Additional Information to Facilitate Contract Research and Administration

Companion to the Policy on Contract Research

WHERE DO I START?

Prior to entering into discussions with potential Sponsors please contact the Research Partnerships and Innovation Unit (“RPI”) of the Office of Research (“OOR”). The RPI is a service unit of the University dedicated to assisting you with your research and creative endeavors.

WHAT KIND OF ASSISTANCE DOES THE RPI PROVIDE?

- Assist individual researchers and departments with developing an industrial profile
- Inform faculty members of contractual possibilities that are available in their area of expertise
- Review technical proposals and budgets
- Prepare and help faculty members administer contracts according to the University’s Policy on Contract Research ([VPRGS-1](#))
- Draft, review and negotiate all research related agreements, including Research Contracts, Grant, Co-Grant and Sub-Grant agreements, material transfer agreements, confidentiality/non-disclosure agreements, agreements for the use or loan of equipment or software, license and royalty agreements(“Research Agreements”).

HOW TO FIND SPONSORS?

Networking is the most successful method of obtaining research contracts. Most Members belong to associations and external committees which often include representation from the academic, public and private sectors. By making your research expertise and willingness to collaborate known within these groups you will become more attuned to the types of contracting activities available. Former students, colleagues at other institutions and research centres as well as alumni also provide good contacts.

HOW TO SUBMIT A PROPOSAL TO A SPONSOR?

A proposal may be submitted to a government agency, research institute, non-profit organization or a private industry, as a result of any of the following:

- A call for submissions to a Request for Proposal

- An unsolicited proposal
- Direct negotiations with a governmental department, a public agency or a private firm
- Negotiations initiated or undertaken by the RPI
- Public knowledge of Concordia's expertise in a given field.

In each case the proposal should be structured into three (3) main parts, namely:

- i. State of the Art Review
- ii. Technical Proposal (including a project schedule and expected deliverables)
- iii. Price Proposal (prepared in accordance with the University's Policy on Contract Research ([VPRGS-1](#)) and the budgeting guidelines provided this Handbook).

IMPORTANT THINGS TO REMEMBER

- Refer all legal document (i.e., confidentiality or non-disclosure agreements) to the RPI
- Ensure that your proposed budget respects salary amounts stipulated in the relevant collective agreement, has adequate provisions for employee benefits, GST and QST on all materials, supplies and equipment, and the appropriate rate of Overhead
- Since proposed budgets are always an estimate, it is advised to always over-estimate any costs that are unknown or uncertain. It is far easier to decrease the budget during the negotiations process rather than attempting to increase the amount after the fact to cover unforeseen expenses
- Whenever possible, present the Sponsor with a firm lump sum price
- Communicate any special Intellectual Property concerns to the RPI at the outset of discussions with a Sponsor (i.e., use of the intellectual property by a student for their thesis).

FINANCIAL ADMINISTRATION OF CONTRACTS

Once your Research Agreement has been signed by all parties, the OOR will provide a copy to Restricted Funds (RF) in Financial Services who shall open a research fund in your name for your project.

Additional information and financial assistance are available through [Financial Services](#).

RF has compiled a Researcher's Guide to Financial Management to provide researchers with information and the pertinent forms regarding the financial administration of research funds, procedures related to Human Resources & Payroll, Purchasing and Accounts Payable.

Section A - Procedures

The RPI is mandated to review, draft and negotiate, on behalf of the University, all Research Agreements. The OOR also provides assistance in the preparation of research proposals, the determination of realistic project budgets, optimal schedules for payments and submission of deliverables. In collaboration with the principal investigator (“PI”) the RPI shall strive to obtain the most favourable contractual terms and ensure that the Research Agreement complies with all relevant University policies and guidelines.

The University enters into Research Agreements on behalf of Members. Only those Research Agreements signed by a duly authorized representative of the University per the University’s *Policy on Contract Review, Signing and Required Approval* (BD-1) shall be recognized and administered by the University.

By adhering to the relevant University policies and these procedures, Members derive the following benefits:

- coverage under the University’s insurance policies
- access to various University services, including financial, payroll, purchasing, human resources and legal
- a share of recovered overhead revenue
- official recognition of the research activities with respect to professional objectives.

1. SUMMARY OF STEPS

The following steps summarize the expected sequence of actions which will facilitate the negotiation of any Research Agreement to which the University will be a party and signatory.

