRICAL ENGINEERING N-412
Electronics II
Characteristics and operation of bipolar transistors. Biasing techniques and thermal runaway. Small-signal analysis of bipolar
transistors, bipolar transistor amplifiers, differential and operational amplifiers and their applications. Oscillator circuits.

Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Electrical Engineering N-411.

ELECTRICAL ENGINEERING N-416
Fundamentals of Discrete Structures
Set algebra; mappings and relations. Algebraic structures: semigroups and groups. Elements of the theory of undirected and directed graphs.

Lectures: 2 hours per week.
Prerequisites: Computer Science N-211 and Engineering Mathematics N-332.
NOTE: This course is not offered in 1976/77.

ELECTRICAL ENGINEERING N-421
Electrical Properties of Solids

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-351.

ELECTRICAL ENGINEERING N-431
Electromechanics
Energy in singly and doubly excited systems, principles of electromechanical energy conversion. Basic features and models of d.c. machines, 3-phase induction machines, 3-phase synchronous machines. Power transformers.

Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisites: Electrical Engineering N-351; Engineering N-374 previously or concurrently.

ELECTRICAL ENGINEERING N-432
Electromechanics II
More detailed study of d.c., polyphase induction and synchronous machines, including the effects of magnetic saturation; single-phase fractional-horsepower motors; transformers in 3-phase circuits; static rectifiers and inverters; application of thermal networks to the rating of machines.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: Engineering Mathematics N-411 or N-412; Electrical Engineering N-431.
NOTE: This course is no longer offered.

ELECTRICAL ENGINEERING N-433
Electric Machines
Air gap field distribution, windings, harmonic content of induced voltages in rotating machines. Magnetic core calculations. Direct current machines, single-phase and three-phase induction motors, three-phase synchronous motors, selsyns, linear motors.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-431.

ELECTRICAL ENGINEERING N-434
Electromechanics I
Magnetic fields, circuits and forces; transformers; basic features of rotating machines; models, characteristics and applications of d.c. machines, polyphase synchronous and induction machines.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Engineering N-374.
NOTE: Students in Electrical Engineering may not take this course for credit.

ELECTRICAL ENGINEERING N-441
Linear Network Analysis

Lectures: 3 hours per week.
Prerequisites: Engineering Mathematics N-412 previously or concurrently; Engineering N-373.

ELECTRICAL ENGINEERING N-442
Distributed Parameter Systems

Lectures: 3 hours per week.
Prerequisites: Electrical Engineering N-441 & N-451.
NOTE: This course is no longer offered.

ELECTRICAL ENGINEERING N-451
Electromagnetic Field Theory

Lectures: 3 hours per week.
Tutorial: 3 hours per week, alternate weeks.
Prerequisites: Electrical Engineering Mathematics N-332 & N-352; Electrical Engineering N-351.

ELECTRICAL ENGINEERING N-501
Electrical Engineering Seminar
In the second term of the final year, students in Electrical Engineering hold meetings with faculty members. These meetings are organized to provide the student with an opportunity to exercise his ability to present and to defend his thoughts on topics of his own choice. Students will be encouraged to devote some of their discussions to such topics as continuing professional education, professional societies, organization of engineering employment, and professional ethics.

Seminars: 2 hours per week.
Prerequisite: Completion of 17 courses.

ELECTRICAL ENGINEERING N-511
Pulse Circuits
A continuation of the material of Electrical Engineering N-412; wave-shaping circuits and digital logic circuits.

Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisites: Engineering Mathematics N-412; Electrical Engineering N-442.

ELECTRICAL ENGINEERING N-513
Design of Logic and Switching Circuits
Boolean Algebra and its application to electrical switching circuits. Analysis, design and optimization of combinational circuits. Design of transistor gates and their practical limitations. Modern integrated-circuit logic families such as RTL, DTL, TTL, ECL, MOSL, and CMOSL. Applications of com-
binational circuits to electronic systems and instrumentation.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-411.

ELECTRICAL ENGINEERING N-514
Design of Logic and Switching Circuits II

Lectures: 3 hours per week.
Prerequisite: Electrical Engineering N-513.

ELECTRICAL ENGINEERING N-515
Electronics III
Frequency response of amplifiers. Linear and non-linear operational amplifier circuits, such as stable-gain differential amplifiers, negative-impedance converters, gyrators, logarithmic amplifiers, precision rectifiers, voltage regulators, etc.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-412.
NOTE: This course is not offered in 1976/77.

ELECTRICAL ENGINEERING N-516
Design of Digital Computers
Computer memories, registers and data-path. Register-transfer-level description of digital systems. Design of control and arithmetic units. Inter-system communication, input/output, design of interfaces. Parallelism in computer systems for increased speed of operation. Special computers such as microprocessors.

Lectures: 3 hours per week.
Prerequisites: Electrical Engineering N-514 & Engineering N-511.

ELECTRICAL ENGINEERING N-521
Semiconductor Physics
Electrons in periodic lattices. Intrinsic and extrinsic semiconductors, p-n junctions, diodes and transistors, materials and p-n junction fabrication technology. Measurements of bulk properties.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-421.

ELECTRICAL ENGINEERING N-522
Semiconductor Devices Design

Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Electrical Engineering N-521.

ELECTRICAL ENGINEERING N-531
Electrical Power Engineering
Inductance, capacitance, resistance of polyphase transmission lines; current and voltage relations of transmission lines; load flow studies; symmetrical and unsymmetrical faults; power system stability.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-431.

ELECTRICAL ENGINEERING N-533
Thyristor Power Applications
Circuits and operating principles of phase-controlled converters; external performance characteristics; harmonic content of d.c. output voltage a.c. input current; dual converters; converters as power amplifiers. Application to variable speed drives; d.c. machine dynamics, feedback control.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: Engineering N-472; Electrical Engineering N-411 & N-431.

ELECTRICAL ENGINEERING N-541
Modern Filter Design

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-441.

ELECTRICAL ENGINEERING N-542
Digital Filters
Introduction to recursive and non-recursive digital filters; realization methods using the z-transform calculus; amplitude and phase characteristics and relevant approximations and transformations; comparison of digital with conventional filters; application of digital filters.

Lectures: 3 hours per week.
Prerequisite: Electrical Engineering N-441.

ELECTRICAL ENGINEERING N-543
Topics in Network Theory
The course content may vary from year to year and will be chosen from such current areas as computer aided design, inductorless filter design, etc.

Lectures: 3 hours per week.
Prerequisite: Specified annually by the Department, depending on topics included.
NOTE: This course is no longer offered.

ELECTRICAL ENGINEERING N-551
Lasers and Masers

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-451.

ELECTRICAL ENGINEERING N-552
Microwave Engineering

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: Electrical Engineering N-442 & N-451.

ELECTRICAL ENGINEERING N-553
Microwave Engineering I
Plains wave propagation, reflection, refraction. Total reflection, Brewster angle. Reflection and refraction in ionized gases. Coaxial transmission lines, impedance transformation, Smith Chart. Modes in wave-

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.

NOTE: This course is not offered in 1976/77.

ELECTRICAL ENGINEERING N-554 Microwave Engineering II

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Electrical Engineering N-553.
NOTE: This course is not offered in 1976/77.

ELECTRICAL ENGINEERING N-561 Communication Circuits and Systems

Lectures: 4 hours per week.
Laboratory: 3 hours per week, alternate weeks.

ELECTRICAL ENGINEERING N-562 Statistical and Digital Communications

Transmission and filtering or random signals, analysis of modulation systems, in particular Pulse Code Modulation, Phase Shift Keying, Frequency Shift Keying, etc., and introduction to noise analysis, information theory and coding.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.

ELECTRICAL ENGINEERING N-581 Electrical Engineering Project

The Electrical Engineering project provides an opportunity for each student to carry out a small design project associated with one or more of the specialist elective courses, under the supervision of a faculty member. The nature of the project selected should be such a as to require independent study of current technical literature. When feasible the designs will be assessed in the laboratory. Each student is to present a complete report at the end of the project.

Equivalent laboratory time: 6 hours per week.
Prerequisite: Registration in final year.

ELECTRICAL ENGINEERING N-582 Topics in Electrical Engineering

This course may be offered in a given year upon the authorization of the Electrical Engineering Department. The course content may vary from offering to offering and will be chosen to complement the elective courses available in a given option or options.

Lectures: 3 hours per week.
Prerequisite: Permission of the Department.

MECHANICAL ENGINEERING N-321 Strength and Failure in Metals

The service capabilities of alloys and their relationship to microstructure as produced by thermal and mechanical treatments; strengthening mechanisms, composite materials. Modes of failure of materials: brittle fracture, fatigue, wear, creep, corrosion, radiation damage.

Lectures: 2 hours per week.
Tutorial: 1 hour per week.
Prerequisite: Engineering N-221.

MECHANICAL ENGINEERING N-401 Seminar

Meetings involving students and faculty members to provide the students with an opportunity to develop their communication skill by presenting and defending their thoughts on a wide range of topics.

Seminar: 1 hour per week for 2 terms.
Prerequisite: Registration in the Mechanical Engineering programme.

NOTE: This course is no longer offered.

MECHANICAL ENGINEERING N-411 Mechanical Engineering Laboratory I

Fundamentals of manufacturing processes and their limitations, topics will include machine shop practice, forming and machining processes, casting processes, plastics, non-conventional machining techniques. Laboratory includes machining simple parts in the machine shop, preparation of shop drawings; field trips to local industries.

Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: Engineering N-212 previously or concurrently.

MECHANICAL ENGINEERING N-423 Thermal Treatment and Processing of Metals

Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Tutorial: 1 hour per week.
Prerequisite: Engineering N-221.

MECHANICAL ENGINEERING N-441 Kinematics of Mechanisms

Geometry of motion and mobility criteria; kinematic analysis and synthesis of linkages; theory of spur gears, helical, worm and bevel gearing; gear trains and differentials; cam kinematics.

Lectures: 2 hours per week.
Laboratory: 2 hours per week, alternate weeks.
Tutorial: 2 hours per week, alternate weeks.
Prerequisite: Engineering Mathematics N-332.

MECHANICAL ENGINEERING N-442 Dynamics of Machines

Kinematic analysis of space mechanisms; static and dynamic analysis of planar mechanisms and gear trains; dynamic analysis of space mechanisms; gyroscopic forces; balancing of rotating and reciprocating machinery.

Lectures: 2 hours per week.
Laboratory: 2 hours per week, alternate weeks.
Tutorial: 2 hours per week, alternate weeks.
Prerequisite: Mechanical Engineering N-441.
MECHANICAL ENGINEERING N-451
Thermodynamics II
Thermodynamic functions and equations, relationships between properties; behaviour of gases and their nonreactive mixtures; combustion. Applications of thermodynamics to power production and utilization systems. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Tutorial: 1 hour per week. Prerequisite: Engineering N-351.

MECHANICAL ENGINEERING N-452
Heat Transfer I
Steady state and transient heat conduction, numerical methods for two-dimensional steady state heat conduction. Radiation heat exchange between black bodies, between grey bodies and from gases, vapours and flames. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisite: Engineering Mathematics N-411.

MECHANICAL ENGINEERING N-501
Mechanical Engineering Seminar
Meetings similar to those in Mechanical Engineering N-401; students will be encouraged to devote some of their discussions to such topics as continuing professional education, professional societies, organization of engineering employment, and professional ethics. Seminar: 1 hour per week for 2 terms. Prerequisite: Registration in final year. NOTE: This course is no longer offered.

MECHANICAL ENGINEERING N-511
Mechanical Engineering Laboratory II
Current design practices are studied by analysis of and experimentation with devices and machines encountered in mechanical engineering. Laboratory: 3 hours per week. Tutorial: 1 hour per week. Prerequisite: Mechanical Engineering N-411.

MECHANICAL ENGINEERING N-521
Deformation and Mechanical Shaping of Metals
The mechanisms of deformation and softening and the effects of processing variables on the mechanical properties of metals; cold working, annealing and hot working of metals. The effects of mechanical parameters and materials properties on the processing and on the product. Mechanical forming: shear line theory, extruding, forging, rolling, drawing, Metal cutting; machineability, metrology. Powder technology. Shaping of plastics; extrusion, molding, vacuum, forming, lamination. Lectures: 3 hours per week. Laboratory: 3 hours per week. Tutorial: 1 hour per week. Prerequisite: Engineering N-221.

MECHANICAL ENGINEERING N-541
Mechanical Engineering Design
Concepts in design; failure of mechanical elements under dynamic loading; shafting; bolted and welded joints; anti-friction and journal bearings; design of gears. Lectures: 2 hours per week. Laboratory: 2 hours per week. Prerequisites: Engineering N-212 and N-441; Mechanical Engineering N-442.

MECHANICAL ENGINEERING N-543
Mechanical Vibrations

MECHANICAL ENGINEERING N-544
Mechanical Engineering Design II
Standards and codes in plant engineering and pressure vessel design; principles of design of jigs and fixtures; design of vibration dampers and noise control; design of clutches and brakes. Laboratory work includes a complete project with detail drawings and analysis. Lectures: 2 hours per week. Laboratory: 3 hours per week. Prerequisite: Mechanical Engineering N-541. NOTE: This course is no longer offered. Students for whom this was a core requirement should substitute an elective in their option.

MECHANICAL ENGINEERING N-545
Machine Design
Design of springs; design of gear and hydraulic drives, design for hydrodynamic and hydrostatic lubrication; optimum design of mechanical systems, design strategy, value and merit function, maximizing and minimizing procedures. Laboratory work includes an advanced design project representative of those encountered in industry. Lectures: 2 hours per week. Laboratory: 3 hours per week. Prerequisite: Mechanical Engineering N-541.

MECHANICAL ENGINEERING N-551
Thermodynamics III
A continuation of Thermodynamics II including applications to more complex power production and utilization systems, gas vapour mixtures and development of property data. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisite: Mechanical Engineering N-451. NOTE: This course is no longer offered.

MECHANICAL ENGINEERING N-552
Heat Transfer II
Review of momentum transfer, free and forced convection heat transfer, dimensional analysis as applied to convection heat transfer configurations, heat exchangers, introduction to mass transfer. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisite: Engineering N-461, Mechanical Engineering N-452.

MECHANICAL ENGINEERING N-553
Environmental Control
The effect of air temperature and humidity on physiological comfort, overall heat transmission coefficients across building sections, heating load calculations, the effect of solar radiation on air-conditioning load, cooling load calculations, heating, air-conditioning and ventilating systems, design of piping and duct arrangement. Lectures: 3 hours per week. Prerequisites: Mechanical Engineering N-452 & N-551.
MECHANICAL ENGINEERING N-555
Introduction to Nuclear Engineering
Nuclear engineering principles. Nuclear reactions and reactors; control, heat removal and safety. Processing and properties of reactor fuels, moderators and coolants. Types of power reactors; radiation safety and protection.
Lectures: 3 hours per week.
Prerequisites: Mechanical Engineering N-451 & N-452.

MECHANICAL ENGINEERING N-561
Gas Dynamics
Review of one-dimensional, compressible flow. Normal and oblique shock waves; Prandtl-Meyer flow; combined effects in one-dimensional flow; non-ideal gas effects; multi-dimensional flow; linearized flow; method of characteristics. Selected experiments in supersonic flow, convergent-divergent nozzles, hydraulic analogue and Fanno tube.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: Engineering N-461, Mechanical Engineering N-451.

MECHANICAL ENGINEERING N-562
Fluid Machinery
Lectures: 3 hours per week.
Prerequisites: Engineering N-461, Mechanical Engineering N-451.

MECHANICAL ENGINEERING N-563
Fluid Power Control
Introduction to Fluid Power; pneumatic devices; fluidic devices; hydraulic system components; hydraulic and electro-hydraulic systems; dynamic performance of fluid power systems; fluid logic.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: Engineering N-461, N-472.

MECHANICAL ENGINEERING N-571
Process Dynamics and Control
Dynamics of mechanical and chemical processes: system capacity; resistance; piping complexes; characteristics and dynamics of control valves; process time constants; proportional, reset and derivative control actions; feedforward and cascade control; direct digital control. Case studies on liquid-level control, temperature and heat exchanger control.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: Engineering N-573.

MECHANICAL ENGINEERING N-581
Design or Experimental Project
A mechanical engineering design, simulation or experimental project appropriate to the senior level carried out under the supervision of a faculty member. A complete report is required at the end of the project. Equivalent laboratory time: 6 hours per week.
Prerequisite: Registration in final year.

71.8.1 BACHELOR OF COMPUTER SCIENCE PROGRAMME

The programme leading to the Bachelor of Computer Science degree is offered at the Sir George Williams campus.

Admission Requirements
Applications for admission to the BCompSc programme are submitted to the Admissions Office at the Sir George Williams campus.

General Admission requirements are listed § 13.
Specific requirements are the CEGEP level courses listed below, or the equivalent.

<table>
<thead>
<tr>
<th>CEGEP</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Mathematics</td>
<td>101</td>
</tr>
<tr>
<td></td>
<td>103</td>
</tr>
<tr>
<td></td>
<td>105</td>
</tr>
<tr>
<td></td>
<td>203</td>
</tr>
</tbody>
</table>

In addition, the following specific requirements exist for the various Options, and applicants are required to indicate their choice of Option in their application.

(1) The General Science and the Electronics/Systems Options:

<table>
<thead>
<tr>
<th>CEGEP</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Biology</td>
<td>301</td>
</tr>
<tr>
<td>Chemistry</td>
<td>101</td>
</tr>
<tr>
<td>Physics</td>
<td>101 or 202</td>
</tr>
<tr>
<td></td>
<td>201 or 202</td>
</tr>
<tr>
<td></td>
<td>301 or 302</td>
</tr>
</tbody>
</table>

(2) The General Business Option:

<table>
<thead>
<tr>
<th>CEGEP</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Math</td>
<td>205</td>
</tr>
</tbody>
</table>

NOTE: It is highly desirable that students have credit for Data Processing 901, or its equivalent, before undertaking study in any of the three Options. However, applicants not having this credit will be considered, but are strongly advised to obtain it before entering the undergraduate programme, possibly during the summer in which their application is under consideration.

Curriculum for the Degree of Bachelor of Computer Science

The university offers a programme leading to the degree of Bachelor of Computer Science with three Options, namely General Science, Electronics/Systems and General Business. To be recommended for the degree of Bachelor of Computer Science, students must satisfactorily complete an approved programme of 90 credits. In assessing this total, each course of the student’s programme offered by the Faculty of Engineering is assigned 3 credits, except Computer Science N-491 which is assigned 6 credits.

Programmes of Study

Programmes of study are available in both the Day and Evening Divisions as described below.

(1) Day Division

The courses of all Options are offered in the Day Division and students can complete the degree requirements in three years of study by taking the normal load of 30 credits per year.
(2) Evening Division
The courses of the General Science and General Business Options are all offered in the Evening Division, allowing the completion of the degree requirements in that Division. However, as the Electronics/Systems Option includes courses offered only in the Day Division in the Bachelor of Engineering Programme, students must transfer to the Day Division to complete their last two years of study in that Option. Courses offered in the Evening Division are marked with the following list.

Academic Regulations

Students should refer to the sections presenting the Academic Regulations of the university, §16.

Course Requirements

To be recommended for the degree of Bachelor of Computer Science, students must satisfactorily complete the following core courses as well as those specified below for their chosen Option.

Comp Sc N-220† Introduction to Discrete Structures
Comp Sc N-221† Introduction to Assembly Language Programming
Comp Sc N-222† Introduction to Business Programming
Comp Sc N-223† Computer Languages
Comp Sc N-301† Computer Organization
Comp Sc N-302† Computer Operating Systems
Comp Sc N-312† Data and File Structures I
Comp Sc N-413† Data and File Structures II
Comp Sc N-491† Computer Science Project

Three credits in Numerical Calculus, such as Comp Sc N-320†, Mathematics N-311†, or Engineering Mathematics N-491.

An additional nine credits in Computer Science†.

(1) General Science Option

In addition to the core courses shown above, the following courses must be completed satisfactorily.

Mathematics N-241† Introductory Mathematical & Applied Statistics
Mathematics N-261† Advanced Calculus
Mathematics N-281† Linear Algebra I

Electives: An additional three credits in Computer Science†

Twenty-seven credits from the Natural or Social Sciences, Commerce and Administration, or Engineering.

(2) Electronics/Systems Option

In addition to the core courses shown above, the following courses must be completed satisfactorily.

E Math N-312† Calculus & Differential Equations
E Math N-332† Matrices & Advanced Calculus
E Math N-352† Complex Variables

E Math N-371† Applied Probability & Statistics
E Math N-412 Laplace Transforms & Advanced Differential Equations
Engin N-373† Basic Circuit Analysis
Engin N-374† Physical Systems and Measurements
Engin N-472 Fundamentals of Control Systems
Elec Eng N-411 Electronics I
Elec Eng N-412 Electronics II
Elec Eng N-441 Linear Network Analysis
Elec Eng N-511 Pulse Circuits
Comp Sc N-430† Logical Design & Switching Theory

Electives: Three courses chosen from the following. (Note: Students who completed Engineering N-351 prior to September 1976 need only complete two electives.)

Comp Sc N-340† Special Purpose Computer Systems
Engin N-571 Time Domain Analysis & Design
Engin N-572 Studies in System Optimization
Engin N-574 Digital Computers in Systems
Elec Eng N-541 Modern Filter Design
Elec Eng N-542 Digital Filters
Elec Eng N-561 Communication Circuits and Systems
Elec Eng N-562 Statistical and Digital Communications

(3) General Business Option

In addition to the core courses shown above, the following courses must be completed satisfactorily.

Accountancy 213† Financial I
Accountancy 218† Managerial I
Accountancy 414† Information Systems and Control
Economics N-209† Introduction to Microeconomics
Economics N-210† Introduction to Macroeconomics
Finance 314† Financial Management
Finance 315† Financial Management
Management 213† Foundations of Behaviour I
Management 340† Organizational Behaviour I
Marketing 213† The Marketing Process (Introductory)
Marketing 350† Marketing Management
QM 243† Introductory Business Statistics I
QM 244† Introductory Business Statistics II
QM 313† Managerial Operations Research I
QM 314† Managerial Operations Research II

Elective: One course approved by the Department Chairman or his delegate.

†Offered in both Day and Evening Divisions.

Honours Programme

An honours degree indicates specialization within a field and high academic standing. In order to qualify for an honours degree a student must meet all the
academic qualifications and comply with the regulations set forth below.

1. A candidate for an honours degree should indicate such intention at registration, and consult the honours representative of the department as soon as possible. His honours standing will be reviewed annually. However, a student who has followed the courses prescribed for the honours programme, and has met all the requirements, may enter the programme with the approval of the department chairman at any time before beginning the final 30 credits. No retroactive approval of entry may be granted.

2. An honours student must meet the general degree requirements as well as the specific requirements for an honours degree, and must obtain at least a 'C' average over the total degree programme. Failure in any course will mean suspension from the honours programme. Reinstatement is possible only by recommendation by the honours representative.

3. An honours student must obtain a 'B' average with no grade lower than 'C' in all courses in the basic honours programme.

4. A student who enters with advanced standing may apply pro tanto credits, which are applicable to the honours degree requirements, upon approval by the department.

5. A student shall be allowed to qualify for only one honours degree.

6. Honours standing in any programme is granted upon graduation only with the approval of the Senate.

7. Students in the honours programme in Computer Science are required to confirm their standing with the Department by November 15 of each year.

Honours Committee
Chairman
C. R. BARTON, Associate Professor
Past Chairman
R. B. ANGEL, Professor
Secretary
MONA OSBORNE
Members
R. ROTENBERG, Associate Professor
J. STEWART, Professor
P. R. WESTBURY, Associate Professor
Departmental Representative
J. W. ATWOOD, Assistant Professor

Requirements for Honours
The following courses constitute an honours programme in Computer Science provided the student maintains the required academic standing:

First Year:
Computer Science N-220, N-221, N-222, N-223; Mathematics N-241, N-261, N-281.

Second Year:
Computer Science N-301, N-302, N-303, N-311, N-312; Mathematics N-351, N-372; Computer Science N-320 or Mathematics N-311.

Third Year:
Computer Science N-340, N-413, N-491; Computer Science N-421 or N-430; three credits from Computer Science N-405, N-414, N-440 or N-450; six credits from Mathematics N-331, N-341, N-342, N-343, N-352 or N-434.

---

7.1.8.2 COURSE DESCRIPTIONS

COMPUTER SCIENCE N-211
Introduction to Computers and Computing
An introduction to the essential features of computers and computing systems. Problem solving, algorithms, and flowcharts. Detailed specifications of Fortran with numerical applications.
Lectures: 3 hours per week, 1 term.
Laboratory: 1½ hours per week, 1 term.
NOTE: Students who have credit for Computer Science 011 or equivalent may not take this course for credit.

COMPUTER SCIENCE N-220
Introduction to Discrete Structures
Introduction to some fundamental algebraic, logical and combinatoric concepts such as: Set algebra; mappings and relations. Algebraic structures; semi-groups and groups. Elements of the theory of directed and indirected graphs. Boolean algebra and propositional logic. Applications of these structures to various areas of computer science.
Lectures: 3 hours per week, 1 term.
Prerequisites: Computer Science 011, or equivalent, previously or concurrently; Mathematics 002, or equivalent.

COMPUTER SCIENCE N-221
Introduction to Assembly Language Programming
Computer structure, machine language, instruction execution, addressing techniques and digital representation of data, symbolic coding and assembly systems; macro definition and generation. Programme segmentation and linkage; loading. Systems and utility programmes; programming techniques. Introduction to the facilities provided by operating systems.
Lectures: 3 hours per week, 1 term.
Laboratory: 1½ hours per week, 1 term.
Prerequisite: Computer Science 011, or equivalent.

COMPUTER SCIENCE N-222
Introduction to Business Programming
Introduction to the data processing field and use of a business oriented language (e.g.: COBOL). Concepts of mass storage characteristics. File organization and handling; sorting. Basic business applications.
Lectures: 3 hours per week, 1 term.
Laboratory: 1½ hours per week, 1 term.
Prerequisite: Computer Science 011, or equivalent.

NOTE: Students who have credit for Computer Science N-212 or Quantitative Methods N-423 may not take this course for credit.

COMPUTER SCIENCE N-223
Computer Languages
Achievement of proficiency in programming techniques using high-level language. Definition of various programming languages including procedure-oriented, list processing, and simulation languages. Specification of syntax and semantics. Basic properties of programming language. The
goal of precision programming and its attainment through structured programming techniques.

Lectures: 3 hours per week, 1 term.

Laboratory: ½ hour per week, 1 term.

Prerequisites: Computer Science N-211; Mathematics N-205 or CEGEP Math 203; Computer Science N-220 or Electrical Engineering N-441 and N-513.

COMPUTER SCIENCE N-301

Computer Organization

Lectures: 3 hours per week, 1 term.

Prerequisites: Computer Science N-221, N-223 or N-310, or equivalents.

NOTE: Students who have credit for Computer Science N-401 (401) may not take this course for credits.

COMPUTER SCIENCE N-302

Computer Operating Systems

Lectures: 3 hours per week, 1 term.

