

AHSC 380: PsycInfo to RefWorks

Steps for Exporting 50 References from PsycInfo to RefWorks:

- 1) When you click the export link in PsycInfo, instead of selecting Refworks, choose the "Reference Software" option
- 2) Download and save the file – do not open it
- 3) Log into your RefWorks account and on the grey menu bar, hover over the heading "References" then select "Import"
- 4) Click the Import link, a screen will pop up
- 5) Set the "Import Filter/Data Source" to RIS format by selecting it from the dropdown menu
- 6) Set the "Database" to RIS format by selecting it from the dropdown menu
- 7) There is a field to "Select Text File", click the "Choose File" button and locate the file you saved on your computer
- 8) Then you can click the button that says import at the bottom of the pop-up window
