Welcome to Concordia

[Concordia](#) is a next-generation university, continually reimagining the future of higher education. Established in 1974, Concordia is located in vibrant and multicultural Montreal, North America's favourite student city. It is the [top-ranked university in North America founded within the last 50 years](#) and among the most innovative in its approach to experiential learning and interdisciplinary research.

Concordia's [strategic directions](#) set out a vision for the future and exemplify a daring and transformative outlook to some of the most important issues of our time.

The university annually registers 51,250 diverse and engaged students in its [Faculty of Arts and Science](#), [John Molson School of Business](#), [Gina Cody School of Engineering and Computer Science](#), [Faculty of Fine Arts](#), in [Concordia Continuing Education](#) and the [School of Graduate Studies](#). It employs more than 6,700 faculty and staff and annually secures nearly \$61.9 million in sponsored research income.

Whether in our dynamic libraries and study spaces, or our state-of-the-art labs, studios and makerspaces, Concordians learn by doing. You'll draw inspiration from the creative energy that surrounds you while creating and pursuing your own academic and personal goals. From the downtown buzz of the Sir George Williams Campus to the relaxed Loyola Campus, you'll find clubs, sports teams, professional networks and support services to balance your life, work and study.

Simon Dubé

PhD student, Psychology
2021 Public Scholar

“Concordia recognizes the need for interdisciplinary approaches and supports research that asks sensitive but necessary questions. The role of technology in human sexuality is still an uncharted area in a rapidly changing field that has long-term consequences for our species.”

Relevant research

The world is changing at a rapid pace and Concordia is committed to shaping the future through relevant research in the following key sectors:

Aerospace

Concordia is a leader in aerospace research, particularly composite material and coatings, biofuels, waste reduction, and airport operations.

Artificial intelligence

In addition to participating in an industry-led supercluster, SCALE.AI, Concordia has complementing strengths in big data analysis, systems security, supply-chain management, interface design, bioinformatics and machine learning.

Cities

Concordia is reimagining and reinventing ways in which we develop and dwell in smart, sustainable and resilient communities and cities. Researchers are paving the way for new and improved solutions in human mobility, energy efficiency, integrated design, natural resource conservation and more.

Digital arts

Transdisciplinary research connects artists, designers and engineers to foster innovation in areas of digital games, BioArt, maker culture and performing arts.

Health

Concordia’s deeply innovative approach to health research, education, policy and technology focuses on the full continuum of issues and interventions across disciplines.

Synthetic biology

Leading the way in the emerging field of synthetic biology, Concordia researchers explore cancer research, pharmaceutical development, policy implications, knowledge transfer and biomass products. Concordia is also home to the only genome foundry in Canada.

4TH SPACE

Milieux

Applied Science Hub

PERFORM Centre

District 3 Innovation Hub

Webster Library

Genome Foundry

Vanier Library

Innovation spaces

Next-generation research requires the right kind of spaces. Concordia's modern labs, libraries and sandboxes encourage our graduate students to think of their research in the context of the larger world.

4TH SPACE

Concordia's street-level living lab, science centre and exhibition space, 4th SPACE offers the public an immersive experience and an introduction to our research.

Applied Science Hub

Unveiled in 2020, the Applied Science Hub on the Loyola Campus allows our researchers to better explore agriculture, health and sustainable development.

District 3 Innovation Hub

A community dedicated to collaboration, innovation and entrepreneurship, D3 supports the inspired ideas of our students, faculty and alumni and helps them bring them to life.

Genome Foundry

The only one in Canada, Concordia's Genome Foundry is a pioneering facility that employs innovative robotic instrumentation which enables synthetic biologists to execute work at significant scales and speeds.

Milieux

Dedicated to the arts, culture and technology, this interdisciplinary institute encourages innovative exploration and cross-disciplinary research to transform our relationship with technology.

PERFORM Centre

This multidisciplinary centre houses labs, conditioning equipment and functional assessment suites dedicated to research in health, a cornerstone of Concordia's values.