Prerequisite: Computer Science N-301, or equivalent. Computer Science N-223.

NOTE: Students who have credit for Computer Science N-402 (402) may not take this course for credits.

COMPUTER SCIENCE N-303

Programming Languages and Compiler Theory

Lectures: 3 hours per week, 1 term.

Prerequisites: Computer Science N-221, N-223.

COMPUTER SCIENCE N-310

Intermediate Scientific Programming

Achieving of proficiency in programming techniques using Fortran. Arrays, iteration, subroutines and procedures, numerical and non-numerical data types, storage allocation, character manipulation. Debugging techniques. Use of library programmes. Basic applications in science, e.g. mathematics, statistics.

Lectures: 3 hours per week, 1 term.

Laboratory: ½ hours per week, 1 term.

Prerequisites: Computer Science 011, Mathematics 005, or equivalents.

COMPUTER SCIENCE N-311

Principles of Data Processing

Study of techniques to handle large scale data processing applications. Design of business systems. Preparation and handling of data. Interpretation and validity of results. Information retrieval. Introduction to systems analysis.

Lectures: 3 hours per week, 1 term.

Laboratory: 1½ hours per week, 1 term.

Prerequisites: Computer Science N-222.

NOTE: Students who have credit for Computer Science N-411 (411) may not take this course for credits.

COMPUTER SCIENCE N-312

Data and File Structures I

Lectures: 3 hours per week, 1 term.

Prerequisites: Computer Science N-221, N-222 & N-223, or permission of the Department.

NOTE: Students who have credit for Computer Science N-412 (412) may not take this course for credits.

COMPUTER SCIENCE N-320

Numerical Methods

Introduction to numerical algorithms fundamental to scientific computer applications. Errors; interpolation; quadrature; linear systems of equations; roots of polynomials and non-linear equations; numerical solution of ordinary differential equations. Emphasis on the algorithmic approach; efficiency.

Lectures: 3 hours per week, 1 term.

Laboratory: 1½ hours per week, 1 term.

Prerequisites: Mathematics 006 or N-281 or Engineering Mathematics N-332 or equivalent; Computer Science N-223 or N-310.

NOTE: Students who have credit for Engineering Mathematics N-491 may not take this course for credits.

COMPUTER SCIENCE N-340

Special Purpose Computer Systems

Structure and system organization of special purpose computers. Symbolic coding and assembly language, instruction repertoire, addressing modes, programming techniques, systems and utility programming, peripheral devices and interfacing. A small computer system will be used for demonstration and laboratory purposes.

Lectures: 3 hours per week, 1 term.

Laboratory: 1½ hours per week, 1 term.

Prerequisite: Computer Science N-301, or permission of the Department.

COMPUTER SCIENCE N-404

Formal Languages and Syntactic Analysis

Lectures: 3 hours per week, 1 term.

Prerequisites: Computer Science N-303 & N-312.

COMPUTER SCIENCE N-405

Computer Graphics

Display memory; generation of points, vectors, etc. Interactive versus passive graphics; CRT devices and plotters. Analog storage of images. Digitizing and digital storage. Pattern recognition. Data structures and graphics software. The mathematics of threedimensional tranformations; projections. Applications in computer-aided design and instruction.

Lectures: 3 hours per week, 1 term.

Laboratory: 1½ hours per week, 1 term.

Prerequisites: Computer Science N-302 & N-312.
COMPUTER SCIENCE N-413
Data and File Structures II
Multilinked structures, techniques of file structuring, file size and access time estimating, data and file management systems. Searching.
Lectures: 3 hours per week, 1 term.
Prerequisite: Computer Science N-312 or permission of the Department.

COMPUTER SCIENCE N-414
Information Retrieval
Lectures: 3 hours per week, 1 term.
Prerequisite: Computer Science N-312 or equivalent.

COMPUTER SCIENCE N-421
Introduction to the Theory of Automata
Lectures: 3 hours per week, 1 term.
Prerequisites: Computer Science N-220 and N-223.

COMPUTER SCIENCE N-430
Logical Design and Switching Theory
Lectures: 3 hours per week, 1 term.
Laboratory: 1½ hours per week, 1 term.
Prerequisites: Computer Science N-211 & N-220, or permission of the Department.

COMPUTER SCIENCE N-431
Digital System Design
Lectures: 3 hours per week, 1 term.
Laboratory: 2 hours per week, 1 term.
Prerequisites: Computer Science N-430, or permission of the Department.

COMPUTER SCIENCE N-440
Heuristic Programming
The definition of heuristic vs. algorithmic methods; rational heuristic approach; non-numeric symbolic programming; self-organizing systems; heuristic pro-techniques including a list of the uses of list processing languages; survey of examples from representative application areas including artificial intelligence, and other advanced computer application areas.
Lectures: 3 hours per week, 1 term.
Prerequisite: Computer Science N-303.

COMPUTER SCIENCE N-450
Discrete System Simulation
Lectures: 3 hours per week, 1 term.
Prerequisites: Mathematics N-351, Computer Science N-303.

COMPUTER SCIENCE N-491
Computer Science Project
A series of seminars presented by students and faculty members, concerning their particular interest. Students will work on a project in conjunction with a faculty member.
Seminar: 1 hour per week, 2 terms.
Project: 2 hours per week, 2 terms.
Prerequisite: Registration in final year of the Bachelor of Computer Science programme, or permission of the Department.
This programme had been offered at Loyola prior to the establishment of Concordia University.

For a description of this programme refer to § 71.10 of the 1975/76 Undergraduate Calendar.

In 1976/77 the following options of the final year of the programme leading to the Bachelor of Science degree will be offered at the Loyola campus, for students admitted to that programme before January 1975:

- Civil Engineering, Option A
- Electrical Engineering, Options A and B
- Mechanical Engineering, Option A
71.10 Certificate Programme in Quality Control

The programme leading to the Certificate in Quality Control is offered at the Loyola campus, in the Evening Division only.

Admission Requirements
Applications for admission to the certificate programme in Quality Control are submitted to the Evening Division Office at the Loyola campus.

General Admission requirements are listed § 13. Special requirements are a Diploma of Collegial Studies, or its equivalent, with the completion of the equivalent of Mathematics 109 and 111 as offered in the Loyola Faculty of Arts and Science.

Curriculum for the Certificate in Quality Control
To be recommended for the award of the Certificate in Quality Control, students must satisfactorily complete the programme of 48 credits specified below. Of the total credits required, 30 pertain directly to quality control, while the remainder are from computer science, mathematics and other allied areas. The courses offered in the programme will provide the student with an in-depth understanding and working knowledge of the principles and practices used in the rapidly expanding field of quality control.

The programme is fully endorsed by the Montreal Section of the American Society for Quality Control (ASQC). It has been designed in keeping with the requirements stipulated by the Education Institute of the ASQC headquarters and, as such, does much to prepare candidates for the ASQC Quality Engineer Certificate examinations.

Academic Regulations
Students are subject to the academic regulations of the Evening Division at the Loyola campus.

Course Requirements
To be recommended for the award of the Certificate, students must satisfactorily complete the following courses:

- E-900 Elementary Metrology
- E-901 Advanced Metrology
- E-902 Statistical Quality Control
- E-903 Statistical Sampling
- E-904 Basic Concepts of Reliability
- E-905 Reliability Engineering
- E-906 Quality Management
- E-907 Design of Experiments
- E-908 Quality Assurance Technology
- Comp Sc 221 Introduction to Business Computing
- Comp Sc 241 Elementary Fortran Programming
- Comp Sc 424 Statistical Computer Applications

Course descriptions for courses offered in the Faculty of Engineering, designated E above, are given below. The description of Management 345 is given in the Faculty of Commerce and Administration § 61, while the Computer Science courses listed above are described under the Loyola Faculty of Arts and Science, § 51.

71.10.1 COURSE DESCRIPTIONS

E-900 Elementary Metrology
This course is intended as an introductory course for all engineering personnel involved in the field of inspection, quality engineering and product manufacturing. This course deals with General measurement concepts, Methods for Estimating Accuracy and Precision, Precision vs Accuracy, Systematic and constant errors. It covers the Mathematical Concepts in Metrology, Statistical Analysis of Measurement Data and Control Charts Technique, The Role of Standards, Legal bases, System of Measurements, Master Standards, the principles involved in the use of Projectors, Pneumatic Comparators and Direct reading Measuring Machines are covered in detail. The object of this course is to provide the participant an adequate knowledge for true understanding of Metrology, its nature and principles, and the mathematical concepts that govern it. (3 credits)
Prerequisite: Mathematics 109/111, or equivalent.

E-901 Advanced Metrology
R. Mustard
This course develops the principles presented in Metrology I and explores the value of these principles through every day applications to the unique uses of modern technology. The course considers flat references, including surface plate calibration, screw thread gauging and measurement, angular and circular division, with special emphasis in automated and semi-automated gauging
techniques using pneumatic and electrical sensing or on-line physically devices.

Special consideration is given to full appreciation of the Systeme International (Modernized Metric System) and its influence in the immediate future of industry, this covering use of conversion tables and formulae for all related physical standards and measurements. In addition, visual data collection methods and systems will be presented including recording devices, etc.

Further development of non-destructive testing techniques will be pursued including, in some depth, appreciation of radiographic, ultrasonic and nucliconic gauging and measurement applications.

Special considerations will be given to measurement problem areas including large part precision, miniaturization, standardization and the techniques in qualifying subjective one by subjective standards. (3 credits)

Prerequisite: Engineering 900.

E-902 Statistical Quality Control
A. Schmidt

This course is intended for all engineering personnel who are involved in one way or another with actual manufacturing processes. S.Q.C. is a tool which every engineer and technician should have at his fingertips. It is a tool which helps "make it right the first time" rather than dependence on inspection to "catch" defective product. The emphasis is on eliminating defect causes-found using statistical techniques.

This course will present both the theory and practice most effective for maintaining process control of manufactured product. It is designed as a workshop course with full participation of students in solving a variety of practical type quality control problems.

The course discusses such things as the concept of variation, frequency distributions, functions of a distribution, the control chart concept, various types of control charts including those for attributes and variables data, analysis of patterns, process capability studies and other related topics. (3 credits)

E-903 Statistical Sampling
G. Rosenzweig

This course is intended for personnel involved in manufacturing, inspection, reliability engineering, quality control, quality assurance, and management. The objective is to present by means of lecture-workshop sessions a thorough understanding of the principles involved in acceptance sampling of manufactured product, the dollar savings as compared to 100% final inspection and the risks involved in sampling, both for producer and consumer. The objective of the course is to provide the student with a working knowledge of various aspects of sampling inspection applicable to his own field of endeavor.

The course discusses probability theory, the binomial, Poisson and hypergeometric distributions; their development, and application to sampling theory; three classifications of sampling plans, namely AQL, AOQL, and L.P.D. Also discussed are the various types of sampling plans within each classification such as simple, double, multiple, unit sequential, and continuous plans and their associated operating characteristic curves. The Dodge-Roming and Mil-Std-105D tables are discussed in detail while variables sampling Mil-Std-414 and Mil-Std-883 are also highlighted. (6 credits)

Prerequisite: Engineering 902.

E-904 Basic Concepts of Reliability
F. Moller

The purpose of this course is to familiarize the student with the basic principles of reliability and to be of direct benefit to those seeking either to advance their knowledge in, or to enter the field of quality control and reliability. The approach taken is practical and designed to enable managers, engineers and other technical personnel to obtain a thorough understanding of the fundamentals of reliability theory and practice.

Building up gradually from historical review, definitions and concepts the course discusses probability theory, Poisson and exponential distributions, reliability equation, MTBF and failure rate concepts, Weibull analysis, mean and median ranks, confidence statements, life characteristic curves, system reliabilities, standby systems, associated problems and other related topics. The mix of lectures, workshops, problems and discussions is designed to enhance the learning experience.

(3 credits)

Prerequisite: Engineering 902.

E-905 Reliability Engineering
F. Moller

Statistical methods in life testing. Introduction, reliability, concepts and definitions, historical review and development. Life characteristic curve, Poisson and exponential distributions, exponential reliability equation, MTBF and failure rate concepts.

Chi square confidence statements and intervals, Weibull analysis, mean and median ranks, associated problems. Probability theory, system reliabilities, standby systems, other related topics. (3 credits)

Prerequisite: Engineering 904.

E-906 Quality Management
K. Kireenko

This course is designed for those involved in the planning and managing of quality control activities in industry. Emphasis will be on general principles rather than quality control methodology. The concept of total quality control will be developed as it applies from design, development, manufacturing and purchasing to customer usage of the product.

The economics of quality, the planning and implementation of a quality cost programme, organization for quality, procurement quality control, in-process control, motivation for quality, inspection and test planning as well as the planning of product and system quality audit and customer feedback are topics to be treated in more detail. (3 credits)

E-907 Design of Experiments

This course is intended as an introductory course for all engineering personnel involved in product manufacture and development concerned with planning and interpreting the results of industrial experiments.

The objective is to provide the participant with a more scientific approach to experimentation with emphasis on the use of statistical designs for data interpretation and high confidence in the results. Proper planning of experiments coupled with statistical evaluation of data effectively reduces experimental time, scrap and rework, resolves conflicting results and opinions, reduces interruptions to shop by eliminating trial and error runs and, most important, reduces overall costs.
Some topics covered are: Tests of hypothesis, F, t, X², Analysis of Variance, Latin Square, Cube and Nested designs. Full Factorial, and Fractional Factorial Designs. Goodness of fit tests, tests for proportions, for precision and accuracy, normal probability paper, control chart analysis of experiments, regression analysis and other relevant statistical tools and designs such as Random Balance, Multiple Balance. (6 credits)

Prerequisite: Engineering 902.

E-908
Quality Assurance Technology

This course is intended for Quality and Reliability personnel, students and Industrial and Institutional Managers irrespective of their functions. The introductory part will familiarize the student with the basic principles of Quality Assurance. Furthermore, it will develop the individual Quality System in a Modular format to cover the various phases of the Industrial and Institutional enterprise. The approach taken will follow the theoretical presentations by class participation and workshop type student involvement. Quality Assurance will be defined as a planned and systematic pattern of all actions necessary to provide adequate confidence that a product or service will conform with established requirements. Major subjects to be treated in detail are: Development of Quality Organizations, Consumerism as a factor in manufacturing, Systems Engineering, closed loop feedback Systems, Principle of Modular Systems, what the customer expects versus what he gets, Product Development, Design Engineering, Vendor-Vendee, Manufacturing, Processing, Servicing, Post Production of Marketing. This course will not deal in detail with the Statistical, Data Processing and Metrology subjects. These are referred to as essential tools used within the System and covered in existing courses. Reference texts: Glenn E. Hayes, Quality Assurance; V. Fetingenbaum, Total Quality Control; J. Yuran, Quality Control Handbooks; G. Rosenzweig, Lecture Notes. (6 credits)

NOTE: Students having credit for Management 345 may not take this course for credit.

Assistant to the Dean, (Student Programmes)
E. ANNE ADAMS

81.2 Admission Requirements

General admission requirements are listed in § 13. Specific requirements for admission to the major programmes in Studio Art are as follows:

- Art History
- Two full studio courses, one full Art History course and one additional full course selected from Art History, Cinema, Music or Theatre.

A student without the necessary studio courses must take Art 200 as a prerequisite to other studio courses in the Visual Arts. NOTE: Quebec universities have agreed to admit to the appropriate undergraduate programmes any collegial student successfully completing the above programme provided, of course, that resources are sufficient. When all such qualified students have been admitted, the university reserves the right to admit students who may not have all the specific prerequisites according to its own criteria.

The number of students accepted into the BFA programmes will depend upon the space available. Applicants for all Studio Art Programmes will be required to submit a portfolio and/or slides of work to the Portfolio Committee, Division of Visual Arts, for placement recommendation. Concordia students wishing to transfer into the Fine Arts Faculty should fill out the necessary faculty transfer forms available from the Admissions Office on the Sir George Williams Campus or should complete a Faculty of Fine Arts Student Request form on the Loyola Campus.

Transfer Students

Students who have already completed courses in other colleges or universities who wish to apply for advanced standing will be granted credits on the basis of the programme at Concordia University. Applicants for all Studio Art programmes will be required to submit a portfolio and/or slides of work to the Portfolio Committee, Division of Visual Arts, for placement recommendation. This must be done prior to registration. Students seeking a second degree must complete a minimum of 60 credits at Concordia University, while students transferring credits towards a first degree must complete a minimum of 45 credits at Concordia.

Portfolio Committee

Any student wishing to enter a Studio Art course from a background other than CEGEP Fine Arts programme must submit a portfolio of his work to the Portfolio Committee, Division of Visual Arts, for placement recommendation. Concordia students wishing to transfer credits towards a second degree must complete a minimum of 60 credits at Concordia University.

Portfolio evaluation will help to determine where the applicant will be placed.

81.3 Degree Requirements

81.3.1 DEFINITION OF CREDIT

Up to and including the academic year 1973-74, degree programmes have been expressed in terms of courses, with one credit being applied to a “full course” (normally two terms) and one half-credit being applied to a “half-course” (normally one term).

Starting in 1974-75, in accordance with the recommendations of the Quebec Council of Universities, the credit-base is being modified to take into account the total activity of the student. Students preparing for the degree of Bachelor of Fine Arts will take a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours of work spread across lectures, conferences, laboratories, studio or practice-periods, tests, examinations and personal work.
81.3.2 BFA DEGREE REQUIREMENTS

Graduation with the degree of Bachelor of Fine Arts requires:
1. Successful completion of a Major programme or Double Minor.
2. Students must take at least 24 of their 90 credits outside of the Fine Arts. These 24 credits shall be selected according to the following requirements:
   a. 12 credits shall be outside of the Faculty of Fine Arts, but may be in the Humanities (See § 41; See § 81).
   b. 12 credits from:
      i) Social Sciences (See § 41; See § 51)
      ii) Other Faculties (See § 51; See § 91; See § 51 (excluding Humanities)

Concentration Requirement

The Concentration Requirement can be satisfied either by a Major programme (60 credits) or by a Double Minor (2 x 30 credits). The selection is to be made upon entry, prior to registration.

The requirement of selecting a Major programme upon entry should not be thought of as being necessarily a final commitment. The Fine Arts programme is designed to be flexible enough to allow for changes of orientation, subject, of course, to limitations in the case of certain programmes in great demand.

A “Minor” is made up of an approved sequence of 30 credits. The term “Double Minor” states that the student has followed, within the requirements for the BFA degree, a planned programme of study in two specialized fields, with a lower degree of concentration in either than is afforded by a Major Programme.

A student may select any two of the Minors to form a “Double Minor”.

Residency Requirements

To fulfill the residency requirements for a BFA degree with a major in Art Education, Graphic Design or Studio Art, at least 30 of the credits in Studio Art and 6 of the credits in Art History must be taken at Concordia. Ordinarily this, combined with the other Degree Requirements § 81.3.2, will imply that the full-time student must enroll for two years of study at Concordia University.

81.3.3 BFA HONOURS PROGRAMME REQUIREMENTS

The University has approved programmes leading to an Honours degree in certain selected fields. An Honours degree indicates specialization within a field, and high academic standing. In order to qualify for an Honours degree a student must meet all of the academic qualifications and comply with the regulations set forth below.

1. A candidate for an Honours degree should indicate such intention at registration and consult the Honours Representative of the department(s) concerned as soon as possible. Acceptance as an Honours student will depend on performance during the first year. The Honours standing will be reviewed annually.

A student who has followed the courses prescribed for the Honours programme and has met all the requirements may enter the programme with the approval of the Honours Representative any time before beginning the final 30 credits. No retroactive approval of entry may be made.

2. A student who enters with advanced standing may apply pro tanto credits which are applicable to the Honours degree requirements, upon approval by the department(s).
A transfer student must complete a minimum of 30 credits in the basic Honours programme in residence to receive a degree with Honours.

3. An Honours student must maintain a 'B' average with no grade lower than 'C' in all courses in the basic Honours programme.

An Honours student must meet the general degree requirements as well as the specific requirements for an Honours degree, and must obtain at least a 'C' average over the total degree programme.

Failure in any course will mean suspension or withdrawal from the Honours programme. Students who fail to meet acceptance requirements and who are required to withdraw from the Honours programme will proceed as majors. Reinstatement into the Honours programme is possible only by recommendation by the Honours representative.

4. A student shall be allowed to qualify for only one Honours degree in either a single or combined Honours programme.

5. A degree with Honours in any programme is granted upon graduation only with the approval of the Senate.

81.3.4 DIPLOMA IN ART EDUCATION

The Faculty of Fine Arts offers a one year course leading to the Diploma in Art Education.

This course is integrated with the Bachelor of Fine Arts, (Art Education Major) to provide a continuous pattern of studies preparing art specialists for teaching in elementary and secondary schools.

In order to qualify for admission students must have completed the Concordia University Bachelor of Fine Arts, (Art Education Major) or the equivalent. Graduates of other institutions will be considered if they have had the equivalent of an undergraduate major in studio work and can present an acceptable portfolio. They will be expected to make up the Education and Art Education courses included in the Bachelor of Fine Arts, (Art Education Major).

The Diploma Course is offered in the Day Division only. Graduates who have been awarded the Diploma in Art Education meet the requirements for a Specialist Certificate in Art, awarded by the Quebec Board of Education. Detailed course descriptions will be found in the Graduate Studies Calendar.

81.4 Programmes in Visual Arts

### 60 BFA Honours in Art History

- **30** Art Hist 2406, 3416, 3426, 3436, 3456.
- **30** Art Hist 4396, 4416, 4426, 4436, 4446, 4456, 4466, 4713, 4723, 4806, 4906.

**NOTE:** Students with CEGEP equivalent of Art Hist 2406 may elect to take it for credit with permission of the Section.

### 60 BFA Major in Art Education

**Pattern A**

- **21** Studio Art Elec (3 credits may be substituted from Music, Cinema or Th Arts).
- **12** Art Hist (6 credits may be chosen from Art 4606, 4616).
- **15** Art 4301, Art 4326, Art Ed 4006 (Third year).

**NOTE:** Pattern A is recommended for teaching Studio and/or Art History at the secondary level. Students applying for the Diploma in Art Education and Quebec Teacher Certification must take Education N201 or Education N210.

* The remainder of 60 credits

### 60 BFA Major in Art History

- **30** Art Hist 2406, 3416, 3426, 3436, 3456, 4436, 4446, 4806.
- **30** Studio Art Elec (6 credits may be chosen from Scenography 2006, 2013, 2023, 3206, Theatre 3106).

**NOTE:** Students with CEGEP equivalent of Art History 2406 may elect to take it for credit with permission of the Section.

* Art 4606 or Art 4616 may be substituted for 6 credits in Art History.

### 48 BFA Major in Cinema

- **24** Cinema 2116, 2126, 3116, and 3126 or 4116.
- **24** Cinema Elec

*A student may substitute 3 to 12 credits chosen from French N-4616, Photography 2013 and Photography 3013.

**NOTE:** Students who received credit for Cinema 211 or Cinema 212 before September 1971 must consider these courses as equivalent to Cinema 311 and Cinema 312, respectively, for the purpose of fulfilling degree requirements.
FACULTY OF FINE ARTS
81.4
PROGRAMMES IN VISUAL ARTS

60 BFA Major in Fine Arts

0 Music Section: music elec chosen in consultation with the programme adviser, Music.

0 Studio Art Section: studio elec which may include Art 4606.

0 Art Hist Section: Art Hist to 2406, 3426, 3436, 3456, 4436, 4456.

0 Cinema Section: Cinema 2116, 2126, 3116, 3126, 3216, 4263, 4273.

0 Th Arts Section: Performance to 2013, 2023, 2033, 2043, Scenogra phy to 2006, 2016, 2026, 2036, 2046; Drama in Education 2006; Theatre 2813, 3006, 3013, 4013.

60 BFA Major in Graphic Design

6 Art Hist Elec

6 Lecture/seminar Elec in Art or Art Hist

18 Graphic Design 2013, 3006, 3013, 4006, 4506.

18 Studio Art Elec

*Students should take Graphic Design 2006, Design 2013 concurrently in first term of first year.

30 Minor in Art History

18 to 24 Art Hist 2406, 3426, 3436, 4446.

6 to 12 Art Hist 3416, 3456, 4396, 4416, 4426, 4436, 4456, 4466, 4713, 4723, 4806, 4906.

NOTE: Students with CEGEP equivalent of Art Hist 2406 may elect to take it for credit with permission of the Section.

30 Minor in Cinema

12 Cinema 2116, 2126

18* Cinema 3116, 3126, 3136, 3216, 4203, 4213, 4263, 4273

*French N-461 may be substituted for 6 credits in Cinema.

