# Table of Contents

This is the only official listing of undergraduate courses offered at Concordia University. Please consult the index for a listing of those courses which were offered in the Summer of 1978 only, but are not a part of the continuing corpus of course offerings. Not all courses listed in this Calendar are offered in 1979-80. Students are advised to consult the Registration Handbook, issued at Registration, for a timetable of courses offered.

### Graduate Programmes
- Graduate Programmes
Concordia University is located in downtown and west end Montreal. The name of the university reflects its place within the community; it is drawn from the motto of the City of Montreal, “Concordia Salus”.

The university has strong traditions in part-time undergraduate education. Indeed, more than half its students work full-time during the day.

Concordia’s graduate programmes also place great emphasis on the part-time student.

Founded in 1974 with the merger of Loyola College and Sir George Williams University, the university now offers undergraduate courses in four faculties: Arts & Science, Commerce & Administration, Engineering, and Fine Arts.

The Master’s degrees awarded by the university include the Master of Arts, the Master of Science, the Master of Computer Science, the Master of Engineering, the Master of Engineering in Building, the Master of Fine Arts and the Master of Teaching in Mathematics.

Enrolment in the 1978-79 academic year was:

- Full-time undergraduate

- Part-time undergraduate

- Full-time graduate

- Part-time graduate

- Other (non-degree)

In addition to the programmes described in this calendar and in the Graduate Studies Calendar, the university offers a wide range of summer programmes on both campuses. A separate publication listing summer programmes is published annually.

Art Collection and Galleries

The Concordia University collection of art is housed on both campuses. Portions of the collection are displayed in public areas of the Loyola campus and in the galleries and display areas of the Sir George Williams campus. The collection comprises an extensive survey of modern Canadian paintings, drawings, graphic art, sculpture and minor art.

There are three art galleries: The Weissmann Gallery, Gallery One and Gallery Two, located on the mezzanine floor of the Henry F. Hall Building. There are also open display areas on the same floor. There is a continuous programme of outside exhibitions and shows by students and faculty throughout the academic year. On occasion the galleries are also used for concerts, guest lectures and other cultural events.
Theatre, Music and Arts Studios
The Faculty of Fine Arts operates the Douglass Burns Clarke Theatre located in the Hall Building. It is a modern facility seating 380 people, and is used primarily for dramatic productions and musical performances. The 650-seat F. C. Smith Auditorium, located on the Loyola campus, is used for a wide variety of activities, including cinema, theatre and music performances. On the same campus, the Chameleon Theatre, a flexible teaching theatre facility, serves the theatre students.

Most of the specialized studios and workshops for undergraduate students are in the Hall Building or in the surrounding downtown area. The graduate studios are located in a separate downtown building.

Music students use ensemble rooms in the Refectory Building on the Loyola campus where a number of practice studios of various sizes are maintained. Performances are held in the large ensemble rooms and, occasionally, in the Chapel or in the D. B. Clarke Theatre.

Audio-visual Facilities
The Audio-visual Department arranges access to such resources as television and sound studios, language laboratories, distribution centres for equipment and supplies, units for the production of materials in film, graphics, photography, TV and audio, and a visual media service specializing in the research and procurement of films and videotapes.

Film Presentations
The university shows films in cinema halls on both campuses. At Sir George Williams, the Conservatory of Cinematographic Art, established in 1968, houses an important collection of films of historical and cultural value. It organizes annually a series of film festivals which often involve appearances by important figures from the film world.

Libraries
The Concordia University Libraries contain approximately 800,000 items, which increase at an average rate of 65,000 items per year. There are two libraries on each campus and students may use facilities on both campuses. The annual Library Owner's Manual contains information on resources and services offered by the Concordia Libraries.

The Norris Library on the Sir George Williams campus contains books, microfilms, periodicals, and non-print materials for students in all areas except those in science and technology. The Science and Engineering Library, in the Hall Building on the same campus, contains materials concerned with the pure and applied sciences. The Sir George Williams campus libraries have been designated a full depository for publications of the Canadian federal and Quebec governments, and also receive selected documents from a number of other provinces and countries.

The Georges P. Vanier Library and the Drummond Science Library are located on the Loyola campus. Resources include books, selected government documents of Quebec, Canada and other countries; films and other non-print materials, microforms and periodicals.

Laboratories
The University has 100 laboratories on both campuses with modern equipment for teaching and research in Biology, Chemistry, Physics, Engineering, Statistics, Psychology, Geography, Languages and Communication Studies.
Sports Facilities

The university offers extensive programmes for participation in intramural and intercollegiate sports. Facilities used include several full-length playing fields, and a fully-equipped physical education centre on the Loyola Campus. The centre contains a gymnasium and an ice arena as well as training and rehabilitation areas, an activities room, a combatives room for individual contact sports and a weight-training room.
Sir George Williams Campus
Loyola Campus
11 Academic Calendar
The Academic Calendar is subject to change without notice. Effort will be made to publicize revisions.

Regular Session — 1979/1980

1979

**MARCH**
- Thursday, March 1: Last day for applications Full Time Day Regular Session (1979/80). Course selection (Pre-Registration) begins. Specific dates for each faculty to be published at a later date.
- Tuesday, March 6: Deadline for applying for late completion of courses ending in December 1978.

**APRIL**
- Monday, April 2: Last day for submission of late completion work for courses ending in December 1978.

**JUNE**
- To Be Announced: Spring Convocations.
- Thursday, June 14: Last day for submission of Pre-Registration forms — Regular Session (1979/80).
- Friday, June 15: Last day for special and supplemental examinations applications for courses taken during the Regular Session 1978/79.

**JULY**

**AUGUST**
- Wednesday, August 1: Last day for submission of late completion work for courses ending in April 1979.
- Wednesday, August 8: Special and supplemental examinations end — Regular Session (1978/79).
- Tuesday, August 21: Registration for Pre-Registered students begins.
- Wednesday, August 22: Registration for Pre-Registered students ends.
- Monday, August 27: General Registration begins (specific dates to be published in the timetables).

**SEPTEMBER**
- Monday, September 3: Labour Day.
- Tuesday, September 4: General Registration ends.
- Thursday, September 6: Classes begin — Day and Evening Regular Session — Course change period begins.

**SEPTEMBER**
- Wednesday, September 19: Course change period ends.

**OCTOBER**
- Monday, October 1: Last day for applications — Special and supplemental examinations for Summer Session. (1979)
- Wednesday, October 3: Deadline for late completion applications for Summer Session courses.
- Monday, October 8: Thanksgiving Day — No classes. (see Dec. 6th)
- Saturday, October 27: Special and supplemental examinations — Summer Session. (1979)
| NOVEMBER       | Thursday, November 1 | Last day for academic withdrawal from Fall Term courses.  
                |                   | Late completion work for Summer courses must be submitted.  
                | To Be Announced   | Fall Convocation.  
                | DECEMBER         | Wednesday, December 5 | Last day for classes — First Term.  
                | Thursday, December 6 | Make-up day for all classes scheduled on October 8th (Thanksgiving).  
                | Friday, December 7 | Examinations begin.  
                | Friday, December 21 | Examinations end.  

1980

| JANUARY       | Thursday, January 3 | Registration and course change period begins for courses offered only in the Winter Term.  
                | Monday, January 7  | Classes begin — Winter Term.  
                | Friday, January 18 | Course change period ends.  
                | FEBRUARY         | Friday, February 1 | Last day for applications for Fall Term supplemental and special examinations — Graduating Students.  
                | Saturday, February 23 | Fall Term supplementals and special examinations — Graduating Students.  
                | Monday, February 25 | Reading Day. No classes.  
                | Tuesday, February 26 | Reading Day. No classes.  
                | Friday, February 29 | Last day for academic withdrawal from two term courses and Winter term courses.  
                | APRIL           | Friday, April 4   | Good Friday — University closed.  
                | Monday, April 7  | Easter Monday — University closed.  
                | Tuesday, April 8 | Last day for classes.  
                | Saturday, April 12 | Examinations begin.  
                | Tuesday, April 29 | Examinations end.  
                | JUNE            | To Be Announced   | Spring Convocations. (Between June 1 to June 8).  

NOTE: For the information of instructors planning assignment deadlines, class tests, etc., and for persons scheduling meetings, the dates of the major Jewish Holy Days for 1979-80 are set out below:

- **Rosh Hashana**
  - Saturday, September 22 and Sunday, September 23, 1979

- **Yom Kippur**
  - Monday, October 1, 1979

- **Sukkoth**
  - Saturday, October 6, and Sunday, October 7, 1979 — Saturday, October 13 and Sunday, October 14, 1979

- **Passover**
  - Tuesday, April 1 and Wednesday, April 2, 1979 — Tuesday, April 7 and Wednesday, April 8, 1980

Observance of the Holy Day commences on the preceding evening at Sunset.
Ten Week Summer Session — 1979 (Day and Evening Classes)

**MAY**
- Wednesday, May 2: Registration begins.
- Friday, May 4: Registration ends.
- Monday, May 7: Classes begin.

**JULY**
- Tuesday, July 10 to Monday, July 16: Classes end within these six days.

Six Week Summer Session — 1979 (Day Classes Only)

**JULY**
- Tuesday, July 3: Classes begin.

**AUGUST**
- Friday, August 10: Classes end.

**NOTE:** This session is a concentrated six-week package that includes all class work and examinations within the six-week period.

Special Day Timetable for the Faculty of Engineering — 1979

Students who were admitted to the Faculty of Engineering in January 1979 are scheduled to complete the first year of their programme as follows:

**MAY**
- Monday, May 7: Classes begin.

**AUGUST**
- Friday, August 10: Classes end.
- Monday, August 13: Examinations begin.
- Wednesday, August 15: Examinations end.

**NOTE:** These classes are for students who registered only as January Entrants. There is no registration into this programme on May 7.

12.1.4 COUNCIL OF THE FACULTY OF COMMERCE AND ADMINISTRATION

P. Simon, Chairman
P. Pasold, Secretary
V. Baba
B. Barbieri
J. Bordian
G. Brink
G. R. Curnew
J. Democko
D. Doreen
E. Douglas
J. Goodwin
H. Gram
M. Jamal
G. Johns
V. Karpalani
M. Kusy
H. Lieberman
D. MacDonald
L. McGown
J. W. O'Brien, Rector

12.1.5 COUNCIL OF THE FACULTY OF ENGINEERING

M. N. S. Swamy, Chairman
J. C. Giguere, Secretary
K. Adams
A. Antoniou
V. K. Bhargava
J. Bordian
M. M. Douglass
P. Fazio
P. E. Filion
R. Guy
H. K. Ha
W. G. Habashi
H. S. Heaps

12.1.6 COUNCIL OF THE FACULTY OF FINE ARTS

A. Pinsky, Chairman
K. Adams
J. Bordian
E. F. Cooke
F. Filion
S. Friedland

S. Mullett
G. Newsham
J. W. O'Brien, Rector
B. Petrie
J. Princz
J. Robertson
S. Sahni
N. Segalowitz
J. Smucker
A. Sylvain
R. Tittler
J. Tresierra
G. Trudel

P. Pitsiladis
G. C. Potter
K. Pradhan
A. Riding
H. Ripstein
C. Sandblom
F. Sbrocchi
B. Smart, Registrar's Representative
H. Tutsch
R. O. Wills

4 Day Student Representatives (to be announced)
2 Evening Student Representatives (to be announced)
2 Graduate Student Representatives (to be announced)
2 Economics Department Representatives (to be announced)
1 Library Representative (to be announced)

G. W. Joly
K. I. Krakow
J. Krantzberg
S. J. Kubina
J. F. Lindsay
M. S. Nasser
J. W. O'Brien, Rector
M. O. M. Osman
A. D. Russell
T. S. Sankar
M. S. Triotsky
M. Vidyasagar
G. D. Xistris

5 Students to be elected.
2 part-time instructors (to be announced)
one from the Division of Visual Arts
one from the Division of Performing Arts

12.1.7 CONCORDIA COUNCIL ON
STUDENT LIFE (1978/79)

F. W. Bedford, 
Chairman
N. Cooper,
Secretary
R. Allison
B. Counihan
F. Denton
M. Eberlin
O. El-Awadi
E. Enos
M. Eson
M. Flynn
R. Gaudet, S. J.
W. Gilsdorf
D. Inisleay
J. James
A. Lajoie
B. Litner

J. Macaluso
A. Mannessy
N. Marrelli
F. Morris
W. Muloin
R. E. O'Connor
B. Philip
J. Richardson
A. Riding
J. A. Sproule
R. Wills

1 additional member of Loyola Students Association (to be announced)

4 student members (to be announced)
one full-time student from the Division of Visual Arts
one full-time student from the Division of Performing Arts
one part-time student from the Division of Visual Arts
one part-time student from the Division of Performing Arts
1 student from the Division of Graduate Studies

12.1.8 OFFICERS OF THE
ADMINISTRATION

RECTOR AND VICE-CHANCELLOR: John W. O'Brien, PhD, DCL, LLD
ASSOCIATE VICE-RECTOR, ACADEMIC: J. H. Whitelaw, MA
EXECUTIVE ASSISTANT TO THE RECTOR: F. Michael Sheldon, MA
SECRETARY, BOARD OF GOVERNORS: R. P. Duder, MA, DLitt
SECRETARY, SENATE: John Noonan, BSc
UNIVERSITY DEVELOPMENT OFFICER: Howard Radford

VICE-RECTOR ACADEMIC: Jack Bordan, MSCEng
ASSOCIATE VICE-RECTOR, RESEARCH: Michael Despland, ThD
DEAN, COMMERCE & ADMINISTRATION: Pierre Simon, PhD
ASSISTANT DEAN: A. Riding, MEng, MBA
ASSISTANT DEAN: D. F. MacDonald, BCom, CA
ASSISTANT DEAN: H. S. Tutsch, LL.D
ASSISTANT DEAN: R. O. Willis, BSc, MBA
DEAN, ENGINEERING: M. N. S. Swamy, PhD
ASSISTANT DEAN: J. F. Lindsay, PhD
ASSISTANT DEAN: J. C. Giguere, PhD
ASSISTANT DEAN: S. D. Xistris, MEng
DEAN, FINE ARTS: A. Pinsky
ASSOCIATE DEAN: E. F. Cooke, MFA

VICE-RECTOR, ACADEMIC: Russell Breen, PhD
DEAN, ARTS & SCIENCE, DIVISION I: W. E. Akin, PhD
ASSOCIATE DEAN: D. B. McKeen, PhD
DEAN, ARTS & SCIENCE, DIVISION II: J. Chaikelson, PhD
ASSOCIATE DEAN: R. Coyte, MA
DEAN, ARTS & SCIENCE, DIVISION III: M. Cohen, PhD
ASSOCIATE DEAN: R. H. Pallen, PhD
PROVOST, ARTS & SCIENCE, DIVISION IV: R. E. Wall, PhD
ASSISTANT PROVOST: M. Singer, MA
ASSISTANT DEANS, ARTS & SCIENCE, DIVISIONS I-IV:
L. S. Adler, MA
T. J. Adley, PhD
DIRECTOR, CONTINUING EDUCATION:
Douglas Potvin, BA, EdD

VICE-RECTOR, ADMINISTRATION & FINANCE: Graham Martin, MSc (Eng)
12.1.9 FACULTY FULL TIME

ACHESON, P., BA Lond., MS PhD Indiana, Assistant Professor of Applied Linguistics
ADAMS, G., BA MA Tor., PhD Chic., Assoc. Professor of History
ADAMSON, A. H., BA Univ. of Montreal, PhD Lond., Professor of History
ADLER, L. S., BA SGW., MA McG., Assoc. Professor of Mathematics

13.12 THE PROCESS OF ADMISSION
13.1 Admission to Concordia University

Concordia University has one admission policy and provides admission facilities on the Loyola and Sir George Williams Campuses for the applicants’ convenience. Candidates apply to their preferred Faculty and Campus by submitting the application forms and all pertinent documents to the appropriate Admissions Office. Applicants wishing to change their Faculty or Campus do not file another application; they contact the Admissions Office to make their request. In the few programmes where quotas limit enrolment, qualified applicants who have not been approved for their preferred programme will automatically be considered for their second choice. If because of limited space, a change of Faculty or Campus is involved, the application will be transferred accordingly and the candidate notified. Applications and information regarding admission requirements may be obtained by contacting the Admissions Office.

13.2 Classification of Students

1) Undergraduate Students: Undergraduate students are those who meet the full admission requirements of the University and who have been formally accepted for admission to a Faculty of the University. These students enrol for either day or evening courses with the intention of completing the work required for a degree. Those admitted to degree programmes will be classified as undergraduate students whether they take several subjects or only one in any given year.

2) Mature Students: Mature students are those who are twenty-one years of age, or older, who do not possess the minimum academic requirements for admission to undergraduate studies, but who have been formally admitted to a programme of study leading to an undergraduate degree, on the basis of potential to undertake such studies. (Refer to section 13.8 for additional information.)

#### DEGREES OFFERED

- Bachelor of Arts (B.A.)
- Bachelor of Administration (B.Admin.)
- Bachelor of Commerce (B.Comm.)
- Bachelor of Computer Science (B.Comp.Sc.)
- Bachelor of Education (B.Ed.) — Teaching English as a Second Language
- Bachelor of Engineering (B.Eng.)
- Bachelor of Fine Arts (B.F.A.)
- Bachelor of Science (B.Sc.)

### 13.4 Admission Requirements

#### 13.4.1 QUEBEC

1. Successful completion of a two-year pre-university programme in a CEGEP, with the award of a Diploma of Collegial Studies or its equivalent, satisfies the requirements for admission to the 90-credit undergraduate programme. Graduates of three-year technological programmes in CEGEP are also admissible to the University. Specific courses required for entry to the undergraduate programme must be successfully completed within the student's general CEGEP programme. These pre-university "profiles", established through joint action of the Quebec Universities and the Department of Education of the Province, will be found in the Department of Education booklet: "Accueil 79 — Structures d'accueil aux études universitaires de premier cycle pour septembre 1979." In certain cases a student is allowed to enter a different stream at the undergraduate level but must complete, when required, prerequisite courses in addition to his regular programme. For the convenience of applicants, requirements are listed in each Faculty section of the Undergraduate Calendar.
13.4.2 OTHER CANADIAN PROVINCES
Non-Quebec applicants may be consid­
ered for admission to the 90-credit pro­
gramme or an extended credit under­
graduate programme. The duration of the pro­
gramme will be determined by the entrance qualifications. The extended undergraduate programme normally requires an additional 30 credits.

Applicants from other Canadian Provinces who have completed Grade 12 with an overall average of at least 65% in appropri­ate subjects or the Junior Division at Memo­rial University, Newfoundland, will be consid­ered for entrance into an extended under­graduate programme. Ontario Grade 13 graduates with a minimum overall average of 65% in appropriate courses may be admitted into a 90-credit programme. Those applying from Grade 13 to Engineering or Computer Science (Digital Systems, General Science, or Mathematics options) will, in general, require four years to obtain the degree.

While the university is flexible regarding entrance papers and no set pattern of high school courses is required, the courses pre­
sented should be appropriate for the Faculty to which application has been made.

13.4.3 TRANSFERS FROM POST-SECONDARY INSTITUTIONS
Applicants transferring from other accred­
itied universit ies will be considered for an appropri­ate level of placement within the undergraduate programme at this University. For example, one year of undergraduate study following Grade 12 will normally qualify an applicant for entrance to the first year of the 90-credit degree programme. One year of study completed in an Ontario university following Grade 13 will, in general, qualify an applicant for admission to the second year of the 90-credit programme. This is, of course, contingent upon the previous work being appropriate to the programme of study at this university. There are some special condi­
tions attached to the granting of transfer credit.

The number of credits awarded depends on the character, quality and quantity of the work completed. An applicant who has at­
tended another university and wishes to transfer to the undergraduate programme at Concordia should understand the following conditions:

1) A student will not be given credit for courses taken in another university during the same academic term in which he has registered for courses at Concordia Uni­

versity, unless special permission has been obtained in advance from this Uni­
versity. The Admissions Office should be contacted for correct procedure.

2) Any currently registered student who wishes to take courses in another univer­

sity during a different academic term, for example, the Summer, must also get approval prior to taking courses. The Admissions Office should be contacted for correct procedure.

3) A student may not apply transfer credits towards the residence years at the Uni­

versity unless special permission has been obtained from the appropriate Facu­

lity Council.

Students transferring from Provincial Ju­

nior Colleges, Community Colleges and Col­

leges of Applied Arts and Technology will, in

general, be given the same recognition to­

wards undergraduate programmes as is found in their own province.

13.4.4 CROSS-REGISTRATION
Concordia University, McGill University, Université de Montréal and Université du Québec à Montréal have agreed to permit transfer of academic credit and course fees between Montreal universities up to a maxi­

mum of 6 credits in any one year. (Similar arrangements can be made with other Que­

bec universities.) In exceptional cases, a student may be authorized to take up to 12 credits at another university. The agreement is intended to include only those courses not given at the home university which fit a student's program requirements. Authorization for an undergraduate student to cross­

register must be given by the student's academic adviser, the Assistant Dean for Student Affairs, and the Registrar. The ar­

rangement allows for payment to be made by Concordia to the "host" university if the student has paid tuition fees in full to Con­

cordia University.

This agreement in no way interferes with the host university's right to accept or refuse, as it sees fit, registration of a student from another university in any of the courses or programs which it offers. Further, when at­

tending the host university, the student is subject to its regulations.

13.5 Application For Admission

It is recommended that application for admission be made as early as possible on forms provided by the Admissions Office. Academic certificates and other supporting documents not available at the time of appli­
cation must be submitted as soon as they become available. Applicants are advised to apply early in order to allow sufficient time for evaluation and review of their application by the Admissions Office. Final dates for the receipt of applications may be obtained by contacting the Admissions Office.

13.5.1 APPLICATION FEE
There is an application fee of $15.00 for those who are not Canadian citizens or Permanent Residents. This fee will be applied toward the tuition fees if the student registers at Concordia University.

13.5.2 ENTRY DATES
Students are admitted as full-time or part­
time undergraduates in September, January and the Summer session. In some cases, entry in January may be contingent upon following courses during the subsequent Summer Session.
13.5.3 JANUARY ADMISSION
Concordia University admits new students in January wherever possible. This entry date has been introduced primarily to accommodate the College of General and Professional Education (CEGEP) December graduates but other categories of students may also apply for admission.

The course load for the Winter Term (January to April) equals half of the normal load followed during the regular academic year. Students may utilize summer courses to accelerate their programme. In some programmes, entry in January may be contingent upon the student following courses during the subsequent Summer Session.

13.5.4 ADMISSION DEPOSIT
Each applicant who has been granted admission as a full-time student is required to submit a cheque or money order of $25.00 (Canadian) to confirm his intention of entering the University. This admission deposit is non-refundable, but will be applied towards tuition fees at this University.

Students who receive an early conditional acceptance but who do not successfully complete the minimum academic requirements for entrance, and are subsequently refused admission, will have their admission deposit refunded.

13.6 Criteria for Admission

13.6.1 TRANSCRIPTS
Two copies of each transcript, in English or French, must be forwarded directly to the appropriate Admissions Office from the Guidance Counselor, Principal, or Registrar of the student’s former institution.

The results of the previous semesters together with a list of courses being followed during the final semester must be submitted immediately. A final transcript showing the results of the final semester must also be forwarded as soon as possible.

Although an applicant’s records from several universities may be summarized on one transcript, an application will not be considered until two official transcripts from each institution attended have been received.

These are required even though no credit may have been earned.

13.6.2 ENGLISH LANGUAGE PROFICIENCY

The language of instruction at Concordia University is English.

Although the educational systems of many countries conduct their schooling mainly in English, the University reserves the right to require any applicant to demonstrate proficiency in the English language as a criterion for admission to the University.

For those applicants who are required to demonstrate their language proficiency, there are three possible methods of doing so:

1) **Test of English as a Foreign Language (TOEFL)**
   - This test is administered at centres in most countries of the world. It is the responsibility of the applicant to write directly to the address listed below for necessary application forms and information.
   - Test of English as a Foreign Language Educational Testing Service
   - Box 899
   - Princeton, New Jersey 08540, U.S.A.

2) **The University of Michigan English Language Test**
   - This test is administered on an individual basis to applicants in most countries of the world. It is the responsibility of the applicant to write directly to the address listed below for necessary application forms and information.
   - English Language Institute
   - Testing and Certification
   - The University of Michigan
   - 20118 North University Bldg.
   - Ann Arbor, Michigan 48109, U.S.A.

   **Reporting of TOEFL and University of Michigan Test Results**
   - a. The results must be reported directly to the Admissions Office by the TOEFL or University of Michigan Test Centre. Candidate copies of results or results that are more than two years old will not be acceptable as proof of language proficiency.
   - b. Inasmuch as an application will not be considered before the test results have been received, applicants should contact the TOEFL or University of Michigan Test Centres as soon as possible in order that the date of receipt of test results does not delay or prevent consideration of their application.

   The aforementioned tests are designed for applicants residing outside Montreal.

3) **Concordia English Language Diagnostic Test**
   - (available only to applicants applying from within the Montreal area)
   - a. Persons applying from within the Montreal area who are required to write an English language test will automatically be scheduled to sit the Concordia English Language Diagnostic Test upon making application to the University.
   - b. An application will not be considered complete until these test results are received.
   - c. Canadian applicants whose first language is French are not required to write this test but may do so for placement.
13.7 Selection Process and Notification

The University reserves the right to refuse admission to any programme even when the stated requirements for entrance have been satisfied.

Admission to undergraduate studies is based on a careful review of all credentials presented on behalf of a candidate. An application for admission is not given final consideration until all the required items have been submitted. However, the University does have an early conditional admission plan for applicants to the undergraduate programme.

13.7.1 EARLY CONDITIONAL ADMISSION

Applicants seeking admission to the undergraduate programme may be granted a conditional acceptance on the basis of former records of study which should include mid-year results for the current year. Acceptance is contingent upon the student’s successful completion of the final semester of study and upon meeting the prescribed academic admission requirements. Candidates admitted on the basis of early conditional admission are, in general, notified prior to May 15.

13.7.2 LIMITED ENROLMENT

In some programmes the number of qualified applicants may exceed the number of places available. The possession of the minimum requirements does not in itself guarantee admission to any of the programmes.

13.8 Mature Students

Admission to the first year of an undergraduate programme of a minimum of 120 credits may be granted to mature applicants. Mature students may enrol as either full-time or part-time students. A Mature Applicant is defined as a candidate for admission who:

a) does not satisfy the normal academic requirements for admission, but who seeks admission on the basis of potential to undertake an undergraduate programme.

b) will be at least twenty-one years of age within the calendar year in which the programme is entered.

c) either has been out of school for twenty-four months since the age of eighteen, or has been out of school for twelve months with no unfavourable academic record in the past twenty-four months.

Out of school should be interpreted as being away from full-time study in an educational institution.

Mature students, who are twenty-five years of age or older within the calendar year in which they commence the programme, may enter a 108-credit undergraduate programme in the Faculties of Arts and Science (B.A.), Fine Arts, and Commerce and Administration. Those entering the Faculties of Arts and Science (B.Sc.) and Engineering will have their requirements determined in consultation with an adviser.

Students will not normally be accepted into a field of course concentration until they have successfully completed 30 credits in the programme. Courses which have been taken as part of these 30 credits and which are required courses in a given undergraduate programme will be replaced by electives within the discipline or field.

Each application will be considered on its own merit. A birth certificate or other acceptable proof of age must be submitted together with all former records of study and any other documentation which may demonstrate potential to undertake undergraduate work.

13.9 Admission as a Special Student

Special students register with the same credit priority as degree students; they are charged the same tuition fees as degree students.

Students falling into one of the following classifications may be considered for Special student status as opposed to Independent status. The documentation indicated below must be presented both when obtaining a registration appointment card and at registration. Special students do not apply for this status through the Admissions Office; they become Special students by qualifying under one of the following categories at registration.

1) Students currently registered in certain external certificate programmes taking courses in the Faculty of Commerce and Administration. Eligibility: Presentation of proof of membership.

2) Undergraduate students from other universities who have written approval from their home university to take courses at Concordia University. Eligibility: a letter from the Registrar of the home university.

3) Students qualifying for entry to an external institution (e.g. graduate student at another university). Eligibility: a letter from the Registrar of the external institution or a letter from the appropriate Admissions Office of Concordia University.

4) Students pursuing further studies who have completed at least a Bachelor's degree whether at Concordia University or at another institution. Eligibility: a transcript of grades or a copy of the diploma. The transcript must be shown at registration to prove completion of any prerequisite courses.

5) Students whose applications are presently with the Admissions Office and have been advised to register as Special students. Eligibility: a letter from the appropriate Admissions Office.
13.10 Admission as an Independent Student

Those who satisfy the University admission requirements regardless of their age are eligible to register as independent students. University entrance requirements are expected, but may be waived, for Independent students who will be at least twenty-one years of age in the calendar year in which they register and who have, through other experiences, the essential background for the course or courses. Nevertheless, the University reserves the right of decision as to the independent student's eligibility and, in certain cases, the right to ask for proof of appropriate University entrance requirements.

Independent students following single courses of interest should note that priority in registration will be given to students proceeding to a certificate or degree. Students should contact the Admissions Office for the proper procedure to follow.

13.11 Information of Special Interest To International Students

13.11.1 APPLICATION FEE

International Students must include a $15.00 (Canadian) application fee. This fee will be applied towards a student's tuition fees if he/she registers for courses at the University.

13.11.2 STUDENT AUTHORIZATION

The new Canadian Immigration regulations require that an international student obtain a student authorization (previously: student visa) before arriving at the Canadian port of entry. Such an authorization will not be issued at the port of entry or to foreign visitors who are already in the country. The authorization will be specific with regard to both institution and programme.

In addition, all students in possession of a letter of admission issued by any Quebec educational institution on or after June 5, 1978 are required to present to the Canadian Immigration an additional document issued by the Quebec Department of Immigration (MOG) and entitled "Certificat d'acceptation." A Quebec-bound student will not be issued a Student Authorization unless he or she is in possession of the Certificate or other document indicating approval from the Quebec Department of Immigration. The student copy of the Certificate should be retained by the student.

13.11.3 UNITED KINGDOM AND COMMONWEALTH

1) 90-Credit Programme.

In order to be considered for admission into a 90 credit undergraduate programme, applicants must present five General Certificates of Education papers including at least two at the Advanced Level. Those wishing to enter the Faculty of Engineering or Bachelor of Computer Science (General Science, Digital Systems, or Mathematics option) must offer Advanced Level passes in Mathematics and Physics. Applicants to Division III (Natural Sciences) of the Faculty of Arts and Science are normally expected to have Advanced Level passes in Mathematics and one Science. Candidates for admission to the Faculty of Commerce and Administration or the Bachelor of Computer Science (General Business Option) should include an Advanced Level paper in Mathematics. Any two acceptable Advanced Level papers will satisfy the requirements for admission to Division I (Humanities) and Division II (Social Sciences) of the Faculty of Arts and Science or the Faculty of Fine Arts.

Ordinary and Higher National Certificates and Diplomas with passes at an appropriate level may be accepted in lieu of Advanced Level passes.

2) Extended Credit Programme.

Students accepted into the Extended Credit Programme must normally complete an additional 30 credits.

Students with better than average results in five acceptable Ordinary Level papers (or the West African School Certificate, where applicable) plus one full year of formal schooling beyond Ordinary Level may be considered for admission to an extended undergraduate programme.

Applicants from Hong Kong who have received the Hong Kong Certificate of Education (English) with good grades in five subjects and have completed one year of Form VI or hold the Hong Kong Certificate of Education (Chinese) with good grades in five subjects, and have passed the Chinese University of Hong Kong Matriculation Examination, may apply for admission to an extended undergraduate programme.

Applicants to an extended undergraduate programme in Engineering or Science are normally expected to have Mathematics and at least one Science subject; those applying to Commerce and Administration are advised to have Mathematics as part of their entrance qualifications.

13.11.4 UNITED STATES

High School graduates with high standards from accredited schools who have followed an academic programme designed for university entrance may apply for admission to an extended undergraduate programme of approximately 120 credits. Applicants are required to have a better than average school record and a high ranking in their graduating class. While no set pattern of courses in high school is required, all applicants are expected to have taken four units of English. Those applying for admission to Science and Engineering must include three or four units in Mathematics and two in the Sciences. At least three units of Mathematics are recommended for admission to Commerce and Administration. The Admissions Office may approve slight deviations from the above pattern.

Students who have successfully passed Advanced Placement examinations in appropriate subjects with a grade of '3' or better may be granted some advanced standing.
13.11.5 TRANSFERS FROM POST-SECONDARY INSTITUTIONS

Please refer to Section 13.4.3

13.11.6 OTHER COUNTRIES

The following national certificates are recognized as suitable qualifications for making application to the University provided that better than average grades have been attained. In most cases, a specific minimum overall standard on the certificate is required. More specific information with respect to admission requirements and placement levels may be obtained by writing to the Admissions Office.

Students accepted in an extended undergraduate programme must normally complete an additional 30 credits.

13.11.7 ENGLISH LANGUAGE REQUIREMENT

The language of instruction at Concordia University is English. For information regarding this requirement please refer to Section 13.6.2.

13.11.8 TUITION FEES FOR INTERNATIONAL STUDENTS

International students first registering at Concordia University in September 1978 or later will be required to pay $50.00 (Canadian) per credit. These tuition fees will, in general, amount to $750.00 per session (for example, $1,500.00 for the two sessions from September 1978 to April 1979) for all programmes. Student services fees will be assessed in addition. Further information regarding fees can be found in Section 15 of this calendar.

13.11.9 CRITERIA FOR ADMISSION

Admission to Concordia University is selective and will be considered when all relevant academic certificates have been received, as well as the Summary of Educational Experience by Years form. All certificates must show the actual grade obtained in each examination. Refer to Section 13.6 for further information.

13.11.10 REGISTRATION

Registration for the September and January terms normally takes place in late August and mid-December respectively. Late registration is permitted during the course change period which normally is held during the first two weeks of classes. Students are encouraged, whenever possible, to enrol on the dates indicated in their letter of acceptance. Complete information is sent with the letter of acceptance.

13.11.11 STUDENT HEALTH & ACCIDENT INSURANCE

International students are not eligible to receive any medical benefits from the Quebec Medicare Programme. To offset medical expenditure, it is necessary to have some form of sickness and accident insurance, and for this reason, a compulsory plan for all entering out-of-country students has been adopted by the University.
13.11.12 FINANCES

It is most important for students to have sufficient financial resources to cover their total expenses during their programme of study. As international students are not allowed to work part or full-time to finance their studies, they must present evidence of sufficient funds for maintenance and tuition before they are admitted to Canada.

13.11.13 FINANCIAL AID

Government financial assistance is not available to students attending college or university while on a student visa, since students are expected to have sufficient funds available to finance their education. University bursaries and scholarships are few in number and of insignificant value, and cannot be counted on in the calculation of finances. Students are encouraged to contact the appropriate Financial Aid Office should they require any further information.

13.12 The Process of Admission

How to Apply

Submit an application for admission to the appropriate Admissions Office as soon as possible.

It is the responsibility of the applicant to ensure that all the supporting documents are submitted as an application cannot be considered for admission until it is complete.

Enclose with your completed application forms all documents that are now available. You should submit copies of your High School Leaving Certificate which must include a certified list of final marks in each subject, if applicable. Readable photocopies are acceptable. Former CEGEP or university transcripts are not to be submitted by you but must be sent directly to the Admissions Office by the Registrar of your previous institution.

Applicants presenting certificates in a language other than English and French:

(1) You are required to submit:
(a) the original certificate or, preferably, notarized photostatic copies of these certificates.
(b) notarized English or French translations of these certificates.

(2) When the certificates do not include the subjects and the grades achieved in the individual subjects, you must submit certified statements from authorized officials of the institutions attended, or submit statutory declarations giving the required information.

14.6 INDEPENDENT COURSE STUDENTS
14.1 Mature Student Programme

General Information

In keeping with the traditional policy of the University towards older students, the Mature Student Programme is designed to enable individuals who are twenty-one years of age or older, and who have not satisfied the normal admission requirements, but have demonstrated potential, to take undergraduate programmes. The University assumes that the age of the students will have allowed them to acquire informally some of the general education given to younger students at the collegial level, and as a result the Mature Student Programme concentrates on the knowledge and skills which will be needed to undertake a given programme of specialization.

Successful completion of a specified number of credits will be required in addition to those required of students entering with a Diploma of Collegial Studies or the equivalent. While they are obtaining these additional credits, mature students are considered in every way to be undergraduates.

20-Five-Year Mature Entry

There is a special Mature Entry Plan for applicants 25 years of age and over, or who reach their twenty-fifth birthday in the calendar year in which they seek to enter the University.

Administrative Structure

For identification purposes within the University, students will be classified in one of the following categories — Pre-Arts, Pre-Commerce and Administration, Pre-Computer Science, Pre-Engineering, Pre-Fine Arts, Pre-Science. There is no separate administrative structure for the Mature Student Programme. Each Faculty is responsible for its students’ programmes.

14.2 Admission to the Mature Student Programme

For detailed information on Admissions, please refer to § 13.

A mature applicant is defined as a candidate for admission who:

a) does not satisfy the normal academic requirements for admission, but who seeks admission on the basis of potential to undertake an undergraduate programme,

b) will be at least twenty-one years of age within the calendar year in which the programme is entered.

c) has either been out of school for twenty-four months since the age of eighteen, or has been out of school for twelve months with no unfavourable academic record in the past twenty-four months. “Out of School” should be interpreted as not being registered for full-time study in an educational institution.

Students will not be accepted into a field of concentration or specialization until they have successfully completed 30 credits. Courses which have been taken as part of these 30 credits and which are required courses in a given degree programme, or specialization within that programme, will be replaced in that programme by electives within the discipline or field.

14.3 Structure of Studies—Mature Student Programme (Under 25 Years of Age)

For students in the Mature Student Programme, the additional credits are either specified as prerequisites, or otherwise determined by each individual Faculty. These additional credits may not be counted towards the student’s eventual programme of specialization. Since a small number of programmes are subject to enrolment restric-
ions, the University cannot guarantee a student acceptance into a given programme of specialization of the student’s choice on completion of the additional credits.

The additional credits will be made up of required courses and electives, these requirements being as follows:

14.3.1 PRE-ARTS

General Requirements:
6 credits in English
24 credits in consultation with the Centre for Mature Students, of which a maximum of 12 credits may be outside the Faculty of Arts and Science.

Specific Requirements:
Certain departments in the Faculty have specific requirements. Students intending to follow programmes of concentration within these departments must include the specified components as part of their Pre-Arts programme.

Geography: 6 credits in Mathematics (Honours or Specialization in Physical Geography)

Mathematics: 9 credits in Mathematics — C2033, C2043, C2053

Psychology: 6 credits in Mathematics
3 credits in Biology
6 credits in Psychology

14.3.2 PRE-SCIENCE

General Requirements:
6 credits in Chemistry: C2053, C2063
9 credits in Mathematics: C2033, C2043, and C2053
8 credits in Physics: C2043, C2053, C2241, and C2251
3-4 credits in Physics C2063 and C2261, or Biology C2013 or Geology N2153 or 201A1

3-4 credits elective**

*Those students intending to enter programmes of concentration in the departments of Biology, Biophysical Education or Psychology should take Biology C2013 as part of their pre-Science programme. Under certain circumstances students may meet the requirements of the Pre-Science programme by completing 29 credits.

**Students not having Math C2013 or the equivalent must take this course in place of the elective credits.

Students must consult with the Centre for Mature Students (Director, Professor B. Opal) before registering for Pre-Science or Pre-Arts courses.

14.3.3 PRE-COMMERCE AND ADMINISTRATION

General Requirements:
12 credits in Mathematics C2083, C2093, C2053, C2063
6 credits in English
6 credits in Humanities or Social Science
6 Elective credits

* Number of credits may change. Please consult Commerce Faculty.

NOTE: Candidates entering Pre-Commerce and Administration without high school Intermediate Mathematics (Functions) must also take Mathematics C2013 (see § 31.22) which will function as a 3-credit elective. Pre-Commerce and Administration students are advised to select Economics C2013 and C2033 (see § 31.11).

MATH C205 — Differential & Integral Calculus II
MATH C206 — Introduction to Linear Algebra
MATH C208 — Fundamental Mathematics I
MATH C209 — Fundamental Mathematics II

14.3.4 PRE-ENGINEERING

General Requirements:
A minimum of 30 credits including:
CHEM C2053
COMP C2113
MATH C2023
MATH C2033
MATH C2043
MATH C2053
PHYS C2043 and PHYS C2241
PHYS C2053 and PHYS C2251

and elective courses chosen from
*PHYS C2063 and C2261
CHEM C2063
BIOL C2013
ACCO C2133
ECON C2013
ECON C2033
MARK C2133
MANA C2133
ESL 1006 (if required)

*Required for students entering electrical engineering

14.3.5 PRE-COMPUTER SCIENCE

General Requirements:
General Science, Digital Systems and Mathematics Options: Same as for pre-engineering.
General Business Option:
A minimum of 30 credits including:
COMP C2113
MATH C2023
MATH C2033
MATH C2043
MATH C2053
MATH C2063
12 elective credits (chosen from outside the Faculty of Commerce and Administration and the Department of Computer Science.)

14.3.6 PRE-FINE ARTS

General Requirements:
6 credits in English or French
24 Elective credits

NOTE: Students may complete courses which are part of their Major in an MSP programme. In such cases it will be the responsibility of the student in consultation with an adviser to select additional courses which will fulfill the requirements of the Major and the Bachelor of Fine Arts degree.

Specific Requirements for Programmes of Specialization:
Cinema
6 credits in English (in addition to the general requirement)
6 credits in French
12 Elective credits
Art Education, Art History and Studio Art, Graphic Design, Studio Art:
6 credits in Art C2006
6 credits in Design C2006
6 credits in Art History C2406
6 credits chosen from Art History C2326, C2496, Cinema C2116, Music History C2006, Theatre C3006 or 6-credit elective

Art History
6 credits in Art History C2406
6 credits in Art C2006
12 Elective credits

Music
The following courses are recommended:
3 credits in Music C2213
3 credits in Music C2223
6 credits in Integrative Music Studies C2006
12 Elective credits.

Drama, Drama in Education, Theatre Performance:
The following courses are recommended:
6 credits in Theatre C2006
or
3 credits in Scenography C2013
6 credits in Theatre C3006 or Dramatic Literature
9 - 15 Elective credits

Theatre Scenography:
The following courses are recommended:
6 credits in Theatre C2006
or
3 credits in Scenography C2013
6 credits in Theatre C3006 or Dramatic Literature
6 credits in Art C2006
6 - 9 Elective credits

14.4 Structure of Studies—Mature Entry Plan (Over 25 Years of Age)

14.4.1 SCIENCE, ENGINEERING AND COMPUTER SCIENCE

General Requirements:
Persons entering Science, Engineering and Computer Science may be permitted to seek exemptions from part or all of the qualifying part of the programme on the basis of their knowledge. In the case of the General Business Option in the Bachelor of Computer Science programme, this involves the Mathematics courses normally required for entry to that programme.

Engineering and Computer Science will offer a special testing programme to establish exemptions. Science will interview and/or test candidates to determine exemptions.

14.4.2 ARTS, COMMERCE AND ADMINISTRATION, AND FINE ARTS

General Requirements:
Arts:
6 credits in English (language or literature)
12 Elective credits

Commerce and Administration:
* 12 credits in Mathematics C2083, C2093, C2053, C2063
6 Elective credits

* Number of credits may change. Please consult Commerce Faculty.

MATH C205 — Differential & Integral Calculus II
MATH C206 — Introduction to Linear Algebra
MATH C208 — Fundamental Mathematics I
MATH C209 — Fundamental Mathematics II

NOTE: Candidates entering Pre-Commerce and Administration without high school intermediate Mathematics (Functions) must also take Functions which course will count as an elective. Pre-Commerce and Administration students are advised to select Economics C2033 and a course from the Social Sciences to complete the 18-credit profile.

Fine Arts:
6 credits in English (language or literature)
12 Elective credits

14.5 Courses

The courses listed below are offered by the respective Faculties. Inclusion of a course in these lists does not guarantee that it will be given every year.

14.5.1 FACULTY OF ARTS AND SCIENCE

All undergraduate courses to which admission is not governed by prerequisite requirements are open to students in the Mature Student Programmes. Listed below, however, are courses either especially developed for students in these programmes or likely to prove of particular value to them. Mature students are therefore urged to give the courses in this list their most serious consideration. Full course descriptions will be found in the calendar sections indicated.

Anthropology (see Sociology and Anthropology § 31.30)

Andragogy § 31.4
ANDRAGOGY C2006
Introduction to Adult and Continuing Education

Humanities
HUMANITIES 1106 General Course in Humanities

It is the purpose of this course to enlarge and enrich the student's comprehension of his cultural heritage by the study of man as a unique creative being. The sources for this study of man are drawn primarily from the fields of history, philosophy, religion, literature and the arts with a view toward examining those experiences and ideas of enduring power which have shaped the nature of modern man from the age of Greece to the present century.

14.5.2 FACULTY OF COMMERCE AND ADMINISTRATION

ADMINISTRATION 101
Introduction to Administration
This course is designed to develop a basic understanding of the role of administration in our society (the efficient organization and employment of people in the technostucture). (3 credits)

ADMINISTRATION 102
Perspective on Business
This course is designed to review the historical development of business (in Canada in particular) and to examine the relationships between the firm (management) and the owners, the employees, the customers, the government and the community. Further, to study some of the problems facing Canadian business today, the dehumanizing aspect, pollution problems, large vs. small firms, foreign ownership, competition, etc. (3 credits)

Social Science
SOCIAL SCIENCE 110
General Course in the Social Sciences
This course has a dual purpose: to introduce the student to some of the basic concepts and subject matter of the various social sciences and to demonstrate their interrelation; and to provide the student with some knowledge of contemporary society and the social problems which confront it.

Sociology and Anthropology § 31.30
ANTHROPOLOGY C211

* Certain foreign students are eligible to pay the same tuition fees as Canadian students. Details may be obtained from the Accounts or Admissions Offices.

Other Fees —

| Copy of Registration certificate | $1.00 |
| Duplicate of receipt            | $2.00 |
| Graduation Fee                  | $20.00|
| Late Registration Fee           | $10.00|
| Removal of “Incomplete”         | $10.00|
| Special Examination Fee         | $15.00|
| Supplemental Examination        |        |
| Written at Concordia             | $10.00|
| Written elsewhere — plus        |        |
|   invigilation fee               | $15.00|
| Transcript of academic record   | $1.00 |

In addition to the fees set out above, students are required to pay certain Student Service Fees, Student Association Fees and other miscellaneous charges. The current rate of these fees and charges can be obtained from the Student Accounts Offices.

15.2 Payment of Tuition and Fees

Payment of tuition and other fees may be made in accordance with the following options:

- **Fall Registration**
  a) payment in full at registration;
  b) payment in two instalments—
     1. at registration—one half tuition plus all other fees plus $10.00 deferred payment fee.
     2. by January 15th—balance.

- **Winter Registration**
  a) payment in full at registration.
  b) payment in two instalments—
     1. at registration—one half tuition plus all other fees plus $5.00 deferred payment fee.
     2. by January 15th—balance.

An additional charge of $5.00 will be made if instalment payments are not made on their due dates.

A charge of $5.00 will be made for cheques returned for any reason.

Failure to make payment, or to arrange satisfactory settlement, of amounts owing to the University when they become due is sufficient cause to bar the student from classes or examinations, and to withhold diploma, scholastic certificate or transcript of record until the debt is adjusted with the University.

Registration is not considered complete until satisfactory arrangements have been made for the payment of fees.

All contracts are subject to revision for the adjustment of errors or omissions.

15.3 Course cancellations, Withdrawals and Adjustment

Students who withdraw from courses or from the University must comply with the requirements set out in the Timetable of Classes published before each academic session in order to qualify for a rebate of tuition according to the following scale:

1. Students who withdraw from the University before the end of the fall course change period—full rebate of tuition less 6%.
2. All others—
   | Rebate of Tuition |
   | for courses of | 1st Term | Two Terms | 2nd Term | Term |
   | Prior to the end of the fall course change period | Full | Full | Full | rebate rebate rebate |
   | End of fall course change period to September 30 | 3/4 | 7/8 | rebate |
   | October 1 to November 1 | Full | rebate | Full | rebate |
   | November 2 to November 30 | 1/2 | 3/4 | rebate |
   | December 1 to end of January course change period | Full | 5/8 | rebate |
   | End of January course change period to January 31 | 3/8 | 3/4 | rebate |
   | February 1 to February 28 | 1/4 | 1/2 | rebate |

The above rebates apply to the net reduction of courses within each course category. Different course categories are not combined for purposes of tuition rebate calculations.

Student Services fees are subject to the same schedule of rebates as tuition. All other fees are not refundable.

Regulations for the summer session are published separately.

16.4 DEGREE-IDENTIFIED REGULATIONS
16.1 General Information

These regulations are in effect as of June 1, 1977 and apply to all students. In some instances, former regulations will still apply. These exceptions will be noted where appropriate.

It is the responsibility of the student to know the academic regulations.

16.1.1 ACADEMIC YEAR

The Academic Year is defined as courses taken during the Summer Session and Regular Session.

Summer Session:
The Summer Session consists of a ten week session operated in the evening and a six week session operated in the day. The Summer Session is part of the following Regular Session for record purposes.

Regular Session:
The day and evening Regular Session of the University is divided into Fall and Winter Terms of fifteen weeks each including an examination period. Dates marking the opening and closing of these terms are found in the Academic Calendar Section II.

16.1.2 DEFINITION OF CREDIT

In accordance with the recommendations of the Quebec Council of Universities, effective 1974-75, the credit base takes into account the total activity of the student, in terms of lectures, conferences, laboratories, studio or practice periods, examinations, and personal work. One credit represents, for the average student, a minimum of 45 hours spread across the various activities listed above.

16.1.3 STATUS

Full-time students are those registered for 24 credits or more in the Regular Session or 12 credits or more in either the Fall Term or the Winter Term.

Part-time students are those registered for less than 24 credits in the Regular Session or less than 12 credits in either the Fall Term or the Winter Term.

Special students are those not covered by the above definition, registered either as a full-time or part-time student in an identifiable programme of study.

An Independent student is one who is not proceeding to a degree, diploma or certificate. Independent students may not register for more than 18 credits in the Regular Session.

16.1.4 COURSE LOAD

Regular Session — Full-Time Status

The course load varies according to the faculty in which the student is enrolled.

1) FACULTY OF FINE ARTS

The normal course load for the Faculty is 30 credits. To carry additional credits the student must submit his/her request to the Student Request Committee of the Faculty.

2) FACULTY OF ARTS AND SCIENCE

Students in the Faculty of Arts and Science may register for a minimum of 30 credits in any Regular Session.

3) DEPARTMENT OF COMPUTER SCIENCE

Students enrolled in the Bachelor of Computer Science will normally register for a maximum of 30 credits in any Regular Session.

4) FACULTY OF COMMERCE AND ADMINISTRATION

A student may register for a maximum of 30 credits in any Regular Session.

5) FACULTY OF ENGINEERING

See under Engineering Faculty § 71.

Regular Session Part-Time Students

Students may register for a maximum of three 6-credit courses or the equivalent equally divided between the Fall Term and the Winter Term.

Summer Session

Students may not take more than the total of 12 credits of work during the Summer Session. The Summer Session includes all courses scheduled between the month of May to the month of August.

16.1.5 RESIDENCE REQUIREMENTS

1. In addition to the specified courses, there is a residence requirement of 45 credits for any degree, defined as follows: A student in Arts, Fine Arts, Science, Commerce and Computer Science must complete the last forty-five credits of the courses of the degree requirements at Concordia University. Engineering students must complete the final fifteen half-semester courses of the required departmental degree programmes in residence at Concordia University.

2. Any student who already possesses one degree must satisfy the following regulations in order to earn a second degree at the Bachelor's level at Concordia University:

a) Register in an established programme with a higher degree of concentration than a Minor.

b) Complete sixty credits in courses other than those credited towards the
16.1.7 HIGH ACADEMIC ACHIEVEMENT

Distinction: A degree With Distinction or With Great Distinction may be achieved by obtaining the following levels:

- With Distinction 'A-' or 'A' or 80-90%
- With Great Distinction 'A+' or 90-100%

The average will be calculated over the student's last 90 credits, or, in the case of transfer students, all courses taken at Concordia. However, a transfer student must have taken a minimum of sixty credits at Concordia in order to be eligible for distinguished mention.

16.2 Programmes and Regulations

16.2.1 CURRICULUM OBLIGATIONS

Where a student acquires credit toward a degree, diploma or certificate in a discontinuous manner and over a protracted period of time subsequent to his admission, the University reserves the right, at any time, to require such student to take further credits in order to obtain that degree, diploma or certificate.

16.2.2 CURRICULUM REGULATIONS

The regulations related to the degree requirements are located in the Faculty sections:

- Faculty of Arts and Science — § 31
- Faculty of Commerce and Administration — § 61
- Faculty of Engineering — § 71
- Faculty of Fine Arts — § 81

16.2.3 CONCENTRATION REQUIREMENT

Since the CEGEP programme is designed to give all students the opportunity to explore different fields and thus acquire a broad general basis for future study, the undergraduate programme requires some degree of concentration, according to the interests and capacities of the student. There are several forms of concentration, ranging through Honours, which requires success in a programme of high concentration accompanied by a prescribed level of performance; the Specialization and the Major requiring varying degrees of concentration without a prescribed performance requirement; and the Double Minor, involving a lesser degree of concentration in two disciplines or fields, and without a prescribed performance requirement.

In order to graduate, therefore, a student must have completed one of the following types of programme: a Double Minor; an Interdisciplinary Major; a Departmental Major; a Specialization programme; a combined Honours programme; a Departmental Honours programme.

Prior to registration, students will be required to select one of the types of programme outlined above. In the case of Honours, students will register upon entry in an Honours programme, but their acceptance as Honours students will depend on their performance during their first year. Students failing to meet requirements for Honours standing will proceed in either a Specialization or a Major programme.

16.2.4 HONOURS PROGRAMMES (NEW CONCORDIA REGULATIONS)

These regulations represent a minimum academic standard for Honours Programmes. All Programmes and additional Faculty regulations, including those with higher standards, are listed in the Faculty sections under "Honours Programmes".

The University has approved programmes leading to an Honours degree in certain selected fields. The Honours programme consists of 60 or more credits in a discipline or field, with superior performance being required to enter and remain in the programme. In order to qualify for an Honours degree a student must comply with the regulations set forth below:

1. An Honours student must meet the general degree requirements as well as the specific requirements for an Honours degree.
2. An Honours student must maintain an average of 'B' or 75% in all Honours courses; the minimum acceptable grade in any single Honours course is C or 65%.
3. An Honours student must have a minimum average of 'B-' or 71% over Honours courses taken in each academic year. For part-time students this will be calculated in eighteen credit blocks.
4. In the non-Honours courses of the degree programme, an Honours student must have an average of no less than 'C' or 65%.
5. Students who are required to withdraw from the Honours programme will proceed in the Major or Specialization programme. Reinstatement in the Honours programme is possible only by appeal to The Faculty Honours Committee.

These new regulations apply to those students entering Honours Programmes on or after June 1, 1977. Students starting in an Honours programme prior to that date may continue under the old regulations published in the 1978/79 Undergraduate Calendar.
16.2.5 SPECIALIZATION PROGRAMMES

The Specialization, in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses including 60 or more credits without a prescribed performance requirement.

16.2.6 MAJOR PROGRAMMES

The Major, again in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses including 36 or more credits. As in the case of the Specialization, the Major may include certain approved courses in other closely related fields.

16.2.7 MINOR PROGRAMMES

A programme, again in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of 24 or more credits in a specific discipline.

16.2.8 DOUBLE MINOR PROGRAMMES

Double Minor programmes are made up of two approved sequences of 24 or more credits in two specific disciplines or fields. A student may combine any two Minors to form a Double Minor. (Only available in the Faculty of Commerce and Administration, Faculty of Fine Arts)

16.2.9 MAJOR-MINOR COMBINATIONS

A Major programme may be combined with a Minor programme.

16.2.10 CERTIFICATE PROGRAMMES

An Undergraduate Certificate programme is a coherent programme of 30 credits made up of regular undergraduate courses, which are, in turn, applicable to the appropriate Bachelors Degree.

16.3 Evaluation, Grading, Examinations and Advancement

16.3.1 EVALUATION

A university degree certifies that its holder has attained a measurable level of achievement, as established by a recognized system of evaluation. It is consequently required that the performance of each student in each course be evaluated by the instructor (or instructors) responsible for the course.

The final grade which assesses the performance of each student in each course will take into account the total measurable performance of the student in that course. Specifically, the grade will be given on the basis of one or more of the following:

i) Assigned work, term papers, projects, etc.

ii) Class participation, which in the case of certain disciplines may justify an attendance requirement.

iii) Progress tests.

iv) Laboratory tests and/or laboratory work.

v) Mid-term and/or final examinations.

vi) A level of written expression may be given consideration in determining the final grade.

The weighting of the various evaluative elements is the responsibility of the instructor. At the beginning of the course the instructor will inform the class of the evaluative scheme to be used.

While the language of instruction in Concordia University is normally English, students have the right to write their assignments and examinations in French. It must be understood, however, that in a case where an instructor cannot read French, the assignments or examinations will have to be read by another person, with possible resulting disadvantages and delays for the student. Students are advised to enquire of the instructor at the beginning of their course whether he or she will personally read assignments and/or examinations written in French. Notwithstanding the above, language and literature departments may require assignments and examinations to be written in the language being studied.

The instructor has the option of submitting grades on either a percentage scale or a letter grade scale, subject to the decision of each Faculty Council.

If a Faculty member assigns a percentage it will be converted to a letter grade in accordance with Table A. Both grades will appear on record and transcript.

If a letter grade is assigned it will be converted to a numerical mark shown in Table B. Both grades will appear on record and transcript.

The numerical grades will be used for evaluation of academic achievement levels.

16.3.2 GRADING SYSTEM

Assigned or Converted letter or numerical mark

</table>

F—Failing Grade

The grade submitted will either be 'F' or 40.

For courses in which supplemental examinations are not precluded, a student to whom an 'F' grade has been assigned and who is in good academic standing, may...
subject to the regulations of the Faculty, write a supplemental examination.

For courses in which supplemental examinations are precluded, this grade will be recorded as FNS to draw attention to the absence of supplemental privilege for the course in question.

**FF—Failing Grade**
The grade submitted will either be "FF" or 20.

For courses in which supplemental examinations are not precluded, a student to whom an 'FF' grade has been assigned, and who is in good academic standing, may, subject to the regulations of the Faculty, write a supplemental examination.

For courses in which supplemental examinations are precluded, this grade will be recorded as FFNS to draw attention to the absence of supplemental privilege for the course in question.

### 16.3.3 GRADING—PROCEDURES AND SPECIAL CASES

In each course the instructor is expected to make an evaluation and submit a grade for every student registered.

If the student has not completed all necessary work, or has not written the required examinations, the instructor submits a grade based on the weighted sum of grades on completed work and zero for incompleted work. (See examples i, ii and iii below). It should be noted that an instructor may stipulate that in order to achieve a passing grade in a course, a student must have demonstrated a specified level of competence in particular components required for evaluation in that course. (See examples (iv)a, (iv)b and (iv)c below).

#### Examples

The following examples demonstrate application of the system. They are all based on the assumption that the final mark is composed of 20% assignments; 40% term paper; 40% examination, for illustrative purposes only.

<table>
<thead>
<tr>
<th></th>
<th>Assignments</th>
<th>Term Paper</th>
<th>Examinations</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>(i)</strong> Weighting</td>
<td>20%</td>
<td>40%</td>
<td>40%</td>
<td>100%</td>
</tr>
<tr>
<td>Specific mark out of 100</td>
<td>90</td>
<td>not written</td>
<td>80</td>
<td></td>
</tr>
<tr>
<td>Contribution to final grade</td>
<td>18</td>
<td>—</td>
<td>32</td>
<td>50</td>
</tr>
</tbody>
</table>

The final grade is 50 or 'D—', and INC is noted if the instructor is prepared to accept a late term paper.

<table>
<thead>
<tr>
<th></th>
<th>Assignment</th>
<th>Term Paper</th>
<th>Examinations</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>(ii)</strong> Weighting</td>
<td>20%</td>
<td>40%</td>
<td>40%</td>
<td>100%</td>
</tr>
<tr>
<td>Specific mark out of 100</td>
<td>85</td>
<td>85</td>
<td>not written</td>
<td></td>
</tr>
<tr>
<td>Contribution to final grade</td>
<td>17</td>
<td>34</td>
<td>—</td>
<td>51</td>
</tr>
</tbody>
</table>

The final grade is 51 or 'D—', and DNW is noted.

(In the event that a student appears to have withdrawn, unofficially, from a course, and no material is available for evaluation, the instructor will clearly *not* be able to submit a grade. The Registrar will indicate this situation with the notation NR (Not Reported). This notation carries no numerical weighting but denotes a failure for purposes of counting the number of failed courses in assessing academic standing.

**INC and DNW**

If the work for a course has not been completed, the following notations will be made after the grade given for that course:

INC (Incomplete) denotes that, though the final examination, if any, was written, work essential for evaluation of a student's performance, such as a term paper or a laboratory, was not completed.

DNW (Did Not Write) denotes that, though the instructor marked the term work, the final examination was not written.

In some circumstances both INC and DNW may be used simultaneously.

**Special Note Re INC**

Students are advised that work completed for an INC grade and reported to the Registrar's Office before the submission of the list of failed students to the Deans will not count as a failure when assessing academic standing. The date for the receipt of these grade changes is May 21, 1979.

**NOTE:** The University is not responsible for providing facilities to enable students to clear INC grades by this date.
### ACADEMIC REGULATIONS

<table>
<thead>
<tr>
<th>(iii) Weighting</th>
<th>Assignments</th>
<th>Term Paper</th>
<th>Examinations</th>
<th>Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Specific mark out of 100</td>
<td>20%</td>
<td>40%</td>
<td>40%</td>
<td>100%</td>
</tr>
<tr>
<td>Contribution to final grade</td>
<td>90</td>
<td>not written</td>
<td>not written</td>
<td>18</td>
</tr>
</tbody>
</table>

The final grade is 'FF' (weighted 20), and DNW is noted as well as INC if the instructor is prepared to accept a late term paper.

| (iv) a. The instructor has stipulated that at least 45% be achieved on the final examination in order that a passing grade be obtained in the course: |
|--------------------------|-------------|------------|--------------|-------|
| Weighting                | Assignments | Term Paper | Examinations | Total |
| Specific mark out of 100 | 20%         | 40%        | 40%          | 100%  |
| Contribution to final grade | 90         | 70         | 35           | 60    |

While the weighted sum is 60, the stipulated 40% was not achieved on the final examination, and so the final grade is submitted as 'F', and weighted at 40.

| b. The instructor has stipulated that at least 45% be achieved on the final examination in order that a passing grade be obtained in the course: |
|--------------------------|-------------|------------|--------------|-------|
| Weighting                | Assignments | Term Paper | Examinations | Total |
| Specific mark out of 100 | 20%         | 40%        | 40%          | 100%  |
| Contribution to final grade | 90         | 85         | not written | 52    |

While the weighted sum is 52, the final examination was not written, and hence the stipulated 45% was not achieved, and so the final grade is submitted as 'F', and weighted at 40, with the notation DNW added.

| c. The instructor has stipulated that at least 45% be achieved on the term paper in order that a passing grade be obtained in the course: |
|--------------------------|-------------|------------|--------------|-------|
| Weighting                | Assignments | Term Paper | Examination | Total |
| Specific mark out of 100 | 20%         | 40%        | 40%          | 100%  |
| Contribution to final grade | 90         | not written | 85           | 34    |

While the weighted sum is 52, the term paper stipulation has not been met, and so the final grade is submitted as 'F' and weighted at 40, with the notation INC added.

#### Replacement of 'F', DNW and INC Entries

The method of recording changes from 'F', DNW and INC entries will be as follows:

a) In cases where a supplemental examination or a late completion has been allowed on medical or compassionate grounds, the new grade will replace the original entry.

b) In all other instances the original entry will be retained on the transcript. A second entry of the course code will be made along with the final grade. An (X) beside this final grade will indicate the late completion or supplemental. (X) will be explained at the foot of the transcript.

c) A student failing a supplemental examination will receive the grade 'FF' or 20.
8. The re-evaluation or investigation will not normally be completed within 21 days of the receipt of the application by the chairman.

9. The chairman will inform the student, the instructor, the Dean, and the Registrar of the decision of the person or committee charged with the re-evaluation or investigation.

10. Both the student and the instructor have a right of appeal against the decision.

11. An appeal will be made to the Dean and will normally be lodged within 14 days of the announcement of the decision by the chairman. Each appeal must be in writing and signed. It must set out the reasons for the appeal.

12. It is the responsibility of the Dean to inform the student or the instructor as may be required, the chairman and the Registrar that an appeal has been received.

13. The Dean will refer the appeal to the Faculty Appeal Committee, a standing committee of Faculty Council.

14. Faculty Appeal Committee procedures will be determined by the appropriate Faculty Council.

15. The Faculty Appeal Committee will be composed of an equal number of faculty and students, who will choose a chairman from outside their initial membership.

16. The Faculty Appeal Committee will deal with the appeal as it sees fit.

17. A decision will normally be rendered within 21 days of the lodging of an appeal.

18. There is no further appeal once the Faculty Appeal Committee has rendered its decision.

19. It is the responsibility of the Committee to inform the student, the instructor, the chairman, the Dean, and the Registrar of the decision.

16.3.5 FAILURE REGULATIONS

These failure regulations are to be considered as defining the minimum standard acceptable to the University. Subject to the approval of Senate, higher standards may be established by any Faculty. For purposes of these regulations, "failure" includes the grades F, FF, FNS, FNNS and NR.

i) 90 Credit Programme

a. Any student who fails courses equivalent to more than twelve credits before obtaining thirty credits on record, or who fails courses equivalent to more than twenty-four credits before obtaining sixty credits on record is a failed student.

Such a student will have entered on record:

"Failed. Must obtain permission to re-register from the Faculty Dean."

b. Any student who fails courses equivalent to more than thirty credits is a failed student. Such a failed student may not apply for readmission.

Such a student will have entered on record:

"Failed. May not re-register."

ii) Extended Credit Programmes (MSP, MEP, ECP)

a. Any student who fails courses equivalent to more than twelve credits before obtaining thirty credits on record, who fails...
ACADEMIC
REGULATIONS

Courses equivalent to more than twenty-four credits before obtaining sixty credits on record, or who fails courses equivalent to more than thirty-six credits before obtaining ninety credits on record is a failed student.

Such a student will have entered on record:
"Failed. Must obtain permission to re-register from the Faculty Dean."

b. Any student who fails courses equivalent to more than forty-two credits is a failed student. Such a failed student may not apply for re-admission.

Such a student will have entered on record:
"Failed. May not re-register."

16.3.6 SUPPLEMENTAL EXAMINATIONS
See Addendum at end of section 16.

16.3.7 REGULATIONS REGARDING CHEATING (UNDERGRADUATE)

I. General

1. Where the word 'examination' is used it shall be taken to cover any examination, test or similar evaluative exercise carried out under invigilation. The invigilator may be the course instructor or another person.

2. Every examination paper shall expressly list the materials that a student is permitted to have and use during the examination, such as text-books with notations, text-books without notations, calculators, etc.

3. Every examination paper shall expressly indicate any special conditions relating to the examination, such as permission for students to work together.

4. A student in the examination area will not speak to or otherwise communicate with another person other than an invigilator unless such communication has been expressly authorized by those conducting the examination.

5. It is the duty of an invigilator to report to the Registrar in writing any apparent instance of cheating as defined in Section II, 1 below.

6. Wherever there is doubt or ambiguity regarding any provision in these regulations, or the procedure to be followed, that interpretation or procedure shall be adopted which appears most equitable, consistent with the general purposes and philosophy of these regulations.

7. Wherever reference is made in these regulations to an official of the University and that official is unable to exercise his or her functions, the person replacing the official shall carry out those functions.

II. Procedures

1. Cheating means any dishonest or deceptive practice relating to an examination, and more particularly, but not restrictively, includes the following:

(a) making use of any book, paper, script, writing, drawing or other material not expressly authorized by those conducting the examination;
(b) communicating during an examination with any person other than those invigilating the examination;
(c) attempting to do any of the above. A person in possession of any book, paper, script, writing, drawing, or other material not expressly authorized by those conducting the examination shall be presumed to be attempting to cheat.

2. A student who is suspected of cheating during an examination shall be so informed by the invigilator and be required to leave the examination area immediately. The invigilator shall take charge of the student's examination book as well as of any other evidence relating to the suspected cheating.

3. The invigilator shall then offer the student the option of:

(a) withdrawing from the examination, with the understanding that, if a charge of cheating is not laid or upheld, the student will be enabled to take another examination for the same course; or
(b) continuing the examination under controlled conditions in another location. The student shall be required to write out and sign a statement of the option taken. If the student chooses to continue the examination, the invigilator will provide a fresh examination book for the purpose and will allow additional time for the examination to compensate for any time lost during this process.

4. Any evidence shall be delivered to the Registrar as soon as reasonably possible.

5. If, after the completion of an examination, a person grading that examination finds grounds to suspect a student of having cheated, that person shall deliver to the Registrar a written statement setting out the grounds for the suspicion, together with the student's examination book and any other relevant material.

6. If the Registrar deems it appropriate to lay a charge of cheating, the Registrar shall prepare a precise, written charge, dated and signed, and send it within seven days to the student. Such a student will have entered on record:
"Failed. Must obtain permission to re-register."

Students in the Faculty of Engineering will be subject to the failure regulation published in Section 71, 1.3 of the Faculty of Engineering Regulations.
program in which the student is registered, as well as to the instructor of the particular course. If the student is not registered in a program, the charge shall be sent to the Dean of the Faculty or Division providing the course.

7. There will be established in each Faculty or Division a panel from which will be drawn the committee that will hear any charge of cheating which is denied by the student charged. This panel will consist of six members. Of the full-time faculty named by the Faculty Council, and six undergraduate students registered in the Faculty named by the appropriate student association or associations.

8. On receipt of a charge from the Registrar, the Dean of the Faculty or Division shall immediately send a copy of the charge to the student and inquire in writing whether the student admits or denies the charge. The letter from the Dean shall be sent to the student by registered mail at the last address given to the University.

9. The student shall admit or deny the charge in writing within twenty one days of the mailing of the Dean's letter. The Dean may extend this delay only if the student could not reasonably have acted within the twenty one days.

10. When the student admits the charge, the Dean shall apply one of the sanctions set out in Section III below.

11. When the student does not admit the charge, the Dean shall arrange for a hearing committee.

12. The hearing committee shall consist of two faculty members and two students named by the Dean from the panel established under II, 7 above, and in addition a fifth member, named by the Dean, who shall serve as chairman.

13. The student and the Registrar, or a delegate of the Registrar, have the right to be present at the hearing of the charge, and to address the committee, but they shall not be present at the deliberations of the committee.

14. The committee shall decide whether or not the student acted as charged, and shall make any comment about the nature or circumstances of the offence that it deems appropriate. Its report shall be in writing and reasoned, and shall be delivered to the Dean.

15. If the committee does not uphold the charge, the Dean shall so inform the student, the Registrar and the instructor of the course.

16. If the committee upholds the charge, the Dean shall apply one of the sanctions set out in Section III below. The Dean shall send a statement of his or her decision together with a copy of the report of the committee to the student, the Registrar and the instructor of the course.

17. The student and the Registrar shall have a right of appeal to Senate against either the decision or the sanction. Notice of such appeal must be made in writing to the Secretary of Senate; in the case of the student within twenty one days of the decision, and in the case of the Registrar within seven days of the decision. These delays may be extended in exceptional circumstances by Senate.

18. The appeal shall be heard and decided in the manner deemed most appropriate by Senate.

19. In the event that a charge against a student is not laid or is not upheld, and the student has either not continued with the examination or wishes to take a second examination, the Dean and the Registrar shall arrange for such an examination.

III. Sanctions

1. Where a student admits or is found to have cheated, the sanction shall be one of the following:

(a) the imposition of a failing grade for the course related to the examination in which the cheating occurred; ineligibility to write a supplemental examination for the course; and the obligation to take and pass the equivalent of one six-credit course (i.e. one full-course or two half courses) in addition to the total number of credits required for the program. The courses to be taken may be specified;

(b) the sanction as provided in sub-section (a) above, and with the obligation to take and pass the equivalent of a further one, two or three six-credit courses in addition to the total number of credits required for the program. The courses to be taken may be specified;

(c) the sanction as provided in sub-section (a) or (b) and suspension from the University for the remainder of the year;

(d) the sanction provided in sub-section (c) and suspension for an additional period of not more than one year;

(e) the imposition of a failing grade for the course related to the examination in which the cheating occurred and expulsion from the University.

A year shall begin on September 1 and end on August 31 if the charge relates to an act occurring in the regular session, and from May 1 to April 31 if the charge relates to an act occurring in the summer session.

2. Should the student not be registered in a program, the sanction shall be either the relevant part of (a) or that provided in (c), (d) or (e).

3. If a suspended student fails the year in which he or she was suspended and wishes to be readmitted, that student must apply for readmission.

4. Should a student either admit or be found to have cheated for the second time the student shall be expelled from the University.

5. A sanction of suspension or expulsion is subject to confirmation by the Rector.

16.3.8 REGULATIONS REGARDING PLAGIARISM (UNDERGRADUATE)

I. General

1. Plagiarism, for the purposes of these regulations, means the presentation by a student of the work of another person as his or her own. It includes copying, translating and paraphrasing without acknowledgement of the source.

2. Wherever there is doubt or ambiguity regarding any provision in these regulations, or the procedure to be followed, that interpretation or procedure shall be adopted which appears most equitable, consistent with the general purposes and philosophy of these regulations.

3. Wherever reference is made in these
II. Procedures

1. If an instructor has reason to believe that a student has committed plagiarism, the instructor shall immediately inform the student and discuss the circumstances.

2. After such discussion, the instructor shall:
   a) decide that no further action is necessary; or
   b) require that the work be resubmitted with appropriate changes; or
   c) give the student a failing grade in the course for which the work was done; or
   d) give the student a failing grade in the course if the student has committed plagiarism.

3. If the instructor’s decision is that set out in 2 (a) or 2 (b), the matter shall be considered closed. If the decision is that set out in 2 (c) or (d), the student may appeal it to the chairman of the department.

4. Should a student appeal a decision as set out in 2 (c) or (d), the chairman of the department shall:
   a) uphold the award of a failing grade; or
   b) cancel the failing grade and decide no further action is necessary; or
   c) cancel the failing grade, and require that the work be resubmitted to the instructor with appropriate changes.

   The chairman’s decision shall be final.

5. If the matter is referred to the chairman of the department, as set out in 2 (e), and an appropriate departmental committee exists, or the departmental practice is to set up an ad hoc committee, the chairman shall be referred to that committee.

6. If an appropriate committee exists, the committee shall review all the circumstances with the instructor and the student, and shall:
   a) decide that no action is necessary; or
   b) require that the work be resubmitted with appropriate changes; or
   c) decide that a formal charge shall be made against the student.

   If the committee’s decision is that set out in 6 (a) or 6 (b), the matter shall be considered closed.

7. If the matter is referred to the chairman of the department as set out in 2 (e) and no appropriate departmental committee exists, the chairman shall review all the circumstances with the instructor and the student, and shall:
   a) decide that no action is necessary; or
   b) require that the work be resubmitted with appropriate changes; or
   c) decide that a formal charge shall be made against the student.

   If the chairman’s decision is that set out in 7 (a) or 7 (b), the matter shall be considered closed.

8. In the event that the instructor is the chairman of the department, the Dean shall appoint another member of the department to act in his or her stead.

9. If either the appropriate committee or the chairman of the department decides that a formal charge shall be made against the student, the chairman shall send that charge to the Dean of the Faculty or Division for the program in which the student is registered. If the student is not registered in a program, the charge shall be sent to the Dean of the Faculty or Division providing the course.

10. The formal charge to the Dean shall be made in writing, and be dated and signed by the chairman of the department.

11. The Dean shall send immediately a copy of the charge to the student, inform the student of the procedures and sanctions relating to a formal charge, and inquire in writing whether he or she admits the charge. The letter from the Dean shall be sent to the student by registered mail at the last address given to the university.

12. The student shall admit or deny the charge in writing within twenty one days of the mailing of the Dean’s letter. The Dean may extend this delay only if the student could not reasonably have acted within the twenty one days.

13. When the student admits the charge, the Dean shall apply one of the sanctions set out in Section III below.

14. There will be established in each Faculty or Division a panel from which will be drawn the committee which will hear any formal charge of plagiarism. This panel shall consist of six members of the full-time faculty named by the Faculty Council, and six undergraduate students registered in the Faculty named by the appropriate student association or associations.

15. When the student does not admit the charge, the Dean shall arrange for a hearing committee.

16. The hearing committee shall consist of two faculty members and two students named by the Dean from the panel established under II, 14 above, and in addition a fifth member, named by the Dean, who shall serve as chairman.

17. The student and the instructor have the right to be present at the hearing of the charge, and to address the committee, but they shall not be present at the deliberations of the committee.

18. The committee shall decide whether or not the student committed plagiarism, and shall make any comment about the nature or circumstances of the offence that it deems appropriate. Its report shall be in writing and reasoned, and shall be delivered to the Dean.

19. If the committee does not uphold the charge, the Dean shall inform the student, the chairman of the department and the instructor of the course.

20. If the committee upholds the charge, the Dean shall apply one of the sanctions set out in Section III below. The Dean shall send a statement of his or her decision together with a copy of the report of the committee to the student, the instructor of the course, the chairman of the department, and the Registrar.

21. The student and the instructor shall have a right of appeal to Senate against either the decision or the sanction. Notice of such appeal must be made in writing to the Secretary of Senate within twenty one days of the decision. This delay may be extended in exceptional circumstances by Senate.

22. The appeal shall be heard and decided in the manner deemed most appropriate by Senate.
16.4 Degree—Identified Regulations

New Concordia Academic Regulations related to the following items are under study and may be enacted by the Senate prior to the 1979/80 academic year. In the interim the appropriate governing regulations are listed below classified by degrees.

16.4.1 Students registered in BA, BEd, BSc

Para-Academic Activity

A student may undertake a research project in conjunction with a para-academic activity for academic credit if the project is accepted by the Para-Academic Credit Board.

Para-Academic Activity is any ongoing activity which is not sponsored by departments or disciplines per se, but which allows within its range the possibility of research and reflection on the activity, and whose merit can be measured by a sponsor.

A Para-Academic Project is an undertaking by a single student which can be evaluated by a sponsor. Each project may last no more than one (1) academic year, and shall be the equivalent of three credits. The number of credits given for Para-Academic Activity shall be no more than six (6) spread over three (3) university years. A project may take the place of an elective, but not of a required course.

The Sponsor of a project must be a full or part-time member of the faculty, and may be a sponsor normally for not more than three (3) people.

The student selects the project and possible sponsor(s), and with the approval of the sponsor(s) submits a coherent outline of the proposed project to the Para-Academic Credit Board.

To be accepted, the project must meet the criteria of activity, reflection and presentation. With sufficient activity, resources and innovative ideas, the student must demonstrate that he/she has the means of completing the project, and that it will benefit him/her as a person within the context of his/her experience.

A student doing a Para-Academic Activity Project presents the final report to the sponsor, who grades the project and transmits the grade to the Para-Academic Credit Board. The Board transmits the grade for credit, together with a brief description of the project, to the Registrar.

Independent Studies

It is the intention of this programme to provide encouragement to those students...
who show extraordinary commitment to independent studies and/or research as well as to remedy a lack of efficient channels for processing, evaluating and accrediting worthy independent research projects — whether they be carried out in academic, governmental or business institutions. It is hoped that I.S.P. projects will take into account not only the student's prior formal education but prior life experience, work and independent studies as well as his/her future objectives; and to do this in a way that is not possible within the proper limits of established disciplinary boundaries. It is envisioned that credits obtained through the I.S.P. will be integral to the student's regular academic programme.

For detailed information concerning this programme (i.e., rules for project eligibility) please apply to the Director of the programme.

NOTE: Independent Studies refers to a type of programme only and not to a type or classification of student. For information about independent studies see § 13.2

16.4.2 Students registered in BComm, BAdmin, BEng, BFA and on the Sir George Williams Campus BA, BSc

Repetition of Courses
1. A student who has received credit for a completed course may not repeat that course and may not write a supplemental for purposes of upgrading, except as provided by the Additional Regulations in the Faculty of Engineering.

2. A student may repeat a failed course only once.

3. A student who fails a course that is specifically required for a degree must take the course during the Session in which he next registers. If a required course is taken for the first time during the Summer Session and is failed, the student may postpone his registration for repetition of the course until the session following the regularly scheduled supplemental examination period for Summer Session Courses.

4. If a student repeats a course that is specifically required for a degree and fails it a second time, he/she may apply to Faculty Council for permission to substitute an alternate course. Unless such permission is granted, he/she will not be allowed to continue in the University toward that degree.

Addendum

18.3.6 SUPPLEMENTAL EXAMINATIONS

Faculty Policies
1. THE FACULTY OF ARTS AND SCIENCE

- a) Supplemental examinations must be offered only where, as a condition for passing the course, it is required that a student pass the final examination regardless of its weighting; or where the final examination contributes 50% or more of the final grade.

- b) All courses which a student fails and for which there is no supplemental examination shall be graded FFNS, FNS, 40% NS, or 20% NS.

- c) A failed student may not write supplemental examinations.

- d) A student may not write a supplemental examination in a repeated course, nor may he write a second supplemental examination in the same course.

2. THE FACULTY OF COMMERCE AND ADMINISTRATION

Supplemental privileges are not available in courses administered by the Faculty.

3. THE FACULTY OF ENGINEERING, DEPARTMENT OF COMPUTER SCIENCE

Supplemental privileges available providing student is in good academic standing.

4. THE FACULTY OF FINE ARTS

The majority of courses in the Faculty of Fine Arts do not allow supplemental privileges because of the nature of the course (studios, etc.). Supplemental privileges are available for students registered in those courses holding normal examinations providing students are in good academic standing.

REGULATIONS

Supplemental Examinations
1. A failed student may not write supplemental examinations.

2. A student may not write a supplemental examination in a repeated course, nor may he write a second supplemental examination in the same course.

3. Medical reasons (certified by a physician on his letterhead) constitute a valid excuse for exemption from most of the regulations concerning supplemental examinations. Such medical reasons must be submitted to the Examinations Office within ten days of the missed examination.

   (a) A student absent from a regular examination for medical reasons may, if he wishes, write the supplemental examination as his final examination. If he passes, he will receive a normal grade and will not be charged with a failure nor a supplemental under the maximum permissible allowances. If he fails, he may apply to the Examinations Office to write an additional supplemental examination.

   (b) A student absent from a supplemental examination for medical reasons is not considered to have failed the examination and may apply to the Examinations Office for an alternate date.

   (c) A student taken ill during an examination and unable to complete the examination, must obtain verification from the nurse on duty. Such certification must be submitted to the Examinations Office within ten days of the date of occurrence.

4. Supplemental examinations in courses taken during the regular session must be written during the following July. Supplemental examinations in courses taken during the Summer Session must be written the following October.

5. Supplemental examinations may be written only at one of the following external examination centres in Canada: St. John's, Nfld.; Sackville, N.B.; Murray Bay, Que.; Toronto, Ont.; Sudbury, Ont.; Thunder Bay, Ont.; Winnipeg, Man.; Saskatoon, Sask.; Banff, Alb.; Vancouver, B.C. Any student wishing to write a supplemental examination at an external centre (outside of Canada) must arrange an appointment with the Director of Examinations before submitting an application.
6. Supplemental examinations are graded by the new Grading System. (Section 16.3.2)

7. Application to write a supplemental must be submitted by October 1 for Summer Session, February 1 for graduating students, and June 13 for Winter Session to the Director of Examinations on a form which may be obtained from the Examinations Office. Students applying to write a supplemental examination at an external centre must submit the additional external application form with the regular application form. The required fee must accompany all applications.

Completion of Courses Graded Incomplete

1. A failed student may not complete a course graded incomplete (INC).

2. A student is ineligible to complete an 'INC' in a repeated course.

3. Application to complete a course graded 'INC' must be submitted by October 3 for Summer Session, March 5 for graduating students, and June 13 for Regular Session to the Examinations Office. The required fee must accompany all applications. The limiting dates for submission of work are:

   (a) For the fall-term courses in the Regular Session, not later than April 1.

   (b) For all other courses in the Regular Session, not later than August 1.

   (c) For all courses in the Summer Session, not later than November 1.
17 Medals and Prizes

NOTE: This section of the undergraduate calendar is presently under review. Any changes that may affect the prize list for the Spring Graduation 1979 will be announced as soon as possible.

18.5 RIGHTS & RESPONSIBILITIES — OMBUDSMEN’S OFFICES
18.1 Department of Physical Education & Athletics

Director
DR. EDMUND F. ENOS

Assistant Directors of Athletics
MR. PAUL ARSENAULT
MR. DOUGLAS Daigneault
MR. GEORGE SHORT

The Department of Physical Education and Athletics offers a complete and diversified programme to meet the varied interests of today's students. The aim is to provide an opportunity for all students to participate and not just those who play varsity sports.

A comprehensive Intramural programme operates on both campuses. It provides an extensive selection of fitness, team and sport activities for men and women under the supervision of professionally-trained instructors.

The Intercollegiate Varsity programme is primarily for male and female students with playing experience. Graduate level as well as undergraduate students pursuing studies on a full-time basis and meeting Quebec University Athletic Association and the Canadian Intercollegiate Athletic Union requirements are eligible to participate.

Co-ordinator of Women's Athletics
MR. MIKE HICKEY

Co-ordinator of Men's Intramurals
MR. ROBERT PHILIP

The south campus is the focal point of all Physical Education and Sports on the Loyola Campus. This area includes full-length playing fields, and a modern physical education centre complete with an ice arena, gymnasium, weight training and exercise rooms. The Sir George intramural programme is centered in Birks Hall and in the Downtown YMCA on Drummond St.

Detailed information on physical education and athletic activities is included in the Department's annual Sports Review which is available at the Physical Education Centre and on the Sir George Campus Athletics office located at 2160 Bishop St. For further information, telephone 482-0320, ext. 730, Loyola Campus, or 879-5840, Sir George Campus.
18.2 Concordia Guidance Services

The Concordia Office of Guidance Services provides the following services: (1) individual and group counselling (2) an information service with special emphasis upon graduate and career planning (3) reading skills development and study skills programmes (4) Canada Manpower Centre.

18.2.1 COUNSELLING
Counselling is offered in the following areas:

Academic Counselling: includes such problems as course planning, planning a major or honours programme, university familiarization and decisions pertaining to postgraduate training.

Vocational Counselling: the individual is helped to make a realistic career choice based upon his interests, abilities and other needs, reconciled with the available opportunities.

Personal Counselling: many students have problems which are not directly related to the university environment but nevertheless affect their sense of well-being, e.g., family problems, social problems, depression, feelings of isolation. Discussion with a counsellor is usually helpful in clarifying the issues and finding a way of coping with these problems.

18.2.2 GUIDANCE INFORMATION CENTRE
The Guidance Information Centre makes available to students and staff of the university, information on educational and career planning. The major areas of the collection are devoted to directories of education programmes, university calendars, and career choice and job hunting/resume writing books.

18.2.3 READING TRAINING CENTRE
The Reading Training Centre offers several courses a year during the day and evening. These programmes are planned to help the student develop the skills necessary for the maintenance of acceptable academic standards.

The main focus is on the techniques of efficient reading and study skills. Some direction is given, however, in the associated learning skills of listening, note-taking and using the library.
18.3 Scholarship and Financial Aid Information

Loyola Campus
FRED A HAFFEY
Adm. Room 126
482-0320 Ext. 349

Sir George Williams Campus
JUDY STYMEST
H-405
879-5983

Financial Aid and scholarship information is available on both campuses of Concordia University.

These offices exist solely to help students find the sources of financial aid available to them; to explain the current regulations and norms of eligibility and to assist students in solving individual budgetary problems.

18.3.1 CONCORDIA WIDE SCHOLARSHIPS

A scholarship is awarded in recognition of outstanding academic achievement.

If a student holding a scholarship decides to change faculty, he will retain the scholarship only on condition that he receives the approval of the Scholarship Committee.

No student may hold more than one scholarship from the university at any one time.

Concordia University Entrance Scholarships

A number of Tuition Scholarships are available to students entering University 1. They are awarded by the Scholarship Committee on the basis of academic achievement during the first three semesters of CEGEP. Applications are available from the Financial Aid offices and must be returned prior to March 1. These scholarships have a value of $1,000.00, and are renewable as long as the same high level of achievement is maintained.

January Entrance Scholarships

A number of scholarships are available to students entering in the January to April semester. Value $500.00 and renewal is contingent on student taking enough summer courses to qualify as a regular second year student the next September.

Senior Scholarships

A number of Scholarships are awarded to undergraduates in a 90 credit degree programme, or to a graduate student. Value is $500.00 each. Awards are for one year and are renewable for a maximum of four years.

Awards to Concordia Students in Course

The Arthur Andersen & Company Scholarship: To be awarded to a student entering his/her final year in the Bachelor of Commerce program and majoring in Accounting. To be awarded on academic merit and demonstrated leadership qualities in the classroom and in student activities. Value: full-tuition.

The Stacie-Lee Bessner Memorial Scholarship: One award to a student entering second or third year in the Faculty of Commerce.

The BP Canada Scholarships: To be awarded to two students in Mechanical Engineering on the recommendation of the Faculty of Engineering. Value: $500 each.

Canadian Women's Press Club Montreal Branch Scholarship. A stipend of about $500.00 offered annually to a journalism student entering second or third year. Selection will be made by a committee drawn from the faculty and the profession.

Pauline Donald Memorial Scholarship: One award valued at $500.00 to a student in the Music Department of the Faculty of Fine Arts.

The General Motors of Canada Ltd. Scholarships: Two scholarships of $1,000.00 each are offered to students one in second year and one in final year in the Faculties of Engineering, Business Administration, Commerce or Finance. Preference will be given to a student interested in a career in industry. An opportunity is also provided for a summer work assignment. The award will be based on academic merit, outside interests and career objectives.

Quercy Iron & Titanium Corp. Scholarship: A scholarship valued at $800.00 to be awarded to a third year Mechanical Engineering student.

SCHOLARSHIPS OFFERED BY COMPANIES, ASSOCIATIONS AND SOCIETIES

Bank of Nova Scotia Bilingual Exchange Scholarships: Six annual one-year undergraduate and graduate awards are available, three to Frenchspeaking candidates and three to English speaking candidates. Undergraduate awards are for $1,500.00 tenable in the second to last year of a first university degree program. Graduate awards are for $3,000.00 and graduate students will be expected to outline their proposed programs of study. English-speaking winners may attend any Canadian French-speaking university or college and French-speaking winners may attend any Canadian English-speaking university or college provided it is a member, or federated with, or affiliated to, a member of the Association of Universities and Colleges of Canada. Apply to the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed applications must be sent to the above address to arrive not later than March 1st.

Harry F. Bennett Education Fund: The purpose of this Fund is to make loans to deserving students who need financial assistance to enable them to study Engineering.
Sciences at university level and who have proved themselves by successfully completing their first year in Engineering or the equivalent. The Engineering Institute of Canada, 2050 Mansfield Street, Montreal, Quebec.

The Building Trades Joint Committee Scholarship: A five-year scholarship is available to a student entering into the Faculty of Engineering. This award covers full tuition fees for five years subject to a satisfactory academic record. Applicants must be the sons of employees engaged in the construction industry in the District of Montreal. Mr. Armand Brisebois, Personnel and Office Manager, The Construction Industry Joint Committee of the Region of Montreal, 3530 Jean-Talon St. West, Montreal, Quebec.

Canadian Federation of the Blind Bursary: Bursary assistance is awarded to a registered blind person or his parents. In awarding this bursary, preference will be given to members of the Canadian Federation of the Blind and in particular to those people domiciled in the Province of Quebec. Mr. Gordon L. Mc. Gilton, Corresponding Secretary, Montreal Branch, Canadian Federation of the Blind, 1172 St. Matthew Street, Montreal, Quebec.

Canadian Forces Benevolent Funds: The Canadian Forces Benevolent Funds consider applications from veterans for bursaries on behalf of their sons or daughters who are full-time students. Apply to the nearest local office of the Department of Veterans' Affairs.

Ceylonese Canada Limited: Several entrance scholarships in any course leading to a baccalaureate degree offered to the children of employees or annuitants of Ceylonese Canada Limited or its subsidiary companies. Further information and application forms should be requested directly from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed forms, in triplicate, are to be sent directly to the same address to arrive not later than June 1st.

Consumers Glass Company Limited University Education Awards Plan: Open to children or wards of employees and retired employees of Consumers Glass Company Limited for a full-time course of study in any Canadian university or college recognized by the Association of Universities and Colleges of Canada. Value: $750.00 per year for a maximum of four academic years, or until a first degree is obtained, whichever occurs first. Awards are automatically renewed provided the students establish continuing eligibility and successfully complete the preceding academic year. Further information and application forms, which must be submitted by June 30th, may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario.

Continental Can Company Limited (Canadian Scholarship Plan): The Carrie C. Conway Scholarship is offered to the children or grandchildren of the Company's employees. Application forms should be requested from the plant managers or district sales managers. The completed forms, in triplicate, are to be sent to the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario.

The Continental Insurance Companies (Canadian Scholarship Plan): University entrance scholarships in courses leading to baccalaureate degrees may be applied for by the natural or adopted children, stepchildren or legal wards of one of the Continental Companies operating in Canada. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario. Applications must be sent directly to the same address no later than June 1st.

Gulf Oil Canada Limited: Several university entrance scholarships are awarded annually to the children, natural or adopted, of employees and annuitants of Gulf of Canada and its subsidiary companies in Canada. Further information and application forms should be requested from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed applications, in triplicate, are to be sent directly to the same address to arrive not later than June 1st.

Imperial Oil Higher Education Awards: Imperial Oil Limited offers, annually, free tuition and other compulsory fees to all children or wards of employees and annuitants who proceed to higher education courses. The courses may be taken at any Canadian university or other approved institution of higher learning. Each award is tenable until the attainment of a first degree or for a maximum of four years. To be eligible a student must attain an average of 70% or more in a college year upon which application is based. Further information and application forms may be obtained from The Secretary, Committee on Higher Education, Imperial Oil Limited, 111 St. Clair Avenue West, Toronto, Ontario.

Iron Ore Company of Canada (Scholarship Plan): A limited number of entrance scholarships for study towards a first degree are offered to children or wards of employees or annuitants of the parent or subsidiary companies. Further information and application forms should be requested from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario. Completed applications, in triplicate, are to be sent directly to the same address to arrive not later than June 1st.

Lebanese Syrian Canadian Association: The Lebanese Syrian Canadian Association award annually a scholarship to children or grandchildren of students of Lebanese, Syrian descent. The Chairman, Scholarship Committee, Lebanese Syrian Canadian Association, 40 Jean-Talon East, Montreal, Quebec.

Leonard Foundation Scholarships: Applications for scholarships must be filed before March 31st of each year. Preference in the selection of students for scholarships shall be given to the sons and daughters of clergymen, school teachers, Officers. Non-Commissioned Officers and Men (active or retired) who have served in Her Majesty's Military, Naval or Air Forces, graduates of the Royal Military College of Canada, members of the Engineering Institute of Canada, members of the Mining and Metallurgical Institute of Canada, Mrs. R. B. White, Senior Trust Officer, Canada Permanent Trust Company, 253 Bay Street, Toronto 1, Ontario.

FINANCIAL AID
Quebec Cartier Mining Company: A limited number of four-year or first degree entrance scholarships are offered to candidates whose parents or legal guardians have been employed by the company for at least four years. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario.

R.C.A.F. Benevolent Fund: The Royal Canadian Air Force Benevolent Fund has made provisions for loans for the benefit of former R.C.A.F. personnel or their dependents. Apply to R.C.A.F. Benevolent Fund, 665 Cathcart Street, Montreal, Quebec.

Texaco Canada Merit Scholarship Programme: Several entrance scholarships to provide up to a maximum of the first four years of undergraduate study may be applied for by dependent children, natural or legally adopted, of employees or annuitants or of deceased employees who died while employed by Texaco Canada. Application forms may be obtained from the employees' supervisor. Completed applications, in triplicate, must be sent to the following address to arrive not later than June 1st: Director of Awards, Association of Universities and Colleges of Canada, 151 Slater St., Ottawa, Ontario.

Financial Aid

Government Loan Plans: In all the Canadian Provinces a basic qualification for financial aid is that the applicant be a Canadian citizen or landed immigrant with one year's residence and domicile in the province to which he is applying. This would be the province where his/her parents make their home.

The Province of Quebec: The Province of Quebec has an extensive program of student loans and bursaries available to students. For applications contact the Director, Financial Aid.

Physically Handicapped: Students in any faculty who are Canadian citizens and have been resident and domiciled in Quebec for two years, may apply for an outright grant if they have suffered from poliomyelitis, tuberculosis, certain forms of cardiac trouble, or some other physical disability. Apply to the Director, Financial Aid.

Ontario: Apply to the Director, Financial Aid.

New Brunswick: Apply to the Department of Youth and Welfare, Fredericton, New Brunswick.

For the Provinces of Alberta, British Columbia, Manitoba, Newfoundland, Nova Scotia, Prince Edward Island and Saskatchewan, write to the Provincial Department of Education.

Children of War Dead (Education Assistance) Act: Under this Act fees up to $800.00 and necessary allowances are provided for children of Canadian war veterans whose death was attributed to military service in World War I, World War II, or the Korean War. Apply to the Superintendent of Welfare Services at the nearest DVA District Office.

United States Students: Due to new statutory regulations required by the Education Amendments of 1972, all parents of students who wish to apply for Federal interest benefits (for students whose parents have a net adjusted income of over $25,000) must file a Financial Aid Form (FAF) with the College Scholarship Service, Box 176, Princeton, New Jersey 08540. Request that it be sent to Concordia University, Loyola Campus, Code No. 0932 or Sir George Williams Campus, Code No. 08540.

Maine and Oregon — Apply through the Student Aid Fund, form 1070, available at your bank.

Students from other states — Apply to the Higher Education Assistance Corporation. Applications are available at your bank.

Due to the tight money situation, it is essential that you apply to the bank where your parents have an account, as early as possible.

NOTE: APPLICATIONS FOR GOVERNMENT AID SHOULD BE MADE AS SOON AS POSSIBLE. DO NOT WAIT FOR REGISTRATION.

Bursaries

Due to the greatly increased demand for financial aid, all students must apply first to their own province and/or state and accept maximum loan and bursary aid from these sources. Thus, Concordia University funds cannot normally be used to compensate for a student's failure to apply for and accept the maximum government assistance available to them. If a student needs more than his maximum government assistance, a bursary may be granted.

The basic principle in awarding financial aid is that the primary obligation to pay for an education rests with the students and their parents. This means that a student is expected to have savings from his summer employment and that parents must contribute according to their ability.

The Financial Aid Offices exist solely to assist students and to help them find financial aid should they need it.

IBM Canada Bursary Program: IBM Canada Ltd. makes an annual grant of $1,000.00 for bursaries to students registered in a full-time course at the university who have satisfactory standing and who demonstrate financial need. Application may be made through the Awards Office.

The Birks Family Foundation has established a plan of annual contributions to the Student Aid Fund of recognized Canadian Universities for the creation of the Birks Family Foundation Bursaries. The bursaries are awarded by the Foundation on the recommendation of the University Scholarship Committee and are not restricted to faculty or year and may be renewed. The number and amount of such awards may vary annually, depending upon the funds available for the purpose from the Foundation.

B'nai B'rith Hillel House: A limited number of bursaries are available. Amount of each bursary provided from this fund may vary according to the need of the deserving student in any year or any faculty. Apply to Hillel House.

Canadian Italian Business & Professional Men's Association: Bursaries are awarded to students of Italian origin or descent by the Association. Apply to the President, Trust Fund Committee. Application forms may be obtained from the Association at 892 Cremaize Blvd. W., Montreal.
National Council of Jewish Women of Canada, Montreal, Section. Bursaries: A limited number of bursaries are awarded by the Council upon the recommendation of the Financial Aid Director. Academic standing and financial need are considered in making the award. Although there is no legal obligation, the Council hopes that the holder will, if possible, return the money at some future time so that other students may be helped.

Lebanese Syrian Canadian Association: The Lebanese Syrian Canadian Association award annually a series of scholarships to students of Lebanese, Syrian descent. Apply to The Chairman, Scholarship Committee, Lebanese Syrian Canadian Association, 40 Jean-Talon East, Montreal, Quebec.

Financial Aid for Overseas Students: The scholarships, bursaries and loans offered by companies, associations, societies, foundations, departments of education and other government agencies are generally not available to students from overseas. Therefore, students studying on a student visa who require financial aid should contact their own department of education.

The Canadian International Development Agency offers training assistance to developing countries with which Canada has a cooperation agreement; however, the student must be nominated by his/her own government.

Students should make sure of adequate finances before coming to Canada.

A minimum of $5,000.00 Canadian would be required for one academic year. If a student does not plan to return home during the summer, four months of living expenses as well as summer tuition should also be provided for.

Concordia University Graduate Fellowships: Graduate fellowships are awarded on the basis of academic excellence to students enrolled full-time in a program leading to a master's or doctoral degree at the University. No services are expected from the student in return.

Renewable Fellowships for full-time studies in the amount of $6,000 per year plus tuition fees are open to students enrolling in doctoral programs or master's programs of more than one-year duration. Continuation of the award beyond the first year is subject to satisfactory academic performance. Fellowships may be held for a maximum of three years.

One-Year Fellowships normally are tenable only by full-time students enrolling in master's programs of one-year duration. They are of two kinds:

(a) David J. Azrieli Fellowships in the amount of $6,000 plus tuition fees, financed by a donation from Dr. David J. Azrieli;

(b) University Fellowships in the amount of $5,000, the regular tuition fees to be paid by the student.

Province of Quebec Graduate Fellowships: The Minister of Education of the Province of Quebec has a generous programme of Graduate Fellowships available to students presently residing in Quebec. It is important to stress that these Fellowships are based primarily on High Academic Standing. Candidates requiring financial assistance and not having a high academic record should apply to the Province of Quebec, regular loans and bursary department. Forms are available from the Financial Aid Office on each campus.

Guidance Information Centre: The Centre collects information and application forms, if available, on loans, bursaries, scholarships, fellowships, grants-in-aid, etc. This includes aid offered by private foundations, associations and companies, from both Canadian and foreign sources.

Liaison Office: Opportunities exist for some students to assist the Liaison Office visiting CEGEPs and High Schools. Other help is required by the office from time to time during the year, assisting in mailing, packaging and typing. Payment varies according to project. For more information contact the Liaison Office, Room N211 (Norris Building) 879-4233, or 2496 West Broadway 482-0320, Ext. 245, 264, 572.

18.3.2 LOYOLA CAMPUS ONLY:

Scholarships:

The Malone Scholarships are awarded to students on the Loyola Campus who have combined high academic achievement with leadership ability, commitment to and involvement in the community. Three scholarships. Value: full-tuition. One in each year.

Endowed Scholarships:

Avon Products of Canada Scholarship: Book Bursary $50.

The Lilley F. Barry Scholarships, Number: four. Value: $500 each.

The Gordon Bennett Memorial Scholarship: From the estate of the late Mr. Gordon Bennett. Number: 7. Value: $500 each.

The Charles J. Brown Scholarship: Donated by Mr. William J. Brown in memory of his late father. Number: Two. Value: $400 each.

Ursula Carling Scholarship: From the estate of Mrs. U. Carling. Number: Two. Value: $500 each.

The Francis J. Dowling Scholarship: From the estate of the late Francis J. Dowling. Number: One. Value: $150.

The Kenneth J. McArdle Memorial Scholarship: Donated by Mrs. Mary McArdle. Offered to students in Science. Number: Two. Value: $400 each.

The R. C. Moore Memorial Scholarship: Open to a Loyola Campus student who does not already possess a scholarship, enrolled in either Honours Mathematics or Specialization in Mathematics (formerly Major in Mathematics) and entering U3 to be awarded on the basis of the marks obtained in Mathematics courses taken during U1 and U2. Number: One. Value: $150.

The Clarence G. Smith Memorial Scholarship: From the estate of Mrs. Elizabeth M. Smith in memory of her son, Clarence G. Smith. Number: Two. Value: $500 each.

The James Weber Memorial Scholarships: Awarded in memory of a member of the Class of 1970. Number and value varies.

Bursaries

The Loyola News Memorial Bursary: Awarded annually to a student who has combined community involvement and a 70% average. The student may apply or be nominated. Number: One. Value: $450.

The George V. Ulhlein Memorial Bursary: Awarded annually to a student who has an outstanding record in non-athletic extra-curricular activities and not less than a "B" average. The student may apply or be nominated. Number: One. Value: $100.

Touché Ross & Co. Bursary: Awarded annually to a student who is completing his penultimate year and will be entering his final year, majoring in accountancy in the Faculty of Commerce, and who intends to pursue the qualification of Chartered Accountant. Number: One. Value: $200.

Part-time Students Scholarship/Bursary Fund: The L.E.S.A. has placed funds on deposit with the Foundation to enable part-time students to receive a limited number of scholarship/bursaries. Apply to Director, Financial Aid.

Loan Funds

Through the generosity of the Birks Family Foundation, the B'nai B'rith Hillel Foundation and the National Council of Jewish Women, a certain amount of money has been placed with Loyola Campus to help students who demonstrate need and responsibility. Apply to Director, Financial Aid, Loyola Campus.

18.3.3 SIR GEORGE WILLIAMS CAMPUS ONLY

Undergraduate Scholarships

Note: These awards are made on the basis of academic standing and recipients are selected from the academic honors list. No applications are necessary unless otherwise indicated.

Association of Alumni Presidents' Scholarship: A scholarship in the amount of $100.00 is awarded to any student in any year or faculty on the basis of outstanding academic achievement during the preceding academic year.

Compton-Lamb Memorial Fund: This scholarship established in memory of the late Nail Compton and Sidney Lamb shall be awarded annually in the Department of English. The recipient must be registering in the last five courses of an English Honors Programme. Application should be made to the Chairman, Department of English.

Henry F. Hall Scholarship: Established by the Faculty and Staff of Sir George Williams University in recognition of the many years of service given to the University by the late Dr. Henry F. Hall. This scholarship is awarded annually on the basis of merit to a student in any faculty of the University day or evening division.

Lucille Irvine Memorial Scholarship: This scholarship is awarded annually on the recommendation of the Chairman, Department of Psychology to an outstanding student of Psychology in either the day or evening division. This scholarship was established by Mrs. William Brody in loving memory of the late Lucille Irvine, a devoted teacher and a former member of the university staff.

Kodak Scholarship: These scholarships will be awarded to Cinema students of outstanding merit upon the recommendation of the Faculty of Fine Arts.

HeLEN McNicol Art Prize: This prize is to be awarded in alternate years to third year students who have shown exceptional talent in Visual Arts and to third year students who have excelled in Art History (preferably Canadian or North American). Both selections are to be made upon the recommendation of the Faculty of Fine Arts. Value according to funds on hand.

Myer F. Pollock Scholarship: Awarded annually to a student in the Faculty of Engineering on the basis of high Scholastic achievement. The value of this award fluctuates depending on the current interest rates.

The P.T.P. Pugsley Memorial Scholarship: Established by friends of the late Professor Pugsley to commemorate his many years of service as senior Professor of the Faculty of Commerce of Sir George Williams University. The scholarship of $150.00 is awarded annually to an outstanding student in the Faculty of Commerce, day or evening division.

Weldon Scholarship: Awarded annually to a deserving student in the Faculty of Engineering. The value of this scholarship fluctuates depending on the current interest rates.

Zeller's Scholarship: One scholarship of $100.00 can be awarded on the basis of high scholastic achievement in the third year of the Commerce degree curriculum.

Undergraduate Scholarship-Bursaries

Note: These awards are made on the basis of financial need and high academic standing. Applications for these awards should be forwarded to the Financial Aid Officer unless otherwise stated.

Association of Alumni Scholarship-Bursary: $100.00 is awarded annually to an undergraduate student in any faculty on the basis of need and academic standing.

Joel Birenbaum Memorial Bursary: This bursary of $450.00 is awarded each year, in memory of Joel Birenbaum, a student of Sir George Williams University. This award will be made to a needy, worthy student in the Science Division. The value of this bursary may fluctuate depending on the current interest rates.

Donald Buchanan Scholarship/Bursary: This award should be based on academic achievement coupled with financial need. Awarded to a student in any Faculty.

Henry I. Chinks Memorial Scholarship: Awarded annually on the basis of need and academic standing to an evening student in the Faculty of Science, in the field of Chemistry. Recipient is chosen by the Chairman, Department of Chemistry.
The available spices of the Arts Club of Montreal is

Mr. $750. Is to be awarded to a student entering the Faculty of Fine Arts based on academic excellence and financial need.

Joseph Gilbert Joyce Memorial Scholarship: This scholarship or bursary shall be awarded to an undergraduate student who has completed at least one year at Concordia University, Sir George Williams Campus. Selection shall be made based on academic standing and financial need. This award is based on academic standing and financial need.

Marsh & McLennan Centennial Scholarship: The Marsh and McLennan Limited Centennial Scholarship or bursary shall be awarded annually to an undergraduate student who has completed at least one year at Concordia University, Sir George Williams Campus. Selection shall be made based on academic standing and financial need. This award is based on academic standing and financial need.

Nathan H. Messer Scholarships: Two scholarship-bursaries shall be awarded annually to needy, worthy students entering their final year and majoring or honoring in Accounting.

The Tony Robinson Career Enhancement Scholarship/Bursary: To be awarded to an applicant forty years of age or older who plans to engage in full-time or part-time studies toward an undergraduate degree or diploma. The applicant may be a landed-immigrant or Canadian citizen who needs to engage in a university program to change or upgrade his/her career qualifications, or a person who had an interruption in his/her university program and now wishes to continue. Applicants for this scholarship assistance in the amount of $150 will be considered on the basis of merit and financial need.

Walter Stenhouse Bursary: This bursary of $750.00 established by Mrs. E. Pavey and Mrs. J. Tombs, and awarded under the auspices of the Arts Club of Montreal, is available annually to a final year student in the Faculty of Fine Arts. Apply to the Fine Arts Faculty.

A number of scholarship/bursaries are to be awarded through the generosity of an anonymous donor to students in the Arts division of the Sir George Williams Campus.

Undergraduate Bursaries:

Note: These awards are made on the basis of financial need subject to a passing grade. All applications should be submitted to the Financial Aid Officer unless otherwise indicated.

Birks Family Foundation Bursaries: These bursaries are available to students recommended by the University, in any faculty. They may be renewed annually until graduation to successful students. The number and amount of awards may vary from year to year depending on the funds available from the Foundation.

The Ethel Campbell-P.E.O. Memorial Bursary: Established by Colin C. Campbell in loving memory of his wife, Ethel May Routledge Campbell, and in recognition of her dedication to the aims, objectives, and moral principles of the P.E.O. Sisterhood. This award is to assist a female student toward the financing of her university programme.

The J. P. Copland Memorial Bursaries: In the day and evening sessions to be awarded on the basis of financial need and academic standing.

St. Andrew's Society Bursary: $200.00 — Established by the St. Andrew's Society of Montreal, for a needy student, preferably of Scottish blood, proceeding to a degree. Administered by the St. Andrew's Society. Apply: Director, Financial Aid.

Theodore Ronis Memorial Bursary: This bursary of $50.00 is established by the friends of the late Theodore Ronis to perpetuate the memory of his friendship through the annual gift of a bursary to a deserving student. The recipient should be studying preferentially but not necessarily towards a Bachelor of Commerce degree, and be a male student.

Royal Albert Lodge Bursary: The sum of $400.00 to be awarded as scholarships and bursaries to a) children of members of the Royal Albert Lodge, b) children of members of other Masonic Lodges. If neither A or B qualify, any worthy student may apply and receive the scholarship or bursary.

Student Loan Fund:

The Sir George Williams Loan Fund is administered by the Office of the Dean of Students. Its operation is dependent upon the availability of funds. The Fund provides students with short-term financial assistance. The maximum loan is normally $150.00 for a period not exceeding 90 days. Students are welcome to use the Fund as many times as is necessary; however, they may not have two loans outstanding at any one time.
18.4 Student Life and Student Services

Loyola Campus

Acting Dean of Students
Brian T. Counihan, BA MEd

Assistant Dean
Bluma Litner, BA MA

Financial Aid
Freda Haffey

18.4.1 STUDENT LIFE AND STUDENT SERVICES

Many para-academic and out-of-class programmes are organized on each campus under the auspices of the Dean of Students. These programmes are designed to enrich students' cultural and social life and broaden their university experience.

Also available are special services such as legal aid, health centres, and housing bureaus.

The Concordia Council on Student Life, a body responsible for student service policies and budgets, studies the range of student life on both campuses. It is composed of 15 students, 5 faculty members, 10 members of the student services staff, and one nonvoting member of the Board of Governors. Its meetings are open to all members of the university community.

18.4.2 PROGRAMME DEVELOPMENT

The Programme Development Office explores the area of education and the process of learning outside the classroom. A number of on-campus workshops and sessions are sponsored each year.

The Programme Development Office is located at Loyola, AD-135, Telephone 482-0320, ext. 341/343.

The Lacolle Centre for Educational Innovation is an off-campus facility located 40 miles from Montreal near Lacolle, Quebec. It provides an environment in which students, faculty and staff may explore new areas of learning outside the confines of the classroom.

The Montreal Lacolle Centre office is at 2492 West Broadway, Telephone 482-0320, ext. 344/494.

18.4.3 SOCIAL AND CULTURAL ACTIVITIES

Orientation

Orientation is designed to familiarize new students with the various services and facilities available to them, and to help new students resolve any problems which may be encountered during their introduction to university life.

Social and Cultural Activities

Among other social and cultural activities available are Lunchtime Listening, a Light Entertainment Series, and a Workshop which offers instruction in photography and silk screen printing.

There is a students' cafeteria and pub on each campus. The Loyola Campus Centre also provides lounge facilities and a games room.

Assistant Deans
Jack Hopkins, BA MSW
Douglas Ingleay, MSc
Joan Richardson, BA

Financial Aid
Marie-Claude Brault, BA

International Student Adviser
David Chan, BFA

18.4.4 HEALTH SERVICES

The Health Centre is staffed by registered nurses and doctors and is run on a clinic programme. It is open Monday through Friday with a varying schedule of doctor coverage. Multiple, paramedical, and referral agencies in the immediate downtown area are utilized, as well as the general hospitals.

To be seen other than in an emergency situation or for an acute problem, please telephone for an appointment. (Generally there is only one day's wait).

Services of the Health Centre are available to all staff, students and faculty members, full or part-time.

Loyola Campus

Centennial Building
Telephone: 482-0320 ext. 480
Office Hours: 9:00 a.m. to 7:00 p.m. Monday to Thursday, 9:00 a.m. to 5:00 p.m. on Friday
Closed from 12:00 a.m. to 1:30 p.m., Monday to Friday, except for emergencies.

Sir George Williams Campus

2145 MacKay Street
Telephone: 879-4010, 4011, 4012
Office Hours: 9:00 a.m. to 10:00 p.m. Monday, Tuesday, Thursday during University terms and Summer sessions.
9:00 a.m. to 8:30 p.m. Wednesday
9:00 a.m. to 5:00 p.m. Monday to Friday at all other times.
18.4.5 LEGAL AID

Legal advice and help are offered to all students who may require assistance on matters relating to their legal rights. An appointment to see a lawyer can be arranged on either campus. Commissioners of Oaths are also available.

Loyola Campus

Sir George Williams Campus

Legal Information Office
Dean of Students Office
Hinston Hall, Room 228
Hall Building, Room 405
Telephone 482-0320, Telephone 879-5980
ext. 512

18.4.6 FOREIGN STUDENTS

Foreign Students' Health and Accident Insurance: Students who are neither Canadian citizens nor landed immigrants are not eligible for the provincial medical programme. The high cost of hospital care in Quebec has prompted Concordia to arrange for an insurance policy which covers hospital expenses up to $6,000.00 incurred as the result of accidental injury or an illness. The premium for this policy is approximately $110. This policy is COMPULSORY for all Foreign Students attending Concordia as full-time students. The plan provides either single or married coverage. Students from the United states who have comparable coverage at home may be exempted. For details about the coverage or exemption, contact the Foreign Student Adviser at Student Services.

Foreign Students' Finances: PLEASE NOTE THAT TUITION FEES FOR FOREIGN STUDENTS ARE $750 PER SESSION OR $1500 FOR THE SEPTEMBER TO MAY ACADEMIC YEAR. It is most important for a student to have sufficient financial resources to cover his total expenses for at least one year of study. AS YOU ARE NO DOUBT AWARE, IMMIGRATION REGULATIONS NORMALLY DO NOT PERMIT STUDENT VISA HOLDERS TO ACCEPT ANY FORM OF EMPLOYMENT DURING THE ACADEMIC YEAR. A guideline of expenses which a student may expect to incur, in addition to his tuition fees, follows: (It should be noted that these figures can be considered minimal).

Books and Supplies $ 300.00
Lodging $1400.00
Food $ 900.00
Insurance $ 100.00
Clothing $ 300.00
Miscellaneous $ 400.00
Plus Tuition Fees
Cost for one year (approximately) $4900.00

These costs have been calculated on the value of Canadian currency and cover only the academic year.

Overseas students are expected to present evidence to immigration authorities that they have adequate funds for their studies in Canada.

CONCORDIA OR THE CANADIAN GOVERNMENT DOES NOT GIVE FINANCIAL ASSISTANCE TO OVER-SEAS STUDENTS. YOU MUST BE A CANADIAN CITIZEN, OR LANDED IMMIGRANT, OR HOLD A VALID WORK PERMIT IN ORDER TO WORK IN CANADA.

18.4.7 RESIDENCE AND HOUSING

RESIDENCE — Loyola Campus

On campus accommodation is available for 240 day division students. The versatile facilities can house students in a traditional dormitory style or apartment-suite style room; there are both co-ed and single sex floors.

While every effort is made to meet students' requests for single rooms, or for particular rooms or halls, assignments can be made only as space allows. With the rooms on campus very limited, acceptance to the University does not guarantee admissions to residence. A separate application for on-campus housing must be sent to Mr. David Chanter, Director of Housing, 156 Hinston Hall, Loyola Campus, Concordia University, 7141 Sherbooke Street W., H4B 1R6.

Preference is given to students taking courses on the Loyola campus.

Residence Fees

General: Rates for rooms are the same at both Hinston Hall and Langley Hall. These rates do not include meals. Meals may be contracted for separately.

RESIDENCE SINGLE DOUBLE
Room* $ 950 $ 850
Activity Fee* 25 25
Damage & Development Fee* 15 15
Damage Deposit 10 10 (refundable)
TOTAL 1,000 900

*Payable at registration and subject to change.

A room deposit of $50 must accompany each application and will be deducted from the payment due on entrance. This does NOT guarantee a room. DO NOT ASSUME THAT YOU ARE ACCEPTED INTO RESIDENCE UNTIL YOU HAVE RECEIVED A LETTER OF ACCEPTANCE FROM THE RESIDENCE OFFICE.

The money will be refunded if the student is not accepted or cancels the room reservation by August 15. Students cancelling after the August 15 deadline will forfeit the $50 deposit.

The room contract covers the rental of linen, blankets and pillows.

Residence fees may be paid in two installments. The first installment covering the first term, including compulsory fees, must be paid at registration. The second must be paid before January 10.

No student will be allowed into residence until his or her account has been settled, and a receipt covering at least the first term must be shown to the Director of Housing.

Fees do not cover the Christmas holidays. Students who intend to remain in residence over the holidays are required to apply to the Director of Housing by December 1st. There is an extra charge for remaining in residence in this period.

93
Cheques should be made payable to Concordia University. In cases where cheques are returned to the University marked "Non Sufficient Funds", there will be a $5.00 charge. A $15.00 surcharge will be added to all fees unpaid on January 15. Post-dated cheques will not be accepted.

The University reserves the right to make changes without notice in the published scale of fees.

To ensure favourable consideration, your application should reach the Director of Housing before June 1.

OFF-CAMPUS HOUSING

Students who wish to live off-campus may consult the off-campus housing service, which provides a listing of available rooms and apartments.

Loyola Campus  Sir George Williams Campus
Hingston Hall  Office of the Dean of Students
Room 156  Hall Building, Room 405
Telephone 482-0320, ext. 528/529  Telephone 879-5980, ext. 528/529

CHILD CARE

Child Care Services are offered for children of students, faculty and staff. Parents may enroll children 2½ to 5 years of age in the Child Care Centre located at 2305 St. Marc St. Application forms and details may be obtained at the information desk in the Hall Building or at the Centre. Telephone 879-4577.

18.4.8 CAMPUS MINISTRY

A major concern of the campus ministry is to deepen personal awareness and awaken a sense of social responsibility both within the university community and outside.

During the academic year chaplains representing different religious heritages organize various programmes of interest to the university community and are also available for personal religious guidance and counselling.

Loyola Campus  Sir George Williams Campus

18.5 Rights and Responsibilities — Ombudsmen’s Offices

CODE OF CONDUCT (NON-ACADEMIC) — CONCORDIA UNIVERSITY

PART I

General
1. The Concordia University Code sets out regulations and procedures for handling formal complaints made by one member of the University against another member, either personally or on behalf of the University. The ombuds operation is part of the code, and the whole is subject to a supervisory board.
2. The Code applies to all the premises of the University, whether owned or rented, and to activities conducted elsewhere by the University or by a body responsible to the University.
3. The code applies to all students, faculty and staff of the University, whether full-time or part-time. Both independent and Continuing Education students are included. However, persons working on University premises under contractual agreement between the University and their direct employer, such as the employees of catering and maintenance services, do not come within the code.
4. The code does not replace or supersede the terms of tenure and associated regulations, the University grievance procedure, or any collective agreement signed by the University. The code does not replace or supersede any of the academic regulations of the University or the regulations of the University library. However, the mandate of the ombuds office includes the right of inquiry into the application of any regulations apart from those covered by a collective agreement with a certified bargaining unit.
5. Disciplinary authority in the University is vested in the Board of Governors. It remains the duty, as well as the right, of faculty members and administrators to exercise such authority in areas or matters within their own jurisdiction. Faculty members are expected to take whatever immediate action is needed to ensure the continuing order of their courses and administrators to take whatever immediate action is needed to ensure the proper functioning of the services or areas for which they are responsible.
6. The Rector, as chief administrative officer of the University, and only the Rector or his duly appointed delegate, has the right to suspend temporarily a student or member of the faculty or staff consequent upon action taken in line with paragraph 5. In the event of such a temporary suspension, appropriate procedures for final disposition of the situation will be set in motion as soon as possible.
7. Although faculty members or administrators may take immediate action of the kind referred to in paragraph 5 above, a person against whom such action is directed and who believes the action unjustified may have recourse to the complaint procedures.
8. All those who study, teach or work at the University are subject to the laws of the land, and have recourse to those laws. The same holds true for the University as a corporate entity. Should an act appear to infringe an individual’s legal rights, that individual can decide whether to take legal action irrespective of whether recourse has been had to the provisions of this code. Similarly, the University, acting through its authorized representatives, has the right at any time to take whatever legal action is deemed appropriate.
9. Should there arise doubt or ambiguity regarding any provision in these regulations, or the procedure to be followed, that interpretation or procedure shall be adopted that appears most equitable, consistent with the philosophy and general purposes of the code.

Governed Principles
1. The University is an institution of higher education dedicated to the pursuit of truth and to the advancement and dissemination of knowledge. All those who study, teach or work at the University must be concerned with maintaining the freedoms essential for these purposes, notably the freedoms to teach; to engage in research and to create; to learn; to study; to speak freely; to associate and to assemble; to write and to publish. The rights deriving from these freedoms cannot be maintained unless related responsibilities are accepted.
2. The University has the rights of a duly incorporated institution of higher education, and it has responsibilities to those who are part of it, as well as to the community at large. Each member also has rights and responsibilities — in relation to other persons, the institution and the community. Mutual consideration is vital if the freedoms are to be preserved.
3. Members of the University shall have regard in particular for the rights of other members to: freedom from discrimination on such grounds as sex, creed or racial or ethnic origin; freedom from violence and intimidation; access to University premises; respect for property, whether personal or owned by the University for the benefit of the community; confidentiality of personal information.

Administration of the Code
1. Any person who wishes to make a formal complaint must deliver the signed complaint in writing to the code administrator.
2. The individual complained against must be named, and the cause of the complaint must be stated with precision, detailing date, time and place.
3. The complaint must be delivered within a reasonable time of the alleged act, incident or other cause, and in no case more than two months after it. However, when the complaint involves an allegation of deception
or dishonesty, this delay will begin to run from the date of discovery of the alleged deception or dishonesty.

4. On each campus there will be a code administrator, appointed by the Rector acting on the recommendation of an advisory committee composed equally of students, faculty and staff. The same person may fill the position on both campuses. The appointment will be for two years, and be renewable.

5. The code administrator will ensure that all complaint procedures are properly carried out.

6. The code administrator will issue yearly a public report indicating the nature and extent of the complaints received and handled, while protecting the anonymity and confidence of any individuals.

7. The code administrator will direct complaints against a member of the faculty or the staff to the appropriate authority under the General Complaint Procedures. (Part III.)

8. Complaints against a student will normally be handled under the Hearing Board System. (Part II). However, the code administrator has the authority to decide that the nature of a complaint against a student is grave enough to warrant directing it to the appropriate authority under the General Complaint Procedures (Part III).

9. The code administrator also has the authority to investigate a complaint against a student and to attempt to settle that complaint before referring it to the Hearing Board System. In performing this function, the code administrator has the authority to impose a sanction within the range and regulations set for the Hearing Board System. (See Part II, paragraph 6 below.)

10. The code administrator will inform both parties in writing of the findings of any investigation conducted under paragraph 9 above, including any sanction that is imposed.

11. If either party then refuses to accept either the findings or the sanction, the code administrator will forward the complaint to the Hearing Board System.

**Part II**

**Hearing Board System**

1. The two-stage system on each campus consists of campus boards and appeal boards.

2. Members of the boards will be drawn from a pool of 30 students — 15 from each campus. Members may sit on either campus, but the majority on any board will be drawn from the campus concerned.

3. The pool will be named annually, after due public call for candidates, by a nominating committee composed of two representatives of the Student Council, one of each of the DSA and the LSA, and one of each of the GSA, the EASA and the Advisory Committee on Part-Time Student Affairs.

4. A campus board, composed of three members and staff, may hear any complaint forwarded to it by the code administrator, and find either for or against the student complained against. A campus board has the authority to impose sanctions as set out in Section 6 below. An appeal may be taken against the decision of a campus board, whether on the finding or the sanction.

5. An appeal board, composed of five other members, will hear any appeal against the decision of a campus board. It will either confirm, reverse or modify the finding of the campus board, and confirm, reverse or modify the sanction. It has the authority to require a re-hearing by another campus board. There is no further appeal from a decision of the appeal board.

6. Hearing boards may impose sanctions within the following limits: a fine not exceeding $100; a deposit, returnable at a specified date, not exceeding $200; payment of compensation for physical damage or loss not exceeding $500; exclusion from an area or function of the University for a stated period of time. If this exceeds twelve months, the sanction will be reviewed by a campus board at the end of each twelve-month period. (This sanction does not encompass the authority to suspend from any academic activity.)

7. The code administrator is responsible for the operation of the hearing boards, including convening each board as it is required and arranging for the appropriate recording of procedures, and ensuring that all complaints, notices, decisions and appeals are properly processed.

8. Each hearing board will sit as soon as possible, and generally, within fourteen days of the referral of a complaint or appeal to it by the administrator. The parties will receive at least seven days notice in writing of the sitting and copies of the complaint or appeal.

9. Each hearing board will deliver its decision in writing to both parties as soon as possible and, generally, within seven days of the conclusion of a hearing.

10. An appeal against a decision of a campus board must be lodged in writing, setting forth the grounds for the appeal, within fourteen days. The delay may be extended in exceptional circumstances by the code administrator.

11. The decision of a hearing board, if it is not unanimous, will be by majority vote.

12. Hearings will be closed and confidential unless a board, with the written consent of both parties, decides to admit members of the University community.

13. At a hearing by a campus board or an appeal board both parties have the right to be accompanied by an adviser, who may speak on their behalf.

14. At a hearing by a campus board both parties have the right to present witnesses.

15. In all other matters the hearing boards will determine their own procedures.

**PART III**

**General Complaint Procedures**

1. Where a complaint is to be handled under the General Complaint Procedures, the code administrator will forward it to the appropriate authority. Once a complaint has been so forwarded, the code administrator will not participate either in the enquiry into the complaint or in the imposition of sanctions.

2. A complaint against a member of faculty or a person employed in a Faculty will be forwarded to the appropriate Faculty Dean or Divisional Dean.

3. A complaint against a student will be forwarded to the appropriate Faculty Dean or Divisional Dean.
4. A complaint against the Rector will be forwarded to the Chairman of the Board of Governors.

5. In the event of a complaint against any other employee of the University, the appropriate authority is the senior administrator in the following list to whom the person complained against reports most directly:

   Rector  
   Vice-Rector, Academic (Commerce and Administration, Engineering, Fine Arts)  
   Vice-Rector, Academic (Arts and Science)  
   Vice-Rector, Administration and Finance  
   Assistant Vice-Rector and Treasurer  
   Assistant Vice-Rector, Physical Resources  
   Assistant Vice-Rector, Relations and Audit  
   Assistant Vice-Rector and Director of Libraries  
   Vice-Rector and Principal of Loyola Campus  
   Assistant Vice-Rector and University Registrar  
   Assistant Vice-Rector, Admissions and Liaison  
   Director of Guidance  
   Director of Athletics  
   Dean of Students, Sir George Williams Campus  
   Dean of Students, Loyola Campus

6. Where a complaint against a student is dealt with under these general complaint procedures, the code administrator will inform the appropriate Dean of Students. If the complaint is against a graduate student, the code administrator will also inform the Dean of Graduate Studies.

7. If one of the persons named as an appropriate authority has lodged a complaint against a person within his or her sphere of authority, that complaint will be forwarded to the complainant's own superior.

8. The appropriate authority will acknowledge receipt of the complaint as expeditiously as possible and send copies of such acknowledgment to the person complained against and the code administrator, as well as to the Dean of Students and to the Dean of Graduate Studies when applicable.

