</table>
Concordia University is located in downtown and west-end Montreal. The name of the University reflects its place within the community; it is drawn from the motto of the City of Montreal, "Concordia Salus".

The University has strong traditions in part-time education, and many of its students work full-time. Founded in 1974 with the merger of Loyola College and Sir George Williams University, the University offers more than 160 graduate and undergraduate programmes in four Faculties: Arts and Science, Commerce and Administration, Engineering and Computer Science, and Fine Arts. At the bachelor's level, the University offers the degrees of Bachelor of Administration, Bachelor of Arts, Bachelor of Computer Science, Bachelor of Education, Bachelor of Engineering, Bachelor of Fine Arts, Bachelor of Commerce and Bachelor of Science. Undergraduate level certificates are also awarded in a growing number of areas.

At the master's level, the University awards the degrees of Master of Arts, Master of Science, Master of Computer Science, Master of Engineering, Master of Fine Arts, Master in the Teaching of Mathematics, and Master of Business Administration.

Programmes leading to the degree of Doctor of Philosophy are offered in Administration, Art Education, Chemistry, Communication, Economics, Educational Technology, Building Studies, Civil Engineering, Mechanical Engineering, Electrical and Computer Engineering, Computer Science, History, Humanities, Physics, Psychology, and Religion.

Enrolment in the 1989-90 academic year was:

- Full-time undergraduate: 11,517
- Full-time graduate: 1,952
- Part-time undergraduate: 8,662
- Part-time graduate: 1,018
- Other (credit non-degree): 2,680

In addition to the programmes described in this calendar and in the Graduate Studies Calendar, the University offers a wide range of summer courses and programmes on both campuses. A separate publication listing summer offerings is published annually.

**Libraries**

The Concordia Library System comprises three libraries, containing a collection of more than one million items. The Science and Engineering Library on the Sir George Williams Campus, and the Vanier Library on the Loyola Campus, house the University's collection of materials on the sciences and technology. The remainder of the collection, including materials in the humanities, social sciences, fine arts, and commerce, is housed at both the Vanier Library and in Sir George Williams' Norris Library downtown. A new $40 million library complex is currently under construction downtown to house all of the Sir George Williams' library facilities. All students may use facilities on either campus.

The Library collection, which is growing at an average rate of 65,000 items per year, includes books, periodicals, government publications, technical reports, microforms, non-print (audio-visual) material, and special collections. Materials which are not found at Concordia may be borrowed through the Interlibrary Loan system, or used in another library in Montreal (upon presentation of a letter from a Concordia librarian). Through Interlibrary Loans, Concordia students also have access to the multi-million volume collection in the Center for Research Libraries. Upon request the Center will send materials from its collection to Concordia. Reference librarians will assist students in locating materials they need, whether that material is at Concordia or elsewhere.

Students wishing more complete information on their libraries, are invited to pick up a copy of *The Library Owner's Manual* which is available free of charge in all libraries.

**Laboratories and Computing Services**

The University has more than 400 laboratories on both campuses with modern equipment for teaching and research in Engineering, Computer Science, Commerce, the Pure and Social Sciences, Communications, the Humanities and Fine Arts.
The Computer Centre provides computing services to the students, researchers, library and administration of the University. Facilities include a number of mainframe class computers, several super-mini computers, more than 100 timesharing terminals, almost 200 public access personal computers, and a high-speed data communications network linking most of the facilities together. A comprehensive software library is available including numerical analysis routines, statistical processing packages, database products, simulation languages, graphics support, all widely used computer languages, text processing and many other general purpose utilities. The Centre provides around the clock computer service, and also offers consulting services during most normal University operating hours. Newsletters and handouts outlining services and facilities in more detail are available at the Computer Centre service areas located on each campus.

Art Collection and Galleries
The Concordia University collection of art is housed on both campuses. Portions of the collection are displayed in public areas of the Loyola Campus and in the galleries and display areas of the Sir George Williams Campus. The collection comprises an extensive survey of modern Canadian paintings, drawings, graphic art, sculpture and minor art. There are three main art galleries: The Weissman Gallery, Gallery One and Gallery Two, located on the mezzanine floor of the Henry F. Hall Building. There are also open-display areas on the same floor. There is a continuous programme of external exhibitions and shows by students and faculty throughout the academic year. On occasion the galleries are also used for concerts, guest lectures and other cultural events.

A fourth gallery displaying the work of Fine Arts students is located at the René-Lévesque Boulevard entrance to the Visual Arts Building.

Theatre, Music and Arts Studios
The Faculty of Fine Arts operates several performing arts facilities on the Loyola Campus, including a soon-to-be-opened state-of-the-art concert hall, seating 600; the multi-purpose, 650-seat F.C. Smith Auditorium, which is used for cinema, music, and theatre performances; and the Chameleon Theatre, a flexible teaching facility serving theatre students. Dramatic productions and musical performances on the Sir George Williams Campus are staged in the Douglass Burns Clarke Theatre, a modern, 380-seat facility in the Henry F. Hall Building.

Specialized studios and workshops for undergraduate and graduate students in the visual arts are located in the Visual Arts Building and the MF Annex, at 1230 de la Montagne Street.

Music students use ensemble rooms in the Refectory Building on the Loyola Campus, where a number of practice studios of various sizes are maintained. Performances are held in the Chapel, in the large ensemble rooms and, occasionally, in the D.B. Clarke Theatre. Dance and Theatre students use studios in the TJ Annex, located on the Loyola Campus at 7315 Terrebonne Avenue.

Audio-Visual Facilities
The Audio-Visual Department operates three equipment depots, primarily responsible for media services in teaching areas, but also providing over-the-counter sales of materials and loan of equipment to students, faculty and staff. The facilities in the Learning Laboratories, media workshops (AVISTAs), television and sound studios, preview and presentation rooms, cinemas and media library, are also available to students, faculty and staff, on an individual basis, for self-instruction, training and the preparation of presentation materials. Professional production services and consultation are available in the areas of video, sound, graphics, photography, computer controlled presentation and distance education.

The University is a member of the Quebec educational television network, CANAL, which broadcasts a variety of credit and non-credit courses, lectures, seminars and interviews on UHF Channel 29 in the Montreal region and on Cable 23 in other areas of Quebec.

Film Presentations
The University shows films in cinema halls on both campuses. At Sir George Williams, the Montréal Conservatory of Cinematographic Art, established in 1968, houses an important collection of films of historical and cultural value. Each year, it organizes a series of film festivals, which often involve appearances by important figures from the film world.

Sports Facilities
The University offers extensive programmes for participation in intramural and intercollegiate sports. Facilities include several full-length playing fields and a fully-equipped physical education centre on the Loyola Campus. The centre contains a gymnasium and an ice arena, as well as training and rehabilitation areas, an activities room, a combatives room for individual contact sports, and a weight-training room.
11 Academic Calendar

The Academic Calendar is subject to change. Updated information will be available from the Registrar’s Services Department. For dates pertaining to registration, course changes and final examinations please consult the relevant class schedule or the Registrar’s Services Department. Deadlines falling on weekends will be extended to the following Monday. For financial deadlines see Section 15.

Regular Session — 1990-1991

1990

MARCH

Thursday, March 1

Last day for applications to Undergraduate Programmes - Full-time Regular Session 1990-91.

Thursday, March 1

Last day for academic withdrawal from two-term courses and Winter-term courses.

Friday, March 16

University Writing Test.

APRIL

Sunday, April 1

Last day for submission of late-completion work for courses ending in December 1989 (application deadline February 1).

Wednesday, April 11

Last day of classes — Regular Session 1989-90.

Friday, April 13

Good Friday — University closed.

Monday, April 16

Easter Monday — University closed.

Tuesday, April 17

Examinations begin.

MAY

Wednesday, May 2

Examinations end.

Monday, May 7

See below for Summer Session 1990 calendar.

Friday, May 25

University Writing Test.

JUNE

T.B.A.

Spring Convocations.

Friday, June 15

Last day to apply for replacement and supplemental examinations for courses taken during the Regular Session 1989-90.

Friday, June 15

Last day to apply for re-evaluation of courses taken during the Regular Session 1989-90.

Friday, June 15

Last day to apply for late completion of courses ending in April 1990.

Friday, June 15

Last day to apply for degrees, diplomas and certificates for Fall 1990 graduation.

AUGUST

Wednesday, August 1

Last day for submission of late-completion work for courses ending in April 1990 (application deadline June 15).

Monday, August 13

Replacement and supplemental examinations begin — Regular Session 1989-90.

Saturday, August 18

Replacement and supplemental examinations end — Regular Session 1989-90.

SEPTEMBER

Monday, September 3

Labour Day — University closed.

Wednesday, September 5

Classes begin — Day and Evening Regular Session.

Wednesday, September 5

Course-change period begins for all Fall and Winter courses.

Friday, September 14

Course-change period ends (tentative).

Monday, September 17

Last day to apply for replacement and supplemental examinations for courses taken during the Summer Session 1990.

Wednesday, September 19

Deadline for withdrawal with tuition refund from Full-term and First-term courses.

NOTE: For the information of instructors planning assignment deadlines, class tests, etc., and for persons scheduling meetings, the dates of the major Jewish Holy Days are set out below:

- **Rosh Hashanah**
  - Thursday, September 20 and Friday, September 21, 1990.
- **Yom Kippur**
  - Saturday, September 29, 1990.
- **Sukkot**
  - Thursday, October 4 and Friday, October 5, 1990.
  - Thursday, October 11 and Friday, October 12, 1990.
- **Passover**
  - Tuesday, April 10 and Wednesday, April 11, 1990.
  - Monday, April 16 and Tuesday, April 17, 1990.
  - Friday, April 5 and Saturday, April 6, 1991.

Observance of the Holy Day commences on the preceding evening at Sunset.

### Summer Session — 1990 (Day and Evening Classes)

| MAY        | Monday, May 7                   | Full-term and First-term Summer Session begins. |
|           | Monday, May 21                  | Victoria Day - University closed. |
| JUNE      | Wednesday, June 13              | First-term Summer Session ends. |
|           | Thursday, June 14               | Mid-term Break and First-term Summer Session examination period. |
|           | Monday, June 18                 | Last Day of mid-term break. |
|           | Tuesday, June 19                | Second-term Summer Session begins. |
|           | Wednesday, June 20              | Fête Nationale - University closed. |
| JULY      | Monday, July 2                  | Canada Day - University Closed. |
| AUGUST    | Wednesday, August 1             | Full-term and Second-term Summer Session ends. |
|           | Thursday, August 2              | Full-term and Second-term Summer Session examination period. |

### Special Six-Week Summer Session — 1990 (Day Classes Only)

| JULY      | Tuesday, July 3                 | Session begins. |
| AUGUST    | Monday, August 13               | Session ends. |

   13.12.4 United States
   13.12.5 Transfers from Post-Secondary Institutions
   13.12.6 Other Countries
   13.12.7 International Baccalaureate
   13.12.8 Language Proficiency
   13.12.9 Tuition Fees for International Students
   13.12.10 Criteria for Admission
   13.12.11 Registration
   13.12.12 Student Health & Accident Insurance
   13.12.13 Financial Information
In keeping with the general principles accepted by Quebec universities, the policy of Concordia University is that admission is open to any qualified applicants in the programme of their choice, within the limits of its resources.

In the case of programmes where demand is heavy, available resources may make it necessary to limit the number of persons admitted. This means that there will, regrettably, be cases where qualified applicants must be refused. In such cases the University will accept those applicants who have the best qualifications and demonstrated potential. Concordia has a long tradition of service to adult and part-time clienteles and this service remains a vital part of its mission.

The University undertakes to give fair consideration to all applications and to inform the applicant of its decisions and the basis for them within a reasonable period of time.

Full information on admission requirements and procedures will be found in this calendar, and in various other publications such as the Admissions Guide.

The University maintains admissions offices on both of its campuses. The offices will provide application forms, as well as information about requirements and procedures. There is, however, only one centre for the processing of applications. All applications and supporting documents should be mailed to:

Concordia University
Admissions Application Centre
P.O. Box 2900
Montreal, Quebec, H3G 2S2

Qualified applicants not admitted to their preferred programme because of enrolment limits will be considered for their second choice immediately.

Applicants wishing to change Faculty should call or write the Admissions Office; they are not required to complete a second form.
13. Definitions

1. The University Year

The University year is made up of a Regular Session and a Summer Session. The Regular Session is made up of a Fall Term (September-December) and a Winter Term (January-April). The Summer Session is made up of a Twelve-week term (May-July) and a Six-week term (July-mid-August).

2. Undergraduates

Students registered in a bachelor's degree or in a certificate programme, whether on a full-time or part-time basis. Full-time students are those registered for 24 credits or more in the Regular Session (or 12 credits or more in either the Fall or Winter term with none in the other term); part-time students are those registered for fewer than 24 credits in the Regular Session (or fewer than 12 credits in either the Fall or Winter term).

3. Certificate Students

Students registered in a certificate programme, whether on a full-time or part-time basis (see §16.2.10).

4. Mature Students

Undergraduates who have not met the regular academic admission requirements, but have been admitted on the basis of age, experience and potential (see §14). Mature students may study on a full-time or part-time basis.

5. Extended Credit Programme Students

Students registered in an extended programme, normally requiring a minimum of 120 credits, designed for students entering from secondary institutions outside Quebec. (See relevant Faculty section.)

6. Visiting Students

Undergraduate students from other universities who have written approval from their home university to take courses at Concordia University, or students currently registered in certain certificate programmes sponsored by external associations (e.g. programmes in the Faculty of Commerce and Administration). (See §13.10)

7. Independent Students

Students not seeking a degree or certificate (see §13.11).

8. Residence Requirement

The minimum number of credits which must be taken at Concordia University to obtain a degree or certificate awarded by the University (see §16.1.5).

13.3 Faculties and Degrees

FACULTY OF ARTS AND SCIENCE - §31
Bachelor of Arts (BA)
Bachelor of Education (BEd)
Bachelor of Science (BSc)

FACULTY OF COMMERCE AND ADMINISTRATION - §61
Bachelor of Administration (BAdmin)
Bachelor of Commerce (BComm)

FACULTY OF ENGINEERING AND COMPUTER SCIENCE - §71
Bachelor of Computer Science (BCompSc)
Bachelor of Engineering (BEng)

FACULTY OF FINE ARTS - §81
Bachelor of Fine Arts (BFA)

Bachelor's degrees, other than the Bachelor of Engineering, normally require successful completion of 90 credits, or 108 credits in the case of mature students (see §14), or 120 credits in the case of students admitted to the Extended Credit Programme (See §13.2 for definition and appropriate Faculty section for details on requirements.) (See §16.1.2 for the definition of credit.) For students registered full time, 30 credits constitute the normal workload in the Regular (Fall/Winter) Session. The number of credits required for the degree of Bachelor of Engineering varies according to the option chosen and the previous preparation of the student, but is usually no less than 115 (see Section 71). Information regarding the normal workload in the Regular Session in the Faculty of Engineering and Computer Science is specified in the Faculty's Programme Guide.

13.4 Admission Requirements

13.4.1 APPLICANTS FROM QUEBEC INSTITUTIONS

Successful completion of a two-year pre-university programme in a CEGEP, with the award of a Diploma of Collegial Studies (DEC) (or the equivalent), including the specific courses required by the various programmes ("profil"). These "profils" are listed in the Department of Education booklet "Accueil 90 - Structures d'accueil aux études universitaires de premier cycle". For the convenience of applicants, requirements are listed in the various Faculty sections of this calendar. Applicants who have completed a professional programme in a CEGEP are also admissible to the University.

Students admitted to a particular programme at the University and who subsequently wish to change to another programme may have to complete specific prerequisites in addition to their regular programme requirements.
13.4.2 APPLICANTS FROM OTHER CANADIAN PROVINCES

Students from provinces and territories other than Quebec who have completed the final year of high school in academic subjects appropriate to the degree programme which they wish to enter may be considered for admission to the first year of the Extended Credit Programme (ECP). The Extended Credit Programme is designed for graduates of secondary schools outside Quebec and requires completion of 30 credits in addition to the regular 90-credit (three-year) degree programme (120 credits in total). While the duration of a degree programme is normally four years, the Bachelor of Engineering degree will, in general, require five years of full-time study to complete.

While no set pattern of high school courses is required, the courses presented should be appropriate for the degree programme sought. A minimum overall average of 65% is required in academic subjects taken in the final year. Higher averages may be required for admission to individual programmes in which the demand for places by qualified applicants exceeds the number of places available in those programmes.

Students completing the following levels of education may be considered for entry to the Extended Credit Programme.

Ontario

Applicants must present the Secondary School Honour Graduate Diploma (SSHGD) or the Ontario Secondary School Diploma (OSSD) with a minimum overall average of 65% in six appropriate Honour Graduation Courses or Ontario Academic Courses (OACs). The SSHGD and the OSSD will be given equal consideration for admission purposes.

Students entering programmes in the Faculty of Arts and Science or the Faculty of Fine Arts will be awarded six credits for each Grade 13 or OAC course in the humanities or social sciences with a minimum passing grade of 70%, up to a maximum of 30 credits. The policy regarding the awarding of credits is subject to review on an annual basis.

Other Provinces

Alberta and Northwest Territories Grade 12
British Columbia and the Yukon Grade 12
Manitoba Grade 12
New Brunswick Grade 12
Newfoundland Grade 12
Nova Scotia Grade 12
Prince Edward Island Grade 12
Saskatchewan Grade 12

13.4.3 TRANSFERS FROM OTHER UNIVERSITIES

Transfer applications are considered individually, on their merits. Applicants transferring from other accredited universities will be considered for an appropriate level of placement within the undergraduate programme at this University. (For Engineering see §13.3). There are some special conditions attached to the granting of transfer credits.

The number of credits awarded depends on the character, quality and quantity of the work completed. Applicants who have attended another university and wish to transfer to an undergraduate programme at Concordia should understand the following conditions:

1. Students will not be given credit for courses taken in another university during the same academic term in which they have registered for courses at Concordia University, unless special permission has been obtained in advance from this University. The Admissions Office should be contacted for information on the correct procedure.

2. Students currently registered at this University wishing to take a course at another university during a different academic term—for example, the Summer—must get prior approval. The Admissions Office should be contacted for information on the correct procedure.

3. Students may not apply transfer credits towards the residence requirements at the University (as set out in the following paragraph) unless special permission has been obtained from the appropriate Faculty Council.

4. Out of the total number of credits required for a bachelor’s degree, a minimum of 45 credits must be taken at Concordia University for all bachelor’s degrees except that of the Bachelor of Engineering, where the minimum is 60 credits. Unless otherwise authorized by the Faculty to which the student has been admitted, these will be the last 45 credits (or the last 60 in the case of the Bachelor of Engineering).

5. The proportion of degree credits which must be taken at Concordia University in honours, specializations, majors, minors or other elements of concentration will be determined by individual Faculties but should not be less than 50%.

6. The Admissions Office, in consultation with the four Faculties, is responsible for the processing of pro-tanto credits.

13.4.4 TRANSFERS FROM OTHER POST-SECONDARY INSTITUTIONS

Credits obtained in junior colleges, community colleges, or Colleges of Applied Arts and Technology outside Quebec will, in general, be given the same recognition towards undergraduate programmes as they would receive in their respective province.
13.4.5 EXEMPTIONS AND PRO-TANTO CREDITS

The award of "pro-tanto credits" means that a course previously taken in another institution, or, in some cases, in another type of Concordia programme, is being counted towards a Concordia degree programme, or programme of concentration within that degree programme. Pro-tanto credits are normally specific (e.g. pro-tanto credit for Concordia course "x" is given for course "y" taken at another university) but they may be general, where the work done elsewhere is a valid part of an individual student's programme but does not correspond exactly to Concordia divisions of course content.

"Exemption" covers any case where it is recognized that a student has in one way or another covered the work of a course required in a Concordia programme, with an appropriate level of performance. In such cases students will replace the course from which they have been exempted with another course. Faculty or departmental regulations will indicate the nature of the replacement course—for example, another course in the same field, a restricted elective (e.g., "six credits in history or political science") or an open elective.

13.4.6 APPLICANTS FROM OUTSIDE CANADA

Academic qualifications presented by Canadian students applying from institutions outside Canada should be comparable to those expected of students applying from within Canada.

International applicants from institutions outside Canada are referred to §13.12.

13.5 Application For Admission

It is recommended that application for admission be made as early as possible on forms provided by the Admissions Office. Academic certificates and other supporting documents not available at the time of application must be submitted as soon as they become available. (Applicants enrolled in a CEGEP should refer to §13.6.1.) Arrangements should be made with the institution concerned to send directly any university transcripts, or where applicable, CEGEP transcripts. Where it is required, applicants will provide an official high school transcript showing courses and grades. Applicants who submit a certificate in a language other than English or French should attach a certified translation into either English or French. If the certificate does not detail the subjects taken and the grades achieved, a certified statement of these from an authorized official of the institution should also be appended.

Applicants are advised to apply early in order to allow sufficient time for evaluation and review of their applications by the Admissions Office.

13.5.1 APPLICATION FEE

An application must be accompanied by an application fee of $15 (Canadian), payable by certified cheque or money order to Concordia University. It is not refundable under any circumstances nor will it be applied towards tuition fees. This fee is not transferable to a session other than that to which the student has applied. Applications not accompanied by a certified cheque or money order of $15.00 will not be processed.

13.5.2 APPLICATION DEADLINE DATES

Full-Time

March 1 and November 1 are the application deadline dates normally set for the Fall and Winter terms respectively. Late applications are considered wherever appropriate. Further information can be obtained from the Admissions Office.

Part-Time

Applications should be submitted well before the start of term to allow sufficient time for evaluation and notification. Candidates for the Fall and Winter terms should apply before July 15 and November 1. Final dates for the receipt of applications can be obtained from the Admissions Office.

N.B.: Part-time applicants to the Faculty of Fine Arts should apply before March 1.

Full-time or part-time applicants for entry to the Summer Session should contact the Admissions Office for information on deadlines.

13.5.3 ENTRY DATES

September is the normal point of entry to full-time and part-time studies. Entry in January or in the Summer Session is limited to certain programmes only. In some cases, entry in January may require the completion of courses in the subsequent Summer Session.

The normal entry date for International students is September.

13.5.4 JANUARY ADMISSION

New students are admitted in January where places are available. It should be noted that not all programmes are offered for the January Session. Admission in January has been introduced primarily to accommodate December graduates of Quebec CEGEPs, but is not restricted to this group.

The normal course load in the Winter Term (January - April) is 15 credits. Up to a maximum of 12 credits may be taken in the Summer Session. In some cases, January entrants are required to take summer courses.

International students, other than those applying from CEGEP, are admitted in January in exceptional cases only.
13.5.5 ADMISSION DEPOSIT
Applicants who have been granted admission to full-time studies and to certain high-demand part-time programmes are required to submit a cheque or money order for $50 (Canadian) to confirm their intention to enter the University. This admission deposit is non-refundable, but will be applied towards tuition fees at the University.

Applicants who receive an early conditional acceptance, but who are subsequently refused admission because they have not completed the minimum academic requirements for entrance, will have their admission deposit refunded.

13.6 Required Documents

13.6.1 CEGEP APPLICANTS
All applicants should submit, at the time of application, or as soon thereafter as possible, a student copy of their CEGEP transcript. This transcript should show their record to date, including grades for all courses followed during the previous terms. In addition, there should be an accompanying list of courses in progress. Applicants are responsible for ensuring that the student copy is both accurate and complete.

1. Currently Enrolled CEGEP Students
In the case of applicants currently enrolled in a CEGEP, the University will obtain their most recent CEGEP record of study (the results of the previous terms, together with a list of courses being followed during the final term) from CREPUQ, (Conférence des recteurs et des principaux des universités du Québec). The CEGEP records will be acquired on one of several scheduled dates. Applicants should therefore complete the application forms as early as possible in order to avoid delay in the transfer of the CEGEP record. The "code permanent", which is the educational code number for Quebec students, must be correctly entered on the application form as this identification number is used to obtain the CEGEP transcript. A copy of the computerized CEGEP record will be issued to the applicant for verification.

Final transcripts are obtained by the Admissions Office as soon as they are available.

2. Former CEGEP students
Former CEGEP students who are not attending CEGEP because they have graduated or have discontinued their CEGEP studies must arrange for their former CEGEP to send the transcript of their grades directly to the Admissions Application Centre.

13.6.2 OTHER APPLICANTS
All secondary and post-secondary scholastic records must be submitted. It is your responsibility to ensure that an official copy of your transcript, in English or French, is forwarded directly to the Admissions Application Centre by the institution which you previously attended and/or at which you are currently registered. (Although your records from several institutions may be summarized on one transcript, an application will not be considered until an official transcript from EACH institution attended has been received. These are required even though no credit may have been earned.)

If you are currently enrolled at an institution, you must also submit the results of previous terms together with a list of courses in which you are currently registered. An official transcript which includes the results of the final semester must be forwarded as soon as possible. All documents must be originals or appropriately certified copies. Uncertified copies are not acceptable.

If you submit certificates in a language other than English or French you must also attach a notarized translation into either English or French. If the certificate does not detail the subjects taken and the grades achieved, a certified statement of these from an authorized official of the institution should also be appended.

13.6.3 OTHER DOCUMENTS
Canadian Citizens/Permanent Residents (Landed Immigrants) are required to provide documentary proof of their status in Canada. This must be done by submitting a photostatic copy to the Admissions Office of one of the following documents:

Canadian Birth Certificate
Canadian Baptismal Certificate,
(indicating place of birth)
Citizenship or Permanent Resident
(Landed Immigrant) papers
Canadian Passport; Affidavit

The following documents are not considered acceptable:

Driver's Licence
Medicare card
Social Insurance Number card

13.6.4 ALL APPLICANTS
Applicants are required to declare and submit all pertinent academic records when applying for admission. Applicants who have failed to disclose an academic record at the time of application may have
their acceptance or registration cancelled. Academic records undeclared at the point of application and subsequently submitted will not be used to upgrade a student’s placement level.

13.7 Language Proficiency

All students entering bachelor’s degree programmes must give proof of acceptable writing skills as a condition of graduation. The only exceptions are those already tested prior to admission (see below). The graduation requirement may be met either by passing the University Writing Test or by obtaining a specific grade in a designated language course (see §16.2.11).

The language of instruction at Concordia is English, with a few specific exceptions, but assignments and examinations, again with a few exceptions, may be submitted in French. The graduation requirement may therefore be satisfied in either English or French.

Applicants whose first language is neither English nor French and who fall into the following categories must also pass the University Writing Test or obtain a specific grade in a designated language course:

1. Applicants holding a Quebec Diploma of Collegial Studies, or the equivalent, from an English- or French-language system.
2. Applicants who have obtained an “O”-level pass in English language in the General Certificate of Education, or the equivalent.
3. Applicants for Mature Entry or for admission to the Extended Credit Programme who have taken the last two years of full-time schooling in an English- or French-language system. The Admissions Office reserves the right to resolve any doubtful cases arising from the nature of such schooling.

Other applicants whose first language is neither English nor French must demonstrate their proficiency in English for admission purposes and must be tested in English writing skills prior to the point of entry by taking one of the following:

1. Concordia English Language Diagnostic Test
   a) Persons applying from within the Montreal area who are required to write an English language test will automatically be scheduled to sit for the Concordia English Language Diagnostic Test upon making application to the University.
   b) An application will not be considered complete until these test results have been received.
   c) A testing fee of $20.00 is required of all who write the Concordia English Language Diagnostic Test. Further information concerning the payment of this fee will be provided when applicants are scheduled to write the test.

2. Test of English as a Foreign Language (TOEFL) or The University of Michigan English Language Test
   (For applicants from outside the Montreal area)

   These tests are administered in most countries of the world. It is the responsibility of the applicant to write directly to the appropriate address listed below for the necessary application forms and information.

   Test of English as a Foreign Language
   Educational Testing Service
   Box 6154
   Princeton, New Jersey 08541-6154

   U.S.A.

   REPORTING OF TOEFL OR UNIVERSITY OF MICHIGAN TEST RESULTS
   a) To ensure that your TOEFL results are forwarded directly to Concordia University, you must indicate the “Institution Code” at the time of writing the test: 0956.
   b) The results must be reported directly to the Admissions Office by the TOEFL or University of Michigan Test Centre. Candidate copies of results or results that are more than two years old at point of review will not be acceptable as proof of language proficiency.
   c) An application will not be considered before the test results have been received. Applicants should therefore contact the TOEFL or University of Michigan Test Centres as soon as possible in order that the date of receipt of test results does not delay or prevent consideration of their application.

   Applicants attaining the prescribed level in one of the above tests will be considered to have met the graduation requirement. Those otherwise admissible but who have attained a lower but marginally acceptable level will be required to take specific courses in English as a Second Language (ESL). In the latter case, the required ESL courses will be indicated in the letter of acceptance, and successful completion of ESL 209 with a grade of C- or better will satisfy the graduation requirement.

13.8 Selection Process and Notification

Admission to undergraduate studies is based on a careful review of all credentials presented on behalf of a candidate. An application for admission is not given final consideration until all the required items have been submitted. However, the University does have an early conditional admission plan (see below). The University reserves the right to refuse admission to or registration in a particular programme even when the stated requirements for entrance have been satisfied.
13.8.1 EARLY CONDITIONAL ADMISSION
Applicants seeking admission to undergraduate programmes may be granted conditional acceptance on the basis of former records of study. Such records should include mid-year results for the current year. Final admission is contingent upon successful completion of the final term or semester of study and satisfaction of the prescribed academic admission requirements. Candidates granted early conditional admission are in general notified before May 15.

13.8.2 LIMITED ENROLMENT
In some programmes the number of qualified applicants may exceed the number of places available. Possession of the stated requirements does not in itself guarantee admission to a particular programme.

13.9 Mature Entry
Information on Mature Entry will be found in §14.

13.10 Admission as a Visiting Student
Persons in the categories listed below may apply for Visiting Student status by contacting the Registrar's Services Department. In no case can students so admitted be guaranteed a place in a given course.
1. Students currently registered in certain certificate programmes sponsored by external associations (e.g. programmes in the Faculty of Commerce and Administration). Documentation: proof of membership in the association and citizenship documents. (See §13.6.3)
2. Undergraduate students from other universities who have written approval from their home university to take courses at Concordia University. Documentation: a letter from the Registrar of the home university and citizenship documents (See §13.6.3) or Student Visa.

13.11 Admission as an Independent Student
Persons wishing to take individual courses without committing themselves to a degree or certificate programme may register, if qualified, as Independent students, provided that they are Canadian Citizens, Permanent Residents (Landed Immigrants) or holders of a diplomatic visa. Independent students register for courses once all undergraduate students have selected their courses. In no case can an Independent student be guaranteed a place in a given course. Persons should apply for Independent student status by contacting the Admissions Office. They should bring with them evidence of having met university entrance requirements and citizenship documents. (See §13.6.3.) This evidence will be evaluated by the Admissions Office. There are two categories of Independent student:
1. those meeting regular admission requirements.
2. those meeting Mature Entry age requirements (see §14), and who can satisfy the University that they have, through other experiences, acquired the necessary background for the course(s) for which they wish to register.
NOTE: Independent students must satisfy the University that they have completed prerequisite courses where required.
Independent students wishing to subsequently enter a degree or certificate programme must apply to the Admissions Office. Credits acquired by Independent students may subsequently be applied towards a degree or certificate if appropriate. In the case of the Faculty of Arts and Science, an Independent student may apply a maximum of 30 credits towards a degree.
Please refer to §16.4 for course load regulations which apply to Independent students.

13.12 Information of Special Interest to International Students
13.12.1 APPLICATION FEE
International applicants must include a $15 application fee payable by International money order or draft drawn on a Canadian Bank in Canadian funds to Concordia University.

13.12.2 IMMIGRATION PROCEDURES
Since Canada has two levels of Government, Federal and Provincial, all persons, other than Canadian citizens and Landed Immigrants, who wish to pursue their studies in Quebec, must obtain a Québec Certificat d’acceptation (Certificate of Acceptance) and a Federal Student Authorization before proceeding to Canada. The Certificat d’acceptation must be obtained before the Canadian Immigration Services can issue a Student Authorization. As it may take several months to obtain the Student Authorization, the application process should be started immediately upon receipt of the letter of admission from Concordia University.

13.12.3 ADMISSION REQUIREMENTS
Candidates applying from other countries who have achieved university admission level will be considered for admission provided that better than average grades have been attained. In most cases, a specific minimum overall standard on certificates is required. The school-leaving courses presented should be appropriate for the degree programme to which application has been made. Some programmes have additional requirements, e.g. audition, interview, portfolio. Since entry to many programmes is
limited, the satisfaction of minimum requirements does not guarantee entry to the University. More specific information with respect to admission requirements and placement levels may be obtained by writing to the Admissions Office.

Depending on the particular certificate, applicants are considered for entry to three-year (90 credits) or four-year (120 credits) degree programmes. The number of credits required for the Bachelor of Engineering Degree varies according to the option chosen and the previous preparation of the student, but is usually no less than 115.

United Kingdom and Commonwealth

Passes awarded in the examinations for the General Certificate of Education, The Cambridge Overseas and Higher School Certificates, The West African School Certificates, General Certificate of Education, or the equivalent, will be considered as satisfying the general entrance requirements if the conditions of either Scheme A or Scheme B are satisfied.

Scheme A: Passes in five subjects of which at least two must be passed at the Advanced Level (G.C.E.) or Principal Level (C.O.H.S.C.), and three at the Ordinary Level or the School Certificate Level.

Scheme B: Passes in four subjects of which at least three must be passed at the Advanced Level (G.C.E.) or Principal Level (C.O.H.S.C.), and one at the Ordinary Level or the School Certificate Level.

Some additional information attached to the fulfilment of the above schemes:

a) An average grade of D or better in Advanced or Principal Level subjects is normally expected. In the case of certain quota programmes where enrolment is limited, candidates will have to present higher grades in order to compete successfully for places at the University.

b) Two appropriate AS (Advanced Supplementary) Levels may be accepted in lieu of an Advanced Level for the purposes of satisfying the general entrance requirements of the University.

Some programmes have specific subject requirements. These have been outlined below. The following indicates, by degree, which Advanced or Principal Level subjects are required.

BAdmin, BComm, BSc -- Mathematics and one other acceptable subject

BA, BEd, BFA -- Any two acceptable subjects

BEng -- Mathematics and Physics

BCompSc

General Science -- Mathematics and Physics
Information Systems -- Mathematics and any other acceptable subject
Software Systems -- Mathematics and Physics
Systems Architecture -- Mathematics and Physics
Theoretical Computer Science -- Mathematics and Physics

Students who have not written Advanced or Principal Level examinations but who have good grades in at least five acceptable Ordinary Level or School Certificate Level subjects plus one year of formal schooling beyond Ordinary Level, in a suitable academic programme in a recognized school or college, may be considered as satisfying the general entrance requirements of the University.

Students who have successfully passed Advanced Placement examinations in appropriate subjects with a grade of "3" or better may be granted some advanced standing.

13.12.4 UNITED STATES

High School graduates with high standards from accredited schools who have followed an academic programme designed for university entrance may apply for admission to an extended undergraduate programme of approximately 120 credits.

Applicants are required to have a better than average school record and high ranking in their graduating class. While no set pattern of courses in high school is required all applicants are expected to have taken four units of English. Those applying for admission to Science and Engineering must include three or four units in mathematics and two in the sciences. At least three units of mathematics are recommended for admission to Commerce and Administration.

Students who have successfully passed Advanced Placement examinations in appropriate subjects with a grade of "3" or better may be granted some advanced standing.

13.12.5 TRANSFERS FROM POST-SECONDARY INSTITUTIONS

Transfers from post-secondary institutions are referred to §13.4.3.
13.12.6 OTHER COUNTRIES
Candidates applying from other countries who have achieved university admission level will be considered for admission provided that better than average grades have been attained. In most cases, a specific minimum overall standard on certificates is required. More specific information with respect to admission requirements and placement levels may be obtained by writing to the Admissions Office.

13.12.7 INTERNATIONAL BACCALAUREATE
IB Diploma candidates who achieve passes in six subjects with three at the Higher level and who obtain a minimum total of 27 points may be considered for admission to the regular undergraduate programmes of study.

13.12.8 LANGUAGE PROFICIENCY
The language of instruction at Concordia University is English. For information regarding this requirement refer to §13.7

13.12.9 TUITION FEES FOR INTERNATIONAL STUDENTS
International students registering at Concordia University are required to pay $200.65 (Canadian) tuition per credit. The fees payable to the University for the regular session of two terms running from September to April are approximately $8,100 for a full-time student. This amount includes the tuition fees for 30 credits, student service fees, and student association fees. The total amount will vary up or down proportionately, depending on the number of credits being taken. A compulsory health insurance fee of approximately $335 is also required. Further information regarding fees will be found in §15 of this calendar.

The following students are among those exempted from paying differential fees (at the time of going to press):
1. Diplomats, consular personnel, duly accredited representatives or civil servants of a foreign country, the United Nations or of one of its organizations, of an intergovernmental organization to which Canada belongs or any member of the staff of the above-listed persons who are working in Canada in an official capacity.
2. The spouse and unmarried children of the above-listed persons.
3. Students who are duly registered at a university and who have come to Quebec as either exchange students or within the framework of a programme of cooperation agreed to by the government of Quebec and which exempts the participants from paying differential fees.
4. A student who is a Citizen of France (accord cadre France-Quebec).
5. A student who is duly admitted to a Quebec university and whose country has a fee remission agreement with the Quebec Government. As of February 1, 1989 the Government of Quebec has agreements for granting a limited number of exemptions from the differential tuition fees for International Students from the following countries: Algeria, Argentina, Benin, Bolivia, Brazil, Burkina Faso, Burundi, Cameroon, Central African Republic, Chad, China, Columbia, Comoros, Congo, Costa-Rica, Côte d’Ivoire, Djibouti, Ecuador, Gabon, Guinea, Haiti, Honduras, Kenya, Korea, Lebanon, Madagascar, Mali, Mauritania, Mauritius, Mexico, Morocco, Niger, Panama, Peru, Rwanda, Senegal, Togo, Tunisia, Uruguay, Venezuela, Zaire. Inquiries and application for an exemption from the differential fees should be made directly to the person’s own Ministry of Education prior to leaving their home country.
6. Students who are duly registered at a university and whose status as convention refugees has been recognized.
7. Students who are duly registered at a university in a programme of studies which is specifically exempted by the Ministry of Education.

At Concordia University, this refers to: Honours in Littératures de langue française; Specialization in Littérature de langue française; Major French Studies - Language Option; Teaching French Option; Certificate in Teaching French as a Second Language to Adults; École française d’étété.
8. The spouse and unmarried children of a person bearing certain work permits: For further details please contact the Registrar’s Office.

These regulations are subject to change at the beginning of every academic year. Those listed above were those in effect for the 1989-90 academic year.

13.12.10 CRITERIA FOR ADMISSION
Admission to Concordia University is selective and will be considered when all relevant academic certificates have been received, as well as the Summary of Educational Experience form. All certificates must show the actual grade obtained in each examination.

13.12.11 REGISTRATION
Regular registration for the September and January terms normally takes place in mid-August and mid-December respectively. For those students entering in September who live within reasonable traveling distance of the University, early registration is also possible. International students must enrol on the dates indicated in their letter of acceptance. Late registration is not normally permitted. Complete information regarding registration is sent with the letter of acceptance.

13.12.12 STUDENT HEALTH AND ACCIDENT INSURANCE
International students are not eligible to receive any medical benefits from the Quebec Medicare Programme. To offset possible medical expenditures, it is necessary to have some form of sickness and accident insurance, and for this reason, a compulsory plan for all entering International students has been adopted by the University.
13.12.13 FINANCIAL INFORMATION

When applying for the Québec Certificat d’acceptation and the Canada Student Authorization, the International student will be required to present evidence of sufficient funds for tuition and living expenses before being admitted to Canada.

Please note that Canada Immigration regulations allows International Students to work on the University campuses only. If a student is accompanied by his or her spouse, Canada Immigration will allow the spouse to work on or off campus. However, if the spouse is also an International student he or she will be restricted to on-campus jobs only.

Temporary employment will not, however, be considered as a source of funding. Moreover, the University is not obliged to find temporary employment for students as part-time positions are also sought by Canadians and Landed Immigrants.
SECTION 14
MATURE ENTRY

14.1 GENERAL INFORMATION

14.2 CENTRE FOR MATURE STUDENTS

14.3 ADMISSION AS A MATURE STUDENT

14.4 PROGRAMME REQUIREMENTS
   14.4.1 Faculty of Arts and Science
   14.4.2 Faculty of Commerce and Administration
   14.4.3 Faculty of Engineering and Computer Science
   14.4.4 Faculty of Fine Arts

14.5 CHOICE OF ELECTIVES

14.6 PROGRAMMES OF STUDY FOR SENIOR STUDENTS
   14.6.1 Senior Scholarships
14 Mature Entry

14.1 General Information

Concordia has for many years made it possible for men and women of 21 years of age or over to undertake work towards university degrees and certificates, although they lack the normally required pre-university schooling. Mature entrants are expected to demonstrate the potential to follow undergraduate courses, and are required to complete successfully additional credits over and above those required of students who enter with the regular qualifications. Mature entrants are, however, considered and treated in every way as undergraduates.

Normally, mature entrants must complete at least 18 credits of additional work. These additional credits are designed with a view to making it possible for mature entrants to make the best use of the studies which they subsequently undertake.

Within these 18 initial credits a maximum of six credits may be counted towards the student’s eventual concentration (honours, major, etc.). Requirements are set by each individual Faculty, in terms of the programme to be undertaken (see below, Section 14.4).

Students should also see Section 13.7 of this Calendar regarding Language Proficiency Testing.

14.2 Centre for Mature Students

Director
MARY BRIAN, Associate Professor, Mathematics

Associate Director
G.B. ENGLISH, Associate Professor, Finance

Fellows
B. BARBIERI, Assistant Professor, Marketing
L. BOYLE, Associate Professor, Finance
R.T. CRONIN, s.j., Associate Professor, Biology
A. DUTKEWYCH, Assistant Professor, Sculpture, Ceramics and Fibres
R. GUY, Associate Professor, Centre for Building Studies
W.R. HOOPER, Associate Professor, Psychology
A.M. KETTER, Associate Professor, Modern Languages and Linguistics
F. MacLEOD, Associate Professor, Biology
E.B. MARKLAND, Associate Professor, Accountancy
J. MILLER, Sessional Lecturer, English
S.R. PAIKOWSKY, Associate Professor, Art History
G.C. TAGGART, Professor, Études françaises

To advise and assist both prospective and enrolled students in dealing with academic requirements and other problems, the University maintains a Centre for Mature Students with offices and facilities on both campuses.

The primary aim of the Centre for Mature Students is to develop services to students returning to formal studies after an absence of many years.

The Centre has Fellows chosen from a cross-section of faculty members especially interested in the problems encountered by adults working towards a degree. Fellows of the Centre will be on hand at appointed times to offer advice and information on such matters as the choice of initial courses at the outset of studies and the variety of Concordia’s programme offerings.

It is the intention of everyone involved in the work of the Centre to provide mature students with a sense of belonging and thus help them gain the self-confidence so necessary for successful university work.
The Centre will be open from 9:00 a.m. to 8:30 p.m., Monday through Thursday, and from 9:00 a.m. to 5:00 p.m. Friday. The Centre for Mature Students has two locations, as follows:

The Sir George Williams Campus
Hall Building
1455 de Maisonneuve Boulevard W.
4th Floor, Room H-462-11
Tel: 848-3890

The Loyola Campus
Central Building
7141 Sherbrooke Street W.
4th Floor, Room AD-424
Tel: 848-3895

14.3 Admission as a Mature Student

The admission of applicants for mature entry is subject to the following conditions:

1. Applicants must have reached the age of 21 by August 1, December 1 or April 1, of a given year, to enter the University in the following September, January or May respectively;
2. Although not meeting the normal academic requirements for admission (Québec Diplôme d'études collégiales or the equivalent), applicants must satisfy the University that they have the potential to undertake undergraduate courses; those who have the Québec Diplôme d'études collégiales should contact the Admissions Office;
3. Applicants must have been out of school — that is not engaged in full-time study — for at least 24 months since attaining the age of 18. Applicants who have been out of school for only 12 months are also admissible provided that they have had no unfavourable academic record in the previous 24 months;
4. Applicants must be Canadian Citizens or Permanent Residents (Landed Immigrants).

Applicants must submit a birth certificate or other acceptable proof of age, together with school records and any material which may indicate ability to pursue university studies. (§13 provides general information on how to apply for admission.)

14.4 Programme Requirements

NOTE: As certain courses may require prerequisites, students should consult this Calendar and the appropriate Faculty regarding these.

14.4.1 FACULTY OF ARTS AND SCIENCE

ARTS

For those students wishing to pursue a degree or certificate programme in Arts (including Education; Teaching of English as a Second Language, or the General Certificate in Arts and Science) the following additional credits are required:

18 credits chosen with the approval of the Centre for Mature Students prior to registration.

NOTE: Certain departments in the Faculty have specific requirements, which will take up some or all of the initial 18 credits. The departments below require students to include specific courses as part of their 18 additional credits:

Mathematics (BA)
MATH 203, 204, 205
(Note: Students not having MATH 202 or the equivalent must include it in their 18 credits.)

Psychology (BA)
PSYC 200
BIOL 206 or 201
3 credits in Mathematics (in preparation for statistics) taken in consultation with the Centre for Mature Students.

SCIENCE

For those Mature Entry students pursuing a degree in Science the following courses must be included within their 108-credit requirement:

6 credits in Chemistry selected from CHEM 205, 206
9 credits in Mathematics selected from MATH 202, 203 and 205*
8 credits in Physics: 204, 205, 224, and 225
3-4 credits from: PHYS 206 and 226, or BIOL 201, or GEOL 210**

Students must consult with advisers of the Centre for Mature Students before registering particularly with regard to the sequencing of the above credits in the BSc degree. Consultation with the Centre for Mature Students is also necessary in the choice of the 18 additional credits required in the case of a certificate.

*Students not having MATH 201, or the equivalent, must take it in place of one of their elective courses.

**Students intending to enter programmes of concentration in the departments of Biology, Exercise Science or Psychology should take BIOL 201.

14.4.2 FACULTY OF COMMERCE AND ADMINISTRATION

For entry to degree programmes in Commerce and Administration, mature entry
students must include the following within their 108-credit requirement:

9 credits in Mathematics: 208³, 209³ and 211³
9 elective credits, appropriate for the student's intended programme.

Requirements for certificate programmes are listed with the programme descriptions in §61 of this Calendar.

14.4.3 FACULTY OF ENGINEERING AND COMPUTER SCIENCE

ENGINEERING
Mature entrants to the Bachelor of Engineering degree, which requires completion of a minimum of 115.5 to 118.5 credits depending on the programme chosen, are also required to complete a minimum of 18 credits beyond the normal requirements for their programme, including the following courses:

a) Building, Civil, Industrial and Mechanical Engineering:
   - CHEM 205³
   - MATH 202³, 203³, 204³, 205³
   - PHYS 204³, 205³, 224¹, 225¹
   - COMP 201³

   It is expected that students admitted after 1989 will also be required to complete six credits chosen from courses in the humanities and social sciences if they do not have credit for such courses at the post-secondary level.

b) Electrical and Computer Engineering:
The courses specified in a), plus PHYS 206³

Mature entrants to the Certificate in Quality Control are required to complete a minimum of 18 credits beyond the normal requirements of the programme, including the following courses:

- MATH 202³, 203³, 204³, 205³
- COMP 201³

*In all programmes, some students may require one or more of MATH 200¹ and 201³ as determined by the Faculty, and/or courses in English as a Second Language, as determined by language proficiency testing.

COMPUTER SCIENCE
Mature Entry students accepted to the Bachelor of Computer Science must include in their degree programme (minimum 108 credits) the following courses:

a) Information Systems Options:
   - MATH 202³, 203³, 204³, 205³
   - COMP 201³

b) Other Options:
The courses specified in the Information Systems Option above, plus
   - CHEM 205³
   - PHYS 204³, 205³, 224¹, 225¹

Depending on the option chosen, up to 6 of the credits listed above may be applied towards the elective component of the regular degree programme.

*In all options, some students may require one or more of MATH 200¹ and 201³ as determined by the Faculty, and/or courses in English as a Second Language, as determined by language proficiency testing.

14.4.4 FACULTY OF FINE ARTS

For mature entry to degree and certificate programmes in Fine Arts:

18 elective credits appropriate for entry into the student's ultimate area of concentration in the Faculty of Fine Arts, and chosen with the approval of the faculty adviser.

14.5 Choice of Electives

Electives will be chosen in consultation with faculty advisers — through the Centre for Mature Students in the case of Arts and Science. They will normally be at the introductory level, depending on the background of the individual student and the programme of concentration to be undertaken.

In the Faculty of Fine Arts courses will be selected from a list available from the Student Affairs Office of that Faculty.

14.6 Programmes of Study for Senior Students

In keeping with its commitment to lifelong learning and community service, Concordia University offers two programmes in the Faculty of Arts and Science for Senior students at significantly reduced fees ($2.00 per credit):

1. Students age 60 and older who wish to attend undergraduate courses in the Faculty of Arts and Science for interest's sake, but who do not wish to enrol for credit, may register in a maximum of six (6) credits per academic year as Independent Senior Auditors. Such students are not required to write class assignments or final examinations. This is a special exemption from the regular grading policies.
2. Students age 65 and older may take undergraduate courses for credit in the Faculty of Arts and Science as Independent Students.

NOTE: Students age 65 or over and wishing to pursue an undergraduate degree programme may not, however, take advantage of the reduced tuition fee and must pay regular tuition.

Both Senior programmes are administered by the Centre for Mature Students.

14.6.1 SENIOR SCHOLARSHIPS

Five senior scholarships are offered each year. They are worth $500 a year and may be renewed for up to four years. To be eligible, candidates must be at least 60 years old, and enrolled in a minimum of 12 credits in an undergraduate or graduate programme. Educational background and life experience are taken into account in awarding these scholarships.
TUITION AND FEES

15.1 TUITION AND FEES

15.2 PAYMENT OF TUITION AND FEES

15.3 CANCELLATIONS—WITHDRAWALS—ADJUSTMENTS
15 Tuition and Fees

15.1 Tuition and Fees

The University reserves the right to change the published scale of fees without prior notice, and at any time before the beginning of the upcoming academic year.

Tuition fees, for all undergraduate courses, are based on a per credit charge as listed below:

Canadian and other students with Permanent Resident (Landed Immigrant) status:
- Undergraduate: $15.00
- Independent: $20.00
- *Former International students: $145.00
- *New International students: $195.00

*Certain International students may be eligible to pay the same fees as Canadian students. Detailed information may be obtained from the Accounts or Admissions Offices.

In addition to the tuition fee, the following fees are charged on a per credit basis:
- Student Service Fee: $4.25
- Student Association (Commerce): $1.80
- All Other Faculties: $2.00
- Academic Materials Fee: $3.50

Other Fees:
- Application Fee: $15
- Acknowledgement of Payment Receipt: $1
- Course change fee — per form: $10
- Copy of Registration certificate: $1
- Duplicate of receipt: $2
- *Early Registration Deposit: $100
- Graduation Fee: $40
- Late Registration Fee: $25
- Late Completion Fee: $15
- Letter of Financial Standing: $5
- Special Examination Fee (CELT): $20
- Supplemental Examination (plus invigilation fee when applicable): $15
- Transcript of academic record: $2
- Copy of student record: $1
- Letter of attestation (no charge for first letter): $5
- Copy of Form T2202 (no charge for first set): $2
- Copy of Form TP69v (no charge for first set): $2
- Replacement of identification card: $5
- Re-evaluation fee (refundable if re-evaluation is in student's favour): $15
- Copy of University Calendar (no charge for first copy): $2
- Surcharge on Private Studies Music courses (6 credits) — subject to change: $380

*In the event that Early registration is not completed as directed, this amount will be forfeited.

A special fee of $1.00 per credit will appear on the student Registration Contract. "This fee is a special fee representing the undergraduate students' contribution to the Capital Campaign of Concordia University. It has been approved by the Concordia University Students' Association and the University Board of Governors as a special voluntary fee." (Board of Governors Meeting - 13 June 1985). In addition the Board of Governors has approved a resolution by the Engineering and Computer Science Faculty to contribute $50.00 (full time), $25.00 (part time) per student for the acquisition and maintenance of laboratory and computer equipment.

Interest is payable on the outstanding balances of students' accounts at the rate of 1.04% per month (13.25% per annum). This rate may change from time to time in conformity with prevailing interest rates.
Following the announcement by Claude Ryan, Ministre de l'Enseignement supérieur et de la Science, that University tuition fees in Quebec will rise beginning with the Fall/Winter 1990-91 Session, the Board of Governors has approved the following revisions to the published scale of fees listed in Section 15.1 of the 1990-91 Undergraduate Academic Calendar:

Tuition fees, for all undergraduate courses, are based on a per credit charge as listed below:

Canadians, students with permanent resident status, and international students eligible to pay Canadian rates*:

<table>
<thead>
<tr>
<th>Type</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>Undergraduate</td>
<td>$29.33</td>
</tr>
<tr>
<td>Independent</td>
<td>$34.83</td>
</tr>
</tbody>
</table>

*Tuition fees for other international students are unchanged.

All tuition fees for the Summer 1990 Session will be charged at the old rate as published in the 1990-91 Calendar.

Please note that in addition to the tuition fee, the following fees are also charged on a per credit basis:

- Student Service Fee
- Student Association Fee
- Academic Materials Fee

February 14, 1990
15.2 Payment of Tuition and Fees

Payment of tuition and other fees may be made in accordance with the following options:

**Summer Registration**
1. Payment in full at registration.
2. Payment in two instalments:
   a) At registration — one half of tuition fees and all other fees.
   b) Three weeks after registration — balance plus interest from the contract date.

**Fall/Winter Registration**

Early Registration:
- Students who early register reserve their courses for the upcoming academic year well in advance of regular registration. This reservation is subject to changes in the published scale of fees, which may be made without prior notice at any time after issuance of the registration contract but before the beginning of the upcoming academic year, and requires financial commitments as follows:
  1. an initial deposit *prior to registering for courses
  2. the payment of the first instalment of the balance owing by a deadline in August

*In the event that the early registration is not completed as directed, the deposit will be forfeited.

Regular Registration:
1. Payment in full at registration.
2. a) At registration—one half of tuition fees and all other fees.
   b) By January 15—balance plus interest calculated from contract date.

**Winter Registration**
1. Payment in full at registration.
2. a) At registration—one half of tuition fees and all other fees.
   b) By January 15—balance plus interest calculated from contract date.

Registration may be cancelled if a cheque is returned for any reason. (Note: For all NSF cheques, replacement must be by cash, certified cheque, or money order.) In any event, a charge of $15.00 will be made for each returned cheque.

Failure to make payment, or to arrange satisfactory settlement of amounts owing to the University when they become due is sufficient cause to bar the student from classes or examinations, and to withhold diploma, scholastic certificate or transcript of record until the debt is adjusted with the University.

Registration is not considered complete until satisfactory arrangements have been made for the payment of fees.

All contracts are subject to revision for changes in the published scale of fees, which may be made without prior notice at any time after issuance of the contract but before the beginning of the upcoming academic year, and for the adjustment of errors or omissions, as well as in the case of courses cancelled by the University.

15.3 Cancellations—Withdrawals—Adjustments

Withdrawal from classes does not entitle a student to refunds of fees or cancellation of contract. Students who withdraw from courses or from the University must comply with the requirements and deadlines set out in the appropriate Undergraduate Class Schedule in order to qualify for a rebate of tuition according to the following scale. Complete withdrawal from the University must be done in person or in writing.

**OFF-CAMPUS COURSES:** Same schedule as on-campus courses.

**Rebate of Tuition**

**Fall/Winter Session**
**NOTE:** For dates of Fall and Winter course-change periods please see §11 (Academic Calendar).

Courses which begin in September (first-term and two-term)
- Withdrawal within two weeks from the date of beginning of classes: Full refund (no refund after 2 weeks)

Courses which begin in January (second-term)
- Withdrawal within two weeks from the date of beginning of classes: Full refund (no refund after 2 weeks).

**Summer Session**

Amended rules for the Summer session will be outlined in the 1989 Summer Undergraduate Class Schedule.

16.3.10 Code of Conduct (Academic)
16.1 General Information

This calendar is the official University document on academic programmes and on the regulations pertaining to them. All members of the University community are expected to be familiar with the regulations which concern them. In particular, students are responsible for knowing the regulations and for complying with them. Specific written permission must be obtained from the appropriate authority for exemption from any academic regulation. Routine approval of a student's registration does not constitute approval of an exemption or exception.

All students at the undergraduate level, whether enrolled in degree or certificate programmes or registered as Visiting or Independent students, are subject to the academic regulations contained in this section. Definitions of terms will be found in §13.2.

16.1.1 ACADEMIC YEAR

The Academic Year is made up of a Regular Session (September to April) and a Summer Session (May to August). For record purposes, a given academic year includes the Summer Session and the following Regular Session.

Regular Session:
The Regular Session is divided into a Fall term (September-December) and a Winter term (January-April), each of fifteen weeks' duration, including an examination period. The Academic Calendar (§11) contains precise dates for the beginning and end of classes and the beginning and end of the examination period. Final examinations must be held within this examination period.

Summer Session:
The Summer Session covers all courses offered between the beginning of May and the middle of August. There is an evening session of twelve weeks' duration, including an examination period, running from early May to late July and a concentrated six-week day session, including examinations, running from the beginning of July to mid-August.

16.1.2 DEFINITION OF CREDIT

In accordance with the recommendations of the Quebec Council of Universities, effective 1974-75, the credit base takes into account the total activity of the student, in terms of lectures, conferences, laboratories, studio or practice periods, examinations, and personal work. One credit represents, for the average student, a minimum of 45 hours spread across the various activities. Full-time students will normally take 30 credits in the Regular Session. For rules on the maximum credits permitted each session, see §16.1.4.

16.1.3 STATUS

Full-Time and Part-Time:

Full-time undergraduates are those for whom university studies are their principal activity, while part-time undergraduates are those for whom university studies are not their principal activity. Eligibility for government loans and bursaries requires full-time status at all times during the academic year¹. Identification of full-time and part-time status depends on the number of credits for which a student is registered at the close of the course-change period according to the following table:
Registration for both Fall and Winter terms

Full-time*  Part-Time

24 Credits or More  Less than 24 Credits

12 Credits or More  Less than 12 Credits

12 Credits or More  Less than 12 Credits

12 Credits (maximum)  Less than 12 Credits

NOTE:
Financial Aid Students
* Please see §18.3.3 (Financial Aid) for special rules on status that have been established by the Government of Quebec for students receiving Quebec loans and/or bursaries.

16.1.4 COURSE LOAD
Notwithstanding the number of credits used to determine the status of a student for statistical and other reporting purposes, as listed in §16.1.3, the maximum course load for full-time students, part-time students, visiting students, and independent students is as follows:

A. Regular Session—Full-Time Status
The course load varies according to the faculty in which the student is enrolled:

FACULTIES OF ARTS AND SCIENCE, COMMERCE AND ADMINISTRATION, AND FINE ARTS:
A student may register for a maximum of 30 credits in any Regular Session equally divided between the Fall and Winter terms.

FACULTY OF ENGINEERING AND COMPUTER SCIENCE:
See under Engineering Faculty §71 for Engineering programmes. For Computer Science programmes, the maximum is 30 credits in any Regular Session equally divided between the Fall and Winter terms.

B. Regular Session Part-Time Students
Part-time students in all faculties, and all Independent students, may register for a maximum of 18 credits, equally divided between the Fall and Winter Terms.

C. Summer Session
All students, other than those enrolled in the Institute for Co-Operative Education, may not take more than a total of 12 credits of work during the Summer Session (8 credits for Engineering and Computer Science students) because of the concentrated nature of the schedule. The Summer Session includes all courses scheduled from the month of May to the month of August inclusive.

16.1.5 RESIDENCE REQUIREMENTS
1. Out of the total number of credits required for a bachelor’s degree, a minimum of 45 credits must be taken at Concordia University for all bachelor’s degrees except that of the Bachelor of Engineering, where the minimum is 60 credits. Unless otherwise authorized by the Faculty to which the student has been admitted, these will be the last 45 credits (or the last 60 in the case of the Bachelor of Engineering).

The proportion of degree credits which must be taken at Concordia University in honours, specializations, majors, minors or other elements of concentration will be determined by individual faculties but should not be less than 50%.

2. Students who already possess a bachelor’s degree may undertake a second bachelor’s degree, under the conditions laid down below. Students are, however, advised that before registering for a second bachelor’s degree they should consider whether their purpose might not be better served by taking a diploma or master’s programme. To obtain a second bachelor’s degree at Concordia University students must:
   a) Register in an established programme with a higher degree of concentration than a Minor.
   b) Complete sixty credits in courses other than those credited towards the first degree, at least thirty-six of which must be taken in the new field of concentration.

3. Any student seeking to transfer to Concordia University after having failed at another university, or after having compiled an unsatisfactory record at another university, must fulfill the residence requirements stipulated upon admission. In general, a minimum of sixty credits will be required for any degree.

16.1.6 REGISTRATION FOR COURSES
Selection of courses for a session is done during a specified period prior to the start of classes. In addition, most undergraduate students take advantage of Early Registration for the Fall/Winter Session. Early Registration is not available to independent students.

Please consult the appropriate class schedule for details regarding dates, hours, locations and appointments. Class schedules are available at both Registrar’s Services Department locations.

16.1.7 WITHDRAWAL
Students who wish to cancel a course or courses must notify the Registrar’s Office, either on the specific form designated for the purpose and available from the Registrar’s Services Department, or
by letter. Students who wish to withdraw entirely from the University must cancel all their courses and formally notify the Registrar’s Office in writing. The academic deadlines are listed in §11, and in the appropriate Undergraduate Class Schedule. Refer also to §15.3 for information on tuition fee rebates.

The responsibility for taking all steps necessary for withdrawal is entirely that of the student. Ceasing to attend classes, or informing an instructor of intent to withdraw does not constitute withdrawal. Students who do not formally withdraw will receive a failing grade.

For each session there is a final date beyond which a student may not withdraw from a course. An evaluation by the instructor of a student’s progress is not mandatory prior to the withdrawal deadline. Students are referred to the Academic Calendar (Section 11) and to the rules for Rebate of Tuition (Section 15.3).

16.1.8 INTER-UNIVERSITY AGREEMENT

1. CROSS-REGISTRATION (Provincial)
Québec universities have agreed to permit students registered in a programme at one university (called the home university), to take one or more courses at another university (called the host university) if they have valid reasons for doing so.

Authorization for an undergraduate student to cross-register must be given by the student’s academic adviser, the Associate/Assistant/Vice Dean of the student’s Faculty, and the Registrar.

This agreement in no way interferes with the host university’s right to accept or refuse, as it sees fit, registration of a student from another university in any of the courses or programmes that it offers. The student is expected to follow the registration procedures of the host university. In addition when attending the host university students are subject to the regulations of the host university, EXCEPT for tuition and fees policies which will be governed by the home university.

Credits earned within this policy are counted towards the University residence requirements. Any failures will similarly be counted in the student’s assessment under the applicable Failure Regulations, §16.3.7.

NOTE: Students currently registered at this University wishing to take courses at another university other than under the aegis of the Inter-University Agreement should refer to the applicable regulations in §13.4.3.

2. STUDENT EXCHANGE PROGRAMME (International)
The universities of Québec and certain American and European universities have agreed to set up student exchange programmes enabling a student registered on a full-time basis with a university (home university) to follow courses at another university (host university) so as to satisfy part of the credit requirements for the degree. In order to be eligible for the exchange programmes, a student must be registered full-time at Concordia, be a Canadian citizen, possess an above-average academic record, and have completed a minimum of thirty credits by 31 May of the year in which the student wishes to study abroad. Information on participating institutions and general conditions of the exchange programmes can be obtained from the International Student Adviser, Dean of Students Office.

3. LANGUAGE AND CIVILIZATION PROGRAMME (International–Summer Term Only)
The University sponsors a number of language and civilization summer study sessions in various foreign countries. These consist generally of structured course work for credit, together with cultural activities. Further information can be obtained from the Department of Modern Languages and Linguistics, the Département d’études françaises or the Centre for Continuing Education.

16.1.9 GRADUATION
Degree and certificate candidates who expect to complete requirements in a particular year must contact the Registrar’s Office to make application for that degree or certificate. Graduation Application Forms provided by the Registrar’s Services Department must be submitted before July 15th* for Fall graduation and January 15th for Spring graduation.

*The deadline will be June 15, 1990 for the Fall 1990 graduation.

16.1.10 HIGH ACADEMIC ACHIEVEMENT
A degree With Distinction or With Great Distinction will be awarded to students who obtain a grade point average (GPA) of 3.40 for “With Distinction”, or 4.00 for “With Great Distinction”.

The grade point average for students in the Faculty of Arts & Science, the Faculty of Commerce & Administration, and the Faculty of Fine Arts will be calculated over the last ninety credits as determined by established Graduate Department practices. For students in the Faculty of Engineering and Computer Science the grade point average will be calculated over the entire programme. Additional credits in extended programmes are not normally included in any calculation. In the case of transfer students, all courses taken at Concordia will be included. However, a transfer student must have taken a minimum of sixty credits at Concordia in order to be eligible for distinguished mention.

16.1.11 TRANSCRIPTS
Students may obtain an unofficial copy of their record from the Registrar’s Services Department during normal operating hours. Official Transcripts, however, are not issued to students but are sent directly to another institution or potential employer at the student’s written request, provided there is no outstanding account owing to the University.

16.1.12 STUDENT REQUEST COMMITTEE OF FACULTY COUNCILS
Each Faculty has a Student Request Committee made up as follows:
3. Concentration, according to the interests and capability of the student. There are several fields and thus acquire a broad general basis for future study, the undergraduate programme requires forms of concentration, ranging through Honours, which require success in a programme of high concentration.

16.2.1 CURRICULUM OBLIGATIONS

The University recognizes the principle that students should be allowed, subject to the conditions stated below, to complete their degree programme (e.g., Bachelor of Arts, Bachelor of Commerce, etc.) as well as their programme of concentration (Honours, Specialization, Major), in accordance with the requirements in force at the time when they were first admitted to the programme and/or concentration.

1. With respect to the format and curriculum content of specific programmes the University reserves the right to modify the curriculum requirements in the light of (a) changing trends in academic and professional fields, and (b) availability of appropriate resources. Where a programme is substantially altered for such reason by action of the University Senate, the University recognizes its responsibility to offer suitable transition arrangements with respect to modified programmes. In these exceptional cases the modified programme requirements should become effective for all students no later than five years after the effective date of change for newly admitted students.

2. The University reserves the right to cancel any degree, diploma, or certificate programme. In the event of the cancellation of a programme, the University recognizes its responsibility to offer courses in the cancelled programme. However, these courses would be phased out in accordance with a schedule which will depend upon the number of students involved. Students in the programme would be informed of this schedule at the time of cancellation. Where students in good standing have not been registered for over three years, the University, while not questioning such students' rights to remain in the University, reserves the right, where circumstances warrant, to refuse such students permission to continue in the programme in which they were registered at the point where studies were interrupted.

3. Where students acquire credit toward a degree, diploma or certificate in a discontinuous manner and over a protracted period of time subsequent to their admission, the University reserves the right, at any time, to require such students to take further credits or fulfill additional requirements in order to obtain that degree, diploma or certificate.

4. With respect to changes in the academic regulations under Sections 16.1 and 16.3, including changes in performance requirements for continuation in, or graduation from, any degree programme (e.g., changes in the minimum level of grades or grade point average) the modifications become effective on a given date without regard to the date of admission to a programme. Notice of such changes will normally be given a minimum of one year in advance.

5. Where a student fails an academic year, the University reserves the right at the time of readmission to require such a student to take further credits or to repeat certain courses. The student may also be required to meet any changes in the academic regulations that may have occurred since being admitted to the programme.

16.2.2 CURRICULUM REGULATIONS

The regulations relating to the degree requirements are located in the Faculty sections:

- Faculty of Arts and Science: §31
- Faculty of Commerce and Administration: §61
- Faculty of Engineering and Computer Science: §71
- Faculty of Fine Arts: §81

16.2.3 CONCENTRATION REQUIREMENT

Since the CEGEP programme is designed to give all students the opportunity to explore different fields and thus acquire a broad general basis for future study, the undergraduate programme requires some degree of concentration, according to the interests and capability of the student. There are several forms of concentration, ranging through Honours, which require success in a programme of high concentration.
centration accompanied by a prescribed level of performance; the Specialization and the Major requiring varying degrees of concentration without a prescribed performance requirement; and the Double Minor, involving a lesser degree of concentration in two disciplines or fields, and without a prescribed performance requirement.

In order to graduate a student must have completed one of the following types of programme concentrations: Honours, Specialization, or Major. Any one of these may be combined with a Minor. In the Faculty of Fine Arts the degree of BFA may be awarded for a Double Minor.

Prior to registration, students will be required to select one of the types of programme concentration outlined above. In the case of Honours, students will register upon entry in an Honours programme, but their acceptance as Honours students will depend on their performance during their first year. Students failing to meet requirements for Honours standing will proceed in either a Specialization or a Major programme.

16.2.4 HONOURS PROGRAMMES

These regulations represent a minimum academic standard for Honours programmes. All programmes and additional Faculty regulations, including those with higher standards, are listed in the Faculty sections under “Honours Programmes”.

The University has approved programmes leading to an Honours degree in certain selected fields. The Honours programme consists of 60 or more credits in a discipline or field, with superior performance being required to enter and remain in the programme. In order to qualify for an Honours degree a student must comply with the regulations set forth below:

1. An Honours student must meet the general degree requirements as well as the specific requirements for an Honours degree.
2. An Honours student must maintain a GPA of 3.00 in all Honours courses; the minimum acceptable grade in any single Honours course is “C”.
3. An Honours student must have a minimum GPA of 2.70 for Honours courses taken in each academic year. For part-time students this will be calculated in 18-credit blocks.
4. In the non-Honours courses of the degree programme, an Honours student must have a GPA of no less than 2.00.
5. Students who are required to withdraw from the Honours programme will proceed in the Major or Specialization programme. Reinstatement in the Honours programme is possible only by appeal to the Faculty Honours Committee.

16.2.5 SPECIALIZATION PROGRAMMES

The Specialization, in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses totaling 60 or more credits. In very exceptional cases there may be a performance requirement.

16.2.6 MAJOR PROGRAMMES

The Major, again in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses totaling 36 or more credits, except in the Faculty of Commerce and Administration where the Major consists of at least 24 credits in the chosen discipline in addition to the required 51-credit core. The Major, like the Specialization, may include certain approved courses in other closely related fields.

16.2.7 MINOR PROGRAMMES

A Minor programme, again in keeping with the structures recommended by the Quebec Council of Universities, is an approved sequence of courses totaling 24 or more credits, except in the Faculty of Commerce and Administration where the Minor consists of at least 12 credits in the chosen discipline in addition to the required 51-credit core.

16.2.8 DOUBLE MINOR PROGRAMMES

In the Faculty of Fine Arts Double Minor programmes are made up of two approved sequences of courses totaling 24 or more credits each in two specific disciplines or fields.

16.2.9 COMBINATIONS

An Honours, Specialization, or a Major programme may be combined with a Minor programme.

16.2.10 CERTIFICATE PROGRAMMES

An Undergraduate Certificate programme is a coherent programme normally of 30 credits made up of regular undergraduate courses that are, in turn, normally applicable to the appropriate bachelor’s degree. There is no guarantee that a certificate programme can be completed in one academic year.

16.2.11 WRITING SKILLS REQUIREMENT

With the aim of improving students’ writing skills, a graduation requirement applies to all students entering bachelor’s degree programmes in or after September 1983 (September 1984 in Fine Arts).

1. All students entering bachelor’s degree programmes must take and pass the University Writing Test (see paragraph 2) or obtain a specific grade in a designated language course (see paragraph 3). This requirement is a condition of graduation. The only exceptions are those already tested prior to admission (see paragraph 4). Certificate and Independent students are not required to be tested unless they decide at a future date to enter a degree programme.
The language of instruction at Concordia is English, with a few specific exceptions, but assignments and examinations, again with a few exceptions, may be submitted in French. In accordance with this policy, the University Writing Test may be taken in English or French. It takes the form of a short composition on one of a variety of topics. It may be taken at several points in the year, but students are encouraged to take it as soon as possible after entry. Students failing the test may take it again as often as is necessary. No fee is charged, and failures will not be entered on the student record.

The graduating requirement may also be met by passing one of a number of specified courses with a set level of performance. At present, it is required to obtain a grade of C- or better in English (ENGL 212 or FRAN 400). For those enrolled in the Bachelor of Engineering or Bachelor of Computer Science, or in a Journalism programme, a grade of C- or better in Engineering and Computer Science (ENCS) 281 or Journalism (JOUR) 201, respectively, also satisfies the requirement.

Students tested for admission purposes and who attained a prescribed level in the Concordia English Language Diagnostic Test (CELDT) or the Test of English as a Foreign Language (TOEFL) or the University of Michigan English Language Test (see §13.7), are considered to have met the graduation requirement. Those otherwise admissible but who attained a lower than marginally acceptable level in one of these tests will be required to take specific courses in English as a Second Language (ESL). In the latter case, the required ESL courses are indicated in the letter of acceptance. The grade of C- or better in ESL 209, the higher course, will satisfy the graduation requirement. The University reserves the right to re-test students admitted on the basis of scores obtained in external tests.

All students newly admitted to a programme and who must fulfill this requirement (see number 4 above) must register for the first session of the University Writing Test after Admission. Students registered in ENGL 212, FRAN 400 and those required to take ENCS 281 or JOUR 201 are exempted. Depending on their performance on the test, students may either (1) have fulfilled the graduation requirement; (2) be advised to re-sit the test or register for the appropriate writing course at their discretion; or (3) be advised that it is unlikely they will be able to pass the University Writing Test, or be admitted to ENGL 212 or FRAN 400 until they have undertaken remedial work such as ENGL 205, ENGL 206 or comparable courses in Études françaises. Ultimately, however, the successful completion of the UWT or the appropriate writing course will still be required in order to fulfill the graduation requirement.

### 16.3 Evaluation, Grading, Examinations and Advancement

#### 16.3.1 EVALUATION

A university degree certifies that its holder has attained a measurable level of achievement, as established by a recognized system of evaluation. It is consequently required that the performance of each student in each course be evaluated by the instructor (or instructors) responsible for the course.

The final grade that assesses the performance of each student in each course will take into account the total measurable performance of the student in that course. Specifically, the grade will be given on the basis of one or more of the following:

1. Assigned work, term papers, projects, etc.
2. Class participation which, in the case of certain disciplines, may justify an attendance requirement.
3. Progress tests.
4. Laboratory tests and/or laboratory work.
5. Mid-term and/or final examinations.
6. A level of written expression may be given consideration in determining the final grade.

The weighting of the various evaluative elements is the responsibility of the instructor. At the beginning of the course the instructor will inform the class in writing of the evaluation scheme to be used. This scheme may not be altered without appropriate prior notice. Resulting final grades are not official until posted by the Registrar's Office after approval by the appropriate Faculty.

While the language of instruction in Concordia University is normally English, students have the right to write their assignments and examinations in French. It must be understood, however, that in a case where the instructor cannot read French, the assignments or examinations will have to be read by another person, with possible resulting disadvantages and delays for the student. Students are advised to ensure of the instructor at the beginning of their course whether he or she will personally read assignments and/or examinations written in French. Notwithstanding the above, language and literature departments may require assignments and examinations to be written in the language being studied.

#### 16.3.2 GRADING SYSTEM

In each course, the instructor submits a grade for every student registered. The grades are submitted in an alphabetical form. Using the grade point equivalents listed below, grade point averages (GPA) are calculated and used for the evaluation of academic achievement, honours standing, prizes, and academic standing.

<table>

**ACADEMIC REGULATIONS**
16.3.3 FAILING GRADES AND SPECIAL CASES

Failing Grade (F)
The grade submitted will be "F".
For courses in which supplemental examinations are not precluded, a student to whom an "F" grade has been assigned and who is in good academic standing, may, subject to the regulations of the Faculty, write a supplemental examination.
For courses in which supplemental examinations are precluded, this grade will be recorded as FNS to draw attention to the absence of supplemental privileges for the course in question.

Repeat Failing Grade (R)
The grade submitted will be "R". A student graded "R" in a course may not write a supplemental or replacement examination or complete a course noted as Incomplete, and must repeat the course to receive credit, providing such repetitions are permitted within the failure regulations and/or the regulations concerning the repetition of courses.

Not Reported (NR)
"NR"—in the event that a student appears to have withdrawn unofficially from a course, and no material is available for evaluation, the instructor will clearly not be able to submit a grade. The Registrar will indicate this situation with the notation NR (Not Reported). A student assigned an NR in a course may not write a supplemental or replacement examination nor apply for a MED notation. This notation denotes a failure for purposes of counting the number of failed courses in assessing academic standing. This notation carries a grade point value of zero.

Medical (MED)
MED (Medical) denotes that an examination or assignment was missed for medical reasons. This grade is entered on the record by the Examinations Office. It is the responsibility of the student to complete an "Application for MED Grade" and submit it within ten (10) days of the missed examination (of the end of term in the case of a missed assignment) to the Examinations Office, not to the instructor, department or Faculty. Application forms are available from the Examinations Office. An acceptable medical certificate (certified by a physician on official letterhead) must accompany the application.
The Examinations Office may require further information from the physician; in such cases an authorization form must be submitted by the student. Repeated submissions of medical certificates may lead to the referral of the student to a physician appointed by the University for his or her recommendations.
A "MED" grade will not be assigned if the original grade or notation was either "R" or "NA".

16.3.4 ADMINISTRATIVE NOTATIONS
These notations may be used only in combination with a grade given for the course (such as "F/INC", "F/DNW").

I. Incomplete (INC)
"INC" denotes that, though the final examination, if any, was written, work essential for the evaluation of a student's performance, such as a term paper or a laboratory, was not completed. The grade accompanying the "INC" notation is to be assigned on the basis that the incomplete work is weighed as "O".
1. A student must remain in good standing at the time of the annual assessment of students under the Failure Regulations (16.3.7) in order to be eligible to complete a course with an INC notation subject to the limitation dates below.
2. A failed student, or a student with conditional standing is ineligible to complete a course with an INC notation.
3. A student receiving an "R" grade with an INC notation is ineligible to complete that course.
4. An application to complete a course with an INC notation must be submitted by:
   Fall-term courses: February 1
   Winter-term courses: June 15
   Summer-session courses: October 1
5. The limiting dates for the submission of late work are:
a) For fall-term courses not later than April 1.
b) For all other courses in the Regular Session not later than August 1.
c) For all courses in the Summer Session not later than November 1.
II. Did Not Write (DNW)

"DNW" denotes that, though the instructor marked the term work, the final examination was not written. A student in good standing who has a DNW notation on record is eligible to write a supplemental examination except if the grade assigned is "R" or "FNS".

In some circumstances, both INC and DNW may be used simultaneously.

Replacement of "F", DNW, INC and MED Entries

The method of recording changes from "F", DNW, INC and MED entries will be as follows:

1. In cases where a replacement examination or a late completion has been allowed on medical or compassionate grounds, the new grade will replace the original entry.
2. In all other instances, the original entry will be retained on the transcript. A second entry of the course code will be made along with the final grade.
3. Students failing a supplemental examination will receive the grade "R".
4. Students eligible to write a replacement examination on medical grounds, but who do not wish to avail themselves of this right, will have their records altered by the Registrar's Office from the original entry of "F-DNW" or "F-INC" submitted by the instructor to "MED-DNW", or "MED-INC".

Discontinued (DISC)

"DISC" applies to courses that are properly dropped after the end of the course-change period. The course will remain permanently on the student's academic record with the notation DISC. It will appear on official transcripts of the record.

16.3.5 ACADEMIC RE-EVALUATION

I. General

1. All students have the right to apply for the re-evaluation of any grade they receive. Such an application may be based on dissatisfaction with either the grade received or the method of grading. Grades may be lowered, maintained or raised as a result of the re-evaluation.
2. Students have the right to see their examination papers and any marked material that has contributed to the grading of a course. Students are responsible for the preservation and production in the case of a re-evaluation of any marked material that has been returned to them by an instructor. Students have the right to have their examination papers or any other marked material re-evaluated separately. Departments are responsible for the preservation and production of written materials in their possession for a period of six months following the official release of grades.

II. Normal Procedure

1. Students who seek re-evaluation of their work will, in the first instance, endeavour to meet with the instructor and explain their position. If they remain dissatisfied, or are unable to meet with the instructor, they may, on receipt of the final grade for the course, apply formally for re-evaluation.
2. A formal application for re-evaluation will be made to the Registrar. Each application must be on the appropriate form, and be in writing and signed. It must set out the reasons for the dissatisfaction, and also contain a statement that the student has met with the instructor, or has tried to meet with the instructor and failed. A fee of $15 per application will be charged. This amount will be reimbursed if the application results in the grade being raised.
3. An application must be submitted by:
   Fall-term courses: February 1
   Winter-term courses: June 15
   Summer-session courses: October 1
   The Registrar may extend these deadlines in particular cases, but only if the person applying for re-evaluation could not reasonably have done so within the above deadlines.
4. The Registrar will forward the application immediately to the chair of the appropriate department, with a copy to the instructor and the Dean.
5. According to the nature of the application, the department chair will appoint a person or persons to carry out a re-evaluation or investigation, and will communicate the name(s) to the student, the instructor, the appropriate Dean and the Registrar. Normally a member of the Faculty in whose course the student is currently enrolled is not eligible to conduct a re-evaluation or investigation. Where the department chair was the instructor performing the evaluation the appropriate dean will make the appointments.
6. The re-evaluation or investigation will normally be completed within 21 days of the receipt of the application by the chair.
7. The chair will inform the student, the instructor, the Dean and the Registrar of the decision of the person(s) charged with the re-evaluation or investigation. This decision is final.

III. Priority Procedure

1. The priority appeal procedure is provided to accelerate the process for specific courses designated by the Faculties. A list of these courses is posted in the Registrar's Service Department prior to the beginning of the course-change period each term.
2. Students registered in courses that have been designated by the faculties may file a priority appeal with the Registrar as soon as the grade is known, but in no case later than 3 days before the end of the course-change period for the next term.
3. Students who opt for this priority procedure will still, in the first instance, endeavour to meet with the instructor. If the issue is resolved between the student and the instructor after an appeal is launched, the appeal must be cancelled by the student. If the appeal is not cancelled the fee of $15 will not be reimbursed.
4. The Dean will appoint a person who, in collaboration with the Registrar, will ensure accelerated processing of priority appeals in so far as possible, in accordance with the procedures set out in II, 5.

5. The re-evaluation or investigation of priority applications must be completed prior to the last day of the course-change period for the next term.

6. The Dean’s appointee will inform the student, the instructor, the Dean and the Registrar of the decision of the person(s) charged with the re-evaluation or investigation. This decision is final.

IV. Appeals
1. Both the student and the instructor have a right of appeal on procedural grounds only against a re-evaluation decision.
2. An appeal will be made to the Dean and will normally be lodged within 14 days of the announcement of the decision by the chair. Each appeal must be on the appropriate form, and be in writing and signed. It must set out the reasons for the appeal.
3. It is the responsibility of the Dean to inform the student or the instructor, as may be required, the chair and the Registrar that an appeal has been received.
4. The Dean will refer the appeal to the Faculty Appeal Committee, a standing committee of Faculty Council.
5. Faculty Appeal Committee procedures will be determined by the appropriate Faculty Council.
6. The Faculty Appeal Committee will be composed of an equal number of faculty and students, who will choose a chair from outside their initial membership.
7(a) The Faculty Appeal Committee will deal with the appeal as it deems necessary in order to decide whether the re-evaluation procedure was correctly followed.
(b) Both the student and the instructor have the right to be present at the hearing of the appeal, to address the committee, and to present witnesses. The student may be accompanied by an adviser from within the University who may speak on his or her behalf. Following the hearing, the committee will deliberate in private.
8. The decision will normally be rendered within twenty-one days of the lodging of an appeal. If the Faculty Appeal Committee finds that the re-evaluation procedure was not correctly followed it will instruct the department chair to arrange for a fresh re-evaluation.
9. There is no further appeal once the Faculty Appeal Committee has rendered its decision.
10. It is the responsibility of the Committee to inform the student, the instructor, the chair, the Dean, and the Registrar of the decision.

16.3.6 EXAMINATIONS
A validated student identification card must be presented in order to sit any examination.

I. Final Examinations
1. Refer to Section 11, Academic Calendar, for the scheduled examination periods.
2. Students should not make personal commitments for the examination periods until after the FINAL Examination Timetable, with specific dates and times, is posted. No special arrangements will be made in the event of personal time conflicts.
3. No tests or examinations are permitted in the final week of the term. Any exceptions must be approved in advance by the appropriate Faculty Council.
4. No candidate shall be permitted to enter the examination room after the expiration of one hour, or to leave during the first hour of the examination.

II. Supplemental and Replacement Examinations—Regulations
1. Supplemental Examinations
a) Each Faculty determines the availability of supplemental examinations for the courses offered by the Faculty. Such availability is governed by the rules of the Faculty in which the course is offered, not those of the Faculty in which a student is registered.
b) A student who has received an "R" grade is ineligible to write a supplemental examination.
c) A student is not permitted to write two supplemental examinations for the same course, whether or not the course is being repeated. However, a supplemental may be written for a course being repeated if the student has not written one previously for that course.
d) A failed student, or a student on academic probation, or a student with conditional standing, is not permitted to write supplemental examinations.
e) Should a student fail a course for which there is no supplemental examination, the absence of a supplemental examination will be recorded together with the failing grade ($16.3.3).f) A grade received as a result of writing a supplemental examination will count as a second course attempt. It will be included in the calculation of Grade Point Averages and in the assessment of standing under the failure regulations, as will the original failure.

2. Replacement Examinations
a) Medical reasons (certified by a physician on official letterhead) can constitute a valid excuse for missing an examination ($16.3.3).
b) A student who is taken ill during an examination and so is unable to finish it should obtain a written statement to this effect from the nurse on duty at the Health Centre, and deliver that statement within ten days to the Examinations Office.
c) A student who presents a valid medical excuse may apply to write a replacement examination which will count for the same weighting in the evaluation scheme used in the course, and will cover the same course material, as the examination that was missed.
d) A student who has received an "R" grade is ineligible to write a replacement examination.

e) A student who fails the course after writing a replacement examination may apply to write a supplemental examination.

f) A student who has missed a supplemental or a replacement examination for medical reasons (1) must repeat the course if registered in the BEng degree programme or (2) may apply once more to write a replacement or supplemental examination during the next scheduled supplemental examination period if registered in any other programme. In the latter case, after two replacement or supplemental examinations are missed because of medical reasons, the student will be required to re-register for the course.

The grade assigned, either F, F/DNW or MED/DNW, will remain as the final grade in courses for which the student is required to re-register.

3. Applications

a) Supplemental and replacement examinations for courses taken in the Regular Session will be written in the following July or August. Supplemental and replacement examinations for courses taken in the Summer Session will be written in the following October.

b) Applications to write a supplemental or a replacement examination for a course in the Summer Session must be submitted by September 21, and for a course in the Regular Session by June 15. Graduating students have until February 1 to submit an application to write a supplemental or replacement examination for a course in the Fall Term. The appropriate fee must accompany all applications for supplemental examinations. There is no fee for a replacement examination.

c) A student who wishes to write a supplemental or replacement examination at an external centre must complete an external application form for a course in the Regular Session by June 1.

An external supplemental examination will be permitted only at university centres established in Canada.

16.3.7 ACADEMIC PERFORMANCE REQUIREMENTS

I. Performance Regulations

All students are required to achieve an acceptable standard of scholarship. Academic Standing is determined either on the basis of an Annual Weighted Grade Point Average (WGPA) as defined below, or on the basis of ratio of credits failed in relation to credits passed.

The specific regulations applicable to students registered in each Faculty can be found in the following sections of the Calendar:

<table>
<thead>
<tr>
<th>Faculty</th>
<th>See Calendar Section</th>
<th>System Used</th>
</tr>
</thead>
<tbody>
<tr>
<td>Faculty of Arts and Science</td>
<td>31.003.1</td>
<td>WGPA</td>
</tr>
<tr>
<td>Faculty of Commerce and Administration</td>
<td>61.20.5</td>
<td>WGPA</td>
</tr>
<tr>
<td>Faculty of Engineering and Computer Science</td>
<td>71.10.3</td>
<td>WGPA</td>
</tr>
<tr>
<td>Faculty of Fine Arts</td>
<td>81.20.4</td>
<td>No. of Failures</td>
</tr>
</tbody>
</table>

These regulations are liable to modification in the case of students transferring either between Faculties or from another university.

II. Annual Weighted Grade Point Average

An Annual Weighted Grade Point Average (WGPA) is calculated at the end of each academic year, provided that a minimum of twelve (12) credits has been attempted. If fewer than twelve (12) credits have been attempted, these will be carried forward and included in the assessment for the following academic year. An academic year includes a Summer and its subsequent Fall and Winter terms. The WGPA is calculated only for courses recorded since entry into the current programme. Special regulations may be applied for graduating students. These will be specified in each Faculty's regulations (see I. above).

A grade obtained as a result of writing a supplemental or replacement examination and/or of completing the work for a course with an INC or MED notation is included as part of the assessment period in which it is recorded.

In the Faculty of Engineering and Computer Science, any course which is a requirement for admission to a programme will not be counted unless specifically listed on the student's admission letter.

The WGPA is calculated as follows:

\[ \text{WGPA} = \frac{\sum \text{(course credits} \times \text{grade points})}{\sum \text{(credits attempted)}} \]

ACADEMIC REGULATIONS
Example:

<table>
<thead>
<tr>
<th>Course</th>
<th>Grade Achieved</th>
<th>Credit Value</th>
<th>Grade Points*</th>
<th>Weighted Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>AA</td>
<td>D</td>
<td>3.00</td>
<td>X 1.00</td>
<td>= 3.00</td>
</tr>
<tr>
<td>BB</td>
<td>C+</td>
<td>3.00</td>
<td>X 2.30</td>
<td>= 6.90</td>
</tr>
<tr>
<td>CC</td>
<td>B</td>
<td>2.00</td>
<td>X 3.00</td>
<td>= 6.00</td>
</tr>
<tr>
<td>DD</td>
<td>A−</td>
<td>6.00</td>
<td>X 3.70</td>
<td>= 22.20</td>
</tr>
<tr>
<td>EE</td>
<td>F</td>
<td>3.00</td>
<td>X 0.00</td>
<td>= 0.00</td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>17.00</td>
<td></td>
<td>Total Weighted Grade Points 38.10</td>
</tr>
</tbody>
</table>

WGPA = \frac{38.10}{17.00} = 2.24

* As detailed in Section 16.3.2

III. Qualifying Programme and Visiting Students
Students registered in Qualifying Programmes or as Visiting Students are subject to the regulations of the Faculty in which they are registered.

IV. Independent Students
1. Independent students are subject to the same grade point average requirements as students registered in programmes offered by the Faculty of Arts and Science (see §31.003.1).
2. Independent Students who are classified as Failed must obtain permission to re-register from the Registrar.

V. Regulations for Failed and Conditional Standing Students
1. Failed students or students assessed as being in Conditional Standing are neither eligible to write supplemental examinations nor entitled to late completion of courses.
2. Undergraduate students who are classified as Failed may not re-register as Independent Students.

VI. Academic Records
Failed Standing is noted on the student's record and the official transcript. Conditional Standing is noted on the student's record only.

16.3.8 REGULATIONS FOR COURSES NOTATED AS INCOMPLETE
1. A student in good standing is eligible to complete a course with an INC notation subject to the limitation dates (see 4. below).
2. A failed student, or a student with conditional standing is ineligible to complete a course with an incomplete notation.
3. A student is ineligible to complete a course with an incomplete notation in a course graded "R".
4. Application for late completion form must be submitted by:
   Fall-term courses: February 1
   Winter-term courses: June 15
   Summer-session courses: October 1
5. The limiting dates for the submission of late work are:
   a) for Fall-term courses not later than April 1.
   b) for all other courses in the Regular Session not later than August 1.
   c) for all courses in the Summer Session not later than November 1.

16.3.9 REPETITION OF COURSES
1. In general a student may repeat a failed course only once. However, should a course required for a programme be failed a second time, a student must appeal to the appropriate student request committee for permission to take the course a third time, or for permission to replace the required course with another. Unless such permission is granted, the student will not be allowed to continue in the University toward that programme and/or degree.
2. A student who has received credits for a completed course may not write the supplemental examination.
3. A student who has received credit for a completed course may repeat a course for personal reasons, for instance, an external requirement. The student's record will reflect the new grade, however, there will be no credit value associated with the grade. The original entry will be used for graduation averaging purposes, except as provided by the special regulations for the Faculty of Engineering and Computer Science.
4. Students who fail a course that is specifically required for a degree must take the course during the session for which they next register. If a required course is taken for the first time during the Summer Session and is failed, students may postpone their registration for repetition of the course until the session following the regular scheduled supplementary examination period for Summer Session courses.
I. Preamble
1. In order to maintain the integrity of the academic processes of the University, all students are expected to be honest in all their academic endeavours and their relationships with the University.
2. This Code defines the offences that constitute academic misconduct and sets out the procedures used to deal with those offences.
3. Wherever there is doubt or ambiguity regarding any provision in this Code, or the procedure to be followed, that interpretation or procedure is adopted which appears most equitable and consistent with its general purposes and philosophy. Except for those terms defined hereunder, the terms used in this Code have their usual meanings.

II. Definitions
In this Code, unless the context indicates otherwise:
1. Academic misconduct means any form of dishonest behaviour related to the obtainment of academic gain or to the avoidance of evaluative exercises.
   It includes, but is not limited to, cheating, plagiarism, personation at an examination, falsification and multiple submission, and applies to any form of evaluative exercise.
2. Chair means the Chair of the department or the Head of an equivalent academic unit in which the alleged act of academic misconduct occurred.
3. Cheating means any dishonest or deceptive practice relating to an examination, test or other evaluative exercise. It may include, but is not limited to:
   a) possessing or making use of a book, paper, script, writing, drawing or other material or equipment not expressly authorized by those conducting the examination;
   b) possessing a device allowing access to or use of any of the materials or equipment identified in sub-paragraph a);
   c) communicating with anyone other than an invigilator during an examination;
   d) tearing or mutilating an examination booklet, or taking a booklet from the examination room.
4. Dean means:
   a) the Dean of the Faculty offering the programme in which the student is, or seeks to be, registered; or,
   b) if the student is not registered in a programme, the Dean of the Faculty providing the course concerned; or, in the event that the offence is not related to a particular course, the Dean of the Faculty providing the majority of courses on the student's record; or,
   c) if the student is a graduate student, the Dean of Graduate Studies.
5. Examination means any invigilated evaluative exercise.
6. Falsification means falsifying or forging academically related documents or other records or using such documents. Academically related documents and other records include, but are not limited to:
   a) University records, transcripts, or other academic data;
   b) documents issued by a physician or by another person or institution and submitted to the University.
7. Hearing Committee: If the student is an undergraduate student, the hearing committee is composed of:
   a) a Chair, appointed by the Dean; and,
   b) two faculty members and two undergraduate students, all appointed by the Dean from a panel made up of full-time faculty members named by Faculty Council, and of undergraduate students registered in the Faculty, named by the appropriate student association.
   If the student is a graduate student, the Hearing Committee is made up of three faculty members and two graduate students appointed by the Board of Graduate Studies. The Dean appoints a Chair of the Hearing Committee from among the committee members.
8. Instructor means the instructor of the course in which the alleged act of academic misconduct occurred.
9. Multiple Submission means submitting a piece of work or an important part of a piece of work for credit when that work has been, or is concurrently being, submitted for credit in another course, without the knowledge and permission of the instructor(s) involved.
10. Personation means assuming the identity of another person or knowingly having another person assume one's own identity at an examination or other evaluative exercise.
11. Plagiarism means the presentation by a student of the work of another person as his or her own; it includes copying, translating and paraphrasing without acknowledgment of the source.
12. Sanction means:
   a) reprimand;
   b) work to be resubmitted with appropriate changes;
c) failing grade in the work submitted; or

d) failing grade in the course for which the work was submitted.

13. Year means:
   a) a period beginning on September 1st and ending on August 31st if the academic misconduct occurred during the Regular Session; or
   b) a period beginning on May 1st, and ending on April 30th, if the academic misconduct occurred during the Summer session.

III. Offences
   1. Academic misconduct is an offence under the present Code. It shall be dealt with in accordance with the procedure set out hereunder.
   2. Any attempt, conspiracy, participation or possession related in any way to academic misconduct is also an offence under the present Code and shall be dealt with in accordance with the procedure set out hereunder.

IV. Procedure

A. PROCEDURE RELATING TO PLAGIARISM AND MULTIPLE SUBMISSION

   1. Instructor meets with student: If an instructor has reason to believe that a student has committed an act of plagiarism or multiple submission, the instructor informs the student and discusses the circumstances of the matter with him or her.

   2. Agreement as to satisfactory resolution reached: When an agreement can be reached between the instructor and the student as to a satisfactory resolution, which may include an appropriate sanction, the matter is settled.

   3. Matter referred to the Chair: If no satisfactory resolution has been reached and the instructor is still of the opinion that the student has committed an act of plagiarism or multiple submission, the matter is referred in writing to the Chair.

   4. Meeting with the Chair: The Chair meets with the instructor and the student in order to discuss the circumstances of the matter.

   5. Agreement as to satisfactory resolution reached with Chair: If an agreement can be reached between the Chair, the instructor and the student as to a satisfactory resolution, which may include an appropriate sanction, the matter is settled.

   6. Formal charge: If no satisfactory resolution has been reached, and the Chair is of the opinion that the student has committed an act of plagiarism or multiple submission, the Chair shall so inform the Registrar and recommend that a formal charge of academic misconduct be laid in accordance with the provisions set out below. The Chair shall send a copy of such recommendation to the Dean.

B. PROCEDURE RELATING TO FORMAL CHARGES OF ACADEMIC MISCONDUCT

   1. A person who suspects a student of academic misconduct delivers to the Registrar as soon as possible a written report setting out the grounds for the suspicion, together with any statement made by the student and other relevant material. The Registrar shall send a copy of this report to the Dean.

   2. The Registrar shall consider if the laying of a charge of academic misconduct is appropriate. If the Registrar decides to lay a charge, the procedure set out in the following subsections shall apply. If the Registrar decides not to lay a charge, the Dean may refer the matter to the Vice-Rector, Academic, who may direct that a charge be laid.

   When a decision is made not to lay a charge, the Registrar or the Vice-Rector, Academic, as the case may be, informs the student in writing.

   3. Form of the charge: The formal charge must be precise and substantiated; it is made in writing, dated and signed, and is sent to the Dean.

   4. Copy of formal charge sent to student: The Dean sends a copy of the formal charge to the student and inquires in writing whether the charge is admitted or denied by the student.

   5. Student answers charge: The student has twenty-one (21) calendar days to admit or deny the charge in writing.

   6. Student admits charge: When the student admits the charge, the Dean applies the penalty set out in Article V below.

   7. Student does not admit charge or fails to respond: When the student does not admit or fails to respond to the charge, the Dean arranges for the setting up of a Hearing Committee and gives to the student a written fourteen (14) calendar days notice of the date, time and location of the hearing.
Imposition of Penalties: The obligation to take and pass courses of from three to twenty-four credits in addition to the total number of credits required for the programme; the courses to be taken may be specified;

Application for readmission: If a suspended student fails the year in which he or she was suspended and wishes to be readmitted thereafter, that student must apply for readmission.
3. **Repetition:** Should a student either admit or be found to have committed a second act of academic misconduct, that student shall be expelled from the University.

4. **Confirmation by Rector:** A sentence of suspension or expulsion is subject to confirmation by the Rector.

**VI. Special Provisions Governing the Conduct of Examinations**

1. Every examination paper expressly lists the materials and equipment that a student is permitted to have and use during the examination and indicates any special conditions relating to the examination.

2. Except if expressly authorized by those conducting the examination, a student in the examination area cannot speak or otherwise communicate with any person other than an invigilator.

3. A student who is suspected of academic misconduct during an examination is so informed by the invigilator and is required to leave the examination area immediately. The invigilator keeps the student’s examination booklet as well as any other evidence relating to the suspected act of academic misconduct.

4. In examinations invigilated by the Registrar’s Office, the student is requested in a written statement to choose one of the following options:
   a) to withdraw from the examination with the understanding that if a charge of academic misconduct is not laid or upheld, the student will be permitted to take another examination for the same course at a mutually agreed time;
   b) to continue the examination under controlled conditions in another location, in which case the invigilator provides a fresh examination booklet for the purpose and allows additional time for the examination to compensate for any time lost.

   The student is asked to sign a statement indicating which option was chosen. If the student does not indicate a choice by signing the statement, he or she is considered to have chosen to withdraw from the examination.

5. In the case of examinations not invigilated by the Registrar’s Office, the student will be required to withdraw from the examination, but will be permitted to request permission to take another examination on the same subject-matter. Such permission will be granted through the Office of the Registrar, which will arrange an alternative evaluative exercise within fourteen (14) calendar days of the student having been asked to withdraw from the examination.

   If the charge of academic misconduct is not laid or is not upheld, and if another examination on the same subject-matter has not already been written, the student will be permitted to arrange, through the Office of the Registrar, to take another examination at a mutually agreed time.

6. It is the duty of an invigilator to report to the Registrar any apparent incident of suspected academic misconduct.

7. As soon as possible, the invigilator delivers a written statement setting out the grounds for his or her suspicions to the Registrar. The invigilator attaches the student’s examination booklet, the student’s statement, if any, and other relevant material.

8. If anyone grading an examination finds reason to suspect a student of academic misconduct, he or she delivers a written statement explaining the reasons for the suspicion to the Registrar, as soon as possible. The student’s examination booklet and any other relevant material is attached.

**VII. Final Provisions**

1. **Extension of Delays:** In exceptional circumstances where the appellant can demonstrate that it was impossible to file an appeal within the prescribed delay, SACAM may allow the appeal to be filed past the deadline.

   If the ninety (90) calendar day deadline for hearing a case before a Hearing Committee or SACAM falls on a date in July, August or September, the Committee concerned may decide to extend the deadline to the same date in the month of October. The Chair of a Hearing Committee or the Secretary of Senate, as the case may be, notifies the student and other interested parties of the extension.

2. **Written notice:**
   a) Any written notice addressed to a student under this Code is sent by registered or certified mail at the last address given to the University.
   b) A student involved in proceedings under the present Code must provide a current mailing address to the University, and must notify the University promptly of any change of address.
   c) Students are advised to send all correspondence under this Code by Registered or Certified Mail.
SECTION 17
CONVOCATION MEDALS AND PRIZES

17.1 GOVERNOR GENERAL'S AWARD

17.2 UNIVERSITY AWARDS

17.3 FACULTY AWARDS
   17.3.1 Faculty of Arts and Science
   17.3.2 Faculty of Commerce and Administration
   17.3.3 Faculty of Engineering and Computer Science
   17.3.4 Faculty of Fine Arts

17.4 SPECIAL AWARDS
17.1 Governor General’s Award

The Governor General’s Medal: Presented by her Excellency, the Governor General of Canada, and awarded to the highest ranking student graduating from Concordia University.

17.2 University Awards

The Birks Medal: Presented by Henry Birks & Sons (Montreal) Ltd., and awarded to the highest ranking student graduating with the degree of Bachelor of Arts.

The Mappin Medal: Presented by Mappin’s Ltd., and awarded to the highest ranking student graduating with the degree of Bachelor of Science.

The Frosst Medal: Presented by Charles E. Frosst & Co., and awarded to the highest ranking student graduating with the degree of Bachelor of Commerce.

The Administration Medal: Presented by Y.W. Kan in memory of P. Grogan, s.j., and awarded to the highest ranking student graduating with the degree of Bachelor of Administration.

The Chait Medal: Awarded to the highest ranking student graduating with the degree of Bachelor of Engineering.

The Alfred Pinsky Medal: Awarded to the most outstanding student graduating with the degree of Bachelor of Fine Arts.

The Computer Science Medal: Awarded to the highest ranking student graduating with the degree of Bachelor of Computer Science.

The Anne Stokes Medal: Awarded to the highest ranking student graduating with the degree of Bachelor of Education in Teaching of English as a Second Language.

17.3 Faculty Awards

The prizes listed in this section are awarded to the most outstanding graduating student in a Department (or Unit). Candidates are nominated by the Departments or Units for consideration and approved by the appropriate Faculty Council and Senate. The Departments or Units in making their selection may include, in addition to a high grade point average, other criteria such as number and/or level of the courses taken, outstanding results on a project or essay, or a significant contribution to the extracurricular life of the department.

17.3.1 FACULTY OF ARTS AND SCIENCE

The Robert C. Rae Book Prize in Applied Social Science
The CIP Inc. Prize in Biology
The Celanese Canada Ltd. Prize for Chemistry
The Classics Book Prize
The Communication Studies Medal
The Sun Life Prize in Economics
The Education Book Prize
The Celanese Canada Ltd. Prize for English
The Exercise Science Plaque
The French Book Prize
The Bogdan Zaborski Medal in Geography
The André Deland Medal for Geology
The Health Education Medal
The Martin Lewis Memorial Book Prize in History
The Interdisciplinary Studies Medal
The Gordon Fisher Prize for Journalism
The Leisure Studies Medal
The Liberal Arts College Prize
The Library Studies Plaque
The Lonergan University College Prize
The Eric O’Connor Mathematics Medal
The Modern Languages and Linguistics Plaque
The W.R. Fraser Medal for Philosophy  
The Walter Raudorf Medal for Physics  
The Renee Vautelet Prize for Political Science  
The J.W. Bridges Medal for Psychology  
The Boyd Sinyard Prize for Religion  
The School of Community and Public Affairs Prize  
The Science College Prize  
The Everett C. Hughes Medal for Sociology and Anthropology  
The Theological Studies Medal  
The Thérèse F. Casgrain Medal for Women's Studies

17.3.2 FACULTY OF COMMERCE AND ADMINISTRATION  
The Ross Medal for Accountancy  
The Decision Sciences and Management Information Systems Medal  
The Finance Medal  
The Management Medal  
The Marketing Medal

17.3.3 FACULTY OF ENGINEERING AND COMPUTER SCIENCE  
The Building Engineering Medal  
The Civil Engineering Medal  
The Computer Engineering Medal  
The Electrical Engineering Medal  
The Mechanical Engineering Medal

17.3.4 FACULTY OF FINE ARTS  
The Art Education Prize  
The Art History Prize  
The Cinema Prize  
The Contemporary Dance Prize  
The Design Art Prize  
The Music Prize  
The Painting and Drawing Prize  
The Printmaking and Photography Prize  
The Sculpture, Ceramics and Fibres Prize  
The Theatre Prize

17.4 Special Awards (Awards are made only when merited)

The Concordia Medal: Presented by the Alumni Association to a graduating student who has displayed distinctive leadership ability through both academic and non-academic achievements and has won the outstanding commendation of his/her fellows and of the Faculty.

The First Graduating Class Award: Presented on behalf of the first graduating class of the Faculty of Arts, Science and Commerce of Sir George Williams College, known as the Guinea Pig Club, for the most innovative and new contribution either academic or extra-curricular to university life.

The Malone Medal: Presented in honour of Rev. Patrick G. Malone, s.j., and awarded to the graduating student who has made the most outstanding contribution to the internal university community through commitment (a) to improve the quality of student life OR (b) to pursue a cause and achieve a goal which brings distinction to the University.

The O’Brien Medal: Presented in honour of Dr. J.W. O’Brien and awarded to the graduating student whose efforts and dedication best exemplify the values of the university within the larger external community.
SECTION 18
STUDENT SERVICES

18.1 DEPARTMENT OF FITNESS, RECREATION AND ATHLETICS

18.2 CONCORDIA GUIDANCE SERVICES
   18.2.1 Counselling
   18.2.2 Learning Skills Training
   18.2.3 Group/Workshop Programme
   18.2.4 Guidance Information Centre
   18.2.5 Canada Employment Centre

18.3 SCHOLARSHIP AND FINANCIAL AID INFORMATION
   18.3.1 Concordia Entrance Scholarships
   18.3.2 Concordia University Awards
   18.3.3 Government of Québec
   18.3.4 Federal and Provincial Loans and Bursaries

18.4 STUDENT LIFE AND STUDENT SERVICES
   18.4.1 Student Life and Student Services
   18.4.2 Lacolle Centre
   18.4.3 Social and Cultural Activities
   18.4.4 Health Services
   18.4.5 Legal Information Services
   18.4.6 International Students
   18.4.7 Residences and Housing
   18.4.8 Campus Ministry
   18.4.9 Services for Disabled Students

18.5 RIGHTS AND RESPONSIBILITIES—OMBUDS OFFICE
The Department of Fitness, Recreation and Athletics offers a complete and diversified programme to meet the varied interests of today's students. The aim is to provide an opportunity for all students to participate and not just those who play varsity sports.

A comprehensive intramural programme operates on both campuses. It provides an extensive selection of fitness, team and sport activities for men and women under the supervision of professionally trained instructors.

The Interuniversity Varsity programme is primarily for students with playing experience. Graduate-level, as well as undergraduate, students pursuing studies on a full-time basis and meeting the requirements of the Quebec University Athletic Association and of the Canadian Interuniversity Athletic Union are eligible to participate.

The south campus is the focal point of all Fitness, Recreation and Sports on the Loyola Campus. This area includes full-length playing fields and a modern fitness and recreation centre complete with an ice arena, gymnasium, weight training and exercise rooms. The Sir George Williams Intramural programme is centered in the Victoria School gymnasium.

Detailed information on fitness, recreation and athletic activities is available at the Sports Complex on the Loyola Campus, and at the Sir George Williams Campus Athletics office located at 1822 de Maisonneuve W. For further information, telephone 848-3850, Loyola Campus, or 848-3860, Sir George Williams Campus.
18.2 Concordia Guidance Services

Concordia Guidance Services provides the following: (1) Individual Counselling, (2) Learning Skills Training, (3) Group/Workshop Programme, (4) Guidance Information Centre, (5) Canada Employment Centre.

18.2.1 COUNSELLING
Counselling is offered in the following areas:

Educational Counselling
This includes university familiarization, planning a major or honours programme, decisions pertaining to graduate studies and postgraduate training.

Vocational Counselling
Individuals are helped to make realistic career choices based on their interests, abilities and other needs, reconciled with the available opportunities.

Personal Counselling
Many students have problems which are not directly related to the university environment, but nevertheless affect their sense of well-being, e.g. family problems, social problems, depression, feelings of isolation. Discussion with a counsellor can help in clarifying the issues and in finding ways to cope with these problems.

18.2.2 LEARNING SKILLS TRAINING
This programme includes individual assistance and group programmes in the areas of Reading Efficiency, Study Skills and Notetaking. As well, individual appointments are available with Writing Assistants to help students having difficulty writing papers, cases, and assignments. Additional support with writing problems is available through writing workshops.

18.2.3 GROUP/WORKSHOP PROGRAMME
Because a group format is often a more effective way to deal with such topics as Job Search, Career Planning, Assertiveness Training, Exam Anxiety, Stress Management, Personal Growth, and Time Management, the office offers a comprehensive group/workshop programme in these areas. Students gain additional benefit from their interactions and the experiences of others who have the same concerns.

18.2.4 GUIDANCE INFORMATION CENTRE
The Guidance Information Centre makes available information on educational and career planning. The major areas of the collection are devoted to directories of education programmes, university calendars; books on career choice, job hunting and résumé-writing; employer literature, personal development and learning skills information.

18.2.5 CANADA EMPLOYMENT CENTRE
This service, staffed and operated in cooperation with the Canada Employment Centre, functions to assist students in exploring opportunities for part-time, summer and full-time employment. Notices from employers are posted, and students are invited to discuss these with a Placement Officer who will assist in arranging interviews with employers' representatives, as appropriate.

This office is located at:
2070 Mackay Street
Tel. 283-5177
18.3 Scholarship and Financial Aid Information

General Information
The office of the Dean of Students maintains constant staff coverage in the area of financial aid and members of the staff are available to assist students in solving individual problems or in explaining existing regulations.

Bursaries and Loans
All students are expected to apply first to their home province or state and accept the maximum loan and bursary from these sources. Students should note that financial assistance is limited, and they are strongly advised to weigh their financial position at the start of each academic year. An inability to meet the expenses involved can reflect directly upon academic performance and place the student’s career in jeopardy. The basic principle of awarding financial aid is that the primary obligation in paying for an education rests with the students and their parents. This means that a student is expected to have savings from summer employment and that parents must contribute according to their ability. The Financial Aid Office exists solely to assist students and to help them find financial aid should it be required.

Graduate Awards Office
The Graduate Awards Office assists students who are seeking financial support for study or research leading to an advanced degree. A “Guide to Awards for Graduate Studies” is published by the office and is available to students seeking such assistance. Most awards are in the form of scholarships or fellowships which normally do not require repayment. These awards are usually designed to cover books, tuition, basic living expenses, and in some cases, travel to and from the University.

For further information, contact the Graduate Awards Office at 2145 Mackay Street.

18.3.1 Concordia Entrance Scholarships
Fall Entrance Scholarships: A number of scholarships are available to students entering their first year of full-time study. These are awarded by the University Scholarship and Awards Committee on the basis of academic achievement during the first three semesters of CEGEP or equivalent. Applications are available from the Financial Aid Office and must be returned prior to March 1. Some of the scholarships are valued at $2000 and $1000 per year. These scholarships are renewable for two (2) subsequent years providing the renewal requirements are met.

January Entrance Scholarships: A number of scholarships are available to students entering Concordia in January. Applications are available at the Financial Aid Office and must be returned prior to November 15. These scholarships are valued at $1000 and $500 per semester. These awards are renewable for five (5) subsequent semesters providing the renewal requirements are met.

Mature Students Entrance Scholarships: This programme is intended for students admitted to the University as “Mature Students”. Applications are accepted from students who have successfully completed their first 18 credit requirement prior to entering their regular programme of studies. Applications are available in the Financial Aid Office and must be returned by May 1 for consideration for the following fall semester and January 15 for consideration for the winter semester. Applications must be made at the end of the semester where the first 18 credits are completed.

Senior Scholarships: A number of scholarships are awarded to students who are sixty (60) years of age or over. Applications are available at the Financial Aid Office and must be returned by September 1. These scholarships have a value of $500 each per academic year and are renewable for a maximum of four subsequent years providing the renewal requirements are met.

Departmental Entrance Scholarships
The Institute for Co-operative Education Entrance Scholarship: Scholarships are awarded annually to first year students studying Mathematics, Economics, and Chemistry. The amount of the award is variable from year to year. Recipients are selected upon the recommendation of the Co-op Programme Director of the department after consultation with their advisers and are notified in early Fall. For further information contact the Principal, Institute for Co-operative Education.

The Liberal Arts College Entrance Scholarship: Apply to the Principal, Liberal Arts College.
Entrance Scholarships Offered by Foundations, Associations and Companies

Celanese Canada Limited: Several entrance scholarships in any course leading to a baccalaureate degree are offered to the children of employees or annuitants of Chemcell or its subsidiary companies. Further information and application forms should be requested directly from the Director of Awards, Chemcell Limited, 151 Slater Street, Ottawa. Completed forms, in triplicate, are to be sent directly to the same address to arrive no later than June 1.

Consumers Glass Company Limited University Education Awards Plan: Open to children or wards of employees and retired employees of Consumers Glass Company Limited for a full-time course of study in any Canadian university or college recognized by the Association of Universities and Colleges of Canada. These scholarships are renewable for a maximum of four academic years, or until a first degree is obtained, whichever occurs first. Awards are automatically renewed, provided the students establish continuing eligibility and successfully complete the previous academic year. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa.

Continental Can Company Limited (Canadian Scholarships Plan): The Carle C. Conway Scholarship is offered to the children or grandchildren of the Company's employees. Application forms should be requested from the plant managers or district sales managers. The completed forms, in triplicate, are to be sent to the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa.

The Continental Insurance Companies (Canadian Scholarships Plan): University entrance scholarships in courses leading to baccalaureate degrees may be applied for by the natural or adopted children, stepchildren or legal wards of the employees of one of the Continental Companies operating in Canada. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa. Applications should arrive no later than June 1.

The Elizabeth Greenshields Foundation: Grants are made available to assist talented young artists (painting, drawing, printmaking, sculpture) in the early stages of their careers. Applicants must be under 31 years of age and their work must be representational — the Foundation's Charter precludes abstract art. Candidates may be nationals of any country. Application forms are sent upon request only. Contact: The Elizabeth Greenshields Foundation, 1814 Sherbrooke Street West, Montreal, Quebec H3H 1E4 Canada.

Gulf Oil Canada Limited: Several university entrance scholarships are awarded annually to the children, natural or adopted, of employees and annuitants of Gulf Oil of Canada and its subsidiary companies in Canada. Further information and application forms should be requested from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa. Applications should arrive no later than June 1.

Imperial Oil Higher Education Awards: Imperial Oil offers, annually, free tuition and other compulsory fees to all children or wards of employees and annuitants who proceed to higher education courses. These courses may be taken at any Canadian university or other approved institution of higher learning. Each award is tenable until the completion of a first degree, or for a maximum of four years. To be eligible a student must maintain an average of 70% or more in a college year upon which application is based. Further information and application forms may be obtained from The Secretary, Committee on Higher Education, Imperial Oil Limited, 111 St. Clair Avenue West, Toronto.

Indian and Northern Affairs of Canada: Funding for educational assistance is available from the Department of Indian Affairs, for Native post-secondary students. Indian students are encouraged to apply for Post-Secondary Education Assistance as soon as possible. Students must submit, to the Department of Indian Affairs or their Band Councils, proof of acceptance from the post-secondary institution they wish to attend, to enable final approval of their application for education assistance. For further information contact the Department of Indian Affairs or a Band Education Counsellor.

Iron Ore Company of Canada (Scholarship Plan): A limited number of entrance scholarships for study towards a first degree are offered to children or wards of employees or annuitants or deceased annuitants of the parent or subsidiary companies. Further information and application forms should be requested from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa. Completed forms, in triplicate, are to arrive no later than June 1.

Leonard Foundation Scholarships: Applications for scholarships must be filed before March 31 of each year. Preference in the selection of students for scholarships shall be given to the sons and daughters
of clergymen, schoolteachers, Officers, Non-Commissioned Officers and Men (active or retired) who have served in Her Majesty's Military, Naval, or Air Forces, graduates of the Royal Military College of Canada, members of the Engineering Institute of Canada, members of the Mining and Metallurgical Institute of Canada. Apply to the Senior Trust Officer, Canada Trust Company, 253 Bay Street, Toronto, Ontario.

**Rona and Irving Levitt Family Foundation Entrance Scholarship:** Intended to assist capable students to attend Concordia University, a number of scholarships are available to students entering their first year of full-time study. These are awarded by the University Scholarship and Awards Committee on the basis of academic achievement during the first three (3) semesters of CEGEP or equivalent. Application forms are available from the Financial Aid Office and must be returned prior to March 1.

**Quebec Cartier Mining Company:** A limited number of four-year or first-degree entrance scholarships are offered to candidates whose parents or legal guardians have been employees of the company for at least four years. Further information and application forms may be obtained from the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa.

**Texaco Canada Merit Scholarship Programme:** Several entrance scholarships to provide up to a maximum of the first four years of undergraduate study may be applied for by dependent children, natural or legally adopted, of employees or annuitants or deceased annuitants who died while employed by Texaco Canada. Application forms may be obtained by employees from their supervisor. Completed applications, in triplicate, must be sent to the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa no later than June 1.

### 18.3.2 Concordia University Awards

Two types of awards are available to students through the Financial Aid Office: Scholarships and bursaries. Concordia University, various foundations, corporations, alumni, members of the University community, and friends of Concordia contribute to these awards which recognize outstanding academic achievement as well as assist needy, deserving students. Unless otherwise stated, no applications are required as recipients are recommended by department chairs.

**In-Course Scholarships**

In-course Scholarships are awarded to full-time students (unless otherwise indicated) who have completed at least twenty-four (24) credits at Concordia. Recipients are selected in the summer on the basis of the previous year's academic achievement. The scholarships are paid in the following fall and winter semesters. Recipients must maintain their full-time status throughout the year the award is tenable. Unless indicated, no application is required as academic performance is reviewed with the Registrar's Office.

**Alain Award in Electro-Acoustics:** The Alain Award is given annually to the student who demonstrates commitment and ability in the field of electro-acoustics. The award is open to any student at Concordia University registered in a degree programme. The recipient(s) of the award will be determined by the Music Department Scholarship Committee, on recommendations received from faculty members working in the area of electro-acoustics. The award will be made in the spring of each year.

**Association of Alumni of Sir George Williams University Scholarship:** Established through the generosity of the Association of Alumni of Sir George Williams University. These scholarships will be awarded to full-time students in any faculty in any academic year. Recipients will be selected on the basis of scholastic achievement.

**The Eva Evelyn Mendelsohn Beiner Memorial Scholarship:** This scholarship has been established in loving memory of the late Mrs. Eva Evelyn Mendelsohn Beiner by her son Stanley Cecil, a faculty member at Concordia University. During her lifetime she was a distinguished citizen, humanitarian and woman of valour who, among many public activities, rendered faithful service to the cause of education. The scholarship will be awarded each year to a deserving undergraduate in the Faculty of Commerce and Administration with a superior academic record and who has made a significant contribution to student life. To perpetuate the memory of a truly accomplished mother, this scholarship will be made available to that student whose academic interests and record, combined with personal qualities, indicate marked promise.

**The Stacie-Lee Bessner Memorial Scholarship:** Established by the Bessner family in memory of their daughter and awarded to a student entering second or third year in the Faculty of Commerce and Administration.

**The Russell Breen Scholarship:** Established in honour of Dr. Russell Breen for his many years of dedication and service to Loyola College and Concordia University. This award is open to all full-time students in any faculty on the basis of academic performance.

**The Gunther Brink/Petro Canada Scholarship:** Established by Petro Canada in honour of Professor Gunther Brink's work and contribution to education as a professor and Dean of the Faculty of Com-
merce and Administration. The scholarship will be awarded on the basis of academic achievement to a student registered full time in the Faculty of Commerce and Administration.

**Canadian Marconi Company Scholarships:** These scholarships will be awarded on a merit basis to full-time students registered in the Electrical or Computer Engineering programme.

**The Canadian Tire Scholarship:** Awarded to a Commerce student majoring in the field of Marketing.

**Canadian Women's Press Club (Montreal Branch) Scholarship:** Established in 1976 and first awarded in 1977, this award is offered annually to a Journalism student entering second or third year. The award is made on the basis of scholarship, integrity and dedication to the profession of journalism. Applicants should apply to the Director of the department and must include a copy of their most current transcript as well as two articles chosen from their published or classroom work.

**The CJFM Radio Scholarship:** This scholarship will be given annually to an outstanding student with second year standing in either Communication Studies or Journalism. The award will be given on the basis of scholastic achievement. Interested candidates should contact the Chair of Communication Studies or of Journalism.

**Harry Clinch Book Prize:** Awarded annually to an outstanding Geography Major.

**The Philip Cohen Music Award:** Granted to a full-time student who demonstrates outstanding potential as an instrument performer. The prize is named for Philip Cohen who was greatly responsible for the development of an "alternative" music programme at Concordia in the late 1960's. Intended for final year undergraduate and graduate level students in music, it is to be awarded to the best qualified student. Candidates will be asked to perform an approved programme of at least 20 minutes' duration in the presence of a departmental jury. Applications must be made to the department.

**The Harry and Grace Colle Scholarship:** This scholarship is awarded annually to a full-time student in any discipline. The award is made possible by a bequest to the University by Mrs. Grace Colle, and continues the lifelong interest of her and her husband in the education of young individuals.

**Compton-Lamb Memorial Fund:** This scholarship, established in memory of the late Neil Compton and Sidney Lamb, is awarded annually in the Department of English. The recipient must be entering the last thirty credits of an English Honours programme. Application should be made to the Chair, Department of English.

**The Digital Equipment Scholarship:** Established by Digital Equipment of Canada Limited and awarded to an outstanding student with high academic performance in the field of Computer Science.

**Carmine Di Michele Scholarship:** This scholarship is awarded annually to a student majoring in Italian upon the recommendation of the Chair of the Department.

**The Pauline Donalda Scholarship:** Awarded to a full-time student in the Faculty of Fine Arts through the Montreal Opera Guild.

**Jean Fowler Scholarship:** Awarded to a Commerce student on the basis of academic achievement.

**Friends of Concordia Scholarship Fund:** This fund was established through contributions from various foundations, corporations, alumni, members of the University community and friends of Concordia. These scholarships are awarded at the discretion of the University Scholarships and Awards Committee in recognition of academic achievement to undergraduate students without restriction to their field of study.

**Peter Glasheen Memorial Scholarship:** Established by friends, associates and family of Peter Glasheen as a tribute to the spirit of his life—a major aspect of which was his abiding commitment to young people, their education and their future. Awarded annually to an outstanding student in the International Business programme of the Faculty of Commerce and Administration.

**The Cynthia Gunn Journalism Award:** Established in 1981 by family and friends to honour the memory of Montreal Star and Gazette reporter Cynthia Gunn after her death in 1980, and awarded to the best prospective journalist currently enrolled in a third-year writing workshop of the journalism programme. Applicants are judged on the basis of marks, published written work (if any), and written work produced for journalism workshops. Applications must include a current transcript, two samples of written class work and two samples of written published work. Apply to the Director of Journalism.

**Henry F. Hall Scholarship:** Established by the faculty and staff of Sir George Williams University in recognition of the many years of service given to the University by the late Dr. Henry F. Hall, this scholarship is awarded annually on the basis of merit to a student in any faculty of the University.

**The Hellenic Student Association Scholarship:** Established by the Hellenic Student Association this scholarship will be awarded annually to a full-time student. Recipients may be Canadian citizens, permanent residents or foreign students, however, applicants must demonstrate Greek ethnic origin by
providing an English copy of the applicant’s and/or applicant’s parents’ birth certificates. Interested candidates must advise the Director of Financial Aid in writing, provide their University identification number and supporting documents no later than June 15 for consideration for the following academic year.

The B. Hunt Scholarship

Ada Israel Memorial Scholarship: This scholarship is to be awarded in memory of Ada Israel, once a student in the Concordia Philosophy Department. It is awarded for academic excellence and contribution to the Concordia Philosophy community. It is tenable by a student in an undergraduate programme of the Department who has completed at least twenty-four (24) credits in the programme. Selection of the recipient(s) will be made by the Chair of the Philosophy Department in consultation with the Undergraduate Studies Committee of the Department.

The E. Leslie Jowett Scholarship: Established through the generosity of Mr. E. Leslie Jowett, a former Sir George Williams’s College student. These scholarships will be awarded annually to deserving full-time students without restriction to their field of study.

Kodak Scholarships: These scholarships are awarded annually to Cinema and Photography students on the basis of outstanding merit in Film Production. Apply to the Chair of the department.

The Irving Layton Award for Creative Writing: Established by the Department of English with the support of friends and colleagues, this award was established to honour one of Montreal’s and Canada’s finest poets. Irving Layton’s associations with Concordia are manifold and include many years as a generous and inspiring teacher, distinctive service as writer-in-residence on several occasions and as Adjunct Professor of English. This scholarship will be awarded to students who are completing their last thirty (30) credits of their programme and who have demonstrated excellence in the writing of poetry, fiction or drama. For further information and application contact the Chair of the Department of English.

Le Château Stores Scholarship: Awarded to a student in the Faculty of Commerce and Administration who is entering final year and specializing in Marketing.

Magil Construction Ltd. Scholarships: A number of in-course scholarships are available for full-time undergraduate students in the Civil Engineering programme and for students who have completed 35 or 70 credits in the Building Studies programme. The recipients will be selected by the Chair of their respective programmes in the summer of each year, on the basis of academic excellence.

The Peter Matthews Memorial Scholarship: Established in 1987 by his family to honour the memory of Peter Kent Matthews who died in 1986. The scholarship will be awarded to a full-time Computer Science student who completed a minimum of 30 credits in the programme and is entering the second or final year of the undergraduate programme or entering the first or second year of a master’s programme. Selection is made on the basis of academic standing upon the recommendation of a Computer Science faculty member.

McGrath-Smith Memorial Scholarship: Awarded to a student in the Faculty of Arts and Science, majoring in Geography. Recipients are chosen upon the recommendation of the Chair of the department.

Norman McLaren Animation Scholarship: Scholarship tenable by a student of the Cinema Department. For further information contact: The Cinema Department.

Helen McNicoll Art Prize: This prize is awarded in alternate years to third-year students who have shown exceptional talent in Visual Arts, and to third-year students who have excelled in Art History (preferably Canadian or North American). Both selections are made upon the recommendation of the Faculty of Fine Arts.

The James McQueen Scholarship: Established by the McQueen family, this scholarship is to be awarded to an outstanding student in the Faculty of Engineering and Computer Science upon the recommendation of the Chair.

Myer F. Pollock Scholarship: Awarded annually to a student in the Faculty of Engineering and Computer Science on the basis of high scholastic achievement.

The P. T. R. Pugsley Memorial Scholarship: Established by friends of the late Professor Pugsley to commemorate his many years of service as senior Professor of the Faculty of Commerce and Administration at Sir George Williams University. This scholarship is awarded annually to an outstanding student in the Faculty of Commerce and Administration.

Richter, Usher & Vineberg 60th Anniversary Scholarship: Granted to a student majoring in Accountancy and entering their second year of the programme.

The Ian Roberts Memorial Scholarship: this award is established in memory of Ian Roberts founder and president of Ian Roberts Inc. The award will be twofold: it will carry a cash award and provide the recipient with summer employment for a period of thirteen weeks between May and the end of August.
The scholarship will be granted to a Commerce student majoring in Marketing and entering their final academic year following the summer work period. The recipient will be required to have completed the "Advertising and Sales Promotion Management" course (MARK 453). The recipient is to be nominated by the Chair of the Marketing Department to the University Scholarships and Awards Committee in April.

The Anne Savage Memorial Scholarship: This scholarship is awarded annually in memory of Anne Savage, painter and art educator. It is awarded to a deserving student in the Faculty of Fine Arts, majoring in Art Education, upon the recommendation of the Fine Arts Faculty Council. Recipients are selected on the basis of artistic and academic achievement and commitment to the vocation of teaching.

The Segal Scholarship: Awarded to a full-time student in any faculty or course year on the basis of high academic achievement.

Casimir Stanczykowski Engineering Scholarship: In memory of Mr. Casimir Stanczykowski, two (2) scholarships are available. Interested students should contact the Associate Dean, Student Affairs, Faculty of Engineering and Computer Science.

The Ruth Louise Vaughan Memorial Scholarship: Established by the Vaughan family in memory of their daughter. This award is presented annually to a student in the Faculty of Fine Arts.

Mair Verthuy Scholarship: This scholarship is intended for an undergraduate student majoring in Women's Studies. The recipient must have completed 60 credits with a minimum overall GPA of 3.00; of the completed credits at least 30 must be from Women Studies courses with a minimum 3.50 GPA.

The Weldon Scholarship: Awarded annually to a deserving student in the Faculty of Engineering and Computer Science at the discretion of the University Scholarship Committee.

The Susan Levin Woods Scholarship: This scholarship is to be awarded annually to a Canadian woman who has demonstrated excellence in her studies and who is pursuing a degree in Political Science on a part-time basis while following a career path or bringing up a family. Recipient must have completed 30 credits towards her degree. Recipient to be selected by the Chair of the Department. Application form is available at the Financial Aid Office and must be submitted before August 1.

The Woolworth-Woolco Scholarship: Awarded to a final-year student, in the Faculty of Commerce and Administration, who has demonstrated superior qualities and abilities in academic standing and leadership presentation and who has a proven interest in retailing.

The Loyola Foundation Scholarships

The Lilley F. Barry Scholarships: Awarded in memory of Lilley F. Barry.

The Gordon Bennett Memorial Scholarships: In memory of the late Gordon Bennett.

The Charles J. Brown Scholarship: Donated by William J. Brown in memory of his late father.

The Ursula Carling Scholarship: In memory of Ursula Carling.

The Dr. Arthur Donohue Memorial Scholarship: Established in memory of the late Dr. Arthur Donohue, a graduate of Loyola College, Arts, 1918. This award is presented annually to a Science student.

The Francis J. Dowling Scholarship: In memory of the late Francis J. Dowling.

The Michael and Patricia Kindellan Memorial Scholarship: Established by the Kindellan family.

The Malone Scholarships: Established in honour of Patrick G. Malone, s.j., President of Loyola College from 1959 until 1975. The Malone Scholarships are awarded to students on the Loyola Campus who have combined high academic achievement with leadership ability, commitment to and involvement in the student community.

The Kenneth J. McArdle Memorial Scholarship: Donated by Mrs. Mary McArdle and offered to a student in Science.

The R.C. Moore Memorial Scholarship: Open to a student who does not already possess a scholarship and is enrolled in either Honours Mathematics or Specialization in Mathematics (formerly Major in Mathematics), and entering third year. Awarded on the basis of the marks obtained in Mathematics courses taken during first and second year.

The Mrs. John Moriarty Scholarship: Established in memory of Mrs. John Moriarty.
The Winnifred O'Reilly Memorial Scholarship: In memory of Winnifred O'Reilly.

St. Ignatius Men's Association Scholarship: Donated by members of the Association.

The Clarence G. Smith Memorial Scholarship: From the estate of Mrs. Elizabeth M. Smith in memory of her son.

In-Course Bursaries
These awards are made on the basis of financial need and high academic standing. Applications are available at the Financial Aid Office on either campus and should be returned no later than January 31, unless stated otherwise. The value of each award may fluctuate yearly depending upon current interest rates.

All Canadian Football Achievement Bursary: The award is given to an athlete who has at least one year of playing experience with the University football team. The recipient shall have completed a minimum of twenty-four (24) full-time credits at Concordia with a cumulative average of at least 3.30 GPA. This award is available to undergraduate or graduate students. Application forms are available at the Financial Aid Office and must be submitted no later than August 15.

The Arthur Anderson & Company Tuition Bursary: Awarded to a student entering the final year in the Bachelor of Commerce programme and majoring in Accountancy. The bursary is awarded on the basis of academic merit and demonstrated leadership qualities in the classroom and in student activities.

The Association of Alumni Bursary: Awarded annually to a student in any faculty on the basis of need and academic standing.

The Joel Birenbaum Memorial Bursary: This bursary is awarded each year in memory of Joel Birenbaum, formerly a student of Sir George Williams University. This award is offered to a needy, worthy student in the Faculty of Arts and Science.

The Birks Family Foundation Bursaries: The Birks Family Foundation has established a plan of annual contributions to the Student Aid Fund of recognized Canadian universities for the creation of the Birks Family Foundation Bursaries. These bursaries are awarded by the Foundation on the recommendation of the Financial Aid Committee, and are not restricted to any faculty or course year and may be renewed. The number and amount of awards may vary annually depending upon the funds available for the purpose from the Foundation.

The Donald Buchanan Bursary: Awarded on the basis of academic achievement and financial need to a student in any faculty.

Ethel Campbell P.E.O. Memorial Bursary: Established by Mr. Colin Campbell in loving memory of his wife Ethel May Routlage Campbell, this bursary will be given to a female of any faculty.

The Henry I. Chinks Memorial Bursary: Awarded annually on the basis of need and academic standing to an evening student in the Faculty of Arts and Science, in the department of Chemistry. The recipient is recommended by the Chair of the department.

The CJFM Radio Bursaries: Two (2) bursaries will be awarded annually to one (1) female and one (1) male student in the Communication Studies or Journalism programmes. Applicants will be selected on the basis of academic achievement combined with financial need. Applicants will also be required to submit a short essay on the role of radio in the Montreal community. For further information contact the Chair of Communication Studies or of Journalism.

The J.P. Copland Memorial Bursary: Awarded to a student in any faculty.

The Dalse Club of Montreal: This bursary will be awarded to a deserving Canadian citizen or permanent resident pursuing full-time studies.

The Marjorie S. Dewitz Bursary: Established by friends and colleagues of Mrs. Dewitz, this bursary will be awarded to a female full-time student who is a Canadian citizen or a permanent resident and who has completed at least twenty-four (24) credits in her programme of study. Furthermore, the recipient must be registered in a double major in Women's Studies and Political Science or combining a Major and a Minor in both disciplines. The recipient will be selected by the Undergraduate Bursary Selection Committee on the basis of nominations received from the Principal of the Simone de Beauvoir Institute and the Chair of the Political Science Department.

The Engineers Wives' Association Bursary: This fund was established by the Engineers Wives' Association and is awarded to a needy student, preferably in first-year Engineering.

Film Production Grants: A number of bursaries in Film Production are offered through the Department of Cinema, Faculty of Fine Arts. For further information on what is available and how to apply, contact: Professor Morton, Professor Locke or Professor Waugh.
The Professor Janies Gilchrist Finnie Bursary: Awarded annually to a needy student entering final year.

The Magnus Flynn Bursary: This award was established to honour Magnus Flynn and his years of devotion to Sir George Williams and Concordia universities. This award is granted to a Commerce student with high academic standing and a strong contribution to student life upon the recommendation of the Chair of the department.

Maurice Gold Memorial Bursary: Established by family, friends and colleagues of Maurice Gold, former faculty member of the Department of Accountancy. This bursary will be given to a needy and deserving Accountancy Major.

The Ernest Haznoff Memorial Bursary: Awarded on the basis of financial need to a student majoring or honouring in Philosophy.

The Ralph B. Hood Memorial Bursary: Open to any student in any faculty.

Japanese-Canadian Bursary: Established in memory of Japanese-Canadians who served in the Canadian Forces in World War I and II. This bursary is awarded to a needy and deserving student in any faculty.

The Joseph Gilbert Joyce Memorial Bursary: This bursary is awarded to a part-time student in any faculty or course year. It is awarded on the basis of academic standing, financial need and promise in the student's chosen field of study. During his 24-year ministry at Verdun United Church, the late Reverend J.G. Joyce maintained a deep interest in the evening division of the University. This bursary is established according to his conviction that knowledge and higher education be available to those who seek to make a creative contribution to the development of humanity.

The Bruno and Stella Lebel Fine Arts Bursary: Established in memory of the late Bruno and Stella Lebel and awarded to a student in the Faculty of Fine Arts on the basis of financial need and high academic standing.

The Loyola News Memorial Bursary: Awarded annually to a spring graduate who has combined community involvement and a 3.00 GPA. The student may apply or be nominated by the Dean of Students.

McDonald's Restaurants of Canada Limited Bursary: This bursary is to be awarded annually to an undergraduate Commerce student who is deserving both academically and financially.

The Marsh McLennan Centennial Bursary: This bursary is awarded annually to an undergraduate student who has completed at least one year at Concordia. Selection is made on the basis of need and academic standing and preference will be given to a Commerce student.

The Nathan H. Messer Bursary: Two bursaries are awarded annually to needy, worthy students entering their final year and majoring in Accountancy, Faculty of Commerce and Administration. Awards are made by the Financial Aid Committee following consultation with the Chair of the department.

The John O'Brien Bursaries: In recognition of former Rector O'Brien's contribution to Concordia University, these bursaries have been established to encourage honours students in Economics. Bursaries will be given annually to the top two students entering Honours in Economics. The bursaries will be based upon academic performance. The bursaries need not be awarded if no suitable candidates are found. Interested students may contact the department Chair in May of each year.

The Harry Pinker Endowment Fund: Established in honour of Mr. Harry Pinker, this bursary is awarded annually to a needy and deserving student studying in the Faculty of Arts and Science.

The Mrs. Tony Robinson Career Enhancement Bursary: Awarded annually to an applicant 45 years of age or over who has engaged in full-time or part-time studies towards an undergraduate degree. The applicants may be permanent residents or Canadian citizens who must engage in a university programme in order to change or upgrade their career qualifications, or persons who have had an interruption in their university programme and now wish to continue. Applicants will be considered on the basis of merit and financial need. This award is made possible through the National Council of Jewish Women of Canada.

The Theodore Ronis Memorial Bursary: This bursary has been established by the friends of the late Theodore Ronis to perpetuate the memory of his friendship through the annual gift of a bursary to a deserving student. The recipient should be studying preferably, but not necessarily, towards a Bachelor of Commerce degree. This award is made possible through the National Council of Jewish Women of Canada.

Royal Albert Lodge Bursary: Awarded a) to children of members of the Royal Albert Lodge, or b) to children of members of other Masonic Lodges. If neither A nor B qualify, any worthy student may apply and receive this bursary at the discretion of the Financial Aid Committee.

The St. Andrew's Society Bursary: Established by the St. Andrew's Society of Montreal for a needy student, preferably of Scottish descent, proceeding to a degree. Applicants will be required to demonstrate proof of Scottish birth or ancestry.
The Jeffrey David Skowronski Dramatic Arts Bursary: Established by the Skowronski family in memory of Jeffrey David. This bursary will be awarded annually to a needy and deserving full-time undergraduate student who is majoring in theatre.

The Walter Stenhouse Bursary: This bursary, established by Mrs. E. Pavey and Mrs. J. Tombs, and awarded under the auspices of The Arts Club of Montreal, is available annually to a final-year student in the Faculty of Fine Arts.

The 3M Canada Inc. Bursary: 3M Canada Inc. makes an annual grant for bursaries to students registered full-time at the University. This award is based on satisfactory standing and demonstrated financial need.

The George V. Uihlein Memorial Bursary: Awarded annually to a spring graduate with an outstanding record in non-athletic extra-curricular activities and not less than a 3.00 GPA. The student may apply or be nominated.

University Women's Club of Montreal Bursary: The University Women's Club of Montreal Public Foundation is offering an educational grant to assist a mature woman who has been accepted into a full-time undergraduate programme at Concordia. This grant is for a woman whose university studies have been interrupted and who wishes to re-enroll in a full-time programme, or a woman who has not previously been registered in a full-time programme but has made the effort to qualify for admission. Application forms are available at the Financial Aid Office and must be submitted by March 1.

Jean Paul Vallee/Royal Lepage Bursary: Established by family, friends and associates to honour the late Jean Paul Vallee, this bursary will be awarded annually to a deserving and needy full-time undergraduate Commerce student.

The Professor J.P. Zweig Bursary: Established in recognition of the contribution of Professor Zweig to Sir George Williams and Concordia universities in teaching and student services during his 43 years of association with the universities. This bursary is awarded to a student on the basis of high scholastic achievement and a substantial contribution in the areas of Psychology of Fitness, Exercise Science and/or Behavioural Medicine. The candidates are to be nominated by Faculty members in the Psychology Department involved in the Psychology of Fitness, Exercise Science and/or Behavioural Medicine.

Departmental Scholarships

The following scholarships are administered internally through the various departments listed below. Application should be made directly to the department chairs.

The American Association of Cost Engineers (AACE) Award: Established in 1981, this award is given annually to a full-time Undergraduate student who has achieved the most outstanding performance in a set of three courses related to Cost Engineering: BLDG 401, BLDG 341, BLDG 491, and whose name appears on the list of potential graduates of the current year, or, failing that, to a Graduate student who has completed a thesis on a Cost Engineering topic. The award has a value of $500 plus complimentary membership in the AACE along with a one-year subscription to the journal Cost Engineering. This award is non-renewable.

Students must submit an application to the Undergraduate Coordinator. Graduate students must be recommended by the Graduate Coordinator and the thesis supervisor. The recipient is notified in May and awarded the cheque at the annual AACE meeting. For further information contact Dr. Kinh H. Ha, Centre for Building Studies, Undergraduate Coordinator.

The Al Cauley CJAD Electronic Journalism Grant: This scholarship was established in 1982 by Radio Station CJAD to honour long-time Montreal broadcaster Al Cauley. The scholarship is awarded annually to a second- or third-year student enrolled in the Journalism programme and who shows promise for a career in Broadcast Journalism.

Applications should be made to the Director of Journalism, and should include a description of the student's broadcast activities and interests, a copy of a transcript and a short demonstration tape (audio or video). The award is made in April and is non-renewable.

The Silas Katz Memorial Scholarship: First awarded in 1984, this award was made possible through donations from faculty, students and staff in memory of the late Dr. Silas Katz, Professor of Mechanical Engineering.

This award is granted to a Mechanical Engineering Undergraduate with a superior academic record, engineering initiative, and completion of between 30 and 90 credits. Selection is made by an Advisory Committee to the Chair and recipients are notified in October. The award is renewable if the student maintains criteria for award.

For further information contact: Chair, Mechanical Engineering.

The Liberal Arts College: The Liberal Arts College administers several scholarships which are awarded annually and range in value from $250 to $1000:

- The Frances and David Rubin Scholarships
- The Lois and Stan Tucker Scholarship
- The Liberal Arts College Entrance Scholarship
These awards are made possible by donations from friends of the Liberal Arts College and are based upon high academic performance. Renewal is possible providing the student maintains the criteria for the award.

For further information contact: Principal, Liberal Arts College.

The Political Science Jean H. Picard Foundation: A series of scholarships are available to Political Science students. Interested candidates should contact: Chair, Department of Political Science.

The David Rubin Award in Judaic Studies: A bursary is awarded to an Undergraduate student in Judaic Studies. The award is made in September. For further information contact: Chair, Department of Religion.

In-Course Scholarships and Bursaries Offered by Companies, Associations and Societies

Bell Canada: Seven (7) renewable bursaries are available for Quebec and Ontario. Candidate must be children of permanent employees or retired employees or deceased employees if employed with the company at the time of death. They must have maintained a 3.70 GPA for the previous two (2) years of university studies in a degree-granting programme. Write to: Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1.

The Henry F. Bennett Education Fund: The purpose of this fund is to make loans to deserving students who need financial assistance to enable them to study Engineering at the university level and who have proved themselves by successfully completing their first year in Engineering or the equivalent. Apply to the Engineering Institute of Canada, 2050 Mansfield Street, Montreal.

The Birks Family Foundation Scholarship Fund: Tuition scholarships are available to students who are the children of employees of Birks. Applications should be made to the Birks Family Foundation.

The Canadian Forces Benevolent Funds: The Canadian Forces Benevolent Funds consider applications from veterans for bursaries on behalf of their sons or daughters who are full-time students. Apply to the nearest local office of the Department of Veterans’ Affairs.

Canadian Italian Business and Professional Men’s Association: Bursaries are awarded by the Association to students of Italian origin or descent. Apply to the President, Trust Fund Committee, 6020 Jean Talon Street East, Suite 350, Montreal, Quebec H1S 3B1.

Canadian Water Resources Association Bursaries: Applicants must be Canadian citizens or landed immigrants. They should have been registered as full-time students in a Canadian University since the fall of 1984. The programme of study should focus on Canadian water resources. Applicants must be recommended by the Department Chair. Write, prior to October 31, to: Chairman, C.W.R.A. Scholarship Committee, Grand River Conservation Authority, 400 Clyde Road, Cambridge, Ontario N1R 5W6.

Culinar Inc.: Bursaries are awarded to dependent children of active employees (minimum 2 years) of the company. The candidates must be at least 21 years of age and have completed the last two (2) years of CEGEP studies within twenty-four (24) months, with an average of 3.30 GPA each year. Applicants must submit CEGEP transcripts, reference letters and any other relevant documents. Write, prior to June 2, to: Human Resources Department, Culinar Inc., 2 Complexe Desjardins, Suite 1610, Montreal, Quebec HSB 1B2.

Terry Fox Humanitarian Award: Applicants must be Canadian citizens or have applied for citizenship and must be duly registered in a Canadian university or college. Selection criteria for recipients will be based on demonstration of the highest ideals and qualities of citizenship and humanitarian service while in pursuit of excellence in their academic, amateur sport, fitness, health, community service or related endeavours. Deadline for submission of application forms with supporting documentation is February 1. Application forms may be obtained at the Financial Aid office by writing to: Terry Fox Humanitarian Award Program, 151 Sparks Street, Suite 771, Ottawa, Ontario K1P 5E3.

The C.J. Hewitt Bursaries: A number of bursaries are available from the estate of the late C.J. Hewitt. Preference will be given to members of the families of employees of Hewitt Equipment Limited, Montreal. For further information contact Personnel Office, C.J. Hewitt Equipment.

Hungarian Canadian Engineer’s Association — Student Trust Fund: Scholarships and bursaries are awarded by the Association to students of Hungarian origin or descent. Applications are evaluated on the basis of scholastic achievement, character, career plans and financial need. Information and application forms can be obtained by writing to: Hungarian Canadian Engineer’s Association, 5521 Randall Avenue, Côte St. Luc, Quebec, H4V 2V7.

Imasco Bursaries for Disabled Students: Candidates must be Canadian citizens and considered to be disabled according to the 1975 United Nations declaration. Students should be registered in an institution recognized by the Association of Universities and Colleges of Canada (Concordia included). Employees of Imasco or its affiliates are not eligible. Write, prior to June 1, to: the Director of Awards, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1.
La Fondation Girardin-Vaillancourt: Established by La Fondation Girardin-Vaillancourt and is offered to a Canadian citizen and resident of the province of Quebec. The applicants must be registered or intend to register in a full-time programme in one of the following areas of study: Co-operatives, Economics, Finance, Administration, Science or Arts. Application forms may be obtained at the Financial Aid office and must be submitted, prior to March 1, to: La Fondation Girardin-Vaillancourt, 1 Complexe Desjardins, Montreal, Quebec H3B 1E7.

Lakeshore University Women’s Club: Two bursaries are available from the Lakeshore University Women’s Club, each for $800. The undergraduate grant is provided to a female resident of the West Island of Montreal enrolling in university for the purpose of studying towards an undergraduate degree. The continuing education grant is awarded to a female university graduate returning to university to further qualify in a particular field. Financial need and academic standing are factors considered in determining the scholarship winners.

Lebanese Syrian Canadian Association: A series of scholarships are awarded annually to students of Lebanese, Syrian descent. Apply to the Chairman, Scholarship Committee, Lebanese Syrian Canadian Association, 40 Jean-Talon E., Montreal, Quebec H2R 2W5.

Loyola Alumni Association Inc. Educational Grant: Open to children and grandchildren of members of the Loyola Alumni Association Inc. for a full-time course of study. Awarded to students entering first-year university who have displayed, among other things, community involvement, leadership and evidence of financial need. For further information contact: Loyola Alumni Association Inc. office, Loyola Campus.

Public Service Commission of Canada: Awards are intended for translation students who wish to pursue their careers as translators in the Public Service of Canada. The Secretariats of State, Translation Office, will offer summer employment to the recipients. Write, prior to March 15, to: Personnel Director, Translation Office, Secretariates of State, National Building, 130 Slater Street, Ottawa, Ontario K1P 5H6.

The Quebec Federation of the Blind Inc. Bursary: Bursary assistance is awarded to registered blind students or their parents. Apply to the Activities Co-ordinator, Quebec Federation of the Blind Inc., 7000 Sherbrooke Street West, Room 115, Montreal, Quebec H4B 1R3.

Queen Elizabeth Silver Jubilee Awards: This award is offered to young Canadians wishing to pursue their studies in their second official language. Candidates must be Canadian citizens or permanent residents. (Permanent residents required to submit proof of status.) Candidates must have successfully completed at least one year of a university programme prior to the year of the award. In addition, they must demonstrate sufficient ability to carry out disciplinary studies in their second language. Candidates must apply to the Financial Aid office no later than February 1. Only one candidate per institution will be nominated.

Q.I.T. Fer et Titane Inc. Engineering Scholarship: Q.I.T. Fer et Titane Inc. offers a scholarship to a student enrolled in Electrical or Mechanical Engineering. The selection will be based on the following criteria:
- Student must be in second to last year of programme
- Canadian citizen or permanent resident
- Excellent academic performance
- Enthusiasm, leadership, initiative
- Financial need.
Interested candidates should contact the Associate Dean, Student Affairs, Faculty of Engineering and Computer Science.

St. Laurent Cement Company: Candidates must be dependent children of current or retired employees or of employees who died while employed by the company. Candidates must have maintained a 3.00 GPA in the last three years of study leading to university studies. Write, prior to June 25, to: Bursary Programme, Personnel Services, St. Laurent Cement Inc., 50 Place Cremazie West, Suite 1024, Montreal, Quebec H3P 5E3.

Robert and Mary Stanfield Foundation Undergraduate Bilingual Exchange Scholarships in Canadian Studies: The purpose is to improve understanding between French-speaking and English-speaking Canadians. The Scholarship will be awarded to assist the winners in their ongoing studies related to Canada, its cultures, people and institutions and to encourage their personal development. Field of study includes: Canadian Northern Studies, Canadian Plains Area Studies, French Canadian Studies, Native Studies, Canadian Politics and History, Canadian Foreign Policy, Economic Studies relating to Canada, Canadian Urban Studies and Canadian Literature. Candidates must be enrolled in their second or third year of university studies. Preference will be given to those planning to attend a university in another province. The language of study shall be French in the case of English-speaking winners and English in the case of French-speaking winners.

For further information and application forms contact: International Relations and Scholarship Administration, Canadian Awards Office, Association of Universities and Colleges of Canada, 151 Slater Street, Ottawa, Ontario K1P 5N1. Deadline is February 1.
Concordia Emergency Loan Funds
Funds are available at the Financial Aid Office for emergency loans. The funds are intended to help full- or part-time, undergraduate and graduate students. Apply at the Financial Aid Office.
These funds are made available by contributions from the Concordia Council on Student Life, the Concordia Undergraduate Students' Association, the Graduate Students' Association, the Engineering and Computer Science Students' Associations, and the St. Andrew's Society of Montreal.

Tuition Deferrals
Students who have received a confirmation of financial assistance from a government funding source and who are unable to pay their tuition fees by the required deadlines, may apply to defer payment until such time as they receive their funds. Application for tuition deferrals must be made through the Financial Aid Office.

18.3.3 Government of Quebec
Student Loans and Bursaries Service
Detailed information can be found in a government published booklet "Rules for Awards of Student Loans and Bursaries". This booklet is available at the Financial Aid Office.
The individual student has full responsibility for communicating with the government and making all the necessary arrangements to process the application form. All announcements concerning deadlines, conditions and awards will be posted upon receipt, on information boards located in the Financial Aid Office, SGW and Loyola campuses.
Provincial government assistance is available in the form of guaranteed loans and bursaries, the amount of which is in accordance with the financial needs of the student. It is important for students to note that the Department of Education operates on the philosophy that the primary responsibility for financing post-secondary education belongs to the students and/or their families. Government assistance is provided to supplement family-student resources, not replace them.

Eligibility Requirements
Students are eligible for government assistance if they meet the following conditions: 1) Canadian Citizen or Permanent Resident*, 2) domiciled and residing in Quebec for one year (excluding residents of other provinces who move to Quebec to pursue their full-time studies), 3) must be enrolled full-time with principal occupation of pursuing a course of study recognized by the Ministry of Education for a duration of at least thirteen weeks per session. Full-time credit load for undergraduate students is recognized as 12 credits per term.

As well, the applicant shall not have received assistance for a period exceeding:
A) 10 semesters of university studies to pursue a Bachelor's degree
B) 14 semesters of university studies to pursue two Bachelors or a professional degree
C) 9 semesters of university studies to pursue a Master's degree
D) 12 semesters of university studies to pursue a Doctorate degree

The periods described in A, B and C are not cumulative but independent of each other.

Deadlines
In order to expedite the processing of applications for financial aid, thereby accelerating the delivery of loan certificates and bursary cheques to educational institutions, the Direction générale de l'aide financière aux étudiants has set new deadlines for submission of application forms.
May 31
- May 31 for all students who had SUBMITTED a loan and bursary application form for the previous school year
June 30
- June 30 for all students who DID NOT SUBMIT a loan and bursary application for the previous school year

OR
within 45 days of the date of the letter of acceptance from the educational institution they will attend, PROVING this letter is sent out after May 15. A copy of the letter must be included with the application form.

N.B. The postmark shall serve as proof of the date on which your application for aid was mailed.

Physically Disabled
Students in any faculty, who are Canadian Citizens and have been resident and domiciled in Quebec for one year, may apply for bursary if they have suffered from Poliomyelitis, Tuberculosis, certain forms of cardiac trouble or any other severe physical disability. Applications are to be made at the Financial Aid Office. Further information is available at Services for Disabled Students

Second Language Studies Bursary
This programme is intended to help anglophone and francophone university students (1st cycle) who wish to learn their second language by immersion in an environment where this language is dominant. This programme is financed by the Secretary of State according to federal/provincial agreements on the official languages.