NOTE: Students who received credit for Cinema 211 or 212 before September 1971 must consider these courses equivalent to Cinema 311 and Cinema 312, respectively, for the purpose of fulfilling degree requirements.
380 Studio Art / Art Education

81.5 Studio Art / Art Education

81.5.1 COURSE DESCRIPTIONS

ART

Art 200
Studio Art I
An introduction to studio art including drawing, painting, design, sculpture and related media. (6 credits) NOTE A/See § 200.3

ART 430
Multi-Media
Prerequisites: Eighteen credits in studio courses. The technology of video, film, slides, sound, etc. as media for the artist and art educator. (3 credits) NOTE A/See § 200.3

ART 432
Crafts
Prerequisites: Eighteen credits in studio courses. The basis of crafts such as ceramics, textiles, metal work, leathercraft, etc. as potential media for the artist and art educator. (6 credits) NOTE A/See § 200.3

ART 434
Materials and Methods of the Artist
Prerequisite: Permission of the Department. Through a series of special projects this course will familiarize the student with some of the various materials, techniques and other aspects of the artist's craft. Since special emphasis will be given to historical techniques, this course is particularly recommended to all students in art history. Lectures and studio periods. (6 credits)

ART 436
Studio Workshop: Special Studies
Prerequisite: 3rd year standing and permission of the Section. This course will provide the opportunity for a limited number of students to pursue advanced studies in the studio area. (6 credits)

ART 460
Analysis of Great Works of Art
A course in art principles. Through the formal analysis of selected masterpieces of painting and sculpture the student is led to a fuller comprehension of the nature of formal order in the arts. (6 credits) NOTE A/See § 200.3

ART 461
Introduction to Aesthetics
This course provides an introduction to the philosophy and psychology of aesthetics. Topics will include the nature of beauty and art, aesthetic experience, symbolic thinking and expression; art as symbolic activity, art as communication and the principles of formal organization underlying all the arts: music, poetry, drama, sculpture, and painting. (6 credits)

ART EDUCATION

ART EDUCATION 200
Art for Classroom Use
A practical and theoretical course of particular use to teachers and those interested in early childhood development. Concepts of art education, the use of materials and techniques are considered in relation to classroom situations. Students are introduced to various art media including painting, collage construction, printing and modelling. The course includes the use of slides, films and selected readings. (6 credits) NOTE A/See § 200.3

ART EDUCATION 400
Seminar in Art Education
Prerequisite: Art education majors or permission of the Section. The development of a philosophy of art education on the basis of studio experiences, readings, the observation of and participation in teaching situations, etc. (6 credits) NOTE A/See § 200.3

CERAMICS

CERAMICS 200
Ceramics I
Prerequisite: Art Education major or permission of the Section. The introduction to clay as an art medium. The student will investigate the various techniques for forming, shaping and decorating clay for firing and glazing. (6 credits)

DESIGN

DESIGN 201
Design I
Prerequisites: CEGEP Studio Art or Art 001 and 002 or the equivalent. The dynamics and structures of two and three dimensional design. (3 credits) NOTE A/See § 200.3

DESIGN 301
Design II
Prerequisite: Design 201. Continuation of Design 201. (3 credits) NOTE A/See § 200.3

DRAWING

DRAWING 200
Drawing I
Prerequisites: CEGEP Studio Art or Art 001 and 002 or the equivalent. An exploration of drawing as space, the figure, visual skills, graphic image. (6 credits) NOTE A/See § 200.3
PAINTING 450
Advanced Studio in Painting
Prerequisite: Painting 400 previously or concurrently. A continuation of Painting 400. (6 credits) NOTE A/See § 200.3

PHOTOGRAPHY

PHOTOGRAPHY 201
Photography I
Prerequisite: CEGEP Studio Art or Art 001 and 002 or the equivalent. The use of photography and light as a source of image and ideas. (3 credits) NOTE A/See § 200.3

PHOTOGRAPHY 301
Photography II
Prerequisite: Photography 201. A continuation of Photography 201. (3 credits) NOTE A/See § 200.3

PRINTMAKING

PRINTMAKING 200
Printmaking I
Prerequisite: Drawing 200 previously or concurrently. A study of the basic principles of printmaking through experience with various approaches both traditional and contemporary. A student may specialize in lithography, serigraphy, or relief and intaglio. (6 credits) NOTE A/See § 200.3

PRINTMAKING 300
Printmaking II
Prerequisite: Printmaking 200. Continuation of Printmaking 200. (6 credits) NOTE A/See § 200.3

PRINTMAKING 400
Printmaking III
Prerequisite: Printmaking 300. Continuation of Printmaking 300. (6 credits) NOTE A/See § 200.3

SCULPTURE

SCULPTURE 200
Sculpture I
Prerequisite: CEGEP Studio Art or Art 001 and 002 or the equivalent. An investigation into the methods, materials and modes of expression in sculpture. Both traditional and contemporary materials and techniques will be used. (6 credits) NOTE A/See § 200.3

SCULPTURE 300
Sculpture II
Prerequisite: Sculpture 200. Continuation of Sculpture 200. (6 credits) NOTE A/See § 200.3

SCULPTURE 400
Sculpture III
Prerequisite: Sculpture 300. Continuation of Sculpture 300. (6 credits) NOTE A/See § 200.3

LOYOLA CAMPUS ONLY

Not offered 1976-77

ART 326
(Also listed as IDS 306Z § 51)

Students will study works of art depicting sport in various periods and places. Works in several media representative of the culture of their origin will be selected, as well as documents treating the culture from anthropological, historical and sociological perspectives. The course will be conducted jointly by members of several departments as well as by invited speakers. (6 credits)
STUDIO ART 325
Aesthetic in Design and Colour
A study of the functional and aesthetic elements of design and colour. The relationship between design and the environment. Trends in contemporary aesthetic thinking will be reviewed. The course takes the form of a group seminar, practical studio work, selected readings and critical analysis. (3 credits)

STUDIO ART 370
Interior Design
An introductory course, surveying the cultural and aesthetic implications of interior design with discussions of design fundamentals, principles, materials, colour, texture and lighting related with practical exercises investigating and illustrating these topics. An introduction to drafting and its uses in interior design. (3 credits)

STUDIO ART 421
Industrial Design
A course integrating applied design of various media in areas of display, exhibits, product design and industrial design. Emphasis placed on designing and communicating to the client and public. The student is involved in space planning, use of materials, human engineering and professional presentation techniques. (3 credits)

STUDIO ART 480
Anatomy and Drawing
Prerequisites: Art 200, Drawing 200, Design 201. Basic anatomy in drawing the human figure will be taught. Both static and action poses will be dealt with. Special emphasis will be placed on portraiture. Anatomical analysis, including proportion, will be investigated. (3 credits)
ART HISTORY 240
Introduction to Art History
A study of selected works which represent outstanding and significant achievements in the visual arts. (6 credits)
NOTE: Students who have had the CEGEP equivalent of Art History 240 need not take it as part of their major programme but may elect to take it with the permission of the section. NOTE A/See § 200.3

ART HISTORY 249
Canadian Sculpture and Architecture
A study of the more important developments of Canadian architecture and sculpture from indigenous forms to contemporary works. (6 credits) NOTE A/See § 200.3

ART HISTORY 341
Art in the Ancient World
This course will consider the emergence of art and architecture in the ancient world, giving particular attention to developments in Egypt, Greece and Rome. (6 credits)
NOTE A/See § 200.3

ART HISTORY 342
The Renaissance in Italy
A survey of painting, sculpture and architecture in Italy during the fifteenth and sixteenth centuries. (6 credits)
NOTE A/See § 200.3

ART HISTORY 343
The History of Nineteenth Century Art
Starting with the French Revolution and Neo-Classicism, this course will examine Romanticism, Realism, Naturalism, Impressionism, Post-Impressionism and other nineteenth century European movements leading to the emergence of Fauvism in the twentieth century. (6 credits)
NOTE A/See § 200.3

ART HISTORY 345
Art in the Twentieth Century
Prerequisite: Art History 240 or 343. Commencing with Cubism, this course will examine the main movements and trends which have occurred in western art during this century. (6 credits)
NOTE A/See § 200.3

ART HISTORY 439
Iconography
Prerequisite: Art History 240 or permission of the Section. This course will examine recurring visual symbols in Western Art which are derived from Classical or Christian literature. (6 credits)

ART HISTORY 441
The History of Medieval Art
Prerequisite: Art History 240. This course will consider the growth of European art and architecture from Early Christian times through the fourteenth century. (6 credits)
NOTE A/See § 200.3

ART HISTORY 442
The Renaissance in Northern Europe
Prerequisite: Art History 240 or 342. This course will investigate the development of art in France, Flanders, Germany and Austria in the fifteenth and sixteenth centuries. (6 credits)
NOTE A/See § 200.3

ART HISTORY 443
History of Baroque and Rococo Art
Prerequisite: Art History 240. This course will examine the major achievements in Dutch, Flemish, English, French, Italian, Spanish, German and Austrian art and architecture in the seventeenth and eighteenth centuries. (6 credits)
NOTE A/See § 200.3

ART HISTORY 444
The Arts in Canada
Prerequisite: Art History 240 or enrollment in the Canadian Studies Major. A history of the arts in Canada from the 17th century to the present day. Where relevant, special attention will be given to those European and American influences which have shaped its growth. (6 credits)
NOTE A/See § 200.3

ART HISTORY 445
American Art and the European Background
Prerequisite: Art History 240. A survey of American Art from earliest colonial times into the early 20th century, viewed against the background of those European developments which have significantly affected it. (6 credits)
NOTE A/See § 200.3

ART HISTORY 446
History of Modern Architecture
Prerequisite: Art History 240 or permission of the Section. An examination of the major building styles from the Georgian era through the 20th century with emphasis on the contributions of individual architects from Louis Sullivan to Mies van der Rohe. (6 credits)
NOTE A/See § 200.3

ART HISTORY 471
Special Topics in Art History
Prerequisite: Twelve credits in Art History or permission of the Section. A seminar for advanced students which will provide an op-
ART HISTORY 472
Special Topics in Art History
Prerequisite: Permission of the Section.
A student repeating Art History 471 registers under Art History 472 for credit. (3 credits)
NOTE A; C/See § 200.3

ART HISTORY 473
Special Topics in Art History
Prerequisite: Permission of the Section.
A student repeating Art History 472 registers under Art History 473 for credit. (3 credits)
NOTE A; C/See § 200.3

ART HISTORY 474
Special Topics in Art History
Prerequisite: Permission of the Section.
A student repeating Art History 473 registers under Art History 474 for credit. (3 credits)
NOTE C/See § 200.3

ART HISTORY 480
Special Studies in the History of Art
Prerequisite: Twelve credits in Art History. Students in this course will examine and discuss selected aspects of Art History. The areas chosen for consideration will vary from year to year according to the instructor's field of specialization. All students will be required to undertake research projects and to submit papers based on their investigation. (6 credits)
NOTE A; C/See § 200.3

ART HISTORY 481
Special Studies in the History of Art
Prerequisite: Twelve credits in Art History. A student repeating Art History 480 registers under Art History 481 for credit. (6 credits)
NOTE C/See § 200.3

ART HISTORY 490
Advanced Studies in Art History
Prerequisite: Eighteen credits in Art History and permission of the Section. A course for advanced students which will provide for the study of limited and more specialized areas of Art History. The areas chosen for study will vary from year to year according to the instructor's field of specialization. All students will be required to conduct research on selected aspects of the course topic. (6 credits)
NOTE A; C/See § 200.3

ART HISTORY 491
Advanced Studies in Art History
Prerequisite: Permission of the Section. A student repeating Art History 490 registers under Art History 491 for credit. (6 credits)
NOTE C/See § 200.3
81.7 Cinema

81.7.1 COURSE DESCRIPTIONS

CINEMA 211
History of Film
A study of the history of film from its beginning to the 1950's. Changes in the forms, functions, aesthetics and technology of film will be dealt with through the examination of individual works seen in a chronological sequence. Weekly screenings. (6 credits)

NOTE A / See § 200.3

CINEMA 212
Film Aesthetics
A study of the aesthetics of film. Topics include film criticism, theories about the fundamental elements of film, and comparisons between films which do not depend on their date of production. Problems of film description, interpretation and evaluation will be discussed. Weekly screenings. (6 credits)

NOTE A / See § 200.3

CINEMA 311
An Introduction to Filmmaking I
Prerequisite: Cinema 211 or 212, previously or concurrently. An introductory course in the theory and practice of filmmaking. This course will stress the individual student's creative efforts in producing films in Super 8 or 16mm. Lectures and laboratory periods. (6 credits)

NOTE A / See § 200.3

CINEMA 312
Animation I
Prerequisite: Cinema 311 or 6 credits from studio courses in the visual arts. Written permission of the Section. The theory and practice of animation. Lectures and studio periods. (6 credits)

NOTE A / See § 200.3

CINEMA 313
Animation II
Prerequisite: Cinema 312 and written permission of the Section. A student repeating Cinema 312 registers under Cinema 313 for credit. (6 credits)

NOTE: Students are required to bear the cost of film stock, processing, printing and other materials. NOTE C / See § 200.3

CINEMA 321
The Art of Film Directors
Prerequisite: Cinema 211 or second year standing. A concentrated study of the work of several major directors from different periods in film history. Each director's work will be examined in detail with representative films from distinct periods. The films will be considered in terms of thematic and stylistic consistency and variation as well as biographical, social and political factors. Weekly screenings. (6 credits)

CINEMA 411
Filmmaking II
Prerequisite: Cinema 311 and written permission of the Section. An intermediate course in the theory and practice of filmmaking. Lip sync 16mm production is introduced in all its aspects: cinematography, sound recording, editing. Lectures and laboratory periods. (6 credits)

NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

NOTE A / See § 200.3

CINEMA 412
Filmmaking III
Prerequisite: Cinema 212, 411 and written permission of the Section. The completion of an advanced 16mm film project including its writing, design, production and editing. (6 credits)

NOTE A / See § 200.3

NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

CINEMA 413
Filmmaking III
Prerequisite: Cinema 412 and written permission of the Section. A student repeating Cinema 412 registers under Cinema 413 for Credit. Only students who were granted an exemption from Cinema 311 or 411 may repeat Cinema 412. (6 credits)

NOTE A; C / See § 200.3

CINEMA 420
Special Topics in Cinema
Prerequisite: Written permission of the Section. A course for advanced students which will provide an opportunity for the study of limited and more specialized aspects of cinema. (3 credits)

NOTE A; C / See § 200.3

CINEMA 421
Special Topics in Cinema
Prerequisite: Written permission of the Section. A student repeating Cinema 420 registers under Cinema 421 for Credit. (3 credits)
CINEMA 426
English Canadian Film
A survey of English Canadian film from the earliest surviving works to the present. Topics include fiction, documentary, animation and experimental film. The role of the National Film Board will be discussed. Weekly Screenings. (3 credits)

CINEMA 427
Quebec Film
A survey of Quebec film with an emphasis on contemporary works. The unique cultural and economic aspects of these films will be discussed. (3 credits)
NOTE: A French section of this course will be offered under the direction of the Conservatoire d'Art Cinématographique.

CINEMA 431
Sound for Film
Prerequisite: Cinema 311 and written permission of the Section. Creative and experimental exercises in the use of sound with moving images. (6 credits) NOTE A/See § 200.3

CONSERVATOIRE D'ART CINÉMATOGRAPHIQUE
Les sections des cours suivants seront offerts sous la direction du Conservatoire d'Art Cinématographique:

CINEMA 211
L'histoire du cinéma
Historique du cinéma, de ses débuts aux années 50. Les changements dans les formes, les fonctions, l'esthétique et les aspects techniques du cinéma y seront traités par l'examen des œuvres individuelles vues dans un ordre chronologique. Visionnements hebdomadaires. (6 crédits) NOTE A; C/See § 200.3

CINEMA 427
Le cinéma québécois
Revue des films québécois en mettant l'accent sur les œuvres contemporaines. Les aspects culturels et économiques particuliers de ces films y seront traités. (3 crédits)

FACULTY OF FINE ARTS
81.8
PROGRAMMES IN PERFORMING ARTS
The Drama and Theatre Arts programmes have undergone intensive reorganization, resulting in the offering of four new programmes:

- BFA Specialization, Theatre Performance
- BFA Specialization, Theatre Scenography
- BFA Specialization, Drama in Education
- BFA Major in Drama

The Specializations are intensive programmes for students of ability who wish to work towards careers in Theatre Arts. The educational objectives of these specialized studies in theatre leading to the BFA degree have, as points of reference, the best standards of professional practice. For this reason the programmes are appropriate only for very able students dedicated to the study of Theatre. Students will generally enter into the Drama major and then apply for entrance to the specialized programmes on the basis of their performance in their first year.

### 81.9.1 COURSE DESCRIPTIONS

#### THEATRE

**THEATRE 281**  
Introduction to the Theatre  
An introductory survey of theatre and its major forms and theories primarily through the study of plays in performance. (3 credits) NOTE A/See § 200.3

**THEATRE 300**  
Theatre History  
A study of the development of the physical stage and representative theoretical and dramatic works within their social context from pre-history to the present. (6 credits) NOTE A/See § 200.3

**THEATRE 301**  
Canadian Theatre  
The development of theatre in Canada and the study of selected Canadian plays in text and in performance. Topics will include amateur and professional theatre, the emergence of theatre programmes in schools and universities; regionalism; the cultural boom of the Sixties and the development of such institutions as festivals, arts councils and national and local theatre organizations. (3 credits) NOTE A/See § 200.3

**THEATRE 310**  
Puppetry  
Prerequisite: 6 credits in Theatre and written permission of the Section. A studio course in the making and manipulation of puppets. The course includes a theoretical and historical study of puppet theatres in present and past cultures. The class will prepare and perform plays. (6 credits) NOTE A/See § 200.3

**THEATRE 320**  
Theatre Administration  
Prerequisite: Permission of the Section. A course in theatre administration: Office and plant management, finance and budget, insurance, contracts, programme planning, public relations and touring. Lectures and case studies. (6 credits) NOTE A/See § 200.3

**THEATRE 401**  
Quebec Theatre  
Prerequisite: Permission of the Section. A study of selected plays of Quebec writers within their cultural milieu. Attendance at French and English language performances will be required. Guest speakers involved in Quebec theatre will be invited to supplement lectures. (3 credits) NOTE A/See § 200.3

**THEATRE 402**  
Playwriting Workshop  
Prerequisite: Permission of the Section. Study of existing methods of playwriting in relation to stage production. Emphasis is on the creative work of the student guided by the criticism of the class and the instructor in the processes of stage realization. Producing scripts will receive workshop production. (3 credits) NOTE A/See § 200.3

**THEATRE 403**  
Advanced Practicum  
Prerequisite: Permission of the Section. Special studies in acting, directing, playwriting, design, technical production, or other related area. (3 credits) NOTE A/See § 200.3

**THEATRE 404**  
Seminar in Theatre  
Prerequisite: Permission of the Section. Research in one phase of theatre. A specific topic will be chosen each year from such areas as the history of acting, directing, or design aspects of theatre practice or theatre history. (3 credits) NOTE A/See § 200.3
SCENOGRAPHY

SCENOGRAPHY 200
Design Studio
Prerequisite: Permission of the Section. An introduction to the basic theories and principles of visual design as applied to theatrical production. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY 201
Stagecraft I
An introduction to the materials, equipment, and techniques employed in scenery, properties, instrumentation, stage lighting, and costumes for the theatre. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY 202
Stagecraft II
Prerequisite: Scenography 201 (may be taken concurrently). A continuation of Scenography 201, including scene painting, the design and construction of stage properties, and theatre graphics. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY 300
Scene Design I
Prerequisites: Scenography 200 and 202. Studio work in the theory and practice of designing scenery for various types of theatrical productions with emphasis on the development of design concepts from script to stage and the techniques of presentation, including drafting, rendering, and model making. Consideration will be given to the history of architecture and decor and the development of various forms of theatre. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY 301
Stagecraft III
Prerequisite: Scenography 202. Practice in the planning, organization, preparation and performance phases of theatrical production. Students will assume positions of responsibility in production management, stage management, technical direction and other major areas. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY 302
Lighting and Sound
Prerequisite: Scenography 202. Advanced work in the technology and aesthetics of lighting and sound for the theatre. Students will assume positions of responsibility in theatrical production. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY 320
Costume Design I
Prerequisites: Scenography 200 and 202. A studio course in the theory and practice of designing costumes for various types of theatrical productions with emphasis on the development of design concepts and methods of presentation. Consideration will be given to the history of costume and costume. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY 321
Costume Construction
Prerequisite: Scenography 201. Practical work in the cutting and construction of stage costumes. Consideration will be given to the nature of fabrics and methods of handling them. Working from sketches, students will construct costumes for theatrical productions. (3 credits)

SCENOGRAPHY 400
Scene Design II
Prerequisites: Scenography 300 and 302. Practical work in the design and execution of scenery and lighting for theatrical production. (6 credits)

SCENOGRAPHY 401
Special Scenographic Techniques
Prerequisite: Scenography 202. Advanced practical work in areas such as masks, special make-up techniques, special effects, projected scenery, special properties construction techniques. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY 420
Costume Design II
Prerequisites: Scenography 320 and 321 previously or concurrently. Practical work in the design and execution of costumes for theatrical production, including studio work in draping and flat pattern drafting. (6 credits)

DRAMA IN EDUCATION

DRAMA IN EDUCATION 200
Creative Drama I
Introduction to the principles and practice of creative drama. Improvisation in movement and oral expression. Development of the individual’s expressive capacities. Relating creative drama to learning processes in schools. (6 credits) NOTE A/See § 200.3

DRAMA IN EDUCATION 300
Creative Drama II
Prerequisite: Drama in Education 200. Creative drama activities, integrating music, art, and drama forms. Exploration of innovative uses of audio and visual materials. (6 credits) NOTE A/See § 200.3

DRAMA IN EDUCATION 400
Creative Drama III
Prerequisite: Drama in Education 300. Advanced individual and group development through improvisation. Collective creation. Pedagogy and the drama curriculum. (6 credits)

DRAMA IN EDUCATION 410
Children’s Theatre
Prerequisite: Written permission of the Section. Theories of stage presentation for the child audience. Study of scripts, performance techniques, special conditions and responsibilities. (6 credits)

THEATRE PERFORMANCE

THEATRE PERFORMANCE 201
Acting I
Emphasis on developing imagination and physical expression, including basics of improvisation. Preparation of scenes and play excerpts for class study. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE 202
Acting II
Prerequisite: Theatre Performance 201. Preparation for the role, including scene and character analysis and the continued development of imagination and expression. Focus will be on the presentation of scenes from plays. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE 203
Voice, Movement and Speech I
An introduction to the use of the body as an acting tool, with emphasis on movement, comprising exercises for vocal and physical flexibility, relief from tension, expressiveness of gesture and body composition, spatial awareness, vocal support, vocal quality, and speech mechanics. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE 204
Voice, Movement and Speech II
Prerequisite: Theatre Performance 203. Integration of body and voice with increased
fessional directors. Majors only. Attendance at rehearsals and/or workshops outside of class time will be required. (3 credits) NOTE A/See § 200.3

PRODUCTION 301
Production Workshop II
Prerequisite: Production 201. Continuation of Production Workshop I. Majors only. Attendance at rehearsals and/or workshops outside of class time will be required. (3 credits) NOTE A/See § 200.3

PRODUCTION 302
Production Workshop III
Prerequisite: Production 301. Continuation of Production Workshop II. Majors only. Attendance at rehearsals and/or workshops outside of class time will be required. (3 credits) NOTE A/See § 200.3

PRODUCTION 303*
Art dramatique
Condition prérequis: Facilité en français et l’approbation du Section. Cet atelier pratique vise à sensibiliser les étudiants aux exigences du texte dramatique et aux réalités de la scène. Les membres de ce cours montreront et interprèteront une pièce ou quelques actes du théâtre français ou québécois, ou des scènes créées dans le cours. (3 credits) NOTE A/See § 200.3

NOTE: *Theatre Arts and Drama Majors may substitute this course for Production 401.

PRODUCTION 304
Independent Study I
Prerequisite: Permission of the Section and six credits in Performance or Scenography. Credit granted to individual students under the supervision of a Faculty member for practical drama production activity outside the academic Theatre programme. Each completed project will include planning, participation and a written evaluation of the practical experience. (3 credits) NOTE A/See § 200.3

PRODUCTION 305
Independent Study II
Prerequisite: Production 304 and permission of the Section. Continuation of Production 304. (3 credits) NOTE A/See § 200.3

PRODUCTION 401
Production Workshop IV
Prerequisite: Production 302. Continuation of Production Workshop III. Majors only. Attendance at rehearsals and/or workshops outside of class time will be required. (3 credits) NOTE A/See § 200.3

PRODUCTION 402
Production Workshop V
Prerequisite: Production 401. Continuation of Production Workshop IV. Majors only. Attendance at rehearsals and/or workshops outside of class time will be required. (3 credits)

PRODUCTION 403
Production Workshop VI
Prerequisite: Production 401. Continuation of Production Workshop IV/V. Majors only. Attendance at rehearsals and/or workshops outside of class time will be required. (3 credits)
81.10 Music

Assistant Director Performing Arts,
Music
P. COHEN

81.10.1 COURSE DESCRIPTIONS

MUSIC 201
Choir/Orchestra
Prerequisite: Permission of the Music Section. Students may, on approval, receive a maximum of 3 credits per year for participation in supervised university or university affiliated choral or orchestral groups. (3 credits)

MUSIC 211
Basic Skills: Theory
A course for the student who requires additional background in music theory. (3 credits)

MUSIC 212
Basic Skills: Ear Training
Prerequisite: Music 211 or equivalent. Training for the student who requires additional aural development. (3 credits)

MUSIC 231
Private Study A I
Prerequisite: Permission of the Section. This course offers individual or group instruction in an approved area of music with a qualified teacher of the student's choice. Students should understand that fees will vary with individual instructors. A student continuing Music 231 for credit registers under Music 331 and Music 431. (3 credits)

MUSIC 232
Private Study B I
Prerequisite: Permission of the Section. This course offers individual or group instruction in an approved area of music with a qualified teacher of the student's choice. Students should understand that fees will vary with individual instructors. A student continuing Music 232 registers for credit under Music 332 and Music 432. (6 credits)

MUSIC 233
Understanding Music
A course in analytical listening for the student who has little or no musical background. The works studied represent the major styles and idioms of Western music. (3 credits)

MUSIC 235
Musicianship
Prerequisite: Music 211 or equivalent. A workshop in theory, composition and analysis. In a given year the course will explore one or more traditional, contemporary or experimental approaches to the organization and uses of sound materials. (6 credits) NOTE A/See § 200.3

MUSIC 301
Choir and Orchestra
Prerequisite: Music 201. Continuation of Music 201. (3 credits) NOTE C/See § 200.3

MUSIC 302
Choir/Orchestra
Prerequisite: Music 301. Continuation of Music 301. (3 credits) NOTE C/See § 200.3

MUSIC 321
Aural Perception
A self-paced workshop in ear training. Hearing skills are developed through exercises in aural concentration, recall, reproduction, imagination, analysis, and transcription. The sound materials used range from traditional to electronic, natural and mechanical. Classroom and laboratory. (6 credits)

MUSIC 331
Private Study A II
Prerequisite: Music 231 and permission of the Music Section. Continuation of Music 231. (3 credits) NOTE C/See § 200.3

MUSIC 332
Private Study B II
Prerequisite: Music 232 and permission of the Music Section. Continuation of Music 232. (6 credits) NOTE C/See § 200.3

MUSIC 335
Theory/Composition Studio I
Prerequisite: Music 235 or permission of the Music Section. A study that coordinates exercises in part-writing and harmony with composition. Students work in a variety of traditional and contemporary forms, styles, and media. Classroom and laboratory. (6 credits) NOTE A/See § 200.3

MUSIC 336
Ensemble Studio I: Early Music
Prerequisite: Permission of the Music Section. A study, through performance, of representative vocal and instrumental works from the middle ages to the early baroque. A student continuing Music 336 registers for credits under Music 337. (3 credits) NOTE C/See § 200.3

MUSIC 337
Ensemble Studio I: Early Music
Prerequisite: Music 336. Continuation of Music 336. (3 credits) NOTE C/See § 200.3
MUSIC 338
Studio Musicianship I: Jazz, Rock and Popular Music
Prerequisite: Permission of the Section. A workshop in selected jazz, rock, popular and related styles. The study will include ensemble playing, improvisation, score reading, jazz theory and arranging. (6 credits) NOTE C/See § 200.3

MUSIC 339
Ensemble Studio I: Early Music
Prerequisite: Music 337. Continuation of Music 337. (3 credits) NOTE C/See § 200.3

MUSIC 340
Ensemble Studio I: Early Music
Prerequisite: Music 339. Continuation of Music 339. (3 credits) NOTE C/See § 200.3

MUSIC 343
Music in the Non-Western World
Prerequisite: Permission of the Music Section. A survey of the art, religious and folk music of non-European cultures. The study includes an examination of cross-cultural parallels and influences, instruments, notation, styles, techniques of performance and problems of interpretation. Illustrated with recordings and slides. (6 credits) NOTE A/See § 200.3

MUSIC 345
Folk Music of the Americas
Prerequisite: Permission of the Music Section. A survey of the roots and development of traditional music in the New World. The study examines aboriginal as well as transplanted and hybrid styles; urban and rural musics with special attention to European and African antecedents; the relationship of folk musics to popular and cultivated styles; transcription and arrangement, ethnomusicological method. (6 credits) NOTE A/See § 200.3