9. The complaint shall be inquired into in whatever manner the appropriate authority considers suitable. The appropriate authority may conduct the inquiry personally or may assign it to another individual or to a committee. If the appropriate authority or the individual or the committee decides that the allegations are founded in whole or in part, the appropriate authority shall take whatever action is deemed suitable in so far as he or she is empowered to do so, or recommend such action to those who have the power to implement it. If the inquiry has been assigned to an individual or to a committee, the appropriate authority may also assign to that individual or committee the function of taking or recommending appropriate action. Since a student can be suspended or expelled from the University only by action of the Rector, any such recommendation must be forwarded to the Rector. (Should it be recommended that a faculty member be dismissed, the disciplinary provisions of the Regulations relating to Termination of Employment and Suspension of Faculty Members and not the provisions of paragraphs 12 to 17 below shall apply.)

10. Both the complainant and the person complained against must be given the opportunity to make any relevant representations, in person or in writing as they see fit.

11. The decisions referred to in paragraph 9 must be written, signed and dated, and must be reasoned. The appropriate authority shall deliver such decisions to the complainant, the person complained against, the administrator to whom the appropriate authority reports and the code administrator as well as to the Dean of Students and the Dean of Graduate Studies when applicable. The Chairman of the Board of Governors shall deliver any decisions to the Board as a whole.

12. Both the complainant and the person complained against have a right of appeal to the Board of Governors. A written and signed notice of appeal must be delivered to the Secretary of the Board of Governors within fourteen days of the rendering of the decision appealed against. This delay may be extended in exceptional cases by the Board upon an application in writing, but it shall not be extended unless the appellant could not reasonably have acted within the fourteen days. The appeal may be taken against either the decision on the merit or against the action taken or recommended, or against both. The notice must state in clear and precise terms the grounds on which the appeal is based.

13. The Secretary of the Board of Governors shall send without delay copies of the notice of appeal to the appropriate authority responsible for the decision which is being appealed, to the opposite party and to the code administrator as well as to the Dean of Students and the Dean of Graduate Studies when applicable. The appeal shall be placed on the agenda of the next meeting of the Board.

14. Should the appeal be lodged by the complainant, or should it be lodged by the person complained against in a case where action other than a sanction of suspension, expulsion or dismissal has been imposed or recommended, the Board of Governors shall decide whether to deal with it directly or to set up a review board, composed of persons from either within or without the University or from both, as the Board of Governors judges fit. The decision of the Board of Governors in the former case or of the review board in the latter case shall be final.

15. Should the person complained against wish to lodge an appeal in a case where a sanction of suspension, expulsion or dismissal has been imposed or recommended, he or she may elect that the appeal be dealt with according to the procedure set out in the above paragraph or may require the Board of Governors to appoint a committee of three persons from outside the University, one of whom must be a lawyer not otherwise in the employ of the University, to hear the appeal. The decision shall be final.

16. Where the choice referred to in paragraph 15 is not made, the Board of Governors shall decide whether to deal with the appeal according to the procedure set out in paragraph 14 or that set out in paragraph 15.

17. The Secretary of the Board of Governors shall communicate the decision in writing to the persons referred to in paragraph 11.

18. Wherever an official of the University is unable to exercise his or her functions, they will be carried out by that official's replacement.

19. Apart from the requirements to inform
PART IV
Ombudsman

1. There will be an ombuds office on each campus staffed by one full-time and one part-time ombudsman. The ombudsmen will be appointed by the Rector, acting on the recommendation of an advisory committee composed equally of students, faculty and staff. Appointment will be for two years.

2. Each part-time ombudsman, who must be a person already in the employ of the University, will be eligible for reappointment on the recommendation of an advisory committee. Each part-time ombudsman will be partially released from his or her other duties, or be appropriately compensated.

3. Anyone who studies, teaches or works at the University has the right to apply to the ombuds office. The members of the office will decide who will handle any particular application.

4. The ombudsmen are free to inquire into any matter brought to their attention, and to make whatever recommendations they judge appropriate. If all the ombudsmen agree, they are also free to inquire into a matter that has not been the subject of a specific application.

5. A part-time ombudsman will avoid personal involvement in any case where there may be a conflict of interest and will refer such a case to another ombudsman.

6. On the conclusion of an inquiry, an ombuds office will provide the individual who applied for its services with a written report on its disposition of the matter.

7. The ombudsmen have the right to refuse to take up any case where they judge their intervention would be inappropriate. They will provide the applicant with a written statement of the reasons.

8. Recommendations of the ombudsmen may bear either on the actions or decisions of an individual or group or on the policies and practices which gave rise to such actions or decisions.

9. Any application to an ombuds office and any consequent inquiries or recommendations shall be treated as confidential unless all the parties involved expressly agree that the information be made public. Notwithstanding the above, the ombudsmen are entitled after an enquiry to publicize their recommendations if they all agree that the response to these was unsatisfactory.

10. The ombudsmen shall have immediate access to all University records, reports or other documents other than those which cannot be released for reasons of confidentiality. An ombudsman can appeal the decision of an officer of the University with regard to confidentiality to the Board of Governors. The ombudsmen will maintain the confidentiality of any confidential materials to which they have access.

11. The ombudsmen will issue yearly a public report indicating the nature and extent of their operations, while protecting the anonymity and confidence of any individuals.
19 Student Associations
19.1 Student Associations

19.1.1 FULL-TIME STUDENTS

Loyola Students' Association

The Loyola Students' Association (L.S.A.), an incorporated body since 1966, represents all full-time students on the Loyola Campus. Fees of the Association were $30 in both 1977-78 and 1977-78.

The major goals of the L.S.A. are to represent and work for our membership in academic, organizational, and social activities. Students at Concordia have a lot of representation on all kinds of University Bodies. It's the L.S.A. who appoints these people to sit on the Board of Governors, University Senate, and Faculty Councils. These are the bodies which decide curriculum and academic regulations.

Internally, the L.S.A. is composed of three elements: the Executive, the Board of Directors, and Student Senate.

Executive: The Executive is headed by two generally elected Co-Presidents. They, in turn, choose their cabinet made up of Vice-Presidents. They are: Campus Services, Education, Financial, Information Services, Internal and External Vice-Presidents. Each is responsible for one area of the Association.

Board of Directors: The Board is the legislative body of the L.S.A. It is composed of 17 members elected annually. Representation is made per faculty, thus: 1 Fine Arts Student, 7 Arts students, 5 Commerce Students, 3 Science Students, and 1 Engineering Student. The Board meets regularly throughout the school year and votes on legislation introduced to it.

Student Senate: The Student Senate is the judicial wing of the L.S.A. It has jurisdiction over matters affecting student discipline and interprets the L.S.A. Constitution if there is need. It acts as guarantor of students' rights as defined by the Bill of Rights of the L.S.A.

Member Associations: The L.S.A. has over 30 member-associations. These are based on Departmental lines (e.g., the Psychology Students' Association) and others on Cultural lines. All carry out their own yearly programme of activities and are directly funded by the L.S.A. These associations exist to supplement the students' education as well as to make sure the student's voice is heard at the Departmental level.

Student Media: The L.S.A. has four publications and one Radio Station. The weekly student newspaper, the Loyola News, publishes 24 issues during the school year. Three yearly publications are the Campus Orientation Program Book, the Handbook and Student Directory, and in February, the Carnival Handbook. Radio Loyola broadcasts 15½ hours per day over the campus. All these media are student owned (through the L.S.A.) and student operated for students.

Offices: Offices of the L.S.A., the Student Media, and member associations can be found at 8931 Sherbrooke St. W. just east of the main campus. The L.S.A. can be contacted by telephone at 482-9280.

Sir George Williams Day Students' Association

The D.S.A. is comprised of all full-time undergraduates of the Sir George Williams Campus. It has three basic goals — to provide services and activities needed by students, to act as the spokesman for students in the University, and to provide opportunities for student involvement.

A student fee finances the operation — therefore, priority is placed on giving the students what their money is worth in services and activities. A large part of the budget goes into programming, media, and orientation.

There is another need — the wants and desires of the students in the University. Whether it is in the academic or para-academic field, the D.S.A. can be YOUR tool to make your voice heard. Most university bodies have student representatives on them. In addition, the small size of Sir George and its tradition of being especially oriented towards students gives the D.S.A. an advantage few associations have.

But most important of all, the D.S.A. needs involvement. If you have a gripe, come down to the D.S.A. office. If you want to gain some experience in budgeting, management, politics, law, public relations, or who knows what else, then the D.S.A. is the place for you. Or if you're just fed up with sitting on the sidelines, then walk right in. The D.S.A. needs you.

The D.S.A. is governed by a council made up of representatives from each faculty in proportion to their enrolment. Elections are held in March. Then the executives are chosen by election from within the new council.

There are also associations in each faculty: commerce, Fine Arts, Arts, & Science and Engineering. Besides acting in basically the same way as the D.S.A. within their own milieu, they also sponsor departmental clubs. Elections for their councils are in March. They are financed by a fee collected directly from their students.

Student Services: Close cooperation between the Dean of Students Office and the D.S.A. is a tradition at Sir George. Together, the two ensure that students' rights are not violated. Also the Concordia Council on Student Life closely oversees the funding and operation of student services. Student representatives are chosen by the D.S.A. Council.

External Affairs: The D.S.A. works closely with the other four Students' Associations of Concordia, recognizing the frequent need for student cooperation. Also, through A.N.E.O.
Part-Time Students

Loyola Evening Students’ Association

In March of 1979, the Loyola Evening Students’ Association (L.E.S.A.) was incorporated under a Quebec provincial charter. During the same period, the Association Constitution was revised to better reflect changes in Evening Student objectives since the last major change in 1969.

Objectives

1) The representation, promotion, and furtherance of the academic interests of Loyola Evening Students.
2) The encouragement of the evening students to participate actively in the Loyola community.

Organization

Through a system of class representatives, elected in the first two weeks of the Winter Session, and an Association Council (a nine member Executive and ten general Coordinators) elected in March of each year, present and future needs of evening students can be identified and acted upon.

Activities

Within the framework of Loyola, members of Council serve as representatives on the main Concordia Administrative Councils.

The Council believes it of great importance to maintain a strong representation on these committees as this participation is considered one of the most effective means of advancing Evening Student aims to the Administration.

A further strengthening of L.E.S.A. as an Evening Student body is seen in its participation in an organization of part-time university students.

Meetings and Information

The primary concern of the Association is its member students. Council members may be contacted through the answering service at 488-4048 or in writing, to 2501 West Broadway, Montreal H4B 1R6.

They are also present at:

1) Registration — to assist students to the fullest extent possible.
2) Regular meeting — to assist students to the fullest extent possible.
3) Class representative meetings of which there are at least four per year, one of which is the annual general election in March, where evening students who are not class representatives may participate as non-voting members. Details are posted on bulletin boards.

Council Executive

The titles and functions of the Executive body of Council are detailed below, enabling students to address their queries to the specific officer responsible.

President
Vice-President (Academic)
Vice-President (Communications)
Vice-President (Operations)
Executive Secretary
Treasurer
Senators

Sir George Williams

Part-Time Students’ Association

The Part-Time Students’ Association is governed by an Advisory Committee consisting of five part-time student representatives, three non-student members, and the P.T.S.A. administrator. This is the body recognized by the University for 1978-79 and authorized to represent part-time students on the Sir George Williams campus.

In the Spring Term of 1979 an election will be held among the part-time student body on the Sir George Williams campus to elect an Executive Committee of part-time students, mandated to govern their own affairs, as of September 1979.

The Part-Time Students’ Association office, situated in Room 603 of the Hall Building, is staffed by an administrator and a secretary whose function is to help part-time students with information, problems, etc., as well as to administer the programs and business affairs of the P.T.S.A. This office maintains open hours of 9:00 a.m. to 9:00 p.m. Monday through Thursday during classes, and 10:00 a.m. to 5:00 p.m. on Fridays, in the summer months, and when classes have finished. The telephone number for the office is 879-2832.

The Part-Time Students’ Association ensures continued part-time student representation on all the policy-making committees of Concordia University as one of its principal services to its constituents. Programmes are
planned to be of special interest and meaning to the lifestyle of part-time students, and to help them with study problems and other important concerns. A quiet study area is available, along with a comfortable place for relaxation and conversation, and limited typewriter use.

The Part-Time Students’ Association maintains a close contact with the Dean of Students’ Office, the Mature Students’ Centre, the Campus Canada Manpower Centre, the Campus Chaplaincy, the Office of Guidance Services and other internal and external agencies, to better serve the part-time student body. A collection of brochures, information and educational material is available from the Office.

The P.T.S.A. publishes its own brochure specifically for part-time students. It is distributed during registration and afterwards and gives details concerning the work of the Association. The staff are friendly and only too pleased to help all part-time students with any request concerning Concordia University.

19.1.3 GRADUATE STUDENTS
Concordia Graduate Students’ Association

The Graduate Students’ Association is run by graduate students who have volunteered their time not only to make life more interesting and enjoyable for students at Concordia University, but also to help better student life in all areas within the University. We are here to help you and to see that your needs are met.

Further to our involvement within the academic structures of the University, the Association sponsors two main events for the social enjoyment of the students — the Annual General Meeting and the Orientation Party. Many more activities are presently being planned for the fall. These events are being set with the sole purpose of entertain- ing graduate students and their families. If you are dissatisfied with what we are doing or have ideas to help make these events better, please let us know.

A Council meeting is held once a month and if you wish to attend please feel free to do so. There is always a need for new ideas and fresh faces.

The Graduate Students’ Association is here for you and to help you in any way we can. If you have any suggestions or problems, please do not hesitate to come up and see us at 2145 Mackay Street, room 306 or call us at 879-7219.

19.1.4 ALUMNI
Loyola of Montreal Alumni Association

The objectives of this Association shall be to advance the interests and to promote the welfare of Concordia, of the Association and its members, and to provide a vehicle through which former students of the Loyola Campus of Concordia University may maintain their interest and express their support of their alma mater, to disseminate information among former students relating to developments at the University, to foster continuing contacts between former students, and to conduct projects, organize events and to do all other things necessary and useful for the University.

During the course of the year, the Loyola of Montreal Alumni Association sponsors the Golf Tournament, the Oyster Party, the Sports Hall-of-Fame, social activities, cultural activities, sports activities, the Past-Presi­dents’ Dinner, an exchange programme between students and members of the Business/Professional community, information sessions by well-known speakers for the benefit of University students, many other events catering to both men and women graduates. The Association also sponsors the selection and presentation of the Loyola Medal to outstanding Canadians. A general meeting is held each year. At this meeting officers and directors for the coming year are elected and all other matters of general business are transacted.

Annual giving by Alumni represents the largest single source of support to universities and colleges in North America. A regular yearly contribution to the Association aids a variety of programmes at the University.

The Alumni Office is located at 7141 Sherbrooke Street West, in the Loyola Administration Building (AD-233). Information may be obtained from Mrs. V. Soles, Executive Director, Loyola Alumni Association, at 482-0320 local 421 or 313.

Sir George Williams Association of Alumi

The Association of Alumni was begun informally by the "Guinea Pig Class" of 1937, the first of many thousands to receive degrees from what was first a College and then a University, both known as Sir George Williams (now part of Concordia University). The Association was officially incorporated as a non-profit organization on September 21, 1957.

The aims and objectives contained in the charter are to preserve the fellowship of graduates of Sir George Williams; to preserve, extend and promote the interests of the University; and to assist in the furthering of student welfare.

With the merger of Sir George Williams and Loyola producing Concordia University, a new dimension has been added, and for the time being graduates of Concordia from the Sir George Williams Campus are being asked to continue their association with their alma mater through the Sir George Williams Alumni Association.

The Association is guided by a Board of Directors, numbering 30, elected from graduates of the University. Until recently, the Association financed its operations through alumni support but it recently concluded an agreement with the University whereby it joined the Development Office and is now financed through that department but retaining autonomy in all areas except campaigning.

All graduates are automatically members of the Association and receive the Concordia University Magazine (Sir George Alumni Division) from time to time. There is a special classification called "Active Members" consisting of alumni who make a financial contribution in the current year. Their support entitles them to free library privileges, special social activities such as invitations to the annual Rector’s Reception, invitations to concerts, art exhibitions etc. Active alumni members in the Toronto area receive special
privileges at York University.

From time to time the Association holds reunions when it is deemed to be timely and appropriate.

The Association of Alumni has for many years provided a special award for a graduating student who in the opinion of the Faculty and students, has made a significant contribution to campus life.

The Association’s office is located at 2150 Bishop Street and is under the supervision of Matthew Ram, BA '43. Further information may be obtained by writing the office or calling (514) 679-5898.
Centre for Continuing Education
20.1 Centre for Continuing Education

The commitment to the life-long pursuit of education is a privilege which falls, as it should, on the University. Concordia University is committed to exploring ways of accommodating its personnel and physical resources to meet the learning needs and interests of the vast number of adult learners who seek educational activities outside of the regular degree programmes of the University.

The Centre for Continuing Education at Concordia University initiates and develops courses, programmes and workshops for individuals or groups who seek educational assistance from the University. These courses are non-credit courses.

20.1.1 NON-CREDIT PROGRAMMES

A wide variety of special programmes and courses is available through the Centre for Continuing Education for individuals who are not necessarily interested in following regular graduate or undergraduate programmes. For most of these, a certificate of achievement will be issued in the name of the Centre to students who successfully complete the required work. Course offerings are reviewed and supplemented frequently to ensure that they satisfy the changing needs for professional development in the community.

20.1.2 CERTIFICATE PROGRAMMES OF BUSINESS AND ADMINISTRATION

Hospitality Management Programme

This practical programme is available to individuals who wish to receive training in the special skills required to manage hotels, restaurants, and institutional and commissary food service establishments. Each course is made up of 13 two-hour weekly classroom sessions given in the evenings. Ten courses must be successfully completed to obtain the Certificate in Hospitality Management.

Management Practices Programme

This series of courses in management and administrative subjects is offered to individuals in the business community who wish to investigate or update their skills in selected fields. Each course is made up of 8 two-hour weekly classroom sessions which are given in the evenings. Six of the courses must be successfully completed to obtain the Certificate in Management Practices.

Tourism Programme

These courses are designed to train students for responsible jobs in tourism. They are intended either for those already employed in the industry or for those considering it as a career. Both courses in the programme must be successfully completed to obtain the Certificate.

Security Administration Programme

This programme is open to individuals who wish to receive training for responsible positions in security operations at industrial sites, financial institutions, retail shopping and recreational complexes, hotels, educational and other public institutions. Courses are offered in French or in English in the evenings. Four courses make up the Programme. Each course is made up of 13 two-hour weekly classroom sessions.

Journalism, Advertising and Public Relations Programme

This practical programme is designed to serve people who want to develop their ability to communicate. All of the courses are taught by experienced practitioners — journalists, graphics specialists, public relation executives and businessmen who have worked in the media or related occupations. Each course is made up of 12 weekly two-hour sessions. Seven different courses are presently offered.

Portfolio and Investment Management Programme

This programme is intended to develop a knowledge of the investment field. It has been designed so that it will be useful to:

- professional investment personnel who wish to update or expand their knowledge of a particular aspect of investment strategy
- business and professional people who wish to develop their portfolio management skills
- individuals seeking a career in the investment finance business who need to acquire the necessary technical knowledge and investment skills
- people who want to know more about how to convert their savings into more profitable investments
The programme is based on a flexible module system. Ten self-contained modules of 4 classroom hours each make up the total programme. A participant may register for all ten modules or for one or more modules. Upon the successful completion of ten modules, the participant will be eligible for the Certificate in Portfolio and Investment Management.

20.1.3 ENGLISH LANGUAGE COURSES

The Centre for Continuing Education, in conjunction with Concordia University's Teaching English as a Second Language Centre has designed an expanded programme of English instruction to meet the needs of adult students seeking language training for professional, social and academic purposes. The programme has been divided into six independent levels. In this way, a beginner may steadily progress to an advanced level of fluency in English, while a student with some knowledge of the language may enter the programme at any suitable point. The emphasis of these courses at the beginning and elementary levels (I and II) is on providing students with a functional command of spoken English. From level III onwards more reading and writing are introduced and, also starting at this level, students requiring English in order to study at an English-speaking college or university may follow courses designed specifically to meet their needs. All classes are limited to 18 students to ensure maximum student/instructor contact.

20.1.4 MUSIC AND ARTS

This area encompasses music, dance appreciation, visual arts (Photography, film, painting, etc.) and other interest courses. As well as offering the beginner an opportunity for first-rate professional instruction in the techniques of the chosen medium, each programme also offers unusual specialized courses for the professional or serious amateur. Credit and non-credit programmes are available in various areas. Certain integrated arts courses are designed to stimulate experimental work with children and/or adults by non-traditional means; by exposure to selected materials of a chosen medium or media (sound pieces created from 'found objects').

The Practical Photography Programme offers modules of six and twelve weeks from beginning through advanced courses in the basics of camera operations and darkroom procedures through more sophisticated techniques of colour, special effects and portfolio preparation.

The Fashion Designing and Pattern Making Programme consists of six basic courses which train students in a professional manner for the fashion industry. A Programme Certificate is issued upon successful completion of the courses.

The Visual Arts programme offers interested students the opportunity to work with professional artists in the Montreal community in basic drawing, painting and life drawing. Music programmes are offered in private, shared or group instruction on all instruments and voice.

Interest courses are also available.

20.1.5 EDUCATIONAL TRAVEL PROGRAMME

The Centre for Continuing Education, in cooperation with the academic departments of the University offers a number of travel programmes for credit or on a non-credit basis. These courses which are generally scheduled between April and September, are regular Concordia University offerings under the academic direction of a faculty member. Both physical and personnel resources of academic, business and social institutions in other countries are utilized to enhance the academic and cultural components of the courses.

20.1.6 SEMINARS AND WORKSHOPS

A number of seminars and workshops are scheduled by the Centre for Continuing Education. These seminars and workshops are sponsored with the cooperation of an academic department or faculty and are aimed at meeting the needs of the community in topics that are not normally a part of the regular degree programmes.
21 Off-Campus Credit Programmes and Programmes for Teachers
21.1 Introduction

Included in this section is a list of programmes which may be of particular interest to teachers some of which fall outside the offerings of the Department of Education of Concordia University. There are also numerous specific courses which may be of interest to teachers. Potential students are advised to consult each Department.

Concordia University is prepared to offer courses off-campus from this section wherever there is sufficient demand, provided suitable lecturers are available. For further information please call 879-8402.

Teachers who have had problems obtaining scholarship from the Quebec Government for university level courses successfully completed at Concordia University should contact their local Teacher’s Association. In the event that further information is required the coordinator of teacher training and certification may be contacted at 879-8402.

21.2 Specific Programmes for the Teaching Sector

(a) Certificate Programmes
(1) Certificate in the Teaching of English as a Second Language, Elementary Option, Secondary Option (30 credits) See § 31.31
(2) Certificate d’Enseignement de l’Anglais, langue seconde.
(3) Certificate in the Teaching of Elementary Science (30 credits) See 31.29
(4) Certificate in Creative Drama and Theatre Arts, Elementary Option, Secondary Option (30 credits) See 81.10
(5) Certificate in Education (for Practising Teachers) (30 credits) See 31.12
(6) Certificate in Judaic Studies (30 credits) (See 31.28)
(7) Certificate in Library Studies (60 credits) (See 31.21)
(8) Certificate in Mathematics for Teachers (Elementary option or Junior Secondary option) (30 credits) See 31.22

Note 1: A certificate programme is one in which the courses offered are at the Bachelor level.
2. The Certificate Programmes have very specific admission requirements. Students who wish to obtain a certificate are advised not to take the courses as Independent students unless they are sure that they are admissible to the programme.

(b) Bachelor Degrees
(1) Bachelor of Arts (Major in Early Childhood Education) (90 credits) See § 31.12
(2) Bachelor of Education (English as a Second Language) (90 credits) See § 31.31

(c) Diploma Programmes
(1) Diploma in Early Childhood Education (minimum 33 credits) See Diploma Programmes, Graduate Calendar
(2) Diploma in Instructional Technology (33 credits) See Diploma Programmes, Graduate Calendar
(3) Diploma in Institutional Administration (33 credits) See Diploma Programmes, Graduate Calendar
(4) Diploma in the Teaching of Mathematics (32 credits) See Diploma Programmes, Graduate Calendar
(5) Diploma in Art Education (36 credits) See Diploma Programmes, Graduate Calendar
(6) Diploma in Theological, Religions and Ethical Studies (33 credits) See Diploma Programmes, Graduate Calendar
(7) Diploma in Library Studies (36 credits) See Diploma Programmes, Graduate Calendar

NOTE: A Diploma programme is one in which the courses offered are at a level between the Bachelor’s and Master’s degree.

(d) Master’s Degree Programmes
(1) Master in the Teaching of Mathematics (M.T.M.) (45 credits) See Graduate Programmes, etc., Graduate Calendar
(2) Master of Science in Biology (Teaching Option) (45 credits) See Graduate Programmes, Graduate Calendar
(3) Master of Science in Chemistry (Teaching Option) (45 credits) See Graduate Programmes, Graduate Calendar
(4) Master of Science in Physics (Option B) (45 credits) See Graduate Programmes, Graduate Calendar
(5) Master of Arts in Art Education (45 credits) See Graduate Programmes, Graduate Calendar
(6) Master of Arts in Applied Linguistics (45 credits) See Graduate Programmes, Graduate Calendar
(7) Master of Fine Arts (90 credits) See Graduate Programmes, Graduate Calendar
(8) Master of Fine Arts, Art History (60 credits) See Graduate Programmes, Graduate Calendar
(9) Master of Arts in Educational studies (45 credits) See Graduate Programmes, Graduate Calendar
(10) Master of Arts in Educational Technology (90 credits) See Graduate Programmes, Graduate Calendar
(11) Master of Arts in English (45 credits) See Graduate Programmes, Graduate Calendar

(e) Doctoral Programmes
(1) Doctorate of Philosophy, Art Education (90 credits) See Graduate Programmes, Graduate Calendar

21.3 Off-Campus University Credit Programmes

Concordia University offers credit courses off-campus during the winter and summer sessions. The courses are designed to be of interest to individuals who normally might not have the time to make regular visits to either campus. Students who take such courses receive credits applicable to the regular University programme in which they are enrolled.
Last year courses were given in Pointe Claire, Laval, Cowansville, St. Hubert and at various cultural centres (e.g. Saidye Bronfman Centre) throughout the Island of Montreal. Courses were offered from the Faculties of Arts and Science, Commerce & Administration and Fine Arts. In addition, courses leading to the following University level certificates were offered:

- Certificate in Mathematics for Teachers (Elementary Level)
- Certificate in the Teaching of Elementary Science
- Certificate in Creative Drama and Theatre Art (Elementary and Secondary)
- Certificate in Judaic Studies
- Certificate in Outdoor Education
- Certificate in Library Studies
- Certificate of General Studies
- Certificate in Family Life Education

Individuals interested in further information about the programmes or in establishing courses in their areas should contact the Co-Ordinator of Off-Campus Credit Courses of Concordia, Sir George Williams Campus, 1455 de Maisonneuve Blvd., Montreal, Quebec H3G-1M8.

**Admission**

Admission requirements for off-campus credit programmes are the same as for admission to the regular university undergraduate programmes. For details refer to the section on Admission Regulations. To obtain a registration kit for these courses call 879-8402.

31.120 LONGERGAN UNIVERSITY COLLEGE  
31.125 SCHOOL OF COMMUNITY AND PUBLIC AFFAIRS  
31.130 SIMONE DE BEAUVIOR INSTITUTE
31.1 Faculty of Arts and Science

Divisional Deans
W. E. AKIN (Division I)
J. S. CHAIKELSON (Division II)
M. COHEN (Division III)
R. E. WALL, Provost (Division IV)

The Faculty of Arts and Science, comprised of the former Loyola Faculty of Arts and Science, the former Sir George Williams Faculty of Arts and the former Sir George Williams Faculty of Science, was brought into being on 1 July 1977.

Curricula are now being developed that will reflect the educational objectives of the new Faculty.

For administrative purposes, the Faculty is structured in three divisions comprising academic Departments and headed by Divisional Deans, and a fourth division headed by the Provost and containing the Centre for Interdisciplinary Studies and such collegial units as the interests of students, faculty members and the community served by Concordia University to establish. The Departments and other units of which the Faculty is made up are placed within the Divisions as follows:

Division I:
Classics
Communication Studies
English
French
History
Journalism
Library Studies
Modern Languages and Linguistics
Philosophy
Teaching of English as a Second Language
Theological Studies

Division II:
Andragogy
Applied Social Science
Economics
Education
Geography
Political Science
Psychology
Religion
Sociology and Anthropology

Division III:
Biology
Bio-Physical Education
Chemistry
Geology
Health Education
Mathematics
Physics

Division IV:
Centre for Interdisciplinary Studies
Centre for Mature Students
Learning Development Centre
Liberal Arts College
LonerGAN University College
School of Community and Public Affairs
Simone de Beauvoir Institute

31.2 Programmes and Admission Requirements

General admission requirements are listed in § 13.

Specific requirements for admission to the various programmes leading to the degrees of Bachelor of Arts, Bachelor of Education, and Bachelor of Science, and to certificates, are set out in the first column of the following listings. They refer to the table of CEGEP pre-Arts and pre-Science profiles defined below. Students lacking one or more of these prerequisites may be admitted but must include the designated prerequisites among the courses followed prior to entry into the second year of their undergraduate programme. In certain cases, the prerequisites must be taken in addition to the undergraduate programme.

Profile  Requirements
0.00  Diploma of Collegial Studies
.34  To be a Registered Nurse, with authorization to practise and at least one year’s experience
.72  DEC or equivalent and appropriate teaching license
1.4  Mathematics 103, 203
Physics 101, 201, 301; or 102, 202, 302
Chemistry 101, 201
Biology 301 or 921
2.12  Mathematics 103, 105, 203
2.13  Mathematics 101, 103, 105, 203
Requirements
Mathematics (2 term courses)
Physics (2 term courses)
Chemistry (2 term courses)
Biology (1 term course)
2.2 Mathematics 103, 203
Physics 101, 201, 301, or 102, 202, 302
Chemistry 101, 201
Biology 301 or 921
2.20 Mathematics (2 term courses)
Physics (2 term courses)
Chemistry (2 term courses)
2.21 Mathematics (4 term courses)
Physics (2 term courses)
2.24 Mathematics 103, 203
Physics 101, 201 or 301; or 102, 202, 302
Chemistry 101, 201
Biology 301 or 921
2.3 Mathematics 103, 105, 203
Physics 101, 201, 301, or 102, 202, 302
Chemistry 101, 201
Biology 301 or 921
2.9 Mathematics 101, 103, 105, 203
Physics 101, 201, 301 and one term course from among
the following:
Chemistry 101, 201
Biology 301 or 921
Computer Science 900, 901
3.15 Mathematics (2 term courses)
3.9 Mathematics 103, 203
Biology 301 or 921
Psychology 101, 201
10.1 Mathematics 337; or 103, 307
Biology 301, 401; or 921
Psychology 102
10.2 Mathematics 103, 307
10.3 Mathematics 337
10.4 Mathematics 101-77, 103, 105, 203
10.5 To have reached in the language
that will be studied a level equiva­
 lent to that of 2 CEGEP courses.
If these courses have not been
available in the CEGEP attended,
the University may make up for
them.
Mathematics 103, 203
Physics 101, 201, 301-78
Chemistry 101, 201
Biology 301
Mathematics 103, 203, 105
Physics 101, 201, 301-78
Chemistry 101, 201
Biology 301
Knowledge of English
Knowledge of French
Submit a portfolio of representa­tive work
Placement test
No specific requirement, but stu­
dents should be prepared for
entry into the disciplines of main
interest. (This code does not ap­
ppear in 'Accueil 78' and is one
invented by the University.)
Programme titles refer to honours, speciali­
izations, majors and minor components
where these exist. Full information about the
programmes offered under each title (includ­ing
combinations with programmes in other
disciplines) is to be found in the section of
the calendar specified in the third column
below. Certificate programmes, indexed in the
same way, are listed in the last section,
after those devoted to the programmes that
lead to degrees in Arts, Education and
Science.

NOTE: The Calendar Sections listed in the third column contain details, where applicable, of professional qualifications required for admission.

### 31.3 Degree Requirements (Interim)

The Council of the Faculty of Arts and Science has not yet fully determined the degree requirements for the new Faculty. The following shall serve as the degree requirements for students admitted to a Faculty programme for the Summer Session of 1979 or the Fall-Winter Session 1979-80.

Up to and including the academic year 1973-74, degree programmes were expressed in terms of courses, with one credit being applied to a "full course" (normally one extending over two terms) and one half-credit being applied to a "half-course" (which was normally completed in one term).

In 1974-75, in accordance with the recommendations of the Council of Universities of Quebec, the credit base was modified to take into account the total activity of the student. A student preparing for the degree of Bachelor of Arts, Bachelor of Education or Bachelor of Science takes a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours spread across lectures, conferences, tutorials, laboratories, studio or practice periods, tests, examinations and personal work.

Since the CEGEP programmes are designed to give all students the opportunity to
explore different fields and thus acquire a broad general basis for further study, the undergraduate programmes in the Faculty of Arts and Science require of students some degree of concentration in specific areas. Detailed statements about these programmes are made under the appropriate disciplinary headings in the sections of the calendar that follow this general account of degree requirements. They represent four main forms of concentration, the minor, the major, the specialization and honours; and a fifth form, the certificate. The University's formal definitions of these kinds of programmes are set out in section 16.2; for the convenience of students in Arts and Science those definitions as they are construed in the Faculty are briefly repeated below.

The minor is a programme consisting of a minimum of 24 credits in a single discipline and professing to give a basic introduction to the methodology and key concepts of that discipline. A minor cannot in and by itself provide the concentration required of a candidate for a degree and is therefore always taken in combination with another programme.

The major consists of a minimum of 36 credits taken in an approved sequence of courses usually in a single discipline or field. In some cases the sequence may include certain approved courses in other, closely related fields. The major provides a solid grounding in the academic knowledge comprehended within the field of specialization.

A specialization consists of a minimum of 60 credits taken in an approved sequence of courses in a single discipline or field. Like an honours programme, it provides a comprehensive education in that field, but to enter and remain in it a student does not have to meet a special performance requirement (see however programmes in Community Nursing § 31.17, Inter Disciplinary Studies: self-elected Specialization § 31.19 and Library Studies § 31.21). Students interested in subsequent "classification" by the provincial government may be advised to follow a specialization or an honours programme.

An honours programme consists of a minimum of 60 credits taken in an approved sequence of courses in one of certain selected disciplines or fields, with superior performance required for admission to and continuation in the programme, the precise level of such performance being determined by Senate. See section 16.2.4 for details of the regulations governing honours programmes at Concordia. An honours degree, because it testifies to a student's comprehensive education in a particular field, intellectual commitment to that field and achievement of a high level of academic performance, has traditionally been required of entrants to postgraduate programmes.

Besides these four basic forms of concentration, there are in several disciplines and fields certificate programmes. These consist of a minimum of 30 credits, may be used as components of major, specialization and honours programmes, and in some cases are identical with minors.

Graduation requires:
(1) Successful completion of a programme of concentration in the form of an honours, specialization, or major programme.

2. (a) In order to qualify for a Bachelor of Science degree, a student must obtain a minimum of 48 Science credits out of the 90 required for the degree, not counting the additional credits required in extended credit programmes.

(b) In order to qualify for a Bachelor of Arts degree a student must obtain a minimum of 48 Arts credits out of the 90 required for the degree, not counting the additional credits required in extended credit programmes.

Classification of Credits
i) Science Credits. Unless otherwise indicated, courses offered by the departments of Biology, Chemistry, Physics, Geology and Biophysical Education are counted as Science credits. In general, courses offered by the Department of Computer Science may also be used as Science credits.

ii) Arts Credits. Unless otherwise indicated, courses offered by Classics, Communication Studies, English, French, History, Journalism, Library Studies, Modern Languages and Linguistics, Philosophy, Theological Studies, Anthropology, Applied Social Science, Education, Political Science, Religion, Sociology and Anthropology are counted as Arts credits. Courses offered by the Centre for the Teaching of English as a Second Language may also be regarded as Arts credits.

iii) Arts and Science Credits. The departments of Psychology, Economics, Geography, Mathematics and Health Sciences offer courses which may be acceptable either as Arts or as Science credits. Students are advised to consult the departmental calendar entry for these departments to determine which courses are acceptable as Science credits and which are acceptable as Arts credits.

3. In general, the credits obtained for any course may not be used to satisfy the requirements of more than one programme. Students first registered in certain Certificate programmes may however apply credits obtained toward the Certificate to a degree programme.

4. Those students entering the University after September 1, 1978 as Independent Students will be permitted to apply no more than thirty credits obtained as an Independent Student towards any Arts and Science Faculty degree programme.

Supplemental Examinations (Arts and Science)
Supplemental examinations shall be offered only where, as a condition for passing the course, it is required that a student pass the final examination regardless of its weighting, or where the final examination contributes 50% or more of the final grade.

All courses which a student fails and for which there is no supplemental examination shall be graded FFNS, FNS, 40% NS or 20% NS.
A failed student (see Section 16.3.5) may not write supplemental examinations. A student may not write a supplemental examination in a repeated course, nor may he write a second supplemental examination in the same course.

**General Certificate in Arts and Science**

The General Certificate in Arts and Science is intended primarily for part-time students who qualify for admission to first cycle programmes, but who, at the time of registration, have not yet determined which programme would best serve their interests. In particular, it is designed to meet the needs of mature students who are unwilling or unable to make the long-term commitment involved in a regular or extended degree programme.

The Certificate requires successful completion of 30 credits. At least 24 of these credits must be chosen from courses offered by not more than three departments in the Faculty of Arts and Science.

Credits earned in the Certificate may not be counted towards the additional credits required in extended programmes.

Former independent students may transfer to the Certificate Programme in Arts and Science up to twelve credits already earned provided they are students in good standing.

The General Certificate Programme in Arts and Science was first offered in the session commencing September 1978.
31.4 Andragogy

Coordinator: D. J. POTVIN

PROGRAMMES

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value:

90 BA Major in Andragogy (Loyola)
42 ANDR Elective credits
48 Elective credits

30 Certificate in Andragogy (Loyola)
15 ANDR C2006, C3013, C3033, C4013
15 ANDR Elective credits.

The Bachelor of Arts with a Major in Andragogy is awarded after the completion of 90 credits, 42 of which are in Andragogy and 48 of which are electives.

The Certificate in Andragogy is awarded after the completion of 30 credits including:

Introduction to Adult and Continuing Education, Andragogy C2006; Foundations of Adult Experience, Andragogy C4013; Curriculum Development for Continuous Learning, Andragogy C3013; The Evaluation of Adult Learning, Andragogy C3033.

The electives may be chosen from existing courses offered by the various academic departments provided that these courses have a practical or theoretical application to Adult Education. All electives must be approved by the Coordinator of the Programme. Registration in any Andragogy course is restricted to those who are actively engaged in the administration or teaching of adult learners.

Andragogy C2006 is a prerequisite to all other courses in Andragogy.

ANDRAGOGY C200
Introduction to Adult and Continuing Education

The course is designed to introduce students to basic concepts and principles of andragogy; to give an overview of the current field of adult education, its history, origins, and philosophy; and to provide an experience in some collaborative practices of adult education. (6 credits)

NOTE: This course is a prerequisite to all other courses in Andragogy.

ANDRAGOGY C201
Techniques and Methods in Adult Education

The purpose of the course is to explore a variety of techniques and methods appropriate for use in adult programmes, and to provide an understanding of their usefulness within the context of adult educational principles. (3 credits)

ANDRAGOGY C209
(Also given as Health C209)
Personal Interrelations

This course is designed to provide an orientation to the field of interpersonal relationships and human awareness, focusing particularly on relating to and working with other people. Concepts of personal growth and development will be highlighted. Conducted through weekly seminars. (3 credits)

ANDRAGOGY C301
Curriculum Development for Continuous Learning

The course will examine the philosophical and psychological underpinnings of the different models of adult curriculum planning. Students will have the opportunity to plan, carry out and evaluate a learning episode in order to evaluate planning style. (3 credits)

ANDRAGOGY C303
The Evaluation of Adult Learning

Selected evaluation concepts and techniques and an indication of how they may be used to develop, improve and assess an adult education course of instruction will be emphasized. Attention will be given to evaluation techniques that will provide the information necessary to improve a course of instruction while it is being planned and conducted. (3 credits)

ANDRAGOGY C309
Media Utilization

A previous course in curriculum development and techniques and methods of teaching is desirable prior to entrance. This course is designed for adult educators to learn the application and usage of all audio-visual equipment and to plan, design, produce, evaluate, and select audio-visual educational materials relating to the educational process. As much practical experience as possible will be attempted. (3 credits)

ANDRAGOGY C320
(Also given as BIOP C484 and Health C320, Nursing C320)
Interviewing Techniques and Counselling Concepts

Prerequisite: Andragogy C209 or equivalent. A course in which the student examines the dynamics of helping interviews, models of human effectiveness, and theories of counselling. The variety of issues to be covered include the enhancement of specific skills through different training experience, a proper emphasis on self-understanding, an awareness of the role of philosophy, ethical standards and research. This course demands a high level of observation, participation and involvement from each student. (6 credits)
ANDRAGOGY C400
Selected Topics in Andragogy
The student will pursue an area of special interest under supervision. (6 credits)

ANDRAGOGY C401
Foundations of Adult Experience
The basic theme of the course will be the recognition of adulthood as a stage in the life process which has its own unique dynamics, the understanding of which is a precursor to the development of curricula and pedagogical techniques in the field of adult and continuing education. Following a review of physical cognitive and affective processes in human development from infancy through adolescence, the course will focus on adult experience attempting to delineate the continuities and discontinuities of those processes. (3 credits)

ANDRAGOGY C408
(Also given as BIOP C486 and Health C408)
Group Structure and the Role of the Community Worker
The course is developed to assist volunteers, interested citizens, street workers, and individuals with no formal health training, but working as a part of a multidisciplinary team, to identify their roles in order to play a more effective part as a community worker. Assignments will be directed toward practical applications of field work to problem solving in a field of their choice: i.e., post-retirement, rehabilitation of drug addicts and alcoholics, single parents, etc. (6 credits)

ANDRAGOGY C421
Introduction to Research in Adult Education
The course is designed to provide an introduction to research in education. The conceptualization of a research problem, the development of hypotheses and the measurement of variables through the use of both descriptive and inferential statistics will be included. Use of computer terminals will be made for the solution of some problems. (3 credits)

ANDRAGOGY C423
Research Design in Adult Education
This course will consist of an experience in developing a research proposal. The statement of the problem, the review of the literature, the formulation of hypotheses, the design, the instrumentation, sampling, data collection, data analysis, and the significance of the study will be emphasized. The reading of recent research reports in adult education will be required. (3 credits)

PROGRAMMES

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

66 BA Specialization in Applied Social Science (Sir George Williams)
Pre-requisite: Psychology S2116, Sociology S2106
Year I
9 APSS C2126, C3516
6 PSYC S2716
6 SOCI S3106 or S3306
Year II
6 The other of SOCI S3106 or S3306
6 PSYC S2416 or SOCI S2416
Year III
15 Chosen from APSS C4136, C4213, C4316, C4413, C4516, C4526, C4716
6 Chosen from SOCI S4113, S4123, S4133, S4143, S4383, S4393
6 Chosen from PSYC S4226, S4286, S4386, S4426, S4526, S4546
6 APSS C4006

*NOTE: With permission of the Department, up to six credits may be substituted from other APSS courses.

42 BA Major in Applied Social Science (Sir George Williams)
Pre-requisites: Psychology S2116, Sociology S2106
6 APSS C2126
18 Chosen from APSS C3516, C4136, C4213, C4316, C4413, C4516, C4526
6 PSYC S2716
6 SOCI S3306
6 Chosen from PSYC S3023, S3033, S3043, S3053, S3093

*NOTE: With permission of the Department, up to six credits may be substituted from other APSS courses.

60 BA Major in Social Welfare (Sir George Williams)
6 credits in Economics
6 POLI C3706
6 Elective credits in Psychology
18 Elective credits in Sociology
12 ECON or POLI or PSYC Elective credits

Associate Professor of Psychology and Applied Social Science

R. BELENKY
D. BARNDT
A. ROSS-SEAMAN
M. TAYLOR

Certificate in Community Service

The Department of Applied Social Science offers a 30-credit programme, consisting of 18 credits of applied courses and 12 credits of foundation courses chosen as electives, leading to the Concordia University Certificate in Community Service.

Admission Requirements

General Admission Requirements are listed in Section 13.

Students must be actively involved in Community Service either as staff or as volunteers or members of boards, committees or councils of community organizations and agencies.

30 credits total

*NOTE:
1. Where indicated, students will need to take introductory courses when these are prerequisites for courses in the Certificate.
2. In the event that a student is awarded an exemption from a required course it will be necessary for the student to replace that course with another relevant to the programme, chosen in consultation with the Coordinator of the Certificate Programme.
Certificate in Family Life Education

The Department of Applied Social Science offers a 30-credit programme, consisting of 18 credits of applied courses and 12 credits of foundation courses chosen as electives, leading to the Concordia University Certificate in Family Life Education.

Admission Requirements

General Admission Requirements are listed in Section 13.

Students must be actively involved in Family Life Education through a sponsoring community agency or organization. Such persons are likely to be affiliated with the Association of Family Life Educators of Quebec.

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

APPLIED SOCIAL SCIENCE C212
Introduction to Applied Social Science

This course is an orientation to the field of applied social science with a specific focus on relating to and working with other people. It includes a consideration of personal identity, interpersonal relations and concepts of helping relationship. (6 credits) NOTE A/See § 200.1

APPLIED SOCIAL SCIENCE C321
Introduction to Social Gerontology

The course will deal with the problem of growing old in contemporary society; and with the biological, psychological and sociological dimensions of the human aging processes. The course is also designed to identify the needs of the elderly in our community and to examine approaches to dealing with these needs. (3 credits) NOTE A/See § 200.1

APPLIED SOCIAL SCIENCE C351
Understanding Group Behaviour

This is a laboratory course which includes participating in a group and analyzing such common group dynamics as leadership, communication, decision-making, member roles and sensitivity to others. (3 credits) NOTE A/See § 200.1

APPLIED SOCIAL SCIENCE C400
Introduction to Social Intervention

Prerequisite: Permission of the Department. Introduction to the principles and practice of social intervention. Approaches to social problem identification and analysis. The role of the social change agent. Elements of working with individuals, groups and communities. Laboratory periods will permit the application of course content to practice. (6 credits) NOTE A/See § 200.1

APPLIED SOCIAL SCIENCE C413
Adolescent Behaviour in Urban Areas

Prerequisite: Applied Social Science C212. A survey of adolescent values, family and group relations, social mobility, friendship patterns, educational and vocational adjustment with a focus on understanding social behaviour in urban communities. Attention will also be given to programmes attempting to enhance adolescent development and reduce social problems. (6 credits) NOTE A/See § 200.1

APPLIED SOCIAL SCIENCE C421
Leadership and Decision Making in Community Serving Organizations

Prerequisite: Second or third year standing and permission of the Department. This course focuses on the leader in community serving organizations who solves problems and makes decisions in conjunction with other people. The basic objective of this course is to increase knowledge and understanding of human behaviour in the not-for-profit organizations. The course will focus on: i) theory and research, ii) understanding of the processes of leadership and decision making, iii) behavioural skills in working with people, iv) understanding of oneself in relation to administrative responsibility. This course will rely heavily on active participation of class members. (3 credits) Note: See § 200

APPLIED SOCIAL SCIENCE C431
Group Development and Supervision

Prerequisite: Applied Social Science C212. Orientation to systematic group development in community-serving organizations. Development of understanding and skill in using group procedures to facilitate communication and decision making in small groups, classes and committees. Focus on helping others improve their functioning with groups through supervision and
training. Each student will study the development of an agency group throughout the year. (6 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C441**

**Community Development**

Prerequisite: Applied Social Science C212 or enrollment in a concentration in a social science. Orientation to systematic community problem solving dealing with communications, assessment of needs, decision-making, and intergroup relations, drawing on the contribution of the social sciences. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C442**

**Advanced Integrative Seminar in Community Organization and Animation**

Prerequisite: This course is for Certificate students only. The purpose of this course is to coordinate the other courses required by the programme and to integrate the theory derived from the contributing disciplines within an applied social science perspective. (6 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C451**

**Principles and Practices of Guidance**

Prerequisite: Applied Social Science C212, C451. A survey of typical problems, information, techniques, principles, policies and points of view useful to professional staff in community-serving organizations; focus on educational, vocational and relationship problems, and the use of counselling techniques in staff relations and supervision. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C452**

**Introduction to Counselling**

Prerequisites: Applied Social Science C212, C451. A survey of typical problems, information, techniques, principles, policies and points of view useful to professional staff in community-serving organizations; focus on educational, vocational and relationship problems, and the use of counselling techniques in staff relations and supervision. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C453**

**Sexuality and Human Relations**

Prerequisite: Third-year standing and permission of the Department. Using a variety of small group processes, the seminar will explore physical and psychosocial factors in the emergence of the sexual self. Objectives of the seminar include helping students to increase awareness of sexual values and attitudes. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C454**

**Special Seminar in Family Communication**

Prerequisite: This course is for Certificate students only. A course in marriage and family living, including decision-making, interpersonal relationships, communication, male-female lifestyle and problem-solving within a family. Handling of crisis, loneliness, death and dying will also be considered. The course studies marriage and family relationships in a way that can pertain directly to the student's own living experiences. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C455**

**Advanced Integrative Seminar in Family Life Education**

Prerequisite: This course is for Certificate students only. The purpose of this course is to coordinate the other courses required by the programme and to integrate the theory derived from the contributing disciplines within an applied social science perspective. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C461**

**Social Welfare and the Social Welfare Services**

Prerequisite: Second-year standing or permission of the Department. A general course concerned with social welfare problems in modern society; some analysis of these problems in relation to economic and cultural patterns. A description of the functional settings in which social welfare services are practised. A consideration of the methods used in social welfare, and some consideration of the connective links between social welfare services and religion, law, medicine, nursing, teaching and other professions. (6 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C471**

**Special Projects Seminar**

Prerequisite: Second year Major in Applied Social Science and permission of the Department. A seminar course for field projects, surveys and research studies undertaken by each student. (6 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C472**

**Special Projects Seminar**

Prerequisite: Second year Major in Applied Social Science and permission of the Department. A student repeating Applied Social Science C471, registers for credits under Applied Social Science C472. (6 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C481**

**Special Seminar in Applied Social Science**

Prerequisites: Psychology S211, Sociology S210 and permission of the Department. The subject for the seminar will vary from year to year reflecting recent developments in social change, new approaches in the behavioural sciences or the special interests of the instructor. (6 credits) NOTE C/See § 200.1

**APPLIED SOCIAL SCIENCE C482**

**Special Seminar in Applied Social Science**

Prerequisite: Permission of the Department. A student repeating Applied Social Science C481 registers for credits under S482. (6 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C485**

**Special Seminar in Applied Social Science**

Prerequisites: Psychology S211, Sociology S210 and permission of the Department. The subject for the seminar will vary from year to year reflecting recent developments in social change, new approaches in the behavioural sciences, or the special interests of students or the instructor. (3 credits) NOTE C/See § 200.1

**APPLIED SOCIAL SCIENCE C486**

**Special Seminar in Applied Social Science**

Prerequisite: Permission of the Department. A student repeating Applied Social Science C485 registers for credits under Applied Social Science C486. (3 credits) NOTE A/See § 200.1

**APPLIED SOCIAL SCIENCE C487**

**Special Seminar in Applied Social Science**

Prerequisite: Permission of the Department. A student repeating Applied Social Science C487 registers for credits under S487. (3 credits) NOTE A/See § 200.1

PROGRAMMES

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

Courses offered by the Biology Department are classified as follows:

A. ZOOLOGY COURSES
C230, C232, C233, C237, C238, C330,
C331, C332, C333, C335, C336, C337,
C338, C339, C431, C432, C433, C434,
C439.

B. BOTANY COURSES
C240, C242, C246, C341, C342, C343,
C345, C347, C348, C441, C442, C449.

C. ECOLOGY COURSES
C250, C351, C352, C353, C355, C356,
C450, C454, C459.

D. CELL AND MOLECULAR BIOLOGY COURSES
C220, C260, C270, C360, C361, C362,
C363, C364, C365, C370, C460, C461,
C482, C483, C484, C465, C467, C469,
C470.

E. BIOLOGY ELECTIVE COURSES
C222, C223, C230, C321, C380, C420,
C421, C490, and any of the Zoology,
Botany, Ecology or Cell and Molecular
Biology courses. Approved courses out­side the Department may be taken for
Biology elective credits.

For those wishing to concentrate in a particular area, recommended sequences of
courses are described in course guides avail­able in the Biology Department.

72 BSc Honours in Biology

An approved sequence of courses from the following selection constitutes an
Honours in Biology. Students must con­sult with the Departmental Honours Ad­viser before registering for the Honours
programme.

24 CHEM C221* and C222*, C371*, BIOL
C222, C260*, C490*

6 BIOL C333* or C348* or C364* and
C464*

36 Selected from A. Zoology courses, B.
Botany courses, C. Ecology courses and
D. Cell and Molecular Biology courses.

6 BIOL electives

NOTE: A minimum of 3 credits must be

completed from each of the four subject
areas within the first 60 credits.

A minimum of 12 credits in 400-level
Biology courses must be completed ex­cluding C490.

*Students entering the programme with
CEGEP Organic Chemistry must replace
these credits with Biology electives.

60 BSc Specialization in Biology

An approved sequence of courses from the following selection constitutes a Spe­cialization in Biology.

18 CHEM C221* and C222*, C371* (or
BIOL C361* and C362*), BIOL C222*,
C260*

6 BIOL C333* or C348* or C364* and
C464*

30 Selected from A. Zoology courses, B.
Botany courses, C. Ecology courses, D.
Cell and Molecular Biology courses.

6 BIOL electives

NOTE: A minimum of 3 credits must be
completed from each of the four subject
areas within the first 60 credits.

A minimum of 9 credits in 400-level
Biology courses must be completed ex­cluding C490.

*Students entering the programme with
CEGEP Organic Chemistry must replace
these credits with Biology electives.

36 BSc Major in Biology

An approved sequence of courses from the following selection constitutes a
Major in Biology.

9 CHEM C221* and C222*, BIOL C260*

6 Selected from CHEM C371*, BIOL
C364* and C464*

15 Selected from A. Zoology courses, B.
Botany courses, C. Ecology courses, D.
Cell and Molecular Biology courses.

6 BIOL electives

NOTE: A minimum of 3 credits must be
completed from each of the four subject
areas within the first 60 credits.

A minimum of 6 credits in 300 or
400-level Biology courses must be
completed.

*Students entering the programme with
CEGEP Organic Chemistry must replace
these credits with Biology electives.
Due to the extensive renumbering of Biology Department courses, student are urged to consult with the Department in order to avoid registering for courses which may not be taken in combination or sequence. For a list of equivalent courses please consult Section 200.

BIOLOGY C200
Fundamentals of Human Biology
A series of lectures, demonstrations and seminars to provide non-biologists with a general survey of the fundamental principles of life, with special emphasis on the structures and functions of man. Lectures only. (3 credits)
NOTE: Students registered in a Biology programme may not take this course for credits.

BIOLOGY C201
Introductory Biology
A survey of basic principles of Organismal Biology: chemical basis of life, cell organization and control; elements of anatomy, taxonomy, physiology, morphogenesis, heredity and evolution. Lectures and laboratory. (3 credits)
NOTE: Students with CEGEP Biology 301 or equivalent may not take this course for credits. Students entering Biology programmes without CEGEP Biology 301 may not take this course for Biology elective credits.

BIOLOGY C203
Fundamental Nutrition
This course deals with food composition (carbohydrates, lipids, proteins, vitamins and minerals), its absorption and utilization, energy balance, special diets and food technology. Lectures only. (3 credits)
NOTE: Students registered in a Biology programme may not take this course for credits.

BIOLOGY C205
Genetics and Human Welfare
A course on the principles of heredity as understood by modern biology. It deals also with the application of genetic principles to organisms, including man. The biological basis of social problems is dealt with at some length. Organic evolution and its implications for human life and welfare are considered. Lectures only. (6 credits)
NOTE: Students registered in a Biology programme may not take this course for credits; may not be taken for credit with Biology C206.

BIOLOGY C206
Elementary Genetics
A survey of classical and contemporary developments in the study of heredity with particular attention to human examples. This course is open only to the general student body. Lectures only. (3 credits)
NOTE: Students registered in a Biology programme may not take this course for credits; may not be taken for credit with Biology C205.

BIOLOGY C207
Micro-Organisms and Man
A course designed for non-Science students which will consider the role of micro-organisms in plant and animal diseases, food spoilage, cellulose degradation and water pollution as well as their ecological, industrial and pharmaceutical importance. Lectures only. (3 credits)
NOTE: Students registered in a Biology programme may not take this course for credits.

BIOLOGY C208
Environmental Biology I
This course examines the principles and concepts of ecosystems, the interaction of organisms and their environment. Energy flow and nutrient cycling in ecosystems, population dynamics and community organization. Lectures only. (3 credits)
NOTE: Students registered in a Biology programme may not take this course for credits.

BIOLOGY C209
Environmental Biology II
Prerequisite: Biology C208. The course considers both natural and man-made ecological problems, including various aspects of pollution, resource and waste control vital for human survival. Lectures, seminars and tutorials. (3 credits)
NOTE: Students registered in a Biology programme may not take this course for credits.

BIOLOGY C220
Introductory Cell Biology
Prerequisite: CEGEP Biology 301 or equivalent. Cell biology, elementary biochemistry, developmental biology, physiology and genetics. Lectures and laboratory. (3 credits)

BIOLOGY C222
Biostatistics I
Prerequisites: CEGEP Biology 301 or equivalent. Application of statistical methods to biological data: descriptive statistics, binomial, Poisson and normal distributions; confidence limits; tests of significance, introduction to analysis of variance, correlation and regression; analysis of frequencies. Lectures and laboratory. (3 credits)

BIOLOGY C223
Biostatistics II
Prerequisites: Biology C222 or Mathematics C241. Sampling methods; analysis of variance and experimental design; regression and correlation techniques; bioassay; non-parametric statistics: analytical methods in field biology, genetics and microbiology. Lectures and laboratory. (3 credits)

BIOLOGY C230
Animal Biology
Prerequisites: CEGEP Biology 301 or equivalent. A survey of the major animal phyla with emphasis on evolutionary trends, structure and function; behaviour and integration of organ systems. Lectures and laboratory. (3 credits)
NOTE: This course may not be taken for credit with Biology C238.
BIOLOGY C232

Entomology I

Prerequisite: Biology 301 or equivalent. This course introduces the student to the variety and complexity of insect life. Basic classification is followed by a more detailed study of morphology and anatomy, together with some physiological considerations, including growth and metamorphosis. Other topics such as adaptations for aquatic life, social behavior, etc., will be discussed. Laboratories will begin with a field trip, the object of which will be to observe and collect various insect species. The remainder of the laboratory sessions will complement the lectures. Students are advised to begin an insect collection during the summer months preceding the course. Lectures and laboratory. (3 credits)

BIOLOGY C233

Entomology II

Prerequisite: Biology C232. To the initiated student, this course will present an in-depth study of insect behavior. Topics will include sensory physiology, insects and plants, light and sound production, population dynamics and insect ecology. An attempt will be made throughout the course to establish a web of interrelationships between the structures and functions of various insect parts. Laboratories will involve the use of live animals and the students may be required to spend additional time for certain experiments. Lectures and laboratory. (3 credits)

BIOLOGY C237

Vertebrate Embryology

Prerequisite: CEGEP Biology 301 or equivalent. The fundamental processes of growth and development in the vertebrates. A comparative study is made of selected vertebrate species with emphasis on the experimental aspect. Lectures and laboratory. (6 credits)

NOTE: Students may not receive credit for this course if taken with Biology C337.

BIOLOGY C238

Invertebrate Zoology

Prerequisite: CEGEP Biology 301 or equivalent. A comprehensive survey designed to provide a detailed understanding of form and function within the invertebrate phyla. Additional topics may include a discussion of current evolutionary theories regarding invertebrates, reproductive and social behavior, physiology and ecology, especially that of local fauna. Lectures and laboratory. (6 credits)

BIOLOGY C240

Plant Biology

Prerequisite: CEGEP Biology 301 or equivalent. A survey of the major plant phyla with emphasis on evolutionary trends, distribution, life cycles, morphology, development, physiology, economy, and ecology. Lectures and laboratory. (3 credits)

BIOLOGY C242

Economic Botany

Prerequisite: CEGEP Biology 301 or equivalent. Origin, development and use of selected economic plants including microorganisms. The historical impact of prospects for future use and importance to the Canadian economy are stressed as well as world-wide problems of food and alimentation. Lectures only. (3 credits)

BIOLOGY C246

Bioogy of Fresh Water and Marine Algae

Prerequisite: CEGEP Biology 301 or equivalent. Taxonomy, physiology and ecology of algae with special consideration of their involvement in water pollution, sewage treatment, primary production, and their utilization in industry. Lectures and laboratory. (3 credits)

BIOLOGY C250

Fundamentals of Ecology

Prerequisite: Biology 301 or equivalent. An introduction to the basic principles of ecology dealing with the most important components of ecosystems. The course illustrates how environmental factors determine the distribution and abundance of plants and animals in various aquatic and terrestrial biomes of the world. Lectures only. (3 credits)

BIOLOGY C260

Genetics

Prerequisite: CEGEP Biology 301 or equivalent; CEGEP Biology 401 or equivalent recommended. A course to illustrate the fundamental principles of inheritance in plants, animals and microorganisms. Mendelian genetics, gene linkage and mutation will be covered. The role of DNA as the hereditary material and the genetic code will be studied in detail as will the mechanisms of DNA, RNA and protein synthesis. Lectures and laboratory. (3 credits)

NOTE: This course may not be taken for credits with Biology C360.

BIOLOGY C270

Introductory Microbiology

Prerequisite: CEGEP Biology 301 or equivalent. Structure and function, growth and genetics of microorganisms with particular emphasis on bacteria and viruses as related to industry, health, agriculture and ecology. Laboratory exercises will illustrate lecture material and introduce basic techniques of handling microorganisms. Lectures and laboratory. (3 credits)

BIOLOGY C320

History of Biology

Prerequisite: 12 credits from the Department of Biology. A course to illustrate the historical development of biology. The lecture material is oriented toward the beginnings of formal biology in relation to the state of knowledge at the time, and the development of these ideas up to the beginning of the present century. Emphasis is on broad principles rather than on encyclopedic or biographical notes. Much illustrative or detailed information is provided by the class since each student must present a seminar on a topic chosen from the men, ideas, or technology of biology. Lectures only. (3 credits)

BIOLOGY C321

Evolution

Prerequisite: Any 12 credits from the Department of Biology. A course to examine the concepts leading from Darwin's theory to a modern synthesis of evolution. Lectures only. (3 credits)

BIOLOGY C330

Chordate Anatomy

Prerequisite: Biology C230. A study of the anatomy and evolutionary development of the major organ systems of the chordates. In the laboratory the lamprey, the mudpuppy, the turtle and the cat will be dissected. Lectures and laboratory. (3 credits)

NOTE: This course may not be taken for credit with Biology C331.

BIOLOGY C331

Comparative Vertebrate Anatomy

Prerequisite: Biology C230, C237 or C238. A comprehensive study of the development and structure of the systems of a representative series of vertebrates from a comparative and evolutionary point of view, with some emphasis on the mammals. In the laboratory, representatives of the principal classes of vertebrates will be dissected. Lectures and laboratory (6 credits)

NOTE: This course may not be taken for credit with C330.
of the fungi; their importance in agriculture, industry, medicine and research will be emphasized. Lectures and laboratory. (3 credits)

**BIOLOGY C342**
Eastern North American Flora
Prerequisite: Biology C240 previously or concurrently. A study of higher plant life occurring in Eastern North America, including recognition, collection, identification, classification and distribution. Field work for practical experience with the regional flora in various habitats. Lectures and laboratory. (3 credits)

**BIOLOGY C343**
Biological of Non-Vascular Plants
Prerequisite: Biology C240. A survey of the taxonomy, morphology, life cycles and evolution of representatives of the lower plants (algae, mosses, lichens, liverworts). Lectures only. (3 credits)

**BIOLOGY C345**
Horticultural Science
Prerequisite: Biology C240. The scientific concepts of horticulture are emphasized. Topics include plant breeding for adaptation to climate, chemical regulation of plant processes and effects on crop yield, environmental factors in crop production, pollutant impact on horticulture, problems in bulk storage, processing and marketing of perishables. The role of horticultural science in meeting world food requirements as well as its impact on society are discussed. Lectures only. (3 credits)

**BIOLOGY C347**
Plant Anatomy
Prerequisite: Biology C240. A study of the internal structure of the plant as related to the processes of growth and metabolism. An experimental approach is presented to the study of the relationship between structure and function of various parts of the plant. The study of pathological, ecological and economic aspects of anatomy with emphasis on developmental anatomy. Laboratory work includes the preparation of permanent slides using plant microtechnique. Lectures and laboratory. (3 credits)

**BIOLOGY C348**
Plant Physiology
Prerequisite: Biology C240 and Chemistry C221 and C222. A study of physiological processes of higher plants including mineral nutrition, water absorption, transport, transpiration, photosynthesis, carbohydrate and nitrogen metabolism, respiration, plant responses to growth regulators, their mechanism of action and their role in plant growth and metabolism. Lectures and laboratory. (6 credits)

**BIOLOGY C351**
Field and Laboratory Ecology
Prerequisite: Biology C250 and permission of the Department. An introduction to the methods of qualitative and quantitative studies of aquatic and terrestrial ecosystems. Students will gain experience in techniques of field investigation. Field trips and laboratory work. (3 credits)

**BIOLOGY C352**
Plant Field Ecology
Prerequisite: Biology C240. This course is normally offered for a two-week period during August at the Lacolle Centre. It will involve identification of local plant species; methods of sampling of communities, and examination of the pattern of plant communities in the area. Handling of data on populations and communities will be discussed as well as statistics on population distributions. A mixture of formal
lectures, organized field studies and informal discussion. Students will be required to hand in a written report after the course has ended. (3 credits)

**BIOLOGY C353**  
Intermediate Ecology  
Prerequisite: Biology C250. An in-depth analysis of factors affecting distribution and abundance of plants and animals. Environmental physiology, adaptations of plants and animals; population structures and behaviour patterns as responses to the physical environment will be discussed. Lectures only. (3 credits)

**BIOLOGY C355**  
Fundamentals of Limnology  
Prerequisite: Biology C250, previously or concurrently. An introduction to the study of freshwater ecosystems with major emphasis on geographical, physical and chemical characteristics. The major topics include the origin of lake basins, lake morphology and morphometry, waves and currents, the optical and thermal properties of lakes, dissolved chemicals. Some aspects of water pollution are considered. Lectures only. (3 credits)

**BIOLOGY C356**  
Microbial Ecology  
Prerequisite: Biology C270. The course is designed to give an understanding of the environment in which microorganisms live, the structure of microbe communities, and the ways in which microbes interact during the processes involved in decomposition and nutrient cycling. Stress will be placed on the ecology of soil microorganisms, though aquatic communities will also be discussed. Lectures and laboratory. (3 credits)

**BIOLOGY C360**  
General Genetics  
Prerequisite: Biology C230 and C240. A study of the principles and processes of plant, animal and human heredity from the classical foundations through the modern to the recent molecular developments; developmental and population genetics, and evolution. Laboratory: directed experiments with *Drosophila* and other organisms. Lectures and laboratory. (6 credits)

**BIOLOGY C361**  
Cellular Metabolism I  
Prerequisite: Biology C230, C240 and Chemistry C221 and C222. This course will deal with the simple metabolism of biomolecules in both plants and animals. A basic study of enzymes and their mode of action; nucleic acids and their role in protein synthesis. Distribution of organelles and their metabolism, cellular oxidations and energetics. Lectures only. (3 credits)

**BIOLOGY C362**  
Cellular Metabolism II  
Prerequisite: Biology C361. Designed to follow Biology C361, the course examines the intracellular localization of enzymes, their activity and control from a comparative cellular basis; coenzymes and their importance in intermediary metabolism. Membrane and cell wall synthesis; hormones and their mode of action. Nutritional requirements of organisms. Lectures and laboratory. (3 credits)

**BIOLOGY C363**  
Genetics of Higher Organisms  
Prerequisite: Biology C260. This course will cover various aspects of the genetics of multicellular and eukaryotic organisms, including cytogenetics, developmental, human, behavioural and population genetics, as well as somatic cell genetics. Lectures only. (3 credits)

**BIOLOGY C364**  
Cell Physiology  
Prerequisite: CEGEP Biology 401 or Biology C220; Chemistry C221 and C222 previously or concurrently. A survey of the mechanisms involved in functions of single cells and subcellular components, particularly organelles; membrane phenomena, motility, bioenergetics, and cellular responses to environmental stress including ionizing radiation, cold and hydrostatic pressure. Lectures and laboratory. (3 credits)

**BIOLOGY C365**  
Cytology  
Prerequisite: CEGEP Biology 401 or equivalent and Chemistry C221 and C222. Cell structure and the structure with reference to organelle function; microscopic and cyto-chemical techniques of analysis; emphasis is on experimental, molecular and ultrastructure analysis, to achieve a correlation between cell structure and function. Lectures and laboratory. (3 credits)

**BIOLOGY C370**  
Intermediate Microbiology  
Prerequisite: Biology C270 and Chemistry C221 and C222; Biology C361 or Chemistry C371 recommended. Designed to continue from Biology C270. Nutrition and metabolism of microorganisms with special emphasis on metabolic processes unique to microorganisms (fermentations, oxidation of inorganic compounds, respiratory, anaerobic respiration). Basic immunology and immunochemistry; brief discussion of microbes in medicine and industry. Laboratory will include metabolic and serologic methods of identifying microorganisms. Lectures and laboratory. (3 credits)

**BIOLOGY C380**  
Nutrition  
Prerequisite: Chemistry C221 and C222; Biology C361 or Chemistry C371 recommended. The concept of a balanced diet will be studied in relation to caloric content, and to protein, lipid, carbohydrate, vitamin and mineral requirements. The consequences of dietary deficiencies will be examined. Special topics such as dieting, organic foods, megavitamins, food additives, and toxins will be discussed. Lectures only. (3 credits)

**BIOLOGY C420**  
Radiation Biology and Radiotracer Methodology I  
Prerequisite: Biology C260 or C360 and C364. A survey of the elements of radiation physics with emphasis on the properties of ionizing radiation and its interaction with matter including dosimetry and methods of radiation counting. The effects of radiation at the macromolecular, cellular and organismal level will be considered from both the somatic and genetic points of view. Lectures and laboratory. (3 credits)

**BIOLOGY C421**  
Radiation Biology and Radiotracer Methodology II  
Prerequisite: Biology C420. A detailed study of selected topics in chemical and solid state dosimetry, liquid scintillation counting, neutron irradiation techniques, cell kinetics, target theory, radiation botany and mammalian radiobiolog-

Biology of Fishes
Prerequisite: Biology C330 or C331. This introduction to fish biology will include a study of anatomy, physiology and classification of the major groups of fishes as well as their ecology and zoogeography. Emphasis will be placed on freshwater fishes. Lectures and laboratory. (3 credits)

Advanced Topics in Botany
Prerequisite: Biology C335. Histological techniques involved in the study of various animal tissues for microscopic study; techniques of microscopy and some practical experience in photomicrography. Lectures and laboratory. (3 credits)

Microscopic Techniques
Prerequisite: Biology C335. Histological techniques involved in the study of various animal tissues for microscopic study; techniques of microscopy and some practical experience in photomicrography. Lectures and laboratory. (3 credits)

Neurology
Prerequisite: Biology C330 or C331. A study of the anatomy and physiology of the nervous systems of vertebrates, especially of the mammals and man. Lectures and laboratory. (6 credits)

Comparative and Environmental Physiology
Prerequisite: Biology C333; Biology C362 or Chemistry C371. This course is designed on a function-system basis and deals with a comparative study of physiological processes in animals, their behaviour and physiological adaptations to the environment. Lectures and laboratory. (6 credits)

Advanced Topics in Zoology
Prerequisite: Third year standing in a Biology Honours, Specialization or Major programme and permission of the Department. Lectures and seminars on recent developments in plant, microbial, animal, aquatic or population ecology. (3 credits)

Advanced Topics in Botany
Prerequisite: Third year standing in a Biology Honours, Specialization or Major programme and permission of the Department. Lectures and seminars on recent developments in plant, microbial, animal, aquatic or population ecology. (3 credits)

Advanced Topics in Zoology
Prerequisite: Third year standing in a Biology Honours, Specialization or Major programme and permission of the Department. Lectures and seminars on recent developments in plant, microbial, animal, aquatic or population ecology. (3 credits)

Plant Biochemistry
Prerequisite: Biology C348 or Chemistry C371 or Biology C361 and C362. Biochemical study of the natural constituents and secondary metabolites unique to plants. Their biosynthesis, biotransformations and functions in plants as well as their economic and pharmacologic importance will be stressed. Lectures only. (3 credits)

Plant Responses to Environmental Stresses
Prerequisite: Biology C348. Morphological, physiological and biochemical responses of plants to various environmental stresses including freezing, drought, light, mineral deficiencies, radiation and environmental pollutants. Lectures only. (3 credits)

Advanced Topics in Botany
Prerequisite: Third year standing in a Biology Honours, Specialization or Major programme and permission of the Department. Lectures and seminars on recent developments in plant, microbial, animal, aquatic or population ecology. (3 credits)

Aquatic Ecology and Water Pollution
Prerequisite: Biology C355. An inquiry into factors governing the distribution and abundance of aquatic organisms in lakes and streams. Emphasis on the nature and significance of the responses of aquatic organisms and communities through changes in water quality with pollution. Sources and types of pollutants and methods of evaluating pollution and treating wastes. Lectures only. (3 credits)

Population Ecology
Prerequisite: Biology C353. A theoretical approach to ecological problems. Evolutionary aspects of ecological problems, population dynamics, species diversity, stability of ecosystems, regulation of population size, competition and predation. Lectures only. (3 credits)

Advanced Topics in Ecology
Prerequisite: Third year standing in a Biology Honours, Specialization or Majors programme and permission of the Department. Lectures and seminars on recent developments in plant, microbial, animal, aquatic or population ecology. (3 credits)

Molecular Genetics
Prerequisite: Biology C260 or C360 and Chemistry C371 previously or concurrently or permission of the Department. Basic microbial and molecular genetics including mechanisms in protein synthesis, bacteriophage recombination, use of genetics in the study of regulation of gene expression, the code and mechanism in protein synthesis, bacteriophage genetics, epistasis. Lectures and conferences. (3 credits)

Advanced Genetics
Prerequisite: Biology C260 or C360. Directed readings and seminars in classical and contemporary genetics designed to expose the student to research literature and problems. Students will probe in greater depth areas of particular interest in order to develop a critical sense and deepen an understanding of past and current work in this field. Seminars only. (3 credits)

Immunology
Prerequisite: Biology C364; C260 or C360; Chemistry C371 previously or concurrently. A course in modern immunology stressing the following areas of study: the structure and properties of antigens and antibodies; the nature of the immune response; cellular antibody synthesis; genetic aspects of antibody synthesis; theories relating antibody specificitv to genetic potential. Lectures and conferences. (3 credits)

Developmental Biology
Prerequisite: Biology C364, C260 or C360; C337 or C337 recommended. A study of the molecular aspects of development in animal and plant cells in relation to the acquisition of form. Lectures only. (3 credits)

Advanced Cell Physiology
Prerequisite: Biology C364; Chemistry C371 previously or concurrently. Lectures and seminars dealing with selected topics in cell physiology, emphasizing a molecular experimental approach. Lectures only. (3 credits)
BIOLOGY C465
Biological Regulatory Mechanisms
Prerequisite: Biology C260 or C360; Chemistry C371 previously or concurrently or permission of the Department. Metabolic pathways with an emphasis on their control and coordination; intercellular messengers in developmental and adult systems. Lectures and conferences. (3 credits)

BIOLOGY C467
Cytogenetics
Prerequisite: Biology C365 and C260 or C360 or permission of the Department. A detailed study of plant and animal chromosomes, their structures and normal and abnormal behaviour; species evolution and preservation; various anomalies, ploidy, heterosis, aposomy; human cytogenetics. Lectures and laboratory. (3 credits)

BIOLOGY C469
Advanced Topics in Cell and Molecular Biology
Prerequisite: Third year standing in a Biology Honours, Specialization or Major programme and permission of the Department. Lectures and seminars or laboratories on recent developments in prokaryotic and eukaryotic cellular physiology, genetics, immunology, cytogenetics, or molecular biology. (3 credits)

BIOLOGY C470
Microbial Physiology
Prerequisite: Biology C270, Chemistry C371 previously or concurrently, or permission of the Department. A study of the biochemical activities underlying the life of microorganisms to survey the diverse patterns used by microorganisms in energy metabolism and biosynthesis. Applications of theoretical knowledge to industrial microbiology, including fermentation and antibiotic production will be examined. Lectures and conferences. (3 credits)

BIOLOGY C490
Independent Study
Prerequisite: Third year standing in Honours Biology or permission of the Department. In this course the student undertakes a special research project selected in consultation with and conducted under the supervision of a faculty member of the Department. The project is intended to develop the student's knowledge of standard scientific procedures including methods of researching scientific literature, the planning and execution of experimental and analytical procedures, the writing of a formal report and the presentation of a seminar on the project. (6 credits)
31.7 Bio-Physical Education

**PROGRAMMES**

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

**72 BSc Specialization in Bio-Physical Education (Loyola)**

- **Year I**
  - 9 BIOP C2013, C2113, C2613
  - 12 MATH C2073, BIOL C2303, CHEM C2213, C2223
- **Year II**
  - 24 BIOP C3106, C3133, C3313 or C3331, C3513, C3533, C3553, C3573
  - **Year III**
    - 21 BIOP C4013, C4113, C4126 or C4133 and C4513, C4513, C4536
    - 6 chosen from BIOP C4626, C4646, C4666, C4686

**48 BSc Major in Bio-Physical Education (Loyola)**

- **Year I**
  - 9 BIOP C2013, C2113, C2613
  - 12 MATH C2073, BIOL C2303, CHEM C2213, C2223
- **Year II**
  - 15 BIOP C3133, C3513, C3533, C3553, C3573
  - **Year III**
    - 12 BIOP C4113, C4513, C4536

**Health Education**

The courses listed below are offered through the Department of Bio-Physical Education in conjunction with Health Education.

- BIOP C4806, C4813, C4826, C4833, C4846, C4869, C4886

**Recreation and Leisure Studies**

The courses listed below are open to all students, in particular Bio-physical Education Students desiring an increased competency in the field of Recreation and Leisure Studies.

- BIOP C2413, C3426, C4266

A BA programme in Recreation and Leisure Studies may be followed through the Centre for Interdisciplinary Studies. § 31.19.

**BIO-PHYSICAL EDUCATION C201**

**Philosophical and Sociological Foundations of Health, Physical Education and Recreation**

The course involves a study of the nature and meaning of health, physical education and recreation. Significant effects of philosophical tenets on the development of the disciplines are examined. Subject to critical analyses are the basic concepts of the philosophical schools of idealism, pragmatism and realism. The socializing effects of sports, physical education and recreational activities also are investigated. Lectures, Seminars & Field Study: 3 hours per week. (3 credits)

**BIO-PHYSICAL EDUCATION C211**

**Introduction to Motor Learning**

Prerequisite: Mathematics C207. The course is concerned with the capacities people have for processing information. It attempts to demonstrate how these capacities influence performance, the acquisition of skills and in particular sports skills. Also considered are the effects of the following factors: decision making, information theory, reaction time, psychological refractory period, selective attention, memory and others. Lectures and Seminars: 3 hours per week. Labs: 2 hours per week. (3 credits)
BIO-PHYSICAL EDUCATION

BIO-PHYSICAL EDUCATION C241
Recreation and Leisure in Contemporary Society
The course provides a basis for understanding recreation and leisure as increasingly important aspects of our culture. In an era of rapidly changing life styles, with a high incidence of anxiety and frustration, the value of worthy use of leisure time in maintaining mental and physical health is presented. Topics discussed include: Education for leisure, the scope of the field of recreation, work ethic, leisure ethic; the role of leisure and recreation in satisfying man’s needs, and leisure as an agent for change. Lectures & Seminars: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C251
Sports Science
An introduction is provided to the science of sports. Various physiological parameters influencing and limiting activity are studied. The influence of personal characteristics, societal and other factors on human performance are investigated. (3 credits)

BIO-PHYSICAL EDUCATION C261
Principles and Techniques of Physical Education and Recreation Skills
An understanding is provided of skill development theories, practices and teaching sequences. Scientific principles of sport technical are applied in activity periods. All popular North American team and individual sports are covered. To successfully complete the course, students must demonstrate a proficiency which will permit them to teach the skills involved in these sports. Labs: 12 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C310
Methods and Materials in Physical Education and Recreation
Prerequisites: BIOP C211, C261, C313. In the course, teaching is approached as a science. Consideration is given to the needs, interests and characteristics of elementary school age children. Based on this, scientific teaching methods and materials most conducive to learning for this age group are examined. The latest modes of movement education are of major concern. Basic skills and the teaching sequences involved are reviewed. During laboratory sessions, students are afforded the opportunity to teach children and to analyze the effects of various methodological techniques. Lectures: 2 hours per week. Labs: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C313
Motor Learning and Human Performance
Prerequisite: Bio-Physical Education C211 or permission of the Department. The principle aim of this course is to examine in more depth the topic of learning. Major consideration is given to the effects that feedback and manipulation may have on the acquisition and improvement of sports skills in performance. Lectures and Seminars: 3 hours per week. Labs: 2 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C331
Health Science
The subject matter is approached with "health" viewed as the optimal functioning of the human organism. The course synthesizes and applies knowledge from biological, psychological and medical sciences to present the student with a comprehensive understanding of factors influencing personal health. Areas covered include hereditary considerations, growth and development patterns, human sexuality, nutrition, fitness, mental health, diseases, drugs, pathology and environmental ecology. Lectures: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C333
Personal and Community Health Problems
The course examines causes, symptoms and proposed plausible steps which can be taken towards solving individual and community health problems. Consideration is given to alcoholism, drug abuse, mental illness, smoking, sex education, communicable and non-communicable diseases, pollution, industrial and occupational health hazards. Lectures & Seminars: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C335
Prevention of Athletic Injuries
An examination is undertaken of age, body structure, heredity and acquired factors in relation to athletic injuries. Reviewed are injuries to the muscular, skeletal and other systems in specific sports and under various conditions. The effects of aerobic, anaerobic, flexibility and strength conditioning programmes in the prevention of traumatic sports injuries and chronic ailments are studied. Research findings are surveyed in the area of testing and fitting of equipment as they relate to injury prevention and safety. Lectures: 3 hours per week. Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C337
Emergency Care of Athletic Injuries
Prerequisites: BIOP C351 and C353. The course is concerned with emergency situations that may occur in athletics, physical education and recreation. Among the situations discussed are acute cardiac problems including angina pectoris, cardiopulmonary resuscitation and cardiac arrest, management of bleeding wounds, fractures, cerebro-vascular incidents, convulsive attacks, acute abdominal disorders, transportation and movement of injured victims, complications resulting from dehydration and heat stress, pulmonary problems including asthma attacks and asphyxiation. Techniques involved in rescue procedures related to accidents during outdoor activities are also examined. Lectures: 2 hours per week. Lab: 2 hours per week. Text: Grant & Murray: Emergency Care. (3 credits)

BIO-PHYSICAL EDUCATION C342
Principles and Practices of Recreational Services
The course is concerned with the fundamental concepts governing the field of recreation. A thorough examination is conducted of the many aspects of recreation programs in urban and rural settings including: active and social components, principles of leadership, supervision, evaluation, surveying interests, classification, co-ordination and other planning factors. Model recreational programs are surveyed in community, camp, school and rehabilitation centres. Lectures, Seminars & Field Study: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C351
Structural Human Anatomy
The course is a study of gross and functional anatomy, with major emphasis on the skeletal, muscular and nervous systems. Lectures: 3 hours per week. Labs and Cadaver Demonstrations: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C353
Physical Anthropology
Prerequisite: BIOL C230 and a university level chemistry course. The course analyzes the functional organization and integration of the muscular system and of the nervous and hormonal systems controlling movement in man. Due to the close relationships, the special senses and the reproductive systems also are examined in this course. Lectures: 3 hours per week. Labs: 3 hours per week. (3 credits)
BIO-PHYSICAL EDUCATION C355
Systemic Human Anatomy
Prerequisite: BIOP C351. The course is a study of the organ systems of the human body with major emphasis on the circulatory, respiratory, digestive, excretory, and endocrine systems. Lectures: 3 hours per week. Labs andCadaver Demonstrations: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C357
Cardiovascular — Respiratory Physiology
Prerequisite: BIOP C353. The major concern of the course is to examine the functional organization and integration of the cardiovascular and respiratory systems which provide nutrients for man's energy metabolism. Related to this, the dynamics of metabolism processes, digestive and excretory systems also are analyzed. Lectures & Seminars: 3 hours per week. Labs: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C370
Scientific Foundations of Outdoor Education and Recreation
The course examines outdoor recreational facilities and other outdoor settings as an extension of the school. Their utilization is studied in terms of providing direct laboratory experiences for building concepts and developing a concern about man and his natural environment. The development of Outdoor Education and Recreation programs is analyzed. The areas of health, physical education and recreation are used as the core of an interdisciplinary study of the outdoors. Subject to review are the areas concerning health, physical education and recreation including the effects of pollution, recreational and outdoor fitness activities; the teaching of science in the outdoors including: conservation, ecology of a woodland, pond and bog; study of plants and animals in their natural habitat; water resources; problems of erosion; rock and tree identification. Lectures, Seminars and Field Study: 6 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C393
Selected Topics in Bio-Physical Education
Prerequisite: Permission of the department. This course focuses on current topics of interest in the field of Bio-Physical Education. The content will depend upon the theme designated by the department when the course is offered. The course will draw upon the expertise of individuals and visiting guest lecturers. (3 credits)

BIO-PHYSICAL EDUCATION C395
Selected Topics in Bio-Physical Education
Prerequisite: Permission of the department. A student may repeat BIOP C393, provided that the content is different, by registering for credits under BIOP C395. (3 credits)

BIO-PHYSICAL EDUCATION C397
Selected Topics in Bio-Physical Education
Prerequisite: Permission of the department. This course focuses on current topics of interest in the field of Bio-Physical Education. The content will depend upon the theme designated by the department when the course is offered. The course will draw upon the expertise of individuals and visiting guest lecturers. (3 credits)

BIO-PHYSICAL EDUCATION C399
Selected Topics in Bio-Physical Education
Prerequisite: Permission of the department. A student may repeat BIOP C397, provided that the content is different, by registering for credits under BIOP C399. (3 credits)

BIO-PHYSICAL EDUCATION C401
Adapted Corrective and Rehabilitative Physical Education and Recreation
Programmes and activities for individuals with physical, mental, social and/or emotional dysfunctions are analyzed in the course. An exploration is conducted of the nature and causes of common handicaps including orthopaedic, cardiopathic, visual, auditory, mental retardation, cerebral palsy and general learning disabilities. Current adaptive, corrective and remedial techniques are reviewed in laboratory sessions, students are provided with the opportunity to teach special activities and exercises to handicapped children. Lectures: 2 hours per week; Labs: 4 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C411
Tests, Measurements and the Research Process in Physical Education and Recreation
Prerequisite: Mathematics C207 and third-year standing in Bio-Physical Education. The course provides an understanding of standardized tests utilized by professionals in the fields of health, physical education and recreation. Procedures involved in data collection, interpretation and statistical methodology are analyzed. Lectures: 3 hours per week. Labs: 1 hour per week. (3 credits)

BIO-PHYSICAL EDUCATION C412
Advanced Methods and Materials in Physical Education and Recreation
Prerequisite: Permission of the department. Teaching is approached as a science. The needs, interests and characteristics of adolescents and young adults are studied. Based on these factors, analysis of appropriate teaching methods for this age group are conducted. Advanced skills and the teaching sequences involved are reviewed. The application of principles of motor learning, skill testing, cinematography, closed-circuit television and other audiovisual aids in teaching and coaching is considered. In laboratory periods, students are given the opportunity to teach adolescents and young adults and to study the effect of various methodological techniques. Lectures: 2 hours per week. Labs: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C413
Physical Education in the Early Childhood Curriculum I: Psycho-Motor Learning
The psychomotor domain of learning in young children is of major concern in this course. Principles of perceptual motor feedback processes are studied in detail. Application of these principles to motor learning in the early childhood curriculum is analyzed. The interrelationships of cognitive and psychomotor development are studied for symbiotic cause and effect relationships. Lectures: 2 hours per week. Labs: 2 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C415
Physical Education in the Early Childhood Curriculum II: Eurythmics
The utilization of rhythmical activities as a learning mode in the early childhood curriculum is studied from both a practical and theoretical perspective. Students examine rhythms as a means of developing kinesthetic awareness, understanding the role of coordination and timing in the performance of complex movement patterns. Interaction with young children to discover first hand how rhythms are involved in developmental sequences constitutes the practical aspects of the course. Lectures: 2 hours per week. Labs: 2 hours per week. (3 credits)
BIO-PHYSICAL EDUCATION C421
Organization and Administration of Physical Education and Recreation Programmes and Facilities

The course examines and applies fundamental concepts of business administration to the field of physical education and recreation. Topics covered include organizational structures, management systems, equipment purchasing and control, promotion, public relations, theories of motivation and scheduling which can be applied in the school and community. *Lectures and Seminars*: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C426
Organization and Administration of Recreation Programmes and Facilities

The course provides in-depth analysis of business practices utilized in the efficient management of recreation programmes and facilities. Principles of planning, organization, purchasing, scheduling, and utilization of facilities are studied. Special consideration is given to the financial areas of budget preparation, basic accounting procedures, cost estimation and the control of funds. The course includes an extensive field study programme in which the students are exposed to a variety of administrative procedures being used by professionals in the field of recreation. *Lectures*: 2 hours per week. *Field Study Labs*: 4 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C433
Rehabilitation and Treatment of Athletic Injuries

The role and relationship of the sports therapist to the physician, nurse and physiotherapist in the rehabilitation and treatment of athletic injuries is studied. Subject to review are thermal and cryotherapy, and the use of diathermy, ultrasonic, whirlpool, defibrillator and other equipment. Emergency treatment, methods of transportation and legal aspects are discussed. An introduction also is provided to basic counselling techniques. *Lectures*: 3 hours per week. *Labs*: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C436
Sports Medicine

Prerequisite: BIOP C333 and C433. An introduction to the application of medical science to the field of sports is provided. Select topics in endocrinology including hormonal imbalances, fatigue, depression, aggression and the jet fatigue syndrome in relation to athletic performance. Discussed are disturbances of the gastro-intestinal tract and dietary considerations. Gynecological problems and pharmacology, including the effect of ergogenic aids, current medical flexible casting and taping techniques are covered. (6 credits)

BIO-PHYSICAL EDUCATION C451
Kinesiology

Prerequisite: BIOP C351, a post-secondary school physical education course preferably Physics C241 and third-year standing in Bio-Physical Education. The course involves a study of anatomical, mechanical and descriptive analyses of basic human movement and specific sport skills; included is an examination of the skeletal, muscular and the nervous systems and their application to the teaching and coaching of efficient motor performance. *Lectures*: 3 hours per week. *Labs*: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C453
Physiology of Exercise

Prerequisite: BIOP C355 and C357 or Biology C333. In this course physiological principles are examined as they apply to man’s acute and chronic adaptation to physical activity. Using the physiological principles as guidelines training programmes to enhance muscle strength, cardio-respiratory endurance, flexibility and other components of fitness are studied. The effect of factors such as environmental temperature, altitude and age on physical performance is given consideration. Students are asked to assess physical fitness through the measurement of selected physiological parameters and on the basis of the results prescribe exercises and training programmes to enhance physical performance in general or for a specific sport. *Lectures*: 3 hours per week. *Lab*: 3 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C455
Preventive Medicine and Geriatrics

Prerequisite: BIOP C433, the equivalent, or permission of the department. The course focuses on the physiological, psychological and sociological needs of adults, in particular, geriatric patients. The aging process is examined as it influences the choice of physical activities. In addition, the preventive aspect of physical activity and its effects on the medical problems associated with aging are studied. Methods of implementing and evaluating preventive programmes are analyzed. Disorders of the metabolic processes, neuromuscular, cardiovascular and respiratory systems receive prime consideration. *Lectures*: 2 hours per week. *Labs*: 3 hours per week. (3 credits)

BIO-PHYSICAL EDUCATION C462
Teaching Internship

Prerequisite: The course is open to University III level Bio-Physical Education Majors and Recreational and Leisure Studies Majors who have followed the programming option of a Recreation and Leisure Studies Major. The practicum begins with seminar sessions, during which each student formulates lesson plans, units of instruction, scientific teaching methods and means of evaluation. This aspect of the course is completed in cooperation with and subject to the approval of participating institutions and instructors. Subsequently, students assume a supervised teaching position for a six-week 240-hour period. The teaching internship commences immediately following the student’s last final examination. (6 credits)

BIO-PHYSICAL EDUCATION C464
Recreation Internship

Prerequisite: This course is open only to University III level Bio-Physical Education or Recreation and Leisure Studies Majors. In consultation with their mentors, students are given the opportunity to study theoretical and practical problems confronting professionals in the field of Recreation. The course offers a supervised period of work with a selected organization. Each student, during seminar sessions, formulates a study proposal. The practicum commences based upon the approved proposal, immediately following the student’s last final examination. The course involves a minimum of a six-week 240-hour period. (6 credits)

BIO-PHYSICAL EDUCATION C466
Para-Medical Internship

Prerequisite: The course is open to University III level Bio-Physical Education or Recreation Majors. In consultation with their advisor, students are given the opportunity to study theoretical and practical problems confronting para-medical professionals in the field. The course offers a supervised period of work as sports therapist, activity leader in a hospital or rehabilitative centre, a technician in a physiotherapy evaluation laboratory or related position. Each student, during seminar sessions, formulates a study proposal, immediately following the student’s last final examination. The course involves a minimum of a six-week 240-hour period. (6 credits)
BIO-PHYSICAL EDUCATION C468
Research Internship
Prerequisite: The course is open only to University III level. Bio-Physical Education and Recreation and Leisure Studies Majors. In consultation with their adviser, students are given the opportunity to study theoretical, practical and scientific problems related to the fields of Bio-Physical Education, Health and Recreation. Each student, during seminar sessions, formulates a study proposal. The practicum commences, based upon the approved proposal, immediately following the student's last final examination. The practicum involves working as a member of a research team and reporting the experience. The course involves a minimum of a six-week 240-hour period. (6 credits)

BIO-PHYSICAL EDUCATION C470
Outdoor Education in the Elementary School Curriculum
The course offers a comprehensive analysis of outdoor education at the elementary school level. Examined are the aims and objectives of outdoor education, scientific methods and materials utilized, the organization and administration of model programs, innovative units of instruction and means of evaluation of outdoor education courses in camps, elementary schools, and municipalities. Lectures, Labs, Seminars, Outdoor Labs and Field Study: 5 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C472
Outdoor Education in the Secondary School Curriculum
The course provides an overview of outdoor education programs at the secondary school level. Existing outdoor education courses in camps, high schools and recreation departments are critically reviewed. New concepts, planning and development of units of instruction, problem areas and other facets of outdoor education for secondary school age students are examined. Lectures, Seminars, Outdoor Labs and Field Study: 6 hours per week. (6 credits)

BIO-PHYSICAL EDUCATION C480
(Also given as Health C472)
Special Workshop on Human Sexuality
The course investigates "Psychological Concepts of Human Sexuality as they Influence Family Planning and Sex Education." The study will explore variations in sexual patterning, therapy and counselling, biological, anthropological and ontological perspectives of sexuality. Open to educators, guidance counsellors, nurses, social workers and psychologists. (6 credits)

BIO-PHYSICAL EDUCATION C481
(Also given as Health C323 and Nursing C323)
Teaching Strategies for the Health Professional
Prerequisites: Health C209 and Nursing C320, or permission of the Department. This course is designed to meet the needs of individuals who are involved in education programs, i.e., schools, industry, clinics, volunteer agencies, in-service programmers, etc., aimed at promotion and maintenance of health, prevention of disease and rehabilitation. (3 credits)

BIO-PHYSICAL EDUCATION C482
(Also given as Health C211 and C215)
Clinical Epidemiology and Bio-Statistics
An introductory course on the methods of measuring the distribution and determinants of disease frequency in Man. Measures of population health and health services utilization will be covered. Variability and the need of statistics will be stressed. (6 credits)

BIO-PHYSICAL EDUCATION C483
(Also given as Health C315)
Drug Use and Abuse
The course is structured to introduce non-medical personnel to the modern concepts of drug therapeutics and to discuss the consequences of use and abuse of drugs. The drug classifications will include steroids, antibiotics, minor and major psychotropics and the potential chronic abuse of drugs such as amphetamines and other stimulants, barbiturates and other sedatives, hallucinogens, minor tranquilizers, opiate narcotics, alcohol and tobacco. (3 credits)

BIO-PHYSICAL EDUCATION C484
(Also given as Andragogy C408 and Health C320, Nursing C320)
Interviewing Techniques and Counselling
Concepts
Prerequisite: Health C209 or equivalent. A course in which the student examines the dynamics of helping interviews, models of human effectiveness, and theories of counselling. The variety of issues to be covered include the enhancement of specific skills through different training experiences, a proper emphasis on self-understanding, an awareness of the role of philosophy, ethical standards and research. This course demands a high level of observation, participation and involvement from each student, (6 credits)

BIO-PHYSICAL EDUCATION C485
(Also given as Andragogy C408 and Health C408)
Group Structure and the Role of the Community Worker
The course is developed to assist volunteers, interested citizens, street workers, and individuals with no formal health training, working as part of a multidisciplinary team, to identify their roles in order to play a more effective part as a community worker. Assignments will be directed toward practical applications of field work to problem-solving in a field of their choice, i.e., post-retirement, rehabilitation of drug addicts and alcoholics, single parents, etc. (6 credits)

BIO-PHYSICAL EDUCATION C488
(Also given as Health C208)
Nutrition in the '70's
This course will study the influence of socio-economic and political systems on the nutritional status of the individual and the interrelationship between food habits and the cultural, social and psychological aspects of life. Topics will include diet-related problems such as obesity, heart disease, faulty eating habits, malnutrition, etc. Food budgeting for all levels of the socio-economic structure will be examined. (6 credits)

BIO-PHYSICAL EDUCATION C491
Independent Study in Bio-Physical Education
Prerequisite: Permission of the Department. Students will work on topic(s) chosen in consultation with their department supervisor. The study can include readings, field studies, interviews and field work. An in-depth report of the activities conducted by the student will be presented to the supervisor upon completion of the course. (6 credits)

BIO-PHYSICAL EDUCATION C493
Advanced Topics in Bio-Physical Education
Prerequisite: Consent of professional staff. This course focuses on advanced topics of interest in the field of Bio-Physical Education. The content will be dependent upon the theme designated by the department when the course is offered. The course will draw upon the expertise of individuals and visiting guest lecturers. (3 credits)
BIO-PHYSICAL EDUCATION C495
Advanced Topics in Bio-Physical Education
Prerequisite: Consent of professorial staff. A student may repeat BIOP C493, provided that the content is different, by registering for credits under BIOP C495. (3 credits)

BIO-PHYSICAL EDUCATION C497
Advanced Topics in Bio-Physical Education
Prerequisite: Consent of professorial staff. This course focuses on advanced topics of interest in the field of Bio-Physical Education. The content will be dependent upon the theme designated by the department when the course is offered. The course will draw upon the expertise of individuals and visiting guest lecturers. (3 credits)

BIO-PHYSICAL EDUCATION C499
Advanced Topics in Bio-Physical Education
Prerequisite: Consent of professorial staff. A student may repeat BIOP C497, provided that the content is different, by registering for credits under BIOP C499. (3 credits)

Special Lecturer and Research Associate
B. PANT

PROGRAMMES

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

NOTE: The Order of Chemists of Quebec has fully accredited the curricula of i) Honours in Chemistry ii) Specialization in Analytical Chemistry iii) Specialization in Biochemistry iv) Specialization in Chemistry. Upon satisfactory completion of any of the above programmes a graduate is eligible for membership in the Order. A working knowledge of French is required.

72 BSc Honours in Chemistry

Year I
CHEM C2116, C2213, C2223, C2312, C2322, C2332, C2411, C2423
MATH C2203

Year II
CHEM C3112, C3161, C3212, C3222, C3292, C3312, C3322, C3332, C3382, C3392, C3422, C3481, C3902, C3991
MATH C3142, C3191

Year III
CHEM C4506, 3 credits of Physical Chemistry 10 credits at the 400 level (6 credits must be in one area)

60 BSc Specialization in Chemistry

Year I
CHEM C2116, C2213, C2223, C2312, C2322, C2411, C2423
MATH C2203

Year II
CHEM C3212, C3222, C3292, C3312, C3322, C3332, C3382, C3392, C3422, C3481
MATH C3142, C3191

Year III
CHEM C3142, C3191, C4196, C4703, C4713, C4723

72 BSc Specialization in Biochemistry

Year I
CHEM C2116, C2213, C2223, C2312, C2322, C2411, C2423
BIOL C2303, C2703

Year II
CHEM C3112, C3161, C3212, C3222, C3292, C3312, C3332, C3392, C3416
BIOL C3641 and C2603 or C3366

Year III
CHEM C4341, C4791, C4703, C4713 or C4723
Biochemistry Option
3 400 level Biology
3 credits chosen from CHEM C4733, C4743, C4753
3 credits in Chemistry at the 300 or 400 level
Medicinal Chemistry Option
CHEM C4793, C4743, C4753

73 BSc Specialization in Analytical Chemistry

Year I
CHEM C2116, C2213, C2223, C2312, C2322, C2411, C2423
COMP C2113, C2213

Year II
CHEM C3102, C3112, C3122, C3151, C3161, C3171, C3212, C3222, C3292, C3312, C3322, C3382, C3392, C3422, C3481, C3902, C3991

Year III
CHEM C3142, C3191, C4196, C4703, C4983
COMP C3113

42 BSc Major in Chemistry

Year I
CHEM C2212, C2223, C2312, C2322, C2411, C2421, C2116

Year II
CHEM C3122, C3212, C3222, C3292, C3312, C3322, C3392, C3412, C3481, C3902, C3991

Year III
CHEM C3142, C3191, C4196, C4983
COMP C3113

(Other courses may be selected in consultation with the Department)

24 Minor in Chemistry

22 CHEM C2116, C2213, C2223, C2312, C2322, C2413, C2423
2 credits chosen from Chemistry 300 level courses

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

CHEMISTRY C205

General Chemistry I
Stoichiometry, states of matter, atomic structure, electron structure of atoms, the periodic table, periodic properties, bonding, solids. Lectures, tutorials and laboratories. (3 credits)

NOTE: Science students may not take this course for Science credits.

CHEMISTRY C206

General Chemistry II
Prerequisite: Chemistry C205. Thermochemistry, solutions and their properties, equilibrium, ionic equilibrium, pH, buffers, kinetics, reaction mechanisms, other selected topics related to biochemistry, biology and engineering. Lectures, tutorials and laboratories. (3 credits)

NOTE: Science students may not take this course for Science credits.

CHEMISTRY C211

Introductory Quantitative Analysis
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203; or equivalent courses. Treatment of analytical data; chemical equilibria as applied to volumetric and gravimetric procedures; general theory of titrations and titration curves; neutralization, precipitation, complexation, oxidation-reduction and non-aqueous titrations, gravimetric analysis; potentiometry and potentiometric titrations; absorptimetric methods. Laboratory is taken concurrently and provides experience in the techniques of analysis discussed in the lectures. Lectures and laboratory. (6 credits)

CHEMISTRY C221

Introductory Organic Chemistry I
Prerequisite: CEGEP CHEM 201 or equivalent. Synthesis, structure and reactivity of principal functional groups. Simple reaction mechanisms. Lectures and laboratory. (3 credits)

CHEMISTRY C222

Introductory Organic Chemistry II
Prerequisite: Chemistry C221 or one semester CEGEP Organic Chemistry. Synthesis, structure and reactivity of principal functional groups. Simple reaction mechanisms. Lectures and laboratory. (3 credits)

CHEMISTRY C231

Introductory Physical Chemistry I
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203 or equivalent courses. Real gases, equations of state (Van der Waals, Virial, etc.), first law of thermodynamics, thermochmistry, entropy and the second and third laws of thermodynamics, free energy and chemical equilibrium; electrochemical cells and the Nernst equation, use of activities, Gibbs-Helmholtz equation. Lectures only. (2 credits)

CHEMISTRY C232

Introductory Physical Chemistry II
Prerequisite: CEGEP Chemistry 201 or an equivalent course. Applications of thermodynamics; to one-, two-, and three-component systems, including the properties of liquids, colligative properties, phase equilibria, kinetic molecular theory, chemical kinetics, the behaviour of electrolytes in solution. Lectures only. (2 credits)

CHEMISTRY C233

Introductory Quantum Chemistry
Prerequisite: Mathematics C220; CEGEP Chemistry 201, CEGEP Physics 301 or equivalent courses. This course is intended to introduce the student to the fundamental ideas of quantum theory as applied to chemistry. Topics covered include the origins of quantum theory, the postulates of quantum mechanics, applications to simple systems, the hydrogen atom, other atoms, and simple molecules. Lecture only. (2 credits)

CHEMISTRY C234

Introductory Physical Chemistry for Biochemists
Prerequisite: Chemistry C231. Treatment of ideal solutions and solutions of macromolecules. Origin of macromolecules, and molecular weight determination. Transport processes; diffusion, sedimentation, electrophoresis. Chemical kinetics, photochemistry and radiation chemistry. Lectures only. (2 credits)

CHEMISTRY C241

Introduction to Inorganic Chemistry
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203 or equivalent courses. The structure of the atom; ionic Bonding; Covalent Bonding; Chemical Forces; Acid-Base Chemistry; Chemistry in Aqueous and Non-aqueous solutions. Lectures and laboratory. (3 credits)
CHEMISTRY C242
Chemistry of the Main Group Elements
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203 or equivalent courses. A survey of the properties and reactions of: Hydrogen, Group IA Lithium to Cesium, Group IIA Beryllium to Radium, Group IIIA Aluminium to Thallium, Carbon, Group IVB Silicon to Lead, Nitrogen, Group VB Phosphorous to Bismuth, Oxygen, Group VIB Sulphur to Polonium, the Halogens, the Noble Gases, Group VIIB Zinc, Cadmium, and Mercury. Lectures and Laboratory. (3 credits)

CHEMISTRY C280
Photographic Chemistry I
Prerequisite: Open to non-Science students, preferably with some high school chemistry. This is a combined lecture and laboratory course in photographic chemistry. It is to be taken in conjunction with Physics C215/C217. Basic chemical principles in the study of the photographic process. Factors affecting the control of development and some chemical reactions involved in the photographic process will be discussed and demonstrated. Lectures and laboratory. (3 credits)

CHEMISTRY C281
Photographic Chemistry II
Prerequisite: Chemistry C280. This is a continuation of Chemistry C280. Manufacturing of photographic emulsion, developer composition, fixation composition, and washing; reversal processing, mechanism of latent image formation and the theory of development will be discussed and demonstrated. Lectures and laboratory. (3 credits)

CHEMISTRY C282
Environmental Chemistry
Prerequisite: CEGEP Chemistry 201 or equivalent. General aspects of environment and ecology; cycles in nature. The chemistry of pollution, air-pollution, water pollution, water treatment. Compounds treated: oxides of carbon, nitrogen and sulphur, hydrocarbons and types of particles. Photochemical and chain reactions. Mercury, lead, oil detergents, insecticides will be examined with regard to their chemistry and their contribution to pollution. Lectures only. (2 credits)

CHEMISTRY C310
Electrochemical Methods of Analysis
Prerequisite: Chemistry C211; Chemistry C315 concurrently. Topics in theory and application involving potentiometry and potentiometric titrations; automated methods; polarization titrations; voltammetry and polarography; pulse and sweep methods; amperometric titrations; conductometric techniques; chronopotentiometry and chronocoulometry. Lectures only. (2 credits)

CHEMISTRY C311
Introductory Analytical Organic Chemistry I
Prerequisite: Chemistry C211 and C222, or Chemistry C222 and 6 credits in Biology course(s) with laboratory, Chemistry C316 concurrently. Identification of organic compounds and trace impurities by chemical and instrumental methods. Discussion of analytical procedures, sample preparation and instrumental methods with emphasis on spectroscopic methods. Lectures only. (2 credits)

CHEMISTRY C312
Introductory Analytical Organic Chemistry II
Prerequisite: Chemistry C211 and C222 or Chemistry C222 and 6 credits in Biology course(s) with laboratory, Chemistry C317 concurrently. Separation, purification and identification of organic components in chemical mixtures. Discussion of the basic principles of physical and chemical separations and related instrumentation, with emphasis on chromatographic methods. Lectures only. (2 credits)

CHEMISTRY C313
Environmental Pollution and Pollutant Analysis
Prerequisite: Chemistry C222 and any one of Chemistry C211, C371, Biology C250; Chemistry C318 concurrently. Scope and purpose of environmental chemistry; nature and composition of natural waters; pollution and trace-level substances in water; water analysis; nature and composition of the atmosphere; levels of the oxides of carbon, sulphur and nitrogen; organic, inorganic and particulate pollutants in the atmosphere; monitoring and analysis of pollutants in the atmosphere. Lectures only. (2 credits)

CHEMISTRY C314
Optical Methods of Analysis
Prerequisite: Chemistry C211; Chemistry C319 concurrently. Theory and application of absorption, turbidimetric, nephelometric and fluorescence techniques; flame absorption and emission spectrophotometry; electrical and plasma emission spectroscopy; atomic absorption flame and flameless techniques; X-ray fluorescence and diffraction methods; X-ray microprobe methods; radiochemical techniques. Lectures only. (2 credits)

CHEMISTRY C315
Electrochemical Methods of Analysis Laboratory
Prerequisite: Chemistry C211; Chemistry C310 concurrently. Analytical experiments providing experience in the methods discussed in Chemistry C310. Laboratory only. (1 credit)

CHEMISTRY C316
Introductory Analytical Organic Laboratory I
Prerequisites: Chemistry C211 and C222 or Chemistry C222 and 6 credits in Biology course(s) with laboratory, Chemistry C311 concurrently. Macro and semimicro separation techniques and procedures providing experience in the methods discussed in Chemistry C311. Laboratory only. (1 credit)

CHEMISTRY C317
Introductory Analytical Organic Laboratory II
Prerequisites: Chemistry C311, C316; Chemistry C312 concurrently. Macro and semimicro separation techniques and procedures providing experience in the methods discussed in Chemistry C312. Laboratory only. (1 credit)

CHEMISTRY C318
Environmental Pollution Analysis Laboratory
Prerequisite: Chemistry C222 and any one of Chemistry C211, C371, Biology C250; Chemistry C313 concurrently. Analytical experiments providing experience in the pollutant analysis methods discussed in Chemistry C313. Laboratory only. (1 credit)

CHEMISTRY C319
Optical Methods of Analysis Laboratory
Prerequisite: Chemistry C211; Chemistry C314 concurrently. Analytical experiments providing experience in the methods discussed in Chemistry C314. Laboratory only. (1 credit)
CHEMISTRY C321
Organic Stereochemistry
Prerequisite: Chemistry C222, C232 or C234. Conformational analysis of acyclic and cyclic systems. Relationship to physical properties and chemical reactivity: Chirality, enantiomerism, diastereomerism, prochirality, enantiotopism and diastereotopism. Examples from steroids, carbohydrates and enzyme mediated reactions. Lectures only. (2 credits)

CHEMISTRY C322
Organic Reactions
Prerequisite: Chemistry C321 and C331 previously or concurrently. A mechanistic survey of reactions of major synthetic utility: Determination of reactions mechanisms. Importance of reactive intermediates: carbocations, carbanions, radicals and carbenes. Lectures only. (2 credits)

CHEMISTRY C323
Bio-Organic Chemistry
Prerequisite: Chemistry C321 Chemistry of carbohydrates. Aspects of heterocyclic chemistry particularly as they apply to purines, pyrimidines and important coenzymes: pyridoxal, NADH, thiamine, flavines. Model enzyme studies. Lectures only. (2 credits)

CHEMISTRY C326
Natural Products
Prerequisite: Chemistry C222 or equivalent. Structure determination: synthesis and stereochecmy of various natural products. Examples from terpenes, carotenoids, steroids, alkaloids and antibiotics. Lectures only. (2 credits)

CHEMISTRY C327
Industrial Organic Chemistry
Prerequisite: Chemistry C222 or equivalent. Study of various industrial organic processes. Lectures only. (2 credits)

CHEMISTRY C328
Organic Chemistry of Polymers
Prerequisite: Chemistry C222 or equivalent. C232 or C234. Methods and mechanisms of polymer synthesis. Condensation polymerization, addition polymerization, ring opening reactions, Vinyl and diene polymers. Polymers, polyamides, etc. Lectures only. (2 credits)

CHEMISTRY C329
Organic Reactions Laboratory
Prerequisite: Chemistry C322 or C323 previously or concurrently; Chemistry C331 and C332 or C333 previously or concurrently. Experiments with reactions of synthetic and mechanistic importance. Reactions involving reactive intermediates. Kinetic and thermodynamic control. Rearrangements. Laboratory only. (2 credits)

CHEMISTRY C331
Chemical Kinetics
Prerequisite: Chemistry C232 or C234. Topics in chemical reaction kinetics, including: mechanisms of elementary reactions; theories of chemical reaction rates; free radical reactions; factors influencing rates of reactions in solution; acid-base catalysis; catalysis by enzymes; the Michaelis-Menten mechanism; inhibition in enzyme catalyzed reactions. Lectures only. (2 credits)

CHEMISTRY C332
Intermediate Thermodynamics

CHEMISTRY C333
Intermediate Physical Chemistry for Biochemists

CHEMISTRY C334
Radiation Chemistry
Prerequisite: CEGEP Chemistry 201 or equivalent. A study of the chemical effects caused by ionizing and other nuclear radiations in their passage through matter. A description will be given of the quantitative measure of radiation, energy absorbed, the energy absorption mechanisms, the reaction patterns of the intermediates (excited molecules, radicals, and ions). A discussion of the mechanism for the radiation-induced dissociation of H2O, organic compounds in the gaseous and liquid state and radiation effects in specific solids. Lectures only. (2 credits)

CHEMISTRY C338
Physical Chemistry Laboratory
Prerequisite: Chemistry C232 or C234. Experiments in physical chemistry, to illustrate some of the concepts studied previously, and to acquire basic dexterity in the physical chemistry laboratory. Laboratory only. (2 credits)

CHEMISTRY C339
Physical Chemistry Laboratory
Prerequisite: Chemistry C232 or C234. Further experiments in physical chemistry. The student will be expected to investigate more complex systems, and to write meaningful laboratory reports. Laboratory only. (2 credits)

CHEMISTRY C342
Chemistry of the Transition Elements
Prerequisite: Chemistry C241 and C242, Chemistry C211. Coordination chemistry; structure, theory of bonding, reactivity of transition metal complexes of various coordination numbers. Descriptive chemistry of transition metals of various oxidation states. Organometallic chemistry. Inorganic chemistry in biological systems. Lectures only. (2 credits)

CHEMISTRY C343
Industrial Inorganic Chemistry
Prerequisite: CEGEP Chemistry 201 or an equivalent course. Study of selected industrial inorganic processes. Lectures only. (2 credits)

CHEMISTRY C348
Inorganic Chemistry Laboratory
Prerequisite: Chemistry C342 previously or concurrently. Syntheses of coordination and organometallic compounds requiring various techniques. Determination of various properties of the compounds prepared at the laboratory bench. Laboratory only. (1 credit)

CHEMISTRY C371
Introductory Biochemistry
Prerequisite: Chemistry C222 and for Biochemistry students, Chemistry C234. Fundamental aspects of biochemistry are surveyed. Protein structure and function, enzymology and enzyme kinetics. Carbohydrate metabolism: glycolysis, Krebs cycle, respiratory chain. Phosphogluconate pathway. Intermediate metabolism of lipids and proteins. Biosynthetic pathways of lipids, proteins, carbohydrates, amino acids and nucleotides. Nucleic acid structures and their function in protein synthesis; control...
CHEMISTRY C380
General Industrial Chemistry
Prerequisite: Second year chemistry students or permission of the Department. Board outline of major factors to be considered by the chemical industry when contemplating manufacture of a new product or product group with special emphasis on market determination, customs, tariffs, use of Statistics, Canada data, existing or potential competition, inherent advantages or disadvantages. Relative importance of labour versus capital; plant location; transportation considerations; by-product disposition; hazard and pollution considerations; government regulated products; government incentives. Marketing channels; exports considerations; foreign tariffs and non-tariff barriers. Lectures only. (2 credits)

CHEMISTRY C390
Introductory Instrumentation
Prerequisite: Chemistry C211 or two 6-credit Biology courses with laboratory Chemistry C399 concurrently. Introduction to measurement principles, instrument design and basic techniques: analysis of basic modules in pH meters, potentiometric titrators, polarographs, gas chromatographs, photometers and spectrophotometers to emphasize facility in the use of similar instruments for measurement of specific systems. Lectures only. (2 credits)

CHEMISTRY C391
Chemical Spectroscopy
Prerequisite: Chemistry C222 and C232 or C234. General theories of spectroscopy: classical and quantum mechanical approaches. Infrared, ultraviolet and proton magnetic resonance spectroscopy will be applied to the elucidation of structure of organic molecules. Rates and activation energies by p.m.r. Lectures, problem periods and laboratory. (3 credits)

CHEMISTRY C399
Introductory Instrumentation Laboratory
Prerequisites: Chemistry C211 or two full laboratory courses in Biology; Chemistry C390 concurrently. Basic RLC circuits, filters, semiconductor diodes, transistors, transistor amplifiers, difference amplifiers, operational amplifiers. Introduction to mechanical, optical and electrical transducers and recorders; signal-to-noise optimization, digital electronics, logic circuits and automation. Laboratory only. (1 credit)

CHEMISTRY C411
Advanced Analytical Organic Chemistry
Prerequisite: Chemistry C311 and C312, C316 and C317, Chemistry C414 concurrently. Methods and techniques for the analysis of complex organic industrial formulations and natural products. Lectures only. (3 credits)

CHEMISTRY C416
Advanced Analytical Organic Laboratory
Prerequisite: Chemistry C311 and C312, C316, C317. Chemistry C411 concurrently. Experiments in the analysis of industrial formulations and natural products providing experience in the methods discussed in Chemistry C411. Laboratory only. (1 credit)

CHEMISTRY C419
Research Project and Thesis in Analytical Chemistry
Prerequisite: The student must be enrolled in the Specialization in Analytical Chemistry Program. The student will work on a research project involving a theoretical and/or practical aspect of analytical chemistry, and will write a thesis on the results. The research project will be scrutinized by a committee of members of the Department. Experimental work and theory. (6 credits)

CHEMISTRY C421
Physical Organic Chemistry
Prerequisite: Chemistry C322. Theory and use of sigmatropic pericyclic and electrocyclic reactions. Woodward-Hoffman rules, Møller-Plesset approach. Application to bacterial and chemical photochemistry. Introduction to synthetic photochemistry. Lectures only. (3 credits)

CHEMISTRY C422
Organic Synthesis
Prerequisite: Chemistry C322. Consideration of synthetic strategy and synthesis design. Modern synthetic methods and reagents. Example by syntheses of terpenes, alkaloids, pheromones and novel structures. Lectures and laboratory. (4 credits)

CHEMISTRY C427
Industrial Synthetic Chemistry
Prerequisite: Chemistry C322. Selected study of industrial synthesis of fine chemicals, pharmaceuticals, dyes, etc. Group assignments in scaling up laboratory syntheses to large scale, patent literature, toxicology, pollution and related industrial legislation. Lectures and laboratory. (4 credits)

CHEMISTRY C431
Statistical Thermodynamics
Prerequisite: Chemistry C331, C332 or C333. Elements of probability theory, microcanonical, canonical and grand canonical ensembles; Boltzmann distribution; quantum mechanical treatment of an ideal gas. Fermi-Dirac and Bose-Einstein statistics; Einstein and Debye models of a monatomic crystal; conformation of polymer chains. Lectures only. (3 credits)

CHEMISTRY C432
Selected Topics in Physical Chemistry
Prerequisite: Chemistry C331, C332 or C333. Subject matter will differ from year to year to take advantage of the special interest of the instructor concerned. The course will provide opportunities to senior students for discussion and advanced study in physical chemistry. Lectures only. (3 credits)

CHEMISTRY C433
Advanced Quantum Chemistry
Prerequisite: Chemistry C323, C332 or C333. This course deals with the theories of valence for both organic and inorganic materials. Topics covered include symmetry, construction and use of character tables, valence bond theory, molecular orbital theory, crystal field theory, ligand field theory. Lectures only. (3 credits)

CHEMISTRY C434
Advanced Physical Chemistry for Biochemists

CHEMISTRY C435
Physical Chemistry of Polymers
Prerequisite: Chemistry C332 or C333 previously or concurrently. C222. Physical properties of polymers; polymer solution theory; molecular weight distributions and fractionation; molecular determinations by colligative properties; light scattering and ultracentrifuge techniques; kinetics of condensation and addition polymerizations; copolymerization. Lectures only. (3 credits)
CHEMISTRY C436
Electrochemistry

CHEMISTRY C429
Advanced Physical Chemistry Laboratory
Prerequisite: Chemistry C331, C332 or C333, C339. Advanced experimentation in chemical kinetics and thermodynamics with complete laboratory reports. Lectures and laboratory. (3 credits)

CHEMISTRY C441
Selected Topics in Inorganic Chemistry
Prerequisite: Chemistry C342. Selected topics in the field of Inorganic Chemistry chosen from current interest in this field. Particular topics may include: Organometallic Chemistry. Kinetics and Mechanisms of Inorganic Reactions. Electronic Spectroscopy of Transition Metal Complexes. Inorganic Photochemistry. Introduction to X-ray Crystallography and other current topics from the literature. Lectures only. (3 credits)

CHEMISTRY C442
Physical Methods in Inorganic Chemistry
Prerequisite: Chemistry C241 and C242; Chemistry C211; Chemistry C391 previously or concurrently. Introduction to symmetry and the character tables. Diffraction methods, X-ray, ESCA, UV-Visible, ORD and CD, EPR, Moessbauer, NQR, NMR, IR and Raman. Lectures only. (3 credits)

CHEMISTRY C449
Laboratory in Synthesis and Techniques in Inorganic Chemistry
Prerequisite: Chemistry C442. Some of the techniques discussed in Chemistry C442 will be employed in the laboratory to characterize and determine properties of compounds synthesized at the laboratory bench. Laboratory only. (1 credit)

CHEMISTRY C450
Research Project and Thesis
Prerequisite: Permission of the Department. The student will work on a research project under the direction of a staff member, and will write a thesis on the results. (6 credits)

CHEMISTRY C470
Proteins and Lipids-Structure-Function Relationships
Prerequisite: Chemistry C371. Protein conformation in relation to muscle contraction and relaxation including ATP-myosin, actin-myosin and troponin-Ca++ interactions. Structure-function analysis of immunoglobulins and antigens: amino acid sequence, three-dimensional structure, antibody diversity, immunity, hypersensitivity, auto-immunity and graft versus host response. Biochemical and physical properties of lipids in relation to functions of biological membranes. Lectures only. (3 credits)

CHEMISTRY C471
Enzyme Kinetics and Mechanism
Prerequisite: Chemistry C371 and C331. Steady state kinetics including derivation of rate equations and the use of initial velocity studies and product inhibition to establish a kinetic mechanism; non-steady state kinetics, isotopic effects, energy of activation, etc.; methods used to study the role of amino acid residues in enzymic reactions; roles of various coenzymes and metals in enzyme mechanisms. Lectures only. (3 credits)

CHEMISTRY C472
Selected Topics in Biochemistry
Prerequisite: Permission of the Department. Selected topics in the field of Biochemistry chosen according to the interests of the instructor. Lectures only. (3 credits)

CHEMISTRY C473
Medicinal Chemistry I
Prerequisite: Chemistry C371. Types of drug action. Influence of physicochemical factors on drug activity, solubility partition coefficients, surface activity, molecular geometry, electronic properties, ionization. Receptor theory and methods, drug-receptor interactions of cholinerigic, adrenergic and opiate drugs. Lectures only. (3 credits)

CHEMISTRY C474
Medicinal Chemistry II
Prerequisite: Chemistry C371. Theories of drug action. Survey of structure and mechanism of action of selected groups of drugs (e.g., antihistamines, diuretics, antibiotics, psychotropic drugs, steroids, pesticides, etc.) Drug design, modulation of drug metabolism, transport, bioactivation by molecular modification. Antimetabolites. Lectures only. (3 credits)

CHEMISTRY C475
Pharmacology I
Prerequisites: Chemistry C371, Pharmacokinetics. Pharmacokinetics, drug metabolism and interaction. Toxicology, carcinogenesis and teratogenesis. Drug development and testing. Lectures only. (3 credits)

CHEMISTRY C476
Pharmacology II
Prerequisite: Chemistry C475. Autonomic nervous system pharmacology. Functions of central nervous system, depressants, stimulants. Narcotic analgesics, addiction. Cardiovascular, renal and endocrine pharmacology. Lectures only. (3 credits)

CHEMISTRY C479
Advanced Biochemistry Laboratory
Prerequisite: Chemistry C470, C471 or C472 previously or concurrently. This course deals with the theory and practice of modern biochemical laboratory techniques. Lectures and laboratory. (3 credits)

CHEMISTRY C490
Advanced Instrumentation
Prerequisite: Chemistry C390 and C399. Chemistry C499 concurrently. Instrumental amplifiers, transducers and measurement errors. Analog, time and digital data domains, Optimization of electronic measurements, frequency response, sampling parameters, signal-to-noise enhancement. Microprocessors for control data acquisition and interface to computers. Lectures only. (3 credits)

CHEMISTRY C491
Advanced Spectroscopy
Prerequisite: Chemistry C321, C311 and C316, or C391 C498 concurrently. Theory and uses of NMR and EPR spectroscopies. Mass spectrometry: principles, fragmentation patterns, use in structure elucidation. Lectures only. (3 credits)
CHEMISTRY C498
Advanced Spectroscopy Laboratory
Prerequisite: Chemistry C491 concurrently.
Selected experiments to demonstrate the uses of NMR, EPR and mass spectrometry. Laboratory only. (1 credit)

CHEMISTRY C499
Advanced Instrumentation Laboratory
Prerequisite: Chemistry C390 and C399, Chemistry C490 concurrently. Selected experiments to demonstrate the topics discussed in Chemistry C490. Laboratory only. (1 credit)

PROGRAMMES

The Department offers courses in Ancient History, in Ancient Greek and Latin, and in classical literature read in the original or in translation. It also offers courses in classical civilization, Pre-History and Archaeology.

The Department offers two programmes. The programme of Classical Philology requires linguistic competence in Ancient Greek and Latin, and is directed towards a comprehensive understanding and appreciation of Ancient History and Literature. The programme of Classical Studies does not require a knowledge of the languages, but is concerned with a broadly based study of ancient society. Students may register for Honours (60 credits, 6 of which may be chosen in a cognate discipline), a Major (42 credits), or a Minor (24 credits) in either the Classical Philology or Classical Studies programme. Moreover, all courses in both of these programmes are open as electives to students in other departments.