FINANCIAL AID
Eligibility Criteria:

1) Canadian Citizens or Permanent Residents* and residing in the province of Quebec.
   a) Be unmarried students deemed to be dependents of their parents, if the latter have elected to
      be residents of Quebec before the date of application for the loan or bursary.
      However, unmarried students whose parents cease to have their principal residence in Quebec and
      take up residence in another province of Canada will not forfeit their Quebec resident status, provided
      they maintain their residence in Quebec for the purpose of undertaking or pursuing their studies.
   b) Be married or unmarried students deemed to be independent, or unmarried students whose place
      of residence in terms of that of their parents (as, for example, their parents are deceased, have dis­
      appeared or live outside Canada), provided that:
      i) the students already have the status of residents at the time that they become independent
      OR
      ii) that the province of Quebec was the students’ last place of residence for a period of twelve (12)
          consecutive months excluding the time they spent in pursuit of full-time study at an educational
          institution. Notwithstanding this provision, married students who are unable to establish their status as residents
          of Quebec are deemed to enjoy such status provided that:
          a) their spouse have their principal residence in Quebec and are enrolled for full-time study
             at an educational institution, and
          b) that their spouse have the status of Quebec residents or if there is an agreement to this effect
             between Quebec and the Canadian province where they and their spouse have resident status.
   2) Students must apply to full-time studies in a Canadian Educational Institution where the environ-
      ment will help the students develop their knowledge of their second language.
   3) Must be registered in a programme and have 75% of their course load in the second language
      for two consecutive semesters in the same academic year.
   4) The student’s mother tongue will necessarily be French or English except in the case where
      the student, with notice of the Ministry of Education of Quebec, will be deemed to have one or the other
      of these two languages.
   5) Must not benefit from the official monitor programme for the year in progress.
   6) Must not have done previously more than two years of study in their second language.
   7) By exception, Quebec university masters level students participating in an official exchange
      programme with another university may benefit from this bursary when the eligibility criteria are respected.
   8) Application forms with appropriate documentation must be submitted no later than June 30th.
      Application forms are available from April at the Financial Aid Office.

*The term "landed immigrant", used in the 1952 Immigration Act was replaced by the term "perma-
ent resident" in the 1976 Immigration Act. Individuals requiring clarification of their status regarding
award criteria should refer to leaflet 40-0147, "les règles relatives aux immigrants reçus ou résidents
permanents", published by the Direction générale de l’aide financière aux étudiants (available at all
educational institutions).

Summer Immersion Language Programme

Bursaries will be granted to students across Canada to enable them to enroll in six-week immersion
courses in French or English at accredited institutions.

The aim of this programme is to provide post-secondary students with the opportunity to learn one
of Canada’s official languages as their second official language and to improve their knowledge of the
culture represented by that language. Candidates whose mother tongue is neither French nor English
may not receive bursaries to study English or French as their first official language.

The bursaries will defray the cost of tuition, instructional materials, and room and board, but will not
cover transportation costs or pocket money.

Inquiries regarding the awarding of bursaries (e.g., eligibility, etc.) should be made to your provincial
coordinator or territorial official, the names and addresses of which are available at either Financial
Aid Office.

Students are eligible if they meet the following conditions:

a) Are Canadian Citizens or have permanent residency status at the time of application. Students
   studying in Canada on visas are not eligible.

b) Have general post-secondary standing or can prove that they will have obtained such a status
   by the time they become involved in the programme.

Official Language Monitor Programme

Monitors are students who help students with the spoken language by conveying to them the real
life aspect of the language and awareness of the culture associated with that language. They carry
out their duties under the supervision of second-language teachers for six to eight hours per week through
supplementary non-teaching activities. Monitors can receive up to $3000 for eight months’ participa-
tion in the programme (September to April). They are also reimbursed should they need to travel to
and from another province in order to participate in the programme. For further information contact
the Financial Aid Office.

18.3.4 Federal and Provincial Loans and Bursaries

In all cases a basic qualification is that applicants must be Canadian Citizens or Permanent Resi-
dents with one year’s residency, without pursuing full-time studies, and domiciled in the province to
which they apply.
When a student applies for financial assistance from a government, Canadian or non-Canadian, and certification of the student’s status is required on such an application form, this certification is obtained from the Financial Aid Office.

In all provinces except Quebec, the provincial authority listed below administers the Canada Student Loan Plan (federal) as well as their own programme.

Children of War Dead Act
Under this act, fees up to $800 and monthly allowances are provided for children of Canadian War Veterans whose death was attributed to military service in World War II, or the Korean War. Apply to the Superintendent of Welfare Services at the nearest D.V.A. District Office.
United States Students
Students coming to a university outside the United States may apply for a Higher Education Loan Plan loan through their hometown bank. These forms must be sent to Concordia University to be completed. They should be sent to the campus where the student will register. Because of limited funds available, it is essential that students apply as early as possible.

Financial Aid for Overseas Students
The scholarships, bursaries and loans offered by the University, companies, associations, societies, foundations, departments of education, and other government agencies are generally not available to students from overseas. Therefore, students, studying on a student visa who require financial aid should contact their own department of education.

The Canadian International Development Agency offers training assistance to most developing countries with which Canada has a cooperative agreement, however students must be nominated by their own government.

Scholarship Committee
Human Resources Directorate
Canadian International Development Agency
200 Promenade du Portage
Hull, Quebec  K1A 0G4

Students should ensure adequate finances before coming to Canada. If students do not plan to return to their homeland during the summer, four additional months of living expenses should also be provided for.
18.4 Student Life and Student Services

18.4.1 STUDENT LIFE AND STUDENT SERVICES
Specialized services and programmes for students are offered on each campus under the auspices of the Dean of Students. They include financial aid, legal information, services for disabled students, chaplains, services for International students and health centres. Numerous activities are designed to enrich student life and broaden students' university experience.

The Concordia Council on Student Life, a body responsible for student service policies and budgets, studies the range of student life on both campuses. It is composed of 8 students, 2 faculty members, 6 members of the student services staff. The Vice-Rector, Services chairs the Council. Its meetings are open to all members of the University community.

18.4.2 LACOLLE CENTRE
The Lacolle Centre for Educational Innovation is a resource for developing and testing innovations in education. It is involved in conducting research and developing innovative learning formats and materials in many different disciplines.

The Centre also provides personal and professional development for members of the University community; health, social and educational professionals; trainers, volunteer workers; senior citizens and other members of the general public. Workshops are scheduled on both campuses and at Concordia's residential facility in Lacolle, Quebec. Faculty or staff who have an expertise in an area that would be of interest to the general public and who would be willing to conduct a workshop or present a lecture may call the director.

Residential Facility
The residential facility is located forty miles south of Montreal near Lacolle, Quebec. The hundred and fifty year old farmhouse occupies twenty acres of lawn and natural woodlot about four miles southwest of Lacolle Village. The primary goal of this centre is to ensure that its users will, by working collaboratively at Lacolle, discover ways to enhance their educational pursuits on the University campus. The residential facility is an environment designed to promote the development and understanding of relationships among people. It also provides the opportunity to explore new and creative approaches to learning.

Applications and Procedures: Three times a year, letters are sent to all departments and student associations inviting requests for use of the facility. Applications should be submitted in writing to the Director, and indicate briefly: name of group, requested dates (with alternatives), purpose of visit, expected number of persons to attend.

The rental fee is $50.00 per day, per group.

Contact: Olivia Rovinescu, Director
2480 West Broadway (WG-204)
Tel.: 848-4955

18.4.3 SOCIAL AND CULTURAL ACTIVITIES

Orientation
Orientation is designed to familiarize new students with the various services and facilities available to them, and to help new students resolve any problems that may be encountered during their introduction to university life.

Social and Cultural Activities
A wide variety of social and cultural events are presented regularly by various student organizations and departments. The Concordia orchestra and choir are open to students, and they perform several concerts annually. There is a students' cafeteria and pub on each campus. The Loyola Campus Centre also provides lounge facilities and a games room.

18.4.4 HEALTH SERVICES
The Health Services provide an individualized and comprehensive approach to Health Care including counselling and teaching related to physical and mental health. They operate on a clinic basis with a varying schedule of physician coverage. Nurses who are experienced in dealing with health concerns
88

STUDENT SERVICES

of university students are available without appointment. Appointments with the various physicians can be made in consultation with a nurse. For those problems which are not within the scope of the Health Services, referral to existing community resources and specialists is arranged.

Loyola Campus
Centennial Building, Rm. 101
Tel: 848-3575

Closed from 12:00 noon to 1:30 p.m. Monday to Friday.

Health Services is available to all students, staff and faculty both full- and part-time.

18.4.5 LEGAL INFORMATION SERVICES
Advice and help are offered to students requiring assistance on matters relating to their legal rights. An appointment to see a lawyer can be arranged on either campus. Commissioners of Oaths are also available.

Dean of Students Office
Annex M, 2135 Mackay Street
Tel: 848-3516

18.4.6 INTERNATIONAL STUDENTS
The International Student Adviser is the contact person for International students. The International Student Adviser provides information to International students pertaining to the Canada and Québec departments of Immigration, including Student Authorizations (Federal), Certificats d'Acceptation (Provincial) and travel visas. Academic and para-academic problems are handled by the International Student Adviser who makes appropriate referrals when required. All International students are encouraged to contact the International Student Adviser's Office prior to entering their Undergraduate programme:

International Student Adviser:
Sir George Williams Campus
2135 Mackay Street, M-301
Tel: (514) 848-3514

International Students’ Health and Accident Insurance
Students on “Student Visas” are not eligible for the provincial medical programme. The high cost of hospital care in Québec has prompted Concordia to arrange for an insurance policy which covers hospital expenses and medical fees incurred as a result of accidental injury or an illness. The premium for this policy is approximately $335 single coverage only, and is automatically charged against the student’s contract. This policy is compulsory for all International students registered at Concordia. Applications for exemption to this plan, e.g. diplomatic status, work permits, etc. must be made to the Dean of Students office prior to October 31. For details pertaining to the coverage, contact the Dean of Students Office.

Cost of Study and Living for International Students
It is imperative that you have sufficient funds while studying in Canada as there is, in general, NO supplementary funding available to International students. DO NOT, therefore, attempt to undertake your studies unless you are assured of substantial funding for the entire length of your programme. The following table will assist you in preparing your budget for study in Canada. Important factors to be considered in calculating your budget are currency fluctuation, exchange rates and inflation. It is advisable to consult with your bank official for advice on this matter.

The bare minimum average cost for eight (8) months in Canada (i.e., September through April) is approximately $12,975. This estimated cost is based upon a student living a moderate lifestyle and NOT sharing expenses (i.e., accommodation, food, telephone, etc.). We have found it in the best interest of International students to consider this amount as the “minimum required” for each Fall and Winter term.

Cost of Living — Eight Months (Fall and Winter Academic Terms)

*Indicates a fixed cost
**Indicates an estimated cost based on the Québec averages.
Certain international students may be eligible to pay the same fees as Canadian students. In general, these students are recipients of the Québec "Bourses d'exemptions". Students should refer to §13.12.8 of this Calendar for additional information.

International students are required to present evidence to immigration authorities that they have adequate funds for their studies in Canada.

**Study Abroad Student Exchange Programmes**

In order to enhance relationships between the people and cultures of different countries, Concordia University, in conjunction with the universities of Québec via La Conférence des recteurs et des principaux des universités du Québec (CREPUQ), has established student exchange programmes with universities in the United States, France and Switzerland. In addition to these programmes, Concordia has established student exchange programmes with universities in the United Kingdom, the Netherlands and Germany. These programmes enable students to gain firsthand knowledge and understanding of other areas of the world.

Individual faculties have also established student exchange programmes and should be consulted directly for further information.

The Concordia programmes are available to all FULL-TIME Concordia University students who meet the following conditions:

- must be a Canadian Citizen or Permanent Resident;
- must have a good to excellent academic record and be in good academic standing in their faculty;
- must have completed at least one year of full-time study in the programme in which they are registered;
- must remain in the same programme while studying at the host university;
- must be fluent in the language of the host university;
- must assume health insurance fees, living expenses and transportation costs in the host country.

The Study Abroad Student Exchange Programme is administered by the Council for International Cooperation, Office of the Vice-Rector Academic, located on the Loyola Campus in the Administration Building.

**18.4.7 RESIDENCES AND HOUSING**

**RESIDENCES—Loyola Campus Only**

Two buildings provide on-campus accommodation for 250 students. Hingston has a modern dormitory style while Langley has traditional apartment-styled rooms. Both halls are co-ed with the exception of an all-women section in Langley. Rooms are furnished. Communal kitchens and public telephones are on each floor. Lounges have colour T.V.'s while games rooms have pool and ping pong tables. Laundry facilities and personal mailboxes are located in each building. Many activities and outings are organized for resident students.

By law, students are required to sign leases. These leases will follow the academic year (September to May). Students wishing to contract for only one semester can apply for special arrangements.

**Residence Fees**

Room rates are the same at both Hingston and Langley Halls. The 1989-90 Room Rates are as follows: (These rates do NOT include meal service.)

<table>
<thead>
<tr>
<th>Type</th>
<th>Rate</th>
<th>Per Person a Month</th>
</tr>
</thead>
<tbody>
<tr>
<td>Single Room</td>
<td>$1,625.00</td>
<td>($203.15 per month)</td>
</tr>
<tr>
<td>Double Room</td>
<td>$1,400.00</td>
<td>($175.00 per person a month)</td>
</tr>
</tbody>
</table>

While effort will be made to meet special requests for specific rooms or particular locations, assignments will depend upon availability of space. Since the number of rooms is very limited, applications should reach the Director as soon as possible. The deadline for applications is March 1. Students applying after that date will be placed on a waiting list. Since acceptance to the University does not guarantee admission to residence, a separate application for on-campus housing must be sent to:

Julia Denker
The Director of Residences
Room 156, Hingston Hall
Loyola Campus
Concordia University
7141 Sherbrooke Street West
Montreal, Quebec, H4B 1R6

**OFF-CAMPUS HOUSING**

A computerized housing list is available at CUSA, Hall Building, Room 637, Tel: 848-7474.

**CHILD CARE**

Child Care Services are offered for children of students, faculty and staff. On the Sir George Williams Campus parents may enroll children 2½ to 5 years of age in the
Garderie Concordia located at 2305 St. Marc Street. Application forms and details may be obtained at the information desk in the Hall Building or at the centre. Tel: 848-8789.

La Garderie les P'tits Profs is located on the Loyola Campus in the WB Annex. This "family centre" has a capacity for 37 children: 5 infants from 3 to 19 months, and 32 children from 18 months and over. For more information about this child care service, please call 848-7788.

18.4.8 CAMPUS MINISTRY

Campus Ministry offers programmes and pastoral services for the University community. Chaplains work with students, staff and faculty integrating and assimilating common concerns into worship, studies and prayer. It is an ecumenical ministry representing the major religious denominations. Chaplains are available for spiritual direction and pastoral counselling. The Loyola Chapel is for public worship, as well as a quiet place for private reflection.

Offices on both campuses are a place for students to gather informally and socially as well as being the location for various Campus Ministry events and social outreach programmes.

18.4.9 SERVICES FOR DISABLED STUDENTS

Students with visual or hearing impairments, mobility limitations or learning disabilities may require special services while studying at Concordia. Services include orientation, tutors, notetakers, classroom relocation, special exam arrangements, and equipment resources. Tape recorders, FM personal systems, and personal computers with voice and braille output are available for on-campus use. Workshops are offered in Sign Language, Wordprocessing and VersaBraille. All students with disabilities are advised to contact the Coordinator as early as possible for assistance in meeting their special needs.

18.5 Rights and Responsibilities

Ombuds Office

CODE OF CONDUCT (NON-ACADEMIC)—CONCORDIA UNIVERSITY

NOTE: The Code of Conduct (Non-Academic) is under review as this calendar goes to press. It may be modified prior to publication. For information please contact the Code Administrator or the Ombuds Office.

PART I

General

1. The Concordia University Code sets out regulations and procedures for handling formal complaints made by one member of the University against another member either personally or on behalf of the University. The ombuds operation is part of the code, and the whole is subject to a supervisory board.

2. The code applies to all the premises of the University, whether owned or rented, and also to activities conducted elsewhere by the University or by a body responsible to the University.

3. The code applies to all students, faculty and staff of the University, whether full-time or part-time. Both independent and Continuing Education students are included. However, persons working on University premises under contractual agreement between the University and their direct employer, such as the employees of catering and maintenance services, do not come within the code.

4. The code does not supersede the terms of tenure and associated regulations, the University grievance procedure, or any collective agreement signed by the University. The code does not replace or supersede any of the academic regulations or procedures of the University or of the University library. However, the mandate of the ombuds office includes the right of inquiry into the application of any of the regulations or procedures apart from those covered by a collective agreement with a certified bargaining unit.

5. Disciplinary authority in the University is vested in the Board of Governors. It remains the duty, as well as the right, of faculty members and administrators to exercise such authority in areas or matters within their own jurisdiction. Faculty members are expected to take whatever immediate action is needed to ensure the continuing order of their courses and administrators to take whatever immediate action is needed to ensure the proper functioning of the services or areas for which they are responsible.

6. The Rector, as chief administrative officer of the University, and only the Rector or his duly appointed delegate, has the right to suspend temporarily a student or member of the faculty or staff consequent upon action taken in line with paragraph 5. In the event of such a temporary suspension, appropriate procedures for final disposition of the situation will be set in motion as soon as possible.

7. Although faculty members or administrators may take immediate action of the kind referred to in paragraph 5 above, a person against whom such action is directed and who believes the action unjustified may have recourse to the complaint procedures.

8. All those who study, teach or work at the University are subject to the laws of the land, and have recourse to those laws. The same holds true for the University as a corporate entity. Should an act appear to infringe an individual’s legal rights, that individual can decide whether to take legal action irrespective of whether recourse has been had to the provisions of this code. Similarly, the University, acting through its authorized representatives, has the right at any time to take whatever legal action is deemed appropriate.

9. Should there arise doubt or ambiguity regarding any provision in these regulations, or the procedure to be followed, that interpretation or procedure shall be adopted that appears most equitable, consistent with the philosophy and general purposes of the code.

Governing Principles

10. The University is an institution of higher education dedicated to the pursuit of truth and to the advancement and dissemination of knowledge. All those who study, teach or work at the University must be concerned with maintaining the freedoms essential for those purposes, notably the freedoms to teach; to engage in research and to create; to learn; to study; to speak freely; to associate and to assemble; to write and to publish. The rights deriving from these freedoms cannot be maintained unless related responsibilities are accepted.

11. The University has the rights of a duly incorporated institution of higher education, and it has responsibilities to those who are part of it, as well as to the community at large. Each member also has rights and responsibilities— in relation to other persons, the institution and the community. Mutual consideration is vital if the freedoms are to be preserved.

12. Members of the University shall have regard in particular for the rights of other members to: freedom from discrimination on such grounds as sex or sexual orientation, religious or political beliefs, racial or ethnic origin; freedom from violence, intimidation, and sexual harassment; the safeguard of dignity, reputation and honour; access to University premises; respect for property, whether personal...
or owned by the University for the benefit of the community; confidentiality of personal information.
12.1 The rules of natural justice will apply to all hearings under this code.

Administration of the Code
13. Any person who wishes to make a formal complaint must deliver the signed complaint in writing
to the Code Administrator.
14. The individual complained against must be named, and the cause of the complaint must be stat-
ed with precision, detailing date, time and place.
15. The complaint must be delivered within a reasonable time of the alleged act, incident or other
cause, and in no case more than two months after it. However, when the complaint involves an allega-
tion of deception or dishonesty, this delay will begin to run from the date of discovery of the alleged
deception or dishonesty.
16. There will be a Code Administrator, appointed by the Rector acting on the recommendation of
an advisory committee composed equally of students, faculty and staff. The appointment will be for
two years, and be renewable.
17. The Code Administrator will ensure that all complaint procedures are properly carried out.
18. The Code Administrator will issue yearly a public report indicating the nature and extent of the
complaints received and handled, while protecting the anonymity and confidence of any individuals.
19. The Code Administrator will direct complaints against a member of the faculty or the staff to
the appropriate authority under the General Complaint Procedures (Part III).
20. Complaints against a student will normally be handled under the Hearing Board System (Part
II). However, the Code Administrator has the authority to decide that the nature of a complaint against
a student is grave enough to warrant directing it to the appropriate authority under the General Com-
plaint Procedures (Part III). This latter procedure will normally be the case with a complaint involving
sexual harassment.
21. The Code Administrator also has the authority to investigate a complaint against a student and
to attempt to settle that complaint before referring it to the Hearing Board System. In performing this
function, the Code Administrator has the authority to impose a sanction within the range and regula-
tions set for the Hearing Board System. (See Part II, paragraph 29 below).
22. The Code Administrator will inform both parties in writing of the findings of any investigation
conducted under paragraph 21 above, including any sanction that is imposed.
23. If either party then refuses to accept either the findings or the sanction, the Code Administrator
will forward the complaint to the Hearing Board System.

PART II

Hearing Board System
24. The two-stage system on each campus consists of campus boards and appeal boards.
25. Members of the boards will be drawn from a pool of forty students of whom at least seven are
to be resident students. There will be twenty students chosen from each campus. Members may sit
on either campus but the majority on any board will be drawn from the campus on which the incident
took place. Should the incident giving rise to the complaint take place in a residence, the majority will
be drawn from resident students.
26. The pool will be named annually, after due public call for candidates, by a nominating commit-
tee composed of four representatives of the Concordia University Students Association and one represen-
tative of the Graduate Students Association. The Code Administrator will act as non-voting chair.
27. A campus board, composed of three members, will hear any complaint forwarded to it by the
Code Administrator, and find either for or against the student complained against. A campus board
has the authority to impose sanctions as set out in paragraph 29 below. An appeal may be taken against
the decision of a campus board, whether on the finding or the sanction.
28. An appeal board, composed of five other members, will hear any appeal against the decision
of a campus board. It will either confirm, reverse or modify the finding of the campus board, and con-
firm, reverse or modify the sanction. It has the authority to require a re-hearing by another campus
board. There is no further appeal from a decision of the appeal board.
29. Hearing boards may impose sanctions within the following limits: a fine not exceeding $100;
a deposit with related conditions, returnable at a specified date, not exceeding $200; payment not ex-
ceeding $500 as compensation for injury or damage to or loss of property; exclusion from an area or
function of the University for a stated period of time. If this exceeds twelve months, the sanction will
be reviewed by a campus board at the end of each twelve-month period. (This sanction does not en-
compass the authority to suspend from any academic activity.) The deposit mentioned in this article
may be forfeited should any conditions imposed by the Board be found to have been violated.
30. The Code Administrator is responsible for the operation of the hearing boards, including con-
vening each board as it is required and arranging for the appropriate recording of proceedings, and en-
suring that all complaints, notices, decisions and appeals are properly processed.
31. Each hearing board will sit as soon as possible, and generally, within fourteen days of the refer-
rnal of a complaint or appeal to it by the administrator except in the case of a hearing involving an inci-
dent that took place in a residence when the parties will receive at least two days notice. The parties
will receive at least seven days notice in writing of the sitting and copies of the complaint or appeal.
32. Each hearing board will deliver its decision in writing to both parties as soon as possible and,
generally, within seven days of the conclusion of a hearing except in the case of a hearing involving
an incident that took place in a residence when, generally, the decision will be delivered within three
days of the hearing.
33. An appeal against a decision of a campus board must be lodged in writing, setting forth the grounds for the appeal, with the Code Administrator within fourteen days except in the case of an incident that took place in a residence, when the appeal must be lodged within five days.

34. The decision of a hearing board, if it is not unanimous, will be by majority vote.

35. Hearings will be closed and confidential unless a board, with the written consent of both parties, decides to admit members of the University community.

36. At a hearing by a campus board or an appeal board both parties have the right to be accompanied by an adviser, who may speak on their behalf.

37. At a hearing by a campus board both parties have the right to present witnesses.

38. In all other matters the hearing boards will determine their own procedures.

PART III

General Complaint Procedures

39. Where a complaint is to be handled under the General Complaint Procedures, the Code Administrator will forward it to the appropriate authority and send a copy of the complaint to the person complained against.

40. A complaint against a member of faculty or a person employed in a Faculty or the Graduate Studies Office will be forwarded to the appropriate Academic Dean.

41. A complaint against a student will be forwarded to the appropriate Academic Dean or to the Director of Continuing Education.

42. A complaint against the Rector will be forwarded to the Chair of the Board of Governors.

43. In the event of a complaint against any other employee of the University, the appropriate authority is the senior administrator in the following list to whom the person complained against reports most directly:

a) Rector
b) Vice-Rector, Academic
c) Vice-Rector, Institutional Relations and Finance
d) Vice-Rector, Services
e) Treasurer
f) Director of Physical Resources
g) Director of Libraries
h) University Registrar
i) Director of Continuing Education
j) Director of Ancillary Services
k) Director of Fitness, Recreation and Athletics
l) Director of Computing Services
m) Director of Guidance
n) Director of Human Resources
do) Dean of Students
ep) In the event of a complaint of sexual harassment, the appropriate authority is a Vice-Rector named by the Rector.

43.1 In the event that the senior administrator fails to inquire into the complaint, the Code Administrator may refer it to his or her superior.

44. Where a complaint against a student is dealt with under these general complaint procedures, the Code Administrator will inform the appropriate Dean of Students. If the complaint is against a graduate student, the Code Administrator will also inform the Dean of Graduate Studies.

45. If one of the persons named as an appropriate authority has lodged a complaint against a person within her or his sphere of authority, that complaint will be forwarded to the complainant's own superior.

46. The appropriate authority will acknowledge receipt of the complaint as expeditiously as possible and send copies of such acknowledgement to the person complained against and the Code Administrator, as well as to the Dean of Students and to the Dean of Graduate Studies when applicable.

47. The complaint shall be inquired into in whatever manner the appropriate authority considers suitable having regard to the principles of natural justice. The appropriate authority may conduct the inquiry personally or may assign it to another individual or to a committee. If the appropriate authority or the individual or the committee decides that the allegations are founded in whole or in part, the appropriate authority shall take whatever action is deemed suitable in so far as he or she is empowered to do so, or recommend such action to those who have the power to implement it. If the inquiry has been assigned to an individual or to a committee, the appropriate authority may also assign to that individual or committee the function of taking or recommending appropriate action. Since a student can be suspended or expelled from the University only by action of the Rector, any such recommendation must be forwarded to the Rector. (Should it be recommended that a faculty member be dismissed, the dismissal provisions of the Regulations relating to Termination of Employment and Suspension of Faculty Members and not the provisions of paragraphs 50 to 55 below shall apply.)

48. Both the complainant and the person complained against must be given the opportunity to make any relevant representation, in person or in writing as they see fit.

49. The decisions referred to in paragraph 47 must be written, signed and dated, and must be reasoned. The appropriate authority shall deliver such decisions to the complainant, the person complained
against, the administrator to whom the appropriate authority reports and the Code Administrator as well as to the Dean of Students and the Dean of Graduate Studies when applicable. The Chair of the Board of Governors shall deliver any decisions to the Board as a whole.

50. Both the complainant and the person complained against have a right of appeal to the Board of Governors. A written and signed notice of appeal must be delivered to the Secretary of the Board of Governors within fourteen days of the rendering of the decision appealed against. This delay may be extended in exceptional cases by the Board upon an application in writing, but it shall not be extended unless the appellant could not reasonably have acted within the fourteen days. The appeal may be taken against either the decision on the merit or against the action taken or recommended, or against both. The notice must state in clear and precise terms the ground on which the appeal is based.

51. The Secretary of the Board of Governors shall send without delay copies of the notice of appeal to the appropriate authority responsible for the decision which is being appealed, to the opposite party and the Code Administrator as well as to the Dean of Students and the Dean of Graduate Studies when applicable. The appeal shall be placed on the agenda of the next meeting of the Board.

52. Should the appeal be lodged by the complainant, or should it be lodged by the person complained against in a case where action other than a sanction of suspension, expulsion or dismissal has been imposed or recommended, the Board of Governors shall decide whether to deal with it directly or to set up a review board, composed of persons from either within or without the University or from both, as the Board of Governors judges fit. The decision of the Board of Governors in the former case or of the review board in the latter case shall be final.

53. Should the person complained against wish to lodge an appeal in a case where a sanction of suspension, expulsion or dismissal has been imposed or recommended, she or he may elect that the appeal be dealt with according to the procedure set out in the above paragraph or may require the Board of Governors to appoint a committee of three persons from outside the University, one of whom must be a lawyer not otherwise in the employ of the University, to hear the appeal. The decision shall be final.

54. Where the choice referred to in paragraph 53 is not made, the Board of Governors shall decide whether to deal with the appeal according to the procedure set out in paragraph 52 or that set out in paragraph 53.

55. The Secretary of the Board of Governors shall communicate the decision in writing to the persons referred to in paragraph 49.

56. Wherever an official of the University is unable to exercise his or her functions, they will be carried out by that official’s replacement.

57. Apart from the requirements to inform set out above, any proceedings or decisions shall be treated as confidential unless all the parties involved expressly agree that they be made public.

57.1 All delays mentioned in this Code may be extended in exceptional circumstances at the discretion of the Code Administrator.

PART IV

Ombudspersons

58. The ombuds office will consist of one full-time and two part-time ombudspersons. The office will operate on both campuses. The ombudspersons will be appointed by the Rector, acting on the recommendation of an advisory committee composed equally of students, faculty and staff. Appointment will be for two years, renewable on the recommendation of the advisory committee.

59. The part-time ombudspersons must be individuals already in the employ of the University, and one of them must be a tenured member of faculty. Part-time ombudspersons will be partially released from their other duties, or be appropriately compensated.

60. Anyone who studies, teaches or works at the University has the right to apply to the ombuds office. The members of the office will decide who will handle any particular application.

61. The ombudspersons are free to inquire into any matter brought to their attention, and to make whatever recommendations they judge appropriate, and to whomsoever within the University they feel should receive them. If all the ombudspersons agree, they are also free to inquire into a matter that has not been the subject of a specific application. The ombudspersons should pay particular attention to the definition of their functions set out in Part I (General), paragraph 4.

62. A part-time ombudsperson will avoid personal involvement in any case where there may be a conflict of interest and will refer such a case to another ombudsperson.

63. On the conclusion of an inquiry, the ombuds office will on request provide an individual who applied for its services with a written report on its disposition of the matter.

64. The ombudspersons have the right to refuse to take up any case where they judge their intervention would be inappropriate, or to withdraw from a case if their continued intervention appears inappropriate, as when there has been recourse to legal proceedings. They will provide the applicant with a written statement of the reasons.

65. Recommendations of the ombudspersons may bear either on the actions or decisions of an individual or group or on the policies and practices which gave rise to such actions or decisions.

66. Any application to an ombuds office and any consequent inquiries or recommendations shall be treated as confidential unless all the parties involved expressly agree that the information be made public. Notwithstanding the above, the ombudspersons are entitled after an enquiry to publicize their recommendations if they all agree that the response to these was unsatisfactory.

67. The ombudspersons shall have immediate access to all University records, reports or other documents other than those which cannot be released for reasons of confidentiality. An ombudsperson can appeal the decision of an officer of the University with regard to confidentiality to the Board of Gover-
The ombudspersons will maintain the confidentiality of any confidential materials to which they have access.

68. The ombudspersons will issue yearly a public report indicating the nature and extent of their operations, while protecting the anonymity and confidence of any individuals.

PART V

Supervisory Board

69. The supervisory board will be concerned with all aspects of the University Code.

70. There will be seven members appointed by the Board of Governors; two representatives each of the students, faculty, and staff, with the delegate of the Rector serving as chair. The student members will be nominated jointly by the student associations, the faculty members by CUFA, and the staff members by the Rector's Cabinet in consultation with CUNASA.

71. Appointments will be for one year, and will be renewable.

72. The board will review the reports of both the Code Administrator and the ombudspersons, and make any recommendations it judges appropriate to the Rector, including recommendations for amendment to the code.

73. The supervisory board will be especially concerned with the equity of the sanctions applied to different individuals or categories of individuals.

74. A member of the University community may apply to the board to review the operation of any aspect of the code. In such instances, the function of the board will be to ensure that the procedures have been properly followed, including the way in which paragraph 20 of the section on Administration of the Code has been applied by the Code Administrator.

75. Three members of the board may require at any time that the board meet to review any aspect of the implementation of the code.
SECTION 19
STUDENT ASSOCIATIONS

19.1 UNDERGRADUATE STUDENTS

19.2 GRADUATE STUDENTS

19.3 ALUMNI
19 Student Associations

19.1 Undergraduate Students

The Concordia University Students' Association (CUSA) represents the undergraduate students, both full-time and part-time. Besides organizing a considerable number of events and activities, CUSA ensures student representation on the University decision-making bodies, both those that legislate on academic matters and those concerned with the cultural and social life of the community. There are student members of the Board of Governors, Senate, the Faculty Councils, and, of course, the Concordia Council on Student Life, which is directly concerned with the provision of student services.

Powers and responsibilities are divided between three bodies: the Executive, the Legislative Council, and the Judicial Board. The Executive is headed by two elected co-Presidents. The Legislative Council consists of the elected representatives of the four Faculties. The Judicial Board is an appointed body charged with assuring the constitutionality of any new legislation.

There are more than 75 member clubs and associations. They may be associated with a department or discipline like the Psychology Students Association or pursue a special interest like the Debating Society. Each has its own programme of activities, which receives funding from CUSA. In addition there are numerous clubs and associations for students of particular ethnic backgrounds.

Other activities that come under the CUSA umbrella are student newspapers, The Link and the Concordian, television station CUTV, radio stations GIRL and CRSG, and the Concordia Winter Carnival. The two student newspapers, The Link and the Concordian, operate independently of CUSA. Both newspapers are incorporated, with separate, wholly autonomous boards of directors.

There is a CUSA office on each campus. The Sir George Williams office is in Room H-639 of the Hall Building (848-7474). The Loyola office is in Room 103 in the Campus Centre (848-7470).

19.2 Graduate Students

Graduate students become members of the Graduate Students' Association (GSA). It is concerned with graduate student representation on the decision-making bodies and initiates a wide range of activities for graduate students and the University community as a whole, including social occasions, lectures and concerts. The association publishes a regular newsletter. Its offices are at 2030 Mackay Street.

19.3 Alumni

The Concordia University Alumni Association was created in 1983. In the words of its new constitution it is designed to "encourage the fellowship of graduates from Loyola, Sir George Williams, and Concordia University through social, educational and cultural activities", and to "preserve and promote the interests of Concordia University through Alumni involvement in its future and governance".

All graduates of the University are automatically members of the Association, as are graduates of Loyola College and Sir George Williams University. Full- and part-time students who have attended the University, and who have successfully completed a full academic year or its equivalent, can also become members.

The affairs of the Association are conducted by a 30-member Board of Directors of whom ten are graduates of Concordia and ten each of Sir George Williams and Loyola.

The Concordia University Alumni Association sponsors a variety of activities for its members in the Montreal area. Active graduates, those who contribute annually to the University, are eligible for membership in the Faculty Club, and receive favourable rates for group benefits in life insurance, athletic clubs, etc. Also, active members are eligible for continued library privileges at no additional cost.

Chapters are now being formed in most large urban centres in Canada as well as in some other countries. Members in these areas will be invited to special activities at least twice a year.

More details about the Concordia University Alumni Association can be obtained from either of the two offices listed below.

Association of Alumni Sir George Williams Inc., and Loyola Alumni Association Inc.

Graduates of Loyola College and Sir George Williams University are also members of their respective Alumni Associations. Both offer a full range of programmes, functioning as branches of the Concordia Alumni Association. Pre-1975 graduates who identify closely with their alma mater thus are able to maintain their established ties.

20.5 CONTINUING EDUCATION COMPUTER INSTITUTE
20.6 SEMINARS AND WORKSHOPS
As part of its commitment to the life-long pursuit of education, Concordia University, through its Centre for Continuing Education, sets out to meet the learning needs and interests of the vast number of adult learners who seek educational activities outside the regular degree or certificate programmes of the University. Courses offered by the Centre are designated as "non-credit", but only in the sense that they may not be counted towards any of the degree or certificate programmes offered by the Faculties of the University.

Most of the Centre's courses are part of practical programmes leading to certificates of achievement awarded by the Centre to those who successfully complete the required work. A wide variety of such programmes and courses is offered, and these are reviewed and supplemented on a regular basis to ensure that they satisfy the changing needs of the community.

20.1 BUSINESS AND ADMINISTRATION SECTION

CEBS — The Certified Employee Benefit Specialist Programme: The CEBS programme is a ten-course curriculum cosponsored by the International Foundation of Employee Benefit Plans and the Centre for Continuing Education, Concordia University. It offers an opportunity to earn the professional designation: Certified Employee Benefit Specialist. The programme has a threefold purpose: 1) to enhance individual capabilities for fulfilling responsibilities in the employee benefit sector at a high performance level; 2) to bestow a measure of professional recognition on those persons who achieve significant competence in the field, as evidenced by passing a series of national examinations; and 3) to assist the public in evaluating the academic qualifications and competence of persons having responsibilities for employee benefit plans.

Dalhousie University is responsible for academic content and standards of the programme; the International Foundation is responsible for overall administration and jointly they issue the final certification.

Communications Programme: The Centre for Continuing Education offers six Certificate Programmes in the field of communications. These include: Journalism, Advertising, Public Relations, Graphics, Radio and Television Production and Specialized Writing. All courses are taught by practitioners who work in the media or related fields.

Hospitality Management Programme: This practical programme is available to individuals who wish to receive training in the special skills required to manage hotels, restaurants, and institutional and commissary food-service establishments. Each course is made up of 12 weekly two-hour classroom sessions given in the evenings. Ten courses must be successfully completed to obtain the Certificate of Hospitality Management.

Management Practices Programme: This series of courses in management and administrative subjects is offered to individuals who wish to expand their knowledge in selected business fields. Each course will concentrate on one important area of business activity.

Purchasing and Inventory Control: This programme is designed for individuals who are beginning or planning to begin a career in Purchasing and Inventory Control. A Certificate in Purchasing and Inventory Control will be awarded upon successful completion of ten courses.

Small Business Management Programme: This programme has been developed as a "how to" guide for the upcoming entrepreneur. It offers information pertaining to questions raised when assuming the risk of a business or enterprise. To qualify for the Certificate in Small Business Management, candi-
dates must successfully complete a total of ten courses — five compulsory and any five elective courses offered in the Small Business Management Programme.

Tourism Programme (Day or Evening Division): The Tourism Programme is designed to train individuals for work in travel agencies, airlines, travel departments and other enterprises connected with the tourism industry. The courses are available to individuals considering tourism as a career and to travel agency employees who are interested in upgrading their skills. Nine courses must be successfully completed to obtain the Certificate in Tourism.

Interest courses are also available in: Tax Planning and Investments; A Guide to Real Estate Investment; Trading in Options and Stocks; and Stocks, Bonds and Other Investments.

20.2 CONTINUING EDUCATION LANGUAGE INSTITUTE

The Continuing Education Language Institute is a division of the Centre for Continuing Education established to meet the need for year-round language programmes in English and French. These non-credit courses are designed to meet the needs of students seeking language training for professional, social and academic purposes. Day, evening and Saturday courses are offered from September to April. A five or ten-week intensive English Programme is also offered during the Summer.

Students may choose one of several programmes ranging in intensity from four to twenty-four hours a week. Class size is limited to ensure maximum student/instructor contact.

Members of the staff of the Institute have specialist training and experience in second language teaching.

The English Language Programme

There are three distinct English language programmes offered on a regular year-round basis — the Intensive, the Evening, and the Saturday programmes.

A Certificate of Proficiency will be awarded upon successful completion of the Advanced level. For students who meet the necessary requirements, writing workshops are offered.

The French Language Programme

Courses at all levels are offered in the French language and are designed with specific vocabulary and language skills that provide for real life situations. The aim is to have students develop a maximum confidence in the use of the French language in personal and professional situations.

For students who meet the necessary requirements, the following specific courses are offered:
- a course in written French
- a general business course for those who already possess a working knowledge of French.

A Certificate of Proficiency will be awarded to students who meet the necessary requirements.

Special Programmes

Special language courses in English and French can be created to suit the needs of individual groups. Sponsoring agencies should write directly to the Institute for further information.

20.3 APPLIED ARTS

Fashion Designing and Pattern Making: This programme is offered to train students in a professional manner for the garment industry. A certificate will be granted upon successful completion of all courses. Each course is made up of 12 three-hour classroom sessions given once a week in the evening.

Practical Photography: This programme consists of six-week, ten-week, and twelve-week courses at various levels, ranging from the basics of camera operation or darkroom procedures to courses providing an opportunity for those with more experience to refine and expand their photographic skills and vision. The courses combine lectures with hands-on participation.

Instructor Certification Programme in Physical Fitness: This Certificate Programme will provide the individual with the theoretical and practical knowledge necessary for employment as a general fitness instructor. A certificate in general fitness instruction will be granted to those participants who successfully complete both the theoretical and practical components of the programme.

Visual Arts: The Visual Arts Programme offers interested students the opportunity to work with professional artists of the Montreal community in drawing, painting and life drawing. Each course is made up of 12 three-hour sessions given once a week in the evenings.

Museum Education: These courses in museum research will use art objects located in the new Canadian Galleries at the Montreal Museum of Fine Arts for instructional purposes. The courses are tailored to those students who wish to become animators at the Museum as well as those interested in museum research. Each course is made up of twelve two-hour sessions offered on Monday mornings.
20.4 EDUCATIONAL TRAVEL WORKSHOPS

The Centre for Continuing Education, in cooperation with the academic departments of the University, organizes a number of travel programmes. Some of the courses, which are generally scheduled between May and August, are regular Concordia offerings under the academic direction of a faculty member, and carry academic credit. The physical and personnel resources of academic business and social institutions in other countries enhance the academic and cultural components of the courses.

20.5 CONTINUING EDUCATION COMPUTER INSTITUTE

Computer Applications Programming (Day Division): The Centre for Continuing Education offers a Certificate in Computer Applications Programming for individuals who require a solid background in business programming and systems analysis skills. Extensive "hands-on" experience will be provided on the Centre's own computing facilities, in addition to regular classroom teaching. To qualify for the Certificate, students must complete three intensive full day courses; each course has a duration of 10 weeks with 25 hours of theoretical and practical work per week, and an assignment week at mid-term.

Managing Information Systems: This programme is intended for individuals who require a solid background in the management and application of computers to business systems. To qualify for the Certificate in Managing Information Systems, students must successfully complete a total of ten courses and two DOS workshops, either in Option 1: Information Systems Management or Option 2: Software Engineering.

Office Automation: The Centre for Continuing Education offers a Certificate Programme in Office Automation for students interested in acquiring the "high-tech" microcomputer skills needed in business and industry today. Students must successfully complete nine courses in order to obtain the Certificate. Students may take any course on an independent basis.

Complete Computer Electronics: This programme is helpful to those interested in working as computer or electronic technicians, and operates through a combination of home study and periodic laboratory work in the Physics Department of the University. Complete Computer Electronics is divided into two parts during which the student actually builds a digital computer. Part I covers background work in electronic fundamentals, and Part II covers computer circuitry, digital logic techniques, computer organization and operations.

Electronic Office Technology — Full-Day Summer Programme: The Centre for Continuing Education offers a full-day, intensive Certificate Programme in Electronic Office Technology during the summer for individuals who wish to develop the specialized skills necessary to function in today's automated office or small business. The programme combines the practical material contained in the Office Automation Programme with additional elements designed to equip the students with the background to make effective managerial decisions in this area. The Certificate Programme has a duration of 10 weeks with 25 hours of instruction and lab hours per week.

20.6 SEMINARS AND WORKSHOPS

The Computer Institute is dedicated to the continuing education needs of professionals, business personnel and others who wish to enrich their own lives with the computer knowledge and skills that are so necessary in today's technical environment. For this reason, the Institute has designed a number of practical seminars and workshops which are given throughout the year, either in the Centre's own well-equipped computer facilities, at other designated seminar locations or on-site, where training is required.
SECTION 21
OFF-CAMPUS EDUCATION AND DISTANCE LEARNING

OFF-CAMPUS EDUCATION

Concordia University offers credit courses off campus during the Regular (Fall/Winter) and Summer sessions. The courses are designed to be of interest to persons who find it inconvenient, for whatever reason, to attend classes on either campus. The University is prepared to offer courses wherever there is a sufficient demand, provided that qualified instructors are available. Off-Campus courses have the same credit value as On-Campus courses.

Last year, courses were given in Pointe Claire, Beaconsfield, and at various cultural centres (e.g. Saidye Bronfman Centre) throughout the Island of Montreal. Courses were offered from the Faculties of Arts and Science, Commerce and Administration.

Persons interested in obtaining further information about programmes, or in having courses offered at a particular location, should contact the office of:

Off-Campus Education
7141 Sherbrooke Street West
Room AD-420
Montreal, Quebec, H4B 1R6
Tel: 848-3955/3956

REGISTRATION FOR OFF-CAMPUS CREDIT COURSES

It should be noted that registration in a course does not constitute admission to the University. While registration as an Independent student is possible, those registering for courses are encouraged to apply for admission to the University. To obtain information about registration for off-campus courses, call 848-3955/3956.

DISTANCE LEARNING

Distance learning is not a new concept; university level correspondence courses have been available from various sources for many years. Today, thanks to the new technologies, courses may be offered via such media as audiotape, videotape, cable TV, teleconferencing, satellite or computers.

The distance mode satisfies a need for capable and talented students who, for professional or personal reasons, cannot attend university or are located in remote areas with no access to higher education.

One of the media used by Concordia is C.A.N.A.L. (Consortium pour l’Avancement de Nouvelles Applications des Langages/The Corporation for the Advancement of New Applications of Languages). This non-profit organization is a consortium of Quebec educational institutions, and its purpose is to provide courses on the public television network.

Two Concordia courses are presently available on CANAL, via Channel 29 (CFTU) or Channel 23 (Cable) i.e.

1. Selected Topics in Science and Human Affairs
2. Entrepreneurship (Management)

For further information please contact the Concordia Centre for Off-Campus and Distance Learning, Tel. (514) 848-3955.

22.1 Introduction

Concordia University is an approved centre for Teacher Training and Certification in the areas of Early Childhood Education, English as a Second Language and Fine Arts. This means that the Quebec Ministry of Education recognizes the programme and grants to the successful graduate a license to teach.

There are three types of programmes available at Concordia, initial certification, re-certification and professional development. Students enrolled in initial certification programmes will, when they graduate, receive their first license to teach. Re-certification programmes are designed for individuals who have an initial teaching license and who wish to obtain certification in another area. Successful graduates receive an additional teaching license from the Ministry of Education. Professional Development programmes are designed for teachers who wish to upgrade their qualifications in areas where a new teaching license is not granted.

The above types of programmes are recognized for teacher classification, a process of relating an individual's qualifications to the salary scale of the Ministry of Education for the education sector. Please note that Certificate programmes are made up of undergraduate courses while Diploma programmes are at the graduate level and require a Bachelor's degree for admission.

Because Concordia University has not chosen to organize its programmes for teachers into a single Faculty, the courses and programmes for teachers are listed under several different departments and faculties. Potential students are advised to consult the specific academic departments for further information.

22.2 Certification Programmes

Individuals who successfully complete the following programmes will be eligible for Quebec Certification. For further information please contact the appropriate academic department.

1. Certificate in Education (Restricted to individuals presently teaching in Quebec with a P.T.A.) (30 credits). See §31.090
2. Bachelor of Arts (Specialization in Early Childhood Education) (90 credits). See §31.090
4. Diploma in Art Education (30 credits).

22.3 Re-Certification Programmes

Individuals who have initial Quebec certification and who successfully complete these programmes will be eligible to receive additional certification in the area of study. For additional information please contact the appropriate department.

1. Certificate in Art Education for Teachers, (Elementary School Level) (30 credits). See §81.50
3. Diploma in Computer Assisted Learning (30 credits).
4. Diploma in Early Childhood Education (33 credits).

22.4 Programmes of Interest to Teachers

The following programmes are not teacher certification programmes but are recognized by the Ministry of Education for Professional Development.

1. Certificate in Adult Education (30 credits). See §31.090
2. Certificate in Family Life Education (30 credits). See §31.010
5. Certificate in Library Studies (60 credits). See §31.190
7. Certificate in Teaching French as a Second Language to Adults (30 credits). See §31.110
8. Bachelor of Fine Arts (Specialization in Art Education) (90 credits). See §61.50
11. Diploma in Art Therapy (30 credits).
12. Diploma in Communication Studies (33 credits).
13. Diploma in Computer Science (33 credits).
15. Diploma in Institutional Administration (33 credits).
16. Diploma in Instructional Technology (30 credits).
17. Diploma in Library Studies (33 credits).
18. Diploma in Sports Administration (33 credits).
20. Diploma in Theological, Religious and Ethical Studies (33 credits).
21. Diploma in Writing/Translation (French) (30 credits).
23. Master of Arts in Art Education (45 credits).
24. Master of Arts in Art History (45 credits)
25. Master of Arts in Art Therapy (45 credits).
27. Master of Arts in Educational Studies (45 credits).
28. Master of Arts in Educational Technology (90 credits).
29. Master of Arts in English (45 credits).
30. Master of Arts in the History and Philosophy of Religion (45 credits).
31. Master of Arts in Judaic Studies (45 credits).
32. Master of Arts in Public Policy and Public Administration (Option A) (45 credits).
33. Master of Arts in Public Policy and Public Administration (Option B) (90 credits)
34. Master of Fine Arts (90 credits)
35. Master of Science in Biology (45 credits).
36. Master of Science in Chemistry (45 credits).
37. Master of Science in Physics (45 credits).
39. Doctor of Philosophy, Art Education (90 credits).
40. Doctor of Philosophy, Educational Technology (90 credits).
41. Doctor of Philosophy, Humanities (90 credits).

22.5 “Beyond Degree (or Certificate) Requirements” Notation on Record

When students so desire, courses previously completed and which were not counted towards their degree (or certificate) may be identified on the record as “Beyond Degree (or Certificate) Requirements”.

22.6 Citizenship Requirements

Permanent certification in Quebec is only available for Canadian Citizens. Students who have landed immigrant status or who hold an appropriate work permit at the time of their graduation may be eligible for a temporary license to teach. Although students with a visa can complete teacher training programmes at Concordia University and receive a university degree, they are not eligible for certification by the Ministry of Education of Quebec.

22.7 Certification Assistance

Students who encounter difficulties with respect to certification or classification should contact the Coordinator of Teacher Training and Certification. Graduates of Concordia with certification problems should contact the Directeur, Service de la Certification des Maîtres, 955 chemin St-Louis, Sillery, Québec, G1S 4S4.

STRUCTURE
The Faculty of Arts and Science, comprised of the former Loyola Faculty of Arts and Science, the former Sir George Williams Faculty of Arts and the former Sir George Williams Faculty of Science, was brought into being on 1 July 1977.

For administrative purposes, the Faculty consists of departments, and programmes, centres, colleges, institutes and schools.

The departments and other units of which the Faculty is comprised are as follows:

**Departments**
- Applied Social Science
- Biology
- Chemistry and Biochemistry
- Classics
- Communication Studies
- Economics
- Education
- English
- Études françaises
- Exercise Science
- Geography
- Geology
- History
- Journalism
- Leisure Studies
- Library Studies
- Mathematics and Statistics
- Modern Languages and Linguistics
- Philosophy
- Physics
- Political Science
- Psychology
- Religion
- Sociology and Anthropology
- Teaching of English as a Second Language
- Theological Studies

**Colleges**
- Institute for Co-operative Education
- Liberal Arts College
- Lonergan University College
- School of Community and Public Affairs
- Science College
- Simone de Beauvoir Institute

**Programmes**
- Canadian Studies
- Individually Structured Programme
- Russian Studies
- Science and Human Affairs
- Urban Studies
- Women’s Studies

**PRINCIPLES OF EDUCATION**
The Faculty of Arts and Science is studying the programmes of instruction that it offers, and where appropriate is modifying them, with the objective of ensuring that all embody certain principles of education. These principles, seven in number, were deliberately enunciated by the Faculty in the academic year 1980-81 as follows:

1. The Faculty endorses the concept of specialization in university education and does so in the conviction that specialized and intensive knowledge in a particular discipline or field is necessary to the development of an educated person. While the programmes that this Faculty offers are many and various, and the capacities that they form are as different one from another as the students who pursue them, they should all help prepare graduates for living as informed individuals, fulfilling their role in society, not merely in the period when society remains more or less as it was when they were engaged in formal study but also in unpredictable future time. The skills and confidence derived from the experience of being led by the spirit of inquiry and of knowing what knowledge is, are part of the contribution of university education to the maintenance of an essential sense of self.

2. That part of any degree programme which is devoted to specialized study must be structured in such a way that it gives a coherent view of the particular discipline or field. It should be concerned not only to teach appropriate skills and items of knowledge but also to show students, explicitly and implicitly, the nature of the subject, its methods of study and the sort of questions to which it addresses itself at its more advanced levels. The programme should be structured to achieve these goals economically and efficiently.
3. The component of specialized study should not constitute the whole of any programme of concentration. A programme should not consist of study in one discipline only but require a minimum of study in some other discipline or disciplines. The desired effect of this requirement is to create a context for specialized study in which the strengths and also the limitations of the area of special study become more apparent.

4. The flexibility and mobility that many graduates require in the society they will enter derive in part from the skills and knowledge that they acquire in the university that go beyond the boundaries of their concentration programmes. Adaptability may be for many graduates a condition of success in their careers. The development of interests outside a single concentration can also enrich and sustain their personal lives. Hence, the total bachelor-degree programme should build upon and significantly extend the broad academic experience provided by the schools and colleges that students attend before entering university. In the context of our modern society this necessitates exposure to both the scientific method and humanistic approaches.

5. University education is concerned not only with the transmission of culture, but also with its extension, criticism and evaluation. All of these processes rely on mastery of communication. Ability to express oneself in writing (and in speech) should be fostered in all courses and degree programmes. Further, graduates will increasingly need to be familiar with, and to use, modern methods of communication. Programmes should develop an awareness of the impact of advances in communications and computer technology on the learning, work, and leisure environments.

6. Education must foster intellectual independence in a free and open spirit so that students may develop their critical faculties to their fullest. Degree programmes should never be so struc-

tured as to preclude the student's free choice of concentration and of options within their concentration or outside of it.

To assist students in making reasoned choices, the university should provide an advising structure which respects and accommodates decisions made by students about their programmes.

7. A degree programme need not realize all the desiderata implied in the foregoing; it must not, however, restrict itself to only one. A programme should have as objective the realization of a set of "local maxima", each corresponding to one of the principles, rather than the attainment of one "absolute maximum" corresponding to only one of the principles. For this reason, and because each programme has special constraints, compromise is inevitable. What matters is that some of the qualities of sound, contemporary education as articulated here be inherent in each programme, and that it be upon their inclusion that the absence of others be justified.

MATURE STUDENT ENTRY

Concordia University has a tradition of concern for the education of mature students; it has always sought to assist students of 21 and over to undertake undergraduate studies.

The primary aim of the Centre for Mature Students is to develop services to students returning to formal studies after an absence of many years. It is difficult to plunge suddenly into a very large urban university after years away from classes and studying; therefore, the Fellows and Staff of the Centre hope to reach out to all Mature-Entry students to offer them encouragement and guidance. The Centre has quarters on both campuses, that function as a "home base" for students who want counselling or are simply in need of some social contact with their peers. Newly equipped lounge facilities are provided in which students may meet. (Please see §14.)

31.002 Programmes and Admission Requirements

General admission requirements are listed in §13.

1. Specific requirements for admission to the various programmes leading to the degrees of Bachelor of Arts, Bachelor of Education, and Bachelor of Science, and to certificates, are set out in the first column of the following listings. They refer to the table of CEGEP pre-Arts and pre-Science profiles defined below. Students lacking one or more of these prerequisites may be admitted, but must include the designated prerequisites among the courses followed prior to entry into the second year of their undergraduate programme. In certain cases, the prerequisites must be taken in addition to the undergraduate programme.

| Profile | Requirements | 1.4 | Mathematics 103, 203
| Physics 101, 201, 301; or 102, 202, 302
| Chemistry 101, 201
| Biology 301 or 921
| 10.1 | Mathematics 337; or 103, 307
| Biology 301, 401; or 921
| Psychology 102
| 10.2 | Mathematics 103, 307
| 10.3 | Mathematics 337
| 10.5 | To have reached in the language that will be studied a level equivalent to that of 2 CEGEP courses. If these courses have not been available in the CEGEP attended, the University may make up for them.
| 10.9 | Mathematics 103, 203
| Physics 101, 201, 301-78

Arts and Science
lead to the rejection of the candidate or the requirement of additional university courses.

X: No specific requirements, but students should be prepared for entry into the disciplines of main interest. (This code does not appear in "Accueil '87" and is one invented by the University.)

Programme titles refer to honours, specializations, majors, and minor components where these exist. Full information about the programmes offered under each title (including combinations with programmes in other disciplines) is to be found in the section of the calendar specified in the third column below. Certificate programmes, indexed in the same way, are listed in the last section, after those devoted to the programmes that lead to degrees in Arts, Science, and Education.

**NOTE:** The Calendar Sections listed in the third column contain details, where applicable, of professional qualifications required for admission.

2. Mature entrants are advised to consult §14 of this calendar, and in particular 14.3.1.

3. Students admitted to BA and BEd Extended Credit Programmes are required to complete 120 credits for the degree (i.e., 30 additional credits) and must include the following 30 credits in the 120:

- 6 credits in English (language or Literature)
- 24 elective credits, of which a maximum of 12 may be outside the Faculty of Arts and Science. Certain departments in the Faculty have specific requirements. Students intending to follow programmes of concentration within these departments must include the specified components as part of their programme.

**BA Mathematics**: 9 credits in Mathematics - 203, 204, 205

*Students not having MATH 202, or the equivalent must take it in place of one of their elective courses.*

**BA Psychology**: 3 credits in Mathematics 3 credits in Biology 6 credits in Psychology

NOTE: Students in the BA, BEd or BSc Extended Credit Programme may not count towards their programmes of concentration courses taken as part of the first 30 credits.

### 31.003 Degree Requirements

Up to and including the academic year 1973-74, degree programmes were expressed in terms of courses, with one credit being applied to a "full course" (normally, one extending over two terms) and one half-credit being applied to a "half-course" (which was normally completed in one term).

In 1974-75, in accordance with the recommendations of the Council of Universities of Quebec, the credit base was modified to take into account
the total activity of the student. A student preparing for the degree of Bachelor of Arts, Bachelor of Education, or Bachelor of Science takes a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours spread across lectures, conferences, tutorials, laboratories, studio or practice periods, tests, examinations, and personal work.

Since the CEGEP programmes are designed to give all students the opportunity to explore different fields and thus acquire a broad general basis for further study, the undergraduate programmes in the Faculty of Arts and Science require of students some degree of concentration in specific areas. Detailed statements about these programmes are made under the appropriate disciplinary headings in the sections of the calendar that follow this general account of degree requirements. They represent four main forms of concentration: the Minor, the Major, the Specialization, and Honours; and a fifth form, the Certificate. The University’s formal definitions of these kinds of programmes are set out in section 16.2; for the convenience of students in Arts and Science, those definitions as they are construed in the Faculty are briefly repeated below.

The Minor is a programme consisting of a minimum of 24 credits in a single discipline and professing to give a basic introduction to the methodology and key concepts of that discipline. A Minor cannot in and by itself provide the concentration required of a candidate for a degree and is therefore always taken in combination with another programme.

The Major consists of a minimum of 36 credits taken in an approved sequence of courses. Normally within a major programme not more than 36 credits are required from a single discipline or department. In certain programmes, however, additional credits are required in cognate disciplines and departments. The major provides a solid grounding in the academic knowledge comprehended within the field of concentration. To enter and remain in it, a student normally does not have to meet a special performance requirement; see, however, programmes in Leisure Studies §31.185, Library Studies §31.190 and Western Society and Culture §31.520.

The Specialization consists of a minimum of 60 credits, normally not more than 54 credits of which are mandated from a single discipline or department. Like an honours programme, it provides a comprehensive education in the field of concentration, but to enter and remain in it, a student normally does not have to meet a special performance requirement (see, however, programmes in Early Childhood Education §31.090, French/English Translation §31.110, Interdisciplinary Studies: Individually Structured Programme §31.170, Leisure Studies §31.185, and the Institute for Co-operative Education §31.515). Students interested in subsequent "classification" by the Provincial government may be advised to follow a Specialization or an Honours programme.

The Honours programme consists of a minimum of 60 credits taken in an approved sequence of courses. Normally within an honours programme not more than 60 credits are mandated from a single discipline or department. Additional credits may be required in cognate disciplines and departments. Superior academic performance is required for admission to and continuation in the honours programme, the precise level of such performance being determined by Senate. See §16.2.4 and Faculty Honours Regulations set out below for matters governing Honours programmes at Concordia. An Honours degree or equivalent, because it testifies to a student’s comprehensive education in a particular field, intellectual commitment to that field, and achievement of a high level of academic performance, has traditionally been required of entrants to postgraduate programmes.

Graduation requirements
1. A candidate for graduation must have successfully completed a programme of concentration in the form of an Honours, Specialization or Major programme.
2. A candidate for graduation must have successfully completed at least 24 credits outside the single discipline or department from which the degree concentration has been chosen. Within every block of 30 credits taken towards the degree, a student will normally choose no more than 24 credits from any one discipline or department.
3. A candidate for graduation must have successfully completed at least 18 credits from courses in Arts and Science in every block of 30 credits taken towards the degree.
4. A candidate for the degree of Bachelor of Arts must have qualified for admission to, and successfully completed, a programme leading to that degree. Specific admission requirements, expressed as CEGEP pre-Arts profiles, are given in §31.002. Students wishing to transfer out of one degree programme into another must satisfy the admission requirements of the programme they seek to enter.
5. Students enrolled in a 90-credit degree or an extended credit degree programme in the Faculty of Arts and Science may take ESL courses for degree credit, up to a maximum of six credits.
6. A candidate for the degree of Bachelor of Science must have qualified for admission to, and successfully completed, a programme leading to that degree. Specific admission requirements, expressed as CEGEP pre-Science profiles, are given in §31.002. Students wishing to transfer out of one degree programme into another must satisfy the admission requirements of the programme they seek to enter.
7. A candidate for the degree of Bachelor of Education must have qualified for admission to, and successfully completed, the programme leading to that degree. The admission and degree requirements are set out in §31.320.
8. In general, the credits obtained for any course may not be used to satisfy the requirements of more than one programme. Students first registered in certain Certificate programmes may however apply credits obtained towards the Certificate to a degree programme.
9. Those students entering the University after September 1, 1978 as Independent students will be permitted to apply no more than 30 credits obtained as an independent student towards any Arts and Science Faculty degree programme.
Supplemental Examinations
( Arts and Science )
Supplemental examinations shall be offered only where, as a condition for passing the course, it is required that a student pass the final examination regardless of its weighting; or where the final examination contributes 50% or more of the final grade.
A student failing a course which comprises entirely, or in part, a laboratory or similar practicum, may not be eligible to write a supplemental examination.
All courses which a student fails and for which there is no supplemental examination shall be graded FNS or R.
A failed student (see §16.3.5) may not write supplemental examinations.

Honours Programmes
The Faculty of Arts and Science has programmes leading to an Honours degree in certain selected fields. To enter an Honours programme, students apply to the Departmental Honours Committee ( Adviser ). The Departmental Honours Committee ( Adviser ) will accept students into Honours, subject to review by the Faculty Honours Committee. The Departmental Honours Committee ( Adviser ) will not normally accept students until they have obtained 30 credits at this University; students requiring fewer than 30 credits to graduate will not normally be accepted. The department will notify the Faculty Honours Committee of the acceptance. The Faculty Honours Committee will review the departmental acceptance and notify the department, the student, and the Records Office of the acceptance. In those cases where the Faculty Committee reverses a department's acceptance of a student into Honours, the department may appeal the Faculty Committee's ruling to the Arts and Science Faculty Council.

Honours Regulations ( Faculty Regulations )
See also §16.2.4
In order to qualify for an Honours degree, a student must comply with the regulations set forth below:
1. An Honours student must meet the general degree requirements, as well as the specific requirements for an Honours degree. A student must complete a minimum of 30 credits in the courses from the Honours component of the programme at this University to receive a degree with Honours. In certain cases, these 30 credits may include some specific courses for which pro-tanto credit may not be awarded.
2. An Honours student must maintain an average of "B" in all courses in the Honours component of the programme; the minimum acceptable grade in any one of these courses is "C".
3. An Honours student must have a minimum average of "B-" over courses in the Honours component of the programme taken in each academic year. For part-time students, this will be calculated in eighteen-credit blocks.
4. In the courses outside the Honours component of the degree programme, an Honours student must have an average of no less than "C"; the minimum acceptable grade in these courses is "D".
5. Students who are required to withdraw from the Honours programme may proceed in the corresponding Specialization or Major programme. Reinstatement in the Honours programme is possible only by appeal to the Faculty Honours Committee.
6. A student is allowed to qualify for only one Honours degree in either a single or combined Honours programme. A student may qualify for a Minor or Major programme in addition to an Honours programme. In general, the credits obtained for a particular course may be used to satisfy the requirements of only one programme.
Students may appeal their department's determination of their status or interpretation of requirements in the Honours programme. Such appeals should be addressed to the Chair of the Faculty Honours Committee.
The Faculty Honours Committee receives and reviews departmental recommendations for acceptance into Honours programmes and graduation with Honours, and adjudicates disputes between students and departments concerning Honours programmes. Since the Faculty Honours Committee cannot hear appeals contesting its own judgements, students and departments who wish to appeal a decision of the Faculty Honours Committee should address this appeal to the Chair of the Arts and Science Faculty Council.
These new regulations will apply to those students entering Honours programmes as of June 1, 1979. Students already in an Honours programme may continue under the old regulations established prior to June 1, 1979.

General Certificate in Arts and Science
The General Certificate in Arts and Science is intended primarily for part-time students who qualify for admission to bachelor degree programmes, but who, at the time of registration, have not yet determined which programme would best serve their interests. In particular, it is designed to meet the needs of mature students who are unwilling or unable to make the long-term commitment involved in a regular or extended degree programme. Students who have completed a university degree do not qualify for admission into the General Certificate in Arts and Science.
The Certificate requires successful completion of 30 credits. At least 24 of these credits must be chosen from courses offered by not more than three departments in the Faculty of Arts and Science.
Credits earned in the Certificate may not be counted towards the additional credits required in extended programmes.
Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.
The General Certificate Programme in Arts and Science was first offered in the session commencing September 1978. Students who are admitted to the General Certificate in Arts and Science, and who wish to continue in a degree programme should apply for admission to their programme within the first 30 credits.
31.003.1 ACADEMIC PERFORMANCE REGULATIONS

Objectives
The objectives of these regulations are to ensure that the Faculty can certify that all of its graduates have achieved an acceptable level of scholarship.

Annual Weighted Grade Point Average (WGPA)* Requirements and Consequences
*See §16.3.7 for definition of Annual WGPA.

Acceptable Standing requires that a student obtain an Annual WGPA of at least 2.00.

NOTE: Although a C- grade (1.70 grade points) is designated as Satisfactory in §16.3.2, a WGPA of 2.00 is required for Acceptable Standing.

Students in Acceptable Standing may continue their programmes of study, following the advice of their academic departments.

Conditional Standing results when a student obtains an Annual WGPA of less than 2.00, but at least 1.50. A student is not permitted to obtain two consecutive Conditional Standing assessments.

Students in Conditional Standing may not write supplemental examinations nor complete work graded incomplete.

Students in Conditional Standing will not be permitted to register for further study until their programme has been approved by the appropriate adviser in their department.

They must obtain Acceptable Standing at the time of their next assessment.

Failed Standing results when a student obtains an Annual WGPA of less than 1.50, or Conditional Standing in two consecutive periods of assessment.

Failed students may not write supplemental examinations nor complete work graded incomplete.

Students who are in Failed Standing for a second time must withdraw from the University and may not apply for readmission.

Failed students who are not required to withdraw may apply for readmission through the Dean’s Office. If readmitted, they will be placed on academic probation. They must return to Acceptable Standing at the time of their next assessment. Other conditions will be determined at the time of readmission.

Graduation Requirements
Students must satisfy all course requirements and be in Acceptable Standing.

The standings of potential graduates who have attempted less than twelve (12) credits since their last assessment are determined on the basis that these credits constitute an extension of the last assessment period.

Potential graduates who fail to meet the requirements of Acceptable Standing, but meet the requirements of Conditional Standing, will have the following options:

a) register for an additional twelve credits and, at the next assessment, meet the requirements for Acceptable Standing;

or

b) register for fewer than twelve additional credits. In this case, standing will be determined on the basis that these extra credits constitute an extension of the last assessment period.

For both option a) and option b), the additional courses taken must be approved by the appropriate member of the Dean’s Office, in consultation with the student’s department where necessary.

Dean’s Office
Dean’s Office is to be understood as being the appropriate member of the Dean’s Office, normally the Vice-Dean, Student Affairs, or delegate.

31.004 Joint Programmes
Subject to approval of the departments concerned, students may take these or other specially designed programmes by being admitted to the Individually Structured Programme (see programme description and admission procedures in §31.170):

BA Joint Honours in English and Philosophy
BA Joint Honours in English and Religion
BA Joint Honours in French and History
BA Joint Honours in French and one of the Modern Languages
BA Joint Honours in History and Philosophy
BA Joint Honours in History and Religion
BA Joint Honours in Philosophy and Religion
BA Joint Honours in Philosophy and Sociology
BA Joint Honours in Religion and Sociology

Students wishing to have further information about these programmes should consult the departments concerned.

NOTE:
The use of “C” in the course prefix is discontinued. Unless otherwise indicated, a course previously prefixed with a C is equivalent to the identically numbered one without the C prefix.
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

60 BA Specialization in Applied Social Science
NOTE: PSYC 200^6 is a prerequisite for the Psychology courses included in this programme. Students not exempted from PSYC 200^6 must enrol in this course during their first year.

The Sociology courses included in this programme also have prerequisites (e.g., SOCI 203^3 which should be taken in their first year).

- APSS 240^6, 250^3
- PSYC 310^3 and 315^3 taken concurrently
- APSS 451^3
- Chosen from APSS 420^6, 440^6, 450^6
- APSS 490^6

Chosen from Lists A, B, C, and D. At least six (6) credits and not more than twelve (12) credits must be chosen from APSS courses. At least six (6) credits must be chosen from List A and a further six (6) credits from one other List: B, C, or D.

List A: Social Theory
PSYC 333^6, SOCI 300^6, 330^6, 370^6

List B: Understanding Individuals and Groups
APSS 413^6, 418^5, 419^5, 450^6, 453^3, 456^3, 463^6, ADED 344^5, 345^5; PSYC 283^3, 284^3, 336^6, 379^3; SOCI 262^3, 263^3, 372^6

List C: Understanding Communities
APSS 440^6, 461^5; GEOG 313^3, 331^5; SOCI 280^6, 353^3, 354^3, 382^2; URBS 280^9

List D: Understanding Organizations
APSS 420^6; MANA 266^3, 340^3; PSYC 375^5, SOCI 329^3, 429^9

Certificate in Community Service
The Department of Applied Social Science offers a 30-credit programme consisting of 21 credits in the Department and 9 credits which complement these from other disciplines leading to the Concordia University Certificate in Community Service. Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

Admission Requirements
General Admission Requirements are listed in §13.
Students are required to complete the 0.00A entrance profile to enter the Certificate. Students should be actively involved in community service, either as staff or as volunteers or members of boards, committees, or councils of community organizations and agencies.

30 Certificate in Community Service  
NOTE: APSS 240, PSYC 200, and SOCI 203 are prerequisites for courses included in this Certificate. (Courses must be taken in an approved sequence and selected in consultation with the Coordinator of the Certificate programme in accordance with the selected emphasis in gerontology, organizational leadership, or community intervention.)  
Stage I  
9 APSS 250, 461  
Stage II  
9 Chosen in consultation with the Coordinator of the Certificate programme from outside APSS  
6 APSS 431  
Stage III  
6 Chosen from APSS 418, 419, 420, 440  
NOTE: In the event that a student is awarded an exemption from a required course, it will be necessary for the student to replace that course with another relevant to the programme, chosen in consultation with the Coordinator of the Certificate Programme.

Certificate in Family Life Education  
The Department of Applied Social Science offers a 30-credit programme consisting of 18 credits of applied courses and 12 credits of foundation courses chosen as electives, leading to the Concordia University Certificate in Family Life Education. Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

Admission Requirements  
General Admission Requirements are listed in §113. Students are required to complete the 0.00A entrance profile to enter the Certificate. Students should be actively involved in family life education through a sponsoring community agency or organization; or interested in becoming more effective family life educators.

30 Certificate in Family Life Education  
NOTE: APSS 240, PSYC 200, and SOCI 203 are prerequisites for courses included in this Certificate. (Courses must be taken in an approved sequence and selected in consultation with the Coordinator of the certificate programme)  
Stage I  
6 APSS 250, 454  
Stage II  
12 Chosen from EDUC 398, PSYC 280, 281, 283, 284, 298, SOCI 262, 263, 272, 274, 372, 373, 398, RELI 333, 334, 370  
Stage III  
12 APSS 431, 453, 455  
NOTE: In the event that a student is awarded an exemption from a required course, it will be necessary for the student to replace that course with another relevant to the programme, chosen in consultation with the Coordinator of the Certificate programme.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

APSS 240 Interpersonal and Group Dynamics (6 credits)  
This course is designed to foster development of understanding with respect to self, self in relation to others and patterns of relationships in small groups. This involves skill-building in: relating and communicating with others; observation and diagnosis of relationships and group dynamics; problem-solving; decision-making; and intervention. The course also includes learning and application of interpersonal communication and group development theory. The course requires active participation, reflective assignments such as journal writing, and learning how to use theory to interpret observation and experience.  
NOTE: Students who have received credit for APSS 355 and 356 may not take this course for credit.

APSS 250 Applied Social Science Approaches to Social Problems (3 credits)  
Prerequisite: Enrolment in APSS programmes. This course focuses on two questions: What is a social problem? What is a social response? The exploration of these questions is field-based, supported by cases, research of the literature, and reflection on the issues there discovered. Students are introduced to the concepts and processes of social systems and social intervention. Lectures and laboratories.  
NOTE: Students who have received credit for APSS 212 may not take this course for credit.

APSS 298 Selected Topics in Applied Social Science (3 credits)

APSS 299 Selected Topics in Applied Social Science (6 credits)  
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

APSS 398 Selected Topics in Applied Social Science (3 credits)

APSS 399 Selected Topics in Applied Social Science (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**APSS 413 Adolescent Behaviour in Urban Areas** (6 credits)
Prerequisite: APSS 240; APSS 250. A survey of adolescent values, family and group relations, social mobility, friendship patterns, and educational and vocational adjustment, focusing on understanding social behaviour in urban communities. Attention is also given to programmes attempting to enhance adolescent development and reduce social problems.

**APSS 415 Personal Values and Social Problems** (3 credits)
Prerequisite: Enrolment in the BA Major in Applied Social Science and completion of 60 credits in the degree programme. This course is designed as an integrative seminar for final-year students. It is intended to help students draw together their learning from a variety of disciplines and relate it to practical conditions of the social world. The course includes identification of personal strengths, interests, goals, and values related to social and community service.

**APSS 418 Gerontology for the Practitioner I** (3 credits)
Prerequisite: APSS 240. This course provides an overview of the status and problems of the elderly in our society. Through interviews, visits, readings, and lecture-discussions, the course is designed to foster an understanding of some of the problems confronting the elderly. Attention is given to the resources available for the elderly as well as to approaches to the problems of the elderly that maximize their sense of responsibility.

**APSS 419 Gerontology for the Practitioner II** (3 credits)
Prerequisite: APSS 418. This course focuses in depth on one or two pivotal issues for the elderly in our society. In this course students interview the elderly, visit community resources for the elderly, and develop approaches to the solutions for the problems identified.

**APSS 420 Organizational Change and Development** (6 credits)
Prerequisite: APSS 240; APSS 250; APSS 431. This course focuses on the leader who solves problems and makes decisions in conjunction with other people in community-serving organizations. The basic objective of this course is to increase knowledge and understanding of human behaviour in the not-for-profit organizations. The course focuses on: i) theory and research, ii) understanding of the processes of leadership and decision making, iii) behavioural skills in working with people, iv) understanding of oneself in relation to administrative responsibility. This course relies heavily on active participation of class members. This course has a fieldwork requirement.  
NOTE: Students who have received credit for APSS 421 may not take this course for credit.

**APSS 431 Leadership in Group Development** (6 credits)
Prerequisite: APSS 240; APSS 250. This course is designed to provide students with an opportunity to increase their effectiveness in leading small groups; to identify their leadership styles and to adapt individual styles to a variety of situations. The course focuses on: factors helping and hindering group process; communication patterns; problem solving; handling conflicts and dealing with personal needs of members. Special attention is given to tools for systematic observation, group diagnosis and group self-analysis techniques. Students are required to study the development of an outside group through the year. Lectures, laboratories and fieldwork.

**APSS 440 Community Development** (6 credits)
Prerequisite: APSS 240; APSS 250; APSS 431. This course has students working as volunteers in a community agency engaged in outreach work or community development. Class sessions are designed for theoretical input on problems identified in students' field placement experience. Class sessions include theory presentations, games and simulations, and problem solving. The emphasis is on discovering what a social system is by observation and participation and finding out how to manage interventions in an appropriate fashion. Lectures and a fieldwork requirement.  
NOTE: Students who have received credit for APSS 441 may not take this course for credit.

**APSS 450 Principles and Practices of Counselling** (6 credits)
Prerequisite: APSS 240. This course is designed to introduce students to the basic concepts of helping. Through theoretical and experiential approaches instruction focuses on basic concepts of relating to another person in a helping relationship and skill development in interviewing. Students are briefly introduced to various counselling theories and approaches to clarify their own theoretical position in a helping relationship. This course is not designed to equip students to become professional counsellors, but to introduce them to the field and prepare them for future study and training. The course includes skill training, observation and demonstration exercises, role play, practice and discussion sessions, theory input and the use of films and video. This course has a fieldwork requirement.

**APSS 453 Sexuality and Human Relations** (3 credits)
Prerequisite: APSS 240. Using a variety of small group processes, the seminar explores physical and psychosocial factors in the emergence of the sexual self. Objectives of the seminar include helping students to increase awareness of sexual values and attitudes. Lectures and laboratories.  
NOTE: Students will receive no more than 6 credits from APSS 453 and HEAL 472.
Special Seminar in Family Communication (3 credits)
Prerequisite: This course is for Certificate students only. Students must have completed APSS 240 to enter the Certificate programme. A course in marriage and family living, including decision making, interpersonal relationships, communication, male-female lifestyle and problem solving within a family. Handling of crisis, loneliness, death, and dying are also considered. The course studies marriage and family relationships in a way that can pertain directly to the student's own living experiences. Lectures and laboratories.

Advanced Integrative Seminar in Family Life Education (3 credits)
Prerequisite: This course is for Certificate students only who must be in the final year of the programme. The purpose of this course is to coordinate the other courses required by the programme and to integrate the theory derived from the contributing disciplines within an applied social science perspective. Lectures, laboratories and fieldwork.

Interviewing (3 credits)
Prerequisite: APSS 240; APSS 250. The course reviews different forms of interviewing, communication influences on the interviewer and interviewee, structure and design features of interviews, construction of questions, building rapport, controlling information flow, and limitations of the approach. Illustrations of interviewing are taken from the contexts of business, counselling, mass media, and research, among others. Approximately equal emphasis is devoted to theoretical discussions and practice.

Human Services: Public Policy and Current Issues (6 credits)
A general course concerned with human services problems in modern society; some analysis of these problems in relation to economic and cultural patterns. A description of the functional settings in which human services are practised. A consideration of the methods used in human services, and some consideration of the links between human services and religion, law, medicine, nursing, teaching, and other professions.

Adulthood: Patterns and Transitions (6 credits)
Prerequisite: APSS 240; APSS 250; permission of the Department. The course addresses itself to the phenomenon of adult development from early adulthood through maturity. The focus is on both the content of the life changes observed, and on the process of change from one life stage or period to another. Participants explore the patterns of change in their own lives and relate these patterns to contemporary theories of adult development. The relationship of life changes to cultural and historical features of the times, and to working in social systems as helping professionals are also examined. Thus, autobiographical accounts of class participants, and existing research evidence describing normative life changes, reactions to these, and the nature of the change process are integrated in the evaluation of relevant theory.

Special Projects Seminar (6 credits)
Prerequisite: Completion of 30 credits in Specialization or Major in Applied Social Science and permission of the Department. A seminar course of field projects, surveys, and research studies undertaken by each student.

Special Projects Seminar (6 credits)
Prerequisite: Completion of 30 credits in Specialization or Major in Applied Social Science and permission of the Department. Students who have received credit for APSS 471 may register for APSS 472 provided the subject matter is different.

Independent Study in Applied Social Science (3 credits)
Prerequisite: Permission of the Department. This course is intended for students who wish to continue a project initiated in another course in the Department. The instructor of that course must agree to supervise this independent study.

Approaches to Applied Social Research (6 credits)
Prerequisite: Enrolment in the BA Specialization in APSS and completion of 60 credits in the degree programme. This course is a project seminar which explores research approaches commonly used by social practitioners such as action research, survey-feedback studies, and programme evaluation. Each of the alternative modes of research relate directly to social and organizational change. Approaches of particular interest in this course are those which maximize involvement by people in directing their own change. The course includes a research project which utilizes an approach to applied social research of most interest to the student. Lectures and laboratories.
NOTE: Students who have received credit for APSS 400 may not take this course for credit.

Advanced Topics in Applied Social Science (3 credits)

Advanced Topics in Applied Social Science (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value. Courses offered by the Biology Department are classified as follows:

A. ANIMAL BIOLOGY COURSES

B. BOTANY COURSES
BIOL 240, 341, 342, 344, 345, 346, 347, 349, 441.

C. ECOLOGY COURSES

D. CELL AND MOLECULAR BIOLOGY COURSES

E. BIOLOGY ELECTIVE COURSES
BIOL 242, 298, 299, 320, 321, 322, 323, 380, 381, 398, 399, 420, 480, 481, 490, and any of the Animal Biology, Botany, Ecology, or Cell and Molecular Biology courses. Approved courses outside the Department may be taken for Biology elective credits.

NOTE: Advanced Topics courses (BIOL 498, BIOL 499) will be given from time to time and may be applied to the above areas, where appropriate. The area will be indicated in the title (i.e. Advanced Topics in Botany, ... Advanced Topics in Ecology, ...). Please consult current Biology Course Guide.

Although the Biology Department offers Honours, Specialization, Major and Minor programmes, we recommend that students wishing to pursue careers in Biology take either an Honours or Specialization programme. The Major and Minor programmes are not designed to provide an extensive enough background in Biology for students to progress to careers in the discipline. The Major should be considered by students requiring a less specialized degree, with a biology concentration or as part of a double major programme. The Minor is designed to be flexible and allow a student whose area of concentration is outside of Biology to take courses to provide either a general survey or to gain a more in depth understanding of one of the major areas of biology.

For those wishing to concentrate in a particular area, recommended sequences of courses are described in course guides available in the Biology Department. It is also strongly recommended that students taking any Biology programme take full advantage of the counseling available within the Department, in order to select the courses that will best meet their needs.

72 BSc Honours in Biology
An approved sequence of courses from the following selection constitutes an Honours in Biology. Students must consult with the Departmental Honours Adviser before registering for the Honours programme.
A series of lectures, demonstrations, and seminars to provide non-biologists with a general survey of the fundamental principles of life, with special emphasis on the structures and functions of human beings. Lectures only. 

**NOTE:** Students entering the programme with CEGEP Organic Chemistry must replace these credits with Biology electives. 

**NOTE:** A student who has taken MATH 242, 243, plus 3 credits from either MATH 343, 347 or 348 will be exempted from taking BIOL 322, and be credited with 3 credits in the Biology programme plus 6 elective credits. A student cannot replace BIOL 322 by taking MATH 242, 243 alone. 

### BSc Specialization in Biology

An approved sequence of courses from the following selection constitutes a Specialization in Biology. 

**6** Chosen from **BIOL 333**, **346**, **349**, **364** or **464**

60 BSc Specialization in Biology

### BSc Major in Biology

An approved sequence of courses from the following selection constitutes a Major in Biology.

**CHEM 221** and **222**, **271**, **BIOL 230**, **240**, **250**, **261**

**3** Chosen from **BIOL 322**, **333**, **346**, **349**, **364** or **464**

18 Additional Biology credits of which no more than 6 may be from Group E. 

**NOTE:** A minimum of 6 credits in 300- or 400-level Biology courses must be completed. 

### Minor in Biology

12 Selected from **A. Animal Biology courses, B. Botany courses, C. Ecology courses, D. Cell and Molecular Biology courses**.

12 **BIOL electives**.

### BSc Specialization in Geology-Ecology

See Section 31.140, Geology

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

**BIOL 200 Fundamentals of Human Biology** (6 credits)

A series of lectures, demonstrations, and seminars to provide non-biologists with a general survey of the fundamental principles of life, with special emphasis on the structures and functions of human beings. Lectures only. 

**NOTE:** Students registered in a Biology or Biochemistry programme may not take this course for credit.

**BIOL 201 Introductory Biology** (3 credits)

Fundamentals of plant and animal biology: basic physics and chemistry of life; cell and tissue structures and functions; anatomy and physiology of human systems; survey of plant and animal taxonomy, ecology, heredity and evolution. Lectures and laboratory. 

**NOTE:** Students with CEGEP Biology 301, or equivalent, may not take this course for credit. Students entering BIOL programmes without CEGEP Biology 301, or equivalent, must take this course, but not for programme credit.

**BIOL 203 Fundamental Nutrition** (3 credits)

This course deals with food composition (carbohydrates, lipids, proteins, vitamins, and minerals), its absorption and utilization, energy balance, special diets, and food technology. Lectures only. 

**NOTE:** Students registered in a Biology or Biochemistry programme may not take this course for credit.

**BIOL 206 Elementary Genetics** (3 credits)

A survey of classical and contemporary developments in the study of heredity, with particular attention to human examples. This course is open to the general student body. Lectures only. 

**NOTE:** Students registered in a Biology or Biochemistry programme may not take this course for credit; may not be taken for credit with BIOL 205.

**BIOL 207 Micro-Organisms and Humanity** (3 credits)

A course designed for students registered in a programme other than one leading to the BSc degree. 

**BIOLOGY**
It considers the role of micro-organisms in plant and animal diseases, food spoilage, cellulose degradation, and water pollution, as well as their ecological, industrial, and pharmacological importance. Lectures only.

NOTE: Students registered in a Biology or Biochemistry programme may not take this course for credit.

**BIOL 208 Environmental Biology I** (3 credits)

This course examines the principles and concepts of ecosystems, the interaction of organisms and their environment. Energy flow and nutrient cycling in ecosystems, population dynamics, and community organization. Lectures only.

NOTE: Students registered in a Biology or Biochemistry programme may not take this course for credit.

**BIOL 210 Genetics and Human Welfare** (3 credits)

A course on the principles of heredity as understood by modern biology. It deals also with the application of genetic principles to organisms, including humans. The biological basis of social problems is dealt with at some length. Organic evolution and its implications for human life and welfare are considered. Lectures only.

NOTE: Students registered in a Biology or Biochemistry programme may not take this course for credit; may not be taken for credit with BIOL 206.

NOTE: Students who have received credit for BIOL 205 may not take this course for credit.

**BIOL 230 Animal Biology** (3 credits)

Prerequisite: CEGEP Biology 301 or equivalent. A survey of the major animal phyla, with emphasis on evolutionary trends, structure and function, behaviour and integration of organ systems. Lectures and laboratory.

**BIOL 232 Entomology I** (3 credits)

Prerequisite: CEGEP Biology 301 or equivalent. This course introduces the student to the variety and complexity of insect life. Basic classification is followed by a more detailed study of morphology and anatomy, together with some physiological considerations. Other topics such as adaptations for aquatic life, social behaviour, etc., are discussed. Laboratories begin with a field trip, the object of which is to observe and collect various insect species. The rest of the laboratory sessions complement the lectures. Students are advised to begin an insect collection during the summer months preceding the course. Lectures and laboratory.

**BIOL 233 Entomology II** (3 credits)

Prerequisite: BIOL 232. To the initiated students, this course presents an in-depth study of insect behaviour. Topics include sensory physiology, insects and plants, light and sound production, population dynamics, and insect ecology. An attempt is made throughout the course to emphasize the relationship between the structure and function of various insect parts. Lectures and seminars.

**BIOL 234 Invertebrate Zoology I** (3 credits)

Prerequisite: BIOL 201. The Protozoa, Acelomate and Pseudocoelomate Invertebrates: A detailed survey of non-coelomate invertebrates which deals in depth with the Protozoa, Porifera, Cnidaria, Platyhelminthes, Nematoda, Acanthocephala and Rotifera. Emphasis in lectures is placed on phylogeny, functional morphology, adaptations to specific environments and reproduction. Close attention is paid to evolutionary trends within and between phyllogenetic groups. Both origin of the metazoa from single-celled ancestors and the role of the lower metazoa in the evolution of higher animals are examined. Laboratory work stresses morphology of both preserved and living material and, where possible, live specimens are used to demonstrate behaviour. Lectures and laboratories.

**BIOL 235 Invertebrate Zoology II** (3 credits)

Prerequisite: BIOL 230 or BIOL 234. The Coelomate Invertebrates: A detailed examination of the major coelomate invertebrate phyla including the Annelids, Molluscs, Arthropods (excluding Insects), Echino- derms and, if time permits, minor coelomate phyla. Lectures stress functional morphology, physiology, and reproduction. Emphasis in the laboratory is on dissection of a selected representative from each group and a detailed examination of characteristics of a range of other representatives of each group. Where possible living specimens are used to demonstrate behaviour. Lectures and laboratories.

**BIOL 240 Plant Biology** (3 credits)

Prerequisite: CEGEP Biology 301 or equivalent. A survey of the major plant phyla, with emphasis on evolutionary trends, distribution, life cycles, morphology, development, physiology, anatomy. Lectures and laboratory.

**BIOL 242 Economic Botany** (3 credits)

Prerequisite: CEGEP Biology 301 or equivalent. Origin, development, and use of selected economic plants, including microorganisms. Their historical impact, prospects for future use, and importance to the Canadian economy are stressed, as well as world-wide problems of food and alimentation. Lectures only.

**BIOL 250 Fundamentals of Ecology** (3 credits)

Prerequisite: CEGEP Biology 301 or equivalent. This course introduces factors which affect distribution and abundance of species; the physical-chemical environment, energy flow, and species intera
tions. Other topics introduced include adaptation to the abiotic and biotic environment, population regulation, ecological succession, species diversity and community structure. Lectures only.

**BIOL 261  Genetics  (3 credits)**
Prerequisite: CEGEP Biology 301 or equivalent; CEGEP Biology 401 or equivalent recommended. A course to illustrate the fundamental principles of inheritance in plants, animals, and microorganisms. Mendelian genetics, gene linkage, and mutation are covered. The role of DNA as the hereditary material and the genetic code are studied in detail, as are the mechanisms of DNA, RNA, and protein synthesis. Lectures and laboratory.

NOTE: Students who have credit for BIOL 260 may not take this course for credit.

**BIOL 270  Introductory Microbiology  (3 credits)**
Prerequisite: CEGEP Biology 301 or equivalent. Structure and function of bacteria and viruses as related to industry, health, agriculture, and ecology. Laboratory exercises illustrate lecture material and introduce methods of handling microorganisms. Lectures and laboratory.

**BIOL 298  Selected Topics in Biology  (3 credits)**
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**BIOL 299  Selected Topics in Biology  (6 credits)**

**BIOL 320  History of Biology  (3 credits)**
Prerequisite: Twelve credits from the Department of Biology. The lecture material is oriented toward the beginnings of formal biology in relation to the state of knowledge at the time, and the development of these ideas up to the beginning of the present century. Emphasis is on broad principles rather than on encyclopedic or biographical notes. Much illustrative or detailed information is provided by the class, since each student must present a seminar on a topic chosen from the history of biology. Lectures only.

**BIOL 321  Evolution  (3 credits)**
Prerequisite: Any twelve credits from the Department of Biology. A course that examines concepts leading from Darwin's theory to a modern synthesis of evolution. Lectures only.

**BIOL 322  Biostatistics I  (3 credits)**
Prerequisite: Nine BIOL credits in a Biology major, Honours or Specialization programme. Statistical methods for the biological sciences; sampling; experimental design; data description; elementary probability; binomial, Poisson and Normal distributions; statistical inference; hypothesis testing; chi-square; analysis of variance; correlation; regression; covariance analysis; and analogous non-parametric techniques. Lectures and laboratory.

NOTE: Students who have received credit for BIOL 222 or MATH 241 may not take this course for credit.

**BIOL 323  Biology of Aging  (3 credits)**
Prerequisite: BIOL 230; BIOL 261. Aging as a biological process is examined at physiological, evolutionary, genetic, cellular, and molecular levels. Current theories of aging are examined: these include the rate-of-living theory, the error-catastrophe theory, the autoimmune theory, the cross-linkage theory, and the somatic-mutation theory. Studies on aging in protozoans, plants, animals, and cells in culture are evaluated in relation to these theories. Lectures only.

**BIOL 330  Biology of the Vertebrates  (3 credits)**
Prerequisite: BIOL 230. A survey of the fishes, amphibians, reptiles, birds and mammals. Emphasis is placed on phylogeny of the groups and the adaptations that fit them to their environments. Topics include zoogeography, physiology, communication, reproduction, etc. Lectures only.

NOTE: Students who have received credit for BIOL 231 may not take this course for credit.

**BIOL 331  Comparative Vertebrate Anatomy  (6 credits)**
Prerequisite: BIOL 230. A comprehensive study of the development and structure of the systems of a representative series of vertebrates from a comparative and evolutionary point of view, with some emphasis on the mammals. In the laboratory, representatives of the principal classes of vertebrates are dissected. Lectures and laboratory.

**BIOL 332  Parasitology  (3 credits)**
Prerequisite: BIOL 230 or BIOL 234, previously or concurrently. A survey of the parasitic groups of invertebrates, with special reference to human parasites. Lectures and laboratory.

NOTE: This course may not be taken for credit with BIOL 339.

**BIOL 333  Animal Physiology  (6 credits)**
Prerequisite: BIOL 230; CHEM 271; 30 credits in Biology. An integrated study of basic physiological phenomena of vertebrates. Topics discussed include muscle function, nervous system, circulation, respiration, temperature regulation, digestion, metabolism, excretion, and endocrinology. Lectures and laboratory.
BIOLOGY 334  Vertebrate Embryology  (3 credits)
Prerequisite: BIOL 230. The fundamental processes of growth and development in vertebrates are examined. Morphogenetic events in selected vertebrate species are compared by laboratory study. Topics covered include reproduction, gametogenesis, fertilization, cleavage patterns, gastrulation, organogenesis, metamorphosis, regeneration and extra-embryonic membranes. Lectures and laboratory.

BIOLOGY 335  Histology I  (3 credits)
Prerequisite: BIOL 230. A comparative study of the microscopic characteristics of cells, tissues, and organs of vertebrates. Lectures and laboratory.

BIOLOGY 336  Histology II  (3 credits)
Prerequisite: BIOL 335; BIOL 331 recommended. An advanced comparative study of the vertebrate organ systems at the ultrastructural and histological level. Lectures and laboratory.

BIOLOGY 341  Biology of the Fungi  (3 credits)
Prerequisite: BIOL 270. A study of the morphology, taxonomy, phylogeny, and ecology of the fungi; their importance in agriculture, industry, medicine, and research is emphasized. Lectures and laboratory.

BIOLOGY 342  Eastern North American Flora  (3 credits)
Prerequisite: BIOL 240, previously or concurrently. A study of higher plant life occurring in Eastern North America, including recognition, collection, identification, classification, and distribution. Field work for practical experience with the regional flora in various habitats. Lectures and laboratory.

BIOLOGY 344  Biology of Algae  (3 credits)
Prerequisite: BIOL 240. Taxonomy, physiology, and ecology of algae, with special consideration of their involvement in water pollution, sewage treatment, primary production, and their utilization in industry. Lectures and laboratory.  
NOTE: Students who have received credit for BIOL 248 may not take this course for credit.

BIOLOGY 345  Horticultural Science  (3 credits)
Prerequisite: BIOL 240. The scientific concepts of horticulture are emphasized. Topics include plant breeding for adaptation to climate, chemical regulation of plant processes and effects on crop yield, environmental factors in crop production, pollutant impact on horticulture, problems in bulk storage, processing and marketing of perishables. The role of horticultural science in meeting world food requirements, as well as its impact on society, are discussed. Lectures only.

BIOLOGY 346  Physiology of Plant Development  (3 credits)
Prerequisite: BIOL 240. Physiological and biochemical aspects of plant growth and development. Plant responses to growth regulators, their mode of action and their use in plant tissue culture. The role of light and temperature in seed germination, dormancy and flowering. Lectures and laboratory.

BIOLOGY 347  Plant Anatomy  (3 credits)
Prerequisite: BIOL 240. A study of the internal structure of the plant as related to the processes of growth and metabolism. An experimental approach is presented to the study of the relationship between structure and function of various parts of the plant. The study of pathological, ecological, and economic aspects of anatomy, with emphasis on developmental anatomy. Laboratory work includes the preparation of permanent slides, using plant microtechnique. Lectures and laboratory.

BIOLOGY 349  Plant Nutrition and Metabolism  (3 credits)
Prerequisite: BIOL 240. A study of the physiological processes of higher plants relating to water relations, mineral nutrition, photosynthesis, carbohydrate and nitrogen metabolism. These processes are discussed in relation to the environmental factors which govern them. Lectures and laboratory.

BIOLOGY 352  Plant Field Ecology  (3 credits)
Prerequisite: BIOL 240; BIOL 250; BIOL 322. This course is normally offered for a two-week period during August at the Lacolle Centre. It involves identification of local plant species, methods of sampling of communities, and examination of the pattern of plant communities in the area. Handling of data on populations and communities is discussed, as well as statistical analysis of population and community data. A mixture of formal lectures, organized field studies, and informal discussion. Students are required to hand in a written report after the course has ended.

BIOLOGY 355  Fundamentals of Limnology  (3 credits)
Prerequisite: BIOL 250, previously or concurrently. An introduction to the study of inland waters ecosystems with major emphases on geographical, physical and chemical characteristics that govern lake productivity. Topics include: the origin of lake basins, lake morphology and morphometry, hydromechanics, the optical and thermal properties of lakes, dissolved chemicals. Questions concerning water pollution are studied. Lectures only.

BIOLOGY 356  Microbial Ecology  (3 credits)
Prerequisite: BIOL 250; BIOL 270. The properties of microbial habitats, structure and dynamics of microbial communities and their role in the decomposition processes. Particular stress is placed on the interactions between microbes and higher organisms in terrestrial ecosystems that mediate the cycling of nutrients between biotic and abiotic parts of the system. Lectures and laboratory.
BIOLOGY

**Ecology and Behaviour Field Course**  (3 credits)
Prerequisite: BIOL 250; BIOL 322; permission of the Department. The course involves acquiring technical skills in the fields of limnology, animal behaviour, plant ecology, population and community ecology. This course is given in association with the Department of Biology of McGill University. The course lasts two full weeks at the end of August and is held at the Mont St. Hilaire-Gault Estate Field Station of McGill University.

**Introduction to Animal Behaviour**  (3 credits)
Prerequisite: BIOL 250. This course focuses primarily, although not exclusively, on the proximate causation of behaviour. Topics include development, learning, genetics, hormonal control of behaviour, motivation, cyclical changes in behaviour as well as sensory processing, orientation and perception. The course is geared to provide an ecological perspective on animal behaviour. Lectures and project.

**Evolutionary Ecology**  (3 credits)
Prerequisite: BIOL 250. This course covers current topics in evolutionary ecology and specific topics covered may change from year to year. The aim of the course is to provide students with the knowledge and ability to critically evaluate and test evolutionary hypotheses in ecology and behaviour. Topics covered may include mechanisms of evolution, natural selection, the unit of evolution, and the adaptive significance and evolution of such ecologically relevant traits as body size, sex, sex ratio, and senescence. Lectures only.

**Cellular Metabolism I**  (3 credits)
Prerequisite: CHEM 221; CHEM 222. The course covers various simple aspects of metabolism in both animals and plants, distribution of cell organelles and their metabolism, energy production and utilization, nucleic acids and protein synthesis. Lectures only.

**Cellular Metabolism II**  (3 credits)
Prerequisite: BIOL 361 or CHEM 271. Emphasis is placed on various aspects of intermediary metabolism, regulation of cellular processes and bioenergetics; transmission and expression of genetic information. Lectures and laboratory.

**Genetics of Higher Organisms**  (3 credits)
Prerequisite: BIOL 261. This course covers various aspects of the genetics of multicellular and eukaryotic organisms, including cytogenetics, developmental, human, behavioural, and population genetics, as well as somatic cell genetics. Lectures only.

**Cell Physiology**  (3 credits)
Prerequisite: CHEM 221; CHEM 222 or 30 credits; enrolment in Biology Honours, Specialization or Major programme. A survey of the mechanisms involved in functions of single cells and subcellular components, particularly organelles; membrane phenomena, motility, bioenergetics, and cellular responses to environmental stress, including ionizing radiation, cold, and hydrostatic pressure. Lectures and laboratory.

**Cytology**  (3 credits)
Prerequisite: CHEM 221; CHEM 222; 30 credits; enrolment in Biology Honours, Specialization or Major programme. Cell structure and ultrastructure, with reference to organelle function; microscopic and cyto-chemical techniques of analysis. Emphasis is on experimental, molecular, and ultrastructure analysis, to achieve a correlation between cell structure and function. Lectures and laboratory.

**Intermediate Microbiology**  (3 credits)
Prerequisite: BIOL 270; CHEM 221; CHEM 222;CHEM 271 recommended. Designed to continue from BIOL 270. Nutrition and metabolism of microorganisms, with special emphasis on metabolic processes unique to microorganisms (fermentations, oxidation of inorganic compounds, aerobic respiration, and anaerobic respiration). Basic immunology and immunochemistry; brief discussion of microbes in medicine and industry. Laboratory includes metabolic and serologic methods of identifying microorganisms. Lectures and laboratory.

**Nutrition**  (3 credits)
Prerequisite: CHEM 221; CHEM 222; CHEM 271 recommended. The concept of a balanced diet is studied in relation to caloric content; and to protein, lipid, carbohydrate, vitamin, and mineral requirements. The consequences of dietary deficiencies are examined. Special topics such as dieting, organic foods, megavitamins, food additives, and toxins are discussed. Lectures only.

**Bi ology of Pollutants**  (3 credits)
Prerequisite: BIOL 250. The purpose of this course is study the impact of pollution on ecosystems. The major classes of pollutants are considered in relation to their nature, origin and distribution, and particularly their mode of action on individual organisms and ecosystems. Air, water and soil are examined with their respective pollutants and a major emphasis is given to quantitative assessments of various agents and their effects. The course also includes theoretical and practical aspects of bioassays and an overview of case studies and of control measures. Lectures only.
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**Biology of Fishes** (3 credits)
Prerequisite: BIOL 230; BIOL 250; BIOL 322. A survey of the fishes with emphasis placed on phylogeny of the groups and the anatomical, physiological and biochemical adaptations to their environments. Ecology and Zoogeography are considered. Laboratory exercises include a number of short- and long-term experiments on the growth, physiology and behaviour of fishes. Lectures and laboratories.

**Comparative and Environmental Physiology** (3 credits)
Prerequisite: BIOL 333. The primary theme of this course is the physiological interrelationships between animals, and their environments. A comparative study of selected physiological processes in diverse phyla, dealing with behavioural and physiological adaptations in animals. Lectures and seminars.

**Advanced Parasitology** (3 credits)
Prerequisite: BIOL 332. An examination of the biological aspects of parasitism. Proposed topics include host findings behaviour, distribution of parasites within host populations, seasonal variation in parasite populations and its causes, interspecific and intraspecific interactions among parasites and the evolution of host parasite relations. Lectures and laboratory.

**Ecological Genetics** (3 credits)
Prerequisite: BIOL 250; BIOL 261; BIOL 322; BIOL 353 or permission of the Department. A course emphasizing the interface between ecology, population genetics and evolution: the study of genetic variation in natural populations and its relevance to evolutionary processes. Topics include, measuring genetic diversity in natural populations; patterns of diversity; selection; phenotype versus genotype in evolution; neutral variation, genetic load; genetic structure; the species concept; the unit of evolution; Neo-Darwinism and the modern synthesis. Lectures only.

**Population Ecology** (3 credits)
Prerequisite: BIOL 322; BIOL 353. A theoretical approach to ecological problems. Evolutionary aspects of ecological problems, population dynamics, species diversity, stability of ecosystems, regulation of population size, competition, and predation. Lectures only.

**Molecular Genetics** (3 credits)
Prerequisite: BIOL 261; or BIOL 360; CHEM 271 previously or concurrently, or permission of the Department. Basic microbial and molecular genetics, including isolation and characterization of mutants, methods of mapping mutants, transposons, episomes, and recombinant DNA techniques. Lectures and conferences.

**Advanced Genetics** (3 credits)
Prerequisite: BIOL 261 or BIOL 360. Directed readings and seminars in classical and contemporary genetics designed to expose the student to research literature and problems. Students probe in greater depth areas of particular interest in order to develop a critical sense and deepen an understanding of past and current work in this field. Seminars only.
BIOL 462  Immunology (3 credits)
Prerequisite: BIOL 261; BIOL 364; CHEM 271 previously or concurrently. A course in modern immunology stressing the following areas of study: the structure and properties of antigens and antibodies; the nature of the immune response; cellular-antibody synthesis; genetic aspects of antibody synthesis; theories relating antibody specificity to genetic potential. Lectures and conferences.

BIOL 463  Developmental Biology (3 credits)
Prerequisite: BIOL 260; BIOL 334. This course examines mechanisms of cell and tissue interactions in development and differentiation. Cell sorting and recognition, as well as the processes controlling growth and regeneration are analyzed from an experimental point of view. Experiments involving gene transplants, nuclear transplants and allophenic mice are discussed to gain insights on the genetic control of development. Lectures only.

BIOL 464  Advanced Cell Physiology (3 credits)
Prerequisite: BIOL 364; CHEM 271 previously or concurrently. Lectures and seminars dealing with selected topics in cell physiology, emphasizing a molecular experimental approach. Lectures only.

BIOL 465  Biological Regulatory Mechanisms (3 credits)
Prerequisite: BIOL 261; CHEM 271; or permission of the Department. The molecular basis of the control of metabolic pathways, with an emphasis on procaryote systems. The course concentrates on the analysis of the rationale of experimentation used to elucidate these regulatory mechanisms. Lectures and conferences.

BIOL 466  Cytogenetics (3 credits)
Prerequisite: BIOL 261; BIOL 365; or permission of the Department. A detailed study of eukaryotic chromosomes, plant and animal, their structures and behaviour, normal and abnormal; species evolution and stabilization; various anomalies, ploidy, heterosis, apomixy; human cytogenetics. Lectures only.

BIOL 467  Microbial Physiology (3 credits)
Prerequisite: BIOL 270; CHEM 271; 3 other advanced credits in biochemistry previously or concurrently; or permission of the Department. Comparative biochemistry of procaryotes—a study of the biochemical activities underlying the life of microorganisms. A description of the diverse biochemical adaptations used by microorganisms to obtain energy and building materials from their various environments. Lectures and conferences.

BIOL 468  Ecotoxicology (3 credits)
Prerequisite: BIOL 250; BIOL 322; CHEM 221; CHEM 222; 60 credits. This course presents a survey of the ecological behaviour and effects of toxicants in nature. It considers the impact of pollutants on various ecosystems, including freshwater, marine and terrestrial. Topics include the effects of certain categories of toxicants on organisms, as well as their populations and communities. The major sources and environmental pathways of pollutants are discussed. Of particular interest are the subjects of biaccumulation and biomagnification of pollutants in trophic systems. Lectures only.

BIOL 469  Independent Study (6 credits)
Prerequisite: 60 credits in Honours Biology, or permission of the Department. In this course, the student undertakes a special research project selected in consultation with, and conducted under, the supervision of a faculty member of the Department. The project is intended to develop the student's knowledge of standard scientific procedures, including methods of researching scientific literature, the planning and execution of experimental and analytical procedures, the writing of a formal report, and the presentation of a seminar on the project.
NOTE: Students may register in September, January or June for this course, but work must continue over two consecutive semesters.

BIOL 470  Principles of Toxicology (3 credits)
Prerequisite: BIOL 322; 30 credits in Biology or Chemistry Honours, Specialization or Major programme; permission of the Department. This course deals with the origin and scope of toxicology. It introduces students to basic toxicity criteria required for safety and risk assessments. Principles which govern exposure and response to toxicants are discussed. Other topics include an introduction to the processes which determine the fate of a toxicant in a target organism. Modifying factors of toxicity are considered. The course concludes by surveying the effects of some representative toxicants. Lectures only.

BIOL 471  Advanced Topics in Biology (3 credits)

BIOL 472  Advanced Topics in Biology (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Course Guide/Undergraduate Class Schedule.
The Canadian Studies Programme seeks to give students a better understanding of the diverse origins and multi-faceted character of Canada. It provides the opportunity to obtain a liberal arts education given direction and depth by a focus on Canada. See separate departmental entries for details on courses in the programme.

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

### 60 BA Specialization in Canadian Studies
6 CDNS 220
6 ENGL 290; or ENGL 291 and 292
6 French Language, at a level to be determined in consultation with the Département d’études françaises
6 HIST 203 and 205
6 CDNS 421
30 Elective credits in related Canadian content courses, chosen in consultation with the Coordinator, from Anthropology, Art History, Communication Studies, Economics, Education, English, Études françaises, Geography, History, Interdisciplinary Studies, Journalism, Political Science, Religion, Sociology, and World Music.

### 42 BA Major in Canadian Studies
6 CDNS 220
6 ENGL 290; or ENGL 291 and 292
6 French Language, at a level to be determined in consultation with the Département d’études françaises
6 HIST 203 and 205
6 CDNS 421
12 Elective credits in related Canadian content courses, chosen in consultation with the Coordinator, from Anthropology, Art History, Communication Studies, Economics, Education, English, Études françaises, Geography, History, Interdisciplinary Studies, Journalism, Political Science, Religion, Sociology, and World Music.

### 30 Minor in Canadian Studies
6 CDNS 220
6 ENGL 290; or ENGL 291 and 292
6 French Language, at a level to be determined in consultation with the Département d’études françaises
6 HIST 203 and 205
6 CDNS 421

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

**CDNS 220 Introduction to Canadian Studies** (6 credits)
Prerequisite: Canadian Studies Major, or permission of the Coordinator.

*NOTE: Students who have received credit for INTE 220 may not take this course for credit.*

**CDNS 298 Selected Topics in Canadian Studies** (3 credits)

**CDNS 299 Selected Topics in Canadian Studies** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**CDNS 398 Selected Topics in Canadian Studies** (3 credits)

**CDNS 399 Selected Topics in Canadian Studies** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**CDNS 421 Seminar in Canadian Studies** (6 credits)
Prerequisite: CDNS 220 or permission of the Coordinator.

*NOTE: Students who have received credit for INTE 421 may not take this course for credit.*

**CDNS 498 Advanced Topics in Canadian Studies** (3 credits)

**CDNS 499 Advanced Topics in Canadian Studies** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are responsible for satisfying their particular degree requirements.

All students are advised to include a course in a computer language in their degree programme.

The superscript indicates credit value.

The Order of Chemists of Quebec has fully accredited the curricula of: (i) Honours in Chemistry, (ii) Specialization in Analytical Chemistry, (iii) Specialization in Biochemistry, (iv) Specialization in Chemistry. Upon satisfactory completion of any of the above-mentioned programmes, a graduate is eligible for membership in the Order. A working knowledge of French is required.

The BSc Specialization in Synthetic Materials does not lead to accreditation as a Professional Chemist by The Order of Chemists of Quebec.

Students should note that CHEM 419, 450, and 479 have a performance prerequisite and are essential for Honours and Specialization programmes. Students who cannot meet these prerequisites will not be able to complete the programmes but may complete a Major. For more details, students should consult with the Department.

Courses that consist of both laboratories and lectures require that a satisfactory performance be obtained in each of the components for successful completion of the course.

**Students registered in Specialization or Major in Biochemistry normally take these courses.

### BSc Honours in Chemistry

An Honours in Chemistry programme shall consist of completion of the requirements of any one of the Specialization programmes offered by the Department, with the exception of the BSc Specialization in Synthetic Materials, with the election of CHEM 450 as appropriate.

Students must meet the University regulations concerning the Honours degree.

Honours students in second year and beyond are expected to attend Departmental Seminars.

*These 6 credits may be replaced with CHEM 450, with Departmental approval.
A student may be exempted from one or more of the introductory courses, on the basis of work done at CEGEP level. Where exemptions are given, the courses must be replaced with an equivalent number of credits in the sub-discipline involved, in order that the student successfully complete any of the programmes approved by the Order of Chemists of Quebec.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.
CHEM 205  General Chemistry I (3 credits)
Stoichiometry, states of matter, atomic structure, electron structure of atoms, the periodic table, periodic properties, bonding, solids.
NOTE: This course presumes a good grounding in secondary school mathematics. Students lacking such grounding, or non-Sciences students seeking only an awareness of chemistry, are advised to enrol in CHEM 208.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

CHEM 206  General Chemistry II (3 credits)
Prerequisite: CHEM 205. Thermochecmy, solutions and their properties, equilibrium, ionic equilibrium, pH, buffers, kinetics, reaction mechanisms, other selected topics related to biochemistry, biology, and engineering. Lectures and laboratories.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

CHEM 208  Chemical Hazards in the Work Environment (3 credits)
An introduction to chemistry, chemical hazards and the social history of chemistry. A study of toxicity, combustion, corrosion, explosives, radiation and water reactive materials in the work environment. The course concentrates on establishing the chemical vocabulary and concepts necessary to understand the social impact of chemistry in relation to occupational health and safety, firefighting, and environmental hazards. The necessary non-quantitative knowledge of chemistry is developed as the course unfolds.
NOTE: This course is not a prerequisite for any chemistry course. This course may not be taken for credit by science students.

CHEM 217  Introductory Analytical Chemistry I (3 credits)
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103; 203; or equivalent courses. Precipitation methods and solubility products, activity, chemical equilibria and titration curves of neutralization and complexation systems; treatment of analytical data. Lectures and laboratory.
NOTE: Students who have received credit for CHEM 211 or GEOL 324 may not take this course for credit.

CHEM 218  Introductory Analytical Chemistry II (3 credits)
Prerequisite: CHEM 217. Chemical equilibria and titration curves of oxidation-reduction, precipitation, and non-aqueous systems; potentiometry and potentiometric titrations; introduction to spectroscopy with emphasis on molecular and atomic absorption spectroscopy, fluorescence spectroscopy. Lectures and laboratory.
NOTE: Students who have received credit for CHEM 211 or GEOL 324 may not take this course for credit.

CHEM 221  Introductory Organic Chemistry I (3 credits)
Prerequisite: CEGEP Chemistry 201 or equivalent. Basic aspects of orbitals and their role in covalent bonding; delocalization of electrons. Alkanes: structure, nomenclature, isomerism, reactions. Introductory stereochemistry: enantiomers, diastereomers, conformers, Fischer and Newman projections, specification of chirality, E/Z isomerism. Conformations of cyclic compounds. Alkylhalides: S-bd-N1; S-bd-N2; E1; E2 reaction mechanisms. Free-radical reactions, organometallic compounds. Chemistry of alcohols, ethers and related compounds. Chemistry of alkenes, alkydes and dienes. Lectures and laboratory.

CHEM 222  Introductory Organic Chemistry II (3 credits)
Prerequisite: CHEM 221 or one semester CEGEP Organic Chemistry. Introduction to the use of IR and NMR spectroscopy for the identification of simple organic compounds. Benzene and aromatic compounds: aromaticity, electrophilic aromatic substitution, nucleophilic aromatic substitution, substituent effects. Chemistry of aldehydes and ketones: nucleophilic addition, oxidation, reduction and condensation reactions, tautomerism. Chemistry of carboxylic acids and their derivatives: Amines, basicity, reactions. Lectures and laboratory.

CHEM 231  Physical Chemistry I: Introduction (2 credits)
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103; CEGEP Mathematics 203; or equivalent courses. First law of thermodynamics, thermochemistry, entropy, the second and third laws of thermodynamics, free energy and chemical equilibrium, electrochemical cells and the Nernst equation, the Gibbs-Helmholtz equation. Applications of thermodynamics to systems of chemical interest. Lectures only.

CHEM 233  Physical Chemistry II: Spectroscopy and Quantum Theory (2 credits)
Prerequisite: CHEM 231. The course introduces the student to the ideas of quantum mechanics, spectroscopy and the electronic structure of atoms and molecules. Topics include the origins and postulates of quantum theory; applications to simple systems; the hydrogen atom, the aufbau principle of the elements, simple molecules. Spectroscopy and spectroscopic measurement; simple atomic spectra; infra-red and Raman spectra of simple molecules; fluorescence; N.M.R. Lectures only.

CHEM 238  Physical Chemistry Laboratory I (1 credit)
Prerequisite: CHEM 231, previously or concurrently. Introduction to experimental procedures involved in determining basic physical properties of liquids and gases.
CHEM 239  **Physical Chemistry Laboratory II**  (1 credit)
Prerequisite: CHEM 233, previously or concurrently. Applications of more advanced techniques for the
determination of the basic physical properties of liquids, solids, and gases.
**NOTE:** This course will normally be taken in Year II, except for students in the Co-op programme.

**CHEM 241  Inorganic Chemistry I: Introduction to Periodicity and Valence Theory**  (3 credits)
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103; 203; or equivalent
courses. The structure of the atom; the periodic table; properties of atoms, covalent bonding treat-
ments including Lewis theory, valence shell electron pair repulsion theory of structure, valence bond
and molecular orbital theory. Crystal field theory applied to the structure and properties of transition
metal complexes. Bonding theories of metallic materials and semi-conductors. Lectures and laboratory.

**CHEM 242  Inorganic Chemistry II: The Chemistry of the Main Group Elements**  (3 credits)
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103; 203; or equiv-
calent courses. A survey of the properties and reactions of: Hydrogen; Group IA, Lithium to Cesium; and
IIA, Beryllium to Radium; including the theory of ionic bonding and structure. The descriptive chemis-
try of Groups IIIA, Boron to Thallium; IVB, Carbon to Lead; VB, Nitrogen to Bismuth; VIB, Sulphur to
Polonium; VIIB, the Halogens; and the Chemistry of the noble gases. Lectures and laboratory.

**CHEM 271  Introductory Biochemistry**  (3 credits)
Prerequisite: CHEM 222. An introduction to the essentials of biochemistry: protein structure, enzymol-
yogy; carbohydrate metabolism and its regulation; and an overview of bioenergetics, nucleic acids and
protein biosynthesis. Lectures and laboratory.
**NOTE:** Students who have received credit for CHEM 371 or CHEM 372 or CHEM 373 may not take
this course for credit.

**CHEM 290  Laboratory Automation and Data Handling**  (3 credits)
Prerequisite: COMP 212, or an equivalent course in a high level computer language; CHEM 217, 218,
previously or concurrently; written permission of the Department. Introduction to some modern tech-
niques used to transduce and manipulate raw chemical data. Topics to be discussed include: statisti-
cal treatment of chemical data, using programs written in Basic, or other high-level language; the
use of binary, octal, and hexadecimal numbers; programming a single-board computer or modern
microcomputer using machine and assembly languages; input-output operations; elementary interfac-
ing techniques. Experiments involve the collection and treatment of data from common laboratory in-
struments such as electrodes and photodetectors. Lectures, tutorials and laboratory.

**CHEM 298  Selected Topics in Chemistry**  (3 credits)

**CHEM 299  Selected Topics in Chemistry**  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Un-
dergraduate Class Schedule.

**CHEM 302  Industrial Chemistry, Resources and Environment**  (2 credits)
Prerequisite: Must be registered in a Chemistry programme and be within 42 credits of graduation;
or permission of the Department. An introduction to chemical engineering for chemists. Management
and conservation of resources; pollution control; occupational and environmental health; technological
and environmental impact assessment.

**CHEM 304  Chemical Technology and Human Values**  (3 credits)
Prerequisite: Must be registered in a Chemistry programme and be within 42 credits of graduation;
or permission of the Department. The history of technology; the impact of chemistry on material life;
appropriate technologies; chemistry and war; the social responsibility of the scientist.
**NOTE:** Students who have received credit for CHEM 303 may not take this course for credit.

**CHEM 312  Intermediate Analytical Chemistry**  (3 credits)
Prerequisite: CHEM 217; CHEM 218. A continuation of CHEM 217 and 218, with emphasis on instrumental
methods of analysis. Emission spectroscopy; X-ray spectroscopy; voltammetry and polarography; am-
perometric titrations; coulometry and coulometric titrations, conductometry; chromatography with par-
ticular emphasis on gas chromatography, and high performance liquid chromatography. Laboratory
is taken concurrently and provides experience in analytical techniques described in lectures. Lectures
and laboratory.
**NOTE:** Students who have received credit for any of CHEM 310, CHEM 314, CHEM 315, or CHEM
319, may not take this course for credit.

**CHEM 321  Organic Stereochemistry**  (2 credits)
Prerequisite: CHEM 222, or equivalent; CHEM 232. Conformational analysis of acyclic and cyclic sys-
tems. Relationship to physical properties and chemical reactivity: Chirality, enantiomerism, di-
astereomerism, prochirality, enantiotopism, and diastereotopism. Examples from steroid, carbohydrate, and enzyme mediated reactions. Lectures only.

CHEM 322 Organic Reactions (2 credits)
Prerequisite: CHEM 321; CHEM 331, previously or concurrently. A mechanistic survey of reactions of major synthetic utility. Determination of reaction mechanisms. Importance of reactive intermediates: carboations, carbanions, radicals, and carbenes. Lectures only.

CHEM 323 Bio-Organic Chemistry (2 credits)
Prerequisite: CHEM 321. Chemistry of carbohydrates. Aspects of heterocyclic chemistry, particularly as they apply to purines, pyrimidines, and important coenzymes: pyridoxal, NADH, thiamine, flavines. Model-enzyme studies. Lectures only.

CHEM 324 Organic Chemistry III: Organic Reactions (3 credits)
Prerequisite: CHEM 222, or equivalent; CHEM 331, previously or concurrently. A mechanistic survey of reactions of major synthetic utility. Determination of reaction mechanisms. Importance of reactive intermediates: carboations, carbanions, radicals, and carbenes. Lectures and laboratory.
NOTE: Students who have received credit for CHEM 322 may not take this course for credit.

CHEM 325 Organic Chemistry IV: Organic Structure and Stereochemistry (3 credits)
Prerequisite: CHEM 324. Organic structure and stereochemistry including the relationship of stereochemistry to physical properties and chemical reactivity. Determination of organic compounds (principal­ly in the laboratory section). Lectures and laboratory.
NOTE: Students who have received credit for CHEM 321 may not take this course for credit.

CHEM 327 Organic Chemistry of Polymers (3 credits)
Prerequisite: CHEM 222 or equivalent. Introduction to the fundamental aspects of polymers and polymer­ization. Methods of preparation, reaction mechanisms of polymer synthesis including condensa­tion polymerization; addition polymerization: free radical, anionic, cationic; Ziegler-Natta (heterogeneous) polymerization. Lectures and problem sessions.
NOTE: Students who have received credit for CHEM C328 (1985-86) may not take this course for credit.

CHEM 328 Analytical Organic Chemistry and Spectroscopy (3 credits)
NOTE: Students who have received credit for CHEM 311 and CHEM 316, or CHEM 391 may not take this course for credit.

CHEM 329 Organic Reactions Laboratory (2 credits)
Prerequisite: CHEM 322 or CHEM 323, previously or concurrently; CHEM 331. Experiments with reac­tions of synthetic and mechanistic importance. Reactions involving reactive intermediates. Kinetic and thermodynamic control. Rearrangements. Laboratory only.

CHEM 330 Physical Chemistry Laboratory III (1 credit)
Prerequisite: CHEM 331, previously or concurrently. Investigation of some interactions that occur between solids, liquids, and gases.
NOTE: Students who have credit for CHEM 339 may not take this course for credit.

CHEM 331 Physical Chemistry III: Kinetics (2 credits)
Prerequisite: CHEM 233. Kinetic molecular theory. Topics in chemical-reaction kinetics, including: mechanisms of elementary reactions; theories of chemical reaction rates; free-radical reactions; fac­tors influencing rates of reactions in solution; acid-base catalysis; catalysis by enzymes; the Michaelis­ Menten mechanism; inhibition in enzyme-catalyzed reactions. Lectures only.

CHEM 332 Physical Chemistry IV: Thermodynamics (2 credits)

CHEM 334 Intermediate Physical Chemistry II (2 credits)
Prerequisite: CHEM 331. The molecular properties of matter, and an introduction to chemical spec­troscopy. Lectures only.

CHEM 337 Physical Chemistry Laboratory IV (1 credit)
Prerequisite: CHEM 332, previously or concurrently. Kinetic and mechanistic studies of chemical reac­tions.
NOTE: Students who have credit for CHEM 339 may not take this course for credit.
CHEM 341  **Inorganic Chemistry III: The Transition Metals**  (3 credits)
Prerequisite: CHEM 217; CHEM 218; CHEM 241; CHEM 242. Theories of bonding in transition metal complexes, including ligand field theory, applied to structure, physical properties, and reactivity of transition metal complexes: organometallic chemistry and catalysis. Metals in Biological systems. Lectures and laboratory.
*NOTE: Students who have received credit for CHEM 342 or CHEM 348 may not take this course for credit.*

CHEM 342  **Chemistry of the Transition Elements**  (2 credits)
Prerequisite: CHEM 217; CHEM 218; CHEM 241; CHEM 242. Coordination chemistry; structure, theory of bonding, reactivity of transition metal complexes of various coordination numbers. Descriptive chemistry of transition metals of various oxidation states. Organometallic chemistry. Inorganic chemistry in biological systems. Lectures only.

CHEM 348  **Inorganic Chemistry Laboratory**  (1 credit)
Prerequisite: CHEM 342, previously or concurrently. Syntheses of coordination and organometallic compounds requiring various techniques. Determination of various properties of the compounds prepared at the laboratory bench. Laboratory only.

CHEM 374  **Macromolecular Synthesis**  (3 credits)
Prerequisite: CHEM 271. Synthesis of proteins, nucleic acids, lipids; synthesis and assembly of complex structures such as membranes, ribosomes, etc. Lectures and problem sessions.
*NOTE: Students who have received credit for CHEM 371 or CHEM 372 or CHEM 373 may not take this course for credit.*

CHEM 375  **Intermediary Metabolism**  (3 credits)
Prerequisite: CHEM 271. A survey of selected pathways in intermediary metabolism, including their regulation and physiological significance: urea cycle, fatty acid oxidation, biosynthesis of nucleosides, tetrapyrroles and carotenoids, cholesterol and steroidal hormones. The biosynthesis of vitamins and cofactors and the metabolism of selected amino acids may also be discussed. Lectures and laboratory.
*NOTE: Students who have received credit for CHEM 371 or CHEM 372 or CHEM 373 may not take this course for credit.*

CHEM 399  **Industrial Chemical Laboratory**  (1 credit)
Prerequisite: CHEM 222; CHEM 233 or 232 previously or concurrently; or permission of the Department. A course designed to provide the student with an understanding of the philosophies of industrial quality control, and of industrial research and development. Common industrial techniques are studied, including laboratory safety; measurement of physical properties; synthetic procedures, both organic and inorganic; and various separation techniques. Several instrumental analytical methods are employed, and a final report on the work of the term is submitted. Laboratory only.

CHEM 392  **Introductory Instrumentation**  (3 credits)
Prerequisite: CHEM 217; CHEM 218, or two 6-credit BIOL courses with laboratory. Introduction to measurement principles. Instrument design and basic techniques; analysis of amplifiers, integrators, filter circuits, and other basic modules used in chemical instrumentation. In the laboratory, transistor and IC circuits are studied, as well as some of the mechanical, optical and electrical transducers and recorders used in modern chemical instrumentation. Lectures and laboratory.
*NOTE: Students who have received credit for CHEM 390 or CHEM 397 or CHEM 399 may not take this course for credit.*

CHEM 398  **Selected Topics in Chemistry**  (3 credits)

CHEM 399  **Selected Topics in Chemistry**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

CHEM 419  **Independent Study and Practicum**  (6 credits)
Prerequisite: Must have a grade of C- (grade point of 1.70 in each course) or better, in 31 credits of the 45-credit Core Programme. Before enrolment in the course, the student must show acceptance by a supervisor and this initial acceptance is subject to later confirmation by the Department. In collaboration with and under the direction of a member of Faculty, the student carries out independent study and practical work on a problem chosen from the student’s area of concentration. The student submits a written report on the results of the work and the report is scrutinized by a committee of members of the Department. Independent study and practical work.

CHEM 421  **Physical Organic Chemistry**  (3 credits)
Prerequisite: CHEM 322 or CHEM 325; CHEM 331. Determination of organic reaction mechanisms using kinetics, activation parameters, acid-base catalysis, Bronsted catalysis law, solvent effects, medium effects, isotope effects, substituent effects and linear free energy relationships. Lectures only.

CHEM 422  **Organic Synthesis**  (4 credits)
Prerequisite: CHEM 322 or CHEM 325. Consideration of synthetic strategy and synthesis design. Modern...
synthetic methods and reagents, exemplified by syntheses of terpenes, alkaloids, pheromones, and novel structures. Lectures and laboratory.

CHEM 435  **Physical Chemistry of Polymers**  (3 credits)
Prerequisite: CHEM 222; CHEM 332. Physical properties of polymers; polymer-solution theory; molecular-weight distributions and fractionation; molecular-weight determinations by colligative properties, light-scattering and ultra-centrifuge techniques; kinetics of condensation and addition polymerizations; copolymerization. Lectures and problem sessions.

**NOTE:** Students who have received credit for CHEM 335 or CHEM 336 may not take this course for credit.

CHEM 442  **Physical Methods in Inorganic Chemistry**  (3 credits)
Prerequisite: CHEM 341; CHEM 328 previously or concurrently. Introduction to symmetry and the character tables. Diffraction methods, X-ray, ESCA, UV-Visible, ORD and CD, EPR, Moessbauer, NQR, NMR, IR, and Raman. Lectures only.

CHEM 449  **Laboratory in Synthesis and Techniques in Inorganic Chemistry**  (1 credit)
Prerequisite: CHEM 442, previously or concurrently. Some of the techniques discussed in CHEM 442 are employed in the laboratory to characterize and determine properties of compounds synthesized at the laboratory bench. Laboratory only.

CHEM 450  **Research Project and Thesis**  (6 credits)
Prerequisite: 60 credits; enrolment in Honours in Chemistry or permission of the Department. By Departmental decision, such permission is only given if the student has a grade point average of B-(2.70) or better, for all courses in the Core Programme. The student works on a research project, in the student’s area of concentration, selected in consultation with and conducted under the supervision of a faculty member of the Department; and writes a thesis on the results. The project is also the subject of a seminar before the Department.

**NOTE:** Students planning to take this course must consult with the Chemistry Department as early as possible the year before the final year.

CHEM 471  **Enzyme Kinetics and Mechanism**  (3 credits)
Prerequisite: CHEM 271; 60 credits. Steady-state kinetics, including the use of initial velocity studies and product inhibition to establish a kinetic mechanism; non-steady-state kinetics, isotope effects, energy of activation, etc; detailed mechanisms of selected enzymes. Lectures only.

CHEM 473  **Medicinal Chemistry I**  (3 credits)

CHEM 474  **Medicinal Chemistry II**  (3 credits)
Prerequisite: CHEM 473 or permission of the Department. Drugs acting on endogenous messengers and their targets: Cholinergic, adrenergic, dopaminergic and serotoninergic neuronal systems. Hormone, amino acid neurotransmitters. Steroid and peptide hormones, prostaglandins. Enzymes as drug receptors. Drug design. Lectures only.

CHEM 475  **Pharmacology I**  (3 credits)
Prerequisite: CHEM 271; BIOL 333. Pharmacokinetics, drug metabolism and interaction. Toxicology, carcinogenicity, and teratogenicity. Drug development and testing. Lectures only.

CHEM 476  **Pharmacology II**  (3 credits)
Prerequisite: CHEM 475 or permission of the Department. Autonomic nervous system pharmacology. Functions of central nervous system, depressants, stimulants. Narcotic analgesics, addiction. Cardiovascular, renal, and endocrine pharmacology. Lectures only.

CHEM 478  **Hormone Biochemistry**  (3 credits)
Prerequisite: CHEM 271 and third-year standing. This course deals with an in-depth study of the vertebrate hormones and involves a study of the precise chemical structure and properties of each hormone, its biosynthesis and mode of secretion from the cell. The circulating form of the hormone is examined, as well as the nature of the hormone receptor. The cellular mechanism of action and the relationship of the hormone’s action to the intact animal are investigated. Lectures only.

CHEM 479  **Advanced Biochemistry Laboratory**  (3 credits)
Prerequisite: Must have a grade of C- (grade point of 1.70 in each course) or better, in 31 credits of the 45-credit Core Programme. This course deals with the theory and practice of modern biochemical laboratory techniques. Laboratory only.

CHEM 481  **Bioinorganic Chemistry**  (3 credits)
Prerequisite: CHEM 271; CHEM 241. Role of metals in biochemical systems. Essential trace elements, zinc enzymes, oxygen transport and storage, metalloproteins and biological electron transfer, structure-function relationships in heme enzymes, nitrogen fixation; model compounds for metalloproteins and metalloenzymes. Lectures only.
CHEM 482  Properties and Models of the Solid State  (3 credits)
Prerequisite: CHEM 232; CHEM 391, or permission of the Department; 60 credits. Crystal structure and the reciprocal lattice; lattice dynamics; free electron theory; band theory; semiconductors; dielectric and magnetic properties of solids. Lectures only.

CHEM 491  Advanced Instrumentation  (4 credits)
Prerequisite: CHEM 382. A study of the amplifiers, transducers, and other circuit elements used to acquire data in chemistry, in the analog, time, and digital data domains. A study of these circuits as regards optimization, frequency response, sampling parameters, signal-to-noise enhancement and budget error analysis. Some of the concepts involved in computer interfacing, for both control and data collection, are discussed. In the laboratory, selected experiments illustrate the topics discussed in lectures. Lectures and laboratory.
NOTE: Students who have received credit for CHEM 490 or CHEM 497 or CHEM 499 may not take this course for credit.

CHEM 492  Chemical Spectroscopy  (4 credits)
Prerequisite: CHEM 321 or CHEM 324; CHEM 328. Theory and application of EPR spectroscopy, rotational spectroscopy, rotation-vibrational spectroscopy, Raman spectroscopy. Lectures and laboratory.

CHEM 498  Advanced Topics in Chemistry  (3 credits)
CHEM 499  Advanced Topics in Chemistry  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
The Department offers programmes in Classical Philology, Classical Studies and Classical Archaeology.

Programmes in Classical Philology require competence in Ancient Greek and Latin and are directed towards an understanding and appreciation of classical languages and literature.

Programmes in Classical Studies do not require an exhaustive knowledge of Greek and Latin, but are concerned with a broadly based study of ancient society.

The Honours programme in Classical Philology provides the background necessary for the most specialized studies in Greek and Latin at the graduate level.

Students in the Honours programme in Classical Studies should inform themselves well in advance of the level of competence in classical languages required for admission to graduate programmes in Classical Studies.

Major programmes in Classics are not designed to prepare students for further specialized study. They provide an excellent liberal education and may be very effectively combined with programmes in other fields, especially in the Humanities.

The Minor programmes provide a basic exposure to the field and are designed to complement other programmes.

Most courses are open as electives to students in other departments.

Students must consult the Department Chair to select the courses in their programmes. For details on suggested programmes, see the Classics Course Guide. Students are advised to refer to the Undergraduate Class Schedule for the campus where individual courses will be offered.

Students who already had Honours status by June 1, 1977 continue to be governed by the requirements which applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar).

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

72 BA Honours in Classical Philology

Stage I
18 CLAS 240, 242, 280, 290

Stage II
6 Chosen from CLAS 211, 212, 326, 327
12 CLAS 380 and 390

Stage III
18 Credits of Greek selected from CLAS 480, 481, 482, 483, 484, 485, 486, 498, 499
18 Credits of Latin selected from CLAS 490, 491, 492, 493, 495, 496, 498, 499

42 BA Major in Classical Philology

Stage I
18 CLAS 211, 212, 280, 290

Stage II
18 CLAS 240, 242, 380, 390

Stage III
6 Credits of Latin or Greek at the advanced level

24 Minor in Classical Philology
24 Credits in either Greek and/or Latin

48 Major in Latin and Classical Studies

Stage I
18 CLAS 211, 212, 242, 243, 290

Stage II
12 CLAS 366, 367, 390
6 Chosen from CLAS 261, 280, 323, 325, 355

Stage III
6 Credits in Latin prose chosen from CLAS 490, 491, 495, 498
6 Credits in Latin poetry chosen from CLAS 492, 493, 496, 498

60 BA Honours in Classical Studies

Stage I
15 CLAS 211, 212, 240, 242, 243 or 241
6 Chosen from CLAS 280, 290

Stage II
9 Chosen from CLAS 230, 241 or 243, 261, 262, 266, 267, 298, 299
6 Chosen from CLAS 280, 290

Stage III
24 Chosen from CLAS 323, 324, 325, 326, 327, 354, 355, 364, 365, 366, 367, 380, 390, 396, 398, 498, ARTH 360, 361, PHIL 310
Courses in Greek and Latin at the 400 level

60 BA Specialization in Classical Studies

Stage I
15 CLAS 211, 212, 240, 242, 243 or 241

Stage II
15 Chosen from CLAS 230, 241 or 243, 261, 262, 266, 267, 280, 290, 298, 299
Stage III
Courses in Greek and Latin at the 400 level

42 BA Major in Classical Studies
Stage I
15 CLAS 211, 212, 240, 242, 243 or 241
Stage II
18 Chosen from CLAS 230, 241 or 243, 261, 262, 263, 267**, 280, 290, 298
Stage III

GROUP 1: CLASSICAL STUDIES

A. Literature
CLAS 211 The Beginnings of European Literature I (Greek Literature) (3 credits)
CLAS 212 The Beginnings of European Literature II (Roman Literature) (3 credits)
CLAS 323 Roman Satire (3 credits)
CLAS 324 Greek Epic (3 credits)
CLAS 325 Roman Epic (3 credits)
CLAS 326 Greek and Roman Drama I (3 credits)
CLAS 327 Greek and Roman Drama II (3 credits)

B. History
CLAS 230 (also given as HIST 219) The Ancient Near East (3 credits)
CLAS 240 (also given as HIST 223) Greek History I (3 credits)
CLAS 241 (also given as HIST 224) Greek History II (3 credits)
CLAS 242 (also given as HIST 225) History of the Roman Republic (3 credits)
CLAS 243 (also given as HIST 226) History of the Roman Empire (3 credits)

C. Culture & Civilization
CLAS 261 Mythology I (3 credits)
CLAS 262 Mythology II (3 credits)
CLAS 354 Women in Classical Antiquity I (3 credits)
CLAS 355 Women in Classical Antiquity II (3 credits)

D. Archaeology
CLAS 266 An Introduction to Classical Archaeology (3 credits)
CLAS 267 The Archaeology of the Greek Bronze Age (3 credits)
CLAS 364 Classical Greek Art and Archaeology (3 credits)
CLAS 365 Art and Archaeology of the Hellenistic Age (3 credits)
CLAS 366 Etruscan and Roman Republican Art and Archaeology (3 credits)
CLAS 367 Roman Imperial Art and Archaeology (3 credits)

GROUP 2: CLASSICAL PHILOLOGY

A. Classical Greek
CLAS 280 Elementary Classical Greek (6 credits)
CLAS 380 Intermediate Classical Greek (6 credits)
CLAS 480 Greek Historians (6 credits)
CLAS 481 Plato (6 credits)
CLAS 482 Homer (6 credits)
CLAS 483 Greek Tragedians (6 credits)
CLAS 485 Greek Comedy (6 credits)
CLAS 486 Pindar (6 credits)

B. Latin
CLAS 290 Elementary Latin (6 credits)
CLAS 390 Intermediate Latin (6 credits)
CLAS 490 Roman Historians (6 credits)
CLAS 491 Cicero (6 credits)

*Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.*

**CLAS 211**  
The Beginnings of European Literature I (Greek Literature)  
(3 credits)  
The Greek background of European literature. Selections from Homer, the Greek dramatists, Plato and Aristotle.

**CLAS 212**  
The Beginnings of European Literature II (Roman Literature)  
(3 credits)  
The Roman background of European literature. Selections from Lucretius, Catullus, Cicero, Virgil, Horace, Ovid, Seneca and Juvenal.

**CLAS 230**  
(Also given as HIST 219) Ancient Near East  
(3 credits)  
The emergence of the world’s earliest civilizations from the Neolithic cultures of Ancient Mesopotamia and Egypt. The continuing history of the Fertile Crescent to the end of the Bronze Age. The Near Eastern origins of Bronze Age Crete and Greece.

**CLAS 240**  
(Also given as HIST 223) Greek History I  
(3 credits)  
A political, social, economic and cultural history of Greece from Minoan-Mycenaean times to the end of Classical Greek civilization in the fourth-century B.C., with special emphasis placed upon Athens.

**CLAS 241**  
(Also given as HIST 224) Greek History II  
(3 credits)  
A political, social, economic and cultural history of the Greek world from Alexander the Great to the Roman conquest of Greece in 146 B.C.

**CLAS 242**  
(Also given as HIST 225) History of the Roman Republic  
(3 credits)  
A political, social, economic and cultural history of Rome from the City’s origins to the establishment of the Roman Empire under the Emperor Augustus.

**CLAS 243**  
(Also given as HIST 226) History of the Roman Empire  
(3 credits)  
A political, social, economic and cultural history of the Roman Empire from Augustus to the end of the Roman Empire in the West.

**CLAS 261**  
Mythology I  
(3 credits)  
A survey of myths and mythological figures as recorded in ancient Greek literary sources and art.  
NOTE: Students who have received credit for CLAS C260 may not take this course for credit.

**CLAS 262**  
Mythology II  
(3 credits)  
An examination of the universal features and recurrent patterns in the Mesopotamian, Egyptian, Greek and Roman mythologies.  
NOTE: Students who have received credit for CLAS C260 may not take this course for credit.

**CLAS 266**  
An Introduction to Classical Archaeology  
(3 credits)  
Archaeology as an art and as a science. The history of classical archaeology. Stratigraphy, excavation and artifact analysis.  
NOTE: Students who have received credit for CLAS C264/HIST C227 may not take this course for credit.

**CLAS 267**  
The Archaeology of the Greek Bronze Age  
(3 credits)  
The Bronze Age in Mainland Greece, Crete and the Islands.  
NOTE: Students who have received credit for CLAS C265/HIST C229 may not take this course for credit.

**CLAS 280**  
Elementary Classical Greek  
(6 credits)  
A course in the fundamentals of the grammar and syntax of ancient Greek.

**CLAS 290**  
Elementary Latin  
(6 credits)  
A course in the fundamentals of Latin grammar and syntax.
CLAS 298  Selected Topics in Classics  (3 credits)

CLAS 299  Selected Topics in Classics  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

CLAS 323  Roman Satire  (3 credits)
A study of the satiric genre, its birth and development in Roman literature and its connection with the early novel as seen in the English translations of the works of Horace, Juvenal, Petronius, Persius, Seneca and Auleleus.
NOTE: Students who have received credit for CLAS C223 may not take this course for credit.

CLAS 324  Greek Epic  (3 credits)
A study of the Iliad and Odyssey of Homer and of the development of Greek epic.
NOTE: Students who have received credit for CLAS C224 may not take this course for credit.

CLAS 325  Roman Epic  (3 credits)
Study of the Aeneid of Virgil and of the development of Roman epic.
NOTE: Students who have received credit for CLAS C225 may not take this course for credit.

CLAS 326  Greek and Roman Drama I  (3 credits)
A study of the origins and growth of Attic Tragedy with a close examination of plays of Aeschylus and Sophocles.
NOTE: Students who have received credit for CLAS C220 or C320 may not take this course for credit.

CLAS 327  Greek and Roman Drama II  (3 credits)
Prerequisite: CLAS 326. A continued study of the development of Greek Tragedy as seen in plays of Euripides. The origins and growth of Greek Comedy as seen in plays of Aristophanes and Menander. The influence of classical Greek drama on the Roman playwrights Plautus, Terence and Seneca and on European drama.
NOTE: Students who have received credit for CLAS C220 or C320 may not take this course for credit.

CLAS 354  Women in Classical Antiquity I  (3 credits)
An examination of the status and the role of women in prehistoric, archaic and classical Greek societies.
NOTE: Students who have received credit for CLAS C254 may not take this course for credit.

CLAS 355  Women in Classical Antiquity II  (3 credits)
An examination of the status and the role of women in the Hellenistic and Roman worlds.
NOTE: Students who have received credit for CLAS C254 may not take this course for credit.

CLAS 364  Classical Greek Art and Archaeology  (3 credits)
The art and architecture of the Greek world from 900 to 323 B.C. A study of the geometric, archaic and classical periods with particular attention to painting (especially ceramics), sculpture, and architecture. Some work at the Montreal Museum of Fine Arts.

CLAS 365  Art and Archaeology of the Hellenistic Age  (3 credits)
The art and architecture of the Greek world after the death of Alexander the Great. Hellenistic aestheticism, synthesis of oriental and Greek tradition in the visual arts. Impact of Hellenistic art on Rome.

CLAS 366  Etruscan and Roman Republican Art and Archaeology  (3 credits)
A survey of Neolithic, Bronze, and early Iron Age cultures in Italy. Etruscan civilization and the coming of the Greeks. The archaeological reconstruction of the city of Rome in the Republican period. Some work at the Montreal Museum of Fine Arts.

CLAS 367  Roman Imperial Art and Archaeology  (3 credits)
Development of Roman art and architecture from Augustus to the late Roman Empire. Roads, fortifications, aqueducts, theatres, porticos, monuments, baths and basilicas. Pompeii and Herculaneum. Special emphasis on Roman Britain.

CLAS 380  Intermediate Classical Greek  (6 credits)
Prerequisite: CLAS 280, or equivalent. Training in the acquisition of a reading command of the language. Readings from Plato, Xenophon and others.

CLAS 390  Intermediate Latin  (6 credits)
Prerequisite: CLAS 290 or equivalent. Training in the acquisition of a reading command of the language. Readings from authors such as Cicero, Catullus, Pliny and Seneca.

CLAS 398  Selected Topics in Classics  (3 credits)

CLAS 399  Selected Topics in Classics  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

CLAS 480 Greek Historians (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from Herodotus and Thucydides.

CLAS 481 Plato (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from The Republic, and other major dialogues.

CLAS 482 Homer (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from the Iliad and the Odyssey.

CLAS 483 Greek Tragedians (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from Aeschylus, Sophocles and Euripides.

CLAS 484 Greek Orators (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from Demosthenes and other Attic orators.

CLAS 485 Greek Comedy (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from Aristophanes and Menander.

CLAS 486 Pindar (6 credits)
Prerequisite: CLAS 380 or equivalent. Readings in Greek from Pindar and the lyric poets.

CLAS 490 Roman Historians (6 credits)
Prerequisite: CLAS 390 or equivalent. Readings in Latin from Sallust, Livy and Tacitus.

CLAS 491 Cicero (6 credits)
Prerequisite: CLAS 390 or equivalent. Readings in Latin from Cicero.

CLAS 492 Roman Poetry I (6 credits) Prerequisite: CLAS 390 or equivalent. Readings in Latin from Horace and Virgil.

CLAS 493 Roman Poetry II (6 credits)
Prerequisite: CLAS 390 or equivalent. Readings in Latin from Ovid and Lucretius.

CLAS 495 Roman Comedy (3 credits)
Prerequisite: CLAS 390 or equivalent. Readings in Latin from Plautus and Terence.

CLAS 496 Latin Satire (3 credits)
Prerequisite: CLAS 390 or equivalent. Readings in Latin from Juvenal, Petronius, Persius and Seneca.

CLAS 498 Advanced Topics in Classics (3 credits)

CLAS 499 Advanced Topics in Classics (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

The Department offers two programmes of study, and two others jointly with Journalism.

a) Bachelor of Arts, Specialization in Communication Studies: consisting of 60 credits in Communication Studies and 30 credits from electives outside the Department.

b) Bachelor of Arts, Major in Communication Studies: consisting of 42 credits in Communication Studies and 48 credits from electives outside the Department.

c) Bachelor of Arts, Specialization in Communication and Journalism: consisting of 60 credits in Communication and Journalism courses and 30 credits from electives outside Communication and Journalism.

d) Bachelor of Arts, Specialization in Broadcast Journalism: consisting of 60 credits in Communication and Journalism courses and 30 credits from electives outside Communication and Journalism. This programme was first offered in 1981-82.

Elective credits are understood as courses taken in other departments or faculties of the University. Credits in Communication Studies or Journalism, or in Cinema (Faculty of Fine Arts) may not be used in lieu of electives. 200-level courses are normally taken in first year, 300-level courses in second year, 400-level courses in third year. Written work may be required in English for courses in Journalism; please consult the Department.

Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profiles).
BA Specialization in Broadcast Journalism

NOTE: Students must meet the admission requirements of both the Department of Communication Studies and Journalism. This programme is designed to prepare graduates for the English-language media.

Department Objectives

The Department of Communication Studies was founded in 1965 (as Communication Arts), the first at a Canadian university.

The Department’s programmes are generalist in nature and take a broad approach to the study of mass media and communications in today’s world. Of primary concern is a humanistic understanding, a value-oriented appreciation of the role of mass media in society. Programmes intend to develop the student’s critical judgment and creative potential by both theoretical and practical work.

Each of the Department’s programmes has three basic components: 1) a humanities and liberal arts emphasis; 2) a social-science and research emphasis; 3) a creative laboratory-experience emphasis.

Graduates of the Department’s programmes have found careers in: 1) Radio, Television, Broadcast Journalism; 2) Film, other media industries, media departments of business; 3) Small media firms and freelance media work; 4) Educational institutions (teaching, A/V services); 5) Advertising, Public Relations, Promotion, Marketing, Sales, Information, etc.; 6) Advanced studies and research; 7) Other professions, and government services.

Facilities

The Department has two television studios equipped with colour videocassette recording and editing facilities, two 3/4” colour video portapak units, 9 x 16mm film units, 16mm sync and editing units, and complete super 8mm film units; photographic laboratories; a holographic and laser laboratory; multiple sound facilities; a research studio for the measurement of visual and audio-information loads, an electronic and electro-mechanical programmer for multi-media use; and a Learning Centre with audio-slide film-video terminals for independent study.

Department Admission Requirements

The number of students that can be accommodated every year in our department is physically limited by the room available in labs, the amount of equipment and the number of professors. Approximately 120 students are admitted every year, giving a student population of about 300 in the three years of our undergraduate programme. Applications consistently outnum-

ber the department’s capacity. For this reason, the Department of Communication Studies has a distinct admission procedure, in addition to the normal admission process of Concordia University.

The Department is prepared to receive applications as early as October, and to arrange interviews, for the following academic year. Interested candidates should obtain information about admission requirements of Communication Studies by contacting the Admissions Committee, Department of Communication Studies, Loyola Campus, Concordia University, 7141 Sherbrooke Street West, Montreal, Quebec. H4B 1R6. Telephone: (514) 848-2555.

Graduate Work in Communication Studies

The Department also offers a one-year diploma programme for students who have comple-
ted their undergraduate degree in another field and an MA in Media Studies for those with two years of media experience and academic work in Communications. A PhD in Communications is offered jointly with Université de Montréal and UQAM. For details, please refer to the Graduate Calendar or contact the Department.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

COMS 230 Basic Writing for the Media (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. This course is designed to provide knowledge of and practice in the special written forms and formats utilized by the media. Assignments are practically oriented toward possible student productions.

COMS 240 Communication Theory (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. Through lectures, discussions, and selected readings from the works of key theorists, this course introduces students to major approaches to the understanding of the process of communication.
COMS 255  Communication Analysis of Environment  (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. General and detailed analysis of various information complexes; e.g., museums, galleries, exhibitions, countrysides, landscapes, city streets, highways, department stores, churches, etc., from the point of information values used to influence future prospective audiences of films, television programmes, or exhibition and theatre visitors. The basic values of light, space, sound, picture, words, and exhibit structures are explored through individual student projects in real locations. Students work on individual projects under the supervision of the directing professor. Tutorial course.

COMS 275  Visual Dynamics I  (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. In this course, students are led to discover fundamental laws which underlie visual representation. The overall method consists of basic experiments in vision and perception: to explore distances, planes, tones, colour, light, etc. Photography is the medium by which these experiments are recorded for observation and discussion. Lectures and Laboratory: average 6 hours per week.

COMS 278  Seminar and Practicum in Sound I  (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. This course is designed to provide the student with a basic working knowledge of audio systems both natural and electronic, to understand the various affective and psychological qualities of sound, and how sound may be structured into imaginative aural forms. Lectures and Laboratory: average 6 hours per week.

COMS 284  Seminar and Practicum in Film and Video I  (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. A practical approach to an understanding of the common elements of film and video media, and of the specific differences inherent in their effective use. Course methodology includes lectures, screenings, readings, portapak video and Super 8mm film productions. Lectures and Laboratory: average 6 hours per week.

COMS 298  Selected Topics in Communication Studies  (3 credits)
COMS 299  Selected Topics in Communication Studies  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

COMS 305  Advanced Script-Writing for Film  (6 credits)
Prerequisite: Registration in a Communication Studies programme; submission of a qualifying assignment by July 1st and subsequent approval of instructor. This assignment, which varies from year to year, is intended to test the student's writing ability and creative imagination. A practical course in writing film-drama: story construction and plotting, scene-making, characterization and character development, dialogue, dramatic continuity, timing, pacing, rhythm, suspense, and creative criticality. Many of these fictional and dramatic techniques are, as the occasion arises, applied to non-fictional scripts as well. The method consists of lecture, discussion, demonstration, critique. Assignments are on-going.

COMS 306  Documentary Film  (3 credits)
Prerequisite: 30 credits; open to all University students; written permission of the Department. A survey of the documentary film field from 1895 until today, with an examination of major styles (Romantic, Realistic, Expressionistic, Avant-Garde, etc.) in the works of significant documentary filmmakers. The method consists of lecture, screenings, critique, and discussion.
NOTE: COMS 307 through 316 are offered on a three-year cycle.

COMS 307  Hollywood in the Silent Era  (3 credits)
Prerequisite: 30 credits. In-depth study of the 60-year career of Chaplin, with special emphasis on the great early comics (Keaton, etc.); Hollywood and the birth of the movies: D.W.Griffith, von Stroheim.

COMS 308  The German Expressionist Movement  (3 credits)
Prerequisite: 30 credits. Lang, Murnau, Pabst, etc., in Germany, and in their later Hollywood careers. The German cinema of the '20's; the Expressionists. Integration with the socio-cultural climate of the pre-Hitler days.

COMS 309  The Revolutionary Soviet Cinema  (3 credits)
Prerequisite: 30 credits. The Soviet Formalists of the '20's: Eisenstein, Pudovkin, Dovzenko. Film and revolution; Marxist aesthetics. The later evolution of the Soviet cinema.

COMS 310  The Hollywood Genres  (3 credits)
Prerequisite: 30 credits. Concentration on specific genres and directors of Hollywood in its golden era ('30's, '40's). The aesthetics of art and the mass audience.

COMS 311  The Classic French Cinema  (3 credits)
Prerequisite: 30 credits. Before the Nouvelle Vague, the great French cinema of Renoir, Clair, Ophuls, Cocteau.

</tbody>
</table>
|             | Prerequisite: COMS 255 and permission of the Department. An examination of the aids for information-impact measurements, demonstrated on communication media carriers. Testing is conducted on information complexes previously analyzed; e.g., photographs, advertisements, film segments, television programme sequences, exhibitions, urban environments, and open-country landscapes. The main em-
phase of learning is on the methodology of tests, diagnoses, and interpretations of results for practical media productions. A biometrical and biotelemetrical approach is used for testing. Each student works on individual projects during the year. Tutorial course.

NOTE: Students who have received credit for COMS 350 may not take this course for credit.

COMS 352 Broadcasting Policy in Canada (3 credits)
Prerequisite: 30 credits; permission of the Department. This course acquaints the student with the historical development of broadcasting and broadcasting legislation in Canada. It covers the present state of broadcasting policy in Canada, its goals and problems, and explores alternative solutions.

NOTE: Students who have received credit for COMS 467 may not take this course for credit.

COMS 355 Media Computer Applications I (3 credits)
Prerequisite: COMS 275, COMS 278; COMS 284; written permission of the Department. Concepts and practical techniques for the production of computer-generated colour video graphics and graphic text layouts; analog and digital representation, transmission, storage and processing of visual and aural information. Lectures and laboratory.