MUSIC 351
Stylistic and Formal Analysis
Prerequisites: Twelve credits in Music or permission of the Music Section. A comparative study of selected works representing various forms, styles and historical periods. (3 credits) NOTE A; C/See § 200.3

MUSIC 352
Stylistic and Formal Analysis
Prerequisite: Music 351. Continuation of Music 351. (3 credits) NOTE A; C/See § 200.3

MUSIC 353
Aural Perception II: Analytical Hearing
Prerequisite: Music 321 or permission of the Music Section. An intensive study of selected problems in hearing, analyzing and transcribing music. The course combines individual and group exercises with structural analysis. Areas to be covered are determined by specific classroom needs. (3 credits) NOTE C/See § 200.3

MUSIC 354
Aural Perception III
Prerequisite: Music 353. Continuation of Music 353. (3 credits) NOTE C/See § 200.3

MUSIC 355
Stylistic and Formal Analysis
Prerequisite: Music 352. Continuation of Music 352. (3 credits) NOTE C/See § 200.3

MUSIC 356
Stylistic and Formal Analysis
Prerequisite: Music 355. Continuation of Music 355. (3 credits) NOTE C/See § 200.3

MUSIC 360
Folk and Traditional Music
Prerequisite: Permission of the Music Section. The music of a selected culture or community. While in a given year the study may consider the music of any world culture, particular attention will be given to the musical heritage of ethnic minorities residing in Canada. (6 credits) NOTE C/See § 200.3

MUSIC 370
Folk and Traditional Music
Prerequisite: Permission of the Music Section. Continuation of Music 360. (6 credits) NOTE C/See § 200.3

MUSIC 380
Folk and Traditional Music
Prerequisite: Permission of the Music Section. Continuation of Music 370. (6 credits) NOTE C/See § 200.3

MUSIC 421
Music in Education
Prerequisite: Permission of the Music Section. This course is designed to give the student a working knowledge of contemporary techniques of group instruction in music. At least one established or experimental method is covered in some depth; for example, Orff, Kodaly, Dalcroze, Martenot, Schafer, Dennis. While the main emphasis is on the cultivation of musicality in the preschool and elementary school child, the implications for music education in general are also explored. Classroom work includes opportunities for demonstration and practical teaching. (6 credits)

MUSIC 431
Private Study A III
Prerequisite: Music 331 and permission of the Music Section. Continuation of Music 331. (3 credits) Note C/See § 200.3

MUSIC 432
Private Study B III
Prerequisite: Music 332 and permission of the Music Section. Continuation of Music 332. (3 credits) Note C/See § 200.3

MUSIC 435
Theory Composition Studio II
Prerequisite: Music 335 or permission of the Music Section. A continuation of Music 335 at a more advanced level. While the study will emphasize contemporary writing techniques, it will include close work in traditional harmony and counterpoint. Classroom and laboratory. (6 credits)

MUSIC 436
Ensemble Studio II: Traditional/Contemporary
Prerequisite: Permission of the Music Section. A study, through performance, of selected works from the traditional and contemporary repertoires. The works studied are determined by classroom needs and the particular skills of each student. A student continuing Music 436 registers under Music 437 for credit. (3 credits) Note C/See § 200.3

MUSIC 437
Ensemble Studio II: Traditional/Contemporary
Prerequisite: Permission of the Music Section. Continuation of Music 436. (3 credits) NOTE C/See § 200.3

MUSIC 438
Ensemble Studio III: Advanced Repertoire
Prerequisite: Permission of the Music Section. An intensive study of selected works from the repertoire. Particular consideration will be given to acquiring proficiency in conducting, balance, style, interpretation and related dimensions of higher technique. (3 credits) Note C/See § 200.3
MUSIC 439
Ensemble Studio III: Advanced Repertoire
Prerequisite: Permission of the Music Section. Continuation of Music 438. (3 credits) NOTE C/See § 200.3

MUSIC 449
Instrumentation/Arranging
Prerequisite: Permission of the Music Section. A study of the capabilities and uses of instruments in a variety of musical situations. The areas covered are determined by specific classroom needs. (3 credits) NOTE C/See § 200.3

MUSIC 450
Instrumentation/Arranging
Prerequisite: Permission of the Music Section. Continuation of Music 449. (3 credits) NOTE C/See § 200.3

MUSIC 451
Instrumentation/Arranging
Prerequisite: Music 450. Continuation of Music 451. (3 credits) NOTE C/See § 200.3

MUSIC 452
Instrumentation/Arranging
Prerequisite: Music 451. Continuation of Music 452. (3 credits)

MUSIC 465
Seminar in Performance
Prerequisite: Permission of the Music Section. This course examines selected problems in the development of performance skills. The areas covered are, whenever possible, determined by the specific interests of students. Topics, in any given year, may include: technique; practice; style; interpretation; accompaniment; ensemble; teaching children; the adult student. (3 credits) Note C/See § 200.3

MUSIC 466
Seminar in Performance
Prerequisite: Music 465 previously or concurrently. Continuation of Music 465. Topics may vary between sections and from year to year.

MUSIC 467
Seminar in Performance
Prerequisite: Music 466 previously or concurrently. Topics will vary between sections and also from year to year. Continuation of Music 466. (3 credits) NOTE C/See § 200.3

MUSIC 468
Special Study in Music History
Prerequisite: 12 credits in Music or permission of the Music Section. A study of selected period, area, or contribution. In a given year, the study may examine any significant aspect of Western, non-Western, or other music. (3 credits) NOTE C/See § 200.3

MUSIC 469
Special Study in Music History
Prerequisite: Music 468, Continuation of Music 469. (3 credits) NOTE C/See § 200.3

MUSIC 470
Seminar in Performance
Prerequisite: Music 467, previously or concurrently. Topics will vary between sections and from year to year. Continuation of Music 467. (3 credits) NOTE C/See § 200.3

MUSIC 471
Independent Study
Prerequisite: Permission of the Section. An independent study intended primarily for the student who wishes to do research in an area of his own choosing. He may alternatively elect to compose a large scale scale work or perform an approved programme in public recital. Staff members will be available for consultation. (3 credits) NOTE C/See § 200.3

MUSIC 472
Independent Study
Prerequisite: Permission of the Music Section. Continuation of Music 471. (3 credits) NOTE C/See § 200.3

MUSIC 475
Seminar Workshop in Music Education
Prerequisite: Permission of the Music Section. A study of selected problems in the musical education of the child. Among the areas to be considered are the music curriculum, music and the other arts, concepts of musicality, musical thinking, the education of the musically gifted child, and the musical environment in home and school. Discussion will be combined with workshop demonstrations. (3 credits) NOTE C/See § 200.3

MUSIC 476
Seminar Workshop in Music Education
Prerequisite: Music 475. Continuation of Music 476. (3 credits) NOTE C/See § 200.3

MUSIC 481
Studio Musicianship II
Prerequisite: Music 438 or permission of the Music Section. An intensive study of selected problems in the development of studio musicianship. The areas covered are determined by specific classroom needs. Practice period-conference. (3 credits) NOTE C/See § 200.3

MUSIC 482
Studio Musicianship II
Prerequisite: Music 438 or permission of the Music Section. Continuation of Music 481. (3 credits) NOTE C/See § 200.3

MUSIC 485
Contemporary Idioms and Media
Prerequisite: Music 438 or permission of the Music Section. A workshop in selected areas of contemporary music. In a given term, the study may include one or more of the following: Jazz, Rock, electronic and computer composition, aleatory, free form, "brain", and experimental musics. Whenever possible provision will be made for public performance of student works. (3 credits) NOTE C/See § 200.3

MUSIC 486
Contemporary Idioms and Media
Prerequisite: Music 485. Continuation of Music 486. (3 credits) NOTE C/See § 200.3

MUSIC 487
Contemporary Idioms and Media
Prerequisite: Music 486. Continuation of Music 487. (3 credits) NOTE C/See § 220.3

MUSIC 488
Contemporary Idioms and Media
Prerequisite: Music 487. Continuation of Music 488. (3 credits) NOTE A/See § 200.3

MUSIC HISTORY 200
Music History and Society
A survey of musical styles in their social context, from pre-history to the present day. While emphasis is on the mainstream of the western tradition, attention is also given to folk, popular and jazz styles, as well as the music of other cultures. (6 credits) NOTE A/See § 200.3

MUSIC HISTORY 301
Medieval/Renaissance Music
Prerequisite: Music 235 or equivalent. Representative works from the Medieval and Renaissance periods. Styles and performance practices will be examined in the light of the
historical forces that helped shape the course of Western Music. (3 credits)

MUSIC HISTORY 302
Music of the Baroque
Prerequisite: Music 235 or equivalent. Representative works from the early 17th to the mid 18th century. The evolution of "common practice" will be traced in the forms, styles and performance practices of the great masters and schools. (3 credits)

MUSIC HISTORY 303
Classical Music
Prerequisite: Music 235 or equivalent. Representative works from the age of Haydn, Mozart and Beethoven. Styles, forms and performance practices will be examined within the context of 18th century social and cultural developments. (3 credits)

MUSIC HISTORY 304
Romanticism in Music
Prerequisite: Music 235 or equivalent. Representative works from the late 18th to early 20th century. Styles and performance practices will be studies as expressions of the romantic consciousness. (3 credits)

MUSIC HISTORY 305
Music in the Twentieth Century
Prerequisite: Music 235 or equivalent. A selected area or movement in 20th century music. In a given semester the topic for consideration may include the work of a major composer, a national school, contemporary classicism, serialism, jazz, folk, popular, electronic, aleatory or experimental music. (3 credits)

91.3 Degree Requirements

Students preparing for the degree of Bachelor of Science will take the minimum of 90 credits. Each credit represents a minimum of 45 hours spread across the total student activity including lectures, conferences, laboratories, studio or practice periods, examinations and personal work. Sixty (60) of these must be taken from the courses listed as courses offered in the Faculty of Science in the university calendar except where otherwise noted.

91.4 Programmes of Study

Students may choose to follow in their degree requirements various programmes of study. These programmes are classified as honours degrees, specialized degrees, degrees with a major, degrees with a minor, and certificates.

An Honours degree consists of a minimum of 60 specified credits and indicates an in depth specialization within a field of study and high academic standing. In order to qualify for an honours degree a student must meet all the academic qualifications and comply with the regulations set forth below:

1. A candidate for an honours degree should indicate such intention at registration, and consult the honours representative of the departments concerned as soon as possible. Honours standing will be reviewed annually. However, a student who has followed the courses prescribed for the honours programme, and has met all the requirements, may enter the programme with the approval of the department chairman at any time before beginning the final thirty credits. No retroactive approval of entry may be granted.

2. An honours student must meet the general degree requirements as well as the specific requirements for an honours degree, and must obtain at least a 'C' average over the total degree programme. Failure in any course will mean suspension from the honours programme. Reinstatement is possible only by recommendation of the honours representative.

3. An honours student must obtain a 'B' average with no grade lower than 'C' in all courses in the basic honours programme.

4. A student who enters with advanced standing may apply pro tanto credits which are applicable to the honours degree requirements, upon approval by the department.
5. A student shall be allowed to qualify for only one honours degree.
6. Honours standing in any programme is granted upon graduation only with the approval of the Senate.

A Specialization will consist of a minimum of 60 credits of an approved sequence of courses in a specific field. The term specialization, BSc, implies that a student has followed, within the requirements for the degree, a planned programme of concentration in a given field of study. Note: With modifications, the above specialization represents what was previously called major.

A Major programme consists of a minimum of 36 credits of an approved sequence of courses in a specific or related field. Note: This programme differs from the old major which had a minimum of 42 credits and a maximum of 60 credits.

A Minor programme consists of a minimum of 24 credits and indicates a lower degree of concentration but indicates a complementation to a chosen field.

Students may choose to follow various combinations of these programmes within their degree requirements and are required to indicate on their application forms the choice of honours, specialization or major and any minor.

Certificate programmes are available for practising teachers. They are Certificates in Mathematics for Teachers at the Elementary School level and at the Junior Secondary School level.

The content of these programmes for each department can be found with the departmental listings on the following pages.

BIOLOGY N-201 (251)
General Biology I
A survey of basic principles of biology: chemical basis of life, cell organization and control; elements of anatomy, physiology, morphogenesis, heredity and evolution. Lectures and laboratory. (3 credits) NOTE A/See § 200.4. Science Students may not take this course for science credits.

BIOLOGY N-202 (252)
General Biology II
Prerequisite: CEGE P Biology 301 or equivalent. Cell biology, elementary biochemistry, developmental biology, physiology and genetics. Lectures and laboratory. (3 credits) NOTE A/See § 200.4.

BIOLOGY N-203 (253)
Animal Biology
Prerequisite: CEGE P Biology 301 or equivalent. A survey of the major evolutionary trends in the animal kingdom. The integration of systems in relation to animal life will be stressed. Lectures and laboratory. (3 credits) NOTE A/See § 200.4.

BIOLOGY N-204 (254)
Plant Biology
Prerequisite: CEGE P Biology 301 or equivalent. A survey of the major evolutionary trends in the plant kingdom. The integration of structure and function in relation to plant growth and evolution will be stressed. Lectures and laboratory. (3 credits)

BIOLOGY N-213 (453)
Fundamentals of Ecology
Prerequisite: CEGE P Biology 301 or equivalent. An introduction to the basic principles of ecology dealing with the most important components of ecosystems. The course illustrates how environmental factors determine the distribution and abundance of plants and animals in various aquatic and terrestrial biomes of the world. Lectures only. (3 credits)

BIOLOGY N-224 (444)
Cell Physiology
Prerequisites: CEGE P Biology 401 or Biology N-202 and Chemistry N-231, previously or concurrently. A survey of the mechanisms involved in the normal function of single cells and subcellular components, particularly organelles as well as their responses to environmental stress. Lectures and laboratory. (3 credits)

BIOLOGY N-241 (241)
Genetics and Human Welfare
A course on the principles of heredity as understood by modern biology. It deals also with the application of genetic principles to organisms, including man. The biological basis of social problems is dealt with at some length. Organic evolution and its implications for human life and welfare are considered. Lectures only. (6 credits) NOTE: No science credits will be given for Biology N-241, if it is taken concurrently with an following Biology N-343.

BIOLOGY N-253 (428)
Biology of Bacteria and Viruses
Prerequisite: CEGE P Biology 301 or equivalent.
lent. An introduction to theoretical and applied aspects. The physiology of bacteria and viruses as related to industrial, health, agricultural and ecological considerations is discussed. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

BIOLGY N-254 (429)

Biology of the Fungi
Prerequisite: CEGEP Biology 301 or equivalent. A study of selected species from representative groups, including their occurrence, life-cycles and growth requirements. In lectures, stress is placed on their activities—in the cycling of elements in nature, in damage to agricultural crops and forests, in food spoilage, as human pathogens, as industrial agents, as researched tools, and as sources of food and drugs. Laboratories are mostly descriptive using Canadian collections. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

BIOLGY N-255 (242)

Microorganisms and Man
Prerequisite: High School biology or equivalent. A public awareness course designed to supply basic information to non-biologists. Attempts to control continuing and recent problems due to microscopic forms as causal agents in human and plant diseases, spoilage of food, wood, petroleum products and water pollution. Their beneficial activities in nature and their use in the production of drugs and foods are also considered. Lectures only. (3 credits) NOTE: Science Students may not take this for science credits.

BIOLGY N-310

Field Ecology
Prerequisite: Biology N-213 permission of the instructor. An introduction to the methods of qualitative and quantitative studies of aquatic and terrestrial ecosystems. Students gain experience in techniques of field investigation. Weekend field trips and laboratory work. (3 credits)

BIOLGY N-314 (454)

Fundamentals of Limnology
Prerequisite: Biology N-213 previously or concurrently. An introduction to the study of freshwater ecosystems with major emphasis on geographical, physical and chemical characteristics. The major topics include the origin of lake basins, lake morphology and morphometry, waves and currents, the optical and thermal properties of lakes, dissolved chemicals. Some aspects of water pollution are considered. Lectures only. (3 credits)

BIOLGY N-343 (445)

Genetics
Prerequisite: CEGEP Biology 401 or Biology N-202. A course to illustrate the fundamental principles of inheritance in plants, animals and microorganisms. Mendelian genetics, gene linkage and mutation will be covered. The role of DNA as the hereditary material and genetic code will be studied in detail, as will the mechanisms of DNA, RNA and protein synthesis. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

BIOLGY N-344 (446)

Genetics of Higher Organisms
Prerequisite: Biology N-343. This course will cover various aspects of the genetics of multicellular and eukaryotic organisms, including cytotgenetics, developmental, human, behavioural and population genetics, as well as somatic cell genetics. Lectures only. (3 credits) NOTE A/See § 200.4

BIOLGY N-350

Immunology
Prerequisite: Biology N-224, N-343 and Chemistry N-231. The structure and properties of blood cells, the immune response, cellular and humoral antibody synthesis; genetics of antibody synthesis; theories relating antibody specificity to genetic potential. Lecture and conference (3 credits).

BIOLGY N-351

Nutrition
Prerequisite: Biology N-224 and Chemistry N-231 previously or concurrently. The concept of a balanced diet will be studied in relation to calory content, and to protein, lipid, carbohydrate, vitamin and mineral requirements. The consequences of dietary deficiencies will be examined. Special topics such as dieting, organic foods and megavitamins will be discussed and evaluated. Lecture only (3 credits).

BIOLGY N-356

Microbial Physiology
Prerequisite: Biology N-253, Chemistry N-371 previously or concurrently, or permission of the instructor. A study of the biochemical activities underlying the life of microorganisms and the diverse patterns used by microorganisms in energy metabolism and biosynthesis. Applications of theoretical knowledge to industrial microbiology, including fermentation and antibiotic production will be examined. Lectures and conference (3 credits).

BIOLGY N-360 (460)

Developmental Biology
Prerequisite: Second year standing in Biological Sciences. A study of the molecular aspects of development in animal and plant cells in relation to the acquisition of form. Lectures only. (3 credits)

BIOLGY N-372 (481)

History of Biology
Prerequisites: Any 12 credits from the Department of Biological Sciences. A course following the growth of Biological Sciences. Lectures only. (3 credits) NOTE A/See § 200.4

BIOLGY N-373 (484)

Evolution
Prerequisite: Any 12 credits from the Department of Biological Sciences. A course to examine the concepts leading from Darwin's Theory to a modern synthesis of evolution. Lectures only. (3 credits) NOTE A/See § 200.4

BIOLGY N-380 (482)

Biostatistics I

BIOLGY N-381 (483)

Biostatistics II

BIOLGY N-416 (456)

Aquatic Ecology and Water Pollution
Prerequisite: Biology N-314. An inquiry into factors governing the distribution and abundance of aquatic organisms in lakes and streams, with emphasis on the nature and significance of the responses of aquatic organisms and communities through changes in water quality with pollution, on sources and types of pollutants and on methods of evaluating pollution and treating wastes. Lectures only. (3 credits)
experience with the regional flora in various habitats. Lectures and laboratory. (3 credits)

BOTANY N-213 (421)
Economic Botany
Prerequisite: CEGEP Biology 301 or equivalent. Origin, development and use of selected economic plants including microorganisms. Their historical impact, future prospects and importance to Canadian economy are stressed as well as world-wide problems of food and alimentation. Lectures only. (3 credits)

BOTANY N-215 (434)
Biological Regulatory Mechanisms
Prerequisite: Biology N-224 previously or concurrently. A detailed study of selected topics in chemical and solid state dosimetry, liquid scintillation counting, neuron irradiation techniques, cell kinetics, target theory, radiation botany and mammalian radiobiology. Laboratory will emphasize the use of a wide range of radioisotopes and radiation sources. A visit to a major radiation lab or reactor will be arranged. Lectures and laboratory. (3 credits)

BOTANY N-231 (410)
Plant Anatomy
Prerequisite: Biology N-204. A study of the internal structure of the plant as related to the processes of growth and metabolism. An experimental approach is presented to the study of the relationship between structure and function of various parts of the plant. Includes pathological, ecological and economic aspects of anatomy with emphasis on developmental anatomy. Laboratory work includes preparation of permanent slides using plant microtechnique. Lectures and laboratory. (3 credits)

BOTANY N-311 (423)
Plant Ecology
Prerequisite: Biology N-204. A study of modern systematic concerns with the application of experimental techniques in genetics, cytology, chemistry and statistics to the solution of questions relating to the classification of plants and their evolutionary sequences. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

BOTANY N-320 (431)
Plant Metabolism
Prerequisite: Chemistry N-231. A study of the physiological processes of higher plants related to nutrition and metabolism. Topics include: absorption and transport of water and mineral salts, mineral nutrition, photosynthesis, carbohydrate and nitrogen metabolism. Metabolic processes are discussed in relation to structure and environmental factors and some aspects of energy transformations and energy flow are included. Interrelations among the
various metabolic processes are discussed. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

BOTANY N-360 (432)
Physiology of Plant Growth
Prerequisite: Botany N-320 previously or concurrently. A physiological and biochemical study of growth regulators, their mechanism of action and their role in plant growth and metabolism. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

BOTANY N-421
Physiology of Stress in Plants
Prerequisite: Botany N-320 or permission of the department. The physiological and molecular basis of plant response to various environmental stresses such as freezing, drought, soil toxicants, environmental pollutants and radiation effects are discussed. The study of the control of such stresses and of the injuries they produce, resistance, tolerance and avoidance mechanisms that exist are discussed. Response of crop plants and effects on crop quality and crop yields are stressed. Lectures only. (3 credits)

BOTANY N-422
Plant Biochemistry
Prerequisite: Chemistry N-371 previously or concurrently, or permission of the instructor. Biochemical study of natural constituents and secondary metabolites unique to plants; their biosynthesis and role in plant biology. Topics include, among others, plant cell wall components; unusual amino acids; plant pigments, terpenoids, steroids and alkaloids; phenolic compounds and flavonoid pigments; growth hormones and inhibitors. Lectures only. (6 credits)

ZOOLOGY
ZOOLOGY N-212
Invertebrate Zoology
Prerequisite: Biology N-203 previously or concurrently. An introductory course to the structure and function of the invertebrate phyla. Emphasis will be placed on evolutionary aspects. Laboratory work will include physiological experiments with living organisms. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

ZOOLOGY N-213 (424)
Parasitology
Prerequisite: Biology N-203 previously or concurrently. A survey of the parasitic groups of invertebrates with special reference to the parasites of man. Lectures and laboratory. (3 credits)

ZOOLOGY N-214 (425)
Entomology
Prerequisite: Biology N-203 previously or concurrently. An introduction to the study of insects, their morphology, taxonomy, physiology and ecology. Lectures and laboratory. (3 credits)

ZOOLOGY N-215 (422)
Chordate Anatomy
Prerequisite: Biology N-203. A study of the anatomy and evolutionary development of the major organ systems of the chordates. In the laboratory the lamprey, the mudpuppy, the turtle and the cat will be dissected. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

ZOOLOGY N-313 (453)
Animal Ecology
Prerequisites: Biology N-203 and N-213. A study of the factors influencing animal populations, and regulation of animal numbers involving competition, predation and migrations. Lectures only. (3 credits) NOTE A/See § 200.4

ZOOLOGY N-317
Fishes
Prerequisites: Biology N-213 and Zoology N-215. This introduction to fish biology will include a study of anatomy, physiology and classification of the major groups of fishes as well as their ecology and zoogeography. Emphasis will be placed on freshwater fishes. Lecture and laboratory (3 credits).

ZOOLOGY N-320 (431)
Animal Physiology
Prerequisites: Biology N-203 and Chemistry N-231. A study of comparative animal physiology at the system level. Lectures and laboratory. (6 credits)

ZOOLOGY N-331 (473)
Fundamentals of Histology
Prerequisite: Biology N-203. A comparative study of the microscopic characteristics of cells, tissues and organs of the vertebrates. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

ZOOLOGY N-332 (474)
Comparative Vertebrate Histology
Prerequisite: Zoology N-331. An advanced comparative study of the vertebrate organ systems at the ultrastructural and histological level. Those registered will be expected to participate in a seminar. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

ZOOLOGY N-361 (462)
Vertebrate Embryology
Prerequisite: Zoology N-215 previously or concurrently. The fundamental processes of growth and development in the vertebrates. A comparative study is made of selected vertebrate species with emphasis on the experimental and molecular aspects. Lectures and laboratory. (3 credits)

ZOOLOGY N-422 (432)
Advanced Animal Physiology
Prerequisite: Zoology N-320. Lectures and seminars dealing with selected topics in physiology, emphasizing a molecular and experimental approach. Lectures only. (3 credits) NOTE A/See § 200.4

These courses were given in the Summer of 1975.

BIOLOGY N-330
Introduction to Immunology (3 credits)

BIOLOGY N-461
Principles and Practices of Horticulture Science (3 credits)

This course was given in the Fall of 1975.

BIOLOGY N-351
Nutrition (3 credits)
Department of Chemistry

Associate Professor and Chairman of the Department
RODERICK E. TOWNSEND
Professor and Dean of Science
ROGER H. C. VERSCHINGEL

Associate Professors
THOMAS J. ADLEY
PETER H. BIRD
ZACHARIAS HAMLET
JACQUES LENOIR
ROBIN T. B. RYE
NICK SERPONE
OSWALD S. TEE
RONALD A. WESTBURY

Assistant Professor
MARY JUDITH KORNBLATT

91.7.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequence must be read in conjunction with § 91.3, 91.4.

90 BSc Honours in Chemistry

Year I
24 Chem N-2114, N-2132, N-2223,
N-2233, N-2316, N-2416
6 Maths N-2706

Year II
30 Chem N-3113 (or N-4113),
N-3223, N-3233, N-3316, N-3423,
N-3433, N-3503, N-3543, N-4623

Year III
30 Chem N-4316, N-4423, N-4433,
N-4453, N-4523, N-4533, N-4633,
N-4916

NOTE: Students who have passed CEGEP Chem 202 may replace Chem N-3116 with N-3313.

69 BSc Specialization in Analytical Chemistry

Year I
24 Chem N-2114, N-2132, N-2223,
N-2233, N-2316, N-2416
6 Comp Sc N-2113, N-2213

Year II
24 Chem N-3113, N-3223, N-3316,
N-3423, N-3433, N-3503 and
N-3543
3 Comp Sc N-3103

Year III
12 Chem N-4523, N-41113 and
N-4916

NOTE: Students who have passed CEGEP Chem 202 may replace Chem N-2116 with N-2313. Students who specialize in Analytical Chemistry are exempt from the corequisite Comp Sc N-220 for N-310.

76 BSc Specialization in Biochemistry

Year I
18 Chem N-2114, N-2132, N-2316,
N-2416
6 Biological Sciences*

Year II
24 Chem N-3316, N-3423, N-3433,
N-3503, N-3523, N-3716
6 Biological Sciences*

Year III
6 Chem N-4716 or N-4726
6 Chem*
6 Biological Sciences, Biophysics
or Psyc*
4 Phys N-4804
*In consultation with the Chemistry Department

NOTE: Students who have passed CEGEP Chem 202 may replace Chem N-2316 with N-2333.
36 BSc Major in Chemistry

24 N-223, N-2316 and N-2416

Chem N-211, N-213, N-2223, N-2311, N-3316, N-3423, N-3433, N-3503, N-3543 and N-3233.