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

CLASSICAL STUDIES

A. Literature

CLASSICS C211
The Beginnings of European Literature
(Greek Literature)
The Greek background of European literature. Selections from Homer, the Greek dramatists, Plato and Aristotle's Poetics. (3 credits)

CLASSICS C212
The Beginnings of European Literature
(Latin Literature)
The Roman background of European literature. Selections from Lucretius, Catullus, Cicero, Virgil, Horace, Ovid, Seneca and Juvenal. (3 credits)

CLASSICS C220
Greek Drama: Theatre and Democracy in Fifth Century Athens
Essentially a study of the literary and artistic merits of the tragedies of Aeschylus, Sophocles and Euripides, and the comedies of Aristophanes. The ritual origins of drama, mythical sources, and the growth of the dramatic form. Greek theatre as an expression of the democratic movement and of the intellectual revolution in fifth century Athens. (6 credits)

CLASSICS C222
The Comic Art
An investigation into the evolution of comedy from our earliest literary sources to the present. The classical influence in later comic literature. Theories of comedy, ancient and modern. Reading material will be drawn mainly from Greek and Roman dramatic literature. (3 credits)

CLASSICS C223
Roman Satire I
A study of the satiric genre, its birth and development in Roman literature, as seen in the works of Horace, Juvenal, Petronius, Persius and Seneca, with attention to the current social climate and historical events. (3 credits)

CLASSICS C224
Homer and the Epic Hero I
This course will deal principally with the Iliad of Homer: its form, content and meaning as an oral epic. Also investigated will be the hero in a warrior society: his privileges, responsibilities and moral values. (3 credits)
CLASSICS C225
Homer and the Epic Hero II
This course will deal mainly with the Odyssey of Homer and the Aeneid of Virgil. A comparison will also be made between the concept of the hero in ancient and in modern literature. (3 credits)

B. History
CLASSICS C230
(Also given as History C219)
The Ancient Near East I
A survey of the political, social, economic and intellectual history of the Ancient Near East from the Neolithic age to the Indo-European invasions of the early 2nd Millennium, with special emphasis placed upon the problem of the rise of civilization in Mesopotamia, Egypt and the Indus valley. Ancient sources utilized wherever possible. (3 credits)

CLASSICS C231
(Also given as History C221)
The Ancient Near East II
A survey of the political, social, economic and intellectual history of the Ancient Near East from the Indo-European invasion of the early 2nd Millennium to the establishment of the Persian empire, with special emphasis placed upon the process of diffusion of civilization throughout the Near Eastern World, the creation of Egyptian, Mesopotamian and Persian Imperialism and the development of Hebrew monotheism. Ancient sources utilized wherever possible. (3 credits)

CLASSICS C240
(Also given as History C223)
Greek History I
A political, social, economic and cultural history of Greece from Minoan-Mycenaean times to the end of Classical Greek civilization in the 4th century B.C., with special emphasis placed upon 5th century Athens. (3 credits)

CLASSICS C241
(Also given as History C224)
Greek History II
A political, social, economic and cultural history of the Greek World from Alexander the Great to the Roman conquest of Greece in 146 B.C. While due attention will be paid to developments within the Hellenistic Kingdoms and to the later Greek achievements in art, literature, science, philosophy and religion, the process of fusion of Hellenism with the Orient — vital for the evolution of Judaism, Christianity and Islam — will be extensively explored. (3 credits)

CLASSICS C242
(Also given as History C225)
Roman History
A political, social, economic and cultural history of Rome from the City’s origins to the establishment of the Roman Empire under Emperor Augustus. (3 credits)

CLASSICS C243
(Also given as History C320)
History of the Roman Empire
Prerequisite: Classics C242 (History C225); or permission of instructor. A political, social, economic and cultural history of the Roman Empire from Augustus to Justinian the Great. Attention will be paid to the rise of Christianity and the continuity of Roman law and administration in both the eastern and western parts of the Late Roman Empire. (6 credits)

CLASSICS C244
Propaganda and Political Deception in Greek and Roman History
Prerequisite: An Ancient History Course. An examination of the relationship between political ideas and practice with particular emphasis upon the slogans and false ideologies invented to justify war, peace, and the implementation of political and constitutional programmes by both radical and reactionary elements. Though inevitably the chief sources discussed will be literary, due attention will also be directed towards the value of numismatic, epigraphic, and artistic material as a means of winning over the mind of man. (6 credits)

CLASSICS C346
(Also given as History C321)
Continuity and Change: An Intellectual History of the Late Roman Empire
Prerequisite: One course on the ancient or medieval world. A study of the main intellectual and social forces in the late Roman Empire that contributed most significantly to the formation of European culture. Among those topics treated will be Neo-Platonism, Gnosticism, the Greek and Roman system of education, government and private welfare policies, mystery religions, late Judaism, early Christianity, the religious policy of pagan and Christian Emperors, contemporary art and architecture. (6 credits)

CLASSICS C448
(Also given as History C420)
Alexander the Great and Julius Caesar
Prerequisite: An Ancient History course. A course devoted to the careers of two of the most notable and influential figures in Ancient History, seeking to discover them as they were, the worlds which they conquered, their aims and their achievements. (6 credits)

CLASSICS C449
(Also given as History C422)
Human Beginnings: The Stone Ages

C. Culture & Civilization
CLASSICS C250
Greeks and the Afterlife
A study of ideas of immortality as reflected in classical Greek literature. An examination of myths, mystery religions and schools of philosophical thought. This literary survey will include readings translated from the works of Homer, Hesiod, Sophocles, Euripides and Plato. (3 credits)

CLASSICS C251
Romans and the Afterlife
A study of the growth of early Roman customs connected with the supernatural. Burial practices and tomb paintings of the Etruscans. Popular Roman concepts of the underworld and the influence of Greek myth. The intellectual influence of Greek philosophy on later Roman religious thought as reflected in the works of Cicero and Lucretius. Religion and the patriotic ideal in the Augustan revival as reflected in Virgil’s Aeneid. (3 credits)

149
CLASSICS C252
Love, Hate and Friendship in the Classical World

The growth and failure of human relationships were of intimate concern to men and women in the ancient world, as they are today. This course will investigate in the literature of classical times the evolving shape of human encounter in terms of three basic emotions: love, hate and friendship. The theme “love” will be examined as expressed in the Odyssey of Homer and especially in the love poetry of Greece and Rome. (3 credits)

CLASSICS C253
Love, Hate and Friendship in the Classical World

The theme “hate and revenge” will be seen in its most tragic form in the Iliad of Homer and in the plays of the Greek dramatists. The third theme, “friendship”, will be examined in its elemental form in the Iliad of Homer, and then in its urban expression in the works of Plato and Cicero. (3 credits)

CLASSICS C254
Women in Classical Antiquity

An examination of the social status and position of women in ancient Greece and Rome. Particular emphasis will be placed upon the apparent contradiction between the seemingly inferior position occupied by women in fifth-century Athens and the general enlightenment that characterized the epoch. Within this context, the influence of war upon the struggle for feminine emancipation, as seen through the eyes of tragedians, comic writers, philosophers and historians, will be considered. Due attention will also be paid to the movement for feminine emancipation during the late Roman Republic and early Empire. (6 credits)

CLASSICS C256
A Comparative Study of Judaic and Greek Traditions

The course deals with the problems involved in the encounter of the Judaic and Greek traditions and is designed also for students of philosophy, theology and history.

The end of the First Diaspora. Different currents (exclusiveness versus rapprochement) under Hellenistic rule. Alexander legends, Maccabean Hellenism. Anti-semitism in Alexandria. The mutual influence between Judaism and Hellenism as manifest in philosophical and religious writings, in symbols and customs. Their importance for the development of Western culture. The destiny of a people: the political Judaic independence and gradual intellectualization of Jewish life. The development of the Synagogue and the Talmudic Academies. (6 credits)

CLASSICS C260
Myth and Mythmaking

An examination of the universal features of myth, the recurrent patterns of myth in primitive cultures (Asoo-Indian, American-Indian, Insular Pacific, Celtic, etc.). Near Eastern Mythologies (Mesopotamia, Ugarit). Mythological remains in the Old Testament and post-biblical Jewish literature. Major emphasis on classical myths, the origin of the gods, the feats of heroes, and the adventures of mortals in Homer, Hesiod, the Greek Tragedians, the Platonic Dialogues, Ovid, and the Bible. (6 credits)

CLASSICS C264
(Also given as History C227)
An Introduction to Archaeology

Archaeology as a science; its purpose, methods, theories, and techniques. The relationship of Archaeology to Pre-History, Ancient History, Fine Arts, and Anthropology. The Neolithic Revolution and the emergence of the earliest civilizations: Mesopotamia, Egypt, India, and China. The Bronze Age in Crete and in Greece. Most of the course will consist in the presentation, classification, dating, and interpretation of selected artifacts. Some work at the Montreal Museum of Fine Arts. (3 credits)

CLASSICS C265
(Also given as History C229)
Greek and Roman Art and Archaeology

The Archaeology of Greece and Rome with particular attention to painting (especially ceramics), sculpture, and architecture. The concept of “style” in archaeology and in art history and criticism. The works of Exekias and Douris, of Phidias and Praxiteles, and of Ikhnons and Kratinos as representative of the “ideali” in Classical Greek Art. The Greek and Etruscan influence on Roman Art as well as the native Roman contribution. The falsifications of history and the truth that can be recovered by the archaeologist. Some work at the Montreal Museum of Fine Arts. (3 credits)

CLASSICS C268
Mesoamerican Archaeology

An archaeological and anthropological study of the cultures of the Pre-Columbian peoples and civilizations of ancient Mexico, Belize, Guatemala, and Honduras: The Olmec “mother culture” Izapa, Monte Alban, Tiwanaku, and Teotihuacan. The glory and the grandeur of the Maya. Form and iconography in Mesoamerican art. From the Toltecs to the Aztecs. An aesthetic appreciation of Pre-Columbian art and architecture. Current excavations, theories, and controversies among Americanists. Some work at the Montreal Museum of Fine Arts. (3 credits)

CLASSICS C269
South American Archaeology

SPECIAL COURSES
(either Philology or Classical Studies)

CLASSICS C370
Selected Topics in Classics

Content and prerequisite will depend on the theme assigned by the Department. (6 credits)

CLASSICS C371
Selected Topics in Classics

A student may repeat Classics C370 provided the content is different, by registering for credits under Classics C371. (6 credits)

CLASSICS C470
Advanced Topics in Classics

This course treats advanced topics of interest in Classics. Content and prerequisite will depend on the theme assigned by the Department. (3 credits)

CLASSICS C471
Advanced Topics in Classics

A student may repeat Classics C470 pro-
viced the content is different, by registering for
credits under Classics C471. (3 credits)

CLASSICAL PHILOLOGY

A. Classical Greek

CLASSICS C280

Elementary Classical Greek

A course for those with no previous knowledge of Greek. Major emphasis will be placed on assisting the student in acquiring a reading command of the language. This course is designed not only for those interested in classical literature but also for students in the departments of history, philosophy and theology. (6 credits)

CLASSICS C380

Intermediate Classical Greek

Prerequisite: Classics C280 or equivalent. Further work towards the acquisition of a reading command of the language. Readings from works such as Plato’s Apology and Crito, Xenophon’s Anabasis, and the New Testament. (6 credits)

CLASSICS C480

Greek Historians

Prerequisite: Classics C380 or equivalent. Selections from Herodotus, Thucydides and others. (6 credits)

CLASSICS C481

Plato

Prerequisite: Classics C380 or equivalent. Selections from The Republic and other major dialogues. (6 credits)

CLASSICS C482

Homer

Prerequisite: Classics C380 or equivalent. Extensive readings from both epics in Greek; both works in their entirety in English. (6 credits)

CLASSICS C483

Greek Tragedians

Prerequisite: Classics C380 or equivalent. Representative dramas from Aeschylus, Sophocles and Euripides. (6 credits)

CLASSICS C484

Greek Orators

Prerequisite: Classics C380 or equivalent. Selections from Demosthenes and other Attic orators. (6 credits)

CLASSICS C485

Greek Comedy

Prerequisite: Classics C380 or equivalent. Plays of Aristophanes and Menander. (6 credits)

B. Latin

CLASSICS C290

Elementary Latin

A course for those with no previous knowledge of Latin. Major emphasis will be placed on assisting the student in acquiring a reading command of the language. Open to all students but especially for those interested in classical languages, history, philosophy and theology. (6 credits)

CLASSICS C390

Intermediate Latin

Prerequisite: Classics C290 or equivalent. Further work towards the acquisition of a reading command of the language. Selections from Cicero, Catullus and Pliny or Seneca. (6 credits)

CLASSICS C490

Roman Historians

Prerequisite: Classics C390 or equivalent. Selections from Sallust, Livy and Tacitus. (6 credits)

CLASSICS C491

Cicero

Prerequisite: Classics C390 or equivalent. Careful examination of selections from the letters and the oratorical and philosophical works. (6 credits)

CLASSICS C492

Roman Poetry I

Prerequisite: Classics C390 or equivalent. Selections from Horace and Virgil. (6 credits)

CLASSICS C493

Roman Poetry II

Prerequisite: Classics C390 or equivalent. Selections from Ovid and Lucretius. (6 credits)

CLASSICS C494

Late Latin

Prerequisite: Classics C390 or equivalent. A study of selected texts from the works of patristic and medieval writers. This course is directed especially to students of history, philosophy and theology. (6 credits)

CLASSICS C495

Roman Comedy

Prerequisite: Classics C390 or equivalent. Selections from Plautus and Terence. (3 credits)

CLASSICS C496

Roman Satire II

Prerequisite: Classics C390 or equivalent. Selections from Juvenal, Petronius, Persius and Seneca. (3 credits)
31.10 Communication Studies

Chairman
C. J. FISCHER, Associate Professor

Professors
J. BUELL
M. MALIK
J. E. O'BRIEN

Associate Professor
M. GERVAIS

Assistant Professors
D. CLARK
D. DINAICOPOULOS
T. GECSKI
W. GILSDORF
J. HARRISON
R. MILLER
D. MURPHY
G. VALASKAKIS

PROGRAMMES
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value

The Department offers two programmes of study:

a) Bachelor of Arts, Specialization in Communication Studies consisting of 60 credits in Communication Studies and 30 credits from electives outside the Department.

b) Bachelor of Arts, Major in Communication Studies consisting of 42 credits in Communication Studies and 48 credits from electives outside the Department.

Elective credits are understood as courses taken in other Departments or Faculties of the University, Credits in Communication Studies (Loyola Campus) or Cinema (Sir George Williams Campus) may not be used in lieu of electives.

200-level courses are normally taken in first year, 300-level courses in second year, 400-level courses in third year.

60 BA Specialization in Communication Studies (Loyola)
12 COMS C2403, C2553, C2783, C2843
6 COMS C2053, C2303, C2753
12 Chosen from courses in Group A
12 Chosen from courses in Group B
6 Chosen from courses in Group A or B, or with the approval of the Department in cognate courses outside the Department.

*With written approval of the Chairman, up to six credits from Group C may be replaced by six credits from Group A or Group B.

42 BA Major in Communication Studies (Loyola)
12 COMS C2403, C2553, C2783, C2843
6 COMS C2053, C2303, C2753
6 Chosen from courses in Group A
6 Chosen from courses in Group B
6 Chosen from courses in Group C
6 Chosen from courses in Group A or B

Department Objectives
The Department of Communication Studies, founded in 1965 as Communication Arts, the first at a Canadian university, has developed a programme that combines the study of the major media with the Humanities and Sciences needed for their understanding and optimal use.

The program is designed to provide students with a high level of media literacy and with a grasp of the scientific, technological, social, and historical contexts of modern media and communication. It is multi-disciplinary both within its own curriculum and in its recommended electives in the humanities, sciences, and social sciences which are integral to the programme.

Intellectually and critically, both in seminar rooms and laboratories, the primary concern is to investigate "media man" and "media world", to understand more fully the role of media in society, to examine critically the goals of society as projected in media, and to assess realistically the responsibilities of media vis-à-vis that society. To this end, students are encouraged to develop a personal artistic and ethical statement on the quality of life and the goals of society.

Integrated with this, the student's creative work starts with acquiring skills in the basic technology of the media, and understanding these media as communicational modes. This is followed and enlarged by a concentration on the rhetorical and artistic dynamics of media (be it film, television, radio, sound, photo, etc.) and on the content of a work created in a particular medium.

The curriculum is designed:
1. for students who intend to pursue graduate studies in communication;
2. for future writers, critics, communication studies consultants, directors, and performers;
3. for future teachers in all aspects of radio, television, film, photography (research, theory or practical);
4. for students who plan a career in the areas of publicity, promotion, advertising and public relations.

Facilities
The department has one television-film studio, 7-source video input, 2"" - 1"" - ½"" videotape recording and editing facilities, 14 portable TV cameras, 7x 16mm units, 16mm sync and editing units, and complete super
3mm sync sound/film units; photographic laboratories; an optical laboratory; an holo-
graphic and laser laboratory; multiple sound facilities; a research studio for the measure-
ment of visual and audio information loads, and electronic and electro-mechanical pro-
grammer for multi-media use, a multi-media room, and a learning centre with audio-film-
video terminals for independent study.

Department Admission Requirements
Applications repeatedly outnumber the Department's space and faculty. To permit a
fair and informed selection we ask applicants to provide adequate information about them-

1. A comprehensive letter of intention stat-

2. Meaningful letters of recommendation, at

Please note that new course numbers were
implemented in 1977-78 and 1979-80. For
equivalent course numbers under the old
system, please consult § 200.5.

NOTE: Unless otherwise indicated regis-
tration in Communication Studies courses is
open only to students registered in Speciali-
ization or Major programmes in Communica-
tion Studies.

COMMUNICATION STUDIES C205
History of Communication Media Carriers
Selected segments from the history of paint-
ing, design, architecture, drama, photography,
film, radio and television related to the possible
use in media productions and to the contempo-
rary philosophy of communication. Readings
and viewing of major styles, artworks, and
authors in a self-instructional, programmed
course. (3 credits)

COMMUNICATION STUDIES C230
Basic Writing for the Media
This course is designed to provide knowledge
of the practice of the special written forms and
formats utilised by the media. Assignments are
practically oriented toward possible student
productions. (3 credits)

COMMUNICATION STUDIES C240
Communication Theory
Through lectures, discussions and selected
readings from the works of key theorists, this
course introduces students to major appro-
aches to the understanding of the process of
communication. (3 credits)

COMMUNICATION STUDIES C255
Communication Analysis
General and detailed analysis of various infor-
mation complexes, e.g., museums, galleries,
exhibitions, countrysides, landscapes, city
streets, highways, department stores, churches,
etc., from the point of information values used
to influence future prospective audiences of
films, television programmes or exhibition and
theatre visitors. The basic values of light, space,
picture, sound, words and exhibit structures will
be explored through individual student projects
in real locations. Students will work on individu-
al projects under the supervision of the directing
professor. Tutorial course. (3 credits)

3) A complete record of all studies to the
present time, including those courses in
which the applicant is now enrolled.

4) One or two examples of creative effort in
any medium of expression.

5) An interview which will include discussion
of any or all of the above, plus any topics
that the committee feels will provide in-
sight into the candidate's potential for
university-level study of media.

Applications and all supporting documents
should be sent before March 15th to the
Admissions Committee, Department of Com-

Diploma in Communication Studies
The Department also offers a one-year
diploma programme for students who have
completed their undergraduate degree in
another field. Detailed information on the
programme is given in the University's Calen-
dar of Graduate Studies.

COMMUNICATION STUDIES C275
Visual Dynamics I
In this course students are led to discover
fundamental laws which underlie visual re-
presentation. The overall method is basic ex-
periments in vision and perception: to explore
distances, planes, tones, light, etc. Photo-

COMMUNICATION STUDIES C278
Seminar and Practicum in Graphics and
Sound I
The Graphics section is designed to provide
the students with an understanding of graphics
as a communication language through the
study of design, color, spatial organization and
content symbolization theories applied to
graphic techniques, as well as mass commu-
nication and perception theories. Conceptu-
alization of ideas is stressed. The Sound section
of this course is designed to provide the student
with a basic working knowledge of audio sys-
tems both natural and electronic, to understand
the various affective and psychological qualities
of sound, and how sound may be structured
into imaginative aural forms, which may also be
applied to visual media. A final slide/tape pres-
entation is required from each student to evalu-
ate his/her comprehension of differing media
characteristics. Lectures and Lab: average 6
hours per week. Students are required to bear
some of the cost of materials. (3 credits)

COMMUNICATION STUDIES C284
Seminar and Practicum in Film and Video I
A practical approach to an understanding of the
common elements of film and video media,
and of the specific differences inherent in their
effective use. Course methodology includes lec-
tures, screenings, readings, portapak, video and
Super 8mm film productions. Lectures and
laboratory: average 6 hours per week. (3 cred-
its)

NOTE: Students are required to possess certain
recommended equipment and to bear some of
the costs of materials.

153
COMMUNICATION STUDIES

GROUP A

COMMUNICATION STUDIES C300
Selected Topics in Communication Studies
Content will depend on the theme designated by the Department. (3 credits)

COMMUNICATION STUDIES C301
Selected Topics in Communication Studies
A student may repeat COMS C300, provided that the content is different, by registering for credits under COMS C301. (3 credits)

COMMUNICATION STUDIES C302
Selected Topics in Communication Studies
Content will depend on the theme designated by the Department. (3 credits)

COMMUNICATION STUDIES C303
Selected Topics in Communication Studies
A student may repeat COMS C302, provided that the content is different, by registering for credits under COMS C303. (3 credits)

COMMUNICATION STUDIES C304
Media and Media-Culture
This course is about media and their function, overt and covert; their effect on perception: as bases for thought, organization, technologies; as determinants of content: as accelerators of cultural changes; oral-aural, manuscript, print, electronic cultures, current cultural dynamics. The method is lecture-discussion and projects. Assignments are more or less monthly. (6 credits)

COMMUNICATION STUDIES C305
Advanced Script-Writing for Film
Prerequisite: Submission of an original short story by August 1st, and subsequent approval of instructor. A practical course in writing film-drama: story construction and plotting, scenemaking, characterization and character development, dialogue, dramatic continuity, timing, pacing, rhythm, suspense, and creative criticality. Many of these fictional and dramatic techniques will, as the occasion arises, be applied to non-fictional scripts as well. The method is lecture, discussion, demonstration, critique. Assignments are continual and on-going. (6 credits)

COMMUNICATION STUDIES C306
Documentary Film
Prerequisite: Open to all University students with at least Second-year standing. A survey of the documentary film field from 1895 until today, with an examination of major styles (Romantic, Realistic, Expressionistic, Avant-Garde, etc.) in the works of significant documentary filmmakers. The method is lecture, screenings, critique and discussion. (3 credits)

COMMUNICATION STUDIES C307
Hollywood in the Silent Era
Prerequisite: Open to all University students with at least Second-year standing. In depth study of the 60-year career of Chaplin, with special emphasis on the great early comics (Keaton, etc.) in Germany and in their later Hollywood careers. The German cinema of the '20's; the Expressionists. Integration with the socio-cultural climate of the pre-Hitler days. (Offered 1980-81) (3 credits)

COMMUNICATION STUDIES C308
The German Expressionist Movement
Prerequisite: Open to all University students with at least Second-year standing. The aesthetic bases for thought, organization, technologies: as determinants of content, by registering for credits under COMS C307. (3 credits)

COMMUNICATION STUDIES C309
The Revolutionary Soviet Cinema
Prerequisite: Open to all University students with at least Second-year standing. The Soviet Formalists of the '20's: Eisenstein, Pudovkin, Dovzhenko. Film and revolution; Marxist aesthetics. The later evolution of the Soviet cinema. (Offered 1981-82) (3 credits)

COMMUNICATION STUDIES C310
The Hollywood Genres
Prerequisite: Open to all University students with at least Second-year standing. Concentration on specific genres and directors of Hollywood in its golden era ('30's, '40's). The aesthetics of art and the mass audience. (Offered 1980-81, 1981-82) (3 credits)

COMMUNICATION STUDIES C311
The Classic French Cinema
Prerequisite: Open to all University students with at least Second-year standing. Before the Nouvelle Vague, the great French cinema of Renoir, Clair, Ophuls, Cocteau. (Offered 1979-80) (3 credits)

COMMUNICATION STUDIES C312
La Nouvelle Vague
Prerequisite: Open to all University students with at least Second-year standing. Truffaut, Godard, Chabrol, Resnais, etc. from their New Wave days to the present. Brenson. The new cinema: consciousness, ideology, art. (Offered 1981-82) (3 credits)

COMMUNICATION STUDIES C313
Ingmar Bergman and the Scandinavians
Prerequisite: Open to all University Students with at least Second-year standing. In depth study of Bergman. The entire context, from the great silent period (Sjostrom, Stiller, etc.) to today (Widerberg, etc.). (Offered 1979-80) (3 credits)

COMMUNICATION STUDIES C314
The Italians, from Neo-Realism to Today
Prerequisite: Open to all University Students with at least Second-year standing. The neorealism movement: Rossellini, De Sica, Visconti, Fellini, Antonioni, Pasolini, Bertolucci, Wertmüller. (Offered 1980-81) (3 credits)

COMMUNICATION STUDIES C315
Shakespeare in the Cinema
Prerequisite: Open to all University students with at least Second-year standing. Hamlet, Macbeth, Othello, etc., as seen in the works of Welles, Olivier, the Russians. A study of the plays and their cinematic expressions: Shakespeare's world via cinema. (Offered 1980-81) (3 credits)

COMMUNICATION STUDIES C316
The Canadian Cinema
Prerequisite: Open to all University students with at least Second-year standing. The aesthetic emphasis on the political and socio-cultural dimensions of feature films in Canada. Course conducted in collaboration with Canadian film directors, producers, actors, critics. (Offered 1979-80, 1981-82) (3 credits)

COMMUNICATION STUDIES C317
Film Studies
Prerequisite: Open to all University students with at least Second-year standing. A student may repeat one of the above courses (C307 to C316), provided that the content is different, by registering for credits under COMS C317. (3 credits)
The following courses, offered by the Cinema Section of the Faculty of Fine Arts, are open to Communication Studies students:

- **COMMUNICATION STUDIES C330**
  Advanced Script-Writing for Television
  Prerequisite: Submission of an original short story by August 1st, and subsequent approval of instructor. The course provides fundamental knowledge of visual scripting, research and evaluation technique. Practical experience is given in writing, narration, dialogue, speech styles, characterization and plot development, scripting for drama, comedy, documentary, children's, variety, TV series, and women's shows. (6 credits)

- **COMMUNICATION STUDIES C331**
  Documentary Television
  Prerequisite: At least second-year standing. A survey of the documentary television field from its beginning until today with an examination of characteristic styles and forms (informative, biographical, current events, compulsive, etc.). The method is lecture, video example, critique and discussions. (3 credits)

- **COMMUNICATION STUDIES C417**
  Film Ideas
  Seminar using film criticism to focus on aesthetic/cultural dimension of present trend-setting films and to explore students' sensibility in context of contemporary culture. Methodology includes viewings, discussions, written critiques, critical/aesthetic readings. (3 credits)

- **COMMUNICATION STUDIES C435**
  Documentary Film and Television Genres
  Prerequisite: COMS C306, C331 or permission of the Department. Survey of genres in documentary film and television: biographical, industrial, travelogue, nature, scientific, training, educational, children's films and TV programmes. Examples from Canada, USA, Europe. (3 credits)

- **COMMUNICATION STUDIES C437**
  Seminar in Media Forecast
  This course examines trends in film, sound, television and other media for future applications. The course includes theory of media effects. Representatives from industry and government are invited to discuss future trends in media utilization. The course demands a theoretical and practical model for original or novel use of a medium or media mix. (3 credits)

- **COMMUNICATION STUDIES C444**
  Television Aesthetics I
  A seminar for advanced students which will provide an opportunity for the study of specialized aspects of television aesthetics. (3 credits)

- **COMMUNICATION STUDIES C445**
  Television Aesthetics II
  A student repeating COMS C444 registers under COMS C445 for credits. (3 credits)

**GROUP B**

- **COMMUNICATION STUDIES C350**
  Communication Research
  Prerequisite: COMS C255 and permission of the Department. An examination of the aids for information-impact measurements, demonstrated on communication media carriers. Testing will be conducted on information complexes previously analyzed, e.g., photographs, advertisements, film segments, television program sequences, exhibitions, urban environments and open country landscapes. The main emphasis of learning is on the methodology of tests, diagnosis and interpretations of results for practical media productions. A biometrical and biotelemetrical approach is used in testing. Each student will work on individual projects during the year. Tutorial course. (3 credits)

- **COMMUNICATION STUDIES C360**
  Mass Communication
  The course will examine the nature and forms of Mass Communication, the social sources and uses of Mass Communication, its psychology, audiences and effects. The ethics of Mass Communication will also be discussed. Through guest lecturers from the various media and readings of contemporary analysis/critiques, issues such as media ownership and access, government and self-regulation, technological implications, media accountability, etc., will be raised. (3 credits)

- **COMMUNICATION STUDIES C361**
  Seminar in Propaganda
  Prerequisite: Open to all University students with at least Second-year standing. The aim of this course is to recognize the orchestration of the elements of propaganda in media and to develop the means to deal with it. Course methodology includes lecture, discussion, and projects. (3 credits)

- **COMMUNICATION STUDIES C362**
  Psychology of Communication
  The objectives of the course are to provide the learner with: 1) an overview of psychological processes active in the communicative act; 2) the opportunity to explore a single media area in depth, either independently or in a small group. Through a variety of formats, topic areas such as the following are explored: perception and information processing, language development, areas of para-psychology related to communication, influences on attitude/behaviour, verbal/non-verbal codes, meaning, etc. (3 credits)

- **COMMUNICATION STUDIES C363**
  Inter-Cultural Communication
  The course examines the relationship between value orientations, culturally-determined behaviour, and the communication process. Theory, research and projects focus on factors influencing inter-personal and mediated communication across subcultural and cultural boundaries. (6 credits)

- **COMMUNICATION STUDIES C440**
  Advanced Topics in Communication Studies
  This course focuses on advanced topics of interest in Communication Studies. Content will depend on the theme designated by the Department. (3 credits)

- **COMMUNICATION STUDIES C441**
  Advanced Topics in Communication Studies
  A student may repeat Coms C440 provided that the content is different, by registering for credits under Coms C441 (3 credits)

- **COMMUNICATION STUDIES C442**
  Advanced Topics in Communication Studies
  This course focuses on advanced topics of interest in Communication Studies. Content will depend on the theme designated by the Department. (3 credits)
COMMUNICATION STUDIES C443
Advanced Topics in Communication Studies
Prerequisite: COMS C442 provided that the content is different, by registering for credits under COMS C443 (3 credits)

COMMUNICATION STUDIES C451
Communication Programming
Prerequisite: COMS C255, C350 and permission of the Department. An advanced tutorial course for students interested primarily in Communication Theory and Research. Individual projects will be assigned on the design of media programmes, the realization of pilot programmes and the evaluation and measurement of effectiveness of receivers' responses to these programmes. Limited productions and exercises will be conducted on the pilot programme sequences, consisting of 3D complexes, cinema, photography, holography, painted pictures, metacomplexes and internal information spaces. Multi-media and mixed-media programming techniques and approaches will be examined. (3 credits)

COMMUNICATION STUDIES C452
Computer Communication Programming
Prerequisite: Computer Science 301, Mathematics C204 or C205. Digital computer applications to media — film, radio, television complexes. Artificial processing and image enhancement, sound processing. Artificial intelligence and digital logic applied to media and mixed-media projects. Students work on samples of digital programmes applicable for electronic generation of sound, video and graphics. (3 credits)

COMMUNICATION STUDIES C465
Organizational and Political Communication
Prerequisite: Open to all University students with at least Third-year standing. After initial defining and relating of organizational and political communication, basic principles and media forms of each are isolated. Then consideration of the learning objectives of seminar participants will lead to the further exploration of such topics as: formal/informal patterns of communication, components of communication networks, internal/external communication of organizations, interrelations between media and politics, role of media in creating national unity, organized campaigning, etc. Activities include: readings and discussion; field study and analysis; research and presentation, guest lectures. (6 credits)

COMMUNICATION STUDIES C466
Media and Development
Prerequisite: Open to all University students with at least third-year standing with permission of the Department. The course considers the relationship between media, social and cultural change and economic development. Theory, research and projects focus on media's possible effect on and usefulness to underdeveloped areas. (6 credits)

COMMUNICATION STUDIES C467
Broadcasting Policy in Canada
Prerequisite: Open to all University students with at least third-year standing. This course acquaints the student with the historical development of broadcasting and broadcasting legislation in Canada. It also examines the nature of the two major broadcasting influences on the Canadian communications system: Great Britain and the United States. It covers the present state of broadcasting policy in Canada, its goals and problems, and explores alternative solutions. (6 credits)

COMMUNICATION STUDIES C468
Advertising and Public Relations
Prerequisite: Open to all University students with at least third-year standing. Advertising and Public Relations are examined from a mass media focus. Promotions and promotional campaigns are analyzed and critiqued for such things as structure, effects, audience, media choice and communication strategies. (6 credits)

GROUP C
COMMUNICATION STUDIES C374
Visual Dynamics II
Prerequisite: COMS C375 and permission of the Department. This course involves both theory and fieldwork in photographing man-made environments, e.g. the city, using natural light. The student will acquire an understanding of the problems of distance and direction by means of lectures, critiques of fieldwork and individual consultation. (6 credits)

NOTE: Students are required to possess certain recommended equipment and to bear some of the costs of materials.

COMMUNICATION STUDIES C375
Visual Dynamics III
Prerequisite: COMS C374 and permission of the Department. A study of the development of visual artifacts and media in the search for a more and more adequate mime of persons, situations, and meanings. The course comprises both the practical and theoretical aspects of the visual image, historically and currently, and examines the assumptions underlying the quest for the auto-communicative image. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C378
Seminar and Practicum in Sound II
This course gives the student a knowledge of the basic disciplines necessary for constructing aural message forms from the simplest to the most complex; also experience in the various technologies required to apply these aural forms to radio, film, television, etc. Students will produce, produce, and direct, individually and in teams, a number of projects. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C381
Seminar and Practicum in Film II (16 mm)
Prerequisite: Above-average standing in COMS C284. This course involves an examination of the communicative process through the medium of film. Areas covered include scripting, directing and shooting with both silent and sync-sound equipment. Productions are designed to test the students' theoretical knowledge and give practical experience in the craft of filmmaking. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C384
Seminar and Practicum in Film II (Super 8mm Sync Sound)
Prerequisite: Above-average standing in COMS 284. Students work in small groups in order to explore collectively the creative and communicative demands involved in making, publicizing and exhibiting a film. Special attention is given to the theory and practice of decoupage, directing and shooting on location with lightweight equipment. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)
COMMUNICATION STUDIES C387 Seminar and Practicum in Television II
Prerequisite COMS C284. A study of the components related to the creation of the television documentary and short feature program in terms of the theoretical possibilities inherent in the medium. Student productions in the two genres, from idea stage through completed videotape, constitute the laboratory section of the course. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C375 Seminar and Practicum in Television III
Prerequisite: COMS C387) and approval of the Department. An advanced course in television theory and communication. Possible options, depending on the ability of the students in any one year, include the dramatic documentary and the complete adaptation for television of professional plays. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C475 Visual Dynamics IV
Prerequisite: COMS C375 and permission of the Department. Developing the visual imagination: conceiving and organizing ideas for expression through media such as Print, Film, Television. Each student will be asked to conceive a 'story' (an integrated narrative), and to determine its most appropriate visual presentation (emphasizing the story's significance and maintaining overall unity). Three presentational modes will be considered: a) the controlled sequence b) the randomly perceived message c) the pictorial symbol. Lectures and laboratory average 6 hours per week. (6 credits)

NOTE: Students are required to possess certain recommended equipment and to bear some of the costs of materials.

COMMUNICATION STUDIES C481 Seminar and Practicum in Film III
(16mm or Super 8mm Sync Sound)
Prerequisite: Above-average standing in C381 or C384) and approval of Department. An advanced course in film theory and communication. Film-making processes covered will include scripting, directing, "A and B roll" editing, and shooting with crystal sync-sound equipment. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C487 Seminar and Practicum in Television III
Prerequisite: Above-average standing in COMS C387) and approval of the Department. An advanced course in television theory and communication. Possible options, depending on the ability of the students in any one year, include the dramatic documentary and the complete adaptation for television of professional plays. Lectures and Lab: average 6 hours per week. Students are required to bear some of the cost of materials. (6 credits)

COMMUNICATION STUDIES C495 Honours Project
Towards the end of second year, students of demonstrated scholarly and creative ability may be selected for a major research or production project in a Communications area of special interest. During third year, individually or in terms and in close collaboration with faculty directors, these students produce works acceptable for publication, public distribution or professional use. Projects normally emphasize a thematic approach, and require approval by the Senior Projects Committee. (6 credits)

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

Groups of Economics Courses Classified According to Subject

Group 0
C200 Introductory Economics
C201 Introductory Microeconomics
C203 Introductory Macroeconomics
C301 Intermediate Microeconomics I
C302 Intermediate Microeconomics II
C303 Intermediate Macroeconomics I
C304 Intermediate Macroeconomics II
C401 Advanced Microeconomics
C403 Advanced Macroeconomics
C405 Welfare Theory
C406 History of Economic Thought

Group 1
C311 Economic Development I
C312 Economic Development II
C315 The Economic Development of Quebec
C316 Canadian Economic Issues I
C317 Canadian Economic Issues II
C411 Quantitative Development I
C412 Quantitative Development II
C413 Economic Growth and Fluctuations

Group 2
C221 Statistical Methods I
C222 Statistical Methods II
C323 Use of Economic Data
C325 Mathematics for Economics I
C326 Mathematics for Economics II
C421 Econometrics I
C422 Econometrics II
C425 Mathematical Economics I
C426 Mathematical Economics II
C428 Optimization Techniques

Group 3
C331 Money and Banking
C335 Economics of the Public Sector I
C336 Economics of the Public Sector II
C432 Advanced Monetary Theory
C435 Advanced Public Finance

Group 4
C341 International Economic Relations
C442 International Economics I
C443 International Economics II

Group 5
C250 Introduction to Economic History
C351 Economic History of Canada
C352 Economic History of U.S.
C353 Economic History of Europe
C450 Advanced Economic History

Group 6
C361 Industrial Organization I
C451 Industrial Organization II
C462 The Corporate Economy
60 BA Honours in Economics

6 *ECON C2013, C2033
12 ECON C3013, C3023, C3033, C3043
6 ECON C3253 or QUAN C3133 and C3143
6 **ECON C2213 and C2223 or QUAN C2433 and C2443
18 Chosen from ECON C4013, C4033, C4063, C4213, C4223, C4253, C4263, C4503 (Advanced Core)
12 ECON elective credits (may include FINA C3153)

*Students exempted from ECON C201 and/or C203 are required to replace these courses with Economics electives.
**Any equivalent 6 credits satisfy this component of the programme. See Note after ECON C222.

60 BA Specialization in Economics

6 *ECON C2013, C2033
12 ECON C3013, C3023, C3033, C3043
6 ECON C3253 or QUAN C3133 and C3143
6 **ECON C2213 and C2223 or QUAN C2433 and C2443
18 Chosen from ECON C4013, C4033, C4063, C4213, C4223, C4253, C4263, C4503 (Advanced Core)
12 ECON elective credits (may include FINA C3153)

*Students exempted from ECON C201 and/or C203 are required to replace these courses with Economics electives.
**Any equivalent 6 credits satisfy this component of the programme. See Note after ECON C222.

42 BA Major in Economics

6 *ECON C2013, C2033
6 **ECON C2213 and C2223 or QUAN C2433 and C2443
6 ECON C3013, C3023
6 ECON C3033 and C3043
6 Chosen from 400 level ECON courses
12 Economics elective credits.

*Students exempted from ECON C201 and/or C203 are required to replace these courses with Economics electives.
**Any equivalent 6 credits satisfy this component of the programme. See Note after ECON C222.

30 Minor in Economics

6 *ECON C2013, C2033
6 ECON C3013, C3023
6 ECON C3033, C3043
12 ECON elective credits.

*Students exempted from ECON C201 and/or C203 are required to replace these courses with Economics electives.

ECONOMIC S C200

Introductory Economics

This course is primarily for students not majoring in Economics. Its content is essentially the same as that of Economics C201 and C203. However, there is greater emphasis on Canadian economic institutions and government policies. It is open to all students except Commerce and does not count as credit towards any Economics programme. (6 credits)

ECONOMIC S C201

Introduction to Microeconomics

Introduction to the functioning of the market system; concepts of supply and demand, the role of prices in resource allocation; production decisions by firms. Analysis of differences be-
ECONOMICS C203
Introduction to Macroeconomics
An introductory analysis of aggregate economic activity. The focus is on the principles of determination of the level of employment, national income, real output, inflation, and international balance of payments. The course also analyzes the principles which govern the trade relations among countries. These topics are integrated by a discussion of government monetary and fiscal policies to stabilize economic activity. (3 credits)

ECONOMICS C221
Statistical Methods I
Prerequisite: CEGEP Mathematics 201 or equivalent. Elementary probability, permutations and combinations, binomial and normal distribution. Analysis and organization of statistical data. Tests of hypotheses. Confidence limits. Introduction into linear regression and correlation. (3 credits)
NOTE: Credits will be given for only one 6-credit course or two 3-credit courses from Economics C221 and C222, Mathematics C207, Geography C362 and C363, Mathematics C241, Quantitative Methods C243 and C244, Sociology S241, Psychology S241 and S242.

ECONOMICS C222
Statistical Methods II
Prerequisite: Economics C221 or equivalent. The course is an introduction to the application of statistical techniques to economic data. Topics discussed will include, among others, time series, statistical inference, analysis of variance, correlation and regression. (3 credits)
NOTE: Credits will be given for only one 6-credit course or two 3-credit courses from Economics C221 and C222, Mathematics C207, Geography C362 and C363, Mathematics C241, Quantitative Methods C243 and C244, Sociology S241, Psychology S241 and S242.

ECONOMICS C250
Introduction to Economic History
A study of the economic development of western societies. Particular attention will be paid to Europe during the period from the sixteenth century to the present day. The aim of the course is to provide an understanding of the interconnections between social, economic and political change. (6 credits)

ECONOMICS C301
Intermediate Microeconomic Theory I
Prerequisite: Economics C201 and C203. Theory and measurement of demand, theory of consumer behaviour, production, theory of the firm, and cost analysis. (3 credits)

ECONOMICS C302
Intermediate Microeconomic Theory II
Prerequisite: Economics C301. Market structure (perfect competition, monopoly, oligopoly) industrial concentration, factor markets, income distribution, economic efficiency, general equilibrium, welfare economics. (3 credits)

ECONOMICS C303
Intermediate Macroeconomic Theory I
Prerequisite: Economics C201 and C203. An analysis of the major areas of aggregate economics. Topics will include the definition and measurement of regional income and the theory of income determination in the classical and in the Keynesian systems. (3 credits)

ECONOMICS C304
Intermediate Macroeconomic Theory II
Prerequisite: Economics C303. Topics will include review of the complete Keynesian system, business cycles, economic fluctuations in Canada, inflation and unemployment theories, macroeconomic policies, economic growth and their theory and application to Canada. (3 credits)

ECONOMICS C311
Economic Development I
Prerequisite: Economics C201 and C203. The course investigates comparative economic development with special attention to problems of capital formation, population growth, quality of the labour force and social and cultural attitudes towards economic modernization. Theories of economic development are evaluated in the context of the realities of historical patterns and the varying degrees of ability to achieve modernization. (3 credits)

ECONOMICS C312
Economic Development II
Prerequisite: Economics C311. The meaning and concept of economic planning, methodology and strategy of planning, input-output and sector analysis, techniques of planning, investment criteria and priorities, study and appraisal of economic plans of a few countries. (3 credits)

ECONOMICS C315
The Economic Development of Quebec
Prerequisite: Economics C201 and C203. This course will review past and present trends in the economic development of Quebec. Emphasis will be placed on the economic growth of Quebec since the Second World War. Attention will be given to the regional aspects of Quebec's growth problems. (3 credits)

ECONOMICS C316
Canadian Economic Issues I
Prerequisite: Economics C201 and C203. This course will be devoted to an analysis of some economic issues facing Canada. For example: employment and unemployment, inflation, economic growth and potential, income distribution, social security policies, monetary and fiscal policies. (3 credits)

ECONOMICS C317
Canadian Economic Issues II
Prerequisite: Economics C201 and C203. This course is similar to Economics C316, but will cover a different group of topics. For example: foreign ownership and control, regional development problems, monopoly and competition, government regulation of business, agricultural policy, trade policy. (3 credits)

ECONOMICS C323
The Use of Economic Data
Prerequisite: Economics C201 and C203. Concepts of economic accounting and related measurement techniques, with special reference to the procedures used in Canada and in international economic institutions like the U.N., I.M.F. and O.E.C.D. The topics include: national accounts, input-output tables, flow-of-funds accounts, national balance sheets, international and interregional comparison of economic data, choice of index. (3 credits)

ECONOMICS C325
Mathematics for Economists I
Prerequisite: Economics C201, C203; Mathematics C201 or equivalent. This course introduces the student to differential and integral calculus and to their applications in economic analysis. Topics covered include set theory, the concept of limits and rules for differentiation
ECONOMICS C326
Mathematics for Economists II
Prerequisite: Economics C325. The main emphasis is on the study of linear algebra and its application to the solution of economic models consisting of a system of linear homogeneous equations. Topics covered include: matrices and vectors; basic properties of determinants and their use in solving equations pertaining to economic problems such as linear programming and constrained optimization. (3 credits)

ECONOMICS C331
Money and Banking
Prerequisite: Economics C201 and C203. Overview of a monetary economy: nature, forms and the economic role of money. Monetary standards: markets, prices and the value of money; the payments system; financial markets. Determinants of size and distribution of wealth portfolios. Supply of money: measure, composition and size determination. The economic role of commercial banks and non-bank financial intermediaries. Central banking and monetary policy. The international monetary system. (Topics will be covered within the Canadian banking institutional framework). (3 credits)

ECONOMICS C335
Economics of the Public Sector I
Prerequisite: Economics C201 and C203. This course examines government fiscal activity within the context of a free market system. Rationale for public sector activity is reviewed in terms of economic efficiency conditions and the market failures. Among the topics covered in the course are growth of public spending, the concept of public goods, collective decision-making process, pure theory of public expenditures, local expenditures analysis, and efficiency in public spending with special reference to Quebec and Canada. (3 credits)

ECONOMICS C336
Economics of the Public Sector II
Prerequisite: Economics C335. The principal purpose of this course is to examine and evaluate the important elements of the Canadian fiscal structure emphasizing taxation and the financing of public expenditures. Among others, issues in taxation of income, both at the individual and corporate levels, excise and sales taxation, taxation of capital gains and wealth, intergovernmental fiscal relations and tax reform will be taken up. (3 credits)

ECONOMICS C341
International Economic Relations
Prerequisite: Economics C201 and C203. The course focuses on the discussion and analysis of the major forms of economic relations among nations, viz., international trade and international capital movements. Emphasis is placed on policies and institutions for the smooth functioning of the international economy, although some selected constructs are also introduced. Topics covered include international trade, protection, balance of payments, economic integration and international monetary system. (3 credits)

ECONOMICS C351
Economic History of Canada
Prerequisite: Economics C201 and C203. This course is designed to introduce the student to Canadian economic development from the early period of settlement to the present day. Emphasis will be placed on the economic history of Canada since Confederation. (6 credits)

ECONOMICS C352
Economic History of the U.S.A.
Prerequisite: Economics C201 and C203. American economic history will be presented from the viewpoint of the "new" economic history. This is a topical approach in which formal economics is used to evaluate traditional historical material. Among the topics which will be covered are: the economic consequences of slavery, the American business cycle, the development of American central banking, the merger movements, the causes of the American "take-off", and the economic causes and consequences of the major wars. (6 credits)

ECONOMICS C353
Economic History of Europe
Prerequisite: Economics C201 and C203. The course will explain the causes and consequences of the British Industrial Revolution and its diffusion to the Continent in terms of differential national growth patterns and social problems associated with economic change. It will include an analysis of free trade, economic nationalism, the role of imperialism, the importance of the crisis of 1929 in terms of economic organization, thought and policy. Post World War II reorganization, in terms of planning the welfare state, and economic integration. (6 credits)

ECONOMICS C361
Industrial Organization I
Prerequisite: Economics C201 and C203. This course develops the relationship of the firm to various forms of market structure. The course will focus on the objectives of the corporation, corporate interdependence and the government control of industry. A study of policy matters will centre on anti-trust and corporate regulation, with respect to both the legislative and economic aspects. (3 credits)

ECONOMICS C370
Comparative Economic Systems
Prerequisite: Economics C201 and C203. A comparative study of contemporary economic systems. While mainly concerned with the institutional features of contemporary free market economics, the course will also deal with their counterpart, the systems of a command economy and a Socialist market economy. Of primary interest will be the institutions, mechanisms and policies which govern allocation, efficiency, growth and distribution of income, with emphasis on the historical background of the institutions and the social, political and ideological influences which continue to shape them. (6 credits)

ECONOMICS C374
Theory and Practice of Cooperation
Prerequisite: Economics C201 and C203. This course will deal with the effect of cooperatives on economic and social development with emphasis on Quebec and Canada. Among the topics discussed are the origins and development of the cooperative economy, differences between cooperative, capitalist and communist economic systems; economic, social, educational and moral transformations taking place under cooperative influence, and the role of cooperation on the international political scene. (3 credits)

ECONOMICS C375
The Soviet Economy
Prerequisite: Economics C201 and C203. The evolution of the Soviet economic system and the policy measures adopted to deal with the problems of establishing and consolidating a
mental policies in the sector are analyzed with the
currently faces in the areas

thrust of policy to economic growth; the
industrial sector, control and allocation of
resources, national economic planning. (3 credits)

ECONOMICS C381
Labour Economics I
Prerequisite: Economics C201 and C203.
This course deals with labour force concepts and analysis; labour markets and other aspects of
interests, such as collective bargaining, the legal framework for the settlement of industrial disputes, the weapons of 
industrial conflict, the labour movement; contemporary labour issues such as automation, cost-push inflation and structural employment. (3 credits)

ECONOMICS C382
Industrial Relations I
Prerequisite: Economics C201 and C203. A study of the general and practical problems that arise in the labour field, such as collective bargaining, the legal framework for the settlement of industrial disputes, the weapons of industrial conflict, the labour movement; contemporary labour issues such as automation, cost-push inflation and structural employment. (3 credits)

ECONOMICS C383
Industrial Relations II
Prerequisite: Economics C382. Topics in industrial relations with particular emphasis on developments in Canada. (3 credits)

ECONOMICS C386
Economics of Human Resources
Prerequisite: Economics C201 and C203. A study of recent contributions by economists to the understanding and solution of social problems which society currently faces in the areas of crime, health, education and welfare. In addition, specific federal and provincial governmental policies in these areas are analyzed with the standard tools of economics. (3 credits)

ECONOMICS C387
Labour Law
Prerequisite: Economics C201 and C203. The development of the trade union movement and early labour legislation in the U.S.A. and Canada; collective bargaining; labour law in Canada and Quebec today with emphasis on the Industrial Relations and Disputes Investigations Act (Canada), the Quebec Labour Code and related statutes. An in-depth study of employer's free speech; eviction in matters of arbitration awards; injunctions; successor rights. Practice and procedure before the courts and labour relations boards and commissions. (6 credits)

ECONOMICS C391
Economics of the Environment
Prerequisite: Economics C201 and C203. The subject of this course is environmental quality. It proceeds through an analysis of the relationships between the natural environment, economic and institutions. The objective is to depict the problem of environmental quality as an economic problem whose solution demands major changes in economic, political and legal institutions. Attention is also given to policies of effective environmental actions in which the effective management of common property resources will be discussed. The course concludes with a discussion of some broader issues, such as the consistency of improved environmental quality with continued economic and population growth. (3 credits)

ECONOMICS C392
Urban Economics
Prerequisite: Economics C201 and C203. This course focuses on the basic issues of economic growth and stagnation, urban land use, the problems of the urban public economy and special urban problems such as transportation, congestion, poverty, housing and urban renewal and zoning. (3 credits)

ECONOMICS C396
Natural Resource Economics
Prerequisite: Economics C201 and C203. This course focuses on the problems of the finiteness of the natural resources base in Canada and in the world, and on an analysis of the demand for and supply of natural resources and energy. The course also discusses the economic aspects of a selected group of conservation measures (financial incentives, reallocation of property rights, regulation). (3 credits)

ECONOMICS C397
Economics of Discrimination
Prerequisite: Economics C201 and C203. The purpose of this course is to examine some economic issues of discrimination with particular reference to women in a Canadian context. Among the topics so examined are: techniques for measuring discrimination and poverty, review of empirical studies, traditional and radical approaches to the study of discrimination and policies to combat discrimination and poverty. (3 credits)

ECONOMICS C398
Study in a Special Subject I
Prerequisite: Economics C201 and C203. This course is designed primarily for honours, specialization, and major students. Its purpose is to provide an opportunity for advanced students to intensify their study beyond the traditional areas of specialization already represented by the curriculum. The selected subject will depend upon the special interest of the instructor offering the course in any given year. (3 credits)

ECONOMICS C399
Study in a Special Subject II
Prerequisite: Economics C201 and C203. A student repeating Economics C398 registers for credits under Economics C399. (3 credits)

ECONOMICS C401
Advanced Microeconomic Theory
Prerequisite: Economics C301, C302, C325 and C326. Selected topics in microeconomic analysis including: methodology, general equilibrium analysis, welfare economics, theory of the firm, factor pricing and income distribution capital theory. Primarily for majors, specialization and honours students. (3 credits)

ECONOMICS C403
Advanced Macroeconomic Theory
Prerequisite: Economics C303, C304, C325 and C326. Selected topics in macroeconomic analysis including construction of models of the economy encompassing the labour, product and financial markets; the role of monetary and
ECONOMICS C405 Welfare Theory
Prerequisite: Economics C301, C302, C303 and C304. This is an advanced course, intended primarily for honour students. The course will be devoted to an examination of selected topics in contemporary welfare economics and its applications. (3 credits)

ECONOMICS C408 History of Economic Thought
Prerequisite: Economics C301, C302, C303 and C304. This course traces the development of economic analysis from the time of the Scholastics to modern times. It also includes a description of the prevailing economic, social and cultural environment in which economists have written. Primarily for majors, honours and specialization students. (6 credits)

ECONOMICS C411 Quantitative Development I
Prerequisite: Economics C301, C302, C325 and C326. Methods of national accounting and input-output analysis for under-developed countries. Methods of comparing standards of living. Patterns of economic development. Appraisal of models constructed on the premises of modern theories of economic development. (3 credits)

ECONOMICS C412 Quantitative Development II
Prerequisite: Economics C411. The model of economic policy. Planning in stages. The model of linear activity analysis and efficient decentralization of economic decisions. Planning of efficient accumulation of capital. Individual project evaluation. Foreign aid and debt service models. Projection of manpower requirements. Evaluation of empirical applications of optimum planning to underdeveloped economies. (3 credits)

ECONOMICS C413 Economic Growth and Fluctuations
Prerequisite: Economics C303 and C304. A review of some theories of causes of economic fluctuations. Discussion of the economic climate and of stabilization policies. (3 credits)

ECONOMICS C421 Econometrics I
Prerequisite: Economics C221, C222, C325 and C326. This course develops the simple and multiple classical regression models. The problems of misspecified structures, multicollinearity and forecasting will also be presented. (3 credits)

ECONOMICS C422 Econometrics II
Prerequisite: Economics C421. This course is a continuation of Economics C421. It deals with the problems of random error correlation, stochastic regressors and the stimulation and the estimation of multiple equation models. (3 credits)

ECONOMICS C425 Mathematical Economics I
Prerequisite: Economics C301, C302, C303, C304, C325 and C326. A set-theoretic approach to the theory of demand and production. Special topics in the application of static optimization. (3 credits)

ECONOMICS C426 Mathematical Economics II
Prerequisite: Economics C425. Optimization over time: theory and applications to problems of consumption and investment planning, growth and capital accumulation. Differential equations. (3 credits)

ECONOMICS C428 Optimization Techniques
Prerequisite: Economics C301, C302, C303, C304, C325, C326. This is an advanced course for Honours students and for Specialization and Major students with the consent of the Department. Topics include linear programming and input-output analysis, basic concepts and solutions of linear programming, its application to optimum resources allocation; exposition of basic inter-industry theory within the framework of input-output techniques; its applications to structural analysis. (3 credits)

NOTE: Only 3 credits will be awarded from Economics C428 and Quantitative Methods C416.

ECONOMICS C432 Advanced Monetary Theory
Prerequisite: Economics C301, C302, C303, C304 or permission of the Department. The nature of the monetarist-Keynesian controversy and critical appraisal of the IS-LM-AS model. Special topics: theory and evidence of term structure of interest rates, post-Keynesian demand for and supply of money in aggregative and dis-aggregative economic models. Theory of macro-economic policy. Transmission mechanisms, policy coordination, lags, international constraints and other problems. (3 credits)

ECONOMICS C435 Advanced Public Finance
Prerequisite: Economics C301, C302, C303, C304, C335, C336. In this course several key areas in Public Finance will be dealt with in depth. Topics covered will be selected from the following: public goods and externalities, cost benefit analysis, pricing policy of public enterprises, structure of commodity taxation, structure of income taxation, issues in tax reform and intergovernmental fiscal relations. (3 credits)

ECONOMICS C442 International Economics I
Prerequisite: Economics C301 and C302. The basis of international trade, gains from trade, factor-price equalization, the tariff, Canadian commercial policy, trade and development, economic integration. (3 credits)

ECONOMICS C443 International Economics II
Prerequisite: Economics C303 and C304. International monetary economics, foreign exchange markets, adjustment mechanisms, capital flows, balance of payments and domestic policy goals, international liquidity. (3 credits)

ECONOMICS C450 Advanced Economic History
Prerequisite: Economics C221, C222, C301, C302, C303 and C304. Advanced topics in economic history with emphasis on the application of economic theory to specific historical questions. (3 credits)

ECONOMICS C461 Industrial Organization II
Prerequisite: Economics C361 or C301 and C302. This course analyses the structure, conduct and performance of Canadian and U.S. industries. Topics include the determinants of industrial structure such as economies of scale and barriers to entry, measures of conduct and performance, technological change, advertising, mergers, integration and public policy. (3 credits)
ECONOMICS C462
The Corporate Economy
Prerequisite: Economics C221, C222; C301 or C361; and C303 or permission of the Department. This course will examine the nature of the large firm, its behaviour and its impact on the national and international economy. Topics will include: the emergence and historical development of the corporate firm; the separation of ownership from control; the large firm in Canada; theories of the large firm; mergers; macroeconomic effects of large firms (administered pricing-inflation); the multinational corporation (theories, evidence, and effects). (3 credits)

ECONOMICS C473
Economics of Socialism
Prerequisite: Economics C301 and C302. This course analyses the theoretical aspects of various types of socialist economies: market, centrally planned and worker-managed. Definitions and models of the various forms will be developed and compared to a capitalist model and to existing socialist economies such as those of Cuba, China, Yugoslavia and the U.S.S.R. (3 credits)

ECONOMICS C475
Marxist Economics
Prerequisite: Economics C301, C302, C303 and C304 or Economics C370, or permission of the Department. A general survey of Marxist theory, including historical and dialectical materialism. Marx's microeconomics: labour theory of value and its classical predecessors; theory of exploitation and the Iron Law of Wages; transformation problem and price theory. Marx's macroeconomics: business cycles and the theory of capitalist development; crises and the breakdown of capitalism. Contemporary Marxism and the question of the withering away of the state. (3 credits)

ECONOMICS C481
Labour Economics II
Prerequisite: Economics C301 and C302; C303 and C304; C381. This course examines the determination of wages and employment, both at the level of the firm as well as of the economy as a whole. Analyses are made of the demand for labour by individual firms. Occupational, regional and inter-industry wage differentials, effect of wage changes on employment. Impact of unions on wages and employment and labour mobility. Aggregate questions examined include current problems of structural and cyclical unemployment; price inflation, and the role of monetary and fiscal policies in attaining full employment and controlling inflationary pressures. These topics are analysed in the context of the Canadian economy. (3 credits)

ECONOMICS C490
Economics of Social Welfare
Prerequisite: Economics C301 and C302; Economics C303 and C304. This course will be devoted to an examination of the economic aspects of social welfare issues in Canada. Topics will include: employment and unemployment; manpower problems and policies; inequality, poverty, social insurance and social assistance; investment in man, especially education and health; urban and regional development; environmental economics; federal, provincial, and municipal policies. (6 credits)

ECONOMICS C493
Regional Economics
Prerequisite: Economics C301, C302; C303, C304. This course introduces the student to the methods and techniques of regional economic analysis and their application to the problems of regional economies within Canada. Among the microeconomic topics covered are the location behaviour of firms and households and the factors determining the allocation of land among alternative competing uses. Macroeconomic topics include the measurement and analysis of regional income and growth levels, cyclical changes in those levels, and interregional differences in growth rates. Policy problems pertinent to Canadian regions are stressed throughout the course. (3 credits)

ECONOMICS C495
Economics of Transportation and Communications
Prerequisite: Economics C301, C302. Congestion problems and solutions, pricing, costs, demand and regulation of transportation. Some applications to communications. (3 credits)

ECONOMICS C498
Study in a Special Subject III
Prerequisite: Permission of the Department. This course is designed primarily for honours, Specialization and major students. Its purpose is to provide an opportunity for students to intensify their study beyond the traditional areas of specialization already represented in the curriculum. The selected subject will vary with the special interest of the instructor offering the course in any given year. (3 credits)

ECONOMICS C499
Study in a Special Subject IV
Prerequisite: Permission of the Department. A student repeating Economics C498 registers for credits under Economics C499. (3 credits)

PROGRAMMES

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

72 BA Honours in Education and Philosophy

Year I
9 EDUC C2106, C2303
12 PHIL C2026 or C2116 and PHIL C2416 or PHPHIL C2263 and C2283

Year II
6 EDUC C4306
6 PHIL C3606
6 Chosen from EDUC C4216, C4263, C4273, C4306, C4416
6 PHIL C3696

Year III
6 EDUC C4316
6 PHIL elective credits at 400 level excluding PHIL C4936, C4956, C4963, C4973
3-6 Chosen from EDUC C4323, C4333, C4343, C4353
6 PHIL C3696

Year II or III
3-6 Chosen from EDUC C4133, C4143, C4163, C4173

30 Minor in Education

30 Chosen from EDUC C2016, C2106, C2303, C3053, C3063, C3173, C3213, C3903, C3923, C4053, C4063, C4073, C4133, C4143, C4153, C4163, C4173, C4216, C4263, C4273, C4306, C4416, C4421, C4523, C4973, C4981

75 BA Specialization in Early Childhood Education

54 EDUC C2106, C2113, C2603, C2623, C2703, C2713, C3063, C3803, C3813, C4452, C4453, C4615, C4693, C4703
9 ARTE C2013, DINE C2012, MINE C3013
6 Chosen from EDUC C4133, C4143, C4153, C4163, C4173 in consultation with the Department
6 Chosen from EDUC C4216, C4263, C4273, C4306, C4416 in consultation with the Department

NOTE: The BA Specialization in Early Childhood Education leads to a Teaching Permit of the Province of Quebec, Ministry of Education, for Kindergarten and pre-kindergarten (Maternelle et pré-maternelle).

48 BA Major in Child Studies

21 EDUC C2113, C2603, C2613, C3706, C4616
9 Chosen from EDUC C3173, C4133, C4413, C4416, C4417 in consultation with Department
6 Chosen from EDUC C4216, C4263, C4273, C4306, C4416 in consultation with the Department
3 Chosen from EDUC C3803, C3823, C3833, C4693
3 Chosen from PSYC S2123, S2133, S2143, S2153, S3023, S3033, S3043, S3053, S3063 in consultation with Department
3-12 Chosen from ARTE C2013, C2023, DINE C2013, C2023, MINE C3013, BIOP C4133, C4153, ENGL C2376, C2383, C2393, HEAL C2083, C2513, SOCI S4406, S4426 at least 2 different disciplines must be selected. Students who elect to take SOCI S4406, or S4426 or ENGL C2376 may select an additional 3-6 credits in a different discipline from the courses listed above in consultation with the Department.

30 Minor in Philosophy of Education

30 Chosen from EDUC C2916, C2303, C4303, C4323, C4333, C4343, C4353, C4416

Certificate in Education

The Department of Education offers a 30 credit programme leading to the Concordia University Certificate in Education and certification from the Provincial Department of Education.

NOTE: This programme is restricted to individuals at present employed in a recognized educational institution in Quebec and holding a provisional teaching authorization.

Admission Requirements
1. Evidence of full-time employment with a
EDUCATION 166

1. Course chosen in consultation with the Director
   of the Programme.

2. The student must meet the minimum
   scholarship requirements set by the provin­
   cial government before being recom­
   mended for certification.

3. This programme is not open to teachers
   of vocational subjects.

For programmes which may be of
   particular interest to teachers, see § 21.

EDUCATION C201
The Nature and Function of Teaching
An introduction to the purpose, theories and
   methods of teaching. (6 credits) NOTE A/See §
   200.1

EDUCATION C210
Psychology of Education
This course will introduce the student to a
   broad range of content in educational psychol­
   ogy, including its scope and methods, learning
   motivation, growth and development, adjust­
   ment, individual differences, guidance, and con­
   cept of self. (6 credits) NOTE A/See § 200.1

EDUCATION C211
Child Growth and Development
Prerequisite: Enrolment in Early Childhood
   Education Specialization or Major in Child Stud­
   ies with permission of the Department. Students
   will study the physical, cognitive, affective and
   social development of the young child. Genetic
   and environmental factors, which influence de­
   velopment, will be examined. The implications
   of developmental needs in terms of planning
   environments will be covered. (3 credits)

EDUCATION C230
Introduction to Philosophy of Education
This course will introduce the student to the
   content and form of several major educational
   theories, and to conceptual and logical proce­
   dures of philosophizing about education with
   particular reference to teaching and learning. (3
   credits) NOTE A/See § 200.1

EDUCATION C260
Introduction to Early Childhood Education
Prerequisite: Enrolment in Early Childhood
   Education Specialization or Major in Child Stud­
   ies or permission of the Department. This course
   provides an introduction to the field of early
   childhood education. The history and philos­
   ophy of pre-schools, day care and the
   nursery school movement will be presented. The
   influences of major writers such as Rousseau,
   Froebel, Pestalozzi, Ilat, Seguin, Montes­
   tendre and Dewey will be examined. Compar­
   ative pre-school educational practices in other
   countries will be explored. (3 credits)

EDUCATION C262
The Family and the Child
Prerequisite: Enrolment in Early Childhood
   Education Specialization or Major in Child Stud­
   ies or permission of the Department. Students
   will study various dimensions of the child-par­
   ent-school interaction process. Parental un­
   derstanding of and empathy for the child will be
discussed. Family attitudes, feelings, values,
expectations and their impact on the child will
   be examined. Changes in familial living styles
   resulting from societal changes will be explored;
   Students will study and practice methods to
   facilitate and improve school-parent com­
   munications. (3 credits)

EDUCATION C270
Practicum I: Curriculum, Classroom
   Management and Micro-Teaching
Prerequisite: Enrolment in Early Childhood
   Education Specialization. Students will study
   curriculum development and classroom man­
   agement at the pre-school level. Teaching skills
   will be modelled and practised in microteaching
   sessions. Students will plan and develop activi­
   ties, sessions and units, which they will imple­
   ment in the microteaching sessions. Videotapes
   of performance will be reviewed and discussed.
   (3 credits)

EDUCATION C271
Practicum II: Pre-School Field Experiences
Prerequisite: Enrolment in Early Childhood
   Education Specialization. This course requires
   students to spend one day a week for one
   semester in the Concordia Child Care Centre or
   other pre-school setting. Students will be re­
   quired to observe, record and assess the behav­
   iour of young children, to study programme
   organization and general classroom functioning.
   Each student will develop a curriculum unit
   which will be taught. Students must attend a
   weekly seminar given by the Director, Con­
   cordia Child Care Centre. (3 credits)

EDUCATION C305
Technology for Educational Change I
This course introduces the student to a wide
   range of ideas and practical skills in Educational
   Technology, a field which encompasses mass
   communications, computer-based systems, au­
   dio-visual instrumentation, simulation and gam­
   ing, systems analysis and instructional design.
   A modular approach is adopted; each module
   covers, in a six-week period, a particular area of
   thought in Educational Technology. Two mo­
   dules are offered. The first deals from a thoro­
   ough viewpoint with human communication pro­
   cesses (semiotics, gesture, sociolinguistics, etc.).
   The second module focuses on special­
   ised applications of computer technology in
   education — computer assisted learning (CAL)
   and computer managed instruction (CMI). The
   course will require laboratory work outside
   class. (3 credits) NOTE A/See § 200.1

EDUCATION C306
Technology for Educational Change II
Like Education C305 this course offers two
   modules focusing on particular aspects of Edu­
   cational Technology. Each module is covered in
   six weeks. The first module deals with small-stu­
   dio television production, tutorials in production
   skills culminating in script-writing and group
   production of an educational TV programme.
   The second module introduces techniques for
   systematically designing instructional units tail­
   ored to individual needs. The course requires
EDUCATION C317
The Urban Child
This course concentrates upon the life of the inner-city child and the concomitant influences upon his development in and out of the classroom. Students are instructed in how to view the urban area from the child's perspective, through field assignments in inner-city schools or recreation centers. Lectures by social workers, police officers of the youth section, legal aid counselors and inner-city teachers, heighten the awareness of students to the environment in which the inner-city child lives. (3 credits)

EDUCATION C321
Sex Role Socialization in the School
This course will focus upon how children at the elementary and secondary school level are socialized for different work roles and how work segregation has occurred on the basis of this process. The role of schools and curriculum, then will be examined in relation to cultural changes in social roles. (3 credits)

EDUCATION C324
Patterns of Educational Culture
This course is an introduction to the variety of cultural settings in which formal schooling and informal education — socialization — take place. The cultural milieu of education both inside the classroom and outside, in the family, the neighborhood, the market-place and the political arena is the focus of readings and lectures.

The aim of this course is to immerse the student in the concepts of anthropology and education in the broadest sense. It is hoped that students will become sensitized to the concept of culture, cultural assimilation, enculturation, socialization, informal, non-formal and formal educational systems, open and closed societies and cross-cultural comparison. (3 credits)

EDUCATION C370
Classroom Interaction Dynamics: Observation and Practice Practicum III
Prerequisite: Enrolment in Early Childhood Education Specialization or Major in Child Studies or with permission of the Department. This course is designed to encourage both systematic and anthropological observation of children in large and small groups in the classroom. Interaction between child/teacher, children/teacher and children/children will be studied. Models of interaction will be examined and verbal as well as non-verbal communication will be covered. The purpose of this course is to develop more effective teaching. The implications of classroom grouping as well as individual interactions in teaching styles and techniques will be discussed. Videotapes, classroom observation and participation will be employed. (6 credits)

EDUCATION C380
Language Arts in Early Childhood
Education
The aim of this course is to give the early childhood educator the skills to develop a stimulating and appropriate language arts programme for the classroom. The course will focus on listening, speaking, reading and writing with special emphasis on integrating language arts activities into the curriculum, on understanding and applying present knowledge in the field of reading instruction. (3 credits)

EDUCATION C381
Number Concepts for Young Children
This course is designed to provide teachers of young children with background mathematical knowledge and teaching competencies necessary for the development of an exciting and creative mathematics program in the classroom. Methodologies for teaching fundamental mathematical concepts acquired in early childhood (e.g., sets, patterns, numeration) will be studied and evaluated. Students will be expected to become familiar with relevant resource materials and classroom activities used in the teaching of mathematics to young children. (3 credits)

EDUCATION C382
Science Experiences for Young Children
In this course, the role, impact and usefulness of science in Early Childhood Education will be studied. Students will acquire a basic understanding of scientific knowledge in a range of topics and areas interesting to young children. Resource materials, teaching methodology and classroom activities for early childhood education will be examined and evaluated. Assignments will emphasize developing activities for classroom use. (3 credits)

EDUCATION C390
Current Issues in Education
A consideration of a contemporary issue or issues in education. The issues studies may differ from year to year. (3 credits) NOTE C/See §200.1

EDUCATION C391
Current Issues in Education
Prerequisites: Education C390 and permission of the Department. A student repeating C391 registers for credits under Education C391 (3 credits) NOTE A/See § 200.1

EDUCATION C392
Problems in Education
A cross-disciplinary or integrated approach to an educational problem or problems. The problem studied may vary from year to year. (3 credits) NOTE C/See § 200.1

EDUCATION C393
Problems in Education
Prerequisites: Education C392 and permission of the Department. A student repeating C392 registers for credits under Education C393. (3 credits) NOTE A/See § 200.1

EDUCATION C405
The T.V. Child — The Educational Implications of Children's Television Viewing Patterns
This course will examine the effects of television on children from a cognitive-developmental perspective. Learning theory, productive technique, cognitive theory (information processing) will be the basis around which the examination of communication process between the child and the medium will be examined. Both the positive and negative effects of television on children will be considered. The concept of media literacy and classroom use of television will also be discussed. (3 credits)

EDUCATION C406
Contemporary Issues in Curriculum Development I
Prerequisite: 6 credits in Education. This course will consider a contemporary issue in curriculum growth, change and/or development. The issue studied may differ from year to year. (3 credits)
EDUCATION C407
Contemporary Issues in Curriculum Development II
A student repeating Education C406 registers for credits under Education C407. (3 credits)

EDUCATION C413
Children's Behaviour Problems
Prerequisite: Education C210 or C211. This course will focus on the nature of children's behaviour problems and on methods to understand and modify behaviours which interfere with children's emotional, social and intellectual growth. Students will be involved with the practical applications of the available strategies in order to best help a youngster with behaviour problems according to his needs. Specific classroom techniques for coping with the acting out as well as with the withdrawn child will be given. Students will be taught observational techniques, programming suggestions, reinforcement techniques and evaluation methods. (3 credits)

EDUCATION C414
Learning Problems of Children
Prerequisite: Education C210 or C211. This course will describe the causes and kinds of learning problems in young and school age children. Students will be taught the pre-academic skills that are involved in learning as well as specific techniques to help youngsters overcome and/or cope with these difficulties. Educational techniques for dealing with problems in reading, mathematics, spelling, writing and language will be discussed. The whole area of learning problems will be related to children's social, emotional and intellectual levels. (3 credits)

EDUCATION C416
Education of the Gifted
Prerequisite: Education C210 or C315. This course will discuss the special educational problems of gifted children; it will also assess the effectiveness of the techniques usually employed to deal with these problems. (3 credits)

EDUCATION C417
Education of the Culturally Disadvantaged
Prerequisite: Education C210 or C315. This course will describe the cognitive, social and emotional problems of culturally disadvantaged children and discuss educational techniques for coping with their problems. (3 credits)

EDUCATION C421
Sociology of Education
Prerequisite: Sociology C210. The social organization of education activities. The role of educational institutions in socialization, social control and technology. Education and stratification, mobility and social change. (6 credits)

EDUCATION C426
Selected Topics in Comparative Education I
Prerequisite: 6 credits in Education. The study of current educational issues and problems (e.g. language, nationalism and education; Educational Problems in Multi-ethnic societies; Colonialism, Neo-Colonialism and Education; Socialism and Education; Political Socialization; Education in Literature) from a comparative perspective with particular emphasis on educational systems and practice in Canada, the United States, the United Kingdom, Western Europe, the Soviet Union, China and the Third World countries. The special topics and comparative examples may differ form year to year in accommodating the interests of the instructor and students. (3 credits)

NOTE: Students who have taken EDUC S451 are not eligible to take this course for credits.

EDUCATION C427
Selected Topics in Comparative Education II
Prerequisite: 6 credits in Education. The study of educational change and alternatives (e.g. Socio-political alternatives, Cultural Pedagogical alternatives; Educational Implications of Technological and Economic Theory; Elitism and Egalitarianism in Education) from a comparative perspective with particular emphasis on educational systems and practice in Canada, the United States, the United Kingdom, Western Europe, the Soviet Union, China and Third World countries. The special topics and comparative examples may differ from year to year in accommodating the interests of the instructor and students. (3 credits)

NOTE: Students who have taken EDUC S451 are not eligible to take this course for credits.

EDUCATION C430
Philosophy of Education
Prerequisite: 3 credits at university level in Philosophy or Education C230. The application of philosophical method with particular reference to the aims, methods, discipline and control of education is considered in this course. Students will be expected to become familiar with the principal authors and with the current periodical literature in the field of philosophy of education. (6 credits)

NOTE A/See § 200.1

EDUCATION C431
Honours Essay in Education
Open to third-year students in Honours in Education and Philosophy (or to others by permission of the Department). (6 credits)

NOTE A/See § 200.1

EDUCATION C432
Seminar in Epistemology and Education
Prerequisite: Education C430 or permission of the Department. Theories of knowledge are considered in this course, with special attention being given to the bearing of such topics as perception, evidence, truth, knowing and belief on educational thought and practice. Students will be expected to become familiar with recent periodical and other literature in the field. (6 credits)

NOTE A/See § 200.1

EDUCATION C433
Seminar in Ethics and Education
Prerequisite: Education C430 or permission of the Department. Students in this course will study the principles and methods of moral justification in education. They will be referred to the writing of main authors and recent periodical literature. (3 credits)

NOTE A/See § 200.1

EDUCATION C434
Seminar in Aesthetics and Education
Prerequisite: Education C430 or permission of the Department. The nature of aesthetic value and experience, and theories of art and beauty will be examined. The development of the emotions and imagination and their functions in aesthetic awareness are central concerns of this course. Students will be expected to become familiar with the relevant literature in the field. (3 credits)

NOTE A/See § 200.1

EDUCATION C435
Seminar in Philosophy and Education
Prerequisite: Education C430 or permission of the Department. This is an advanced seminar in philosophical analysis and theory in which students will present papers on, and conduct discussions about, educational concepts, aims and practices. Students will be expected to become familiar with the periodical and other literature in the areas under discussion. (3 credits)

NOTE A/See § 200.1
EDUCATION C441
History of Educational Ideas
Prerequisite: Second-year standing. In this course students will study major educational ideas and ideas systems. These will be reviewed in philosophical, religious, political and social perspective. (6 credits) NOTE A/See § 200.1

EDUCATION C442
Education in Canada
Prerequisite: 6 credits in Canadian History. It is advisable that students have a reading knowledge of French. This course will study the history of Canadian education, and, more particularly, the history of education in Quebec. (3 credits) NOTE A/See § 200.1

EDUCATION C445
Education in Quebec
Students in this course will study the contemporary movements and structures of Quebec education. (3 credits) NOTE A/See § 200.1

EDUCATION C452
Adult Education
Prerequisite: 6 credits in Education. This course will study the history, philosophy, organization and special problems of formal and informal adult education, with particular reference to current developments in Canada. (3 credits) NOTE A/See § 200.1

EDUCATION C461
Issues in Early Childhood Education
Prerequisite: Enrolment in Early Childhood major. This course will provide a study of alternative practices and theories of education for preschool and kindergarten children. (6 credits) NOTE A/See § 200.1

EDUCATION C469
Special Topics in Early Childhood Education
This course will deal with selected topics in early childhood education to be announced each year. The course will be designed to allow students to explore in considerable depth an area of problem in education methodology relating theoretical and applied aspects. Possible topics are for example: Moral Development of the Young Child, Media and the Young Child, Teaching English as a Second Language to Young Children. (3 credits)

EDUCATION C470
Early Childhood Education Internship
Prerequisite: Third-year standing in Early Childhood Major. This course involves a supervised nursery school or kindergarten teaching internship of 5 half-days or 2 1/2 full days a week for one semester. In addition, students will participate in weekly seminar discussions of related methodological and developmental concerns. The topics will include behaviour management, language development, reading, writing, children's literature and drama, mathematics, science, health, safety and social studies. (6 credits) NOTE A/See § 200.1

EDUCATION C471
Supervised Internship
This course is offered only to students enrolled in the Certificate in Education Program. Teaching internship will be carried out in the school where the student is employed. The students will be supervised and their teaching performance evaluated. The students are expected to demonstrate positive evidence of teaching competence and professional behavior (6 credits) NOTE A/See § 200.1

EDUCATION C480
Special Methods of Teaching — Elementary
This course is offered only to students enrolled in the Certificate in Education Program. It will deal with methods of teaching in the elementary school; emphasis will be placed on practical application of educational theories. (3 credits) NOTE A/See § 200.1

EDUCATION C481
Special Methods of Teaching — Secondary
This course is offered only to students enrolled in the Certificate in Education Program. This course will deal with methods of teaching a high-school subject. The course will be individually designed to suit the student’s field of specialization. (3 credits) NOTE A/See § 200.1

EDUCATION C497
Selected Topics in Education
Prerequisite: Education C201, or one year’s teaching experience, or permission of the Department. Special topics accommodating the interests of the instructor and students. The topics studied may differ from year to year. (3 credits) NOTE C/See § 200.1

EDUCATION C498
Selected Topics in Education
Prerequisite: Permission of the Department. A student repeating Education C497 registers for credits under Education C498. (3 credits) NOTE A/See § 200.1
Programmes

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

72 BA Honours in English and Philosophy (Sir George Williams)

18 Chosen from ENGL C3046, C3106, C3156, C3206, C3326, C3336, C3346, C4846
18 Chosen from ENGL C2753, C2803, C2905, C3005, C3056, C3146, C3186, C3306, C3576, C3776, C3906, C3926, C4306, C4343, C4483, C4563, C4596, C4626
6 Chosen from PHIL C2026 or equivalent, C2116 or if exempted PHIL elective credits
6 PHIL C3606
6 Chosen from PHIL C2263 and C2283, C3216, C3696
6 Chosen from PHIL C2416, C3106, C3126, C3136, C3316, C3423, C3443, C3453, C3531, C3693
6 Chosen from PHIL C3696, C4856
6 Chosen from PHIL C3216, C3643, C3653 and C3863, C4126, C4176, C4566, C4856, C4936, INTE C2903, C2913
60 BA Honours in English and Religion (Sir George Williams)

12 ENGL C3156, C4626
6 ENGL C3206 or C3306
12 Chosen from ENGL C2906, C3006, C3046, C3106, C3206, C3306, C3326, C3386, C3426
12 RELI C3013, C3023, C3416
6 Chosen from Rel C2119, C2136, C3616, C3626, C3636
6 Chosen from Rel C4336, C4656
6 Chosen from Rel C3116, C3126, C3136, C3253, C3263, C3273, C3283, C3303, C3361

60 BA Honours in English (Sir George Williams)

6 Chosen from ENGL C2566 or C2576 and C2586, C2606, C2626, C2636, C2646
6 Chosen from ENGL C2753, C2803, C2816, C2826, C2836, C2846
18 Chosen from ENGL C3046, C3146, C3156 or C3166 and C3176, C3326 or C3336 and C3346, C3356, C4346, C4436.
6 Chosen from ENGL C3106, C3206, C3306
6 Chosen from ENGL C2906 or C2913 and C2926, C3006 or C3013 and C3026, C3766, C3776, C4406
12 ENGL elective credits (excluding C2116, or C2123 and C2133, C3986)
6 ENGL elective credits at the 400 level
72 BA Joint Honours in French and English* (Loyola)

French: 6 credits in the XXth century: 6 credits in Quebec literature; 12 credits chosen from the XVIIIth, XIXth and XXth century, FRAN C3246 or C3721 plus 3 credits in the missing century (XVIIIth, XIXth, XXth century).

English: 6 credits chosen from the following: C2571 and C2581, C2596, C2686, C2713, C2733, C2756, C2771. 18 credits chosen by genre or by periods parallelizing the choice in French courses; 6 Elective credits chosen from the list of Honours and Major courses

12 Credits will be chosen as follows: either 6 credits in each of two departments or a corresponding combination of "Independent Studies" carried out in each of the two departments.

*NOTE: Sequence of courses to be determined in consultation with the departments concerned.

60 BA Honours in English (Loyola)

Year I

18 Students must take 18 credits from the list of courses below or, with at least 6 credits from Group A and 6 credits from Group B. The remaining 6 credits may be taken from either group of courses.

Group A

ENGL C2566 or C2571 and C2581, C2596, C2686, C2713, C2733, C2756, C2771

Group B

ENGL C2866 or C2871 and C2881, C2906 or C2913 and C2921, C2956, C2966, C2971, C2986, C3006 or C3013 and C3021

Years II and III

6 ENGL C3206

6 ENGL C3106, C3146, C3156 or C3166 and C3176, C3186

6 ENGL C3266, C3271, C3326 or C3336 and C3346, C3356

6 ENGL C3386 or C3396 and C3406, C3426 or C3436 and C3446, C3466

18 ENGL elective credits (up to six credits may be chosen from an approved cognate course)

72 BA Joint Honours in English and History (Loyola)

6 ENGL C3206

18 ENGL credits chosen from three different periods, at least two of which should be supported by parallel HIST courses

6 ENGL elective credits

6 ENGL or HIST elective credits

12 HIST credits to parallel ENGL courses

12 HIST Honours Seminars

6 HIST elective credits

6 Joint ENGL/HIST Tutorial, ENGL C4906 or HIST C4906

Upon completion of a Joint Honours Programme in French and English (Sir George Williams) the student will have a good appreciation of the two cultures. The programme involves a study in depth of a particular period or field of literature. Each student will be required to write an Honours Essay in either French or English

72 BA Joint Honours in French and English

Group A Core Courses (English)

6 ENGL C2566, C2846

12 Chosen from ENGL C2906, C3046, C3106, C3156, C3206, C3306, C3326, C3366, C3426

Group C Core Courses (French)

18 Chosen from FRAN C2516, C2706, C2712, C3206 (or C3216 and C3226), C3246 (in consultation with the Department)

24 Options: 12 credits in English and 12 credits in French, all chosen from one of the following Options. No more than six credits may be chosen from Group B in the Option chosen by the student.

1. Mediaeval and Renaissance Option

12 credits chosen from the late 19th and 20th Century literature in consultation with the English Department and 12 credits in literature from this period in consultation with the French Department.

4. Literature of Quebec and Canada Option

12 credits chosen in consultation with the English Department, from the literature of Quebec and Canada and 12 credits in Quebec literature chosen in consultation with the French Department.

5. Theatre Option

12 credits chosen in Drama in consultation with the English Department and 12 credits in Drama in consultation with the French Department.

Group D

6 300 or 400 level elective in French or English outside the option selected

6 ENGL C4996, or FRAN C4996

72 BA Joint Honours in English and one of the Modern Languages (Loyola)

6 ENGL C3206

18 ENGL credits chosen from three different periods to parallel Modern Language courses

6 ENGL elective credits

12 Credits chosen from one Modern Language in different periods to parallel ENGL courses

12 Elective credits from one Modern Language
6 ENGL or Modern Language elective credits
6 Joint ENGL/Modern Languages Tutorial, ENGL C4916

60 BA Specialization in English (Loyola)

Year I
18 Students must take 18 credits from the list of courses below, with at least 6 credits from Group A and 6 credits from Group B. The remaining 6 credits may be taken from either group of courses.

Group A
ENGL C2566 or C2573 and C2583, C2596, C2686, C2713, C2733, C2753, C2773

Group B
ENGL C2866 or C2873 and C2883, C2906 or C2913 and C2923, C2953, C2963, C2973, C2983, C3006 or C3013 and C3023

Year II and III
6 ENGL C3206
18 Credits to be chosen from three different periods of ENGL literature
18 ENGL elective credits (up to six credits may be chosen from an approved cognate course)

60 BA Specialization in English and History (Loyola)

12 ENGL credits chosen from two different periods which should be supported by parallel HIST courses
18 ENGL elective credits
12 HIST credits to parallel ENGL courses
18 HIST elective credits

NOTE: This programme replaces the Joint Majors programme.

60 BA Specialization in English and Drama (Loyola)

6 ENGL C3206
9 ENGL C2773, C3186, C3353
15 ENGL elective credits
6-9 THEA C2006, C3013
3 SCEN C2013
6 TPER C2013, C2023
6-9 THEA ARTS elective credits
6 Chosen from PROD C2006, C2013, C3013, C3023 and C4013

60 BA Specialization in English and one of the Modern Languages (Loyola)

6 ENGL C3206
12 ENGL credits chosen from two different periods to parallel Modern Language courses.
12 ENGL elective credits
12 Credits chosen from one Modern Language in two different periods to parallel ENGL courses.
18 Elective credits chosen from one Modern Language

NOTE: This programme replaces the Joint Majors programme.

42 BA Major in English (Loyola)

Year I
18 Students must take 18 credits from the list of courses below, with at least 6 credits from Group A and 6 credits from Group B. The remaining 6 credits may be taken from either group of courses.

Group A
ENGL C2566 or C2573 and C2583, C2596, C2686, C2713, C2733, C2753, C2773

Group B
ENGL C2866 or C2873 and C2883, C2906 or C2913 and C2923, C2953, C2963, C2973, C2983, C3006 or C3013 and C3023

Year II and III
6 ENGL C3206
12 Credits chosen from the list of Honours and Majors courses covering at least two different periods before the 20th century
6 ENGL elective credits

42 BA Major in English (Sir George Williams)

6 Chosen from ENGL C2256, C2266, C2276, C2286, C2296, C2216, C2226, C2236, C2246
12 Chosen from ENGL C3046, C3146, C3156, C3266, C3326, C3386, C3426, C4306
6 Chosen from ENGL C3106, C3206, C3306

42 BA Major in Drama

30 THEA C2006, C3013, SCEN C2023, TPER C2013, C2023, PROD C2013, C3013, C3023, C4013
18 Drama elective credits

12 Dramatic literature elective credits For a complete listing of Drama courses please consult Faculty of Fine Arts, Performing Arts Division.

24 Minor in English Language (Loyola)

18 ENGL C2116, or C2123 and C2133, C2393, C4753, C4773
6 Chosen from ENGL C2556, C3146 or C4306

24 Minor in English Language (Sir George Williams)

30 ENGL C2116 or C2123 and C2133, C2566 or C2573 and C2583, C2846, C3933, C3943, C3986

24 Minor in English Literature (Loyola)

24 credits chosen in consultation with the English Department.
9 Chosen from ENGL C2713, C2733, C2751, C2773
6 ENGL C2566 or C2573 and C2583
9 ENGL elective credits

24 Minor in English Literature (Sir George Williams)

30 ENGL C2116 or C2123 and C2133, C2566 or C2573 and C2583, C2846, C3933, C3943, C3986

24 Minor in English Literature (Loyola)

24 credits chosen in consultation with the English Department.
9 Chosen from ENGL C2713, C2733, C2751, C2773

9 ENGL elective credits

24 Minor in English Literature (Sir George Williams)

6 Chosen from ENGL C2753, C2803, C2816, C2826, C2836, C2846
6 Chosen from ENGL C3046, C3146, C3156, C3326, C3386, C3426, C4306
6 Chosen from ENGL C3106, C3206, C3306
ENGLISH C205
Basic Language Skills — Stage I
A course in English composition for students who need basic training in written and spoken English. Emphasis will be placed on grammar, sentence structure and other fundamentals of good usage. (3 credits)
NOTE: Students who have taken Cegep English C211 may not take this course for credit.

ENGLISH C206
Basic Language Skills — Stage II
A course in language skills and research techniques for students who need basic training in the preparation of effective reports, term papers and other written accounts of their work for business and academic purposes. (3 credits)
NOTE: Students who have taken Cegep English C211 may not take this course for credit.

ENGLISH C209
Elements of Written English
Prerequisite: Permission of the Department. This course will deal with problems in written English which students encounter when writing university assignments. The course will begin a few weeks after the commencement of term. This will give students an opportunity to register for it after they have discovered deficiencies in their written English which hinder their academic progress. (3 credits) NOTE A/See § 200.1

ENGLISH C211
English Composition
This course is designed to help the students to develop skills in writing, research, and documentation, so that they may be able to prepare written accounts of their work clearly, concisely, and in a logically organized way. (6 credits)
NOTE A/See § 200.1
NOTE: This course may not be taken for credit with English C212 or C213.

ENGLISH C212
English Composition — Stage I
This course in English composition is designed to provide students with the basic training in writing upon which all forms of effective written communication are founded. Stress will be laid on the development of skills in the writing of good expository prose through a study of the basic rules of grammar, in the organization of essays, in effective sentence construction and diction, in effective paragraphing and in paraphrasing and summarizing. (3 credits)
NOTE: Students who have taken English C211 may not take this course for credit.

ENGLISH C213
English Composition — Stage II
Prerequisite: English C212 or permission of the Department. This course develops further the writing skills acquired in English C212. The aim of this course is two-fold: a) to develop skill in writing appropriate to the audience; and b) to familiarize students with research techniques necessary for the preparation of term papers and other written accounts for business and academic purposes. Instruction will focus on the techniques of persuasion, narration and description, on logical structure and on how to use the library. (3 credits)
NOTE: Students who have taken English C211 may not take this course for credit.

ENGLISH C214
Introduction to Literature and Composition
Selected readings from various periods and genres, designed to provide familiarity with some of the possibilities of the literary art. Students will be asked to write frequently and will be given training and assistance in the skills of composition. Certain sections will deal exclusively with composition; others will put greater emphasis on literature. Please consult department before registering. (6 credits)
NOTE: Credit for this course may not count toward the English Major.

ENGLISH C215
Rhetoric
An inquiry into the nature and function of Rhetoric (Classical and “New”), and of rhetorical criticism; a study of the fundamentals, and some of the refinements, of prose style, logical and rhetorical analysis, and original compositions. (3 credits)

ENGLISH C225
Creative Writing: Poetry
A seminar in the writing and criticism of poetry, including detailed discussion and written criticism of the students’ work, and, at the discretion of the instructor, the study of selected poems. Students taking English C225 are urged to take English S231 as well. (6 credits)
NOTE A/See § 200.1

ENGLISH C226
Creative Writing: Prose
A seminar in the techniques of short fiction, including investigations of and exercises in a variety of creative and technical problems, as well as analysis and criticism of the students’ own work. Students may be required to read selected works of short fiction. (6 credits) NOTE A/See § 200.1
ENGLISH C227
Creative Writing: Drama
A seminar in the writing of plays, including an exploration of dramatic forms and techniques. The students are expected to submit work of their own for discussion and analysis. (6 credits)
NOTE A/See § 200.1

ENGLISH C232
The Oral Interpretation of Poetry and Drama
The aim of this course is to demonstrate the close relationship between the rhythm and texture of the spoken word and meaning in poetry and drama. We shall read aloud poems and scenes from plays, studying the importance of emphasis to meaning and (in the latter) the relationship of dialogue to character. (6 credits)

ENGLISH C234
The Bible and English Literature
A study of the literary handling of Biblical material and the literary uses of Biblical allusion in English Literature by authors such as Milton, Bunyan, Blake, Byron and T. S. Eliot. (6 credits)

ENGLISH C237
Children's Literature
A survey and analysis of literature for children, undertaken with the aim of developing a critical vocabulary and of arriving at workable standards of assessment. The kinds of literature discussed will include works written for adults but traditionally read by children as well, works specifically written or adapted for children, fairy tales and other children's versions of folklore and myth, nursery rhymes and other children's verse. The course will be of general interest to students of literature, and should prove especially helpful to those who teach children in the schools. (6 credits) NOTE A/See § 200.1

ENGLISH C238
Canadian Children's Literature
This course examines the ways in which elements of the Canadian experience such as language, setting, folklore and history have contributed to the content and tradition of children's literature in Canada. (3 credits) NOTE A/See § 200.1

ENGLISH C239
Topics in Children's Literature
This course deals with specific topics such as the works of an author or group of authors, or a particular theme, or development of a genre. The topics to be studied may vary from year to year. (3 credits) NOTE A/See § 200.1

ENGLISH C249
Women in Literature I
A selection of short stories, poems and plays by authors such as Ibsen, Lawrence, Maier, Pinter, and MacEwen in which women is of major importance, either as the central experiencing character in adolescence, maturity and old age, or as the embodiment of sexual archetypes and social roles. (3 credits)
NOTE: This course may be taken for credit in the Women's Studies Programme.

ENGLISH C250
Women in Literature II
Prerequisite: English C249 or a course which has stressed the novel as a form. A study of some women novelists emphasizing Charlotte Bronte, Woolf, Lessing and Atwood, and including others from among George Eliot, Rhys, Plath, Drabble, Engels, Watson and Munro. (3 credits)
NOTE: This course may be taken for credit in the Women's Studies Programme.

ENGLISH C251
Selected Topics in Literature Written by Women I
This course explores the ways in which women have employed conventions of such literary genres as poetry, the novel, and the drama to define their own lives and those of their contemporaries. The emphasis will be on literary analysis of the works; the course will also deal with the social and historical circumstances which are relevant to the works in question. The texts studied, the themes and concepts pursued, will vary from year to year. (3 credits) NOTE A/See § 200.1.
NOTE: This course may be taken for credit in the Women's Studies Programme.

ENGLISH C252
Selected Topics in Literature Written by Women II
A student repeating English C251 for credits will register under English C252. (3 credits)
NOTE A/See § 200.1
NOTE: This course may be taken for credit in the Women's Studies Programme.

ENGLISH C254
Psychology and Literature
A study of the relationship between the basic theories of psychology or psychoanalysis and literature through a consideration of selected literary works such as novels, poems, dramas and fairy tales. (6 credits)

ENGLISH C255
Translation
Prerequisite: Fluency in both French and English. Intensive work to improve the student's skill at translating a variety of texts from French to English. Training will be given in style and idioms. The course will help the student gain proficiency in rendering a variety of French texts in idiomatic English prose. (6 credits)

ENGLISH C256
Major Writers in English
An introduction to major periods of English literature through the study of such representative authors as Chaucer, Shakespeare, Marlowe, Jonson, Donne, Milton, Swift, Pope, Blake, Coleridge, Wordsworth, Keats, Shelley, Dickens, Hardy, Browning, Tennyson, Conrad, Lawrence, Yeats, Eliot, Woolf, Joyce. (6 credits)
NOTE: This course may not be taken for credit with English C257 or C258.

ENGLISH C257
Introduction to English Literature I
An introduction to Chaucer, Spenser, Shakespeare, Milton and other major English authors of the Middle Ages and the sixteenth and seventeenth centuries. (3 credits)
NOTE: This course may not be taken for credit with English C256.

ENGLISH C258
Introduction to English Literature II
A continuation of English C257. An introduction to Swift, Pope, Wordsworth, Tennyson, Yeats, T. S. Eliot, and other major English authors of the eighteenth, nineteenth and twentieth centuries. (3 credits)
NOTE: This course may not be taken for credit with English C256.

ENGLISH C259
Literature: Ideas and Myths
An exploration through literature of some of the myths which generate our ideas and some of the ideas which rationalize our myths. A study of Gilgamesh, The Republic of Plato, Antony and Cleopatra, The Marriage of Heaven and Hell, Crime and Punishment, 2001, and other works. (6 credits)

ENGLISH C260
Introduction to English Literature III
A study of the literature of the nineteenth century through the works of such authors as Dickens, Hardy, Tennyson, Browning, T. S. Eliot, and others. (3 credits)

ENGLISH C261
The History of English Literature
A study of the content, development and evolution of English literature through the ages. (3 credits)
NOTE A/See § 200.1
ENGLISH C260 Myth in Literature
The sources, development and continuing function of some central Mediterranean myths. The course defines the nature and functions of myth, lists the most influential myths from their first appearance in literature to their transformation in the Christian art of Europe, and goes on briefly to examine their use by contemporary writers. The primary texts include the Bible, the King James version, and such works as the Apocrypha, the Odyssey, selected Greek tragedies, and Ovid’s Metamorphoses. (6 credits)

ENGLISH C262 Medieval Literature in Translation
An introductory study of some major works in England and Europe between 400 and 1400, beginning with St. Augustine, and including examples of epic, Graill literature and courtly romance, such as Beowulf, The Song of Roland, The Sid, Chretien de Troyes’ Parasil, Tristan and Isolde. The Romance of the Rose, and parts of Dante’s Divine Comedy. (6 credits) NOTE A/See § 200.1

ENGLISH C263 European Literature from the Middle Ages to the Onset of Modernism
A study of some of the classical works of European literature from Dante to Dostoevsky, including such writers as Boccaccio, Rabelais, Cervantes, Rousseau and Goethe, with emphasis on evolving cultural patterns leading from Faith to Reason and beyond. (6 credits) NOTE A/See § 200.1

ENGLISH C267 The Origins of Drama
An introductory study of Greek and Roman drama, and the medieval drama, both English and Continental. The course will be concerned with dramatic types, theory and form, and with the significance of this drama to the later English stage. (6 credits) NOTE A/See § 200.1

ENGLISH C268 Masterpieces of English Literature Before 1603
An introduction to the origin and development of English literature in the Old English, Medieval and Tudor periods through a reading of Beowulf (in translation), and authors such as Chaucer, Malory, Spenser, More and Marlowe. (6 credits)

ENGLISH C271 Practical Criticism
A close examination of literary works of every genre and most major periods from a variety of critical perspectives. (3 credits)

ENGLISH C273 Fiction
A study of the development of the novel as a literary genre through the reading of novels by authors such as Defoe, Fielding, Austen, Dickens and Joyce. (3 credits)

ENGLISH C275 Poetry
A study of poetry and its forms with emphasis upon the art of close reading. (3 credits)

ENGLISH C277 Drama
A study of a varied selection of plays from both an historical and a generic point of view that will introduce students to the problems and delights of reading, visualizing, making and seeing plays. (3 credits)

ENGLISH C279 Drama and Poetry
Selections for study will be grouped around some central theme of particular relevance to the students reading. Specific themes and reading lists will be chosen by individual instructors. (3 credits)

ENGLISH C280 Short Fiction
A study of forms and techniques of the short story, the Novella, and what have come to be called in contemporary literature “fictions”. (3 credits)

ENGLISH C281 Tragedy: A Literary Mode
A study of the varieties of tragic form and sensibility in Western literature. The course includes writers chosen from antiquity to the present, both within and outside the English tradition, such as Shakespeare, Euripides, Hardy, Tolstoy, Webster, Racine, Faulkner, Buchner, Rilke and Chekhov. (6 credits) NOTE A/See § 200.1

ENGLISH C282 Comedy: A Literary Mode
A study of the varieties of comic form and sensibility in Western literature. The course includes writers chosen from antiquity to the present, both within and outside the English tradition, such as Jonson, Aristophanes, Sterne, Cervantes, Meredith, Balzac, Gogol, Molière, Holberg, Leacock, Morganstern and Ams. (6 credits) NOTE A/See § 200.1

ENGLISH C283 Satire: A Literary Mode
Its vision and its form, traditional and contemporary. The course includes writers chosen from antiquity to the present, both within and outside the English tradition, such as Chaucer, Juvenal, Lucian, Swift, Erasmus, Voltaire, Thackeray, Grass, Roth, Beckett, Waugh, Richler and Orwell. (6 credits) NOTE A/See § 200.1

ENGLISH C284 Critical Approaches to Literature
A study of the major theories and their practical application to works of literature, with special emphasis on 20th Century criticism. (6 credits)

ENGLISH C286 Twentieth Century British Literature
A study of twentieth century British authors such as Joyce, Yeats, Woolf, Shaw, E. M. Forster, Waugh, T. S. Eliot, Auden and Lessing. (6 credits) NOTE: This course may not be taken for credit with English C287 or C288.

ENGLISH C287 Modern British Literature
A study of modern British authors such as Hardy, Hopkins, Conrad, Lawrence, E. M. Forster, Yeats and T. S. Eliot. (3 credits) NOTE: This course may not be taken for credit with English C286.

ENGLISH C288 Contemporary British Literature
A study primarily of post World War II British authors such as Beckett, Thomas, Osborne, Pinter, Auden and Lessing. (3 credits) NOTE: This course may not be taken for credit with English C286.

ENGLISH C290 Canadian Literature
An introductory survey of Canadian prose and poetry, written in or translated into English,
ENGLISH C291: Canadian Fiction
Through readings in fiction, this course will examine themes and styles in Canadian Literature. (3 credits)
NOTE: This course may be taken for credit in the Canadian Studies Programme.
NOTE: This course may not be taken for credit with English C291 or C292.

ENGLISH C292: Canadian Poetry
Through readings in poetry, this course will examine themes and styles in Canadian Literature. (3 credits)
NOTE: This course may be taken for credit in the Canadian Studies Programme.
NOTE: This course may not be taken for credit with English C290.

ENGLISH C295: Commonwealth Literature I
- Selected novels, short stories and poetry from West Africa, East Africa and Caribbean. (3 credits)

ENGLISH C296: Commonwealth Literature II
- Selected novels, short stories and poetry from South Africa, Rhodesia, India, Australia and New Zealand. (3 credits)

ENGLISH C297: Modern Fiction I
- A study of major American and European novelists of the earlier modern period such as Melville, Dostoevsky, Tolstoy, Conrad, Kafka, Joyce, Mann and Faulkner. (3 credits)

ENGLISH C298: Modern Fiction II
- A study of major American and European novelists of the later modern period such as Malraux, Satre, Camus, Kazantzakis, Solchenitsyn, Bellow and Pynchon. (3 credits)

ENGLISH C300: American Literature
- A survey of the literature of the United States from its origins to the present. (6 credits)
NOTE: This course may be taken for credit in the Canadian Studies Programme.
NOTE: This course may not be taken for credit with English C291 or C292.

ENGLISH C301: American Literature: Nineteenth-Century
- A study of major nineteenth century American writers such as Poe, Thoreau, Emerson, Hawthorne, Melville, Whitman and Dickinson. (3 credits)
NOTE: This course may not be taken for credit with English C300.

ENGLISH C302: American Literature: Twentieth-Century
- A study of major twentieth century American writers such as Fitzgerald, Hemingway, Faulkner, Stevens and Frost. (3 credits)
NOTE: This course may not be taken for credit with English C300.

ENGLISH C304: Modern British and American Literature
- A study of works in English from what has now emerged as the "Modern" period, extending from the turn of the century to World War II and including such writers as Conrad, Joyce, Lawrence, Eliot, Yeats, Dylan Thomas, Stevens, Hemingway, Faulkner, Frost and Synge. (6 credits)

ENGLISH C305: Modern European Literature
- A survey of some of the major European writers (in translation) of the last hundred years, including such writers as Dostoevsky, Kafka, Mann, Strindberg, Valery, Pirandello and Sartre. (6 credits)

ENGLISH C310: Chaucer
- A study of the major poetry of Chaucer, emphasizing The Canterbury Tales and Troilus and Criseyde. (6 credits)

ENGLISH C314: Middle English Literature
- A study of literature written in the English dialects from 1200 to 1500, including works such as Sir Gawain and the Green Knight and other romances, early lyrics, religious prose, drama, and selections from Layamon's Arthurian Biut, Langland's Piers Plowman and Malory's Morte Darthur. (6 credits)

ENGLISH C315: English Renaissance Literature
- A study of poetry and prose in English from more to Milton, including such writers as Wyatt, Surrey, Sidney, Spenser, Bacon, Donne, the Metaphysical poets, Jonson, the Carolline lyricists, Browne. (6 credits)
NOTE: This course may not be taken for credit with English C316 or C317.

ENGLISH C316: Spenser
- This course is intended to examine Spenser's works — The Amoretti and The Faerie Queene in particular — and their relations to the perduring literary traditions, both English and continental. (3 credits)
NOTE: This course may not be taken for credit with English C315.

ENGLISH C317: Elizabethan Prose and Poetry
- Significant works of Elizabethan non-dramatic literature will be studied both as individual creations and as samples of the most important trends in non-dramatic verse and prose of the time. (3 credits)
NOTE: This course may not be taken for credit with English C315.

ENGLISH C318: English Renaissance Drama
- A study of English drama from the Tudor interlude to the closing of the theatres in 1642, including such dramatists as Kyd, Marlowe, Dekker, Jonson, Beaumont and Fletcher, Webster, Middleton and Ford. Some consideration will also be given to Shakespeare. (6 credits)

ENGLISH C320: Shakespeare
- An examination of Shakespeare's artistic achievement in some of the major plays. (6 credits)

ENGLISH C326: Seventeenth Century Poetry
- The course will put major emphasis on the poetry of Milton. Other poets to be studied will...
be selected from among Jonson, Donne, Herbert, Herrick and Marvell. (6 credits)

NOTE: This course may not be taken for credit with English C327.

ENGLISH C327
Early Seventeenth-Century Literature
A study of the poetry and some of the prose of the period, with special emphasis on the work of John Donne. (3 credits)
NOTE: This course may not be taken for credit with ENGL C326.

ENGLISH C330
Milton
A study of Milton's Paradise Lost and other works such as the shorter poems, selected prose, Paradise Regained and Samson Agonistes. (6 credits)

ENGLISH C332
English Literature of the Restoration and 18th Century
A study of poetry and prose from the 1660's to the 1780's, including such major writers as Dryden, Swift, Pope and Johnson. (6 credits)
NOTE: This course may not be taken for credit with English C333 or C334.

ENGLISH C333
Eighteenth Century Poetry
Major poets of the eighteenth century, including Dryden and Pope. (3 credits)
NOTE: This course may not be taken for credit with English C332.

ENGLISH C334
Eighteenth-Century Prose
Major prose writers of the eighteenth century such as Johnson, Richardson and Fielding. (3 credits)
NOTE: This course may not be taken for credit with English C332.

ENGLISH C335
Restoration and Eighteenth-Century Drama
A study of the English stage from Dryden to Sheridan, including such dramatists as Etheredge, Otway, Wycherley, Vanbrugh, Congreve, Gay, Lillo and Goldsmith. (3 credits)

ENGLISH C338
English Literature of the Romantic Period
A study of poetry and prose, chiefly that of Blake, Wordsworth, Coleridge, Byron, Shelley and Keats. (6 credits)
NOTE: This course may not be taken for credit with English C339 or C340.

ENGLISH C339
The Romantics I
The course will survey the major poets of the first part of the Romantic period (Blake, Wordsworth, Coleridge) with historical background and emphasis on the common technical and thematic elements of Romantic poetry. (3 credits)
NOTE: This course may not be taken for credit with English C338.

ENGLISH C340
The Romantics II
The course will survey the major poets of the second part of the Romantic period (Byron, Shelley and Keats) with historical background and emphasis on the common technical and thematic elements of Romantic poetry. (3 credits)
NOTE: This course may not be taken for credit with English C338.

ENGLISH C342
Victorian Literature
A study of English poetry and prose from the 1830's to the end of the nineteenth century, including such major writers as Tennyson, Browning, Hopkins, Carlyle, Newman, Ruskin, Dickens, Thackeray and Eliot. (6 credits)
NOTE: This course may not be taken for credit with English C343 or C344.

ENGLISH C343
Victorian Prose
A study of Victorian prose writers such as Dickens, George Eliot, Thackeray, Carlyle, Arnold and Mill. (3 credits)
NOTE: This course may not be taken for credit with English C342.

ENGLISH C344
Victorian Poetry
A study of Victorian poets such as Tennyson, Browning, Hopkins, Swinburne and Hardy. (3 credits)
NOTE: This course may not be taken for credit with English C342.

ENGLISH C346
Nineteenth-Century Fiction
Emphasis will be on the variety of fictional modes and styles used during this period, and their relevance to the social and intellectual history of the age. Novelists will be chosen from among the following: Austen, Scott, the Brontes, Dickens, Thackeray and George Eliot. (6 credits)

ENGLISH C349
The English Theatre in the Nineteenth Century
A study of drama and dramatic modes from Shelley to Shaw, including forms such as the melodrama, the Gothic thriller, Romantic verse drama, comedy, farce, burletta, operetta, and the "new drama" of the 1890's. Among features that may be considered are innovations such as limelight and the act curtain, the emphasis on spectacle, and the phenomena of the star system and the actor-managers. (3 credits)

ENGLISH C350
Late Victorian and Edwardian Literature
The end of the Victorian era and the beginnings of modernism. Novelists include James, Forster, Gissing, Woolf, Wilde, and Beardsley. (6 credits)

ENGLISH C354
Anglo-Irish Literature
Emphasis on the major English language writers of Ireland: notably O'Casey, Synge, Lady Gregory, Joyce, Yeats and Beckett. (6 credits)

ENGLISH C357
The English Novel From Defoe to Dickens
A study of the origins and early development of the English novel, including such forms as the epistolary, the picaresque, the Gothic and historical novel, and such major writers as Fielding, Richardson, Sterne, Austen, Scott, the Brontes, George Eliot and Thackeray. (6 credits)

ENGLISH C358
The English Novel from Dickens to Conrad
A study of the later Victorian and Edwardian novel, including such writers as Trollope, Meredith, Butler, Hardy, James, Wells, Galsworthy, Bennett and Forster. (6 credits)
ENGLISH C380
Introduction to American Studies
An interdisciplinary consideration of the elements that go toward making up the "American Character" and the nature of art and culture in America: studies in literature, history, sociology, psychology, religion and fine arts. (6 credits)

ENGLISH C382
American Writers of the '20s
A study of the American expatriate generation of the 1920s, with particular emphasis on Fitzgerald, Hemingway, Gertrude Stein and their relationships with the cultural and artistic milieu centered in Paris. (6 credits)

ENGLISH C383
Modern American Fiction
The twentieth century American novel up to 1945. Authors such as Norris, Dreiser, Fitzgerald, Hemingway, Faulkner, West, Henry Roth and Wright will be read. (3 credits)

ENGLISH C384
Contemporary American Fiction
The twentieth century American novel since 1945. Authors such as Mailer, F. O'Connor, Styron, Bellow, Updike and Pynchon will be read. (3 credits)

ENGLISH C376
Canadian Literature from the 1820's to the 1930's
Prerequisite: Second year standing. A study of prose, poetry and drama, principally written in English, including such writers as McCulloch, DeMille, Kirby, Lampman, Roberts, Pratt, Grove and Stead. (6 credits)

ENGLISH C377
Modern Canadian Literature
Prerequisite: English C290. A study of prose, poetry and drama, principally written in English, from the 1930's to the present, including such writers as Laurence, MacLennan, Richler, Lowry, Klein, Callaghan, Layton, Livesey, Birney, Avison, Reaney, Nowlan and Ryga. (6 credits)

ENGLISH C390
Modern Poetry
An examination of the characteristic elements of twentieth-century poetry, in the context of a study of such major poets as Yeats, Eliot, Pound, Stevens and Auden. (6 credits)

ENGLISH C392
Modern Drama
A study of the main currents in Western drama since Ibsen. This course will include such representative playwrights as Chekhov, Lorca, Strindberg, Pirandello, O'Neill, Brecht, Pinter, Beckett and Waiss. (6 credits)

ENGLISH C393
History and Structure of the English Language
The course deals with the linguistic and historical development of the English language. The influence of language changes upon the literature will also be considered. (3 credits)

ENGLISH C394
English Prose Style
This course is designed to introduce students to the experience and assessment of the subtleties and varieties of prose style within the English tradition. It will include selections from the works of distinguished prose stylists. (3 credits)

ENGLISH C395
Science Fiction
An exploration of the varieties and nature of science fiction from H. G. Wells to Ursula LeGuin. Readings will include examples of English and American science fiction and translations of foreign works. Among the authors studied will be Huxley, Orwell, Zamiatin, Jack London, Capke, Borges, Calvino, and Lem. (6 credits)

ENGLISH C398
Non-Fiction Writing
Prerequisite: English C211 or C212 and C213 or permission of the Department. This course is designed for students already in control of the basic techniques of composition who wish to further develop their ability in writing in a variety of genres, including feature articles, new stories, biographies, reports and reviews. The students' work is given analysis and evaluation by the instructor and by fellow classmates in a workshop setting. (6 credits)

ENGLISH C425
Advanced Creative Writing: Poetry
Prerequisite: English C225 or approved work. A workshop in the writing of poetry. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft. (6 credits)

ENGLISH C426
Advanced Creative Writing: Prose
Prerequisite: English C226 or approved work. A workshop in the writing of fiction. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its materials and techniques, to demonstrate their further progress in the craft. (6 credits)
ENGLISH C427
Advanced Creative Writing: Drama
Prerequisite: English C227 or approved work.
A workshop in the writing of plays. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its materials and techniques to demonstrate their further progress in the craft. (6 credits) NOTE A/See § 200 1

ENGLISH C430
Old English
A study of the language and literature of the Anglo-Saxon era, chiefly of the Beowulf epic. (6 credits)

ENGLISH C434
Special Studies in Shakespeare
Prerequisite: English C320. An exploration in depth of individual plays and poems by Shakespeare, as well as particular problems presented by them. The topic considered in any one year might be, "the Problem Plays", "the Romances", "Mask and Disguise", or "the Shakespeare play as Satire". (3 credits)

ENGLISH C435
Special Studies in Renaissance Literature
Prerequisite: One of English C315, C316 and C317 or C318. This course is designed for an intensive study of a limited aspect of the poetry, prose or drama of the period, and may deal, from year to year, with such topics as "the Sonnet Sequences", "the Metaphysical Poets", "Rhetoric, Poetics and Critical Theory" and "Renaissance Fiction". (3 credits)

ENGLISH C436
Special Studies in Renaissance Literature
A student repeating English C435 for credits registers under English C436. (3 credits)

ENGLISH C438
The Rise of Prose Fiction
The course will explore the origin and development of European fiction in major works of the Middle Ages and the Renaissance, giving particular attention to their varying sources of inspiration, the narrative techniques they evolve and the basic genres they establish. Works such as the romances of Chrétien de Troyes, the anonymous "Quest for the Holy Grail", Boccaccio's "Decameron", Malory's "Morte Darthur", and Cervantes' "Don Quixote", will be studied. (6 credits)

ENGLISH C440
The Literatures of Canada and the United States
Prerequisite: English C290 or C291 and C292, or C300 or C301 and C302. It would be to the student's advantage to enter this course with knowledge of both literatures. Studies in common and contrasting problems in the two national literatures. (6 credits)

ENGLISH C442
World Literatures Written in English
Prerequisite: Second-year standing. Studies of works of English from selected areas such as the Caribbean, New Zealand, Australia, Asia and Africa, by such writers as Naipaul, Walcott, Ashton-Warner, White, Narayan, Paton, Lessing and Achebe. (3 credits)

ENGLISH C443
World Literatures Written in English
A student repeating English C442 for credits registers under English C443. (3 credits)

ENGLISH C444
Special Studies in American Literature I
Prerequisite: English C300 or C301 and C302. The topics considered will vary from year to year, and may include American fiction, American poetry or American drama. (3 credits)

ENGLISH C445
Special Studies in American Literature II
Prerequisite: English C300 or C301 and C302. As in English C444, the topics will vary annually. (3 credits)

ENGLISH C448
Special Studies in Canadian Literature
Prerequisite: One of English C376 or C377. An intensive study of a limited aspect of Canadian literature which may deal, from year to year, with an individual author or work, or a particular problem, such as "Regionalism and the Diction of Canadian Poetry", "Prairie Fiction" or "Canadian Drama". (3 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

ENGLISH C449
Special Studies in Canadian Literature
A student repeating English C448 for credits registers under English C449. (3 credits) NOTE A/See § 200 1

NOTE: This course may be taken for credits in the Canadian Studies Programme.

ENGLISH C456
Special Studies in Modern Fiction
Prerequisite: One of English C304, C305, C307. A detailed study of an individual author or work of fiction, or a specific problem in modern literature. (3 credits)

ENGLISH C457
Special Studies in Modern Fiction
A student repeating English C456 for credits registers under English C457. (3 credits) NOTE A/See § 200 1

ENGLISH C459
Contemporary Literature
Prerequisite: Six credits in Modern Literature, e.g., C300, C304, C305, C377, C390 or C392. A study of poetry, prose fiction and drama, written in or translated into English since the Second World War. This course is intended for the student whose exploration of modern literature has already suggested to him something of the radical experimentation in form which characterizes contemporary literature. (6 credits)

ENGLISH C460
The Novel and Twentieth Century Art
Theory
Prerequisite: Second-year standing. A study of the twenty-century novel and its relationship to other art forms. In addition to a limited number of theoretical texts, the course includes novels by authors such as Joyce, Woolf, E. M. Forster, Cary and Durrell. (6 credits)

ENGLISH C462
The Aesthetic and Religious Experience in Literature
Prerequisite: Second-year standing. An interdisciplinary course which explores the relationship between literature and religion through practical criticism, literary theory, aesthetics and theology. (6 credits)

ENGLISH C468
Special Studies in Drama
Prerequisite: One previous course in drama. This course will study different kinds and periods of drama each year. (3 credits)
ENGLISH C474
History of Criticism
A consideration of the major texts which have marked the development of literary criticism. The course will be both historical and methodological. Works such as Aristotle’s Poetics, Sidney’s An Apology for Poetry, Pope’s An Essay on Criticism, Johnson’s Lives of the Poets, Coleridge’s Biographia Literaria and T. S. Eliot’s critical essays. (6 credits)

ENGLISH C475
Patterns of English Speech
The course will examine the relationship between spoken and written English from a variety of points of view: linguistic, semantic, philosophical, literary. The course will emphasize oral English and will include such topics as phonology, intonational patterns, dialect, slang. (3 credits)

ENGLISH C477
Advanced Stylistics
On the basis of the linguistic study in C475, C477 will examine sentence structures, paragraph formation, tone, diction, argumentation. (3 credits)

ENGLISH C479
Special Studies in English Literature
Prerequisite: A period course in the area involved. A course devoted to a special topic or particular author in English literature. The topic or author will vary from year to year. (3 credits)

ENGLISH C484
Theories and Criticism of Literature
Prerequisite: English C284. This course explores problems in criticism and theoretical approaches to literary art and experience from antiquity to the present, including such problems as symbol and metaphor, instruction and delight, mimesis and catharsis, form and inspiration, audience and social value, convention and genius. (6 credits)

ENGLISH C490
Joint Tutorial in History and English
A tutorial for students in the English and History Joint Honours Programme. (6 credits)

ENGLISH C491
Joint Tutorial in Modern Languages and English
A tutorial for students in the English and Modern Languages Joint Honours Programme. (6 credits)

ENGLISH C492
Seminar in a Special Subject
Prerequisite: Second-year standing. This course is designed to provide an opportunity for study and discussion of literature at a relatively advanced level. It is taught from year to year, by different members of the English Department and the subject changes to accord with the special interests of each instructor. (6 credits) NOTE C/See § 200.1

ENGLISH C493
Seminar in a Special Subject
A student repeating English C492 for credits registers under English S493. (6 credits) NOTE A/See § 200.1

ENGLISH C494
Seminar in a Special Subject
Prerequisite: Second-year standing. This course is designed to provide an opportunity for study and discussion of literature at a relatively advanced level. It is taught from year to year, by different members of the English Department and the subject changes in accord with the special interests of each instructor. (3 credits)
31.14 French

PROGRAMMES

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

72 BA Joint Honours in French and History

30 French Credits:
6 Chosen from FRAN C2703, C2713, C3206, C3213, C3223
6 FRAN C2516
6 18th Century French Literature
6 19th Century French Literature
6 20th Century French Literature
30 History credits:
18 HIST C2903, C2103, C3226, C3446
12 Chosen from HIST C4316, C4326, C4336
6 Elective credits in French or History
6 HIST C4966 or FRAN C4986

72 BA Joint Honours in one of the Modern Languages and in French (Loyola)*

6 Chosen from FRAN C2703, C2713, C3206, C3213, C3223

24 Minor in the French Language
24 An approved sequence of language courses commencing at a level not lower than FRAN C204 (langue française niveau intermédiaire I) Students must have written approval from the Department for their program prior to registration.

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

Les cours du département ayant reçu de nouveaux numéros, les étudiants trouveront une liste d'équivalences à la section 200.

FRANÇAIS C200 French Language: Elementary I
This course is intended for students having no previous training in French. It includes a comprehensive introduction to the basic structures and vocabulary of French and should enable students to acquire an ability to speak and understand simple conversational French. Both oral and written aspects of the language are presented with special emphasis on oral skills. Laboratory sessions are included. (3 credits)

FRANÇAIS C201 French Language: Elementary II
Prerequisite: French C200. Continuation of the previous course. (3 credits)

FRANÇAIS C202 Langue Française: Niveau de Transition I
Prerequisite: French C201 or equivalent. This course addresses to des étudiants ayant suivi soit un an de français à l'université ou au niveau collégial, soit deux ans de français à l'école secondaire, ou equivalent. Ce cours permet aux étudiants d'accéder à un niveau de compréhension et d'expression suffisant pour communiquer en français avec une certaine confiance. Par l'utilisation de techniques de conversation dirigée et de travail systématique en classe et au laboratoire, les étudiants acquerront un répertoire de structures et de vocabulaire plus élargi. Séances de laboratoire. (3 credits)

FRANÇAIS C203 Langue Française: Niveau de Transition II
Prerequisite: French C202 or equivalent. Suite du cours précédent. (3 credits)

FRANÇAIS C204 Langue Française: Niveau Intermédiaire I
Prerequisite: French C203 or equivalent. Ce cours s'adresse à des étudiants ayant suivi soit 4 ans de français à l'école secondaire, soit 2 ans de français à l'université, ou au niveau collégial, ou equivalent. Par une étude et une pratique intensive des tournures du français courant, l'étudiant pourra acquérir l'aisance nécessaire à une communication spontanée. Le cours fournira également quelques aperçus sur le mode de vie des francophones. (3 credits)

FRANÇAIS C205 Langue Française: Niveau Intermédiaire II
Prerequisite: French C204 or equivalent. Suite du cours précédent. (3 credits)

FRANÇAIS C220 Littérature Moderne
Prerequisite: French C203 or equivalent. Au moyen d'un choix de nouvelles, romans, pièces de théâtre et poèmes de la francophonie, l'étudiant apprendra à "lire", et à apprécier les caractéristiques des différents genres. (6 crédits)

30 Certificate in the French Language
30 An approved sequence of courses commencing at a level not lower than FRAN C202 (langue française niveau transition I) Students must have written approval from the Department for their program prior to registration.

FRANÇAIS C250 Littérature Québécoise en Traduction
Etude de la littérature québécoise en traduction surtout du point de vue de l'écriture (vocabulaire, style, images, etc.). Etude de textes sur le plan thématique, linguistique, stylistique et structural. Analyses des meilleures traductions disponibles. Travaux pratiques en traduction, compositions, recherches. Textes: Bessette, Le libraire; Blais, La Belle Bête; Thériault, Agagnuck; Hébert, Kamouraska, etc. (3 credits)

Ce cours n'est pas crédité dans les programmes de mineure, de majeure, de BA spécialisé et d'honneurs en littérature québécoise.