Actions expected of the PI:

1.1 Promptly inform the RPI of an upcoming research project (“Project”), including:

- subject/title of the Project
- name of Sponsor(s)
- expected start and end date.

1.2 Prepare a description of the Project (“Scope of Work”) detailing:

- the research objectives
- schedule
- deliverables/milestones
- cost.

1.3 Complete appropriate [internal approval form](#) and obtain all required signatures at the Department and faculty level. This form serves three (3) purposes:

- it details the demands that the Project will place on University facilities, services and equipment
- it serves as an attestation from the Member that all necessary certifications with respect to research involving humans, animals, hazardous materials and/or controlled goods have been obtained
- it ensures that all levels of the faculty (Centre Director, Chair, Dean) are informed of and have accepted the proposed Project.

A completed and duly signed internal approval form must be received by the RPI prior to the signing of a Research Agreement.

Post-Award Administration:

- 1.4 Once a Research Contract has been signed by the University the RPI prepares and issues a "Contract Data Sheet", summarizing the Project timelines, funding, technical reporting and financial schedules. Copies of the duly signed internal approval form, the contract and of the Contract Data Sheet are sent to the PI and to RF.
- 1.5 RF will issue and communicate a Banner fund number.
- 1.6 RF will ensure invoicing and collection of payments, in accordance with the contractual terms and conditions.
- 1.7 The RPI acts to ensure the timely submission of expected deliverables and to facilitate the resolution of problems that may arise during the term of a Research Contract and negotiate any amendments as may be required.

Section B – Overhead

In performing a Project, the University incurs costs which cannot be itemized and which are commonly termed indirect costs. These include but are not limited to:

- maintenance cost for installations and equipment (heating, lighting, ventilation, air conditioning, cleaning, telephone)
- depreciation of University installations and equipment
- administrative costs for central and departmental services
- insurance costs.

Overhead means the indirect costs recovered or applicable in relation to services provided by the University for the performance and administration of a Project.

Budgeting for Overhead

When preparing the Scope of Work, the PI must ensure that the Project budget provides for the recovery of all direct and indirect costs associated with the execution of the Project.

A PI is required to contact the RPI prior to submitting a budget estimate to a potential Sponsor.

Federal government Research Contracts issued by the Department of Public Works and Government Services Canada (“PWGSC”, formerly DSS) require that Overhead be stated as a separate line item independent of salaries.

There are a number of Sponsors who do not accept Overhead as part of a cost proposal. For Research Agreements with such Sponsors, it is recommended that all salary rates quoted (faculty and non-faculty) include employee benefits and Overhead rates.

For example:	Salary (10 days x \$100/day)	\$1,000
	Employee Benefits (17.52%)*	<u>\$ 175</u>
	Subtotal	\$1,175
	Overhead at 40% Total Direct Cost	<u>\$ 470</u>
	Total	\$1,645
Rate quoted to Sponsor: 10 days x \$164.50		<u>\$1,645</u>

* Rates subject to change, please confirm rates with RF prior to submitting a cost proposal.

Overhead rates

Type of Activity/Agreement	Sponsor	On-Campus [^] Rate	Off-Campus [★] Rate
Contract Research	Industry	40% of TDC †	20% of TDC †
	Federal Government (PWGSC)	65% of Salaries & Employee Benefits + 2% of travel costs	30% of Salaries & Employee Benefits + 2% of travel costs
Service	Any	20% of TDC †	N/A
Consulting	Any	10% of TDC †	N/A
Sub-Grant, Co-Grant or Negotiated Grant	Any	15% of TDC †	N/A
Contribution Agreements	Federal or Provincial Government	15% of TDC †	N/A

† TDC - Total Direct Cost means the total direct costs to perform the work anticipated under a Research Agreement minus external subcontracts in excess of \$10K each.

[^]On-campus means work performed on the premises of the University using the University's facilities, staff or equipment.

[★]Off-campus means work that is not performed on the premises of the University and does not entail the use of University resources beyond the services of the OOR and/or Financial Services, students, staff or other University personnel i.e., work carried out at a Sponsor's facility or at another institution. The charging of off-campus rates requires the prior approval of the Department Chair and Dean and must be clearly documented in the form [OOR101](#).