Webster & Vanier Library

Our modern libraries feature bright study spaces, a Technology Sandbox, Visualization Studio and dedicated support for graduate students.

[Explore our facilities.](#)

Tanya Singh

PhD student, Marketing
2021 Public Scholar

“My expertise in evolutionary biology provides me with a unique perspective on consumer behaviour, and new ways to approach scholarly research in marketing. Concordia’s dedication to interdisciplinary dialogue and exchange is one of the many reasons I chose to complete my doctoral degree at the John Molson School of Business.”

Competitive funding

Graduate students in research programs are eligible to apply for funding for their research through awards and scholarships from various internal and external sources.

Graduate Awards Office

The Graduate Awards Office in the School of Graduate Studies organizes and disburses over \$15M in graduate funding annually, including:

- Entrance awards
- Scholarship top-ups
- Government/agency awards
- Conference expenses

The Graduate Awards Office also offers free coaching workshops in the fall and winter terms for graduate students to help them develop strong applications for external scholarships as well as one-on-one advising sessions.

Read about some of our award-winning graduate students [here](#).

[Learn how you can fund your future.](#)

Teaching and research assistantships

A number of teaching assistantships are distributed as entrance awards for first year graduate students. Other teaching assistantships can become available to students during the course of their program. Research Assistantship contracts may be offered to students by faculty members who hold research grants. Each contract is established individually between a faculty member and a student.

Benoît Eclache

Master's student, Human Systems Intervention

“At Concordia, I have had so many opportunities to develop my skills and experiment outside of my program. During my first year, I was a teaching assistant (TA), and began facilitating leadership workshops for GradProSkills. I feel really fortunate to have had these opportunities: they helped me better understand what skills I am good at, what does not interest me and what I want to improve on.”

Integrated student support

GradProSkills is a hub of resources specifically tailored to graduate students that help them achieve their academic and professional goals. The hub pools together the expertise of senior graduate students, campus services and community leaders to encourage a successful grad school experience.

Free workshops

GradProSkills offers academic development workshops throughout the year to boost communication, digital and research skills, and professional development seminars to prepare grads with the skills required for successful careers in academia and beyond.

Thesis and writing support

Students can access thesis preparation support through a series of graduate level planning and writing workshops, or by joining Meet & Write, a weekly writing session led by graduate students. GradProSkills also co-hosts the Thesis Boost Writing Retreat twice per year and coaches students for the internationally renowned Three Minute Thesis and Ma these en 180 secondes competitions.

Graduate Leadership Development Program

In today's workforce, leadership skills will make the difference in your candidature. GradProSkills offers a seven week leadership development program that covers the essentials of emotional intelligence, problem solving, negotiations, team dynamics and more, ensuring you are ready to lead your next project.

Peer support

All graduate students are welcome at the student-led, weekly GradChat a drop-in session and online community for casual conversation and networking with fellow grads.

[Browse GradProSkills' programs and resources.](#)

Fanny Gravel-Patry

PhD student, Communications
2021 Public Scholar

“The tools we use to communicate change and the pace of available technology influence how we go about our daily lives. The pandemic has particularly shown us how useful social media platforms can be in fostering care and connections. My research explores how women use these tools in relation to their mental health to better understand the relationship between health and technology.”

Additional student services

Library resources

Concordia's Webster and Vanier [libraries](#) offer dedicated support for graduate students, including research and thesis-writing guidance, as well as digital skills development.

International Students Office (ISO)

With graduate students from over 150 countries, our [International Students Office](#) is available to provide information and guidance relating to immigration documents, health insurance, financial support and community events.

Campus Wellness

Concordia offers a range of [health services](#) to support our students' physical and mental health while pursuing their studies, including on-campus health clinics, peer chat groups, Zen Dens and Wellness Fairs.

Dean of Students Office

The [Dean of Students Office](#) supports all aspects of student life beyond the classroom, including student group resources and listings, and funding for student-led initiatives.