FRANÇAIS C251 Culture et Civilisation Québécoises
Préalable: Français C203 ou équivalent. La culture et la civilisation québécoises vues à travers une de leurs expressions particulières: la littérature. Etude des grandes étapes de la production littéraire avec, comme toile de fond, un aperçu général de l'histoire politique, économique, sociale, culturelle du Québec. Étude des principaux courants de pensée dans le Québec d'hier et d'aujourd'hui: l'expression littéraire comme reflet du mouvement de libération et du processus de décolonisation québécois. Ce cours vise en outre à ce que les étudiants entrent en contact avec diverses manifestations culturelles québécoises: théâtre, chanson, cinéma, etc. (6 crédits)

FRANÇAIS C260 Stylistique Comparée du Français et de l'Anglais
Préalable: Français C301 ou équivalent. Le cours a pour but d'étudier les ressources stylistiques du français par rapport à celles de l'anglais. Le passage entre les deux langues est étudié en fonction des tendances particulières de chaque langue, tant du point de vue grammatical et lexical que du point de vue du contexte culturel. (3 crédits)

FRANÇAIS C261 Initiation à la Traduction
Préalable: Français C301 ou équivalent. Traduction de textes vers l'anglais et vers le français, avec étude des problèmes typiques soulevés par le passage d'une langue à l'autre. (3 crédits)

FRANÇAIS C262 Introduction à la Linguistique Française
Préalable: autorisation du département. Introduction à l'analyse descriptive de la structure linguistique du français contemporain. Aperçus des aspects phonémiques, morpho-syntaxiques et lexicaux de la langue considérée comme un système. Applications théoriques et pratiques. (6 crédits)

FRANÇAIS C264 Phonétique I
de la parole; propriétés des voyelles et des consonnes en français. Étude des phénomènes prosodiques; intonation, rythme, accent. Appliance de la phonétique acoustique et expérimentale. (3 crédits)

FRANÇAIS C265
Phonétique II
Préalable: Français C264. Séminaire de recherche expérimentale. Initiation à l'utilisation d'outils de recherche. Étude détaillée de segments linguistiques du point de vue du timbre des voyelles, de l'articulation des consonnes et des faits prosodiques (accent, rythme, intonation). Étude expérimentale de problèmes relevant de la comparaison des systèmes phonétiques du français et de l'anglais. (3 crédits)

FRANÇAIS C270
Introduction à l'histoire de la culture et de la civilisation françaises I
Préalable: Français C203 ou équivalent. Abandonment illustré de projections, ce cours a pour but essentiel d'amener les étudiants à replacer la littérature dans son contexte historique, social, politique et artistique. (3 crédits)

FRANÇAIS C271
Introduction à l'histoire de la culture et de la civilisation françaises II
Préalable: Français C270 ou autorisation du département. Suite chronologique du cours C270. (3 crédits)

FRANÇAIS C300
Niveau de Transition III: L'Art de Vivre au Québec I
Préalable: Français C203 ou équivalent. Cours intensif qui a pour but principal de permettre à l'étudiant de niveau intermédiaire de s'intégrer au milieu québécois, au moyen de discussions et d'activités dirigées par un professeur et animées par des moniteurs-étudiants francophones. Pratique systématique du français en classe. Participation en petits groupes à des activités culturelles dépassant le cadre scolaire. (6 crédits)

FRANÇAIS C301
Niveau de Transition IV: L'Art de Vivre au Québec II
Préalable: Français C300 ou équivalent. Suite du cours précédent. (6 crédits)

FRANÇAIS C302
Langue française: Niveau d'approfondissement I
Préalable: Français C205 ou équivalent. Le cours d'approfondissement est destiné à des étudiants qui possèdent déjà une bonne connaissance du français et qui ont besoin d'améliorer leur expression écrite et orale par une étude approfondie et une révision systématique de la grammaire. On attacherà une importance accrue à l'acquisition d'une expression écrite précise et correcte. (3 crédits)

FRANÇAIS C303
Langue française: Niveau d'approfondissement II
Préalable: Français C302 ou équivalent. Suite du cours Français C302. (3 crédits)

FRANÇAIS C304
Le Code Oral
Préalable: Français C301 ou équivalent. Ce cours permettra à l'étudiant de se sentir à l'aise devant les diverses formes de la langue parée. Étude des marques phonologiques, lexicales et morpho-syntaxiques propres à la langue orale. Initiation à l'identification des niveaux de langue de la langue française et aux variantes nationales et régionales par des exercices de compréhension et d'expression. (3 crédits)

FRANÇAIS C305
Le Code Oral II
Préalable: Français C304 ou équivalent. Suite du cours Français C304. (3 crédits)

FRANÇAIS C306
Le Code Écrit I
Préalable: Français C305 ou équivalent. Ce cours permettra à l'étudiant de distinguer les marques caractéristiques du style écrit de celles de la langue parlée. Au niveau lexical, morpho-syntaxique et stylistique, des exercices appropriés permettront à l'étudiant de mettre en pratique les connaissances acquises. (3 crédits)

FRANÇAIS C307
Le Code Écrit II
Préalable: Français C306 ou équivalent. Suite du cours Français C306. (3 crédits)

FRANÇAIS C308
Le Français des sciences de la santé I
Préalable: Français 301 ou équivalent. Cours destiné aux étudiants qui travaillent dans le domaine de la santé publique ou qui se préparent à une carrière dans ce domaine. Le cours permet à l'étudiant d'accéder à un corpus de vocabulaire, de structures et de niveaux de langue choisis en fonction des situations de communication dans une clinique, un hôpital, un centre de santé communautaire, etc. Par la pratique en situation ou à partir de documents authentiques et par une recherche individuelle, l'étudiant apprendra à communiquer dans son milieu de travail. (3 crédits)

FRANÇAIS C309
Le Français des sciences de la santé II
Préalable: Français C301 ou C308 ou équivalent. Suite du cours C308. (3 crédits)

FRANÇAIS C310
Le français de la raccrologie, de l'éducation physique et des sports I
Préalable: Français C301 ou équivalent. Cours destiné aux étudiants qui travaillent déjà ou qui se préparent à œuvrer dans le domaine de la raccrologie et des sports. Les thèmes étudiés comprennent le conditionnement physique, le rôle du sport dans la société, le reportage sportif, l'organisation des loisirs dans la ville et dans la nature, etc. L'acquisition du vocabulaire, des structures et des niveaux de langue choisis en fonction de ces thèmes se fera en situations de travail simulées, par la pratique et la discussion à partir de documents authentiques et par une recherche individuelle. (3 crédits)

Préalable: Français C303 ou équivalent. Le cours s’adresse aux étudiants qui, dans leur profession ou celle de celle à laquelle ils se préparent, doivent utiliser le vocabulaire de l’appareil judiciaire et la terminologie des différentes branches du droit. On étudiera les situations telles que conflit locataire - propriétaire, problèmes d’assurance, contrat de mariage, etc. Par une étude théorique et pratique de divers litiges, par une recherche individuelle et en jouant les rôles de divers personnages en situation, les étudiants approfondiront leurs connaissances de la langue du droit et apprendront à l’utiliser. (3 crédits)

FRANÇAIS C413
Initiation à la Terminologie du Droit II
Préalable: Français C412. Suite du cours C412. (3 crédits)

FRANÇAIS C418
Le Français de l’Economie
Préalable: Français C303, C318/319 ou équivalent. Étude approfondie du vocabulaire de l’économie et des sciences politiques. Les principaux sujets abordés porteront sur les concepts fondamentaux de la science économique, sur les problèmes que pose le développement économique du Québec et sur diverses solutions que l’on propose pour les résoudre. Le cours vise à faciliter à l’étudiant la compréhension de la documentation existant en français dans tous ces domaines et la communication orale et écrite de ses idées. (3 crédits)

FRANÇAIS C419
Le Français de la Finance et de la Gestion
Préalable: Français C303, C318/319 ou équivalent. Examen des principales difficultés de la langue française à partir d’une documentation axée sur le monde de la finance et sur la science de la gestion. Étude approfondie du vocabulaire français de la bourse, du management, du marketing, de la publicité et des relations industrielles. Redaction de lettres et de rapports. Traduction de textes commerciaux. Le cours vise à faciliter l’usage du français dans les relations d’affaires. (3 crédits)
FRANÇAIS C420
Litterature du Moyen-Age
Préalable: Français C320 ou C321 ou autorisation du département Initiation à la langue et à la littérature du Moyen-Age, au moyen d'un choix d'œuvres épiques, romanesques, lyriques et historiques, pouvant varier d'une année à l'autre. En plus d'acquérir une vue générale de la littérature et une connaissance approfondie de quelques œuvres en traduction, l'étudiant se familiarisera suffisamment avec la langue pour ne plus être embarrassé à la lecture d'un texte en ancien français. (3 crédits)

FRANÇAIS C421
Panorama de la Littérature Française du Moyen-Age I
Préalable: Français C320 ou C321 ou autorisation du département. Au moyen d'une sélection d'œuvres des IXème, Xème, XIème et XIIème siècles, ce cours se propose de faire connaître et apprécier à l'étudiant les premières manifestations de la littérature française (Sermont de Strasbourg; chanson de geste, roman courtis). (3 crédits)

FRANÇAIS C422
Panorama de la Littérature Française du Moyen-Age II
Préalable: Français C320 ou C321 ou autorisation du département. Au moyen d'une sélection d'œuvres des XIIème, XIVème et XVème siècles, ce cours se propose de faire connaître et apprécier les richesses littéraires du Moyen-Age depuis les fabliaux et le Roman de la Rose jusqu'au Grand Testament de François Villon. (3 crédits)

FRANÇAIS C425
Introduction à la vie Littéraire du XVIème Siècle

FRANÇAIS C426
La Poesie du XVIème Siècle: Des Doctrines aux Oeuvres
Préalable: Français C320 ou C321 ou C270 ou équivalent. Marot, Sève, Ronsard, D'Aubigné: leurs recherches, leur évolution, leur rayonnement. (3 crédits)

FRANÇAIS C427
La Littérature en Prose du XVIème Siècle: duConteà l'Essai
Préalable: Français C320 ou C321 ou C270 ou équivalent. Orientation et fixation des types "humanistes" dans la littérature narrative et speculative du XVIème siècle: Marguerite de Navarre, Rabelais, Montaigne. (3 crédits)

FRANÇAIS C428
La Littérature de l'Age Baroque
Préalable: Français C320 ou C321 ou C270 ou équivalent. Les dissonances de l'âge classique: Du romanistique au burlesque et à la fuite poétique. Théophile de Viau, Saint-Amant, Rottou, Cyrano de Bergerac... (3 crédits)

FRANÇAIS C429
Le Siècle Classique
Préalable: Français C320 ou C321 ou C270 ou équivalent. La société classique: la Ville et la Cour, les salons, les honnêtes gens, les chefs-d'œuvres classiques. (3 crédits)

FRANÇAIS C430
Le Théâtre et le Roman Classiques
Préalable: Français C320 ou C321 ou C270 ou équivalent. Les dramaturges face aux règles classiques. La tragédie et la comédie classiques. Du roman précieux au roman classique. (3 crédits)

FRANÇAIS C431
Les Moralistes
Préalable: Français C320 ou C321 ou C270 ou équivalent. La pensée religieuse de Pascal à Bossuet: La morale laique (La Fontaine). Les mondanis (La Bruyère et La Rochefoucauld). (3 crédits)

FRANÇAIS C432
L'aube des Lumières

FRANÇAIS C433
Le Siècle des Lumières

FRANÇAIS C434
Littérature du XVIIIème Siècle: les Oeuvres Militantes
Préalable: Français C320 ou C321 ou C270 ou équivalent. L'esprit philosophique: libre examen; recherche d'une vérité positive; aspects de la satire, religieuse et sociale: des Lettres Persanes à l'Encyclopédie. (3 crédits)

FRANÇAIS C435
Littérature du XVIIIème Siècle: Théâtre et Roman I

FRANÇAIS C438
Le Romantisme

FRANÇAIS C439
Littérature de la Période Romantique
Préalable: Français C320 ou C321 ou C322 ou C270 ou C271 ou équivalent. L'œuvre et l'homme: Évolution des écrivains de la période romantique. La révolution de 1830 et "l'école du désenchantement". Le romantisme, dans un choix de romans, de l'invention de techniques réalisées propres à exposer les problèmes éthiques, sociaux et politiques d'une société qui s'urbanise et s'industrialise. (3 crédits)

FRANÇAIS C440
Littérature sous le Second-Empire: Une Littérature Ironique et Critique
Préalable: Français C320 ou C322 ou C271 ou équivalent. On cherchera à étudier et à apprécier la rupture qui intervient dans la deuxième moitié du XIXème siècle dans la...
FRANÇAIS C441
La Fin du Siècle: Entre la Tour d'Ivoire et le Monde Réel
Prealable: Français C320 ou C322 ou C271 ou équivalent. On cherchera à étudier et à expliquer quelles tendances littéraires modernes s'expriment sous des termes comme réalisme, naturalisme ou symbolisme, dans des œuvres de Verlaine, Mallarmé, Rimbaud, Huysmans, Zola, Gide. (3 crédits)

FRANÇAIS C442
Introduction au XXème Siècle
Prealable: Français C320 ou C322 ou C271 ou équivalent. Les facteurs historiques, économiques et socio-politiques qui caractérisent la fin de l'Empire et ses conséquences sur la vie culturelle, particulièrement littéraire, de la "Belle Epoque". On étudie un certain nombre d'œuvres (Maurras, Bergson, Pégy ... ) qui distinguent l'héritage d'un siècle précédent des tendances modernes qui marqueront la littérature du XXème siècle. (3 crédits)

FRANÇAIS C444
Le Roman et la Poésie de 1900 à 1920
Prealable: Français C320 ou C322 ou C271 ou équivalent. Distinction entre la littérature en vogue et celle qui prépare le renouveau littéraire de l'entre-deux-guerres par l'étude des œuvres de certains représentants de cette période. Choix des suivants: France, Barres, Bourget, Gide, Valery, Proust, Apollinaire et Tzara. (3 crédits)

FRANÇAIS C445
Le Roman et la Poésie de l'Entre-Deux Guerres

FRANÇAIS C446
Le Roman et la Poésie du XXème Siècle I

FRANÇAIS C447
Le Roman et la Poésie du XXème Siècle II

FRANÇAIS C450
Symboles et Archétypes de l'Imaginaire Québécois en Littérature
Prealable: Français C251. Identification, description, évolution des grands symboles et archétypes de l'imagination québécoise en littérature. Examen des modes de production et de transmission. Textes puissants aussi bien dans la littérature "officielle" que dans la littérature "populaire". (3 crédits)

FRANÇAIS C451
La Littérature Québécoise au Féminin

FRANÇAIS C452
Les Écrivains Québécois et la Question Nationale
Prealable: Français C251. L'interrogation québécoise et son rapport avec la création littéraire. Situation des écrivains par rapport à la question nationale. Littérature engagée, littérature de propagande. On examinera dans ce cours aussi bien des textes "théoriques" des écrivains que des textes de "création". (3 crédits)

FRANÇAIS C453
Le Fantastique et la Tradition Populaire dans la Littérature Québécoise
Prealable: Français C251. La présence du fantastique dans la littérature québécoise et l'influence de la tradition populaire au niveau des thèmes et des structures. Textes choisis dans le domaine de la tradition populaire (3 crédits)

FRANÇAIS C454
Littérature et Para-Littérature Québécoises

FRANÇAIS C455
Littérature Québécoise et Canadienne
Littérature I
Prealable: Français C251 ou autorisation du département. Étude comparative des littératures québécoise et canadienne. Comparaisons des deux littératures sur le plan thématique, stylistique, structural, idéologique, etc. Examen des similitudes, des analogies et des traits distinctifs. L'accès dans ce demi-cours est mis sur les œuvres traditionnelles. Textes tels que: Grove, Settlers of the Marsh, Ringuet, Trenle Apent, MacLennan, The Watch that Ends the Night et Langevin, Pousière sur ta ville, etc. (3 crédits)

FRANÇAIS C456
Littérature Québécoise et Canadienne
Littérature II
Prealable: Français C251 ou autorisation du département. Étude comparative des littératures québécoise et canadienne. Comparaisons des deux littératures sur le plan thématique, stylistique, structural, idéologique, etc. Examen des similitudes, des analogies et des traits distinctifs. L'accès dans ce demi-cours est mis sur les œuvres modernes. Textes tels que: Anne Hebert, Robertson Davies, de Marie-Claire Blais, de Margaret Atwood, etc. (3 crédits)
FRANÇAIS C457
Littérature Québécoise I
Préalable: Français C251. Selon les besoins et désirs des étudiants, l'intérêt du professeur et le progrès de la recherche, on traitera ici de sujets spécifiques qui ne sont pas couverts par les autres cours. Par exemple: un mouvement littéraire; une période littéraire courte; un auteur particulier; un thème, la critique, étude comparative de la littérature québécoise et des littératures d'expression française, etc. (3 crédits)

FRANÇAIS C458
Littérature Québécoise II
Préalable: FRAN C251. Les étudiants ayant suivi Français C457 obtiennent 3 crédits pour C458 à condition que le contenu du cours ne soit pas le même.

FRANÇAIS C459
Étude d'un Sujet Particulier en Littérature Québécoise
Préalable: Français C251. Ce cours a pour but d'élargir la perspective des études littéraires québécoises en proposant l'examen d'expressions artistiques et culturelles qui n'appartiennent pas spécifiquement au domaine littéraire mais entrentient avec lui des rapports privilégiés du fait que le "texte" y possède une fonction précise. Par exemple: la chanson; le cinéma; le monologue; le radiroman; le téléroman, etc. (3 crédits)

FRANÇAIS C460
Initiation à la Terminologie
Préalable: Français C301 ou équivalent. Ce cours identifie certains problèmes de terminologie soulevés par la traduction et comprend des travaux pratiques tels que l'analyse lexicographique d'articles de journaux ou de revues en français ou en anglais, et la préparation de glossaires sur fiches. (3 crédits)

FRANÇAIS C461
Terminologie Pratique
Préalable: Français C301. Ce cours fait suite à l'initiation à la terminologie. Redaction de dossiers terminologiques, études neologiques, étude des définitions, notes et contextes; analyse sémique. (3 crédits)

FRANÇAIS C462
Histoire de la Traduction
Préalable: Français C260 ou autorisation du département. Etude de textes et de traductions d'auteurs anglais et français. On étudiera l'évolution des styles et des attitudes à partir de la Renaissance jusqu'à l'époque moderne. (3 crédits)

FRANÇAIS C463
Revision et Correction en Traduction
Préalable: Français C360 ou C361. Ce cours a pour objet de faire connaître aux étudiants les aspects humains et techniques de la révision. Il abordera surtout les différentes méthodes utilisées pour évaluer la qualité d'une traduction. (3 crédits)

FRANÇAIS C464
Stage de Formation: du Français à l'Anglais
Préalable: 3ème année dans le programme de traduction. Le stage a pour but d'initier l'étudiant à l'activité professionnelle dans le domaine de la traduction du français à l'anglais et de lui faire connaître le monde du travail. (6 crédits)

FRANÇAIS C465
Stage de Formation: de l'Anglais au Français
Préalable: 3ème année dans le programme de traduction. Le stage a pour but d'initier l'étudiant à l'activité professionnelle dans le domaine de la traduction de l'anglais au français et de lui faire connaître le monde du travail. (6 crédits)

FRANÇAIS C466
La Langue Française au Québec: son Evolution
Préalable: Français C251 et autorisation du département. Analyse des aspects phonétiques, lexicaux et morphosyntaxiques du français québécois actuel et des divergences de ce dernier par rapport à la norme européenne; archaïsmes, anglicismes, créations nouvelles. La question des niveaux de langue (aspects sociaux et linguistiques) et celle de la norme seront également abordés. (3 crédits)

FRANÇAIS C467
La Langue Française au Québec: son Etat Actuel
Préalable: Français C251 et autorisation du département. Étude des facteurs politiques, sociologiques et psychologiques contribuant à la formation de la norme. Analyse et description des écarts par rapport à la norme. Travaux pratiques d'enquête. (3 crédits)

FRANÇAIS C468
Sémantique
Préalable: Français C262. Étude formelle de la signification et de la segmentation du sens en français fondée sur une approach sémétique de la langue. L'étudiant fera l'apprentissage de méthodes d'analyse lui permettant d'inventorier les effets de sens et de les ordenner en fonction de critères objectifs. (3 crédits)

FRANÇAIS C472
Le Théâtre Français du XIXème Siècle I
Préalable: Français C320 ou C322 ou C321 ou C271 ou 272 ou équivalent. A la fin du XIXème siècle, le théâtre français connaissait des transformations profondes. Ce cours suivra l'évolution du théâtre à partir d'Antoine, à travers ses étapes successives, jusqu'à la fin de la période de l'entre-deux-guerres. Seront étudiés les grands metteurs en scène qui ont succédé à Antoine: Lugne-Poe, Copeau et le Carleil, ainsi que les mouvements d'idées et les dramaturgies qui ont marqué cette période. (3 crédits)

FRANÇAIS C473
Le Théâtre Français du XIXème Siècle II
Préalable: Français C320 ou C322 ou C321 ou C271 ou C272 ou équivalent. La guerre de 1914-1918 marque une coupure dans l'histoire du théâtre en France au XIXème siècle. La relève du Carleil est assurée par des animateurs tels que Jean-Louis Barrault, Jean Vilar, Roger Plançon, etc. De nouvelles lignes de force s'ouvrent et les dramaturgues qui ont marqué cette période. (3 crédits)

FRANÇAIS C474
Étude d'un Sujet Spécial dans le Théâtre Français
Préalable: Français C320 ou C322 ou C321 ou C271 ou C272 ou équivalent. Ce cours portera sur une période ou un problème particulier dans l'histoire du théâtre français. Les sujets seront...
par exemple: les origines du théâtre français dans le drame liturgique et son développement en tant que forme populaire jusqu'au théâtre baroque, le théâtre dit "classique" de sa naissance jusqu'à son déclin: le théâtre de la Révolution française, la comédie de l'art en France, le théâtre bourgeois de Diderot aux comédies du boulevard. (3 crédits)

FRANÇAIS C475
Etude d'un Sujet Spécial dans le Théâtre Français
L'étudiant s'inscrivant pour la deuxième fois au français C472 (sur un sujet différent) obtient les crédits français C475. (3 crédits)

FRANÇAIS C476
La Littérature au Féminin I
Préalable: Français C320 ou C322 ou C271 ou C272 ou équivalent. A partir de manifestes et de textes de création, on retracera différentes manifestations de la prise de conscience "féministe" chez les écrivaines françaises ainsi que les solutions envisagées aux problèmes posés. Ce cours permettra de considérer les tendances actuelles dans une perspective historique. (3 crédits)

FRANÇAIS C477
La Littérature au Féminin II
Préalable: Français C320 ou C322 ou C271 ou C272 ou équivalent. Ce cours portera sur l'éclatement qui caractérise l'écriture au féminin à l'heure actuelle. On étudiera différents concepts tels que la "prise de parole", la valorisation de l'anima, le renversement des mythes anciens, ainsi que la révolution formelle et stylistique qui accompagne cet éclatement. (3 crédits)

FRANÇAIS C478
Histoire de la Critique Littéraire
Préalable: 6 crédits en littérature. Etude de l'évolution de la critique littéraire des origines au début du XIXème siècle, au moyen d'un choix d'œuvres théoriques et critiques. (3 crédits)

FRANÇAIS C480
Approches Critiques I: La Sémiotique Textuelle
Préalable: 6 crédits en littérature. Etude des conditions générales de la production du sens et de la spécificité du texte littéraire. Examen des principales théories formalistes en France et au Québec et apprentissage des méthodes critiques qui en découlent. Travaux pratiques qui permettront à l'étudiant d'en contrôler l'efficacité et la valeur au contact des œuvres. (3 crédits)

FRANÇAIS C481
Approches Critique II: La Sociologie de la Littérature
Préalable: 6 crédits en littérature. Etude des relations qu'établissent entre eux le texte littéraire et le social. Le point de vue résolutif sociologique que l'on adoptera dans ce cours permettra d'étudier l'œuvre en fonction du milieu qui en a permis l'émergence et du contexte socio-éidéologique dont elle est à la fois un reflet et un élément actif. (3 crédits)

FRANÇAIS C482
Approches Critiques III: La Critique Philosophique
Préalable: 6 crédits en littérature. Ce cours vise à sensibiliser l'étudiant aux problèmes épistémologiques que pose l'étude d'un texte littéraire. La critique philosophique, essentiellement thématique, doit constamment remettre en question ses presupposées théoriques et tenter de justifier sa méthode. Quelles sont les conditions d'un discours vénidique prenant en charge le texte littéraire, quelle est la signification du texte littéraire considéré comme signe global, telles sont les deux principales questions qui seront examinées. (3 crédits)

FRANÇAIS C483
Approches Critique IV: La Psycho-Critique
Préalable: 6 crédits en littérature. Ce cours est une introduction à la psychanalyse de la littérature. À l'aide du créateur et sur ses rapports avec sa création, il permettra à l'étudiant de faire le point sur les différentes méthodes psychocritiques et sur leurs applications. Par des travaux pratiques d'interprétation portant sur des œuvres particulières, on évaluera les avantages de chaque méthode et on en précisera les limites. (3 crédits)

FRANÇAIS C489
Méthodologie des Travaux de Recherche
Préalable: autorisation du département. Destine aux étudiants de dernière année et préparant aux études graduées, ce cours permettra, par des exercices de rédaction commentées et critiques, d'atteindre la précision, l'élegance et l'originalité dans l'expression écrite. Analyse stylistique proprement dite (définitions et procédés de style). Théorie et pratique de l'analyse de texte — Théorie de la versification — Théorie et pratique des recherches bibliographiques. (6 crédits)

FRANÇAIS C490
Etude avancée d'un sujet particulier I
Préalable: 12 crédits de langue ou de linguistique au niveau "400". Etude d'un sujet particulier dans le domaine de la langue ou de la linguistique. (6 crédits)

FRANÇAIS C491
Etude avancée d'un sujet particulier II
Préalable: 12 crédits de langue ou de linguistique au niveau "400". Etude d'un sujet particulier dans le domaine de la langue ou de la linguistique. (3 crédits)
NOTE: Tout étudiant s'inscrivant pour la seconde fois au cours C490 obtient les crédits C491.

FRANÇAIS C492
Etude avancée d'un sujet particulier III
Préalable: 12 crédits de langue ou de linguistique au niveau "400". Etude d'un sujet particulier dans le domaine de la langue ou de la linguistique. (3 crédits)
NOTE: Tout étudiant s'inscrivant pour la seconde fois au cours C491 obtient les crédits C492.

FRANÇAIS C493
Etude avancée d'un sujet particulier IV
Préalable: 12 crédits en littérature dont 6 au niveau "400". Etude d'un sujet particulier dans le domaine de littérature (6 crédits)

FRANÇAIS C494
Etude avancée d'un sujet particulier V
Préalable: 12 crédits en littérature dont 6 au niveau "400". Etude d'un sujet particulier dans le domaine des littératures. (3 crédits)
NOTE: Tout étudiant s'inscrivant pour la seconde fois au cours C493 obtient les crédits C494.

FRANÇAIS C495
Etude avancée d'un sujet particulier VI
Préalable: 12 crédits en littérature dont 6 au niveau "400". Etude d'un sujet particulier dans le domaine des littératures.
NOTE: Tout étudiant s'inscrivant pour la seconde fois au cours C494 obtient les crédits C495.
FRANÇAIS C498  
Etude Avancée d'un Sujet Particulier VII  
Préalable: 12 crédits dans la spécialité dont 6 au niveau "400". Ce cours n'est ouvert qu'aux étudiants des programmes de majeure, de spécialisation ou d'honneurs. Il offre l'occasion d'approfondir l'étude d'un sujet à déterminer par l'étudiant en accord avec son conseiller et/ou un professeur du département. Chaque étudiant exécute des travaux individuels sous le contrôle du professeur spécialiste de la matière. (6 crédits)

FRANÇAIS C499  
Etude Avancée d'un Sujet Particulier VIII  
Tout étudiant s'inscrivant pour la seconde fois au cours C498 obtient les crédits C499. (6 crédits)

PROGRAMMES

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

60 BA Honours in Geography

Pattern A: Physical Geography

Year I
18 GEOG C2116, C2626, C2716

Years II & III
12 GEOG C3416, C3623, C3913
18 Chosen from GEOG C3716, C3726, C3736, C4753, C4763
6 GEOG Elective credits at the '300' or '400' level (excluding those listed above)
Year III
12 GEOG C4916

Pattern B: Human Geography

Students following this pattern may emphasize one of the following areas within Geography: cultural, economic, historical or urban.

Year I
18 GEOG C2116, C2626, C2716

Years II and III
12 GEOG C3416, C3623, C3913
18 GEOG chosen from one of the following groups. An approved 6 credit option outside Geography may be substituted for 6 of the credits listed below:
- Cultural: GEOG C3166, C3236, C3456, C3576, C4126
- Economic: GEOG C3503, C3513, C3556, C3576, C4516, C4576
- Historical: GEOG C3166, C3226, C3236, C4226
- Urban: GEOG C3316, C3556, C4016, C4126, C4576
6 GEOG Electives at 300 or 400 level other than those listed in the selected group
Year III
6 GEOG C4916

NOTE: The Department of Geography will hold a series of field trips outside regular scheduled class times.
All Honours students will be required to participate in at least five such trips during the course of their undergraduate programme.

60 BA Specialization in Geography

Pattern A: Physical Geography

18 GEOG C2116, C2626, C2716
12 GEOG C3416, C3623, C3913
18 GEOG Chosen from C3716, C3726, C3736, C4753, C4763
or an approved 6-credit option outside Geography
12 GEOG Elective credits at the 300 or 400 level

Pattern B: Human Geography

Students following this pattern may emphasize one of the following areas within Geography: cultural, economic, historical or urban.

18 GEOG C2116, C2626, C2716
12 GEOG C3416, C3623, C3913
18 GEOG chosen from one of the following groups. An approved 6 credit option outside Geography may be substituted for 6 of the credits listed below:
- Cultural: GEOG C3166, C3236, C3456, C3576, C4126
- Economic: GEOG C3503, C3513, C3556, C3576, C4516, C4576
- Historical: GEOG C3166, C3226, C3236, C4226
- Urban: GEOG C3316, C3556, C4016, C4126, C4576
12 GEOG elective credits at the 300 or 400 level

42 BA Major in Geography

18 GEOG C2116, C2626, C2716
12 GEOG C3416, C3623, C3913
12 GEOG Elective credits at the 300 or 400 level

42 BA Major in Man-Environment Relationships (Loyola)

Year I
18 GEOG C2116, C2653, C2663, C2753, C2763
Year II
6 GEOG C3056
6 GEOG C3166, C3576, C3716
Year III
6 GEOG C4056
6 Chosen from GEOG C3173, C3503, C3513
### 30 BA Minor in Geography

12 GEOG C211*, C271*
6 GEOG C262* 
12 GEOG Elective credits at the 300 or 400 level

### 30 BSc Minor in Geography

12 GEOG C211*, C262*, C271*
36 credits all chosen from one of the following groups: Environmental Geography, Hydrology, Geoscience. Choices must be made in consultation with the departmental adviser.

### 66 BSc Specialization in Geography

18 GEOG C211*, C262*, C271*

#### ENVIRONMENTAL GEOGRAPHY
- PHYS C243*, C273* 
- GEOL N220*, N323*

#### HYDROLOGY
- GEOL N215*, N246*, C352*
- PHYS C243*, C244*, C434*
- CHEM C231*, C232*

#### GEOSCIENCE

### 42 BSc Major in Geography

12 GEOG C262*, C271* 
18 all chosen from one of the three groups listed under Specialization in Geography: Environmental Geography, Hydrology, Geoscience.

### 30 BSc Major in Geography

12 GEOG C262*, C271*
6 Chosen from one of the three groups listed under Specialization in Geography: Environmental Geography, Hydrology, Geoscience.

#### GEOSCIENCE

GEOGRAPHY C200
Foundations of Geography: Environment and Man
A course designed for the student with no previous training who is interested in the geographical background to world and environmental problems. A study will be made of both physical and human factors in geography. Areas of concentration will be: energy, natural systems and the environment; landscape evolution, climate and resources; variation and spatial distribution of man's economic, social and political activities; the relationship of urban and non-urban man to the environment. Lectures: 3 hours per week, including Lab. (6 credits)

GEOGRAPHY C201
The Ecology of Man
A general introduction to the relationship between physical and cultural distributions of the earth's surface. Global pattern of human economic and natural resources will be examined. (6 credits)

GEOGRAPHY C211
Introduction to Human Geography
A study of the evolution of the earth's populated area and the gradual enlargement of geographical horizons. The emphasis will be on cultural distributions, landscape and settlement, and the geography of economic, social, and political activities. (6 credits) NOTE A/See § 200; 1

NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY C212
Early Man
An examination of the scientific evidence for the unwritten part of man's evolutionary history. The course will study both food-gathering and food-producing man. Biologic and cultural evolution will be considered from both a temporal and a spatial viewpoint against a background of changing natural environment. (6 credits) NOTE A/See § 200; 1

NOTE: Students who have taken Geography — Interdisciplinary Studies S321 may not take this course for credits.

NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

GEOGRAPHY C262
Introduction to Cartography
An introduction to the study of maps as a tool of the geographer. The course will focus on the various stages involved in topographic map production and map interpretation, and the study of the cartographic methods available for presenting qualitative and quantitative statistical data on maps. Laboratory assignments of a practical nature which are complementary to the lectures form an important part of the course. (6 credits)

NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY C266
Maps and the Presentation of Statistical Data I
This course is useful to anyone interested in how to read and analyze the information on a map; or in how to display data by means of maps and diagrams. It is basic to all other courses in Geography. Topics will include: analysis of topographic, land use, urban and weather maps; the application of maps to economic, social, medical and historical topics; the interpretation of aerial photographs. Lab: 3 hours per week. (3 credits)

GEOGRAPHY C267
Maps and the Presentation of Statistical Data II
The emphasis in this part of the course will be on thematic maps and statistical diagrams and graphs. Elementary quantitative techniques will be studied and their application to the analysis of geographic, economic, population and other scientific and problem data. Lab: 3 hours per week. (3 credits)

GEOGRAPHY C271
The Natural Environment
An introduction to the earth sciences as they relate to the environment of man, with special emphasis on weather, climate and the evolution of landscape. (6 credits) NOTE A/See § 200; 1

GEOGRAPHY C273
The Sea
A physical, historical, and human geography of the world ocean. The course includes an introduction to oceanography, navigation, and elementary geophysics, as well as an account of travels and discoveries ending with modern scientific exploration of the deeps. Topics include coasts and islands; ports, ships, and shipping; submarine topography; waves, tides, and earthquakes; marine life, fish and fisheries. (6 credits) NOTE A/See § 200; 1

GEOGRAPHY C275
Climate and the Biosphere
A study of the energy systems of the atmosphere and an introduction to environmental geography. The hydrologic cycle, world climates and weather systems. Interrelationships in the biosphere, and man's impact upon them. Weather and climate maps will also be studied. Lectures: 3 hours per week, including Lab. (3 credits)

GEOGRAPHY C276
Landforms and the Biosphere
A study of the energy systems of the earth's crust and oceans, and the processes which have shaped our environment. The evolution of land forms and man's impact upon landscapes. The Pleistocene and Recent epochs in Canada, and their effects on soils and land use. The study of relevant topographic land-use maps, and aerial photographs. Lectures: 3 hours per week, including Lab. (3 credits)

GEOGRAPHY C305
Tutorial in Man-Environment Relationships I
Prerequisite: 18 credits in Geography. Tutorial discussion of the changing human attitudes to nature, perception of the environment and of the impact of environmental factors on man and culture. (6 credits)

GEOGRAPHY C316
Cultural Geography
Prerequisite: Geography C211 or second year standing in an honours, specialization, or major programme in the Social Sciences. Cultural Geography is concerned with the application of the concept of culture to geographic problems. Attention is focused on the spatial patterning of material and non-material elements of culture (culture areas); on the processes of cultural, temporal and spatial change; on the relationships between man and land (cultural ecology); and especially on how these relationships are reflected in different ensembles of man and land (cultural landscapes). (6 credits) NOTE A/See § 200; 1
GEOGRAPHY C317
Population Geography
Prerequisite: Geog C265 or equivalent. The characteristics, dynamics and distribution of world populations. Census data and techniques of census analysis. Rural/urban populations and their varying proportions. The vital processes of population change: natural increase and migration. Growth rates, population policies, and population problems. Study of selected groups. The demographic prospects. Lectures: 3 hours per week. (3 credits)

GEOGRAPHY C322
Historical Geography of the United States
Prerequisite: Geography C211 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences. A study of the patterns of colonization and settlement. Some emphasis will be placed on the evaluation of various approaches used in the writing of historical geography. (6 credits) NOTE A/See § 200.1

GEOGRAPHY C323
Historical and Political Geography of Europe
Prerequisite: Geography C211 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences. A regional survey of the geographical evolution of European nations and states. Consideration will be given to cultural differentiation and to the distribution of population. (6 credits) NOTE A/See § 200.1

GEOGRAPHY C325
Introduction to Historical Geography
Prerequisite: Geog C216 or equivalent. An examination of the geographical factors in historic events; of the distribution and migration of people, of differing settlement patterns and the growth of cities. The effect of physical boundaries in war and peace. The agricultural and industrial revolutions and their effects, and special reference to Europe. Lectures: 3 hours per week. (3 credits)

GEOGRAPHY C331
Urban Geography
Prerequisite: Geography C211, or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or the Faculty of Commerce. A study of the prehistoric town, the Greek and Roman town, towns in the Middle Ages, the trading city, the pioneer town and the modern metropolis. The distribution of such towns, their development, growth and internal patterns of organization on an historical and geographical point of view. Problems of conurbations and large metropolitan cities in the present age will be discussed and evaluated. Special emphasis will be given to Canadian cities, to their site, function, organization, growth and development, as well as to urban problems relating to zoning, transportation, urban renewal, etc. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY C341
Regional Geography of Canada
Prerequisite: Geography C211 or C271 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or the Faculty of Commerce. A study of Canada, past and present, based on the various natural regions into which the country is divided. In the first half of the course an historical-geographical approach will be taken to bring to the student's attention the main trends in Canadian cultural and historical development from aboriginal times to the present. The changing nature of man-land relationships at different periods of time, and under different forms of occupancy, will receive particular attention. In the second half of the course the present day pattern of human occupancy on a regional and national basis will be analyzed. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

GEOGRAPHY C345
The Geography of a Selected Region
Prerequisite: Geography C211 or C271, or second year standing in Arts. A detailed examination of the physical environment, the people, their history, and the present political and economic patterns within the region. The course will provide a deep understanding of the inter-relationships between the constituents of the region, an appreciation of those factors responsible for regional unity and will also illustrate the holistic nature of the geographical disciplines. (6 credits) NOTE A, C/See § 200.1. In alternate years beginning 1976-77 this course will focus on the Geography of the USSR. NOTE: This course may be taken for credits in the Russian Studies Programme. A student registering for a second time should register under C346.

GEOGRAPHY C346
The Geography of a Selected Region
Prerequisite: Permission of the Department. A student repeating Geography C345 registers for credits under Geography C346. (6 credits) NOTE A/See § 200.1

GEOGRAPHY C350
Geography of Agriculture
Prerequisite: Twelve credits in Geography or in the Department. Characteristics of agriculture systems, food production in relation to new biological, cultural and marketing developments. There will be some consideration of land use mapping and land potential assessment. (3 credits) NOTE A/See § 200.1

GEOGRAPHY C351
Forest Geography
Prerequisites: Geography C211 and C271 or enrolment in an honours, specialization, or major programme in the Department of Biology. A study of the natural development and distribution of world forests, their modification by human interference and the economic impact of forest management. Actual problems will be examined in a Quebec context both in class and in the field. (3 credits) NOTE A/See § 200.1

GEOGRAPHY C355
Spatial Organization
Prerequisite: Geography C211 or second year standing in an honours, specialization, or major programme in the Social Sciences or in the Faculty of Commerce. A study of how people organize spatial activities with the emphasis on the concepts of spatial interaction, location of activities, diffusion and individual decision. (3 credits) NOTE A/See § 200.1

GEOGRAPHY C357
Resource Utilization and Conservation
Prerequisite: Geography C211 or second year standing in an honours, specialization, or departmental major programme in the Social Sciences or in the Faculty of Commerce. The course will examine the resource concept and concepts of conservation together with the regional approach to resource management. Case studies will include problems in developing particular natural resources and inter-state areas of poor economic health with emphasis on the regional and natural parts of such developments. Special emphasis will be given to
Canadian problems and those of selected underdeveloped countries. (6 credits) NOTE A/See § 200.1

GEOPHraphy C358
Geography of Location I
Prerequisite: Geog C266 or equivalent. This course aims to provide the background to location theory and spatial analysis in economic, human and physical geography. The classical theories of location in agriculture, industry and settlement of von Thunen, Weber, Christaller, Losch and others will be examined; their relevance to the different stages of development and resource use in First and Third World countries will also be discussed. Lectures: 3 hours per week. (3 credits)

GEOPHraphy C359
Geography of Location II
Prerequisite: Geog C358. A study of manufacturing and marketing with particular reference to Canada and the United States. Spatial patterns of innovation and diffusion, regional and inter-regional flows and networks. Comparison with organization and development in the developing countries. Lectures: 3 hours per week. (3 credits)

GEOPHraphy C362
Quantitative Geography I
Prerequisite: Geog C262. An introductory course in the applications of descriptive and analytical statistical techniques in geography. Lectures and laboratory. (3 credits) NOTE A/See § 200.1
NOTE: Only 6 credits will be given from Economics C221 and C222; Geog Geography C362 and C363; Mathematics C-241; Quantitative Methods C243 and C244; Sociology S241; Psychology S241 and S242.
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOPHraphy C363
Quantitative Geography II
Prerequisite: Geog C362. A study of selected multivariate techniques and their application in geography. Practical projects using computer facilities will be assigned. A course in Computer Science would be an asset. (3 credits) NOTE A/See § 200.1
NOTE: Only 6 credits will be given from Economics C221 and C222; Geog Geography C362 and C363; Mathematics C-241; Quantitative Methods C243 and C244; Sociology S241; Psychology S241 and S242.

GEOPHraphy C371
Biogeography
Prerequisite: Geog Geography C271 or C275 and C276 or second year standing in an honours, specialization, or departmental major programme in Science. A study of the distribution of plants and animals with emphasis on their soil and climatic inter-relations. Relevant field trips are included. (6 credits) NOTE A/See § 200.1

GEOPHraphy C372
Analysis of the Environment
Prerequisite: Geog Geography C271 or second year standing in an honours, specialization, or departmental major programme in Science. A review of modern theories and techniques in geomorphology, hydrology, pedology, denudation, chronology and landscape classification. The course includes a discussion of the pleistocene epoch in terms of applied research methods. (6 credits) NOTE A/See § 200.1

GEOPHraphy C373
Climatology
Prerequisite: Geog Geography C271 or second year standing in an honours, specialization, or departmental major programme in Science. The broad aspects of world regional climates considered from the point of view of both physical and dynamic climatology. The course includes practical work. (6 credits) NOTE A/See § 200.1

GEOPHraphy C391
History of Geographical Thought
Prerequisite: Eighteen credits in Geography. A study of the development of the field of geography from ancient times down to the present. Representative geographical works of the Greeks, the Romans and of the Middle Ages, the Age of Discovery, the 19th and 20th centuries will be examined and discussed. The present day concepts of the field and function of geography will receive special attention. (3 credits) NOTE A/See § 200.1

GEOPHraphy C401
Applied Urban Studies
Prerequisites: Geog Geography C211 or INTE C280. Geography C331 previously or concurrently. A study of the contemporary city with emphasis on the problems arising from urban growth. Attention will be given to the possibilities for planned development including New Towns. The material will be presented by films, tapes and special readings and there will be a discussion each week. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOPHraphy C405
Tutorial in Man-Environment Relationships II
Prerequisite: Geography C305. Tutorial discussion of man’s impact on the environment emphasizing current problems and issues. (6 credits)

GEOPHraphy C412
Political Geography
Prerequisite: Geog Geography C316 or permission of the Department. The course will be structured around traditional and contemporary themes in political geography. Emphasis will be upon the political/administrative organization of space, the interrelationships between politics and environment, electoral geography, and the geographical aspects of public policy. These will be studied within the context of the four main levels of government (local, regional, national and international). Consideration will be given to urban and regional systems, and to Canadian situations and problems. (6 credits) NOTE A/See § 200.1

GEOPHraphy C422
Historical Geography of Quebec and Ontario
Prerequisite: Geog Geography C211, C341 or permission of the Department. A study of an historical nature of past geographic patterns, economic, social, cultural and political, in Quebec and Ontario. (6 credits) NOTE A/See § 200.1

GEOPHraphy C451
Special Seminar in Economic Geography
Prerequisites: Geog Geography C211, C355, C362 or permission of the Department. This course will provide opportunities to senior students for discussion and advanced study. Subject matter will vary from year to year to take advantage of the special interests of the seminar leaders. (6 credits) NOTE A/See § 200.1
GEOGRAPHY C457
Geography of Transportation
Prerequisites: Geography C211, C331 or C355 or permission of the Department. A study of patterns of transport facilities and traffic flows. Emphasis will be on general concepts of route alignment, network layouts, and on applications of spatial interaction models to economic flows. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

GEOGRAPHY C462
Advanced Cartography
Prerequisite: Geography C262 and twelve additional credits in Geography. A study of the major stages and techniques involved in map compilation, design and production. Lectures, practical periods with assignments and relevant field trips. (3 credits) NOTE A/See § 200.1
NOTE: Students who have credits for Geography N-466 in 1975-76 may not register for this course.

GEOGRAPHY C463
Topics in Applied Cartography
Prerequisite: Geography C462. The subject matter of the course will vary from year to year to take advantage of the special interests of the course instructor and may include such topics as automated cartography, remote sensing, historical cartography or special purpose mapping. Seminars, practicals with assignments and relevant field trips. Students may register for this course a second time under C464 (3 credits) NOTE C/See § 200.1

GEOGRAPHY C464
Topics in Applied Cartography
Prerequisite: Permission of the Department. A student taking Geography C463 a second time registers for credits under Geography C464. (3 credits) NOTE A/See § 200.1

GEOGRAPHY C475
Hydrology I
Prerequisite: Geography C271, one of Geography C371, C372, or C373 or final year standing in Science or Engineering. Theories and practice of hydrology with emphasis on geographical aspects and resource utilization. Includes introduction to glaciology. (3 credits) NOTE A/See § 200.1

GEOGRAPHY C476
Hydrology II
Prerequisite: Geography C475. Soil moisture experiments, textural analysis, hydrological models and field trips. (3 credits) NOTE A/See § 200.1

GEOGRAPHY C491
Research Methods
Prerequisite: Final year standing in Honours Geography. A selected review of the methods and techniques used to acquire and process original geographical information in the field and laboratory. Includes field work and practical sessions. (6 credits) NOTE A/See § 200.1
### 31.16 Geology

**Chairman**
H. S. de ROMER, Associate Professor

**Professor**
D. J. McDougall

**31.16.1 PROGRAMMES (LOYOLA)**

(For Sir George Williams Programmes see § 31.16.2)

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

#### 75 BSc Honours in Geology (Loyola)

**Year I**
- 15 GEOL 211B, 222A, 231B, 232B, 241A
- 6 Cognate Science elective credits to be chosen from CHEM C231, C232, C211 COMP C211, MATH C241

**Year II**
- 21 GEOL 301B, 311Z, 312B, 313B, 341B, 342B
- 3 GEOL elective credits

**Year III**
- 21 GEOL 400Z, 411Z, 421A, 451A, 452B
- 9 GEOL elective credits

#### 63 BSc Specialization in Geology (Loyola)

**Year I**
- 15 GEOL 211B, 222A, 231B, 232B, 241A
- 6 Cognate Science elective credits to be chosen from CHEM C231, C232, C211 COMP C211, MATH C241

**Year II**
- 21 GEOL 301B, 311Z, 312B, 313B, 341B, 342B
- 3 GEOL elective credits

**Year III**
- 15 GEOL 411Z, 421A, 451A, 452B
- 3 GEOL elective credits

#### 36 BSc Major in Geology (Loyola)

**Year I**
- 12 GEOL 201A, 203B, 211B, 222A

**Year II**
- 9 GEOL 241A, 311Z
- 3 GEOL elective credits

**Year III**
- 12 GEOL elective credits

#### 24 Minor in Geology (Loyola)

- 6 GEOL 201A, 203B
- 18 GEOL Elective credits

**Field Trips and Field Schools**

Lectures and laboratory work cannot successfully substitute for actual observation of geology in the field. Therefore, for all students, half or full day field trips to areas of geological interest are a normal adjunct to several courses. For students in the Honours and Specialized Programmes, geological and geophysical field schools (Geology 223B and 301B) are conducted by staff members in the two weeks following the completion of examinations in the spring. Students following the Major programmes are not required to take these field schools, but, if suitably qualified, may be granted permission to do so by the department.

**Summer Employment**

It is strongly recommended that prior to graduation at least one summer be spent in some phase of geological work. Although the Department of Geology cannot guarantee summer employment, its students can normally expect to be engaged in suitable work during the summer months with government agencies or private companies.

**Students planning to continue in the Honours in Geology or Specialization in Geology programmes will normally have taken CEGEP Geology 901 or equivalent as part of their Collegial Studies. At the discretion of the Department, students lacking such preparation for their University programme may be required to take Geology 201A or N215.**

Students intending to follow Major programmes should obtain the approval of the chairman of the appropriate Departments.

Students seeking admission to the Honours programme on or after June 1st, 1977 will be bound by the Honours requirements outlined in § 16.2.4 of this Calendar. Students who already had Honours status by June 1st, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme.

The Specialization, Major and Minor programmes in Geology offered on the Loyola and Sir George Williams campuses are essentially the same. Lists of equivalent course numbers are tabulated at the end of the Geology course descriptions. In any given year, certain Geology courses will only be available on one campus, and within the restraints imposed by adequate travel time may be taken by students from the other campus.

**NOTE:** Geology 205A, 206B, 207A, 211B and 221B may be taken by students in other disciplines who are interested in specific subjects of a geological nature. No previous background in Geology is required.
GEOLOGY 201A
Physical Geology
The nature, origin and evolution of the universe, stars and of planetary systems; the physical properties of the Earth and its environment; the materials and structures of the Earth's interior and surface, and the processes affecting these regions, such as continental drift, the formation of oceanic basins and mountain building. Lectures: 3 hours per week. (3 credits)
NOTE: Geology 201A is primarily designed to provide an introduction to Geology for students who are not Majoring in the department.

GEOLOGY 202B
Elementary History of the Earth
The hydrologic cycle and the cycle of erosion; the measurement of geologic time; the history of life on earth and the geologic evolution of North America; glaciation and the ice age; the nature and origin of mineral deposits: the geology of coal, oil and gas; the conservation of natural resources. Lectures: 3 hours per week. (3 credits)
NOTE: Geology 202B is primarily designed to provide an introduction to Geology for students who are not Majoring in the department.

GEOLOGY 203Y
Introductory Laboratory Course in Geology
Laboratory studies include investigation of rocks and mineral specimens; Interpretation of topographic maps and aerial photographs, interpretation of Geomorphic and Geologic Maps and the examination of selected fossils. Field trip to local areas. Lab: 3 hours per week. (3 credits)
NOTE: Geology 203Y is primarily designed to provide an introduction to Geology for students who are not Majoring in the department.

GEOLOGY 205A
Environmental Geology
Geology in the ecosystem. The earth's atmosphere, hydrosphere, lithosphere and biosphere in the geologic time. Long range geological effects of ecosystem pollution. Trace nutrients and health with emphasis on the geology of trace elements and its cause and effect on biological systems. Understanding of, control for, and prevention of natural hazards. Changes in the earth's climate. Role of Geology in land use. Lectures: 3 hours per week. (3 credits)

GEOLOGY 206B
Continental Drift
An introduction for non-Majors to the concept of Continental Drift. The origin and development of the theory, the nature of the earth's crust, the ocean floor, and the theory of sea floor spreading. Revolutions in the Earth Sciences as a result of widespread acceptance of the concept. Lectures: 3 hours per week. (3 credits)

GEOLOGY 207A
Geology of Resources
Rocks and Ore minerals. Present and future availability of earth resources. The nature, classification and mode of occurrence of mineral deposits. Exploration, development and rational exploitation of mineral resources. Elements of mining economics. Distribution of oil, gas, coal, and base metal deposits. Evaluation of the effects of mining operations on environment. Lectures: 3 hours per week. (3 credits)

GEOLOGY 211B
Mineralogy I
Physical and chemical properties of minerals, elements of crystal chemistry, mineral classification, silicate structure and a description of important silicate mineral groups are topics covered in lectures. In the lab, the composition, diagnostic properties and geological environments of some 150 minerals (non-silicates and silicates) are emphasized and physical and simple chemical tests are applied to the identification of these minerals. Lectures: 1.5 hours per week. Lab: 1.5 hours per week, (3 credits)

GEOLOGY 221B
Physical Oceanography
Geomeroplogy of the ocean floor with emphasis on the significance of the midoceanic ridges and trench systems. The physical and chemical characteristics and circulation of ocean waters and their causes. Tides and waves. Distribution and origin of terrigenous, biogenetic, chemogenic, volcanogenic and polynytic sediments in the major ocean basins. Conditions of oceanic sedimentation. Quantitative distribution of suspended sediments at the ocean bottom. Size composition of suspensions and bottom sediments. Economic resource potential of the oceans. Lectures: 3 hours per week. (3 credits)

GEOLOGY 222A
Invertebrate Paleontology
Prerequisite: Geology 210A or equivalent. A systematic survey of major invertebrate fossil groups with chief emphasis on morphology, classification, and geologic occurrence. Study of principles of evolutionary concepts and biostratigraphic zonation. Some selected discussion on paleoecology. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOLOGY 231B
Earth Physics
Prerequisite: Geology 210A or equivalent. This course is directed toward the general understanding of physical phenomena of the solid earth. Subjects for consideration include the following: earth's origin, age, radioactivity, magnetism, gravity field, seismology, heat flow, structure and physical state of the earth's interior, theory of sea-floor spreading, theories of mountain formation. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOLOGY 232B
Exploration Geology
Prerequisite: Geology 231B. Surveying, surface and sub-surface mapping methods, property evaluation and development, mining operation and cycles, soil geochemistry, data storage and retrieval. The second part of the course will include actual field survey using seismic, magnetic, gravity and electrical techniques. Students will be required to pay for room and board for a one-week period in the field school. Field Work: 2 weeks in May at the Concordia Field School. (3 credits)

GEOLOGY 241A
Structural Geology
Prerequisite: Geology 210A or equivalent. The recognition and origin of geologic structures. Primary structures, faults, folds and joints, principles of rock deformation. Laboratory includes a survey of methods of structural interpretation, structural experiments and field trips. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOLOGY 301B
Field Geology
Field course on: Geology 241A and 311Z. Surface and underground field mapping methods. Preparation of geological maps, sections and reports from field notes, diagrams and air photos. Special field trips to examine specific geologic problems. Students will be required to pay for room and board for a ten-day period. Field Work: 2 weeks in May at the Concordia Field School. (3 credits)
GEOL OGY 302B
Geostatistics and Computer Applications in Geology
Prerequisite: Geology 201A or equivalent. Statistical analysis and computing methods applied to geological problems. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 303B
Precambrian Geology
Prerequisite: Geology 342B. Evolution of the earth in the Precambrian era. Problems in Precambrian correlation, paleomagnetism and structural history. Emphasis on Canadian and North American Precambrian areas. One-term paper to be prepared. Lectures: 3 hours per week. Periodic Seminars. (3 credits)

GEOL OGY 311Z
Elementary Petrology
Prerequisite: Geology 211B. The identification and description of hand specimens of sedimentary, igneous and metamorphic rocks. Rock associations and methods of classifying rocks. Lectures: 3 hours per week for two terms. Lab: 3 hours per week for two terms. (6 credits)

GEOL OGY 312A
Mineralogy II
Prerequisite: Geology 211B. Point and translational symmetry, point groups, space groups, interpretation of space group tables, elements of crystal chemistry, chemistry and phase relations of important rock forming minerals. Stereographic projections of crystal data, the Universal Stage and powder diffraction in identifying minerals are subjects stressed in Labs. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 313B
Optical Mineralogy
Prerequisite: Geology 211B. Lectures deal with the theories and principles necessary for the use of the petrographic microscope. In the laboratory, observation techniques for the determination of isotropic and anisotropic minerals in thin section are emphasized. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 314B
Sedimentary Petrology
Prerequisites: Geology 311Z and 313B. The occurrence and formation of sedimentary rocks. Laboratory investigation of sedimentary rocks, including classification of sediments, identification of texture and composition, and correlation of facies. (May be taken concurrently.) Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 315A
Introduction to X-ray Crystallography
Prerequisite: Geology 211B and 312A. The nature of X-rays, diffraction, the reciprocal lattice, powder diffraactometer, powder cameras, single crystal methods. Laboratory work will stress the techniques of powder diffraclometry and X-ray crystallography. Lectures: 2 hours per week. Lab: 4 hours per week. (3 credits)

GEOL OGY 331B
Exploration Geophysics
Prerequisite: Geology 231B. An introduction to geophysical methods of prospecting and of investigating subsurface structures. The theories, uses and limitations of various magnetic, electrical, gravitational and seismic methods are explained and compared. The practical operation of the instruments is reviewed and practical field results are analyzed. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 332B
Exploration Geochemistry
Prerequisites: Geology 201A and 211B. An introduction to geochemistry including the chemical make-up of the earth's crust and mantle. Rocks and minerals and their relationship to the chemical make-up of the earth. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 341B
Photogeology
Prerequisite: Geology 241A or permission of the Department. Scope and purpose of photointerpretation, geometry of aerial photographs and basic applied photogrammetry; geological interpretation, both qualitative and quantitative, of aerial photographs from Canada and other countries, techniques used in base map preparation with and without control points; exercises in photogeological mapping using stereoscopes and plotters. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 342B
Tectonics
Prerequisite: Geology 241A. Introduction to tectonics and sedimentation. Consideration is also given to multiple deformation, structural petrology, theories of geosynclines and plate tectonics. Analysis of the tectonic analysis using geologic maps. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOL OGY 351A
Engineering Geology
Prerequisite: Geology 201A or equivalent (Geology 241A and 341B recommended). Laboratory work will be based on the student's performance in the investigation and on the written report. Specialed students may also take the course at the discretion of the Department. 6 hours per week. (6 credits)

GEOL OGY 370Z
Undergraduate Thesis
Prerequisite: Permission of the Department. Honors students in their final year are expected to show competence in isolating and examining a geological problem using techniques available within the department, working in conjunction with assigned faculty advisors. Course evaluation will be based on the student's performance in the investigation and on the written report. Specialed students may also take the course at the discretion of the Department. 6 hours per week. (6 credits)

GEOL OGY 411Z
Igneous and Metamorphic Petrology
Prerequisites: Geology 311Z and 313B. Presentation and interpretation of phase relations, mineralogy, fabrication, classifications and petrogenesis of the igneous rocks. The scope of metamorphism, the zone, grade and facies concepts of metamorphism. ACF and AKF diagrams. In the laboratory, megascopic and
microscopic techniques are used in the examination of rocks representative of the more common igneous and metamorphic varieties. Lectures: 3 hours per week. Lab: 3 hours per week. (6 credits)

GEOLOGY 412A
Mineral Physics
Prerequisites: Geology 211B, 311Z, 312A, 332B. Selected aspects of the relationship of solid state characteristics of minerals to their conditions of formation and subsequent history. In the laboratory details of crystal structure are considered and readily developed changes in solid-state conditions in minerals and metals are used to amplify the lecture material. Lectures: 2 hours per week. Lab: 4 hours per week. (3 credits)

GEOLOGY 421A
Stratigraphy
Prerequisite: Geology 201A and 222A. Introduction to historical developments of stratigraphic concepts. Role of natural dynamic processes in the evolution of stratigraphic record. Discussion on stratigraphic classification and nomenclature. Major classification of tectonic elements in sedimentary basins and broad patterns in the distribution of sedimentary rocks in relation to tectonic framework. Detailed analysis of stratigraphic principles: such as correlation (lithostratigraphic, biostratigraphic, chronostatigraphic), facies (lithofacies, biofacies), unconformities and cyclothem. Critical evaluation of stratigraphic sequences using modern and ancient examples for the recognition of aeolian, alluvial fan, fluvial, lacustrine tidal flats, barrier coastlines, carbonate shoreline, shallow marine and submarine environments. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

GEOLOGY 421A
Geomorphology
Prerequisite: Geology 201A or equivalent. Fluvial and slope processes, influence of climate, rock type and structure on the development of land forms, coastal features; aeolian processes, glacial and periglacial activity. Laboratory work emphasizes interpretation of aerial photographs and topographic maps and a field excursion to local area. Lectures: 3 hours per week. Lab: 3 hours per week. (3 credits)

31.16.2 PROGRAMMES (SIR GEORGE WILLIAMS)

(For Loyola Programmes see § 31.16.1)

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

63 BSc Specialization in Geology (Sir George Williams)

Year I
15 Geol N-2171, N-2203, N-2311, N-2453, N-2461
6 Chosen from GEOL N3704, CHEM C2118, C2312, C2322, COMP C2113, PHYS C2533, C2541, BIOL C2221

Year II
21 Geol N-2321, N-3336, N-3363, N-3493, N-3523, N-3531
3 additional credits in Geol approved by the Department

Year III
15 Geol N-3223, N-3426, N-4551, N-4563
3 GEOL elective credits

36 BSc Major in Geology (Sir George Williams)

Year I
9 Geol N-2153, N-2311, N-3231

Year II
9 Geol N-2451, N-3336

Year III
3 Geol N-2203
15 additional credits in Geol approved by the Department

45 BSc Major in Geology with a Minor in Ecology (Sir George Williams)

Year I
15 GEOI N2153, N2313, N3233, BIOL C2303, C2402

Year II
12 GEO1 N2461, N3336, BIOL C2502

Year III
3 GEO1 N2203
15 credits in Ecology in consultation with the Department of Biological Sciences

24 Minor in Geology (Sir George Williams)

6 GEOI N2153, N3233
18 GEOL elective credits
GEOLOGY N-215
Introductory Geology
An elementary study of minerals and rocks, and of the internal and external processes which shape the earth's surface. Laboratory work deals with identification of minerals, rocks and fossils, as well as interpretation of topographic and geologic maps. Field trips to Mt. Royal, Eastern Townships and Laurentians. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOLOGY N-216
General Geology Lab
Laboratory studies include investigation of rock and mineral specimens, interpretation of topographic maps and aerial photographs; interpretation of Geomorphic and Geologic Maps; and the examination of selected fossils. Field trip to local areas. (3 credits)

GEOLOGY N-217
Earth Physics
Prerequisites: CEGEP Mathematics 103.203. Geology N-215 or equivalent. This course is directed toward the general understanding of physical phenomena of the solid earth. Subjects for consideration include the following: earth's origin, age, radioactivity, magnetism, gravity field, seismology, heat flow, structure and physical state of the earth's interior, theory of seafloor spreading, theories of mountain formation. Lectures and laboratory. (3 credits)

GEOLOGY N-220
Paleontology
A study of the evolution of plants, invertebrates and vertebrates in time and space, the fossil record, preservation, identification and classification of fossils; methods and techniques. Lectures and laboratory. (3 credits)

GEOLOGY N-231
Mineralogy I
The study of the physical properties of minerals; their chemical properties, descriptive and determinative mineralogy; crystallography; various classes of symmetry. A few field trips near Montreal. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOLOGY N-232
Optical Mineralogy
Prerequisite: Geology N-231. The study of minerals under the polarizing microscope. Identification of minerals in thin sections and in oil immersion. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOLOGY N-245
Exploration Geology
Prerequisites: Geology N-215 and N-217. Two-week field school in May right after final exams. The student is introduced to surveying, and geological and geophysical mapping methods. (3 credits)

GEOLOGY N-246
Structural Geology
Prerequisite: Geology N-215 previously or concurrently. Folds and mesostructures and their qualitative and quantitative evaluation. Physical properties of rocks and their behavior. Several field trips to the Appalachian area. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOLOGY N-322 (424)
Stratigraphy
Prerequisite: Geology N-220. A thorough analysis of various stratigraphic principles will be made using examples from Canadian and American type stratigraphic models. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

GEOLOGY N-323 (425)
Historical Geology
Principles of historical geology and geochronology, evolution of major animal groups from Precambrian time to Recent including the evolution of man; geologic evolution of North America; natural resources associated with sedimentary rocks. Lectures only. (3 credits) NOTE A/See § 200.1

GEOLOGY N-326
Geochemistry
Prerequisites: Geology N-215 and N-231. An introduction to geochemistry including the chemical make-up of the solar system and the geochemistry of the atmosphere, hydrosphere, crust, mantle and core. The chemistry of igneous, sedimentary and metamorphic rocks, with some emphasis on the trace elements which characterize each. Anomalous trace element concentrations in rocks, soils and water and the application to mineral exploration geochemistry. In the laboratory the material discussed in the lectures is illustrated by geochemical calculations, trace element distribution maps and methods of geochemical analysis. Lectures and laboratory (3 credits)

GEOLOGY N-328
Geomorphology
Prerequisite: Geology N-215. Fluvial and slope processes, influence of climate, rock type and structure on the development of land forms, coastal features; aeolian processes, glacial and periglacial activity. Laboratory work emphasizes interpretation of aerial photographs and topographic maps and a field excursion to local area. Lectures and laboratory. (3 credits)

GEOLOGY N-333
Mineralogy II
Prerequisites: Geology N-215, N-232. Some emphasis on the trace elements which characterize each. Anomalous trace element concentrations in rocks, soils and water and the application to mineral exploration geochemistry. In the laboratory the material discussed in the lectures is illustrated by geochemical calculations, trace element distribution maps and methods of geochemical analysis. Lectures and laboratory. (6 credits)

GEOLOGY N-335
Sedimentary Petrology
Prerequisites: Geology N-333, N-232 (may be taken concurrently). The occurrence and formation of sedimentary rocks. Rock associations and methods of classifying rocks. Lectures and laboratory. (6 credits)

GEOLOGY N-338
Mineralogy II
Prerequisite: Geology N-231. Point and translational symmetry, point groups, space groups, interpretation of Space Group tables, elements of crystal chemistry, chemistry and phase relations of important rock forming minerals. Stereographic projections of crystal data, the Universal Stage and powder diffractometry in identifying minerals are subjects stressed in labs. Lectures and laboratory. (3 credits)

GEOLOGY N-342 (426)
Igneous and Metamorphic Petrology
Prerequisites: Geology N-215, N-232, N-333. Principles of physical chemistry applied to minerals and rocks; study of phase diagrams; the origin, formation, association, description and classification of igneous and metamorphic rocks. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

GEOLOGY N-347
Structural Analysis
Prerequisite: Geology N-246. Reading, Presentation and Interpretation of geological data.
Laboratory consists of evaluation of geological maps in plan and section, stressing the structural evolution of the areas studied. Lectures and laboratory. (3 credits) NOTE A/See § 200.4

GEOL OGY N-349 (429)
Tectonics
Prerequisites: Geology N-217, N-246. Evolution of megastuctures of the earth's orogeny; tectonic patterns and hypotheses; emplacement of plutons. Lectures only. (3 credits) NOTE A/See § 200.1

GEOL OGY N-352
Photogeology
Prerequisite: Geology N-246 or permission of the Department. Scope and purpose of photointerpretation; geometry of aerial photographs and basic applied photogrammetry; geological interpretation, both qualitative and quantitative, of aerial photographs from Canada and other countries; techniques used in base map preparation with and without control points; exercises in photogeological mapping using stereoscopes and plotters. Lectures and laboratory. (3 credits)

GEOL OGY N-353
Field Geology
Prerequisites: Geology N-333 and N-246 or permission of the Department. Two-week field school in May after the 2nd year final examination period. Working in groups of two, students will map an area in the Appalachians, prepare sections and write a geological report. Group study of important outcrops and quarries in the Eastern Townships and south of the border. Students are expected to pay a minimum amount of their room and board. No regular lecture hours. (3 credits)

GEOL OGY N-370
Analytical Methods in Geochemistry
Prerequisites: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103 and 203, or equivalent courses. Chemical equilibrium as applied to volumetric and gravimetric procedures; general theory of volumetric titrations; titration curves; application of general titration theory to neutralization precipitation; complexation oxidation-reduction and nonaqueous solvent titrations; theory of potentiometry and potentiometric titrations; theory of gravimetric analysis; methods of separation by chemical and physical means; electrometric and electrolytic separations; absorbimetric theory and absorpimetric methods of analysis. Analyses of major and minor components of geological material. Lectures and laboratory. (4 credits) NOTE A/See § 200.1

GEOL OGY N-421
Geology of Canada
Prerequisites: Geology N-215, N-322 and N-333. The study of the geography, physical features and mineral resources of the five main natural regions of Canada. A number of selected areas will be examined in detail. Lectures only. (3 credits)

GEOL OGY N-445
X-Ray Crystallography
Prerequisites: Geology N-338. The nature of X-rays, diffraction, the reciprocal lattice, powder diffractometer, powder cameras, single crystal methods. Laboratory work will stress the techniques of powder diffractometry and Precession photography. Lectures and laboratory. (3 credits)

GEOL OGY N-455
Ore Deposits
Prerequisite: Geology N-333. An introduction to geological and mineralogical features and genesis of selected types of metallic and nonmetallic ore deposits. Identification of ore minerals in hand specimen and under the microscope and an introduction to textures of ores. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOL OGY N-456
Regional Economic Geology
Prerequisite: Geology N-455. A review of the distribution of ore deposits in time and space considered in the context of their geological environment and tectonic relations. Integrated hand specimen and microscopic examination of carefully located, representative samples from important mining camps. Lectures and laboratory. (3 credits) NOTE A/See § 200.1

GEOL OGY N-461 (441)
Exploration Geophysics
Prerequisites: Geology N-215, N-231 or permission of the Department. Basic principles, primary and secondary dispersion processes and their significance in geophysical exploration; field and analytical techniques (one field excursion early in the fall term); interpretation of geophysical data; organization of exploration programmes; selected case histories. Lectures and laboratory. (3 credits)

GEOL OGY N-462
Exploration Geochemistry
Prerequisites: Geology N-215 and N-231 or permission of the Department. Basic principles, primary and secondary dispersion processes and their significance in geochemical exploration; field and analytical techniques (one field excursion early in the fall term); interpretation of geochemical data; organization of exploration programmes; selected case histories. Lectures and laboratory. (3 credits)

GEOL OGY N-464
Precambrian Geology
Prerequisite: Geology N-349 (may be taken concurrently). Evolution of the earth in the Precambrian era. Problems in Precambrian correlation and structural history. Emphasis on Canadian and North American Precambrian areas. One term paper to be prepared. Lectures (3 credits)

GEOL OGY N-466
Undergraduate Thesis
Students in their final year are expected to show competence in isolating and examining a geological problem using techniques available within the department, working in conjunction with assigned faculty advisers. Course evaluation will be based on the student's performance in the investigation and on the written report. Specialized students may take the course in consultation with the Department. (6 credits)

GEOL OGY N-475
Engineering Geology
Prerequisites: Geology N-215. (Geology N-246, N-352 recommended). Engineering properties of rocks and soils. Landslides, groundwater, frost action and permanently frozen ground. Application of geology to engineering problems -- concrete petrology, tunnels, slope control, foundations, roads, airports, dams and reservoirs. One term paper to be prepared. Lectures and laboratory. The laboratory period will include field trips, engineering geology case histories, and feasibility study of engineering geology problems. (3 credits)

GEOL OGY N-476
Mineral Physics
Prerequisites: Geology N-338, N-333 and N-462. Selected aspects of the relationship of solid state characteristics of minerals to their conditions of formation and subsequent history. In the laboratory details of crystal structure, and
considered and readily developed changes in solid-state conditions in minerals and metals are used to amplify the lecture material. Lectures and laboratory. (3 credits)

PROGRAMMES

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

66 BA Specialization in Community Nursing

Prerequisite: R.N.

Year I
18 NURS C205\(^3\), HEAL C206\(^2\), C209\(^1\), C211\(^2\), C215\(^3\)

Year II
24 NURS C301\(^3\), C307\(^3\), C320\(^4\), C323\(^3\), C324\(^4\), C325\(^3\)

Year III
24 NURS C415\(^3\), C417\(^3\), C432\(^6\), C435\(^3\), C437\(^3\), C445\(^3\), C447\(^3\)

45 Certificate in Community Nursing

Prerequisite: R.N.

45 NURS C213\(^3\), C301\(^3\), C307\(^3\), C320\(^4\), C323\(^3\), C324\(^4\), C325\(^3\), C415\(^3\), C417\(^3\), C432\(^6\), C435\(^3\), C437\(^3\), C445\(^3\), C447\(^3\)

45 Certificate in Health Education

21 HEAL C201\(^3\), C206\(^2\), C209\(^1\), C320\(^4\), C323\(^3\)

24 Elective credits in Health in consultation with the Programme Coordinator.

The Health Education Department offers three Programmes:
1. B.A. Specialization in Community Nursing
2. Certificate in Community Nursing
3. Certificate in Health Education

All three programmes may be taken on a full or part-time basis. A minimum of one course per semester is mandatory in all three programmes.

Both the Certificate in Community Nursing and the B.A. Specialization in Community Nursing are open to registered nurses only. The Certificate in Health Education is open to any student admissible to the University.

NOTE: Nursing courses, as denoted by the prefix NURS, may be pursued only by Registered Nurses enrolled in the Community Nursing programme.

Preregistration: Preregistration is mandatory for all students wishing to register in any of these programmes. Students must make early contact with the Health Education Office to make an appointment with a faculty member for counselling regarding course selection.

Admission Requirements:
1. B.A. Specialization in Community Nursing and
2. Certificate in Community Nursing
   a) A nursing diploma from an approved school of nursing
   b) An authorization to practise nursing issued by the Order of Nurses of Quebec or equivalent
   c) For any nurse who graduated in 1972 or later, a written declaration from a hospital showing at least one full year of employment as a nurse and indicating the specific nature of that employment
   d) Relevant transcripts should be submitted to the Admissions Office well in advance of registration
   e) All students must be interviewed by a faculty member of the Department before admission

3. Certificate in Health Education
   a) Admission to the University
   b) Satisfactory work experience in any aspect of community health

Grades: Candidates for either the Certificate or the B.A. Specialization in Community Nursing must obtain a minimum grade of 65% in all Nursing and Health Education courses in order to continue in the programme.

Candidates for the Health Education Certificate must maintain an overall average of 65% in order to continue in the programme.

NURSING COURSES

NURSING C205
Current Issues in Nursing

An introductory course designed to explore at the local and national level educational and professional concepts of nursing, their similarities and differences and their influence on the changing patterns in nursing. The major intent is to illustrate the relationship between the profession, the impinging pressure to change and nursing's reaction and response to this concept.

(3 credits)

NURSING C213
Basic Nutrition

The goal of this course is to provide instruction on theoretical and practical knowledge of normal nutrition. The course content includes: food habits and food ways; psychological, sociological and cultural effects on food habits; the world food crisis; hunger and its effects on people; major nutrients and their interrelationships in human nutrition. The Nutrition Canada Survey assessment of nutrition status will be discussed. Nutrition during the life span will be...
community course is designed to introduce nurses to the basic concepts of drug pharmacokinetics, as the basis for rational therapeutics. The major drug classes will be reviewed, emphasizing those drug effects that are important for the Registered Nurse in providing modern therapeutic care. Stress will be made on the importance of collaboration between professions for the better care of the patient. (3 credits)

NURSING C301
Pharmacology for Nurses
Prerequisite: NURS C301. The purpose of this course is to apply the principles of pharmacodynamics and pharmacokinetics given in NURS C301 to individual and community health problems. The course content includes identification and discussion of major drug classes: hormones, contraceptives, psychotropic drugs, alcohol, opiates, barbiturates, stimulants, hallucinogens, nicotine, antibiotics, etc. The consequences of drug use and abuse in personal, family and community life, as well as the nurse's role will be considered. (3 credits)

NURSING C307
Pharmacology: The Nurse's Role in the Community
Prerequisite: NURS C301. This course is designed to introduce nurses to the basic concepts of drug pharmacokinetics, as the basis for rational therapeutics. The major drug classes will be reviewed, emphasizing those drug effects that are important for the Registered Nurse in providing modern therapeutic care. Stress will be made on the importance of collaboration between professions for the better care of the patient. (3 credits)

NURSING C320
(Also given as Andragogy L320, BIOP C484, and Health C320)
Interviewing Techniques and Counseling Concepts
Prerequisite: HEAL C209 or equivalent. A course in which the student examines the dynamics of helping interviews, models of human effectiveness, and theories of counseling. The variety of issues to be covered include the enhancement of specific skills through different training experiences, a proper emphasis on self-understanding, an awareness of the role of philosophy, ethical standards and research. This course demands a high level of observation, participation and involvement from each student. (6 credits)

NURSING C323
(Also given as BIOP C481 and Health C323)
Teaching Strategies for the Health Professional
Prerequisites: HEAL C209 and NURS C320, or permission of the Programme Coordinator. This course is designed to meet the needs of individuals who are involved in education programmes, i.e., schools, industry, clinics, voluntary agencies, in-service programmes, etc., aimed at promotion and maintenance of health, prevention of disease, and rehabilitation. (3 credits)

NURSING C324
Pathophysiology
Prerequisite: HEAL C206. This course will study body systems and the common diseases which affect them. Normal and abnormal functioning will be compared; e.g., the circulatory system and heart disease. Stress will be laid upon control and prevention. The systems to be discussed are: digestive, excretory, endocrine, circulatory, nervous, musculatory and respiratory. (6 credits)

NURSING C325
Community Nutrition
Prerequisite: NURS C213 or equivalent. NURS C323. This course will apply basic nutrition knowledge to the problems of nutrition in the community. It will prepare students to act as facilitators of change in the food habits of their clients and assist them to practise clinical evaluation of nutrition through field work under supervision. Existing community programmes and resources to improve nutritional status will be evaluated. (3 credits)

NURSING C393
Anthropological Concepts in Nursing
This course is an introduction to anthropological concepts relevant to nursing problems and an explanation of the application of these concepts. The cross-cultural and intercultural aspects of health attitudes, illness behaviour and medical practices is of particular interest to nurses providing service to culturally diverse communities and to third-world medical aid programmes. No previous anthropology is required. (3 credits)

NURSING C394
Selected Topics in Nursing
Prerequisites: As determined by the Programme Coordinator. A student may repeat Nursing C393, provided that the content is different, by registering for credits under Nursing C394. (3 credits)

NURSING C395
Leadership and Community Change
Prerequisite: HEAL C209 and NURS C320 or equivalent. This course examines a variety of leadership styles and the effectiveness of each in producing social change. Students learn methods of determining when social change is needed and methods of planning, implementing and evaluating interventions designed to produce such changes. (3 credits)

NURSING C415
Community Nursing I: Nursing Assessment
Prerequisite: HEAL C215 and NURS C320. This course is designed to help students to learn to make comprehensive community nursing care plans. Such plans require understanding of the ethnic, cultural, physiological and socio-economic influences upon the lives of people and of the methods for collecting data with which to assess the health needs of the individuals and families comprising a community. (3 credits)

NURSING C417
Community Nursing II: Roles in Intervention
Prerequisite: NURS C323 and NURS C415. In this course students study the concerns of governments, educational institutions and health agencies with the promotion of disease and the promotion of health. They learn ways in which nurses may intervene to help individuals and families to adopt healthful lifestyle styles. (3 credits)

NURSING C431
School Health Nursing
Prerequisite: NURS C430. This course presents the health needs of school pupils and personnel. It explores the responsibilities of provincial and local Departments of Health, the school authorities and the school personnel and nurse in meeting these needs. It assists nurses to plan programmes of health services, health education and healthful school living for various levels and types of schools, to inaugurate such programmes and to coordinate the efforts of schools and community agencies to promote health and prevent illness in schools. (3 credits)
HEALTH EDUCATION

NURSING C432
Primary Care: The Nurse's Role
Prerequisite: NURS C301, C324 and C325.
This is the final course required for the degree in Community Nursing. It seeks to give students the knowledge and skills needed to apply their previous learnings to the assessment of a client's health status and his referral, when needed, to other suitable health professionals. It will concentrate on screening processes, obtaining meaningful health histories and on problems and means of making wise referrals. Students intending to practise these skills in the community may choose an experiential project in NURS C445 or C447. (6 credits)

NURSING C433
Nursing the Elderly
Prerequisite: NURS C320 and C329. This course provides a study of the physiological and psychological adjustments necessary to adapt a life style to the later years of life. It attempts to assist students to make an accurate assessment of a client's physical, social and emotional condition. Use of available health resources to maintain or restore health, and to develop guidelines for home care, health counselling, referral to other health professionals and follow-up. (3 credits)

NURSING C435
Family Structure and Health Care Delivery I
Prerequisite: NURS C417. This course is concerned with the life cycle of the family structure, the interaction between the ever-changing family relationships and the health system, and the influence of health and disease upon these relationships. (3 credits)

NURSING C436
Family Structure and Health Care Delivery II
Prerequisite: NURS C435. Building on the theoretical knowledge of NURS C435, this course emphasizes home visiting, patterns of home care, process recording, teaching families to know and use suitable community agencies. Stress is placed on knowledge of healthful life styles as a means of preventing illness. (3 credits)

NURSING C437
Occupational Health Nursing
This course will deal with the relation of doctor and nurse, employer and employee; management and the health department. Also the role of the nurse today and tomorrow in our rapidly changing society. Instruction will consist of lectures, group discussion and practical applications through field work and simulation. (3 credits)

NURSING C445
Nursing Practicum I
Prerequisite: Permission of the Programme Coordinator. In cooperation with a Tutorial Adviser, the nurse will choose a field of interest within the health care system for fieldwork. The student will have freedom to choose how quickly the practicum requirements are satisfied. There will be no final exam. Students will submit a written report at the end of the term based on the learning objectives established with the adviser at the beginning of the course. (3 credits)

NURSING C447
Nursing Practicum II
Prerequisite: NURS C445. In cooperation with a Tutorial Adviser, the nurse will choose a field of interest within the health care system for fieldwork. The student will have freedom to choose how quickly the practicum requirements are satisfied. There will be no final exam. Students will submit a written report at the end of the term based on the learning objectives established with the adviser at the beginning of the course. (3 credits)

NURSING C495
Advanced Topics in Nursing
Prerequisites: As determined by the Programme Coordinator. The theme will vary according to the special interests of the professor and the needs of the students. The course is designed to provide students with the opportunity to take advantage of the special interests and expertise of a professor and to develop this knowledge and these abilities in an area not covered in the programme. (3 credits)

NURSING C496
Advanced Topics in Nursing
Prerequisites: As determined by the Programme Coordinator. A student may repeat Nursing 496, provided that the content is different, by registering for credits under Nursing 496. (3 credits)

NURSING C497
Advanced Topics in Nursing
Prerequisites: As determined by the Programme Coordinator. The theme will vary according to the special interests of the professor and the needs of the students. The course is designed to provide students with the opportunity to take advantage of the special interests and expertise of a professor and to develop this knowledge and these abilities in an area not covered in the programme. (3 credits)

NURSING C498
Advanced Topics in Nursing
Prerequisites: As determined by the Programme Coordinator. A student may repeat Nursing 498, provided that the content is different, by registering for credits under Nursing 498. (3 credits)

HEALTH EDUCATION COURSES

HEALTH C201
Cell Functions in Health and Disease
An introductory course of cell physiology relating cell function to disease. The following topics will be covered: red blood cells and anemias, blood typing and tissue matching, bacteria and immunity, genetics and hereditary diseases, protozoa and parasitic diseases, viruses and viral infections. (3 credits)

HEALTH C206
Applied Human Physiology
Prerequisites: RN., CEGEP Biology or Biology C201, or equivalent. A course on the functions of the human body. A detailed analysis of homeostasis from a systems approach will be given. Physiological processes as applied to clinical testing will be described. (6 credits)

HEALTH C208
(Also given as BIOP C488)
Nutrition in the 70's
This course will study the influence of socio-economic and political systems on the nutritional status of the individual and the interrelationship between food habits and the cultural, social and psychological aspects of life. Topics will include diet-related problems such as obesity, heart disease, faulty eating habits, malnutrition. Food budgeting for all levels of the socio-economic structure will be examined. (6 credits)

HEALTH C209
(Also given as Andr C209)
Personal Interrelations
This course is designed to provide an orientation to the field of interpersonal relationship and human awareness, focusing particularly on re-
HEALTH C211
Clinical Epidemiology and Biostatistics I

The purpose of this course is to present the concepts and methods of epidemiology as they are applied to a variety of disease problems. Emphasis is placed on the integration of biological and statistical elements in the sequence of epidemiological reasoning that derives inferences about the etiology of disease from population data. The course will concentrate on epidemiology of infectious disease and the measurement of health status in a community. (3 credits)

HEALTH C215
Clinical Epidemiology and Biostatistics II

Prerequisite: HEALTH C211. This course is designed to follow HEALTH C211. Necessary statistical methods for conducting and analyzing epidemiological studies will be further described. Retrospective and prospective studies are defined and described. Their impact as a means of determining association between etiological factors and disease will be discussed. The advantages and disadvantages of these methods of investigations will be compared. Classical epidemiological experiments and clinical serials will be reviewed. These will be analyzed in the context of health care research. (3 credits)

HEALTH EDUCATION C251
Hunger in the Classroom: The School's Role

Review of evidence indicating existence of malnutrition in schools in Quebec. Followed by discussion of observable effects of hunger and malnutrition in the classroom. Discussion of various programs and approaches by the school administration, the school board, the teachers, nurses, etc., taken to alleviate the problem. Topics of discussion will include: Action for school lunches; Malnutrition; learning and behaviour — Nutrition education program. (3 credits)

HEALTH C261
Community Health Information

This course will investigate the formal and informal patterns in Health Education. This information will be applied to plan pertinent programs that serve society. Data collected will be used in curriculum planning exercises and programme development within formal educational settings as schools and CEGEPS, in such areas as cardiovascular disease, anti-smoking clinics, family life education. (3 credits)

HEALTH C270
School Health Services Seminar

The seminar will deal with current issues of school health, nationally and locally and their effect on our present school health programs. It will consider the interrelation of the school administrators, the family, community and health professionals in utilizing existing resources for a more efficient distribution of health care to school age children. The need for leadership, group participation and community cooperation in defining and dealing with priorities will be demonstrated through a medium of case studies and problem solving techniques. (6 credits)

HEALTH C319
(Also given as BIOP C483)
Drug Use and Abuse

The course is structured to introduce non-medical personnel to the modern concepts of drug therapeutics, and to discuss the consequences of use and abuse of drugs. The drug classifications will include steroids, antibiotics, minor and major psychotropics and the potential chronic abuse of drugs such as amphetamines and other stimulants, barbiturates and other sedatives, hallucinogens; minor tranquilizers, opiates, narcotics, alcohol and tobacco. (3 credits)

HEALTH C320
(Also given as Androgogy 320, BIOP C484, and Nursing C320)
Interviewing Techniques and Counselling Concepts

Prerequisite: Health C209 or equivalent. A course in which the student examines the dynamics of helping interviews, models of human effectiveness, and theories of counselling. The variety of issues to be covered include the enhancement of specific skills through different training experiences, a proper emphasis on self-understanding, an awareness of the role of philosophy, ethical standards and research. This course demands a high level of observation, participation and involvement from each student. (6 credits)

HEALTH C323
(Also given as BIOP C481 and NURS C323)
Teaching Strategies for the Health Professional

Prerequisites: Health C209 and NURS C320, or permission of the Programme Coordinator. This course is designed to meet the needs of individuals who are involved in education programmes, i.e., schools, industry, clinics, volunteer agencies, in-service programmes, etc., aimed at promotion and maintenance of health, prevention of disease, and rehabilitation. (3 credits)

HEALTH C331
Health Professional Role in Pre- and Post-Retirement

This course will investigate the needs, motivation, level of interest of individuals considering sex, age, education, culture, environment, socio-economic status or life experiences, it will determine the role of adequate health care, family interaction, community support, short and long term planning in dealing with the identified needs. The course will provide an opportunity for the student to investigate legal, economic and social aspects in developing programmes to represent in our present society. (3 credits)

HEALTH C397
Selected Topics in Health Education

Prerequisites: As determined by the Programme Coordinator. The theme and the method of instruction will vary according to the special interests of the professor and the needs of the students. The course is designed to provide students with the opportunity to extend their studies beyond the subjects already included in the curriculum. (3 credits)

HEALTH C398
Selected Topics in Health Education

Prerequisites: As determined by the Programme Coordinator. A student may repeat Health C397, provided that the content is different, by registering for credits under Health C398. (3 credits)

HEALTH C401
Public Health Administration

The basic objective of this course is to make the student aware of the administrative structure of the health care system in the Province of Quebec and elsewhere. Emphasis will be centered around the planning of health care programmes, health economics and various health administrative systems commonly used today. Case analysis will be used to study the solving of health administrative problems. (3 credits)
HEALTH C403
The Law and the Health Professional
This course is designed for nurses, other health professionals and administrators working in various health services. The content includes an analysis of Quebec and Canadian Law, civil and criminal liability and how it affects the health workers, the legal status of a hospital corporation and a community clinic and their interior workings. This course will also provide discussions of patients' rights, informed consent to treatment, recent Canadian court decisions on malpractice and other subjects of interest to the students. (3 credits)

HEALTH C408
Group Structure and the Role of the Community Worker
The course is developed to assist volunteers, interested citizens, street workers, and individuals with no formal health training, but working as a part of a multidisciplinary team, to identify their roles in order to play a more effective part as a community worker. Assignments will be directed toward practical applications of field work to problem-solving in a field of their choice: i.e., post-retirement, rehabilitation of drug addicts and alcoholics, single parents, etc. (6 credits)

HEALTH C410
Community Mental Health
This course will explore the historical and traditional models of mental health as they relate to the more progressive model of community mental health. The intent is to gain some knowledge of topics of concern within the community: crisis and suicide prevention, how to handle specific situations such as problems in a school, industry, home and clinical setting. The course is structured for people in the helping professions: nurses, social workers, counsellors, teachers, nutritionists, etc. (6 credits)

HEALTH C418
Current Health Issues
Prerequisite: HEAL C261. This course deals with areas selected for their epidemiological importance in the understanding of modern health problems. Implications of human ecology, pollution and environment on disease outcomes will be described. (6 credits)

HEALTH C472
Special Workshop on Human Sexuality
(Also given as BIOP C480)
The course investigates "Psychological Concepts of Human Sexuality as they influence Family Planning and Sex Education." The study will explore variations in sexual patterning, therapy and counselling, biological, anthropological and ontological perspectives of sexuality. Open to educators, guidance counsellors, nurses, social workers and psychologists. (6 credits)

PROGRAMMES
Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

60 BA Honours in History
The following courses in an approved sequence constitute Honours in History. Students intending to enter the Honours programme are advised to consult with the Department.
*6 History C2013 and C2023, or History C2186
*6 History C2033 and C2053
*6 From surveys in United States, Asian, African or Latin American History
6 History C2006
12 History electives at 300 level
6 History electives at 400 level
History C4936
6 History electives at 300 or 400 level, or related course in another department (with approval from Department of History)
6 History electives at 400 level or related courses in another department (with approval from Dept. of History)

72 BA Joint Honours in English and History (Loyola)
6 ENGL C3206
18 ENGL credits chosen from three different periods, at least two of which should be supported by parallel HIST courses
6 ENGL elective credits
6 ENGL or HIST elective credits
12 HIST credits to parallel ENGL courses
12 HIST Honours Seminars
6 HIST elective credits
6 Joint ENGL/HIST Tutorial, ENGL C4906 or HIST C4906
6 PHIL C2186
6 PHIL C485A, C4176
6 HIST elective credits at 400 level (in consultation with Departmental Honours adviser)
6 PHIL elective credits at 300 or 400 level (in consultation with Departmental Honours adviser)
*Six of these credits may be taken in Year III

72 BA Joint Honours in French and History
30 French credits:
6 Chosen from FRAN C2703, C2713, C3206, C3213, C3223
6 FRAN C2516
6 18th Century French Literature
6 19th Century French Literature
6 20th Century French Literature
30 History credits:
18 HIST C2093, C2103, C3296, C3446
12 Chosen from HIST C4316, C4326, C4336
6 Elective credits in French or History
6 HIST C4966 or FRAN C4986

66 BA Honours in Philosophy and History
Year I
6 HIST C2186
6 PHIL C2116
Year II
6 HIST C3906 or PHIL C3526 in consultation with the Philosophy or History Departments
12 Chosen from HIST C3286, C3306, C3346, C3366
6 PHIL C3606
6 Chosen from PHIL C3106, C4126
Year III
6 HIST C4936
6 Chosen from PHIL C485A, C4176
6 HIST elective credits at 400 level (in consultation with Departmental Honours adviser)
6 PHIL elective credits at 300 or 400 level (in consultation with Departmental Honours adviser)
*Six of these credits may be taken in Year III

211
66 BA Honours in Religion and History

Pattern A (Asia)
- 30 HIST C2186, C2616, C3376, C3636, C3906
- 24 RELI C2136, C3116, C3126, C3136
- 12 SOCI S2106, S4246

NOTE: With the approval of the Honours Adviser, any 6 credits at '400' level in HIST or RELI may be substituted for any specific course.

Pattern B (Europe)
- 12 HIST C2186, C3906
- 6 Chosen from RELI C2116, C2136
- 48 Chosen from HIST C3226, C3276, C3306, C3346; RELI C3273, C3283, C3303, C3616, C3626, C4436; SOCI S2106, S4246

*Students taking SOCI S210 in Honours programme must also take SOCI S424.

60 BA Specialization in History

*6 History C2013 and C2023 or History C2186
*6 History C2033 and C2053
*6 From survey courses in United States, Asian, African or Latin American history
- 6 History electives at any level
- 12 History electives at 400 level
- 18 History electives or related courses in another department (with approval from Department of History)

60 BA Specialization in English and History

- 12 ENGL credits chosen from two different periods which should be supported by parallel HIST courses
- 18 ENGL elective credits
- 12 HIST credits to parallel ENGL courses
- 18 HIST elective credits

NOTE: This programme replaces the Joint Majors programme.

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

HISTORY C200
The Nature and Practice of History

This course, open only to History students, will address itself to two types of concerns. Students will examine the nature of historical enquiry: its varieties, purposes, traditions, and its place in contemporary society. In addition, they will receive systematic introduction to the practical aspects of critical scholarship: the use of the library, methods of research, and forms of writing critical essays. (6 credits)

HISTORY C201
Introduction to European History to 1789
A survey of the history of Europe to the French Revolution with emphasis on the development of ideas and political institutions. (3 credits)

HISTORY C202
Introduction to European History, 1789-to the Present
A survey of the history of Europe from the French Revolution to the present with emphasis on the development of ideas and political institutions. (3 credits)

HISTORY C203
History of Canada, Pre-Confederation
A survey of Canadian history, from settlement of Confederation, which emphasizes readings and discussions on selected problems. (3 credits)

HISTORY C204
History of Canada, Post-Confederation
A survey of Canadian history from Confederation to the present, which emphasizes readings and discussions on selected problems. (3 credits)

HISTORY C205
History of Canada, Post-Confederation
A survey of Canadian history from Confederation to the present, which emphasizes readings and discussions on selected problems. (3 credits)

HISTORY C206
Native Peoples of Canada
This course examines the Canadian Native experience from a multi-disciplinary perspective including history, law, education, the arts, etc. Focusing on Eastern Canada and in particular, Quebec, it attempts to understand the Native experience and contemporary situation. Indigenous, Inuit and people who work with them are invited to speak on topics related to their special interest. (6 credits)

HISTORY C207
Quebec to 1867
An introduction to the social, economic and political history of Quebec prior to Confederation. (3 credits)

HISTORY C208
Quebec to 1867
A survey of Quebec history, which emphasizes readings and discussions on selected problems. (3 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY C209
Quebec to 1867
An introduction to the social, economic and political history of Quebec prior to Confederation. (3 credits)
HISTORY C210
Quebec Since Confederation
An introduction to the social, economic and political history of Quebec since 1867. (3 credits)

HISTORY C218
History of Europe in the Modern World
A survey of the history of European civilization. An attempt is made to present and analyze in an integrated way all aspects of European society and culture in its rise to a dominant world position. (6 credits)

NOTE: Students who have taken History C201 or C202 will not receive credits for this course.

HISTORY C219
(Also given as Classics C230)
The Ancient Near East I
A survey of the political, social, economic and intellectual history of the Ancient Near East from the Neolithic age to the Indo-European invasions of the early 2nd Millennium with special emphasis placed upon the problem of the emergence of civilization in Mesopotamia, Egypt and the Indus valley. Ancient sources utilized wherever possible. (3 credits)

HISTORY C221
(Also given as Classics C231)
The Ancient Near East II
A survey of the political, social, economic and intellectual history of the Ancient Near East from the Indo-European invasion of the early 2nd Millennium to the establishment of the Persian empire with special emphasis placed upon the process of diffusion of civilization throughout the Near Eastern World, the creation of Egyptian, Mesopotamian and Persian Imperialism and the development of Hebrew monotheism. Ancient sources utilized wherever possible. (3 credits)

HISTORY C223
(Also given as Classics C240)
Greek History I
A political, social, economic and cultural history of Greece from Minoan — Mycenaean times to the end of Classical Greek civilization in the 4th century B.C., with special emphasis placed upon 5th century Athens. (3 credits)

HISTORY C224
(Also given as Classics C241)
Greek History II
A political, social, economic and cultural history of the Greek World from Alexander the Great to the Roman conquest of Greece in 146 B.C. While due attention will be paid to developments within the Hellenistic Kingdoms and to the later Greek achievements in art, literature, science, philosophy and religion, the process of fusion of Hellenism with the orient — vital for the evolution of Judaism, Christianity and Islam — will be extensively explored. (3 credits)

HISTORY C225
(Also given as Classics C242)
Roman History
A political, social, economic and cultural history of Rome from the city's origins to the establishment of the Roman Empire under the Emperor Augustus. (3 credits)

HISTORY C227
(Also given as Classics C264)
An Introduction to Archaeology
Archaeology as a science: its purpose, methods, theories, and techniques. The relationship of Archaeology to Pre-History, Ancient History, Fine Arts, and Anthropology. The Neolithic Revolution and the emergence of the earliest civilizations: Mesopotamia, Egypt, India and China. The Bronze Age in Crete and in Greece. Most of the course will consist in the presentation, classification, dating, and interpretation of selected artifacts. Some work at the Montreal Museum of Fine Arts. (3 credits)

HISTORY C229
(Also given as Classics C265)
Greek and Roman Art and Archaeology
The archaeology of Greece and Rome with particular attention to painting (especially ceramics), sculpture, and architecture. The concept of "style" in archaeology and in art history and criticism. The works of Exekias and Douris, of Phidias and Praxiteles, and of Iktnos and Kratinos as representative of the "ideal" in Classical Greek Art. The Greek and Etruscan influence on Roman Art as well as the native Roman contribution. The falsifications of history and the truth that can be recovered by the archaeologist. Some work at the Montreal Museum of Fine Arts. (3 credits)

HISTORY C231
The World Since 1914
Prerequisite: History C201 and C202 or C218 or its equivalent. A discussion of the main trends of world history — political, diplomatic, socio-economic and cultural — since World War I. Special attention will be given to European developments. (6 credits)

HISTORY C251
History of the United States to 1877
Survey of American history from settlement to 1877. The course will deal with the political and economic framework of American history, and with social and cultural trends. (3 credits)

HISTORY C253
History of the United States Since 1877
Survey of American history from 1877 to the present. The course will deal with the political and economic framework of American history, and with social and cultural trends. (3 credits)

HISTORY C261
History of India
An introduction to the intellectual traditions, social structures and political institutions of South Asia, with particular attention to developments during the past two centuries. (3 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.

HISTORY C262
History of China
A survey of China's history from earliest times to the modern era. (3 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.

HISTORY C263
History of Japan
A survey of Japan's history from earliest times to the modern era. (3 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.

HISTORY C270
An Introduction to the History of North and West Africa in the 19th and 20th Centuries
This course will focus on the relationship between western imperialism and indigenous political, economic, social and religious developments from c. 1800 to c. 1960. Students will be encouraged to consider specific themes such as the development of the indigenous working class, the role of local entrepreneurs and the place of local elites in the process of change. (6 credits)
HISTORY C272
An Introduction to the History of Central, South and East Africa in the 19th and 20th Centuries
This course will focus both on the origins and development of indigenous African trade and politics and on those of the European settler societies. Emphasis will be placed on the effects of African societies of the development of the European and Afrikaner-dominated mining and agricultural economies. The theme of African political resistance will especially be stressed. (6 credits)

HISTORY C280
Historical Perspectives on Contemporary Issues
A thematic and comparative historical approach to contemporary issues. The course will cross national boundaries to consider major current problems from a variety of historical perspectives. (6 credits)

HISTORY C281
(Also given as Political Science C321)
The Middle East in World Politics
May be taken either as a History or a Political Science course. Islamic Heritage: Nationalism, Zionism, and Contemporary Problems (Arab-Israeli Conflict: U.S.A.-U.S.S.R. Power Struggle), (3 credits) NOTE: Students lacking the stated prerequisites may be admitted to the following courses with permission of the Department.

HISTORY C283
(Also given as Political Science C339)
Mid-East Political Systems
May be taken either as a History or a Political Science course. A comparative study of a selected number of Mid-East Governments (Turkey, Egypt, Libya, Syria, Iraq, Lebanon, Israel, Jordan, Saudi Arabia and Yemen). (3 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY C302
Approaches to Canadian History
Prerequisite: History C203 and C205. In this course, students will examine the many types of sources for Canadian History, including photographs, songs and advertisements, as well as more commonly used sources such as newspaper reports, diaries, and parliamentary records. Students will be encouraged to carry out research and writing in areas of personal interest using original sources. (6 credits)

HISTORY C304
Protest Movements in Canada since Confederation
Prerequisite: History C203 and C205. An examination of the social and intellectual origins of political protest in Canada since 1857. Topics will include agrarian revolt, labour organization and sectional discontent, with emphasis on such third parties as Canada First, Progressive Party, C.C.F., Social Credit, Union Nationale and Parti Quebecois. (6 credits)

HISTORY C305
The Ideologies of French Canada
Prerequisite: History C203 and History C205. A study of the ways in which francophone Canadians have seen their societies and their role in Canada. While the course will emphasize the francophones of Quebec, some time will be spent on those who live in such other parts of Canada as New Brunswick and the West. (6 credits)

HISTORY C306
The Indian in Canadian History
Prerequisite: History C203 and C205. Survey of Amerind history from 1500 to the present day. Students will be encouraged to carry on further studies in areas of special interest. (3 credits)

HISTORY C307
History of Montreal
Prerequisite: History C203 and C205. A study of the origins of the city, its role in the Empire of the St. Lawrence, and its rise to metropolitan dominance in Canada. Special emphasis on economic development and on ethnic groupings. (3 credits)

HISTORY C309
History of the Canadian North
Prerequisite: History C203 and C205. An intensive study of the advance of the northern frontier of Canada, with emphasis on the period 1840-1945. The course will stress exploration, problems of sovereignty, conflict of cultures, and economic development. (3 credits)

HISTORY C310
Politics and Economics of Canadian Development
Prerequisite: Canadian history at CEGEP or university. This course will deal with the impact of both economic and political forces upon the development of the Canadian economy from the French regime to the present. (6 credits)

HISTORY C311
British North America
Prerequisite: History C203 and History C205. An advanced study of British North America from the conquest to the early years of Confederation. The course will focus on topics and problems organized according to the regions of British North America. (6 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY C312
Canada in the 20th Century
Prerequisite: History C203 and History C205. An intensive study of the political, economic, social and cultural development of modern Canada. (6 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY C313
French Canada to 1763
Prerequisite: History C203 and C205. An intensive study of French Canada during the colonial regime. Much of the material will be in French. (6 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY C314
French Canada: 1763-1867
Prerequisite: History C203 and C205. An intensive study of French Canada from the Conquest to Confederation. Much of the material will be in French. (6 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.

HISTORY C315
Quebec: 1867 to the Present
Prerequisite: History C203 and C205. An intensive study of Quebec since Confederation. While due attention will be paid to the political history of Quebec, the purpose of the course is to provide a study of the social, economic and cultural institutions of Quebec. (6 credits) NOTE: This course may be taken for credits in the Canadian Studies Programme.
HISTORY C317
Canada Views the United States
Prerequisite: History C203 and C205. An examination of Canadian attitudes to the United States from 1776 to the present, with respect to both specific incidents and general trends. Emphasis will be placed on the discussion of primary source material. (3 credits)

HISTORY C318
Women in Western History
A review of the position and roles of women in Western history prior to the 17th Century. Beginning with the 17th Century, a more detailed discussion of these themes and close scrutiny of selected problems having to do with the roles of women in Europe, Canada and the United States during the last two centuries. Among the problems to be treated will be the history of Feminist movements, the relationship of women to the process of industrialization and the impact of the world wars of this century on the condition of women. (6 credits)

NOTE: This course may be taken for credits in the Women's Studies Programme.

HISTORY C319
A Literary History of 20th Century Canada
Prerequisite: History C203 and C205. An examination of selected Canadian authors in the 20th Century. Themes studied will include the struggle for survival, regional ethnic and religious pluralism, and the response to urbanization and industrialization. (3 credits)

HISTORY C320
History of the Roman Empire
Prerequisite: History C225 (Classics C242). History C201 and C202; or C216. A political, social, economic and cultural history of the Roman Empire from Augustus to Justinian the Great. Attention will be paid to the rise of Christianity and the continuity of Roman law and administration in both the eastern and western parts of the Late Roman Empire. (6 credits)

HISTORY C321
Continuity and Change: An Intellectual History of the Late Roman Empire
Prerequisite: One course on the ancient or medieval world. A study of the main intellectual and social forces in the late Roman Empire that contributed most significantly to the formation of European culture. Among those topics treated will be: Neo-Platonism, Gnosticism, the Greek and Roman system of education, government and private welfare policies, mystery religions, late Judaism, early Christianity, the religious policy of pagan and Christian Emperors, contemporary art and architecture. (6 credits)

HISTORY C322
History of Mediaeval Europe
Prerequisite: Second year standing. A study of the society and institutions of mediaeval Europe from the fall of Rome to the end of the 15th Century. (6 credits)

HISTORY C323
Readings in Mediaeval History
Prerequisite: Survey course or permission of the Department. This course will consist of discussion periods using translated primary source materials taken from standard collections. Outside reading will also be required. Term papers will be assigned, and mid-term tests will be given. (6 credits)

HISTORY C324
History of Byzantium, 602-1453
Prerequisite: History C321 (Classics C346). History C201 and C202; or C218. A survey of the transformation from Late Roman Empire into the Byzantine commonwealth and changes in economic and social conditions. Special attention is given to the reorganization of administrative and military structures, the relationship between Byzantium and its Balkan neighbors, the Arab conquest and the rising importance of Asia Minor. (6 credits)

HISTORY C325
Renaissance Europe
Prerequisite: History C201 and C202; or C218. Will explore the elements of transition from the Medieval to the Modern World. Particular attention will be given to the rise of humanist study and the quest for the recovery of classical learning and scholarship in Italy and its aftermath in Europe. (3 credits)

HISTORY C326
History of the Reformation
Prerequisites: History C201 and C202; or C218. A study of the religious, social and political doctrines of the age of the Reformation. Emphasis on the Medieval and Renaissance origins of Reformation ideas, and the ways in which this era has proven seminal for the development of modern Western civilization. (3 credits)

HISTORY C327
History of Early Modern Europe, 1400-1640
Prerequisite: History C201 and C202; or C218. European history in the Renaissance and Reformation periods. Special attention is given to the shift from Medieval to Renaissance civilization in Italy and to the development of early modern societies in Northern Europe. Specific analytical focus is placed on studying the nature of, and relationships between, pre-modern economic, social and cultural structures. Issues involved in the transition to modern societies on different national bases are also stressed. (6 credits)

HISTORY C328
Social and Intellectual History of Early Modern Europe
Prerequisite: History C201 and C202; or C218. A study of change and continuity in European society and culture, 1300-1650. Problems studied include feudal-capitalist relationships, the Italian Renaissance, Northern State Development, Protestant Reformation, Scientific Revolution and European Colonial expansion. Methodological issues will be emphasized. (6 credits)

HISTORY C329
The Ancien Regime, 1660-1789
Prerequisite: History C201 and C202; or C218. A historical survey of this period and a study of selected themes and problems: the cultural and political supremacy of France; the strength and weakness of absolute government as seen in the reign of Louis XIV; the resurgence of the nobility; unrest and social and economic reform; contemporary appraisals of the Ancien Regime. (6 credits)

HISTORY C330
Enlightenment and Revolution, 1640-1848
Prerequisite: History C201 and C202; or C218. European history in the age of the French Revolution, including a study of the scientific and industrial revolutions. (6 credits)

NOTE: This course may be taken for credits in the Science and Human Affairs Programme.
HISTORY C331
Social History of 17th Century Europe
Prerequisite: History C201 and C202; or C218. A study of social trends in 17th century Europe with emphasis on the elements of tradition and transition in institutions, classes, and orders. (3 credits)

HISTORY C332
Social History of 18th Century Europe
Prerequisite: History C201 and C202; or C218. A study of social trends in 18th Century Europe with emphasis on the elements of tradition and transition in institutions, classes, and orders. (3 credits)

HISTORY C333
Problems in Church and State in Modern Europe
Prerequisite: History C201 and C202; or C218. An examination of some of the important themes in Church and State relations in Europe with emphasis on Early Modern Europe. Some of the themes to be discussed are: the changing theory in Church and State relations; the growth of secularization; the development of the notion of religious tolerance; established churches and social unrest. (6 credits)

HISTORY C334
Social and Intellectual History of Modern Europe
Prerequisite: History C201 and C202; or C218. The intellectual systems arising in Europe since the 17th Century will be explored in the context of the economic and social circumstances which engendered them. This course will begin with the rise of theories of "possessive individualism" and will end with the contemporary cultural crisis. While attention will be paid to the general dynamics of culture, special attention will be devoted to the social functions of particular ideologies. (6 credits)

HISTORY C335
Europe 1848-1918
Prerequisite: History C201 and C202; or C218. A study of the internal development and external relations of the most important states of Western Europe from 1848 to 1918. (6 credits)

HISTORY C336
Europe Since 1918
Prerequisite: History C201 and C202; or C218. A study of the internal development and external relations of the Western States of Europe from 1918 to the present. (6 credits)

HISTORY C337
Europe and the Industrial Revolution: The Origins of Modern Society
Prerequisite: History C201 and C202; or C218. An examination of change and stability in the social and economic structure of Europe during the first age of industrialization, c. 1760 to c. 1900. (3 credits)

HISTORY C338
European Society and Economy in the Twentieth Century: The Crisis of Capitalism
Prerequisite: History C201 and C202; or C218. An examination of stability and change in the social and economic structure of Europe in the contemporary age. (3 credits)

HISTORY C339
19th Century Civilization Seen Through the Novel
Prerequisite: History C201 and C202; or C218. An examination of the major currents in 19th Century European history as seen in the novels of such writers as Dickens, Balzac, Stendhal, Dostoevsky, Flaubert and Zola. (3 credits)

HISTORY C340
20th Century Civilization Seen Through the Novel
Prerequisite: History C201 and C202; or C218. A study of the main themes in contemporary history as expressed in the novels of such writers as Remarque, Malraux, Hamsun, Solzhenitsyn, Pasternak, Camus and Mailer. (3 credits)

HISTORY C341
History of European Diplomacy, 1870 to the Present
Prerequisite: History C201 and C202; or C218. An intensive study of the relations among the Great Powers of Europe from the Franco-Prussian War to the present. (6 credits)

HISTORY C342
History of Britain Since 1460
Prerequisite: History C201 and C202; or C218. A survey of the political, economic and social development of modern England. Emphasis is placed on the evolution of parliamentary government in the early period, on the economic changes of the 18th and 19th centuries and on the modern growth of democracy and the social service state. (6 credits)

HISTORY C343
Social and Economic History of Britain, 1500-1900
Prerequisite: History C201 and C202; or C218. A study of the transition from a feudal to a modern industrial society. Attention will be given to the leading features of industrial, agricultural, commercial and financial change and their impact on the structure of society. (6 credits)

HISTORY C344
France Since 1815
Prerequisite: History C201 and C202; or C218. A study of French history since the defeat of Napoleon, with special emphasis on social and intellectual developments. (6 credits)

HISTORY C345
(Also Given as German C345)
Germany and Austria in Modern Times
Prerequisite: History C201 and C202; or C218. Socio-economic change and the development of nation-states in German Central Europe from the 18th Century to the present. For advance reading the student might consult H. Holborn, A History of Modern Germany. (6 credits)

HISTORY C346
History of Modern Italy
Prerequisite: History C201 and C202; or C218. Survey of the history of modern Italy. Emphasis will be placed on the Risorgimento, the crisis of liberal democracy, the rise of fascism and postwar problems. (6 credits)

HISTORY C347
History of Russia
Prerequisite: History C201 and C202; or C218. This course traces the origins of the Slavic-speaking peoples in Europe and the emergence of the Russian Empire. After a discussion of the ideology and history of Bolshevism, it studies the history of communist government in the U.S.S.R. and among the Slavic peoples. (6 credits)

NOTE: This course may be taken for credits in the Russian Studies Programme.

HISTORY C348
History of Ireland
A survey course that traces the history of Ireland from 432 to the present. Emphasis will be on the 19th and 20th Centuries. Special
peasant and other popular movements; the origins and nature of modern liberation movements; the response of reaction. (6 credits)

HISTORY C390
(Also given as Philosophy C352)
Philosophy of History
Prerequisite: Second or Third year standing in a History Programme, or permission of the Philosophy Department. An analysis of the nature of historical knowledge and explanation will be followed by a study of classical and contemporary attempts to elucidate the meaning of history. Authors discussed include Augustine, Vico, Kant, Hegel, Marx, Spengler, Popper, Toynbee. (6 credits)

HISTORY C392
History of Education
Prerequisite: Second or Third year standing. A survey of the History of Education from the Greeks to the present day. (6 credits)

HISTORY C393
Special Area Studies
Prerequisite: A 200-level course in History. This course affords an opportunity to study a special theme in history, taking advantage of the particular interests of members of the department. (6 credits)

HISTORY C394
Special Area Studies
Students who receive credit for History C394 may take it again as History C394, provided a different subject is dealt with the second time. (6 credits)

HISTORY C395
Topics in History
Prerequisite: A 200-level course in History. This course will vary according to the interests of the instructor. (3 credits)

HISTORY C396
Topics in History
Students who receive credit for History C396 may register for History C396, provided a different subject is dealt with the second time. (3 credits)

HISTORY C400
Problems in Quebec History
Prerequisite: Canadian survey at CEGEP or university and one 300-level course in history. Seminar in a selected topic in the history of Quebec. The specific content will vary from year to year. (6 credits)

HISTORY C402
Problems in Canadian Intellectual History
Prerequisite: History C203 and C205 and one 300-level course in history. A study of social and political thought, with emphasis on nationalism in both English and French Canada. (6 credits)

HISTORY C404
The City in Canadian History
Prerequisites: History 203 and C205 and one 300-level course in history. A study of urban development. For the first term, study will be devoted to world urban history. In the second term, study will concentrate on urban history in Canada. Students will have an opportunity to carry out original research in areas of interest to them. (6 credits)

HISTORY C406
Canada in the 1920's and 1930's
Prerequisite: History C203 and C205 and one 300-level course in history. The course will examine many facets of Canadian life, economic, political, social and intellectual, during the inter-war decades. Emphasis will be on individual research projects. (6 credits)

HISTORY C408
Problems in Canadian Social History
Prerequisite: History C203 and C205 and one 300-level course in history. A seminar and research course in Canadian social history. Topics to be studied will include sports, religion, morality, architecture and poverty. Classes will meet for discussion based on papers prepared by students. Students will also prepare a major paper based on original research. (6 credits)

HISTORY C411
Advanced Study in Canadian History
Prerequisite: History C203 and C205 and one 300-level course. Seminar in a selected topic in the history of Canada. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

HISTORY C420
(Also given as Classics C448)
Julius Caesar and Alexander the Great
Prerequisite: An ancient history course. A course devoted to the careers of two of the most notable and influential figures in Ancient History, seeking to discover them as they were, the worlds which they conquered, their aims and their achievements. (6 credits)

HISTORY C422
(Also given as Classics C449)
Human Beginnings: The Stone Ages

HISTORY C425
Priesthood and Politics in the Middle Ages
Prerequisite: Intermediate course in Medieval history. A study of the working out in practice, in the relations between the holders of temporal and spiritual power, of the medieval concepts of sacerdotium and immanum. (6 credits)

HISTORY C427
Tudor England
Prerequisite: History C342. A study of the political, religious and social problems of the Tudor Age (1485-1603). The seminar will consist of regular discussions and individual research papers, centered around the broad themes of the age. It is hoped that students will be able to use primary as well as secondary sources. (6 credits)

HISTORY C428
Stuart England
Prerequisite: History C342. A study of the political, social, and religious problems of the Stuart Age, with an emphasis on the era from the accession of James 1 (1603) to the Glorious Revolution of 1688-9. (6 credits)
HISTORY C431
The Enlightenment: 18th Century Intellectual History
Prerequisite: Early Modern European survey. A study of the European Enlightenment with emphasis on its development in France. The main themes in the movement will be explored, e.g., the role of intellectuals in the 18th and 19th centuries, and the impact of the Enlightenment on the social, political, and intellectual life of Europe. (6 credits)

HISTORY C432
The French Revolution and Napoleon
Prerequisite: Introductory survey course in 18th or 19th Century Europe. An examination of the socio-economic, political and religious changes in French society between 1789 and 1815. (6 credits)

HISTORY C433
The Revolutionary Tradition in 19th Century France
Prerequisite: French history, or Modern European. An analysis of the revolutions of 1848 and 1871. (6 credits)

HISTORY C434
Studies in Modern Central Europe
Prerequisite: Survey in German history. An analysis of political-economic change and political modernisation in the Habsburg and Hohenzollern States from the late 18th Century to the mid-20th Century. (6 credits)

HISTORY C435
Problems in the Socio-Economic History of Modern Europe
Prerequisite: Introductory survey course in 18th and 19th Century Europe. Selected themes in the evolution of industrial society in Europe. Social stratification, urbanization and its effects, social mobility and changing composition of elites. The course will focus mainly on England and Central Europe in the 19th and 20th Centuries. (6 credits)

HISTORY C440
Advanced Study in European History
Prerequisite: A 300-level course in History. Seminar in a selected topic in the history of Europe. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor’s guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

HISTORY C441
Advanced Study in Russian and Soviet History
Prerequisite: History C201 and C202, or C218, or C347. This course deals with specific problems in Tsarist and Soviet Russia. In the Pre-Revolutionary period attention is focussed on the emancipation of the peasantry, industrialization, and the growth of the opposition parties. In the Soviet period emphasis is placed on the problems of economic growth, the changing pattern of Soviet Marxism and the nature of Soviet foreign policy. (6 credits)

HISTORY C442
Advanced Study in American History
Prerequisite: Permission of the Department. A student repeating History C491 registers for credits under History C492 providing the subject matter is different. (6 credits)

HISTORY C443
Advanced Study in African History
Prerequisite: Permission of the Department. A student repeating History C491 registers for credits under History C492 providing the subject matter is different. (6 credits)

HISTORY C446
Advanced Study in Asian History
Prerequisite: A 300-level course in History. Seminar in a selected topic in Asian history. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor’s guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

HISTORY C447
Joint History-English Tutorial
A tutorial conceived as a interdisciplinary effort between the Departments of History and English, and designed specifically to satisfy a requirement for the History-English joint Honours programme. Tutorials may be arranged with members of the respective departments. (6 credits)

HISTORY C450
Honours Essay Tutorial
This course is open only to Honours students in history. The student will work with an individual faculty member in a particular area of history. The student will be asked to produce a sustained piece of written work to be read by his/her adviser and at least one other member of the Department. (6 credits)

HISTORY C451
Advanced Study in the History of Science
Prerequisite: Permission of the Department. Seminar in a selected topic in the History of Science. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor’s guidance. The specific content will vary from year to year depending on the instructor. (6 credits)
HISTORY C495 — (INTERDISCIPLINARY STUDIES C452)
Advanced Study in the History of Science
Prerequisite: Permission of the Department. A student repeating History C494 — (Interdisciplinary Studies C451) registers for credits under History C495 — (Interdisciplinary Studies C452), providing the subject matter is different. (6 credits)

HISTORY C496
Joint History — French Tutorial
Prerequisite: Permission of the Department. A Tutorial conceived as an interdisciplinary effort between the Departments of History and French and designed specifically to satisfy a requirement for the History — French joint Honours programme. Tutorials may be arranged with members of the respective departments. (6 credits)

HISTORY C499 — SOCIOLOGY S499
History and Sociology
Prerequisite: An introductory course in History and in Sociology and Second or Third year standing. An exploration of the relationships between historical and sociological approaches to description and analysis of social conditions and social events, paying special attention to questions of methodology and conceptualization. (6 credits)
NOTE: This course may be counted for credits in either History or Sociology. Students who have taken History-Sociology N456 may not take this course for credit.
Interdisciplinary Studies

Objective
To accept the challenge implicit in living in a world where specialization can so easily be synonymous with narrowness of vision. This narrowness can be overcome if the specialist is able to see the interconnection between all fields of endeavour. Interdisciplinary Studies attempts to integrate knowledge, providing the specialist with a perspective which his discipline alone cannot give. Our primary aim, therefore, is to work with specialists and specialization rather than to provide a substitute for them. We hope to achieve this objective through the offering of nine programmes containing courses given by the Centre as well as by various departments.

PROGRAMMES
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

31.19 ASIAN STUDIES

Coordinator:
Asoc. Prof. J. L. HILL

As Canada strengthens her relationships with the nations of Asia, she will need young men and women who have been trained in Asian Studies to provide leadership in such fields as education, foreign service, banking, international law, overseas industry and business. The Asian Studies Programme seeks to meet this need by offering an interdisciplinary course of study involving the departments of Economics, History, Political Science, Religion and Sociology-Anthropology and the Faculty of Fine Arts.

48 BA Major in Asian Studies

6 INTE C4106
6 HIST C2616, C2623
6 POLI C2364
6 Chosen from RELI C3116, C3126 or C3136
6 Chosen from ANTH C3643, C3653, C3673
18 Chosen from courses with Asian content

30 Minor in East Asian Studies

12 Chosen from HIST C2616, C2623, INTE C4106 or any other Asian Studies courses approved by the Programme Coordinator.
18 Chosen from HIST C3626, C3636, C4616, RELI C3126, WMUS C3106, POLI C2366, ANTH C3653 and C3673
NOTE: Students may take no more than 12 of these credits in a single department.

30 Minor in South Asian Studies

12 Chosen from HIST C2616, INTE C4106 or any other Asian Studies course approved by the Coordinator.
18 Chosen from HIST C3616, C4616, RELI C3116, C3136, WMUS C3106, POLI C2366, ANTH C3643, C3673
NOTE: Students may take no more than 12 of these credits in a single department.

Recreation and Leisure Studies
A. WRIGHT, Assistant Professor, Bio-Physical Education

Russian Studies
A. T. SIDOROW, Associate Professor, Modern Languages

Science and Human Affairs
F. H. KNELMAN, Professor

Individual Studies Programme:
Self-elected Specialization
Undergraduate Scholars Programme
S. MULLETT, Assistant Professor, Philosophy

Third World Studies
S. HLOPHE, Assistant Professor, Sociology

Urban Studies
A. MELAMED, Associate Professor

Women’s Studies
C. ALLEN, Associate Professor, Philosophy
31.19.2 CANADIAN STUDIES

Coordinator
Asst. Prof. S. VALASKAKIS
Assoc. Prof. R. SORFLEET

The Canadian Studies Programme seeks to give students a better understanding of the diverse origins and multi-faceted character of Canada. It provides the opportunity to obtain a liberal arts education given direction and depth by a focus on Canada. During this academic year two relatively independent programmes will be offered according to established campus traditions and needs. An integrated programme will be introduced soon.

60 BA Specialization in Canadian Studies
6 INT E C2006
6 HIST C2033 and C2053; or HIST C2093 and C2103
6 ENGL C2913, C2923
6 French Language, at a level to be determined in consultation with the French Department
6 Electives in Canadian Studies courses chosen in consultation with the Coordinator

42 BA Major in Canadian Studies (Loyola)
6 INT E C2206
6 ENGL C2906
6 French Language, at a level to be determined in consultation with the French Department
6 HIST C2033 and C2053
6 INT E C4216
12 Chosen from English, Art History, Music, French, Religion, Economics, Education, History, Political Science and Anthropology in consultation with the Coordinator
6 Electives in Canadian Studies courses chosen in consultation with the Coordinator
6 French Language, at a level to be determined in consultation with the French Department
6 INT E C4203 and C4233

31.19.3 RECREATION AND LEISURE STUDIES

Coordinator
Asst. Prof. A. WRIGHT

Recreation and leisure service is a basic social and cultural need, and is concerned with the interrelationships among people in their environment. A great deal of money is poured into recreation and leisure at all governmental levels, leading to a pressing need for people to administer and develop programmes at the necessary standards of sophistication.

This programme attempts to fulfill this need and is offered to those students interested in a career in recreation and leisure services together with those students who foresee the increasing academic enquiry into the problems derived from recreation and leisure within the work ethic.

The primary focus is on managing, programming, counselling and coordinating rather than instructing. The programme draws from the departments of Bio-Physical Education, French, Interdisciplinary Studies, Psychology, Sociology and the Faculty of Commerce and Administration.

Requirements:
Both required and elected courses within the Social Science and Applied Recreation options should be chosen in consultation with the coordinator.

Additionally it will be required that students must maintain a 65% average in all courses in the programme in order to continue into the second and third year of their studies.

Upon completion of all requirements the student will receive a BA with Specialization in Recreation and Leisure Studies (Interdisciplinary Studies).

66 BA Specialization in Recreation and Leisure

I. Recreation and Leisure Foundation
(All compulsory)
21 BIOP C2413, C3426, C4266, C4646
3 SOCI L3433
6 INT E C4306

The Social Science component (C) is strongly recommended for students choosing the Recreation Programming Component (Y).

31.19.4 RUSSIAN STUDIES

Coordinator:
Professor A.T. SIDOROW

The Russian Studies Major prepares students for professional and academic careers in Civil Service, Trade and Commerce, External Affairs, and other areas of relationship between Canada and the Soviet Union. A wide variety of courses in Russian language, politics, economics, history, philosophy and geography is taught by specialists who work closely with students in designing programmes which best fit their needs.

60 BA Honours in Russian Studies

6 Chosen from ECON C2013, C2033, C2506, HIST C2186
6 ECON C3753, C4763
18 RUSS C2106, C2506, C3006
18 HIST C2186, C3476, C4416
6 GEOG C3456
6 Chosen from RUSS C4206, C4306, C4356, C4706, C4716, ECON C3753, C4783, HIST C4416, PHIL C3343 and C3353, POLI C3333

*Geography C3456 may be taken for credits in the Honours or Major programmes only when the subject matter is relevant to Russian Studies. A student who has already taken it in a year when the subject matter was not thus relevant, registers under Geography C3466 in meeting the degree requirements. Courses with Russian content may be taken, in consultation with the Coordinator, from the following departments: Economics, Geography, History, Philosophy, Political Science, Modern Languages.

42 BA Major in Russian Studies

18 RUSS C2106, C2506, C3006
12 HIST C2186, C3476
6 GEOG C3456
6 Chosen from RUSS C4206, C4306, C4356, C4706, C4716, ECON C3753, C4783, HIST C4416, PHIL C3343 and C3353, POLI C3333

*Geography C3456 may be taken for credits in the Honours or Major programmes only when the subject matter is relevant to Russian Studies. A student who has already taken it in a year when the subject matter was not thus relevant, registers under Geography C3466 in meeting the degree requirements. Courses with Russian content may be taken, in consultation with the Coordinator, from the following departments: Economics, Geography, History, Philosophy, Political Science, Modern Languages.
31.19.5 SCIENCE AND HUMAN AFFAIRS

Coordinator
Professor F. KNELMAN

This programme is concerned with the social dimensions of science and technology. Its teaching and research provide an interdisciplinary examination of the ethical, cultural, political and environmental problems associated with scientific and technological change. Attention is also focused on analysis of the social systems of science from historical, sociological, economic and philosophical perspectives.

The programme is designed for students interested in science and technology, but who do not plan careers in scientific research or the technical professions. Rather it prepares them for constructive careers which involve a grasp of scientific methods, an understanding of scientific principles and an appreciation of the nature, content and implications of scientific research, technological innovation and industrial development. For students working toward degrees in science or engineering, the programme provides the opportunity to develop important additional perspectives and capabilities.

There are a number of streams or areas within the programme. In the History and Philosophy of Science, for example, students may concentrate so as to prepare themselves for graduate work. Another stream examines the social impact of science and technology by focusing on policy problems. Students may develop a variety of approaches for dealing with public policy in either the areas of science and technology or environment. These also are preparatory for existing graduate programmes.

31.19.6 INDIVIDUAL STUDIES

PROGRAMME

Coordinator
Asst. Prof. S. MULLETT

This programme incorporates under a single administrative structure two previously non-related programmes, namely, the Self-Elected Specialization Programme and the Undergraduate Scholars Programme. Under this new administrative structure the two programmes will maintain their present academic configuration.

Self-Elected Specialization

Requirements leading to a Bachelor of Arts with a "self-elected" Specialization in ... [title of chosen specialization] ... (Interdisciplinary Studies)

Students may apply to pursue a Self-Elected Specialization by submitting in writing a statement of the proposed programme. There is no limitation on the subject matter of the proposal. The proposal should, however, contain the following information:

1. a title of proposed area of specialization,
2. a personal statement of purpose in taking such a programme,
3. a list of ten or more courses directly related to the title and totalling 60 credits over a three-year period.

This proposal should be submitted to the Director of Interdisciplinary Studies as early as possible before registration. It will then be examined by a committee of Faculty from the general area of the student's interest. Students submitting proposals less than a month before registration may also be admitted by the Director on a holding basis but this implies no guarantee of any later acceptance of a programme.

The following guidelines should help students in constructing a valid set of courses in the area of their Specialization.

1. The title or theme of the proposed area of Specialization must be interdisciplinary, i.e., it must contain a coherent perspective that cuts across at least three traditional disciplines.
2. A student must maintain a 70% average in those courses proposed in setting up the programme. Failure to meet this requirement will prohibit the student from entering the second and third years of study.
3. The programme must include at least four courses (24 credits) falling within a single discipline — hereafter called the foundation discipline. These courses must include some of the "core" courses towards a Major in that discipline. This practice is not only sound pedagogy but has added significance in that a student failing to maintain a 70% average can then transfer to the department of the foundation discipline and still continue.

60 BA Specialization in Science and Human Affairs

12 INTE C2503, C2513, C2533, C2543
6 Chosen from INTE C3506, C3516, GEOG C2126, or Science electives approved by the Centre
18 INTE C4506, C4516, C4536
18 Chosen from INTE C4526, PHIL C2261 and C2281, C2316, C4216, RELI C4336, SOCI SI 4226, HIST C3306 or electives approved by the Centre
6 INTE C4546

NOTE: Students may be required by their adviser to take an English writing course at an appropriate level.

42 BA Major in Science and Human Affairs

12 INTE C2503, C2513, C2533, C2543
6 Chosen from INTE C3506, C3516, GEOG C2126, or Science electives approved by the Centre

towards a Major or Specialization in that field.

4. The final year the student must enrol in a tutorial for SELF-ELECTED SPECIALIZATION students. This tutorial is directed by a faculty member from a field of studies relevant to the student's programme. He/she will be chosen by the Director of the Centre for Interdisciplinary Studies in consultation with the student concerned. The tutorial Director will supervise an intensive reading programme and assist the student in the preparation of a paper. The tutorial is intended to bring together the various fields of knowledge included in the student's programme. Normally, the tutorial will carry a value of six credits.

All students will be required to take Int St C200 Introduction to the Methods of the Humanities and Social Sciences.

Requirements leading to a Bachelor of Science with a "self-elected" Specialization in [title of chosen specialization] (Interdisciplinary Studies)

1. Normal entrance requirements to Pure and Applied Science programmes.
2. Programme requirements: The same regulations as the Self-Elected Specialization BA degree.

30 credits must be in Pure Science courses and the remaining 30 credits must be Science-related courses. All courses must be approved by the Director.

Undergraduate Scholars Programme
The Undergraduate Scholars Programme is designed to meet the needs of responsible students with high academic standing whose educational goals can best be achieved through an individually tailored programme of study. Such students must register in a programme leading to the Bachelor of Arts degree with a major, specialization, or honours in an area of concentration, although the approach may be of an interdisciplinary nature.

Each programme of study is planned through consultation between the scholar and a faculty adviser from his main field of interest. As many as 54 of the 90 credits required for the degree may be taken as Undergraduate Scholars Programme credits or tutorials. This work might take the form of guided independent study, independent field or laboratory research or creative activity. Its precise nature will depend on the scholar's educational goals, interests and area of specialization.

Since this programme involves a great deal of individual attention on the part of faculty members, the number of entrants is necessarily limited. Students wishing to apply are therefore encouraged to prepare their applications as early as possible. Each student should submit a written statement of educational goals and arrange to have a collegial transcript and two letters of recommendation forwarded to:

The Coordinator
Undergraduate Scholars Programme
Room T 102,
Concordia University
1455 de Maisonneuve West
Montreal, P.Q. H3G 1M8

31.19.7 THIRD WORLD STUDIES PROGRAMME

Coordinator
Professor S. HLOPHE

The Third World Studies programme aims at encouraging and integrating interest in Asia, Africa and Latin America from an historical-developmental point of view. Courses relating to these areas are offered in the departments of History, Political Science, Sociology, Geography, Economics and the Centre for Interdisciplinary Studies at the Loyola Campus of Concordia.

Requirements:
Students enrolled in the programme will be required to take an introductory course INTE C270, together with 18 credits selected from at least two of the aforementioned departmental offerings. This selection must be done in consultation with the Coordinator.

After completion of all requirements the students will on graduation, be granted a Minor in "Third World Studies (Interdisciplinary Studies)"

24 Minor in Third World Studies
18 Credits chosen from no more than two departments: History, Political Science, Sociology, Geography, Economics or the Centre for Interdisciplinary Studies. Selection must be done in consultation with the Coordinator.

31.19.8 URBAN STUDIES PROGRAMME

Coordinator
Assoc. Prof. A. MELAMED

The Urban Studies Programme introduces the student, through such disciplines as economics, sociology, geography and political science, to the many areas of research and theory relevant to the modern city and its problems. It also provides the necessary background for later post-graduate specialization in some aspect of urban research.

72 BA Honours in Urban Studies
18 Chosen from INTE C280, C380, C480, C481
6 SOCi S210, or GEOG C211
5 ECON C201, C203, C392
3 SOCi S4413, S450

NOTE: if a student has taken in CEGEP any of the introductory courses required in the Honours programme, course substitutions from the Cognate List must be made to add up to 72 credits for the Honours programme.

*NOTE: INTE C280 will serve as a prerequisite for Urban courses in Sociology or Geography
31.19.9 WOMEN'S STUDIES PROGRAMME

Coordinator
Associate Professor C. ALLEN

This programme is designed to present a comprehensive view of Women in Society specifically in terms of their status and participation in it. Courses in the programmes (Minor and Major) include such concerns as Women in the Arts, Literature, History and selected societal institutions (e.g. the family). The aims of the programme are to introduce the student to the study of women and to offer some background for those who will work in institutions and occupations concerned with women.

**NOTE: INT E C2806 will serve as a prerequisite for Urban courses in Sociology or Geography.

Courses in Interdisciplinary Studies

INTERDISCIPLINARY STUDIES C200

Introduction to the Methods of the Humanities and Social Sciences

This course will introduce students to representative methods used in the humanities and social sciences. Methodologies suitable to each discipline will be shown through examples and projects centered upon themes with Canadian content where possible. Instruction will be shared by the professors from the disciplines concerned. Lectures: 3 hours per week for two terms (6 credits)

INTERDISCIPLINARY STUDIES C201

Aesthetics: An Interdisciplinary Approach

This course attempts to bring together a number of areas central to the cultural climate of our time, with emphasis on aesthetics, and man’s encounter with the creative arts. The
Course examines the relation of aesthetics generally (and art in particular) to the crisis in values, and to contemporary identity crisis. More specifically, artistic questions such as the meanings and functions of style, taste and criticism, the questions of form and content, subjectivity and objectivity in art; and the comparison of different artistic media, are integrated with the broader issues remarked above. The course's format is lecture and discussion with the use of slides, recordings and the films as illustrative material. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES C210
Tutorial in an Asian Language
Prerequisite: Enrolment in the Asian Studies Major or Minor programmes, or permission of the Coordinator of Asian Studies. Tutorial course in an approved Asian language with a qualified instructor approved by the Coordinator and the Department of Modern Languages. Students should understand that fees will vary with individual instructors. (6 credits)

NOTE: With the permission of the Coordinator, students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTEC211.