Retention of Overhead

The University will retain Overhead, in full, at the start of a Project. The amount of Overhead calculated at the outset for a lump sum Research Contract (as shown in the form [OOR101](#)) is the amount which will be retained by the University, regardless of any eventual surplus.

Exceptions and Waivers

There are certain cases where the use of University facilities is minimal in carrying out a Project or a Sponsor's policies do not recognize Overhead as an admissible expense. In such cases, a reduced rate or a waiver of Overhead may be agreed to, subject to the following procedure:

- The PI will send a written, detailed list of all University resources required to complete the Project along with a justification for special Overhead dispensation to the Dean, with copy to his/her Department Chair and Centre Director (if applicable), and to the VPRGS_ for consideration
- The Dean shall make a written recommendation to the VPRGS within two (2) weeks of receipt of the written request from the PI
- A final decision will be communicated by the Office of the VPRGS to the PI within two (2) weeks of receipt of the Dean's recommendation; if necessary, a meeting (including the Dean's and the VPRGS's representatives) will be convened to decide the Overhead rate to be charged, where applicable.

Distribution of Overhead

Overhead retained from Research Contracts is distributed by RF on an on-going basis, in accordance with the following distribution ratio:

	% Distributed
University Operating Budget	50 %
Faculty Research Fund	25 %
PI General Purpose PI Fund	20 %
VPRGS Research Support Fund*	5 %

* *This fund has been set up for the support and encouragement of research and commercialization activities.*

Section C - Honorarium

Honorarium Payment Mechanism

During the term of a Research Contract, a PI may claim a portion of honorarium subject to the receipt by the University of corresponding payment from the Sponsor.

Payment of the final installment of honoraria will follow acceptance of the final report/deliverables and receipt of the final payment from the Sponsor.

The payment of honoraria will be initiated by the PI by sending a completed form [OOR103](#) (Request for Payment of Honorarium - Contracts) to the OOR.

Following approval by the Associate Vice-President, Strategy and Operations, Office of the Vice-President, Research and Graduate Studies, the form OOR103 shall be forwarded to RF for verification and processing of payment.

There are two (2) options for payment of an honorarium:

Option 1	O R	Option 2
Payment of honorarium directly to the PI via Payroll		Deposit of the equivalent sum into a General Purpose PI Account

Option 1

Honoraria paid directly to a PI shall be considered employment income and appropriate deductions will be made at source.

Option 2

If a PI does not wish to receive the honorarium as employment income, he or she may choose to have the funds deposited into his/her General Purpose PI account to support future research endeavours.

1. DEFINITIONS

1.1. Definitions. In this Agreement, the following terms will have the following meanings:

“Business Day” means any day other than a Saturday, Sunday or statutory holiday in the Province of Quebec;

“Confidential Information” means any information which is confidential in nature or that is treated as being confidential by Disclosing Party, whether such information is or has been conveyed to Receiving Party orally or in written or other tangible form, and whether such information is received or accessed by Receiving Party, directly or indirectly, such as in the course of discussions or other investigations. Receiving Party shall provide Disclosing Party with prompt written notice of such requirements so that Disclosing Party may seek a protective order or other appropriate remedy and/or waive compliance with the terms of this Agreement, which waiver may not be unreasonably withheld. In the event that such protective order or other remedy is not obtained, or that Disclosing Party waives compliance with the provisions hereof, Receiving Party agrees to furnish only that portion of

3.1.5 information of which Disclosing Party has authorized the unrestricted disclosure.

4. NO IMPLIED OBLIGATIONS

Unless a written agreement between the Parties with respect to the Purpose is executed, if any, and except for the matters specifically agreed to herein, neither party will be under any legal obligation of any kind whatsoever with respect to the Purpose or otherwise by virtue of this Agreement or any written oral expression with respect to the Purpose by any of their respective directors, officers, employees or agents.

Therefore, Receiving Party agrees that in the event of a breach or threatened breach of Receiving Party's confidentiality obligations hereunder, Disclosing Party will be entitled to specific performance and injunctive relief as remedy for any such breach or anticipated breach without the necessity of posting security. Any such relief shall be in addition to and not in lieu of monetary damages.

10.5 Waiver. A term or condition of this Agreement can be waived or modified only by written consent of both Parties. In the event of a deferment of a thesis for distribution or publication, it is understood that Concordia's license to communicate, loan, and/or distribute shall only take effect as of the expiry of the agreed upon deferment period.