COMS 356 Media Computer Applications II (3 credits)
Prerequisite: COMS 355. More advanced concepts and techniques for the production of computer-generated colour video graphics; simple computer-generated sound; information input/retrieval networks, including videotex systems. Lectures and laboratory.

COMS 360 Mass Communication (3 credits)
The course examines the nature and forms of Mass Communication, the social sources and uses of Mass Communication, its psychology, audiences, and effects. The ethics of Mass Communication are also discussed. Through guest lecturers from the various media and readings of contemporary analyses/credits, issues such as media ownership and access, government and self-regulation, technological implications, media accountability, etc., are raised.

COMS 361 Seminar in Propaganda (3 credits)
Prerequisite: 30 credits. The aim of this course is to recognize the orchestration of the elements of propaganda in media, and to develop the means to deal with it. Course methodology includes lectures, discussions, and projects.

COMS 362 Psychology of Communication (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. The objectives of the course are to provide the learner with: 1) an overview of psychological processes active in the communicative act; 2) the opportunity to explore a single media area in depth, either independently or in a small group. Through a variety of formats, topic areas such as the following are explored: perception and information processing, language development, areas of para-psychology related to communication, influences on attitude/behaviour, verbal/non-verbal codes, meaning, etc.

COMS 364 Communication and the Canadian North (3 credits)
Prerequisite: 30 credits; open only to students in Communication Studies programmes; written permission of the Department. The course examines the historical context of Eskimo-White interaction in the Arctic; the role that media technology has played in Northern development and social change; the current research and experimental approaches to communication problems in the Canadian North.

COMS 366 Interpersonal Communication and Cultural Context (3 credits)
Prerequisite: 30 credits; permission of the Department. This course examines the relationship between value orientations, social perception, self-concept, identity and other culturally-determined phenomena, as well as verbal and non-verbal communication processes. It draws upon theory and research on communication between members of different cultures and sub-cultures.

NOTE: Students who have received credit for COMS 363 may not take this course for credit.

COMS 367 Media and Cultural Context (3 credits)
Prerequisite: 30 credits; permission of the Department. This course examines the ways in which different cultures express themselves using print, film, radio and television; the cultural content of media messages; the role of mass communication across cultural boundaries, as well as media representation of, and access by, cultural groups. The course utilizes screenings and case studies.

NOTE: Students who have received credit for COMS 363 may not take this course for credit.

COMS 374 Visual Dynamics II (6 credits)
Prerequisite: COMS 275; written permission of the Department. This course involves both theory and fieldwork in photographing human-created environments; e.g., the city, using natural light. The student acquires an understanding of the problems of distance and direction by means of lectures, critiques of fieldwork, and individual consultation.

NOTE: Students are required to possess certain recommended equipment.

COMS 375 Visual Dynamics III (6 credits)
Prerequisite: COMS 374; written permission of the Department. A study of the development of visual artifacts and media in the search for an increasingly adequate mimesis of persons, situations, and mean-
ings. The course comprises both the practical and the theoretical aspects of the visual image, historically and currently, and examines the assumptions underlying the quest for the auto-communicative image. Lectures and Laboratory: average, 6 hours per week.

COMS 378 Seminar and Practicum in Sound II (6 credits)
Prerequisite: COMS 230; COMS 278; written permission of the Department. This course gives the student a knowledge of the basic disciplines necessary for constructing aural message forms from the simplest to the most complex; also, experience in the various technologies required to apply these aural forms to radio, film, television, etc. Students prepare, produce, and direct, individually and in teams, a number of projects. Lectures and Laboratory: average, 6 hours per week.

COMS 381 Seminar and Practicum in Film II (6 credits)
Prerequisite: COMS 284; written permission of the Department. This course involves an examination of the communicative process through the medium of film. Areas covered include scripting, directing, and shooting, with both silent and sync-sound equipment. Productions are designed to test the students' theoretical knowledge and give practical experience in the craft of filmmaking. Lectures and Laboratory: average, 6 hours per week.

COMS 387 Seminar and Practicum in Television II (6 credits)
Prerequisite: COMS 284; written permission of the Department. A study of the components related to the creation of the television documentary and short-feature programme in terms of the theoretical possibilities inherent in the medium. Students prepare, produce, and direct, individually and in teams, a number of projects. Lectures and Laboratory: average, 6 hours per week.

COMS 398 Selected Topics in Communication Studies (3 credits)
COMS 399 Selected Topics in Communication Studies (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

COMS 416 Film Criticism (3 credits)
Prerequisite: 60 credits; permission of the Department. An introduction to the assumptions, methodologies and vocabularies implicit in important schools of popular and academic film criticism.

COMS 417 Film Ideas (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. Seminar using film criticism to focus on aesthetic/cultural dimension of present trend-setting films, and to explore students' sensibility in context of contemporary culture. Methodology includes viewings, discussions, written critiques, critical/aesthetic readings.

COMS 435 Documentary Film and Television Genres I (3 credits)
Prerequisite: 30 credits in Communication Studies. Survey of genres in documentary film and television such as: biographical, industrial, travelogue, nature, scientific, training, educational, children's films and TV programmes. Examples from Canada, USA, Europe.

COMS 436 Documentary Film and Television Genres II (3 credits)
Prerequisite: COMS 435. An in-depth study of one of the film and television genres surveyed in COMS 435. Tutorial course.

COMS 437 Seminar in Media Forecast (3 credits)
Prerequisite: 60 credits. This course examines trends in film, sound, television, and other media for future applications. The course includes theory of media effects. Representatives from industry and government are invited to discuss future trends in media utilization. The course demands a theoretical and practical model for original or novel use of a medium or media mix.

COMS 444 Television Aesthetics I (3 credits)
Prerequisite: 30 credits; enrolment in a Communication Studies programme. This course involves the study and application of evaluative judgements and aesthetic principles appropriate to the television medium. It emphasizes the development of television criticism and aesthetics based on a synthesis of the fundamental image elements (light, colour, space, time, motion, and sound) together with an analysis of their interrelationship in the finished product: the television programme.

COMS 445 Television Aesthetics II (3 credits)
Prerequisite: COMS 444. This tutorial course is a continuation of COMS 444 for students who wish to do research and experimentation with specific aspects of television aesthetic principles. Assignments include a research paper derived from specific experimental television production units.

COMS 454 Communication Law and Administration I (3 credits)
Prerequisite: 30 credits; enrolment in a Communication Studies programme. The course focuses upon the legal and business aspects of the communications industry. Among the items covered are basic
contract law, torts or delicts, libel and slander and copyright laws. The legal relationships between the various parties involved in the field of communications, e.g., producer and writer, are also analyzed.

COMS 455  Communication Law and Administration II (3 credits)
Prerequisite: COMS 454. Studies of particular cases are chosen to illustrate specific problems and their resolutions. In-depth treatment is given to applications of areas developed in COMS 454.

COMS 460  Political Communication (3 credits)
Prerequisite: Permission of the Department. The relationships between media institutions and political institutions, both in Canada and internationally are examined. Issues such as: the flow of political information; the social and political construction of news; the politics of regulation; the politics of influence in campaigns, nation-building socialization through media; ideology in the media, and alternatives to traditional media are explored.
NOTE: Students who have received credit for COMS 465 may not take this course for credit.

COMS 461  Organizational Communication (3 credits)
Prerequisite: Permission of the Department. The flow of communication within organizational and institutional structures is examined. Topics such as: communication function; patterns and networks; directionality; overload and underload; communication roles and expectations; and processes of organizing are explored. Discussion and field study are combined with readings for an emphasis on applied theory.
NOTE: Students who have received credit for COMS 465 may not take this course for credit.

COMS 462  Communication, Culture, and Popular Art (3 credits)
Prerequisite: 60 credits; permission of the Department. An introduction to the social analysis of works of popular art. Cultural products such as television programmes, hit records, and popular novels are examined through techniques of textual analysis. Within the context of an examination of cultural theories, the course focuses on (1) critical methods based in the theory of rhetoric and (2) theories of mass culture and alienation.

COMS 463  Semiotics (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. This course provides a detailed introduction to the semiotics of communication. The course considers the formal characteristics of signs and codes and examines how signs or "texts" produce meaning. It focuses on three types of "texts": the advertisement, the news, and the fictional narrative. Central to this course is the notion that sign-systems are fundamental to the production of "knowledge" and ideology. The course proceeds through lectures, an analytical reading of assigned texts, and student discussion and presentations.

COMS 468  Theoretical Issues in Development Communications (3 credits)
Prerequisite: 60 credits; permission of the Department. This seminar examines historical and current research on, and theoretical approaches to, the role media can play in indigenous and international development.
NOTE: Students who have received credit for COMS 466 may not take this course for credit.

COMS 469  Media Applications to Participatory Development (3 credits)
Prerequisite: 60 credits; permission of the Department. This seminar examines the impact and usefulness of appropriate media (film, television, community radio, interactive satellites, etc.) to indigenous and international development.
NOTE: Students who have received credit for COMS 466 may not take this course for credit.

COMS 470  Advertising and the Consumer Society (3 credits)
Prerequisite: Permission of the Department; priority is given to students in Communication Studies programmes. Advertising as an economic force is examined from a mass-media focus. Communication strategies are analyzed. A promotional campaign is prepared and presented as a team project.

COMS 471  Public Relations: Principles and Problems (3 credits)
Prerequisite: Permission of the Department; priority is given to students in Communication Studies programmes. This course considers the principles and responsibilities of Public Relations, and critically examines specific P.R. problems and the choice of media in effecting solutions.

COMS 475  Visual Dynamics IV (6 credits)
Prerequisite: COMS 375; written permission of the Department. Developing the visual imagination: conceiving and organizing ideas for expression through media, such as Print, Film, Television. Each student is asked to conceive a "story" (an integrated narrative), and to determine its most appropriate visual presentation (emphasizing the story's significance and maintaining overall unity). Three presentation modalities are considered: a) the controlled sequence; b) the randomly perceived message; c) the pictorial symbol. Lectures and Laboratory: average, 6 hours per week.

COMS 478  Seminar and Practicum in Sound III (6 credits)
Prerequisite: COMS 378; written permission of the Department. Conceptual structure of synthetic sound. Control of the fine and coarse structure of the volume, pitch and timbre of synthesized sound. Lectures and production projects are designed to give the student a broad acquaintance with the current concepts and techniques in electronic sound production. Lectures and laboratory.
COMS 481  Seminar and Practicum in Film III  (6 credits)
Prerequisite: Above-average standing in COMS 381; written permission of the Department. An advanced course in film theory and communication. Film-making processes covered includes scripting, directing, "A and B roll" editing, and shooting with crystal sync-sound equipment. Lectures and Laboratory: average, 6 hours per week.

COMS 487  Seminar and Practicum in Television III  (6 credits)
Prerequisite: Above-average standing in COMS 387; written permission of the Department. An advanced course in television theory and communication. Possible options, depending on the ability of the students in any one year, include the dramatic documentary and the complete adaptation for television of professional plays. Lectures and Laboratory: average, 6 hours per week.

COMS 490  Communication Programming  (6 credits)
Prerequisite: COMS 255; COMS 351. This course studies the interaction among several media, e.g., film, sound, television, static 2D and 3D image. Special attention is given to application in the areas of displays, exhibitions, entertainment endeavours, multi-media shows, where more than one medium is used in one coherent programme.

COMS 496  Honours Project I  (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. Towards the end of their second year, students enrolled in a Communication Studies programme who have demonstrated scholarly and creative ability may be selected for major research or production in a communications area of special interest. During the third year, individually or in teams, the project is realized in close collaboration with Faculty directors.
NOTE: Students who have received credit for COMS 495 may not take this course for credit.

COMS 497  Honours Project II  (3 credits)
Prerequisite: Open only to students in Communication Studies programmes. Students who have received credit for COMS 496 may register for COMS 497.

COMS 498  Advanced Topics in Communication Studies  (3 credits)

COMS 499  Advanced Topics in Communication Studies  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

BA DEGREE PROGRAMMES IN ECONOMICS

60 BA Honours in Economics
6 • ECON 201, 203
12 ECON 301, 302, 303, 304
6 ECON 325, 326
6 ** ECON 221 and 222 or DESC 243 and 244
12 Chosen from ECON 401, 403, 406, 421, 422, 425, 426, 432, 435, 442, 443
6 Chosen from 400-level ECON courses

60 BA Specialization in Economics
6 • ECON 201, 203
12 ECON 301, 302, 303, 304
6 ECON 325 and 326
6 ** ECON 221 and 222 or DESC 243 and 244
12 Chosen from 400-level ECON courses

42 BA Major in Economics
6 • ECON 201, 203
6 ** ECON 221 and 222 or DESC 243 and 244
12 ECON 301, 302, 303, 304
6 Chosen from 400-level ECON courses

30 Minor in Economics
6 • ECON 201, 203
12 ECON 301, 302, 303, 304

*Students exempted from ECON 201 and/or 203 are required to replace these courses with ECON electives.

**Any equivalent 6 credits satisfy this component of the programme. See note after ECON 222.

Students who already had Honours status by June 1, 1977, will continue to be governed by the requirements which applied at the date of their admission to the Honours Programme. (Please refer to 16.2.4 of this Calendar).

The courses in Economics listed below are acceptable as Science credits in the Bachelor of Science degree.

ECONOMICS 222, 325, 326, 421, 422, 425, 426

ECONOMICS CO-OPERATIVE PROGRAMME

Director
M. ARMSTRONG, Professor

The Economics Co-operative Programme is offered to students who are enrolled in the BA Honours or Specialization in Economics.
Students in Economics Co-op take the regular academic programme. The schedule of academic and work periods for an entering group of Economics Co-op students is given in §31.515.

The overseeing of the Economics Co-op Programme is the responsibility of the Director of the Economics Co-operative programme and the departmental Co-op Committee, which provides the connecting link between students, employers and the Institute for Co-operative Education.

Students interested in applying for Economics Co-op should refer to §31.515 where a full description of the admission requirements is provided or write to The Principal, Institute for Co-operative Education, 7308 Sherbrooke Street West, Montreal, Quebec, H4B 1R6. For information by telephone see "CONTACTS" in §31.515.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

ECON 200  Introductory Economics (6 credits)
This course is designed primarily for students not majoring in Economics or Commerce, but who wish to have an introduction to economics and the Canadian economy. Its content is essentially the same as that of ECON 201 and ECON 203. However, there is greater emphasis on the economic environment of the firm, and the use of elementary tools of analysis to study Canadian economic institutions, government economic policies and current economic issues.
NOTE: Students who have received credit or exemption for ECON 201 and/or 203, or equivalent, may not take this course for credit.

ECON 201  Introduction to Microeconomics (3 credits)
Introduction to the functioning of the market system; concepts of supply and demand, the role of prices in resource allocation; production decisions by firms. Analysis of differences between competition and monopoly, and the implications for economic efficiency; theories of labour markets and wage determination.
NOTE: Students who have received credit or exemption for ECON 200 may not take this course for credit.

ECON 203  Introduction to Macroeconomics (3 credits)
An introductory analysis of aggregate economic activity. The focus is on the principles of determination of the level of employment, national income, real output, inflation, and international balance of payments. The course also analyzes the principles which govern trade relations among countries. These topics are integrated by a discussion of government monetary and fiscal policies to stabilize economic activity.
NOTE: Students who have received credit or exemption for ECON 200 may not take this course for credit.

ECON 221  Statistical Methods I (3 credits)
NOTE: Credits will be given for only two 3-credit courses from ECON 221 and 222, MATH 207 or MATH 242, 243, DESC 243 and 244, SOCI 212, 213, PSYC 315 and 316 or PSYC 317.

ECON 222  Statistical Methods II (3 credits)
Prerequisite: ECON 221, or equivalent. The course is an introduction to the application of statistical techniques to economic data. Topics discussed include, among others, time series, statistical inference, analysis of variance, correlation and regression. NOTE See §200.7
NOTE: Credits will be given for only two 3-credit courses from ECON 221 and 222, MATH 207 or MATH 242, 243, DESC 243 and 244, SOCI 212, 213, PSYC 315 and 316 or PSYC 317.

ECON 250  Introduction to Economic History (6 credits)
A study of the economic development of western societies. Particular attention is paid to Europe during the period from the sixteenth century to the present day. The aim of the course is to provide an understanding of the interconnections among social, economic, and political change.

ECON 298  Selected Topics in Economics (3 credits)

ECON 299  Selected Topics in Economics (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ECON 301  Intermediate Microeconomic Theory I (3 credits)
Prerequisite: ECON 201; ECON 203. Theory and measurement of demand, theory of consumer behaviour, production, theory of the firm, and cost and revenue analysis.

ECON 302  Intermediate Microeconomic Theory II (3 credits)
Prerequisite: ECON 301. Market structures (perfect competition, monopoly, oligopoly), industrial concentration, factor markets, income distribution, economic efficiency, general equilibrium, welfare economics.
ECON 303  **Intermediate Macroeconomic Theory I**  (3 credits)
Prerequisite: ECON 201; ECON 203. This course deals with the major areas of aggregate economics. Topics include the definitions and measurements of indicators of economic activity; the classical, Keynesian, and rational expectations models of the economy; the derivation of the AS schedule, the ISLM approach to the AD schedule; role of macro-economic policy.

ECON 304  **Intermediate Macroeconomic Theory II**  (3 credits)
Prerequisite: ECON 303. Review of the complete Keynesian system: role of investment demand, the consumption function, the demand for money function. Other topics include the open economy models of income determination, interest rates, and exchange rates, business cycles, economic growth, macroeconomic policy and their application to Canada.

ECON 311  **Economic Development I**  (3 credits)
Prerequisite: ECON 201; ECON 203. The course investigates comparative economic development, with special attention to problems of capital formation, population growth, quality of labour force, and social and cultural attitudes towards economic modernization. Theories of economic development are evaluated in the context of the realities of historical patterns and the varying degrees of ability to achieve modernization.

ECON 312  **Economic Development II**  (3 credits)
Prerequisite: ECON 311. The concept and meaning of economic planning, methodology and strategy of planning, input-output and sector analysis, techniques of planning, investment criteria and priorities, study and appraisal of economic plans of a few countries.

ECON 315  **The Economic Development of Quebec**  (3 credits)
Prerequisite: ECON 201; ECON 203. This course reviews past and present trends in the economic development of Quebec. Emphasis is placed on the economic growth of Quebec since the Second World War. Attention is given to the regional aspects of Quebec’s growth problems.

ECON 316  **Canadian Economic Issues I**  (3 credits)
Prerequisite: ECON 201; ECON 203. This course is devoted to an analysis of some economic issues facing Canada; for example, employment and unemployment, inflation, economic growth and potential, income distribution, social-security policies, monetary and fiscal policies.

ECON 317  **Canadian Economic Issues II**  (3 credits)
Prerequisite: ECON 201; ECON 203. This course is similar to ECON 316, but covers a different group of topics; for example, foreign ownership and control, regional-development problems, monopoly and competition, government regulation of business, agricultural policy, trade policy.

ECON 323  **Statistical Packages and Economic Data**  (3 credits)
Prerequisite: ECON 201; ECON 203. This course introduces the student to the use of the computer in the storage, retrieval and processing of economic data. Given the ever-increasing importance of the computer in the storage, retrieval and processing of information, another purpose of the course is to provide a basic understanding of a computing system and of using data banks and statistical packages. Particular emphasis is given to SPSS, TSP and to CANSIM. The student should be prepared to devote at least 10 hours/week to this course. Provision is made for weekly tutorials.

NOTE: Registration is limited to those who are in the Honours, Specialization or Major programmes in Economics.

ECON 325  **Mathematics for Economists I**  (3 credits)
Prerequisite: ECON 201; ECON 203; MATH 201, or equivalent. This course introduces the student to differential and integral calculus and to their applications in economic analysis. Topics covered include set theory, the concept of limits and rules for differentiation and integration. It also deals with the relevance of these concepts and techniques to economic problems such as maximization, equilibrium analysis, and dynamic adjustments.

ECON 326  **Mathematics for Economists II**  (3 credits)
Prerequisite: ECON 325. The main emphasis is on the study of linear algebra and its application to the solution of economic models consisting of a system of linear simultaneous equations. Topics covered include: matrices and vectors; basic properties of determinants and their use in solving equations pertaining to economic problems, such as linear programming and constrained optimization.

ECON 331  **Money and Banking**  (3 credits)
Prerequisite: ECON 201; ECON 203. Overview of a monetary economy: nature, forms and the economic role of money. Monetary standards: markets, prices, and the value of money; the payments system; financial markets. Determinants of size and distribution of wealth portfolios. Supply of money: measure, composition, and size determination. The economic role of commercial banks and non-bank financial intermediaries. Central banking and monetary policy. The international monetary system. (Topics covered within the Canadian banking institutional framework.)

ECON 335  **Public Sector Economics: Expenditures**  (3 credits)
Prerequisite: ECON 201; ECON 203. This course examines government fiscal activity within the context of a free-market system. Rationale for public-sector activity is reviewed in terms of economic efficiency and the market failures. Among the topics covered in the course are growth of public spending, the concept of public good externalities, collective decision-making process, pure theory of
public expenditures, local expenditures analysis, and efficiency in public spending, with special reference to Quebec and Canada.

**ECON 336 Public Sector Economics: Taxation** (3 credits)
Prerequisite: ECON 201; ECON 203. The principal purpose of this course is to examine and evaluate the important elements of the Canadian fiscal structure, emphasizing taxation and the financing of public expenditures. Among others, issues in taxation of income, both at the individual and corporate levels; excise and sales taxation, taxation of capital gains and wealth, intergovernmental fiscal relations, and tax reform are taken up.

*NOTE: Accountancy Majors students may not take this course for credit.*

**ECON 341 International Economic Relations** (3 credits)
Prerequisite: ECON 201; ECON 203. This course focuses on the discussion and the analysis of the major forms of economic relations among nations; viz., international trade and international capital movements. Emphasis is placed on policies and institutions for the smooth functioning of the international economy, although some theoretical constructs are also introduced. Topics covered include international trade, protection, balance of payments, economic integration, and international monetary system.

**ECON 351 Economic History of Canada** (6 credits)
Prerequisite: ECON 201; ECON 203. This course is designed to introduce the student to Canadian economic development from the early period of settlement to the present day. Emphasis is placed on the economic history of Canada since Confederation.

**ECON 352 Economic History of the U.S.A.** (6 credits)
Prerequisite: ECON 201; ECON 203. American economic history is presented from the viewpoint of the “new” economic history. This is a topical approach in which formal economics is used to evaluate traditional historical material. Among the topics which are covered are: the economic consequences of slavery, the American business cycle, the development of American central banking, the merger movements, the causes of the American “take-off”, and the economic causes and consequences of the major wars.

**ECON 353 Economic History of Europe** (6 credits)
Prerequisite: ECON 201; ECON 203. The course explores the causes and consequences of the British Industrial Revolution and its diffusion to the Continent, in terms of differential national-growth patterns, and social problems associated with economic change. It includes an analysis of free trade, economic nationalism, the new imperialism, the importance of the crisis of 1929, in terms of economic organization, thought, and policy. Post-World War II reorganization, in terms of planning the welfare state, and economic integration.

**ECON 361 Industrial Organization** (3 credits)
Prerequisite: ECON 201; ECON 203. This course develops the relationship of the firm to various forms of market structure. The course focuses on the objectives of the corporation, corporate interdependence, and the government control of industry. A study of policy matters centres on anti-trust and corporate regulation, with respect to both the legislative and economic aspects.

**ECON 362 Economics of the Firm** (3 credits)
Prerequisite: ECON 201; ECON 222 or DESC 244. This course stresses the application of economic principles and methodologies to the decision making process of the firm, with an emphasis on the role of risk and uncertainty. Topics include decision-making criteria, demand analysis and estimation, cost analysis and estimation, pricing theory under various market structures, applied topics in pricing, and the impact of government on the firm. This course is primarily of interest to Commerce students, but is open to others as well.

**ECON 363 Economics of Technological Change** (3 credits)
Prerequisite: ECON 201; ECON 203. This course deals with a critical analysis of the technological constraints on economic processes, research and development, and the economic factors affecting the rate and direction of technological change. Topics include: the economic implications of learning by doing and technical systems; micro-economic effects of innovation and adoption theory; and the long-term macro-economic policy implications of technological change.

**ECON 370 Comparative Economic Systems** (6 credits)
Prerequisite: ECON 201; ECON 203. A comparative study of contemporary economic systems. While mainly concerned with the institutional features of contemporary free-market economics, the course also deals with their counterparts, the systems of a command economy, and a Socialist market economy. Of primary interest are the institutions, mechanisms, and policies which govern allocation, efficiency, growth, and distribution of income, with emphasis on the historical background of the institutions and the social, political, and ideological influences which continue to shape them.

**ECON 374 Theory and Practice of Cooperation** (3 credits)
Prerequisite: ECON 201; ECON 203. This course deals with the effect of cooperatives on economic and social development, with emphasis on Quebec and Canada. Among the topics discussed are the origins and development of the cooperative economy, differences among cooperative, capitalist, and communist economic systems; economic, social, educational, and moral transformations taking place under cooperative influence, and the role of cooperation on the international political scene.
ECON 375  The Soviet Economy  (3 credits)
Prerequisite: ECON 201; ECON 203. The evolution of the Soviet economic system and the policy measures adopted to deal with the problems of establishing and consolidating a socialist state. Special attention is given to Lenin's role in the early phase of the Soviet system, and early economic measures, such as the collectivization of farms. Other topics covered are: the nature of economic planning and progress under Stalin, and the important recent reforms and modifications of the Soviet system under the impact of Liberman's proposals.

ECON 377  The Chinese Economy  (3 credits)
Prerequisite: ECON 201; ECON 203. This course is devoted to an analysis of Chinese economic development since 1949. Topics include: performance and efficiency, strategy for development, agricultural organization, the contribution of policy to economic growth, the industrial sector, control and allocation of resources, national economic planning.

ECON 381  Labour Economics I  (3 credits)
Prerequisite: ECON 201; ECON 203. The general objective of this course is to acquaint the student with various theoretical and empirical issues in the area of labour economics. Particular emphasis is placed upon the relation between theoretical frameworks and their empirical counterparts in Canada. Topics include the theory of wage determination, the effects of minimum wages, human capital theory, the economics of discrimination, and the economics of the household.

ECON 382  Industrial Relations I  (3 credits)
Prerequisite: ECON 201; ECON 203. A study of the general and practical problems that arise in the labour field, such as collective bargaining, the legal framework for the settlement of industrial disputes, the weapons of industrial conflict; the labour movement; contemporary labour issues, such as automation, cost-push inflation, and structural employment.

ECON 383  Industrial Relations II  (3 credits)
Prerequisite: ECON 382. Topics in industrial relations, with particular emphasis on developments in Canada.

ECON 386  Economics of Human Resources  (3 credits)
Prerequisite: ECON 201; ECON 203. A study of recent contributions by economists to the understanding of and solution to social problems which society currently faces in the areas of crime, health, education, and welfare. In addition, specific federal and provincial governmental policies in these areas are analyzed with the standard tools of economics.

ECON 387  Labour Law  (6 credits)
Prerequisite: ECON 201; ECON 203. The development of the trade union movement and early labour legislation in the U.S.A. and Canada; collective bargaining; labour law in Canada and Quebec today, with emphasis on the Industrial Relations and Disputes Investigations Act (Canada), the Quebec Labour Code, and related statutes. An in-depth study of employer's free speech; evocation in matters of arbitration awards; injunctions; successor rights. Practice and procedure before the courts, and labour relations boards and commissions.

ECON 391  Economics of the Environment  (3 credits)
Prerequisite: ECON 201; ECON 203. The subject of this course is environmental quality. It proceeds through an analysis of the relationships among the natural environment, economics, and institutions. The objective is to depict the problem of environmental quality as an economic problem whose solution demands major changes in economic, political, and legal institutions. Attention is also given to policies of collective environmental actions in which the effective management of common property resources is discussed. The course concludes with a discussion of some broader issues, such as the consistency of improved environmental quality with continued economic and population growth.

ECON 392  Urban Economics  (3 credits)
Prerequisite: ECON 201; ECON 203. This course focuses on the basic issues of economic growth and stagnation, urban land use, the problems of the urban public economy, and special urban problems, such as transportation, congestion, poverty, housing, and urban renewal, and zoning.

ECON 396  Natural Resource Economics  (3 credits)
Prerequisite: ECON 201; ECON 203. This course focuses on the problems of the finiteness of the natural resources base in Canada and in the world, and on an analysis of the demand for and supply of natural resources and energy. The course also discusses the economic aspects of a selected group of conservation measures (financial incentives, reallocation of property rights, regulation).

ECON 397  Economics of Discrimination  (3 credits)
Prerequisite: ECON 201; ECON 203. The purpose of this course is to examine some economic issues of discrimination, with particular reference to women in a Canadian context. Among the topics so examined are: techniques for measuring discrimination and poverty, review of empirical studies, traditional and radical approaches to the study of discrimination, and policies to combat discrimination and poverty.

ECON 398  Selected Topics in Economics  (3 credits)

ECON 399  Selected Topics in Economics  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**ECON 401**  *Advanced Microeconomic Theory*  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 325; ECON 326. Selected topics in microeconomic analysis, including: methodology, general equilibrium analysis, welfare economics; theory of the firm, factor pricing, and income distribution capital theory. Primarily for Majors, Specialization, and Honours students.

**ECON 403**  *Advanced Macroeconomic Theory*  (3 credits)
Prerequisite: ECON 303; ECON 304; ECON 325; ECON 326. Selected topics in macroeconomic analysis, including construction of models of the economy encompassing the labour, product, and financial markets; the role of monetary and fiscal policies; classical, Keynesian, and post-Keynesian models. Primarily for Majors, Specialization, and Honours students.

**ECON 405**  *Welfare Theory*  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This is an advanced course, intended primarily for Honours students. The course is devoted to an examination of selected topics in contemporary welfare economics and its applications.

**ECON 408**  *History of Economic Thought*  (6 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course traces the development of economic analysis from the time of the Scholastics to modern times. It also includes a description of the prevailing economic, social, and cultural environment in which economists have written. Primarily for Majors, Specialization, and Honours students.

**ECON 411**  *Quantitative Development I*  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 325; ECON 326. Methods of national accounting and input-output analysis for under-developed countries. Methods of comparing standards of living. Patterns of economic development. Appraisal of models constructed on the premises of modern theories of economic development.

**ECON 412**  *Quantitative Development II*  (3 credits)

**ECON 413**  *Economic Growth and Fluctuations*  (3 credits)
Prerequisite: ECON 303; ECON 304. A review of some theories of causes of economic fluctuations. Discussion of the economic climate and of stabilization policies.

**ECON 421**  *Econometrics I*  (3 credits)
Prerequisite: ECON 221; ECON 222; ECON 325; ECON 326. This course develops the simple and multiple classical regression models. The problems of mis-specified structures, multicollinearity, and forecasting are also presented.

**ECON 422**  *Econometrics II*  (3 credits)
Prerequisite: ECON 421. This course is a continuation of ECON 421. It deals with the problems of random-error correlation, stochastic regressors, and the simulation and the estimation of multiple-equation models.

**ECON 425**  *Mathematical Economics I*  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304; ECON 325; ECON 326. A set-theoretic approach to the theory of demand and production. Special topics in the application of static optimization.

**ECON 426**  *Mathematical Economics II*  (3 credits)
Prerequisite: ECON 425. Optimization over time: theory and applications to problems of consumption and investment planning, growth, and capital accumulation. Differential equations.

**ECON 428**  *Optimization Techniques*  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304; ECON 325; ECON 326. This is an advanced course for Honours students, and for Specialization and Majors students with the consent of the Department. Topics include linear programming and input-output analysis; basic concepts and solutions of linear programming, its application to optimum resources allocation; exposition of basic inter-industry theory within the framework of input-output techniques; its applications to structural analysis. NOTE: Only 3 credits will be awarded from ECON 428 and DESC 416.

**ECON 432**  *Advanced Monetary Theory*  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304; ECON 331 or permission of the Department. The nature of the monetarist-Keynesian controversy and critical appraisal of the IS-LM-AS model. Special topics; theory and evidence of term structure of interest rates, post-Keynesian demand for and supply of money in aggregative and dis-aggregative economic models. Theory of macro-economic policy, Transmission mechanisms, policy coordination, lags, international constraints, and other problems.
Advanced Public Finance (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304; ECON 335; ECON 336. In this course, several key areas in Public Finance are dealt with in depth. Topics covered are selected from the following: public goods and externalities, cost-benefit analysis, pricing policy of public enterprises, structure of commodity taxation, structure of income taxation, issues in tax reform, and intergovernmental fiscal relations.

International Economics: Trade Theory (3 credits)
Prerequisite: ECON 301; ECON 302. The basis of international trade, gains from trade, factor-price equalization, the tariff, Canadian commercial policy, trade and development, economic integration.

International Economics: Finance (3 credits)
Prerequisite: ECON 303; ECON 304. International monetary economics, foreign exchange markets, adjustment mechanisms, capital flows, balance of payments and domestic policy goals, international liquidity.

Advanced Economic History (3 credits)
Prerequisite: ECON 221; ECON 222; ECON 301; ECON 302; ECON 303; ECON 304. Advanced topics in economic history, with emphasis on the application of economic theory to specific historical questions.

Industrial Economics (3 credits)
Prerequisite: ECON 221; ECON 222; ECON 301; ECON 303 or FINA 214; FINA 315. This course examines the nature of the large firm, its behaviour and its impact on the national and international economy. Topics include: the emergence and historical development of the corporate firm; the separation of ownership from control; the large firm in Canada; theories of the large firm; mergers; macro-economic effects of large firms (administered pricing-inflation); the multinational corporation (theories, evidence, and effects).

Economics of Socialism (3 credits)
Prerequisite: ECON 301; ECON 302. This course analyzes the theoretical aspects of various types of socialist economies: market, centrally planned, and worker-managed. Definitions and models of the various forms are developed and compared with a capitalist model and with existing socialist economies such as those of Cuba, China, Yugoslavia, and the U.S.S.R.

Marxist Economics (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304 or ECON 370, or permission of the Department. A general survey of Marxist theory, including historical and dialectical materialism. Marx's microeconomics: labour theory of value and its classical predecessors; theory of exploitation and the Iron Law of Wages; transformation problem and price theory. Marx's macroeconomics: business cycles and the theory of capitalist development; crises and the breakdown of capitalism. Contemporary Marxism and the question of the withering away of the state.

Labour Economics II (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304; ECON 381. Advanced topics in labour economics with special emphasis on labour-market problems and policies in Canada. Topics include the theory of work-leisure choice, mobility and immigration, unemployment and unfilled vacancies, income distribution, labour market information and the wage-price relationship.

Economics of Social Welfare (6 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course is devoted to an examination of the economic aspects of social welfare issues in Canada. Topics include: employment and unemployment; personal problems and policies, inequality, poverty, social insurance and social assistance; investment in people, especially education and health; urban and regional development; environmental economics; federal, provincial, and municipal policies.

Regional Economics (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course introduces the student to the methods and techniques of regional economic analysis, and their application to the problems of regional economies within Canada. Among the microeconomic topics covered are: the location behaviour of firms and households, and the factors determining the allocation of land among alternative competing uses. Macroeconomic topics include: the measurement and analysis of regional income and growth levels, cyclical changes in those levels, and interregional differences in growth rates. Policy problems pertinent to Canadian regions are stressed throughout the course.

Economics of Socialism (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course analyzes the theoretical aspects of various types of socialist economies: market, centrally planned, and worker-managed. Definitions and models of the various forms are developed and compared with a capitalist model and with existing socialist economies such as those of Cuba, China, Yugoslavia, and the U.S.S.R.

Marxist Economics (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304 or ECON 370, or permission of the Department. A general survey of Marxist theory, including historical and dialectical materialism. Marx's microeconomics: labour theory of value and its classical predecessors; theory of exploitation and the Iron Law of Wages; transformation problem and price theory. Marx's macroeconomics: business cycles and the theory of capitalist development; crises and the breakdown of capitalism. Contemporary Marxism and the question of the withering away of the state.

Labour Economics II (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304; ECON 381. Advanced topics in labour economics with special emphasis on labour-market problems and policies in Canada. Topics include the theory of work-leisure choice, mobility and immigration, unemployment and unfilled vacancies, income distribution, labour market information and the wage-price relationship.

Economics of Social Welfare (6 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course is devoted to an examination of the economic aspects of social welfare issues in Canada. Topics include: employment and unemployment; personal problems and policies, inequality, poverty, social insurance and social assistance; investment in people, especially education and health; urban and regional development; environmental economics; federal, provincial, and municipal policies.

Regional Economics (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course introduces the student to the methods and techniques of regional economic analysis, and their application to the problems of regional economies within Canada. Among the microeconomic topics covered are: the location behaviour of firms and households, and the factors determining the allocation of land among alternative competing uses. Macroeconomic topics include: the measurement and analysis of regional income and growth levels, cyclical changes in those levels, and interregional differences in growth rates. Policy problems pertinent to Canadian regions are stressed throughout the course.
ECON 495  Economics of Transportation and Communications  (3 credits)
Prerequisite: ECON 301; ECON 302. Congestion problems and solutions, pricing, costs, demand, and regulation in transportation. Some applications to communications.

ECON 497  Income Distribution and Economic Inequality  (3 credits)
Prerequisite: ECON 301; ECON 302; ECON 303; ECON 304. This course presents a survey of the problems involved in measuring and explaining the distribution of economic resources among individuals and families. The course deals with such questions as: Why are some people economically better off than others? What, if anything, can or should be done about this state of affairs? Topics covered include: meaning and measurement of inequality; the distribution of income and wealth and the role of bequests; discrimination and sociological factors; poverty, income maintenance and government policy in Canada.

ECON 498  Advanced Topics in Economics  (3 credits)

ECON 499  Advanced Topics in Economics  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

30 Minor in Education

*72 BA Specialization in Early Childhood Education
This programme is open to full-time students. Only practising professionals in the field of education may apply as part-time students.

24 Theory
(18) EDUC 210, 211, 262, 264, 445
(6) Chosen from EDUC 413, 414, 416, 417, 490

18 Practica
EDUC 271, 371, 373, 473, 474, 475

24 Methods
(15) EDUC 380, 382, 386, 387, 388
(3) Chosen from EDUC 383, 384, 385
(6) Chosen from ARTE 201, DINE 201, MINE 301, EXCI 215 or 251

6 Foundations
(3) EDUC 260
(3) Chosen from EDUC 241, 422, 423, 426, 427, 428, 429, 440

NOTE: In addition students must take a minimum of 18 elective credits outside the Department of Education.

*NOTE 1: This programme is open to full-time students. In addition to the application submitted to the University, Specialization applicants must complete a form which may be obtained from the Early Childhood Secretary. Only practising professionals in the field of education may apply as part-time students.

NOTE 2: Upon successful completion of the BA Specialization in Early Childhood Education programme and application to the Registrar's Services Department, students may be recommended to the Quebec Teachers Certification Service for a Quebec Teaching Permit (Prospective), for prekindergarten, kindergarten and Grades 1-3.

To be recommended for certification students must:
1. achieve at least a B grade in each of the following courses: EDUC 271, 371, 373, 473, 474, 475; and
2. achieve at least a C grade in each of the following courses: EDUC 380, 382, 383, 384, 385, 386, 387, and 388.

Students who obtain a failing grade or a passing grade that is below the level required for recommendation for certification will be placed on conditional standing within the programme and will be so informed in writing. Students will be allowed to repeat the course(s) in question only once in order to achieve the required grade.
(For the status of this grade as part of the student record, see calendar §16.3.9.)

Students who repeat the course and do not obtain the required passing grade will not be allowed to continue in the Early Childhood Education Specialization programme. (See calendar §16.3.9, paragraph 1).

The provisions of this policy also apply to the Certificate in Education programme. In EDUC 471, at least a B grade is required for such recommendation, in EDUC 480 and 481 at least a C grade.

NOTE 3: Students who intend to teach Catholic religious and moral instruction should be aware of regulations of the Catholic Committee which will begin to affect conditions of employment in 1992. The regulations may be found in the departmental handbook.

Admission Requirements
1. Evidence of full-time employment with a recognized institution in Quebec.
2. Possession of a Quebec Provisional Teaching Authorization.

Courses
EDUC 201
EDUC 210
either EDUC 480, 481, or an equivalent course in teaching methodology
EDUC 445
EDUC 471
6 additional undergraduate credits in Education chosen in consultation with the Director of the Programme.

Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

NOTE: 1. The student must meet the minimum scholarship requirements set by the Provincial government before being recommended for certification. See the conditions for certification following the BA Specialization in Early Childhood Education, above.
2. This programme is not open to teachers of vocational subjects or elementary teachers.

For other programmes which may be of particular interest to teachers, see §22.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

EDUC 201 The Nature and Function of Teaching (6 credits)
An introduction to the purpose, theories, and methods of teaching.

EDUC 210 Psychology of Education (6 credits)
This course introduces the student to a broad range of content in educational psychology, including its scope and methods, learning motivation, growth and development, adjustment, individual differences, guidance, and concept of self.

EDUC 211 Child Growth and Development (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization or Major in Child Studies, or permission of the Early Childhood Education Director. Students study the physical, cognitive, affective, and social development of the young child. Genetic and environmental factors that influence development are examined. The implications of developmental needs in terms of planning environments are covered.

EDUC 230 Introduction to Philosophy of Education (3 credits)
This course introduces the student to the content and form of several major educational theories, and to conceptual and logical procedures of philosophizing about education, with particular reference to teaching and learning.

EDUC 241 Education in Western Civilization (3 credits)
An introduction to selected major thinkers and systems of thought in (and impinging on) education from Antiquity to the twentieth century. Emphasis is placed on thought and practice in the context of significant cultural, socio-economic, political and religious developments.

NOTE: Students who have received credit for EDUC 441 may not take this course for credit.
EDUC 260  History and Philosophy of Early Childhood Education  (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization, or Major in Child Studies, or permission of the Early Childhood Education Director. This course provides an introduction to the field of early childhood education. The history and philosophy of pre-schools, day care, and the nursery school movement are represented. The influences of major writers, such as Rousseau, Froebel, Pestalozzi, Hard, Seguin, Montessori, and Dewey are examined. Comparative pre-school educational practices in other countries are explored.

EDUC 262  The Family and the Child  (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization, or Major in Child Studies, or permission of the Early Childhood Education Director. Students are introduced to developmental, psychological and sociological aspects of the child and the family. Emphasis is placed on the structure and functions of the modern family, the transition to parenthood, child-rearing styles, the development of attachments and early family relationships. Problems and issues of the modern family, such as divorce, dual-worker families, single parents, and step-families are also addressed.

EDUC 264  Parenthood Study  (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization. This course focuses on the role of parents in the development of the young child. Topical issues concerning teacher-parent-child relationships are examined. Students are required to attend a weekly laboratory session in order to observe a parent discussion group and to attend a weekly seminar.

EDUC 271  Practicum I: Pre-School Field Experiences  (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization. This course is designed as an introduction to the theoretical and applied aspects of Early Childhood Education. Students attend weekly seminars; topics include the development of preschool-aged children, the design of appropriate learning environments, the role of the teacher, curriculum and instruction in Early Childhood Education. This course requires students to spend one day a week for one semester in the Concordia Child Care Centre.

EDUC 298  Selected Topics in Education  (3 credits)
EDUC 299  Selected Topics in Education  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

EDUC 305  Technology for Educational Change I  (3 credits)
This course introduces aspects of current innovation in schools; especially the use of computers. Topics covered include the implications of the integration of computers into schools and research on the interaction of children with microcomputers. Emphasis is placed upon the preparation of lessons with a computer language specifically designed for children, LOGO (Turtle Graphics). This course requires laboratory work outside class.

EDUC 306  Technology for Educational Change II  (3 credits)
Prerequisite: EDUC 305. This course continues the study of educational computing started in EDUC 305. Two new types of computer languages are introduced: an all-purpose programming language (such as BASIC) and an authoring language (such as PILOT). Techniques for using these languages in the systematic design of instructional units, particularly for micro-computers, are introduced. Finally, methods for evaluating instructional software are presented. This course requires laboratory work outside class.

EDUC 317  The Urban Child  (3 credits)
This course concentrates upon the life of the inner-city child and the concomitant influences upon their development in and out of the classroom. Students are instructed in how to view the urban area from the child’s perspective, through field assignments in inner-city schools or recreation centres. Lectures by social workers, police officers of the youth section, legal aid counsellors, and inner-city teachers heighten the awareness of students to the environment in which the inner-city child lives.

EDUC 321  Sex Role Socialization in the School  (3 credits)
This course focuses upon how children at the elementary- and secondary-school level are socialized for different work roles, and how work segregation has occurred on the basis of this process. The role of schools and curriculum, then, is examined in relation to cultural changes in social roles.

EDUC 324  Patterns of Educational Culture  (3 credits)
This course is an introduction to the variety of cultural settings in which formal schooling and informal education socialization take place. The cultural milieu of education, both inside the classroom and outside, in the family, the neighbourhood, the market-place, and the political arena is the focus of readings and lectures. The aim of this course is to immerse the student in the concepts of anthropology and education in the broadest sense. It is hoped that students become sensitized to the concept of culture, cultural assimilation, enculturation, socialization, informal, non-formal, and formal educational systems, open and closed societies, and cross-cultural comparison.
EDUC 371 Practicum II: Classroom Interaction Dynamics (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course is designed to encourage both systematic and anthropological observation of children in large and small groups in the classroom. Interaction between the child and the teacher as well as peer group interaction are examined. Sociolinguistics, verbal and non-verbal communication, and teacher expectations are topics covered. The purpose of this course is to heighten students' awareness of effective communication strategies and classroom interaction patterns. Classroom observation and student participation are the means by which topics are handled in the course. A one half-day per week field placement is required.

EDUC 373 Practicum III: Curriculum, Classroom Management and Micro-Teaching (3 credits)
Prerequisite: 30 credits in the Early Childhood Education Specialization. Students study curriculum development and classroom management at the pre-school level. Teaching skills are modelled and practised in microteaching sessions. Students plan and develop activities, lessons, and units, which they implement in the microteaching sessions. Videotapes of performance are reviewed and discussed.
NOTE: Students who have received credit for EDUC 270 may not take this course for credit.

EDUC 374 Child Studies Practicum (3 credits)
Prerequisite: 30 credits in the Major programme. This course is designed to provide students with training in observation and evaluation procedures. Students study children in a variety of child-oriented environments and programmes. Instruction focuses on evaluative methodology, e.g., observational methods and interactional analysis. Students are required to complete a one-half day per week internship in addition to the regularly scheduled class time. Appropriate field placements for this course include recreation/community centres, hospitals, daycare centres, libraries, museums, fine arts centres.
NOTE: Students who have received credit for EDUC 371 may not take this course for credit.

EDUC 380 Language Arts in Early Childhood Education (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. The aim of this course is to give the early childhood educator the skills to develop a stimulating and appropriate language arts programme for the classroom. The language arts curriculum, resource materials and teaching methodologies for the preschool and primary child are studied. The course focuses on listening, speaking, reading and writing, with special emphasis on integrating language arts activities into all subject areas.

EDUC 382 Teaching Science Concepts to Young Children (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course examines areas of science which are relevant to the young child and emphasizes the development of the spirit of scientific enquiry. Resource materials, teaching methodology and classroom activities for early childhood education (preschool and primary) are examined and evaluated. Assignments emphasize developing activities for classroom use.

EDUC 383 Promoting Moral and Spiritual Attitudes and Values in Young Children (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course is designed to introduce the early childhood teacher to the various issues involving the development of moral judgment and reasoning in the young child. Cultural, social, cognitive and emotional factors influencing the growth of morality are discussed. The major focus is on examining methods and techniques to enhance the personal development of positive social behaviours (i.e. helping, sharing, caring, etc.) in preschool and primary level children.

EDUC 384 Exploring the Human Sciences with the Preschool and Primary Age Child (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course examines the teaching of the human sciences to young children.

EDUC 385 Teaching a Second Language to Young Children (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course is designed to give teachers a background in current theories of language acquisition and second language learning. Teaching methodologies such as immersion, enrichment, core/complementary curricula are studied and resource materials are examined and evaluated. Assignments include the development of appropriate classroom activities for young children.

EDUC 386 Teaching Reading to Preschool and Primary Children (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course deals with the teaching of reading skills to children up to grade 3. Students are introduced to various approaches used in the teaching of reading. They examine and evaluate several reading programmes. Special emphasis is placed on classroom organization; resources for individualizing reading instruction and methods to evaluate reading performance.

EDUC 387 Teaching Mathematics to Preschool and Primary Children I (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. Programmes and methodologies for teaching numerical concepts typically acquired by the preschooler and the primary child are studied and evaluated. Relevant resource materials are examined and assignments focus upon development of activities for the classroom.
NOTE: EDUC 387 and EDUC 388 are designed to provide teachers of young children with the background mathematical knowledge and teaching competencies necessary for the development of an exciting and creative mathematical programme in the classroom.
EDUC 388  Teaching Mathematics to Preschool and Primary Children II  (3 credits)
Prerequisite: 30 credits in Early Childhood Education Specialization. This course concentrates on topics such as geometry, classification, measurement, mathematical language, and the use of the calculator. The use of manipulative aids in instructing young children is explored and illustrated. Relevant resource materials are examined and assignments focus upon the development of activities for classroom use. NOTE: EDUC 387 and EDUC 388 are designed to provide teachers of young children with the background mathematical knowledge and teaching competencies necessary for the development of an exciting and creative mathematical programme in the classroom.

EDUC 398 Selected Topics in Education  (3 credits)
EDUC 399 Selected Topics in Education  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

EDUC 405 The T.V. Child — The Educational Implications of Children's Television Viewing Patterns  (3 credits)
Prerequisite: 30 credits. This course examines the effects of television on children from a cognitive-developmental perspective. Learning theory, production techniques, cognitive theory (information processing) are the basis around which the examination of the communication process between the child and the media is examined. Both the positive and negative effects of television on children are considered. The concept of media literacy and classroom use of television is also discussed.

EDUC 413 Children's Behaviour Problems  (3 credits)
Prerequisite: EDUC 210 or EDUC 211. This course focuses on the nature of children's behaviour problems and on methods to understand and modify behaviours which interfere with children's emotional, social, and intellectual growth. Students are involved with the practical applications of the available strategies in order best to help a youngster with behaviour problems according to their needs. Specific classroom techniques for coping with the acting-out as well as with the withdrawn child are given. Students are taught observational tools, programming suggestions, reinforcement techniques, and evaluation methods.

EDUC 414 Learning Problems of Children  (3 credits)
Prerequisite: EDUC 210 or EDUC 211. This course describes the causes and kinds of learning problems in young and school-age children. Students are taught the pre-academic skills that are involved in learning, as well as specific techniques to help youngsters overcome and/or cope with these difficulties. Educational techniques for dealing with problems in reading, mathematics, spelling, writing, and language are discussed. The whole area of learning problems is related to children's social, emotional, and intellectual levels.

EDUC 416 Education of the Gifted  (3 credits)
Prerequisite: EDUC 210. This course discusses the special educational problems of gifted children. It also assesses the effectiveness of the techniques usually employed to deal with these problems.

EDUC 417 Education of the Disadvantaged Child  (3 credits)
Prerequisite: 30 credits. This course deals with issues associated with teaching disadvantaged children. Social, emotional, cognitive and family problems are discussed and techniques for coping with these problems are presented.

EDUC 422 Sociology of Education I  (3 credits)
Prerequisite: 30 credits. This course emphasizes sociological concepts and their application to the study of schooling. The focus is on the education system in relation to familial, economic and political aspects and how these affect social class differentials in educational achievement and social status position. NOTE: Students who have received credit for EDUC 421 may not take this course for credit.

EDUC 423 Sociology of Education II  (3 credits)
Prerequisite: EDUC 422. This course considers how a particular sociological viewpoint contributes to our understanding of school life. Topics include family, socialization patterns, teacher and pupil perspectives and how these are interrelated. NOTE: Students who have received credit for EDUC 421 may not take this course for credit.

EDUC 426 Comparative Education I  (3 credits)
Prerequisite: Six credits in Education. This course undertakes the study of the impact of political and cultural differences upon educational systems (for example, the impact of language differences, nationalism, colonialism, neocolonialism, political socialization). The approach is comparative, with particular emphasis on contrasting educational systems and practice in western nations (Canada, the United States, United Kingdom, or Western Europe); the Soviet Union; and China or other Third-World nations.

EDUC 427 Comparative Education II  (3 credits)
Prerequisite: Six credits in Education. This course examines the sources and impacts of educational change from a comparative perspective. Topics include pedagogical alternatives; socio-political alternatives; educational implications of technological change and economic policy; policies of elitism and
egalitarianism. Methods include comparative case study, and analysis of specific theories of educational innovation.

EDUC 428 Philosophy of Education: Concepts and Issues (3 credits)
Prerequisite: Three credits at university level in Philosophy or EDUC 230. The course considers the application of philosophical method to aspects of educational theory or practice, e.g., educational aims, teaching methods, concepts which occur in educational discourse, or educational controversies.

EDUC 429 Philosophy of Education: Educational Philosophers and Movements (3 credits)
Prerequisite: Three credits at university level in Philosophy or EDUC 230. The course makes a study of a philosopher or school of philosophy whose works include significant educational reference or implication: e.g., Plato, Aristotle, Rousseau, Dewey, Marxism, Utilitarianism, Modern Analytical Philosophy.

EDUC 431 Honours Essay in Education (6 credits)
Open to third-year students in Honours in Education and Philosophy (or to others by permission of the Department).

EDUC 432 Seminar in Epistemology and Education (3 credits)
Prerequisite: EDUC 430, or permission of the Department. Theories of knowledge are considered in this course, with special attention being given to the bearing of such topics as perception, evidence, truth, knowledge, and belief as relating to educational thought and practice. Students are expected to become familiar with recent periodical and other literature in the field.

EDUC 433 Seminar in Ethics and Education (3 credits)
Prerequisite: EDUC 430, or permission of the Department. Students in this course study the principles and methods of moral justification in education. They are referred to the writing of main authors and recent periodical literature.

EDUC 434 Seminar in Aesthetics and Education (3 credits)
Prerequisite: EDUC 430, or permission of the Department. The nature of aesthetic value and experience, and theories of art and beauty are examined. The development of the emotions and imagination, and their functions in aesthetic awareness are central concerns of this course. Students are expected to become familiar with the relevant literature in the field.

EDUC 435 Seminar in Philosophy and Education (3 credits)
Prerequisite: EDUC 430, or permission of the Department. This is an advanced seminar in philosophical analysis and theory, in which students present papers on, and conduct discussions about, educational concepts, aims, and practices. Students are expected to become familiar with the periodical and other literature in the areas under discussion.

EDUC 440 History of Education, Thought and Practice (3 credits)
Prerequisite: 30 credits. The course focuses on a selected theme, school of thought, or movement in education, and educational thought (e.g., "the education libertarians from Rousseau to Holt", "the evolution of the curriculum", "the origins of public education").
NOTE: Students who have received credit for EDUC 441 may not take this course for credit.

EDUC 442 Education in Canada (3 credits)
Prerequisite: Six credits in Canadian History. It is advisable that students have a reading knowledge of French. This course studies the history of Canadian education and, more particularly, the history of education in Québec.

EDUC 445 Education in Québec (3 credits)
Prerequisite: 30 credits in a teacher certification programme, or holder of a provisional teaching authorization or permission of the Department. This course covers the history, the contemporary movements and the structures of Québec education. The historical section covers the period from 1608 until the present. Topics included are the legislation, regulations, rules and directives pertaining to the respective roles of the Ministry of Education, the school boards, the teachers, the parents and the students in Quebec's educational system.
NOTE: Because this is a required course for all individuals enrolled in a Quebec programme of teacher training, the content is controlled by the Ministry of Education.

EDUC 471 Supervised Internship (6 credits)
This course is offered only to students enrolled in the Certificate in Education programme. Teaching internship is carried out in the school where the student is employed. The students are supervised and their teaching performance evaluated. The students are expected to demonstrate positive evidence of teaching competence and professional behaviour.

EDUC 473 Practicum IV: Early Childhood Education Kindergarten Internship (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization; 60 credits including EDUC 271, 371, 373. Students must be enrolled in EDUC 474 in the same semester. This course is a supervised kindergarten internship of five half-days a week for one semester. In addition, students are required to attend a weekly seminar with their faculty internship supervisor.
NOTE: Students who have received credit for EDUC 470 may not take this course for credit.
EDUC 474  Early Childhood Education Internship Teaching Seminar  (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization; 60 credits including EDUC 271, 371, 373. Students must be enrolled in EDUC 473 in the same semester. This seminar focuses on topics relevant to the student-teaching experience, e.g., behaviour management, curriculum planning, teacher-parent relationships, and mainstreaming. Emphasis is on the refinement rather than the acquisition of knowledge and skills. The literature on effective teaching practices is examined and the relationship of theory to practice is discussed.
NOTE: Students who have received credit for EDUC 470 may not take this course for credit.

EDUC 475  Practicum V: Early Childhood Education Primary Internship  (3 credits)
Prerequisite: Enrolment in Early Childhood Education Specialization; 60 credits including EDUC 271, 371, 373, 473, 474. This course involves a six-week (full days) supervised teaching internship in grades 1, 2 or 3.
NOTE: Students who have received credit for EDUC 472 may not take this course for credit.

EDUC 480  Special Methods of Teaching - Elementary  (3 credits)
This course is offered only to students enrolled in the Certificate in Education programme. It deals with methods of teaching in the elementary school. Emphasis is placed on the practical application of educational theories.

EDUC 481  Special Methods of Teaching — Secondary  (3 credits)
This course is offered only to students enrolled in the Certificate in Education programme. This course deals with methods of teaching in a high school subject. The course is designed to suit the individual student's field of specialization.

EDUC 490  Children with Health Problems and Handicaps I  (3 credits)
Prerequisite: EDUC 211; EDUC 262; 30 credits in Early Childhood Education Specialization or Child Studies Major or permission of the Early Childhood Director. An overview of the extent and significance of childhood illness, accidents, death and handicaps. Consideration of some of the needs of children and their families and means of overcoming some of the barriers to sound development and family well-being. Topics include: societal attitudes, bonding and separation, children's concepts of the body, illness, hospitalization and death, institutionalization, mainstreaming and normalization.
NOTE: This material has been offered in the past under EDUC 497 or 498. Students taking this course should check with their departmental adviser.

EDUC 491  Children with Health Problems and Handicaps II  (3 credits)
Prerequisite: EDUC 490. A continuation from EDUC 490, this course explores in greater depth and at a more practical level: children's responses to illness and health-related care, and specific interventions which can help foster sound development and family well-being. Topics include: preparation for resolution of stress provoking events; the helping relationship; the therapeutic use of play, creative expression and children's literature. The underlying principles and approaches are relevant for the educator working with children in any setting, and particularly for those contemplating future work with these children and their families. Laboratory work outside the class is required.
NOTE: This material has been offered in the past under EDUC 497 or 498. Students taking this course should check with their departmental adviser.

EDUC 498  Advanced Topics in Education  (3 credits)
EDUC 499  Advanced Topics in Education  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

31.90.1 ADULT EDUCATION  
(Andragogy)

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

42  *Major in Adult Education

*Admission suspended for 1990-91.

30  Certificate in Adult Education

The Department of Education offers a 30-credit Certificate Programme and a 24-credit Minor in Adult Education consisting of both required and optional courses: core courses in the foundations of adult education, courses related to functions, skills and competencies of adult educators in the field of practice, and courses related to some dimensions which constitute the body of knowledge of adult education.

Certificate Admission Requirements
General admission requirements are listed in Section 13. Applicants will be interviewed prior to admission.

Students must take:

<table>
<thead>
<tr>
<th>6</th>
<th>ADED 201, 202</th>
</tr>
</thead>
<tbody>
<tr>
<td>15</td>
<td>Chosen from the Adult Education (ADED) offerings</td>
</tr>
<tr>
<td>3</td>
<td>Chosen from cognate courses with the permission of the Programme Director</td>
</tr>
<tr>
<td>6</td>
<td>ADED 495, an integrative seminar in the last year of the programme</td>
</tr>
</tbody>
</table>
Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined in consultation with the Programme Director at the point of entry into the programme.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

**ADED 201  ** Concepts and Principles of Adult Education  (3 credits)  
This course consists of an overview of the field of adult education as a field of study with emphasis given to its philosophy, objectives, historical development and the nature of adult learners. It also examines Adult Education as a field of practice with emphasis given to methods, techniques, roles and competencies. This course stresses active student participation and self-directedness.  
**NOTE:** Students who have received credit for ADED 200 may not take this course for credit.

**ADED 202  ** The Scope and Nature of Adult Education Programmes  (3 credits)  
The course is designed to help students develop an understanding of the scope and nature of adult education programmes. Emphasis is placed on existing programmes and institutions and agencies providing them. The course stresses active student participation and self-directedness.  
**NOTE:** Students who have received credit for ADED 200 may not take this course for credit.

**ADED 220  ** Adults as Learners  (3 credits)  
This course examines the unique physiological, psychological and sociological characteristics of adults, their influence on adult learning and development and their implications for educational intervention. Attention is given to changes which occur at various stages of the adult life cycle and particularly to the dimensions which affect the adult’s self-concept and orientation to learning, the motivations, needs and interests which cause adults to participate in educational activities.

**ADED 230  ** Roles and Competencies of Adult Educators  (3 credits)  
The purpose of this course is to review the state of professionalization of adult education. General skills, knowledge and attitudes expected of adult educators regardless of the setting in which they work are examined. In addition, according to the participants’ needs and interests, an opportunity is given to explore competencies related to the particular roles of, e.g., administrators, programme developers, trainers, leaders, instructors, counsellors, and volunteer workers.

**ADED 240  ** Introduction to Research in Adult Education  (3 credits)  
This course is designed to introduce students as to how to gain access to and utilize major information sources in Adult Education. In addition, the course examines research interests and problem areas studied in Adult Education and related fields, along with current trends and various methods of enquiry used.

**ADED 298  ** Selected Topics in Adult Education  (3 credits)  
**ADED 299  ** Selected Topics in Adult Education  (6 credits)  
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**ADED 333  ** Methods and Techniques for Facilitating Adult Learning  (3 credits)  
This course is designed to give adult educators an opportunity to practise and improve their skills in facilitating adult learning. Different models of educational processes and optimal conditions for promoting adult learning are examined; attention is given to case studies, role plays and simulation methods and techniques, as well as to individualized learning formats.  
**NOTE:** Students who have received credit for ADED 330 or 331 may not take this course for credit.

**ADED 344  ** Design of Adult Learning Projects  (3 credits)  
The purpose of this course is to assist participants in developing a clear working concept of various models for planning and designing adult learning projects. To facilitate this understanding, the different steps of the process are closely examined and discussed. Participants are given an opportunity to design and conduct a learning activity. A systems approach, including methods for evaluating the design of the learning project is emphasized.  
**NOTE:** Students who have received credit for ADED 340 or 341 or 343 may not take this course for credit.

**ADED 345  ** Evaluating Adult Learning Projects  (3 credits)  
The purpose of this course is to assist participants in developing a clear working concept of various models for assessing the effectiveness of adult learning projects. The course emphasizes a systematic approach to evaluation, techniques for collecting information and providing feedback to programme...
operation and impact. Participants are given the opportunity to conduct an evaluation of an adult learning project.

**NOTE:** Students who have received credit for ADED 342 or 343 may not take this course for credit.

**ADED 351 Introduction to Administration of Adult Education**  (3 credits)
This course is designed to develop a better understanding of the principles of organization and administration as they relate to various institutions, government agencies, schools and hospitals. The course also examines the evolving relationships of administrative theory and practice.

**ADED 370 Workshops for Adult Educators**  (3 credits)
These workshops examine a number of topics and problems related to the field of Adult Education. The issues considered may differ from year to year and will be stated in the Undergraduate Class Schedule. The workshop format is designed to provide adult educators with learning opportunities that are flexibly scheduled or in the form of a one-week intensive seminar.

**ADED 398 Selected Topics in Adult Education**  (3 credits)

**ADED 399 Selected Topics in Adult Education**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**ADED 410 Adult Education in Canada and Quebec**  (3 credits)
The purpose of this course is to examine the historical development and current state of adult education in Canada, with special reference to Quebec. Various factors which influenced the development of adult education in our society are explored; the focus is on present status, role and structure, and socio-cultural and philosophical underpinnings of the field.

**ADED 412 Concepts and Values in Adult Education**  (3 credits)
This seminar is designed to encourage adult educators to reflect upon and question what one is engaged in and why. A selection of conceptual and philosophical issues underlying adult educational practice is critically examined and discussed. Attention is given to the meaning of words, the nature of ideas and values, the implications of assumptions and principles which are deemed specific in the sphere of the education of adults.

**ADED 440 Issues in the Practice of Adult Education**  (3 credits)
The purpose of this seminar is to study and discuss current issues relating to the field and profession of adult education in general, along with more specific and local concerns. Group and individual interests have an important bearing on the design of this course.

**ADED 450 Adulthood and the Process of Educational Change**  (3 credits)
This course examines research literature on the impacts of changes in perception, attitudes, abilities and needs associated with the adult life cycle; and the literature on the impact of institutionalization on adult learners. The course presents a more advanced examination of issues covered in ADED 220, such as: effect of changes in the adult life cycle on instructional methods; effects of changes in institutional policies and organization on educational opportunities for the adult learner.

**ADED 495 Integrative Seminar**  (6 credits)
Prerequisite: ADED 201; ADED 202. This seminar, to be taken during final year in the programme, is designed to assist individual students in achieving a synthesis of their own experience in the light of acquired knowledge, skills, values and attitudes. The purpose of this course is to help participants to clarify their aims and to structure their personal philosophy of adult education.

**ADED 498 Advanced Topics in Adult Education**  (3 credits)

**ADED 499 Advanced Topics in Adult Education**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
ADMISSION REQUIREMENTS FOR CREATIVE WRITING COURSES AND PROGRAMMES

Genre courses in Creative Writing are conducted as workshops in which enrolment is limited to permit constructive analysis of a student's work. Students wishing to enter any introductory genre course in Creative Writing (225, 226, 227) must apply by submitting a letter of intent along with a portfolio consisting ordinarily of 20 pages of their own work in any genre. Applications will be received as early as January of each year but no later than March 15. Since student demand regularly outpaces our enrolment capacity, early application is advisable.

Creative Writing programmes (Major and Minor) are designed primarily to develop the literary skills of students with a commitment to writing as an art form. Structured workshops guide students from introductory to advanced levels through the practice of their craft under the supervision of experienced writers.

Students wishing to proceed to the next level of a genre workshop must achieve a final mark of C or better at the previous level.

Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profiles).

REQUIREMENTS FOR ENGLISH LITERATURE MAJOR

All students entering the English Literature Major must take a special Composition placement test which includes a literary component. Depending on the results of the test, students will be granted exemption from the Composition requirement, or placed according to their levels in, initially, one of ENGL 208, ENGL 212, or ENGL 213. (Some sections of ENGL 212 and ENGL 213 are specially designated for English Majors.) Credits in ENGL 212 and ENGL 213 count as elective credits toward the programme total; credits in ENGL 208 count towards the BA but not towards the programme total. The Composition requirement has to be satisfied in the first year of enrolment in the programme. Note also the Genre and Critical Method requirements of the programme.

ADMISSION REQUIREMENTS FOR JOINT SPECIALIZATION IN PLAYWRITING (ENGLISH AND THEATRE)

This Programme is intended for a very few exceptionally talented students each year. Students wishing to enrol in this programme should make an application to either the Major in Creative Writing or the Major in Theatre (Department of Theatre). In either case, in consultation with
their advisers, they should select courses which satisfy the requirements for both the Departmental Major and for the Joint Specialization. Permission to transfer to the Joint Specialization and to enrol as student playwrights in THEA 420 Playwriting Workshop is normally granted when students enter their final 30 credits and is based upon successful completion of ENGL 227 Creative Writing: Drama and ENGL 427 Advanced Creative Writing: Drama, review of the student’s writing to date, and an interview. Students who are refused permission to transfer to the Joint Specialization should expect to complete the requirements for the Departmental Major in which they originally enrolled.

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.
Students should consult the annual English Department brochure to determine which of the following courses are being offered in any given year.

60 BA Honours in English Literature
12 Genre, critical reading and survey courses from ENGL 256, 257, 258, 263, 271, 273, 275, 277, 280, 281, 282, 283, 284, 384² (To be taken within the first 24 credits in English)
6 Early, medieval and 16th century from ENGL 262, 310, 315, 316, 317, 318, 430, 432²
6 17th and 18th centuries from ENGL 326, 327, 328, 332, 333, 334, 335, 347³
6 Romantic and Victorian to be chosen from ENGL 338, 339, 340, 342, 343, 344, 348³
6 Modern British, European and Anglo-Irish from ENGL 305, 307, 308, 355, 356, 357, 359, 366, 390, 392²
6 Canadian Literature to be chosen from ENGL 290, 293, 370, 371, 372, 375, 379²
3 American Literature to be chosen from ENGL 300, 301, 303, 309, 311, 365, 367, 369²
3 ENGL 470³
12 ENGL electives from ENGL 224 to ENGL 499

54 BA Specialization in English Literature
12 Genre, critical reading and survey courses from ENGL 256, 257, 258, 263, 271, 273, 275, 277, 280, 281, 282, 283, 284, 384² (To be taken within the first 24 credits in English)
6 Early, medieval, 16th century, 17th century and 18th century from ENGL 262, 310, 315, 316, 317, 318, 320, 326, 327, 328, 332, 333, 334, 335, 347, 349, 350, 352²
6 Romantic and Victorian from ENGL 338, 339, 340, 342, 343, 344, 346³
6 Canadian Literature from ENGL 290, 293, 370, 371, 372, 375, 379²
*NOTE: With Departmental approval when the subject is designated as appropriate for the Creative Writing Option.

42 BA Major in Creative Writing
12 Chosen from ENGL 225, 226, 227³
6 Chosen from ENGL 425, 426, 427³
6 Chosen from ENGL 410, 411, 412, 413³, 414³, 425, 426, 427³
6 Credits in Creative Writing
12 ENGL elective credits in literature courses.
*NOTE: Students wishing to register for the Major in Creative Writing should refer to the Admissions Requirements for Creative Writing Courses and Programmes.

30 Minor in Creative Writing
12 Chosen from ENGL 225, 226, 227³
12 Chosen from ENGL 410, 411, 412, 413, 414, 425, 426, 427³
ENGLISH

NOTE 1: Students who have received credit for any ESL course may not take this course for credit.

NOTE 2: Students must take a placement test before registering for this course.

24 Minor in English Language
24 Chosen from ENGL 256, 256a, or 257 and 258, 310, 384, 393, 394, 396, 430, 432, 477

24 Minor in English Literature
24 ENGL elective credits in literature courses

*Students are encouraged to consult with the Department in selecting their courses.

24 Minor in English Dramatic Literature
6 ENGL 320
18 Chosen from ENGL 227, 427, or English elective credits in dramatic literature

72 BA Joint Honours in English and French
6 ENGL credits chosen from courses 256 through 284

6 ENGL 310, 316, 320, 327, 328

12 ENGL credits chosen by genre or periods to parallel choice in French courses to be chosen in consultation with the departments

18 FRAN 251, or 252 and 253, 270, 271, 320, or 321 and 322, 402

12 FRAN credits chosen by genre or periods to parallel choice in English courses to be chosen in consultation with the departments

6 Elective credits in English or French, outside the parallel periods or genres chosen

6 ENGL 473 or FRAN 496

*NOTE: Students intending to take FRAN 496 should note that it has a 400-level prerequisite. Six of the twelve FRAN elective credits should therefore be chosen at the 400 level.

NOTE: Prior to registration students must have written approval for their programme from an authorized member of the Department.

60 BA Joint Specialization in English and History
6 Genre, critical reading and survey courses from ENGL 256, 257, 258, 271, 275, 277, 280, 281, 282, 283, 284 (to be taken in the first 24 credits in the programme)

6 Periods before 1800 (British and European) from ENGL 310, ENGL 315 through ENGL 318; from ENGL 320 through ENGL 335

6 ENGL elective credits from ENGL 224 to ENGL 499

18 HIST credits chosen from two different historical periods to parallel English courses to be chosen in consultation with the departments

12 HIST elective credits

60 Joint Specialization in Playwrighting (English and Theatre)*
12 Theatre 240, 420
3 Theatre Performance 201, 211
3 Production 311
12 Department of Theatre electives
12 ENGL 227, 427
12 Electives in drama, chosen from ENGL 235, 236, 237, 277, 318, 320, 335, 369, 379, 392. At least 3 credits must be in twentieth-century drama

6 Electives in English Literature or Creative Writing

*See Admissions Requirements for Joint Specialization in Playwrighting (English and Theatre)

**NOTE: Students in Playwrighting are given an assignment of an appropriate dimension.

200-level courses and 300-level courses without prerequisite are open to all students and may be used as English electives unless otherwise indicated.

Admission to the Honours programme is granted at the end of the student’s first year, after Departmental review. Students who already had Honours status by June 1, 1977, will continue to be governed by the requirements which applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar.)

Written work may be required in English for these courses; please consult with the Department.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

ENGL 205 Basic Language Skills — Stage I (3 credits)
A course for native speakers of English who need basic training in written English. Emphasis is placed on grammar, sentence structure, paragraphing and other fundamentals of good usage.

NOTE 1: Students who have received credit for any ESL course may not take this course for credit.

This course does not count for credit within any English programme.

NOTE 2: Students must take a placement test before registering for this course.
ENGL 206  Basic Language Skills — Stage II  (3 credits)
Prerequisite: ENGL 205. A course for native speakers of English who need basic training in written English. This course is a continuation of ENGL 205.
NOTE: Students who have received credit for any ESL course may not take this course for credit. This course does not count as credit within any English programme.

ENGL 208  Introduction to English Composition and Literary Analysis  (6 credits)
A composition course for students who wish to improve their ability to engage in written analysis of literary texts. The course includes analysis of fiction, poetry, and literary essays.
NOTE 1: This course does not count for credit within any English programme.
NOTE 2: Students must take a placement test before registering for this course.

ENGL 209  Elements of Written English  (3 credits)
This course is intended for students who have completed ENGL 205 and ENGL 206 or ESL 209 but who are not yet ready for ENGL 212. The course provides additional practice in English composition with emphasis on idiomatic expression and correct usage.
NOTE 1: Students who have received credit for this course may not subsequently take any ESL course or ENGL 205 or ENGL 206. This course does not count for credit within any English programme.
NOTE 2: Students must take a placement test before registering for this course.

ENGL 212  English Composition — Stage I  (3 credits)
This course is designed to help the student write clearly, concisely, grammatically and in a logically organized way. Emphasis is placed on diction, sentence structure, paragraphing and the organization of compositions and book reports.
NOTE 1: Students who have received credit for this course may not subsequently take any ESL course or ENGL 205, ENGL 206 or ENGL 209.
NOTE 2: Unless ENGL 209 has been completed previously, students must take a placement test before registering for this course.
NOTE 3: A GRADE OF C- OR HIGHER IN THIS COURSE CONSTITUTES A PASS IN THE UNIVERSITY WRITING TEST.

ENGL 213  English Composition — Stage II  (3 credits)
Prerequisite: ENGL 212. This course develops further the writing skills acquired in ENGL 212. The main purpose is to familiarize students with the techniques necessary for the preparation of research papers and academic reports.
NOTE: Students who have received credit for this course may not subsequently take any ESL course or ENGL 205, ENGL 206, or ENGL 209.

ENGL 224  The Creative Process  (3 credits)
This is a series of lectures and discussions on aspects of the writing life, including technique, literary influences, sources of inspiration, revision, and process. Material is drawn from texts, letters, worksheets, and biographies of well-known poets, prose writers, and playwrights, as well as from the instructor's own experience.
Students are invited to read widely, participate in discussions, write papers, and engage in some writing of poetry, fiction, or drama. This course is open to all students.
NOTE: Students wishing to register for ENGL 225, 226 or 227, please refer to admission requirements for Creative Writing.

ENGL 225  Creative Writing: Poetry  (6 credits)
A seminar in the writing and criticism of poetry, including detailed discussion and written criticism of the students' work, and, at the discretion of the instructor, the study of selected poems.

ENGL 226  Creative Writing: Prose  (6 credits)
A seminar in the techniques of short fiction, including investigations of and exercises in a variety of creative and technical problems, as well as analysis and criticism of the students' own work. Students may be required to read selected works of short fiction.

ENGL 227  Creative Writing: Drama  (6 credits)
A seminar in the writing of plays, including an exploration of dramatic forms and techniques. The students are expected to submit work of their own for discussion and analysis.

ENGL 232  The Oral Interpretation of Poetry and Drama  (6 credits)
The aim of this course is to demonstrate the close relationship between the rhythm and texture of the spoken word and meaning in poetry and drama. Poems and scenes from plays are read aloud, studying the importance of emphasis to meaning and (in the latter) the relationship of dialogue to character.

ENGL 235  Plays of the Renaissance Theatre  (3 credits)
Designed as an introduction to Renaissance drama, this course is a study of representative sixteenth- and seventeenth-century plays by such writers as Marlowe, Shakespeare, Jonson, Webster and Molière.
NOTE: This course may not be taken for credit with ENGL 318.
ENGL 236  Plays of the Modern Theatre  (3 credits)
Designed as an introduction to modern drama, this course is a study of some representative modern plays by such writers as Ibsen, Chekhov, Shaw, O'Neill, Williams, Synge, Beckett and Pinter.
NOTE: This course may not be taken for credit with ENGL 392.

ENGL 237  Children's Literature  (6 credits)
A survey and analysis of literature for children, undertaken with the aim of developing a critical vocabulary, and of arriving at workable standards of assessment. The kinds of literature discussed include works written for adults, but traditionally read by children as well, works specifically written or adapted for children, fairy tales, and other children's versions of folklore and myth, nursery rhymes, and other children's verse. The course will be of general interest to students of literature, and should prove especially helpful to those who teach children in the schools.

ENGL 238  Canadian Children's Literature  (3 credits)
This course examines the ways in which elements of the Canadian experience, such as language, setting, folklore, and history, have contributed to the content and tradition of children's literature in Canada.

ENGL 248  Women Reading/Writing: Feminist Literary Criticism  (6 credits)
This course conducts a historical and critical investigation of women's writing. It explores the relationships between women's experiences and ideologies of gender, on the one hand, and literary themes, conventions, and the institutions of literary production, on the other. The course also familiarizes students with the theoretical frameworks which inform the study of women in culture and society. Issues of interest include: writing and women's history; gender and reading; the Lesbian literary tradition; the intersections of race, class and gender; psychoanalysis and feminism; feminist-materialist theory; subjectivity and subjection.

ENGL 254  Psychology and Literature  (6 credits)
A study of the relationship between the basic theories of psychology or psychoanalysis and literature through a consideration of selected literary works, such as novels, poems, dramas, and fairy tales.

ENGL 255  Translation  (6 credits)
Prerequisite: Fluency in both French and English. Intensive work to improve the student's skill at translating a variety of texts from French to English. Emphasis is placed on non-literary texts. Training is given in style and idiom. The course helps the student gain proficiency in rendering a variety of French texts into idiomatic English prose.

ENGL 256  Major Writers in English  (6 credits)
An introduction to major periods of English literature through the study of such representative authors as Chaucer, Shakespeare, Marlowe, Jonson, Donne, Milton, Swift, Pope, Blake, Coleridge, Wordsworth, Keats, Shelley, Dickens, Hardy, Browning, Tennyson, Conrad, Lawrence, Yeats, Eliot, Woolf, Joyce.
NOTE: This course may not be taken for credit with ENGL 257 or 258.

ENGL 257  Introduction to English Literature I  (3 credits)
An introduction to Chaucer, Spenser, Shakespeare, Milton, and other major English authors of the Middle Ages and the sixteenth and seventeenth centuries.
NOTE: This course may not be taken for credit with ENGL 256 and 258.

ENGL 258  Introduction to English Literature II  (3 credits)
A continuation of ENGL 257. An introduction to Swift, Pope, Wordsworth, Tennyson, Yeats, T.S. Eliot, and other major English authors of the eighteenth, nineteenth and twentieth centuries.
NOTE: This course may not be taken for credit with ENGL 256.

ENGL 260  Myth and Ideas in Literature  (6 credits)
The sources, literary development, and continuing functions of some of the myths which generate our ideas, and some of the ideas which rationalize our myths. In various years the emphasis may be off the history, structure, or continuing creation of myth and idea.
NOTE: Students who have received credit for ENGL 259 may not take this course for credit.

ENGL 262  Medieval Literature in Translation  (6 credits)
An introductory study of some major works in England and Europe between 400 and 1400, beginning with St. Augustine, and including examples of epic, Grail literature, and courtly romance such as Beowulf, The Song of Roland, The Old, Chrétien de Troyes' Parsifal, Tristan and Isolde, The Romance of the Rose, and parts of Dante's Divine Comedy.

ENGL 263  European Literature from the Middle Ages to the Onset of Modernism  (6 credits)
A study of some of the classical works of European literature from Dante to Dostoevsky, including such writers as Boccaccio, Rabelais, Cervantes, Rousseau, and Goethe, with emphasis on evolving cultural patterns leading from Faith to Reason, and beyond.

ENGL 267  The Origins of Drama  (6 credits)
An introductory study of Greek and Roman dramatists, and the medieval drama, both English and Continental. The course is concerned with dramatic types, theory and form, and with the significance of this drama to the later English stage.
ENGL 268 Masterpieces of English Literature before 1603 (6 credits)
An introduction to the origin and development of English literature in the Old English, Medieval, and Tudor periods, through a reading of Beowulf (in translation), and authors such as Chaucer, Malory, Spenser, More, and Marlowe.
NOTE: This course may not be taken for credit with ENGL 257 and ENGL 318.

ENGL 271 Critical Reading (3 credits)
A course in practical criticism and evaluation of a variety of literary texts. Students develop their ability to respond to literature clearly and precisely.

ENGL 273 Fiction (3 credits)
A study of the novel as a literary genre through the reading of novels by authors such as Defoe, Fielding, Austen, Dickens, and Joyce.

ENGL 275 Poetry (3 credits)
A study of poetry and its forms, with emphasis upon the art of close reading.

ENGL 277 Drama (3 credits)
A study of a varied selection of plays from both a historical and a generic point of view that introduces students to the problems and delights of reading, visualizing, making and seeing plays.

ENGL 280 Short Fiction (3 credits)
A study of forms and techniques of the short story, the novella, and what have come to be called in contemporary literature, "fictions".

ENGL 281 Tragedy (6 credits)
A study of the varieties of tragic form and sensibility in Western literature. The course includes writers chosen from antiquity to the present, both inside and outside the English tradition, such as Shakespeare, Euripides, Hardy, Tolstoy, Webster, Racine, Faulkner, Buchner, Rilke, and Chekhov.

ENGL 282 Comedy (6 credits)
A study of the nature and varieties of comic form and sensibility in Western literature. The course includes writers chosen from antiquity to the present, both inside and outside the English tradition, such as Aristophanes, Cervantes, Jonson, Molière, Sterne, Gogol, Leacock, Amis, and Muriel Spark.

ENGL 283 Satire (6 credits)
A study of the nature and varieties of satire. The course includes writers chosen from antiquity to the present, both inside and outside the English tradition, such as Juvenal, Lucian, Chaucer, Erasmus, Swift, Voltaire, Orwell, Waugh, Beckett, Roth, Richler, and Grass.

ENGL 284 Critical Approaches to Literature (6 credits)
The practical application to selected works of literature of some of the fundamental methods of criticism such as the psychological, sociological, formalist, archetypal and structural.

ENGL 290 Canadian Literature (6 credits)
An introductory survey of Canadian prose and poetry, written in or translated into English, from their origins to the present.
NOTE: This course may not be taken for credit with either ENGL 291 or 292.

ENGL 293 Recent Experiments in Canadian Writing (3 credits)
A study of recent works of poetry, fiction, and drama, some of which break with traditional notions of genre, form and content. Attention is paid to the works of authors such as Kroetsch, Ondaatje, Kogawa, Findlay, Walker, Tremblay and Marlatt.

ENGL 298 Selected Topics in English (3 credits)
ENGL 299 Selected Topics in English (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ENGL 300 American Literature (6 credits)
A survey of the literature of the United States, beginning with the early writers and their optimistic vision of a new society, and studying such problems as the transformation and inversions of the "American Dream" in such writers as Poe, Hawthorne, Melville, Twain, Whitman, and Fitzgerald.
NOTE: This course may not be taken for credit with ENGL 301 or 311.

ENGL 301 American Literature: Nineteenth Century (3 credits)
A study of major nineteenth-century American writers such as Poe, Thoreau, Emerson, Hawthorne, Melville, Whitman, and Dickinson.
NOTE: This course may not be taken for credit with ENGL 300.
ENGL 303  Modern American Literature  (3 credits)
A study of American literature in the first half of the century by authors such as Fitzgerald, Faulkner, Richard Wright, O'Connor, H. D., Stevens, William Carlos Williams, Moore, O'Neill, and Tennessee Williams.
NOTE: This course may not be taken for credit with ENGL 311.

ENGL 305  Modern European Literature  (6 credits)
A survey of some of the major European writers (in translation) of the last hundred years, including such writers as Dostoevsky, Kafka, Mann, Strindberg, Valéry, Pirandello, Sartre, de Beauvoir, and Brecht.

ENGL 306  Modern British and American Literature  (6 credits)
A study of works in English from what has now emerged as the "Modern" period, extending from the turn of the century to World War II, and including such writers as Conrad, Joyce, Lawrence, Eliot, Yeats, Dylan Thomas, Stevens, Hemingway, Faulkner, Frost, Mansfield, and Bowen.
NOTE: Students who have received credit for ENGL 304 may not take this course for credit.

ENGL 307  Modern Fiction I  (3 credits)
A study of major American and European fiction writers of the earlier modern period, such as Melville, Dostoevsky, Tolstoy, James, Kafka, Joyce, Mann, and Faulkner.
NOTE: Students who have received credit for ENGL C297 may not take this course for credit.

ENGL 308  Modern Fiction II  (3 credits)
A study of major American and European fiction writers of the later modern period such as Malraux, Camus, Flannery O'Connor, Solzhenitsyn, Bellow, Pynchon, Marquez, and Calvino.
NOTE: Students who have received credit for ENGL C298 may not take this course for credit.

ENGL 309  Contemporary American Literature  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of American Literature in the last half of the century by authors such as Burroughs, Bellow, Barthelme, Morrison, Plath, Bishop, Ashbery, Albee, Mamet, and Shepard.
NOTE: This course may not be taken for credit with ENGL 311.
NOTE: Students who have received credit for ENGL 319 may not take this course for credit.

ENGL 310  Chaucer  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of the major poetry of Chaucer, emphasizing The Canterbury Tales and Troilus and Criseyde.

ENGL 311  American Literature: Twentieth Century  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of American Literature in the last half of the century by authors such as Burroughs, Bellow, Barthelme, Morrison, Plath, Bishop, Ashbery, Albee, Mamet, and Shepard.
NOTE: This course may not be taken for credit with ENGL 303 and ENGL 309.
NOTE: Students who have received credit for ENGL 302 may not take this course for credit.

ENGL 315  Sixteenth-Century Literature  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of sixteenth-century literature as represented by such writers as Wyatt, Sidney, Spenser, More, Bacon, and Marlowe; and by drama to revenge tragedy.
NOTE: This course may not be taken for credit with ENGL 316 and 317.

ENGL 316  Spenser  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. This course is intended to examine Spenser's works — The Amoretti and The Faerie Queene in particular — and their relations to the pertinent literary traditions, both English and continental.

ENGL 317  Elizabethan Prose and Poetry  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. Significant works of Elizabethan non-dramatic literature are studied both as individual creations and as samples of the most important trends in non-dramatic verse and prose of the time.
NOTE: This course may not be taken for credit with ENGL 315.

ENGL 318  English Renaissance Drama  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. The golden age of English drama from 1485 to 1642; the Tudor interlude; the development of comedy, tragedy and other dramatic forms in the Elizabethan and Jacobean periods. Plays are selected from authors such as Peele, Kyd, Greene, Marlowe, Chapman, Dekker, Middleton, Jonson, Beaumont and Fletcher, Webster, Marston, Ford, and Shirley. Some consideration is given to Shakespeare.
NOTE: This course may not be taken for credit with ENGL 235.

ENGL 320  Shakespeare  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of Shakespeare's artistic achievement and its background. Works are chosen from different periods and genres.
ENGL 326  Seventeenth-Century Literature  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. This course places major emphasis on the poetry of Milton. Poetry and prose are selected from among such writers as Jonson, Donne, Herbert, Browne, Marvell, and Herrick.
NOTE: This course may not be taken for credit with ENGL 327 or 328.

ENGL 327  Seventeenth-Century Poetry  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of the lyrics of such poets as Jonson, Donne, Herbert, Marvell, and Traherne.
NOTE: This course may not be taken for credit with ENGL 326.

ENGL 328  Milton: Paradise Lost  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. This course studies Paradise Lost in detail and may include a consideration of other works by Milton.
NOTE: This course may not be taken for credit with ENGL 326.

ENGL 329  Milton II: Paradise Regained, and Other Writings  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. This course examines Milton’s work in a variety of genres: tragedy (Samson Agonistes), post-1645 sonnets, epic (Paradise Regained), and selections from the prose essays and tracts.

ENGL 332  Literature of the Restoration and Eighteenth Century  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of poetry and prose from the 1660’s to the 1780’s, including such major writers as Dryden, Swift, Pope, and Johnson.
NOTE: A maximum of 6 credits may be taken from ENGL 332, 333, and 334.

ENGL 333  Literature of the Restoration and Early Eighteenth Century  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. Major Augustan authors, including Dryden, Swift, and Pope.
NOTE: A maximum of 6 credits may be taken from ENGL 332, 333, and 334.

ENGL 334  Eighteenth-Century Literature  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of major authors of the eighteenth century, such as Swift, Richardson, Fielding, and Johnson.
NOTE: A maximum of 6 credits may be taken from ENGL 332, 333, and 334.

ENGL 335  Restoration and Eighteenth-Century Drama  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of the English stage from Dryden to Sheridan, including such dramatists as Etherege, Otway, Wycherley, Vanbrugh, Congreve, Gay, Lillo, and Goldsmith.

ENGL 338  Literature of the Romantic Period  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of poetry and prose, chiefly that of Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats.
NOTE: A maximum of 6 credits may be taken from ENGL 338, 339, and 340.

ENGL 339  The Romantics I  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. The course surveys the major poets of the first part of the Romantic period (Blake, Wordsworth, Coleridge), with historical background and emphasis on the common technical and thematic elements of Romantic poetry.
NOTE: A maximum of 6 credits may be taken from ENGL 338, 339, and 340.

ENGL 340  The Romantics II  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. The course surveys the major poets of the second part of the Romantic period (Byron, Shelley, and Keats), with historical background and emphasis on the common technical and thematic elements of Romantic poetry.
NOTE: A maximum of 6 credits may be taken from ENGL 338, 339, and 340.

ENGL 342  Victorian Literature  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of English poetry and prose from the 1830’s to the end of the nineteenth century, including such major writers as Tennyson, R. Browning, Hopkins, Carlyle, Gaskell, Ruskin, Dickens, Thackeray, and George Eliot.
NOTE: A maximum of 6 credits may be taken from ENGL 342, 343, and 344.

ENGL 343  Victorian Prose  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of Victorian prose writers such as Dickens, George Eliot, Thackeray, Carlyle, Newman, Arnold, and Mill.
NOTE: A maximum of 6 credits may be taken from ENGL 342, 343, and 344.

ENGL 344  Victorian Poetry  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of Victorian
poets such as Tennyson, Browning, Hopkins, Swinburne, and Hardy. 

NOTE: A maximum of 6 credits may be taken from ENGL 342, 343, and 344.

ENGL 347 English Fiction from Defoe to Scott (6 credits)
A study of the origins and early development of English fiction, focussing on such forms as the epistolary, the picaresque, the Gothic and the historical novel, and such writers as Defoe, Fielding, Richardson, Smollett, Sterne, Radcliffe, Burney, Godwin, Mary Shelley, Edgeworth, Austen and Scott.

ENGL 348 English Fiction from Dickens to Hardy (6 credits)
This course stresses the development and diversity of the Victorian novel through a study of works by such writers as Dickens, Gaskell, the Brontës, Thackeray, Eliot, Trollope, Meredith and Hardy. Some attention may be given to the growth of experimental, non-realistic and popular forms of fiction such as the fantasy, the mystery and the adventure.

ENGL 352 Late Victorian Literature (3 credits)
In nineteenth-century art we find both witty sophistication and anxiety at the collapse of traditional values. Writers such as Butler, Hopkins, Pater, early James, Wilde, and Gissing are considered as they respond in various ways to their age and a sense of imminent crisis.

NOTE: Students who have received credit for ENGL 350 may not take this course for credit.

ENGL 353 English Literature from the Edwardian Era to World War I (3 credits)
A study of the traditionalism and experimentation characteristic of the literature of this period. Writers such as the later James, Conrad, Madox Ford, Forster, Shaw, Wells, Rebecca West, the early Lawrence, early Woolf, Housman, and Wilfred Owen are considered.

NOTE: Students who have received credit for ENGL 350 may not take this course for credit.

ENGL 355 Yeats and Joyce (3 credits)
This course focuses on Yeats and Joyce in the context of their Anglo-Irish contemporaries.

NOTE: Students who have received credit for ENGL 354 may not take this course for credit.

ENGL 356 Twentieth-Century British Literature (6 credits)
A study of twentieth-century British authors such as Joyce, Yeats, Woolf, Shaw, E.M. Forster, Waugh, T.S. Eliot, Auden, and Lessing.

NOTE: This course may not be taken for credit with ENGL 357 or 358.

NOTE: Students who have received credit for ENGL 286 may not take this course for credit.

ENGL 357 Modern British Literature (3 credits)
A study of modern British authors, such as Hardy, Hopkins, Conrad, Lawrence, E.M. Forster, Woolf, Yeats, and T.S. Eliot.

NOTE: This course may not be taken for credit with ENGL 356.

NOTE: Students who have received credit for ENGL 287 may not take this course for credit.

ENGL 358 Contemporary British Literature (3 credits)
A study primarily of post-World War II British authors such as Auden, Thomas, Beckett, Pinter, Lessing, and Murdoch.

NOTE: This course may not be taken for credit with ENGL 356.

NOTE: Students who have received credit for ENGL 288 may not take this course for credit.

ENGL 359 Twentieth-Century British Drama (3 credits)
A study of the plays of major British dramatists from the early part of the century to the present, such as Shaw, Wesker, Osborne, Bond, Pinter, Orton, and Churchill.

ENGL 360 Commonwealth and Third-World Literature Written in English I (3 credits)
Selected novels, short stories, and the poetry from West Africa, East Africa, and the Caribbean.

NOTE: Students who have received credit for ENGL 295 may not take this course for credit.

ENGL 361 Commonwealth and Third-World Literature Written in English II (3 credits)
Selected novels, short stories, and poetry from South Africa, Zimbabwe, India, Australia, and New Zealand.

NOTE: Students who have received credit for ENGL 296 may not take this course for credit.

ENGL 365 Twentieth-Century American Fiction (3 credits)
A study of major American fiction writers from the beginning of the century to the present, such as Dreiser, Dos Passos, Cather, Hemingway, Steinbeck, Faulkner, O'Connor, Morris, and Barth.

NOTE: Students who have received credit for ENGL 363 or 364 may not take this course for credit.

ENGL 366 Twentieth-Century British Fiction (3 credits)
A study of the works of major British fiction writers from the early part of the century to the present, such as Conrad, Forster, Waugh, Woolf, Lawrence, Spark, Murdoch, and Drabble.

ENGL 367 American Poetry (3 credits)
A study of the theory and practice of the major American poets since the mid-nineteenth century. Particular emphasis is placed on poets such as Whitman, Dickinson, Frost, Cummings, Williams, Stevens, Pound, Crane, Eliot, and H.D., with some attention paid to developments in contemporary poetry as well.
The course offers a historical survey of women’s writing in a variety of genres: novelistic fiction, poetry, personal prose, drama, and polemical exposition. While considering individual works in terms of their formal and thematic properties, and in the context of social and literary history, the course also pursues a feminist interrogation of the issues described in ENGL 248. Writers studied may include: Anne Finch, Aphra Behn, Mary Wollstonecraft, Jane Austen, the Brontës, Susanna Moodie, Elizabeth Barrett Browning, George Eliot, Emily Dickinson, Kate Chopin.  

NOTE 1: Students are strongly advised to take ENGL 248 before taking this course.

NOTE 2: Students who have received credit for ENGL 251 may not take this course for credit.

ENGL 382 Women’s Writing in the Twentieth Century (3 credits)  
The course surveys twentieth-century writing by women, primarily in fiction, poetry and drama. While considering these contemporary works in terms of their formal and thematic properties, and in the context of social and literary history, the course also pursues a feminist interrogation of the issues described in ENGL 248. Writers studied may include: Gertrude Stein, Virginia Woolf, H.D., Dorothy Livesay, Adrienne Rich, Sylvia Plath, Doris Lessing, Sharon Pollack, Alice Munro, Toni Morrison.

NOTE 1: Students are strongly advised to take ENGL 248 before taking this course.

NOTE 2: Students who have received credit for ENGL 252 may not take this course for credit.

ENGL 384 Studies in Rhetoric (3 credits)  
An inquiry into the nature and function of rhetoric, the art of convincing others, through an examination of such influential classical rhetoricians as Aristotle, Cicero, and Quintilian, as well as the place of rhetoric in contemporary critical discourse. This course offers, through written exercises, practical experience in the development of rhetorical techniques.

NOTE: Students who have received credit for ENGL 215 may not take this course for credit.

ENGL 385 The Bible and English Literature (6 credits)  
A study of the literary handling of Biblical material and the literary uses of Biblical allusion in English Literature by authors such as Milton, Bunyan, Blake, Byron, and T.S. Eliot.

ENGL 387 The Aesthetic and Religious Experience in Literature (6 credits)  
An interdisciplinary course which explores the relationships between literature and religion through practical criticism, literary theory, aesthetics, and theology.

ENGL 388 History of Criticism and Literary Theory (3 credits)  
A study of the major theories of criticism in their historical and literary contexts from the Classical Period to the mid-twentieth century. Texts are chosen from among such representative writers as Aristotle, Quintilian, Dante, Tasso, Sidney, Dryden, Johnson, Lessing, Coleridge, Arnold, James, Richards, Eliot, Leavis.

ENGL 389 Contemporary Critical Theory (3 credits)  
Prerequisite: At least nine credits in Period courses, three of these nine credits in the Twentieth Century. ENGL 305, 307, 308, 355, 369, 371, 372, 379, 390, 392, 450. An examination of various contemporary critical theories: Formalist, deconstructionist, Marxist, feminist, phenomenological, psy-
choanalytical. Texts are chosen from the writings of such theorists as Bakhtin, Frye, Todorov, Booth, Bachelard, Barthes, Foucault, Derrida, Kristeva, Jameson.

ENGL 390  **Modern Poetry**  (6 credits)
An examination of the characteristic elements of twentieth-century poetry, in the context of a study of such poets as Yeats, Eliot, Pound, Stevens, Rilke, Celan, Birney, Avison, and Bowering.

ENGL 392  **Modern Drama**  (6 credits)
A study of the main currents in Western drama since Ibsen. This course includes such representative playwrights as Chekhov, Lorca, Strindberg, Pirandello, O'Neill, Brecht, Pinter, Beckett, and Weiss. **NOTE:** This course may not be taken for credit with ENGL 236.

ENGL 393  **History and Structure of the English Language**  (3 credits)
The course deals with the linguistic and historic development of the English language. The influence of language changes upon the literature is also considered.

ENGL 394  **English Prose Style**  (3 credits)
This course is designed to introduce students to the experience and assessment of the subtleties and varieties of prose style within the English tradition. It includes selections from the works of distinguished prose stylists.

ENGL 395  **Science Fiction**  (6 credits)
An exploration of the varieties and nature of science fiction from H.G. Wells to Ursula LeGuin. Readings include examples of English and American science fiction and translations of foreign works. Among the authors studied are Huxley, Orwell, Zamyatin, Jack London, Capek, Borges, Calvino, and Lem.

ENGL 396  **Advanced Composition**  (6 credits)
Prerequisite: ENGL 211 previously or ENGL 212, ENGL 213. This course is designed for students already in control of the basic techniques of composition and who wish to perfect their ability to write clearly and effectively for business and professional purposes. **NOTE 1:** Students who have received credit for this course may not subsequently take any ESL course or ENGL 205, 206, 209, 212 or 213. **NOTE 2:** Unless ENGL 212 and ENGL 213 have been completed previously, students must take a placement test before registering for this course.

ENGL 398  **Selected Topics in English**  (3 credits)
ENGL 399  **Selected Topics in English**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ENGL 410  **Non-Fiction Writing**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature, ENGL 225 or ENGL 226 or ENGL 227, or permission of the Department. A workshop for students who intend to become professional writers of the forms of non-fiction (such as journals, personal essays, biographies, autobiographies, and reviews).

ENGL 411  **Script Writing for Radio, Screen, and Television**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature, ENGL 225 or ENGL 226 or ENGL 227, or permission of the Department. A workshop for the composition and development of creative scripts for radio, screen, and television. In any one year, the course may concentrate on one or two of these areas.

ENGL 412  **Writing of Children’s Literature**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature, ENGL 225 or ENGL 226 or ENGL 227, or permission of the Department. A workshop in the writing of prose, poetry, and drama for children. This course involves an exploration of the literary techniques appropriate to the sensibilities of children and their world.

ENGL 413  **Editing, Publishing, and Creative Research**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature and permission of the Department. This course deals with such areas as magazines, small presses, and anthologies, that stimulate and promote literary activity. Emphasis is also given to the research problems peculiar to the creative writer.

ENGL 414  **Translation of Literary Texts**  (6 credits)
Prerequisite: Permission of the Department. Advanced workshop in the translation of literary texts. The emphasis is on re-creation in English of French source-texts, but other source-languages may be included, depending on the special competence of the instructor. Students are expected to be fluently bilingual and to have some experience in translating literary texts. The course is part of the Creative Writing programme and is not intended for students to upgrade their bilingualism.
ENGL 425  **Advanced Creative Writing: Poetry**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature, ENGL 225, or approved work. A workshop in the writing of poetry. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft.

ENGL 426  **Advanced Creative Writing: Prose**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature, ENGL 226, or approved work. A workshop in the writing of fiction. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft.

ENGL 427  **Advanced Creative Writing: Drama**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature, ENGL 227, or approved work. A workshop in the writing of plays. The students are expected to enter this course with competence in the fundamentals of the form, and to go on, by experimenting more fully with its material and techniques, to demonstrate their further progress in the craft.

ENGL 430  **Old English**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of the language and literature of the Anglo-Saxon era, chiefly of the *Beowulf* epic.

ENGL 432  **Middle English Literature**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A study of literature written in the English dialects from 1200 to 1500, including works such as *Sir Gawain and the Green Knight* and other romances, early lyrics, religious prose, drama, and selections from Layamon's *Arthurian Brut*, Langland's *Piers Plowman*, and Malory's *Morte D'Arthur*.

ENGL 440  **The Literatures of Canada and the United States**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. ENGL 290 or ENGL 300 or ENGL 301; ENGL 302. It is to the student's advantage to enter this course with knowledge of both literatures. Studies in common and contrasting problems in the two national literatures.

ENGL 450  **Honours Seminar**  (3 credits)
Prerequisite: Enrolment in Honours English, 24 credits in English and permission of the Department. Exceptional students not enrolled in Honours English may be admitted. The topics of the seminar vary from year to year. The seminars focus upon an oral presentation by each student.

ENGL 459  **Independent Studies**  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial programme arranged with a member of the Department.

ENGL 470  **Honours Essay**  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial programme arranged with a member of the Department.

ENGL 471  **Independent Studies**  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial programme arranged with a member of the Department.

ENGL 472  **Independent Studies**  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial programme arranged with a member of the Department.

ENGL 473  **Independent Studies**  (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial programme arranged with a member of the Department.

ENGL 474  **Honours Essay**  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial programme arranged with a member of the Department.

ENGL 477  **Advanced Stylistics**  (3 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. ENGL 271 or per-
mission of the Department. This course concentrates on the strategies of style through analytical study of the components of discourse such as diction, sentence structure, and paragraph formation.

**ENGL 490  Joint Tutorial in History and English** (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial for students in an English and History Joint Honours Programme.

**ENGL 491  Joint Tutorial in Modern Languages and English** (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A tutorial for students in an English and Modern Languages Joint Honours Programme.

**ENGL 496  Advanced Research and Thesis** (6 credits)
Prerequisite: Enrolment in an English programme or 9 credits in English Literature. A small number of seminars or tutorials on special themes and topics, to vary each year. Registration is limited to Honours students in their final year. All students must consult in advance with the Department.

**ENGL 498  Advanced Topics in English** (3 credits)

**ENGL 499  Advanced Topics in English** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

63 BA Specialization in French/English Translation

NOTE:

1. Enrolment in the BA Specialization in French/English Translation is limited. Since the nature of the programme requires competence in French and English, applicants are required to take an entrance examination. Priority of enrolment in translation courses at the 300 and 400 levels shall be given to students admitted to the Translation Programme.

2. Students admitted to the Translation Programme are required to achieve a C or better in all translation courses in order to proceed to the next level and to graduate. Students who obtain a passing grade that is below C will be placed on conditional standing within the programme and will be so informed in writing by the Chair of the Department. Students will be allowed to repeat the course(s) in question only once in order to achieve the required grade. (For the status of this grade as part of the student record, see §16.3.8 of University Calendar). Students who fail to repeat the course(s) within one year will be required to withdraw from the programme upon notification by the Chair of the Department. Students who obtain a failing grade in any of the translation courses will be required to withdraw from the programme and will be so informed in writing by the Chair of the Department.

OPTION A

Stage I

6 FRAN 402, 365 and 367, 400 and 413 or 406 and 407

NOTE: Un-e étudiant-e qui, à l'examen d'admission, n'a pas obtenu une note lui permettant d'entrer dans les cours de niveau 400 peut s'inscrire aux cours 302, 303, 306 et suivre les cours ci-dessus en 2ème année au plus tard.

6 ENGL 212 and 213

12 Littératures de langue française

1ère étape

6 FRAN 402, 365 and 367, 400 and 413 ou 406 et 407

6 ENGL 212 and 213

NOTE: Un-e étudiant-e qui n'est pas à ce niveau d'après l'examen d'admission peut
FRAN 200 French Language: Elementary I (3 credits)
This course is intended for students having no previous training in French. It includes a comprehensive introduction to the basic structures and vocabulary of French and should enable students to acquire an ability to speak and understand simple conversational French. Both oral and written aspects of the language are presented, with special emphasis on oral skills. Laboratory sessions are included.

FRAN 201 French Language: Elementary II (3 credits)
Prerequisite: FRAN 200 or equivalent. Continuation of the previous course.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.
Les cours du département ayant reçu de nouveaux numéros, les étudiant-e-s trouveront une liste d’équivalences à la section 200.1.

30 Certificate in Teaching French as a Second Language to Adults
Admission Requirements:
The programme is intended for all those who are now teaching or are intending to teach French as a Second Language in various adult settings and wish to improve their professional skills and qualifications. Candidates must have
- DEO or equivalent and some experience as a teacher or permission of the programme director
- FRAN 400 or equivalent
Candidates must take a test of proficiency in oral French and be able to follow TESL and ADED courses in English
6 Chosen from FRAN 262, 264, 265, 266, 267
3 Chosen from FRAN 467, 468, 469
3 FRAN 381
6 FRAN 382, 385
6 TESL 341, 415
3 ADED credits in consultation with the Department.
3 FRAN 488

NOTE: Prior to registration students must have written approval for their programme from an authorized member of the Department. Those students who wish to obtain both the Certificate in Teaching French as a Second Language to Adults and the Certificate in the Teaching of English as a Second Language must replace TESL 341 and TESL 415 by other courses with the approval of the Department.
Teaching practice completed with adults does not qualify students to be recommended for teacher certification.

Concordia students may transfer into the Certificate programme all applicable Concordia credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. Students from other institutions may transfer up to twelve applicable credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

24 Minor in French Language

An approved sequence of language courses commencing at a level higher than FRAN 203:
- A maximum of 18 credits from 204, 205, 206, 207, 208, 270, 271, 302, 303, 305, 306, 308, 310, 311, 312, 313, 316, 317, 318, 319, including a maximum of 6 credits "langue de spécialité" (310 to 319).
- The other credits shall be chosen from 264, 265, 266, 267, 384, 400, 401, 404, 405, 406, 407, 409, 410, 412, 413, 414, 415, 418, 419, 465, 467, 488.

NOTE: Prior to registration students must have written approval for their programme from the Department.

24 Minor in Littératures de langue française

Elective credits in Littératures de langue française chosen in consultation with the Department.

NOTE: Prior to registration students must have written approval for their programme from an authorized member of the Department.

30 Certificate in French Language

An approved sequence of courses commencing at a level higher than FRAN 201.
A minimum of 6 credits will be chosen from:

NOTE: Prior to registration students must have written approval for their programme from the Department.
FRAN 202  **Langue française: niveau de transition I**  (3 crédits)
Préalable: FRAN 201 ou l'équivalent. Ce cours s'adresse aux étudiant-e-s ayant suivi soit un an de français à l'université ou au niveau collégial, soit deux ans de français à l'école secondaire, ou l'équivalent. Ce cours permet aux étudiant-e-s d'accéder à un niveau de compréhension et d'expression suffisant pour communiquer en français oralement et par écrit avec une certaine assurance. Par l'utilisation de techniques de conversation dirigée, de travail systématique en classe et au laboratoire et d'exercices écrits, les étudiant-e-s acquerront un répertoire de structures et un vocabulaire plus étendu. 

FRAN 203  **Langue française: niveau de transition II**  (3 crédits)
Préalable: FRAN 202 ou l'équivalent. Suite du cours précédent.

FRAN 204  **Langue française: niveau intermédiaire I**  (3 crédits)
Préalable: FRAN 203 ou l'équivalent. Ce cours s'adresse aux étudiant-e-s ayant suivi soit 4 ans de français à l'école secondaire, soit 2 ans de français à l'université ou au niveau collégial ou l'équivalent. Par une étude et une pratique intensive des tournures du français courant, l'étudiant-e pourra acquérir l'aisance nécessaire à une communication orale et écrite spontanée. Le cours fournira également quelques aperçus sur le mode de vie des francophones.

FRAN 205  **Langue française: niveau intermédiaire II**  (3 crédits)
Préalable: FRAN 204 ou l'équivalent. Suite du cours précédent.

FRAN 206  **Cours de grammaire niveau intermédiaire I**  (3 crédits)
Préalable: FRAN 203 ou l'équivalent. Ce cours s'adresse en particulier aux étudiant-e-s parlant français avec une certaine aisance et qui voudraient améliorer leur expression écrite par une étude des règles fondamentales de la grammaire et par de nombreux travaux pratiques.

FRAN 207  **Cours de grammaire niveau intermédiaire II**  (3 crédits)
Préalable: FRAN 206 ou l'équivalent. Suite du cours précédent.

FRAN 208  **L'art de vivre au Québec I**  (6 crédits)
Préalable: FRAN 203 ou l'équivalent. Cours intensif qui a pour but principal de permettre à l'étudiant-e de niveau intermédiaire de s'intégrer au milieu québécois, au moyen de discussions et d'activités dirigées par un-e professeur-e et animées par des moniteurs-trices-étudiant-e-s francophones. Pratique systématique du français en classe. Participation en petits groupes à des activités culturelles dépassant le cadre scolaire.

NOTE: Les étudiant-e-s qui ont suivi FRAN 300 ne peuvent obtenir de crédits pour ce cours.

FRAN 220  **Littérature moderne**  (6 crédits)
Préalable: FRAN 205 ou l'équivalent. Au moyen d'un choix de nouvelles, romans, pièces de théâtre, et poèmes de la francophonie, l'étudiant-e apprendra "lire", et à apprécier les caractéristiques des différents genres.

FRAN 221  **Le français par les textes littéraires I**  (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Étude de la langue fondée sur l'examen de textes littéraires courts: poèmes, contes, articles, lettres, scènes de théâtre, etc. Exercices d'analyse et de composition.

FRAN 222  **Le français par les textes littéraires II**  (3 crédits)
Préalable: FRAN 221 ou l'équivalent. Étude de la langue fondée sur l'examen de textes littéraires longs: romans, essais, pièces de théâtre. Exercices d'analyse et de création.

FRAN 250  **Littérature québécoise en traduction**  (3 crédits)
Étude de la littérature québécoise en traduction, surtout du point de vue de l'écriture (vocabulaire, style, images, etc.). Étude de textes sur le plan thématique, linguistique, stylistique, et structural. Analyse des meilleures traductions disponibles. Travaux pratiques en traduction, compositions, recherches. 

Textes: Bessette, Le libraire; Biais, La Belle Bête; Theriault, Agaguk; Hébert, Kamouraska, etc.

NOTE: Ce cours n'est pas crédité dans les programmes de mineure, de majeure, de BA spécialisé, et d'honneurs en littérature québécoise.

FRAN 251  **Culture et civilisation québécoises**  (6 crédits)
La culture et la civilisation québécoises vues à travers une de leurs expressions particulières: la littérature. Étude des grandes étapes de la production littéraire avec, comme toile de fond, un aperçu général de l'histoire politique, économique, sociale, et culturelle du Québec. Étude des principaux courants de pensée dans le Québec d'hier et d'aujourd'hui: l'expression littéraire comme reflet du mouvement de libération et du processus de décolonisation québécois. Ce cours vise en outre à ce que les étudiants entrent en contact avec diverses manifestations culturelles québécoises: théâtre, chanson, cinéma, etc.

NOTE: Les étudiant-e-s qui ont suivi FRAN 252 et/ou 253 ne peuvent obtenir de crédits pour ce cours.

FRAN 252  **Culture et civilisation québécoise I**  (3 crédits)
Panorama de la littérature québécoise, de la Nouvelle-France à la fin du 19e siècle, vu dans une perspective socio-historique. Par l'étude de textes significatifs, on retracera le processus historique de différenciations et d'unification de la conscience québécoise.
FRAN 253   Culture et civilisation québécoise II (3 crédits)
Panorama de la littérature québécoise du 20e siècle vu dans une perspective socio-historique. Étude des grandes étapes de la production littéraire avec, comme toile de fond, un aperçu général de l'histoire politique, économique, sociale et culturelle du Québec. Étude des principaux courants de pensée.
NOTE: Les étudiant-e-s qui ont suivi FRAN 251 ne peuvent obtenir de crédits pour ce cours.

FRAN 254   Langue et condition des femmes au Québec I (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Ce cours vise deux objectifs: examiner les différents aspects de la condition des femmes au Québec (évolution, débat actuel, etc.) et permettre à l'étudiant-e de se donner la compétence langagière en vue d'une participation au débat sur la condition féminine. Le cours sera structuré autour de certains thèmes ou dossiers tels que: le rôle des organismes politiques, gouvernementaux et syndicaux dans le débat; les questions d'actualité sociale concernant la femme: la publicité féminine, la femme et la politique, la femme au foyer et la femme au travail, la femme et les arts, la santé des femmes, la pornographie, le viol, la violence, etc.
NOTE: Les étudiant-e-s francophones ne peuvent s'inscrire à ce cours. Les étudiant-e-s qui ont suivi FRAN 312 ne peuvent obtenir de crédits pour ce cours.

FRAN 255   Langue et condition des femmes au Québec II (3 crédits)
Préalable: FRAN 206 ou l'équivalent. Ce cours vise des objectifs semblables à ceux du cours FRAN 254 et obéit aux mêmes principes. Le choix des thèmes sera toutefois différent.
NOTE: Les étudiant-e-s francophones ne peuvent s'inscrire à ce cours. Les étudiant-e-s qui ont suivi FRAN 313 ne peuvent obtenir de crédits pour ce cours.

FRAN 256   Littératures de la francophonie I: le Maghreb (3 crédits)
Cours d'introduction à la littérature d'expression française de l'Algérie, du Maroc et de la Tunisie. Le but de ce cours est de familiariser l'étudiant-e avec le corpus littéraire qui apparaît en Afrique du Nord sous l'influence de la France, mais véhicule une culture de type essentiellement arabo-berbère. Textes choisis dans les œuvres de Mouloud Feraoun, Mohammed Dib, Mouloud Mammeri, Kaleb Yacine, Rachid Boudjedra, Assia Djebar, Aïcha Lemsine, Driss Chraibi, Tahar Ben Jelloun, Albert Memmi, Mustapha Tili, etc.

FRAN 257   Littératures de la francophonie II: l'Afrique noire (3 crédits)
Cours d'introduction à la littérature négo-africaine. Étude des principaux-âges écrivain-e-s noir-e-s depuis le mouvement de la "négritude" jusqu'à nos jours. D'abord anticolonialiste, puis, après les indépendances, franchement contestataire, cette littérature sera étudiée en fonction de l'histoire récente de l'Afrique et surtout de la grande mutation des années soixante. Textes choisis parmi les œuvres de Léopold Sédar Senghor, Aimé Césaire, Yambo Ouologuem, Mongo Béti, Sembe Ousmane, Camara Laye, Tohïcaya U Tam'Si, Ferdinand Oyono, Sony Labou Tansi, etc.

FRAN 262   Introduction à la linguistique française (6 crédits)

FRAN 264   Phonétique I (3 crédits)

FRAN 265   Phonétique II (3 crédits)

FRAN 266   Introduction à la linguistique française I (3 crédits)
Préalable: FRAN 303 ou l'équivalent. Introduction à l'analyse descriptive de la structure linguistique du français contemporain. Aperçu des aspects phonémiques, morpho-syntaxiques et lexicaux de la langue considérée comme un système. Applications théoriques et pratiques.
NOTE: Les étudiant-e-s qui ont suivi FRAN 262 ne peuvent obtenir de crédits pour ce cours.

FRAN 267   Introduction à la linguistique française II (3 crédits)
Préalable: FRAN 266 ou l'équivalent. Suite du cours FRAN 266.
NOTE: Les étudiant-e-s qui ont suivi FRAN 262 ne peuvent obtenir de crédits pour ce cours.

FRAN 269   Histoire de la langue française (3 crédits)
Préalable: FRAN 303 ou l'équivalent. Le but de ce cours est de familiariser l'étudiant-e avec les grands
moments de la langue (Concile de Tours, Édit de Villers Cotterêts, etc.) afin de lui donner une vue panoramique et diachronique de l'évolution du français.

NOTE: Les étudiant-e-s qui ont suivi FRAN 384 ne peuvent obtenir de crédits pour ce cours.

FRAN 270 Introduction à l'histoire de la culture et de la civilisation françaises I (3 crédits)
Abondamment illustré de projections, ce cours a pour but essentiel d'amener les étudiant-e-s à replacer la littérature dans son contexte historique, social, politique, et artistique.

FRAN 271 Introduction à l'histoire de la culture et de la civilisation françaises II (3 crédits)
Suite chronologique du cours FRAN 270.

FRAN 298 Étude d'un sujet particulier (3 crédits)
FRAN 299 Étude d'un sujet particulier (6 crédits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

FRAN 302 Langue française: niveau d'approfondissement I (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Le cours d'approfondissement est destiné aux étudiant-e-s qui possèdent déjà une bonne connaissance du français et qui ont besoin d'améliorer leur expression écrite et orale. Pratique de la lecture, de la rédaction et de la grammaire.

FRAN 303 Langue française: niveau d'approfondissement II (3 crédits)
Préalable: FRAN 302 ou l'équivalent. Suite du cours FRAN 302.

FRAN 305 Communication orale (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Étude des caractéristiques propres à la langue orale et au déroulement du discours. Initiation à l'identification des niveaux de langue et aux aspects affectifs et situationnels de la langue parlée. Présentations théoriques et applications pratiques sous forme d'exercices d'expression et de compréhension reliés à l'analyse de documents authentiques.

FRAN 306 Communication écrite (3 crédits)
Préalable: FRAN 205 ou équivalent. Pratique des diverses formes de l'expression écrite par la rédaction de nombreuses compositions choisies pour améliorer progressivement l'aisance de l'étudiant-e, dans la narration particulièrement.

FRAN 308 L'art de vivre au Québec II (6 crédits)
Préalable: FRAN 206 ou l'équivalent. Suite du cours FRAN 208. Ce cours intensif a pour but d'amener l'étudiant-e à approfondir la matière du cours précédent. Les objectifs visés et les moyens pédagogiques mis en œuvre sont donc semblables à ceux du cours FRAN 208. Le cours s'adresse aux étudiant-e-s de niveau d'approfondissement.

FRAN 310 Le français de la récréologie, de l'éducation physique et des sports I (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Cours destiné aux étudiant-e-s qui travaillent déjà ou qui se préparent à œuvrer dans le domaine de la récréologie et des sports. Les thèmes étudiés comprennent le conditionnement physique, le rôle du sport dans la société, le reportage sportif, l'organisation des loisirs dans la ville et dans la nature, etc. L'acquisition du vocabulaire, des structures, et des niveaux de langage choisis en fonction de ces thèmes se fera en situations de travail simulées, par la pratique et la discussion à partir de documents authentiques et par une recherche individuelle.

FRAN 311 Le français de la récréologie, de l'éducation physique et des sports II (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Suite du cours FRAN 310.

FRAN 312 Le français des sciences sociales I (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Ce cours s'adresse aux étudiant-e-s qui désirent participer activement en français à la vie politique et aux activités communautaires du Québec d'aujourd'hui. Les thèmes étudiés incluent les organismes politiques, gouvernementaux, et syndicaux, et leurs rôles respectifs, ainsi que les questions d'actualité sociale concernant la femme, la famille, etc. Par des lectures et recherches individuelles, discussions, débats, et simulation de situations authentiques, les étudiant-e-s pourront acquérir la compétence langagière nécessaire pour jouer un rôle actif dans la société qui les entoure.

NOTE: Les étudiant-e-s qui ont suivi FRAN 254 ne peuvent obtenir de crédits pour ce cours.

FRAN 313 Le français des sciences sociales II (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Suite du cours FRAN 312.

NOTE: Les étudiant-e-s qui ont suivi FRAN 255 ne peuvent obtenir de crédits pour ce cours.

FRAN 316 Le français de la bibliothéconomie I (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Ce cours est destiné aux étudiant-e-s qui travaillent ou se préparent à travailler dans les divers services des bibliothèques et des centres de ressources tels que le service du prêt, des acquisitions, du catalogue, etc. On étudie le vocabulaire et les structures nécessaires.
FRAN 317  Le français de la bibliothéconomie II (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Suite du cours FRAN 316.

FRAN 318  Le français commercial I (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Le cours vise à faciliter la communication efficace orale et écrite dans le domaine des affaires. Il comprend une révision des structures, mais l'effort principal porte sur l'acquisition des termes et tournures de la langue du commerce, de la banque, et des affaires. On s'efforce d'enseigner ces termes en simulation de situations réelles, par ex.: au téléphone, entrevues, réunions, rédaction administrative et commerciale. On encourage les étudiant-e-s à entreprendre un projet individuel pour approfondir le vocabulaire de leur domaine particulier.

FRAN 319  Le français commercial II (3 crédits)
Préalable: FRAN 205 ou l'équivalent. Suite du cours FRAN 318.

FRAN 320  Panorama de la littérature française (6 crédits)
Ce cours, qui traite de la littérature française des origines à nos jours, s'adresse aux étudiant-e-s qui ont choisi la littérature comme domaine de spécialisation principale ou secondaire.

NOTE: Les étudiant-e-s qui ont suivi FRAN 321 et/ou 322 ne peuvent obtenir de crédits pour ce cours.

FRAN 321  Panorama de la littérature française I (3 crédits)
Ce cours, qui traite de la littérature française des origines à la fin du règne de Louis XIV, s'adresse aux étudiant-e-s qui ont choisi la littérature comme domaine de spécialisation principale ou secondaire.

NOTE: Les étudiant-e-s qui ont suivi FRAN 320 ne peuvent obtenir de crédits pour ce cours.

FRAN 322  Panorama de la littérature française II (3 crédits)
Ce cours complète le cours FRAN 321 par une étude de la littérature française, de la République aux nos jours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 320 ne peuvent obtenir de crédits pour ce cours.

FRAN 350  Les origines de la littérature québécoise (3 crédits)
D'une littérature coloniale a une littérature autochtone. De la tradition orale a l'écriture. Étude de textes écrits avant l'École patriotique de Québec.

FRAN 351  La littérature québécoise du 19ème siècle (3 crédits)
Étude des grands mouvements littéraires du 19ème siècle et des principaux genres illustrés (conte, histoire, roman, essai, prose militante, etc.).

FRAN 352  Le roman québécois du 20ème siècle I (3 crédits)
Le roman québécois traditionnel: le roman de la fidélité, le roman d'observation, le roman de la solitude, le roman de la critique et de la satire. Étude de textes significatifs des romanciers et des romancières les plus marquants tels que: Hémon, Desrosiers, Grignon, Harvey, Savard, Ringuet, Guèvremont, Roy, Thériault, Langevin, Charbonneau, etc.

FRAN 353  Le roman québécois du 20ème siècle II (3 crédits)
Le roman de revendication sociale et le nouveau roman. Étude de textes significatifs des romanciers et des romancières les plus marquants tels que: Girouard, Renaud, Major, Blais, Ferron, Godbout, Jasmin, Bessette, Aquin, Ducharme, Beaulieu, Hébert, Larocque, Bersianik, etc.

FRAN 354  La poésie québécoise du 20ème siècle I (3 crédits)
De l'école littéraire de Montréal à l'automatisme. Étude de textes significatifs des poètes les plus marquants: Nelligan, Loranger, Beauchemin, Desrochers, Coderre, Hébert, Saint-Denys Garneau, Grandbois, Lasnier, etc.

FRAN 355  La poésie québécoise du 20ème siècle II (3 crédits)
De l'automatisme à aujourd'hui: mouvements et formes poétiques. Étude de textes significatifs des poètes les plus marquants: Gauvreau, Hénault, Giguère, P.-M. Lapointe, Miron, Chamberland, R. Duguay, Garneau, Vanier, Francoeur, etc.

FRAN 356  Le théâtre québécois I (3 crédits)
L'évolution du théâtre jusqu'à Marcel Dubé. Aperçu historique, thématique, et formel. Le théâtre historique, patriotique, comique, le mélodrame, le drame bourgeois. Formation des troupes québécoises. Étude de textes, avec une attention particulière portée au théâtre de Gélinas, Dubé, Hébert, Savard, etc.

FRAN 357  Le théâtre québécois II (3 crédits)
Le nouveau théâtre québécois: théâtre social et politique, théâtre expérimental, théâtre d'improvisation, recherches de nouvelles formes théâtrales. Études de textes: Tremblay, Germain, Sauvageau, Loranger, Barbeau, Garneau, le Grand-cirque ordinaire, etc. En plus d'avoir recours aux textes publiés, ce cours s'appuiera d'une façon particulière sur la production courante du théâtre à Montréal.
FRAN 358  L’essai et le développement de la pensée québécoise  (3 crédits)
Étude des grands thèmes et de l’évolution des formes de la pensée québécoise à travers l’essai. Textes de: Buies, Nevers, LeMoyne, Vadeboncoeur, Dumont, Vallières, Rioux, Bouthillette, etc.

FRAN 366  Stylistique interne du français I  (3 crédits)

FRAN 367  Stylistique interne du français II  (3 crédits)
Préalable: FRAN 366. Suite du cours 366 et applications pratiques.

FRAN 370  Introduction au genre romanesque  (3 crédits)
Le genre romanistique sera étudié dans une perspective spécifique qui pourra varier selon l’année et le ou la professeur-e: théorie du roman, catégories de roman, sociologie du roman, étude d’un type particulier de roman.

FRAN 371  Introduction à la poésie  (3 crédits)
Le vers français: les formes fixes, le vers libre, le poème en prose; les notions de poétique et d’art poétique. Esthétique de la poésie, esthétique de la prose et leurs interférences; étude historique. La poésie, discours social ou associatif? Les différents aspects de la question, ou certains d’entre eux, seront étudiés, avec des exemples, dans une perspective qui pourra varier selon l’année et le ou la professeur-e.

FRAN 372  Introduction au théâtre en tant que genre  (3 crédits)
Ce cours permettra aux étudiant-e-s, à partir d’un petit nombre de textes, de voir les caractéristiques du théâtre en tant que genre, d’analyser sa fonction littéraire et sociale, d’étudier sa place particulière dans les différents mouvements littéraires en France.

FRAN 373  Le cinéma français I  (6 crédits)
Ce cours, abondamment illustré de films ou d’extraits de films, retrace, en tout ou en partie, l’histoire du septième art dans ses manifestations les plus originales et les plus caractéristiques.

FRAN 374  Le cinéma français II  (6 crédits)
Les étudiant-e-s s’inscrivant pour la deuxième fois au cours de FRAN 373 obtiennent les crédits FRAN 374.

FRAN 381  Introduction à la didactique du français langue seconde  (3 crédits)

FRAN 382  Analyse de matériel didactique  (3 crédits)

FRAN 384  Évolution de la langue française  (6 crédits)
Préalable: FRAN 303 ou l’équivalent. Ce cours retrace l’évolution de la langue, du latin vulgaire au français contemporain. Après une étude de la syntaxe de l’ancien français, ce cours relèvera les changements phonétiques, syntaxiques et lexicaux importants qui ont affecté le français au cours des siècles pour l’amener à son état actuel. NOTE: Les étudiant-e-s qui ont suivi FRAN 269 ne peuvent obtenir de crédits pour ce cours.

FRAN 385  Création de matériel didactique  (3 crédits)
Préalable: FRAN 400 ou l’équivalent. Acquisition des connaissances et des techniques nécessaires à l’élaboration de matériel didactique pour l’enseignement du français langue seconde. Travaux pratiques de planification de cours, de sélection, d’adaptation et de création de documents.

FRAN 398  Étude d’un sujet particulier  (3 crédits)
FRAN 399  Étude d’un sujet particulier  (6 crédits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

FRAN 400  Langue française: niveau de perfectionnement I  (3 crédits)
Préalable: FRAN 303, ou l’équivalent. Cours avancé de langue, axé sur l’étude de la grammaire et de la stylistique française, permettant à une étudiant-e qui possède déjà une connaissance approfondie de la langue de corriger ses lacunes, de nuancer son expression, et d’explorer les possibilités créatrices du langage.
FRAN 401 **Langue française: niveau de perfectionnement II** (3 crédits)
Préalable: FRAN 400, ou l'équivalent. Suite du cours FRAN 400.

FRAN 402 **Initiation à la composition avancée** (6 crédits)

**NOTE**: Les étudiant-e-s qui ont suivi FRAN 324 ne peuvent obtenir de crédits pour ce cours.

FRAN 403 **Rédaction avancée** (3 crédits)
Préalable: FRAN 400 et 401 ou 402 ou 406 et 407 ou 366 et 367. Ce cours vise à faire acquérir à l'étudiant-e qui a déjà une bonne maîtrise de la grammaire l'habileté à rédiger des textes de formes diverses. A partir d'une pratique intense de l'écriture, l'étudiant-e apprendra à rédiger des textes qui répondent à un but spécifique de la communication.

FRAN 404 **Le code oratoire I** (3 crédits)
Préalable: FRAN 303, ou l'équivalent. Correction phonétique, en particulier au niveau de la langue "soignée", techniques de présentation de la parole en public: pose de voix, gestes, affectivité, etc. Étude du vocabulaire et des procédures nécessaires pour convoquer une réunion, la diriger, y participer. Rédaction et présentation de divers types de rapports, allocutions, et conférences. Séances de travaux pratiques en laboratoire, 1 ½ h. par semaine.

FRAN 405 **Le code oratoire II** (3 crédits)
Préalable: FRAN 404, ou l'équivalent. Suite du cours FRAN 404.

FRAN 406 **Le code grammatical I** (3 crédits)
Préalable: FRAN 303 ou l'équivalent. Étude des règles fondamentales de la grammaire française à l'aide d'exercices d'analyse et de construction de phrases, ayant pour but la correction de l'orthographe et de la syntaxe.

FRAN 407 **Le code grammatical II** (3 crédits)
Préalable: FRAN 406, ou l'équivalent. Ce cours a pour but de fixer définitivement les connaissances grammaticales pratiques des étudiant-e-s, en particulier de ceux ou celles qui envisagent de poursuivre leurs études de français à un niveau supérieur. La norme étudiée dans ce cours tiendra compte à la fois des principes de la grammaire traditionnelle et des progrès récents dans l'étude de la langue. L'étude des unités d'expression mènera, par des exercices pratiques d'analyse fonctionnelle, à l'examen approfondi de certains points de stylistique.

FRAN 409 **Cours libre de traduction I** (3 crédits)
Préalable: 6 crédits parmi FRAN 304; FRAN 305; FRAN 306; FRAN 307; FRAN 400; FRAN 401; ou autorisation du département. Étude systématique des anglicismes; notions de méthodologie de la traduction; étude de quelques aspects de la stylistique comparée du français et de l'anglais; travaux pratiques de traduction de l'anglais au français.

**NOTE**: Ce cours est destiné particulièrement, mais non exclusivement, aux étudiant-e-s qui ne se spécialisent pas en traduction. Les étudiant-e-s qui ont suivi FRAN 408 ne peuvent s'inscrire à ce cours.

FRAN 410 **Cours libre de traduction II** (3 crédits)
Préalable: FRAN 409 ou autorisation du département. Suite du cours précédent.

FRAN 412 **Initiation à la terminologie du droit I** (3 crédits)
Préalable: FRAN 303, ou l'équivalent. Le cours s'adresse aux étudiant-e-s qui, dans leur profession ou celle à laquelle ils ou elles se préparent, doivent utiliser le vocabulaire de l'appareil judiciaire et la terminologie des différentes branches du droit. On étudiera les situations telles que conflit locataire - propriétaire, problèmes d'assurance, contrat de mariage, etc. Par une étude théorique et pratique de divers litiges, par une recherche individuelle et en jouant les rôles de divers personnages en situation, les étudiant-e-s approfondiront leurs connaissances de la langue du droit et apprendront à l'utiliser.

FRAN 413 **Initiation à la terminologie du droit II** (3 crédits)
Préalable: FRAN 412. Suite du cours FRAN 412.

FRAN 414 **Le français de la technologie** (3 crédits)
Préalable: FRAN 303 ou l'équivalent. Ce cours s'adresse aux étudiant-e-s qui s'intéressent à la langue technicale. Les étudiant-e-s se familiariseront avec la terminologie, la syntaxe et le style propres à certains domaines de la technologie. Les travaux comprendront des exercices pratiques de vocabulaire, de style et de rédaction dont le but sera de faciliter l'expression exacte de notions techniques.

FRAN 415 **Rédaction technique** (3 crédits)
Préalable: FRAN 414 ou l'équivalent. Dans ce cours qui s'adresse aux étudiant-e-s déjà initié-e-s à certains domaines de la technologie, on étudiera la rédaction de documents techniques tels que les résumés de textes, les spécifications, devis, appels d'offres, modes d'emploi, etc. L'effort principal portera sur la rédaction de rapports techniques.
FRAN 418  Le français de l'économie  (3 crédits)
Préalable: FRAN 303 ou l'équivalent. L'étudiant-e se familiarisera avec des concepts du système écono-
nomique au moyen d'une documentation axée sur des réalités économiques québécoises, canadien-
nes et mondiales. Étude approfondie du vocabulaire spécialisé, travaux de rédaction et présentation,
d'exposés à partir d'une analyse d'articles et de films didactiques sélectionnés dans le domaine.

FRAN 419  Le français de la finance et de la gestion  (3 crédits)
Préalable: FRAN 303 ou l'équivalent. Ce cours vise à perfectionner l'usage du français spécialisé écrit
et oral utilisé dans les relations d'affaires par un examen des difficultés de la langue française et l'étude
de concepts à partir d'une documentation axée sur la science de la gestion et de la finance. Étude
approfondie du vocabulaire spécialisé et rédaction de travaux dans le contexte des divers domaines
de la gestion administrative, financière et celle des ressources humaines.

FRAN 420  Littérature du Moyen-Age  (6 crédits)
Initiation à la langue et à la littérature du Moyen-Age, au moyen d'un choix d'oeuvres épiques, roma-
nesques, lyriques, historiques, pouvant varier d'une année à l'autre. En plus d'acquérir une vue géné-
rale de la littérature et une connaissance approfondie de quelques œuvres en traduction, l'étudiant-e
se familiarisera suffisamment avec la langue pour ne plus être embarrassé-e à la lecture d'un texte
en ancien français.

FRAN 421  Panorama de la littérature française du Moyen-Age I  (3 crédits)
Au moyen d'une sélection d'œuvres des IXème, Xème, XIème et XIIème siècles, ce cours se propose
de faire connaître et apprécier à l'étudiant-e les premières manifestations de la littérature française.
(Serment de Strasbourg, chanson de geste, roman courtois, etc.)

FRAN 422  Panorama de la littérature française du Moyen-Age II  (3 crédits)
Au moyen d'une sélection d'œuvres des XIIème, XIVème, et XVème siècles, ce cours se propose de
faire connaître et apprécier les richesses littéraires du Moyen-Age depuis les fabliaux et le Roman de
la Rose jusqu'au Grand Testament de François Villon.

FRAN 425  Introduction à la vie littéraire du XVIème siècle  (3 crédits)
littéraires: genèse, langue, portée.

FRAN 426  La poésie du XVème siècle: des doctrines aux œuvres  (3 crédits)
Marot, Scève, Ronsard, D'Aubigné: leurs recherches, leur évolution, leur rayonnement.

FRAN 427  La littérature en prose du XVIème siècle: du conte à l'essai  (3 crédits)
Orientation et fixation des types "humanistes" dans la littérature narrative et spéculative du XVIème
siècle: Marguerite de Navarre, Rabelais, Montaigne.

FRAN 428  La littérature de l'âge baroque  (3 crédits)
Les dissonances de l'âge classique — Du romanesque au burlesque et à la fuite poétique. Théophile
de Viau, Saint-Aman, Rotrou, Cyrano de Bergerac.

FRAN 429  Le siècle classique  (3 crédits)
La société classique: la Ville et la Cour, les salons, les honnêtes gens, les chefs-d'oeuvre classiques.

FRAN 430  Le théatre et le roman classiques  (3 crédits)
Les dramaturges face aux règles classiques. La tragédie et la comédie classiques. Du roman précieux
au roman classique.

FRAN 431  Les moralistes  (3 crédits)
La pensée religieuse de Pascal à Bossuet. La morale laïque (La Fontaine). Les mondiaux (La Bruyère
et La Rochefoucauld).

FRAN 432  L'aube des lumières  (3 crédits)
La querelle des Anciens et des Modernes et la remise en question du classicisme. Intérêt pour les qua-

FRAN 434  Littérature du XVIIIème siècle: les œuvres militantes  (3 crédits)
Le siècle des Lumière: l'esprit philosophique (livre examen, besoin de vérité, goût des sciences); aspects
de la critique religieuse, politique, sociale et économique. Les Lettres persanes, les Lettres philosophi-
ques, l'Encyclopédie, le Contrat social, etc.

FRAN 435  Littérature du XVIIIème siècle: le conte et le roman  (3 crédits)
Le conte philosophique: Voltaire; le roman picaresque: Lesage; le roman sentimental et préromanti-
que: l'abbé Prévost et Rousseau; un premier romancier moderne. Diderot.

FRAN 436  Littérature du XVIIIème siècle: le théatre et la poésie  (3 crédits)
La tragédie: Voltaire; la comédie larmoyante: Nivelle de la Chaussée; le drame bourgeois: Diderot et
Sédain; la comédie de moeurs: Lesage; la comédie psychologique: Marivaux; la comédie militante et
joyeuse: Beaumarchais. La poésie: tradition et avenir.
Littérature du XVIIIème siècle: les œuvres libertines (3 crédits)
Le roman libertin: Crébillon fils, Restif de la Bretonne, Lacos; l’apogée du genre: le marquis de Sade.

Le romantisme (3 crédits)
Le romantisme, phénomène européen; ses causes, ses caractères particuliers en France. Le Mal du siècle, ses vagues successives et leurs causes. Les grands thèmes romantiques.

Étude d’œuvres caractéristiques de Chateaubriand, Lamartine, Vigny, Hugo, Musset.

Littérature de la période romantique (3 crédits)
Évolution des écrivain-e-s de la période romantique. La révolution de 1830 et “l’école du désenchantement”. Étude, dans un choix de romans, de l’invention de techniques réalistes propres à exposer les problèmes éthiques, sociaux, et politiques d’une société qui s’urbanise et s’industrialise.

Littérature sous le second-empire: une littérature ironique et critique (3 crédits)
On cherchera à étudier et à expliquer la rupture qui intervient dans la deuxième moitié du XXème siècle dans la forme et dans la finalité des œuvres littéraires, particulièrement, dans ce cours, chez Baudelaire et chez Flaubert.

La fin du siècle: entre la tour d’ivoire et le monde réel (3 crédits)
On cherchera à étudier et à expliquer quelles tendances littéraires nouvelles s’expriment sous des termes comme réalisme, naturalisme, ou symbolisme, dans des œuvres de Verlaine, Mallarmé, Rimbaud, Huysmans, Zola, Gide.

Introduction au XXème siècle (3 crédits)
Les facteurs historiques, économiques, et socio-politiques qui caractérisent la IIIème République aux environs de 1900; les mouvements qui agitent la société française et leurs répercussions dans la vie culturelle, particulièrement littéraire, de la “Belle Époque”. On étudie un certain nombre d’essais (Maurras, Bergson, Péguy…) qui distinguent l’héritage du siècle précédent des tendances nouvelles qui marqueront la littérature du XXème siècle.

Le roman et la poésie de 1900 à 1920 (3 crédits)
Distinction entre la littérature en vogue et celle qui prépare le renouveau littéraire de l’entre-deux-guerres par l’étude des œuvres de certains représentants de ces deux courants choisis parmi les suivants: Barrès, Bourget, Gide, Valéry, Proust, Apollinaire, et Tzara.

Le roman et la poésie de l’entre-deux-guerres (3 crédits)

Le roman et la poésie du XXème siècle I (3 crédits)

Le roman et la poésie du XXème siècle II (3 crédits)

Symboles et archétypes de l’imaginaire québécois en littérature (3 crédits)
Identification, description, évolution des grands symboles et archétypes de l’imaginaire québécois en littérature. Examen des modes de production et de transmission. Textes puisés aussi bien dans la littérature officielle que dans la littérature populaire.

La littérature québécoise au féminin (3 crédits)

Les écrivain-e-s québécois-es et la question nationale (3 crédits)
L’interrogation québécoise et son rapport avec la création littéraire. Situation des écrivain-e-s par rapport à la question nationale. Littérature engagée, littérature de propagande. On examinera dans ce cours aussi bien des textes “théoriques” des écrivain-e-s que des textes de “création”.

Le fantastique et la tradition populaire dans la littérature québécoise (3 crédits)
La présence du fantastique dans la littérature québécoise et l’influence de la tradition populaire au niveau des thèmes et des structures. Textes choisis parmi l’ensemble de la production littéraire.

Littérature et para-littérature québécoises (3 crédits)
Ressemblances et différences entre l’une et l’autre littérature. Conditions de production et de diffu-

ÉTUDES FRANÇAISES

197
FRAN 455 **Littérature québécoise — Canadian Literature I** (3 crédits)

FRAN 456 **Littérature québécoise — Canadian Literature II** (3 crédits)
Étude comparée des littératures québécoise et canadienne anglaise. Continuation du cours précédent. On mettra l'accent sur l'évolution des deux littératures depuis 1960. (Le nouveau roman québécois, etc.) Analyses thématique, idéologique, et stylistique. Ressemblances et dissemblances. Textes choisis dans les œuvres d'Anne Hébert, de Robertson Davies, de Marie-Claire Blais, de Margaret Atwood, etc.

FRAN 466 **La langue française au Québec: son évolution** (3 crédits)
Préalable: FRAN 251 et autorisation du département. Aperçu de l'évolution du français sur le territoire québécois; influences internes et externes. Étude des rapports entre l'évolution politique et économique du Québec et celle de la langue par la consultation de documents provenant d'époques successives.

FRAN 467 **La langue française au Québec: son état actuel** (3 crédits)
Préalable: FRAN 262 ou l'équivalent. Analyse des aspects phonétiques, lexicaux, et morphosyntaxiques du français québécois actuel et des divergences de ce dernier par rapport à la norme européenne; archaïsmes, anglicismes, créations nouvelles. La question des niveaux de langue (aspects sociaux et linguistiques) et celle de la norme seront également abordées.

FRAN 468 **Étude de la norme** (3 crédits)
Préalable: FRAN 262 ou l'équivalent. Étude des facteurs politiques, sociologiques, et psychologiques contribuant à la notion de la norme. Analyse et description des écarts par rapport à la norme. Travaux pratiques d'enquête.

FRAN 469 **Sémantique** (3 crédits)
Préalable: FRAN 262. Étude formelle de la signification et de la segmentation du sens en français fondée sur une approche sémiotique de la langue. L'étudiant-e fera l'apprentissage de méthodes d'analyse lui permettant d'inventorier les effets de sens et de les ordonner en fonction de critères objectifs.

FRAN 472 **Le théâtre français du XXème siècle I** (3 crédits)
À la fin du XIXème siècle, le théâtre français connut des transformations profondes. Ce cours suivra l'évolution du théâtre à partir d'Antoine, à travers ses étapes successives, jusqu'à la fin de la période de l'entre-deux-guerres. Seront étudiés les grands metteurs en scène qui ont succédé à Antoine: L'Épouvante, Copeau et le Cartel, ainsi que les mouvements d'idées et les dramaturges qui ont marqué cette période.

FRAN 473 **Le théâtre français du XXème siècle II** (3 crédits)
La guerre de 1939-1945 marque une coupure dans l'histoire du théâtre en France au XXème siècle. La relève du Cartel est assurée par des animateurs-trices tel-le-e que Jean-Louis Barrault, Jean Vilar, Roger Planchon, etc. De nouvelles lignes de force se dégagent. Seront étudié-e-s, entre autres, des représentant-e-s du théâtre politique, du théâtre de l'Absurde, et du théâtre nouveau qui se développé à la suite des événements de mai 1968.

FRAN 476 **La littérature au féminin I** (3 crédits)
À partir de manifestes et d'œuvres de création, on retracera différentes manifestations de la prise de conscience "féministe" chez les écrivaines françaises, ainsi que les solutions envisagées aux problèmes posés. Ce cours permettra de considérer les tendances actuelles dans une perspective historique.

FRAN 477 **La littérature au féminin II** (3 crédits)
Ce cours portera sur l'éclatement qui caractérise l'écriture au féminin à l'heure actuelle. On étudiera différents concepts tels que la "prise de parole", la valorisation de l'anima, le renversement des mythes anciens, ainsi que la révolution formelle et stylistique qui accompagne cet éclatement.

FRAN 478 **Histoire de la critique littéraire** (3 crédits)
Étude de l'évolution de la critique littéraire des origines au début du XXème siècle, au moyen d'un choix d'œuvres théoriques et critiques.

FRAN 480 **Approches critiques I: la sémiotique textuelle** (3 crédits)
Étude des conditions générales de la production du sens et de la spécificité du texte littéraire. Examen des principales théories formalistes en France et au Québec et apprentissage des méthodes critiques qui en découlent. Travaux pratiques qui permettront à l'étudiant-e d'en contrôler l'efficacité et la valeur au contact des œuvres.
FRAN 481 Approches critiques II: la sociologie de la littérature (3 crédits)
Étude des relations qu'entretiennent entre eux le littéraire et le social. Le point de vue résolument socio-logique que l'on adoptera dans ce cours permettra d'étudier l'œuvre en fonction du milieu qui en a permis l'émergence et du contexte socio-ïdéologique dont elle est à la fois un reflet et un élément actif.

FRAN 482 Approches critiques III: la critique philosophique (3 crédits)
Ce cours vise à sensibiliser l'étudiant-e aux problèmes épistemologiques que pose l'étude d'un texte littéraire. La critique philosophique, essentiellement thématique, doit constamment remettre en question ses présupposés théoriques et tenter de justifier sa méthode. Quelles sont les conditions d'un discours veridique prenant en charge le texte littéraire, quelle est la signification du texte littéraire considéré comme signe global, telles sont les deux principales questions qui seront examinées.

FRAN 483 Approches critiques IV: la psycho-critique (3 crédits)
Ce cours est une introduction à la psychanalyse de la littérature. Axé sur le ou la créateur-trice et sur ses rapports avec sa création, il permettra à l'étudiant-e de faire le point sur les différentes méthodes psychocritiques et sur leurs applications. Par des travaux pratiques d'interprétation portant sur des œuvres particulières, on évaluera les avantages de chaque méthode et on en précisera les limites.

FRAN 488 Stage pratique d'enseignement du français langue seconde aux adultes (3 crédits)
Préalable: FRAN 381 et 9 autres crédits dans le programme du Certificat d'enseignement du français langue seconde aux adultes, ou permission du ou de la directeur-trice du programme. Les étudiant-e-s auront l'occasion d'observer des professeur-e-s expérimenté-e-s en assistant à leurs cours et devront eux(elles)-mêmes appliquer les connaissances acquises dans les autres cours du programme à un enseignement pratique dans une classe.

FRAN 489 Méthodologie des travaux de recherche (6 crédits)
Destiné aux étudiant-e-s de dernière année et préparant aux études du deuxième cycle, ce cours permettra, par des exercices de rédaction commentés et critiqués, d'atteindre la précision, l'élégance, et l'originalité dans l'expression écrite. Analyse stylistique proprement dite (définitions et procédés de style). Théorie et pratique de l'analyse des textes — Théorie de la versification — Théorie et pratique des recherches bibliographiques.

FRAN 490 Tutorat en langue, linguistique ou traduction (6 crédits)
Préalable: 12 crédits de langue, de linguistique ou de traduction au niveau "400". Étude d'un sujet particulier dans le domaine de la langue, de la linguistique ou de la traduction.
NOTE: Tout-e étudiant-e s'inscrivant pour la seconde fois au cours FRAN 490 obtient les crédits FRAN 491 et 492.

FRAN 491 Tutorat en langue, linguistique ou traduction (3 crédits)
Préalable: 12 crédits de langue, de linguistique ou de traduction au niveau "400". Étude d'un sujet particulier dans le domaine de la langue, de la linguistique ou de la traduction.

FRAN 492 Tutorat en langue, linguistique ou traduction (3 crédits)
Préalable: 12 crédits de langue, de linguistique ou de traduction au niveau "400". Étude d'un sujet particulier dans le domaine de la langue, de la linguistique ou de la traduction.
NOTE: Tout-e étudiant-e s'inscrivant pour la seconde fois au cours FRAN 491 obtient les crédits FRAN 492.

FRAN 493 Tutorat en littérature (6 crédits)
Préalable: 12 crédits en littérature dont 6 au niveau "400". Étude d'un sujet particulier dans le domaine de la littérature.
NOTE: Tout-e étudiant-e s'inscrivant pour la seconde fois au cours FRAN 493 obtient les crédits FRAN 494 et 495.

FRAN 494 Tutorat en littérature (3 crédits)
Préalable: 12 crédits en littérature dont 6 au niveau "400". Étude d'un sujet particulier dans le domaine de la littérature.

FRAN 495 Tutorat en littérature (3 crédits)
Préalable: 12 crédits en littérature dont 6 au niveau "400". Étude d'un sujet particulier dans le domaine de la littérature.
NOTE: Tout-e étudiant-e s'inscrivant pour la seconde fois au cours FRAN 494 obtient les crédits FRAN 495.

FRAN 496 Recherche dirigée (6 crédits)
Préalable: 12 crédits dans la spécialité dont 6 au niveau "400". Ce cours n'est ouvert qu'aux étudiant-e-s des programmes de majeure, de spécialisation, ou d'honneurs. Il offre l'occasion d'approfondir l'étude d'un sujet à déterminer par l'étudiant-e en accord avec son ou sa conseiller-e et/ou un-e professeur-e du département. Chaque étudiant-e exécute des travaux individuels sous le contrôle du ou de la professeur-e spécialiste de la matière.
FRAN 497 *Recherche dirigée* (6 crédits)
Tout-e étudiant-e s'inscrivant pour la seconde fois au cours FRAN 496 obtient les crédits FRAN 497.

FRAN 498 *Étude avancée d'un sujet particulier* (3 crédits)

FRAN 499 *Étude avancée d'un sujet particulier* (6 crédits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

TRAD 200 *Méthodologie de la traduction* (3 crédits)
Préalable: Acceptation dans un programme de traduction ou autorisation du département. Ce cours a pour but d'initier l'étudiant-e aux problèmes de la traduction. Il sera une introduction générale aux différentes approches du texte à traduire: analyse du discours, grammaire contrastive, stylistique comparée, terminologie et recherche documentaire (français/anglais).

NOTE: Les étudiant-e-s qui ont suivi FRAN 260 ne peuvent obtenir de crédits pour ce cours.

TRAD 201 *Traduction générale du français à l'anglais* (3 crédits)
Préalable: TRAD 200. Traduction du français à l’anglais de textes généraux et analyse des problèmes liés au transfert linguistique. (A)

NOTE: Les étudiant-e-s qui ont suivi TRAD 202 ne peuvent obtenir de crédits pour ce cours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 261 ne peuvent obtenir de crédits pour ce cours.

TRAD 202 *Traduction générale de l'anglais au français* (3 crédits)
Préalable: TRAD 200. Traduction de l’anglais au français de textes généraux et analyse des problèmes liés au transfert linguistique. (F)

NOTE: Les étudiant-e-s qui ont suivi TRAD 201 ne peuvent obtenir de crédits pour ce cours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 261 ne peuvent obtenir de crédits pour ce cours.

TRAD 298 *Étude d’un sujet particulier* (3 crédits)

TRAD 299 *Étude d’un sujet particulier* (6 crédits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

TRAD 301 *Traduction littéraire du français à l’anglais* (3 crédits)
Préalable: TRAD 201. Sensibilisation aux problèmes spécifiques à la traduction littéraire. Travaux pratiques: traduction de textes de genres variés. (A)

NOTE: Les étudiant-e-s qui ont suivi TRAD 302 ne peuvent obtenir de crédits pour ce cours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 360 ne peuvent obtenir de crédits pour ce cours.

TRAD 302 *Traduction littéraire du français à l’anglais* (3 crédits)
Préalable: TRAD 201. Entraînement à la traduction littéraire dans l’autre langue de travail. (A)

NOTE: Les étudiant-e-s qui ont suivi TRAD 302 ne peuvent obtenir de crédits pour ce cours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 360 ne peuvent obtenir de crédits pour ce cours.

TRAD 303 *Traduction littéraire de l’anglais au français* (3 crédits)
Préalable: TRAD 202. Entraînement à la traduction littéraire dans l’autre langue de travail. (A)

NOTE: Les étudiant-e-s qui ont suivi TRAD 304 ne peuvent obtenir de crédits pour ce cours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 361 ne peuvent obtenir de crédits pour ce cours.

TRAD 304 *Traduction littéraire de l’anglais au français* (3 crédits)
Préalable: TRAD 201. Entraînement à la traduction littéraire dans l’autre langue de travail. (F)

NOTE: Les étudiant-e-s qui ont suivi TRAD 303 ne peuvent obtenir de crédits pour ce cours.

NOTE: Les étudiant-e-s qui ont suivi FRAN 361 ne peuvent obtenir de crédits pour ce cours.

TRAD 310 *Initiation à la terminologie* (3 crédits)
Préalable: TRAD 201 ou 202. Ce cours identifie certains problèmes de terminologie soulevés par la traduction et comprend des travaux pratiques tels que l’analyse lexicographique de textes français ou anglais, et la préparation de glossaires sur fiches. (F/A)

NOTE: Les étudiant-e-s qui ont suivi FRAN 460 ne peuvent obtenir de crédits pour ce cours.

TRAD 311 *Terminologie Pratique* (3 crédits)
Préalable: TRAD 310. Ce cours fait suite à l’initiation à la terminologie. Rédaction de dossiers terminologiques; étude des définitions, notes et contextes; analyse sémique; études néologiques. (F/A)

NOTE: Les étudiant-e-s qui ont suivi FRAN 461 ne peuvent obtenir de crédits pour ce cours.

TRAD 398 *Étude d’un sujet particulier* (3 crédits)
TRAD 399 Étude d’un sujet particulier (6 crédits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

TRAD 401 Traduction littéraire avancée: du français à l’anglais (3 crédits)
Préalable: TRAD 301 et 303. Étude des différents principes et des différentes techniques de la traduction littéraire; aperçu de la traduction littéraire au Canada. Travaux pratiques: analyse critique et comparaison de traductions et de leur original; traduction de textes français. (F)
NOTE: Les étudiant-e-s qui ont suivi FRAN 470 ne peuvent obtenir de crédits pour ce cours.