(Other courses may be selected in consultation with the Department.)

24 Minor in Chemistry

24 Chem N-211, N-213, N-2223, N-2311 and N-2416

*NOTE: Other combinations may be arranged in consultation with the Department.

60 BSc Specialization in Chemistry

Year I

24 Chem N-211, N-213, N-2223, N-2311 and N-2416

Year II

21 Chem N-311 (or N-4113), N-3316, N-3423, N-3433, N-3503, N-3543

91.7.2 COURSE DESCRIPTIONS

CHEMISTRY N-201

General Chemistry I

States of matter. Atoms, elements and isotopes; atomic structures. The electronic structure of atoms. The Periodic Table and chemical bonding. Ions in solution. Lectures, tutorials and laboratories. (3 credits) Science students may not take this course for science credits. NOTE A/See § 200.4

CHEMISTRY N-202

General Chemistry II

Covalent compounds. Chemical reactions; mechanism and kinetics. Special topics: oriented either to the biological sciences, biochemistry and chemistry, or to the physical sciences, engineering and computer sciences. Lectures, tutorials and laboratories. (3 credits) Science students may not take this course for science credits. NOTE A/See § 200.4

CHEMISTRY N-211 (412)

Introductory Quantitative Analysis

Prerequisites: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203; or equivalent courses. Chemical equilibrium as applied to volumetric and gravimetric procedures; general theory of volumetric titrations; titration curves; application of general titration theory to neutralization precipitation, complexation, oxidation-reduction and nonaqueous solvent titrations; theory of potentiometry and potentiometric titrations; theory of gravimetric analysis; methods of separation by chemical and physical means; electrogravimetry and electrolytic separations; absorbptiometry theory and absorbptiometric methods of analysis. Lectures and laboratory. Textbook: Dick: Analytical Chemistry (McGraw-Hill). (4 credits)

CHEMISTRY N-213 (413)

Statistical Treatment of Chemical Data

Prerequisites: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203; or equivalent courses. The statistical treatment of chemical data including: observations and measurements; error and accuracy; significant figures, expression of results; probability theory, Normal and Poisson error distributions; precision; measures of spread; propagation of errors; rejection of observations; statistical analysis; graphical analysis; straight line law; nonlinear laws; method of least squares; accuracy of values derived from graphs; literature data, primary and secondary sources; use of chemical literature indices. Lectures only. (2 credits)

CHEMISTRY N-221 (411)

Introductory Inorganic Chemistry

This course is no longer offered. It has been replaced by Chemistry N-222 and N-223.

CHEMISTRY N-222

Introduction to Inorganic Chemistry

Prerequisites: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203; or equivalent courses. Atomic structure and electronic structure of the atom; Ionic Bonding—lattice energy, size effects; Covalent Bonding—V.B. and M.O. Theory, hybridization, multiple bonding; Chemical Forces—types and effects of chemical forces; Radii; Aciel-Base concepts—definitions, soft and hard acids and bases. Lectures and laboratory. Textbook: Hubeney: Inorganic Chemistry—Principles of Structure and Reactivity (Harper and Row) or Lagowski: Modern Inorganic Chemistry (Dekker) Laboratory Manual: TBA. (3 credits)

NOTE A/See § 200.4

CHEMISTRY N-223

Chemistry of Main Group Elements

Prerequisites: CEGEP Chemistry 201, Physics 301, Mathematics 103 and 203; or equivalent courses. Structural and descriptive chemistry of main group elements and their compounds—Hydrogen, alkali and alkaline earth metals—groups III, IV, V, and VI representative elements—halogens—rare gases. Lectures and laboratory. Textbook: Cotton and Wilkinson: Advanced Inorganic Chemistry (Wiley, 3rd ed)
CHEMISTRY N-231 (421)
Introduction to Organic Chemistry
Prerequisite: CEGEP Chemistry 201 or an equivalent course. Chemistry of aliphatic and aromatic compounds; structural isomerism; stereoisomerism; mechanisms; electronic theories and stereochemistry of organic reactions; applications of spectroscopy to organic chemistry. Lectures and laboratory. Textbook: To be announced. (6 credits)

CHEMISTRY N-232 (418)
Introduction to Symmetry and Group Theory
Prerequisites: Chemistry N-211, N-222, N-233, Chemistry N-350 previously or concurrently. Symmetry elements and symmetry operations; point groups; character tables; applications of group theory to Valence Bond, Crystal Field, and Molecular Orbital theory of bonding; applications to electronic spectroscopy and molecular vibrations. Lectures and laboratory. Textbooks: Cotton: Chemical Applications of Group Theory (Interscience, 2nd ed) Angelici: Synthesis and Techniques in Inorganic Chemistry (Saunders). (3 credits) NOTE A/See § 200.4

CHEMISTRY N-233 (419)
Chemistry of the Transitional Elements

CHEMISTRY N-241 (431)
Introductory Physical Chemistry
Prerequisites: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203; or equivalent courses. Real gases; kinetic molecular theory; equilibria; thermal dynamics (first, second and third laws); electrochemistry; cells and the Nernst equation; applications of thermodynamics to one-component, two-component and three-component systems; chemical kinetics; ions in solution. Lectures only. Textbook: Daniels and Alberty: Physical Chemistry (Wiley 4th edition) (6 credits)

CHEMISTRY N-281 (461)
Industrial Inorganic Chemistry
Prerequisite: CEGEP Chemistry 201 or an equivalent course. Synthesis and selected industrial inorganic processes. This course is not applicable towards a Specialization in Chemistry. Lectures only. Textbook: Shreve: Chemical Process Industries (McGraw-Hill, 3rd edition) (3 credits)

CHEMISTRY N-301 (401)
Chemical Pedagogy
Prerequisite: CEGEP Chemistry 201 or an equivalent course; one full laboratory course at university level. The methodology of teaching chemistry at various levels including the objectives of chemical education; the presentation of chemical concepts; the communication skills; the mathematical skills; the editing of a course and its lectures; the philosophy of laboratory procedure; the examination; the textbook planning and budgeting; visual aids. Lectures only. (6 credits)

CHEMISTRY N-311 (417)
Electrochemical Methods of Analysis
Prerequisites: Chemistry N-211, N-213. Conductimetric theory; instrumentation; coulometry at controlled potential; coulometry at constant current; coulometric titrations. Review and extension of potentiometric theory covered in Chemistry N-211 (412); derivative titrations; titration indicating electrode titrations; polarized light titrations; automatic titrators. The theory of voltammetric and polarographic methods; the Ilkovic equations; rotating platinum electrode; instrumentation; application to qualitative and quantitative analysis; reversible and irreversible electrode reactions; kinetic and catalytic processes; amperimetric titrations; chronopotentiometry; chronocoulometry; determination of reaction characteristics such as electron transfer, coordination number, rate constant, etc. Conductance theory and measurement; instrumentation; conductometric titrations by standard and high frequency methods. Lectures and laboratory. Textbook: Dick, Analytical Chemistry (McGraw-Hill) (3 credits)

CHEMISTRY N-321 (415)
Advanced Inorganic Chemistry
This course is no longer offered. It has been replaced by Chemistry N-322 and N-323.

CHEMISTRY N-322 (418)
Introduction to Symmetry and Group Theory
Prerequisites: Chemistry N-211, N-222, N-233, Chemistry N-350 previously or concurrently. Symmetry elements and symmetry operations; point groups; character tables; applications of group theory to Valence Bond, Crystal Field, and Molecular Orbital theory of bonding; applications to electronic spectroscopy and molecular vibrations. Lectures and laboratory. Textbooks: Cotton: Chemical Applications of Group Theory (Interscience, 2nd ed) Angelici: Synthesis and Techniques in Inorganic Chemistry (Saunders). (3 credits) NOTE A/See § 200.4

CHEMISTRY N-323 (419)
Chemistry of the Transitional Elements

CHEMISTRY N-331 (427)
Intermediate Organic Chemistry
Prerequisites: Chemistry N-231, N-241; Chemistry N-350 previously or concurrently. Amplification of concepts presented in introductory organic chemistry; reaction mechanisms; catalysis; conformational analysis and stereochemistry. Laboratory includes qualitative analysis of compounds and mixtures by spectroscopic techniques; spectrometric scale preparations; selected experiments in physical organic chemistry. Lectures and laboratory. Textbook: To be announced. (6 credits)

CHEMISTRY N-336 (471)
Natural Products I
Prerequisite: Chemistry N-231. Structure determination, stereochemistry and reactions of carbohydrates; synthesis, stereochemistry and physicochemical properties of amino-acids; determination of amino-acid sequences in, and, synthetic methods for, polypeptides; conformations of polypeptides and proteins. Lectures only. Textbook: Barker: Organic Chemistry of Biological Compounds (Prentice-Hall) (3 credits)

CHEMISTRY N-337 (473)
Natural Products II
Prerequisite: Chemistry N-231. The chemistry (structure determination, synthesis, stereochemistry) of various natural products is presented. Topics are selected from the following areas: purine and pyrimidine bases, nucleosides and nucleotides, nucleic acids, terpenes, lipids, steroid hormones, antibiotics, etc. Lectures only. Textbook: To be announced. (3 credits)

CHEMISTRY N-338 (472)
Chemistry of High Polymers I
Prerequisites: Chemistry N-231, N-241. Methods and mechanisms of polymer preparation; condensation polymerization; addition polymerization; ring opening reactions; vinyl and diene polymers; polyesters; polyamides; polythioethers; properties of polymers and their related monomers. Lectures only. Text-
CHEMISTRY N-341 (433)
Intermediate Physical Chemistry
This course is no longer offered. It has been replaced by Chemistry N-342 and N343.

CHEMISTRY N-342 (436)
Chemical Kinetics
Prerequisite: Chemistry N-241. Topics in chemical kinetics and thermodynamics including mechanisms of elementary processes; reactions in the gas-phase and in solution; the Rice-Kirkwood-Rice, and Slater theoretical treatments; Rice-Herzfeld mechanisms; applications of the foregoing treatments to selected systems; introduction to modern techniques for the study of very fast reactions. Lectures and laboratory. Textbooks: Martin: Chemical Kinetics (Freeman) (3 credits)

CHEMISTRY N-343 (437)
Intermediate Thermodynamics

CHEMISTRY N-346 (474)
Chemistry of High Polymers I
Prerequisite: Chemistry N-231, N-241. Study of the physical chemistry of high polymers including: examination of the physical properties of polymers; methods for studying polymers; polymer solution theory; molecular weight distributions and fractionation; molecular weight determinations by colligative properties, light scattering and ultracentrifuge techniques; mechanisms and kinetics of condensation and addition, polymerization; free radical and ionic polymerization. Lectures only. Textbook: Billmeyer: Textbook of Polymer Science (Interscience: 2nd edition) (3 credits)

CHEMISTRY N-350
Introductory Chemical Instrumentation
Prerequisites: Chemistry N-211, N-213, N-231 or Chemistry N-231 and Biology N-203 or Biology N-204. Basic principles and applications of UV, IR, Raman fluorescence, phosphorescence, NMR, and EPR spectroscopy and mass spectrometry to Chemistry and Biochemistry. Lectures and laboratory. Textbooks: To be announced (3 credits) NOTE A / See § 200.4

CHEMISTRY N-351 (440)
Theory and Practice of Biochemical Techniques
This course is no longer offered. It has been replaced by Chemistry N-350 and N-352.

CHEMISTRY N-352 (449)
Practice of Biochemical Techniques
Prerequisites: Chemistry N-211, N-213, or Biology N-202 and N-203 or N-204 and Biology N-380 previously or concurrently. Basic principles and applications of gas chromatography, column chromatography, thin-layer chromatography, gel filtration and electrophoresis; introduction to optical rotary dispersion. Lectures and laboratory. (3 credits) NOTE A / See § 200.4

CHEMISTRY N-353 (490)
Introductory Chemical Instrumentation
This course is no longer offered. It has been replaced by Chemistry N-350 and N-354.

CHEMISTRY N-354 (499)
Introductory Instrumentation
Prerequisites: Chemistry N-211, N-213, or Biology N-202, N-203 or N-204 and Biology N-380 previously or concurrently. Basic principles of electricity and electronics; analysis of operational amplifier, servorecorder, pH meter, polarograph, light and color data acquisition circuits. Lectures and laboratory. Textbook: Malmsdat and Enke: Digital Electrometry for Scientists (Benjamin) (3 credits) NOTE A / See § 200.4

CHEMISTRY N-371 (441)
General Biochemistry
Prerequisite: Chemistry N-231 and 6 credits in Biological Sciences at the university level. Chemistry students must have, in addition, Chemistry N-211 and N-241. Biological Science students must have, in addition, 6 credits in Biological Sciences at the university level. An introduction to the Chemistry of a living cell: protein structure and function; enzymology; metabolic pathways; energy production; protein and nucleic acid synthesis. Lectures and laboratory. Textbook: Stryer, Biochemistry (Freeman) (6 credits)

CHEMISTRY N-380
General Industrial Chemistry
Prerequisite: Second year chemistry students or permission of the Department. Broad outline of major factors to be considered by the chemical industry when contemplating manufacture of a new product or product group with special emphasis on market determination; customs; tariffs; use of Statistics Canada data; existing or potential competition; inherent advantages or disadvantages; relative importance of labour versus capital; plant location; transportation considerations; by-product disposition; hazard and pollution considerations; government regulated products; government incentives; marketing channels; export considerations; foreign tariffs and non-tariff barriers. Lectures only. (3 credits)

CHEMISTRY N-382 (462)
Industrial Organic Chemistry I
Prerequisite: Chemistry N-231. Study of selected industrial organic processes. This course is not applicable towards a Specialization in Chemistry. Lectures only. Textbook: Shreve: Chemical Process Industries (McGraw-Hill, 3rd edition) (3 credits)

CHEMISTRY N-383 (463)
Industrial Organic Chemistry II
Prerequisite: Chemistry N-231. Study of additional organic processes not covered in Chemistry N-382. This course is not applicable towards a Specialization in Chemistry. Lectures only. Textbook: Shreve: Chemical Process Industries (McGraw-Hill, 3rd edition) (3 credits)

CHEMISTRY N-411
Optical Methods of Analysis
Prerequisites: Chemistry N-211, N-213. Review and extension of absorptiometric theory covered in Chemistry N-211 (412); instrumentation; absorptiometric titration. The principles of light scattering as applied to nephelometry and turbidimetry; the principles of fluorescence and phosphorescence; instrumentation; the application of nephelometry, turbidimetry and fluorometry in qualitative and quantitative analysis. The principles of emission spectrophotometry; prism and grating instrumentation; sources of excitation; photographic and photoelectric recording of spectra; applications to qualitative and quantitative analysis. The principles of flame absorption and emission; atomic absorption spectrometry; flame photometry; instrumentation; applications in quantitative analysis. The principles of x-ray emission and absorption; qualitative analysis.
by x-ray absorption methods; x-ray diffraction methods; x-ray emission (fluorescence); instrumen-
tation; qualitative and quantitative analysis by x-ray emission (fluorescence) methods; matrix effects in x-ray emission (fluorescence) methods; x-ray microprobe analysis. Lectures and laboratory. Textbook: To be announced. (3 credits).

CHEMISTRY N-419
Analytical Chemistry
Research Project and Thesis. Prerequisite: The student must be enrolled in the Speciali-
zation in Analytical Chemistry program. The student will work on a research project involving a theoretical and/or practical aspect of analyti-
cal chemistry, and will write a thesis on the results of the research project. The research project will be approved by a committee of members of the Department. (6 credits)

CHEMISTRY N-422
Selected Topics in Inorganic Chemistry
Prerequisites: Chemistry N-322 and N-332. Selected topics in the field of Inorganic chemistry, particular topics may include: Kinetics and Mechanisms of Inorganic Reactions; Organometallic chemistry; Electronic Spectroscopy of Transition Metal complexes; Intro-
duction to Crystallography; Inorganic Photography; other current topics from the literature. Lectures only. Textbook: To be announced. (3 credits)

CHEMISTRY N-431 (428)
Advanced Organic Chemistry

CHEMISTRY N-441 (433)
Advanced Physical Chemistry
This course is no longer offered. It has been replaced by Chemistry N-442 and N-443.

CHEMISTRY N-442 (434)
Statistical Thermodynamics
Prerequisites: Chemistry N-342 and N-343. Elements of probability theory; microcanonical, canonical and grand canonical ensembles; the Boltzmann distribution; quantum mechanical treatment of an ideal gas; Fermi-Dirac and Bose-Einstein statistics; Einstein and Debye models of a monoatomic crystal: conformation of polymer chains. Lectures only. Textbook: Andrews: Equilibrium Statistical Mechanics (Wiley) (3 credits) NOTE A/See § 200.4

CHEMISTRY N-443 (435)
Advanced Thermodynamics
Prerequisites: Chemistry N-342 and N-343. Advanced topics in classical thermodynamics, comprising equilibrium and non-equilibrium approaches to selected systems. Methods of determining free energies; the free-energy function and its applications; thermodynamics of solids; estimation of thermodynamic properties; de Donder’s concepts; fused salts; high temperature thermodynamics. Lectures only. (3 credits) NOTE A/See § 200.4

CHEMISTRY N-445
Advanced Physical Chemistry Laboratory
Prerequisites: Chemistry N-342 and N-343. Advanced experimentation in chemical kinetics and thermodynamics with complete laboratory reports. Laboratory only. (3 credits).

CHEMISTRY N-451 (491)
Advanced Chemical Instrumentation
This course is no longer offered. It has been replaced by Chemistry N-452 and N-453.
CHEMISTRY N-491 (450)
Research Project and Thesis
Prerequisite: Permission of the Department.
The student will work on a research project under the direction of a staff member, and will write a thesis on the results. (6 credits) NOTE: Students planning to take this course must consult with the Chemistry Department as early as possible the year before the final year.
This course was given in the summer of 1975
CHEMISTRY N-339
Pharmacology
(3 credits)
# 91.8 Computer Science

### Notes:

- **N-211**: If an equivalent of Comp Sc N-211 has been successfully completed prior to admission to the University, then this course should be replaced with a Comp Sc elective.
- **N-223 and N-310**: These courses are not completely equivalent, in that Comp Sc N-310 does not satisfy the prerequisite requirements for certain courses which Comp Sc N-223 does.

## 91.8.2 COURSES

The courses in Computer Science listed below are acceptable as science credits in the Bachelor of Science degree. Course descriptions can be found in the Faculty of Engineering § 71.8.

- COMPUTER SCIENCE N-320 (3 credits)
  Numerical Methods
- COMPUTER SCIENCE N-340 (3 credits)
  Special Purpose Computer Systems
- COMPUTER SCIENCE N-404 (3 credits)
  Formal Languages and Syntactic Analysis
- COMPUTER SCIENCE N-405 (3 credits)
  Computer Graphics
- COMPUTER SCIENCE N-413 (3 credits)
  Data and File Structures II
- COMPUTER SCIENCE N-421 (3 credits)
  Introduction to the Theory of Automata
- COMPUTER SCIENCE N-430 (3 credits)
  Logical Design and Switching Theory
- COMPUTER SCIENCE N-431 (3 credits)
  Digital System Design
- COMPUTER SCIENCE N-440 (3 credits)
  Heuristic Programming
- COMPUTER SCIENCE N-450 (3 credits)
  Discrete System Simulation
- COMPUTER SCIENCE N-491 (6 credits)
  Computer Science Project
91.9 Economics

91.9.1 COURSES

The courses in Economics listed below are acceptable as science credits in the Bachelor of Science degree. Course descriptions can be found in the Sir George Williams Faculty of Arts § 41.15.

ECONOMICS N-270 (3 credits)
Mathematics for Economists I

ECONOMICS N-271 (3 credits)
Mathematics for Economists II

ECONOMICS N-412 (3 credits)
Mathematical Economics I

ECONOMICS N-413 (3 credits)
Mathematical Economics II

ECONOMICS N-476 (3 credits)
Econometrics I

ECONOMICS N-477 (3 credits)
Econometrics II
91.10  Department of Geology

Associate Professor and Chairman of the Department
HENRY S. de ROMER

Associate Professors
ANDRE N. DELAND
STEPHEN KUMARAPELI

91.10.1 PROGRAMMES

Field trips to areas of geological interest form part of almost every course.
Two field schools (1st and 2nd year levels) provide valuable practical experience and contribute to the training of a professional.
The student is strongly advised to spend 1 or 2 summers with government or exploration field parties before graduation.

63  BSc Specialization in Geology

**Year I**
15  Geol N-2173, N-2313, N-2453, N-3463, N-4203.

**Year II**
21  Geol N-2323, N-3336, N-3383, N-3493, N-3523, N-3533.
3  additional credits in Geology approved by the Department.

**Year III**
15  Geol N-3223, N-3426, N-4553, N-4563.
3  additional credits in Geology approved by the Department.

45  BSc Major in Geology with a Minor in Ecology

**Year I**
15  Geol N-2153, N-2313, N-3233, Bio N-2033, N-2043.

**Year II**
12  Geol N-3336, N-3463, Bio N-2133.

**Year III**
3  Geol N-4203.
15  additional Ecology credits in consultation with Department of Biological Sciences.

36  BSc Major in Geology

**Year I**
9  Geol N-2153, N-2313, N-3233.

**Year II**
9  Geol N-3336, N-3463.

**Year III**
3  Geol N-4203.
15  additional credits in Geology.

24  Minor in Geology

6  Geol N-2153, N-3233.
18  additional credits in Geology.

#### GEOLOGY N-215
**Introductory Geology**

An elementary study of mineral and rocks, and of the internal and external processes which shape the earth's surface. Laboratory work deals with identification of minerals, rocks and fossils, as well as interpretation of topographic and geologic maps. Field trips to Mt. Royal, Eastern Townships and Laurentians. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

**NOTE:** Students who enter University with CEGEP Geology 901 will not take N-215, but will have to add 3 credits during the 3-year programme.

#### GEOLOGY N-216
**General Geology Lab**

Prerequisite: None. Laboratory studies include investigation of rock and mineral specimens. Interpretation of topographic maps and aerial photographs; interpretation of Geomorphic and Geologic Maps—and the examination of selected fossils. Field trip to local areas. (3 credits)

#### GEOLOGY N-217
**Earth Physics**

Prerequisite: Geology N-215 or equivalent. This course is directed toward the general understanding of physical phenomena of the solid earth. Subjects for consideration include the following: earth's origin, age, radioactivity, magnetism, gravity field, seismology, heat flow, structure and physical state of the earth's interior, theory of sea-floor spreading, theories of mountain formation. Lectures and laboratory. (3 credits)

#### GEOLOGY N-231 (221)
**Mineralogy**

The study of the physical properties of minerals; their chemical properties; descriptive and determinative mineralogy; crystallography; various classes of symmetry. A few field trips near Montreal. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

#### GEOLOGY N-232 (222)
**Optical Mineralogy**

Prerequisite: Geology N-231. The study of minerals under the polarizing microscope. Identification of minerals in thin sections and in oil immersion. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

#### GEOLOGY N-245
**Exploration Geology**

Prerequisites: Geology N-215 and N-217 or approval of the Department. Two week field school in May right after final exams. The student is introduced to surveying, and geological and geophysical mapping methods. (3 credits)

#### GEOLOGY N-322
**Stratigraphy**

Prerequisite: Geology N-420. Sedimentary rocks, diagenetic changes; sedimentary facies; introduction to stratigraphic column and stratigraphic principles. Lectures and laboratory. One field trip around Montreal. (3 credits).

#### GEOLOGY N-332 (425)
**Historical Geology**

Principles of historical geology and geochronology, evolution of major animal groups from Precambrian time to Recent including the evolution of man; geological evolution of North America; natural resources associated with sedimentary rocks. Lectures only. (3 credits) NOTE A/See § 200.4

#### GEOLOGY N-326
**Geochemistry**

Prerequisites: Geology N-215 and N-217.

An introduction to geochemistry including the chemical make-up of the solid system and the geochemistry of the atmosphere, hydrosphere, crust, mantle and core. The chemistry of igneous, sedimentary and metamorphic rocks, with some emphasis on the trace elements which characterize each. Anomalous trace element concentrations in rocks, soils and water and the application to mineral exploration and geochemistry. In the laboratory the material discussed in the lectures is illustrated by geochemical calculations, trace element distribution maps and methods of geochemical analysis. Lectures and laboratory. (3 credits)

#### GEOLOGY N-328
**Geomorphology**

Prerequisite: Geology N-215. Fluviial and slope processes, influence of climate, rock type and structure on the development of land forms, coastal features; aeolian processes, glacial and periglacial activity. Laboratory work emphasizes interpretation of aerial photographs and topographic maps and a field excursion to local area. Lectures and laboratory. (3 credits)

#### GEOLOGY N-333
**Petrology**

Prerequisite: Geology N-231. The identification and description of hand specimens of sedimentary, igneous, and metamorphic rocks. Rock associations and methods of classifying rocks. Lectures and laboratory. (6 credits)

#### GEOLOGY N-335
**Sedimentary Petrology**

Prerequisites: Geology N-333, N-232 (may be taken concurrently). The occurrence and formation of sedimentary rocks. Laboratory includes a brief survey of techniques applied to unconsolidated sediments, but particular emphasis is placed on the microscopic examination...
of sedimentary rocks. Lectures and laboratory. (3 credits).

GEOL OGY N-338
Mineralogy II
Prerequisite: Geology N-231. Point and translational symmetry, point groups, space groups, interpretation of Space Group tables, elements of crystal chemistry, chemistry and phase relations of important rock forming minerals. Stereographic projections of crystal data, the Universal Stage and powder diffraction in identifying minerals are subjects stressed in lab. Lectures and laboratory. (3 credits).

GEOL OGY N-342
Igneous and Metamorphic Petrology
Prerequisites: Geology N-215, N-232, N-333. Principles of physical chemistry applied to minerals and rocks; study of phase diagrams; the origin, formation, association of igneous and metamorphic rocks. Lectures and laboratory. (6 credits). NOTE A/See § 200.4

GEOL OGY N-346
Structural Geology
Prerequisite: Geology N-215 previously or concurrently. Folds and mesostructures and their qualitative and quantitative evaluation. Physical properties of rocks and their behaviour. Selected field trips to the Appalachian area. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

GEOL OGY N-347
Structural Analysis
Prerequisite: Geology N-346. Non-tectonic structures; primary and secondary structures associated with sedimentary, igneous and metamorphic rocks; faults; evaluation of folds and fractures on geological maps. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

GEOL OGY N-349 (429)
Tectonics
Prerequisites: Geology N-346. Evolution of megastuctures of the earth: orogeny; tectonic patterns and hypotheses; emplacement of plutons. Lectures only. (3 credits) NOTE A/See § 200.4

GEOL OGY N-352 (422)
Photogeology
Prerequisite: Geology N-346 or permission of the Department. Scope and purpose of photo-interpretation; geometry of aerial photographs and basic applied photogrammetry; geological interpretation, both qualitative and quantitative, of aerial photographs from Canada and other countries; techniques used in base map preparation with and without control points; exercises in photogeological mapping using stereoscopes and plotters. Lectures and laboratory. (3 credits).