INTERDISCIPLINARY STUDIES C211
Tutorial in an Asian Language
Students taking INTEC210 a second time will register under INTEC211. (6 credits)

INTERDISCIPLINARY STUDIES C220
Introduction to Canadian Studies
Prerequisite: First-year standing Canadian Studies Major, or permission of the Coordinator. An introduction to some of the problems which have been explored by the humanities and social sciences in the study of Canada. The themes will vary from year to year and could cover topics such as the industrialization of Quebec, immigrant and ethnic traditions and the Americanization of Canada. (6 credits)

NOTE A/See § 200.1

INTERDISCIPLINARY STUDIES C250
Introduction to Science and Human Affairs I
The social and historical context of scientific and technological change. The reciprocal interactions of science with government, ideology, economic development, religion, literature and social theory; science and the city; science and the control of human life; science and human liberation; new definitions of scientific responsibility may be considered. (3 credits)

NOTE A/See § 200.1

INTERDISCIPLINARY STUDIES C251
Introduction to Science and Human Affairs II
A continuation of Interdisciplinary Studies C250. This course may be taken independently. (3 credits)

INTERDISCIPLINARY STUDIES C252
Contemporary Image of Science: The Physical Sciences
This course provides a general humanistic understanding of the physical sciences. The three main themes are man and the universe, the reality and unreality of mind and energy, man and the dynamic earth. (6 credits)

INTERDISCIPLINARY STUDIES C253
Environmental Issues I
The scientific, social and cultural nature of man's relationship to his environment. Emphasis will be placed on pollution, conservation, population resources and human ecology. (3 credits)

INTERDISCIPLINARY STUDIES C254
Environmental Issues II
A continuation of Interdisciplinary Studies C253. This course may be taken independently. (3 credits)

INTERDISCIPLINARY STUDIES C255
Environmental Studies
The course is designed to provide a general background to the scientific and sociological study of man's relationship to his environment. Each lecture will attempt an in-depth treatment of a specific issue and will be presented by an invited specialist in that field. The course will present an overall view of the general problems followed by a serious analysis of specific areas of concern, such as the pollution of water, air and soil, noise pollution, the oceans, energy resources and population. The presentation of material will include lectures, discussion groups, films and panel discussions. Readings on the various topics will be assigned and students will be involved in projects and term papers. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES C256
The Technological Society
The purpose of this course is to familiarize the student with the characteristics of contemporary society which specifically relate to the large-scale application of technology and to appreciate the historical uniqueness of these characteristics. The course will concentrate on four main areas:

1. What is technology? Science as technique, Organization as technique. Social planning as technique. Technology and social change.
3. Comparative Studies Technology under American Capitalism and Soviet Communism, developed countries and "Third World" nations, national commitments to technological growth, multi-national corporations.
4. Problems of Technology Technological backlash (e.g., pollution from industry). Doomsday theories, uncontrolled growth, alternative futures. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES C270
An Introduction to the Third World
While this course is designated to provide an interdisciplinary background to students enrolled in the Third World Studies Programme, it is open to all students, irrespective of faculty. Lectures: 3 hours a week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES C280
Urban Development
An introductory course in Urban Development using an interdisciplinary approach to the process of urbanization, the city as a social system, the city as an economic system and the built environment. The material will be presented by films, tapes and special readings. The films cover historic London, Ibadan and Chicago. (6 credits)
INTERDISCIPLINARY STUDIES C290
Women's Identity and Image: Historic Approaches

An interdisciplinary study of the nature of woman as understood by western society from its Greek origins to the mid-nineteenth century. Sample topics are: the Greek myths, the Bible (Eve and Mary), Greek philosophy (Plato and Aristotle), courtly love, medieval mysticism and Victorianism (Kierkegaard, Schopenhauer, Queen Victoria and Ibsen). (3 credits)

INTERDISCIPLINARY STUDIES C291
Women's Identity and Image: Recent Approaches

An interdisciplinary study of the nature of woman as understood by western society from the mid-nineteenth century to the present. Sample topics are: the effect of the Industrial Revolution on the family (Marx and Engels), the emancipation of women (John Stuart Mill, Virginia Woolf), the psychology of woman (Freud and Jung), and contemporary attitudes towards women and Women's Liberation. (3 credits)

INTERDISCIPLINARY STUDIES C300
Selected Topics in Interdisciplinary Studies

The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week either term. (3 credits each)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C301.

INTERDISCIPLINARY STUDIES C301
Selected Topics in Interdisciplinary Studies

Students taking INTE C300 a second time will register under INTE C301. (3 credits)

INTERDISCIPLINARY STUDIES C302
Lecture Series

This course provides a flexible context for study in a field of immediate or specific interest. The theme or topic discussed will vary from year to year. (3 credits)

INTERDISCIPLINARY STUDIES C320
Selected Topics in Canadian Studies

This course focuses its attention on one or more aspects of the Canadian Studies programme. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C321.

INTERDISCIPLINARY STUDIES C321
Selected Topics in Canadian Studies

Students taking INTE C320 a second time will register under INTE C321. (3 credits)

INTERDISCIPLINARY STUDIES C350
Case Histories in Experimental Science

Readings will concentrate on the original scientific texts (e.g. Harvey, Galileo, Newton, Faraday, Pasteur, Crick and Watson). In the laboratory section, students will follow the original experimental procedures which will also be examined in classroom demonstrations on film and videotape. (6 credits)

INTERDISCIPLINARY STUDIES C351
Astronomy, Cosmology and the Space Age

The nature of the universe as described in both contemporary and historical astronomical theories; cosmology and its cultural context; the nature of scientific method in astronomy; life on other worlds; the social implications of space flight. (6 credits)

INTERDISCIPLINARY STUDIES C370
Selected Topics in Third World Studies

This course focuses attention on some aspects of development and tradition in the Third World. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the content of the course in any one session. Lectures: 3 hours per week. (3 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C371.

INTERDISCIPLINARY STUDIES C371
Selected Topics in Third World Studies

Students taking INTE C370 a second time will register under INTE C371. (3 credits)

INTERDISCIPLINARY STUDIES C380
Selected Topics in Women's Studies

Urban Planning in Historical Perspective

Prerequisite: INTE 280, Geography C211 or Sociology S210. An overview of the cycle of city growth, decline, decay and resurgence from the earliest settlements to the present day. Each stage of urban transformation is related to the economic, social, political and technological forces which engendered them. The reference material would include films of older urban areas still in active use, as well as new towns and urban districts. Field trips to different sections of the Montreal region will emphasize different historic periods of development. Class assignments will focus on historic analyses of urban areas as a background to planning. (6 credits)

INTERDISCIPLINARY STUDIES C390
Selected Topics in Women's Studies

This course focuses its attention on one or more aspects of the Women's Studies programme. The theme and methodology chosen will depend upon the background and interests of the instructor. Students are advised to consult the Interdisciplinary Studies Centre before registering in order to be sure of the title of the course in any one session. Lectures: 3 hours per week. (3 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C391.

INTERDISCIPLINARY STUDIES C391
Selected Topics in Women's Studies

Students taking INTE C390 a second time will register under INTE C391. (3 credits)

INTERDISCIPLINARY STUDIES C392
Social Change: Women in Modern Society

An interdisciplinary course designed to survey some of the major theories on women's role in society. The specific discipline emphasized will vary from year to year depending upon the background of the instructor. Lectures and/or seminars: 3 hours per week for one term. (3 credits)
INTERDISCIPLINARY STUDIES C393
Social Change: Women & Modern Society II
An interdisciplinary course designed to survey some of the major theories on women's role in society. The specific discipline emphasized will vary from year to year depending upon the background of the instructor. Lectures and/or seminars. 3 hours per week second term. (3 credits)

INTERDISCIPLINARY STUDIES C400
Self-Elected Specialization Tutorial
Prerequisite: For Self-Elected Specialization students in their final year. This tutorial is directed by a faculty member from a field of studies relevant to the student's programme. He will be chosen by the Director of the Centre for Interdisciplinary Studies in consultation with the student concerned. The tutorial Director will supervise an intensive reading programme and assist the student in the preparation of a paper. The tutorial is intended to bring together the various fields of knowledge included in the student's programme. (6 credits)

INTERDISCIPLINARY STUDIES C410
Advanced Tutorial in Asian Studies I
Prerequisite: Permission of the Coordinator. A tutorial course designed for Majors and Minors in Asian Studies. The topic and tutor are decided in consultation with the Coordinator. (6 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C411.

INTERDISCIPLINARY STUDIES C411
Advanced Tutorial in Asian Studies II
Prerequisite: Permission of the Coordinator.

Students taking INTE C410 a second time will register under INTE C411.

INTERDISCIPLINARY STUDIES C420
Canadian Studies Seminar I
Prerequisite: Enrolment in Canadian Studies Programme. An interdisciplinary seminar in which professors from two of the following disciplines will discuss together some themes or problems central to Canadian life: Communication Studies, Economics, English, French, History, Political Science, Sociology, Geography, Fine Arts, Theological Studies. Lectures: 3 hours per week first term. (3 credits)

INTERDISCIPLINARY STUDIES C421
Seminar in Canadian Studies
Prerequisite: Registration in the second year of the major in Canadian Studies. This is a seminar course in Canadian Studies which involves participation by interested members of the staff as well as by students in the third year of the major in Canadian Studies. (6 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C422.

INTERDISCIPLINARY STUDIES C422
Seminar in Canadian Studies
Prerequisite: Registration in second or third year of the Major in Canadian Studies. Students taking INTE C421 a second time will register under INTE C422. (6 credits)

INTERDISCIPLINARY STUDIES C423
Canadian Studies Seminar II
Prerequisite: Enrolment in Canadian Studies Programme. Same format as Canadian Studies Seminar C420 but involving two other disciplines from the same list. Lectures: 3 hours per week second term. (3 credits)

INTERDISCIPLINARY STUDIES C430
Recreation and Leisure Studies Seminar II
Prerequisite: Enrolment in the final year of Recreation and Leisure Studies Programme. This is a third-year interdisciplinary seminar in which students can tie together all they have learned in the Recreation and Leisure Studies Programme. Additionally, students will be set on a course of study that should continue after they graduate so that they can keep up with future developments in this area. Lectures: 3 hours per week for two terms or equivalent time in independent study. (6 credits)

INTERDISCIPLINARY STUDIES C450
Advanced Study in Technology and Society
Prerequisites: INTE C250, C251, or permission of the Coordinator. The social role and impact of technology in modern society; alienation in the technological age; the critique of technology; the sources and processes of discovery; invention and innovation; methods of technological assessment and forecasting. (6 credits)

INTERDISCIPLINARY STUDIES C451
(Also given as History C494)
Advanced Study in the History of Science
Prerequisite: Permission of the Coordinator. Seminar in a selected topic in the History of Science. The emphasis will be on encouraging students to conduct historical investigation on their own under a professor's guidance. The specific content will vary from year to year depending on the instructor. (6 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C452 (HIST C495).

INTERDISCIPLINARY STUDIES C452
(Also given as History C495)
Advanced Study in the History of Science
Prerequisite: Permission of the Coordinator. Students taking INTE C451 (HIST C494) a second time will register under INTE C452 (HIST C495). (6 credits)

INTERDISCIPLINARY STUDIES C453
Science and Public Policy
Prerequisite: INTE C250, C251, one course in Political Science or permission of the Coordinator or the Department. This course will deal with the relationship between science and government. Particular emphasis is placed on such problems as the role of the scientist in political decision-making, the making of Canadian science policy, the mix of basic, applied and mission-oriented research, the relations of science and the military, the nature of technocracy and the role of science in economically developing nations. (6 credits)

INTERDISCIPLINARY STUDIES C454
Seminar in Science and Human Affairs
Prerequisite: Enrolment in Major or Specialization in Science and Human Affairs, or permission of the Coordinator. Taught by all members of staff, this seminar affords an opportunity for intensive examination of an explicitly interdisciplinary theme. (6 credits)

NOTE: With the permission of the Coordinator students may take this course twice for credits provided that a different subject is dealt with the second time and will register under INTE C455.

INTERDISCIPLINARY STUDIES C455
Seminar in Science and Human Affairs
Prerequisite: Permission of the Coordinator. Students taking INTE C454 a second time will register under INTE C455. (6 credits)
INTERDISCIPLINARY STUDIES C470
Third World Studies Seminar
Prerequisite: Open only to students in their second or third year or to post-graduate students. This seminar will deal with one or other special aspects of the Third World on a comparative basis. Lectures: 3 hours per week for two terms. (6 credits)

INTERDISCIPLINARY STUDIES C480
Applied Urban Studies
Prerequisites: Geography C211 or INT E C280. Geography C331 previously or concurrently. A study of the contemporary city with emphasis on the problems arising from urban growth. Attention will be given to the possibilities for planned development including New Towns. The material will be presented by films, tapes and special readings and there will be a discussion each week. (6 credits)

INTERDISCIPLINARY STUDIES C481
Seminar in Urban Studies I
Seminar limited to second and third year students in the Urban Studies programme. An advanced seminar on the urban phenomenon as it occurs in the Canadian context. It will explore relevant urban issues and seek the development of urban policy positions. Students will be asked to prepare and submit appropriate research policy papers. (6 credits)

INTERDISCIPLINARY STUDIES C482
Seminar in Urban Studies II
Prerequisite: INTE C481 and permission of the Coordinator. Field assignment(s) in an urban activity area of interest to the student. Seminar will provide for interchange of field experiences, evaluations, problem solving. (6 credits)

INTERDISCIPLINARY STUDIES C491
Seminar in Women's Studies I
Prerequisite: Open to all third year students. This is an interdisciplinary seminar on selected themes related to women in society, utilizing the perspectives of a number of academic disciplines. The emphasis is on independent study. Lectures: 3 hours per week. (3 credits)

INTERDISCIPLINARY STUDIES C492
Seminar in Women's Studies II
Prerequisite: Permission of the instructor. This is a continuation of the interdisciplinary seminar on selected topics related to women in society. Lectures: 3 hours per week. (3 credits)

Programmes

Students who are interested in the programme in Journalism should note that there are special admission requirements and must contact the Journalism office.

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

JOURNALISM C201
Writing and Reporting I
This course gives training in basic reporting and news writing. Students will practise writing news and will receive out-of-classroom assignments. (6 credits) NOTE A/See § 200.1

NOTE: Enrolment in writing workshops is limited to 20 students. Admission is determined by the Director of the programme following tests for competence in written English. Applicants are advised that a working knowledge of French is important.

JOURNALISM C205
History of Journalism
A history of the news media in the English-speaking world, starting with the government gazettes of seventeenth-century England and their illegal, underground competition, through the "news" papers of the eighteenth century, the rise of the yellow press, the human interest story, the penny press in the nineteenth century, down to today's corporate press. The course is designed to show that our expectations of the news media are not inherent in human nature, but are the result of historical processes that continue to evolve. (3 credits) NOTE A/See § 200.1

JOURNALISM C301
Writing and Reporting II
Prerequisite: Journalism C201. A continuing general workshop in news and features writing. (6 credits) NOTE A/See § 200.1

JOURNALISM C305
The Media in Quebec
This course studies the special characteristics of Quebec media, and focuses on the effect the media have had on the shaping of modern Quebec. It will analyse the conventional press, the pop press, radio and television. (3 credits) NOTE A/See § 200.1

JOURNALISM C401
Advanced Reporting
Prerequisite: Journalism C301. A study of advanced journalistic techniques. Through lectures, seminars and assignments, students will become familiar with specialist reporting, critical and interpretive writing and the techniques of investigative reporting. Students will be expected to produce at least one major article, or series of related articles, suitable for publication or broadcast. (6 credits)

JOURNALISM C405
Legal Issues
Prerequisite: Second-year standing in Arts and Science. This course will inform the students of those aspects of the civil codes and the criminal law of Canada that could directly affect their work as journalists — copyright, libel, slander, obscenity, etc. (3 credits) NOTE A/See § 200.1

JOURNALISM C410
Editing and Production
Prerequisite: Journalism C301. This course will introduce the students to editing and production procedures appropriate to different media. (3 credits) NOTE A/See § 200.1
Coordinator  
A. M. GALLER

Assistant Coordinator  
C. CAMPBELL

**Final Required Course**

Library C495 - Field Work and Research Project

**Library Studies Programme** offers a Major in Library Studies to those who wish to pursue a career in library work at a non-graduate level. For those interested in taking advanced studies at the Master’s level a Double Major will be necessary. (36 credits are required in Library Studies for a Major).

All new applicants must be interviewed by the Coordinator or Assistant Coordinator. Appointments may be made at the Library Studies Office, Vanier Library. All students must preregister with the Programme and obtain course approval prior to the date of registration.

Students will be expected to maintain an average of 65% throughout the Programme.

The Certificate in Library Studies is offered to meet the needs of students who may not wish to fulfill the requirements of a Bachelor of Arts degree. All courses in the Programme are 3-credit courses. Sixty (60) credits are required to complete the Certificate Programme, thirty-six (36) of which consist of Library Studies with twenty-four (24) credits of electives.

**Recommended Academic Electives**

Francais C316 - French for Library Studies  
Andragogy C317 - Personal Interrelations

Library Studies Programme offers a Major in Library Studies to those who wish to pursue a career in library work at a non-graduate level. For those interested in taking advanced studies at the Master’s level a Double Major will be necessary. (36 credits are required in Library Studies for a Major).

All new applicants must be interviewed by the Coordinator or Assistant Coordinator. Appointments may be made at the Library Studies Office, Vanier Library. All students must preregister with the Programme and obtain course approval prior to the date of registration.

Students will be expected to maintain an average of 65% throughout the Programme.

The Certificate in Library Studies is offered to meet the needs of students who may not wish to fulfill the requirements of a Bachelor of Arts degree. All courses in the Programme are 3-credit courses. Sixty (60) credits are required to complete the Certificate Programme, thirty-six (36) of which consist of Library Studies with twenty-four (24) credits of electives.

**Library C201 - Principles of Library Service**

This course, which is the prerequisite to all others in the programme, lays the groundwork for the development of sound supportive staff in libraries. The effective use of the library, its basic tools and terminology, the skills and duties required of the library technician in the library organization will be introduced as they relate to the principles of librarianship. (3 credits)
LIBRARY C202  
Organization of Library Services  
Prerequisite: Library C201. This course examines the objectives of library service in different types of libraries and outlines both internal library functions and organization, and some of the ways in which libraries cooperate. Much of the course is concerned with the introduction of the skills and sources used in researching a term paper and with the bibliographic form used in documenting research. (3 credits)

LIBRARY C303  
Information Services  
Prerequisites: Library C201 and C202. The course will examine the basic informational services given in all types of libraries relating to book and non-book materials. Standard general reference works will be studied to enable the student to work under a professional librarian in the Information Services Department of a library. (3 credits)

LIBRARY C305  
Bibliographic Searching  
Prerequisites: Library C201, C202, C303. This course will provide a broad introduction to bibliographic searching. General and subject bibliographies as well as indexes and directories will be studied to enable the student to use the library's resources effectively. Procedures relating to verifying and searching will be studied in detail as they relate to ordering, cataloging, and inter-library loans. The mechanics of literature searching in any subject field will be introduced. The main emphasis in this course will be on the study of bibliographic sources to enable the student to work in a library as a bibliographic searcher. (3 credits)

LIBRARY C320  
Cataloging and Classification I  
Prerequisites: Library C201 and C202. This course is designed to give the student a basic knowledge of book and serial cataloguing. Coverage includes: Pre-cataloguing routines, the composition of catalogue cards, and descriptive cataloguing. Weekly laboratory sessions, assignments and readings are required. A knowledge of typing is essential. (3 credits)

LIBRARY C325  
Cataloging and Classification II  
Prerequisites: Library C201, C202, and C320. This course is designed to give the student who possesses a thorough understanding of descriptive cataloguing a basic knowledge of and ability to assign classification numbers and subject headings. Sears and Library of Congress subject headings and the Dewey Decimal classification systems will be studied in depth; the Library of Congress classification system to a lesser extent. (3 credits)

LIBRARY C331  
Data Processing and Automation  
Prerequisites: Library C201 and C202. A basic introduction to the use of computers and a systems approach in solving library problems. Students will receive instruction in flowcharting and other concepts of systems design and data processing. Automated library applications, services, and networks will be considered. Tours of an automated library and a data centre will provide an insight into the practical application of library automation and the routine technical activities performed by the library staff. No previous knowledge or experience in mathematics, business administration or data processing is required. (3 credits)

LIBRARY C333  
Technical Skills — Multi-Media Operations  
Prerequisites: Library C201 and C202. This course will be largely practical in nature, giving the student an opportunity to operate audio-visual machinery. He will handle the main types of filmstrips, filmstrip recorders, video and other media software found in today's modern library. Practical assignments will allow the student to create a variety of software such as slide tape presentations, transparencies, graphics and filmstrips. (3 credits)

LIBRARY C345  
Technical Skills — Collection Control  
Prerequisites: Library C201 and C202. The course is designed to provide the student with a thorough understanding of library practices and procedures as related to the acquisition, housing, and maintenance of library collections. The student will study different types of circulation control systems and the various circulation functions including loan policies and procedures, inter-library loans, reserves, overdues, statistics, weeding, inventory control and library security. The acquisition, organization, housing, and maintenance of monographs, serials and uncatalogued collections of material will be examined. The latter includes government publications, technical reports and pamphlets. (3 credits)

LIBRARY C374  
Selected Topics in Library Studies  
Prerequisites: Permission of Coordinator. Content will depend on the theme designated by the Programme, which varies from year to year. (3 credits)

LIBRARY C375  
Selected Topics in Library Studies  
Prerequisite: Permission of Coordinator. Content will depend on the theme designated by the Programme, which varies from year to year. (3 credits)

LIBRARY C376  
Selected Topics in Library Studies  
Prerequisite: Permission of Coordinator. Content will depend on the theme designated by the Programme, which varies from year to year. (3 credits)

LIBRARY C377  
Selected Topics in Library Studies  
A student may repeat Library C374, provided that the content is different, by registering for credits under Library C375. (3 credits)

LIBRARY C407  
Research Methodology  
Prerequisites: Library C303 and C305. The aim of this course is to develop an understanding and appreciation of research methods and approaches, specific to subject disciplines, based on the consideration of general principles of research methodology and the planning of logical research strategies. The library-oriented approach insures a solid background of data from which problems can be attacked and solutions arrived at. Topics covered in logical progression include: selecting and defining the problem; planning the research programme; developing and testing hypotheses; collecting; classifying, evaluating and analyzing evidence; drawing conclusions; presenting results. Sound knowledge of general reference and bibliographic sources, and those of one academic discipline is assumed. Students will be evaluated principally on a term paper related to a research strategy and methods applied to a problem of their own choosing, and class participation. (3 credits)
LIBRARY C411
Library Service and Work with Children
Prerequisites: Library C201 and C202. To introduce the student to the major genres of children's literature. To study the methods and techniques used in the library to stimulate the child's reading interest and ability. The student will be called upon to do book talks, evaluate children's literature from the child's as well as the librarian's point of view. Role playing simulation and experience in a children's library will also be provided. (3 credits)

LIBRARY C421
Library Service and Work in Schools
Prerequisites: Library C201 and C202. The duties and responsibilities of the library assistant in the school, and those of the teacher-librarian, will be discussed including programmes for teaching the use of the library, methods of cooperating with teachers, assembling materials for instructional units, curriculum demands upon the library, and the effects of new curriculum trends in education upon the school library/resource centre. (3 credits)

LIBRARY C432
Library Service and Work in the College and University
Prerequisites: Library C201 and C202. The organization, administration and functions of academic libraries will be studied with special references to curriculum-oriented library service, together with services relating to large academic research libraries and library colleges. (3 credits)

LIBRARY C435
The Organization of Audio-Visual Collections
Prerequisites: Library C320, C325, C333. This course will study audio-visual materials and the tools and aids for their acquisition, cataloguing and maintenance. Descriptive cataloguing and classification of the various audio-visual documents, such as tapes, cassettes, filmstrips, film loops, films, kits and the processing of these materials as well as their storage and circulation will be discussed. (3 credits)

LIBRARY C441
Library Service and Work in Business and Industry
Prerequisites: Library C201, C202 and permission of the Coordinator. The role of the library in relation to business or industry will be examined. The specific skills and devices employed to provide direct information to the users will be explored. Some lectures will include role playing, simulation and group activity. On-site training and experience in a business library will also be provided. (3 credits)

LIBRARY C451
Library Service and Work in the Public Library
Prerequisites: Library C201, C202 and permission of the Coordinator. This course traces the development of the public library, particularly in Quebec. It deals with the objectives, roles and functions of public library service in contemporary society. Topics such as freedom of access to information, library bill of rights and collection and preservation of library materials will be explored. (3 credits)

LIBRARY C461
Library Service and Work with the Young Adult
Prerequisites: Library C201, C202 and permission of the Coordinator. The course will explore the major phenomena of the teenager's world, his lifestyle, problems and his responsibilities. Some of the skills needed to serve young adults in a library setting will be examined. Literature written especially for young adults, and some adult literature which is especially popular with, and suitable for, young people, will be studied. A pre-course reading list is available. (3 credits)

LIBRARY C478
Advanced Topics in Library Studies
Prerequisite: Permission of the Coordinator. This course focuses on advanced topics of interest in Library Studies. Content will depend on the theme designated by the Programme, which varies from year to year. (3 credits)

LIBRARY C479
Advanced Topics in Library Studies
A student may repeat Library C478, provided that the content is different, by registering for credits under Library C479. (3 credits)

LIBRARY C480
Advanced Topics in Library Studies
Prerequisite: Permission of the Coordinator. This course focuses on advanced topics of interest in Library Studies. Content will depend on the theme designated by the Programme, which varies from year to year. (3 credits)

LIBRARY C481
Advanced Topics in Library Studies
A student may repeat Library C480, provided that the content is different, by registering for credits under Library C481. (3 credits)

LIBRARY C495
Field Work and Research Project
Prerequisite: Permission of the Coordinator. Upon completion of all required Library Studies courses the student will be placed in a library system related to the elective courses of study. Seventy (70) working hours will be required in one block under the supervision of a professional librarian. In addition, students are required to do independent research on a topic of relevance to library studies. (3 credits)
**31.22 Mathematics**

**Chairman:**
H. PROFFE, Associate Professor

**Professors:**
F. W. BEDFORD
V. BYERS
N. E. SMITH
M. E. SZABO
D. WHEELER

**PROGRAMMES**

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

---

**66 BA or BSc Honours in Mathematics**

6 MATH chosen with prior departmental approval.

**60 BA or BSc Specialization in Mathematics**

12 MATH chosen with prior departmental approval from MATH C322P, C373P, C392P, C461P, C466P, C491P

6 MATH chosen with prior departmental approval.

**36 BA or BSc Major in Mathematics**

6 MATH chosen with prior departmental approval from MATH C322P, C363P, C373P, C382P, C392P, C394P

---

**66 BA or BSc Honours in Statistics**

6 MATH chosen with prior departmental approval from MATH C342P, C343P, C347P, C353P, C451P

**60 BA or BSc Specialization in Statistics**

6 MATH chosen with prior departmental approval.

**36 BA or BSc Major in Statistics**

6 MATH chosen with prior departmental approval from MATH C342P, C343P, C345P, C347P, C351P, C353P

**66 BA or BSc Honours in Applied Mathematics**

12 MATH or cognate disciplines chosen with prior departmental approval
MATHEMATICS

60 BA or BSc Specialization in Applied Mathematics
48 MATH C2313, C2416, C2616, C2713, C2816, C3113, C3316, C3623, C3633, C3733, C4316
12 MATH or cognate disciplines chosen with prior departmental approval

36 BA or BSc Major in Applied Mathematics
30 MATH C2313, C2416, C2616, C2713, C2816, C3113, C3123, C3316, C3323, C3733, C4316, C4323

24 Minor in Mathematics
24 MATH C2313, C2416, C2616, C2713, C2816

24 Minor in Statistics
24 MATH C2313, C2416, C2816, C3433, C3446

24 Minor in Mathematics for Students in BA Programmes
24 MATH credits approved by the Department of Mathematics. At least 12 credits must be at the level of MATH C231 or above.

NOTE: Students in BA programmes are also eligible for a regular Minor in Mathematics or Statistics provided they have the necessary prerequisites.

A student wishing to follow a Mathematics Programme but not meeting the entrance requirements should consult with the Department.

By careful choice of electives, students can select whether the emphasis of the programme will be in the area of Pure Mathematics, Applied Mathematics or Statistics.

Students seeking admission to the Honours programme on or after June 1st, 1977 will be bound by the Honours requirements outlined in § 16.6.00 of this Calendar. Students who already had Honours status by June 1st, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme.

Certificate in Mathematics For Teachers (Elementary School Level)

Programme Director
Asst. Prof. M. A. BOSWALL

Admission Requirements

Admission to this programme is open to teachers who already hold either a general elementary licence or an elementary special education licence.

The Department of Mathematics offers a Certificate in Mathematics for Teachers (Elementary School Level) for the professional development of teachers interested in mathematics. This programme was designed in accordance with the programme-cadre for Elementary Mathematics issued by the General Directorate of Elementary and Secondary Education and approved for "perfectionnement" by the Higher Education Branch of the Department of Education on February 15, 1974.

Practising teachers are offered the opportunity to improve their knowledge of mathematics in order to help them teach mathematics more effectively. The presentation will generally be in workshop form with emphasis on assignments which develop activities for classroom use. Courses will be offered on and off campus during the Winter and Summer months subject to demand and the availability of instructors.

30 Certificate in Mathematics for Teachers (Elementary School Level)
6 MATH C3056
24 Chosen from MATH C3006, C3016, C3026, C3036, C3046, C3073, C3093

NOTE: In some cases where students have completed similar mathematical courses in previous studies, the Mathematics Department may allow pro tanto credits up to a maximum of 12 credits.

Certificate in Mathematics For Teachers (Junior Secondary School Level)

Programme Director
Assoc. Prof. M. A. BRIAN

Admission Requirements

Admission to this programme is open to teachers who already hold a teaching licence at the secondary level. This licence may be a generalist licence or a mathematics specialist licence.

The Department of Mathematics offers a Certificate in Mathematics for teachers who teach mathematics at the junior high school level. Some of the courses offered have been specially designed to deal with new subject matter which is being introduced into the secondary school curriculum, as well as with aspects of mathematical pedagogy necessary for the teaching of this material. This programme was approved for perfectionnement on February 14, 1974, by the Higher Education Branch of the Department of Education.

30 Certificate in Mathematics for Teachers (Junior Secondary School Level)
3 MATH C4003
27 Chosen from MATH C4016, C4023, C4033, C4046, C4053, C4063, C4076, C4083, C409, C4103

NOTE: In some cases where students have completed similar mathematical courses in previous studies, the Mathematics Department may modify a student's programmes to meet his professional requirements. It may grant pro tanto credits up to a maximum of 12 credits.
Because of the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

**MATHEMATICS C200**  
Fundamental Concepts of Algebra  
This course is designed to give the student the background necessary for Mathematics C201. Some previous exposure to algebra is assumed. Sets, algebraic techniques, inequalities, graphs of equations. (3 credits)  
NOTE: Students who have credit for Mathematics C201 or equivalent may not take this course for credits.  
Science students may not take this course for Science credits.

**MATHEMATICS C201**  
Elementary Functions  
Sets, inequalities, graphs of functions and relations, Trigonometric, exponential and logarithmic functions. Lectures and laboratory. (3 credits)  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C202**  
College Algebra  
Prerequisite: Mathematics C201 previously or concurrently. Sequences, permutations, combinations. Binomial Theorem. Complex numbers, polynomials, rational functions. Systems of equations and determinants. (3 credits)  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C203**  
Differential and Integral Calculus I  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C204**  
Vector Analysis and Analytical Geometry  
Prerequisite: Mathematics C202 or equivalent. General second degree equations; rotation of axes. Inner and cross products of vectors. Algebraic and vector equations of curves in the plane and in space. Elementary study of surfaces in space. Curves and surfaces in parametric form. Polar, spherical and cylindrical coordinates. (3 credits)  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C205**  
Differential and Integral Calculus II  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C206**  
Introduction to Linear Algebra  
NOTE: Students with credit for Mathematics C201 or equivalent may not take this course for credits.  
Science students may not take this course for Science credits.

**MATHEMATICS C207**  
Statistics for the Social Sciences  
Prerequisite: Mathematics C201 or equivalent or permission of the Department of Mathematics or Economics. Elementary probability, permutations and combinations, binomial and normal distribution. Analysis and organization of statistical data. Tests of hypotheses. Confidence limits. Introduction into linear regression and correlation. Lectures and laboratory. (3 credits)  
NOTE: Students with credit for Mathematics C241 or equivalent may not take this course for credits.  
Science students may not take this course for Science credits.  
This course may be taken for credits in the Urban Studies Programme.

**MATHEMATICS C208**  
Fundamental Mathematics I  
Prerequisite: Mathematics C201 or equivalent. This course is intended primarily for pre-Commerce students. Progressions, compound interest, annuities, permutations, combinations and binomial theorem. Systems of linear equations, inequalities, linear programming, matrices. (3 credits)  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C209**  
Fundamental Mathematics II  
Prerequisite: Mathematics C201 or equivalent. This course is intended primarily for pre-Commerce students. Limits, differentiation of rational, exponential and logarithmic functions, theory of maxima and minima, integration. (3 credits)  
NOTE: Science students may not take this course for Science credits.

**MATHEMATICS C210**  
Mathematics for the Biological Sciences I  
Prerequisite: CEGEP Mathematics 103 or equivalent. Discrete probability, probability distributions, difference equations, differential equations, transients, steady state solutions, system concept, block diagrams, linear programming, game theory, Markov chains, applications to ecology, population models, physiology. (3 credits)  

**MATHEMATICS C215**  
Ideas in Mathematics I  
A course for non-Science students. The course endeavours to reveal the extent and power of mathematics and to give some insight into its historical development. The topics chosen will be presented in a way that requires a minimal mathematics background. This course has no formal prerequisites and does not serve as a prerequisite for any other course in Mathematics. Students should consult with the Department before registering for this course. (3 credits)

**MATHEMATICS C216**  
Ideas in Mathematics II  
A course for non-Science students. The course objectives are identical to Mathematics C215 but different topics are covered. This course has no formal prerequisites and does...
not serve as a prerequisite for any other course in Mathematics. Students should consult with the Department before registering for this course. (3 credits)

MATHEMATICS C220 Mathematical Methods in Chemistry

MATHEMATICS C225 Mathematics of Investment
Prerequisite: Mathematics C202 and C201 or their equivalents, or Functions. Theory of interest, annuities certain, amortization and sinking funds, evaluation of bonds and other investments, depreciation, depletion and capital cost. Brief introduction to life insurance. (3 credits)

MATHEMATICS C231 Introduction to Applied Mathematics
Prerequisite: Mathematics C281 previously or concurrently. Introduction to the theory of optimization, linear programming, the Simplex Method. Deterministic and stochastic models for growth processes. Introduction to graphs and networks. Applications. (3 credits)

NOTE: Only 3 credits will be awarded from Mathematics C231, Quantitative Methods C313, Engineering C412.

MATHEMATICS C241 Introduction to Statistics
Prerequisites: CEGEP Mathematics 203 or equivalent. Fundamental concepts of probability, probability distribution, sample statistics, estimation of parameters, test of hypotheses, regression and correlation. (6 credits)

MATHEMATICS C261 Advanced Calculus
Prerequisite: CEGEP Mathematics 105, 203 or equivalent. Functions of several variables, partial derivatives, maxima and minima, vector functions, multiple integrals, line and surface integral and related topics. (6 credits)

MATHEMATICS C271 Differential Equations I
Prerequisite: CEGEP Mathematics 105, 203 or equivalent. Separation of variables, exact equations, integrating factors, force fields, first order linear equations, input-output concept, second order equations, reduction of order, variation of parameters, nth order linear equations with constant coefficients, Laplace transforms, block diagrams and signal flow graphs. (3 credits)

MATHEMATICS C281 Linear Algebra I
Prerequisite: CEGEP Mathematics 105 or permission of the Department. The theory of matrices as related to the solution of linear equations, matrices as an algebraic system, orthogonality and application to linear differential equations, linear inequalities and maximization problems. (6 credits)

MATHEMATICS C290 Algebraic Systems (Introduction)
Prerequisite: Collegial pre-Science Mathematics profile or equivalent. Sets, functions, binary operations, equations and number systems, polynomial functions, divisibility, definitions and examples of groups and subgroups, fields. (3 credits)

MATHEMATICS C300 Mathematics for Elementary School Teachers I
This course and the following course (C301) are designed to cover the main mathematical topics in the programme-cadre for elementary schools. In both courses the study of the mathematical content will be linked to thorough consideration of classroom applications. A project will be included among the assignments in both courses. In both courses the mathematical language of sets, relations, functions and operations will be applied where appropriate, and various modes of graphical representation used.

The extension of the number system to fractions, decimals and signed numbers. Equalities and inequalities, bases of numeration, introduction to the study of symmetry and geometric transformations. (6 credits)

NOTE: This course is available only to practicing teachers.

MATHEMATICS C301 Transformation Geometry
Prerequisite: Mathematics C300. A more advanced study of symmetry and geometric transformations, applications in 2 and 3 dimensions, an overview of a K-6 programme of geometry. (6 credits)

NOTE: This course is available only to practicing teachers.

MATHEMATICS C302 Measurement
Prerequisite: Mathematics C300. A more advanced study of measures and measurement, descriptive statistics and elementary notions of probability, an overview of a K-6 programme of measurement. (6 credits)

NOTE: This course is available only to practicing teachers.

MATHEMATICS C303 Advanced Topics in Elementary Mathematics
Prerequisite: Permission of the Department. Topics will be scheduled to meet more advanced mathematical needs of students especially in the light of potential developments in the elementary school curriculum. (6 credits)

NOTE: This course is available only to practicing teachers.

MATHEMATICS C305 Psychology of Mathematics Education
Prerequisite: Any three chosen from Mathematics C300, C301, C302, C303, C304 or permission of the Department. The content of the course will be selected from those areas of psychological theory and research which have implications for the teaching of mathematics. It will normally include: psychological theories of cognition, studies of mathematical learning in
children, motivation, applications of research to the classroom. (6 credits)

NOTE: This course is available only to practicing teachers.

MATHEMATICS C307
Selected Topics in Mathematics I
Prerequisite: Permission of the Department.
Topics will be chosen to take advantage of competencies and interests of the instructor as well as of the students. (3 credits)
NOTE: This course is available only to practicing teachers.

MATHEMATICS C309
Selected Topics in Mathematics II
Prerequisite: Permission of the Department.
Topics will be chosen to take advantage of competencies and interests of the instructor as well as of the student. (3 credits)
NOTE: This course is available only to practicing teachers.

MATHEMATICS C310
Mathematics for the Biological Sciences II
Prerequisite: Mathematics C210 or equivalent.
Continuous probability, stochastic processes, population models, systems of linear difference and differential equations, Laplace transforms, signal-flow graphs, systems trajectories, stability, applications to ecology and biology. (3 credits)

MATHEMATICS C311
Numerical Analysis
Prerequisite: College pre-Science mathematics profile or equivalent. Introduction to computers and Fortran, solutions of equations, curve fitting, numerical differentiation and integration, matrix computation, errors. Lectures and laboratory. (3 credits)

MATHEMATICS C312
Numerical Linear Algebra
Prerequisite: Mathematics C281 or equivalent. Linear systems, matrix inversion, relaxation methods, methods of least squares, G-inverses, canonical forms, determination of characteristic values, applications. (3 credits)

MATHEMATICS C322
Mathematical Logic
Prerequisite: 18 credits in post-Collegiate Mathematics. This course deals with the mathematical ideas and techniques required to state and prove one of the most spectacular theorems of modern mathematics: Godel's incompleteness theorem establishing the non-algorithmic nature of Arithmetic and hence of most of higher mathematics. The subject involves the study of formal languages and recursive functions and is suitable for students interested in computer science. (3 credits)

MATHEMATICS C325
Actuarial Mathematics
Prerequisite: Mathematics C225. The measure of mortality. Life annuities, life insurance, net annual premiums, net level premium reserves. The expense factor, special topics. Population theory. (6 credits)

MATHEMATICS C331
Deterministic Methods of Operations Research
Prerequisite: Mathematics C231. Linear programming, simplex method, revised simplex, duality, dual simplex, method, convex set, convex functions, post optimal analysis, transportation problem, networks. Lagrange multipliers, Kuhn-Tucker conditions, search methods, quadratic programming, gradient techniques. (6 credits)

MATHEMATICS C332
Introduction to Game Theory

MATHEMATICS C342
Quality Control and Industrial Statistics
Prerequisite: Mathematics C241 or equivalent. Concepts of statistical control; X, R, P and C charts; acceptance sampling inspection, continuous sampling plans, reliability and life tests. (3 credits)

MATHEMATICS C343
Sample Surveys
Prerequisite: Mathematics C241 or equivalent. Simple random sampling, stratified random sampling, systematic sampling, multi-stage sampling, regression and ratio estimates, non-sampling errors. (3 credits)

MATHEMATICS C344
Regression and Analysis of Variance
Prerequisite: Mathematics C241, C281. Simple, multiple and polynomial regression, analysis of variance and covariance, multiple comparison, computer packages. (6 credits)

MATHEMATICS C345
Mathematical Statistics
Prerequisite: Mathematics C241, C281. Probability, random variable in one or more dimensions, point distributions and transformations, order statistics, sequential hypothesis testing, Bayesian methods, computer simulation of random variables. (6 credits)

MATHEMATICS C347
Non-Parametric Statistical Methods
Prerequisite: Mathematics C241. Chi-square and Kolmogorov-Smirnov Goodness-of-Fit tests, the sign, rank and Mann-Whitney Wilcoxon tests for one and two samples, Kruskal-Wallis tests for k-samples, rank correlation and Kendall's Tau statistics, computer packages. (3 credits)

MATHEMATICS C351
Concepts of Probability
Prerequisite: Mathematics C241. Axiomatic approach to probability, combinatorial probability, discrete and continuous random variables, geometric probability, expectation, conditional probability and conditional expectations, introduction to Markov chains and the Poisson process. (3 credits)

MATHEMATICS C353
Stochastic Processes and Applications
Prerequisite: Mathematics C351. Continuous time stochastic processes. Poisson processes, continuous time Markov processes, queueing models, birth and death processes, renewal theory and reliability of systems. (3 credits)

MATHEMATICS C362
Introduction to Analysis I
Prerequisite: Mathematics C261 and C281. Real number system, cardinality, least upper bounds, limits, sequences, series, properties of continuous functions. (3 credits)

MATHEMATICS C363
Introduction to Analysis II
Prerequisite: Mathematics C362. Riemann integration, fundamental theorem of calculus, sequences and series of functions, uniform convergence, functions of bounded variation; Riemann-Stieltjes integration. (3 credits)
MATHMATICS

MATHMATICS C366
Complex Analysis I
Prerequisite: Mathematics C261. Algebra and geometry of complex numbers, linear transformations, analytic functions. Laurent's series, calculus of residues, special functions. (3 credits)

MATHMATICS C371
Differential Equations II

MATHMATICS C373
Qualitative Theory of Differential Equations

MATHMATICS C381
Linear Algebra II
Prerequisite: Mathematics C281. Matrices, linear transformations, determinants, metric concepts, inner product spaces, dual spaces, spectral theorem, bilinear and quadratic forms, canonical forms for linear transformations, matrix functions, selected topics. (3 credits)

MATHMATICS C382
Geometry
Prerequisite: Mathematics C261, C281. An introduction to a number of geometrics both from the historical point of view and in terms of groups of transformations. Particular topics may include Euclidean, projective or hyperbolic geometry. (3 credits)

MATHMATICS C392
Elementary Number Theory
Prerequisite: 18 credits in post-Collegial Mathematics. Number systems, division and factorization, number-theoretic functions, congruences, algebraic congruences and primitive roots, quadratic residues, diophantine equations. (3 credits)

MATHMATICS C393
Algebraic Systems I
Prerequisite: Mathematics C290 or permission of the Department. Introduction to algebraic systems: groups, rings, fields, homomorphisms. (3 credits)

MATHMATICS C394
Algebraic Systems II
Prerequisite: Mathematics C393 or equivalent. Normal subgroups, quotient groups isomorphism theorems, polynomial rings, principal ideal rings, elementary field theory. (3 credits)

MATHMATICS C395
Selected Topics in Mathematics
Prerequisite: Permission of the Department. (3 credits)

MATHMATICS C397
History of Mathematics
Prerequisite: Mathematics C261, C281 or permission of the Department. Early mathematics, Greek mathematics, European mathematics in the Middle Ages, the origin and development of analytic geometry and calculus. Mathematics as free creation, the generality of mathematics in the 20th Century. (3 credits)

MATHMATICS C400
Seminar on the Teaching of Mathematics
Prerequisite: Permission of the Department. This course is conducted in the form of a workshop and examines alternative methods of presentation of mathematical ideas at the secondary school level. It studies relevant aspects of the psychological development of the adolescent in the context of existing mathematics curricula. (3 credits)

NOTE: This course should be taken at the end of the programme. This course is available only to practising teachers.

MATHMATICS C401
Functions
Prerequisite: Permission of the Department. This course examines the topics in a traditional functions course: the concept of a function and its inverse, linear and quadratic functions, rational functions, exponential, logarithmic and trigonometric functions. Graphing is stressed. All historical overview is given. Methods of teaching these topics and of preparing secondary school students for a functions course are discussed. (6 credits)

MATHMATICS C402
Algebra I
Prerequisite: Mathematics C401 or equivalent previously or concurrently. Natural numbers, integers and their properties. Sequences and progressions. Mathematical induction. Logic. Real numbers, complex numbers, Polynomials. (3 credits)

MATHMATICS C403
Calculus I

MATHMATICS C400
Seminar on the Teaching of Mathematics
Prerequisite: Permission of the Department. Certain fundamentals of the methods of Cartesian, vector and transformation geometry. Applications of these methods to topics presented as informal geometry in grades 7 - 10. Activity oriented. (6 credits)

NOTE: This course is available only to practising teachers.

MATHMATICS C404
Geometry for Teachers
Prerequisite: Permission of the Department. Certain fundamentals of the methods of Cartesian, vector and transformation geometry. Applications of these methods to topics presented as informal geometry in grades 7 - 10. Activity oriented. (6 credits)

NOTE: This course is available only to practising teachers.

MATHMATICS C405
Calculus II
Prerequisite: Mathematics C403. Differentiation and integration of trigonometric functions. Derivatives of inverse trigonometric functions, logarithmic functions and exponential functions. Methods of integration by parts, by substitution, by separation into partial fractions, improper integrals, L'Hopital's Rule. Series: Convergence tests, Maclaurin and Taylor Theorems. (3 credits)

NOTE: This course is available only to practising teachers.
MATHMATICS C406
Algebra II
Prerequisite: Mathematics C401 or equivalent. Systems of equations, determinants, Cramer's rule. Matrices, operations on matrices, the inverse matrix. Gauss-Jordan method. Matrix transformations. Linear programming. (3 credits)
NOTE: This course is available only to practising teachers.

MATHMATICS C407
Topics in Probability and Statistics
Prerequisite: Mathematics C405 or equivalent. Introduction to, and brief historical survey of, probability and statistics. Techniques for teaching these topics in the junior secondary school curriculum. Application of the techniques of probability and statistics to the interpretation of research results in mathematics education. (6 credits)
NOTE: This course is available only to practising teachers.

MATHMATICS C408
Transformation Geometry
Prerequisite: Mathematics C401 or equivalent. Distance preserving motions in the plane, affine transformations with applications in Euclidean geometry. Projective transformations and applications to conics. (3 credits)
NOTE: This course is available only to practising teachers.

MATHMATICS C409
Computational Mathematics
Prerequisite: Mathematics C401 or equivalent. Introduction to the computer, and to the writing of simple programmes in BASIC. The use of pocket calculators as pedagogic devices. Approximately one-third of the course will be spent on problems related to the secondary school curriculum which can be solved by computer or calculator. (3 credits)
NOTE: This course is available to practising teachers only.

MATHMATICS C410
Curriculum Seminar
Prerequisite: Permission of the Department. Conducted in the form of a workshop. Examines mathematical, algebraic and geometrical aspects of the mathematical curricula, grades 7-11. Critical examination of various textbooks and pedagogic approaches used in the schools. (3 credits)
NOTE: This course is available to practising teachers only.

MATHMATICS C431
Probabilistic Methods of Operations Research
Prerequisite: Mathematics C331. Difference and differential-difference equations, z transforms, stochastic distributions, Markov chains, queuing theory, inventory theory, reliability and renewal theory, competition and introduction to decision theory, dynamic programming, simulation and Monte Carlo techniques; formulation, testing and stability of mathematical models incorporating uncertainty. (6 credits)

MATHMATICS C432
Theory of Graphs and Networks
Prerequisite: Permission of the Department. Directed and undirected graphs, partitions, planar graphs, matrix representation, applications to network theory. (3 credits)

MATHMATICS C433
Calculus of Variations
Prerequisite: Mathematics C373. Nature of problems, weak variations, the first variation, Euler's equation. The second variation, Jacobi's equation. Legendre's test, conjugate points. Relative maxima and minima, isoperimetric problems. Integrals with variable end points. Applications to problems in pure and applied mathematics: the principle of least action. Strong variations, the Weierstrass E-function. (3 credits)

MATHMATICS C435
Topics in Numerical Analysis
Prerequisite: Mathematics C311, C312 or equivalent. Advanced problems and techniques in numerical linear algebra, systems of non-linear equations, roots of polynomials, spline fitting, mini-max fitting, extrapolation techniques, solution of initial value ordinary differential equations, solution of two-point boundary value problems in ordinary differential equations, elliptic partial differential equations, finite difference and finite element methods for hyperbolic and parabolic partial differential equations. (3 credits)

MATHMATICS C445
Topics in Statistics
Prerequisite: Mathematics C345 and C351. Topics such as sequential procedures, multivariate analysis, time series, reliability, advanced design of experiments, advanced topics in estimation and hypothesis testing. (3 credits)
NOTE: With permission of the Department students will be allowed to repeat this course as Mathematics C446.

MATHMATICS C446
Topics in Statistics
Prerequisite: Mathematics C445. Additional topics as in Mathematics C445. (3 credits)
NOTE: Students who have taken Mathematics C445 may register for this course with permission of the Department.

MATHMATICS C451
Topics in Probability
Prerequisite: Mathematics C351. Topics in Markov Chains, occupancy and matching problems, characteristic functions and moment generating functions, central limit theorem and weak law of large numbers, probability generating functions and applications to combinatorial problems, random walk and the reflection principle, branching processes. (3 credits)

MATHMATICS C461
Analysis
Prerequisite: Mathematics C362, C363. Metric spaces, completeness, fixed point theorems, Baire's theorem, function spaces, Ascoli-Arzela theorem, Stone-Weierstrass theorem, C [0,1]. Measure and Lebesgue integration on the real line, convergence theorems, absolute continuity and completeness of L [0,1]. (6 credits)

MATHMATICS C466
Complex Analysis I
Prerequisite: Mathematics C363, C366. Cauchy's theorem, singularities, maximum modulus principle, uniqueness theorem, normal families, Riemann mapping theorem. (3 credits)

MATHMATICS C471
Partial Differential Equations
Prerequisite: Mathematics C371 or C373. Classification of partial differential equations, the Cauchy-Kowalewski theorem, characteristics, boundary value and eigenvalue problems for elliptic equations, initial value and initial boundary value problems for parabolic and hyperbolic equations. (3 credits)

MATHMATICS C472
Linear Systems
Prerequisite: Mathematics C281, C371 or C373. State space analysis and design of
MATHMATICS continuous and discrete systems. Controllability and observability, model control, pole displacement techniques. Luenberger observers, Liapunov stability. (3 credits)

MATHMATICS C473
Stability Theory of Differential Equations

MATHMATICS C474
Introduction to Mathematical Control Theory

MATHMATICS C475
Topology
Prerequisite: Mathematics C362 or equivalent. An introduction to fundamental ideas in topology. Topics will be chosen from general topology and combinatorial or algebraic topology. These may include compactness and connectedness, topological equivalence, winding number of a curve, Euler characteristic and classification of surfaces. (3 credits)

MATHMATICS C491
Abstract Algebra I
Prerequisite: Mathematics C394 or equivalent. Sylow theorems, composition series, ideal theory of rings, noetherian rings, modules. (3 credits)

MATHMATICS C492
Abstract Algebra II
Prerequisite: Mathematics C491 or equivalent. Elements of field and Galois theory including ruler and compass construction and the unsolvability of equations of fifth degree. (3 credits)

MATHMATICS C495
Advanced Topics in Mathematics
Prerequisite: Permission of the Department. (3 credits)

MATHMATICS C499
Mathematical Thinking
Prerequisite: Permission of Department. This course is intended to stimulate the student's mathematical creativity and to improve his ability to think systematically, analyze problems and communicate his reasoning. Students participate actively in discussing and solving problems drawn from a variety of sources (including previous Putnam competitions) and are expected to explain their thinking both orally and in writing. Discussions include the following topics: problem posing; Polya's techniques of problem solving; equivalence and similarity of problems; generalization; applications. The problems are selected from: combinatorics, geometry, group theory, number theory, real analysis, etc. (3 credits)
### 31.23 Modern Languages & Linguistics

**Chairman**
H. FAMIRA, Associate Professor of German

**Professor**
C. FONDA (Linguistics)

**Associate Professors**
F. ANTOLIN (Spanish)
C. R. BARTON (Classics and Linguistics)
C. DI MICHELE (Italian)

**PROGRAMMES**

**Students are responsible for satisfying their particular degree requirements.**

The superscript indicates credit value.

<table>
<thead>
<tr>
<th>Programme</th>
<th>Details</th>

</thead>
</table>
| **72 BA Joint Honours in one of the Modern Languages and in English (Loyola)** | 6 ENGL C3206  
18 ENGL credits chosen from three different periods to parallel Modern Language courses  
6 English elective credits  
18 Credits chosen from one modern language in different periods to parallel English courses  
12 Elective credits from one modern language  
6 ENGL or Modern Language elective credits  
6 Joint English/Modern Languages Tutorial, ENGL C4916 |
| **60 BA Specialization in one of the Modern Languages and in English (Loyola)** | 6 ENGL C3206  
12 ENGL credits chosen from two different periods to parallel Modern Language courses  
12 ENGL elective credits  
12 Credits chosen from one modern language in two different periods to parallel English courses  
18 Elective credits chosen from one modern language  
NOTE: This programme replaces the Joint Majors programme. |
| **72 BA Joint Honours in one of the Modern Languages and in French (Loyola)** | 6 Chosen from FRAN C2703, C2713, C3206, C3213, C3223  
6 FRAN C2516  
18 In consultation with the French Department  
6 FRAN C4986  
36 Modern Languages: These 36 credits are to be chosen in German, Italian or Spanish in consultation with the Department of Modern Languages and Linguistics. Literature courses will be chosen to parallel as much as possible the choice in French courses.  
*NOTE: Sequences of courses to be determined in consultation with the Departments concerned.*  
NOTE: For all Joint Programmes the sequence of courses shall be determined in consultation with the Departments concerned. For any combination of programmes students should consult the Departments. 
Generally, all language courses numbered 400 and above are literature courses and are on a similar academic level. |

| **60 BA Honours in German, Italian or Spanish** | A student entering any of these programmes with no previous knowledge in the field would take the following sequence of courses in German, Italian or Spanish.  
Year I  
18 GERM (or ITAL or SPAN) C2106, C2206, C2356  
*Students in Italian must select 6 credits in consultation with the Department.*  
Year II  
12 GERM (ITAL or SPAN) C2506, C2556  
*Students in Spanish must select 6 credits in consultation with the Department.*  
6 LIN G C2004  
Year III  
12 GERM (ITAL or SPAN) C3006, C3056  
12 credits at the 400 level in the language studied in consultation with the Department.  
For students with previous knowledge in the field the programme will be established in consultation with the Department. |

| **42 BA Major in German, Italian or Spanish** | A student entering any of these programmes with no previous knowledge in the field would take the following sequence of courses in German, Italian or Spanish.  
Year I  
12 Chosen from GERM (or ITAL or SPAN) C2106, C2206 and C2356 |
30 Minor in German, Hebrew, Italian, Russian or Spanish

A student entering any of these programmes with no previous knowledge in the field would take the following sequence of courses in German, Hebrew, Italian, Russian or Spanish:

**Year I**
12 credits
12 Chosen from GER 210, GER 220, GER 235

**Year II**
12 GER 221 and/or GER 235

**Year III**
6 credits

For students with previous knowledge in the field the programme will be established in consultation with the Department.

"Students following a programme in Russian must establish the course sequence in consultation with the Department.

Students seeking admission to the Honours programme on or after June 1st, 1977 are bound by the Honours requirements outlined in § 16.2.4 of this Calendar. Students who already had Honours status by June 1st, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme.

LINGUISTICS

Linguistics deals with the study of language as a phenomenon of human behavior which is designed to make the student conversant with the grammar, pronunciation and ordinary vocabulary. Equal emphasis is placed on speaking and understanding, reading and writing. Can be taken concurrently with German C220 and/or German C235, Lectures and laboratory. (6 credits)

GERMAN C210

Introductory Course in German

Prerequisite: Permission of the Department.

A beginners' course in the German language which is designed to make the student conversant with the grammar, pronunciation and ordinary vocabulary. Equal emphasis is placed on speaking and understanding, reading and writing. Can be taken concurrently with German C221 and/or German C235, Lectures and laboratory. (3 credits)
ALL COURSES WITH NUMBERS 400 AND HIGHER ARE CONDUCTED IN GERMAN

GERMAN C400
Survey of German Literature 800 to 1600
Prerequisite: Permission of the Department.
A survey of Old High German, Middle High German and Early New High German literature. (6 credits)

GERMAN C405
German Literature from 1600 to 1750
Prerequisite: Permission of the Department.
A detailed study of representative writers of the German Baroque, Rococo and Enlightenment. (6 credits)

GERMAN C410
Literature of the Classic Period
Prerequisite: German C250 or C255 or equivalent. Pre-classic and classic German literature with its philosophical background. (6 credits)

GERMAN C415
Literature of the Romantic Period
Prerequisite: German C250 or C255 or equivalent. Romanticism as a universal attitude. The works of the major German Romantics and their influence. (6 credits)

GERMAN C420
German Literature of the 19th Century
Prerequisite: German C250 or C255 or equivalent. A study of representative works of post-romantic authors and the writers of German Realism. (6 credits)

GERMAN C425
German Literature from 1880 to 1930
Prerequisite: German C250 or C255 or equivalent. The development of German literature from Naturalism to the beginnings of Hitler-Germany. (6 credits)

GERMAN C430
Contemporary German Literature
Prerequisite: German C250 or C255 or equivalent. Literature in Hitler-Germany, German emigrant literature and post-war literature. (6 credits)

GERMAN C435
History of the German Drama
Prerequisite: German C250 or C255 or equivalent. A study of German drama from its beginnings to modern times. (6 credits)

GERMAN C440
A Study of the Deutsche Novelle
Prerequisite: German C250 or C255 or equivalent. A study of the Deutsche Novelle from Goethe to Kafka. (6 credits)

GERMAN C445
Reading Course in the Modern German Novel
Prerequisite: German C250 and German C300. A study of the German novel since 1800. There will be no class periods and students will work under the direct supervision of the instructor. Regular assignments, written and oral examinations will be given. (6 credits)

GERMAN C450
German Poetry from the Middle Ages to Modern Times
Prerequisite: German C250 and German C300. A survey of German poetry through the centuries. Outstanding examples of representative poets will be studied in detail. (3 credits)
GERMAN C460
The Hörspiel
Prerequisite: German C250 and German C300. A study of one of the youngest art forms which was developed with the help of and for a new medium, the radio. Literary and technical aspects as well as the most representative writers will be discussed. (3 credits)

GERMAN C470
Study of an Individual German Author I
Prerequisite: Permission of the Department. This course will consist of the detailed study of one important German author. (3 credits)

GERMAN C471
Study of an Individual German Author II
Prerequisite: Permission of the Department. This course will consist of the detailed study of one important German author. The subject matter of German C470 and German C471 will never be the same in any given year. (3 credits)

GERMAN C480
Tutorial I
Prerequisite: Permission of the Department. Guided reading in German literature and at least two major assignments to meet the student's individual needs. (3 credits)

GERMAN C481
Tutorial II
Prerequisite: Permission of the Department. Guided readings in German literature. Written and oral criticism of the works studied. (3 credits)

HEBREW C210
Introductory Course in Hebrew
Prerequisite: Permission of the Department. A beginners' course in Hebrew, spoken and written, with reading of classical and modern texts. Lectures and laboratory. (6 credits)

HEBREW C211
Introductory Course in Hebrew II
Prerequisite: Permission of the Department. This course is equivalent to the second term of Hebrew C210. It is designed for students who have taken some Hebrew at the CEGEP level or equivalent. (3 credits)

HEBREW C235
An Introduction to Biblical Hebrew
Prerequisite: Hebrew C210 or equivalent. A study of classical Hebrew grammar. This course will give the student sufficient training to read, with reasonable competence, classical Hebrew texts as well as the Hebrew Bible. Can be taken concurrently with Hebrew C250. This course is designed especially for students in the Department of Theological Studies. (6 credits)

HEBREW C250
Intermediate Hebrew
Prerequisite: Hebrew C210 or two to three years of high school Hebrew or equivalent. This course consists of a complete review of Hebrew grammar and syntax, with special emphasis on modern Hebrew usage, readings in the Bible and an introduction to modern Hebrew literature. Can be taken concurrently with Hebrew C235. Lectures and laboratory. (6 credits)

ALL COURSES WITH NUMBERS 400 HIGH-ER ARE CONDUCTED IN HEBREW

HEBREW C400
Literature from the Talmudic Period to the Haskalah
Prerequisite: Hebrew C250 or equivalent. Hebrew literature from Talmudic times to the Enlightenment. (6 credits)

HEBREW C410
Medieval Literature (The Golden Age)
Prerequisite: Hebrew C400 or C420 or equivalent. The literature of the Hebrew Golden Age. Outstanding examples of representative writers will be studied in detail. (6 credits)

HEBREW C420
Modern Hebrew Literature
Prerequisite: Hebrew C250 or equivalent. A detailed study of representative writers from 18th Century to the establishment of the State of Israel. (6 credits)

HEBREW C430
Contemporary Israeli Literature
Prerequisite: Hebrew C250 or equivalent. A study of contemporary Israeli prose and poetry. (6 credits)

ITALIAN C210
Introductory Course in Italian
Prerequisite: Permission of the Department. A beginners' course in the Italian language which is designed to make the student conversant with the grammar, pronunciation and ordinary vocabulary. Equal emphasis is placed on speaking and understanding, reading and writing. Can be taken concurrently with Italian C220. Lectures and laboratory. (6 credits)

ITALIAN C211
Introductory Course in Italian II
Prerequisite: Permission of the Department. This course is equivalent to the second term of Italian C210. It is designed for students who have taken some Italian at the CEGEP level or equivalent. Can be taken concurrently with Italian C221. Lectures and laboratory. (3 credits)

ITALIAN C220
Introduction to Italian Studies
Prerequisite: Permission of the Department. An introductory language course which develops all basic skills. Audio-visual and audio-lingual techniques are emphasized. Can be taken concurrently with Italian C210. Lectures and laboratory. (6 credits)

ITALIAN C221
Introduction to Italian Studies II
Prerequisite: Permission of the Department. This course is equivalent to the second term of Italian C220. It is designed for students who have taken some Italian at the CEGEP level or equivalent. Can be taken concurrently with Italian C221. Lectures and laboratory. (3 credits)

ITALIAN C250
Intermediate Italian
Prerequisite: Italian C210 or C220 or equivalent. Advanced instruction in the language. Emphasis upon idiom and usage in conversation and composition. Readings from Italian authors and other texts. Lectures and laboratory. (6 credits)
ITALIAN C255
Translation
Prerequisite: Italian C210 or C220 or equivalent. This course presents problems of translation from Italian into English and from English into Italian. (6 credits)

ITALIAN C300
Advanced Italian Language and Stylistics
Prerequisite: Italian C250 or C255 or equivalent. This course is intended to give the student increased fluency and a firmer command of the language. The emphasis of the course is on stylistics and composition. (6 credits)

ITALIAN C305
Advanced Translation
Prerequisite: Italian C255 or equivalent. This course is a continuation of Translation II and deals with advanced problems and techniques of translation from Italian into and into Italian. (6 credits)

ITALIAN C350
Literature in Translation
A study of representative works of Italian literature. All readings and lectures will be in English. (6 credits)

ITALIAN C380
Italian Civilization
Prerequisite: Italian C250 or C255 or equivalent. A survey of Italy's cultural and scientific achievements. Attention will be given to Italy's social, political and economic life. (6 credits)

ALL COURSES NUMBERED 400 AND HIGHER ARE CONDUCTED IN ITALIAN. UNLESS OTHERWISE STATED, ITALIAN C250 OR C255 OR EQUIVALENT ARE PREREQUISITES FOR COURSES NUMBERED 400 AND HIGHER.

ITALIAN C400
Italian Literature to 1600
A survey of Italian literature of the Middle Ages and Renaissance. Lectures: 3 hours per week. (3 credits)

ITALIAN C401
Italian Literature after 1600
A survey of literary and cultural trends from 1600 to the present. Lectures: 3 hours per week. (3 credits)

ITALIAN C405
Italian Theatre to 1800
Origin and evolution of the Italian Theatre. Emphasis on Goldoni and the Commedia dell'Arte. Attention and tragedy. Lectures: 3 hours per week. (3 credits)

ITALIAN C406
Modern Italian Theatre
A study of representative theatrical works of the nineteenth and twentieth centuries. Particular attention will be given to the innovative theatre of Pirandello. Lectures: 3 hours per week. (3 credits)

ITALIAN C410
Literary Criticism to 1900
A survey of literary criticism from the Renaissance to the end of the nineteenth century. Readings from the critical works of Vico, Foscolo and De Sanctis. Lectures: 3 hours per week. (3 credits)

ITALIAN C411
Modern Literary Criticism
Readings from the critical works of Benedetto Croce. Critical theories and trends of modern Italian criticism. Lectures: 3 hours per week. (3 credits)

ITALIAN C415
Dante
A study of Dante's minor works. Introduction to the Divina Commedia. Lectures: 3 hours per week. (3 credits)

ITALIAN C416
"Divina Commedia"
Prerequisite: Italian 415. Analysis of the Divina Commedia. Lectures: 3 hours per week. (3 credits)

ITALIAN C420
Petrarca and Early Italian Poetry
A study of poetic works from the poets of the Scuola siciliana and the Dolce stil nuovo. Emphasis on Petrarca's Canzoniere. Lectures: 3 hours per week. (3 credits)

ITALIAN C421
Boccaccio and the Novella
Origin and evolution of the early Italian novel. Emphasis on the Decameron. Lectures: 3 hours per week. (3 credits)

ITALIAN C425
Fifteenth-Century Prose
The rise of Humanism in Italy. A study of representative prose writings of fifteenth-century authors. Lectures: 3 hours per week. (3 credits)

ITALIAN C426
Fifteenth-Century Poetry
A study of the epic and lyric poetry of the fifteenth century: cavalleresque poetry in Italy; the lyric poetry of Poliziano and Lorenzo de' Medici. Lectures: 3 hours per week. (3 credits)

ITALIAN C430
The Italian Renaissance
A study of the Italian Renaissance with emphasis on Machiavelli's Principe and La man dragola. Lectures: 3 hours per week. (3 credits)

ITALIAN C431
Ariosto and Tasso
A study of Orlando Furioso and La Gerusalemme liberata. Lectures: 3 hours per week. (3 credits)

ITALIAN C435
Seventeenth and Eighteenth-Century Prose
A study of representative scientific, philosophical and literary texts. Emphasis on Galileo, Vico, Goldoni and Alfieri. Lectures: 3 hours per week. (3 credits)

ITALIAN C436
Seventeenth and Eighteenth-Century Poetry
A study of representative poetry of the Baroque and the Enlightenment. Emphasis on Marino, Parini and Alfieri. Lectures: 3 hours per week. (3 credits)

ITALIAN C440
Nineteenth-Century Novel
A study of different approaches to the novel by Italian writers of the nineteenth century. Emphasis on Manzoni and Verga. Lectures: 3 hours per week. (3 credits)

ITALIAN C441
Nineteenth-Century Poetry
Romanticism in Italy. A study of the major poetic works of Foscolo, Manzoni and Leopardi. Lectures: 3 hours per week. (3 credits)

ITALIAN C445
Twentieth-Century Novel
A study of representative novelistic works of this century. Lectures: 3 hours per week. (3 credits)

MODERN LANGUAGES AND LINGUISTICS
LINGUISTICS C200
Introduction to Linguistics
Introduction to the principles of general linguistics. Basic phonetics and phonemics. Emphasis on synchronic linguistic analysis, with a brief introduction to historical and comparative linguistics. (3 credits)

LINGUISTICS C210
Historical and Comparative Linguistics I
The history of the Indo-European languages and their interrelations. Exercises in etymology. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C211
Historical and Comparative Linguistics II
Prerequisite: Linguistics C210 or permission of the Department. The major language families of the world. Exercises in etymology and semantics. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C250
Language in Culture and Society I
Interrelations of language and other aspects of culture and society. Paralanguage. The cultural contents of language material. Gestalt theory and language. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C251
Language in Culture and Society II
Prerequisite: Linguistics C250 or permission of the Department. Educational implications of sociolinguistic studies. Bilingualism. Multilingualism. Pidgins and Creoles. Restricted codes. Language problems and literacy. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C300
Sociolinguistics I
The interaction of linguistic and social structures. Regional and social-linguistic variations. Social variables. Linguistic variations and linguistic theory. Attitudes towards linguistic variety and educational policies. The social psychology of language choice. Language problems and literacy. Users and uses of language. Social processes in linguistic structure. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C301
Sociolinguistics II
Prerequisite: Linguistics C300 or permission of the Department. Directions in sociolinguistics. The Whorf-Sapir hypothesis. Conceptual categories in primitive communities. Ethnography or cognitive systems. American-Indian grammatical categories. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C320
Semantics I
Prerequisite: Linguistics C200 or equivalent. Theories about the development of language in mankind and individuals. The characteristics of human language as opposed to animal languages and other communication systems. Similarity and diversity among languages. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C330
Anthropological Linguistics I
Prerequisite: Linguistics C320 or permission of the Department. Speech surrogates and paralanguage. Language and thought in primitive communities. Swadesh, Sapir, Whorf's theories on some American-Indian languages. Linguistic change and reconstruction. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C350
Analytical Procedures and Descriptive Techniques I
Prerequisite: Linguistics C200 or equivalent. The analysis of speech sounds: methods and procedures. The tools of modern phonetic and phonemic analysis. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C351
Analytical Procedures and Descriptive Techniques II
Prerequisite: Linguistics C350 or permission of the Department. Problems in phonetic and phonemic analysis. Speakers of various languages will act as informants to provide practice in recording and classifying data. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C360
Language and Thought I
Prerequisite: Linguistics C200 or equivalent. Meaning and the structure of languages. Grammar, competence and performance. Language and perception. Universals in linguistic theory. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C361
Language and Thought II
Prerequisite: Linguistics C360 or permission of the Department. Cognition and the development of language. The cognitive base of language learning in infants. Linguistic relativism. The structure of the psychological lexicon. Psycholinguistic models of bilingualism. Computer and linguistic processes. Lectures: 3 hours per week. (3 credits)
LINGUISTICS C370
General Phonetics I
Prerequisite: Linguistics C200 or equivalent. Description of speech sounds in articulatory terms. Identification and production of sounds that occur outside the Indo-European family of languages. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C371
General Phonetics II
Prerequisite: Linguistics C370 or permission of the Department. Description of speech sounds as to their acoustic qualities: frequency, amplitude, pitch, stress. Interpretation of sound spectrograms. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C400
Linguistics Applied to Language Learning I
Contrastive linguistic analysis of English and French/German/Italian/Russian/Spanish as related to language learning. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C401
Linguistics Applied to Language Learning II
Prerequisite: Linguistics C400 or permission of the Department. Cognitive and psychological problems in learning our "first language" and in learning foreign languages. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C410
Theory of Morphology and Syntax I
Prerequisite: Linguistics C200 or equivalent. Traditional grammar and syntax. Structuralist grammar and syntax. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C411
Theory of Morphology and Syntax II
Prerequisite: C410 or permission of the Department. The theory of generative grammar. Phrase structure rules and specific transformational rules. Metatheoretical constraints. Theories of syntactic structures. Lectures: 3 hours per week. (3 credits)

LINGUISTICS C417
Generative Phonology
Prerequisite: Linguistics C370 or C411 or permission of the Department. The fundamentals of distinctive feature analysis as developed by Jakobson, Chomsky and Halle. Both theoretical concepts and notational techniques will be emphasized. Extensive training in data analysis and rule writing. (3 credits)

LINGUISTICS C421
Non-Indo-European Structures
Prerequisite: Linguistics C200 and Linguistics C370 either previously or concurrently or permission of the Department. This course is intended to give the student an acquaintance in depth with the structures of several languages differing markedly in their nature from Indo-European. Possible areas of study might be Eskimo, Finnish, Japanese, Swahili, Turkish, some Amerindian or Malayo-Polynesian language, etc. As a general rule, only four languages are investigated in a particular year. (6 credits)

NOTE: See § 200.1

LINGUISTICS C431
Comparative Indo-European Linguistics
Prerequisite: Linguistics C200 or permission of the Department. Through a comparative study of the phonology of the various branches of the Indo-European language family (Indo-Iranian, Hellenic, Italic, Germanic, Slavic, Baltic, etc.) this course will familiarize the student with the techniques used in linguistic reconstruction. Emphasis will be given to the development and differentiation of languages through time. (6 credits)

LINGUISTICS C451 (also given as
Arabic C451)
Literary Arabic
Prerequisite: Linguistics C200 or permission of the Department. This course is designed to give the student in one year a thorough understanding of modern literary Arabic through linguistic analysis of its structure. (6 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.

LINGUISTICS C460 (also given as
Spanish C460)
History of the Spanish Language
Prerequisite: Spanish 250 and Linguistics C200 or permission of the Department. A study of the origins of the Spanish language from Vulgar Latin into Old Spanish and thence through the centuries. Attention will also be given to non-Latin contributions to the Spanish lexicon, stylistic development and, especially, the parallel development of the other Romance vernaculars. (6 credits)

LINGUISTICS C492
Special Topics in Linguistics I
Prerequisite: Permission of the Department. This course offers an opportunity for detailed examination of a particular area of Linguistics. (3 credits)

LINGUISTICS C493
Special Topics in Linguistics II
Prerequisite: Permission of the Department. This course is offered as a continuation of Linguistics C492, but can also be taken as a separate 3-credit course. (3 credits)

PORTUGUESE C400
Portuguese Language and Literature
Prerequisite: Spanish C235 or C250 or equivalent and any 6 credits at the 400-level in Spanish. A course designed for advanced Spanish students. Readings in Portuguese begin as early as the second week of class. (6 credits)

RUSSIAN C210
Introductory Course in Russian I
Prerequisite: Permission of the Department. A beginners' course in the Russian language which is designed to acquaint the student in one year with pronunciation, the main grammatical aspects and a basic vocabulary. Emphasis is placed on speaking, reading and writing Russian. May be taken concurrently with Russian C230 and/or C235. Lectures and laboratory. (6 credits)

RUSSIAN C211
Introductory Course in Russian II
Prerequisite: Permission of the Department. This course is equivalent to the second term of Russian C210. It is designed for students who have taken some Russian at the CECEP level or equivalent. May be taken concurrently with Russian C210 and/or C235. Lectures and laboratory. (3 credits)

**SPANISH C210**

**Introductory Course in Spanish**

Prerequisite: Permission of the Department. An introductory language course that develops all basic skills, with emphasis on the audio-visual approach, i.e., on speaking and understanding. Lectures and laboratory. (6 credits)

**SPANISH C220**

**Introduction to Spanish Studies**

Prerequisite: Permission of the Department. An introductory language course that develops all basic skills, with emphasis on the audio-visual approach, i.e., on speaking and understanding. Lectures and laboratory. (6 credits)

**SPANISH C225**

**Intermediate Spanish with Translation**

Prerequisite: Spanish C210 or C220 or equivalent. This course offers a complete review of Spanish grammar and deals with some advanced aspects of usage. Translation techniques are especially emphasized. Readings include novels and short stories. This class will be conducted in Spanish. (6 credits)

**SPANISH C250**

**Intermediate Spanish**

Prerequisite: Spanish C210 or C220 or equivalent. Included in this course are a complete review of Spanish grammar and a study of some advanced aspects of usage. Composition and oral practice are emphasized. Selected short stories and novels, through which the student will become familiar with some aspects of Hispanic literature and civilization, will be read during the year. This class will be conducted in Spanish. (6 credits)
SPANISH C300
Advanced Composition and Stylistics
Prerequisite: Spanish C235 or C250 or equivalent. A course to treat in detail the finer points of Spanish stylistics. Special attention is given to creative composition and semantics. (6 credits)

SPANISH C305
Advanced Spanish Translation
Prerequisite: Spanish C235 or C250 or equivalent. A course for advanced students, with practice in translation from English and French into Spanish. Specimen texts will include literary prose, commerce letters, journalistic articles, and a variety of material of current interest. (6 credits)

SPANISH C360
Spanish Civilization
Prerequisite: Spanish C235 or C250. This course is designed to acquaint the student with Spain's intellectual and cultural history as reflected in her writers. Although it is primarily concerned with ideas and aesthetics, attention will also be given to the development of language, customs, and folklore. (6 credits)

UNLESS OTHERWISE INDICATED, ALL COURSES WITH NUMBERS 400 AND HIGHER WILL BE CONDUCTED IN SPANISH

SPANISH C400
Theatre
Prerequisite: Permission of the Department. Evolution of the Spanish Theatre. Study of some outstanding plays. Stress on oral practice and the performance of a play. (6 credits)

SPANISH C405
The Middle Ages
Prerequisite: Spanish C235 or C250 or equivalent. Study of literary works from the 12th to the 13th centuries. Particular emphasis will be placed on the Poema de mio Cid, the Libro del buen Amor, and the Celestina. (6 credits)

SPANISH C410
The Golden Age
Prerequisite: Spanish C235 or C250 or equivalent. This course is designed to introduce to the student the Masterpieces of Spain's Siglo de Oro. Particular emphasis is given to Cortez's Don Quijote. Analysis of some of the works of Lope, Tirso and Calderon. (6 credits)

SPANISH C415
Literature of the 18th and 19th Centuries
Prerequisite: Spanish C235 or C250 or equivalent. A study of representative works of prose and poetry of the writers of the 18th and 19th centuries with particular attention given to such literary movements as romanticism, realism and naturalism. (6 credits)

SPANISH C420
The Generation of 1889
Prerequisite: Spanish C235 or C250 or equivalent. A study of the major writers of this generation: Unamuno, Valle-Inclán, Machado, Baroja, Azorín, Maeztu, etc. (3 credits)

SPANISH C425
The Group of 1927
Prerequisite: Spanish C235 or C250 or equivalent. Analysis of the poetry and theatre of García Lorca and his contemporaries: Juan Ramón Jiménez, Guillen, Alberti, and others. (3 credits)

SPANISH C430
Post-Civil War Literature
Prerequisite: Spanish C235 or C250 or equivalent. General characteristics of literature since the Civil War. A study of some of the following authors will be undertaken: Celá, Matute, Ferrésio, Martín-Santos, Sendra, Goytisolo, etc. (3 credits)

SPANISH C435
The Short Story: Spain
Prerequisite: Spanish C235 or C250 or equivalent. A seminar on the principal writers of short stories in Spain. (3 credits)

SPANISH C440
Romanticism and Modernism in Spanish America
Prerequisite: Spanish C235 or C250 or equivalent. A study of the principal works and authors of these movements. (3 credits)

SPANISH C445
Contemporary Spanish-American Literature
Prerequisite: Spanish C235 or C250 or equivalent. A study of the major works of some of the following authors: Carpenter, Rufio, Paz, Fuentes, Asturias, García Marquez, Roa Bastos, Vargas Llosa, Borges, Cortázar, etc. (3 credits)

SPANISH C450
Mexican Literature
Prerequisite: Spanish C235 or C250 or equivalent. A study of selected works from pre-Columbian times to the present. (3 credits)

SPANISH C455
The Short Story: Spanish America
Prerequisite: Spanish C235 or C250 or equivalent. A seminar on the principal writers of short stories in Spanish America. (3 credits)

SPANISH C460 (also given as Linguistics C460)
History of the Spanish Language
Prerequisite: Linguistics C200 and Spanish C235 or C250 or equivalent. A study of the origins of the Spanish language from Vulgar Latin into Old Spanish, and thence through these centuries. Attention will also be given to non-Latin contributions to the Spanish lexicon, stylistic development and, especially, the parallel development of the other Romance vernaculars. This course will be conducted in English. (6 credits)

SPANISH C480
Tutorial I
Prerequisite: Permission of the Department. Guided readings in Spanish or Spanish-American literature to meet the student's individual needs. (3 credits)

SPANISH C485
Tutorial II
Prerequisite: Permission of the Department. Guided readings in Spanish or Spanish-American literature. Written and oral criticism of the works studied. (3 credits)
The Philosophy Department offers a number of programmes of study which include: Honours, Major and Minor and certain joint programmes. Double majors programmes are also offered in consultation with other departments. The Philosophy Department should be consulted for information concerning these programmes. Seminars and tutorials are offered mainly for students in a programme in Philosophy. In addition courses are offered to students with a general or specific interest in Philosophy.

The programme of courses leading to an Honours BA in Philosophy consists of sixty credits in the Department, or fifty-four credits in the Department and a cognate course of six credits outside the Department with the approval of the Philosophy Department. Students seeking admission to the Honours programme on or after June 1st 1977 will be bound by the Honours requirements outlined in § 16.2.4 of this Calendar. Students who already had Honours status by June 1st 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme.

The programmes leading to a BA with a Major in Philosophy consist of either 36 (Loyola) or 42 (Sir George Williams) credits taken in the Department.

The programmes leading to a Minor in Philosophy consist of either 24 (Loyola) or 30 (Sir George Williams) credits taken in the Department.

PROGRAMMES

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

60 BA Honours in Philosophy (Loyola)

Year I
12 PHIL C2026, C3106
12 PHIL elective or Cognate credits

Year II
12 PHIL C4106, C4626
6 PHIL elective credits

Year III
12 PHIL C4126, C4636
6 PHIL elective credits

Electives to be chosen in consultation with the Department.

60 BA Honours in Philosophy (Sir George Williams)

Year I
6 PHIL C2116
6 Chosen from PHIL C2026 or equivalent, C2263 and C2283, C2416, C2736, C3126, C3216

Year II
6 Chosen from PHIL C2263 and C2283, C3216
6 PHIL C3606
6 Chosen from PHIL C3106, C4126
6 PHIL elective credits

Year III
6 PHIL C4856
6 Chosen from PHIL C3896, C4216
6 Chosen from PHIL C4176, C4496, C4566
6 PHIL elective credits at 300 or 400 level

Students preparing for graduate work should acquire a good reading knowledge of a related modern language.
6 BA Honours in English and Philosophy (Sir George Williams)

18 Chosen from ENGL C3046, C3106, C3156, C3206, C3326, C3386, C3426, C4546
18 Chosen from ENGL C2756, C2803, C2909, C3006, C3056, C3145, C3186, C3306, C3576, C3776, C3906, C3926, C4306, C4346, C4481, C4566, C4596, C4626
6 Chosen from PHIL C2026 or equivalent, C2119 or, if exempted, PHIL elective credits
6 PHIL C3606
6 Chosen from PHIL C2263 and C2283, C3216, C3696
6 Chosen from PHIL C3696, C4856
6 Chosen from PHIL C2416, C3106, C3126, C3136, C3316, C3343 and C3536, C3423, C3443, C3456, C3536, C3596, C3696
6 Chosen from PHIL C3216, C3343 and C3536, C3863, C4126, C4176, C4856, C4936

72 BA Honours in Education and Philosophy (Sir George Williams)

Year I
9 EDUC C2106, C2306
12 PHIL C2026 or C2116 and PHIL C2263 and C2283 or C2416 Year II
6 EDUC C4306
6 PHIL C3606
6 Chosen from EDUC C4216, C4263, C4273, C4416
6 Chosen from PHIL C2416, C3383, C3536, C4566 Year III
6 EDUC C4316
6 PHIL elective credits at 400 level (excluding PHIL C4936, C4956, C4966 and C4976)
3-6 Chosen from EDUC C4323, C4337, C4343, C4356
6 PHIL C3586
Year II
3-6 Chosen from EDUC C4133, C4147, C4163, C4173
66 BA Honours in Philosophy and History

Year I
6 HIST C2186
6 PHIL C2116 Year II
6 HIST C3906 or PHIL C3526 in consultation with the Philosophy or History Departments
12 Chosen from HIST C3286, C3306, C3346, C3366
6 PHIL C3606
6 Chosen from PHIL C3106, C4126 Year III
6 HIST C4936
6 Chosen from PHIL C4856, C4176
6 HIST elective credits at 400 level (in consultation with Departmental Honours adviser)
6 PHIL elective credits at 300 or 400 level (in consultation with Departmental Honours adviser)
6 Six of these credits may be taken in Year III

72 BA Honours in Philosophy and Religion
12 Chosen from RELI C2116, C2136, C3013, C3023
6 RELI C4436

6 Chosen from RELI C3636, C3646
6 Chosen from RELI C3616, C3626, C4656
6 Chosen from RELI C3116, C3126, C3136, C3263, C3273, C3283, C4916, C4926
6 PHIL C2026 or equivalent or, if exempted, PHIL elective credits
6 PHIL C3606
6 Chosen from PHIL C2263 and C2283, C3216, C3696
6 Chosen from PHIL C3696, C4856
6 Chosen from PHIL C2416, C3106, C3126, C3136, C3316, C3343 and C3536, C3423, C3443, C3456, C3536, C3596, C3696
6 Chosen from PHIL C3216, C3343 and C3536, C3863, C4126, C4176, C4856, C4936

69 BA Honours in Sociology and Philosophy

Pattern A (Epistemology and Methodology)

6 SOCI S2106 or, if exempted, SOCI elective credits (in consultation with Departmental Honours Adviser)
6 Chosen from SOCI C2415, S3106
18 SOCI S3306, S4226, S4816
6 Chosen from SOCI S4206 or SOCI S4363, S4373, S4383, S4393
6 Chosen from PHIL C2026 or equivalent, C2116, C2263 and C2283 or, if exempted, PHIL elective credits
6 Chosen from PHIL C2263 and C2283, C3216
6 PHIL C3606
6 Chosen from PHIL C3696, C4856
6 Chosen from PHIL C3106, C3126, C3316, C3343 and C3536, C3423, C3443, C3456, C3536, C3596, C3696
6 Chosen from PHIL C3216, C3343 and C3536, C3863, C4126, C4176, C4856, C4936

72 BA Honours in Sociology and Philosophy

Pattern B (Man in Society)

6 SOCI S2106, or, if exempted, SOCI elective credits (in consultation with Departmental Honours Adviser)
6 ANTH C2116, or, if exempted, ANTH elective credits (in consultation with Departmental Honours Adviser)
6 Chosen from SOCI S3106, S3306
12 SOCI S4206, S4816
6 Chosen from SOCI S4216, S4226, S4426, S4436, S4446, C4456, S4466, S4476, S4486
18 Chosen from PHIL C2026 or equivalent, C2415, C3606 or, if exempted, PHIL elective credits
6 Chosen from PHIL C2263 and C2283, C3216, C3696
6 Chosen from PHIL C3216, C3343, C3443, C3463, C3483, C3496, C3596, C3696
6 PHIL elective credits at the 300 or 400 level

42 BA Major in Philosophy (Sir George Williams)

Year I
6 Chosen from PHIL C2026 or equivalent, C2116
6 Chosen from PHIL C2263 and C2283, C2415, C3126
Year II
6 PHIL C3106 or C4126
6 PHIL elective credits at 300 or 400 level
6 PHIL elective credits
Year III
6 Chosen from PHIL C3696, C4856, C4936
6 PHIL elective credits at 300 or 400 level
### PHILOSOPHY

**PHILOSOPHY C220**  
Problems of Philosophy  
This course is designed for students who wish to be acquainted with philosophy through problems rather than through the historical approach. Methods used in Philosophy will be discussed and topics such as the existence of God, the mind-body problem, freedom and determinism, rights and duties, will be used to illustrate philosophical approaches. (3 credits)

**PHILOSOPHY C221**  
Philosophical Classics  
A critical discussion of selected philosophical classics. Readings will be chosen from Plato, Aristotle, Descartes, Hume, Kant and one recent or contemporary philosopher. (6 credits)

**PHILOSOPHY C222**  
Critical Thinking  
This course is designed to help students to think more clearly and critically and to improve their ability to present, defend and evaluate arguments. Sample topics may include the nature of definition, validity and truth, formal and informal fallacies. (3 credits)

**PHILOSOPHY C223**  
Introduction to Logic  
A study of the basic elements of Aristotelian and modern logic, including an analysis of argumentation, language, definition, fallacies, deduction and induction. (6 credits)

**PHILOSOPHY C224**  
Elementary Deductive Logic  
This course begins with an analysis of syllogistic logic and proceeds to an extensive treatment of propositional logic. The course will conclude with an examination of the rudiments of predicate logic. The techniques of constructing formal derivations will be included. (3 credits)

**PHILOSOPHY C225**  
Methods of Enquiry  
A study of the methods and structure of basic types of organized knowledge: mathematics, science, history and normative disciplines. This course will discuss crucial concepts in scientific methodology, such as axiomatic system, the hypothetic-deductive method and scientific explanation. (3 credits)

**PHILOSOPHY C226**  
Introduction to Philosophy of Religion  
The course examines the classical arguments for the existence of God. Course content includes the nature of faith and of religious experience as well as the nature of religious language. (3 credits)

**PHILOSOPHY C227**  
Introduction to Special Topics in Philosophy  
Prerequisite: Three credits in Philosophy or permission of the Department. The topics selected will vary from year to year. (3 credits)

**PHILOSOPHY C230**  
Human Identity  
A critical examination of some theories of human identity, including reference to male and female identity, the unity of self, and transcendence of self. Works will be selected from the history of philosophy, literature and the social sciences. (3 credits)

**PHILOSOPHY C231**  
Introduction to General Systems Theory  
An elementary survey of the transdisciplinary general systems approach. Such basic concepts as structure information and regulation will be explored and a teleological framework suited to the social and behavioural sciences will be developed. (6 credits)

**PHILOSOPHY C240**  
Philosophy of Man  
A study of representative classical and contemporary positions on human nature, action and life. Such topics as knowledge, affectivity, freedom, person, will be treated. (6 credits)

**PHILOSOPHY C241**  
Ethics  
A study of the principles underlying moral conduct with reference to classical and contemporary positions. (6 credits)

**PHILOSOPHY C242**  
Social and Political Philosophy  
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course treats of the individual in relation to the State and Society through the reading and discussion of selected texts. Problems treated: political authority, its sources and varieties; the limits of political authority; classical images of man; personality and society; the paradox of social control. (6 credits)

**PHILOSOPHY C243**  
Philosophy and Society  
The purpose of this course is to introduce students to the philosophical treatment of social problems. Examples would include conceptions of man as individual and as citizen, as free and as determined, as well as conceptions of the state and of the community. (3 credits)

**PHILOSOPHY C244**  
Introduction to Philosophy of Religion  
The course examines the classical arguments for the existence of God. Course content includes the nature of faith and of religious experience as well as the nature of religious language. (3 credits)

**PHILOSOPHY C245**  
Introduction to Special Topics in Philosophy  
Prerequisite: Three credits in Philosophy or permission of the Department. The topics selected will vary from year to year. (3 credits)
PHILOSOPHY C292
Introduction to Special Topics in Philosophy
Prerequisite: Three credits in Philosophy or permission of the Department. A student who has received credit in C291 registers for additional credits under C292. (3 credits)

PHILOSOPHY C310
Ancient Western Philosophy
A study of the principal developments from the Presocratics through Plato and Aristotle up to Plotinus. Emphasis will be placed on the critical reading of selected texts. (6 credits)

PHILOSOPHY C312
Existentialism
A course designed to acquaint the student with the fundamentals of the existentialist movement as a philosophical perspective. Among philosophers considered will be Kierkegaard, Nietzsche, Heidegger, Sartre, Merleau-Ponty, Jaspers, Marcel and Berdyaev. (6 credits)

PHILOSOPHY C313
Contemporary Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. A study of selected philosophers of the twentieth century. Movements and figures discussed vary from year to year. Such topics as the following will be considered: Positivism, Pragmatism, Marxism, Phenomenology, Existentialist and Philosophical Analysis. (6 credits)

PHILOSOPHY C321
Symbolic Logic
An introduction to modern formal logic, its techniques and applications. The course covers sentential logic, first-order predicate logic with identity, intuitive set theory, relations and functions. (6 credits)

PHILOSOPHY C331
Philosophical Ideas in Literature
Prerequisite: Second year standing or permission of the instructor. A critical examination of philosophical ideas as expressed in various literary works. The subject matter is chosen for its relevance to such themes as the nature of man, the nature of the good life, and the relation of man to society. (6 credits)

PHILOSOPHY C334
Anarchism and Marxism
The contradictory character of Russian cultural and philosophical development is used as a basis for an analysis of the main philosophical differences between Anarchism and Marxism as presented in the works and activities of its main protagonists (Bakunin, Kropotkin, Plekhanov, Lenin). Philosophical relevance of such major Russian writers as Dostoyevsky, Tolstoy and Solzhenitsyn will be shown as well. (6 credits)

PHILOSOPHY C335
Contemporary Marxism
Critical and comparative analysis of different schools and individual thinkers of 20th Century Marxism, in particular those in Russia, Germany and France. These positions will be considered primarily on their philosophical merits. (3 credits)

PHILOSOPHY C338
Philosophical Psychology
A critical examination of the explanation of human behavior and the self in the light of new developments in philosophy and psychology. Detailed studies of selected problems such as motives, intention, the concept of person, choice, reason, freedom, purpose and action. (3 credits)

PHILOSOPHY C340
Contemporary Theories of Love
Prerequisite: One previous course in Philosophy. A two-semester topical analysis of love and attendant phenomena with special emphasis on their metaphysical, epistemological, psychological, aesthetic, social, theological and linguistic dimensions. The classes will be conducted on a lecture-seminar basis. (6 credits)

PHILOSOPHY C341
Political Philosophy
Prerequisite: Six credits in Philosophy or the permission of the Department. This course concentrates on the theoretical foundations of communism, fascism, and democracy through the reading and discussion of selected texts. (6 credits)

PHILOSOPHY C342
Political Philosophy
Prerequisite: Second year standing or permission of the Department. Critical analysis of contemporary political-philosophical concepts such as tolerance, violence, separatism, racism and the nationalism of visible minorities. (3 credits)

PHILOSOPHY C343
Legal Philosophy
Prerequisite: Six credits in Philosophy or the permission of the Department. This course concentrates on definitions of law and the ways of reasoning in Law. It includes discussion of such basic legal issues as responsibility and excuse, person and property, right and obligation, contract and punishment. (6 credits)

PHILOSOPHY C344
Law, Liberty and Human Rights
In this course the student will examine several perspectives from which the problem of the relation between law and morality may be treated. Conflicting concepts of law, morality and the relation of the individual to society will be discussed. The problem of authority will be examined in relation to issues of civil liberties, civil rights and the social basis of legal conflicts. (3 credits)

PHILOSOPHY C345
Philosophy of Social Science
Prerequisite: Six credits in Philosophy or third year standing in a social science department or permission of the Department. Following the distinction between natural and social sciences, this course will be concerned with philosophies of the social sciences. It will investigate the structure, methodology, and problems of these sciences toward understanding and clarifying how they function as quasi-separable disciplines and how they contribute to a wider understanding of man and his varied social relations. (6 credits)

PHILOSOPHY C346
Philosophy of Social Science
Philosophical examination of the structure and methodology of the social sciences. Special attention to problems of functionalism, teleological explanation and the testing of social theories. (3 credits)

PHILOSOPHY C347
Phenomenology and Psychology
This is an introduction to the fundamentals of Phenomenology through a study of conscious experience, both subjective and intersubjective. Standard psychological models and methods will be examined in order to open phenome-
nological alternatives in the fields of aesthetics, literary criticism, religious and moral experience. Phenomenology complements psychological research in these areas. (3 credits)

PHILOSOPHY C348
Philosophy of Culture
Prerequisite: 6 credits in Philosophy or permission of the Department. This course entails a philosophical critique of contemporary Western culture, stressing such issues as identity crisis, the weakening of structures of orthodoxy, meditation and humour in relation to the vita activa, work in relation to labour, and the socio-cultural manifestation of value crisis. (6 credits)

PHILOSOPHY C349
Philosophy of Education
An examination of philosophical principles underlying educational theories and of the problems arising from the practical implementation of those theories. (6 credits)

PHILOSOPHY C350
Philosophy of Communication
This course is concerned with a philosophical analysis of the foundations of communication acts; linguistic and non-linguistic, cognitive and affective. Philosophical sources may include: F. Nietzsche, M. Black, M. Merleau-Ponty and P. Ricoeur. (6 credits)

PHILOSOPHY C351
Philosophy of Religion
Prerequisite: 6 credits in Philosophy or permission of the Department. A critical assessment of modern developments in Philosophy regarding the question whether thinking man can maintain a religious belief in God. (6 credits)

PHILOSOPHY C352
(Also given as History C390)
Philosophy of History
Prerequisite: Second or third year standing in a History programme or permission of the Department. An analysis of the nature of historical knowledge and explanation will be followed by a study of classical and contemporary attempts to elucidate the meaning of history. Authors discussed include Augustine, Vico, Kant, Hegel, Marx, Spengler, Popper, Toynbee. (6 credits)

PHILOSOPHY C353
Aesthetics I
Prerequisite: Second year standing or permission of the Department. A philosophical analysis of selected aspects of the aesthetic experience and the logic of appraisal. Specimen topics include: perception in art, symbolic expression, the role of feeling and emotion in aesthetic judgment, objectivity and subjectivity of value judgments, commensurability of values. (3 credits)

PHILOSOPHY C360
Honours Seminar in Epistemology and Metaphysics
Prerequisite: Second year standing. Intensive study of major contemporary issues in the theory of knowledge and metaphysics, designed to accommodate honours students in any department. (6 credits)

PHILOSOPHY C369
Contemporary Analytic Philosophy
Prerequisite: Twelve credits in philosophy or permission of Department. A seminar devoted to the investigation of selected philosophical problems as they arise in the writings of such philosophers as Moore, Russell, Ayer, Carnap, Quine, Wittgenstein, Ryle, Wisdom, Austin and others. (6 credits)

PHILOSOPHY C386
The Study of a Given Thinker
Prerequisite: Six credits in Philosophy or permission of the Department. A detailed study of one or more of the central works of a major philosopher. When it is appropriate, some attention may be devoted to his philosophical development. (3 credits)

PHILOSOPHY C388
The Study of a Given Thinker
Prerequisite: Six credits in Philosophy or permission of the Department. A student repeating C386 registers under Philosophy C388. (3 credits)

PHILOSOPHY C410
Mediaeval Philosophy
Prerequisite: Philosophy C310 or the permission of the Department. A study of Western Philosophy from Augustine to the later Scholastics. (6 credits)

PHILOSOPHY C412
Modern Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. A study of Western Philosophy from Descartes to Hume. (6 credits)

PHILOSOPHY C417
Nineteenth-Century Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. An examination of some of the main currents of post-Kantian Philosophy, Hegel and the post-Hegelians, the romantic reaction, positivism, and pragmatism. (6 credits)

PHILOSOPHY C421
Philosophy of Science
Prerequisite: One course in logic or permission of the Department. A critical examination of problems pertaining to the structure and status of scientific theories and the logic of scientific inference. Such topics as the following will be discussed: explanation, confirmation, verifiability and falsifiability, problems of definition, observational and theoretical terms, models and analogies. (6 credits)

NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

PHILOSOPHY C422
Advanced Topics in Logic
Prerequisite: A 300-level course in Symbolic Logic or permission of the Department. This course is designed to extend the basic knowledge of logic by introducing students to areas such as modal logic, deontic logic, higher-order calculi, logical theory and logical semantics. (3 credits)

PHILOSOPHY C449
Phenomenology
Prerequisite: Twelve credits in Philosophy or permission of the Department. Origins and development of phenomenology from Brentano and Meinong through the different stages of Husserl's writing. Post-Husserlian modifications will be considered briefly. The second term will be devoted to a discussion of the influence of the phenomenological movement on contemporary developments in the social sciences and humanities. Actual topics will be determined by the students' areas of interest and academic qualifications. (3 credits)
PHILOSOPHY C453
Epistemology
Prerequisite: 12 credits in Philosophy or permission of the Department. A study of characteristic problems in epistemology with particular emphasis on their historical and systematic contexts. The concepts analyzed include fundamental questions in the empirical sciences. (6 credits)

PHILOSOPHY C454
Metaphysics
Prerequisite: 12 credits in Philosophy or permission of the Department. In this course, metaphysics will be treated in two ways: firstly, the problem of being in classical and contemporary ontologies; secondly, the metaphysical suppositions underlying epistemological, moral and social theories. (6 credits)

PHILOSOPHY C455
Aesthetics II
Prerequisite: 6 credits in Philosophy or the permission of the Department. This course will examine central problems in the philosophy of art and sensibility, examining the works of major authors in this area, such as Aristotle, Longinus, Kant, Hegel, Dewey, Santayana. (6 credits)

PHILOSOPHY C456
Recent Ethical Theory
Prerequisite: Six credits in Philosophy or permission of the Department. A critical analysis of leading contemporary ethical theories from Moore to the present. Special attention is given to the naturalistic fallacy, the reducibility of normative statements ethical reasoning and the relation of ethics to psychology and sociology. (6 credits)

PHILOSOPHY C457
Philosophy of God
Prerequisite: 6 credits in Philosophy or permission of the Department. The problem of the natural knowledge of God including readings from Plato, Aristotle, Anselm, Aquinas, Descartes, Hume, Pascal, Kant, Hegel, Feuerbach, Marx, Kierkegaard, Newman, Nietzsche, Sartre, Ayer and Russell. (6 credits)

PHILOSOPHY C462
Second Year Seminar
Prerequisite: 2nd year standing in a philosophy programme or permission of the Department. Problems in Moral Philosophy. Topics to be announced. This seminar will conduct the students through a series of problems on moral topics. (6 credits)

PHILOSOPHY C463
Third Year Seminar
Prerequisite: 3rd year standing in a philosophy programme or permission of the Department. Themes selected from modern and contemporary Philosophy. Topics and authors to be announced. (6 credits)

PHILOSOPHY C471
Tutorial in Philosophy
Prerequisite: 18 credits in Philosophy or permission of the Department. If permission for a Tutorial is granted, the Tutorial Director will supervise an intensive reading programme in the student's area of special interest. (3 credits)

PHILOSOPHY C472
Tutorial in Philosophy
Prerequisite: 18 credits in Philosophy or permission of the Department. If permission for a Tutorial is granted, the Tutorial Director will supervise an intensive reading programme in the student's area of special interest. (3 credits)

PHILOSOPHY C480
Author course in Philosophy
Prerequisite: 18 credits in Philosophy or permission of the Department. If permission for a Tutorial is granted, the Tutorial Director will supervise an intensive reading programme in the student's area of special interest. (3 credits)

PHILOSOPHY C485
Kant
Prerequisite: Twelve credits in Philosophy or permission of the Department. An intensive study of Kant's Critique of Pure Reason and related works. (6 credits)

PHILOSOPHY C493
Special Topics in Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. Consideration of a special topic selected from the principal areas of philosophy, e.g. value theory, epistemology, metaphysics, philosophy of mind, philosophy of science, philosophical logic. (6 credits)

PHILOSOPHY C495
Special Topics in Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. Consideration of a special topic selected from one of the principal areas of philosophy, e.g. value theory, epistemology, metaphysics, philosophy of mind, philosophy of science, philosophical logic. (3 credits)

PHILOSOPHY C496
Special Topics in Philosophy
Prerequisite: Six credits in Philosophy or permission of the Department. Consideration of a special topic selected from one of the principal areas of philosophy, e.g. value theory, epistemology, metaphysics, philosophy of mind, philosophy of science, philosophical logic. (3 credits)

PHILOSOPHY C497
Special Topics in Philosophy
Prerequisite: Nine credits in Philosophy or permission of the Department. A student who has received credit in Philosophy C496 registers for additional credits under C497, provided the topics are different. (3 credits)
Students are responsible for satisfying their particular degree requirements. The superscripts indicate credit value.

**72 BSc Honours in Physics**

**Year I**

19 PHYS C2323, C2433, C2443, C2533, C2543, C2952 or both C2911 and C2921, C2931, C2941

**Year I and III**

35 PHYS C3353, C3363, C3443, C3523, C3543, C3643, C3921, C3941, C4343, C4353, C4563, C4773, C4783

6 MATHS C261

12 Credits to be chosen either with the approval of the Department, or from the following two Patterns — A. Experimental or B. Theoretical.

**Pattern A. Experimental**

12 credits chosen from PHYS C3553 or C4653 or C4673 or C4783; C3443 or C4573 or C3921 and C2921, C2931, C2941, C4941 or C4951

**Pattern B. Theoretical**

9 credits chosen from PHYS C3553, C3463, C4673, C4941 or C4951 and 3 credits chosen from PHYS C2952 or both C2911 and C2921; C2931, C2941, C4941 or C4951

**63 BSc Specialization in Physics**

**Year I**

PHYS C2323, C2433, C2443, C2533, C2543, C2952 or both C2911 and C2921, C2931, C2941

**Years I, II and III**

20 PHYS C3523, C3353, C3543, C3643, C3921, C3941, C4343, C4773

6 MATHS C261

18 Credits to be chosen either with the approval of the Department, or from the following two patterns — A. Experimental or B. Theoretical

**Pattern A. Experimental**

18 PHYS C3553, C4653 or C4673, C4783; C2952 and C2962 or C2911 and C2921 and C2931 and C2941; C4941, C4964

**Pattern B. Theoretical**

12 PHYS C3363, C4783, C3443, C4563

3 PHYS C4353 or C4653 or C4673

3 PHYS C3453 or C4573

**90 BSc Specialization in Physics/Marketing**

24 PHYS C2433, C2443, C2533, C2543, C2911, C2921, C2931, C2941, C2952, C2962, C3643, C3941

12 To be chosen from PHYS C3952, C3353, C3363, C3443, C3453, C3523, C3541, C3551, C3921, C3965, C3972, C3434, C4353, C4563, C4573, C4653, C4773, C4781, C4814, C4941, C4951

6 MATHS C261

6 QM C2433, C2443 or equivalent

3 COMP SC C2113

6 ACC C2133, C3403

6 MAN C2133, C3403

6 ECON C2093, C2103

6 MARK C2133, C3503

15 from Department of Marketing

**36 BSc Major in Physics**

**Year I, II and III**

15 PHYS C2433, C2533, C2543, C2911, C2931, C3643, C3941

9 Chosen from PHYS C2323, C2443, C2911, C2921, C2941, C2952, C3353, C3363, C3443, C3523, C3543, C3921, C3941, C4343, C4353, C4563, C4773, C4783

12 To be chosen with the approval of the Department

**NOTE:** Students following the major in Physics must register by November 1 of each year with the Department.

**24 Minor in Physics**

These credits are to be chosen in consultation with the Department.

**NOTE:** Students following the minor in Physics must register by November 1 of each year with the Department.
33 Certificate in Scientific Measurement (Chemistry Option)

19 CHEM C2115, C3102, C3142, C3151, C3191, C3907, C3991, C4903, C4991
14 PHYS C2952, C2962, C3963, C3972

33 Certificate in Scientific Measurement (Physics Option)

18 PHYS C2533, C2543, C2931, C2941, C2952, C2967, C3544, C3553
3 Chosen from PHYS C3443 or C3523 or C3643
5 Chosen from PHYS C3955 or C3965 or C3975
5 MATH C2616

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

PHYSICS C204
Mechanics

NOTE: Science students may not take this course for Science credits. See Physics C224 for laboratory associated with this course.

PHYSICS C205
Electricity and Magnetism
Prerequisite: Physics C204 or equivalent. Electrical field and potential. Capacity, Steady state and transient currents. Electromagnetic induction and alternating currents. Lectures only. (3 credits).

NOTE: Science students may not take this course for Science credits. See Physics C225 for laboratory associated with this course.

PHYSICS C206
Waves and Modern Physics

NOTE: Science students may not take this course for Science credits. See Physics C226 for laboratory associated with this course.

PHYSICS C207
Heat and Sound
Prerequisite: 6 credits of Collegial Physics and 6 credits of Collegial calculus or equivalent. Temperature and thermometry, heat effects, measurement and transfer, thermal properties of matter, thermodynamics, first and second laws, kinetic theory, waves, vibrations and acoustical phenomena. Lectures: 3 hours per week. (3 credits).

NOTE: This course is intended for pre-engineering students. Science students may not take this course for credits.

PHYSICS C210
Discoveries in Physics
A non-mathematical course in physics specifically designed for students who have had little or no experience in physics. It traces the fundamental ideas from which modern physics has emerged and attempts to develop insights into the understanding of natural phenomena. Lectures only. (6 credits).

NOTE: Science students may not take this course for credits.

PHYSICS C215
The Mechanics of Visual Representation
An introductory course combining laboratories and lectures illustrating the basic laws which govern and control the mechanism of image reproduction. Relevant topics concerning the interaction of light and materials are discussed and demonstrated. Students perform experiments with light-sensitive materials, the pinhole camera, light intensity and illumination measurement, human visual response, the gray scale, sensitivity, densitometry, the characteristic curve and ASA, DIN, film speeds are examined in depth. This course parallels Chemistry C260, and both are designed to complement the "Dynamics of Visual Representation" course (Communication Studies C275). This course is designed for students in Communication Studies. Lab & Lectures: 3 hours per week. (3 credits).

NOTE: Science students may not take this course for credits.

PHYSICS C216
Understanding the Physics of Media
The course covers the evolution of Physics in the discoveries that apply to technology and media. This course is designed for Communication Studies students. Laboratory: One 3-hour session per week for two terms. (6 credits).

NOTE: Science students may not take this course for credits.

PHYSICS C217
The Physics of Photo-Reproduction
Prerequisite: Phys C215. A combined laboratory and lecture course designed for students in Communication Studies who have some basic knowledge of physical laws. Ideas introduced in Phys C215 are further developed, covering such topics as exposure measurements and control, and the Standard Association Institute Photographic Exposure Guide. The mechanics of a lens, image formation, f-stops diaphragm openings, the 3-colour composition of light, the colour-temperature scale, and filters, are stud-
PHYSICS C224
Introductory Experimental Mechanics
Prerequisite: Physics C204, previously or concurrently or permission of the Department. A laboratory course covering fundamental experiments in classical mechanics. Experiments will include: Resolution of forces, centrifugal force and conservation of energy, pendulums. Laboratory only, 10 experiments. (1 credit)
NOTE: Science students may not take this course for Science credits.

PHYSICS C225
Introductory Experimental Electricity
Prerequisite: Physics C205, previously or concurrently or permission of the Department. A laboratory course covering fundamental experiments in electricity. Experiments will include Kirchhoff's Law, resistors in series and parallel, oscilloscope, induction, AC Laboratory only. 10 experiments. (1 credit)
NOTE: Science students may not take this course for Science credits.

PHYSICS C226
Introductory Experimental Waves and Modern Physics
Prerequisite: Physics C206, previously or concurrently or permission of the Department. A laboratory course covering the fundamental experiments in waves and modern physics. Experiments include spectrometer measurements, Newton’s rings, and measurements involving radioactivity. Laboratory only. 10 experiments. (1 credit)
NOTE: Science students may not take this course for Science credits.

PHYSICS C232
Theoretical Physics I
Prerequisite: Math C261 previously or concurrently. Introduction to linear algebra, Ordinary Vector Calculus, matrices, determinants, system of linear equations. Introduction to ordinary differential equations with application to physics. (Linear first order and second order ordinary differential equations, power series method, problems from mechanics and electricity). Lectures only (3 credits)

PHYSICS C241
Biomechanics of Human Motion
Prerequisites: Physics C204 or CEGEP Physics 101. The application of elementary laws of mechanics to the understanding of static equilibrium conditions of the human body subjected to external forces — the efficiency of human movement seen from the reference point of physical laws as applied to sports. This course is intended for the physiotherapist, the athlete, and all those interested in understanding body mechanics in the light of inanimate physical laws. Lectures only (3 credits)
NOTE: (Students who have credits for Physics C243 or equivalent may not take this course for credits).

PHYSICS C243
Classical Mechanics I
Prerequisite: Physics C204 or CEGEP Physics 101. Mathematics C261 previously or concurrently. Fundamental concepts, the laws of motion, equilibrium of forces, friction, forces of constraint, centre of mass, work, potential, motion of a particle, motion in resisting media, simple harmonic oscillation, damped oscillations. Lectures only. (3 credits)
NOTE: See Physics C291 for laboratory associated with this course.

PHYSICS C244
Classical Mechanics II
Prerequisite: Physics C243 or equivalent. Central forces, Kepler's Laws, dynamics of a system of particles, mechanics of rigid bodies, Lagrange's equations. Hamilton's equations. Lectures only. (3 credits)
NOTE: See Physics C292 for laboratory associated with this course.

PHYSICS C251
Introductions to Consumer and Commercial Electronics
A course primarily for people who wish to acquire a basic knowledge of some of today’s consumer and commercial electronics. The course consists of a series of lectures, laboratory projects and demonstrations. Topics to be treated are: High Fidelity Amplifiers; Program Sources and Reproducers; AM, FM and SSB Transmission; Black and White and Colour Television Reception; TV Electrics; Electronic Control Systems; Applications of Linear and Digital Integrated Circuits. Lectures: 2 hours per week. Laboratory: 2 hours per week. (3 credits)
NOTE: Science students may not take this course for credits.

PHYSICS C253
Electricity and Magnetism I
Prerequisite: Physics C205 or CEGEP Physics 201 or equivalent. Mathematics C261 previously or concurrently. Electric charge, Coulomb's Law, Electrostatic forces, electric field, Gauss’ Law, electric potential, stored energy. Dielectrics, properties of materials in electric fields. Electric current, conduction in a vacuum and in material media, displacement current, magnetic field of a current, force on a current-carrying wire, magnetic induction, electromagnetic force, energy stored in a magnetic field. Magnetism in material media, magnetic circuits, Time varying fields. Capacitance, resistance, inductance, circuitry. Lectures only (3 credits)
NOTE: See Physics C293 for laboratory associated with this course.

PHYSICS C254
Electricity and Magnetism II
NOTE: See Physics C294 for laboratory associated with this course.

PHYSICS C255
Electronic Instrumentation
This course is recommended for Science students and others who might be working in scientific research laboratories. This course begins with basic electrical measurements and gradually leads to amplifier circuits of vacuum tubes and transistors, operational amplifiers, oscillators, Servo systems as in strip chart recorders, feedback control, digital circuits and other devices currently used in research laboratories. Lectures: 3 hours per week. Lab: 2 hours per week. (4 credits)
PHYSICS C270
Introduction to Energy and Environment

This course is designed for students who have little or no background in physics. Topics covered include: Relationship of physics to environment and energy. Concept and definition of work and energy. Interaction of man and animate objects with the environment. Heat and chemical energy. Electromagnetic and nuclear energy. Conservation of energy — how it affects everyday life. Sources of energy used on earth. Solar energy. Production of wind power, water power, solar cells from sun's energy, biological uses, biopower. Lectures only. (3 credits)

NOTE: Science students may not take this course for credits.

PHYSICS C273
Energy and Environment

PHYSICS C291
Experimental Mechanics I

Prerequisite: Physics C243 previously or concurrently. A laboratory course in mechanics. Experiments include pendulum, coefficient of restitution, centrifugal force, rotational inertia, elastic impact. (1 credit)

PHYSICS C292
Experimental Mechanics II

Prerequisite: Physics C291. A laboratory course in mechanics. Experiments include the use of air tracks to study acceleration, collisions, dissipative forces and periodic motion. Other experiments include viscosity and surface tension of liquids. (1 credit)

PHYSICS C293
Experimental Electricity and Magnetism I

Prerequisite: Physics C253 previously or concurrently. A laboratory course in electricity and magnetism. Experiments include motion of electrons in electric and magnetic fields, exponential relaxation, damped oscillations, resonance, nonlinearity, negative resistance. (1 credit)

PHYSICS C294
Experimental Electricity and Magnetism II

Prerequisite: Physics C293. A laboratory course in electricity and magnetism. Experiments include the transistor, amplification and frequency response, transient response and negative feedback, positive feedback and oscillation, periodic structures. (1 credit)

PHYSICS C295
Experimental Electronics I

Prerequisite: Physics C225 or CEGEP Physics 201 or equivalent. A practical laboratory course in electronics. Experiments include resistors in series and parallel, voltmeter, Ohm's Law, Kirchhoff's Current and Voltage Laws, ohmmeter, capacitor, inductor, transformer, rectifiers, voltage doubler, zener diode, power supplies. (2 credits)

PHYSICS C296
Experimental Electronics II

Prerequisite: Physics C295. A practical laboratory course in electronics. Experiments include oscilloscope, biasing of bipolar transistors, transistor amplifiers, voltage and current regulators, field effect transistor, oscillators, operational amplifier circuits, audio amplifier, I-F transformer, limiter, amplitude and frequency modulation. (2 credits)

PHYSICS C302
Space Physics

A highly descriptive course for university science students in the elements of astronomy, astro-physics, artificial satellite motion and space travel. The topics covered are: The earth and its motions; celestial mechanics; the solar system; elements of atomic physics; radio astronomy; the sun, other stars, galaxies and nebulae; artificial satellite motions; communication satellites; rocket motion; space travel; space missions and their findings; the nature of our universe. Lectures: 3 hours per week for two terms. (6 credits)

PHYSICS C324
Selected Topics in Physics

The topics chosen will vary from year to year. The course is designed to provide students with the opportunity of extending their studies beyond subjects already included in the curriculum. Open to all students with permission of the Department. (3 credits)

PHYSICS C325
Selected Topics in Physics

Students repeating Physics C324 may register for Physics C325 providing the subject matter is different. (3 credits)

PHYSICS C335
Theoretical Physics II

Prerequisite: Physics C232 or equivalent. Linear Algebra: Properties of linear maps, Linear coordinate transformations, eigenvalue problems, Vector space of functions, Sturm-Liouville problem, Fourier Series and applications. Lectures only. (3 credits)

PHYSICS C336
Theoretical Physics III

Prerequisite: Physics C335 or equivalent. Classification and derivation of partial differential equations in physics. Separation of variable technique. The Fourier method for solving partial differential equations. Special Functions. Application to physical problems arising from electrostatics, heat conduction, wave propagation etc. Lectures only. (3 credits)

PHYSICS C344
Advanced Classical Mechanics

Prerequisite: Physics C232 and C244 or equivalent. Lagrangian and Hamiltonian dynamics, collision between particles, motion of rigid bodies, Hamilton-Jacobs theory, eigenvalue problems. Lectures only. (3 credits)

PHYSICS C345
Special Relativity

Prerequisite: Physics C254, C244. Historical introduction, Einstein and relativity, application of the Lorentz transformation, four-vectors, the Lorentz invariance of physical theories. Lectures only. (3 credits)

PHYSICS C352
Optics

Prerequisite: Physics C204 or CEGEP Physics 101 or equivalent. Geometrical optics: General treatment of optical systems. Wave optics: review of simple harmonic motion, wave equation, superposition of waves, electromagnetic waves, scattering, polarization, interference-coherent sources, interference-uniformly extended sources, diffraction, waves in a dispersive medium, lasers. Lectures only. (3 credits)

PHYSICS
PHYSICS C354
Electronics I
Prerequisite: Physics C205 or CEGEP Physics 201 or equivalent. Semi-conductor physics: p-n junction, bipolar transistor, field effect transistor, circuit theory, diode applications, bipolar transistor: h-parameters, small signal amplifiers. Lectures only. (3 credits). See Physics C295 and C296 for associated laboratory courses.

PHYSICS C355
Electronics II
Prerequisite: Physics C354. Biasing of Transistors; Feedback Analysis, common circuits involving operational amplifiers; large signal amplifiers: digital circuits: gates, flip flops, logic functions. Lectures only. (3 credits)

PHYSICS C354
Atomic Physics

NOTE: This course should not be taken before the second year of university studies. See Physics C394 for laboratory associated with this course.

PHYSICS C383
Medical Physics
Prerequisite: CEGEP Pre-Science or equivalent. This course provides a background in the physics needed to understand instrumentation used in the fields of biology and medicine. Topics are taken from the fields of mechanics, properties of materials, thermodynamics, optics, electromagnetic theory and radiation physics. Lectures only. (3 credits)

PHYSICS C392
Experimental Optics
Prerequisite: Physics C352, previously or concurrently. An experimental course in optics. Experiments include diffraction, optical instruments, resonance and various experiments using lasers. Laboratory only. 10 experiments. (1 credit) NOTE A/See § 200.1

PHYSICS C394
Experimental Atomic Physics
Prerequisites: Physics C364, previously or concurrently. An experimental course in atomic physics. Experiments include the Frank-Hertz experiment, the Zeeman effect, Mass spectrometer and some X-ray work. Laboratory only. 10 experiments. (1 credit) NOTE A/See § 200.1

PHYSICS C395
Communication Media Electronics
Prerequisite: Physics C296 or equivalent. Distortion, Noise, I.F. transformers, converters, power supplies, superheterodyne circuits, video amplifiers and detectors, VHF and UHF tuning, automatic gain control, FM and FM detectors, synchronization circuits, sweep circuits, automatic frequency and phase control, color de-modulation, burst gate amplifiers, chromobandpass amplifiers, static convergence, dynamic convergence, high voltage generators, Techniques of troubleshooting electronic circuits. Laboratory only. (3 credits)

PHYSICS C396
Computer Electronics
Prerequisite: Physics C295 or equivalent. Diode clipping circuits, transistor as a switch, multivibrator circuits, logic circuits: Study and troubleshooting of integrated circuit logic gates, J-K flip flops, analogue to digital and digital to analogue converters, frequency divider circuits, digital multiplexers and demultiplexers, pulse distributor logic gates. Study and implementation of basic logic functions and Boolean expressions to program a small digital computer. Laboratory only. (5 credits)

PHYSICS C387
Experimental Medical Electronics
Prerequisite: Physics C295 or equivalent. A laboratory course on the maintenance and use of medical instruments including ECG monitor, electro-cardiograph, cardiactachometer, blood-pressure recorder, respiration rate recorder and clinical thermometer. The component parts of the instruments are studied first and then the instruments are constructed and operated. Laboratory only. (5 credits)

PHYSICS C407
Advanced Topics in Physics
The topics chosen will vary from year to year. The course is designed to provide students with the opportunity of extending their studies beyond subjects already included in the curriculum. Open to all students with permission of the Department. (3 credits)

PHYSICS C429
Advanced Topics in Physics
A student repeating Physics C428, provided that the content is different, registers for credits under Physics C429. (3 credits)

PHYSICS C434
Thermodynamics
Prerequisite: Physics C204 or CEGEP Physics 101 or equivalent. Temperature, simple thermodynamic systems, work, heat and first law. Ideal gas, Van der Waals' gas, heat engines, reversible and irreversible processes, entropy, second law, thermodynamics potentials, kinetic theory. Maxwell distribution, mean free path. Lectures only. (3 credits)

NOTE: This course should not be taken before the second year of university studies. See Physics C494 for laboratory associated with this course.

PHYSICS C435
Statistical Physics
Prerequisite: Physics C364 and Physics C434. Basic probability concepts, statistical description of systems of particles, thermal interactions, microscopic theory and macroscopic measurements, temperature and entropy, M-B, F-D, B-E statistics. Canonical distribution in the classical approximation, general thermodynamics interaction. Lectures only. (3 credits)

PHYSICS C436
Theoretical Physics IV
Prerequisite: Physics C323. Theory of Complex variables leading to Residue theory with applications to Physics. Tensor calculus: tensor algebra, line element, covariant differentiation, applications. Lectures only. (3 credits)

PHYSICS C456
Electromagnetic Theory I
Prerequisite: Physics C354, C336. Derivation of the laws of electrostatics and magnetostatics from the basic experimental laws; method of images; solutions of Laplace's and Poisson's equations for electrostatic problems, magnetism, Maxwell's equations. Lectures only. (5 credits)
PHYSICS C457

Electromagnetic Theory II

PHYSICS C465

Nuclear Physics

PHYSICS C477

Quantum Mechanics I
Prerequisite: Physics C364 and Physics C232 or Physics C244. State functions and their interpretation, wave packet, linear momentum, motion of a free particle, Schrödinger's equation, stationary state, solution, potential wells. Lectures only. (3 credits).

PHYSICS C481

Biophysics I
Prerequisite: University II standing in science or permission of the Department. Biophysical principles of size and shape of organisms, bioenergetics, physiological fluid flows, and mathematical models of biological processes. Lectures only. (3 credits).

PHYSICS C482

Biophysics II
Prerequisite: Physics C481 or permission of the Department. Biophysical and physiological systems analysis, circulatory regulation, muscles, and neural network. Lectures only. (3 credits).

PHYSICS C494

Experimental Thermodynamics I
Prerequisite: Physics C434 previously or concurrently. A laboratory course in thermodynamics. Experiments include Clement and Dorsom's experiment, vaporization, specific heats, liquid nitrogen boiling. Laboratory only. 10 experiments. (1 credit).

PHYSICS C495

Experimental Nuclear Physics I
Prerequisite: Physics C394 and C465 previously or concurrently. A laboratory course in nuclear physics. Experiments include gamma and beta ray spectroscopy, nuclear magnetic resonance, absolute counting, half-life determination, nuclear activities. Laboratory only. 10 experiments. (1 credit).

PHYSICS C496

Methods of Experimental Physics
Prerequisite: Physics C296 or equivalent, and C394 or equivalent or permission of the Department. Experiments include fundamentals of digital logic and applications of operational amplifiers, solid state and nuclear physics. Students are encouraged to propose new experiments and will have the opportunity to design and build equipment. Laboratory only. (4 credits).

PHYSICS C497

Experimental Atomic Physics II
Prerequisite: Physics C364 and C394. An experimental approach to some basic methods of radiation detection and measurement, including alpha, beta, and gamma ray spectroscopy. Other experiments present Hall Effect, Microwaves and Vacuum Techniques. Laboratory only. (2 credits).
The Department of Political Science offers the following programmes of study: a General Honours, an Honours with concentration in a special field of study, a Specialization, a General Major, a Major with concentration in a Special field of study, and a Minor.

Additionally, in cooperation with the Department of Sociology and Anthropology, the Department offers an Honours and a Major programme in Political Sociology.
The Specialization is designed for students who wish to acquire a broad knowledge of the discipline without the additional requirements of the Honours programme.

The programme of courses leading to a Minor in Political Science consists of 24 credits in the Department. The Minor is designed to provide an opportunity for students to make a combination with a Specialization, a Major or Honours in another discipline. A student's Minor will be arranged in consultation with the Department of Political Science so that it relates to courses in the Major area of study.

### Explanation of Course Numbers.

1. Courses in the 200 and 300 range are open to all Political Science students and students in other departments.
2. Courses in the 400 range are open to all students in Political Science who are in their second and third year. Students in other departments may take these courses with the permission of the Political Science Department.

#### Group I International

- **C210** International Relations
- **C311** International Public Law
- **C312** International Law and Power Relations
- **C313** International Organization
- **C317** Regional Organizations
- **C321** The Middle East in World Politics
- **C322** Eastern Europe in World Politics
- **C410** Seminar on Modern World Society
- **C411** Diplomacy
- **C412** Foreign Policy
- **C413** International Justice
- **C416** Peace Studies
- **C417** Strategic Studies
- **C421** Transnational Politics
- **C451** Canadian External Affairs

#### Group II Comparative Politics

- **C230** Comparative Politics of Western Europe
- **C237** The Politics of Developing Areas
- **C238** American Government and Politics
- **C239** British Government and Politics
- **C240** African Government and Politics
- **C241** The Government and Politics of the Soviet Union
- **C242** Women and the Law
- **C243** Contemporary Politics of China
- **C244** Urban Politics
- **C245** Contemporary Politics of Japan
- **C246** Mid-East Political Systems
- **C247** Comparative Political Parties Seminar on Western Political Systems
- **C248** Seminar on Asian Political Systems
- **C249** Seminar on Politics of East Europe
- **C250** Honours Tutorial

#### Group III Canadian

- **C250** Canadian Government and Politics
- **C334** Women and the Law
- **C336** Urban Politics
- **C350** Canadian Public Law
- **C351** Canadian Federalism
- **C352** Canadian Parties, Interest Groups and Public Opinion
- **C353** Quebec Politics
- **C355** Nationalism: The Canadian Experience
- **C363** Issues in Canadian Public Policy
- **C365** Canadian Public Administration
- **C367** Quebec Public Administration
- **C450** Seminar on Quebec Government and Politics
- **C451** Canadian External Affairs
- **C452** Seminar on Canadian Federal, Provincial and Municipal Government
- **C453** The Provinces in Canadian Federalism
- **C454** Seminar on Legislative, Executive and Judicial Decision-Making
- **C471** Political Thought and Ideology in Canada

#### Group IV Public Policy and Administration

- **C260** Comparative Public Administration
- **C261** The Politics of Public Choice
- **C263** Issues in Canadian Public Policy
- **C265** Canadian Public Administration
- **C267** Quebec Public Administration
- **C413** Foreign Policy
- **C454** Seminar on Legislative, Executive and Judicial Decision-Making
- **C460** Seminar on Government and Economic Policy
- **C462** Seminar on Comparative Policy Problems of Advanced Industrial Societies

#### Group V Theory

- **C270** History of Political Theory
- **C271** Ancient Greek Political Philosophy
- **C273** Roman, Medieval and Renaissance Political Philosophy
POLITICAL SCIENCE

C370 Problems and concepts in Political Theory
C371 Early Modern Political Philosophy
C372 Methodology of Political Science
C373 Late Modern Political Philosophy
C375 Nationalism: Origins, Operation, Significance
C377 Catholic Social and Political Thought
C470 Contemporary Political Thought
C471 Political Thought and Ideology in Canada
C472 Seminar on Communications and Politics
C473 Seminar on Political Theory and Historical Understanding
C474 Seminar on Political Theory and Scientific Method
C475 Marxism

Due to the renumbering of courses in the Department, students should consult Section 200 for a list of equivalent courses.

POLITICAL SCIENCE C200 Introduction to Political Science
A description of the features universal to the governing processes of societies and the nature and consequences of the major variations in these processes. The course combines a theoretical and conceptual framework with a study of selected political systems and countries. It is designed to act both as an introduction to the discipline for those students who plan to study further and to serve also those students who require a systematic examination of the field in a single course. (6 credits)
NOTE: This course may be taken for credits in the Urban Studies programme.

POLITICAL SCIENCE C210 International Relations
An introductory course in world affairs. Among the topics covered will be: the historical evolution of the international system; definitions of basic concepts; types of conflict and cooperation among states; environmental, economic, socio-cultural and ideological factors; critical problems, current issues and major trends in world politics. (6 credits)

POLITICAL SCIENCE C230 Comparative Politics of Western Europe
A comparative study of a selected number of Western European countries. Special emphasis will be given to the dynamics of the political process. Most of the illustrative content will be based on Great Britain, France and the Federal Republic of Germany. (6 credits)

POLITICAL SCIENCE C235 The Politics of Developing Areas
A study of the politics and structures of government in developing areas such as Asia, Africa or Latin America against the background of social and economic change since World War II. The specific area which will be studied will vary from year to year depending on the interests of the instructor. (6 credits)
NOTE: This course may be taken for credits in the Asian Studies Programme.