TRAD 402 Traduction littéraire avancée: de l’anglais au français (3 crédits)
Préalable: TRAD 302 et 304. Étude des différents principes et des différentes techniques de la traduction littéraire; aperçu de la traduction littéraire au Canada. Travaux pratiques: analyse critique et comparaison de traductions et de leur original; traduction de textes anglais. (F)
NOTE: Les étudiant-e-s qui ont suivi FRAN 471 ne peuvent obtenir de crédits pour ce cours.

TRAD 403 Traduction technique du français à l’anglais (3 crédits)
Préalable: TRAD 201. Initiation aux différents domaines de la traduction technique et scientifique. Le semestre sera divisé en modules. Chaque module sera confié à un-e traducteur-trice spécialisé-e dans un domaine particulier. (A)
NOTE: Les étudiant-e-s qui ont suivi FRAN 362 ne peuvent obtenir de crédits pour ce cours.

TRAD 404 Traduction technique de l’anglais au français (3 crédits)
Préalable: TRAD 202. Initiation aux différents domaines de la traduction technique et scientifique. Le semestre sera divisé en modules. Chaque module sera confié à un-e traducteur-trice spécialisé-e dans un domaine particulier. (F)
NOTE: Les étudiant-e-s qui ont suivi FRAN 363 ne peuvent obtenir de crédits pour ce cours.

TRAD 405 Traduction spécialisée du français à l’anglais (3 crédits)
Préalable: TRAD 201. Initiation aux différents problèmes de la traduction administrative, commerciale et juridique du français à l’anglais. Le cours sera divisé en modules. Chaque module sera confié à un-e traducteur-trice spécialisé-e dans un des domaines abordés. (A)
NOTE: Les étudiant-e-s qui ont suivi FRAN 363 ne peuvent obtenir de crédits pour ce cours.

TRAD 406 Traduction spécialisée de l’anglais au français (3 crédits)
Préalable: TRAD 202. Initiation aux différents problèmes de la traduction administrative, commerciale et juridique de l’anglais au français. Le cours sera divisé en modules. Chaque module sera confié à un-e traducteur-trice spécialisé-e dans un des domaines abordés. (F)
NOTE: Les étudiant-e-s qui ont suivi FRAN 368 ne peuvent obtenir de crédits pour ce cours.

TRAD 408 Adaptation publicitaire (3 crédits)
Préalable: TRAD 201 ou 202. Initiation à l’adaptation de textes publicitaires. À partir d’exemples empruntés à la publicité écrite, radiophonique ou télévisée, les étudiant-e-s seront amené-e-s à se familiariser avec les problèmes linguistiques, affectifs, et sociaux soulevés par le travail d’adaptation. (F/A)
NOTE: Les étudiant-e-s qui ont suivi FRAN 365 ne peuvent obtenir de crédits pour ce cours.

TRAD 409 Révision et correction en traduction (3 crédits)
Préalable: TRAD 301 et 303. Ce cours abordera les différentes méthodes de révision et de correction de textes rédigés ou traduits en anglais; il sensibilisera les étudiant-e-s aux aspects humains et techniques du métier de réviseur-e; on touchera aussi aux problèmes de l’évaluation de la qualité des traductions. (A)
NOTE: Les étudiant-e-s qui ont suivi TRAD 410 ne peuvent obtenir de crédits pour ce cours.

TRAD 410 Révision et correction en traduction (3 crédits)
Préalable: TRAD 302 et 304. Ce cours abordera les différentes méthodes de révision et de correction de textes rédigés ou traduits en français; il sensibilisera les étudiant-e-s aux aspects humains et techniques du métier de réviseur-e; on touchera aussi aux problèmes de l’évaluation de la qualité des traductions. (F)
NOTE: Les étudiant-e-s qui ont suivi TRAD 409 ne peuvent obtenir de crédits pour ce cours.

TRAD 412 Théories de la traduction (3 crédits)
Préalable: TRAD 302 et 304 ou TRAD 301 et 303. Ce cours a pour but d’initier l’étudiant-e-aux diverses théories actuelles de la traduction. On abordera, dans un premier volet du cours, les diverses notions théoriques, et on cherchera à tracer leur évolution. Dans un deuxième volet, on examinera les problèmes théoriques tels qu’ils se posent dans les différents domaines pratiques de la traduction. (F/A)
NOTE: Les étudiant-e-s qui ont suivi FRAN 364 ne peuvent obtenir de crédits pour ce cours.

TRAD 414 Histoire de la traduction (3 crédits)
Préalable: TRAD 302 et 304 ou TRAD 301 et 303. Étude de la traduction depuis la Renaissance jusqu’à
l'époque moderne. Ce cours traitera également certains des sujets suivants: l'histoire de la traduction au Canada, les politiques linguistiques au Canada, les traductions marquantes en anglais et en français. (F/A)

**NOTE:** Les étudiant-e-s qui ont suivi FRAN 462 ne peuvent obtenir de crédits pour ce cours.

**TRAD 416 Informatic et traduction** (3 crédits)
Préalable: TRAD 201 ou 202. Terminologie de l'informatique. Applications de l'informatique à la traduction: traitement de textes, banques de données, banques de terminologie, traduction assistée par ordinateur. (F/A)

**TRAD 420 Stage de formation: de l'anglais au français** (6 crédits)
Préalable: 60 crédits en traduction et autorisation du ou de la coordinateur-trice des stages. Le stage a pour but d'initier l'étudiant-e à l'activité professionnelle dans le domaine de la traduction de l'anglais au français et de lui faire connaître le monde du travail. (Le département fera tout son possible pour faciliter l'obtention d'un stage mais ne peut s'engager à trouver un stage pour tous ou toutes les candidat-e-s). (F)

**NOTE:** Les étudiant-e-s qui ont suivi FRAN 465 ne peuvent obtenir de crédits pour ce cours.

**TRAD 421 Stage de formation: du français à l'anglais** (6 crédits)
Préalable: 60 crédits en traduction et autorisation du ou de la coordinateur-trice des stages. Le stage a pour but d'initier l'étudiant-e à l'activité professionnelle dans le domaine de la traduction du français à l'anglais et de lui faire connaître le monde du travail. (Le département fera tout son possible pour faciliter l'obtention d'un stage mais ne peut s'engager à trouver un stage pour tous ou toutes les candidat-e-s). (A)

**NOTE:** Les étudiant-e-s qui ont suivi FRAN 464 ne peuvent obtenir de crédits pour ce cours.

**TRAD 498 Étude avancée d'un sujet particulier** (3 crédits)

**TRAD 499 Étude avancée d'un sujet particulier** (6 crédits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Programmes and courses formerly offered under the title of Bio-Physical Education will now be offered as Exercise Science. All courses previously entitled Bio-Physical Education (BIOP) will in future be entitled Exercise Science (EXCI).

Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profile). Exercise Science students enter the Major programme and can apply for the Honours or Specialization programmes after completing 30 credits in the programme.

The BSc Specialization in Exercise Science follows option programmes with the exclusion of the respective Internships (EXCI 460, 461, 463, 468). These are substituted by six (6) Exercise Science credits at the 400 level not already required in the option of study.

The BSc Honours in Exercise Science Athletic Therapy Option does not lead to certification as an athletic therapist by the Canadian Athletic Therapists Association.

Students in Exercise Science programmes must take EXCI 221 3. Equivalents of BIOL 322 3, MATH 207 2, and PSYC 315 3 will only be accepted prior to the 1988-89 calendar year.

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

12 Elective credits chosen in consultation with the Coordinator of the Certificate Programme.

*NOTE: Acceptance into certificate programme is dependent upon possession of Bachelor's degree by applicant or graduation from the three-year CEGEP programme no. 391 (Recreation).

Students may transfer into the Certificate programme up to six credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

EXERCISE SCIENCE CO-OPERATIVE PROGRAMME

Director
E. F. ENOS, Associate Professor

The Exercise Science Co-operative Programme is offered to students who are enrolled in the Specialization in Community Fitness Science Option.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

EXCI 201 Introduction to Exercise Science (3 credits)
Prerequisite: Enrolment in an Exercise Science programme. The course examines from an historical perspective the philosophical and applied concepts of Exercise Science. There is particular emphasis on the development of the relationship between Exercise Science and the allied health professions.

Lectures.

EXCI 215 Psychomotor Activities in Early Childhood (3 credits)
This course considers the implementation of physical activities on the basis of psychomotor growth and development in children. Issues such as weight training, anaerobic training and aerobics for children lend themselves to discussion in this course, as do the effects of participation in competitive sport on psychosocial and personality development. Topics addressed are aquatic programmes for infants; movement education; gender differences in planning appropriate activities. Consideration is given to adaptation of activities for children with special physical and mental needs. Lectures and laboratories.

EXCI 221 Statistical Procedures in Exercise Science (3 credits)
This is an introductory course in statistics, presented in an applied health science context. It addresses measures of central tendency, various correlational techniques, an introductory analysis of variance and a brief introduction to the use of computer programmes. Lectures only.

EXCI 251 Basics of the Science of Movement (3 credits)
Anatomical, physiological and kinesiological aspects of movement are presented. Acute and chronic responses to exercise and the development of fitness programmes are studied. Detrimental as well as beneficial responses are considered. Lectures and laboratories.

NOTE: Students registered in the Major and Specialization programmes in Exercise Science may not take this course for credit.

EXCI 253 Human Anatomy I: The Extremities (3 credits)
Prerequisite: Enrolment in an Exercise Science programme or permission of the instructor. Following an introduction to anatomical terminology, definitions and tissues, the course concentrates on the Appendicular Skeleton. The skeletal and muscular systems of the upper and lower extremities are studied in depth. The circulatory and peripheral nervous systems of these areas are also presented to better understand the complete regional relationship for subsequent study in core courses in EXCI. Lectures and laboratories.
EXC1 255 Human Anatomy II: Head, Neck, and Torso (3 credits)
Prerequisite: EXC1 253. The course considers the axial skeleton with emphasis on the nervous, cardiovascular and respiratory systems. Consideration is also given to the muscular, digestive, urinary, and reproductive systems. Lectures and laboratories.

EXC1 261 Principles of Physical Conditioning (3 credits)
The major thrust of this course is a practical experience in adult physical activities, e.g., industrial fitness. This includes a conditioning as well as a skill development component. Lectures and special projects relate the physical activities to theoretical concepts. Lectures and laboratories.
NOTE: This course was first offered in the present form in the 1981-82 academic year.

EXC1 262 Emergency Care of Athletic Injuries (3 credits)
Prerequisite: EXC1 253. This course identifies common injuries and acute pathological conditions associated with physical activity. Students learn to recognize the injury and perform emergency or initial treatment. The "how" and "why" of emergency treatment are covered. Lectures and laboratories.
NOTE: Students who have received credit for EXC1 337 may not take this course for credit.

EXC1 298 Selected Topics in Exercise Science (3 credits)
EXC1 299 Selected Topics in Exercise Science (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

EXC1 308 Physical Growth and Maturation (3 credits)
This course considers normal and abnormal growth and maturation patterns of the body's systems (musculoskeletal, neural, hormonal, cardiovascular and respiratory) as well as processes of socialization and psychosocial development in an exercise or sports environment. Time frame encompasses childhood through adolescence and adulthood. Lectures.
NOTE: Students who have received credit for EXC1 309 may not take this course for credit.

EXC1 311 Introduction to Psychomotor Behaviour (3 credits)
Prerequisite: EXC1 221. This course examines the acquisition and performance of skilled motor behaviour. An information processing model is used to identify the major mechanisms involved in the production of skilled movement, and a social psychological approach is employed to illustrate how cognitive, emotional, social, and behavioural factors can influence motor performance.

EXC1 321 Measurement and Analysis in Exercise Science (3 credits)
Prerequisite: EXC1 221. Students are introduced to measurement processes pertinent to Exercise Science. Concepts of data collection, data presentation, validity, reliability, objectivity, precision and accuracy are discussed. Lectures and laboratories.

EXC1 331 Health Sciences (3 credits)
This course considers topics common to professionals working in health maintenance and preventive medicine. Specifically, the course synthesizes knowledge from biological, epidemiological, psychological, and medical sciences to 1) address health risk factors, 2) examine intervention strategies, and 3) identify programs and resources presently available in the community. Lectures.
NOTE: EXC1 students may take EXC1 331 or EXC1 333, but not both.

EXC1 333 Personal and Community Health Problems (3 credits)
This course presents an overview of factors influencing personal and community health. Students are exposed to prevalent physical and mental health issues from biological, psychological, and sociological points of view. Health related consequences of alcohol abuse, drugs, birth control, sedentary lifestyle, eating disorders and communicable diseases are among the topics considered. Lectures.
NOTE: EXC1 students may take EXC1 331 or EXC1 333, but not both.

EXC1 335 Principles of Athletic Therapy (3 credits)
Prerequisite: EXC1 262. This course examines mechanisms of acute and chronic pathologies associated with physical activity. Preventive techniques such as protective equipment, hazard recognition, prophylactic taping are addressed. The student also receives extensive exposure to pre-event and field protocols including strength and flexibility assessment. Lectures and laboratories.

EXC1 336 Assessment and Rehabilitation of Athletic Injuries (3 credits)
Prerequisite: EXC1 335. This course examines clinical assessment techniques and general rehabilitation protocols. Topics include chart recording, tissue healing, joint biochemistry, normal and atypical posture, and gait analysis. Surgical procedures of orthopaedic injuries to the spine and lower and upper extremities, and concomitant rehabilitation programmes are presented. Lectures and laboratories.
NOTE: Students who have received credit for EXC1 433 may not take this course for credit.

EXC1 351 Introduction to the Biomechanics of Human Movement (3 credits)
Prerequisite: EXC1 255. This course concentrates on the mechanical principles pertinent to an understanding of human movement. Fundamental principles of kinematics and kinetics are examined in a
EXCI 353 Human Physiology (3 credits)
Prerequisite: CHEM 222; EXCI 255. This course introduces the student to the functional organization of the human body. Cell physiology, metabolism, thermoregulation, endocrine function, reproduction, neural and muscular physiology are presented. Lectures and laboratories.

EXCI 357 Cardiovascular-Respiratory Physiology (3 credits)
Prerequisite: EXCI 353. This course introduces the student to those mechanisms and systems which are of primary importance in the metabolic processes of exercise. The function of renal, cardiac, circulatory and respiratory physiology are detailed. Lectures, laboratories.

EXCI 361 Exercise Leadership (3 credits)
Prerequisite: EXCI 261. This course provides students with the opportunity to develop, administer, supervise and evaluate exercise programmes for a variety of populations in community and institutional settings. Lectures and laboratories.

EXCI 363 Behavioural Aspects in Exercise Science (3 credits)
This course introduces students to theory and research from the social and psychological sciences as they apply to exercise, sport and physical activity. Topics include personality motivation, anxiety, mental preparation, concentration, mental health and exercise adherence. Special attention is given to social psychological knowledge as it applies to athletic therapy, adapted physical activity, fitness and lifestyle.

EXCI 370 Outdoor Recreation and Leadership (6 credits)
This course focuses on using and understanding the environment as a setting for recreation. Learning by experience is emphasized. Potential leaders and administrators in outdoor recreation or outdoor education will find this course of value. Lectures, laboratories: weekend field trips to be arranged.

EXCI 398 Selected Topics in Exercise Science (3 credits)

EXCI 399 Selected Topics in Exercise Science (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

EXCI 403 Adapted Physical Activity (3 credits)
Prerequisite: EXCI 357. The course is an introduction to current methods used to modify physical activities and sports for the disabled. A history of corrective and adapted sports is followed by a rationale and techniques employed when planning and conducting activity programmes for people with specific, chronic physical impairments and mental deficiencies. Lectures, practical experiences.

NOTE: Students who have received credit for EXCI 402 may not take this course for credit.

EXCI 404 Therapeutic Exercise Physiology (3 credits)
Prerequisite: EXCI 403. The course introduces the student to the role and use of exercise in the treatment of specific physiopathologies. Metabolic syndromes, cardiovascular diseases and respiratory disorders in which therapeutic exercise is either beneficial or contraindicated are emphasized. Lectures.

NOTE: Students who have received credit for EXCI 401 may not take this course for credit.

EXCI 411 Research Design (3 credits)
Prerequisite: MATH 207 or the equivalent; EXCI 357, recommended to be concurrent with EXCI 455; EXCI 468. Through lectures and laboratory experience, students are exposed to various research designs including: descriptive survey, historical survey, experimental and analytical design. Presentation and interpretation of data as well as guidelines for writing a research paper are covered. Lectures, seminars and laboratories.

EXCI 412 Advanced Methods and Materials in Physical Education and Recreation (6 credits)
Prerequisite: Permission of the Department. The interactive behaviour between student and teacher is approached scientifically. Among topics considered are history and philosophy of physical education, modern trends in education and their adaptation to the physical education field, Mosston's spectrum of styles, T.E.T. (Teacher Effectiveness Training), learning performance criteria, pupil's perception of teacher influence, behavioural objectives, values clarification, leadership theory, curriculum and daily lesson planning. In the laboratory periods, students are given the opportunity to practise various methodological techniques on peers and on adolescents and young adults in academic or recreational settings.

EXCI 414 Neural Control of Human Movement (3 credits)
Prerequisite: EXCI 311; EXCI 351; EXCI 353. This course examines the major neural mechanisms involved in the control of posture and movement. Lectures and laboratories.

NOTE: Students who have received credit for EXCI 313 or EXCI 317 may not take this course for credit.
EXCI 421  *Fitness and Sport Management*  (3 credits)
The course considers the administration and management of commercial and community fitness and sports facilities. Concepts include organization of competitive and non-competitive events, budget control, marketing techniques, provincial and federal laws, and safety regulations.

EXCI 436  *Current Topics in Sports Medicine*  (3 credits)
Prerequisite: EXCI 336; EXCI 456. Selected topics from the current literature dealing with health oriented aspects of involvement in sport are examined. Lectures and seminars.

EXCI 452  *Advanced Biomechanics of Human Movement*  (3 credits)
Prerequisite: EXCI 351. This course concentrates on the use of advanced biomechanical techniques in the understanding of dynamic human movement. Topics include link segment modelling, mechanical energy and power techniques, as well as computer applications. Lectures and laboratories.

EXCI 454  *Clinical Kinesiology*  (3 credits)
Prerequisite: EXCI 351; EXCI 414. This course explores the kinematic, kinetic and muscular parameters related to the clinical evaluation of normal and pathological movements.

NOTE: Students who have received credit for EXCI 417 may not take this course for credit.

EXCI 455  *Preventive Medicine and Geriatrics*  (3 credits)
Prerequisite: EXCI 357 or permission of the Department, recommended to be concurrent with EXCI 456. This course examines the role of physical activity as it relates to the physiological, psychological and sociological needs which accompany the aging process. Activities are explored in view of their preventive, rehabilitative and/or adaptive benefit to the aged population. Lectures and laboratories.

EXCI 456  *Physiology of Exercise*  (3 credits)
Prerequisite: EXCI 357. This course examines the acute and chronic physiological responses of the individual's participation in physical activity. Special emphasis is placed on muscle energetics, regulation of metabolic pathways, cardiovascular and respiratory adjustments to exercise. Basic training techniques and exercise prescriptions designed to enhance work capacity are addressed. Lectures and laboratories.

EXCI 457  *Advanced Physiology of Exercise*  (3 credits)
Prerequisite: EXCI 456. The course concentrates on advanced laboratory techniques used in the study of human adaptation to exercise and training. Topics and techniques focus on metabolic, cardiovascular, and respiratory changes associated with activity. Lectures and laboratories.

EXCI 460  *Athletic Therapy Internship*  (6 credits)
Prerequisite: This course is open to Honours students who have completed 60 credits in the Athletic Therapy Option. The course offers a supervised period of work in a rehabilitation or athletic therapy clinic and/or in an emergency or preventative setting with an athletic team. The course involves a commitment of 240 hours which will include specific evaluation procedures and subsequent treatments and a weekly seminar.

EXCI 461  *Community Fitness Science Internship*  (6 credits)
Prerequisite: This course is open to Honours students who have completed 60 credits in the Community Fitness Science Option. The general objective of the Community Fitness Internship is to expose students to a fitness-related environment where they will gain experience in the operation of the fitness industry as it functions in a community and private setting. Throughout the 240 hours, students may be introduced to a variety of specific activities such as: fitness class instruction, fitness testing and evaluation; and programme planning and development.

EXCI 463  *Adapted Physical Activity Internship*  (6 credits)
Prerequisite: This course is open to Honours students who have completed 60 credits in the Adapted Physical Activity Option. The course offers a supervised period of work as activity leader or exercise technician in a hospital or rehabilitation centre or similar institution, a technician assisting in physiological evaluation or a related position. The course involves a commitment of 240 hours including a weekly seminar.

EXCI 468  *Research Internship*  (6 credits)
Prerequisite: This course is open to Honours students who have completed 60 credits in the Pre-Research Option. In consultation with a faculty supervisor, students are given the opportunity to study theoretical, practical and scientific problems in the field of Exercise Science. Students participate in experiments under close supervision of a faculty adviser. At the conclusion of these experiments the student prepares a report and makes a verbal presentation of the findings. The course involves a commitment of 240 hours including a weekly seminar.

EXCI 470  *Scientific Principles of Outdoor Education*  (6 credits)
The course offers a comprehensive analysis of outdoor education. The aims and objectives of outdoor education are examined; organization and administration of model programmes are analyzed; innovative units of instruction and outdoor education programmes are evaluated. Students plan, teach and participate in outdoor learning experiences. Lectures, laboratories, seminars and field study. This is
an intensive four-week summer course that involves participation on some weekends as well as regular classroom study. Alternate summers.

EXCI 472  *Outdoor Education — Administration and Implementation* (6 credits)
The course explores use of the out-of-doors to enrich the school curriculum. In addition, outdoor education as a strategy in the wider context of education is examined. Students receive instruction in skills necessary for planning, administering and implementing outdoor education programmes. The philosophical base for this educational approach is assessed, particularly as it pertains to interdisciplinary methods in the elementary and high school curricula. This is an intensive four-week summer course that involves participation on some weekends as well as regular classroom study. Alternate summers.

EXCI 491  *Independent Study in Exercise Science* (6 credits)
Prerequisite: Permission of the Department. Students work on topic(s) chosen in consultation with their department supervisor. The study can include readings, field studies, interviews, and field work. An in-depth report of the activities conducted by the student is presented to the supervisor upon completion of the course.

EXCI 498  *Advanced Topics in Exercise Science* (3 credits)

EXCI 499  *Advanced Topics in Exercise Science* (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
BSc Programmes
Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profiles).

Students are responsible for satisfying their particular degree requirements.
The superscript indicates credit value.

60 BA Honours in Geography
Pattern A: Physical Geography
Stage I
15 GEOG 211², 267³, 271⁶
Stage II & III
9 GEOG 347³, 361³, 362³
12 Chosen from GEOG 371³, 372³, 373³
Stage III
12 GEOG 369³, 391³, 491³
6 400-level GEOG credits chosen with approval of Geography adviser
3 Elective credits in Geography at the 300-400 level
3 Non-Geography elective credits approved by the Department

Pattern B: Human Geography
Stage I
15 GEOG 211², 267³, 271⁶
Stage II
9 GEOG 347³, 361³, 362³
12 Chosen from GEOG 312³, 315³, 317³, 325³, 331³, 358³, 359³
Stage III
12 GEOG 369³, 391³, 491³
15 Elective credits in Geography at the 300-400 level chosen with approval of Geography adviser
3 Non-Geography elective credits approved by the Department

75 BSc Specialization in Resource Analysis and Land Use
See Section 31.140, Geology

42 BA Major in Geography
Stage I
15 GEOG 211², 267³, 271⁶
Stage II
9 GEOG 347³, 361³, 362³
12 GEOG 305³, 361³, 362³
Stage III
15 GEOG 405³
3 Non-Geography elective credits approved by the Department

60 BA Specialization in Human-Environment Relationships
Stage I
15 GEOG 211², 267³, 275³, 276³
Stage II
12 GEOG 305³, 361³, 362³
Stage III
6 GEOG 405³
27 Chosen from List A and List B including at least 6 credits and no more than 24 credits in Geography. No more than 6 credits may be at the 200 level.
A study of the evolution of the earth's populated areas and the gradual enlargement of economic, social, and political activities.

Selection of a coherent programme must be made in consultation with the departmental adviser. No more than 27 may be Geography credits.

ENVIRONMENTAL GEOGRAPHY
GEOG 362, 371, 372, 373, 498
BIOL 240, 242, 250, 270, 341, 344, 352, 355, 356, 357, 398, 452, 454, 480
PHYS 243, 244, 273, 291, 292
GEOL 212
MATH 210, 271, 310, 371

HYDROLOGY
GEOG 362, 372, 373, 476, 498
BIOL 240, 250, 355, 454
CHEM 302
GEOL 210, 213, 224
MATH 210, 261, 271, 371
PHYS 243, 244, 291, 292, 334, 393

NOTE: Many non-Geography courses require prerequisites that are not part of the Geography Programme.

Students in programmes leading to the BSc degree may take the courses in Geography listed below for credits to be applied to their programme of concentration.

GEOG 267 Introductory Cartography (3 credits)
GEOG 271 The Natural Environment (6 credits)
GEOG 275 Climate and the Biosphere (3 credits)
GEOG 276 Landforms and the Biosphere (6 credits)
GEOG 362 Quantitative Geography I (3 credits)
GEOG 366 Intermediate Cartography (3 credits)
GEOG 371 Biogeography (6 credits)
GEOG 372 Analysis of the Environment (6 credits)
GEOG 373 Climatology (6 credits)
GEOG 462 Advanced Cartography (3 credits)
GEOG 475 Hydrology I (3 credits)
GEOG 476 Hydrology II (3 credits)

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

GEOG 202 Habitat and Society (3 credits)
A general introduction to the relationship between physical and cultural distributions on the earth's surface. Global patterns of human, economic and natural resources are examined.

GEOG 211 Introduction to Human Geography (6 credits)
A study of the evolution of the earth's populated areas and the gradual enlargement of geographical horizons. The emphasis is on cultural distributions, landscape and settlement, and the geography of economic, social, and political activities.

GEOG 267 Introductory Cartography (3 credits)
This course offers a broad overview of the nature and scope of cartography. An examination of the
compilation and design of topographic and thematic maps provides insight into the strengths and limitations of maps as vehicles for representing spatial information. Assignments of a practical nature complementary to the lectures form an integral part of the course.

NOTE: Students who have received credit for GEOG 262 may not take this course for credit.

GEOG 271 The Natural Environment (6 credits)
An introduction to the earth sciences as they relate to the biophysical environment, with special emphasis on weather, climate, and the evolution of landscape.

NOTE: Students who have received credit for either GEOG 275 or 276 may not take this course for credit.

GEOG 273 The Sea (6 credits)
A physical, historical, and human geography of the world ocean. The course includes an introduction to oceanography, navigation, and elementary geophysics, as well as an account of travels and discovery ending with modern scientific exploration of the deeps. Topics include coasts and islands; ports, ships, and shipping; submarine topography; waves, tides, and earthquakes; marine life, fish, and fisheries.

GEOG 275 Climate and the Biosphere (3 credits)
A study of the energy systems of the atmosphere and an introduction to environmental geography. The hydrologic cycle, world climates, and weather systems. Interrelationships in the biosphere and human impact upon them. Weather and climate maps are also studied. Lectures: 3 hours per week, including laboratory.

NOTE: Students who have received credit for GEOG 271 may not take this course for credit.

GEOG 276 Landforms and the Biosphere (3 credits)
An introduction to the energy systems of the earth's crust and oceans, and the processes that have shaped our environment. The evolution of land forms and human impact upon landscapes. The Pleistocene and Recent epochs in Canada, and their effects on soils and land use. The study of relevant topographic land-use maps and aerial photographs. Lectures: 3 hours per week, including laboratory.

NOTE: Students who have received credit for GEOG 271 may not take this course for credit.

GEOG 278 Selected Topics in Geography (3 credits)

GEOG 279 Selected Topics in Geography (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule and the Geography Course Guide.

GEOG 305 Cultural and Historical Perspectives on Human-Environment Relations (6 credits)
Prerequisite: Fifteen credits in Geography. This tutorial provides a conceptual, global, and holistic approach to environmental issues. It examines the role of economy, social institutions and values in shaping human relationships to the environment, and how those relationships have changed over time. It is concerned with applying a geographical perspective to environmental issues, developing theory and concepts and fostering an appreciation of the fundamentally interdependent nature of our world as it relates to the environment, the global dimensions of environmental problems, and the place/time context in which they exist.

GEOG 312 Political Geography (3 credits)
Prerequisite: GEOG 211 or permission of the Department. The course is structured around traditional and contemporary themes in political geography. Emphasis is on the political/administrative organization of space, the interrelationships between politics and environment, electoral geography, and the geographical aspects of public policy.

GEOG 313 Montreal: Habitat and Society (6 credits)
Prerequisite: GEOG 211, or permission of the Department. The course is an introduction to the urban geography of Montreal, both past and present. Three themes are investigated. They are: (a) "habitat": the biophysical environment of the site, the growth of the physical fabric of the city, and the evolution of its architectural forms; (b) "Society and ways of life": the origins and growth of population, the ethnic and cultural heritage of the city, and the pattern of social areas within the metropolitan region; and (c) "the contemporary urban scene": the personality of the city's landmarks, nodes, streetscapes, and districts. Fieldwork is an important part of the course.

GEOG 315 Cultural Geography (3 credits)
Prerequisite: GEOG 211, or permission of the Department. Cultural Geography is concerned with the application of the concept of culture to geographic problems. Attention is focused on the spatial patterning of material and non-material elements of culture (culture areas); on the processes of cultural, temporal, and spatial change; on the relationships between people and land (cultural ecology); and especially on how these relationships are reflected in different ensembles of people and land (cultural landscapes).

NOTE: Students who have received credit for GEOG 316 may not take this course for credit.

GEOG 317 Population Geography (3 credits)
Prerequisite: GEOG 200 or GEOG 211, or permission of the Department. The characteristics, dynamics, and distribution of world populations. Census data and techniques of census analysis. Rural/urban populations and their varying proportions. The vital processes of population change; natural increase
and migration. Growth rates, population policies, and population pressure. Study of selected groups. The demographic prospects.

GEOG 325 Introduction to Historical Geography (3 credits)
Prerequisite: GEOG 211 or permission of the Department. This course aims to develop a geographical understanding of the past for its own sake and for its relevance to interpreting present geographical patterns of population, settlement and economic activity. The focus is on sources and techniques in historical geography. These are demonstrated through case studies of selected themes and problems.

GEOG 331 Urban Geography (6 credits)
Prerequisite: GEOG 211 or URBS 280, or permission of the Department. The course focuses on the contemporary western city. It explores the spatial structure of national systems of cities, and examines internal land use and social and political patterns. A major concern is the application of geographical ideas and concepts to modern urban problems.

GEOG 347 Geography of Canada (3 credits)
Prerequisite: Six credits in Geography or permission of the Department. An overview of the bases of regional differentiation in Canada. The course provides an analysis of cultural landscapes, the space economy and environmental issues.

NOTE: Students who have received credit for GEOG 341 may not take this course for credit.

GEOG 352 Geography of Recreation (3 credits)
Prerequisite: GEOG 211 or 30 credits in the Leisure Studies Programme or permission of the Department. The course examines the geographical aspects of recreation. The approaches followed are from the viewpoints of spatial patterns, landscape analysis and environmental issues. The topics studied are within the framework of (i) recreation in the countryside and (ii) recreation in the city. Specific topics include national parks, recreation land capability analysis, landscape evaluation, and city parks.

NOTE: Students who have received credit for GEOG 356 may not take this course for credit.

GEOG 353 Geography of Tourism (3 credits)
Prerequisite: GEOG 211 or 30 credits in the Leisure Studies Programme or permission of the Department. The course examines the geographical aspects of tourism. Topics studied include: the analysis of tourist flows, the role of tourism in area development, the spatial aspects of selected elements of tourism (such as transportation and marketing), examination of selected areas as tourist destinations, and geographical analysis of resort cities.

NOTE: Students who have received credit for GEOG 356 may not take this course for credit.

GEOG 357 Resource Analysis (6 credits)
Prerequisite: GEOG 211, or permission of the Department. Focus is on the geographer's role in resource analysis. Problems of resource inventories and allocations between users, present and future, are examined with examples drawn from land use, energy, forestry and fishing. The allocation question includes problems of perceptions and attitudes of resource users. Attention is given to natural hazard research, and to institutional and policy models for resource management.

GEOG 358 Economic Geography I (3 credits)
Prerequisite: GEOG 211 or permission of the Department. This course deals with the spatial organization of agricultural land use, industrial patterns and networks, with some attention given to tertiary activities and urban land use. The focus is on the classical location theories — Von Thunen, Weber, Lösch and Christaller — and their application to behaviour in the real world, characterized by individual and corporate decision-making. Selected examples of real-world distribution are considered.

GEOG 359 Economic Geography II (3 credits)
Prerequisite: GEOG 211; GEOG 358, or permission of the Department. The aim is to integrate the various aspects of GEOG 358 by focusing on the question of regional systems and development. The course examines various models of regional structure, such as: the heartland-periphery paradigm and integrated spatial systems. Consideration is given to current restructuring of the spatial division of labour.

GEOG 361 Introduction to Geographical Research (3 credits)
Prerequisite: Six credits in Geography, or permission of the Department. The course introduces students to the methods and techniques used to acquire original geographical information in the field, laboratory, and archives. The course may include a week-end field camp.

GEOG 362 Quantitative Geography I (3 credits)
Prerequisite: Twelve credits in Geography, or permission of the Department. An introductory course in the applications of descriptive and analytical statistical techniques in Geography. Lectures and laboratory. NOTE A/See §200.7

GEOG 366 Intermediate Cartography (3 credits)
Prerequisite: Permission of the Department. The focus of this course is the detailed study of the nature of graphic variables together with their implementation, by traditional and computer methods, in black and white small scale mapping. The course includes lectures, seminars, practical assignments and relevant field trips.

NOTE: Students who have received credit for GEOG 262 may not take this course for credit.
GEOG 369  *Field Studies in Geography*  (3 credits)
Prerequisite: GEOG 361, or permission of the Department. A field course in which a selected area is intensively studied.

GEOG 371  *Biogeography*  (6 credits)
Prerequisite: GEOG 271, or permission of the Department. A study of the distribution of plants and animals, with emphasis on their soil and climatic inter-relations. Relevant field trips are included.

GEOG 372  *Analysis of the Environment*  (6 credits)
Prerequisite: GEOG 271, or permission of the Department. A review of modern theories and techniques in geomorphology, hydrology, pedology, denudation, chronology, and landscape classification. The course includes a discussion of the Pleistocene Epoch in terms of applied research methods.

GEOG 373  *Climatology*  (6 credits)
Prerequisite: GEOG 271, or permission of the Department. The broad aspects of world regional climates considered from the point of view of both physical and dynamic climatology. The course includes practical work.

GEOG 391  *History of Geographical Thought*  (3 credits)
Prerequisite: Eighteen credits in Geography or permission of the Department. A study of the development of the field of geography from ancient times down to the present. Representative geographical works of the Greeks, the Romans, and of the Middle Ages, the Age of Discovery, the nineteenth and twentieth centuries are examined and discussed. The present-day concepts of the field and function of geography receive special attention.

GEOG 398  *Selected Topics in Geography*  (3 credits)

GEOG 399  *Selected Topics in Geography*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule and Geography Course Guide.

GEOG 405  *Geographic Perspectives on Current Environmental Problems and Issues*  (6 credits)
Prerequisite: GEOG 305. This is the second of a linked pair of tutorial courses. It examines environmental planning and management, and the context, method and practice of environmental impact assessment. The course uses a case-study approach to these topics.

GEOG 433  *Applied Urban Geography*  (6 credits)
Prerequisite: GEOG 331, or permission of the Department. An applied course in urban design and land use planning. An overview of current theory and practice is balanced, during the second term, by studio planning projects emphasizing a team approach.

*NOTE: Students who have received credit for GEOG 401, INTE 480 or URBS 433 may not take this course for credit.*

GEOG 462  *Advanced Cartography*  (3 credits)
Prerequisite: GEOG 366. This course exposes students to many of the issues and problems faced by the cartographer in compiling, designing and producing colour maps. A laboratory assignment of a practical nature forms an important part of the course.

*NOTE: Students who received credit for GEOG N-466 in 1975-76 may not take this course for credit.*

GEOG 475  *Hydrology I*  (3 credits)
Prerequisite: GEOG 271, and one of GEOG 371, 372, or 373, or permission of the Department. Theories and practice of hydrology, with emphasis on geographical aspects and resource utilization. Includes introduction to glaciology.

GEOG 476  *Hydrology II*  (3 credits)
Prerequisite: GEOG 475. Soil moisture experiments, textural analysis, hydrological models, and field trips.

GEOG 491  *Honours Essay*  (6 credits)
Prerequisite: Permission Essay. The course requires the student to propose and conduct a research project and to produce a substantial report under the supervision of a faculty adviser.

GEOG 498  *Advanced Topics in Geography*  (3 credits)

GEOG 499  *Advanced Topics in Geography*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule and Geography Course Guide.

GEOGRAPHY
In addition to programmes in geology, the Department, in cooperation with Physics, Chemistry and Biochemistry, Geography and Biology Departments, offers four geology-based interdisciplinary programmes. The Geology-Physics and Geology-Chemistry programmes are designed for students who wish to pursue careers in Geophysics and Geochemistry respectively, through subsequent job training or graduate studies. The programme in Resource Analysis and Land Use is designed to develop the conceptual and technical facility to enable graduating students to make objective judgements regarding the resource potential and land use of a geographical region. The programme in Geology-Ecology is designed to provide a strong foundation in geology with an orientation towards ecology as a subdiscipline of biology.

Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profiles).

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

J.T. JENKINS
S. KUMARAPELI
G.P. SASSANO
GEOL 202 Oceanography (3 credits)
Geomorphology of the ocean floor, with emphasis on the significance of the mid-oceanic ridges and trench systems. The physical and chemical characteristics and circulation of ocean waters and their causes. Tides and waves. Distribution and origin of terrigenous, biogenous, chemogenic, volcanogenic, and polygenic sediments in the ocean basins. Conditions of oceanic sedimentation. Quantitative distribution of suspended sedimentary materials at the ocean bottom. Size composition of suspensions and bottom sediments. Economic resource potential of the oceans. Lectures only.

NOTE: Students in degree programmes in Geology may not take this course for Geology credits.

GEOL 203 Introduction to Environmental Geology (3 credits)
Prerequisite: None; GEOL 210 recommended. Geology in the ecosystem. The earth’s atmosphere, hydrosphere, lithosphere, and biosphere in geologic time. Long-range geological effects of ecosphere pollution. Trace nutrients and health, with emphasis on the geology of trace-elements and their cause and effect on biological systems. Understanding of, control for, and prevention of natural hazards. Changes in the earth’s climate. Role of Geology in land use. Lectures only.

NOTE: Students in degree programmes in Geology may not take this course for Geology credits.

GEOL 205 Non-Renewable Resources (3 credits)
Prerequisite: None; GEOL 210 recommended. Rocks and ore minerals. Present and future availability of earth resources. The nature, classification, and mode of occurrence of mineral deposits. Exploration, development, and rational exploitation of mineral resources. Elements of mining economics. Distribution of oil, gas, coal, and base-metal deposits. Evaluation of the effects of mining operations on environment. Lectures only.

NOTE: Students in degree programmes in Geology may not take this course for Geology credits.

GEOL 206 Earthquakes, Drifting Continents and Volcanoes (3 credits)
Prerequisite: None. The aim of the course is to provide an up-to-date account of our present knowledge of earthquakes and volcanoes and their global connections which are of general interest for students with little or no previous background in earth science. Areas of concentration are: nature, distribution and causes of earthquakes and volcanic eruptions, earthquake waves and their effects, measuring earthquakes, great earthquakes and volcanic eruptions in world history, products of volcanic eruptions, four billion years of volcanism on the Earth and elsewhere in the solar system. Prediction of earthquakes and volcanic eruptions and global connections between earthquakes, drifting continents and volcanoes. Lectures only.

NOTE: Students in degree programmes in Geology may not take this course for Geology credits.

GEOL 207 North America and the Great Ice Age (3 credits)
Prerequisite: None. The aim of the course is to present the major principles of geology upon which our knowledge of the ice age is based. Areas of concentration are: the development of the glacial the-
ory, glaciers and glacialiation, tracking ancient glaciers, glacial chronology in North America, two million years of cold spells and warm spells, earlier glaciations, causes of glacial climates, speculations for the future and the effect of glacial loads on the earth's crust. Lectures only.

NOTE: Students in degree programmes in Geology may not take this course for Geology credits.

GEOL 208  The Earth, Moon and the Planets  (3 credits)
Prerequisite: None. The course emphasizes the cosmic perspective of the Earth and focuses attention on how the results of the last two decades of planetary exploration have brought about an intellectual revolution concerning the planets, especially their surface features, processes and histories. Lectures only.

NOTE: Students in degree programmes in Geology may not take this course for Geology credits.

GEOL 210  Physical Geology  (3 credits)
Prerequisite: None. An elementary study of minerals and rocks, and of the internal and external processes which shape the earth's surface. Laboratory work deals with identification of minerals, rocks, and fossils, as well as interpretation of topographic and geologic maps. Field trips to Mount Royal, Eastern Townships, and Laurentians. Lectures and laboratory.

GEOL 211  Mineralogy I  (3 credits)
Prerequisite: None. Physical and chemical properties of minerals. Crystallography, crystal notation, stereographic projection. Crystal structures. Identification, description, and classification of minerals. One or two field trips near Montreal. Lectures and laboratory.

GEOL 212  Invertebrate Paleontology  (3 credits)
Prerequisite: GEOL 210, or equivalent. A systematic survey of major invertebrate fossil groups, with chief emphasis on morphology, classification, and geologic occurrence. Study of principles of evolutionary concepts and zonation. Some selected discussion on paleoecology. Lectures and laboratory.

GEOL 213  Structural Geology I  (3 credits)
Prerequisite: GEOL 210 or equivalent, previously or concurrently or permission of the Department. Major structural features of the Earth; principles of rock deformation; primary structures in igneous and sedimentary rocks and their significance. Classification and analysis of folds and fractures, study of secondary structures associated with folding. Laboratory deals with structural problems solved by orthographic and stereographic methods. Several field trips to selected outcrop areas, with reports. Lectures and laboratory.

GEOL 216  Field Methods  (3 credits)
Prerequisite: GEOL 213; GEOL 231. Elements of surveying, construction of base maps. Geological field methods: description and recording of geological field data, construction of geological maps. Collection and presentation of field data in exploration geophysics and exploration geochemistry. One lecture per week in the Winter Session and two-week field school in the Spring, immediately after the final examinations.

GEOL 224  Introduction to Remote Sensing and Terrain Analysis  (3 credits)
Prerequisite: GEOL 210 or GEG 271. GEOL 213 recommended. An introduction to a variety of remote sensing techniques including aerial photography, airborne magneto meter surveys, aerial thermography, side-looking aerial radar and multispectral scanning imagery from satellites. Emphasis is placed on geological and geographical applications of terrain analysis. LANDSAT imagery, airphoto, stereopairs, and aeromagnetic maps are used in the laboratory for the analysis of a number of selected areas. Lectures and laboratory.

NOTE: Students who have received credit for GEOL 215 may not take this course for credit.

GEOL 231  Physics of the Earth  (3 credits)
Prerequisite: CEGEP Mathematics 103; 203; CEGEP Physics 301; GEOL 210 or equivalent. This course is directed toward the general understanding of physical phenomena of the solid earth. Subjects for consideration include the following: earth's origin, age, radioactivity, magnetism, gravity field, seismology, heat flow, structure and physical state of the earth's interior. Lectures and laboratory.

NOTE: Students who have received credit for GEOL 221 may not take this course for credit.

GEOL 232  Introduction to Geochemistry  (3 credits)
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103; CEGEP Mathematics 203; GEOL 210. The course focuses on the application of concepts of elementary chemistry to geological problems. Subjects for consideration include: application of thermodynamics to geological problems, phase equilibria relationships in petrogenesis, partitioning of elements, crystal chemistry, distribution of elements, chemistry of natural waters including properties of water at high temperatures and pressures. Lectures and laboratory.

NOTE: Students who have received credit for GEOL 223 may not take this course for credit.

GEOL 298  Selected Topics in Geology  (3 credits)

GEOL 299  Selected Topics in Geology  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
**Analytical Methods in Geochemistry** (6 credits)
Prerequisite: CEGEP Chemistry 201; CEGEP Physics 301; CEGEP Mathematics 103; CEGEP Mathematics 203; or equivalent courses. Chemical equilibrium as applied to volumetric and gravimetric procedures; general theory of volumetric titrations; titration curves; application of general titration theory to neutralization precipitation; complexation oxidation-reduction and nonaqueous solvent titrations; theory of potentiometry and potentiometric titrations; theory of gravimetric analysis; methods of separation by chemical and physical means; electrogravimetry and electrolytic separations; absorbometric theory and absorbometric methods of analysis. Analyses of major and minor components of geological material. Lectures and laboratory.

**Geostatistics and Computer Applications in Geology** (3 credits)
Prerequisite: GEOL 210, or equivalent. Statistical analysis and computing methods applied to geological problems. Lectures and laboratory.
GEOL 331 **Historical Geology** (3 credits)
Prerequisite: GEOL 212; GEOL 213; or permission of the Department. Fundamental concepts in Historical Geology; principles of stratigraphy, paleogeography and geochronology. A systematic review of the geological history of the Earth, and development of life forms from the Precambrian to Recent. Geological evolution of classical areas with special attention to the North American continent. Studies of stratigraphic sections and geological maps. Lectures and laboratory.
*NOTE: Students who have received credit for GEOL 310 may not take this course for credit.*

GEOL 332 **Economic Geology** (3 credits)
Prerequisite: GEOL 311 previously or concurrently. The course deals with the genetic concepts leading to the formation of metallic and non-metallic mineral deposits, their classification, world distribution and economic evaluation. Concepts related to zonation, metallogenic provinces, metallocrysts, and exploration and evaluation of mineral deposits are also dealt with. Laboratory includes examination and study of selected ore-suites from the most important mining camps, ore reserve calculations, core logging and economic feasibility studies of classical mineral deposits. Lectures and laboratory.
*NOTE: Students who have received credit for GEOL 317 may not take this course for credit.*

GEOL 390 **Petrology** (3 credits)
Prerequisite: GEOL 311; GEOL 313. Microscopic study of thin sections of common igneous, metamorphic and sedimentary rocks. Selected topics in petrogensis. Lectures and laboratory.
*NOTE: Students who have received credit for GEOL 411 may not take this course for credit.*

GEOL 398 **Selected Topics in Geology** (3 credits)

GEOL 399 **Selected Topics in Geology** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

GEOL 411 **Igneous and Metamorphic Petrology** (6 credits)
*NOTE: Students who have received credit for GEOL 390 may claim only three credits for this course.*

GEOL 413 **Sedimentary Petrology** (3 credits)
Prerequisite: GEOL 311; GEOL 313. General principles of sediment diagenesis, followed by detailed analysis of the diagenetic evolution of sandstone, shale, and carbonate rocks. Emphasis is placed heavily on the microscopic criteria in the recognition of diagenetic fabric. Problems of primary sedimentary structures and their hydro-dynamic interpretation are also discussed. Specialized topics on current development in sedimentary lithogenesis are also included. Lectures and laboratory.

GEOL 414 **Undergraduate Research** (6 credits)
Prerequisite: For Third-Year Honours students. Honours students in their final year are expected to show competence in isolating and examining a geological problem under the supervision of a faculty adviser. A written application to take the course, including a brief outline of the research project, must be made to the Department before April 15 of the second year. The application is reviewed by a committee and a decision forwarded by mail. The results of research must be presented in the form of an undergraduate thesis, two copies of which must be submitted by April 1.
*NOTE: Written requests from Specialization students, with appropriate academic records, to take the course will be considered.*

GEOL 415 **Plate Tectonics and Crustal Evolution** (3 credits)
Prerequisite: GEOL 213; GEOL 231; GEOL 311. Techniques of data collection in tectonics. Structure and rheology of the upper mantle. Tectonics of crustal types to include shields, platforms, passive continental margins, Phanerozoic foldbelts, continental rifts, island-arc trench belts and oceanic rises. Sea-floor spreading, plate tectonics, magma associations and plate reconstructions. Crustal origin and growth. Lectures and laboratory.
*NOTE: Students who have received credit for GEOL 315 may not take this course for credit.*

GEOL 417 **Mineral Deposits** (3 credits)
Prerequisite: GEOL 332; GEOL 390 or GEOL 411 previously or concurrently. The course deals with the study of ore deposits generated by magmatic segregation, contact metasomatic, hydrothermal, volcanicogenic, sedimentary and supergene enrichment processes. Concepts of geothermometry, geobarometry and stable isotopes are also dealt with. Examples of particular geological interest from the most representative mining districts of the world. Laboratory includes petrological examination of metallic suites, fluid inclusion and Vickers microhardness tests. Lectures and laboratory.
*NOTE: Students who have received credit for GEOL 416 may not take this course for credit.*

GEOL 421 **Exploration Geochemistry** (3 credits)
Prerequisite: GEOL 311, or permission of the Department. Basic principles; primary and secondary dispersion processes and their significance in geochemical exploration; field and analytical techniques
GEOL 422 Exploration Geophysics (3 credits)
Prerequisite: GEOL 231, or permission of the Department. A brief study of the principles of magnetic, gravimetric, electric, and seismic methods of mineral exploration; interpretation of geophysical data; organization of exploration programmes; selected case histories. Lectures and laboratory.

GEOL 423 Introduction to X-ray Crystallography (3 credits)
Prerequisite: GEOL 312. The nature of X-rays, diffraction, the reciprocal lattice, powder diffractometer, powder cameras, single-crystal methods. Laboratory work stresses the techniques of powder diffraction and precession photography. Lectures and laboratory.

GEOL 424 Engineering Geology (3 credits)
Prerequisite: GEOL 210; or equivalent (GEOL 213 and GEOL 224 are recommended). Engineering properties of rocks and soils. Landslides, groundwater, frost action, and permanently frozen ground. Application of geology to engineering problems—concrete petrology, tunnels, slope control, foundations, roads, airports, dams, and reservoirs. One term paper to be prepared. The laboratory period includes field trips, engineering geology case histories, and feasibility study of engineering geology problems. Lectures and laboratory.

GEOL 425 Fossil Fuels (3 credits)
Prerequisite: GEOL 314; GEOL 415, previously or concurrently or permission of the Department. Origin and accumulation of petroleum hydrocarbons and coal. Distribution of oil, natural gas, and coal deposits as a function of geological environments. Geology of major oil and coal fields of the world. Global energy requirements and production forecasts. Lectures and laboratory.

GEOL 498 Advanced Topics in Geology (3 credits)

GEOL 499 Advanced Topics in Geology (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

### 60 BA Honours in History

The following courses in an approved sequence constitute Honours in History. Students intending to enter the Honours programme are advised to consult with the Department.

6 HIST 201\(^3\), 202\(^3\) (European)
6 HIST 203\(^3\), 205\(^3\) (Canadian)
6 HIST 200 level (Non-Western) or HIST 251\(^3\), 253\(^3\) (American)
6 HIST 200- or 300-level courses (6 credits or 3 credits)
6 HIST 397\(^4\) (required Honours Seminar)
12 HIST 300-level courses (6 credits or 3 credits)
6 HIST 493\(^4\) (Honours Essay Tutorial)
12 HIST 400-level courses (6 credits) or related course(s) in another Department with History Department approval.

### 60 BA Specialization in History

6 HIST 201\(^3\), 202\(^3\) (European)
6 HIST 203\(^3\), 205\(^3\) (Canadian)
6 HIST 200 level (Non-Western) or HIST 251\(^3\), 253\(^3\) (American)
6 HIST 200-level courses (6 credits or 3 credits)
24 HIST 300-level courses (6 credits or 3 credits)
12 HIST 300- (6 credits or 3 credits) or 400-level courses (6 credits) or related course(s) in another Department with History Department approval.

### 60 BA Joint Specialization in English and History

6 Genre, critical reading and survey courses from ENGL 256\(^6\), 257\(^6\), 258\(^6\), 271\(^6\), 275\(^6\), 277\(^6\), 280\(^6\), 281\(^6\), 282\(^6\), 283\(^6\), 284\(^6\) (to be taken in the first 24 credits in the programme)
6 Periods before 1800 (British and European) from ENGL 310\(^6\); ENGL 315\(^6\) through ENGL 318\(^6\); from ENGL 320\(^6\) through ENGL 335\(^6\)
6 North American (Canadian and American) from ENGL 290\(^6\), 293\(^6\), 300\(^6\), 301\(^6\), 311\(^6\), 319\(^6\), 355\(^6\), 367\(^6\), 369\(^6\), 370\(^6\), 371\(^6\), 372\(^6\), 375\(^6\), 379\(^6\)
6 19th Century and 20th Century (British and European) from ENGL 305\(^6\), 306\(^6\), 307\(^6\), 308\(^6\), 338\(^6\), 339\(^6\), 340\(^6\), 342\(^6\), 343\(^6\), 344\(^6\), 348\(^6\), 352\(^6\), 353\(^6\), 355\(^6\), 356\(^6\), 357\(^6\), 358\(^6\), 359\(^6\), 366\(^6\), 390\(^6\), 392\(^6\), 459\(^6\)
6 ENGL elective credits from ENGL 224 to ENGL 499
18 HIST credits chosen from two different historical periods to parallel English courses to be chosen in consultation with the departments
12 HIST elective credits

### 42 BA Major in History

6 HIST 201\(^3\), 202\(^3\) (European)
6 HIST 203\(^3\), 205\(^3\) (Canadian)
6 HIST 200 level (Non-Western) or HIST 251\(^3\), 253\(^3\) (American)
18 Chosen from any HIST 300-level courses (6 credits or 3 credits)
6 Chosen from any HIST 300- (6 credits or 3 credits) or 400-level courses (6 credits)

24 Minor in History
12 HIST 200-level (Field Surveys), HIST 201\textsuperscript{2}, 202\textsuperscript{2} (European) or HIST 203\textsuperscript{2}, 205\textsuperscript{2} (Canadian) or (Non-Western) or HIST 251\textsuperscript{2}, 253\textsuperscript{2} (American)
6 HIST 200-level courses (6 credits or 3 credits)
6 HIST 300-level courses (6 credits or 3 credits)

30 Minor or Certificate in the History of Quebec
This programme is designed to prepare teachers at both the Secondary and CEGEP levels to offer courses in the History of Quebec. It also provides an outline of study for those who are generally interested in the topic of Quebec History.

---

**Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.**

**N.B.:** (1) 300-level courses are generally open only to students who have successfully completed at least 12 credits of 200-level History courses (normally 201-202, European, and 203-205, Canadian). Aside from designated cross-listed offerings, qualified non-History students may be admitted to 300-level courses with the permission of the Department.

(2) 400-level seminars normally open to honours students or students of high academic standing or permission of the Department.

**HIST 201 Introduction to European History to 1789** (3 credits)
A survey of the history of Europe to the French Revolution, with emphasis on the development of ideas and political institutions.

**HIST 202 Introduction to European History, from 1789 to the Present** (3 credits)
A survey of the history of Europe from the French Revolution to the present, with emphasis on the development of ideas and political institutions.

**HIST 203 History of Canada, Pre-Confederation** (3 credits)
A survey of Canadian history, from settlement to Confederation, emphasizing readings and discussions on selected problems.

**HIST 205 History of Canada, Post-Confederation** (3 credits)
A survey of Canadian history from Confederation to the present, emphasizing readings and discussions on selected problems.

**HIST 206 Introduction to the Non-Western World I** (3 credits)
By giving an account of the worlds of Asia, Africa and the Americas between c. 1400 and c. 1900 we seek to show the interplay between local and international historical developments in the making of the global economy. In this course we study both the largely autonomous developments of such centres of civilization as China and the Ottoman Empire and the effects on the non-Western world of European expansion. The course ends with a discussion of the Age of Empire.

**HIST 207 Introduction to the Non-Western World II** (3 credits)
Continuing from HIST 206 (which is not a necessary prerequisite) this course is concerned with the period from the late nineteenth century up to the period of the "Third World" in the 1960s. It principally focuses on the objects and effects of colonialism, anti-colonial struggles, the emergence of the non-aligned bloc and Western interventionism.

**HIST 209 Quebec to 1867** (3 credits)
An introductory survey of the history of Québec from its origins as a colony to the creation of modern Canada by the British North American Act of 1867. Particular emphasis is placed on a consideration of those elements of Québec's past which best assist in the comprehension of the trends prevalent in modern Québec.

**HIST 210 Quebec since Confederation** (3 credits)
A survey of the history of Québec from the time of Confederation until the present. While due emphasis
is placed on political developments in the Province, the purpose of the course is to acquaint the student with the significant economic and social trends in modern Québec.

HIST 211  Canadian Business History  (3 credits)
This course looks at the forces influencing the history of Canadian business from the French régime to the present. The nature of business organization, the sources of capital and the relationship between government and business are among the factors to be considered.
NOTE: Students who have received credit for HIST 316 may not take this course for credit.

HIST 215  History of Recreation and Leisure in Canada  (3 credits)
A survey of the history of recreation and leisure from the time of European contact with native peoples to the present day. It is placed in the context of Canadian history to examine such phenomena as European and American influences on Canada, effects of urbanization, the roles of women in society, and the commercialization of leisure. Recreation and leisure are understood to include not only sports and games but such activities as rural bees, education, drinking, gambling, and celebrations. The course also provides an introduction to the historical literature on recreation and leisure, and to the discipline of History.

HIST 219  (also given as CLAS 230) Ancient Near East  (3 credits)
A survey of the political, social, economic, and intellectual history of the Ancient Near East, from the Neolithic age to the Indo-European invasions of the early 2nd Millennium, with special emphasis placed upon the problem of the emergence of civilization in Mesopotamia, Egypt, and the Indus valley. Ancient sources utilized wherever possible.

HIST 223  (also given as CLAS 240) Greek History I  (3 credits)
A political, social, economic, and cultural history of Greece from Minoan — Mycenaean times to the end of Classical Greek civilization in the fourth century B.C., with special emphasis placed upon fifth-century Athens.

HIST 224  (also given as CLAS 241) Greek History II  (3 credits)
A political, social, economic, and cultural history of the Greek World from Alexander the Great to the Roman conquest of Greece in 146 B.C. While due attention is paid to developments within the Hellenistic kingdoms and to the later Greek achievements in art, literature, science, philosophy, and religion, the process of fusion of Hellenism with the orient—vital for the evolution of Judaism, Christianity, and Islam—is extensively explored.

HIST 225  (also given as CLAS 242) History of Rome  (3 credits)
A study of the various aspects of the history of Rome from the city's origins to the establishment of the Roman Empire under the Emperor Augustus. The main theme of this course is the growth of the city of Rome from an early settlement on the Tiber River to mistress of the Mediterranean world. The ideologies and institutions of Republican Rome are analyzed in detail, and a study is made of the transitional period that later on came to form the basis of the Roman Empire. The timespan with which this course is concerning itself is from 753 B.C. to 27 B.C.

HIST 226  (also given as CLAS 243) History of the Roman Empire  (3 credits)
A political, economic, cultural, and social history of the Roman Empire from the reign of Augustus to Constantine I the Great(27 B.C.—A.D. 337). Attention is given to both the civil and military administrations of the Roman Empire. The course explores the transitions, first from Republic to Empire and then to the Christian Empire. Particular attention is given to the fundamental changes in society; to the continuity of Roman law and administrative structures in the Later Roman Empire based no longer on Rome but on the newly founded capital of Constantinople.

HIST 251  History of the United States to 1877  (3 credits)
Survey of American history from settlement to 1877. The course deals with the political and economic framework of American history, and with social and cultural trends.

HIST 253  History of the United States since 1877  (3 credits)
Survey of American history from 1877 to the present. The course deals with the political and economic framework of American history, and with social and cultural trends.

HIST 261  History of India  (3 credits)
An introduction to the intellectual traditions, social structures, and political institutions of South Asia, with particular attention to developments during the past two centuries.

HIST 262  History of China  (3 credits)
A survey of China's history from earliest times to the modern era.

HIST 263  History of Japan  (3 credits)
A survey of Japan's history from earliest times to the modern era.

HIST 264  History of Africa  (3 credits)
An introductory survey of African history from the fifteenth century to the present. Particular emphasis
is placed on pre-colonial Africa and the impact of colonialism on its political and economic patterns.

NOTE: Students who have received credit for HIST 270, or 271, or 272, or 278, or 279 may not take this course for credit.

HIST 281 History of the Cold War (3 credits)
This course examines the early signs of friction between the Great Powers during World War II and the diplomatic breakdown of relations after the common triumph over the Axis Powers. The course also examines the two different world views projected by the Super Powers and the long chain of events which led to near disaster in the Cuban Missile Crisis.

HIST 282 Arms Race and Arms Control (3 credits)
A survey of the nuclear arms race since the 1930s. This course places special emphasis on furnishing students with the knowledge to participate intelligently in contemporary nuclear debates. (This course has previously been offered as a 300-level slot course.)

HIST 283 World History (6 credits)
A survey for non-majors in History, designed principally for students in other departments and faculties, emphasizing basic concepts, comparative study, and awareness of global patterns of historical development. Development of writing and research skills is stressed in conference.

HIST 298 Selected Topics in History (3 credits)
HIST 299 Selected Topics in History (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

HIST 300 British North America to the 1840s (3 credits)
Prerequisite: See N.B. number (1). An advanced study of British North America focusing on the social, economic, political and cultural development of the colonies.

HIST 301 Canada from the 1840s to the 1890s (3 credits)
Prerequisite: See N.B. number (1). An advanced study of Canada in the period of its modernization. A blend of social, economic, political and cultural approaches is taken.

HIST 307 History of Montreal (3 credits)
Prerequisite: See N.B. number (1). A study of the origins of the city, its role in the Empire of the St. Lawrence, and its rise to metropolitan dominance in Canada. Special emphasis on economic development and on ethnic groupings.

HIST 308 History of English-Speaking Quebec (3 credits)
Prerequisite: See N.B. number (1). An analysis of the experience of the different groups which have made up this community, from the Conquest to the present.

HIST 309 History of the Canadian North (3 credits)
Prerequisite: See N.B. number (1). An intensive study of the advance of the northern frontier of Canada, with emphasis on the period 1840-1945. The course stresses exploration, problems of sovereignty, conflict of cultures, and economic development.

HIST 310 Canada in the Early Twentieth Century, 1896-1929 (3 credits)
Prerequisite: See N.B. number (1). An intensive study of early twentieth-century Canada concentrating on selected themes in economic, political, social and cultural history.
NOTE: Students who have received credit for HIST 312 may not take this course for credit.

HIST 311 Contemporary Canada, 1930s to the Present (3 credits)
Prerequisite: See N.B. number (1). An intensive study of Canada since the 1930s concentrating on selected themes in economic, political, social and cultural history.
NOTE: Students who have received credit for HIST 312 may not take this course for credit.

HIST 313 Quebec in the Nineteenth Century (3 credits)
Prerequisite: See N.B. number (1). This course explores the major social, economic and political issues that arose during the 1800s in the transformation of Quebec from a pre-industrial to an industrial society.
NOTE: Students who have received credit for HIST 315 may not take this course for credit.

HIST 314 Quebec in the Twentieth Century (3 credits)
Prerequisite: See N.B. number (1). This course explores the major social, economic and political issues of twentieth-century Quebec in the light of the concentration of economic power into relatively few hands early in the century and the declining importance of industrial production since World War II.
NOTE: Students who have received credit for HIST 315 may not take this course for credit.
HIST 317 Canada Views the United States (3 credits)
Prerequisite: See N.B. number (1). An examination of Canadian attitudes to the United States from 1776 to the present, with respect to both specific incidents and general trends. Emphasis is placed on the discussion of primary source material.

HIST 319 Literary History of Twentieth-Century Canada (3 credits)
Prerequisite: See N.B. number (1). An examination of some of the major themes of Canadian history in the twentieth century as seen by Canadian novelists, English and French. Themes studied include the struggle for survival; regional, ethnic, and religious plurality; and the response to urbanization and industrialization.

HIST 320 United States, 1890-1932: The Rise of Modern American Society (3 credits)
Prerequisite: See N.B. number (1). This course offers an intensive examination of American history in this period beginning with the decline of the farmers' movement and ending with the arrival of the economic crisis of the 1930's. Industrialization, the development of the corporation, trade unionism, immigration, and racial conflict are some of the major themes discussed.
NOTE: Students who have received credit for HIST 354 may not take this course for credit.

HIST 321 Contemporary America, 1932 to the Present (3 credits)
Prerequisite: See N.B. number (1). The immediate historical background of today's America is the subject matter of this course. Major themes include: feminism, civil rights, and the rise and fall of the New Deal political coalition.
NOTE: Students who have received credit for HIST 354 may not take this course for credit.

HIST 322 History of Medieval Europe (6 credits)
Prerequisite: See N.B. number (1). A study of European society from the fall of Rome to the end of the fourteenth century. The Medieval era is examined in its typical institutions: the Holy Roman Empire; the Papacy; Feudalism; guilds and towns. Developments and changes leading to the formation of modern society are analyzed.

HIST 324 History of Byzantium, 602-1453 (6 credits)
Prerequisite: See N.B. number (1). A survey of the transformation from the Late Roman Empire into the Byzantine commonwealth, and changes in economic and social conditions. Special attention is given to the reorganization of administrative and military structures, the relationship between Byzantium and its Balkan neighbours, the Arab conquest, and the rising importance of Asia Minor.

HIST 325 Renaissance Europe (3 credits)
Prerequisite: See N.B. number (1). This course explores the transition from later Medieval to Renaissance Europe. Special attention is given to the nature, development and influence of the Italian Renaissance. Attention is also given to social and political issues in early modern Europe.

HIST 326 Reformation and Counter-Reformation in Early Modern Europe (3 credits)
Prerequisite: See N.B. number (1). An examination of the European Reformation and Counter-Reformation. Beginning with the late medieval context, the course stresses the significance of the period for the development of Western thought and society.

HIST 328 Social and Intellectual History of Early Modern Europe (6 credits)
Prerequisite: See N.B. number (1). A study of change and continuity in European society and culture, 1300-1650. Problems studied include feudal-capitalist relationships, the Italian Renaissance, Northern State Development, Protestant Reformation, Scientific Revolution, and European Colonial expansion. Methodological issues are emphasized.

HIST 329 Women in Western History, I (3 credits)
Prerequisite: See N.B. number (1). A survey of the position and roles of women in Western history from antiquity to the French Revolution. Themes analyzed in the lectures and in discussions include: Women's position in early law; the concept of courtly love; women in the French Revolution; the working woman in the pre-industrial Europe.

HIST 331 Women in Western History, II (3 credits)
Prerequisite: See N.B. number (1). A survey as above but covering the period from after the French Revolution to modern times. Themes analyzed in the lecture and in discussions include: Women in the post-industrial Europe; the Suffrage Movement; the Feminist Movement in Europe and North America; women during the two World Wars; women in the modern work-force.

HIST 332 Social History of Costumes and Interiors I (3 credits)
Prerequisite: See N.B. number (1). A social history of European civilization as reflected by fashions in dress and interiors. Dress especially mirrors a society's ideals in esthetics and morals; interiors indicate lifestyles and social habits. Both costumes and interiors are treated in this course as an illustration of social history underscored social change as from era to era. The course covers a time span from the Middle Ages to the Renaissance, including a brief introduction to the classical period.
HIST 333  Social History of Costumes and Interiors II  (3 credits)
Prerequisite: See N.B. number (1). Based on the same principles as HIST 332, this course covers a time-span from the Reformation to the Victorian Age.

HIST 334  Social and Intellectual History of Modern Europe  (6 credits)
Prerequisite: See N.B. number (1). The intellectual systems arising in Europe since the seventeenth century are explored in the context of the economic and social circumstances which engendered them. This course begins with the rise of theories of "possessive individualism", and ends with the contemporary cultural crisis. While attention is paid to the general dynamics of culture, special attention is devoted to the social functions of particular ideologies.

HIST 342  History of England Since 1460  (6 credits)
Prerequisite: See N.B. number (1). A survey of the political, economic and social development of England from the fifteenth to the twentieth century. Emphasis is placed on the evolution of governing institutions in the early period, on the economic and political changes of the eighteenth and nineteenth centuries, and on the growth of the social-service state.

HIST 343  Social and Economic History of Britain, 1500-1900  (6 credits)
Prerequisite: See N.B. number (1). A study of the transition from a feudal to a modern industrial society. Attention is given to the leading features of industrial, agricultural, commercial, and financial change and their impact on the structure of society.

HIST 344  Tudor England  (3 credits)
Prerequisite: See N.B. number (1). A detailed examination of the political, social and economic aspects of England in the Tudor age, 1485-1603. Particular attention is paid to "The New Monarchy", the Henrician Reformation and its consequences, the "Mid-Tudor Crisis", tensions between local and national interests, Elizabethan government, economic change, Puritanism and Catholicism, and the problem of order.

HIST 345  Modern Germany in the Nineteenth and Twentieth Centuries  (6 credits)
Prerequisite: See N.B. number (1). A study of the ideological and socioeconomic development of Germany from the break-up of the Holy Roman Empire to the present.

HIST 346  Modern Austria From Empire to Republic  (3 credits)
Prerequisite: See N.B. number (1). A study of German-speaking Austria from the establishment of the Austrian Empire in 1804 to the present. Cultural trends are considered in addition to socioeconomic and political developments.

HIST 347  Hanoverian England  (3 credits)
Prerequisite: See N.B. number (1). A study of English social, political and cultural history in the crucial period 1714-1837, from the end of the English Revolution to the accession of Queen Victoria.

HIST 348  History of Ireland  (3 credits)
Prerequisite: See N.B. number (1). A survey course that traces the history of Ireland from 432 A.D. to the present. Emphasis is on the nineteenth and twentieth centuries. Special attention is given to the development of Irish nationalism and relations with Great Britain. Irish music and literature is used to supplement the historical perspective.

HIST 353  United States to the 1740s  (3 credits)
Prerequisite: See N.B. number (1). This course examines the earliest period of American history. It gives special emphasis to the nature of Amerindian society, white-Amerindian contact, and the varieties of colonial settlement patterns.

HIST 354  United States from the 1740s to 1815  (3 credits)
Prerequisite: See N.B. number (1). This course examines themes and issues in the revolutionary and early national periods of American history.

HIST 355  United States in the Nineteenth Century, 1815-1850  (3 credits)
Prerequisite: See N.B. number (1). A study of American political, social, and economic life from the end of the War of 1812 to the intensification of sectionalism about 1850. Topics include geographic expansion and the beginnings of industrialization, the characteristics of southern slave society, and the rise of a system of political parties during the age of Jackson.

HIST 356  United States in the Nineteenth Century: The Era of the Civil War  (3 credits)
Prerequisite: See N.B. number (1). A study of American political, social, and economic life before and after the Civil War, from about 1850 to 1890. Topics include sectionalism and the breakdown of parties during the 1850s, the tasks of Reconstruction after the war, the New South, and the problems of a maturing industrial society.

HIST 357  Foreign Relations of the United States to 1917  (3 credits)
Prerequisite: See N.B. number (1). An analysis of United States foreign policy from the American Revolution to United States entry into World War I, emphasizing the domestic debate over foreign policy
and economic development, commercial and territorial expansion, and the dynamics of Canadian-American relations.

HIST 358  Foreign Relations of the United States, 1917 to the Present  (3 credits)
Prerequisite: See N.B. number (1). An historical investigation of United States foreign policy from American intervention in the Russian Revolution to the present, emphasizing United States responses to the challenge of revolutions in Asia and Africa. American conceptions of a new world order, the rise of the multinational corporation and its impact on Canadian-American relations.

HIST 359  Social and Economic History of the United States  (6 credits)
Prerequisite: See N.B. number (1). A survey of the relationship between economic and social change in the United States from the colonial period to the mid-twentieth century. Particular attention is given to the transition from an agricultural and mercantile society in the early nineteenth century to an urban-industrial society in the early twentieth-century.

HIST 361  Africa in the Nineteenth Century  (3 credits)
Prerequisite: See N.B. number (1). The central focus of this course is the European assault on Africa and the unfolding of colonial economy and society. Some emphasis is placed on resistance to colonialism and the origins of nationalism.

NOTE: Students who have received credit for HIST 270, or 271, or 272, or 278, or 279 may not take this course for credit.

HIST 362  Traditional China  (3 credits)
Prerequisite: See N.B. number (1). An examination of Chinese history from the beginning to the Ch’ing dynasty (c. 1800). Emphasis is placed on China’s political, intellectual, and cultural heritage.

HIST 363  Africa in the Twentieth Century  (3 credits)
Prerequisite: See N.B. number (1). This course deals with questions of nationalism and of the economic and social development of colonial and post-colonial Africa. There is particular focus on liberation and revolutionary movements.

NOTE: Students who have received credit for HIST 270, or 271, or 272, or 278, or 279 may not take this course for credit.

HIST 364  Imperialism and Nationalism: India  (3 credits)
Prerequisite: See N.B. number (1). British conquest established nearly two centuries of colonial rule over the world’s oldest civilization. This course examines the nature of imperial control, the resistance of traditional leaders, European intellectual imperialism, Indian cultural and religious revivalism and modern nationalism. Special attention is paid to M.K. Gandhi and Gandhism as well as to Muslim separatism and the Pakistan movement.

HIST 365  Capitalism and Communism in South Asia  (3 credits)
Prerequisite: See N.B. number (1). British India was a vital part of a great commercial and industrial empire at the highest stage of capitalism. This course explores the economic and social impact of this period on Indian society up to the present. Imperial capitalism, the Indian entrepreneurial elites, peasants and famine, industrialization, the effects of two world wars, and the communist challenge since independence are investigated.

HIST 366  Nineteenth Century China  (3 credits)
Prerequisite: See N.B. number (1). An intensive study of Chinese history between 1800 and the beginnings of the Chinese revolution with emphasis on problems in political, social and intellectual history.

HIST 367  Twentieth Century China  (3 credits)
Prerequisite: See N.B. number (1). An intensive study of Chinese history since 1900 with emphasis on problems in political, social and intellectual history.

HIST 368  (also given as SOCI 368) History and Sociology of Genocide  (6 credits)
Prerequisite: See N.B. number (1). Through the comparative and historical examination of a number of cases, this course investigates the meaning of genocide and the processes that have led to it.

HIST 369  English Urban Community: From Feudalism to Industrialism, 1300-1700  (3 credits)
Prerequisite: See N.B. number (1). Topics include: the elements of urban geography; emergence of the town from the countryside; the late Medieval urban crisis; the impact of the Reformation on English towns; urban demographic patterns; commercial and industrial structures; new towns; civic planning and building; social control in the urban community; the emergence of an urban cultural identity. Familiarity with English History, English Literature, Pre-industrial European History or Urban History is helpful but not essential.

HIST 371  History of Latin America: The Colonial Period  (3 credits)
Prerequisite: See N.B. number (1). A survey of Latin America up to the wars of independence from Spain. The main themes examined are: precolombian cultures; the Spanish conquest; patterns of colonial trade and economy; the role of the church; the Bourbon reforms.

NOTE: Students who have received credit for HIST 276 may not take this course for credit.
HIST 373 *Afric ami the Colonial Caribbean from Discovery to Slave Emancipation* (3 credits)
Prerequisite: See N.B. number (1). The origins and development of West Indian settlement, the slave trade, and the plantation system are studied with a view to understanding simultaneously the exceptional social and economic structures which have defined West Indian history, the role of these structures in the development of European mercantilism and the effects of mercantilism on Africa. This course covers the period from the European discovery of the new world in the late fifteenth century to the abolition of slavery in the mid-nineteenth century and is complemented by HIST 360, The West Indies in the Nineteenth and Twentieth Centuries.

HIST 374 *History of Latin America: The Modern Period* (3 credits)
Prerequisite: See N.B. number (1). A survey of Latin American society in the nineteenth and twentieth centuries. The principal topics covered are: the social and economic roots of political instability; Mexico under Diaz; the Mexican revolution; Argentina and Brazil under Peron and Vargas; U.S. Latin American relations; Castro’s Cuba; revolution and counter-revolution in contemporary Latin America.
NOTE: Students who have received credit for HIST 277 may not take this course for credit.

HIST 377 *History of Russia* (3 credits)
Prerequisite: See N.B. number (1). This course traces the origins of the medieval Russian state from the ninth century to the emergence of the Russian Empire. Emphasis is placed on political, social and economic problems of the eighteenth and nineteenth centuries. Particular attention is devoted to the Revolutions of 1905 and 1917.

HIST 378 *History of the Soviet Union* (3 credits)
Prerequisite: See N.B. number (1). This course examines the ideological roots of the Bolshevik Revolution, and traces the main economic, social and political developments of the Soviet Union. In addition, an analysis of Soviet foreign policy is presented from 1917 to the present.

HIST 379 *(also given as URBS 379) Urban Planning in the Historical Perspective* (3 credits)
Prerequisite: See N.B. number (1). A broad frame of reference is developed by using both evolutionary and archetypal approaches to elucidate both long- and short-term historical perspectives. The evolutionary concept is used to explore the relationship between recent Canadian, American and British planning experience. In contrast, plan form and planning style are shown as dynamic systems of archetypes, responding over time to shifting cultural preoccupations and world views.
NOTE: Students who have received credit for INTE 380, URBS 380 or HIST 380 may not take this course for credit.

HIST 381 *Age of Absolutism 1640-1715* (3 credits)
Prerequisite: See N.B. number (1). An examination of major developments in European society from the crisis of the mid-seventeenth century to the end of the War of the Spanish Succession; the emergence of the modern state and of the European state system is emphasized.

HIST 382 *Age of Enlightenment 1715-1789* (3 credits)
Prerequisite: See N.B. number (1). An examination of major developments in European society from the death of Louis XIV to the French Revolution. Special attention is given to social and intellectual movements, more particularly to the rise of the bourgeoisie and to the key ideas of the Enlightenment.

HIST 383 *Age of Revolution 1789-1848* (3 credits)
Prerequisite: See N.B. number (1). A study of the dual revolution—industrial and political—in England and France, and its initial consequences throughout Europe.

HIST 384 *Age of Industrialization and Nationalism 1848-1914* (3 credits)
Prerequisite: See N.B. number (1). A study of the transformation of European society, economy, and politics in the years between the upheavals of the mid-nineteenth century and the collapse of the traditional order in World War I.

HIST 385 *Age of Dictators: Europe, 1914-1945* (3 credits)
Prerequisite: See N.B. number (1). A study of the internal development and external relations of the nations of Europe from the Great War to the end of World War II. The course examines this chaotic age primarily through an investigation of the revolutionary and reactionary upheavals that kept Europe socially, politically and economically unbalanced for thirty years.

HIST 386 *Contemporary Europe: 1945 to the Present* (3 credits)
Prerequisite: See N.B. number (1). A study of the internal development and external relations of the nations of Europe from the collapse of Nazi Germany to the present. The course concentrates on the divisions between East and West, the economic recovery of Europe and the effects of the energy crisis on social, economic and political life throughout Europe.

HIST 388 *History of Modern Italy: 1848 to 1922* (3 credits)
Prerequisite: See N.B. number (1). A survey of the crucial developments in Italian history from the Risorgimento to the rise of fascism. The course emphasizes the problems surrounding the creation of a unified Italy. Specifically, the course examines the issues raised by nationalism, liberalism, Catholicism and industrialization.
HIST 389  History of Modern Italy: 1922 to the Present  (3 credits)
Prerequisite: See N.B. number (1). A survey of the crucial developments in Italian history from Mussolini's seizure of power to the present. The course examines the role and legacy of fascism, the creation of the republic, the economic miracle, the political and social turmoil and the rise of terrorism.

HIST 390  France 1789-1871  (3 credits)
Prerequisite: See N.B. number (1). A review of the central developments in French history from the Revolution to the Paris commune. Special attention is given to social and intellectual history. Novels such as Stendhal's The Red and the Black and Flaubert's Sentimental Education are used as background reading.
NOTE: Students who have received credit for HIST 344 may not take this course for credit.

HIST 392  France 1871 to the Present  (3 credits)
Prerequisite: See N.B. number (1). A review of French history from the Paris commune to the Fifth Republic. Special attention is given to social and intellectual history. Novels such as Zola's Germinal and Camus's The Plague are used as background reading.
NOTE: Students who have received credit for HIST 344 may not take this course for credit.

HIST 393  Vietnam War  (3 credits)
Prerequisite: See N.B. number (1). The protracted Vietnamese conflict in both its French (1940-54) and American (1955-75) phases is analyzed using lectures, audio-visual materials, documents and soldiers' accounts. Vietnam's historical evolution and colonial experience are briefly discussed as essential to understanding the war as a military, political and cultural struggle.

HIST 397  Honours Seminar  (6 credits)
Prerequisite: Approved Honours standing in history and completion of HIST 201, 202, 203 and 205. The Honours Seminar has a two-fold purpose. It engages students in the advanced study of major exemplars of historical enquiry and method. It also ensures careful preparation for the Honours Essay Tutorial (HIST 493).

HIST 398  Selected Topics in History  (3 credits)

HIST 399  Selected Topics in History  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

HIST 411  Advanced Study in Canadian History  (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of Canada. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor's guidance. The specific content varies from year to year depending on the instructor. Topics may be selected from subjects as "Canadian Intellectual History", "The City in Canadian History", "Canada in the 1920's and 1930's", and "Canadian Social History".

HIST 426  Advanced Study in Late Classical and Medieval Europe  (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of late classical and medieval Europe. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor's guidance. The specific content varies from year to year depending on the instructor.

HIST 430  Advanced Study in Early Modern Europe  (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of early modern Europe. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor's guidance. The specific content varies from year to year depending on the instructor. Topics may be selected from such subjects as "Cultural Differentiation in Early Modern France and Germany" and "The Enlightenment".

HIST 436  Advanced Study in Modern European History  (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of modern Europe. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor's guidance. The specific content varies from year to year depending on the instructor. Topics may be selected from such subjects as "Popular Protest in Nineteenth-Century Europe", "Revolutionary Tradition in Nineteenth-Century France", "Fascism", "Background of World War I", and "Nationalism and Industrialization in Central Europe".

HIST 438  Advanced Study in British History  (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of Great Britain. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor's guidance. The specific content varies from year to year depending on the instructor. Topics may be selected from such subjects as "Tudor England", "Stuart England", and "Structural Change in the English Countryside, 1500-1900".
HIST 441 Advanced Study in Russian and Soviet History (6 credits)
Prerequisite: Permission of the Department. This course deals with specific problems in Tsarist and Soviet Russia. In the Pre-Revolutionary period, attention is focused on the emancipation of the peasantry, industrialization, and the growth of the opposition parties. In the Soviet period, emphasis is placed on the problems of economic growth, the changing pattern of Soviet Marxism, and the nature of Soviet foreign policy.

HIST 451 Advanced Study in American History (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of the United States. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor’s guidance. The specific content varies from year to year depending on the instructor.

HIST 461 Advanced Study in Asian History (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in Asian history. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor’s guidance. The specific content varies from year to year depending on the instructor.

HIST 470 Advanced Study in African History (6 credits)
Prerequisite: Permission of the Department. Seminar in a selected topic in the history of Africa. The emphasis is on encouraging students to conduct historical investigation on their own, under a professor’s guidance. The specific content varies from year to year.

HIST 476 Advanced Study in the Third World: Imperialism and Revolution (6 credits)
Prerequisite: Permission of the Department. A comparison of the techniques and effects of imperialism in Asia, Africa, and Latin America during the late nineteenth and twentieth centuries. Modern independence and revolutionary movements in these areas are examined from a comparative perspective.

HIST 478 Advanced Study in Women’s History (6 credits)
Prerequisite: Permission of the Department. This course deals with select aspects of the history and historiography of European and North American women from 1789 to the present.

HIST 493 Honours Essay Tutorial (6 credits)
Prerequisite: HIST 397 previously or concurrently. This course is open only to Honours students in history. The student works with an individual faculty member in a particular area of history. Students are asked to produce a sustained piece of written work, not exceeding forty pages in length, to be read by their adviser and at least one other member of the Department. Students enrolled in HIST 493 present their research to the HIST 493 colloquium.

HIST 498 Advanced Topics in History (3 credits)

HIST 499 Advanced Topics in History (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
INTERRDISCIPLINARY STUDIES COURSES

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

HUMANITIES 110 General Course in Humanities (6 credits)
It is the purpose of this course to enlarge and enrich the comprehension of the student's cultural heritage by the study of humanity as a unique creative entity. The sources for this study of humanity are drawn primarily from the fields of history, philosophy, religion, literature and the arts with a view toward examining those experiences and ideas of enduring power which have shaped the nature of modern society from the age of Greece to the present century. (6 credits, which may not be applied to the degree programme of students admitted to the University on the basis of the D.E.C. or formal academic equivalent).

SOCIAL SCIENCE 110 General Course in the Social Sciences (6 credits)
This course has a dual purpose: to introduce the student to some of the basic concepts and subject matter of the various social sciences and to demonstrate their interrelation; and to provide the student with some knowledge of contemporary society and the social problems which confront it. (6 credits, which may not be applied to the degree programme of students admitted to the University on the basis of the D.E.C. or formal academic equivalent).

INTE 200 Introduction to the Methods of the Humanities and Social Sciences (6 credits)
This course introduce students to representative methods used in the humanities and social sciences. Methodologies suitable to each discipline are shown through examples and projects centered upon themes with Canadian content where possible. Instruction is shared by the professors from the disciplines concerned.
Aesthetics: An Interdisciplinary Approach (6 credits)
This course attempts to bring together a number of areas central to the cultural climate of our time, with emphasis on aesthetics, and man's encounter with the creative arts. The course examines the relation of aesthetics, generally, (and art in particular) to the crisis in values, and to contemporary identity crisis. More specifically, artistic questions such as the meanings and functions of style, taste, and criticism; the questions of form and content, subjectivity and objectivity in art; and the comparison of different artistic media are integrated into the broader issues noted above. The course's format is lecture and discussion, with the use of slides, recordings, and films as illustrative material.

Philosophy and Literature I: The Ancient World (3 credits)
The interaction of philosophy and imaginative literature in the ancient world, from the origins of civilization in Mesopotamia through some of the major texts of Ancient Greece and Rome. Reading and discussion of literature with a high thematic content and philosophy with important literary connections: for example, selections from Gilgamesh, The Iliad, and the works of Aeschylus, Sophocles, Euripides, Plato, Aristotle, Lucretius, and Virgil. There is special emphasis on the following topics: epic, fate and free will, and justice in the individual and the community.

Philosophy and Literature II: The Middle Ages and the Renaissance (3 credits)
The interaction of philosophy and imaginative literature in the Middle Ages and the Renaissance, from late Rome to 1605. Reading and discussion of literature with a high thematic content and philosophy with important literary connections: for example, selections from The Romance of the Rose, and the works of Apuleius, Augustine, Dante, Thomas Aquinas, Machiavelli, Marlowe and Shakespeare. There is special emphasis on the following topics: romance, faith, reason, and will.

Philosophy and Literature III: The Modern World (1605-1832) (3 credits)
The interaction of philosophy and imaginative literature in the Western World in the seventeenth, eighteenth, and early nineteenth centuries. Reading and discussion of literature with a high thematic content and philosophy with close literary connections: for example, from the works of such authors as Bacon, Pascal, Newton, Milton, Locke, Berkeley, Pope, Rousseau, Hume, Kant, Blake and Shelley. There is special emphasis on the following topics: the development of natural science, the problem of perception, classicism and romanticism.

Philosophy and Literature IV: The Modern World (1832-The Present) (3 credits)
The interaction of philosophy and imaginative literature in the Western World in the nineteenth and twentieth centuries. Reading and discussion of literature with a high thematic content and philosophy with close literary connections: for example, from the works of such authors as Mill, Darwin, Dostoevsky, Shaw, Freud, Sartre, and Kafka. There is special emphasis on the following topics: the theory of evolution, the emergence of modern psychology, and existentialism.

Selected Topics in Interdisciplinary Studies (3 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Lecture Series (3 credits)
This course provides a flexible context for study in a field of immediate or specific interest. The theme or topic discussed varies from year to year.

Selected Topics in Interdisciplinary Studies (3 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Self-Elected Specialization Tutorial (6 credits)
Prerequisite: Reserved for Self-Elected Specialization students in their final year. This tutorial is directed by a faculty member from a field of studies relevant to the student's programme. The faculty member is chosen by the Director in consultation with the student concerned. The tutorial Director supervises an intensive reading programme and assists the student in the preparation of a paper. The tutorial is intended to bring together the various fields of knowledge included in the student's programme.

Advanced Topics in Interdisciplinary Studies (3 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ADMISSION AND GRADUATION REQUIREMENTS

Enrolment in the writing workshops in the Department of Journalism is limited and depends on the applicants’ successful completion of the admission procedures outlined in the following paragraphs.

All applicants should apply through the University Admissions Office; they must also contact the Department of Journalism office at 848-2465 before March 1.

Admission procedures include: a test of English proficiency; a letter of application of about 300 words describing the student’s academic and work background and aspirations in journalism; and an interview. Although it will not determine acceptance, applicants are advised that a working knowledge of French is important.

Due to enrolment limitations, priority of placement is given to students enrolled in the specific Journalism programmes.

A student must achieve a final mark of C or better in the reporting workshops in order to proceed to the next level.

To graduate with a Minor, Major or Specialization in Journalism, a student must demonstrate a working knowledge of French. Tests of oral and reading proficiency in French are administered by the Département d’études françaises on behalf of the Department of Journalism, which is responsible for the final evaluation of each student’s competence.

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

60 BA Specialization in Broadcast Journalism

NOTE: Students must meet the admission requirements of both the Departments of Communication Studies and Journalism. This programme is designed to prepare graduates for the English-language media.

Stage I
9 JOUR 2013, COMS 2403, 2783, 2843
3 Chosen from COMS 2753, 2783, 2843

Stage II
9 JOUR 3023, 3033, 3103
6 JOUR 4003, 4463
3 Chosen from JOUR 4023, 4043, 4153, 4303

Stage III
6 JOUR 4153, 4463
3 Chosen from JOUR 4203 or 4303
15 Chosen from Communication clusters I, IV, and V at the 300 or 400 level.

JAY BRYAN, Journalist, The Gazette
LUCINDA CHODAN, Journalist, The Gazette
MICHAEL COOKE, Sunday Editor, The Gazette
PETER COONEY, Journalist, The Gazette
ABIGAIL CURKEET, Freelance Journalist
LINDA DROUIN, Features Editor, Canadian Press
LEWIS HARRIS, Journalist, The Gazette
ROSA HARRIS-ADLER, Freelance Journalist, Managing Editor
JANET KASK, Freelance Journalist
ROD MACDONELL, Court Reporter, The Gazette
CHARLES MAGILL, Editor, Reader’s Digest
ROBERT McCONNELL, Media Consultant
MINKO SOTIRON, Freelance Writer
JAMES STEWART, Editorial Writer, The Gazette
BRENDA ZOSKY PROULX, Freelance Journalist and Writer

60 BA Specialization in Journalism and Communication

NOTE: Students must meet the admission requirements of both the Departments of Communication Studies and Journalism. This programme is designed to prepare graduates for the English-language media.

Stage I
9 JOUR 2013, COMS 2403
6 Chosen from COMS 2753, 2783, 2843

Stages II & III
9 JOUR 3023, 3033, 3103
6 JOUR 4003, 4463
3 Chosen from JOUR 4023, 4043, 4153, 4303
6 Other Journalism credits - these may not be laboratory/workshop courses

21 Chosen from Communication clusters I, III, IV, V, with a maximum of 6 credits from Cluster I at the 300 or 400 level.

42 BA Major in Journalism
9 JOUR 2013, 2053
Due to the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

JOUR 201  Writing and Reporting I  (6 credits)
Prerequisite: Enrolment in a Journalism programme. This course gives training in basic reporting and newswriting. Students practise writing news and receive out-of-classroom assignments.

JOUR 205  History of Journalism  (3 credits)
A history of the news media in the English-speaking world, starting with the government gazettes of seventeenth-century England and their illegal, underground competition, through the "news" papers of the eighteenth century. The rise of the yellow press, the human interest story, the penny press in the nineteenth century, down to today's corporate press. The course is designed to show that our expectations of the news media are not inherent in human nature, but are the result of historical processes that continue to evolve.

JOUR 210  The Media in Quebec  (3 credits)
This course studies the special characteristics of Quebec media, focusing particularly on the historical development of Quebec journalism and the part it has played in the shaping of modern Quebec. Particular attention is given to the influence of journalists in cultural and political affairs. The recent increasing concentration of media ownership are examined. Much of the reading material is in French.

Note: Students who have received credit for JOUR 305 may not take this course for credit.

JOUR 215  Contemporary News Media  (3 credits)
This course introduces students to the increasingly complex structures of modern media. It examines the organizations, practices and problems of news media, focusing on key functions in day-to-day activities. In any given year, it may explore in detail a particular development or problem in the news media.

JOUR 298  Special Topics in Journalism  (3 credits)

JOUR 299  Special Topics in Journalism  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

JOUR 302  Reporting Methods  (3 credits)
Prerequisite: JOUR 201. This course builds solid foundations for a variety of journalistic assignments: feature writing, background and in-depth reporting, analyses and investigative reporting. It is designed to help students understand and master a variety of information-gathering techniques, and overcome some of the hurdles confronting the contemporary journalist. It covers: information sources, interpretation and use of documents, access to information, and reporting and interviewing techniques to supplement official and conventional information sources.

JOUR 303  Feature Writing  (3 credits)
Prerequisite: JOUR 302. This course is designed to help students develop and enhance their writing abilities, preparing for the broadest range of journalistic feature writing, from brief color stories and profiles to in-depth articles. It consolidates interviewing techniques and introduces a variety of writing approaches. Students will be building the final foundations for a full spectrum of print-oriented writing assignments, preparing for advanced reporting work and the demands of specialized journalism.

JOUR 306  Radio News  (3 credits)
Prerequisite: JOUR 302. Students learn to write for newscasts and for longer broadcast formats. There are field assignments in interviewing, tape editing, and preparation for broadcast.

JOUR 310  The Press and the Law  (3 credits)
Prerequisite: JOUR 201, or permission of the Director. Lectures cover those aspects of criminal and civil law which bear most directly on the work of professional journalists — libel, slander, contempt of court.

Note: Students who have received credit for JOUR 405 may not take this course for credit.

JOUR 343  Broadcast Public Affairs  (3 credits)
Prerequisite: JOUR 201, or permission of the Director. This course focuses on the principles, practices and debates in Canadian public affairs, radio and television. American broadcasting is also considered.

Note: Students who have received credit for COMS 340, 342 or 343 may not take this course for credit.
JOUR 398  Special Topics in Journalism  (3 credits)

JOUR 399  Special Topics in Journalism  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

JOUR 400  Advanced Reporting  (3 credits)
Prerequisite: JOUR 303. Students are introduced to several areas of specialist reporting—economics and business, public affairs, medicine and science, the arts, etc.—and to a variety of journalistic treatments: background, interpretive and investigative reporting.
NOTE: Students who have received credit for JOUR 401 may not take this course for credit.

JOUR 402  Specialist Reporting  (3 credits)
Prerequisite: JOUR 400. Students cover a beat in the field of their choice for several weeks, producing news, features, and background stories. A term-end major background story is also produced. These are seminars and discussions, with leaders from the media on the specifics of beat coverage and on general media topics, such as trade unionism, ethics, journalistic responsibility.

JOUR 404  Magazine Writing  (3 credits)
Prerequisite: JOUR 400 and a qualifying assignment. This is a workshop for students who intend to write in the burgeoning magazine field. Students develop and apply the techniques used in a variety of magazine formats, from the highly specialized to the general: news magazines, special interest, topical or industrial publications, expansive feature formats, and internal corporate publications. It is of particular interest to students wishing a freelance career.

JOUR 410  Principles of Editing  (3 credits)
Prerequisite: JOUR 302. Lectures and workshops in the art of story editing, with an introduction to layout and design. While the material used is designed primarily for print reproduction, the techniques, and particularly the intellectual processes employed are applicable to all media.

JOUR 415  Television News  (3 credits)
Prerequisite: JOUR 306. The study of and practice in the application of news writing and editing for television. Classes and field assignments cover writing, interviewing, and editing of videotape for short television newscast items and for longer news feature formats.

JOUR 420  Advanced Television Journalism  (3 credits)
Prerequisite: JOUR 415 and permission of the Department. An advanced workshop in television journalism, working in the areas of news and current affairs programming. Emphasis on editorial control and journalistic treatment of subjects. Weekly critiques by professor and invited guests.

JOUR 430  Advanced Radio Journalism  (3 credits)
Prerequisite: JOUR 306 and permission of the Department. Workshop production of daily news on the student radio station. Students function as reporter, assignment editor, and news reader. Weekly critique by instructor and invited radio journalists.

JOUR 446  Ethics and Responsibility in Journalism  (3 credits)
Prerequisite: JOUR 310 or permission of the Director. This course considers journalism in the context of philosophical and ethical principles. It aims to assess realistically the responsibilities of reporting and news analysis and to examine critically the role of journalism in society.
NOTE: Students who have received credit for COMS 446 may not take this course for credit.

JOUR 450  Independent Study  (3 credits)
Prerequisite: Enrolment in a Journalism programme. Students who have demonstrated ability may, near the end of their programme, be allowed to undertake independent study, in either research or production, in an area of special interest in Journalism. The study or project is done in close collaboration with one or more members of the faculty.

JOUR 451  Independent Study  (3 credits)
Prerequisite: Enrolment in a Journalism programme. Students who have received credit for JOUR 450 may register for JOUR 451.

JOUR 498  Advanced Special Topics in Journalism  (3 credits)

JOUR 499  Advanced Special Topics in Journalism  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
There are three programmes within Leisure Studies. They are:

a) Bachelor of Arts, Specialization in Leisure Studies: consisting of 60 credits in Leisure Studies and 30 elective credits.
b) Bachelor of Arts, Specialization in Therapeutic Recreation: consisting of 60 credits in Therapeutic Recreation and 30 elective credits.
c) Bachelor of Arts, Major in Leisure Studies: consisting of 42 credits in Leisure Studies and 48 elective credits.

The growing awareness of leisure as a social and cultural force in society has led to a large resource commitment from all levels of government as well as the private sector.

Recreation and leisure are studied from a multi-dimensional perspective for those students interested in a career in leisure services, together with those students who foresee the increasing need for academic inquiry into the field.

The primary focus is on managing, programming, counseling and coordinating. The programmes draw from the departments of Applied Social Science, Biology, Études françaises, Exercise Science, Geography, History, Philosophy, Psychology, Sociology and the Faculties of Commerce and Administration, and Fine Arts.

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value. Students should consult with the Programme Adviser prior to registering for Leisure Studies courses.

**NOTE: In fulfillment of programme requirements students are allowed a maximum total of six credits from these courses.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

LESR 241 Recreation and Leisure in Contemporary Society (3 credits)
The course provides a basis for understanding recreation and leisure as increasingly important aspects of our culture. In an era of rapidly changing life styles, with a high incidence of anxiety and frustration, the value of worthy use of free time in maintaining mental and physical health is presented. Topics discussed include: motivations for participation in leisure and recreation; social, psychological and historical foundations of leisure; education for leisure; and the analysis of special problems.

LESR 261 Principles of Leisure Services (3 credits)
The fundamental concepts of programming in the field of leisure studies is the focus of this course. Analysis of planning models in social, cultural, physical, intellectual and adventure recreation, as they relate to the provision of leisure services is the basis of study. Lectures and field study.
NOTE: Students who have received credit for LESR 250 may not take this course for credit.

LESR 281 Introduction to Therapeutic Recreation (3 credits)
An examination of the fundamental concepts of Therapeutic Recreation. Included is the study of the historical foundations and the basic terminology, purposes and theories of therapeutic recreation.
NOTE: Students who have received credit for LESR 393 may not take this course for credit.

LESR 298 Selected Topics in Leisure Studies (3 credits)
LESR 299 Selected Topics in Leisure Studies (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

LESR 340 Industrial Recreation (3 credits)
Examination of the origins and development of recreation related to the place of employment. Critical analysis of the research literature in the areas of: work/leisure relationships; cost/benefits; government intervention; programme design and family involvement.

LESR 350 Leisure Education (3 credits)
An introduction to the field of leisure education. The history and underlying philosophy of the concept is presented. The roles of the school, community and community-serving agencies are examined. Existing models are analyzed and discussed.

LESR 371 Concepts in Community Recreation Programming (3 credits)
Prerequisite: LESR 261. A comprehensive analysis of current Community Recreation practices with emphasis on community leisure needs, assessments, cultural programming, leadership, volunteers, evaluation and resource integration.
NOTE: Students who have received credit for LESR 250 may not take this course for credit.

LESR 381 Concepts in Therapeutic Recreation Programming (3 credits)
Prerequisite: LESR 261. A comprehensive analysis of current Therapeutic Recreation practices with emphasis on rehabilitation in community and clinical settings such as hospitals, group homes, psychiatric centres, rehabilitation clinics and correctional centres. Leisure planning and assessment models are studied to identify the modes of recreational activity which may be used as an intervention.

LESR 398 Intermediate Selected Topics in Leisure Studies (3 credits)
LESR 399 Intermediate Selected Topics in Leisure Studies (6 credits)
Specifc topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**LESR 427  Administration of Leisure Services**  (3 credits)
Prerequisite: Enrolment in the final year* of a Leisure Studies programme or permission of Programme Director. Analysis of the processes involved in planning and managing leisure service delivery systems. Topics to be studied include principles of planning, organization, budgeting and supervision.

*30 credits or less remaining in degree programme

NOTE: Students who have received credit for LERS 426 may not take this course for credit.

**LESR 431  Leisure Studies Seminar**  (3 credits)
Prerequisite: Enrolment in the final year* of a Leisure Studies programme. This is a third-year interdisciplinary seminar in which students can tie together all they have learned in the Leisure Studies Programme. Additionally, students are set on a course of study that should continue after they graduate so that they can keep up with future developments in this area.

*30 credits or less remaining in programme

NOTE: Students who have received credit for INTE 430/LESR 430 may not take this course for credit.

**LESR 432  Seminar in Therapeutic Recreation**  (3 credits)
Prerequisite: Enrolment in the final year* of Specialization in Therapeutic Recreation. A third-year integrative seminar which allows students to consolidate all they have learned in their studies. Students will critically evaluate current issues in the field and commence a course of study that should continue after graduation, allowing them to keep up with future developments in Therapeutic Recreation.

*30 credits or less remaining in programme

**LESR 450  Leisure Counselling**  (3 credits)
Prerequisite: Enrolment in second year* of a Leisure Studies programme or permission of Programme Director. The application of counselling theory to the field of leisure services is considered in this course. The aims, methods, concepts and assessment tools are the focus of study. Lectures and laboratories.

*60 credits or less remaining in programme

**LESR 464  Leisure Studies Internship**  (6 credits)
Prerequisite: Enrolment in the final year* of a Leisure Studies programme. In consultation with their mentors, students are given the opportunity to study theoretical and practical problems confronting professionals in the field of Recreation. The course offers a supervised period of work with a selected organization. Each student, during seminar sessions, formulates a study proposal. The internship commences when the proposal has been approved. The course involves a minimum of a six-week 240-hour period.

*30 credits or less remaining in programme

**LESR 481  Therapeutic Recreation and Special Populations**  (3 credits)
Prerequisite: LERS 281. An overview of the services required for individuals with special needs. Analysis of the barriers to recreational participation along with the planning/designing of a safe and accessible recreational environment are major focuses of the course. Legislation trends and resources for community recreation integration are also studied.

**LESR 485  Therapeutic Recreation Internship**  (3 credits)
Prerequisite: Enrolment in the final year* of Specialization in Therapeutic Recreation; LERS 464 must be taken concurrently. In consultation with their mentors, students are given the opportunity to study theoretical and practical problems confronting professionals in the field of Therapeutic Recreation. The course offers a supervised work experience in an organization offering therapeutic recreation programmes. Each student, during seminar sessions, formulates a study proposal. The internship commences when the proposal has been approved. The internship involves a minimum three-week 120-hour period.

*30 credits or less remaining in programme

**LESR 490  Independent Study I**  (3 credits)
Prerequisite: Permission of the Programme Director. Students work on topics in consultation with a study supervisor. The study may include readings, field studies, and/or research.

**LESR 491  Independent Study II**  (3 credits)
Prerequisite: Permission of the Programme Director. A student who has received credit for LERS 490 may register for LERS 491.

**LESR 498  Advanced Topics in Leisure Studies**  (3 credits)

**LESR 499  Advanced Topics in Leisure Studies**  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profiles). Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

### 36 BA Major in Library Studies
- **LIBS 201**, **202**
- **LIBS 303**, **305**, **320**, **325**, **330**
- **LIBS 331**, **345**, **495**
- **6** LIBS electives in consultation with the Programme Adviser

### 60 Certificate in Library Studies
- **6** LIBS electives in consultation with the Programme Adviser
- **24** Electives

**NOTE:** All Library Studies students must take 201 and 202 as prerequisites to all other Library courses, the only exception being LIBS 411, 433 and 461.

The Library Studies Programme offers a Major in Library Studies to those who wish to pursue a career in library work at a non-graduate level. For those interested in taking advanced studies at the Master’s level, a Double Major will be necessary. (36 credits are required in Library Studies for a Major.)

All students must preregister with the Programme and obtain course approval prior to the date of registration. All courses in the programme are 3-credit courses.

Students will be expected to maintain an average of C throughout the Programme.

The Certificate in Library Studies is offered to meet the needs of students who may not wish to fulfill the requirements of a Bachelor of Arts degree. Sixty (60) credits are required to complete the Certificate Programme, thirty-six (38) of which consist of Library Studies, with twenty-four (24) credits of electives. Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

**Diploma in Library Studies**

The Department also offers a diploma programme for students who have completed their undergraduate degree in another field. Detailed information on the programme is given in the University’s Calendar of Graduate Studies.
LIBS 421  Library Service and Work in Schools (3 credits)
LIBS 432  Library Service and Work in the College and University (3 credits)
LIBS 433  Technical Skills — Multi-Media Operations (3 credits)
LIBS 435  The Organization of Audiovisual Collections (3 credits)
LIBS 441  Library Service and Work in Business and Industry (3 credits)
LIBS 451  Library Service and Work in the Public Library (3 credits)
LIBS 461  Library Service and Work with the Young Adult (3 credits)
LIBS 498  Advanced Topics in Library Studies (3 credits)
LIBS 499  Advanced Topics in Library Studies (6 credits)

Final Required Course
LIBS 495  Field Practice (3 credits)

Recommended Academic Electives
FRAN 316  Le français de la bibliothéconomie I (3 crédits)
FRAN 317  Le français de la bibliothéconomie II (3 crédits)

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

LIBS 201  Principles of Library Service (3 credits)
This course, which is the prerequisite to all others in the programme, introduces the student to the theory and principles of librarianship and provides a basic knowledge of tools, skills and terminology used in the library.

LIBS 202  Organization of Library Services (3 credits)
Prerequisite: LIBS 201. This course introduces the student to basic reference tools and non-print materials, bibliographic form used in documenting research, the organization of libraries and the fundamentals of automation in the library.

LIBS 298  Selected Topics in Library Studies (3 credits)
LIBS 299  Selected Topics in Library Studies (6 credits)
Specific topics for these courses will be stated in the Undergraduate Class Schedule. Prerequisites relevant in each case to be discussed with the Academic Adviser.

LIBS 303  Information Services (3 credits)
Prerequisite: LIBS 201; LIBS 202. This course examines the basic informational services given in all types of libraries. Standard general reference works are studied to enable the student to work under a professional librarian in the Information Services Department of a library.

LIBS 305  Bibliographic Searching (3 credits)
Prerequisite: LIBS 201; LIBS 202; LIBS 303. This course provides a broad introduction to bibliographic searching. General and subject bibliographies as well as indexes and directories are studied to enable the student to use the library’s resources effectively. Procedures relating to verifying and searching are studied in detail as they relate to ordering, cataloguing, and inter-library loans. The mechanics of literature searching, both manual and automated, in any subject field are introduced. The main emphasis in this course is on the study of bibliographical sources to enable the student to work in a library as a bibliographical searcher.

LIBS 320  Cataloguing and Classification I (3 credits)
Prerequisite: LIBS 201; LIBS 202. Familiarity with a computer keyboard is desirable. This course is designed to give the student a basic knowledge of book and serial cataloguing. Coverage includes: pre-cataloguing routines, the composition of catalogue cards, descriptive cataloguing as well as introduction to automated cataloguing using UTLAS EDUCATSS as a complete system. Weekly laboratory sessions, assignments, and readings are required.

LIBS 325  Cataloguing and Classification II (3 credits)
Prerequisite: LIBS 201; LIBS 202; LIBS 320. This course is designed to give the student, who possesses a thorough understanding of descriptive cataloguing, a basic knowledge of and ability to assign subject headings. Sears and Library of Congress Subject Headings are studied in depth. MARC formats and coding of machine-readable cataloguing records are also examined. There are also demonstrations of the UTLAS CATSS system. Weekly laboratory sessions, assignments and readings are required.

LIBS 330  Cataloguing and Classification III (3 credits)
Prerequisite: LIBS 201; LIBS 202; LIBS 320. This course familiarizes the student with the Dewey Decimal as well as the Library of Congress classification systems. Topics covered include coding, editing and inputting of information for computerized cataloguing systems, understanding commonly used types of catalogue formats and methods of creating cataloguing records. Formal instruction is accompanied by practical assignments in the cataloguing laboratory.
STUDIES

This course is mainly practical in nature. It provides the student with the opportunity to operate a design, development and evaluation of an instructional audio-visual project on some aspect of the concept of audio-visual media as instructional tools within the library/media centre, by large academic research libraries and college libraries.

LIBS 432 Library Service and Work in the College and University (3 credits)
Prerequisite: LIBS 201; LIBS 202. The organization, administration, and functions of academic libraries are studied, with special references to curriculum-oriented library service, and to services relating to large academic research libraries and college libraries.

LIBS 433 Technical Skills — Multi Media Operations (3 credits)
This course is mainly practical in nature. It provides the student with the opportunity to operate a broad range of audio-visual equipment found in the modern media centre. It also introduces the student to the concept of audio-visual media as instructional tools within the library/media centre, by requiring the design, development and evaluation of an instructional audio-visual project on some aspect of library studies.

NOTE: Students who have received credit for LIBS 333 may not take this course for credit.
Organization of Audio-Visual Collections (3 credits)
Prerequisite: LIBS 320. All aspects of audio-visual materials available in public, university, school and special libraries are studied. The student is introduced to basic reference sources, aids for acquisition, ordering, storage and circulation. Coverage also includes pre-cataloguing routines and MARC coding. Materials featured are those frequently found in libraries, such as records, cassettes, films, kits and slides as well as those which are becoming more common such as microforms, video-cassettes and video-tapes as well as computer programmes and software.

Library Service and Work in Business and Industry (3 credits)
Prerequisite: LIBS 201; LIBS 202. The role of the library in relation to business and industry is examined. The specific skills and devices employed to provide direct information to the users are explored. Management and administrative concerns are reviewed from the viewpoint of the library and the sponsoring organization.

Library Service and Work in the Public Library (3 credits)
Prerequisite: LIBS 201; LIBS 202. This course traces the development of the public library, particularly in Quebec. It deals with the objectives, roles, and functions of public library service in contemporary society. Topics such as freedom of access to information, copyright, public lending right, and collection and preservation of library materials are explored.

Library Service and Work with the Young Adult (3 credits)
This course explores through books the major phenomena of the teenager's world. Some of the skills needed to serve young adults in a library setting are examined. Literature written especially for young adults, and some adult literature which is especially popular with, and suitable for, young people, is studied. A pre-course reading list is available.

Field Practice (3 credits)
Prerequisite: Completion of all other required library studies courses. In consultation with the appropriate supervising librarian the student is placed in a local library system other than in a library in which the student is employed. The duration of the field practice is five weeks. Field practice includes a wide variety of library tasks. In addition the student is required to complete a written research project on a topic approved by the professor.

Advanced Topics in Library Studies (3 credits)

Advanced Topics in Library Studies (6 credits)
Specific topics for these courses will be stated in the Undergraduate Class Schedule. Prerequisites relevant in each case to be discussed with the Academic Adviser.
Students are required to complete the appropriate entrance profile for entry into the programme (see §31.002 — Programmes and Admission Requirements — Profiles).

A student wishing to follow a Mathematics Programme but not meeting the entrance requirements should consult with the Department.

By careful choice of electives, students can select whether the emphasis of the programme will be in the area of Pure Mathematics, Applied Mathematics, Statistics or Actuarial Mathematics.

Students who already had Honours status by June 1st, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar.)

Students in a Mathematics programme may not take any of the following courses for credit: EMAT 212, 232, 252, 271. Students wishing to take other Engineering Mathematics courses for credit must obtain prior approval of the Department.

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

MATH 200 **Fundamental Concepts of Algebra** (3 credits)
This course is designed to give students the background necessary for MATH 201. Some previous exposure to algebra is assumed. Sets, algebraic techniques, inequalities, graphs of equations.

NOTE: Students who have received credit for MATH 201 or equivalent may not take this course for credit.

NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 201 **Elementary Functions** (3 credits)
Sets, inequalities, graphs of functions, and relations. Trigonometric, exponential, and logarithmic functions. Lectures and laboratory.

NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.
MATH 202  College Algebra  (3 credits)
Progressions, combinations, permutations, binomial theorem, mathematical induction, inequalities, polynomials, cartesian and polar forms of complex numbers; conics.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 203  Differential and Integral Calculus I  (3 credits)
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 204  Vectors and Matrices  (3 credits)
Prerequisite: MATH 202 or equivalent. Algebra and geometry of vectors, dot and cross products, lines and planes. System of equations, operations on matrices, rank, inverse, quadratic form and rotation of axes.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 205  Differential and Integral Calculus II  (3 credits)
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 206  Algebra and Functions  (3 credits)
NOTE: Students who have received credit or exemption for a course at the level of MATH 201 or above may not take this course for credit.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 207  Statistics for the Social Sciences  (3 credits)
Prerequisite: MATH 206 or equivalent, or permission of the Department of Mathematics. Elementary probability, permutations and combinations, binomial and normal distribution. Analysis and organization of statistical data. Tests of hypotheses. Confidence limits. Introduction into linear regression and correlation. Lectures and laboratory. NOTE See §200.7
NOTE: Students who have received credit for MATH 242, 243 or equivalent may not take this course for credit.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 208  Fundamental Mathematics I  (3 credits)
Prerequisite: MATH 206, or equivalent. This course is intended primarily for pre-Commerce students. Matrices, Gaussian elimination, input-output analysis, progressions, compound interest, annuities, permutations and combinations, probability, binomial theorem, exponential and logarithmic functions, inequalities; linear programming.
NOTE: Students who have received credit for MATH 202 or equivalent may not take this course for credit.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 209  Fundamental Mathematics II  (3 credits)
Prerequisite: MATH 206, or equivalent. This course is intended primarily for pre-Commerce students. Limits, differentiation of rational, exponential, and logarithmic functions, theory of maxima and minima, integration.
NOTE: Students who have received credit for MATH 203 or equivalent may not take this course for credit.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 210  Mathematics for the Biological Sciences I  (3 credits)
Prerequisite: CEGEP Mathematics 103, or equivalent. Discrete probability, probability distributions, difference equations, differential equations, transients, steady-state solutions, system concept, block diagrams, linear programming, game theory. Markov chains, applications to ecology, population models, physiology.

MATH 211  Fundamental Mathematics III  (3 credits)
Prerequisite: MATH 209. This course is intended primarily for pre-Commerce students. Functions of
two variables, partial derivatives, maxima and minima; iterated integrals; difference and differential equations. Taylor polynomials, root approximations, numerical integration.

NOTE: Students who have received credit for MATH 205 or equivalent may not take this course for credit.

NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

MATH 215 Ideas in Mathematics I (3 credits)
Mathematical ideas and techniques permeate Western civilization, but because mathematics operates at a high level of abstraction and uses an esoteric language, its contribution is not well understood. Avoiding mathematical technicalities as much as possible, this course attempts to demonstrate a few of the powerful ideas that have animated the development of mathematics. Examples of mathematical thinking from various periods of mathematical history are examined and related to their scientific and social impact.

NOTE: This course is designed as a suitable elective for students following an undergraduate programme. It has no formal prerequisites and will not qualify students to enroll for any other mathematics course, and cannot be used to satisfy a mathematics requirement in any BSc or BA programmes.

MATH 216 Ideas in Mathematics II (3 credits)
The aim of this course is the same as that of MATH 215 but different topics are covered.

NOTE: This course is designed as a suitable elective for students following an undergraduate programme. It has no formal prerequisites and will not qualify students to enroll for any other mathematics course, and cannot be used to satisfy a mathematics requirement in any BSc or BA programmes.

MATH 220 Mathematical Methods in Chemistry (3 credits)

MATH 225 Introduction to Actuarial Mathematics (3 credits)
Prerequisite: MATH 202 or MATH 208; MATH 203 or MATH 209 or equivalent. Simple-interest, compound interest, force of interest; annuities-certain, continuous annuities-certain, perpetuities; amortization and sinking funds, graduated mortgage schemes; bonds and related securities; capital cost and depletion. Brief introduction to life insurance.

MATH 229 Workshop in Actuarial Mathematics I (2 credits)
Prerequisite: MATH 263; MATH 283 previously or concurrently or permission of the Department. This workshop is intended to prepare students for the General Mathematics Examination of the Society of Actuaries and the Casualty Actuarial Society. Special topics from calculus, introductory real analysis, and linear algebra which are not normally included in first courses are covered with the instructor.

MATH 231 Introduction to Applied Mathematics (3 credits)
Prerequisite: MATH 282 or equivalent. Introduction to the theory of optimization, linear programming, the Simplex Method. Deterministic and stochastic models for growth processes. Introduction to graphs and networks. Applications.

NOTE: Only 3 credits will be awarded from MATH 231, DESC 313, ENGR 412.

MATH 232 Computing in Mathematics (3 credits)
Prerequisite: CEGEP Mathematics 105; CEGEP Mathematics 203; or equivalent. Introduction to APL, primitive and dyadic operators, simple and mixed functions. Programming and editing, dealing with workspaces. Applications to calculus (sequences, series, convergence and integrals), to statistics (simulations, combinatorics and distributions) and to algebra (systems of equations, matrices and non-linear equations).

MATH 241 Introduction to Statistics (6 credits)
This course was last offered in the 1988 Summer Session. The description can be found in the 1987-88 Undergraduate Calendar.

MATH 242 Introduction to Probability (3 credits)
Prerequisite: CEGEP Mathematics 203, or equivalent. Elementary combinatorics, elementary rules of probability, random variables, probability distributions, mathematical expectation, sampling distributions. NOTE See §200.7

MATH 243 Introduction to Mathematical Statistics (3 credits)
Prerequisite: MATH 242, or equivalent. Point and interval estimation, hypothesis testing, non-parametric methods, introduction to regression and correlation. NOTE See §200.7

MATH 261 Advanced Calculus (6 credits)
This course was last offered in the 1988 Summer Session. The description can be found in the 1987-88 Undergraduate Calendar.

MATH 262 Advanced Calculus I (3 credits)
Prerequisite: CEGEP Mathematics 105; CEGEP Mathematics 203, or equivalent. Geometry of curves
and surfaces, functions of several variables, partial derivatives, chain rule, tangent planes, extreme Lagrange multipliers, Jacobians of transformations and multiple integrals, infinite series, power series and Taylor series.

**MATH 263 Advanced Calculus II** (3 credits)
Prerequisite: MATH 262, or equivalent. Functions from $\mathbb{R}^m$ to $\mathbb{R}^n$, transformations between different coordinate systems, line integrals, Green’s theorem, potentials and vector fields, divergence and curl, conservative fields, exact differentials, surface integrals, Gauss’ and Stokes’ theorems, applications.

**MATH 271 Differential Equations I** (3 credits)
Prerequisite: CEGEP Mathematics 105, CEGEP Mathematics 203. Separable equations, exact equations, integrating factors, force fields, first-order linear equations, input-output concept, second-order equations, reduction of order, variation of parameters, nth-order linear equations with constant coefficients, Laplace transforms, block diagrams and signal-flow graphs.

**MATH 281 Linear Algebra** (6 credits)
This course was last offered in the 1988 Summer Session. The description can be found in the 1987-88 Undergraduate Calendar.

**MATH 282 Linear Algebra I** (3 credits)
Prerequisite: CEGEP Mathematics 105, or equivalent. Systems of linear equations, vector spaces, bases and dimension, linear transformations and matrix representation, rank, determinants, eigenvalues and eigenvectors.

**MATH 283 Linear Algebra II** (3 credits)
Prerequisite: MATH 282, or equivalent. Diagonalization, minimal polynomial, canonical forms, Cayley-Hamilton theorem, inner product and orthogonality, isometries, perturbations, quadratic forms.

**MATH 290 Algebraic Systems (Introduction)** (3 credits)
Prerequisite: Collegial pre-Science Mathematics profile or equivalent. Sets, functions, binary operations, examples of number systems, polynomial functions, divisibility, definitions and examples of groups and subgroups, fields.

**MATH 298 Selected Topics in Mathematics** (3 credits)

**MATH 299 Selected Topics in Mathematics** (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**MATH 310 Mathematics for the Biological Sciences II** (3 credits)
Prerequisite: MATH 210, or equivalent. Continuous probability, stochastic processes, population models, systems of linear difference and differential equations, Laplace transforms, signal-flow graphs, systems trajectories, stability, applications to ecology and biology.

**MATH 311 An Introduction to Numerical Analysis** (3 credits)
Prerequisite: CEGEP Mathematics 105, CEGEP Mathematics 203, or equivalent; MATH 232 or equivalent. Error analysis and computer arithmetic. Numerical solution of non-linear equations, fixed point iterations, rate of convergence. Interpolations and approximations, Lagrange polynomials, divided differences, discrete least-square approximation, Legendre polynomials. Numerical integration, Newton-Cotes formulas, Romberg integration.

NOTE: Only 3 credits will be granted from MATH 311 and COMP 361.

**MATH 312 Numerical Analysis** (3 credits)
Prerequisite: MATH 311 or COMP 361 or equivalent; MATH 263; MATH 283 or equivalent. Linear Systems: Cholesky decomposition for positive definite systems; tridiagonal case. Orthogonal factorizations: Householder matrices, least-square solutions for overdetermined systems. Data fitting: piecewise, splines, continuous least-squares. Quadrature: infinite intervals, orthogonal polynomials, Gaussian quadrature. Differential equations: systems of ODE’s, predictor-corrector formula, stability, error analysis. Eigenvalue problem: Bisection, deflation, tridiagonalization, inverse iteration.

**MATH 322 Mathematical Logic** (3 credits)
Prerequisite: Eighteen credits in post-Collegial Mathematics. This course deals with the mathematical ideas and techniques required to state and prove one of the most spectacular theorems of modern mathematics: Gödel’s incompleteness theorem establishing the non-algorithmic nature of Arithmetic and, hence, of most of higher mathematics. The subject involves the study of formal languages and recursive functions and is suitable for students interested in computer science.

**MATH 326 Theory of Interest** (3 credits)
Prerequisite: MATH 262; MATH 282 previously or concurrently, and permission of the Department. Measurement of interest; annuities, amortization, schedules and sinking funds; bonds and securities; capital cost and depletion; life insurance.
MATH 327  *Life Contingencies I*  (3 credits)
Prerequisite: MATH 326. Measurement of Mortality: survival function, mortality tables, force of mortality; special topics.

MATH 329  *Workshop in Actuarial Mathematics II*  (2 credits)
Prerequisite: MATH 243, or permission of the Department. This workshop is intended to prepare students for the Probability and Statistics Examination of the Society of Actuaries and the Casualty Actuarial Society.

MATH 332  *Introduction to Game Theory*  (3 credits)

MATH 334  *Combinatorics*  (3 credits)
Prerequisite: Eighteen credits in post-collegial mathematics. General principle of counting, permutations, combinations, identities, generating functions; Fibonacci numbers; partitions, recurrence relations, Stirling numbers, Catalan numbers, principle of inclusion-exclusion, cycles of a permutation, orbits of permutation groups, parity of a permutation, Polya’s theorem.

MATH 336  *Linear Programming*  (3 credits)
Prerequisite: MATH 231; MATH 283. Convex sets and convex functions, polyhedral sets and cones, degeneracy and cycling, the revised Simplex method, sensitivity and parametric analysis, the transportation and assignment problems, minimal cost network flows, maximal flow problems; integer programming.

MATH 337  *Introduction to Stochastic Methods of Operations Research*  (3 credits)
Prerequisite: MATH 231; MATH 243. Random variables, distributions, conditional probability, conditional expectations; Markov decision process and applications; inventory theory; applications in queueing systems.

NOTE: Students who have received credit for DESC 314 may not take this course for credit.

MATH 342  *Quality Control and Industrial Statistics*  (3 credits)
Prerequisite: MATH 243 or permission of the Department. Concepts of statistical control; X, R, P, and C charts; acceptance-sampling inspection, continuous-sampling plans, reliability and life tests.

MATH 343  *Sample Surveys*  (3 credits)
Prerequisite: MATH 243 or permission of the Department. Simple random sampling, stratified random sampling, systematic sampling, multi-stage sampling, regression and ratio estimates, non-sampling errors.

MATH 347  *Non-Parametric Statistical Methods*  (3 credits)
Prerequisite: MATH 243. Chi-square and Kolmogorov-Smirnov Goodness-of-Fit tests, the sign, rank, and Mann-Whitney Wilcoxon tests for one and two samples, Kruskal-Wallis tests for k-samples, rank correlation and Kendall’s Tau statistics, computer packages.

MATH 348  *Regression and Correlation*  (3 credits)
Prerequisite: MATH 243. Simple, multiple and polynomial regression, least square estimations, Gauss-Markov theorem; analysis of residuals; analysis of binary data; multi-collinearity, auto-correlation models; step-wise regression; multivariate normal distributions and correlation analysis.

MATH 351  *Concepts of Probability*  (3 credits)
Prerequisite: MATH 243. Axiomatic approach to probability, combinatorial probability, discrete and continuous random variables, geometric probability, expectation, conditional probability and conditional expectations, introduction to Markov chains and the Poisson process.

MATH 353  *Stochastic Processes and Applications*  (3 credits)
Prerequisite: MATH 351. Continuous stochastic processes. Poisson processes, continuous-time Markov processes, queuing models, birth and death processes, renewal theory and reliability of systems.

MATH 362  *Introduction to Analysis I*  (3 credits)
Prerequisite: MATH 263; MATH 283. The real number system, least upper bounds. Limits, continuity. Differentiation and integration. The Fundamental Theorem of the Integral Calculus.

MATH 363  *Introduction to Analysis II*  (3 credits)

MATH 366  *Complex Analysis I*  (3 credits)
Prerequisite: MATH 263. Algebra and geometry of complex numbers, linear transformations, analytic functions, Laurent’s series, calculus of residues, special functions.
MATH 371 **Differential Equations II** (3 credits)

MATH 373 **Qualitative Theory of Differential Equations** (3 credits)

MATH 380 **Differential Geometry I** (3 credits)
Prerequisite: MATH 263, MATH 271, MATH 283. Calculus on Euclidean space, tangent vectors, directional derivatives, differential forms, mappings, curves, frame fields, Serret-Frenet formulas, covariant derivatives; Calculus on a surface, tangent spaces, differential forms on a surface, mappings between surfaces, integration of forms, Stokes' Theorem.

MATH 381 **Linear Algebra III** (3 credits)
Prerequisite: MATH 283. Matrices, linear transformations, determinants, metric concepts, inner-product spaces, dual spaces, spectral theorem, bilinear and quadratic forms, canonical forms for linear transformations, matrix functions, selected topics.

MATH 392 **Elementary Number Theory** (3 credits)
Prerequisite: Eighteen credits in post-Collegial Mathematics. Number systems, division and factorization, number-theoretic functions, congruences, algebraic congruences and primitive roots, quadratic residues, diophantine equations.

MATH 393 **Algebraic Systems I** (3 credits)
Prerequisite: Twelve credits in post-Collegial Mathematics, or permission of the Department. Introduction to algebraic systems: groups, rings, fields, homomorphisms.

MATH 394 **Algebraic Systems II** (3 credits)
Prerequisite: MATH 393, or equivalent. Normal subgroups, quotient groups, isomorphism theorems, polynomial rings, principal ideal rings, elementary field theory.

MATH 397 **History of Mathematics** (3 credits)
Prerequisite: MATH 263, MATH 283, or permission of the Department. Early mathematics, Greek mathematics, European mathematics in the Middle Ages, the origin and development of analytic geometry and calculus, mathematics as free creation, the generality of mathematics in the twentieth century.

MATH 398 **Selected Topics in Mathematics** (3 credits)
MATH 399 **Selected Topics in Mathematics** (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

MATH 427 **Life Contingencies II** (3 credits)
Prerequisite: MATH 327. Life annuities; pure endowments, annual payments, continuous annuities, net annual premium, net level premium reserves; the expense factor; special topics.

MATH 428 **Life Contingencies III** (3 credits)
Prerequisite: MATH 427. Applications of Contingency Theory in areas of Life and Health Insurance, Annuities and Pension; Individual risk theory, ruin theory.

MATH 429 **Workshop in Actuarial Mathematics III** (2 credits)
Prerequisite: MATH 327 or permission of the Department. This workshop reviews and consolidates the material from other courses in the programme of the Actuarial Society's Examination on Life Contingencies.

MATH 432 **Theory of Graphs and Networks** (3 credits)
Prerequisite: Permission of the Department. Directed and undirected graphs. Partitions, planar graphs, matrix representation, applications to network theory.

MATH 433 **Calculus of Variations** (3 credits)
Prerequisite: MATH 373. Nature of problems, Weak variations, the first variation, Euler's equation. The second variation, Jacobi's equation, Legendre's test, conjugate points. Relative maxima and minima, isoperimetric problems. Integrals with variable end points. Applications to problems in pure and applied mathematics; the principle of least action. Strong variations, the Weierstrass E-function.
MATH 435  Advanced Numerical Analysis  (3 credits)

MATH 436  Non-Linear Programming  (3 credits)
Prerequisite: MATH 336 or permission of the Department. Classical methods of optimization, Lagrange multipliers, Kuhn-Tucker conditions; line search methods, quadratic programming, gradient methods. Introduction to dynamic programming.

MATH 437  Applied Stochastic Models in Operations Research  (3 credits)
Prerequisite: MATH 337 or MATH 351. Dynamic programming, renewal theory and applications, system reliability; simulation and Monte-Carlo technique; network analysis.

MATH 443  Time Series and Forecasting  (3 credits)
Prerequisite: MATH 348. Time Series, forecasting by trend and irregular components (using multiple regression analysis and exponential smoothing); forecasting seasonal time series, additive and multiplicative decomposition methods, Box-Jenkins methodology, moving average, autoregressive and mixed models. Standard computer packages are used.
NOTE: Students who have received credit for DESC 447 may not take this course for credit.

MATH 445  Applied Statistics  (3 credits)
Prerequisite: MATH 348; MATH 351 or permission of the Department. The course contents are chosen from: sequential procedures; multivariate analysis; time series; reliability; advanced design of experiments; estimations and testing of hypothesis.

MATH 448  Analysis of Variance  (3 credits)
Prerequisite: MATH 348. Single and multiple factor analysis of variance (ANOVA); fixed, random and mixed effects models; multiple comparison; determination of sample size; nonparametric procedures.

MATH 451  Advanced Probability  (3 credits)
Prerequisite: MATH 351. Markov Chains, occupancy and matching problems, characteristic functions and moment-generating functions, central limit theorem and weak law of large numbers, probability generating functions and applications to combinatorial problems, random walk and the reflection principle, branching processes.

MATH 454  Mathematical Statistics  (3 credits)
Prerequisite: MATH 351. Multivariate distributions, derivation of distributions using transformation method; standard sampling distributions, order statistics, descriptive and inferential statistics; estimation, properties of estimators, Rao-Cramer Inequality, Rao-Blackwell Theorem; maximum likelihood and method of moments estimators; tests of hypotheses, Neyman-Pearson Theory, likelihood ratio tests and their properties.

MATH 464  Real Analysis  (3 credits)
Prerequisite: MATH 363. Metric spaces; function spaces; compactness, completeness, fixed-point theorems, Ascoli-Arzelá theorem, Weierstrass approximation theorem.

MATH 466  Complex Analysis II  (3 credits)
Prerequisite: MATH 363; MATH 366. Cauchy’s theorem, singularities, maximum modulus principle, uniqueness theorem, normal families, Riemann mapping theorem.

MATH 467  Measure and Integration  (3 credits)
Prerequisite: MATH 363. Lebesgue measure and integration on the real line, convergence theorems, absolute continuity, completeness of L^2([0,1]).

MATH 471  Partial Differential Equations  (3 credits)
Prerequisite: MATH 371 or MATH 373. Classification of partial differential equations, the Cauchy-Kowalewski theorem, characteristics, boundary value and eigenvalue problems for elliptic equations, initial value and initial boundary value problems for parabolic and hyperbolic equations.

MATH 472  Linear Systems  (3 credits)
Prerequisite: MATH 283; MATH 371, or MATH 373. State-space analysis and design of continuous and discrete systems. Controllability and observability, modal control, pole-displacement techniques. Luenberger observers, Liapunov stability.

MATH 473  Stability Theory of Differential Equations  (3 credits)
MATH 474  *Introduction to Mathematical Control Theory*  (3 credits)

MATH 480  *Differential Geometry II*  (3 credits)
Prerequisite: MATH 380. Connection forms, structural equations of Cartan, topological properties of surfaces, shape operators for surfaces, curvature, isometries, intrinsic geometry of surfaces, integration and orientation, congruence; Riemannian geometry, geometric surfaces, curvature, geodesics, Gauss-Bonnet theorem.

MATH 491  *Abstract Algebra I*  (3 credits)
Prerequisite: MATH 394, or equivalent. Sylow theorems, composition series, ideal theory of rings, noetherian rings, modules.

MATH 492  *Abstract Algebra II*  (3 credits)
Prerequisite: MATH 491, or equivalent. Elements of field and Galois theory, including straight-edge-and-compass construction and the unsolvability of equations of fifth degree.

MATH 496  *Mathematical Thinking*  (3 credits)
Prerequisite: Permission of the Department. This course is intended to stimulate the students' mathematical creativity and to improve their ability to think systematically, analyze problems, and communicate their reasoning. Students participate actively in discussing and solving problems drawn from a variety of sources (including previous Putnam competitions) and are expected to explain their thinking both orally and in writing. Discussions include the following topics: problem posing, Polya's techniques of problem solving; equivalence and similarity of problems; generalization; applications. The problems are selected from: combinatorics, geometry, group theory, number theory, real analysis, etc.

*NOTE: Students who have received credit for MATH 499 may not take this course for credit.*

MATH 498  *Advanced Topics in Mathematics*  (3 credits)

MATH 499  *Advanced Topics in Mathematics*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
31.210 Modern Languages and Linguistics

Chair
C.R. BARTON, Associate Professor (Linguistics)

Professors
F. ANTOLIN (Spanish)
C. FONDA (Linguistics)
A. PLANELLS (Spanish)

Associate Professors
A. COSTANZO (Italian)
H. FAMIRA, (German)

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value. All these programmes can normally be completed within the regular three-year University sessions.

60 BA Honours in German
Students entering the programme are required to have a basic knowledge of German. GERM 250 and higher level courses may be chosen. Upon consultation with the Department, advanced students are not required to take any of the courses under 300.

42 BA Major in Italian
6 ITAL 210
6 ITAL 250, 252
12 ITAL 300, 310, 311
18 credits in Italian at the 300 level or higher in a sequence approved by the Department.

NOTE: Upon consultation with the Department, advanced students may not be required to do any courses under ITAL 300.

48 BA Major in Spanish
6 SPAN 250
3 SPAN 301
3 SPAN 302
36 credits in approved sequence chosen from one of the following options:

Literature Option:
303, 310, 311, 320, 321, 406, 407, 411, 412, 413, 416, 417, 420, 431, 432, 441, 442, 451

Language Option:
255, 305, 360, 361, LING 200, LING 441* or six additional credits approved by the Department

*Students who have received credit for SPAN 465 prior to 1986-87 may not take this course for credit.

NOTE: Upon consultation with the Department, advanced students may not be required to do any courses under SPAN 301.

30 BA Minor in German
A student entering this programme will select any German courses in consultation with the Department.

30 Minor in Italian
12 ITAL 210, 250
18 credits in Italian at the 300 level or higher

NOTE: Upon consultation with the Department, advanced students may not be required to do any courses under ITAL 300.
30 Minor in Spanish
30 Spanish courses; SPAN 210 or higher
chosen in consultation with the Department
NOTE: Upon consultation with the Depart­
ment, advanced students may not be required
to do any courses under SPAN 301.

LINGUISTICS
The Department offers an Honours, a Major,
and a Minor programme in Linguistics.

60 BA Honours in Linguistics
A student entering an Honours programme
in Linguistics will normally take the follow­
ing courses:

12 LING 200 6, 312 6
6 LING 400 3, 401 3
18 Chosen from LING 320 3, 321 3, 372 3, 373 3, 421 6, 431 6
12 LING credits chosen at the "300" or "400" level
12 credits in Linguistics or 12 credits chosen
in consultation with the Department from
the following: Latin, Greek, Hebrew, Rus­sian, German, Spanish, Italian, French,
English, TESL, Sociology, Philosophy,
Psychology, Portuguese

42 BA Major in Linguistics
6 LING 200 6
18 LING 312 6, 372 3, 373 3, 400 6, 401 3
12 LING credits chosen at the "300" and
"400" level, in consultation with the
Department
6 Elective LING or 6 credits chosen in con­
sultation with the Department

30 BA Minor in Linguistics
6 LING 200 6
24 credits in Linguistics

NOTE: Upon consultation with the Depar­
tment, advanced students may not be required
to do any courses under SPAN 301.

NOTE: "A/B" and "B" 200-level courses. The second-term content of 6-credit language courses
designated "A/B" is identical to that of 3-credit courses, with the same title, labelled "B". The "A/B"
courses are designed to permit less advanced students to reach the level of students taking only the
"B" course. Students in "A/B" courses may not withdraw after completing the fall term and receive credit.

Because of the renumbering of courses in the Department, students should see §200.1 for a list
of equivalent courses.

German

GERM 210 Introductory Course in German A/B (6 credits)
A beginners' course in the German language, designed to make the student conversant with the gram­
mar, pronunciation, and ordinary vocabulary. Equal emphasis placed on speaking and understand­ing, reading and writing. May be taken concurrently with GERM 220 and/or GERM 235. Lectures and labor­atory.

GERM 211 Introductory Course in German B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of GERM
210. It is designed for students who have taken some German at the CEGEP level, or equivalent. May
be taken concurrently with GERM 221 and/or GERM 235. Lectures and laboratory.
NOTE: Students who have received credit for GERM 210 may not take this course for credit.

GERM 220 Introduction to German Studies A/B (6 credits)
An introductory language course, which develops all basic skills. Emphasis on the audio-lingual ap­
proach; i.e., on speaking and understanding. May be taken concurrently with GERM 210 and/or GERM
235. Lectures and laboratory.

GERM 221 Introduction to German Studies B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of GERM
220. It is designed for students who have taken some German at the CEGEP level, or equivalent. May
be taken concurrently with GERM 211 and/or GERM 235. Lectures and laboratory.
NOTE: Students who have received credit for GERM 220 may not take this course for credit.

GERM 235 Translation I (6 credits)
This course gives the student sufficient training to read German and to translate from German into En­
lish with reasonable competence. No previous knowledge of German required. Texts include a variety of
reading materials of current interest.
NOTE: This course alone may not be used as a prerequisite for advanced courses in German.

GERM 250 Intermediate German A/B (6 credits)
Prerequisite: GERM 210 or GERM 220, or equivalent. Advanced instruction in the language. Emphasis
upon idiom, and usage in conversation and composition. Readings from German authors and oth­
ers. Lectures and laboratory.
GERM 251  *Intermediate German B*  (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of GERM 250. It is designed for students who have taken at least four semesters of German at the CEGEP level or equivalent. May be taken concurrently with GERM 255.

NOTE: Students who have received credit for GERM 250 may not take this course for credit.

GERM 255  *Translation II*  (6 credits)
Prerequisite: GERM 210 or GERM 220, or equivalent. This course is a continuation of Translation I and presents more complicated problems of translation from German into English. It is also an introduction to the basic skills required to translate English into German.

GERM 260  *German Culture*  (6 credits)
Prerequisite: GERM 210 or equivalent or permission of the Department. This is a course designed to develop the speaking ability of the student. The topic of the course is an introduction into the cultural heritage of the German-speaking people.

GERM 298  *Selected Topics in German*  (3 credits)

GERM 299  *Selected Topics in German*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

GERM 300  *Advanced Composition and Stylistics*  (6 credits)
Prerequisite: GERM 250 or GERM 255, or equivalent. This course is intended to give the student increased fluency in and a firmer command of the language. The emphasis of the course is on stylistics and composition.

GERM 305  *Translation III*  (6 credits)
Prerequisite: GERM 255, or equivalent. This course is a continuation of Translation II and deals with advanced problems and techniques of translating from English into German.

GERM 345  *Germany and Austria in Modern Times*  (6 credits)
Socio-economic change and the development of nation-states in German Central Europe from the eighteenth century to the present. For advanced reading, the student might refer to H. Holborn, *A History of Modern Germany*.

GERM 360  *German Civilization*  (6 credits)
Prerequisite: GERM 250 or GERM 255 or equivalent. This course is designed to acquaint the student with the intellectual and cultural history of German-speaking nations as reflected in their writers.

GERM 398  *Selected Topics in German*  (3 credits)

GERM 399  *Selected Topics in German*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**ALL COURSES WITH NUMBERS 400 AND HIGHER ARE CONDUCTED IN GERMAN**

GERM 400  *Survey of German Literature 800 to 1600*  (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. A survey of Old High German, Middle High German, and Early New High German literature.

GERM 405  *German Literature from 1600 to 1750*  (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. A detailed study of representative writers of the German Baroque, Rococo, and Enlightenment periods.

GERM 410  *Literature of the Classic Period*  (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. Pre-classic and classic German literature, with its philosophical background.

GERM 415  *Literature of the Romantic Period*  (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. Romanticism as a universal attitude. The works of the major German Romanticists and their influence.

GERM 420  *German Literature of the Nineteenth Century*  (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. A study of representative works of post-romantic authors and the writers of German Realism.
GERM 425  *German Literature from 1880 to 1930* (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. The development of German literature from Naturalism to the beginnings of Hitler-Germany.

GERM 430  *Contemporary German Literature* (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. Literature in Hitler-Germany, German emigrant literature, and post-war literature.

GERM 435  *History of the German Drama* (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. A study of German drama from its beginnings to modern times.

GERM 440  *A Study of the Deutsche Novelle* (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. A study of the Deutsche Novelle from Goethe to Kafka.

GERM 450  *German Poetry from the Middle Ages to Modern Times* (3 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. A survey of German poetry through the centuries. Outstanding examples of representative poets are studied in detail.

GERM 465  *History of the German Language* (6 credits)
Prerequisite: GERM 250 or equivalent, or permission of the Department. The development of the language up to Old High German is sketched in rough outlines. On the basis of literary works, the development from Old High German to Middle High German, Early New High German and our Standard German is studied.

NOTE: This course may be taken for credit in a Linguistics programme.

GERM 480  *Tutorial I* (3 credits)
Prerequisite: Permission of the Department. Guided readings in German language and/or literature, and at least two major assignments to meet the student's individual needs.

GERM 481  *Tutorial II* (3 credits)
Prerequisite: Permission of the Department. Guided readings in German language and/or literature. Written and oral criticism of the works studied.

GERM 482  *Tutorial III* (3 credits)
Prerequisite: Permission of the Department. Guided readings in German language and/or literature, and at least two major assignments to meet the student's individual needs.

NOTE: Students who have received credit for GERM 480 may register for GERM 482, provided the subject matter is different.

GERM 483  *Tutorial IV* (3 credits)
Prerequisite: Permission of the Department. Guided readings in German language and/or literature. Written and oral criticism of the works studied.

NOTE: Students who have received credit for GERM 481 may register for GERM 483, provided the subject matter is different.

GERM 498  *Advanced Topics in German* (3 credits)

GERM 499  *Advanced Topics in German* (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Hebrew

HEBR 210  *Introductory Course in Hebrew A/B* (6 credits)
A beginners’ course in Hebrew, spoken and written, with reading of classical and modern texts. Lectures and laboratory.

NOTE: Students who have credits for CEGEP Hebrew 301 or 401, or whose schooling has been conducted in Hebrew, will not be admitted to this course.

HEBR 211  *Introductory Course in Hebrew B* (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of HEBR 210. It is designed for students who have taken some Hebrew at the CEGEP level or equivalent.

NOTE: Students who have received credit for HEBR 210 may not take this course for credit.

HEBR 250  *Intermediate Hebrew A/B* (6 credits)
Prerequisite: HEBR 210, or two to three years of high school Hebrew or equivalent. This course consists of a complete review of Hebrew grammar and syntax, with special emphasis on modern Hebrew usage, readings in the Bible, and an introduction to modern Hebrew literature. Lectures and laboratory.
HEBR 251 Intermediate Hebrew B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of HEBR 250. It is designed for students who have taken two to three years of high school Hebrew or equivalent. Lectures and laboratory.
NOTE: Students who have received credit for HEBR 250 may not take this course for credit.

Italian

ITAL 210 Introductory Course in Italian A/B (6 credits)
A beginners' course in the Italian language, designed to make the student conversant with the grammar, pronunciation, and ordinary vocabulary. Equal emphasis is placed on speaking and understanding, reading and writing. Lectures and laboratory.

ITAL 211 Introductory Course in Italian B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of ITAL 210. It is designed for students who have taken some Italian at the CEGEP level, or equivalent. Lectures and laboratory.
NOTE: Students who have received credit for ITAL 210 may not take this course for credit.

ITAL 250 Intermediate Italian A/B (6 credits)
Prerequisite: ITAL 210 or equivalent. Advanced instruction in the language. Emphasis upon idiom and usage in conversation and composition. Readings from Italian authors and other texts. Lectures and laboratory.

ITAL 251 Intermediate Italian B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of ITAL 250. It is designed for students who have taken at least four semesters of Italian at the CEGEP level or equivalent.
NOTE: Students who have received credit for ITAL 250 may not take this course for credit.

ITAL 252 Corrective Italian (6 credits)
A course for speakers of Italian or Italian dialects who need a basic training in "Standard" Italian. Emphasis is placed on grammar, lexicon, sentence structure and other fundamentals of good usage. Both oral and written expression are emphasized.

ITAL 255 Translation II (6 credits)
Prerequisite: ITAL 210 or equivalent. This course presents problems of translation from Italian into English and from English into Italian.

ITAL 298 Selected Topics in Italian (3 credits)
ITAL 299 Selected Topics in Italian (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ITAL 300 Advanced Composition and Stylistics (6 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. This course is intended to give the student increased fluency in and a firmer command of the language. The emphasis of the course is on stylistics and composition.

ITAL 305 Translation III (6 credits)
Prerequisite: ITAL 255 or equivalent. This course is a continuation of Translation II and deals with advanced problems and techniques of translation from Italian into English and from English into Italian.

ITAL 310 Survey of Italian Literature I (3 credits)
Prerequisite: ITAL 250 or ITAL 255 or ITAL 252. A study of the major authors and trends of Italian literature from its origins to the end of the sixteenth century. Conducted in Italian.
NOTE: Students who have received credit for ITAL 400 may not take this course for credit.

ITAL 311 Survey of Italian Literature II (3 credits)
Prerequisite: ITAL 250 or ITAL 255 or ITAL 252 or permission of the Department. A study of the major authors and trends of Italian literature from the beginning of the seventeenth century to the present. Conducted in Italian.
NOTE: Students who have received credit for ITAL 401 may not take this course for credit.

ITAL 350 Literature in Translation (6 credits)
A study of representative works of Italian literature. All readings and lectures are in English.

ITAL 360 Italian Civilization (6 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A survey of Italy's cultural and scientific achievements. Attention is given to Italy's social, political, and economic life.
ITAL 398  Selected Topics in Italian  (3 credits)

ITAL 399  Selected Topics in Italian  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ALL COURSES NUMBERED 400 AND HIGHER ARE CONDUCTED IN ITALIAN.

ITAL 410  Literary Criticism  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A survey of literary criticism from the Renaissance to the present. Readings from the critical works of Vico, Foscolo and De Sanctis, Croce. Critical theories and trends of modern Italian criticism. Lectures: 3 hours per week.

ITAL 415  Dante  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A study of Dante's minor works. Introduction to the Divina commedia. Lectures: 3 hours per week.

ITAL 416  "Divina commedia"  (3 credits)
Prerequisite: ITAL 415 or permission of the Department. Analysis of the Divina commedia. Lectures: 3 hours per week.

ITAL 420  Petrarch and Early Italian Poetry  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A study of poetic works from the poets of the Scuola siciliana and the Dolce stil nuovo. Emphasis on Petrarch's Canzoniere. Lectures: 3 hours per week.

ITAL 421  Boccaccio and the Novella  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. Origin and evolution of the early Italian novella. Emphasis on the Decameron. Lectures: 3 hours per week.

ITAL 425  Fifteenth-Century Prose and Poetry  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. The rise of Humanism in Italy. A study of representative prose writings of fifteenth-century authors, and a study of the epic and lyric poetry of the fifteenth century: chivalresque poetry in Italy, the lyric poetry of Politiano and Lorenzo de' Medici. Lectures: 3 hours per week.

ITAL 430  The Italian Renaissance  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A study of the Italian Renaissance, with emphasis on Machiavelli's Principe and La mandragola. Lectures: 3 hours per week.

ITAL 432  Ariosto  (3 credits)
Prerequisite: ITAL 250 or ITAL 252 or ITAL 255, or equivalent. A study of Orlando Furioso and minor works of Ariosto. Conducted in Italian.

NOTE: Students who have received credit for ITAL 431 may not take this course for credit.

ITAL 433  Tasso and Epic Poetry  (3 credits)
Prerequisite: ITAL 250 or ITAL 252 or ITAL 255, or equivalent. A study of La Gerusalemme liberata within the context of Counter-Reformation Italy. Tasso's contribution to the pastoral genre (Aminta). Conducted in Italian.

NOTE: Students who have received credit for ITAL 431 may not take this course for credit.

ITAL 435  Seventeenth Century (Poetry and Prose)  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A study of representative scientific and literary texts. Emphasis on Galileo, Sarpi, Marino, Chiabrera. Conducted in Italian.

ITAL 436  Eighteenth Century (Poetry and Prose)  (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. A study of philosophic and literary texts. Emphasis on Vico, Parini, Alfieri. Conducted in Italian.

ITAL 437  Goldoni and the Development of Italian Theatre  (3 credits)
Prerequisite: ITAL 250 or ITAL 252 or ITAL 255, or equivalent. A study of Italian theatre from its origins to the age of Goldoni. Conducted in Italian.

NOTE: Students who have received credit for ITAL 431 may not take this course for credit.

ITAL 439  Romanticism in Italy: The Early Nineteenth Century  (3 credits)
Prerequisite: ITAL 250 or ITAL 255 or ITAL 252 or permission of the Department. The debate between neo-classicism and romanticism. Links between romanticism and the Risorgimento. Emphasis on Monti, Foscolo, and Leopardi. Conducted in Italian.

ITAL 442  Manzoni  (3 credits)
Prerequisite: ITAL 250 or ITAL 252 or ITAL 255, or equivalent. A study of I Promessi Sposi and representative poetic and dramatic works of Manzoni. Conducted in Italian.

NOTE: Students who have received credit for ITAL 440 or 441 may not take this course for credit.
ITAL 443 *Nineteenth-Century Italian Literature after Manzoni* (3 credits)
Prerequisite: ITAL 250 or ITAL 252 or ITAL 255, or equivalent. Analysis of representative literary works with emphasis on Verga, Carducci and Pascoli. Conducted in Italian.

**NOTE:** Students who have received credit for ITAL 440 or 441 may not take this course for credit.

ITAL 445 *Twentieth-Century Italian Literature to 1945* (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. The major literary trends in Italy from the beginning of the twentieth century to 1945. Emphasis on D’Annunzio, Pirandello, Ungaretti and Montale. Conducted in Italian.

ITAL 446 *Italian Literature from Neorealism to the Present* (3 credits)
Prerequisite: ITAL 250 or ITAL 255, or equivalent. Representative literary works from the end of World War II to the present. Conducted in Italian.

ITAL 460 *History of the Italian Language* (6 credits)
Prerequisite: ITAL 250 or ITAL 255 or ITAL 252 or permission of the Department. A study of the history of the Italian language from its origins to the present day through the study and analysis of representative texts. Some attention is given to the Romance languages and Italian dialects. Conducted in Italian.

ITAL 480 *Tutorial I* (3 credits)
Prerequisite: Permission of the Department. A course designed to meet the individual needs of advanced students. Guided readings in Italian language and/or literature. Written and oral criticism of the works studied.

ITAL 481 *Tutorial II* (3 credits)
Prerequisite: Permission of the Department. A course designed to meet the individual needs of advanced students. Guided readings in Italian language and/or literature. Written and oral criticism of the works studied.

ITAL 482 *Tutorial III* (3 credits)
Prerequisite: Permission of the Department. A course designed to meet the individual needs of advanced students. Guided readings in Italian language and/or literature. Written and oral criticism of the works studied.

**NOTE:** Students who have received credit for ITAL 480 may register for ITAL 482, provided the subject matter is different.

ITAL 483 *Tutorial IV* (3 credits)
Prerequisite: Permission of the Department. A course designed to meet the individual needs of advanced students. Guided readings in Italian language and/or literature. Written and oral criticism of the works studied.

**NOTE:** Students who have received credit for ITAL 481 may register for ITAL 483, provided the subject matter is different.

ITAL 498 *Advanced Topics in Italian* (3 credits)
ITAL 499 *Advanced Topics in Italian* (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**Linguistics**

LING 200 *Introduction to Linguistic Science* (6 credits)
Introduction to the principles of general linguistics for beginners in the field. Basic phonology and morphology. Emphasis on synchronic linguistic analysis, with a brief examination of historical and comparative linguistics.

LING 298 *Selected Topics in Linguistics* (3 credits)
LING 299 *Selected Topics in Linguistics* (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

LING 300 *Sociolinguistics I* (3 credits)
Prerequisite: LING 200 or permission of the Department. A study of the beliefs, interrelationships and values of societal groups as reflected in language.

LING 301 *Sociolinguistics II* (3 credits)
Prerequisite: LING 300 or permission of the Department. A study of the role that linguistics plays in understanding human society. While this course continues the work of Sociolinguistics I, either LING 300 or LING 301, or both, may be taken for credit.
LING 312  Theory of Grammars  (6 credits)
Prerequisite: LING 200 previously or concurrently, or permission of the Department. This course deals with the history and development of grammatical theory prior to Chomsky. Considerable emphasis is placed on traditional grammar, the school of de Saussure and Bloomfieldian structuralism. The principles of historical linguistics and the development of semantic theory and Meaning-Structure Grammar are also examined.

NOTE: Students who have received credit for LING 410 may not take this course for credit.

LING 320  Semantics I  (3 credits)
Prerequisite: LING 200 or equivalent, or permission of the Department. Linguistic history of semantics, The emotive elements in name and sense. Central and contextual meaning, feeling, tone. Synonymy, homonymy, polysemy. Synchronic and diachronic semantics. Lectures: 3 hours per week.

LING 321  Semantics II  (3 credits)

LING 360  Language and Thought I  (3 credits)
Prerequisite: LING 200, or equivalent. Meaning and the structure of languages. Grammar, competence, and performance. Language and perception. Universals in linguistic theory. Lectures: 3 hours per week.

LING 361  Language and Thought II  (3 credits)
Prerequisite: LING 360, or permission of the Department. Cognition and the development of language. The cognitive basis of language learning in infants. Linguistic relativism. The structure of the psychological lexicon. Psychological models of bilingualism. Computer and linguistic processes. Lectures: 3 hours per week.

LING 372  Descriptive and Instrumental Phonetics  (3 credits)
Prerequisite: LING 200, or permission of the Department. Description of speech sounds in articulatory terms. Identification and description of sounds that occur outside the Indo-European family of languages. Description of speech sounds as to their acoustic qualities: frequency, amplitude, pitch, stress. Interpretation of sound spectrograms.

NOTE: Students who have received credit for LING 370 and 371 may not take this course for credit.

LING 373  Phonemic Analysis  (3 credits)
Prerequisite: LING 200 and/or LING 372, or permission of the Department. The fundamentals of distinctive-feature analysis as developed by Jakobson, Chomsky, and Halle. Theoretical concepts and notational techniques are emphasized. Extensive training in data analysis and rule writing.

NOTE: Students who have received credit for LING 417 may not take this course for credit.