GEOL OGY N-353
Field Geology
Prerequisites: Geology N-333 and N-346 or permission of the department. Two week field school in May after the 2nd year final examination period. Working in groups of two, students will map an area in the Appalachians, prepare sections and write a geological report. Group study of important outcrops and quarries in the Eastern Townships and south of the border. Students are required to buy a minimum amount of their room and board. No regular lecture hours. (3 credits).

GEOL OGY N-370
Analytical Methods in Geochemistry
Prerequisites: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203; or equivalent courses. Chemical equilibrium as applied to volumetric and gravimetric procedures; general theory of volumetric titrations; titration curves; application of general titration theory to neutralization precipitation, complexation oxidation-reduction and non-aqueous solvent titrations; theory of potentiometry and potentiometric titrations; theory of gravimetric analysis; methods of separation by chemical and physical means, electrogravimetry and electrolytic separations; absorption theory and absorbismetric methods of analysis. Analyses of major and minor components of geological material. Lectures and laboratory. (4 credits) NOTE A/See § 200.4

GEOL OGY N-420 (223)
Paleontology
A study of the evolution of plants, invertebrates and vertebrates in time and space, the fossil record; preservation, identification and classification of fossils; methods and techniques. Lectures and laboratory. (3 credits).

GEOL OGY N-421
Geology of Canada
Prerequisites: Geology N-215, N-322 and N-333. The study of the geology, physical features and mineral resources of the five main natural regions of Canada. A number of selected areas will be examined in detail. Lectures only. (3 credits).

GEOL OGY N-445
X-Ray Crystallography
Prerequisites: Geology N-338. The nature of X-rays, diffraction, the reciprocal lattice, powder diffractometer, powder cameras, single crystal methods. Laboratory work will stress the techniques of powder diffraction and Precession photography. Lectures and laboratory. (3 credits).

GEOL OGY N-455
Ore Deposits
Prerequisites: Geology N-322 and N-333. An introduction to geological and mineralogical features and genesis of selected types of metallic and non-metallic ore deposits. Identification of ore minerals in hand specimen and under the microscope and an introduction to textures of ores. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

GEOL OGY N-456
Regional Economic Geology
Prerequisite: Geology N-455. A review of the distribution of ore deposits in time and space considered in the context of their geological environment and tectonic relations. Integrated hand specimen and microscopic examination of carefully located, representative samples from important mining camps. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

GEOL OGY N-461
Exploration Geophysics
Prerequisites: Geology N-215, N-231 or permission of the Department. A brief study of the principles of magnetic, gravimetric, electric and seismic methods of mineral exploration; interpretation of geophysical data; organization of exploration programmes; selected case histories. Lectures and laboratory. (3 credits).

GEOL OGY N-462
Exploration Geochemistry
Prerequisites: Geology N-215 and N-231 or permission of the Department. Basic principles; primary and secondary dispersion processes and their significance in geochemical exploration; field and analytical techniques (one field excursion early in the fall term); interpretation of geochemical data; organization of exploration programmes; selected case histories. Lectures and laboratory. (3 credits).

GEOL OGY N-464
Precambrian Geology
Prerequisite: Geology N-349 (may be taken concurrently). Evolution of the earth in the Precambrian era. Problems in Precambrian correlation, paleoclimates and structural
GEOLOGY N-465
Reading Course
A reading and discussion course for interested Specialized students. The course involves reading in two disciplines of Geology chosen by the student, and discussion with assigned faculty members. (3 credits).

GEOLOGY N-466
Undergraduate Thesis
Students in their final year are expected to show competence in isolating and examining a geological problem using techniques available within the department, working in conjunction with assigned faculty advisers. Course evaluation will be based on the student's performance in the investigation and on the written report. Specialized students may take the course in consultation with the Department. (6 credits).

GEOLOGY N-475
Engineering Geology
Prerequisites: Geology N-215, (Geol. N-346, N-352 recommended). Engineering properties of rocks and soils. Landslides, groundwater, frost action and permanently frozen ground. Application of geology to engineering problems —concrete petrology, tunnels, slope control, foundations, roads, airports, dams and reservoirs. One term paper to be prepared. Lectures and laboratory. The laboratory period will include field trips, engineering geology case histories, and feasibility study of engineering geology problem. (3 credits).

GEOLOGY N-476
Mineral Physics
Prerequisites: Geology N-338, N-333 and N-462. Selected aspects of the relationship of solid state characteristics of minerals to their conditions of formation and subsequent history. In the laboratory details of crystal structure, and considered and readily developed changes in solid-state conditions in minerals and metals are used to amplify the lecture material. Lectures and laboratory. (3 credits).
Students are responsible for satisfying their particular degree requirements, hence the following sequence must be read in conjunction with § 91.3, 91.4.

### 72 Honours in Applied Mathematics

**Year I**

24 Math N-2416, N-2616, N-2816, N-2926

**Year II**

24 Math N-3113, N-3513, N-3616, N-3723, N-3733

*Option A*: N-3316

*Option B*: N-3123, N-3663

**Year III**

24 Math N-4333, N-4349

*Option A*: N-3123, N-4316, N-4323, six credits approved by Department.

*Option B*: N-3533, N-4723, N-4733, N-4743, N-4616

**NOTE:** Students interested in Operations Research will take Option A, while those interested in Control Theory will choose Option B.

### 72 Honours in Mathematics

**Year I**

24 Math N-2416, N-2616, N-2816, N-2926

**Year II**

21 Math N-3616, N-3663, N-3723, N-3733, N-3813, N-3913

**Year III**

15 Math N-4616, N-4663, N-4913; N-4673 or N-4923.

**Years II and III**

12 Math N-3113, N-3123, N-3213, N-3223, N-3318, N-3513, N-3923, N-4316, N-4323, N-4333, N-4513, N-4713, N-4753, N-4993, courses in related fields with prior Departmental approval.
### 72 Honours in Statistics

with prior approval of the Department.
91.11.2 CERTIFICATE IN MATHEMATICS FOR TEACHERS (Elementary School Level)

The Department of Mathematics offers a Certificate in Mathematics for Teachers (Elementary School Level) for the professional development of teachers interested in mathematics. This programme was designed in accordance with the programme-cadre for Elementary Mathematics issued by the General Directorate of Elementary and Secondary Education and approved for perfectionnement by the Higher Education Branch of the Department of Education on February 15, 1974.

Practising teachers are offered the opportunity to improve their knowledge of mathematics in order to help them teach modern mathematics more effectively. The presentation will generally be in workshop form with emphasis on assignments which develop activities for classroom use. Courses will be offered on and off campus during the Winter and Summer months subject to sufficient demand and the availability of suitable instructors.

Programme Director
M. A. BOSWALL
A. SUTHERLAND (Consultant)

Admission Requirements
Entry into the programme requires a general Quebec Teacher Certificate (Elementary Level).

30 Certificate in Mathematics for Teachers (Elementary School Level)

6 Math N-3056
24 Math N-3006, N-3016, N-3026, N-3036, N-3046, N-3076, N-3096

NOTE: In some cases where students have completed similar mathematical courses in previous studies, the Mathematics Department may also allow pro tanto credits up to a maximum of 12 credits.

91.11.3 CERTIFICATE IN MATHEMATICS FOR TEACHERS (Junior Secondary School Level)

The Department of Mathematics offers a Certificate in Mathematics for teachers who teach mathematics at the junior high school level. Some of the courses offered have been specially designed to deal with new subject matter which is being introduced into the secondary school curriculum, as well as with aspects of mathematical pedagogy necessary for the teaching of this material. This programme was approved for perfectionnement on February 14, 1974, by the Higher Education Branch of the Department of Education.

Programme Director
MARY A. BRIAN
C. GAULIN (Consultant)

Admission Requirements
Entry into the programme requires a Quebec Teacher Certificate.

30 Certificate in Mathematics for Teachers (Junior Secondary School Level)

6 Math N-4006
27 Math N-4016, N-4026, N-4036, N-4046, N-4056, N-4066, N-4076, N-4086, N-4096, N-4106

NOTE: In some cases where students have completed similar mathematical courses in previous studies, the Mathematics Department may modify a student's programme to meet his professional requirements. It may also grant pro tanto credits up to a maximum of 12 credits.

91.11.4 COURSE DESCRIPTIONS

MATHEMATICS N-200 (3 credits)
MATHEMATICS N-201 (3 credits)
MATHEMATICS N-202 (3 credits)
MATHEMATICS N-203 (3 credits)
MATHEMATICS N-204 (3 credits)
MATHEMATICS N-205 (3 credits)
MATHEMATICS N-206 (3 credits)
MATHEMATICS N-207 (3 credits)
MATHEMATICS N-208 (3 credits)
MATHEMATICS N-209 (3 credits)

Descriptions of the above courses are listed in the Sir George Williams Faculty of Arts, page 417.

NOTE: Science students may not take the above Mathematics courses for Science credits.

MATHEMATICS N-210 Mathematics for the Biological Sciences
Prerequisite: CEGEP Mathematics 103 or equivalent. Set theory, combinatorics, probability, matrices, differential and difference equations; applications to the biological sciences, (3 credits)

MATHEMATICS N-241 (440) Introductory Mathematical and Applied Statistics
Prerequisite: CEGEP Mathematics 203 or equivalent. The introductory mathematical theory of statistic including: the experimental approach to statistics, probability, distributions, moments and sampling theory, problems in estimation, hypothesis testing, correlation and regression. (6 credits)

MATHEMATICS N-261 Advanced Calculus
MATHEMATICS N-270 (452)
Differential Equations
Prerequisite: CEGEP Mathematics 203 or equivalent. First order first degree equations, linear equations, operators, Laplace transforms, series solutions of special functions, numerical methods, elementary partial equations, Fourier series, application to systems. (6 credits) NOTE A/See § 200.4

MATHEMATICS N-281
Linear Algebra I
Prerequisites: CEGEP Mathematics 101, 105 or equivalent. Vectors in Rn, matrices, linear equations, vector spaces, linear transformations, determinants, equivalence relations on matrices, characteristic values and vectors, diagonalization, metric concepts. (6 credits)

MATHEMATICS N-290
Algebraic Systems (Introduction)
Prerequisite: Collegial pre-science mathematics profile or equivalent. Sets, functions, binary operations, examples of number systems, polynomial functions, divisibility, definitions and examples of groups and subgroups, fields. (3 credits) NOTE A/See § 200.4

MATHEMATICS N-291
Algebraic Systems (Continuation)
Prerequisite: Permission of the Department. Groups, rings, homomorphisms, integral domains, fields, polynomial rings. (3 credits) NOTE A/See § 200.4

MATHEMATICS N-292
Algebraic Systems II
Prerequisite: Collegial pre-science mathematics profile or equivalent. Sets, functions, binary operations, examples of number systems, polynomial functions, divisibility, groups, rings, homomorphisms, integral domains, fields, polynomial rings. (6 credits) NOTE A/See § 200.4

MATHEMATICS N-300
Number Systems
Sets, mathematical systems, concept of number, systems of numeration, operations and relations, whole numbers, fractional numbers, integers, rational numbers, irrational numbers, real numbers, geometric representations, measurement (6 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-301
Mappings
Prerequisite: Mathematics N-300. Mappings in the number systems, geometric transformations, translations, dilations, systems of numeration in bases other than 10, order axioms, inequalities, absolute value, elementary number theory, modular (clock) arithmetic (6 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-302
Transformation Geometry
Prerequisite: Mathematics N-300. Geometry in the Elementary School Programme; sets, plane and solid geometry; motion geometry, geometric patterns and transformations, translations, reflections, rotations, dilations and their combinations; isometries; preparation of visual aids. (6 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-303
Measurement
Prerequisite: Mathematics N-301, N-302. Measures and measuring; probability concepts, algorithms, and flow charting; use of graphical methods in teaching. (6 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-304
Advanced Topics in Elementary Mathematics
Prerequisite: Mathematics N-303. This course will be oriented to the needs of the students and the School Boards. Suggested topics: Vectors (arrow arithmetic); probability and statistics; mathematics in science and society; relation between number and geometry; role of induction and deduction in teaching mathematics; the use of computers and Fortran, solutions of equations, curve fitting, numerical differentiation and integration, matrix computation, errors. Lectures and laboratory. (3 credits)

MATHEMATICS N-307
Selected Topics in Mathematics I
Prerequisite: Permission of the Department. Subject matter will differ from term to term and from year to year to take advantage of the specific competencies and the special interests of the instructor as well as the student. (3 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-309
Selected Topics in Mathematics II
Prerequisite: Permission of the Department. Subject matter will differ from term to term and from year to year to take advantage of the specific competencies and the special interests of the instructor as well as the student. (3 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-311
Numerical Analysis I
Prerequisite: Collegial pre-science mathematics profile or equivalent. Introduction to computers and Fortran, solutions of equations, curve fitting, numerical differentiation and integration, matrix computation, errors. Lectures and laboratory. (3 credits)

MATHEMATICS N-312
Numerical Linear Algebra
Prerequisite: Mathematics N-281 or equivalent. Linear systems, matrix inversion, relaxation methods, methods of least squares, inverses, canonical forms, determination of characteristic values, applications. (3 credits)

MATHEMATICS N-321
Set Theory
Prerequisite: 18 credits in post-collegiate mathematics. Intuitive logic, axiomatic set theory, ordinals, axiom of choice, cardinals. (3 credits)

MATHEMATICS N-322
Mathematical Logic
Prerequisite: 18 credits in post-collegiate mathematics. First-order theories, models, incompleteness, selected topics. (3 credits)

MATHEMATICS N-331
Deterministic Methods of Operations Research
Prerequisite: Mathematics N-281 or equivalent. Formulation of mathematical models in the deterministic case, methods of solution, testing the models. Application to allocation (linear and dynamic programming, duality), competition (game theory), scheduling, networks and flow. Emphasis on mathematical methods, including matrix algebra and search techniques. (6 credits)

MATHEMATICS N-341
Experimental Statistics
Prerequisite: Mathematics N-241 or equivalent. Experimental models, Regression and correlation, analysis of variance. Experimental
MATHEMATICS N-373
Differential Equations II
Prerequisites: Mathematics N-372, N-366.
Equations of hypergeometric type (Bessel’s and Legendre’s equations), Laplace transform, inverse transform, applications to partial differential, and integral, equations. Fourier series. Boundary value problems and Sturm-Liouville theory. (3 credits) NOTE A/See § 200.4.

MATHEMATICS N-381
Linear Algebra II
Prerequisites: Mathematics N-281, N-291.
Matrices, linear transformations, determinants, metric concepts, inner product spaces, dual spaces, spectral theorem, bilinear and quadratic forms, canonical forms for linear transformations, matrix functions, selected topics. (3 credits)

MATHEMATICS N-391
Algebraic Systems II
Prerequisite: Mathematics N-291. Groups: permutation groups, Cayley’s theorem, cyclic groups, Lagrange’s theorem, normal subgroups, quotient groups, isomorphism theorems. Rings: ideal and quotient rings, isomorphism theorems, characteristic. Fields: construction of quotient fields. Polynomials: polynomial rings, division algorithm, g.c.d., unique factorization, roots of a polynomial over a field. Selected topics. (3 credits)

MATHEMATICS N-392
Elementary Number Theory
Prerequisites: 18 credits in post-collegial mathematics. Number systems, division and factorization, number-theoretic functions, congruences, algebraic congruences and primitive roots, quadratic residues, diophantine equations. (3 credits)

MATHEMATICS N-400
Seminar on the Teaching of Mathematics
Prerequisite: Permission of the Department.
This course is conducted in the form of a workshop and examines alternative methods of presentation of mathematical ideas at the secondary school level. It studies relevant aspects of the psychological development of the adolescent in the context of existing mathematics curricula. (3 credits) NOTE: This course should be taken at the end of the programme.
The course is available only to practising teachers.

MATHEMATICS N-401
Functions
Prerequisite: Collegial mathematics or equivalent. Sets and logic; ordered field of real numbers; relations, functions; exponential, logarithmic and trigonometric function. (6 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-402
Algebra I
Prerequisite: Mathematics N-401 or equivalent previously or concurrently. Natural numbers, integers and their properties. Sequences and progressions. Mathematical induction. Logic. Real numbers, complex numbers. Polynomials. (3 credits) NOTE: This course is available only to practising teachers.

MATHEMATICS N-403
Calculus I

designs. Randomized blocks, Latin squares, factorial confoundings. (3 credits)

MATHEMATICS N-342
Industrial Statistics
General Mathematics: Mathematics N-241 or equivalent. Concepts of statistical control, X, R, P and C charts. Acceptance sampling, sequential probability ratio tests, sampling inspection, continuous sampling plans, reliability and life tests. (3 credits)

MATHEMATICS N-343
Data Analysis and Survey Sampling
Prerequisite: Mathematics N-241 or equivalent. Basic concepts of sampling. Simple, stratified, systematic, cluster sampling. Optimum allocation, ratio estimation, curve fitting, goodness-of-fit tests, non-parametric tests, correlation and regression (bivariate and multivariate). Course time equally divided between theory and practical work. (3 credits)

MATHEMATICS N-351
Discrete Probability and Markov Chains
Prerequisite: Mathematics N-241. Axiomatic approach to probability theory, Bayes’ rule, occupancy, runs and matching problems. Discrete random variables and their distributions. Generating functions. Introduction to Markov chains and queues. (3 credits)

MATHEMATICS N-352
Mathematical Statistics
Prerequisite: Mathematics N-241, N-261. Introduction to multivariate distributions, sampling distributions, point and interval estimation, tests of hypotheses (parametric and non-parametric), regression models. (3 credits)

MATHEMATICS N-353
Stochastic Processes and Applications
Prerequisite: Mathematics N-351. Continuous time stochastic processes. Poisson processes, continuous time Markov processes, queuing models, birth and death processes, renewal theory and reliability of systems. (3 credits)

MATHEMATICS N-354
Information Theory
Prerequisite: Mathematics N-351 or equivalent. Axiomatic approach to probability theory, Bayes’ rule, occupancy, runs and matching problems. Discrete random variables and their distributions. Generating functions. Introduction to Markov chains and queues. (3 credits)

MATHEMATICS N-361
Real Analysis
Prerequisites: Mathematics N-261, N-281. Metric spaces, sequences and series, continuity, differentiation, Riemann integration, uniform convergence, equicontinuity, Weierstrass theorem. Differential forms, simplexes and chains, Stokes’ theorem. (6 credits)

MATHEMATICS N-366
Complex Analysis I
Prerequisite: Mathematics N-261. Algebra and geometry of complex numbers, analytic functions, Cauchy-Riemann equations, the Cauchy integral formula, Taylor’s and Laurent’s theorems, calculus of residues. (3 credits)

MATHEMATICS N-372
Differential Equations I
Prerequisites: CEGEP Mathematics 105, 202; Mathematics N-281 previously or concurrently. First order differential equations, applications of first order differential equations. Second order linear equations, series solutions of second order linear equations, systems of equations. Difference equations. (3 credits) NOTE A/See § 200.4

SIR GEORGE WILLIAMS FACULTY OF SCIENCE
DEPARTMENT OF MATHEMATICS: COURSE DESCRIPTIONS
91.11.4
and volumes. (3 credits) NOTE: This course is available only to practising teachers.

**MATHEMATICS N-404**  
Topics in Geometry  
Certain fundamentals of the methods of Cartesian, vector, and transformation geometry. Applications of these methods to topics presented as informal geometry in grades 7–10. Activity oriented. (6 credits) NOTE: This course is available only to practising teachers.

**MATHEMATICS N-405**  
Calculus II  
Prerequisite: Mathematics N-403. Differentiation and integration of Trigonometric functions. Derivatives of Inverse Trigonometric functions, logarithmic functions and exponential functions. Methods of integration by parts, by substitution, by separation into partial fractions, Improper integrals, L'Hospital's Rule. Series: Convergency tests, Maclaurin and Taylor Theorems. (3 credits) NOTE: This course is available only to practising teachers.

**MATHEMATICS N-406**  
Algebra II  
Prerequisite: Mathematics N-401 or equivalent. Systems of equations, determinants, Cramer's rule. Matrices, operations on matrices, the inverse matrix, Gauss-Jordan method. Matrix transformations. Linear programming. (3 credits) NOTE: This course is available only to practising teachers.

**MATHEMATICS N-407**  
Topics in Probability and Statistics  
Prerequisite: Mathematics N-405 or equivalent or permission of the department. Introduction and a brief historical survey of probability and statistics. Techniques for teaching these topics in the junior secondary school curriculum. Application of the techniques of probability and statistics to the interpretation of research results in mathematics education. (6 credits) NOTE: This course is available only to practising teachers.

**MATHEMATICS N-408**  
Transformation Geometry  
Prerequisite: Mathematics N-401 or equivalent. Distance preserving motions in the plane; affine transformations with applications in Euclidean geometry. Projective transformations and applications to conics. (3 credits) NOTE: This course is available only to practising teachers.

**MATHEMATICS N-409**  
Computational Mathematics  
Prerequisite: Mathematics N-401 or equivalent. Introduction to the computer, and to the writing of simple programs in BASIC. The use of pocket calculators as pedagogic devices. Approximately one-third of the course will be spent on problems related to the secondary school curriculum which can be solved by computer or calculator. (3 credits) NOTE: This course is available to practising teachers only.  

**NOTE A / See § 200.4**

**MATHEMATICS N-410**  
Curriculum Seminar  
Prerequisite: Permission of the Department. Conducted in the form of a workshop. Examines arithmetical, algebraic and geometrical aspects of the mathematical curricula, grades 7-11. Critical examination of various textbooks and pedagogic approaches used in the schools. (3 credits) NOTE: This course is available to practising teachers only.

**MATHEMATICS N-431**  
Probabilistic Methods of Operations Research  
Prerequisites: (a) Mathematics N-261; N-351 previously or concurrently; (b) Mathematics 440, 452. Difference and differential-difference equations, z transforms, stochastic distributions. Markov chains, queuing theory, inventory theory, reliability and renewal theory, competition and introduction to decision theory, dynamic programming, simulation and Monte Carlo techniques; formulation, testing and stability of mathematical models incorporating uncertainty. (6 credits)

**MATHEMATICS N-432**  
Theory of Graphs and Networks  
Prerequisite: Mathematics N-331. Directed and undirected graphs, Partitions, planar and non-planar graphs, matrix representation, applications, network theory. (3 credits)

**MATHEMATICS N-433**  
Calculus of Variations  
Prerequisite: Mathematics N-373 or N-270. Nature of problems. Weak variations, the first variation, Euler's equation. The second variation, Jacobi's equation, Legendre's test, conjugate points. Relative maxima and minima, isoperimetrical problems. Integrals with variable end points. Applications to problems in pure and applied mathematics; the principle of least action. Strong variations, the Weierstrass E-function. (3 credits)

**MATHEMATICS N-441**  
Seminar in Applied Statistics  
Prerequisite: Permission of the Department. Formulation of some real-life problems where applications of statistical methods can be exploited. Analysis, interpretation of data and inference of results. A report on a specific aspect of statistics may be required. (3 credits)

**MATHEMATICS N-442**  
Introduction to Reliability  
Prerequisite: Mathematics N-351. Statistical failure models and reliability testing; system reliability; standby redundancy with and without repair; limit distributions. (3 credits)

**MATHEMATICS N-451**  
Topics in Probability  
Prerequisites: Mathematics N-261; N-351 or permission of Department. Axioms for probability space. Random variables. Distribution functions, mathematical expectation. Law of large numbers. Limit theorems. Stochastic processes, Markov, Poisson and Gaussian Processes. (3 credits)

**MATHEMATICS N-452**  
Linear Statistics  
Prerequisites: Mathematics N-261, N-281, N-352. Multivariate normal distribution, distribution of quadratic forms. Linear models. General linear hypothesis of full rank. (3 credits)

**MATHEMATICS N-461**  
Real Analysis II  

**MATHEMATICS N-466**  
Complex Analysis II  
Prerequisite: Mathematics N-366. Analytic functions, power series, Cauchy's theorem, Morera's and Liouville's theorems, singularities, maximum modulus principle, Rouche's theorem, Conformal mappings, linear transformations, analytic continuation. Special functions. (3 credits)
MATHEMATICS N-467
Complex Analysis III
Prerequisite: Mathematics N-466. Normal families, Riemann mapping theorem, harmonic functions, elliptic functions, univalent functions, selected topics. (3 credits)

MATHEMATICS N-471
Partial Differential Equations
Prerequisite: Mathematics N-373. Classification of partial differential equations, the Cauchy-Kowalewski theorem, characteristics, boundary value and eigenvalue problems for elliptic equations, initial value and initial boundary value problems for parabolic and hyperbolic equations. (3 credits)

MATHEMATICS N-472
Linear Systems
Prerequisite: Mathematics N-281; Mathematics N-270 or N-372, N-373. State space analysis and design of continuous and discrete systems. Controllability and observability, modal control, pole displacement techniques, Luenberger observers, Liapunov stability. (3 credits)

MATHEMATICS N-473
Non-Linear Systems
Prerequisites: Mathematics N-280, N-270 or N-373. Examples of linear and non-linear systems, phase-plane analysis; periodic solutions and limit cycles; non-linear differential equations; perturbation methods; stability in the sense of Liapunov; linearization, Liapunov's direct method; Lagrange stability and boundedness of solutions, circle and Popov's criteria. (3 credits). NOTE A/See § 200.4.

MATHEMATICS N-474
Introduction to Mathematical Control Theory

MATHEMATICS N-475
Geometry and Topology
Prerequisite: Permission of Department. Topological spaces, separation axioms, compactness, connectedness. Introduction to combinatorial and algebraic topology: Euler characteristic; classification of surfaces; winding number of a curve, degree of a map, vector fields, applications; map colouring problems. (3 credits)

MATHEMATICS N-491
Abstract Algebra I
Prerequisite: Mathematics N-391. Groups: composition series, direct product of groups, abelian groups, Sylow's theorems, solvable groups. Rings: Euclidean rings, unique factorization domains, principal ideal domains. Maximal, prime and primary ideals; ideals in noetherian rings, modules and vector spaces. Algebras. Selected topics. (3 credits)

MATHEMATICS N-492
Abstract Algebra II
Prerequisite: Mathematics N-491. Fields: prime fields; algebraic, finite, simple, separable, inseparable, normal extensions; finite fields; perfect and imperfect fields. Group characters. Galois theory; the fundamental theorem, solvability by radicals, transcendental extensions. (3 credits)

MATHEMATICS N-499
Mathematical Thinking
Prerequisite: Permission of Department. This course is intended to stimulate the student's mathematical creativity and to improve his ability to think systematically, analyze problems and communicate his reasoning. Students participate actively in discussing and solving problems drawn from a variety of sources (including previous Putnam competitions) and are expected to explain their thinking both orally and in writing. Discussions include the following topics: problem posing; Polya's techniques of problem solving; equivalence and similarity of problems; generalization; applications. The problems are selected from: combinatorics, geometry, group theory, number theory, real analysis, etc. (3 credits).
91.12 Department of Physics

Associate Professor and Chairman of the Department
STANLEY P. MORRIS

Adjunct Professor
WALTER R. RAUDORF

Associate Professors
DAVID E. CHARLTON
NELSON W. EDDY
BARRY FRANK
ARIJIN L. KIPLING

JOHN A. MACKINNON
SUSHIL K. MISRA
JEAN-PIERRE PETOLAS
RAMESH C. SHARMA
ADOLPH E. SMITH

Adjunct Associate Professor
PHOTIOS A. ANNINOS

Adjunct Assistant Professor
SYLVIO ZENONE

91.12.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequence must be read in conjunction with § 91.3, 91.4.