POLITICAL SCIENCE C250 Canadian Government and Politics
An institutional and functional analysis of the Canadian federal system. The course centers upon the major problems of concern in the Canadian political process and considers the formal and informal institutions within which these problems might be solved. The political system is studied within the context of federalism: the electoral system; political parties; interest groups; public opinion and the Canadian political culture. (6 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

POLITICAL SCIENCE C270 History of Political Theory
A general survey of the writings of the Great thinkers in the western political tradition from the classical period to the middle of the 19th Century. This course provides a general introduction to the history of political thought. (6 credits)
(Students who have taken POLI C271 or C273 will not be able to take this course for credit).

POLITICAL SCIENCE C271 Ancient Greek Political Philosophy
A study of the political thought of the ancient Greeks. The principal texts to be studied are The Republic of Plato and The Politics of Aristotle. This course is particularly recommended for students in the political theory area of concentration. (Students who have taken POLI C270 may not take this course for credit. (3 credits)

POLITICAL SCIENCE C273 Roman, Mediaeval and Renaissance Political Philosophy
A study of the political thought of Rome, the middle ages and the Renaissance, with special emphasis upon the political writings of Cicero, St. Augustine, St. Thomas Aquinas and Machiavelli. This course is recommended for students in the political theory area of concentration. Students who have taken POLI C270 may not take this course for credit. (3 credits)

POLITICAL SCIENCE C311 International Public Law
An introductory course in legal inter-state relations. Among the topics covered will be: the sources and development of law; relationships with municipal law; meaning of legal concepts; rights and duties of states; sovereignty and territoriality; state recognition and succession. (3 credits)

POLITICAL SCIENCE C313 International Law and Power Relations
A general course on the role of law in world politics. Among the topics covered will be: the theory and reality of law; international transactions and diplomatic law; customary and treaty law; judicial settlement of disputes; the laws of war and neutrality. (3 credits)

POLITICAL SCIENCE C315 International Organizations
An introductory course in intergovernmental institutions. Among the topics covered will be: the development of international public unions; the League of Nations and the United Nations; the structure and function of international administration; specialized agencies and world order. (3 credits)

POLITICAL SCIENCE C317 Regional Organizations
A general course in international structural integration. Among the topics covered will be: the dynamics of socio-political unification; theories of regionalism; supra-national communities and common markets. Emphasis will be given to institutions such as the EEC, COMECON, OAS, OAU, LAFTA and ASEAN. (3 credits)
POLITICAL SCIENCE C321
The Middle East in World Politics
An area study of the Mid-Eastern states in international affairs. Among the topics covered will be: the Islamic Heritage; Arab nationalism and Zionism; the Arab-Israeli conflict and the USA-USSR power struggle. (3 credits)

POLITICAL SCIENCE C323
Eastern Europe in World Politics
The course will deal with the role of the Soviet Union and its East European allies in international affairs. Among the topics covered will be: the ideological foundations and historical development of socialist foreign policy; problems of domestic security, defense, international trade, foreign aid, and expansion of influence; the East European alliance system, CEMA and the WTO (Warsaw Pact). (3 credits)

POLITICAL SCIENCE C330
American Government and Politics
A study of American politics which will deal not only with formal political institutions such as the legislature, the executive and the judiciary, but also with the processes and problems of government: public opinion, political parties, pressure groups, health and welfare, foreign policy and racial problems. (6 credits)

POLITICAL SCIENCE C331
British Government and Politics
Government and politics in Britain with particular emphasis on political parties and pressure groups, the changing role of the legislature and executive, and the Public Corporations. The issues of current constitutional interest will be discussed such as the office of Prime Minister and Parliamentary sovereignty. (3 credits)

POLITICAL SCIENCE C332
African Government and Politics
The government and politics of African states south of the Sahara with reference to traditional political systems, colonial policies, nationalism, and the problem of nation building. (6 credits)

POLITICAL SCIENCE C333
The Government and Politics of the Soviet Union
A study of the government and politics of the Soviet Union. Discussion of the basic theories of Communism and the evolution of the Soviet System. (3 credits)

POLITICAL SCIENCE C334
Women and the Law
Prerequisite: Political Science C200 or equivalent. An historical comparative study of the status of women as seen in different legal systems. The course will deal with women in relation to private, family and public law. The framework will be primarily legal, but will also include a consideration of the social and political implications of women's legal status. Special attention to be directed to Quebec and Canadian law. (6 credits)

POLITICAL SCIENCE C335
Contemporary Politics of China
An analysis of the political development and change of China since the triumph of Communism in China with special emphasis on the role of the CCP, mass mobilization and prospect, and influence on Asia and world politics. (3 credits)

POLITICAL SCIENCE C336
Urban Politics
Prerequisite: Political Science C200 or C250. A course in the problems and prospects in urban politics with special emphasis on the processes of the local community. This course, although dealing primarily with urban politics in Canada, will also go beyond national boundaries for its comparative treatment. (6 credits)

POLITICAL SCIENCE C337
Contemporary Politics of Japan
An analysis of the political change and development of Japan since the end of World War II with special emphasis on the reorientation of Japan, characteristics of Japanese modernization and of post-industrial politics, problems of national post-industrial politics, problems of national security and constitutional pacifism, and influence on Asia and world politics. (3 credits)

POLITICAL SCIENCE C339
Mid-East Political Systems
A comparative study of selected Mid-East Governments (Egypt, Iraq, Israel, Jordan, Lebanon, Libya, Saudi Arabia, Syria, Turkey and Yemen). (3 credits)

POLITICAL SCIENCE C350
Canadian Public Law
This course is an introduction to Canadian Public Law emphasizing such areas as constitutional law, criminal law, administrative law, applications for bail, and consumer protection. In addition, the course will involve a study of the organization and functioning of the court system. (6 credits)

POLITICAL SCIENCE C351
Canadian Federalism
Prerequisite: Political Science C250. A critical and analytical study of the theory of federal government and its application to the nature, principles and techniques of federalism in Canada. The reaction of the Canadian federal system to the demands of cultural dualism and regional pressures. Some attention will also be given to the problems of provincial governments and Federal-Provincial relations. (3 credits)

POLITICAL SCIENCE C352
Canadian Parties, Interest Groups and Public Opinion
Prerequisite: Political Science C250. An examination of the functions of parties and interest groups with an emphasis on political socialization, ideology, political recruitment, and leadership selection. Attention will also be given to the formulation and expression of public opinion and its impact on public policy. (6 credits)

POLITICAL SCIENCE C353
Quebec Politics
Prerequisite: Political Science C250. A study of the changing party structure and political issues in Quebec and their relationship to constitutional, cultural and economic factors. (3 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.

POLITICAL SCIENCE C355
Nationalism: The Canadian Experience
Prerequisite: Political Science C250 or permission of the Department. Examines the origins and development of nationalism and regionalism in Canada with particular attention centered upon the interaction between French-Canadian and English-Canadian nationalist sentiments. Considers the varieties and divergences of nationalist and regionalist sentiment in Canada with those of European nationalism, and evaluates their significance with regard to the development of the Canadian federation and its capacity to confront the realities and demands of the modern technological environment. (3 credits)
POLITICAL SCIENCE C360
Comparative Public Administration
Concerned with the theories and maxims as well as with the development of public administration. The student is introduced to issues such as the organization of governmental departments, budget policy, decision-making in government administration, personnel selection and training methods as well as the application of efficiency ratings. There is, throughout, strong emphasis on attitudes and differences pertinent to the civil service in a selected group of countries. (6 credits)

POLITICAL SCIENCE C361
The Politics of Public Choice
The course will examine the latest theoretical literature on the problems of social choice in domestic policy making. It will assess the influence of social, cultural, ideological economic and political factors on the formation of public policies and will analyze the impact of citizen participation at both elite and mass levels. (3 credits)

POLITICAL SCIENCE C363
Issues in Canadian Public Policy
The course will examine alternative public policies in selected areas at the federal, provincial and municipal levels in Canada, leading toward the development of individual research projects. Policies analyzed will vary from year to year and will include such areas as: social welfare policy, culture, education and language policy, environmental protection, energy conservation, urban renewal, economic policy. (3 credits)

POLITICAL SCIENCE C365
Canadian Public Administration
Prerequisite: Political Science C250 or permission of the Department. This course will examine the organization and composition of the federal bureaucracy, the role of the bureaucracy in the making and execution of public policy, patterns of recruitment, and the mechanisms of accountability and control over the behavior of these bodies. (3 credits)

POLITICAL SCIENCE C367
Quebec Public Administration
Prerequisite: Political Science C250 or permission of the Department. This course will examine the organization and composition of the provincial bureaucracy, the role of Quebec civil servants in the making and execution of public policy, patterns of recruitment, and the mechanisms of accountability and control over the behavior of these bodies. (3 credits)

POLITICAL SCIENCE C370
Problems and Concepts in Political Theory
Prerequisite: Political Science C270 or C271 and C273. A course in political theory which examines central concepts in political thinking such as liberty, equality and power. The content of the course will include basic methodology and terminology to the extent that the thematic orientation in any given year requires its inclusion. (6 credits)

POLITICAL SCIENCE C371
Early Modern Political Philosophy
The Reformation and rise of modern individualism. The principal political thinkers studied in this period will be Luther, Calvin, Bellarmine, Bodin, Hobbes, Harrington, Locke. (3 credits)

POLITICAL SCIENCE C372
Methodology of Political Science
A study of the contemporary subject matter and methods of political science. The course deals with: 1) fundamental concepts, principles, institutions, and processes of politics; 2) methods and techniques of the study of Politics including an introduction to statistical analysis; 3) present approaches such as functionalism, behaviouralism, and practical laboratory periods. (6 credits)

POLITICAL SCIENCE C373
Late Modern Political Philosophy
The Enlightenment and its critics and the political thought of the early industrial period. The most important thinkers to be studied in this period are: de Montesquieu, Hume, Rousseau, Burke, J. S. Mill and Marx. (3 credits)

POLITICAL SCIENCE C375
Nationalism: Origins, Operation, Significance
Examines the foundations of nationalist ideology developed originally in the early 19th Century as a purely European phenomenon. Considers specific nationalist ideologies — European, Asian, African, etc. — with regard to their modality of operation and their significance in relation to a society's capacity to evolve and confront the demands, both internal and external, of the contemporary environment. (3 credits)

POLITICAL SCIENCE C377
Catholic Social and Political Thought
An inquiry into contemporary Catholic social and political thought as stated in papal encyclicals; a broad survey of Catholic political activity as manifested in the European and Latin American Christian Socialist and Christian Democratic movements and parties. (3 credits)

POLITICAL SCIENCE C391
Selected Topics in Political Science
Prerequisite: Permission of the Department. The topic will vary with the special interest of the instructor offering the course in any given year. (3 credits)

POLITICAL SCIENCE C393
Selected Topics in Political Science
Prerequisite: Permission of the Department. The selected topic will vary with the special interest of the instructor offering the course in any given year. (3 credits)

POLITICAL SCIENCE C410
Seminar on Modern World Society
Prerequisite: Permission of the Department. An advanced study of various conceptions of the modern world society. Among the topics considered will be: the impact of technology on modern society and the problems it poses for international world order; the various theoretical models (i.e. federalist, functionalist, culturalist) proposed to solve these problems and promote international order. (6 credits)

POLITICAL SCIENCE C411
Diplomacy
Prerequisite: At least 3 credits in International Affairs. A specialized course on the art of statesmanship and the practice of diplomacy. Among the topics covered will be: diplomatic intelligence and communication; protocol, rhetoric and propaganda; negotiating techniques and treaty-making; informal consultations and conference diplomacy, conflict resolution and conciliation of national interests. (3 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.
POLITICAL SCIENCE C413
Foreign Policy
Prerequisite: At least 3 credits in International Affairs. A specialized course analysing the foreign policy-making process. Among the topics covered will be: environmental influences, socio-economic factors, psychological images and identities; the national interest and foreign constraints; decision-making criteria; policy evaluation and feedback. (3 credits)

NOTE: This course may be taken for credits in the Asian Studies Programme.

POLITICAL SCIENCE C415
International Justice
Prerequisite: At least 3 credits in International Affairs. A specialized course on the role of morality in world affairs. Among the topics covered will be: Human Rights and collective values; individual obligation and state responsibility; relativistic ethics and universal standards; natural law and equity; international stratification and inequality; international courts of justice and the legitimation of world order. (3 credits)

POLITICAL SCIENCE C417
Peace Studies
Prerequisite: At least 3 credits in International Affairs. A specialized course on the theory and practice of world peace. Among the topics covered will be: the causes of war and the conditions of peace; human aggression and the peace movement; structural violence and revolution; nationalism and cosmopolitanism; disarmament and peacekeeping. (3 credits)

POLITICAL SCIENCE C419
Strategic Studies
Prerequisite: At least 3 credits in International Affairs. A specialized course in power politics and defence policy. Among the topics covered will be: balance of power and collective security, military alliances and spheres of influence; the East-West cold war and detente; theories of geopolitics and imperialism; nuclear weapons and the arms race; deterrence and game theory. (3 credits)

POLITICAL SCIENCE C421
Transnational Politics
Prerequisite: At least 3 credits in International Affairs. A specialized course in power politics of various aspects of the three levels of government and the way in which they interact. General emphasis will be on case studies and original research. (6 credits)

POLITICAL SCIENCE C430
Comparative Political Parties
A study of the history, ideology and organization of a selected number of countries representing different political systems. (6 credits)

POLITICAL SCIENCE C432
Seminar on Western Political Systems
A seminar on the political systems of western Europe and North America. (6 credits)

POLITICAL SCIENCE C434
Seminar on Asian Political Systems
A discussion of selected themes — nationalism, communism, process of modernization and/or Asian political institutions, political forces and foreign policies. The topics may vary from year to year depending upon the interests of the instructor. (6 credits)

POLITICAL SCIENCE C436
Seminar on Politics of East Europe
A study of selected problems of government in the Soviet Union and Eastern Europe. (6 credits)

POLITICAL SCIENCE C438
Honours Tutorial
Prerequisite: Third-year Honours standing. Students will choose an area of study from one of the various fields in Political Science and, under the guidance of a faculty supervisor, must prepare and submit an appropriate Honours research paper. (6 credits)

POLITICAL SCIENCE C450
Seminar on Quebec Government and Politics
Prerequisite: Political Science C250 or C353. An institutional and functional survey of the executive, legislative, judicial and administrative branches of the Quebec government. A detailed study of Quebec's jurisdictional and fiscal problems with the federal government. Discussion on the political process in Quebec: the electoral system, political parties, pressure groups and public opinion. The role of the Catholic Church in Quebec politics. A study of the most important thinkers in French Canada. (6 credits)

POLITICAL SCIENCE C451
Canadian External Affairs
Prerequisite: Political Science C210 or C250. This course will study Canada's position in the world. The presentation will include an outline of the diplomatic history of Canada, as well as an analysis of its foreign and defence policies. Emphasis will be given to the decision-making process by which policy is formulated and executed, with particular reference to Canadian relations vis-a-vis the United States; the Commonwealth; and the United Nations. (3 credits)

POLITICAL SCIENCE C452
Seminar on Canadian Federal, Provincial and Municipal Government
Prerequisite: Political Science C250. An analysis of various aspects of the three levels of government and the way in which they interact. In general, the emphasis will be on case studies and original research. (6 credits)

POLITICAL SCIENCE C453
The Provinces in Canadian Federalism
Prerequisite: Political Science C250. An analysis of regional political cultures in Canada: the development of provincial parties and public administrations; the rise of third parties; electoral behaviour and provincial public opinion. (3 credits)

POLITICAL SCIENCE C454
Seminar on Legislative, Executive and Judicial Decision-Making
Prerequisite: Political Science C250. An examination, using Canada as the model, of formation of decisions in the legislative, executive and judicial branches of government. (6 credits)

POLITICAL SCIENCE C460
Seminar on Government and Economic Policy
Prerequisite: Political Science C250 or C351. A seminar on the role of government in the economic life of different countries; the relation of economic and political power, the changing balance of public and private power in political systems. Emphasis will be on Canadian government and economic policy formation. (6 credits)
Seminar on Comparative Policy Problems of Advanced Industrial Societies
Prerequisite: Political Science C361 or C363 or permission of the Department. The seminar will examine in a comparative framework some of the major policy problems confronting advanced industrial societies (East and West). The aim of the seminar is to understand how similar problems are approached by different political systems and to discover what we can learn in Canada from the experience of other societies in managing socio-economic change. (6 credits)

Contemporary Political Thought
Prerequisite: Political Science C270 or C271 and C273 or C371 and C373. A study of the most important political thinkers and the main currents of political thought in the past century. (6 credits)

Political Thought and Ideology in Canada
A study of the writings of the most significant political and social thinkers in Canada, and of the main ideological orientations in Canadian politics. (3 credits)

Seminar on Communications and Politics
Prerequisite: Permission of the Department. This course will include communication and national unity, communications and social mobilization, politics and the mass media, the use of political symbols, communication and authority and the "Canadian School" of culture and communications, based on Harold Innis. (6 credits)

Seminar on Political Theory and Historical Understanding
Prerequisite: Political Science C270; or C271 and C273; or C371 and C373. An advanced seminar on the relation between historical understanding and political thought. (3 credits)

Seminar on Political Theory and Scientific Method
Prerequisite: Political Science C270; or C271 and C273; or C371 and C373. An advanced seminar on the problems of applying scientific method in the study of politics. (6 credits)

Marxism
Prerequisite: Political Science C270; or C271 and C273; or C371 and C373. A critical examination of the major texts of Marx and Engels and a study of representative selection of Marxist thinkers chosen from among the following: Kautsky, Plekhanov, Lenin, Luxemburg, Trotsky, Stalin, Lukacs, Gramsci, Althusser, Mao. (3 credits)

Advanced Topics in Political Science
Prerequisite: Permission of the Department. This course is designed primarily for Honours students. Its purpose is to provide an opportunity for students to intensify their study beyond the areas of specialization already represented in the curriculum. The topic will vary with the special interest of the instructor offering the course. (6 credits)

Advanced Study in a Special Subject
Prerequisite: 6 credits in Political Science and enrolment in a Major or Honours programme in the Social Sciences. Subject matter will vary from year to year depending on the interests of the instructor. This course will provide opportunities to senior students for discussion and advanced study. (6 credits)

Advanced Study in a Special Subject
Prerequisite: 6 credits in Political Science and enrolment in a Major or Honours programme in the Social Sciences or permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the instructor. This course will provide opportunities to senior students for discussion and advanced study. (3 credits)

31.27.1 LOYOLA PROGRAMMES
(For Sir George Williams Programmes see §31.27.2)

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

The programmes listed below may be superseded by new programmes reflecting the unified Departmental structure. Students are advised to consult with the Department before registering for any Psychology programme.

60 BA Specialization in Psychology (Loyola)

Year I
12 Psyc L2026, L2033, L2053

Years II and III
6 Psyc L3013 and L3033, or Psyc L3053 and L3073, or Psyc L3073 and L3093, or L3013 and L3053, or Psyc L3013 and L3093

12 Elective credits, of which:
12 are from Category I courses
12 are from Category II courses
18 are from either I or II

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.

75 BSc Honours in Psychology (Loyola)

Year I
12 Psyc L2026, L2033, L2053
9 (Biol C2303, Chem C2213, C2223) or (Math C3513, C2813, Phys C3523)

Year II
6 Psyc L3013 and L3033, or Psyc L3053 and L3073, or Psyc L3073 and L3093, or L3013 and L3053, or Psyc L3013 and L3093

Year III
12 Psyc L4009, L4026
6 Science elective credits
30 Psyc elective credits in any year, of which:
18 are from Category I courses
12 are from Category II courses

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.

50 BA Honours in Psychology (Loyola)

Year I
12 Psyc L2026, L2033, L2053

Year II
6 Psyc L3013 and L3033, or Psyc L3053 and L3073, or Psyc L3073 and L3093

Year III
12 Psyc L4009, L4026
30 Elective credits in any year, of which:
12 are from Category I courses
12 are from Category II courses
6 are from either I or II

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.
PSYCHOLOGY

69 BSc Specialization in Psychology (Loyola)

Year I
12 Psy L2026, L2033, L2053
9 (Biol C2301, Chem C2213, C2223) or (Math C2813, C3513, Phys C3523)

Year II and III
6 Psy L3013 and L3033, or Psy L3053 and L3073, or Psy L3074 and L3094, or Psy L3013 and L3053, or Psy L3013 and L3093

42 Psy elective credits in any year, of which:
24 are from Category I courses
12 are from Category II courses
6 are from either I or II

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.

69 BSc Specialization in Psychology and Biology (Loyola)

Year I
12 Psy L2026, L2033, L2053
6 Chem C2213, C2223
3 Biol C2303

Year II
12 Biol C3319, C3609 or C2603 and C3633

Year III
12 Biol C3334, C4336
24 Psy elective credits in any year, of which:
12 are from Category I courses
12 are from Category II courses

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.

51 BSc Major in Psychology (Loyola)

Year I
12 Psy L2026, L2033, L2053
9 (Biol C2301, C2213, C2223) or (Math C2813, C3513, Phys C3523)

Year II and III
30 Psy elective credits, of which:
18 are from Category I courses
12 are from Category II courses

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.

42 BA Major in Psychology (Loyola)

Year I
12 Psy L2026, L2033, L2053

Years II and III
30 Psy elective credits, of which:
12 are from Category I courses
12 are from Category II courses
6 are from either I or II

NOTE: Of these electives, 12 credits shall be 300 or 400 level courses.

The Department of Psychology offers at Loyola a programme leading to a BA and a BSc with a Major, Honours degree or Specialization in Psychology. The BSc programme (Major, Honours, or Specialization) offers two options; either Chemistry-Biology or Mathematics-Physics. In addition, there is a BSc Specialization in Psychology and Biology. Double Majors with other departments can be arranged. The curriculum is designed to provide for a broad general education, as well as to give adequate preparation for graduate studies in Psychology. Although some courses in Applied Psychology are offered, the major emphasis of the programme is theoretical and experimental.

Students entering the Arts or Science programme in Psychology must have satisfied the admission requirements as outlined in § 31.2 Students wishing to take Psychology 406, Directed Readings, should prepare, before the beginning of the Fall term, a list of books that have relevance to the problem area undertaken for study by the student. For courses at the 300 and 400 level, there are specific prerequisites. The relevant prerequisites are listed with each course. Students wishing to take these courses who do not have the necessary prerequisites may register for the course with approval of the instructor. Students in their third year are to take Psychology courses only at the 300 and 400 levels. Among their Psychology electives, all Honours, Major, and Specialization students must choose a specified number of credits from both Category I and Category II.

NOTE: Science electives must be chosen from the following departments: Physics, Chemistry, Biology, Geology, Mathematics.

Description of the Major Programme

A Major consists of a minimum of 42 credits in Psychology for both the BA and the BSc, including Psychology L202, L203 and L205 in the first year. These courses will provide the student with practical experience in psychological research of all types, and an understanding of the philosophical and scientific origins of Psychology and of the epistemological basis of scientific research methodologies. In addition, the BSc programme requires nine Science credits in either Chemistry and Biology or in Mathematics and Physics.

Description of "Specialization" Programme

The department offers Specializations to students in both Arts and Science, which afford a greater degree of specialization in the field than does a Major programme. A total of 60 credits in Psychology are required, including L202, L203 and L205 in the first year and six credits chosen from one of five streams in the second year. In addition, the Specialization in Science includes nine required credits from either Biology and Chemistry or Mathematics and Physics.

Description of the Honours Programme and Special Requirements

The department offers an Honours degree in both Arts and Science. Honours represents a greater degree of specialization in the field than a Major programme allows and is an indication of higher academic standing. In order to be admitted to the programme a
student must have met the same criteria which define the successful Honours student. A student not meeting these requirements will lose his Honours status, but may continue in the Major or Specialization programmes.

Acceptance for the Honours Programme will depend upon performance during the first University year. Students wishing to register for Honours must apply at the end of the first year and not later than registration time in the second year. It is possible, however, for a student who, although he may not have been registered as an Honours student, nonetheless has the necessary requirements, to enter the programme at any time before registration for the final year. The standing of Honours students will be reviewed each year by the department. Those students wishing to apply for admission should obtain an application form from the secretary's office, BR-306, Bryan Building. The completed application together with one copy of the applicant's latest transcript of grades must be filed with the secretary. All applicants will be notified in writing of their acceptance or non-acceptance into the Honours programme. Successful applicants will be required to meet with a faculty sponsor to work out their course programme.

Psychology L402, Honours Seminar, is a course for Honours students only.

NOTE: Cognate electives are to be decided upon in consultation with the Department.

PSYCHOLOGY L200
Introductory Psychology
This course is intended for the general Arts and Science student. In addition to introducing some major ideas and findings of Theoretical Psychology, we will examine the advantages and strengths of a behaviouristic approach which studies man as an organism by means of the experimental methods of the biological and social sciences. We will also explore some esoteric psychologies. This course does not constitute a Psychology credit for the Psychology Major or Honours student. Lectures: 3 hours per week for two terms or six hours per week in the second term. (6 credits)

NOTE: This course may not be taken for Psychology credit by Psychology students.

PSYCHOLOGY L202
Historical Approach to Systematic Psychology
This is a comprehensive course which is intended to give an appreciation of how and why Psychology developed as it did in relation to historical-cultural milieux, major trends in intellectual history, contending philosophical assumptions and technical and methodological developments. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L203
Statistics I
Material presented in this course will include: Probability theory, frequency and probability distribution, measures of central tendency and dispersion, theory of sampling distributions, normal distributions, theory of hypothesis testing and the theory of inferences about population means. The material is intended to provide both a theoretical and a practical foundation in statistics for the student interested in conducting or utilizing the results of psychological research. Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY L204
Human Motivation
This course will consider determinants of human motivation. Theories of human motivation will be studied and evaluated. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L205
Research Methods I
A lecture and laboratory course in basic methods used in psychological research. Students will be required to design, conduct, analyze and report on a number of experiments. Required course for all majors in Psychology. Lectures: 3 hours per week, first term. Lab: 3 hours per week, first term. (3 credits)

PSYCHOLOGY L206
Developmental Psychology
A study of physical, cognitive, emotional and social development, with emphasis on childhood, adolescence and normal development, with some consideration of age-related deviant patterns. The course is given in lecture style, but with weekly informal workshops on special interest areas and on the development of students' skills in observational methods. Students are required to carry out observations of children in a variety of natural settings. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L208
Personality: Normal and Abnormal
The organization, functioning and development of personality will be elaborated according to personality theories. Evidence from experimental and field studies which are relevant to personality will be related to the basic theoretical development. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L210
Sensation and Perception
In this course the importance of sensory systems in interpreting (perception) as well as receiving (sensation) information about the external world will be considered. The psycho-physical study of the five human senses will be complemented by behavioural and neuro-physiological studies in animals. General principles of sensory function and their interrelationships will be stressed. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L212
Learning
The course is a study of behaviour in terms of the principles of conditioning and learning. The first half of the course is concerned with the basic issues central to conditioning and learning. In the second half the emphasis is on human learning. Lectures: 3 hours per week for two terms. Lab: To be scheduled during regular classes. (6 credits)

PSYCHOLOGY L213
Psychology in Action: Developments in the Science and Application of Psychology
"Psychology is a heterogeneous science". This fact is represented by subdividing the American Psychological Association into 30 divisions of interest. The origins of each psychology specialty will be determined and the changes leading to the actual nature of each psychology field will be covered. There will be a seminar/lecture format. Lectures: 3 hours per week, first term. (3 credits)
PSYCHOLOGY L215
Anatomical and Physiological Bases of Motivation and Emotion I
An introduction to the gross structure and physiological functions of the central nervous system in relationship to behaviour. Consideration will be given to phylogenetic development, sensory and motor systems, and functional disorders of brain damage. This course is a prerequisite for Psychology L313. Lectures: 3 hours per week, first term. (3 credits)

PSYCHOLOGY L300
History of Psychology
Prerequisites: Psychology L202, L203, L205. A survey of the historical antecedents of modern theoretical and applied psychologies with application of the historical perspective to understanding the twentieth century system of psychology and some contemporary theories, methods, issues and trends within the discipline. The course is given in seminar style with at least one written paper. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L301
Statistics II
Prerequisites: Psychology L203, L205. Material presented in this course will include: “chi-square” and “F distributions”, the “fixed effects” models for analysis of variance, regression and correlation. “Chi-square” tests and non-parametric tests of hypotheses. This material is intended to provide both a theoretical and a practical foundation in statistics for the student interested in conducting or utilizing the results of psychological research. Lectures: 3 hours per week, first term. (3 credits)

PSYCHOLOGY L302
Social Psychology
Prerequisite: Psychology L202. An introduction to the methodology, concepts, and research in some areas of contemporary social psychology. Group dynamics such as coalition formation, group problem-solving, communication networks, and leadership will be considered along with social influences such as interpersonal perception, conformity, attitude development, and change and aggression. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L303
Research Methods II
Prerequisites: Psychology L203, L205, L301. This course is a continuation of Research Methods I. This part of Research Methods will be devoted to a critical examination of more complex experimental designs used in Psychology. Students will be required to design, conduct, and evaluate experiments, and an opportunity will be provided for independent research. Lectures: 3 hours per week, second term. Lab: 3 hours per week, second term. (3 credits)

PSYCHOLOGY L304
Practicum in Early Childhood Development
Prerequisites: Psychology L202, L206. This course combines an intensive study of development in early childhood with practical experience in a preschool. In addition to one class meeting per week, each student must be able to commit himself or herself to three hours per week of observation and work as a teacher’s aide. After an introductory study of nursery school philosophy and observational methods, weekly seminars and readings will focus on aspects of child development which are observable in the nursery school, such as motor development, language, play, social interaction, concept formation, use of art and play materials, behaviour in routine situations, etc. The course assumes previous course work in developmental psychology or its equivalent. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L305
Sensory Behaviour
Prerequisites: Psychology L202, L203, L205. This course is designed to introduce the student to theory and methods, i.e., fractionation and equation methods, etc. This course will appeal to those students interested in attitude measurement and test construction. Lectures: 3 hours per week for one term. Lab: Possible seminars and/or labs. (3 credits)

PSYCHOLOGY L306
Community Psychology
Prerequisite: Psychology L202. This course will give the student an understanding of the problems of man-in-society and consider basic areas of psychological knowledge as they bear upon the behaviour of man-in-institutions: that is, the strategies that man used to create a habitat which in turn determines his development. The contributions of psychology to community leadership in the search for new and better personal, social, cultural and ecological arrangements will be considered as they relate to such institutions as industry, education and the health, welfare and political structures. Lectures and seminars: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L307
Measurement
Prerequisites: Psychology L202, L203, L205. This course will define fundamental, derived and “pointer” measurement in science, and will examine the nature of psychological tests as “pointer” measures. The notion of “uniqueness” of a scale will be defined and related to the feasibility of performing arithmetic operations on measurement scores. Lectures: 3 hours per week for one term. (3 credits)

PSYCHOLOGY L308
Human Information Processing
Prerequisite: Psychology L202. Examines the way in which sensory input is transformed, recognized, stored, recovered and used. The course addresses such topics as pattern and speech recognition, memory and attention, decision-making and reasoning in the context of recent experimental and theoretical work. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L309
Field Research Methodology
Prerequisite: Psychology L202. Introduction to issues, rationales and techniques of analyses of complex behaviour in non-laboratory, field settings. Examples for study will be drawn from applied fields such as community and social issues, clinical and counselling, psychology, education, and industry. Lectures: 3 hours per week for one term. Labs: to be arranged. (3 credits)

PSYCHOLOGY L310
Behaviour Disorders
Prerequisite: Psychology L208. Offered primarily to students in psychology. Designed to acquaint the student with contemporary approaches to abnormal psychology. The course will include discussion of a broad range of abnormal behaviour patterns, including the psychoses, psychoses, psychosomatic disorders, conduct disorders and maladaptive group behaviour. Problems of causality, classification, assessment and treatment will be elaborated. Attention will also be given to new perspectives on prevention of disordered behaviour. Lectures: 3 hours per week for two terms. (6 credits)
PSYCHOLOGY L312
Animal Behaviour
Prerequisite: Psychology L202. The study of animal behaviour, its description, function and causes from a comparative bio-psychological point of view. Lectures: 3 hours per week for two terms. Possibly seminars and/or labs scheduled during regular lecture periods. (6 credits)

PSYCHOLOGY L313
Anatomical and Physiological Bases of Motivation and Emotion I
Prerequisite: Psychology L215. A study of determinants: neural, hormonal, stimulus, experiential of behaviour. Emphasis will be on factors which account for the initiation, direction, and regulation of behaviour. Animal and human research data underlying major psychological theories of motivated behaviours will be emphasised. Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY L314
Physiological Psychology
Prerequisites: Psychology L202, L203, L205, L215. A study of some biochemical and physiological mechanisms underlying behaviour. The topics studied include enzymes, nucleic acids, the nervous, endocrine and sensory systems, response mechanisms, emotions, etc. A good background in biology, though not required, is strongly recommended. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L315
Psychotherapy of Time
Prerequisite: Psychology L202. A basic framework for behaviour is time. A review of psychological studies of time from the beginning of the scientific study of psychology will be undertaken. Experiments and theory will be considered in the frames of reference of biological, psychophysical, psychoanalytic, and social psychology. An experiment which may replicate a previous study will be carried out. Lectures: 3 hours per week, second term. (3 credits)

PSYCHOLOGY L317
The Psychology of Communication and Language
Prerequisite: Psychology L202. This course will deal with nonverbal communication systems among infrahuman and human organisms. Primary emphasis, however, will be laid upon language which will be treated in terms of its structures and functions. Topics chosen from among language acquisition, theories of meaning and the use of language, types of language classification, language and socialization and other cognitive dimensions of language. Lectures/seminars: 3 hours per week, first term. (3 credits)

PSYCHOLOGY L319
Psycholinguistics
Prerequisite: Psychology L202. This course will begin by introducing the student to the general ideal of "a grammar" and will then proceed to the following topics:
(a) Constituent Structure and Transformational Grammars,
(b) Cognitive Implications of Transformational Grammars,
(c) The Concept of a "Morpheme" and its Meaning, and
(d) Phonemes, Phonemes and Speech. Lectures: 3 hours per week. second term. (3 credits)

PSYCHOLOGY L321/L323
Selected Topics in Psychology
Prerequisite: Permission of the instructor. Subject matter will differ from one offering to another. The course provides students with an opportunity for advanced study in a field of current research importance. (3 credits each)

PSYCHOLOGY L400
Honours Thesis
This course will require the Honours student to propose and complete a research thesis according to the APA format. The student's work will be supervised by a Thesis Chairman, selected from within the department by the student, and at least one additional member of the departmental staff selected jointly by the Thesis Chairman and the student. Required of all third year Honours students and open to Qualified Majors who have completed Psychology L202, L203, L205, L301 and L303, and who have permission of faculty. (6 credits)

PSYCHOLOGY L402
Honours Seminar
This course will consist of a sequence of topical lectures or discussions conducted by the departmental staff. Topics will be of a contemporary nature, and will focus on current research. (6 credits)

PSYCHOLOGY L404
Mathematical Theories of Behaviour
Prerequisites: Psychology L202, L203, L205, L301, L303 or instructor's permission. This course is intended to demonstrate how mathematical concepts and techniques are employed in the formulation of psychological theories. Theories of simple learning, perception, decision-making and reasoning will be examined. The course pre-supposes no particular background in mathematics and will be taught at a level of mathematical sophistication determined by the skills that students bring to it. It is a course that may be of interest to the general student of Science, or the psychology student seriously concerned with problems in theoretical psychology. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L406
Directed Readings
This course is designed for the exceptional, advanced psychology student (3rd year Major and Honours only) who wishes to do independent literature research on a specific topic in psychology. This research will culminate in a written paper. Students should have a well defined research topic before they register for this course. Final acceptance to this course is subject to department approval. Seminars to be scheduled individually. (6 credits)

PSYCHOLOGY L408
Community Psychology Practicum
Prerequisite: Psychology L306. The student will operate as an enabler or technical assistant to a community action agency applying community psychology principles. He will develop and maintain an information system or equivalent programmatic activity for his host agency and be descriptively evaluated by his agency as well as by the professor. Lectures: 3 hours per week for two terms. (6 credits)

PSYCHOLOGY L421/L423
Advanced Topics in Psychology
Prerequisite: Permission of the instructor. Subject matter will differ from one offering to another. The course provides students with an opportunity for advanced study in a field of current research importance. (3 credits each)
### 60 BA Honours in Psychology (Sir George Williams)

**Year I**
- 12 Credits from **Psych S2716 or S2736, S4126**

**Year I or II**
- 6 Credits from **Psych S2416 or S2426**

**Year II**
- 18 Credits from **Psych S3753, S4126, S4216, S4226, S4326, S4346, S4386, S4526, S4546, S4566, S4913, S4921, S4933, S4943**

**Year III**
- 12 Credits from **Psych S4136, S4726**

### 60 BA Specialization in Psychology (Sir George Williams)

**Year I**
- 12 Credits from **Psych S2716 or S2736, S4126**

**Year I or II**
- 6 Credits from **Psych S2416 or S2426**

**Year II or III**
- 24 Credits selected from **Psych S4216, S4226, S4326, S4346, S4386, S4426, S4526, S4546, S4566, S4616, S4626, S4816, S4826, S4913, S4921, S4933, S4943**

### 24 BA Major in Psychology (Sir George Williams)

**Year I**
- 12 Credits from **Psych S2716 or S2736, S4126**

**Year II and III**
- 6 Credits from **Psych S4616**

- 12 Credits selected from **Psych S4216, S4226, S4326, S4346, S4386, S4426, S4526, S4546, S4566, S4616, S4626, S4816, S4826, S4913, S4923, S4933, S4943**

**Year IV**
- 6 Credits from **Psych Elective credits**

### 30 (BA) Minor in Psychology (Sir George Williams)

**Year I**
- 6 Credits from **Psych S2716**

**Year II or III**
- 24 Credits selected from **Psych S2416 or S2426, S4126, S4216, S4226, S4286, S4326, S4346, S4386, S4426, S4526, S4546, S4566, S4616, S4626, S4816, S4826**

**NOTE:** 6 of these 24 credits may be chosen from among the 3-credit courses in Psychology.

### 75 BSc Honours in Psychology (Sir George Williams)

**Year I**
- 12 Credits from **Psych S2716 or S2736, S4126**

**Year I or II**
- 6 Credits from **Psych S2416 or S2426 or MATH C2416**

**Year II or III**
- 6 Credits from **Psych S4616**

- 18 Credits selected from **Psych S3753, S4216, S4226, S4326, S4346, S4386, S4426, S4526, S4546, S4566, S4913, S4921, S4933, S4943**

**Year III**
- 12 Credits from **Psych S4136, S4726**

- **Biology Option**

**Year I**
- 12 Credits from **BIOL C2033, C3303, C2213 and C2223**

**Year II**
- 3 Credits from **BIOL C3643**

**Year III**
- 6 Credits from **BIOL C3333**

- **Mathematics Option**

**Year I**
- 15 Credits from **MATHS C2816**

**Year III**
- 6 Credits from **Psych S4216, S4226, S4286, S4326, S4346, S4386, S4426, S4526, S4546, S4566, S4616, S4626, S4816, S4826, S4913, S4923, S4933, S4943**

### 60 BSc Specialization in Psychology (Sir George Williams)

**Year I**
- 12 Credits from **Psych S2716 or S2736, S4126**

**Year I or II**
- 6 Credits from **Psych S2416 or S2426 or MATH C2416**

**Year II or III**
- 6 Credits from **Psych S4616**

**Year II**
- 12 Credits selected from **Psych S4216, S4226, S4286, S4326, S4346, S4386, S4426, S4526, S4546, S4566, S4616, S4626, S4816, S4826, S4913, S4923, S4933, S4943**

**Year III**
- 24 Credits from **Psych S4716 or equivalent, and six additional credits in Psych in consultation with the Department. In addition, either BIOL C2303, C3303, and CHEM C2213 and C2223 or twelve credits from MATH C2616, C2713, C2816, C3433, C3446, C3733, COMP C2113, C2213**

### 36 BSc Major in Psychology

**Year I**
- 12 Credits from **Psych S2716 or S2736, S4126**

**Year II and III**
- 6 Credits from **Psych S4616**

- 12 Credits selected from **Psych S4216, S4226, S4326, S4346, S4386, S4526, S4546, S4566, S4913, S4923, S4933, S4943**

- 6 Credits from **Psych Elective credits**

### 24 (BSc) Minor in Psychology

**Year I**
- 6 Credits from **Psych S2716**

**Years II and III**
- 6 Credits from **Psych S4616**

- 12 Credits selected from **Psych S4216, S4226, S4326, S4346, S4386, S4526, S4546, S4566, S4913, S4923, S4933, S4943**

The following courses in Psychology plus the courses outlined in either the Biology option or the Mathematics option constitute an Honours program in Psychology for students in Science, provided the student maintains the required academic standing.
The courses in Psychology listed below are acceptable as Science credits in the Bachelor of Science degree. For other Science credits please consult the Department.

PSYCHOLOGY S241
Statistical Methods in Psychology A
(6 credits)

PSYCHOLOGY S242
Statistical Methods in Psychology B
(6 credits)

PSYCHOLOGY S271
Experimental Psychology 1A
(6 credits)

PSYCHOLOGY S273
Experimental Psychology 1B
(6 credits)

PSYCHOLOGY S375
Directed Study and Research on a Selected Topic
(3 credits)

PSYCHOLOGY S421
Learning
(6 credits)

PSYCHOLOGY S422
Motivation
(6 credits)

PSYCHOLOGY S428
Measurement
(6 credits)

PSYCHOLOGY S432
Perception
(6 credits)

PSYCHOLOGY S434
Cognitive Processes
(6 credits)

PSYCHOLOGY S438
Developmental Psychology
(6 credits)

PSYCHOLOGY S442
Social Psychology
(6 credits)

PSYCHOLOGY S452
Personality
(6 credits)

PSYCHOLOGY S454
Behaviour Disorders
(6 credits)

PSYCHOLOGY S461
Physiological Psychology
(6 credits)

PSYCHOLOGY S462
Comparative Psychology
(6 credits)

PSYCHOLOGY S471
Experimental Psychology II
(6 credits)

PSYCHOLOGY S472
Advanced Experimental Problems
(6 credits)

PSYCHOLOGY S491 (492)
Special Seminar on a Selected Topic
(3 credits)

PSYCHOLOGY S493 (494)
Special Seminar on a Selected Topic
(3 credits)

SELECTED PROBLEMS IN INDIVIDUAL DIFFERENCES

PSYCHOLOGY S211
Introductory Psychology
The purpose of this course is the development of an adequate understanding of known principles of behaviour and experience. The work includes a study of the sense organs and nervous system, perception, learning, memory, motivation and the basic needs, emotional reactions, personality development, adjustment and integration, abnormal personality, mental abilities and aptitudes, social aspects of behaviour and the applications of psychology. (6 credits)
NOTE A/See § 200.1

PSYCHOLOGY S212
Selected Problems in Learning and Motivation A
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in learning and motivation to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: operant behaviour; memory; teaching and learning; material behaviour; aggression; sleep. (3 credits)
NOTE C/See § 200.1

PSYCHOLOGY S213
Selected Problems in Learning and Motivation B
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in learning and motivation to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: operant behaviour; memory; teaching and learning; material behaviour; aggression; sleep. (3 credits)
NOTE C/See § 200.1

PSYCHOLOGY S214
Selected Problems in Individual Differences A
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in individual differences to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: creativity; intelligence; self-awareness and self-esteem; leadership. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S215
Selected Problems in Individual Differences B
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in individual differences to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: creativity; intelligence; self-awareness and self-esteem; leadership. (3 credits) NOTE C/See § 200.1

PSYCHOLOGY S216
Statistical Methods in Psychology A
Prerequisites: Any two CEGEP semester courses in mathematics. A basic course in the fundamentals of statistics for psychology and education. Topics include: the construction of frequency distribution; graphic presentation; measures of central tendency and dispersion; correlation and linear regression; elementary probability theory; the binomial distribution and the normal curve; sampling of the reliability of statistics and tests of significance; Chi square; analysis of variance; miscellaneous non-parametric techniques. Lectures and laboratory. (6 credits)
NOTE A/See § 200.1
NOTE: Only 6 credits will be given from: Economics C222, Geography C262, C363; Mathematics C241; Quantitative Methods C243, C244; Sociology S241; Psychology S241, S242
PSYCHOLOGY S302
Selected Problems in Development A
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in development to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: perception of spoken and written language; developmental language disability; learning in infancy and early childhood; critical periods in early development. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S303
Selected Problems in Development B
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in development designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: perception of spoken and written language; developmental language disability; learning in infancy and early childhood; critical periods in early development. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S304
Selected Problems in Social Psychology A
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in social psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: socialization of the child; social motives; interpersonal attraction; values, beliefs and attitude change; prescriptions for future man. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S305
Selected Problems in Social Psychology B
Prerequisite: Psychology S211 or second year standing. This course will deal with a selected problem in social psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: socialization of the child; social motives; interpersonal attraction; values, beliefs and attitude change; prescriptions for future man. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S308
Learning Disabilities
Prerequisite: Psychology S211 or second year standing. This course will deal with selected aspects of current theory, research and practice related to children's learning disabilities. (3 credits) NOTE A/See § 200.1
NOTE: Students who have credits for Psychology S302 (436) as Learning Disabilities may not take this course for credits.

PSYCHOLOGY S375
Directed Study and Research on a Selected Topic
Prerequisite: Psychology S211, and Psychology S241 or S242, previously or concurrently. This course will examine the physiological, genetic and social factors that determine sex identity and will consider how sex identity influences life patterns. The effects of these factors on social, motivational and cognitive development and adjustment will be studied. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Women's Studies Programme.

PSYCHOLOGY S402
Selected Problems in the Application of Psychology A
Prerequisite: Second or third year standing. This course will deal with a selected problem in the application of psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. Possible topics are: personnel selection techniques; rehabilitation; psychological treatments; criminal behaviour; behaviour disorders; sexual differentiation; drugs and behaviour. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S403
Selected Problems in the Application of Psychology B
Prerequisite: Second or third year standing. This course will deal with a selected problem in the application of psychology to be announced each year. The course will be designed to allow...
the student to explore a problem in considerable depth starting from first principles. Possible topics are: personnel selection techniques, retirement, psychological foundations, criminal behaviour, behaviour disorders; sexual differentiation; drugs and behaviour. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S404
Selected Problems in Psychology A
Prerequisite: Second or third year standing. This course will deal with a selected problem in psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. The particular topic discussed will vary from year to year. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S405
Selected Problems in Psychology B
Prerequisite: Second or third year standing. This course will deal with a selected problem in psychology to be announced each year. The course will be designed to allow the student to explore a problem in considerable depth starting from first principles. The particular topic discussed will vary from year to year. (3 credits) NOTE A/See § 200.1

PSYCHOLOGY S412
Modern Psychology in Historical Perspective
Prerequisite: Psychology S211. This course consists of an outline of the history of psychology from early times up to the recent past. The work includes the ancient and medieval background of psychology; the early contributions from the fields of physics and physiology; psychophysics; and historical background of the various schools of psychological thought from the late nineteenth century to the present day. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S413
Contemporary Problems in Psychology
Prerequisite: Third year Honours students or permission of the Department. An intensive treatment of current major problem areas in psychology. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S421
Learning
Prerequisite: Psychology S271 or S273. A study of empirical findings and theoretical issues in the fields of animal and human learning. Topics covered include conditioning, discrimination learning, transfer, verbal learning, and classic and contemporary theoretical issues. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S422
Motivation
Prerequisite: Psychology S271 or S273. Causal analysis of (for example) sleep, hunger, pain, sex, conflict, self-actualization, territoriality, aggression, population-density-dependent behaviour, cooperation and competition. Theories and myths vs. empirical data from physiological, behavioural, and politically-economic studies; both animal and human. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S428
Measurement in Psychology
Prerequisite: Psychology S271 or S273. A consideration of the general problems of measurement in psychology, including instrumenta- tion and scaling procedures for measurement of psychological and physiological processes in the areas of sensation and perception, learning, social psychology and the psychology of individual differences. The use of various psychometric techniques in measurement of achievement, aptitude and personality will be appraised and questions of reliability and validity of tests will be discussed. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S432
Perception
Prerequisite: Psychology S271 or S273. The physiological bases of sensation and perception and their relation to the basic psychological phenomena encountered in vision, audition, and the other senses will be studied. Phenomena such as pattern perception and the perception of distance and movement will be analyzed. The effects of learning, motivation, and social factors upon perceptual processing will also be examined. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S434
Cognitive Processes
Prerequisite: Psychology S271 or S273. An investigation of the complex processes intervening between the stimulus and the response. Topics discussed will include cognitive and language development, psycholinguistics, organization and memory, problem-solving, concept formation, creativity, and cognitive and language disability. (6 credits) NOTE A/See § 200.1

NOTE: Students who have credits for Psychology 433 or 431 after 1966-69 may not take this course for credits.

PSYCHOLOGY S438
Developmental Psychology
Prerequisite: Psychology S271 or S273. An experimental and comparative approach to human development from conception to old age, with emphasis on the period from birth to adolescence. Topics discussed will include language, social behaviour, intelligence, learning and perception. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S442
Social Psychology
Prerequisite: Psychology S271 or S273. A study of social factors in the behaviour and attitudes of the individual and of groups, including a survey of the psychology of bias, prejudice, stereotypes, propaganda, opinion, individual and group morale, group dynamics and sociometry. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S452
Personality
Prerequisite: Psychology S271 or S273. The course surveys the various theories of personality and relationships between personality and behaviour. Individual differences in personality will be studied along with related factors such as age, sex, education, genetic and other physical factors, socio-economic level and other cultural factors. A brief survey and review of basic statistical concepts will be included along with a short introduction to personality measurement. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S454
Behaviour Disorders
Prerequisite: Psychology S271 or S273. A study of the etiology and description of behaviour and psychological disorders, including the psychoneuroses, psychopathology and somatic conditions. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S461
Physiological Psychology
Prerequisites: Psychology S211; and Psychology S271 or S273 or one full course in Physiology or General Biology at the CEGEP level or equivalent. This course attempts to relate neurophysiology to such psychological
problems as learning, attention, and emotion. The topics treated include excitation and conduction in the neuron; synaptic mechanism; sensory and motor systems, the internal environment; the electrical activity of the brain. Emphasis is given to brain damage studies in animals and man, and the problem of localization of function in the nervous system. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S462
Comparative Psychology
Prerequisites: Psychology S211; Psychology S271 or S273 or one full course in Biology at the CEGEP level or equivalent. A study of behavior from a comparative viewpoint. Topics of study will include evolutionary changes in brain and behavior, behavior genetics and specific aspects of behavior such as sensory capacities, motivation, emotion, learning, cognitive abilities and social behavior. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S471
Experimental Psychology II
Prerequisites: Psychology S241 or S242; S271 or S273 and permission of the Department. This course provides experience in the planning, conduct, analysis, and reporting of independent research in the major areas of psychology. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S472
Advanced Experimental Problems
Prerequisite: Third year honors students or permission of the Department. Supervised investigation of special problems. Each student will be required to conduct an experimental study and to submit an appropriate research paper on the study, under the supervision of the Department. Lectures and laboratory. (6 credits) NOTE C/See § 200.1

PSYCHOLOGY S481
Psychology of Work Organizations
Prerequisites: Psychology S271 or S273; and permission of the Department. The scientific study of human behavior as it occurs in business and industry; an examination of the roles of workers, managers, and consumers, and studies of the social psychology of organizations. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S482
Psychology of Human Learning in the Classroom
Prerequisites: Psychology S211; Psychology S271 or S273 and permission of the Department. A systematic examination of psychological principles and research reports which contribute to an understanding of human learning in the school. (6 credits) NOTE A/See § 200.1

PSYCHOLOGY S491
Special Seminar on Selected Topics in Psychology
Prerequisite: Second or third year Honours, Specialization, or Majors standing in Psychology. Subject matter will differ from term to term and from year to year to take advantage of the special interests of the seminar leader. The course will provide opportunities to senior students for discussion and advanced study. (3 credits) NOTE C/See § 200.1

PSYCHOLOGY S492
Special Seminar on Selected Topics in Psychology
Prerequisite: Second or third year Honours, Specialization, or Majors standing in Psychology. A student repeating Psychology S491 registers for credits under Psychology S492. (3 credits) NOTE A/See § 200.1
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

### 60 BA Honours in Religion

- **6 RELI C2116**
- **6 RELI C2136** or **C2226**
- From one of three areas of specialization:
  - **A. Asian religions:**
    - Chosen from RELI C3116, C3126, C3136
  - **B. Christianity:**
    - Chosen from RELI C3013, C3023, C3616, C3626, C3636
  - **C. Judaism:**
    - Chosen from RELI C3013, C3023, C3253, C3263, C3273, C3283, C3303
- **6 from courses specified in a second area above**
- **6 Chosen from RELI C3116, C3126, C3136, C3263, C3273, C3283, C3303, C3616**

### 66 BA Honours in Religion and History

- **Pattern A (Asia)**
  - **30 HIST C2186, C2616, C3376, C3636, C3906**
  - **24 RELI C2136, C3116, C3126, C3136**
  - **12 SOCI S2106, S4246**
- **Pattern B (Europe)**
  - **12 HIST C2186, C3906**
  - **6 Chosen from RELI C2116, C2136**
  - **48 Chosen from HIST C3226, C3276, C3306, C3346; RELI C3273, C3283, C3303, C3616, C3626, C3636, C4436, S2106, S4246**
- **Note:** With the approval of the Honours adviser, any 6 credits at the 400 level in History or Religion may be substituted for any specific course.

### 60 BA Honours in Sociology and Religion

- **18 ANTH C2116, RELI C2136, SOCI S2106** or, if exempted, Elective credits from the relevant department (in consultation with Departmental Honours Adviser)
- **12 Chosen from RELI C3016, C3026, C3036, C3306, C3326, C3366, C3426**
- **6 Chosen from RELI C3116, C3126, C3136, C3263, C3273, C3283, C3301, C3303, C3616**

### 72 BA Honours in Philosophy and Religion

- **12 Chosen from RELI C2116, C2136, C3016, C3023**
- **6 RELI C4436**
- **6 Chosen from RELI C3636, C3646**
- **6 Chosen from RELI C3616, C3626, C4656**
- **6 Chosen from RELI C3116, C3126, C3136, C3263, C3273, C3283, C3301, C4916, C4926**
120 Bi-University Major in Judaic Studies
By agreement between the University and Bar-Ilan University, Ramat-Gan, Israel, students may be admitted to a 120-credit bi-University programme designed to provide the academic base for prospective teachers in Jewish Studies programmes at the primary, elementary and junior high school levels in Canada. Admission to the programme depends upon acceptance by both Universities. Successful applicants may spend up to the first 24 months (i.e., two regular and two summer sessions) at Bar-Ilan. The balance of the requirements for the degree must be completed at Concordia while registered in the BA Major in Judaic Studies programme. Further information on the programme may be obtained from the Department of Religion.

48 BA Major in Judaic Studies
6 RELI C2016
6 Chosen from RELI C2116, C2136
21 Chosen from RELI C2226, C3013, C3251, C3263, C3273, C3283, C3293, C3303, C4013, C4973, C4983
6 Chosen from RELI S3616, C3626, C3136
9 Elective credits in related disciplines at 300 or 400 level (in consultation with the departmental Adviser)

NOTE: By agreement between the University and Bar-Ilan University, Ramat-Gan, Israel, students in this programme may take up to 30 Concordia-equivalent credits at Bar-Ilan. They must, however, meet the requirements for the major, and at least 12 credits of course work in Judaic Studies must be taken at Concordia.

Certificate in Judaic Studies
The Department of Religion offers a 30-credit programme leading to the Concordia University Certificate in Judaic Studies. The goal of the programme is: (a) to place the study of Judaism within the History of Religions; (b) to expose the student to the wide range of religious phenomena from biblical times to the present, which are included under the rubric of “Judaism” or “Israelite religion”; (c) to allow for more specialized study of one or more of these Judaic modes.

30 Certificate in Judaic Studies
6 Chosen from RELI C2116 or RELI C2136
6 RELI C2226
18 Chosen from RELI C3013, C3023, C3253, C3263, C3273, C3283, C3293, C3303, C3333, C3343, C4973, C4983

42 BA Major in Religion
6 Chosen from RELI C2116, C2136, C3116, C3126, C3136
6 Chosen from RELI C2226, C3013, C3023, C3263, C3273, C3283, C3293, C3303, C3316, C3626, C3636
30 RELI Elective credits at 300 or 400 level

Minor in Judaic Studies
6 RELI 2016
18 Chosen from RELI C2226, C3013, C3023, C3263, C3273, C3283, C3293, C3303
6 Chosen from RELI C4013, C4973, C4983 or Elective credits at 400 level (in consultation with the departmental Adviser)

Minor in Religion
30 RELI Elective credits (in consultation with the departmental Adviser)

RELIGION C201
Classical Hebrew
A study of the language of the classical Hebrew texts. The course is designed as a preparation for reading the Hebrew Bible, but takes account of other texts. (6 credits) NOTE A/See § 200.1

RELIGION C211
Understanding Religion
A systematic and topical introduction to the study of religion. The purpose of the course is to enable the student to articulate and investigate questions about the meaning and nature of religion. Problems discussed will include the elements of religious experience, forms of religious expression and interpretation, religious communities and practices and the questions raised by the contemporary interfaith dialogue. Materials will be taken from a variety of religious traditions. (6 credits) NOTE A/See § 200.1

RELIGION C213
Major Religious Traditions of the World
A historical and comparative overview of the major religious traditions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism and Chinese religions. The course will include some consideration of the new religions in North America. (6 credits) NOTE A/See § 200.1

RELIGION C222
Judaic Studies: History of the Jewish People
An historical survey of the Jewish people from the Biblical Age until the beginning of the modern period. The survey will focus on both the sociological and the intellectual developments in this area. The emphasis will be on the formation and continuation of the major Jewish concepts, institutions, and traditions; on the dynamic forces in Jewish society and on the interrelationship between Jews and non-Jews during this period. (6 credits) NOTE A/See § 200.1

RELIGION C301
Biblical Studies I: The Hebrew Bible
An introduction to the methods and results of Biblical scholarship with regard to the history, culture and religion of Ancient Israel. Particular attention is given to the major religious affirmations and theological concepts of the Hebrew Bible which have become central in the subsequent development of Judaism. (3 credits) NOTE A/See § 200.1

RELIGION C302
Biblical Studies II: The New Testament
An introduction to the methods and results of contemporary New Testament scholarship: a critical survey of New Testament literature considering historical setting, history of text, religious and cultural significance. Attention is given to the central issues and concepts portrayed in the Synoptic, Johannine and Pauline writings and their importance in the subsequent development of the Western religious tradition. (3 credits) NOTE A/See § 200.1

RELIGION C311
The Religions of India, Ceylon, Southeast Asia
An historical study of the major religious traditions native to the Indian sub-continent.
Ceylon and Southeast Asia. Although the course will concentrate upon the development of Hindu and Buddhist religious thought and institutions, consideration will be given to the influence of Jainism, Islam and Christianity upon Hinduism and Theravada Buddhism. The course will end with an analysis of the contemporary religious situation in India and Burma. (6 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Asian Studies Programme.

RELIGION C312
The Religions of China and Japan
An historical study of the religious traditions of premodern China, Tibet and Japan. After a brief introduction to the origin of Buddhism in India, the course will focus upon the development of religious thought and institutions. Mahayana Buddhism, Taoism, Confucianism and Shinto. The course will end with an analysis of the contemporary religious situation in China and Japan. (6 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Asian Studies Programme.

RELIGION C313
Islam
A study of the rise and development of Islamic religion and culture, with special attention to mysticism and to modernism. (6 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Asian Studies Programme.

RELIGION C325
The Bible and the Ancient Near East
The significance of Old Testament Institutions within the context of the ancient Mediterranean world. Law, covenant, writing, historiography, the relationship between man and God, sin, sacrifice and atonements will be discussed. Readings from contemporary literature in translation (Babylonian, Egyptian, Greek, Hittite, Ugarte). (3 credits) NOTE A/See § 200.1

RELIGION C326
Classical Judaism
The concepts and institutions of classical or 'normative' Judaism, in the setting of the Hellenistic-Roman world. A conceptual approach to law, ethics, philosophy and culture of post-Biblical Judaism. Consideration will be given to sectarianism and sectarian movements (Samaritans, Dead Sea Scrolls) and their relationship to the major Jewish 'Schools' (Pharisees, Sadducees, Essenes) and to the early Christian Church. (3 credits) NOTE A/See § 200.1

RELIGION C327
Medieval Jewish Thought and Institutions
Topics in the intellectual, religious, and social history of selected Jewish communities during the Middle Ages. Both internal Jewish developments and changing Jewish relations with their non-Jewish neighbours will be considered. (3 credits) NOTE A/See § 200.1

RELIGION C328
Modern Jewish Thought and Institutions I (1780-1880)
A survey of the social and intellectual currents which have shaped Jewish modernity from the beginning of emancipation until 1880. Topics will include: the emergence of modern Jewish consciousness, Jewish pluralism and religious differentiation within Jewish society (Hasidism, Hasidism, science of Judaism, orthodoxy, reform and conservatism), secular versus religious values, disintegration and unification within the Jewish community. (3 credits) NOTE A/See § 200.1

RELIGION C329
Sefardic Judaism
A critical analysis of the religious traditions peculiar to Sefardic Jews. Particular attention will be given to North African Judaism. (3 credits) NOTE A/See § 200.1

RELIGION C330
Modern Jewish Thought and Institutions II (1880 to the present)
A survey of social and intellectual currents in Jewish society from 1880 until the present. Topics will include: the impact of anti-Semitism, particularism and universalism, nationalism and its critics, Jewish existentialism and the new mysticism (Rosenzweig, Buber, Rabo Kook), reactions to the Holocaust, and the relationship between Israel and the diaspora. (3 credits) NOTE A/See § 200.1

RELIGION C331
Contemporary Ethical Issues: Personal
This course will identify and analyse ethical issues arising at the personal level today. Issues will be discussed in the context of the inter-relation between moral values and religious convictions. Topics will vary from year to year, but some examples of areas that raise ethical and religious questions for personal existence are: affluence, alienation, work, leisure, aging, drugs. (3 credits) NOTE A/See § 200.1

RELIGION C332
Contemporary Ethical Issues: Societal
This course will identify and analyse ethical issues arising from social groups today. In discussing the issues, account will be taken of the bearing of religious institutions and traditions upon social attitudes and problems. Topics will vary from year to year, but some examples of problem areas that have evoked ethical and religious debate are: economic and social inequality, race relations, violence and war, hunger and poverty, population growth. (3 credits) NOTE A/See § 200.1

RELIGION C333
Women and Religion I
An examination of the roles and images of women in the history of religions. Topics might include: the development of patriarchal religion, religion and sexuality, women and myth, the roles of women in different religious communities. This course will include an integrated sequence of lectures (minimum three weeks) by an anthropologist on patriarchy and patriarchal societies. (3 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Women's Studies Programme.

RELIGION C334
Women and Religion II
An examination of the religious and ethical questions raised by contemporary discussions of women's experience. Topics might include: the recent beginnings of a feminist theology, the feminist critique of organized religion and society, the effects of male perspective upon philosophy and theology, and women in the ministry. (3 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Women's Studies Programme.

RELIGION C341
Religion and Literature
This course deals with the questions raised for the study of religion by works of literature. An account will be given of the recent development of interdisciplinary studies in religion and literature and of the problems of method that have arisen. The relation between the interpretation of religious language, with its use of myth, parable, symbol and metaphor, and literary criticism will be explored. The religious
RELIGION C361
Studies in the History of Christian Thought
An introduction to the classics of Christian thought from the Fathers to the modern period. Authors studied at length may vary from year to year, but in any case students will acquire a basic knowledge of Augustine, Aquinas, Luther and Calvin. (6 credits) NOTE A/See § 200.1

RELIGION C362
Questions from the Christian Tradition
A study of some of the major religious questions and controversies in the history of the Christian West. The questions chosen will vary, but examples are: grace and free will, faith and reason, history and eschatology, church and state, contemplation and action. (6 credits) NOTE A/See § 200.1

RELIGION C363
Religion in Canada
The historical development of the major religious traditions in Canada, their influence on the social, political and cultural areas of Canadian life and their contemporary significance. Attention will also focus on the inter-action of Catholic, Protestant, Jewish, Indian and Eskimo groups. (6 credits) NOTE A/See § 200.1

RELIGION C364
The Origin of Myth, Ritual and Magic in Western Culture
An historical study of the origins and development of esoteric beliefs and practices involving claims to paranormal spiritual and psychic powers or faculties of human beings. The course will survey the history of the so-called "magical" or "miraculous" elements in human religious experience from primitive to modern settings, through Egypt, India, Mesopotamia, Ancient Israel, Greece, and Rome, Early and Medieval Christianity, to the cults, sects, secret societies and quasi-religious movements of the modern period. (6 credits) NOTE A/See § 200.1

RELIGION C401
Advanced Studies in Classical Jewish Texts
This course will be based on representative readings from Biblical, post-Biblical and mediaval Hebrew literature. It will concentrate on specific topics and will pay attention to the historical and philosophical background of the texts. (3 credits) NOTE A/See § 200.1

RELIGION C435
Comparative Religious Ethics: West & East
This course will identify the ways in which different religious and ideological traditions from West and East consider and deal with ethical issues. Examples of such traditions are Navaho, Japanese, Christian, Islamic, Hindu, Buddhist, Confucian, Humanist, Communist. The ethical values and ideals found in these traditions and their influence upon individual life patterns and social organization will be considered. (6 credits) NOTE A/See § 200.1

RELIGION C443
Modern Religious and Atheistic Thought
A historical and critical review of the conflicting philosophical interpretations of religion that have arisen in the West since the Enlightenment. Special attention will be paid to problems about the nature of meaning of religious experience currently debated between religious and secularist thinkers. (6 credits) NOTE A/See § 200.1

RELIGION C465
Classical Images of Man and Contemporary Psychical Research
A survey of recent scientific studies of paranormal phenomena occurring in dreams, visions, trance-states, hypnosis, and various ecstatic mystical experiences, the results of ethnological studies, the quest for postmortem survival evidence, and general research in parapsychology and parapysics. The course will relate this body of research to the various root typologies of classical human religious experience found in primitive, ancient-sacral, and classical religious traditions of East and West. (6 credits) NOTE A/See § 200.1

RELIGION C491
Special Seminar I
Prerequisite: Permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) NOTE C/See § 200.1

RELIGION C492
Special Seminar II
Prerequisite: Permission of the Department. A student repeating Religion C491 registers for credits under Religion C492. (6 credits) NOTE A/See § 200.1

RELIGION C493
Religious Institutions
Prerequisite: Permission of the Department. Seminar on a particular period or institution in the history of religion. (3 credits) NOTE C/See § 200.1

RELIGION C494
Religious Institutions
Prerequisite: Permission of the Department. A student repeating Religion C493 registers for credits under Religion C494. (3 credits) NOTE A/See § 200.1

RELIGION C495
Religious Thinkers
Prerequisite: Permission of the Department. Seminar on a particular thinker or school of thought in the history of religion. (3 credits) NOTE C/See § 200.1

RELIGION C496
Religious Thinkers
Prerequisite: Permission of the Department. A student repeating Religion C495 registers for credits under Religion C496. (3 credits) NOTE A/See § 200.1

RELIGION C497
Topics in Jewish History
A study of a problem or area of concern in Jewish History. Possible topics might be: the nature of the Dead Sea Sect, the background of the expulsion of the Jews from Spain, Jewish reactions to catastrophes since 1492, Jewish nationalism in the twentieth century, Jewish-messianic movements, history of the ancient Near East, history of the Jews in North America. (3 credits) NOTE C/See § 200.1

RELIGION C498
Topics in Jewish History
Prerequisite: Permission of the Department. A student repeating Religion C497 registers for credits under Religion C498. (3 credits) NOTE A/See § 200.1
The Faculty of Arts and Science offers a Certificate in the Teaching of Science (Elementary School Level) for the professional development of teachers interested in science. Practising teachers are offered the opportunity to improve their knowledge of science in order to help them teach modern science more effectively. The presentation will generally be in workshop form with emphasis on assignments which develop activities for classroom use. Courses will be offered on and off campus during the Winter and Summer months, subject to sufficient demand and the availability of suitable instructors.

SCIENCE C310
Matter and Energy
States and properties of matter, change of state, force, common machines, mass, volume, expansion, gravitation, heat, light, sound, electricity, magnetism, other sources of energy, conservation of energy. (6 credits)
NOTE: This course is available only to practising teachers.

SCIENCE C311
Man and his Environment
Temperature, soil, water, air, atmosphere, reproduction, heredity, erosion, weather, nitrogen cycles, pollution, ecology and ecosystems. (6 credits)
NOTE: This course is available only to practising teachers.

SCIENCE C312
Our Earth and the Universe
Time cycles, volume, density, constitution and properties of solar system, gravity, seasons, water and carbon cycles. (6 credits)
NOTE: This course is available only to practising teachers.

SCIENCE C313
Living Things and Their Activities
The cellular structure of living things, food chains, plants, animals, germination, growth, soil, water, respiration, nutrition, life cycles. Classification into families, communities and populations. (6 credits)
NOTE: This course is available only to practising teachers.

SCIENCE C314
Philosophy and Methodology of Teaching Science, Elementary Level
A study of the role, impact, and responsibility of science at the elementary school level, a study of science programme design, teaching processes and classroom activities at the elementary level. (6 credits)
NOTE: This course is available only to practising teachers.

Admission Requirements
Admission to this programme is open to teachers who already hold either a general elementary licence or an elementary special education licence.

PROGRAMME
30 Certificate in the Teaching of Science (Elementary School Level)
30 Science C310, C311, C312, C313, C314.

NOTE: In some cases where students have completed similar courses in previous studies, the Faculty may grant pro-tanto credits up to a maximum of 12 credits.

#### Year III

6 SOC 1 L400
6 SOC 1 Elective credits [see below (E.1)]

---

The Department of Sociology offers at Loyola programmes leading to a Major or Honours degree. One or more of the following guidelines will be applied in decisions regarding the registration of students in programmes or specific courses in the Department.

A. Honours and Majors who have completed an Introductory Sociology at CEGEP or elsewhere are encouraged to take Sociology L203 and L205 plus the appropriate number of general electives and electives in Sociology.

B. Honours and Majors who have not completed an Introductory Sociology course at CEGEP or elsewhere should register in Sociology L201 in the First Term and Sociology L203 and/or L205 in the Second Term, plus the appropriate number of general electives and electives in Sociology. Sociology L201 is intended to accommodate students who enter university at mid-year and others who wish to acquire the prerequisite credits for subsequent study in Sociology during 1978-79.

C. University I students are usually limited to the Sociology 200 level courses in choosing their electives.

D. University II students may choose their electives in Sociology from those of the 200 and/or 300 level courses.

E. University III students may choose their electives in Sociology from the 300 and/or...
SOCIOLOGY L201
Introduction to Sociology
A survey type course which examines society in terms of social structure and social processes using the basic concepts of scientific Sociology. A preliminary examination of the substantive areas of social life is undertaken, i.e., the family, socialization, religion, stratification, social control and deviance, education, economic systems and political institutions, etc. (3 credits)

SOCIOLOGY L202
Canadian Society
Prerequisite: Sociology L201. First part of the course will be spent developing a theoretical framework — the "hinterland-metropolis" perspective — which will be used to examine the dynamics of different "inter-groups" in Canada. This will be done within the context of three basic structures, economic, political and regional. The second part of the course will be concerned with applying this metropolis-hinterland framework to two specific areas from the following: multinational corporations and under-development, agrarian protest movements, community studies in Canada, Canadian identity and regional disparity, native peoples, and third party political movements in Canada. (6 credits)

SOCIOLOGY L203
Social Organization
Prerequisite: Sociology L201 or the equivalent. Examines the main concepts and basic characteristics of social organization in comparative and evolutionary perspectives. Emphasis will be upon the presentation of a basic conceptual framework with which to examine the specific forms of and changes in the comprehensive pattern of social organization. (3 credits)

SOCIOLOGY L204
Quebec Society
Prerequisite: Sociology L201. Is Quebec a region or a society? Within the context of the trend towards the family, peer groups, the course studies the evolution of Quebec class structure and economic and social institutions from New France to the present. Throughout, the unifying theme is the interplay between external forces and internal developments, the relationship between Quebec and Greater North America. Of special importance is the development of the distinct rural and urban societies during the 19th century, their interdependence and the social conflict which accompanied their fusion during the 20th century. The impact of rapid urbanization on power relationships both within Quebec and between Quebec and English Canada follows. This course ends with an assessment of Quebec's potential as an independent society. (6 credits)

SOCIOLOGY L205
Individual and Society
Prerequisite, Sociology L201 or the equivalent. This course focuses upon the relations between individuals and their social environment which includes the family, peer groups, social movements, government and other large organizations. Selected theoretical orientations and research methods are considered and discussed in conjunction with findings of various studies. (3 credits)

SOCIOLOGY L206
Socialization
Prerequisite: Sociology L201. An examination of the social and cultural processes by which the individual becomes a functioning member of society. Among the perspectives considered are the symbolic interactionist theories of Cooley and Mead, the psychological theories of Freud and Erikson, and the sociological theories of Parsons, Elkin, Clausen, Inkeles, Brim, Wheeler and others. Emphasis is also given to adult socialization and re-socialization in such diverse institutional contexts as the school, occupations and professions, hospitals, prisons, the army, etc. The relation of social structure to role acquisition and role performance constitutes a major focus of the course. (6 credits)

SOCIOLOGY L207
Sociology of Deviance
Prerequisite: Sociology L201 or equivalent. An examination of the nature, forms, sources, functions and dysfunctions of deviations from social norms, and the mechanisms of social order and control. Deviance is viewed as a social process of action, interaction and relationships that derive from the social structure and have consequences for it. Various forms of deviance, from extreme under-conformity to extreme over-conformity are considered in terms of contemporary social theory and research. (3 credits)

SOCIOLOGY L209
Sociology of Crime and Delinquency
Prerequisite: Sociology L201 or equivalent. An analysis of the concepts of "crime" and "delinquency", and the criminal-justice, and juvenile-justice systems. The extent and distribution of crime and delinquency are considered, as well as the various sociological and psychological perspectives of contemporary theory and research. Emphasis will be given to an examination of the social policy on crime and delinquency as manifested in societal programs of treatment and control. (3 credits)

SOCIOLOGY L211
Race and Ethnic Relations
Prerequisite: Sociology L201. Explores the emergence of contemporary ideas about skin colour and ethnic or national group sentiment as they re-shape the social landscape determining ways of individual and collective behaviour as well as self-perception. The course is designed to allow the students to more easily comprehend the ideas of race and culture through the exploration of discrimination, prejudice and intergroup accommodation and studies of the role of these ideas in other societies, at other historical periods, as well as our own society in present time. (3 credits)

SOCIOLOGY L213
Social Stratification
Prerequisite: Sociology L201 or equivalent. An examination of the major stratification systems — caste, estate, class in their social and historical contexts. Consideration of various...
SOCIOLOGY AND ANTHROPOLOGY

theoretical and empirical approaches to stratification with emphasis on contemporary societies. (3 credits)

SOCIOLOGY L214 Marriage and the Family
Prerequisite: Sociology L201. Sociological study of marriage and the family. Earlier phases of course will deal with personality formation within the family, dating and marriage, marital adjustment and problems in marriage generated by social change. Later phase of course will entail an analysis of the family as a basic social institution within a structural-functional framework. Patterns of interaction between family members and between the family and other institutions will be examined. Sources of strain and tension in such relationships will be discussed. (6 credits)

SOCIOLOGY L300 Methodology of Sociology
Prerequisite: Sociology L201 or the equivalent plus University II standing. A survey of problems and issues in the philosophy of social research, consideration of the relationship between sociological theory and research and examination of the major methodologies in Sociology. (6 credits)

SOCIOLOGY L302 Social Psychology
Prerequisites: Sociology L201 plus University II standing. Human beings change as to their definitions of reality as they interact with others. In this course the focus will be on the reciprocal relationships between the individual and social matrix as they impinge upon each other. Concepts and theories regarding the self, personality, significant others, groups, attitudes, etc., will be explored. (6 credits)

SOCIOLOGY L304 Sociology of Urban Regions
Prerequisite: Sociology L201 or the equivalent plus University II standing. The first semester will be devoted to the historical development of the city, focusing on an analysis of the pre-industrial city from a cross-cultural perspective. The second semester will study the growth of urbanization in North America, concentrating on Canada and the social and spatial organization of Canadian cities. Focus will be on the problems that industrial Canada faces, and an exploration of the nature of these problems in the post-industrial organization of the nation. The ideologies of planning and urban renewal will be critically evaluated, especially as they are manifested in the functioning of the Montreal Urban Community. Finally, an analysis of citizens' groups and community organization in Canadian cities will be offered. (6 credits)

SOCIOLOGY L310 Social Movements in Quebec
Prerequisite: Sociology L201 or the equivalent plus University II standing. Analysis of major movements for social change that have developed historically in Quebec. Concentration on the rebellion for economic independence in 1837; the Louis Riel affair; the anti-conscription movements, Catholicism and the organizing of youth, the labour movement and the separatist movement RIN through Quebec. (6 credits)

SOCIOLOGY L316 Economy and Society
Prerequisites: Sociology L201 or the equivalent plus Soc L203 or the equivalent. Examines the relationship between the organization of man's economic life and the range of his social possibilities. The course emphasizes the examination of the ways in which economic activities are legitimated or otherwise affected by social norms and values and of the ways in which various social systems react to the strains created by the accommodation of new technology and of new industrial organizations. (3 credits)

SOCIOLOGY L318 Complex Organizations
Prerequisite: Sociology L201 or the equivalent plus Soc L203 or the equivalent. Presents a sociological analysis of some of the main facets of large and complex organizations. Examines the nature and types of these organizations, various aspects of their internal structure and the relationships between them and their social environment. (3 credits)

SOCIOLOGY L321 Sociology of Economic Development
Prerequisite: Sociology L201 or the equivalent plus University II standing. A look at the theories and models of economic development with special reference to the metropolis-satellite model of multinational corporation monopoly capitalism. Developmental processes of foreign aid, Peace Corps and CUSO Volunteerism, the role of local political elites, and self-reliance are critically analyzed as possible alternatives of obstacles to economic development. (3 credits)

SOCIOLOGY L323 Population
Prerequisites: Sociology L201 or the equivalent plus University II standing. A theoretical approach to current issues related to the determinants and consequences of population structure and dynamics. Emphasis will be given to the relationship between economic development and population growth. (3 credits)

SOCIOLOGY L325 Sociology of Religion
Prerequisites: Systematic Sociology L201 or the equivalent plus University II standing. Analysis of religious experience, beliefs, ritual, and organizations as social facts. Consideration of both traditional and contemporary religious institutions as sources of meanings and values which may either support or subvert ongoing social structures. Attention also given to how non-religious situations generate religious movements and reversely, how religious situations generate non-religious (i.e., social, economic, political) movements. (3 credits)

SOCIOLOGY L327 Sociology of Labour and Capital in Quebec
Prerequisites: Sociology L201 or the equivalent plus University II standing. Study of the development of the labour force, the evolution of working men's organizations, the clash between American and domestic unions, the evolution of the new working class, the relationship between the state and the labour movement. (3 credits)

SOCIOLOGY L329 Human Ecology
Prerequisite: Sociology L201 plus University II standing. This course will focus on the analysis of social organization as a mechanism of interpersonal relationship between human population and environment. It places particular emphasis on the ways in which human populations live in their community, the forms and patterns of development of the human community, the organization and differentiation of functions within the community and the impact of technology and population growth on the spatial and temporal patterning of social relationships. (3 credits)
— a macro analysis of the theory and practice of work as it has evolved in western society. Focus will be on tracing the change in the nature of work, — the emergence of class changes in work relationships, in the concepts of leadership, authority, and decision-making — as these are influenced by the emergence of the monopoly capitalist system. Second Semester, a micro analysis of the nature of work in North American Industrial Society. Special emphasis will be placed on comparing the Blue and White Collar worlds of work. The key problems of alienation, automation and powerlessness will be explored. A survey of worker response to these problems will conclude the course. (6 credits)

SOCIOLOGY L403
Sociology of Knowledge
Prerequisites: Sociology L201 or equivalent plus University III standing, or permission of the Department. Study of the relationship between ideas and social structure. Consideration of classic and modern sociological theories on the construction, maintenance, justification, subversion, and change of socially shared ideas about reality. Primary objective of the course will be the use of perspectives derived from the Sociology of Knowledge in the analysis of social reality presently found in social, political, religious and economic contexts. (3 credits)

SOCIOLOGY L404
Sociology of Economic Change in Quebec
Prerequisites: Sociology L201, L204, or the equivalent plus University III standing. Study of Quebec economic institutions as developing historically. Special emphasis on internal colonization and external dependence. To be focused on macro analysis. (6 credits)

SOCIOLOGY L406
Sociology of Women
Prerequisites: Sociology L207 or the equivalent plus University III standing. An examination of the status of women in North American society — especially regarding socialization, marriage and the family, education, religion and the law. Within an historical and comparative framework, consideration will be given to the ideology of sexism, revolution, life cycles and socio-economic and ethnic dimensions as well as Woman’s Liberation as a social movement. (6 credits)

SOCIOLOGY L421
Sociology of Education
Prerequisites: Sociology L201 or the equivalent plus University III standing. An analysis of the social relationships emerging within a formal education system. The concept of education as a powerful tool for socialization and social control will be explored. Special emphasis will be placed on alternative approaches to the present formal structure, i.e., “living-learning”, independent study, etc. The phenomena of technology and depersonalization in education are also examined. (3 credits)

SOCIOLOGY L423
Political Sociology
Prerequisites: Sociology L201 or the equivalent plus University III standing. Socio-economic and cultural determinants of political power and political behaviour in Canada will be analyzed. Of special interest will be those situations and epochs in which political behaviour and the institutions of political power are radically modified. An analysis of the new parties and extra-electoral protest movements which influence behaviour and power will be important themes. (3 credits)

SOCIOLOGY AND
ANTHROPOLOGY
SOCIOL OGY L450
Honours Seminar and Essay
Prerequisites: Sociology L201 or the equivalent plus University III standing. A departmental seminar during the first term which will include discussion of methodological and theoretical concerns related to the formulation of the Honours proposals and presentation by students on topics related to their essay. Second term will involve completion of independent research and submission of the Honours Essay. Required of all Third Year Honours students. (6 credits)

SOCIOL OGY L458
Introduction to Social Work
Prerequisites: Sociology L201 or the equivalent plus University III standing. This course attempts to provide the student who is giving consideration to Social Work as a career an opportunity to finalize a decision by examining the nature and scope of this profession, its history and methods; and the basic elements of the casework process; namely, the study, diagnosis and treatment procedures. Also examined will be the role of community resources in the casework approach. (6 credits)

31.30.2 SIR GEORGE WILLIAMS
PROGRAMMES
(For Loyola Programmes see § 31.30.1)

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

60 BA Honours in Sociology (Sir George Williams)

6 SOC1 S2106 or, if exempted, Sociology elective credits in consultation with the Departmental Honours Adviser

12 SOC1 S3106, S3306

12 SOC1 S2416, S4816

3 Chosen from SOC1 S4113, S4123, S4133, S4143

3 Chosen from SOC1 S4363, S4373, S4383, S4393

24 Sociology elective credits* in consultation with the Departmental Honours Adviser

*NOTE: With prior approval of the Departmental Honours Adviser the student may substitute up to 12 credits from a related discipline.

NOTE: Some materials in this programme are in French.

69 BA Honours in Sociology and Philosophy (Sir George Williams)

Pattern A (Epistemology and Methodology)

6 SOC1 S2106 or, if exempted, SOC1 elective credits (in consultation with Departmental Honours Adviser)

6 Chosen from SOC1 S2416, S3106

18 SOC1 S3306, S4226, S4816

6 Chosen from SOC1 S4206 or SOC1 S4363, S4373, S4383, S4393

6 Chosen from PHIL C2026 or equivalent, C2116, C2263 and C2283 or, if exempted, PHIL elective credits

6 PHIL C3609

6 Chosen from PHIL C2263 and C2283, C3216

6 Chosen from PHIL C3696, C4856

3 Chosen from PHIL C3423, C3443, C3463

6 Chosen from PHIL C3216, C3696, C4126, C4216, C4456, C4856, C4936

Pattern B (Man in Society)

6 SOC1 S2106, or if exempted, SOC1 elective credits (in consultation with Departmental Honours Adviser)

6 ANTH C2116, or if exempted, Anthropology elective credits (in consultation with Departmental Honours Adviser)

6 Chosen from SOC1 S3106, S3306

12 SOC1 S4206, S4816

6 Chosen from SOC1 S4216, S4226, S4426, S4436, S4443, C4453, C4463, C4476, C4546

18 Chosen from PHIL C2026 or equivalent, C2416, C3606 or, if exempted, PHIL elective credits

6 Chosen from PHIL C2263 and C2283, C3216, C3696

6 Chosen from PHIL C3423, C3443, C3463, C3533

6 PHIL elective credits at the 300 or 400 level

60 BA Honours in Sociology and Religion (Sir George Williams)

18 ANTH C2116, RELI C2136, SOC1 S2106 or, if exempted, Elective credits from the relevant department (in consultation with Departmental Honours Adviser)

6 Chosen from RELI C3016, C3026, C3636

12 Chosen from RELI C3116, C3126, C3136, C3226, C3276, C3283, C3306, C3616, C3626

12 SOC1 S3106, S3306

6 Chosen from SOC1 S4246, ANTH C2536 and other ANTH courses chosen in consultation with the Honours Adviser

6 Chosen from SOC1 S4816, RELI C4916

NOTE: Students preparing for graduate work should acquire a good reading knowledge of French or another language (consult with the department).

42 BA Major in Sociology (Sir George Williams)

6 SOC1 S2106 or, if exempted, SOC1 Elective credits (in consultation with Departmental Honours Adviser)

12 SOC1 S3106, S3306

72 BA Honours in Sociology and Philosophy (Sir George Williams)

Pattern B (Man in Society)

6 SOC1 S2106, or if exempted, SOC1 elective credits (in consultation with Departmental Honours Adviser)

6 ANTH C2116, or if exempted, Anthropology elective credits (in consultation with Departmental Honours Adviser)

6 Chosen from SOC1 S3106, S3306

12 SOC1 S4206, S4816

6 Chosen from SOC1 S4216, S4226, S4426, S4436, S4443, C4453, C4463, C4476, C4546

18 Chosen from PHIL C2026 or equivalent, C2416, C3606 or, if exempted, PHIL elective credits

6 Chosen from PHIL C2263 and C2283, C3216, C3696

6 Chosen from PHIL C3423, C3443, C3463, C3533

6 PHIL elective credits at the 300 or 400 level
6 Chosen from SOCI S241, S411, S412, S413, S414, S436, S437, S438, S439, S439
18 SOCIEt Elective credits* (in consultation with Major Adviser).

*NOTE: With prior approval of the Departmental Adviser the student may substitute up to 12 credits from a related discipline.

48 BA Major in Political Sociology

18 SOCI S210*, C310*, C447*
18 POLI C200*, C270*, C470*
6 SOCI S330*, POLI C370*, C372*

*Students exempted from SOCI S210* must replace this course with 6 Sociology elective credits, chosen in consultation with the Departmental Adviser.

SOCIOLOGY

SOCIOLOGY S210
Introduction to Sociology
This course analyzes social problems in modern society and introduces the student to the basic concepts and most important approaches in Sociology. (6 credits) NOTE A/See § 200.1

NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY S241
Statistics
Prerequisites: Sociology S210 and high school Algebra. An introductory course in descriptive and analytical statistical methods for students of Sociology. Lectures and laboratory. (6 credits) NOTE A/See § 200.1

NOTE: Only 6 credits will be given from: Economics C221 and C222; Geography C362, C363; Mathematics C241; Quantitative Methods C242, C244; Sociology S241; Psychology S241, S242.
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY S310
The Logic of Sociological Inquiry
Prerequisite: Sociology S210. This course introduces the student to the way in which social research is conducted. It deals with the interaction between sociological theory and empirical research; though techniques of data collection are considered, the emphasis is on methodology so far as the student will study the processes through which theory is translated into research problems and empirical observations are translated into theory. Selected research monographs are used to illustrate different traditions in sociological research. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S330
The History of Sociological Theory
Prerequisite: Sociology S210. The student will be introduced to a wide range of sociological theories and to the main theorists from the Greek beginnings to the present day, with emphasis on the 19th and 20th centuries. This course will provide an overview of the various schools of thought that attempt to explain the organization, development, and changes in various aspects of human societies. (6 credits) NOTE A/See § 200.1

30 Minor in Sociology (Sir George Williams)

6 SOCI S210* or, if exempted, SOCI Elective credits in consultation with Departmental Adviser.
12 SOCI S310*, S330*
12 SOCI Elective credits (in consultation with Departmental Adviser).

SOCIOLOGY S411
Research Techniques
Prerequisites: Sociology S210, S241 or equivalent, and S310 or permission of the Department. This course is an advanced consideration of the design of research, the methods of data collection, and the techniques of analysis. (3 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY S412
Field Work Research
Prerequisites: Sociology S210 and S310 or permission of the Department. Methods of field-work research in Sociology will be explored and examined in detail. (3 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY S413
Survey Research Methods
Prerequisites: Sociology S210, S241 or equivalent, and S310 or permission of the Department. Methods of conducting survey research will be examined, such as research design, sampling methods, and the pre-testing of instruments, methods of data collection, logic of analysis and techniques of multivariate analysis and report writing. (3 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY S414
Selected Topics in Research Methods
Prerequisites: Sociology S210 and S310 or permission of the Department. This course will deal with a selected topic in sociological research methods such as content analysis, interviewing, participant observation, and qualitative analysis. The course will be designed to allow the student to explore the topic in considerable depth. (3 credits) NOTE A/See § 200.1
NOTE: With the permission of the Department a student may take Sociology S414 twice for credits, provided that a different subject is dealt with the second time.

SOCIOLOGY S415
Selected Topics in Research Methods
Prerequisite: Permission of the Department.
A student repeating Sociology S414 registers for credits under Sociology S415. (3 credits) NOTE A/See § 200.1
SOCIOLOGY S420
Self and Society
Prerequisite: Sociology S210. A consideration of basic concepts and of the most important theories in social psychology. Motivation is viewed in terms of the interplay between actors and social structures, and the approach is illustrated by reference to selected empirical studies. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S421
Sociology of Deviance
Prerequisite: Sociology S210. The nature of deviant or marginal behavior: legal and non-legal forms. Socialization to deviance; institutionalization of deviance; social control of deviance; structure and culture of deviance. Theories of deviant behavior and their sociological, legal and practical implications. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S422
Sociology of Knowledge
Prerequisite: Sociology S210. An examination of the interaction between social structures and meaning and belief systems. Of special concern will be the social influences bearing upon claims to truth and validity and upon definitions of social morality. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Science and Human Affairs Programme.

SOCIOLOGY S424
Sociology of Religion
Prerequisite: Sociology S210 or Religion S213. This course analyzes religions as social realities, examining the variable interrelations between belief, experiences, rituals and social settings in traditional, developing and industrialized society. The course will utilize some of the classical studies of religion by Weber, Durkheim, Geertz, Malinowski, James, Bellah, Eliade, Berger and others. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S432
Formal Organizations
Prerequisite: Sociology S210. A study of different methods of coordinating human action in social group operations under different environmental conditions. Particular focus is on role systems connected with multi-group structures. The course begins with an historical overview of the field, examines the relationships between formal organizations and their environment (e.g., culture, market structure) and ends with a comparative study of diverse and changing structures in some institutional areas of organization. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S436
Classical Sociological Theory A
Prerequisites: Sociology S210 and S330 or permission of the Department. This course will explore the works of major social theorists of the late 18th and early 19th centuries. (3 credits) NOTE A/See § 200.1

SOCIOLOGY S437
Classical Sociological Theory B
Prerequisites: Sociology S210 and S330 or permission of the Department. This course will explore the works of major social theorists of the late 19th and early 20th centuries. (3 credits) NOTE A/See § 200.1

SOCIOLOGY S438
Contemporary Sociological Theory A
Prerequisites: Sociology S210 and S330 or permission of the Department. Analysis of the major trends and issues in 20th century European and North American sociological theory. Emphasis is placed on issues and writings of contemporary significance such as neo-positivism, neo-Marxism and functionalism. (3 credits) NOTE A/See § 200.1

SOCIOLOGY S439
Contemporary Sociological Theory B
Prerequisites: Sociology S210 and S330 or permission of the Department. Analysis of the major trends and issues in 20th century European and North American sociological theory. Emphasis is placed on issues and writings of contemporary significance such as symbolic interactionism, phenomenology, and structuralism. (3 credits) NOTE A/See § 200.1

SOCIOLOGY S440
Community Studies
Prerequisite: Sociology S210. Based upon selected community studies, this course will focus upon an interpretation of the findings of these studies within the larger context of urbanization and industrialization with special emphasis given to the methodology of community studies. (3 credits) NOTE A/See § 200.1

SOCIOLOGY S441
Sociology of Urban Regions
Prerequisite: Sociology S210. The physical and social characteristics of urban communities are studied with special attention paid to ecological patterns and ecological processes. Forms of adjustment, cooperation and control are included in these studies. (3 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOLOGY S442
The Family
Prerequisite: Sociology S210. The course will deal with the following basic topics: mate selection, the social function of families, conjugal roles, social formation of the young, marriage across racial, religious and other social boundaries, and types of family structure. Other topics are added as time and interest permit. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S443
Collective Behaviour and Social Movements
Prerequisite: Sociology S210. Characteristics of collective behaviour, its origin, development, and relationship to formal social structures. Methods of study and theories to explain observed processes. The nature and function of social movements, their life histories and their relationship to the larger society. Specific case studies of religious, racial, and political movements. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S444
Intergroup Relations
Prerequisite: Sociology S210. This course is concerned with the sociology of macro-group relations. The emphasis is on the social definition of race. The significance of colour, language, cultural and ethnic differences is examined within a context of stratification and power differentials. Attention is devoted to Caribbean societies, the U.S.A., South Africa and Rhodesia. The decolonization process, the functions and dysfunctions of intergroup conflict, and methods of reducing and increasing tension are discussed. (3 credits) NOTE A/See § 200.1

SOCIOLOGY S445
Intergroup Relations in Canada
Prerequisite: Sociology S210. Within the theoretical framework of intergroup relations ethnic groups in Canada will be examined. The groups will include Indians, Inuit, Blacks, Jews, and English and French speakers. The mosaic theo-
SOCIOL OGY S446
Social Class and Structured Inequality in Modern Society
Prerequisite: Sociology S210. Systems of social differentiation are analyzed. Theories about their origins and consequences, and attendant ideas and types of mobility related to them, are discussed. The theories are applied to Canada and to the United States as well as to other societies. (6 credits) NOTE A/See § 200.1

SOCIOL OGY S447
Political Sociology
Prerequisite: Sociology S210. The social and normative structures of political institutions, including political parties; the relationship between political institutions and religious and economic institutions; the rise and fall of political ideologies, systems and institutions; the implementation and communication of policies; the rejuvenation of elites. Political attitudes and behaviour are analyzed, as well as political socialization, interest, and involvement. (6 credits) NOTE A/See § 200.1

SOCIOL OGY S448
Population and Society
Prerequisite: Sociology S210, or an introductory course in a social science. This course consists of a brief survey of population theory and an introduction to the techniques of population analysis. It will cover the size, distribution, and composition of the population; changes in these characteristics; the relationship between population trends and social and economic conditions, with special reference to recent trends. (3 credits) NOTE A/See § 200.1

SOCIOL OGY S449
Area Studies in Demography
Prerequisite: Sociology S448. Selected topics of importance in population studies will be explored in some detail. Students will be required to submit a research paper on a significant demographic problem. (3 credits) NOTE A/See § 200.1

SOCIOL OGY S450
Seminar in Urban and Metropolitan Studies
Prerequisite: Sociology S441. Intensive study of a few theories and selected monographs dealing with aspects of urbanization. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Urban Studies Programme.

SOCIOL OGY S452
Law and Society
Prerequisite: Sociology S210. A study of the legal system as an institutionalized system of social control, with special emphasis on its role in times of rapid social change. Problems of definition, validation, enforcement and execution of the law will be examined in several areas of application and in relation to systems of stratification. Special attention will be given to the study of law and of legal organizations in contemporary society, as they intersect with other areas of sociological inquiry, especially social change, conflict, decision-making, and the role of the legal professions. (6 credits) NOTE A/See § 200.1

SOCIOL OGY S454
Industry and Society
Prerequisite: Sociology S210. Analysis of the nature of change and its consequences in advanced industrialized societies. Special attention will be directed toward corporate structures, the labour movement, the function and meaning of work, leisure and changes in social stratification and the exercise of power. (6 credits) NOTE A/See § 200.1

SOCIOL OGY S455
Comparative Social Systems
Prerequisite: Sociology S210. Comparative analysis of concepts of social systems with a special account of conflict theory and functionalist approaches to the subject. Examination of problems of development, modernization and social change in a general theoretical framework. Comparative analysis of trends of development in the West, the Soviet Union and Eastern Europe, and the Third World nations. (6 credits) NOTE A/See § 200.1

SOCIOL OGY S457
Crime and Justice in Society
Prerequisite: Sociology S210. This course will focus on the theories and methods developed in criminology and penology since their modern development beginning with the 19th century. Sociological definitions of crime and the interplay between individual autonomy and communal controls will be analyzed. (6 credits)NOTE A/See § 200.1

SOCIOL OGY S458
The Sociology of Sex Roles
Prerequisite: Sociology S210. This course will focus on sociological aspects of sex roles. Modern social trends will be analyzed, with special attention to emerging egalitarian patterns and changes in the socio-economic system. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credit in the Women's Studies programme.

SOCIOL OGY S470
Canadian Social Structure
Prerequisite: Sociology S210. This course will focus on institutional patterns, with particular attention to the system of social stratification and industrial organization. Elements of differential structure, with special reference to Quebec society will be interpreted a) from the historical perspective of modernizing development, and b) within the context of the North American system. (3 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

SOCIOL OGY S471
Quebec Society
Prerequisite: Second year standing. The course focuses on the nature of traditional society and the social forces within Quebec society since the Second World War. It will examine conflicting historical views on Quebec that are relevant to contemporary issues; the consequences of the conquest; the nature of Confederation; and the nature of nationalism and the nation state. Special attention is paid to the language issue, both federally and within Quebec. (6 credits) NOTE A/See § 200.1
NOTE: This course may be taken for credits in the Canadian Studies Programme.

SOCIOL OGY S472
Social Structure of the Soviet Union and Eastern Europe
Prerequisite: Sociology S210. The process of modernization in Russia and Eastern Europe under the socialist order. Within this context, the socialist model will be considered as a variant of "late" modernization, against the background of the Western entrepreneurial experience. A comparative analysis of the Soviet and Yugoslav industrial organization will be approached in terms of (1) historical continuities within each system, and (2) general patterns of socialist industrialism. (3 credits) NOTE A/See § 200.1
SOCIOLOGY S481
Honours Seminar
Prerequisite: Honours standing in their final year or permission of the Department. Students engage in a critical study of major sociological work according to their interests. Before the end of the academic year a research paper must be completed and accepted by the Department. (6 credits) NOTE C/See § 200.1

SOCIOLOGY S492 (also given as History C499)
History and Sociology
Prerequisites: An introductory course in History and Sociology, and second or third year standing. An exploration of the relationships between historical and sociological approaches to the description and analysis of social conditions and social events, paying special attention to questions of methodology and conceptualization. (6 credits) NOTE A/See § 200.1

NOTE: This course may be counted for credits in either History or Sociology. Students who have taken History-Sociology N456 may not take this course for credits.

SOCIOLOGY S494
Special Seminar A
Prerequisite: Sociology S210. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) NOTE C/See § 200.1

SOCIOLOGY S495
Special Seminar B
Prerequisite: Sociology S210. Additional prerequisites may be added according to subject matter. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (6 credits) NOTE C/See § 200.1

SOCIOLOGY S496
Special Seminar
Prerequisite: Permission of the Department. A student repeating Sociology S494 or S495 registers for credits under Sociology S496. (6 credits) NOTE A/See § 200.1

SOCIOLOGY S497
Special Seminar C
Prerequisite: Sociology S210. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (3 credits) NOTE C/See § 200.1

SOCIOLOGY S498
Special Seminar D
Prerequisite: Sociology S210. Additional prerequisites may be added according to subject matter. Registration by permission of the Department. Subject matter will vary from year to year to take advantage of the special interests of the seminar leader. This course will provide opportunities to senior students for discussion and advanced study. (3 credits) NOTE C/See § 200.1

SOCIOLOGY S499
Special Seminar
Prerequisite: Permission of the Department. A student repeating Sociology S497 or S498 registers for credits under Sociology S499. (3 credits) NOTE A/See § 200.1

Due to the renaming of Anthropology courses students should consult Section 200 for a list of equivalent courses.

**ANTHROPOLOGY C211**

Introduction to Anthropology

An introduction to the fields of Anthropology: facts and ideas about the nature of the human species and its past; and the search for the causes of social and cultural differences and similarities. This course deals with the diversity of languages, of family and marriage systems, religious beliefs and practices; political and economic organizations. Examples are drawn from past and present societies, from western and non-western cultures. (6 credits)

**ANTHROPOLOGY C301**

Oral Literature

Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course will acquaint students with various types of oral poetry, historical tales, myths, and personal narratives from indigenous cultures of Africa, Oceania and North America. The discussion of these materials will focus on contemporary anthropological issues, such as: 1) the various modes of conceptualizing time and historical truth, man's relation to nature and to his fellow man; 2) the reliability of narrator-informants as spokesmen for their own cultures. Translations of transcribed primary sources are supplemented by background lectures on the cultures studied. (3 credits)

**ANTHROPOLOGY C302**

Art, Aesthetics and Anthropology

Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course introduces students to painting, sculpture, costume decoration, masks, music and dance in different cultural settings. Readings and lectures focus on contrasting values concerning beauty in various cultural and historical settings. The ways in which different cultures have expressed and explained their aesthetic values will be presented alongside interpretations by anthropologists and art historians. The course will employ slides and readings. Students will attend films and possibly local galleries whenever they show relevant materials. (3 credits)

**ANTHROPOLOGY C321**

The Stateless Societies of Africa

Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course will survey stateless societies spread across the Sudan into Nigeria. The course will outline hominid evolution in Eastern and Southern Africa and sketch the outlines of African prehistory as reconstructed by archeologists. This will be followed by an investigation of such present-day hunters and gatherers as the Kgalagadi Bushmen and the forest Pygmies. The bulk of the course will study a number of stateless societies in the area, such as the pastoral Nuer and the agricultural Tiv. Particular emphasis will be given to the ways in which kinship and marriage organize social, political and economic relations and preserve social order in these cultures without institutionalized chieftainship. (3 credits)

**ANTHROPOLOGY C322**

Early States and New Nations of Africa

Prerequisite: Anthropology C211 or equivalent or permission of the Department. A survey of chiefdoms and early states in Africa, and of the response of Africa's peoples to colonial rule and new nationhood. (3 credits)

**ANTHROPOLOGY C325**

Magic, Science and Religion

Prerequisite: Anthropology C211 or Religion C211 or C213 or permission of the Department. A comparative study of beliefs, ritual and ceremony in tribal, peasant and modern societies. Consideration of anthropological theories regarding the development and functions of supernaturalistic and naturalistic modes of thought. (3 credits)

**ANTHROPOLOGY C364**

Peoples and Cultures of India

Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits)

**ANTHROPOLOGY C365**

Chinese Culture and Society

Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course will deal with the development of Chinese culture from its earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social structural and ideological aspects, with considerable attention to recent and prospective changes. (3 credits)

NOTE: This course may be taken for credits in the Canadian Studies Programme.
ANTHROPOLOGY C365
Peoples and Cultures of Southeast Asia
Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course will deal with the development of these cultures from their earliest manifestation to the present. Emphasis will be upon the interrelations of techno-economic, social structural and individual aspects, with considerable attention to recent and prospective changes. (3 credits)
NOTE: This course may be taken in the Asian Studies Programme.

ANTHROPOLOGY C366
Peoples and Cultures of the Caribbean
Prerequisite: Anthropology C211 or equivalent or permission of the Department. A comparative study of Caribbean peoples and cultures, their history in colonization and slavery, their current similarities in diversity. (6 credits)

ANTHROPOLOGY C369
Anthropology of Dependency
Prerequisite: Anthropology C211 or equivalent or permission of the Department. This course examines the phenomenon of dependency in terms of economic, political and social linkages which may exist between economically advanced and traditional societies. An analysis of the structure of dependency will be followed by discussions of its effects upon traditional cultures. Case study material will be drawn from the literature on tribal and peasant cultures as well as from literature on those Canadian communities whose economies have remained at the subsistence level. (6 credits)

ANTHROPOLOGY C394
Topics in Ethnography I
Prerequisite: Anthropology C211 or equivalent or permission of the Department. The area studies will vary yearly, reflecting student interests and requests. This course, like other courses of Group A offers a presentation of cultural and societal forms in a given area. (3 credits)

ANTHROPOLOGY C395
Topics in Ethnography II
Prerequisite: Anthropology C211 or equivalent or permission of the Department. The area studied will vary yearly, reflecting students' interests and requests. This course, like other courses of Group A offers a presentation of cultural and societal forms in a given area. (3 credits)

ANTHROPOLOGY C377
Topics in Culture and Society I
Prerequisite: Anthropology C211 or equivalent or permission of the Department. The topic will vary yearly, reflecting students' interests. This course, like other courses of Group B, offers the analysis of aspects of social life in a comparative perspective, drawing examples from a world sample of societies or cultures. (3 credits)

ANTHROPOLOGY C398
Topics in Culture and Society II
Prerequisite: Anthropology C211 or equivalent or permission of the Department. The topic will vary yearly, reflecting students' interests. This course, like other courses of Group B, offers the analysis of aspects of social life in a comparative perspective, drawing examples from a world sample of societies or cultures. (3 credits)

ANTHROPOLOGY C425
Symbolic Anthropology
Prerequisite: 12 credits in 300-level Anthropology or permission of the Department. Comparative examination of the interaction between symbols systems and other components of society (e.g. political and economic), Religious ceremonies, rituals, rites of passage, myths, folk-tales, etiquette and social conventions (from both western and non-western societies) will first be analyzed as systems of communication. The effects of these phenomena upon the continuity of social structures will then be examined. Important publications by the major writers in this field will be closely examined. (6 credits)

ANTHROPOLOGY C434
Anthropological Theories
Prerequisite: 12 credits in 300-level Anthropology or permission of the Department. A study of the major schools of thought in social-cultural anthropology, such as functionalism, structuralism, the American historical school, evolutionism, cultural materialism, Marxism and symbolic analysis. Important publications by the major writers in these fields will be closely examined. (6 credits)

ANTHROPOLOGY C439
Political Anthropology
Prerequisite: 12 credits in 300-level Anthropology or permission of the Department. An examination of political process and political organization in cross-cultural perspective. Part I considers the differing approaches to political organization and processes, leadership, power and authority in non-Western cultures of various degrees of complexity. Part II analyzes social conflict in relation to politics, social continuity and social change. (6 credits)

ANTHROPOLOGY C460
Social Anthropology
Prerequisite: 12 credits in 300-level Anthropology or permission of the Department. The first term will cover a range of techniques for analyzing descent and marriage in societies where these are the most important and all-encompassing social relations. Examples of systems of kinship nomenclature, methods of tracing descent and rules of endogamy will be chosen from different societies throughout the world. The student will be introduced to a series of important anthropological debates concerning the relative significance of descent and marriage in these systems. During the second term the focus will shift to cultures in which the various functions of the bonds of kinship and marriage have been taken over by government, markets, law courts and other institutions. (6 credits)

ANTHROPOLOGY C469
Economic Anthropology
Prerequisite: 12 credits in 300-level Anthropology or permission of the Department. The study of the interrelations between production, exchange and apportionment of goods and services in non-industrial societies. Conditions for the replication of such economic systems over time. Materials are drawn from societies in Africa, in Asia, in pre-capitalist Europe, in native America and in the Pacific culture areas. The first term is devoted to a review of theories regarding the nature of economics within non-industrial societies and methods used in the analysis of their modes of production. The second term is concerned with selected case-studies. The course concludes with an appraisal of economic life in non-industrial societies and of the modifications brought to the human experience by capitalism. (6 credits)
ANTHROPOLOGY C494
New Topics in Anthropology
Prerequisite: 12 credits in Anthropology 300-level courses or permission of the Department. Subject matter will vary yearly to take advantage of the special aptitudes of the instructor. As in every 400-level course, this course is theoretically oriented and reflects current trends in Anthropology. (6 credits)

ANTHROPOLOGY C499
Honours Essay
Prerequisite: Third year standing in Honours Anthropology. Under the supervision of an Anthropology staff member, the student will prepare an Honours essay on a subject chosen in consultation with, and approved by, the professor. (6 credits)

PROGRAMMES

CURRICULUM FOR THE DEGREE OF BACHELOR OF EDUCATION (English as a Second Language)

Elementary School Option
Secondary School Option

The Centre for the Teaching of English as a Second Language offers the Degree of Bachelor of Education (English as a Second Language).

Admission Requirements (B.Ed.)
General admission requirements are listed in § 13 (Admission Regulations). Specific requirements are as follows:

1. Satisfactory completion of a two-year pre-university programme in a CEGEP or equivalent. Within the programme the students will be required to have successfully completed the equivalent of four semester courses in English.

2. Owing to the specialized nature of this programme, no more than 30 pro tanto credits will normally be permitted, and the University reserves the right to determine which ones these should be.

3. Candidates must demonstrate competence in spoken and written English. They may be tested formally as well as through the normal admissions procedures.

4. Reasonable fluency in French is necessary for students who will teach in the French school system.

Degree Requirements

Definition of Credit:
Up to and including the academic year 1973-74, degree programmes have been expressed in terms of courses, with one credit being applied to a “full-course” (normally two terms) and one half-credit being applied to a “half-course” (normally one term).

Starting in 1974-75, in accordance with the recommendations of the Quebec Council of Universities, the credit-base was modified to take into account the total activity of the student. Students preparing for the degree of Bachelor of Education (English as a Second Language) take a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours of work spread across lectures, conferences, laboratories, studio or practice-periods, tests, examinations and personal work.

90 BEd (English As a Second Language)

a) Elementary Option
TESL C2113, C2213, C2313, C3151, C3223, C3413, C3823, C4113, C4153, C4223, C4825

b) Secondary Option
TESL C2113, C2213, C2313, C3151, C3233, C3413, C3833, C4123, C4153, C4233, C4836

c) Adult Option (not offered 1979-80)
TESL C2113, C2213, C2313, C3151, C3233, C3413, C3843, C4123, C4153, C4233, C4846

12 Chosen from TESL C2013, C3513, C4313, C4343, C4423, C4913, C4923, C4933
LING C2006, C4316

18 EDUC C2016, C2106, C2303, C4453
6 ENGL C2116 or C3116
6 ENGLISH literature to be approved by the Centre
12 Elective credits from any department

* Students are advised to divide the required TESL courses by year as follows:

Year I TESL C2113, C2213, C2313
Year II TESL C3151, C3223 or C3233, C3413, C3823 or C3833 or C3843
Year III TESL C4113 or C4123, C4153, C4223 or C4233, C4825 or C4836 or C4846

NOTE: Those possessing the degree of Bachelor of Education (English as a Second Language) Elementary or Secondary option will obtain a specialist teaching permit from the Quebec Ministry of Education.

CERTIFICAT D’ENSEIGNEMENT DE L’ANGLAIS, LANGUE SECONDE
(Programme intensif de perfectionnement)

The Centre for the Teaching of English as a Second Language offers a 30 credit programme leading to the Certificat d’enseignement de l’anglais, langue seconde au niveau élémentaire et secondaire.

Successful candidates who are certified school teachers will also obtain a specialist teaching permit from the Quebec Ministry of Education.
This programme is part of the Ministry of Education's emphasis on the improvement of second language teaching.

Admission Requirements
NOTE: The elementary level is restricted to those individuals who hold an elementary teaching licence. The secondary level is restricted to those holding a secondary licence. Other applicants may be considered for admission to the programme on the basis of their experience and additional criteria deemed appropriate by the Centre. However, such students may not be eligible for a Certificate of Specialization granted by the Ministry of Education.

CERTIFICATE IN THE TEACHING OF ENGLISH AS A SECOND LANGUAGE

Admission Requirements

1. Candidates must have an appropriate teacher's certificate or the equivalent of one year's experience as a full-time language teacher.
2. Candidates must demonstrate competence in spoken and written English. They may be tested formally as well as through the normal admissions procedures.
3. Reasonable fluency in French is necessary for students who will teach in the French school system.
4. Candidates who meet these admission requirements but who have not taught English as a second language in a classroom for a minimum of 400 hours should arrange to include a practice teaching or internship course in their programme.

NOTE: Candidates who wish to obtain the certificat de spécialisation must have a teaching diploma recognized by Quebec, at either the elementary or secondary levels. In Quebec, the holder of the Certificate is granted one year's salaried (D.G.E.E.S. Admin. 73-54 sec. 1.1.1.8). Upon successful completion of this programme, it is the responsibility of the individual to apply to the TESL Centre for le certificat de spécialisation.

Elementary, Secondary or Adult Options
This is a 30-credit programme comprising courses in the Teaching of English as a Second Language and English. It is offered in the day and evening divisions and the special summer session. The 30 credits which comprise this certificate are an integral part of the 90-credit requirement for the BEd (TESL) degree.

a) Elementary Option
18 TESL C211, C221, C231, C322, C415, C423
b) Secondary Option
18 TESL C211, C221, C231, C322, C415, C423
c) Adult Option: This option will not be offered in 1979-80.

All TESL courses may be regarded as courses in the Humanities or in the Social Sciences.

TESL C201
English Language and Composition
Prerequisite: Successful completion of ESL 100 or placement by the CELD test. This course is designed for non-English students who have completed secondary school or its equivalent in a language other than English. The course encourages the development of effective written communication and improved reading comprehension so that the student may perform competently in his other university work. (6 credits) NOTE A/See § 200.1

TESL C203
Effective Communication I
This course is offered only to students enrolled in the programme, Certificat d'enseignement de l'anglais, langue seconde (programme intensif de perfectionnement). The aim of the course is to develop a high degree of proficiency in both oral communication and written and reading comprehension. (6 credits) NOTE A/See § 200.1

TESL C204
Effective Communication II
This course is offered only to students enrolled in the programme, Certificat d'enseignement de l'anglais, langue seconde (programme intensif de perfectionnement). The aim of the course is to encourage the development of clear, effective writing. Aspects of styles such as appropriate levels of usage, choice of diction, and tone will be studied. (3 credits) NOTE A/See § 200.1

TESL C201
Speech
This is an introductory course for non-native speakers of English who have difficulty with the English sound system. It is a practical application of the knowledge of the sound, stress, intonation, and rhythm patterns of English in effective oral communication. (3 credits) NOTE A/See § 200.1
TESL C211
Introduction to Language and Applied Linguistics
This course is an introduction to the study of language and linguistics. The course includes an overview of the nature and function of communication; speech and writing; socio-linguistics, psycho-linguistics, historical and descriptive linguistics; and the relevance and application of these areas of scholarship to second-language teaching. (3 credits) NOTE A/See § 200.1

TESL C221
Comparative Phonetics
This course is for students who intend to be English teachers. It teaches the phonetic and phonemic features of English and the methodology of corrective practice. A comparison of the phonological systems of English and French is emphasized. A proficiency test of spoken English will be administered at the beginning of the course. (3 credits) NOTE A/See § 200.1

TESL C231
Modern English Grammar
This course is for students who intend to be English teachers. The course includes a review of the analytical grammar of English, both traditional and modern, with emphasis on how language is used to express meaning, and a detailed description of English morphology and syntax. A proficiency test of written English will be administered at the beginning of the course. (3 credits) NOTE A/See § 200.1

TESL C318
The Teaching of Reading and Writing
Prerequisite: 9 TESL credits. This course analyzes the relation between speech and writing, and surveys the structure and function of written English. Techniques and procedures for teaching reading and writing skills are studied and demonstrated, and current ESL materials are evaluated. Students are expected to prepare specimen materials for developing reading and writing skills in the classroom. (3 credits) NOTE A/See § 200.1

TESL C322
Methodology I — Elementary
Prerequisite: TESL C221 and TESL C231, and admission to the Certificate or BEd programme, or permission of the Department. This course considers current theory of applied linguistics and the methods and materials appropriate to ESL instruction in elementary schools. Emphasis is on teaching the spoken language. The principles of selection and sequencing, and the technique of presentation, practice, and production are introduced. The preparation of specimen instructional materials is required. (3 credits) NOTE A/See § 200.1

TESL C323
Methodology I — Secondary
Prerequisite: TESL C221 and TESL C231, and admission to the Certificate or BEd programme, or permission of the Department. This course considers current theory of applied linguistics and the methods and materials appropriate to ESL instruction in secondary schools. Emphasis is on teaching the spoken language. The principles of selection and sequencing, and the techniques of presentation, practice, and production are introduced. The preparation of specimen instructional materials is required. (3 credits) NOTE A/See § 200.1

TESL C341
Language Acquisition
Prerequisite: TESL C221 and C231. This course analyzes the developmental processes in native language acquisition. The psycho-linguistic factors involved in the child's conversion of language input into linguistic performance and their implication for second-language learning are studied. (3 credits) NOTE A/See § 200.1

TESL C351
History and Development of the English Language
Prerequisite: TESL C221 or TESL C231 or permission of the Department. A study of the morphological, phonological, syntactical and semantic changes that have taken place from Proto-Indo-European to the present. Students are required to do elementary linguistic analysis of texts from different stages in development of the language. (3 credits) NOTE A/See § 200.1

TESL C382
Practice-Teaching and Observation—Elementary
Prerequisite: TESL C322. This course introduces the inexperienced teacher to the practice and procedures of teaching English as a second language. Practice includes lesson planning, classroom management, and techniques for teaching language skills. Micro-teaching, peer-teaching, and mirror-viewing are essential requirements. Students who register for this course will practise at the elementary level. (3 credits) NOTE A/See § 200.1

TESL C383
Practice-Teaching and Observation—Secondary
Prerequisite: TESL C323. This course introduces the inexperienced teacher to the practice and procedures of teaching English as a second language. Practice includes lesson planning, classroom management, and techniques for teaching language skills. Micro-teaching, peer-teaching, and mirror-viewing are essential requirements. Students who register for this course will practise at the secondary level. (3 credits) NOTE A/See § 200.1

TESL C384
Practice-Teaching and Observation—Adult
Prerequisite: TESL C323. This course introduces the inexperienced teacher to the practice and procedures of teaching English as a second language. Practice includes lesson planning, classroom management, and techniques for teaching language skills. Micro-teaching, peer-teaching, and mirror-viewing are essential requirements. Students who register for this course will practise at the adult level. (3 credits) NOTE A/See § 200.1

TESL C411
Audio-Visual Aids in ESL—Elementary
Prerequisite: TESL C322 previously or concurrently. This course examines audio-visual resources and their effective use in second-language teaching. It familiarizes the student with the use of technical apparatus and with the effective use of simple teaching aids with particular regard for the needs of elementary students. Production of appropriate classroom materials is required. (3 credits) NOTE A/See § 200.1

TESL C412
Audio-Visual Aids in ESL—Secondary
Prerequisite: TESL C323 previously or concurrently. This course examines audio-visual resources and their effective use in second-language teaching. It familiarizes the student with the use of technical apparatus and the effective use of simple teaching aids for secondary and adult students. Production of appropriate classroom materials is required. (3 credits) NOTE A/See § 200.1
TESL C415
Testing and Evaluation
Prerequisite: TESL C322 or C323. An introduction to the general purposes and methods of language testing with a description of the chief characteristics of sound educational measures. The course examines the processes involved in constructing and administering ESL tests designed to evaluate proficiency in the four major skills: listening, speaking, reading and writing. (3 credits) NOTE A/See § 200.1

TESL C422
Methodology II—Elementary
Prerequisite: TESL C322. This course introduces the criteria for assessment and adaptation of methods and materials. Emphasis is on the written language. Students are expected to produce materials and lesson plans appropriate to the elementary school level. (3 credits) NOTE A/See § 200.1

TESL C423
Methodology II—Secondary
Prerequisite: TESL C323. This course introduces the criteria for assessment and adaptation of methods and materials. Emphasis is on the written language. Students are expected to produce materials and lesson plans appropriate to the secondary school level. (3 credits) NOTE A/See § 200.1

TESL C431
Grammatical Theory
Prerequisite: TESL C231. This course surveys current theories of grammar and their influence in applied linguistics, with further studies in generative-transformational grammar and generative semantics. The importance of grammatical theory is considered in relation to philosophy, psychology, sociology, comparative linguistics, and pedagogy. (3 credits) NOTE A/See § 200.1

TESL C434
Error Analysis
Prerequisite: 15 TESL credits. A study of errors made by the ESL learner. This course considers recurring types of intralingual and developmental errors in language use. Teaching procedures will take such developmental and structural conflicts into consideration. (3 credits) NOTE A/See § 200.1

TESL C442
Problems in Bilingualism
Prerequisite: 15 TESL credits. An examination of the social and psychological background of languages in contact, with particular emphasis on the situation in Quebec. Motivation for second language learning in schools is studied in terms of cultural and socio-economic factors. In addition such extra-linguistic influences as the historic and political context of bilingualism in Canada are covered. (3 credits) NOTE A/See § 200.1

TESL C479
Internship
This course is offered only to students enrolled in the programme Certificat d’enseignement de l’anglais, langue seconde. It will involve observation and supervised teaching practice both in the university and in the schools. The course will also include seminar sessions for analysis and discussion of teaching performance. (3 credits) NOTE A/See § 200.1

TESL C482
Internship—Elementary
Prerequisite: TESL C382. This internship is closely integrated with TESL C422 and TESL C411. The course provides practical application of the theories and information discussed in classes. The course requires 100 hours of supervised internship in local elementary schools, with scheduled seminar sessions and tutorials for analysis and discussion of teaching performance. (6 credits) NOTE A/See § 200.1

TESL C483
Internship—Secondary
Prerequisite: TESL C383. This internship is closely integrated with TESL C423 and TESL C412. The course provides practical application of the theories and information discussed in classes. The course requires 100 hours of supervised internship in local secondary schools, with scheduled seminar sessions and tutorials for analysis and discussion of teaching performance. (6 credits) NOTE A/See § 200.1

TESL C484
Internship—Adult
Prerequisite: TESL C384. This internship is closely integrated with TESL C423 and TESL C412. The course provides practical application of the theories and information discussed in classes. The course requires 100 hours of supervised internship at the adult level, with scheduled seminar sessions and tutorials for analysis and discussion of teaching performance. (6 credits) NOTE A/See § 200.1

TESL C491
Study in a Special Subject
Prerequisite: Permission of the Department. This course provides an opportunity for advanced students to intensify their study beyond the area of specialization already represented by the curriculum. The selected subject will vary with the special interest of the instructor offering the course in any given year. (3 credits) NOTE C/See § 200.1

TESL C492
Study in a Special Subject
Prerequisite: Permission of the Department. A student repeating TESL C491 registers for credits under TESL C492. (3 credits) NOTE A/See § 200.1
31.32 Theological Studies

PROGRAMMES

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

60 BA Honours in Theological Studies

Year I
18 Theo Elective credits

Year II
24 Theo Elective credits

Year III
18 Theo Elective credits

NOTE: Students must have their programme approved by the Department.

Directives 1) to 7) applying to the Honours Programme will normally also apply to the Specialization.

42 BA Major in Theological Studies

Year I
12 Theo Elective credits

Year II
18 Theo Elective credits

Year III
12 Theo Elective credits

NOTE: Students must have their programme approved by the Department.

Three courses (18 credits) must be chosen among the offerings at the 300 level and 400 level. The fourth course (6 credits) may be chosen at any level.

All courses in the Department, with the exception of tutorials, are open to any qualified student of Concordia.

A diploma programme in Theological, Religious and Ethical Studies is offered jointly by the Department of Theological Studies with the Department of Religion in association with the Department of Philosophy for offerings in ethical studies.