LING 398  Selected Topics in Linguistics  (3 credits)
LING 399  Selected Topics in Linguistics  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

LING 400  Theory of Generative Grammar I  (3 credits)
Prerequisite: LING 200 and LING 312. Chomsky's Extended Standard Theory. Phrase-markers and phrase-structure rules; x-bar syntax; the lexicon; WH-movement, though-movement, topicalization and VP-preposing.

NOTE: Students who have received credit for LING 411 may not take this course for credit.

LING 401  Theory of Generative Grammar II  (3 credits)
Prerequisite: LING 400 or equivalent. Subject raising; reflexive interpretation; structure-preserving, trace and cyclic principles; constraints; fillers; the binding theory and current developments.

NOTE: Students who have received credit for LING 411 may not take this course for credit.

LING 421  Non-Indo-European Structures  (6 credits)
Prerequisite: LING 200 either previously or concurrently, or permission of the Department. This course is intended to give the student an acquaintance in depth with the structures of several languages differing markedly in their nature from Indo-European. Possible areas of study might be Eskimo, Finnish, Japanese, Swahili, Turkish, some Amerindian or Malay-Polynesian language, etc. As a general rule, only four languages are investigated in a particular year.

LING 431  Comparative Indo-European Linguistics  (6 credits)
Prerequisite: LING 200, or permission of the Department. Through a comparative study of the phonology of the various branches of the Indo-European language family (Indo-Iranian, Hellenic, Italic, Germanic, Slavic, Baltic, etc.), this course familiarizes the student with the techniques used in linguistic reconstruction. Emphasis is given to the development and differentiation of languages through time.
LING 436 Advanced Indo-European Studies (3 credits)
Prerequisite: LING 431 previously or concurrently. Detailed study of the synchronic and diachronic grammar of an Indo-European dialect essential to the reconstruction of the protolanguage. Extensive readings are undertaken in both original texts and in scholarly contributions to their elucidation. Emphasis is placed on current issues and research in the field.

LING 437 Problems in Indo-European Comparative Grammar (3 credits)
Prerequisite: LING 431 previously or concurrently. This course explores one or more areas of Indo-European comparative grammar of particular interest in current research. Extensive reading in the scholarly literature is undertaken with emphasis on the principles by which hypotheses in historical linguistics can be framed and the criteria for testing such hypotheses.

LING 441 Comparative Romance Linguistics (6 credits)
Prerequisite: LING 200 or permission of the Department. A study of the evolution of Classical into Vulgar Latin and its subsequent development into modern Romance dialects, such as Portuguese, Castilian, Catalan, Occitanian, French, Italian, Rumansch, Romanian, etc.

LING 451 Modern Literary Arabic (6 credits)
Prerequisite: LING 200 or equivalent or permission of the Department. A one-year course designed to give beginning students a thorough understanding of the linguistic structure of modern Arabic in its universally standard form. Some attention is also given to the Afro-Asiatic language family in general and to the Semitic branch in particular.
NOTE: Students who have received credit for ARAB 451 may not take this course for credit.
NOTE: Students whose first language is Arabic, or who have received a substantial part of their education in Arabic, are not permitted to take this course for credit.

LING 498 Advanced Topics in Linguistics (3 credits)
LING 499 Advanced Topics in Linguistics (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Modern Languages

The following courses give instruction in language and cultures not normally covered by the Department. Any or all of them may be offered when a specific ethnic community has persuaded the University of its interest in seeing them put on, and of its willingness to support them.

MODL 298 Special Topics in Modern Languages (3 credits)
MODL 299 Special Topics in Modern Languages (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

MODL 398 Special Topics in Modern Languages (3 credits)
MODL 399 Special Topics in Modern Languages (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

MODL 498 Advanced Topics in Modern Languages (3 credits)
MODL 499 Advanced Topics in Modern Languages (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Portuguese

PORT 400 Portuguese Language and Literature (6 credits)
Prerequisite: SPAN 255 or equivalent, and any 6 credits at the 400 level in Spanish. A course designed for advanced Spanish language students. Readings in Portuguese begin as early as the second week of class.
NOTE: Students whose first language is Portuguese, or who have received a substantial part of their education in Portuguese, are not permitted to take this course for credit.

Russian

RUSS 330 The Structure of Russian (6 credits)
Prerequisite: No previous knowledge of Russian required. An accelerated but thorough introduction to the grammatical structure of modern Russian. The emphasis is on reading. The course aims to pro-
vide students with the ability to read scholarly and literary prose with the aid of a dictionary. Intended primarily for students who need Russian as an aid to research and for students of linguistics.

NOTE: Students who have credit for RUSS 210 or a higher-level Russian course may not take this course for credit.

RUSS 400 Advanced Russian Grammar and Readings (6 credits)
Prerequisite: RUSS 330 or equivalent. This course is a continuation of RUSS 330. Further readings with emphasis on scientific and scholarly prose. Considerable attention is devoted to advanced points of grammar, vocabulary, stylistics and translation.
NOTE: Students who have received credit for a "400"-level course in Russian may not take this course for credit.

Spanish

SPAN 210 Introductory Course in Spanish A/B (6 credits)
A comprehensive and thorough introductory language course for the student with little or no knowledge of Spanish. Practice is given in reading, writing, and conversation, with particular emphasis placed on oral work. In the second term, classes are conducted, as far as possible, in Spanish. Lectures and laboratory.

SPAN 211 Introductory Course in Spanish B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of SPAN 210. It is designed for students who have taken some Spanish at the CEGEP level or equivalent. Lectures and Laboratory.
NOTE: Students who have received credit for SPAN 210 may not take this course for credit.

SPAN 250 Intermediate Spanish A/B (6 credits)
Prerequisite: SPAN 210 or equivalent. Included in this course are a complete review of Spanish grammar and a study of some advanced aspects of usage. Composition and oral practice are emphasized. Selected readings are assigned through which the student becomes familiar with some aspects of Hispanic letters and civilization. This class is conducted in Spanish.

SPAN 251 Intermediate Spanish B (3 credits)
Prerequisite: Permission of the Department. This course is equivalent to the second term of SPAN 250. It is designed for students who have taken at least four semesters of Spanish at the CEGEP level or equivalent. This class is conducted in Spanish.
NOTE: Students who have received credit for SPAN 250 may not take this course for credit.

SPAN 255 Translation II (6 credits)
Prerequisite: SPAN 210 or equivalent. This course offers a complete review of Spanish grammar and deals with some advanced aspects of usage. Translation techniques are especially emphasized. Readings include novels and short stories.
NOTE: Students who received credit for SPAN 235 prior to 1980-81 may not take this course for credit.

SPAN 298 Special Topics in Spanish (3 credits)

SPAN 299 Special Topics in Spanish (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SPAN 301 Composition (3 credits)
Prerequisite: SPAN 250 or SPAN 255, or permission of the Department. A course in directed composition designed to help the student develop effective written communication skills through practice. This course is compulsory for students in Honours or Major in Spanish programmes. Conducted in Spanish.
NOTE: Students who have received credit for SPAN 300 prior to 1986-87 may not take this course for credit.

SPAN 302 Advanced Grammar (3 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. A course on certain advanced aspects of idiom and usage. This course is compulsory for students in Honours or Major in Spanish programmes. Conducted in Spanish.
NOTE: Students who have received credits for SPAN 300 prior to 1986-87 may not take this course for credit.

SPAN 303 Methods of Literary Analysis (3 credits)
Prerequisite: SPAN 250 or SPAN 255, or equivalent. Fundamental concepts of literary theory and criticism. Application to Hispanic texts (poetry, narratives, drama). This course should be taken in conjunction with a literature survey course. Conducted in Spanish.

SPAN 305 Translation III (6 credits)
Prerequisite: SPAN 255 or equivalent. This course offers to the advanced student practice in translate:
tion from English and French into Spanish. Specimen texts include literary prose, commercial letters, journalistic articles, and a variety of material of current interest.

SPAN 310  *Survey of Spanish Literature I*  (3 credits)
Prerequisite: SPAN 250 or SPAN 255, or equivalent. From the origins to the Golden Age through a study of representative works. Conducted in Spanish.

SPAN 311  *Survey of Spanish Literature II*  (3 credits)
Prerequisite: SPAN 310 or permission of the Department. From the Golden Age to the modern period through a study of representative works. Conducted in Spanish.

SPAN 320  *Survey of Spanish American Literature I*  (3 credits)
Prerequisite: SPAN 250 or SPAN 255, or equivalent. From the Colonial period to Modernism through a study of representative works. Conducted in Spanish.

SPAN 321  *Survey of Spanish American Literature II*  (3 credits)
Prerequisite: SPAN 320 or permission of the Department. From Modernism to the present through a study of representative works. Conducted in Spanish.

SPAN 360  *Spanish Civilization*  (6 credits)
Prerequisite: SPAN 250 or SPAN 255, or equivalent. This course is designed to acquaint the student with Spain's intellectual and cultural history as reflected in its writers. Although the course is primarily concerned with ideas and aesthetics, attention is also given to the development of language, customs, and folklore.

SPAN 361  *Spanish-American Civilization*  (6 credits)
Prerequisite: SPAN 250 or SPAN 255, or equivalent. A study of the development of Spanish-American civilization from pre-Columbian times to the present. The student traces Spanish-American cultural and political thinking from Colonial times to the present, as reflected in the literature.

SPAN 398  *Special Topics in Spanish*  (3 credits)

SPAN 399  *Special Topics in Spanish*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

UNLESS OTHERWISE INDICATED, ALL COURSES WITH NUMBERS 400 AND HIGHER WILL BE CONDUCTED IN SPANISH

SPAN 406  *Medieval Language and Literature I*  (3 credits)
Prerequisite: SPAN 310; SPAN 311 or permission of the Department. A linguistic and literary analysis of representative works. A study of the evolution of Vulgar Latin into Iberoromance, with the emphasis on Castilian. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 405 and/or SPAN 465 prior to 1986-87 may not take this course for credit.

SPAN 407  *Medieval Language and Literature II*  (3 credits)
Prerequisite: SPAN 310; SPAN 311; SPAN 406 or permission of the Department. A linguistic and literary analysis of representative works. A study of the evolution of Vulgar Latin into Iberoromance, with the emphasis on Castilian. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 405 and/or SPAN 465 prior to 1986-87 may not take this course for credit.

SPAN 411  *Golden Age - Prose*  (3 credits)
Prerequisite: SPAN 250 or SPAN 255; SPAN 310; SPAN 311, or equivalent. Critical study of the novel and other narrative didactic genres of the sixteenth and seventeenth centuries through analysis of representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 410 prior to 1986-87 may not take this course for credit.

SPAN 412  *Golden Age - Theatre*  (3 credits)
Prerequisite: SPAN 250 or SPAN 255; SPAN 310; SPAN 311, or equivalent. Development of the Spanish theatre of the sixteenth and seventeenth centuries through analysis of representative texts. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 410 prior to 1986-87 may not take this course for credit.

SPAN 413  *Golden Age - Poetry*  (3 credits)
Prerequisite: SPAN 250 or SPAN 255; SPAN 310; SPAN 311, or equivalent. The study and analysis of the main currents of Spanish poetry of the sixteenth and seventeenth centuries. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 410 prior to 1986-87 may not take this course for credit.
SPAN 416  Peninsular Neoclassicism and Romanticism  (3 credits)
Prerequisite: SPAN 250 or SPAN 255; or equivalent. From Spanish Neoclassicism to Romanticism through a study of representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 415 prior to 1986-87 may not take this course for credit.

SPAN 417  Peninsular Realism and Naturalism  (3 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. From Spanish Realism to Naturalism through a study of representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 415 prior to 1986-87 may not take this course for credit.

SPAN 420  The Generation of 1898  (3 credits)
Prerequisite: SPAN 250 or SPAN 255, or equivalent. A study of the major writers of this generation: Unamuno, Valle-Inclan, Machado, Baroja, Azorin, Maeztu, etc.

SPAN 431  Twentieth-Century Spanish Literature  (6 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. From the group of 1927 through the Post-Civil War period to the present; through a study of representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 425 and/or SPAN 435 prior to 1986-87 may not take this course for credit.

SPAN 432  Twentieth-Century Spanish-American Literature  (6 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. A study of the evolution of Spanish-American literature from 1900 to the present through certain representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 445 and/or SPAN 455 prior to 1986-87 may not take this course for credit.

SPAN 441  Spanish-American Romanticism  (3 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. A study of Spanish-American Romanticism through certain representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 440 may not take this course for credit.

SPAN 442  Spanish-American Modernism  (3 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. A study of Spanish-American Modernism through certain representative works. Conducted in Spanish.

NOTE: Students who have received credit for SPAN 440 may not take this course for credit.

SPAN 451  Literature of the Mexican Revolution of 1910  (3 credits)
Prerequisite: SPAN 250 or SPAN 255 or equivalent. This course undertakes the critical study of representative works from the era of the Mexican Revolution of 1910 by writers such as Azuela, López y Fuentes, Rubén Romero and González Peña.

NOTE: Students who have received credit for SPAN 450 may not take this course for credit.

SPAN 480  Tutorial I  (3 credits)
Prerequisite: Permission of the Department. Guided readings in Spanish or Spanish-American language, and/or literature, to meet the student's individual needs.

SPAN 481  Tutorial II  (3 credits)
Prerequisite: Permission of the Department. Guided readings in Spanish or Spanish-American language, and/or literature, to meet the student's individual needs.

NOTE: Students who have received credit for SPAN 481 may register for SPAN 482, provided the subject matter is different.

SPAN 482  Tutorial III  (3 credits)
Prerequisite: Permission of the Department. Guided readings in Spanish or Spanish-American language, and/or literature, to meet the student's individual needs.

NOTE: Students who have received credit for SPAN 480 may register for SPAN 482, provided the subject matter is different.

SPAN 483  Tutorial IV  (3 credits)
Prerequisite: Permission of the Department. Guided readings in Spanish or Spanish-American language, and/or literature, to meet the student's individual needs.

NOTE: Students who have received credit for SPAN 481 may register for SPAN 483, provided the subject matter is different.

SPAN 498  Advanced Topics in Spanish  (3 credits)

SPAN 499  Advanced Topics in Spanish  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
The Philosophy Department offers a number of programmes of study which include: Honours, Specialization, Major and Minor, and certain joint programmes. Double majors programmes are also offered in consultation with other departments. The Philosophy Department should be consulted for information concerning these programmes. Seminars and tutorials are offered mainly for students in a programme in Philosophy. In addition, courses are offered to students with a general or specific interest in Philosophy.

Students enrolled in Philosophy programmes are required to confirm their status with the Department during the second week of lectures of each year.

Students who already had Honours status by June 1, 1977, will continue to be governed by the requirements that applied at the date of their admission to the Honours programme. (Please refer to 15.2.4 of this Calendar.)

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

60 BA Honours in Philosophy

Stage I

6 Chosen from PHIL 201\textsuperscript{3}, 202\textsuperscript{3}, 223\textsuperscript{3}, 245\textsuperscript{3}

6 PHIL 241\textsuperscript{6}

6 PHIL 310\textsuperscript{6}

Stage II

6 Chosen from PHIL 224\textsuperscript{3}, 226\textsuperscript{3} and 228\textsuperscript{3}, 321\textsuperscript{3}, 323\textsuperscript{3}

6 PHIL 412\textsuperscript{6}

6 PHIL elective or cognate credits\textsuperscript{*}

Stage III

6 Chosen from PHIL 313\textsuperscript{3}, 410\textsuperscript{6}, 469\textsuperscript{6}

6 Chosen from PHIL 421\textsuperscript{6}, 449\textsuperscript{6}, 485\textsuperscript{6}, 498\textsuperscript{6}, 499\textsuperscript{6}

6 PHIL 460\textsuperscript{6}

6 PHIL elective credits at the 300 or 400 level\textsuperscript{*}.

*PHIL elective and cognate credits to be chosen in consultation with the Department.

36 BA Major in Philosophy

Stage I

6 Chosen from PHIL 201\textsuperscript{3}, 202\textsuperscript{3}, 223\textsuperscript{3} and 245\textsuperscript{3}

6 PHIL 310\textsuperscript{6}

Stage II and III

6 Chosen from PHIL 241\textsuperscript{6}, 410\textsuperscript{6}, 412\textsuperscript{6}

6 Chosen from PHIL 313\textsuperscript{3}, 412\textsuperscript{6}, 469\textsuperscript{6}

12 PHIL elective credits to be chosen in consultation with the Department.

24 Minor in Philosophy

6 Chosen from PHIL 201\textsuperscript{3}, 202\textsuperscript{3}, 211\textsuperscript{6}, 223\textsuperscript{3} and 245\textsuperscript{3}

18 PHIL elective credits to be chosen in consultation with the Department.

48 BA Major in Political Philosophy

18 POLI 270\textsuperscript{6}, 370\textsuperscript{6}, 470\textsuperscript{6}

6 Chosen from PHIL 201\textsuperscript{3} and 223\textsuperscript{3}, 202\textsuperscript{6}, 211\textsuperscript{6}, 245\textsuperscript{3}

24 Chosen from PHIL 334\textsuperscript{3}, 335\textsuperscript{3}, 342\textsuperscript{3}, 344\textsuperscript{3}, 346\textsuperscript{3}, 469\textsuperscript{6}, 412\textsuperscript{6}, 417\textsuperscript{6}, POLI 372\textsuperscript{6}, SOCI 300\textsuperscript{3}
Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

PHIL 201  **Problems of Philosophy**  (3 credits)
This course is designed for students who wish to be acquainted with philosophy through problems rather than through the historical approach. Methods used in Philosophy are discussed and topics, such as the existence of God, the mind-body problem, freedom and determinism, rights and duties, are used to illustrate philosophical approaches.

*NOTE: This course may not be taken for credit with PHIL 202.*

PHIL 202  **Introduction to Philosophy**  (6 credits)
A study of basic questions in the major areas of philosophy, and the classical attempts to answer them.

*NOTE: This course may not be taken for credit with PHIL 201.*

PHIL 211  **Philosophical Classics**  (6 credits)
A critical discussion of selected philosophical classics. Readings are chosen from Plato, Aristotle, Descartes, Hume, Kant, and one recent or contemporary philosopher.

PHIL 223  **Critical Thinking**  (3 credits)
This course is designed to help students to think more clearly and critically and to improve their ability to present, defend, and evaluate arguments. Sample topics may include the nature of definition, validity and truth, formal and informal fallacies.

PHIL 224  **Introduction to Logic**  (6 credits)
A study of the basic elements of Aristotelian and modern logic, including an analysis of argumentation, language, definition, fallacies, deduction, and induction.

PHIL 226  **Elementary Deductive Logic**  (3 credits)
This course begins with an analysis of syllogistic logic and proceeds to an extensive treatment of propositional logic. The course concludes with an examination of the rudiments of predicate logic. The techniques of constructing formal derivations are included.

PHIL 228  **Methods of Enquiry**  (3 credits)
A study of the methods and structure of basic types of organized knowledge: mathematics, science, history, and normative disciplines. This course discusses crucial concepts in scientific methodology, such as the axiomatic system, the hypothetico-deductive method, and scientific explanation.

PHIL 231  **Human Identity**  (6 credits)
A critical examination of some theories of human identity, including reference to male and female identity, the unity of self, and transcendence of self. Works are selected from the history of philosophy, literature, and the social sciences.

PHIL 240  **Philosophical Anthropology**  (6 credits)
A study of representative classical and contemporary positions on human nature, action, and life. Such topics as knowledge, affectivity, freedom, person, are treated.

PHIL 241  **Ethics**  (6 credits)
A study of the principles underlying moral conduct with reference to classical and contemporary positions.

PHIL 242  **Business Ethics**  (3 credits)
The purpose of this course is to elucidate the key ethical notions with reference to the business world. The intention is to make students aware of situations in which ethical implications arise rather than to impose specific rules.

PHIL 244  **Social and Political Philosophy**  (6 credits)
Prerequisite: Six credits in Philosophy, or the permission of the Department. This course treats of the individual in relation to the State and Society through the reading and discussion of selected texts. Problems treated: political authority, its sources and varieties; the limits of political authority; classical images of humanity; personality and society; the paradox of social control.

PHIL 245  **Philosophy and Society**  (3 credits)
The purpose of this course is to introduce students to the philosophical treatment of social problems. Examples would include conceptions of the person as individual and as citizen, as free and as determined, as well as conceptions of the state and of the community.
PHIL 246  *Introduction to Philosophy of Religion* (3 credits)
This course examines the classical arguments for the existence of God. Course content includes the nature of faith and of religious experience, as well as the nature of religious language.

PHIL 248  *Biomedical Ethics* (3 credits)
This course is a study of the moral and legal norms involved in medical issues such as health care priorities; euthanasia; fertility control and abortion, protection of the incapable; preventive medicine; problems of physician and patient relationships; human experimentation; genetic engineering; and behavior modification.

PHIL 255  *Philosophy of Leisure* (3 credits)
This course examines philosophical problems relating to such issues as: leisure, recreation, labour, time and fulfillment. The aim is to stimulate the student to think critically about the goals of individuals and of society as they concern these issues. The course is of interest to students in Recreation and Leisure Studies and to others interested in the problems of using free time to best advantage.

PHIL 298  *Special Topics in Philosophy* (3 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

PHIL 310  *Ancient Western Philosophy* (6 credits)
A study of the principal developments from the Presocratics through Plato and Aristotle up to Plotinus. Emphasis is placed on the critical reading of selected texts.

PHIL 312  *Existentialism* (6 credits)
A course designed to acquaint the student with the fundamentals of the existentialist movement as a philosophical perspective. Among philosophers considered are Kierkegaard, Nietzsche, Heidegger, Sartre, Merleau-Ponty, Jaspers, Marcel, and Berdyaev.

PHIL 313  *Contemporary Philosophy* (6 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. A study of selected philosophers of the twentieth century. Movements and figures discussed vary from year to year. Such topics as the following are considered: Positivism, Pragmatism, Marxism, Phenomenology, Existentialism, and Philosophical Analysis.

PHIL 321  *Symbolic Logic* (6 credits)
An introduction to modern formal logic, its techniques and applications. The course covers sentential logic, first-order predicate logic with identity, intuitive set theory, relations, and functions.

PHIL 323  *Predicate Logic* (3 credits)
Prerequisite: PHIL 226 or its equivalent. A study of first order predicate logic, including its meta theory. Some applications or extensions of the basic calculus are dealt with.

**NOTE:** This course may not be taken for credit with PHIL 321.

PHIL 328  *Conceptual Revolutions in Twentieth Century Science I* (3 credits)
This course begins with a consideration of the structure and growth of scientific theories and of the relationship between theory and observation. This is followed by a fairly detailed exposition of Einstein's theories of special relativity and general relativity. The philosophical implications of the two theories is carefully considered, with particular attention being devoted to the fundamental revisions of the concepts of space and time, which these theories have forced upon us.

PHIL 329  *Conceptual Revolutions in Twentieth Century Science II* (3 credits)
The major part of this course is devoted to the conceptual development of quantum mechanics, with special attention to such topics as the wave-particle duality, causality and determinism, the principle of indeterminacy, and the distinction between the knowing subject and the object of knowledge. It concludes with a discussion of Godel's celebrated incompleteness theorem, which has profound implications concerning our views on the relationship between logic and mathematics, the nature of mathematical truth and even for the ultimate prospects for the field of artificial intelligence.

PHIL 331  *Philosophical Ideas in Literature* (6 credits)
Prerequisite: Six credits in Philosophy or permission of the Department. A critical examination of philosophical ideas as expressed in various literary works. The subject matter is chosen for its relevance to such themes as the nature of human action and interaction, choice, freedom, women and men, chance, and values.

PHIL 334  *Russian Anarchism and Marxism* (3 credits)
The contradictory character of Russian cultural and philosophical development is used as a basis for an analysis of the main philosophical differences between Anarchism and Marxism as presented in the works and activities of its main protagonists (Bakunin, Kropotkin, Plekhanov, Lenin). Philosophical relevance of such major Russian writers as Dostoyevsky, Tolstoy, and Solzhenitsyn is shown as well.
PHIL 335  Contemporary Marxism  (3 credits)
Critical and comparative analysis of different schools and individual thinkers of twentieth-century Marxism, in particular, those in Russia, Germany, and France. These positions are considered primarily on their philosophical merits.

PHIL 338  Philosophical Psychology  (3 credits)
A critical examination of the explanation of human behaviour and the self in the light of new developments in philosophy and psychology. Detailed studies of selected problems such as motives, intention, the concept of person, choice, reason, freedom, purpose, and action.

PHIL 340  Contemporary Theories of Love  (6 credits)
Prerequisite: One previous course in Philosophy. A two-semester topical analysis of love and attendant phenomena, with special emphasis on their metaphysical, epistemological, psychological, aesthetic, social, theological, and linguistic dimensions. The classes are conducted on a lecture-seminar basis.

PHIL 341  Political Philosophy  (6 credits)
Prerequisite: Six credits in Philosophy, or the permission of the Department. This course concentrates on the theoretical foundations of communism, fascism, and democracy through the reading and discussion of selected texts.

PHIL 342  Political Philosophy  (3 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. Critical analysis of contemporary political-philosophical concepts, such as tolerance, violence, separatism, racism, and the nationalism of visible minorities.

PHIL 344  Law, Liberty, and Human Rights  (3 credits)
In this course, the student examines several perspectives from which the problem of the relation between law and morality may be treated. Conflicting concepts of law, morality, and the relation of the individual to society are discussed. The problem of authority is examined in relation to issues of civil liberties, civil rights, and the social basis of legal conflicts.

PHIL 345  Philosophy of Social Science  (6 credits)
Prerequisite: Six credits in Philosophy or third-year standing in a social science department, or permission of the Department. Following the distinction between natural and social sciences, this course is concerned with philosophies of the social sciences. It investigates the structure, methodology, and problems of these sciences toward understanding and clarifying how they function as quasi-separable disciplines and how they contribute to a wider understanding of individuals and their varied social relations.

PHIL 346  Philosophy of Social Science  (3 credits)
Philosophical examination of the structure and methodology of the social sciences. Special attention to problems of functionalism, teleological explanation, and the testing of social theories.

PHIL 347  Phenomenology and Psychology  (3 credits)
This is an introduction to the fundamentals of Phenomenology through a study of conscious experience, both subjective and intersubjective. Standard psychological models and methods are examined in order to open up phenomenological alternatives in the fields of aesthetics, literary criticism, religious and moral experience. Phenomenology complements psychological research in these areas.

PHIL 348  Philosophy of Culture  (6 credits)
Prerequisite: Six credits in Philosophy, or the permission of the Department. This course entails a philosophical critique of contemporary culture, stressing such issues as identity crisis, the weakening of structures of orthodoxy, meditation and humour in relation to the vita activa, work in relation to labour, and the socio-cultural manifestation of value crisis.

PHIL 349  Philosophy of Education  (6 credits)
An examination of philosophical principles underlying educational theories and of the problems arising from the practical implementation of those theories.

PHIL 350  Philosophy of Communication  (6 credits)
This course is concerned with a philosophical analysis of the foundations of communication acts: linguistic and non-linguistic, cognitive and affective. Philosophical sources may include: F. Nietzsche, M. Black, M. Merleau-Ponty, and P. Ricoeur.

PHIL 351  Philosophy of Religion  (6 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. A critical assessment of modern developments in Philosophy regarding the question of whether the thinking individual can maintain a religious belief in God.

PHIL 352  Philosophy of History  (6 credits)
Prerequisite: Six credits in a History programme, or permission of the Philosophy Department. An analysis of the nature of historical knowledge and explanation is followed by a study of classical and con-
temporary attempts to elucidate the meaning of history. Authors discussed include Augustine, Vico, Kant, Hegel, Marx, Spengler, Popper, Toynbee.

PHIL 353 Aesthetics I (3 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. A philosophical analysis of selected aspects of the aesthetic experience and the logic of appraisal. Specimen topics include: perception in art, symbolic expression, the role of feeling and emotion in aesthetic judgment, objectivity and subjectivity of value judgments, commensurability of values.

PHIL 354 Artificial Intelligence (3 credits)
Prerequisite: Six credits in Philosophy or in Computer Science. The purpose of this course is to explore the analogy between mental activity and the operation of computers or 'electronic brains', with a view to answering the question: Can machines think? Such topics as the following are treated: the concept of the Turing machine; the Turing test of intelligence; the functionalist theory of the mind; the nature of creativity; and the alleged implications of Gödel's incompleteness theorem.

PHIL 357 Philosophy of Law: General Jurisprudence (3 credits)
A philosophical study of natural law, legal positivist and legal realist replies to the question of what law is. Contemporary and classical replies are criticized and are applied to cases. The associated issues of legal moralism, legal justice, legal obligation and its limits, and legal reasoning are treated.

PHIL 358 Legal Philosophy: Legal Rights and Duties (3 credits)
A philosophical study of the nature, sources and functions of rights and duties. Attention is given to the particular rights associated with contract and property, and their abuse, to duties arising by law alone, to excuses and justifications for failure to fulfill duties, and to enforcement, punishment and compromise.

PHIL 362 Second-Year Seminar (6 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. Problems in Moral Philosophy, with topics to be announced. This seminar conducts the students through a series of problems on moral topics.

PHIL 398 Intermediate Special Topics in Philosophy (3 credits)

PHIL 399 Intermediate Special Topics in Philosophy (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

PHIL 410 Medieval Philosophy (6 credits)
Prerequisite: PHIL 310, or permission of the Department. A study of Western Philosophy from Augustine to the later Scholastics.

PHIL 412 Modern Philosophy (6 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. A study of Western Philosophy from Descartes to Hume.

PHIL 417 Nineteenth-Century Philosophy (6 credits)
Prerequisite: Six credits in Philosophy, or permission of the Department. An examination of some of the main currents of post-Kantian philosophy. Hegel and the post-Hegelians, the romantic reaction, positivism, and pragmatism.

PHIL 421 Philosophy of Science (6 credits)
Prerequisite: One course in logic, or permission of the Department. A critical examination of problems pertaining to the structure and status of scientific theories and the logic of scientific inference. Such topics as the following are discussed: explanation, confirmation, verifiability and falsifiability, problems of definition, observational and theoretical terms, models and analogies.

PHIL 422 Advanced Topics in Logic (3 credits)
Prerequisite: A 300-level course in Symbolic Logic, or permission of the Department. This course is designed to extend the basic knowledge of logic by introducing students to areas such as modal logic, deontic logic, higher-order calculi, logical theory, and logical semantics.

PHIL 449 Phenomenology (6 credits)
Prerequisite: Twelve credits in Philosophy, or permission of the Department. Origins and development of phenomenology from Brentano and Meinong through the different stages of Husserl's writings. Post-Husserlian modifications are considered briefly. The second term is devoted to a discussion of the influence of the phenomenological movement on contemporary developments in the social sciences and humanities. Actual topics are determined by the student's areas of interest and academic qualifications.

PHIL 453 Epistemology (6 credits)
Prerequisite: Twelve credits in Philosophy, or permission of the Department. A study of characteristic
270

PHYSICS

24 Minor in Physics
These credits must be chosen in consultation with the Department, and would normally include at least 3 credits in laboratory courses.

NOTE: Students following a Minor in Physics must register with the Department by November 1 of each year.

33 Certificate in Scientific Measurement

(Chemistry Option)
19 CHEM 217, 218, 230, 312, 392, 491
14 PHYS 295, 296, 396, 397

Students may replace PHYS 396 with the two courses PHYS 390 and PHYS 491 if they wish.

Concordia students may transfer into the Certificate programme all applicable Concordia credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. Students from other institutions may transfer up to twelve applicable credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

32 Certificate in Scientific Measurement

(Physics Option)
18 PHYS 253, 254, 293, 294, 295, 296, 354, 355
3 Chosen from PHYS 243 or 252 or 364
5 Chosen from PHYS 396 or 397
6 MATH 262, 263

Students may replace PHYS 396 with the two courses PHYS 390 and PHYS 491 if they wish.

NOTE: Students following a Major in Physics must register with the Department by November 1 of each year.

Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

NOTE: In general, experiments involved in the laboratory courses on the Sir George Williams Campus can be done from week to week, at variable times chosen by the student.

PHYSICS CO-OPERATIVE PROGRAMME

Director
J.A. MacKinnon, Associate Professor

The Physics Co-operative Programme is offered to students who are enrolled in the BSc Specialization in Physics.

Students in the Physics Co-op take the regular academic programme. The schedule of academic and work periods for an entering group of Physics Co-op students is given in §31.515.

The overseeing of the Physics Co-op programme is the responsibility of the Principal and the departmental Co-op Committee, which provides the connecting link between students, employers and the Institute for Co-operative Education.

Students interested in applying for the Physics Co-op should refer to §31.515, where a full description of the admission requirements is provided, or write to the Principal, Institute for Co-operative Education, 7308 Sherbrooke Street West, Montreal, Quebec H4B 1R6. For information by telephone see "CONTACTS" in §31.515.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

PHYS 204 Mechanics (3 credits)
Prerequisite: MATH 203 or equivalent, previously or concurrently. Kinematics, Newton's Laws of Motion, Statics, Dynamics. Conservation of momentum and energy. Rotational motion. Periodic motion. Lectures only.

NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration. See PHYS 224 for laboratory associated with this course.

PHYS 205 Electricity and Magnetism (3 credits)
Prerequisite: PHYS 204 or equivalent. Electrical charge and Coulomb’s Law. Electrical field and potential. Capacity, Steady state, and transient currents. Electromagnetic induction and alternating currents. Lectures only.

NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration. See PHYS 225 for laboratory associated with this course.

PHYS 206 Waves and Modern Physics (3 credits)

NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration. See PHYS 226 for laboratory associated with this course.
PHYS 207 Heat and Sound (3 credits)
Prerequisite: 6 credits of Collegial Physics, and 6 credits of Collegial Calculus or equivalent. Temperature and thermometry, heat effects, measurement and transfer, thermal properties of matter, thermodynamics, first and second laws, kinetic theory, waves, vibrations, and acoustical phenomena. Lectures: 3 hours per week.
NOTE: This course is intended for pre-Engineering students. Students in programmes leading to the BSc degree may not take this course for credit.

PHYS 210 Discoveries in Physics (5 credits)
A non-mathematical course in physics specifically designed for students who have had little or no experience in physics. It traces the fundamental ideas from which modern physics has emerged and attempts to develop insights into the understanding of natural phenomena. Lectures only.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit.

PHYS 215 The Mechanics of Visual Representation (3 credits)
An introductory course combining laboratories and lectures illustrating the basic laws that govern the mechanism of image reproduction. Relevant topics concerning the interaction of light and materials are discussed and demonstrated. Students perform experiments with light-sensitive materials, the pinhole camera, light intensity, and illumination measurement. Human visual response, the gray scale, sensitometry, densitometry, the characteristic curve and ASA, DIN; film speeds are examined in depth. This course is designed to complement COMS 275 (Visual Dynamics I). This course is designed for students in Communication Studies. Laboratory and lectures: 3 hours per week.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit.

PHYS 217 The Physics of Photo-Reproduction (3 credits)
A combined laboratory and lecture course designed for students in Communication Studies who have some basic knowledge of physical laws. Ideas introduced in the "Mechanics of Visual Representation" (PHYS 215) are further developed, covering such topics as exposure measurements and control, and the Standard Association Institute Photographic Exposure Guide. The mechanics of a lens, image formation, f-stops diaphragm openings, the 3-colour composition of light, the colour-temperature scale, and filters are studied. This course is designed so that students gain an intelligent and efficient use of their equipment. Laboratory and lecture: 3 hours per week.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit.

PHYS 219 Physics of Photography (3 credits)
Prerequisite: 6 credits of Collegial physics, or the equivalent. This course is intended for students in university science programmes. It includes the following topics: Light, illumination; the photographic process, tone reproduction, the gray scale; sensitometry: the characteristic curve; characteristic curve analysis, gamma, contrast index, film speeds; exposure measurement and control; the exposure guide; previsualization, exposure zones; correct exposure, control of development, Optics: image formation, lenses, standards of definition, depth of focus, depth of field; covering power, perspective; image brightness, exposure, shutters; colour analysis, filters. Lectures and laboratories: 3 hours per week.

PHYS 224 Introductory Experimental Mechanics (1 credit)
Prerequisite: PHYS 204, previously or concurrently, or permission of the Department. A laboratory course covering fundamental experiments in classical mechanics. Experiments include: Resolution of forces, centripetal force and conservation of energy, pendulums. Laboratory only. 10 experiments.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

PHYS 225 Introductory Experimental Electricity (1 credit)
Prerequisite: PHYS 205, previously or concurrently, or permission of the Department. A laboratory course covering fundamental experiments in electricity. Experiments include Kirchhoff's Law, resistors in series and parallel, oscilloscope, induction, Alternating Current. Laboratory only. 10 experiments.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

PHYS 226 Introductory Experimental Waves and Modern Physics (1 credit)
Prerequisite: PHYS 206, previously or concurrently, or permission of the Department. A laboratory course covering the fundamental experiments in waves and modern physics. Experiments include spectrometric measurements. Newton's rings and measurements involving radioactivity. Laboratory only. 10 experiments.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit to be applied to their programme of concentration.

PHYS 232 Theoretical Physics I (3 credits)
Prerequisite: MATH 262 previously or concurrently. Linear Algebra - Abstract vector space, fundamental concepts of the vector space; linear maps and their representation, orthogonal maps, products of linear maps; an introduction to the eigenvalue problem. Introduction to Differential Equations — Linear first-order and second-order ordinary differential equations (homogeneous and non-homogeneous); general method to find particular solutions; the power-series method; problems from mechanics and electricity. Lectures only.
PHYS 233  Computational Methods in Physics  (3 credits)
Prerequisite: PHYS 243; PHYS 253 previously or concurrently, or permission of the Department. Applications of computers to solve physics problems: solutions of systems of linear equations, least squares analysis; curve fitting/plotting; numerical integration; Monte Carlo techniques. Emphasis on Fortran, but Basic, Pascal or C may be used.

PHYS 241  Biomechanics of Human Motion  (3 credits)
Prerequisite: PHYS 204 or equivalent. The application of elementary laws of mechanics to the understanding of static equilibrium conditions of the human body subjected to external forces — the efficiency of human movement seen from the reference point of physical laws as applied to sports. This course is intended for the physio-therapist, the athlete, and all those interested in understanding body mechanics in the light of inanimate physical laws. Lectures only.
NOTE: Students who have received credit for PHYS 243 or equivalent may not take this course for credit.

PHYS 243  Classical Mechanics I  (3 credits)
Prerequisite: PHYS 204 or equivalent. Fundamental concepts, the laws of motion, equilibrium of forces, friction, forces of constraint, centre of mass, work, potential, motion of a particle, motion in resisting media, simple harmonic oscillation, damped oscillations. Lectures only.
NOTE: See PHYS 291 for laboratory associated with this course.

PHYS 244  Classical Mechanics II  (3 credits)
Prerequisite: PHYS 243 or equivalent. Central forces, Kepler's Laws, dynamics of a system of particles, mechanics of rigid bodies, Lagrange's equations, Hamilton's equations. Lectures only.
NOTE: See PHYS 292 for laboratory associated with this course.

PHYS 252  Optics  (3 credits)
Prerequisite: PHYS 206 or equivalent. Geometrical optics: General treatment of optical systems. Wave optics: review of simple harmonic motion, wave equation, superposition of waves, electromagnetic waves, scattering, polarization, interference-coherent sources, interference-uniformly extended sources, diffraction, waves in a dispersive medium, lasers. Lectures only.
NOTE: Students who have received credit for PHYS 352 may not take this course for credit.

PHYS 253  Electricity and Magnetism I  (3 credits)
Prerequisite: PHYS 205 or equivalent. Electric charge, Coulomb's Law, electrostatic forces, electric field, Gauss's Law, electric potential, stored energy. Dielectrics, properties of materials in electric fields. Electric current, conduction in a vacuum and in material media, displacement current, magnetic field of a current, force on a current-carrying wire, magnetic induction, electromotive force, energy stored in a magnetic field. Magnetism in material media, magnetic circuits, Time-varying fields. Capacitance, resistance, inductance; circuitry. Lectures only.
NOTE: See PHYS 293 for laboratory associated with this course.

PHYS 254  Electricity and Magnetism II  (3 credits)
NOTE: See PHYS 294 for laboratory associated with this course.

PHYS 270  Introduction to Energy and Environment  (3 credits)
This course is designed for students who have little or no background in physics. Topics covered include: Relationship of physics to environment and energy. Concept and definition of work and energy. Interaction of people and inanimate objects with the environment. Heat and chemical energy. Electromagnetic and nuclear energy. Conservation of energy — how it affects everyday life. Sources of energy used on earth. Solar energy. Production of wind power, water power, solar cells from sun's energy. Biological uses, biopower. Lectures only.
NOTE: Students in programmes leading to the BSc degree may not take this course for credit.

PHYS 273  Energy and Environment  (3 credits)

PHYS 291  Experimental Mechanics I  (1 credit)
Prerequisite: PHYS 243, previously or concurrently. A laboratory course in mechanics. Experiments include pendulum, coefficient of restitution, centrifugal force, rotational inertia, inelastic impact.

PHYS 292  Experimental Mechanics II  (1 credit)
Prerequisite: PHYS 291. A laboratory course in mechanics. Experiments include the use of air tracks to study acceleration, collisions, dissipative forces, and periodic motion. Other experiments include viscosity and surface tension of liquids.
PHYS 293  Experimental Electricity and Magnetism I (1 credit)
Prerequisite: PHYS 253, previously or concurrently. A laboratory course in electricity and magnetism. Experiments include motion of electrons in electric and magnetic fields, exponential relaxation, damped oscillations, resonance, nonlinearity, negative resistance.

PHYS 294  Experimental Electricity and Magnetism II (1 credit)
Prerequisite: PHYS 293. A laboratory course in electricity and magnetism. Experiments include the transistor, amplification and frequency response, transient response and negative feedback, positive feedback and oscillation, periodic structures.

PHYS 295  Experimental Electronics I (2 credits)
Prerequisite: PHYS 225 or equivalent. A practical laboratory course in electronics. Experiments include resistors in series and parallel, voltmeter, Ohm's Law, Kirchhoff's Current and Voltage Laws, Ohmmeter, capacitor, inductor, transformer, rectifiers, voltage doubler, zener diode, power supplies.

PHYS 296  Experimental Electronics II (2 credits)
Prerequisite: PHYS 295. A practical laboratory course in electronics. Experiments include oscilloscope, biasing of bipolar transistors, transistor amplifiers, voltage and current regulators, field-effect transistor, oscillators, operational amplifier circuits, audio amplifier, i-f transformer, limiter, amplitude and frequency modulation.

PHYS 297  Experimental Optics (1 credit)
Prerequisite: PHYS 252, previously or concurrently. An experimental course in optics. Experiments include diffraction, optical instruments, resonance, and various experiments using lasers. Laboratory only, 10 experiments.
NOTE: Students who have received credit for PHYS 392 may not take this course for credit.

PHYS 298  Selected Topics in Physics (3 credits)

PHYS 299  Selected Topics in Physics (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

PHYS 334  Thermodynamics (3 credits)
Prerequisite: PHYS 204 or equivalent; MATH 205 or equivalent; MATH 262; MATH 263. Temperature, simple thermodynamic systems: work, heat, and first law; ideal gas, Van der Waal's gas, heat engines, reversible and irreversible processes; entropy, second law, thermodynamics potentials, kinetic theory. Maxwell distribution, mean free path. Lectures only.
NOTE: This course should not be taken before the second year of university studies. See PHYS 494 for laboratory associated with this course.
NOTE: Students who have received credit for PHYS 434 may not take this course for credit.

PHYS 335  Theoretical Physics II (3 credits)
Prerequisite: PHYS 232 or equivalent. Linear Algebra: Linear Map, Linear coordinate transformations, eigenvalue problem, Vector space of functions, Sturm-Liouville problem, Fourier Series and applications. Lectures only.

PHYS 336  Theoretical Physics III (3 credits)
Prerequisite: PHYS 335 or equivalent. Classification and derivation of partial differential equations in physics. Separation of variables technique. The Fourier method for solving partial differential equations. Special Functions. Application to physical problems arising from electrostatics, heat conduction, wave propagation, etc. Lectures only.

PHYS 344  Advanced Classical Mechanics (3 credits)
Prerequisite: PHYS 232 or equivalent; PHYS 244 or equivalent; PHYS 335 (or equivalent) recommended. Lagrangian and Hamiltonian dynamics, collision between particles, motion of rigid bodies, Hamilton-Jacobi theory, small oscillations. Lectures only.

PHYS 345  Special Relativity (3 credits)
Prerequisite: PHYS 244; PHYS 254; PHYS 364. Historical introduction, Einstein and relativity, application of the Lorentz transformation, four-vectors, the Lorentz invariance of physical theories. Lectures only.

PHYS 354  Electronics I (3 credits)
Prerequisite: PHYS 205 or equivalent. Semiconductor physics: p-n junction, bipolar transistor, field-effect transistor, circuit theory, diode applications; bipolar transistor: h-parameters, small-signal amplifiers. Lectures only.
NOTE: See PHYS 295 for laboratory associated with this course.

PHYS 355  Electronics II (3 credits)
Prerequisite: PHYS 354. Biasing of Transistors; Feedback Analysis, Common Circuits involving Operational Amplifiers; Large Signal Amplifiers, Digital Circuits: gates, flip-flops, logic functions. Lectures only.
NOTE: See PHYS 296 for laboratory associated with this course.

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**PHYS 435** Statistical Physics (3 credits)
Prerequisite: PHYS 334; PHYS 364. Basic probability concepts, statistical description of systems of particles, thermal interactions, microscopic theory and macroscopic measurements, temperature and entropy, M-B, F-D, B-E statistics. Canonical distribution in the classical approximation, general thermodynamics interaction. Lectures only.

**PHYS 436** Theoretical Physics IV (3 credits)
Prerequisite: PHYS 336. Theory of Complex variables leading to Residue theory, with applications.
PHYS 456  
Electromagnetic Theory I  (3 credits)
Pre requisite: PHYS 254; PHYS 336. Derivation of the laws of electrostatics and magnetostatics from the basic experimental laws; methods of images; solutions of Laplace’s and Poisson’s equations for electrostatic problems, magnetism, Maxwell’s equations. Lectures only.

PHYS 457  
Electromagnetic Theory II  (3 credits)

PHYS 456  
Nuclear Physics  (3 credits)

PHYS 457  
Solid State Physics  (3 credits)

PHYS 477  
Quantum Mechanics I  (3 credits)
Pre requisite: PHYS 244; PHYS 335; PHYS 364. State functions and their interpretation, wave packet, linear momentum, motion of a free particle, Schroedinger’s equation, stationary state, solution, potential wells. Lectures only.

PHYS 478  
Quantum Mechanics II  (3 credits)
Pre requisite: PHYS 477. The harmonic oscillator, creation operators, approximation methods of solving Schroedinger’s equation, perturbation theory, system of particles, motion in three dimensions, spin, angular momentum, hydrogen atom. Lectures only.

PHYS 490  
Directed Readings in Theoretical Physics  (3 credits)
Pre requisite: Permission of the Department. A course for advanced students in which a special topic, selected in consultation with a faculty member, is studied in depth.

PHYS 491  
Experimental Microprocessor Interfacing  (3 credits)

PHYS 495  
Experimental Nuclear Physics  (1 credit)
Pre requisite: PHYS 394; PHYS 465, previously or concurrently. A laboratory course in nuclear physics. Experiments include gamma- and beta-ray spectroscopy, nuclear magnetic resonance, absolute counting, half-life determination, nuclear activities. Laboratory only, 10 experiments.

PHYS 496  
Methods of Experimental Physics  (4 credits)
Pre requisite: PHYS 294; PHYS 296; PHYS 394 or equivalent, or permission of the Department. Projects may include experiments in nuclear physics, optics, solid state, etc. Two examples are a fibre optics laboratory (with laser) and detection and analysis of environmental radioactivity (e.g., radon gas). Students are encouraged to propose projects and have the opportunity to design and build equipment. Laboratory only.

PHYS 498  
Advanced Topics in Physics  (3 credits)

PHYS 499  
Advanced Topics in Physics  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

60 BA Honours in Political Science
6 POLI 200\(^6\)
6 Chosen from POLI 270\(^6\), 271\(^3\), 273\(^3\)
6 Chosen from POLI 372\(^6\) or 374\(^6\)
42 Chosen from at least three of the five Groups in Political Science, with a minimum of 30 credits taken at the 300 or 400 level, 12 of which must be seminar courses. 6 credits may be taken in a cognate discipline with the permission of the Department.

60 BA Honours in Political Science (Concentration in a Special Field of Study)
18 POLI 200\(^6\), 270\(^6\), or 271\(^3\) and 273\(^3\), 372\(^6\) or 374\(^6\)
18 Chosen from at least three of the five Groups in Political Science
24 Chosen from one of the five Groups in Political Science with a minimum of 12 credits taken at the 400 level.*
*6 credits may be taken in a cognate discipline with the permission of the Department.

60 BA Specialization in Political Science
6 POLI 200\(^6\)
12 Chosen from Group V: Theory
42 Chosen from at least two of the other four Groups in Political Science. A minimum of 30 credits must be taken at the 300 or 400 level, 6 of which must be a seminar course. 6 credits may be taken in a cognate discipline with the permission of the Department.

42 BA Major in Political Science
6 POLI 200\(^6\)
36 Chosen from at least three of the five Groups in Political Science. A minimum of 24 credits must be taken at the 300 or 400 level.

42 BA Major in Political Science (Concentration in one Group)
6 POLI 200\(^6\)

The Department of Political Science offers the following programmes of study: a General Honours; an Honours, with concentration in a special field of study; a Specialization; a General Major; a Major, with concentration in a Special field of study; and a Minor.

In order to maintain Honours status, students must obtain approval for their programmes from the Honours Adviser each year prior to registration. In the second year of the Honours programme, each student will choose a faculty adviser to advise the student on course selection and seminar research essays.

Students who already had Honours status by June 1, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar.)

The Specialization is designed for students who wish to acquire a broad knowledge of the discipline without the additional requirements of the Honours programme.

The programme of courses leading to a Minor in Political Science consists of 24 credits in the Department. The Minor is designed to provide an opportunity for students to make a combination with a Specialization, a Major, or Honours in another discipline. A student’s Minor will be arranged in consultation with the Department of Political Science so that it relates to courses in the Major area of study.
Explanation of Course Numbers.

1. Courses in the 200 range are open to all Political Science students, and to students in other departments.
2. All 400-level courses are taught as seminars and require at least one 300-level prerequisite.
3. Special permission of the Department is required for exemptions to the above.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

**POLI 200 Introduction to Political Science** (6 credits)
A description of the features universal to the governing processes of societies, and the nature and consequences of the major variations in these processes. The course combines a theoretical and conceptual framework, with a study of selected political systems and countries. It is designed to act both as an introduction to the discipline for those students who plan to study further and to serve also those students who require a systematic examination of the field in a single course.

**POLI 210 International Relations** (6 credits)
An introductory course in world affairs. Among the topics covered are: the historical evolution of the international system; definitions of basic concepts; types of conflict and cooperation among states; environmental, economic, socio-cultural, and ideological factors; critical problems, current issues, and major trends in world politics.

**POLI 230 Introduction to Comparative Government** (6 credits)
An introductory course in the comparative study of political systems. A general overview is given of the similarities and differences in various political structures and functions as they apply in contemporary representative institutions of the First, Second and Third World nation-states.

**POLI 240 Canadian Public Law** (6 credits)
This course is an introduction to Canadian Public Law, emphasizing such areas as constitutional law, criminal law, administrative law, applications for bail, and consumer protection. In addition, the course involves a study of the organization and functioning of the court system.

**NOTE:** Students who have received credit for POLI 350 may not take this course for credit.

**POLI 250 Canadian Government and Politics** (6 credits)
An institutional and functional analysis of the Canadian federal system. The course centers upon the major problems of concern in the Canadian political process and considers the formal and informal institutions within which these problems might be solved. The political system is studied within the context of federalism; the electoral system; political parties; interest groups; public opinion and the Canadian political culture.

**POLI 260 Introduction to Public Policy and Administration** (6 credits)
An introductory course in the processes of implementing and making policy as practiced in the pri-
POLI 270 **History of Political Theory** (6 credits)
A general survey of the writings of the great thinkers in the Western political tradition, from the classical period to the middle of the nineteenth century. This course provides a general introduction to the history of political thought.

NOTE: Students who have received credit for POLI 271 or 273 may not take this course for credit.

POLI 271 **Ancient Greek Political Philosophy** (3 credits)
A study of the political thought of the ancient Greeks. The principal texts studied are The Republic of Plato and The Politics of Aristotle. This course is particularly recommended for students in the political theory area of concentration.

NOTE: Students who have received credit for POLI 270 may not take this course for credit.

POLI 273 **Roman, Medieval, and Renaissance Political Philosophy** (3 credits)
A study of the political thought of Rome, the Middle Ages, and the Renaissance, with special emphasis upon the political writings of Cicero, St. Augustine, St. Thomas Aquinas, and Machiavelli. This course is recommended for students in the political theory area of concentration.

NOTE: Students who have received credit for POLI 270 may not take this course for credit.

POLI 275 **Women and Politics** (3 credits)
A study of the role of women in public movements, public policy and political parties, with reference to ideology theories on the role of women in society.

POLI 298 **Selected Topics in Political Science** (3 credits)

POLI 299 **Selected Topics in Political Science** (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

POLI 311 **International Public Law** (3 credits)
An introductory course in legal inter-state relations. Among the topics covered are: the sources and development of law; relationships with municipal law; meaning of legal concepts; rights and duties of states; sovereignty and territoriality; state recognition and succession.

POLI 313 **International Law and Power Relations** (3 credits)
A general course on the role of law in world politics. Among the topics covered are: the theory and reality of law; international transactions and diplomatic law; customary and treaty law; judicial settlement of disputes; the laws of war and neutrality.

POLI 315 **International Organizations** (3 credits)
An introductory course in intergovernmental institutions. Among the topics covered are: the development of international public unions; the League of Nations and the United Nations; the structure and function of international administration; specialized agencies and world order.

POLI 317 **Regional Organizations** (3 credits)
A general course in international structural integration. Among the topics covered are: the dynamics of socio-political unification; theories of regionalism; supra-national communities and common markets. Emphasis is given to institutions such as the EEC, COMECON, OAS, OAU, LAFTA, and ASEAN.

POLI 319 **European Politics** (3 credits)
A course on institutions in the European community. The course focuses on supranational regional integration and possible future developments.

NOTE: Students who have received credit for POLI 233 may not take this course for credit.

POLI 321 **The Middle East in World Politics** (3 credits)
A survey of major regional and international problems facing the Middle East. The role of foreign powers is examined with special emphasis on the USA and USSR. Selected topics include the Arab-Israeli question, the Lebanese crises, the Cyprus crises, the Iranian Revolution and its impact on international affairs and the crisis of the Gulf, Horn of Africa and the Red Sea.

POLI 323 **Eastern Europe in World Politics** (3 credits)
This course deals with the role of the Soviet Union and its East European allies in international affairs. Among the topics covered are: the ideological foundations and historical development of socialist foreign policy; problems of domestic security, defense, international trade, foreign aid, and expansion of influence; the East European alliance system, CEMA, and the WTO (Warsaw Pact).

POLI 324 **Western European Governments** (3 credits)
A course in comparative government, focusing on the political institutions of the principal nation-states of the Western European continent, including those in Scandinavia, Iberia and the British Isles.

NOTE: Students who have received credit for POLI 231 may not take this course for credit.
POLI 325  **Ideas and Ideologies in the Middle East**  (3 credits)
A survey of contemporary major political, historical, socio-economic and religious ideologies and movements, which affect Middle Eastern political thought. Special attention is directed to Arab nationalism, Zionism, Turkish nationalism, the Islamic Revival in Iran, Socialism and Communism.

POLI 327  **American Government and Politics**  (3 credits)
A course on the political structures and processes of the United States, focusing on the constitutional framework and domestic politics of the federal system.

POLI 329  **American Foreign Policy**  (3 credits)
A course in the role of the United States in the world. The course considers the strategic position and superpower status of the U.S.A. through its foreign policy and its diplomatic relations with other countries.

POLI 331  **British Government and Politics**  (3 credits)
Government and politics in Britain, with particular emphasis on political parties and pressure groups, the changing role of the legislature and executive, and the Public Corporations. The issues of current constitutional interest are discussed, such as the office of Prime Minister and Parliamentary sovereignty.

POLI 333  **The Government and Politics of the Soviet Union**  (3 credits)
A study of the government and politics of the Soviet Union. Discussion of the basic theories of Communism and the evolution of the Soviet System.

POLI 334  **Women and the Law**  (6 credits)
Prerequisite: POLI 200 or equivalent. An historical comparative study of the status of women as seen in different legal systems. The course deals with women in relation to private, family, and public law. The framework is primarily legal, but also includes a consideration of the social and political implications of women’s legal status. Special attention is directed to Quebec and Canadian law.

POLI 335  **Contemporary Politics of China**  (3 credits)
An analysis of the political development of and change in China since the triumph of Communism in China, with special emphasis on the role of the CCP, mass mobilization and prospect, and influence on Asia and world politics.

POLI 336  **Urban Politics**  (6 credits)
Prerequisite: POLI 200 or POLI 250. A course in the problems and prospects in urban politics, with special emphasis on the processes of the local community. This course, although dealing primarily with urban politics in Canada, goes beyond national boundaries for its comparative treatment.

POLI 337  **Contemporary Politics of Japan**  (3 credits)
An analysis of the political change in and development of Japan since the end of World War II, with special emphasis on the reorientation of Japan, characteristics of Japanese modernization and of post-industrial politics, problems of national post-industrial politics, problems of national security and constitutional pacifism, and influence on Asia and world politics.

POLI 339  **Mid-East Political Systems I**  (3 credits)
A comparative study of the government and politics of Arab North Africa, namely Egypt, Libya, Tunisia, Morocco, Algeria and the Sudan. A link between these and other Middle Eastern Governments is made.

POLI 340  **Political Systems of Southern Asia**  (3 credits)
A study of government and politics of South and Southeast Asia, with special reference to India, Pakistan, Indonesia and Vietnam.

POLI 341  **Mid-East Political Systems II**  (3 credits)
A comparative study of the government and politics of the Arabian Peninsula, the states of Iraq, Syria, Lebanon, Jordan, Israel, Turkey and Iran. A link between these and the North African Arab states is made.

POLI 342  **Asia and Power Politics**  (3 credits)
A study of super powers’ policies in Asia and the international relations of India, China, Japan, Indonesia and Vietnam.

POLI 343  **West African Government and Politics**  (3 credits)
A study of political institutions and process in West Africa, with special reference to Nigeria, Ghana, Togo, Guinea, Cameroon and Angola.

POLI 345  **East African Government and Politics**  (3 credits)
A study of political institutions and processes in East Africa with special reference to Zambia, Zimbabwe, Tanzania, Kenya and Mozambique.

POLI 346  **Political Systems of Latin America and the Caribbean**  (3 credits)
A study of political change, reform and revolution, military rule, and the experiences of representative government in selected countries of South America, Central America and the Caribbean.
POLI 348  **Latin America and the Caribbean in World Affairs**  (3 credits)
A study in inter-American relations, the dependency perspective, sub-regional integration, and international relations of selected states of the area.

POLI 351  **Canadian Federalism**  (3 credits)
Prerequisite: POLI 250. A critical and analytical study of the theory of federal government and its application to the nature, principles, and techniques of federalism in Canada. The reaction of the Canadian federal system to the demands of cultural dualism and regional pressures. Some attention is also given to the problems of provincial governments and Federal-Provincial relations.

POLI 353  **Quebec Politics**  (3 credits)
Prerequisite: POLI 250. A study of the changing party structure and political issues in Quebec and their relationship to constitutional, cultural, and economic factors.

POLI 355  **Nationalism: The Canadian Experience**  (3 credits)
Prerequisite: POLI 250, or permission of the Department. Examines the origins and development of nationalism and regionalism in Canada, with particular attention centered upon the interaction between French-Canadian and English-Canadian nationalist sentiments. Considers the similarities and divergencies of nationalist and regionalist sentiment in Canada with those of European nationalism, and evaluates their significance with regard to the development of the Canadian federation and its capacity to confront the realities and demands of the modern technological environment.

POLI 356  **Canadian Political Parties**  (3 credits)
Prerequisite: POLI 250. A study of national political parties with emphasis on ideology, political organization, leadership and political recruitment.

POLI 357  **Social and Political Power in Canadian Society**  (3 credits)
Prerequisite: POLI 250. An analysis of power and influence in Canadian society. The course reviews theoretical approaches to the study of political power and influence leading to an examination of such key determinants of power as social class, elites, and economic structures in Canada.

POLI 358  **Interest Groups and Public Opinion in Canada**  (3 credits)
Prerequisite: POLI 250. An examination of the function of interest groups, formulation and expression of public opinion, and its impact on public policy.

POLI 359  **Canadian External Affairs**  (3 credits)
This course examines Canada's position in the world. The presentation includes an outline of the diplomatic history of Canada, as well as an analysis of its foreign and defence policies. Emphasis is given to the decision-making process by which policy is formulated and executed, with particular reference to Canadian relations vis-à-vis the United States, the Commonwealth, and the United Nations.

**NOTE:** Students who have received credit for POLI 451 may not take this course for credit.

POLI 360  **Comparative Public Administration**  (6 credits)
Concerned with the theories and maxims, as well as with the development of public administration. The student is introduced to issues such as the organization of governmental departments, budget policy, decision-making in government administration, personnel selection and training methods, as well as the application of efficiency ratings. There is, throughout, strong emphasis on attitudes and differences pertinent to the civil service in a selected group of countries.

POLI 361  **Government, Society and the Public Purpose**  (3 credits)
An examination of the broad social, economic, political and cultural forces shaping governmental decisions and policies. Particular attention is paid to the conflict between private and public concerns.

POLI 363  **Issues in Canadian Public Policy**  (3 credits)
The course examines alternative public policies in selected areas at the federal, provincial, and municipal levels in Canada, leading towards the development of individual research projects. Policies analyzed vary from year to year and include such areas as: social welfare policy, culture, education, and language policy; environmental protection, energy conservation, urban renewal, economic policy.

POLI 365  **Canadian Public Administration**  (3 credits)
Prerequisite: POLI 250, or permission of the Department. This course examines the organization and composition of the federal bureaucracy, the role of the bureaucracy in the making and execution of public policy, patterns of recruitment, and the mechanisms of accountability to, and control over the behaviour of, these bodies.

POLI 367  **Quebec Public Administration**  (3 credits)
Prerequisite: POLI 250, or permission of the Department. This course examines the organization and composition of the provincial bureaucracy, the role of Quebec civil servants in the making and execution of public policy, patterns of recruitment, and the mechanisms of accountability to, and control over the behaviour of, these bodies.

POLI 369  **Regionalism and Public Policy in Canada**  (3 credits)
Prerequisite: POLI 250. An examination of the impact of regionalism on public policy in Canada with
special emphasis on the problems of regional disparity and conflict. An historical analysis of national development policies and regional underdevelopment leads to a study of federal-provincial development strategies, and an assessment of alternative policies for the alleviation/elimination of regional disparities.

POLI 370  **Problems and Concepts in Political Theory**  (6 credits)
Prerequisite: POLI 270, or POLI 271; POLI 273. A course in political theory that examines central concepts in political thinking, such as liberty, equality, and power. The content of the course includes basic methodology and terminology to the extent that the thematic orientation in any given year may require its inclusion.

POLI 371  **Early Modern Political Philosophy**  (3 credits)
The Reformation and rise of modern individualism. The principal political thinkers studied in this period are Luther, Calvin, Bellarmine, Bodin, Hobbes, Harrington.

POLI 372  **Methodology of Political Science**  (6 credits)
A study of the contemporary subject matter and methods of political science. The course deals with: 1) fundamental concepts, principles, institutions, and processes of politics; 2) methods and techniques of the study of Politics, including an introduction to statistical analysis; 3) present approaches, such as functionalism, behaviourism, and practical laboratory periods.

POLI 373  **Late Modern Political Philosophy**  (3 credits)
The Enlightenment and its critics, and the political thought of the early industrial period. The most important thinkers studied in this period are: Locke, Montesquieu, Hume, Rousseau, J.S. Mill.

POLI 374  **Introduction to Quantitative Political Inquiry**  (6 credits)
A study of the logic and methodology of Political Science research. Special attention is paid to the formulation of hypotheses and research design; the study of quantitative methods of data collection and analysis; and, the introduction of SPSS (Statistical Package for Social Sciences).

POLI 375  **Nationalism: Origins, Operation, Significance**  (3 credits)
Examines the foundations of nationalist ideology developed originally in the early nineteenth century as a purely European phenomenon. Considers specific nationalist ideologies — European, African, Asian, etc., with regard to their modality of operation, and their significance in relation to a society’s capacity to evolve and confront the demands, both internal and external, of the contemporary environment.

POLI 377  **Catholic Social and Political Thought**  (3 credits)
An inquiry into contemporary Catholic social and political thought as stated in papal encyclicals; a broad survey of Catholic political activity as manifested in the European and Latin-American Christian Socialist and Christian Democratic movements and parties.

POLI 381  **Bureaucracy and Public Policy**  (3 credits)
Prerequisite: POLI 365 or POLI 367. An examination of the expanding role of the federal or provincial bureaucracy in the development and implementation of public policy in Canada. Particular attention is devoted to the sources of increasing bureaucratic power and to the patterns of interaction among the cabinet, parliament and the bureaucracy.

POLI 385  **Environmental Issues and Policy**  (3 credits)
An examination of selected environmental issues, and public and governmental response to these issues. This course examines the making of public demands related to environmental issues (through movements and interest groups) and its impact on governmental response (in terms of policy outputs).

POLI 389  **Religion and Politics**  (3 credits)
A study of the impact of religion on political processes and movements in selected countries and areas.

POLI 398  **Selected Topics in Political Science**  (3 credits)

POLI 399  **Selected Topics in Political Science**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

POLI 410  **Institutions of World Society**  (6 credits)
An advanced study of the institutions of contemporary international society. The discussions emphasize constitutional and structural aspects of universal and regional inter-governmental organizations, institutions of diplomacy and international law, supranational communities and transnational corporations.

POLI 412  **Foreign Policy and Diplomacy**  (6 credits)
A specialized course on the substance, formulation and implementation of foreign policy in selected countries. Special attention is paid to theoretical frameworks, inputs in decision making, policy evaluation, diplomatic establishments, diplomatic negotiation, treaty making, and conference diplomacy.

**NOTE**: Students who have received credit for POLI 411, 413 may not take this course for credit.

**NOTE:** Students who have received credit for POLI 460 may not take this course for credit.
POLI 462  Comparative Public Policy  (6 credits)
A comparative analysis of some of the major policy problems confronting industrially advanced societies. The aim is to understand how similar problems are approached by different political systems.

POLI 463  Government and Business in Canada  (3 credits)
A course in public policy designed to explore the relationship between government and business in Canada. Particular attention is given to the formation and implementation of policies intended to promote and control enterprise and the role of government as entrepreneur.
NOTE: Students who have received credit for POLI 460 may not take this course for credit.

POLI 465  Analysis and Evaluation of Public Policy  (3 credits)
An advanced study of the various theoretical approaches to policy planning, evaluation and analysis and of the various conceptual, methodological and ethical issues emergent in the evaluation of governmental policy performance.

POLI 470  Contemporary Political Thought  (6 credits)
A study of the most important political thinkers and the main currents of political thought in the past century.

POLI 471  Political Thought and Ideology in Canada  (3 credits)
A study of the writings of the most significant political and social thinkers in Canada, and of the main ideological orientations in Canadian politics.

POLI 472  Communications and Politics  (6 credits)
This course examines communication and national unity, communications and social mobilization, politics and the mass media, the use of political symbols, communication, and authority, and the "Canadian School" of culture and communications, based on the ideas of Harold Innis.

POLI 473  Political Theory and Historical Understanding  (3 credits)
An advanced seminar on the relation between historical understanding and political thought.

POLI 474  Political Theory and Scientific Method  (6 credits)
An advanced seminar on the problems of applying scientific method in the study of politics.

POLI 475  Marxism  (3 credits)
A critical examination of the major texts of Marx and Engels, and a study of representative selections of Marxist thinkers chosen from among the following: Kautsky, Plekhanov, Lenin, Luxemburg, Trotsky, Stalin, Lukacs, Gramsci, Althusser, Mao.

POLI 498  Advanced Topics in Political Science  (3 credits)

POLI 499  Advanced Topics in Political Science  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

Students must apply to the Departmental Honours Adviser for formal admission to Honours Programmes. The application is usually made after completion of the first-year courses. Students who already had Honours status by June 1, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar.) For additional information concerning Programmes and courses, students should consult the course guide published annually by the Department.

Stages I and II
6 PSYC 320
12 Chosen from PSYC 357, 360, 363, 366, 369, 381, 384

Stages II and III
9 Chosen from PSYC 343, 346, 349, 352
3 PSYC 344 or 347 or 350 or 353
6 Chosen from PSYC 330 or 333 or 336 or 339
6 Psychology electives at "300" or "400" level selected in consultation with the Psychology programme advisor

Stage III
6 PSYC 420
6 PSYC 430

NOTE: In addition students must take a minimum of 15 science credits outside the department selected in consultation with the Psychology programme advisor.

Psychobiology Option

Students wishing to do BSc Honours (Psychobiology Option) must take PSYC 357 or 360 as part of their Psychology programme.

To complete the option students will select 21 credits in Chemistry and Biology from the courses listed below. Fifteen of these credits will replace the 15 outside credits of science electives and up to 6 of these credits may be substituted for 6 credits of Psychology electives.

Stage I
6 CHEM 221 and 222

Stage I and II

Stage II
9 Chosen from BIOL 261, 321, 333, 335, 336, 363, 364, 365, 462, CHEM 475, 476

BA Major in Psychology

Stage I
6 PSYC 310, 315 concurrently
6 PSYC 320

Stage II
A total of 24 credits to be taken from the following two sets of courses:

42

BSc Major in Psychology

Stage I
6 PSYC 310, 315 concurrently
6 PSYC 320

Stage II
12

Minor in Psychology

Stage I
3 PSYC 310
3 PSYC 315 concurrently with 310
6 PSYC 320

Stage II
9

BSc Specialization in Psychology

Stage I
6 PSYC 310 and 315 concurrently
6 PSYC 311 and 316 concurrently
6 PSYC 320

Stages I and II
12 Chosen from PSYC 357, 360, 363, 366, 369, 381, 384

Stages II and III
9 Chosen from PSYC 343, 346, 349, 352
3 PSYC 344 or 347 or 350 or 353
6 Chosen from PSYC 330 or 333 or 336 or 339

Department-approved Psychology electives at "300" or "400" level.

NOTE: Students in programmes leading to the BSc degree are reminded that PSYC 320 and PSYC 390-394 do not count as Science credits. All other "300" and "400" level Psychology courses count as Science credits.
This comprehensive survey course introduces the student to the phenomena and terminology encountered in a number of areas of scientific psychology. Topics covered include basic mechanisms of the receptors and nervous system, memory, motivation, perception, learning, abnormal psychology, personality, cognition, and social aspects of behaviour.

NOTE 1: Students who have received credit for PSYC 200 or equivalent may not take MANA 213 for credit.

NOTE 2: Students who have credit for or exemption from Introductory Psychology at CEGEP or elsewhere may not take this course for credit.

Prerequisite: Introductory Psychology or equivalent. This course deals with selected aspects of theory and practice related to learning disabilities including perceptual and motor disabilities, language disabilities and methods of diagnosis and remediation.

NOTE: This course is intended for students not enrolled in psychology programmes. Students who have received credit for PSYC 377 or 391 may not take this course for credit.

Prerequisite: Introductory Psychology or equivalent. This course deals with various aspects of adolescence including such topics as physical change, sexual and sex-related behaviours, cognitive growth and lifestyles.

NOTE: This course is intended for students not enrolled in psychology programmes. Students who have received credit for PSYC 379 or 391 may not take this course for credit.

Prerequisite: Introductory Psychology or equivalent. This course focuses on emotional development in childhood. Topics that may be considered include prenatal and genetic influences on emotion, attachment formation, effects of alternative child care, role of father and poverty. The normal development of anxiety, fear and affection is discussed.

NOTE: This course is intended primarily for students in the Family Life Education Certificate programme (Department of Applied Social Science).

NOTE: Students who have received credit for PSYC 220, Sec. A or B (1980-81); Sec. B (1981-82); or Sec. A (1982-83) may not take this course for credit.

Prerequisite: Introductory Psychology or equivalent. This course examines socialization processes during infancy, childhood and adolescence. The effects on socialization of factors such as family structure, disciplinary techniques and social class are considered. The development of social skills, morality, prosocial behaviour and aggression are examined.

NOTE: This course is intended primarily for students in the Family Life Education Certificate programme (Department of Applied Social Science).

NOTE: Students who have received credit for PSYC 221, Sec. B or C (1980-81); Sec. A (1981-82); or Sec. A (1982-83) may not take this course for credit.

Prerequisite: Introductory Psychology or equivalent. This course explores the rapidly developing psychologically oriented theory and research on leisure and its meaning and importance for the individual. Topics that may be considered include motivation for leisure activities, planning for leisure and/or retirement, therapeutic value of leisure, new conceptions of work and leisure, leisure and self-development.

NOTE: Students who have received credit for PSYC 222, Sec. 60 (1981), Sec. 02 (1981-82) or for Sec. 51 (1982-83), or for PSYC 223, Sec. 60 (1982) may not take this course for credit.

The "200" level Selected Topics Courses (PSYC 297; PSYC 298; PSYC 299) are designed as elective courses for students who are not registered in a psychology programme. These courses, which have only Introductory Psychology (usually CEGEP 102 or PSYC 200) or equivalent as a prerequisite, cover a wide variety of areas of contemporary interest. The particular topics vary from session to session and the material is dealt with in a manner appropriate for students who have minimal formal background in psychology. Students registered in a Psychology programme do not normally register for these courses. Students should consult the Psychology Department Course Guide (published yearly) to find out the topic titles for a particular session.

The department also offers "300" and "400" level topic courses for students registered in Psychology programmes. (See below.)
PSYC 310 Research Methods in Experimental Psychology I (3 credits)
Prerequisite: Introductory Psychology or equivalent; PSYC 315 to be taken concurrently. An examination of the experimental method in psychology. Students complete experimental projects to acquaint themselves with procedures in various areas of psychology, such as perception, learning, and motivation. Statistical procedures for analysis of the results of the experiments are presented in the concurrently taught course in psychological statistics. Lectures and laboratory.

PSYC 311 Research Methods in Experimental Psychology II (3 credits)
Prerequisite: PSYC 310; PSYC 315. This course builds on the experience gained in PSYC 310 and 315. It is devoted to a critical examination of more complex designs used in psychology. Students are required to conduct and evaluate experiments. An opportunity is provided for them to undertake a supervised research project.

PSYC 312 Field Research Methodology (3 credits)
Prerequisite: PSYC 310; PSYC 315. This course deals with techniques for studying complex behaviour in non-laboratory settings. Topics such as the neutrality or invisibility of the observers, participant observation, categorization, and recording problems may be studied. The relationship between laboratory findings and findings from the non-laboratory setting is considered.

PSYC 315 Statistical Analysis in Experimental Psychology I (3 credits)
Prerequisite: Three approved credits in Mathematics at CEGEP or university; PSYC 310 to be taken concurrently. This course is an introduction to statistics, presented in an experimental psychology context. Topics dealt with include frequency distributions, measures of central tendency and dispersion, the normal curve, correlation, elementary probability theory, an introduction to hypothesis testing, and the t-test. These topics are coordinated with the laboratory projects in Research Methods I which must be taken concurrently. NOTE See §200.7

PSYC 316 Statistical Analysis in Experimental Psychology II (3 credits)
Prerequisite: PSYC 310; PSYC 315. This course builds on the experience derived from PSYC 310 and 315 to advance the student’s understanding of hypothesis testing and statistical inferences. The material dealt with includes non-parametric statistics, the chi-square and F-distribution, introductory analysis of variance, and various correlational techniques. NOTE See §200.7

PSYC 317 Introductory Statistical Methods in Psychology (6 credits)
Prerequisite: Any two CEGEP courses in Mathematics. Topics dealt with include frequency distributions, measures of central tendency and dispersion, correlation and regression, elementary probability theory, the binomial and normal distributions, sampling and statistical inference, simple analysis of variance, miscellaneous non-parametric techniques. Lectures and laboratory. Only 6 credits will be recognized from PSYC 315, 316, or 317. NOTE See §200.7

PSYC 318 Advanced Statistical Methods in Psychology (6 credits)
Prerequisite: PSYC 315; PSYC 316. (Or PSYC 317 or equivalent.) The course is intended for students who already possess some background in statistics. Knowledge of elementary descriptive and inferential statistics is assumed. The course covers topics such as advanced analysis of variance designs, introductory multivariate analysis, advanced topics in correlation, and regression.

PSYC 320 Modern Psychology in Historical Perspective (6 credits)
Prerequisite: Introductory Psychology or equivalent. The course deals with the historical background of psychology from ancient and medieval times up to the present. Early contributions to psychology from the fields of philosophy, physics, physiology, and psychophysics are presented and related to the various schools of psychological thought from the late nineteenth century to the modern era.

PSYC 330 Developmental Psychology (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. Basic findings and contemporary issues concerned with human cognition, social and emotional development are considered. The course deals with a variety of topics such as the behavioural organization and competence of the new-born, relationships in the pre-school period, effects of different early environments, Piaget’s theory of cognitive development.

PSYC 333 Social Psychology (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. The behaviour of the individual as a member of a larger grouping or society is dealt with. The study of the social influences on individuals or groups involves consideration of topics such as attitude change and development, intragroup communication and problem solving, leadership, prejudice, development of social movements, and culture.

PSYC 336 Personality: Normal and Abnormal (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. The organization, functioning, and development of personality are discussed according to major theories of personality. Evidence from experimental studies and field findings are discussed. Socio-economic, cultural, and biological system factors may also be considered.

PSYC 339 Behaviour Disorders (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. The course deals with contemporary
research and theory related to the aetiology, diagnosis, and treatment of various psychological disorders. Psychoneuroses, psychoses, and psychosomatic conditions are studied. Social, learning, and biological influences on the development of such disorders as schizophrenia, depression, anxiety neuroses, and phobias are discussed.

PSYC 343  **Motivation I** (3 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. This course reviews and evaluates theories and empirical findings concerning motivation. Topics include the study of motivation in historical perspective, the biological and evolutionary bases of motivation, drive, arousal, and incentive theories of motivation.

**NOTE:** Students who have received credit for PSYC 342 may not take this course for credit.

PSYC 344  **Motivation II** (3 credits)
Prerequisite: PSYC 343. This course is a continuation of PSYC 343; it presents a more focused and thorough treatment of selected topics in motivation. These may include sleep, hunger, sex, aggression, altruism, achievement, pain, fear, and play. Different sections of the course may cover different sets of topics.

**NOTE:** Students who have received credit for PSYC 342 may not take this course for credit.

PSYC 345  **Learning I** (3 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. This course reviews and evaluates theories and empirical findings concerning basic mechanisms of learning. Topics include the study of learning in historical perspective, Pavlovian conditioning, operant conditioning, reinforcement, stimulus control of behaviour, and the aversive control of behaviour.

**NOTE:** Students who have received credit for PSYC 345 may not take this course for credit.

PSYC 347  **Learning II** (3 credits)
Prerequisite: PSYC 346. This course is a continuation of PSYC 346; it presents a more focused and thorough treatment of more advanced topics in learning. These may include developmental aspects of learning, animal memory and cognition, human applications of conditioning principles, biological constraints on learning, or the physiology of learning and memory. Different sections of the course may cover different sets of topics.

**NOTE:** Students who have received credit for PSYC 345 may not take this course for credit.

PSYC 349  **Sensation and Perception I** (3 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. Physiological and psychological bases of sensation and perception. Topics such as pitch perception, colour vision, perception of movement, size, and distance are included. The areas of sensation and perception are integrated through a human information-processing approach to the understanding of audition, vision, and other modalities.

**NOTE:** Students who have received credit for PSYC 348 may not take this course for credit.

PSYC 350  **Sensation and Perception II** (3 credits)
Prerequisite: PSYC 349. A continuation of PSYC 349. This course examines current topics in the area of sensation and perception with an emphasis on recent research and developments in vision and audition, including areas such as colour vision, space perception, the anatomical and physiological bases of perception, the perception of illusions, and motion perception. Different sections of this course may cover different sets of topics.

**NOTE:** Students who have received credit for PSYC 348 may not take this course for credit.

PSYC 352  **Cognition I** (3 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. A course that introduces the general area of cognitive psychology through the presentation and discussion of the theoretical and experimental foundations for our current understanding of how humans acquire and use language. Current research findings and theories in the areas of pattern recognition, attention, memory and imagery are surveyed. Following this introductory course, students should have the necessary background to pursue advanced topics in cognition.

**NOTE:** Students who have received credit for PSYC 351 may not take this course for credit.

PSYC 353  **Cognition II** (3 credits)
Prerequisite: PSYC 352. A continuation of PSYC 352 that presents thorough treatments of topics such as cognitive development, psycholinguistics, concept acquisition, reading, speech perception, problem solving and reasoning. Different sections of this course may cover different sets of topics.

**NOTE:** Students who have received credit for PSYC 351 may not take this course for credit.

PSYC 354  **Mathematical Theories of Behaviour** (6 credits)
Prerequisite: PSYC 310, PSYC 315. The course surveys applications of mathematical techniques to problems of psychology in such areas as motivation, learning, decision making, sensory psychophysics, and perception. Students enrolling in this course should have a mastery of elementary probability theory and should be confident of their ability to deal with elementary calculus, algebra, and logic.

**NOTE:** Students who have received credit for PSYC 351 may not take this course for credit.

PSYC 357  **Physiological Psychology** (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. (Or 9 credits in CEGEP-level Chemistry...
and Biology courses or permission of the Department). This course deals with current theory and research concerning the neural and humoral bases of behaviour. The biological bases of behaviour are clarified through study of such topics as the function of nerve cells and circuits, brain-hormone interactions, physiological mechanisms of sensation, perception, memory, and coordinated movement.

**PSYC 360 Brain Chemistry and Behaviour** (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. (Or 9 credits in CEGEP-level Chemistry and Biology courses or permission of the Department). Neural systems are classified in terms of their different chemical transmitter substances. The mechanisms of hunger, thirst, pain, reward, drug abuse, and the neurochemical basis of disorders such as schizophrenia, depression, and Huntington's Chorea may be discussed. Methods for the identification and selective stimulation and destruction of the various systems are included.

**PSYC 361 Psychology of Drug Dependence** (3 credits)
Prerequisite: PSYC 310; PSYC 315. (Or 6 credits from among PSYC 357, PSYC 360 or PSYC 363, or permission of the Department). This course focuses on the behavioural and pharmacological mechanisms underlying the phenomenon of drug dependence. Concepts such as physical and psychological dependence, tolerance, reinforcement and aversion are discussed. In addition the role of these concepts in the development of new treatment procedures is assessed.

**PSYC 363 Neuroanatomical Bases of Behaviour** (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. (Or 9 credits in CEGEP-level Chemistry and Biology courses or permission of the Department). Major emphasis is given towards gaining a knowledge of the structural anatomy and functions of the human central nervous system. Neurological mechanisms subserving human motives, emotions, language, visual-spatial perceptions, etc., are examined. Research related to both animal and human neuropathology is considered.

**PSYC 364 Introduction to Behavioural Medicine** (6 credits)
Prerequisite: PSYC 310; PSYC 315. (Or 6 credits from among PSYC 357, 360 or 363). This course surveys some of the areas dealt with by psychologists who conduct research or provide clinical services relating to physical health. The structure of the course reflects the growing recognition that psychological factors can be of major importance for both the development and eventual treatment of physical disorders. The course introduces students to the history and basic concepts of the field and covers psychological aspects of the etiology and treatment of such problems as pain and headache, substance abuse, anxiety and stress, cardiovascular disorders, sexual dysfunction. In discussing treatment emphasis is placed on psychologically-based procedures, though somatic interventions (e.g., medication, diet and surgery) are also reviewed at a level appropriate to the non-medical nature of the course.

**PSYC 366 Animal Behaviour** (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. (Or 9 credits in CEGEP-level Chemistry and Biology courses or permission of the Department). The study of animal behaviour is approached from the point of view of sociobiology, ethology, and comparative psychology. Research findings from the experimental laboratory and from studies of animals in their natural environment are discussed. A study of genetic and evolutionary aspects of behaviour is intrinsic to the course.

**PSYC 369 Hormones and Behaviour** (3 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. The course deals with the role of hormones in integrating the activity of various neural, endocrine, and sensory systems to bring about organized, purposeful behaviour. Topics discussed include the reproductive, sexual, or environmentally adaptive systems, with treatment of material ranging from the molecular to the behavioural level.

**PSYC 372 Psychology of Physical Activity** (6 credits)
Prerequisite: PSYC 310; PSYC 315. (Or permission of the Department). The relationship between physical and psychological well-being is systematically explored. Topics that may be dealt with include philosophical roots of the mind — body problem, the structural and metabolic basis of both emotional expression and physical activity, the role of aerobic fitness level in altering emotional reaction patterns.

**PSYC 375 Industrial and Organizational Psychology** (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. A systematic examination of current research and theory about human behaviour as it occurs in the context of work organizations. Possible topics are: motivation to work, communication in organizations, career development, and systems approach to conceptualizing the social psychology of organizations.

**PSYC 377 Abnormal Development** (3 credits)
Prerequisite: PSYC 310; PSYC 315; 6 credits from among PSYC 330, PSYC 336, PSYC 339 previously or concurrently, or permission of the Department. This course covers major theoretical and applied issues in abnormal child development. Topics covered may include gender and sex-role-related problems, anxiety and fear-related problems, conduct disorders and delinquency, childhood anorexia and obesity, hyperactivity and attentional disorders, learning and school-related problems, mental retardation, and childhood psychosis.
PSYC 378 Learning in the Classroom (6 credits)
Prerequisite: PSYC 310; PSYC 315. A systematic examination of psychological principles and research that contribute to an understanding of learning in the school.

PSYC 379 Adolescent Development (3 credits)
Prerequisite: PSYC 310; PSYC 315; 6 credits from among PSYC 330, PSYC 336, PSYC 342 or PSYC 351 previously or concurrently. This course examines the physical, cognitive and motivational changes in puberty and early adolescence, their underlying mechanisms, interrelations and behavioural effects. Topics that may be covered include effects of early and late pubertal onset, parent and peer relations, sex differences and sex roles, and identity issues.

PSYC 380 Psychology of Aging (3 credits)
Prerequisite: PSYC 310; PSYC 315; 6 credits from among PSYC 330, PSYC 333, PSYC 336, PSYC 342 or PSYC 351 previously or concurrently. This course examines psychological development during the later phases of life. The material covered includes methodological issues in the study of aging as well as research findings in such areas as adjustment and well-being, coping styles and stress, age-related changes in memory and learning, the impact of social and family variables on aging, and health and medical issues related to the elderly.

PSYC 381 Scaling (3 credits)
Prerequisite: PSYC 310; PSYC 315. The theoretical basis and application of scaling methods in psychophysics and social psychology are studied. Quantitative scales for the measurement of attitudes and sensations are derived and constructed. Other topics that may be covered include subjective estimate methods, the law of comparative judgement, unfolding techniques, and signal detection theory.

PSYC 384 Measurement (3 credits)
Prerequisite: PSYC 310; PSYC 315. A consideration of the general theory of psychological measurement and its application in the development and use of various psychometric instruments such as achievement, intelligence, aptitude, personality, and interest tests. Derived scores, norms, reliability, and validity of these instruments are discussed in the context of general measurement problems in psychology.

PSYC 390 Sexual Differentiation (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. (Or Introductory Psychology and completion of 30 credits in any degree programme in Arts and Science or enrolment in the Family Life Education Certificate, or permission of the Department). The genetic, hormonal, and social influences shaping the behaviour of men and women from embryonic life through adulthood are examined. Topics discussed include gender identity, sexuality, aggression, and cognitive abilities. The course, primarily approached from the point of view of women, includes an exploration of some of the myths surrounding the differences between men and women.

PSYC 393 Psychology of Language and Communication (6 credits)
Prerequisite: PSYC 310 and PSYC 315. (Or a minimum of three credits from among TESL 211, LING 200, FRAN 381 or COMS 240 or permission of the Department). The course deals with the cognitive, developmental, and social aspects of language and human communication. Topics discussed may include psychological consideration of modern linguistic theories, child language development, second-language development in children and adults, speech perception, biological basis of language, social psychological aspects of human communication.

PSYC 394 Community Psychology (6 credits)
Prerequisite: PSYC 310 and PSYC 315 previously or concurrently. (Or Introductory Psychology and completion of 30 credits in any degree programme in Arts and Science, or permission of the Department). The course relates psychology to the day-to-day problems of people in society. The contributions of psychology to community leadership in the study of personal, social, cultural, and ecological arrangements are considered as they relate to such institutions as the family, school, prisons, health and welfare, and political structures.

SELECTED PROBLEMS IN PSYCHOLOGY
The Selected Problems in Psychology (PSYC 398 and PSYC 399) are designed for students enrolled in a Psychology programme. The material is dealt with in a manner that assumes a background in experimental psychology and, in some cases, specific preparation through prior completion of a related course. The minimal prerequisite is PSYC 310 (Research Methods I) and PSYC 315 (Statistical Analysis in Experimental Psychology I). Students should consult the Psychology Department Course Guide (published yearly) for details concerning available courses.

PSYC 398 Selected Problems in Psychology (3 credits)

PSYC 399 Selected Problems in Psychology (6 credits)

PSYC 400 Advanced Experimental Psychology (6 credits)
Prerequisite: PSYC 310, PSYC 311, PSYC 315, PSYC 316 or equivalent, and permission of the Department. The course provides experience in the design, conduct, analysis, and reporting of independent research in the major areas of psychology. The research is undertaken under the supervision of a Faculty member.
PSYC 410  **Supervised Practicum in Psychology**  (6 credits)
Prerequisite: PSYC 310, PSYC 311, PSYC 315, and/or permission of the Department. A limited number of opportunities for gaining advanced practical experience in various institutional or field-work settings are available. The student activities are closely supervised by a qualified Faculty member.

PSYC 420  **Honours Seminar**  (6 credits)
Prerequisite: Permission of the Department. Open to final-year Honours students. The seminar deals in depth, with the research and theory relevant to selected contemporary issues in psychology.

PSYC 430  **Honours Thesis**  (6 credits)
Prerequisite: Permission of the Department. Open to final-year Honours students. This course requires the student to propose and conduct a study and submit a thesis written according to the APA format. The work is supervised by a Thesis chair selected by the student from within the Department.

PSYC 437  **Directed Research in Psychology**  (3 credits)
Prerequisite: PSYC 310, PSYC 311, PSYC 315, PSYC 316 or equivalent, and permission of the Department. Under the supervision of a Faculty member, the student carries out an independent research project and reports it in writing. The area of study must be decided upon through consultation with the Faculty member.

PSYC 438  **Directed Readings in Psychology**  (6 credits)
Prerequisite: Acceptance by a supervisor and confirmation by the Department. This course is designed for the advanced student wishing to do independent, individually supervised literature research on a specific topic in psychology. This research culminates in a written paper. Students should have a well-defined topic in mind before registering for this course.

**SPECIAL ADVANCED SEMINARS**
Permission of the department is required for registration in the Special Advanced Seminars (PSYC 498 and PSYC 499). These courses are normally open to Specialization and Honours students who are completing their final 30 credits. The usual minimal prerequisite for these specialized courses is PSYC 310, PSYC 311 (Research Methods I & II) and PSYC 315, PSYC 316 (Statistical Analysis in Experimental Psychology I & II). Because the various topics offered are dealt with in depth at an advanced level, specific preparation through prior completion of a related course may also be required.

PSYC 498  **Special Advanced Seminar**  (3 credits)

PSYC 499  **Special Advanced Seminar**  (6 credits)
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

60 BA Honours in Religion
6 RELI 211^6
6 RELI 213^6 or 222^6
12 From one of three areas of specialization:
A. Asian Religions:
Chosen from RELI 311^3, 313^3, 314^3, 315^3, 316^3, 317^3, 318^3, 319^3, 374^1
B. Christianity:
Chosen from RELI 301^3, 302^3, 361^6, 362^6, 363^3
C. Judaism:
6 From courses specified in a second area above
6 Chosen from RELI 331^3, 332^3, 333^3, 334^3, 341^6, 342^6, 343^6, 380^6
6 RELI 410^6
6 RELI Elective credits at 300 or 400 level
12 Elective credits in RELI or related Discipline (in consultation with Departmental Adviser)

42 BA Major in Religion
6 Chosen from RELI 211^6, 213^6, 311^6, 313^6, 314^5, 315^4, 316^3, 317^3, 318^3, 319^3
6 Chosen from RELI 222^6, 301^3, 302^3, 326^3, 327^3, 328^5, 330^3, 361^6, 362^6, 363^6

30 RELI elective credits at the 300 or 400 level

30 Minor in Religion
30 RELI elective credits (in consultation with the Departmental Adviser)

60 BA Honours in Judaic Studies
6 Chosen from RELI 201^6, HEBR 210^6, 211^6, 250^6, 251^3
6 Chosen from RELI 211^6, 213^6
6 RELI 222^6
9 Chosen from RELI 301^3, 326^3, 327^3, 328^3, 330^3

6 Chosen from RELI 302^3, 313^6, 361^6, 362^6, 372^3
6 RELI 400^6

120 Bi-University Major in Judaic Studies

By agreement between the University and Bar-llan University, Ramat-Gan, Israel, students may be admitted to a 120-credit bi-University programme designed to provide the academic base for prospective teachers in Jewish Studies programmes at the primary, elementary, and junior high school levels in Canada. Admission to the programme depends upon acceptance by both universities. Successful applicants may spend up to the first 24 months (i.e., two regular and two summer sessions) at Bar-llan. The rest of the requirements for the degree must be completed at Concordia while the student is registered in the BA Major in the Judaic Studies programme. Further information on the programme may be obtained from the Department of Religion.

42 BA Major in Judaic Studies
6 Chosen from RELI 201^6, HEBR 210^6, 211^6, 250^6, 251^3
6 Chosen from RELI 211^6, 213^6
6 RELI 222^6
9 Chosen from RELI 301^3, 326^3, 327^3, 328^3, 330^3
6 Chosen from RELI 302^3, 313^6, 361^6, 362^6, 372^3

NOTE: By agreement between the University and Bar-llan University, Ramat-Gan, Israel, students in this programme may take up to 30 Concordia-equivalent credits at Bar-llan. They must, however, meet the requirements for the
Major; at least 12 credits of course work in Judaic Studies must be taken at Concordia.

30 Minor or Certificate in Judaic Studies
   6 Chosen from RELI 211\textsuperscript{b}, 213\textsuperscript{b}
   6 RELI 222\textsuperscript{b}
   9 Chosen from RELI 301\textsuperscript{b}, 326\textsuperscript{b}, 327\textsuperscript{b}, 328\textsuperscript{b}, 330\textsuperscript{b}
   9 Chosen from RELI 298\textsuperscript{b}, 395\textsuperscript{b}, 396\textsuperscript{b}, 397\textsuperscript{b}, 398\textsuperscript{b}, 401\textsuperscript{b}

Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

NOTE: Students in the Honours programme may take RELI 398 up to three times, provided that the subject matter of each RELI 398 course is different and approval of the Department Adviser has been given. Students in the Major and Minor programmes may take RELI 398 twice, provided that the subject of each RELI 398 course is different and approval of the Department Adviser has been given.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

RELI 201 Classical Hebrew (6 credits)
A study of the language of the classical Hebrew texts. The course is designed as a preparation for reading the Hebrew Bible, but takes account of other texts.

RELI 211 Understanding Religion (6 credits)
A systematic and topical introduction to the study of religion. The purpose of the course is to enable the student to articulate and investigate questions about the meaning and nature of religion. Problems discussed include the elements of religious experience, forms of religious expression and interpretation, religious communities and practices, and the questions raised by the contemporary interfaith dialogue. Materials are taken from a variety of religious traditions.

RELI 213 Major Religious Traditions of the World (6 credits)
A historical and comparative overview of the major religious traditions of the world: Judaism, Christianity, Islam, Hinduism, Buddhism, and Chinese religions. The course includes some consideration of the new religions in North America.

RELI 222 Judaic Studies: History of Judaism (6 credits)
A historical survey of the Jewish religion from the Biblical Age until the beginning of the modern period. The course focuses on the sociological, historical, and the intellectual settings of the Jewish people. The emphasis is on the formation and continuation of the major Jewish concepts, constitutions and traditions.

RELI 298 Selected Topics in Religion (3 credits)
RELI 299 Selected Topics in Religion (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

RELI 301 Biblical Studies I: The Hebrew Bible (3 credits)
An introduction to the methods and results of Biblical scholarship with regard to the history, culture, and religion of Ancient Israel. Particular attention is given to the major religious affirmations and theological concepts of the Hebrew Bible that have become central in the subsequent development of Judaism.

RELI 302 Biblical Studies II: The New Testament (3 credits)
An introduction to the methods and results of contemporary New Testament scholarship; a critical survey of New Testament literature considering historical setting, history of text, religious and cultural significance. Attention is given to the central issues and concepts portrayed in the Synoptic, Johannine, and Pauline writings and their importance in the subsequent development of the Western religious tradition.

RELI 311 The Religions of India, Ceylon, Southeast Asia (6 credits)
A historical study of the major religious traditions native to the Indian sub-continent, Ceylon, and Southeast Asia. Although the course concentrates upon the development of Hindu and Buddhist religious thought and institutions, consideration is given to the influence of Jainism, Islam, and Christianity upon Hinduism and Theravada Buddhism. The course ends with an analysis of the contemporary religious situation in India and Burma.

RELI 313 Islam (6 credits)
A study of the rise and development of Islamic religion and culture from its beginnings in the seventh century to modern times.
REL 314  The Buddhist Tradition  (3 credits)  
An introduction to the Buddhist tradition examining basic elements present throughout most Buddhist sects, such as: the life of the Buddha; the ethical, intellectual and meditative commitments of the aspirant; worship, and the relation of the Buddhist community to the secular government.

REL 315  Mahayana Buddhism  (3 credits)  
A study of the Mahayana Buddhist vision of the ideal life. Principal topics include the scriptures in which this vision is articulated, the philosophy through which it is systematized, the ethical and meditative practices through which it may be realized, and the eventual state of Buddhahood.

REL 316  Chinese Religion  (3 credits)  
An examination of the religious life of the Chinese people. Emphasis is placed upon the way in which each community, family, and individual draws upon the common stock of religious elements (Confucian, Taoist, Buddhist, Shamanistic) to forge a religion suited to its needs.  

NOTE: Students who have received credit for RELI 312 may not take this course for credit.

REL 317  Tibetan and Japanese Religious Thought and Institutions  (3 credits)  
A study of the development of new religious forms from the synthesis of imported religions and indigenous practices in Tibet and Japan.  

NOTE: Students who have received credit for RELI 312 may not take this course for credit.

REL 318  Religion and Art in India, China and Japan  (3 credits)  
An introduction to the religious art of India, China and Japan from earliest times to the present. The course focuses upon the relationship between the visual arts (architecture, sculpture and painting) and religious world views and mythological symbols that provide the basis for the artistic form.

REL 319  Modern Islam  (3 credits)  
Prerequisite: RELI 313 or permission of the Department. A study of Islamic religious and social thought in nineteenth and twentieth century. Islamic liberalism, traditionalism and fundamentalism are compared and contrasted.

REL 326  Classical Judaism  (3 credits)  
The concepts, institutions and literature of classical rabbinitic Judaism (circa 70-700 C.E.) viewed against rabinism's biblical and pharisaic background and in the context of the world of Late Antiquity. The course examines the development of rabbinitic systems of thought and law as preserved primarily in the Mishnah and the Talmud. Consideration is given as well to popular rabbinitic beliefs and practices and to early rabbinitic mysticism.

REL 327  Medieval Jewish Thought and Institutions  (3 credits)  
Topics in the intellectual, religious, and social history of selected Jewish communities during the Middle Ages. Both internal Jewish developments and changing Jewish relations with their non-Jewish neighbors are considered.

REL 328  Modern Jewish Thought and Institutions I (1780-1880)  (3 credits)  
A survey of the social and intellectual currents which shaped Jewish modernism from the beginning of emancipation until 1880. Topics include: the emergence of modern Jewish consciousness, Jewish pluralism, and religious differentiation within Jewish society (Haskalah, Hasidism, science of Judaism, orthodoxy, reform, and conservatism), secular versus religious values, disintegration, and unification within the Jewish community.

REL 330  Modern Jewish Thought and Institutions II (1880 to the present)  (3 credits)  
A survey of social and intellectual currents in Jewish society from 1880 until the present. Topics include: the impact of anti-Semitism, particularism and universalism, nationalism and its critics, Jewish existentialism and the new mysticism (Rosenzweig, Buber, Rabbi Kook), reactions to the holocaust, and the relationship between Israel and the diaspora.

REL 331  Contemporary Ethical Issues: Personal  (3 credits)  
This course identifies and analyzes ethical issues arising at the personal level today. Issues are discussed in the context of the inter-relationship between moral values and religious convictions. Topics vary from year to year, but some examples of areas that raise ethical and religious questions for personal existence are: affluence, alienation, work, leisure, aging, drugs.

REL 332  Contemporary Ethical Issues: Societal  (3 credits)  
This course identifies and analyzes ethical issues arising from social groups today. In discussing the issues, account is taken of the bearing of religious institutions and traditions upon social attitudes and problems. Topics vary from year to year, but examples of problem areas that have evoked ethical and religious debate are: economic and social inequality, race relations, violence and war, hunger and poverty, population growth.

REL 333  Women and Religion I  (3 credits)  
An examination of the roles and images of women in the history of religions. Topics might include: the development of patriarchal religion, religion and sexuality, women and myth, the roles of women in
different religious communities. This course includes an integrated sequence of lectures (minimum, three weeks) by an anthropologist on matriarchal and patriarchal societies.

RELI 334 Women and Religion II (3 credits)
An examination of the religious and ethical questions raised by contemporary discussions of women's experience. Topics might include: the recent beginnings of a feminist theology, the feminist critique of organized religion and society, the effects of male perspective upon philosophy and theology, and women in the ministry.

RELI 335 Sexuality in the History of Religions (6 credits)
A study of religious attitudes towards human sexuality using materials drawn from a variety of religious traditions, with special attention to such topics as: incest taboos, adultery, celibacy, ritualized sexual acts, and patterns of marriage.

RELI 341 Religion and Literature (6 credits)
This course deals with the questions raised for the study of religion by works of literature. An account is given of the recent development of interdisciplinary studies in religion and literature, and of the problems of method that have arisen. The relation between the interpretation of religious language, with its use of myth, parable, symbol and metaphor, and literary criticism is explored. The religious implications, direct and indirect, of selected literary works are discussed.

RELI 342 Religion and Science (6 credits)
An historical investigation of the reasons for the conflict between religion and science in Western culture, and an examination of the chief issues involving both science and religion still under discussion today.

NOTE: Students who have received credit for RELI 443 may not take this course for credit.

RELI 343 Major Psychological Theories of Religion (3 credits)
This course focuses upon such major psychological theories of Religion as evinced in the writings of William James, Sigmund Freud, C.G. Jung, Erik Erikson and Abraham Maslow.

RELI 350 The Bible and the Ancient Near East (3 credits)
The significance of Old Testament institutions within the context of the ancient Mediterranean world. Law, covenant, writing, historiography, the relationship between the individual and God, sin, sacrifice, and atonements are discussed. Readings from contemporary literature in translation (Babylonian, Egyptian, Greek, Hittite, Ugarite).

NOTE: Students who have received credit for RELI 325 may not take this course for credit.

RELI 351 Judaism in the Hellenistic Age (3 credits)
An examination of the cultural interaction between Judaism and Hellenism from the third century B.C.E. to the fifth century C.E. Particular attention is given to modes of cultural fusion and syncretism evident between Jews and various Hellenistic groups both in the Land of Israel and the Diaspora. Topics include Philo of Alexandria; Josephus; Hellenistic Jewish Gnosticism; Jewish magicians; cults of the dead; Judaic art and artifacts.

RELI 352 Sephardic Judaism (3 credits)
A critical analysis of the religious traditions peculiar to Sephardic Jews. Particular attention is given to North African Judaism.

NOTE: Students who have received credit for RELI 329 may not take this course for credit.

RELI 353 Jews and Christians: the Historical Encounter (3 credits)
An historical survey of the relationship between Judaism and Christianity. The circumstances of the birth of Christianity and its separation from Judaism are discussed as well as the development of inter-religious disputation and dialogue. Special emphasis is given contemporary manifestations of the Jewish-Christian encounter.

RELI 354 The Mystical Tradition in Judaism (3 credits)
A survey of the Jewish mystical tradition, including the development of the messalianic idea, Merkava mysticism, Hasidei Ashkenaz, Kabbala in Provence and Spain, Luhranic Kabbala, Sabbatianism and Hasidism. Emphasis in this course is placed on the study of representative Jewish mystical texts.

RELI 355 Modern Jewish Identity (3 credits)
The questions "Who is a Jew?" and "What does it mean to be a Jew?" arose at the time of the Enlightenment, that is, with the entry of Jews into the social, political, and intellectual life of Europe at the end of the eighteenth century. This class explores the models of Jewish identity that were offered from the time of Moses Mendelsohn to the contemporary period. The course also focuses on the intellectual trends as well as the historical events that helped to shape Jewish self-understanding.

RELI 356 Jewish Communities in North America: Their Historical Development and Religion (3 credits)
This course examines the historical development of the Jewish community of North America and analyzes the dynamics of Judaism on this continent. Questions raised in this course include: Is there an "American" Judaism? In what respect is the North American Jewish experience a continuation of past Jewish experience and in what way is it a new phenomenon in Jewish history?

<tbody>
<tr>
<td>RELI 357</td>
<td>Holocaust: Historical Circumstances</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course examines the historical circumstances that made possible the systematic destruction of European Jewry in the years 1939-45 as well as the process of destruction and the Jewish and world responses to that destruction.</td>
<td></td>
</tr>
<tr>
<td>RELI 358</td>
<td>Holocaust: Theological Ramifications</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course examines the theological ramifications of the Holocaust in Jewish and Christian thought. Issues discussed include the problem of evil; suffering; the election of Israel; God's relation to the course of human events.</td>
<td></td>
</tr>
<tr>
<td>RELI 361</td>
<td>Studies in the History of Christian Thought</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>An introduction to the classics of Christian thought from the Fathers to the modern period. Authors studied at length may vary from year to year, but, in any case, students acquire a basic knowledge of Augustine, Aquinas, Luther, and Calvin.</td>
<td></td>
</tr>
<tr>
<td>RELI 362</td>
<td>Questions from the Christian Tradition</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>A study of some of the major religious questions and controversies in the history of the Christian West. The questions chosen vary, but examples are: grace and free will, faith and reason, history and eschatology, church and state, contemplation and action.</td>
<td></td>
</tr>
<tr>
<td>RELI 363</td>
<td>Religion in Canada</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>The historical development of the major religious traditions in Canada, their influence on the social, political, and cultural areas of Canadian life and their contemporary significance. Attention is also focussed on the interaction of Catholic, Protestant, Jewish, Indian, and Eskimo groups.</td>
<td></td>
</tr>
<tr>
<td>RELI 370</td>
<td>Death and Dying</td>
<td>6</td>
</tr>
<tr>
<td></td>
<td>A comparative examination of conceptions of death and dying among the major religious traditions. Attention is paid as well to exploring contemporary notions of death and dying both in so far as we are still informed by traditional conceptions, and to the extent that, for many, such notions have lost their cogency.</td>
<td></td>
</tr>
<tr>
<td>RELI 371</td>
<td>Religion and Healing</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>An examination of the interaction between religious conceptions and practices on the one hand and healing arts on the other. The course considers such phenomena as: shamanism; healing and Christian shrines; native healing rites, folk medicine of the third world; modern spiritual healing groups; the contemporary dialogue between established forms of medicine, psychiatry and religion in the twentieth century.</td>
<td></td>
</tr>
<tr>
<td>RELI 372</td>
<td>The Human Body in Religious Faith and Practice</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>A study of 1) the attitudes to the human body in various religious traditions; 2) the impact of the body-mind problem upon religious conceptions of human life and destiny; 3) the body as the foundation of religious symbolism and ritual.</td>
<td></td>
</tr>
<tr>
<td>RELI 373</td>
<td>Comparative Mysticism</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>This course introduces students to the study of mysticism and mystical experience using materials drawn from a wide range of cultural and religious sources and examining the work of such contemporary theorists as William James, Rudolph Otto, W.T. Stace, R.C. Zaechner and Robert Ellwood.</td>
<td></td>
</tr>
<tr>
<td>RELI 374</td>
<td>Islamic Mysticism</td>
<td>3</td>

<tr>
<td>RELI 378</td>
<td>Religion and the History of Psychical Research</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td>A review of the history of psychical research (including discoveries, claims, limitations and problems) from the foundation of the British and American Societies for Psychical Research in the nineteenth century through the establishment of contemporary &quot;experimental parapsychology&quot; in the West and behind the Iron Curtain. An evaluation of the possible significance of this material for comparative studies in the philosophies of religion and science.</td>
<td></td>
</tr>
</tbody>
</table>

**NOTES:**
- Students who have received credit for RELI 364 may not take this course for credit.
- Students who have received credit for RELI 465 may not take this course for credit.
An examination of the contemporary varieties of psychic experience being claimed by persons in the modern world and reported in popular literature, sociological surveys and medical or psychological literature. This material is critically evaluated in the light of the theories of C.G. Jung, William James and others.

NOTE: Students who have received credit for RELI 465 may not take this course for credit.

This course identifies the ways in which different religious and ideological traditions from West and East consider and deal with ethical issues. Examples of such traditions are: Navaho, Jewish, Christian, Islamic, Hindu, Buddhist, Confucian, Humanist, Communist. The ethical values and ideals found in these traditions, and their influence upon individual life patterns and social organization, are considered.

NOTE: Students who have received credit for RELI 435 may not take this course for credit.

Prerequisite: Permission of the Department. This course affords an opportunity for the advanced student to study a special theme or problem in Religion and Culture.

This course examines a selected book or theme of the Hebrew Bible with a discussion of current research. The course focuses on critical methodology and its application.

NOTE: Students who have received credit for RELI 395 may not take this course for credit.

Prerequisite: Permission of the Department. This course examines a selected issue or area of concern in Ancient Judaism with a discussion of current research. Possible topics are: the Dead Sea Scrolls, the Formation of the Mishna, Alexandrian Jewry.

NOTE: Students who have received credit for RELI 396 may not take this course for credit.

Prerequisite: Permission of the Department. This course examines a selected issue or area of concern in medieval Judaism. Possible topics may include: Hasidism, Codification of Halakha, messianic thought and movements.

NOTE: Students who have received credit for RELI 397 may not take this course for credit.

Prerequisite: Permission of the Department. This course examines a selected issue or area of concern in modern Judaism. Possible topics may include: the rise of Reform Judaism, the encounter between Judaism and modern Philosophy, Zionist thought.

NOTE: Students who have received credit for RELI 398 may not take this course for credit.

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

This course is open only to Honours students in Judaic Studies. The student works with an individual faculty member in a particular area of Judaic Studies. Students are asked to produce a sustained piece of written work to be read by their adviser and at least one other member of the Department.

This course is based on representative readings from Biblical, post-Biblical, and medieval Hebrew literature. It concentrates on specific topics and pays attention to the historical and philosophical background of the texts.

This course is open only to Honours students in Religion. The student works with an individual faculty member in a particular field of Religious Studies. Students are asked to produce a sustained piece of written work to be read by their adviser and at least one other member of the Department.

NOTE: Students who have received credit for RELI 499 may not take this course for credit.

Prerequisite: Permission of the Department. Subject matter varies from year to year to take advantage of the special interests of the seminar leader. This course provides opportunities to senior students for discussion and advanced study.

Prerequisite: Permission of the Department. Seminar on a particular period or institution in the history of religion.
RELI 495  Religious Thinkers  (3 credits)
Prerequisite: Permission of the Department. Seminar on a particular thinker or school of thought in
the history of religion.

RELI 498  Advanced Topics in Religion  (3 credits)

RELI 499  Advanced Topics in Religion  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Un-
dergraduate Class Schedule.
Concordia offers a Minor programme in Russian Studies for students interested in the politics, economics and history of Russia. The language component of the programme is designed to establish basic skills required for scholarly work in Russian. Courses are offered by specialists in the respective disciplines. See separate departmental entries for details on courses in the programme.

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

24 *BA Minor in Russian Studies
6 RUSS 330
6 HIST 377, 378
12 Chosen from ECON 370; HIST 441;
PHIL 334, 335; POLI 323, 333, 436;
Poli 475; RUSS 400

*Admission suspended for 1990-91. This course is given alternate years.
The Faculty of Arts and Science offers a Certificate in the Teaching of Science (Elementary School Level) for the professional development of teachers interested in science. Practising teachers are offered the opportunity to improve their knowledge of science in order to help them teach modern science more effectively. The presentation will generally be in workshop form, with emphasis on assignments that develop activities for classroom use. Courses will be offered on and off campus during the Winter and Summer months, subject to sufficient demand and the availability of suitable instructors.

Admission Requirements
Admission to this programme is open to teachers who already hold either a General Elementary Licence or an Elementary Special Education Licence. Under certain conditions individuals certified to teach at the Secondary level may be admitted into this programme depending on their educational background and teaching experience.

30 Certificate in the Teaching of Science (Elementary School Level)
30 SCIE 315$^a$, 316$^a$, 317$^a$, 319$^a$
NOTE: Where students have completed similar courses in previous studies, pro tanto credits may be approved up to a maximum of 12 credits. In some cases, students with fewer than 12 pro tanto credits may, with approval of the Faculty of Arts and Science obtained upon the recommendation of the programme director, be permitted to take courses in related areas for credit towards the certificate. However, at least 18 of the credits must be taken within the programme. Science courses in this programme have been renumbered.

315 Philosophy and Methodology of Teaching Science, Elementary Level (6 credits)
A study of the role, impact, and responsibility of science at the elementary school level, a study of science programme design, teaching processes, and classroom activities at the elementary level.
NOTE: This course is available only to practising teachers.
NOTE: Students who have received credit for SCIE 314 may not take this course for credit.

316 Matter and Energy (6 credits)
Prerequisite: SCIE 315. States and properties of matter, change of state, force, common machines, mass, volume, expansion, gravitation, heat, light, sound, electricity, magnetism, other sources of energy, conservation of energy.
NOTE: This course is available only to practising teachers.
NOTE: Students who have received credit for SCIE 310 may not take this course for credit.

317 The Human Environment (6 credits)
Prerequisite: SCIE 315. Temperature, soil, water, air, atmosphère, reproduction, heredity, erosion, weather, nitrogen cycles, pollution, ecology and ecosystems.
NOTE: This course is available only to practising teachers.
NOTE: Students who have received credit for SCIE 311 may not take this course for credit.

318 Our Earth and the Universe (6 credits)
Prerequisite: SCIE 315. Time cycles, volume, density, constitution, and properties of the solar system, gravity, seasons, water, and carbon cycles.
NOTE: This course is available only to practising teachers.
NOTE: Students who have received credit for SCIE 312 may not take this course for credit.

319 Living Things and Their Activities (6 credits)
Prerequisite: SCIE 315. The cellular structure of living things, food chains, plants, animals, germination, growth, soil, water, respiration, nutrition, life cycles. Classification into families, communities, and populations.
NOTE: This course is available only to practising teachers.
NOTE: Students who have received credit for SCIE 313 may not take this course for credit.
CERTIFICATE IN MATHEMATICS FOR TEACHERS (Elementary School Level)

Programme Director
S. ERLWANGER, Associate Professor

Admission Requirements
Admission to this programme is open to teachers who already hold either a General Elementary Licence or an Elementary Special Education Licence. Under certain conditions individuals certified to teach at the Secondary level may be admitted into this programme depending on their educational background and teaching experience.

The Department of Mathematics and Statistics offers a Certificate in Mathematics for Teachers (Elementary School Level) for the professional development of teachers interested in mathematics. This programme was designed in accordance with the programme-cadre for Elementary Mathematics issued by the General Directorate of Elementary and Secondary Education and approved for “perfectionnement” by the Higher Education Branch of the Department of Education on February 15, 1974.

Practising teachers are offered the opportunity to improve their knowledge of mathematics in order to help them teach mathematics more effectively. The presentation will generally be in workshop form with emphasis on assignments which develop activities for classroom use. Courses will be offered on and off campus during the Winter and Summer months subject to demand and the availability of instructors.

30 Certificate in Mathematics for Teachers (Elementary School Level)

6 MATH 305
24 Chosen from MATH 300, 301, 302, 303, 304, 307, 309

NOTE: Where students have completed similar courses in previous studies, pro tanto credits may be approved up to a maximum of 12 credits. In some cases, students with fewer than 12 pro tanto credits may, with approval of the Faculty of Arts and Science obtained upon the recommendation of the programme director, be permitted to take courses in related areas for credit towards the certificate. However, at least 18 of the credits must be taken within the programme.

MATH 300 Mathematics for Elementary School Teachers I (6 credits)
This course and the following course (301) are designed to cover the main mathematical topics in the programme-cadre for elementary schools. In both courses, the study of the mathematical content is linked to thorough consideration of classroom applications. A project is included among the assignments in both courses. In both courses, the mathematical language of sets, relations, functions, and operations is applied where appropriate, and various modes of graphical representation used. Counting numbers and systems of numeration, number operations, factors and multiples, numbers as measures, classification and properties of geometrical shapes.

NOTE: This course is available only to practising teachers.

MATH 301 Mathematics for Elementary School Teachers II (6 credits)
This course and the preceding course (300) are designed to cover the main mathematical topics in the programme-cadre for elementary schools. In both courses, the study of the mathematical content is linked to thorough consideration of classroom application. A project is included among the assignments in both courses. In both courses, the mathematical language of sets, relations, functions, and operations is applied where appropriate, and various modes of graphical representation used. The extension of the number system to fractions, decimals, and signed numbers. Equalities and inequalities, bases of symmetry and geometric transformations.

NOTE: This course is available only to practising teachers.
MATH 302 Transformation Geometry (6 credits)
Prerequisite: MATH 301 or permission of the Department. A more advanced study of symmetry and geometric transformations, applications in 2 and 3 dimensions, an overview of a K-6 programme of geometry.
NOTE: This course is available only to practising teachers.

MATH 303 Measurement (6 credits)
Prerequisite: MATH 300 or permission of the Department. A more advanced study of measures and measurement, descriptive statistics, and elementary notions of probability, an overview of a K-6 programme of measurement.
NOTE: This course is available only to practising teachers.

MATH 304 Mathematics for Elementary School Teachers III (6 credits)
Prerequisite: Permission of the Department. More advanced mathematical studies to meet the needs of potential developments in the elementary school curriculum.
NOTE: This course is available only to practising teachers.

MATH 305 Psychology of Mathematics Education (6 credits)
Prerequisite: Any three chosen from MATH 300, 301, 302, 303, 304; or permission of the Department. The content of the course is selected from those areas of psychological theory and research which have implications for the teaching of mathematics. It normally includes: psychological theories of cognition, studies of mathematical learning in children, motivation, applications of research to the classroom.
NOTE: This course is available only to practising teachers.

MATH 307 Microcomputer Applications to Mathematics Education I (3 credits)
Prerequisite: Permission of the Department. Elements of programming of the LOGO language. An introduction to TURTLE graphics. Recursion as a simplifying and generating tool. Applications to the teaching of elementary arithmetic and geometry. Design of programmes to produce graphic displays and simple instructional sequences.
NOTE: This course is available only to practising teachers.

MATH 309 Microcomputer Applications to Mathematics Education II (3 credits)
Prerequisite: MATH 207* or permission of the Department. More advanced programming in the LOGO language. Further study of TURTLE graphics. List processing, editing and developing procedures. Applications to the teaching of algebra and geometry. Production of inter-active programmes. Consideration of LOGO as an educational environment.
*For a description of MATH 207 please see §31.200
NOTE: This course is available only to practising teachers.

MATH 400 Seminar on the Teaching of Mathematics (3 credits)
Prerequisite: Permission of the Department. This course is conducted in the form of a workshop and examines alternative methods of presentation of mathematical ideas at the secondary school level. It studies relevant aspects of the psychological development of the adolescent in the context of existing mathematics curricula.
NOTE: This course should be taken at the end of the programme and is available only to practising teachers.

MATH 401 Functions (6 credits)
Prerequisite: Permission of the Department. This course examines the topics in a traditional functions course: the concept of a function and its inverse. Linear and quadratic functions, rational functions, exponential, logarithmic, and trigonometric functions. Graphing is stressed. An historical overview is given. Methods of teaching these topics and of preparing secondary school students for a functions course are discussed.
NOTE: This course is available only to practising teachers.

MATH 402 Algebra I (3 credits)
Prerequisite: MATH 401 or equivalent previously or concurrently. Progressions, combinations, permutations, Bionomial Theorem, mathematical induction, inequalities, polynomials, cartesian and polar forms of complex numbers; conics.
NOTE: This course is available only to practising teachers.

MATH 403 Calculus I (3 credits)
NOTE: This course is available only to practising teachers.

MATH 404 Geometry for Teachers (6 credits)
Prerequisite: MATH 401 or equivalent. Certain fundamentals of Cartesian, vector and transformation geometry. Distance perceiving motions in the plane, affine transformations with applications in Euclidean geometry. Projective transformations and applications to conics. Applications of these methods
to topics presented as informal geometry in grades 7-10.
NOTE: This course is available only to practising teachers.

MATH 405  *Calculus II* (3 credits)
NOTE: This course is available only to practising teachers.

MATH 406  *Algebra II* (3 credits)
Prerequisite: MATH 401, or equivalent. Systems of equations, determinants, Cramer's rule. Matrices, operations on matrices, the inverse matrix. Gauss-Jordan method. Matrix transformations. Linear programming.
NOTE: This course is available only to practising teachers.

MATH 408  *Geometry for Teachers* (3 credits)
Prerequisite: MATH 401 or permission of the Department. Studies designed to meet more advanced mathematical and professional needs of students in the light of potential developments in the geometry curriculum at the junior secondary school level.
NOTE: This course is available only to practising teachers.

MATH 409  *Computational Mathematics I* (3 credits)
NOTE: This course is available only to practising teachers.

MATH 410  *Curriculum Seminar* (3 credits)
Prerequisite: Permission of the Department. Conducted in the form of a workshop. Examines arithmetic, algebraic, and geometric aspects of the mathematics curricula, grades 7-11. Critical examination of various textbooks and pedagogic approaches used in the schools.
NOTE: This course is available only to practising teachers.

MATH 411  *Probability and Statistics for Teachers* (3 credits)
NOTE: This course is available only to practising teachers. Students who have received credit for MATH 407 may not take this course for credit.

MATH 417  *Diagnosis and Remediation* (3 credits)
Prerequisite: Permission of the Department. Diagnosis and remediation in the light of current research in psychology and the learning of Mathematics.
NOTE: This course is available only to practising teachers.

MATH 419  *Computational Mathematics II* (3 credits)
Prerequisite: MATH 409 or permission of the Department. More advanced programming. Use of the microcomputer for problem solving and simulation. Applications to the teaching of algebra and functions. Uses of the computer in the school environment. Individual programming projects.
NOTE: This course is available only to practising teachers.
This programme is concerned with the social dimensions and interactions of science and technology. Its teaching and research provide an interdisciplinary examination of the ethical, cultural, political and environmental problems associated with scientific and technological change. Attention is also focused on analysis of the social systems of science from historical, sociological, economic and philosophical perspectives.

The programme is designed for students interested in science and technology, but who do not plan careers in scientific research or the technical professions. Rather it prepares them for constructive careers which involve a grasp of scientific methods, an understanding of scientific principles and an appreciation of the nature, content and implications of scientific research, technological innovation and industrial development. For students working toward degrees in science or engineering, the programme provides the opportunity to develop important additional perspectives and capabilities.

There are a number of streams or areas within the programme. In the History and Philosophy of Science, for example, students may concentrate so as to prepare themselves for graduate work. Another stream examines the social impact of science and technology by focusing on policy problems. Students may develop a variety of approaches for dealing with public policy in either the areas of science and technology or environment. These also are preparatory for existing graduate programmes.

Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value. Students should consult with the Programme Coordinator prior to registering for Science and Human Affairs courses.

60 BA Specialization in Science and Human Affairs
12 SCHA 250, 251, 253, 254
3 Chosen from ECON 221; GEOL 325; MATH 207; PSYC 315 or SOCI 212, 213
9 Chosen from PHYS 210; BIOL 200, 201, or CHEM 205, 206 and 208, with not more than 6 credits in any single discipline
18 SCHA 353, 354, 355, 356, 453
12 Chosen from SCHA 351, 452, or cognates from list below*
6 SCHA 454

42 BA Major in Science and Human Affairs
12 SCHA 250, 251, 253, 254
3 Chosen from ECON 221; GEOL 325; MATH 207; PSYC 315 or SOCI 212, 213
9 Chosen from PHYS 210; BIOL 200, 201, or CHEM 205, 206 and 208, with not more than 6 credits in any single discipline
12 Chosen from SCHA 351, 353, 354, 355, 356, 452, 453, or cognates from list below*, with at least 6 SCHA credits
6 SCHA 454

30 Minor in Science and Human Affairs
12 SCHA 250, 251, 253, 254
18 Chosen from SCHA 351, 353, 354, 355, 356, 452, 453, 454, or cognates from list below*, with at least 6 SCHA credits

*Cognates relating to the history, philosophy and sociology of science include: BIOL 320, 321; GEOG 391; GEOL 208; MATH 215, 216, 397; PHIL 329, 329, 421; PSYC 320; SOCI 406, 407; SCOL 251, 252, 253, 270.

Those more broadly concerned with science and society include: BIOL 210; CHEM 304; POLI 363, 381; ANTH 325, THEO 452. Cognates treating environmental issues include: CHEM 302; ECON 391, 396; GEOG 211, 271, 317, 357.
SCHA 250  Introduction to Science and Human Affairs I  (3 credits)
The social and historical context of scientific and technological change. The reciprocal interactions of science with government, ideology, economic development, religion, literature and social theory; science and the city; science and the control of human life; science and human liberation; new definitions of scientific responsibility may be considered.
NOTE: Students who have received credit for INTE 250 may not take this course for credit.

SCHA 251  Introduction to Science and Human Affairs II  (3 credits)
A continuation of SCHA 250. This course may be taken independently.
NOTE: Students who have received credit for INTE 251 may not take this course for credit.

SCHA 253  Environmental Issues I  (3 credits)
The scientific, social and cultural nature of one’s relationship to the environment. Emphasis is placed on pollution, conservation, population resources and human ecology.
NOTE: Students who have received credit for INTE 253 or URBS 253 may not take this course for credit.

SCHA 254  Environmental Issues II  (3 credits)
A continuation of SCHA 253. This course may be taken independently.
NOTE: Students who have received credit for INTE 254 or URBS 254 may not take this course for credit.

SCHA 260  Science and Culture in the Western Tradition  (3 credits)
Surveys the place of science in Western culture from the ancient Greeks until the present day. The aim of the course is to acquaint a nonspecialist audience with how a scientific worldview has profoundly shaped modern day society.

SCHA 298  Selected Topics in Science and Human Affairs  (3 credits)

SCHA 299  Selected Topics in Science and Human Affairs  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SCHA 351  Astronomy, Cosmology and the Space Age  (6 credits)
The nature of the universe as interpreted by relevant scientific theories; cosmology and the shape, size and structure of the universe; possibility of intelligent life in the universe; social implications of space flight.
NOTE: Students who have received credit for INTE 351 may not take this course for credit.

SCHA 353  Science and Society I: From Ancient Times Until 1789  (3 credits)
Prerequisite: SCHA 250; SCHA 251, or permission of Coordinator. This course surveys the history of science from the Ancient Greeks until the French Revolution, with an emphasis on the social history of science.

SCHA 354  Science and Society II: Since 1789  (3 credits)
Prerequisite: SCHA 250; SCHA 251, or permission of Coordinator. This course surveys the history of science from the French Revolution until the present day, with an emphasis on the social history of science.

SCHA 355  Technology and Society I: From Ancient Times Until 1780  (3 credits)
This course deals with the social role and impact of technology from the Ancient Greeks until the Industrial Revolution.

SCHA 356  Technology and Society II: Since 1780  (3 credits)
This course deals with the role and impact of technology in Western Society from the Industrial Revolution until the present.

SCHA 398  Selected Topics in Science and Human Affairs  (3 credits)

SCHA 399  Selected Topics in Science and Human Affairs  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SCHA 452  Advanced Study in the History of Science  (6 credits)
Prerequisite: Permission of the Coordinator. Seminar in a specific question in the History of Science. The emphasis is on encouraging students to conduct historical investigation on their own under a professor’s guidance. The specific content varies from year to year depending on the instructor.
NOTE: Students who have received credit for SCHA 451 may take this course for credit provided that the subject matter is different.

SCHA 453  Science and Public Policy  (6 credits)
Prerequisite: SCHA 250; SCHA 251 or permission of the Coordinator. This course deals with those public policy issues which involve a major component of science and technology, i.e., energy, environment, resources, health, etc. The course also covers the general relationships of science and government.
relating to the making of science and technology policy particularly emphasizing the Canadian context, but including such topics as technology aid and transfer.

NOTE: Students who have received credit for INTE 453 may not take this course for credit.

SCHA 454 Seminar in Science and Human Affairs (6 credits)
Prerequisite: Enrolment in Major or Specialization in Science and Human Affairs, or permission of the Coordinator. This seminar affords an opportunity for intensive examination of an explicitly interdisciplinary theme.
NOTE: With the permission of the Coordinator students may take this course twice for credit provided that a different subject is dealt with the second time and will register under SCHA 455.
NOTE: Students who have received credit for INTE 454 may not take this course for credit.

SCHA 455 Seminar in Science and Human Affairs (6 credits)
Prerequisite: Permission of the Coordinator. Students who have received credit for SCHA 454 may register for SCHA 455 provided the subject matter is different.
NOTE: Students who have received credit for INTE 455 may not take this course for credit.

SCHA 498 Advanced Topics in Science and Human Affairs (3 credits)

SCHA 499 Advanced Topics in Science and Human Affairs (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

Students are responsible for satisfying their particular degree requirements.  
The superscript indicates credit value.  
Students who already had Honours status by June 1, 1977 will continue to be governed by the requirements that applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar.)

60 BA Honours in Sociology  
12 ANTH 202***; SOCI 203****, 212^2, 213^2  
6 SOCI 300^6  
18 SOCI 402^3, 403^3, 409^6, 410^6  
24 Sociology elective credits* in consultation with the Departmental Honours Adviser.  
*With prior approval of the Departmental Honours Adviser, the student may substitute up to 12 credits from a related discipline.  
**Students exempted from ANTH 202^2 are required to take 3 credits from Anthropology 200- or 300-level courses.  
***Students exempted from SOCI 203^2 are required to take 3 credits from Sociology 200- or 300-level courses.  

60 BA Specialization in Sociology  
Stage I  
3 ANTH 202^1  
3 SOCI 203^3  
6 Chosen from SOCI 212^2, 213^2, or 300^5  
6 SOCI elective credits from 200- or 300-level courses chosen in consultation with the Departmental Adviser  

Stage II  
6 Chosen from SOCI 212^2, 213^2, or 300^6  
6 Chosen from SOCI 310^6, 311^6, 313^6, 314^6, 410^6  
9 SOCI elective credits from 300- or 400-level courses chosen in consultation with the Departmental Adviser  

Stage III  
6 Chosen from SOCI 320^6, 330^6, 370^6, 372^6  
6 SOCI 402^3, 403^3  
6 SOCI elective credits from 300- or 400-level courses chosen in consultation with the Departmental Adviser  
3 ANTH elective credits from 300-level courses chosen in consultation with the Departmental Adviser  
*With prior approval of the Departmental Adviser, the student may substitute up to 6 credits from a related discipline.  
**Students exempted from ANTH 202^2 are required to take 3 credits from Anthropology 200- or 300-level courses.  
***Students exempted from SOCI 203^2 are required to take 3 credits from Sociology 200- or 300-level courses.  

60 BA Specialization in Anthropology and Sociology  
See Anthropology
or 300-level courses constitute the research methods group, courses the theory group. Thus, when a prerequisite is stated as "one 300-level course from or 400-level courses chosen in consultation with the Departmental Adviser

Stage II

3 SOCI 212
6 SOCI 300
6 Chosen 310, 311, 313, 314, 410
3 SOCI elective credits from 300- or 400-level courses chosen in consultation with the Departmental Adviser

Stage III

6 Chosen from SOCI 320, 330, 370, 372, 402, 403
3 SOCI elective credits from 300- or 400-level courses chosen in consultation with the Departmental Adviser
3 ANTH elective credits from 300-level courses chosen in consultation with the Departmental Major Adviser

NOTE: The course-numbering system in Sociology uses the first digit of the course number to indicate the number of prerequisites required for admission to a course. A 2—course has no prerequisites, a 3 has one, and a 4— has two prerequisites. The second digit indicates the place of a course among different subject groups. -1- courses constitute the research methods group, -2- courses the theory group. Thus, when a prerequisite is stated as "one 300-level course from Group 2", any course whose number is 32- (i.e., 320, 323, 324, 325) fulfills the prerequisite requirement.

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

SOCI 203 Introduction to Society (3 credits)
An introduction to the sociological study of society. The course begins with a consideration of the concepts, models, and methods used by sociologists. This is followed by an examination of selected substantive areas of social life, ranging from the relations between individuals and groups to total societies.

NOTE: Students who have received credit for SOCI 200 may not take this course for credit.

SOCI 212 Statistics I (3 credits)
Priority is given to enrol in this course to students who are in a Sociology or Anthropology programme. This course provides an introduction to the basic principles of statistics for social scientists. Topics include the concept of the level of measurement, standardization, the interpretation of graphs, measures of univariate distributions, cross classification, elementary measures of association, the logic of controls, and the basic principles of inferential statistics. The emphasis is on the implications of these statistical techniques for the theoretical understanding of Sociology and Anthropology.

NOTE See §200.7

SOCI 213 Statistics II (3 credits)
Prerequisite: SOCI 212. Priority is given to enrol in this course to students who are in Sociology or Anthropology programmes. Students are encouraged to take SOCI 212 immediately preceding SOCI 213. This course is designed to follow Statistics I. Topics include measures of association, the principles of probability and sampling distributions, hypothesis testing, and tests of significance. The emphasis is on the implications of these statistical techniques for the theoretical understanding in Sociology and Anthropology.

NOTE See §200.7

SOCI 220 Social Organization (3 credits)
Examines the basic characteristics of societal organization through the use of comparative and evolutionary perspectives. Conceptual analysis of specific forms of, and changes in, the comprehensive pattern of social organization.

SOCI 230 Race and Ethnic Relations (3 credits)
Race and ethnicity are examined as bases of social differentiation. Ethnic group relations are analyzed in relation to stratification and the exercise of power. Explorations of the phenomena of discrimination, prejudice, and intergroup accommodation.

SOCI 251 Social Problems (3 credits)
Consideration of a range of social problems from a sociological perspective. Examination of the process by which "social problems" are socially defined and recognized.
SOCIOLOGY

SOCIO 262 Social Deviance (3 credits)
Attention is focussed on various forms of anti-social behaviour, particularly those that are socially-induced. This course examines the nature, forms, sources and dysfunctions of deviations from social norms, and the mechanisms of social order and control. Deviance is viewed as a social process of interaction and relationships that derive from the social structure and have consequences for it. Various forms of deviation are considered in terms of contemporary social theory and research.
NOTE: Students who have received credit for SOC 260 may not take this course for credit.

SOCIO 263 Juvenile Crime and Delinquency (3 credits)
This course examines the nature of juvenile crime and delinquency and their social causes and consequences. Juvenile crime and delinquency, as special kinds of deviance, receive the focus of attention, with emphasis on criminal-justice, juvenile-justice, criminal behaviour systems, and social policy on juvenile crime and delinquency.
NOTE: Students who have received credit for SOC 260 may not take this course for credit.

SOCIO 264 Sociology of Sport (3 credits)
This course provides a systematic analysis of the social influences upon sport in North America. Special attention is directed to the interrelationships between sport and various social institutions.

SOCIO 270 Socialization (6 credits)
Examination of the social and cultural processes by which the individual becomes a functioning member of society. Attention given to adult socialization and re-socialization in diverse institutional contexts; e.g., schools, occupations, hospitals, prisons, the military. The relation of social structure to role acquisition and role performance is a major focus of the course.

SOCIO 272 The Family (6 credits)
The family as an institution is examined in relation to social structure and historical change. Special emphasis is placed on trends in the nuclear family patterns of contemporary North American society, and on the relation of the family to the broader societal environment.

SOCIO 274 The Sociology of Aging (6 credits)
This course examines the changes in society and in living conditions as populations and people age. The sources and the effects of these changes are looked at in the light of several substantive areas and in terms of their implications for social policy. While the major emphasis is on the Canadian experience, some comparative materials are used to widen the perspective.

SOCIO 280 Quebec Society (6 credits)
Focus upon the historic changes in Quebec society, with emphasis upon the period following the Second World War. Examination of issues which have provoked conflicting interpretations, including the Conquest, the nature of Confederation, Quebec nationalism, and the language question.

SOCIO 282 Canadian Society (6 credits)
Analysis of Canadian social structure and change; the relation of the whole of Canadian society to its constituent elements; the relation of Canadian society to its international environment.

SOCI 298 Selected Topics in Sociology (3 credits)

SOCI 299 Selected Topics in Sociology (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SOCI 300 Classical Social Theory (6 credits)
Prerequisite: SOCI 203. Examination of the origins of Sociology and of the sociological works of nineteenth- and early twentieth-century European theorists, with consideration of the social and political context. Particular emphasis is given to the works of Durkheim, Marx, and Weber. Readings include primary sources and critical commentaries.

SOCI 310 Research Methods (6 credits)
Prerequisite: SOCI 203; SOCI 212. Introduction to qualitative and quantitative methods of research in Sociology.

SOCI 311 Survey Research Methods (6 credits)
Prerequisite: SOCI 203; SOCI 212. Examination of methods of conducting survey research. Topics include design, sampling, pretesting of instruments, data collection, logic of analysis, multivariate analysis, and report writing.

SOCI 313 Field Work Research: Observation (3 credits)
Prerequisite: SOCI 203. The collection of primary data by observational methods in natural settings is studied and practiced on field trips.
NOTE: Students who have received credit for SOCI 312 may not take this course for credit.
SOCI 314 Field Work Research: Interviewing (3 credits)
Prerequisite: SOCI 203. A variety of types of interviewing is studied and practiced on field assignments.
NOTE: Students who have received credit for SOCI 312 may not take this course for credit.

SOCI 320 Comparative Social Systems (6 credits)
Prerequisite: SOCI 203 or SOCI 220. Examination of the problems of development, modernization, and social change in terms of a general theoretical framework. Comparative analysis of trends of development in the West, the Soviet Union and Eastern Europe, and the Third-World nations.

SOCI 323 Economy and Society (3 credits)
Prerequisite: SOCI 203 or SOCI 220. Examination of the ways in which economic activities are legitimated or otherwise affected by social norms and values, and of the ways in which various social systems react to the strains created by the accommodation of new technology and of new industrial organizations.

SOCI 324 Sociology of Economic Development (3 credits)
Prerequisite: SOCI 203 or SOCI 220. Consideration of theories and models of economic development. Attention given to the role of foreign-aid programmes, the role of local political elites and self-reliance as factors in economic development.

SOCI 325 Social Change (3 credits)
Prerequisite: SOCI 203 or SOCI 220. Examination of the sources, mechanisms, and consequences of social and cultural change; analysis of classical and contemporary theories of change, as well as important empirical studies.

SOCI 327 Social Issues: Equity (3 credits)
Prerequisite: SOCI 203; ANTH 202 or POLI 200. Analysis of selected social issues and public policies related to poverty, unemployment, ethnic, race and religious discrimination, urban and rural decline. Attention is paid to the changing role of the state in connection with its involvement in solving these problems.
NOTE: Students who have received credit for SOCI 326 may not take this course for credit.

SOCI 328 Social Issues: Liberties (3 credits)
Prerequisite: SOCI 203; ANTH 202 or POLI 200. Analysis of selected social issues and public policies related to rights, entitlements, role of the mass media, family and generational problems, bureaucracy. Attention is focussed on the expansion of state functions in connection with implementation of policies related to these issues.
NOTE: Students who have received credit for SOCI 326 may not take this course for credit.

SOCI 329 Theories and Structures of Formal Organizations (3 credits)
Prerequisite: SOCI 203 or SOCI 220. Examination of the nature and characteristics of formal organizations, their internal structures, interrelationships and problems.
NOTE: Students who have received credit for SOCI 340 may not take this course for credit.

SOCI 330 Social Class and Structured Inequality (6 credits)
Prerequisite: SOCI 203 or SOCI 220 or SOCI 230. The dynamics of social stratification and differentiation, including economic distinctions and their consequences, social status, power, and mobility. Emphasis upon Canadian society.

SOCI 333 Political Sociology (3 credits)
Prerequisite: SOCI 203 or 30 credits. This course is concerned with power in social systems; its nature, organization, distribution, determinants, and consequences. The focus of the course is on the ways in which power is exercised in social systems: social groups, movements and large scale organizations.

SOCI 336 Collective Behaviour (3 credits)
Prerequisite: SOCI 203. The nature, emergence and dynamics of short-term collective behaviour. There is an examination of classical and contemporary interpretations of collective behaviour with emphasis on current issues such as the irrationality or rationality of the participants' behaviour. The course focuses on Canadian and American events such as riots and the emergence of violence in demonstrations related to current social problems and issues.

SOCI 337 Social Movements (3 credits)
Prerequisite: SOCI 203. The nature, emergence and dynamics of organized collective behaviour and social movements are examined in light of classical and contemporary theories. The course focuses on the impact of leadership, organizational resources and discontent with institutionalized social relations on movements. Contemporary social movements in Québec, the rest of Canada and the U.S. serve as illustrations.

SOCI 338 Sociology of Religion (3 credits)
Prerequisite: SOCI 203; SOCI 339 or RELI 213. Study of the place of religion in sociological conceptions of social reality. Consideration of the writings of Marx, Durkheim, Weber, Simmel, Troeltsch, Comte,
Niebuhr, Parsons, Bellah, and Berger. Attention also given to appropriate work in allied approaches (e.g., Malinowski and Freud) to the understanding of various dimensions of religion in social context.

**SOCI 339 Religion and Society** (3 credits)
Prerequisite: SOCI 203 or RELI 213. Analysis of the relationship between religions and other social institutions in contemporary industrial society with particular emphasis given to the impact of secularization on the sociological dimensions of religious thought and conduct in various social-religious communities.

**SOCI 343 Sociology of Work** (6 credits)
Prerequisite: SOCI 203 or SOCI 220. Examination of the structural characteristics of work in modern industrial society. Consideration of the spectrum of occupations and professions; the relationships between work and identity in contemporary society. Special attention placed on the issues of conflict and alienation in work and the impact of work on other aspects of social structure.

**SOCI 344 Sociology of Leisure** (3 credits)
Prerequisite: SOCI 203 or SOCI 220. The effects of social, economic, and political institutions upon the structure and use of leisure time. Emphasis upon historical changes and the implications of alienation, anomie, and inequality.

**SOCI 345 Sociology of Labour Movements** (3 credits)
Prerequisite: SOCI 203. Origins and development of labour movements; contemporary characteristics of union organizations within the context of their social, political, and economic environments. Emphasis upon Canada and Quebec.

**SOCI 346 Industrialization** (3 credits)
Prerequisite: SOCI 203 or SOCI 220 or permission of the Department. A study of the processes of industrialization. Analyses are directed primarily toward the Canadian experience and include a consideration of theories regarding industrialization in Canada; an examination of the social and economic impact of large-scale enterprises; the changing role of governments; the ongoing interaction between social organization and advanced technology; and contemporary thought on the social consequences of economic crises.

NOTE: Students who have received credit for SOCI 342 may not take this course for credit.

**SOCI 347 Sociology of Labour-Management Relations** (3 credits)
Prerequisite: SOCI 203 or SOCI 220 or permission of the Department. A study of the shifting patterns in labour-management relations with a special focus on Canada. The course includes analyses of theories of management; the impact of the labour union movement, changes in the nature of the labour market; the significance of the growth of the service sector; the changing role of governments in labour-related issues; and contemporary thought on new forms of industrial organization.

NOTE: Students who have received credit for SOCI 342 may not take this course for credit.

**SOCI 350 Sociology of Urban Regions I** (3 credits)
Prerequisite: SOCI 203 or SOCI 220 or SOCI 230. Analysis of the historical development of the city, focusing on the pre-industrial city from a cross-cultural perspective.

**SOCI 351 Sociology of Urban Regions II** (3 credits)
Prerequisite: SOCI 203 or SOCI 220 or SOCI 230. Analysis of the growth of urbanization in North America, concentrating on the social and spatial organization of Canadian cities, especially Montreal.

**SOCI 353 Community Studies I** (3 credits)
Prerequisite: SOCI 203 or SOCI 220 or SOCI 230. The study of locale. The major theoretical approaches used in the study of locale are examined in terms of their content and methodological implications. Special attention is given to the social system and structuralist approaches.

**SOCI 354 Community Studies II** (3 credits)
Prerequisite: SOCI 203 or SOCI 220 or SOCI 230. Analysis of selected studies of Canadian communities in terms of one or more theoretical approaches current in the field. Some course materials are available only in French.

**SOCI 357 Population and Society** (3 credits)
Prerequisite: SOCI 203. A critical analysis of population dynamics, including an examination of theories concerning the population-resources problem (e.g. Malthus and Marx). Emphasis is given to the relation between ideology and methodology in population study.

**SOCI 358 Social Demography** (3 credits)
Prerequisite: SOCI 212. Basic principles, issues, data, and methods of population study. Primary focus on social factors that affect demographic processes, and the ways in which demographic change is related to social structure and social change. Consideration of the basic components of demographic analysis: fertility, mortality, and migration.

**SOCI 361 Criminology** (3 credits)
Prerequisite: SOCI 203. The major objectives of this course are to come to an understanding of the emergence of European and North American criminology and an understanding of the contemporary
perspectives explaining crime, criminal behaviour, and its control.

NOTE: Students who have received credit for SOCI 360 may not take this course for credit.

SOCI 362 Crime and Justice (3 credits)
Prerequisite: SOCI 203. The major objectives of this course are to come to an understanding of the issues and perspectives related to the problems of apprehending, processing, and punishing the criminal. Thus the process by which the criminal is legally judged to be guilty, the problem of sentencing, the problem of corrections, and the victim are some of the important issues.

NOTE: Students who have received credit for SOCI 360 may not take this course for credit.

SOCI 368 (also given as HIST 368) The History and Sociology of Genocide (6 credits)
Through the comparative and historical examination of a number of cases, this course investigates the meaning of genocide and the processes that have led to it.

SOCI 370 Self and Society (6 credits)
Prerequisite: SOCI 203. Study of the basic concepts and theories regarding social definitions of the self. Emphasis on ideas regarding personality, motivation, and interpersonal attitudes, viewed in terms of the interplay between actors and social structures.

SOCI 372 Sociology of Sex Roles (6 credits)
Prerequisite: SOCI 203. Examination of the social status and roles of men and women in society. Use is made of comparative, historical, and empirical research. Particular attention is paid to the Marxist, feminist, and socialist-feminist theoretical perspectives on the patriarchal nature of society.

SOCI 373 Sociology of Childhood (3 credits)
Prerequisite: SOCI 203. Comparative and historical approach to the study of the status and role of the child in the family and in the larger society. Emphasis on the sociological aspect of childhood in modern industrial societies.

SOCI 374 Symbols, Rituals and The Body (3 credits)
Prerequisite: SOCI 203; ANTH 202. The study of the social roles of the body. Topics include body image and self-esteem, the symbolism of beauty and ugliness, height, hair, dress, the face, body-language, health and fitness, eating and drinking patterns. The course is considered in anthropological and sociological perspectives.

SOCI 377 Sociology of Education (3 credits)
Prerequisite: SOCI 203. An analysis of the social structures within a formal education system. Trends in education are examined in relation to broader patterns of social change.

SOCI 380 Social Movements in Quebec (6 credits)
Prerequisite: SOCI 203 or SOCI 280. Analysis of historically significant movements for social change in Quebec.

SOCI 382 Intergroup Relations in Canada (3 credits)
Prerequisite: SOCI 203 or SOCI 230 or SOCI 282. Canadian ethnic group phenomena are examined in the light of theories of intergroup relations. The groups include Indians, Inuit, Blacks, Jews, and English and French-speakers. The mosaic theory of Canadian ethnic relation is considered.

SOCI 398 Selected Topics in Sociology (3 credits)
SOCI 399 Selected Topics in Sociology (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SOCI 401 The History of Social Thought (6 credits)
Prerequisite: SOCI 300. Overview of the various ideas and schools of thought which attempt to explain the organization, development, and change of various aspects of human societies. Emphasis on the philosophical underpinnings of the discipline of Sociology. The time span ranges from ancient Greek social thought to early nineteenth-century European thought in which Sociology was founded.

SOCI 402 Contemporary Sociological Theory I (3 credits)
Prerequisite: SOCI 300. Critical examination of contemporary sociological theories against the background provided by Marx, Durkheim, and Weber. The theories are analyzed in terms of their assumptions, conceptual distinctions, methodological features and ethical implications. Theoretical approaches are chosen to represent a range of approaches to sociology, such as neo-positivism, functionalism, conflict theory and structuralism. 

NOTE: Students who have received credit for SOCI 400 may not take this course for credit.

SOCI 403 Contemporary Sociological Theory II (3 credits)
Prerequisite: SOCI 300. Critical examination of contemporary sociological theories against the background provided by Marx, Durkheim, and Weber. The theories are analyzed in terms of their assump-
Theoretical approaches are chosen to represent a range of approaches to sociology, such as symbolic interactionism, social phenomenology, and critical theory.

**NOTE:** Students who have received credit for SOCI 400 may not take this course for credit.

### SOCI 404 Sociology of Literature (3 credits)
Prerequisite: SOCI 203; ANTH 202; or a minimum of 6 credits in English Literature, Communication Studies or Political Science. A critical study of literature and para-literature as a cultural and social practice. Various approaches to the sociology of literature are examined. The emphasis is on that approach which deals with social genesis of literature and literature as a social product of a social force. Selected Canadian fiction and drama are analyzed.

**NOTE:** Students who have received credit for SOCI 405 may not take this course for credit.

### SOCI 407 Sociology of Science (3 credits)
Prerequisite: SOCI 300. Study of the social context of science; the impact of societal factors upon science; the production of scientific knowledge viewed as a social process; the social uses and consequences of science. Consideration of the relation of the sociology of science to the other social studies of science.

**NOTE:** Students who have received credit for SOCI 405 may not take this course for credit.

### SOCI 409 Honours Seminar (6 credits)
Prerequisite: SOCI 410 and permission of the Honours Adviser. Consideration of methodological and theoretical ideas related to the formulation of an Honours research proposal. Second-term work involves completion of research and writing of an Honours paper.

### SOCI 410 Research Design and Analysis (6 credits)
Prerequisite: SOCI 203; SOCI 212; SOCI 213. Study of quantitative methods of data collection and analysis. Topics include: experimental and quasi-experimental design, principles of measurement, survey design, secondary data sources, techniques of multivariate analysis, and interpretation.

### SOCI 411 Logic of Sociological Inquiry (3 credits)
Prerequisite: SOCI 203 and 6 credits of courses from Group 1. Consideration of the interaction between sociological theory and empirical research. Critical study of the conceptual bases for truth-claims within the major sociological perspectives.

### SOCI 429 Dynamics of Formal Organizations (3 credits)
Prerequisite: SOCI 329 or 6 Sociology credits at the 300 level. Analysis of the major social dynamics at work in formal organizations and examination of the impact of external societal factors on organizations.

**NOTE:** Students who have received credit for SOCI 340 may not take this course for credit.

### SOCI 450 Seminar in Urban and Metropolitan Studies (6 credits)
Prerequisite: SOCI 203 and one course from Group 5. Intensive study of selected theories and monographs dealing with aspects of urbanization.

### SOCI 460 Law and Society (6 credits)
Prerequisite: SOCI 203; SOCI 262 or SOCI 263, or SOCI 361, SOCI 362. Study of the legal system as an institutionalized system of social control, using historical and comparative data. Special attention is given to the study of law and legal organizations in contemporary society in relation to other areas of sociological inquiry, especially social change, conflict, and decision-making.

### SOCI 498 Advanced Topics in Sociology (3 credits)

### SOCI 499 Advanced Topics in Sociology (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

---

### ANTHROPOLOGY

#### BA Honours in Anthropology

- **60** 
- **6** ANTH 202**; SOCI 203***
- **6** LING 200°
- **24** Chosen from ANTH 200-level courses (except ANTH 202°) and ANTH 300-level courses (ANTH 310 recommended)
- **18** Chosen from ANTH 400-level courses
- **6** ANTH 495°

*Students exempted from ANTH 202° are required to take 3 credits from Anthropology 200- or 300-level courses.*

**Students exempted from SOCI 203° are required to take 3 credits from Sociology 200- or 300-level courses.*

#### BA Major in Anthropology

- **42** 
- **6** ANTH 202**; SOCI 203***
Chosen from ANTH 200-level (except ANTH 202) and ANTH 300-level courses (ANTH 310 recommended)

Chosen from ANTH 400-level courses

SOCI elective credits in consultation with the Departmental Major Adviser

*Students exempted from ANTH 202 are required to take 3 credits from Anthropology 200- or 300-level courses.

**Students exempted from SOCI 203 are required to take 3 credits from Sociology 200- or 300-level courses.

60 BA Specialization in Anthropology

6 ANTH 202**, SOCI 203**

6 LING 200 or SOCI 212, 213

24 Chosen from ANTH 200-level courses (except ANTH 202) and ANTH 300-level courses**

18 Chosen from ANTH courses at the 400-level

6 Chosen from ANTH courses at the 300- or 400-level

*Students exempted from ANTH 202 are required to take 3 credits from Anthropology 200- or 300-level courses.

**Students exempted from SOCI 203 are required to take 3 credits from Sociology 200- or 300-level courses.

***ANTH 310 recommended.

60 BA Specialization in Anthropology and Sociology

12 ANTH 202**, SOCI 203**, 212, 213***

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent course.

ANTH 202 Introduction to Culture (3 credits)

An introduction to the anthropological study of culture. The course begins with a consideration of the concepts, models, and methods used by anthropologists. This is followed by an examination of the many ways in which peoples of the world, past and present, have organized the activities, institutions, and belief systems that sustain social life. The course concludes with a discussion of the relevance of Cultural Anthropology to contemporary issues.

NOTE: Students who have received credit for ANTH 211 may not take this course for credit.

ANTH 203 Culture and Biology: An Anthropological Perspective (3 credits)

This course focuses on the interrelationship between culture and human biology. The first part of the course examines current debates about human origins, human variation, and the influence of cultural adaptation on human biology. This is followed by a critical examination of the strategies of sociobiology for the study of socio-cultural phenomena.

ANTH 298 Selected Topics in Anthropology (3 credits)

ANTH 299 Selected Topics in Anthropology (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ANTH 302 Art, Aesthetics, and Anthropology (3 credits)

Prerequisite: ANTH 202 or equivalent, or permission of the Department. An introduction to the social uses of paintings, sculptures, masks, body tattoos or paintings, and costume decorations in native societies of North and South America, Africa, and Pacific, etc. The first part of the course deals with how traditional "primitive art forms" are structured through the study of selected examples. The second part offers an analysis of the functions of art objects and art forms in archaic societies. The third and last part is devoted to a discussion of where "primitive" artists find the source of the particular aesthetic form they resort to in their work.

ANTH 303 Aboriginal Indian and Inuit Socio-Political Organizations (3 credits)

Prerequisite: ANTH 202 or equivalent, or permission of the Department. A study of the various forms of socio-political organization achieved by the Indian and Inuit peoples of North America before the
ANTH 304 Native People Today (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. First, a review of the aboriginal cultures of native Americans followed by an outline of the history of the Native-White relations, and of the legal status granted to the first people of Canada and the U.S.A. by the various past and present governments. Second, an examination of the demographic and social characteristics of today's native people, including the Metis, as well as of the Indian-Inuit Affairs programmes and government policies. Third, a discussion of present-day native organizations, native claims, and of the prospects for improvements.
NOTE: Students who have received credit for ANTH 362 may not take this course for credit.

ANTH 305 Culture and History (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. This course presents different ways in which history has been understood in our own culture as well as in other non-western cultures. The course includes questions about history as legitimating charters, as repeating cycles, as a scientific inquiry, as a series of unique events and as a basis for ethical judgements.

