

Scientific Poster CONTEST

for Master's and Ph.D. students

MONTREAL SUMMIT ON INNOVATION

The Manufacturing Sector at the Conquest of the 4th Industrial Revolution

It's the dawn of the fourth industrial revolution. As businesses get smarter, connecting to each other to optimize the allocation of their resources, this revolution will certainly change their operating methods. Digitization, the Internet of things, 3D printing, and Big Data will all be key elements of the new enterprise.

In this global context, how can Québec profit from its assets and position itself advantageously in the midst of these changes? What will the Québec manufacturing plant of tomorrow consist of?

The Montréal Summit on Innovation (MSI) invites students at the university partners of the Quartier de l'Innovation to present their innovations in keeping with this theme.

Get your research work recognized by Montréal's university community, manufacturers, and supporting organizations!

WHEN AND WHERE

Project posters will be presented at the Palais des congrès from 7:30 a.m. to 6 p.m. in the exhibition hall.

To participate in the contest, you must prepare:

- A poster written in French or in English, in a vertical format, measuring 90 cm by 135 cm, mounted on Foamcore
- An interactive oral presentation, 180 seconds long at most
- Physical supporting material: simulation, demo, etc. (optional).

EVALUATION CRITERIA

The jury will base its evaluations on the following three criteria:

- The project's innovation and scope
- The precision of the objectives proposed and the expected results
- The clarity of the poster and provided explanation.

Particular attention will be paid to the quality of the scientific communication to a lay audience. The poster must be accessible.

A simple and direct style is suggested.

PRIZES

- Prizes: Two passes for MSI 2016, worth a total of \$250 (student rate)
- Winners will be invited to present their projects to all of the participants during the Summit.
- The best poster recipient team will be invited for an on-stage appearance during the programming of the MSI in 2016.

REGISTRATION

Until November 10, 2016, online, at www.smi2016.ca/contest.