Courses of General Interest

THEOLOGY C200
Selected Topics in Theology I
Content will depend on the theme designated by the Department. The theme varies from year to year. (3 credits)

THEOLOGY C202
Selected Topics in Theology
Content will depend on the theme designated by the Department. The theme varies from year to year. (3 credits)
THEOLOGY C205
Trends in Theology Today I
Major shifts in self-understanding that have led to internal and external restructurings of the Christian Churches. Conceptual and ecumenical changes against the background of contemporary society and social theory. Traditionally disputed theological questions and modern reformulations that have advanced Christian unity. (3 credits)

THEOLOGY C206
Trends in Theology Today II
Prerequisite: Theology C205 or permission of the Department. Further consideration of the themes introduced in Theology C205. (3 credits)

THEOLOGY C210
Christian Beliefs
The Christian assessment of man in the light of belief in God, creation, Jesus Christ, ultimate destiny and salvation. Specific practices and values of the Christian community. The relationship of Church to society as exemplified in social reforms and liberation theology. (3 credits)

THEOLOGY C211
Christianity: Multicultural Perspective
Christianity throughout its history has interacted with Judaism, Hellenism, Islam, Hinduism, Buddhism, Marxism in other religious cultures and ideologies. This course examines the history of these contacts with their multifaceted results and theological implications. (3 credits)

THEOLOGY C215
Christian Mysticism
A survey of the Christian mystical tradition: outstanding Christian mystics, representative mystical literature, the role of prayer and ascetic practices. (3 credits)

THEOLOGY C220
The Bible and Western Culture I
A study of the Old and New Testaments; their formation, interpretation and influence on Western civilization from Moses to the present. (3 credits)

THEOLOGY C221
The Bible and Western Culture II
Prerequisite: Theology C220 or permission of the Department. A continuation of Theology C220. (3 credits)

THEOLOGY C225
History, Culture and the Christian way of Life
The response of Christian peoples and communities to the challenge posed by various historical cultures in the shaping of Christian beliefs and practices. Specific themes of interest to North America, such as poverty, healing and minority religious groups. (3 credits)

THEOLOGY C229
Contemporary Atheism
The Christian of today has to face an accelerated process of secularization and new forms of atheism. This course seeks to analyse the contemporary phenomenon of "atheism", to examine its roots, to raise the question of its possible meaning, and to define a Christian attitude towards it. Through this dialogue with atheism we shall attempt to uncover the essentials of Christianity itself. (3 credits)

THEOLOGY C249
Theology and the Arts I
Classical art and myth: the poetic foundations of theological discourse and their relation to the imagination of the artist. (3 credits)

THEOLOGY C241
Theology and the Arts II
An exploration within recent forms in painting, poetry and film. Theological reflection to discover the civilizing function of images of God produced by the imagination. (3 credits)

THEOLOGY C264
Theological Dimensions of Psychology I
This course is a theological exploration in psychological studies embracing: a) a critical and constructive consideration of Freud and Jung; b) a survey of neo-Freudian social psychologists, such as Horney and Sullivan; c) a survey of third-force psychologists such as Rogers, Maslow and May. (3 credits)

THEOLOGY C286
Theological Dimensions of Psychology II
The multifaceted methodology of C. G. Jung; themes relating to psychology and theology. (3 credits)

THEOLOGY C287
Introductory Courses

THEOLOGY C300
The Old Testament
A survey of Old Testament texts (in English translation), with an introduction to contemporary methods of interpretation and appreciation. (3 credits)

THEOLOGY C310
The New Testament
The date, authorship, purpose, structure and sources of the books of the New Testament. Understanding their content in its historical setting. (3 credits)

THEOLOGY C330
Principles of Systematic Theology
An introduction to the types, methods, tools and sources of theology. The principal themes of Christian theology are investigated according to their biblical, historical, and philosophical roots. (3 credits)

THEOLOGY C350
Foundations of Christian Ethics
An introduction to the study of Christian Ethics: the role of Christian beliefs for a new foundation of ethics in the present intellectual, cultural and historical situation. (3 credits)

THEOLOGY C360
Christianity in History
The historical dimensions of Christian existence: its institutions, personalities, major events. Methods of inquiry. (3 credits)

THEOLOGY C382
Contemporary North American Judaism I
The sources of authority in Judaism; development of a pharasaic-rabbinic tradition viewed in the light of modern thought. (3 credits)

THEOLOGY C383
Contemporary North American Judaism II
The ideologies of modern religious movements; the theology of the holocaust. (3 credits)

THEOLOGY C385
World Religions I
An introduction to the history and texts of a religious tradition which has deeply marked world history outside the Judeo-Christian streams (e.g. Buddhism, Islam, Hinduism) (3 credits)

THEOLOGY C386
World Religions II
Prerequisite: Theology C385 or permission of the Department. A further study following upon Theology C385. (3 credits)
THEOLOGY C411
The Synoptic Gospels
Prerequisite: Theology C310 or its equivalent with permission of the Department. Exegesis of selected passages in the light of recent scholarship. Studies in their doctrinal contents. Historical inquiry into the works and words of Jesus. (3 credits)

THEOLOGY C412
Acts and the Beginnings of Christianity
Prerequisite: Theology C310 or its equivalent with permission of the Department. Acts, Hebrews, James and I Peter: exegesis of selected passages in the light of recent scholarship, studies in their doctrinal contents. Historical inquiry into the life of the early Church. (3 credits)

THEOLOGY C414
The Johannine Writings
Prerequisite: Theology C310 or its equivalent with permission of the Department. An examination of Gospel, Letters and Revelation situated within the context of first-century Christian and non-Christian religious thought. (3 credits)

THEOLOGY C416
The Theology of St. Paul
Prerequisite: Theology C310 or its equivalent with permission of the Department. A historical-critical examination of Paul's theological thought, tracing its development through the chronological sequence of his letters. The focus is on what is central and normative for Christian theology and what is particularly relevant for today. (3 credits)

THEOLOGY C420
Methods in the Study of Religion
Prerequisite: Theology C330 or its equivalent with permission of the Department. This course will examine some of the main approaches to the study of religion, giving emphasis to the key problems and techniques of inquiry in these approaches with special attention to the theological method in its distinctive Christian context. (3 credits)

THEOLOGY C422
Religious Language
Prerequisite: Theology C330 or its equivalent with permission of the Department. A study of religious and theological language in relation to other forms of language and expression. (3 credits)

THEOLOGY C428
19th-Century Criticism of Christianity
Prerequisite: Theology C330 or its equivalent with permission of the Department. An introductory consideration of the Enlightenment, in particular Lessing as theologian. Theological perspectives of Schleiermacher and Hegel. Theological reductions and criticisms of Strauss, Feuerbach, Marx, Kierkegaard and Nietzsche. (3 credits)

THEOLOGY C429
20th-Century Consciousness of God
Prerequisite: Theology C330 or its equivalent with permission of the Department. Interrelated themes on the consciousness of God through a study of representative thinkers. (3 credits)

THEOLOGY C430
God
Prerequisite: Theology C330 or its equivalent with permission of the Department. A study of the Christian vision of God. Selected readings from classical theologians. (3 credits)
THEOLOGY C431
Theology of Revelation  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. An inquiry 
into revelation as a central theme of fundamen­
tal theology. The contributions of representa­tive theologians to the development of the theology 
of revelation. (3 credits)

THEOLOGY C432
Theological Anthropology  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. Different 
religious interpretations and emphases given to 
the doctrine of man as the image of God from a 
thetical perspective. The distinctiveness of 
thetical understanding as compared with the 
methods of philosophy, psychology, natural 
sences and literary studies. (3 credits)

THEOLOGY C434
Word and Sacrament  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. The sharing 
of religious values through spoken word, scrip­
tures, iconic representation. The use of ritual 
and symbolic communication in sacramental 
actions, especially in baptism and eucharist. 
The possibility of transcultural sharing amid 
cultural diversity. (3 credits)

THEOLOGY C438
Problems of Eschatology  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. Fundamen­
tal terms of eschatology. The relationship 
between history and eschatology. Christian 
eschatological hope and secular utopianism. 
The relationship between individual and cosmic 
eschatology. (3 credits)

THEOLOGY C440
Theology of the Church  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. The ministry 
of Jesus and the post-Resurrection community. 
Belief in the Holy Spirit’s presence in the 
Church. Tasks of Christians in the world. Faith 
and freedom. Ecclesial teachingship and author­ 
dity. Pastoral office and ministry. (3 credits)

THEOLOGY C442
Jesus Christ  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. The Chris­
tian understanding of Jesus Christ. The exami­
nation of the mystery of the incarnation through 
an analysis of biblical and historical data con­
cerning the person and the work of Jesus 
Christ. (3 credits)

THEOLOGY C448
Major Christian Theologians  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. Readings 
and analysis of principal writers who have 
shaped twentieth-century thought in the Chris­
tian tradition. Each year one particular theolo­
gian is chosen for research from among such 
authors as Thomas Aquinas, Karl Rahner, Teilhard de 
Chardin, Karl Barth. (3 credits)

THEOLOGY C451
Recent Developments in Moral Theology  
Prerequisite: Theology C350 or its equivalent 
with permission of the Department. A study of 
representative theologians who in the recent 
past have developed new approaches to moral 
theology and to particular moral problems. (3 
credits)

THEOLOGY C453
Bio-Ethics I  
Prerequisite: The student must be registered in 
a programme in Theology or in Community 
Nursing or Health Education or the equivalent. 
A study of the moral aspects of human genetics, 
experimentation on human beings, behavi­
our control, health care, death and dying. 
Those issues of biomedical practices, institu­
tions and policy-making processes which in­
volve religious values and principles. (3 credits)

THEOLOGY C454
Bio-Ethics II  
Prerequisite: Theology C453 or permission of 
the Department. A continuation of Theology 
C453. (3 credits)

THEOLOGY C455
Social Ethics  
Prerequisite: Theology C350 or its equivalent 
with permission of the Department. The relation 
between social sciences and social ethics. 
Major social ethical practices and discourses of 
the Christian churches. New approaches to 
social ethics. (3 credits)

THEOLOGY C456
Ethics and Economic Life  
Prerequisite: Theology C350 or its equivalent 
with permission of the Department. Economic 
practices, theories and institutions are studied 
in relation to their idealational, philosophical, 
moral and religious presuppositions. Moral di­
lemmas faced by businessmen, economists and 
corporations. The involvement and responsibil­
ity of Christian churches in economic matters. 
(3 credits)

THEOLOGY C457
Ethics and Politics  
Prerequisite: Theology C350 or its equivalent 
with permission of the Department. An historical 
and critical examination of the relation between 
ethics, politics and religion. (3 credits)

THEOLOGY C458
The Ethics of Human Sexuality  
Prerequisite: Theology C350 or its equivalent 
with permission of the Department. Ethical and 
thetical interpretations of human sexuality in 
the light of developing insights from the behavi­
oral sciences. (3 credits)

THEOLOGY C459
Selected Topics in Christian Doctrine  
Prerequisite: Theology C330 or its equivalent 
with permission of the Department. Specific 
teachings or traditions of the Christian faith will 
be examined in their historical context. (3 
credits)

THEOLOGY C460
Historical Fact and Christian Faith  
Prerequisite: Theology C360 or its equivalent 
with permission of the Department. Problems 
posed by the critical historian’s judgement of 
the Christian’s faith in the significance of histori­
cal events and persons. The scientific secular 
revolution and the writing of history, the uses of 
the present and the rethinking of the past, the 
appearance of modern unbelief, the autonomy 
of historical judgement and the new under­
standing of faith. Methodological contributions 
from scholars such as Ranke, Dilthey, Weber, 
Collingwood, Tuchte, Aubert and Marrou. (3 
credits)

THEOLOGY C461
Selected Subjects in Early Christianity  
Prerequisite: Theology C360 or its equivalent 
with permission of the Department. The develop­
ing response of Christianity to challenges 
presented by the culture, thought and social 
structures of the period. (3 credits)
THEOLOGY C462
Eastern Christianity
Prerequisite: Theology C360 or its equivalent with permission of the Department. A survey of the historical evolution of Christianity in North-East Africa, the Middle East, South-West India, modern Greece, the Balkan States, the Ukraine, Russia; also the eastern Christians in the diaspora: Europe, North and South America, Africa and Australia. This course will focus, too, on the piety, persons, institutions and religious thought which characterize Christian traditions in this area. (3 credits)

THEOLOGY C463
Selected Subjects in Mediaeval Christianity
Prerequisite: Theology C360 or its equivalent with permission of the Department. The development of theological literature, Christian institutions and popular religious culture in mediaeval Europe from the beginning of universities to the end of the Great Schism. (3 credits)

THEOLOGY C464
Images of God in Mediaeval Christianity
(1250 — 1500)
Prerequisite: Theology C360 or its equivalent with permission of the Department. A study of the spiritual life of late mediaeval society through a thematic analysis of representations of God in popular forms of religious expression. Liturgical, literary and artistic representations of God in clerical and lay sources will be treated with specific attention to late mediaeval town life. (3 credits)

THEOLOGY C466
Protestant Origins and Their Distinctive Development
Prerequisite: Theology C360 or its equivalent with permission of the Department. Characteristic doctrines and movements of Protestantism through the essential phases of their evolution. (3 credits)

THEOLOGY C467
Selected Subjects in Modern Christianity
(1500 - 1800)
Prerequisite: Theology C360 or its equivalent with permission of the Department. An historical analysis of the events, personalities and ideas emerging from the religious upheavals of the Reformation and Enlightenment. (3 credits)

THEOLOGY C468
Mediaeval Foundations of the Church in New France
Prerequisite: Theology C360 or its equivalent with permission of the Department. The mediaeval heritage of the Roman Catholic Church in New France in its spiritual and structural aspects. The feudal church, theocratic institutions, Gallican traditions, missionary orders, parish life in relationship to the religious and cultural life in New France from its colonization to the British Conquest. (3 credits)

THEOLOGY C469
Selected Subjects in Canadian Church History
Prerequisite: Theology C360 or its equivalent with permission of the Department. An historical analysis of Church and sect in the Maritime provinces, the Canadas and western provinces from the British Conquest to the present day. (3 credits)

THEOLOGY C470
Selected Subjects in Contemporary Christianity
(1800 - present)
Prerequisite: Theology C360 or its equivalent with permission of the Department. A study of more recent historical developments, such as the Modernist crisis, the development of Liberalism, ecumenical and liberation movements. (3 credits)

THEOLOGY C471
Woman and Christianity
Prerequisite: Either Theology C360 or appropriate courses in Women's Studies or permission of the Department. The theological and historical roles of women in Christianity. Female prototypes and images of women in the Old and New Testaments. Fathers of the Church, canon law, mediaeval theology, the Reformation and modern theology. The history of woman in the development of Christianity. (3 credits)

NOTE: This course may be taken for credit in the Women's Studies programme.

THEOLOGY C472
The Feminine and the Female in Contemporary Christian Theology
Prerequisite: Either Theology C360 or appropriate courses in Women's Studies or permission of the Department. Contemporary Christian thought on woman and the role of the feminine in human development and cultural differentiation: a theological and historical critique of these contemporary perspectives within the context of human liberation. (3 credits)

NOTE: This course may be taken for credit in the Women's Studies programme.

THEOLOGY C498
Theology Tutorial I
Prerequisite: Third-year standing in Honours, Specialization or Major programme in Theology. Students may choose, in consultation with a tutorial director, a research topic or other specialized work for intense analysis during the final year. (3 credits)

THEOLOGY C499
Theology Tutorial II
Prerequisite: Successful completion of Theology C498. With permission of the Department, in special cases a second tutorial or a continuation of a tutorial under Theology C498 may be given to students who request it. (3 credits)
Students enrolled in the programmes in Computer Science formerly offered by the Loyola Faculty of Arts and Science and by the Sir George Williams Faculty of Science are referred to the sections of this calendar that describe the offerings of the Faculties of Commerce and Administration and of Engineering:

- BSc Specialization in Computer Science § 71.8.7
- BSc Specialization in Mathematics and Computer Science § 71.8.7
- BSc Major in Computer Science § 71.8.7
- Minor in Scientific Computing (Loyola): see Minor in Computer Science § 71.8.7
- Minor in Computer Science (Sir George Williams): see Minor in Computer Science § 71.8.7
- BAdmin Major in Data Processing § 61.11
- Minor in Data Processing § 61.11

The Faculty of Arts and Science is the largest Faculty in the University. It offers programmes based on sound scholarship together with a high calibre of teaching and research.

In order to combat the depersonalization so often found in a large Faculty, the Faculty of Arts and Science has created smaller, more manageable units offering a personalized approach to education. At present, there are five such units in existence: Liberal Arts College, Lonergan University College, Mature Student Centre, and Simone de Beauvoir Institute. Each college, centre or institute is composed of a group of students and Fellows who are united by a particular philosophy of education.

Each unit operates in much the same fashion. A student admitted to the University will enroll in a specific Department-based programme—a major, specialization or honours. In addition, students attracted to the philosophy of education of a Division IV unit, or finding its core programmes and related electives most responsive to their individual needs will apply to the specific unit in question. Once admitted to the College, Institute, School or Centre of their choice, students may benefit from the academic curriculum, the extra-curricular activities and social and intellectual environment provided in each of these units. It is the goal of Division IV to assist students to broaden their specialized disciplinary education with carefully chosen electives, with specially designed tutorials and with career-oriented advising, all set in a more personal and friendly "university college" environment.

Each unit has a physical location of its own, where its students may gather to exchange ideas, whether in the classroom or in one of the lounges provided for such interaction. As well, there is a library of basic books and periodical literature. From time to time, there will be planned activities, special interest seminars, and stimulating lectures by invited guest speakers.

Each unit has a group of faculty members from within the University assigned as Fellows or Tutors, whose major function will be to act as student advisors. Together, students and Fellows or Tutors plan a carefully integrated undergraduate programme based on the philosophy of education promoted.

The advantage of this approach to education is that students can utilize the resources of a large Arts and Science Faculty, yet still enjoy the effective interchange of ideas that only a small unit can provide.
The Centre has as its objective, the integration of knowledge in order to develop a perspective which an isolated discipline could not provide. It seeks to counteract the fragmentation, specialization and compartmentalization of knowledge. Through the Centre, the student may select a course of study different from those available in departments which reflect the disciplinary divisions and orientations. The Centre offers a B.A. Specialization, Major and Minor in most of its programmes. Four programmes housed by the Centre are area studies: Asian, Canadian, Russian and Third World. Four other programmes are thematically organized: Recreation and Leisure Studies, Science and Human Affairs, Urban Studies and Women's Studies. Students may also structure their own interdisciplinary programmes — attempting to integrate the contributions of several disciplines to a problem area — through the Self-Elected Specialization or Undergraduate Scholars programmes.

For more detailed information about programmes and courses in Interdisciplinary Studies please consult section 31.19 of this calendar.
Concordia University has a tradition of concern for the education of mature students; it has always maintained a number of programmes designed to assist students of 21 and over to undertake undergraduate studies.

The primary aim of the Centre for Mature Students is to develop our services to students returning to formal studies after an absence of many years. It is difficult to plunge suddenly into a very large urban university after years away from classes and studying; therefore, the Fellows and Staff of the Centre hope to reach out to all mature students and offer them encouragement and guidance. The Centre has quarters on both campuses, which function as a "home base" for students who want counselling or are simply in need of some social contact with their peers. Newly equipped lounge facilities are provided for students to meet.

Also, the Centre has Fellows chosen from a cross-section of faculty members especially interested in the problems encountered by adults working towards a degree. Fellows of the Centre will be on hand at appointed times to offer advice and information about such matters as the choice of initial courses at the outset of studies and the variety of Concordia's programme offerings for those ready to embark on their field of undergraduate concentration. At all times, someone will be present to answer questions on both the Sir George Williams and the Loyola campuses.

It is the intention of everyone involved in the work of the Centre to provide mature students with a sense of belonging and thus help them gain the self-confidence so necessary for successful university work.

The Centre will be open from 9 a.m. to 9 p.m. Monday through Thursday and from 9 a.m. to 5 p.m. on Friday. The Centre for Mature Students has two locations, as follows:

**The Sir George Williams Campus**
- Hall Building
- 1455 de Maisonneuve Blvd. W.
- 5th Floor
- Suites 560-5 to 9
- Tel. 879-7269, 7271

**The Loyola Campus**
- Central Building
- 7141 Sherbrooke Street West
- 3rd Floor
- Room CC-308
- Tel. 482-0320 Exts. 7277

**General Information about the Mature Student Programme**

The Mature Student Programme is designed to enable individuals who are twenty-one years of age or older, and who have not satisfied the normal admission requirements, but have demonstrated potential, to take undergraduate programmes. The University assumes that the age of the students will have allowed them to acquire informally some of the general education given to younger students at the collegial level, and as a result the Mature Student Programme concentrates on the knowledge and skills which will be needed to undertake a given programme of specialization.

Successful completion of a specified number of credits will be required in addition to those required of students entering with a Diploma of Collegial Studies or the equivalent. While they are obtaining these additional credits, mature students are considered in every way to be undergraduates.

The additional number of credits required of students who do not possess the necessary academic prerequisites to start immediately the 90-credit undergraduate programme is based on the age of an individual at the time of entry — hence there are in fact two plans or programmes:

a) **The Mature Students Programme (MSP)** — for those students who are 21 years of age but under 25. Students in this age group are required to complete 30 extra credits in courses at the introductory level.

b) **The Mature Entry Programme (MEP)** — for those who are 25 years of age or over and who must complete 18 extra credits in courses at the introductory level.

For specific information about the Mature Student Programme — requirements, recommended courses, etc., please consult section 14 of this Calendar.
Liberal Arts College provides students with a broad, demanding educational foundation in the liberal arts. Its curriculum is an alternative for students dissatisfied with premature specialization and fragmentation of knowledge. Defining the "liberal arts" in contemporary terms, the College stresses work in a Core Curriculum of related courses, seminars, and tutorials in the humanities, social sciences, art, music, and science. Its core courses stress the acquisition of basic knowledge and research and writing skills, as well as an awareness of interpretive problems and advanced analytic approaches. The Core Curriculum in turn, makes for informed choices in the College's second major component, advanced work and research in a specific discipline or area.

Objectives
The major goal of Liberal Arts College is to assist the student in the process of becoming an educated person. The College seeks to translate the traditional vision of education as preparation for life into modern idioms. Its core courses and seminars, sharing a common concern with the changing nature of society and culture, aim at the development of an informed, critical consciousness.

Emphasis is also placed on sharpening the basic expressive and analytic tools indispensable to social and cultural understanding. All College students are expected to acquire a knowledge of a second language, normally French, necessary for their research and to write and to express themselves clearly. Training in research techniques is stressed, and original, independent work encouraged.

Liberal Arts College, linking demanding general education to significant specialization, is committed to serious intellectual work. Through its curriculum, staff, standards and academic environment it hopes to communicate the excitement and creativity of such engagement to its students.

Liberal Arts College Admissions and Programme Requirements
Students admitted to the University and seeking to enter the College must have a "B" average from CEGEP or its equivalent. All students must demonstrate proficiency in English composition* and a second language upon admission, or undertake necessary make-up work. All applicants should apply through the University Admissions Office; those should also contact the College for an interview. Mature students are admitted to the College on the basis of an interview and an examination of their record. Full-time degree candidates will normally complete their College Core Curriculum within three academic years; part-time degree candidates should complete the College Core Curriculum within six academic years. Students who have been admitted to departmental Honours programmes must maintain a "B" average in their College Core Curriculum; all others must maintain a "C" average in their College Core Curriculum. All Honours students in the College are expected to undertake significant original work, on a staff-guided basis, in their final year.

*Les étudiants francophones devront donner la preuve de leur connaissance de la langue anglaise.

Staff
Faculty Fellows chosen from the University's Departments staff all College courses, seminars and tutorials. Senior Fellows are resident in the College, as is its Principal, who also teaches in the Core Curriculum. It is intended that each year a Distinguished Visiting Fellow, selected on the basis of outstanding academic achievement and renown, will be resident and teaching in the College.

Facilities
Liberal Arts College is located on Concordia University's downtown Sir George Williams Campus. Much of its seminar and tutorial teaching is done here, in the same building which houses the College's Principal and Senior Fellows. The College has student study areas, a course-materials library and audio-visual facilities, as well as a Commons Room and a collection of important newspapers, journals, and periodicals. The College is the focus of an extra-curricular programme of visiting speakers and cultural events, and
is a place where the exchange of ideas and views generated in courses and seminars continues on a more informal basis.

Counselling

Close student-faculty contact and exchange is part of Liberal Arts College's stress on serious intellectual work. Each student is assigned a faculty Fellow as a personal adviser, who follows his or her progress through the College and advises on the choice of disciplinary or area specialization. All students' work is evaluated annually by the Principal and Fellows.

College Council

Council, composed of Fellows and students, is the formal decision-making body of Liberal Arts College. It meets regularly under the chairmanship of the Principal as a forum in which current issues and future policy are discussed and decisions taken. Council is that body which ensures the democratic participation of all members of the College in its on-going academic and extra-curricular work.

Further information on core courses and College programmes generally should be obtained either by writing for the Liberal Arts College Informational Brochure or by calling the College Secretary (2010 Mackay St., Montreal, Quebec H3G 1M8, tel. 879-8051). Personal interviews with a Fellow of Liberal Arts College can be arranged through the Secretary.

Programmes

All Liberal Arts College students must take the Core Curriculum. These inter-related courses, including seminar and tutorial work as well as the final-year Integrative Seminar, constitute a significant segment of the course work required for College-sponsored B.A. programmes. Liberal Arts College stresses Honours work although a student may, with the permission of the College, combine the Core Curriculum with a departmental Specialization or Major programme, or with the Individual Studies Programmes.

42 Liberal Arts College — Core Curriculum

Year I
18 LBL, C291, C292, C293

Year II
12 Chosen from LBL, C391, C392, C393

Year III
6 LBL C490
6 Chosen from LBL, C391, C392, C393

In addition to completing the Core Curriculum, students must meet the Faculty of Arts and Science degree requirements and complete a departmental Major, Specialization or Honours programme, or the Individual Studies Programmes of the Centre for Interdisciplinary Studies. The Core Curriculum may also be applied towards Specialization or Honours work in the Individual Studies Programme. (See Section 31.19.6. of this calendar.)

All College students must consult with a College adviser before selecting courses in other disciplines or fields. Generally courses in the Liberal Arts College are open only to members of the College.

Honours candidates must maintain a B average in their College courses with no grade lower than a C. Students in a Majors or Specialization programme must maintain a C average in their College courses with no grade lower than a D.

Admission into a Departmental Honours Programme requires the approval of the Department.

Students seeking admission to a Departmental Honours Programme will be bound by the Honours requirements outlined in 16.2.4 of this calendar.

COURSES

LIBERAL ARTS COLLEGE C291
Structure and Dynamics of Western Civilization
Prerequisite: Registration in the Liberal Arts College or permission of the College. A study of the changing relations between productive structures, socio-political institutions and cultural traditions from antiquity to the present. This course emphasizes the analysis of social change over time, and requires reading in a variety of primary sources and secondary materials. Primary sources such as Aristotle's Politics, Aquinas' Summa Theologiae and Rousseau's Discourse on Inequality, and works such as Marc Bloch's Feudal Society, C.B. Macpherson's Possessive Individualism and F. Neumann's, Behemoth will be read. (6 credits)

LIBERAL ARTS COLLEGE C292
Modes of Expression and Interpretation
Prerequisite: Registration in the Liberal Arts College or permission of the College. A survey of major Western literary, religious and philosophical traditions, involving the reading and interpretation of significant primary texts from antiquity to the contemporary period. Emphasis is placed on development of writing skills and interpretive analysis. Works such as the Odyssey, Plato's Symposium, Goethe's Faust and Dostoevsky's Notes from the Underground will be studied. (6 credits)

LIBERAL ARTS COLLEGE C293
Art and Aesthetic Experience
Prerequisite: Registration in the Liberal Arts College or permission of the College. An integrated course in the nature and development of music and the visual arts, with work in criticism and aesthetic theory. The course examines artistic expressions through thematic and chronological approaches and includes attention to issues concerning the creative process and the relation of art to society. Slide viewing and music listening are part of the course. (6 credits)

LIBERAL ARTS COLLEGE C391
Contemporary Civilization
Prerequisite: Liberal Arts College C291, C292, C293 or permission of the College. Analysis of the dynamic relations between individual, state and society in the recent and contemporary world. Classical perspectives and contemporary analyses derived from the social sciences will be brought to bear on selected social, economic, ideological and political problems. Students will read from such works as D. Ricardo's Principles of Political Economy, M. Weber's Economy and Society, D. Landes' Unbound Prometheus, S. Freud's Interpretation of Dreams, and Hannah Arendt's On Revolution. (6 credits)

LIBERAL ARTS COLLEGE C392
The Sciences in Society
Prerequisite: Liberal Arts College C291, C292, C293 or permission of the College. An introduction to the nature, development, organi-
zation and social consequences of the scientific enterprise. Issues in the philosophy, sociology and history of science, as well as in the relation of technology to science and to society, are emphasized. Laboratory exercises are an integral part of the course. Works such as Bernal's *Science in History*, Watson's *Double Helix*, and Einstein and Infeld's *Evolution of Physics* will be read, as well as a number of original sources like Aristotle's *Physics* and Darwin's *Origin of Species*. (6 credits)

**LIBERAL ARTS COLLEGE C393**

Contemporary Modes of Expression and Interpretation

Prerequisite: Liberal Arts College C291, C292 and C293 or permission of the College. An advanced seminar organized on a topical and thematic basis and emphasizing intensive, sustained analysis of a limited number of fundamentally important literary, religious, and philosophical works. Stress is placed on bringing critical and interpretive approaches to bear on the texts in a series of extended written papers. It permits the requisite sustained analysis of authors such as Hegel, Kierkegaard, Mann and Joyce. (6 credits)

**LIBERAL ARTS COLLEGE C490**

Integrative Seminar

Prerequisite: Two of Liberal Arts College C391, C392, C393 or permission of the College. The College research seminar will relate the student's disciplinary or area specialization to the general perspectives of the Liberal Arts College Core Curriculum. The seminar topic will vary from year to year and students will be required to produce a significant research paper. (6 credits)
31.120 Lonergan University College

Principal
S. McEVENUE, Associate Professor, Theological Studies

Fellows
GEOFFREY ADAMS, Associate Professor, History
BERNARD BLOOMSTONE, Lecturer, Theological Studies
MARK DOUGHTY, Associate Professor, Chemistry
MICHAEL FAHEY, Associate Professor, Theological Studies
MAR C GERVAIS, Associate Professor, Communication Studies
FRANK HAYES, Associate Professor, Economics
PATRICK HOLLAND, Associate Professor, English

JACK McGRAW, Associate Professor, Philosophy
PATRICIA MORLEY, Associate Professor, English and Canadian Studies
DENNIS O'CONNOR, Associate Professor, Philosophy
EILEEN PRESTON, Associate Professor, Classics
MORRIS SHAMES, Associate Professor, Psychology
RONALD SMITH, Assistant Professor, Mathematics
JULIO TRE SIERRA, Associate Professor, Sociology/Interdisciplinary Studies

Visiting Fellow
To be announced.

General Philosophy
Lonergan University College is named after Dr. Bernard Lonergan, a former student and then professor of Loyola College, Montreal, who has since moved on to an international career. He is recognized throughout the Western world as one of the most significant thinkers of this century.

The Fellows of Lonergan University College are convinced that the deepest issues of life are implicitly involved in all the academic disciplines and that both honesty and sanity demand that we attend to this and reflect upon it. The College is not governed by any religion or church, but is directly concerned with human aspirations, with ultimate values, and with the attempts of human institutions to serve this vitality. It asks questions that arise at the authentic centre of humanity, questions about meaning, about soul, about the spiritual, about God.

Lonergan University College offers its students all the resources of Concordia University. Lonergan students take a regular degree programme in the department of their choice on either of the two campuses of Concordia University. Moreover, the College aims to contribute to a style of life which will heighten intellectual experience and enrich personal growth during the student’s university years. It does this, not by claiming to “raise standards” but rather by demanding that its students relate what they learn to their personal lives and deeper values.

A university is the place where the universe should be discussed and intellectually appropriated. Conversation, as much as courses or research, is at the heart of university life. It is precisely this aspect of university life that has been undermined in this century by the incredible growth in knowledge itself, and by the proliferation of specialties. What universal knowledge is now possible? What do students have in common to discuss?

Lonergan University College believes that there is something in common to be discussed, and dedicates its resources to assure the depth and vitality of that discussion. It involves all its members, both students and Fellows, in structured conversation which will grow in breadth and meaning through the three years of a student’s university career.

Objectives
The immediate objective of Lonergan University College is to provide for and demand a healthy university life for its students and Fellows. The College courses and seminar and social environment all stress interaction with the intent of bringing students to the wholeness of life and knowledge.

It is our belief that university life is an important phase of personal growth: a time when one consciously assimilates what is deepest in oneself, defines one’s personal values, and sets worthwhile goals in life. Contributing to this growth is the immediate objective of Lonergan University College.

A broader objective of Lonergan University College is to form a centre for the renewal of our culture. We perceive Quebec, and in particular Montreal, as a unique cultural centre, with strong religious roots (especially Catholic, Protestant, Jewish) and with vibrant ethnic communities which have been involved over decades in a political and cultural interchange of great intensity. Lonergan University College consciously attempts to marry the intellectual and the vital. In adopting Lonergan as a name, it acknowledges a “general systems theory” in which not only the diverse academic disciplines can speak to each other, but also human aspiration may grow. Lonergan students, coming alive together in their diversity, will hopefully form a nucleus of renewed life in Quebec.
Programmes

The normal degree requirements of the Arts and Science Faculty of Concordia University govern students of Lonergan University College.

1. All students of the College will be enrolled in a Major, Specialization or Honours programme in the department of their choice.
2. Each year students are required to attend the College seminar. (3 credits each year — total of 9 credits required).
3. The College plans to offer two six-credit courses each year. The topics will be chosen from any one of the disciplines of the Arts and Science Faculty, and will be treated with particular attention to implied ultimate values to socio-ethical dimensions and to other aspects of concern. Each student will be required to take at least one such College course during the three-year programme. (6 credits required)
4. Beyond the requirements listed above, students will complete their programme with “elective courses”. These are chosen by the student in consultation with a faculty adviser who will be a Fellow of Lonergan University College. The College will provide a list of courses which it finds especially relevant to its own perspectives.

College Facilities and Activities

The College, situated on the Loyola Campus of Concordia University at 7079 Terrebonne Avenue provides appropriate office and lounge space.

The College is governed by a set of by-laws and by a College Council composed of students and Fellows.

Each year the Council will select a major work which has significantly affected the direction of Western Culture. An internationally recognized scholar will be invited to come to Lonergan University College as the Visiting Fellow and to lead the College Seminar. The Visiting Fellow will give university lectures and public addresses as seems appropriate.

Each student of Lonergan University College will join with a small number of students to form a seminar group. College Fellows will direct the seminar, and be available for academic advising to all students. These groups will meet for two hours every second week. It is expected that continuous participation over a three-year period will ensure a stimulating experience and an ever increasing depth of understanding.

Students and Fellows will be encouraged to share in College government, to participate in College events, and in various ways to make the College the centre of their lives at the University.

Students and Fellows will also be members of academic Departments. Competence and excellence in specific academic disciplines is an essential contribution to the ongoing conversation at Lonergan University College.

Admissions and Applications

Applicants may write to the Principal, Lonergan University College, Concordia University, 7141 Sherbrooke Street West, Montreal, Quebec H4B 1R6. The letter should contain a reflective statement about why the applicant has chosen Lonergan University College.

The University will send appropriate forms for the student to fill in, and will request transcripts. These will be processed by the University Admissions Office to establish the academic standing of the student. Each candidate for admission will be invited to an interview with one of the College Fellows.
Objectives of the School
The purpose of the School of Community and Public Affairs is to prepare candidates for positions either in the public service or as public affairs specialists in the private sector. This School will be of interest to students who are concerned with government relations or public affairs and wish to work in those areas. The School will also prepare students who wish to pursue post-graduate work in public affairs or administration.

The object of the School is to produce graduates with a high degree of expertise who are employable at the municipal, provincial, national or international levels. There will be an attempt to blend vocational and scholarly values so as to produce graduates who are well educated in a broad sense.

Students enrolled in the School will benefit from a unique combination of the following components:

1) an internship programme within which students will receive credit for working in a public affairs related job;
2) a bilingual (French-English) environment within which to pursue their studies;
3) a combination of a major, specialization or honours in a discipline (History, Sociology, etc.) with what is essentially a multidisciplinary programme;
4) a common institutional setting for colloquia, discussion and study relevant to community and public affairs.

The School Programme
In general terms students who enrol in the School will follow a curriculum made up of three elements.

1) There will be a core, drawn from a number of related disciplines (Political Science, History, Economics, Sociology, etc.) which will provide basic courses common to all candidates.
2) Each candidate will choose a stream which represents his or her area of community and public affairs. The four streams from which a candidate may choose are community and public affairs at the (1) local, (2) provincial, (3) national and (4) international levels.
3) At the same time candidates may pursue an honours, specialization or major in any one of the following disciplines:

Political Science, History, Economics, Sociology, Urban Studies, Canadian Studies, Translation, or a Certificate in Community Services.

Entrance Requirements
Students admitted to the University and seeking to enter the School must have achieved a B average or the equivalent at the previous educational level. Students who wish to enter the School will be interviewed personally. In exceptional circumstances, a candidate who has failed to meet the grade requirement will be admitted on the basis of a personal evaluation of potential capacities as against those realized in previous studies. Each student enrolled in the School would have to demonstrate a working knowledge of English and French. Language proficiency tests will be administered by the relevant language department but final evaluation is the responsibility of the School.

For further information on curriculum, programmes, personnel and objectives, please contact Blair Williams, Acting Principal at 879-8558.
Founded to promote the understanding of the historical and contemporary role of women in society, the Simone de Beauvoir Institute is the first organization to combine both an academic base in Women’s Studies and a collective life aimed at helping women to discover and develop their personal, social and intellectual potential and at providing a supportive and exemplary environment.

Students
Student members will remain within the mainstream of university life. Membership is open not only to those, men and women, who wish to take the Major or Minor in Women’s Studies (please consult Section 31.19.9, Centre for Interdisciplinary Studies for a description of these programmes), but also to those registered for the General Certificate in Arts and Science or for an Honours, Major, Specialization or Minor in any programme or department of the Faculty of Arts and Science. The detailed criteria for membership are given below.

The students will vary in age, work experience, living situations and academic backgrounds. We envisage the Institute serving the needs of CEGEP students who want to continue their studies in this new field. In addition, there will be many mature students who wish to return to school after years away. Some women may have already completed a B.A. but wish to update their degree courses in such areas as Women’s History, Women’s Literature, or Psychology which were not available when they went to university. Others may never have had the opportunity to finish a degree and would like to renew this process of self-education. Still further there are career women who might wish to study an element of Women’s Studies which would be helpful in their work. Courses on Women and the Law, Sex-Role Socialization in Education, or Economics of Discrimination might be appropriate for them. Finally, there will be many men students who are interested in studying Women’s History or the changing contemporary situation in regard to sex roles and sex identity; they are welcome to become members of the Institute and take part in its programmes, structures and educational environment.

Structures
In order to fulfill our purpose of developing the potential of the membership, we have made every effort to establish democratic procedures. All those within the Institute (faculty, professional or support staff, students) are equal members and must participate in the decision-making process. The degree of involvement is, of course, left to the individual to define. This is particularly important in light of the diverse nature of our membership.

Both the standing and the ad-hoc committees are self-selecting and decisions about the organization of curricular activities remain in the hands of the members. This is a challenge and a responsibility.

Criteria for Student Membership
Priority will be given to those registered in the Faculty of Arts and Science.

Academic Criteria
a) Students applying for membership upon entering U1: (First year University, 0-30 credits) Students must take a minimum of 9 credits in the Women’s Studies programme during their membership. These will include Interdisciplinary Studies C290 and C291 (3 credits each; please see below for course descriptions). The remaining 3 credits are optional.

b) Students applying for membership upon entering U2: (Second year University, 31-60 credits) Students who have taken 0-6 credits in a Women’s Studies programme at the university level must take a total of 9 optional credits in Women’s Studies during their membership in the Institute. Students who have already completed 9 credits in a Women’s Studies programme at the university level will be required to take 6 optional credits in Women’s Studies during their membership in the Institute.

c) Students applying for membership upon entering U3: (Third-year University, 61-90...
Students who have 0 — 6 credits in a Women's Studies programme at the university level must take 6 optional credits in Women's Studies during their membership in the Institute.

Students who have already completed 9 or more credits in a Women's Studies programme at the university level must complete 3 optional credits in Women's Studies during their membership in the Institute.

Non-academic Criteria
Student members must attend 2 of the 4 general assemblies every year; participate in at least one activity or work on at least one committee every year.

Required Courses:
INTERDISCIPLINARY STUDIES C290
Women's Identity and Image:

Historic Attitudes
An interdisciplinary study of the nature of woman as understood by western society from its Greek origins to the mid-nineteenth century. Sample topics are: the Greek myths, the Bible (Eve and Mary), Greek philosophy (Plato and Aristotle), courtly love, medieval mysticism and Victorianism (Kierkegaard, Schopenhauer, Queen Victoria and Ibsen). (3 credits)

INTERDISCIPLINARY STUDIES C291
Women's Identity and Image:
Recent Approaches
An interdisciplinary study of the nature of woman as understood by western society from the mid-nineteenth century to the present. Sample topics are: the effect of the Industrial Revolution on the family (Marx and Engels), the emancipation of women (John Stuart Mill, Virginia Woolf), the psychology of woman (Freud and Jung), and contemporary attitudes towards women and Women's Liberation. (3 credits)

The remaining three credits which a student in the Institute must take may be selected from any of the following courses:

Classics
C254 Women in Classical Antiquity

Economics
C397 Economics of Discrimination
Prerequisite: Economics C201, C203.

Education
C321 Sex Role Socialization in the School

English
C249 Women in Literature I
C250 Women in Literature II
C251 Selected Topics in Literature Written by Women I
C252 Selected Topics in Literature Written by Women II

French
C451 La Littérature québécoise au féminin
Prealable: French C251
C476 La Littérature au féminin I
Prealable: Français C320 ou C322 ou C271
C477 La Littérature au féminin II
Prealable: Français C320 ou C322 ou C271

History
C313 Women in Western History

INTERDISCIPLINARY STUDIES
C301 Selected Topics in Interdisciplinary Studies: Women in Science
C370 Selected Topics in Women's Studies
C392 Social Change: Women in Modern Society I
C393 Social Change: Women in Modern Society II
C491 Seminar in Women's Studies I
C492 Seminar in Women's Studies II
Prerequisite: Interdisciplinary Studies C491.

Philosophy
C230 Human Identity

Political Science
C334 Women and the Law

Psychology
S383 Sexual Differentiation
Prerequisite: Psychology S211 and 2nd year standing.

Religion
C333 Women in Religion I
C334 Women in Religion II

Sociology
L406 Sociology of Women
S458 Sociology of Sex Roles
Prerequisite: Sociology S210.

Theological Studies
C471 Woman and Christianity
C472 The Feminine and the Female in Contemporary Christian Theology

Language/Langue
Les réglement actuels permettent à toute étudiante d’écrit ses devoirs ou examens en anglais ou en français dans tous les cours offerts, à l'exception des cours de langue. La langue d'enseignement sera normalement l'anglais, mais, dans le cadre des cours d'introduction aux Études de la Femme, nous projetons d'organiser un groupe de discussion francophone (en plus des groupes anglophones). Ce groupe se reunit toutes les semaines pour discuter de la matière à l'étude et sera ouvert aux francophones qui préfèrent parler français comme aux non-francophones qui désirent se perfectionner en français.

Non-francophone students may equally submit assignments in English in Français C476, C477 and C451 as long as they are taking the course for credit in Women's Studies or as an elective and not as part of a programme of the French Department.

The Institute is studying the possibility of eventually offering courses in language learning through the medium of Canadian writings on or by women. Both French and English language learning courses based on this principle are planned.

Academic Resources — Faculty Tutors
The Tutors are mainly professors who have been involved in research and teaching in Women's Studies for several years. They come from various disciplines within the Arts and Science Faculty. In addition, there are Tutors who have been involved in developing innovative, interdisciplinary methodology appropriate to Women's Studies. On each campus there will be some Tutors in residence at the Institute. Other Tutors will remain in their own departments, but will maintain close ties with the Institute through advising students and participating in the decision-making structures.
Para-Academic Resources — Advisers

Besides offering the academic means for analyzing women's roles in society by way of its Women's Studies curriculum, the Institute will encourage students to develop the individual and group strengths necessary for promoting social and personal change. Students will benefit from extra-curricular workshops designed to permit them to test their learning in experience. It is also important that students receive training in dealing with the conflicts and pressures accompanying contemporary changes in women's roles. To this end, the Institute will work closely with professional and non-professional staff from the offices of Guidance, Health Services, the various libraries, Manpower, Dean of Students, Learning Development, Audio-Visual, and the Lacolle Centre. In addition to the academic counselling available from the faculty tutors, para-academic counselling will also be available.

Location

The main centre for the Institute is at present on the Sir George Williams Campus at 2170 Bishop Street. It includes Faculty and secretarial offices, a lounge, a reading and a seminar room; there is also a resource centre on the Loyola Campus at 7079 Terrebonne Avenue.

61.13 ADDITIONAL COURSES FOR COMMERCE STUDENTS

61.14 SPECIAL PROGRAMMES IN ACCOUNTANCY

61.15 SPECIAL CERTIFICATES

61.16 COMMERCE & ADMINISTRATION CONSULTATIVE COMMITTEE
61.2 Admission Requirements

General admission requirements are listed in § 13.

Specific requirements for admission to the Faculty of Commerce & Administration for students in CEGEP are Math 101, 103, 105, 203 or equivalent. Arrangements will be made in the first-year programme to give special instruction to those students who lack adequate mathematical preparation.

61.2.1 BACHELOR DEGREE PROGRAMMES

The faculty of Commerce and Administration offers two distinct Bachelor programmes. The Bachelor of Commerce (BComm) degree is the more structured "professional" type programme in which the student will select a Major from those offered in Commerce or Economics. The Bachelor of Administration (BAdmin) degree is a less structured "liberal" type programme which permits the student to pursue interests within or outside the Faculty and offers the possibility of complementing a fundamental grounding in Administration with minor concentrations in an area of interest. Degree requirements listed below apply to all students entering the programme on or after June 1, 1976.

61.2.2 CORE REQUIREMENTS

The required 51-credit core is identical for both programmes and comprises the following courses:

- 1st Year
  - Accountancy C213
  - Quantitative Methods C243
  - Economics C201
  - Management C266
  - Marketing C213
  - Accountancy C218
  - Quantitative Methods C244
  - Economics C203
  - Management C213
  - Finance C314

- 2nd Year
  - Management C475
  - Quantitative Methods C313
  - Marketing C350
  - Management C340
  - Quantitative Methods C314
  - Finance C315

- 3rd Year
  - Management C460

NOTE: The student is responsible for following the correct sequence of courses required for the completion of a particular programme.

61.2.3 BACHELOR OF COMMERCE PROGRAMME

This programme provides the student with an education for business life. It is our intention to graduate students liberally educated about business. To accomplish this, we have designed a multi-disciplinary and interdisciplinary curriculum which is intellectually challenging.

The first year of the programme is intended to provide an informative accumulation of operational attitudes, skills and tools which form the base for the core concentration.

The core concentration in the second year attempts to give broad experience in all phases of business in a coordinated, analytical and reflective period of study. All the resources of the student’s intellectual ability are combined with his interdisciplinary studies to analyze, formulate, judge, and solve challenging business situations.

The last year of the programme is intended to provide the student with an opportunity to immerse himself in an area of specialized study. In addition, the student participates in a course which is designed to test his ability to integrate his knowledge and to view the study of business as a whole.

In view of this design, all students must follow the sequence of the courses on the basis of an academic year as outlined in the curriculum. No student will be permitted to register for second or third year courses without having completed the courses of the first academic year.

Exceptions may be authorized in writing for valid reasons by the Dean or the Assistant Dean — Student Affairs.

Degree Requirements

To obtain the degree of Bachelor of Commerce, all students are required to follow a Major Programme. A Major consists of at least 24 credits in the chosen discipline in addition to the required 51-credit core. The remaining credits are unrestricted electives and may be selected to form a Minor programme if applicable. Major and Minor programmes are available in the following areas:
CONCORDIA FACULTY OF COMMERCE AND ADMINISTRATION

*Both degrees have a common core of 51 credits out of a total of 90 credits.

**Students may follow an Honours in Economics but they must get approval from the Arts and Science Faculty (Department of Economics).**

61.2.4 BACHELOR OF ADMINISTRATION PROGRAMME

The Bachelor of Administration Programme is designed to develop problem-solvers and decision-makers in all walks of life.

A successful graduate is able to develop objectives and strategies, organize people and resources, direct an organization’s activities and control these activities, and appraise objectives and strategies in the light of results.

The programme has been made flexible enough to allow a student to develop according to his own needs.

This programme provides the student with a fundamental grounding in administration and offers the opportunity to pursue varied interests among courses offered by the University.
Degree Requirements
To obtain the degree of Bachelor of Administra-
tion, students are required to complete the 51-credit core and 9 elected credits from Commerce and/or Economics to complete the 60 credits required for specialization. The remaining 30 credits may be selected from any of the offerings of the University but at least half of these must be beyond the introductory level.

61.3 General Information

Old Credit Programme (Transition)
Students who have enrolled in a programme at this Faculty prior to June 1, 1976 will complete the programme as shown in the University Announcement 1975/76. For substitution of courses not offered in the new programme, students will consult with representatives of the respective departments.

Failures
Students are cautioned that a failure in a first term course will prohibit them from proceeding to a second term course for which the first is a prerequisite. Students who find themselves in this position must drop the second term course and register in a section of the failed course, if available.

There will be a course change period at the beginning of the second term at which time students falling in the above category must make arrangements with the Office of the Registrar for the necessary course changes.

NOTE: THERE ARE NO SUPPLEMENTAL EXAMINATIONS IN THE FACULTY OF COMMERCE AND ADMINISTRATION.

French Language
The business community, as well as governments, now express a preference for university graduates who are bilingual. We, therefore, advise all students to take advantage of the opportunities available during their years at this University to ensure that they are bilingual when they present themselves for employment upon graduation.

Courses/Non Commerce Students
Students not registered in the Faculty of Commerce & Administration, who wish to undertake any courses offered by the faculty, but do not have the stated prerequisites, must obtain permission in writing from the chairman of the department concerned, prior to registration.

61.4.2 COURSE DESCRIPTIONS

ACCOUNTANCY C213
Financial I
This course examines the theory and practice involved in recording and reporting an organization's financial information for interested parties. It includes the preparation and analysis of financial statements. This course is required for all Commerce and Administration students and is recommended for non-Commerce and Administration students, particularly those considering graduate studies in business administration. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C217
Financial and Managerial
Prerequisite: Accountancy C213. This course is designed to develop, through verbal analysis of business cases, an understanding and skill in the preparation of statements for financial accounting purposes taking into account the needs of business management. The student must be able to analyze these statements and comment critically thereon. (3 credits) Major and Honours students in Accountancy may not take this course for credits. NOTE A/See § 200.2

ACCOUNTANCY C218
Managerial I
Prerequisite: Accountancy C213. This course is an introduction to the development of accounting information for purposes of control, decision making and the more efficient operation of the enterprise. (3 credits) NOTE A/See § 200.2

ACCOUNTING C220
An Accounting Approach to Management
This course is designed to cover certain major aspects of management related to the accounting process. These include: business organization; accounting concepts; financial statement analysis; management uses of accounting information; and, the effect of taxation on business decisions. (3 credits). NOTE A/See § 200.2; Commerce and Administration students may not take this course for credits.

ACCOUNTANCY C221
Accounting and Management
Prerequisite: Accountancy C220. This course is sequential to Accountancy C220, and examines in greater depth the areas covered in that course. (3 credits). NOTE A/See § 200.2; Commerce and Administration students may not take this course for credits.

ACCOUNTANCY C323
Intermediate I
Prerequisite: Accountancy C213. This course extends, at a senior level, the material covered in earlier courses, integrating the previous work with advanced theory and application. Intensive study is made of the theory and practice of external reporting by commercial and other entities. Concepts and procedures involved in the valuation of resources are studied, as are the concepts of income determination. (3 credits) NOTE A/See § 200.2
ACCOUNTANCY

ACCOUNTANCY C325
Advanced
Prerequisite: Accountancy C326 previously or concurrently. This advanced course is primarily concerned with corporate combinations. A study is also made of other advanced accounting areas. (3 credits) NOTE A/See 200.2

ACCOUNTANCY C326
Intermediate II
Prerequisite: Accountancy C323. This course continues the intensive study of Intermediate I with particular emphasis on obligations, funds valuations, and the financial statement analysis. (3 credits)

ACCOUNTANCY C403
Cost and Management Accounting
Prerequisite: Accountancy C218 and C323. This course, based primarily on lectures and problem-solving, is directed to needs of students who contemplate careers in professional accounting as members of recognized accounting bodies. A detailed examination is made of the various techniques, systems and procedures applicable to the managerial use of accounting information for decision-making, profit-planning and control. (3 credits) NOTE A/See 200.2

ACCOUNTANCY C407
Accounting Practice and Policy
Prerequisite: Accountancy C323. Corequisite: Accountancy C326, C410, C429 and C432. Areas previously or concurrently covered in the field of corporate financial reporting are extended, and current accounting literature and pronouncements of professional accounting bodies are examined. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C410
Specialized
Prerequisite: Accountancy C326. In this course an examination is made of some of the specialized aspects of financial accounting. The course focuses on the application of accounting principles and theory to "unusual" business transactions and entities. (3 credits)

ACCOUNTANCY C414
Information Systems and Control
Prerequisite: Accountancy C218. This course includes information systems theory, control theory and practice, responsibility accounting, and a survey of selected management science techniques. Through case analysis and discussions the interrelationships between information and control systems, managerial style and human behaviour are established. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C422
Cost and Management Accounting (Advanced)
Prerequisite: Accountancy C403. This course, through cases and problems, continues at an advanced level the study of modern cost and managerial accounting systems, and emphasizes the contemporary problems facing accountants, and their potential solutions by the use of sophisticated techniques. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C429
Analytical Auditing
Prerequisite: Accountancy C326. This course introduces auditing theory and its application by external and internal auditors in fulfilling their respective objectives and responsibilities. The focus is on the audit of transactions or procedures used by organizations. An analytical approach is used to discuss different accounting systems and to evaluate systems of internal control. The development and use of detailed audit procedures and audit programs is also covered. Cases and problem solving form the basis of student involvement in this course. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C432
Financial Auditing
Prerequisite: Accountancy C429. This course emphasizes the role of the public accountant in expressing an opinion on the financial statements of an organization. The use of audit standards, procedures and internal control is related to the expression of an auditor's opinion. Cases and problems solving form the basis of student involvement in this course. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C433
Auditing and Investigation
Prerequisite: Accountancy C429. This course deals with questions related to professional accounting practices and also covers different types of management services that auditors are frequently requested to undertake. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C441
Taxation I
Prerequisite: Accountancy C213. This course examines the Canadian taxation structure. Emphasis is given to the income taxes levied on individuals, and includes the taxation of capital gains, employment, business and investment income. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C442
Taxation II
Prerequisite: Accountancy C441. This course extends the coverage of Accountancy C441 with a detailed examination of taxes on corporate incomes, and of corporate distributions. Sales taxes, succession duties and other tax areas are also examined. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C451
Computer Auditing
Prerequisite: Computer Science C211 or equivalent, and Accountancy C429. This course explores the impact of large scale computer use on the auditor and his examination of a company's records and systems of internal control. The emphasis is on helping the auditor understand when a computer can be used to assist him and how to follow through with its use. Topics covered include the different controls and techniques required in a computer system, the audit trail, approaches to computer auditing and computer application for auditing. Computer and software security, and consideration of the various computerized audit packages available. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C461
Accounting Theory I
Prerequisite: Accountancy C325. This course examines the framework underlying current accounting thinking and procedures, and a study is made of the development and the influence of professional accounting organizations and regulatory bodies on accounting theory. Controversial areas are emphasized. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C468
(Also listed under International Business)
International Accounting
Prerequisites: Marketing 462 or International Business 362, Accountancy 213 and 218, Finance 314 and 315. (Students who have taken International Business 468 may not take this course for credit.) This course examines accounting practices...
employed by different countries; accounting and financial control of international operations, and various consolidation procedures and their effect on the interpretation of financial statements are discussed. (3 credits)

ACCOUNTANCY C462
Accounting Theory II
Prerequisite: Accountancy C461. This course extends the coverage of Accountancy C461. Particular emphasis is placed on developments in the current literature and in problem areas facing the accounting profession. (3 credits)

ACCOUNTANCY C470
Special Topics in Accounting
Prerequisite: Departmental approval. Intended to complement and supplement accounting courses taken previously or currently at the senior level, this course emphasizes accounting literature and modern thought. Students are encouraged to work independently on research topics of interest to them. Enrolment is restricted and is subject to departmental approval. (3 credits) NOTE A/See § 200.2

ACCOUNTANCY C471
Accounting Seminar
Prerequisite: Accountancy C470. This course examines in greater depth areas of individual interest. Enrolment is restricted and is subject to departmental approval. (3 credits) Students repeating Accountancy C471 register for credits under Accountancy C472 NOTE A/See § 200.2
Introduction to Administration
(Administered by the Finance Department)
This course is intended to develop a basic understanding of the role of administration in our society. The course includes a survey of different forms of organizations, their social and legal responsibilities, and how they function to achieve their goals.
NOTE: Commerce and Administration students may not take this course for credit.

Perspective on Business
(Administered by the Finance Department)
This course is designed to review the historical development of business (in Canada in particular) and to examine the relationships between the firm (management) and the owners, the employees, the customers, the government and the community. Further, it studies some of the problems facing Canadian business today: the dehumanizing aspect, pollution problems, large vs. small firms, foreign ownership, competition, etc. (3 credits)
NOTE: Commerce and Administration students may not take this course for credits.

Transportation
(Administered by the Marketing Department)
This course will deal with economic principles underlying the various modes of transport: i.e. rail, water, motor, air and pipeline. Current problems of each will be discussed. In addition, a survey of the principles of business logistics will be covered. Cases will be utilized when possible. (3 credits) NOTE A/See § 200.2

61.6.2 COURSE DESCRIPTIONS

FINANCE C314
Introduction to Finance I
Prerequisites: Economics C201 or equivalent, Accountancy C213, and Accountancy C218 previously or concurrently. A course dealing with financial standards and forecasting, the theory of interest, capital expenditure decisions, current asset management and the behaviour of money and capital markets. (3 credits) NOTE: Students who have previously taken Finance 215 may not take this course for credit. NOTE A/See § 200.2

FINANCE C315
Introduction to Finance II
Prerequisites: Finance C314 and Economics S209 or L209 or equivalent. A course dealing with short, intermediate and long-term financing instruments, financial structure and valuation, cost of capital and dividend policy. (3 credits) NOTE: Students who have taken Finance 215 should consult the Department concerning permission to take this course. NOTE A/See § 200.2

FINANCE C417
Capital Budgeting Theory
Prerequisite: Finance C315. An examination of the criteria for efficient investments and optimum financial budgeting. (3 credits) NOTE A/See § 200.2

FINANCE C418
Cost Benefit Analysis
Prerequisite: Finance C315. Private and public resource investment, planning programming budgeting systems and associated problems. (3 credits) NOTE A/See § 200.2

FINANCE C430
Financial Management I
Prerequisite: Finance C315. A study of the role and responsibility of the senior financial officer in the achievement of current control through operational finance. A variety of case studies are used to encourage the students to develop a critical approach to the subject. (3 credits) NOTE A/See § 200.2

FINANCE C431
Financial Management II
Prerequisite: Finance C430. This course is a continuation of Finance C430, using the case method approach to cover such topics as long-term financing, investment decisions, mergers and acquisitions. (3 credits) NOTE A/See § 200.2

FINANCE C440
Financial Theory I
Prerequisite: Finance C315. This course discusses the role of research and theory in finance, and the theories of wealth allocation, interest, capital markets, and asset pricing. The discussion of these topics includes the effects of such influences as risk and inflation. (3 credits) NOTE A/See § 200.2

FINANCE C441
Financial Theory II
Prerequisite: Finance C440. This course will be a continuation of Finance C440 covering such topics as: dividends and the value of the corporation, cost of capital, game theory and liquidity. (3 credits) NOTE A/See § 200.2

FINANCE C452
Investment Analysis
Prerequisite: Finance C315. The examination of the workings of security markets and analytical techniques for the valuation of securities. (3 credits) NOTE A/See § 200.2

FINANCE C453
Investment Management
Prerequisite: Finance C452. A study of diversification and portfolio management techniques. (3 credits) NOTE A/See § 200.2
FINANCE C455  
Seminar in Finance  
Prerequisite: Finance C315. This course is intended primarily for Honours or Majors students and provides an opportunity for more intensive study in one or more specific topics of finance. The topic will vary according to the special interests of the professor and the students. (3 credits) Students repeating Finance C455 register for credits under Finance C456.  

NOTE A/See § 200.2  

FINANCE C460  
Financial Intermediaries (National)  
Prerequisite: Finance C315. Principles of money and credit in their application to the operations of the central bank, chartered banks, and the financial system and markets generally. (3 credits) NOTE A/See § 200.2  

FINANCE C461  
Financial Intermediaries (Quebec)  
Prerequisite: Finance C315. A study of the operation of financial institutions in the province of Quebec. (3 credits) NOTE A/See § 200.2  

FINANCE 467  
International Managerial Finance and Investment  
(Also listed under International Business)

9 Additional credits among MARK C465, MANA C466, FINA C467, ACCO C468

61.7.2 COURSE DESCRIPTIONS

(The following five courses are also listed under each respective department).

MARKETING C462
INTERNATIONAL BUSINESS
Environment of World Business
Prerequisite: 2nd year standing in Commerce. (Students who have taken International Business 362 may not take this course for credit.)
This is a foundation course in international business; the objective is to present information which will expose the student to cultural, social, political, economic, legal and financial environments in which the Canadian businessman manages his operations abroad. Each student will be encouraged to develop his own philosophy toward international business activities by developing research and analytical skills in analyzing current and long term problems perceived in different economic systems and environments. Specific topics include empirical dimensions of world economy, economic development, international trade and investment patterns, regional economic co-operation, area studies, Canadian nationalism and foreign investment in Canada, etc. (3 credits)

FINANCE C467
INTERNATIONAL BUSINESS
International Managerial Finance and Investment
Prerequisites: Marketing C462 or International Business 362, Finance C314 and C315. (Students who have taken International Business 467 may not take this course for credit.)

ACCOUNTANCY C468
INTERNATIONAL BUSINESS
International Accounting
Prerequisites: Marketing C462 or International Business 362, Accountancy C213 and C218, Finance C314 and C315. (Students who have taken International Business 468 may not take this course for credit.)
This course examines accounting practices employed by different countries; accounting and financial control of international operations, and various consolidation procedures and their effect on the interpretation of financial statements are discussed. (3 credits)

61.8.2 COURSE DESCRIPTIONS

MANAGEMENT C211 Business Law
A general survey of the law obtaining in the Province of Quebec with special emphasis on the aspects thereof relating to business and commerce. It includes a basic outline of the law of Domicile, Marriage, Persons, Property, Ownership and its modifications, Successions, Gifts and Wills, Testamentary Executors, Contracts, Quasi-Contracts, Offences and Quasi-Offences, Privileges, Hypothes and Prescription, and a more detailed study of the Contract of Sale, Lease and Hire of Things and of Work, Mandate, Loan, Deposit, Partnership, Suretyship, Pledge, Insurance and an outline of the basic law applying to Negotiable Instruments. Corporations, Carriers, Bankruptcy and Winding Up, and Copyrights, Patents and Trade Marks. (6 credits) NOTE A/See § 200,2; Commerce and Administration students may not take this course for credits.

MANAGEMENT C213 Foundations of Behaviour
The purpose of this course is to introduce the student to those behavioral concepts relevant to the study of organizational problems. Topics include perception, attitudes, personality, group behavior, roles and culture as they relate to organizational processes. (3 credits)
NOTE: Students will be exempted from this course if they meet either of the following requirements: (a) Two semesters of psychology, one of which must be social psychology, or, (b) Two semesters of psychology and one semester of sociology with a 75% grade in each.

MANAGEMENT C266 Management: Theory & Practice
The purpose of this course is to introduce the student to management theory and practice. Management will be viewed as a discipline and as a process (planning, organizing and evaluating). The evolution and scope of management
will be considered with illustrations drawn from Canadian experiences. (3 credits)

MANAGEMENT C340
Organizational Behaviour
Prerequisites: Management C213; C266. This course is designed to provide the student with an opportunity to study behaviour within formal organizations. Through theoretical and experiential approaches, the focus of instruction progressively moves through the different levels of analysis, particularly motivation, leadership and group behavior. The objective of the course is to improve the student's perceptual, analytical and problem-solving skills in the diagnosis and innovative resolution of behavioral problems in organizations. (3 credits)

MANAGEMENT C341
Organization Theory
Prerequisites: Management C340. The function, structure and processes of organizations will provide the focus for study. Inter-relationships among the psychosocial, technological, and formal properties of organizations will be examined. Emphasis will be placed on the diagnosis, analysis of organizational problems and optimal design alternatives for improving organizational performance and effectiveness will be explored. The objective is to provide the student with a thorough understanding of the nature of contemporary complex organizations. (3 credits)

MANAGEMENT C342
Organizational Change
Prerequisites: Management C340. An administrative perspective of the behavioural and rational empirical strategies for effecting change in organizations. Emphasis will be placed on an eclectic approach to the planning and implementation of change. Models and methods of change will be reviewed and opportunities for the development of change-agent skills will be provided. (3 credits)

MANAGEMENT C345
Production Management I
Prerequisite: Quantitative Methods C314. It is the production function of the enterprise that gives us the products or services that we sell. In this course we attempt to help management guide and control this area. Topics include government programs and incentives, health and safety regulations, production incentive systems, management information systems and plant location. (3 credits)

MANAGEMENT C346
Production Management II
Prerequisite: Management C345. This course is a continuation of Production Management I and is designed to supplement the knowledge of those students choosing to minor in Production Management. One or more of the following topics will be dealt with in depth: work measurement and development of standard data for incentive systems; production planning, scheduling and control; research and development; plant layout and materials handling. (3 credits)

MANAGEMENT C358
Social Aspects of Enterprise
Prerequisite: Second year standing in any faculty. The purpose of this course is to facilitate understanding of the impact of social, economic, political and ethical influences on the process of managerial decision-making. Consideration is given to the conceptual foundations of business including the business corporation, its function and the legitimacy of its power structure. (3 credits) NOTE A/See § 200.2

MANAGEMENT C369
Canadian Business and its Environment
Prerequisite: Second year standing in Commerce. The purpose of this course is to examine the functioning of Canadian business and its relationships with its public, including stockholders, consumers, employees, labour, community and government. Major contemporary issues such as the impact of technology on people and the physical environment are examined. (3 credits) NOTE A/See § 200.2

MANAGEMENT C402
Supervisory Practice
Prerequisites: Management C340. A seminar focusing on the emerging understanding of leadership and supervisory techniques in task oriented organizations. Contemporary concepts and research on leadership and supervision will be examined. The seminar will analyze the multiple bases for influence and the situational or contingency aspects of leadership. A balance among the conceptual, diagnostic, and experiential approaches to the development of supervisory capability will be emphasized. (3 credits)

MANAGEMENT C409
Principles of Insurance
This course examines the growth of insurance companies in Canada and their effect upon the economy. In addition, the basic fundamentals of insurance are covered, including such topics as life insurance, income replacement, annuities, group insurance, liability, auto, fire and theft insurance. Practical applications and use of insurance dealing with both personal and business situations will be noted. (3 credits) NOTE A/See § 200.2

MANAGEMENT C420
Business Research Methods
Prerequisites: Management C340 and OM C243-C244 or equivalent. This seminar focuses on the means by which social and organizational data can be gathered, analyzed, and interpreted. Needs of the firm for efficient, timely, and unobtrusive research are given special attention. Topics include applications of the scientific method, research design, field research techniques, data analysis, research utilization, and use of existing information sources. Student projects will parallel the classroom activities by designing and conducting business research studies of limited scale. (3 credits)

MANAGEMENT C441
Conflict Management
Prerequisites: Management C340. An administrative approach to the study of interpersonal, intergroup and intra-organizational conflict. Utilizes lectures, case studies and interaction exercises to convey theory, empirical research and applications. (3 credits)

MANAGEMENT C442
Managerial Concepts
Prerequisites: Management C340. This course provides an opportunity for intense study of recent developmental topics within the discipline. Topics might include women in management, managing in Quebec, Management By Objectives, long-range planning, equity theories of motivation, changing roles of managers. (3 credits)

MANAGEMENT C451
Managing a Small Business
Prerequisite: Accountancy C213. This introductory course emphasizes the operational aspects of management that are uniquely important to a small enterprise. It provides opportunity to practice operational decision-making under conditions characteristic for small firms. (3 credits)
MANAGEMENT C452
Entrepreneurship
Prerequisite: Third year standing and Departmental approval. This course will provide for the student a source of the basic techniques needed to start or purchase a business of his own. Consideration will be given to evaluation methods, the nature of an entrepreneur, legal and tax aspects and other aspects of interest to an individual starting a venture as a career alternative. (3 credits)

MANAGEMENT C454
Policy and Strategy for the Small Enterprise
Prerequisites: Third year standing and Departmental approval. This course will help the student to familiarize himself with problems of strategy formulation and implementation within the framework of starting and/or managing a small or medium-sized enterprise. All functions of management will be considered in this context and field work will be encouraged. (3 credits)

MANAGEMENT C460
Business Policy I
Prerequisites: Third year standing in Commerce and completion of core courses. This course is designed to introduce the student to strategy formulation and implementation. Emphasis will be on integrating the learning of the programme in order to develop in students a global view of the organization. Cases will be drawn from the private, public, and non-profit sectors and consideration will be given to policy problems in both the Canadian and international contexts. (3 credits)

MANAGEMENT C461
Business Policy II
Prerequisite: Management C460. This course will concentrate on how the strategy formulated in Business Policy I will be implemented by the organization. Organization structures will be studied in differing environments. The relationships between organization structures and the organization’s strategy will be analyzed. The problems encountered by general managers as well as middle managers in the process of the implementation of the set policies will be studied. (3 credits) NOTE A/See § 200.2

MANAGEMENT C462
Personnel Management I
Prerequisite: Management C340. The aim of this course is to provide a sound background in fundamentals, theory, principles and practice of personnel management. It will focus on the philosophies underlying current personnel policy and practices. (3 credits) NOTE A/See § 200.2

MANAGEMENT C463
Personnel Management II
Prerequisite: Management C462 or equivalent. The course will focus on the techniques of: recruitment, selection, training, executive development, labour relations, performance appraisal and compensation administration. (3 credits)

MANAGEMENT C464
Labour and Industrial Relations I
Prerequisite: Management C340. Labour relations is a survey course designed to provide a practical and comprehensive approach to the state of labour-management relations in Canada. (3 credits) NOTE A/See § 200.2

MANAGEMENT C465
Collective Bargaining and Industrial Relations II
Prerequisite: Management C464. This course is designed to help the student to look at day-to-day problems connected with negotiation and administration of collective bargaining agreements. The course puts some stress on the behavioural aspects of industrial relations. (3 credits) NOTE A/See § 200.2

MANAGEMENT C466
(Also listed under International Business)
Management of Multinational Corporations
Prerequisites: Marketing 462 or International Business 362, Management C213, C266, C340. (Students who have taken International Business 466 may not take this course for credit.) This is a course that demonstrates the analytical tools of operations and organization theory applicable within a multinational company. The course is designed to give students a grasp of the problems of strategy formulation and organization, and inculcates a general knowledge of the major parameters in which an international manager operates. Focus is on the Canadian as well as other international companies based in U.S.A., Europe, Japan, etc. (3 credits)

MANAGEMENT C467
Management Theory II
Prerequisite: Management C266. This course will attempt to further develop the conceptual framework which was established in Management Theory I. To this end it will examine selected management concepts and appraise their value in terms of their application to the actual practice of business. Issues such as the effect of innovation and technological change, managing the knowledge worker, organization planning and comparative management will be considered. (3 credits) NOTE A/See § 200.2

MANAGEMENT C474
Institutional Administration
Prerequisite: Management C340. Management of institutions and agencies in the non-profit (private and public) sector presents unique opportunities and challenges to the manager. This course will provide an introduction to that field. Emphasis will be given to those characteristics of the organization and functioning of these programs which distinguish them from commercial firms, including the peculiar nature of human services, and the influence of social-political processes. Class activities will utilize theoretical and case material and field observations. Student projects will concentrate on policy formulation and administrative function in an agency of the students’ choice. (3 credits)

MANAGEMENT C475
Business Law I
Prerequisite: Second Year Standing in Commerce. This course deals with the Canadian and Quebec Law governing business organizations and the Quebec Civil Law concerning property, contracts, sales, lease, agency, commercial paper, consumer protection, regulation of finance, warranties and product liability, civil responsibility and obligations. It is essentially the body of law governing the relationships among businessmen and between businessmen and consumers, i.e. private business law. (3 credits)

MANAGEMENT C476
Business Law II
Prerequisite: Management C475, Federal and provincial government regulation of business including bankruptcy, anti-combines, trade marks and patents, labour law, insurance, special commercial contracts including secured transactions, fair employment, environmental law. (3 credits)
MANAGEMENT C477
The Law of Insolvency and Secured Transactions
Prerequisite: Management C475. An examination of the various laws and cases both Federal and Provincial across Canada, governing commercial insolvency with particular emphasis upon the liability of directors and officers and the creditors rights in bankruptcy including the role of inspectors and the trustee. An examination of the various forms of secured transactions, which creditors may avail themselves of, more particularly financial institutions including assignment of book debts, pledge, mortgages, bonds, trust deeds. (3 credits)

MANAGEMENT C478
Company Law
Prerequisite: Management C475. The examination of important legal issues relating to the business corporation including an analysis of their legal nature and structure and the powers, rights and obligations of directors, officers and shareholders, including analysis of the legal implications, insider trading, company re-organization, mergers, joint ventures and takeovers. These matters will be studied through the Federal, Quebec and Ontario Companies’ Acts and relevant court cases. (3 credits)

MANAGEMENT C479
Labour Law
Prerequisite: Management C475. A study of the law and relevant court cases dealing with major labour-management issues including collective bargaining, union certification, strike, lockout, grievances and arbitration. Covers Canadian law, primarily Quebec. (3 credits)

MANAGEMENT C499
Special Topics in Administration
Enrolment is restricted and subject to departmental approval. Intended to complement and supplement business courses taken previously or concurrently, this course emphasizes business literature and modern thought. Students are encouraged to work independently on research topics of interest to them. (3 credits) Students repeating Management C499 register for credits under Management C498. NOTE: A/See § 200.2
61.9 Marketing

61.9.1 PROGRAMMES

24 Major in Marketing
3 Mark C352
3 Mark C402
3 Mark C490
15 Mark credits offered by the Department

61.9.2 COURSE DESCRIPTIONS

MARKETING C213
The Marketing Process (Introductory)
The course examines the nature of marketing and its role in society as well as the inter-relationships that are operative within the marketing process — both external as related to society and the consumer and internal as related to the organization of the marketing process within the firm. Many of the factors influencing these relationships are also examined. (3 credits)
NOTE A/See § 200.2

MARKETING C350
Marketing Management
Prerequisites: Accountancy C213 and Marketing C213. An introduction to the managerial concepts and practices involved in planning and carrying out corporate marketing policies and strategies. The four basic elements of the marketing mix, product, price, promotion and distribution and their interrelationships will be examined in detail. The case method will also be used in order to apply these concepts to realistic marketing problems. (3 credits)
NOTE A/See § 200.2

MARKETING C352
Buyer Behaviour
Prerequisites: Marketing C213, Management C213, and Quantitative Methods C243. This course analyzes the motivations, roles and behaviour of the industrial buyer and the consumer, how he and she are affected by economic, social and cultural influences, and how the marketer may model this behaviour for decision-making purposes. (3 credits)
NOTE A/See § 200.2

MARKETING C402
Marketing Research I (Methods)
Prerequisites: Marketing C350 and Quantitative Methods C244. The role of research in marketing process, the role of models, and the development of measurement techniques are discussed. Emphasis is placed on the nature and scope of marketing research methods for obtaining internal and external data and on the steps and principles involved in gathering and analyzing data. The student is also briefly introduced to applications of marketing research. (3 credits)
NOTE A/See § 200.2

MARKETING C452
Marketing Research II (Application)
Prerequisite: Marketing C402. The application of marketing research to problem areas such as advertising, sales management and product strategy. Alternative research designs are applied to actual problems. (3 credits)
NOTE A/See § 200.2

MARKETING C453
Advertising and Sales Promotion Management
Prerequisite: Marketing C350. The course deals with the theory and practice of advertising and sales promotion. Through case studies, field trips and simulations the student learns how to analyze media and budgets, plan promotional campaigns, utilize research findings and evaluate advertising effectiveness. (3 credits)
NOTE A/See § 200.2

MARKETING C454
Sales Management
Prerequisite: Marketing C350. The course deals with the theoretical and applied aspects of the management of personal selling. Through cases, simulations and special presentations the student learns how to recruit, select, train, organize, motivate, evaluate, compensate, supervise and control the sales forces. (3 credits)
NOTE A/See § 200.2
MARKETING C463  
Retail Management  
Prerequisite: Marketing C350. This course seeks to apply the theories of marketing and administration to the retail situation. Topics to be covered include site selection for single and multi-unit retail outlets, organizing and staffing the retail operation, the wholesaler-retailer relationship, consumer behaviour in the retail situation. The impact of such new developments as consumer cooperatives, franchising, discounting and computer technology on the future of retailing will also be considered. (3 credits)  
NOTE A/See § 200.2

MARKETING C464  
Consumerism  
Prerequisite: Marketing C213. The current evolution of marketing and consumerism is subjected to critical evaluation and analytical review. Problem areas which may be examined include marketing costs and efficiency, the social objectives of and objections to marketing, the impact of marketing on the environment, the pollution of advertising, ethics of marketers, and the role of governments in the market place. (3 credits)  
NOTE A/See § 200.2

MARKETING C465  
(Also listed under International Business)  
International Marketing Management  
Prerequisite: International Business 362 or Marketing C462. (Students who have taken International Business 465 may not take this course for credit). This course studies the management approach to international marketing with emphasis on key variables that are controllable by the international marketing manager. Attention is focused on market measurement, product policy, channels, pricing and promotion with special emphasis on the development and control of multinational marketing strategies and programs. (3 credits)

MARKETING C466  
Product Management  
Prerequisites: Marketing C213 and C350. In addition to analyzing product cycles and their characteristics and strategies which relate to each stage, this course delves into some of the more practical aspects of product policy setting strategy formulation of the analysis, development and execution of marketing programs for new and existing products. This course should make the student familiar with one or more product management operations through case discussions and/or field studies. (3 credits)

MARKETING C490  
Marketing Policy  
Prerequisites: Marketing C350 and 9 additional credits in marketing courses. A capstone course in Marketing, utilizing readings, projects and selected case studies requiring the student to incorporate concepts and techniques of previous marketing courses in determining marketing policy. (3 credits)  
NOTE A/See § 200.2

MARKETING C491  
Special Projects Seminar  
Prerequisite: Permission of the Department. Individual study or special project in marketing field. (3 credits) Students repeating Marketing C491 register for credits under Marketing C492.

61.10.2 COURSE DESCRIPTIONS

QUANTITATIVE METHODS C221
Introduction to Business Computing
Prerequisite: None. An introductory course for students interested in the applications of computers in business and industry. (3 credits)
NOTE: Students with credit for Comp Sc 211 may not take this course for additional credit.

QUANTITATIVE METHODS C223
Data Processing Techniques
Prerequisites: Quantitative Methods C221, covering the equipment and methods used in data processing, to give the student as wide as possible an acquaintance with computers of all makes and models, communications and terminal equipment, and special input and output devices. The basic methods for collecting, verifying, preparing and disseminating information will be studied. Elementary programs in the BASIC language will be written and run by the students through the local time-sharing service. (3 credits)

QUANTITATIVE METHODS C243
Introductory Business Statistics I
Prerequisites: One CEGEP course in each of Algebra and Calculus, or equivalent. The objectives of the course are to introduce the student to applications of statistics in managerial decision-making. Topics covered include descriptive measures, frequency distribution analysis, probability theory, probability distributions, estimation, hypothesis testing. All examples will be derived from the functional areas of business, including Finance, Accounting, Production, Purchasing, Marketing, etc. (3 credits)
QUANTITATIVE METHODS C244
Introductory Business Statistics II
Prerequisite: QM C243 or equivalent. This course offers further development of probability and statistics concepts needed for management decisions. Topics covered include regression and correlation analysis, forecasting and smoothing techniques, time series analysis, sampling theory, quality control and analysis of variance. The usefulness of these techniques in managerial applications will be discussed with examples, problems and cases. (3 credits)

QUANTITATIVE METHODS C313
Managerial Operations Research
Prerequisites: QM C243 and C244, or equivalent. This course is an introduction to managerial operations research and its role and function in executive decision. It emphasizes both assumptions and management applications. The basic areas covered include: formulation, solution techniques, optimization concepts and model building; linear programming and related economic interpretation; transportation problems; transshipment problems; assignment problems; network analysis (CPM and PERT); game theory. (3 credits)

QUANTITATIVE METHODS C314
Operations Research and Production Systems
Prerequisite: QM C313 or equivalent. This course is an extension of QM C313. The basic areas covered include: Managerial Decision theory and utility theory, inventory control; waiting lines; time and motion studies; plant layout; design of the production planning systems; capacity planning models; sequencing and routing; Markov chains and applications; simulation. (3 credits)

QUANTITATIVE METHODS C316
Optimization Techniques
Prerequisite: QM C313 or equivalent. This course deals with optimization techniques in Management Sciences. It includes: linear programming, simplex algorithm, sensitivity testing and duality, postoptimality analysis; separable programming; dynamic programming; integer programming; non-linear programming; stochastic programming; multiplier theory. Management applications such as portfolio formation, capital budgeting, production smoothing, inventory scheduling, competitive strategies, regeneration models will be given particular attention. (3 credits)

QUANTITATIVE METHODS C327
Business Systems
This course provides a panoramic view of the systems tools, techniques and equipment and relates them to practical situations arising in an enterprise in this age of change. Topics covered include: translation of management objectives into business system procedures and methods, organization planning, project control techniques, work measurements, information gathering, processing, distribution and retention equipment from simple office machines to computers. Applications of Finance, Accounting, Marketing, Budgeting and Production systems will be discussed. (3 credits)

QUANTITATIVE METHODS C345
Business Decision Analysis
Prerequisites: QM C243 and C244 or equivalent. This course deals with the analysis of choices under uncertainty. It provides a coverage of Bayesian inference, decision theory, prior, posterior and pre-posterior distributions (discrete and continuous). It includes the analysis of uncertain payoffs and biased measurements, analytical utility functions and their properties; the use of judgment probability and the principle of substitution for strategies. Economics of sampling, risk sharing, group decision will also be considered. Examples of decision making in production planning, research and development, manpower planning, finance etc. will be presented and discussed. (3 credits)

QUANTITATIVE METHODS C353
Mathematical Analysis for Business — Calculus
Prerequisites: One CEGEP course in each of Intermediate Algebra and Calculus or equivalent. The various applications of differential and integral calculus and the use of difference and differential equations in the functional areas of management, e.g., production, marketing, accounting, and finance, personnel administration, and purchasing will be studied. Special applications (e.g. Input-Output Analysis) will be explored. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS C354
Mathematical Analysis for Business — Matrix Algebra
Prerequisites: One CEGEP course in each of Intermediate Algebra and Calculus or equivalent. Properties and applications of matrix algebra in the functional areas of management, e.g., production, marketing, accounting and finance, personnel administration and purchasing, will be studied. Special applications (e.g. Input-Output Analysis) will be explored. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS C355
Production Systems I
Prerequisites: QM C243, C244 and C313. In this course an introduction to production systems of the enterprise is presented. Topics include: technology and design, forecasting, allocation of resources, scheduling, work methods and measurements, location problems, plant layout and materials handling, process control and quality control. (3 credits)

QUANTITATIVE METHODS C412
Network Optimization Models
Prerequisites: QM C313 and C314 or equivalent. This course includes a detailed study of Network Models in Management Sciences. It includes classical transportation problem; transshipment model; assignment model; shortest-route algorithms in cyclic and acyclic networks; critical path scheduling; maximum flow through a capacitated network; out-of-killer algorithm for commodity network. Special applications to production scheduling, employment engagement, machine replacement, allocation situations, catering problems will be considered. (3 credits)

QUANTITATIVE METHODS C414
Operations Research Models in the Social Environment
Prerequisites: QM C313 and C314 or equivalent. This course is designed to keep the student informed of most recent and successful applications of Operations Research Models in the Social Environment. The topics to be discussed will be selected from: Criminal Justice, Educational Systems, Pollution, Rural and Agricultural Models, Transportation, Energy Models etc. (3 credits)

QUANTITATIVE METHODS C416
Inventory, Replacement, Maintenance Models
Prerequisites: QM C313 and C314 or equivalent. This course covers deterministic inventory models, stochastic inventory models, special structures of inventory control practice; replacement of items which deteriorate with time; replacement of items which fail suddenly, staffing problems; maintenance models; reliability theory; analysis of operational warranty techniques; renewal theory and managerial applications. (3 credits)
QUANTITATIVE METHODS C417
Commercial Software
Prerequisite: Quantitative Methods C423. A study of a representative sample of the software packages available commercially for use in business applications, including systems such as file management, payroll, inventory, and bill-of-materials; and control packages such as critical path scheduling, linear programming, and simulation. Sources of software, criteria for evaluating and choosing packages; implementation, maintenance and modification of packages. Class and individual projects on the use of typical packages. (3 credits)

QUANTITATIVE METHODS C421
R.P.G. Programming
Prerequisites: Quantitative Methods C423. R.P.G. stands for Report Program Generator. This course is designed to teach the students the logic of the R.P.G. compiler. The knowledge gained in class will be utilized to solve problems and write about 5 programs geared for the business environment. There will be 3 lecture hours per week and approximately 5 to 10 hours of programming and debugging per week outside class. (3 credits)

QUANTITATIVE METHODS C422
Data Processing Management
Prerequisite: Quantitative Methods C423. The theory and practice of management as applied in commercial data processing. Planning for new business systems and computers; the feasibility study; the computer as an aid in planning; the organization of a data centre; staffing the data centre; job description and job specifications; maintenance and security; control methods for operation, data entry, processing and output. (3 credits)

QUANTITATIVE METHODS C423
Business Computer Programming
Prerequisite: QM C221 or equivalent. This course introduces the use of computer terminals and the BASIC programming language in on-line business applications. Attention will be given to good programming practices, proper documentation, and the organization of programming teams. Structured programming concepts will be illustrated using the standard COBOL language for batch file-handling programs. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS C424
Data Processing Systems and Applications
Prerequisite: QM C243 or Comp C251 or equivalent. This course will survey and study the various currently available data processing systems, illustrated by a detailed study of typical applications to production, inventory control, ordering and invoicing. The role of management (at all levels) in planning, implementing, staffing, operating and controlling a data system will be studied by readings and cases. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS C425
Business Systems Analysis and Design
Prerequisite: QM C221 or equivalent. Principles of the design of data processing systems, and a detailed study of the process of implementing a new system. Methods of evaluating an existing system or a proposed modification. Maintaining quality, economy, security and integrity in a data system. Students will study and report on an actual operating data system. (3 credits) NOTE A/See § 200.2

QUANTITATIVE METHODS C426
Business Systems Simulation and Control
Prerequisite: Computer Science C211, Quantitative Methods C244, and C314; or equivalent.
Bachelor of Commerce students who wish to follow an Honours or Major programme in Economics may meet the requirements of the Faculties of Commerce and of Arts and Science by following the programmes described below. The course descriptions for Economics courses may be found in Section 31.11.

Students seeking admission into the Honours programme require approval of the Department following a recommendation from its Honours Committee. Students seeking admission to the Honours programme on or after June 1, 1977, will be bound by the Honours requirements outlined in Section 16.2.4 of this calendar. Students who already had Honours status by June 1, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme.

Bachelor of Commerce students wishing to take a Minor in Economics may do so by selecting 30 credits in Economics in consultation with the Economics Department.

### 61.11.1 PROGRAMMES

#### 90 B. Comm Honours in Economics

| Year I | 6 ECON C201*, C203* | 6 QUAN C243, C244 | 6 MARK C213, FINA C314** | 6 ACCO C213, C218 | 6 MANA C213, C266 |
| Year II | 6 ECON C301, C302 | 6 ECON C303, C304 | 6 FINA C315, MARK C350 | 6 MANA C340, C475 | 6 ECON elective† |
| Year III | 18 ECON ADVANCED CORE ‡ | 6 QUAN C313, C314 | 6 MANA C460, or ECON elective in consultation with the Economics Department | 6 ECON elective | 6 ECON elective (400 level) |

† A student who has been granted exemptions for ECON C201 or C203 must take an equivalent number of credits in Economics.

‡ ECON C203 is a prerequisite for FINA C314.

### 90 B. Comm Major in Economics

| Year I | 6 ECON C201*, C203* | 6 QUAN C243, C244 | 6 MARK C213, FINA C314** | 6 ACCO C213, C218 | 6 MANA C213, C266 |
| Year II | 6 ECON C301, C302 | 6 ECON C303, C304 | 6 FINA C315, MARK C350 | 6 MANA C340, C475 | 6 ECON elective |
| Year III | 18 ECON ADVANCED CORE ‡ | 6 QUAN C313, C314 | 6 MANA C460, or elective in consultation with the Economics Department | 6 ECON elective | 6 Elective |

* A student who has been granted exemptions for ECON C201 or C203 must take an equivalent number of credits in Economics.

** ECON C203 is a prerequisite for FINA C314.
61.12 Computer Science

For a Major in Data Processing see § 61.10.

61.13 Additional Courses for Commerce Students

COMPUTER SCIENCE

Courses in Computer Science are available as electives to Commerce students.

FINE ARTS

The following course in Fine Arts is available to Commerce students.

THEATRE C320
Theatre Administration

A course in theatre administration covering office and plant management, production, touring, and prepackaged plant costing; contracts, insurances, budgeting and seasonal planning. Lectures with actual case studies in depth. (6 credits)

61.13.1 NON-CREDIT COURSES

The following courses, are offered from time to time to meet the needs of various business organizations. They do not carry credits towards the Bachelor of Commerce degree. Students must consult the timetable to determine which of the following courses are offered in the current academic year.

BUSINESS C221 (NON-CREDIT)
Office Management

A course in the principles of office management, including such topics as the function of the office in business; organization and principles of control; office systems and routines; office equipment and labour saving devices; office planning and layouts; selection and training of office personnel; office communications. (6 credits)

NOTE: This course was previously designated as Administration 221. Students who have taken Administration 221 should not take this course.

BUSINESS C222 (NON-CREDIT)
Procurement Principles

This course is designed to cover the fundamentals of purchasing policies and procedures and the organization and functions of the purchasing department in business and industry. Topics covered will include pricing, negotiation, quality and quantity determination, budgetary institutions etc., as well as the relationship between purchasing and other management functions. Class discussion and case studies are the basic method of study employed. (6 credits)

NOTE: This course was previously designated as Administration 442 and 443. Students who have taken Administration 442 and/or 443 should not take this course.

BUSINESS C223 (NON-CREDIT)
Business Systems

This course is designed primarily for students with practical business experience, managers, and potential system men. It provides a panoramic view of the systems tools, techniques and equipment and relates them to practical situations arising in an enterprise in this age of change. Topics covered include: translation of management objectives into business system procedures and methods; organization planning; fact finding and related tools such as flowcharting, work measurement, information requirement studies; selling implementation and management of system and organization changes including planning, presentation and documentation tools such as a critical path scheduling, decision table construction, procedure writing, project control techniques; information gathering, processing, distribution and retrieval of equipment from simple office machines to computers.

NOTE: This course was previously designated as Executive Training 441 and 442. Students who have taken Executive Training 441 and/or 442 should not take this course.

BUSINESS C241 (NON-CREDIT)
International Trade

The fundamental and practical aspects of importing and exporting, covering such subjects as trade terms and definitions, import and export regulations; export credits insurance; customs regulations; handling of export traffic; trading documents; air cargo and air express; marine insurance; financing. (6 credits)

NOTE: This course was previously designated as Marketing 241. Students who have taken Marketing 241 should not take this course.

BUSINESS C251 (NON-CREDIT)
Transportation and Traffic (Introductory)

This course in freight traffic management is primarily for students who wish to specialize in this line of endeavour. It covers the practical aspects of transportation in Canada including such matters as bills of lading and shipping procedures; special services of railways; express; claims and claims prevention; freight contracts; marine insurance; customs; interpretation of the railway act and railway law. (6 credits)

NOTE: This course was previously designated as Marketing 251. Students who have taken Marketing 251 should not take this course.

BUSINESS C252 (NON-CREDIT)
Transportation and Traffic (Advanced)

Prerequisite: Business 251. This course in freight traffic management is primarily for students who wish to specialize in this line of endeavour. It covers the practical aspects of transportation in Canada including such matters as tariff construction and freight rate structures; condition of carriage; ocean freight contracts; marine insurance; customs; interpretation of the railway act and railway law. (6 credits)

NOTE: This course was previously designated as Marketing 252. Students who have taken Marketing 252 should not take this course.

BUSINESS C260 (NON-CREDIT)
Basic Mathematics for Business

Review of elementary algebraic operations; fractions, ratios, proportions, percentages, simple equations, arithmetic and geometric progressions, logarithms; graphical algebra; simple and compound interest; annuities, amortization and sinking funds, depreciation and bond values; simple business statistics including: the collection of statistical data, various methods of presentation including tables and graphs, the frequency distribution and its mathematical analysis including averages, measures of dispersion, measures of skewnesses, normal curve, and correlation.
The three professional organizations listed below recognize certain Concordia University course for course exemptions or standing in their professional designation programmes.

ORDER OF CHARTERED ACCOUNTANTS OF QUEBEC: Chartered Accountant (CA)
The Faculty of Commerce and Administration offers a Diploma in Accountancy which has been approved by the Order of Chartered Accountants of Quebec. Entry into the program normally requires a Bachelor's degree in Commerce, and a major in accountancy with high academic standing. Applicants lacking an appropriate pattern of undergraduate work will be required to complete successfully certain qualifying courses, as assigned by the diploma program director. For further details refer to the Concordia University Graduate Studies calendar.

PROFESSIONAL CORPORATION OF INDUSTRIAL ACCOUNTANTS OF QUEBEC: Registered Industrial Accountant (R.I.A.)
Students who wish to follow the RIA program must register with the Professional Corporation of Industrial Accountants of Quebec. A table of course equivalencies for RIA and Concordia courses is shown below.

Students requesting an exemption from the RIA course work in any of these mandatory courses should consult with the Department of Accountancy, RIA coordinator.
### 61.15 Special Certificate Programmes

There are many organizations within the business community designed to serve the needs of people working in specialized areas of business. These organizations recognize that the educational qualifications of those seeking membership must be continually upgraded. Therefore, they sponsor an Academic Certificate which may be obtained through correspondence courses or through a lecture programme.

The Faculty of commerce and Administration cooperates with these business organizations by permitting personnel to register as independent (partial) students, and to take courses leading to a certificate to be awarded by the organization concerned.

Students must comply with the University regulations regarding dates of application and independent (partial) student entrance requirements as outlined in the Academic Calendar § 11. In addition to this, they must meet the requirements of the specific organization.

The credit course taken may be applied towards the Bachelor of Commerce degree provided the student meets the admission requirements and wishes to transfer from independent (partial) status to undergraduate status after completing a certificate programme. Students are advised that they must meet the Bachelor of Commerce curriculum requirements in force at the date of transfer.

Each certificate programme has one or more special courses required to complete the programme. These courses do not carry credit toward a Bachelor's degree and are designated as non-credit courses.

Students interested in the following certificate programmes will obtain details of required courses from the organization concerned:

- The Administrative Management Society (Montreal Chapter) Inc.
- Association of Professional Placement Agencies and Consultants
- The American Marketing Association (Montreal Chapter)
- The Institute of Chartered Secretaries & Administrators
- The Canadian Association of Purchasing Agents (Montreal Division)
- Data Processing Management Association (Montreal Chapter)
- Institute of Canadian Bankers
- The Montreal Personnel Association
- The Systems and Procedures Association of America (Montreal Chapter)
- The National Secretaries Association (CPS)
- The Insurance Institute of Canada
- The Trust Companies Institute of Canada

The purpose of this committee is the maintenance of a continuing and constructive relationship and dialogue between the Faculty of Commerce and Administration and a broadly representative group of senior business executives. In this way the relevance of the work of the Faculty to the needs of the business community is kept under review, while the objectives, roles and accomplishments of the Faculty and the qualifications of its graduates are made better known in business circles.

The personnel of the Committee comprises senior members of the business community, senior faculty representatives and also representatives of student organizations.

Chairman, Department of Mechanical Engineering
T. S. SANKAR
Chairman, Department of Computer Science
H. STANLEY HEAPS

Note: The following programmes are offered in the Faculty of Engineering:

1) Bachelor of Engineering degrees in Civil, Electrical, and Mechanical Engineering.
2) Combined degree in Bachelor of Engineering (Civil) and Master of Engineering (Building).
3) Bachelor of Computer Science degree.
4) Minor in Computer Science.
5) Certificate in Quality Control.

The requirements for the programmes are different, and the appropriate section in the following pages must be consulted for each.

*A proposal for a programme in industrial engineering is now under consideration by the Comite Conjoint des Programmes and the Ministry of Education. If approved for implementation, the programme will be announced. It should be noted that the first year of the programme is essentially that of other engineering programmes.

71.1.1 ADMISSION REQUIREMENTS

Applications for admission to the B.Eng. or B.Comp.Sc. programmes are submitted to the Admissions Office at the preferred campus.

General Admission requirements are listed in §13. In addition, the following specific requirements exist for the various programmes. Applicants should specify their choice of programme on their application.

1) B.Eng. (Civil, Electrical, Mechanical)
   B.Comp.Sc. (General Business Option)
   Certificate in Quality Control
   CEGEP (Profile 10-4)

2) B.Comp.Sc. (General Science, Mathematics and Digital/Systems Options)
   CEGEP (Profile 10-10)

   Mathematics
   Physics
   Chemistry
   Biology

   Completion of the above courses is a necessary condition for regular admission to a B.Eng. programme, the minimum length of which will range from 126.50 to 128.75 credits depending on the option chosen. Consideration will be given to reducing the length of an individual student's programme in cases where he/she has completed one or more of the CEGEP courses listed below. Corresponding Concordia numbers and credit values are also listed. In no case may a programme be reduced below a minimum of 105 credits.

   CEGEP Numbers
   Concordia Numbers

   203-101 PHYS C2043, C2241
   203-201 PHYS C2053, C2251
   420-911 COMP C2113
   242-101 ENGR C2122
   242-201 and 211 ENGR C2132
   242-301 ENGR C2142
   221-322 CIVI C2312.75
   205-901 CIVI C2312.75

   Students will be required to take COMP C211 during their first year, in addition to regular programme requirements, if they have not obtained credit for Data Processing.
Students should refer to the section presenting the Academic Regulations of the University, §16.

For additional regulations governing the programme in Building Engineering leading to the combined degrees of Bachelor of Engineering (Civil) and Master of Engineering (Building), see Section 71.3.

71.1.3 ADDITIONAL REGULATIONS FOR THE BACHELOR OF ENGINEERING/BACHELOR OF COMPUTER SCIENCE

Definitions
- **Programme:** The programme consists of:
  i) All courses and other requirements specified in §71 for the B.Eng./B.Comp.Sc. degrees, and/or
  ii) All courses and other requirements specified in §14, for the Pre-Engineering/Computer Science Mature Student programme, or,
  iii) Any modification to i) and ii) as specified by the Faculty on an individual basis.

**Academic Year:** A period of time which includes a Summer and its subsequent Fall and Winter terms.

**Appropriate member of the Dean's office:** As appointed by the Dean of Engineering.

**Student Adviser:** Faculty member responsible for counselling students.

Objectives
The objectives of these regulations are:
1. First, to ensure that students can, with the assistance or intervention of the Faculty, assess themselves objectively, and plan programmes of study designed to meet their individual needs.
2. Second, to ensure that the Faculty can certify that all of its graduates are qualified to enter their profession.

Grading System
See §16.3 for the Concordia grading system. Results for courses specified in §71 for the B.Eng./B.Comp.Sc. degrees are to be submitted as letter grades only, (e.g. C-, B+, A).

Regulations
1. Upon completion of the term of study where the student's programme includes a first attempt at not less than four of the courses specified for the B.Eng. or B.Comp.Sc. degrees in section 71 of the undergraduate calendar, full-time students may register for six courses in the following term (See Table 1) provided that they have achieved a grade of C- or better in each of at least two thirds of the courses for which they were registered. Students who do not achieve a grade of C- or better in each of at least two thirds of the courses for which they were registered will have their programme for the next term determined by the appropriate member of the Dean's Office in consultation with their advisor.

2. Student's standings are assessed at the end of each academic year providing they have registered for at least four courses in the programme subsequent to their previous assessment, or in the case of a first assessment, subsequent to their admission to the programme. Standings of students requiring fewer than four courses to complete the B.Eng./B.Comp.Sc. programmes will be determined on the basis of only those courses registered for in that academic year.

The assessment is based on the grades obtained for all courses in the programme for which they have registered, subsequent to their previous assessment, or in the case of a first assessment, subsequent to their admission to the programme. A grade obtained as a result of writing a supplemental examination and/or completing the work for a course graded 'INC' is not included in the assessment.

3. Students' standings are determined according to the following criteria:
   - **Acceptable Standing**
     - 'C-' or better in each of at least two-thirds of the courses registered for with no more than one failure if eight or fewer courses have been registered for, or two failures if more than eight courses have been registered for. (See Table 1)
   - **Conditional Standing**
     - 'C-' or better in each of at least one-half of the courses registered for, with no more than two failures if eight or fewer courses have been registered for, or three failures if more than eight courses have been registered for. (See Table 2)
   - **Failed Standing**
     - Failure to meet the criteria for acceptable or conditional standings, or conditional standing over two consecutive assessments.

4. Students in acceptable standing may proceed subject to the following conditions:
   - Any failing grade must be cleared by passing the supplemental examination and/or completing the work for the course, or by repeating the failed course by an alternative approved by the student's Department.

5. Students in conditional standing may proceed for one year of study subject to the following conditions:
   - a) They must repeat successfully all courses in which failing grades were obtained, or replace them by alternatives approved by the appropriate member of the Dean's Office in consultation with the student's Department.
   - b) They must repeat or replace by approved alternatives at least one-half of those courses in which they obtained grades in the 'D' range. The specific courses to be repeated will be determined by the appropriate member of the Dean's Office in consultation with the student's Department.
   - c) Full-time students may register for a maximum of five courses per term, part-time students for a maximum of two courses per term.
   - d) They must obtain acceptable standing at the time of their next assessment.

6. Subject to regulation 7 below, failed students may be considered for re-admission upon application to the appropriate member of the Dean's Office. If re-admitted, they will be placed on academic probation to be determined at the time of their re-admission.
They must return to good standing at the time of their next assessment.

7. Failed students who were previously classed as failed students must withdraw from the University.

### 71.1.4 Availability of Programmes

There is great flexibility in the method of progressing through a programme of Engineering or Computer Science at Concordia. This is shown in the table below. Students are also free to proceed in either a 6 or 8 term sequence in the Engineering programme. Further information on sequencing may be found in the Programme Guide issued by the Assistant Dean, Academic Programmes, and in Section 71.2.7 of this calendar.

#### January Entrants

In addition to admitting students to its programmes for the fall session, the Faculty admits in January, students who have completed their collegial studies. In the case of the B.Eng. programme, students will be admitted at the Sir George Williams Campus only; and if they are full-time students, are expected to undertake full-time studies during the subsequent summer.

#### Industrial Parallel Studies (IPS)

Attention should be given to a programme unique to Concordia, that of Industrial Parallel Studies. IPS are available at the Sir George Williams Campus. They are offered for students who have successfully completed the First Year of the programme, or its equivalent, and whose employers are prepared to certify that they will be employed for a maximum of 20 hours per week during the Fall/Winter Sessions. The Faculty timetable is arranged to allow students undertaking IPS to attend the University for either five half days or two and one-half days per week.

Priority for IPS is given to students who have completed the First Year of the programme in the Evening. All students undertaking such studies must have been granted permission by the office of the Assistant Dean, Undergraduate Student Affairs, Engineering and Computer Science, from whom the pamphlet Industrial Parallel Studies, giving more detailed information, can be obtained upon request.

* Students may complete the first two thirds of their programme at the Loyola campus. They must transfer to the Sir George Williams campus for the final third. In the case of students registered in combined programme in Building Engineering, this transfer must be effected after completion of the first third of the programme.

** Students must transfer to full-time studies after completion of the first third of the programme.
71.2 Bachelor of Engineering

71.2.1 CURRICULUM FOR THE DEGREE OF BACHELOR OF ENGINEERING

The University offers a programme leading to the degree of Bachelor of Engineering in the fields of Civil, Electrical, and Mechanical Engineering. The B.Eng. (Civil) degree is also offered as part of the combined degree programme given by the Centre for Building Studies. To be recommended for the degree of Bachelor of Engineering, students must satisfactorily complete all the General Requirements and all the requirements of the department* in which they are registered. The General Requirements are given below and comprise the Graduation Regulations and a uniform group of courses; all are common to the four departments.* The individual Department Requirements are given in subsequent sections. They comprise a group of required courses with a group of elective courses which allow students to select part of their programme to provide some depth in an area of specialization according to their particular interests, or breadth in the general field of their chosen department.

In their final undergraduate year, students with high standing may be granted permission by their department and the Engineering Graduate Studies Committee to register for a limited number of graduate courses offered by the Faculty in lieu of some courses in the undergraduate programme.

Successful completion of the B.Eng. degree programme requires hard work and considerable dedication on the part of each student. Courses are presented with the expectation of an average of about two hours of 'outside' work for each lecture hour and about one-half hour of 'outside' work for each hour spent in the laboratory for all programmes of study.

*Includes the Centre for Building Studies.

71.2.2 MEMBERSHIP IN THE ORDER OF ENGINEERS OF QUEBEC

The Order of Engineers of Quebec (OEQ) has fully accredited the Bachelor of Engineering curricula in Civil, Electrical, and Mechanical Engineering; and will admit graduates of these three programmes as members according to the Engineers Act and the OEQ By-Laws and providing applicants can complete the French language requirements.

Quebec law now requires that candidates seeking admission to provincially-recognized Quebec professional corporations (such as the Order of Engineers of Quebec), be tested on their ability in the French language.

Information on this testing program of the Office de la langue française may be obtained by writing: Office de la langue française, 800 Place Victoria, 15e étage, Montréal, Québec, H4Z 1G8, telephone: 873-8361.

71.2.3 ACCREDITATION BY THE CANADIAN COUNCIL OF PROFESSIONAL ENGINEERS

The Accreditation Board of the Canadian Council of Professional Engineers (CCPE) has accredited the Bachelor of Engineering curricula in the Departments of Civil, Electrical, and Mechanical Engineering. The Board has recommended to the Constituent Associations of CCPE that graduation from the above curricula be considered as sufficient academic qualification for purposes of registration in all Provinces and Territories in Canada.

71.2.4 COURSE REQUIREMENTS

To be recommended for the degree of Bachelor of Engineering, students admitted after January 1979 must satisfactorily complete the following courses as well as those specified by their departments, as shown in subsequent sections. Students admitted for January 1979 or earlier should consult the 1978/79 Undergraduate Calendar.

**ENGR C212 Technical Drawing 2.00
**ENGR C273 Basic Circuit Analysis 3.75
**ENGR C281 Technical Literature 2.00
**ENGR C402 Engineering Law 1.50
**ENGR C410 Technical Report 1.50

6 credits chosen from the 'Social Aspects of Engineering' group.***

**ENGR C491 Engineers and Society 3.00
**ENGR C492 Historical Impact of Technology on Society 3.00
**ENGR C493 Engineering, Resources & Environment 3.00
**ENGR C494 Effect of Technology on the Person 3.00
**ENGR C495 Assessment and Direction of Technology 3.00
**ENGR C496 Technology and Human Affairs 3.00

39.75

* Offered in both Day and Evening.
** To be submitted at the beginning of the academic year in which the student expects to graduate.
*** Students in the Combined Programme in Building Engineering must successfully complete BLDG C481 as part of the 6 credit requirement. (For all students, 3 of these 6 credits may be replaced by a specified course in French, subject to the approval of the Assistant Dean, Undergraduate Student Affairs.)

71.2.5 GRADUATION REQUIREMENTS

Students must complete the programme in acceptable standing.
71.2.6 SCHEDULING OF COURSES

A programme guide indicating course schedules for both the 6 and 8 term Engineering and Computer Science sequences is available from the Faculty Office on either campus. The programme in Building Engineering leading to the combined degrees of B.Eng. (Civil) and M.Eng. (Building) will normally require a minimum of 9 terms for completion.
A unique programme in engineering education has been developed by the Centre for Building Studies in response to trends in the building industry. These trends include large and more complex projects, the need for the conservation of scarce resources and changes in the methods of project delivery. Important educational implications arising from these trends include the need for more interdisciplinary knowledge, acquaintance with more rigorous analysis and design techniques and greater knowledge of economics, decision analysis and management techniques. The program as defined consists of an integrated bachelor's and masters program which may be completed in four years and which builds on two proven degree programs, these being the Bachelor of Engineering (Civil) and the Master of Engineering (Building). The combined program has been given the designation Building Engineering. Building Engineering, as a discipline, encompasses the body of knowledge which pertains to all phases in the life-cycle of a constructed facility, namely conception, planning, design, construction, operation and disposal. Students who successfully complete the program will receive two degrees: viz Bachelor of Engineering (Civil) and Master of Engineering (Building). The program has been designed to appeal to students who aspire to leadership roles within the building industry and who can maintain an accelerated pace of studies.

The services of the building engineer will be sought by consultants, owners, contractors, manufacturers, government and research and educational institutions. His/her talents will be applied to all phases in the life-cycle of various types of built facilities which include commercial, residential, industrial and institutional facilities as well as to the development of new innovations and knowledge pertaining to the built environment.

The program has as its focus four branches of building engineering, these being building science, building environment, building structures, and construction management. Each student receives an in-depth treatment of the engineering fundamentals which relate to the above four branches as well as a specialist knowledge in one of these branches and a minor in one other branch.

At the undergraduate level, attention is focused on engineering mathematics, physical science and engineering fundamentals which relate to the four branches of concentration. Some emphasis is also placed on the development of decision making skills. At the graduate level, activities are focused on developing specialist knowledge in one of building science, building environment, building structures, and construction management and a minor in another branch. To further enhance the students decision-making skills, courses will also be taken on decision analysis, integrated building design and computer-aided design. Depending on the career objectives of the student, he/she is also required to prepare a technical report, dissertation or thesis.

Within the area known as building science, emphasis is placed on building materials, building enclosure systems and industrialized building. The area of building environment emphasizes thermal environment, acoustics and illumination. Topics treated include the analysis and design of conventional building mechanical systems, sound isolation and noise control and innovative systems such as solar energy. The area of building structures, a shared responsibility with Civil engineering, concentrates on principles of structural analysis and design and the application of these principles to the investigation of building structural systems. The area of construction...
management emphasizes both what is being managed as well as the techniques of management and includes the treatment of legal and labour issues in construction, the techniques of planning, scheduling and control of construction projects and methods of construction.

71.3.1 ACADEMIC REGULATIONS

Students should refer to the section presenting the Academic Regulations of the University, §16.

Additional regulations for the combined degrees of B. Eng. (Civil) and M. Eng. (Building) are as follows:

1. Students will be assessed at the end of terms 1, 2, 4, 6, 8, 9.
2. In order to remain in the programme students must a) have obtained C− or better in at least 2/3 of the courses registered for at the 200 level with no more than 2 failures.
   b) have obtained B− or better in at least 2/3 of the courses registered for at the 300 level with no more than 2 failures.
   c) have obtained B or better in at least 3/4 of the courses registered for at the 400 level or above with no failures.
3. a) Students who fail to meet 2a) or 2b) above must withdraw from the programme. If they are allowed to continue towards the B. Eng. degree, they may do so in the option of their choice.
   b) Students who do not meet 2c) above but do meet 2b) for the courses taken at the 400 level or above may continue for a maximum of one year, after which they must meet condition 2c).
4. Students who either choose or are required to withdraw from the programme, may, if they are allowed to proceed under the regulations governing B. Eng. programmes, enter the undergraduate option of their choice.

71.3.2 DEPARTMENTAL REQUIREMENTS

The award of the combined degrees of Bachelor of Engineering (Civil) and Master of Engineering (Building) requires completion of both the Undergraduate Component (Engineering Core and Programme Core), and the Graduate Component.

Students must also satisfy the Academic Regulations listed above.

71.3.3 UNDERGRADUATE COMPONENT

The undergraduate component requires successful completion of the following courses.

Faculty Core
See Section 71.2.5. Note that students in the combined degree programme must replace one of the required Social Aspects courses with BLDG C481.

71.3.4 GRADUATE COMPONENT

The Graduate Component requires successful completion of 45 credits. For graduate offerings, refer to the Graduate Calendar.

Common Core (9 credits)
BLDG N658 Decision Analysis
BLDG N750 Computer Aided Building Design
BLDG N751 Integrated Building Design

Branch Requirement (15 Credits from one of the following branches)
Building Science
Building Environment
Building Structures
Construction Management

Elective Credits (0, 6, or 12 Credits)
Chosen from other graduate courses in Building Engineering or from other graduate courses.

Project Work
Major Technical Report (9 Credits)
Registration Sequence: ENGR 881-882, Term 9
Dissertation (15 Credits)
Registration Sequence: ENGR 881-882, Term 8
ENGR 883-884, Term 9
Thesis (21 Credits)
Registration Sequence: ENGR 881-882, Term 7
ENGR 883-884, Term 8
ENGR 885-886, Term 9
Civil Engineering is primarily concerned with the creation of the complex systems of construction facilities for sound economic growth of the community. In a broad sense, civil engineers learn to control and modify the environment effectively so as to satisfy the needs and desires of society. Their responsibility for design ranges from foundations and superstructures of our common structures such as buildings, bridges, dams, tunnels, wharves, etc., to many unusual structures such as rocket installation, containment vessels for nuclear reactors, port facilities for radio telescopes, frameworks for aircraft. In addition, civil engineers are concerned with the engineering aspects of water resources, rivers, harbours, irrigation and drainage; with the disposal of wastes and the control of the quality of air and water; with highways, railroads, airports and other transportation facilities; with measuring, mapping and interpreting the physical conditions of the surface of the earth; and with planning metropolitan areas and constructing and managing their public facilities.

The programme is designed so that students may, after having obtained grounding in the fundamentals of Civil Engineering, specialize in one of four options. Students interested in Building Studies should refer to the combined degrees of Bachelor of Engineering (Civil) and Master of Engineering (Building) in Section 71.3.

**DEPARTMENT OF CIVIL ENGINEERING Core**

- EMAT C311 Transform Calculus and Partial Differential Equations 3.00

- CIVI C482 Urban Sanitation 3.75
- CIVI C491 Construction Engineering 3.00

**Technical Electives**

Technical Electives in the Department of Civil Engineering are offered in four broad interrelated areas. Students must complete one of the option cores listed below, and a minimum of 6.00 further elective credits, chosen outside the option core.

1. Structural Engineering (S)
2. Water Resources Engineering (W)
3. Transportation Engineering (T)
4. Foundations (F)

**acceptable as elective course for all options.**
DEPARTMENT OF ELECTRICAL ENGINEERING

Electrical Engineering is concerned primarily with energy and information: their conversion, transformation and transmission in the most efficient, convenient and reliable manner.

The electrical engineer is involved in the conversion of energy from its original mechanical, thermal, nuclear, wind or solar form to electricity. He/she has primary responsibility for the design and control of continent spanning power grids which are used to transport this energy from generating stations to the consumer. He/she is again responsible for designing efficient converters which will transform this energy back into forms which meet the needs of the user for heat, refrigeration, light, electromechanical devices of all types, and for the running of a host of electronic communications and data processing systems.

The other major field of activity of the electrical engineer is information processing and transmission. The revolution in electronics which began some thirty years ago with the invention of the transistor, and which continues today through the advent of the microprocessor, has had a profound impact not only on our capability to communicate with each other or to store masses of easily retrievable information about ourselves, but also on our ability to construct 'intelligent' machines. This production both of new devices, and of sophisticated applications for these devices (for example in bio-medical engineering) continues apace.

As such he/she must receive a professional education of great breadth and depth. Great emphasis is placed at Concordia on giving the student a solid foundation in mathematics, electrical engineering fundamentals and design techniques so that he/she will be equipped both to contribute and to respond to a rapidly evolving technology. Of equal importance, though much less time is devoted to it in the curriculum, is the fostering of an awareness in the student of the interaction of his/her profession and the society it serves, and of his/her ability to communicate effectively both with colleagues and with fellow citizens.

71.5.1 DEPARTMENTAL REQUIREMENTS

The award of the B. Eng. degree in the Department of Electrical Engineering requires completion of the Engineering Core §71.2.5, the Electrical Engineering Core shown below, and one of four elective option cores. Students must also meet the General Requirements, §71.1.

Students admitted for January 1979 or earlier should consult the 1978/79 Undergraduate Calendar.

DEPARTMENT OF MECHANICAL ENGINEERING

As in all branches of professional engineering, mechanical engineers are concerned with the creation of devices, systems, structures, and processes for human use. Their task is to apply scientific, mathematical, economic and social knowledge to satisfy specific needs. The services required of mechanical engineers encompass a very wide range of professional activity, such as design, research, development and management carried out in environments of equally diverse nature, such as industry, medicine, private practice, university and government.

Representative fields of endeavour for mechanical engineers include all forms of power generating equipment (steam, internal combustion, nuclear, jet rocket, fuel cells), the design of mechanisms and machines, controls and automation, vibration analysis, environmental control (heating, ventilation and refrigeration), materials handling and precision measurement.

Any of the specific fields may involve the design, construction and control of machines and equipment as well as the research and development of new processes, materials and techniques.

In view of the very wide range of activities in the field, the mechanical engineering curriculum consists of a combination of core courses with a series of technical electives. Strong emphasis is given to building on the principles presented in the basic engineering science and physical systems courses of the General Requirements. Further core courses are taken by all mechanical engineering undergraduates and deal with topics basic to the field, including control theory, thermodynamics, fluid mechanics, heat transfer, machine design and metallurgy. Technical electives allow students to obtain some specialization in a particular area of the field, depending on their interests and expected future professional activity. Three general areas of specialization are available, namely conventional mechanical engineering which emphasizes thermal fluid power (Option A), design and production engineering (Option B), and electro-mechanical systems, including control systems (Option C).

71.6.1 DEPARTMENTAL REQUIREMENTS

The award of the B. Eng. degree in the Department of Mechanical Engineering requires completion of the Engineering core, Section 71.2.5, the Mechanical Engineering core shown below, one of three option cores, and a minimum of 12.00 further elective credits. Students must also satisfy the General Requirements, Section 71.1.

Students admitted for January 1979 or earlier should consult the 1978/79 Undergraduate Calendar.

**Technical Electives**

Students must complete one option core and a minimum of 12.00 further elective credits.

1. **OPTION A — THERMAL FLUID POWER**
   - **MECH C452** Heat Transfer II
   - **MECH C461** Gas Dynamics
   - **CREDITS** 3.75

2. **OPTION B — DESIGN AND PRODUCTION**
   - **MECH C421** Deformation and Mechanical Shaping of Metals
   - **MECH C445** Machine Design
   - **CREDITS** 3.75

3. **OPTION C — AUTOMATION AND CONTROL SYSTEMS**
   - **ENGR C473** Control System Design
   - **MECH C463** Fluid Power Control
   - **CREDITS** 3.75

Students may also choose from the following courses, providing these can be accommodated within their timetable:

<table>

# Course Descriptions

Please note that new course numbers have been implemented. For equivalent course numbers under the old system, please consult §200.6. Students who have taken a given course under an old number may not repeat it for credit under an equivalent number.

## Engineering Mathematics

**EMAT C212 Calculus and Differential Equations (3 credits)**
- Vector functions of one variable, with applications; introduction to ordinary differential equations. Functions of several variables: differentiation and multiple integrals.
- Lectures: 3 hours per week.
- Tutorials: 2 hours per week.
- Prerequisite: CEGEP Math 203

**EMAT C232 Matrices and Advanced Calculus (3 credits)**
- Matrix algebra, characteristic value problems, diagonalization of Hermitian matrices, Cayley-Hamilton theorem and applications, quadratic forms, vector calculus.
- Lectures: 3 hours per week.
- Tutorials: 2 hours per week.
- Prerequisite: EMAT C212 previously or concurrently.

**EMAT C252 Complex Variables (3 credits)**
- Lectures: 3 hours per week.
- Prerequisites: EMAT C212; EMAT C232; previously or concurrently.

**EMAT C271 Applied Probability and Statistics (3 credits)**
- Lectures: 3 hours per week.
- Prerequisites: EMAT C212; EMAT C232; previously or concurrently.

**EMAT C311 Transform Calculus and Partial Differential Equations (3 credits)**
- Elements of complex variables. The Laplace transform: Laplace transforms and their properties, solution of linear differential equations with constant coefficients. Further theorems and their applications. The Fourier transform: orthogonal functions, expansion of a function in orthogonal functions, the Fourier series, the Fourier integral, the Fourier transform, the convolution theorem. Partial differential equations; physical foundations of partial differential equations, introduction to boundary value problems.
- Lectures: 3 hours per week.
- Prerequisite: EMAT C232.

**EMAT C312 Laplace Transforms and Advanced Differential Equations (3 credits)**
- Lectures: 3 hours per week.
- Prerequisites: EMAT C232 and C252.

**EMAT C391 Numerical Methods in Engineering Systems (3 credits)**
- Lectures: 3 hours per week.
- Prerequisites: EMAT C212 and C232.

## Engineering

**ENGR C212 Technical Drawing (2 credits)**
- Elements of graphic geometry, orthographic projections, pictorial views, sectional and auxiliary views, dimensioning, standard components, conventions, working drawings. Free-hand pictorial and orthographic sketching.
- Lectures: 2 hours per week.
- Tutorial: 2 hours per week.

**ENGR C213 Descriptive Geometry (2 credits)**
- Spatial relationships of points, lines, planes, and solids. Application to pictorial representation of three-dimensional objects, intersections of planes and solids, developments, mapping and topographical problems.
- Lectures: 2 hours per week.
- Prerequisite: ENGR C212.

**ENGR C214 Engineering Drawing (2 credits)**
- Detailed study of machine elements and components, their representation in design and working drawings. Industry standards, use of drafting manuals and catalogs in the process of design. Tolerance systems and true positioning. An individual student design/drafting project will be an integral part of this course.
- Lectures: 2 hours per week.
- Tutorial: 2 hours per week.
- Prerequisite: ENGR C213.

**ENGR C221 Materials Science (3 credits)**
- Relationships between properties and internal structure; atomic bonding; molecular, crystalline
and amorphous structures; crystal imperfections and mechanisms of structural change, microstructures, plastic deformation and fracture of metals; structural and mechanical properties of ceramics and polymers.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisite: CEGEP Chemistry 201.

ENGR C242
Statics (3 credits)
Resultant of force systems; equilibrium of particles and rigid bodies; distributed forces; statically determinate systems; cables and trusses; friction; moments of inertia; virtual work. Introduction to stress, strain and bending moment diagrams.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: EMAT C212 previously or concurrently; CEGEP Physics 101 or 201.

ENGR C243
Dynamics (3 credits)
Kinematics of a particle and rigid body; forces and accelerations; work and energy; impulse and momentum; dynamics of a system of particles and rigid bodies, introduction to vibrations.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: EMAT C212 and ENGR C242.

ENGR C244
Mechanics of Materials I (3.75 credits)
Stress, strain and elasticity; analysis and design of structural and machine elements subject to axial, torsional and bending loads; shear and bending moment diagrams; deflections; combined stresses; dynamic loading; repeated loads; stress concentration and fatigue.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Tutorial: 1 hour per week.
Prerequisites: ENGR C242, EMAT C212, EMAT C232 previously or concurrently.

ENGR C245
Applied Mechanics (3 credits)
Resultants of force systems, equilibrium of particles and rigid bodies. Virtual work, stress and strain. Kinematics of particles and rigid bodies; force and acceleration, impulse and momentum, dynamics of particles and rigid bodies.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: EMAT C212 and ENGR C242.

ENGR C251
Thermodynamics I (3 credits)
Basic principles of thermodynamics and their application to various systems composed of pure substances and their homogeneous non-reactive mixtures. Simple power production and utilization cycles.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: CEGEP Physics 201 or 101; EMAT C212

ENGR C273
Basic Circuit Analysis (3.75 credits)

Coupled coils and transformers.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: EMAT C212, previously or concurrently; CEGEP Physics 201 or 202.

ENGR C274
Physical Systems and Measurements (3.75 credits)
Time differentiation, time integration, and singularity functions. Network representation of mechanical, fluid and thermal systems in terms of lumped elements and through and across variables. Generalization of the methods of the basic electrical circuit analysis to the formulation of equilibrium equations and their solution. Application to problems of modelling and measurements in physical systems. Generalized impedance and system functions. Operational block diagrams and analog computer solutions.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ENGR C273.

ENGR C281
Technical Literature (2 credits)
Discussion of the corpus of scientific and technical literature, its forms and impact. Searching the literature. Research and referencing methods. Automated information retrieval resources and methods. Technical and scientific style. Preparation of reports, technical papers, abstracts, memos, letters, manuals, brochures, specifications, theses, etc. Some attention will be given to the special requirements of the Canadian milieu, and to Canadian studies on scientific and technical information.

Lectures: 2 hours per week.

ENGR C341
Mechanics of Materials II (3 credits)
Analysis of statically indeterminate systems; composite beams; introduction to inelastic action; energy methods; theories of failure; shear centre; unsymmetrical bending; bending of curved bars; introduction to linearized mathematical theory of elasticity; introduction to elastic stability.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: ENGR C242, EMAT C212, EMAT C232 previously or concurrently.

ENGR C361
Fluid Mechanics (3 credits)
Fluid properties and flow characteristics; fluid statics, basic laws for systems and control volumes; conservation of mass, linear-momentum equation, moment-of-momentum equations, first law of thermodynamics, Bernoulli equation, kinematics of flow, dynamics of flow, dimensional analysis and similitude, characteristics of real fluid flow, flow measurement.

Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: EMAT C212 and C232, ENGR C251.

ENGR C362
Fluid Mechanics II (3.75 credits)
Incompressible viscous flow, steady closed conduits flow, fluid resistance and boundary layer effects, differential equations for open channel flow, specific energy, gravity waves, hydraulic jump. Fluid machinery. Selected experiments in incompressible flow and in open channel flow.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ENGR C361.

ENGR C372
Fundamentals of Control Systems (3.75 credits)
General feedback theory; time and frequency domain analysis of feedback control systems;
stability criteria; root-locus methods; modelling of d.c. servo; design of simple feedback systems; introduction to statespace methods.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: EMAT C311 or C312; ENGR C274.

ENGR C402
Engineering Law (1.5 credits)
Different branches of law: engineering registration; negligence; law vs. ethics; contracts; labour organizations and legislation; workmen's compensation act.
Lectures: 11/2 hours per week.

ENGR C403
Engineering Economy (1.5 credits)
Organization and financing of business enterprise; functions of management: CPM and PERT; economy studies for decision making, annual cash, present worth, and rate of return methods; multiple alternatives; depreciation; income tax.
Lectures: 11/2 hours per week.

ENGR C410
Technical Report (1.5 credits)
Each Engineering student must submit a technical report on entering his final year. This report should be from 2,000 to 5,000 words in length, on a topic drawn from the engineering experience of the student during his summer work. If a suitable topic based on personal experience is not available, the student may write on a topic connected with engineering, scientific or industrial work. Any student may consult the chairman of his department concerning the suitability of his proposed topic. If it is judged suitable, the letter of approval must accompany the report.
The report, including an abstract, must be suitably documented and illustrated, must be typewritten on one side only of 8 1/2 x 11" white paper of good quality and must be suitably bound. Students are referred to Form and Style: Theses, Reports, Term Papers, 4th Edition by Campbell and Ballou, published by Houghton Mifflin.
The report is to be submitted by the third Monday after Fall classes begin. With the exception of special circumstances approved by the Engineering Undergraduate Studies Committee in individual cases, any acceptable report submitted after this date will receive an FF-INC grade, which grade will appear on the student record. Once marked, a second entry of the course code will be made along with the final grade. An (X) beside this second grade will indicate that this was a late submission.
Prerequisite: ENGR C281

ENGR C411
Computer Organization & Software (3.75 credits)
Number systems and codes. Logical basis of computer structure; machine organization and functional units; machine programming including subroutines, linkages, macros and assembly systems; compilers and operating systems. Difference between mainframe, mini, and microcomputer systems.
Lectures: 3 hours per week.
Laboratory: 1 1/2 hours per week.
Prerequisite: CEGEP Data Processing 911 or equivalent.

ENGR C412
Operations Research (3 credits)
An introduction to the application of mathematical models to various industrial problems; queuing theory, game theory, linear programming, inventory theory and Monte Carlo Pro-

ENGR C471
Time Simulation Analysis and Design (4 credits)
State space analysis and design of continuous and discrete systems. Controllability and observability, modal control, pole placement techniques, Luenberger observers, Liapunov stability.
Lectures: 4 hours per week.
Prerequisite: ENGR C372.

ENGR C472
Studies in System Optimization (4.5 credits)
Various techniques of system optimization, such as calculus of variations, Pontryagin's maximum; characteristics and some numerical methods, are studied. These techniques are applied to real systems in fields such as engineering, management and economics.
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisite: ENGR C471

ENGR C473
Control System Design (3.75 credits)
A course in industrial control design procedures by case study, including practical sensing, control, and actuating elements; optimization of system performance by choice of components and compensation; nonlinearities, introduction to multi-loop systems.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: ENGR C411 or COMP C322; ENGR C372.

ENGR C474
Digital Computer in Systems (3.75 credits)
Application of digital computers to data acquisition and control systems; coding and data transmission; types of I/O and instrumentation for real-time applications. Design of real-time systems; the role of a real-time executive. Simulation of discrete-time systems.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: ENGR C411 or COMP C322; ENGR C372.

ENGR C475
Process Dynamics and Control (3.75 credits)
Dynamics of mechanical and chemical processes: system capacity; resistance; process components; characteristics and dynamics of control valves; process time constants; proportional, reset and derivative control actions; feedforward and cascade control; digital control. Case studies on liquid-level control, temperature and heat exchanger control.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ENGR C411 or COMP C322; ENGR C372.

Social Aspects of Engineering
ENGR C491
Engineers and Society (3 credits)
Sociological analysis of the interaction between the engineering profession and society; the development of the profession, growth of technical societies, trends in engineering and engineering technology education, relationship to other professions. Role of engineers in Canadian industry, government and industrial research.
Lectures: 3 hours per week.
Prerequisites: ENGR C281; registration in the final 3 terms of the programme.
ENGR C492
Historical Impact of Technology on Society (3 credits)
Social history of technology and of science including ancient and mediaeval periods, industrial revolution and modern times. Engineering and scientific creativity, social and environmental problems created by uncontrolled technology, appropriate technology.
Lectures: 3 hours per week.
Prerequisites: ENGR C281; registration in the final 3 terms of the programme.

ENGR C493
Engineering, Resources and Environment (3 credits)
Sources, consequences and control of air, water, noise, solid and radiation pollution. Management of mineral and energy resources. Conservation of resources through engineering efficiency, recycling and communal practices. Renewable resources. Case studies of engineering projects.
Lectures: 3 hours per week.
Prerequisites: ENGR C281; registration in the final 3 terms of the programme.

ENGR C494
Effect of Technology on the Person (3 credits)
Psychological effects of various technologies. Changes in personal, family and community values arising from various patterns of industrial development. Enhancement of personal development by technology, adaptation of the machine to man; the organization man. Lectures: 3 hours per week.
Prerequisites: ENGR C281; registration in the final 3 terms of the programme.

ENGR C495
Assessment and Direction of Technology (3 credits)
Science policy, technology transfer, research and industrial innovation, information networks. Environmental impact assessment, technological forecasting, future studies, conserving society.
Lectures: 3 hours per week.
Prerequisites: ENGR C281; registration in the final 3 terms of the programme.

ENGR C496
Technology and Human Affairs (3 credits)
An examination of the social and historical context of scientific and technological change, including the reciprocal interactions of science and technology with government, ideology, economic development, religion, literature and social theory. The scientific, social and cultural nature of man's relationship to his environment with emphasis on pollution, conservation, population, and resources.
Lectures: 3 hours per week.
Prerequisites: ENGR C281; registration in the final 3 terms of the programme.

Building Engineering

BLDG C341
Building Engineering Systems (3 credits)
Introduction to systematic solution of building engineering problems. Techniques treated include linear programming, network analysis, nonlinear programming, geometric programming and an introduction to decision analysis and simulation. Techniques illustrated by application to problems in building science, building environment, building structures and construction management.
Lectures: 3 hours per week.
**BLDG C475
Generation and Distribution of Power in Buildings (3 credits)
Principles of operation and control of plant within the built environment including; diesel and gas engines, boiler plants, refrigeration plants, turbines, compressors and electrical machinery. Electrical power distribution, transformers, switch gears and safety aspects.
Lectures: 3 hours per week.
Prerequisites: ENGR C251**

**BLDG C481
Architectural Appreciation and Design (3 credits)
Lectures: 3 hours per week.
Prerequisite: Completion of 20 courses. Open only to students in Building Engineering, and students enrolled in the structures and foundations options of Civil Engineering.

**BLDG N658
Decision Analysis (3 credits)
Development of a basic theory of decision making under uncertain conditions. Ratios of decision makers, utility, the concept of the value of perfect information. The Bayesian approach to decision making; pre/posterior analysis and optimal fixed-sized analysis for random processes. Decision analysis with multiple objectives, structuring the problem; multitributed utility functions, case studies.
Lectures: 3 hours per week.
Prerequisites: BLDG C341, EMAT C271.**

**BLDG N750
Computer Aided Building Design (3 credits)
Identification of objectives, decision variables, processes and information flow in building design. Application and evaluation of computer systems to components of building design process. Determination of decision variables in problem modeling and sensitivity of results. Current applications in structural analysis and design, space layout, electrical distribution systems, HVAC design, lighting design, estimating, specification editing and scheduling. Evaluation of issues of interdisciplinary information control and interchange.
Lectures: 3 hours per week.
Prerequisites: BLDG N655, N656, or equivalent.

**BLDG N751
Integrated Building Design (3 credits)
Analysis and synthesis of integrated multifunctional systems (structural, mechanical, electrical, hydraulic, and construction). Consideration of resource usage, flexibility and cost.
Lectures: 3 hours per week.
Prerequisites: BLDG N655, N656.

**Civil Engineering
CIVI C231
Geology (2.75 credits)
Basic principles of physical and structural geology, with emphasis on topics related to Civil Engineering; study of minerals, rocks and soil types, load formation, techniques of air photo interpretation and geological maps.
Lectures: 2 hours per week.
Laboratory: 3 hours per week, alternate weeks.

CIVI C271
Surveying (3 credits)
Elementary operations employed in engineering surveying; use, care and adjustment of instruments; linear and angular measurements; traversing, earthwork calculations; theory of errors; horizontal and vertical curves and curve layout; slope stakes and grades, application of surveying methods to city, and topographic surveying and introduction to advanced surveying techniques; use of digital computers in surveying calculations.
Summer school taken before entering second year of study in the B. Eng. programme.
Lectures and Field Work: 8 hours per day; 6 days per week for 3 weeks.

CIVI C321
Engineering Materials (3.75 credits)
Microscopic properties of materials; engineering properties of structural metals; behaviour of wood; production and properties of concrete; bituminous materials, ceramics, plastics; introduction to composite materials.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.

CIVI C341
Civil Engineering Systems (3 credits)
Development of concepts and techniques commonly associated with systems engineering which are applicable to the design and operation of systems that concern Civil Engineers. Problem formulation, optimization, linear programs, queueing, reliability, mathematical expectation, random models and queues. The techniques developed are used to solve problems in Transportation, Water Resources, Structures and Construction Management.
Lectures: 3 hours per week.
Prerequisite: Registration in second year in Civil Engineering programme; EMAT C271; CEGEP Data Processing 911 or equivalent.

