

Radioactive Materials / Radiation devices

sources, X-ray equipment, equipment generating magnetic field

Examples: nuclear substances such as P-32, S-35, C-14, H-3, I-125, but also LASERs, UV

Proposal title: _____

NSERC USRA Compliance Certification Checklist

For the NSERC Undergraduate Student Research Awards

This form must be completed by proposed USRA supervisors and submitted to fundingyoureducation@concordia.ca by the Submission Deadline: february 26.2021.

Student's name and Concordia ID:				
Human Participants Examples: interviews, questionnaires, observations of behaviours, use of non-public records that may contain identifying information, administration of drugs, blood samples, tissue samples, etc.			Is a new ethics application required? Yes No	
 If human participants are involved, please specify whether the research will be covered by the supervisor's certification of if the student intends to obtain their own certificate. 			(If you selected "no") Supervisor's certificate number:	
 If it is to be covered by the supervisor's certificate, please specify the file number, and whether an amendment is required to cover the student's activities. If the student intends to obtain their own certificate, they should do so as soon as possible after applying for the award. Note: Please indicate the source of funding on the ethics application. 			Is an amendment required? Yes No	
Animals All research involving animals (in labs and in the field)			Supervisor's certificate number: Is an amendment required?	
Research involving animals must be covered by a Faculty member's certificate. Please specify the file number, and whether an amendment is required to cover the student's activities.			Yes No	
Controlled Goods/Technology Examples: global navigation satellite systems, nuclear weapons, design testing equipment, tanks, munitions, ammunitions, and some firearms. The complete list as defined by the CG Regulations and the Defence Production Act (http://laws-lois.justice.gc.ca/eng/acts/d-1/page-6.html#h-19) must be consulted.				
Chemicals and other Hazardous Materials and/or Explosives Examples: flammables, solvents, combustibles, acids, corrosives, toxics, carcinogens, etc. Compressed gases and other gas cylinders; aerosols; Cryogenic gases, liquefied gases (e.g. liquid nitrogen), nanomaterials				
Biological/Biohazardous Materials Examples: bacteria, yeasts, cells, blood and body fluids (saliva, urine, etc.), tissues animals (rats, mice, etc.), fungi, virus, parasites, tissues, DNA				

In order to hold a NSERC USRA at Concordia Students/Supervisors must continuously fulfil the below listed conditions over the full 16 weeks of the USRA work term.

Please confirm that:	YES	NO
Supervisor Eligibility Do you hold a NSERC research grant - NSERC Grant Programs, NSERC Partnership Grant, Canada Research Chairs (CRC) or Canada Excellence Research Chairs (CERC) as the principal investigator or a co- investigator? Which grant do you hold?		
If not, are you authorized by Concordia to independently supervise students?		
As the supervising faculty member, you will be available on-campus or virtually for the 16 consecutive-week period beginning May 10, 2021 and not away from Concordia University on any type of leave of absence or sabbatical leave? Please note that NSERC expects the supervisor to be physically or virtually available in the lab and/or building/field site		
most of the time during the USRA period. However, it is acceptable for the supervisor to delegate the supervision to responsible persons (other professors, experienced technicians, postdoctoral fellows, or doctoral students) for short periods while s/he takes vacation or attends conferences etc.		
If your availability changes you must inform the Financial Aid and Awards Office as soon as possible and prior to April 1, 2021 since all changes in the supervisor must be formally approved by NSERC.		
Work Schedule The student will work 35 hours per week for the 16 consecutive weeks of the research project. Projects should not exceed 16 weeks.		
Students Course Load Your student will only take a maximum of one (1) course during the tenure of the USRA. In order to take one course, the student must receive written permission from the supervisor and arrange to make up the time (under supervision). This permission must be forwarded to the Financial Aid and Award Office prior to the start of the award.		
Work Site That a minimum of 75% of the student's time will be spent on University premises either on the Sir George Williams or Loyola Campuses, while a maximum of 25% of the USRA time will be spent off-premises.		
A lab, computer terminal, desk, or any work area that is not physically located on either the SGW or LOY campuses does NOT qualify as "University premises." Additionally, USRA participants may not "work from home".		
Resource Requirements All of the research space, facilities, supplies and equipment required for the project are available and the student will be appropriately trained in research techniques and safety methods.		
Supplemental Amount If you, as the research supervisor, your department or CIADI (if applicable), will provide a top-up in addition to the \$6,000.00 provided by NSERC and the \$1,500.00 from the Office of the Vice-President Research and Graduate Studies (OVPRGS)?		
If yes, and the proposed project is selected for an award, you will be required to complete a supplementary information form to provide the details regarding your top-up and the actual start and end dates for the 16-week research project.		
The deadline for participating departments to inform the Financial Aid and Awards Office of an additional top-up is <u>June</u> 1, 2021		
Please note that this checklist outlines NSERC and Concordia's policies for the USRA program and failure to comply with the could make the student ineligible for the USRA and the award could be rejected, cancelled or declined internally or by NSER