ANTH 306 Culture and Language (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. An introduction to major issues in language as they relate directly to problems in anthropology, and indirectly in sociology, philosophy, and psychology. We survey different approaches to the interrelation of language, thought, and culture.

ANTH 307 Understanding Myths (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. Competing interpretations of some classic myths such as the Oedipus, the Abraham and Isaac, or the Job stories are studied and discussed. The interpretations of these classic myths in Western culture is followed by an examination of Claude Lévi-Strauss' structuralist interpretation of a non-Western myth. The course concludes with an examination of mythmaking in our own contemporary culture, by reviewing stories such as that surrounding Kennedy's death.

ANTH 308 Feminaleness, Maleness and Otherness in Cross-Cultural Perspective (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. The first part of the course is devoted to cultural variations regarding sex and gender: What is female? What is male? Is there a third gender? Its second part is an introduction to theories regarding equality, autonomy, denomination, complementarity or exploitation between the genders. Its third part deals with various indigenous theories concerning the body, its working, sex and reproduction, pollution, as well as female, male (and other) codes of "Honour".

ANTH 309 Matrilineal Kinship (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. An introduction to the literature on matrilineal societies. The readings, class discussions, and written exercises focus on a critical review of current positions on matriline. Questions are raised about how anthropologists have interpreted matrilineal kinship, about how its distinction from patrilineal and bilateral systems has been dealt with, and about the roles and power of the sexes in matrilineal settings.

ANTH 310 The Making and Unmaking of Anthropological Theories (6 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. Priority is given to enrol in this course to students who are in Anthropology and Sociology programmes. This course provides the student with a broad critical perspective on various theoretical approaches to anthropology (evolutionism, functionalism, structuralism, cultural materialism, and marxism). Anthropology is always balancing between field-work and theories. This course shows how field-work has shaped and continues to shape the making and the unmaking of theories.

ANTH 311 Peoples and Cultures of the Caribbean (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. A comparative study of Caribbean peoples and cultures, their history in colonization and slavery, their current similarities in diversity.

ANTH 321 The Stateless Societies of Africa (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. The course surveys stateless societies spread across the Sudan into Nigeria. The course outlines hominid evolution in Eastern and Southern Africa and sketches the outlines of African prehistory as reconstructed by archaeologists. These are followed by an investigation of such present-day hunters and gatherers as the Kalahari Bushmen and the Ituri forest Pygmies. The bulk of the course studies a number of stateless societies in the area, such as the pastoral Nuer and the agricultural Tiv. Particular emphasis is given to the ways in which kinship and marriage organize social, political, and economic relations and preserve social order in these cultures without institutionalized chieftainship.
ANTH 322 Pre-Colonial Kingdoms of Africa (3 credits)
Prerequisite: ANTH 202 or equivalent, or permission of the Department. An extensive review of African states from the Nubian dynasties of Egypt and the Nile region to the Sudanic and Forest Kingdoms of the pre-mercantilist period. Their political, economic and social structures are examined from the viewpoint of their contrasts and vulnerability to colonialism, with the aim of providing an explanation for the rise of nationalism in the post-colonial states of Africa.

ANTH 325 Magic, Science, Religion, and Ideology (3 credits)
Prerequisite: ANTH 202, or RELI 211, or RELI 213, or permission of the Department. An introduction to the field of belief systems and of their attendant rituals and practices. The first part of the course is devoted to the problem of how anthropologists differentiate between magic, science, religion, and ideology. The second part deals with specific aspects of magic, of religion, of ideology, and of science. The third part discusses the issue of whether social belief systems institute the social reality in which the believers live, or whether they mask the true social relations that they entertain with each other.

ANTH 370 Anthropology and Contemporary Issues (3 credits)
Prerequisite: ANTH 202 or permission of the Department. This course examines contemporary world issues from an anthropological, i.e. cross-cultural, perspective. Our discussions range from a critical examination of anthropological concepts and methods to a consideration of the uses of anthropology in practical applications. Specific issues dealt with include the consequences of underdevelopment, modernization, and the place of folk cultures and tradition in contemporary societies.

ANTH 371 Peasant Societies and Cultures (3 credits)
Prerequisite: ANTH 202 or permission of the Department. This course examines agrarian societies in different cultural and political contexts. The course begins with a brief discussion of the archaeological evidence for early and later Neolithic agriculturalists. This is followed by an examination of peasants, their persistence and transformation. The course concludes with a discussion of the role that subsistence producers play in contemporary societies.

ANTH 398 Selected Topics in Anthropology (3 credits)

ANTH 399 Selected Topics in Anthropology (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

ANTH 401 Neo-Marxism and Archaic Societies (3 credits)
Prerequisite: Twelve credits in 300-level Anthropology, or permission of the Department. An exploration of the neo-marxist literature on archaic societies. The first part of the course offers a systematic introduction to the basic concepts of historical materialism. The second part is devoted to selected case studies: societies from ancient Africa, America, etc. are analyzed in the neo-marxist perspective. The course concludes with an appraisal of economic life in non-industrial societies.

ANTH 402 Neo-Marxist Anthropology and Culture (3 credits)
Prerequisite: Twelve credits in 300-level Anthropology, or permission of the Department. This course is a critique of classical cultural anthropology for its concession to a theoretical framework which cannot grasp the logic of cultural reproduction. It proposes a thesis which emphasizes the importance of a communicative and critical sense of rationality for understanding the centrality of culture in the reproduction of social life.

ANTH 410 Theories of Culture (6 credits)
Prerequisite: ANTH 202 and twelve credits in 200- and 300-level Anthropology, or permission of the Department. Term I: Classical Psychoanalysis and Marxism. The first term develops an analysis of Freud's and Marx's positions on culture. Term II: Hermeneutics and structuralism. The second term focuses on Max Weber's overall approach to culture, the implicitly hermeneutic anthropology of Ruth Benedict and members of the "American School" led by Franz Boas, and Claude Lévi-Strauss' Structuralism.

ANTH 426 Symbolic Anthropology (6 credits)
Prerequisite: Twelve credits in 300-level Anthropology, or permission of the Department. An exploration into interpretive anthropology by examining ways of seeing, knowing, believing, and feeling in our own culture. Since interpretive anthropology is at the crossroad of several disciplines, the course discusses the work not only of cultural anthropologists, but also of linguists, art and literary critics, as well as philosophers. Authors studied include among others, Lévi-Strauss, Sapir, Chomsky, Orwell, John Berger, Wittgenstein, Marx and Engels.

ANTH 459 Political Anthropology (6 credits)
Prerequisite: Twelve credits in 300-level Anthropology, or permission of the Department. An examination of political process and political organization in cross-cultural perspective. Part I considers the differing approaches to political organization and processes, leadership, power, and authority in non-western cultures of various degrees of complexity. Part II analyzes social conflict in relation to politics, social continuity, and social change.
ANTH 460  Kinship and Social Anthropology  (6 credits)
Prerequisite: Twelve credits in 300-level Anthropology, or permission of the Department. The first part of the course deals with residence, descent, generation and eldersness, with special consideration given to the functionalist and Marxist approaches to the study of lineage societies. Its second part is devoted to the prohibition of incest, sex and marriage, terminology, kinship attitudes, and symbolic kinship with special attention given to the structuralist alliance theory.

ANTH 495  Honours Essay  (6 credits)
Prerequisite: Honours in Anthropology. Under the supervision of an Anthropology staff member, the student prepares an Honours essay on a subject chosen in consultation with, and approved by, the professor.

ANTH 498  Advanced Topics in Anthropology  (3 credits)

ANTH 499  Advanced Topics in Anthropology  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

*BACHELOR OF EDUCATION (Teaching English as a Second Language)

The Centre for the Teaching of English as a Second Language offers the Degree of Bachelor of Education (Teaching English as a Second Language).

Admission Requirements (BEd)

General admission requirements are listed in §13 (Admission Regulations). Specific requirements are as follows:

1. Satisfactory completion of a two-year pre-university programme in a CEGEP or equivalent. Within the programme, the students will be required to have successfully completed the equivalent of four semester courses in English.

2. Owing to the specialized nature of this programme, no more than 30 pro tanto credits will normally be permitted, and the University reserves the right to determine which ones these should be.

3. Candidates must demonstrate competence in English. All non-native speakers of English must take a formal test of English proficiency and obtain a score acceptable to the TESL Centre.

NOTE I: Arrangements for taking the proficiency test may be made through the Admissions Office.

4. The BEd(TESL) is open to both prospective and experienced teachers. The BEd(TESL) is offered in the day and evening, and in the summer session. The internship package of courses (TESL 324, 385, 411, 424 and 485) is offered only as daytime, Fall-winter courses. Some of the courses may also be offered outside Montreal through the Office for Off-Campus Education.

78 BEd Specialization in Teaching English as a Second Language

33 TESL 221, 231, 232, 324, 341, 385, 413, 415, 424, 485
15 Chosen from TESL 201, 205, 211, 299, 299, 318, 351, 361, 398, 399, 433, 434, 442, 491, 492, 498, 499, approved* linguistics-related courses in LING, MODL, FRAN, EDUC, etc.

NOTE: At least 9 credits must be in TESL

6 EDUC 210
12 Chosen from courses in EDUC, PSYC, ADED.

NOTE: Students who intend to apply for teacher certification in Quebec must include EDUC 445 and 414 or PSYC 281.

6 ENGL 212 and 213 or 396
6 English literature, to be approved by TESL Centre.

*NOTE: Written approval of the TESL programme adviser is required.

CERTIFICATE IN THE TEACHING OF ENGLISH AS A SECOND LANGUAGE: SEQUENCE I

This 30-credit programme is offered to experienced teachers who are not native speakers of English.

Admission Requirements

1. Candidates must have an appropriate teacher's certificate or the equivalent of one year's experience as a full-time second-language teacher (400 hours).

2. Candidates must take a formal test of English proficiency and obtain a score acceptable to the TESL Centre. NOTE: Arrangements for taking the proficiency test may be made through the Admissions Office.

Concordia students may transfer into the Certificate programme all applicable Concordia credits earned in an incomplete degree or certificate programme or as an Independent or Spe-
special student, provided they are students in good standing. Students from other institutions may transfer up to twelve applicable credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

The TESL Certificate: Sequence I programme is offered in the evening and in the summer session, and may be offered outside Montreal through the Office for Off-Campus Education.

NOTE II: Individuals who have completed TESL Certificate: Sequence II are not eligible for admission to TESL Certificate: Sequence I.

30 Certificate in the Teaching of English as a Second Language: Sequence I

Courses
TESL 201, 203, 205, 324, 341, 413, 415, 424, 433

CERTIFICATE IN THE TEACHING OF ENGLISH AS A SECOND LANGUAGE: SEQUENCE II

This 30-credit programme is offered to experienced teachers whose native language is English or whose proficiency in English meets native-user standards.

Admission Requirements
1. Candidates must have an appropriate teacher's certificate or the equivalent of one year's experience as a full-time second-language teacher (400 hours).
2. Candidates must demonstrate competence in English. All non-native speakers of English must take a formal test of English proficiency and obtain a score acceptable to the TESL Centre. NOTE: Arrangements for taking the proficiency test may be made through the Admissions Office.

Concordia students may transfer into the Certificate programme all applicable Concordia credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. Students from other institutions may transfer up to twelve applicable credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

The Certificate: Sequence II programme is offered in the day and evening, and in the summer session. Some of the courses may also be offered outside Montreal through the Office for Off-Campus Education.

NOTE III: Individuals who have completed TESL Certificate I are not eligible for admission to TESL Certificate II.

30 Certificate in the Teaching of English as a Second Language: Sequence II

6 ENGL 212 or 213 or 396
24 TESL 221, 231, 232, 324, 341, 415, 424, 433

INFORMATION RELEVANT TO ALL PROGRAMMES

NOTE IV: Upon successful completion of the BEd (TESL) programme, and after application to the Coordinator of Graduation (Evaluation) in the Registrar's Services Office, a graduate may be recommended to the Quebec Teachers Certification Service for a "Permis d'enseigner (probation): autorisation personnelle temporaire". This temporary teaching permit will be issued by the Quebec Ministère de l'Éducation to teach ESL at the primary and secondary levels in French-speaking schools. The graduate then has five years to complete the two-year full-time probationary teaching period. When this has been done, the graduate will be eligible for a "Brevet d'enseignement: autorisation personnelle permanente" (a teaching diploma).

Upon successful completion of the TESL Certificate Sequence I or TESL Certificate Sequence II, a graduate previously certified to teach in Quebec will be recommended for an additional "Brevet d'enseignement: autorisation personnelle permanente". This teaching diploma will be issued to teach ESL at the primary and secondary levels in French-speaking schools. A graduate who has been granted a temporary teaching permit to teach a subject other than ESL may be recommended for an additional permit to teach ESL.

There is no comparable certification process for teaching ESL at CEGEP level - Collège d'enseignement général et professionnel (junior college) or other adult level.

To be recommended for certification (Permit or Diploma), students must achieve at least a C grade in methodology and teaching practice courses: that is,
1. for the BEd, in TESL 324, 424, 385; and 485;
2. for the Certificate Sequence I or II options, in TESL 324, 424, and 433.

Students who obtain a passing grade that is below the level required for recommendation for certification will be placed on conditional standing within the programme and will be so informed in writing by the Director of the TESL Centre. Students will be allowed to repeat the course(s) in question only once in order to achieve the required grade. (For the status of this grade as part of the student record, see calendar 16.3.8.)

Students who fail to repeat the course successfully within one year will, to remain in the programme, be required to acknowledge in writing that they have forfeited the right to be recommended for certification.

Students who obtain a failing grade (F, R or NR) in any of the courses listed in paragraphs (1) and (2) above will be required to withdraw from the programme and will also be so informed in writing by the Director of the TESL Centre.
To be recommended for certification in Quebec, students must demonstrate reasonable fluency in French.

In the event that a student meets regular University standards but does not satisfy the requirements for recommendation for certification, the student may apply to receive the University degree or certificate but will not be recommended to the Ministry.

NOTE: Upon admission, students may be granted exemptions from courses in TESL programmes if they have completed equivalent work at the university level. Replacement for these exemptions must be made in accordance with the guidelines established by the TESL Centre and approved by the University. Copies of these guidelines may be obtained in the TESL Centre.

Courses in English as a Second Language are designed for students who are not native speakers of English and who need further training in the effective use of English in the university setting. Students must be tested for placement in ESL 207, 208, 209, or 210. Information about placement testing schedules may be obtained from the English Language Proficiency Testing Office, TESL Centre, 2155 Guy, Room 601-3, Tel. (514) 848-2454. A special examination fee is charged. (See §15.1)

Written work may be required in English for these courses; please consult with the Department. Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

NOTE: Students enrolled in a 90-credit degree or an extended credit degree programme in the Faculty of Arts and Science may take ESL courses for degree credit, up to a maximum of six credits.

TEACHING OF ENGLISH AS A SECOND LANGUAGE

TESL 205  *Introduction to the Structure of English*  (3 credits)
This course is open only to students who are not native speakers of English. The structure of English is examined together with ways of using this knowledge for the effective teaching of English as a second language.
NOTE: The only TESL programmes toward which the course credited are the BEd (TESL) and TESL Certificate (Sequence I).
Students who have received credit for TESL 231 may not take this course for credit.

TESL 211  *Introduction to Language and Applied Linguistics*  (3 credits)
In this course, selected characteristics of language and linguistics are described. Related fields such as psycholinguistics, sociolinguistics, neurolinguistics and anthropological linguistics are examined. The relevance of work in these areas for language learning and teaching is discussed.
NOTE: This course is open only to students with fewer than 12 TESL credits.

TESL 221  *Comparative Phonetics*  (3 credits)
This course is specifically designed for students who intend to teach ESL. It provides an introduction to the sound systems of English and French. It compares the two systems and emphasizes techniques for teaching pronunciation in ESL classes.
NOTE: When the course is offered to a group preparing to teach students whose first language is not French, the course content may be adjusted to suit their specific needs.

TESL 231  *Modern English Grammar I*  (3 credits)
This course is primarily designed for students who intend to teach ESL. The course involves a study of important aspects of English structure. It aims to prepare students to apply their knowledge of grammatical structure to the teaching of ESL, for example in the identification and analysis of errors and in the preparation of pedagogical materials.
NOTE: Students who are required to take ESL courses must complete them before commencing TESL 231.

TESL 232  *Modern English Grammar II*  (3 credits)
Prerequisite: TESL 231. This course continues the study of English grammatical structure begun in TESL 231. It aims to increase students' knowledge in this field and to improve their ability to apply this knowledge to the teaching of ESL.
NOTE: Students who have received credit for TESL 431 may not take this course for credit.

TESL 298  *Selected Topics in TESL*  (3 credits)
TESL 299  *Selected Topics in TESL*  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

TESL 318  *The Teaching of Reading and Writing*  (3 credits)
Prerequisite: 9 TESL credits including TESL 324. The course examines the theoretical and research basis for current practice in the teaching of reading and writing. Students become familiar with the concerns and practices of those investigating the development of reading and writing in second language learners in particular, and become aware of how this is related to teaching materials and activities.

TESL 324  *Methodology I*  (3 credits)
Prerequisite: TESL 221; TESL 231 or TESL 201; TESL 205, each with a grade of C or better, and admission to a TESL programme or permission of the Department. This course reviews current theory in applied linguistics which relates directly to teaching and learning ESL in the classroom. Techniques and methods appropriate to child, adolescent, and adult learners are discussed and demonstrated. In this course the emphasis is on classroom-oriented techniques and materials related to the teaching of listening and speaking.
NOTE: A student must have achieved at least a C in this course in order to be recommended for teacher certification upon completion of the programme.

TESL 341  *Language Acquisition*  (3 credits)
Prerequisite: TESL 221; TESL 231 or permission of the Department. This course analyzes developmental processes of both native language and second language acquisition. Research is examined in terms of implications for second language teaching.

TESL 351  *History and Development of the English Language*  (3 credits)
Prerequisite: TESL 221; TESL 231, or permission of the Department. A study of the morphological, phonological, syntactical, and semantic changes that have taken place from Proto-Indo-European to the present. Students are required to do elementary linguistic analyses of texts from different stages in the development of the language.

TESL 361  *Teaching English for Specific Purposes*  (3 credits)
Prerequisite: TESL 324 or permission of the Department. This course provides instruction in the teach-
ing of language skills to those who require English either as an auxiliary to their scientific, technical or professional skills or as a medium for training in these areas.

**TESL 385 Observation and Practice Teaching** (3 credits)
Prerequisite: TESL 324 previously or concurrently. This course is a daytime, fall-term course, taken with the daytime sections of TESL 324 and TESL 413. The course introduces the student teacher to the ESL classroom. Students observe experienced teachers, and have opportunities for micro-teaching, peer teaching, as well as some teaching to ESL students. Opportunities are provided for observation and practice with ESL learners at different ages and levels of proficiency in English.

**NOTE:** Students who have received credit for TESL 433 may not take this course for credit.

**TESL 398 Selected Topics in TESL** (3 credits)

**TESL 399 Selected Topics in TESL** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**TESL 413 Audio-Visual Aids** (3 credits)
Prerequisite: TESL 324 previously or concurrently. This course examines audio-visual resources and their effective use in second-language teaching. Students are given experience with the technical equipment generally available for use in second-language classrooms. In addition, students produce their own audio-visual materials.

**TESL 415 Testing and Evaluation** (3 credits)
Prerequisite: TESL 324. An introduction to the general purposes and methods of language testing, with a description of the chief characteristics of sound educational measures. The course examines the processes involved in constructing and administering tests designed to evaluate achievement in the ESL classroom.

**TESL 424 Methodology II** (3 credits)
Prerequisite: TESL 324. This course continues the presentation of techniques and methods begun in TESL 324. In this course the emphasis is on classroom-oriented techniques and materials related to the teaching of reading and writing.

**NOTE:** Students must have achieved at least a C in this course in order to be recommended for teacher certification upon completion of the programme.

**TESL 433 Practicum** (3 credits)
Prerequisite: TESL 324. This course is open only to students enrolled in Certificate Sequence I or II. In this course students practise techniques which were introduced in their methodology courses. There are opportunities for observation of ESL classes taught by experienced teachers. Techniques presented in TESL 324 and 424 are practised in micro-teaching, peer teaching and sessions with groups of ESL students. Requirements include lesson planning and evaluation of one's own teaching performance.

**NOTE:** Students must have achieved at least a C grade in this course in order to be recommended for teacher certification upon completion of the programme.

**TESL 434 Error Analysis** (3 credits)
Prerequisite: 15 TESL credits including TESL 324 and TESL 341. In this course current theories of second language acquisition are reviewed and applied. Each student carries out analyses of ESL learners' language, focussing on patterns of errors. The identification and classification of errors is followed by the development of teaching materials which the student uses in order to help learners overcome some persistent errors.

**TESL 442 Problems in Bilingualism** (3 credits)
Prerequisite: 15 TESL credits. This course is an introduction to some linguistic, social and psychological aspects of languages in contact, with particular attention to the situation in Canada. Emphasis is placed on the description and evaluation of different types of bilingual education programmes and the factors which influence the choice of particular models.

**TESL 485 Internship** (6 credits)
Prerequisite: TESL 385 or equivalent. An evening section of this course is open to experienced teachers who are currently teaching ESL. Other students will take a daytime, winter-term section, together with a daytime section of TESL 424. Students do supervised teaching in ESL classes. In addition to seminars including demonstrations and discussions on teaching techniques appropriate to different ages
and levels of proficiency in English, students are responsible for teaching a group or groups of ESL learners over a prescribed time period.

NOTE: Students must have achieved at least a C grade in this course in order to be recommended for teacher certification upon completion of the programme.

Students will complete the in-school portion of this course in a (M.E.Q.-approved) private or public primary or secondary school (where French is the language of instruction), in order to be recommended for Quebec provincial teacher certification at these levels. Teaching practice completed with adults will not qualify students to be recommended for teacher certification.

NOTE: Students who completed TESL 385 in a primary school will change to a secondary school in this course. Those who taught in a secondary school will change to a primary school.

TESL 491 Study in a Special Subject (3 credits)
Prerequisite: Permission of the Department. This course provides an opportunity for advanced students to intensify their study beyond the area of specialization already represented by the curriculum. The selected subject varies with the special interest of the instructor conducting the course in any given year.

TESL 492 Study in a Special Subject (3 credits)
Prerequisite: Permission of the Department. A student repeating TESL 491 registers for credits under TESL 492.

TESL 498 Advanced Topics in TESL (3 credits)

TESL 499 Advanced Topics in TESL (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Students are responsible for satisfying their particular degree requirements. The superscript indicates credit value.

Students must have their programmes approved by the Department.

All courses in the Department are open to any qualified student of Concordia.

50 BA Honours in Theological Studies

1. Required courses: THEO 300, 310, 330 (or 331 and 332), 350, 360, 384, 387, 493, 494

2. 6 credits must be chosen in each of the theological areas: Old Testament, New Testament, Systematics, History of Christianity, Christian Ethics

3. A maximum of 9 credits may be chosen among the 200-level courses

4. 6 credits must be taken as cognate, offered in another department, from courses such as - Introduction to Philosophy, Critical Thinking, History of the Roman Empire, Biblical Hebrew, Hellenistic Greek, Latin, German.

5. A group of 18 to 24 credits within one area must be elected, in consultation with the Department, in order to provide each student with a degree of expertise in some area of Theology.

6. 6 credits must be taken in a language required for advanced work, such as Biblical Hebrew, Hellenistic Greek, Latin or German.

Students who already had Honours status by June 1, 1977 will continue to be governed by the requirements which applied at the date of their admission to the Honours programme. (Please refer to 16.2.4 of this Calendar.)

54 Specialization in Theological Studies

With permission of the Department, a student may be admitted to a Specialization programme.

1. Required courses: THEO 300, 310, 330 (or 331 and 332), 350, 360, 384, 387

2. 6 credits must be chosen in each of the theological areas: Old Testament, New Testament, Systematics, History of Christianity, Christian Ethics

3. A maximum of 9 credits may be chosen among the 200-level courses

4. A group of 18 to 24 credits within one area must be elected, in consultation with the Department, in order to provide each student with a degree of expertise in some area of Theology.

36 BA Major in Theological Studies

Required courses: THEO 300, 310, 330 (or 331 and 332), 350, 360, 384, 387

12-15 No more than 6 elective credits

24 Minor in Theological Studies

1. Required course: THEO 201

2. No more than 6 further credits from the 200 level

3. A minimum of 9 credits from THEO 300, 310, 330 (or 331 and 332), 350, 360

4. A minimum of 6 credits chosen from the 400 level

Because of the renumbering of courses in the Department, students should see §200.1 for a list of equivalent courses.

THEO 201 Methods and Key Concepts in Theological Studies (3 credits)

Key theological concepts such as God, creation, sin, incarnation, redemption, church, last things. The nature of theological inquiry: historical, exegetical and systematizing methods. Both concepts and methods are presented in their historical and ecumenical perspectives. Introduction to the principal aspects of academic theological work.

THEO 217 Christian Mysticism and Psychology (3 credits)

The study of Christian mystics and mystical tradition. Attention is given to the nature, meaning and theological and psychological roots of mystical experience and whether the search for such experience is paranormal behaviour or an authentic human endeavour.

NOTE: Students who have received credit for THEO 215, THEO 216 may not take this course for credit.
THEO 219 Bible and Western Culture (3 credits)
The influence of the Bible on Western culture and civilization in such areas as literature, philosophy, politics, economics, art, architecture, psychology, science and technology.
NOTE: Students who have received credit for THEO 220, THEO 221 may not take this course for credit.

THEO 226 Theology and Myth (3 credits)
The nature, function and meaning of myth in Christian theology compared with its function in other fields of human knowledge, such as literature, religion, psychology.

THEO 232 Sociology of Christianity (3 credits)
The interaction of Christianity and society throughout Christian history. The resulting impact on the Church, on peoples and on cultures.

THEO 240 Theology and The Arts I (3 credits)
Classical art and myth: the poetic foundations of theological discourse and their relation to the imagination of the artist.

THEO 241 Theology and The Arts II (3 credits)
An exploration within recent forms in painting, poetry, and film. Theological reflection to discover the civilizing function of images of God produced by the imagination.

THEO 264 Theological Dimensions of Psychology I (3 credits)
This course is a theological exploration in psychological studies embracing, a) a critical and constructive consideration of Freud and Jung; b) a survey of neo-Freudian social psychologists, such as Horney and Sullivan; c) a survey of third-force psychologists such as Rogers, Maslow, and May.

THEO 266 Theological Dimensions of Psychology II (3 credits)
The multifaceted methodology of C.G. Jung; themes relating to psychology and theology.

THEO 270 Women and the Christian Church (3 credits)
An examination of the role of women in the course of the history of the Church. Prototypes and images of women in Scripture and Theological tradition.
NOTE: Students who have received credit for THEO 471, THEO 472 may not take this course for credit.

THEO 298 Selected Topics in Theology (3 credits)

THEO 299 Selected Topics in Theology (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

THEO 300 The Old Testament (3 credits)
A survey of Old Testament texts (in English translation), with an introduction to contemporary methods of interpretation and appreciation.

THEO 310 The New Testament (3 credits)
The date, authorship, purpose, structure, and sources of the books of the New Testament. Understanding their content in its historical setting.

THEO 330 Principles of Systematic Theology (3 credits)
An introduction to the types, methods, tools, and sources of theology. The principal themes of Christian theology are investigated according to their biblical, historical, and philosophical roots.

THEO 331 Christian Beliefs I (3 credits)
The Christian assessment of humanity in the light of belief in God, creation, Jesus Christ, ultimate destiny, and salvation. Specific practices and values of the Christian community. The relationship of church to society as exemplified in social reforms and liberation theology. This course is designed to meet Comité catholique requirements for those intending to teach Religion in Quebec Catholic schools. For these students this course, along with THEO 332, is equivalent to THEO 330.
NOTE: Students who have received credit for THEO 210, THEO 330 may not take this course for credit.

THEO 332 Christian Beliefs II (3 credits)
A continuation of THEO 331.
NOTE: Students who have received credit for THEO 210, THEO 330 may not take this course for credit.

THEO 350 Foundations of Christian Ethics (3 credits)
An introduction to the study of Christian ethics; the role of Christian beliefs for a new foundation of ethics in the present intellectual, cultural, and historical situation.

THEO 360 Christianity in History (3 credits)
The historical dimensions of Christian existence, its institutions, personalities, major events. Methods of inquiry.
THEO 362  History and Theology of the Christian East  (3 credits)
A survey of the history and theological literature, themes and methods characteristic of the Christian East.
NOTE: Students who have received credit for THEO 444, THEO 462 may not take this course for credit.

THEO 366  Protestant Christianity  (3 credits)
An introduction to the history and theology of the principal movements and major types of denominations which have developed from the Sixteenth-Century Reformation.
NOTE: Students who have received credit for THEO 466 may not take this course for credit.

THEO 369  Canadian Church History  (3 credits)
The history and theological movements that identified the various Christian churches in the Canadian mosaic.
NOTE: Students who have received credit for THEO 468, THEO 469 may not take this course for credit.

THEO 370  Christian Liturgy  (3 credits)
The history and theology of liturgical praxis in Christian tradition.

THEO 372  Christian Spirituality  (3 credits)
Historical and theological study of the literature of spirituality in the various phases of Christian history.

THEO 384  Theology of Judaism  (3 credits)
An introduction to the history, texts and theology of Judaism.
NOTE: Students who have received credit for THEO 382, THEO 383 may not take this course for credit.

THEO 387  World Religions  (3 credits)
An introduction to the history, texts and theology of world religions.
NOTE: Students who have received credit for THEO 385, THEO 386 may not take this course for credit.

THEO 390  Controversial Issues in Ethics  (3 credits)
Examination of controversial issues: e.g., the ethics of medical problems such as AIDS, abortion; moral dilemmas of economic life; relation of ethics to politics: peace, war, etc.
NOTE: Students who have received credit for THEO 456, THEO 457 may not take this course for credit.

THEO 398  Selected Topics in Theology  (3 credits)
THEO 399  Selected Topics in Theology  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
NOTE: All 400-level Theology courses have as their prerequisite an appropriate 300-level Theology course, or its equivalent, with permission of the Department.

THEO 405  The Pentateuch  (3 credits)
Prerequisite: THEO 300, or its equivalent with permission of the Department. A reading of selected passages. Discussion of current research into the meaning of these ancient books. Methods of inquiry and their application.

THEO 406  The Historical Books  (3 credits)
Prerequisite: THEO 300, or its equivalent with permission of the Department. A reading of selected passages. Methods of interpreting historical texts in the Old Testament and of determining both their historicity and their meaning are discussed and applied.

THEO 407  The Prophetic Traditions  (3 credits)
Prerequisite: THEO 300, or equivalent with permission of the Department. A reading of selected passages. Historical backgrounds are studied. Current method for interpreting ancient literature are discussed and applied.

THEO 408  The Psalms and Wisdom Literature  (3 credits)
Prerequisite: THEO 300, or equivalent with permission of the Department. A reading of selected passages. Current methods for interpreting ancient literature are discussed and applied. A variety of literary genres, literary forms, and theological themes are identified and analyzed.

THEO 409  Seminar in Old Testament Literature  (3 credits)
Prerequisite: THEO 300, or its equivalent with permission of the Department. A specific book of the Old Testament is studied in the light of ancient and modern commentaries and of current research.

THEO 411  The Synoptic Gospels  (3 credits)
Prerequisite: THEO 310, or its equivalent with permission of the Department. Exegesis of selected passages in the light of recent scholarship. Studies in their doctrinal contents. Historical inquiry into the works and words of Jesus.
THEO 412  Acts and the Beginnings of Christianity  (3 credits)
Prerequisite: THEO 310, or its equivalent with the permission of the Department. Acts, Hebrews, James, and I Peter: exegesis of selected passages in the light of recent scholarship, studies in their doctrinal contents. Historical inquiry into the life of the early Church.

THEO 414  The Johannine Writings  (3 credits)
Prerequisite: THEO 310, or its equivalent with the permission of the Department. An examination of Gospel, Letters, and Revelation situated within the context of first-century Christian and non-Christian religious thought.

THEO 416  The Theology of St. Paul  (3 credits)
Prerequisite: THEO 310, or its equivalent with permission of the Department. A historical-critical examination of Paul’s theological thought, tracing its development through the chronological sequence of his letters. The focus is on what is central and normative for Christian theology and what is particularly relevant for today.

THEO 421  Patristics  (3 credits)
Prerequisite: THEO 360, or equivalent with permission of the Department. The origin and development of theology, monasticism, liturgy, literature, biblical studies and exegesis on the early centuries of Christian history. Representative writings and personalities from the Greek and Latin traditions are selected and studied.

THEO 423  History of Christian Thought: Beginnings to Aquinas  (3 credits)
Prerequisite: THEO 360, or equivalent with permission of the Department. A survey course on the history of Christian thought from the origins of the Christian Church to the High Middle Ages.

THEO 425  History of Christian Thought: Thomas Aquinas to the Present  (3 credits)
Prerequisite: THEO 360, or equivalent with permission of the Department. The theological study of the events and ideas leading from the High Middle Ages through the Reformation into the modern world, with its critical challenges to the Christian churches and their beliefs.

THEO 428  Nineteenth-Century Criticism of Christianity  (3 credits)
Prerequisite: THEO 330, or its equivalent with permission of the Department. An introductory consideration of the Enlightenment, in particular Lessing, as theologian. Theological perspectives of Schleiermacher and Hegel. Theological reductions and criticisms of Strauss, Feuerbach, Marx, Kierkegaard, and Nietzsche.

THEO 429  Twentieth-Century Consciousness of God  (3 credits)
Prerequisite: THEO 330, or its equivalent with the permission of the Department. Inter-related themes on the consciousness of God through a study of representative thinkers.

THEO 430  The Christian Understanding of God  (3 credits)
Prerequisite: THEO 330, or equivalent with permission of the Department. A study of the Christian understanding of God in the Bible and Tradition. Selected readings from representative theologians.

THEO 431  Theology of Revelation  (3 credits)
Prerequisite: THEO 330, or its equivalent with permission of the Department. An inquiry into revelation as a central theme of fundamental theology. The contributions of representative theologians to the development of the theology of revelation.

THEO 432  Theology of the Human Person  (3 credits)
Prerequisite: THEO 330, or equivalent with permission of the Department. The study of the human person in biblical literature from the theological perspective. The distinctiveness of theological understanding as compared with the methods of philosophy, psychology, natural sciences, and literary studies.

THEO 434  Word and Sacrament  (3 credits)
Prerequisite: THEO 330, or its equivalent with permission of the Department. The sharing of religious values through spoken word, scriptures, iconic representation. The use of ritual and symbolic communication in sacramental actions, especially in baptism and eucharist. The possibility of transcultural sharing amid cultural diversity.

THEO 438  Eschatology  (3 credits)
Prerequisite: THEO 330 or equivalent with permission of the Department. The interface of Biblical, theological, and scientific data on history, time, death, immortality and the understanding they cast on the ultimate destiny of human beings.

THEO 440  Theology of the Church  (3 credits)

THEO 442  Christology  (3 credits)
Prerequisite: THEO 330, or equivalent with permission of the Department. The Christian understanding...
THEO 446 Scripture and Theology (3 credits)
Prerequisite: THEO 300, or THEO 310, or THEO 330, or the equivalent with permission of the Department. The role played by scriptural interpretation in the formation of theological doctrines from the earliest period of Christian tradition to current time.

THEO 452 Bio-Ethics (3 credits)
Prerequisite: THEO 350, or equivalent with the permission of the Department or credit in health sciences. A study of the moral aspects of human genetics, experimentation on human beings, behaviour control, health care, death and dying. Those issues of biomedical practices, institutions, and policy-making processes that involve religious values and principles.

NOTE: Students who have received credit for THEO 453, THEO 454 may not take this course for credit.

THEO 455 Social Ethics (3 credits)
Prerequisite: THEO 350, or its equivalent with permission of the Department. The relation between social sciences and social ethics. Major social ethical practices and discourses of the Christian churches. New approaches to social ethics.

THEO 458 The Ethics of Human Sexuality (3 credits)
Prerequisite: THEO 350, or its equivalent with permission of the Department. Ethical and theological interpretations of human sexuality in the light of developing insights from the behavioural sciences.

THEO 493 Honours Theology Seminar I (3 credits)
Prerequisite: Permission of the Department. The topics of the seminar vary from year to year. The seminars focus upon an oral presentation by each student.

THEO 494 Honours Theology Seminar II (3 credits)
Prerequisite: Successful completion of THEO 493 and permission of the Department. See THEO 493 above.

THEO 498 Advanced Topics in Theology (3 credits)

THEO 499 Advanced Topics in Theology (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Urban Studies is an interdisciplinary programme, linking core URBS courses with others in Sociology, Political Science, Economics and Geography, to introduce the student to a wide range of approaches to understanding and guiding today's urban environment. Together with field-work assignments, the programme provides the necessary background for either postgraduate studies or working directly in fields dealing with functions or processes affecting urban and/or regional development and change.

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

Students should consult with the Programme Coordinator prior to registering for Urban Studies courses. Students exempted from any required courses must replace them with others that are relevant to the programme, chosen in consultation with the Programme Coordinator.

For the following programmes URBS 280\(^6\) may serve as a prerequisite for courses in Urban Sociology, Urban Geography and Urban Politics.

URBS 253  Environmental Issues I  (3 credits)
The scientific, social and cultural implications of human-environment relationships. Emphasis is placed on pollution, conservation, population, resources and human ecology.
NOTE: Students who have received credit for INTE 253 or SCHA 253 may not take this course for credit.

URBS 254  Environmental Issues II  (3 credits)
A continuation of URBS 253. This course may be taken independently.
NOTE: Students who have received credit for INTE 254 or SCHA 254 may not take this course for credit.

URBS 280  Urban Development  (6 credits)
An introductory course in Urban Development using an interdisciplinary approach to the process of urbanization, the city as a social system, the city as an economic system and the built environment.
NOTE: Students who have received credit for INTE 280 may not take this course for credit.

URBS 259 (also given as HIST 379) Urban Planning in Historical Perspective  (3 credits)
A broad frame of reference is developed by using both evolutionary and archetypal approaches to elucidate both long- and short-term historical perspectives. The evolutionary concept is used to explore the relationship between recent Canadian, American and British planning experience. In contrast, plan form and planning style are shown as dynamic systems of archetypes, responding over time to shifting cultural preoccupations and world views.
NOTE: Students who have received credit for INTE 390, URBS 380 or HIST 380 may not take this course for credit.

URBS 382  Legal Aspects of Urban Planning  (3 credits)
An overview of the legal aspects of land use planning, including zoning, conservation and restoration of historic enclaves and older neighbourhoods, environmental protection and related issues, in the context of legislation and jurisprudence in Quebec and Canada since the beginning of the twentieth century.
NOTE: Students who have received credit for INTE 390, URBS 380 or HIST 380 may not take this course for credit.

URBS 383  Applied Urban Geography--Urban Design  (6 credits)
Prerequisite: GEOG 331, or permission of the Coordinator. An applied course in urban design and land use planning. An overview of current theory and practice is balanced, during the second term, by studio-planning projects emphasizing a team approach.
NOTE: Students who have received credit for GEOG 401 or INTE 480 or GEOG 433 may not take this course for credit.

URBS 481  Seminar in Urban Studies I  (6 credits)
Seminar limited to second and third year students in the Urban Studies programme. An advanced seminar on the urban phenomenon as it occurs in the Canadian context. It explores relevant urban issues and seeks the development of urban policy positions. Students are asked to prepare and submit appropriate research policy papers.
NOTE: Students who have received credit for INTE 481 may not take this course for credit.

URBS 483  Seminar in Urban Studies II  (3 credits)
Prerequisite: URBS 481 and permission of the Coordinator. Students complete a field assignment in an urban activity area. The seminar allows students to discuss, with each other and the professor, their experiences and problems encountered during the field assignment.
NOTE: Students who have received credit for URBS 482 or INTE 482 may not take this course for credit.

URBS 484  Seminar in Urban Studies III  (3 credits)
Prerequisite: URBS 481 and permission of the Coordinator. Students complete a field assignment in an urban activity area. The seminar allows students to discuss, with each other and the professor, their experiences and problems encountered during the field assignment.
NOTE: Students who have received credit for URBS 482 or INTE 482 may not take this course for credit.

URBS 485  Special Problems in Planning Practice  (3 credits)
This course deals with equivocal planning issues related to the conflict between growth and change and the need to maintain community and environmental stability. Subjects examined may include gentrification, public housing, women and the city, and planning in harmony with nature. Particular attention is paid to questions of professional discretion and potential influence raised by such issues.
NOTE: This course is limited to Urban Studies students who have completed 30 Urban Studies credits.

URBS 486  Planning Major Public and Quasi-Public Capital Investments  (3 credits)
Site selection and planning of major facilities and infrastructure is based on skilful compromise. The acquisition of this skill is the function of this course. Techniques for the planning and evaluation of these capital investments are investigated in the light of planning goals, principles, performance criteria, funds, timing and public participation. Alternative sites are sought and evaluated.

URBAN STUDIES
The Department of Computer Science offers a Minor in Computer Science available to students in the Faculty of Arts and Science. For further details of this programme, see §71.80.5.
The Faculty of Arts and Science is the largest Faculty in the University. In order to combat the depersonalization so often found in a large Faculty, the Faculty of Arts and Science has created smaller, more manageable units offering a personalized approach to education. At present, there are seven such units in existence: Institute for Co-operative Education, Liberal Arts College, Lonergan University College, School of Community and Public Affairs, Science College, and Simone de Beauvoir Institute. Each college, centre, school or institute is composed of a group of students and Fellows who are united by a particular philosophy of education.

Each unit operates in much the same fashion. Normally a student admitted to the University will enroll in a specific Department-based programme— a Major, Specialization, or Honours. Students in the Liberal Arts College may, however, elect to enroll in the College Major in Western Society and Culture instead of in a Departmental programme. Similarly, students in the Simone de Beauvoir Institute may enroll in a Major programme in Women's Studies. Students attracted by the particular educational opportunities offered by one of the units will apply to the unit in question. Once admitted to the College, Institute, School, or Centre of their choice, students may benefit from the academic curriculum, the extra-curricular activities, and social and intellectual environment provided in each of these units. It is the goal of these units to assist students to broaden their specialized disciplinary education with carefully chosen electives, with specially designed tutorials, and with career-oriented advising, all set in a more personal and friendly "university college" environment.

Each unit has a physical location of its own, where its students may gather to exchange ideas, whether in the classroom or in one of the lounges provided for such interaction. As well, there is a library of basic books and periodical literature. From time to time, there will be planned activities, special-interest seminars, and stimulating lectures by invited guest speakers.

Each unit has a group of faculty members from within the University assigned as Fellows or Tutors, whose major function will be to act as student advisers. Together, students and Fellows or Tutors plan a carefully integrated undergraduate programme based on the philosophy of education promoted.

The advantage of this approach to education is that students may utilize the resources of a large Arts and Science Faculty, yet still enjoy the effective interchange of ideas that only a small unit can provide.
The University offers programmes in the co-operative format in the Departments of Chemistry and Biochemistry, Economics, Exercise Science, Mathematics and Statistics, and Physics in the Faculty of Arts and Science, and in the Centre for Building Studies and the Department of Computer Science in the Faculty of Engineering and Computer Science.

Co-operative programmes in the Faculty of Arts and Science are open to students who are enrolled in many of the Honours and Specialization programmes offered by the above departments.

As it becomes feasible the University may consider offering other disciplines in the co-op format.

The Co-op Philosophy

Co-operative education is an educational process in which academic study terms are alternated with work terms in industry, giving students practical on-the-job experience in the area of their choice while continuing their studies towards a degree.

Essentially, it is a system that integrates the interests of employer organizations, educators and students towards the attainment of common goals.

Although the potential rewards from completion of an academic programme in the co-op format are great, students should keep in mind that this format is extremely demanding with its alternating academic and work terms.

Admission to Co-op

General criteria for admission to the co-op format are given below. However, it should be noted that, in the Faculty of Arts and Science, only Honours and Specialization programmes are offered in that format by the specified department.

Applicants legally eligible to work in the public and private sectors who wish to undertake their studies in the co-op format should so indicate by filling in the appropriate box on the University Admissions Form. Such applicants may be asked to submit a résumé of past work experience and a statement of the reasons for their interest in the co-op format. Students accepted to the programme will be assigned a co-op adviser from within their academic department.

Co-op Fee

Students should note that a co-op fee was instituted by the Board of Governors in December 1985 to cover in part the administrative costs particular to the co-op programme. This fee is currently one hundred and fifty dollars ($150.00) per term and is charged for the second to penultimate terms inclusive. Students requiring less than the normal number of terms to complete their programmes in the co-op format are subject to the same total fee as those requiring the normal number of terms.

Co-op fees are due one month before the first day of eligible terms and are not refundable after the first day of the third month of the term, i.e., March 1, July 1 and November 1.

Co-op Performance Requirements

Students permitted to undertake their studies in the co-op format enrol as regular undergraduates in their programme and are subject to its academic regulations. However, higher performance standards are often required to continue in the co-op format.

Students undertaking the co-op format in a programme offered by the Faculty of Arts and Science are normally required to maintain a GPA of 2.5, and normally with no grade lower than a "D" in any course, elective or required. Students registered in Honours programmes must meet the Faculty Honours programme academic requirements.
Performance requirements for co-op students registered in a programme offered by the Faculty of Engineering and Computer Science are given in §71.10.7.

The evaluation of each of the four required work terms will be based on the submission of a work-term report by the student and the evaluation of the student's performance by the employer. The student must successfully complete both components to be considered as having passed the work term which is marked on a pass/fail basis. The work-term reports are not considered for degree credits and are normally graded by at least two faculty members unless the report is considered confidential by the employer. In such cases the employer is responsible for the grading.

Failure to meet the co-op academic requirements or failure to successfully complete a work term will normally result in the dismissal of the student from the Institute for Co-operative Education.

**Work Term**

Co-operative education at Concordia is not to be construed as a placement operation or an inexpensive labour apprenticeship. The work term is an essential part of the student's learning experience and there is to be equitable remuneration paid for work performed. The University is responsible for negotiating work terms with employers who provide job descriptions to the Institute for Co-operative Education. The procedures for matching students to employers are managed by the Institute. A Co-op Co-ordinator visits the students at their place of work to evaluate the work performance, gauge the learning opportunities, assess the compatibility of student and employer and, if necessary, take corrective action. It should be noted that the University does not guarantee each student a job.

**Advantages of a Co-op Education**

Training in theory and practice in a structured and purposeful manner allows the student to come to terms with the realities of professional practice in a way that allows for the development of self-confidence, self-reliance and self-motivation. From the work terms, students learn to accept responsibility and the importance of deadlines. Realistic career expectations may be more easily formed. In the Institute, besides technical knowledge and practical experience, students gain skills in interpersonal relations through participation in seminars, workshops, talks and social activities.

Employers benefit as well. The employer who agrees to co-operate with the Institute benefits from the opportunity to evaluate prospective personnel without making permanent employment commitments and from the availability of students on a year-round basis. In recruiting permanent employees, they have available to them trained graduates who can be slotted into an operation without a training period. These advantages are seen as rewards in terms of lower turnover in trained personnel as the co-op graduates know their goals. Hence the economic return is one of much lower recruiting costs for experienced staff. The collaboration between employers and faculty provides an opportunity for employers to contribute to the educational process and to gain clearer insights into the University's resources.

**UNDERGRADUATE PROGRAMMES**

Co-op programmes offered in the Faculty of Arts and Science:

**Chemistry and Biochemistry Co-op**

Director: Dr. R.H. Zienius, (514) 848-3352

The Chemistry and Biochemistry co-operative programme is offered to students who are enrolled in the BSc Honours or Specialization in Chemistry, Specialization in Biochemistry, Specialization in Analytical Chemistry or Specialization in Synthetic Materials.

Students in Chemistry and Biochemistry co-op take the regular academic programme; however, in the work terms the employment opportunities range among a wide variety of industrial and government agencies located throughout Canada. Students are encouraged to choose their work-term positions in a way which provides them with experience ranging from basic analysis in industrial processes and environmental control to senior research placements in the laboratories of various employers. For specific details concerning the curriculum please see Section 31.050.

**Economics Co-op**

Director: Prof. M. Armstrong, (514) 848-3920

The Economics co-operative programme enables students to complete a BA Honours or Specialization in Economics. The academic content of the Economics co-op programmes is identical to the regular programme; however, the required work terms provide the co-op student with the unique opportunity of experiencing economics in an applied format. Because of the course choices available, an Economics co-op student is prepared to undertake employment during his or her work terms in a variety of public sectors including Provincial and Federal Government agencies. Private sector positions might include placements in banks, consulting firms, or planning departments in a variety of industries. For specific details concerning the curriculum please see Section 31.080.

**Exercise Science Co-op**

Director: Dr. E.F. Enos, (514) 848-4824

The Exercise Science co-operative programme is offered to students who are enrolled in the Community Fitness Science Option of the Specialization programme.
The academic content of the Exercise Science co-op programme is identical to the regular programme, with the exception of the six credit practicum requirement. Students will select an additional six credits from a list of possible choices.

The required work terms provide Exercise Science co-op students with the opportunity to work in a variety of fitness-oriented experiences including such areas as private and commercially operated fitness classes and health spas, corporate fitness and lifestyle programmes, municipal recreation programmes, YM-YWCA and senior citizen agencies. For specific details concerning the curriculum please see Section 31.120.

Mathematics and Statistics Co-op
Director: Dr. M. Belinsky, (514) 848-3228

The Mathematics and Statistics co-operative programme allows students to complete the BA or BSc degrees with Honours or Specialization in Mathematics, Applied Mathematics, Statistics or Actuarial Mathematics. The academic content of the Mathematics and Statistics co-op programmes is identical to the regular programmes.

Work terms provide co-op students with the opportunity to gain practical experience with a variety of employers, such as insurance companies, consulting firms, large Canadian corporations, government departments, and research establishments. For specific details concerning the curriculum please see Section 31.200.

Physics Co-op
Director: Dr. J. MacKinnon, (514) 848-3277

The Physics co-operative programme is available to students in the BSc Specialization in Physics. The academic content is identical to the regular programme. It is important to include electronics and computer oriented courses in the first two semesters to help the student prepare for the first work period. While it is hoped that most of the positions will be in the Montreal area, students must be prepared to work in other parts of Canada. For specific details concerning the curriculum please see Section 31.230.

Co-op programmes offered in the Faculty of Engineering and Computer Science:

Building Engineering Co-op
Director: Prof. C. Marsh, (514) 848-3196

The Building Engineering programme is offered in the co-op format to selected students pursuing undergraduate studies leading to the degree of BEng (Building). Please refer to Sections 71.10.7 and 71.30 for specific information on programme and performance requirements.

Computer Science Co-op
Director: Prof. G. Martin, (514) 848-3045

All options in the Computer Science programme are offered in the co-op format to selected students enrolled in the BCompSc programme. Please refer to Sections 71.10.7 and 71.80 for specific information on programme and performance requirements.

CO-OP SCHEDULE

Activity flow-chart for students undertaking their programmes in the co-op format.

<table>
<thead>
<tr>
<th>YEAR</th>
<th>FALL</th>
<th>WINTER</th>
<th>SUMMER</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>1st Campus Term</td>
<td>2nd Campus Term</td>
<td>Work Term I</td>
</tr>
<tr>
<td>2</td>
<td>3rd Campus Term</td>
<td>Work Term II</td>
<td>4th Campus Term</td>
</tr>
<tr>
<td>3</td>
<td>Work Term III</td>
<td>5th Campus Term</td>
<td>Work Term IV</td>
</tr>
<tr>
<td>4</td>
<td>6th Campus Term</td>
<td>7th Campus Term*</td>
<td></td>
</tr>
</tbody>
</table>

*The 7th Campus Term applies to the BEng programme only.

NOTE 1: The above activity flow-chart is for students admitted into the co-op format in the Fall term of the first year of their academic programme. However, students may be admitted at the start of its Winter term, following their September entry, with special permission. All are required to register as full-time students, and they must plan their studies to give a reasonable division of the total credits required for their degree between the specified number of campus terms. Students eligible to apply for NSERC grants should note that they must take at least 15 credits per term to be considered.
NOTE 2: The Work Term negotiated with the employer is for a minimum of fourteen weeks. Extension beyond this period, to a maximum of seventeen weeks, is at the sole discretion of the employer. To complete the requirements of each work term, a student's work-term report must be assessed as "pass" in accordance with the procedure specified under "Co-op Performance Requirements".

Contacts at the Institute

Dr. G.J. Trudel, Principal
(514) 848-3951

Mr. J. Fiset, Assistant Principal
(514) 848-3952

Co-ordinators:

Ms. M. Paradiso, Math Co-op
(514) 848-3229

Ms. M.F. Sampson, Exercise Science Co-op
(514) 848-3318

Secretary:

Ms. M. Wilson
(514) 848-3953
Liberal Arts College provides students with a broad, demanding educational foundation in the liberal arts. Its curriculum is an alternative for students dissatisfied with premature specialization and fragmentation of knowledge. Defining the "liberal arts" in contemporary terms, the College stresses work in a Core Curriculum of related courses, seminars, and tutorials in the humanities, social sciences, art, music, and science. Its core courses stress the acquisition of basic knowledge and research and writing skills, as well as an awareness of interpretative problems and advanced analytic approaches. The Core Curriculum, in turn, makes for informed choices in the College's second major component, advanced work and research in a specific discipline or area.

Objectives
The major goal of Liberal Arts College is to assist the student in the process of becoming an educated person. The College seeks to translate into modern idioms the traditional vision of education as a preparation for life. Its core courses and seminars, sharing a common concern with the changing nature of society and culture, aim at the development of an informed critical consciousness. Emphasis is also placed on sharpening the basic expressive and analytic tools indispensable to social and cultural understanding. All College students are expected to present, or to acquire, a knowledge of a second language (normally, French), necessary for their research, and to write and to express themselves clearly. Training in research techniques is stressed, and original, independent work encouraged.

Liberal Arts College, linking demanding general education to significant specialization, is committed to serious intellectual work. Through its curriculum, staff, standards, and academic environment, it hopes to communicate the excitement and creativity of such engagement to its students.

Liberal Arts College Admissions and Programme Requirements
Students admitted to the University and seeking to enter the College must have a "B" average from CEGEP, or its equivalent. All students upon admission must demonstrate proficiency in English composition and a second language, or undertake necessary make-up work. All applicants should apply through the University Admissions Office; they should also call or write the College for an interview. Mature students are admitted to the College on the basis of an interview and an examination of their record. Full-time degree candidates will normally complete their College Core Curriculum within three academic years; part-time degree candidates should complete their College Core Curriculum within six academic years. Students who have been admitted to departmental Honours programmes must maintain a "B" average in their College Core Curriculum; all others must maintain a "C" average in their College Core Curriculum. All Honours students in the College are expected to undertake significant original work, on a staff-guided basis, in their final year.

*Les étudiant-e-s francophones devront donner la preuve de leur connaissance de la langue anglaise.

Staff
Faculty Fellows chosen from the University's departments form the staff of all College courses, seminars, and tutorials. Teaching Fellows are resident in the College, as is its Principal, who also teaches in the Core Curriculum. It is intended that, each year, a Distinguished Visiting Fellow, selected on the basis of outstanding academic achievement and renown, will be resident and will teach in the College.
Facilities
Liberal Arts College is located on Concordia University's downtown Sir George Williams Campus. Much of its seminar and tutorial teaching is done in the same building that houses the College's Principal and Core Fellows. The College has student study areas, a course-materials library, and audiovisual facilities, as well as Commons Rooms and a collection of important newspapers, journals, and periodicals. The College is the focus of an extra-curricular programme of visiting speakers and cultural events, and is a place where the exchange of ideas and views generated in courses and seminars continues on a more informal basis.

Counselling
Close student-faculty contact and exchange is part of the Liberal Arts College's stress on serious intellectual work. Each student is assigned to a faculty Fellow who acts as a personal adviser, and who follows the student's progress through the College, advising on the choice of disciplinary or area specialization. A student's work is evaluated annually by the Principal and Fellows.

College Council
Council, composed of Fellows and students, is the formal decision-making body of Liberal Arts College. It meets regularly, chaired by the Principal, as a forum in which current issues and future policy are discussed and decisions taken. Council is that body which ensures the democratic participation of all members of the College in its on-going academic and extra-curricular work.

Programmes
All Liberal Arts College students must take the Core Curriculum. These inter-related courses, including seminar and tutorial work, as well as the final-year Integrative Seminar, constitute a significant segment of the course work required for College-sponsored BA programmes. Liberal Arts College stresses Honours work, although a student may, with the permission of the College, combine the Core Curriculum with a departmental Specialization or Majors programme, or with the Individual Studies Programmes. Selected students may, with College permission, be admitted to the College's BA Major in Western Society and Culture.

42 BA Major in Western Society and Culture
Stage I
18 LBCL 291, 292, 293
Stage II
12 Chosen from LBCL 391, 392, 393
Stage III
6 LBCL 490
6 Chosen from LBCL 391, 392, 393

In addition to completing the Core Curriculum, students must meet the Faculty of Arts and Science degree requirements and complete a departmental Major, Specialization, or Honours programme, or the Individual Studies Programme or the Major in L.A.C. Western Society and Culture.

The Core Curriculum may also be applied towards Specialization or Honours work in the Individual Studies Programme. (See §31.170 of this calendar).

All College students must consult with a College adviser before selecting courses in other disciplines or fields. Generally, courses in the Liberal Arts College are open only to members of the College.

Honours candidates must maintain a "B" average in their College courses, with no grade lower than a "C". Students in a Major or Specialization programme must maintain a "C" average in their College courses, with no grade lower than a "D".

42 BA Major in Western Society and Culture
Stage I
18 LBCL 291, 292, 293
Stage II
12 Chosen from LBCL 391, 392, 393
Stage III
6 Chosen from LBCL 391, 392, 393
6 LBCL 490

The College advises students who are enrolled in the BA Major in Western Society and Culture to take, in addition, some form of concentrated study (Major, Minor, etc.) within a single department or field of study.

Further information on core courses and College programmes generally may be obtained either by writing for the Liberal Arts College Informational Brochure or by calling the Liberal Arts College, Concordia University, 1455 de Maisonneuve Blvd. W., Montreal, Quebec, H3G 1M8, tel: 848-2565. Personal interviews with a Fellow of Liberal Arts College may be arranged through the Secretary.

Admission into a Departmental Honours Programme requires the approval of the Department.

Students seeking admission to a Departmental Honours Programme will be bound by the Honours requirements outlined in §16.2.4 of this calendar.

COURSES

LBCL 291 Structure and Dynamics of Western Civilization (6 credits)
Prerequisite: Registration in the Liberal Arts College, or permission of the College. A study of the changing relations between productive structures, socio-political institutions and cultural traditions from antiquity to the present. This course emphasizes the analysis of social change over time, and requires reading in a variety of primary sources and secondary materials. Primary sources such as Aristotle's Politics, Aquinas' Summa Theologica, and Rousseau's Social Contract, and works such as Marc Bloch's Feudal Society, and Eric Hobsbawn's Age of Revolutions are read.
LBCL 292  **Modes of Expression and Interpretation I**  (6 credits)
Prerequisite: Registration in the Liberal Arts College, or permission of the College. A survey of Western literary traditions with attention to their philosophical and historical context. Texts are chosen from the classical period through the eighteenth century, and emphasis is placed on the development of skills of writing and interpretative analysis. Works such as Homer's *Odyssey*, Plato's *Symposium*, Milton's *Paradise Lost* and Dante's *Divine Comedy* are studied.

LBCL 293  **History of Art and Music**  (6 credits)
Prerequisite: Registration in the Liberal Arts College, or permission of the College. An integrated course in the nature and development of music and the visual arts, with work in critical theories and theories of art history. The course examines artistic and musical expression through thematic and chronological approaches, with particular attention to the relation of art to society. Slide viewing, museum visits, and music listening are part of the course.

LBCL 298  **Liberal Arts College Selected Topics**  (3 credits)

LBCL 299  **Liberal Arts College Selected Topics**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

LBCL 391  **Contemporary Civilization**  (6 credits)
Prerequisite: LBCL 291; LBCL 292; LBCL 293 or permission of the College. Analysis is brought to bear on the economic, political and ideological dimensions of the relations between individual, state and society during the period since the French and Industrial Revolutions. Special attention is devoted to the perspectives of Hegel, Marx, Weber and Freud.

LBCL 392  **The Sciences in Society**  (6 credits)
Prerequisite: LBCL 291; LBCL 292; LBCL 293, or permission of the College. An introduction to the nature, development, organization, and social consequences of the scientific enterprise. Issues in the philosophy, sociology, and history of science, as well as in the relation of technology to science and to society, are emphasized. Works such as E.R. Dodds, *The Greeks and the Irrational*, T.S. Kuhn, *The Structure of Scientific Revolutions*, and R.K. Merton’s *Science, Technology and Society*, are read, as well as a number of original sources such as Aristotle’s *Physics*, Bacon’s *The New Organon* and Darwin’s *Origin of Species*.

LBCL 393  **Modes of Expression and Interpretation II**  (6 credits)
Prerequisite: LBCL 291; LBCL 292; LBCL 293 or permission of the College. An advanced seminar emphasising intensive analysis of a limited number of fundamentally important literary and philosophical works. The course covers such movements as Romanticism, Realism, Symbolism, Modernism, and Postmodernism, through a study of texts including *Faust*, *Frankenstein*, *Madame Bovary*, *Moby Dick*, *Ulysses*, and *Waiting for Godot*.

LBCL 398  **Liberal Arts College Selected Topics**  (3 credits)

LBCL 399  **Liberal Arts College Selected Topics**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

LBCL 490  **Integrative Seminar**  (6 credits)
Prerequisite: Two of LBCL 391, 392, 393, or permission of the College. The College research seminar relates the student’s disciplinary or area specialization to the general perspectives of the Liberal Arts College Core Curriculum. The seminar topic varies from year to year, and students are required to produce a significant research paper.

NOTE: With the permission of the College students may take this course a second time for credit provided that the subject matter is different, and will register under LBCL 491.

LBCL 491  **Integrative Seminar**  (6 credits)
Prerequisite: Permission of the College. Students who have received credit for LBCL 490 may register for LBCL 491 provided the subject matter is different.

LBCL 498  **Liberal Arts College Advanced Topics**  (3 credits)

LBCL 499  **Liberal Arts College Advanced Topics**  (6 credits)
Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
Lonergan University College is named in honour of Dr. Bernard F. Lonergan, a former student, and later a professor of Loyola College, Montreal. Dr. Lonergan’s work has been recognized throughout the world and is the subject of several hundred books and dissertations. Recently, an international Journal of Lonergan Studies has been initiated in the United States.

General Philosophy

Lonergan University College exists for those of us, both students and professors, who believe in an education beyond the current tradition of depersonalized and compartmentalized knowledge. Lonergan students maintain a regular department-based programme of studies. At the same time, however, they share with others the dynamics of human enquiry that transcends the narrowness of disciplinary methodologies. The unique educational experience at Lonergan can be approached by two questions: what is it that we study and how do we accomplish such a study?

Inquiry into “Value”

The Fellows of Lonergan University College are convinced that the deepest issues of life are implicitly involved in all the academic disciplines, and that both honesty and sanity demand that we attend to this fact and reflect upon it.

The subject matter chosen for the College Seminar (LUCC 399) serves as a focus for each year’s activity. There are no limits to the choice of a particular thinker except that he or she be considered as among the foremost in shaping western civilization. In each choice, however, the scholarship is clearly concerned with values: they may be values centred on the question “should it be done?” as opposed to “can it be done?”; they may be values so entrenched in fundamental assumptions as to appear self-evident and beyond argument; or they may be values considered by some to be ultimate and beyond rational understanding. In each case, the value systems are exposed and critically analyzed, allowing the individual to come to his or her own conclusions.

Method

The College has adopted an educational strategy which is interdisciplinary and empirical. This strategy is interdisciplinary and multi-disciplinary because central and ultimate issues of human life are involved in all disciplines; yet many of these issues overlap the traditional boundaries of knowledge and must be analyzed without the dominance of any one perspective.
This strategy is empirical in the sense that all knowing begins with enquiry about experience of the world and of ourselves as subjects. Resulting judgement of truth and value must be verified through a methodologically precise appeal to this experience. Following this strategy, Lonergan students use their departmental study as a resource to be shared and extended by working with students and fellows from other departments on a common intellectual project as determined by one of the Lonergan courses.

The work and method of Bernard Lonergan are studied by many of our students. His influence is reflected in the concept of education at the College whether or not students choose to study his work explicitly.

The Style of the College

Lonergan University College offers its students all the resources of Concordia University. Lonergan students take a regular degree programme in the department of their choice on either of the two campuses of Concordia University. Moreover, the College aims to contribute to a style of life which will heighten intellectual experience and enrich personal growth during the student's university years. It does this, not by claiming to "raise standards", but rather by demanding that its students relate what they learn to their personal lives and deeper values.

A university is the place where the universe should be discussed and intellectually appropriated. Conversation, as much as courses or research, is at the heart of university life. It is precisely this aspect of university life that has been undermined in this century by the incredible growth in knowledge itself, and by the proliferation of specialities. What universal knowledge is now possible? What do students have in common to discuss?

Lonergan University College believes that there is something in common to be discussed, and dedicates its resources to assure the depth and vitality of that discussion. It involves all its members, both students and Fellows, in structured conversation that will grow in breadth and meaning through the three years of a student's university career.

Membership

1. Students usually join the College on a continuous basis by undertaking the College Programme outlined below. This commitment constitutes full membership in the College, and it may be made when the student is first admitted to the College or at a later date. Full members are assigned an academic adviser though they may wish to seek counselling from any of the Fellows should they so wish.

2. Concordia students may also join the College on a yearly basis by registering in one of the College Seminars. Annual membership entitles students to use the College lounges and facilities and to participate in the social activities of the College.

3. Students who complete the Programme will be graduated officially as Lonergan students and will have this fact noted on their transcripts.

Academic Programme

1) Most distinctive in the College Programme is the unique opportunity for students and Fellows to participate each year in a College Seminar.

2) The Lonergan curriculum may be described as a programme of general education, which focuses on "value". Such a study, which is both interdisciplinary and integrative in nature, is designed to complement the student's regular programme of specialized education.

3) Students must meet the degree requirements of the Faculty of Arts and Science, and complete either a departmental or interdisciplinary Major, Specialization or Honours programme.

4) The Lonergan Programme consists of 24 credits outside the above Major, Specialization or Honours. These 24 credits may be taken as follows:

   I) College Seminars (18 credits)
      a) These credits may be amassed over 3 or more years by a succession of 6-credit and/or 3-credit seminars.
      b) Students who are admitted to the College after completing 30 credits at Concordia will be required to complete only 12 credits in College Seminars.

   II) College courses (6 credits)
      a) These courses must be selected in consultation with the student's academic adviser in the College. They may be taken in College Courses listed below, or else from the list of Lonergan-approved electives established each year by the College Curriculum Committee.
      b) Late entrants to the College who have been exempted from seminar credits under I b) above, may complete their general requirements of 24 credits by substituting additional College courses or Lonergan-approved elective courses.

College Facilities and Activities

The College is situated on the Loyola Campus of Concordia University; at 7302 Sherbrooke Street West. The College is governed by a set of by-laws, and by a College Council composed of students and Fellows.
The central activity of the College is its weekly seminar. The seminar focuses each year on the work of a major thinker, one who has decisively influenced our culture for good or for evil. The topic will change each year, but the depth of human integration and social awareness of the authors we choose ensures continuity in our discussion. As participants in the seminar are competent in diverse academic disciplines, an understanding of the topic develops which on the one hand does justice to the diversity of contemporary awareness, and on the other demands levels of understanding which transcend technical jargon. An internationally recognized scholar will be invited to come to Lonergan University College as the “Distinguished Visiting Scholar”, to lead the College Seminar. The Visiting Scholar will also give university lectures and public addresses, as seem appropriate.

Each student of Lonergan University College joins with a small number of others to form a seminar group. College Fellows will direct the group and be available for academic advising to students. These groups will meet for two hours every week.

Students and Fellows will be encouraged to share in College government, to participate in College events, and, in various ways, to make the College the centre of their lives at the University.

The College offers a comfortable lounge, a specialized library, and several quiet rooms for study. It also has a research centre for Lonergan studies with a complete set of manuscripts, and of published works.

Admissions and Applications

Students seeking admission to the College should fill in the appropriate section (Box D) of the University Admissions Application form. Interested students may also contact the College directly by telephoning 648-2280, or by coming to the College, 7302 Sherbrooke Street West (corner of Sherbrooke and West Broadway Avenue), or else by writing to the College at the following address: 7141 Sherbrooke Street West, Montreal, Quebec, H4B 1R6. Each candidate for admission will be invited to an interview with one of the College Fellows.

COURSES

LUC 200  **The Creative Experience of Understanding**  (6 credits)
This course deals with questions such as how ideas develop, what it means to understand and how human knowing is creative. Once aware of the creative process in their own thinking, students are helped to recognize its presence in the diverse kinds of thinking represented in such major thinkers as studied in the Lonergan University College interdisciplinary seminar (LUC 399).

LUC 398  **Special College Seminar**  (3 credits)
Students who for good reason cannot follow the regular College Seminar (LUC 399) meet every second week for two semesters or every week for one semester, under the direction of a College Fellow. The same text is read as in the regular seminar, and the discussion has the same aim.

LUC 399  **Lonergan College Seminar**  (6 credits)
A different work is selected by the College Council each year from among those classics which have shaped our civilization. In the past the following were selected: Bernard Lonergan, Carl Jung, Northrop Frye, Niccolo Machiavelli, Teresa of Avila, Charles Darwin, Sigmund Freud, and Dante. The seminar meets each week through two semesters, to read segments of the work in appropriate intellectual contexts, and to move eventually to a personal, value-oriented, dialectic with the work. One week the Fellows discuss with the Visiting Scholar with limited student participation. The following week students meet in small groups with individual Fellows to deepen and broaden discussion.

LUC 400  **Generalized Empirical Methods**  (3 credits)
This course engages students in the task of integrating their university discipline into the more general enterprise of human knowing and deciding. Students reflect on their personal experience of knowing and deciding, and attempt to objectify this experience with the aid of a basic study of generalized empirical methodology. The text is selected from the works of Bernard Lonergan or of other comparable theorists.

LUC 410  **Introduction to the Works of Bernard Lonergan**  (3 credits)
A selection of Lonergan’s works is read and discussed.

LUC 498  **Lonergan University College Selected Problems**  (3 credits)
Prerequisite: 60 credits; 12 credits from LUC 398 or LUC 399; and permission of the Principal. Courses offered under this title investigate appropriate problems in the Humanities, Social Sciences and Natural Sciences from an interdisciplinary perspective.

LUC 499  **Lonergan University College Selected Topics**  (6 credits)
Prerequisite: 60 credits; 12 credits from LUC 398 or LUC 399; and permission of the Principal. Courses offered under this title investigate appropriate topics in the Humanities, Social Sciences and Natural Sciences from an interdisciplinary perspective.
SCHOOL OF COMMUNITY AND PUBLIC AFFAIRS

31.540 School of Community and Public Affairs

Principal
D. SHAPIRO, Associate Professor, Economics

Vice-Principal
M. MENDELL, Assistant Professor, Political Science

Fellows
G. CARR, Assistant Professor, History
H.R. CHORNEY, Associate Professor, Political Science
W.O. GILSDORF, Associate Professor, Communication Studies
A.B. GOLLNER, Associate Professor, Political Science
H. GUINDON, Professor, Sociology and Anthropology
G. LACHAPELLE, Assistant Professor, Political Science

Objectives of the School
The School of Community and Public Affairs (SCPA) offers students multi-disciplinary training in policy analysis and policy advocacy. The objective of the School is to prepare students to be intelligent participants in the policy process at either the community, corporate or government levels. Through an innovative combination of academic and practical training, we seek to produce graduates who are sensitive to a broad range of public issues.

Specialists in community and public affairs are engaged in the policy arena. They share in common the ability to research, analyze, communicate and organize. They are employed as public affairs specialists in corporations; public policy analysts in government and non-government organizations; journalists; and consultants to community groups, unions, firms, and political parties.

Students in the School will benefit from a unique programme with the following components:
1. an internship within which students will receive credit for work in a public-affairs-related job;
2. a bilingual environment;
3. a unique curriculum which combines specialization in a discipline with multi-disciplinary seminars;
4. small classes emphasizing personal contact and group projects;
5. an environment which encourages participation and involvement.

The School will be of interest to excellent students in a variety of disciplines, including economics, history, political science, sociology, urban studies, journalism, communication studies, and business. While some of our students enter the work force upon completion of their undergraduate degree, the majority continue their education. SCPA graduates tend to do graduate work either in their disciplines or, more often, in professionally-oriented programmes including Public or Business Administration, International Affairs, Industrial Relations and Law.

The historic Mackay Street building which the School occupies is an ideal site for small classes, public lectures, social events and meetings. School facilities include a common room, a reading room and documentation centre, a seminar room, a computer room and faculty and student offices.

The School Programme
Students who enrol in the School of Community and Public Affairs will follow a programme composed of the following elements:

1. The Core Courses
(36 credits)

All students must take the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 201</td>
<td>Introduction to Microeconomics</td>
<td>3</td>
</tr>
<tr>
<td>ECON 203</td>
<td>Introduction to Macroeconomics</td>
<td>3</td>
</tr>
<tr>
<td>HIST 205</td>
<td>History of Canada, Post-Confederation</td>
<td>3</td>
</tr>
<tr>
<td>POLI 250</td>
<td>Canadian Government and Politics</td>
<td>6</td>
</tr>
<tr>
<td>SOCI 203</td>
<td>Introduction to Society</td>
<td>3</td>
</tr>
</tbody>
</table>
SCPA 300 Integrative Seminar (6 credits)
SCPA 401 Modular Seminar (3 credits)
SCPA 411 Internship (3 credits)
SCPA 412 Research Seminar (3 credits)

3 credits Chosen from SCPA 498, COMS 461, FRAN 312, MATH 207 (or equivalent), SOCI 353, MANA 266

NOTE: Students who take one or more of the required courses as part of their degree programme must replace the credits with a course chosen in consultation with the SCPA adviser. Under special circumstances, a student may replace one of the elective courses with a course chosen in consultation with the SCPA adviser.

2. The Disciplinary Programme

Members of the School of Community and Public Affairs must also pursue a departmental or interdisciplinary Honours, Specialization or Major programme.

Performance Requirement and Exemptions Policy

Students are required to maintain an average of B- in the Core courses of the School and an overall average of C. In addition, all members of the School are expected to participate in its operation. Where exemptions are granted for any of the Core courses, students are required to replace them with an equal number of credits chosen in consultation with the SCPA adviser.

Entrance Requirements

Students admitted to the University and seeking to enter the School must have achieved a “B” average, or the equivalent at the previous educational level. Students wishing to enter the School will be interviewed personally. In exceptional circumstances, a candidate who has failed to meet the grade requirement will be admitted on the basis of a personal evaluation of potential capacities, as against those realized in previous studies. Each student enrolled in the School will have to demonstrate a working knowledge of English and French.

For further information on curriculum, programmes, personnel, and objectives, please call the Principal, at 848-2575.

COURSES

SCPA 298 Selected Topics in Community and Public Affairs (3 credits)
SCPA 299 Selected Topics in Community and Public Affairs (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SCPA 300 Integrative Seminar (6 credits)

Prerequisite: Permission of the School of Community and Public Affairs. This course takes a multidisciplinary approach to the problems of decision-making and policy formulation, with particular attention paid to the complex interaction among groups and institutions in society. The course is designed to provide insights into the design, implementation and evaluation of policies. Special emphasis is placed on data and information analysis and communication skills. Topics covered include: the state and public policy; business, government and society; labour and unions; non-profit and community groups; interest groups and policy agendas; media and society; international institutions.

SCPA 398 Special Area Study in Community and Public Affairs (3 credits)
SCPA 399 Selected Topics in Community and Public Affairs (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

SCPA 401 Modular Seminar (3 credits)

Prerequisite: SCPA 300 and permission of the School of Community and Public Affairs. This seminar is normally taken by students in their second year. Under the direction of a Fellow, the Seminar consists of a series of “modules” of approximately 3 weeks’ duration. The modules are both skill and problem oriented and draw on the expertise of both academics and practising professionals drawn from public and private agencies. Topics vary from term to term, but focus on specific functions and areas in public affairs in order to equip students with a range of skills needed to pursue careers in the field.

SCPA 411 Internship (3 credits)

Prerequisite: Permission of the School of Community and Public Affairs. An essential part of the School’s programme is a one-semester apprenticeship in some aspect of community and public affairs. After completing 60 credits of the BA programme, including a significant portion of the School’s core, students are required to complete a practicum that will allow them to test their ideas in a real situation. Placements
may be drawn from all areas of possible employment, including the private sector, government and community service organizations. Students are expected to participate fully in finding and defining possible internships. Employers are asked to join in an evaluation of the work period. Students are required to submit a written report which summarizes and evaluates their work experience.

SCPA 412  Research Seminar  (3 credits)
Prerequisite: SCPA 411. Students who have completed their internship are required to define a set of problems, normally based on some aspect of their practical experience. They then define a policy agenda on which further research is undertaken. Working in groups, they organize a series of seminars relating to the policy agenda. These seminars are presented by academics and practising professionals and are open to all members of the School. In unusual circumstances, SCPA 412 may be taken concurrently with SCPA 411 with permission of the School.

SCPA 498  Advanced Seminar in Community and Public Affairs  (3 credits)

SCPA 499  Advanced Topics in Community and Public Affairs  (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
In Science College, students will gain an understanding of several areas of science, while specializing in whichever one they choose. Curricular structures frequently restrict students to a single discipline. To help counteract excessive specialization, the Science College has designed a series of courses to show what practising physicists think about physics; what mathematicians do when they are thinking mathematics; not "an introduction to", but "the state of the art".

The College provides an opportunity for students to become acquainted with science as practised and understood by scientists today. Its curriculum is planned to fulfill the primary goals of the College — to provide an opportunity for experience in a research environment, for thinking about the nature of science, and for becoming aware of the style and content of the various scientific disciplines.

In Science College, students have the opportunity to work individually with active research scientists. This is done through a programme of directed or independent study in each undergraduate year which enables them to undertake or participate in projects of discovery in a variety of different areas of scientific endeavour.

Students of the College will also be provided with an opportunity to consider the nature of science. The College offers courses in the intellectual and social context of science. Designed specifically for College students, these courses raise questions of broad interest to scientists and presume an understanding of the subject matter of science itself.

Students will also be given the opportunity to consider the social and cultural framework of their science studies through a basic course in some aspect of humanistic studies. This will bring them into intellectual contact with students in our fellow College of Liberal Arts.

Finally, students will be encouraged to appreciate the link between clarity of thought and clarity of expression, through the availability of tutorial assistance in the development of writing skills.

Facilities
The College is located in its own annex on Concordia University’s downtown Sir George Williams Campus. The College has study and lounge areas, computer facilities, a small library and a collection of periodicals of general interest. The College offers students the opportunity and facilities to discuss matters of interest among themselves and with their professors. Science College also offers a number of courses and invites scientists to visit the University to meet College students.

Requirements for Admission to Science College
The programme of Science College is academically demanding, involving concentration in one discipline and a critical investigation of other aspects of science. The Collège is committed to serious academic work and high standards, and seeks to attract talented and enthusiastic students who are willing to work hard in a search for a deeper understanding of their subject.

Science College represents a new departure at Concordia’s downtown campus. Students must enrol in a science programme that leads to a BSc degree in order to be part of Science College. Students registered for a BA in Journalism are also eligible, as are students registered in the General Science Option of Computer Science.

In addition to the normal requirements for admission to the University’s various programmes, applicants are expected to have a good academic average. They will be considered on the basis of their academic record, and a personal interview. Preference will be given to students who show a disposition and an aptitude to profit from the unique features of the sort of fundamental scientific education
which the College offers. Applicants are encouraged to provide evidence of the range of their intellectual interests and of any creative activity in which they may have been involved. Students must be prepared to attend courses at times outside the normal University schedule. The College is open to full-time students only.

Science College and Journalism
A limited number of students who have been admitted to the Major in Journalism programme may be allowed to register in the Science College, with a view to combining a basic understanding of science with a training in journalism. For such students, a second six-credit course in the historical, philosophical, and social aspects of science will be offered. Other members of the College will have the option of taking this course if they so desire.

Performance Requirement
Students in the College must maintain a "B" average in courses offered by the College, with no grade lower than a "C".

Further Information
Further information on the courses and activities of the Science College may be obtained either by writing to:

Concordia University
Science College
Annex X
1455 de Maisonneuve Blvd., West
Montreal, Quebec H3G 1M8

or by telephoning the College office at 848-2595. Personal interviews with a Fellow of the Science College may be arranged through the Science College office.

Science College Core Curriculum
The College offers a core of courses which are required of all students. This core consists of 30 of the 90 credits normally required for a BSc degree. These courses have been developed specifically for the College with the intention of providing a unique, integrated programme of education in science.

PROGRAMMES
In addition to completing the Core Curriculum, students are responsible for satisfying their particular degree requirements by completing a departmental Honours, Specialization, or Major programme leading to a BSc. The superscript indicates credit value.

*This course may be repeated twice for credit in this programme provided the subject matter is different.

COURSES

SCOL 251 Current Issues in Physical Sciences I (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. These courses are designed to help students understand the "state of the art" in fields of science in which they are not specializing. They discuss problems under current study, and attempt to identify possible future directions of research. The approach is qualitative. Detailed technical knowledge is not prerequisite.

SCOL 252 Current Issues in Biological Sciences I (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. For description see SCOL 251 above.

SCOL 253 Current Issues in Mathematical and Related Sciences I (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. For description see SCOL 251 above.

SCOL 270 Historical, Philosophical, and Social Aspects of Science (6 credits)
Prerequisite: Membership in the Science College, or permission of the College. This course discusses the intellectual framework of science and the relationships between science and society, and the political and philosophical questions inherent in the scientific process. This course is primarily intended for College students and relies heavily on primary sources. Students are expected to understand the scientific issues at the level at which they were originally addressed.
**Directed and Independent Study I** (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. The student works under the supervision of a member of the Faculty on either a practical laboratory project or a literature study. A formal, written report is required.

**Selected Topics in a Scientific Discipline** (3 credits)

**Selected Topics in a Scientific Discipline** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**Current Issues in Physical Sciences II** (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. For description see SCOL 251 above.

**Current Issues in Biological Sciences II** (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. For description see SCOL 251 above.

**Current Issues in Mathematical and Related Sciences II** (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. For description see SCOL 251 above.

**Directed and Independent Study II** (3 credits)
Prerequisite: Membership in the Science College, or permission of the College. A student who has completed SCOL 290 registers for SCOL 390. Students are encouraged to work in a field different from that of their SCOL 290 project.

**Topics for Multidisciplinary Study** (3 credits)
The purpose of this course is to introduce students to problems and areas of study which transcend traditional disciplinary barriers. A chosen area of investigation is treated from the viewpoint of various disciplines. Lecturers from different areas may be used for this purpose. The aim is to show the contributions made by each field to the understanding of the problem, and how they complement each other.

**Topics for Multidisciplinary Study** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

**Directed and Independent Study III** (6 credits)
Prerequisite: Membership in the Science College, or permission of the College. A student who has completed SCOL 390 registers for SCOL 490. Students are encouraged to work in a field different from that of their SCOL 290 and 390 projects. Students complete a research project approved in advance by the College, under the supervision of a Fellow of the College and/or a faculty member in a scientific discipline.

NOTE: After consultation with the Science College, a student may register in BIOL 490, CHEM 450, GEOL 414 or PSYC 430 and upon successful completion be exempted from SCOL 490.

**Advanced Topics** (3 credits)
(Will not be offered in this academic year.)

**Advanced Topics** (6 credits)
(Will not be offered in this academic year.)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.
31.560 The Simone de Beauvoir Institute and Women's Studies

Principal
A. HAMALIAN, Associate Professor, Education

Visiting Assistant Professor
S. RAZACK

Honorary Fellows
P. MORLEY, Professor, English
J. VELLACOTT, SSHRC Research Fellow, History, Peace Studies

Resident Fellows
L. LEQUIN, Sessional Lecturer, Études françaises
J. SEN, Associate Professor, Management
M. VERTHUY, Associate Professor, Études françaises

Associate Fellows
K. ANAND, Associate Professor, Mathematics and Statistics
C. COLLARD, Associate Professor, Sociology and Anthropology
L. DYER, Associate Professor, Management
B. FREIWALD, Assistant Professor, English
E. HENRIK, Associate Professor, Psychology

S. HOECKER-DRYSDALE, Associate Professor, Sociology and Anthropology
C. JETTE, Lecturer, Engineering and Computer Science
R. SCHADE, Assistant Professor, History
T. WAUGH, Associate Professor, Cinema

Adjunct Fellows
M. AINLEY, SSHRC Independent Scholar, History of Canadian Women Scientists
N. GIRI, Independent Scholar, Indian Women's Education
H. HOODFAR, Visiting Scholar, Sociology and Anthropology (Kent, U.K.)
B. KAITÉ, SSHRC Post-Doctoral Fellow, Sociology and Anthropology
H. J. MARONEY, SSHRC Post-Doctoral Fellow, Sociology
B. MEADOWCROFT, Independent Scholar, Canadian English Literature
C. RAGAVEN, Independent Scholar, Women and Genocide
K. SHARMA, Visiting Scholar, Shastri Indo-Canadian Institute, Women's Studies
J. WHITEHEAD, Independent Scholar, Women's Studies, Anthropology

SIMONE DE BEAUVOIR INSTITUTE

Founded in 1978 to promote the understanding of the historical and contemporary situation of women in society, the Simone de Beauvoir Institute of Concordia University helps women to discover and develop their potential, both by its academic base in Women's Studies and by its co-curricular activities. We are honoured that Simone de Beauvoir authorized us to use her name, and expressed great interest in being informed of our activities until her death.

All students registered in the Major, Minor or Certificate in Women's Studies are normally members of the Institute. Other undergraduate students are welcome to become members if they undertake to complete nine credits of WSDB courses.

The co-curricular life of the Institute is extremely important, and all members are expected to contribute to our activities. Exciting opportunities are available to organize workshops, colloquia and debates on subjects which interest the members, as well as to collaborate with women's organizations outside the University on research projects and other joint ventures.

Admission Requirements for the Simone de Beauvoir Institute

Students may apply simultaneously to Concordia University and the Simone de Beauvoir Institute by filling out and submitting the Concordia University Application for Admission with the box for "colleges" checked and "Simone de Beauvoir Institute" written in the space provided. The Admissions Office will inform us of your application as soon as they receive it. Further information about the Institute can be obtained by calling us at 848-2370 or by visiting our offices.

Student members of the Institute are required to complete nine credits chosen from WSDB courses. The choice of these courses must be approved in advance by the Principal or her delegate.

Location
The main centre for the Institute is 2170 Bishop Street on the Sir George Williams Campus. It includes faculty and secretarial offices, a lounge, a reading and a seminar room; there is also an office and a lounge on the Loyola Campus.

WOMEN'S STUDIES

Women's Studies encompass and modify all areas of knowledge. Through the introduction of new perspectives and new research, this field of study helps to correct and complete the traditional
The objectives of programmes in Women's Studies may be summarized as follows: to raise fundamental questions about women in society, using a scientific and academic approach; to stimulate interest in and support of research topics relevant to women and social change; to investigate our socio-political and cultural backgrounds and their effect on the status of women; to engage in a continuous evaluation of research into the history, conditions and changing needs of women; to promote the understanding of the historical and contemporary role of women in society; to encourage a new and full recognition of the contribution of women to human achievement; to ensure that women and issues of gender are studied in a non-discriminatory manner as part of the curriculum either in separate distinguishable Women's Studies courses or in courses so modified as to give women's perspective its rightful place; to strengthen and widen women's rights by providing the conditions which allow women to exercise those rights; to ensure the equality of all individuals without distinction of race, sex, age, language or religion and thus transform society.

**NOTE:** The "SDEB" and "WMNS" designations for Women's Studies courses have been changed to "WSDB".

**PROGRAMMES**

Students are responsible for satisfying their particular degree requirements.

The superscript indicates credit value.

Students should consult with the Women's Studies Adviser prior to registering for Women's Studies courses.

39 BA Major in Women's Studies

**Group I**

6 WSDB 2901, 2913
6 WSDB 3901, 3913, 3923, 3934, 3944

3 300- or 400-level WSDB courses

**Group II**

9 Chosen in consultation with the Women's Studies Adviser from WSDB 3703, 3903, 3913, 3923, 3934, 3984, 3994, 4986, 4994; CLAS 3543, 3553; ECON 3973; EDUC 3216, ENGL 2493, 2503, 2513, 2523; FMST 3293; FRAN 2543; 4513, 4763, 4773; HIST 3293, 3315; PHIL 2303; POLI 3343; PSYC 3903; RELI 3333, 3343; SOCI 3723; THEO 2703

*This course may be repeated twice for credit in this programme provided the subject matter is different.

**NOTE:** Les étudiant-e-s francophones ne peuvent s'inscrire à ce cours.

**COURSES**

39 WSDB 290 Woman's Identity and Image: Historic Attitudes (3 credits)

Women's Studies, because of its emerging yet rapidly developing nature, both affects and transcends the University at the point of entry into the programme.
pre-existing disciplines. On the one hand, this course shows, in a historical context, how by the use
of new developments in various disciplines, fresh light can be shed on traditional assumptions. On the
other, it studies not only the “mirror image” of women as found in certain male writings but also the
images women have projected of themselves and the reasons underlying those projections. Topics may
include: the witch question; the place of women in ecclesiastic reforms; the “blue stockings”; women
and contraception; women and public life; women and education; women and socialism; theories of
the family; the economic status of women; elitist feminism.

WSDB 291 Woman’s Identity and Image: Recent Approaches (3 credits)
Again, by using new tools, culled from various disciplines, this course looks at the recent history of
women; in particular, the diverse ways in which they have struggled to attain autonomy and the obsta-
cles confronting them. Topics may include: women and revolution; women and work; theories of caste
and class; changes in the status of women; women and personhood; women and their bodies; women
and language; women and the national question.

WSDB 298 Selected Topics in Women’s Studies (3 credits)

WSDB 299 Selected Topics in Women’s Studies (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Under-
graduate Class Schedule.

WSDB 370 Workshops in Special Areas of Women’s Studies (3 credits)
Prerequisite: WSDB 290; WSDB 291. The purpose of these workshops is to examine a number of topics
and problems related to the field of Women’s Studies. The issues considered may differ from year to
year; several workshops are offered over one academic year and students are required to select two
workshops of one and a half credits each or three workshops of one credit each from the package.
The workshop format is designed to allow Women’s Studies students to participate in learning oppor-
tunities with flexibility in scheduling as well as to benefit from the experience of experts who visit Montreal
on a short term basis. Possible topics are: Women and biotechnology, education of immigrant women,
women and continuing education, women and pressure groups.

WSDB 390 Women and Peace: Historical and Contemporary Perspectives (3 credits)
Prerequisite: 30 credits, including WSDB 290 and 291 or permission of the Institute. This course examines
topics related to women and peace; e.g., women’s roles in social protest movements, violence, pacifism,
militarism, hierarchy, revolution, inequality and ecofeminism. Various alternative proposals are examined.

WSDB 391 Women and Health (3 credits)
Prerequisite: 30 credits, including WSDB 290 and 291 or permission of the Institute. This course examines
issues related to women’s health. Basic concepts of anatomy and physiology, the biological events of
reproduction, and issues in mental health are to be among those topics discussed. The social, health
and political implications of these events are also examined.

WSDB 392 Les féminismes d’expression française (3 crédits)
Préalable: 30 crédits, y compris WSDB 290 et 291, ou autorisation de l’Institut. A partir de textes thé-
oriques, d’ouvrages de synthèse ainsi que des œuvres traitant de la vie quotidienne, l’on examinera
les similitudes, les analogies et les traits distinctifs des luttes des femmes durant la dernière décennie
ici et ailleurs dans la francophonie, notamment les luttes des femmes arabes, des Antillaises ou en-
core des femmes d’Afrique noire. Ce cours permettra, tout en tenant compte des différences, de mieux
cerner l’expression des féminismes au sein de la francophonie.

WSDB 393 Les théories féministes: histoire et approches récentes (3 crédits)
Préalable: 30 crédits, y compris WSDB 290 et 291, ou autorisation de l’Institut. Dans ce cours, sont
étudiées les différentes théories féministes. L’accent est mis sur leur développement dans le monde
occidental. Les étudiant-e-s sont encouragé-e-s à utiliser une méthode à la fois synchronique et di-
achronique.

WSDB 394 Women of Ideas: History of Feminist Theory (3 credits)
Prerequisite: 30 credits, including WSDB 290 and 291 or permission of the Institute. This course con-
siders the development of feminist theories focusing mainly on the eighteenth and nineteenth centu-
ries, and concluding with an overview of some twentieth-century themes.

WSDB 398 Selected Topics in Women’s Studies (3 credits)

WSDB 399 Selected Topics in Women’s Studies (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Under-
graduate Class Schedule.

WSDB 490 Advanced Seminar in Women’s Studies (3 credits)
Prerequisite: 30 credits, including at least 3 credits from WSDB 390, 391, 392, 393 and 394, or permis-
sion of the Institute. This interdisciplinary seminar considers the effect of systems of gender, race and class on women’s place in society. It takes into account recent developments in feminist scholarship in the Humanities and Social Sciences.

**WSDB 491 Advanced Seminar in Women’s Studies** (3 credits)
Prerequisite: 30 credits, including at least 3 credits from WSDB 390, 391, 392, 393 and 394, or permission of the Institute. This interdisciplinary seminar considers the effect of systems of gender, race and class on women's place in society. It takes into account recent developments in feminist scholarship in the Humanities and Social Sciences.

**WSDB 492 Séminaire avancé** (3 crédits)
Préalable: 30 crédits, y compris au moins 3 crédits parmi WSDB 390, 391, 392, 393, 394, ou autorisation de l'Institut. Ce séminaire interdisciplinaire porte sur l'influence exercée par des systèmes de caste (sexe), de race et de classe sur la place des femmes dans nos sociétés. Il fait appel à l'apport féministe récent dans les sciences sociales et humaines.

**WSDB 493 Séminaire avancé** (3 crédits)
Préalable: 30 crédits, y compris au moins 3 crédits parmi WSDB 390, 391, 392, 393, 394, ou autorisation de l'Institut. Ce séminaire interdisciplinaire étudie le regard porté par les femmes sur l'avenir. Il fait appel à des textes de création ou à des textes scientifiques, à la fois historiques et contemporains.

**WSDB 498 Seminar in Women’s Studies** (3 credits)
**WSDB 499 Seminar in Women’s Studies** (6 credits)

Specific topics for these courses, and prerequisites relevant in each case, will be stated in the Undergraduate Class Schedule.

The following departmental courses are also offered as components of the programmes in Women's Studies:

**Cinema**
- **FMST 329** Women and Film (3 credits)

**Classics**
- **CLAS 354** Women in Classical Antiquity I (3 credits)
- **CLAS 355** Women in Classical Antiquity II (3 credits)

**Economics**
- **ECON 397** Economics of Discrimination (3 credits)

**Education**
- **EDUC 321** Sex-Role Socialization in the School (3 credits)

**English**
- **ENGL 249** Women in Literature I (3 credits)
- **ENGL 250** Women in Literature II (3 credits)
- **ENGL 251** Selected Topics in Literature Written by Women I (3 credits)
- **ENGL 252** Selected Topics in Literature Written by Women II (3 credits)

**Français**
- **FRAN 254** La langue et la condition des femmes au Québec (3 crédits)
- **FRAN 451** La littérature québécoise au féminin (3 crédits)
- **FRAN 476** La littérature française au féminin I (3 crédits)
- **FRAN 477** La littérature française au féminin II (3 crédits)

**History**
- **HIST 329** Women in Western History I (3 credits)
- **HIST 331** Women in Western History II (3 credits)

**Philosophy**
- **PHIL 230** Human Identity (3 credits)

**Political Science**
- **POLI 334** Women and the Law (6 credits)

**Psychology**
- **PSYC 390** Sexual Differentiation (6 credits)

**Religion**
- **RELI 333** Women and Religion I (3 credits)
- **RELI 334** Women and Religion II (3 credits)
Sociology
SOCI 372  Sociology of Sex Roles  (6 credits)

Theological Studies
THEO 270  Women and the Christian Church  (3 credits)

*With approval of the Programme Adviser.

NOTE: Students should consult the appropriate departments concerning possible prerequisites for the above courses.

Language/Langue
Les règlements actuels permettent à tout-e étudiant-e d'écrire ses devoirs ou examens en anglais ou en français dans tous les cours offerts, à l'exception des cours de langue. La langue d'enseignement sera normalement l'anglais.

Non-francophone students may equally submit assignments in English in Français 451, 476, and 477, as long as they are taking the course for credit in Women's Studies or as an elective, and not as part of a programme of the Département d'études françaises.
FACULTY OF COMMERCE AND ADMINISTRATION

61.10 COMMERCE AND ADMINISTRATION

61.20 ADMISSION REQUIREMENTS
   61.20.1 Bachelor Degree Programmes
   61.20.2 Core Requirements
   61.20.3 Bachelor of Commerce Programme
   61.20.4 Bachelor of Administration Programme
   61.20.5 Academic Performance Regulations

61.30 GENERAL INFORMATION

61.40 ACCOUNTANCY

61.50 DECISION SCIENCES AND MANAGEMENT INFORMATION SYSTEMS

61.60 ECONOMICS

61.70 FINANCE

61.80 INTERNATIONAL BUSINESS

61.90 MANAGEMENT

61.100 MARKETING

61.110 TRANSPORTATION AND DISTRIBUTION MANAGEMENT

61.120 ADMINISTRATION

61.130 BUSINESS COMMUNICATIONS

61.140 BUSINESS STUDIES

61.150 COMPUTER SCIENCE

61.160 SPECIAL CERTIFICATE PROGRAMMES

61.170 SPECIAL PROGRAMMES IN ACCOUNTANCY
61.20 Admission Requirements

General admission requirements are listed in §13. Specific requirements for admission to the Faculty of Commerce & Administration for students in CEGEP are Mathematics 103, 105, 203, or equivalent. Arrangements will be made in the first-year programme to give special instruction to those students who lack adequate mathematical preparation.

Individuals accepted under the provisions of the extended credit programme will be required to complete the following additional 30 credits within their first year:

- MATH 208 3 credits
- MATH 209 3 credits
- MATH 211 3 credits
- ENGL 205, 206 or 212, 213, or an appropriate alternative 6 credits
- *electives 15 credits

TOTAL 30 credits

*These electives must be selected from outside the offerings of the Faculty of Commerce and Administration, but not from disciplines represented in its degree programmes.

NOTE: Because of the extensive use of computers in various programmes, students are strongly advised to have access to a personal computer.

61.20.1 BACHELOR DEGREE PROGRAMMES

The Faculty of Commerce and Administration offers two distinct Bachelor programmes. The Bachelor of Commerce (BComm) degree is the more structured "professional" type programme in which the student will select a Major from those offered in Commerce or Economics. The Bachelor of Administration (BAdmin) degree is a less structured "liberal" type programme which permits the student to pursue interests outside the Faculty, and offers the possibility of complementing a fundamental grounding in Administration with minor concentrations in an area of interest. Degree requirements listed below apply to all students entering the programme on or after June 1, 1990.

61.20.2 CORE REQUIREMENTS

The required 51-credit core is identical for both programmes and comprises the following courses:

1st Year
- ACCOUNTANCY 213
- DECISION SCIENCES AND MANAGEMENT INFORMATION SYSTEMS 243
- ECONOMICS 201
- MANAGEMENT 266
- MARKETING 213
- ACCOUNTANCY 218
- DECISION SCIENCES AND MANAGEMENT INFORMATION SYSTEMS 244
- ECONOMICS 203
- DECISION SCIENCES AND MANAGEMENT INFORMATION SYSTEMS 222
- FINANCE 214

2nd Year
- BUSINESS COMMUNICATIONS 300
- MANAGEMENT 340
- DECISION SCIENCES AND MANAGEMENT INFORMATION SYSTEMS 250
- MARKETING 350
- MANAGEMENT 475
- FINANCE 315

3rd Year
- MANAGEMENT 460

NOTE: Students are responsible for following the correct sequence of courses required for the completion of a particular programme.

61.20.3 BACHELOR OF COMMERCE PROGRAMME

This programme provides the student with an education for business life. It is our intention to graduate students liberally educated about business. To accomplish this, we have designed a multi-disciplinary and interdisciplinary curriculum which is intellectually challenging.

The first year of the programme is intended to provide an informative accumulation of operational attitudes, skills, and tools which form the base for the core concentration.

The core concentration in the second year attempts to give broad experience in all phases
of business in a coordinated, analytical, and reflective period of study. All the resources of the student's intellectual ability are combined with his or her interdisciplinary studies to analyze, formulate, judge, and solve challenging business situations.

The last year of the programme is intended to provide students with an opportunity to immerse themselves in an area of specialized study. In addition, students participate in a course which is designed to test their ability to integrate their knowledge and to view the study of business as a whole.

In view of this design, all students must follow the sequence of the courses on the basis of an academic year as outlined in the curriculum. No student will be permitted to register for second- or third-year courses without having completed the courses of the first academic year.

Exceptions may be authorized in writing for valid reasons by the Dean or Academic Adviser.

Degree Requirements
To obtain the degree of Bachelor of Commerce, all students are required to follow a Major Programme. A Major consists of at least 24 credits in the chosen discipline in addition to the required 51-credit core. The remaining credits are unrestricted electives and may be selected to form a Minor programme if applicable. Major and Minor programmes are available in the following areas:

NOTE: There are no double majors or double minors in the Faculty of Commerce and Administration.

The Faculty may impose quotas on some majors.

NOTE: Students registered in the 90-credit programme in the Faculty of Commerce and Administration may take ESL courses for degree credit, up to a maximum of six (6) credits.

Students will indicate their preferred field of concentration at the time of application for entry. It should be noted, however, that since the programme of study of the first year is common to all programmes, students may change to another programme provided, of course, that the capacity of the programme permits it.

1 This programme is not open to students registered in a programme leading to the degrees of Bachelor of Commerce or Bachelor of Administration.

Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

Students of this Faculty who elect to major in any of the disciplines of the Faculty or Economics will be enrolled in a Bachelor of Commerce degree programme.
61.20.4 BACHELOR OF ADMINISTRATION PROGRAMME

The Bachelor of Administration Programme is designed to develop problem-solvers and decision-makers in all walks of life. A successful graduate is able to develop objectives and strategies, organize people and resources, direct an organization’s activities and control these activities, and appraise objectives and strategies in the light of results.

The programme has been made flexible enough to allow students to develop according to their own needs.

This programme provides students with a fundamental grounding in administration and offers the opportunity to pursue varied interests among courses offered by the University.

Degree Requirements

To obtain the degree of Bachelor of Administration, students are required to complete the 51-credit core and 9 elected credits from Commerce and/or Economics to complete the 60 credits required for Specialization. The remaining 30 credits must be selected from courses outside the Faculty of Commerce and Administration, but at least half of these must be beyond the introductory level.

Students wishing to complete a minor in the Faculty of Commerce and Administration may do so provided they meet all other requirements of the programme.

61.20.5 ACADEMIC PERFORMANCE REGULATIONS

NOTE: The GPA regulations apply to all students, including those with Visiting Status, registered in programmes offered by the Faculty of Commerce and Administration. This also includes the Minor in Business Studies and Certificate programmes.

Objectives

The objectives of these regulations are:

a) to ensure that the Faculty can certify that all of its graduates are qualified to enter their profession,

b) to ensure that students can, with the assistance or intervention of the Faculty, assess themselves objectively, and plan programmes of study designed to meet their individual needs.

Annual Weighted Grade Point Average (WGPA)* Requirements and Consequences

*See §16.3.7, II for definition of Annual WGPA.

Acceptable Standing requires that a student obtain an Annual WGPA of at least 2.00.

NOTE: Although a C-grade (1.70 grade points) is designated as Satisfactory in §16.3.2, a WGPA of 2.00 is required for Acceptable Standing.

Students in Acceptable Standing may proceed subject to the following conditions: any failed grade must be cleared by repeating the failed course or in the case of an elective, by replacing the failed course by an alternative within the same group of electives. Any variation must be approved by the Dean’s Office.

Conditional Standing results when a student obtains an Annual WGPA of less than 2.00, but at least 1.50. A student is not permitted to obtain two consecutive Conditional Standing assessments.

Students in Conditional Standing may not write supplemental examinations nor complete work graded incomplete but may proceed subject to the following conditions:

a) They must receive academic counselling from the appropriate member of the Dean’s Office.

b) They must repeat successfully all courses in which failing grades were obtained, or replace them by alternatives approved by the Dean’s Office in consultation with the student’s department.

c) In no case will the number of credits exceed fifteen per term for full-time students and six per term for part-time students.

d) They must obtain Acceptable Standing at the time of their next assessment.

Failed Standing results when a student obtains an Annual WGPA of less than 1.50, or Conditional Standing in two consecutive periods of assessment.

Failed students may not write supplemental examinations nor complete work graded incomplete.

Students who are in Failed Standing for a second time must withdraw from the University and may not apply for readmission.

Failed students who are not required to withdraw may apply for readmission through the Dean’s Office. If readmitted, they will be placed on academic probation. They must return to Acceptable Standing at the time of their next assessment. Other conditions will be determined at the time of readmission.

Graduation Requirements

Students must satisfy all course requirements and be in Acceptable Standing.

The standings of potential graduates who have attempted less than twelve (12) credits since their last assessment are determined on the basis that these credits constitute an extension of the last assessment period.

Students who fail to meet Acceptable Standing but meet Conditional Standing will have the
following options:

a) Register for twelve credits and meet the criteria for Acceptable Standing.

b) Register for fewer than twelve credits. In this case standing will be determined on the basis that these constitute an extension of the last assessment period.

In both case a) and b), courses taken must be approved by the appropriate member of the Dean's Office in consultation with the student's department where necessary. Normally, these courses will be selected from the offerings of the Faculty of Commerce and Administration or Department of Economics.

61.30 General Information

Old Credit Programme (Transition)

Students who have enrolled in a programme at this Faculty prior to June 1, 1976 will complete the programme as shown in the University Announcement 1975/1976. For substitution of courses not offered in the new programme, students will consult with representatives of the respective departments.

Failures

Students are cautioned that a failure in a first-term course will prohibit them from proceeding to a second-term course for which the first is a prerequisite. Students who find themselves in this position must drop the second-term course and register in a section of the failed course, if available.

There will be a course-change period at the beginning of the second term, at which time students failing in the above category must make arrangements with the Office of the Registrar for the necessary course changes.

NOTE: THERE ARE NO SUPPLEMENTAL EXAMINATIONS IN THE FACULTY OF COMMERCE AND ADMINISTRATION.

Dean's Office

Dean's Office is to be understood as being the appropriate member of the Dean's Office, normally the Associate Dean, Student Affairs, or delegate.

French Language

The business community, as well as governments, now express a preference for university graduates who are bilingual. We, therefore, advise all students to take advantage of the opportunities available during their years at this University to ensure that they are bilingual when they present themselves for employment upon graduation.

Courses/Non Commerce Students

Students not enrolled in the Faculty of Commerce and Administration Programme may register for six (6) credits per term for a maximum of thirty (30) credits (total) within the Faculty of Commerce and Administration.

Students not registered in the Faculty of Commerce & Administration, who wish to undertake any courses offered by the Faculty, but do not have the stated prerequisites, must obtain permission in writing from the Student Request Committee, Faculty of Commerce prior to registration.

9 additional credits offered by the Department

12 Minor in Accountancy
3 ACCO 323
3 ACCO 326
6 additional credits offered by the Department

ACCO 213 Introductory Financial Accounting (3 credits)
This course examines the theory and practice involved in recording and reporting an organization’s financial information. Concepts of asset valuation and income measurement are discussed with respect to both large and small enterprises. Professional and legal requirements concerning financial statement disclosure are introduced and the needs of decision makers requiring financial information are considered. NOTE A/See §200.2

ACCO 217 Financial and Managerial (3 credits)
Prerequisite: ACCO 213. This course is designed to develop, through verbal analysis of business cases, an understanding and skill in the preparation of statements for financial accounting purposes, taking into account the needs of business management. The student must be able to analyze these statements and comment critically thereon. NOTE A/See §200.2
NOTE: Major and Honours students in Accountancy may not take this course for credits.

ACCO 218 Introductory Managerial Accounting (3 credits)
Prerequisite: ACCO 213. This course examines the development of accounting information for the purposes of planning, control, decision making, and, in general, for the more efficient operation of enterprises, large and small. NOTE A/See §200.2

ACCO 220 An Accounting Approach to Management (3 credits)
This course is designed to cover certain major aspects of management related to the accounting process. These include: business organization; accounting concepts; financial statement analysis; management uses of accounting information; and the effect of taxation on business decisions. NOTE A/See §200.2
NOTE: Commerce and Administration students may not take this course for credits.
ACC 221  Accounting and Management  (3 credits)
Prerequisite: ACC 220. This course is sequential to ACC 220, and examines in greater depth the areas covered in that course. NOTE A/See §200.2
NOTE: Commerce and Administration students may not take this course for credits.

ACC 303  Cost and Management Accounting  (3 credits)
Prerequisite: ACC 218. In this course a detailed examination is made of the various techniques, systems, and procedures applicable to the managerial use of accounting information for decision-making, profit-planning, and control. NOTE A/See §200.2

ACC 322  Intermediate Accounting I  (3 credits)
Prerequisite: ACC 213. This course extends the material covered in the earlier financial accounting course, integrating the previous work with more advanced theory and application. Intensive study is made of the theory and practice of external reporting by commercial entities. Concepts and procedures involved in the valuation of resources are studied, as are the concepts of income determination. NOTE A/See §200.2

ACC 326  Intermediate Accounting II  (3 credits)
Prerequisite: ACC 323. This course continues the intensive study of Intermediate Accounting I, with particular emphasis on accounting for liabilities, shareholders' equity and other related areas such as earnings per share, pension accounting and accounting for income tax.

ACC 335  Advanced Accounting  (3 credits)
Prerequisite: ACC 326. This advanced course is concerned primarily with intercorporate investments and combinations. A study is also made of other accounting areas including foreign currency translation. NOTE A/See §200.2

ACC 407  Accounting Practice and Policy  (3 credits)
Prerequisite: ACC 335, ACC 429. Areas previously or concurrently covered in the field of corporate financial reporting are extended, and current accounting literature and pronouncements of professional accounting bodies are examined. Extensive use is made of the case method of instruction. NOTE A/See §200.2
NOTE: This course will be offered in the second term only.

ACC 410  Specialized Accounting  (3 credits)
Prerequisite: ACC 326. In this course an examination is made of specialized aspects of accounting for not-for-profit organizations such as municipal governments, colleges, and hospitals. The course focuses on both the financial and managerial applications of accounting principles and theory.

ACC 414  Accounting Information Systems  (3 credits)
Prerequisite: ACC 218. This course examines the systems for collecting and processing information necessary in planning, decision making and the control of business organizations. Theory and practice are combined in a case-study approach which includes "hands-on" computer experience with spreadsheet and database programmes. NOTE A/See §200.2
NOTE: Introductory-level knowledge of computer systems is recommended.

ACC 422  Cost and Management Accounting  (3 credits)
Prerequisite: ACC 303. This course continues at an advanced level the study of modern cost and managerial systems using cases, readings and problems. Coverage includes a critical evaluation of accounting control systems, related quantitative business controls and conceptual and measurement problems in evaluating performance. NOTE A/See §200.2

ACC 429  Auditing Concepts  (3 credits)
Prerequisite: ACC 323. This course introduces auditing theory and its application by external and internal auditors in fulfilling their respective objectives and responsibilities. The focus is on the audit function and the role and purpose of different types of auditors. Fundamental concepts in auditing are discussed in terms of current practices and standards. NOTE A/See §200.2

ACC 432  Financial Auditing  (3 credits)
Prerequisite: ACC 326, 429. This course emphasizes the role of the public accountant in expressing an opinion on the financial statements of an organization. The use of audit standards, procedures, and internal control is related to the expression of an auditor's opinion. Cases and problems solving form the basis of student involvement in this course. NOTE A/See §200.2

ACC 433  Auditing and Investigation  (3 credits)
Prerequisite: ACC 429. This course deals with questions related to professional accounting practices and also covers different types of management services that auditors are frequently requested to undertake. NOTE A/See §200.2

ACC 441  Taxation I  (3 credits)
Prerequisite: ACC 213. This course examines the federal taxation structure, including the taxation
of employment, business and property income and capital gains. While emphasizing the income taxes levied on individuals, the course also examines the taxation of corporations. NOTE A/See §200.2

ACCO 442 Taxation II (3 credits)
Prerequisite: ACCO 441. This course extends the coverage of ACCO 441 with an examination of specialized topics in personal and corporate income tax, including a detailed review of the taxation of corporations, and tax planning including the tax effects of various theoretical and practical business combinations. NOTE A/See §200.2

ACCO 451 Computer Auditing (3 credits)
Prerequisite: COMP211 or equivalent, and ACCO 429. This course explores the impact of large scale computer use on auditors and their examination of a company's records and systems of internal control. The emphasis is on helping auditors understand when a computer can be used to assist them and how to follow through with its use. Topics covered include the different controls and techniques required in a computer system, the audit trail, approaches to computer auditing and computer application for auditing, computer and software security, and consideration of the various computerized audit packages available. NOTE A/See §200.2

ACCO 461 Accounting Theory I (3 credits)
Prerequisite: ACCO 335. This course examines the framework underlying current accounting thinking and procedures. A study is made of the development and the influence of professional accounting organizations and regulatory bodies on accounting theory. Controversial areas are emphasized. NOTE A/See §200.2

ACCO 462 Accounting Theory II (3 credits)
Prerequisite: ACCO 461. This course extends the coverage of ACCO 461. Particular emphasis is placed on developments in the current literature and in problem areas facing the accounting profession.

ACCO 468 (Also listed under International Business) International Accounting (3 credits)
Prerequisite: MARK 462; ACCO 218; FINA 315. This course examines accounting practices employed by different countries; accounting and financial control of international operations, and various consolidation procedures and their effect on the interpretation of financial statements are discussed.
NOTE: This course will be offered in the second term only.
NOTE: Students who have taken International Business 468 may not take this course for credit.

ACCO 470 Special Topics in Accounting (3 credits)
Prerequisite: Written permission of the Department. Intended to complement and supplement accounting courses taken previously or concurrently at the senior level, this course emphasizes accounting literature and modern thought. Students are encouraged to work independently on research topics of interest to them. Enrolment is restricted and is subject to departmental approval. NOTE A/See §200.2
NOTE: Specific topics for this course and prerequisites relevant in each case will be stated in the Undergraduate Class Schedule.

ACCO 471 Accounting Seminar (3 credits)
Prerequisite: ACCO 470. This course examines in greater depth areas of individual interest. Enrolment is restricted and is subject to departmental approval. Students repeating ACCO 471 register for credits under ACCO 472. NOTE A/See §200.2
NOTE: Specific topics for this course and prerequisites relevant in each case will be stated in the Undergraduate Class Schedule.
NOTE: The "QUAN" designation has been changed to "DESC". This is a department name change only (formerly Quantitative Methods).

A student in any Major or Minor Programme in Decision Sciences and Management Information Systems is required to take DESC 222 in addition to the courses which are listed for the Programme.

Students majoring in Decision Sciences and Management Information Systems are strongly recommended to take DESC 250 at the earliest opportunity in their programme.

An option in Information Systems is offered by the Department of Computer Science. Details are available in the Engineering and Computer Science section (71.80) of the Undergraduate Calendar.

The Department of Decision Sciences and Management Information Systems offers two Majors — a Major in Decision Sciences with three Options and a Major in Management Information Systems. Within these two Majors, there is a listing of Common Courses totalling twelve (12) credits. These must be taken by all students majoring in Decision Sciences or Management Information Systems. They are as follows:

12 Common Courses
3 DESC 350
3 DESC 378
3 DESC 381
3 DESC 382

27 Major in Decision Sciences
Production/Operations Management Option
12 DESC 350, 378, 381, 382

**DESC 222 Introduction to Management Information Systems** (3 credits)
Prerequisite: ACCO 213; MANA 266 previously or concurrently. The objective of this course is to introduce students to the principles of management information systems. Topics include hardware and software of various information technologies, information requirement analysis, systems design, different types of computer-based information systems, implementation of information systems, data management and end-use computing. Moreover, students acquire skills necessary for solving small information-processing problems encountered in functional areas of business.

NOTE: Before registering in this course students must prove that they have the rudimentary skills required for the use of personal computers. Failing to do so, students must register for a short, non-credit remedial computer proficiency seminar/lab.

NOTE: Students who have previously taken DESC 221 (QUAN 221) may not take this course for credit.

**DESC 243 Introduction to Business Statistics and Decision Models** (3 credits)
Prerequisite: MATH 208; MATH 209 previously or concurrently. (Students admitted from CEGEP with the 10.12 profile are eligible for direct entry into DESC 243.) The aim of this course is to introduce students to the fundamentals of probability and statistics as applied in the various areas of business and administration. Topics covered include univariate descriptive measures, probability theory (decision trees, conditional probability, Bayes theorem), probability distributions (binomial, Poisson, normal and exponential), bivariate data and probability (scatter plots, covariance, correlation), sampling distribution, estimation and model-based simple regression. Students use statistical software packages on mainframe and/or microcomputers to solve applied problems. **NOTE See §200.7**

**DESC 244 Introduction to Statistical Analysis for Business and Administration** (3 credits)
Prerequisite: DESC 243 or equivalent. This course introduces students to basic statistical methods in the context of applied data analysis in business and administration. Topics covered include hypothesis testing, analysis of variance, applications of chi-square statistic, nonparametric methods, quality control, regression and correlation analysis, time series analysis and forecasting techniques. Students use statistical software packages on mainframe and/or microcomputers to solve applied problems. **NOTE See §200.7**

**DESC 250 Introduction to Production/Operations Management** (3 credits)
Prerequisite: MATH 211; DESC 243 previously or concurrently. (Students admitted from CEGEP with the 10.12 profile are exempt from MATH 211.) The objective of this course is to introduce students to analytical decision making in the production/operations management context. The functional aspects of operations and the relationship of production/operations management to the other business functions are emphasized throughout the course. Linear programming, sensitivity analysis, operations capacity and facility location, facility layout, inventory models and project management are the subject areas emphasized to aid in making process and capacity decisions for both the manufacturing and service industries.

NOTE: Students who have previously taken DESC 313, 314 or 315 (QUAN 313, 314 or 315) may not take this course for credit.

**DESC 313* Managerial Operations Research** (3 credits)
Prerequisite: DESC 244; MATH 211. (Students admitted from CEGEP with the 10.12 profile are exempt from MATH 211.) This course is an introduction to operations research and its applications to the functional areas of administration. The basic model covered is linear programming. Formulations, graphical and algebraic solutions, sensitivity analyses and the use of a computer package for solving large-scale problems are studied. The related transportation, assignment and integer programming problems are also discussed.

*This course will eventually be phased out of the course offerings and may not be taken for credit by students admitted to the University on or after June 1, 1986.

**DESC 314* Operations Research and Production Systems** (3 credits)
Prerequisite: DESC 313. This course surveys several operations research and production models and their applications. The basic areas covered are: project management, decision theory, inventory and production models, simulation, waiting-line models, dynamic programming, and Markov processes. The tools of probability analysis are used.

*This course will eventually be phased out of the course offerings and may not be taken for credit by students admitted to the University on or after June 1, 1986.
DESC 350  Production/Operations Systems  (3 credits)  
Prerequisite: DESC 313 or DESC 315* or 250**. This course deals with various modelling aspects of production/operations systems. Among the subjects covered are productivity issues, aggregate planning and operations scheduling and control techniques. Modelling techniques used in this respect are dealt with within the context of integer and goal programming and waiting line models. Case studies are discussed to highlight the decision support aspects of production/operations systems.  
*For students admitted to the University effective June 1, 1986.  
**For students admitted to the University effective June 1, 1989.  
NOTE: Students who have previously taken DESC 365 may not take this course for credit.

DESC 355  Operations Logistics  (3 credits)  
Prerequisite: DESC 313 or DESC 315* or DESC 250**. This course develops concepts and understanding about planning and control of movement and storage activities of materials in business organizations. In this respect, various operational aspects of facility location, distribution systems, materials handling, warehouse operations, maintenance planning, reliability and quality control are covered.  
*For students admitted to the University effective June 1, 1986.  
**For students admitted to the University effective June 1, 1989.  

DESC 361  Linear Optimization  (3 credits)  
Prerequisite: DESC 313 or DESC 315* or DESC 250**. This course deals with advanced topics in linear optimization and implementation aspects of problem solving in a business environment. Elements of linear modelling process and primal simplex algorithm are reviewed. Functional areas where linear optimization may be applied are discussed. Among the advanced topics covered are revised simplex algorithm, duality, dual simplex algorithm, parametric linear programming, the transportation problem, integer and goal programming. Case studies are discussed to highlight the implementation aspects.  
*For students admitted to the University effective June 1, 1986.  
**For students admitted to the University effective June 1, 1989.  
NOTE: Students who have previously taken DESC 316 may not take this course for credit.

DESC 362  Discrete Models in Business I  (3 credits)  
Prerequisite: DESC 313 or DESC 315* or DESC 250**. This course introduces the student to the decision-making process through the use of discrete models having application to problems such as planning, distribution, scheduling, location and resource allocation. Topics include the application of tree algorithms, path algorithms, network flow algorithms, and dynamic programming to modelling in a business environment.  
*For students admitted to the University effective June 1, 1986.  
**For students admitted to the University effective June 1, 1989.  
NOTE: Students who have previously taken DESC 412 may not take this course for credit.

DESC 371  Business Decision Analysis  (3 credits)  
Prerequisite: DESC 244 or equivalent. This course introduces students to the basic ideas of decision analysis. Topics covered include elementary decision modelling, probability assessment, utility estimation, multiattribute problems, and complex decision problems.  
NOTE: Students who have previously taken DESC 345 may not take this course for credit.

DESC 375  Business Sampling Techniques  (3 credits)  
Prerequisite: DESC 243 or equivalent. This course deals with the design, execution and analysis of sample surveys, including the necessary theory to carry out these tasks properly in the different areas of business and administration. Topics include simple random, stratified, cluster, two-stage, ratio and regression estimates, systematic sampling, and some aspects of survey design and management. Students, either individually or in small groups, are required to carry out or critique a survey. Ability in the use of statistical software packages on mainframe and/or microcomputers is desirable.  
NOTE: Students who have previously taken DESC 448 may not take this course for credit.

DESC 378  Business Applications of Statistical Models  (3 credits)  
Prerequisite: DESC 244 or equivalent; DESC 222 or equivalent. This course is intended to give the student a strong foundation in data analysis using linear models, with emphasis on applications in business, administration and economics. Topics include linear regression on one, two and several explanatory variables, model-building techniques and forecasting models, analysis of variance and covariance and elements of experimental design. Students, either individually or in small groups, are required to carry out a project. This is an applied course with a heavy emphasis on actual data analysis using statistical software packages on mainframe and/or microcomputers.  
NOTE: Students who have previously taken DESC 444 may not take this course for credit.

DESC 381  Personal Computing in Business  (3 credits)  
Prerequisite: DESC 222. This course has two objectives. First, students are exposed to common information processing problems in the functional areas of business. Second, they learn how to use personal computers to solve these problems. In the process, students are introduced to a programming language, such as BASIC, and selected application development packages.  
NOTE: Students who have previously taken DESC 323 may not take this course for credit.
DESC 382  Business Data Management (3 credits)
Prerequisite: DESC 222. This course introduces students to the management of data in a corporate environment. Topics include data management, elementary data modelling, physical structures for representing business data, file organization, data dictionaries, file design, database administration, and issues in documentation. Use is made where feasible of professional data management software to illustrate course concepts.

NOTE: MIS Majors are strongly recommended to take COMP 251 either prior to or at the same time as this course.
NOTE: Students who have previously taken DESC 327 may not take this course for credit.

DESC 383  Application Software Development (3 credits)
Prerequisite: DESC 222, COMP 251. This course is divided into two parts: First, conventional methodologies utilized in the development of business application software is examined using the COBOL programming language. Topics of study include structured design, structured programming, and the management of software development. Second, the impact of new trends in the area, such as fourth-generation languages, end-user computing, and prototyping, on the traditional life-cycle development is examined.

NOTE: Students who have previously taken DESC 423 may not take this course for credit.

DESC 451  Inventory Management (3 credits)
Prerequisite: DESC 313 or 315* or DESC 250**. This course covers deterministic and stochastic inventory models. Dependent demand systems and in-process inventory models are dealt with. New trends in inventory control are discussed. The fundamental forecasting techniques are also reviewed.

*For students admitted to the University effective June 1, 1986.
**For students admitted to the University effective June 1, 1989.
NOTE: Students who have previously taken DESC 416 may not take this course for credit.

DESC 452  Computer Integrated Production/Operations Management (3 credits)
Prerequisite: DESC 350, DESC 356 or DESC 451. This course studies the recent developments and trends in manufacturing and information technologies and the impact of these on the planning and control aspects of production/operations management. Case studies are used to illustrate the implementation aspects of the subjects covered.

DESC 462  Discrete Models in Business II (3 credits)
Prerequisite: DESC 362, or permission of the Department. This course introduces students to further discrete models with an emphasis on integer programming modelling and solution techniques. Topics covered are matching and covering algorithms, the Chinese postman and the travelling salesman problems, routing heuristics and location models. Case studies are used to illustrate the modelling and the implementation aspects of the subjects covered.

DESC 464  Non-Linear Programming (3 credits)
Prerequisite: DESC 361 or equivalent. This course introduces some fundamental concepts in non-linear optimization. The topics covered include convexity, formulation of non-linear problems, identification of optimal points, unconstrained and constrained optimization techniques. Emphasis throughout the course is placed on business-related problems.

NOTE: Students who have previously taken DESC 415 may not take this course for credit.

DESC 466  Decision Models in Service Sector (3 credits)
Prerequisite: DESC 350. The course surveys applications of decision models in the service sector. Efficiency and effectiveness issues in the service sector such as police deployment, municipal resource allocation, health care and criminal justice models are covered. Case studies from Canada and other countries are discussed using operations research, operations management and statistical techniques.

NOTE: Students who have previously taken DESC 414 may not take this course for credit.

DESC 477  Statistical Forecasting (3 credits)
Prerequisite: DESC 244 or equivalent. This course presents the foundations of applied time-series analysis for managerial forecasting. It includes forecasting methods and objectives, fundamental concepts in time-series analysis, models for seasonal time-series, model for nonstationary time-series, Box and Jenkins methods, forecast evaluation. This is an applied course with a heavy emphasis on actual data analysis using statistical computer packages on mainframe and/or microcomputers.

NOTE: Students who have previously taken DESC 447 may not take this course for credit.

DESC 478  Business Applications of Multivariate Data Analysis (3 credits)
Prerequisite: DESC 244 or equivalent. This course deals with analysis of data consisting of measurements of several variables on a sample of individuals. The emphasis is on the methods of multivariate statistical techniques as applied to research in business and administration. Topics include simultaneous regression models, multivariate analysis of variance, discriminant analysis, principal components, factor analysis, clustering and canonical correlations. Substantial use is made of statistical software packages on mainframe and/or microcomputers.
DEC 481 Information Systems Analysis (3 credits)
Prerequisite: DESC 381, DESC 382. (Computer Science students may take this course without the stipulated prerequisites, but with the permission of the DS & MIS Department.) This course covers the first phase of the systems development life cycle, which culminates in the systems proposal. Topics include the preliminary survey, analysis of existing systems and identification of deficiencies, the development of functional specifications, feasibility and cost/benefit analysis and development of a recommended course of action. In addition, various diagramming techniques are examined.
NOTE: Students who have previously taken DESC 424 may not take this course for credit.

DEC 482 Information Systems Design (3 credits)
Prerequisite: DESC 381, DESC 382, DESC 481. Methods and procedures for designing business information systems are discussed. Topics include data and process modeling, preparing screen and report layouts using data dictionaries and documentation within the design process. A comprehensive case study using current computer-aided technologies demonstrates various design concepts.
NOTE: To ensure proper succession in the thought process, students are strongly recommended to enroll in this course in the term immediately following the successful completion of DESC 481.
NOTE: Students who have previously taken DESC 425 may not take this course for credit.

DEC 483 Management of Information Systems (3 credits)
Prerequisite: DESC 381, DESC 382. (Computer Science students may take this course without the stipulated prerequisites, but with the permission of the DS & MIS Department.) This course explores various topics related to management of information resources and services in the organization. First, the basic principles of information systems management are introduced. Topics include planning, control, development, and operations of information technology. Through the examination of several case studies, students are given the opportunity to acquire the necessary skills to identify, analyze, and communicate different issues surrounding these topics.
NOTE: Students who have previously taken DESC 422 may not take this course for credit.

DEC 485 RPG III Programming (3 credits)
Prerequisite: DESC 381, DESC 382, COMP 251. RPG is a programme generator-type language intended for use in business applications. Working in an IBM environment, students deal with typical data processing problems, including multiple-level control-break reports, table processing, sequential and indexed file updating. Various elements of the RPG III programming language are examined.
NOTE: Students who have previously taken DESC 421 may not take this course for credit.

DEC 486 Office Information Systems and Telecommunications (3 credits)
Prerequisite: DESC 381, DESC 382. This course covers two distinct but interrelated areas of information technology. Specifically, students learn how to evaluate, implement, and support these systems to enhance office productivity. In the second part of the course, students are introduced to the principles of telecommunications in the corporate environment. Emphasis is placed on the effective management of these systems.
NOTE: Students who have previously taken DESC 427 may not take this course for credit.

DEC 490 Special Topics in Decision Sciences and Management Information Systems (3 credits)
Prerequisite: Permission of the Department. This course allows for more intensive examination of one or more topics in production/operations management, operations research, business statistics or management information systems.

DEC 492 Business Systems Simulation (3 credits)
Prerequisite: DESC 250; DESC 381 or permission of the Department. Computer simulations of deterministic and stochastic systems are studied, using procedural languages such as FORTRAN and BASIC, as well as special simulation-oriented languages. Topics include the collection and preliminary analysis of input data, verification, validation, design of model experiments and the analysis and presentation of the results. Students study and simulate a real-life situation.
NOTE: Students who have previously taken DESC 426 may not take this course for credit.

DEC 493 Decision Support and Expert Systems (3 credits)
Prerequisite: DESC 350; DESC 376; DESC 381; DESC 382. New developments in information technology such as data bases, fourth-generation languages, and artificial intelligence have changed the nature of traditional business decision support systems (DSS). This course starts by examining the human decision-making process and categories of decision tasks. It then evaluates the requirements for an effective user-machine interface. The impact of the new end-user computing tools is considered in relation to DSS design. Finally, the principles of business expert systems are explained, with examples of potential areas for application.
NOTE: Students who have previously taken DESC 417 may not take this course for credit.
Bachelor of Commerce students who wish to follow an Honours or Major programme in Economics may meet the requirements of the Faculties of Commerce and of Arts and Science by following the programmes described below. The course descriptions for Economics courses may be found in §31.080.

Students seeking admission into the Honours programme require approval of the Department, following a recommendation from its Honours Committee.

Bachelor of Commerce students wishing to take a Minor in Economics may do so by selecting 30 credits in Economics in consultation with the Economics Department.

90 BComm Honours in Economics

Year I
6 ECON 201*, 203*
6 DESC 243, 244
6 MARK 213, FINA 214**
6 ACCO 213, 218
6 MANA 266, DESC 222

Year II
6 ECON 301, 302
6 ECON 303, 304
6 FINA 315, MARK 350
6 MANA 340, 475
6 ECON elective***

Year III
12 Chosen from ECON 401³, 403³, 408⁶, 421³, 422³, 425³, 426³, 432³, 435³, 442³, 443³
6 Chosen from 400-level ECON courses
3 DESC 250
6 MANA 460, and ECON elective in consultation with the Economics Department
3 Elective chosen from within the Faculty of Commerce and Administration or the Department of Economics

*A student who has been granted exemptions for ECON 201 or 203 must take an equivalent number of credits in Economics.

**ACCO 213 is a prerequisite and ECON 201 or 203 is a corequisite for FINA 214.

***If the student does not have a calculus course and a linear algebra course, ECON 325 and 326 should be taken at this stage.

90 BComm Major in Economics

6 ECON 201*, 203*
6 DESC 243, 244
6 MARK 213, FINA 214**
6 ACCO 213, 218
6 MANA 266, DESC 222
6 ECON 301, 302

24 Major in Finance
3 FINA 440
3 FINA 441
18 additional credits offered by the Department

12 Minor in Finance
12 400-level credits offered by the Department

FINA 214 Introduction to Finance I (3 credits)
Prerequisite: ACCO 213; ECON 201 or 203 previously or concurrently. This course deals with corporate financial analysis and planning, the management of current assets, the time value of money concept, fixed asset management and capital expenditure decisions. NOTE A/See §200.2
NOTE: Students who have previously taken FINA 314 may not take this course for credit.

FINA 315 Introduction to Finance II (3 credits)
Prerequisite: FINA 214. This course deals with sources of short and long-term financing, leasing, the cost of capital, corporate structure and valuation, dividend policy, and expansion and failure. NOTE A/See §200.2

FINA 417 Capital Budgeting Theory (3 credits)
Prerequisite: FINA 315. This course provides an in-depth coverage of analytical techniques for rational capital-investment decisions, focusing primarily on corporate rather than public-sector investments. Emphasis is placed on the analytical rather than the descriptive content of capital budgeting techniques in the Canadian tax and business environment. NOTE A/See §200.2

FINA 418 Cost Benefit Analysis (3 credits)
Prerequisite: FINA 315. Private and public resource investment, planning programming budgeting systems and associated problems. NOTE A/See §200.2

FINA 424 Personal Finance Management (3 credits)
Prerequisite: FINA 315; MARK 350; MANA 340; MANA 475; DESC 315* or DESC 250**: and 45 additional credits in the BComm or BAdmin programme. This course is designed to assist the student in making rational decisions when consulting in personal financial activities. Topics to be covered include: personal budgeting, spending pattern analysis, the proper use of credit, housing, investment (both traditional and modern), tax and retirement planning. Case studies are utilized when possible.
*For students admitted to the University effective June 1, 1986. **For students admitted to the University effective June 1, 1989.

FINA 430 Financial Management I (3 credits)
Prerequisite: FINA 315. The intent of this course is to develop skill in the identification and structuring of financial problems, in the selection of appropriate analytical techniques for their solution, and in the application of such techniques to decision-making in actual business situations. A variety of cases are used to achieve these objectives. NOTE A/See §200.2

FINA 431 Financial Management II (3 credits)
Prerequisite: FINA 430. This course continues with the objectives of FINA 430, using both comprehensive case studies in corporate financial management and "The Financial Management Decision Game".
FINA 440 Finance Theory I (3 credits)
Prerequisite: FINA 315. This course develops the fundamentals of the modern theory of finance. It focuses on how individual investors should make decisions over alternatives that have uncertain payoffs over time, given preferences vis-a-vis risk and return, as well as opportunities prevailing in real world financial markets. Among the topics covered are modern portfolio theory, asset pricing models, and the option pricing model, with applications to exchange traded options. In the latter part of the course, the performance and efficiency of modern financial markets are examined. NOTE A/See §200.2

FINA 441 Finance Theory II (3 credits)
Prerequisite: FINA 440. This course is the continuation of FINA 440; however the emphasis is on the application of finance theory to corporate decisions, focusing on the firm's investment, financing, and dividend decisions. NOTE A/See §200.2

FINA 452 Investment Analysis (3 credits)
Prerequisite: FINA 315. This course is devoted to a discussion of the investment decision under conditions of uncertainty and deals in detail with the instruments available to investors, the organization and functioning of the underlying markets, and the valuation of securities. NOTE A/See §200.2

FINA 453 Investment Management (3 credits)
Prerequisite: FINA 452. This course focuses on modern investment theory and its application to the management of entire portfolios. Topics include: (a) construction of optimal asset portfolios, (b) criteria for evaluation of investment performance, (c) active versus passive portfolio management, (d) the use of options and futures in portfolio management, (e) asset pricing models, and (f) the efficient market hypothesis. Computer exercises are assigned to illustrate the application of the theory. NOTE A/See §200.2

FINA 455 Seminar in Finance (3 credits)
Prerequisite: FINA 315. This course is intended primarily for Majors students and provides an opportunity for more intensive study in one or more specific topics of finance. The topic varies according to the special interests of the professor and the students. Students repeating FINA 455 register for more credits under Finance 456. NOTE A/See §200.2
NOTE: Specific topics for this course and prerequisites relevant in each case will be stated in the Undergraduate Class Schedule.

FINA 460 Financial Intermediaries (National) (3 credits)
Prerequisite: FINA 315. This course analyzes the essential principles of financial intermediaries - the flow of funds and the latter's relationship to interest rates is analyzed, and a study is made of the monetary policies of government and of their application on the national scene. The role of the Bank of Canada is examined and this institution's function and relationship with the chartered banks and other financial institutions is outlined. Special attention is given to the interdependencies between governments and the private sector. NOTE A/See §200.2

FINA 461 Financial Intermediaries (Quebec) (3 credits)
Prerequisite: FINA 315. This course deals with financial intermediaries in the Province of Quebec. The operations of the chartered banks, of the Caisses Populaires, and of other financial institutions operating in Quebec are demonstrated. Special attention is given to an analysis of the methods utilized by the Government of Quebec to finance its needs. The operation of Hydro Quebec and of the other government controlled entities are explained. The interdependence between the Government of Quebec and the private sector is outlined. NOTE A/See §200.2

FINA 467 (Also listed under International Business)
International Financial Management (3 credits)
Prerequisite: FINA 315. This course is designed for students to acquire and demonstrate knowledge of the fundamental principles and issues in international financial management. It covers such topics as: foreign exchange markets, exchange rate behaviour, structure and meaning of the international balance of payments, the functioning of fixed and floating exchange rate systems, short- and long-term investment and borrowing decisions, eurocurrency markets, foreign exchange risk management and capital budgeting decisions for overseas investment. In sum, the topics are covered from the perspective of an individual who wishes to know how the international financial environment will affect the firm.
NOTE: Students who have taken International Business 467 may not take this course for credit.

FINA 491 Real Estate Investment and Finance (3 credits)
Prerequisite: FINA 315. This course examines the nature of investments in real property and of real estate financing. Residential, commercial, and industrial investments are analyzed. The topics covered include factors which affect valuation, risk, and income of real estate investments and methods of financing real estate transactions, the structure of the mortgage market, the role of financial institutions, and the influence of the government on the real estate market.

**INTERNATIONAL BUSINESS**  
**Environment of World Business**  
(3 credits)

Prerequisite: ACCO 218; DESC 244; FINA 214; MANA 266; MARK 350. This is a foundation course in international business; the objective is to present information which exposes the student to cultural, social, political, economic, legal, and financial environments in which Canadian business executives manage their operations abroad. All students are encouraged to develop their own philosophy toward international business activities by developing research and analytical skills in analyzing current and long-term problems perceived in different economic systems and environments. Specific topics include empirical dimensions of world economy, economic development, international trade and investment patterns, regional economic co-operation, area studies, Canadian nationalism, and foreign investment in Canada, etc.

**NOTE:** Students who have taken International Business 362 may not take this course for credit.

**MARK 465**  
**INTERNATIONAL BUSINESS**  
**International Marketing Management**  
(3 credits)

Prerequisite: MARK 462; MARK 350. This course studies the management approach to international marketing, with emphasis on key variables that are controllable by the international marketing manager. Attention is focused on market measurement, product policy, channels, pricing, and promotion, with special emphasis on the development and control of multinational marketing strategies and programmes.

**NOTE:** Students who have taken International Business 465 may not take this course for credit.

**MARK 467**  
**INTERNATIONAL BUSINESS**  
**Marketing in Selected Parts of the World**  
(3 credits)

Prerequisite: MARK 462. This is an area study course in which selected parts of the world are covered in depth. The course demonstrates the use of sources and methodologies not typical in Canadian business research. Countries/region to be covered may include Japan, Pacific Region, the Middle East, India, China, Russia, East European Countries, Western Europe, Africa and Latin America.

**MARK 468**  
**INTERNATIONAL BUSINESS**  
**Export/Import Procedures and Organization**  
(3 credits)

Prerequisite: MARK 462. This course deals with the administration of foreign trade from a Canadian perspective with emphasis on applied techniques. Topics to be covered include world trade patterns, trade theories, export financing, custom tariffs and operation, international transportation and government export promotion services.

**MARK 492**  
**INTERNATIONAL BUSINESS**  
**Cross-Cultural Communications and Management**  
(3 credits)

Prerequisite: MARK 462. This course deals with the multicultural dimensions of international business operations. The objective is to develop Canadian managerial skills for effective performance in an international setting. Topics to be covered include international negotiations, management of multicultural personnel, cross-cultural consumer behaviour profile, cross-cultural communication, and other cultural aspects of marketing strategy.

**MANA 466**  
**INTERNATIONAL BUSINESS**  
**Management of Multinational Corporations**  
(3 credits)

Prerequisite: MARK 462; MANA 340. This is a course that demonstrates the analytical tools of operations and organization theory applicable within a multinational company. The course is designed to give students a grasp of the problems of strategy formulation and organization, and inculcates a general knowledge of the major parameters in which an international manager operates. Focus is on the Canadian, as well as other international companies based in U.S.A., Europe, Japan, etc.

**NOTE:** Students who have taken International Business 466 may not take this course for credit.
MANA 493  INTERNATIONAL BUSINESS  International Business Law  (3 credits)
Prerequisite: MARK 462 and MANA 475. This course is an introduction to international business law. The focus is Canadian but comparative material is included and problems relating to other legal systems are examined. Topics to be covered include private loans applicable to international business transactions, international sales, federal regulations, export controls and anti-dumping, export insurance, and bilateral trade agreements.

FINA 467  INTERNATIONAL BUSINESS  International Financial Management  (3 credits)
Prerequisite: FINA 315. This course is designed for students to acquire and demonstrate knowledge of the fundamental principles and issues in international financial management. It covers such topics as: foreign exchange markets, exchange rate behaviour, structure and meaning of the international balance of payments, the functioning of fixed and floating exchange rate systems, short and long-term investment and borrowing decisions, eurocurrency markets, foreign exchange risk management and capital budgeting decisions for overseas investment. In sum, the topics are covered from the perspective of an individual who wishes to know how the international financial environment will affect the firm.

ACCO 468  INTERNATIONAL BUSINESS  International Accounting  (3 credits)
Prerequisite: MARK 462; ACCO 218; FINA 315. This course examines accounting practices employed by different countries; accounting and financial control of international operations, and various consolidation procedures and their effect on the interpretation of financial statements are discussed.

NOTE: Students who have taken International Business 467 may not take this course for credit.

NOTE: Students who have taken International Business 468 may not take this course for credit.

NOTE: This course will be offered in the second term only.

**NOTE:** In order to make it possible to take the programme in twenty-four (24) credits, one or more Sociology courses will be subdivided next year.

*Students who wish to take ECON 481 without ECON 381 as a prerequisite must seek permission from the Economics Department.*
MANA 211  Business Law (6 credits)
NOTE: Commerce and Administration students may not take this course for credits.

MANA 213  Foundations of Behaviour* (3 credits)
The purpose of this course is to introduce the student to those behavioural concepts relevant to the study of organizational problems. Topics include perception, attitudes, personality, group behaviour, roles, and culture as they relate to organizational processes.
NOTE: Students who have credit for PSYCH 200 or equivalent may not take MANA 213 for credit.
*This course will eventually be phased out of the course offerings and may not be taken for credit by students admitted to the University on or after June 1, 1986.

MANA 266  Foundations of Modern Management (3 credits)
This course introduces students to the basic elements of the managerial process (e.g., planning, organizing, controlling, motivating, etc.) and presents the historical base upon which contemporary management theory and practice is built. The evolution and scope of management are considered, with illustrations from both large and small Canadian enterprises.

MANA 340  Organizational Behaviour (3 credits)
Prerequisite: MANA 266. This course is designed to provide the student with an opportunity to study individual behaviour in formal organizations. Through theoretical, case and experiential approaches, the focus of instruction progressively moves through individual and group levels of analysis. Topics covered in this course include perception, learning, personality, motivation, leadership and group behaviour. The objective of the course is to improve the student's perceptual, analytical and problem-solving skills in the diagnosis and innovative resolution of behavioural problems which are requisite for organizational performance.

MANA 341  Organization Theory (3 credits)
Prerequisite: MANA 340. The function, structure, and processes of organizations provide the focus for study. Inter-relationships among the psychosocial, technological, and formal properties of organizations are examined. Emphasis is placed on the diagnosis, analysis of organizational problems, and optimal-design alternatives for improving organizational performance and effectiveness are explored. The objective is to provide the student with a thorough understanding of the nature of contemporary complex organizations.

MANA 342  Organizational Change (3 credits)
Prerequisite: MANA 340. An administrative perspective of the behavioural and rational empirical strategies for effecting change in organizations. Emphasis is placed on an eclectic approach to the planning and implementation of change. Models and methods of change are reviewed, and opportunities for the development of change-agent skills are provided.

MANA 345  Production Management I (3 credits)
Prerequisite: DESC 314 or DESC 315* or DESC 250**. It is the production function of the enterprise that gives us the products or services that we sell. In this course, we attempt to help management guide and control this area. Topics include government programmes and incentives, health and safety regulations, production-incentive systems, management-information systems, and plant location.
*For students admitted to the University effective June 1, 1986.
**For students admitted to the University effective June 1, 1989.

MANA 346  Production Management II (3 credits)
Prerequisite: MANA 345. This course is a continuation of Production Management I and is designed to supplement the knowledge of those students choosing to Minor in Production Management. One or more of the following topics is dealt with in depth: work measurement and development of standard data for incentive systems; production planning, scheduling, and control; research and development; plant layout and materials handling.

MANA 364  Industrial Relations (3 credits)
Prerequisite: MANA 340. Labour relations is a survey course designed to provide a practical and comprehensive approach to the state of labour-management relations in Canada. NOTE A/See §200.2
NOTE: Students who have previously taken MANA 464 may not take this course for credit.

MANA 365  Collective Bargaining Negotiation (3 credits)
Prerequisite: MANA 364. This course is designed to help the student to look at day-to-day problems connected with negotiation and administration of collective bargaining agreements. The course puts some stress on the behavioural aspects of industrial relations. NOTE A/See §200.2
NOTE: Students who have previously taken MANA 465 may not take this course for credit.
MANA 368  Social Aspects of Enterprise  (3 credits)
Prerequisite: MANA 266. The purpose of this course is to facilitate understanding of the impact of social, economic, political, and ethical environments on the process of managerial decision-making. Consideration is given to the conceptual foundations of business, including the business corporation, its function, and the legitimacy of its power structure. NOTE A/See §200.2

MANA 369  Canadian Business and its Environment  (3 credits)
Prerequisite: DESC 244; ECON 203; MANA 266; MARK 213; FINA 214. The purpose of this course is to examine the functioning of Canadian business and its relationships with its public, including stockholders, consumers, employees, labour, community, and government. Major contemporary issues, such as the impact of technology on people and the physical environment, are examined. NOTE A/See §200.2

MANA 402  Supervisory Practice  (3 credits)
Prerequisite: MANA 340. A seminar focusing on the emerging understanding of leadership and supervisory techniques in task-oriented organizations. Contemporary concepts and research on leadership and supervision are examined. The seminar analyzes the multiple bases for influence and the situational or contingency aspects of leadership. A balance among the conceptual, diagnostic, and experiential approaches to the development of supervisory capability is emphasized.

MANA 409  Principles of Insurance  (3 credits)
This course examines the growth of insurance companies in Canada and their effect upon the economy. In addition, the basic fundamentals of insurance are covered, including such topics as life insurance, income replacement, annuities, group insurance, liability, auto, fire, and theft insurance. Practical applications and use of insurance dealing with both personal and business situations are noted. NOTE A/See §200.2

MANA 420  Business Research Methods  (3 credits)
Prerequisite: MANA 340, DESC 244. This seminar focuses on the means by which social and organizational data can be gathered, analyzed, and interpreted. Needs of the firm for efficient, timely, and unobtrusive research are given special attention. Topic coverage includes applications of the scientific method, research design, field research techniques, data analysis, research utilization, and use of existing information sources. Student projects parallel the classroom activities by designing and conducting business research studies of limited scale.

MANA 441  Conflict Management  (3 credits)
Prerequisite: MANA 340. This course examines the causes and consequences of conflict and alternative strategies for managing conflict. It utilizes lectures, videos, cases, interaction exercises, and videotaping to convey theory, empirical research and to enhance one's ability to effectively manage conflict.

MANA 442  Managerial Concepts  (3 credits)
Prerequisite: MANA 340. This course provides an opportunity for intense study of recent developmental topics within the discipline. Topics might include: Women in Management; Managing in Quebec; Management by Objectives; Long-range Planning; Equity Theories of Motivation; Changing Roles of Managers.

MANA 443  Compensation and Benefits Management  (3 credits)
Prerequisite: MANA 462. The purpose of this course is to provide a thorough understanding of the role, conceptual basis, procedures and methods associated with the management and administration of compensation and benefits within an organization. Issues addressing job families and ladders, salary surveys, position valuation, pay equity, incentive compensation and benefits administration are addressed.

MANA 444  Training and Development  (3 credits)
Prerequisite: MANA 462. This course examines the conceptual and practical issues regarding orientation of new employees, socialization process, learning theories, and diagnoses, training technologies, developmental strategies, and the management of the training and development function.

MANA 445  Health and Safety Management  (3 credits)
Prerequisite: MANA 462. This course examines the critical aspects of health and safety administration within organizations. It provides a brief overview of the relevant legislation and focuses upon prevention, causes, detection, intervention, reintegration, epidemiological and clinical investigation and health development. Physical and psychological aspects of health and safety are examined.

MANA 451  Managing a Small Business  (3 credits)
Prerequisite: DESC 244; ECON 203; MANA 266; MARK 213; FINA 214. This introductory course emphasizes the operational aspects of management that are uniquely important to a small enterprise. It provides opportunity to practise operational decision-making under conditions characteristic for small firms.

MANA 452  Entrepreneurship  (3 credits)
Prerequisite: DESC 244; ECON 203; MANA 266; MARK 213; FINA 214. This course provides for students the source of the basic techniques needed to start or purchase a business of their own. Consideration is given to evaluation methods, the nature of an entrepreneur, legal and tax aspects and other aspects of interest to an individual starting a venture as a career alternative.
MANA 454 Policy and Strategy for the Small Enterprise (3 credits)
Prerequisite: FINA 315; MARK 350; DESC 314 or DESC 315* or DESC 250**; MANA 340; MANA 475; MANA 451; MANA 452; and 39 additional credits in the Faculty of Commerce and Administration. This course helps the student to become familiar with problems of strategy formulation and implementation within the framework of starting and/or managing a small or medium-sized enterprise. All functions of management are considered in this context and field work is encouraged.
*For students admitted to the University effective June 1, 1986.
**For students admitted to the University effective June 1, 1989.

MANA 460 Business Policy I (3 credits)
Prerequisite: FINA 315; MARK 350; DESC 314 or DESC 315* or DESC 250**; MANA 340; and 45 additional credits in the BComm or BAdmin programme. This course is designed to introduce the student to strategy formulation and implementation. Emphasis is on integrating the learning of the programme in order to develop in students a global view of the organization. Cases are drawn from the private, public, and non-profit sectors, and consideration is given to policy problems in the small business and large corporation context, as well as the Canadian and international milieu.
*For students admitted to the University effective June 1, 1986.
**For students admitted to the University effective June 1, 1989.

MANA 461 Business Policy II (3 credits)
Prerequisite: MANA 460. This course concentrates on how the strategy formulated in Business Policy I is implemented by the organization. Organization structures are studied in differing environments. The relationships between organization structures and the organization’s strategy are analyzed. The problems encountered by general managers as well as middle managers in the process of the implementation of the set policies are studied. NOTE A/See §200.2

MANA 462 Personnel Management I (3 credits)
Prerequisite: MANA 340. The aim of the course is to provide a sound background in fundamentals, theory, principles and practice of human resource management. It focuses on the areas of Human Resource Planning, Personnel Recruitment, Selection and Placement, Performance Appraisal and Career Planning. NOTE A/See §200.2

MANA 463 Personnel Management II (3 credits)
Prerequisite: MANA 462 and two Human Resource Management Major course electives. This course is a final-year integrative seminar for Human Resource Management majors. It focuses on the philosophies underlying current Human Resource Management principles and policies and the processes of their implementation. It utilizes cases to integrate Human Resource Management areas such as recruitment, selection, training, performance appraisal, compensation and benefits administration.

MANA 466 (Also listed under International Business)
Management of Multinational Corporations (3 credits)
Prerequisite: MARK 462, MANA 340. This is a course that demonstrates the analytical tools of operations and organization theory applicable within a multinational company. The course is designed to give students a grasp of the problems of strategy formulation and organization, and inculcates a general knowledge of the major parameters in which an international manager operates. Focus is on the Canadian as well as other international companies based in U.S.A., Europe, Japan, etc.
NOTE: Students who have taken International Business 466 may not take this course for credit.

MANA 467 Management Theory — Advanced (3 credits)
Prerequisite: MANA 266. This course attempts to develop further the conceptual framework which was established in Management Theory I. To this end, it examines selected management concepts and appraise their value in terms of their application to the actual practice of business. Issues such as the effect of innovation and technological change, managing the knowledge worker, organization planning, and comparative management are considered. NOTE A/See §200.2

MANA 468 North American Labour Movements (3 credits)
Prerequisite: MANA 364. This course focuses on the evolution of the labour movements in the U.S., Canada and Quebec since 1945. The structure and philosophy of American, Canadian and Quebec unions since that date are also analyzed. The similarities and dissimilarities of the labour movements in the U.S., Canada and Quebec, their impact on society, and the emerging role of the state in union affairs are also covered.

MANA 469 Industrial Relations in the Public Sector (3 credits)
Prerequisite: MANA 364. Historically, the government plays a third party role in collective bargaining. But as the state emerges as the largest employer in advanced industrial society, its combined roles as employer and mediator demand clarification and modernization. This course analyzes the development of the state as an employer, the growth of public sector unionism, and the impact of public sector collective bargaining on the private sector. Emphasis is on the Quebec and Canadian experiences, with comparisons made to public sector industrial relations in other countries as well.
MANA 470  **Comparative Industrial Relations Systems**  (3 credits)
Prerequisite: MANA 364. This course begins by presenting and contrasting the major theories of labour-management-state competition for control of the work situation. It then moves to applying those theories to national industrial relations systems in advanced industrial capitalist societies, in developed state socialist societies, and in under-developed societies.

MANA 471  **Issues in Quebec Industrial Relations**  (3 credits)
Prerequisite: MANA 364. In this course, the focus is on industrial relations in specific industrial sectors in Quebec, stressing the impact of interests and forces outside the sector which influence the nature of industrial relations within it. The specific sectors are chosen each term by the instructor and the students in order to respond to special interests of the students.

MANA 472  **Grievance and Arbitration**  (3 credits)
Prerequisite: MANA 364. What is the nature and limits of a collective agreement? What can be covered and what not? This course discusses these questions and then goes on to analyze the grievance process and the various forms of grievance arbitration from technical and social perspectives.

MANA 474  **Institutional Administration**  (3 credits)
Prerequisite: MANA 340. Management of institutions and agencies in the non-profit (private and public) sector presents unique opportunities and challenges to the manager. This class provides an introduction to that field. Emphasis is given to those characteristics of the organization and functioning of these programmes which distinguish them from commercial firms, including the peculiar nature of human services, and the influence of social-political processes. Class activities utilize theoretical and case material and field observations. Student projects concentrate on policy formulation and administrative function in an agency of the student’s choice.

MANA 475  **Business Law I**  (3 credits)
Prerequisite: DESC 243; ECON 203; MANA 266; MARK 213; FINA 214. This course deals with the Canadian and Quebec Law governing business organizations, and the Quebec Civil Law concerning persons, property, and ownership obligations, civil responsibility, contracts in general and mandate.

MANA 476  **Business Law II**  (3 credits)
Prerequisite: MANA 475. Federal and provincial government regulation of business, including bankruptcy, anti-combines, trade marks and patents, labour law, insurance, special commercial contracts including secured transactions, fair employment, environmental law.

MANA 477  **The Law of Insolvency and Secured Transactions**  (3 credits)
Prerequisite: MANA 475. An examination of the various laws and cases, both Federal and Provincial, across Canada, governing commercial insolvency, with particular emphasis upon the liability of directors and officers, and the creditor’s rights in bankruptcy, including the role of inspectors and the trustee. An examination of the various forms of secured transactions, of which creditors may avail themselves, more particularly financial institutions, including assignment of book debts, pledge, mortgages, bonds, trust deeds.