72 BSc Honours in Physics
(Experimental Option)

<table>

36 BSc Major in Physics

These credits are to be chosen in consultation with the Department.

NOTE: Students following the major in Physics must register by November 1 of each year with the department.

32 Certificate in Scientific Measurement (Biology Option)

12 Bio N-2023, N-3803, N-3813
6 Chem N-2523, N-3543
14 Phys N-2954, N-3965, N-3975

32 Certificate in Scientific Measurement (Chemistry Option)

18 Chem N-2114, N-2135, N-3113
3 Phys N-2433, N-3523, N-3643
5 Phys N-2965, N-3965, N-3975
6 Math N-2616

NOTES:
(i) It is recommended that Physics students take the following minor in Mathematics: Maths N-2616, N-2709, N-2816, N-3113, N-3663.
(ii) In general, the experiments involved in the laboratory courses can be done from week to week at variable times chosen by the student.
(iii) All laboratory courses in Physics with one credit must be completed in one term.

PHYSICS N-204
Mechanics
Prequisite: CEGEP Mathematics 103 or equivalent, previously or concurrently. Kinetics, Newton's Laws of Motion, Statics, dynamics. Conservation of momentum and energy, Periodic motion. Lectures only, (3 credits) Science students may not take this course for science credits. See Physics N-224 for laboratory associated with this course. NOTE A/See § 200.4.

PHYSICS N-205
Electricity and Magnetism
Prequisite: Physics N-204 or equivalent. Electrical charge and Coulomb's Law, Electrical field and potential, Capacity. Steady state and transient currents. Electromagnetic induction and alternating currents. Lectures only, (3 credits) Science students may not take this course for science credits. See Physics N-225 for laboratory associated with this course. NOTE A/See § 200.4.

PHYSICS N-206
Waves and Modern Physics

PHYSICS N-210 (210)
Discoveries in Physics
A non-mathematical course in physics specifically designed for students who have had little or no experience in physics. It traces the fundamental ideas from which modern physics has emerged and attempts to develop insights into the understanding of natural phenomena. Lectures only, (6 credits) Science students may not take this course for credits. NOTE A/See § 200.4.

PHYSICS N-224
Introductory Experimental Mechanics
Prequisite: Physics N-204 previously or concurrently or permission of the Department. A laboratory course covering fundamental experiments in classical mechanics. Experiments will include: resolution of forces, centrifugal forces and conservation of energy, pendulums. Laboratory only, 10 experiments, (1 credit) Science students may not take this course for science credits. NOTE A/See § 200.4.

PHYSICS N-225
Introductory Experimental Electricity
Prequisite: Physics N-205 previously or concurrently or permission of the Department. A laboratory course covering fundamental experiments in electricity. Experiments will include Kirchoff's Law, resistors in series and parallel, oscilloscopes, induction, AC Laboratory only, 10 experiments, (1 credit) Science students may not take this course for science credits. NOTE A/See § 200.4.

91.12.2 COURSE DESCRIPTIONS
PHYSICS N-226
Introductory Experimental Waves and Modern Physics
Prerequisite: Physics N-206 previously or concurrently or permission of the Department. A laboratory course covering the fundamental experiments in waves and modern physics. Experiments include spectrometer measurements, transducers, transformers, AC power transfer, resonance, and measurements involving radioactivity. Laboratory only, 10 experiments. (1 credit) Science students may not take this course for science credits. NOTE A / See § 200.4

PHYSICS N-241
Classical Mechanics 1
Prerequisite: Physics N-204 or CEGEP Physics 101 or equivalent. Mathematics N-261 previously or concurrently. Laws of classical mechanics, statics, kinematics, dynamics of a particle, moving reference frames, central forces, dynamics of a system of particles, dynamics of rigid bodies in a plane, Lagrange's equations. Lectures only, (6 credits) See Physics N-292 for associated laboratory course. NOTE A / See § 200.4

PHYSICS N-243
Classical Mechanics of Particles
Prerequisite: Physics N-204 or equivalent. Math N-261 previously or concurrently. Physical quantities of Mechanics, Laws of Classical Mechanics, Kinematics of a Particle, Dynamics of a Particle in Straighline and General Motion Moving Reference Systems. Lectures only, (3 credits) NOTE A / See § 200.4

PHYSICS N-244
Classical Mechanics of Rigid Bodies
Prerequisite: Physics N-243. Dynamics of a System of Particles, Statics of Rigid Bodies in a Plane and in General Motion, Lagrange's Equations. Lectures only, (3 credits) NOTE A / See § 200.4

PHYSICS N-251
Electrodynamics 1
Prerequisite: Physics N-205 or CEGEP Ph. 201 or equivalent, Mathematics N-261 previously or concurrently. Electric forces and electric fields, electric potential, capacitance, dielectric theory and behaviour, direct currents, resistance, thermoelectricity, moving charges and magnetic fields, electromagnetic induction, the magnetic properties of matter, galvanometers, transient currents, alternating current circuits, Maxwell's equations and electromagnetic waves. Lectures only, (6 credits) See Physics N-292 for associated laboratory course. NOTE A / See § 200.4

PHYSICS N-291
Experimental Mechanics 1
Prerequisite: Physics N-241 previously or concurrently. A laboratory course in mechanics. Experiments include the Kater pendulum, forced oscillations, damping and resonance, inelastic and elastic collisions. Laboratory only, 20 experiments, (2 credits) NOTE A / See § 200.4

PHYSICS N-292
Experimental Electrodynamics
Prerequisite: Physics N-251 previously or concurrently. A laboratory course in electrodynamics. Experiments include electrostatic focusing, motion in crossed magnetic and electric fields, resonance, Fourier analysis, feedback, transistors, oscillators. Laboratory only, 20 experiments, (2 credits) NOTE A / See § 200.4

PHYSICS N-295
Fundamental Electronics
Prerequisite: CEGEP Physics 201 or Physics N-205 or permission of the Department. A practical laboratory course in electronics. Descriptive experiments to review: series and parallel circuits, meters, ohmeter, VOM and TVM circuit loading, reference points in measurements, current measurement in circuits, capacitance and RC time constants, transformers, AC power transfer, resistance, and the oscilloscope. Detailed experiments are performed on: rectification, filters, voltage multipliers and rectifiers, zener diodes, transistor characteristics, biasing, the effect of temperature on transistor parameters, basic stabilization, amplification, feedback, input and output impedances of transistor circuits, Darlington amplifiers, multistage amplifiers; series and shunt DC regulator, field effect transistors, sine wave and LC oscillators; colpitts and phase shift oscillators, operational amplifiers; application and characteristics, diode, transistors, multivibrators, comparison of vacuum tubes to transistors. Laboratory only, (4 credits). NOTE A / See § 200.4

PHYSICS N-296
Communication Media Electronics
Prerequisite: Physics N-295 or equivalent. Distortion, Noise, i.f. transformers, converters, power supplies, superheterodyne circuits, video amplifiers and detectors, VHF and UHF tuning, automatic gain control, FM and FM detectors, synchronization circuits, sweep circuits, automatic frequency and phase control, color demodulation, burst gate amplifiers, chroma­bandpass amplifiers, static converters, dynamic convergence, high voltage generators. Techniques of troubleshooting electronic circuits. Laboratory only, (5 credits)

PHYSICS N-336 (471)
Methods of Theoretical Physics
Prerequisite: Mathematics N-261, Physics N-204 or CEGEP Physics 101 or equivalent. Sturm-Liouville Theory; stretched string, Fourier series and applications of orthogonal function­als, vibrating membrane, operators, method of eigenfunction expansions, cylindrical functions, spherical harmonics, perturbation theory for S.I. problem. Group theory: symmetry consider­ations, definitions, theory of matrix representations, applications; quantum mechanics of the nucleus; tensor algebra, line element, covariant differen­tiation. Lectures only, (6 credits)

PHYSICS N-345 (441)
Advanced Classical Mechanics and Relativity
Prerequisite: Physics N-241. Variational principles and Lagrange's equations, kinematics of rigid body motion, Hamilton's equations of motion, Canonical transformations, Hamilton­Jacobi theory, small oscillations, special relativ­ity, mechanics of deformable bodies. Lectures only, (6 credits)

PHYSICS N-352
Optics 1
Prerequisite: Mathematics N-261 and Physics N-205 or CEGEP Physics 201 or equivalent. Geometrical optics: Plane surfaces, spherical surfaces, optical instruments. Wave optics: review of simple harmonic motion, wave equation, superposition of waves, electromagnetic waves, scattering, polarization, inter­ference-coherent sources, interference-uniform extended sources, Fresnel diffraction, waves in a dispersive medium, lasers. Lectures only, (3 credits) See Physics N-392 for associated laboratory course. NOTE A / See § 200.4

PHYSICS N-355
Electronics 1
Prerequisite: CEGEP Physics 201 or Physics N-205 or equivalent, Physics N-295 previously or concurrently. Introductory concepts, AC circuit theory, electrical measuring instruments. Semi-conductor physics, semi­conductor devices, input transducers and output transducers, transistor theory, modern signal processing techniques for optimal signal to noise ratios, amplifiers, oscillators, pulse and
switching circuits, additional electronic devices. Lectures only. (5 credits). See Physics N-293 for associated laboratory course. NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-364 Atomic Physics**

Prerequisite: CEGET Physics 301 or Physics N-206 or equivalent or permission of the Dept.; CEGET Math. 203 or equivalent. Kinetic theory, origin of quantum theory, electrons and ions, electromagnetic radiation, the Rutherford atom, the Bohr atom, quantum mechanics, atomic structure, molecules and solids. Lectures only. (3 credits). See Physics N-394 for associated laboratory course. NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-383 Medical Physics**

Prerequisite: CEGET Pre-Science or equivalent. This course provides a background in the phenomena used to understand instrumentation used in the fields of biology and medicine. Topics are taken from the fields of mechanics, properties of materials, thermodynamics, optics, electromagnetic theory and radiation physics. Lectures only. (3 credits).

**PHYSICS N-392 Experimental Optics I**

Prerequisite: Physics N-352 previously or concurrently. An experimental course in optics. Experiments include diffraction, optical instruments, resonance and various experiments using lasers. Laboratory only. 10 experiments. (1 credit). NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-394 Experimental Atomic Physics I**

Prerequisites: Physics N-364 previously or concurrently, Physics N-226 or CEGET Physics 301 or equivalent or permission of the dept. An experimental course in atomic physics. Experiments include: Frank-Hertz experiment, the Zeeman effect, Mass spectrometer and some X-ray work. Laboratory only, 10 experiments. (1 credit). NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-396 Computer Electronics**

Prerequisite: Physics N-295 or equivalent. Digital electronic circuits, logic functions and their applications to small digital computer. Study and troubleshooting of integrated circuit logic gates, J-K flip flops, analogue to digital and digital to analogue converters, frequency divider circuits, digital multiplexers and demultiplexers, pulse distributor logic gates. Study and implementation of basic logic functions and Boolean expressions to program a small digital computer. Laboratory only (5 credits).

**PHYSICS N-397 Experimental Medical Electronics**

Prerequisite: Physics N-295 or equivalent. A laboratory course on the maintenance and use of medical instruments including ECG monitor, electro-cardiograph, cardiothorometer, blood pressure recorder, respiration rate recorder and clinical thermometer. The component parts of the instruments are studied first and then the instruments are constructed and operated. Laboratory only. (5 credits).

**PHYSICS N-435 Statistical Physics**

Prerequisite: Physics N-433 or equivalent. Basic probability concepts, statistical description of systems of particles, thermal interaction, microscopic theory and macroscopic measurements. Canonical distribution in the classical approximation, general thermodynamic interaction, elementary kinetic theory of transport processes. Lectures only. (3 credits)

**PHYSICS N-457 Advanced Electrodynamics**

Prerequisite: Physics N-251. Fundamentals of electromagnetics, multipole fields, the equations of Laplace and Poisson, the electromagnetic field equations, electromagnetic waves, reflection and refraction, the Lienard-Westervelt potentials and radiation, radiating systems, classical electron theory, relativistic electrodynamics. Lectures only. (6 credits)

**PHYSICS N-465 Nuclear Physics I**

Prerequisite: Physics N-364 or equivalent. Discussion of nuclear properties, deuteron, scattering, nuclear models, nuclear disintegrations, nuclear reactions, elementary particles and cosmic rays. Lectures only. (3 credits) See Physics N-495 for associated laboratory course. NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-467 Solid State Physics**

Prerequisite: Physics N-364 or equivalent or Physics N-477. Crystal structure, crystal binding, phonons and lattice vibrations, free electron Fermi gas, energy bands, semi-conductor crystals, superconductivity, dielectric properties, survey of magnetic properties, magnetic resonance, optical phenomena in insulators. Lectures only. (3 credits).

**PHYSICS N-477 (Half of 472) Quantum Mechanics I**

Prerequisite: Mathematics N-270 or Phys. N-241 or N-336, N-364 previously or concurrently. State functions and their interpretation, linear momentum, motion of a free particle, Schrödinger’s equation. Lectures only. (3 credits). NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-478 (Half of 472) Quantum Mechanics II**

Prerequisite: Physics N-477 and N-241 or equivalent. States of a particle in one dimension, approximation methods, systems of particles in one dimension, motion in three dimensions, angular momentum and spin. Lectures only. (3 credits). NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-480 Biophysics I**

Prerequisite: University II standing in biology, physics or biochemistry or permission of the Department. A course on the interface between the biological and physical sciences. Emphasis will be on biomechanics, physiological fluid flows, and bioenergetic principles. Lectures and laboratory. (4 credits). NOTE A \( \text{See } \) § 200.4.

**PHYSICS N-482 Biophysics II**

Prerequisite: Physics N-480 or permission of the Department. Biological oscillations on a biochemical, cellular, organ level will be treated and mathematical models will be explained. Cybernetics will be introduced and simple applications to physiological control systems given. Mechanics will be applied to the problems of form and locomotion. Irreversible thermodynamics will be applied to the problem of growth. Cancer from a biophysical viewpoint will be studied. Lectures and laboratory. (4 credits).
PHYSICS N-493
Experimental Thermodynamics I
Prerequisite: Physics N-433 previously or concurrently. A laboratory course in thermodynamics. Experiments include Clement and Desormes experiment, vaporisation, specific heats, liquid nitrogen boiling. Laboratory only, 10 experiments. (1 credit). NOTE A: See § 200.4.

PHYSICS N-495
Experimental Nuclear Physics I
Prerequisites: Physics N-394 and N-465 previously or concurrently. A laboratory course in nuclear physics. Experiments include gamma and beta ray spectroscopy, nuclear magnetic resonance, absolute counting, half-life determination, nuclear activities. Laboratory only, 10 experiments. (1 credit). NOTE A: See § 200.4.

PHYSICS N-496 (491)
Methods of Experimental Physics
Prerequisites: Physics N-395 or equivalent and N-394 or equivalent or permission of the Department. Experiments include fundamentals of digital logic and applications of operational amplifiers, solid state and nuclear physics. Students are encouraged to propose new experiments and will have the opportunity to design and build equipment. Laboratory only. (4 credits).
91.13 Psychology (BSc)

91.13.1 PROGRAMMES (BSc)

75 to 78 BSc Honours in Psychology

The following courses in Psychology plus the courses outlined in either the Biology option or the Mathematics option constitute an Honours Programme in Psychology, provided the student maintains the required academic standing.

**Year I**
12 Psych N-2716 or N-2736, N-4126

**Year I or II**
6 Psych N-2416 or N-2426

**Year II or III**
6 Psych N-4616

18 Psych N-3753, N-4216, N-4226, N-4326, N-4346, N-4386, N-4426, N-4526, N-4546, N-4626, N-4913, N-4923, N-4933, N-4943

**Year III**
12 Psych N-4136, N-4726

Biology Option

**Year I**
12 Bio N-2033, Zoo N-2153, Chem N-2316

**Year II**
3 Bio N-2243

**Year III**
6 Zoo N-3206

Mathematics Option

12 Math N-2416, N-2816

12 Math N-2616, N-2706, N-3413, N-3433, N-3513, N-3523, Comp Sc N-2113, N-2213

60 BSc Specialization in Psychology

**Year I**
12 Psych N-2716 or N-2736, N-4126

**Year I or II**
6 Psych N-2416 or N-2426

**Year II or III**
6 Psych N-4616

12 Psych N-4216, N-4226, N-4286, N-4326, N-4346, N-4386, N-4626

**Year III**
24 Psych N-4716 or equivalent, and six additional credits in psych in consultation with the Department. In addition either Zoo N-2153, Bio N-2033, Chem N-2316 or twelve credits from Math N-2416, N-2816, Comp Sc N-2113, N-2213

36 BSc Major in Psychology

**Year I**
12 Psych N-2716 or N-2736, N-4126

**Year II and III**
6 Psych N-4616

12 Psych N-4216, N-4226, N-4326, N-4346, N-4386, N-4623, N-4913, N-4926, N-4933, N-4943

6 Psych Elec

24 Minor in Psychology

**Year I**
6 Psych N-2716

**Year II and III**
6 Psych N-4616

12 Psych N-4216, N-4226, N-4326, N-4346, N-4626, N-4913, N-4926, N-4933, N-4943
The courses in Psychology listed below are acceptable as science credits in the Bachelor of Science degree. Course descriptions can be found in the Sir George Williams Faculty of Arts §41.20.

PSYCHOLOGY N-241 (6 credits)
Statistical Methods in Psychology A

PSYCHOLOGY N-242 (6 credits)
Statistical Methods in Psychology B

PSYCHOLOGY N-271 (6 credits)

111.1 MATURE STUDENT PROGRAMME GENERAL INFORMATION

111.1.1 Introduction
111.1.2 Admission
111.1.3 Twenty-five Year Mature Entry (25 years of age and over)

111.2 STRUCTURE OF STUDIES—MATURE STUDENT PROGRAMME

111.2.1 Pre-Arts — Sir George Williams Faculty of Arts
111.2.2 Pre-Arts — Loyola Faculty of Arts and Science
111.2.3 Pre-Science — Loyola Faculty of Arts and Science
111.2.4 Pre-Commerce and Administration — Concordia
111.2.5 Pre-Engineering — Concordia
111.2.6 Pre-Computer Science (SGW)
111.2.7 Pre-Fine-Arts — Concordia
111.2.8 Pre-Science — Sir George Williams Faculty of Science

111.3 STRUCTURE OF STUDIES—TWENTY-FIVE YEAR ENTRY PLAN

111.3.1 Science, Engineering and Computer Science
111.3.2 Arts, Commerce and Administration and Fine Arts
111.3.3 Transfer to Mature Entry Programme

111.4 COURSES

111.4.1 Sir George Williams Faculty of Arts
111.4.2 Loyola Faculty of Arts and Science
111.4.3 Concordia Faculty of Commerce and Administration
111.4.4 Concordia Faculty of Engineering
111.4.5 Concordia Faculty of Fine Arts
111.4.6 Sir George Williams Faculty of Science

111.5 INDEPENDENT COURSE STUDENTS
111.1 Mature Student Programme

General Information

111.1.1 INTRODUCTION

In keeping with the traditional policy of the University towards older students, the Mature Student Programme is designed to enable individuals who are twenty-one years of age or older, and who have not satisfied the normal admission requirements, but have demonstrated potential, to take undergraduate programmes. The University assumes that the age of the students will have allowed them to acquire informally some of the general education given to younger students at the collegial level, and as a result the Mature Student Programme concentrates on the knowledge and skills which will be needed to undertake a given programme of specialization.

Successful completion of a specified number of credits will be required in addition to those required in regular undergraduate programmes of varying degrees of specialization. While they are obtaining these additional credits, mature students are considered in every way to be regularly admitted students.

Twenty-Five-Year Mature Entry (25 Years of Age and Over)

There is a special Mature Entry Plan for applicants 25 years of age and over, or who reach their twenty-fifth birthday in the calendar year in which they seek to enter the University. Refer to § 111.1.3.

Administrative Structure

For identification purposes, students will register in one of six "programmes" — Pre-Arts, Pre-Commerce and Administration, Pre-Computer Science, Pre-Engineering, Pre-Fine Arts, Pre-Science. There is no separate administrative structure for the Mature Student Programme. Each Faculty is responsible for its students' programmes.

111.1.2 ADMISSION TO THE MATURE STUDENT PROGRAMME

For detailed information on Admissions, please refer to § 13.

A mature applicant is defined as a candidate for admission who:

a) does not satisfy the normal academic requirements for admission, but who seeks admission on the basis of potential to undertake an undergraduate programme.

b) will be at least twenty-one years of age within the calendar year in which the programme is entered.

c) has either been out of school for twenty-four months since the age of eighteen, or has been out of school for twelve months with no unfavourable academic record in the past twenty-four months. "Out of School" should be interpreted as being away from full-time study in an educational institution.

Students will not be accepted into a field of concentration or specialization until they have successfully completed 30 credits. Courses which have been taken as part of these 30 credits and which are required courses in a given degree programme, or specialization within that programme, will be replaced in that programme by electives within the discipline or field.

Students registered in the Mature Student Programme may not count towards their undergraduate programme pro-tanto credits on the basis of previous academic records.

Each application will be considered on its own merits. A birth certificate or other acceptable proof of age must be submitted together with all former records of study and any other documentation which may demonstrate potential to undertake undergraduate work.

111.1.3 TWENTY-FIVE YEAR MATURE ENTRY (25 YEARS OF AGE AND OVER)

Mature applicants who are twenty-five years of age or older within the calendar year in which they commence the programme may enter a modified Mature programme, requiring 18 additional credits in the Faculties of Arts, Arts and Science (BA), Fine Arts, and Commerce and Administration, while those entering the Faculties of Science, Arts and Science (BSc), and Engineering will have their requirements determined in consultation with an adviser.
For students in the Mature Student Programme, the additional credits are either specified as pre-requisites, or otherwise determined by each individual Faculty. These additional credits may not be counted towards the student's eventual programme of specialization. Since a small number of programmes are subject to enrollment restrictions, the University cannot guarantee a student acceptance into a given programme of specialization of the student's choice on completion of the additional credits.

Students will register in one of the following "programmes": Pre-Arts, Pre-Commerce and Administration, Pre-Computer Science, Pre-Engineering, Pre-Fine Arts, Pre-Science. These will consist of required courses and electives, these requirements being as follows:

NOTE: The superscript on a course designates its credit value.

111.2.1 PRE-ARTS—SIR GEORGE WILLIAMS FACULTY OF ARTS

General Requirements
Six credits in English (language or literature) and twenty-four credits, not more than twelve of which may be taken outside the Faculty of Arts.

Specific Requirements for entry to Programmes of Specialization in Arts

NOTE: It is strongly recommended that students planning to specialize in Economics take Mathematics 103^3 and 105^4.

b) English, French: six credits in English Literature (in addition to the general requirement) and six credits in French.

c) German, Greek, Hebrew, Italian, Latin, Spanish: at least six and preferably twelve credits in the language(s) to be studied.

d) Canadian Studies, Education, History, Humanities of Science, Philosophy, Russian Studies, Religion: no special requirements, but students should consult with the appropriate department chairman or programme coordinator.

e) Psychology: six credits in Mathematics and Biology 101^5 and Psychology 111^6.

111.2.2 PRE-ARTS—LOYOLA FACULTY OF ARTS AND SCIENCE

General Requirements
6 credits in English
6 credits in Mathematics or Natural Science
18 elective credits

Specific Requirements for Programmes of Specialization in Arts
a) German, Italian, Russian and Spanish: at least 6 credits in the language(s) to be studied.

b) Psychology: 3 credits in Mathematics (133); 3 credits in Biology (201); 6 credits in Psychology (200Z).

c) Mathematics (BA): 12 credits in Mathematics (133, 135, 231 and 233).

(NOTE: For course descriptions, see § 51.)

111.2.3 PRE-SCIENCE*—LOYOLA FACULTY OF ARTS AND SCIENCE

Undergraduate Science programmes have specific pre-requisites, as listed below; the sequence of taking these courses will be decided in consultation with the Chair of the department of intended specialization. (NOTE: For course descriptions see § 51.)

Bio-Physical Education
6 Bio 230Z
6 Chem 112Z
6 Math 133A, 135B
6 Phys 101Z
6 Elec

Biology
6 Bio 230Z
6 Chem 112Z
6 Math 133A, 135B
6 Phys 101Z
6 Elec

Chemistry
6 Chem 112Z
6 Math 133A, 135B
6 Phys 101Z
6 Elec

Computer Science
6 Comp Sc 211A, 241B
12 Math 133A, 135B, 231A, 233B
12 Elec

Mathematics
6 Chem 112Z
12 Math 133A, 135B, 231A, 233B
6 Phys 101Z
6 Elec

Physics
6 Chem 112Z
12 Math 133A, 135B, 231A, 233B
6 Phys 101Z
6 Elec

Psychology
6 Bio 230Z
6 Chem 112Z
12 Math 133A, 135B, 231A, 233B
6 Phys 101Z

*It is recommended that a Mathematics course be taken during the summer prior to registration. Please consult the Department Chairman.
MATURE STUDENT PROGRAMME

111.2.4 PRE-COMMERCE AND ADMINISTRATION—CONCORDIA

Math 108\(^3\) and 109\(^3\) (SGW campus); Math 310\(^6\) (Loyola campus—see § 51.19.3).

6 credits in Humanities or Social Science; an additional 12 elective credits selected from any Faculty.

Candidates entering Pre-Commerce and Administration without high school Intermediate Mathematics (Functions) must also take Mathematics 101\(^3\) (SGW) or Mathematics 111A/B\(^3\) (Loyola—see § 51.19) which will function as a 3-credit elective.

Pre-Commerce and Administration students are advised to select Economics 109\(^3\) and 110\(^3\) (SGW) or Economics 300\(^6\) (Loyola—see § 51.11).

111.2.5 PRE-ENGINEERING*—CONCORDIA

Mathematics 102, 103, 104, 105; Chemistry 101, 102; Computer Science 111; Physics 104, 105, 106, 124, 125, 126.

*On the Loyola Campus consult the appropriate member of the Dean's office or his representative for equivalent courses.

111.2.6 PRE-COMPUTER SCIENCE (SGW)*

The requirements for the General Science and Electronics/Systems Options are the same as those for Pre-Engineering. For the General Business Option they comprise:

Mathematics 1023, 1033, 1043, 1053; Chemistry 1013, 1023; Physics 1043, 1053, 1251; one of Physics 1063 and 1261, Biology 1013 or Geology 1153.