CIVI C353
Structural Design (4 credits)
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisite: ENGR C341 previously or concurrently.

CIVI C354
Structural Analysis (4 credits)
Analysis of statically determinate structures: influence lines, deflections. Analysis of statically indeterminate structures: the method of consistent deformations, the three moment equation, the slope deflection, and the moment distribution methods.
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisite: ENGR C341.

CIVI C372
Transportation Engineering (3 credits)
A survey of all transportation modes and introduction to some recent concepts of transportation system planning. Social and economic importance of transportation; essential elements of a transportation system, characteristics of different transportation modes.
Lectures: 3 hours per week.
Prerequisites: Registration in second year of the Civil Engineering programme; CIVI C341.

CIVI C381
Water Resources Engineering (3.5 credits)
Open channel hydraulics; critical flow, uniform and non-uniform flows; design of erodible and non-erodible channels, flow profile, classifi-
CIVI C431
Soil Mechanics (4.5 credits)
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisites: CIVI C321 and C231.

CIVI C434
Advanced Soil Mechanics (3 credits)
Selected topics in mechanics of soil media including water flow, rheological behavior and failure theories. Earth pressure theory. Slope stability.
Lectures: 3 hours per week.
Prerequisites: CIVI C431.

CIVI C435
Foundation Design (3.75 credits)
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: CIVI C354, C431.

CIVI C451
Advanced Structural Analysis (4 credits)
Analysis of frames, arches and cable structures; influence lines for statically indeterminate structures; plastic analysis; computer applications.
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisite: CIVI C354.

CIVI C452
Matrix Analysis of Structures (3 credits)
Lectures: 3 hours per week.
Prerequisites: EMAT C311, CIVI C451, previously or concurrently.

CIVI C453
Advanced Reinforced Concrete Design (3.5 credits)
Design of reinforced concrete slabs, frames, prefabricated structures, girders, and shells; prestressed concrete structures.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: CIVI C453.

CIVI C454
Advanced Steel Structures (3.5 credits)
Contemporary methods for analyzing and designing steel structures. Codes. Comprehensive design problems from the fields of steel buildings, bridges of various types, and cable structures.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: CIVI C451.

CIVI C471
Highway Design (3.5 credits)
Design controls and criteria including traffic and highway characteristics and capacity. Location and right-of-way. Earthworks. Geometric design of highways and terminals. Pavement design. Highway design project.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: CIVI C372.

CIVI C472
Traffic Engineering (3.5 credits)
Techniques used in transportation planning; economic base, demographic, land use, and traffic studies, origin-destination surveys. Use of mathematical models. Trip generation and distribution modal split, traffic assignment. Emphasis on use of these techniques for problem solving and interaction with other disciplines: planning, economics, technology.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: CIVI C372.

CIVI C473
Urban Planning (3 credits)
The general planning process. Basic studies: population, economics and land use. Land use planning. Capital improvement programmes and financing. Plan implementation.
Lectures: 3 hours per week.
Prerequisite: CIVI C372.

CIVI C481
Water Supply Systems (3.75 credits)
Water use cycle; capacity of water supply systems; sources of raw water; development of surface water and ground water; water quantities and requirements; design of distribution systems; storage; pumping; water quality; introduction to water purification practices.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: CIVI C381.

CIVI C482
Urban Sanitation (3.75 credits)
Sources, characteristics and quantities of waste waters; public health considerations; urban hydrology and drainage; design of sewers; introduction to wastewater treatment practices; disposal of wastes, stream pollution and control.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: CIVI C381.

CIVI C483
Hydrology (3.5 credits)
Hydologic principles, precipitation, data collection and interpretation, floods, ground water hydrology.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: CIVI C381.

CIVI C484
Hydraulic Engineering (3.5 credits)
Engineering economy and design of water resources systems; reservoir design and operating rules; flood control; navigation; drainage; irrigation; hydroelectric developments. Other selected topics.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
Prerequisite: CIVI C381.

CIVI C485
Hydraulic Structures (3.5 credits)
Hydrological principles, selection and design of dams, spillways, outlet works and other hydraulic structures.
Lectures: 2 hours per week.
Laboratory: 3 hours per week.
COURSE DESCRIPTIONS

CIVI C491
Construction Engineering (3 credits)
The nature of construction and the environments in which the industry works; contractor objectives; organizational structures for project delivery; rudimentary decision analysis; planning, scheduling and control of men, money, machines, materials and methods to control time cost and content.
Lectures: 3 hours per week.
Prerequisite: Completion of 20 courses in the Civil Engineering programme.

Electrical Engineering

ELEC C251
Fundamentals of Electrical Engineering (3 credits)
Electric charge, Coulomb's Law, electrostatic forces, electric field, Gauss' Law, electric potential, stored energy. Dielectrics, properties of materials in electric fields. Electric current, conduction in a vacuum and in material media, displacement current, magnetic field of a current, force on a current-carrying wire, magnetic induction, electromotive force, energy stored in a magnetic field. Magnetism in material media, magnetic circuits. Time varying fields. Capacitance, resistance, inductance, elements of electric circuits.
Lectures: 3 hours per week.
Tutorial: 1 hour per week.
Prerequisites: ENGR C273, EMAT C232 previously or concurrently.

ELEC C311
Electronics I (4.5 credits)
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisite: ENGR C274.

ELEC C312
Electronics II (4.5 credits)
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisites: ELEC C311, ELEC C341.

ELEC C316
Fundamentals of Discrete Structures (2 credits)
Set algebra; mappings and relations. Algebraic structures; semigroups and groups. Elements of the theory of undirected and directed graphs.
Lectures: 2 hours per week.
Prerequisites: CEGEP Data Processing 911 or equivalent; EMAT C232.

ELEC C321
Electrical Properties of Materials (3.75 credits)
Structure of crystals. Electrical, magnetic, dielectric and optical characteristics and their measurements. Energy levels, localized states, and transport properties of solids. Recent device applications of metals, semi-metals, semiconductors, semi-insulators and insulators.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C251.

ELEC C331
Electromechanics (4.5 credits)
Three-phase circuits. Power transformers. Energy in singly and doubly excited systems; principles of electromechanical energy conversion. Basic features and models of d.c. machines, 3-phase induction machines, 3-phase synchronous machines.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: ELEC C251, ENGR C274 previously or concurrently.

ELEC C333
Electric Machines (3.75 credits)
Air gap field distribution, windings, harmonic content of induced voltages in rotating machines. Magnetic core calculations. Direct current machines, single-phase and three-phase induction motors, three-phase synchronous motors, selsyns, linear motors.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C331.

ELEC C334
Electric Machinery (3.75 credits)
Three-phase circuits. Magnetic fields, circuits and forces; transformers; basic features of rotating machines; models, characteristics and applications of d.c. machines, polyphase synchronous and induction machines.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ENGR C274. Note: Students in Electrical Engineering may not take this course for credit.

ELEC C341
Linear Network Analysis (3 credits)
Lectures: 3 hours per week.
Prerequisites: EMAT C312 previously or concurrently; ENGR C274.

ELEC C351
Electromagnetic Field Theory (3 credits)
Lectures: 3 hours per week.
Tutorial: 3 hours per week, alternate weeks.
Prerequisites: EMAT C232 and C252, ELEC C251.

ELEC C401
Electrical Engineering Seminar (2 credits)
Near the end of their programme, students in Electrical Engineering hold meetings with faculty members. These meetings are organized to provide the student with an opportunity to exercise his ability to present and to defend his thoughts on topics of his own choice. Students will be encouraged to develop some of their discussion to such topics as continuing professional education, professional societies, organization of engineering employment, and professional ethics.
Seminars: 2 hours per week.
Prerequisite: Completion of 17 courses.
ELEC 411
Pulse Circuits (4.5 credits)
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisites: EMAT C312, ELEC C312.

ELEC C413
Logic Design I (3.75 credits)
Digital design versus analog design. Boolean algebra and its application to electrical switching circuits. Analysis, design and optimization of combinational circuits. Transistor gates and their practical limitations. Modern integrated-circuit logic families such as RTL, DTL, TTL, ECL, MOS, and CMOS. Applications of combinational circuits to electronic systems and instrumentation. Flip-flops and their applications.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C311.

ELEC C414
Logic Design II (3.75 credits)
Characterization, analysis, design, and optimization of clock-mode, pulse-mode, and level-mode sequential circuits. Hazards. Read-only and random access memories. Design of counters and registers. Introduction to MSI and LSI components. Application of sequential circuits to electronic systems and instrumentation.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C413.

ELEC C415
Electronics III (3.75 credits)
Linear and nonlinear operational amplifier circuits such as stable-gain differential amplifiers, negative-impedance converters, gyrators, logarithmic amplifiers, precision rectifiers, voltage regulators, etc. Analog-to-digital and digital-to-analog converters. Computer-aided analysis of electronic circuits.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C414.

ELEC C416
Design of Digital Computers (3 credits)
Computer memories, registers and data-path. Register-transfer-level description of digital systems. Design of control and arithmetic units. Inter-system communication, input/output, design of interfaces. Parallelism in computer systems. Computer-aided design of operation. Special computers such as microprocessors.
Lectures: 3 hours per week.
Prerequisites: ELEC C414; ENGR C411.

ELEC C417
Microprocessor Systems (3.75 credits)
Introduction to microprocessor architecture. Instruction set, addressing mode, and programming techniques. I/O systems, memories, and interfacing. Developmental systems. Engineering applications.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: ENGR C411, ELEC C414 previously or concurrently.

ELEC C421
Semiconductor Physics (3.75 credits)
Intrinsic and extrinsic semi-conductors, p-n junctions, diodes and transistors, materials and p-n junction fabrication technology. Measurements of bulk properties.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C321.

ELEC C422
Analog IC Design (3.75 credits)
Fabrication of analog integrated circuits. Technology processes such as oxidation, photolithography, diffusion, metallization and epitaxy. Derivation of the Ebers-Moll transistor model. Design of integrated-circuit components satisfying prescribed specifications. Design of multi-transistor circuits such as differential and operational amplifiers.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C421.

ELEC C423
Digital IC Design (3.75 credits)
Properties of metal-oxide-semiconductor (MOS) junctions. Basic MOSFET theory and technology. MOS/LSI design. Design of MOS integrated-circuits such as MOS and CMOS logic circuits, nonvolatile MOS memory cells, and charge-coupled devices.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C421.

ELEC C431
Electrical Power Systems (3.75 credits)
Inductance, capacitance, resistance of polyphase transmission lines; current and voltage relations of transmission lines; load flow studies; symmetrical and unsymmetrical faults; power system stability.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C331.

ELEC C433
Static Power Converters (3.75 credits)
Circuits and operating principles of phase-controlled converters; external performance characteristics; harmonic content of d.c. output voltage and a.c. input current; dual converters; converters as power amplifiers. Application to variable speed drives; d.c. machine dynamics, feedback control.
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: ENGR C372; ELEC C311 and C331.

ELEC C441
Modern Filter Design (3.75 credits)
Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisite: ELEC C341.

ELEC C442
Digital Filters (3 credits)
Introduction to recursive and non-recursive digital filters, the z-transform; realization methods; amplitude and phase characteristics and relevant approximations and transformations; comparison of digital with conventional filters; application of digital filters.
Lectures: 3 hours per week.
Prerequisite: ELEC C341.

ELEC C453
Microwaves and Optics I (3.75 credits)
aperture antennas, diffraction, linear arrays. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisites: EMAT C312, ELEC C341 and C351.

ELEC C454 Microwave and Optics II (3.75 credits)

ELEC C461 Communication Circuits and Systems (3.75 credits)
Principles of amplitude, frequency and phase modulation. Modulators, mixers, and demodulators. Representative examples of complete transmission systems. Qualitative treatment of modulation systems in the presence of noise. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisites: ELEC C461, ELEC C312.

ELEC C482 Statistical and Digital Communications (3.75 credits)
Transmission and filtering of random signals, analysis of modulation systems, in particular Pulse Code Modulation, Phase Shift Keying, Frequency Shift Keying, etc., and introduction to noise analysis, information theory and coding. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisites: ENGR C251; ELEC C312.

Mechanical Engineering

MECH C311 Mechanical Engineering Laboratory I (3 credits)
Fundamentals of manufacturing processes and their limitations, topics will include machine shop practice, forming and machining processes, casting processes, plastics, non-conventional machining techniques. Laboratory includes: machining simple parts in the machine shop, preparation of shop drawings; field trips to local industries. Laboratory: 3 hours per week. Tutorial: 2 hours per week. Prerequisite: MECH C312 previously or concurrently.

MECH C312 Mechanical Engineering Design I (3 credits)
Introduction to engineering design procedures through the use of open-ended design projects. Lecture topics will include engineering design process, consideration of alternatives, specifications, pencil thinking, principle of design synthesis, dimensioning for manufacture and interchangeability, quality control, presentation of engineering data and calculations; application of computer graphics in design. Lectures: 2 hours per week. Laboratory: 2 hours per week. Prerequisites: ENGR C214; COMP C211 or equivalent.

MECH C321 Strength and Failure in Metals (2 credits)
The service capabilities of alloys and their relationship to microstructure as produced by thermal and mechanical treatments; strengthening mechanisms, composite materials. Modes of failure of materials: brittle fracture, fatigue, wear, creep, corrosion, radiation damage. Lectures: 2 hours per week. Tutorial: 1 hour per week. Prerequisite: ENGR C221.

MECH C341 Kinematics of Mechanisms (2.5 credits)
Geometry of motion and mobility criteria; kinematic analysis and synthesis of linkages; theory of spur gears, helical, worm and bevel gearing; gear trains and differentials; cam kinematics. Lectures: 2 hours per week. Laboratory: 2 hours per week, alternate weeks. Tutorial: 2 hours per week, alternate weeks. Prerequisite: EMAT C232; ENGR C243.

MECH C342 Dynamics of Machines (2.5 credits)
Kinematic analysis of space mechanisms; static and dynamic analysis of planar mechanisms and gear trains; dynamic analysis of space mechanisms; gyroscopic forces; balancing of rating and reciprocating machinery. Lectures: 2 hours per week. Laboratory: 2 hours per week, alternate weeks. Tutorial: 2 hours per week, alternate weeks. Prerequisite: MECH C341.

MECH C351 Thermodynamics II (3.75 credits)
Thermodynamic functions and equation, relationships between properties; behaviour of gases and their nonreactive mixtures; combustion. Applications of thermodynamics to power production and utilization systems. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Tutorial: 1 hour per week. Prerequisite: ENGR C251.

MECH C352 Heat Transfer I (3.75 credits)
Steady state and transient heat conduction, numerical methods for two-dimensional steady state heat conduction. Radiation heat exchange between black bodies, between grey bodies and from gases, vapours and flames. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisite: EMAT C311.
MECH C373
Instrumentation and Measurements (3.75 credits)
Unified treatment of measurement of physical quantities. Principles, characteristics, design and calibration of components and systems for measuring position, velocity, acceleration, force, pressure, flowrate, temperature, proximity detection, etc. Background knowledge of electronics covering signal generation and processing; Concepts of accuracy and repeatability, linearity, response criteria, bandwidth, input and output impedance, matching of measuring systems, drift and bias.
Lectures: 3 hours per week.
Laboratory: 3 hours per week. Prerequisite: ENGR C274.

MECH C411
Mechanical Engineering Laboratory II (1.5 credits)
Current design practices are studied by analysis of and experimentation with devices and machines encountered in mechanical engineering.
Laboratory: 3 hours per week. Tutorial: 2 hours per week. Prerequisite: MECH C311.

MECH C421
Deformation and Mechanical Shaping of Metals (3.75 credits)
The mechanisms of deformation and softening and the effects of processing variables on the mechanical properties of metals: cold working, annealing and hot working of metals. The effects of mechanical parameters and materials properties on the processing and on the product: Mechanical forming; shear line theory, extruding, forging, rolling, drawing. Metal cutting: machineability, metrology. Powder technology. Shaping of plastics; extrusion, molding, vacuum, forming, laminator.
Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisite: ENGR C221.

MECH C423
Thermal Treatment and Processing of Metals (4 credits)
Lectures: 3 hours per week. Laboratory: 2 hours per week. Tutorial: 1 hour per week. Prerequisite: ENGR C221.

MECH C441
Mechanical Engineering Design II (3 credits)
Concepts in design; failure of mechanical elements under dynamic loading; shafting; bolted and welded joints; anti-friction and journal bearings; design of gears.
Lectures: 2 hours per week. Laboratory: 2 hours per week. Prerequisites: ENGR C341; MECH C312 and C342.

MECH C443
Mechanical Vibrations (3.75 credits)
Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisites: EMAT C311; ENGR C274; MECH C342.

MECH C445
Machine Design (3.5 credits)
Design of springs; design of gear and hydraulic drives, design for hydraulics and hydrostatic lubrication; optimum design of mechanical systems, design strategy, value and merit function, maximizing and minimizing procedures. Laboratory work includes an advanced design project representative of those encountered in industry.
Lectures: 2 hours per week. Laboratory: 3 hours per week. Prerequisite: MECH C441.

MECH C452
Heat Transfer II (3.75 credits)
Review of momentum transfer, free and forced convection heat transfer, dimensional analysis as applied to convection heat transfer configurations, heat exchangers, introduction to mass transfer.
Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisite: ENGR C362; MECH C352.

MECH C453
Environmental Control (3 credits)
The effect of air temperature and humidity on physiological comfort, overall heat-transmission coefficients across building sections, heating load calculations, the effect of solar radiation on air-conditioning load, cooling load calculation, heating, air-conditioning and ventilating systems, design of piping and duct arrangement.
Lectures: 3 hours per week. Prerequisite: MECH C352.

MECH C455
Introduction to Nuclear Engineering (3 credits)
Nuclear engineering principles, nuclear reactions and reactors; control, heat removal and safety. Processing and properties of reactor fuels, moderators and coolants; Types of power reactors; radiation safety and protection.
Lectures: 3 hours per week. Prerequisites: MECH C351 and C352.

MECH C461
Gas Dynamics (3.75 credits)
Review of one-dimensional compressible flow. Normal and oblique shock waves; Prandtl-Meyer flow; combined effects in one-dimensional flow; non-ideal gas effects; multi-dimensional flow; linearized flow; method of characteristics. Selected experiments in supersonic flow, convergent-divergent nozzles, hydraulic analogue and Fanno tube.
Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks. Prerequisites: ENGR C362; MECH C351.

MECH C462
Fluid Machinery (3 credits)
Lectures: 3 hours per week. Prerequisites: ENGR C362; MECH C351.

MECH C463
Fluid Power Control (3.75 credits)
Introduction to Fluid Power; pneumatic devices; fluidic devices; hydraulic system components; hydraulic and electro-hydraulic systems;
dynamic performance of fluid power systems; fluid logic.

Lectures: 3 hours per week.
Laboratory: 3 hours per week, alternate weeks.
Prerequisites: ENGR C362 and C372.

MECH C481
Design of Experimental Project (3 credits)
A mechanical engineering design, simulation or experimental project appropriate to the senior level carried out under the supervision of a faculty member. A complete report is required at the end of the project.
Equivalent laboratory time: 6 hours per week.
Prerequisite: Registration in final year.
71.8 Department of Computer Science

Professor of Computer Science, and Chairman of the Department
H. S. HEAPS

Associate Professors
V. S. ALAGAR
J. W. ATWOOD
T. D. BUI
W. M. JAWORSKI
S. L. KLASA
G. MARTIN
J. MCKAY
K. MENON
C. Y. SUEN

Assistant Professors
B. C. DESAI
T. FANCOTT
J. JUERGENS
C. W. H. LAM
J. OPATRNY
D. K. PROBST
T. RADHAKRISHNAN
E. REGENER
R. SHINGHAL

Lecturers
W. G. PROBST
G. WEISS

71.8.1 Bachelor of Computer Science Programme

A new Concordia University Computer Science Department, with a revised set of course offerings, has replaced the old SGW and Loyola Departments of Computer Science. The Commerce component of the former Loyola Computer Science offerings has been transferred to the Faculty of Commerce and Administration. The re-structuring of courses is clearly indicated in the Equivalents Index Section 200.6.

The first two-thirds of the programme leading to the Bachelor of Computer Science degree are offered at both the Sir George Williams and the Loyola campuses. The final one third may be taken at the Sir George Williams Campus only.

71.8.2 CURRICULUM FOR THE DEGREE OF BACHELOR OF COMPUTER SCIENCE

The University offers a programme leading to the degree of Bachelor of Computer Science with four Options, namely General Science, Digital Systems, General Business and Mathematics. To be recommended for the degree of Bachelor of Computer Science, students must satisfactorily complete an approved programme of 90 credits. In assessing this total, each course of the student’s programme offered by the Faculty of Engineering is assigned 3 credits, except COMP C491, which is assigned 6 credits. Forty-two of the credits required must be obtained from the core requirements specified below while the remainder must be obtained from courses specified for one of the four Options.

71.8.3 COURSE REQUIREMENTS

To be recommended for the degree of Bachelor of Computer Science, students must satisfactorily complete the following core courses as well as those specified below for their chosen Option.

COMP C221 Introduction to Assembly Language Programming
COMP C231 Introduction to Discrete Structures
COMP C241 Computer Languages and Programming

1. General Science Option

In addition to the core courses shown above, the following courses must be completed satisfactorily.

18 MATH C2416, C2616, or C2816.
3 Elective credits in Computer Science at the 300 level or above.
21 Elective credits chosen from courses acceptable as science credits by the Faculty of Arts and Science. See Arts and Science, Section 6 Elective credits.

2. Digital Systems Option

In addition to the core courses shown above, the following courses must be completed satisfactorily.

EMAT C212 Calculus and Differential Equations
EMAT C232 Matrices and Advanced Calculus
EMAT C252 Complex Variables
EMAT C271 Applied Probability and Statistics
EMAT C312 Laplace Transforms and Advanced Differential Equations
ENGR C273 Basic Circuit Analysis
ENGR C274 Physical Systems and Measurements
ELEC C311 Electronics I
COMP C325* Logical Design and Switching Theory
COMP C426 Digital System Design

Three credits in Numerical Calculus, such as COMP C361, MATH C311, EMAT C391.

An additional nine credits in Computer Science at or above the 300 level, of which not more than 3 may be chosen from COMP C311, C321, C341, C351 and C421.
Electives: Twelve elective credits chosen from the following:

**ENGR C372** Fundamentals of Control Systems
**ENGR C471** Time Domain Analysis and Design
**ENGR C474** Digital Computers in Systems
**ELEC C312** Electronics II
**ELEC C341** Linear Networks Analysis
**ELEC C411** Pulse Circuits
**ELEC C441** Modern Filter Design
**ELEC C442** Digital Filters
**ELEC C461** Communication Circuits and Systems
**ELEC C462** Statistical and Digital Communication
**COMP C323** Mini-Computer Systems
**COMP C342** Programming Languages and Compiler Theory
**COMP C475** Discrete System Simulation

6 elective credits from any department.

3. General Business Option

42 Computer Science Core
6 Accountancy C213; C218
6 Economics C201; C203
3 Finance C314
3 Management C266
3 Marketing C213
9 Quantitative Methods C243; C244; C313
9 Electives from Commerce and Administration

*Students would normally register for FINA C315, MANA C213 or C340, and MARK C350. Students exempt from MANA C213 would normally substitute MANA C340.*

4. Mathematics Option

42 Comp. Sc. Core
18 Math C241, C261, C281
3 Elective credits in Computer Science at the 300 level or above, of which not more than three credits may be taken from COMP C311, C321, C341, C351, C421
9 credits in mathematics chosen from one of the lists below
6 credits in mathematics, chosen from courses at the 300 level or above
6 credits acceptable as Science credits
6 elective credits

List 1 Discrete Mathematics: MATH C393, C322, C381, C394, C392, C432, C491, C492.
List 2 Numerical Methods and Operations Research: MATH C312, C331, C381, C431, C432, C434, C435.
List 3 Probability and Statistics: MATH C344, C342, C343, C345, C351, C353, C451

71.8.4 HONOURS PROGRAMME

Students should refer to Sections 16.2.4 and 16.2.5 of the calendar for academic regulations for the Honours Programme. In addition the following regulations apply to the B. Comp. Sc. programme:

1. Students who are required to withdraw from the honours programme must enter the General Science Option.
2. Students entering the honours programme from the General Science option of the B. Comp. Sc. must complete a minimum of 30 credits towards the degree after having been accepted as honours students. Other students entering the programme with advanced standing must complete a minimum of 30 credits of the basic honours requirements after having been accepted as honours students.
3. Students in the honours programme are required to confirm their standing with the Computer Science Department by November 15 of each year.

Requirements for Honours

**Basic Requirements**

**Year 1**
12 Comp C221, C231, C241, C251
18 MATH C241, C261, C281

**Year II and III**
18 COMP C322, C352, C443, C453, C491
3 chosen from COMP C361, MATH C311
6 MATH C271, C351
3 chosen from COMP C323, C325
3 chosen from COMP C436, C465
3 chosen from COMP C342, C441, C445
3 chosen from COMP C455, C456
3 chosen from COMP C426, C471, C475
6 chosen from MATH C331, C342, C343, C344, C345, C434.

Courses outside the basic requirements:
6 elective credits from the Natural or Social Sciences, Commerce and Administration, or Engineering
6 elective credits

71.8.5 MINOR IN COMPUTER SCIENCE

This programme is offered on both campuses.

Minor in Computer Science
12 COMP C211, C221 or C321, C321, C241 or C311
12 Computer Science electives.

71.8.6 PROGRAMMES IN DATA PROCESSING

Both major and minor programmes in Data Processing can be found in the Commerce and Administration section of the undergraduate calendar, Section 61.

71.8.7 DISCONTINUED PROGRAMMES

No new students were admitted to these programmes after 01 June 1978. They have been restructured for the benefit of students currently enrolled in them.

90 Bae. Spec. (Math and Comp. Sc.)
9 COMP C241 or C311, C361, C362
21 Elective credits from Computer Science*
33 MATH C241, C261, C271, C281, C311, C312, C393, C394
6 Elective credits in Math.
21 Elective credits

*or electives from Quantitative Methods, with the approval of the Computer Science Department.
71.8.8 COURSE DESCRIPTIONS

Please note that the former offerings of the SGW and the Loyola departments of Computer Science have merged into a single set of offerings of the Concordia Department of Computer Science. For equivalent course numbers please consult section 200.5. Students who have taken a given course under an old number may not repeat it for credit under an equivalent number.

COMP C211
Introduction to Computers and Computing
An introduction to the essential features of computers and computing systems. Problem analysis, algorithms and flowcharts. Detailed specifications of the FORTRAN language. This course will include programming assignments, to be prepared, tested and documented individually.
Lectures: 3 hours per week.
Laboratory: 1 1/2 hours per week.

COMP C217
Computers in Society
An introductory course for Arts students with no previous experience of computers. It covers the history of computers, the component parts of a computer, how humans and computers pass information to each other, and what computers can (and cannot) be used for in the fields of education, research, business, medicine, art, government and the humanities. The effect of computers on society and the individual. Available as an elective for all students, but may not be taken for additional credit by students who already have credit for COMP C211, QUAN C211 or C217.
Lectures: 3 hours per week.
Laboratory: 1 1/2 hours per week.

COMP C221
Introduction to Assembly Language Programming
Computer structure, machine language, instruction execution, addressing techniques and digital representation of data, symbolic coding and assembly systems; macro definition and generation. Programme segmentation and linkage; loading. Systems and utility programmes; programming techniques. Introduction to the facilities provided by operating systems.
Lectures: 3 hours per week.
Laboratory: 1 1/2 hours per week.
Prerequisite: CEGEP Data Processing 911, or equivalent.

COMP C231
Introduction to Discrete Structures
Introduction to a high level programming language and fundamental algebraic, logical and combinatoric concepts such as: Set algebra; mappings and relations. Algebraic structures; semi-groups and groups. Elements of the theory of directed and undirected graphs. Boolean algebra and propositional logic. Applications of these structures to various areas of computer science.
Lectures: 3 hours per week.
Laboratory: 3 hours per week.
Prerequisites: CEGEP Data Processing 911, or equivalent; CEGEP Math 203; COMP C231 or ELEC C316.

COMP C251
Introduction to Business Programming
Introduction to business data processing. Basic file organization and handling, record layouts, elementary information storage and retrieval. Detailed specifications of the Common Business Oriented Language (COBOL). Structured programming concepts will be emphasized. This course will include programming assignments involving basic business applications, to be prepared, tested and documented individually.
Lectures: 3 hours per week.
Laboratory: 1 1/2 hours per week.
Prerequisites: COMP C211 or QUAN C223 or CEGEP Data Processing 911, or equivalent.

COMP C311
Advanced FORTRAN Programming
Discussion of concepts in advanced FORTRAN programming, using examples from numerical analysis. Topics to be covered will include: double precision, complex, and Boolean arithmetic, character-string manipulation, object time FORMAT; use of mass storage devices: file handling, use of software packages such as IMSLIB, SSP; introduction to structured programming and structured FORTRAN.
Lectures: 3 hours per week.
Prerequisite: COMP C211.
COMPUTER SCIENCE

COMP C321
Assembler Language Programming I
Review of the basic concept of IBM 360/370 architecture and instruction repertoire. Memory access and storage. Detailed flowcharting of problems. Rules for coding assembler language programmes, including use of base registers, programme linking and sectioning and the use of macro instruction. Documentation, debugging and testing of programmes. Students will write and run several programmes on an IBM 360/75 computer.
Lectures: 3 hours per week.
Prerequisite: COMP C251 or C311.

COMP C322
Computer Organization
Lectures: 3 hours per week.
Prerequisites: COMP C221 or C321, C311 or C241, or equivalent.

COMP C323
Mini-Computer Systems
Hardware and software structures relating to mini-computers. Processor architecture, input-output architecture, and operating system components. The laboratory provides hands-on access to mini-computer systems using machine and assembly language programming.
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisites: COMP C322, or permission of the Department.

COMP C325
Logical Design and Switching Theory
Lectures: 3 hours per week.
Laboratory: 2 hours per week.
Prerequisites: CEGEP Data Processing 911, or equivalent, and COMP C231, or permission of the Department.

COMP C341
PL/1 Programming
Study of the basic rules and important features of the PL/1 language. This will be integrated with the solution of a variety of practical computer programming problems, both scientific and commercial.
Lectures: 3 hours per week.
Prerequisites: COMP C241 or C251 or C311.

COMP C342
Programming Languages and Compiler Theory
Lectures: 3 hours per week.
Prerequisites: COMP C221 and C241.

COMP C351
Advanced Cobol Programming
Continuation of COMP C251. Further work on decision tables and flow-charting. IBM's Job Control Language, various operating systems and core dumps. The use of Cobol verbs for searching, sorting, and reporting. The use of subscripts, labels and completion codes. Programmes will be written and tested on the computer, involving the creation and updating of files. Top-down program design, structured programming, and chief-programmer team concepts will be emphasized.
Lectures: 3 hours per week.
Prerequisite: COMP C251.

COMP C352
Data Structures
A detailed study of the basic data structures commonly used in data processing; techniques for data manipulation in structures such as stacks, queues, linked lists and trees; the management of memory space and overflow; internal sorting, external sorting and hash table methods. Emphasis will be on the design, implementation and evaluation of the various methods and the best choices of data structures for different applications.
Lectures: 3 hours per week.
Prerequisites: COMP C241 and C251, or permission of the Department.

COMP C361
Elementary Numerical Methods
Introduction to numerical algorithms fundamental to scientific computer applications. Errors; interpolation and curve fitting, solution of polynomials and non-linear equations; numerical integration; Matrix and solution of systems of linear equations; Numerical solution of ordinary differential equations; Linear programming and simplex method. Emphasis on the algorithmic approach; efficiency.
Lectures: 3 hours per week.
Laboratory: 1½ hours per week.
Prerequisites: CEGEP MATH 105, COMP C311 or C241.

COMP C362
Computer Applications of Statistics
This course is designed to familiarize the student with the application of computers to statistical problems. Computer terminals and batch processing of Fortran programs are used to develop a working knowledge of standard programs for control charts, analysis of experimental design, sampling plans, forecasting, and statistical analysis common to many other fields. Students are expected to be familiar with elementary statistics and to be able to program in Fortran.
Lectures: 3 hours per week.
Laboratory: 1½ hours per week.
Prerequisites: QUAN C233 or COMP C221.

COMP C372
Teleprocessing
The study of remote control of computers by human operators or by other computers. The following topics will be covered: the categories of data transmission systems, channel capacities, communication line characteristics, modems, coding systems, transmission modes, transmission errors, various types of dialogue between man and computer, networks, terminals and control units, programmes and software.
Lectures: 3 hours per week.
Prerequisites: QUAN C233 or COMP C221.

COMP C421
Assembler Language Programming II
Continuation of Computer Science C321. Further exercise in assembler language programming for the IBM 360/370. A study of assembler languages for other computers, including UNIVAC 9300 and the DEC PDP-11.
Lectures: 3 hours per week.
Prerequisites: COMP C321 or permission of the Department.
COMP C425  
Digital System Design  
Lectures: 3 hours per week.  
Laboratory: 2 hours per week.  
Prerequisites: COMP C322 and C325, or permission of the Department.

COMP C435  
Formal Languages and Syntactic Analysis  
Lectures: 3 hours per week.  
Prerequisite: COMP C352.

COMP C436  
Introduction to the Theory of Automata  
Lectures: 3 hours per week.  
Prerequisite: COMP C241.

COMP C441  
Advanced Programming Languages  
Concepts of, comparison of, and practice in several of the following programming languages: ALGOL, LISP, PL/1, SIMULA67, and SNOBOL.  
Lectures: 3 hours per week.  
Prerequisite: COMP C352.

COMP C443  
Computer Operating Systems  
Software organization. Translating, linking, leading and executing. Control programs for batch processing, time-sharing and real-time applications. Accounting, Communication between program units. Multiprogramming and multiprocessing systems. Addressing techniques, paging and memory management. Control of parallel input-output processing, buffers and interrupt facilities. File systems. Protection, Detailed analysis of a small operating system.  
Lectures: 3 hours per week.  
Prerequisites: COMP C241 and C322.

COMP C445  
Heuristic Programming  
The definition of heuristic vs. algorithmic methods; rational heuristic approach; non-numerical symbolic programming; self-organizing systems; heuristic pro-techniques including a list of the uses of list processing languages; survey of examples from representative application areas including artificial intelligence, and other advanced computer application areas.  
Lectures: 3 hours per week.  
Prerequisite: COMP C352.

COMP C453  
File and Data Bases  
This course is a continuation of C352 covering file structures and data bases. Random, index sequential, inverted, and multilist file structures; concept of data models, data language, data security and data integrity. The organization, storage, search and retrieval methods of Hierarchical, Network and Relational data models will be discussed.  
Lectures: 3 hours per week.  
Prerequisite: COMP C352.

COMP C455  
Principles of Data Processing  
Study of techniques used in data processing applications. Preparation and handling of data, file organization and design, storage device characteristics, programming techniques, documentation, interpretation and validity of results. Examples of business systems, Introduction to systems analysis. This course will include the analysis, design and implementation of a computer-oriented business system.  
Lectures: 3 hours per week.  
Prerequisite: COMP C251.

COMP C456  
Information Retrieval  
Lectures: 3 hours per week.  
Prerequisites: COMP C352 or equivalent.

COMP C465  
Analysis of Algorithms  
Lectures: 3 hours per week.  
Prerequisites: COMP C352 and C361, or permission of the Department.

COMP C471  
Computer Graphics  
Display memory; generation of points, vectors, etc. Interactive versus passive graphics; CRT devices and plotters, analog storage of images. Digitizing and digital storage. Pattern recognition. Data structures and graphics software. The mathematics of three-dimensional transformations; projections. Applications in computer-aided design and instruction.  
Lectures: 3 hours per week.  
Laboratory: 1 1/2 hours per week.  
Prerequisites: COMP C352 and C443.

COMP C475  
Discrete System Simulation  
Discrete random variables and their distributions. A comparison of simulation techniques: discrete, continuous and hybrid. Queueing models, analysis of data; Model building; Review of simulation languages. Application to business problems and operations research.  
Lectures: 3 hours per week.  
Prerequisites: COMP C241; MATH C241 or QUAN C244 or EMAT C271.

COMP C490  
Computer Science Seminar and Project  
Individual work on a computer science project under the supervision of a faculty member, and a series of seminars dealing with topics of current interest by faculty members, students and industry representatives. At least 60 hours of work must be done on a project approved in advance, including the submission of a technical report. Special arrangements can be made with the Department to accept a project carried out by a student employed in a commercial firm.  
Note: Students who have credit for COMP
C491 may not take this course for credit.

Note: This course is offered on the Loyola Campus only.

**COMP C491**

**Computer Science Project**

The students will work on a major project under the direction of a faculty member, and submit a suitable written report on the work carried out. Students planning to register for this course should consult with the department in the fall term preceding entry into the final term of study.

Prerequisite: Permission of the Department.
71.9 Certificate Programme in Quality Control

The programme leading to the Certificate in Quality Control is offered at the Loyola campus, in the evening only.

71.9.1 ADMISSION REQUIREMENTS
Applications for admission to the certificate programme in Quality Control are submitted to the Admissions Office at the Loyola Campus.

General Admission requirements are listed in §13.

Special requirements are a Diploma of Collegial Studies, or its equivalent, including the CEGEP courses Math 101, 103, 105 and 203, or their equivalents.

71.9.2 CURRICULUM FOR THE CERTIFICATE IN QUALITY CONTROL
To be recommended for the award of the Certificate in Quality Control, students must satisfactorily complete the programme of 48 credits specified below. Of the total credits required, 36 pertain directly to quality control, while the remainder are from computer science, mathematics and other allied areas. The courses offered in the programme will provide the student with an in-depth understanding and working knowledge of the principles and practices used in the rapidly expanding field of quality control.

The programme is fully endorsed by the Montreal Section of the American Society for Quality Control (ASQC). It has been designed in keeping with the requirements stipulated by the Education Institute of the ASQC headquarters and, as such, does much to prepare candidates for the ASQC Quality Engineer Certificate examinations. It should be noted, however, that the certificate programme does not lead to admission to the Order of Engineers of Quebec, or to the legal use of the title Engineer.

71.9.3 ACADEMIC REGULATIONS
Students are subject to the academic regulations of the University.

71.9.4 COURSE REQUIREMENTS
To be recommended for the award of the Certificate, students must satisfactorily complete the following courses:
QUAL C200 Elementary Metrology
QUAL C201 Advanced Metrology
QUAL C202 Statistical Quality Control
QUAL C203 Statistical Sampling
QUAL C204 Basic Concepts of Reliability
QUAL C205 Reliability Engineering
QUAL C206 Quality Management
QUAL C207 Design of Experiments
QUAL C208 Quality Assurance Technology
QUAN C221 Introduction to Business Computing
COMP C211 Introduction to Computers and Computing
COMP C362 Computer Applications of Statistics
3 elective credits from Computer Science or Quantitative Methods

Course descriptions are given below, except for those with the prefixes QUAN or COMP, which may be found in the Commerce and Administration and Computer Science sections of the calendar.

71.9.5 COURSE DESCRIPTIONS
Please note that new course numbers have been implemented. For equivalent course numbers under the old system, please consult §200.6.
QUAL C200 Elementary Metrology (3 credits)
An introductory course dealing with general measurement concepts, methods for estimating accuracy and precision, and systematic and constant errors.
Included are: mathematical concepts in metrology, statistical analysis of measurement data, the role of standards, legal bases, systems of measurement, master standards, principles involved in the use of projectors, pneumatic comparators, and direct reading measuring machines.

QUAL C201 Advanced Metrology (3 credits)
This course applies the principles presented in Elementary Metrology, and explores the value of these principles through everyday applications to modern technology.
Special consideration is given to the "Système Internationale" (Modernized Metric System) and its influence on the immediate future of industry, including the use of conversion tables and formulae.
The course expands on non-destructive testing techniques, including, in some depth, radiographic, ultrasonic and nuclear gauging and measurement applications.
Prerequisite: QUAL C200.

QUAL C202 Statistical Quality Control (3 credits)
Effective theory and practice for maintaining process control of manufactured products. A workshop course with full student participation in solving a variety of practical quality control problems.
Discussed are the concept of variation, frequency distributions, functions of a distribution, the various types of control charts including those for attributes and variables data, analysis of patterns, process capability studies and other related topics.
QUAL C203
Statistical Sampling (6 credits)
The principles of sampling the manufactured product, and the risks involved for both producer and consumer, are presented in lecture/workshop sessions. Discussed are probability theory, the binomial, Poisson and hyper-geometric distributions; their development and application to sampling theory. Also included are three classifications of sampling plans, AOQL, AOQIL, and LTPD, and the various types of sampling plans within each classification; such as single, double, multiple, unit sequential, and continuous plans and their associated operating characteristic curves. Mil-Std-105D and Mil-Std-414 are discussed in detail and the Dodge and Romig tables are highlighted. Prerequisite: QUAL C202.

QUAL C204
Basic Concepts of Reliability (3 credits)
A mixed format of lectures, workshops, problems and discussions designed to familiarize the student with the basic principles of reliability. Building gradually from historical review, definitions and concepts, the course discusses probability theory, Poisson and exponential distributions; reliability equation, MTBF and failure rate concepts, Weibull analysis, mean and median ranks, confidence statements, life characteristic curves, system reliabilities, standby systems, associated problems and other related topics. Prerequisite: QUAL C202.

QUAL C205
Reliability Engineering (3 credits)
Statistical methods in life testing. Introduction, reliability, concepts and definitions, historical review and development. Life characteristic curve, Poisson and exponential distributions, exponential reliability equation, MTBF and failure rate concepts.
Chi square confidence statements and intervals, Weibull analysis, mean and median ranks, associated problems. Probability theory, system reliabilities, standby systems, and other related topics. Prerequisite: QUAL C201.

QUAL C206
Quality Management (3 credits)
Emphasis is on general principles of planning and managing rather than quality control methodology. The concept of total quality control, from design, development and manufacture to purchase and customer use, is developed. The economics of quality, the planning and implementation of a quality cost programme, organization for quality, procurement quality control, in-process control, motivation for quality, inspection and test planning as well as the planning of the project, system quality audit and customer feedback are topics treated in detail.

QUAL C207
Design of Experiments (6 credits)
An introductory course, providing a more scientific approach to experimentation with emphasis on the use of statistical designs for data interpretation and high confidence in the result and overall costs. Topics covered are: tests of hypothesis, F, T, X², analysis of variance, Latin square, cube and nested designs. Full factorial and fractional factorial designs. Goodness to fit tests, tests for proportion, for precision and accuracy, normal probability paper, control chart analysis of experiments, regression analysis and other relevant statistical tools and designs such as random balance, multiple balance. Prerequisite: QUAL C202.

QUAL C208
Quality Assurance Technology (6 credits)
The basic principles of quality assurance, and its definition as a planned and systematic pattern of actions necessary to provide adequate confidence that a product or service conforms to established requirements. The development of the individual quality system in a modular format to cover the various phases of the industrial and commercial enterprise. Major subjects treated in detail: development of Quality Organizations, systems engineering, closed loop feedback systems, principle of modular systems, what the customer expects versus what he gets, product development, vendor-vendee, manufacturing, processing, servicing, post production and marketing. Note A: See §200.6.

* A student without the necessary studio courses must take Art C200 as a prerequisite to other studio courses in the Visual Arts.

NOTE: Quebec universities have agreed to admit to the appropriate undergraduate programmes any collegial student successfully completing the required programme provided that space and other resources are sufficient. When all such qualified students have been admitted, the University may then consider applicants who do not have all the specific prerequisites according to the University’s criteria.

Applicants for all Studio Art Programmes, who have a limited background, will be required to submit a portfolio and/or slides of work to the Portfolio Committee, Division of Visual Arts, for placement recommendation. Concordia students wishing to transfer into the Fine Arts Faculty should fill out the necessary faculty transfer forms available from the Admissions Office.

### 81.2.1 TRANSFER STUDENTS

Students who have already completed courses in other colleges or universities who wish to apply for advanced standing will be granted credits on the basis of the programme at Concordia University.

Transfer applicants for all Studio Art programmes will be required to submit a portfolio and/or slides of work to the Portfolio Committee, Division of Visual Arts, for placement recommendation. This must be done prior to registration. Students seeking a second degree must complete a minimum of 60 credits at Concordia University, while students transferring credits towards a first degree must complete a minimum of 45 credits at Concordia. (see § 16.1.5)

### 81.2.2 PORTFOLIO COMMITTEE

Any student wishing to enter a Studio Art course from a background other than CEGEP Fine Arts programme must submit a portfolio of work to the Portfolio Committee, Division of Visual Arts, prior to registration. Students seeking a second degree must complete a minimum of 45 credits at Concordia University. This portfolio evaluation will help to determine where the applicant will be placed.
81.3 Degree Requirements

Students preparing for the degree of Bachelor of Fine Arts will take a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours of work spread across lectures, conferences, laboratories, studio or practice-periods, tests, examinations and personal work.

81.3.1 BFA DEGREE REQUIREMENTS

Graduation with the degree of Bachelor of Fine Arts requires:

Successful completion of a Specialization, a Major or a Double Minor programme in Fine Arts.

Students must successfully complete at least 24 of the 90 credits outside their area of concentration. These 24 credits shall be selected according to the following requirements:

a) 6 credits may be within the Faculty of Fine Arts, but must be outside their area of concentration.

b) 18 credits shall be outside the Faculty of Fine Arts.

* Communication Studies courses do not fulfill the B.F.A. degree requirement which states that 18 credits shall be outside the Faculty of Fine Arts.

** Students enrolled in the Specialization in Art Education or Graphic Design (72 credits each) are permitted to use one of their required courses in Art History (6 credits) to satisfy this requirement. To fulfill this requirement, students whose programmes already contain a large studio component, such as Art Education, Graphic Design, Printmaking or Studio Art may not select credits from Studio Art I, Studio Art II or Art Education except for Art C220 Art C460, Art C461 or Photography C250.

Concentration Requirement

The Concentration Requirement can be satisfied either by a Specialization, a Major or a Double Minor (2 x 30 credits) programme. The selection is to be made upon entry, prior to registration.

The requirement of selecting a programme upon entry should not be thought of as being necessarily a final commitment. The Fine Arts programme is designed to be flexible enough to allow for changes, subject to limitations where certain programmes are in great demand.

A "Minor" is made up of an approved sequence of 30 credits. The term "Double Minor" states that the student has followed, within the requirements for the BFA degree, a planned programme of study in two specialized fields, with a lower degree of concentration in either than is afforded by a Major Programme.

81.3.2 RESIDENCY REQUIREMENTS

To fulfill the residency requirements for a BFA degree with a Specialization or Major in

1. Art Education, Graphic Design, Printmaking or Studio Art: at least 30 credits in Studio Art and 6 credits in Art History must be taken at Concordia.

3. Drama, Drama in Education, Theatre Performance or Theatre Scenography: at least 30 credits in Theatre Arts must be taken at Concordia.

Ordinarily this, combined with the other Degree requirements (see 81.3) will imply that the full-time student must enroll for two years of study at Concordia university.

Students are also subject to the general University residency requirements (see 16.1.5).

Course Load

The normal course load for the Faculty of Fine Arts is 30 credits per year for a full-time student. Students may not carry more than 18 credits in studio areas in any given academic year. To carry additional credits the student must submit a request for permission to do so to the Student Request Committee of the Faculty.

81.3.3 BFA HONOURS PROGRAMME
REQUIREMENTS

See Academic Regulations § 16.2.4

Prospective Honours Students must apply for entry to the programme after the completion of 30 credits and prior to the commencing of their last 30 credits of the B.F.A. degree.

Applications are made through the honours advisors upon completion of 30 credits.

Honours Student Representative
Registrar or his delegate

81.3.5 DIPLOMA IN ART EDUCATION

The Faculty of Fine Arts offers a one year post-graduate programme leading to the Diploma in Art Education.

This programme is integrated with the Bachelor of Fine Arts, (Specialization in Art Education)* to provide a continuous pattern of studies preparing art specialists for teaching in elementary and secondary schools.

In order to qualify for admission students must have completed the Concordia University Bachelor of Fine Arts, (Specialization in Art Education) or the equivalent. Graduates of other institutions will be considered if they have had the equivalent of an undergraduate major in studio work and can present an acceptable portfolio. They will be expected to make up the Education and Art Education courses included in the Bachelor of Fine Arts, Specialization in Art Education.

The Diploma Programme is offered in the Day only. Graduates who have been awarded the Diploma in Art Education meet the requirements for a Specialists Certificate in Art, awarded by the Quebec Board of Education.

A detailed description of the Programme may be found in the Graduate Studies Calendar.

Director of the Division of Visual Arts
J. KELLY

81.4 PROGRAMMES IN STUDIO ARTS
81.5 STUDIO ART I
81.6 STUDIO ART II
81.7 ART EDUCATION
81.8 ART HISTORY
81.9 CINEMA
81.4 Programmes in Studio Arts

Students are responsible for fulfilling their particular degree requirements, hence the following sequence must be read in conjunction with § 81.3.

The superscript indicates credit value.

72 BFA Specialization in Graphic Design
30 Drawing C200⁶, Design C200⁶, Graphic Design C260⁶, Photography C200⁶, Graphic Design C300⁶
6 Art C220⁶ or 6 Art History Elective
6 Art History C240⁶ (or, if exempt, an Art History Elective)
12 Graphic Design C310⁶, C320⁶, C330⁶, C340⁶
6 Graphic Design C410⁶, C420⁶, C430⁶, C440⁶
6 Graphic Design Elective
6 Studio Art Elective

66 BFA Specialization in Printmaking*
12 Art History electives
12 Drawing C200⁶, C300⁶
12 Printmaking C310⁶, C320⁶, C330⁶
6 Painting C200⁶, Photography C200⁶, Sculpture C200⁶ or studio elective
Option A (Intensive)
12 Printmaking C210⁶, C220⁶, C230⁶
6 Printmaking C410⁶, C420⁶, C430⁶
6 Printmaking C450⁶, Art C440⁶
Option B (Extensive)
18 Printmaking C210⁶, C220⁶, C230⁶
6 Printmaking C410⁶, C420⁶, C430⁶, C450⁶ Art C440⁶
* All students select courses from the core of 42 credits.

Option A permits specialization in two of the three areas of printmaking (intaglio, lithography or serigraphy).
Option B requires students to follow courses at the 200 level in all three areas of printmaking.

60 BFA Major in Art History and Studio Art
6 Art C434⁶ or Studio Art elective
6 Art History C240⁶ or, if exempt, Art History elective
18-24* Art History electives
24-30 Studio Art electives
* Art C460⁶ may be substituted for 6 credits in Art History.

60 BFA Major in Fine Arts*
0-24 Art History: Section: Art History elective credits.
0-24 Cinema Section: Cinema elective credits chosen from Cinema C200⁶, C211⁶, C212⁶, C311⁶, C312⁶, C321⁶, C322⁶, C323⁶, C329⁶, C3293, C4263, C4273.
0-24 Music Section: Music elective credits chosen in consultation with the programme advisor, Music.
0-24 Studio Art 1 and II Sections: Studio Art elective credits.
0-24 Theatre Arts (Drama) Section: Theatre Arts elective credits chosen in consultation with a programme advisor, Theatre Arts

* Credits must be taken in a minimum of 3 fields of concentration with a maximum of 24 credits in any field.
** Art C460⁶ may be substituted for 6 credits in Studio Arts or Art History.

54 BFA Major in Graphic Design
24 Drawing C200⁶, Design C200⁶, Graphic Design C260⁶, Graphic Design C300⁶
6 Art C220⁶ or Art History elective
6 Art History C240⁶ (or, if exempt, an Art History elective)
6 Graphic Design C310⁶, C320⁶, C330⁶, C340⁶
6 Graphic Design C410⁶, C420⁶, C430⁶, C440⁶
6 Studio Art elective or Cinema C312⁶

54 BFA Major in Studio Art
6 Art History elective credits
6 Lecture/seminar elective credits in Art or Art History
48 Visual Arts Studio elective credits (6 credits may be taken in studio courses in Cinema, Music or theatre Arts selected in consultation with an adviser from Cinema, Music or Theatre Arts)

60 BFA Major in Fine Arts*
6 Art History C240⁶ or if exempt Art History elective
6-12 Art History electives
12-18 Studio Art electives

30 Minor in Art History and Studio Art
6 Art History C240⁶ or if exempt Art History elective
6-12 Art History electives
12-18 Studio Art electives

30 Minor in Photography
24 Photography C200⁶, C250⁶, C300⁶, C400⁶
6 Photography C310, or Visual Arts elective
81.5 Studio Art I

(Design, Graphic Design, Photography, Printmaking)

1.5.1 COURSE DESCRIPTIONS

PORTFOLIOS: Students without a CEGEP Diploma in the 511 programme who wish to register for a course in Studio Art must submit a portfolio of their work to the Portfolio Committee of the Division of Visual Arts at least one week prior to their registration date.

Art:

ART C220
Theories of Design
An examination of outstanding and significant achievements in the field of design. Special emphasis will be placed on the development of design as an independent art form in the twentieth century. (6 credits)

Design:

DESIGN C200
Elements of Design
Prerequisite: C.E.G.E.P, Programme 511 or Art C200 previously or concurrently. The dynamics and structures of two and three dimensional design. (6 credits) NOTE A/See § 200.3
This course combines Design C201 and Design C301 given 1975-77.

Graphic Design:

GRAPHIC DESIGN C260
Graphic Design I
Prerequisite: Enrolment in the Graphic Design Major or Specialization. The tools and techniques of graphic communication with special emphasis on typography. A context for these studies is provided by an inquiry into the cultural and communicative roles of the graphic designer. (6 credits) NOTE A/See § 200.3

GRAPHIC DESIGN C260
Graphic Design II
Prerequisite: Graphic Design C260. A continuation of Graphic Design C260. The graphic combination of text and illustration is emphasized in various formats. Portfolio development is required. (6 credits) NOTE A/See § 200.3

GRAPHIC DESIGN C310
Illustration I
Prerequisites: Design C200, Drawing C200 Graphic Design C260. Exploration of the ideas, techniques and materials of the illustrator. The course focuses upon both personal development in drawing and technical facility. Students are required to develop their portfolios in illustration. (6 credits)

GRAPHIC DESIGN C320
Display Graphics I
Prerequisites: Design C200, Drawing C200, Graphic Design C260. The dynamics of spatial organization as applied to graphic communication. A study of the function of contemporary three dimensional graphics will provide a background for studio experiences with structural materials and shop tools. Students are required to develop their portfolios in display graphics. (6 credits)

GRAPHIC DESIGN C330
Sequential Graphics I
Prerequisites: Design C200, Drawing C200, Graphic Design C260. The design of brochures, folders, books, magazines and other visual formats including slide presentations. Important considerations include clarity of communication and visual integration of sequential units. Students are required to develop their portfolios in sequential graphics. (6 credits)

GRAPHIC DESIGN C340
Typography and Poster Graphics I
Prerequisites: Design C200, Drawing C200, Graphic Design C260. Typography, graphic symbols and images as applied to posters. The course will include a survey of posters as vehicles for social and political aims as well as for advertising purposes. Students are required to develop their portfolios in typography and poster graphics. (6 credits)

GRAPHIC DESIGN C410
Illustration II
Prerequisite: Graphic Design C310 and written permission of the Section. A continuation of Graphic Design C310. While the course deals with a variety of techniques useful in editorial and advertising illustration, it emphasizes personal development in drawing and encourages experimentation with original ideas. Students are required to develop their portfolios in illustration. (6 credits) NOTE A/See § 200.3

GRAPHIC DESIGN C420
Display Graphics II
Prerequisite: Graphic Design C320 and written permission of the Section. A continuation of Graphic Design C320 with emphasis on packaging and exhibition graphics. Students are required to develop their portfolios in display graphics. (6 credits)
GRAPHIC DESIGN C430
Sequential Imagery
Prerequisite: Graphic Design C330 and written permission of the Section. A continuation of Graphic Design C330. Students are required to develop their portfolios in sequential graphics. (6 credits) NOTE A/See § 200.3

GRAPHIC DESIGN C440
Typography and Poster Graphics II
Prerequisites: Graphic Design C340 and written permission of the Section. A continuation of Graphic Design C340. Students are required to develop their portfolios in typography and poster graphics. (6 credits)

GRAPHIC DESIGN C460
Special Topics in Graphic Design
Prerequisite: 18 credits in Graphic Design and written permission of the Section. A course for advanced students which will provide an opportunity for the study of more specialized areas in Graphic Design. (5 credits)

GRAPHIC DESIGN C461
Special Topics in Graphic Design
Prerequisite: 18 credits in Graphic Design and written permission of the Section. A course for advanced students which will provide an opportunity for the study of more specialized areas in Graphic Design. (3 credits)

GRAPHIC DESIGN C462
Special Topics in Graphic Design
Prerequisite: Graphic Design C461 and written permission of the Section. A student repeating Graphic Design C461 registers under Graphic Design C462 for credit. (3 credits)

Photography:

PHOTOGRAPHY C200
Foundations in Photographic Vision: Theory and Practice I
Prerequisite: Minor in Photography, Cinema Major or second year standing* in a Specialization/Major in the Visual Arts Division. An exploration of the aesthetics of photography through the rapid accumulation of images in the field and through the study of contact sheets and prints in the studio. Emphasis is placed upon developing an ability to see photographically. (6 credits) NOTE A/See § 200.3 * Less than 66 credits remaining in degree programme.

NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

PHOTOGRAPHY C250
Development of Photographic Traditions
Prerequisites: Enrolment in a BFA Degree Programme or third-year standing. A course tracing the development of photography from its earliest appearance to the present. Issues will be dealt with thematically and will include ideas about photographs as documents, means of social criticism, forms of personal expression and sequential imagery. Reference will be made to the relationship between photography and other forms of art and to the social or political contexts which influenced its development. (6 credits) * less than 36 credits remaining in degree programme.

PHOTOGRAPHY C300
Photographic Vision: Theory and Practice II
Prerequisite: Photography C220 and C250 or written permission of the Section. A studio course directed towards refining darkroom techniques and extending the use of photogra-

phy as a means of personal expression. Regularly scheduled seminars provide a historical context for contemporary issues. (6 credits) NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

PHOTOGRAPHY C310
Light and the Zone System
Prerequisite: Photography C200 and C250. A studio course dealing with the most essential element of photography, light, through an introduction to the zone system and its application to large and small format. The use of the zone system by contemporary photographers will be discussed. (6 credits)

NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

PHOTOGRAPHY C400
Advanced Workshop in Photography
Prerequisite: Photography C300. Advanced methods of black and white printing and investigations into the use of colour in photography. Students will also explore methods of conservation and presentation related to exhibitions, portfolios and books. (6 credits).

NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

Printmaking:

PRINTMAKING C210
Intaglio I
Prerequisite: Drawing C200 previously or concurrently. A study of the basic principles of traditional and contemporary intaglio techniques such as drypoint, etching and aquatint. (6 credits) NOTE A/See § 200.3

PRINTMAKING C220
Lithography I
Prerequisite: Drawing C200 previously or concurrently. A study of the basic principles of traditional and contemporary techniques in stone and plate lithography. NOTE A/See § 200.3

PRINTMAKING C230
Serigraphy I
Prerequisite: Drawing C200 previously or concurrently. A study of the basic principles of screen printing including direct techniques, photo-to-screen and cut film. (6 credits) NOTE A/See § 200.3

PRINTMAKING C310
Intaglio II
Prerequisite: Printmaking C210. Continuation of Printmaking C210. (6 credits) NOTE A/See § 200.3

PRINTMAKING C320
Lithography II
Prerequisite: Printmaking C220. Continuation of Printmaking C220. (6 credits) NOTE A/See § 200.3

PRINTMAKING C330
Serigraphy II
Prerequisite: Printmaking C230. Continuation of Printmaking C230. (6 credits) NOTE A/See § 200.3

PRINTMAKING C410
Intaglio III
Prerequisite: Printmaking C310. Advanced intaglio techniques. (6 credits)
PRINTMAKING C420
Lithography III
Prerequisite: Printmaking C320. Advanced lithographic techniques. (6 credits)

PRINTMAKING C430
Serigraphy III
Prerequisite: Printmaking C330. Advanced screen printing. (6 credits)

PRINTMAKING C450
The Print in Books, Portfolios and Other Containers
Prerequisites: Printmaking C310 or C320 or C330 previously or concurrently and 18 credits in studio art. The print in books, portfolios and other containers. Emphasis will be placed on relief and intaglio methods and the relationship of type to image. (6 credits)

81.6.1 COURSE DESCRIPTIONS

PORTFOLIOS: Students without a CEGEP diploma in the 511 programme who wish to register for a course in Studio Art must submit a portfolio of their work to the Portfolio Committee of the Division of Visual Arts at least one week prior to their registration date.

Art:

ART C200
Studio Art I
An introduction to studio art including drawing, painting, design, sculpture and related media. (6 credits) NOTE A/See § 200.3

ART C420
Special Topics in Studio Art
Prerequisite: 18 credits in studio art and written permission of the Section. A course for advanced students which will provide an opportunity for the study of more specialized areas in studio art. (6 credits)

ART C434
Materials and Methods of the Artist
Prerequisite: Written permission of the Director of Visual Arts. Through a series of special projects this course will familiarize the student with some of the various materials, techniques and other aspects of the artist's craft. Since special emphasis will be given to historical techniques, this course is particularly recommended to all students in art history. Lectures and studio periods. (6 credits)

ART C436
Studio Workshop: Special Studies
Prerequisite: 3rd year standing* and written permission of the Director of Visual Arts. This course will provide the opportunity for a limited number of students to pursue advanced studies in the studio area. (6 credits) * less than 36 credits remaining in degree programme

ART C440
Papermaking: Process and Assemblage
Prerequisites: 24 credits in studio art. The making and use of paper as related to the Visual Arts. The course will examine the physical and structural possibilities of paper as well as impression, assemblage and surface use. (6 credits)

ART C460
Analysis of Great Works of Art
A course in art principles. Through the formal analysis of selected masterpieces of painting and sculpture the student is led to a fuller comprehension of the nature of formal order in the arts. (6 credits) NOTE A/See § 200.3

ART C461
Aesthetic Inquiry in Visual Arts
A course in the application of aesthetic theories to the objects and events of visual arts. Topics will include the artistic process as expression, intuition and imagination. Further consideration will be given to the products of painting, sculpture and graphics emphasizing various contemporary critical and theoretical stances. (6 credits) NOTE A/See § 200.3

ART C480
Special Topics in Studio Art
Prerequisite: Art C440 and written permission of the Section. A student repeating Art C440 registers under Art C480 for credit. (6 credits)

ART C485
Special Topics in Studio Art
Prerequisite: 18 credits in studio art and written permission of the Section. A course for advanced students which will provide an opportunity for the study of more specialized areas in studio art. (3 credits)

ART C486
Special Topics in Studio Art
Prerequisite: Art C485 and written permission of the Section. A student repeating Art C485 registers under Art C486 for credit. (3 credits)

Drawing:

DRAWING C200
Drawing I
Prerequisite: CEGEP Programme 511 or Art C200. An exploration of drawing as a means of expression. Various media are employed to examine and express form, space, figurative and other graphic images. Drawing from observation, imagination and memory will be included. (6 credits) NOTE A/See § 200.3

DRAWING C300
Drawing II
Prerequisite: Drawing C200. A drawing course in which various media and forms of expression will be explored at the more advanced level. Lectures and studio periods. (6 credits)
DRAWING C400  
Drawing III  
Prerequisite: Drawing C300. Continuation of Drawing C300. (6 credits)

Painting:

PAINTING C200  
Painting I  
Prerequisite: CEGEP Programme 511 or Art C200. An exploration of painting, colour, style, image, visual skills and the technology of painting materials. (6 credits) NOTE A/See § 200.3

PAINTING C300  
Painting II  
Prerequisite: Painting C200. A course in which various media and forms of expressions will be explored at the more advanced level. (6 credits) NOTE A/See § 200.3

PAINTING C400  
Painting III  
Prerequisite: Painting C300. A continuation of Painting C300. (6 credits) NOTE A/See § 200.3

PAINTING C450  
Advanced Studio in Painting  
Prerequisite: Painting C400. A continuation of Painting C400. (6 credits) NOTE A/See § 200.3

Sculpture:

SCULPTURE C200  
Sculpture I  
Prerequisite: CEGEP Programme 511 or Art C200. An investigation into the methods, materials and modes of expression in sculpture. Both traditional and contemporary materials and techniques will be used. (6 credits) NOTE A/See § 200.3

SCULPTURE C300  
Sculpture II  
Prerequisite: Sculpture C200. Continuation of Sculpture C200. (6 credits) NOTE A/See § 200.3

SCULPTURE C400  
Sculpture III  
Prerequisite: Sculpture C300. Continuation of Sculpture C300. (6 credits) NOTE A/See § 200.3

#### 81.7.2 CERTIFICATE IN ART EDUCATION FOR TEACHERS (Elementary School Level)

The Visual Arts Division offers a Certificate in Elementary Art Education for the professional development of teachers. The programme is designed in accordance with the guidelines of the Québec Ministry of Education and consists of studios, seminars, lectures, and a practicum. Courses are scheduled in the late afternoon or evenings, both on and off campus for the convenience of teachers.

**Admission Requirements**

Entry into the programme requires that the candidate be legally qualified to teach at the elementary level. The Faculty of Fine Arts may allow up to 12 pro tanto credits in cases where students have completed appropriate courses that have not been applied to a previous degree or certificate.

Art:

ART C432 
Crafts 
Prerequisite: 18 credits in studio art. This course provides an introduction to contemporary crafts media in the areas of fibres, fabrics and ceramics. Emphasis will be given to the relationship of crafts to other art forms. (6 credits) NOTE A/See § 200.3

Art Education:

ART EDUCATION C200 
Art for Classroom Use 
A practical and theoretical course of particular use to teachers. Concepts of art education, the use of materials and techniques are considered in relation to classroom situations. Students are introduced to various art media including painting, collage construction, printing and modelling. The course includes the use of slides, films and selected readings. (6 credits) NOTE A/See § 200.3

ART EDUCATION C201 
Art in Early Childhood I 
Prerequisite: Enrolment in the Specialization in Early Childhood, Major in Child Studies or written permission of the Section. An introductory study of the art making process in early childhood. This course is a studio course which investigates potential media and teaching approaches appropriate for the young child. (3 credits) Students who receive credit for this course may not take Art Education C200 for credit.

ART EDUCATION C202 
Art in Early Childhood II 
Prerequisite: Art Education C201. A continuation of Art C201 (3 credits)

ART EDUCATION C300 
An Introduction to Art Education 
Prerequisite: 30 university credits and enrolment in the Major or Specialization in Art Education. A workshop-seminar course in which materials and art concepts are investigated and related to the teaching of art. Readings in the literature of Art Education will be included. (6 credits)

ART EDUCATION C301 
Methodologies and Resources for the Teaching of Art History. 
Prerequisite: Art History C240. This course deals with the methodologies, resources and content for teaching art history in elementary and secondary schools. The course consists of lectures, museum seminars and field trips. (3 credits)

ART EDUCATION C330 
Supervised Practicum in Elementary Art Education 
Prerequisite: Art Education C200, Art C200 and enrolment in the Certificate programme in Art Education for Teachers. The course includes weekly seminars which examine the role of art in the educational system and the theoretical framework for the planning and implementation of art activities. Students design curriculum units in art for the elementary level and teach these under supervision in a school setting. Teaching performance will be evaluated. (6 credits)

ART EDUCATION C400 
Seminar and Practicum in Art Education 
Prerequisite: Enrolment in the Specialization or Major in Art Education, or written permission of the Section. The development of a philosophy of art education on the basis of studio experiences, readings, the observation of and participation in teaching situations. The course includes weekly seminars, Saturday practicum and observation in the high schools. (6 credits) NOTE A/See § 200.3

ART EDUCATION C401 
Special Topics in Art Education 
Prerequisite: Written permission of the Section. A course for advanced students which provides an opportunity for the study of limited and more specialized aspects of art education. The topics chosen for consideration will vary from year to year according to the instructor’s field of specialization. (3 credits) NOTE C/See 200.3

ART EDUCATION C402 
Special Topics in Art Education 
Prerequisite: Written permission of the Section. A student repeating Art Education C401 registers under Art Education C402 for credit. (3 credits)

ART EDUCATION C430 
Multi-Media 
Prerequisite: 12 credits in studio art and enrollment in the Major or Specialization in Art Education or written permission of the Section. An introduction to photography, super-8 filmmaking, video and sound. The course deals with the practical and theoretical aspects of these media and explores their potential for the artist and art educator. (6 credits) NOTE A/See § 200.3

Ceramics:

CERAMICS C200 
Ceramics I 
Prerequisite: Enrolment in Major or Specialization in Art Education or written permission of the Division. An introduction to clay as an art medium. The student will investigate the various techniques for forming, shaping and decorating clay for firing and glazing. (6 credits)
81.8 Art History

81.8.1 PROGRAMMES

Students are responsible for satisfying their particular degree requirements, hence the following sequence must be read in conjunction with § 81.3.

The superscript indicates credit value.

60* BFA Honours in Art History

6 Art History C2406 or if exempt Art History elective chosen in consultation with Honours Advisor
12 Art History C4206, C4713, C4723, C4806, C4906, C4956.
42** Art History electives chosen in consultation with the Honours Advisor.

* Part-time students enrolled in the Honours programme must successfully complete a minimum of 12 credits during each winter session in which the student is enrolled.

** With permission of the Honours Advisor, up to 12 credits in Art History may be substituted.

Prospective Honours Students must apply for entry to the programme after the completion of 30 credits and prior to the commencing of their last 30 credits of the B.F.A. degree.

60 BFA Major in Art History

6 Art History C2406 or, if exempt, Art History elective
6 Art History C3386, C3396
6 Art History C3426, C4426
6 Art History C4406, C4416
6 Art History C3496, C3466, C4446, C4656.
6 Art History C4206, C4713, C4723, C4806, C4906.
6 Art History C4436
6 Art History elective

* With permission, a student may register for alternate courses in the Faculty of Fine Arts.
ART HISTORY C210
Principles of Archaeology
An introduction to archaeological methods and techniques with examples drawn from the ancient civilizations of the Americas and the Mediterranean. (6 credits)
NOTE: Students who have received credit for Interdisciplinary Studies-Archaeology S333 or Archaeology-Interdisciplinary Studies S333 may not take this course for credit.

ART HISTORY C232
Introduction to Architecture and Sculpture
To enable the student to understand and appreciate great works in architecture and sculpture and to develop a discriminative understanding of three-dimensional form in design and in his architectural environment. The main types, styles, and techniques of these arts are explained and illustrated. To understand their significance, the student is encouraged to become familiar with great examples of these arts through pictorial reproductions, slides, models, museum visits, and field trips. (6 credits) NOTE A/See § 200.3

ART HISTORY C240
Introduction to Art History
A survey of selected works which represent outstanding and significant achievements in the visual arts. (6 credits)

ART HISTORY C249
Canadian Sculpture and Architecture
A study of the more important developments of Canadian architecture and sculpture from indigenous forms to contemporary works. (6 credits) NOTE A/See § 200.3

ART HISTORY C310
Applied Archaeology
Prerequisite: Art History C210. Students apply theoretical archaeological methods to the excavation of a prepared site and report on the excavation and their findings. (6 credits)
NOTE: Students who have received credit for Art History C480 must have written permission to register for this course from the Archaeology Coordinator.

ART HISTORY C338
Art in the Ancient Near East
An introduction to the art, architecture, and minor arts in the ancient Near East and Aegean placing special emphasis upon Egypt, Mesopotamia, Crete, and the Cycladic Islands. (6 credits) NOTE A/See § 200.3

ART HISTORY C339
Art and Architecture in Ancient Greece and Rome
An introduction to the art and architecture of the Mycenaean, Greek, Etruscan, and Roman civilizations. (6 credits) NOTE A/See § 200.3

ART HISTORY C342
The Renaissance in Italy
A survey of painting, sculpture, and architecture in Italy during the fifteenth and sixteenth centuries. (6 credits) NOTE A/See § 200.3

ART HISTORY C343
The History of Nineteenth Century Art
Beginning with the age of Neo-classicism, this course will examine Romanticism, Realism, Impressionism, Neo-Impressionism, and other nineteenth century European movements. (6 credits) NOTE A/See § 200.3

ART HISTORY C346
History of Modern Architecture
An examination of the major building styles from the mid-eighteenth century through the twentieth century. Special emphasis on the contributions of individual architects. (6 credits) NOTE A/See § 200.3

ART HISTORY C410
Field Archaeology
Prerequisite: Art History C210 and C310. Supervised participation at a site approved by the Archaeology Coordinator. Students submit a paper concerning their participation in the excavation. (6 credits)

ART HISTORY C415
Topics in Archaeology
Prerequisite: Art History C210 and C310. A course for advanced students with subject matter varying according to the interests of the instructor. (6 credits)

ART HISTORY C420
Architectural Principles and Practice in the Western Tradition
Prerequisite: 12 credits in Art History or written permission of the Section. An examination of the interrelationship between styles, structure, and meaning in selected periods of the History of Architecture. Consideration will also be given to the social and aesthetic factors involved. (6 credits)

ART HISTORY C439
Iconography
Prerequisite: 12 credits in Art History. This course will examine recurring visual symbols in Western Art which are derived from Classical or Christian literature. (6 credits)

ART HISTORY C440
Early Christian and Byzantine Art
Prerequisite: 6 credits in Art History or written permission of the Section. A survey of Christian art and architecture from their late Roman beginnings through the 6th century in Western Europe to the fall of Byzantium in 1453 in the East. The genesis and growth of major iconographic themes and their changing stylistic expressions are considered in architecture, mural decoration, manuscript illumination, and the liturgical arts. (6 credits)

ART HISTORY C441
The History of Medieval Art
Prerequisite: 6 credits in Art History. This course will examine the arts of the Middle Ages, beginning with the Carolingian Renaissance. Special emphasis will be given to the architecture and sculpture of the Romanesque monasteries and the great Gothic cathedrals as well as the deluxe manuscripts of the French Court. (6 credits) NOTE A/See § 200.3

ART HISTORY C442
The Renaissance in Northern Europe
Prerequisite: 6 credits in Art History. This course will investigate the development of art in France, Flanders, Germany, and Austria in the fifteenth and sixteenth centuries. (6 credits) NOTE A/See § 200.3

ART HISTORY C443
History of Baroque and Rococo Art and Architecture
Prerequisite: Art Hist 240 and 6 credits in Art Hist. This course will examine the major achievements in Dutch, English, Flemish, French, Italian, Spanish, German and Austrian art and architecture in the seventeenth and eighteenth centuries. (6 credits) NOTE A/See § 200.3
ART HISTORY C444
The Arts in Canada
Prerequisite: Art History C240 or enrollment in the Canadian Studies Major. A history of the arts in Canada from the 17th century to the present day. Where relevant, special attention will be given to those European and American influences which have shaped its growth. (6 credits) NOTE A/See § 200.3

ART HISTORY C445
American Art and the European Background
Prerequisite: Art History C240. A survey of American Art from earliest colonial times into the early 20th century, viewed against the background of those European developments which have significantly affected it. (6 credits) NOTE A/See § 200.3

ART HISTORY C450
The Decorative Arts
Prerequisite: 6 credits in Art History. An examination of selected aspects of the Decorative Arts including furniture, glass, pottery and porcelain, metals and metal alloys, and textiles. (6 credits)

ART HISTORY C451
English Art 1750-1910
Prerequisite: 6 credits in Art History or written permission of the Section. A study of English art from the beginning of Romanticism to the first Post-Impressionist exhibition in London. The primary emphasis will be on painting, its theoretical basis, and its relationship to Continental art. (6 credits)

ART HISTORY C455
Art in the Twentieth Century
Prerequisite: 6 credits in Art History. Starting with Fauvism, this course will examine the main movements and trends which have occurred in Western Art during the Twentieth Century. (6 credits) Note A/See § 200.3

ART HISTORY C456
Art of the Americas
Prerequisite: 6 credits in Art History or written permission of the Section. An examination of the art and architecture of selected indigenous cultures of the Americas emphasizing their place in an aesthetic and art historical tradition. (3 credits)

ART HISTORY C458
Non-Western Art
Prerequisite: 6 credits in Art History or written permission of the Section. An examination of the art and architecture of selected Non-Western cultures emphasizing their place in an aesthetic and art historical tradition. (3 credits)

ART HISTORY C471
Special Topics in Art History
Prerequisite: 12 credits in Art History or written permission of the Section. A course for advanced students which will provide an opportunity for the study of limited and more specialized aspects of Art History. (3 credits) NOTE A, C/See § 200.3

ART HISTORY C472
Special Topics in Art History
Prerequisite: written permission of the Section. A student repeating Art History C471 registers under Art History C472 for credit. (3 credits) NOTE A, C/See § 200.3

ART HISTORY C473
Special Topics in Art History
Prerequisite: Written permission of the Section. A student repeating Art History C472 registers under Art History C473 for credit. (3 credits) NOTE C/See § 200.3

ART HISTORY C474
Special Topics in Art History
Prerequisite: Written permission of the Section. A student repeating Art History C473 registers under Art History C474 for credit. (3 credits)

ART HISTORY C480
Special Studies in the History of Art
Prerequisite: Twelve credits in Art History. Students in this course will examine and discuss selected aspects of Art History. The areas chosen for consideration will vary from year to year according to the instructor’s field of specialization. All students will be required to undertake research projects and to submit papers based on their investigations. (6 credits) NOTE A, C/See § 200.3

ART HISTORY C481
Special Studies in the History of Art
Prerequisite: Art History C480. A student repeating Art History C480 registers under Art History C481 for credit. (6 credits)

ART HISTORY C490
Advanced studies in Art History
Prerequisite: Eighteen credits in Art History and written permission of the Section. A course for advanced students which will provide for the study of limited and more specialized areas of Art History. The areas chosen for study will vary from year to year according to the instructor’s field of specialization. All students will be required to conduct research on selected aspects of the course topic. (6 credits) NOTE A, C/See § 200.3

ART HISTORY C491
Advanced Studies in Art History
Prerequisite: Written permission of the Section. A student repeating Art History C490 registers under Art History C491 for credit. (6 credits)

ART HISTORY C495
Independent Study
Prerequisite: Third year* Honours Art History standing and written permission of Honours Advisor and Section. Credit granted for independent projects supervised by a Faculty member. Students will be required to submit a paper based on their investigation. (6 credits)

*Less than 36 credits remaining in degree programme.
81.9 Cinema

Assistant Professor and Assistant Director
Visual Arts, Cinema
T. WAUGH

Associate Professor
J. LOCKE

81.9.1 PROGRAMMES

Students are responsible for fulfilling their particular degree requirements, hence the following sequences must be read in conjunction with § 81.3.

The superscript indicates credit value.

48 BFA Major in Cinema
24 Cinema C211a, C212a, C311b, and either C312a or C411b
24 Cinema electives (excluding Cinema C200)

* A student may substitute 6 to 12 credits chosen from Français C373b and Photography C200b and/or 12 credits chosen from Communication Studies courses listed under 81.9.3.

NOTE: Students who received credit for Cinema 211 or Cinema 212 before September 1971 must consider these courses equivalent to Cinema C311 and Cinema C312 respectively for the purpose of fulfilling degree requirements.

60 BFA Major in Fine Arts*
0-24 Art History Section: Art History elective credits.
0-24 Cinema Section: Cinema elective credits chosen from Cinema C200b, C211b, C212b, C311b, C312b, C321b, C322b, C323b, C328b, C329b, C425b, C427b.
0-24 Music Section: Music elective credits chosen in consultation with the programme advisor, Music.
0-24 Studio Art I and II Sections: Studio Art elective credits.
0-24 Theatre Arts (Drama) Section: Theatre Arts elective credits chosen in consultation with a programme advisor, Theatre Arts.

* Credits must be taken in a minimum of 3 fields of concentration with a maximum of 24 credits in any field.

** Art C460b may be substituted for 6 credits in Studio Arts or Art History.

30 Minor in Cinema*
12 Cinema C211b, C212b
18 Cinema C311b, C312b, C313b

* This Minor cannot be combined with the Minor in Film Animation to form a Double Minor programme.

** Francais C373b and/or up to 6 credits from Communication Studies courses listed in Section 81.9.3 may be substituted for credits in Cinema.

NOTE: Students who received credit for Cinema 211 or Cinema 212 before September 1971 must consider these courses equivalent to Cinema C311 and Cinema C312 respectively for the purpose of fulfilling degree requirements.

33 Minor in Film Animation*
18 Cinema C312b, C313b, C414b
3 Cinema C323b
6 Cinema C212b
6 Art C200b or if exempt Visual Arts Studio elective.

* This minor cannot be combined with the Minor in Cinema to form a Double Minor programme.

81.9.2 COURSE DESCRIPTIONS

CINEMA C200
Introduction to Film Studies
A survey acquainting the student with the art of the film. The technical and critical terminology of film studies will be discussed. Popular literature on film, such as reviews, will be analyzed and the more specialized film literature will be introduced. Directors whose films are usually viewed include Antonioni, Bergman, Truffaut, Jutra, Kurosawa, Hitchcock, Ford, Arzner, Hawks, Cukor, Grierson, Lang, Keaton and Chaplin. Weekly Screenings. (6 credits)

CINEMA C211
History of Film
A study of the history of film from its beginning to the 1950’s. Changes in the forms, functions, aesthetics and technology of film will be dealt with through the examination of individual works seen in a chronological sequence. Weekly screenings. (6 credits) NOTE A/See § 200.3

NOTE: A French section of this course will be offered under the direction of the Conservatory of Cinematographic Art.

CINEMA C211
L’histoire du cinéma
A study of the history of film from its beginning to the 1950’s. Changes in the forms, functions, aesthetics and technology of film will be dealt with through the examination of individual works seen in a chronological sequence. Weekly screenings. (6 credits) NOTE A/See § 200.3

NOTE: A French section of this course will be offered under the direction of the Conservatory of Cinematographic Art.
CINEMA C212
Film Aesthetics
A study of the aesthetics of film. Topics include film criticism, the film as a work of art, the psychology of film reception, the film as a medium of social control, the theory of film as an art form. Prerequisite: Art History 214 or 395, or English 101 or permission of instructor. (6 credits) NOTE A/See § 200.3

CINEMA C311
An Introduction to Filmmaking I
Prerequisite: Cinema Major, Cinema Minor or written permission of the Cinema Section. Cinema C211 or C212, previously or concurrently. An introductory course in the theory and practice of filmmaking. This course will stress the inducement of the film student's creative efforts in producing films in Super 8. Lecture and laboratory. (6 credits) NOTE A/See § 200.3
NOTE: i) Students who received credit for Cinema 211 prior to September 1971 may not take this course for credit. ii) Students are required to bear the cost of film stock, processing, printing and other materials.

CINEMA C312
Animation I
Prerequisite: Written permission of the Cinema Section and Minor in Film Animation; or written permission of the Cinema Section and either Cinema C311 or 6 credits from studio courses in the visual arts. A studio course introducing the theory and practice of animation. (6 credits) NOTE A/See § 200.3
NOTE: i) Students who received credit for Cinema 212 prior to September 1971 may not take this course for credit. ii) Students are required to bear the cost of film stock, processing, printing and other materials.

CINEMA C313
Animation II
Prerequisite: Written permission of the Cinema Section and Cinema C312. A continuation on a more advanced level of Cinema C312. (6 credits) NOTE A/See § 200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

CINEMA C321
The Art of Film Directors
Prerequisite: Cinema C211 or second year standing. A concentrated study of the work of several major directors from different periods in film history. Each director's work will be examined in detail with representative films from distinct periods. The films will be considered in terms of thematic and stylistic consistency and variation as well as biographical, social and political factors. Weekly screenings. (6 credits)
* less than 66 credits remaining in degree programme

CINEMA C322
Contemporary Film
Prerequisite: Cinema C211 or second year standing. This course begins with the New Wave in France and the resurgence of European film in the late 1950's and includes recent trends in documentary, Japanese and underground film. The films will be studied in the context of major philosophical, political and cultural developments of the period as well as contemporaneous developments in other art forms. Weekly screenings. (6 credits)
* less than 66 credits remaining in degree programme

CINEMA C323
History of Animated Film
Prerequisite: Minor in Film Animation or second year standing. An examination of animated film from the first decade of the twentieth century to the present. Styles of animation ranging from abstract experimental film of the 1920's to the Disney Studio computer animation will be viewed and discussed. The contribution of the National Film Board of Canada and particularly that of Norman McLaren will be considered. Weekly screenings. (3 credits)
* less than 66 credits remaining in degree programme.

CINEMA C323
History of Film Animation
Prerequisite: Minor in Film Animation or second year standing. A survey of animated film since 1914 with an emphasis on the work of Norman McLaren. Visionnements hebdomadaires. (3 credits)
* moins de 66 crédits à obtenir dans le programme conduisant à un diplôme.

CINEMA C328
Nonfiction Film Since 1956
Prerequisite: Second year standing.* A cross-cultural survey of contemporary developments in the documentary film. The course begins with the precursors of cinema-direct in North America and Europe during the fifties and extends through the most recent applications of cinema-direct in the emerging cinemas of the Third World.
Emphasis will be placed on both the artistic achievement and the theoretical, cultural and political context of the nonfiction film during this period of technological and aesthetic transition. Weekly screenings. (3 credits)
* less than 66 credits remaining in degree programme.

CINEMA C329
Women and Film
Prerequisite: Cinema C211 or second year standing.* An examination of films made by women, film criticism written by women and the portrayal of women in films. These topics will be considered within the context of film history and with an emphasis on their relation to ideas in contemporary feminist theory. Weekly screenings. (3 credits)
* less than 66 credits remaining in degree programme.

CINEMA C333
Script Writing I
Prerequisite: Written permission of the Cinema Section and Cinema C311. An introduction to writing for film with special emphasis on the relationship of the script to filmmaking. Students are expected to submit work of their own for discussion, analysis and possible production in filmmaking courses. (3 credits)

CINEMA C334
Problems and Methods of Film Production and Distribution
Prerequisite: Cinema C311. Topics include organizing a film project, financial aspects of film production and distribution, legal problems, film laboratory procedures and postproduction operations. (3 credits)
The contribution of cinematographers, editors, course in the analysis of film style. Films will be examined using an analytical projector in order to discover their formal and thematic structures.

Formal Analysis Seminar in Comparative Stylistic and criticism will be discussed. Weekly screenings.

(3 credits)

CINEMA C412 Filmmaking III
Prerequisite: Written permission of the Cinema Section and Cinema C311. Cinema Majors only. The completion of an advanced 16mm film project including its writing, design, production and editing. (6 credits) NOTE A/See § 200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

CINEMA C413 Filmmaking III
Prerequisite: Written permission of the Cinema Section and Cinema C412. Cinema Majors only. A student repeating Cinema C412 registers under Cinema C413 for credit. Only students who were granted an exemption from Cinema C311 or Cinema C412 may repeat Cinema C412. (6 credits) NOTE A/See § 200.3
NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

CINEMA C414 Animation III
Prerequisite: Written permission of the Cinema Section and Cinema C313 and C323. A continuation on a more advanced level of Cinema C313. (6 credits) NOTE: Students are required to bear the cost of film stock processing, printing and other materials.

CINEMA C422 Seminar in Film Theory and Criticism
Prerequisite: Written permission of the Cinema Section and Cinema C422. Theories including those of Sergei Eisenstein and Andre Bazin are studied both as explanations of the effects of films and as foundations for film criticism. The relation of contemporary theoretical writings, such as those in film semiotics, to film criticism will be discussed. Weekly screenings. (3 credits)

CINEMA C423 Seminar in Comparative Stylistic and Formal Analysis
Prerequisite: Written permission of the Cinema Section and Cinema C422. An intensive course in the analysis of film style. Films will be examined using an analytical projector in order to discover their formal and thematic structures. The contribution of cinematographers, editors, scriptwriters, directors and performers to the development of a style will be discussed. Weekly screenings. (3 credits)

CINEMA C426 English Canadian Film
A survey of English Canadian film from the earliest surviving works to the present. Topics include fictional, documentary, animation and experimental film. The role of the National Film Board will be discussed. Weekly Screenings. (3 credits)

CINEMA C427 Le cinema québécois
Le cinéma québécois mettant principalement l'accent sur les œuvres contemporaines. Les aspects culturels et politiques particuliers de ces films seront examinés. La structure de l'industrie cinématographique du Québec et le rôle de l'Office National du Film y seront traités particulièrement. Visionnements hebdomadaires. (3 credits)

CINEMA C428 Independent Study I
Prerequisite: Written permission of the Cinema Section. A course of independent study in which the student may explore a specific area of Film Production or Cinema Studies. (3 credits)
NOTE: With the written permission of the Cinema Section, a student may take this course twice for credits. The student registers the second time under Cinema C429.

CINEMA C429 Independent Study II
Prerequisite: Written permission of the Cinema Section. A student repeating Cinema C428 a second time registers for credits under Cinema C429. (3 credits)

CINEMA C433 Montage in Filmmaking
Prerequisite: Written permission of the Cinema Section or both Cinema C311 and enrollment in a Cinema major. Fiction and nonfiction film editing emphasizing dynamic and continuity cutting and cutting room techniques. Activities include editing the image in synchronized double system, cutting music and sound effects, preparation for and supervision of the rerecording. (3 credits)

CINEMA C436 Professional Internship
Prerequisite: Second year standing* and enrollment as a Cinema major. A Film Production student who has been employed within the film industry for not less than 500 hours within the same calendar year or similarly, a Cinema Studies student who has been employed for the same amount of time in film research, archival work, editing a film publication or in writing film criticism, may apply for 6 credits on the understanding that the Cinema Section must be satisfied that the work was done under the joint supervision of a qualified professional and a full-time Cinema Faculty member. (6 credits)
* less than 66 credits remaining in degree programme.

CINEMA C437 Technical Aspects of Filmmaking
Prerequisite: Written permission of the Cinema Section and Cinema C411, previously or concurrently. Cinema Majors only. Creative and experimental exercises in cinematography, sound and other components of filmmaking. The complex technology of filmmaking will be emphasized as forming a basis for the creative use of the medium. (6 credits)
CINEMA C438
Cinematography
Prerequisite: Written permission of the Cinema Section and Cinema C437, previously or concurrently. Cinema Majors only. An advanced course in camera and light for cinema. The contribution of cinematography to filmmaking is investigated through studio and location shooting exercises, lighting exercises and lectures. Subjects such as film stocks, lenses, filters and camera movement are discussed as elements in the creative process of filmmaking. (3 credits)

CINEMA C440
Special Topics in Film Studies
Prerequisite: Written permission of the Cinema Section. A course for advanced students which will provide an opportunity for the study of limited and more specialized aspects of film studies. (3 credits) NOTE A: C/See § 200.3

CINEMA C441
Special Topics in Film Studies
Prerequisite: Written permission of the Cinema Section. A student repeating Cinema C440 registers for credits under Cinema C441. (3 credits) NOTE A: C/See § 200.3

CINEMA C450
Special Topics in Film Production
Prerequisite: Written permission of the Cinema Section. A course for advanced students which will provide an opportunity for the study of limited and more specialized aspects of film production. (3 credits) NOTE A, C/See § 200.3

CINEMA C451
Special Topics in Film Production
Prerequisite: Written permission of the Cinema Section. A student repeating Cinema C450 registers for credits under Cinema C451. (3 credits) NOTE A: C/See § 200.3

Conservatoire d'art
Cinematographique:

Les sections des cours suivants seront offerts sous la direction du Conservatoire d'Art Cinematographique:

CINEMA C211
L'histoire du cinéma
Historique du cinéma, de ses débuts aux années 50. Les changements dans les formes, les fonctions, l'esthétique et les aspects techniques du cinéma y seront traités par l'examen des œuvres individuelles vues dans un ordre chronologique. Visionnements hebdomadaires. (6 crédits) NOTE A/See § 200.3

CINEMA C427
Le cinéma québécois
Revue des films québécois mettant principalement l'accent sur les œuvres contemporaines. Les aspects culturels et politiques particuliers de ces films seront examinés. La structure de l'industrie cinématographique du Québec et le rôle de l'Office National du Film y seront traités particulièrement. Visionnements hebdomadaires. (3 crédits)

81.9.3 COMMUNICATION STUDIES FILM COURSES*
(for course descriptions see § 31.10)

Cinema Majors may select 12 credits from the Communication Studies courses listed below as part of the 24 required Cinema elective credits.

Cinema Minors may select 6 credits from the Communication Studies courses listed below as part of the 18 Cinema credits required in addition to Cinema C211 and C212.

Communication Studies L3063 Documentary Film
Communication Studies L3073 Hollywood in the Silent Era
Communication Studies L3083 The German Expressionist Movement
Communication Studies L3093 The Revolutionary Soviet Cinema
Communication Studies L3103 The Hollywood Genres
Communication Studies L3113 The Classic French Cinema
Communication Studies L3123 La Nouvelle Vague
Communication Studies L3133 Ingmar Bergman and the Scandinavians
Communication Studies L3143 The Italians, from Neo-Realism to Today
Communication Studies L3153 Shakespeare in the Cinema
Communication Studies L3163 The Canadian Cinema

* Communication Studies courses do not fulfill the B.F.A. Cinema Major and Minor degree requirement which states that 18 credits shall be outside the Faculty of Fine Arts and 6 credits shall be outside their area of concentration.

406
Division of Performing Arts

Acting Director of the Division of Performing Arts
A. Pinsky

81.10 Theatre Arts
81.11 Music
81.12 Dance
### 81.10 Theatre Arts

#### Assistant Professor and Assistant Director
Performing Arts, Theatre Arts

- **W. REZNICEK**

#### Professor

- **N. SPRINGFORD**

#### Associate Professors

- **J. CAZALET**

#### 81.10.2 CERTIFICATE IN CREATIVE DRAMA AND THEATRE ARTS

The Performing Arts Division offers a Certificate in Creative Drama and Theatre Arts (with Elementary and Secondary options) for the professional development of teachers. The programmes are designed in accordance with the guidelines of the Quebec Ministry of Education. The courses concern both practice and theory and are conducted as workshops and seminars. By recognizing the general educational utility of creative drama and, where appropriate, its many applications to the study of theatre arts, the overall programme integrates the study of these two fields. Pattern B (Elementary) concentrates more on creative drama than does Pattern A (Secondary) in which the focus is shifted somewhat towards Theatre Arts.
Admission Requirements

Entry into the programme requires the candidate to be legally qualified to teach or engaged in teaching.

In some cases, where teachers have completed studies similar to those of this programme, the Faculty of Fine Arts may also allow pro tanto credits up to a maximum of 12. These courses must not have been applied to a previous degree or certificate.

30 Certificate in Creative Drama and Theatre Arts
Secondary — Pattern A
12 Drama in Education C2006, C4006
3 Drama in Education C4023 (supervised internship)
6 Theatre Performance C2013, C2023, C2033, C2043
3 Scenography C2013
6 Theatre Arts electives

30 Certificate in Creative Drama and Theatre Arts
Elementary — Pattern B
18 Drama in Education C2004, C3004, C4006
3 Drama in Education C4013 (supervised internship)
6 Theatre Performance C2013, C2023, C2033, C2043
3 Theatre Arts elective

81.10.3 COURSE DESCRIPTIONS

Theatre:

THEATRE C200
Theatre Principles and Practices
A study of the aesthetics, organization and functions of the theatre as a collaborative art. This course will include attendance at theatre performances. (6 credits) NOTE A/See § 200.3

* The Theatre Section endeavours to secure tickets at the lowest prices available to students.

THEATRE C300
Theatre History
A study of the development of the physical stage and representative theoretical and dramatic works within their social context from pre-history to the present. (6 credits) NOTE A/See § 200.3

THEATRE C301
Canadian Theatre
The development of theatre in Canada and the study of selected Canadian plays in text and in performance. Topics will include amateur and professional theatre, the emergence of theatre programmes in schools and universities, regionalism, the cultural boom of the Sixties and the development of such institutions as festivals, arts councils and national and local theatre organizations. (3 credits) NOTE A/See § 200.3

THEATRE C320
Theatre Administration
Prerequisite: Written permission of the Section. A course in theatre administration: Office and plant management, finance and budget, insurance, contracts, programme planning, public relations and touring. Lectures and case studies. (6 credits) NOTE A/See § 200.3

THEATRE C401
Quebec Theatre
Students should have a working knowledge of French. A study of selected plays of Quebec writers within their cultural milieu. Attendance at French and English language performances will be required. Guest speakers involved in Quebec theatre will be invited to supplement lectures. (3 credits) NOTE A/See § 200.3

THEATRE C402
Playwriting Workshop
Prerequisite: Written permission of the Section. Study of existing methods of playwriting in relation to stage production. Emphasis is on the creative work of the student guided by the criticism of the class and the instructor in the processes of stage realization. Promising scripts will receive workshop production. (3 credits) NOTE A/See § 200.3

THEATRE C403
Advanced Practicum
Prerequisite: Written permission of the Section. Special studies in acting, directing, playwriting, design, technical production, or other related areas. (3 credits) NOTE A,C/See § 200.3

THEATRE C404
Seminar in Theatre
Prerequisite: Written permission of the Section. Research in one phase of theatre. A specific topic will be chosen each year from such areas as the history of acting, directing, or design aspects of theatre practice or theatre history. (3 credits) NOTE A,C/See § 200.3

THEATRE C413
Advanced Practicum
Prerequisite: Written permission of the Section. Continuation of Theatre C403. A student who has completed Theatre C403 registers under Theatre C413 for further credit. (3 credits)

THEATRE C414
Seminar in Theatre
Prerequisite: Written permission of the Section. Continuation of Theatre C404. A student who has completed Theatre C404 registers under Theatre C414 for further credit. (3 credits)

Drama in Education:

DRAMA IN EDUCATION C200
Creative Drama I
The foundations of creative drama. The course deals with the theory and practice of the development of forms of imaginative expression. Opportunities are provided for practical exercises in sense awareness, spontaneous divergent thinking and improvised play as well as for the discussion of group dynamics, creative processes and to teaching methods for students from pre-kindergarten through secondary school. (6 credits) NOTE A/See § 200.3

DRAMA IN EDUCATION C201
Drama in Early Childhood Education
Prerequisite: Enrolment in the Specialization in Early Childhood Education or the Major in Child Studies. The course focuses on the development of the participants' fluency and flexibility in imaginative expression, on theories about the nature and value of dramatic play, on the implementation of drama curricula for young children. Content includes sensory stimulation, imitative role play, make-believe with objects and actions, spontaneous improvisation. (3 credits)

DRAMA IN EDUCATION C202
Stories for Children
Prerequisite: Drama in Education C200 or Drama in Education C201 or 6 credits in Theatre Performance. The course focuses on
the development of the participants' skills in reading and telling stories, on the creation and evaluation of new stories, on methods of using children's literature as a basis for dramatic play. (3 credits)

**DRAMA IN EDUCATION C300**

Creative Drama I

Prerequisite: Drama in Education C200 or written permission of the Section. Creative drama activities in the integration of music, art and drama forms. Students will explore innovative methods of using audio and visual materials in the classroom. One assignment will require the planning of a classroom activity in which several media are used to foster learning by means of dramatic expression. (6 credits) **NOTE A/See § 200.3**

**DRAMA IN EDUCATION C400**

Creative Drama II

Prerequisite: Drama in Education C300 or written permission of the Section. An examination of the objectives and content of the drama curriculum including a study of methods of teaching and assessment appropriate to the discipline. Specific topics will include collective creation by the use of creative drama techniques and the function, management and selection of the school play. (6 credits)

**DRAMA IN EDUCATION C401**

Supervised Internship — Elementary level

Prerequisite: Drama in Education C400. Based on the curriculum design project in Drama in Education C400, students will teach a curriculum unit which uses drama methods in an elementary setting. The students will be supervised and their teaching performance will be evaluated on selected criteria related to teaching competence and professional behaviour. (3 credits)

**DRAMA IN EDUCATION C402**

Supervised Internship — Secondary level

Prerequisite: Drama in Education C400. Based on the curriculum design project in Drama in Education C400, students will teach a curriculum unit in creative drama or theatre arts at the secondary level. The students will be supervised and their teaching performance will be evaluated on selected criteria related to teaching competence and professional behaviour. (3 credits)

**DRAMA IN EDUCATION C410**

Children's Theatre

Prerequisite: Written permission of the Section. Theories of stage presentation for the child audience. Study of scripts, performance techniques, special conditions and responsibilities. (6 credits)

**Production:**

**PRODUCTION C200**

Theatre Production B1

Prerequisite: Enrolment in a major, or minor, or specialization in Theatre Arts or written permission of the Section. All Students will complete a variety of assigned tasks in technical production and/or front of house work. Under certain circumstances students may satisfy a part of the course requirements in acting assignments. Attendance at workshops and/or rehearsals outside of class time will be required. (6 credits) **NOTE A/See § 200.3**

* A student may not register for more than six credits in Production courses in any one year nor more than three credits in any one semester.

**PRODUCTION C201**

Theatre Production B1

Prerequisite: Enrolment in a major, minor, or specialization in Theatre Arts, or written permission of the Section.* All Students will complete a variety of assigned tasks in technical production and/or front of house work. Under certain circumstances students may satisfy a part of the course requirements in acting assignments. Attendance at workshops and/or rehearsal outside of class time will be required. (3 credits) **NOTE A/See § 200.3**

* A student may not register for more than six credits in Production courses in any one year nor more than three credits in any one semester.

**PRODUCTION C300**

Theatre Production B1l

Prerequisite: Production C200, or C201 and written permission of the Section. Students will complete assigned tasks in theatre production in the areas of technical production, front of house work or acting. (6 credits) **NOTE A/See § 200.3**

* A student may not register for more than six credits in Production courses in any one year nor more than three credits in any one semester.

**PRODUCTION C301**

Theatre Production B11

Prerequisite: Production C200 or C201. A continuation of Production C200 or C201. (3 credits) **NOTE A/See § 200.3**

* A student may not register for more than six credits in Production courses in any one year nor more than three credits in any one semester.

**PRODUCTION C303**

Art Dramatique

Prerequisite: Facilité en français et l'approbation de la Section. Cet atelier pratique vise à sensibiliser les étudiants aux exigences du texte dramatique et aux réalités de la scène. Les membres de ce cours montreront et interprétent une pièce ou quelques actes du théâtre français ou québécois, ou des scènes créées dans le cours. (3 credits) **NOTE A/See § 200.3**

**PRODUCTION C304**

Independent Study I

Prerequisite: Permission of the Section and six credits in Performance or Scenography. Credit granted to individual students under the supervision of a Faculty member for practical drama production activity outside the academic Theatre programme. Each completed project will include planning, participation and a written evaluation of the practical experience. (3 credits) **NOTE A/See § 200.3**

**PRODUCTION C305**

Independent Study II

Prerequisite: Production C304 and permission of the Section. Continuation of Production C304. (3 credits) **NOTE A/See § 200.3**

**PRODUCTION C400**

Theatre Production BII

Prerequisite: Production C300. A continuation of Production C300. (6 credits) **NOTE A/See § 200.3**

* A student may not register for more than six credits in Production courses in any one year nor more than three credits in any one semester.
Scenography:

SCENOGRAPHY C200
Design Studio
Prerequisite: Written permission of the Section. An introduction to the basic theories and principles of visual design as applied to theatrical production. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY C201
Stagecraft I
An introduction to the materials, equipment and techniques employed in scenery, properties, stage lighting instrumentation, and costumes for the theatre. (3 credits)

SCENOGRAPHY C202
Stagecraft II
Prerequisite: Scenography C201 (may be taken concurrently). A continuation of Scenography C201, including scene painting, the design and construction of stage properties, and theatre graphics. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY C220
Costume Construction
Practical work in the cutting and construction of stage costumes. Consideration will be given to the composition and handling of fabrics. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY C300
Scenic Design I
Prerequisite: Scenography C200 and C202. Studio work in the theory and practice of designing scenery for various types of theatrical productions with emphasis on the development of design concepts from script to stage and the techniques of presentation, including drafting, rendering, and model making. Consideration will be given to the history of architecture and decor and the development of various forms of theatre. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY C310
Lighting and Sound
The technology and aesthetics of light and sound for the theatre. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY C320
Costume Design I
Prerequisite: Art C200 or written permission of the Section. The theory and practice of designing costumes for theatrical production. The course includes the development of design concepts, their application to design projects and methods of presentation of designs. (6 credits) NOTE A/See § 200.3

SCENOGRAPHY C400
Scenic Design II
Prerequisite: Scenography C300 and C310. Practical work in the design and execution of scenery and lighting for theatrical production. (6 credits)

SCENOGRAPHY C401
Special Scenographic Techniques
Prerequisite: Scenography C202. Advanced practical work in areas such as masks, special make-up techniques, special effects, projected scenery, special properties construction techniques. (3 credits) NOTE A/See § 200.3

SCENOGRAPHY C420
Costume Design II
Prerequisite: Scenography C220 and Scenography C320. Practical work in the design and execution of costumes for theatrical production and further work in drawing and rendering. (6 credits)

Theatre Performance:

THEATRE PERFORMANCE C201
Acting I
Emphasis on developing imagination and physical expression, including basics of improvisation. Preparation of scenes and play excerpts for class study. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE C202
Acting II
Prerequisite: Theatre Performance C201. Preparation for the role, including scene and character analysis and the continued development of imagination and expression. Focus will be on the presentation of scenes from plays. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE C203
Performance Techniques I: Fundamentals of Voice and Movement
An introduction to the use of the body as an acting tool, with emphasis on movement, comprising exercises for vocal and physical flexibility, relief from tension, expressiveness of gesture and body composition, spatial awareness, vocal support, vocal quality, and speech mechanics. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE C204
Performance Techniques II: Fundamentals of Voice and Movement
Prerequisite: Theatre Performance C203. Integration of body and voice with increased focus on the speech processes. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE C303
Performance Techniques III: Voice and Speech
Prerequisite: Theatre Performance C204. Development of vocal expression with emphasis on performance analysis. (3 credits)

THEATRE PERFORMANCE C304
Performance Techniques IV: Voice and Speech
Prerequisite: Theatre Performance C303. Continued development of vocal expression with emphasis on the study of dialects. (3 credits)

THEATRE PERFORMANCE C305
Directing I
Prerequisites: 12 credits from Theatre Performance and Scenography and written permission of the Section. Examination of and experimentation in staging and production organization. Exercises in visual, structural and conceptual analysis. (3 credits) NOTE A/See § 200.3

THEATRE PERFORMANCE C306
Directing II
Prerequisites: Theatre Performance C202 and C204 and written permission of the Section. A continuation of Acting II focusing on an in-depth study of the development of character in relation to the dramatic text beginning with the realistic genre. Presentation of scenes. (3 credits)
THEATRE PERFORMANCE C307
Acting IV
Prerequisites: Theatre Performance C306 and written permission of the Section. A continuation of the study of character in the realistic genre moving toward an examination of character within other selected theatrical styles. Presentation of scenes. (3 credits)

THEATRE PERFORMANCE C401
Acting V
Prerequisites: 24 credits in Theatre Performance (excluding Theatre Performance C305) and written permission of the Section. A studio course in acting styles with detailed analysis of plays of various periods. (3 credits)

THEATRE PERFORMANCE C402
Acting VI
Prerequisite: Theatre Performance C401. Exploration of an experimentation in contemporary approaches to performance style and form. (3 credits)

THEATRE PERFORMANCE C405
Directing II
Prerequisites: Theatre Performance C305 and written permission of the Section. Students will direct short plays for studio presentation. Lectures and independent research. (3 credits)

THEATRE PERFORMANCE C406
Performance Techniques V: Special
Movement and Vocal Skills
Prerequisites: Written permission of the Section. Fundamentals of special stage techniques for the theatre performer such as stage combat, dance and singing. (3 credits) NOTE A/See §200.3

THEATRE PERFORMANCE C407
Performance Techniques VI: Special
Movement and Vocal Skills
Prerequisites: Theatre Performance C406 and written permission of the Section. Continuation of Theatre Performance C406. Advanced study of special techniques for the theatre performer. (3 credits) NOTE A/See §200.3
81.11 Music

81.11.1 PROGRAMMES

Students are responsible for fulfilling their particular degree requirements, hence the following sequences must be read in conjunction with § 81.3.

The superscript indicates credit value.

Specialization in Music

The Faculty of Fine Arts offers four specialization programmes in Music which consist of 66 credits each.

Core Requirements

The required 27-30 credit core is identical for all four specializations in Music and comprises the following courses:

- 3-6 Music C2306, C2313
- 6* Integrative Music Studies C2006
- 6 Integrative Music Studies C3006
- 6 Music History C2006; or if exempt, 6 credits in World Music selected in consultation with the Music Adviser.
- 6 Music History C3013, C3023, C3033, C3043, C4013, C4023

* With permission of the Music Adviser, students may substitute Integrative Music Studies C3006.

NOTE: The student is responsible for following the courses required for the completion of his/her particular specialization.

Specialization in Music Theory/Composition

27-30 Core

- 6 Integrative Music Studies C3006
- 6-12 Integrative Music Studies C4013, C4023, Contemporary Music Studies C4113, C4123
- 6 Integrative Music Studies C3213, C3223, C3313, C3323

12-21 Music electives selected in consultation with the Music Adviser

Specialization in Selected Music Studies

27-30 Core

- 30-33 Music electives in Specialization selected in consultation with programme advisor.
- 3-6 Music C4913, C4923

Courses in the Specialization may include the investigation of areas not normally combined in the music curriculum, including musical perception, theory, composition, pedagogy, literature and performance.

Eligibility: Completion of core with B average or better.

Entrance: Submission and approval of plan of course work and Special Project. (Music C491)

Performance Requirements: 1) B grade average in specialization
2) B average in programme.
3) C average outside programme.

Review: Upon completion of the courses in this Specialization, the Special Project shall be graded by the appropriate Review Committee. The type of evaluation used will depend upon the nature of the project: exhibition, concert, recording or essay.

Specialization in Studio Music

27-30 Core

- 6 Contemporary Music Studies C3006
- 12-18 Contemporary Music Studies C4013, C4023, C4113, C4123, Integrative Music Studies C3313, C3323

12-21 Music electives selected in consultation with the Music Adviser
MUSIC:

MUSIC C221
Theory/Aural Training I
A review of the fundamentals of music theory and aural training. Workshop and laboratory. (3 credits) NOTE A/See § 200.3

MUSIC C222
Theory/Aural Training II
Prerequisite: Music C221 or equivalent. Continuation of Music C221. (3 credits) NOTE A/See § 200.3

MUSIC C223
Understanding Music
A course in analytical listening for the student who has little or no musical background. The works studied represent the major styles and idioms of Western music. (3 credits) NOTE A/See § 200.3

MUSIC C230
Private Study B1
Prerequisite: Written permission of the Section. This course offers individual or group instruction in an approved area of music with a qualified teacher of the student's choice. Students should understand that fees will vary with individual instructors. (6 credits) NOTE A/See § 200.3

MUSIC C231
Private Study A1
Prerequisite: Written permission of the Section. This course offers individual or group instruction in an approved area of music with a qualified teacher of the student's choice. Students should understand that fees will vary with individual instructors. (3 credits) NOTE A/See § 200.3

MUSIC C330
Private Study B II
Prerequisite: Music C230 and written permission of the Music Section. Continuation of Music C230. (6 credits) NOTE A/See § 200.3

MUSIC C331
Private Study A II
Prerequisite: Music C231 and written permission of the Music Section. Continuation of Music C331. (3 credits) NOTE A/See § 200.3

81.11.2 COURSE DESCRIPTIONS

Music:

MUSIC C221
Theory/Aural Training I
A review of the fundamentals of music theory and aural training. Workshop and laboratory. (3 credits) NOTE A/See § 200.3

MUSIC C222
Theory/Aural Training II
Prerequisite: Music C221 or equivalent. Continuation of Music C221. (3 credits) NOTE A/See § 200.3

MUSIC C223
Understanding Music
A course in analytical listening for the student who has little or no musical background. The works studied represent the major styles and idioms of Western music. (3 credits) NOTE A/See § 200.3

MUSIC C230
Private Study B1
Prerequisite: Written permission of the Section. This course offers individual or group instruction in an approved area of music with a qualified teacher of the student's choice. Students should understand that fees will vary with individual instructors. (6 credits) NOTE A/See § 200.3

MUSIC C231
Private Study A1
Prerequisite: Written permission of the Section. This course offers individual or group instruction in an approved area of music with a qualified teacher of the student's choice. Students should understand that fees will vary with individual instructors. (3 credits) NOTE A/See § 200.3

MUSIC C330
Private Study B II
Prerequisite: Music C230 and written permission of the Music Section. Continuation of Music C230. (6 credits) NOTE A/See § 200.3

MUSIC C331
Private Study A II
Prerequisite: Music C231 and written permission of the Music Section. Continuation of Music C331. (3 credits) NOTE A/See § 200.3

MUSIC C430
Private Study B III
Prerequisite: Music C330 and written permission of the Music Section. Continuation of Music C330. (6 credits) NOTE A/See § 200.3

MUSIC C431
Private Study A III
Prerequisite: Music C331 and written permission of the Music Section. Continuation of Music C331. (3 credits) NOTE A/See § 200.3

MUSIC C471
Independent Study
Prerequisite: Written permission of the Section. An independent study intended primarily for the student who wishes to do research in an area of his own choice. He may alternatively elect to compose a large scale work or perform an approved programme in public recital. Music Faculty will be available for consultation. (3 credits) NOTE C/See § 200.3

MUSIC C472
Independent Study
Prerequisite: Written permission of the Music Section. Continuation of Music C471. (3 credits)

MUSIC C491
Special Project in Music
Prerequisite: Written permission of the Music Section. This course is intended for students enrolled in the Specialization in Selected Music Studies. It affords an opportunity for extensive development of the final project under the direction of a faculty member. The content of this course will vary according to the particular area being studied. A student repeating Music C-491 registers under Music C-492 for credit. (3 credits)

MUSIC C492
Special Project in Music
Prerequisite: Music C491 and written permission of the Music Section. Continuation of Music C491. (3 credits)
Contemporary Music Studies:

CONTEMPORARY MUSIC STUDIES C300
Studio Music I
Prerequisite: Written permission of the Music Section. A workshop programme in selected jazz, rock, popular and related styles. The study will include ensemble playing, improvisation, score reading, jazz theory and arranging. Practice period/conference. (6 credits) NOTE A/See § 200.3

CONTEMPORARY MUSIC STUDIES C401
Studio Music II
Prerequisite: Contemporary Music Studies C300 or written permission of the Music Section. An intensive study of selected problems in the development of studio musicianship. The areas covered are determined by specific class needs. Practice period/conference. (3 credits) NOTE A/See § 200.3

CONTEMPORARY MUSIC STUDIES C402
Studio Music III
Prerequisite: Contemporary Music Studies C401 or written permission of the Music Section. Continuation of Contemporary Music Studies C401. (3 credits) NOTE A/See § 200.3

CONTEMPORARY MUSIC STUDIES C411
Seminar-Workshop in Composition I
Prerequisite: Written permission of the Music Section. A Seminar-Workshop in one or more of the following: free composition; music for film, TV, stage or mixed media; jazz, electronic, computer, aleatory, "brain" and experimental musics. Whenever possible, provisions will be made for public performance of student works. (3 credits) NOTE A/See § 200.3

CONTEMPORARY MUSIC STUDIES C412
Seminar-Workshop in Composition II
Prerequisite: Contemporary Music Studies C411. Continuation of Contemporary Music Studies C411. (3 credits) NOTE A/See § 200.3

CONTEMPORARY MUSIC STUDIES C413
Seminar-Workshop in Composition III
Prerequisite: Contemporary Music Studies C412. Continuation of Contemporary Music Studies C412. (3 credits) NOTE A/See § 200.3

CONTEMPORARY MUSIC STUDIES C414
Seminar-Workshop in Composition IV
Prerequisite: Contemporary Music Studies C413. Continuation of Contemporary Music Studies C413. (3 credits) NOTE A/See § 200.3

Integrative Music Studies:

INTEGRATIVE MUSIC STUDIES C310
Aural Perception: Analytical Hearing I
Prerequisite: Written permission of the Music Section. Hearing skills are developed through exercises in aural concentration, recall, reproduction, imagination, analysis and transcription. The sound materials used range from traditional to electronic, natural and mechanical. Classroom and laboratory. (6 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C321
Comparative Analysis I
Prerequisite: Integrative Music Studies C320. Continuation of Integrative Music Studies C321. (3 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C331
Instrumentation/Arranging I
Prerequisite: Written permission of the Music Section. A study of the capabilities and uses of instruments in a variety of musical situations ranging from small ensembles to full orchestra. The areas covered are determined by class needs. Workshop and laboratory. (3 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C332
Instrumentation/Arranging II
Prerequisite: Integrative Music Studies C331. Continuation of Integrative Music Studies C331. (3 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C401
Theory/Composition III
Prerequisite: Integrative Music Studies C300 or written permission of the Music Section. Continuation of Integrative Music Studies C300 at a more advanced level. While the study will emphasize contemporary writing techniques, it will include close work in traditional harmony and counterpoint. Classroom and laboratory. (3 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C402
Theory/Composition IV
Prerequisite: Integrative Music Studies C401, or written permission of the Music Section. Continuation of Integrative Music Studies C401. (3 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C411
Aural Perception: Analytical Hearing II
Prerequisite: Integrative Music Studies C310 or written permission of the Music Section. An intensive study of selected problems in hearing, analyzing and transcribing music. The course combines individual and group exercises with structural analysis. Areas to be covered are determined by specific class needs. (3 credits) NOTE A/See § 200.0

INTEGRATIVE MUSIC STUDIES C412
Aural Perception: Analytical Hearing III
Prerequisite: Integrative Music Studies C411. Continuation of Integrative Music Studies C411. (3 credits) NOTE A/See § 200.3

INTEGRATIVE MUSIC STUDIES C421
Comparative Analysis III
Prerequisite: Integrative Music Studies C322. Continuation of Integrative Music Studies C322. (3 credits) NOTE A/See § 200.3
MUSIC

INTegrative MUSIC STUDies C422
Comparative Analysis IV
Prerequisite: Integrative Music Studies C421.
Continuation of Integrative Music Studies C421,
(3 credits) NOTE A/See § 200.3

INTegrative MUSIC STUDies C431
Instrumentation/Arranging III
Prerequisite: Integrative Music Studies C332.
Continuation of Integrative Music Studies C332,
(3 credits) NOTE A/See § 200.3

INTegrative MUSIC STUDies C432
Instrumentation/Arranging IV
Prerequisite: Integrative Music Studies C431.
Continuation of Integrative Music Studies C431,
(3 credits) NOTE A/See § 200.3

Music History:

MUSIC HISTORY C200
Music History and Society
A survey of musical styles in their social
context, from pre-history to the present day.
While emphasis is on the mainstream of the
western tradition, attention is also given to folk-
popular and jazz styles, as well as the music of
other cultures. (6 credits) NOTE A/See § 200.3

MUSIC HISTORY C301
Medieval/Renaissance Music
Prerequisite: Music History C200 and Integrative
Music Studies C200 or written permission of
the Music Section. Representative works from
the Medieval and Renaissance periods. Styles
and performance practices will be examined in
the light of the historical forces that helped
shape the course of Western Music. (3 credits)

MUSIC HISTORY C302
Music of the Baroque
Prerequisite: Music History C200 and Integrative
Music Studies C200 or written permission of
the Music Section. Representative works from
the early 17th to the mid-18th century. The
evolution of "common practice" will be traced
in the forms, styles and performance practices
of the great masters and schools. (3 credits)

MUSIC HISTORY C303
Classical Music
Prerequisite: Music History C200 and Integrative
Music Studies C200 or written permission of
the Music Section. Representative works from
the age of Haydn, Mozart and Beethoven.
Styles, forms and performance practices will be
examined within the context of 18th century
social and cultural developments. (3 credits)

MUSIC HISTORY C304
Romanticism in Music
Prerequisite: Music History C200 and Integrative
Music Studies C200 or written permission of
the Music Section. Representative works from
the late 18th to early 20th century. Styles and
performance practices will be studied as ex-
pressions of the romantic consciousness. (3 credits)

MUSIC HISTORY C305
Music in the Twentieth Century
Prerequisite: Music History C200 and Integrative
Music Studies C200 or written permission of
the Music Section. A selected area or move-
ment in 20th century music. In a given semester
the topic for consideration may include the
work of a major composer, a national school,
contemporary classicism, serialism, jazz, folk,
popular, electronic, aleatory or experimental
music. (3 credits).

MUSIC HISTORY C401
Special Study in Music History I
Prerequisite: 12 credits in Music and written
permission of the Music Section. A study of a
selected period, area or contribution. In a given
year, the study may examine any significant
aspect of Western, non-Western or other mu-
sics. (3 credits) NOTE A/See § 200.3

MUSIC HISTORY C402
Special Study in Music History II
Prerequisite: Music History C401. Continuation
of Music History C401. (3 credits) NOTE
A/See § 200.3

Music in Education:

MUSIC IN EDUCATION C301
Music for Classroom Use I
Prerequisite: Enrolment in the Specialization in
Early Childhood Education, Major in Child
Studies or written permission of the Music
Section. This course is designed to give the
student a working knowledge of contemporary
techniques of group instruction in music. At
least one established or experimental method is
covered in some depth; for example, Orff,
Kodaly, Dalcroze, Marientot, Schafer, Dennis.
While the main emphasis is on the cultivation of
musicality in the pre-school and elementary
school child, the implications for music educa-
tion in general are also explored. Classroom
work includes opportunities for demonstration
and practice teaching. (3 credits) NOTE A/See
§ 200.3

MUSIC IN EDUCATION C302
Music for Classroom Use II
Prerequisite: Music in Education C301 and
written permission of the Music Section. A
continuation of Music in Education C301. (3
credits) NOTE A/See § 200.3

MUSIC IN EDUCATION C430
Studies in Music in Education
Prerequisite: Written permission of the Music
Section. A study of selected problems in music
education. (6 credits)

MUSIC IN EDUCATION C431
Seminar-Workshop in Music Education I
Prerequisite: Written permission of the Music
Section. A study of selected problems in the
musical education of the child. Among the
areas to be considered are the music curricu-
lar, music and the other arts, concepts of
musicality, musical thinking, the education of
the musically gifted child, and the musical
environment in home and school. Discussion
will be combined with workshop demonstrations. (3
credits) NOTE A/See § 200.3

MUSIC IN EDUCATION C432
Seminar-Workshop in Music Education II
Prerequisite: Music in Education C431. Con-	inuation of Music in Education C431. (3 cred-
its) NOTE A/See § 200.3

MUSIC IN EDUCATION C440
Studies in Music in Education
Prerequisite: Repeating Studies in Music in
Education a second time registers for credit
under Music in Education C440. (6 credits)

Music Performance Studies:

MUSIC PERFORMANCE C200
Orchestra I
Prerequisite: Written permission of the Music
Section. Students enrolled in this course partic-
ipate in the Faculty orchestra or in other ap-
proved orchestra groups. (6 credits)
MUSIC PERFORMANCE STUDIES C201
Orchestra I
Prerequisite: Written permission of the Music Section. Students enrolled in this course participate in the Faculty orchestra or in other approved orchestra groups. (3 credits)

MUSIC PERFORMANCE STUDIES C220
Choir I
Prerequisite: Written permission of the Music Section. Students enrolled in this course participate in the Faculty choir or in other approved choral groups. (6 credits)

MUSIC PERFORMANCE STUDIES C221
Choir I J
Prerequisite: Written permission of the Music Section. Students enrolled in this course participate in the Faculty choir or in other approved choral groups. (3 credits)

MUSIC PERFORMANCE STUDIES C300
Orchestra II
Prerequisite: Music Performance Studies C200, or C201 and written permission of the Section. Continuation of Music Performance Studies C200. (6 credits)

MUSIC PERFORMANCE STUDIES C311
Early Music Ensemble I
Prerequisite: Written permission of the Section. A study, through performance, of representative vocal and instrumental works from the middle ages to the early baroque. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C312
Early Music Ensemble II
Prerequisite: Music Performance Studies C311. Continuation of Music Performance Studies C311. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C320
Choir II
Prerequisite: Music Performance Studies C220, or C221 and written permission of the Section. Continuation of Music Performance Studies C220. (6 credits)

MUSIC PERFORMANCE STUDIES C321
Traditional/Contemporary Ensemble I
Prerequisite: Written permission of the Section. A study, through performance, of selected works from the traditional and contemporary repertoires. The works studied are determined by class needs and the particular skills of each student. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C322
Traditional/Contemporary Ensemble II
Prerequisite: Written permission of the Section. Continuation of Music Performance Studies C321. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C400
Orchestra III
Prerequisite: Music Performance Studies C300. Continuation of Music Performance Studies C300. (6 credits)

MUSIC PERFORMANCE STUDIES C411
Early Music Ensemble III
Prerequisite: Music Performance Studies C312. Continuation of Music Performance Studies C312. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C412
Early Music Ensemble IV
Prerequisite: Music Performance Studies C411. Continuation of Music Performance Studies C411. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C420
Choir III
Prerequisite: Music Performance Studies C320. Continuation of Music Performance Studies C320. (6 credits)

MUSIC PERFORMANCE STUDIES C421
Advanced Repertoire I
Prerequisite: Written permission of the Music Section. An intensive study of selected works from the repertoire. Particular consideration will be given to acquiring proficiency in conducting, balance, style, interpretation and related dimensions of higher technique. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C422
Advanced Repertoire II
Prerequisite: Written permission of the Music Section. Continuation of Music Performance Studies C421. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C431
Seminar-Workshop in Performance I
Prerequisite: Written permission of the Music Section. This course examines selected problems in the development of performance skills. The areas covered are, whenever possible, determined by the specific interests of students. Topics, in any given year, may include: technique; practice; style; interpretation; accompaniment; ensemble; teaching children; the adult student. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C432
Seminar Workshop II
Prerequisite: Music Performance Studies C431 previously or concurrently. Topics will vary between sections and also from year to year. Continuation of Music Performance Studies C431. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C433
Seminar Workshop in Performance III
Prerequisite: Music Performance Studies C432 previously or concurrently. Topics will vary between sections and also from year to year. Continuation of Music Performance Studies C432. (3 credits) NOTE A/See § 200.3

MUSIC PERFORMANCE STUDIES C434
Seminar-Workshop in Performance IV
Prerequisite: Music Performance Studies C433 previously or concurrently. Topics will vary between sections and also from year to year. Continuation of Music Performance Studies C433. (3 credits) NOTE A/See § 200.3

World Music:

WORLD MUSIC C300
Folk Music of the Americas
Prerequisite: Written permission of the Music Section. A survey of the roots and development of traditional music in the New World. The study examines aboriginal as well as transplanted and hybrid styles; urban and rural musics with special attention to European and African antecedents; the relationship of folk musics to popular and cultivated styles; transcription and arrangement, ethnomusicological method. (6 credits) NOTE A/See § 200.3

WORLD MUSIC C310
Music in the Non-Western World
Prerequisite: Written permission of the Music Section. A survey of the art, religious and folk music of non-European cultures. The study includes an examination of cross-cultural parallels and influences, instruments, notations, textures, techniques of performance and problems of interpretation. Illustrated with recordings and slides (6 credits) NOTE A/See § 200.3
WORLD MUSIC C320
Folk and Traditional Music I
Prerequisite: Written permission of the Music Section. The music of a selected culture or community. While in a given year the study may consider the music of any world culture, particular attention will be given to the musical heritage of ethnic minorities residing in Canada. (6 credits) NOTE A/See § 200.3

WORLD MUSIC C330
Folk and Traditional Music II
Prerequisite: Written permission of the Music Section. Continuation of World Music C320. (6 credits) NOTE A/See § 200.3

WORLD MUSIC C340
Folk and Traditional Music III
Prerequisite: Written permission of the Music Section. Continuation of World Music C330. (6 credits) NOTE A/See § 200.3

81.12 DANCE

DANCE C200
Workshop in Dance I
Studies in dance. (6 credits)

DANCE C300*
Workshop in Dance II
Prerequisite: Dance C200 or the equivalent. Students continuing Workshop in Dance register for credit under Dance C300. (6 credits)
*Students entering this course without Dance C200 are accepted on the basis of skill levels attained through prior training in various forms of modern dance/ballet. (6 credits)
Note: Recent curricular changes will affect some of the entries in the following lists. A student who suspects that a course he proposes to take may be equivalent to another for which he already has credits should consult his programme adviser.
Curricular change in the new Faculty will affect some of the entries in the following list. A student who suspects that a course he proposes to take may be equivalent to another for which he already has credits should consult his programme adviser.

NOTE A The use of this note after certain course descriptions indicates, that there exists an equivalent course and that students who have the equivalent course may not take the listed course for credits. To find out the equivalents to the listed course refer to the index below.

The following graduate programmes are offered at Concordia University. Major options within a programme are also listed. In most cases, courses are given in the late afternoon and evening, or in the evening only, making it possible for both full-time and part-time students to attend. Please contact the graduate programme director at the number indicated for further information.

**Centre for the Teaching of English as a Second Language**

M.A.  
J. Palmer  
879-8428

**Department of Biological Sciences**

M.Sc.  
Option A: With Thesis  
S. M. Ruby  
879-4220  
Option B: Teaching of Biology  
R. Roy  
879-7233

**Department of Chemistry**

M.Sc.  
Option A: With Thesis  
Z. Hamlet  
879-4157  
Option B: Teaching of Chemistry  
R. T. Rye  
879-4159  
Ph.D.  
Z. Hamlet  
879-4157

**Faculty of Commerce and Administration**

M.B.A.  
M. Arvari  
879-8571  
Ph.D.  
P. Pasold  
879-8101  
Diploma in Institutional Administration  
Z. Popp  
879-4388  
Diploma in Sports Administration  
G. Short  
482-0320  
Ext. 735  
Z. Popp  
879-4388

**Department of Communication Studies**

Diploma in Communication Studies  
C. Fischer  
482-0320  
Ext. 275

**Department of Computer Science**

M. Comp. Sci.  
J. Atwood  
879-8130

**Department of Economics**

M.A.  
J. Ahmad  
879-8096  
Ph.D.  
J. Ahmad  
879-8096

**Department of Education**

M.A. (Educational Studies)  
H. Entwistle  
879-8443  
Option A: Philosophy of Education  
Option B: History of Education  
Option C: Educational Problems

M.A. (Educational Technology)  
P. D. Mitchell  
879-4016  
Diploma in Early Childhood Education  
M. Farrell  
879-5993  
Diploma in Instructional Technology  
D. Dicks  
879-8132

**Faculty of Engineering**

M.Eng.  
Civil Engineering  
J. C. Giguère  
879-7337  
Electrical Engineering  
A. S. Ramamurthy  
879-4079  
Mechanical Engineering  
V. Ramachandran  
879-2826  
S. Katz  
879-5878  
Mechanical Engineering  
M. Shapiro  
879-5857  
J. C. Giguère  
879-7337  
D.Eng.  

**Department of English**

M.A.  
E. Pechter  
879-4206