Financial Aid and Awards Office (FAAO)

The [Financial Aid and Awards Office](#) administers government student loans.

Student Success Centre (SSC)

The [Student Success Centre](#) (SSC) provides students with the tools needed to succeed – from time management and study strategies, to building a network and fostering relationships and collaboration across the university and beyond.

[Explore all student services and resources.](#)

Laura Fraticelli

Master's student, Business Administration

“Concordia University’s MBA program bridges the gap between theory and practice with its hands-on approach to learning and its close ties with Montreal’s business community. My experience as an undergraduate in Concordia’s Liberal Arts program was highly positive and opened doors to a fascinating career in the video game industry. I chose to return to my alma mater for graduate studies because this is the academic environment where I thrive in a city known for its joie de vivre. I have confidence that the university’s dedicated team of professors and my experiences with international students will expand my business skills and help me move to the next level in my career.”

Graduate studies at Concordia

Concordia’s faculties and schools offer their own unique focus, facilities and researchers.

Faculty of Arts and Science

The Faculty of Arts and Science is home to some of the most innovative classroom teaching and cutting-edge research in Canada. Students will learn from dedicated and energized professors who support graduate students through collaboration, experimentation and creative thinking. With 60 graduate programs, numerous research centres and experiential opportunities, our graduate students flourish in a rich and vibrant research environment that supports student success.

concordia.ca/artsci

Faculty of Fine Arts

Unique in Canada, the Faculty of Fine Arts offers an unparalleled range of programs in the visual, performing, cinematic, design, digital, and therapeutic arts. Committed to integrating new technologies, traditional media and historical fine arts practices, faculty members are artists, scholars and researchers who are active on the international and national stage and equally engaged in their communities.

The Faculty has nine departments and four research centres in the heart of Montreal, surrounded by museums, galleries, cinemas, theatres and concert halls. Each year, our graduates join a large, active and thriving group of over 15,900 alumni who work, teach and create around the world.

concordia.ca/finearts

Gina Cody School of Engineering and Computer Science

Ranked among the top ten engineering schools in Canada, The Gina Cody School is home to over 10,000 engineering and computer science students and a faculty complement of 235 faculty members. The School has about 4,500 graduate students enrolled in 35 graduate programs. The Gina School of Engineering and Computer Science attract a high quality, diverse student population in all its programs

concordia.ca/ginacody

John Molson School of Business

JMSB is one of the leading business schools in the country and one of the largest in the world, with a total student population of over 10,000. The school's internationally renowned faculty members are constantly pushing the boundaries of business research and many of them have been recognized for their exceptional teaching and scholarship. Students benefit from a constantly evolving curriculum that reflects current business trends and climates.

Geneviève Grégoire-Labrecque
PhD student, Individualized Program (INDI)
2021 Public Scholar

“The INDI Program’s interdisciplinary support allowed me to pursue interconnected lines of research that would not have been possible in a traditional graduate program. With access to experts in different fields, I can explore how youth are shaped by, and are shaping responses to, participation in environmental and climate change activism through their high school experience.”

Forge your own research

Concordia’s unique Individualized (INDI) and Humanities (HUMA) programs foster innovation by encouraging cross-disciplinary research and new avenues of discovery at the graduate level. Our independent studies option, cotuelles, and interdisciplinary spaces allow for unique approaches of research.

The Individualized Program (INDI)

The INDI Program offers both master’s and doctoral degrees and seeks students whose research combines disciplines to further expand knowledge. Successful applicants to the INDI Program have secured two or more supervisors from different fields and have developed a strong research proposal. Learn more about [INDI](#).

The Humanities PhD (HUMA)

The [HUMA](#) program, based in the Centre for Interdisciplinary Studies in Society and Culture (CISSC), is a doctoral program that encourages cross-disciplinary exploration within the Humanities.

Joint PhDs/Cotuelles

Eligible students can apply for a [cotuelles](#), which is a joint supervision agreement between two universities at the doctoral level, allowing students to get a PhD delivered and recognized by both institutions.