Copies of relevant Sponsorship Agreement(s) shall be made accessible to the Researcher/Student by Dr. [REDACTED] upon receipt of a written request by the Researcher/Student.

Concordia's Office of Research shall be immediately informed of such intended use and shall be provided with a copy of the written permission of the rightful owner of the Intellectual Property in question.
11. The Researcher/Student understands and recognizes that irreparable injuries may be incurred by Concordia in the event of any breach of any term of this Agreement such that ordinary remedies available at law for damages may be inadequate to protect Concordia or its stakeholders against such breach. The Researcher/Student therefore agrees that, in the event of a breach of any term or terms of this Agreement, Concordia shall be entitled, in addition to such other remedies, damages, and relief as may be available under applicable law, to the granting of injunctive relief without proof of actual damages.

"Confidential Information" means any information which is confidential in nature or that is treated as confidential by a Party and that is furnished or transferred by or on behalf of such Party (the "**Disclosing Party**") to the other Party (the "**Receiving Party**"), whether such information is or has been conveyed verbally or in written or tangible form, and whether such information is acquired directly or indirectly such as in the course of discussions or other investigations by the Receiving Party, including but not limited to, scientific, technical, financial or business information, data, ideas, concepts or know-how, formula, analysis, process, design, sketch, photograph, plan, drawing, specification, sample, report, study, finding, prototype, invention, patent application, and in particular shall also include, any register, lab book, pre-development result and/or other research data and result arising from the Project that is considered and treated as being confidential by the Disclosing Party. Confidential Information disclosed in tangible or electronic form may be identified by Disclosing Party as confidential with conspicuous markings, or otherwise identified with a legend as being confidential, but in no event shall the absence of such a mark or legend preclude disclosed information which would be considered as confidential by a party exercising reasonable judgment from being treated as Confidential Information by Receiving Party. Where the information is disclosed verbally or visually and the Disclosing Party requires that the Receiving Party maintain the confidential nature of the

information, the Disclosing Party shall express a verbal statement of confidentiality at the time of disclosure together with confirmation in writing within thirty (30) days of such disclosure.

In the event that such protective order or other remedy is not obtained, or that Disclosing Party waives compliance with the provisions hereof, Receiving Party agrees to furnish only that portion of Disclosing Party's Confidential Information which is legally required and to exercise best efforts to obtain assurances that the information disclosed will be treated in confidence.

Receiving Party agrees that Disclosing Party may be irreparably injured by a breach of this Section 12 and that Disclosing Party may be entitled to seek equitable relief, including injunctive relief, specific performance and any other relief that may be available from any court to prevent breaches of this Section 12 and to enforce specifically the terms and provisions hereof in any action instituted in any court having subject matter jurisdiction, in addition to any other remedy to which Disclosing Party may be entitled at law or in equity in the event of any breach of the provisions hereof. DECLARATION OF INVENTION

*The purpose of this form is to notify the University and CUFA of your potential invention and any relevant sponsorship and publication history. A copy of **PART I** of this form will be forwarded to CUFA, while **PARTS I and II** will be used by the University to initiate appropriate procedures. This form should be submitted when something new and useful has been conceived or developed, or when unusual, unexpected or unobvious research results have been achieved and can be used. Please attach additional pages where space provided for answers is insufficient.*

PART I

Inventions may include new processes, software, methods, products, apparatus, compositions, living organisms or improvements or new uses of existing inventions. In deciding upon a title for the invention, please use a brief descriptive title to assist in identifying the invention.

Title of Invention :

Declarant's Name:	Declarant's Department:

Date of Declaration:

Section 1. Concordia Inventors (including declarant)

Please list all Concordia-based inventors. For the sake of clarification, an inventor is an individual who has conceived or contributed an essential element of the invention, either alone or jointly with others, during the evolution of the concept or reduction to practice.

An inventor will therefore have made an inventive contribution. To give an example, testing a prototype is not an inventive contribution, while contributing ideas which lead to the improvement of the invention once the testing has been carried out, would be considered an inventive contribution. In the context of the invention which is being declared, "inventor" shall refer to any co-inventor where there is more than one inventor.

Please reproduce this page 2 (Concordia Inventors) as often as required if there are more than two Concordia inventors.