Students not having the equivalent of Mathematics 101\(^3\) will take that course in place of 102\(^3\).

111.3 Structure of Studies—Twenty-Five Year Entry Plan

111.3.1 SCIENCE, ENGINEERING AND COMPUTER SCIENCE

Persons entering Science, Engineering and Computer Science may be permitted to seek exemptions from part or all of the qualifying part of the programme on the basis of their knowledge. In the case of the General Business Option in the Bachelor or Computer Science programme, this involves the Mathematics courses normally required for entry to that programme.

Engineering and Computer Science will offer a special testing programme to establish exemptions. Science will interview and/or test candidates to determine exemptions.

111.3.2 ARTS, COMMERCE AND ADMINISTRATION AND AND FINE ARTS

Students wishing to enter Arts, Commerce and Administration or Fine Arts must complete successfully a qualifying group of 18 credits, as follows:

Arts: Six credits in English (Composition or Literature) plus 12 elective credits.

Commerce and Administration: Six credits in Mathematics (College Algebra and Calculus I). The remainder of 18 credits selected from any Faculty.

Fine Arts: Six credits in English plus 12 additional credits.

NOTE: For students planning to specialize in the studio areas of Fine Arts, Art 101\(^6\) and Art 102\(^6\) are recommended.

Candidates entering Pre-Commerce and Administration without high-school Intermediate Mathematics (Functions) must also take Functions, which course will count as an elective. Pre-Commerce and Administration students are advised to select Introductory Economics and a course from the Social Sciences to complete the 18-credit profile.
111.3.3 TRANSFER TO MATURE ENTRY PROGRAMME

Students registered in the Mature Student Programme will have the option, on reaching their 25th birthday, of profiting, within their first 30 credits, from the provisions of the Twenty-five-year Mature Entry Plan.

111.4 Courses

The courses listed below are offered by the respective Faculties. Inclusion of a course in this list does not guarantee that it will be given every year.

NOTE: Descriptions for courses with an "N" number will be found in the indicated sections.

111.4.1 SIR GEORGE WILLIAMS FACULTY OF ARTS

Courses are grouped under the respective headings of Centre for Interdisciplinary Studies, Humanities and Social Sciences.

CENTRE FOR INTERDISCIPLINARY STUDIES § 41.5

The following courses may be accepted as either Humanities or Social Science credits.

CANADIAN STUDIES 111 (N-211)
Introduction to Canadian Studies.
(6 credits)

SCIENCE AND HUMAN AFFAIRS 101 (N-201)
Introduction to Science and Human Affairs I
(3 credits)

SCIENCE AND HUMAN AFFAIRS 102 (N-202)
Introduction to Science and Human Affairs II
(3 credits)

SCIENCE AND HUMAN AFFAIRS 110
Contemporary Image of Science I:
The Physical Sciences
This course provides a general humanistic understanding of the physical sciences. The three main themes are man and the universe; the reality and unreality of matter and energy; man and the dynamic earth.
(6 credits) NOTE: Students who have credits for Natural Science 210 or Humanities of Science 010 or 210 may not take this course for credits.

SCIENCE AND HUMAN AFFAIRS 112
Contemporary Image of Science II:
The Biological Sciences
This course provides a general humanistic understanding of the biological sciences. The three main themes are biology and evolutionary theory; evolution of life and man; man, ecology and society.
(6 credits) NOTE: Students who have credits for Natural Science 210 or Humanities of Science 010 or 210 may not take this course for credits.

HUMANITIES

Classics § 41.8

CLASSICS/HISTORY 112 (N-212)
History of Greece and Rome
(6 credits)

CLASSICS/HISTORY 114 (N-214)
History of the Roman Empire
(6 credits)

CLASSICS 141 (N-241)
Greek Literature in Translation
(3 credits)

CLASSICS 142 (N-242)
Latin Literature in Translation
(3 credits)

GREEK 110 (N-210)
Introductory Course in Greek
(6 credits)

GREEK 141 (N-241)
Greek Language and Literature
(6 credits)

LATIN 110 (N-210)
Beginner's Latin
(6 credits)

LATIN 140 (N-240)
Latin Composition and Translation
(6 credits)

LATIN 141 (N-341)
Latin Literature
(6 credits)

Modern Languages § 41.8

LITERATURE IN TRANSLATION 150 (N-350)
Literature in Translation
(6 credits)

GERMAN 110 (N-210)
Introductory Course in German
(6 credits)

GERMAN 111 (N-311)
Advanced German Language and Stylistics
(6 credits)

GERMAN 115 (N-215)
German for Reading Knowledge
(6 credits)

GERMAN 141 (N-241)
German Language and Literature (Intermediate)
(6 credits)

HEBREW 110 (N-210)
Introductory Course in Hebrew
(6 credits)

HEBREW 141 (N-241)
Intermediate Course in Hebrew
(6 credits)

ITALIAN 110 (N-210)
Introductory Course in Italian
(6 credits)

ITALIAN 121 (N-221)
Italian Civilization
(6 credits)
111.4.1 MATURE STUDENT PROGRAMME

COURSES:
SIR GEORGE WILLIAMS
FACULTY OF ARTS

Psychology § 41.20
PSYCHOLOGY 111 (N-211)
Introductory Psychology
(6 credits)

Social Science

SOCIAL-SCIENCE 110
General Course in the Social Sciences
This course has a dual purpose: to introduce the student to some of the basic concepts and subject matter of the various social sciences and to demonstrate their interrelation; and to provide the student with some knowledge of contemporary society and the social problems which confront it. (6 credits)

Sociology § 41.21

SOCIOLGY 111 (N-210)
Introduction to Sociology
(6 credits)

111.4.2 LOYOLA FACULTY OF ARTS AND SCIENCE

For course descriptions see § 51.

111.4.3 CONCORDIA FACULTY OF COMMERCE AND ADMINISTRATION

ADMINISTRATION 101
Introduction to Administration
This course is designed to develop a basic understanding of the role of administration in our society (the efficient organization and employment of people in the technosstructure). (3 credits)

ADMINISTRATION 102
Perspective on Business
This course is designed to review the historical development of business (in Canada in particular) and to examine the relationships between the firm (management) and the owners, the employees, the customers, the government and the community. Further, to study some of the problems facing Canadian business today; the dehumanizing aspect, pollution problems, large vs. small firms, foreign ownership, competition, etc. (3 credits)

111.4.4 CONCORDIA FACULTY OF ENGINEERING

Computer Science § 71

COMPUTER SCIENCE 111 (N-211)
Introduction to Computers and Computing
An introduction to the essential features of computers and computing systems. Problem solving, algorithms, and flowcharts. Detailed specifications of FORTRAN with numerical and non-numerical applications.
Lectures: 3 hours per week, 1 term.
Laboratory: 11/2 hours per week, 1 term.
(3 credits)
NOTE: Students who have credit for Computer Science 011 or equivalent may not take this course for credit.

111.4.5 CONCORDIA FACULTY OF FINE ARTS

VISUAL ARTS

Studio Art § 81.5

ART 101
Visual Arts Orientation I
A studio course dealing with basic media, fundamental techniques and core concepts in two or three dimensions. Lectures and studio periods. (6 credits)

ART 102
Visual Arts Orientation II
Prerequisite: Art 101. Individual problems in the visual arts. Lectures and studio periods. (6 credits)

Art History § 81.6

ART HISTORY 140 (240)
Introduction to Art History
(6 credits)

ART HISTORY 149 (249)
Canadian Sculpture and Architecture
(6 credits)

Cinema § 81.7

CINEMA 111 (211)
History of Film
(6 credits)

PERFORMING ARTS

Music § 81.10

MUSIC 101
Choir/Orchestra
(3 credits)

MUSIC 111
Basic Skills: Theory
(3 credits)

MUSIC 112
Basic Skills: Ear Training
(3 credits)

MUSIC 131
Private Study A 1
(3 credits)

MUSIC 132
Private Study B 1
(6 credits)

MUSIC 135
Musicanship
(6 credits)

Music History § 81.10

MUSIC HISTORY 100
Music History and Society
(6 credits)

111.4.6 SIR GEORGE WILLIAMS FACULTY OF SCIENCE

BIOLOGY 101 (N-201)
General Biology I
A survey of the general principles of biology: chemical basis of life, cell organization and control, elements of anatomy, physiology, morphogenesis, heredity and evolution. Lectures and laboratories. (3 credits)

BIOLOGY 102 (N-202)
General Biology II
Prerequisite: Biology 101. Cell biology, elementary biochemistry, developmental
biology, physiology and genetics. Lectures and laboratories. (3 credits)

**CHEMISTRY 101 (N-201)**

*General Chemistry I*

States of matter. Atoms, elements and isotopes; atomic structures. The electronic structure of atoms. The Periodic Table and chemical bonding. Ions in solution. Lectures, tutorials and laboratories. (3 credits)

**CHEMISTRY 102 (N-202)**

*General Chemistry II*

Covalent compounds. Chemical reactions, mechanism and kinetics. Special topics; oriented either to the biological sciences, biochemistry and chemistry, or to the physical sciences, engineering and computer sciences. Lectures, tutorials and laboratories. (3 credits)

*Geology § 91.10*

**GEOLOGY 115 (N-215)**

*Introductory Geology*

(3 credits)

**GEOLOGY 131 (N-231)**

*Mineralogy I*

(3 credits)

**PHYSICS 104 (N-204)**

*Mechanics*

Prerequisite: Mathematics 103 previously or concurrently. Kinematics. Newton's Laws of Motion. Statics, dynamics. Conservation of momentum and energy. Periodic motion. Lectures only. (3 credits)

**PHYSICS 105 (N-205)**

*Electricity and Magnetism*

Prerequisite: Physics 104. Electrical charge and Coulomb's Law. Electrical field and potential Capacity. Steady state and transient currents. Electromagnetic induction and alternating currents. Lectures only. (3 credits)

**PHYSICS 106 (N-206)**

*Waves and Modern Physics*

**PHYSICS 110 (N-210)**

*Discoveries in Physics*

A non-mathematical course in physics specifically designed for students who have had little or no experience in physics. It traces the fundamental ideas from which modern physics has emerged and attempts to develop insights into the understanding of natural phenomena. Lectures only. (6 credits)

**PHYSICS 124 (N-224)**

*Introductory Experimental Mechanics*

Prerequisite: Physics 104 previously or concurrently or permission of the Department. A laboratory course covering fundamental experiments in classical mechanics. Experiments will include resolution of forces, centrifugal force and conservation of energy, pendulums. Laboratory only, 10 experiments. (1 credit)

**PHYSICS 125 (N-225)**

*Introductory Experimental Electricity*

Prerequisite: Physics 105 previously or concurrently or permission of the Department. A laboratory course covering fundamental experiments in electricity. Experiments will include Kirchhoff's Law, resistors in series and parallel, oscilloscopes, induction, AC. Laboratory only, 10 experiments. (1 credit)

**PHYSICS 126 (N-226)**

*Introductory Experimental Waves and Modern Physics*

Prerequisite: Physics 106 previously or concurrently or permission of the Department. A laboratory course covering the fundamental experiments in waves and modern physics. Experiments include spectrometer measurements. Newton's rings and measurements involving radioactivity. Laboratory only, 10 experiments. (1 credit)

**Mathematics**

*General Prerequisite and Equivalents:*

The general prerequisite for all Mature Student Programme Mathematics courses is Mathematics 101. Students will be exempt from this course with high school papers in:

a) Algebra, Geometry, Trigonometry, Intermediate Algebra; or

b) Algebra, Geometry, Functions.

Students with good grades in Algebra, Geometry, Trigonometry may apply to the Mathematics Department for exemption.

**MATHEMATICS 100 (N-200)**

*Fundamental Concepts of Algebra*

This is a course designed for mature students who need a modern background for Mathematics 101. Sets, axiomatics, algebraic techniques, inequalities, analytic geometry of lines, circles, parabolas. (3 credits)

**MATHEMATICS 101 (N-201)**

*Elementary Functions*

Sets. Field of real numbers. Inequalities. Functions and graphs. Trigonometric, exponential and logarithmic functions. (3 credits)

**MATHEMATICS 102 (N-202)**

*College Algebra*

Pre-or-Co-requisite: Mathematics 101 or equivalent. (See "general prerequisite" above.) Proofs and implications. The natural numbers and the integers. Mathematical induction. Divisibility, the Euclidean Algorithm, primes, the Fundamental Theorem of Arithmetic. Sequences and progressions. Complex Numbers, polynomials, the Fundamental Theorem of Algebra, Combinatorial Mathematics, the Binomial Theorem. Systems of equations, determinants, Cramer's Rule. (3 credits)

**MATHEMATICS 103 (N-203)**

*Differential and Integral Calculus I*

Prerequisite: Mathematics 101 or equivalent. (See "general prerequisite" above.) Functional notation. Differentiation of poly-

NOTE A/See § 200.4

MATHEMATICS 104 (N-204)
Vector Analysis and Analytical Geometry
Prerequisite: Mathematics 101 or equivalent. (See "general prerequisite" above.) The Algebra of vectors in two and three dimensional Euclidean vector spaces, Inner and cross products of vectors. Algebraic and vector equations of curves in the plane and in space. Elementary study of surfaces in space. Curves and surfaces in parametric form. Polar, spherical and cylindrical coordinates. (3 credits)

MATHEMATICS 105 (N-205)
Differential and Integral Calculus II

NOTE A/See § 200.4

MATHEMATICS 106 (N-206)
Linear Algebra for the Social Sciences

NOTE A/See § 200.4

MATHEMATICS 107 (N-207)
Statistics for the Social Sciences
Prerequisite: Mathematics 101 or permission of Department (See "general prerequisite" above.) Elementary Probability, permutations and combinations, Binomial and normal distribution. Analysis and organization of Statistical data. Tests of hypotheses. Confidence limits. Introduction into linear regression and correlation. (3 credits)

NOTE A/See § 200.4

MATHEMATICS 108 (N-208)
Fundamental Mathematics I
Prerequisite: Mathematics 101 or equivalent. This course is intended primarily for pre-Commerce students. Progressions, compound interest, annuities; permutations, combinations and binomial theorem; systems of linear equations, inequalities, linear programming; matrices. (3 credits)

NOTE A/See § 200.4

MATHEMATICS 109 (N-209)
Fundamental Mathematics II
Prerequisite: Mathematics 101 or equivalent. This course is intended primarily for pre-Commerce students. Limits, differentiation of rational, exponential and logarithmic functions, theory of maxima and minima. (3 credits)

OUT A/See § 200.4

111.5 Independent Course Students

Where places are available, after regularly admitted students have been registered, individuals may register on an individual course basis as independent students in courses for which they have the qualifications. Registration dates will be published in the daily press in the month of August.
131 Centre for Continuing Education

Table of Contents

131.1 CENTRE FOR CONTINUING EDUCATION
   131.1.1 Off-Campus University Credit Programmes
   131.1.2 Non-Credit Programmes
   131.1.3 English Language Courses
   131.1.4 French Language Courses
   131.1.5 Continuing Education Music Programme
   131.1.6 Continuing Education Visual Arts Programme
   131.1.7 Other Courses
The Centre for Continuing Education is currently developing and administering courses which fall under one of the two general categories: off-campus university credit programmes and non-credit programmes.

### 131.1.1 OFF-CAMPUS UNIVERSITY CREDIT PROGRAMMES

University credit courses are offered off-campus during the winter and summer sessions. Students who take their courses through Continuing Education will receive their credits according to the regular university programmes in which they are enrolled.

The purpose of this programme is to attempt to meet the needs of various segments of the public by offering courses in more convenient locations. Continuing Education is prepared to offer courses from the university programmes wherever there is a sufficient demand, provided qualified lecturers are available.

Individuals interested in establishing off-campus courses in their areas should contact the Coordinator of Teacher Training and Certification of Concordia University, Sir George Williams Campus, at 1455 de Maisonneuve Blvd. West, Montreal, Quebec H3G 1M8.

### Admission

Admission to credit work through Continuing Education is the same as for regular admission to the university undergraduate programmes. For details refer to the section on Admission Regulations, § 13. The courses offered through Continuing Education are oriented towards those individuals who wish to improve their qualifications. A specific effort has been made by Concordia University to meet the needs of teachers seeking courses for “perfectionnement”.

### 131.1.2 NON-CREDIT PROGRAMMES

A wide variety of special programmes and courses is available through the Centre for Continuing Education for individuals who are not necessarily interested in following regular graduate or undergraduate programmes. For most of these, a certificate of achievement will be issued in the name of the University to students who successfully complete the required work. Course offerings are reviewed and supplemented frequently to ensure that they satisfy the changing needs for professional development in the community.

### Hospitality Management Programme

This practical programme is available to individuals who wish to receive training in the special skills required to manage hotels.
restaurants, and institutional and commis-
sary food service establishments. A Certifi-
cate in Hospitality Management will be
granted by the Centre for Continuing Edu-
cation to those who successfully complete
the course requirements. To qualify for the
Certificate, candidates must complete a
total of ten courses—the seven compulsory
courses in the core section of the pro-
gramme and any three of the elective
courses.

Tourism Programme

The courses offered under this pro-
gramme are designed to train students for
responsible jobs in tourism. They are in-
tended either for those already employed
in the industry or for those considering it as
a career. During workshop sessions, stu-
dents will have the opportunity to practice
the essential skills required of the travel
counsellor; these include the use of travel
manuals, the preparation of tickets, the
planning of trips, and the making of re-
servations. Students successfully complet-
ing courses of the programme will be
granted a Certificate by the Centre for Con-
tinuing Education.

Certificate in Business Management

A non-credit programme offered on
the Loyola Campus. Students must suc-
cessfully complete any six courses under
the programme to be eligible for the Certificate
in Business Management.

Complete Computer Electronics

A combined home study and labora-
tory course during which the student actually
builds a digital computer. The programme
begins with background work in electronic
fundamentals, followed by a study of com-
puter circuitry and digital logic techniques.
Computer organization and operations are
then considered. Complete Computer Elec-
tronics is designed for those interested in
careers as computer or electronic tech-
nicians.

Small Group Special Interest Courses

These seminar-style capsule courses are
designed for people who wish to develop
a particular skill, further an interest, or
even satisfy a curiosity. Individual interest
is the only admission requirement. Session
leaders are experts in their field and have a
knack for developing their subject inform-
ally. There are no textbooks, assignments,
or exams. Each course is made up of eight
weekly two-hour evening sessions.

Cultural and Community Programmes

In an attempt to provide a variety of
courses that will meet the learning needs of
members of the community, a number of
interest courses are offered. Included
among these courses are Certificate Pro-
grammes in Fashion Designing and Pattern
Making and Journalism, Advertising and
Public Relations.

Certificate Programme in Fashion Designing
and Pattern Making

A six course programme oriented to
train students in a professional manner for
the garment industry in Fashion Design,
Pattern Making, Draping, Production
Sewing and Fashion Drawing. Upon com-
pletion of the programme, students would
be qualified to become Fashion Designers,
Assistant Designers, Pattern Makers, Sam-
ples Makers, and Operators, or utilize the
training for their personal use.

Journalism, Advertising and
Public Relations

Concordia has designed a practical pro-
gramme in communications to serve pri-
marily two groups of people: 1) men and
women already working in the media and
other occupations and professions who
will find such practical training helpful in
improving their communication skills; 2)
students who are specializing in such fields
as economics, political science, religion,
sociology, management and the physical
sciences, and want to develop the ability to
communicate their knowledge.

The programme has been set up in
answer to the numerous requests for
courses which provide professional, career-
oriented training in various techniques of
communication.

All the courses will be taught by ex-
perienced practitioners—journalists, public
relations executives, businessmen and Con-
cordia professors who have worked in the
media or related occupations. Each class
will have both a regular instructor and
visits from specialists in the subject under
discussion. Students will thus benefit from
the professionals in the communications
field in Montreal.

Students will be able to enroll in selected
courses or in the total programme; certifi-
cates will be issued on successful comple-
tion of either a course or the programme.
To qualify for a programme certificate, the
student must have completed any five
courses and have a working knowledge of
French. Courses completed in previous
programmes offered by either Sir George or
Loyola will be counted.

Classes will be offered on both the Sir
George and Loyola Campuses. Rudimen-
tary typing skills are required.

131.1.3 ENGLISH LANGUAGE
COURSES
Programme Description

The Centre for Continuing Education,
in conjunction with Concordia University's
TESL Centre has designed an expanded
programme of English instruction to meet
the needs of adult students seeking lan-
guage training for professional, social and
academic purposes.

The basic aims of the programme are to
provide (a) training in the four basic lan-
In order to accomplish these goals, the programme has been divided into six independent levels. In this way, a beginner may steadily progress to an advanced level of fluency in English, while a student with some knowledge of the language may enter the programme at any suitable point.

The emphasis of these courses is on the spoken aspects of the English language, conversational situations, guided discussions, reading, written construction and composition.

Classes are purposely limited to 18 students to ensure maximum student/instructor contact.

The programme is staffed by qualified, experienced university level teachers of English as a second language.

Methods

At each level, the most modern language development techniques are used—techniques which help the student to develop meaningful communication through situations taken from everyday life.

Language Laboratory

At each level, laboratory exercises are integrated into classroom work. Students will be provided with intensive listening and repetition exercises which are directed towards the improvement and development of automatic responses and fluency in English.

131.1.4 FRENCH LANGUAGE COURSES

The Centre for Continuing Education, in consultation with Concordia University’s French Departments has designed the following courses:

Elementary French — Level I

Audio-visual French Course

This course is intended to develop language skills at a time in which second language communication is of prime importance. This course allows a careful progression in the presentation and acquisition of linguistic elements and the extensive use of audio-visual techniques appropriate to the television media.

Intermediate Oral French — Level II

A conversational approach to everyday modern French through active student participation. Included in this course are discussions of contemporary topics based on texts and other media, designed to promote fluency in spoken French and to review essential grammar.

Advanced Oral French — Level III

The same type of training as Level II but at a more advanced level.

Placement Tests

A placement test will be administered to ensure that each participant will be placed at the proper level in order to gain maximum benefit from the course.

131.1.5 CONTINUING EDUCATION MUSIC PROGRAMME

Offering the professional musician, the amateur, the beginner, the child an opportunity for private instrumental, vocal or theoretical study on a credit or non-credit basis, the programme also allows for shared or group lessons. A number of introductory courses as well as very specific courses not covered by the degree programme are offered in October and January. These concentrate on practical disciplines within the musical matrix, including both Western and non-Western musics.

131.1.6 CONTINUING EDUCATION VISUAL ARTS PROGRAMME

Among the many offerings in the Visual Arts programme are: Printmaking, Drawing, Painting, Photography and Jewelry and Metalcraft.

131.1.7 OTHER COURSES

The Centre will continue to endeavour to provide worthwhile courses to the community at large and invites suggestions for course offerings from citizens.

Although courses may begin at any time, most programmes are scheduled to start in late September and late January. Some courses are offered in May and June and others are offered during the summer months.
141 Programmes of Particular Interest to Teachers
141.1 Introduction

Included in this section is a list of programmes which may be of particular interest to teachers some of which fall outside the offerings of the Department of Education of Concordia University. There are also numerous specific courses which may be of interest to teachers. Potential students are advised to consult each Department.

Continuing Education at 879-8402 is prepared to offer courses off-campus from this section wherever there is sufficient demand, provided suitable lecturers are available.

Teachers who have had problems obtaining scholarships from the Quebec Government for university level courses successfully completed at Concordia University should contact their local Teacher's Association. In the event that further information is required the coordinator of teacher training and certification should be contacted at 879-8402.

141.2 Specific Programmes for the Teaching Sector

(a) Certificate Programmes
(1) Certificate in the Teaching of English as a Second Language, Elementary Option, Secondary Option (30 credits) See §41.6.3
(2) Certificat d'enseignement de l'anglais langue seconde au niveau élémentaire (programme intensif de perfectionnement) (30 credits) See §41.6.2
(3) Certificate in Education (for Practising Teachers) (30 credits) See §41.16.2
(4) Certificate in Mathematics for Teachers (Elementary School Level). (30 credits) See §91.11.2
(5) Certificate in Mathematics for Teachers (Junior Secondary School Level). (30 credits) See §91.11.3

NOTE: A certificate programme is one in which the courses offered are at the Bachelor level.

(b) Bachelor Degrees
(1) Bachelor of Arts (major in Early Childhood Education). (90 credits) See §41.16.1
(2) Bachelor of Education (English as a Second Language). (90 credits) See §41.6.1

(c) Diploma Programmes
(1) Diploma in Early Childhood Education (33 credits) See Diploma Programmes, Graduate Calendar
(2) Diploma in Instructional Technology (33 credits) See Diploma Programmes, Graduate Calendar
(3) Diploma in Institutional Administration (33 credits) See Diploma Programmes, Graduate Calendar
(4) Diploma in the Teaching of Mathematics (33 credits) See Diploma Programmes, Graduate Calendar
(5) Diploma in Art Education (33 credits) See Diploma Programmes, Graduate Calendar
(6) Diploma in Ethics (33 credits) See Diploma Programmes, Graduate Calendar.

NOTE: A Diploma programme is one in which the courses offered are at a level between the Bachelor's and Master's degree.

(d) Master's Degree Programmes
(1) Master in the Teaching of Mathematics (M.T.M) (45 credits) See Graduate Programmes, etc., Graduate Calendar
(2) Master of Science in Biology Teaching Option (45 credits) See Graduate Programmes, Graduate Calendar
(3) Master of Science in Chemistry (Teaching Option) (45 credits) See Graduate Programmes, Graduate Calendar
(4) Master of Science in Physics (Option B) (45 credits) See Graduate Programmes, Graduate Calendar
(5) Master of Arts in Art Education (45 credits) See Graduate Programmes, Graduate Calendar
(6) Master of Fine Arts (90 credits) See Graduate Programmes, Graduate Calendar
(7) Master of Arts in Educational Studies (45 credits) See Graduate Programmes, Graduate Calendar
(8) Master of Arts in Educational Technology (90 credits) See Graduate Programmes, Graduate Calendar
200 Equivalents
# Sir George Williams Faculty of Arts Equivalents Index

## NOTE A
The use of this note after certain course descriptions indicates that there exists an equivalent course and that students who have the equivalent course may not take the listed course for credits. To find out the equivalents to the listed course, refer to the index below.

## NOTE B
The use of this note after certain language course descriptions indicates that students for whom this is their mother tongue or whose schooling has been conducted in this language will not be admitted to this course.

## NOTE C
The use of this note after certain course descriptions indicates that with the permission of the Department, a student may take the listed course twice for credits, provided that a different subject is dealt with the second time.

### 200.2 Faculty of Commerce and Administration Equivalents Index

**NOTE A** The use of this note after certain course descriptions indicates that there exists an equivalent course and that students who have the equivalent course may not take the listed course for credits. To find out the equivalents to the listed course refer to the index below.

**NOTE C** The use of this note after certain course descriptions indicates that with the permission of the Department a student may take the listed course twice for credits, provided that a different subject is dealt with the second time.