MANA 478  **Company Law**  (3 credits)
Prerequisite: MANA 475. The examination of important legal issues relating to the business corporation, including an analysis of their legal nature and structure, and the powers, rights, and obligations of directors, officers, and shareholders, including analysis of the legal implications, insider trading, company re-organization, mergers, joint ventures, and takeovers. These matters are studied through the Federal, Quebec, and Ontario Companies’ Acts and relevant court cases.

MANA 479  **Labour Law**  (3 credits)
Prerequisite: MANA 475. A study of the law and relevant court cases dealing with major labour-management issues, including collective bargaining, union certification, strikes, lock-outs, grievances, and arbitration. Covers Canadian law, primarily that of Quebec.

MANA 480  **Transportation Policy**  (3 credits)
Prerequisite: MANA 340. This course provides an overview of the economic and institutional setting of the transportation system, including both freight and passenger operations. Government and corporate policies affecting shippers and carriers are examined, as well as policy development in a deregulated environment. This course provides an introduction to the transportation industry. The surface, both rail and road, as well as marine modes are covered in terms of the regulatory issues which impact upon the movement of freight. Attention is also given to passenger transportation in the air and bus modes.

MANA 493  **International Business Law**  (3 credits)
Prerequisite: MANA 482 and MANA 475. This course is an introduction to international business law. The focus is Canadian but comparative material is included and problems relating to other legal systems are examined. Topics to be covered include private loans applicable to international business transactions, international sales, federal regulations, export controls and anti-dumping, export insurances, and bilateral trade agreements.
MANA 499  *Special Topics in Administration*  (3 credits)
Prerequisite: Written permission of the Department. Intended to complement and supplement business
courses taken previously or concurrently, this course emphasizes business literature and modern thought.
Students are encouraged to work independently on research topics of interest to them. Students repeating
MANA 499 register for credits under MANA 498. NOTE A/See §200.2
NOTE: Specific topics for this course and prerequisites relevant in each case will be stated in the Un-
dergraduate Class Schedule.

MARK 213 The Marketing Process (Introductory) (3 credits)

Purpose/Objectives: The course examines the nature of Marketing, its role in society and the inter-relationships that are operative within the Marketing process — both externally, as related to society and the consumer, and internally as related to the organization of the Marketing process within the firm. Many of the factors influencing these relationships are examined. NOTE A/See §200.2
MARK 350  Marketing Management  (3 credits)
Prerequisite: MARK 213. Purpose/Objectives: The course is an introduction to the managerial concepts and practices of Marketing. The four basic elements of the marketing mix — the product, the price, promotion and distribution — and their interrelationships are examined. Use of the case method helps students apply these concepts to realistic marketing problems in a host of business settings, including the small business and the international environment. The course builds on the concepts presented in MARK 213 and develops in the student a critical appreciation of how the concepts and theories relate to the basic tools of marketing; the ability to manipulate these tools in an integrated fashion in a variety of business settings.

MARK 351  Transportation and Marketing Logistics  (3 credits)
Prerequisite: MARK 350. This course deals with economic principles underlying the various modes of transport: i.e., rail, water, motor, air, and pipeline. Current problems of each are discussed. In addition, a survey of the principles of business logistics are covered. Cases are utilized when possible. NOTE A/See §200.2
NOTE: Students with credits for Administration 350 may not take this course for credit.

MARK 352  Buyer Behaviour  (3 credits)
Prerequisite: MARK 213 and DESC 243. This course analyzes the motivations, roles, and behaviour of the consumers, how they are affected by economic, social, and cultural influences, and how the marketer may model this behaviour for decision-making purposes. NOTE A/See §200.2

MARK 402  Marketing Research I (Methods)  (3 credits)
Prerequisite: MARK 350 and DESC 244. The role of research in the marketing process, the role of models, and the development of measurement techniques are discussed. Emphasis is placed on the nature and scope of marketing research methods for obtaining internal and external data, and on the steps and principles involved in gathering and analyzing data. The student is also briefly introduced to applications of marketing research. NOTE A/See §200.2

MARK 452  Marketing Research II (Application)  (3 credits)
Prerequisite: MARK 402. The application of marketing research to problem areas such as advertising, sales management and product strategy. Alternative research designs are applied to actual problems. NOTE A/See §200.2

MARK 453  Advertising and Sales Promotion Management  (3 credits)
Prerequisite: MARK 350. The objectives of this course are to provide the student with an introduction to an understanding of the principles of advertising and sales promotion from three different viewpoints: the nature of services provided by advertising agencies, the needs of the users (i.e. business, institutions) of these services, the needs of society in economic, ethical and legal terms. NOTE A/See §200.2

MARK 454  Sales Management  (3 credits)
Prerequisite: MARK 350. The course deals with the theoretical and applied aspects of management of personal selling. Through cases, simulations and special presentations the student learns how to recruit, select, train, organize, motivate, evaluate, compensate, supervise, and control the sales forces. NOTE A/See §200.2

MARK 462  Environment of World Business  (3 credits)
Prerequisite: ACCO 218, DESC 244, FINA 214, MANA 266, MARK 350. This is a foundation course in international business; the objective is to present information which exposes the student to cultural, social, political, economic, legal, and financial environments in which Canadian executives manage their operations abroad. All students are encouraged to develop their own philosophy toward international business activities by developing research and analytical skills in analyzing current and long-term problems perceived in different economic systems and environments. Specific topics include empirical dimensions of world economy, economic development, international trade and investment patterns, regional economic co-operation, area studies, Canadian nationalism, and foreign investment in Canada, etc.
NOTE: Students who have taken International Business 362 may not take this course for credit.

MARK 463  Retail Management  (3 credits)
Prerequisite: MARK 350. This course seeks to apply the theories of marketing and administration to the retail situation. Topics to be covered include site selection for single and multi-unit retail outlets, organizing and staffing the retail operation, the wholesaler-retailer relationship, consumer behaviour in the retail situation. The impact of such new developments as consumer cooperatives, franchising, discounting, and computer technology on the future of retailing is also considered. NOTE A/See §200.2

MARK 464  Consumerism  (3 credits)
Prerequisite: MARK 350. The current evolution of marketing and consumerism is subjected to critical evaluation and analytical review. Problem areas which may be examined include: marketing costs and efficiency, the social objectives of and objections to marketing, the impact of marketing on the environment, the "pollution of advertising", ethics of marketers, and the role of governments in the marketplace. NOTE A/See §200.2
MARK 456 (Also listed under International Business)  
International Marketing Management (3 credits)  
Prerequisite: MARK 462; MARK 350. This course studies the management approach to international marketing, with emphasis on key variables that are controllable by the international marketing manager. Attention is focused on market measurement, product policy, channels, pricing, and promotion, with special emphasis on the development and control of multinational marketing strategies and programmes.  
NOTE: Students who have taken International Business 465 may not take this course for credit.

MARK 467 (Also listed under International Business)  
Marketing in Selected Parts of the World (3 credits)  
Prerequisite: MARK 462. This is an area study course in which selected parts of the world are covered in depth. The course demonstrates the use of sources and methodologies not typical in Canadian business research. Countries/region to be covered may include Japan, Pacific Region, the Middle East, India, China, Russia, East European Countries, Western Europe, Africa, and Latin America.  
NOTE: Students who have taken International Business 467 may not take this course for credit.

MARK 468 (Also listed under International Business)  
Export/Import Procedures and Organization (3 credits)  
Prerequisite: MARK 462. This course deals with the administration of foreign trade from a Canadian perspective with emphasis on applied techniques. Topics to be covered include world trade patterns, trade theories, export financing, custom tariffs and operation, international transportation and government export promotion services.  
NOTE: Students who have taken International Business 468 may not take this course for credit.

MARK 473 Advertising Strategy and Planning (3 credits)  
Prerequisite: MARK 352; MARK 402; MARK 453. This course deals with advanced topics in the strategic application of advertising to marketing problems and opportunities. Its major focus is the development of the advertising plan. Through case studies, assignments and group projects, the student develops a deeper understanding of the various steps involved in developing an advertising campaign in Canada, particularly strategy planning, development of objectives, creative and media planning as well as all forms of advertising research.

MARK 485 Industrial Marketing (3 credits)  
Prerequisite: MARK 350. The course focuses on the managerial aspects of industrial marketing. The concept of organization buying behaviour and its impact on marketing strategy formulation are discussed. Management of the industrial marketing mix considering product service development, intelligence, promotion, channels, and performance measurement is covered, both in existing product lines and new product-launch activities.

MARK 486 Product Management (3 credits)  
Prerequisite: MARK 350. In addition to analyzing product cycles and their characteristics and strategies which relate to each stage, this course delves into some of the more practical aspects of product policy-setting strategy formulation of the analysis, development, and execution of marketing programmes for new and existing products. This course should make the student familiar with one or more product management operations through case discussions and/or field studies.

MARK 487 International Transportation and Distribution (3 credits)  
Prerequisite: MARK 350; DESC 244. The objective of this course is to provide the student with an overview of international transportation and physical distribution marketing strategies. The course deals with matters such as the international flow of goods and people, the different international transportation modes and available equipment, physical distribution logistics, advances in transportation, distribution and communication technology which result in lower costs and time efficiency, intermodal competition and cooperation, government's roles in international transport, the international transportation regulatory environment, and international transportation facilitators such as freight forwarders, customs brokers and documentation.

MARK 488 Passenger Transportation (3 credits)  
Prerequisite: FINA 214; MARK 350. The object of this course is to make students aware that within the overall field of Transportation an important segment deals with passengers. Through the use of lectures, cases studies and project presentations, the student becomes familiar with the concepts related to this field.

MARK 490 Marketing Policy (3 credits)  
Prerequisite: MARK 213; MARK 350 and 9 additional credits in Marketing courses. A capstone course in Marketing, utilizing readings, projects, and selected case studies requiring the student to incorporate concepts and techniques of previous marketing courses in determining marketing policy. NOTE A/See 320.2

MARK 491 Special Topics Seminar (3 credits)  
Prerequisite: Written permission of the Department. This seminar is an inquiry into various selected
topics which vary from year to year. Students repeating MARK 491 register for credits under MARK 492. NOTE: See §200.2

NOTE: Specific topics for this course and prerequisites relevant in each case will be stated in the Undergraduate Class Schedule.

MARK 492 (Also listed under International Business)

Cross-Cultural Communications and Management (3 credits)

Prerequisite: MARK 462. This course deals with the multicultural dimensions of international business operations. The objective is to develop Canadian managerial skills for effective performance in an international setting. Topics to be covered include international negotiations, management of multicultural personnel, cross-cultural consumer behaviour profile, cross-cultural communication, and other cultural aspects of marketing strategy.
61.110 Transportation and Distribution Management

Minor in Transportation and Distribution Management:
- MARK 351, MANA 480
- DESC 451, MARK 468, MARK 485, MARK 487, MARK 488, ECON 495

NOTE: This minor is available to Commerce and Administration students only.

61.120 Administration

ADMI 201 Introduction to Administration (Administered by the Finance Department) (3 credits)
This course is intended to develop a basic understanding of the role of administration in our society. The course includes a survey of different forms of organizations, their social and legal responsibilities, and how they function to achieve their goals.

NOTE: Commerce and Administration students may not take this course for credit.

ADMI 202 Perspective on Business (Administered by the Finance Department) (3 credits)
This course is designed to review the historical development of business (in Canada in particular) and to examine the relationships between the firm (management) and the owners, the employees, the customers, the government, and the community. Further, it studies some of the problems facing Canadian business today: the dehumanizing aspect, pollution problems, large vs. small firms, foreign ownership, competition, etc.

NOTE: Commerce and Administration students may not take this course for credits.

61.130 Business Communications

BUSC 300 Business Communications (3 credits)
This course focuses on the principles and techniques of clear, concise, and effective, written and oral communication, especially as they apply to business. The formal, grammatical, and stylistic elements of written and oral business communication are emphasized. Students are also instructed in, and experience, the use of audiovisual means of communication.
61.140 Business Studies

CERTIFICATE IN BUSINESS STUDIES

This programme is not open to students registered in a programme leading to the degrees of Bachelor of Commerce or Bachelor of Administration.

Students may transfer into the Certificate programme up to twelve credits earned in an incomplete degree or certificate programme or as an Independent or Special student, provided they are students in good standing. The credits that may be so transferred are determined by the University at the point of entry into the programme.

Admission Requirements

a) Diploma of Collegial Studies or the equivalent; MATH 208 and 209 or the equivalent.

b) Mature Students: MATH 206, 208, 209 or the equivalent, and a minimum of two years business experience in a supervisory capacity.

30 Certificate in Business Studies
18 ACCO 213*, ECON 201*, FINA 214*, MANA 266, MARK 213, DESC 243
12 Chosen from ACCO 218, ECON 203, FINA 315, MARK 350, DESC 222, DESC 244

*Please note that ACCO 213 is a prerequisite and ECON 201 or 203 is a corequisite for FINA 214.

MINOR IN BUSINESS STUDIES

NOTE: This programme is not open to students registered in a programme leading to the degrees of Bachelor of Commerce or Bachelor of Administration.

Admission Requirements

MATH 208 and 209 or equivalent courses.

30 Minor in Business Studies
18 ACCO 213*, ECON 201*, FINA 214*, MANA 266, MARK 213, DESC 243
12 Chosen from ACCO 218, ECON 203, FINA 315, MARK 350, DESC 222, DESC 244

*Please note that ACCO 213 is a prerequisite and ECON 201 or 203 is a corequisite for FINA 214.

61.150 Computer Science

For a Major in Management Information Systems See §61.50

61.160 Special Certificate Programmes

There are many organizations within the business community designed to serve the needs of people working in specialized areas of business. These organizations recognize that the educational qualifications of those seeking membership must be continually upgraded. Therefore, they sponsor an Academic Certificate which may be obtained through correspondence courses, or through a lecture programme.

The Faculty of Commerce and Administration cooperates with these business organizations by permitting personnel to register as Special (partial) students, and to take courses leading to a certificate to be awarded by the organization concerned.

Students must comply with the University regulations regarding dates of application and Visiting Commerce student entrance requirements as outlined in the Academic Calendar §11. In addition, they must meet the requirements of the specific organization.

The credit course taken may be applied towards the Bachelor of Commerce degree, provided the student meets the admission requirements and wishes to transfer from Visiting Commerce status to undergraduate status after completing a certificate programme. Students are advised that they must meet the Bachelor of Commerce curriculum requirements in force at the date of transfer.

Each certificate programme has one or more special courses required to complete the programme. These courses do not carry credit toward a Bachelor’s degree and are designated as non-credit courses.

Students interested in the following certificate programmes may obtain details of required courses from the organization concerned:

The American Marketing Association (Montreal Chapter)
The Institute of Canadian Bankers
The Association of Human Resources Professionals of the Province of Quebec
The Insurance Institute of Canada
The Trust Companies Institute of Canada
Professional Secretaries International (CPS)
The Canadian Institute of Management
61.170 Special Programmes in Accountancy

The three professional organizations listed below recognize certain Concordia University courses for course exemptions or standing in their professional designation programmes.

L'ORDRE DES COMPTABLES AGREEES DU QUEBEC: Chartered Accountant (CA)
The Faculty of Commerce and Administration offers a Diploma in Accountancy which has been approved by the Order of Chartered Accountants of Quebec. Entry into the programme normally requires a Bachelor's degree in Commerce, and a Major in Accountancy with high academic standing. Applicants lacking an appropriate pattern of undergraduate work will be required to complete successfully certain qualifying courses, as assigned by the Director of the diploma programme. For further details, refer to the Concordia University Graduate Studies calendar.

LA CORPORATION PROFESSIONNELLE DES COMPTABLES EN MANAGEMENT ACCREDITES DU QUEBEC: Certified Management Accountant (CMA)
Students who wish to follow the CMA programme must register with La Corporation professionnelle des comptables en management du Quebec, 555, boulevard Rene-Levesque, Suite 724, Montreal, Quebec H2Z 1B1, Tel: 875-8621. A table of courses equivalencies for CMA and Concordia courses is shown below.

**NOTES:**

1. This equivalence table is subject to amendment by the Corporation.
2. A minimum grade of C (60%) is required to obtain an exemption from the Corporation for any of the above courses. Students taking university courses must satisfy the necessary prerequisite courses.
3. The Final Accreditation Examinations of the Society of Management Accountants of Canada are mandatory. Coaching seminars for these courses are encouraged prior to writing this Final Accreditation Examination. A student may not sit for the Comprehensive Examination until all other Corporation courses or their equivalents have been successfully completed.
4. Students completing the Bachelor of Commerce degree programme with the following sequence of courses will be eligible to write the final accreditation exams of the Corporation:
   - ACCO 323;
   - ACCO 326;
   - ACCO 335;
   - ACCO 363;

71.10 Faculty of Engineering and Computer Science

71.10.1 PROGRAMMES OFFERED
The following programmes are offered in the Faculty of Engineering:
2. Bachelor of Computer Science degree.
*The BEng degree in Building Engineering may be combined with a Master's degree in the same discipline.

The requirements for the programmes are different, and the appropriate section in the following pages must be consulted for each.

71.10.2 ADMISSION REQUIREMENTS
General Admission requirements are listed in §13.
In addition, the following specific requirements exist for the various programmes. Applicants should specify their choice of programme on their application.

Students entering the Faculty of Engineering and Computer Science are presumed to have acquired some familiarity with computers and programming, either through a course or through time spent working with a personal or other computer.

APPLICANTS FROM QUEBEC INSTITUTIONS
Successful completion of a two-year pre-university CEGEP programme is required, including the specific courses in the appropriate profile, as follows:

1. BEng (all programmes)
   BCompSc (all options except Information Systems)
   CEGEP Profile 10.10
   Mathematics - 103, 105, and 203

   Physics - 101, 201 and 301
   Chemistry - 101 and 201
   Biology - 301

2. CompSc (Information Systems Option)
   Certificate in Quality Control
   Minor in Computer Science
   CEGEP Profile 10.12
   Mathematics - 103, 105 and 203

Applications from graduates of CEGEP technology programmes will also be considered. Programme requirements for successful applicants will be determined on an individual basis.

APPLICANTS FROM OUTSIDE QUEBEC
Academic qualifications presented by students applying from institutions outside Quebec should be comparable to those expected of students applying from within Quebec.
Where the pre-university education is shorter than in Quebec, students may be considered for admission to the first year of the Extended Credit Programme. (See 13.4.2 to 13.4.6, 71.20.3 and 71.80.3)

MATURE ENTRY
Admission requirements are listed in §14.

71.10.3 ACADEMIC REGULATIONS
Students should refer to the section presenting the Academic Regulations of the University, §16.
Definitions
Assessable courses: All record entries of courses listed in this Concordia calendar for which a grade point value is specified in §16.3.2.
However, any course which is a requirement for admission to a programme offered by the Faculty of Engineering and Computer Science will not be counted unless specifically listed on the student's admission letter.
Dean's office: Appropriate member of the Dean's office, normally, the Associate Dean.

Programme of Study: Course requirements in effect at the time of the latest admission or re-admission to a programme, for example, BEng (Civil) or BCompSc (General Science) or Certificate in Quality Control, including modifications on individual basis as specified or approved in writing by the Dean's Office, or the Student Request Committee of Faculty Council.

Grade Points: As defined in Section 16 of this calendar.

Weighted Grade Point Average (WGPA): As defined in Section 16 of this calendar. A grade obtained as a result of writing a supplemental examination and/or completing the work for a course graded INC or MED is included as part of the assessment period in which it is recorded.

Academic Year: A period of time which includes a Summer and its subsequent Fall and Winter terms.

Objectives
The objectives of these regulations are:
a) to ensure that the Faculty can certify that all of its graduates are qualified to enter their profession, and
b) to ensure that students can, with the assistance or intervention of the Faculty, assess themselves objectively, and plan programmes of study designed to meet their individual needs.

Grading System
See §16.3.2 for the Concordia grading system.

NOTE: Although a C- grade is designated as Satisfactory, a weighted grade point average of 2.00 is required for Acceptable Standing in the Faculty of Engineering and Computer Science.

Regulations

1. Students' standings are assessed at the end of each academic year providing they have registered for at least 12 credits subsequent to their previous assessment, or in the case of a first assessment, subsequent to their admission to a programme of study.

   Standings of students who have attempted less than 12 credits since their last assessment are assessed as follows:
   a) The standings of potential graduates are determined on the basis that these credits constitute an extension of the last assessment period.
   b) The standings of other students are determined at the end of the academic year in which they have attempted a total of at least 12 credits since their last assessment.

2. Students' standings are determined according to the following criteria.

Acceptable Standing:
A WGPA of at least 2.00 for the assessment period.

Students in Acceptable Standing may proceed subject to the following conditions: any failing grade must be cleared by passing the supplemental examination, if one exists, and/or completing the work for the course or by repeating the failed course or in the case of an alternative, by replacing the failed course by an alternative within the same group of electives. Any variation must be approved by the Dean's Office.

Conditional Standing:
A WGPA of at least 1.50 but less than 2.00 for the assessment period.

Students in Conditional Standing may not write supplemental examinations or complete work graded incomplete but may proceed subject to the following conditions.

a) They must repeat successfully all courses in which failing grades were obtained, or replace them by alternatives approved by the appropriate member of the Dean's Office in consultation with the student's department.

b) They must repeat or replace by approved alternatives at least one-half of those courses in which they obtained grades in the "D" range. The specific courses to be repeated will be determined by the appropriate member of the Dean's Office in consultation with the student's department.

c) Courses to be taken may be specified by the Dean's Office. In no case will the number exceed five per term for full-time students and two per term for part-time students.

d) They must obtain Acceptable Standing at the time of their next assessment.

Failed Standing:
Failure to meet the criteria for Acceptable or Conditional Standings, or Conditional Standings over two consecutive assessments.

Failed students may not write supplemental examinations or complete work graded incomplete: they are subject to the following regulations.

1. Failed students who are not subject to regulation 2 below may apply for readmission through the Dean's Office. If readmitted, they will be placed on academic probation. They must return to Acceptable Standing at the time of their next assessment. Other conditions will be determined at the time of readmission.

2. Failed students who were previously classed as failed students must withdraw from the University.

Availability of Supplemental Examinations

1. Supplemental examinations are available only to students in Acceptable Standing who have the F grade in a course for which such an examination is offered.

2. Except as specified in 4 below, otherwise approved by the Faculty Council for individual courses, supplemental examinations are available in all 200- and 300-level courses offered by the Faculty.

3. Supplemental examinations are available in those 400-level courses offered by the Faculty for which:
   a) it is required that a student pass the final examination as a condition for passing the course, or
   b) the final examination contributes at least 50% of the mark producing the final grade for the course.

4. Supplemental examinations are not offered in Computer Science courses at the 200-level other than COMP 201 and COMP 212.
71.10.4 REGISTRATION REGULATIONS
1. Students (other than failed students) whose registration in the programme has lapsed for 30 consecutive months or more must apply to the Dean’s Office in order to have their curriculum obligations re-evaluated as per paragraph 2 of §16.2.1 of this calendar. Permission to register will be granted only upon presentation of the results of this re-evaluation.
2. The maximum Regular Session course load for full-time students in the regular programmes is three more than one-third of the total credits for their particular option as specified in subsequent sections.
3. The maximum Regular Session course load for full-time students in the Extended Credit and Mature Student programmes is 30 credits until they have completed all the courses required beyond those specified for their particular option in subsequent sections.
4. The Fall and Winter term course loads of full-time students may be unbalanced by up to three credits without permission; further differences between the two terms require the permission of the appropriate Associate Dean, or delegate.
5. Except for students registered for the co-operative format, the maximum load in a Summer Session is 8 credits, with no more than 4.5 credits in either of its terms.

71.10.5 GRADUATION REGULATIONS
Students must be in Acceptable Standing and satisfy the requirements specified for the academic programme in which they were admitted. The structure and courses of the programme may change in the period between admission and graduation due to curriculum development, but students remaining in Acceptable Standing are not required to complete more credits than were required at the time they were admitted.

71.10.6 AVAILABILITY OF PROGRAMMES
Full-time students in the Engineering programme will choose a 6- or 8-term sequence. Due to the heavy workload involved, 6-term sequences are only recommended for the exceptional student. In general, introductory level courses are offered in both Day and Evening. Subject to Registration Regulations in §71.10.4 above, a student may register on a part-time basis. Students may complete the first third of their programme at the Loyola Campus. They must transfer to the Sir George Williams Campus for the final two thirds. Further information on sequencing may be found in the Programme Guide issued by the Office of the Associate Dean.

71.10.7 SCHEDULING OF COURSES
A programme guide indicating course schedules for both the BEng and BCompSc programmes, including Mature Entry and Extended Credit programmes, and also for the Certificate in Quality Control, is available from the Associate Dean’s Office.

71.10.8 THE CO-OPERATIVE FORMAT
A limited number of high ranking students entering the first year of the regular programme leading to the Bachelor of Computer Science degree and the Bachelor of Engineering degree in Building Engineering are permitted to undertake their studies in the co-operative format in conjunction with the Institute for Co-operative Education, see §31.515.

While the academic content is identical to that of the regular programmes, an annual WGPA of at least 3.00, with no failure in work term reports, is required for students to continue their studies in a co-operative format in the Faculty of Engineering and Computer Science.

For additional information, please refer to Sections 31.515 and 71.30 (Building Engineering) or 71.80 (Computer Science).

71.20 Bachelor of Engineering

71.20.1 CURRICULUM FOR THE DEGREE OF BACHELOR OF ENGINEERING
The University offers programmes leading to the degree of Bachelor of Engineering in the fields of Building, Civil, Computer, Electrical, Industrial and Mechanical Engineering. Students enrolled in the BEng programme in Building Engineering may, after the completion of all but one of their 200 and 300 level courses, apply through the Associate Dean to enter a combined degree programme leading to the joint award of a Bachelor’s and Master’s degree in this field.

The BEng degree requires completion of a minimum of 115.5 to 118.5 credits depending on the programme chosen. Course requirements comprise a group of required courses with a group of elective courses which allow students to select part of their programme to provide some depth in an area of specialization according to their particular interests, or breadth in the general field of their chosen discipline.

Students may register for courses beyond the introductory (200) level only if they have completed, or will have completed in the current academic year, all the 200-level courses required for their programme. They must complete the requirements for their degree in a maximum of four academic years after that in which they first register for courses beyond the 200-level. Students failing to satisfy this requirement are withdrawn from the programme; they may be granted permission by the Dean’s Office to continue in the programme for one additional year provided they are eligible to apply for re-admission according to the regulations in §71.10.3.

In their final undergraduate year, students with high standing may apply for permission through the Associate Dean’s Office to register for a limited number of graduate courses offered by the Faculty in lieu of some courses in the undergraduate programme.
Successful completion of a BEng programme requires hard work and considerable dedication on the part of each student. Courses are presented with the expectation of an average of about two hours of “outside” work for each lecture hour and about one-half hour of “outside” work for each hour spent in the laboratory for all programmes of study.

71.20.2 EXTENDED CREDIT PROGRAMME
Students admitted to an extended credit programme under the provisions of Sections 13.4.2 or 13.11 must successfully complete the requirements of a specific programme, as set out in §71.30 to 71.60, plus the following courses:

a) Building, Civil, Industrial and Mechanical Engineering:
- MATH 202, 203, 204, 205
- PHYS 204, 205, 224, 225
- CHEM 205
- COMP 201
It is expected that students admitted after 1989 will also be required to complete six credits chosen from courses in the humanities and social sciences if they do not have credit for such courses at the post-secondary level.

b) Electrical and Computer Engineering: The courses specified in a), plus PHYS 206

71.20.3 ACCREDITATION BY THE CANADIAN COUNCIL OF PROFESSIONAL ENGINEERS
The baccalaureate degree programmes in Civil, Building, Computer, Electrical, Industrial and Mechanical Engineering are accredited by the Canadian Accreditation Board of the Canadian Council of Professional Engineers. The Board has recommended to the Constituent Associations of CCPE that graduation from the above curricula be considered as sufficient academic qualification for purposes of registration in all Provinces and Territories in Canada.

71.20.4 MEMBERSHIP IN THE ORDER OF ENGINEERS OF QUEBEC
The Ordre des Ingénieurs du Québec (O.I.Q.) has fully accredited the Bachelor of Engineering curricula in Building, Civil, Computer, Electrical and Mechanical Engineering, and will admit graduates of these five programmes as members according to the Engineers Act and the O.I.Q. By-Laws, providing applicants can complete the French language requirements. Industrial Engineering, which was an accredited option of the Mechanical Engineering curriculum until 1989-90, is now a separate Option of the Bachelor of Engineering degree and accreditation will be sought for it before students first graduate from it.

Quebec law now requires that candidates seeking admission to provincially-recognized Quebec professional corporations (such as the Ordre des ingénieurs du Québec) possess an appropriate knowledge of the French language. Such knowledge is deemed appropriate when candidates can demonstrate either:

a) that they have had three years of schooling in the French language, on a full-time basis, at or above the secondary school level, or
b) that they have taken and passed one of the following courses at Secondary IV or V level: Français 412, 416, 422, 426, 432, 512, 522, 526, 532, 542, 552 (courses that have the same numbers and are entitled French are not acceptable).

Otherwise, the candidates must pass the test prescribed by the Office de la langue française.

Information on this testing programme of the Office de la langue française may be obtained by writing to: Office de la langue française, 800 Place Victoria, 13e étage, C.P. 316, Montréal, Québec, H4Z 1G8, telephone: 873-8361.

71.20.5 DEGREE REQUIREMENTS
To be recommended for the degree of Bachelor of Engineering, students must satisfactorily complete the courses of the Engineering Core as well as those specified for their particular programme in subsequent sections in accordance with the graduation requirements in §71.10.5.

Engineering Core
- EMAT 212(a) Calculus and Differential Equations 3.00
- EMAT 232(a) Matrices and Advanced Calculus 3.00
- EMAT 391 Numerical Methods in Engineering 3.00
- ENCS 281(a) Technical Writing 2.00
- ENGR 212(a) Technical Drawing 2.00
- ENGR 273(a) Basic Circuit Analysis 3.75
- ENGR 371 Probability and Random Processes in Engineering 3.00
- ENGR 402 Engineering Law 1.50
- ENGR 410(b) Technical Report Social Aspects of Engineering electives 6.00

Total 28.75

Social Aspects of Engineering group(c):
- ENGR 491 Engineers and Society 3.00
- ENGR 492 Historical Impact of Technology on Society 3.00
- ENGR 493 Engineering Resources and Environment 3.00
- ENGR 494 Effect of Technology on the Person 3.00
- ENGR 495 Technology Assessment and Control 3.00
- ENGR 496 Science Policy and Engineering Innovation 3.00
- ENGR 497 The Management of Transition to an Information Society 3.00
NOTES:
(a) Offered in both Day and Evening.
(b) To be submitted at the beginning of the academic year in which the student expects to graduate.
(c) Students in Building Engineering must successfully complete BLDG 481 as part of the 6 credit requirement. (For all students, 3 of these 6 credits may be replaced by a specified course or courses in French, or by other non-technical courses subject to the approval of the Associate Dean. A list of such courses is available from the Office of the Associate Dean.)
Building Engineering, as a discipline, encompasses the body of knowledge which pertains to all phases in the life-cycle of a constructed facility, namely conception, planning, design, construction, operation and disposal. Concordia has developed a unique undergraduate programme leading to a BEng in Building Engineering designed to meet the needs of the construction industry for engineers familiar with the overall design of built facilities.

In addition to the basic engineering sciences, the programme emphasizes the fundamentals of building materials, structural analysis and design, building services (acoustical, heating, lighting, air conditioning), economics and project management. The student also has available certain electives which will be of use in the design of various phases of a building.

Students who complete all but one of their 200 and 300 level courses with a sufficiently high standing may apply through the Associate Dean, Academic Programmes to enter a combined programme leading to the joint award of both a BEng and an MEng degree in Building Engineering. It is expected that those who aspire to leadership roles within the building industry will enter such a combined programme. The combined programme requires a further 12 months of full-time study, after which graduates will not only have obtained further grounding in the basics, but will also have specialized in one of four branches: Building Science, Building Environment, Building Structures, Construction Management. For details of the Graduate Component, refer to the graduate calendar.

**71.30.1 COURSE REQUIREMENTS**

The programme in building engineering consists of the Engineering Core, the Building Engineering Core, and a further 12 elective credits chosen from a specified group of courses. The normal length of the programme is 116.50 credits.

**Engineering Core (28.75 credits)**

See § 71.20.5. Note that students in the BEng (Bldg) programme must replace one of the required Social Aspects courses with BLDG 461.

### 71.30.2 THE CO-OPERATIVE FORMAT

**Director**

CEDRIC MARSH, Professor

Students entering the programme leading to the Bachelor of Engineering degree in Building Engineering may request permission to undertake their studies in the co-op format by following the application procedure specified in §31.515.

Academic content is identical to that of the regular programme, but seven study terms are interspersed with four work terms. Students in Building Engineering will complete between 15 and 18 credits in each study term to obtain the required 116.5 credits for a BEng (Building).

Each student is supervised personally and must meet the requirements specified by the Faculty of Engineering and Computer Science and the Institute for Co-operative Education in order to continue their studies in the co-op format.

Liaison between the student, the employers and the Institute for Co-operative Education is provided by the Building Engineering Co-op Committee, which includes the student’s advisers.

Please refer to §31.515 for the schedule of study and work terms and the full description of admission requirements.
Civil Engineering is primarily concerned with the creation of the complex systems of construction facilities for sound economic growth of the community. In a broad sense, civil engineers learn to control and modify the environment effectively so as to satisfy the needs and desires of society. Their responsibility for design ranges from foundations and superstructures of our common structures such as buildings, bridges, dams, tunnels, wharves, etc., to many unusual structures such as rocket installations, containment vessels for nuclear reactors, supports for radio telescopes, frameworks for aircraft. In addition, civil engineers are concerned with the engineering aspects of water resources, rivers, harbours, irrigation and drainage; with the disposal of wastes and the control of the quality of air and water; with highways, railroads, airports and other transportation facilities; with measuring, mapping and interpreting the physical conditions of the surface of the earth; and with planning metropolitan areas and conducting and managing their public facilities.

The programme is designed so that students, after having obtained grounding in the fundamentals of Civil Engineering, may specialize in one of two options.

71.40.1 COURSE REQUIREMENTS
The programme in Civil Engineering consists of the Engineering Core, the Civil Engineering Core, and one of the options described below. The normal length of the programme is 116.00 credits.

Engineering Core (28.75 credits)
See §71.20.5.

The Department of Electrical and Computer Engineering offers two distinct programmes, one of which leads to the Bachelor of Engineering in Electrical Engineering, the other to the Bachelor of Engineering in Computer Engineering.

Electrical Engineering is concerned primarily with energy and information: their conversion, transformation and transmission in the most efficient, convenient and reliable manner. Computer Engineering, on the other hand, focuses more directly on the design and use of computer technology for information processing.

Computer and electrical engineers are involved in the processing and transmission of information. The revolution in electronics which began some forty years ago with the invention of the transistor, and which continues today through the advent of the microprocessor, has had a profound impact not only on our capability to communicate with each other or to store masses of easily retrievable information about ourselves, but also on our ability to construct "intelligent" machines. This production both of new devices, and of sophisticated applications for these devices (for example in bio-medical engineering) continues apace. While contributing to what has been, and will continue to be, a major transformation in the structure of our society, electrical and computer engineers may, in the course of their careers, be engaged in a variety of activities: research, development, design, manufacture, operation, maintenance, control, and marketing of devices and systems. In so doing, they will be called upon to assist or direct the efforts of other engineers, individuals or groups of people of widely varying backgrounds and abilities.

Electrical engineers are also involved in the conversion of energy from its original mechanical, thermal, nuclear, wind or solar form to electricity. They have primary responsibility for the design and control of continent spanning power grids which are used to transport this energy from generating stations to the consumer, as well as for designing efficient converters which will transform this energy back into forms which meet the needs of the user for heat, refrigeration, light, electromechanical devices of all types, and for the running of a host of electronic communications and data processing systems.

Therefore, electrical and computer engineers must receive a professional education of great breadth and depth. Great emphasis is placed at Concordia on giving the student a solid foundation in mathematics, electrical and computer engineering fundamentals and design techniques so that they will be equipped both to contribute...
and to respond to a rapidly evolving technology. Of equal importance, though much less time is devoted to it in the curriculum, is the fostering of an awareness of the interaction of the profession and the society it serves, and of the ability to communicate effectively both with colleagues and with fellow citizens.

### 71.50.1 COURSE REQUIREMENTS (BENG IN ELECTRICAL ENGINEERING)

The programme in Electrical Engineering consists of the Engineering Core, the Electrical Engineering Core shown below, and one of three elective options. The normal length of the programme is 115.50 credits.

**Engineering Core (28.75 credits)**

See §71.20.5.

The Department of Mechanical Engineering offers two distinct programmes, one of which leads to the Bachelor of Engineering in Mechanical Engineering, the other to the Bachelor of Engineering in Industrial Engineering.

As in all branches of professional engineering, mechanical engineers are concerned with the creation of devices, systems, structures, and processes for human use. Their task is to apply scientific, mathematical, economic and social knowledge to satisfy specific needs. The services required of mechanical engineers encompass a very wide range of professional activity, such as design, research, development and management carried out in environments of equally diverse nature, such as industry, medicine, private practice, university and government.

Representative fields of endeavour for mechanical engineers include all forms of power generating equipment (hydro-electric, steam, internal combustion, nuclear, jet rocket, fuel cells), the design of mechanisms and machines, transportation systems, controls and automation, vibration analysis, environmental control (heating, ventilation and refrigeration), materials handling and precision measurement.

Any of the specific fields may involve the design, construction and control of machines and equipment as well as the research and development of new processes, materials and techniques.

In view of the very wide range of activities in the field, the mechanical engineering curriculum consists of a combination of core courses with a series of technical electives. Strong emphasis is given to building on the principles presented in the basic engineering science and physical systems courses of the Engineering Core. Further core courses are taken by all mechanical engineering undergraduates and deal with topics basic to the field, including thermodynamics, fluid mechanics, machine design and metallurgy. Technical electives allow students to obtain some specialization in a particular area of the field, depending on their interests and expected future professional activity. Three options are available in Thermo Fluid and Propulsion Engineering (Option A), Design and Production Engineering (Option B), and in Automation and Control Systems (Option C).

Industrial Engineering can be defined as "the design, organization, analysis and integration of people and industrial systems components for the purposes of achieving or enhancing industrial effectiveness." These components include whole machines, transportation and conveyance elements, physical plants, organizational frameworks, schedules and budgets.
Distinguishing industrial engineers from other classical branches of engineering is the attention to, and synthesis of, the role of people in the design and analysis of engineering systems. The Industrial Engineering curriculum is therefore designed to give students the background needed to define and solve problems related to the conception or improvement and implementation of integrated industrial systems involving people, materials and money.

### Course Requirements (BEng in Mechanical Engineering)

The programme in Mechanical Engineering consists of the Engineering Core, the Mechanical Engineering Core and Option Requirements as shown below. The normal length of the programme is 117.75 credits.

#### Engineering Core (28.75 credits)

### Option Requirements

Students in the Mechanical Engineering programme must complete 16.50 elective credits in either option A, B or C. Prior to registering for courses in one of these option cores, students must indicate to the Department Chair their choice of option. This choice is to be noted on a form available from the Department and submitted to the Chair's office for approval prior to March 15th.

#### 1. Option A — Thermo Fluid and Propulsion

Students must complete a minimum of 16.50 credits from the following courses, including at least two of the courses marked *.

<table>
<thead>
<tr>

For equivalent course numbers under the old system, please consult the 1981-82 Undergraduate Calendar. Students who have taken a given course under an old number may not repeat it for credit under an equivalent number.

Engineering Mathematics

**EMAT 212  Calculus and Differential Equations** (3 credits)
Prerequisite: MATH 204 (CEGEP Mathematics 105) previously or concurrently; MATH 205 (CEGEP Mathematics 203). Introduction to ordinary differential equations, with applications to engineering problems. Functions of several variables: differentiation and multiple integrals. Lectures: 3 hours per week. Tutorials: 2 hours per week.

**EMAT 232  Matrices and Advanced Calculus** (3 credits)
Prerequisite: EMAT 212 previously or concurrently. Review of matrix algebra; solution of systems of linear differential equations with examples drawn from physical systems; vector spaces, characteristic value problems, Cayley-Hamilton theorem with applications. Vector calculus: Gradient, Divergence, Curl, Green's Theorem, Divergence Theorem, Stokes Theorem. Lectures: 3 hours per week. Tutorials: 2 hours per week.

**EMAT 252  Complex Variables** (3 credits)
Prerequisite: EMAT 212; EMAT 232 previously or concurrently. Algebra of complex numbers in Cartesian and polar forms; functions and inverse functions of complex variables. Derivatives and Cauchy-Riemann, analytic and harmonic functions. Exponential, trigonometric, hyperbolic and logarithmic functions. Complex line integrals, Cauchy-Goursat theorem, Cauchy integral formula. Taylor's and Laurent's series. Residue theorem and applications. Lectures: 3 hours per week.

**EMAT 271  Applied Probability and Statistics** (3 credits)

**EMAT 272  Advanced Probability and Statistics** (3 credits)
Prerequisite: EMAT 271. Time series analysis, regression and correlation analysis, forecasting and smoothing techniques. Extreme value statistics, Monte Carlo simulation, reliability analysis. Applications to general engineering and industrial engineering problems. Lectures: 3 hours per week.

**EMAT 311  Transform Calculus and Partial Differential Equations** (3 credits)
Prerequisite: EMAT 222. Elements of complex variables. The Laplace transform: Laplace transforms and their properties, solution of linear differential equations with constant coefficients. Further theorems and their applications. The Fourier transform: orthogonal functions, expansion of a function in orthogonal functions, the Fourier series, the Fourier integral, the Fourier transform, the convolution theorem. Partial differential equations: physical foundations of partial differential equations, introduction to boundary value problems. Lectures: 3 hours per week.

**EMAT 312  Laplace Transforms and Advanced Differential Equations** (3 credits)

**EMAT 391  Numerical Methods in Engineering** (3 credits)
Prerequisite: EMAT 232; COMP 212 or COMP 293. Roots of algebraic and transcendental equations; function approximation; numerical differentiation; numerical integration; solution of simultaneous algebraic equations; numerical integration of ordinary differential equations. Lectures: 3 hours per week. Tutorials: 1 hour per week.

Engineering and Computer Science

**ENCS 245  Mechanical Analysis** (3 credits)
Prerequisite: PHYS 204 and PHYS 224 (CEGEP Physics 101); EMAT 212 previously or concurrently. Forces in a plane and in space, moments of forces, Varignon's theorem, rigid bodies in equilibrium, free-body diagram. Centroids, centres of gravity. Distributed forces, moments of inertia. Principle of
virtual work. Kinematics of particles and rigid bodies. Forces and accelerations; work and energy; impulse and momentum. Kinetics of particles and rigid bodies. Lectures: 3 hours per week. Tutorial: 1 hour per week.

ENCS 281 Technical Writing (2 credits)

ENCS 454 Introduction to VLSI (4 credits)
Prerequisite: COMP 325 or COEN 414. Review of IC development and realization of logic elements. CMOS inverter, logic levels, power and speed considerations, area of implementation. Electrical analysis using SPICE, input, output, delay time and loading. CMOS NAND/NOR gates, fan-out limitations and layout considerations. Simple CMOS process, design rules and layout exercises. CMOS logic system design and analysis using SPLICE. Logic simulation and testing specification of input, output and delay for fault simulation. Other CAD facilities for logic simulation and testing. Gate arrays and semi-custom CMOS design considerations. CMOS dynamic VLSI circuits; CMOS memories. NMOS dynamic and static circuit design; NMOS memories. Hierarchical approach to digital design of VLSI circuits. Lectures: 3 hours per week. Laboratory: 2 hours per week.

ENCS 455 Introduction to VLSI Architecture (4 credits)
Prerequisite: COMP 325 and COMP 326 or COEN 416 previously or concurrently. Introduction to VLSI technology. Synchronous system design. Computational structures and algorithms. Applications of VLSI to problem solving. Lectures: 3 hours per week. Laboratory: 2 hours per week.

ENCS 456 VLSI Technology (3 credits)
Prerequisite: ELEC 312 previously or concurrently. Introduction to basic VLSI technologies such as crystal growth, epitaxy, dielectric and polysilicon film deposition, diffusion, ion implantation, lithography, metallization, VLSI process integration, assembly techniques and packaging, yield and reliability. Lectures: 3 hours per week.

ENCS 471 Algorithmic Aspects of Robotics (3 credits)
Prerequisite: COMP 224 and COMP 285, or ENCS 245; ENGR 274. Robot perception. Task planning. Kinematics. algorithmic aspects. Lectures: 3 hours per week.

ENCS 472 Robot Manipulators (3.75 credits)
Prerequisite: ENCS 245; ENGR 274. Spatial descriptions and transformations. Manipulator forward and inverse kinematics. Jacobians: velocities and static forces. Manipulator dynamics. Trajectory generation. Position control of manipulators. Force control of manipulators. Robot programming languages. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

Engineering
ENGR 212 Technical Drawing (2 credits)
Lettering, instruments, drawing practices; orthographic projections; pictorial views; isometric views, perspectives, sectional views, auxiliary views; dimensioning practices; working drawings: standard components, drawings of steel and concrete structures, mechanical and piping drawings, electrical and architectural drawings. Lectures: 2 hours per week. Tutorial: 2 hours per week.

ENGR 213 Descriptive Geometry (2 credits)
Prerequisite: ENGR 212. Spatial relationships of points, lines, planes, and solids. Application to pictorial representation of three-dimensional objects, intersections of planes and solids, developments, mapping and topographical problems. Lectures: 2 hours per week. Tutorial: 2 hours per week.

ENGR 242 Statics (3 credits)
Prerequisite: EMAT 212 previously or concurrently; PHYS 204 and PHYS 224 (CEGEP Physics 101); MATH 204 (CEGEP Mathematics 105). Resultant of force systems; equilibrium of particles and rigid bodies; distributed forces; statically determinate systems; trusses; friction; moments of inertia; virtual work. Shear and bending moment diagrams. Lectures: 3 hours per week. Tutorial: 1 hour per week.

ENGR 243 Dynamics (3 credits) Prerequisite: EMAT 212; ENGR 242. Kinematics of a particle and rigid body; forces and accelerations; work and energy; impulse and momentum; dynamics of a system of particles and rigid bodies, introduction to vibrations. Lectures: 3 hours per week. Tutorial: 1 hour per week.

ENGR 244 Mechanics of Materials (3.75 credits)
Prerequisite: ENGR 242; EMAT 232 previously or concurrently. Mechanical behaviour of materials; stress; strain; shear and bending moment diagrams; introduction to inelastic action. Analysis and design of structural and machine elements subjected to axial, torsional and flexural loadings. Combined stresses and stress transformation. Deflections. Introduction to elastic stability. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week, alternate weeks.

ENGR 251 Thermodynamics I (3 credits)
Prerequisite: MATH 203 (CEGEP Mathematics 103). Basic principles of thermodynamics and their ap-
Application to various systems composed of pure substances and their homogeneous non-reactive mixtures. Simple power production and utilization cycles. Lectures: 3 hours per week. Tutorial: 1 hour per week.

**ENGR 273 Basic Circuit Analysis** (3.75 credits)
Prerequisite: EMAT 212, previously or concurrently; PHYS 205 and PHYS 225 (CEGEP Physics 201). Current, voltage, power and energy; instantaneous, average, and RMS values. Resistors. Ohm’s law. Dependent and independent sources. Kirchhoff’s laws, mesh and nodal analysis. Network theorems: superposition, reciprocity, Thevenin, Norton, maximum power transfer. Inductors and capacitors. Step response of simple RC, RL and RLC circuits. Sinusoidal steady-state response of simple RLC circuits. Phasors, power, impedance, resonance. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week, alternate weeks.

**ENGR 274 Modelling and Analysis of Physical Systems** (3.75 credits)
Prerequisite: ENGR 273. Representations of idealized linear lumped mechanical, fluid and thermal systems in terms of electrical circuits. Singularity functions, system response to singularity functions as input. The Laplace transform as a method of solving system equations. The representation of circuit elements and initial conditions in the transform domain. Generalized impedance and system functions; properties of linear systems; frequency response. Coupled coils and transformers. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week, alternate weeks.

**ENGR 342 Structural Analysis I** (2 credits)

**ENGR 343 Structural Analysis II** (3 credits)

**ENGR 344 Structural Design I** (3 credits)
Prerequisite: ENGR 342 previously or concurrently. Basis for limit states design. Code requirements. Structural steel design: tension and compression members, beams and beam-columns. Connections. Introduction to the design of timber members. Lectures: 2 hours per week. Laboratory: 2 hours per week.

**ENGR 345 Structural Design II** (3 credits)
Prerequisite: ENGR 342 previously or concurrently. Reinforced concrete behaviour in flexure, compression, shear and bond. Ultimate strength design of reinforced concrete beams, columns, walls and footings. Introduction to prestressed concrete and masonry. Lecture: 2 hours per week. Laboratory: 2 hours per week.

**ENGR 361 Fluid Mechanics I** (3 credits)
Prerequisite: EMAT 212; EMAT 232; ENGR 251. Fluid properties and flow characteristics; fluid statics, basic laws for systems and control volumes, conservation of mass, linear-momentum equations, first law of thermodynamics, Bernoulli equation, kinematics of flow, dynamics of flow, dimensional analysis and similitude, characteristics of real fluid flow, resistance to flow, flow measurement. Lectures: 3 hours per week. Tutorial: 1 hour per week.

**ENGR 362 Fluid Mechanics II** (3.75 credits)
Prerequisite: ENGR 361. Incompressible viscous flow, steady closed conduit flow, fluid resistance and boundary layer effects, differential equations for open channel flow, specific energy, gravity waves, hydraulic jump. Fluid machinery. Selected experiments in incompressible flow and in open channel flow. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

**ENGR 371 Probability and Random Processes in Engineering** (3 credits)
Prerequisite: ENGR 232. Axioms of probability theory events, Bayes theorem. Random variables, probability density functions, moments and transformations. Probabilistic models, statistics and elements of hypothesis testing. Random processes, stationarity and ergodicity, correlation and power spectral density functions. Application to engineering design problems. Lectures: 3 hours per week.

**ENGR 372 Fundamentals of Control Systems** (3.75 credits)
Prerequisite: EMAT 311 or EMAT 312; ENGR 274. Mathematical models of control systems. Characteristics, performance and stability of linear feedback control systems. Root-locus methods. Frequency response methods. Stability in the frequency domain. Design and compensation of feedback control systems. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

**ENGR 401 Engineering Economics and Management Principles** (1.5 credits)
Prerequisite: ENGR 371. This course is presented in relation to the practice of engineering, and includes the following topics: Role and activities of the manager. Enterprises and organizations; organizational modes. Planning and control; principles and practice of decision making. Interest and the time
value of money; expected value and decision trees. Capital expenditure appraisal, discounted cash flow and other methods. Sensitivity analysis.

NOTE: Students having credit for ENGR 403 may not take this course for credit.

ENGR 402 Engineering Law (1.5 credits)
Prerequisite: BLDG 401 or ENGR 401 or INDU 313 previously or concurrently. A review of Quebec laws such as those pertaining to engineering registration, property, the right of ownership and its restrictions, civil responsibility and contracts, particularly in application to engineering and related professions, as well as corporations and other business organizations. Lectures: 1½ hours per week.

ENGR 410 Technical Report (1.5 credits)
Prerequisite: ENCS 281. Students in the BEng programme must submit a technical report on entering their final year. The report must be from 2,000 to 5,000 words long, on a topic closely related to the student's option. The report must present a review of a current engineering problem or current engineering practice; a student's summer work may provide a suitable basis. Students are responsible for acquiring a set of complete instructions and the document Form and Style in the spring before entering the final year of the BEng programme. These documents are available from the Office of the Associate Dean. N.B. The topic must be approved by the student's department no later than the last Monday in June. The report must be submitted no later than 5:00 p.m. on the third Monday after Fall classes begin.

ENGR 451 Construction Engineering (3 credits)
Prerequisite: BLDG 341 or CIVI 341. The nature of construction and the environment in which the industry works; organizational structures for project delivery; construction contracts and documents; introduction to construction processes: excavation and site works, foundation lay-out, concrete form design, concrete, steel, timber, and masonry construction; project planning, scheduling and controlling; construction safety. Lectures: 3 hours per week.

ENGR 452 Matrix Analysis of Structures (3 credits)

ENGR 455 Introduction to Structural Dynamics (3 credits)
Prerequisite: EMAT 391; ENGR 243; ENGR 342. Theory of vibration. Dynamic response of simple structural systems. Effects of blast, wind, traffic and machinery vibrations. Basic concepts in earthquake resistant design. Computer applications. Lectures: 3 hours per week.

ENGR 471 Linear Systems (3.75 credits)

ENGR 472 System Optimization (3.75 credits)
Prerequisite: EMAT 361. Linear least squares. Properties of quadratic functions with applications to steepest descent method, Newton's method and Quasi-Newton methods for nonlinear optimization. One dimensional optimization. Introduction to constrained optimization, including the elements of Kuhn-Tucker conditions for optimality. Least p-bc-t-bc-h and mini-max optimization. Application of optimization techniques to engineering problems. Lectures: 3 hours per week. Laboratory: 3 hours alternate weeks.

ENGR 473 Control System Design (3.75 credits)
Prerequisite: ENGR 372. A course in industrial control design procedures by case study, including practical sensing, control, and actuating elements; optimization of system performance by choice of components and compensation; nonlinearities, introduction to multi-loop systems. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

ENGR 475 Process Dynamics and Control (3.75 credits)
Prerequisite: ENGR 372. Dynamics of mechanical and chemical processes; system capacity; resistance; piping complexes; characteristics and dynamics of control valves; process time constants; proportional, reset and derivative control actions; feedforward and cascade control; direct digital control. Case studies on liquid-level control, temperature and heat exchanger control. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

Social Aspects of Engineering

ENGR 491 Engineers and Society (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. Sociological analysis of the interaction between the engineering profession and society, the development of the profession, growth of technical societies, trends in engineering and engineering technology education, relationship to other professions. Role of engineers in Canadian industry, government and industrial research. Lectures: 3 hours per week.

COURSE DESCRIPTIONS

411
ENGR 492  **Historical Impact of Technology on Society**  (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. Social history of technology and of science including ancient and medieval periods, industrial revolution and modern times. Engineering and scientific creativity, social and environmental problems created by uncontrolled technology, appropriate technology. Lectures: 3 hours per week.

ENGR 493  **Engineerings, Resources and Environment**  (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. Sources, consequences and control of air, water, noise, solid and radiation pollution. Management of mineral and energy resources. Conservation of resources through engineering efficiency, recycling and communal practices. Renewable resources. Case studies of engineering projects. Lectures: 3 hours per week.

ENGR 494  **Effect of Technology on the Person**  (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. Psychological effects of various technologies. Changes in personal, family and community values arising from various patterns of industrial development. Enhancement of personal development by technology, adaptation of the machine to humanity. Lectures: 3 hours per week.

ENGR 495  **Technology Assessment and Control**  (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. The organization of mechanisms and institutions to control and mediate the unwanted and unanticipated side-effects of contemporary technology. Environmental impact assessment, analysis of industrial health and safety, risk analysis. Technological forecasting, future studies, appropriate technology, the conservor society. Relationships of technology assessment to science policy, resource planning and energy strategy. Lectures: 3 hours per week.

ENGR 496  **Science Policy and Engineering Innovation**  (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. An analysis of the basic concepts in science and technology policy including the allocation of resources; research and development; invention, innovation and diffusion. The social impact of policy decisions and the structure and programmes of government organizations involved in the field. Of particular concern will be issues such as foreign ownership, science and technology development within a regional context, and the role of government, industry and the universities within a balanced science and technology policy. Lectures: 3 hours per week.

ENGR 497  **The Management of Transition to an Information Society**  (3 credits)
Prerequisite: ENCS 281; 20 courses in BEng programme. Understanding the social role of the new technologies of the information machine, the emerging information society, the rate of adoption of new technologies, the implications of the information machines for global societies. The effects of the new technology on the structure of decision-making process. Lectures: 3 hours per week.

**Building Engineering**

BLDG 341  **Building Engineering Systems**  (3 credits)
Prerequisite: COMP C211 or COMP 212; EMAT 232, previously or concurrently. Introduction to systematic solution of building engineering problems. Techniques treated include linear programming, network analysis, nonlinear programming, geometric programming and an introduction to decision analysis and simulation. Techniques illustrated by application to problems in building science, building environment, building structures and construction management. Lectures: 3 hours per week.

BLDG 363  **Building Science I**  (4 credits)

NOTE: Students having credit for BLDG C362 may not take this course for credit.

BLDG 364  **Building Science II**  (4 credits)
Prerequisite: ENGR 251; ENGR 361 previously or concurrently. General introduction to the thermal environment. Topics include: heat, temperature, two-dimensional steady state processes. Convection: Natural and forced. Radiation. Combined radiative and convective surface transfer. Psychrometrics-Thermal comfort. Air quality. Condensation: Surface and Interstitial. Introduction to compressible viscous flow, friction and flow in pipes, boundary layer and wind effects. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 2 hours per week.

NOTE: Students having credit for BLDG C361 may not take this course for credit.

BLDG 371  **Building Service Systems**  (3.5 credits)
Prerequisite: BLDG 364. Principles of building service systems, including electrical, gas, communications, service water supply and distribution; introduction to plans, codes and standards for utility distribution systems. Lectures: 3 hours per week. Laboratory: 2 hours per week, alternate weeks.
BLDG 401 Building Economics (3 credits)
Prerequisite: BLDG 341 previously or concurrently. Development of economic performance measures of interest to developers, owners, contractors and users. Sources of finance and the determinants of the cost of money. Treatment of life cycle costing, economic risk; tax regulation, inflation, forecasting techniques; model building, cost indices, elemental estimating, computerized information systems. Consideration of economic analyses of projects, single buildings and building components. Lectures: 3 hours per week.

BLDG 459 Computer Aided Building Design (3 credits)
Prerequisite: BLDG 341; BLDG 401 previously or concurrently. Identification of objectives, decision variables, processes and information flow in building design. Applications and evaluation of computer systems to components of building design process. Determination of decision variables in problem modelling and sensitivity of results. Current applications in structural analysis and design, space layout, electrical distribution systems, HVAC design, lighting design, estimating, specification editing and scheduling. Evaluation of issues of interdisciplinary information control and interchange. Lectures: 3 hours per week.

BLDG 461 Building Enclosure Design (3 credits)
Prerequisite: BLDG 363; BLDG 364; CIVI 321. Technical influences on the design of building exteriors including the control of heat flow, air and moisture penetration, building movements and deterioration. Special emphasis is given to the principle of rain screen walls and to energy conserving designs. Analytical techniques and building codes are discussed through case studies and design projects. Lectures: 3 hours per week.

BLDG 462 Modern Building Materials (3 credits)
Prerequisite: CIVI 321. Engineering properties of building materials such as: plastics, synthetic fibres, adhesives, sealants, caulking compounds, foams, sandwich panels, composites, polymer-concrete systems, fiber-reinforced concretes, plastic mortars, polymers for flooring, roofing, synthetic wall papers. Their structural, thermal and acoustical properties. Consideration of corrosion, bio- and thermal-degradation, stability to ultraviolet and solar radiation. Laboratory sessions to illustrate synthesis, application, testing, deterioration and protection. Lectures: 3 hours per week.

BLDG 465 Fire and Smoke Control in Buildings (3 credits)
Prerequisite: BLDG 363; BLDG 364. Topics treated include: fire and smoke control; failure mechanisms of building enclosure, illustrated by case studies; code requirements for enclosure systems; systems approach for fire safety. Lectures: 3 hours per week.

BLDG 471 HVAC System Design (4 credits)
Prerequisite: BLDG 371, BLDG 476 previously or concurrently. Principles of HVAC system design and analysis; component and system selection criteria, including room air distribution, fans and air circulation, humidifying and dehumidifying processes, piping and ducting design. Air quality standards. Control systems and techniques; operational economics; computer applications. Lectures: 3 hours per week. Laboratory: 2 hours per week.

BLDG 472 Building Energy Conservation Technologies (3 credits)
Prerequisite: BLDG 471 previously or concurrently. Identification of the optimal energy performance achievable with various types of buildings and service systems. Reduction of infiltration. Control systems and strategies to achieve optimal energy performance. Low energy heat rejection and recuperation systems. Effective utilization of daylight, heat pumps, passive and active solar heaters, heat storage, heat pipes and thermosyphons in new and old buildings. Lectures: 3 hours per week.

BLDG 473 Building Acoustics (3 credits)
Prerequisite: BLDG 363. Noise control criteria and regulations, instrumentation, noise sources, room acoustics, walls, barriers and enclosures, acoustical materials and structures, vibration and noise control systems for buildings. Lectures: 3 hours per week.

BLDG 474 Building Illumination (3 credits)
Prerequisite: BLDG 363. Production, measurement and control of light, design of lighting systems. Design in respect to daylighting. Integration of lighting systems with mechanical systems. Lectures: 3 hours per week.

BLDG 475 Indoor Air Quality (3 credits)
Prerequisite: BLDG 371 previously or concurrently. Elements of indoor air quality, physical/chemical characteristics of contaminants, health effects, standard requirements. Estimation of the levels of indoor air contaminants in buildings. Design of ventilation systems for pollutant control. Air pollution due to outdoor air supply through ventilation systems. Effect of outdoor air pollution on indoor air quality. Lectures: 3 hours per week.

BLDG 476 Thermal Analysis of Buildings (3 credits)
Prerequisite: BLDG 364. Two and three dimensional steady state and transient conductive heat transfer together with convection and radiation as applied to building materials and geometries. Heating and cooling load analysis including building shapes, construction type, solar radiation, infiltration,
occupancy effects and daily load variations. Computer applications for thermal load analysis. Introduction to heat exchangers. Lectures: 3 hours per week.

BLDG 481 Architectural Appreciation and Design (3 credits)  
Prerequisite: 20 courses in the BEng programme. Historical and modern architectural theories. Meaning, intentions and formal issues in contemporary design. The influence of technology, energy conservation and environmental constraints on built form. Architecture vs. industrial design. Lectures: 3 hours per week.

BLDG 491 Labour and Industrial Relations in Construction (3 credits)  
Prerequisite: ENGR 451. The study of labour legislation with special emphasis on the construction industry, union organization, the theory and practice of negotiations, mediation, contract administration and arbitration. Review of actual contracts, discussion of future trends. Lectures: 3 hours per week.

BLDG 492 Construction Processes (3 credits)  

BLDG 493 Legal Issues in Construction (3 credits)  
Prerequisite: ENGR 451. Legal concepts and processes applicable to the development of constructed facilities and to the operation of the construction firm. Emphasis on Quebec law and institutions. Lectures: 3 hours per week.

Civil Engineering  

CIVI 231 Geology (2.75 credits)  
Basic principles of physical and structural geology, with emphasis on topics related to Civil Engineering, study of minerals, rocks and soil types, load formation, techniques of air photo interpretations and geological maps. Lectures: 2 hours per week. Laboratory: 3 hours per week, alternate weeks.

CIVI 271 Surveying (3 credits)  
Elementary operations employed in engineering surveying; use, care and adjustment of instruments: linear and angular measurements; traversing; earthwork calculations; theory of errors; horizontal and vertical curves and curve layout; slope staking and grades, application of surveying methods to city, and topographic surveying and introduction to advanced surveying techniques; use of digital computers in surveying calculations. Summer school taken before entering second year of study in the BEng programme. Lectures and Field Work: 8 hours per day; 6 days per week for 3 weeks.

CIVI 321 Engineering Materials (3.75 credits)  
Linear and non-linear material behaviour, time-dependent behaviour: structural and engineering properties of structural metals; behaviour of wood; production and properties of concrete; bituminous materials, ceramics, plastics; introduction to composite materials. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

CIVI 341 Civil Engineering Systems (3 credits)  
Prerequisite: EMAT 271 or ENGR 371 previously or concurrently; COMP 212. Development of concepts and techniques commonly associated with systems engineering which are applicable to design and operation of systems that concern Civil Engineers. Problem formulation, optimization, linear programming, sequencing, routing and scheduling, mathematical expectation, random models and queues. The techniques developed are used to solve problems in transportation, water resources, structures and construction management. Lectures: 3 hours per week.

CIVI 372 Transportation Engineering (3 credits)  
Prerequisite: CIVI 341. Social and economic importance of transportation. Essential elements of transportation systems and characteristics of different modes of transportation. Fundamentals of individual vehicle motion and traffic flow. Transportation demand and planning process. Transportation network flows. Introduction to location and design of system components. Lectures: 3 hours per week.

CIVI 381 Open Channel Hydraulics (3.5 credits)  
Prerequisite: ENGR 362, previously or concurrently; EMAT 271 or ENGR 371. Open channel hydraulics; critical flow, uniform and non-uniform flows; design of erodible and non-erodible channels; flow profile, classification and computation. Practical problems. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 431 Soil Mechanics (3.75 credits)  
of stability of earth retaining walls, slopes and footings. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

CIVI 434 Geotechnical Analysis (3 credits)
Prerequisite: EMAT 391. Seepage through anisotropic soils. Linear and nonlinear consolidation theories. Sand drains. Introduction to soil dynamics and rock mechanics; wave propagation in soils and rock; machine foundations. Stress concentration around tunnels opened in rock. Pressure distribution on buried structures. Introduction to numerical techniques as applied to solution of geotechnical problems. Lectures: 3 hours per week.

CIVI 435 Foundation Design (3.5 credits)

CIVI 436 Mechanics of Geotechnical Materials (3 credits)
Prerequisite: CIVI 431. Mechanics of ideal geotechnical materials: elastic, viscoelastic, and plastic; behaviour of soils, permafrost, rocks and ice. Mechanical properties of sensitive clays, muskeg, expansive and collapsible soils. Processed geotechnical materials used in earth embankments, pavements and base courses, hydraulic fills and tailings. Improvement techniques: chemical and mechanical. Quality control of processed materials. Lectures: 3 hours per week.

CIVI 441 Civil Engineering Systems Analysis (3 credits)
Prerequisite: CIVI 341. Approaches to formulation and problem structure, evaluation criteria, applications of optimization, probability and decision theory to the solution of Civil Engineering problems. Mini projects. Lectures: 2 hours. Laboratory: 2 hours.

CIVI 451 Advanced Structural Analysis (3.5 credits)
Prerequisite: ENGR 343. Analysis of frames, arches and cable structures; shear centre; unsymmetrical bending; bending of curved bars; influence lines for statically indeterminate structures; plastic analysis; shear walls; computer applications. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 453 Design of Reinforced Concrete Structures (3.5 credits)
Prerequisite: ENGR 343; ENGR 345. Design of long columns, columns subjected to biaxial bending, two-way slabs, flat plates, girders and shells. Design of frames, shear-walls, and prefabricated structures. Prestressed concrete: losses, short and long term deflections; design requirements for shear, flexure, bond, and anchorage. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 454 Design of Steel Structures (3.5 credits)
Prerequisite: ENGR 343; ENGR 344. Trends and developments in structural steel design. Framing systems. Floor systems; composite construction; plate girders. Design of braced frames, moment resisting frames. Connections. P-Delta effects. Introduction to steel bridge design. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 461 Continuum Mechanics (3 credits)
Prerequisite: ENGR 244; ENGR 361. A unified approach to solution of problems involving continuous domains. Transformation of coordinates, tensors, state of stress, rotation and deformation, conservation of mass, momentum, moment of momentum and energy theorems, constitutive laws, application to problems of fluid mechanics, elasticity and plasticity. Lectures: 3 hours per week.

CIVI 471 Highway Design (4.5 credits)
Prerequisite: CIVI 271; CIVI 372. Design controls and criteria including traffic and highway characteristics and capacity. Location and right-of-way. Earthworks. Geometric design of highways and terminals. Pavement design. Highway design project. Lectures: 3 hours per week. Laboratory: 3 hours per week.

CIVI 472 Traffic Engineering (3 credits)
Prerequisite: CIVI 341; CIVI 372. The vehicle, driver, and roadway system, traffic surveys, and volume studies, traffic flow theory, highway capacity and level of service for freeways, rural highways and urban streets, accident studies, network analysis, traffic control devices, traffic control measures, and highway safety. Lectures: 3 hours per week.

CIVI 474 Urban Transportation Planning (3 credits)
Prerequisite: CIVI 341; CIVI 372. The systems approach to transportation planning process, supply and demand functions, travel forecasting models, land-use models, urban data collection and analysis, impact on the environment, evaluation of alternative transportation systems, future transportation technology. Lectures: 3 hours per week.

CIVI 481 Water Supply Systems (3.5 credits)
Prerequisite: CIVI 381. Water use cycle; capacity of water supply systems; sources of raw water; development of surface water and ground water; water quantities and requirements; design of distribu-
CIVI 482 Urban Sanitation (3.5 credits)

CIVI 483 Hydrology (3.5 credits)
Prerequisite: CIVI 381. Weather elements; precipitation, stage-discharge relations; evapo-transpiration; ground water flow, method of images; streamflow hydrography, unit hydrography and its applications, synthetic hydrographs; laminar flow; hydrologic routing; instantaneous hydrograph; hydraulic routing, method of characteristics, kinematic routing; statistical analysis, confidence intervals, stochastic generator; autoregressive model; applications of hydrology. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 484 Hydraulic Engineering (3.5 credits)
Prerequisite: CIVI 381. Outlet works for reservoirs. Elements of river and channel engineering. Water resource system design and project economics. Application of numerical, probabilistic and graphical optimization techniques to systems design. Computer applications. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 485 Hydraulic Structures (3.5 credits)
Prerequisite: CIVI 431; CIVI 483 previously or concurrently. Design of storage dams; characteristics of spillways and other outlet works; design of control structures; principles and design of flow measuring structures; special topics. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 486 Hydraulic Machinery (3 credits)
Prerequisite: ENGR 362 previously or concurrently. Energy transfer in hydraulic machinery; analysis and design of axial flow pumps and reaction turbines; analysis and design of centrifugal pumps and impulse turbines; cavitation and two-phase flow; noise and vibration problems. Selected topics related to hydraulic machines — cavitation, diffuser design, core formation and draft tube design. Lectures: 2 hours per week. Laboratory: 2 hours per week.

CIVI 487 Environmental Engineering (3.5 credits)
Prerequisite: CIVI 481 previously or concurrently. Stream pollution and control; ground water pollution; air pollution, acid rain, meteorological aspects. Lectures: 2 hours per week. Laboratory: 3 hours per week.

CIVI 488 Water Quality (3 credits)
Prerequisite: CIVI 481 previously or concurrently. Physical, chemical and biological characteristics of water, Eutrophication, water quality standards; chemical kinetics related to reactor models; large scale transport of contaminants, hydrodynamic dispersion. Containment of reactive contaminants; special treatment methods — absorption, gas stripping, membrane process; disinfection and ion exchange. Lectures: 2 hours per week. Laboratory: 2 hours per week.

CIVI 489 Computational Hydraulics (3.5 credits)
Prerequisite: CIVI 484. Continuous and discrete forms of conservation laws; mass, momentum, and energy in one-, two- and three-dimensional forms; St. Venant and Boussinesq equations; numerical methods; finite differences, implicit and explicit schemes; finite elements; application to engineering and environmental hydraulics; computer applications. Lectures: 2 hours per week. Laboratory: 3 hours per week.

Computer Engineering

COEN 231 Introduction to Discrete Mathematics (3 credits)
Prerequisite: MATH 204 or CEGEP Mathematics 105. Sets and binary relations. Algebraic structures including binary operations, semigroups, groups, rings and morphisms. Lattices including posets and distributive lattices. Graphs. Boolean algebras including lattice representation of Boolean algebras and canonical expressions. Lectures: 3 hours per week. Tutorial: 1 hour per week.

NOTE: Students having completed COMP 231 may not take this course for credit.

COEN 311 Computer Organization & Software (3.75 credits)
Prerequisite: COMP 212 or COMP 244. Number systems and codes. Logical basis of computer structure; machine organization and functional units; machine programming including subroutines, linkages, macros and assembly systems; compilers and operating systems. Difference between mainframe, mini and microcomputer systems. Lectures: 3 hours per week. Laboratory: 1½ hours per week.

COEN 312 Digital Systems Design (3.75 credits)
Prerequisite: ELEC 311 previously or concurrently. Multiple output circuits. Designing with MSI and LSI. Decoders, multiplexers, adders, PLA’s. Introduction to sequential circuits; flip-flops. Completely specified sequential machines. Machine equivalence and minimization. Implementation of clock mode sequential circuits. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

NOTE: Students having credit for COEN 413 may not take this course for credit.
**COEN 412 Digital Electronics** (3.75 credits)
Prerequisite: ELEC 312. Modelling of semiconductor devices in non-linear regions. TTL, Schottky TTL, PL, ECL, MOS, and CMOS logic families. Switching speeds, power dissipation, noise immunity, fan-in and fan-out. Flip-flops, multi-vibrators. Static and dynamic random-access memories, read-only memories. Charge-coupled devices and bubble memories. A/D and D/A converters. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

**COEN 414 Sequential Circuits** (3.75 credits)

**COEN 416 Design of Digital Computers** (3 credits)
Prerequisite: COEN 311; COEN 312. Computer memories, registers and data-path. Register-transfer-level description of digital systems. Design of control and arithmetic units. Inter-system communication, input/output, design of interfaces. Parallelism in computer systems for increased speed of operation. Special computers such as microprocessors. Lectures: 3 hours per week.

**COEN 417 Microprocessor Systems** (4.5 credits)

**COEN 418 Advanced Concepts in Microcomputer Systems Architecture and Design** (4.5 credits)
Prerequisite: COEN 417; COMP 343. 16-bit and 32-bit microprocessor families, their architecture and instruction sets. Numerical processors, I/O processors, memory management. Introduction to IRMX-86. Real time operating system. Processor and memory management mechanisms; IRMX-86 extension objects. Silicon operating systems. Floppy and Winchester disks. Lectures: 3 hours per week. Laboratory: 3 hours per week.

**COEN 431 Software Engineering** (3.75 credits)
Prerequisite: COMP 343. Software life cycle, software requirements and requirement documentation. Software design: top-down and bottom-up approaches; design validation, and design reviews. Software implementation, choice of a programming language, and portability. Testing, debugging and verification. Design of test cases. Software documentation and its maintenance. Documentation tools and documentation portability, user interface design. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

**COEN 481 Computer Engineering Project** (4 credits)
Prerequisite: Registration in final year and permission of the Department. The Computer Engineering project provides an opportunity for a student to carry out a design project associated with one or more of the specialist elective courses, under the supervision of a faculty member. The nature of the project selected should be such as to require independent study of current technical literature. When feasible the designs will be assessed in the laboratory. Each student is to present a complete report at the end of the project. Equivalent laboratory time: 6 hours per week.

**COEN 498 Topics in Computer Engineering** (3 credits)
Prerequisite: Permission of the Department. The course, when offered, will include topics which complement elective courses in computer engineering and computer science. Lectures: 3 hours per week.

**Electrical Engineering**

**ELEC 251 Fundamentals of Applied Electromagnetics** (3 credits)
Prerequisite: ENGR 273; EMAT 232 previously or concurrently. Electric charge, Coulomb’s Law, electrostatic forces, electric field, Gauss’ Law, electric potential, stored energy. Dielectrics, properties of materials in electric fields. Electric current, conduction in a vacuum and in material media, displacement current, magnetic field of a current, force on a current-carrying wire, magnetic induction, electromagnetic force, energy stored in a magnetic field. Magnetism in material media, magnetic circuits. Time varying fields. Capacitance, resistance, inductance, elements of electric circuits. Lectures: 3 hours per week. Tutorial: 1 hour per week.

**ELEC 311 Electronics I** (4.5 credits)
Prerequisite: ENGR 274. Review of linear circuits: different types of amplifiers, frequency response of amplifiers, network theorems. Inverting and noninverting configurations of operational amplifier circuits, non-ideal performance of operational amplifiers: finite open-loop gain, bandwidth, slew rate,
common-mode rejection, finite input and output resistances, dc problems. Characteristics and physical operation of junction diodes. Breakdown region and Zener diodes, modelling of diodes. Half- and full-wave rectifiers, precision rectifiers, rectifiers in power supplies. Limiters, clamps, and comparators. Physical operation and characteristics of field-effect and bi-polar junction transistors. Biassing, modes of operation, dc analysis, modelling, second-order effects and small-signal operation. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week.

ELEC 312  **Electronics II**  (4.5 credits)

ELEC 316  **Industrial Electronics**  (3.75 credits)
Prerequisite: ENGR 274. A survey of electronic components and systems used in industry. Analog devices; the transistor, the operational amplifier and their models. Amplifiers. Digital devices: gates, logic devices. Large scale integrated circuits, microcomputers. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week; alternate weeks.

NOTE: Electrical Engineering and Computer Engineering students may not take this course for credit.

ELEC 321  **Electrical Properties of Materials**  (3 credits)
Prerequisite: ELEC 251. Structure of crystals. Electrical, magnetic, dielectric and optical characteristics and their measurements. Energy levels, localized states, and transport properties of solids. Recent device applications of metals, semi-metals, semiconductors, semi-insulators and insulators. Lectures: 3 hours per week.

ELEC 331  **Electromechanics**  (4.5 credits)
Prerequisite: ELEC 251; ENGR 274 previously or concurrently. Three-phase circuits. Power transformers. Energy in singly and doubly excited systems; principles of electromechanical energy conversion. Basic features and models of d.c. machines, 3-phase induction machines, 3-phase synchronous machines. Lectures: 3 hours per week. Laboratory: 3 hours per week.

ELEC 333  **Electric Machines**  (3.75 credits)
Prerequisite: ELEC 331. Air gap field distribution, windings, harmonic content of induced voltages in rotating machines. Magnetic core calculations. Direct current machines, single-phase and three-phase induction motors, three-phase synchronous motors, servos, linear motors. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

ELEC 334  **Electric Machinery**  (3.75 credits)
Prerequisite: ENGR 274. Three-phase circuits. Magnetic fields, circuits and forces; transformers; basic features of rotating machines; models, characteristics and applications of d.c. machines, polyphase synchronous and induction machines. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

NOTE: Computer Engineering and Electrical Engineering students may not take this course for credit.

ELEC 341  **Linear Network Analysis**  (3 credits)

ELEC 351  **Electromagnetic Waves and Guiding Structures**  (3 credits)

ELEC 353  **Basic Electromagnetics and Transmission Line Theory**  (3 credits)
Prerequisite: EMAT 312; ELEC 341. Laws of electromagnetism including differential forms. Boundary conditions. Maxwell's equations. Transmission line theory. Lectures: 3 hours per week. Tutorial: 1 hour per week.

ELEC 401  **Electrical Engineering Seminar**  (1 credit)
Prerequisite: ENCS 281. Seminars are organized on a regular basis to provide students with an opportunity to exercise their ability to present and defend their thoughts on topics of their own choice. Students will be encouraged to devote some of their presentations to such topics as continuing professional education and professional ethics. Seminars: 2 hours per week.

ELEC 411  **Pulse and Waveform Generation**  (3.75 credits)
Prerequisite: EMAT 312; ELEC 312. Modelling and techniques of analysis. Multivibrator circuits: analy-
Prerequisite: EMAT 271 or ENGR 371; ELEC 461. Transmission and filtering of random signals, analysis of communication systems: AM, FM, Stereo FM, TV. Noise in communication systems: thermal noise, noise bandwidth, noise figures, noise temperature. Qualitative treatment of noise and vibration control problems. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

ELEC 441 Modern Filter Design (3.75 credits)
Prerequisite: ELEC 341. Image parameters, constant-k and m-derived filters. The approximation problem. Design of Butterworth, Chebyshev, and Bessel filters as terminated lossless networks. Design of constant-resistance all-pass networks. Design of active-RC filters using operational amplifiers. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

ELEC 442 Digital Signal Processing (3.75 credits)
Prerequisite: ELEC 341. Discrete-time linear systems. Basic digital signal processing techniques. Design procedures for finite and infinite impulse response filters. Discrete and fast Fourier transforms. Noise analysis. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

ELEC 453 Microwaves and Optics: Transmission (3.75 credits)
Prerequisite: EMAT 312; ELEC 341; ELEC 351. Plane waves, surface waves, wave impedance, surface impedance. Two-wire, coaxial and parallel-plate transmission lines. Waveguide modes, cutoff frequency, dispersion, losses. Dielectric optical waveguides, surface waveguides, microstrip. Principles of light transmission optics. Basic antenna theory, linear dipole, aperture antennas, diffraction, linear arrays. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

ELEC 454 Microwaves and Optics: Circuits (3.75 credits)

ELEC 455 Acoustics (3 credits)
Prerequisite: ELEC 351. Sound generation and propagation in elastic media; conversion between acoustical, electrical, and mechanical energy. Lumped-parameter approximations, sound in rooms, underwater acoustics, microphones; loudspeakers and audio communications problems; noise and vibration control problems. Lectures: 3 hours per week.

ELEC 461 Communication Circuits and Systems (3.75 credits)

ELEC 462 Statistical and Digital Communications (3.75 credits)
Prerequisite: EMAT 271 or ENGR 371; ELEC 461. Transmission and filtering of random signals, analy-
sis of modulation systems, in particular Pulse Code Modulation, Phase Shift Keying, Frequency Shift Keying, etc., and introduction to noise analysis, information theory and coding. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

**ELEC 481 Electrical Engineering Project (4 credits)**
Prerequisite: Registration in final year and permission of the Department. The Electrical Engineering project provides an opportunity for a student to carry out a design project associated with one or more of the specialist elective courses, under the supervision of a faculty member. The nature of the project selected should be such as to require independent study of current technical literature. When feasible, the designs will be assessed in the laboratory. Each student is to present a complete report at the end of the project. Equivalent laboratory time: 6 hours per week.

**ELEC 498 Topics in Electrical Engineering (3 credits)**
Prerequisite: Permission of the Department. This course may be offered in a given year upon the authorization of the Electrical Engineering Department. The course content may vary from offering to offering and will be chosen to complement the elective courses available in a given option or options. Lectures: 3 hours per week.

**Industrial Engineering**

**INDU 313 Industrial Economics (3 credits)**
Prerequisite: ACCO 213. Development of economic performance measures. Sources of finance and the cost of money. Consideration of: life cycle costing, economic risk, tax regulations, inflation, short and long term forecasting techniques, model building, cost indices, elemental estimating, computerized information systems. Lectures: 3 hours per week.

*NOTE: Students having completed BLDG 401 may not take this course for credit.*

**INDU 320 Production Engineering I (3 credits)**
Prerequisite: INDU 323. The systems approach to production; interrelationships among the component blocks of the system, including capacity planning, plant location, layout of physical facilities, maintenance. Lectures: 3 hours per week.

**INDU 321 Production Engineering II (3 credits)**
Prerequisite: INDU 320. A continuation of Production Engineering I, with emphasis on the design of the control systems for the production facility. Topics include allocation of resources, scheduling work methods and measurement, materials handling, process control and quality control. Lectures: 3 hours per week.

**INDU 323 Industrial Operations Research (3 credits)**
Prerequisite: COMP 212. An introduction to the application of mathematical models to various industrial problems; queuing theory, game theory, linear programming, inventory theory and Monte Carlo processes. Lectures: 3 hours per week.

*NOTE: Students with credit for ENGR C412 may not take this course for credit.*

**INDU 330 Organizational Management (3 credits)**
Organizational structures, their growth and change. Motivation, leadership and group behaviour. Design of alternatives for improving organizational performance and effectiveness. Lectures: 3 hours per week.

**INDU 371 Advanced Probability and Statistics (3 credits)**
Prerequisite: ENGR 371. Parameter estimation and hypothesis testing. Goodness-of-fit and independence tests; linear regression and correlations; Quality Control; Monte Carlo simulation. Reliability analysis: parallel and series systems, exponential model, active and standby redundancy, life testing and model estimation; Queueing Analysis: discrete-time and continuous-time Markov chains, steady state probabilities, availability analysis, pure birth-death processes, flow-balance, elementary queueing models. Applications to industrial engineering problems. Lectures: 3 hours per week.

**INDU 410 Safety Engineering (3 credits)**
Prerequisite: INDU 412. The design of plant layout and work stations in order to provide a safe work environment. Safety features for machines. Industrial training methods. Accident prevention programmes. Cost of industrial accidents. Lectures: 3 hours per week. Tutorial: 2 hours per week.

**INDU 411 Computer Integrated Manufacture and Assembly (3.75 credits)**
Prerequisite: ENGR 372 previously or concurrently; MECH 311. Concepts and benefits of integrated computer-aided manufacturing and assembly, illustrated with case studies. Control of machine tools (NC, CNC, DNC) with an introduction to computer and direct numerical control, integration with CAD. Robots in manufacturing applications. Survey of kinematic structures in robots, typical applications in tool- and work-handling, path control. Computerized material handling. Reduction of storage requirements and transfer time. Computerized conveyor systems. Automatic guided vehicles. Overall factory automation. Design of work centres, work cells, optimal manufacturing operations, computer-aided inspection and quality control. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.
INDU 423 **Inventory Control** (3 credits)
Prerequisite: INDU 321. The basic features of production systems and methods of modelling their operation, forecasting; aggregate planning and scheduling; materials requirement planning; inventory analysis and control; the role of inventories in physical distribution; inventories in manufacturing, systems such as KANBAN and Just-in-Time. Lectures: 3 hours per week.

INDU 480 **Industrial Engineering Project** (3 credits)
Prerequisite: Completion of 20 courses. INDU 481 concurrently. Students will be assigned, as individuals or as small groups, specific industrial engineering projects. It is expected that these projects will be drawn from local industry and will thus reflect actual problems faced by industry. The project report will be prepared under the supervision of a staff member. Lectures: 1 hour per week, 1 term. Laboratory: 2 hours per week, 2 terms.

INDU 481 **Industrial Engineering Seminar** (0.5 credit)
Prerequisite: INDU 480 concurrently. Students are given the opportunity to make oral presentations of the work carried out for their project. These presentations will be video-taped and used as a teaching tool to improve verbal communication abilities. Seminar: 1 hour per week.

*Mechanical Engineering*

MECH 221 **Materials Science** (2 credits)
Prerequisite: CHEM 205 (CEGEP Chemistry 101). Relationships between properties and internal structure, atomic bonding; molecular, crystalline and amorphous structures; crystalline imperfections and mechanisms of structural change; micro-structures; structures and mechanical properties of polymers. Lectures: 2 hours per week. Tutorial: 2 hours per week.

*NOTE:* Students with credit for ENGR C221 may not take this course for credit.

MECH 311 **Manufacturing Processes** (2.5 credits)
Prerequisite: MECH 313. Fundamentals of manufacturing processes and their limitations, metrology, machine shop practice, forming, machining and casting processes, welding and joining, plastic production and non-conventional machining techniques. Laboratory includes use of basic machines, preparation of shop drawings with emphasis on production and field trips to local industries. Lectures: 2 hours per week. Tutorial: 4 hours per week, alternate weeks including industrial visits. Laboratory: 2 hours per week, alternate weeks.

MECH 313 **Machine Drawing and Design** (3 credits)
Prerequisite: ENGR 213. The use of drawings and other graphical methods in the process of engineering design. Industrial standards and specifications, standard components and their use in product design. Detailed study of machine elements and assemblies, their representation and function in design and working drawings. Dimensioning and tolerance systems related to manufacturing processes, interchangeability, quality control, patent procedures. Pencil thinking and computer graphics in the design process. Computer aided machine drawing. A student design project will be an integral part of this course. An eight hour introduction to machine shop techniques forms part of the tutorial. Lectures: 3 hours per week. Tutorial: 2 hours per week.

*NOTE:* Students with credit for ENGR C214 and MECH C312 may not take this course for credit.

MECH 321 **Properties and Failure of Materials** (3 credits)
Prerequisite: MECH 221. The service capabilities of alloys and their relationship to microstructure as produced by thermal and mechanical treatments; material codes; material selection for design; strengthening mechanisms, composite materials. Modes of failure of materials; fracture, fatigue, wear, creep, corrosion, radiation damage. Lectures: 3 hours per week. Tutorial and practicum: 1½ hour per week.

MECH 341 **Kinematics of Mechanisms** (2.5 credits)
Prerequisite: EMAT 232; ENGR 243. Geometry of motion and mobility criteria; kinematic analysis and synthesis of linkages; theory of spur gears, helical, worm and bevel gearing; gear trains and differentials; cam kinematics. Lectures: 2 hours per week. Tutorial: 2 hours per week, alternate weeks. Laboratory: 2 hours per week, alternate weeks.

MECH 342 **Dynamics of Machines** (2.5 credits)
Prerequisite: MECH 341. Kinematic analysis of space mechanisms; static and dynamic analysis of planar mechanisms and gear trains; dynamic analysis of space mechanisms; gyroscopic forces; balancing of rating and reciprocating machinery. Lectures: 2 hours per week. Tutorial: 2 hours per week, alternate weeks. Laboratory: 2 hours per week, alternate weeks.
MECH 351  Thermodynamics II  (3.75 credits)

MECH 373  Instrumentation and Measurements  (3.75 credits)
Prerequisite: ENGR 274. Unified treatment of measurement of physical quantities. Principle, characteristics, design and calibration of components and systems for measuring position, velocity, acceleration, force pressure, flowrate, temperature, proximity detection, etc. Background knowledge of electronics covering signal generation and processing. Concepts of accuracy and repeatability, linearity, response criteria, bandwidth, input and output impedance, matching of measuring systems, drift and bias. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 411  Design and Analysis of Mechanical Components  (2.5 credits)
Prerequisite: MECH 311. Analytical review of current design practices and specification of standard components encountered in mechanical engineering. Introduction to overall system reliability estimates, interchangeability of mechanical devices and influence of stress-strength in determining the actual configuration of mechanical elements. Standard components covered include: various types of mechanical drives, cams, clutches, couplings, brakes, seals, fasteners, springs and bearings. Lectures: 2 hours per week. Tutorial: 2 hours per week. Laboratory: 2 hours per week, alternate weeks.

MECH 421  Mechanical Shaping of Metals, Plastics and Composites  (3.75 credits)
Prerequisite: MECH 221. Metal forming: extrusion, forging, rolling, drawing, pressing, compacting; shear line theory, sheet forming limits. Metal cutting, machinability, tooling. Plastics/Composites shaping: extrusion, pultrusion, molding, vacuum forming, lay-up, filament winding, laminating. Consideration of the mechanical parameters critical for process control and computer applications. Interaction of materials characteristics with processing to define product properties: cold working, annealing, hot working, superplasticity, thermomechanical treatment. Energy conservation, safety, product quality and liability. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 422  Mechanical Behaviour of Polymer Composite Materials  (3 credits)

MECH 423  Casting, Welding, Heat Treating, and Non-Destructive Testing  (3.75 credits)
Prerequisite: MECH 221. Comparative analysis of the various techniques of casting, welding, powder fabrication, finishing and non-destructive testing. Consideration of the control parameters that are essential to define both automation or robot application. Materials behaviour which determines product microstructure and properties. Technology and theory of solidification, normalizing, quenching, surface hardening, tempering, aging and thermomechanical processing for steels, cast irons and Al, Cu, Ni and Ti alloys. Energy conservation, worker safety, quality control and product liability. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week, alternate weeks.

MECH 441  Mechanical Engineering Design  (3 credits)
Prerequisite: ENGR 244; MECH 313; MECH 342. Concepts in design; failure of mechanical elements under dynamic loading; shafting; bolted and welded joints; anti-friction and journal bearings; design of gears. Lectures: 2 hours per week. Laboratory: 2 hours per week.

MECH 443  Mechanical Vibrations  (3.75 credits)
Prerequisite: EMAT 311; ENGR 274; MECH 342. Transient vibrations under impulsive shock, and ar-
MECH 445  Machine Design  (3.5 credits)
Prerequisite: MECH 441. Design of springs; design of gear and hydraulic drives, design for hydrodynamics and hydostatic lubrication; optimum design of mechanical systems, design strategy, value and merit function, maximizing and minimizing procedures. Laboratory work includes an advanced design project representative of those encountered in industry. Lectures: 3 hours per week. Tutorial: 1 hour per week. Laboratory: 3 hours per week, alternate weeks.

MECH 446  Process Equipment Design  (3 credits)
Prerequisite: MECH 321. Design of pressure vessels, towers, reactors, tanks, heat exchangers, piping systems, etc. as used in the petro-chemical, power generation, pulp and paper, and related industries. Compliance with pertinent codes and regulations: detailed analysis of shells, formed heads, flat closures; expansion stresses; wind and earthquake effects. Application to actual problems from industry. Lectures: 3 hours per week.

MECH 447  Fundamentals of Vehicle Systems  (3 credits)
Prerequisite: MECH 441. Mechanics of tire-terrain interactions; braking and tractive performance; cornering properties of tires; traction and mobility of road and off-road vehicles; resistances to vehicle motion; tractive power; design of transmission systems; brake system design and braking; antilock braking systems; design of steering systems; steady state handling; steering response; directional response of vehicles with multiple steerable axles; handling of articulated vehicles; directional response of tracked vehicles; experimental methods in vehicle dynamics. Lectures: 3 hours per week.

MECH 452  Heat Transfer II  (3.75 credits)
Prerequisite: ENGR 362; MECH 352. Review of momentum transfer, free and forced convection heat transfer, dimensional analysis as applied to convection heat transfer configurations, heat exchangers, introduction to mass transfer. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 453  Heating, Ventilation and Air Conditioning Systems  (3 credits)

MECH 461  Gas Dynamics  (3.75 credits)
Prerequisite: ENGR 362; MECH 351. Review of one-dimensional compressible flow. Normal and oblique shock waves; Prandtl-Meyer flow; combined effects in one-dimensional flow; non-ideal gas effects; multi-dimensional flow; linearized flow; method of characteristics. Selected experiments in supersonic flow, convergent-divergent nozzles, hydraulic analogue and Fanno tube. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 462  Turbomachinery and Propulsion  (3 credits)

MECH 463  Fluid Power Control  (3.75 credits)
Prerequisite: ENGR 361; ENGR 372. Introduction to Fluid Power; pneumatic devices; fluidic devices; hydraulic system components; hydraulic and electro-hydraulic systems; dynamic performance of fluid power systems; fluid logic. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 464  Aerodynamics  (3 credits)

MECH 465  Gas Turbine Design  (3.75 credits)
Prerequisite: MECH 462; MECH 464 concurrently. Study of practical criteria which influence the design of a gas turbine engine including relevant mechanical and aerodynamic constraints. The aerodynamics of each of the three major components of a modern turbo-fan engine, namely the compressor, the
combustor and the turbine is considered. Air system acoustics, engine aerodynamic matching of components, and modern performance testing methods. A design project is assigned for each of these components. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 471  Microprocessors and Applications  (3.75 credits)
Prerequisite: ELEC 318. Introduction to the concepts and practices of using microprocessors and microcomputers in such applications as instrumentation, manufacturing, control and automation; architecture and programming techniques; interface logic circuits; I/O systems; case studies of engineering applications. Lectures: 3 hours per week. Laboratory: 3 hours per week, alternate weeks.

MECH 481  Design or Experimental Project  (3 credits)
Prerequisite: Registration in final year. A mechanical engineering design, simulation or experimental project appropriate to the senior level carried out under the supervision of a faculty member. A complete report is required at the end of the project. Equivalent laboratory time: 6 hours per week.
NOTE: Not available for credit for students taking MECH 445.

MECH 498  Topics in Mechanical Engineering  (3 credits)
Prerequisite: Permission of the Department Chair. This course may be offered in a given year upon the authorization of the Mechanical Engineering Department. The course content may vary from offering to offering and will be chosen to complement the elective courses available in a given option or options. Lectures: 3 hours per week.
Computer Science is the study and design of computer systems: hardware and software. Computer scientists are primarily concerned with the design of algorithms, languages, hardware architecture, systems software, applications software and tools. Applications range from simple game playing to the control of space vehicles, power plants and factories, from banking machines to intelligent fault and medical diagnosis. Computer professionals, in short, are concerned with the creation of computer and information systems for the benefit of society.

The department offers the following five options: Information Systems, Software Systems, Systems Architecture, Theoretical Computer Science, and General Science. An Honours programme in Computer Science is also available. All options are offered in the co-operative format, alternating study and work terms, for a limited number of high-ranking students.

The Information systems option focuses on the application of computers in business, with a special emphasis on databases, software engineering, and management information systems.

The systems architecture option focuses on aspects of the design of digital circuits, and their integration into computer architectures. The theoretical computer science option focuses on numerical analysis and symbolic computation. The general science option permits the student to define an area of speciality within the sciences.

The software systems option is concerned with the design and analysis of large-scale software systems.

71.80.2 DEGREE REQUIREMENTS

To be recommended for the degree of Bachelor of Computer Science, students must satisfactorily complete an approved programme of at least 90 credits comprising the courses of the Computer Science Core and those specified for their particular Option in accordance with the graduation requirements in §71.10.5.
Computer Science Core

This is composed of 9 required courses of 3 credits each, 1 course of 2 credits and 3 laboratories of 1 credit each for a total of 32 credits.

COMP 224, 231, 244, 285, 291, 326, 335, 343, 352, 353, 354, 385 and ENCS 281

1. Information Systems Option
NOTE: Admission profile is 10.12. Please refer to §71.10.2.
32 Computer Science Core
1 COMP 292 Language Laboratory -COBOL
9 Chosen from COMP 445, 451, 457, 458, 472, 474
6 Elective Computer Science credits chosen from COMP or ENCS courses numbered above 220 but including no more than two language laboratory courses.
30 ACC 213, 215, ECON 201, 203, FINA 314, MANA 266, MARK 213, DESC 243, 344, 315
6 Elective credits chosen from courses having prefixes ACCO, ECON, FINA, MANA, or MARK except ACCO 220, 221, MANA 211
6 Chosen from any department* *See note following the description of the Software Systems Option.
18 MATH 242, 243, 262, 263, 448, 451, 454.

**See note following the description of the Software Systems Option.
NOTE: COMP 467 and 468 replace COMP 436 and 437

4. General Science Option
NOTE: Admission profile is 10.10. Please refer to §71.10.2.
32 Computer Science Core
1 Language Laboratory
3 COMP 361
6 Two courses chosen from
COMP 325, 427, 445, ENCS 455
6 Chosen from COMP or ENCS courses numbered above 220 but including no more than two language laboratories
27 EMAT 212, 232, 252, 312, ENGR 273, 274, 371, ELEC 311
9 Chosen from ENCS 245, 456, ENGR 372, 471, ELEC 312, 341, 442, 461, 462
6 Chosen from any department.* *See note following the description of the Software Systems Option.
18 MATH 242, 243, 262, 263, 282, 283
6 Elective credits* chosen from:
(a) those offerings of the Faculty of Arts and Science which are creditable towards a 90-credit BSc programme;
(b) those offerings of the Faculty of Commerce and Administration which are creditable towards a 90-credit BComm or BAdmin degree;
(c) those offerings of the Faculty of Engineering and Computer Science other than COMP 201;
(d) other courses as authorized by the Office of the Associate Dean, in consultation with the Department.
6 Chosen from any department* *See note following the description of the Software Systems Option.

5. Software Systems Option
NOTE: Admission profile is 10.10. Please refer to §71.10.2.
32 Computer Science Core
1 Language Laboratory
19 COMP 361, 442, 445, 446, 451, 459, 485
8 Chosen from COMP or ENCS courses numbered above 220 but including no more than two language laboratories
18 MATH 242, 243, 262, 263, 282, 283
6 Elective credits* chosen from:
(a) those offerings of the Faculty of Arts and Science which are creditable as science credits towards a 90-credit BSc programme;
(b) those offerings of the Faculty of Commerce and Administration which are creditable towards a 90-credit BComm or BAdmin degree;
(c) those offerings of the Faculty of Engineering and Computer Science other than COMP 201;
(d) other courses as authorized by the Office of the Associate Dean, in consultation with the Department.
6 Chosen from any department* *See note following the description of the Software Systems Option.

*Students should note that certain courses are not creditable towards some 90-credit programmes, or cover certain material already found in the Computer Science or Option Core. As such they are not recognized as electives.

*List 1 Discrete Mathematics: MATH 322, 381, 392, 393, 394, 432, 491, 492.

4. General Science Option
NOTE: Admission profile is 10.10. Please refer to §71.10.2.
32 Computer Science Core
1 Language Laboratory
3 COMP 361 Elementary Numerical Analysis
12 Chosen from COMP or ENCS courses numbered above 220 but including no more than two language laboratories
18 MATH 242, 243, 262, 282, 283
18 Elective credits* chosen from:
(a) those offerings of the Faculty of Arts and Science which are creditable towards a 90-credit BCom programme;
(b) those offerings of the Faculty of Commerce and Administration which are creditable towards a 90-credit BCom programme;
(c) those offerings of the Faculty of Engineering and Computer Science other than COMP 201;
(d) other courses as authorized by the Office of the Associate Dean, in consultation with the Department.
6 Chosen from any department* *See note following the description of the Software Systems Option.

5. Software Systems Option
NOTE: Admission profile is 10.10. Please refer to §71.10.2.
32 Computer Science Core
1 Language Laboratory
19 COMP 361, 442, 445, 446, 451, 459, 485
8 Chosen from COMP or ENCS courses numbered above 220 but including no more than two language laboratories
18 MATH 242, 243, 262, 263, 282, 283
6 Elective credits* chosen from:
(a) those offerings of the Faculty of Arts and Science which are creditable as science credits towards a 90-credit BSc programme;
(b) those offerings of the Faculty of Commerce and Administration which are creditable towards a 90-credit BComm or BAdmin degree;
(c) those offerings of the Faculty of Engineering and Computer Science other than COMP 201;
(d) other courses as authorized by the Office of the Associate Dean, in consultation with the Department.
6 Chosen from any department* *See note following the description of the Software Systems Option.

*List 1 Discrete Mathematics: MATH 322, 381, 392, 393, 394, 432, 491, 492.
A listing of these exclusions and other information on choice of electives is found in the Faculty programme guide. Exceptions require the approval of the Dean’s Office.

71.80.3 EXTENDED CREDIT PROGRAMME

Students admitted to an extended credit programme under the provisions of Sections 13.4.2 or 13.11 must successfully complete a minimum of 120 credits including:

- 90 Programme requirements as set out in Section 71.80.2
- 12 MATH 202, 203, 204, 205
- 3 COMP 201
- 15 Additional credits, as indicated below:

a) Information Systems Option:
   - 15 elective credits chosen from outside the Faculty of Commerce and Administration and the Department of Computer Science.

b) Other Options:
   - CHEM 205
   - PHYS 204, 205, 224, 225, and at least 4 credits chosen from
   - BIOL 201
   - CHEM 206
   - ECON 201, 203
   - ESL 207, 208
   - PHYS 206, 207, 226

71.80.4 HONOURS PROGRAMME

Students should refer to Section 16.2.4 of the calendar for academic regulations for the Honours Programme. In addition the following regulations apply to the BCompSc programme.
1. Students who are required to withdraw from the honours programme must enter the General Science Option.
2. Students entering the honours programme from the General Science option of the BCompSc must complete a minimum of 30 credits towards the degree after having been accepted as honours students. Other students entering the programme with advanced standing must complete a minimum of 30 credits of the basic honours requirements after having been accepted as honours students.
3. Students in the honours programme are required to confirm their standing with the Computer Science Department by November 15 of each year.

Requirements for Honours

- 32 Computer Science Core
- 1 Language Laboratory
- 9 COMP 381, 490, 492
- 12 Computer Science electives chosen in consultation with the Honours adviser from COMP and ENCS courses numbered above 220 but including no more than two language laboratories
- 24 MATH 242, 243, 262, 263, 271, 282, 283, 351
- 6 Elective credits chosen from MATH 231, 336, 342, 343, 346, 342, 436, 448, 454
- 6 Elective credits chosen from any department

*See note following the description of the Software Systems Option.

71.80.5 MINOR IN COMPUTER SCIENCE

This programme is offered on both campuses.

NOTE: Admission profile is 10.12.

Minor In Computer Science

- 15 COMP 224, 231, 244, 285, 291, 352 and one further language laboratory
- 9 Computer Science electives.

71.80.6 PROGRAMMES IN MANAGEMENT INFORMATION SYSTEMS

Both major and minor programmes in Management Information Systems can be found in the Commerce and Administration Section of the Undergraduate Calendar, §61.

71.80.7 THE CO-OPERATIVE FORMAT

Director
G. MARTIN, Associate Professor

Students entering any option of the programme leading to the Bachelor of Computer Science degree may request permission to undertake their studies in the co-op format by following the application procedure specified in §31.515. Academic content is identical to that of the regular programme, but six study terms are interspersed with four work terms. Each student is supervised personally and must meet the requirements specified by the Faculty of Engineering and Computer Science and the Institute for Co-operative Education in order to continue their studies in the co-op format. Liaison between the student, the employers and the Institute for Co-operative Education is provided by the Computer Science Co-op Committee, which includes the student’s advisers. Please refer to §31.515 for the schedule of study and work terms and the full description of admission requirements.

Please note that new course numbers have been implemented. For equivalent course numbers under the old system, please consult §200.6

COMP 201 Introduction to Computers and Computing (3 credits)

Prerequisite: Registration in Mature Student or Extended Credit Programme in Engineering or Computer Science. History of computers; survey of computer technology and application; introduction to hardware and software; problem solving and algorithms; data organization; programme design and development. A programming language will be introduced to develop and convey the above topics. Lectures: 3 hours per week. Tutorial: 1 hour per week.

NOTE: Students having credit for COMP C211 may not take this course for credit.
COMP 212  FORTRAN for Engineers and Scientists  (3 credits)
Prerequisite: MATH 204 or CEGEP Mathematics 105; MATH 205 or CEGEP Mathematics 203. Note: It is also assumed that students have had some exposure to computers, either through a CEGEP course or through exposure to personal computers. A brief introduction to computers and computing systems. A thorough grounding in the use of FORTRAN 77 as a tool for the solution of engineering and scientific problems. Introduction to the principles of software engineering: problem specification, requirements analysis, programme design with emphasis on structured programming, testing and validation; programme documentation. Lectures: 3 hours per week. Tutorial: 1 hour per week.
NOTES: 1. Students having credit for a FORTRAN programming course from CEGEP with a mark of at least 85% may, during the first two weeks of the course, apply to the course coordinator to undertake a FORTRAN programming project appropriate to their field of study in lieu of the normal requirements of the course.
2. Students in the BCompSc programme may not take this course for credit.

COMP 218  Introduction to Computing for the Physically Handicapped  (3 credits)
An introductory course intended for the physically handicapped. Topics covered in this course will include programming in BASIC with the help of microcomputers, study of computer assistance to the handicapped, and applications of personal computers and microcomputer based systems to different types of physical handicaps. Lectures: 3 hours per week. Tutorial: 1½ hour per week.
NOTE: Registration is limited to those physically handicapped persons who are judged able to benefit from the course and those working in the area of education for the physically handicapped. For further information contact the Dean of Students Office.

COMP 224  Introduction to Systems Programming  (3 credits)
Prerequisite: COMP 244, COMP 285 previously or concurrently. Basic machine organization, data representation, instruction sets. The assembly and execution process, macros and macroprocessing. Input/output processing. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COMP 231  Introduction to Discrete Structures  (3 credits)
Prerequisite: MATH 204 (CEGEP Mathematics 105). Set theory, relations, propositional logic and proofs, algebraic structures, graphs, lattices and Boolean algebra, enumeration. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COMP 244  Programming Methodology  (3 credits)
Prerequisite: MATH 205 (CEGEP Mathematics 203), COMP 231 or COEN 231 previously or concurrently; COMP 291 previously or concurrently. Basic concepts of Computer Science. Problem-solving techniques, algorithm specification and development. Programme structures: procedures, data types, coding. Programming style, debugging, documentation. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COMP 251  Introduction to Business Programming  (3 credits)
Prerequisite: CEGEP 420-911 or equivalent. Introduction to business data processing. Basic file organization and handling, record layouts, elementary information storage and retrieval. Detailed specifications of the Common Business Oriented Language (COBOL). Structured programming concepts will be emphasized. This course will include programming assignments involving basic business applications, to be prepared, tested and documented individually. Lectures: 3 hours per week. Tutorial: 1½ hours per week.
NOTE: Restricted to students registered in a Commerce and Administration programme.

COMP 285  Systems Programming Laboratory I  (1 credit)
Prerequisite: COMP 224 previously or concurrently. Use of assemblers, syntax of an assembler language, use of debuggers, input/output programming, interrupts. Laboratory: 2 hours per week. Tutorial: 1 hour per week.

COMP 291  Language Laboratory — Pascal  (1 credit)
Prerequisite: COMP 244 previously or concurrently or COMP 212 previously. Use of computer system. Syntax and semantics of the programming language Pascal. The design, development, and documentation of programmes. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.

COMP 292  Language Laboratory — COBOL  (1 credit)
Prerequisite: COMP 244 previously or concurrently. Use of computer system. Syntax and semantics of the programming language COBOL. The design, development, and documentation of programmes. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.

COMP 293  Language Laboratory — FORTRAN  (1 credit)
Prerequisite: COMP 244 previously or concurrently. Use of computer system. Syntax and semantics of the programming language FORTRAN. The design, development, and documentation of programmes. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.
COM 294  Language Laboratory — LISP  (1 credit)
Prerequisite: COMP 244; 291. Syntax and semantics of the programming language LISP. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.
NOTE: Students having credit for COMP 391 may not take this course for credit.

COM 295  Language Laboratory — PL/I  (1 credit)
Prerequisite: COMP 244; COMP 291. Syntax and semantics of the programming language PL/I. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.
NOTE: Students having credit for COMP 392 may not take this course for credit.

COM 296  Language Laboratory — APL  (1 credit)
Prerequisite: COMP 244; COMP 291. Syntax and semantics of the programming language APL. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.
NOTE: Students having credit for COMP 393 may not take this course for credit.

COM 297  Language Laboratory — Ada  (1 credit)
Prerequisite: COMP 244; COMP 291. Syntax and semantics of the programming language Ada. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.
NOTE: Students having credit for COMP 394 may not take this course for credit.

COM 298  Language Laboratory — C  (1 credit)
Prerequisite: COMP 244; COMP 291. Syntax and semantics of the programming language C. Projects requiring the proper choice of data structures, control structures, and tools of software design. Laboratory: 2 hours per week. Tutorial: 1 hour per week.

COM 325  Digital System Design  (3 credits)
Prerequisite: COMP 224; COMP 231; COMP 285; COMP 386 previously or concurrently. Reduction of Boolean expressions. Digital integrated circuits. Combinatorial circuits. Sequential logic, counters, shift registers. Microprocessors. Interfacing with external devices. Lectures: 3 hours per week.

COM 326  Computer Architecture  (3 credits)
Prerequisite: COMP 343 previously or concurrently. Classification schemes. Functional units, bussing systems and input/output structures, storage systems, instruction sets. Microprogramming. Survey of different kinds of computer architectures. Software influences on architecture. Advanced topics in computer architecture. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COM 335  Introduction to Theoretical Computer Science  (3 credits)
Prerequisite: COMP 231 or COEN 231; COMP 244; COMP 291. Finite state automata, context free grammars, push-down automata, LL(1) and LR(1) parsing. Turing machines, computability and complexity theory, formal methods of programme specification, programme testing, and programme verification. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COM 343  Operating Systems  (3 credits)
Prerequisite: COMP 224 or COEN 311; COMP 352; COMP 385 previously or concurrently. Operating system evolution and services. Process management: concept of processes, concurrent languages, process states, process communication, operating system structure, processor scheduling, monitors. System management: Virtual memory, resource allocation, queue management, communication with peripherals, exception handling. File systems. Interactive computation. Protection. Distributed systems. Lectures: 3 hours per week.

COM 352  Data Structures and Algorithms  (3 credits)
Prerequisite: COMP 231 or COEN 231; COMP 244; COMP 291. This course will emphasize the definition, usage, and manipulation of fundamental data structures and their associated algorithms: stacks and queues, trees, tables, lists, arrays, strings, sets. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COM 353  Files and Databases  (3 credits)
Prerequisite: COMP 352. Files and access methods: Physical and logical organization, access methods, basic files, external sorting, B-trees, multi-key organizations. Classical database management: Modeling, data integrity, data independence and security, ANSI/SPARC architecture, data models (relational, hierarchical and network), database design, detailed study of the relational model. Lectures: 3 hours per week. Tutorial: 1 hour per week.

COM 354  Software Engineering  (3 credits)
Prerequisite: COMP 353 previously or concurrently. Software management, cost estimation, design and specification of modules, reliability, efficiency, system design and development principles, modification strategies, models and modelling, examples of systems and documentation. Lectures: 3 hours per week. Tutorial: 1 hour per week.

NOTE: Students having completed COEN 431 may not take this course for credit.
COMP 361  **Elementary Numerical Methods**  (3 credits)

COMP 362  **Computer Applications of Statistics**  (3 credits)
Prerequisite: COMP 212 or 244 and 293; EMAT 271 or DESC 244 or MATH 242, 243 or ENGR 371; This course is designed to familiarize the student with the application of computers to statistical problems. Computer terminals and batch processing of Fortran programmes are used to develop a working knowledge of standard programmes for control charts, analysis of experimental design, sampling plans, forecasting, and statistical analysis common to many other fields. Students are expected to be familiar with elementary statistics and to be able to programme in Fortran. Lectures: 3 hours per week.

COMP 385  **Systems Programming Laboratory II**  (1 credit)
Prerequisite: COMP 343 previously or concurrently. Development of systems software (e.g., linkage editor, loader, etc.). Implementation of scheduling algorithms and protection schemes. Laboratory: 2 hours per week. Tutorial: 1 hour per week.

COMP 396  **Microprocessor Laboratory I**  (1 credit)
Prerequisite: COMP 325 previously or concurrently. Combinatorial and sequential logic design. Basic microprocessor interfacing. Laboratory: 2 hours per week. Tutorial: 1 hour per week.

COMP 427  **Microprocessor Systems Architecture**  (3 credits)

COMP 441  **Comparative Study of Programming Languages**  (3 credits)
Prerequisite: COMP 352; COMP 294 previously or concurrently. This course introduces programming language design and supporting run-time structures. Some recent languages (functional, relational, and concurrent) which are substantially different from conventional languages will be chosen for discussion. Lectures: 3 hours per week.

COMP 442  **Compiler Design**  (3 credits)
Prerequisite: COMP 224 and COMP 285, or COEN 311; COMP 335; COMP 352. Compiler organization and implementation. Programming language constructs, their syntax and semantics. Syntax directed translation, code optimization. Run-time organization of programming languages. Lectures: 3 hours per week.

**NOTE:** Students with credit for COMP 342 may not take this course for credit.

COMP 445  **Data Communication and Computer Networks**  (3 credits)
Prerequisite: COMP 343; COMP 385. The study of remote access to and communications between computers. Network architectures and topology, communication protocols and interfaces, functional layers; transmission facilities including communications equipment, line utilization, switching, and error handling; standard protocols; network interfaces including routing and flow control; point-to-point, broadcasting, and local networks theory and current practice; high-level protocols; reliability and security, encryption. Lectures: 3 hours per week.

**NOTE:** Students with credit for COMP 372 or 373 may not take this course for credit.

COMP 446  **System Software Design**  (3 credits)
Prerequisite: COMP 298; COMP 343; COMP 385; COMP 485 previously or concurrently. Detailed examination of data structures and algorithms of a contemporary operating system: File System, Processes, Memory Management, Device Management. Comparison of techniques used with those employed in other operating systems. Lectures: 3 hours per week.

**NOTE:** Students having credit for COMP 423 may not take this course for credit.

COMP 451  **Database Design**  (3 credits)

COMP 456  **Information Retrieval**  (3 credits)
COMP 457  **Office Automation**  (3 credits)

COMP 458  **Structure of Information Systems**  (3 credits)
Prerequisite: COMP 353. Information systems and organizations. Representation and analysis of system structure. Decision theory. Information system applications. Information centres. System evaluation and selection. Lectures: 3 hours per week.

COMP 463  **Discrete System Simulation**  (3 credits)
Prerequisite: COMP 244 and 291; MATH 242, 243 or DESC 244 or EMAT 271 or ENGR 371. Discrete random variables and their distributions. A comparison of simulation techniques: discrete, continuous and hybrid. Queueing models, analysis of data. Model building. Review of simulation languages. Application to business problems and operations research. Lectures: 3 hours per week.

Note: Students with credit for COMP 475 may not take this course for credit.

COMP 465  **Design and Analysis of Algorithms**  (3 credits)

COMP 467  **Introduction to Symbolic and Algebraic Computation**  (3 credits)
Prerequisite: COMP 335; COMP 352. Comparison, familiarization and use of several symbolic systems and languages (such as MACSYMA, MU-MATH, REDUCE, SAC). Symbolic algebra, factorization, integral and differential calculus, method of homomorphism. Lectures: 3 hours per week.

Note: Students having credit for COMP 437 may not take this course for credit.

COMP 468  **Syntactic Analysis**  (3 credits)
Prerequisite: COMP 335. LL(k) parsers. Transformations of context-free grammars into LR(k) grammars. LL(k) and LR(k) languages. Error recovery techniques. Translation grammars and attributed grammars. Earlyl's parsing algorithm for general context-free grammars. Lectures: 3 hours per week.

COMP 471  **Computer Graphics**  (3.75 credits)
Prerequisite: COMP 326 or COEN 416; COMP 352. Display memory; generation of points, vectors, etc. Interactive versus passive graphics; CRT devices and plotters, analog storage of images. Digitizing and digital storage. Pattern recognition. Data structures and graphics software. The mathematics of three-dimensional transformations; projections. Applications in computer-aided design and instruction. Lectures: 3 hours per week. Laboratory: 1½ hours per week.

COMP 472  **Introduction to Artificial Intelligence**  (3 credits)
Prerequisite: COMP 294, COMP 353 previously or concurrently. Scope of AI. Knowledge representation and inference using predicate calculus and semantic networks. List processing. Heuristic programming: state-space search and problem-reduction strategies. Other topics include: Game heuristics; symbolic pattern matching; AI production systems; natural language processing; study of a large AI system. Lectures: 3 hours per week.

COMP 473  **Pattern Recognition**  (3 credits)
Prerequisite: COMP 352. Optical character recognition; sequential and parallel recognition methods; Bayesian decision procedures; perceptrons; statistical and syntactic approaches; recognition grammars; feature extraction and selection, scene analysis. Lectures: 3 hours per week.

COMP 474  **Introduction to Expert Systems**  (3 credits)
Prerequisite: COMP 352. Basic concepts and techniques. Knowledge representation in inferencing. Building a small expert system. Knowledge engineering and large system development. Survey of tools and expert systems. The expert system market. Lectures: 3 hours per week.

COMP 485  **Systems Software Laboratory**  (1 credit)
Prerequisite: COMP 298; COMP 446 previously or concurrently. Shell Language. Systems programming language. Design of high- and low-level utilities. Device driver design. System configuration. Laboratory: 2 hours per week.

COMP 486  **Microprocessor Laboratory II**  (1 credit)
Prerequisite: COMP 427 previously or concurrently. Design and implementation of dedicated hardware and software for microprocessor and single-chip microcomputer applications. Laboratory: 2 hours per week.

COMP 490  **Computer Science Project I**  (3 credits)
Prerequisite: Completion of 60 credits. Students will work on a computer science project under the supervision of a faculty member and submit a suitable written report on the work carried out. Students planning to register for this course should consult with the department prior to registration in the final year of study.
COMP 492  Computer Science Project II  (3 credits)
Prerequisite: COMP 490 previously or concurrently. Students having permission of the department to carry out a major project will register for both COMP 490 and 492. Alternatively, they may carry out a second smaller project.
Certificate Programme in Quality Control

The programme leading to the Certificate in Quality Control is offered at the Loyola Campus, in the evening only.

71.90.1 ADMISSION REQUIREMENTS
Applications for admission to the certificate programme in Quality Control are submitted to the Admissions Office.

General Admission requirements are listed in §13.

Special requirements are a Diploma of Collegial Studies, or its equivalent, including the CEGEP courses Mathematics 103, 105 and 203, or their equivalents. (Profile 10.12).

Students entering the certificate programme in Quality Control are presumed to have acquired some familiarity with computers and programming, either through a course or through time spent working with a personal or other computer.

71.90.2 CURRICULUM FOR THE CERTIFICATE IN QUALITY CONTROL
To be recommended for the award of the Certificate in Quality Control, students must satisfactorily complete the programme of 48 credits specified below in accordance with the graduation requirements specified in §71.10.5. The courses offered in the programme will provide the student with an in-depth understanding and working knowledge of the principles and practices used in the rapidly expanding field of quality control.

The programme is fully endorsed by the Montreal Section of the American Society for Quality Control (ASQC). It has been designed in keeping with the requirements stipulated by the Education Institute of the ASQC headquarters and, as such, does much to prepare candidates for the ASQC Quality Engineer Certificate examinations. It should be noted, however, that the certificate programme does not lead to admission to the Order of Engineers of Quebec, or to the legal use of the title Engineer.

71.90.3 ACADEMIC REGULATIONS
Students are subject to the academic regulations specified in §71.10.3.

71.90.4 COURSE REQUIREMENTS
To be recommended for the award of the Certificate, students must satisfactorily complete the following courses:

<table>

3 elective credits from Computer Science or Decision Sciences and Management Information Systems.

Course descriptions are given below, except for electives and COMP 212, which may be found in the Computer Science, and Decision Sciences and Management Information Systems sections of the calendar.

Please note that new course numbers have been implemented. For equivalent course numbers under the old system, please consult §200.6.

QUAL 200 Elementary Metrology (3 credits)
Prerequisite: MATH 204; MATH 205 (CEGEP Mathematics 105 and 203). An introductory course dealing with general measurement concepts, methods for estimating accuracy, systematic and constant errors. Included are: mathematical bases of metrology, statistical analysis of measurement, master standards, principles involved in the use of projectors, pneumatic comparators, and direct reading measuring machines.

QUAL 201 Advanced Metrology (3 credits)
Prerequisite: QUAL 200; QUAL 202. This course applies the principles presented in Elementary Metrology, and explores the value of these principles through everyday applications to modern technology. Special consideration is given to the “Système International” (Modernized Metric System) and its influence on industry (including the use of conversion tables and formulae).

The course treats non-destructive testing techniques and their applications, including (in some depth) radiographic, ultrasonic and nucleonic gauging and measurement.
QUAL 202  **Statistical Quality Control**  (3 credits)
Prerequisite: MATH 204; MATH 205 (CEGEP Mathematics 105 and 203). Techniques for establishing, monitoring and maintaining process control of manufactured products. A workshop course with full student participation in solving a variety of practical statistical quality control problems. Discussed are the concept of variation, frequency distributions, functions of a frequency distribution, the various types of control charts including those for attributes and variables data, analysis of patterns, process capability studies and other related topics.

QUAL 203  **Statistical Sampling**  (6 credits)
Prerequisite: QUAL 202. Statistical sampling theory and its application to quality control. Also discussed in lecture workshop/sessions are risks for producer and consumer. Topics include elements of probability theory; the binomial; Poisson, and hyper-geometric distribution; sampling theory; sampling plans, classification of sampling plans—AQL, AOQL and LTPD, types of sampling plans within each classification, such as single, double, multiple, unit sequential, and continuous plans and their associated operating characteristic curves. MIL-STD-105D and MIL-STD-414 are discussed in detail and the Dodge and Romig tables are highlighted.

QUAL 204  **Basic Concepts of Reliability**  (3 credits)
Prerequisite: QUAL 202. A mixed format of lectures, workshops, problems and discussions designed to familiarize the student with the basic principles of reliability. Building gradually from historical review, definitions and concepts, the course discusses probability theory, Poisson and exponential distributions, reliability equation, MTBF and failure rate concepts, Weibull analysis, mean and median ranks, confidence statements, life characteristic curves, system reliabilities, standby systems, associated problems and other related topics.

QUAL 205  **Advanced Reliability**  (3 credits)
Prerequisite: QUAL 202; QUAL 204. Statistical methods in life testing. Introduction, reliability concepts and definitions, historical review and development. Life characteristic curve, Poisson and exponential distributions, exponential reliability equation, MTBF and failure rate concepts. Chi square confidence statements and intervals, Weibull analysis, mean and median ranks, associated problems. Probability theory, system reliabilities, standby systems, and other related topics.

QUAL 206  **Quality Management**  (3 credits)
Prerequisite: MATH 204; MATH 205 (CEGEP Mathematics 105 and 203). Emphasis is on general principles of planning and management rather than quality control methodology. The concept of total quality control, from design, development and manufacture to customer use, is developed. The economics of quality, the planning and implementation of a quality cost programme, organization for quality, procurement quality control, in-process control, motivation for quality, value engineering, system quality audit, customer feedback and product liability are topics treated in detail.

QUAL 207  **Design of Experiments**  (6 credits)
Prerequisite: QUAL 202. An introductory course, providing a more systematic approach to experimentation with emphasis on the use of statistical designs for data interpretation and known confidence in the result and overall costs. The course covers: tests of hypotheses, F, t, and X² tests, analysis of variance, goodness of fit tests, use of probability paper, and control chart analysis of experimental results. Also included are experimental design methods such as: full and fractional factorial designs, regression analysis, multiple and random balance designs, Latin square, cube and nested designs, etc.

QUAL 208  **Quality Assurance Technology**  (6 credits)
Prerequisite: QUAL 202. The basic principles of quality assurance, and its definition as a planned and systematic pattern of actions necessary to provide adequate confidence that a product or service conforms to established requirements. The development of the individual quality system in a modular format to cover the various phases of the industrial and commercial enterprise. Topics include: development of Quality Organizations, systems engineering, closed loop feedback systems, principle of modular systems, what the customer expects versus what he or she gets, development of quality product, computer software QA, product safety and reliability, vendor-vendee relations, manufacturing, processing and post-production servicing.

QUAL 209  **Product Cost Control**  (3 credits)
Prerequisite: MATH 204; MATH 205 (CEGEP Mathematics 105 and 203). This course introduces the student to product cost control and related areas. Topics include introductions to: accounting, procedures, cash flow, budgeting, capital equipment costing and amortization, product costing, cost of quality control systems ("quality costs"). Lectures: 3 hours per week.

QUAL 210  **Computer Application of Statistics**  (3 credits)
Prerequisite: QUAL 203; COMP 212. This course is designed to familiarize the student with the application of computers to statistical problems. Fortran programmes are used to develop a working knowledge of standard programmes for control charts, analysis of experimental design, sampling plans, forecasting and statistical analysis common to many other fields. **NOTE A/See §200.6**
FACULTY OF FINE ARTS

81.10 PROGRAMMES AND ADMISSION REQUIREMENTS
   81.10.1 Applicants from Quebec Institutions
   81.10.2 Transfer Students
   81.10.3 Mature Entry
   81.10.4 Extended Credit Programme
   81.10.5 Portfolio Evaluation Committee

81.20 DEGREE REQUIREMENTS
   81.20.1 BFA Degree Requirements
   81.20.2 Residence Requirements
   81.20.3 Course Load
   81.20.4 Academic Performance Requirements

81.30 FACULTY OF FINE ARTS PROGRAMMES AND COURSES

81.40 INTER-RELATED ARTS

81.50 ART EDUCATION AND ART THERAPY

81.60 ART HISTORY

81.70 CINEMA

81.80 CONTEMPORARY DANCE

81.90 DESIGN ART

81.100 MUSIC

81.110 PAINTING AND DRAWING

81.120 PRINTMAKING AND PHOTOGRAPHY

81.130 SCULPTURE, CERAMICS AND FIBRES

81.140 THEATRE
The Faculty of Fine Arts has two divisions, comprising ten departments offering numerous programmes.

The PERFORMING ARTS DIVISION consists of the departments of:

- Contemporary Dance
- Music
- Theatre

The VISUAL ARTS DIVISION consists of the following seven departments:

- Art Education and Art Therapy
- Art History
- Cinema
- Design Art
- Painting and Drawing
- Printmaking and Photography
- Sculpture, Ceramics and Fibres

Programmes offered:

For information concerning any of the following programmes, please consult the calendar section listed opposite each programme.

Specializations:

- Art Education
- Design for the Theatre: Conception and Realization
- Drama in Education
- Jazz Studies
- Music Performance Studies
- Music Theory/Composition
- Playwrighting (English and Theatre)
- Printmaking
- Selected Music Studies
- Theatre Performance

Majors:

- Art Education
- Art History
- Art History and Studio Art
- Integrative Music Studies
- Inter-Related Arts
- Ceramics
- Cinema
- Design Art
- Fibres
- Film Production
- Film Studies
- Painting and Drawing
- Photography
- Sculpture
- Studio Art
- Theatre

81.10 Programmes and Admission Requirements

General admission requirements are listed in §13. In addition, the following specific requirements exist for the various programmes.

81.10.1 APPLICANTS FROM QUEBEC INSTITUTIONS

In addition to successful completion of a two-year pre-university CEGEP programme (or equivalent), some programmes have distinct requirements as follows:

1. There are no specific courses or procedures required for the Major and Minor in Art History and the Minor in Archaeology.

2. Applicants to the Major in Inter-Related Arts and the Minor in Women and the Fine Arts must submit a letter of intent with their application.

3. Applicants to specializations in Drama in Education and Theatre Performance; majors in Contemporary Dance and Integrative Music Studies; and the minors in Music and Theatre are required to attend an interview and audition as part of the admission process. These applicants must contact the relevant Department for appointments.

4. Applicants to the Major in Cinema, the Major in Photography, the Specialization in Design for the Theatre, Specialization in Film Production, Specialization and Minor in Film Studies, Joint Specialization in Playwriting (English and Theatre) must submit a portfolio as well as attend an interview and audition. Applicants must contact the relevant Department for particulars regarding portfolio submissions and auditions.

5. Applicants to the specializations in Music, Jazz Studies, Music Performance Studies, Music Theory/Composition and Selected Music Studies must attend an interview and audition. In addition they are required to have successfully completed at least six courses in music (10.7 profile) in their CEGEP programme. Applicants without this profile but with alternate background in music are also considered for admission. All applicants to these specializations must contact the Department of Music to make arrangements for their interview and audition.

6. Applicants to the Major in Theatre must attend an interview and audition and submit a letter of intent. Applicants must contact the Department of Theatre for particulars.

7. Applicants to the studio arts programmes: Specialization in Printmaking and majors in Art History and Studio Art; Ceramics; Design Art; Fibres; Painting and Drawing; Sculpture; Studio Art are required to submit a portfolio of their own work (see 81.10.5). Accepted applicants who have the CEGEP 10.6 profile (studio art courses 110, 210, 310, 320) are automatically exempt from Art 200, Studio Art I. Accepted applicants without the 10.6 profile are normally required to complete Art 200. However, they may be granted exemption if the quality and range of their portfolio submissions are of exceptional merit. Applicants to the Major in Design Art and the Major in Painting and Drawing require interviews and letters of intent as well as portfolio submissions (see 81.9.0.1.)

8. Applicants to the Specialization and Major in Art Education and the Minor in Art History and Studio Art require the CEGEP 10.6 profile (studio art courses 110, 210, 310, 320). Applicants who have the CEGEP 10.6 profile (studio art courses 110, 210, 310, 320) are automatically exempt from Art 200, Studio Art I. Applicants who do not have this profile but have a background in studio arts are required to submit a portfolio (see 81.10.5) requesting exemption for Art 200. Accepted applicants without exemption for Art 200 are required to complete this course during their first year as part of their programme requirements.

81.10.2 TRANSFER STUDENTS

Applicants who have completed courses in other colleges or universities are granted credits (advanced standing) on the basis of the programmes at Concordia University. Applicants follow the same admission procedures as those from Quebec institutions (see 81.10.1 above).

Applicants to a second Bachelor's degree must complete a minimum of 60 credits, other than those credited towards the first degree, at least 36 of which must be taken in the new field of specialization (§16.1.5). Students transferring credits towards a first degree must complete a minimum of 45 credits at Concordia (see §16.1.5).

Students must complete all programme and degree requirements, as well as the Faculty of Fine Arts residence requirements (see §81.20.2).

81.10.3 MATURE ENTRY

General admission requirements to the 108-credit programme (Mature Entry) are listed in §14. Students admitted into the Faculty of Fine Arts through the Mature Entry plan are required to com-
complete 18 credits in addition to the 90 credits normally required for the BFA degree. Fine Arts students are required to complete 18 credits appropriate for entry into the student's ultimate area of concentration and chosen with the approval of a Faculty adviser.

81.10.4 EXTENDED CREDIT PROGRAMME

Definition of the Extended Credit Programme is listed in §13.2. Students admitted to an Extended Credit Programme in Fine Arts are required to complete 120 credits for the degree, that is, 30 additional credits. A maximum of 18 of these 30 credits may be selected from courses offered in the Faculty of Fine Arts which are appropriate for entry into the student's area of concentration and chosen with the approval of a Faculty adviser. The remaining 12 credits are selected from other introductory level courses in other faculties. A listing of the courses in Fine Arts which may be applied towards the Extended Credit Programme is available in the Office of Student Affairs, Faculty of Fine Arts.

81.10.5 PORTFOLIO EVALUATION COMMITTEE

In addition to admission portfolio committees in each of the studio art departments, there is a Portfolio Evaluation Committee which reviews the portfolios of applicants to all studio art programmes who have not completed the required 10.6 profile in the CEGEP. Applicants without the 10.6 profile are normally required to complete Art 200, however, they may be granted, upon request, exemption if the quality and range of their portfolio submissions are of exceptional merit. All portfolio requirements (those of applicants requesting Art 200 exemption as well as admission to specific programmes) are listed under Admission in each of the departments.

To ensure early processing of applications to the Faculty of Fine Arts studio arts programmes, the deadline for portfolio submission is Thursday, March 15, 1990 (4:00 p.m.). It is the responsibility of the applicants to submit their portfolios before the deadline.

Students in other faculties and independent students wishing to register for a studio arts course, other than Art 200, must submit their portfolio requesting exemption from Art 200 unless they have completed the 10.6 profile in CEGEP. The deadline for submission of these portfolios is Wednesday, August 15, 1990 (4:00 p.m.).

81.20 Degree Requirements

Students preparing for the degree of Bachelor of Fine Arts require a minimum of 90 credits. Each credit represents, for the average student, a minimum of 45 hours of work spread across lectures, conferences, tutorials, studios, rehearsals or practice periods, tests, examinations, and personal work.

81.20.1 BFA DEGREE REQUIREMENTS

A. A candidate for the degree of Bachelor of Fine Arts must have qualified for admission to, and successfully completed a programme of concentration in the form of a Specialization (See §16.2.5), Major (See §16.2.6) or a Double Minor* programme in the Faculty of Fine Arts. A selection is made upon entry, prior to registration. The requirement of selecting a programme upon entry should not be thought of as being necessarily a final commitment. Students wishing to transfer out of one degree programme must satisfy the admission requirements of the programme they seek to enter. Programme changes are, however, subject to limitations where certain programmes are in great demand. Students should be aware that to effect certain transfers they may be required to complete more than the 90 credits normally required for the degree.

“A Minor consists of an approved sequence of 24-30 credits. The term "Double Minor" refers to a combination of two minors selected from the Faculty of Fine Arts; a planned programme of study in two specialized fields in Fine Arts with a lower degree of concentration in both than is afforded by a Major programme.

B. A candidate for graduation must have successfully completed at least 18 credits selected from course offerings outside the Faculty of Fine Arts. (Courses in the Department of Communication Studies do not fulfill this requirement of outside the Faculty of Fine Arts.) Within every block of 30 credits taken towards the degree, a student is encouraged to choose no more than 24 credits from the Faculty of Fine Arts.

C. A candidate for graduation normally may apply no more than 54 credits in studio work towards the 90 credits required for the BFA degree.

D. A candidate for graduation must fulfill all University graduation requirements (See §16.2.11).

E. The credits obtained for any course may not be used to satisfy the requirements of more than one programme.

81.20.2 RESIDENCE REQUIREMENTS

Students are subject to the University residence requirement (see §16.1.5) which states that of the 90 credits required for the Bachelor of Fine Arts degree, a minimum of 45 credits must be taken at Concordia University. Combining both residence requirements implies that the full-time student must enrol for a minimum of two years of study at Concordia University.

To fulfill the residence requirements for a BFA degree with a concentration in:

1. Art Education, Ceramics, Design Art, Fibres, Painting and Drawing, Printmaking, Sculpture, or Studio Art: a minimum of 30 credits in Studio Art and 6 credits in Art History must be completed at Concordia.
2. Art History, Art History and Studio Art, Cinema, Film Animation, Film Production, Film Studies, or Photography: at least half of the concentration requirements must be completed at Concordia.
3. Drama in Education, Theatre, Theatre Performance, or Design for the Theatre: Conception & Realization: a minimum of 30 credits from the Department of Theatre must be completed at Concordia.
4. Integrative Music Studies, Jazz Studies, Music Performance Studies, Music Theory/Composition, or Selected Music Studies: a minimum of 30 credits required from the Department of Music must be completed at Concordia.
5. Minor programmes: at least half of the required credits must be completed at Concordia.

81.20.3 COURSE LOAD
The normal course load for students enrolled in the Faculty of Fine Arts is 30 credits per year for all full-time students, and a maximum of 18 credits per year for part-time students.
i) Full-time students may not register for more than 18 credits of their maximum 30 credits in any studio area in any given academic year. Part-time students may not register for more than 12 credits.
ii) Students may register for a maximum of 6 credits in which films are produced as a course requirement during any given academic year. See §81.70 for list of courses. Also, students are limited, during their degree programme, to 18 credits in Film Production or Film Animation courses in which films are produced as a course requirement (§81.70). With special permission, Cinema Majors in Option B, Film Animation are permitted to complete a total of 24 credits in these courses, of which 12 credits may be taken in any one year.
iii) Students may register for a maximum of 6 credits in Theatre Production in any given academic year, up to a maximum of 18 credits in all.
iv) Students may register for a maximum of 6 credits in Music Private Study in any given academic year, up to a maximum of 18 credits in their degree programme.

81.20.4 ACADEMIC PERFORMANCE REQUIREMENTS
For purposes of these regulations, "failure" includes the grades F, FNS, R, and NR. Failed students are neither eligible to write supplemental examinations nor entitled to late completion of courses.

Definitions of Failed Standing
1. Failed — May Not Re-Register Without Special Permission
   a) Any student who fails courses equivalent to more than the number of credits prescribed below before obtaining the number on record specified, will be Failed. In order to re-register such a student must obtain special permission from the Faculty Dean.

<table>
<thead>
<tr>
<th>FAILED CREDITS</th>

<tr>
<td>12</td>
<td>30</td>
</tr>
<tr>
<td>24</td>
<td>60</td>
</tr>
<tr>
<td>36</td>
<td>90</td>
</tr>
</tbody>
</table>
   b) A Failed student who is given permission to re-register is placed on Academic Probation.
   c) A student placed on Academic Probation must pass the next thirty credits on the first attempt and satisfy any other conditions specified for readmission. A student failing to meet these requirements may not apply for readmission.

2. Failed — May Not Re-Register
   Any student who fails courses equivalent to more than the number prescribed below will be Failed and may not apply for readmission.

<table>

Any Probationary Student who fails to fulfill the terms of the probation will also be Failed and may not apply for readmission.
81.30 Faculty of Fine Arts Programmes and Courses

Programme Coordinator
B. MACKAY

24 Minor in Women and the Fine Arts
6 Faculty of Fine Arts 320
6 WSDB 290, 291
12 Electives in the Faculty of Fine Arts, chosen with the permission of a programme adviser

The following courses provide a format in which topics of Faculty-wide interest are considered:

FFAR 220 Sound in Fine Arts (3 credits)
A studio course dealing with the basics of sound and its application in the fine arts. Topics may include production aspects of sound in performance art, video art, dance and the theatre arts. The problems of copyright and ownership of the artistic materials are also considered.

FFAR 320 Women and the Fine Arts I (6 credits)
An investigation of the visual and performing arts as they pertain to issues of gender. Studio practices in relation to theoretical and critical concerns are investigated. NOTE A/See §200.3

FFAR 398 Special Topics in Fine Arts (3 credits)
A course which provides an opportunity for the study of specialized aspects of Fine Arts. NOTE C/See §200.3

FFAR 399 Special Topics in Fine Arts (6 credits)
A course which provides an opportunity for the study of specialized aspects of Fine Arts. NOTE C/See §200.3

FFAR 420 Women and the Fine Arts II (6 credits)
Prerequisite: Faculty of Fine Arts 320 or written permission of the co-ordinator. A continuation of FFAR 320.
The Faculty of Fine Arts offers a programme in Inter-Related Arts as an opportunity for students with an interest in organizing their studies in a multidisciplinary approach that involves more than two disciplines. Such students are required to select courses from the following areas with the approval of the Programme Coordinator and in consultation with academic advisers in the departments of the Faculty of Fine Arts.

60 BFA Major in Inter-Related Arts*
0-24 Electives chosen from the Departments of Art Education and Art Therapy; Design Art; Painting and Drawing; Printmaking and Photography; Sculpture, Ceramics and Fibres***

*Credits must be taken in a minimum of 3 fields of concentration with a maximum of 24 credits in any field.

**Students are required to take this course after completion of 30 credits and before the completion of 66 credits in their degree programme.

***Art 460 may be substituted for 6 credits in Art History.

81.40.1 ADMISSION TO THE MAJOR IN INTER-RELATED ARTS

There is a distinct admission procedure for admission to the Major in Inter-Related Arts in addition to the normal admission process of Concordia University.

All applicants are required to submit a statement of intent along with a copy of their academic record directly to the Programme Coordinator at the same time that they submit their completed application to the Admissions Office, i.e. prior to March 1. This letter of intent should include information on the applicants' academic and artistic backgrounds, their particular interests in Fine Arts and should clearly indicate the areas of Fine Arts which would form the Inter-Related Arts Major.

This letter of intent should include a statement of their goals with specific reasons for their programme choice. A programme core of relevant courses which constitute interdisciplinarity must be identified. It is recommended that students organize their programmes taking into account both theoretical and practical components.

Since multiple frames of reference are involved, a concern for artistic and aesthetic enquiry is expected. Applicants are advised that their overall programme of study should be prepared when entering the programme. The rationale and sequence of study must be approved by the Programme Coordinator.

An interview may be required as part of the admissions process. As well, in certain cases, departments have specific requirements and/or prerequisites for admission to courses.

INRA 300 Inter-Related Arts Seminar I (6 credits)
Prerequisite: Second-year standing* in the Major in Inter-Related Arts or written permission of the Coordinator of Inter-Related Arts.
A forum for the consideration of theory and practice addressing the nature of relationships between the fine arts.

*Fewer than 66 credits remaining in degree programme.

INRA 391 Independent Study I (3 credits)
Prerequisite: Third-year standing* and written permission of the Coordinator of Inter-Related Arts.
A course of independent study in which the student explores the relationship between two or more fields of concentration. NOTE C/See §200.3

*Fewer than 33 credits remaining in degree programme.
INRA 392  *Independent Study II*  (3 credits)
Prerequisite: Inter-Related Arts 391 and written permission of the Coordinator of Inter-Related Arts.
A student repeating Inter-Related Arts 391 registers for credit under Inter-Related Arts 392.

INRA 400  *Inter-Related Arts Seminar II*  (6 credits)
Prerequisite: INRA 300. A student repeating Inter-Related Arts 300 registers under Inter-Related Arts 400.
Students are responsible for fulfilling their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20.

The superscript indicates credit value.

**BFA Specialization in Art Education**

18 Art Education 300\(^6\), 400\(^6\), 430\(^6\)
6 Art 200\(^6\) or, if exempt, a studio arts elective
6 Art 261\(^*\), Art 460\(^6\), Sculpture 465\(^5\), or Art History elective
12 Drawing 200\(^6\), Painting 200\(^6\)
6 Fibres 240\(^6\), 260\(^6\), Ceramics 230\(^6\)
6 Art History 370\(^3\), 371\(^3\), 373\(^3\)

12** Studio arts electives chosen from the Departments of Design Art; Painting and Drawing; Printmaking and Photography; Sculpture, Ceramics and Fibers, in consultation with a programme adviser; Art Education and Art Therapy

*Students are advised to complete, in their first year: Art 261 in conjunction with either Art 200 and Drawing 200 or, if exempt from Art 200, with Drawing 200 and Painting 200.

**Film Animation 312 or 6 credits in Art History may be substituted for 6 credits in studio arts

**NOTE: This programme is an alternative to the BFA Specialization in Art Education and does not lead directly to the Diploma in Art Education. Electives permit a wider choice in appropriate complementary areas in preparation for graduate study in areas such as art therapy, museum work, recreation, geriatrics and fine arts administration. Students wishing to qualify for the Diploma in Art Therapy at Concordia should refer to entrance requirements in the Graduate Calendar which include 6 credits in Art Therapy and 18-24 credits in Psychology.

**THE CERTIFICATE IN ELEMENTARY ART EDUCATION**

The Department of Art Education offers a Certificate in elementary art education for the professional development of teachers. The programme is designed in accordance with the guidelines of the Quebec Ministry of Education and consists of studios, seminars, lectures, and a practicum.

The programme offers classroom teachers opportunities to acquire the knowledge and skills needed to implement the elementary art programme and to enrich the curriculum by relating art to other subject areas. Courses are scheduled in the late afternoon or evenings, both on and off campus for the convenience of teachers.

**Admission Requirements**

Entry to the programme requires that the candidate be legally qualified to teach either at the elementary or high-school level. The Faculty of
Fine Arts may allow up to 12 pro tanto credits to students who have completed appropriate courses that have been applied to a previous degree or certificate.

30 Certificate in Elementary Art Education
6 Art Education 200\(^8\) or 201\(^3\) and 202\(^3\)
6 Art 200\(^8\)
6 Art Education 330\(^8\)
12 Electives from other offerings within the Faculty of Fine Arts

Diploma in Art Education
The Faculty of Fine Arts offers a one-year post-graduate programme leading to the Diploma in Art Education. This programme is integrated with the Bachelor of Fine Arts, Specialization in Art Education, to provide a continuous pattern of studies preparing art specialists for teaching in elementary and secondary schools.

Diploma in Art Therapy
The Faculty of Fine Arts offers a one-year post-graduate programme leading to the Diploma in Art Therapy. This programme is designed to offer intermediate training for students intending to become qualified art therapists through further study and to provide basic skills in art therapy for members of the helping professions who wish to develop the use of the visual arts in their work. A detailed description of the programme may be found in the Graduate Studies Calendar.

81.50.1 Admission to the Specialization and Major in Art Education
Applicants to programmes in Art Education require the CEGEP 10.6 profile (see 81.10.1). Accepted applicants who have this profile are automatically exempt from Art 200, Studio Art I. Applicants who do not have the profile but have a background in studio arts are required to submit a portfolio; if accepted they are required to complete Art 200 during their first year. However, they may be granted exemption if the quality and range of their portfolio submissions are of exceptional merit.

1. Portfolios should consist of a minimum of 20 and maximum of 30 of the applicant’s own work.
2. Portfolios should consist of both two-dimensional and three-dimensional work in a variety of mediums.
3. Individual works must be labeled including applicant’s name, date, size of work and medium(s) used.
4. Each portfolio must contain a list of contents including all the above information.
5. Works larger than 20 x 24 inches (50 x 60 centimeters) and three-dimensional works must be submitted in slide form.
6. Portfolios should be presented in a sturdy folder; works should be flat and unframed.
7. Out-of-town applicants may submit photographs and/or slides of their work. Return shipment of out-of-town portfolios is by prior arrangement only.

Portfolios are submitted to the Portfolio Evaluation Committee, Visual Arts Building, Room 237, prior to the deadline of Thursday, March 15, 1990.

Art Education:

ARTE 200 Studio Orientation to Art Education (6 credits)
An introductory studio/seminar course in which students work with basic art forms such as drawing, painting, printmaking, sculpture, and video arts. Intrinsic to the course content is a consideration of the underlying dynamics of the learning/teaching process as it evolves, and as it raises implications for teaching others. NOTE A/See §200.3
NOTE: Students who receive credits for this course may not take Art Education 201 for credit.

ARTE 201 Art in Early Childhood I (3 credits)
Prerequisite: Enrolment in the Specialization in Early Childhood, Major in Child Studies, or written permission of the Department of Art Education and Art Therapy.
An introductory study of the art-making process in early childhood. This course is a studio workshop which investigates potential media and teaching approaches appropriate for the young child. NOTE: Students who receive credit for this course may not take Art Education 200 for credit.

ARTE 202 Art in Early Childhood II (3 credits)
Prerequisite: Art Education 201.
A continuation of Art Education 201.

ARTE 300* An Introduction to Art Education (6 credits)
Prerequisite: Eighteen credits in studio arts and second-year standing** or written permission of the Department of Art Education and Art Therapy.
A workshop/seminar course in which materials and art concepts are investigated and related to the teaching of art. Readings in the literature of Art Education are included.

*With permission of one of the studio arts Chairs, this course may satisfy a studio arts elective requirement in the student’s degree programme, Major in Studio Art.
**Fewer than 66 credits remaining in degree programme.
ART 301  **Methodologies and Resources for the Teaching of Art History**  (3 credits)
Prerequisite: Six credits in Art History.
This course deals with the methodologies, resources, and content for teaching art history in elementary and secondary schools. The course consists of lectures, museum seminars, and field trips.

**ART 310 Art Education in the Museum**  (6 credits)
Prerequisite: Six credits in Art History.
An examination of the role of art education in the museum and to the function of the museum in society. Fundamental problems in museum studies are considered in relation to the collection, preservation, exhibition and interpretation of art objects. The museum as an educational institution is studied in lectures, seminars, readings and field work. Topics include the educator's responsibilities in the planning and installing of exhibits, organizing docent and lecture programmes, and the preparing of audio-visual materials for the public.

ART 330  **Supervised Practicum in Elementary Art Education**  (6 credits)
Prerequisite: Art Education 200, Art 200, and enrolment in the Certificate Programme in Art Education for Teachers.
The course includes seminars which examine the role of art in the educational system, and the theoretical framework for the planning and implementation of art activities. Students design curriculum-units in art for the elementary level and teach these under supervision in a school setting. Teaching performance is evaluated.

ART 398  **Special Topics in Art Education**  (3 credits)
Prerequisite: Written permission of the Department of Art Education and Art Therapy.
A course which provides an opportunity for the study of specialized aspects of art education. Topics chosen for consideration vary from year to year. **NOTE C/See §200.3**

ART 400  **Seminar and Practicum in Art Education**  (6 credits)
Prerequisite: Art Education 300, enrolment in the Specialization or Major in Art Education or written permission of the Department of Art Education and Art Therapy.
A seminar/practicum course in which students interrelate theory and the teaching of art to develop professional skills. Readings and supervised practicum involve the planning and implementation of a curriculum and individual sessions within the framework of an articulated philosophy of art education. **NOTE A/See §200.3**

ART 430*  **Multi-Media**  (6 credits)
Prerequisite: Eighteen credits in studio arts and second-year standing** or written permission of the Department of Art Education and Art Therapy.
An introduction to photography, super-8 film-making, video, and sound. The course deals with the practical and theoretical aspects of these media and explores their potential for the artist and art educator. **NOTE A/See §200.3**

*With permission of one of the studio arts Department Chairs, this course may satisfy a studio arts elective requirement in the student's degree programme, Major in Studio Art.

**Fewer than 66 credits remaining in degree programme.

ART 498  **Special Topics in Art Education**  (3 credits)
Prerequisite: Written permission of the Department of Art Education and Art Therapy.
A course for advanced students which provides an opportunity for the study of limited and more specialized aspects of art education. The topics chosen for consideration vary from year to year according to the instructor's field of specialization. **NOTE C/See §200.3**

**Art Therapy:**
This course in Art Therapy is intended as part preparation for graduate study in this area.

ATRP 300  **An Introduction to Art Therapy**  (6 credits)
Prerequisite: Second-year standing* and written permission of the Department of Art Education and Art Therapy, Psychology 200 (or equivalent); Major in Art Education or twelve credits in studio arts.
Through lectures, seminars and workshops students examine basic concepts of art therapy and some of their practical application. **Fewer than 66 credits remaining in degree programme.**
Students are responsible for satisfying their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20.

The superscript indicates credit value.

66 BFA Major in Art History
6 Chosen from Group A
12 Chosen from Group B
6 Chosen from Group C
12 Chosen from Group D
30* Chosen from at least two of the Groups in Art History, in consultation with an assigned adviser

*Students may substitute credits from the Faculty of Fine Arts for up to twelve credits in Art History.

60 BFA Major in Art History and Studio Art
6 Art History 2803, 2813
6 Art History 2673, 2683 or 4344 or studio arts elective
6 Art 2005 or, if exempt, a studio arts elective
24 Art History electives
*Student arts electives chosen from studio courses offered by departments of: Design Art; Painting and Drawing; Printmaking and Photography; Sculpture, Ceramics and Fibres

30 Minor in Archaeology
12 Art History 2903, 2913, 2923, 3963
6 Art History electives chosen from other groups in consultation with the Archaeology supervisor
12 Electives chosen with the permission of the Archaeology Coordinator from Art History or appropriate courses in Anthropology, Chemistry, Classics, Geography, History, or Physics

30 Minor in Art History
3 Art History elective from Group D
27 Art History elective chosen from at least 3 of the Groups in Art History, in consultation with an assigned adviser

30 Minor in Art History and Studio Art
6 Art History 2803, 2813
6 Art 2005 or, if exempt a studio arts elective
6-12 Art History electives
6-12 Studio arts electives

81.60.1 ADMISSION TO THE MAJOR IN ART HISTORY AND STUDIO ART

In addition to the normal admission procedure of Concordia University, there is a distinct admission procedure for applicants to the Major in Art History and Studio Art.

All applicants must submit a portfolio as part of the admission process. Accepted applicants who have the CEGEP 10.6 profile (see 81.10.1) are automatically exempt from Art 200, Studio Art I. Accepted applicants without the 10.6 profile are normally required to complete Art 200. However, they may request exemption if the quality and range of their portfolio submissions are of exceptional merit.

1. Portfolios should consist of a minimum of 20 and maximum of 30 of the applicant's own work.
2. Portfolios should consist of both two-dimensional and three-dimensional work in a variety of mediums.
3. Individual works must be labeled including applicant's name, date, size of work and medium(s) used.
4. Each portfolio must contain a list of contents including all the above information.
5. Works larger than 20 x 24 inches (50 x 60 centimeters) and three-dimensional works must be submitted in slide form.
6. Portfolios should be presented in a sturdy folder; works should be flat and unframed.
7. Out-of-town applicants may submit photographs and/or slides of their work. Return shipment of out-of-town portfolios is by prior arrangement only.

Applications submit this portfolio to the Portfolio Committee, Visual Arts Building, Room 237, prior to the deadline of Thursday, March 15, 1990. For more detailed information regarding admission to the Major in Art History and Studio Art, applicants should contact one of the studio arts departments.

G — Tutored Studies

ARTH 394 Intensive Study in Art History I (1.5 credits)
ARTH 395 Intensive Study in Art History II (1.5 credits)
ARTH 397 Intensive Study in Archaeology (3 credits)
ARTH 401 Independent Studies in Art History (3 credits)
ARTH 402 Independent Studies in Archaeology (3 credits)

H — Archaeology

ARTH 290 Art History and Archaeology (3 credits)
ARTH 291 The History and Practice of Archaeology (3 credits)
ARTH 292 Rethinking Archaeology (3 credits)
ARTH 396 Special Studies in Archaeology (3 credits)

ARTH 260 The History of Design: Theory and Practice (6 credits)
Prerequisite: Enrolment in the Major in Design Art, or an Art History programme, or written permission of the Department of Art History.
A consideration of design theory and practice, with emphasis on the inter-relationship of stylistic, socio-cultural and technical aspects. Examples are drawn from a broad spectrum of epochs and geographical areas, but particular attention is given to historical approaches that have importance for contemporary design. NOTE A/See §200.3

ARTH 261 Studies in Architecture (3 credits)
The role and implications of selected materials and technology in architecture.

ARTH 262 Studies in Drawing (3 credits)
Drawing as an art form and its relation to other arts. NOTE A/See §200.3

ARTH 263 Studies in the Print (3 credits)
A selective examination of the development and uses of the print as an art form or a medium in Western and Non-Western cultures. NOTE A/See §200.3

ARTH 264 History of Ceramics (3 credits)
A selective examination of the development and uses of ceramics as an art form or a medium in Western and Non-Western traditions. NOTE A/See §200.3

ARTH 265 History of Sculpture (3 credits)
A selective examination of the development and uses of sculpture as an art form or a medium in Western traditions.

ARTH 266 History of Textile Art (3 credits)
A selective examination of the development of textile art in the Western and Non-Western traditions. NOTE A/See §200.3

ARTH 267 Materials and Methods in Art I (3 credits)
Theoretical and practical instruction which familiarizes a student with the history of selected materials, processes and technology used in two-dimensional art forms. NOTE A/See §200.3

ARTH 268 Materials and Methods in Art II (3 credits)
Theoretical and practical instruction which familiarizes a student with the history of selected materials, processes and technology used in non-two-dimensional art forms. NOTE A/See §200.3

ARTH 270 Icons of Architectural History (3 credits)
A study of key buildings of civilization in relation to the specific vocabulary of architecture, its techniques and conditions of construction. Consideration is given as to how and why these buildings have become icons in particular societies.