Independent studies

Eligible applicants may also enrol as Independent Students to truly customize their graduate education. Note that some services and programs may not apply to students choosing this option.

Interdisciplinary spaces

Concordia is home to interdisciplinary centres, institutes and [spaces](#) to foster innovation and discovery beyond traditional approaches, most recently the [Lachine Canal Studio](#).

Bonjour Montréal

Once again, Montréal has been voted the *Top Student City in North America* for 2022, and is known for its vibrant culture, affordability and historic beauty. The city has been shaped by the Indigenous, French, and British peoples, and has flourished to become a multilingual metropolis for over three million people from all over the world.

A hub for education and research as well as art, Montréal's expertise in health, aerospace, biotechnology, cybersecurity and intelligent cities means our students benefit from an extended network across four major universities, corporations, think tanks and non-governmental organizations.

An island on the shores of the St. Lawrence river, Montréal's core surrounds the central park of Mount Royal and spreads outward in a collection of unique, multicultural neighbourhoods and natural beauty connected by a modern, affordable transit system. Montréal is beautiful and bustling throughout the year, famous for its hot summers and snowy winters.

French language support

Concordia offers numerous opportunities for our students to improve their [French language](#) skills, including free workshops, peer conversation sessions and courses.

Housing Support

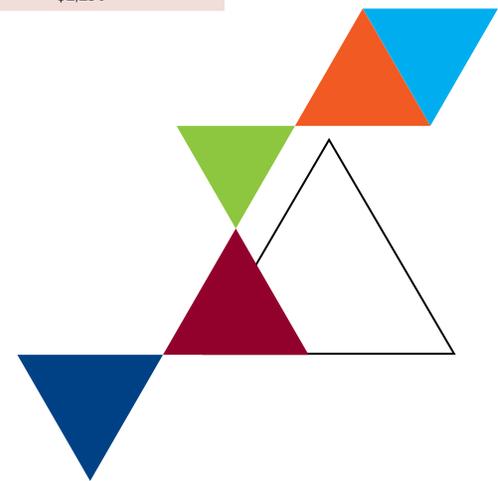

Students seeking information or resources about off-campus housing in Montréal can learn more [here](#).

Costs of living

Below are approximate costs for 12 months.

Apartment rental and utilities	\$12,060
Food and domestic supplies	\$4,800
Public transportation with student discount	\$648
Goods and services (entertainment, personal care, etc.)	\$4,248
Books and supplies	\$2,250

Visit concordia.ca/montreal.

Space Concordia

Space Concordia is a student society at Concordia that challenges its members to tackle exciting space and aerospace projects, with awesome results. Space Concordia wins awards at national and international competitions and helps showcase the university and our talented students. Space Concordia teaches and trains emerging scientists and engineers through hands-on work and an attitude of persistence and collaboration.

The Concordia community

With students from over 150 countries, Concordia celebrates the many communities that make up our vibrant culture by supporting student groups and alumni networks. Additionally, each faculty and program offers additional unique opportunities for graduate students to engage with their peers and the public.

