

CAE Immersion: Launch your future!

Registration period

April 17 – 28, 2023

Are you looking to learn more about real-world work experience in a high technology company? Would you like to get some insight about the different career paths you can embark on?

If so, then participate in our [CAE Immersion](#) program to set your future career in motion!

CAE is proud to partner up with the Concordia Institute for Aerospace Design and Innovation (CIADI) to offer this unique, three-week virtual program.

Why should you participate?

CAE Immersion will prepare you for the workforce and will allow you to have a better understanding of various business realities as well as the challenges and opportunities facing innovation and technology today.

This program is an opportunity for students to exchange with industry experts, and learn about product innovation and cutting-edge development techniques, in a High Tech aerospace company, through interactive workshops and self-paced activities.

CAE Immersion is part of the work-integrated learning initiatives offered by CAE.

Eligibility conditions

- ❖ CAE Immersion is intended for full-time students pursuing a university degree in the following programs: Aerospace Engineering, Mechanical Engineering, Computer Science, Computer Engineering, Software Engineering and Electrical Engineering
- ❖ This program is open to Canadian citizens, permanent residents, and those with a refugee status.
- ❖ Students who register for this program should ensure it does not interfere with any other commitments (i.e., summer courses, internship), as participants are expected to attend all training activities and workshops during the allocated time slots.
- ❖ **Participants must be available on Tuesdays, Wednesdays, and Fridays from May 9 to May 26 (from 8:00 AM to 12:00 PM).**