ARTH 280 Visual Literacy (3 credits)
An analysis of the form of a work of art in terms of its individual components and their relationships, which incorporates a critical consideration of concepts and vocabularies that have been developed for such an analysis.

ARTH 281 Methods of Art History (3 credits)
An introduction to various methods used in art history to describe and/or interpret works of art.

ARTH 282 Narration and Art (3 credits)
A critical examination of given aspects of the relationship between an image and its external references.

ARTH 283 The Life and Work of ... (3 credits)
A critical examination of the relationship of accounts of an artist's life to an interpretation of her or his work.
ARTH 290  Art History and Archaeology  (3 credits)
An examination of the interrelationship between art history and archaeology as manifested in systems of classification, interpretation, periodization, stratification as well as the valorization of series and fragments. NOTE A/See §200.3

ARTH 291  The History and Practice of Archaeology  (3 credits)
An examination of the history and methods of archaeology. Special consideration is given to the traditional biases of archaeology and their repercussions on the development of the discipline in particular the practice of archaeology in North America. A practicum is included.

ARTH 292  Rethinking Archaeology  (3 credits)
An examination of recent interpretations of archaeological "findings".

ARTH 298  Special Topics in Genre Studies  (3 credits)
Topics pertaining to categories of subject matter such as landscape, portraiture and still life. NOTE C/See §200.3

ARTH 295  Aspects of the History of Ceramics  (3 credits)
An examination of selected subjects in the history of ceramics. NOTE A/See §200.3

ARTH 296  Aspects of the History of Sculpture  (3 credits)
An examination of selected subjects in the history of sculpture.

ARTH 297  Aspects of the History of Textile Art  (3 credits)
An examination of selected subjects in the history of textile art. NOTE A/See §200.3

ARTH 299  Technology and Contemporary Art  (3 credits)
A selective examination of the dynamics of the relationship between technology and contemporary art.

ARTH 300  Gesamtkunstwerk  (3 credits)
Prerequisite: Six credits in Art History or written permission of the Department of Art History. A selective examination of art which utilizes a number of media. The relationship to work in a single medium and historical concepts of multi-media are examined.

ARTH 301  Aspects of Ancient Greek Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of Ancient Greek Art. NOTE A/See §200.3

ARTH 302  Aspects of Ancient Roman Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of Ancient Roman Art. NOTE A/See §200.3

ARTH 303  Aspects of Early Christian and Byzantine Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of Early Christian and Byzantine Art. NOTE A/See §200.3

ARTH 304  Aspects of Medieval Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of Medieval Art. NOTE A/See §200.3

ARTH 305  Aspects of Fifteenth- and Sixteenth-Century European Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of fifteenth- and sixteenth-century European art. NOTE A/See §200.3

ARTH 306  Aspects of Seventeenth- and Eighteenth-Century Western Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of seventeenth- and eighteenth-century western art. NOTE A/See §200.3

ARTH 307  Aspects of Nineteenth-Century Western Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of nineteenth-century western art. NOTE A/See §200.3

ARTH 308  Aspects of Twentieth-Century Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of twentieth-century art. NOTE A/See §200.3

ARTH 309  Aspects of Contemporary Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of contemporary art. NOTE A/See §200.3
ARTH 369  Aspects of Non-Western Art and Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of given Non-European cultures.
NOTE A/See §200.3

ARTH 370  Aspects of Canadian Art  (3 credits)
Selected subjects examined in relation to predominant characteristics of art in Canada. NOTE A/See §200.3

ARTH 371  Aspects of Canadian Architecture  (3 credits)
Selected subjects examined in relation to predominant characteristics of architecture in Canada. NOTE A/See §200.3

ARTH 372  Issues in Contemporary Canadian Architecture  (3 credits)
Prerequisite: Six credits in Art History or written permission of the Department of Art History.
A consideration of specific questions relevant to the current status and practice of architecture in Canada.

ARTH 373  Issues in Contemporary Canadian Art  (3 credits)
Prerequisite: Six credits in Art History or written permission of the Department of Art History.
A consideration of specific questions pertinent to contemporary art in Canada. NOTE A/See §200.3

ARTH 374  Architecture and Urbanism in Montreal  (3 credits)
The relationship of architecture to issues of urbanism, analyzed through examples from Montreal's past and/or present.

ARTH 375  Issues in the Montreal Art Milieu  (3 credits)
Prerequisite: Six credits in Art History or written permission of the Department of Art History.
An analysis of specific artistic phenomena or events in Montreal.

ARTH 380  Historiography and Art History  (3 credits)
The history of art history as a discipline and the concepts of history it uses.

ARTH 381  Feminism and Art History  (3 credits)
A consideration of the effects of feminism on art history since the late 1960's.

ARTH 382  Western Perspectives on Non-Western Art  (3 credits)
An examination of how Western concepts are used to interpret art produced in Non-Western cultures.

ARTH 383  Art and Philosophy  (3 credits)
A consideration of the impact of Western philosophy on art theory and practice.

ARTH 384  Theories of Representation  (3 credits)
An examination of the different concepts of representation involved in the process of creating an art object, taking into account the relationships among image, referent, artist and audience.

ARTH 385  Colour: Theory and Application in the Visual Arts  (3 credits)
An examination of various theories of colour as posited by artists, philosophers, psychologists and scientists. The relationship of such theories to the visual arts constitute an essential concern of the course.

ARTH 386  The Art Object and the Viewer  (3 credits)
A consideration of such questions as how a work of art addresses the viewer, what types of viewer (generic or individual) it postulates, and what theories of perception (spatial, kinesthetic or psychological) are involved in explaining the process of experiencing an art object.

ARTH 387  Seminar in Art and Criticism  (3 credits)
Prerequisite: Twelve credits in Art History or written permission of the Department of Art History.
An examination of selected aspects of the relationship between art and criticism. NOTE A/See §200.3

ARTH 390  Art Institutions  (3 credits)
A study of selected institutions of art from a historical perspective. Consideration is given to the inter-relationship of the institution and the milieu in which art is defined, made, exhibited or purchased.

ARTH 391  Art and its Changing Contexts  (3 credits)
An investigation of the factors which define the initial context of a work of art and of those which modify or eclipse an original context.

ARTH 392  Gender Issues in Art and Art History  (3 credits)
An examination of gender as a factor in making and interpreting art.

ARTH 393  Art and Replication  (3 credits)
An examination of various methods of replicating art (drawing, painting, printing, casting, photographing) and their relation to the original. Special consideration is given to the effects of the "copy" on art education, aesthetics, technique, patronage and the market.
ARTH 394  **Intensive Study in Art History I**  (1.5 credits)
Prerequisite: Written permission of the Department of Art History.
An intensive course of study designed to take advantage of the presence of a visiting scholar or the occurrence of a special event.

ARTH 395  **Intensive Study in Art History II**  (1.5 credits)
Prerequisite: Written permission of the Department of Art History.
An intensive course of study designed to take advantage of the presence of a visiting scholar or the occurrence of a special event. NOTE C/See §200.3

ARTH 396  **Special Studies in Archaeology**  (3 credits)
Prerequisite: Twelve credits in Art History or written permission of the Department of Art History.
A course designed to permit a detailed examination of some aspects of archaeology. Note A/See §200.3

ARTH 397  **Intensive Study in Archaeology**  (3 credits)
Prerequisite: Third-year standing* in the Major in Art History or the Minor in Archaeology or written permission of the Department of Art History.
Students are required to participate in a dig and to submit a paper. Note A/See §200.3 *fewer than 33 credits remaining in degree programme.

ARTH 398  **Special Topics in Art and Society**  (3 credits)
Prerequisite: Twelve credits in Art History or written permission of the Department of Art History.
A course designed to permit a detailed examination of some aspects of art in society. NOTE C/See §200.3

ARTH 400  **Advanced Seminar in Art Historical Method**  (3 credits)
Prerequisite: Third-year* standing in the Major in Art History. A seminar designed to permit an in-depth examination of some aspects of methodology relevant to art history. NOTE A/See §200.3 *fewer than 33 credits remaining in degree programme.

ARTH 401  **Independent Studies in Art History**  (3 credits)
Prerequisite: Third-year* standing in the Major in Art History and written permission of the Department of Art History.
Students are required to prepare a research paper under the supervision of a faculty member. NOTE A/See §200.3 *fewer than 33 credits remaining in degree programme.

ARTH 402  **Independent Studies in Archaeology**  (3 credits)
Prerequisite: Third-year standing* in the Major in Art History or the Minor in Archaeology, and written permission of the Department of Art History.
Students are required to prepare a research paper under the supervision of a faculty member. NOTE A/See §200.3 *fewer than 33 credits remaining in degree programme.

ARTH 434  **Materials and Methods of the Artist**  (6 credits)
Prerequisite: Enrolment in the Major/Minor in Art History or the Major in Art History and Studio Art. Through a series of special projects in the media of drawing and painting, this course familiarizes the student with some of the historical materials, techniques and other aspects of the artist's concern. NOTE: Students who have received credit for ARTH 267 or ART 234 or ART 420 may not take this course for credit.

ARTH 498  **Special Topics in the History of Art and Architecture**  (3 credits)
Prerequisite: Eighteen credits in Art History or written permission of the Department of Art History.
A course for advanced students which provides for the study of more specialized areas of art. NOTE A/See §200.3
81.70 Cinema

48 BFA Major in Cinema

Option A — Film Production
18* Film Studies 211, 212, Film Production 231

6 Film Studies electives, (excluding Film Studies 200)
12 Department of Cinema electives**
12 Film Production 331, 336 and Film Production elective

or Film Production 332, 337

Option B — Film Animation
12* Film Studies 211, 212, or 6 credits in Art History
27 Film Animation 312, 313, 314, 316, 414, Film Studies 323
6 Cinema or studio arts electives
3 Department of Cinema electives
NOTE: In specific cases, and with the written permission of the Film Animation Coordinator, Film Production 231 may be substituted for Film Animation 414.

Option C — Film Studies
18* Film Studies 211, 212, 322
18 Film Studies electives, excluding Film Studies 200**
12 Department of Cinema electives

30 Minor in Cinema
12 Film Studies 211, 212
18 Film Studies electives** (With the written permission of the Department of Cinema, introductory-level Film Animation or Film Production courses, selected in consultation with the Department, may be substituted.)

This is a very limited enrolment programme for students who want to have some access to Film Production and Film Animation courses.

This Minor cannot be combined with the Minor in Film Animation or the Minor in Film Studies to form a Double Minor programme.

30 Minor in Film Animation*
12 Film Animation 312, 313
3 Film Studies 323
6 Film Studies 212
9 Cinema or studio arts electives chosen in consultation with the Coordinator of Film Animation
This Minor cannot be combined with the Minor in Cinema or the Minor in Film Studies to form a Double Minor programme.

24 Minor in Film Studies
12 Film Studies 200, 211, 212
12 Film Studies electives

This Minor cannot be combined with a second Faculty of Fine Arts Minor to form a BFA Double Minor programme. It is intended for students outside the Faculty of Fine Arts. Students in Communication Studies Department degree programmes must have written permission of their department to enter this programme.

NOTES:
*Film Studies 211 and 212 should be taken as part of the first 30 credits.

81.70.1 ADMISSION TO CINEMA PROGRAMMES
The Department of Cinema has a distinct admission procedure in addition to the normal admission process of Concordia University.

All applicants are required to attend an interview and submit a portfolio as part of the admission process. Applicants must contact the Department of Cinema between March 1-15 to arrange their appointments and for detailed information regarding portfolio/interview requirements.

Successful applicants to the Specialization in Film Production and the Major in Cinema, Option A, Film Production are accepted into the Major in Cinema with no option specified. After completion of their first 30 credits in the programme, these students may apply for transfer into a concentration in Film Production.

Film Studies:

FMST 200 Introduction to Film Studies (6 credits)
A survey acquainting the student with the art of the film. The technical and critical terminology of film studies is discussed. Popular literature on film, such as reviews, is analyzed and the more specialized film literature is introduced. Directors whose films are usually viewed include Bergman, Eisenstein, Fellini, Ford, Hitchcock, Kurosawa, Lubitsch, Keaton, and Welles. Weekly screenings. NOTE A/See §200.3

FMST 211 History of Film (6 credits)
A study of the history of film, from its beginning to the 1950’s. Changes in the forms, functions, aesthetics, and technology of film are dealt with through the examination of individual works seen in a chronological sequence. Weekly screenings. NOTE A/See §200.3

*Students in Cinema programmes who require Film Studies 211 should complete the course as part of their first 30 credits.

FMST 212 Film Aesthetics (6 credits)
A study of the aesthetics of film. Topics include film criticism, theories about the fundamental elements of film, and comparisons between films which do not depend on their date of production. Problems of film description, interpretation, and evaluation are discussed. Weekly screenings. NOTE A/See §200.3

*Students in Cinema programmes who require Film Studies 212 should complete the course as part of their first 30 credits.

FMST 311 Montage Aesthetic (3 credits)
Prerequisite: Film Studies 212.
An intensive study of montage as an element of film style. Beginning with the work of D.W. Griffith, developments in film editing are followed through French Avant-Garde and Russian films of the 1920’s to contemporary film. Weekly screenings.

FMST 312 Moving Camera Aesthetic (3 credits)
Prerequisite: Film Studies 212.
An intensive study of camera movement as an element of film style. Consideration is given to relations between long takes, deep focus cinematography, and camera movement, as well as to the role of camera movement.
movement in creating the signification of film. Films by Murnau, Renoir, Welles, Ophuls, and Snow are included among those viewed and discussed. Weekly screenings.

**FMST 313**  
*Film Comedy I*  
(3 credits)  
Prerequisite: Second-year standing.  
An introduction to film comedy in the silent and sound eras. The visual and verbal sources of comedy are analyzed through the study of films ranging from Mack Sennett and Buster Keaton to Woody Allen and Jacques Tati. Weekly screenings.  
*fewer than 66 credits remaining in degree programme.

**FMST 314**  
*English-Canadian Film*  
(3 credits)  
A survey of English-Canadian film from the earliest surviving works to the present. Topics include fictional, documentary, animated, and experimental film. The role of the National Film Board is discussed. Weekly screenings.  
NOTE A/See §200.3

**FMST 315**  
*Le cinéma québécois*  
(3 crédits)  
NOTE A/Voir §200.3

**FMST 318**  
*Experimental Film*  
(3 credits)  
Prerequisite: Second-year standing.  
An examination of experimental film emphasizing developments from the late forties to the present. The New American Cinema is considered in relation to other North American and European experimental cinemas, and examples of the historical antecedents of recent experimental films are viewed and discussed. Weekly screenings.  
*fewer than 66 credits remaining in degree programme.

**FMST 321**  
*The Art of Film Directors*  
(6 credits)  
Prerequisite: Film Studies 211 or second-year standing.  
A concentrated study of the work of several major directors from different periods in film history. Each director’s work is examined in detail with representative films from distinct periods. The films are considered in terms of thematic and stylistic consistency and variation as well as biographical, social, and political factors. Weekly screenings.  
NOTE A/See §200.3

**FMST 322**  
*Contemporary Film*  
(6 credits)  
Prerequisite: Film Studies 211 or second-year standing.  
This course begins with the New Wave in France and the resurgence of European film in the late 1950’s and includes recent trends in documentary, Japanese, and Underground film. The films are studied in the context of major philosophical, political, and cultural developments of the period, as well as contemporaneous developments in other art forms. Weekly screenings.  
NOTE A/See §200.3

**FMST 323**  
*History of Animated Film*  
(3 credits)  
Prerequisite: Enrolment in the Major in Cinema, Option B Film Animation, Minor in Film Animation, or second-year standing.  
A survey of animated film from the first decade of the twentieth century to the present. Styles of animation ranging from abstract experimental film of the 1920’s, to the Disney Studio, to computer animation are viewed and discussed. The contribution of the National Film Board of Canada and particularly that of Norman McLaren is considered. Weekly screenings.  
NOTE A/See §200.3

**FMST 324**  
*Film Script Analysis*  
(3 credits)  
Prerequisite: Second-year standing and six credits in Film Studies.  
A study of the film script both as a basis for the construction of a film and as an identifiable component of film with its own history and value. Examples from film history as well as the work of major scriptwriters are analyzed, in their written form and through film screenings. The stages of script development from story idea through shooting script are discussed.  
*fewer than 66 credits remaining in degree programme.*
**FMST 324  Analyse de scénarios  (3 crédits)**  

*moins de 66 crédits à obtenir dans un programme conduisant à un diplôme

**FMST 325  Film Acting  (3 credits)**  
Prerequisite: Second-year standing.*  
A study of film acting centered on examining performances, and individual scenes from films. Among the issues studied are the creation of star personas, casting against type, the influence of the script in the performance, the use of improvisation, the gesture system in silent film acting, ensemble acting, stylization and exaggeration. Weekly screenings.  
NOTE A/See §200.3 *fewer than 66 credits remaining in degree programme.

**FMST 327  Third World Film  (3 credits)**  
Prerequisite: Second-year standing.*  
A survey of Third-World films seen in relation to their cultural, political, and aesthetic environment. Films are selected from areas such as Latin America, the Caribbean, Africa, the Middle East, South and East Asia. Weekly screenings.

*moins de 66 crédits remaining in degree programme.

**FMST 328  Nonfiction Film Since 1956  (3 credits)**  
Prerequisite: Second-year standing*.

A cross-cultural survey of contemporary developments in the documentary film. The course begins with the precursors of cinéma-direct in North America and Europe during the fifties, and extends through the most recent applications of cinéma-direct in the emerging cinemas of the Third World. Emphasis is placed on both the artistic achievement and the theoretical, cultural and political context of the nonfiction film during this period of technological and aesthetic transition. Weekly screenings.

*fewer than 66 credits remaining in degree programme.

**FMST 329  Women and Film  (3 credits)**  
Prerequisite: Film Studies 211, or second-year standing*.

An examination of films made by women, film criticism written by women, and the portrayal of women in films. These topics are considered within the context of film history and with an emphasis on their relation to ideas in contemporary feminist theory. Weekly screenings.  
NOTE A/See §200.3 *fewer than 66 credits remaining in degree programme.

**FMST 331  Non-Fiction and Experimental Filmmakers  (3 credits)**  
Prerequisite: Film Studies 211 or second-year standing*.

An intensive study of a limited number of filmmakers outside the mainstream of narrative fiction. The artists covered are chosen according to the interests of the instructor, with a view to suggesting a broad historical and aesthetic range of cinematic practice.  
NOTE A/See §200.3 *fewer than 66 credits remaining in degree programme.

**FMST 333  Aspects of National Cinemas  (3 credits)**  
Prerequisite: Second-year standing.*  
An examination of films as reflections of national cultures. Films by a range of directors representing one or several national groupings such as Japan, Brazil, Eastern Europe, Great Britain, or contemporary West Germany are discussed in the context of their aesthetic, cultural, and political aspirations. Weekly screenings.  
NOTE A/See §200.3 *fewer than 66 credits remaining in degree programme.

**FMST 335  Special Topics in Film Studies  (3 credits)**  
Prerequisite: Written permission of the Department of Cinema.

A course which provides an opportunity for the study of limited and more specialized aspects of film studies.  
NOTE C/See §200.3
FMST 409 Seminar in Women and Film (3 credits)
Prerequisite: Written permission of the Department of Cinema.
An advanced course in the study of films made by women, as well as of the representation of women in films. The topics selected for study may vary from year to year and are considered within the context of film history, contemporary feminist philosophy and feminist film theory. Students are expected to conduct independent research for class presentation. NOTE A/See §200.3

FMST 411 Advanced Studies in Film Genres (3 credits)
Prerequisite: Film Studies 211, Film Studies 322 or COMS 310.
An intensive analysis of one or two film genres, which assumes previous experience in film genre studies. The genre is discussed in terms of its structural characteristics and the ways in which it is a product of specific social situations. Weekly screenings.

FMST 413 Film Comedy II (3 credits)
Prerequisite: Film Studies 313 or COMS 310 or written permission of the Department of Cinema.
A continuation of Film Studies 313 on a more advanced level. Emphasis is placed on theoretical aspects of film comedy and the films of several major comedy directors. Weekly screenings.

FMST 414 Seminar in Film Directors I (3 credits)
Prerequisite: Eighteen credits in Film Studies and written permission of the Department of Cinema.
A seminar for advanced students which provides for more concentrated study of the work of specific film directors. The director or directors whose films are chosen for study varies from year to year according to the instructor's field of specialization. NOTE C/See §200.3

FMST 415 Seminar in Film Directors II (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A student repeating Film Studies 414 registers for credit under Film Studies 415 provided the subject matter is different.

FMST 416 Seminar in Problems in Film History I (3 credits)
Prerequisite: Eighteen credits in Film Studies and written permission of the Department of Cinema.
A seminar for advanced students which provides for the study of limited and more specialized areas of film history. The areas chosen for study vary from year to year according to the instructor's field of specialization. NOTE C/See §200.3

FMST 417 Seminar in Problems in Film History II (3 credits)
Prerequisite: Eighteen credits in Film Studies and written permission of the Department of Cinema.
A student repeating Film Studies 416 registers for credit under Film Studies 417 provided the subject matter is different.

FMST 418 Seminar in English-Canadian Film (3 credits)
Prerequisite: Film Studies 314, or COMS 316 with written permission of the Department of Cinema.
A seminar in which selected aspects of English-Canadian Film are examined and discussed. The areas chosen for study vary from year to year according to the instructor's field of specialization.

FMST 419 Séminaire sur le cinéma québécois (3 crédits)
Préalable: Film Studies 315, ou COMS 316 avec permission écrite du département de Cinema.
Un séminaire dans lequel des aspects sélectifs du cinéma québécois sont analysés et discutés. Les sujets d'étude choisis varient d'année en année selon la spécialisation de l'instructeur.

FMST 422 Seminar in Film Theory and Criticism (3 credits)
Prerequisite: Film Studies 212 and written permission of the Department of Cinema.
Theories including those of Sergei Eisenstein and André Bazin are studied both as explanations of the effects of films and as foundations for film criticism. The relation of contemporary theoretical writings, such as those in film semiology, to film criticism is discussed. Weekly screenings.

FMST 423 Seminar in Comparative Stylistic and Formal Analysis (3 credits)
Prerequisite: Film Studies 422 and written permission of the Department of Cinema.
An intensive course in the analysis of film style. Films are examined using an analytical projector in order to discover their formal and thematic structures. The contribution of cinematographers, editors, scriptwriters, directors, and performers to the development of a style are discussed. Weekly screenings.

FMST 424 Seminar in Film Narrative (3 credits)
Prerequisite: Written permission of the Department of Cinema.
An examination of conventions of film narrative from a theoretical and historical point of view. Innovations in narrative structure are discussed, and consideration is given to the origin, development, and transformation of narrative traditions in their cultural and aesthetic context.

FMST 426 Professional Internship I (3 credits)
Prerequisite: Second-year standing*, enrolment in the Major in Cinema, Option C, Film Studies or the Specialization in Film Studies and written permission of the Department of Cinema.
A Film Studies student who has been employed for not less than 250 hours within the same calendar year in film research, archival work, editing a film publication, or in writing film criticism, may apply for three credits on the understanding that the Department must be satisfied that the work was done under the joint supervision of a qualified professional and a full-time Cinema Faculty member. NOTE A/See §200.3 "fewer than 66 credits remaining in degree programme.

FMST 427 Professional Internship II (3 credits)
Prerequisite: Second-year standing*, enrolment in the Major in Cinema, Option C, Film Studies or the Specialization in Film Studies and permission of the Department of Cinema.
A student repeating Film Studies 426 registers for credit under Film Studies 427. NOTE A/See §200.3 "fewer than 66 credits remaining in degree programme.

FMST 428 Independent Study I (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A course of independent study in which the student may explore a specific area of Film Studies.

FMST 429 Independent Studies II (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A student repeating Film Studies 428 registers for credits under Film Studies 429 provided the subject matter is different.

FMST 498 Special Topics in Film Studies (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A lecture or seminar course for advanced students which provides an opportunity for the study of limited and more specialized aspects of film studies. NOTE A,C/See §200.3

Film Animation:

NOTE: A student may register for only one course in which films are produced as a course requirement during each academic session. See §81.70.2

FMAN 312 Animation I (6 credits)
Prerequisite: Enrolment in the Major in Cinema, Option B, Film Animation; Minor in Film Animation; or written permission of the Department of Cinema, with either Film Production 231 or 6 credits in a studio arts course.
A studio course introducing the theory and practice of film animation. NOTE A/See §200.3 NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

FMAN 313 Animation II (6 credits)
Prerequisite: Film Animation 312 and written permission of the Department of Cinema
A continuation on a more advanced level of Film Animation 312. NOTE A/See §200.3 NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

FMAN 314 Technical Aspects of Film Animation (3 credits)
Prerequisite: Enrolment in the Major in Cinema, Option B, Film Animation or the Minor in Film Animation, Film Animation 313, previously or concurrently, and written permission of the Department of Cinema.
A specialized course in which the principles of photography and cinematography are applied to animation, with creative and experimental exercises employing animation cameras, stands, computers and other equipment. The purpose of this course is to allow students to become technically independent and competent.

FMAN 315 From Idea to Storyboard (3 credits)
Prerequisite: Enrolment in the Major in Cinema, Option B, Film Animation or the Minor in Film Animation, Film Production 231 and Drawing 200, previously or concurrently, or written permission of the Department of Cinema.
Exploration of the visual development of ideas and scripts in a storyboard form. Students participate in creative and experimental exercises which include timing, planning the sound track, and filming the storyboards.

FMAN 316 Animation Sound I (3 credits)
Prerequisite: Film Animation 312, previously or concurrently, and enrolment in the Major in Cinema, Option B, Film Animation or written permission of the Department of Cinema.
A course in techniques of sound production for animation, including music, sound effects and voice. Aspects of sound production essential to the animator-director are treated from the initial concept to post-production including studio procedures, recording, editing and mixing. NOTE A/See §200.3

FMAN 319 Character Animation (3 credits)
Prerequisite: Written permission of the Department of Cinema and Film Animation 312 or enrolment in the Major in Cinema, Option B, Film Animation and Film Animation 312, previously or concurrently.
An examination of the fundamentals of character animation, its theory, techniques and application to
studio situations. Exercises in character design and dramatization are directed towards the students' particular interests and style. NOTE A/See §200.3
NOTE: Previous drawing experience is recommended.

**FMAN 398 Special Topics in Film Animation** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
An opportunity for study of limited and more specialized aspects of Film Animation. NOTE C/See §200.3
NOTE: Students are required to bear the cost of materials.

**FMAN 414 Animation III** (6 credits)
Prerequisite: Film Animation 313 and FMST 323, and written permission of the Department of Cinema.
A continuation on a more advanced level of Film Animation 313. NOTE A/See §200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

**FMAN 416 Animation Sound II** (3 credits)
Prerequisite: Third-year standing* in the Major in Cinema, Option B, Film Animation, FMAN 316 and written permission of the Department of Cinema.
A continuation FMAN 316 with special concentration on post-production and experimentation with sound.
*fewer than 33 credits remaining in degree programme.

**FMAN 446 Professional Internship I** (3 credits)
Prerequisite: Second-year standing* in the Major in Cinema, Option B, Film Animation and written permission of the Department of Cinema.
A Film Animation student who has been employed within the film industry for not less than 250 hours within the same calendar year may apply for three credits on the understanding that the Department of Cinema must be satisfied that the work was done under the joint supervision of a qualified professional and a full-time Cinema Faculty member. NOTE A/See §200.3.
*fewer than 66 credits remaining in degree programme.

**FMAN 447 Professional Internship II** (3 credits)
Prerequisite: Second-year standing* in the Major in Cinema, Option B, Film Animation and written permission of the Department of Cinema.
A student repeating Film Animation 446 registers for credit under Film Animation 447. NOTE A/See §200.3.
*fewer than 66 credits remaining in degree programme.

**FMAN 448 Independent Study I** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A course of independent study in which the student explores a specific area of Film Animation. NOTE A,C/See §200.3

**FMAN 449 Independent Study II** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A student repeating Film Animation 448 registers for credit under Film Animation 449 provided the subject matter is different. NOTE A/See §200.3

**FMAN 498 Special Topics in Film Animation** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A course for advanced students which provides an opportunity for the study of limited and more specialized aspects of film animation. NOTE A,C/See §200.3.

**Film Production:**

NOTE: A student may register for only one course in which films are produced as a course requirement during each academic session. See §81.70.2.

**FMPR 231 Filmmaking I** (6 credits)
Prerequisite: Enrolment in a Cinema programme and Film Studies 211 or 212, previously or concurrently or written permission of the Department of Cinema.
An introductory course in the theory and practice of filmmaking. This course stresses the individual student's creative efforts in producing films in Super 8. Lecture and laboratory. NOTE A/See §200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

**FMPR 331 Filmmaking Studio I** (6 credits)
Prerequisite: Second-year standing* in the Specialization in Film Production or the Major in Cinema, Option A, Film Production, and Film Production 231 and 338, previously or concurrently, and written permission of the Department of Cinema.
An intermediate course in the theory and practice of filmmaking, emphasizing the creative possibilities available when 16mm lip sync equipment is not used. Formats include 16mm with wild sound, Super 8 with wild sound or with double system or single system lip sync sound, and silent 16mm or Super 8. Students work individually or as small crews, depending on the project and the format.
NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.
*fewer than 66 credits remaining in degree programme.
FM PR 332  Filmmaking II  (6 credits)
Prerequisite: Second-year standing* in the Specialization in Film Production or the Major in Cinema,
Option A, Film Production; Film Production 231 and Film Production 337, previously or concurrently;
and written permission of the Department of Cinema.
An intermediate course in the theory and practice of filmmaking introducing lip-sync 16mm production.
Topics emphasized include the creative possibilities of lip-sync 16mm, the development of ideas for
films, and the preparation of these ideas for production, budgeting, production planning, and working
with a film crew. Students participate in a number of productions and assume a range of roles while
beginning to develop their area of specialization within the production team. NOTE A/See §200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.
* fewer than 66 credits remaining in degree programme.

FM PR 334  Problems and Methods of Film Production and Distribution  (3 credits)
Prerequisite: Film Production 231.
Topics include organizing a film project, financial aspects of film production and distribution, legal
problems, film laboratory procedures, and postproduction operations. NOTE A/See §200.3

FM PR 335  Acting and Directing Acting for the Screen I  (3 credits)
Prerequisite: Written permission of the Department of Cinema and either Film Production 331 or 332,
previously or concurrently, or six credits in Theatre Performance.
A studio course for Cinema and Theatre students which explores directing and performing for film primarily
through exercises recorded on video for analysis. Both performers and directors examine acting and
directing acting for the camera through such topics as role preparation, character development, and
performance continuity. NOTE A/See §200.3

FM PR 337  Technical Aspects of Filmmaking  (6 credits)
Prerequisite: Enrollment in the Specialization in Film Production or the Major in Cinema, Option A, Film
Production; and Film Production 332 concurrently and written permission of the Department of Cinema.
Creative and experimental exercises in cinematography, sound, and other components of filmmaking.
The complex technology of filmmaking is emphasized as forming a basis for the creative use of the
medium. NOTE A/See §200.3

FM PR 338  Technical Aspects for Filmmaking Studio  (3 credits)
Prerequisite: Film Production 331, previously or concurrently, and written permission of the Depart­
ment of Cinema.
A course in which specialized techniques of cinematography, non-sync sound, and graphic and photo­
graphic reproduction on film/video are introduced and developed by Filmmaking Studio students. In­
cluded are creative and experimental exercises employing Bolex, advanced Super 8, and video cameras,
the optical printer, the animation stand, sound and editing equipment and techniques such as filtration,
fitting, and in-camera effects.

FM PR 339  Montage in Filmmaking  (3 credits)
Prerequisite: Written permission of the Department of Cinema and Film Production 331 or 332, previ­
ously or concurrently.
Fiction and nonfiction film-editing, emphasizing dynamic and continuity cutting and cutting-room tech­
niques. Activities include editing the image in synchronized double system, cutting music and sound
effects, preparation for and supervision of the rerecording. NOTE A/See §200.3

FM PR 341  Writing for Film I  (3 credits)
Prerequisite: Film Production 231 and written permission of the Department of Cinema.
An introduction to writing for film, with special emphasis on the relation of the script to filmmaking.
Students are expected to submit work of their own for discussion, analysis, and possible production
in filmmaking courses. NOTE A/See §200.3

FM PR 343  Production Design  (3 credits)
Prerequisite: Written permission of the Department of Cinema and Film Production 331 or 332, previ­
ously or concurrently.
A practical examination of the visual aspects of film production. Topics in production design considered
may include texture and visual styles, the collaborative process, project management, and the nature
of constraints which apply to student and independent productions. NOTE A/See §200.3

FM PR 398  Special Topics in Film Production  (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A course which provides an opportunity for the study of specialized aspects of Film Production outside
the scope of existing courses. NOTE C/See §200.3

FM PR 431  Filmmaking Studio II  (6 credits)
Prerequisite: Film Production 331, enrollment in the Major in Cinema, Option A, Film Production, or
the Specialization in Film Production, and written permission of the Department of Cinema.
A continuation of Film Production 331.
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.
FMFR 432  **Filmmaking III** (6 credits)
Prerequisite: Third-year standing* in the Specialization in Film Production, Film Production 332, and written permission of the Department of Cinema.
A continuation of Film Production 332, with students working on more advanced filmmaking projects. NOTE A/See §200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials, *fewer than 33 credits remaining in degree programme.

FMFR 433  **Filmmaking Workshop** (6 credits)
Prerequisite: Third-year standing* in the Major in Cinema, Option A, Film Production, Film Production 332, and written permission of the Department of Cinema.
A course in the theory and practice of filmmaking in 16mm sound and Super 8 formats, with some access to 16mm lip-sync equipment for qualified students. The development of concepts of filmmaking introduced in Film Production 332 is continued using these formats. NOTE: Students are required to bear the cost of film stock, processing, printing and other materials, *fewer than 33 credits remaining in degree programme.

FMFR 435  **Acting and Directing Acting for the Screen II** (3 credits)
Prerequisite: Film Production 335 and written permission of the Department of Cinema.
A continuation of Film Production 335 on a more advanced level.

FMFR 438  **Cinematography** (3 credits)
Prerequisite: Enrollment in the Specialization in Film Production, or the Major in Cinema, Option A, Film Production, Film Production 337 or 338, and written permission of the Department of Cinema.
An advanced course in camera and light for cinema. The contribution of cinematography to filmmaking is investigated through studio and location shooting exercises, lighting exercises and lectures. Subjects such as film stocks, lenses, filters, and camera movement are discussed as elements in the creative process of filmmaking. NOTE A/See §200.3

FMFR 439  **Advanced Montage in Filmmaking** (3 credits)
Prerequisite: Film Production 339 and written permission of the Department of Cinema.
A continuation of Film Production 339.

FMFR 440  **Sound for Film** (3 credits)
Prerequisite: Enrollment in the Specialization in Film Production, or the Major in Cinema, Option A, Film Production, Film Production 337 or 338, and written permission of the Department of Cinema.
An advanced course in sound and its use in cinema. The contribution of sound to filmmaking is investigated through studio and location recording exercises and through demonstrations.

FMFR 441  **Writing for Film II** (3 credits)
Prerequisite: Film Production 341 and written permission of the Department of Cinema.
A continuation of Film Production 341 on a more advanced level.

FMFR 446  **Professional Internship I** (3 credits)
Prerequisite: Second-year standing* in the Specialization in Film Production, or the Major in Cinema, Option A, Film Production and written permission of the Department of Cinema.
A Film Production student who has been employed within the film industry for not less than 250 hours within the same calendar year may apply for 3 credits on the understanding that the Department of Cinema must be satisfied that the work was done under the joint supervision of a qualified professional and a full-time Cinema Faculty member. NOTE A/See §200.3
*fewer than 66 credits remaining in degree programme.

FMFR 447  **Professional Internship II** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A student repeating Film Production 446 for credit registers under Film Production 447. NOTE A/See §200.3

FMFR 448  **Independent Study I** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A course of independent study in which the student explores a specific area of Film Production. NOTE A,C/See §200.3

FMFR 449  **Independent Study II** (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A student repeating Film Production 448 registers for credit under Film Production 449. NOTE A/See §200.3

FMFR 450  **Film Production Specialization Seminar** (3 credits)
Prerequisite: Written permission of the Department of Cinema and third-year standing* in the Specialization in Film Production.
A seminar offering in-depth, practical approaches to artistic and technical situations. This course brings together all students in the Specialization in Film Production.
*fewer than 33 credits remaining in degree programme.
FMSPR 498 Special Topics in Film Production (3 credits)
Prerequisite: Written permission of the Department of Cinema.
A course for advanced students which provides an opportunity for the study of limited and more specialized aspects of film production. NOTE A,C/See §200.3

80.70.2 FILMMAKING
Courses in which films are produced as a course requirement are:
Film Animation 312#, 313#, 414#
Film Production 231#, 331#, 332#, 431#, 432#, 433#

81.70.3 COMMUNICATION STUDIES FILM COURSES
NOTE: for course descriptions see §31.070.

Students enrolled in the Specialization in Film Studies, the Specialization in Film Production, or the Major in Cinema may select up to 12 credits from the Communication Studies courses listed below as part of their required Film Studies elective credits. Similarly, students enrolled in the Minor in Cinema may select up to 6 credits from the Communication Studies courses listed below, plus other Communication Studies courses, with the permission of the coordinator of Film Studies, as part of the required 18 cinema elective credits.

These credits (courses) must be considered as Film Studies elective credits for degree purposes.

COMS 306 Documentary Film (3 credits)
COMS 307 Hollywood in the Silent Era (3 credits)
COMS 308 The German Expressionist Movement (3 credits)
COMS 309 The Revolutionary Soviet Cinema (3 credits)
COMS 310 The Hollywood Genres (3 credits)
COMS 311 The Classic French Cinema (3 credits)
COMS 312 La Nouvelle Vague (3 credits)
COMS 313 Ingmar Bergman and the Scandinavians (3 credits)
COMS 314 The Italians, from Neo-Realism to Today (3 credits)
COMS 315 Shakespeare in the Cinema (3 credits)
COMS 316 The Canadian Cinema (3 credits)
81.80 Contemporary Dance

Chair
S. PANET-RAYMOND, Assistant Professor

Associate Professor
E. LANGLEY

Students are responsible for satisfying their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20.

The superscript indicates credit value.

60 BFA Major in Contemporary Dance
12 Dance 200, 300, 400
12 Dance 210, 310, 330, 410
18 Dance 211, 313, 320, 420
3 Theatre Performance 201
3 Design Art 202
6 Music 200 or, if exempt, Music 210
6 Electives from within the Faculty of Fine Arts, excluding courses offered in Dance.

81.80.1 ADMISSION TO CONTEMPORARY DANCE

There is a distinct admission procedure for admission to the Major in Contemporary Dance in addition to the normal admission process of Concordia University. All applicants to Contemporary Dance are required to attend an audition as part of the admission process.

Applicants must contact the Department of Contemporary Dance before Thursday, March 15, 1990 to arrange their audition and for detailed information regarding admission to dance.

DANC 200 Workshop in Dance I (6 credits)
Prerequisite: Dance 210, previously or concurrently and enrolment in the Major in Contemporary Dance or written permission of the Department of Contemporary Dance.
Studies in dance, emphasizing the expressive possibilities of movement. Styles of dance are introduced and projects for performance are explored, with consideration being given to the role of visual, acoustic, and verbal elements in dance. Studio: 4 hours per week. Laboratory: 2 hours per week. NOTE A/See §200.3

DANC 210 Body Movement I (6 credits)
Prerequisite: Enrolment in the Major in Contemporary Dance or written permission of the Department of Contemporary Dance.
The technical development of suppleness, strength, coordination, and kinetic awareness is emphasized. Body movement is discussed and developed as preparation for dance. Studio: 6 hours per week.

DANC 211 Dance Traditions (3 credits)
A survey of the history of dance, including relations between older dance traditions and styles of modern dance. Lecture course.

DANC 240* Principles of Contemporary Dance (6 credits)
Prerequisite: Written permission of the Department of Contemporary Dance.
A survey of technical skills, improvisation and dance composition. Studio: 4 hours per week. Laboratory: 2 hours per week.

*Students enrolled in the Major in Contemporary Dance may not take this course for credit towards their degree programme.

DANC 261 Summer Workshop in Dance I (3 credits)
Prerequisite: Written permission of the Department of Contemporary Dance.
Sequences of studio sessions which may include body movement, improvisation, performance technique and choreography. Studio: 4 hours per week. Laboratory: 2 hours per week.
NOTE: Students enrolled in the Major in Contemporary Dance may not take this course for credit towards their programme requirements.

DANC 262 Summer Workshop in Dance II (3 credits)
Prerequisite: Written permission of the Department of Contemporary Dance.
DANC 300  Workshop in Dance II  (6 credits)
Prerequisite: Dance 200, and enrolment in Major in Contemporary Dance, or written permission of the Department of Contemporary Dance.
A continuation of Dance 200. Studio: 4 hours per week. Laboratory: 2 hours per week.

DANC 310  Body Movement II  (6 credits)
Prerequisite: Dance 210 and 300, previously or concurrently.
A continuation of Dance 210. Studio: 6 hours per week.

DANC 313  Aspects of Production for Dance  (3 credits)
Prerequisite: Written permission of the Department of Contemporary Dance.
A study of sources and materials used in the technical aspects of dance production. Topics may include costume, make-up, audio-visual support. Lecture course.

DANC 320  Choreography I  (6 credits)
Prerequisite: Dance 300, previously or concurrently, and written permission of the Department of Contemporary Dance.
The organization of movement, space, and time into dance performances. The process of choreographic creation is followed through stages of originating the idea, developing the theme, rehearsing, and performing. Student works are performed. Studio: 4 hours per week. Practice laboratory: 2 hours per week. Rehearsal: 4 hours per week.

DANC 330  Principles of Anatomy and Body Movement  (6 credits)
Prerequisite: Dance 210 and written permission of the Department of Contemporary Dance.
A workshop of movement fundamentals based on the practical understanding of anatomy and dance technique. Studio: 6 hours per week.

DANC 398  Special Topics in Dance  (3 credits)
Prerequisite: Written permission of the Department of Contemporary Dance.
Topics vary from year to year, taking into account the special aptitudes of instructors and students. Studio: 6 hours. NOTE C/See §200.3

DANC 400  Workshop in Dance III  (6 credits)
Prerequisite: Dance 300, and enrolment in the Major in Contemporary Dance, or written permission of the Department of Contemporary Dance.
A continuation of Dance 300. Studio: 4 hours per week. Practice laboratory: 2 hours per week.

DANC 410  Body Movement III  (6 credits)
Prerequisite: Dance 400, previously or concurrently, and enrolment in the Major in Contemporary Dance, or written permission of the Department of Contemporary Dance.
A continuation of Dance 310. Studio: 6 hours per week.

DANC 420  Choreography II  (6 credits)
Prerequisite: Dance 320, enrolment in Major in Contemporary Dance and written permission of the Department of Contemporary Dance.
A continuation of Dance 320. Studio: 4 hours per week. Practice laboratory: 2 hours per week. Rehearsal: 4 hours per week.

DANC 499  Topics in Dance  (6 credits)
Prerequisite: Written permission of the Department of Contemporary Dance.
Advanced choreography where movement shares equal emphasis with all other arts developed into multi-media theatre. Studio: 4 hours per week. Practice laboratory: 2 hours per week. Rehearsal: 4 hours per week.
The Department of Design Art offers a three-year undergraduate programme providing a firm foundation for what is essentially a multi-faceted discipline. It is the intention of this programme to have students explore the various dimensions of design art in order that they may understand and eventually attend to the design needs of society in an innovative and responsible manner.

Emphasis is placed on design as a visual and aesthetic discipline reflecting creativity. At the same time, the programme recognizes the integral nature of design as a fusion of many specialties and human concerns in the contemporary world. It adopts a multi-disciplinary approach, taking advantage of the University's wide horizon of intellectual and social concerns. It is considered vital that students recognize the inter-dependence of design, fine arts, humanities and sciences. The need for personal creative expression and aesthetic sensitivity must be balanced by an understanding of the cultural impact, societal applications and ethical responsibilities of the design artist.

Fundamental to the programme is the student's acquisition of the history of theory and practice in this field, together with an understanding of contemporary critical issues and innovative practices. In all of the theoretical and practical components of the programme, the curriculum emphasizes creative experimentation and imaginative risk-taking. The student is encouraged to develop a keen sense of critical analysis through a process of rational inquiry. Further, the student is encouraged to develop and utilize powers of intellectual curiosity, flexibility and imagination in problem-solving. Visual literacy, articulate verbal and written expression, together with an understanding of fundamental technical skills are all integral components of the programme.

Students are responsible for fulfilling their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20.

The superscript indicates credit value.

72 BFA Major in Design Art
30 Design Art 200, 210, 300, 310, 400
6-12 Design Art 422, 423
0-6 Design Art 410, 424, 425, 440, 499
6 Drawing 200
6 Studio arts* elective chosen in consultation with an adviser
6 Art 200 or, if exempt, studio arts elective outside the Department of Design Art
6 Art History 260
6 Art History elective or Art 261

*Chosen from the following departments: Design Art, Painting and Drawing, Printmaking and Photography, Sculpture Ceramics and Fibres.

81.90.1 ADMISSION TO THE MAJOR IN DESIGN ART

In addition to the normal admission procedure of Concordia University, there is a distinct admission procedure for applicants to programmes in the Major in Design Art.

All applicants must submit a portfolio as part of the admission process. Accepted applicants who have the CEGEP 10.6 profile (see 81.10.1) are automatically exempt from Art 200, Studio Art I. Accepted applicants without the 10.6 profile are normally required to complete Art 200. However, they may be granted exemption if the quality and range of their portfolio submissions are of exceptional merit.

1. Portfolios should consist of a minimum of 20 and maximum of 30 of the applicant's own work.
2. Portfolios should consist of both two-dimensional and three-dimensional work in a variety of mediums.
3. Individual works must be labeled including applicant's name, date, size of work and medium(s) used.
4. Each portfolio must contain a list of contents including all the above information.
5. Works larger than 20 x 24 inches (50 x 60 centimeters) and three-dimensional works must be submitted in slide form.
6. Portfolios should be presented in a sturdy folder; works should be flat and unframed and well-presented.
7. Out-of-town applicants may submit photographs and/or slides of their work.
The portfolio should demonstrate creative potential as a designer/artist. Works presented must represent an ability to draw, to compose, to use colour and to work in other visual mediums including work in three dimensions.

A letter of intent written in either English or French must be submitted to the Department Office by the applicants when arranging an interview appointment. The letter must state the reason for applying to the Design Art programme and the ways in which the applicant’s education background, work experience and general interests can act as a preparation for the Design Art programme.

Applicants are required to attend an interview during which they will be required to answer questions pertinent to Design Art and other disciplines. Applicants must contact the Department of Design Art early in March (before the deadline date of March 15) for an appointment time. Late applicants will be considered when appropriate. Please contact the Department for additional information.

Applicants are required to submit a copy of their transcript to the Department office when arranging an interview appointment.

Portfolios must be brought by the applicants to their interview.

NOTE: Students are required to bear the cost of materials in studio arts courses.

DART 200  Design Art Theory and Practice  (6 credits)
Prerequisite: Art 200, or exemption, or Art 200 concurrently and either enrolment in the Major in Design Art or written permission of the Department of Design Art.

An introduction to design art concepts and methods. Content focuses on the use of artistic innovation in visual, perceptual and structural elements; including line, shape, colour, mass, materials, and their organization. NOTE A/See §200.3

DART 202  Design in the Arts I  (3 credits)
Prerequisite: Written permission of the Department of Design Art, Major in Contemporary Dance or second-year standing* in a Fine Arts degree programme.

A foundation course in the elements and principles of design for Fine Arts students, with concentrations outside of studio arts. The focus is on process rather than product creation in this theoretical and practical preparation for design problems in the student’s area of concentration. NOTE A/See §200.3

*Fewer than 66 credits remaining in degree programme.

NOTE: Students in a specialization/major in a studio arts department may not take this course for credit in their degree programme.

DART 203  Design in the Arts II  (3 credits)
Prerequisite: Design Art 202.

A continuation of Design Art 202. NOTE A/See §200.3

NOTE: Students in a specialization/major in a studio arts department may not take this course for credit in their degree programme.

DART 210  Introduction to Research Methodology in Design Art  (6 credits)
Prerequisite: Art 200, or exemption, or Art 200 concurrently and either enrolment in the Major in Design Art or written permission of the Department of Design Art.

A project-based study providing basic experiences in research methodology including light and colour theories. The content of this course focuses on the personal, economic and cultural implications of design. Knowledge from a variety of academic and other disciplines is applied to the design art process. NOTE A/See §200.3

DART 300  Individual Projects in Design Art (Analysis and Application)  (6 credits)
Prerequisite: Design Art 200 and either enrolment in the Major in Design Art or written permission of the Department of Design Art.

Problem solving in Design Art. Individual projects involving experimentation and innovation are completed and analysed in terms of their application to the assigned objectives. NOTE A/See §200.3

DART 310  Group Projects in Design Art (Research Coordination)  (6 credits)
Prerequisite: Design Art 200, 210; Design Art 300, previously or concurrently, and either enrolment in the Major in Design Art or written permission of the Department of Design Art.

Problem solving in Design Art. Group projects, involving experimentation and innovation are completed and analysed in terms of their application to the assigned objectives. Team research and coordination are major requirements of this course. NOTE A/See §200.3

DART 400  Design Art Seminar  (6 credits)
Prerequisite: Design Art 300, previously or concurrently, and either enrolment in the Major in Design Art or written permission of the Department of Design Art.

An advanced study of recent developments in visual thinking in design art. Content may include workshops, visiting lecturers and field trips. Students are required to attend additional workshops and lectures outside of the course time. NOTE A/See §200.3
DART 410  *The Computer as a Design Tool*  (6 credits)
Prerequisite: Design Art 300 and either enrolment in the Major in Design Art or written permission of
the Department of Design Art.
A project-based course working with computers for design art purposes.

DART 422  *Experimental Design: Image*  (6 credits)
Prerequisite: Design Art 300 and either enrolment in the Major in Design Art or written permission of
the Department of Design Art.
A design studio in which innovative concepts, techniques and tools of image-making are investigated
and developed. *NOTE A/See §200.3*

DART 423  *Experimental Design: Object*  (6 credits)
Prerequisite: Design Art 300 and either enrolment in the Major in Design Art or written permission of
the Department of Design Art.
A design studio in which innovative concepts, techniques and tools of object-making are investigated
and developed. *NOTE A/See §200.3*

DART 424  *Applied Design: Image*  (6 credits)
Prerequisite: Design Art 300 and either enrolment in the Major in Design Art or written permission of
the Department of Design Art.
A design studio course in which individual student projects, based upon social and environmental is-
sues, address the use of image in the marketplace. A range of practice employed in contemporary image-
making is investigated. *NOTE A/See §200.3*

DART 425  *Applied Design: Object*  (6 credits)
Prerequisite: Design Art 300 and either enrolment in the Major in Design Art or written permission of
the Department of Design Art.
A design studio course in which individual student projects, based upon social and environmental is-
sues, address the use of object in the marketplace. *NOTE A/See §200.3*

DART 440  *Independent Study*  (6 credits)
Prerequisite: Written permission of the Department of Design Art.
Independent study in which the student explores a special area of design art. *NOTE A/See §200.3*

DART 499  *Special Topics in Design Art*  (6 credits)
Prerequisite: Written permission of the Department of Design Art.
A course of independent study in which the student explores a special area of design art. *NOTE A/See
§200.3*

Students are responsible for fulfilling their particular degree requirements; hence, the following sequences must be read in conjunction with §81.20.
The superscript indicates credit value.

SPECIALIZATION IN MUSIC
The Faculty of Fine Arts offers four Specialization programmes in Music, which consist of 66 credits each.

Students applying for entrance to the Specializations are accepted into the Major in Integrative Music Studies. Upon completion of thirty credits, students may apply for transfer into one of the Specializations. Acceptance into a Specialization is based on the student's general academic performance in all University courses, but especially in the Music courses.

Students are expected to participate in public performances as part of any specialization, and are required to do so in the Specializations in Music Performance Studies and Jazz Studies.

6-6 BFA Specialization in Jazz Studies
21
6 Music 2306 or Music 2313 and 3313
6 Music History 2006 or, if exempt, Music History electives
6 Music History electives
18-24 Contemporary Music Studies 3306, 4013, 4023, Music Performance Studies 3306, 4306, Integrative Music Studies 3313, 3323, 4313, 4323
3-9 Department of Music electives, excluding Music 200 and 210, chosen in consultation with a Music adviser

*With permission of the Department of Music, students with exemption for Integrative Music Studies 200 substitute Integrative Music Studies 300.

6-6 BFA Specialization in Music Performance Studies
21
Integrative Music Studies 2006***, 3106, Music Performance Studies 2213, 4906
6 Music 2306 or Music 2313 and 3313
6 Music History 2006 or, if exempt, Music History electives
6 Music History electives
6 Music Performance Studies 3306, Music Performance Studies 3906
12 Music Performance Studies 3113, 3123, 3213, 3223, 4113, 4123, 4213, 4223
9 Music Performance Studies 3706, 4313, 4323 or Department of Music electives, excluding Music 200 and 210, chosen in consultation with a Music adviser

*Students interested in pursuing a programme in Early Music should register for the Specialization in Music Performance Studies. These students should select the following options in the Specialization programme:

Music Performance Studies 3113, 3123, 4113, 4123, 4413, 4423
Music History 3113, 3123

**With permission of the Department of Music, students with exemption for Integrative Music Studies 200 substitute Integrative Music Studies 300.

66 BFA Specialization in Music Theory/Composition
21
Integrative Music Studies 2006**, 3006, 3106, Music Performance Studies 2213
6 Music 2306 or Music 2313 and 3313
6 Music History 2006 or, if exempt, Music History electives
6 Music History electives
6-12 Integrative Music Studies 4006, Contemporary Music Studies 3106, 3206, 3306
6 Integrative Music Studies 3206, 3313, 3323, Contemporary Music Studies 4106, 4206, 4306
9-15 Department of Music electives, excluding Music 200 and 210, chosen in consultation with the Music adviser

*With permission of the Department of Music, students with exemptions for Integrative Music Studies 200 substitute Integrative Music Studies 300.
66 BFA Specialization in Selected Music Studies
15 Integrative Music Studies 200^, 310^, Music Performance Studies 221^, 6 Music 230^ or Music 231^ and 331^, 6 Music History 200^ or, if exempt, Music History electives, 6 Music History electives, 3-6 Music 491^, 492^.
27-30 Department of Music electives, excluding Music 200 and 210, chosen in consultation with a Music adviser.
*With permission of the Department of Music, students with exemptions for Integrative Music Studies 200 substitute Integrative Music Studies 300.

Eligibility:
Completion of 30 credits, with B average or better.

Entrance:
Submission and approval of plan of course work and Special Project (Music 491).

Review:
Upon completion of the courses in this Specialization, the Special Project is evaluated by the appropriate Review Committee. The type of evaluation used depends upon the nature of the project: exhibition, concert, recording, essay, musical production, etc.

81.100.1 ADMISSION TO PROGRAMMES IN MUSIC
The Department of Music has a distinct admission procedure in addition to the normal admission process of Concordia University. All applicants (to Music programmes) are required to attend an interview/audition as part of the admission process.

In addition, all applicants with prior music study, except those who have received written notification of exemption for Music 210, must contact the Department of Music to arrange a Theory Placement Test.

Applicants are required to contact the Department of Music before March 15, 1990 to arrange their audition/interview and for detailed information regarding procedures for admission to the Music programmes. Applicants normally are accepted as Majors in Integrative Music Studies in their first year.

81.100.2 MUSIC THEORY PLACEMENT TEST
Students who have not been accepted into a programme in Music but who wish to register for courses in Music which have a theory prerequisite must contact the Department of Music to write a Theory Placement Test prior to their registration appointments.

81.100.3 MUSIC AUDITIONS
Students wishing to register for a music ensemble, the orchestra, the choir, etc. must contact the Department of Music at least two weeks prior to registration to arrange an audition.

Music:
For specific information regarding entrance to courses in the Department of Music please see above.

MUSI 200 Musical Literacy (6 credits)
An intensive seminar/workshop in theory and aural training designed to extend musical literacy for the student with limited background. Classroom and laboratory.
NOTE: Students in a Major, Minor or Specialization programme in the Department of Music may not take this course for credit toward their degrees.

MUSI 210 Theory/Aural Training (6 credits)
Prerequisite: Music 200 or exemption. An extensive course in musicianship, including music theory, harmony, counterpoint, aural training. NOTE A/See §200.3

NOTE: Students enrolled in any Specialization offered by the Department of Music may not apply credits for this course toward their concentration requirements.
MUSI 223 Understanding Music (3 credits)
A course in analytical listening for the student who has little or no musical background. The works studied represent the major styles and idioms of Western music. NOTE A/See §200.3

MUSI 230 Private Study BI (6 credits)
Prerequisite: Written permission of the Department of Music.
This course offers individual vocal or instrumental instruction in an approved area of music co-ordinated with the student's programme. NOTE A/See §200.3
NOTE: Students are required to assume part of the cost of private lessons.
NOTE: Upon the recommendation of the individual instructor, public performance may be required as part of the course.

MUSI 231 Private Study AI (3 credits)
Prerequisite: Written permission of the Department of Music.
This course offers individual vocal or instrumental instruction in an approved area of music co-ordinated with the student's programme.
NOTE: Students are required to assume part of the cost of private lessons.
NOTE: Upon the recommendation of the individual instructor, public performance may be required as part of the course.

MUSI 330 Private Study BII (6 credits)
Prerequisite: Music 230 or Music 231 and 331, and written permission of the Department of Music.
Continuation of Music 230. NOTE A/See §200.3
NOTE: Students enrolled in the Specialization in Music Performance Studies register in MPER 390.
NOTE: Students are required to assume part of the cost of private lessons.
NOTE: Upon the recommendation of the individual instructor, public performance may be required as part of the course.

MUSI 331 Private Study All (3 credits)
Prerequisite: Music 231 and written permission of the Department of Music.
Continuation of Music 231.
NOTE: Students are required to assume part of the cost of private lessons.
NOTE: Upon the recommendation of the individual instructor, public performance may be required as part of the course.

MUSI 430 Private Study BIII (6 credits)
Prerequisite: Music 330 and written permission of the Department of Music.
Continuation of Music 330. NOTE A/See §200.3
NOTE: Students enrolled in the Specialization in Music Performance Studies register in MPER 490.
NOTE: Students are required to assume part of the cost of private lessons.
NOTE: Upon the recommendation of the individual instructor, public performance may be required as part of the course.

MUSI 431 Private Study All II (3 credits)
Prerequisite: Music 331 and written permission of the Department of Music.
A continuation of Music 331.
NOTE: Students are required to assume part of the cost of private lessons.
NOTE: Upon the recommendation of the individual instructor, public performance may be required as part of the course.

MUSI 491 Special Project in Music (3 credits)
Prerequisite: Written permission of the Department of Music.
This course is intended for students enrolled in the Specialization in Selected Music Studies. It affords an opportunity for extensive development of the final project under the direction of a Faculty member. The content of this course varies according to the particular area being studied.
NOTE: Students repeating Music 491 register for Music 492 for credit provided the subject matter is different.
NOTE: If the special project is within the realm of performance, the student is required to participate in public performances.

MUSI 492 Special Project in Music (3 credits)
Prerequisite: Music 491 and written permission of the Department of Music.
Continuation of Music 491.
NOTE: If the special project is within the realm of performance, the student is required to participate in public performances.

Contemporary Music Studies:

CMUS 300 Studio Music I (6 credits)
Prerequisite: Written permission of the Department of Music.
A workshop programme in selected jazz, rock, popular, and related styles. The study includes ensem-
Music playing, improvisation, score reading, jazz theory, and arranging. Practice period/conference. NOTE: A/See §200.3

NOTE: Students are required to participate in public performances.

CMUS 310  Electroacoustic Music I (6 credits)
Prerequisite: Written permission of the Department of Music.
A seminar/workshop in electroacoustic music with a basic introduction to composition, history, acoustics and psychoacoustics through a series of directed studies involving tape editing, recording, musique concrète, processing of analog synthesis. The course also introduces recent technological developments including digital signal processing, computer applications and MIDI. Classroom and laboratory. NOTE A/See §200.3

NOTE: Students are required to bear the cost of materials.

CMUS 320  Music Composition I (6 credits)
Prerequisite: Written permission of the Department of Music.
A seminar/workshop in traditional and contemporary composition. Emphasis is on the development of the individual's compositional skills. NOTE A/See §200.3

CMUS 330  Jazz Composition I (6 credits)
Prerequisite: INMS 331 and 332 and written permission of the Department of Music.
A seminar/workshop in jazz composition. After an examination of components of composition from the jazz repertoire, students write original music based on the Blues, song forms and such extended forms as those in the style of Be-bop, Bossa Nova, Ragtime, and Modal Jazz. NOTE A/See §200.3

CMUS 401  Studio Music II (3 credits)
Prerequisite: Contemporary Music Studies 300, or written permission of the Department of Music.
An intensive study of selected problems in the development of studio musicianship. The areas covered are determined by specific class needs. Practice period/conference. This is a full-year course. NOTE A/See §200.3

NOTE: Students are required to participate in public performances.

CMUS 402  Studio Music III (3 credits)
Prerequisite: Contemporary Music Studies 401, or written permission of the Department of Music.
Continuation of Contemporary Music Studies 401. This is a full-year course. NOTE A/See §200.3

NOTE: Students are required to participate in public performances.

CMUS 410  Electroacoustic Music II (6 credits)
Prerequisite: Contemporary Music Studies 310.
A seminar/workshop in electroacoustics with continued work in composition, history, and sound technology through a series of directed studies involving digital system processing, multi-track studio techniques, digital synthesis and sampling. Technological developments, computer applications, MIDI and contemporary compositional techniques are explored in depth. Classroom and laboratory. NOTE A/See §200.3

NOTE: Students are required to participate in public performances.

CMUS 420  Music Composition II (6 credits)
Prerequisite: Contemporary Music Studies 320 and written permission of the Department of Music.
Continuation of Contemporary Music Studies 320. NOTE A/See §200.3

CMUS 430  Jazz Composition II (6 credits)
Prerequisite: Contemporary Music Studies 330.
Continuation of Contemporary Music Studies 330. NOTE A/See §200.3

CMUS 446  Electroacoustic Music Seminar/Workshop (3 credits)
Prerequisite: Contemporary Music Studies 410.
A seminar/workshop for advanced students providing an opportunity for continued study in electroacoustics through a series of short preparatory studies leading to the completion of a single major project. An interdisciplinary aspect to the final project is encouraged. Classroom and laboratory. NOTE C/See §200.3

NOTE: Students are required to bear the cost of materials.

CMUS 447  Electroacoustic Music Seminar/Workshop (3 credits)
Prerequisite: Contemporary Music Studies 446.
A seminar/workshop for advanced students in which investigation into specific areas of electroacoustics leads to the completion of a single major project. An interdisciplinary aspect to the final project is encouraged. Classroom and laboratory.

NOTE: Students are required to bear the cost of materials.

CMUS 471*  Independent Study I (3 credits)
Prerequisite: Written permission of the Department of Music.
A student-designed course of study that focuses on an approved area(s) of music composition, and involves consultation with an adviser. NOTE C/See §200.3

*Students may count a maximum of 9 credits in independent studies toward their degree programmes.
CMUS 472* Independent Study II (3 credits)
Prerequisite: Written permission of the Department of Music.
A student repeating Contemporary Music Studies 471 registers for Contemporary Music Studies 472 for credits.
*Students may count a maximum of 9 credits in independent studies towards their degree programmes.

CMUS 498 Special Topics in Composition (3 credits)
Prerequisite: Written permission of the Department of Music.
A seminar/workshop in composition. Emphasis in any given year may be in one or more of the following: free composition, music for the media, technological, experimental musics. NOTE A,C/See §200.3

Integrative Music Studies:

INMS 200 Theory/Composition/Analysis I (6 credits)
Prerequisite: Music 210 or exemption.
A workshop in theory, composition, analysis, and related areas. The course explores one or more traditional, contemporary, or experimental approaches to the organization and uses of sound materials. Classroom and laboratory. NOTE A/See §200.3

INMS 300 Theory/Composition II (6 credits)
Prerequisite: Integrative Music Studies 200 or equivalent.
A study that co-ordinates exercises in part-writing and harmony with composition. Students work in a variety of traditional and contemporary forms, styles, and media. Classroom and laboratory. NOTE A/See §200.3

INMS 310 Aural Perception: Analytical Hearing I (6 credits)
Prerequisite: Music 210 or written permission of the Department of Music.
A course in aural training to develop auditory instinct and intellectual understanding. Hearing skills are developed through exercises in aural concentration, recall, reproduction, imagination, analysis, and transcription. The sound materials used range from traditional to electronic-acoustic, natural, and mechanical. Classroom and laboratory. NOTE A/See §200.3

INMS 320 Comparative Analysis I (6 credits)
Prerequisite: Integrative Music Studies 200 or exemption.
Development of analytical methodology. Study of selected works representing various forms and styles from different historical periods. NOTE A/See §200.3

INMS 331 Instrumentation/Arranging I (3 credits)
Prerequisite: Written permission of the Department of Music.
A study of the capabilities and uses of instruments in a variety of musical situations ranging from small ensembles to full orchestra. The areas covered are determined by class needs. Workshop and laboratory. NOTE A/See §200.3

INMS 332 Instrumentation/Arranging II (3 credits)
Prerequisite: Integrative Music Studies 331. NOTE A/See §200.3

INMS 400 Theory/Composition/Analysis III (6 credits)
Prerequisite: Integrative Music Studies 300, or exemption.
A continuation of Integrative Music Studies 300 at a more advanced level. Study of writing techniques of the late nineteenth and twentieth centuries, and work in counterpoint. Classroom and laboratory. NOTE A/See §200.3

INMS 410 Aural Perception: Analytical Hearing II (6 credits)
Prerequisite: Integrative Music Studies 310, or written permission of the Department of Music.
An intensive study of selected problems in hearing, analyzing, and transcribing music. The course combines individual and group exercises, with structural analysis. Areas to be covered are determined by specific class needs. NOTE A/See §200.3

INMS 421 Comparative Analysis II (3 credits)
Prerequisite: Integrative Music Studies 320.
Continuation of Integrative Music Studies 320. NOTE A/See §200.3

INMS 422 Comparative Analysis III (3 credits)
Prerequisite: Integrative Music Studies 421.
Continuation of Integrative Music Studies 421. NOTE A/See §200.3

INMS 431 Instrumentation/Arranging III (3 credits)
Prerequisite: Integrative Music Studies 332.
Continuation of Integrative Music Studies 332. NOTE A/See §200.3
INMS 432  Instrumentation/Arranging IV  (3 credits)  
Prerequisite: Integrative Music Studies 431.  
Continuation of Integrative Music Studies 431.  NOTE A/See §200.3

INMS 440  Aural Perception: Analytical Hearing III  (6 credits)  
Prerequisite: Integrative Music Studies 410, or written permission of the Department of Music.  
Continuation of Integrative Music Studies 410.  NOTE A/See §200.3

INMS 471*  Independent Study I  (3 credits)  
Prerequisite: Written permission of the Department of Music.  
A student-designed course of study that focuses on an approved area(s) of music theory, analysis, aural perception, instrumentation, arranging and/or related disciplines, and involves consultation with an advisor.  NOTE C/See §200.3  
*Students may count a maximum of 9 credits in independent studies toward their degree programmes.

INMS 472*  Independent Study II  (3 credits)  
Prerequisite: Written permission of the Department of Music.  
A student repeating Integrative Music Studies 471 registers for Integrative Music Studies 472 for credit.  
*Students may count a maximum of 9 credits in independent studies toward their degree programmes.

INMS 498  Special Topics in Music Theory/Aural Perception  (3 credits)  
Prerequisite: Written permission of the Department of Music.  
Study in a selected area of harmony, counterpoint, analysis, hearing, instrumentation/orchestration/arranging.

INMS 499  Special Topics in Music Theory/Aural Perception  (6 credits)  
Prerequisite: Written permission of the Department of Music.  
Study in a selected area of harmony, counterpoint, analysis, hearing, instrumentation/orchestration/arranging.

Music History:

MHIS 200  Music History and Society  (6 credits)  
A survey of musical styles in their social context, from pre-history to the present day. While emphasis is on the mainstream of the Western tradition, attention is also given to folk, popular, and jazz styles, as well as to the music of other cultures.  NOTE A/See §200.3

MHIS 302  Music of the Baroque  (3 credits)  
Prerequisite: Music History 200 and Integrative Music Studies 200 or exemptions.  
Representative works from the early seventeenth to the mid-eighteenth century. The evolution of "common practice" is traced in the forms, styles, and performance practices of the great masters and schools.

MHIS 303  Classical History  (3 credits)  
Prerequisite: Music History 200 and Integrative Music Studies 200 or exemptions.  
Representative works from the ages of Haydn, Mozart, and Beethoven. Styles, forms, and performance practices are examined within the context of eighteenth-century social and cultural developments.

MHIS 304  Romanticism in Music  (3 credits)  
Prerequisite: Music History 200 and Integrative Music Studies 200 or exemptions.  
Representative works from the late eighteenth to early twentieth century. Styles and performance practices are studied as expressions of the romantic consciousness.

MHIS 305  Music in the Twentieth Century  (3 credits)  
Prerequisite: Music History 200 and Integrative Music Studies 200 or exemptions.  
Selected areas or movements in twentieth-century music. Topics for consideration include the work of major composers, national schools, stylistic schools, and contemporary thought on music.

MHIS 311  Medieval Music History  (3 credits)  
Prerequisite: Music History 200 and Integrative Music Studies 200 or exemptions.  
The development of basic patterns of Western Music is traced in reference to the historical and cultural forces of the Middle Ages.  NOTE A/See §200.3

MHIS 312  Renaissance Music  (3 credits)  
Prerequisite: Music History 200 and Integrative Music Studies 200 or exemptions.  
Musical styles from the mid-fifteenth to the early seventeenth century are examined in the context of the cultural changes which shaped the humanistic age.  NOTE A/See §200.3

MHIS 314  Jazz History  (3 credits)  
Prerequisite: Music History 200 and Integral Music Studies 200 or exemption.  
A study in the historical developments and the personalities that contributed to the evolution of jazz styles.
MHIS 471* Independent Study I (3 credits)
Prerequisite: Written permission of the Department of Music.
A student-designed course of study that focuses on an approved area(s) of music history and/or related disciplines, and involves consultation with an adviser. NOTE C/See §200.3
*Students may count a maximum of 9 credits in independent studies toward their degree programmes.

MHIS 472* Independent Study II (3 credits)
Prerequisite: Written permission of the Department of Music.
A student repeating Music History 471 registers for Music History 472 for credit.
*Students may count a maximum of 9 credits in independent studies toward their degree programmes.

MHIS 498 Special Topics in Music History (3 credits)
Prerequisite: Twelve credits in Music and written permission of the Department of Music.
A study of a selected period, area, or contribution. In a given year, the study may examine any significant aspect of Western, non-Western, or other musics. NOTE C/See §200.3

Music in Education:

MINE 301 Music for Classroom Use I (3 credits)
Prerequisite: Enrolment in the Specialization in Early Childhood Education, Major in Child Studies, or written permission of the Department of Music.
This course is designed to give the student a working knowledge of contemporary techniques of group instruction in music. At least one established or experimental method is covered in some depth: for example, Orff, Kodaly, Dalcroze, Martenot, Schafer, Dennis. While the main emphasis is on the cultivation of musicality in the pre-school and elementary school child, the implications for music education in general are also explored. Classroom work includes opportunities for demonstration and practice teaching. NOTE A/See §200.3

MINE 302 Music for Classroom Use II (3 credits)
Prerequisite: Music in Education 301 and written permission of the Department of Music.
A continuation of Music in Education 301. NOTE A/See §200.3

MINE 430 Studies in Music in Education (6 credits)
Prerequisite: Written permission of the Department of Music.
A study of selected problems in music education. NOTE C/See §200.3

MINE 431 Seminar/Workshop in Music Education I (3 credits)
Prerequisite: Written permission of the Department of Music.
A study of selected problems in the musical education of the child. Among the areas considered are the music curriculum, music and the other arts, concepts of musicality, musical thinking, the education of the musically gifted child, and the musical environment in home and school. Discussion is combined with workshop demonstrations. NOTE A/See §200.3

MINE 432 Seminar/Workshop in Music Education II (3 credits)
Prerequisite: Music in Education 431. NOTE A/See §200.3

MINE 440 Studies in Music in Education (6 credits)
Prerequisite: Music in Education 430.
A student repeating Music in Education 430 registers under Music in Education 440 for credit, provided the subject matter is different.

Music Performance Studies:

NOTE: All students wishing to register for music ensembles, the orchestra, the choir, etc., must contact the Department of Music at least two weeks prior to their registration date to arrange an audition.

MPER 200 Orchestra I (6 credits)
Prerequisite: Written permission of the Department of Music.
Students enrolled in this course participate in the Concordia Orchestra. NOTE A/See §200.3

MPER 201 Orchestra I J (3 credits)
Prerequisite: Written permission of the Department of Music.
Students enrolled in this course participate in the Concordia Orchestra.

MPER 220 Choir I (6 credits)
Prerequisite: Written permission of the Department of Music.
Students enrolled in this course participate in the Concordia Choir. NOTE A/See §200.3
MOPER 221  Choir I J  (3 credits)
Prerequisite: Written permission of the Department of Music. Students enrolled in this course participate in the Concordia Choir. NOTE A/See §200.3

MOPER 300 Orchestra II  (6 credits)
Prerequisite: Music Performance Studies 200, or 201, and written permission of the Music Department. Continuation of Music Performance Studies 200 (201). NOTE A/See §200.3

MOPER 311 Early Music Ensemble I  (3 credits)
Prerequisite: Written permission of the Department of Music.
A study, through performance, of representative vocal and instrumental works from the middle ages to the early baroque. NOTE A/See §200.3

MOPER 312 Early Music Ensemble II  (3 credits)
Prerequisite: Music Performance Studies 311.
Continuation of Music Performance Studies 311. NOTE A/See §200.3

MOPER 320 Choir II  (6 credits)
Prerequisite: Music Performance Studies 220 or 221 and written permission of the Music Department. Continuation of Music Performance Studies 220 (221). NOTE A/See §200.3

MOPER 321 Traditional/Contemporary Ensemble I  (3 credits)
Prerequisite: Written permission of the Department of Music.
A study, through performance, of selected works from the traditional and contemporary repertoires. The works studied are determined by class needs and the particular skills of each student. NOTE A/See §200.3

MOPER 322 Traditional/Contemporary Ensemble II  (3 credits)
Prerequisite: Written permission of the Department of Music.
Continuation of Music Performance Studies 321. NOTE A/See §200.3

MOPER 330 Jazz Improvisation I  (6 credits)
Prerequisite: Written permission of the Department of Music after audition.
A performance-analysis course that examines the craft of jazz improvisation. A broad spectrum of jazz improvisational styles is examined. Participation in a public recital is required.

MOPER 370 Musical Performance Skills I  (6 credits)
Prerequisite: Written permission of the Department of Music.
A seminar/workshop on specific problems in learning, teaching and developing musical performance skills. Included is the analysis and organization of practice technique, reading, memory, performance practices, style, interpretation, accompaniment and recital preparation. Particular attention is given to the integration of skill with musical understanding. NOTE A/See §200.3

MOPER 390 Advanced Private Study I  (6 credits)
Prerequisite: Written permission of the Department of Music and enrolment in the Specialization in Music Performance Studies.
This course offers intensive vocal or instrumental instruction for students specializing in performance. A juried examination is required. NOTE A/See §200.3
NOTE: Students are required to bear part of the cost of private lessons.

MOPER 400 Orchestra III  (6 credits)
Prerequisite: Music Performance Studies 300.
Continuation of Music Performance Studies 300. NOTE A/See §200.3

MOPER 411 Early Music Ensemble III  (3 credits)
Prerequisite: Music Performance Studies 312.
Continuation of Music Performance Studies 312. NOTE A/See §200.3

MOPER 412 Early Music Ensemble IV  (3 credits)
Prerequisite: Music Performance Studies 411.
Continuation of Music Performance Studies 411. NOTE A/See §200.3

MOPER 420 Choir III  (6 credits)
Prerequisite: Music Performance Studies 320.
Continuation of Music Performance Studies 320. NOTE A/See §200.3

MOPER 421 Advanced Repertoire I  (3 credits)
Prerequisite: Written permission of the Department of Music.
An intensive study of selected works from the repertoire. Particular consideration is given to the acquisition of proficiency in conducting, balance, style, interpretation, and related dimensions of higher technique. NOTE A/See §200.3
Advanced Repertoire II (3 credits)
Prerequisite: Music Performance Studies 421 and written permission of the Department of Music.
Continuation of Music Performance Studies 421. NOTE A/See §200.3

Jazz Improvisation II (6 credits)
Prerequisite: Music Performance Studies 330 and written permission of the Department of Music.
Continuation of Music Performance Studies 330.

Performance Practice/Documentation (3 credits)
Prerequisite: Written permission of the Department of Music.
A study of historical sources applied directly to performance. Topics covered include ornamentation, improvisation, figured bass, "The Doctrine of the Affections", early notation, and bibliography.

Performance Practice/Documentation (3 credits)
Prerequisite: Music Performance Studies 441.
A continuation of Music Performance Studies 441.

Musical Performance Skills II (6 credits)
Prerequisite: Music Performance Studies 370 and written permission of the Department of Music.
Continuation of Music Performance Studies 370. NOTE A/See §200.3

Independent Study I (3 credits)
Prerequisite: Written permission of the Department of Music.
A student-designed course of study that focuses on an approved area(s) of performance practice, performance theory/analysis, pedagogy, and/or related disciplines, and involves consultation with an advisor. When appropriate, the study may include a demonstration/performance. NOTE C/See §200.3
*Students may count a maximum of 9 credits in independent studies toward their degree programmes.

Independent Study II (3 credits)
Prerequisite: Written permission of the Department of Music.
A student repeating Music Performance Studies 471 registers for Music Performance Studies 472 for credit.
*Students may count a maximum of 9 credits in independent studies toward their degree programmes.

Advanced Private Study II (6 credits)
Prerequisite: Music 330 or Music Performance Studies 390, enrolment in the Specialization in Music Performance Studies and written permission of the Department of Music.
A continuation of Music Performance Studies 390. An approved public recital may be substituted for the juried examination. NOTE A/See §200.3
NOTE: Students are required to bear part of the cost of private lessons.

Special Topics in Music Performance (3 credits)
Prerequisite: Written permission of the Department of Music.
A seminar/workshop in performance. Selected problems in the development of performance skills. The areas covered are, whenever possible, determined by the specific interests of the students. Topics in any given year may include technique, practice, style, interpretation, accompaniment, ensemble, teaching children, the adult student. NOTE A,C/See §200.3

Special Topics in Music Performance (6 credits)
Prerequisite: Written permission of the Department of Music.
A seminar/workshop in performance. Selected problems in the development of performance skills. The areas covered are, whenever possible, determined by the specific interests of the students. Topics, in any given year, may include technique, practice, style, interpretation, accompaniment, ensemble, teaching children, the adult student. NOTE A,C/See §200.3

Music Therapy:

Introduction to Music Therapy (6 credits)
Prerequisite: Written permission of the Department of Music.
An overview of theoretical models and their application to a variety of populations. Areas covered include the historical roots of music therapy; methods in client observation, assessment and treatment; techniques of music therapy including instrumental and vocal improvisation, guided imagery in music and the use of songs. When possible, opportunities for observation of music therapy in clinical settings will occur. NOTE A/See §200.3

World Music:

Folk Music of the Americas (6 credits)
Prerequisite: Written permission of the Department of Music.
A survey of the roots and development of traditional music in the New World. The study examines aboriginal as well as transplanted and hybrid styles; urban and rural musics, with special attention to Europe-
an and African antecedents; the relationship of folk musics to popular and cultivated styles; transcription and arrangement, ethnomusicological method. NOTE A/See §200.3

WMUS 310  
**Music in the Non-Western World**  (6 credits)
Prerequisite: Written permission of the Department of Music.
A survey of the art, religious, and folk music of non-European cultures. The study includes an examination of cross-cultural parallels and influences, instruments, notations, textures, techniques of performance, and problems of interpretation. Illustrated with recordings and slides. NOTE A/See §200.3

WMUS 320  
**Folk and Traditional Music I**  (6 credits)
Prerequisite: Written permission of the Department of Music.
The music of a selected culture or community. While in a given year the study may consider the music of any world culture, particular attention is given to the musical heritage of ethnic minorities residing in Canada. NOTE A/See §200.3

WMUS 330  
**Folk and Traditional Music II**  (6 credits)
Prerequisite: World Music 320 and written permission of the Department of Music.
Continuation of World Music 320. NOTE A/See §200.3

WMUS 340  
**Folk and Traditional Music III**  (6 credits)
Prerequisite: World Music 330 and written permission of the Department of Music.
Continuation of World Music 330. NOTE A/See §200.3
Students are responsible for fulfilling their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20. The superscript indicates credit value.

In addition to the normal admission procedure of Concordia University, there is a distinct admission procedure for applicants to the Major in Studio Art and the Major in Art History and Studio Art. All applicants must submit a portfolio as part of the admission process. Accepted applicants who have the CEGEP 10.6 profile (see 81.10.1) are automatically exempt from Art 200, Studio Art I. Accepted applicants without the 10.6 profile are normally required to complete Art 200. However, they may request exemption if the quality and range of their portfolio submissions are of exceptional merit.

1. Portfolios should consist of a minimum of 20 and maximum of 30 of the applicant's own work.
2. Portfolios should consist of both two-dimensional and three-dimensional work in a variety of mediums.
3. Individual works must be labeled including applicant's name, date, size of work and medium(s) used.
4. Each portfolio must contain a list of contents including all the above information.
5. Works larger than 20 x 24 inches (50 x 60 centimeters) and three-dimensional works must be submitted in slide form.
6. Portfolios should be presented in a sturdy folder; works should be flat and unframed.
7. Out-of-town applicants may submit photographs and/or slides of their work. Return shipment of out-of-town portfolios is by prior arrangement only.

Applicants submit this portfolio to the Portfolio Committee, Visual Arts Building, Room 237, prior to the deadline of Thursday, March 15, 1990. For more detailed information regarding admission to the Major in Studio Art, applicants should contact one of the studio arts departments.

In addition to the normal admission procedure of Concordia University, there is a distinct admission procedure for applicants to the Major in Painting and Drawing. All applicants must also submit a portfolio - please see 81.110.1 items 1-8 for portfolio requirements. Additional requirements for the Major in Painting and Drawing are:
8. Portfolios must be accompanied by a letter of intent explaining the applicant's special interests in painting and drawing.
9. Applicants are required to attend an interview.

Applicants must bring both their portfolios and their letters of intent to the Department of Painting and Drawing, Visual arts Building, Room 238, prior to the deadline of Thursday, March 15, 1990. At this time arrangements will be made for their interview appointments. For more detailed information regarding admission to the Major in Painting and Drawing, applicants should contact the Department Office.

NOTE: Students are required to bear the cost of materials in studio arts courses.

Art:

ART 200 Studio Art I (6 credits)
Principles of theory and practice in the visual arts, including explorations in two and three dimensions.

ART 261 Aesthetic Inquiry in Visual Arts (6 credits)
Prerequisite: Concurrent enrolment in specially designated sections of either Art 200 and Drawing 200 or Drawing 200 and Painting 200.
A seminar addressing the principles and theories relating to the objects and events of visual arts. Topics include the artistic process as expression, intuition, and imagination. Further consideration is given to the products of painting, sculpture, and graphics, emphasizing various contemporary critical and theoretical stances. NOTE A/See §200.3

ART 320 Studio/Seminar in Painting and Drawing (6 credits)
Prerequisite: Drawing 200, Painting 200, Art 261 and enrolment in the Major in Painting and Drawing or written permission of the Department of Painting and Drawing.
A combination studio/seminar in which advanced ideas in painting and drawing are addressed. Special topics of approximately one month duration are presented by guest artists from within and outside the faculty.

ART 417 Open Media (6 credits)
Prerequisite: 30 credits in studio arts; 400-level studio courses concurrently; or written permission of the Department.
A seminar encompassing an unlimited range and combination of materials.* The varied nature of this approach invites students to provide their own circumstances for creating work. NOTE A/See §200.3
*Students are required to bear the cost of materials and, when loan arrangements cannot be made through the Audio-Visual Department, equipment rental.
ART 420  Materials and Methods of the Artist  (6 credits)
Prerequisite: Drawing 300, Painting 300 and enrolment in the Major in Painting and Drawing or written permission of the Department of Painting and Drawing.
Through a series of special projects in the media of drawing and painting, this course familiarizes the student with some of the historical materials, techniques, and other aspects of the artist's concerns. NOTE: Students who have credit for Art 234 or Art History 267 or 434 may not take this course for credit.

ART 460  Analysis of Great Works of Art  (6 credits)
A course in art principles. Through the formal analysis of selected masterpieces of painting and sculpture, the student is led to a fuller comprehension of the nature of formal order in the arts. NOTE A/See §200.3

Painting:

PTNG 200  Painting I  (6 credits)
Prerequisite: Art 200 or Art 200 exemption.
An exploration of painting, colour, style, image, visual skills, and the technology of painting materials. NOTE A/See §200.3

PTNG 300  Painting II  (6 credits)
Prerequisite: Painting 200.
A course in which various media and forms of expression are explored at the more advanced level. NOTE A/See §200.3

PTNG 400  Painting III  (6 credits)
Prerequisite: Painting 300.
A continuation of Painting 300. NOTE A/See §200.3

PTNG 420  Seminar/Workshop in Painting  (6 credits)
Prerequisite: Art 320 and enrolment in the Major in Painting and Drawing or written permission of the Department of Painting and Drawing.
An advanced studio in painting having its principle emphasis in studio practice, but developing further the theoretical concepts introduced in Art 320. NOTE A/See §200.3

PTNG 450  Advanced Studio in Painting  (6 credits)
Prerequisite: Painting 400.
A continuation of Painting 400. NOTE A/See §200.3

PTNG 470  Independent Study  (6 credits)
Prerequisite: Painting 420, previously or concurrently, or written permission of the Department of Painting and Drawing.
A course of independent study in which the advanced student explores a specific area in painting. NOTE A/See §200.3

PTNG 498  Special Topics in Painting  (3 credits)
Prerequisite: Third-year standing* and written permission of the Department of Painting and Drawing.
A course for the advanced student which provides an opportunity for the study of more specialized areas in painting. NOTE C/See §200.3
*fewer than 33 credits remaining in degree programme.

PTNG 499  Special Topics in Painting  (6 credits)
Prerequisite: Third-year standing* and written permission of the Department of Painting and Drawing.
A course for advanced students which provides an opportunity for the study of more specialized areas in painting. NOTE C/See §200.3
*fewer than 33 credits remaining in degree programme.

Drawing:

DRAW 200  Drawing I  (6 credits)
Prerequisite: Art 200 or Art 200 exemption or concurrent enrolment in specially designated sections of Art 200 and 261.
An exploration of drawing as a means of expression. Various media are employed to examine and express form, space, figurative, and other graphic images. Drawing from observation, imagination, and memory is included. NOTE A/See §200.3

DRAW 300  Drawing II  (6 credits)
Prerequisite: Drawing 200.
A drawing course in which various media and forms of expression are explored at the more advanced level. Lectures and studio periods. NOTE A/See §200.3
DRA W 400  Drawing III  (6 credits)
Prerequisite: Drawing 300.
Continuation of Drawing 300.  NOTE A/See §200.3

DRA W 420  Seminar/Workshop in Drawing  (6 credits)
Prerequisite: Art 320 and enrolment in the Major in Painting and Drawing or written permission of the Department of Painting and Drawing.
An advanced studio in drawing having its principle emphasis in studio practice, but developing further the theoretical concepts introduced in Art 320.

DRA W 450  Advanced Studio in Drawing  (6 credits)
Prerequisite: Drawing 400.
A continuation of Drawing 400.

DRA W 470  Independent Study  (6 credits)
Prerequisite: Drawing 420, previously or concurrently, or written permission of the Department of Painting and Drawing.
A course of independent study in which the advanced student explores a specific area of drawing.  NOTE A/See §200.3

DRA W 498  Special Topics in Drawing  (3 credits)
Prerequisite: Third-year standing* and written permission of the Department of Painting and Drawing.
A course for advanced students which provides an opportunity for the study of more specialized areas in drawing.  NOTE C/See §200.3
*fewer than 33 credits remaining in degree programme.

DRA W 499  Special Topics in Drawing  (6 credits)
Prerequisite: Third-year standing* and written permission of the Department of Painting and Drawing.
A course for advanced students which provides an opportunity for the study of more specialized areas in drawing.  NOTE C/See §200.3
*fewer than 33 credits remaining in degree programme.
Students are responsible for fulfilling their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20.
The superscript indicates credit value.

66 BFA Specialization in Printmaking*

6 Core
6 Art 200® (or, if exempt, Painting 200®, Photography 200®, Sculpture 200®, or a studio arts elective)
6 Art 261®, Art 460®, Sculpture 465® or Art History
6 Art History elective
6 Drawing 200®, 300®
12 Printmaking 310®, 320®, 330®

Option A (Intensive):
12 Printmaking 210®, 220®, 230®
6 Printmaking 410®, 420®, 430®
6 Printmaking 450®, Fibres 470®

Option B (Extensive):
18 Printmaking 210®, 220®, 230®
6 Printmaking 410®, 420®, 430®, 450®, Fibres 470®

*All students select courses from the core of 42 credits.

Option A permits specialization in two of the three areas of printmaking (intaglio, lithography, or serigraphy).
Option B requires students to follow courses at the 200 level in all three areas of printmaking.

60 BFA Major in Photography
36 Photography 200®, 250®, 300®, 310®, 320®, 400®
6 Photography electives
6 Art History electives
12 Visual Arts electives

60 BFA Major in Studio Art
6 Art 200® (or, if exempt, a studio arts elective)
81.120.2 ADMISSION TO THE MAJOR IN STUDIO ART AND THE MAJOR IN ART HISTORY AND STUDIO ART

In addition to the normal admission procedure of Concordia University, there is a distinct admission procedure for applicants to the Major in Studio Art and the Major in Art History and Studio Art.

All applicants must submit a portfolio as part of the admission process. Accepted applicants who have the CEGEP 10.6 profile (see 81.10.1) are automatically exempt from Art 200, Studio Art I. Accepted applicants without the 10.6 profile are normally required to complete Art 200. However, they may request exemption if the quality and range of their portfolio submissions are of exceptional merit.

1. Portfolios should consist of a minimum of 20 and maximum of 30 of the applicant’s own work.
2. Portfolios should consist of both two-dimensional and three-dimensional work in a variety of mediums.
3. Individual works must be labeled including applicant’s name, date, size of work and medium(s) used.
4. Each portfolio must contain a list of contents including all the above information.
5. Works larger than 20 x 24 inches (50 x 60 centimeters) and three-dimensional works must be submitted in slide form.
6. Portfolios should be presented in a sturdy folder; works should be flat and unframed.
7. Out-of-town applicants may submit photographs and/or slides of their work. Return shipment of out-of-town portfolios is by prior arrangement only.

Applicants submit this portfolio to the Portfolio Committee, Visual Arts Building, Room 237, prior to the deadline of Thursday, March 15, 1990. For more detailed information regarding admission to the Major in Studio Art, applicants should contact one of the studio arts departments.

81.120.3 ADMISSION TO PRINTMAKING

Normally, students applying to enter the Specialization in Printmaking are initially accepted into the Major in Studio Art (see 81.120.2).

It is recommended that full-time students in studio arts who plan to apply for transfer to the Specialization in Printmaking register for 12 credits in printmaking courses in their first 30 credits. Upon completion of the first year (less than 66 credits remaining), students apply for transfer through the Department of Printmaking and Photography. Acceptance into the Specialization is based on accomplishment and potential in printmaking and on the student’s academic performance at Concordia and especially on the portfolio.

NOTE: Students are required to bear the cost of materials in studio arts courses.

Art:

For course descriptions, please see Department of Painting and Drawing, §81.110.

Printmaking:

PRIN 210 Intaglio I (6 credits)
Prerequisite: Drawing 200, previously or concurrently.
A study of the basic principles of traditional and contemporary intaglio techniques, such as drypoint, etching and aquatint. NOTE A/See §200.3

PRIN 220 Lithography I (6 credits)
Prerequisite: Drawing 200, previously or concurrently.
A study of the basic principles of traditional and contemporary techniques in stone and plate lithography. NOTE A/See §200.3

PRIN 230 Serigraphy I (6 credits)
Prerequisite: Drawing 200, previously or concurrently.
A study of the basic principles of screen printing, including direct techniques, photo-screen, and cut film. NOTE A/See §200.3

PRIN 240 Relief Processes (6 credits)
Prerequisite: Drawing 200, previously or concurrently.
A study of the basic principles of traditional and contemporary techniques in relief printing, such as woodcut, linocut and collograph.

PRIN 310 Intaglio II (6 credits)
Prerequisite: Printmaking 210.
Continuation of Printmaking 210. NOTE A/See §200.3

PRIN 320 Lithography II (6 credits)
Prerequisite: Printmaking 220.
Continuation of Printmaking 220. NOTE A/See §200.3
PRIN 330  Serigraphy II (6 credits)
Prerequisite: Printmaking 230.
Continuation of Printmaking 230. NOTE A/See §200.3

PRIN 410  Intaglio III (6 credits)
Prerequisite: Printmaking 310.
Advanced intaglio techniques.

PRIN 420  Lithography III (6 credits)
Prerequisite: Printmaking 320.
Advanced lithographic techniques.

PRIN 430  Serigraphy III (6 credits)
Prerequisite: Printmaking 330.
Advanced screen printing.

PRIN 450  The Print in Books, Portfolios and Other Containers (6 credits)
Prerequisite: Printmaking 310 or 320 or 330, previously or concurrently, and eighteen credits in studio arts.
The study and application of the print as used in books, portfolios, and other containers. Emphasis is placed on the print image (intaglio, relief, serigraphy and lithography) and its relationship to type layout and book and portfolio design.

PRIN 460  The Monoprint (6 credits)
Prerequisite: Third-year standing* and written permission of the Department.
A studio course for advanced students which provides an opportunity for further aesthetic investigation using the principles of printmaking.
*fewer than 33 credits remaining in degree programme.

PRIN 470  Independent Study in Printmaking (6 credits)
Prerequisite: Third-year standing* and written permission of the Department.
A course of independent study in which the advanced student explores a specific area of printmaking.
NOTE A/See §200.3
*fewer than 33 credits remaining in degree programme.

PRIN 498  Special Topics in Printmaking (3 credits)
Prerequisite: Third-year standing* and written permission of the Department.
A course for advanced students which provides the opportunity for the study of more specialized areas of printmaking.
NOTE C/See §200.3
*fewer than 33 credits remaining in degree programme.

PRIN 499  Special Topics in Printmaking (6 credits)
Prerequisite: Third-year standing* and written permission of the Department.
A course for advanced students which provides the opportunity for the study of more specialized areas of printmaking.
NOTE C/See §200.3
*fewer than 33 credits remaining in degree programme.

Photography

PHOT 200  Foundations in Photographic Vision: Theory and Practice I (6 credits)
Prerequisite: Enrolment in the Major or Minor in Photography or second-year standing* in a Specialization/Major in the Faculty of Fine Arts.**
An exploration of the aesthetics of photography through the rapid accumulation of images in the field and through the study of contact sheets and prints in the studio. Emphasis is placed upon developing an ability to see photographically. Technical procedures, including optical functions and the camera, photographic chemistry, film and paper processing are taught.
NOTE A/See §200.3
*fewer than 66 credits remaining in degree programme.
**Students enrolled in a Specialization/Major in Performing Arts or the Major in Inter-related Arts must obtain written permission of the Department.
NOTE: Students are required to bear the cost of film stock, processing and printing, and other materials.

PHOT 250  Development of Photographic Traditions (6 credits)
Prerequisite: Enrolment in the Major or Minor in Photography, or second-year standing* in specialization/major in the Faculty of Fine Arts or written permission of the Department.
A course tracing the development of photography from its earliest appearance to the present. Issues are dealt with historically and thematically and include ideas about photographs as documents, means of social criticism, forms of personal expression, and sequential imagery. Reference is made to the relationship between photographs and other forms of art and to the social or political contexts which influenced its development.
*fewer than 66 credits remaining in degree programme.

PHOT 300  Photographic Vision: Theory and Practice II (6 credits)
Prerequisite: Photography 200 and 250 and enrolment in the Major or Minor in Photography, or written permission of the Department.
A studio course directed towards refining darkroom techniques and extending the use of photography as a means of personal expression. Regularly scheduled seminars provide a historical context for contemporary issues. Consideration is given to advanced technical procedures.

NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

PHOT 310 Large Format Photography (6 credits)
Prerequisite: Second- or third-year standing* in the Major in Photography or written permission of the Department.
A studio course introducing large format photography, its technique and applications. The Zone System method of exposure control is presented as are various historical and contemporary approaches to view-camera work.
*fewer than 66 credits remaining in degree programme.
NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.

PHOT 320 Colour (6 credits)
Prerequisite: Photography 200 and 250 and enrolment in the Major or Minor in Photography, or written permission of the Department.
A studio course investigating colour photography, its history and its application by contemporary photographers. Students are introduced to the technical procedures for colour printing, to the theory of colour produced by light and the effects of colour balance.
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

PHOT 330 Slide Media (6 credits)
Prerequisite: Photography 200 and 250 and written permission of the Department.
An investigation of various methods of combining slides and sound to produce an extended visual statement. The basic techniques of slide and sound production are presented through individual and group projects: storyboards, light sources and filtration, multi-image editing, sound recording, dissolve units, etc. Seminars concerned with the theoretical aspects of these techniques and their uses in contemporary art complement the studio work. NOTE A/See §200.3
NOTE: Students are required to bear the cost of film stock, processing, printing and other materials.

PHOT 399 Special Topics in Photography (6 credits)
Prerequisite: Written permission of the Department.
An opportunity for the study of limited and more specialized aspects of photography. NOTE C/See §200.3

PHOT 400 Advanced Workshop in Photography (6 credits)
Prerequisite: Third-year standing* in the Major in Photography or written permission of the Department.
A studio course in which students pursue extended photographic projects in black and white and/or colour. Contemporary issues and advanced techniques are discussed. Ideas concerning conservation and presentation through exhibitions, portfolios, and books are considered.
NOTE: Students are required to bear the cost of film stock, processing, printing, and other materials.
*fewer than 33 credits remaining in degree programme.

PHOT 470 Professional Internship (6 credits)
Prerequisite: Second-year standing* in the Major in Photography and written permission of the Department.
A photography student who has been employed in photography for not less than 500 hours within the same calendar year; or similarly, a student employed for the same amount of time in photographic research, archival work, editing a photographic publication or writing photographic criticism, may apply for 6 credits on the understanding that the Department must be satisfied that the work was done under the joint supervision of a qualified professional and a full-time photography faculty member.
*fewer than 66 credits remaining in degree programme.

PHOT 481 Independent Study I (3 credits)
Prerequisite: Written permission of the Department.
A course of independent study in which the student explores a specific area of photography.

PHOT 482 Independent Study II (3 credits)
Prerequisite: Photography 481 and written permission of the Department.
A student repeating Photography 481 registers for credit under Photography 482.

PHOT 498 Special Topics in Photography (3 credits)
Prerequisite: Written permission of the Department.
A course for advanced students which provides an opportunity for the study of limited and more specialized aspects of photography.

PHOT 499 Special Topics in Photography (6 credits)
Prerequisite: Written permission of the Department.
A course for advanced students which provides an opportunity for the study of limited and more specialized aspects of photography.
Students are responsible for fulfilling their particular degree requirements; hence, the following sequences must be read in conjunction with §81.20.

The superscript indicates credit value.

### 60 BFA Major in Ceramics
- 30 Ceramics 230⁶, 330⁶, 430⁶; Sculpture 465⁶; Drawing 200⁶
- 6 Art History 264², 350²
- 6 Art History electives
- 6 Sculpture 200⁶; Fibres 240⁶, 260⁶, 470⁶
- 6 Elective from the Department of Sculpture, Ceramics and Fibres
- 6 Art 200 or, if exempt, studio arts elective

*With permission of the Department, students may substitute Art 261, 460, or Art History elective.

### 60 BFA Major in Fibres
- 18 Fibres 240⁶, 260⁶; Sculpture 465⁶
- 12 Fibres 340⁶ and 440⁶, or Fibres 360⁶ and 460⁶
- 6 Art History 266², 352²
- 6 Art History electives
- 6 Sculpture 200⁶; Drawing 200⁶; Ceramics 230⁶
- 6 Art 200 or, if exempt, elective from the Department of Sculpture, Ceramics and Fibres
- 6 Elective from the Department of Sculpture, Ceramics and Fibres

*With permission of the Department, students may substitute Art 261, 460, or Art History elective.

### 60 BFA Major in Sculpture
- 36 Sculpture 200⁶, 300⁶, 400⁶, 465⁶, 490⁶; Drawing 200⁶
- 12 Art History electives
- 6 Ceramics 230⁶; Fibres 240⁶, 260⁶, 470⁶

### 60 BFA Major in Studio Art
- 6 Art 200⁶ (or, if exempt, a studio arts elective)
- 6 Art 261⁶*, Art 460⁶, Sculpture 465⁶ or Art History electives
- 6 Drawing 200⁶
- 6 Art History electives
- 24 Studio arts electives* *

12 300 and 400 level in a single medium from one of the following departments: Painting and Drawing Printmaking and Photography Sculpture, Ceramics and Fibres

*Art 261 is normally in a triad with special sections of Painting 200 and Drawing 200. All students in the Major are encouraged to complete these courses in their first year, but part-time students unable to take the courses together, as well as students who have already passed or been exempted from Painting 200 and/or Drawing 200 must replace Art 261 with a (non-studio) course approved by the Department of Painting and Drawing.

** Studio arts courses offered by the Department of Design Art and the Department of Art Education and Art Therapy may be selected as studio arts electives, but these credits do not satisfy the 300- and 400-level sequence requirements.

### 60 BFA Major in Art History and Studio Art
See Department of Art History (81.60) or the Department of Painting and Drawing (81.110)
1. Portfolios should consist of a minimum of 20 and maximum of 30 of the applicant's own work.
2. Portfolios should consist of both two-dimensional and three-dimensional work in a variety of mediums.
3. Individual works must be labeled including applicant's name, date, size of work and medium(s) used.
4. Each portfolio must contain a list of contents including all the above information.
5. Works larger than 20 x 24 inches (50 x 60 centimeters) and three-dimensional works must be submitted in slide form.
6. Portfolios should be presented in a sturdy folder; works should be flat and unframed.
7. Out-of-town applicants may submit photographs and/or slides of their work. Return shipment of out-of-town portfolios is by prior arrangement only.

Applicants submit this portfolio to the Portfolio Committee, Visual Arts Building, Room 237, prior to the deadline of Thursday, March 15, 1990. For more detailed information regarding admission to the Major in Studio Art, applicants should contact one of the studio arts departments.

It is recommended that full-time students, who enter the Major in Studio Art and plan to apply for a transfer of major, register for 18 credits in courses in Ceramics, Fibres and Sculpture in their first 30 credits, these credits to be selected in consultation with an adviser from the Department of Sculpture, Ceramics and Fibres.

Upon completion of the first year, students apply for transfer through the Department of Sculpture, Ceramics and Fibres. Acceptance is based on accomplishment and potential in the area of concentration and the student's academic performance at Concordia.

For more detailed information regarding admission to these programmes, applicants are advised to contact the Department of Sculpture, Ceramics & Fibres.

81.130.2 ADMISSION TO PROGRAMMES IN CERAMICS, FIBRES, SCULPTURE

Applicants to Ceramics, Fibres or Sculpture may apply to enter directly into the Major in Ceramics, the Major in Fibres or the Major in Sculpture or enter the Major in Studio Art with the intention of transferring upon completion of the first year.

In addition to the normal admission procedure of Concordia University, there is a distinct admission procedure for applicants to Ceramics, Fibres and Sculpture.

All applicants must also submit a portfolio - please see 81.130.1 items 1-7 for portfolio requirements.

In addition, for the Major in Ceramics, Fibres or Sculpture:
8. Portfolios must consist of approximately 50% three-dimensional work and includes work in the area to which the student is applying.
9. Portfolios must be submitted to the Department Office before the deadline date of Thursday, March 15, 1990, 4:00 p.m.

Examples of three-dimensional work should include work in at least two mediums, and should demonstrate creative ability. The two-dimensional work should demonstrate an ability to draw, compose, and use colour imaginatively and creatively.

NOTE: Students are required to bear the cost of materials in studio arts courses.

Art:
For course descriptions, please see Department of Painting and Drawing, §81.110.

Ceramics:
CERA 230  Ceramics I  (6 credits)
Prerequisite: Art 200 or exemption; or Art 200 concurrently with enrolment in either the Major in Ceramics, Major in Fibres, Major in Sculpture or the Major in Studio Art and written permission of the Department of Sculpture, Ceramics and Fibres.
An introduction to clay as an art medium employing the various techniques of forming, shaping and decorating for firing and glazing. NOTE A/See §200.3

CERA 330  Ceramics II  (6 credits)
Prerequisite: Ceramics 230.
An advanced course in technical and historical research in various ceramic processes with an emphasis on glazes and the use of different clay bodies. NOTE A/See §200.3

CERA 398  Special Topics in Ceramics  (3 credits)
Prerequisite: Written permission of the Department of Sculpture, Ceramics and Fibres and third-year standing*. A workshop/seminar, providing an opportunity for the study of specialized aspects of Ceramics. NOTE C/See §200.3
*fewer than 33 credits remaining in the degree programme.

CERA 430  Ceramics III  (6 credits)
Prerequisite: Ceramics 330.
The development of a body of personal work and a refinement of specific problems in clay.
CERA 450  **Independent Study** (6 credits)
Prerequisite: Written permission of the Department and third-year standing*. This workshop provides the opportunity for a limited number of students to independently pursue advanced studies in ceramics. *fewer than 33 credits remaining in the degree programme.

**Fibres:**

FBRS 240  **Fibre Structures I** (6 credits)
Prerequisite: Art 200 or exemption; or Art 200 concurrently with enrolment in either the Major in Ceramics, Major in Fibres, Major in Sculpture or the Major in Studio Art and written permission of the Department of Sculpture, Ceramics and Fibres. The use of various processes of fibre construction as art: loom and non-loom weaving, basketry, spinning, dyeing, and primitive fibre techniques. Consideration is given to the history of the styles, materials, methods and techniques of textiles. *fewer than 33 credits remaining in the degree programme.

FBRS 260  **Printed and Dyed Textile Design I** (6 credits)
Prerequisite: Art 200 or exemption; or Art 200 concurrently with enrolment in either the Major in Ceramics, Major in Fibres, Major in Sculpture or the Major in Studio Art and written permission of the Department of Sculpture, Ceramics and Fibres. Silk screen printing, block printing, batik and resist dyeing as these apply to design for yardage, compositional hangings and soft sculpture. The emphasis is on drawing, two-dimensional design and creative exploration in mixed printing and dyeing media.

FBRS 340  **Fibre Structures II** (6 credits)
Prerequisite: Fibres 240. Structural processes in two-dimensional and three-dimensional form with equal emphasis on loom and off-loom techniques. Dyeing methods such as ikat, printing and painting on warps are included.

FBRS 360  **Printed and Dyed Textile Design II** (6 credits)
Prerequisite: Fibres 260. An advanced course in surface design with emphasis on xerox and photo processes as they relate to textiles. Special attention is given to problems such as weight and tension in relief, sculptural forms, and optical illusions. Traditional techniques such as quilting, piecing and trapunto are explored.

FBRS 398  **Special Topics in Fibres** (3 credits)
Prerequisite: Written permission of the Department. A workshop/seminar course providing an opportunity for study of specialized aspects of fibres. *fewer than 33 credits remaining in the degree programme.

FBRS 440  **Fibre Structures III** (6 credits)
Prerequisite: Fibres 340. The refinement of specific problems in fibre structures with an emphasis on the unique direction of each student’s work through both group and individually designed projects.

FBRS 450  **Independent Study** (6 credits)
Prerequisite: Written permission of the Department and third-year standing*. This workshop provides the opportunity for a limited number of students to independently pursue advanced studies in Fibres. *fewer than 33 credits remaining in the degree programme.

FBRS 460  **Printed and Dyed Textile Design III** (6 credits)
Prerequisite: Fibres 360. The recent developments in soft sculpture and three-dimensional use of fibres, including the use of synthetic materials such as latex and plastics, as well as natural fibre, cloth and paper. Conventional techniques such as armature building and mold making are included as they apply to extending the possibilities of form in soft materials.

FBRS 470  **Papermaking: Process and Assemblage** (6 credits)
Prerequisite: Twenty-four credits in studio arts. The making and use of paper as related to the visual arts. The course examines the physical and structural possibilities of paper, as well as impression, assemblage and surface use.

**Sculpture:**

SCUL 200  **Sculpture I** (6 credits)
Prerequisite: Art 200 or exemption; or Art 200 concurrently with enrolment in either the Major in Ceramics, Major in Fibres, Major in Sculpture or the Major in Studio Art and written permission of the Department of Sculpture, Ceramics and Fibres. An investigation into the modes of expression in sculpture through a variety of contemporary and traditional materials and methods including casting, modelling, construction and welding. *fewer than 33 credits remaining in the degree programme.*

Students are responsible for fulfilling their particular degree requirements; hence, the following sequence must be read in conjunction with §81.20.

The superscript indicates credit value.

72 BFA Specialization in Theatre Performance
12 Theatre 240, 303, 304
12 Production 311, 312, 411, 412
36 Theatre Performance 211, 212, 213, 215, 216, 311, 312, 315, 316, 323, 411, 412
6 Department of Theatre electives
6 Faculty of Fine Arts electives from any area of the Faculty to be selected in consultation with an adviser

66 BFA Specialization in Design for the Theatre: Conception & Realization
12 Theatre 240, 303, 304
12* Production 311, 312, 411, 412
12 Design for the Theatre 250, 451, 452
6 Design for the Theatre 311, 321, 331, 498
6 Theatre Design 315, 325, 326, 335, 336, 337, 398
6*** Design for the Theatre electives
6 Art 200 or, if exempt, electives from the Faculty of Fine Arts excluding Design for the Theatre offerings, selected in consultation with an adviser
6 Theatre 411 and Department of Theatre elective or electives

*With written permission students may substitute Production 408 and/or Production 409 for up to 6 production credits.
**Students may apply no more than 12 credits from this list of courses to the Specialization in Design for the Theatre.
***Students who plan to apply for permission to elect Design for the Theatre 414 in their third year should select Theatre 411 in their second year.

60 Joint Specialization in Playwriting (English and Theatre)*
12 Theatre 240, 420
3 Theatre Performance 201, 211
3 Production 311
12 Department of Theatre electives
12 ENGL 227, 427
12 Electives in drama, chosen from ENGL 235, 236, 267, 277, 318, 320, 335, 369, 379, 392. At least 3 credits must be in twentieth-century drama
6 Electives in English Literature or Creative Writing

*This programme is intended for a very few exceptionally talented students each year. Students wishing to enrol in this programme should make an application to either the Major in Theatre (Bachelor of Fine Arts) or the Major in Creative Writing (Department of English, Bachelor of Arts). In either case, in consultation with their advisers, they should select courses which satisfy the requirements for both the Departmental Major and the Joint Specialization. Permission to transfer to the Joint Specialization and to enrol as student playwrights in Theatre 420 (Playwriting Workshop) is normal
ly granted when students enter their final 30 credits and is based upon successful completion of ENGL 227 (Creative Writing: Drama) and ENGL 427 (Advanced Creative Writing: Drama), review of the student's writing to date, and an interview. Students who are refused permission to transfer to the Joint Specialization should expect to complete the requirements for the Departmental Major in which they originally enrolled.

**Students in Playwrighting are given an assignment of an appropriate dimension.**

54 BFA Major in Theatre
21 Theatre 240, 301, 303, 304, 403, 411, 412
6 Design for the Theatre 250
6 Theatre Performance 201 and 202 or 211 and 212

81.140.1 ADMISSION TO PROGRAMMES IN THEATRE

The Department of Theatre has a distinct admission procedure in addition to the normal admission process of Concordia University. All applicants to Theatre are required to attend an interview as part of the admission process.

Applicants who indicate an interest in Theatre Performance and in Drama in Education are required to audition.

Applicants to the Major in Theatre must submit a letter of intent (approximately 500 words) expressing their goals and interests in the theatre and in the programme. This letter of intent must be received in the Department of Theatre office at least one week prior to the applicant's scheduled interview.

Applicants who indicate an interest in Design for the Theatre must bring to the interview a portfolio of material which demonstrates their creative abilities and interests.

Applicants planning to apply for transfer into the Joint Specialization in Playwrighting must, prior to the interview, submit a portfolio of written material which demonstrates their creative potential.

Applicants are required to contact the Department of Theatre before Thursday, March 15, 1990 to arrange their appointments and to obtain detailed information regarding interviews, auditions, portfolios and letters of intent.

Theatre:

THEA 240 The Theatre Event (6 credits)
The theatre as a cooperative discipline balancing artistic and organizational concerns and requiring analytical and communication skills. Topics of study include play analysis, theatre organization, production planning, stage management and theatre administration. Students work in small groups to create short theatre pieces. One-third of the course is devoted to work in production assignments related to this course. NOTE A/See §200.3

THEA 301 Canadian Theatre (3 credits)
The development of theatre in Canada and the study of selected Canadian plays in text and performance. Topics include amateur and professional theatre, the emergence of theatre programmes in schools and universities, regionalism, the cultural boom of the Sixties and the development of such institutions as festivals, arts councils, and national and local theatre organizations. NOTE A/See §200.3

THEA 303 Theatre History I (3 credits)
A study of the development of the physical stage and representative theoretical and dramatic works within their social context from pre-history to the eighteenth century in Europe. Where appropriate, screenings of plays representing the periods under study are shown. NOTE A/See §200.3

THEA 304 Theatre History II (3 credits)
Prerequisite: THEA 303 or written permission of the Department of Theatre.
A study of the development of the physical stage and representative theoretical and dramatic works within their social context in Europe and North America from the nineteenth century to the present. Where appropriate, screenings of plays representing the periods under study are shown. NOTE A/See §200.3

THEA 317 Stage Management (3 credits)
Prerequisite: Second-year standing* or written permission of the Department of Theatre.
The key role of a stage manager in theatrical production from audition through closing. Topics for consideration include organizational techniques, prompt-book construction and use, scheduling, personnel supervision and the "running" of a show.

*fewer than 66 credits remaining in degree programme.
THEA 321  **Theatre Administration I**  (3 credits)
An introduction to theatre administration including theatre organization and management, budgeting, box office operation, publicity and public relations. **NOTE A/See §200.3**

THEA 322  **Theatre Administration II**  (3 credits)
Prerequisite: Theatre 321 or permission of the Department of Theatre.
A continuation of Theatre 321 with additional topics introduced such as financing, contracting, taxation and touring. **NOTE A/See §200.3**

THEA 401  **Quebec Théatre**  (3 credits)
A study of selected plays of Quebec writers within their cultural milieu. Attendance at both French and English language performances is required. Guest speakers involved in Quebec theatre are invited to supplement lectures. **NOTE A/See §200.3**
NOTE: Students should have a working knowledge of French.

THEA 402  **Seminar in Theatre Theory and Criticism**  (3 credits)
Prerequisite: Second-year standing* and written permission of the Department of Theatre.
The examination of theatre theory and concepts of criticism.
*fewer than 66 credits remaining in degree programme.

THEA 403  **The Theatre in Context**  (3 credits)
Prerequisite: Third-year standing* in a programme in the Department of Theatre and written permission of the Department of Theatre.
An examination of the role of individual artists in shaping the theatre in contemporary society. The functions and characteristics of the Theatre, in a variety of cultural contexts, are examined in discussions and readings. Emphasis is placed on the Canadian theatre and its potential.
*fewer than 66 credits remaining in degree programme.

THEA 405  **Independent Study I**  (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Credit granted for independent projects supervised by a Faculty member. Students are required to submit a paper based on their investigation. **NOTE C/See §200.3**

THEA 411  **Directing**  (3 credits)
Prerequisite: Enrolment in the Major in Theatre or the Specialization in Drama in Education or written permission of the Department of Theatre.
Examination of and experimentation in staging and production organization. Exercises in visual, structural and conceptual analysis. **NOTE A/See §200.3**

THEA 415  **Independent Study II**  (3 credits)
Prerequisite: Theatre 405 and written permission of the Department of Theatre.
Continuation of Theatre 405. Students who have taken Theatre 405 register for Theatre 415 for additional credits.

THEA 420  **Playwrighting Workshop**  (6 credits)
Prerequisite: Written permission of the Coordinator of the Joint Specialization in Playwrighting and either 12 credits in Theatre Performance or Design for the Theatre or Theatre 411 and Production 311, previously or concurrently; or enrolment in the Joint Specialization in Playwrighting (English and Theatre) and ENGL 427.
A workshop for playwrights, actors, directors and scenographers in which original scripts are developed for possible studio production. **NOTE A/See §200.3**

THEA 498  **Topics in Theatre Studies**  (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Topics in theatre which may include genres, periods, individual playwrights and national theatres. **NOTE C/See §200.3**

Design for the Theatre:

DFTT 250  **Introduction to Design for the Theatre**  (6 credits)
An examination of the theatrical design process. Students attend lectures describing the role of designers in the theatre. They also participate in studies in conception, communication and realization of design ideas. One-third of the course is devoted to work in production assignments related to this course.

DFTT 305  **Independent Study**  (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Credit granted for independent projects in Design for the Theatre supervised by a faculty member.

DFTT 311  **Lighting Design**  (3 credits)
Prerequisite: Art 200 or exemption and Design for the Theatre 250 or written permission of the Department of Theatre.
Lighting design for the theatre with emphasis on conception, development and communication of lighting design ideas. Students participating in lectures and studios examine theories, aesthetics and conventions of stage lighting design. They also carry out projects in lighting design conception.

**DFTT 315 Lighting Design Realization** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Lighting for the stage with emphasis on analysis, development and execution of lighting design ideas. Students participating in lectures and studios examine lighting as a practical expressive and interpretative media. They carry out projects using stage lighting equipment in an actual theatre space. *NOTE A/See §200.3*

**DFTT 321 Costume Design** (3 credits)
Prerequisite: Art 200 or exemption and Design for the Theatre 250 or written permission of the Department of Theatre.
Costume design for the theatre with emphasis on imaginative and analytical processes of developing and communicating costuming design ideas. Students, participating in lectures, studios and projects, examine theories, aesthetics and conventions of stage costume design.

**DFTT 325 Costume Design Realization** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Materials, equipment, techniques and procedures utilized in the construction of theatre costumes. Emphasis is on patterning, draping and basic construction methods.

**DFTT 326 Costume Accessories Realization** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Costuming for the stage with emphasis on analysis, development and execution of costume design ideas. Students, participating in lectures and studios, examine theories, aesthetics and conventions of stage costume design.

**DFTT 331 Set Design** (3 credits)
Prerequisite: Art 200 or exemption and Design for the Theatre 250 or written permission of the Department of Theatre.
Set design for the theatre with emphasis on conception, development and communication of scenic design ideas. Students, participating in lectures and studios, examine theories, aesthetics and conventions of set design. They also carry out projects in set conception.

**DFTT 335 Set Design Realization** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Stage scenery with emphasis on analysis, development and execution of scenic design ideas. Students, participating in lectures and studios, examine the process of translating scenic designs into actual stage systems. They carry out projects using the equipment and material commonly used in set construction.

**DFTT 336 Stage Properties** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Studio work in the design and construction of properties and accessories for theatre production.

**DFTT 337 Scene Painting** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Studio work in the materials and technology of painting for the theatre. *NOTE A/See §200.3*

**DFTT 398 Special Topics in Design for the Theatre** (3 credits)
Prerequisite: Design for the Theatre 250 or written permission of the Department of Theatre.
Selected topics in design realization. *NOTE C/See §200.3*

**DFTT 414 Advanced Projects in Design for the Theatre** (3 credits)
Prerequisite: Third-year standing* in the Specialization in Design for the Theatre and written permission of the Theatre.
Students complete major assignments in design or realization for Department of Theatre productions. *NOTE A/See §200.3*

*fewer than 33 credits remaining in degree programme.*

**DFTT 451 Designers in the Theatre I** (3 credits)
Prerequisite: Third-year standing* in the Specialization in Design for the Theatre or written permission of the Department of Theatre.
An advanced study of the role of designers in the contemporary theatre. Students participate in discussions concerning the theories, aesthetics, conventions, and standards of the Canadian theatrical design community. Research is carried out with and about important figures in the Canadian theatre. Students also assemble a body of their design work indicative of their imagination, experiences and understandings of the theatre. *NOTE A/See §200.3*

*fewer than 33 credits remaining in degree programme.*
DFTT 452 Designers in the Theatre II (3 credits)
Prerequisite: Design for the Theatre 451.
A continuation for Design for the Theatre 451. NOTE A/See §200.3

DFTT 498 Special Topics in Design for the Theatre (3 credits)
Prerequisite: Design for the Theatre 250, Art 200 or written permission of the Department of Theatre.
Selected topics in theatre design. NOTE C/See §200.3

Drama in Education:

DINE 200 Developmental Drama (6 credits)
Prerequisite: Enrolment in the Specialization in Drama in Education or the Specialization in Art Education, or written permission of the Department of Theatre.
Theory and practice of developmental drama. Opportunities are provided for practical work in the creation of original stories and improvised role plays. Discussion of the dynamics, creative processes and teaching methods in primary and secondary school is included. NOTE A/See §200.3

DINE 201 Drama in Early Childhood Education (3 credits)
Prerequisite: Enrolment in the Specialization in Early Childhood Education, or the Major in Child Studies, or written permission of the Department of Theatre.
Focuses on the development of the participants' fluency and flexibility in imaginative expression, on theories about the nature and value of dramatic play, on the implementation of drama curricula for young children. Included are sensory stimulation, imitative role play, make-believe with objects and actions, spontaneous improvisation.

DINE 202 Stories for Children (3 credits)
Prerequisite: Drama in Education 200, or 201, or 6 credits in Theatre Performance, or written permission of the Department of Theatre.
Focuses on the development of the participants' skills in reading and telling stories, on the creation and evaluation of new stories, on methods of using children's literature as a basis for dramatic play.

DINE 301 Drama Experiences for Children (3 credits)
Prerequisite: Drama in Education 200 or written permission of the Department of Theatre.
Design and preparation of classroom work in drama for children. Topics may include the creation of environments for story-telling and role playing, and the use of drama to teach other subjects.

DINE 302 Drama in Experiences for Special Populations (3 credits)
Prerequisite: Drama in Education 301 or written permission of the Department of Theatre.
Design and preparation of appropriate drama or theatre activities for individuals requiring some form of institutionalized care, such as the hospitalized, the handicapped or adolescents in group homes.

DINE 401 Supervised Internship—Elementary Level (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Students teach a curriculum unit which uses drama methods in an elementary setting. The students are supervised and their teaching performance is evaluated on selected criteria related to teaching competence and professional behaviour.

DINE 402 Supervised Internship—Secondary Level (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Students teach a curriculum unit in creative drama or theatre arts at the secondary level. The students are supervised and their teaching performance is evaluated on selected criteria related to teaching competence and professional behaviour.

DINE 405 Independent Study (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Credit granted for independent projects in Drama in Education supervised by a faculty member.

DINE 412 Introduction to Theatre for Children (3 credits)
Prerequisite: Drama in Education 200 or written permission of the Department of Theatre.
The history of theatre for children in the twentieth century, including readings of representative scripts, a study of various performance styles, and an examination of the relationship of style and content to changing cultural views of children. NOTE A/See §200.3

DINE 413 Children's Theatre Production (3 credits)
Prerequisite: Drama in Education 412 or written permission of the Department of Theatre.
Research and practical work in the collaborative process of developing a piece of children's theatre. NOTE A/See §200.3

DINE 420 An Introduction to Drama Therapy (6 credits)
Prerequisite: Drama in Education 302 or permission of the Department of Theatre.
Lectures and workshops in which students examine the philosophical and historical foundations of drama and theatre in therapy.
DINE 498 Special Topics in Drama in Education (3 credits)
Prerequisite: Written permission of the Department of Theatre.
The study of specialized aspects of Drama in Education. NOTE A/C/See §200.3

Production:

NOTE: Conditions of access to courses and scheduling:
1. All assignments or roles are given after interview or audition.
2. No student may register for more than 6 credits in production courses in any one academic year.
3. Before registering for Production courses, students must make sure they are free to attend all rehearsals or crew calls according to the schedules published each session by the Department of Theatre.

PROD 311 Theatre Production I (3 credits)
Prerequisite: Second-year standing* in a programme of the Department of Theatre.
Students are assigned responsibilities as members of a team that produces a work of theatre. The types of assignments depend on the students’ programmes, their knowledge and skills and the collective needs of the team.
Each project requires the study of the script and collateral reading and discussions. Research methods are introduced in relation to the assignments. Students are also required to study all scripts in production within the Department and to attend colloquia during which advanced students explain their approaches and demonstrate their projects. NOTE A/See §200.3
*fewer than 66 credits remaining in degree programme.

PROD 312 Theatre Production II (3 credits)
Prerequisite: Production 311 or written permission of the Department of Theatre.
A continuation of Production 311 with assignments of a different type or level of complexity, or demanding a higher degree of proficiency.

PROD 408 Supervised Internship I (3 credits)
Prerequisite: Second-year standing* in a programme of the Department of Theatre and written permission of the Department of Theatre.
An opportunity for students to obtain credit for work completed for a recognized theatre under the joint supervision of a qualified professional and a full-time Theatre faculty member. NOTE C/See §200.3
*fewer than 66 credits remaining in degree programme.

PROD 409 Supervised Internship II (3 credits)
Prerequisite: Production 408 and written permission of the Department of Theatre.
A continuation of Production 408. A student repeating Production 408 register for Production 409 for credit.

PROD 411 Theatre Production III (3 credits)
Prerequisite: Production 312 or written permission of the Department of Theatre.
A continuation of Production 312. Advanced assignments in the various areas of theatre work. Students are expected to report on the results of their work in forms appropriate to their assignments.

PROD 412 Theatre Production IV (3 credits)
Prerequisite: Production 411 or written permission of the Department of Theatre.
A continuation of Production 411 with assignments of a different type or level of complexity, or demanding a higher degree of proficiency.

Theatre Performance:

TPER 201 Acting I (3 credits)
Emphasis on developing imagination and physical expression, including basics of improvisation, the playing of intention, and the group ensemble experience working toward presentation. NOTE A/See §200.3

TPER 202 Acting II (3 credits)
Prerequisite: Theatre Performance 201 or written permission of the Department of Theatre.
Preparation for the role, including script and character analysis, and the continued development of imagination and expression. The group analyzes and rehearses scripts for presentation. NOTE A/See §200.3

TPER 211 Ensemble I (3 credits)
Prerequisite: Enrolment in the Specialization in Theatre Performance or written permission of the Department of Theatre.
The elements of preparation for theatrical presentation with emphasis on the cooperative nature of theatre. Studio work includes instruction in sensory awareness, performer-audience relationships, spatial relationships and improvisational techniques. The laboratory component consists of preparation of material studied during the studio sessions.

TPER 212 Ensemble II (3 credits)
Prerequisite: Theatre Performance 211 and enrolment in a programme in the Department of Theatre.
A continuation of Theatre Performance 211 with increased emphasis on language and text.
TPER 213  Theatre Movement I  (3 credits)
Prerequisite: Theatre Performance 211 concurrently.
Movement for the stage includes such areas of study as centering, relaxation, mime, neutral mask, and studies in rhythm and timing.

TPER 215  Voice Studio I  (3 credits)
Prerequisite: Theatre Performance 211 concurrently and written permission of the Department of Theatre.
An introduction to voice, speech and singing skills. Vocal production, articulation, phrasing, and language analysis are taught in studio and laboratory sessions. Private tutorials dealing with selected skills in voice and speech for the performer are included. NOTE: Students are expected to bear certain costs in relation to this course.

TPER 216  Voice Studio II  (3 credits)
Prerequisite: Theatre Performance 215, and Theatre Performance 212 concurrently.
A continuation of Theatre Performance 215. NOTE: Students are expected to bear certain costs in relation to this course.

TPER 223  Fundamentals of Voice, Speech and Movement I  (3 credits)
Prerequisite: Enrolment in the Major or Minor in Theatre, the Specialization in Drama in Education, or written permission of the Department of Theatre.
Development of the actor’s instrument through the integration of body movement and voice. Emphasis is on movement, comprising exercises for vocal and physical flexibility, relief from tension, the expressive use of gesture and body composition, vocal support and speech mechanics.

TPER 224  Fundamentals of Voice, Speech and Movement II  (3 credits)
Prerequisite: Theatre Performance 223.
A continuation of Theatre Performance 223, with increased emphasis on speech processes.

TPER 306  Acting III  (3 credits)
Prerequisite: Theatre Performance 202, 212 or 223.
An in-depth study of the development of character within the context of the play. Script analysis, interpretation, and physical/vocal characterization are included. Students are required to present scenes from selected plays.

TPER 307  Acting IV  (3 credits)
Prerequisite: Theatre Performance 306.
Continuation of character study, moving towards the examination of non-realistic performance styles. The presentation of scenes from selected plays is required.

TPER 311  Ensemble III  (3 credits)
Prerequisite: Theatre Performance 212 and written permission of the Department of Theatre.
A continuation of Theatre Performance 212 with emphasis on principles of characterization in various dramatic genre: elements of rhythm, physical and vocal attitude, language, related improvisation techniques.

TPER 312  Ensemble IV  (3 credits)
Prerequisite: Theatre Performance 311 and written permission of the Department of Theatre.
A continuation of Theatre Performance 311.

TPER 315  Voice Studio III  (3 credits)
Prerequisite: Theatre Performance 216, concurrent enrolment in Theatre Performance 311 and written permission of the Department of Theatre.
A continuation of Theatre Performance 216 with greater emphasis on shaping patterns of speech, use of language for character development and an introduction of dialects and accents. Private tutorial dealing with specific elements of speech and voice for the performer is included. NOTE: Students are expected to bear certain costs for this course.

TPER 316  Voice Studio IV  (3 credits)
Prerequisite: Theatre Performance 315 and concurrent enrolment in Theatre Performance 312.
A continuation of Theatre Performance 315. NOTE: Students are expected to bear certain costs for this course.

TPER 323  Theatre Movement II  (3 credits)
Prerequisite: Theatre Performance 213 or written permission of the Department of Theatre.
A continuation of Theatre Performance 213, with special emphasis upon mime techniques.

TPER 411  Ensemble V  (3 credits)
Prerequisite: Theatre Performance 312, 324 or written permission of the Department of Theatre.
A continuation of Theatre Performance 312. Focuses on acting styles as they relate to audience-performer relationships in dramatic genre and periods.
TPER 412  *Ensemble VI* (3 credits)
Prerequisite: Theatre Performance 411 or written permission of the Department of Theatre.
A continuation of Theatre Performance 411.

TPER 413  *Advanced Performance Studies I* (3 credits)
Prerequisite: Theatre Performance 324 or written permission of the Department of Theatre.
The study of special performance techniques such as: musical theatre, clown, *Commedia dell'Arte*,
and mime. *NOTE A/See §200.3*
*NOTE: Students are expected to bear certain costs in relation to this course.*

TPER 414  *Advanced Performance Studies II* (3 credits)
Prerequisite: Theatre Performance 316 or written permission of the Department of Theatre.
The study of advanced voice and speech techniques.
*NOTE: Students are expected to bear certain costs in relation to this course.*

TPER 417  *Audition and Resumé Preparation* (3 credits)
Prerequisite: Third-year standing* in the Specialization in Theatre Performance or written permission
of the Department of Theatre.
Techniques for auditioning, preparation of resumé and the business aspects of the performer's work
in the professional theatre.
*fewer than 33 credits remaining in degree programme.*

TPER 498  *Special Topics in Theatre Performance* (3 credits)
Prerequisite: Written permission of the Department of Theatre.
Provides opportunities for studies in selected styles or modes of theatre performance. *NOTE C/See §200.3*

EDDY, N.W., BA McM., MSc Mass., PhD Arizona, Associate Professor of Physics
EGAN, E., BA Manhattan, MA PhD Fordham, Associate Professor of Philosophy
EL-DIASY, R., BSc Alexandria, March McG., PhD C’dia., Associate Professor, Centre for Building Studies
ELHAKEEM, A.K., BSc MSc Alexandria, PhD S.M.U., Dallas, Associate Professor of Electrical and Computer Engineering
ELLIOIT, D., BFA Qu., MFA C’dia., Assistant Professor of Painting and Drawing
ELLISON, P., BA York, MA C’dia., Sessional Lecturer in Finance
ELLISON, W.C., BA MA Indiana, Associate Professor of Music
ENESCO, H.E., BA Reed, MA PhD Col., Professor of Biology
ENGLISH, A.M., BSc U. Coll., Dub., PhD McG., Associate Professor of Chemistry and Biochemistry
ENGLISH, G.B., BA Montr., BCL McG., MComm Tor., Associate Professor of Finance
ENOS, E.F., BSc Conn., MEd EdD Boston, Associate Professor of Exercise Science
ENTWISTLE, H., BS(Edc) Lond., MEd Manc., PhD Lond., Professor of Education
ERLWANGER, S.H., BSc Cape T., MA Eastern Mich., PhD Ill., Associate Professor of Mathematics and Statistics
ETEZADI-AMOLI, J., BEng Arya-Mehr U. of Tech., MA PhD Tor., Assistant Professor of Decision Sciences and Management Information Systems
FAIRBAIRN, D., BSc Car., PhD Br. Col., Associate Professor of Biology
FAIRCHILD, A., BA Sir G. Wms., BEd St. Jos., BA MA C’dia., Lecturer in Art Education and Art Therapy
FALSETTO, M., BA Car., MA N.Y.U., Associate Professor of Cinema
FAMIRA, H., Staatsexamen German Phil, Staatsexamen Phys Ed Innsbruck, PhD McG., Associate Professor of Modern Languages (German)
FAN, N.J., Sessional Lecturer in Accountancy
FANCOTT, T., BEng McG., MSc Ecole Nat’l Sup de l’Aéronautique, DSc Paris, Associate Professor of Computer Science
FARHANG, M., BSc MSc Ore., Assistant Professor of Accountancy
FARHOOMAND, F., BEng MBA C'dia., Assistant Professor of Decision Sciences and Management Information Systems
FARNSWORTH, J., BA Huron Coll., MA PhD Qu., Assistant Professor of English
FARRELL, M., BA Bed Montr., MA PhD McG., Associate Professor of Education
FAYE RMAN, G., BComm MCG., CA, Lecturer in Accountancy
FAZIO, P., BASc Assum., MASC PhD Windsor, Ing., Professor, Centre for Building Studies
FELDMAN, D., PhD Yasi, Professor, Centre for Building Studies
FIDLER, G.C., BA Wales, MA Lond., PhD McG., Associate Professor of Education
FINK, H.R., MA McG., PhD Lond., Professor of English
FISHER, G., PhD S'ton., Visiting Professor of Economics
FLOOD, P., BFA Alta., Assistant Professor of Theatre
FONGA, C., PhD Paris, PhD Venice, PhD McG., Professor of Linguistics
FORD, D., BSc M.I.T., MSc PhD Ohio State, Assistant Professor of Computer Science
FOSS, B., BA Winn., MA C'dia., Assistant Professor of Art History
FOSTER, M.B., BA Syr., MA Minn., Professor of English
FOX, J., Dip Art & Des Art Assoc. of Montr., Dip Slade Sch. of Fine Art, Lond., Associate Professor of Painting and Drawing
FRANCIS, W., BA Sir G. Wms., MA McG., Professor of English
FRANK, B., BSc MSc McG., PhD Br. Col., Professor of Physics
FRANKLIN, D., BA BCL McG., Sessional Lecturer in Management
FRANKLIN, M.H., BA BCL McG., Associate Professor of Management
FRENCH, S.G., BA Car., MA Roch., PhD Virginia, Professor of Philosophy
FRIENDLAND, S., BM N.E. Conserv. of Music, MM Mass., Associate Professor of Music
FROST, D.B., BA MSc McG., PhD Birm., Associate Professor of Geography
GABRIEL-LACKI, C., BA Coll. Militaire, Courtine, Associate Professor of Design Art
GALLER, A.M., BA Sir G. Wms., MS Simmons Coll., Associate Professor of Library Studies
GARDINER, W.L., BA C'dia., PhD Cornell, Associate Professor of Communication Studies
GARFIN, J., BA Br. Col., MFA Hoffenberger Sch., Baltimore, Assistant Professor of Printing and Photography
GARNET, P., BA MA Sheff., PhD McG., Associate Professor of Theological Studies
GARRIDO, J., BSc Montr., MSc Louvain, PhD Wat., Assistant Professor of Mathematics and Statistics
GAUCHER, Y., RCA, Professor of Painting and Drawing
GAVIN, L., BSc MSc PhD Montr., Assistant Professor of Exercise Science
GAYAKI, E., BA MBA Alabama, MA PhD Indiana, Associate Professor of Sociology
GAVIN, J.F., BA Fordham, MA Syr., PhD Cola., Professor of Applied Social Science
GEDDES, G., BA Br. Col., MA PhD Tor., Professor of English
GEFFIN, L., BA Loy. (Montr.), MA PhD McG., Assistant Professor of English
GEORGE, H., BA Texas Christian, MA Calif., PhD Lond., Associate Professor of Art History
GERVAIS, Rev. M., s.j., BA Loy. (Montr.), LPH Imm. Conception, MFA C.U.A., STL Regis, MA St. M., D'dU Paris I, Professor of Communication Studies
GHALBOUNI, J., BEng MEng MBA McG., Assistant Professor of Finance
GHEYARA, K., BComm Bsc, PhD Okla., CPA, Associate Professor of Accountancy
GIBBONS, E., BFA Ohio, MA W. Virginia, Associate Professor of Theatre
GIBBON, C., BA Sir G. Wms., MEd McG., Lecturer in Education
GIBSON, T., Associate Professor of Printmaking and Photography
GIDENGIL, B.Z., BA Istanbul, MBA N.Y., PhD Brad., Associate Professor of Marketing
GIGUERE, M., BA McG., MLSc Montr., Assistant Professor of Library Studies
GILDSORF, W., BA Baldwin-Wallace, MA Bowling Green, PhD Mich., Associate Professor of Communication Studies
GINTER, D., BA MA Stan., PhD Calif., Professor of History
GOLD, D.J., BA MA Manii., PhD Sask., Professor of Psychology
GOLDMAN, C., BEng MEng McG., Ing., Associate Professor of Civil Engineering
GOLLNER, A.B., BA Loy. (Montr.), MA Car., PhD Lond. Sch. of Econ., Associate Professor of Political Science
GORDON, R., BFA Temple, MSA MFA Wis., Associate Professor of Painting and Drawing
GOQUINVIC, J.-M., L'esl Sorbonne et U. de Bretagne Occidentale, MA PhD McG., Associate Professor of Etudes francaises
GOULD, T., BA S.A., MA Car., Assistant Professor of Sculpture, Ceramics and Fibre
GOUW, G.J., BEng Twente, MSc PhD Qu., Assistant Professor of Mechanical Engineering
GOYAL, P., BSc Manc., MSc PhD Brad., Associate Professor of Computer Science
GOYAL, S.K., BSc Agra, BScEng(Mech) Ranchi, MSc Strath., Professor of Decision Sciences and Management Information Systems
GRACOVETSKY, S.A., Eng(Physics) Lausanne, PhD Br. Col., Associate Professor of Electrical and Computer Engineering
GRAM, H.A., BA Wat., AM Harv., BD Luther., PhD Syr., Associate Professor of Management
GRAY, C.B., BCL LLB McG., BA St. Bonaventure, MA PhD C.U.A., Associate Professor of Philosophy
GRAY, T., BA MA Mcm., PhD S. Fraser, Associate Professor of Psychology
GRAYSON, J., BEng Twente, MSc PhD Qu., Assistant Professor of Modern Languages (Spanish and Linguistics)
GREENBERG, R., BA McG., MA Tor., Associate Professor of Art History
FULL TIME
LITNER, B., BA McG., MA Sorbonne/Middlebury Coll., VT., Assistant Professor of Education
LIU, Z.R., BA Soochow Taipeh, Taiwan, MA Vanderbilt, PhD Colo. State, Associate Professor of Economics
LOCKE, J.W., BA Loy. (Montr.), MLS McG., Assistant Professor of Library Studies
LOCKE, J.W., BA Emory, MA N.Y.U., Associate Professor of Cinema
LOMBOS, B.A., DipPhysChem Szeged, PhD Montr., Professor of Electrical and Computer Engineering
LONG, R.A., BComm Br. Col., MBA Wash., PhD Mich., CA, Professor of Accountancy
LOSIOUE, S., Lesl DES DU Paris, Professor of Etudes francaises
LOWENFELD, G., BSc Sir G. Wms., MSc McG., CA, Assistant Professor of Accountancy
LOWThER, R.L., MSc McG., PhD Tor., Associate Professor of Biology
LU, Y.-J., BS Feng-Chia U., MS Nat’l. Taiwan U., PhD Flor., Assistant Professor of Civil Engineering
LYPNY, G., BA Tor., MBA York (Can.), Assistant Professor of Finance

MACALUSO, J.A., MA N.Y., Associate Professor of Modern Languages (Spanish and Italian)
MCDONALD, D., BComm Sir G. Wms., CA, Associate Professor of Accountancy

MILLER, J., BA Tor., MA PhD Mcm., Sessional Lecturer in English
MILLER, S.B., BSc PhD McG., Lecturer in Psychology
MISRRA, S.K., BSc Agra, MSc Gorak., PhD St. Louis, Professor of Physics
PRICE, E.M., BA Sir G. Wms., Cert d'Etat Grenoble, Associate Professor of Political Science
PRINCE, J.B., BS Utah State, MA Brigham Young U., PhD S. Calif., Associate Professor of Management
PROBST, D., DSc Bruxelles, Associate Professor of Computer Science
ROPPE, H.W., BSc Bruxelles, Associate Professor of Mathematics and Statistics
RADHAKRISHNAN, T., BE Madr., MTech PhD
RAFIQUZZAMAN, M., BSc MSc Dhaka, MA W. Ont., PhD Car., Associate Professor of Economics
RAHMAN, A., BSc MSc McG., MA PhD C'dia., Associate Professor of Finance
RAJAN, G.S., BA MA Annam., MS PhD Wis., Associate Professor of Management
RAMACHANDRAN, V., BSc DIlSc(ECE) DIlSc(Electronics) PhD I.I.Sc., Professor of Electrical and Computer Engineering
RAMAMURTHY, A.S., BSc St. Philomena’s Mys., BEng Nat. Inst. of Eng., Mys., MSc I.I.S.C., PhD Purdue, Professor of Civil Engineering
RAPHAEI, R., BSc MA Wat, PhD McG., Professor of Mathematics and Statistics
RASHKOVAN, F., BA MA C’dia., MSc C.A.U., Sessional Lecturer in Management
RAUDSEPP, E., BA McG., MS Col., PhD McG., Associate Professor of Journalism
RAZACK, S., BA Br. Col., MA Ott., PhD Tor., Assistant Professor of Simone de Beauvoir Institute
REGLER, E., Staatl. Geprüfter Keramikschüler und Formenwerfer Staatl. Fachschule für Porzellan, Selb (West Germany), Meisterschüler Hochschule der Künste, Berlin, MFA SUNY (Stony Brook), Assistant Professor of Design Art
REIDY, M., BA Boston Coll., MA PhD Tor., Associate Professor of Philosophy
REIMER, W.C., BA MA PhD Br. Col., Associate Professor of Sociology
REZNICEK, W., BA Allegheny Coll., MA Cornell, Associate Professor of Theatre
RIGAULT, D., BA Rennes, MA McG., Associate Professor of Études françaises
RIPSTEIN, H.B., MBA Qu., CA, Associate Professor of Accountancy
RIST, P., HNC S.E. Essex Tech. Coll., MA PhD N.Y., Assistant Professor of Cinema
RITTER, D., BA Wat., MSc M.T.I., Assistant Professor of Design Art
ROBINSON, I., BA Johns H., MA Col., PhD Harv., Associate Professor of Religion
ROBINSON, J., BA Brock, MA PhD Wat., Assistant Professor of Philosophy
ROBINSON, S., BA Col., MBA N.Y., Lecturer in Accountancy
ROCHFORD, J., BA McG., MA Qu., PhD C’dia., Assistant Professor of Psychology
RONQUIST, E.C., BA St John's Maryland, MA PhD Chic., Associate Professor of English
ROSAS, E.S.R., Associate Professor of Civil Engineering
ROSCE, W., Sessional Lecturer in Accountancy
VON GRUNAU, M., BSc MA PhD Tor., Associate Professor of Psychology

WADE, P.F., BA Tor., MSc Montr., PhD McGill, Associate Professor of Decision Sciences and Management Information

WAGNER, M.-F., BSc Lycée Camille, BA MA PhD Montr., Assistant Professor of Études françaises

WAGNER, N., BFA Mt. All., MA C'dia., Associate Professor of Sculpture, Ceramics and Fibres

WAGSCHAL, M., BA Sir G. Wms., Assistant Professor of Painting and Drawing

WAJNIO, C., BA MFA C'dia., Assistant Professor of Painting and Drawing

WAINWRIGHT, B., RCA, DipFA Van. Sch. of Art, Associate Professor of Printmaking and Photography

WANG, J.C., BSME Natl. Taiwan U., MEng PhD W.Ont., Associate Professor, Centre for Building Studies

WANG, Y.H., BS National Taiwan, MBA N.Y., MS Stan., PhD Ohio State, Associate Professor of Mathematics and Statistics

WAREHAM, R.S., BA R.M.C., MA Mich., Associate Professor of English

WARREN, B., Assistant Professor of Theatre

WATERS, K.E., BA McG., MA Oxzf., Associate Professor of English

WAUGH, T., BA W. Ont., MFA MPhil PhD Col., Associate Professor of Cinema

WESTBURY, R.A., BSc PhD McG., Associate Professor of Chemistry and Biochemistry

WHEELER, D., BSc Lond., Professor of Mathematics and Statistics

WHITE, C.W., BA Rice, PhD Stan., Associate Professor of Psychology

WHITE, D., BS Ohio, MS PhD Pitt., Associate Professor of Psychology

WHITTOME, I., RCA Dip Van. Sch. of Art, Associate Professor of Painting and Drawing

WIDDEN, P., BSc Liv., PhD Calg., Associate Professor of Biology

WIESNER, W., BA W. Laur., MSc PhD Wat., Assistant Professor of Management

WILKINSON, J., BA Nott., MA R'dg., Sessional Lecturer in Teaching of English as a Second Language

WILLIAMS, B., BA Tor., MA Alta., PhD Car., Associate Professor of Political Science

WILLS, R.O., BSc Dal., MBA Windsor, Associate Professor of Decision Sciences and Management Information Systems

WISE, R.A., BA MA Calif. State, PhD McG., Professor of Psychology

WOODSIDE, B., BSc University Coll., PhD McM., Associate Professor of Psychology

WOODSOWRTH, J., BA McG., LeaL Stras., PhD McG., Associate Professor of Études françaises

XISTRIS, G.D., BEng MEng McG., DScA Montr., Ing, Associate Professor of Mechanical Engineering

YOUNG, J.W., BSc Lond., MA Br. Col., PhD McG., Associate Professor of Geography

ZAHEERUDDIN, M., BE Osem., MSc PhD Alta., Assistant Professor, Centre for Business Studies
NOTE: The following is a list of part-time faculty for the 1989 calendar year.

**FACULTY PART-TIME**

**ABRAN, H.**, Études françaises  
**ACLAND, J.**, Sociology  
**ADAMS, K.D.**, Music  
**ADL-ZARABI, K.**, Mathematics and Statistics  
**AHMAD, D.**, Biology  
**AHMED, S.**, Decision Sciences and Management Information Systems  
**ALLEN, L.**, Mechanical Engineering  
**ALLEN, W.**, Teaching of English as a Second Language  
**AMASUNO, M.**, Modern Languages and Linguistics  
**ANDREWS, J.**, Library Studies  
**APRAHAMIAN, S.A.**, Sociology and Anthropology  
**ARAGON, C.**, Psychology  
**ARES, V.**, Philosophy  
**ARROYO, J.**, Cinema  
**ASKEW, P.**, English  
**ATKINSON, C.**, Painting and Drawing  
**AUBRY, F.**, Cinema  
**AUCLAIR, M.**, Modern Languages and Linguistics  
**AYOTTE, C.**, Printmaking and Photography  
**BABINSKI, M.**, Modern Languages and Linguistics  
**BADU, Z.**, Contemporary Dance  
**BALLERIO, B.**, Études françaises  
**BALTHAZARD, P.**, Decision Sciences and Management Information Systems  
**BARCLAY, B.**, English as a Second Language  
**BARNARD, W.**, Management  
**BASSIAS, K.V.**, Physics  
**BAUGNIET, G.**, English  
**BAXTER, B.**, Printmaking and Photography  
**BAYLEY, S.**, Education  
**BEAUCHAMP, D.**, Painting and Drawing  
**BECK, J.**, Management  
**BELEROSE, S.**, Psychology  
**BELLOFF, R.**, English  
**BELTEMPO, J.**, Psychology  
**BENAROCHE, P.**, Management  
**BENOIT, J.**, Printmaking and Photography  
**BENOIT, M.**, English  
**BERAZNIK, R.**, Applied Social Science  
**BEREZOWSKY, L.**, Sculpture, Ceramics and Fibres  
**BERGERON, G.**, Cinema  
**BERGEY, A.**, Études françaises  
**BERKOK, U.G.**, Economics  
**BERNATCHEZ, E.**, Art Education and Art Therapy  
**BISSONNETTE, L.**, Sociology and Anthropology  
**BISSONNETTE, P.**, Theatre  
**BLACKBURN, H.**, Contemporary Dance  
**BLICKER, S.**, English  
**BLOCK, S.C.**, School of Community and Public Affairs  
**BLOUIN, S.**, Art Education and Art Therapy  
**BOBROW, B.**, Education  
**BOGARDI, G.**, Art Education and Art Therapy  
**BOIRE, J.**, English  
**BONKOWSKI, F.**, Teaching of English as a Second Language  
**BOOST, M.**, Electrical and Computer Engineering  
**BOTTENBERG, J.**, Modern Languages and Linguistics  
**BOUCHARD, M.**, Études françaises  
**BOUCHARD-ULUSOY, D.**, Études françaises  
**BOUMAN, H.**, Music  
**BOURGEISS, P.**, Accountancy  
**BOURQUE, S.**, Études françaises  
**BOURRET, J.J.**, Accountancy  
**BOUSKA, B.D.**, Management  
**BOZZI, M.**, Chemistry and Biochemistry  
**BRANDL, E.**, Sculpture, Ceramics and Fibres  
**BRAUER, A.**, Interdisciplinary Studies  
**BREIDYGANT, S.**, Theatre  
**BRETT, L.**, Printmaking and Photography  
**BREUER, R.**, Études françaises  
**BROWN, A.**, Electrical Engineering  
**BROWN, B.**, Mathematics and Statistics  
**BROWN, D.**, Management  
**BUCHANAN, C.**, Computer Science  
**BUJ, T.H.**, Computer Science  
**BURGESS, M.**, Communication Studies  
**BURSTEIN, S.B.**, Psychology  
**BUZZELL, J.**, Art Education and Art Therapy  
**BYRNE, P.**, Art Education and Art Therapy  
**BYRNES, T.**, English  
**CANAZANELLA, M.A.**, Modern Languages and Linguistics  
**CANZER, B.**, Marketing  
**CAPLAN, J.**, Psychology  
**CARLEVARIS, A.**, Printmaking and Photography  
**CARROLL, D.**, Music  
**CARTER, L.**, Sculpture, Ceramics and Fibres  
**CASTELINO, M.**, Accountancy  
**CASTLE, J.**, Religion  
**CAVERLY, G.**, Sociology and Anthropology  
**CHALLONS, S.**, Art History  
**CHALMERS, L.**, Theatre  
**CHAMANADJIAN, L.**, Modern Languages and Linguistics  
**CHAN, W.K.**, Mathematics and Statistics  
**CHANG SHENG, L.**, Mathematics and Statistics  
**CHATTERJEE, E.**, History  
**CHEN, P.**, Chemistry and Biochemistry  
**CHOQUETTE, M.**, English  
**CLARINI, J.**, Sociology and Anthropology  
**CLARK, D.**, Music  
**CLARKE, A.**, Leisure Studies  
**COCHRANE, G.**, English  
**COCHRANE, M.**, English  
**COHEN, E.**, Education  
**COHEN, L.**, Psychology  
**COHEN, S.**, Cinema  
**COLFORD, D.**, Management  
**COLE, J.**, English  
**CONNELLY, J.**, English as a Second Language  
**CONTOGIORGIS, M.**, Modern Languages and Linguistics  
**COOKS, F.**, Management  
**COONEY, R.**, Psychology  
**COOPER, T.**, Psychology  
**CORMAN, D.**, Printmaking and Photography  
**CROCHETIERE, M.**, Cinema  
**CRUCKSHANK, L.**, Communication Studies

EQUIVALENTS INDEX

Note: Recent curricular changes will affect some of the entries in the following lists. Students should consult with their programme adviser if they already have credits for a course which may be equivalent to another.
Curricular changes in the Faculty will affect some of the entries in the following list. Students should consult with their programme adviser if they already have credits for a course which may be equivalent to another.

Students who have taken a given course under an old number may not repeat it for credit under an equivalent number.

NOTE: The use of 'C' in the course prefix is discontinued. Unless otherwise indicated, a course previously prefixed with a C is equivalent to the identically numbered one without the C prefix.

NOTE: For old course numbers used prior to 1980-81, see Undergraduate Calendar 1984-85, or consult programme adviser.

**NOTE:** For old course numbers used prior to 1986-87 see Undergraduate Calendar 1985-86.

**NOTE:** The use of 'C' in the course prefix is discontinued. Unless otherwise indicated below, a course previously with C prefix is equivalent to the identically numbered one without the C prefix.
Credit for Courses with Statistical Content

The following courses offered by departments in the Faculties of Arts and Science, Commerce and Administration, and Engineering and Computer Science have elements in common. Students intending to register for courses with statistics content should carefully consult the regulations given below governing credits for these courses.

1. No more than 3 credits will be awarded for courses listed in Group A

   Group A
   BIOL 322, ECON 221, EXCI 221, GEOG 362, DESC 243, MATH 207, 242, PSYC 315, SOCI 212, EMAT 271

2. No more than 3 credits will be awarded for courses listed in Group B

   Group B
   BIOL 223, ECON 221, GEOG 363, MATH 243, PSYC 316, SOCI 213, DESC 244

3. Students who have received credit for MATH 242, 243 will not receive credit for courses in Group A or Group B, nor may they concurrently register for MATH 242, 243 and for courses in either Group A or B.

4. A maximum of 6 credits may be obtained from among SOCI 212, 213, PSYC 317 and the courses listed in Groups A and B.

5. Students in the 90-credit degree programme will not receive credits for both MATH 207 and PSYC 315. Extended Credit Programme students and Mature Entrants may take for credit both MATH 207 and PSYC 315, provided they take the courses in that order. Students who have received credit for PSYC 315 and 316 and who intend to register for MATH 242, 243 must first consult with the Psychology Department Undergraduate Programme Adviser.

*This course is no longer offered. Its description will be found in the 1985-86 Undergraduate Calendar.

**This course is no longer offered. Its description will be found in the 1981-82 Undergraduate Calendar.
### GRADUATE PROGRAMMES

#### DIVISION OF GRADUATION STUDIES

All graduation programmes offered by the University are administered by a particular academic department in one of the four Faculties of the University, under the general supervision of the University Board of Graduate Studies and its chair, the Dean of Graduate Studies. The programmes are described in full in the graduate calendar. Existing programmes are a reflection of research interests, of the professors and researchers on staff, and of the needs of the community served by the University. Inquiries concerning these programmes should therefore be sent to the relevant departments.

The following graduate programmes are offered at Concordia University. Major options within a programme are also listed. In most cases, courses are given in the late afternoon and evening, or in the evening only, making it possible for both full-time and part-time students to attend. Please contact the graduate programme director at the number indicated for further information.