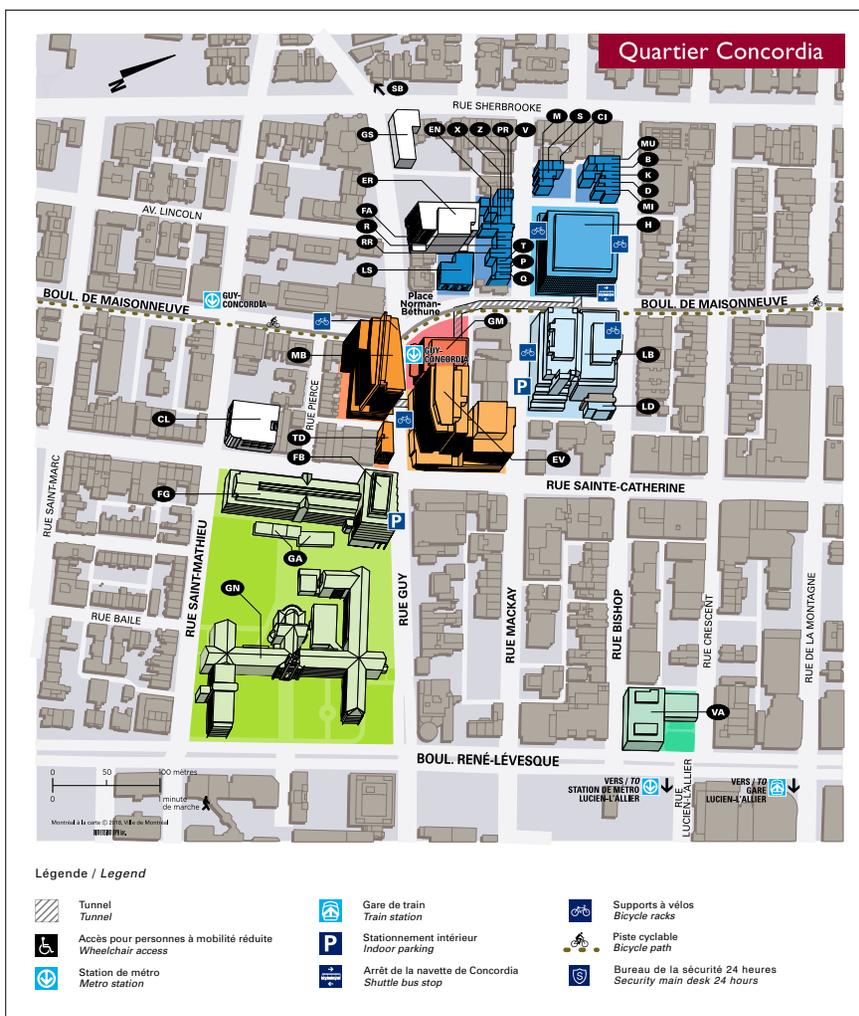

Global alumni

With 240,000 graduates around the world, Concordia alumni are shaping the future in academia, industry and government. Learn more about the broader Concordia [family](#).

Students' groups and associations

An international hub for students of all backgrounds and cultures, Concordia is home to myriad student-led groups dedicated to charities, social change, sports, politics, hobbies and extra-curricular pursuits. Find new [connections!](#)

Tuition and admissions

Tuition

Tuition fees may differ based on the program and your student status. Below are **approximations** of the average cost of program types by student home country:

Program Type	Quebec Residents, France, French Belgium	Canada	Other International students
Certificate	\$2K	\$5K	\$10-16K
Diploma	\$3-4K	\$10K	\$21-28K
Master's (45 credits)	\$6-7.5K	\$15K	\$30-42K
Master's (60 credits)	\$7-8.5K	\$20K	\$40-55K
Doctoral	\$12K	\$12K	\$53-75K

Use our [tuition calculator](#) for more information. Concordia reserves the right to modify the published scale of tuition and other fees without notice.

Admissions

Below are the minimum academic requirements for admission. Applicants are **strongly** advised to visit their preferred program's website to learn about additional requirements **before** beginning the application process.

Diploma and graduate certificate programs require a bachelor's (or equivalent) with high standing.

Master's programs require a bachelor's (or equivalent) with high standing (e.g., with Honours, specialization, or a GPA equivalent to B average).

PhD programs require a master's (or equivalent) with high standing (e.g., with Honours, or a GPA equivalent to B average).

Learn more about [admissions](#).

Territorial acknowledgment

Concordia University is located on unceded Indigenous lands. The Kanien'kehá:ka Nation is recognized as the custodians of the lands and waters on which Concordia gathers today. Tiohtià:ke/Montréal is historically known as a gathering place for many First Nations. Today, it is home to a diverse population of Indigenous and other peoples. We respect the continued connections with the past, present and future in our ongoing relationships with Indigenous and other peoples within the Montréal community.
