

# Summary Table Implementation Plan:

## The programs from the *Department of Sociology and Anthropology*

(Based on the standard committee reports, completed as of 2017).

### From the 2025 Undergraduate Calendar:

*Sociology and Anthropology examine the processes of social and cultural life in diverse human societies, past and present. These core disciplines of the social sciences are closely linked to the humanities, since various aspects of culture and society concern them all.*

*The celebration of diversity — cultural, ethnic, and racial — among the students and faculty as well as in the subject matter, is a hallmark of the Department. It offers a full range of undergraduate programs, including joint programs in both disciplines.*

It is difficult at this time to limit the field of view to the 2014 period, and we provide here a snapshot of the programs when this appraisal cycle was initiated, and now. In 2014, the Department had 13 programs and 27 full-time faculty members. In 2024, the unit had 13 programs and 30 full-time faculty members.
